

KIDNAPPED CHILD IS RESTORED TO ITS PARENTS

Willie Whitla of Sharon, Pa., Is Returned to His Father at the Hollenden Hotel in Cleveland.

RANSOM OF \$10,000 IS PAID THE ABDUCTORS

In Compliance With a Prearranged Plan, the Captors of the Boy Place Him on a Street Car on the Outskirts of the City, and Within Half an Hour the Lad Is Safe in the Arms of the One Who Had So Anxiously Awaited the Arrival of His Little Son, the Meeting Between the Two Being Most Pathetic--Youngster Is in Perfect Health and Says He Has Been Kindly Treated.

Cleveland, March 22.—Before retiring tonight, Mr. Whitla admitted that he had paid \$10,000 to the woman in the candy store. It was in currency and bills. The woman did not count the money. Mr. Whitla believes the woman was Italian, but he refused to disclose her identity.

Cleveland, March 22.—Little Willie Whitla, who has caused the police of the entire country endless worry since he was kidnapped from school in Sharon, Pa., last Thursday, was returned to his father at the Hollenden Hotel here tonight at 8:30 o'clock.

In compliance with an agreement entered into between the kidnapped boy's father and an agent of the kidnapers here today, the boy was placed on a street car on the outskirts of the city and started to the hotel shortly after 8 o'clock.

Two boys, G. W. Ramsey and Edward Mahoney, recognized the lad on the car and, taking him in charge, conducted him to his father, who was in waiting according to the prearranged plan which he had followed at the dictation of the kidnapers.

Son Smothered With Kisses. The boy wandered about the hotel lobby unannounced for several minutes, asking the bellboys for his father, before the latter knew his son was in the big foyer. The moment the boy was in the lobby, a stranger who was in the hotel, sauntering in an aimless fashion, he rushed across the lobby, grasped him in his arms and smothered his face with kisses.

An attempt had been made to disguise the lad. He wore a pair of smoked glasses and a large tan cap which was pulled down over his ears, and the father said that it would have been difficult to have recognized the boy in such garb. Willie is in perfect health. He says that he has been well treated and ever since his capture has been indoors. He believes he was taken from Sharon to Warren and thence to Newcastle, Pa. It is his opinion, expressed in a happy school boy way, that he was in a hotel Saturday night at the time his father was to leave his \$10,000 in Flatiron Park.

Woman Is Kidnappers' Agent. Mr. Whitla refused to state whether he had paid the ransom or not. He said he received a letter today from the kidnapers at his home in Sharon, saying that if he called at a certain confectionery store in the East end of Cleveland he would be told how to secure his boy, unharmed and "well fed."

Shortly after noon Mr. Whitla left Sharon for Cleveland. He was unaccompanied. His immediate family and the private detectives he had in his employ were apprised of the proposed secret meeting, but insisted that he make the trip alone. Every one of them was warned that he must be allowed to go unheeded, and that no attempt at the capture of the kidnapers should be made. Mr. Whitla was certain that if he spoiled the plans of his sons' captors tonight he would never see the lad again. His experience at Ashtabula served as a warning.

About 2 o'clock this afternoon he went to the candy store in the East end. He carried \$10,000 with him, expecting that it would be demanded of him there. He was met by a woman who detailed to him the terms of the kidnapers. With all the eagerness of a distracted parent, Mr. Whitla agreed to them immediately. Detectives in his employ say that he paid the money, but on this point the father declines to commit himself.

Anxious Wait at the Hotel. Half an hour later he returned to the Hollenden Hotel and awaited developments. His entrance to the hotel was shrouded in secrecy. By a previous arrangement made with the hotel management, he did not register. Detective Perkins, who has supervised the search for the boy in behalf of the father, was in the lobby of the hotel, calmly smoking and pretending to be uninterested. But the hearts of both parent and detective were beating anxiously.

The agent of the kidnapers promised that the boy would be started toward the hotel shortly after nightfall. As the hour for the appearance of the child approached, Mr. Whitla became nervous. He disregarded the advice of the detectives who had told him to keep out of the sight of the newspapermen and the crowds of curious people who had learned that he was in the city. Emerging from his room, he walked up and down the hall on the second floor, with his hands clasped across his breast. Then, unable to stand the suspense longer, he went into the lobby and seated himself in a chair. A few newspapermen walked over

his way through the spectators. Plunging and squirming, knocking bystanders right and left, the frenzied parent made his way to the bewildered boy in knickerbockers, standing solemnly with automobile goggles in front of the clerk's desk.

The boy, with his parent coming, He opened his lips to speak. The words were never spoken. Grasping Willie in his arms, the happy father lifted the boy into his arms and planted a score of kisses on his lips.

"It's my boy, my darling Willie," he cried. Tears gushed from his eyes. He pressed the child to his breast and hugged him tightly.

Willie smiled a little. He was glad to see his papa, but he did not realize what all the fuss was about.

Great Cheer Rings Out. When the crowd realized that the kidnapped child had been returned to its parent, a cheer rang out. For three minutes the handclapping and shouting continued. There were cheers for the boy and cheers for the father.

Stripping off the boy's cap and smothering him with kisses, the father's bare head for the first time. He lifted the lad high above his head so that everyone might get a good view of the now famous youngster who came near to rivaling the "lost Charlie Ross" of kidnaped fame.

As soon as he could push his way through the crowd, Mr. Whitla went to his room on the second floor. He carried in his arms the boy. For several minutes he was alone in the room with his school boy son. Then, through the door came the mother, a person who the father to the boy's mother on the long distance telephone.

"Oh, mother, I have Willie here in my arms. He is safe. Glory to God, mamma; it is the happiest night of my life." There was a pause. The mother was pleading for her husband to return the boy to his home at once.

"I'm sorry, mother," Mr. Whitla said. "I can't get a train out here until eight in the morning. But I'll come home as soon as possible. You can trust me with him, little mother, can't you?"

Big Crowd Besieges the Hotel. Five minutes after the father had entered his room fully two thousand persons were gathered in the hallway and lobbies of the hotel. Those unable to get into the hotel stood on the sidewalk and shouted for a glimpse of the boy.

Again and again the crowd called his name, and implored his father to bring him out and let them look at him. Mr. Whitla acquiesced to the request of the crowd and, carrying the boy on his shoulder, walked down into the lobby. Mounting a raised platform Mr. Whitla gave everyone a chance to see his son.

Dallas C. Byers, a millionaire manufacturer, E. A. Griffin, cashier of the Columbia National Bank, Congressman John F. Klein, Councilman Charles Stewart, H. J. Bolger, a hotel proprietor.

FIRM STAND TAKEN BY MINERS' LEADER President Lewis Declares He Will Never Recede from the Position He Has Taken in Demanding That the Anthracite Coal Operators Recognize the Union.

Seranton, Pa., March 22.—"There will be no compromise over the question of recognizing the union," said International President Lewis of the United Mine Workers of America, who arrived here today to attend the convention of the mine workers of the anthracite districts tomorrow.

"I have taken my stand on that proposition," he added, "and I will not move from the position I have taken. I have never signed an agreement that has not carried with it recognition of the organization, and I won't begin now."

This sums up Mr. Lewis' attitude and seems to clearly indicate that he considers recognition of the union paramount.

STOCKS IN GOOD DEMAND. Favorable News from Abroad a Bullish Factor in Wall Street.

New York, March 22.—The movement in the stock market today was an illustration of the small floating supply of stocks which supplies the present argument of the bull faction, while the demand for stocks, although small, outweighed the supply so effectively to combat the contention of the bear element that no sufficient vitality exists in the speculation.

The demand which was in evidence today had its origin in foreign events and in their sympathetic influence on the local professional demand. The lifting again of the Balkan war clouds over the week-end and the ending of the strike of the postoffice employees in France put so much heart into the speculators in the London and European stock markets that a considerable demand for stocks was engendered. This was passed along to the New York stock market when it opened.

Reports of improved conditions in the copper trade were a factor of strength in the markets, not only at home but abroad. Vague rumors were in circulation of some large sales of refined copper that were being effected, and the quotations were advanced again in both New York and London. The adjournment of the supreme court at Washington without handing down the decision in the commodities clause test case was interpreted as a favorable influence on Reading, and that stock held the leading place in the day's speculation. Reports of the determination of the anthracite miners to strike if recognition of the union is not accorded did not hold back Reading in its conspicuous leadership in the advance.

WEATHER FORECAST Washington, March 22.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer Tuesday and Wednesday.

Mum Is to Be the Word During the Consideration of the Tariff Bill by the Republican Members of the Finance Committee.

That the Various Schedules Be Kept Secret Until the Measure Is Completed, Extraordinary Precautions Are to Be Taken, Even to the Extent of First Perfecting the Phrasology of the Different Provisions Before the Incorporation of Any Rates.

Washington, March 22.—Emulating the ways and means committee of the house, the Republican members of the finance committee of the senate will take extraordinary precautions to prevent the divulging of schedules agreed upon for the new tariff bill until such time as the bill has been perfected. In the few sessions of the committee that have been held, rates have not been discussed at all. The business has been confined to questions of procedure, such as agreeing upon the employment of certain experts in tariff-making to aid in preparing a bill.

Resolution Is Passed Offering \$15,000 Reward for Willie Whitla's Abductors.

Harrisburg, Pa., March 22.—The senate tonight unanimously adopted a concurrent resolution offering a reward of \$15,000 for information leading to the arrest and conviction of the kidnapers of Willie Whitla.

GRAND JURY INDICTS FIVE PROMINENT MEN Bank Cashier, Millionaire Manufacturer, Two Aldermen and a Hotel Proprietor Accused of Having Part in the Municipal Corruption at Pittsburg, Pa.

Pittsburg, March 22.—As the result of the grand jury investigation last week of the municipal corruption, the court today ordered indictments against the following men:

Dallas C. Byers, a millionaire manufacturer, E. A. Griffin, cashier of the Columbia National Bank, Congressman John F. Klein, Councilman Charles Stewart, H. J. Bolger, a hotel proprietor.

FIRM STAND TAKEN BY MINERS' LEADER President Lewis Declares He Will Never Recede from the Position He Has Taken in Demanding That the Anthracite Coal Operators Recognize the Union.

Seranton, Pa., March 22.—"There will be no compromise over the question of recognizing the union," said International President Lewis of the United Mine Workers of America, who arrived here today to attend the convention of the mine workers of the anthracite districts tomorrow.

"I have taken my stand on that proposition," he added, "and I will not move from the position I have taken. I have never signed an agreement that has not carried with it recognition of the organization, and I won't begin now."

This sums up Mr. Lewis' attitude and seems to clearly indicate that he considers recognition of the union paramount.

STOCKS IN GOOD DEMAND. Favorable News from Abroad a Bullish Factor in Wall Street.

New York, March 22.—The movement in the stock market today was an illustration of the small floating supply of stocks which supplies the present argument of the bull faction, while the demand for stocks, although small, outweighed the supply so effectively to combat the contention of the bear element that no sufficient vitality exists in the speculation.

The demand which was in evidence today had its origin in foreign events and in their sympathetic influence on the local professional demand. The lifting again of the Balkan war clouds over the week-end and the ending of the strike of the postoffice employees in France put so much heart into the speculators in the London and European stock markets that a considerable demand for stocks was engendered. This was passed along to the New York stock market when it opened.

Reports of improved conditions in the copper trade were a factor of strength in the markets, not only at home but abroad. Vague rumors were in circulation of some large sales of refined copper that were being effected, and the quotations were advanced again in both New York and London. The adjournment of the supreme court at Washington without handing down the decision in the commodities clause test case was interpreted as a favorable influence on Reading, and that stock held the leading place in the day's speculation. Reports of the determination of the anthracite miners to strike if recognition of the union is not accorded did not hold back Reading in its conspicuous leadership in the advance.

SENATORS DECIDE THAT LIPS BE SEALED

Washington, March 22.—The Republican members of the finance committee of the senate will take extraordinary precautions to prevent the divulging of schedules agreed upon for the new tariff bill until such time as the bill has been perfected. In the few sessions of the committee that have been held, rates have not been discussed at all. The business has been confined to questions of procedure, such as agreeing upon the employment of certain experts in tariff-making to aid in preparing a bill.

Washington, March 22.—Emulating the ways and means committee of the house, the Republican members of the finance committee of the senate will take extraordinary precautions to prevent the divulging of schedules agreed upon for the new tariff bill until such time as the bill has been perfected. In the few sessions of the committee that have been held, rates have not been discussed at all. The business has been confined to questions of procedure, such as agreeing upon the employment of certain experts in tariff-making to aid in preparing a bill.

HOUSE DEMOCRATS ADOPT NEW RULES Bolters Hereafter Will Be Automatically Dropped from the Rolls of the Caucus, It Is Decided After a Prolonged Discussion—Uncle Joe Criticized.

Washington, March 22.—The adoption of a set of new rules to govern future caucuses of the Democrats of the house provoked a prolonged discussion at the caucus tonight. The necessity for the new rules is said to have become apparent to the Democratic leaders as the result of the "bolt" from Minority Leader Clark during the fight on the house rules on the opening day of the special session.

The set of new rules reported to the caucus by the committee of fifteen was adopted. "Bolters" will be automatically dropped from the rolls of the caucus. A two-thirds vote in the caucus makes the action of the caucus binding and no member will be excused unless he notifies the caucus that he would not be bound or if a member has already pledged his constituency to vote otherwise.

The report contained a criticism of Speaker Cannon for appointing to the committees "Democrats who are not in accord with their party." The fact was brought out that after a long fight the committee had decided not to criticize specially any of the Democrats who voted on the opening day of the special session for the Fitzgerald amendments to the rules and in opposition to Minority Leader Clark. Instead, a general criticism was indulged in, and the offenders were left to their respective constituencies for approval or disapproval.

LOBBY GOING TO WASHINGTON. Lumbermen of Middle States Oppose Proposed Revision of Duties.

Chicago, March 22.—The lumbermen of Chicago and the Middle States will send a committee to Washington to fight the proposed revision of the lumber duties. They claim that the Payne bill discriminates against other portions of the country and favors the East.

GOVERNOR CURRY RESIGNS. Santa Fe, N. M., March 22.—Governor Curry today telegraphed his resignation to President Taft.

BILL OF THE BREWERS WILL COME UP TODAY Proposing to Regulate the Saloon Business in the Manner Marquette Has Done, a Poll Shows the Ormsbee Measure Will Pass the Michigan House.

Lansing, Mich., March 22.—[Special.]—The Ormsbee liquor regulation bill is the special order for tomorrow afternoon, and a careful poll made by a disinterested person tonight showed that it would pass. This is not the Ormsbee bill repealing the local option law, but an entirely different proposition. It repeals the present liquor regulation laws and makes new ones. The friends of the bill say they are more stringent.

The Anti-Saloon league is fighting the bill because the brewers drew it, and points out some things in it that will undoubtedly be changed tomorrow. One is the clause allowing corporations to own saloons, which will be cut out to please the farmer vote.

The poll shows fifty-seven for the bill to forty against, with three members who are known in advance will not be present. One of these is the brother of Mr. Ormsbee himself, an offensive market gardener to whom the brewing interests gave the bills to introduce. He telephoned this afternoon that he would not be present.

