MARQUETTE, MICH., APRIL 5.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

This is the day.

What's the matter with civil service for the city of Marquette? It would help a little, would it not?

"One good term deserves another" i the slogan of Mayor Keese's friends at Ishpeming. And so it does.

The returns from the various local option fights being waged throughout the state will not be the least interesting of the election news.

Happy Harriman.

The disapproval of Governor Hughes' direct nominations bill expressed by the "leaders" in New York state has only served to further recommend it to the rank and file.

James, it is to be greatly hoped that More than that, wouldn't it be wise? President Taft and his advisers will cast about for a man of Dr. Eliot's calibre.

The taxpayers recommend to the mayis made up. There are many places where it can be employed to good effect.

The sun will rise-if it rises-on hopeful camps of partisans this morning. Neither party to the present municipal disturbance can figure out how it can be defeated at the polls today. The result must be a crop of disappointment for someone this evening.

Foley, former county treasurer, to succeed W. D. Calverley, who has decided to refrain from further seeking for or enjoyment of political honors.

It is true there are contests for the supervisorships in the Hancock wards, lan this is because of the drawing of party lines. The Hancock election is a warm one. Two strong men seek the office of mayor to take the place of the veteran A. J. Scott, who is now compelled by physical infirmities to lay down the reins of government in a city which he has virtually controlled for a generation. W. Frank James, a former county treasurer, Spanish war veteran and prominent insurance man, is the Repub lican nominee, and August Mette, manager of the Ryan estate, is the opponent offered by the Citizens' party. > NEWSPAPER MAN TAKES BRIDE. Fred T. Lincoln Weds Miss Ella Aris of Hancock at Kalamazoo.

Fred T. Lincoln, a former copper counry newspaper man, and Miss Ella Aris of Hancock were married Saturday evening at Kalamazoo, where the groom is city editor of the Gazette. The ceremony was performed by Rev. H. M. Wood, pastor of the Kalamazoo Congregational church, at the home of Mrs, Alson Wood, aunt of the groom. The bride was attended by Miss Angie Wood, was assisted by A. B. Ogle, a member of the Gazette staff.

The bride in this wedding is one of Hancock's most attractive and popular young ladies. She has been popular socially. Mr. Lincoln is a veteran newspaper man who held a number of good ositions in Houghton county before deciding to leave this field.

"What a monumental absurdity it is tor the copper-producing interests to keep pouring on the market an avainnche of copper, the largest in the history of the industry, while the consumption is not over 60 or 65 per cent of the figures of two years ago! The coal min-ing interests do not flood the market ith more coal than the consumer and nanufacturer can burn up, and unlike coal and iron there is no way of figuring, even approximately, the amount of copper ore which this country has in reerve. This should make all the more imperative a conservation of the copper re bedies. It is an economic waste for copper mining company to exhaust its are reserves and sell the copper product for actually less than the cost of its pro duction, and yet this is what several igh cost producers are doing today. "It there was a known and inexhaust le reserve of copper ores there migh a little reason in the attitude of those vho refuse to listen to any scheme fo curtailing the output."

BUTTE'S COPPER OUTPUT.

The March output of the Butte mines hows an increase of nearly 6,000,000 pounds of copper over that of February The increase is due principally to the fact that there were three more working days in the month, and besides the daily shipments of ore from nearly all of the mines was somewhat greater than during February, Notwithstanding the fact that curtailment is strenuously denied and the statement is made that the mines of the Amalgamated and sub sidiary companies cannot profitably be operated under a curtailment policy, tha payrolls continue to show that the working forces are far reduced in number the companies are doing a large amount follows: of development work and blocking out new ore bodies that will be mined as

In between times she has found much opportunity to do a great deal of boosting for Quanah. In fact the Quanah Commercial club was organized as a result of Mrs. Hart's initiative. This happened several years ago. Business men had been talking for some time about the organization of a club, but no one had taken the responsibility of calling a meeting for the purpose. Through the columns of her paper Mrs. Hart editorialized at them without avail. One day she decided a club had to be organized. She bired a band to play on the principal streets for a few minutes one afternoon and then marched to the opera house and into the auditorium, where she got up and told the business men that she had called them together to organize a commercial club. She presided over the meeting, saw that officers were elected and then went back to her work in the newspaper office. The club is still in existence and is still doing good work for Quanah. Mrs. Hart is an active member and is chairman of the board of direc-

Six Years a Journalist.

Mrs. Hart began newspaper work six years ago, when her husband leased the rlant of the Quanah Observer. Quanah wasn't such a very big town then and the Observer not a very big paper. Mrs. Hart helped her husband in the work. She learned to set type then to write locals and a little later editorials. Gradually Mr. Hart's health failed. Hs. died in 1905, and since then Mrs. Hart has had the management of the paper. She writes all the local and editorial copy solicits advertisements and collects the bills. So well has she managed the plant that during the last two years she has equipped the office with an engine and other new machinery and has built a substantial office building. PAYING POULTRY

What's the use of spending your time and energy in trying to make a little money out of hens with natural conditions against you?

There is no more trying or difficult or bothersome work than taking care of poultry-making it pay, yet poultry, exactly the same as with stock-horses or cattle-you must have it in a healthy condition, otherwise you can't make it pay.

INTERNATIONAL POULTRY POWDER is just as effective in keeping your poultry in a healthy, strong, paying condition as nature is in keeping your stock in good condition. Keeping your hens-in good condition, so that they will be healthy, and so that you will get the most good out of them is just as important as keeping your stock in good condition. INTERNATIONAL POULTRY POWDER is away ahead of any other poultry powder that we have ever come in contact with. If you have not already tried it, do so at your very earliest opportunity. Use it regularly according to directions, and you will find it is not expensive at all, but productive of the very best results. 25c PACKAGE, 5 PACK-AGES FOR \$1.00.

The New Figure

Everything fine or great upon which we have come to depend, or to enjoy or admire, has been the result of initiative of some spirit more discerning and more daring than its fellows!

The Real New Figure is the artistic result of an initiative protest against the deformities into which women have goaded themselves through the medium of badly fashioned, ill fitting corsets!

But this New Figure (so called) is, in reality, as old as Nature! Indeed, it is Nature, and at her best! Its lines are long, slender, graceful, lithe! It is the result of a true conception of Nature's idea of proportion, and it is a possibility for all women!

It is not required that you be as slender as a birch sapling to possess it. You may have, even, bouffant curves which you bewail! These can be gently, but, nevertheless, persuasively, drawn within the symmetrical lines which Fashion, for once in league with Nature, demands !

they have less regard. Public men are peculiarly the victims of the nickname habit; and while the invented titles are not always employed in the presence of the victim, they always operate as flaming advertisements when copied by the less considerate press. It is a peculiarity of the use of the proper legal title that a man outgrows it as he advances in public prestige. When a new statesman comes to Washington he invariably is referred to as "Senator" or "Congress" of the states and the proper legal titles are man outgrows as "Senator" or "Congress" of the system. FROM MORGAN'S CURB LETTER.

There seems to be some better feeling in metal circles. The Boston stock market continues with an exceedingly strong undertone. There are no stocks offering and you have to pay an increasing high scale if you want them. North Butte continues heavy, but the major portion of the liquidation of a big insider, who wants his money for the new smelting concern, is said to be over and the stock should act better in the future. The Amster specialties are the leaders in this

market and act as if they would go much higher, especially Arizona Com-mercial. We look to see East Butte do much better during the coming week, also Osceola Saturday's closing prices were:
