

CHAIRMAN PAYNE DEFENDS HIS BILL

That the Increased Duties on Women's Gloves and Hosiery Are Justified Is His Contention in an Extended Argument.

He Denies the Higher Tariff Will Mean Materially Higher Prices to the Consumer, Shows How Home Manufacturers and Labor Will Benefit and Blames the Big Department Stores With Factories Abroad for All the Hostile Agitation.

Washington, April 6.—Accusing the large department stores of having instigated the opposition of many women and "hysterical men" against the increased duties provided by the Payne tariff bill on women's gloves and hosiery...

Free Hides Condemned by Cattle Growers

Cheyenne, Wyo., April 6.—The Wyoming Stock Growers' association, representing practically all the cattle growers of the state, today adopted a resolution against the removal of the tariff...

High Tariff Men Flock to the Senate

Hundreds of Manufacturers from All Over the Country Seek the Aid of the Finance Committee.

Traders Take Profits

Stocks Decline, Then Rally When the Bears Cover Short Contracts.

Bolt of Lightning Kills

Iowa Boy Meets Death, Along With Both of His Horses.

Ferguson Out-Fights Barry

Boston, April 6.—Sandy Ferguson, of Chelsea, defeated Jim Barry, of Chicago, in the tenth round of a scheduled twelve round bout here tonight.

HOUSE VOTES FOR A DUTY ON LUMBER

Led by Congressman Towney of Minnesota, the Advocates of the Free Entry of the Product Go Down to Defeat.

They Lose by a Close Margin While an Overwhelming Majority Is Mustered Against a Proposed Tax on Hides—There Is Much Confusion, and the Tension Is High, but Throughout the Balloting the Framers of the Bill Are Victorious.

Washington, April 6.—Wrangling, confusion, captious objections, personalities and language bordering on vituperation marked the first day's discussion of the Payne tariff bill for amendment in the house today.

ARMY DOCTORS FOR TAFT

Navy's Monopoly on the White House Medical Service Is Broken

Washington, April 6.—After having enjoyed a monopoly of distinction as the service from which the president of the United States drew for his personal surgeons, the navy has been supplanted by the army.

Both of these officers, aside from being the most agreeable men personally in the medical corps of the army, rank high professionally, and their appointment is indication that the very best talent of the army will be at the disposal of the president and Mrs. Taft and the little Tafts.

He is a native of Virginia, and has been in the army since 1883. Since then he has had the regular routine of service in army posts in this country, in Alaska and in the Philippines.

Lieutenant Colonel Edie is a graduate of the University of Virginia. In 1883 he entered the army, and five years later was commissioned a captain and assistant surgeon. When it was decided to build the general military hospital at San Francisco Colonel Middleton, chief surgeon of the department, selected Surgeon Edie as the officer for the head of the hospital.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., APRIL 7.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Well, it was to be expected that a railroad man would know how to "run."

What satisfaction did the "trimmers" get out of the race? Their number is legion and they're a shoddy tribe.

The election of Daniel Vaughan marks the first time that Marquette has gone to the front for a mayor.

There appears to be a new crop of Republican insurgents in the house. This time Representative Young is numbered among them.

The Soo News says that friends of Chase S. Osborn are much gratified with the steady growth of sentiment favorable to the Soo man as a possible candidate for governor next year.

The election of Solomon Greenhoot as mayor of Escanaba is regarded as a victory for the good government forces.

The defeat of Joseph Fay in the contest for supervisor from the Second ward removes from the county board the oldest member in point of service and a man who had come to have great influence with his fellow members.

Simultaneously comes the news of the Harriman-Hill gentlemen's agreement, the placing of heavy orders abroad for American steel, and the general advances in the stock market.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

The Negaunee election on Monday closely resembled the one when Thomas Collins last ran against Mayor Winters. It was nip and tuck the entire distance, with Mayor Winter finally nosing Collins out by only twenty votes.

Twenty-seven Michigan counties voted Monday on the question whether the saloons should be closed within their borders. Twenty of these counties voted favorably on the proposition.

The local option campaign was the most vigorous ever waged in the state. The "wets" and "drys" were both thoroughly organized. Thousands of dollars were spent by the opposing forces for speakers and literature.

Among other things the saloon business needs revamping along economic lines. The total number of saloons should be reduced so that the men left in the business can observe the law and still make a good living out of the occupation.

Simultaneously comes the news of the Harriman-Hill gentlemen's agreement, the placing of heavy orders abroad for American steel, and the general advances in the stock market.

Waiting doesn't pay. If you neglect the aching back, urinary troubles, diabetes, surely follow. Doan's Kidney Pills relieve backache, cure every kidney ill.

SERVE THESE TO YOUR FRIENDS. No mistake can be made in serving La Verdad cigars. They all know of the high quality and will commend your selection for a smoke.

Oil King Tells of His Invasion of the Lake Superior Iron Region—His Business Philosophy.

New York, April 6.—In the April issue of World's Work, John D. Rockefeller says in part:

"Going into the iron ore field was one of those experiences in which one finds oneself rather against the will; it was not a deliberate plan, but came about through unfortunate investments in the Northwest.

"Even at this time I had been planning to relieve myself of business cares, and the panic caused me only to postpone my long holiday. I was fortunate in making the acquaintance of Frederick T. Gates, then engaged in work of the American Baptist Educational Society,

"Among these investments were ore mines and a railroad being built to carry ore. Though we were minority holders, it seemed up to us to keep the enterprise alive through the harrowing panic. I had to loan my personal securities to raise money, and finally we had to supply a great deal of actual cash and buy currency at a high premium to ship West by express and pay the laborers.

"We needed our own ships to transport the ore. We knew nothing of building ships, and, following the usual custom, we got the man who had the widest knowledge of the subject. He was in the transportation business on a large scale, and he realized that we would become competitors.

Remember the name—Doan's—and take no other.

Upper Peninsula. Case Goes to the Supreme Court.—In the suit of the Escanaba Manufacturing company against the Trades and Labor Council of Escanaba, in which a permanent injunction was granted by Judge John W. Stone at the last term of court, restraining the members of the council from interfering with employees of the corporation, an appeal has now been taken to the supreme court.

Menominee Contestants Win.—Victorious over the pick and flower of the declaimers and orators from the other high schools, Miss Mary Erditz and Willard Rappey, representatives of the Menominee school, have been unanimously selected to represent their sub-district at the upper peninsula oratorical and declamatory contest to be held at Marquette April 23.

Gogebic Range Trolley Line.—The council of Bessemer has adopted an ordinance authorizing E. D. Nelson of Ironwood to construct and operate a street railway in the city of Bessemer. Under the terms of the franchise Mr. Nelson will begin work within six months and cars shall be running between the city of Bessemer and the city of Ironwood within one year.

Sold Out to Steel Corporation.—"From the first the organization was successful. We built up a huge trade until finally the fleet included fifty-six large steel vessels. It like many other important undertakings, required little of my personal attention, owing to my good fortune in having competent representatives.

Conclusions of a Lifetime.—"Going over these events, I am impressed anew with the principle that the essential element of business success is to follow the established laws of high-class dealing. Keep to broad and sure lines and study them; by sure they will be correct. Watch the natural operations of trade and keep within them. Don't think of sharp advantages. Don't waste effort on a thing which ends in petty triumph, unless satisfied with a life of

petty successes. Be sure you see your way clear to a successful end. Look ahead. It is surprising how many bright business men go into important undertakings with little or no studying of controlling conditions. Study diligently your capital requirements and fortify yourself to cover setbacks.

I had decided to retire in the early 90s, but in 1893 the storm broke, and I had many investments to care for. That year and the next were a trying period; no one could retire at such a time. In the Standard we continued to make progress even through these panic years, as we had large reserves, on account of our conservative financing.

Remember the name—Doan's—and take no other.

The real test is in the baking. Other Baking Powders may make broad claims, but when it comes to the production of real delicious biscuit, cakes and pastry CALUMET BAKING POWDER proves its real worth.

## CHANGES IN SUPERVISORS.

Five New Members for County Board as Result of the Election.

The elections Monday made few changes in the personnel of the board of supervisors. There are just five new members, one of these the result of the voluntary retirement of Supervisor Calverly of Portage township, Houghton, so that the elections actually had to do with four new members only, as far as any reversal of public opinion is concerned.

One of the surprises was the defeat of William Kroll of Kenton, supervisor from Duncan township for many years, by C. J. Johnson of Sidaus. Another was the defeat of John J. Eichkern, supervisor from the Fourth ward of Hancock, by Arthur F. Jacques. The latter is a young man and an active one and there is considerable speculation as to his work on the board, the opinion of Eichkern's supporters being that he will be a radical, which is not very good form on this board. The following is the board as it will be constituted this year:

- Adams—A. D. Edwards.
- Calumet—James MacNaughton.
- Chassell—E. Johnson.
- Duncan—C. J. Johnson.
- Elm River—R. R. Seebor.
- Franklin—W. S. Cleaves.
- Hancock—Ivar Lindgren.
- Laird—Leonard Thompson.
- Oscoda—Michael M. Foley.
- Quincy—C. L. Lawton.
- Schoolcraft—Samuel Eddy.
- Stanton—F. G. Coggin.
- Torch Lake—Charles Smith.

## Hancock City.

First—George Ross.  
Second—Charles Mason.  
Third—John Emkey.