MR. BRYAN'S PET PLAN. Bank Deposit Guarantee Proposition Passes the Nebraska Legislature.

Lincoln, Neb., March 22.—The house this evening concurred in the senate amendments to the bank deposit guarantee bill, which has the effect of passing it, and it now goes to the governor. It was one of the bills in which W. J. Bryan took personal interest.

FEARED MEN HAVE PERISHED. No Word Received Concerning the Balloon America and Its Passengers.

Los Angeles, March 22.—No word has been heard from the six men in the balloon "America." It is feared they were lost in the mountains in the midst of the terrible blizzard that set in Saturday night. The balloon ascended at Pasadena Saturday afternoon.

MULE'S KICK SAVES MAN. Electricity Ticks the Animal and It Turns Both Heels Loose.

Harrisburg, Ill., March 22.—J. R. Smith, a driver at mine No. 4 of the Ogara Coal company, was saved from death by the kick of a mule. An electric wire had fallen on to the track, on which Smith stepped and the commotion scared the mule, which kicked him off the track, but itself fell a victim to the current. The man had the current turned off in time to save the mule.

HOLDS RACETRACK LAW ILLEGAL. Covington, Ky., March 22.—County Judge Barbeson today decided the Kentucky racing commission law unconstitutional. The effect of the decision is to place the Latonia racing back to its former basis.

AUSTRIA MAKES PROTEST. Lodges Complaint Against an Alleged Hostile Act of Montenegro.

Cettinje, Montenegro, March 22.—The Austrian minister has complained to the foreign minister that a Montenegrin patrol yesterday attacked an Austrian patrol on Austro-Slav soil on the frontier near Indusi, and took two Austrian prisoners. Nothing is known here of the circumstances of the case, and the foreign minister has ordered an investigation.

WIRE SERVICE IMPROVES. London, March 22.—The conditions of the telegraph in England and France showed rapid improvement tonight. Numerous wires were working up to their full capacity.

WAS A NOTED SHIP OWNER. New York, March 22.—John H. Starin, the noted steamship owner, died today.

HIS BAGGAGE GOES ABOARD THE SHIP

Spurred by the Cheers of Enthusiastic Admirers, Theodore Roosevelt Will Depart Today Upon His Long Journey to East Africa

Inspecting the Steamer and Completing the Final Arrangements for His Expedition, He Returns to Sagamore Hill to Pass the Remaining Hours in the Heart of His Family, the Last Public Function Occurring When Town Board Calls to Pay Respects.

Oyster Bay, N. Y., March 22.—Closing a strenuous day that was taken up chiefly with the final arrangements for his African expedition, ex-President Roosevelt tonight spent the hours of the eve of his departure across the Atlantic in the heart of his family and in bidding goodby to scenes he has so long regarded as part of his home at Sagamore Hill. All is in readiness for the long journey upon which he is to set out tomorrow; the baggage was today put aboard the steamship, and after inspecting the quarters set aside for him aboard the vessel Mr. Roosevelt returned to Oyster Bay with his wife and children.

With his family, Mr. Roosevelt will take the early train tomorrow for New York and will proceed to the Holokoa pier where he will board the Hamburg. The party will be taken from the New York terminal of the Long Island railroad to the entrance of the harbor, where in an automobile of Douglas Robinson, Mr. Roosevelt's brother-in-law.

Demonstration Planned by Friends. While Mr. Roosevelt is grateful for the demonstration planned for his departure by hundreds of people who are desirous of cheering him as the Hamburg slips out into the stream and heads seaward, he says he again today expressed the hope that the leaving might be regarded as that of a strictly private citizen and that it be considered as no unusual occasion. Mr. Roosevelt said that no matter how many came to the pier he would not make a speech.

A delegation of the local board, headed by Chester Painter, presented to Mr. Roosevelt this evening an engrossed resolution commending him as a citizen and a fellow townsman. This occasion at Sagamore Hill, which lasted only a few minutes, was the final public function in which Mr. Roosevelt took part before going away. When the delegation moved down the hill in the twilight, the figure of Mr. Roosevelt was seen standing on a knoll near the house, silhouetted against the darkening sky and watching the ribbon band of dark water of Long Island sound that glided here and there in the departing light. The former head of the nation then turned his steps to the house and sat down to supper with his family. The evening meal passed quickly and amid the good cheer of the family communion, and none was more happy than Mr. Roosevelt.

Will Be Escorted Out to Sea. New York, March 22.—About seventy-five friends and admirers of ex-President Roosevelt will escort him out to sea tomorrow on board the ocean-going tug John J. Timmins as guests of James S. Clarkson, surveyor of the port. An official character is given the tug trip by the presence on board of the Hon. John L. Butt, military aide to President Taft, who will go along as representative of the president. A bugler assigned by the authorities on Governor's island will be heard to play "Hot Time in the Old Town Tonight" as the tug of Mr. Roosevelt's other favorites, just before the final farewells are exchanged.

The tug's passengers will contain Wm. J. Losh, Jr., Congressman William Cooks of the Oyster Bay district, Justice John Proctor Clark, John Hays Hammond, Treasurer George R. Sheldon of the Republican national committee, Paul Morton, Charles F. Brooker, Postmaster Edward M. Morgan, K. H. Gary, Dr. Albert Shaw, United States Attorney Stillson, Hamilton W. Mahan, Ernest H. Abbott, Robert J. Collier and Caspar Whitney.

Accompanied by his children, Ethel and Kermit, Mr. Roosevelt arrived here this morning from Oyster Bay and began a round of visits before he set out on a business nature, including an inspection of his quarters on the steamer Hamburg, on which he sails tomorrow. He returned to Sagamore Hill in the afternoon.

ALLIANCE WITH RUSSIA? Reported English Proposition Cannot Be Substantiated at St. Petersburg.

St. Petersburg, March 22.—The report that a special state council recently discussed a communication from England with regard to a political and financial alliance between the two countries, although it was derived from what was believed to be an authoritative source, cannot be substantiated. There is no official authority for saying that the British government has made such a proposal.

SAILOR BURKE THE WINNER. New York, March 22.—Sailor Burke the Brooklyn middleweight fighter, won from Jack "Twin" Sullivan, of Boston, in a rough ten-round contest, fought here tonight.

**DAILY MINING JOURNAL**  
A MORNING PAPER PUBLISHED BY THE  
MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains  
Associated Press dispatches and is especially  
devoted to the Upper Peninsula interests.

**SUBSCRIPTION RATES:**  
Per month, by carrier.....\$1.00  
Per year, by mail.....\$10.00

**MARQUETTE, MICH., MARCH 23.**

Entered as mail matter of the second class  
in the postoffice at Marquette, Mich.

This is the month for the few remain-  
ing occupants of the Jan. 1 water wagon  
to inform the driver not to drive too  
close to the back beer signs.

Uncle Sam doesn't want to be dis-  
turbed and with Mexico will see that  
the obstreperous rascals of Salvador and  
Nicaragua don't overstep the mark.

Pug Jeffries says he is not in favor  
of women voting. Sure not. If women  
had the right to vote, a lot of prize  
fighters would be compelled to go to  
work and earn an honest living.

Senator Burrows believes the Payne  
tariff iron schedule will result either in  
closing mines or reducing wages. Cuba  
will ship 200,000 tons of iron ore into  
the United States this year, mined with  
labor costing not over \$1 a day.

Dr. Casey, who claims to know the  
African jungle, says that Professor  
Starr is wrong, and that President Roose-  
velt will be in no danger from jungle  
fever. Meantime Citizen Roosevelt will  
apply the real test. He will go and see  
for himself.

With the face of Lincoln to supercede  
the Indian on our American penny, about  
all that will be left to remind us of the  
once noble red man will be the wooden  
Indian holding a box of wooden cigars  
in front of the cigar stores, and these  
images, too, are fast disappearing.

The Saranac Tribune notes that an  
Ohio farmer ran a mile or two and pre-  
vented a Pennsylvania passenger train  
from plunging into a river where a bridge  
had been washed away, and was offered  
\$2 by a representative of the railroad  
company for his services. But he didn't  
have the heart to accept the money.  
There are instances when even a hero  
will flinch.

One of the interesting features of the  
conditions at Washington as the result  
of the reporting out of the Payne tariff  
bill is the fact that Democrats who have  
howled all the years for free trade have  
declared for free trade in the national  
and state platforms, and voted for free  
trade candidates, and who are largely  
responsible for this revision business, are  
now squealing like hungry pigs because  
the bill sticks the knife into some in-  
dustries in which they are concerned. It  
is said the noise from southern Demo-  
crats is like the crack of doom.

It transpires that 3,000,000 acres of  
former Indian lands in Wyoming which  
are to be thrown open for settlement are  
arid lands that are beyond hope of irri-  
gation. The distribution of these lands  
is therefore an invitation to homeseekers  
to experiment in dry farming. This fact  
may militate against rapid settlement,  
but inasmuch as some settlers in arid  
districts have achieved wonderful suc-  
cess in dry farming, a venture onto the  
Wyoming lands by men who have grit  
and determination might result in riches  
where things are now unpromising. And  
if there are numerous demonstrations  
of the fertility of the soil under the pec-  
uliar cultivation required by dry farm-  
ing, the Wyoming lands will rise in value  
very quickly and thus additionally re-  
ward the courageous homeseeker who  
tries his luck in the new field.

**PESSIMISTIC PANAMA PROPHECY.**

There has been much discussion, pro  
and con, over the respective merits and  
comparative cost of the sea-level and  
lock isthmian canals. It has remained,  
however, for George L. Fox, a New  
Haven "engineer and business man," to  
demonstrate—to his own satisfaction—that  
the Panama canal "will prove the monu-  
mental folly of the age," that it will  
"cost a billion dollars before com-  
pletion," that the traffic will be, as com-  
pared with the Suez, insignificant, and  
that it will in every way "turn out a los-  
ing enterprise." Granting Mr. Fox's  
postulates—the billion dollar cost, in-  
significant traffic, etc.—it is easy, of  
course, to draw his pessimistic conclu-  
sions. But his premises are denied with  
general unanimity by those qualified to  
judge—and this whether championing the  
one or the other type of waterway.

When the Suez canal was projected  
by De Lesseps under the auspices of the

French government, British experts pre-  
dicted that its traffic would never pay  
anything like interest on its estimated  
cost, and the British government refused  
to subscribe for any stock in the De  
Lesseps company. The Suez canal cost  
nearly three times the original estimates;  
yet it had not been long open before  
Great Britain was glad to capture it  
through quietly buying up its stock in  
the open market—and its financial suc-  
cess, despite its tripled cost, has been  
vastly in excess of even the most san-  
guine hopes of its first projectors. Even  
a small fraction of such success would  
make the Panama canal pay well. But  
even if the canal should not return di-  
rect profits, it has become a naval neces-  
sity, for it will shorten by 4,000 miles  
the water route from the Atlantic to  
the Pacific.

Pessimistic prophets like Mr. Fox  
should hark back to the record of not  
only the Suez canal, but of many if not  
only great historic industrial achieve-  
ments. The learned British Quarterly  
Review dogmatically declared that it  
"would be as impossible to ride on a  
railway car at twenty miles an hour as  
on a Congreve rocket," even Thiers in-  
sisted railways could never be made  
profitable for carrying freight; the great  
Dr. Lardner mathematically demon-  
strated the impracticability of ocean steam  
navigation "because a vessel could not  
carry coal enough for a transatlantic  
passage," the Erie canal, it was predict-  
ed, would never pay operating expenses;  
the telegraph, telephone, graphophone,  
the "wireless," and even electricity as  
a source of light and power, were at  
first declared "interesting scientific  
toys, but not adaptable to profitable in-  
dustrial or commercial use." That a  
canal that shortens by 4,000 miles the  
great ocean highway from the Atlantic  
to the Pacific—from British America,  
the United States, Central America, the  
West Indies and northern South America,  
to San Francisco and the Orient—will  
not pay financially is hardly conceivable.

**THE POLITICAL CALENDAR.**

Not merely one but two or three birds  
may be killed with the same stone if  
full advantage is taken of the movement  
to amend the constitution so as to change  
the date of inauguration. It is to be  
hoped that realization of this fact is the  
true explanation of the unusually  
sustained attention which the matter  
is receiving both in congress and out of  
it. We have become habituated to ef-  
forts to change the date of inauguration  
whenever the weather has been foul, but  
such efforts have never gone far. They  
have been as fickle as the element that  
fathered them. If the present agitation  
is as sentimental as its predecessors little  
is to be hoped for from it, unless, in-  
deed, the cumulative effect of often dis-  
appointed hopes has at last become ro-  
bust. But skeptical as experience has  
made us, perhaps at last the movement  
has taken a more serious turn.

During the preceding session of con-  
gress not a little was heard of the desir-  
ability of bringing the congress closer  
to the electors, of so changing the time  
of the beginning of a new congress that  
congress would begin their work shortly  
after the election. Under the present  
system members of the house of repre-  
sentatives as a rule do not take their  
seats until about thirteen months after  
their election. In the very nature  
of the case they are thereby to a large  
extent deprived of their representative  
character. The recent agitation of this  
matter may have much to do with the  
more serious consideration of the in-  
auguration day amendments. If it has  
the public may hope, if not expect, that  
much more than a change in the inaugu-  
ration day will result from the discus-  
sion. There could be no more important  
result than that of bringing congress  
closer to the voters.

Logically the McKinley tariff should  
have been enacted early in 1889; it was  
not enacted until about a month pre-  
ceding the next congressional election.  
Logically the Wilson tariff should have  
been enacted early in 1893. Mr. F. B.  
Whitney, in dwelling on these facts in  
a recent public communication, says  
that, notwithstanding the lack of an ef-  
fective Democratic majority in the sen-  
ate, Senator Gorman at the time in-  
formed him that if the question could  
have come up promptly after the elec-  
tion of 1892 any tariff bill desired by  
Cleveland and the leaders of the house  
could have become law in six weeks.  
"Yet by March 4 the result of other  
legislation had brought on financial  
conditions which supplanted the tariff in  
immediate importance." "Many of us,"  
says Mr. Whitney, "will remember how  
congresses that had been discredited and  
voted out by the people struggled to  
impose partisan legislation against the  
popular will in 1874-5 and 1890-1; how  
a congress under similar conditions ac-  
tually passed a complete revision of  
the tariff in 1883, which a deadlock be-  
tween the two houses kept in operation  
for over seven years. Readers of his-  
tory will remember still more striking  
examples, as in 1801 and 1861, of the  
absurdity of our political calendar."

The change in the political calendar,  
then, should not be piecemeal but thor-  
oughgoing. Such a change might not  
only wipe out existing absurdities, like  
the representatives' thirteen months' in-  
terim between election and office, but  
might incidentally carry with it the use-  
less lumber of the electoral college, might  
put the senatorial term upon a sane  
basis and otherwise improve things so  
that the government calendar could catch  
up with that of the electors and our en-  
tire system be made much more repre-  
sentative than it now is.

**Upper Peninsula**

**May Make Own Powder—**  
It is rumored that the Oliver Iron  
Mining company will build a big power  
plant at Ironport in the coming year.  
The company uses an immense quantity  
of explosives annually.

**Was a Well-known Character—**  
Patrick McDonough died at the Luce  
county house last week, aged ninety-five  
years. The deceased was a well-  
known character about Newberry, having  
lived there for the past twenty years.

