

PUTS PARIS PAPER IN ANANIAS CLUB

Theodore Roosevelt Vehemently Denies That He Gave Out Any Interviews to the Press Correspondents at Naples.

Paris, April 11.—Theodore Roosevelt in a cablegram from Port Said to the Paris newspapers, denies that he gave any interviews to the French correspondents at Naples.

Great Crowd Cheers Him. Port Said, April 11.—The steamer Admiral, with ex-President Roosevelt aboard, started through the Suez canal at 7:30 Saturday morning.

Suez, April 11.—The steamer Admiral, with Theodore Roosevelt aboard, which passed out of the canal last night, made a brief stop at Suez and then proceeded down the Red sea.

Britishers Hall Him Enthusiastically. Enroute through the canal, the Admiral passed the steamer City of Paris, from Karachi, crowded with British passengers.

In the alleged interview at Naples, Mr. Roosevelt was quoted as saying that he was elected to the presidency as the representative of the masses.

TAFT AND SHERMAN GET SEASON PASSES TO BALL PARK.

Washington, April 11.—The two most prominent baseball "fans" in the United States—President William H. Taft and Vice President J. S. Sherman—have been presented by Thomas C. Hayes, president of the Washington baseball team, with annual passes, good for themselves and party on any American league ball grounds in the country, at any time during the present season.

FORMER MINISTER JONES IS DEAD IN CHICAGO, ILLS.

Chicago, April 11.—J. Russell Jones, minister to Belgium from 1869 to 1875, died of acute bronchitis here today. Mr. Jones was born in Newmear, O., in 1823, came to Chicago at the beginning of the Civil war, was a member of the following eight years United States marshal for the northern district of Illinois.

PRESIDENT TAFT ATTENDS ST. JOHN'S EPISCOPAL CHURCH, OF WHICH WIFE IS MEMBER.

Washington, April 11.—President Taft today attended St. John's Episcopal church, whereof Mrs. Taft is a member, and afterwards was compelled to hold an informal reception on the church steps.

GOVERNOR LILLEY RALLIES; STRONG HOPES NOW THAT THE PATIENT WILL RECOVER.

Hartford, Conn., April 11.—There was a marked improvement in the condition today of Governor Lilley. Tonight there are strong hopes of his recovery.

PASTOR FINED FOR RIDING BICYCLE ON A SIDEWALK.

Sparta, Wis., April 11.—The Rev. L. A. Bremner, pastor of the Methodist Episcopal church of Sparta, was fined \$4.00 yesterday for riding a bicycle on the sidewalk. The Modern Woodmen raised the amount of the fine.

PARTY PLEDGE KEPT, SAYS MR. ALDRICH

Aim of the Senate Committee in Preparing the Tariff Bill Has Been to Revise Downward, Reports the Chairman.

Washington, April 11.—The Payne tariff bill, as amended by the senate committee on finance, was sent to the printer late tonight, and will be ready for presentation to the full committee tomorrow morning.

Chairman Aldrich asserted tonight that the seventy per cent of the articles of the tariff bill that the committee has arbitrarily assumed to make a tariff bill, and recognizes the right of the other members of congress to help shape the tariff.

The question of how it happened and who was responsible, however, is not so easy. Representative Norris of Nebraska, pressed for a specific statement of the amendment, so that it would be without question, all petroleum products on the free list, he being a leader of this fight, which has occupied so much attention in the house the past few days.

Mr. Norris said: "There seems to be no doubt about this thing. The bill and the record indicate clearly enough that the house did one thing which it intended to do another. The error would seem to be the question: Is it a mistake, but I shall take steps at the Monday session of the house to have the bill read in its present form, in order that the house may correct it in this regard."

BLACK EYE FOR SPOILSMEN.

Census Bill Passes the Senate in Form Pleasing to Mr. Taft.

Washington, April 11.—The bill to provide for the taking of the next census was passed by the senate yesterday in a form which is understood to be in accord with the views of President Taft regarding appointments for the census work under the regulations of the civil service commission. The efforts by some senators to allow these appointments to be made by the senators and representatives without examination, received but slight support.

An interesting feature was a speech by Senator Bailey, Democrat of Texas, who said it was reported that if the bill as passed did not provide for appointments under the civil service, the president would veto it. The senator declared that if the president had this early in his administration undertaken to veto a bill which would find the experience of the last seven years was a holiday with what the next four years would be."

GENERAL WILLIAM BOOTH TO VISIT AMERICA AGAIN.

New York, April 11.—At the celebration of the eightieth birthday of General William Booth, which began today, it was announced that the founder of the Salvation Army was planning another trip throughout the United States and Canada next fall.

FUNERAL AT ST. LOUIS.

St. Louis, April 11.—The body of Ethel Allen Hitchcock, former secretary of the interior, arrived tonight from Washington, where he died Friday.

ALLEGED "JOKER" BENEFITS OIL TRUST.

Petroleum and All Its Products Thought to Have Been Put on the Free List in the House, It Is Discovered That Protection Is Given to Many of the Standard's Products.

Washington, April 11.—Another remarkable chapter has been written in the history of the tariff legislation in the house. It is the discovery that on Friday, when the house thought it was voting to place "petroleum and all its products" on the free list, it in fact placed only "petroleum, crude and refined" there. Another section of the bill provides that articles of manufacture not enumerated in the bill shall be subjected to a duty of 20 per cent ad valorem under this section all products of petroleum, except kerosene and paraffine, paraffine being named in the free list, would be subject to a duty of 20 per cent.

The list includes some 200 articles, including benzine, naphtha, gasoline, vasoline, lubricating oils, etc. In all these articles there is a commerce amounting to many millions of dollars and the imports of them are extensive. The imposition of the duty would give the Standard, which is practically the sole producer of these by-products, a continuation of protection.

Who Is Responsible? The question of how it happened and who was responsible, however, is not so easy. Representative Norris of Nebraska, pressed for a specific statement of the amendment, so that it would be without question, all petroleum products on the free list, he being a leader of this fight, which has occupied so much attention in the house the past few days.

Mr. Norris said: "There seems to be no doubt about this thing. The bill and the record indicate clearly enough that the house did one thing which it intended to do another. The error would seem to be the question: Is it a mistake, but I shall take steps at the Monday session of the house to have the bill read in its present form, in order that the house may correct it in this regard."

HASKELL'S TROUBLES HAVE NOT BEEN ENDED.

Indictments Against the Governor Quashed on the Ground They Are Faulty, the Government Will at Once Re-submit the Case to Another Grand Jury.

Tulsa, Okla., April 11.—The indictments against Governor Charles Haskell and six other prominent Oklahomans were quashed yesterday by Judge A. Marshall of Utah in the United States circuit court, on the ground that they were returned by a grand jury composed of twenty-three men instead of sixteen men, as provided by the Arkansas law, which provides for sixteen in old Indian Territory by federal enactment at the time when the alleged frauds were committed.

Haskell and the others had been indicted charged with frauds in Muskogee town lots. Sylvester Rush, special assistant attorney general, who worked up the cases for the government, says that he will again present the matter to the grand jury, submitting it without delay to the body now in session.

The aggregate wealth of the seven men is said to be over \$2,000,000. The indictments against them numbered thirteen and they were returned at Muskogee after a lengthy grand jury investigation conducted by Sylvester Rush at Omaha, witnesses being brought to the state from Ohio, Michigan and other eastern states. The indictments charged conspiracy to defraud the federal government and the Creek Indian nation in connection with the scheduling of Muskogee town lots in 1902.

Judge Marshall's decision follows the ruling at Muskogee on March 14 of a motion to quash all the indictments. The petition was sensational in character, alleging misconduct on the part of Sylvester Rush of Omaha. It is alleged that government secret service operatives gave testimony before the grand jury, that important testimony was suppressed, that the government denied the jury's request for certain testimony, and that witnesses were coerced, being told by Attorney Rush that indictments should be returned for the reason that the government wanted it done. Mr. Rush appeared personally at Tulsa in the present hearing and denied these allegations.

ALABAMA "WETS" GAIN POINT.

Mobile, Ala., April 11.—One of the strongest sections of the state prohibitory law was declared unconstitutional yesterday by Justice Mayfield at Montgomery. The section knocked out prohibited the storing or possession of liquor in any building or apartment which was inhabited. Judge Mayfield declared that the statute was in conflict with the federal bill of rights, which declared that every man's home is his castle. He further declared that the search warrants to seize liquor were illegal and that warrants could be issued only after evidence had been discovered and not on a chance of securing evidence.

PATHFINDER IN COLORADO.

Denver, April 11.—The Thomas Pathfinder automobile, from New York to Seattle, reached Limon, Colo., today.

CASTRO PLANNED TO USE AN AIRSHIP

With Trinidad as His Base, He Proposed to Make an Aerial Invasion of Venezuela—This the Story Reaching New York.

New York, April 11.—According to advices received today by the partisans of former President Castro, one of the plans under consideration by the exiled dictator was that of landing in Venezuela from an airship. The story credits Castro with the intention of establishing a base of operations at Port of Spain, Trinidad, from which point the airship expedition was to have been made.

ST. IVES AND SHRUBB TO RACE IN NEW YORK.

New York, April 11.—Henri St. Yves, who won the marathon derby, was watched today to race Alfred Shrubbs, of England, at the American baseball league park here the night of April 24. The race will be run in the glare of hundreds of electric lights.

Providence, R. I., April 11.—Henri St. Yves, the world-beating ex-waiter, again demonstrated his superiority over Martin Maloney, the speedy Yankee marathon winner, in a twenty-mile race over a six-lap track at Melrose Park here yesterday afternoon. St. Yves covered the distance in two hours, two minutes and two seconds, while Maloney was three laps—half a mile and twenty-five yards—behind, in two hours, five minutes and twenty-four seconds.

St. Yves set a grueling pace from the start and at the end of the seventh mile, led by one lap. St. Yves ended the tenth mile in fifty-eight minutes and forty-five seconds. Maloney's time was 01:56:45. There was no material gain until the eighth mile, when the Frenchman again lapped his sturdy opponent, with a lurching of applause. He finished the nineteenth mile in 1:56:42, with Maloney three minutes and twenty seconds behind.

WORKER IN THE VINEYARD A FULL HALF-CENTURY.

Ordained Five Decades Ago, the Venerable Methodist Episcopal Missionary Bishop James Thornburn Celebrates Fiftieth Anniversary of His Sailing for India.

Boston, April 11.—Today was the fiftieth anniversary of the ordination of Bishop Thornburn, of the Methodist Episcopal church, and tomorrow will be the fiftieth anniversary of his departure for his notable work in India. A Thoburn jubilee is being held in Meadowville, Pa., arranged by Allegheny college, from which the bishop graduated.

Meadville, Pa., April 11.—James Thornburn, for twenty years Methodist Episcopal bishop of Malaysia and for half a century engaged in missionary work in India, was greeted by bishops and clergy from all over the country today, at the beginning of the jubilee celebration of the fiftieth anniversary of his sailing for India. The celebration will end Tuesday, with presentation to the bishop of a handsome home by his home Methodists. Tears coursed down during portions of his sermon.

This afternoon addresses were delivered by Dr. Stephen H. Herbin, editor of the Epworth Herald, and Miss Lilavati Singh, instructor in the Isabella Thoburn college, Lucknow, India. This evening Dr. Homer O. Stuntz, assistant secretary of the board of home missions, viewed Bishop Thornburn's life work, which is recognized as having brought about remarkable developments in the mission fields of southern Asia. The Malaysia and Philippines annual conferences are direct outgrowths of his services.

ICE JAM AT NIAGARA FALLS.

Niagara Falls, N. Y., April 11.—The ice jam in the Niagara gorge continues and between this city and Lewiston the water has risen forty feet above normal. In addition to the plant of the Ontario Power company, that of the Hydro-Electric Power company is also seriously interfered with by the ice. The Maid of the Mist landing here has been swept away and the Empire steel arch bridge and the suspension bridge near Lewiston are both threatened. The ice in the gorge is packed so heavily that it is possible to cross it at Devil's Hole. Engineers who have examined it this morning are of the opinion that it would be futile to attempt to dynamite. The Great Gorge railroad is entirely out of commission, its tracks being covered by ice in places to the height of fifteen feet and washed out in others.

LOVING CUP FOR DR. ANGELL.

Ann Arbor, Mich., April 11.—University of Michigan students are circulating a subscription list for the purpose of raising \$1,000 with which to purchase a loving cup for President James B. Angell to serve as a souvenir both of his retirement as president of the university and his recently celebrated eightieth birthday.

NEGRO CONVERTS IMMersed.

Eight Join the "Navy of the Lord" Church at St. Louis, Mo.

St. Louis, April 11.—While thousands struggled for points of vantage today, eight of 125 recruits for the "Navy of the Lord" negro church were immersed in the waters of the Mississippi river by Rev. J. Parker, who is called "the admiral" by the converts. The negroes, after running from the water, changed garments in nearby boiler-shops. Forty-five of the recruits turned their back on "the navy" when they felt the cold water.

WEATHER FORECAST

Washington, April 11.—The following is the weather bureau's forecast for Upper Michigan: Showers, Monday; Tuesday, colder and cloudy, probably snow flurries; brisk to moderately high winds, becoming west.

AMERICAN DELEGATES ROYALLY WELCOMED.

In Europe for the Purpose of Forming a Worldwide Order of Hibernians, Mathew Cummings and Rev. Father O'Connell Are Warmly Greeted at Dublin.

Dublin, April 11.—When the steamer Cedric arrived at Queenstown today, a large delegation representing various Irish bodies proceeded down the harbor to welcome the two delegates from the Ancient Order of Hibernians of America—Mathew Cummings, national president, and the Rev. Father O'Connell, state chaplain of Massachusetts. After greetings were exchanged, the party took a special train for Dublin, where a great demonstration occurred this evening. Addresses of welcome were presented, in which the work of the Hibernians of America for the Catholic faith and the fatherland were highly eulogized and the hope was expressed that the mission would succeed in dissolving the dissensions among the Irish home units.

COLORED MAN PAYS EXTREME PENALTY

Judge Lynch Presiding in the Case of a Negro Arrested at Arcadia, Florida, That Town Is the Scene of a Hanging.

Arcadia, Fla., April 11.—John Smith, a negro, who yesterday attempted a criminal assault upon Miss Mary Steel Ewing, was taken from the sheriff and his deputies early today and was hanged to a tree.

Miss Ewing was driving to her home, four miles from the city, when a negro sprang into the buggy, seized her and dragged her into the bushes. The young woman begged and fought with the negro, offering him \$100 cash if he would accompany her home. Her screams attracted two men to her assistance, but the negro got away.

ANGRY CROWD CHASES A POLICEMAN MANY BLOCKS; HAD SHOT A SMALL BOY.

New York, April 11.—Henry Jansen, of the Pastime Athletic club, won a Marathon race at Celtic Park, Long Island City, today, in which seventeen amateurs competed. His time was 2:48:17. Just before the race a riot was precipitated among the five thousand spectators, who threatened Charles Hans, a special policeman who had shot and dangerously injured Thomas B. Daly, a fourteen-year-old boy who tried to steal into the grounds by climbing the fence. The crowd chased the policeman a quarter of a mile. He took refuge in a house and was rescued by the regular police, who took him in custody.

WIFE IN CRITICAL CONDITION.

Hutchinson, Kas., April 11.—Horace Schwartz today shot his wife and her brother, Marius Green, at whose home she had taken refuge, and a neighbor, Plimes Spain. He then tried to end his own life by drinking carbolic acid. Mrs. Schwartz is in a critical condition, but the men are not seriously wounded. Schwartz is in jail.

DOOMED TO THE GALLOWS.

Springfield, Ills., April 11.—David Anderson, eighteen years old, was hanged in Chicago April 23 for the murder of Policeman Callaghan, the supreme court yesterday denying Anderson's petition for a rehearing.