Supervisors Foley, Funkey and Ross are the other new members, not previously mentioned.

The first meeting of the new board will be held next Tuesday morning. At that time the question of establishing a tuberculosis hospital will be discussed and probably with the result that the building will be ordered.

## PREACHERS HOLD MEETING.

Monthly Session of the Copperdom M. E. Clergymen's Association.

The regular monthly session of the Copper Country Methodist Preachers' association was held at Hancock Monday. It was one of the most interesting meetings of the year. At the morning session Rev. S. Polkinghorne, pastor of the Kearsarge church, read a paper on "What Are the Bible's Teachings as to the Benefits of Resurrection to Man?"

At the afternoon meeting Rev. Charles J. Johnson of Calumet read a paper on "Does the Bible Teach the Essential Immortality of the Soul?"

Between the morning and afternoon sessions, District Superintendent James Pascoe, Rev. W. E. Marvin of Hancock and Rev. Henry Rogers of Hurontown entertained the visitors at the Scott Hotel. The following were at dinner:

- District Superintendent and Mrs. James Pascoe and daughter of Hancock, Rev. and Mrs. W. M. Ward of Laurium, Rev. and Mrs. S. Polkinghorne of Kearsarge, Rev. and Mrs. G. V. Hoard of Trimountain, Rev. and Mrs. C. J. Johnson of Calumet, Mrs. E. Seabrook of Calumet, Rev. and Mrs. T. Healy of Oscoda, Rev. and Mrs. F. Waters of Atlantic, Rev. and Mrs. W. E. Marvin of Hancock, Rev. and Mrs. Henry Rogers of Hurontown, Mr. and Mrs. George S. Lawrence, Rev. J. Waters of Dollar Bay, Rev. W. H. Harper of Baldie, Miss A. Hamilton, Rev. C. M. Merrill of Dollar Bay, Rev. J. H. McCune of Tamarack and Charles Pascoe.

A meeting of the Methodist union will be held at the Hancock church Friday, April 16. Rev. F. D. Leste of Detroit will be present and will give an address. A program of musical numbers will be rendered. A banquet will be served in the parlors of the church.

## BRUCE STUART ARRIVES.

Great Hockey General Here to Spend the Summer in Contracting.

Bruce Stuart, captain and manager of the Ottawa hockey team, champions of the world, arrived in Houghton yesterday and will remain in the copper country until next winter. He will probably resume contracting, he having been engaged in that business in Calumet until a year ago.

Bruce was a play center on the Wanderers and helped that team win the world's championship since he left here. That was winter before last. This last winter he went back to Ottawa, his home city, organized the Ottawa anew and took that championship away from his old team. Bruce Stuart is the foremost athlete in the world at his special sport, he is the greatest little hockey general that ever skated and he is withal a jolly, good natured chap, who will cut a man's throat on ice but give him his last dollar when the game is over.

Jimmy Duggan has been offered a position as trainer with the Montreal Rowing club. He has not decided as to accepting.

Bruce Stuart is thinking some of playing with Cobalt for a big salary next winter.

## J. A. Minnear & Co. BROKERS

## PYTHIANS VISIT DULUTH.

Copper Country Knights Take the Khorassan Work at Zenith City.

A number of copper country knights of Pythias were in Duluth Monday night to take the degree work in the Knights of Khorassan, preparatory to establishing a lodge in Calumet. Of their visit the Duluth Herald said:

"The D. O. K. K. will initiate a large class of out-of-town candidates for membership this evening in Al Sirat temple, in the old Masonic building. The class will be made up principally of members from the Michigan copper country and from the range.

"Thirty from northern Michigan arrived on the South Shore train this morning, and were met at the Union depot by local knights. The range candidates arrived on different trains during the day. Secretary A. M. Fenton and Royal Vizer J. J. Lumma have issued the announcement of the meeting in the form of a full sheet poster.

"There will be a parade this evening, starting at 118 West Superior street at 7 o'clock, and the ceremonies will begin at 8 o'clock. After the work has been completed, a banquet will be served in the dining room adjoining the lodge room in the temple.

"Local members of the order will do everything they can to make the stay of the visitors pleasant. It is expected that most of the outsiders will remain in the city until Wednesday, in order that they may see the third degree rank work by the famous team of the North Star lodge No. 35, Knights of Pythias."

## GOOD FRIDAY AT QUINCY.

Mistletoe Lodge, Sons of St. George, Planning Gala Day.

As is customary in the copper country, Good Friday will be celebrated in many places this year. The Sons of St. George, Sons of the Holy Spirit, and the Sons of the Holy Spirit are planning celebrations, and the one to be given at Quincy by Mistletoe lodge is one of the most important. A feature of the Quincy celebration will be a musical and literary program in which the following will take part: Alfred Oskola, Flora Bennets, Victor Gillette, May Wherry, Louisa Kellow, Mrs. H. T. Dumstoe, Susie Kinsman, Jennie and Pearl Kendall, B. Trembath, Jennie James, W. Laity, Wm. Williams, Dorothy Pascoe, Miss H. Congdon, Wm. Hall, Mrs. J. E. Threlkeld, Houghton, and Haether, Miss L. Merrifield, Lottie Gale, Wilfred Julian, Elsie Pugh, Miss M. Borlace, and the Quincy band. This entertainment, which will be given in the evening, will be preceded by a parade in the afternoon and a meeting at the Peewabie M. E. church.

## LIBERT'S SKETCHES ACCEPTED.

Congregation of Finnish Lutheran Church to Build Fine Edifice.

At a meeting of the building committee, the Hancock Finnish Lutheran church, the sketches presented by copper country architects were drawn. It was decided to accept the plans drawn by H. T. Liebert of Hancock. Mr. Liebert's sketch provides for a church edifice giving a little more room than did the old one. The structure will have a steeple on the southwest corner, a smaller spire on the southeast corner. Pressed brick will be used, and the building will be trimmed with red sandstone. All the windows will be of stained glass. The interior will be prettily arranged and decorated and the new structure will surpass by far the one recently destroyed by fire. Mr. Liebert will rush work on the plans and it will not be long before the contract will be awarded and construction work will be started. Next winter will find the Finnish Lutheran congregation with a fine new house of worship.

## IN HONOR OF REV. D. D. MARTIN.

Former Pupils of Albion College Entertain College Secretary.

Rev. D. D. Martin, D.D., educational secretary of Albion college, who has been conducting revival services at Grace M. E. church, Houghton, and who left for home yesterday, was the guest of honor Saturday night at a dinner given at the Douglass House by fourteen former pupils or graduates of his college. The following persons were present: Rev. and Mrs. W. E. Fruit of Houghton, Rev. and Mrs. W. E. Marvin of Atlantic, Messrs. and Mrs. R. D. Kellow and John A. Doelle of Houghton, and John M. Wagner of Hancock, the Misses Rangs of Lake Linden and McCune of Calumet, and J. Q. Hood of the Michigan College of Mines.

## JUDGE HAIRE CHEERFUL.

Bigelow Mine Manager Says That Conditions Are Picking Up.

Judge Norman W. Haire, general manager of the Bigelow syndicate interests in the copper country, arrived home yesterday from a somewhat extended Eastern visit. He was asked for an estimate of general business conditions. "The general opinion in the East is that things are picking up slowly but surely," said the judge. "I do not think that at present they are any better than when I was East in February, but they are coming. An encouraging sign is an increase in business with the railroads."

The judge was busy with his accumulated mail and could not give the interviewer much time, but he was cheerful while he was visible.

# Answer This Question

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge the world to show any other remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound, the famous woman's remedy for woman's ills. Unless it is a very good medicine and the claims made for it are honest, such a record would have been impossible—fraud or misrepresentations would long ago have been detected and the business gone into oblivion. Read this unsolicited letter:—

Melbourne, Iowa:—"I suffered for many years with female troubles, inflammation, and bearing-down pains, so that I was unable to do my work."

"Lydia E. Pinkham's Vegetable Compound was recommended, and I am so thankful for the great good it has done me, I feel that I am a living advertisement for this medicine as I have influenced so many of my friends to use it, so thankful am I that it restored me to health."—Mrs. Clara Waterman, R. D. 1, Melbourne, Iowa.

When a woman like Mrs. Waterman is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women. For we assure you there is no other reason why she should court such publicity.

We say it in all sincerity and friendship—try this medicine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## HANCOCK ELKS TO INSTALL.

Meeting Tomorrow Night Will Be an Interesting One.

The regular meeting of the Hancock lodge, E. P. O. E., No. 294, will be held Thursday evening. At this meeting the new officers will be installed. The installation will be followed by a social session and a smoker. The new officers are: Exalted ruler, Charles A. Mayworm; leading knight, Charles Lewis; loyal knight, Walter Woodhead; retiring knight, Paul J. Ripper; secretary, Charles F. Measkill; treasurer, Mort C. Gotschell; trustees, Walter S. McVie and C. D. Hanchette.

## COPPERDOM BREVITIES.

A son is born to Mr. and Mrs. Will J. Carr of Lake Linden.

John McBarrow of Butte is registered at the Douglass House, Houghton.

Mr. and Mrs. D. E. Riordan of Ashland, Wis., are visitors in Houghton.

Fred Matter of Hurontown left yesterday for Mount Clemens to take the baths.

Miss Essie McClure of Calumet has gone to California for the benefit of her health.

Dr. and Mrs. G. W. Orr of Lake Linden have returned from a visit to Arkansas.

