It appears from the report of the proresulted in the rejection of the Ormsbee United States, 50 cents; history of Michliquor bill that the "dry" forces in that body won a victory over the "wets." The Ormsbee bill was a measure favored by the brewing interests. It is said that it gave them some valuable concessions, of a nature to put them in comthough they consented to have it reported out from committee, finally decided that the Ormsbee measure would not do, and succeeded in giving it its quietus by the close vote of forty-nine to forty-five, after a protracted session.

The next logical development is that the The next logical development is that

Facts and figures combine to substantiate the assertion that on the present rate of fare the Duluth, South Shore & Atlantic railway is earning no more than a reasonable percentage of profit. They were given to some extent in yesterday's issue. It is contended, therefore, that a reduction in the present garding the amount of sugar and torate of fare, three cents a mile, to the two cents proposed in a bill introduced from those islands during the next ten in the present legislature would deprive years. Of course it is natural that such the road of the fair profit to which it a feeling should exist, and a great or the possibility of any direct resultant which have worked well for years. It expressed it, touching these points, "this lungs so that no serious results need be is entitled. loes not intend to "hold the umbrella" or its rivals again,

The only development work now being one by Amalgamated is in the Parrot and Little Mina mines, and in shaft sinking on the Diamond, Badger State and Right Bower, the two latter shafts being sunk for purposes of exploration. In the Little Mina the Parrot company is developing a good vein on the 1000-foot level and is preparing to start a ressent and open a new level at the 1.200. On the 1.900 and 2,000-foot levels i the Parret mine the big Anaconda ein is being developed and is showing p well. Although the lowest level in he mine is known as the 2,000 it is acually more than 2,100 feet deep.

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent, of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundseds only. But when that record applies to the treatment of more than half-a- million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first of

specialists in the treatment of women's diseases. Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Prest.,

PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry-making it pay, yet poultry, exactly the same as with stock-horses or cattle-you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not I already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACK-AGES FOR \$1.00.

Benjamin Franklin's Plan

Benjamin Franklin wanted to leave the cities of Philadelphia and Boston a legacy. He had \$10,000 to be divided between them—not a very large sum for municipal improvements. But he directed that each city put out its \$5,000 at interest for 100 years, in charge of trustees. At 5 per cent it grew to \$655,000. The \$600,000 was to be spent in improvements and the \$55,000 again put out at 5 per cent. At the end of the second century this \$55,000 will amount to \$20,305,000, and Franklin's original modest \$10,000 will have produced the two cities over \$41,000,000.

This is all the growth of interest and nothing

GIVES WORK TO MANY MEN.

Ice Cutting an Industry of Importance time. Arizona Commercial and Corbin, in the State of Maine.

Gardiner, Me., March 24,-With the higher prices, cond of the ice harvesting season rapidly approaching, there eccus to be little doubt that the ice crop in this state is the best in years. The mildress of the best in years. The mildress of the present winter made it practically impossible to cut an average supply on the fields in New York state and southern New England, and Maine has profited by their loss. This is especially true of the ice fields of the Hudson river, where the Angelian Landson in the fields of the Hudson river, where the Angelian Landson in the fields of the Hudson river, where the Angelian Landson in the fields in New York, March 24.—In the absence of positive developments affecting property values in the news, operators in stocks today acted largely on deductions from the negative side. The operations from the negative side. The operations were almost wholly in the hands of the smaller professional class and were significant, therefore, of nothing more than the view of that class. The fact that the ice crop in this state is the view of that class. The added, "our Republicant the view of that class. The fact that the ice crop in this state is the velocity values in the news, operators in stocks today acted largely on deductions from the negative side. The operations were almost were almost professional class and were significant, therefore, of nothing more than the view of that class. The fact that the view of that class. The fact that the view of that class, the view of that class the view of that class the view of that class that remedy on the old Jeffersonian printing down appropriations. We favor that remedy on the old Jeffersonian printing down appropriations. end of the ice harvesting season rapidly their loss. This is especially true of the ice fields of the Hadson river, where the American Ice company usually obtains a large part of its supply. This year the company decided to rely on the Hudson river to fernish practically its entire crop, and early in the season made the announcement that but little if any ice would be cut from the Kennebec river. When it was seen, however, that the crop on the Hudson was to be a failure all efforts were concentrated on the ice fields of Maine, and work was pursued night and day to get in a supply before the spring thaw.