REMARKABLE REVIVAL

"Billy" Sunday Closes Seven Weeks Work With a Record of 5,000 Conversions.

Springfield, Ills., April 11.—What is claimed to be a record in conversions was made today, the closing day of "Billy" Sunday's seven weeks' revival, when eight hundred persons embraced Christianity, making a total of nearly five thousand for the campaign. The total attendance at the Tabernacle during the seven weeks was more than half a million.

NEGRO CONVERTS IMMersed.

Forty-five of the recruits turned their back on "the navy" when they felt the cold water.

ADJUSTMENT AT COLLIERIES IS EXPECTED THIS WEEK.

New York, April 11.—A definite settlement of the differences between the anthracite coal miners and the operators is expected this week. Though the miners failed to secure the chief concessions sought, it is believed that a definite working agreement is in sight.

TO ISSUE \$10,000,000 BONDS.

Pittsburg, Pa., April 11.—It is reported that the Republic Iron and Steel company will soon announce a bond issue of \$10,000,000, a large percentage of which will be used for improvements.

FIRE IN THE NIGHT DEALS OUT DEATH

Six Persons Lose Their Lives in Flames That Wipe Out Property at Lenox, Mass., Valued at a Quarter of a Million.

Lenox, Mass., April 11.—Six persons lost their lives, three others were badly burned and a property loss of a quarter of a million dollars was caused by a fire in the heart of the business district of the city early today. Four business blocks, two dwellings and two other structures were destroyed. The dead were: Edward C. Ventres, an electrician. Mrs. Edward C. Ventres. Twelve-year-old girl, the daughter of Edward Ventres. Miss Alice French. Miss Isabel Cook. Miss Mary Sparks.

The injured are Mrs. Catherine Root and her two sons, all three of whom are severely burned. The loss of life occurred in the Clifford building, where the blaze started, the result of a series of explosions among the paints, oils and dynamite stored in the cellar of a hardware store.

Survivors Escape in Nick of Time. The fire was discovered by George Root, who lived with his mother and brother in the upper story of the Clifford building, a three-story structure. Calling his brother and mother, all three ran down stairs, shouting that the other occupants. The two men wrenched open the burning front door and dashed through with their mother. All sustained bad burns. The Roots had barely crossed the street when a terrific explosion in the building shattered the windows within a wide radius. The Clifford block was instantly wrapped in flames.

Horace Perrill and his wife, the occupants of the top floor, aroused by the shouts of the Roots, got out of the front stairs when they saw flames harrng exit. Three women were below them, trying to get out. Perrill then rushed his wife to the back stairs, where they escaped. All the other occupants lost their lives.

Intense Heat Prevents Rescue.

Alice French climbed out of her flame-filled room in the second story veranda by her night clothing and hair abaze, and leaped to the sidewalk beneath, landing in a heap within a few feet of the building. Some on-lookers attempted to rush in and drag her out, but the intense heat drove them back. Her body was recovered several hours later. The bodies of the other victims have not been found.

TRAIN JUMPS TRACK.

Enginemmen Are Killed and Nine Passengers Are Injured in a Northern Pacific Wreck.

Tacoma, Wash., April 11.—Burlington train No. 16, eastbound on the Northern Pacific, was derailed near Bristol last night, resulting in the death of engineer Hammon and fireman Johnson and the injury of nine passengers. The cause of the accident is unknown. The train jumped the track on a sharp curve. The engines turned over, the baggage car sank into the water, and the mail car slid down to the edge of the river. All the cars were derailed except one sleeper. The most seriously injured are: H. Hewitt, of Quincy, Ills., whose back is injured and whose feet are badly bruised; and John C. Coleman, of Everett, whose back and chest are hurt.

Remarkable Escape in Missouri.

Higginsville, Mo., April 11.—Eastbound Chicago & Alton passenger train No. 14 was derailed near Mayview today by a heavy wind, which lifted the coaches from the track and rolled them down an embankment. While the passengers were shaken up, strange to say none were seriously injured.

Asheville, N. C., April 11.—Four cars of a passenger train on the Southern railway were derailed near Old Fort today. Six passengers and two trainmen were slightly injured.

THREE SISTERS KILLED.

Walking on the Track, They Are Run Down by an Illinois Central Flyer.

Dubuque, Ia., April 11.—The Illinois Central "flyer" struck and instantly killed Anna, Mabel and Ruby Faldorf, aged seven, eight and fourteen years, respectively, the daughters of Fred Faldorf, four miles west of here today. The girls were walking on the track toward the train. They had their heads down, on account of a high wind that was blowing, and did not see the swiftly oncoming cars.

WEATHER FORECAST

Subscription Rates: Per month by carrier \$1.00 Per year, by mail \$10.00

MARQUETTE, MICH., APRIL 12.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Well, it is to be Dr. Eliot or Mark Twain at St. James; or someone else?

The Payne bill having passed the house, the senate will now take up the real work of tariff making.

"Insurgency" in legislative bodies is quite the style this year, and the Michigan legislature intends to be in fashion.

"What's the constitution between friends?" That seems to be Speaker Campbell's way of looking at the matter.

The proposal to place twenty cents a ton duty on iron ore will stop the flood of petitions and letters from the Lake Superior iron ranges.

If the plans of the state department do not slip up somewhere, former President Castro of Venezuela will soon be sailing over the bounding billows on the back track to Europe.

"Who will be city marshal?" is a question that is reported to be giving our Negaunee neighbors much concern. "Who won't be city marshal?" is the form the same interest takes locally.

The decision of numerous Republican leaders in Indiana to remain in politics, rather than to accept posts that will take them out of the state, argues a belief on their part that Indiana will not long remain in the Democratic column. And they are doubtless correct in their view.

The coal operators are standing pat on the agreement made by former President Roosevelt's strike commission. They are apparently unwilling to concede to the miners anything not contained in that agreement. The latter must, it appears, give all the ground, to avoid a strike. Much depends on whether they can see their way clear to do it.

The Iowa legislature adjourned without passing a prohibition bill, but the restrictions it has thrown about the saloon business are drastic and should work out more satisfactorily than a prohibition statute, which, after all, is a thing of doubtful expediency. The councils of Iowa cities and towns are prohibited from licensing more than one saloon for each 1,000 people; breweries are prohibited from having any interest in the retail liquor business and druggists are required to account for all their sales of liquors. This is going a great deal farther than the proposed restrictive measures in Michigan; yet some of our people have held that the latter are drastic.

The Escanaba Journal is of the opinion that the state's allowance of forty cents a description for the printing of delinquent tax lists is too high. The Journal is right. It says:

The Journal has received several urgent appeals from newspaper publishers, asking that we unite in opposing the proposed reduction in the price per description paid for advertising delinquent tax lands. The price paid under the present law is forty cents per description, and a bill introduced in the legislature proposes to reduce this to ten cents per description. It is our candid opinion that the price now paid for this advertising should be reduced, and the newspaper publishers of the state should not place themselves either in the position of grafting or of being objects of charity. But the price should be made fair. The proposition to make the price ten cents is unfair, because it is as much too low as the present price is too high. The price should be made twenty or twenty-five cents. This would be only fair remuneration for the advertising, and if the publishers of the state would unite in agreeing upon this price, making it a straight business proposition, and not in the nature of a "phat take" for valuable services rendered the grand old party, we would put ourselves in a position where we would not have to feel like a thief when accepting the price now paid, and we could conscientiously appeal to our members in the legislature to stand with us on the price suggested.

Mayor Vaughan expresses himself in favor of curtailing the municipal expenditures the coming fiscal year, and there is no doubt that the council will be willing to follow him on any lead he takes in this direction. In the background there will be a great body of approving taxpayers, who have viewed with concern the steady and rapid in-

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Capital and Surplus...\$200,000.00 DIRECTORS: Jas. Chynoweth, Jacob Baer, G. R. Campbell, H. L. Baer, Jno. D. Cuddihy, Joseph Bosch, Lesing Karger, Jas. Briggs, Norman W. Haire, James Mercer, L. H. Richardson, Allen F. Rees, Chas. L. Lawton, Geo. Ruppel, E. L. Lawton, Thos. Whittle, C. A. Wright, Ferd. Wieber.

crease in the cost of running the city. The outlay of money for the fiscal year ending March 14 was the largest ever recorded here, and it has been observed the past two years that the creation of the police and the park, cemetery and street commission has resulted in a much larger expenditure in both those departments. The policing of the city last year cost, in round numbers, \$3,000 more than it did three years ago, the last year the council was in control of the police department, and the expenditures in the park, cemetery and street department mounted to dizzy heights. The results in the latter department were fairly good, it appears, but the total outlay was greater than should be the case in a city the size of Marquette. There has been a cheerful disposition to increase salaries and the number of jobs, which may well be curbed. The people of the city expect, among other things, that the new administration will cut down expenses appreciably, and pave the way for a lower tax rate. By careful management much money can be saved without in any way adversely affecting the city's interests. The work of the finance committee, when it recommends the budget for the ensuing year, will be closely scanned.

In connection with his overruling of the constitutional provision giving a majority in the house the right to take any bill from a committee, Attorney General Bird gives Speaker Campbell a blast. "Campbell was right when he said that there is no sanctity about my opinion," he says, "but you don't need a lawyer to construe that clause in the constitution. It is so plain that any school boy can read it and to remove further all doubts the convention issued an address telling just why the majority was placed in control of all bills. For the life of me I don't understand how the members voted as they did, after taking their oaths to support the constitution. However, Campbell's action is no surprise, in view of his connection with the fight of the telephone companies to avoid being placed under the ad valorem system of taxation, the same as all other property in the state. Think of a man who will tell the members of the house that they can violate a provision of the constitution because there is no way of catching them at it. In substance, this is what he has done." Speaker Campbell vigorously denies that his stand is dictated by any desire to defeat the ad valorem taxation bill, which, he asserts, he favors. But, as Attorney General Bird says, the intent of the constitutional provision at issue is plain, and if there was any doubt about it the constitutional convention made clear how it intended the provision should be interpreted. The people of the state will incline to the attorney general's view, and will regard Speaker Campbell's ruling as unwarranted, sympathizing the while with the members who are putting up such a vigorous fight on it.

THE FREE HIDES QUESTION. Considerable of a protest is going on these days, in the halls of congress, and elsewhere, against the proposal in the Payne tariff bill to place hides on the free list. A good deal of this opposition comes from the people, and their representatives, of localities where cattle raising occupies a prominent place. The claim is set up that if the duty on hides is taken off the price of cattle will be materially reduced.

It does not seem that this position is a tenable one. Especially, when the fact is taken into consideration that the removal of the duty on hides and a good sized reduction of the duties on manufactured shoes and other leather goods, which is an accompaniment to it, will be the means lessening the American shoe bill to a great extent. Almost everyone is aware of the fact that the cost of shoes has been most unreasonable during the past few years. Experts estimate that the removal of the duty on hides will mean a saving for the people of this country of at least \$30,000,000 annually in their shoe bill. The reduction of the duties on prepared leather and manufactured shoes will have a tendency to make this saving much greater. And, as Representative Crumpacker of Indiana said the other day in debating this question in the house of representatives, the farmers and stock raisers will be able undoubtedly to save more money through the reduced price of shoes, harness and other leather goods, as a result of the removal of the duties on hides, than they would make if the duty was continued in force.

As a matter of fact, will the taking off of the duty on hides cause substantial decrease in the price of cattle? In the raising of cattle and their sale little or no attention is paid by the farmer or stock raiser to the price that the hide of a steer will bring him. Cattle are not sold primarily for the value of their hides. It's the beef on them that counts in the sale and in the purchase. The hide proposition is a side issue with the packer who buys the cattle. Ordinary steers bring to their raiser from \$70 to \$110, or thereabouts, for a hide. The duty on hides is 15 per cent ad valorem. This means that they are protected about that much. A 15 per cent reduction on the price of a hide will not mean much of a decrease in the price that is paid to a stock raiser for a steer. Certainly it would not be anything like the benefit he would gain in the reduced cost of shoes and other leather goods through a removal of the duty on hides.

The Particular Smokers' Choice La Verdad Clear. We buy second cut Yucatan Abasco tobacco directly from the plantation, saving a broker's and jobber's profit. This saving goes into the quality and the quantity of the tobacco. LA VERDAD cigars are always in stock. Dealer will gladly sell you LA VERDAD cigars. M. C. SCULLY, Agent, Marquette, Mich.

ON SOCIALISM.

Socialism thrives on persecution. Down at Crystal Falls they don't like socialism and they don't like socialists. Some years ago they organized a bouncing committee among the citizens and whenever a socialist orator put in an appearance in that town he was escorted politely to be sure, for the committee always acted with uniform courtesy, but likewise with uniform firmness, to the next train and told to get out of town in order to avoid an embarrassing situation. Just what sort of an embarrassing situation we are not sure, but the committee was given out that it might be anything from a hanging to a pink tea party with the socialist orator as the guest of honor at the function. Therefore Crystal Falls had been free from socialist orators for some time. Two weeks ago one of the speakers at the socialist convention at Crystal Falls had he didn't stay long. He just hesitated momentarily, as it were. The bouncing committee waited on him and he left by the next train. Then former Mayor Roberts of Ishpeming, who is a jeweler, a politician and a socialist, jumped on the socialist train at Crystal Falls. He didn't stay long. He just hesitated momentarily, as it were. The bouncing committee waited on him and he left by the next train. Then former Mayor Roberts of Ishpeming, who is a jeweler, a politician and a socialist, jumped on the socialist train at Crystal Falls. He didn't stay long. He just hesitated momentarily, as it were. The bouncing committee waited on him and he left by the next train.

NOT A KIND LADY.

Wearry Willie left the dusty country roadside and entered the hospital open gate at the end of a neat walk bordered with bright-blue and old-fashioned flowers. A tidy and motherly-looking little woman, who looked as if she might be a "kind lady," sat on a vine-clad little porch humming a sheet. She seemed to be the only person on the premises, and Wearry Willie fancied that she looked a bit scared. It was because of this that there was a certain note of authority in his voice when he said:

"I want to get something to eat, kind lady, and I—"

"The 'kind lady' gave her head a little toss and interrupted him by saying, 'You do, eh? Well, I can tell you, my wandering friend, that you just have run a bit of the wrong 'kind lady' when you struck me, an' if you think that I am a bit scared of you or of any of your trampin' tribe, you are most beautifully left, an' so I let you know, for the tramp never yet drew the breath of life that I was scared of or who could bulldoze me into leaving this house, an' I can tell you straight that I ain't no use for you nor for none of your clan, an' if I had my way there would be a workhouse in every county in the land where such gents as you would put in twelve good hours of work every day or be in the stocks that long, an' I guess when you would keep off the country roads an' stop scarin' women that ain't got nervous enough to tell you what they think of you, which I have, an' so I let you know, an' if you don't light out 'o' here right forthwith an' faster in less than one minute I will go into the house an' come out again with a hosswhip that I have used on more than one of your stripe, an' set him off howlin' like the whipped cur that he was, an' that you will be if you so much as open your mouth even to say 'kind lady' to me, which I guess you don't want to do, 'cause I guess that it comes to wasting sweetness on the desert air, as a body might say, by bein' kind to any such lowdown, witless specimens of 'em of the earth as you represent, an' if you don't vamoose this mornin' in three shakes of a sheep's tail I'll unchain a 'B' log I've got in the back yard that likes nothin' better than to make sausage meat of such—goin' to you, my friend!'—Puck.

"What shall we have for breakfast?" "Why Cudahy's Peacock ham and eggs of course; they are always acceptable especially at this season of the year." (7-29-c)

THE DAILY MINING JOURNAL.

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., April 2nd, 1909. An adjourned regular session of the common council was called to order at 8 o'clock p. m. by the mayor, the Hon. John Robertson.

The record of the session of March 20th, approved. The committee on parks, cemeteries, streets and sewers recommended the adoption of the following: Resolved, That the common council recommends to the Light and Power Commission that an arc electric light be placed near the west end of Park street. In motion of Alderman Williams, supported by Alderman Asire, said resolution was adopted.