George Capps of Milwaukee, representing fifty-seven varieties, is at the Hotel Dea.

Henry Perron has resigned his position as conductor with the Houghton County Street Railway company.

Representative O. D. Edwards of Atlantic left for Lansing, yesterday, after spending a week at home.

The 1st Royale mine and mill were closed yesterday afternoon, and will employ an opportunity to vote.

Mr. M. Noon, superintendent of bridges and buildings for the D. S. S. & A., was a Houghton visitor yesterday.

Si Wedge left yesterday from Houghton for Duluth, where he has taken a position with the Standard Oil company.

Edward H. Siddis, president of the state tax commission, left yesterday for Lansing to attend a meeting of the commission.

The Michigan College of Mines and Calumet High school basketball teams will play Friday night at the college gymnasium.

Robert W. Blair, a United States revenue officer who has been in Calumet on a mysterious mission, has returned to Washington.

Rev. C. H. Barber, pastor of the Hubbard Congregation Church, has resigned his position, to represent the Congregational Sunday School Publication society.

John Tolonen, who has been visiting relatives, has returned to his home in Washington state, where he has resided for twenty years, or ever since leaving Calumet.

James G. Glanville, superintendent of the Isle Royale mill, returned Saturday from a visit to Globe, Ariz., and other points. He was accompanied by his mother and sister.

Bert Jackson of the Copper Range freight office leaves today for Detroit to testify in a case concerning copper alleged to have been stolen from a steamer loaded at the Michigan smelter.

Joseph Gotschell of Houghton yesterday received announcement of the wedding of Leon G. Netorg and Miss Anna Bloom at Detroit. Mr. Netorg is a graduate of the Michigan College of Mines.

General Wagner, inspector general, and Captain Dray, regular army inspector of the Michigan National Guard, last night inspected the Houghton Light Infantry and tonight will inspect the Calumet Engineers. Captain Standish, commander of the Michigan Naval Brigade, accompanied by a regular naval lieutenant, last night inspected the Hancock naval reserve.

In Houghton and Calumet last night the first meeting of the teachers' training classes organized by Herbert Moninger for Sunday school work and Bible study was held. Calumet has a class of 200 members, Houghton one of 100. These classes are open to everybody. They are undemanding and have as their purpose of creating more interest in the study of the Bible.

## Mining News

### AMALGAMATED.

An Optimistic Review of the Affairs of the Big Copper Company.

There has been considerable conjecture about the effect upon earnings of the current low prices of copper. It is of interest, therefore, to note that the average cost of all the copper from properties of the Amalgamated company is 45 cents a pound. It is evident that with copper selling at 12 cents there is a fair margin of profit left.

In the copper market the operators of the Amalgamated company and their allied interests, inclusive of the several mining and refining companies for which the Amalgamated interest is the security holder, control 400,000,000 pounds of copper per annum out of a total production from North American mines of 1,250,000,000 pounds. Hence the Amalgamated company turns out one-third of the copper produced in North America, which in turn is almost five-sevenths of the world's yield. Besides owning a number of the best copper mines, all of which are conditioned for a large degree of expansion as will be compensated with demands the world's largest non-ferrous metal working plant, the Washoe refinery, and large areas of coal and timber lands, saw mills and coking plants, machine shops, railroad and hydro-electric plants.

All the Amalgamated's mines are good. But the Anaconda and the Boston & Montana are world-wide famed. The Anaconda because for so long a time it was the world's largest producer of copper and the second largest producer of silver. It ranks very high today. The Boston & Montana is a steady and enormous producer of high grade ore at low costs. It has produced many millions of pounds at as low as 7 1/2 cents per pound, and has made dividends from selling copper at 8 1/2 cents per pound. As already noted under present conditions the average cost of the copper from the properties administered for the account of the Amalgamated company is 10 1/2 cents per pound. A fluctuation of a cent per pound in the price means to the company and its closely allied interests, a difference of about \$4,000,000. Once in a while for stock market effect theorems are circulated that copper contents are declining in Butte mines. No solid foundation for such a story has been discovered. Copper ore of the kind treated at Butte has been mined in Canada for upwards of 200 years, as in Spain where the mines that were known to Julius Caesar, 55 B. C., are turning out large tonnages of copper today.

During the tumble in copper values that synchronized with the panic of 1907, the Amalgamated was in a position to control production at some of its mines while it operated the mines and smelter of the Boston & Montana company at its most capacity. This was of prime value to shareholders. In February, 1908, the surplus stocks of copper had been a good deal and all the subsidiary mines of the Amalgamated and the big Washoe smelter, which takes in 10,000 tons of ore per day, were set a-going at full time, and have gone on so ever since, save several interruptions for a few days, due to bad weather. The Billington is to the disadvantage of arsenic from the smelters of the Amalgamated interest is well over. The Boston & Montana's new chimney, the highest in the world, 510 feet, at Great Falls, Mont., is provided with devices that will catch all arsenic and all else that is evolved by the fumes from the ore, so that nothing harmful to trees or vegetables will pass from the smelters. Labor conditions at the Amalgamated company's properties are good. The men are under a term of contract that has several years to run, and all are well satisfied.

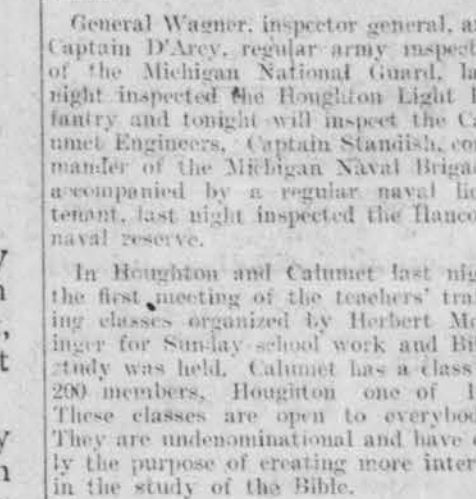

### CALUMET & HECLA.

Despite denials, it is asserted that there is a great improvement in the underground conditions of the so-called Black Hills mine of the Calumet & Hecla company, and the improvement is growing in extent with every additional fathom of ground opened. The richest first come ore on the seventy-third level in the No. 10 Hecla shaft and is apparently making to the south with depth. Although this rich ground lies at considerable depth, it will if proved confirmed be a most important development as affecting the life of the company's conglomerate lode. Discussing this development and other matters affecting the company, the Boston News Bureau says:

An event of extreme importance in connection with the underground affairs of the Calumet & Hecla company is the discovery of rich copper values at great depth in the southern end of the mine. The discovery referred to was made in the so-called Black Hills mine, and is in territory which had long been considered as practically worthless. At a depth of over 7,000 feet on the plane of the lode in the No. 10 shaft, the conglomerate lode was found rich, carrying forty-five pounds of copper per ton of rock. As the average recovery from the conglomerate lode now being mined by Calumet

## MOHAWK.

The Mohawk Mining company, for the year 1908, made a very creditable showing for a mine recovering but fifteen pounds of copper per ton of rock. To be exact, the recovery in 1908 was 15.01 pounds per ton against 13.77 in the previous year. The company's cost per ton of rock stamped, \$1.44, will compare well with any of the Lake Superior properties and can be attributed to the economical mine management of Fred Smith. The ability to make copper at a cost of only 10 1/2 cents from rock yielding about a very low percentage of mineral is worthy of praise. Viewed from the standpoint of a 12 1/2-cent market for Lake copper, and an annual output of 10,000,000 pounds, Mohawk can show earnings of \$2.00 per share on the company's 100,000 shares. At \$62 per share this would indicate earnings of a third over 4 per cent on the investment. Unless the metal market advances within the next six or eight months, Mohawk is selling relatively high, and the same can be said of many other copper shares. The expectation of improved metal conditions, however, combined with the fact that the copper shares are distributed as never before, accounts for the relatively high level at which copper stocks are selling. There is nothing to indicate any immediate improvement in the statistical position of copper. The accumulation is still in process. The American production is at the highest point ever known, and the most liberal estimate that can be made must place the employment of brass and wire machinery at not better than 70 per cent of normal capacity.

## TAMARACK.

In the Tamarack Mining company's annual report, General Manager Norman W. Haire says: "There was a further advance from last year in the yield of refined copper amounting to 1.2 pounds per ton of rock stamped, caused in the main by treating a larger tonnage of low grade rock from developments on the Osceola anomaly. This is quite likely to happen somewhat when regular mining is begun on the amygdaloid vein. Coupled with the decreased yield and the low price have come large outlays at all points. The replacing of worn-out equipment in the older parts of the mine has made no small part of the expense. In addition to the above, exploration at the Cliff aggregated \$30,000 outlay. We also had the heavy construction at the water works and coal dock; then the un-Jezzeum development was the largest since 1902. Furthermore, it will be observed that we have opened a new and quite extensive mine on the Osceola anomaly."

## ATLANTIC.

Atlantic has gradually shifted the center of operations to ground north of the main, where crosscut and drifting continue without interruption and without any apparent change from the shattered and undeniably poverty-stricken ground opened to the south. The shaft has attained a depth of approximately 2,200 feet, and from present indications there is little likelihood that the second shaft, which there has been more or less official talk will materialize. A new fitted-drill compressor installed some time ago remains idle, the old compressor being sufficient capacity to furnish the present air requirements. Six machines which are in service engaged in development work.