**County Road System Proposed—**  
At a special meeting of the Schoolcraft  
county board of supervisors the question  
of submitting the question of adopting  
the county road system to the people at  
the April election was carried by a vote  
of eight to six. The supervisors of Manistiquic  
county opposed the proposition.

**Two Tickets at Escanaba—**  
Two city tickets have been nominated  
at Escanaba. The Citizens' party has  
nominated Solomon Greenhoot for mayor,  
Michael Lyons for clerk and Richard  
Hoyler for treasurer. The Taxpayers'  
ticket has M. Perron for mayor, Henry  
Olmsted for clerk and T. J. Burke for  
treasurer. Mr. Perron is the present  
mayor.

**Heads Board of Education—**  
At a special meeting of the Munising  
township board last week, the recent  
action of the board of education, recom-  
mending Dr. Russell Anderson as school in-  
spector to succeed Louis Rowe, deceased,  
was ratified. Mr. Anderson will there-  
fore hold the office of school inspector  
for the unexpired portion of Mr. Rowe's  
term and by virtue of his office will be  
president of the board of education the  
coming year.

**Gets Its First Automobile—**  
An automobile arrived in St. Ignace  
the other day, signed to one of the pio-  
neer residents of the city, George Pom-  
roy, contractor and fisherman. It is the  
worthy citizen who sprung this big sur-  
prise upon the people. The machine is  
a touring car with twenty horsepower  
engine and will carry five passengers. It  
is a great attraction to the people, since  
it is the first automobile yet purchased  
by a St. Ignace man.

**Iron County Leads—**  
Says the Escanaba Journal: Delta  
county is disgraced. We have long glori-  
ed in the assumed fact that we had more  
saloons in proportion to population than  
any other county on the face of the  
globe. Now comes the Crystal Falls Dia-  
mond Drill claiming honors for Iron  
county, which has one saloon for every  
124 persons, while Delta has only one for  
every 165 persons. It must keep the  
people of our neighboring county very  
busy to earn enough money to support  
their grog shops.

**Lived to Be 104—**  
It has developed that John Charbon-  
neau, 104 years of age, who died at his  
home, twelve miles north of Alpena, re-  
cently, was born in St. Ignace. He was  
born in what became Presque Isle county,  
sixty years ago. He was a successful  
hunter and trapper. His home was in  
the dense wooded country and he re-  
ceived but few visitors. When the duke  
and duchess of Saxe-Coburg and Gotha  
Alpena a few years ago they visited  
Charbonneau's cottage and listened to the  
old man's yarns for hours.

**May Sell County Hospital—**  
The board of supervisors will be in  
session at Escanaba Thursday and it is  
understood that the proposition of sell-  
ing the Delta County hospital will again  
come up. Some time ago a special com-  
mittee was appointed to investigate the  
matter and report to the board, but  
whether the report will be for or against  
selling the institution is not yet known.  
The arguments urged for the sale of the  
hospital are that it is not a money-  
making proposition and that it would  
require a considerable outlay of money  
to bring it up to standard.

**More Autos for Iron Mountain—**  
Captain James H. Cundy purchased a  
roadster and a touring car in 1908 pattern.  
The machine will be delivered about the  
first of May. It is a four-passenger car  
of good speed, but built mainly for com-  
fort. Captain and Mrs. Cundy expect to  
spend several months this summer in  
touring neighboring states. Andrew  
Bjorkman and Dr. Stutz have also pur-  
chased cars, as have Dr. S. Edwin Cruise,  
Superintendent Jones of the Saginaw  
mine, and Superintendent W. J. Rich-  
ards, of Corrigan, McKinney & Co., the  
latter of Crystal Falls. Dr. Walter Dar-  
ling of Crystal Falls likewise has ordered  
a machine.

**County Cannot Be Bonded—**  
No work will be done the coming sea-  
son on the Munising-Chatham county  
road for the very good reason that there  
will be no funds available to pay for it.  
At the last meeting of the Alger county  
board of supervisors the decision was  
reached to submit to the people a propo-  
sition to bond for \$200,000 the money to  
be expended on the county roads. For  
three weeks notice was given by publica-  
tion in the county papers. Then it was  
discovered that the proposition could not  
be submitted this spring and perhaps  
not for many springs to come. The new  
constitution of the state provides that  
no county can be bonded for a greater  
sum than three per cent of its assessed  
valuation. Alger county's 1908 assessed  
valuation was \$3,967,937. The county is  
already bonded for three per cent of that  
sum and \$200,000 additional bonds would  
increase the amount to five per cent.  
Seemingly the only way out of the  
difficulty is to get an amendment to the  
constitution, which can be far more  
easily said than done. And so, at least  
for awhile, the bright dreams of southern  
Alger county farmers hauling big loads  
of farm produce into Munising and tra-  
ding it for money and merchandise, and  
of the invasions of crowds of automob-  
iles, won't come true. For the farmers  
can't haul the loads nor the autos run  
through sand several feet deep.

**Council's Debate Was Lively—**  
Alderman Gallagher stirred up a little  
excitement at the recent session of the  
Escanaba council when he made vigorous  
objection to a proposed plan for re-  
surfacing the Charlotte street pavement  
with fine crushed stone and tarvia. Act-  
ing upon instructions from the street  
committee, City Engineer Brotherton had  
prepared specifications for the work, and  
his estimate of cost was \$1,900. When  
the city engineer's report was made Al-  
derman Gallagher expressed himself very  
vigorously in opposition to the city  
making any more experiments. He de-  
clared that the street was paved at  
enormous expense only last summer, and  
that experiments had been made on it

ever since. He also declared that the  
council had no authority to ask the tax-  
payers of the city to pay \$1,000 to fix  
up the thoroughfare. Alderman Wilke  
said that it was true that the work on  
Charlotte street was being experimen-  
tal, as it necessarily had to be in begin-  
ning the use of the tarvia dressing. He  
said the city had gained valuable experi-  
ence as a result of the work, that the  
entire city would benefit and that all  
should pay a share of the cost, as it  
would be a permanent benefit to the  
street property owners to pay for the  
work again. The debate over the ques-  
tion of adopting the report of the city  
engineer was somewhat lively, but when  
the vote came upon the question of its  
adoption, Alderman Gallagher was the  
only one who voted in opposition.

**Look for Good Crops—**  
Farmers predict heavy crops in Chip-  
ewa county this year, owing to the late  
falls of snow which will protect the  
grain fields and grass from spring frosts.  
The wise men who peer into the future  
and foretell the weather each year say  
conditions are just right. They argue  
that the spring is now in being under  
the ground the crops do not receive set-  
backs after they get their first start.  
The offering of alfalfa seed for sale  
causes some discussion of the value of  
the sandy lands west of the Soo, which  
for years have been held in reserve for  
timber. Some people claim that in  
time all these sand plains will be utilized.  
"Several years ago while riding  
through the sand country on a South  
Shore train," said E. J. Swart, "I made  
the acquaintance of a man from the  
Sand Lake region. He said he had con-  
ditions for his government. Looking out  
of the car window he asked me why  
the land was not used for farming. I  
told him we didn't think it was worth  
cultivating, as nothing would thrive on  
it. I was surprised when he said it  
was. He said he had seen the land  
watered in his country it would be  
titled. In his opinion, alfalfa would  
thrive on the sandy plains of the upper  
peninsula and small fruits could be  
raised if given proper attention. Alfalfa  
sending roots down three feet or more  
depth, and is deep enough to reach the  
water at most any point in that part  
of the country."

**Luce County Loggers Busy—**  
A representative of the Newberry  
News visited M. McPhee's and Lennox  
& Shafter's lumber camps last week  
and found the crews at both camps hust-  
ling out the season's cut and getting  
ready for the spring break-up. Nearly  
thirty men are employed and have a big  
bunch of timber at the banking grounds.  
Mr. McPhee has nearly a million feet of  
white pine on the Tiquamenon for Ches-  
brough Bros., and he is now banking  
along the South Shore tracks for the  
St. Ignace Cedar company. This latter  
timber including some 400 cords of  
spruce, 60,000 ties and a large quantity  
of posts and poles. Mr. McPhee is now  
busy putting in hemlock logs and expects  
to have upwards of 200,000 banked be-  
fore the break-up occurs.

**Shafter has a Big Camp, but has been  
operating on a small scale, owing to  
the depression in the lumber market.  
They have a crew of twenty men and  
are banking along the D. S. S. & A.,  
where they have a half million pine and  
hemlock, 3,000 cedar cuts, 3,000 ties, and  
several hundred cords of pulpwood and  
a considerable quantity of posts and  
poles. Mr. Lennox stated that he ex-  
pected to finish his operations and break  
camp within the next week. He is con-  
sidering a rather novel departure for the  
McPhee camp, and will endeavor  
to colonize his lands as fast as the tim-  
ber is taken off. He is now in commu-  
nication with ten families in the east and  
expects to locate them on his lands this  
coming spring. Carlson & Johnson are  
also operating a set of camps near the  
McPhee camp. They are hauling logs  
to the mill of the St. James Cedar com-  
pany on the Tiquamenon river and are  
banking their posts, ties and pulpwood  
along the south at Felson siding. They  
have got out a large quantity of tim-  
ber and will clean up a nice bunch of  
money for their season's work.**

**ONE'S WIFE'S FRIENDS.**  
The Kind That She, on Her Part, Has to  
Dinner.

"No one can remember when it was  
that the first woman complained of the  
friend that her husband invited some-  
times to dinner. It must have been a  
very long time ago.

And all these years men have gone on  
suffering from this imputation. It has  
indeed been a standing joke that no man  
has a right to bring home a friend to  
dinner that his wife doesn't know about  
beforehand.

But how about the other side of the  
affair? How about the friends that  
one's wife brings home to dinner? No  
word of protest has yet been raised by  
husbands. But is it not time that some-  
thing was done about it?

There are a great many schoolmate your  
wife hasn't seen for years. She comes on  
to spend a couple of weeks—or even a  
month—in the height of the business  
season, when, if there is anything else  
you desire, it is quiet and peace in your  
home.

The chances are that she is the nicest  
kind of person—reckless with culture  
and, doubtless, enthusiastic about the  
opera—which you detest—and the strain  
of appearing well before her becomes  
more and more intense as the days roll  
by, until at last you throw off the mask  
and say your natural self. This, of  
course, calls down upon you your  
wife's condemnation, and when her  
friend departs, at last she declares, with  
tears in her eyes, that she will "never  
have her again."

Then there is the silent dressmaker  
that your wife has at regular intervals  
it is a pity that she should eat at the  
same table with you. On the other  
hand, there is no reason why she should  
be able to even much better things than  
you are able to provide. Then why not  
And she does.

If you cannot mind about this  
it would stamp you as a narrow-minded  
brute to assume for an instant that she  
isn't as good or better than you are. As  
a matter of fact, this thought has never  
occurred to you. It isn't because you  
feel any superiority that you wish your  
wife to explain all to you. It is because  
she tosses her head in the air and  
says: "If you think you can afford  
to have all my gowns made outside  
why, very well."

Among others whom your wife brings  
home to dinner without asking your  
consent is the president of the Woman's  
club, the minister's wife, the intimate  
friend in the next square whose husband  
is away on important business, and with  
whom you are obliged to walk home af-  
terward, standing meekly on the front

porch until she says that it's all right.  
There is the trained nurse your wife had  
during her last illness, the teacher of  
music, who comes of a "fine family,"  
and the nice old lady who used to live  
next door to your wife's mother.

You snub before them all. But when  
some morning you timidly assert that  
your old friend Jake Pratt is in town,  
and if she doesn't mind you will have  
him out to dine, and she gives you a  
stony stare and says that she has put  
up with that sort of thing just as long  
as she is going to live in the province—  
you wonder at the ways of Providence  
and, if, after all, the ways of women are  
always justified.—New York Times.

**MUFFS FOR HUNTERS.**  
Not Uncommon in Germany—Some With  
Cartridge Pockets.

A muff is a recognized article of attire  
for German sportsmen. Not that every  
sportsman carries a muff, but the wear-  
ing excites no more surprise than the  
wearing of a pair of fur kid gloves. It  
is quite as efficacious as fur lined gloves,  
and the hands are disengaged in a mo-  
ment.

In turning over the pages of German  
periodicals devoted to sport and natural  
history one continually meets with il-  
lustrations of shooting or stalking scenes  
in which some of the members of the  
shoot are carrying muffs as un-  
concernedly as they do their field glasses.  
Muffs of this kind are exposed for sale  
in the shop windows of those outfitters  
who devote themselves specially to sup-  
plying the needs of sporting men. Per-  
haps more is made of them as a par-  
ticular line in Berlin than in provinces,  
but they may be bought just as readily  
in Breslau, Dresden, Munich, Leipzig,  
Hannover or Hamburg as in the capital,  
and the appearance of a muff carrying  
sportsman, even if he were in a hope-  
less minority, would excite no remark  
even from outsiders in the provinces or  
in the neighborhood of Berlin.

These muffs are carried on a cord pass-  
ing around the neck or strapped around  
the waist, and some have a pocket in  
front which serves to hold cartridges.  
Those in general use have the merit of  
heaviness as well as of warmth, for the  
prices of stock goods range from 5s to  
15s, though no doubt more expensive  
muffs are to be bought. Thus the lowest  
mentioned price will buy a serviceable  
muff of green felt, the same material  
of which shooting coats and pelmets  
are made, lined with white lambskin.

For an extra couple of shillings one  
can have a similar muff with a pocket  
in front. Ten shillings is the price  
of a carskin muff trimmed with tal-  
lined with sheepskin and having a pocket  
for cartridges.

A foxskin muff of similar pattern, or  
ornamented in front with a mask, is to be  
had for 15s. Covering the front with  
the skin of the common seal brings the  
price up to 12s. 6d., while the 15s. ar-  
ticle is covered with brown leather and  
the pocket flap ornamented with two  
order loops.

**PRESIDENT TAFT'S AUNT.**  
Nobody enjoyed the Taft inauguration  
more than Miss Delia C. Torrey of Mil-  
burg, Mass., the president-elect's aunt.  
It is safe to say also that Mr. Taft  
himself derived as much real pleasure  
from the happiness of this relative as  
from any other source on inauguration  
day.

Miss Torrey is 82 years old. Mr. Taft  
described her as the only representative  
of the last generation of his family and  
as one of the dearest women in the  
world. The president-elect went fur-

**TO CURE A COLD IN ONE DAY**  
Take LAXATIVE BROMO QUININE Tab-  
lets. Druggists refund money if it fails to  
cure. E. W. GROVE'S signature is on  
each box. 25c.

**What Ails You?**

Do you feel weak, tired, despondent, have frequent head-  
aches, coated tongue, bitter or bad taste in morning,  
"heartburn," burning of face, acid risings in throat,  
caring, stomach gnaw or burn, loss of breath, dizzy spells,  
poor or variable appetite, nausea at times and kindred  
symptoms?