On motion of Alderman Williams, supported by Alderman Siegel, the following resolution was unanimously adopted: Resolved, That Special Assessment Roll No. 101, for the estimated cost of grading from main street to Division street from the north line of Blenheim avenue to the south line of Newberry street, be and the same is and shall be vacated and set aside upon payment being made to the city treasurer of the amount of money paid by the city upon the said assessment.

On motion of Alderman Williams, the Park, Cemetery and Street Commission was directed to repair the concrete sidewalk from Broadway street to Division street from the north line of Blenheim avenue to the south line of Newberry street, be and the same is and shall be vacated and set aside upon payment being made to the city treasurer of the amount of money paid by the city upon the said assessment.

On motion of Alderman Downey, the following resolution was unanimously adopted: Resolved, That the common council of the city of Marquette hereby protests against the repeal of the duty on iron ore.

On motion of Alderman Williams, the following resolution was adopted: Resolved, That the common council of the city of Marquette hereby protests against the repeal of the duty on iron ore.

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, or manhood or womanhood handicapped by physical suffering, and grown to, and perhaps later some disease of the bones or joints developed. S. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and all medical advice free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

A LAUGH OR TWO.

His Pass. Speaking about handwriting which is hard to read, an old time conductor on the Louisville & Nashville railroad told a story about James Guthrie. Mr. Guthrie, besides being secretary of the treasury under James Buchanan, was also president of the Louisville & Nashville railroad and a resident of Louisville. In the early days of railroading there were no printed passes as at present, and Mr. Guthrie would frequently write a pass for a friend on a scrap of paper. The conductor on the road would honor these, of course, but one farmer carried a piece of paper purporting to be a pass. The conductor honored it, but later grew suspicious, and one day took it up. He carried it to the office of President Guthrie and said:

"A farmer has been riding on this pass for about a year; do you want him to continue to use it?" President Guthrie put on his glasses, looked the paper over carefully, and said:

"Why, this is not a pass. It is a receipt I gave a fellow for a load of wood about a year ago."—Louisville Courier-Journal.

The Strange New Creed. Professor Percival Lowell, the famous astronomer and author, said the other day of the public ignorance where astronomical matters are concerned:

"I don't discuss any Martian theories with the average man. He is as ignorant of astronomical terms as one of our flagstaff policemen is of all long Latin words."

Courting Destruction. Caller (on crutches and with a bandage over one eye)—I have come, sir, to make application for the amount due on my accident insurance policy. I fell down a long flight of stairs the other evening and sustained damages that will disable me for a month to come.

Manager of Company—Young man, I have taken the trouble to investigate your case, and I find you are not entitled to anything. It could not be called an accident. You certainly knew the young lady's father was at home.—Stray Stories.

A Slight Misunderstanding. A lady from South America, possessed of a decidedly quick temper, came to New York with a very incomplete knowledge of the English language. At her hotel she rang for the chambermaid. But a waiter came instead. Having ascertained that the name of the chambermaid was Susan, the lady marshaled her meager knowledge of English in a desperate effort to make the waiter understand that he should call the chambermaid. What she said to him, however, was:

"Call me Susan!" The waiter leaned against the wall much alarmed. "Call me Susan!" shouted the South American. The waiter became appalled. "Call me Susan!" roared the lady, her eyes flashing furiously. "Susan, then—if you will have it!" exclaimed the poor waiter. Then he fled precipitately.—New York Times.

Nearly a Hero. The passengers on the Pullman car took in the situation at a glance and did exactly what the train robber told them to.

Do Your Own Shoveling. General J. W. F. Hughes of the Kansas National guard takes six spoons of granulated white sugar to every cup of coffee. The only reason he assigns for this extraordinary stunt is that he likes "his coffee sweet."

Long-Delayed Proposal. How It Waited Many Years in an Old Desk. One of the longest delayed proposals on record is related in the Baltimore American of a shy young subaltern who was ordered away to the wars. Not daring to speak, he put a note in a box addressed to the girl he loved, with a little note inside begging her, if she returned his love, to wear one of the flowers in her breast that night at the ball. She appeared without it and he went away broken-hearted.

Only a Little Cold in the Head may be the beginning of an obstinate case of Nasal Catarrh. Drive out the invader with Ely's Cream Balm applied straight to the inflamed stuffed up passages. Price 50c. If you prefer to use an atomizer, ask for Liquid Cream Balm. It has all the good qualities of the solid form of this remedy and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretions. Price 75c, with spraying tube. All druggists, or mailed by Ely Drug, 56 Warren street, New York.

How many spoonfuls in your coffee, please?" she asked sweetly. "Six or seven," answered the general, quickly. She slammed down the sugar bowl and snorted. "Shovel the d— stuff in yourself" and switched out of the dining room.—Kansas City Journal.

Classified Want Directory

HELP WANTED. WANTED—Girl for housework. Call at 1025 North Front street. WANTED—Two girls at the Queen City Hotel, corner Washington and Fourth street. 4-5-11 WANTED—Railway mail clerks Salary \$800 to \$1,400. No "lay off." MARQUETTE, MICH.

Copper Country

SALOONS AND MUNICIPALITIES.

Ex-Governor Jos. W. Folk of Missouri Gives His View.

Joseph W. Folk of St. Louis, former governor of his state, was in the copper country Saturday, lecturing that night at the Kerode theater on "The Era of Conscience."

Mr. Folk touched upon the new important and timely question of governing cities by the commission plan.

Under this scheme there are elected a mayor and four councilmen by vote of the people.

The chief defects in municipal governments at present is that they are governed by the few and not by the people.

HOUGHTON COUNTY BOARD.

Anti-Tuberculosis Campaign Has Reached That Body.

The regular April meeting of the Houghton county board of supervisors will be held tomorrow morning.

A meeting of the committees of the three bodies was held at Calumet Saturday morning.

Supervisor W. J. Uren presided at the meeting and Dr. Fischer was secretary.

The need of the institution is quite apparent when it is considered that in Houghton county alone, seventy-five deaths were due last year to tuberculosis.

It was the sense of the meeting that should a sanitarium be established, it should be for the benefit of Houghton county residents only.

The need of the institution is quite apparent when it is considered that in Houghton county alone, seventy-five deaths were due last year to tuberculosis.

NEW WHOLESALE GROCERY.

Contracts Let for Big Business Building to Be Erected in Houghton

The Peninsula Wholesale Grocery company of Houghton let on Saturday in the office of the architects at Chicago the contract for the construction of its new building.

The building will occupy a large site adjoining the Amphidrome. It will be a three-story structure, 108 feet on the Lake Street front and 115 feet deep.

The building will be built right up to the building so that freight may be loaded or unloaded directly to or from the cars.

Goods delivered by wagons will be loaded from the Isle Royale street front. Overhanging forty-five feet from the front will be a glass awning, fifteen feet wide, to protect incoming and outgoing goods.

The Peninsula Wholesale Grocery has been in business for seven years. It has occupied its present quarters during that time, taking them over from Graham Pope, who conducted there a general merchandise business.

J. R. DEE GOING TO EUROPE.

Houghton Capitalist Arrives Home from East for Short Visit.

James R. Dee of Houghton returned from the East Saturday to make preparatory arrangements for a European tour which he will leave April 20.

"I am not a pessimist as a general thing," said Mr. Dee, "and I do not expect to see any more of the market exactly a bull on this market. I believe that stocks are selling as high now as the condition of the metal market warrants."

With copper selling under thirteen cents, mining stocks should not go higher, and especially because the mines are producing to the full capacity and keeping up the immense surplus of the metal.

Big mining and market men with whom I have talked say the surplus should not be alarming, but it is none the less holding its own and it would require a decided change in business conditions to place the market on the other side of the ledger.

The steel companies, whose business is an indication of general conditions, are working to only about 65 per cent of their capacity."

COUNTY ROAD SYSTEM.

Ontonagon County Adopts It—Houghton County Will Not.

The county road system was carried in Ontonagon county by an overwhelming majority last Monday, the following being the returns by townships:

Table with 2 columns: Township Name and Number of Votes. Includes Bohemia, Carp Lake, Greenland, Haight, Interior, Matchwood, McMillan, Ontonagon, Rockland, Stannard.

This adoption of the county road system is significant. Houghton county, through the board of supervisors, very recently frowned upon a scheme to put the system through in this county.

In Ontonagon township there are no improved townships as there are in Houghton, and the taxes for the system would probably be equally distributed.

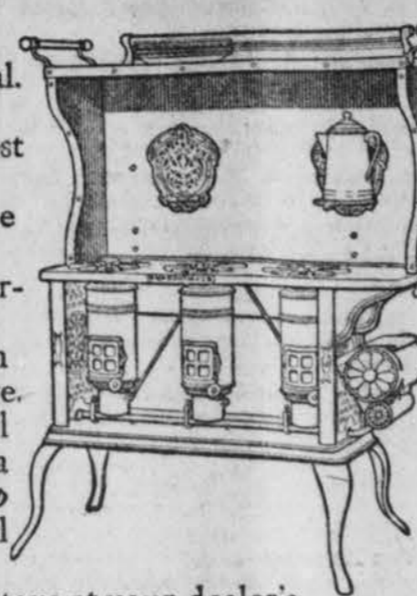

In Houghton county the larger townships have such good roads of their own build that the system would not help their roads while they would be paying taxes to pay the cost of building roads in other localities.

A man's golfing gambit not only affords no clue to his golfing ability, but it does not give the slightest indication of his social position or wealth, nor even of his taste.

HOW'S THIS? We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

USE A NEW PERFECTION Wick Blue Flame Oil Cook-Stove

Because it's clean. Because it's economical. Because it saves time. Because it gives best cooking results.

For other reasons see stove at your dealer's, or write our nearest agency. Made in three sizes. Sold with or without Cabinet Top.

The Rayo Lamp cannot be equalled for its bright and steady light, simple construction and absolute safety.

STANDARD OIL COMPANY (Incorporated)

COPPER COUNTRY EASTER. PORTAGE LAKE GOLF CLUB.

Morning Was Not Bright and Hat Parades Were a Disappointment. Directors Elected for the Season—Loving Cup to Mr. Pope.

Easter Sunday was celebrated on a magnificent scale in the copper country yesterday. All of the churches had special services, and all of the churches were crowded during the services.

The expected parade of Easter hats did not materialize. The weather man promised rain and the ladies did not care to don their new finery.

Graham Pope, president of the club for the past four years, would not accept office again and the club tendered him a vote of thanks for his services.

The professional recently engaged will report April 15. The new clubhouse, now being erected by John J. Michaels, will be completed April 20 so that it will be ready for the use of early players.

BISHOP WILLIAMS' VISIT. Episcopal Prelate of Marquette Attends Painesdale Church.

Right Rev. G. Mott Williams, bishop of Marquette, spent yesterday in the copper country. He came Saturday and was the guest of Rev. J. E. Curzon, rector of Trinity at Houghton.

The visit of Bishop Williams to the copper country for Easter Sunday is looked upon as an especial favor by the members of his churches here.

HANCOCK HIGH SCHOOL GIRLS' BASKETBALL TEAM HAS RECORD.

Because of its season's record, the girls' basketball team of the Hancock High school claims the state championship. The record is as follows:

Table with 2 columns: Opponent and Score. Includes Hancock vs Hancock Alumni, Hancock vs Lake Linden, Hancock vs Hance High, Hancock vs Houghton High, Hancock vs Lake Linden, Hancock vs Hance High, Hancock vs Houghton, Hancock vs Lake Linden.

CRICKETERS HOLD MEETING. New County League Organized at Hancock Saturday Night.

A new organization was built on the ruins of the old copper country cricket league at a meeting in the Northwestern Hotel, Hancock, Saturday night.

ITALIAN TRAMMER KILLED. Egidio Santini, a trummer at the Quincy mine, was instantly killed Saturday morning by being struck by a descending skip.

LEGISLATORS RETURN HOME. Senator Charles Smith of Hubbell and Representative A. D. Edwards of At- lanta arrived yesterday morning from Lansing, where they have been attending the state legislature.

Senator Charles Smith of Hubbell and Representative A. D. Edwards of Atlanta arrived yesterday morning from Lansing, where they have been attending the state legislature.

Mining News

OLD DOMINION.

Production Last Year More Than 30,000,000 Pounds—Income, \$4,750,000.

The old Dominion Copper Mining & Smelting company, the New Jersey operating company whose shares, with those of the United Globe mines, are owned by the Old Dominion company, issues an annual report for 1908.

The new plant, it is stated, has cost from 1903 to Jan. 1, 1909, a total of \$2,491,317. A large amount also has been expended on extraordinary development work and auxiliary construction and charged to the current cost of copper.

The tons of ore produced from the Old Dominion mine during the past year amounted to 225,227 dry tons. While this tonnage was not as large as was produced during the previous year, the average copper contents were much higher than in previous years.

Smelting ore 7.06 5.29 4.01

Concentrating ore 2.28 2.16 1.65

Average 3.88 3.15 2.84

Within the next six or eight months, the company expects to complete the installation of a high-class economical pumping plant on the twelfth level of the shaft.

The professional recently engaged will report April 15. The new clubhouse, now being erected by John J. Michaels, will be completed April 20 so that it will be ready for the use of early players.

SEWER TUNNEL CONTRACT. The owners of the Park addition at Houghton have let to H. T. Lewis a contract, valued at between \$5,000 and \$6,000, for the construction of a tunnel sewer extending through to the lake.

The owners of the addition could not secure right-of-way for sewer excavation through all the intervening property, hence it was decided to build a tunnel. The tunnel will comprise 600 feet of an 800-foot sewer.

Superintendent W. D. Egges, present superintendent of the Lake Linden schools, has accepted a position with the Atlas School Supply company of Chicago. He will enter upon his new duties at the close of the school year. His territory will cover the upper peninsula.

WORTH MOUNTAINS OF GOLD. During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."

—Mrs. CHAS. BARCLAY, R.E.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

DAVIS-DAILY. President F. Augustus Heine of the Davis-Daily Copper company notifies

A Bank Account Is the Magnet

THE CITIZENS NATIONAL BANK HOUGHTON MICHIGAN CAPITAL \$50,000.00

ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS.

stockholders that the last installment of the original assessment of \$2 on the stock is payable April 15. He says: "If this payment is not made promptly on that day there is some question as to whether or not the underwriters will be entitled to pay such delinquent assessments of fifty cents, and get full paid receipts. This will be embarrassing to the delinquent stockholders and the company, and, I, therefore, urge you most seriously to see that this matter is promptly attended to, in both your own interest and that of the corporation."

accepted the estimates sent in by the bureau chiefs without murmur, "if any questioning. The committee on appropriations in congress did what they could in limited time to verify the estimates, but under the system they could not do much, and so every bureau and every department got about what it wanted. President Taft's reform move aims to get at the bottom of the trouble. It is designed to stop the padding of estimates. Every cabinet officer is under instruction to locate the extravagance in his department and to correct them in the estimates to be submitted next fall. No guesswork is to be accepted. The work of inquiry is already under way. Several of the cabinet officers have designated employees to investigate and report as to where expenses can be reduced. The navy department, recognized as one of the "open specks" of the government, is to be scoured with the greatest care. Secretary Meyer will soon have a board at work trying to ascertain whether the department is getting the lowest figures possible on the enormous contracts it lets annually. After a careful inquiry has been made in each department, the estimates have been compiled, there will be still another check, for the president has planned that after all the estimates have been received by the secretary of the treasury, where the law says they shall go, they shall be reviewed by a committee of cabinet officers—a sort of budget committee. Thus, when the estimates reach congress they will represent months of study. If the system works well they will represent the necessities of the government; the luxuries which have been indulged in so lavishly in the last few years will be eliminated. Persons who know something of the government's business say President Taft's program ought to result in next year's estimates being at least \$100,000,000 under the estimates on which the appropriations for the next fiscal year are based.