Today's weather: Rain or snow, stationary temperature.  
Yesterday's temperatures: Seven a. m., 37 degrees; noon, 37; 7 p. m., 32. Maximum, 39 degrees; minimum, 32.

Miss Bertha Anderson, of Hancock, is visiting in the city.  
Professor W. M. Mills is expected home today from a trip to Mammoth Cave, Ky.

Miss Pearl Tucker went to Chicago last night to spend Easter with her sister.

The G. I. A. to the B. of L. E. will meet at Keough's Hall this afternoon at 2:30.

F. E. Whitney has gone to Minneapolis in the interests of the Northwestern Collection agency.

J. B. Reany has gone to Escanaba to attend the state convocation of the Brotherhood of American Yeomen.

Miss Leonora Laughlin will leave this morning for Chicago, called there by a message announcing the serious illness of her sister.

The Baptist Ladies' Missionary society will meet with Mrs. W. A. Ross, 137 West Ohio street, this afternoon at 3 o'clock.

Mrs. J. M. Rogers and daughter, Margaret, went to Manistique yesterday afternoon, where they will spend a week or more with friends.

Mrs. Nettie McClenchic will be at the Backet store from 2 to 5 o'clock every Wednesday and Friday to receive assessments for Superior Hive, L. O. T. M. M.

Mrs. John Verseburen, son and daughter, and Mrs. Frank Donkers, of Black Diamond, Washington, are visiting at the home of Fred Donkers, having arrived last night.

Open to Entry May 16—The Marquette land office has received notice that Lake Vieux Desert Island in the southeast corner of Anishinibew county will be open to entry May 16. The island contains 4,568 acres.

Repapered and Revarnished—The room on Washington street, occupied by the American Express company and owned by Mrs. Ellen Clark, is being repapered and the woodwork is to be revarnished, all of which will materially improve its appearance.

Challenged for Betting—It was learned yesterday that several voters were challenged at the polls Monday for having made election bets. Any voter who makes a bet on the election is thereby disenfranchised, provided his right to vote is challenged for that reason.

Young Woman Insane—Miss Lahti Maki, aged about twenty-five, who has recently been employed as a domestic at the farm location, was adjudged insane in probate court yesterday by Drs. Cunningham and Harkin. She will be taken to Newberry by the sheriff today.

Instruments Received—Most of the instruments have been received which are to be used by the Finnish band, recently organized by Fred Manner. The band has about thirty members who are very enthusiastic, and the organization expects to be ready to play in public in a short time.

Election at Skandia—The Republican ticket was victorious in Skandia township at Monday's election. This ticket was headed by F. J. Johnson for supervisor, who defeated his opponent, Charles Wilson, the postmaster and merchant at Yalmar, by seventeen votes. The only candidate on the Republican ticket who failed to land was the nominee for member of the board of review. There were 112 votes cast.

Unsuccessful in Committee—County Clerk J. J. Jenks has received a number of letters from Michigan congressmen relative to the formal protest made by the board of supervisors against removing the tariff on iron ore. Perhaps the most interesting was from Joseph W. Finney, a member of the ways and means committee, who wrote: "I have entered strong protests against the removal of duty on iron, but without success in the committee."

Marquette Township Election—There was but one ticket in the field in Marquette township and the following officers were unanimously elected at the election Monday: Supervisor, F. H. Vandenberg; clerk, Charles Roblin; treasurer, John Weiland; highway commissioner, Peter Meyers; justices of the peace, Andrew Schwamin, Anton Fassbender; assessors of highways, Joseph Gneff, John Ryan; member board of review, Frederick Campbell; constables, Edward Ryan, Frank White, Frank Zeish, Otto Mollenhauer.

Furnace Tar to Be Used—At a meeting of the park, cemetery and street commission held yesterday afternoon, it was voted to accept the bid of the Pioneer Iron company to furnish tar at five and two-fifths cents a gallon for street work the coming season. This figure is slightly less than the price asked for patented street tar compounds and experiments made last year with the furnace product showed it to be superior to the commercial article. The commission also voted to have macadam made to make it more adhesive, about one and a half gallons per square yard being used.

Jenks Cup Contest—J. H. Godwin, the present holder of the Jenks cup, has decided to offer it as the trophy in a contest open to all bowlers in the city, under the following conditions: Each bowler to bowl three times. The winner for until one man's name shall be engraved on the cup three times, when it shall become his property. Games may be bowled in the afternoon or evening.

Manager of the alleys to be notified before they begin to play on or before April 15th. In case of a tie, three games must be rolled to settle the tie, total pins to count.

Water Board Meeting—The regular monthly meeting of the water board was held last night at which the monthly bills were allowed and a letter was read from M. L. Holm, state bacteriologist, stating that it would be impractical to send an expert to Marquette to make a series of tests, owing to the extensive apparatus necessary in making water analyses. Dr. Holm did not speak very favorably of the ozone method of water

**Upper Peninsula**

Different in This Country—An advertisement in the Canadian department of the Soo News reads: "Wanted a woman to keep house and mind a child." In the United States the woman would be expected to make the child mind.

Hardware Company Branches Out—The Delta Hardware company, which conducts a wholesale and retail store at Escanaba, has purchased the R. C. Donahy lot at Iron River, paying \$2,000 therefor, and will at once begin the erection of a two-story brick block. The company plans on conducting a branch wholesale and retail house in the Menominee range town.

Hurls Himself to Death—Frank Geretto, a miner of middle age, committed suicide at Bessemer in the presence of a number of his companions by leaping over the edge of the Anvil mine shaft and plunging to his death 500 feet below. His body, literally dashed to pieces, was recovered half an hour later. Family difficulties are assigned as the cause of his melancholy.

Game Warden Confiscates Trout—John Rowett, deputy game and fish warden, had a little experience the other day which he will remember for some time. He was enroute from Ironwood, out as the train stopped at Basswood, he looked out of the car and noticed a fellow hand the engineer a package which had a suspicious looking appearance. He immediately jumped from the car and started for the engine, but the fellow ran around the locomotive. The officer, in order to head him off, passed between the mail car and the engine. The train started as he did so, and had he slipped and fell onto the track he would undoubtedly have been killed. He reached the other side in safety, however, but on account of the depth of the snow was unable to capture his man, who got away safely into the woods. The game warden confiscated the package which he found to contain a nice mess of trout.

Sib Larson's Troubles—Andrew Larson of Escanaba, better known in baseball circles as "Sib" Larson, beat Matt West, one of our local liquor dealers, out of \$10 last week, says the Manistique Pioneer-Tribune. He drew a check for that amount on the First National bank of the Soo, and secured the money from West. The check was sent to the Soo, and returned promptly with the intelligence that Larson had no account in that bank. Sheriff Smith ascertained that Larson had gone to the Soo, and went there to arrest him. When Larson ascertained that the sheriff was looking for him, he returned from the Canadian Soo, and accompanied the officer to Manistique. He denied any intention to defraud anyone, but as he was without means to square the account, he was given a hearing in Justice Knox's court. He was fined \$67, including costs, or sixty days in jail. He is serving time.

Anti-Saloon Man Gives Warning—Rev. C. H. Rutledge, upper peninsula representative of the Anti-Saloon league, arrived in town last Saturday afternoon, and his presence here meant the closing of every saloon promptly at 11 o'clock, says the Iron River Reporter. Mr. Rutledge spoke in the M. E. church Sunday forenoon and in the Swedish Baptist church in the afternoon. On both occasions he had fair-sized congregations. He advocated a more rigid enforcement of the liquor laws, and quoted statistics by which he sought to show that instead of being a benefit the American saloon was an injury to any community that fostered it. He said that in the past Iron River and Stambaugh had not been given very close attention, but that both were now on his visiting list and in the future would be looked after more closely. Mr. Rutledge generally means what he says, and it is now up to the dispensers of liquid refreshments to obey the mandates of the village council and be good, concludes the Reporter. While the visit of Mr. Rutledge had nothing to do with the later action of the village council in clapping on the lid, we understand, however, that both are in earnest and will not be trifled with.

Theft Charged; Arrests Follow—Chief English of Menominee has received a letter from the police department of Holyoke, Mass., informing him of an alleged theft perpetrated in that city by former Menominee people. The two principals are said to be Frank J. Korniejewski and his niece, Wlodyslawa Korniejewski, who are charged with the larceny of \$3,067.00 from one Antoni Barozuk, also formerly of Menominee. The letter states that after money is being held, pending detailed information from Menominee. It seems that the two defendants arrived at Menominee last year and opened a physician's office on Ogden avenue. They went to that city from Ironwood. Last fall they left for the east. Barozuk, according to his own story, was induced by the girl to draw his money from the banks to start for the old country. The two are then alleged to have taken the money from Barozuk while enroute and when it applied to the Holyoke police he was penniless. The Menominee police have investigated and Chief English finds that Barozuk drew \$3,100.35 from the First National bank Oct. 5. Cashier G. A. Blesch states that the man informed him that he was about to leave for the old country. Mr. Blesch says that he tried to persuade him to take the money in the form of a draft, but that the girl who was with him persuaded him to take it in gold. This information has been forwarded to Holyoke.