Notwithstanding the fact that the season was well advanced before operations were begun in this state an excellent crop has been harvested, and about every ice house on the Kenneliee and many crothe Penobscot and other ice-yielding rivers and lakes of the state have been filled, aggregating more than 800,000 tons. The ice is of a fair quality and thickness, averaging a little better than a foot. The utilizing of the Kennelec fields this winter proved of great benefit.

Washington Watching Events in Central America Closely. Cuba Is Causing Concern-Reoc-

Washington, March 24.-What Gibraltar is to the British empire, Panama is going to be in the future to the Ameri-

can republic. Just as Gibraltar must be held and British power in the Mediterranean must be sustained because Gibraltar and the Mediterranean are the road to the Indies, so Panama must be held as the American gateway between east and west. It was fundamental in the foreign policy of Roosevelt to clean up as carly as

possible every potential plague spot about the Caribbean sea. That is the bottom of this government's concern over Cuba, Santo Domingo, Hayti, Venezuela. It explained the concern which was felt over the re-establishment of amicable relations between the Colombian republic and the needed state of of Panama. It explains the haste to make Pearl harbor the Gibraltar of the Pa-

The Roosevelt policy in these regards will be carried forward without break or interruption by the Taft administration, Mr. Taft was one of the men who possible in Central America. made that policy, and one of those most prominent in carrying out many of its features. He understands the Carribean question in all its phases. His policy to take hold of things with a firm hand bring a large price in the provinces, are taken back by these men. It is evident understands the Carribean of the provinces, are taken back by these men. It is evident understands the Carribean of the provinces, are taken back by these men. Danderine

Hair wait weeks and months for results either. You will notice marked improvement after and we can the very first application. Danderine is quickly and thoroughly absorbed by the scalp and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities. It is pleasant and easy to use -simply apply it to the scalp and hair once a day until the hair begins to grow, then two or three times a week till sesired results are atained. A lady from California writes in substance as follows: have been using your wonder-ful halt tonic for several months and at last Ism now blessed with a wonderful suitof hair that meas-ures over 45 inches in length; the braid is over 6 luches around. Another from New Jersey: After using sixth bottle I am happy to say that I have as the a head of hair as anyone in New Jersey. his Great Hair-Grows ng Remedy can now be and at all druggists in three sizes.

LAST MEETING OF THE PRESENT BOARD

SPRING ELECTIONS LIKELY TO RE-SULT IN SEVERAL NEW SUPER-VISORS IN COUNTY.

SESSION YESTERDAY

Frank Bell Sent to Lansing in Interests of Game Law Revision-Reduction of Tariff on Ore Opposed.

The last meeting of the present councourt house yesterday. It is probable time. that in consequence of the April elections there will be several new members on the board at the next meeting, and that an equal number of those now Yesterday Devoid of Definite Poon the board will be missing. "Are you coming back next year?" was the ques tion which the members of the board asked of each other before and after the meeting, and the usual answer was, "It looks as if I was going to have op position and only the election will tell who will win." It was an especially busy day in the county clerk's office, as all the supervisors presented their bills and drew what money was coming to them for salaries and mileage. At the close of the meeting a vote of thanks was tendered Chairman D. W. Powell for the able manner in which he had presided over the meetings of the board during the year. Mr. Powell expressed his appreciation of the tribute paid him and said that he hoped to see all of the board back in their accustomed places after election, "and particularly our old friend, Joe Fay."
Under the head of new business three