But still other influences which will make for retrenchment will be at work. The leaders in congress, realizing at last the necessity of reducing the expenses of the federal machine, intend to do so. A careful investigation as to where the money goes" is made. The senate has taken the lead in this matter. The recently created committee on public expenditures is already at work. It is made up of twenty senators, nearly one-fourth the membership of the body. Working under its direction is former Senator Hemenway of Indiana, who from his long experience as chairman of the committee on appropriations of the house and then as a member of the senate committee, understands the government's affairs and has an intimate knowledge of federal finance. This committee intends to work with the members of the cabinet. For instance, if the former Indiana senator in his investigations discovers where the retrenchment policy can be effectively enforced, he will advise the cabinet. It is known to the members of the cabinet interested. The permanent annual appropriations are to be overhauled. They amount now to \$154,194,295. By permanent annual appropriations is meant fixed charges which must annually be provided for. Year by year these fixed charges have increased, some persons believe, without reason. At any rate, they are to be carefully examined to make sure that there are no open "spigots."

CUTTING DOWN EXPENSES. Orders Are Issued to All the Federal Departments.

Washington, April 9.—"Get out your paring knife and go to work," is the order that has been issued to every department of the federal government. It comes from the chief, the president, and whether the subordinate may like it or not—and most of them do not—they must obey. The president and the members of his cabinet realize that the real business at hand has to do with retrenchment in government expenditures.

The order to cut down expenses is imperative. If the president can have his way many millions of dollars will be saved during the fiscal year which begins July 1. The appropriations for the next fiscal year are made—\$1,098,000,000—but the administration has an impression that it may not be necessary to spend all the money appropriated. At any rate, the departments must make an effort to save wherever possible. So order number one is to be prepared to turn back into the treasury some of the money appropriated for the next fiscal year.

Order number two is even more important. It is the basis for a new policy—a policy of asking congress for just as little money as possible instead of demanding all that is possibly be used and more. Soon after the beginning of the new fiscal year each department begins work on its estimates for the next fiscal year. These estimates are sent to the secretary of the treasury, who in turn sends them to congress on the first Monday in February. Each bureau chief makes up the estimates for his bureau, and in the recent era of magnificent plunging the heads of the various departments have been especially liberal.

The United Globe mines declared three dividends aggregating \$79,500 in 1905, 1906 and 1907, but of late has been expending more than its revenue in exploration and developments. The income account of the United Globe mines for the year shows total expenses of \$225,067, against receipts from ore sales of \$181,098, leaving a deficit for the year of \$43,969.

The balance sheet of the Old Dominion Copper Mining & Smelting company inventories the company's plant and properties at \$5,511,138, while cash assets are \$1,361,608. The company's current liabilities amount to \$3,151,511, with profit and loss surplus standing at \$2,372,538.

Arizona Copper Production. The production of copper in Arizona in March amounted approximately to 27,970,000 pounds, distributed by mines as follows:

Table with 2 columns: Mine Name and Production in Pounds. Includes Copper Queen, Calumet and Hecla, Superior & Pittsburg, United Verde, Old Dominion, Detroit, Arizona Copper, Shannon Copper, Imperial Copper, Miscellaneous.

The production compares with an output of 26,654,000 pounds in February, 27,476,000 pounds in January and 22,742,000 pounds in March a year ago. The figures do not indicate much of a curtailment in Arizona production. The Copper Queen and Old Dominion companies, however, copper properties are now doing, and Arizona copper production would undoubtedly be upon a basis of above 30,000,000 pounds per month if copper were selling two cents a pound above its present level.

Some large low-grade copper properties are now in process of development in Arizona, such as the Miami and Inspiration properties at Globe, and the Ray Consolidated at Kelvin, but it will be two years before these companies are substantial producers. It is apparent, however, that a production of 30,000,000 pounds of copper per month from Arizona is in prospect within a comparatively few years.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble. Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with diseased kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable by kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonials received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

"Let us have some Cudahy Pesseok bacon and calves liver for supper mamma," say young and old. (7-25-09)

### Spring Violets

are trying to peep through the snow, and it is time to get ready for your spring gardening by laying in a supply of garden tools. We carry everything in this line in the most improved patterns and of superior manufacture, that is guaranteed for high grade material and workmanship. Our farm and garden tools, mowers and hose, are the best in the city, as well as our prices.

**M. R. MANHARD & SON, LTD.**

## NYAL'S ROACH POWDER

Cockroaches, water bugs and other unwelcome frequenters of the kitchen, bath room or dining room will disappear if you sprinkle Nyal's Roach Powder where they can get it.

This powder is non-poisonous, but it's death to roaches, etc, and will rid your premises of them, for those that do not die will leave. Price 25.

Nyal's Death to Flies (5c) and Nyal's Death to Rats (15c) are also the best things in their ways. There is positively no reason why you should be bothered with household pests when you can get these famous Nyal preparations; but, remember, this is the only store in town that sells them.

### City Brevities

W. H. Richmond went to Chicago last night.

J. B. Neault left for Chicago last evening on a business mission.

George and John Hager returned from West Baden Saturday afternoon.

Mr. and Mrs. W. G. Miller, of St. Ignace, visited in the city yesterday.

Dr. and Mrs. H. M. Cunningham have gone to Chicago to spend the week.

Mr. and Mrs. A. J. Neault of Chicago were here over Sunday, the guests of relatives.

Miss Viola LeVeque spent Easter with friends in Menominee, and will remain two weeks.

Mrs. F. E. Wentworth has been called to Calumet by the death of her brother's infant son.

A daughter was born to Mr. and Mrs. James Gray, of West Bluff street, Friday evening.

Miss Clara Siegel, who is teaching at Houghton, spent Easter with her parents in this city.

Mrs. H. R. Fox and daughter returned to the city yesterday after an extended visit in Chicago.

Henry Russell left last evening for an extended business trip to Salt Lake City and other points.

Will Hamill has been here the past two days, selling jewelry and visiting his parents. Being a baseball fan of the most fervid type and an enthusiastic supporter of the Tigers, he will leave today for Detroit to be on hand for the opening game of the season. This game is scheduled for Wednesday. Mr. Hamill declares the Tigers sure winners of the bumping this year again.

Open Water Visible—The high southerly winds of yesterday broke up the ice field outside the breakwater and last night open water was visible from the breakwater as far into the lake as the eye could reach. The ice in the harbor is black and very soft and likely to drift into the lake any moment.

Bird Study Class—The class on bird study, formed this term at the Normal school, has arranged for tri-weekly periods at hours to interfere little as possible with other work: Monday, 7 to 9:30 a. m.; Thursday, 4:10 to 6 p. m. and Friday, 1:30 to 3:20 p. m. The object of these will be a round table study, pecking at the others field work. The class meets this morning at 8 o'clock, corner of Spruce and Ridge streets.

Odd Fellows at Munising—About fifty Odd Fellows from Marquette and twice as many more from Negaunee and Ishpeming went to Munising Saturday night on a special train over the L. S. & I. and Marquette & Soudan rail ways. Seven candidates were initiated into the Munising lodge by the Ishpeming degree team, after which refreshments were served and a general good time was enjoyed. Our boys' band went with the Marquette party and furnished music for the festivities.

"Bibi" This Week—The musical comedy "Bibi" will be given at the opera house Friday and Saturday nights by a local cast of seventy people, under the direction of Mrs. W. J. Pettie and Miss Jessie Palmer. The entertainment is being given by the Young Woman's guild for the benefit of the Guild Hall association. Those who have witnessed the rehearsals for "Bibi" declare that it will make as big a hit as did the "Kermit" production, given under the direction of Mrs. Pettie and Miss Palmer last year, which should be enough to insure capacity houses.

Report for February—Owing to a decrease in the amount of electricity used for business lighting and power, the receipts of the light and power commission for February were nearly \$400 less than for the same month a year ago. The receipts for the month were \$4,675.17. The expenses for the month were \$1,788.45 as compared with \$1,297.99 a year ago. The net income for the month was \$2,886.72 as compared with \$3,377.18 a year ago. The commission now has on hand in cash \$19,325.91. There were at the end of the month 1,392 installations, an increase of 174 during the year.

A. O. H. Ball Tonight—The first dancing party after Lent will be given at Fraternity Hall tonight by division No. 4, A. O. H., and the ball promises to be largely attended. The committees have been working hard and now have everything in readiness for the occasion. The hall has been elaborately decorated with green and red, white and blue and with green and red, white and blue flags. A varied program of dances has been arranged and James Gray has been engaged as prompter. Trombly's complete orchestra will furnish the music. Supper will be served at the Colonial Inn at twenty-five cents per plate. The success of the A. O. H. balls in the past is a guarantee that there is a delightful time in store for all who attend tonight.

Trout Season Opens Thursday—Since efforts have been made in the legislature to change the dates of the trout fishing season, there has been a good deal of confusion all over the state as to when the open season really begins this year. In reply to numerous inquiries, Game Warden Pierce has recently announced that, regardless of anything that may come up at this session of the legislature, the open season on brook trout this year will begin next Thursday, April 15. As the streams are still frozen solid and there is some two feet of snow in the woods, that declaration will not be of special interest to most of the anglers of the upper peninsula, although there are a few of the more enthusiastic fishermen who are planning to try their luck through the ice in the inland lakes or off the rocks and icebergs along the lake shore next Thursday. In fact, the annual crop of fish stories has already begun to mature, and there are reports of four and five pound "rock" trout having been caught off the ice and rock along the shore of Lake Superior within the past week.

## JACK PINE LANDS CAN BE FARMED PROFITABLY

DEPARTMENT OF AGRICULTURE EXPLAINS HOW THEY SHOULD BE HANDLED FOR THE BEST RESULTS.

The Bureau of Plant Industry of the United States Department of Agriculture has recently issued a farmers' bulletin on how to grow clover for forage and seed on the sandy jackpine lands of Michigan, Wisconsin and Minnesota. The bulletin tells how these lands ought to be handled for best results. Jackpine lands are different from other lands and require special care to make them productive. The author of the bulletin searched for farmers in northern Michigan, parts of Wisconsin and Minnesota, who have made unusual success on these lands, and it is the methods that these practical farmers have tried and found successful that are described.

Jackpine lands can be farmed profitably if they are handled right, when not handled right farming on them is a failure. Particular attention is given in the bulletin to farming clover and the handling of this crop for seed. The vital fact in farming these lands is that clover will grow on them if the crop is handled right. The seed yields of clover, particularly mammoth clover, on these lands is surprisingly good, some years returning twenty to forty dollars an acre.

The bulletin suggests the best practices for securing a crop of seed every year and tells how to secure a stand of clover when the usual methods fail. Matters emphasized are: Plow all the brakes, ferns and wild grasses under without burning off; do all new break plowing in July and early August; plow shallow, three to four inches deep; use the roller to firm the soil and get a better stand of clover and the spike-tooth harrow to leave the top soil loose and rough to retain soil moisture.

The bulletin is entitled, "Clover Farming on the Sandy Jackpine Lands of the North." It can be had free upon request to the secretary of agriculture, Washington, D. C., or to U. S. representatives and senators. Farmers on light sandy lands as well as those growing clover for seed in northern Michigan, Wisconsin and Minnesota will find many useful suggestions in the bulletin.

GOVERNOR'S PROCLAMATION.  
April 30 Officially Set Apart as Arbor Day in Michigan.

The following proclamation setting apart April 30 as Arbor Day in this state has been issued by Governor Warner: "To the People of the State of Michigan:

"A third of a century ago Governor John J. Bagley by proclamation called the attention of the people of Michigan to the planting of trees as a duty devolving upon good citizens and urging the setting aside of one day in each springtime for that purpose. The custom has been followed by each executive since that time, and in accordance with I hereby designate Friday, April 30th, 1909, as Arbor day.

"Every year emphasizes the need of such a day and its observance should be statewide. The day should leave its influence and impress upon the minds of those upon whom the burdens of the future will devolve, and, to this end, the exercises in the schools should be of a nature that will bring out and develop a love for the forest, field and flower.

"It should be a day when attention is called to what a generous Providence has done for our state. A soil and climate as beautiful and as productive as ours are God's blessings.

"The splendid endowment of riches our state was given in its forests no longer exists in its entirety, but it was not to be expected that its resources of timber would not be drawn upon for the needs of our people. We can and should, however, by our efforts now, intelligent and energetic, provide resources for those who come after us that will prove that our mission here was not alone to use and destroy.

"Plant a tree" should be the watchword on April 30, and the farm roadside and school grounds should be an evidence from that date on that it was not simply a precept.

"The commission on country life appointed by President Roosevelt suggested that the people in the rural communities come together in their schoolhouses on Arbor Day and form an organization with the school as the center meeting place, for the purpose of developing and making better the general life of the community. It is to be hoped that our state will be among the pioneers in this great movement, and I commend to the consideration of the people the suggestions and the program which has been prepared by the state superintendent of public instruction.

"FRED M. WARNER,"  
Governor.

REAPING BENEFIT.  
From the Experience of Marquette People.

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Marquette residents on the following subject will interest and benefit thousands of our readers. Read this statement. No better proof can be had.

Mrs. Carter, 230 W. Prospect St., Marquette, Mich., says: "About two years ago I began to suffer from severe pains in the small of my back and at times was so lame that I could hardly get about. I tried a number of remedies but received no permanent relief until I began using Doan's Kidney Pills, procured at the Stafford Drug Co. These pills had no serious return since. I have no hesitation in giving my name to be used as an endorser of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Drink Vandenboom's buttermilk—it aids digestion and prevents disease. (3-15-1m)

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work. 3-13-1f KELLY HARDWARE CO.

ESKANK: Good housewives prefer Gold Medal Flour. SALOME.

## Upper Peninsula

Wants \$10,000 Damages—

Editor F. L. Baldwin of the Escanaba Journal is still after members of the Liquor Dealers' association of that city. It is reported that he will try to secure damages in the sum of \$10,000, alleging that his publishing business had been injured because of a boycott against him. The suit is looked for trial in circuit court this month.

Gladstone's Election—

The following are the new officers of Gladstone as a result of the recent municipal election: Mayor, William Miller; city clerk, Arthur L. Williamson; city treasurer, James B. McDonald. The aldermen are Albert Smith, A. L. Peterson, Isaac Jackson and William E. Gauslin. The Citizens' party carried nearly everything before it and practically snowed under the Republican nominees.

Priest Forced to Retire—

Because of failing health, the Rev. Father LaForest, assistant pastor at St. Anne's church at Escanaba, has been forced to retire from active work in the priesthood temporarily and return to his home at Calumet. The announcement of Father LaForest's ill health and his decision to leave the field was received with deep regret by all of the members of St. Anne's parish. Father LaForest has showed himself to be an enthusiastic worker and has made many friends.

New Sawmill Will Be Fireproof—

The Prescott company, of Menominee, has been awarded the contract for the construction of a modern mill and machinery for the Northwestern Copraage and Lumber company at Gladstone. The former plant was destroyed by fire some months ago. The mill will be built of concrete and steel, not a strip of timber to be used in the construction. It will be equipped with a modern, double hand saw and re-saw having a capacity of from 100,000 to 125,000 feet of lumber.

Playing on Cars, Is Killed—

Playing on railroad cars, Edward Robinson, thirteen-year-old son of George S. Robinson, of Pembine, suffered injuries which proved fatal. He was running on top of a boxcar when some cars of logs, which were being set on the siding, struck the boxcar and the car threw the boy to the ground. He fell on the track and the wheels of a car passed over his left leg and left arm, severing them from the body. The engine and caboose of the log train conveyed the boy to Iron Mountain and he was taken to St. George's hospital where he died in less than an hour. Mr. Robinson is a lumberman and has had many business dealings with the Iron Mountain mining companies.

