MARQUETTE, MICH., MONDAY, MARCH 29, 1909.

PRICE FIVE CENTS.

WOMAN TO DIE IN ELECTRIC CHAIR

In Auburn Prison This Morning, Mrs. Mary Farmer Will Pay the Extreme Penalty for the Murder of Mrs. Sarah Brennan.

Following an affecting farewell meeting with her husband, convicted of the same crime and now awaiting electrocution she makes a statement which she believes will exonerate the man, whose appeal the courts are still to pass upon.

Auburn, N. Y., March 28.—Mrs. Mary Farmer has made a statement, it was learned late tonight, which she believes will exonerate her husband, who also is awaiting sentence of death for the same crime. Father Hickey told the officers that he did not believe Mrs. Farmer should be electrocuted, because her mental condition is unsound.

Execution Set for Sunrise Today.

Auburn, N. Y., March 28.—Mrs. Mary Farmer, who dies in the electric chair at sunrise tomorrow for killing Mrs. Sarah Brennan at Brownsville, was taken tonight to the women's department in the condemned row of Auburn prison. James Farmer, the husband, who is also under sentence of death for killing the Brennan woman, and whose case is before the court of appeals, was taken to another part of the prison, after a farewell meeting with his wife. The wretched woman showed tonight no evidence of collapse, though the words between herself and her husband were affecting to the women attendants and the captain of the guard. The law permits no farewell embrace. After the door of Mrs. Farmer's cell had closed and James Farmer, weeping, was led away, the woman fell upon her cot and wept, later calming herself.

Priest Prays With Her.

Father Hickey, pastor of the Holy Family church, visited Mrs. Farmer today and prayed with her. He will administer the last sacrament. Mrs. Farmer will die a good Catholic, said the priest, "and will go to her death bravely. Some statement may be made by her, to give out after the execution."

Mrs. Farmer crossed tonight for the execution, dawned the prison gown and waited. Early tomorrow a coroner's inquest will bifurcate the gown to the knees and slit the stockings, so the electrodes may be applied to the limbs.

"Will Die Like a Queen."

Auburn, N. Y., March 28.—"I will die like a queen going to the high court," Mrs. Mary Farmer, who early on Monday morning was taken to the electric chair to pay the law's execution for the murder of Mrs. Sarah Brennan less than a year ago, made this statement to her attorney yesterday.

Realizing that there is no longer the slightest hope for a commutation of her sentence, and that the death chair has already been tested and found in order, Mrs. Farmer is spending her few remaining hours in perfect composure and heroic resignation to her fate, which hundreds of letters, petitions and personal appeals to Governor Hughes have failed to ameliorate.

Apparently there are only two thoughts in the condemned woman's mind. The first is for the husband, James Farmer, who is under sentence to follow her to the death chair for complicity in the Brennan murder, and the second for her baby, who is now in a home where she is now displaying a tenderness and emotion never before in evidence. Whenever Mrs. Farmer talks of the little lad's destiny, she breaks down and weeps. It is the one time at which her heroism and composure deserts her.

Mrs. Farmer will wear a divided skirt to the death chair, this being necessary to permit a convenient adjustment of the leg electrodes.

JAMES VANGO CHEATS JUSTICE.

Young Negro Jailed for Murder Strangles Himself to Death.

New York, March 28.—James Vango, a young negro who after his arrest in Chicago confessed that he murdered Isadore DeValiant, night clerk at the Eastern Hotel here, for the purpose of robbery, strangled himself to death today. Vango tied a handkerchief around his neck and twisted it tight with a piece of lead pencil until it choked his windpipe. With the same pencil he had written two notes of farewell. To his wife, he wrote: "Dear wife: Death is but eternal sleep; why should I stay and suffer? Forgive me. To the deity who arrests him, he wrote: "Say, Jim, you was on the job all right, but I think I'll take this way out."

FIRST CHANCE FOR JEFFRIES.

Retired Champion Failing to Sign, Johnson Will Take on Corbett.

Chicago, March 28.—Unless Jeffries gives Johnson a definite answer whether or not he will fight in ten days, the negro champion will give Corbett a chance for a bout. This announcement was made today just before Johnson left for New York. Corbett arrived here today and immediately sought Johnson. They had a meeting and agreed to fight. Corbett said he had \$10,000 with Al Smith in New York.

SOLDIERS MARCH AGAINST OUTLAWS

Augmented by Scores of Deputies, Five Companies of Militia Set Out for the Stronghold of Crazy Snake in Oklahoma.

Fortified in the Hills Following Fighting in Which Six Men Are Killed, the Murderous Band of Indians and Negroes Send Word They Will Battle to the Death—Their Extermination Decried, a Bloody Engagement Is Considered Inevitable.

Guthrie, Oklahoma, March 28.—Five companies of militia are marching tonight against Crazy Snake's Creek Indians, half-breeds and negroes, entrenched in the Hickory hills, seven miles from Henryetta. A bloody battle is regarded as inevitable, as the troops intend to capture or exterminate the murderous band, which since Thursday has caused the death of six men and the wounding of many others and has brought about a condition of terror in the surrounding country.

Outlaws Well Armed.

The troops left Henryetta at 3 o'clock. It was expected that they would reach the scene of the expected battle before seven. Crazy Snake's men number about two hundred, and they are armed with modern rifles and have plenty of ammunition. They have been preparing for two months for this final stand against the lawful authorities, and they sent word today that they would fight to the death. The militia officers realize that it might take all night and tomorrow to crush the band. Crazy Snake entrenched himself today and was reinforced by his various roving companies of followers.

Daybreak This Morning Saw a Renewal of the Fighting in the Vicinity of Hickory.

The scene of yesterday's encounter with followers of Crazy Snake, when two deputy sheriffs were killed and another one was wounded and several Indians were shot. The day opened with desultory firing between a force of some two hundred special officers and nearly as many Indians. Several Indians are reported wounded.

Crazy Snake's Son a Captive.

The state militia and many armed officers and citizens moved all Sunday to the scene. One posse captured the twenty-two-year-old son of Crazy Snake today and compelled him to give the names of all the Indians who were in his father's house yesterday when Deputy Sheriff Odum was killed.

A Steinhilber dispatch says that a second engagement between the officers and Indians occurred near there this morning. Fifty shots were exchanged and several Indians were wounded. Both Indians and negroes, many of the latter being armed with revolvers, took the wounded into the hills. The number of dead since Thursday was placed unofficially at six.

Deputies went to the house of Crazy Snake today and found it deserted, but removed the bodies of Baum and Odum, which were taken to Emporium. The deputies captured several horses and a large quantity of ammunition. Five partially formed companies of militia, totalling 125 men, started for the scene today under command of Colonel Roy Hoffman.

Young Indian Strung Up.

Young Chitti Harjo, son of Crazy Snake, after his capture cursed the deputies and refused to tell his father's whereabouts until a rope was strung about his neck and he was hoisted. Dangling in the air, the Indian, gasping for breath, finally whispered, "Let me down and I'll tell you all you want to know."

When the noise was loosed, he gave the names of all the Indians at Saturday night's fight, including his father, whom he confessed was leading the outlaw band among the hills of the former Creek nation. He added: "Charles Coker, the Seminole, and I shadowed approaching officers and I shot and fired the four shots which killed Baum and Odum."

The Band in Harjo's House Last Night.

The band in Harjo's house last night, the young Indian said, belonged to the "Lighthouse guard," who stay together under any conditions. Poses hurriedly started on the trail of the old Indian, hoping that his capture would prevent the impending battle. Young Harjo is intelligent and educated and as an athlete he has played football with some of the Eastern Indian schools. He graduated from the Indian school at Carlisle, retaining his native instincts.

Indians Retreat as Troops Advance.

The militia arrived at Henryetta at three this afternoon. As the troops advanced the snakes retreated toward Peirce. The militia, supplemented by numerous posettes of deputies and citizens, completed a circuit that it was thought would enable them to surround Peirce at 6 o'clock and drive the Indians back together and crush them.

Oklahoma City, March 28.—A dispatch from Steinhilber, the base of operations for one division of the posses of officers, says that the posses are gathering tonight at Peirce, and probably nothing further will be done before morning. During one engagement this morning, Grant Johnson, formerly United States marshal, killed an Indian.

Bandits Flee to New Stronghold.

Oklahoma City, March 28.—Chief Crazy Snake and his followers retreated before the five companies of Oklahoma militia tonight, thus deferring the expected battle until tomorrow. Hastily setting fire to his tepees and tents, the Indian leader fled and took a strong position between

the North Canadian river and Deep Fork creek, seven miles east of Henryetta. Colonel Hoffman considered it unwise to push the pursuit in the darkness, and bivouacked his troops. Tomorrow, enforced by cowboys, all crack shots, he will push against the Indians. Crazy Snake will be offered a chance to surrender. If he refuses, the battle will open. It is believed that Crazy Snake wants to reach the Tiger mountains before engaging in a fight.

Six men have been killed and a dozen wounded since the trouble began Thursday. This is the official record, but Dr. Wallace Dustin, who went to the Hickory hills with the troops, today declared that more than twenty negroes were killed Thursday and Saturday. A band of fleeing negroes and outlaws today hid in the house of Charles Johnson, near Hickory hills, with bullets but were driven away.

Deputies Had Sharp Fight.

After the posse of deputies had surrounded Crazy Snake's house last night, they called on the Indians to appear. Instead, the bandits opened a hot fire on the deputies. Crouching in the bushes, they had a fatal advantage over their white adversaries. Charles Coker killed Deputy Beem and Odum instantly. The other Indians also fired repeatedly. Deputies Carr, Bateman, Jones and the other members of the posse returned the fire, but could not see the Indians. Darkness fell, and the deputies, realizing that they would be a few minutes until they were killed, retreated. Deputy Jones tried to carry Baum's body, but the Indians followed with such hot fire that he was forced to drop the body in a ravine and flee. He went to Peirce and telephoned to Checotah for help. Other deputies, who had captured an Indian previous to the fight, hurried with their prisoner to Checotah.

A larger posse was formed at Checotah and arrived at Crazy Snake's house at dawn under the leadership of the sheriff. The posse skirmished through the woods and ravines, capturing five mounted rods, including young Harjo. These resisted savagely, firing on the posse until overcome. When Sheriff Odum saw the body of his son, he wept bitterly. He directed that the body be taken to Checotah, and then grimly declared, "I'll get them, though."

General Uprising Planned.

A posse from Muskogee reached Snake's house at noon today. They found there the records of the enrollment of the outlaw, whom Crazy Snake has been organizing into a band to fight what he regards liberty and attempt to carry out his wild dream of overthrowing the government. The documents furnished indisputable evidence that the old chief was trying to incite a general uprising.

No negroes were involved in yesterday's fight, and no negro were seen in the vicinity today. They either fled or allied with the chief's band in the Hickory hills, although the larger part of this aggregation is understood to be Indians. The light of Thursday was mostly with negroes, adherents of Crazy Snake. Odum announced tonight that he will attempt to arrest Crazy Snake tomorrow, under the protection of the troops.

Negroes Blamed for the Outbreak.

Citizens of Henryetta declare the trouble largely due to negro outlaws from Texas, Arkansas and Tennessee who are wanted in their states for various crimes who escaped to Oklahoma. They found ready aid from the irresponsible Indians, thus taking a desperate chance of escaping the law's clutches themselves.

