

FEARFUL TRAGEDY COMING AT TABRIZ

Garrison of Beleaguered Persian City Is at the Point of Starvation, Yet if It Surrenders a Massacre Will Result.

In Vain Endeavor to Open a Way for Bringing in Provisions, an American Is Killed While Leading a Sortie of Nationalists—The Town Besieged for Weeks Now by the Shah's Bloodthirsty Troops, the Situation Is Most Desperate.

Thousands Facing Death.

London, April 20.—Conditions in Persia have steadily grown worse ever since the accession of the present shah to the throne two years ago. The nationalists have captured a number of cities, including Isfahan, Resht and Shiraz, the important southern port of Bandar Abbas.

On the other hand, every effort which has been made so far to take the town by assault has failed. The nationalist leader, Satar Khan, and his followers show the most determined spirit, and declare they will not yield to the pressure of hunger.

The suffering during the siege has been terrible. The cold has been intense. Both food and fuel are scarce with both forces, for all the villages round have been pillaged over and over again.

EX-DICTATOR CASTRO'S WIFE IS GOING TO EUROPE. Colon, April 20.—The steamer Guadalupe came into Port Limon, Costa Rica, and sailed later for France, via Venezuela.

MANY HUNDREDS SLAIN IN ASIA MINOR

Five Thousand Persons, It Is Estimated, Have Lost Their Lives at Adana and Vicinity During the Past Eight Days.

Slaughter Still Continues and Moslem Fanaticism Is Breaking Out at New Points—Meanwhile the Sultan, at Constantinople, Awaits His Fate Calmly—Young Turks Have Now Entirely Invested the City and Will Seize Reins Shortly.

Women and Children Mutilated.

Larnaca, Cyprus, April 20.—Advices received here today from Adana by way of Latakia, Syria, say that the massacres were begun in the markets at Adana Wednesday morning. The Armenians retired to their own quarters and resisted for forty-eight hours.

Sultan Will Make No Resistance. Constantinople, April 20.—The sultan has issued orders that not a shot shall be fired by his household troops or the Constantinople garrison against the forces that have surrounded the city in the interest of the committee of union and progress, and that threaten to occupy Constantinople within a few hours.

Monarch Awaits His Fate Calmly. Constantinople, April 20.—Sultan Abdul Hamid is waiting in his palace for whatever may befall. He has not taken to flight and his grand vizier, Tewfik pasha, has announced that without the sultan will remain with his family and accept resignedly the fate which has been prepared for him and his country.

Proclamations Reassure People. Two proclamations signed by the commanding general of the army of investment and addressed respectively to the citizens of Constantinople and the garrison were issued today. They have reassuring effect. That sent to the rear office for distribution to the garrison denounces as "criminal and monstrous acts committed under cover of demanding that the Sheri law supersede the constitution, by bands of executioners, vile, conscienceless agitators and parliament of absolutism, who deluded the soldiers and the populace so that parliament was stained with blood, the nation plunged in mourning and a blood made on the Ottoman army, whose honor had remained intact for the last 600 years."

Florida's New Senator. Tallahassee, Fla., April 20.—Duncan Fletcher was today elected United States senator.

BRYAN IN KANSAS CITY. Kansas City, Mo., April 20.—William J. Bryan was the guest of honor at a dinner of the Young Men's Democratic club tonight. He spoke on Democracy, and after the dinner left for his home in Lincoln.

FIVE MEN PERISH WHEN SHIP SINKS

Colliding With an Ice Floe, the Steamer Eber Ward Goes Down in One of the Deepest Spots of the Straits of Mackinac.

Those of the Crew Who Survive Happen to Be on Deck at the Time of the Accident, and They Barely Escape in a Yawl Boat, the Others, Caught Without Warning, Asleep in Their Bunks, Going to the Bottom With the Ill-Fated Craft.

Mackinac City, April 20.—Five men were drowned today when the steamer Eber Ward collided with a heavy ice floe and sank in Lake Michigan five miles west of her. The dead were:

JOHN HERRN. JAMES PERRY. JOHN MEBEROTH. KINNEY M'KAY. UNKNOWN DEK'KHAND.

The boat went to the bottom in one of the deepest spots of the straits and will be a total loss, together with her cargo of corn.