Delta County's Vote—

The total number of Republican votes cast at last week's election in Delta county was 2,825. This is a plurality of 2,177 over the number cast for the Democratic nominees and a majority of 1,750 over those cast for Democratic and all other tickets. Complete returns show that the total Democratic vote was 648 and in addition there were 137 Prohibition party votes, 116 Socialist and 54 Socialist Labor. The heaviest Democratic vote cast in any precinct of the county was in the Fifth ward of Escanaba, where 127 members of that party reside. The Fifth ward also has the honor of casting the heaviest Socialist vote—eighteen. Incidentally the Fifth ward cast the heaviest Republican vote of 248.

Big Pumps for Filtering Plant—

Two large steam pumps for use at the Escanaba Water company's new filtering plant have been delivered to the site. Each weighs nearly five tons and each has a capacity for pumping 4,000,000 gallons of water each twenty-four hours. They will be used in pumping the raw water from the bay into the settling basin, from which place the water will pass through the filters. It will not be necessary to use either pump at full capacity, as the total amount required daily for use in the filter is about 6,000,000 gallons. The new machinery will be placed in position at once and will be ready for use long before the construction of the filtering plant is completed.

Captured Deer Becomes Tame—

Frank Razor of North Menominee, who captured a live deer inside of the city limits two weeks ago, states that the animal is now quite tame and that he is able to approach it and pet it at any time. He says the deer was almost starved when he caught it and that it ate ravenously when he gave it food. He is of the opinion that the animal came to the city limits in search of fodder and that it was so weak from its long fast it was unable to escape him when he pursued it. He has a small park fitted up in the rear of his property and states that he will keep the animal as long as the game wardens will give him permission to do so. The deer which was captured some time ago by Louis Setunsky of Inagston township and which was kept at Mr. Setunsky's home died about a week ago, after an examination of the animal by veterinarians failed to show what caused the death. The deer was a buck several years old and was a fine specimen.

Saloonist Found Not Guilty—

It was either a case of gross disregard for veracity or else either side was in error in the trial of John Ryan, a Randville saloon keeper, who was tried in circuit court at Iron Mountain for a violation of the liquor law alleged to have occurred on Sunday. The jury returned a verdict of not guilty. Ryan produced witnesses who testified that he was in some other place than at the saloon on the Sunday in question, while the proprietor himself swore that when the saloon was closed on Saturday night he took the keys and sent the bartender to a camp out from Randville to remain until Monday morning. He said he did this to make it positively sure that the saloon would not be open, giving as his reason for this act that he had been "pinched" a few times for keeping open and he did not propose to be caught again. Witnesses swore that the bartender went to the camp in question the Saturday night and remained until Monday. Ryan was arrested at the instigation of Rev. C. H. Rutledge, of Ishpeming, head of the Anti-Saloon league in the upper peninsula. Mr. Rutledge himself had not been in Ryan's saloon but he had commissioned two sleuths to perform the work. The sleuths took the stand and swore that they had visited the Ryan saloon on the Sunday as named in the complaint and that the place was open and transacting business at the time, contrary to law.

### VIEWS OF HENRY CLEWS.

#### New York Banker Discusses the Financial Situation and Stock Market Outlook.

New York, April 11.—Summing up the financial situation and the stock market outlook, Henry Clews, banker, says:

During the intervention of the Easter holidays the market has shown a quieter and somewhat irregular tone. After a rise of 4 or 5 points more or less realization of profits was inevitable in the absence of any fresh stimulus to an advance. Easy money, however, is still the dominating factor in the stock market. Owing to the general inactivity of business money is very redundant, not only in New York, but at all financial centers at home and abroad. The supply of commercial paper is limited, and borrowers can now readily find better terms in London than in New York. At home the rate of money is greatly aggravated by the mass of paper injected into our currency. On April 1 the amount of circulation in the United States was \$3,086,000,000, an increase, compared with last year, amounting to more than \$10,000,000,000, of which \$8,000,000,000 was in bank notes; and this in spite of the provision allowing the withdrawal of \$9,000,000,000 annually. Meanwhile, the treasury lost \$21,000,000 of gold during the same period. Such an abnormal amount of paper currency at a time of business depression when money is not wanted is working out its inevitable results.

There is no use disguising the fact that we are drifting into a period of inflation, mainly due to the fact that our rigid bond-secured currency system fails to adapt itself to the fluctuating requirements of business. Were our currency based upon scientific principles it would now be contracting, instead of expanding, and interest rates would be upon a more natural basis. Very shortly we shall have another bond issue for the Panama Canal, and this may be depended upon to still further increase our currency supply. With cash money going begging at 1 1/2 per cent, and at the same time superabundant dividend-paying stocks by contrast naturally are made to appear cheap. This state of affairs may last for some time to come, yet that should not blind the eyes of the prudent to the fact that an advance in money is inevitable, and unless checked by the government, will continue indefinitely, and must unless checked provoke unpleasant consequences in the indefinite future. Another feature in connection with the monetary situation is that a redundancy of paper money always tends to drive out gold. We have already returned to the gold standard in the past, and unless we are favored with much larger crops next autumn, and plenty for export, we may have to face another heavy efflux of gold to pay for increasing importations, unless we can settle our international trade balance by manufacturing products or securities.

Our crop outlook is becoming of increasing importance. The condition of winter wheat is anything but satisfactory, the acreage being considerably smaller than a year ago and condition lower. While there has been some improvement in the winter wheat, the prospects are that the winter crop will be the lowest since 1904, some estimates placing it as low as 425,000,000 bushels. The effect of this is already seen in the abnormally high prices for wheat; for the world's crop of wheat is unquestionably short and has not kept pace with the growth in population. It is possible that a much greater area will be planted than usual in spring wheat, but as winter wheat usually forms about two-thirds of the whole crop the significance of the present situation is easily understood. Moreover, high prices for wheat are not generally considered a hindrance to bull argument on stocks. Indications point to a considerable increase in the acreage of corn, and as this has proved a very profitable crop at recent prices there is more reason for hopefulness regarding this staple than in wheat. It is altogether too early, however, to form any reliable opinions regarding the crops, although much depends upon a satisfactory harvest. Crop failures next fall would be particularly unfortunate, coming at a time of business depression when the cost of food is already unreasonably high. Our farmers should be persuaded to produce as large crops as possible during the coming year. In doing this they will not only benefit themselves, but it is in their power to do more than any other class in the country toward lifting the nation out of existing depression.

General trade conditions, while somewhat mixed, present a decided element of hopefulness. Business is strictly

moderate in volume, yet the tendency is certainly towards improvement, especially where orders have been stimulated by concessions in prices. More activity is shown in iron and steel as the result of lower prices, and the revival of building, especially of large structures, is attributable to this cause. The general condition of business is sound and confidence is rising; here is no doubt that recuperative influences are steadily at work; costs are being reduced, and only time is required to bring about more normal conditions. Of course, the tariff is still an impediment. There is no special anxiety, however, regarding final results. Little probability exists of any disturbing reductions, and now that the Payne bill with all its objectionable features has practically failed in the house the prospects are that a more favorable measure will be introduced by Senator Aldrich. If revenue is what the government needs, the best thing to do would be to revive the stamp taxes, which can be made to produce a large revenue in the easiest, most effective and least objectionable way. Evidently the tariff will be revised by its friends, and there is little reason to look for any radical or important changes. This minimizes the importance of the tariff in the stock market, which will probably feel only indirectly the relief when the issue is settled. That event may be postponed until the end of May, or even later. No one can forecast.

The immediate outlook for the market is favorable; all known drawbacks have been amply discounted, and the abundant supply of cheap money will render it easy for market manipulators to create a more active and stronger market. It must be remembered also that important new issues are pending, and that it is to the advantage of the great banking interests to have the market wear a buoyant and more active appearance. The situation, however, as already shown, has its unsatisfactory elements, and while indulging in cheerful expectations regarding the future we can only advise the taking of some profits on the vigorously pronounced rally.

### FORTS, NEW ORLEANS' CRY.

#### Louisiana City Demands Protection Against Foreign Poe.

Washington, April 11.—The people of New Orleans and vicinity are conducting a propaganda to induce the government to make New Orleans a fortified naval base. The city is situated on a narrow neck of land, and is surrounded by water on three sides. The city is a great commercial center, and its destruction would be a great loss to the country. The city is a great commercial center, and its destruction would be a great loss to the country. The city is a great commercial center, and its destruction would be a great loss to the country.

### DEEP WATERWAYS MENACE.

#### Naval Base With Big Guns Needed, It Is Argued, to Protect Mississippi Commerce.

Washington, April 11.—The people of New Orleans and vicinity are conducting a propaganda to induce the government to make New Orleans a fortified naval base. The city is situated on a narrow neck of land, and is surrounded by water on three sides. The city is a great commercial center, and its destruction would be a great loss to the country. The city is a great commercial center, and its destruction would be a great loss to the country.

### Soon a Deep Waterway.

The argument is continued: "Probably the most obvious reason why the government should establish a fortified naval base at New Orleans and provide adequate defenses against invasion by a hostile foreign navy is the inevitable and far-reaching growth of the export and import commerce of the Mississippi Valley. Huge and costly waterway improvements are now being made in order that such commerce may expand. The Panama canal will soon be completed. An inland navigable waterway connecting the Mississippi at New Orleans with the Rio Grande at Brownsville, Tex., is now under construction. Another connecting the Mississippi at New Orleans with the Mississippi Sound, Mobile, Pensacola, the Alabama canal fields and ultimately across Florida and up the Atlantic to Boston is partly open. The Chicago ship canal, the improvement of the Ohio, Missouri, Tennessee, Red and other tributaries, etc., will open up the greatest draft system of waterways on earth in the very near future. This will mean that such cities as

Chicago, St. Louis, Kansas City, Louisville, Cincinnati, Pittsburg, Memphis, etc., will enjoy in a practical way the benefits of a tide-water location, and may as well export and import business with the world through the Mississippi River.

Simultaneously with the lasting and immense development, the government should plan and provide adequate naval and land fortifications on the lower Mississippi River. The interior has no fortifications whatever, and none able to cope with a modern armored gunboat could be built hurriedly. Consequently, a single hostile gunboat once having passed the lone poorly-equipped fort below New Orleans might shell city after city up the Mississippi and its tributaries without encountering any more serious opposition than a few unprotected field guns might give.

"A fortified naval base at New Orleans would effectively bar the approach of all hostile warships and thereby adequately protect the entire valley."

### LIKENS ROCKEFELLER TO CAPTAIN KIDD.

#### Closing for the Government in the Suit Brought to Dissolve the Big Corporation, Attorney Frank Kellogg Severely Arraigns the Standard Oil.

St. Louis, Mo., April 11.—John Rockefeller of Standard Oil fame was likened to Captain Kidd of piracy fame by Frank B. Kellogg, chief of the counsel for the government in the hearing of the government's case against the Standard Oil company, which ended in the federal district court yesterday. Mr. Kellogg's argument closed the case, which had been in progress all of the past week before Judges Sanborn, Hook, Vandewater and Adams. A decision in the case is not expected before fall.

Mr. Kellogg characterized the entire line of Kellogg's "weak," declaring that the oil company attorneys "did not know what they were talking about." "They talk about John D. Rockefeller having faith and courage in his enterprises and being a good business man. So did Captain Kidd have faith and courage, and he flew the black flag of piracy and tyranny," said Mr. Kellogg during his argument.

"God pity the American people," he continued, "if they take this as an example of foresight, thrift and business courage. The Standard Oil company has operated, as we have shown, in a secret and dishonest way. It has used 100 refineries and dismante them. This is not thrift, courage and business foresight. It is one of the many acts of the Standard Oil company to stifle and kill competition, oppression and vice that has characterized the working of this monopoly."

### Biggest Case on Record.

The case has a record for bigness, the evidence being larger by half than that ever before taken in a single case. The record contained in all 11,000,000 words. Mr. Kellogg asserted that the twenty companies signing the original Standard Oil agreement were just as competitive, if anything more so, than the railroads subscribing to the agreement in the Northern Securities case. Mr. Kellogg took sharp issue with the defendant's maps showing that the price of crude and refined oil had followed the general increase and decline of prices of household commodities, even to being lower as a rule. The federal judge insisted that the price of both crude and refined oil had been higher than the proportionate increase of general supplies, offering a new set of tables prepared by Dr. A. Dana Durand of the United States bureau of corporations, in support of his contention.

After replying in detail to the tax contentions of Attorney Johnson of the defense, the federal attorney told of the fight some of the independent oil men had made to retain their properties. "They say that Mr. Rockefeller had faith," so did Captain Kidd and he flew the black flag of piracy and tyranny," said Mr. Kellogg.

The government lawyer, in speaking of the Standard's business methods, characterized by the defense as competitive, said: "It is competition, but what kind of competition?"

### May Not Report Until Fall.

At the Southern Hotel Federal Judge Sanborn was asked a question in the case which he expected to answer. He had no means of knowing that the matter had not been discussed. The judges will not sit again until May 4, when they will convene a session of the United States circuit court at St. Paul. It was stated upon an admission that the four judges would spend their vacation together at Lake Minnetonka, Minn., in August, when the opinion will be written. It is further stated upon the same authoritative source of information that Judge Hook will write the decision.

### SHACKLETON HERO OF THE HOUR.

#### Britisher's South Pole Trip the Greatest Ever Accomplished.

London, April 11.—The hero of the hour is Lieutenant Shackleton, the account of whose expedition to the south pole is on every one's lips. It is probably the greatest feat of discovery that has been successfully carried through for many years. He has discovered eight great mountain chains, and surveyed a hundred mountains. He has ascended the volcano Erebus, more than 13,000 feet high and has discovered coal mines in the Antarctic continent and disproved the theory of an area of atmospheric calm around the south pole.

### Fire Amid Snow and Ice.

The account of the hardships through which the party passed reads like a fable; the volcano, with its active crater ejecting vast volumes of sulphurous gas and steam to a height of 2,000 feet in the midst of that ice-cold region is worthy of Dante, but, above all that he tells of the wonders of that Arctic region, the billows of the sky stand prominent, "rising cascades," he calls them, "luminescence traversing the length of the heavens with remarkable speed."

The motor sled which was used to traverse the ice did useful work, covering distances aggregating over 400 miles. The ponies were often attacked with snow blindness, which rendered them unfit for work. On Dec. 8 the clouds rose, revealing ranks of unknown mountains, rising to immense heights from the snow-covered foothills to peaks which were lost in clouds.

The sufferings of the party appear to have been terrible. Dysentery, frostbites

and starvation accompanied them everywhere. The queen has taken the deepest interest in the great achievement and has telegraphed her hearty congratulations.

Lieutenant Shackleton hoisted on the south magnetic pole the flag given him by the queen before he left England.

### MR. TAFT TO DECIDE JUST WHAT IS WHISKY.

#### Bone of Contention Four Years Will Soon Be Crushed.

Noted Attorneys Told to Unbosom Themselves to the Solicitor General—Issue at Stake Is All in the Barrel—Brands Classed as Imitations Insist They Are Just as Pure as Any.

Washington, April 11.—President Taft proposes to close up within a month the "what is whisky" pole which gives him a bone of contention in the Roosevelt administration for more than four years. He let the distinguished parties to the controversy know of his decision this afternoon in a summary and truly Taftesque way. "For more than four months the attorneys, among whom are some of the distinguished lawyers of the country, had been arguing before the president on the relative merits of their contentions. Suddenly the president roused himself, glanced around in the group in his office, and said:

"Gentlemen, I am convinced the more you argue and orate that this case is one in which my finding must be a finding based entirely on fact and on nothing else. Your oratorical flights and learned disquisitions, while splendid in themselves, are but confirming me in the conviction that the whole matter is one in which I will have to make my decision, and the government will have to proceed on the showing of facts."

### Pushes Them Over to Bowers.

"You will address yourselves to Bowers, the solicitor of the United States, at the department of justice. I will make him my commissioner to receive your briefs, to hear your arguments, and to take depositions. I want all of this done within thirty days. He will submit to me this findings as to the facts with any recommendations he may want to make. I will then take up the case with these findings before me and reach my conclusions."

