

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Without fail if we could know the actual money loss occasioned in one way or another by that untimely Washington blizzard we would be staggered.

Best county house in the state, says George Clapperton, of Grand Rapids, member of the state board of corrections and charities.

The lower state papers report that the grand jury investigation into the binder twine plant at the Jackson prison has, as far as can be learned, shown everything about the plant to have been handled in a businesslike manner.

We gather from President Taft's address that his administration will resemble ex-President Roosevelt's in the fundamentals. Such differences as are noted will be chiefly in methods.

Senator Moriarty sprang the latest novelty in the New York primary elections styles on the upper house this week, but the senators failed to grasp it.

Former Warden Armstrong will talk freely, provided he is guaranteed immunity from prosecution. Whether his testimony would be worth that price depends in no small measure on what he might tell about other people.

The Associated Press again demonstrated its ability to cope with big occasions in its handling of the inauguration of President Taft.

One man in attendance at the inaugural ceremonies at Washington was not as happy as he looked, for he put up a good front of cheerfulness.

The prisons and prison wardens of the state are being given a lively run of late weeks. Warden Fuller of Ionia is now the object of criticism on the charge that he kept a convict some weeks after the date on which his dismissal on parole was ordered by the pardons board.

Members of the board say that such detention was illegal. Warden Fuller replies that it has been the practice at Ionia for ten years, under his administration, to hold up convicts for whom paroles have been granted.

Further, Warden Fuller says the members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

Members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

Members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

Members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

Members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

Members of the board of pardons were cognizant of this practice. The practice in the other prisons of the state appears to have been different.

present case between Warden Fuller and members of the pardons board. Perhaps there has been some little misunderstanding that will be cleared up satisfactorily.

THROUGH THE SENATE. The Dickinson direct nominations bill Thursday passed the senate in substantially the form in which it was introduced.

There is no provision for direct nominations in all the counties, but there is a provision which, in practice, will doubtless amount to the same thing.

The house has a primary bill of its own, which was trotted out for a little exercise Thursday. This measure bears the name of Representative Colby.

It resembles in many points the Dickinson bill, but unlike that measure provides for the nomination of all the candidates on the state ticket in direct primaries.

There is no need to apprehend any serious friction over the direct nominations measure. The attitude of the senate toward the Dickinson bill appears to have been fair and reasonable.

Senator Stephenson has been re-elected for a six-year term. His \$107,000 primary campaign has thus borne the expected fruit.

Senator Stephenson has been re-elected for a six-year term. His \$107,000 primary campaign has thus borne the expected fruit.

COMMUNICATED. Editor Mining Journal, Dear Sir: The article on the final page of your yesterday's issue sets forth the law in the case as far as the facts have been given to the public, but there are some facts that the people have a right to know that have not been published.

First, Mr. Byrne stated that there was a tacit understanding between the officers and the saloon men that they were not to be arrested for violation of the law and that he doubted the right of an outsider to cause their arrest under the circumstances.

Second, Mr. Byrne stated that if any clergyman of Marquette had come to him with the same evidence he would accept the complaint and issue the warrants, but that I was hunting notoriety and that he would not help me to get any.

It is a small matter to me that the complaints have been presented and the witnesses named it becomes the duty of the justice to subpoena the witnesses, if there be any doubt about the reliability of the complaining witness, and ascertain for himself if there is reasonable cause to believe that the offense has been committed.

It is a small matter to me that the complaints have been presented and the witnesses named it becomes the duty of the justice to subpoena the witnesses, if there be any doubt about the reliability of the complaining witness, and ascertain for himself if there is reasonable cause to believe that the offense has been committed.

PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry—making it pay, yet poultry, exactly the same as with stock—horses or cattle—you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACKAGES FOR \$1.00.

City Brevities

Today's weather: Threatening weather, with probably snow; rising temperature. Yesterday's temperatures: 7 a. m., 10 degrees; noon, 30; 7 p. m., 27; maximum, 32 degrees; minimum, 9.

Richard Flannigan, of Norway, spent yesterday in Marquette.