Navigations Opens at the Soo. Sault Ste. Marie, Mich., April 20.—[Special.]—Navigation was opened at seven tonight by the arrival here of the steamers French, Northern Wave, Northern King and Dunham.

Cleveland Seamen Vote to Strike. Cleveland, April 20.—By unanimous vote, the seaman's union decided to strike here today.

THE WEATHER.

Washington, April 20.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Wednesday; Thursday, rain or snow and cooler; moderate variable winds, becoming north.

BASEBALL.

STANDINGS OF THE TEAMS. National League. Cincinnati W. L. P.C. Boston 4 1 833

QUAKE TERRORIZES MEXICANS.

Eruption of Colima Volcano Covers Wide Zone With Ashes. Mexico City, April 20.—A severe eruption of the Colima volcano, followed by an earthquake shock, has spread terror and confusion among the inhabitants of the nearby towns and villages, a number of whom have deserted their homes and fled to points outside the affected zone.

NEGRO BOY'S FEARFUL DEED.

Feeds One Child to the Hogs and Brains Three Others. New Orleans, April 20.—Incensed because his stepmother had left him at home near Opelousas in charge of his young step-brothers and sisters for the day, Tom Godfrey, a negro boy, twelve years old, fed the youngest of his charges to the hogs and later with an axe inflicted probably fatal wounds on the three other children.

JAMES J. JEFFRIES WILL FIGHT JOHNSON.

He Makes the Announcement Before a Crowd That Packs a New York Hall to Overflowing, and the Throngs Fairly Go Wild With Joy.

New York, April 20.—"I will fight Jack Johnson. I will defend my title as undefeated heavyweight champion of the world."

House Literally Goes Wild. After his sparring exhibition with Sam Berger, the crowd in the hall shouted for Jeffries to come out and make the statement he had promised.

Seattle, Wash., April 20.—When asked about the proposition to pull a Jeffries-Johnson fight in Seattle this summer, President Colburn, of the Alaska Yukon exposition, declared that he would permit no prize fighting at the fair.

KIDNAPER'S WIFE REVELS IN LUXURY.

While Husband Must Beg for Stogies, Mrs. Boyle Is Well Supplied With Money, a Fact Which Is Taken to Indicate That She Is from a Prominent and Wealthy Family.

Merer, Pa., April 20.—It was learned here tonight that the effort of former Judge Merer, of this county, to secure the release of his wife, Mrs. Boyle, who was held by the kidnappers, had failed.

UNCLE SAM DEFRAUDED OUT OF VERY BIG SUMS.

That During the Past Ten Years, \$1,000,000 Worth of Paris Gowns Have Been Imported Annually by the "Smuggling Syndicate" Is Now the Belief of the Federal Officials.

New York, April 20.—Further investigation of the systematic smuggling of Paris gowns into this port led the customs house officials today to declare that the syndicate has probably smuggled in \$1,000,000 worth of goods each year for the last ten years.

SCHEDULE FOR TODAY.

National League. Boston at Philadelphia. St. Louis at Cincinnati. American League. Detroit at Chicago. St. Louis at Cleveland. Washington at New York. Philadelphia at Boston.

YESTERDAY'S GAMES.

National League. Rain and generally cold and disagreeable weather caused the postponement of all of the ball games scheduled for yesterday in the National and American leagues and American association except the Detroit-Cleveland contest at Detroit and the Milwaukee-Minneapolis game at Milwaukee.

IS A SUBSTITUTE FOR THE COLBY BILL

House Elections Committee at Lansing Reports a New Primary Measure, and It Is Made the Special Order for Today.

Except for Slight Changes, It Is the Same as the Dickinson Proposition, Which Has Passed the Senate, and Its Enactment Is Looked For—Ely Is Confirmed as Highway Commissioner, but the "Antis" Score When the Office Is Made Elective.

Lansing, Mich., April 20.—[Special.]—The house elections committee today reported a substitute for the Colby primary bill, which was the special order in the house for tomorrow.

Provisions of the New Measure. The following is an outline of the substitute: Mandatory: On governor, lieutenant governor, United States senator, all congressmen, all members of the legislature, and all circuit judges.