As a good-natured wave of his hand the president swept his private office of attorneys and returned to other business. His solution of the case is said to be entirely satisfactory to all interests. The whisky people say that this is just what they have been wanting from the first, and that they will be glad to accept the decision of justice, who have been enforcing the pure food law and come in contact with the whisky people while doing so, say that this means that the president will absolutely support their contentions.

### Speeches Go Uncurtained.

As to the president he saw before him such distinguished attorneys as former Ambassador Joseph Choate, former Secretary of the Treasury John G. Carlisle and a host of others who have not yet had an opportunity to uncurtain their speeches prepared for the ear of the chief executive. Mr. Kellogg's sharp issue with the defendant's maps showing that the price of crude and refined oil had followed the general increase and decline of prices of household commodities, even to being lower as a rule. The federal judge insisted that the price of both crude and refined oil had been higher than the proportionate increase of general supplies, offering a new set of tables prepared by Dr. A. Dana Durand of the United States bureau of corporations, in support of his contention.

### Straight in as Charred Barrel.

According to the present law the charred barrel beverage is called "straight whisky," and is now enjoys the privilege of being labeled as the only real whisky made. The other kind is known as "imitation whisky," and is tried of being called "imitation." It wants to be known as real good, fine whisky.

It is to settle this plea that the case was reopened by the present president. In its outcome depends much, for it is obviously of great importance to the drinking public to know what is pure whisky. It is only by avoiding "pure whisky" that people can avoid the larger than an ordinary tumbler. The invention of Philip Young of this city makes good as he confidently predicts it will. When seen yesterday, he gladly demonstrated his power of producing sufficient electricity to light an ordinary electric lamp with a small battery no larger than an ordinary tumbler.

### MICHIGAN INVENTION DECLARED WONDERFUL.

#### That It Will Revolutionize the Whole System of Generating Light and Power Is the Claim Made for the Electrical Discovery of Philip Young.

Grand Rapids, Mich., April 11.—Electricity generated in your own home or factory, Electricity at a nominal cost, light for the miner, light for the farmer. Power in abundance for the automobile and electric launch. This is what is in store for the world if the invention of Philip Young of this city makes good as he confidently predicts it will. When seen yesterday, he gladly demonstrated his power of producing sufficient electricity to light an ordinary electric lamp with a small battery no larger than an ordinary tumbler.

The invention is that of a generating battery composed of chemicals and minerals, the action of which, properly connected, produces electric energy of sufficient quality to light electric lamps and operate motors. A battery generating enough current to light an ordinary incandescent lamp of 16-candle power weighs less than a pound and can be placed in the base of an ordinary table lamp. Another unusual and wonderful quality of this battery is its life. One battery has already been burning for two months, night and day, lighting a 16-candle power lamp continuously and with no perceptible diminution of current. The length of time that this current can be generated is a matter of only means of gaining this knowledge. One of these small batteries produces sufficient current to operate a one-half horsepower motor for the same indefinite period as it burns a lamp. The value of this invention and its revolutionary effects on the electrical world is incomprehensible. Its use for light and power on automobiles and boats will not only eliminate the difficulties of the present gasoline engine, but make it less expensive to operate.

A company with a capital stock of \$500,000 has been formed with Mr. Young as president. In a short time the company expects to purchase the site for its factory and proceed to manufacture these batteries for light and power.

Batteries are now being completed for the purposes of exhibiting this new invention at Louisville, Ky., during the Southern Electric exposition, the middle of April, and at the Alaska-Yukon-Sealton exposition the coming summer. Mr. Young, the inventor, has worked continually on this one battery and lamp for more than three years and it was not until a few months ago that his ambition was realized by producing the electric current.

### STORK DAY.

At Haslach, in the Kinzig valley, in Germany, February 22 is a holiday and is known as "Stork day." It is a day of years. Once upon a time, the story teller who explains its origin begins, Haslach was overrun with snakes, and no one knew how to drive them out. One day a great flock of storks appeared, and they were the saviors of the place. In recognition of this deliverance from the pest, which occurred on February 22, the day has been kept sacred and is known as "Stork day." An appointed

They are payable on demand and if left three months draw interest at 3 per cent.

### TROUBLE IN THE ISLANDS.

#### A Complicated Situation Is Reported in Porto Rico.

Many Changes in Government There Are Expected—Governor Post Is slated for Retirement and Former Representative Watson Has Been Offered the Place—House of Delegates Frequently Clashes With Executive—Filipinos Also Are Restless.

Washington, April 11.—Some rather knotty problems relating to the government of the island possessions are pressing on President Taft and his cabinet. The situation in Porto Rico is complicated, if not critical. A commission composed of native Porto Ricans is here protesting that the island was better governed under Spanish rule than under American administration. This commission has called on the president and has submitted its formal complaint to the secretary of the interior. Possibly nothing will be done by the administration until after a commission which President Taft intends to appoint shall have visited the island and reported.

Just now the prevailing impression is that there will be a general shake-up in the insular government during the summer or fall. The fact that President Taft offered the governorship of the island to former Representative James E. Watson of Indiana is taken to mean that Regis H. Post, the present governor, is slated for retirement. Some of the Porto Ricans came here with the impression that Governor Post's resignation reached President Taft soon after March 4, but there has been no confirmation of that story. When Watson was offered the governorship the tender was made with the understanding that the vacancy probably would not occur for at least six months. Others of the Americans in the insular government undoubtedly will be retired if the final decision of the administration is to make a change in the governorship.

### Clashing with the Governor.

The recent session of the house of delegates of the island was marked by much clashing with the executive council. After an extra session had been called by Governor Post, final adjournment was taken without the annual budget being passed; so, as the situation stands today, no provision has been made for the expense of the insular government for the next fiscal year. President Taft has advised the commission which is here to go home and recommend that the budget be passed—that another extra session of the house of delegates be called, but the natives seem to be disposed to insist on their recommendation until they can get some assurance that the alleged wrongs of which they complain are righted.

The house of delegates started out by demanding the resignation of Judge E. Watson of the federal bench, an appointee of President Roosevelt. The Porto Rico Eagle, copies of which have been freely circulated here since the quarrel came on, says the only charge of consequence made against Rody was that he imposed a fine of \$100 for contempt on a prominent physician, and that Governor Post had the final word of the insular treasury. Rody is now here defending himself before the department of justice. The Porto Rico Eagle says the real object of the anti-administration campaign in the house of delegates was to force the governor to resign. The executive council is approving certain laws which would provide an additional office for the political party in power. Some speeches, almost revolutionary in tone, were made during the session of the house of delegates. For instance, Luis Momez Eilers, who heads the commission here declared he had yet to see a good American land in Porto Rico.

The final break between the house of delegates and the executive council came when the house of delegates insisted on the approval of a bill increasing the number of municipal judges. "Stated plainly," says the Porto Rico Eagle, "the house of delegates on account of its failure to obtain an increase of political patronage has left the island without money to continue the government during the fiscal year."

### A Local View of Post.

While criticizing the horse of delegates, the paper does not by any means endorse the administration of Governor Post. "Since his appointment Regis H. Post has been without doubt the most powerful figure in local politics," says the paper. "and only recently has his sway over both houses of the legislature been disputed. The history of his relations with the dominant political party is one of intrigue, political dickerings and unworthy concession. Not a statesman in any sense of the word, his rise to power has been distinguished by a policy so devoid of fixed principles, so prejudiced to the real progress of the island, and so ignominiously pliant to the demands of the local politicians, that nothing but his power over the members of the executive council, through his influence and personal friendship with Roosevelt, has postponed until the present day the crisis that the dominant political party is one of intrigue, political dickerings and unworthy concession. Not a statesman in any sense of the word, his rise to power has been distinguished by a policy so devoid of fixed principles, so prejudiced to the real progress of the island, and so ignominiously pliant to the demands of the local politicians, that nothing but his power over the members of the executive council, through his influence and personal friendship with Roosevelt, has postponed until the present day the crisis that the dominant political party is one of intrigue, political dickerings and unworthy concession. #### SAYS VANDEVENTER WILL BE A BONANZA

MILITARY BALL TONIGHT.

Company I, Michigan National Guard, to Give Its Second Annual Party.

When the guests of Company I, Michigan National Guard, assemble tonight at the armory in the Braastad block, they will find the assembly and dining rooms artistically decorated. Many members of the company worked Saturday night and part of yesterday decorating the rooms, and will be on hand again today. The American colors predominate and many extra electric lights have been installed.

Forty Ishpeming ladies will be patronesses and it is expected that the attendance will be unusually large. Besides the soldiers, who are to wear dress uniforms, the members of two other local organizations—the Uniform Rank of the Knights of Pythias and Degree team of the Woodmen—will appear in uniform.

Dancing will start promptly at 8:30 o'clock and an orchestra of eight pieces will furnish the music.

Famous Swedish Organization Played to Over 3,000 People in New York.

The Royal Vendes Artillery band of Sweden, which arrived in America a week ago last Saturday night, and which is to fill an engagement at the Ishpeming theater the 23rd, made a big hit in New York and other Eastern cities last week. Miss Hilda Matsson, the vocalist with the band, comes in for her share of praise. In New York city an audience of over 3,000 people greeted the band and the program was received with much enthusiasm. At Providence, R. I., an audience that completely filled the grand opera house, and at New York, the band, under the direction of Mr. John Ekblad, played with true military precision and a most sonorous and mellow body of tone. Part of the program was played as an orchestral concert, the men playing aside their brass instruments to assume those of the string family and the wood-wind. The orchestral performance, while not equal in virtuosity and effectiveness to that of the military band, was yet very good, and the accompaniments to the songs were more appropriate and pleasing than would have been the case with the brass.

"The singer, Miss Hilda Matsson, displayed a fine soprano voice and gave her selections artistically. Particularly effective were the folksongs with their quaint northern charm, which went straight to the hearts of the Swedish audience. Altogether, the concert was a most pleasant entertainment of its kind, and was received with a vast display of enthusiasm."

**BOWLERS' TRY-OUT.**

Five of the class "A" bowlers who will participate in the upper peninsula tournament at Marquette next week had a try-out Saturday evening at the Bank street alley, four of them finishing there last night. The rest of the class "A" men, also the class "B" bowlers, will finish their try-outs before the end of the week. The scores Saturday evening were:

	Tot. 6
J. Fitzpatrick	181 109 188 478 1045
Leo Schilling	103 155 185 443 913
T. Dyer	178 156 181 515 1031

J. W. McDougall	135 156 155 444 992
T. Roberts	163 164 148 475

ONE OF WISCONSIN'S MOST PROMINENT MINING EXPERTS SPEAKS FAVORABLY OF PROPERTY PROMOTED AND CONTROLLED BY LEADING ISHPEMING MEN.

The fourth edition of the year book of lead and zinc mines of Wisconsin, Illinois and Iowa, edited by J. H. Lewis, recognized as one of the authorities on the industry in Wisconsin, and published by the Iowa Farmers' Publishing company of Dubuque, Ia., contains important information concerning every property in the three states. Mr. Lewis, who is familiar with the Vandeventer, states that it is a great mine and will surely become a big winner for the company's stockholders. His reference to the property is as follows:

"The Vandeventer comprises in a higher degree the essential elements of what is destined to become a bonanza zinc producer than any other mine ever developed in the Wisconsin field. Splendid business management has secured title to two hundred acres of land, obviating the payment of the usual ten per cent royalty in itself equivalent to 25 per cent of the net profits of a mine. A thorough blocking out of ore deposits insures a long term of active mining operations. The main deposit carries three east and west sheets of blanket formation at the thickness of only thirty feet. These sheets are opened by drift a distance of 450 feet, exposing two sheets, while the third is as yet unexplored and all three have been further explored ahead of the forehead by drilling machine. There is an appreciable quantity of water to handle, greatly reducing the cost of production of an ore carrying little sulphur, less than one per cent of line, and now being brought up to the highest possible standard of excellence by the completion, March 1st, 1909, of a Galena type of calmer and magnetic double lode separator, now operating.

"A complete power and milling plant of 100 tons capacity will handle a sufficient quantity of rock to insure a gross production earning a profit of about \$175 to \$200 daily under normal market conditions. The extraordinary scope of the ore deposit, the shallow depth of the mine, the richness of the zinc ore with a heavy recovery of lead, a splendid surface equipment complete in every particular, the fee to the land vested in the corporation, excellent management and better than standard grade of production, all mean that in the Vandeventer will be found a consistent and frequent dividend producer."

The roster plant at the Vandeventer went into commission again a week ago last Friday, after being closed down for several days, on account of a shortage of coal. The roads were in such condition that it was impossible to get in an adequate supply. Superintendent Fox reports that the concentrator turns out about fifteen tons of zinc ore daily and that the roster is treating from ten to twelve tons a day. All of the bins are filled with ore. The roads are now reported to be in fairly good condition and it is expected that the movement of the finished product will start within a few days.

The price of zinc ore has stiffened somewhat during the past few weeks and the demand for the higher grade mineral is satisfactory. Ore of the 60 per cent grade sold last week at \$88 per ton, and the price of 80 per cent lead has increased from \$52 to \$53.

A meeting of mining men of the three states has been called for this week at Dubuque, Ia., to endorse resolutions in favor of the Payne bill on zinc. The American producers are, on the whole, much pleased with the tariff placed on zinc ores and under the schedule the price will run along about as usual.

**HONOR AT UNIVERSITY.**

Miss Lila Rogers, an Ishpeming girl, and a graduate of the Ishpeming High school, has been given the degree "Phi Beta Kappa," for scholarship at the Michigan University. Twenty-five out of a class of several hundred receive the degree. This is the first student of the Ishpeming schools who has ever received this degree at any university and in view of this fact Miss Rogers is to be congratulated. She will graduate in June, after taking four years' course.

Russia is rich in asbestos and is steadily increasing its production. The latest figures relate to 1903, when there were twenty-five mines in operation with an output of nearly 10,000,000 tons.

**MAYOR HAS QUALIFIED.**

Mayor F. E. Keese, who was reelected a week ago today by a majority of 392 votes, took the oath of office Saturday. He spent several hours in the afternoon signing checks for the payment of bills and the payrolls, which will be squared today. Nearly 500 checks have been drawn this month. This includes payment to all who served on the boards of registration and election. Recorder West on Saturday sent out notices to all who were elected to city offices, requesting them to call and take the oath as soon as possible. It is expected that the new council will hold its first meeting some day this week, though the mayor has not yet decided on the time.

If you ever try to dig out milkweed roots, think how far you might have to work to get as deep as your faults may run.

### CONSOLIDATED FUEL & LUMBER CO.

**FLOWERS FINER THAN ON OTHER EASERS**

DEALERS SOLD MORE POTTED PLANTS THAN USUAL, AND DEMAND FOR CUT FLOWERS WAS ALSO GOOD, IN SPITE OF THE BAD WEATHER.

Ishpeming and Negaunee dealers in flowers had a most satisfactory Easter business, in spite of unfavorable weather conditions. The flowers were more beautiful and the stocks larger than for several Easters past. The florists here and in Negaunee made many shipments to other points in the peninsula. The demand for lilies was particularly good and the stocks were the finest ever seen in such good demand. They are taking the place of cut flowers, which in past years were used almost exclusively for Easter offerings. The plants varied in price and sizes, the charges ranging from twenty-five cents to \$1 and over. The larger plants contained from six to nine blossoms, nearly all in bloom. Roses and carnations were also in good demand. Donations of flowers were made to many of the churches by members of the congregations, while hundreds of individuals in the two cities sent flowers to friends, with their greetings.