L. M. Van Buren, of Appleton, Wis., formerly a resident of this city, called on old friends yesterday.

Lieutenant Olson will speak at the Salvation Army hall on the subject, "A Heavenly Messenger's Message," this evening.

Gordon Farwell, formerly with the Northwestern Collection agency, has gone to New Orleans for a short visit, after which he will go to Seattle, Wash., his former home.

Justice and Mrs. S. E. Byrne left last night for Chicago and a trip through the East. They will visit Baltimore, Washington, New York, Boston and other eastern cities.

Herbert Moninger, of Cincinnati, a specialist in Sunday school work, will speak at the Methodist church Friday, March 26, under the auspices of the Michigan Sunday School association.

A pool and billiard tournament is in progress at the Marquette club, which is attracting considerable interest among the members. Games are not played according to any schedule, but at the convenience of the participants, all of whom are members of the club.

Birth and Death Record—Twenty-one births and seventeen deaths were reported to the city recorder for the month of February. In February, a year ago, there were twenty-five births and twenty-one deaths recorded.

Victory for K. of C.'s—For the second time this season, the Knights of Columbus basketball team defeated the Ferguson Business college team at Armory Hall last night. The final score was 15 to 9 and the game was fast and furious from start to finish.

L'Anse vs. City Team—Everything is in readiness for the basketball game between the L'Anse team at Legion Hall tonight. Klumert's boys' band will give a concert and Sullivan's Peerless orchestra will furnish music for all who wish to dance.

Normal Team Won—The Normal school basketball team defeated the Ishpeming Cleveland Club team at the Normal gymnasium last night to the tune of 21 to 14. The game was fast, free from roughness and was exciting to the spectators. Eckleberry, of the Ishpeming high school, acted as referee, and Professor Mills, of the Normal, was the umpire.

At the Hospitals—The one-year-old daughter of Mr. and Mrs. C. B. Catlin, August Anderson, of Princeton, Mrs. Charles Mellin and Mrs. John Hill, of Baraga, underwent operations at St. Mary's hospital Thursday, and Miss Alice Conlin, Friday. Nick Sien, of Sibley, died of typhoid fever at St. Luke's hospital, and John Cameron, 223 Mesnard street, and Mrs. M. W. Waters, 325 West Park street, are recent patients at the same place.

Orchestra Disrupted—It is reported that the Peerless orchestra has been disrupted and that the orchestra of the city yesterday, and is understood to have under consideration the leadership of the Cheney faction of the late orchestra.

Basketball League—A movement is on foot toward organizing a four-team basketball league in this city. A meeting was recently held, at which representatives from the City, Ferguson Business college, El Portans and Knights of Columbus teams were present. A six-team league has been organized in the copper country with successful results, and it is thought that a league in this city would create more general interest and support for the sport than has been the case in the present haphazard method of arranging games with no regular schedule. Another meeting is to be held next week, at which the organization of the proposed league may be effected.

Water Board Meeting—At the meeting of the water board held last evening, the special tax levied on the property owners residing on Presque Isle avenue, for the water main laid in that street, was rescinded. This action closes a fight that has been going for several months, inasmuch as the main was on the outskirts of the city, the water board, at the time the main was ordered built, decided that the property owners directly benefited by the main should pay about one-third of the cost of construction. This was the first time that such a special levy had ever been made by the water board, and the property owners affected by the main objected and, in most cases, refused to pay the assessment or to take water from the main. The action of the board last night will be likely to result in everything going smoothly from now on, as far as this matter is concerned. The board ordered fifty more water meters to be purchased, in order that they might be on hand when asked for by taxpayers. The question of water purification by treating with ozone, which method is in use at Lindsay, Ont., was discussed at length by the board, but no action was taken as to its adoption in this city, until the system can be further investigated. H. H. Williams, who was appointed a member of the water board by the mayor a few days ago, sat with the board for the first time.