If you have any considerable number of the  
above symptoms you are suffering from bilious-  
ness, torpid liver with indigestion, or dyspepsia.  
Dr. Pierce's Golden Medical Discovery is made  
up of the most valuable medicinal principles  
known to medical science for the permanent  
cure of such abnormal conditions. It is a most  
effective liver invigorator, stomach tonic, bowel  
regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum,  
a full list of its ingredients being printed on its bottle-wrapper and attested  
under oath. A glance at these will show that it contains no alcohol, or harm-  
ful habit-forming drugs. It is a fluid extract made with pure, triple-refined  
glycerine, of proper strength, from the roots of native American medical,  
forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

**Common Sense**

tells us—"Something for nothing is  
seldom found"—and cigar buying is  
no exception.

Some so-called 5-cent cigars retail  
7 for a quarter.

They are possibly worth that much  
—just 3¢ each—but no more.

The high quality of CONTRACT  
cigar costs more to produce—the  
dealer, not the smoker, pays more.

**MAKING A FISHING ROD.**  
Queensland woods have lately come in-  
to fashion in the making of fishing  
rods. The South American greenheart  
was imported into Australia and New  
Zealand extensively formerly, but this  
has been superseded by the woods of the  
Queensland forests, which furnished ma-  
terial for the building of a very effective  
rod, and there is talk of establishing an  
export trade. The following description  
of a fishing rod made from these Aus-  
tralian woods illustrates the point. For  
the butt black wood was employed. This  
is a dark colored, nicely figured, close  
grained timber, very hard and heavy. It  
is used chiefly as a substitute for the  
walnut and has been turned to advan-  
tage in gun stocks, joinery and cabinet  
work and can be carved for panels. The  
middle joint was of spotted gum, one  
of the myrtaceae. It is a graysish  
straight; the grain, while often perfectly  
straight, is occasionally interlocked; it  
is hard, tough and elastic, and is much  
used for the making of spokes, shafts,  
piles, axe handles, rims and many other  
purposes. The top joint was constructed  
of a red gum, a straight fibred tough  
wood, which, although heavy, may be  
worked freely. This is another valuable  
and common wood, being largely em-  
ployed in the construction of carriages,  
ships, buildings and bridges.—London  
Field.

## DIFFERENCES ADJUSTED.

Hubbell Council Will Probably Hold Its Next Meeting in New Hall.

The differences between the Hubbell council and Contractor Brown concerning the new village hall have, it is announced, been adjusted and the village is to accept the structure at the meeting this week. The terms upon which the agreement was reached have not yet been given out. Upon the completion of the building a fortnight ago, the council declined to accept it. The councilmen asserted that the structure had not been built in accordance with the terms of the contract and they criticized the quality of materials used in portions of the building. At the meeting at which the matter was discussed the council authorized the village clerk to notify the contractor to remove the building from the site upon which it stood and which is village property. Contractor Brown did not remove the building. On the contrary, he hung upon its front door a placard reading "For Rent." It was about this time that new negotiations were entered into and the council will now probably hold its next meeting in the new hall.

## CAUCUSES OF HOUGHTON COUNTY TOWNSHIPS TO BE HELD SHORTLY.

Township caucuses throughout Houghton county and the ward caucuses in the city of Hancock are to be held within the next ten days. In Hancock the political situation is in a more tangled and more doubtful state than it has been in many years, and as there are numerous contests in the townships, interest in the coming elections is quite general.

At stated some time ago, three tickets are to be placed in the field at Hancock—the People's, Citizens' and the Administration or Republican ticket. When the important candidates on these tickets will be is somewhat in doubt. Mayor Scott will probably run for re-election and will seek the nomination at the Republican convention. Alderman W. F. James, it is reported, will oppose him. The name of E. M. Lieblin is also mentioned. The present administration. The People's party is said to be composed of the socialistic element. The Republican convention will be held next Tuesday night at the city hall. The Citizens' convention will take place on Monday at Bonham Hall and the People's convention will be held a week from tomorrow night at the Scott block hall.

Freemason caucuses in Franklin township will be held at the various locations tonight. These locations are Franklin, Ripley, Arcadia, Boston and Franklin Junior. The township convention will be held at the Quincy hall Thursday evening. The caucuses in Torch Lake and Schoolcraft township will be held at the same place. There are many contests for the various offices. This is so also of the situation in Adams township, where are located the range towns of Atlantic, Baltic, South Range, Trimountain and Painesdale.

## M. E. MEETINGS.

A Rally at Hancock Next Month—Quarterly Conferences.

The second of an annual series of Methodist Episcopal rallies will be held at the Hancock church Friday, April 16. The meeting will be for the benefit of all of the M. E. congregations of the copper country, and each will be invited to attend. The practice of holding these rallies was inaugurated by Rev. James Pascoe, superintendent of the district, the first one taking place at Laurium last fall. At the meeting in Hancock special speakers will appear and an interesting program will be given. The meeting will be followed by a banquet.

Superintendent Pascoe has just announced the dates for the M. E. conferences of the third quarter, which has just begun. The conference dates and places are as follows: Baltic, March 23; Atlantic, March 24; Hiramtown, March 25; Mohawk, March 27; Tamarack Mills, meeting, March 28, p. m.; Boston, March 29; Laurium, March 30; Alouez, March 31; Painesdale, April 3; Trimountain, April 5; Centennial, April 7; Koffars, April 8; Gwinn, April 10; Austin (meeting), April 11, a. m.; Princeton, April 11, 2:30 p. m.; Lathrop, April 30; Maple Ridge, April 12, p. m.; Ishpeming First mission, April 13, p. m.; Ishpeming First church, April 13, 8 p. m.; National Mine, April 14; Sildav, April 15; Marquette, April 17; Houghton, April 19; Hancock, April 20; Pewabic, April 21; Republic, April 24; Calumet First church, April 26; Tamarack, April 27; Champion, May 1; Michigamme (meeting), May 2, a. m.; Amasa, May 3; Crystal Falls, May 6; Iron River, May 7; Iron Mountain First church, May 8, p. m.; Iron Mountain Central, May 8, 8 p. m.; Calumet First mission, May 14; Lake Linden, May 15; Point Mills, May 16, 3 p. m.; Dollar Bay, May 16, p. m.; Winona, May 18; Sildav, May 21; Hessemer, May 22; Wakefield (meeting), May 23, p. m.; Jesseville, May 24; Ironwood First mission, May 25, 7 p. m.; Ironwood First church, May 25, 8 p. m.; Bergland, May 26; Even, May 27; Baraga, May 29; Alston, May 30, a. m.; L'Anse-au-Loup, May 31; Greenland, June 4; Mass City, June 5; Rockland, June 6, p. m.; Victoria (meeting), June 6, 3 p. m.; Ontonagon, June 7.

Construction work is progressing rapidly at the Hancock stamp mill at Tamarack City, near Hubbell, and as the weather moderates the forces of workmen will be increased. A large portion of the structural iron has been put in place, and it is expected that this work will be completed within the next sixty days.

## CLUB COMMITTEES NAMED.

Chicago University Lecturer to Speak in Calumet Thursday Night.

The newly appointed committees of the Calumet Women's club are: Civic committee, Mrs. Pauline Wetzel, chairman; Mrs. Margaret Anderson, Mrs. L. Gregg, Mrs. Anna L. Vivian and Miss Luby Dava. These members will serve until Oct. 1. After that date the committee will be composed of Mrs. Bell Dava, chairman; Mrs. Ingaborg Gullberg, Mrs. Maud Carlton, Mrs. Emily McLeod and Mrs. Marie Johnson. The program committee is made up as follows: Mrs. Eunice McRae, chairman; Mrs. Ruth Hartman, Mrs. Elizabeth Kratz, Mrs. Emma Uren, Mrs. H. Hallingby and Miss Edwina Daniels. The entertainment committee has Mrs. Minnie Baldwin as its chairman, and Mrs. F. Kohlman, Miss Lottie Childs and Miss Marie Paul as the other members.

The next entertainment of the Lyceum course being given by the club will be at the Calumet theater Thursday night. It will be a lecture by Dr. Robert L. Willett, who is connected with the extension work of Chicago University. The club had made arrangements for the appearance upon this date of Maud Ballington Booth, daughter of the founder of the Salvation Army, but as Miss Booth was obliged to cancel her lecture tour Dr. Willett was secured in her stead. Dr. Willett is a public speaker of national fame and is known particularly for his presentation of Biblical and literary subjects.

## NEED \$6,000 TO REBUILD.

Member of Laurium M. E. Church Start Campaign to Raise the Sum.

The proposed rebuilding of the Laurium Methodist Episcopal church is dependent in a measure upon the success of a campaign now being carried on by members of the congregation to raise the sum necessary to do the work. It is estimated that about \$6,000 will be required. The trustees hope to be in a position to begin the rebuilding work early in the summer, and there is reason to believe that it will be successful. Plans for the work are now being considered.

The church is to be greatly enlarged. The addition of not less than thirty-two feet will be built. Galleries also are to be added and the seating capacity enlarged to care for at least 1,000 persons. The basement is to be entirely re-arranged so that separate rooms for each department of the Sunday school will be provided, and an entirely new heating plant is to be installed. The young people of the church are giving aid and raising funds through entertainments and social affairs.

## BOXING BOUT AT LAKE LINDEN.

It is announced that the boxing bout between Jack Parros and Al Allard, the Lake Linden fighter, which has been talked of from time to time for the past several weeks and postponed once or twice will take place the evening of April 17. The fight will be in Lake Linden and will be the second that the two men have had within recent months. Allard and Parros have met before and upon the former occasion the decision went to the Torch Lake man. It is stated, however, that since that time Parros has had much ring experience and is now able to give a better account of himself. Both men have many supporters.

## FIRST BOAT DUE SOON.

Marine forecasters have begun to hazard guesses upon the opening of navigation in Portage lake and not a few of them are fixing the date of the arrival of the first boat. To aid this it may be stated that the earliest opening of navigation within the past fifteen years was in 1892. In that year the steamer Bon Ami arrived April 4. The latest opening was in 1893. The first boat that season was the Joseph L. Hurd, which arrived May 9. Last year the first boat was the Belle Cotton, which docked at Houghton April 22. The year before the Stanton was first, arriving April 29.

## BASEBALL LEAGUE PROJECTS.

Baseball men in the various towns of the copper country are talking about organizing a trolley league for the coming season, and meetings are to be held this week for the purpose of discussing the project. The probable membership of the league would include Houghton, Hancock, Laurium, Calumet, Lake Linden and Hubbell. A similar project upon which the Calumet Y. M. C. A. is working is the organization of a six-team league to play indoor baseball out doors during the summer months.

## MILL WORK PROGRESSING.

Construction work is progressing rapidly at the Hancock stamp mill at Tamarack City, near Hubbell, and as the weather moderates the forces of workmen will be increased. A large portion of the structural iron has been put in place, and it is expected that this work will be completed within the next sixty days.

## COPPERDOM BREVITIES.

A son has been born to Mr. and Mrs. Leon Doust of Hubbell. Mr. and Mrs. E. C. Smetherman of Mohawk have left for a visit in Chicago. Miss Julia Downey of Hubbell is a patient at the Lake Superior General hospital. George E. Ross of Hancock is returning from a trip to Detroit and Eastern points. James B. Burrell of Calumet has gone to Hot Springs, Ark., for the benefit of his health. Mr. and Mrs. K. J. Schwartz of Milwaukee are paying a visit to relatives in Houghton. Joseph Skelly of Laurium, who has been visiting at La Grange, Wis., has returned home. Mrs. E. B. Spencer of Houghton has returned from a trip to Chicago and points in the East. Theodore Jacka, son of Duke Jacka, of Calumet, is suffering with a broken arm, due to a fall. Rev. W. M. Ward, pastor of the Laurium M. E. church, is to deliver an address at the Hancock church Friday evening. His subject will be "Robert E. Lee."

# ROYAL Baking Powder

ABSOLUTELY PURE  
Where the finest biscuit, cake, hot-breads, crusts or puddings are required Royal is indispensable. Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions.

Royal is the only Baking Powder made from Royal Grape Cream of Tartar—made from grapes—

Edward J. Pearce of Houghton is preparing to leave for the West, for the benefit of his health.

Mr. and Mrs. C. B. Saxby of Hancock have returned home after an extended trip through the South.

Mr. and Mrs. Alfred Anderson of Pequaing are in Houghton, visiting at the home of Martin Kratz.

Louis Gipp, who has been living in the West for the past four years, has returned to his former home in Laurium.

St. Andrew's society of Calumet is to give a concert and entertainment at its rooms on Calumet avenue this evening.

Edward Lewis of Atlantic left yesterday for Raleigh, N. C., and intends to spend the next ten days there on business.

The young daughter of Fred Reel of Hancock is suffering with a broken arm. The child slipped on the kitchen floor.

The proceeds from the supper given last week by the ladies of the Lake Linden Congregational church amounted to \$80.

The Ladies' Aid society of the Peawabic M. E. church will be entertained this evening at the home of Mrs. George Francis.

Professor Thomas Wills of Calumet is in the iron country, to give a series of illustrated lectures. He will speak at Ishpeming tonight.

The board of education of District No. 2, Calumet township, is planning to build a school house at the Copper City location the coming season.

Master Tompkins is at St. Joseph's hospital, Hancock, in a serious condition from injuries received in a blasting accident in the Quincy mine.

Mrs. Henry L. Conrad of Lake Linden has gone to Flint, Mich., called there because of the serious illness of her mother, Mrs. Emma Hurd.

The Quincy cricket organization intends to give a concert early next month. A meeting will be held next Saturday when the details will be outlined.

Representatives of the state military board are to inspect the U. S. S. Yankee and its crew April 10. Preparations are now being made for this inspection.

Mrs. E. W. Taylor, who has been visiting relatives at Sibleygan, has returned to Hancock. She was called away on account of the death of her mother.

It is stated that Chu Dar Wong, a representative of the Chinese imperial government, is to pay a visit to the copper country shortly. He is interested in mining.

Fred Polgaze, who has been employed in the stamp mills at Lake Linden for several years, left yesterday for Redoubt, Cal., where he intends to locate. His mother preceded him there.

Important improvements are planned for the Peawabic M. E. church this summer. A hardwood floor is to be laid and an alcove addition, which will house a new piano organ, is to be built.

Anton Hammes of Rockland, an employe at the Michigan mine, fell off a skip last Saturday and dropped three hundred feet down the shaft. He is survived by a widow and several children.

The wrestling match between "Kid" Hyman of Duluth and Ole Nelson of Calumet, which was scheduled to take place at Calumet Saturday night, was postponed. It may occur next Saturday night.

Henry Taurannien of Laird township was fined \$15 and costs in the court of justice of the Peace Oliver of Hancock for killing deer out of season. He was arrested by Deputy Game Warden St. Clair Wilson last Friday.

Copper country sportsmen have been notified that the legislative hearing upon proposed changes in the game laws will be held next Thursday, and they have been asked to request their representatives to attend the hearing.

The last basketball games of the inter-township league will be played this week. A game is at the head of the list, having won five of six matches, and will probably land the championship, though Calumet still has a chance.

In the township elections this year there will be no election of school inspectors. This is by reason of the fact that the office of school inspector in the various townships has been abolished by the state's new constitution.

Secretary George D. Westerman, of the Y. M. C. A. at Calumet, left for Detroit yesterday, to attend a conference of Y. M. C. A. secretaries to be held there this week. He will deliver an address upon "Educational Work."