The band of Creeks have never turned from their old customs. They opposed the division of the land and refused to take the allotments. Crazy Snake often expressed to the agents his displeasure and his plans for the restitution of the rights of his tribe. He always expressed confidence that the government would make good on the agreement of 1892, under the terms of the Mississippi river.

THEIR BOAT IS SWEEP OVER CEDAR RIVER FALLS

While Several Hundred People Watch, Powerless to Aid, Three Jowa Men, Duck Hunters, Are Carried to Their Doom.

Waterloo, Ia., March 28.—While several hundred people were powerless to help, Chris Anderson and Henry Bothman, duck hunters, clinging to an upturned boat from which Frank Bentz already had jumped and had perished, went over the falls of Cedar river today and were drowned. The three men tried to cross the river above the city on the boat upset. Anderson was assistant manager of the Herick Refrigerator company; Bothman was a saloon keeper.

CRAZED PARENTS END LIVES.

Man, Woman and Three Children the Victims of Two Fearful Tragedies.

Pittsburg, Pa., March 28.—After firing two bullets at his wife, pointing the revolver at his mother-in-law when she attempted to help her daughter, and trying vainly to get his little daughter out of a neighbor's house that he might kill her, Harry Smith, a motorman whose home was at Coraopolis, near here, sent a bullet through the brain of his six-year-old son Richard, killing the boy instantly, and then shot himself through the head, dying in a few moments. The cause of the tragedy is said to be liquor and jealousy.

Des Moines, Ia., March 28.—In a fit of despondence following long illness and an operation. Mrs. John Lynch, living on a farm near Cedar Rapids, cut the throats of her five-year-old girl and three-year-old son. The frenzied mother then attacked her three other children, but they escaped and ran to neighbors and spread the alarm. When help arrived, Mrs. Lynch had cut her own throat and had set the house on fire. It was impossible to rescue the bodies until the house was burned to the ground. The husband of the demented woman was apprised of the tragedy at Cedar Rapids, where he was visiting at the time.

Lincoln, Neb., March 28.—Allen Beemer, warden of the Nebraska penitentiary through the terms of Governor Croun, Mickey and Sheldon, died at that institution today.

THREAT OF VETO IS NOT A BLUFF

President Taft Gives Congressional Leaders to Understand That Fundamental Changes Must Be Made in the Payne Bill.

That No Makeshift Measure Must Be Passed Is the Warning Given Legislative Callers of the Executive Mansion—Tariff Question Must Be Settled Right, and in a Manner Pleasing to the Consumers of the Country, Is the Admonition.

Washington, March 28.—President Taft is calling in senators and indicating to them his views about the things he wants done to the tariff bill. Among his callers with whom he has talked on this measure were Senators Burkett and Brown of Nebraska. They went away satisfied with the opinion that the executive is prepared to fight for the real revision, to which he feels he is pledged. The Nebraska men were greatly cheered over the prospect of getting revision that will please the consumers of the country.

President Taft has said a good many times that he will veto a tariff bill that does not impress him as "right." He is now assuring callers that he does not consider the Payne bill right.

Wants Free Lumber.

As the bill stands today, his visitors have gathered, it would confront a veto if passed. President Taft, to the public mind, has not decided upon his policy in deciding what sort of bill shall go to him for approval or veto, has been telling some definite objections to the bill in its present form and outlining what he thinks ought to be taken out or put into it. The president has made plain that he wants free lumber. He has assured callers that the reduction on steel and iron now provided in the bill are not sufficient to satisfy him. He wants decidedly more effective cuts. He is not pleased with the taxes on tea and coffee, and wants them taken out of the measure. He is earnestly insisting on having free hides, and has told some of the men from the livestock producing states that they will be a good deal better off if they drop all thought of preserving a duty on hides and join him in the effort to trade it for free lumber. The excessive duties on gloves provided in the Payne bill are not satisfactory to President Taft, and he has said as much to some of his visitors.

Looks to the Senate.

Already the president is taking up the serious business of organizing influence in the quarters where it will be of practical use, that is, in the senate. He is wasting little time in the house, because he is sure the country thought he is trying to line up support enough to carry the bill to the senate to get the sort of bill he wants. His pledges for revision that will satisfy the country Mr. Taft regards as having just one significance to the country: that he is sure the country thought his pledges meant revision downward, and he has no patience whatever with those publicists who have been urging of late that the pledge in the Republican platform that he would not touch the tariff was not meant to be taken.

Wants End of Tariff Discussion.

The president wants the revision completed just as soon as possible, but he remembers enough of political history to be anxious to avoid the disaster of 1890, when the country got a revision which he did not like, and it was promptly plunged into a red-hot tariff campaign. He immediately after the McKinley bill had been passed. That sort of a campaign is just what Mr. Taft wants to avoid. He wants a revision that will serve the country's purpose, that will give it all the tariff discussion as a paramount issue for a decade or so at the least.

Talk of Veto Not a Bluff.

Since the report has got about that the president has insisted that he will allow no bill to become a law without his signature, and that he will not affix his signature to the Payne bill unless it is fundamentally changed, decided rumors of interest in influential quarters has been observed.

There was a time when the talk of a possible veto was taken to be very much a bluff. It is not so regarded now by people who have heard Mr. Taft in the last few days. He has been looking further into the details of the measure and is by no means pleased with it.

WEATHER FORECAST

Washington, March 28.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Monday and Tuesday; warmer, Tuesday; sun sets Monday at 6:20.

FATE MAY REST WITH SOUTHERN DEMOCRATS

Republicans Divided, Just How Lumber and Hides Are to Fare in the New Tariff Law Is a Matter of Doubt.

Washington, March 28.—The fate of lumber and hides probably will not be decided until the conference reports on the tariff bill are approved by both houses. The chances on these articles have been largely between the representatives of the East and West, and there is a prospect of the differences becoming so sharp that the Southern Democrats may determine the outcome. The supporters of protection for hides hope to induce the senate committee to recommend the continuance of the Bangley rates. The champions of the movement to take the duty off of lumber are not so sanguine of success as the advocates of free hides, as far as the contest in the committee is concerned.

The tariff session in the house is no nearer solution than since the opposition to various schedules developed among the Republicans several days ago. Speaker Cannon conferred with the president at the White House tonight regarding the situation, and the way and means committee was in session throughout the day. The committee adopted numerous amendments, some of which affect rates. A caucus is expected to be held Thursday to adopt a plan regarding the consideration of the bill for amendment, or a rule may be brought in to limit the general debate. There is every indication that the rule regarding amendments will permit the opening of certain paragraphs for amendment.

WIFE ASKS DIVORCE FROM AFFINITY MAN

Ferdinand Pinney Earle Insane, Declares the Former Miss Julia Kuttner in a Petition for the Annulment of Their Marriage.

New York, March 28.—"I guess I'm crazy. Any man who would take two wives like mine must be," declared Ferdinand Pinney Earle, original affinity man, replying to the charge of his second spouse that he is insane. "Friends of the unnamed wife predicted Earle would not fight his wife's suit for divorce and hinted that he would return to his first spouse. The second wife, who was Miss Julia Kuttner, asks for the annulment of their marriage on the ground that he is insane and also that he was never legally divorced from his first wife."

Earle in September, 1907, announced that he and his first wife, who was Miss Emile Marie Fischbacher, an attractive French woman, had decided that they were no longer congenial in soul. He said she would return to her native land to obtain a divorce, so that he might be free to wed Miss Kuttner, who was then staying with them in the same house. As he was the son of the late General Earle, widely known as a hotel proprietor in the Goshawk hotel, the final separation in various patriotic societies for women, the novel procedure on the part of the young painter became a sensation.

Mobbed by Indignant Neighbors.

The two women remained under the same roof until the day of the first Mrs. Earle's departure. She went to the steamship with her son, where her husband had her a friendly farewell. Earle on his return, was mobbed by his indignant neighbors of Monroe, and Miss Kuttner and he went abroad and were married in Venice. They returned from European travel to the estate at Monroe, and before long their life became complicated.

On the complaint of Mrs. Kuttner the artist was arrested on the charge of beating his wife, but one of several conciliations took place and he was never indicted, although he boarded for a time in the Goshawk hotel. The final separation took place last August, when, as did her predecessor, Mrs. Julia Kuttner Earle went away, taking with her the son born last April. Earle is said to have been for a time in a sanatorium under treatment for some nervous disorder. He reappeared at his castle, with his peculiarities of manner all the more accentuated.

Mrs. Julia Kuttner Earle alleges that at the time of their marriage in March, 1908, the defendant was a lunatic and incapable of contracting marriage, and that he is now of unsound mind. She reached this definite conclusion concerning him on Jan. 12 of this year. It was announced at the time of the marriage that the first Mrs. Earle had obtained a divorce in France, yet the second woman to bear the artist's name declares that the marriage to the young woman in France is still in force.

Former Wife Spurns Him.

Paris, March 28.—"We expected nothing else," said W. C. Fischbacher, the father of Ferdinand Pinney Earle's first wife, when he learned that his former son-in-law's soul mate had begun a suit for divorce. "We had already heard that Earle had abused her and that a divorce was inevitable. Nothing but unhappiness could come from such a shameless, lawless connection. My daughter, Earle's first wife, is not in Paris," continued Mr. Fischbacher. "She does not wish her place of retreat known. We are quiet, home-keeping folk and all the publicity of this horrible scandal has come from Earle and that extraordinary person, his affinity."

"Under no circumstances will my daughter ever see him again. There has been no conversation between them since they parted except the monthly report that my wife sends him regarding the health of their little son." This child, who is now three and one-half years old, is secluded with his mother on the countryside not far from Paris.

Mr. Fischbacher says that if Earle comes to Paris he will be permitted to see his son on certain days, but that will be his only privilege. "My daughter never wants to look upon his face again," the father said. "I cannot say five years of grief and trouble and we are done with him for good and all." Mr. Fischbacher is a man of wealth.

The greatest pool a great statesman can do his country will be by showing it great manhood.

ALLEGED PLOTTERS IN JAIL AT 'FRISCO

Graft Crusade in Golden Gate City Takes an Unexpected Turn When Five So-Called Conspirators Are Placed Under Arrest.

Accused of Breaches of Trust Committed With the Intention of Saving Street Car Magnate Calhoun from the Penitentiary, a Trusted Employee of the Prospecting Attorney Is Taken Into Custody and Is Said to Have Confessed, Implicating Others.

San Francisco, March 28.—A series of burglaries or breaches of trust committed upon the district attorney's office with the alleged intention of saving Patrick Calhoun from the penitentiary has been exposed in the arrest of five men, two of them employees of the district attorney and three agents of the United Railroad Detective bureau. All five are now in separate cells within the city prison.

The first of the prisoners taken into custody was Rex N. Hamlin, for two years private secretary to Special Agent William J. Burns, and the apprehension of others in the alleged conspiracy—Al McKirley, William Corbin, E. A. Platt and Jert Van Wormer—followed. In short order, alleged criminal connections with the United Railroads was quickly established.

Complete Confession Made.

After his arrest Hamlin broke down and made a complete confession of his part in the felonies, writing a statement on the same typewriter he had used frequently to transcribe confidential reports to submit to the inspection of the Calhoun defense.

For a long period Hamlin has been a trusted employee of District Attorney Langdon and Detective Burns, and was the only cause in the United Railroads a key to Burns' desk and the combination to the safe. But about Dec. 1, it is said, Calhoun agents succeeded in secretly winning the man over to the side of the defense. Since then, it is asserted, he has been on the United Railroads payroll at a salary of \$200 a month.