Those who purchased other and less expensive articles than flowers bought liberally of postal cards, Easter eggs and other novelties. The rush for cards was never as great as this year. Many of the Ishpeming dealers were completely cleaned out of cards of all descriptions Saturday evening. The cards began coming into the postoffice three or four days before Easter. Many packages of mail containing nothing but postal cards were sent to distant points. Usually the cards are put in with other mail, but there were so many of them that the clerks thought it would be more convenient to send them out in separate packages for each point to which a considerable number were addressed. Many fancy postals were sold. A local dealer said: "I have had a record breaking business in both cards and Easter novelties. I have sold from two to four plain cards to one fancy one. There are two objections to the latter, first

the price, and then the necessity of sending them in a sealed envelope, to ensure their delivery."

The weather yesterday was anything but favorable for Easter hats. The milliners did a big business last week and many of the ladies had planned to wear their newly bought creations. During the greater part of the morning, particularly in the early hours, the wind blew at the rate of twenty miles an hour. With the temperature only a few degrees above zero furs, heavy overcoats and other wraps were preferable to the new Easter togs. Later in the day it rained and a considerable quantity of snow disappeared.

**ISHPEMING IN BRIEF.**

Mrs. E. C. Cooley is visiting relatives at Ripon, Wis.

Miss Annie Bronson is home from school, for the Easter vacation.

A son was born yesterday morning to Mr. and Mrs. B. J. Goodman, Jr.

Will Newett is home from Michigan University, to spend his Easter vacation.

Dr. I. Sciotte, assistant to Dr. D. McIntyre on the Swanzy range, spent Easter with relatives and friends in the city and at the Winthrop.

A. C. Creannian, proprietor of the Bijou theaters in this city and Negaunee, plans to locate here permanently. His wife joined him yesterday.

The services in all the churches of the city were largely attended yesterday. Special music, appropriate to Easter, was rendered by most of the choirs.

The funeral of the late Mrs. Anna Kellgren was held yesterday afternoon from the Swedish Lutheran church, Rev. G. Fletwood, the pastor, conducting the services.

The Swedish Home society conducted a festival and gave a pleasing program Saturday evening at its hall on Cleveland avenue. Oysters and other refreshments were served.

The Ishpeming City indoor baseball team will leave this afternoon via the South Shore railroad for Manistiquet, where it will play two games, tonight and tomorrow night.

The members of the Ishpeming band wish to acknowledge their appreciation of the services rendered by those who aided them in their concert at Ishpeming theater Friday evening.

Miss Hannah Sylo will leave Wednesday for Duluth, where she will visit friends. From there she will go to Deerwood to visit her father. Mr. Sylo went to Deerwood a few weeks ago.

The junior class of the Ishpeming High school will give a reception and hop at Braastad's Hall, Wednesday evening. There will be games as well as dancing, and refreshments will be served.

Henry Harwood, who has been confined to his home for three weeks with inflammation in one of his ankles, is able to be about the house, and he expects to soon be able to visit his store.

Fitzpatrick and Crane, blackface comedians, will be the vaudeville performers at the Bijou theater this week. They were at the Soo last week. The two are said to be clever entertainers.

The city had a number of men and teams at work Saturday removing snow and ice from Main street and Cleveland avenue. Plows and scrapers were used to good advantage in loosening the hard snow.

Julius Braastad has returned from Chicago, where he spent the past two weeks with his father, who is a patient at Augustana hospital. Mrs. Braastad went to Chicago Saturday night, to remain a few days.

Emma, the sixteen-year-old daughter of Mr. and Mrs. Robert Stevens, of the Tadler location, died early Saturday morning. The funeral will be held Tuesday afternoon at 2 o'clock from the Salisbury Methodist church, conducted by Rev. Dr. Finch.

Gust Fredin, who installed the sewerage and water works systems at Gwin, and who is also building the streets there, arrived in the city Saturday from the Menominee range, where he conducted logging operations all winter. He plans to resume work at Gwin before the close of this week.

Steve Toaman and his mother and two brothers, former residents, who have lived in the copper country the past few years, are expected to return to Ishpeming this week. They will take up their residence here. Steve is to be one of the twirlers for the Ishpeming outdoor baseball team. The family have a home rented on Vine street.

### THREE-STORY HOTEL AT GRAND ISLAND

CLEVELAND-CLIFFS IRON COMPANY TO PROVIDE MORE ACCOMMODATIONS FOR TOURISTS AND OTHER VISITORS TO ITS GAME PRESERVE.

The Cleveland-Cliffs Iron company is to erect a hotel building at Grand Island and the management expects to have some of the sleeping rooms, at least, ready for occupancy not later than July 1, when tourists will begin arriving. Plans for the building were recently completed by Charleston & Kuenzli, and the excavating for the basement has already been started. The structure will be three stories, with basement, will be located about fifty feet north of the present hotel, and will be connected with the latter by an enclosed passage. The name "Hotel Williams" will be retained. The dimensions of the ground floor of the main building will be seventy-five by thirty-five feet, but the second and third stories will not be as long as the first story, as there will be no rooms above the dining room, which will occupy one end of the ground floor. The dining room will be thirty by forty-five feet in size and will seat from forty to fifty persons at a time. There will be twenty sleeping rooms and four bath rooms on the second and third floors. At the rear of the main structure there will be a separate building for the help. In the ground floor of the latter will be located the hotel kitchen. There will be a parlor in the hotel, thirty by thirty feet, with fire place. The basement will be used for the furnace, storage room, etc. The structure is to be frame. It has not yet been decided what kind of a heating plant will be installed, but it is likely that it will be steam. There will be a spacious veranda extending around three sides of the building. New sewerage and water systems will be installed. It is planned to remodel the old hotel building. It has not yet been determined what the rooms on the first floor and in the basement in the old building will be used for, but it is likely that a billiard hall will be provided. A pumping plant is to be installed to pump water. The water for the present hotel is pumped by a wind mill, but this equipment is inadequate for both buildings. The plant will be provided with a gasoline engine and a storage tank will be built at a convenient point.

George A. Leppert, a well-known contractor of Marquette, will have supervision of the carpenter work, and Henry Schwartz of Negaunee is to have charge of the masonry and brick work. Mr. Schwartz's three sons will also work on the job. The company has just completed a camp for the accommodation of fifty workmen and it is expected that within a few days a force numbering from forty-five to fifty will be employed. A considerable quantity of material has already been delivered and it is believed that the remainder of the material needed for the building can be brought in after the boats begin running. A sufficient quantity of supplies to last the crew for a month or more has also been put in.

With the cottages and with the sleeping rooms in the hotel, a much larger number of tourists can be accommodated this year than at any previous time since the hotel and cottages were opened four years ago. Last season all of the cottages were in use continuously from July until the latter part of October. A number of the cottages have already been reserved for the coming season. During the past two or three years, a number of well-to-do people from Chicago, Evanston, Cleveland, Pittsburg, Cincinnati and Detroit have visited the island.

The company recently awarded a contract for a number of new row boats, which will be at the disposal of tourists and other visitors to the resort.

### TIGERS WON MATCH.

The Tigers defeated the Eagles by 190 runs in a league bowling contest Friday evening at DeFaine's alleys. The scores were:

Tigers	136	128	131	395
Eagles	113	127	135	475
Totals	249	255	266	770

### SCHOOL BOARD MEETS TONIGHT.

A meeting of the board of education is to be held this evening. Applications for positions as teachers will be considered, and it is expected that the complete corps will be decided on. As has been customary for some years past, applications are required from all of the present teachers who wish to retain their positions. In view of the fact that the members of the board are very well satisfied with the work of the instructors it is not anticipated that there will be many changes. Business relative to the new building will also be considered at tonight's meeting.

### POLES DOWN IN STORM.

Eight of the Michigan State Telephone company's poles near the Negaunee cemetery were carried to the ground during the storm last Wednesday. The poles are large and there are from forty to fifty wires on them. On account of the large number of poles that went down in the vicinity of Eagle Mills it will be several days before the Bell people will have all of their lines working again.

With good seed and intelligent cultivation there is little doubt but that Indian corn could be made a more profitable crop to the farmers of southern Manichuria than is either the kodiak or soy bean.

### EASTER SHOWING OF MILLINERY.

I am ready to show the new styles in ladies' hats and would be glad to have the ladies call.

MISS JULIA O'LEARY,  
Iron St., Negaunee.

### TO ENGAGE IN BUSINESS.

One of Surviving Victims of Rolling Mill Disaster Takes Billiard Hall.

Sam G. Stephens, one of the five survivors of the disaster that occurred at the Rolling Mill mine Sept. 20, 1907, when eleven miners lost their lives, will today assume the management of the pool and billiard parlors and bowling alleys in the Sundberg block, formerly conducted by J. F. Allison. Mr. Stephens is one of the most popular young men in the city and his friends predict that he will meet with success in the undertaking. He was left in such crippled condition as a result of his injuries that he will never be able to perform manual labor again.

Stephens and two of the other surviving victims of the disaster are to be around, while the other two, John Koivisto and Thomas Roberts, are still confined to their beds, both suffering with injured spines. George Sebastono, who was the least injured of those escaping with their lives, is now at his native place in Italy. Sebastono saved himself by taking hold of an iron rod in the upper portion of the cage. Stephens' spine and kidneys were injured and his left leg was broken in four places, one of the fractures being at the knee joint. He submitted to four operations while confined to the hospital and is still unable to walk without the aid of a crutch. John Makki can now walk around with a cane, but Koivisto's condition is such that he can only occasionally be moved from his bed to a lounge. Roberts is said to be in even worse condition than Koivisto.

A friend in Negaunee received a letter from Sebastono a short time ago in which he stated that he might possibly return to America. At present he is running a fruit farm. He is living in the district where so much damage was wrought by the earthquake the latter part of December.

### FIREMEN'S BALL TONIGHT.

Negaunee Department's Annual Dance at McDonald's Opera House.

Judging from the number of tickets sold for the Negaunee fire department's annual ball, to take place tonight at McDonald's Opera House, there will be a record breaking attendance. The mining companies have been liberal in the purchase of tickets and the business men, as well as others, have also bought from a to a half dozen. It is expected that fully 75 per cent of the tickets will be used.

Several members of the department worked Saturday and yesterday decorating the hall with flags, lanterns, firemen's banners, colored lanterns, etc. All of the members of the department have been requested to appear in full uniform. They are to meet at No. 1 hose house at 7:30 o'clock to prepare for the parade thirty minutes later. The procession, which will be headed by the Negaunee City band, will move west on Jackson street to Cyr, south on Cyr to Iron, east on Iron to Pioneer avenue, thence to the opera house. Dancing will start promptly at 9 o'clock and supper will be served in Shea's Hall at 11:30 o'clock by Mrs. J. Flory.

### AS SOME FINE PICTURES.

W. H. Israel, the photographer, on Saturday received a collection of etchings made from famous oil paintings. Two of them are scenes taken from Central park, New York, all of the others being foreign scenes. Some of the original oil paintings from which the etchings were made are valued at \$50,000.

### LOCAL LAONICS.

A. H. Ropes of Menominee transacted business in the city Saturday.

A daughter was born Friday night to Mr. and Mrs. Michael Burns.

Dr. Joseph Verrellino was called to Princeton Saturday, to see a patient.

Mrs. L. E. Adams, of Munising, formerly of this city, visited friends in Negaunee Saturday.

Thermometers in Negaunee Saturday morning registered from four to six below zero at 6 o'clock.

"Uncle Daniel," or "A Message from Jarvis Stetson," a rural comedy drama, will be presented at McDonald's Opera House, next Thursday evening.

The Bijou theater, in the Sundberg block, will open tonight with vaudeville, moving pictures and illustrated songs, under the management of the Wolverine Amusement company.

Gust A. Larson, of this city, who was employed in the Kirkwood pharmacy for several years, has sold out his interest in the People's pharmacy, at Hancock, to his partner, John W. Hooper.

Charles Yates, who has been confined to Argusana hospital, Chicago, for a month past, arrived home Friday. He is feeling much improved in health as the result of an operation for appendicitis.

About forty members of Iron Mountain lodge of Odd Fellows went to Mounting Saturday evening on the special train via the Lake Superior & Ishpeming railway. The attendance from all three cities of the county was larger than expected.

### CARD OF THANKS.

We wish to assure our friends in Negaunee and Paines that we heartily appreciate the many favors extended during our recent trouble. There was no favor that they did not voluntarily and willingly grant. We feel especially grateful to the members of the Negaunee lodge of the Order of Elks who directed the funeral of our beloved husband and father. We assure all who sent flowers and all other friends that their kindnesses will never be forgotten.

MRS. FRANK SMITH,  
and Family.

PATTY:  
Gold Medal Flour is very highest quality.

And the School-boy with his Bread and Butter

After all—there's nothing quite so good as bread and butter. It is food. Food for the brain and food for the body. And the better the butter the healthier will be the person who eats it.

**Silver Creek Creamery**  
Pasteurized Butter

has that smooth, delicious taste. Remember how we wanted butter when we came from school? Spread on thick. Now even grown folks want butter spread on thick—but it must be Silver Creek Creamery Pasteurized Butter—the healthful butter. Sold by all grocers in one pound prints wrapped in parchment paper. Your grocer can get it for you if he hasn't now.

**Ripon Produce Co.**  
Ripon, Wis.

### VETO OF TARIFF BILL FEARED IN THE SENATE

President Insists That the Pledges of the Party Shall Be Carried Out.

His Lack of Familiarity With the Schedules Cannot Be Played Upon—Many Senators Will Keep Faith—Standpatters Depend Upon Support of Democrats

Washington, April 11.—Is there any danger that the president will veto the tariff bill? This is a question which senators, including some members of the finance committee, are asking each other, and in a few instances with some degree of apprehension.

The president has taken the stand he is not a tariff expert; that he has neither the time nor the ability to study each schedule and determine its effect, and that he does not regard this as the proper time for the exercise of executive authority, but he has more than once said quite plainly that if the bill does not in his judgment meet the pledges of the Republican party he will veto it.

In the several tariff conferences the senate leaders have had with the executive he has seemed perfectly amenable to their suggestions, and has raised no objections to their plans, except in the case of the maximum and minimum provision, and even in that instance he was agreeable to the changes finally submitted for his approval by Mr. Aldrich.

### Some See Danger Ahead.

There are men on the finance committee who feel any attempt to take advantage of the president's present lack of familiarity with the details of a tariff bill is fraught with danger, and they trouble to contemplate the result should the president decide the party leaders in congress have not kept faith, and that they are seeking to get his signature to a bill which does not make good the promises of the platform on which he was nominated and elected.

Such suggestions as these, which made behind the closed doors of the finance committee room, have been brushed aside as unworthy of consideration, but the confidence with which they have been rejected is regarded by some who best know the president as arguing that his character is not wholly understood by Messrs. Aldrich, Hale and others. Should the president decide the tariff proposals are not worthy of his signature, that his framers had not kept the faith, no one could truthfully say he had not given fair warning of his purpose to veto it if it failed to come up to his standard of "honest revision."

Within the last few days Republican senators of the progressive type who would like an opportunity to assist in opening the spell which Senator Aldrich seems to cast over the senate, have been quietly holding conferences with the view of agreeing on some program to be carried out when the new tariff bill is brought into the senate. Said one of these progressive Republican senators today: "President Taft could make for himself a place in history by vetoing the make-believe tariff revision bill. The country would support him most enthusiastically. As things are going now we are to have a make-believe revision. I am certain the president must understand this, but he is anxious to have peace in the party and hesitates to indicate that he mistrusts these stand-pat Republicans in the senate who are making the new bill and who expect to have influence enough to put it through."

Among the Republican senators who are planning to insist on real revision are Cummins of Iowa; La Follette of Wisconsin; Nelson and Clapp of Minnesota; William Alden Smith of Michigan; Beveridge of Indiana; Deliver of Iowa; Brown of Nebraska; Perkins of California; Bristow of Kansas; Warner of Missouri; Borah of Idaho; McCumber of North Dakota and perhaps others; and within the last day or two there has been a good deal of inside talk here to the effect that Senator Root of New York has views which he intends to express when the Aldrich bill is reported. If the reports are trustworthy the new senator from New York believes the Republican party cannot afford to fail to do every thing possible to satisfy the demand of the country for real revision downward.