The Worcester Lumber company of Hancock intends to build a logging railroad that will extend for a distance of about twenty miles southwest of the village. The road will extend toward Laird and will tap a district rich in timber.

Officials of the Hancock indoor baseball league intend to make an effort to do away with unnecessary noise at the league games. At some of the recent contests delegations of fans, armed with bells, horns and other noise-making implements, have been present.

This Will Interest Mothers  
Mother Gray's Sweet Powders for Children, a certain relief for Fevers, Headaches, Bad Stomach, Teething Disorders, and regulate the Bowels and destroy Worms. They break up Colds in 24 hours. They are so pleasant to the taste and harmless as milk. Children like them. Over 20,000 testimonials of cures. They never fail. Sold by all druggists. Ask today. Don't accept any substitute.

so strong that they have interfered with work in the engine room and blacksmith shop on the surface, so that it became necessary to erect a large fan at the mouth of the shaft to carry the gas away.

The Amalgamated is shaft-sinking on the Diamond, Leonard, Badger State and Right Bower. The Diamond shaft is about 2,450 feet deep and it cut through a vein of low grade ore near the 2,300-foot point, the lowest working level of the Diamond is the 2,200-foot. The new Leonard shaft is down about 1,650 feet, and the Badger State about 1,000 feet, while the Right Bower, which was started only a few months ago, is 200 feet deep and is being sunk for the purpose of exploring a new lot of Amalgamated ground on the eastern slope of the Anaconda hill.

At the Gagnon mine the company has sunk the shaft to the 2,300-foot level, at which depth the vein is being opened, and from which a very superior grade of ore is being mined, the best, really, that has ever come out of the Gagnon mine. The company is also mining the Gagnon on the 1,900, 2,000, 2,100 and 2,200 levels. Miners report that the Gagnon is constantly improving and if it keeps up its rate of improvement will soon be one of the important mines of the Amalgamated company.

The 2,000-foot crosscut of the Parrot mine has gone through the vein, and the vein is now being developed on the two new levels, known as the 1,900 and the 2,000. Actually the latter is between 2,100 and 2,200 feet below the surface. The best that officials will say about the new levels is that they "look good" and are "showing up well." The Little Mina shaft of the Parrot company has been completed to the 1,200-foot station and the station is being finished. When it is completed the crosscut to the vein will be started, but as it is fully 200 feet from the shaft, it can not be reached for probably three or four months. The vein on the 1,000-foot level is being opened, and while it shows up well, the ore is rather "bunchy."

At the High Ore mine of the Anaconda company a blower for ventilation has been installed on the new level being opened at a depth of 2,800 feet, the deepest working in the Butte district. As the level is not connected with any other mine working, the ventilation has been had. A crosscut is being run both north and south but has not yet reached a vein. The Anaconda company has not yet completed the enlargement and re-tilting of the Belmont shaft from the 1,000-foot point to the surface, but the work will probably be completed within another month. The 1,000-foot level of the Belmont is connected with the 1,600 of the Anaconda mine, the shaft of the latter being situated about a mile north of the Belmont shaft. It is understood that the Belmont will eventually be made the main working shaft of the Anaconda for all the hill mines, and it is possible that the Anaconda shaft will never be used again for mining.

The Anaconda is mining some good ore from the Parrot mine through the Buffalo shaft. The Parrot is a good mine and opened to a depth of 800 feet. The Boston & Montana company is shipping about 3,500 tons of ore to the Great Falls smelter daily. The work of enlarging the latter plant is still going on and when completed the smelter will be able to treat about 5,000 tons of ore per day.

The population of Russia is increasing at the rate of 2,500,000 per year.

James McClure, who a few months ago completed building a row of flats on Seventh street, Calumet, is to build another row at the rear of the first one. The property has a depth of 115 feet and scarcely half of this was used when the first row of structures was built.

The pastiche through which residents of the Osceola location in the Calumet district receive mail, and which in the past has been known as the Osceola office, will after April 1 be known as the Osceola office, the change having been authorized by the department at Washington.

Mr. and Mrs. S. J. Hollister of Lake Linden have notified that their daughter, who went to the Philippines about seven years ago to become a teacher, and who was married there, will visit at her old home some time this spring. She is now Mrs. Margaret and has two sons. Mrs. McCosker is just now visiting in southern California.

Committees of Houghton are making preparations for the observance of Good Friday. The members of the lodge will attend church services in a body, after which, headed by a band, they will parade to one of the balls of the city, where the main working shaft is being opened, and when completed the smelter will be able to treat about 5,000 tons of ore per day.

**RAVEN TO REORGANIZE.**  
The Raven Mining company is to be reorganized. What form the reorganization will take has not yet been determined, but if the views of some of the old stockholders are taken into account the reorganization will perhaps begin with an assessment added. The Raven is almost entirely surrounded by producing Amalgamated mines, besides which the Raven owns three-fourths of the Snoozer, a property developed to a producing stage, but because the Butte Coalition company owns the other fourth the Raven cannot mine it without the consent of the co-owner, which is withheld. Apparently there is no property in the Butte district that is not actually producing that has greater prospects of developing into a copper producer than has the Raven mine. The shaft has reached a depth, on an incline, of 1,350 feet. The vein has been partially opened on the 1,100 and 1,200, and it shows a gradual and certain improvement in mineral contents, especially in its copper. The Buffalo mine of the Anaconda company adjoins the Raven on the east and it is one of the Anaconda company's good mines. Many Raven stockholders hope that the reorganization will be along plans that will take in the Old Glory claim, a property line between the Raven and the Snoozer, or that some arrangement can be made with the Coalition company for the organization of a company that will take in the Coalition interest in the Snoozer. The Old Glory owners are anxious to go into a new company with

the Raven, and with the Snoozer in also, the Raven could be made an important producing company very quickly.

**NOTES OF COPPER NEWS.**  
The North Lake is continuing exploratory operations without interruption. Two diamond drill outfits are in service. No important results have as yet been obtained from recent operations.

It has been decided by the directors of the Superior & Pittsburg and Calumet & Arizona Mining companies in the future to announce the monthly products separately instead of making the joint announcement of the output of the two mines about the first of each month. This will delay the announcement for several weeks. For the month of January the production as announced officially for the Superior & Pittsburg was 2,000,000 pounds of copper. For February it was 1,900,000 pounds. The January production for the Calumet & Arizona was 2,380,000 pounds, and for February it was 2,392,000 pounds.

**PISO'S**  
Throat and Lungs  
Prevents colds, cures coughs, soothes inflamed throats, relieves asthma, and cures all lung troubles. It is the only medicine that cures all these ailments. Pleasant to take. Free trial bottles. At all druggists, 25c. etc.

# RAY CENTRAL COPPER

FOR MORE THAN A YEAR WE HAVE BEEN PUBLISHING OUR SPECIAL COPPER LETTERS, ANALYZING PROPERTIES, DETERMINING SECURITY VALUES, AND DEMONSTRATING THE METAL'S MARKET POSITION; THAT OUR CONCLUSIONS HAVE HAD WEIGHT IS EVIDENCED BY THE FLATTERING RECEPTION ACCORDED THESE REVIEWS, AND THAT IN EACH INSTANCE FAVORABLE REPRINTS HAVE BEEN NECESSARY TO FILL INSISTENT AND GROWING DEMANDS. FROM THE BEGINNING OF OUR SPECIAL ATTENTION TO COPPER WE HAVE SCANNED THE FIELD THOROUGHLY FOR AN OPPORTUNITY TO PLACE BEFORE THE PUBLIC A GREAT COPPER IN ITS INITIAL STAGES:

Ray Central conforms to each of these requisites. The Mining of Copper today is an economic and purely commercial business, dependent for success upon manufacturing costs against selling prices. Natural advantages, such as water in plenty, ore deposits easily handled and in tremendous volume, transportation facilities unexcelled, electric power, oil as fuel and many other favoring factors exist in Ray Central to sharply contrast it with other properties of a less fortunate environment.

So keen are these commercial factors that great financial strength, strong executives and the best engineers are necessary for the fullest measure of profits in coppers; in any and all of these Ray Central is second to none, and offers, in our judgment, an investment attraction so marked that its future worth will admit of few parallels.

**PAYING POULTRY**

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry—making it pay, yet poultry, exactly the same as with stock—horses or cattle—you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACKAGES FOR \$1.00.

Today's weather: Probably fair; stationary temperature.

Yesterday's temperature: Seven a. m., 19 degrees; noon, 33; 7 p. m., 30. Maximum, 34 degrees; minimum, 19.

A. O. Jopling was a Chicago passenger last evening.

R. Eddy Mathews went to Duluth last night, on business.

Mrs. Louis Donckers left yesterday afternoon for Detroit.

Louis Getz has returned from his purchasing trip to Chicago.

A regular meeting of the Knights of Columbus will be held this evening.

Fred Bailey, who has recently been very ill with erysipelas, has gone to Escanaba for a visit.

M. A. Murphy, of Virginia, Minn., has returned to his home after spending several days in this city.

Mrs. A. H. Palmer left last evening by way of Chicago for Jackson, where she will spend three weeks with her parents.

Mrs. Emma Kiel, who has been ill for some time, has been taken to St. Mary's hospital and her condition is considered serious.

Miss Alice Stewart, who has been attending a boarding school at Faribault, Minn., is spending a short vacation with her parents.

J. H. Schildgren, formerly with Frazer & Oppenheimer, of State street, Chicago, has accepted a position with Jacob Rose, as salesman in the shoe department.

Miss Leona Brall is now assistant chief operator at the Marquette exchange of the Michigan State Telephone company, having taken the position left vacant by the resignation of Miss Elsie Beauchamp.

Death of Infant—The funeral of Irene Trudeau, the three weeks old daughter of Mr. and Mrs. John Trudeau, was held yesterday afternoon. The little one died Sunday of pneumonia.

Both Marquette Teams Lost—The Marquette city indoor ball team lost to the Negaunee Union at Negaunee last evening by the score of 11 to 13. The Marquette Eagles at Braastad's Hall by the score of 7 to 14.

Buy a Ford Car—Edw. J. Sink has placed an order with E. Eddy Mathews for a Ford touring car, and expects to have his machine here in May. Mr. Sink has purchased the car mainly for use between Marquette and his camp up the shore. This road of fifteen miles, including the Sugar Leaf hills, is known to be about the roughest piece of road in the county, and Mr. Sink has demonstrated to his entire satisfaction that the "Ford" will do the work. The car is the same as the one now being shown about the city by Ed. Mathews.

Continued Until April 7—The six Marquette saloon keepers, against whom warrants have been issued for keeping their places of business open on Sunday, went to Ishpeming yesterday, for their preliminary hearing before Justice Andrews. Rev. Mr. Rutledge, the complaining witness, was not present at the hearing, and their cases were continued until April 7. Prosecutor Attorney Bell stated last night that the liquor dealers all asked for an examination. Rev. Mr. Rutledge states that the necessary witnesses will be forthcoming on that date.

At the Grand—The vaudeville attraction at the Grand theater this week is Besley & Williams and Baby Violet. Besley makes up as a colored comedian and does some clever work on the banjo. His partner is a rather pretty lady, and the two have a long string of jokes, interspersed with some singing. Baby Violet looks to be four or five years old and sings a fetching song. The moving pictures consist of a large number of vivid scenes of the Sicilian earthquake, which are instructive if not especially cheerful, and of two other pictures in lighter vein. The vaudeville artists will remain all week, and a new act is promised every other day.

Water Perfectly Safe—The report of the state bacteriologist, M. L. Holm, of Lansing, on the sample of water received from Superintendent John Kern March 16, states that "this water shows no evidence of contamination and is a perfectly safe drinking water. No color, odor, turbidity or sediment was found in this sample and it contained no intestinal bacteria. The sample contained 665 parts per million of free ammonia; .04 parts per million albuminoid ammonia; .002 parts nitrites; .01 parts nitrates, and three parts chlorine. This is the most favorable report on the city water received for several months.

Retreat at French Church—Reverend Father Barth, of Stephenson, is conducting a three-days retreat at St. Jean de Baptiste church for the young people of the church. The retreat began with a service last evening. It is being conducted in English. Instructions are given at 8 o'clock in the morning and at 7:30 o'clock in the evening. Masses are held at 5:30 and 7:30 in the morning. Although these services are especially for young people, the seats are free to all. Father Barth is well-known in this city, having lived here before he took his orders for the priesthood. He is especially fitted for conducting retreats and missions, and has recently conducted similar services at Madison, Wis., and Notre Dame, Ind.

INSURE WITH PETER WHITE & CO. BIG EXCURSION PLANNED.

Copper Country Club Coming to Marquette on the "Theodore Roosevelt."

It is announced that the D'Haberville club, of Lake Linden, has engaged the "Theodore Roosevelt," said to be the best equipped pleasure boat on the Great Lakes, to make an excursion trip to Marquette Sunday, June 13, and the following day to Port Arthur. This will be the first trip of Michigan's greatest pleasure craft into the harbor of Marquette. The Lake Linden club has undertaken a large obligation in arranging this excursion, as the owners of the boat have required a guarantee of \$2,500 for the two days' business. The club plans to make the two excursions the finest that ever went out of the copper country.

In the arrangements of the passenger accommodations on the "Theodore Roosevelt" every convenience has been provided and the furnishings are of the best. Boarding the ship on the main deck aft,

the visitor enters the social hall. This is a commodious room finished in mahogany and with a hardwood floor for dancing. The steamer carries its own orchestra to provide for dancers. Facing the social hall on one end is the lunch counter and on the opposite side the purser's office and parcel check room. Forward of the social hall is the powerful engine enclosed only four feet above the main deck with a wide mahogany rail on top of the plating. This has been arranged so passengers may watch the machinery. On the main deck forward are the palm garden and crew's quarters. Below same on orlop deck is the finely finished buffet.

Leading from social hall to spar deck is the main stairway to cabins. These are finished in mahogany and the entire length of cabins have side seats upholstered in leather, an innovation due to the absence of staterooms. In the after cabin are the music room, periodical stand and library, soda fountain and two luxuriously equipped private parlors. Cabins being free of staterooms, the walls are fitted with drop glass windows providing thereby light airy saloons and permitting of passengers traveling in-doors, as well as allowing them an unobstructed view of the water. The passageway around the outside of the cabins is six feet in width, wider by a number of feet than on other ships. Above on the promenade deck the passageways are twelve feet in width. Passengers' seats may remain on and not be disturbed by others wishing to pass back and forth.

The club is giving these excursions for a benefit, therefore they should receive a liberal patronage from the people of the copper country who will have their first opportunity to make a trip on this new and safe pleasure steamer.

**MARQUETTE TELEPHONE MAN EDITS MAGAZINE**

FEBRUARY NUMBER OF MICHIGAN STATE GAZETTE FROM THE PEN OF K. S. BAKER AND HIS ASSOCIATES.