Hamlin's enlistment in Calhoun's service is declared to have come about in this way: He had first been recommended to Burns by Al McKirley, who was at the time in the custody of the prosecution. But McKirley later listened to the overtures of Calhoun's agents and became a sleuth in their service. At their direction he thereupon began to work upon Hamlin and so successfully that the latter agreed to accept Calhoun's \$200 a month as the price of crimes to be committed within the district attorney's office, to all the files of which he had full access. Since then it has been the practice to transcribe confidential records and documents which he brought over to McKirley, who in turn submitted them to the inspection of his superiors.

Detective Is Suspicious.

About two months ago Detective Burns became aware of Hamlin's broken trust, since when close watch has been kept on the man, who has been allowed to handle nothing of moment. He was not arrested until last night, so that incriminating evidence might be fully established against him. He was taken to his typewriter, which he was copying a long affidavit, which he has no doubt intended to pass along to McKirley.

TROOPS TAKE A HAND.

Striking Button Makers in France Terrorize Twenty Villages.

Mevo, France, March 28.—The strike of the button makers in this district has developed almost into open revolt. The strikers have terrorized twenty villages. They have cut wires and have wrecked houses. Troops and gendarmes have been despatched to one of the villages, where the strikers have surrounded several policemen who took refuge in a farm house.

ALLEGED CONSPIRATORS JAILED.

Each Chinaman Smuggled in Said to Have Netted \$300 to \$500.

Chicago, March 28.—Chin Yen Qui, a wealthy Chicago Chinaman, was arrested tonight as an alleged participant in a conspiracy to smuggle Chinamen at El Paso. His arrest allowed those of two Americans and two Mexicans at El Paso. It is said that the conspirators brought \$300 to \$500 on each Chinaman brought in.

LYNCHING THREATENED.

Chatanooga, Tenn., March 28.—It is reported that a mob is gathering at Fort Payne, Ala., for the purpose of lynching Zook Smith, who yesterday killed Bule Rogers in a dispute over cards. The Chattanooga, March 28.—A telephone message from Fort Payne, Ala., late tonight says that there is now little probability of a lynching. The inquiry over the remains of Bule Rogers is not completed. There was talk of lynching Zook Smith, but cooler judgment prevailed.

HUNTING CLUB HIT.

St. Marie, Mich., March 28.—Circuit Judge Steere has decided that the Munoskong Hunting & Fishing club can not exclude the public from Munoskong bay, holding that it is not a part of St. Marie's river, but is a part of Lake Huron. The club includes wealthy members in many lake cities, who tried to corner the best grounds in the St. Marie's valley.

SURPRISE IS DUE, SAYS MRS. BOYLE

Story She Will Tell in Court Will Throw a Different Light on the Willie Whitla Case, Asserts the Wife of the Kidnapper.

Now in the County Jail at Mercer, Pa., After a Sensational Attempt to Escape by Jumping from Moving Train, She Admits She Is Daughter of Wm. McDermott of Chicago and Says She Was Educated in a Convent in Wisconsin.

Mercer, Pa., March 28.—Mrs. James H. Boyle, wife of the kidnapper of Willie Whitla of Sharon, and who is now in the county jail here, admitted today that she was Anna McDermott, and her father was William McDermott of Chicago. She said that her early education was received in the public schools of Chicago and that she was later sent to a convent in Wisconsin. She refused to tell its name. She said that she and Boyle were married three years ago. The woman continued: "Afraid to stand trial? No. When I go on the stand and tell my story it will throw an entirely different light on the kidnaping affair. Until then I would ask the public to withhold its judgment. I want you to correct on thing for me. In no way am I related to the Whitlas or Bubles in Sharon. I mean to stand by my husband through this affair. I do not know what his connection with the whole dreadful thing is, but I am sure he was not the instigator of the kidnaping plot. I will not say whether he had any knowledge of it or not."

Fails in Effort to Escape.

Pittsburg, Pa., March 28.—While the Bessemer & Lake Erie train bearing Mrs. James H. Boyle, implicated in the Willie Whitla kidnaping case, was making thirty miles north of this city, Mrs. Boyle, who was on the way to the Mercer jail in charge of Sheriff Gumbert and two detectives, made a daring but unsuccessful attempt to escape or seriously injure herself.

The train had reached the Bakerstown hill, one mile south of Valencia, when William Campbell, a railroad brakeman, opened the rear door of the chair car in which the woman and officers were riding. The next instant Mrs. Boyle jumped from her seat and ran toward the platform of the car. Some one made a sharp cry and brakeman Campbell jammed the door and faced the woman. Mrs. Boyle quickly stopped on the platform and was attempting to open the window when Sheriff Gumbert forced his way into the little room and seized Mrs. Boyle was taken back to her seat and the three officers, visibly excited by the actions of the woman, immediately arranged their chairs in a circle. Mrs. Boyle was placed in the middle and the officers decided to keep a more careful watch on her movements. As a precautionary measure the rear door was locked.

At every station between Pittsburg and Mercer a large crowd congregated and cheered her or struggled with the police in endeavors to see and talk to her. Unlike a trip to prison on a serious kidnapping case, to Mercer resembled a triumphant journey.

Father Will Aid Her.

Pittsburg, Pa., March 28.—William McDermott, the retired Chicago fireman who believes Mrs. James H. Boyle, one of the alleged kidnapers of Willie Whitla, is his daughter, retracted his declaration made yesterday that he would not assist the girl, on his arrival in this city today, and is said to have retained an attorney to look after the case. McDermott did not get a chance to see Mrs. Boyle, as the woman had been taken to Mercer, Pa., before he could visit her. After the departure of the prisoner, it was learned that her sudden removal from this city was due to fear on the part of detectives connected with the case that McDermott would institute habeas corpus proceedings to secure the release of his daughter.

IRON WORKERS TO STRIKE.

Union Men in Eastern Pennsylvania Refuse to Accept Cut in Wages.

Reading, Pa., March 28.—The executive board of the Eastern division of the Amalgamated Iron, Steel & Tin Workers' association has decided not to accept the reduction in wages as made by the iron companies of the division. The action will affect nearly 10,000 iron workers, comprising puddlers and helpers, and will become effective with the day shifts Monday.

Employees of the Reading Iron company to the number of 1,000, in a session following the board meeting, sustained the action of the board and decided to reject the wage reduction of the company. The cut is from \$4.50 to \$3.75 per ton for puddlers and proportionately for all others. The Eastern division comprises all the eastern half of Pennsylvania.

A SUBSTITUTE FOR SALOONS.

Superior, Wis., March 28.—As a result of a discussion at the Lake Superior mission on the subject "A Substitute for the Saloon," a Workingman's Home and How to Build. Superior may see the erection of a \$20,000 home for the workmen. The laboring class has become enthusiastic over the prospects, of a place to spend its idle hours and already fifty persons have offered to buy shares.

DAILY MINING JOURNAL

Published daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Only one more short week of local politics. There's no doubt about it, Castro is just aching to start something.

The author of the sentiment "all men are liars" must have delivered himself of it at the conclusion of a political campaign.

After two weeks of strenuous talking and two weeks of newspaper interviewing Mr. Jeffrey and Mr. Johnson are as far as ever from meeting in the ring.

Mayor Middlebrook of Manistique was renominated in a primary last week by a vote of better than two to one.

One of the big questions of the spring baseball training season is at last definitely answered. Fielder Jones will not manage the Chicago White Sox.

The state at large is mightily well pleased that Attorney General Bird cracked the whip over the legislators' heads in favor of the bill for correcting the shortcomings in the present method of taxing the telegraph and telephone companies.

It's a cinch that Dr. Dickie of Alion college did not persuade Mayor Rose of Milwaukee that prohibition is a good thing.

The Wisconsin senate passed the Owen resolution for a separate inquiry into the election of Senator Stephenson.

It is really amusing to note how regularly the British political leaders fool the close-fisted taxpayers of that nation into meekly digging down in their jeans.

Every year the English ministry goes through the solemn farce of getting up a great scare in the house of commons and in the newspapers.

Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures.

warnings in the newspapers; the press, even the old conservative "Thunder," comes as near having a fit of hysterics as English phlegm admits of.

IS AN INCOME TAX POSSIBLE? From time to time, with increasing emphasis, the suggestion has been made that perhaps a federal income tax could be devised that would avoid the decision rendered by the supreme court in 1894.

If there is serious intention of attempting to impose a federal income tax, at the very outset of consideration it is necessary to get firmly in mind what the supreme court decided in 1894.

The points with relation to direct taxation which were finally decided were: 1. A tax on income derived from lands is a tax on the lands themselves.

A tax on incomes derived from either real or personal property is thus unconstitutional unless apportioned among the states in proportion to population.

Another evidence of the regard in which T. M. Judson, manager for the Escanaba Manufacturing company, is held by that company was given just as the factory had closed its week's work.

At Lombard the new line again crosses the Northern Pacific railway, and then climbs the great continental divide between Piedmont on the eastern side of the Rockies and the city of Butte on the west.

From Butte the road will pass by the way of the broad and fertile Deer Lodge valley to Garrison and Missoula, Mont., and at Haugan, Mont., will commence the climb over the Bitter Root Mountain range.

But if it is a fishing expedition that the administration is planning its purpose will best be served and the public least disturbed by some inconsequential levy involving the income tax principle.

Let us have some Cudahy Peacock bacon and calves liver for supper mammals," say young and old.

Calumet Baking Powder. One who by any substance is injurious to health found in food resulting from the use of Calumet.

EXTENSION OF THE CHICAGO, MILWAUKEE & ST. PAUL RAILWAY TO THE PACIFIC COAST.

With the completion to the Pacific coast in the near future of the extension of the Chicago, Milwaukee & St. Paul railway (called the Chicago, Milwaukee & Puget Sound railway) one of the great railroad systems of the west will rank as a transcontinental line.

The new line being the latest of the transcontinental roads to be built, has all the advantages which come from accumulated experience in the construction of similar roads that have already been built.

From the standpoint of operation, the most important question is that of grades, and particularly what is known as the "ruling grade" this last being the maximum degree of incline occurring on any given stretch of the line.

Another evidence of the regard in which T. M. Judson, manager for the Escanaba Manufacturing company, is held by that company was given just as the factory had closed its week's work.

At Lombard the new line again crosses the Northern Pacific railway, and then climbs the great continental divide between Piedmont on the eastern side of the Rockies and the city of Butte on the west.

Consolidated Fuel & Lumber Co. Marquette. 7-28-17

PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry—making it pay, yet poultry, exactly the same as with stock—horses or cattle—you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away, ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACKAGES FOR \$1.00.

City Brevities

Yesterday's temperatures: Seven a. m., 28 degrees; noon, 36; 7 p. m., 32. Maximum, 36 degrees; minimum, 28.

Eugene Charest, of Munising, was a visitor in Marquette Saturday.

Mrs. Charles Rossier and daughter, of Proctor, Minn., are visiting in the city.

J. E. Pierce and daughter have returned from an extended trip to California.

Fred M. Case left Saturday evening on a few days' business trip to Chicago and other points.

Mrs. T. J. Many returned to her home Saturday, after having spent four weeks in St. Mary's hospital.

Lloyd Hannek of East Michigan street underwent a slight operation at St. Mary's hospital Saturday.

Leslie Delf, of Calumet, spent Saturday and Sunday with his grandmother, Mrs. A. Delf, 230 West Ridge street.

Mrs. S. W. Shanil has returned from Detroit, where she was called by the illness and subsequent death of her mother, Mrs. R. J. Taylor.