**GOOD FRIDAY CONCERT.**  
 Ishpeming Band Will Give Entertainment at Ishpeming Theater.

A fine program has been prepared for the Ishpeming band's second annual Good Friday concert, to be given Friday evening at Ishpeming theater. There will be several vocal numbers, besides the band selections, instrumental solos, duets, quartets, etc. The admission will be twenty-five cents to all parts of the theater. No seats will be reserved in advance. The program will be as follows:

Selection from "Honey-moon Trail"..... Jos. E. Howard  
 Vocal selection..... Paul Liricke  
 "The Glow Worm"..... Al Schott  
 Vocal selection..... Al Schott  
 Waitz, "Don't Be Cross"..... C. Zeller  
 Instrumental quartet, "Album Leaf"..... Wagner  
 Arnt Schonberg, Peter Cardew, Byron Lundahl and Sidney Goodney.  
 American sketch, "By the Swance River"..... W. H. Myddleton  
 Grand Fantasia in "Dizic"..... Otto Langley  
 Ishpeming Band.

**PRESBYTERIAN MEETING.**  
 The semi-annual meeting of the Lake Superior Presbytery and the Women's Missionary society of the Presbytery church will be held at Iron Mountain next Tuesday and Wednesday. The Presbytery will open its meetings Tuesday evening at 7 o'clock in the Presbytery church, and the missionary organization will convene the following morning. It is expected that all of the Presbytery ministers in the upper peninsula, numbering over twenty, will be present, and lay delegates are also expected from each congregation. There are thirty-five churches in the district and a number of the ministers supply two or more congregations in some of the smaller places. The programs for the meetings are now being prepared and will be announced before the close of the week.

**MISS SELLWOOD TO WED.**  
 The following announcement of the intended marriage of Miss La Rue Sellwood, daughter of Joseph Sellwood, the well-known mining man, formerly of this city, to Charles Edward Mershon of Duluth is from the Duluth Evening Herald:

"One of the most brilliant of the spring society events will be the wedding of Miss LaRue Sellwood, daughter of Joseph Sellwood, to Charles Edward Mershon, for which invitations were issued today. The wedding ceremony will take place Wednesday evening, April 21, at the Sellwood home, 1802 East Superior street, at which only the immediate families will be the guests. A reception will follow the ceremony. Mr. Mershon and his bride will leave for a wedding trip, and after June 1 will be at home at 1802 East Superior street.

"A series of beautiful affairs are being planned in compliment to Miss Sellwood, and the week following Easter will be filled with many of these events."

## ISHPEMING SOCIALIST MEETING AT CRYSTAL FALLS

ISHPEMING'S EX-MAYOR ADDRESSED A LARGE AUDIENCE IN MEMONIE RANGE CITY AND HIS AUDITORS WERE ATTENTIVE AND ORDERLY.

Ex-Mayor W. J. Roberts, who announced some days ago that he would deliver a socialist lecture at Crystal Falls, also that he would hold the authorities responsible in case he was molested by the citizens, visited that city Sunday and is well pleased with the outcome. Yesterday he said that no attempt whatever had been made to molest him or to interfere with his talk and that the audience was as orderly and attentive as any he has ever addressed anywhere. He gives an account of the meeting in the following communication:

To The Mining Journal:— On Sunday last I paid my promised visit to Crystal Falls for the purpose of lecturing on social conditions. The address was given in an empty store of which there are several in that vicinity. There were about 400 people present, filling the building to its capacity. The audience was orderly, attentive and respectful. Not the slightest sign of any violence was manifested in any manner. I was afterwards informed that the sheriff and other officials, as well as some portions of the "honoring committee," were present. Whatever may have been their previous intentions it was evident that they had come to the conclusion that it was best to respect the constitution of our country, and let citizens in the prosecution of their rights.

For an hour and a quarter the lecture continued without a ripple. Thinking this long enough under the circumstances, there being no heat or seats in the room, I paused to close the address by giving an opportunity for any one to ask questions. None being asked, I proceeded to answer a few of the common objections to socialism, and closed with a brief analysis of panics, their cause and cure; taking up some of the local conditions, showing why many of the store rooms were empty and only four mines out of the ten operating.

The audience was as appreciative as most any that I have ever talked to. Thanking them for their kind attention, cordial treatment, and asking the same respect for my other socialist comrades who may visit them from time to time, the meeting was closed as quiet and orderly as a church service.

Respectfully,  
 W. J. ROBERTS.

### PUTTING UP HARD EIGHT.

People of Mesaba Range Much Wrought Up Over Proposed Tonnage Tax.

In practically every town on the Mesaba range meetings of the citizens are being held for the purpose of preparing cently, and which is soon to go to the senate. Some fifteen or more of the protests against the bill providing for

**FOR SALE**—Cheap for cash. Domestic sewing machine, two oak bedsteads and camping rolls with mattresses. Inquire, 517 N. Pine street, Ishpeming. 4-7-09

 Warehouse, 319 E. Johnson St.  
 Bell phone, 121. 4-5-09

## ALBERT PETERSON

will open blacksmith shop on East Pearl St. (Gill's old stand), April 5. General Work. Horseshoeing a specialty.

a tonnage tax on the iron ore mined in the state, which passed the house re-state senators have been on the range, making an inspection, and they have been held. Public meetings have been held and the members of the party have been taken into the mines for the purpose of showing them that the proposed tax to be levied under the bill is injurious not only to the mining companies and their workmen but also to the general business interests.

An Ishpeming man who recently returned from the range states that it is the opinion of many of the mining men on the Mesaba that if the tonnage tax bill becomes a law it will result in a heavy reduction in the output and that in this event the output on the Michigan ranges will be increased. He said that the bill is attracting a great deal more attention on the Mesaba than the clause in the Payne tariff bill which proposes the removal of the duty from iron ore.

### BIBLE TRAINING CLASS.

New Organization Starts Out With Fifty-Eight Members.

Representatives of the several Protestant churches in Ishpeming organized a Bible training class Monday evening at the Presbyterian church. The work of the organization will be conducted along lines suggested by Herbert Moninger of Cinemat, who spoke here recently on Sunday school teacher training. Meetings are to be held every Tuesday evening at 7:30 o'clock, for the purpose of studying the lesson submitted by the Michigan State Sunday School association. For the present the meetings will be held in the Presbyterian church, but it is expected that permission to meet in the Young Men's Christian association building will be granted later.

The organization starts out with a membership of fifty-eight, a number of whom are teachers of Sunday school classes. The membership will not be limited to teachers or members of the Sunday school, but all who desire to enter will be admitted. The officers elected are as follows:

President—W. J. McCorkindale.  
 Treasurer—C. L. Anderson.  
 Secretary—Miss Bessie Carlyn.  
 A vice president is to be appointed by the president from each church represented among the membership.

### MILITARY INSPECTION.

Company I Was Inspected by Army Officers Monday Evening.

Carl A. Wagner, inspector general of the Michigan National Guard, and Captain D'Arcy, of the United States regular army, inspected Company I at Ishpeming Monday evening. The inspection lasted about two hours, during which time the visiting officers put the members of the company through a thorough drill. Captain D'Arcy has been detailed by the war department to aid General Wagner in an inspection of all companies in the Michigan National Guard. It is expected that soon after his report is submitted to the department the amount to be allotted for the support of the Michigan organization will be determined.

The proposed inspection was announced a few days in advance of the coming of the officers and as a result very few of the members were absent. The inspection was satisfactory to the officers of the company and it is thought that the visiting officers were also pleased, though they made no comment on the work. The company now numbers fifty men and it has equipment for sixty. Some of the old number of the old members dropped out some weeks ago and the new men are being enlisted to take their places. The officers are endeavoring to bring the membership to fifty-eight, the minimum number required under the law, but a larger number will be accepted if desirable material can be secured.

### ISHPEMING IN BRIEF.

A daughter has been born to Mr. and Mrs. Mike Tasson.  
 Mr. and Mrs. William J. Frances, 232 South Angeline street are the parents of a son.

The infant son of John Kurtti, 145 Greenwood street, died Monday. The funeral will be held this afternoon.

Captain Thomas Walters and wife have returned from their eastern trip after an absence of several weeks.

The Ishpeming City indoor baseball team expects to go to Manistiquette in the next ten days to play two or three games.

A few inches of snow fell here yesterday afternoon and last night. There was thunder and lightning at 5:30, at which time it was snowing quite hard.

The Gately company has an important Easter announcement in today's issue. The firm is doing a splendid business this spring in women's garments, men's clothing, etc.

There will be special services at the Presbyterian church this evening, also tomorrow evening, commencing at 7:30 o'clock. Services are also to be held Friday afternoon at 3 o'clock.

the members to attend. There will be no admission charge.

Men and teams were employed yesterday plowing the ice on some of the principal business streets. A heavy rain had been needed to remove the slush from the streets and sidewalks.

A special meeting of the Lillie tent, No. 135, is expected to be held Friday morning at 9 o'clock. As important business will be presented the officers desire a large attendance.

Mrs. Thomas Craine of the Junction has returned from the West Side hospital, Chicago, where she submitted to a surgical operation, performed by Dr. Ryan. Although the operation was a difficult one Mrs. Craine is getting along most satisfactorily.

Members of the Ishpeming, Negaunee and Marquette lodges of the Independent Order of Odd Fellows will visit the Amusing lodge next Saturday evening, making the trip by special train via the Lake Superior & Ishpeming line, leaving Ishpeming at 5 o'clock. The round trip fare from all three cities will be \$1. It is expected that at least 125 will make the trip. The special train will leave Marquette immediately at the close of the meeting.