### Taft and Roosevelt Contrasted.

Some of the most thoughtful men in the party councils comment on the fact the leaders of the party in congress have a radically different personality to don with in the present administration from that to which they have been accustomed during the last seven years. President Roosevelt would have taken the utmost interest in a tariff revision, would have sought information from all quarters on the meaning and effect of every schedule and would have contested every rate which he deemed too high or too low, so that when finally congress passed the bill he would feel he had done his best and nothing more was to be gained by further opposition. This was his policy when the railway rate bill was under consideration, and to a less degree it was his method throughout his incumbency. President Taft, on the contrary, has persistently declined to commit himself regarding specific rates and individual schedules. He has pointed to the promise contained in the national platform, and has even gone so far as to express the

view that, so far as possible, the heaviest burden should fall on luxuries rather than necessities, but beyond that he has refused to go.

Senator Cummins of Iowa announces that he proposes to offer an amendment to the Aldrich bill, providing that when it shall be apparent that any article on the dutiable list is the product of a trust the article shall be transferred to the free list. This is "Democratic doctrine," but probably not two-thirds of the Democratic senators would support such an amendment. The Iowa senator provides in his amendment machinery for determining whether an article in question is trust made. He would have the courts decide. It is evident that Senator Aldrich depends on high protectionists among the Democrats to assist him in putting his bill through. In the last vote on lumber in the house nearly one-third of the Democratic members from the South voted with the Cannon organization, and the impression prevails that about one-third of the Democratic senators will join with the high protection Republicans on all vital questions raised by the Aldrich bill.

With good seed and intelligent cultivation there is little doubt but that Indian corn could be made a more profitable crop to the farmers of southern Manichuria than is either the kodiak or soy bean.

### INTERESTING FACTS ABOUT IRON MINES

#### EXTENT OF DEPOSITS AND COST OF MINING IN THE LAKE SUPERIOR DISTRICT.

#### EXPENSE IS INCREASING

#### Timbering Problem Becoming Serious and Cream of the Ore Has Been Taken Out.

In view of the effort being made in congress by the iron and steel manufacturers for a removal, or at least a reduction of the present tariff of forty cents a ton on iron ore, facts regarding the extent of the iron deposits and the cost of mining are of special interest at this time. Although most residents of this city know in a general way of the iron resources of the Lake Superior district, it is probable that comparatively few would be able to discuss intelligently the extent of the deposits or the cost of mining, and so from personal knowledge are not able to judge as to the fairness or effect upon this part of the country of a removal or reduction of the tariff on its greatest product.

Congressman H. O. Young, who has been using his utmost efforts against the removal of the tariff duty, and was instrumental in forcing his opponents to accept the compromise schedule of twenty cents, as adopted by the house a few days ago, has written as follows:

**Conservation Unnecessary.**  
"One of the principal reasons urged for the abolition of the tariff on iron ore is the idea, founded on some loose observations of Andrew Carnegie, to the effect that our ore reserves are being rapidly used up and that it might be wise to save what we had and buy abroad. This idea is based upon an entirely false premise. Our supply of iron ore is not nearing exhaustion but is almost boundless in extent and it is probable that the deposits undiscovered largely exceed those of which we have definite knowledge. But these latter are so great as to almost stagger belief.

"As an instance tending to show that we have not as yet discovered more than a small portion of the iron ore we possess in this country, I wish to cite the experience of the Marquette district. This is the oldest of the Lake Superior iron ranges. Mining was begun here prior to 1850. The amount produced each year has steadily increased and today there is far more ore known to exist in that district, notwithstanding more than sixty years' depletion, than at any former time in its history."

**Cost of Production.**  
The question of the cost of production at the iron mines of the Lake Superior region is an interesting theme, and one, too, about which there is much misunderstanding. The average cost of the Lake Superior ore mined by the United States Steel corporation is approximately \$2.88 per ton, laid down at Lake Erie ports, says the Mining World. The steel corporation, however, operates its own railroad, its necessary lines. Then, too, a very large proportion of its product comes from steam shovel mines, the majority of which class of properties, and by far the biggest, are in its possession. Furthermore, its working organization is unsurpassed. In the cost of production other operators do not make so good a showing. Next to Minnesota (with the Mesabi and Vermilion ranges), Michigan has the greatest number of mines, these in the Marquette, Gogebic and Menominee districts, in all of which the underground system of mining is necessary almost exclusively. The average cost of Michigan ore, delivered at ports on Lake Erie, is \$3.06 per ton, the items which go to make up that figure being the following: Mining, \$1.39; royalty, .33 cents; transportation, rail and lake, \$1.33; administration expenses, commissions, etc., eleven cents. Adding the rates charged for transportation from Lake Erie ports, the cost of the ore laid down at furnaces is approximately as follows: Mahoning and Shenango valley points, \$3.71; Pittsburg, \$4.11; other western Pennsylvania points, \$4.31; points east of the Allegheny mountains, \$4.56. These figures are based upon authoritative information and may be checked for as substantially correct.

There are many producers in the Lake Superior region that get all their ore from underground. These ores are hoisted from depths of 500 to 2,500 feet, necessitating heavy and expensive machinery. There are underground railway haulage systems, costing much to install and to keep in operation. There is a heavy water charge. Immense pumping engines must be kept going constantly, and the fuel for this and for the hoisting and haulage plants is an important item. Twenty tons of water are often lifted against a single ton of ore. From thousand gallons per minute or 6,700,000 gallons per day is a volume that costs money to handle.

**Heavy Timbering Expense.**  
The item of timber is one that gives no little concern. Where a few years ago the mines could contract for any quantity for underground and surface work, it is now difficult to obtain enough for mining needs. In fact, much of the shaft timber is imported from Oregon. The white pine is gone, and the Norway pine is scarce and high in price. It has been necessary to resort to jack pine for use as lagging. Spruce is too valuable, the pulp mills taking that. Because of the wanting timber supply, attention is being turned to the employment of steel for headings, shafts and other openings resulting the support that white pine formerly would give. Steel is costly, but it appears to be only a question of time when its use must become general. The deep deposits having a dip of anywhere from thirty to seventy degrees and much shinking and drifting and timbering must be done before the ore can be taken out. It is absolutely necessary to support the openings. Many Lake Superior mines use millions of feet of timber annually, and in the aggregate a vast amount is required.

**Cream of Ore Taken.**  
A factor that makes for increased costs

in the Lake Superior region is that the cream of the ores has been taken during the sixty years that mining has been a leading industry. Low phosphorus shipments have been demanded, until on all the old ranges there have been left the lower grades while the better have been sent away. In many mines the percentage of high-grade ores has gradually fallen until now it represents a very small proportion of the reserves. This means that more waste must be shipped. It costs as much to mine the ore as it does the higher grades, and the returns are less since all sales are based upon the units of iron. In the hematite ores there is from 10 to 18 per cent of moisture. This has to be paid for in the mining and the shipping, but the consumer does not pay for it. The more moisture the more the shipper is docked.

To reduce the cost of ore mining and handling there have been provided the very finest equipment of mining plants and haulage systems that brains can devise and money can secure. No other country can boast such appliances, such progressiveness of such skill. There are cars of steel carrying fifty to sixty tons, steamships nearly as long as the ocean liners and holding 12,000 tons of ore, and ship canals through which pass more freight than those of any other waterway in the world, and to which the once-boasted Suez is merely an infant in comparison. How many hundreds of millions of dollars have been put into mines, machinery, railroads, shipping docks and ships, it is impossible to state, but the aggregate amount is stupendous. Money has been poured into the business unsparingly.

#### DEATH OF KATHERINE SHEA.

#### Popular Young Girl Passed from Life Saturday Night.

Miss Katherine Shea, the eighteen-year-old daughter of Mr. and Mrs. Michael Shea, 247 Fisher street, departed this life at 10 o'clock Saturday night, after an illness from lung trouble, extending over about a year. The deceased was an only child and had spent most of her life here, although she was born in St. Ignace. She had attended the Baraga school and was highly esteemed and respected by all with whom she came in contact, both young and old. Her passing will be sincerely mourned by her many friends.

Funeral services will be held Tuesday morning from St. Peter's cathedral, with interment at Holy Cross cemetery.

#### EASTER SUNDAY.

#### Weather Was Mild But High Wind Made Walking Unpleasant.

Although yesterday was a comparatively mild day for Easter, a high wind blew from the south all day, reaching at times a velocity of fifty-four miles per hour, which made it both difficult and dangerous to wear new spring head gear. However, a good many ran the risk of having their new bonnets blown into the street or getting them wet, as it threatened rain all day. Others decided to wait until more favorable weather before donning gala spring attire.

All of the churches were well filled, as there are many people who go to church Easter Sunday, if not at any other time during the year. The Lake Superior commandery, Knights Templar, fifty strong, attended the Methodist church in the morning. The Ishpeming and Negaunee knights came down on a special train.

The merchants of the city made an unusual effort to arrange attractive displays of their Easter and spring goods and the show windows Saturday night were a source of delight to those who went downtown. The flower stores were especially well patronized, but there was a brisk trade in all kinds of spring merchandise.

#### NEW SUPERVISOR IN TURIN.

#### Henry Arnold Re-elected in Wells—Contest Likely in West Branch.

Complete returns from Marquette county show that Henry Arnold was re-elected supervisor of Wells township and F. C. Kupper, a new man, was the choice of the voters of Turin for that office. In the list of members of the new county board published a few days ago, the name of Lars Hoyseth, who was re-elected in Ishpeming, Fifth ward, was inadvertently omitted, and Isaac Gustafson was re-elected supervisor in the Eighth ward of that city, instead of John Miners, as stated.

There is some talk of contesting the election in West Branch township, where the election board certified that Alger Libby was re-elected supervisor by a majority of four votes over Robert Shaw. The defeated candidate was in Marquette Friday seeking legal advice as to the advisability of petitioning for a recount, and stated that several ballots voted for him had been thrown out by the board without just cause. The Shaw faction restrained from paying any bills without the consent of the Libby township board, and Shaw declaring that he and not Libby is the rightfully elected supervisor of the township—that is a sizable legal squabble for a township where less than 100 votes were polled.

The Marquette & Southeastern railway will run a special train to Birch on Thursday, the 15th inst., on account of the dance to be given in the Birch Hall by the Birch Dancing club. Train will leave the Washington street station at 8 p. m., returning after the dance. Fare for the round trip will be seventy-five cents.

The demand for Vandenberg's dairy products is increasing every day; because the public recognizes the importance of clean goods from sound cows. (4-10-1w)

#### NOTICE.

All parties are forbidden dumping garbage at Champion street, near the L. S. Carriage works, or any other part of the city. All garbage must be taken to the city dumping grounds. Z. VADNANIS, Health Officer. (4-9-8d)

#### ROCKER WOOD

A stomach specialist recently said: "When the American people learn to drink buttermilk at or about mealtimes they will have very much less stomach trouble and rheumatism." (3-15-1m)

#### DRY BLOCK WOOD

At \$6.00 per load, \$3.25 per half load, delivered to any part of city. Consolidated Fuel & Lumber Co. (9-23-11)

### MANY BOWLERS ARE COMING HERE

#### UPPER PENINSULA TOURNAMENT PROMISES TO BE A MOST SUCCESSFUL EVENT.

The committees in charge of the upper peninsula bowling tournament, to be held here next week, are receiving most encouraging news as to the entries that may be expected from the other cities. A four-team league has been formed at Calumet and a series of matches is being played to determine who will come to Marquette. The Ishpeming bowlers are also having a try-out with the same end in view. They have sent word that they will enter two five-men teams, three trios, five doubles and ten singles in class "A," and will also be represented in the class "B" events. It is certain that the copper country cities and Negaunee and Escanaba will send good-sized delegations, and the committee hopes to hear favorably from Crystal Falls, Iron Mountain, Iron River, Menominee and Munising.

The entries from Marquette will of course be more numerous than from any other city. Two and probably three five-men teams in class "A" are already assured, and a long list of singles, doubles and trios have signified their intention of making a try for the various prizes. Two five-men teams in class "B" have already been arranged, one of whom is composed entirely of Andersons and will be known as the Anderson team.

The prize committee will select the prizes at once and will place them on exhibition at the alleys. The prizes will probably be cups, jewelry, bowling balls, shoes and similar articles. Money prizes are given in the large city tournaments, but the sentiment of upper peninsula bowlers is decidedly against cash prizes as contrary to the ethics of amateur sport. The honor of being at or near the top will mean more to the average upper peninsula bowler than a prize of any kind.

**Jenks Cup Series.**  
In the Jenks cup series, Manos now leads with an average of 186, in one game he having registered the unusual score of 255. He declares that the new pins have no terror for him, still it will behoove him to keep in fine fettle if he is to lead Allen at the 15th inst.

Mr. Allen having completed his series with a total score of 1,741 and an average of 174. The contestants for the Jenks cup now stand as follows:

Games.	Totals.	Avg.	
Manos	5	930	186
Allen	10	1,741	174.1
Godwin	8	1,099	137.4
Miller	8	1,337	167.1
Jeanson	5	798	159.6
Bell	5	773	154.6
Foard	9	1,310	145.5

A five-men team will be here from Ishpeming tomorrow night, to finish its fifteen-game match with Marquette. It will be accompanied by a number of other bowlers who are coming to practice on the alleys in preparation for the upper peninsula tournament. There will be a number of Marquette bowlers on hand, and friendly contests will be arranged. The line-up in the five-men team contest will be as follows: Ishpeming: Gray, Dyer, Denn, Emblom and Olson; Marquette: Bell, Stafford, Godwin, Manes and Miller.

#### VIOLATED PAROLE.

#### Two Men Under Control of Marquette Prison Arrested in Duluth.

Deputy T. B. Catlin, of the Marquette prison, and P. J. Vaughan were to Duluth last night to get Joseph Fisher and Peter Murray, who were apprehended in that city Friday for violating their parole by leaving the state. Murray was sent up from Marquette county for robbing a saloon in this city. Fisher is from Emmett county. They will return with the prisoners tomorrow morning. The Duluth Herald contains the following rather exciting account of their capture:

"Chief of Police Trover Friday afternoon arrested Joseph Fisher and Peter Murray, fugitives from the Marquette, Mich., prison, charged with violating their parole. They were captured after a somewhat exciting chase, in which several newsboys assisted. Harry W. Schaffer, a local blacksmith, and Jacob H. Brown, a laborer, were also arrested for attempting to help the men escape.

"Friday afternoon the chief received a long distance telephone call from Marquette, saying that two men were here who had broken parole after serving time for burglary in the Marquette prison, and stating whose information could be obtained as to their whereabouts at No. 11, the Glen.

"It happened that all the detectives were out on the street when the message was received, so the chief undertook to get the information himself. An old gentleman at the number given admitted knowing the men, but was unwilling to give any information, further than to say that they were working some place on Garfield avenue. Chief Trover followed the tip, and started for Garfield, and it was there that he learned that two men from the house in the Glen were also headed for Garfield, evidently to warn the fugitives.

"The chief got there first, however, without their knowledge, by boarding a street car and, fearing he would be recognized, got a newsboy to follow the men when they came along, himself taking the trail some distance back. At 1000 Garfield avenue the two men entered a saloon, and one of them emerged a minute afterwards and crossed the street to No. 929, from which the chief figured he had located the hiding place of the men. Meaning he had telephoned the police station for more men, and Detective Schulte was sent in hot haste to the scene.

"The chief kept watch in front of the house, hoping assistance would arrive before the men tried to leave, and fearing that they might make their exit by the back door. This is just what they did do, but the newsboys, several of whom were interested in the case, tipped the police official off to what was doing, and by springing around the house he managed to intercept John Brown, the Duluth man, as he was about to start away with the two Michigan men. By showing his revolver the chief had no trouble in rounding them up."