Born, yesterday morning, to Mr. and Mrs. Charles Webb, at Houghton, a daughter, Mr. Webb is the Chicago & Northwestern railroad's commercial agent in this upper country.

Henry Du Rocher left for Duluth Saturday night, where he will make his future home. He has a daughter living in that city. His daughter, Miss Marie, will remain in the millinery department at J. H. LaRoche's store.

Superior five, No. 217, L. O. T. M. M. will hold a special meeting in Fraternity Hall Tuesday afternoon at 2:30 o'clock. All officers and members are requested to be present as business of importance is to be considered.

There will be a basket or box social at the Salvation Army barracks Thursday night. The boxes will be auctioned off to the highest bidder and the purchasers will have the privilege of sharing their contents with the ladies who filled them.

Basketball Tomorrow—A game of basketball will be played at Legion Hall tomorrow evening. The Knights of Columbus and El Portana teams will try conclusions.

German Meeting Called—A meeting will be held at Keweenaw Hall tomorrow evening under auspices of the Karl Schurtz club. All Germans and men of German descent are invited to attend.

Earthquake Pictures—The pictures of scenes in the southern Italy earthquake zone will be shown at the Bijou at a matinee this afternoon, and also at the evening performance, following which they will be shipped to New York. The pictures created much interest at the Bijou Saturday.

Vandeville at the Prison—The Grand theater gave a vaudeville performance to the inmates of the Marquette prison yesterday afternoon, a large and enthusiastic audience being present. A number of illustrated songs and moving pictures were given, and a local orchestra was in attendance.

Mrs. Spencer's Funeral—The funeral of Mrs. E. M. Spencer, who passed from life Friday evening at 8 o'clock, will be held at her late home, 119 West Arch street, at 1:30 o'clock this afternoon, conducted by Rev. Ames Maywood. The remains will be taken on the afternoon train to Fowlerville, Mich., for interment.

Page Hearing Today—Louis Page, under arrest in connection with the Birch postoffice robbery case, will be given a hearing this afternoon. A government postoffice inspector arrived in Marquette yesterday, and is expected to take charge of the prosecution of the case. Owing to the United States court commissioner being out of the city, the hearing will be held before Justice Cray.

But Little Sickness—The hospitals reported last evening that there was less sickness in this city than usual at this time of year. Neither St. Luke's nor St. Mary's hospital is crowded, although a few weeks ago, both were filled to their capacities. There is no disease which can be said to be especially prevalent at the present time, and there are but seven cases of typhoid fever in the two institutions.

Will Not Resign—Since Judge Stone was injured several weeks ago, reports appeared in certain upper peninsula papers to the effect that the Marquette jurist would resign early in the summer. Judge Stone stated last night that there was no foundation for such a report. He has nearly recovered from the effects of his fall of a month ago, no longer carries his arm in a sling, and reports that he is feeling well.

German Club Meeting—A meeting of German voters of this city was held at Keweenaw Hall yesterday afternoon at which it is said 200 men were present. The local political situation was generally and particularly discussed, but no resolutions were endorsed.

Died at Prison—Charles Jones, aged about twenty-three, died at the Marquette prison early yesterday morning, after having been in the prison hospital for several weeks, suffering from tubercular trouble. Jones had been sent up from Wayne county and was serving a sentence of from five to fifteen years for breaking into and entering a dwelling in the night time. An inquest will be held by Justice Cray and a jury today.

Ishpeming Printers Won—The Ishpeming printers, fourteen in number, were the guests of The Mining Journal printers Saturday night. The early part of the evening was spent at the bowling alleys, where the Ishpeming first team defeated the Marquette team in a three-game contest by 200 runs, winning two out of three games. The Marquette second team and "devils" team won from their respective Ishpeming opponents. After the bowling contests, the guests and hosts gathered in The Mining Journal building, where refreshments were enjoyed until the arrival of the midnight train, on which the Ishpeming types returned to their homes.

Arbor Day April 30—Governor Warner has issued a proclamation naming April 30 as Arbor day. In the document the governor says: "Plant a tree should be the catchword on April 30, 1909 and the farm roadside and school grounds should be an evidence from that

date on that it was not simply a precept. The commission on country life appointed by ex-President Roosevelt suggested that people in the rural communities come together in their school houses on Arbor day and form an organization with the school as the center and meeting place, for the purpose of developing and making better the general life of the community. It is to be hoped that our state will be among the pioneers in this great movement."

Death of Alfred Geismar—Word was received here yesterday of the death, at Chatham, of Alfred Geismar, son of Leo M. Geismar, superintendent of the Upper Peninsula State experimental farm at that place. The demise of the young man, who was twenty-two years of age, was due to tuberculosis, from which he had suffered for the past two years. He was attacked by the disease while a student at the Michigan Agricultural college and though every effort was made to save his life he could not throw it off. He spent some months in New York in the hope that his health would be benefited and also was in a sanitarium for a time. The young man's home was at Chatham after the date when his father went there, and he was previous to that a resident of Ontonagon county. The funeral will be held Wednesday.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

Was Beloved by Many—

With the death of Mrs. Frances Hopkins, mother of A. P. Hopkins, former manager of the Escanaba Lumber company, at the home of Allan Hopkins at Masonville, Delta county, one of the most lovable characters ever known by many people in Escanaba, passed away.

Mrs. Hopkins, or "Madame Hopkins," as she was known, was eighty-three years of age. Her demise was due to complications resulting from advanced years and which caused heart failure.

New Opera House in Sight—

Crystal Falls is likely to have a fine new theater the coming summer. El J. Brogger, who is the prime mover in the undertaking, reports that plans are well along for financing the enterprise and that it looks like a sure go. The proposition is to form a stock company and erect a modern structure of brick.

The plan is to construct a two-story building, the lower floor to be devoted wholly to theatrical purposes and the stage to be of large proportions so as to accommodate the class of attractions that play the city. The second floor is proposed, shall be used as a skating rink.

Mine Fire Costly—

A fire at Iron Mountain the latter part of last week resulted in the boiler and engine house at the Millie mine burning to the ground. The fire was started by the explosion of a kerosene lamp near the hoisting engine. In five minutes the whole interior of the building was on fire. The fire department turned out, but owing to the elevation of the mine plant, could not get water until first pressure could be obtained from the power plant of the water works. The building contained two boilers, a hoisting engine with three drums, a compressor, and a lathe and drill punch, besides a large quantity of pipe, fittings and tools. The loss is estimated at about \$12,000 to \$15,000, with \$6,000 insurance.

Theater Changes Hands—

By a deal which was closed last week, William S. Campbell of Calumet, representing the Bijou Amusement company, has purchased "Ben's theater" at Escanaba from Manager Benjamin Salsinsky and will at once assume the management. After being completely remodeled and renovated the house will be converted into a high class vaudeville theater, which will offer a change of bill twice each week. With the purchase of "Ben's theater" in Escanaba, the Bijou Amusement company now controls a string of vaudeville houses stretching from the upper peninsula far down into Wisconsin and including houses at Appleton, Green Bay, Marinette, Oshkosh, Calumet and Hancock. Bookings for the entire string of theaters will be furnished by the Western Vaudeville association of Chicago.

Big Undertaking by Amateurs—

The Japanese operetta, "Princess Chrysanthemum," which has been running in New York and Boston, will be presented for the first time in the West by a cast of ninety pupils of the Escanaba High school the evening of April 10. It is said that the opera, which consists of three acts, is the most pretentious musical production ever attempted by a high school in the northern peninsula. The solos, choruses, orchestration and specialties will all be handled by pupils of the school under the direction of the supervisor of music, Miss Ahnera C. Hill, assisted by several members of the faculty. The costumes have been ordered. These will be the most expensive and elaborate ever seen at Escanaba. The stage in the high school auditorium is the largest in the city and the stage and scenery are second to none in the district.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York Saturday telegraphed as follows: "Stocks continue strong and buoyant. The more cheerful Balkan news has exerted a favorable influence over foreign markets, and good buying in our securities has come from that source. The advance in English consols has also been a healthy indication. Most eastern advices are friendly to the market, but are rather inclined to the lower and medium priced securities in making new commitments, feeling that the high priced issues have about exhausted their resources. The recent movements of the market has so far been promulgated or is liable to develop in the immediate future. The market, however, in all classes shows good underlying strength, and prices are quick to recover from any reactions. The market is broadening, and we believe for some time to come excellent opportunities will be offered in the way of a trading market."

Table of closing prices for various stocks including Amal, Anaconda, Atchafalaya, B. & O., C. & P., etc.

Boston Stock Quotations. Writing from Boston Saturday, Paine, Webber & Co. had the following to say of the stock market:

"The whole list had a sudden spurt of activity today, led by Amalgamated and Union Pacific. The local market was very active, with rapidly advancing prices. North Butte advanced 2 1/2, Greene Gemana 1 point, East Butte 1, Copper Range 1/2, Old Dominion 1, etc. Stocks apparently have been absorbed during the dull period, and now are advancing sharply with good buying. The short interest all through the list is large and will help to rush along a real bull market. Advise especially buying Isle Royale, East Butte and Copper Range, as I think all three will be leaders in the market next week."

Table of final quotations for various stocks and bonds from different regions like Victoria, Wyo., Wis., etc.

SIX STAR RUNNERS ENTERED.

New York, March 28.—Mat Maloney, holder of the outdoor world record for the Marathon, will be a starter in the \$10,000 Marathon derby to be run at the Polo grounds April 3. This brings the number of entries for the race to six, Tom Longboat, the Indian; Alfred Shrubb of England, Dorando Pietri of Italy, Henry St. Ives of France, and Johnny Hayes, the American, who previously signified their intentions to start.

The king of Greece is the poorest of reigning monarchs. The Servians look upon light hair with marked disfavor.

DISCOVERS NEW WAY TO MAKE WOOD PULP TO MAKE WOOD PULP Minnesota Professor Invents a Process by Which One Cord or Norway Pine Worth \$7.50 Yields a Profit of \$80. Minneapolis, March 28.—One of the most significant industrial discoveries of the age was admitted yesterday by Dr. George B. Frankforter of the college of chemistry of the University of Minnesota. It means, says experts, that the United States will produce 100 times as much wood pulp paper as is believed possible. It means that every cord of fir lumber will yield \$10 profit on by-products alone, and that the greater part of the 60 per cent of a tree now wasted will be turned into dollars and cents. It means huge plants and new industries.

To Build Experimental Plant. C. A. Smith of the C. A. Smith Timber company is almost the sole sharer with Dr. Frankforter of the process. So enthusiastic is he of the enormous commercial value of the discovery that an experimental plant will be constructed this summer, to be followed immediately by the building of a mammoth plant. The process consists of taking small pieces of waste wood or sawdust, laying it on a steel incline over a furnace and subjecting it to a chemical process of distillation. Carbon disulphide, or gasoline, is poured over the sawdust, dissolving the turpentine and resin which pass off as gases into a coil of pipes leading to a tank.

How Discovery Was Made. In 1890, while walking through the pine woods of the northern part of Minnesota, Dr. Frankforter noted an odor, unlike that of the ordinary turpentine. He took a sample back to the university, showed it to a friend in the faculty, who happened also to be a friend of Weyerhaeuser, and mentioned his desire to experiment further.

Within a week a mill can filled with the pitch of the Norway pine—for it was that which he had discovered—was sent him. He set to work. The then known process of distillation consisted in boiling the wood until the pitch was separated and the wood left as charcoal. Neither of these substances had much commercial value. Later he procured a small experimental plant near his home, and capitalists interested came to his assistance. The discovery of the process of making wood pulp came like a flash.