The remains of the late Thomas Skews, who died Friday evening in Butte, Mont., which were expected to reach the city Monday morning, did not arrive until yesterday morning. The funeral will be held this afternoon at 2 o'clock from the First Methodist Episcopal church. Friends desiring to view the remains are asked to call at the house on South Main street, as the casket will not be opened in the church. Rev. C. L. Adams will conduct the services.

C. J. Byrns, who arrived home Sunday from Rock Island, Ill., left last night for Duluth, Minn., St. Paul and the Mesaba range on Woodmen business. While on the range he will investigate the condition of the Chisholm camp of the Modern Woodmen, which lost all of its furniture and equipment in the fire that wiped out the town last summer. The camp has made an appeal to the head office and Mr. Byrns will submit a report as to its condition to the executive council at its meeting next week. He will investigate death claims in both Minneapolis and St. Paul and expects to arrive home Saturday. He will leave again Sunday night for Rock Island.

### FROM MORGAN'S CURB LETTER.

"Cactus, Chief Consolidated and Butte-Alex. Scott furnished the sensation in the unlisted department today. The last named was not as buoyant as it was yesterday, but the \$2 pair scored an advance equal to the great part of one point. Chief Consolidated advanced to 1 1/2 on the announcement that the strike is on, and indications are that the dimensions of the ore body are of considerable extent. Cactus was most heavily traded in, and sold freely at 2 1/2. We get it from a reliable source that they have a ton of 7 per cent sulphide ore at the bottom of the shaft. This strike is on, and an advance of from 1 1/2 to 2 points further would not be abnormal. Live Oak was fractionally higher, while San Antonio was unchanged. Copper bid for fair sized lots. Electrolytic sold at 12 1/2 cents."

Yesterday's prevailing prices were:

### SMALL LOG DRIVE.

According to a statement issued by the Menominee River Boom company, the corporation's output this season will be smaller than for many years past. The company has not worked as large a force in the woods this season as last, and will drive 35,000,000 feet of lumber this spring. This includes cedar and pulp wood, and the amount is about 20,000,000 feet less than last year's total drive. It is said that the drive will be by far the smallest in the company's history, the largest being in 1889, when 600,000,000 feet of log were driven. The gap and cut up by the mills of Menominee and Marinette. The pulp wood drive for 1909 will be approximately 10,000,000 feet.

### VAGARIES OF A COLD.

You can never be quite sure when a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the grip or cramp take Perry Davis' Painkiller in warm sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 3c. size as well as the regular 5c. size.

## Negaunee Department

### RECORD-BREAKING VOTE HERE MONDAY

THE 1,322 BALLOTS CAST FOR THE MAYORALTY CANDIDATES THE LARGEST NUMBER EVER FOLLOED IN NEGAUNEE.

A record vote was cast in the election here Monday. It was the first time in the history of the city, so far as the older residents can remember, when the vote exceeded 1,300. Mayor Winter received 649 votes and his opponent, Thomas Collins, 679, the total vote being 1,322. The vote for mayor was larger than that cast for any other two opposing candidates. The vote of Mitchell and Lacombe, candidates for recorder, was 1,233, and the vote for Mercier and Salvage, candidates for treasurer, was 1,234. The increase in the vote for the candidates for the other two offices mentioned is accounted for by the fact that a number voted only for the mayor. It is estimated that nearly fifty ballots were thrown out, so that the vote in the city would have been in excess of 1,350 if there had been no spoiled ballots.

In 1906, when Mayor Winter and Mr. Collins were opponents for the executive office, the vote was 1,149, Mr. Winter receiving 583 and Mr. Collins, 566. One of the principal workers for the Mayor's party yesterday said that he was positive that practically every voter in the city who was able to go to the polls voted. It is evident that there has been an increase in the voting population since the election in 1906. Last year, with only one ticket in the field, there were only 605 votes cast and the previous year, when there was no opposition to the Taxpayers' nominees, 536 votes were polled. The vote Monday was in excess of the total vote in the presidential election last fall.

### Surprises in Wards.

The outcome of the election in the Second ward, where Frank Larson defeated Napoleon Marquette for alderman by thirty-seven votes, and Thomas Kirkwood won over John J. Wentala by forty-two votes, was considerable of a surprise to a majority of the voters. Mr. Marquette was considered one of the strongest men in the city, as he is very popular, and many could not understand his defeat. The vote was completely turned on him. The vote in the First ward for the head of the ticket was also considerable of a surprise, Mayor Winter receiving only eighty-one votes, while his opponent polled 143. The vote that Winter lost there was almost offset by being 140, against ninety-seven for Winter.

Recorder Mitchell, who was a particularly strong candidate, ran ahead of all other candidates on his ticket, his total vote being 739. Judge Veran was second high man, with a total of 711. Mr. Mitchell showed strength in all of the wards, his smallest vote being in the Second, where he polled 99, compared with ninety-seven for Winter, ninety-three for Veran, 101 for Mercier and three for Bedford, the latter for school inspector. All of the candidates on the ticket, however, were victorious together in the Fifth ward, but in all of the other wards, with the exception of the Third, there was much splitting. The vote in the Third varied from 131 for Mitchell to 140 for Veran. Mercier polled an exceptionally good vote, considering the fact that some supporters of the Taxpayers' ticket expressed dissatisfaction because Henry Salvage was not given the nomination.

Thomas Collins received his lightest vote in the Second ward, where his total vote was seventy, compared with 132 for Winter. D. J. Lacombe fell below Collins in the First ward, his total being seventy-six, compared with 143 for the mayoralty candidate Harry Salvage did not get as large a vote in any of the wards as Collins, though he followed 1000 feet of log drive in the Fifth ward, he received 106 total for Collins in the Third his total was sixty-three, against seventy for Collins.

The most interesting fight was waged in the Third ward, between Nicholas Laughlin, Jr., and Edwin N. Corey, who were getting the better of the fight. The candidates worked unusually hard and succeeded in getting out a record-breaking vote. Three years ago, when Messrs. Corey and Muck were candidates for the same office, the former won by only one vote. Corey, who was re-elected superior in the Fourth ward on the Taxpayers' ticket, had the largest vote of any candidate in that ward, his total being 228, two votes more than Mitchell received. C. B. Driscoll also ran well, with a total of 209, compared with 157 for his opponent, H. W. Jackson.

### WON BY THIRTY-TWO PINS.

In the league bowling contest Monday evening between the Ravens and White Sox, the former won by thirty-two pins. The scores were:

White Sox	Tot.
Anti	158 114 136 408
Ekola	161 117 119 397
Hannula	153 132 110 395
Totals	472 363 365 1200
Ravens	Tot.
Alho	170 152 129 451
J. Salo	125 141 164 430
K. Koski	113 111 127 351
Totals	408 404 410 1232

### LOCAL LACONICS.

James Norton, Jr., of Ewen, was a Negaunee visitor yesterday.

The fire department's hose carts were yesterday changed from runners to wheels.

Alfred Johnson, Ivan Anderson and Carl Johnson of Soudan, Minn., spent yesterday in Negaunee.

The Union baseball team expects to go to Manistiquette within the next week or ten days to try conclusions with the team there. Two games will be played.

At St. John's Episcopal church tomorrow morning at 7:30 o'clock holy communion will be administered. The services on Good Friday will be at 10:30 a. m. and 7:30 p. m.

Miss N. H. Sullivan announces her spring millinery opening for Wednesday, Thursday and Saturday of this week—April 7th, 8th and 10. Her parlors are in the Kirkwood block, second floor.

The Bijou theater passed from the management of Mrs. Godin yesterday. It is expected that the new management will introduce vaudeville features in connection with the moving pictures and illustrated songs.

Rosen Bros. & Klein yesterday received six new glass counter cases, finished in mission. They were installed in the dry goods department, taking the place of the old counters extending from the front to a point opposite the cashier's office.

The arrangement committee for the firemen's annual ball next Monday night at McDonald's Opera House has not with excellent success in the sale of tickets. The firemen's parade will take place at 8 o'clock. It will be headed by the

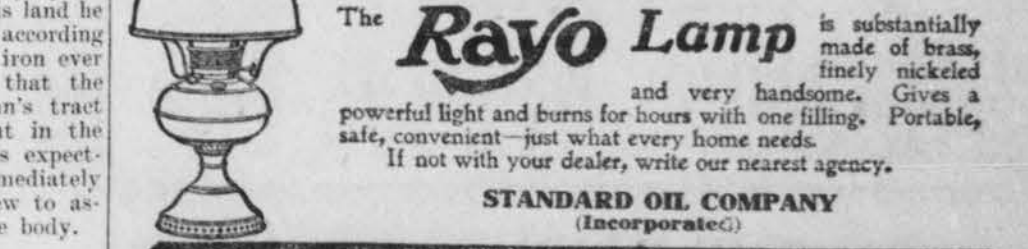

## Don't Heat the Kitchen

All the necessary family cooking may be done as well on a New Perfection Wick Blue Flame Oil Cook-Stove as on the best coal or wood range. By using the "New Perfection" Oil Stove, the annoyance of an overheated and stuffy kitchen is entirely avoided, even in midsummer. The scientific construction of the

## NEW PERFECTION Wick Blue Flame Oil Cook-Stove

ensures quick work and a cool kitchen. The "New Perfection" has a substantial CABINET TOP for warming plates and keeping food hot after it is cooked. Also drop shelves on which to set small cooking utensils—every convenience, even to bars for holding towels.