INSURE WITH PETER WHITE & CO. The regular Saturday night hop will be given tonight at Fraternity Hall. Music by the Peerless orchestra. (3-5-21)

DIRTY BLOCK WOOD At \$6.00 per load, \$3.25 per half load, delivered to any part of city. Consolidated Fuel & Lumber Co. (9-23-11)

INSUFFERABLE CONCEIT. That variety of persons who are trying to prove that they are just as good as you are add tons of the fatigue of society.—Newburg Union.

The church does not lead folks to heaven by looking like a funeral.

MOROSS DENIES THE YUNGBLUTH BURGLARY

TRIAL CONTINUED UNTIL THIS MORNING TO ALLOW DEFENSE TO GET ANOTHER WITNESS.

The Moross burglary case, which was on trial in circuit court yesterday, has not yet gone to the jury, as the defense asked for an adjournment until this morning, in order to secure another witness, who, through a mistake had not been subpoenaed. The request was granted by Judge Cooper and court adjourned at 4 o'clock in the afternoon.

Some difficulty was experienced in getting a jury for the Moross trial, as many of the prospective jurors examined stated that they had already formed an opinion as to the guilt or innocence of the accused. The testimony introduced by the prosecuting attorney was much the same as that offered in the Peterson trial the day before, and most of the Peterson case witnesses were again called to the stand. The evidence brought out by the prosecuting attorney went to show that Moross had entered the residence of A. J. Yungbluth and had taken therefrom diamonds and jewelry worth over \$400. Witnesses testified that to their best belief the door through which Moross entered the Yungbluth house was closed. Peterson, the man convicted of larceny as an accomplice of Moross in this alleged burglary, which was put on the stand to testify against Moross. He said that he saw Moross enter the storm door of the Yungbluth house, and a few minutes later saw some one turn on the light inside; that Moross came out a few minutes later and the next morning showed him the jewelry, which the Yungbluths have identified as their property, stolen that night. The statement made yesterday, regarding Peterson having helped the officers to locate all the missing jewels was not entirely correct, as the officers had all but one of the diamonds located before Peterson would make any statement regarding the robbery. However, Peterson did tell them that one of the diamonds was at a bank in Calumet, where it later was found.

Moross' Story. The defendant, Richard Moross, was the first witness put on the stand by Mr. Madigan and Mr. Button, the defendant's attorneys. Moross said that on the night of the alleged burglary, he got off the 6 o'clock train at Negaunee and visited several saloons, and talked with a number of people, and about 9 o'clock started for Ishpeming, where he hunted for Peterson, and finally found him talking to Mr. Weiss, a cigar salesman, of Munising. He stated that he was never at the Yungbluth residence, except once last May, when he was sent there by W. S. Adams. He was not asked to explain how the jewelry came to be in his possession. The only questions asked by Mr. Bell in cross-examining Moross, were with reference to his prison record, the prisoner admitting that he had spent twenty-two years of his life in state's prison, having served four terms, three for burglary and one for larceny from a dwelling.

As Mr. Weiss was ill, his deposition was admitted as evidence. The deposition stated that Mr. Weiss had seen Moross and Peterson in Ishpeming, under the circumstances described by Moross, but that he did not know when it was, further than that it was some time last fall.

Miss Edith Murray was called and testified that Peterson had given her a buckle, worth about ten cents, but her testimony was not material to the case. After several minutes of whispered conversation between Moross and his attorneys, Mr. Madigan asked that court be adjourned until this morning, as a mistake had been made and one of their material witnesses, who lived in Negaunee, had not been subpoenaed.

Northern Normal Notes.

There will be no basketball game with the College of Mines, as it has been found impossible to make satisfactory terms so far.
The basketball team will go to Escanaba Friday, March 12th. An effort will be made to secure a party to accompany the boys.