LIKES RED-HEADED GIRLS. Man Bewitched by Warm Tresses Is Wife's Divorce Plea. "That man had a positive mania for red-headed women," said a witness in Justice Seudder's court, Brooklyn, recently, testifying against John Tyler Dupont, whose wife, Helen, is suing for divorce. "Why, your honor," the witness went on, "he had a mania for red-headed women. He had a mania for red-headed girls with him at once to various public places. I have seen him."

ONE ON THE GENERAL. Benjamin F. Butler of Massachusetts was a tireless worker who started on a tour of the South in 1861. He was in the library until almost daylight when the general wanted to finish up anything. During the night sessions of the senate, called on General Butler one morning at 3 o'clock. The same senator called again when the senate adjourned the following morning at daybreak and found the general and Clancy still at work.

POINT OF VIEW. "Shakespeare, my children," quoth the English sparrow, instructing her young family at the day's end, "is perhaps the greatest of all men. And I have a much better reason than mere national pride for saying this. Shakespeare, as you will presently observe for yourselves, was half in front, but his hair brushed back by a side part, and that his hair, which I state of which great numbers exist, afforded admirable nesting places not to be found in other figures. George Washington, for instance, if I may say so without disparagement of our adopted country, affords no such nesting places. No, no. Daniel Webster. Accordingly while these may have respectable claims to distinction, it is only just to place them below Shakespeare."—Puck.

DICKINSON TO GO TO PANAMA.

Washington March 28.—Secretary of War Dickinson will leave Charleston, S. C., April 20 on the president's yacht Mayflower for Panama. Mr. Dickinson says he is making this trip in order to have a personal knowledge of affairs on the Isthmus. The secretary will be accompanied by Mrs. Dickinson and perhaps the secretary of the senate committee on canals.

NO SAUSAGE MILL FOR TAFT.

President Allows Congressional Callers to Take Their Own Time.

Washington, March 28.—President Taft does not dispose of the congressional visitors as quickly as former President Roosevelt. This is because he gives more time to each individual, listens carefully and with attention to all that is said and leaves to the caller the initiative of breaking away. One of the complaints against Mr. Roosevelt was that he hustled congressional callers through his office as fast as a good butcher puts meats through a sausage mill.

WAR ON THE HOUSE FLY.

Florida Now Engaged in Extermination of the Pest.

A Jacksonville (Fla.) dispatch to the New York Press says: "A war of extermination against the common house fly is being planned in this state. Edward Hatch, Jr., of New York, came recently to confer with State Health Commissioner Porter in regard to the start of the fly war, and Dr. Porter has issued instructions for dealing with the pests. The way in which medical men have come to look in recent years on the house fly is shown by the name fastened upon it by Dr. L. O. Howard, United States entomologist. It is 'typhoid fly.'"

TO SEEK ANCIENT MINES. Dr. Karl Peters to Attempt to Find the Land of Ophir. Berlin, March 22.—Dr. Karl Peters, the German explorer, who was married in Berlin Saturday to Franziska Heberich, will, it is reported, shortly proceed to the Zambezi on a visit to his gold and copper mines in the Muzza valley, near which he believes the land of Ophir to be situated. The principal object of his journey will be to improve further into his theory. More than ten years have passed since Dr. Peters first set out to search for King Solomon's mines, which he sought to prove in a book published in 1897 must have been situated in the region of the lower Zambezi. He believes that the mines worked by the Phoenicians were only 'scratched' and that their development with modern appliances might yield immense results.

Shore Lots.

Citizen—"Oh, these are the shore lots you advertised? Well, there doesn't seem to be much to them."

Boonley—"Say, you want to come up here and have a look at them when the tide's out?"—Life.

Chaffing Cholly.

Cholly—"Chawing girl, Miss Bute do you know I'm promised to let me accompany her on her morning walks."

Miss Keen—"Yes! The doctor told her she should walk with an object."

Not a Weight-Lifter.

"Is the baby strong?" "Well, rather! You know what a tremendous voice he has?"

"Well, he lifts that five or six times an hour!"—Comic Cuts.

Too True.

The total deposits about 12,000 eggs each year, but only 1,000 develop.

WHOLE CITY FEELS THE SHOCK.

Explosion at Joliet Steel Plant Kills or Injures a Number of Men.

Joliet, Ill., March 28.—Four persons are supposed to have been killed and six others were badly, if not fatally, wounded in an explosion at the plant of the Illinois Steel company last night. The whole city felt the shock of the explosion. The accident was caused by a "slip" in No. 1 blast furnace which forced a heavy charge of gas into the engine and boiler room. The engineroom roof and all the machinery were blown to pieces. A large gang is searching the ruins. The body of Louis Johnson, the older, was found. William Tenyson, the engineer, was probably fatally burned.

L. W. ATKINS & CO.

FROM MORGAN'S CURB LETTER.

"Copper shares opened strong, and soon developed into a regular old-time bull market. More activity was shown in the Boston list than for many weeks, and advances extending from one to three points were numerous. Amalgamated was the leader, selling from 7 1/4 to 7 3/4. The short interest in this issue is said to be enormous, and contracts cannot be covered at anything like present prices. North Butte was up 2 points. Butte Coalition 1, Copper Range 1, Greene 1 1/2, and Parrot and Amazona 1 1/2 each. Among the curls, Gironx was the most active and gained a small fraction. There was better inquiry for San Antonio and Live Oak. The balance of the curls were practically neglected. The whole list closed strong, and very active at top prices, and indications are for a higher opening Monday. Work at the Superior & Globe is progressing very favorably, with the shaft 65 feet deep and going down at the rate of 100 feet a month."

Saturday's prevailing prices were:

COUNCIL ACCEPTS ANNUAL REPORTS

STATEMENT ISSUED BY THE BOARD OF PUBLIC WORKS SHOWS RECEIPTS AND EXPENDITURES IN HIGHWAY, WATER AND SEWER DEPARTMENTS.

The annual report of the board of public works, approved by the council Saturday evening, contains, in detail, the receipts and expenditures during the year ending Feb. 28, of the several departments under the board's management. It cost the city \$5,070.62 to remove garbage from the alleys, and \$2,632.78 was expended for street cleaning. Of the sum spent in removing garbage \$3,506.35 was for labor and \$1,573.97 for fuel. The labor expense for street cleaning was \$2,015.32 and team hire, \$617.46.

In the repairing account, \$2,106.69 was expended on sidewalks and crosswalks. It required a larger sum to repair Washington street than any other thoroughfare, the expenditure for labor being \$295.85 and team hire \$301.82. The repairing of the main road to the Negaunee line, including labor and teams, cost \$173.95.

On the new work account there was a total expenditure of \$19,758.85. More than 50 per cent, or a total of \$8,807.79, is charged to the crusher plant operations. The streets on which new work was done were High street, South Pine, North Main, Greenwood, Lake and Pearl. The amount of \$406.90 is charged to street rolling.

The amount charged to miscellaneous account is \$3,539.70. This includes the street commissioner's salary, sprinkling the streets, opening and plowing roads and sidewalks during the winter, repairing hose hoses, labor on election booths, repairing sprinklers, painting snow plows, etc.

The accounts chargeable to the highway department for material used on various jobs, freight on garbage, freight on gravel, work on crosswalks and curbs, city engineer's salary, and various other items, footed up \$6,894.62.

The various totals included in the above, representing all bills and pay rolls during the twelve months period, amounted to \$319,299. From this sum is deducted \$128.35 as credit for work on election booths, work in fire department headquarters and work at city hall, leaving the net expenditures, \$319,070.94.

The board advanced for cement work and rebates on curbing during the year, \$322.05. Miscellaneous collections, including sidewalk repairs, sidewalks built, poll tax and other items, totaled \$1,784.21.

Streets and Walks.

The following statement shows the number of feet of new streets built during the year, the number of feet of streets and roads repaired, cement walks, curbs and crosswalks built, as well as other items of interest:

Item	Linear Feet
First street	350
High street	336
North Main street	718
North Lake street	850
Pearl street	406
South Pine street	4,061
Washington street	748
Greenwood street	2,200
Total	10,423

Streets and Roads Repaired--

Item	Linear Feet
Lake street	250
Greenwood street	1,750
Negaunee Road	4,600
Total repaired	6,600

Board sidewalks built 163
Rock gutting 2,247
Number linear feet cement walks and curbs in city:

Year	Walks	Curbing
Built in 1903	4,248	
Built in 1904	6,244	
Built in 1905	6,244	
Built in 1906	8,330	1,909
Built in 1907	7,793	275
Built in 1908	10,657	4,192
Total	43,700	10,209

Cement crossings built in 1908, 18 or 20 feet.
Average number of men employed July, 268.
Average number of teams employed July, 524.

Cost for street building:
Expenditures for labor \$10,753.63
Expenditures for repair on road roller 234.64
Expenditures for engineering services 53.03
Expenditures for freight on gravel 1,792.00
Expenditures for payment on land, H. H. Mildon 200.00
Expenditures for crusher repairs Allis Chalmers Co. 69.23
Expenditures for crusher repairs Oliver Iron Mfg. Co. 67.33
Expenditures for coal, Superior Lumber company 317.14
Expenditures for lubricating oil, Crew Levek Co. 19.92
Expenditures for blacksmithing 41.35

Total cost of new streets, \$13,549.15
Number feet of new street built, 10,423.
Cost per linear foot, \$1.29.

ANNUAL CEMETERY REPORT.

Addition to Vault and Extra Labor Heaviest Part of the Expense.

While the receipts of the cemetery department were larger last year than during any corresponding period for several years previous the sum collected fell considerably short of being sufficient to meet the board's obligations. The expenses were heavier than usual, on account of the extra labor necessary in putting the new addition in order and the erection of the addition to the vault. The latter cost \$1,075.57. The trustees' annual report submitted to the council at its adjourned regular meeting Saturday evening was as follows:

Ishpeming, Mich., March 19, 1909.

The honorable mayor and common council of the city of Ishpeming, Gentlemen: The board of cemetery trustees respectfully report that they have this day examined the entries,

and findings of the cemetery accounts as kept by the clerk of the board and found the same to be correct. During the year ending March 14th, 1909, there has been expended for services as follows:

For extra labor	\$ 720.00
For new addition to vault	1,075.57
For lumber, tools, team work, etc.	268.21

WATER WORKS REPORT.

Expenditures for the Year Exceed Receipts by \$361.54.

According to the board of public works' report on the water works department, approved by the council Saturday evening, the receipts for the year ending Feb. 28, were \$13,383.06, and the collections amounted to \$13,021.52, showing a deficit of \$361.54. The number of hydrants in use is 128, and the water passes through twenty-seven miles of mains. There were forty-four permits issued, increasing the total number issued to date to 1,631. There are 1,427 meters in use, the sizes and makes being as follows:

Size	%	1	1 1/2	2	3	Total
in. in. in. in. in. in.						
Trident	.820	21	29	3	17	882
Keystone	.104					104
Nash.	.197					197
Worth'n	.244					244
Total	1365	21	20	3	17	1427

There are 1,938 taps in the city and the percentage of taps metered is 75. Thirty-four persons are exempt from the payment of water taxes. The total number of feet of main pipe of different sizes laid up to the close of February was as follows:

Size	Feet
14 inch	15,226
12 inch	3,510
10 inch	3,353
8 inch	5,807
6 inch	24,753
4 inch	75,215
3 inch	1,088
2 inch	7,017
1 1/2 inch	470
1 inch	6,347

The following statement shows the principal items of expense, collections, etc.:

Expenditures--

Tapping and plumbing	\$ 545.38
Hydrant repairs	613.34
Service pipe repairs	1,262.96
Main pipe repairs	1,285.68
Maintenance	730.66
General expense	2,355.80
Setting new meters	452.09
Meter repairs	639.97
Reading meters	444.46
Pumping	2,324.40
Pipe laying	989.57
Work on new pipe line	338.93
New pump station	418.85
Cleaning around Lake Sally	370.09
Digging up old pipe	287.25
Moving and installing Worthington pump	325.13
Total expense	\$13,383.06

Collections--

Water rates collected	\$12,305.89
Miscellaneous collections	182.63
Permits	533.90
Total Collections	\$13,021.52

Deficit \$ 361.54

WILL HEAD SOO BALL TEAM.