The February number of the Michigan State Gazette, the official organ of the Michigan State Telephone company, was edited by the employees of the Marquette Division, K. S. Baker, of this city, being the editor-in-chief. The magazine consists of sixteen large and profusely illustrated pages, being three pages larger than any number heretofore issued. The cover frontispiece bears a fine portrait of Mr. Baker and the issue is almost entirely taken up with the doings of the Bell telephone exchanges in the upper peninsula. The history of the Bell company in Marquette, St. Ignace, Menominee, Houghton, Sault Ste. Marie, Ontonagon, Iron Mountain, Ironwood, Escanaba, Mackinac Island, Sault Ste. Marie, Gladstone and other upper peninsula towns is outlined in an interesting manner. There are also interesting articles by Wire Chief Frank Sullivan and W. J. Chilton, telegraph supervisor, both of this city. The number is exceedingly well edited and interesting, and one in which Mr. Baker and his assistants may justly take pride. Among the attractive illustrations are a group of the Marquette "hello" girls, the Marquette wiremen and linemen of the Escanaba exchange, the Calumet & Hecla private branch exchange and the original and the present offices of the company in Houghton.

Following is reprinted the account of the growth of the company in this city:

Telephone History of Marquette.

"The Hon. Peter White was the pioneer in adopting a telephone in the city of Marquette. As early as 1879 he and others built a magnet system, and on March 13 installed in connection with this system the Edison Blake transmitter.

"Among the early subscribers to the exchange were Peter White, J. W. Spear, C. H. Call, D. H. Merritt, James Pickands, Samuel Schuch and others whose names stand today on many of the greatest enterprises of the upper peninsula.

"The first manager was F. P. Mills, Jr., of the Cleveland mine, Ishpeming; and the first lineman, John E. (Yankee) Sullivan. At this early date Ishpeming and Negaunee were in communication with Marquette. This meager system satisfied the people until James E. Dea, of Houghton, who might be truthfully called "the father of the telephone in the upper peninsula," induced W. A. Jackson, the general manager of the Telephone & Telegraph construction company, of Detroit, to visit the territory and start what was in those days an up-to-date telephone plant. On May 13, 1882, A. D. Ayers started the construction of this new exchange, and completed the work on Aug. 29 of the same year. Mr. Ayers then assumed the position of manager and employed Miss Emma L. Spencer, who is now toll station manager at Au Train, as first operator. The exchange opened with thirty-seven subscribers. On Jan. 1, 1883, F. L. Davis, of Bronson, succeeded Mr. Ayers. At this time there were eighty-seven subscribers to the exchange. The mysterious disappearance of Mr. Davis during 1884 or 1885 made it necessary for James E. Dea to send his brother, John Dea, to take care of the office. Mr. Dea was in turn succeeded by Mr. Healey, who was later transferred to Bay City, in the spring of 1890. E. G. Pike succeeded Mr. Healey, and was in charge of the exchange until 1894, when the present division manager, K. S. Baker, took charge July 1.

"The present personnel of the exchange is as follows: K. S. Baker, division manager; Frank Sullivan, division chief; Anna McK. Barnard, chief clerk; Emma LaBonte, cashier; Marie Dubois, check and billing clerk; Mary McEnroe, collector; Myrtle Schrandt, chief operator; O. Manes, wire chief, and W. J. Chilton, Morse supervisor.

**SOCIALIST RUN OUT OF CRYSTAL FALLS**

**ISHPEMING MAN, WHO WANTED TO MAKE A SPEECH IN MENOMINEE RANGE CITY, WAS ESCORTED TO THE TRAIN BY A COMMITTEE OF CITIZENS.**

John Korpi, a socialist orator of Ishpeming, was an unwelcome visitor in Crystal Falls Sunday. He went there to conduct a mass meeting and was in the city but a short time when his presence became known to the members of the "bouncing" committee, composed principally of business men. Mr. Korpi was advertising the meeting, which was to have been held in the afternoon, when he was waited upon by members of the committee and advised to call off his meeting and leave the city as he was not wanted there. Korpi refused to comply with the wishes of the delegation and he was told that if he did not wish to become the victim of bodily injuries he had better change his mind and prepare to take the 10:30 train out of town that evening.

Korpi insisted that he was not there to talk socialism but to discuss the Oliver Iron Mining company's application blank. He was told that inasmuch as the Oliver company was not operating properties at Crystal Falls the committee could see no particular reason why he should discuss that issue with the workmen. Members of the committee stayed with Korpi during the afternoon and evening and he was escorted to the train by delegation fifty strong. Although the visitor insisted that he had a right to remain in the city and speak there if he choiced he made no attempt to leave the train after members of the committee had escorted him to a seat in the coach.

The Ishpeming man told the Crystal Falls people that they were not through with him; that he would return this week and would be accompanied by ex-Mayor W. J. Roberts, and others, who would speak on the socialist question. The business men here think that W. J. Roberts or any other man who would attempt to stir up ill-feeling between the workmen and their employers would be treated as he had been. They advised him to tell Mr. Roberts that he was not wanted at Crystal Falls and that if he came there with the expectation of making a public talk on the socialist question he would be prevented from doing so.

A member of the Crystal Falls committee yesterday informed The Mining Journal that Korpi is the third socialist that they have forced to leave the city, and that they intend to treat all other socialists coming there to talk, in a similar manner. He declared that the working people of the city have no desire to hear them and that the better class of citizens will not stand for agitation of any kind. He also said that he would like the socialists of this range to understand that business is meant and that if they come there and do not leave by persuasion they will probably get into serious trouble. The first socialist driven from Crystal Falls had already opened his meeting when he was interrupted by members of the citizens' committee. The fellow put up a stiff argument, but finally consented to leave as he was convinced that the committee meant business.

We have the exclusive agency for America's two leading lines of Go-Carts. See the display. Second floor. (3-22-34) F. BRAASTAD & CO.

**MINISTER BUYS WHISKEY.**

Visiting Clergyman Makes Saloon His First Visiting Place in Ishpeming.

Rev. P. A. Hultgren of Kewanee, Ill., who was the principal speaker at a temperance rally held Sunday afternoon in the Mission church, purchased a bottle of whiskey a few minutes after his arrival in the city Sunday morning. He went direct from the station to one of the saloons and he announced from the pulpit that he had purchased liquor while addressing the congregation and he asserted that the report that he had heard during the day that the saloons were not doing business on Sunday was untrue.

Rev. Hultgren's subject was "Does It Pay?" He compared the young man, who is ruined by the excessive use of liquor, to a raw piece of wood, which is of no particular value until it is a finished product. He said that the young man who is addicted to the drinking habit is of little value to himself or any one else, but if he is an abstainer he is a much more useful citizen. The speaker presented statistics to show that a large percentage of the crimes committed are directly charged to drunkenness. He also asserted that liquor is responsible for many cases of insanity as well as poverty. He contended that the state has no right to issue a license for the conduct of a business that demoralizes the community. His argument tended to discourage the idea that if the saloon is abolished the property owners would be taxed more heavily. He contended that the taxpayers indirectly support the saloons.

Others who addressed the meeting were Rev. O. W. Carlson, pastor of the Swedish Methodist church; Rev. Meads, pastor of Calvary Baptist church; Rev. Samuel Hogander, pastor of the Mission church, Negunee; and Rev. J. Sallstrom, pastor of the local Mission church. It was a mixed congregation and the addresses were in both English and Swedish.

See our display of ladies' garments. Come in and try on a few suits. (3-22-34) F. BRAASTAD & CO.

**A STRONG CARD.**

The Bijou theatre has a strong card this week in the "Bartinos," who perform feats of strength and magic. The Sault Ste. Marie News said of them: "The Bartinos, a vaudeville team, who appear in picturesque buckskin and western cowboy costumes, highly entertained the audience at the Dramaland yesterday afternoon and last night. Harry Bartino is a regular modern Sampson when giving his exhibition of jaw, neck and lower limb muscle exhibitions. His partner also took prominent part in the stunt of muscular power performance. They took their audience by storm, and were given a hearty ovation."

You'll find the newest and most approved fashions in women's apparel at Braastad's. (3-22-34)

**REDUCED WORKING FORCE.**

Forty of the men employed at the Champion mine, operated by the Oliver Iron Mining company, were laid off yesterday. This reduced the force considerably to below 100. The mine has not been actively wrought for some time and operations have been confined principally to development work. A considerable tonnage of ore has been in the stock-piles, since before operations were suspended some six or seven years ago by the former operators.

Beautiful suits for ladies. Select your garments now. We'll put it aside and hold it for you thirty days, if necessary. All we require is a small cash deposit, balance payable when called for. (3-22-34) F. BRAASTAD & CO.

**POLITICAL MEETINGS.**

Republican Ward Clubs to Hold Rallies Next Saturday Evening.

The members of the Republican city and ward committees, who met Saturday evening in W. T. Potter's office, decided to hold rallies next Saturday evening under direction of the several ward clubs. The places of meeting and other arrangements were placed in the hands of the officers of the several organizations. There will be several speakers in each ward, exclusive of the candidates for offices on the city and ward tickets. A general Republican rally will be held on Saturday evening, April 3, but the place of meeting and other details have not yet been decided on.

The city committee has called a convention and ward caucuses. The latter will be held in the several wards on Monday evening, March 29, at 7:30 o'clock. The convention will be held an hour later in the Nelson House lobby. The nominees on the city ticket this year will be mayor, treasurer and school inspector, while in each of the several wards a supervisor, alderman and constable will be nominated. The places at which the ward caucuses will be held and the number of delegates to which each ward is entitled, are as follows:

- First Ward—Engine house; two delegates.
- Second—Lake Superior office (old); three delegates.
- Third—Nones' barn; four delegates.
- Fourth—Hose house; three delegates.
- Fifth—Hose house; two delegates.
- Sixth—Anderson's store; three delegates.
- Seventh—Lake Angeline office; two delegates.
- Eighth—Manual Training school building; two delegates.
- Ninth—Ridge street school building; two delegates.
- Tenth—Hose house; one delegate.

See that new line of two-tone, wool-fibre rugs at Braastad's. (3-22-34)

**HAS SPLENDID POSITION.**

Husband of Well-known Ishpeming Girl Has Large Practice in Buffalo.

The last issue of the Catholic Union and Times, published in Buffalo, contained a picture of Dr. P. H. Hourigan, who is known to many here. Mrs. Hourigan was formerly Miss Nellie McEnroe, daughter of Captain John McEnroe of this city. The doctor recently resumed his practice in Buffalo after having been confined to a hospital for three years with a most critical illness while treating a patient. Dr. Hourigan is the physician of the Larkin Soap company, whose plant in Buffalo is the largest in the world. He held this position prior to his illness, besides controlling a large private practice in the city.

"Seeing Dr. Hourigan hustling around Buffalo, caring for his extensive practice, it hardly seems possible that he has but shortly returned from a three-year's strenuous pursuit of the 'will of the wise' and good health. Among the many positions which he has resumed upon his return is that of physician and surgeon to the entire Larkin company's plant."

"The Catholic Union and Times joins with the doctor's many friends in felicitations upon his excellent appearance and congratulates him and the Larkin company upon the resumption of their former relations. Dr. Hourigan has long been a friend in deed as well as in name to this paper, and it gives us more than ordinary pleasure to note his continued advancement in his profession."

We are showing ladies' suits that are really smart and out-of-the-ordinary. (3-22-34) F. BRAASTAD & CO.

**DOCTOR EXTINGUISHED FIRE.**

Advices from Coleraine, Mesaba range, are that the residence of Dr. Kean, formerly of Ishpeming, narrowly escaped destruction by fire. The servant girl was cooking doughnuts in the basement and had left her work for a moment. During her absence the lard boiled over and ignited and was so found on the girl's return. She attempted to extinguish it by smothering with a curtain which she had added fuel to the fire. The doctor at the hospital saw the flames, rushed in and extinguished the fire with blankets and chemical extinguishers. The servant girl was severely burned about the arms in her attempts to put out the blaze.

We are closing out a lot of wash goods, muslin underwear and dress goods. See our prices, they mean business. (3-22-34) F. BRAASTAD & CO.

**FROM MORGAN'S CURB LETTER.**

There has been considerable activity the past two or three days in the copper metal trade, and we are told that there were several large sales made on Saturday. Some five to eight million pounds were taken today at 12 1/2 and 12 3/4 cents for electrolytic, with the market now 12 1/2 to 12 3/4. London for the day showed an advance of a trifle more than a pound for both spot and futures copper, and the market there closed firm. The New York Metal exchange quotes all grades 3/4 higher in the bid price, and 3/4 higher in the asked price. With the improvement in the metal situation and a clearer understanding of the new tariff bill, trading in copper shares is growing more active, and the whole list presents a healthier tone. Amalgamated was the leader today, selling at 79 1/2, as against 68 1/2 at the close Saturday. Anaconda

**Drunkennes Curable.**

Drunkennes is no longer considered a crime; eminent scientists and physicians have agreed that it is a disease and must be treated as such.

The home treatment that has been used for a number of years, and is highly successful, is Orlime. It is sold under a positive guarantee that if it does not effect a cure your money will be refunded. When desiring to give it acceptly purchase Orlime No. 1, and if patient will take treatment Orlime No. 2, should be given. Orlime costs but \$1 per box. Mailed on receipt of price. Write for free booklet on "Drunkennes," The Orlime Co., Washington, D. C. Sold in this city by The Stafford Drug Co., Marquette; P. B. Kirkwood, Negunee; was up a point and a half, North Butte

**SALOON CASES ADJOURNED.**

One Negunee and Six Marquette Liquor Dealers in Court Here Yesterday.

The six Marquette saloon keepers recently arrested on complaint of Rev. C. H. Rutledge, organizer of the Anti-Saloon league, appeared in Judge Andrews' court yesterday morning, accompanied by their attorney, C. F. Button. An adjournment of the case was asked for until April 7, and was granted. The defendants are W. Pennessy, T. J. Foley, Frank Suszek, F. W. Thoney, Walter Lattarrall, L. Kozelski. There are two charges, both for keeping open on Sunday, against Suszek.

The witnesses did not appear in court and the defendants will probably not know who they are until the examination is held, as the judge would not give them out for publication yesterday. One however, is an Ishpeming man, two are from Dickinson county and the fourth is from Wells township, in this county. Ole Johnson, the Negunee dealer, waived examination, and was bound over until the next term of circuit court.

You can depend on ladies' suits that carry the Palmer label. See our display. (3-22-34) F. BRAASTAD & CO.

**EXPECT WARM CAUCUS.**

It is expected that there will be quite a lively caucus in Ishpeming township next Saturday evening, as there are a number of candidates for the offices. An drew Gustafson, the present supervisor, and Jacob Harvala, will be opposing candidates for the nomination by Gust Walme and Andrew Koski is an active candidate for the office of highway commissioner.

If you're looking for ladies' suits that give satisfactory service, were the people to see. (3-22-34) F. BRAASTAD & CO.

**FROM MORGAN'S CURB LETTER.**

There has been considerable activity the past two or three days in the copper metal trade, and we are told that there were several large sales made on Saturday. Some five to eight million pounds were taken today at 12 1/2 and 12 3/4 cents for electrolytic, with the market now 12 1/2 to 12 3/4. London for the day showed an advance of a trifle more than a pound for both spot and futures copper, and the market there closed firm. The New York Metal exchange quotes all grades 3/4 higher in the bid price, and 3/4 higher in the asked price. With the improvement in the metal situation and a clearer understanding of the new tariff bill, trading in copper shares is growing more active, and the whole list presents a healthier tone. Amalgamated was the leader today, selling at 79 1/2, as against 68 1/2 at the close Saturday. Anaconda

**ISHPEMING IN BRIEF.**

George M. Ross, the boiler inspector, was in the city yesterday.