position which was designed to be the grave of this splendid citizen of the republic, however, served, instead, to place him in the highest position in the land and, also, to take the power from the hands of his enemies. The speaker then related how President Roosevelt carried out, by promise, McKinley's policies during the remainder of the first administration, for "Mr. Roosevelt is a man who keeps faith; if he pledges him- self to protect, he protects; but if he promises to smash, he smashes." When, however, he was elected the second time Mr. Roosevelt began to carry out the "Roosevelt policies." He has done much Mr. Russell declared, to raise the standard of American citizenship, by crushing whatever he has been able to crush, or wrong, or graft; and although he is retired from office this week, he is not yet through with his work. The speaker paid a high tribute to the character and ability of the incoming president, and then showed as a last word the duty of the good citizen in the matter of voting, of attending the primaries and using every effort to influence others in choosing the right men for whom all are to vote.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:
"A better feeling prevails today, and prices recovered considerably from yesterday's depression. There was not much news of importance, and from the action of the list today it would seem that the selling witnessed during the last half hour yesterday was mostly in the nature of an effort by interests in favor of lower prices to unsettle the market and cause liquidation. The firmer tone of the London market, together with comments of a favorable character on the president's inaugural address, served the purpose of inducing short covering and buying on a moderate scale by outsiders. Taken as a whole the list seems to have assumed a waiting attitude, with activities for the most part confined to such specialties as Kansas City Southern and the Wisconsin Central issues, on which higher prices are predicted."
Closing prices were as follows:
Anal. 87 1/2 N. & W.
Amal. 82 1/2 N. Y. C.
Am. Lead. 27 1/2 N. Y. E.
C. & P. 81 1/2 N. Y. E.
C. & P. 81 1/2 N. Y. E.
C. & P. 81 1/2 N. Y. E.

commission houses. The close was extremely weak, 1% to 2% lower. The May opened at 115 1/2 @ 117 1/2; highest, 117 1/2; lowest, 115 1/2. Closing, 115 1/2 @ 117 1/2. The May opening was liberal realizing, resulting in considerable weakness all day. The market was also bearishly affected by the poor shipping demand. Cash houses were free sellers. The close was weak, at net declines of 1/2 to 1%. The May opening was highest, 68 1/2; lowest, 67 1/2; closing, 67 1/2 @ 68 1/2.

Outs—The sentiment was bearish all day. Local longs were free sellers throughout the session. The market closed 1/2 to 3/4 lower.

Paine, Webber & Co.'s Wheat Summary
Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market:

"May wheat closed nearly three cents lower than yesterday and July at a like rate more than a two-cent decline. Both months had a little recovery from the extreme low point. The big question with the trade both early and late today was whether or not any important private settlements had been made between a big short interest, supposed to exist to eastern account, and the bull leaders. The bull leader at the close today positively denies that any such settlements have been made. The best pit observers declare that the brokers for the bull house have sold a lot of wheat to eastern account, and the bull leaders. A great portion of the selling today was no doubt for scattered holders who have been tailing on to the bull campaign. This is the second day of the reaction in prices, after a very strong advance covering many weeks. People friendly to wheat believe that the market is in a healthier position than before. People who are extremely bearish believe that the big holders have greatly reduced their lines and that the bull campaign is over. One thing is certain: the official figures on reserves and Monday must be about as low as the Snow report for yesterday or the buying side of the market will lose its chief bull argument, for the time at least. Large Argentine shipments, weak Liverpool cable and some good crop reports during the day all depressed the market."

NO STEEL TRADE WAR.
Prices of Various Products Have Simply Been Readjusted.

Cuts Not as Drastic as They Appear, the Aim Having Been to Meet Actual Conditions.

Pittsburg, Pa., March 4.—The steel trade is emerging from the chaotic conditions that followed the announcement of an open market on steel products. It has become apparent that there is to be no trade war, but that prices are now on a new basis and if some of the similar concerns which were the most aggressive in the matter of cutting the former prices, cannot now make any money by the operation of their plants, it is simply a question of suspending operations until prices advance, which is regarded as something that is sure to come within a few months. Cases where the independent are harmed greatly by the new prices are rare, and are chiefly in the making of steel pipes.