matters of interest were brought up. Mr. Yungbluth announced that inasmuch as there was to be a joint meet ing of the house and senate game laws immittees of the legislature tonight that it would be well to send some one to Lansing to represent the interests of Marquette county at that meeting, and suggested Frank Bell's name in that connection. This suggestion met with unanimous approval of the board, and Mr. Bell left for Lansing yesterday afternoon. The limiting of the license to one deer in a season is the feature of the game laws that the residents of this county are most anxious to have passed, although the proposal for a gen eral gun license is almost universally approved. Although the lower peninsula sportsmen have not declared in favor of the single deer recommendation, it is effect," said A. E. Sterne yesterday. thought that the proposal has a pos

Oppose Reduction of Tariff. On motion of William S. Ewing, of Chocolay, a committee was appointed to draft resolutions protesting against a reduction of the tariff, copies of which gressmen. On this committee were appointed Mr. Ewing, A. J. Yungbluth, of Ishpeming, and Elijah Toms, of Negau-Mr. Ewing stated after the meeting that the only objection to the present proposed tariff schedule that would be likely to be embodied in the committee's resolutions was a protest against any reduction of the tariff on on the free list would be a bad thing for this county. It would put the upper peninsula ore in competition with that from Canada and Cuba, which would not be a good thing for the business inter-

spective voting places. Furthermore, all that fact." highway and railroad facilities for getting to other parts of the township to which they belong, which was not here. To the Qualified Electors of the City of tofore the case.

The report of the expert accountant J. A. Dresser, who recently went over the county books, was read by the county clerk. Mr. Dresser stated that he nial City Election, in the city of Marhad found the books to have been ac- quette, on Monday, April 5th. A. D. curately kept and to have found cash, on hand to correspond with the amount called for by the books, in all the to stamp vouchers when paid,

Appropriation for Hospital Unlikely. A letter was read from Senator of six years, Moriarty, acknowledging the receipt of THE BIENNIAL CITY ELECTION spital for the tuberculosis patients of the upper peninsula. The senator works, Champion street, stated that he did not believe such an appropriation could be obtained this ses- ing, Spring street, owing to the depleted condition of the state treasury, but said he would Pine street, do what he could in support of the measure. A communication was read street. from Marquette tent, No. 16, K. O. T. M. M., endorsing the action of the board in favoring the erection of a sanitarium for tuberculosis patients. The meeting then adjourned sine die.

CARD OF THANKS.

We wish to express our heartfelt thanks to the many friends and neighbors who so kindly assisted during the sickness and death of our beloved wife who sent flowers and to those from Ish- years, and one alderman for the term peming who attended the funeral, JOHN OLLILA and Children.

Guard-Mrs. Louisa Tauch, Sentinel—Arthur A. Smith. Past President-Mrs. Mary McNamara, Trustee (three years)-Mrs. Louisa

Organist-Mrs. Nettie McClinchev. Captain-Miss Augusta Primeau.

UNIT SYSTEM BEST.

Superintendent Sterne Says the Upper Peninsula Is Satisfied With It.

"I am very glad that I am superin

tendent of schools in a county, where

"The unit system has been adopted in 96 per cent of the townships of the upper peninsula and it has everywhere proven successful, and a great improvement over arate board for every cross roads school house. If the lower peninsula men, who opposing State Superintendent are to be sent to all the Michigan con- Wright's unit system bill, could only be the books. shown how satisfactorily it works, their the house another text book bill which can run the school affairs of a township just as well as five times that many working separately, and now the school tax is spread over the whole county. Under the district system a good deal of vacant land was included in iron ore, or of placing this article on the school tax altogether. As one result of no school district, and so escaped the He said that to place iron ore the unit system there are now high schools at Champion and Republic, which are the equal of any in the county Were they not supported by the whole townships in which they are located, they could not be maintained. Again, the unit system is much simpler and Township Boundary Changed.