Wall Street Market Sags. New York, April 20.—The strength of Reading was the principal influence in the stock market today. The price of many other issues sagged, however, as sales to take profits were the order of the day in the majority of the list.

Radical Liquor Bill in Wisconsin.

Madison, Wis., April 20.—The most radical bill affecting the liquor interests ever proposed in Wisconsin was introduced in the legislature today by the liquor interests themselves.

Brewing Company Indicted.

Rockford, Ill., April 20.—The Rockford Brewing company was indicted today on 152 counts, for violation of the anti-saloon law. Each count is subject to \$100 fine. An indictment charging conspiracy was voted against the officers of the brewing company.

Des Moines, Ia., April 20.—Upon evidence secured by Special Federal Inspector Van Wirt tonight, warrants were issued for the arrest of two local saloon men, charged with selling liquor to Indians.

Election Results in South Dakota.

St. Paul, April 20.—Municipal elections were held in sixty-five cities and towns of South Dakota today, the liquor vote being the paramount issue. Of twenty-four towns heard from, the returns show that fourteen voted for license and ten against it. Sioux Falls, Lead, Dead-

WHEAT PIT BULLS ARE NIPPED AGAIN

With the Weather Man Co-operating, the Bears Sally Forth in a Dashing Raid Which Results in Much Loss in Prices.

Chicago, April 20.—The bulls in wheat were leaderless for a time today, and a dashing bear raid wrought considerable confusion in the pit, where the July option at \$1.12 1/2, showed a net loss of 3/8 of 62 3/4 cents. The May decline, even more.

Immense quantities of wheat were dumped into the pit during the day. It was a fight between the bulls and the weather man, with July wheat the bone of contention.

Wall Street Market Sags. New York, April 20.—The strength of Reading was the principal influence in the stock market today. The price of many other issues sagged, however, as sales to take profits were the order of the day in the majority of the list.

Part of the Depression in the Market Was Due to Apprehension That a Crisis Might Be Approaching in the Wheat Speculation.

Part of the depression in the market was due to apprehension that a crisis might be approaching in the wheat speculation. Growing disapproval of the speculative movement in wheat is heard in the financial district, but a sudden collapse in wheat would not be without power of disturbance in the other markets.

NEW YORKS NOW BETTING ON ENGLISH HORSE RACES.

New York, April 20.—As the outcome of the restrictions imposed upon betting in this state by the Hart-Agnew bill, several of the most prominent track men of this city have arranged to transfer their operations to England. A number have established cable communications with betting commissioners in London, and already wagers said to be in excess of \$100,000 have been placed for the account of New York horsemen on American horses entered in the most conspicuous of the forthcoming British turf events.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., APRIL 21.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Sure enough; politics is a funny game.

The baseball fan will be pleased to learn that President Taft is not above rooting for the home team, the meantime munching into the contents of a five cent bag of peanuts.

President Morrow, of the Anti-Saloon League, addressed copper country audiences this week. He says the upper peninsula can figure on hearing from the League in no uncertain manner during the ensuing year.

Senator Aldrich is confident that the senate draft of the Payne tariff bill leaves enough protection to defray all the expenses of the government. The revisionists have never had any doubt on that point.

Some bakers are cutting down the size of the loaves of bread they put out; others are putting up the price on the size loaves that have sold for five cents. The result for the ultimate consumer is approximately the same in both cases.

There are several boats at DeTour, waiting opportunity to get through to the Soo, but there is still much ice in the channels, and the opening of navigation will be delayed some days longer. There is no particular rush about opening the season, anyway, as there is assurance that in any event there will be plenty of time in which the freighters can handle all the business there is to be done.

The upper peninsula bowling tournament now in progress in Marquette is an event for which the local committees have made careful preparation and which promises to exceed both in interest and number of participants any other open tournament held in this region. Several cities are represented by entries, and all the events will be well contested. Bowling is a game that is losing no ground in the upper peninsula. On the contrary, interest in it is well sustained, and the annual upper peninsula tournaments will doubtless prove to be a fixture.

What a winning team means to a group of baseball magnates was shown at Detroit last Sunday when nearly 19,000 people assembled to see the champions defeat the Cleveland team. The crowd was larger than any which attended the Detroit games of the world's championship series last fall, though the latter were far more important than any games played at the beginning of a season. But last fall Chicago had the Indian sign on the Tigers, and this spring the latter are eating up everything that comes their way. It takes a winning team to pile up the gate receipts, and major league baseball is largely a gamble between rival magnates to get a winning combination.