Andrew (Sib) Larson didn't go to Escanaba last week as he expected to do. Instead he remains at the Soo and is going to captain the Soo baseball team this coming season. "Sib" fully expected to leave but at the last moment secured a position as night clerk at the Park Hotel. Now he proposes to get together a bunch of ball players who can clean up everything in sight. "Sib" is a first sacker. He played in the Soo about seven years ago with the old Maroons. The past two seasons he has held down the initial sack for Escanaba. He has signed a contract with Madison, but the Soo proposition looks so good to him that he has thrown that down. Last year the Soo team went against Escanaba and took one game out of three. "Sib" believes that the Soo can defeat Escanaba this year. Most of those on last year's team will again be seen in uniform. Phil Jacobs will doubtless be at the receiving end of the battery and Tallion will be one of the mainstays of the pitching staff. The squad will include Ripley, Raines, Swick, Rellis, Sandelman, Brown and Bourke. An effort will be made to get some good outside men.

Edison and Victor records for April now on sale, also the Victor double-face records, Victor talking machines and Edison phonographs on easy monthly payments. Remember the place, Grinnell Bros., 201 Main street. (3-29-24)

ISHPEMING

JOHN KORPI HEARD STRONG ARGUMENT

CRYSTAL FALLS PAPER TELLS HOW THE BUSINESS MEN AND OTHER REPRESENTATIVE CITIZENS COMPELLED ISHPEMING MAN TO LEAVE THE CITY.

John Korpi's compulsory departure from Crystal Falls is described as follows by the Diamond Drill of that city in its issue of Saturday:

"John Korpi, a socialist agitator from Chicago and Ishpeming, got the same dose that his two predecessors, John Kalon and Henry Nemi, got at the hands of Crystal Falls business and working men. He was escorted to the 7:35 p. m. train last Saturday evening and told to stay aboard until the train got to Channing, and he did so."

"Korpi had been about town for nearly a week, off and on. His mission here was known but so long as he at tempted no agitation he was not molested. About the middle of the week he went to Ishpeming, returning at 11:30 Saturday. He immediately started to get busy in an effort to get a public hall for a mass meeting which he had called for Sunday afternoon, ostensibly for the purpose of protesting against the application blanks which the Oliver Mining company is now using and which new applicants for jobs are asked to make out, but really to organize a socialist club."

"As the Oliver people are operating no mines here at the present time the absurdity of the excuse can easily be seen."

"Korpi had with him several copies of the Wage Slave, a socialist paper published at Hancock, which contained the contract blanks of the Breathing Mining people at Negaunee, but not the Oliver blank, the latter being as different from the Breathing affair as day is from night. In his talk, Korpi carried out the idea that the Breathing blank was the Oliver blank and to unknowing ones the deception was not easily discernible."

"During the afternoon a number of the business men, including the mayor, got together and concluded that the fellow had gone far enough to endanger the peace and dignity of the community and a committee was sent around to notify the different business men to meet at the postoffice corner at 6:30. Promptly at 6:30 the said business men were there and a party of about fifty proceeded to the place where Mr. Korpi was spending the evening. The chairman of the delegation went inside and asked Mr. Korpi if he would please step outside as he wished to speak to him. Korpi came out willingly and the leader explained to him in a calm and gentlemanly way that it had been learned that he (Korpi) was in Crystal Falls for the purpose of stirring up labor trouble; that the mines about Crystal Falls are now operating under very adverse circumstances in that large accounts of iron ore are being made; the mining companies are straining every effort to keep their men employed; are paying wages that are as good as can be had anywhere in the country; that the workmen are satisfied and no complaints are being heard; that the presence of such agitators as he (Korpi) is detrimental to the interests of the workmen, the business men and the mining companies; that the delegation he could see about him was made up of business and working men of the place who came in a calm and respectful manner to ask him if he would not take the 7:35 train out of town. Korpi began to argue, but the speaker told him that the delegation didn't wish to listen

FRENCH EXPLORERS NOW IN ANTARCTIC REGIONS

Dr. Charcot's Expedition Well Equipped With Supplies and Novel Contrivances Designed to Expedite Journey to the Pole.

Paris, March 28.—The return of Lieutenant Shackleton and his party from the Antarctic direct renewed attention to the fact that an expedition now in the South Polar regions is that headed by Dr. Charcot which left Punta Arenas, Chile, Dec. 17, 1908. Dr. Charcot, who is a well known explorer and scientist, left on Aug. 14 last at high tide on board the Pourquoi Pas (Why Not?) for the South Polar region. This is Dr. Charcot's second Antarctic expedition. The Pourquoi Pas is a three-masted sailing vessel, with an auxiliary engine of 500 horsepower and has a speed of about eight knots. Dr. Charcot is accompanied by a scientific staff of eight and a crew of twenty-two men. The expedition is expected to last two years, and large stores of food have been laid in, of which the following are a few items: Twelve tons of preserved meat, twenty-two thousand bottles of wine, five tons of desiccated vegetables, six tons of flour, one ton of dried fruit, one and a half tons of chocolate and jam. Among other things which the Pourquoi Pas carries are a large number of books and a phonograph. The expedition planned to head for a part of the Antarctic continent south of Cape Horn and then to attempt to make its way along the coast as far as Alexander I Land, where the vessel was to take up its winter quarters.

The French parliament made a grant of \$160,000 for the expedition, and the prince of Monaco and the Paris Geological society and other scientific bodies have assisted in its organization and equipped. One of the objects in returning to the region of the south pole is to bring back specimens of the fossils to which Dr. Nordenskjold has already directed attention. It is intended to transport to one of the open ports of the Antarctic continent the Pourquoi Pas, and then to go on to Louis Land to begin the exploration of the regions to the south. Not the least interesting part of the outfit is the new type of motor-sled which was built for this special purpose at the works of the De Dion Automobile company at Paris. Such a sled will be a great advantage, and the party has three of them on board. In order to make a practical trial of the sled, it was taken to the Lanteron river, near the town of Lyons, and a great speed is not desired, as crevasses are to be feared, and the sled must be quickly stopped. Dr. Charcot was greatly pleased with the results of the tests. The expedition called at several points in the Atlantic, where a number of explorers were received with great honors.

ISHPEMING IN BRIEF.

Herman Jadedeek and wife arrived home Saturday from the copper country. W. H. Johnston spent Sunday at Beacon, visiting his son-in-law, H. S. Thompson, and family. James E. Jopling, chief engineer of the Cleveland-Cliffs Iron company, visited Republic Saturday.

There will be a rehearsal of the "Mikado" this evening at 7:30 o'clock at the Presbyterian church. Edward Copps, who spent the past week in Milwaukee, returned home Saturday, accompanied by his brother-in-law, Edward Gingrass, who visited Mr. Copps yesterday. Clifford Jadedeek and Roy Matthews, members of Jadedeek's orchestra, assisted in furnishing music at Al. Schott's moving picture theater in Republic Saturday afternoon and evening.

Jack Thompson, oldest son of H. S. Thompson, of Beacon, had his left leg placed in a plaster cast Saturday. He injured his knee while a few weeks ago, stretching some of the cords.

The coal shed and trestle opposite the Chicago & Northwestern Railway company's passenger station is being torn down. The structure was erected in the neighborhood of thirty years ago.

A. Hocking of Republic has taken the agency at that place of the Metropolitan Life Insurance company, which has its district headquarters in Ishpeming. The company has a number of policy holders in Republic. A week's mission opened yesterday at St. John's church. Services are to be held each evening during the week and there will be masses every morning at 5 and 7:30 o'clock. Special instructions are to be given the children today and tomorrow at 11 and 3 o'clock, also Wednesday morning.

The Republican rallies conducted Saturday evening under auspices of the ward clubs were well attended. The party's ward caucuses and city convention will be held this evening. The caucuses will be called to order at 7:30 and the convention will convene at a hour later at the Negaunee lobby. The Sawyer-Goodman company of Menominee, which operated camps on the Peshekee river district this winter, has broken camp, and most of the men came out the latter part of the week. It is expected that the drive to Lake Michigan, where the logs will be loaded on cars and shipped to Menominee, can be started within two or three weeks.

A. W. Franz, who managed the Ishpeming branch of the Grand Union Tea company for a year, prior to twelve years ago, was in the city Friday and part of Saturday, having left here for Iron Mountain. He is now general manager of the Rapid Sales Agency company, which handles the Michigan automobile business of the Rapid Traction Vehicle company.

Albert Peterson, who has been employed as a blacksmith at the Lake Angelina mine shop for three years, is to engage in business on his own account on the 31st of next month, taking the Pearl-street shop at one time conducted by T. F. Gill. Mr. Peterson learned his trade in Ole Walseth's shop some years ago. He will do all kinds of blacksmithing and repairing, making a specialty of horse-shoeing.

CATARRH CANNOT BE CURED WITH LOCAL APPLICATIONS, as they can not reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the mucous surfaces. Hall's Catarrh Cure is not a quick medicine. It is prescribed by physicians and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing Catarrh. Send for testimonials free. F. J. CHENEY, CO., Proprietors, Toledo, O. Sold by Druggists, price 50c. Take Hall's Family Pills for constipation.

KLOMAN DRILLING CONTRACT AWARDED

SULLIVAN MACHINERY COMPANY WILL DO WORK FOR THE CLEVELAND CLIFFS COMPANY AT PROPERTY AT REPUBLIC.

The Cleveland-Cliffs Iron company has awarded the Sullivan Machinery company of Chicago a contract to conduct the drill work at the Kroman property at Republic Saturday, when the location of the first hole to be bored was decided on. It will be bored near the Michigan game river and not far from the business district. The mine is located on the south side of the river and some of the pits are near the water's edge. In one of the pits, where the showing of ore was considered better than in any of the others when operations were suspended here some twenty-seven years ago, the opening had reached a point when it was feared that to reach further toward the river might result in letting in the water.

The owners of the Kroman, who are to receive \$300,000 from the Cleveland-Cliffs Iron company if it is decided to take over the property, are conducting exploratory work for a year, have about three-quarters of a section. The holdings extend a considerable distance back from the river in an opposite direction from the Riverside. The Oliver Iron Mining company took an option on the Kroman a few years ago, equipped the property with machinery, unwatered all the shafts and did some mining, but finally threw it up.

There are many people at Republic who faith in both the Kroman and the Oliver companies. The latter has proper direction of the exploratory work in quantities sufficient to warrant the opening of mines will be located in both properties. They state that the work at the Kroman under the former company was of a most inadequate character. The ore bodies encountered in the several pits did not show veins of any great wealth, but the indications when operations ceased were favorable for greater wealth at depth. Republic people are much pleased that the property is to be explored by interests who know how to work to the best possible advantage, and they believe that the Cleveland-Cliffs company will get satisfactory results, especially as the holes are to be drilled much greater depths than any previously bored.