Made in three sizes. Can be had either with or without Cabinet Top. If not at your dealer's, write our nearest agency.

The Rayo Lamp is substantially made of brass, finely nicked and very handsome. Gives a powerful light and burns for hours with one filling. Portable, safe, convenient—just what every home needs. If not with your dealer, write our nearest agency.

Madam Shank will be glad to instruct you whether you wish to buy or not.

## \$50,000.00 a Year Spent Simply for Style

When you see the *Wooltex* Label in a garment, you may be sure that the style is right. You may be sure that the style in that garment is not the fad of a moment--in vogue today--out-dated tomorrow.

You may be sure that the style in that garment is the same that is worn by women of taste, means, discrimination, not only in the fashion centers of America, but the world around.

You may be sure that the style in that garment combines the best style ideas still new and exclusive, with the severest dictates of your individuality and good taste.

For the makers of *Wooltex* spend annually \$50,000.00 simply for style. They do not depend on New York. They do not depend on London. They do not depend on Paris, although they maintain a permanent style bureau in Paris under the direction of the famous Madame Savarie.

Coats-Suits-Skirts

### Covers the World of Fashion

The *Wooltex* style organization covers the whole world of fashion, just as a daily newspaper covers the whole world for news.

*Wooltex* staff correspondents report all that is new, all that is attractive, all that is desirable, the moment it makes its appearance in the show places of the world.

From these countless style ideas gathered from every originating source, only the tasteful, the practical--the refined, are selected.

And the result is that in a *Wooltex* garment you are protected against the freaks and the oddities that do not "last"--and you are assured the best of all that is new and good.

The *Wooltex* Label is more than a guarantee of style. It is your guarantee of extra quality material--extra quality cloths, linings, findings.

### Extra Quality Material

The ordinary "all wool" of commerce is not good enough for *Wooltex* garments.

The wool that goes into the cloth in *Wooltex* must be pure enough to withstand the acid-test--which is applied to every piece of goods.

The common "all wool" of commerce will not stand that test.

The wool in *Wooltex* must be more than pure wool--it must be high quality, long fibre wool that weaves into materials of great strength--and pleasing texture.

The common "all wool" of commerce contains adulterations--too many short ends, too many coarse fibres to be accepted.

Thus the extra value material multiplies the beauty, the permanency and the satisfaction of *Wooltex* style.

And on top of the quality in *Wooltex* materials there is quality in *Wooltex* workmanship.

Yet because of the economy of production, *Wooltex* garments cost you no more than common, hurriedly made garments which utterly lack *Wooltex* style, *Wooltex* individuality, *Wooltex* quality, *Wooltex* workmanship.

Every *Wooltex* garment is guaranteed for two full seasons of satisfactory wear.

<i>Wooltex</i> Suits	from \$20.00 to \$50.00
Coats	10.00 to 50.00
Skirts	5.00 to 25.00
Dresses	15.00 to 40.00

### See the April Ladies' Home Journal

For good examples of the latest *Wooltex* styles see the April Ladies' Home Journal. The double page *Wooltex* advertisement (from which the above is an excerpt) in the April Ladies' Home Journal, is the largest and handsomest single advertisement ever published by a maker of women's garments. The originals of these *Wooltex* styles as shown in The Ladies' Home Journal are now ready for your inspection at our store. We consider ourselves fortunate in being able to offer garments of such style and quality, garments so well and favorably known to the women of this city.

*Wooltex* garments can be had only here.

J. H. FOSTER CO.

Remember, we give coupons with all sales. You know the rest.

# J. H. FOSTER CO.

## OUR STORE WILL BE OPEN TONIGHT

### ELECTION AT SENEY WAS A THRILLER

**BUT LAWYERS, SECRET SERVICE MEN AND DEPUTY SHERIFFS PRESERVED ORDER.**

### HALF THE VOICES CHALLENGED

**Both Parties Fought Every Inch of the Way But Labor Ticket Finally Won by Hair's Breadth.**

One of the most exciting elections held in the upper peninsula Monday was that at Seney, in which George P. Brown, of this city, figured prominently as the attorney of the faction whose ticket made a clean sweep by a very narrow majority. The winning candidate for supervisor had two more votes than his opponent and the vote for township clerk was a tie, making a flip of a coin necessary to decide the winner.

The annual fights between the Harcourt and Grondin factions at Seney, officially denominated as township elections, have usually been of the "anything is fair" type, whether or not strictly in accordance with the statutes. This year the battle early gave promise of being the most strenuous in the past twenty years, and eight rumors got abroad of such a nature that it is said the governor of the state took notice thereof and called upon the county authorities to prevent bloodshed at Seney on election day. Accordingly, the sheriff sent a trusty and husky deputy from Manistique with a long list of instructions, written by the prosecuting attorney, requiring him to go to Seney the Saturday before election as the representative and embodiment of the majesty of the law, until the Tuesday after election. Among his duties were to see that all saloons were kept closed, front and rear, Sunday and Monday, and to preserve the peace impartially and at all hazards.

#### Floating Vote in Majority.

It seems that the actual, all-the-year-round, residents of the township number only about twenty-five, while at election time the floating vote usually outnumber the steady residents about two to one. The Harcourt faction for many years has been able to pull out about these annual serimuzes, largely, it is claimed, by reason of the support of the floaters. This year, however, the Grondin faction early took measures to prevent and punish the colonization and bribery of voters, and for that purpose about two weeks ago, through Wm. F. McKnight, well known to Marquette people, procured the appearance in Seney, in disguise, of two of the smartest detectives of the J. U. Smith Detective and Information Bureau of Grand Rapids, one of whom went right into the camp of the Harcourt faction and the other into that of the Grondin crowd, and remained at their work until after the election was over. What they learned is likely to be related in the courts hereafter.

#### Fight for Control of Board.

The Harcourt faction, seeking to gain an advantage, repaired to the polls early and proceeded in the absence of the most of the Grondin faction, to organize the election board on local time. The Grondin faction came upon the scene in force in ample time to organize the board upon standard time, and when it was learned what had been attempted by the Harcourt faction the atmosphere was ripe for a fight. The Grondin faction had been advised to organize upon standard time, and, having the clerk with them, this faction had the advantage of the possession of the ballot boxes, ballots and election supplies. At this point a collision was avoided through the negotiations of the attorneys for the rival factions, C. W. Dumont, of Manistique, for the Harcourt contingent, and Geo. P. Brown, of Marquette, for the Grondin contingent. The Harcourt election board was abandoned and a new set of election officials was selected in which the Grondin people got three inspectors, one clerk and one gate-keeper, and the Harcourt got one inspector, one clerk and one gate-keeper. Then the battle of the ballots was waged during the day, about half of all the voters being challenged, sworn and cross-examined as to their qualifications.

#### Disputes During the Count.

Upon the close of the polls intense interest was taken in the count of the votes, as it was realized that there had been much "double-crossing" on the part of many floaters, which made the outcome in doubt upon both sides. Then the lawyers wrangled, raged and roared over "distinguishing marks," "mutilated ballots" and "fair play," with the respective challengers as seconds, and the deputy sheriff as referee, until it was finally settled that all the Grondin candidates had won by a majority of two votes, except their candidates for clerk, who was tied in the count by the Harcourt candidate.

Then, in pursuance of law, the board proceeded to settle the tie by lot. It was agreed that one of the inspectors should flip a coin. The Harcourt candidate chose "tails," the Grondin man "heads." With bated breath the coin was flipped and fell. The Grondin faction had won a clean sweep, for the Goddess of Liberty was on top, and great was the exhilaration thereat.

A stomach specialist recently said: "When the American people learn to drink buttermilk at or about mealtime they will have very much less stomach trouble and rheumatism." (3-15-1m)

### LENTEN CANTATA.

Two Choirs Will Sing This Evening at St. Paul's Church.

The large chorus choir of Grace church, Ishpeming, will unite with the choir of St. Paul's church of this city tonight in rendering the Lenten cantata of P. A. Schmecker entitled, "The Story of Calvary." The music, which is an interpretation of Christ's Passion, is dignified and melodious, and of a high order. The singing of the cantata will be preceded by an address appropriate to the occasion by the Rev. Carl Ziegler, rector of Grace church, Ishpeming. The two choirs have been training for this service under the direction of C. J. Shaddick, the organist of St. Paul's church. The Ishpeming choristers will come down on a special train, the service being at 7:30 p. m. The public is cordially invited to attend.

### WARD RESIGNED FROM STREET COMMISSION

**BUT OTHER RUMORED ACTIONS FAILED TO MATERIALIZE AT COUNCIL MEETING LAST NIGHT.**

An adjourned meeting of the council was held last evening, but the business transacted was confined to the acceptance of the resignation of Walter J. Ward, who was elected alderman in the Fifth Monday, as a member of the park, cemetery and street commission. There was some expectation that the meeting would turn up other developments of interest. It was rumored, for one thing, that Mayor Robertson would appoint a successor to Mr. Ward, and with this rumor was coupled another that John Carlson would be replaced on the police commission. Some days ago Mr. Carlson submitted to the mayor a written resignation, which he verbally withdrew the same day it went in. The written resignation is still out, however, and one report had it that the document would be presented to the council last evening, together with an appointment of his successor.