Chicago, Ill., March 5.—Illinois won the track meet tonight with Chicago, 50 to 38. The pole vault decided the most "hockey" games holding Jacobs even up to 11 feet, 9 inches. The winners were:
35-yard dash—May, Illinois; time, 10.4 2-5.
40-yard high hurdles—McCord, Illinois; time, 1:5 3-5.
Middle run—Berick, Illinois; time, 4:40.
440-yard run—Lindberg, Illinois; time, 1:53 flat.
Shotput—Koley, Chicago; distance, 40 feet.
Half-mile run—Rohrer, Illinois; time, 2:04 4-5.
Running high jump—Washburn and Schommer tied for first, at 5 feet, 8 inches.
Two-mile run—Reddel, Illinois; time, 10:13.
Pole vault—Jacobs, Chicago; height, 11 feet, 9 inches.
Relay race—Illinois; time, 2:46.

HUGE ICE HARVEST.
One Company to Cut 800,000 Tons on the Kennebec River.

Augusta, Me., March 4.—In order to prevent an ice famine next summer, over 2,000 men are working from day light to dusk on the Kennebec ice fields for the American Ice company, on account of the unexpected breaking up of the ice on the Hudson. The orders are to cut every day in March until the required 800,000 tons are hoisted.

Chicago, Ill., March 5.—Copper declined 7/8, 6d in the London market today, with spot closing at 136 7/8, 6d and futures at 137 1/2, 25, 6d. The local market was dull and unchanged, with Lake quoted at 128 1/2 @ 131 1/2, electrolytic at 125 1/2 @ 127 1/2 and castings at 123 1/2 @ 125 1/2.

CHICAGO GRAIN MARKETS.
Chicago, March 5.—Wheat broke from 1 1/2 to 2 1/2 @ 2 3/4 here today, owing to general liquidation based on extremely bearish domestic and foreign news. The May sold to 115 and the July to 103 1/2, a loss of 4 1/2 and 3 1/2, respectively, compared with the high point established two days ago. At the opening the market was weak, due to rumors which later were denied by interested parties to the effect that many shorts in the May had made private settlements with a leading bull, and to a decline of 3/4 to 1d at Liverpool. The news of the day was unusually depressing. Liverpool reported the Argentine offerings liberal and the visible supply of wheat in the South American country increasing rapidly, and also that India was offering wheat more freely. In this country the demand for cash wheat showed a marked abatement, and the crop reports were more reassuring to the bears. In the final dealings the market experienced a sharp decline, due to reports the leading long had been selling freely through

Sour Stomach Indigestion-Kodol
There are so many of these disagreeable symptoms—"heartburn," belching of foul gases, bloating, pain in pit of the stomach, headache, etc.,—all meaning indigestion. And indigestion always means dyspepsia—sooner or later—if the indigestion is not rectified. Kodol can't help but relieve indigestion. It stops all the aggravating symptoms, at once, by fully digesting all food, just as fast as you eat it. Kodol thus helps Nature to effect a complete cure.

ON A FOOL'S ERRAND.
A Carle's schoolmaster was one day greatly annoyed by not getting satisfactory answers to the questions he put to one of the schoolboys. At last he called the dunce to the front, and handing him a large sheet of paper, said: "Here's some money; you go and buy some brains."
The master felt rather small when the boy turned round with the query: "And will I tell the shopkeeper you're for?"—Tit-Bits.

KILLS WOULD BE SLAYER.
A merciless murderer is Appendicitis, with many victims. But Dr. King's New Life Pills kill it by prevention. They stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing Constipation, Biliousness, Chills, Malaria, Headache and Indigestion. 25c. at The Stafford Drug Co.

VANDEVENTER ROASTER WORKS SATISFACTORILY

The John Gately company is completing a number of important improvements at its store in the Robbins building. The second floor, which has heretofore been used as a storage room, has been fitted up as a salesroom, and presents a neat appearance. The walls have been papered, the woodwork painted, and the various lines on display are attractively arranged. The rear store room on the first floor has been altered and a large window facing the north was put in. The double doors between the two main rooms have been removed and a large arch provided. All of the rooms, with the exception of the main store room in front, have been painted and papered, but the latter is to receive attention.

NEW SEPARATING PLANT WENT INTO COMMISSION AT LEAD AND ZINC MINE OVER A WEEK AGO AND IS TURNING OUT A HIGH GRADE PRODUCT.