Eugene Whinnen, a diamond drill man of many years experience, is to have charge of the work. Mr. Whinnen's father is one of the oldest drill men in the country, having spent thirty years ago his own learned the business from him. He worked for some years at the Republic mine, and is thoroughly familiar with the formations. Mr. Whinnen has handled a number of important jobs for the Kroman company, and recently returned from Cuba.

ST. ONGE NOT INTOXICATED.

Champion Man Had a Weak Heart and Doubtless Died from Exhaustion.

Nicholas St. Onge, the Champion man, who died early Thursday morning on the streets here, and whose funeral was held Saturday morning from the Catholic church in Hancock, was not intoxicated at the time of his death, his friends say. It would seem from the fact that he did not eat much of anything from the time he left his home in Champion early Wednesday morning and that he had a very heavy workload, that he was then to Princeton, where a brother resides. He was doubtless on his way to Princeton when he dropped exhausted in the snow.

ENLARGING ADAMS PIT.

Plans Announced for Extensive Operations at Oliver Property.

The Oliver Iron Mining company has about completed an important addition to the Adams location at Eveleth, on the Mesaba range, and all of the new houses will soon be occupied by company workmen. Twenty-five dwellings have been put up at a cost of about \$20,000. The houses have city water and electric light connections, as well as some other conveniences. The Adams pit is being materially increased in size by the stripping over of the old No. 1 and No. 2 shafts. The No. 1 shaft is being dismantled and a new shaft, and possibly two will be sunk during the present year.

TO ORGANIZE HERE.

A Sunday School Teacher "Trainers" organization along the lines suggested by Herbert Montgomer in his address on the subject last Thursday evening at the First Methodist Episcopal church in Ishpeming, is to be formed here. Negaunee people who heard the address were much interested in the subject, and a meeting to take preliminary steps for the organization of a society that will include the Sunday school workers of the various Protestant churches. At the service, yesterday at the Methodist church, Rev. W. R. Coombe, the pastor, commended the plan, and urged the teachers and pupils of his Sunday school organization to take up the work.

BALL GAME TONIGHT.

Manistique's Crack Nine to Meet the Unions at the Adelphi Rink.

The first of the two baseball games between the Negaunee Unions and the Manistique team at the Adelphi rink will be witnessed by a large crowd this evening. A good-sized delegation of Ishpeming fans is expected, among them the members of the City team, who are to measure strength with the visitors' Wednesday evening at Braastad's Hall. Crowe, who is said to be one of the best indoor pitchers in the country, and perhaps the best in Michigan, will be in the box for the Manistique. Crowe is the only upper peninsula twirler who ever won a game for his team from the Spaldings of Chicago. He defeated the team four years ago at Manistique.

The Negaunee team will put in its strongest players. Drunkards will be behind the bat; Mitchell will pitch; Scanlon, first base; Lafave, second; Paul, third; Trudell and Flannery, short stops; Messier and Frank Winter, in the field. Charles Kirkpatrick will probably pitch tomorrow night. A game will be reserved seats for tonight's game will be on sale this morning at Perkins' drug store.

Our ladies' suit department is a pretty big place these days. The ladies appreciate special values in suits is evidenced by the fact that we have crowded a three months' business into twenty days.

(3-27-14) F. BRAASTAD & CO.

LOCAL LACONICS.

M. C. Quinn has returned from a two-weeks' business trip to Chicago and Milwaukee.

Ernest Klein of Rosen Bros. & Klein left last evening for Chicago, to be absent a few days, on business.

T. E. Driscoll arrived in the city Saturday forenoon. In response to a call home on account of the critical illness of his mother. He was met at Oconto by his sister, who is a nun in a Wisconsin convent.

U. R. Durner, who is doing the tile work at the new Negaunee High school building and the Breathing House, has been awarded the contract for work at the new Sisters' hospital to be erected in Milwaukee. About 25,000 square feet of tile is to be put in.

Alderman E. D. MacNeil, superintendent of the Commodore mine, returned yesterday from a business trip to Duluth. While there Mr. MacNeil had the honor of attending the spectacular drama, "Ben Hur," at the Lyceum Wednesday night.—The Virginian.

The ladies of the Mitchell Methodist church will serve dinner and supper on election day, a week from today, in the church parlors. The service will start at 12 o'clock and 5 o'clock. A bazaar, at which fancy articles are to be sold, will be held in connection.

The Negaunee high school basketball team was defeated by the crack LAnse-au-Loup team Saturday evening at the Kirkwood Hall by a score of forty-two to six. The junior girls' team defeated the senior girls by a score of ten to nine. The contacts were witnessed by a fairly large audience.

PARTY WITHOUT A LEADER

This is the Present Embarrassing Position of the Democrats.

Disorganized and Without a Head, No Advantage Is Taken of the Many Opportunities Offered in Congress—Hopeless of Securing National Power, Each Man Reaches for What Happens to Be in Sight and Each Represents Only His Own Section.

Washington, March 28.—Recent developments in congress serve to emphasize the fact that the Democratic party is without a head. "It is a line thing that the party in power that there is not a party," said a Republican senator in private conversation. "If there were an opposition party that amounted to anything we Republicans would be greatly concerned about the state and congressional elections that are to be held this year. As it is, we are not alarmed. Disorganized and leaderless as it is, the opposition party cannot hope to take advantage of the opportunity that is before it."

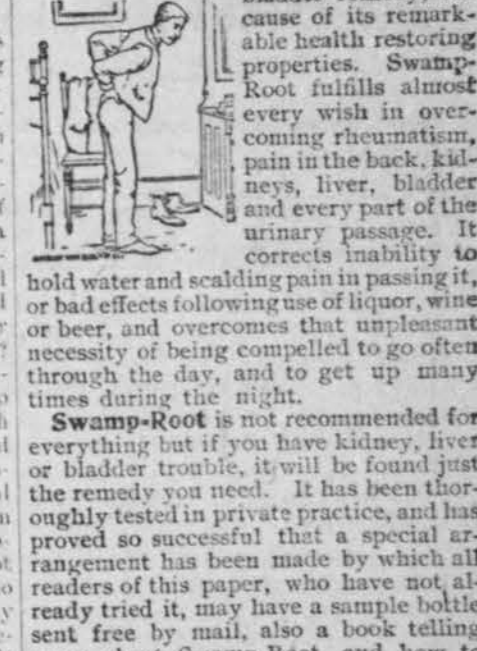

Democrats Lack Policy.

As a result of a lack of national leadership the minority party has come face to face with a revision of the tariff without having a fixed policy to be followed in dealing with the subject. Under wise leadership the party would have marked out its path weeks in advance of the appearance of the bill prepared by the way and means committee. The cold fact is that most of the Democratic members of congress have been sitting around for weeks wondering what they would be able to get out of the Republican bill, many of them are still manoeuvring with their hands behind their backs. Under the circumstances no one was surprised when one Democratic member of the ways and means committee voted to report the Payne bill without a single dissent. Perhaps the Democratic member was justified in casting his vote as he did, for his party had nothing to offer at that time. Deplaving the weakness it has so frequently displayed in congress, the minority did wait until it had prepared before giving any thought to

It might be thought to offer the country. In the estimation of observers the minority party has before it an excellent opportunity to gain favor with the country by opposing with vigor the extravagance of the federal government. But apparently the party under its present leadership in congress, is not planning to take advantage of the situation. The record of the recent billion dollar session does not reveal that the minority protested against the enormous appropriations. Certainly it did not protest louder than a whisper. Such criticism as there was came from the Republican senators of the La Follette-Cummins type.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable. Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in over-coming rheumatism, pain in the back, kidney-weakness, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and not to get up many times during the night.

Swamp-Root is not recommended for anything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to use or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., 233 West Broadway, Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all druggists. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

FOR SALE—House and lot with barn, located on Clark street. For information call Bell Phone 88, Marquette; Phone 122, County. Mrs. John Westerman, 2104 E.

Party Stands for Nothing.

The fact is that the Democratic party as it is represented in the congress, is not standing for anything today. In some quarters the hope is expressed that the debate on the tariff bill may develop a leader, but men who know the personnel in senate and house pretty well are not optimistic on this point. Indeed if some men should display qualities of genuine leadership it is doubtful if he could gather up a following of any consequence. Charles A. Culberson, the minority leader in the senate, has from time to time displayed some fine qualities as a leader, but he has never been able to hold the minority in that body together on important questions. The Democrats of the senate are almost as inharmonious as those of the house, and unless all signs fail they will not support any fixed policy when it comes to dealing with the revision of the tariff.

Unquestionably the situation in congress reflects the condition of the minority party throughout the country. Tammany Hall has its representatives in the national legislative body. They may be counted on to look out for Tammany Hall, New England, has a few Democratic members of the house who know little about the Democratic party of the nation and care less about it. They may also be found standing for what their constituents want. The Democratic members from the great West represent what may be called the Bryan Democracy. They stand together pretty well, but without the cooperation of other offshoots from the party cannot accomplish a great deal. The Southern Democrats dominate. They have long ceased to regard the national Democratic party as of great consequence. Their first allegiance is to the party organization of the particular district or state from which they come. Of recent years the Southern senators and representatives have become more and more disposed to keep on good terms with the representatives of the party in power in the nation. One insurmountable obstacle to a united Democratic front on the tariff is the increasing demand for protection for Southern industries.

Hope in New York Meeting.

Many careful observers of the trend of events believe that if the congress were party could "pull itself together" and accept the leadership of some wise statesman or group of statesmen at this time it might formulate a policy respecting federal expenditures and federal revenues that would give the organization a real factor in the solution of the important problems that confront the country.

In this connection it may be said that much interest centers in the banquet of the Democratic National club to be held at the Savoy Hotel, New York, April 13. The three Democratic governors of the North, Thomas R. Marshall of Indiana, John A. Johnson of Minnesota and Judson Harmon of Ohio, are to deliver addresses on that occasion. Benjamin F. Shively, the newly elected Democratic senator from Indiana, is also to speak. Men here at the capital are expressing the hope that suggestions may be made at that feast which will "point the way" for the disorganized representatives of the minority party here at the national capital.

AWAY WIZ ZEE FAT, CRY LADIES.

Paris Doctor Says Give Up Fancy Dishes and Take Exercise.

Paris, March 28.—Dr. Labbe, a well-known physician, states that nine-tenths of the ladies who consult him betray great concern lest they should lose the graces of their youth. They have a horror of growing stout and are willing to submit to any martyrdom if only they can remain slender and elegant.

Dr. Labbe's answer to his patients is that, although French cooking is agreeable to the palate, it is neither hygienic nor beneficial, and, further, it is very fattening. Instead, he strongly recommends for breakfast, porridge, fish, eggs, preserves and tea, instead of the customary coffee and roll. Lunch should consist of plain dishes and fresh fruit. Five o'clock tea he considers a capital institution, with sparing quantities of toast and cakes. For dinner he would have roast beef, mutton or lamb, devoid of sauces and "kick-shaws."

He also advocates bathing, walking and outdoor recreations. "If," he says, "the French would only follow this regime there would be less illness and disease." The physician advises the French to drink beer and cider, and especially to avoid wine. Fruit, he says, should be eaten raw after being well washed, but it should not be peeled,

CITY WATER EXPERT MAY COME HERE

STATE BOARD OF HEALTH TO BE REQUESTED TO SEND CHEMIST TO MARQUETTE.