Mr. and Mrs. Herman Nelson, 211 North Third street, are the parents of a son.

A daughter has been born to Mr. and Mrs. Edward Kangas, 212 South Second street.

Howard Watters has taken charge of E. P. Beigler's barber shop, corner Division and Pine streets.

The Knights of Pythias three-men bowling team has issued a challenge to meet any team in the city.

August Swanson left Sunday evening for West Baden, Ind., where he will spend ten days or two weeks receiving treatment.

There will be services at Grace church tomorrow afternoon at 4:30 o'clock. Bishop G. Mott Williams of Marquette will preach.

A number of lots in the second addition to the Ishpeming cemetery have al-

ready been sold to local people. The prices run from \$15 to \$125, according to size and location.

E. F. Geiger, former instructor at the manual training school in this city, now holding a similar position in Duluth, is here on his spring vacation, the guest of D. D. Randall and family.

Have Lavigne, who has aided his father in the conduct of his grocery business in this city for some time past, has left for Hibbing, Minn., where he is to take a position with R. Weidling, one of the leading grocers of the city.

Miss Ellen Anderson was given a birthday surprise Friday evening at her home, corner High and Second streets. About ten couples were present. The evening was very enjoyably passed and a fine lunch was served.

A considerable quantity of snow disappeared yesterday. Practically all of the railroad crossings are bare but the roads and streets are still in good condition for sleighing. The city had several men at work yesterday opening drains leading to the catch basins on the principal business streets.

The Ishpeming Eagles defeated the Marquette Eagles 14 to 7 in the game of indoor ball played at Braastad's Hall last evening. Ishpeming got fifteen hits, and Marquette eleven. Jackson, for Ishpeming, fanned twelve men, and Osgood, for Marquette, struck out ten.

At a meeting of the local French society Sunday afternoon a committee composed of Emil Liorette, Peter Lemire and August Jacob was instructed to engage a band for Midsummer day, when the members will attend the Negunee society's twenty-fifth anniversary celebration. A transportation committee will be named at the next meeting.

William Pottle, business manager of Martin & Emery's "Parisian" company, which will be at Ishpeming theater on the evening of Thursday, April 3, was in the city yesterday. Mr. Pottle is an old theatrical man, who brought companies to the upper peninsula more than twenty-five years ago. The Emire Goodrich company, which played in Ishpeming twenty years ago, was under his management. Miss Goodrich is his wife.

Visit Braastad's military department and get a line on the new creations. (3-22-34)

How can any person risk taking some unknown cough remedy when Foley's Honey and Tar costs them no more? It is a safe remedy; contains no harmful drugs, and cures the most obstinate coughs and colds. Why experiment with your health? Insist upon having the genuine Foley's Honey and Tar. Sold by all druggists.

See our display of ladies' garments. Come in and try on a few suits. (3-22-34) F. BRAASTAD & CO.

We clothe little girls handsomely. (3-22-34) F. BRAASTAD & CO.

**SIMPLE REMEDY FOR LA GRIPPE.**

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Sold by all druggists.

## Negaunee Department

### NEGAUNEE SCHOOL ONE OF THE BEST

MILWAUKEE TILE MAN, IN CHARGE OF WORK AT NEW BUILDING, SAYS IT COMPARES WELL WITH ANY HE HAS EVER SEEN.

"Negaunee's new high school will be one of the finest in the country," declared E. J. Coffmeyer, who is associated with U. F. Durner, the tile contractor, of Milwaukee. Mr. Coffmeyer, during the ten years he has been with Mr. Durner, has had charge of similar work on jobs in many of the large cities of the country and has worked in a number of fine high school buildings. He said that the city of Milwaukee, which has many excellent school buildings, cannot boast of one any better than Negaunee's new structure. "None of the Milwaukee schools," Mr. Coffmeyer said, "have tile floors in their corridors, the tile being confined to entrances, toilet rooms, etc. Tile is being used more extensively now than at any previous time and Mr. Coffmeyer believes that the time is not far distant when practically all of the principal schools and hospitals of the country will be provided with floors of this character, as it is more sanitary than any other material, and besides will wear for many years. The new St. Mary's hospital, to be erected in Milwaukee, will be the first building in that state to have tile floors throughout. Mr. Durner has submitted a bid on the job. The contract will call for over 90,000 square feet of tile.

"The increased demand for concrete is helping the tile business wonderfully," said Mr. Coffmeyer. "It is possible for us to put in excellent floors where there are concrete foundations. Where the latter are properly reinforced with steel the floors will last as long as the building will stand. The builders throughout the country are beginning to recognize the superiority of tile floors over floors made of other material, and they do not hesitate to recommend them. All of the tile use comes from Zanesville, O., which has the largest manufacturing plant in the world. In the process of making, the tile is put through such a high degree of heat that the strongest kinds of acids will not have any effect on it. For this reason the tile is much preferable to concrete in school laboratories, etc. Acids will eat away the concrete, but they have absolutely no effect on tile."

Mr. Coffmeyer recently completed a big tile job at St. Mary's hospital, Rochester, Minn., where the Mayo Bros., the famous surgeons, are located. The institution is now one of the largest of its kind in the world, employing a permanent force of over thirty physicians and surgeons.

#### Floors Attractive.

Mr. Coffmeyer and five other experts in the work are employed on the school job. They had planned to put in the floor at the Reading House before starting on the school work, but the material has not yet arrived. The base and border in the top floor corridors at the school was completed Friday and the crew started on the floor work Saturday. They expect to complete the upper story this week and they expect to finish the entire job in four weeks. The base is a wide glazed tile six inches high, and the border is fourteen inches wide. The design of the latter is an imitation of a Grecian design. The colors are green, white and red. The floor design will be similar to that in the First National bank and the tile will be green and white.

Marbleite, which is a combination of marble and cement, will be used on the stairs leading to the two upper floors. Marbleite is a comparatively new preparation, having been discovered about five years ago. It is now being used very extensively for stair purposes. It is as attractive in appearance as marble slabs and will wear just as well. The colors can be brought out to imitate any marble. The stair slabs will be laid in cement and when the job is completed they will have a solid appearance. Mr. Coffmeyer secured the measurements for the stair material last week and the marbleite has been ordered.

A good idea of the beauty of the interior finishings of the school building can now be obtained, since practically all of the frames and moldings have been put in. The heavy oak molding, extending throughout the corridors, also in the various rooms beneath the footlights, is much admired by visitors to the building. The woodwork is stained a dark brown. The stain is J. W. Elliott's oak mixture and is superior to stains secured from outside concerns that were tested when the work was first started.

The expert doing the stucco work has finished most of his moulding and on Saturday completed the third panel in the auditorium. The designs are neat and when the work is finished the room will be attractive. The auditorium is provided with a stage sixty-three feet in width and twenty feet in depth from the curtain line. The board does not intend to install any scenery and a draped curtain will be used. The stage will be exceptionally well lighted, with footlights, as well as incandescents overhead and on the sides. With the large gallery it is expected that about 1,000 people can be seated on occasions when exercises are being held.

See our line of ladies' suits today. Make your selection today. Pay thirty days from now. (3-22-3d) F. BRAASTAD & CO.

#### DISSOLUTION NOTICE.

Notice is hereby given that Axel Rasmussen has sold his interest in the Axel Rasmussen company, conducting dry goods, clothing and gent's furnishings goods business in Negaunee, to Peter Rasmussen, who will continue the business and who will collect all bills due said Axel Rasmussen company, also assuming all financial obligations of said company. AXEL RASMUSSEN, PETER RASMUSSEN, Negaunee, Mich., March 1, 1909. (3-17-1w)

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two doses of Foley's Orino Laxative and the next morning the fever was gone and he was entirely well. Foley's Orino Laxative saved his life." A. Wolkush, Casimir, Wis. Sold by all druggists.

#### POLITICS WARMING UP.

People's Party Leaders Expect to Put Full Ticket in the Field.

A few days ago it looked as though there would be practically no opposition to the nominees for the various offices on the Citizens' party ticket, but conditions have changed somewhat, and it is now announced that the People's party will, in all likelihood, nominate a full ticket. Thomas L. Collins, the Jackson street meat dealer, is prominently mentioned for the nomination for mayor. The names of two or three other business men have also been mentioned, but it is said that they have practically refused to enter the fight.

When seen yesterday by The Mining Journal representative Mr. Collins said that he will accept the nomination, but he would as soon have some one else make the run. Many voters have called on him during the past few days, urging him to announce his candidacy, and he had made up his mind to run if the party leaders cannot find some other man to head their ticket.

"The elections here the past few years," Mr. Collins stated, "have been entirely one-sided and too tame. We think it would do no harm to stir up a little interest and there will probably be contested in every ward in the city." He expressed the opinion that the People's party will have little trouble securing candidates for the various city and ward offices. Mr. Collins ran against Mayor Winter three years ago this spring and was defeated by eighteen votes. He said that the party call for caucuses and convention will be issued within a day or two, but he could not state positively just when they will be held.

John Collins, a brother of the candidate for mayor, will likely be the People's party nominee for alderman in the Second ward. He said yesterday that he is a candidate for the office and that he will run whether the People's party puts up a full ticket or not. Most of the voters in that ward are Scandinavians and Finns, and Mr. Collins believes that he will pull many of these votes, as he is personally known to practically all of the voters. He was not prepared to state who will be the candidate for supervisor, but there are several good men available.

#### DOING MUCH GOOD.

Former Copper Country Man Praises Work of Y. M. C. A.

C. G. Maywood, brother of Rev. Ames Maywood, pastor of the Methodist church in Marquette, was a Negaunee visitor yesterday. He travels for a glove house. Mr. Maywood was for some time secretary of the Young Men's Christian association at Calumet, having located there soon after the organization was formed. He fitted up the first gymnasium for the Calumet branch and aided materially in building up the organization, retaining the position until some fourteen years ago.

Mr. Maywood reports that the Young Men's Christian association is doing much good in many communities and that its membership is growing rapidly where branches are maintained. He believes in having the association headquarters provided with bowling alleys, billiard and pool tables, etc., as these sports appeal strongly to the younger class of members. He declared that the association is also considering the advisability of introducing card games. There is no objection to the fact that the average boy is inclined to play cards and Mr. Maywood thinks that if the games are properly looked after in the Y. M. C. A. rooms there would be no particular harm in them. The organization has reached a point where it must face this issue and Mr. Maywood's opinion it is one of the most important that the organization has yet had to contend with. He said: "While I am positively opposed to card playing, I realize that the question must be given serious consideration by the Y. M. C. A. officials all over the country."

Mr. Maywood further said he believes that it will be a wise move on the part of church people to install billiard and pool tables and bowling alleys in connection with their churches. The Methodist church at Waukesha, Wis., has put in billiard and pool tables in its reading rooms, and Mr. Maywood said that the people of the congregation regret that they had not taken this step sooner.

Dress goods remnants at greatly reduced prices. (3-22-3d) F. BRAASTAD & CO.

#### NEGAUNEE MEN DEFEATED.

The Negaunee bowlers, who went to Escanaba Saturday evening were defeated there by a total of 182 pins. Neither team bowled as high scores as were recorded in the first contest here three weeks ago. The Escanaba team is to visit Negaunee again in about three weeks. The scores were as follows:

Escanaba	134	155	135	424
Swan	137	135	155	427
Driscoll	119	151	147	417
Grosbeck	147	162	167	476
Schuldes	701	729	725	2155
Totals	163	159	113	435
Negaunee	144	147	108	399
Tompkins	128	115	125	378
Carmichael	121	112	134	375
Kirkpatrick	121	111	149	381
Lavigne	685	644	639	1968
Totals	685	644	639	1968

# Kodol "HEARTBURN" PREVENTS BY Curing The Cause Indigestion

"Heartburn," sour stomach, belchings of gas and acid, bitter fluid—all are indications of indigestion. And indigestion is pretty sure to be dyspepsia—if neglected. Then dyspepsia leads to very dangerous diseases. There are so many things which bring on indigestion—such as rich, greasy foods, eating without properly chewing the food, overloading one's stomach, eating when exhausted, going to bed too soon after eating, etc. Most any of these will bring on indigestion—and then Kodol is required to restore the stomach to good health again. Kodol corrects the effects of wrong eating, by digesting for a time, all the food in your stomach, so that your stomach can get well. Suppose you give Kodol a trial when you need it, and see what it will do for you. Read our guarantee.

Get a dollar bottle of Kodol. If you are not benefited—the druggist will at once return your money. Don't hesitate: any druggist will sell you Kodol on these terms. The dollar bottle contains 24 times as much as the 50c bottle. Kodol is prepared in the laboratories of E. C. DeWitt & Co., Chicago.

FOR SALE—House and lot with barn, located on Clark street. For information call Bell Phone 59, Marquette; Phone 122, County, Mrs. John Westermeyer. 3-10-1f

#### CANDIDATE FOR TREASURER.

Charles Mattson, who has had more than his share of ill-luck the past few years, is a candidate for the nomination of city treasurer. With Mr. Mattson in the field, there are now three candidates for the office and the fight for the nomination should be an interesting one. Mr. Mattson lost one eye in an accident at the Negaunee mine several years ago and about two years ago he fell on a raft while fishing near Eagle Mills. His good eye struck on a nail, destroying the sight, so that he is totally blind. He has a large family and is in every way deserving.

#### CARLSON LOST ONE EYE.

Andrew Carlson, who had his eyes blasted at the Maas mine a few weeks ago, and who is now confined in St. Joseph's hospital, Milwaukee, where he is being treated by Dr. L. Snyder, has lost his right eye, though it is thought that the sight of the left will be saved. Charles Johnson received a letter from Carlson Sunday. He stated that he was getting along fairly well and that he could see well enough to write. It may be a few weeks yet before the young man will be permitted to leave the hospital.

Among the world's best things to drink is "salada" tea. Its purity, flavor and deliciousness stand unrivalled. All grocers sell it.

#### LOCAL LACONICS.

Mrs. M. J. Arland has returned from the East.

Sheriff John Lehman was in the city for a short time yesterday morning.

Mrs. Catherine J. Broad left Sunday night for Duluth, Minn., where she will spend several months visiting her sons, Fred and Charles Westlake.

Thermometers in the city registered from four to six below zero Sunday morning at 6 o'clock, and yesterday morning at the same hour it was two below.

John Shea and wife, who are traveling in the West, will arrive in San Francisco the latter part of this week. They have spent the past week or ten days at the Cataline islands.

Twelve Negaunee Finns left Sunday night for Almena, Wis., where they are to be treated by John Till, the "blacksmith" healer. Two or three of the Negaunee party appeared to be seriously sick.

The fire department has engaged the Negaunee City band to lead its parade on the evening of Easter Monday, when the firemen's annual ball is to be given at McDonald's Opera House. The arrangement committee is meeting with excellent success in the sale of tickets and the ball will be a financial success.

The coroner's inquest in the case of the late Philip Abbott, who was killed Saturday at the Cambria mine, will be held Friday morning at 9 o'clock in Judge Verran's office. The jury is composed of John Martin, William Verran, John A. Wasmuth, James Gaffney, Napoleon Marketty and Frank Anderson.

