#### PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry-making it pay, yet poultry, exactly the same as with stock-horses or cattle-you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition, INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25e PACKAGE, 5 PACK-AGES FOR \$1.00.