In compliance with petitions signed by the property owners affected, the local transfer of the opposition which the unit bill is meeting in the local transfer of taxation on them, from which they would receive no benefit increases. legislature comes from the directors of their children are largely sent to paro of Wells and Turin townships from the government boundary between ranges 24 and 25, as at present established, to the Escanaba river. This throws the northeast corner of what was Wells township into Turin township and the southwest corner of what was Turin township into Wells township in the Wells township in the Wells township well well well well well well and the Wells township well well well well and the Wells wel township into Wells township. As the no question out that the unit school and might easily result in the spread of result of this change, the farmers living along the Escanaba river will not have along the Escanaba river will not have to cross the river to get to their re-

FREE TEXT BOOKS IN LOWER GRADES

BILL OF GREAT IMPORTANCE TO THE SCHOOLS OF THE STATE TO BE INTRODUCED THIS WEEK.

The text book bill, which the special investigating committee proposes to i d all over this state and the United troduce this week in both houses, with States, the idea being to take a united stir up a furore among the legislators stand for what the Germans believe to according to the Lansing Republican be right in local, state and national poli-tics. since it provides for free text books in all public schools below the ninth grade The local political situation was not There is still some difference of opinio iscussed to any extent last evening, but among the members of the committee aanother meeting was set for Sunday af- to whether it is advisable to leave this ternoon, at which this subject will come provision in the bill and it may be up, and it is likely that some candidate climinated before the bill is introduced In the matter of prices of school derstood that the Germans offered to books, the bill fixes a schedule of maxisuport the candidacy of John H. Jacobs mums above which the publishers cannot for mayor, but that he refused to become go. It establishes what is to be knowcandidate, because his business calls as the state school book commission, to ty board of supervisors was held at the him out of the city a large part of his be composed of the state board of edu cation and the president of the Michtgan State Normal school. The mem bers are to draw no extra pay beyond actual expenses for serving on the con

It is to be the duty of this commision to select from the school books that are on the market those that are o proper standard to be used in the schools From this list of eligibles the count school authorities are to choose the book they desire to use and notify the conumerous people to consent to allow his mission of the number needed. The commission is to negotiate with the publishnot care to make the race. Mayor Rob not within the maximum fixed by lay the commission is empowered to procur

Prices Much Lower.

The scale of prices fixed in the bill are on an average of 100 per cent lower than the prices the publishing companies have been charging in Michigan. Here are a few examples of the reductions: Spelling book, 10 cents, formerly 25 cents; third reader, 23 cents, formerly 50 cents; fourth reader, 30 cents, former

y 60 cents: United States history, 5 ents, formerly \$1; complete geography 75 cents, formerly \$1.25.

The committee has found on investigation that Kansas, Indiana, California Ontario have been enjoying such prices as are fixed in the bill for some years all because they have a law which they an hold as a club over the heads of the

In case the free text book clause i allowed to remain in the bill it will pro-vide that the books are to be paid for out of the primary school fund not needed for teachers' salaries. If, after the teachers are paid, there is an insufficient amount remaining to pay for the book, the money is to be raised by taxation the same as other school money

the unit township board system is in raised. If it is found necessary for the commission to have special books published the bill provides that the contract can be let to one publisher for all the books or for one or more books separately, It is thought that this clause will a low Michigan publishers that are not equipped to bandle the entire lot to get in on the publication of one or more

gives to the superintendent of public in struction supervision over all schoo books used in the state. It requires all publishers to file annually in the superintendent's office a list of the lowes prices at which they will sell their books and with it an affidavit that those prices are as low as the books are be ing sold in any other state. This is a plant worked out by some of these who do not favor the free text book or the

uniform text book plan. Catholics Will Oppose,

The Catholics in general will opport free of cost in individual instances, which policy has been adopted in many cities but a proposition to provide free text books for all below the high school wi be apt to arouse strong opposition.