The annual meeting of the Negaunee fire department will be held this evening at 8 o'clock at its headquarters in No. 1 Iron house. Officers will be elected for the ensuing year and matters pertaining to the annual tournament to be held at Laurium will be discussed. It is not expected that there will be any opposition to the old officers. The department will not enter a running team in this year's tournament, but it is likely that Chief Johnson will be instructed at tonight's meeting to secure hotel accommodations.

The fog banks of the North Atlantic as a rule, are about thirty miles in diameter.

The Salvation army has a monopoly of the shoe-blacking business in Copenhagen.

The train which the kaiser uses on his travels was three years building.

#### WHAT IS HEM-ROID?

A Tablet, Taken Internally, That Cures Piles.

Piles (hemorrhoids) are getting more common every day, because we live unnaturally, overeating, overworking, taking little exercise, gradually causing a deadening of veins and tissues in the lower bowel. Blood stagnation is the cause of piles, and a condition that can't be permanently cured with ointments. Dr. Leonhardt's Hem-Roid is the only internal tablet remedy that cures piles by freeing the circulation. Sold under guarantee at the People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming, Mich., Price \$1. Dr. Leonhardt Co., Station B, Buffalo, N. Y.

#### A RELIGIOUS AUTHOR'S STATEMENT.

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my back, and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Sold by all druggists.

# VAUGHN WINS IN FIRST CONVENTION

### CAUCUSES LAST NIGHT WERE LARGEST EVER HELD IN CITY, WITH 1,000 VOTERS OUT.

## DONOVAN FOR RECORDER

Successful Candidate Carried First, Second and Fourth Wards—Second Ticket Will Likely Be Named.

Daniel Vaughn, candidate for mayor, won a decisive victory over Mayor Robertson in the caucuses and convention of the Citizens' party last evening, carrying the First, Second and Fourth wards and being nominated on the first ballot by a vote of twenty-two to sixteen.

The caucuses were the largest ever held in the city. The average attendance in the five wards was a little better than 200 voters. Thus fully 1,000 voters took part in determining the result. The caucuses were, without exception, models as the voting was all by secret ballot. It was unattended by any serious disputes, and the convention at the city hall was likewise a harmonious affair. The outcome of the convention was no great surprise to persons who had been in touch with the drift of sentiment the past few days. As remarked in yesterday's issue, the Vaughn movement had become decidedly formidable, despite the fact that it was but a few days old, and his supporters confidently expected to land last night's nomination. They counted the First and Second wards as sure, and won them, the First two votes to one, the Second three votes to one. In the Third and Fourth wards they figured that their chances were excellent. The Third they lost, 118 votes to ninety-two; the Fourth they won, 144 votes to eighty-five. In the Fifth no Vaughn slate was offered.

### Vaughn's Big Vote.

One significant fact in connection with the voting last night was that the vote for the Vaughn delegations totaled 580—crediting Vaughn with the same number polled for Williams in the Fifth—only 130 votes less than the total number cast against Robertson two years ago. The total vote on the slates of delegates—crediting Robertson with the Ward vote in the Fifth and Vaughn with the Williams vote—was Vaughn 580, Robertson 434.

In the First and Second wards there was no serious opposition to the Vaughn slates, and, as remarked, the Fifth ward went to Robertson by default. In the Third there was a pretty contest in what is said to have been the largest caucus ever held in the ward. The Robertson slate contained a number of strong men, including H. R. Harris, James E. Sherman and M. J. Sherwood. A strong slate was also put forward for Mr. Vaughn, but the Robertson men had twenty-six more voters present than favored the Vaughn delegates. In the Fourth a combination between supporters of Alderman Ekstrom, the dean of the council, and one of the most popular members of that body, was in excellent working order and controlled the caucus at every turn. It nominated the chairman, named a slate of delegates the majority of which was for Vaughn and then nominated Mr. Ekstrom by practically the same vote cast for the delegates.

When it came to the balloting in the convention Vaughn polled the solid vote of the First and Second and, it is believed, eight delegates of the ten from the Fourth. Robertson had the solid delegations from the Third and Fifth and two delegates from the Fourth.

### Vote on Recorder a Puzzle.

The vote on recorder was a good deal of a puzzle last evening. Mr. Ross is believed to have obtained the solid delegation from the Fifth. Where the other two votes came from is not known. It was reported that the Robertson delegation from the Third went solidly to Donovan, but as the ballot was a secret one there is no certainty as to this. The two votes outside of the Fifth ward cast for Mr. Ross must have come either from the Third or Fourth ward delegations, and most people inclined to the view that they came from the latter.

The results in the wards were attended by numerous surprises. Perhaps the greatest was the close run given Alderman Asire, one of the veteran members of the council, by Henry Patenaude in the Third ward. Patenaude polled 100 votes against Asire's 105. As a result, one of the hottest ward contests of the spring election can be expected in the Third. Another surprise was the decisive manner in which Dr. Z. Vadnais, the health officer, defeated Joseph Fay for supervisor. It was predicted in yesterday's issue that Dr. Vadnais would develop great strength, but probably few people expected to see him poll such a large vote in excess of that given Mr. Fay. His majority was fifty-four, the result of the poll being 125 to 71. In this same precinct the Vaughn slate of delegates was chosen by a vote of 144 to 59, so it appears that much of the vote that went to Dr. Vadnais also went to this slate, or the other way around, if one prefers it that way.

### Second Convention Likely.

While there was nothing definite said on the subject last evening it is expected that there will be forthcoming within a few days a call for a second convention. It is presumed that both Mayor Robertson and Mr. Ross will be candidates for places at the head of the ticket, and there are numerous ward candidates who will doubtless elect to go before the people. It is likely that Charles Hamby will run for alderman in the First, and possibly Henry Dutmer will run in the Second. Henry Patenaude, who was highly pleased with his strong showing last night, will certainly run in the Third, and William Clewending and Alderman Williams will doubtless be candidates for aldermen in the Fourth and Fifth, respectively. It is also probable that Joseph Fay will run for supervisor in the Second.

### Organization of Convention.

The convention was called to order by C. F. Button, secretary of the Citizens' party, and nominations for temporary chairmen were called for. M. J. Sherwood and Martin Delaney were put in

nomination, the latter winning out by the vote of twenty-two to sixteen. G. A. Carson was unanimously elected secretary. The chair appointed M. J. Sherwood, John Boyle and Frank Dushane as a committee on permanent organization and order of business, and Walter T. Ward, Peter Kremer and Ernest Pearce as the committee on credentials. The temporary organization was made permanent and M. J. Sherwood, Philip Hopkins and John Boyle were appointed tellers.

When Chairman Delaney announced that nominations for mayor were in order Walter T. Ward offered the name of Mayor Robertson, which was received without any demonstration by the crowd. Peter Kremer then placed the name of Daniel Vaughn in nomination amid cheers and applause. The vote was cast and the tellers reported that Vaughn had received twenty-two votes and Mayor Robertson sixteen. The result was received with vociferous applause by the audience.

D. S. Donovan was nominated for city recorder by John Siegel, and W. A. Ross by W. C. Narracong. The outcome of this contest was awaited with great interest for, with one exception, the delegations had not been instructed in the caucuses. The ballot was taken and it was found that Donovan had received twenty-nine votes to Ross' nine. The result was hailed with cheers.

Robert P. Byrne was nominated for city treasurer without opposition. Contest for Justices. A surprise was sprung when three men were placed in nomination for justices of the peace, there being only two to be elected. In addition to L. P. Cray and C. D. Blanchard, the present justices, the name of Peter Primeau was placed in nomination. The candidates were voted for one at a time, and on the first ballot Primeau received twenty-two votes, Cray nine and Blanchard seven. On the second ballot Cray received twenty-three votes and Blanchard fourteen. Primeau and Cray were declared to be the choice of the convention.

John Byrd and Jacob Dolf were re-nominated for constables without opposition. There were no contests for city chairman and members of the ward committees, the following being elected: City chairman, E. W. McPherran; committee men, First ward, John Donovan; Second, John Boyle; Third, E. W. McPherran; Fourth, George Reichel; Fifth, Walter T. Ward. The convention then adjourned sine die.

### First Ward.

The delegates from the First ward met at the last report at the city hall, it being after 9 o'clock before they arrived. The caucus in this ward was a fight from start to finish, with the administration crowd out-numbered two to one but contesting every point, both in the caucus organization and in all of the nominations. Vaughn for mayor, Ed. J. Butler for alderman and James Hudson for supervisor were the winners in the caucus. The vote was: Vaughn slate, 132; Robertson slate, 60; for alderman, Hamby, 61; Butler, 132; for supervisor, Wiseman, 37; Hudson, 84. The delegates elected were not instructed for recorder and were as follows: John Downey, George Sambrook, Thos. P. Carey, James Hudson, William Rivers, Michael Madigan, Sr., and George Monroe.

### Second Ward.

The voters of the Second ward were out in force and handed handsome majorities to Vaughn for mayor, Dr. Vadnais for supervisor and M. H. Hennessy for alderman. The vote was as follows: Vaughn slate, 144; Robertson slate, 50; for alderman, Hennessy, 128; Dutmer, 85. The following were the delegates elected, who were instructed to vote for Donovan for recorder: Octave Hebert, Dolphis Paris, Joseph LaCombe, George Yshinski, Peter Kremer, John J. Boyle, Martin J. Dunnebaek.

### Third Ward.

One of the largest votes ever polled at a caucus in the Third ward resulted in the choice of Robertson for mayor and Asire for alderman, by very close majorities. Dan W. Powell was the unanimous choice for supervisor. The unexpected strength of Henry Patenaude for alderman was the feature of the caucus. The vote was as follows: Robertson slate, 118; Vaughn slate, 92; for alderman, Asire, 103; Patenaude, 100. The following delegates attended the caucus: M. J. Sherwood, J. E. Sherman, Ed. Mitchell, E. L. Stewart, W. H. Van Iderstine, H. R. Harris, Dan Morrison.

### Fourth Ward.

The Fourth ward caucus was one of the most hotly contested in the city, and the first ballot for mayor had to be thrown out because there were some forty more ballots cast than there were voters present. The ward finally named Vaughn as its choice for mayor and Ekstrom for alderman. Jacob Smith was the unanimous choice for supervisor. The vote was: Vaughn slate, 144; Robertson slate, 85; for alderman, Ekstrom, 125; Clewending, 98. The following delegates were elected to attend the convention: Walter O. Johnson, G. A. Carlson, Ernest L. Pearce, George Reichel, Frank Dushane, P. L. Hopkins, John Siegel, Martin Delaney, P. E. Mullaly, Jr., William Janzen.

### Fifth Ward.

The delegates from the Fifth ward were the first to arrive at the city hall and this was the only ward where there was no contest for mayor, Robertson's slate being elected unanimously. Walter T. Ward had a walkaway against Alderman Williams, and Martin Sweder won out against Nels Flodin by ten votes. The vote was as follows: Williams, 68; Ward, 121; for supervisor, Sweder, 97; Flodin, 87. The following delegates attended the convention: H. W. Nebel, Maurice Vadnais, Walter T. Ward, Peter Johnson, Jerry Shariand, Charles Lawrence, W. C. Narracong.

JOHNSON, GREEN BAY, WIS. (3-23-14)

### DRY HARDWOOD.

Two dollars per cord in two-cord lots. (2-13-14) F. B. SPEAR & SONS.

## WEEKLY PROGRAM AT THE GUILD HALL.

WORK NOW ORGANIZED AND IN FULL SWING WITH MUCH ENTHUSIASM MANIFESTED.

During the past ten days Director Burdett of the Guild Hall has been busy organizing the various classes in gymnastics and swimming. One or two of these classes are already as large as the floor space will permit and all of them are proving highly successful. The smaller classes are steadily increasing in size and will soon have to be split up in sections.

The women's class is in two sections, one on Monday and Thursday, the other on Tuesday and Friday, at 10:30 a. m. This class is instructed for forty-five minutes in the use of dumb bells, Indian clubs, Swedish drill, waist and gymnastics on the apparatus. Then follows a swimming lesson, lasting until noon.

On Saturday morning there is a class of girls under sixteen years of age in gymnastics and swimming from 10:30 until 12. This class already numbers thirty members.

On Monday and Thursday afternoons there is a class of fifty boys, eight to twelve years old, in the gymnasium, followed by a swimming lesson from 4:15 to 4:45.

On Tuesday and Friday at the same hours the boys from twelve to seventeen years of age attend their turn. This class already numbers seventy.

On Monday, Wednesday and Friday the business and professional men are put through their paces from 5 to 6 p. m., and on Tuesday, Thursday and Saturday the same men have the gymnasium the same hour for general practice without class work. The older boys and young men are in two sections, one on Monday and Thursday, the other on Tuesday and Friday evenings from 8 to 8:45 in the gymnasium and from 8:45 to 9:30 in the swimming pool. This class is large and enthusiastic and contains some good athletic material.

On Wednesday evening a ladies' class, already numbering twenty-nine, meets from 8 to 8:45 in the gymnasium, followed by a swimming lesson. This class is growing steadily and promises to be a very popular one, especially for young women whose occupations preclude their attending the morning classes. It is also planned to introduce basketball playing in the gymnasium during the hour for swimming for those who do not care to use the plunge.

A new game called volley ball, especially adapted to girls and women, will also be introduced. Later on the hand ball courts will be marked out at one end of the gymnasium, and an opportunity given for this best of all gymnasium games.

The total membership up to last night was 373, as follows: Twenty-two sustaining, 124 full, 69 women, 39 girls, 76 older boys, and 57 young boys. The board of managers are especially desirous of securing a larger list of sustaining members, and have decided that for each sustaining member they will grant one membership to some deserving person who would otherwise not become a member.

It has also been decided to empty, clean and refill the plunge on Saturday nights instead of on Tuesday, thus making the plunge available at all times on week days. The lowering alley, a billiard room have been placed under the exclusive charge of Charles R. Bell, who will be on hand each day from 9 a. m. until 10:30 p. m.

There are still many details to be worked out in the different departments and the board of managers are meeting almost daily for that purpose, but hope soon to have everything in smooth working order.

**FINE EXHIBIT PROBABLE.** Poultry Raisers Interested in New Building at the Fair Grounds. The new concrete poultry and pet stock house to be erected on the county fair grounds this summer will doubtless mean a much larger and varied exhibit in these departments this fall than in former years. Heretofore, some breeders of fancy poultry have hesitated to exhibit their stock at the annual fair, as account of the inadequate and possibly unsanitary quarters that were provided. The new structure is to be roomy, airy, sanitary and up-to-date, and hereafter no breeder need hesitate about taking his stock to the county fair, because of unsatisfactory facilities for taking care of them while there. Work is likely to begin on the structure as soon as the snow is gone and it is hoped to have the poultry house finished some time before the fair. A number of poultry raisers, both in and out of this city, who have not exhibited at the fair in former years, have already laid their plans for an exhibit this year. From present indications, there will be more fancy poultry reared in this locality this summer than ever before, and many breeders are now sending away for high priced eggs from fancy thoroughbred stock. These conditions make it probable that the poultry exhibit at the county fair this year will be of exceptional quality and quantity and will attract unusual interest.

### NEW SPRING GOODS.

New suits, dress patterns, new wash goods, new silks, embroideries and dress trimmings are now being shown at The Bee Hive. L. GETZ, Proprietor, Front St. (11-10-14)