Members of the council were sounded on the proposition to act on a successor to Mr. Ward last night, but the response made was not of a nature to encourage the men who desired Mayor Robertson to name a man for the board to try and push the thing through. The new aldermen, Butler, Hennessy, Ekstrom and Ward, took their oaths of office yesterday. Alderman Asine was out of the city. There were nine aldermen present last evening, five of whom were opposed to any action on any appointments previous to the new administration taking hold. It was this line-up that discouraged any plans for considering matters in connection with appointments.

Mayor Robertson, subsequent to the adjournment of the meeting, expressed himself as not in sympathy with the project of making any appointments this week, though admitting that the matter had been canvassed. Gus Mellin was referred to yesterday as the prospective appointee on the park, cemetery and street commission and John Siegel for the police commission.

The council last evening adjourned until Thursday night, when the vote polled Monday will be canvassed. Mayor-elect Vaughan may take the oath of office immediately following the canvassing of this vote.

### WARDEN FROM U. P.

**Rumor Has It That Northern Michigan May Get Jackson Prison Plum.**

It is reported from Lansing that the wardenhip of Jackson prison may go to an upper peninsula man. The Journal, of that city, has the following to say on the subject:

"Not that there are any men in the northern part of the state who are better fitted for the job than residents of the southern peninsula. Not that the lead of copper mines iron mines and snowdrifts has the job coming, they have been pretty well taken care of up there with political pickings. But a political exigency may secure the appointment for a gentleman from that section of the state.

"Chase S. Osborn, who lives at the Soo may be a candidate for governor at the primaries two years hence and his entrance into the contest worries some of the men who will receive the support of the administration.

"It has become necessary to break the ranks of the support which will be given Mr. Osborn in the upper peninsula. To do this the clever scheme has been thought of to appoint some citizen from the north as warden on the promise that the administration candidate for governor will receive aid from that section two years hence.

"Even now a candidate for the job of guiding the affairs of the prison is being sought among the stumps and mineral deposits. Game Warden Beidell, of Monominee, has been an avowed candidate, but does not seem to fill the bill and some new man must be dug up."

### YOUNG MEN WANTED.

United States Government Gives Railway Mail Clerks \$800 a Year to Start and Increases It to \$1,200.

Uncle Sam will hold an examination for Railway Mail Clerks in the vicinity of Marquette and throughout the United States on May 15. Many ambitious young men, with only a very ordinary school education, can readily pass. The government wants young men over eighteen, with common sense, to take examinations for railway mail clerks and carriers, and the government positions bureau, of Rochester, N. Y., with its peculiar knowledge of the requirements of the examination, can fit any young man in a short time to pass. A government position means steady work, good pay, and a yearly vacation. There is time to prepare for the May 15 examinations, and any reader of The Mining Journal can get full information how to proceed, free of charge, by writing The Government Positions Bureau, Powers block, Rochester, N. Y. (3-29-24-27-31-4-3-7)

### CAST CHOSEN FOR MUSICAL COMEDY

**ENTERTAINMENT TO BE GIVEN BY HOME TALENT APRIL 16 AND 17 PROMISES TO BE A BIG SUCCESS.**

"Bibi, a Comedy of Toys," to be given by a local cast, comprising sixty-eight people, at the opera house April 16 and 17, promises to be an exceptionally interesting attraction and one that will doubtless draw capacity houses. The play is being given under the auspices of the Young Woman's guild for the benefit of the Guild Hall association. The rehearsals and presentation of the play are in charge of Mrs. W. J. Pettee and Miss Jessie Palmer, both of whom have won an enviable reputation by former successes in managing similar theatricals.

"Bibi" is heralded as a spectacular musical comedy, and there will be new, catchy music, numerous intricate dances and fancy drills and elaborate costumes. One of the features of special interest will be the animals from Noah's ark. Rehearsals are now being held every day and the members of the cast are already falling into the spirit and proper interpretation of their respective parts.

Following is given a list of those who will have speaking parts, Bibi, Tonset and Prince Caramel being the leading characters: Gluepot, the toyman..... Byron Cole, Katy, the toyman's daughter..... Miss Alma Bigelow Bibi, the French doll..... Flora Retallio Angelica..... Mabel Watson Tony..... Agnes Whitely Prince Caramel..... Morgan Jopling Captain Tillerope..... Donald Begole Sergeant Bon Bon..... Thomas Williams Sylvania..... Edith Russell Sand Man..... Edward Gilbert Man-in-the-Moon..... Edward Gilbert

### Upper Peninsula

Likes Government by Commission—

David Brown, who recently returned to the Soo from a trip through the South, is an enthusiastic believer in a commission form of government. He says that in all of the cities in Texas that have adopted the commission policy, a great saving in expenses has been made and the citizens are better satisfied in every way than in the city of Corpus Christi, Tex. He has an advanced idea on the subject. Its charter provides that a person in order to vote must show a receipt for poll tax of \$2.50 paid the year previous, as well as having all the other qualifications of a voter. Every department is placed under a head elected by the people at large, and while he has absolute supervision over his department, the commission as a whole must first outline the policy to be adopted. One commissioner is elected each year, but a new election can be ordered at any time upon a petition signed by 100 legal voters.

\$10,000 Asked for Alleged Libel— Suit has been commenced against F. L. Baldwin, publisher of Escanaba Journal, by Little & Norton, publishers of Escanaba Morning Press, for \$10,000 damages. The alleged libel was contained in a write-up in the Journal in which Mr. Norton was called "John Sharpshooters." Mr. Baldwin refused to make a retraction in his paper, it is stated whereupon suit was instituted.

### Educator Passes from Life—

Professor A. E. Farmer, who was superintendent of the Iron River public schools for three years some twelve or fifteen years ago, died at his home in Pontiac, Mich., last week, after an illness of nearly a year. Mr. Farmer was an earnest, conscientious worker in his profession and devoted his entire energies to the cause of education. He was a charter member of the Iron River lodge of Mystic Workers, in which he was insured for \$1,000.

### Happy Escanaba Man—

One of the happiest men in Escanaba is P. V. Haring, who has been shown recognition not only for his long service with the Northwestern road but has been presented with a meerschaum pipe and pouch by those who had long been his fellow employees. The pipe is a fine one and Haring prizes it very highly. March 2 Haring was retired by the Northwestern road on a pension, after having been in its service for a term of twenty years. During nearly all of this time he worked in the Escanaba roundhouse and his last work was as engine wiper. He will receive his first pension check this month. Mr. Haring will be seventy-four years of age next September. He located at Escanaba in March, 1889, and has therefore lived there a little over twenty-seven years.

### "Lid" Is Clapped On—

A new regime in regard to the conduct of our saloons went into effect last evening for the first time in many years, says the Iron River Reporter. At a meeting of the council it was decided that the liquor law should be more rigidly enforced than they have been in the past, and accordingly the marshal was called in and was instructed to see that all saloons were hereafter closed promptly at 11 o'clock, which meant that they should not only close at that time but that all blinds should be pulled back or lowered giving the public a clear view of the inside. In the neighborhood of 11 o'clock last evening every saloon was in darkness, some not as promptly as others, but the marshal was "on the spot" and the lights were soon out. Sunday closing was also considered by the council and a new order was issued in regard to closing on that day, which the council says will be rigidly enforced or more drastic measures will be taken. The closing on Sunday also means that all blinds must be pulled or lowered, or the occupant will stand for a visit to Judge Stone. The council also passed a resolution notifying all beer peddlers that if they continue the practice of peddling beer by the keg to others than saloonkeepers that they must take out a wholesale license. It is stated that the council is in earnest in the matter of a more rigid enforcement of the liquor laws, and that all violators will be arrested and prosecuted. This does not mean that Iron River has been a bad, wide-open town, for such has not been the case, but it means that the leniency of our village dads in the past has been taken advantage of by a few and in order to give all an equal show the law will hereafter be enforced and each and every one will be treated alike.

### JACOB ROSE.

**THE BOY OF TODAY.**

The manly boy wants his clothes to look and fit "just like father's"—no made-overs nor past days' styles for him.

### Here's Style News Most Important

Good news for you, madame, who wish the best and most fashionable effect in your gowns. We are placing on show the advance models of the famous Gossard Corsets—The corset peculiarly adapted to the prevailing modes. The Gossard Corset is an adaptation of the first front-lacing corset L'Inresistible. It is the one corset that has made it possible to attain the new shapely, habit back—fixing in it permanent lines of beauty. Lacing in front, it is adjusted without effort—revealing the Hogarth beauty line—the arch of a woman's spine—and bringing front and side lines into perfect symmetry and harmony.

**THE Gossard CORSETS**  
"They lace in Front"

offer a model for every figure. For the woman who is stout, there is a model which molds her form into perfect symmetry, while it discloses the long, lithe, graceful lines so fashionable today. For the slender figure, there are corrective models with softened lines, which by inducing proper standing position imparts poise, compels deep breathing—straight shoulders. The Gossard Corsets are recommended by leading physicians, because they support the spine and abdomen, give free action to the vital organs—permit deep, healthful breathing. We ask you to visit our store during this exposition of Gossard models. We have with us MADAM M. A. SHANK, an expert corsetiere, trained by the manufacturers, who will insure your getting the corset best adapted to your figure and a perfect fit. Come and see for yourself the special style advantage offered by the Gossard Corsets. You owe it to yourself to, at least, investigate the advance Gossard models. We'll be expecting you.

**J. H. FOSTER CO.**