The new roaster plant at the Vandeventer lead and zinc mine in Wisconsin went into commission a week ago last Wednesday, and Superintendent Robert Fox reports that it is now working satisfactorily. Two samples of ore treated have been analyzed, one by Mr. Fox, and the other by the Galena Iron Works. The former assayed 59.85 per cent in metallic zinc; the latter all per cent. The average high class ores in the Missouri district do not exceed 58 per cent, and large quantities of finished ore shipped from that field run between 54 and 57 per cent. Mr. Fox expresses the opinion that the high average obtained from the first sample at the Vandeventer can be maintained, as the ore treated, particularly the first lot, was of a low grade.

Mr. Fox is well pleased with the new roaster, and says it is the equal of the best plants in Wisconsin. The Vandeventer people now have all the machinery and other equipment necessary for the successful operation of the mine. The plant turned out an average of eight tons of finished product a day during the first week. Mr. Fox says he soon will have it turning out ten tons. Only 1 per cent of lead appeared in the mineral that passed through the roaster and the percentage of lime was 1.75. The lower the percentage of lead and lime, the better the quality of the mineral. The Vandeventer produces a large percentage of lead, practically all of which is separated from the zinc when it passes through the concentrator. Out of the \$25,000 worth of ore sold since the mine began producing about \$5,000 was received for lead. Mining operations were resumed last Wednesday.

It is possible that the Vandeventer people will store the ore for a short time, until the roads are in better condition. The roads leading to the shipping point have been unusually rough this winter, and Mr. Fox reports that they are now in worse condition than they have been in several weeks. Most of the rims at the mine are filled with green concentrates, so that with hoisting operations resumed the concentrator can keep well ahead of the roaster.

While the price of zinc ore has gone off several dollars during the past two or three weeks, owing to the uncertainty about tariff legislation, the price is still considerably higher than it was during the greater part of last year. One of 40 per cent mineral is now selling at from \$35 to \$36 per ton. The Wisconsin ore is in much better demand than that produced elsewhere as it contains no impurities objectionable to the furnace men.

There has been a big change in zinc situation in the past seven or eight years. In 1900 the mineral was sold at 65 per cent less than it can be bought for at this time. Inasmuch as the output of the Wisconsin field was larger last year than during the previous year, it is evident that that district is moving toward. There was a falling off in the output in the Missouri and Kansas districts, the total tonnage in 1908 from all of the mines in the two states being 273,240, compared with 297,126 tons in 1907. The total output of the Wisconsin field was 28,135 tons, compared with 33,911 tons in 1907.

DEATH OF MRS. SJOLANDER.

Mrs. Anna Sjolander, an old resident of this city and the Winthrop location, died yesterday afternoon at 2 o'clock at the home of her daughter, Mrs. John Sandell, on Reidy street. She was aged seventy-five years. Aside from Mrs. Sandell, there are two other children—Mrs. Anna Olson of this city and Chas. Sjolander of Bisbee, Ariz. The husband died several years ago. The funeral will be held Monday at 2 o'clock from the Swedish Lutheran church.

Our teas—Chase & Sanborn line—Are intended for people who appreciate quality. Are you one of them? Then let us show you what we have. J. SELLWOOD & CO. Agents. (3-3-21)

Foley's Kidney Remedy will cure any case of kidney bladder trouble that is not beyond the reach of medicine. Cures backache and irregularities that if neglected might result in Bright's disease or diabetes. Sold by all druggists.

BIDS WANTED.

The building committee of Ahmeek lodge, No. 150, I. O. O. F., Ishpeming, Mich., will until 6 p. m., on Monday, the 15th day of March, 1909, receive sealed bids for the excavating of dirt from under the building at corner of Main and Pearl streets, known as the McKee block, and building of basement walls and floor under same.

Estimated yards of excavation 1,800. Contractor to furnish all tools and materials needed.

Plans and specifications for said work may be seen at office of W. J. Cole. The right is reserved to reject any and all bids. (3-3-1w)