BACTERIA FROM DEAD RIVER?

One Member of Commission Believes That the Source of Contamination Rather Than Sewage—Reasons.

An informal meeting of the board of fire and water commissioners was held Friday evening, at which the municipal water problem was thoroughly discussed, as a result of which the sentiment of the board was crystallized into definite form.

It was decided to write to the state board of health, asking that some competent man be sent to this city soon after the ice goes out of the harbor to spend several days and make exhaustive tests of the lake water, in different parts of the bay under different wind conditions. He will also be asked to test the water obtained in the near-shore wells, recently drilled. By being on the ground and seeing the local conditions it is thought that the expert will be better able to estimate the extent of the danger of the present source of supply than from samples sent to Lansing from time to time, and after looking over the ground may be able to suggest to the board what is best to be done.

If the state board of health agrees to send a representative to this city as requested, it is likely that the United Water Improvement company, the manufacturers of the ozone purification plants, will be asked to make a demonstration of their process while the expert is here. This company has already agreed to send a portable ozone purifying machine to this city for demonstrating purposes, provided the water board will pay the transportation charges and the expenses of the accompanying demonstrator.

Ozone Method Successful.

A recent article in the Engineering News has served to strengthen the faith of some members of the water board in the ozone method of purification. The article states that the Baltimore County Water & Electric company, a private corporation that furnishes water to most of the suburban districts of Baltimore, has placed an order with the United Improvement company for an ozone purification plant of 10,000,000 gallons per day capacity, after making experimental tests and visiting the plant recently installed at Lindsay, Ont. The Baltimore company obtains its water supply from a river and now uses a mechanical filtration plant to purify it. The ozone tests showed that the water could be purified by that method, after the river water had been rough filtered to take out suspended matter. As there is no suspended matter in the Lake Superior water, it is believed that previous filtration would be unnecessary, were an ozone plant installed in this city.

Bacteria from Dead River.

After making a careful study of the local water problem and comparing the analyses submitted by Doctors Vaughn and Holm within the past year, one member of the water board is of the opinion that bacteria in the present water supply comes from Dead river and not from sewage contamination. No typhoid bacteria has ever been found in the water, but simply what is known as vegetable bacteria, which are harmless unless they become too numerous. If this is the case, to move the intake to the north side of Lighthouse point would only make matters worse. The report on samples sent to Professor Vaughn at Ann Arbor just before the present intake was laid strengthens this belief. At that time three samples were submitted for analysis, one taken from the location of the present intake, another a half mile farther out into the lake and the third from near Picnic rocks. A few days later Superintendent Kern received a telegram from Professor Vaughn, stating that the water taken from near Picnic rocks was contaminated and that the intake should not be run out in that direction. The other two samples were found to be pure and wholesome. Superintendent Kern states that samples taken from all parts of the lake have been analyzed from time to time, but that in no locality has the uniform showing been better than at the present location of the intake.

Judging from the facts outlined it may be that the public does not realize the difficulty and complexity of the water problem, and that there is some excuse for the water board not getting somewhere more quickly—at least this is the opinion of members of the board.

SENTIMENT PESSIMISTIC.

Prospect of Tariff Reduction Causes Gloomy Outlook for Iron Trade.

Gloomy conditions predominate in the iron trade, due in part to the proposed radical reductions in the tariff on iron and steel products and the expectation that the proposed tariff bill will not be enacted into a law until several months have passed, says the Marine Review. Further pessimistic sentiment may be attributed to the failure of recent price reductions to result in the development of business to any amount. There are many rumors of price cutting, pig iron stocks are piling high, the market is dull and prices are weak, with the expectation of many plants being closed and a general reduction in wages. An effort is being made to bring about concerted action to curtail production in the Pittsburgh district and the Mahoning and Shenango valleys. Foundry iron is selling in the south at from \$11 to \$11.50 Birmingham for No. 2, and low prices are prevailing in the central west and in the east. Some irregularity has developed in steel bars, but for the most part the price remains 1.20c Pittsburgh. The demand for sheets shows some improvement. Persistent rumors of structural steel selling below 1.30c Pittsburgh are heard.

THEATRICAL.

"Brewster's Millions."

"Brewster's Millions" will be the attraction at the opera house Wednesday night. The cast that will be presented here played in Duluth last week, and Friday's Herald contains the following very favorable criticism of the performance: "Brewster's Millions," one of the best and most wholesome comedies on the road today, opened a three-night's engagement at the Lyceum last evening before an audience that fully appreciated the general and genuine excellence of the production.

"The stage settings are up to the usual Frederic Thompson standard, which statement, those who saw 'Polly of the Circus,' will appreciate. The storm scene on the yacht in the third act is a wonder, and one of the most thrilling spectacles on the stage at the present time. For action and interest it fully exceeds the famous racing scene from 'Checkers' or the football game in 'The College Widow.' Manager Isaac has improved upon the scene since last year. For one thing he has substituted a real sail for the canvas drop used last year. The light effects also appear to be better, and the fall of the curtain leaves the audience tense.

"Robert Ober's work as 'Monty Brewster' is delightful. He is a natural comedian, one of the Willie Collier school, and his work is quiet and effective. As the young man who undertakes to spend a million dollars in a year in order that he may inherit seven times that amount, he gains the sympathy of the audience from the start, and becomes as popular with the audience as he is with his friends on the stage, who are trying to prevent him from squandering his money. The ridiculous situations provide plenty of opportunity for clean, bright, comedy and Mr. Ober takes advantage of all of them.

"Miss June Mathis has the leading feminine role, that of 'Peggy.' With a very attractive stage presence, she has the added quality of genuine artistic ability, and is very effective in the role.

"Morrie Horton is good as Janice Armstrong and Katharine Raye and Charlotte Lambert appear to advantage. Carl Gerard, Gus Christie, Franklin George, Norman MacDonald and Daniel Fager are staunch friends of the young millionaire, all do very well.

"It is one of the brightest, cleanest comedies that will be seen in Duluth this season, and those who attend the greater purely for amusement and entertainment, cannot afford to miss it."

IN PROBATE COURT.

Business Transacted by Judge Potter During the Past Week.

Following is given a resume of the business transacted in probate court during the past week:
Hearing of claims adjourned to May 19 in estate of Adelaide Roy, deceased.
Hearing of claims adjourned to April 16 in estate of Carl W. Mertz, deceased.
Inventory filed in estate of George Henderson, deceased.
Inventory filed in estate of John Johnson alias Arkula, deceased.
Exemplification of record filed and foreign will admitted to probate in estate of Max K. Moorhead, deceased.
Exemplification of record filed and foreign will admitted to probate in estate of George F. McClean, deceased.
Exemplification of record filed and foreign will admitted to probate in estate of William J. Moorhead, deceased.
Annual account filed in guardianship of Isaac Ojanemi, insane.
Adjournment until April 7 granted for determination of heirs in estate of James R. Devereaux, deceased.
Inventory filed in estate of Charles McLean, deceased.
Bond of James Maloney filed and approved as administrator of the estate of Andrew Galli, deceased; letters of administration issued.
Return on citation filed in guardianship of Warren Crawford, insane.
May 24 assigned for hearing of petition for appointment of administrator in the estate of Oscar Albin Johnson, deceased; probate notice to foreign consuls issued.

PEOPLE'S CONVENTION TO BE HELD TONIGHT

CHARLES SCHAFFER DECLINED TO RUN FOR MAYOR AND MAYOR ROBERTSON WILL DOUBTLESS HEAD PEOPLE'S TICKET—PROSPECTIVE NOMINEES IN WARDS.

It is now on the cards that Mayor Robertson will be re-nominated at the People's convention, to be held at the city hall this evening, following ward caucuses held at the usual places. Charles Schaffer, who was urged by many people to allow his name to be put before the convention, announced Saturday that he had definitely decided not to enter the field. Mayor Robertson was willing to withdraw from the race and throw his support to Mr. Schaffer, but is now, in view of Mr. Schaffer's decision, himself the logical candidate for the head of the People's ticket.

The nomination of W. A. Ross for recorder will follow the nomination of Mayor Robertson. Eusebio Ferrand was urged by many prospective supporters of the People's ticket last week to allow his name to be proposed for this nomination, but declined to do so. It is said that Peter Byrne will be endorsed for treasurer tonight, and it is expected that Captain C. D. Blanchard and L. P. Cray will be nominated for justices of the peace.

The People's ticket will be filled out as follows, it is reported:
First ward—Supervisor, William Wiseman; alderman, Charles Hamby.
Second ward—Supervisor, Joseph Fay; alderman, Henry Datmer.
Third ward—Alderman, Henry Patenaude.
Fourth ward—Alderman, Jacob Smith.
Fifth ward—Supervisor, Nels Flodin; alderman, John Williams.

It is expected that the caucuses will be well attended, though the number of voters out will of course fall greatly below the number present at the caucuses a week ago tonight.

Can Be Nominated Twice.

In view of a report that in the Fifth ward an attempt will be made to endorse the nominees of the caucus held a week ago, thus shutting out all opposition at the polls, City Attorney Brown was asked whether a minority in a first caucus had any special rights in a second caucus. He stated that there is no legal obstacle in the way of giving the first nominees an endorsement in the second caucus, though the practice here has been not to interfere with the efforts of the minority at the first caucus to put opposition candidates in the field.

A Citizens' and People's caucus may both endorse the same candidates. The name of the candidate may appear under but one party head, but by designating on which ticket he wishes to run the candidate does not leave a vacancy on the other ticket, where a blank must be left following the office to be voted upon.
In spite of the fact that there have been some rumors to the contrary, it is expected that in all the wards where it is desired to put up nominees in opposition to those named last week the supporters of the prospective nominees will be permitted to name their men without opposition. It is generally recognized that this would be no more than is fair.

BOWLING SCORES.

Saturday night was printers' night at the bowling alleys, three Marquette teams being opposed by three teams from Ishpeming. The Ishpeming first team defeated the Marquette first team, but the Marquette second team and 'devil's' team defeated their Ishpeming opponents. The scores follow:
Ishpeming No. 1 Team—Tot.
Dyer 166 148 172 486
C. Soderman 103 138 103 344
Carney 231 120 143 494
Morrell 127 169 94 390
E. Soderman 113 130 152 395
781 698 636 2115
Marquette No. 1 Team—
Varebrook 169 147 153 469
Riopelle 114 106 148 368
Stenglein 98 131 107 336
Beaudin 115 117 115 347
A. Erickson 113 130 152 395
609 681 675 1915
Ishpeming won out by 290 pins even.
Ishpeming No. 2 Team—
Martin 127 200 131 458
West 86 85 140 311
Rowe 97 105 102 304
Urbogen 101 83 95 279
Landstrom 80 104 96 280
491 577 564 1632
Marquette No. 2 Team—
T. Savard 124 127 105 356
J. Erickson 131 122 164 417
Desotelle 114 126 108 348
Urbach 88 108 136 332
Baldue 125 125 99 349
587 608 612 1807
Marquette wins by 175 pins.
Ishpeming "Devil's"—
Davis 105 100 67 272
Rogers 97 128 131 356
202 228 198 628
Marquette "Devil's"—
Moffat 94 96 184 374
Beaudin 113 106 130 358
207 202 323 732
Marquette won by 104 pins.

A stomach specialist recently said: "When the American people learn to drink buttermilk at or about mealtimes, they will have very much less stomach trouble and rheumatism." (3-15-14)