The legislature up to the close of last week had been in session for 102 days and had passed but forty-two bills that had received the governor's signature. A few other measures were on the way to the governor, but they, like the bills signed, concerned minor matters, comparatively speaking, and all the big business of the session remains to be disposed of. The session has been unusually futile as far as getting quick results has been concerned, and, like so many other sessions, will drag out a much longer length than would have been necessary had there been a more effective organization for work. All the most important measures of the session still remain to be disposed of, and it is impossible to predict when the members will be able to adjourn.

The latest United States treasury report gives figures showing an encouraging increase in the government revenues, coupled with a steadily dwindling daily deficit which, since April 1, has been changed into a surplus. This satisfactory turn in the tide has been brought about by materially enhanced customs receipts, despite a considerable falling off in excise, by reason of the closing of distilleries and breweries and other results of prohibition legislation in various states. The average daily receipts from customs from January 1 last to April 10

were 22 per cent more than for the same period of 1908 and only 6 1/4 per cent less than those for the similar period of 1907. The average daily deficit since July 1 last is \$374,000; since January 1 last, \$295,000; since March 10 only \$63,000; while for the ten days ending April 10 the average daily surplus receipts nearly \$64,000. The daily average receipts from all sources since January 1 last were \$72,000 more than for the similar period of last year and \$100,000 less than for the previous record year. Should the receipts continue to increase in the same proportion they have for the past two months it is estimated that the deficit at the end of the fiscal year will be only \$95,000,000, instead of the \$130,000,000 predicted less than six months ago. And that the customs receipts will increase still more rapidly after the tariff schedules are settled is practically certain—and would be even should the Dingley rates be left unchanged; for the swelling imports mean swelling customs receipts, as well as increased business prosperity.

TO BOOST A TRUST.

When the large and to a very great extent wholly unjustifiable increase in the price of print paper was made about a year ago by the trust the attack which the newspapers made upon the tariff on wood pulp failed, perhaps, to impress the public strongly because it was thought to be selfishly inspired. Every development since then, however, has tended to prove the claims then made. Congress has now before it conclusive evidence that labor in Canada is actually higher than in the United States, that the wood pulp mills in this country are able to produce pulp for less money than the Canadian mills, that there are certain natural advantages which the American mills possess, and that the sole need of a protective tariff on wood pulp is to enable the trust to earn dividends on an excessive capitalization and to operate out of date plants. Yet, with all this knowledge in its possession, congress proposes to levy a protective duty on pulp and print paper.

The Great Northern Paper company plant in Maine, with a capacity of 450 tons of print paper daily, produces it for \$24.29 a ton. This is the most modern plant in the country. In the Booth mill at Ottawa, a fair representative of the up-to-date plants in Canada, the minimum cost is \$29.54. Here is a difference in favor of the American plant of more than five dollars a ton. In the face of this showing how much protection does the American plant need in order to compete in its home market with the Canadian plant?

According to its own reports the average cost of production in the International Paper company's plants during the last eight years has been \$27.74 per ton. This is the paper trust, and admittedly many of its plants are out of date. Yet its cost of production is less than that of the Canadian mill at Ottawa. A number of things contribute to this result. The American mills have a better supply of labor. The Canadian mills have to pay more for fuel and the long and cold winters in Canada are a severe handicap, increasing the cost in the winter season 25 per cent. David S. Cowles, at one time the president of the American pulp and paper association, testifies that labor in Canada, skilled and unskilled, is higher than in this country.

There are several reasons why a tariff on pulp is not desirable, one of them being the premium it places on the destruction of our forests. What ground is there for duty beyond the desire to help a greedy and overcapitalized trust? And do the people of this country approve of that sort of legislation?

FEDERAL FINANCES.

