CHURCH HISTORY.

Lake Linden Congregation Grew from Mission in "Old Iron House."

In connection with next week's celebration of the twenty-fifth auniversary of the Lake Linden Congregational church, an historical review is of interest. The first step towards organizing a congregation was taken when Rev Rebert H. Higgens, pastor of the Calunet church, established a mission. That was in the winter of 1880-81. The "old then being used as a school house, by reason of the destruction by fire a few months before of the school building in Schooleraft township. ### PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry-making it pay, yet poultry, exactly the same as with stock-horses or cattle-you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away ahead of any other . poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACK-

It is likely that the state encampments will be held every year in the future with possibly the exception of each third year, when the head camp meets. The executive officers are encouraging state encampments, believing that they will result in creating additional interest in team work. The expenses incurred in attending the encamp-ment will be borne by the teams, or the lodges they represent.

### CREAMERY WILLING TO LOCATE HERE

OF MILK CAN BE OBTAINED TO MAKE IT PAY.

Development of Surrounding Country, Say Those Who Know.

A proposition of more than ordinary importance to the business interests of this city has recently been made to the manufacturing committee of the Commercial club. The chairman of the com mittee stated yesterday that he had received assurances from a creamery syndicate, operating a number of factories in Wisconsin and in other parts of the Northwest, that the company was anxious to put in and operate a creamery in or near this city, provided that a sufficient amount of milk could be guaranteed to make the plant profitable. It is understood that the company must be assured of the milk from about

500 cows before it would consider itself warranted in erecting and equipping a butter making establishment. The company in question is said to be one of have excellent financial standing.