Some grounds for encouragement are to be found in the statement of the federal treasury officials to the effect that the government deficit is steadily decreasing. But in view of the companion statement that the regular expenses of the nation now reach the staggering total of approximately \$2,300,000 a day, it is easy to believe that this reported decrease in the deficit will not extend very far. At the rate of expense mentioned it is a matter of simple computation to show that the cost of running this government now amounts to nearly a billion dollars a year, a truly monumental sum, the size of which it is almost impossible to grasp, but the raising of which is an enormous burden upon the people of the nation. Most of it is secured through indirect taxation, which is nothing more than a clever scheme of taxing people in many ways which they do not ordinarily realize or stop to think of.

It assuredly will suggest the thought to everyone that the administrators of the government have a stern duty confronting them. Of course, it is necessary for them to provide revenue in some way to meet the governmental expenses. But it is equally incumbent upon them to take the needed steps to curtail the expenditures. It is a good deal easier to talk about a thing of this kind than to bring about its accomplishment but something has got to be done in the premises. Reports from Washington from time to time have indicated that President Taft and the members of his cabinet are alive to this crying necessity. They are going to cut down expenses wherever they can. But they are laboring under terrible disadvantages. The trouble that confronts them is that there does not appear to be any possible way of cutting down the great bulk of the

Asthma Cured.

Abbey Syrup, the Famous European Remedy, Brings Relief to Thousands of Chronic Sufferers from Bronchitis, Catarrh and All Forms of Lung Trouble.

Over two hundred years ago, the Abbot of a monastery in Spain, famed for his scientific learning, discovered a remedy for all diseases affecting the bronchial tubes, which the monks under his direction used with wonderful results among the sick and suffering in the surrounding country. The fame of these cures quickly spread abroad. The secret of the formula was jealously guarded by the monks, however, and though attempts were constantly made to obtain it, it was not until recent years that through the death of a relative who was at one time a member of this Monastic order, Mr. L. I. Akker of Rotterdam, Holland, became possessor of this secret and determined to give it to the world. Since that time its fame has known no bounds, and the thousands of cures it has effected have established it as a household remedy in Europe.

It is now being placed for sale in America, where we are especially liable to bronchitis, catarrh, asthma, etc., owing to this changeable climate of ours; too often the disease is neglected in its earlier stages and consumption inevitably results. Abbey Syrup, Cloister Sancto Paulo, is positively guaranteed to relieve the sufferer to cure all cases of lung trouble. You owe it as a duty to yourself, your friends and your relatives to use this fail-safe remedy. Do not delay, for delay has often proved fatal.

This is the original remedy and is sold and personally recommended in Marquette by all druggists.

Expenditures for the time being. They are necessary to meet the governmental obligations which have been incurred. In fact, so many and of such great magnitude were the plans for increased governmental activities during the recent administration, many of which have been undertaken and which cannot now be stopped, that there will be no appreciable let up in the governmental expense for a few years to come, at any rate. Such plans as Mr. Taft and his co-workers devise for bringing the expenses of the government to reasonable figures must be made for the future. But they will be needed then quite as much as they are now.

This rather disastrous condition of affairs in governmental finances seems to have been brought about by a desire to do things in a few years which ought to be the work of a generation. That is an American failing. Everyone in the land wants to see the United States grow and develop in all possible ways but the fabric of its growth should be woven slowly and with exceeding care, if it is to endure. A marvelous mechanism of a most up-to-date and progressive government will not be much of a priceless heritage for the people of today to leave to the succeeding generations, if it is going to bankrupt them to keep its machinery in operation.

MR. FLATDWEILER.

He Can't Find Any Place at Home in Which to Brush His Clothes.

"The problem of where to keep your clothes in a flat is hard enough," said Mr. Flatdweiler, "but a harder one to me is to know where to brush them. 'I like to keep my clothes neat and tidy, and so I brush them frequently, but I can't brush them in my own room, because my room is too small. If I should dust them there I should simply brush the microbes and bacilli and other animals, along with the dust, that I have gathered up in the street, out of my clothes into the bed and rugs and furniture; everything there is all so very close together you couldn't brush anything out of one thing there without brushing it into something else, and that wouldn't be nice. So every day I set out to brush my clothes in the kitchen, but goodness!'"

"Why, Augustus!" says Mrs. Flatdweiler, "you can't dust your clothes in the kitchen!" and that seemed to settle that.

"Then I tried one day brushing them in the dining room, that being comparatively a spacious apartment, but Mrs. Lady of the House shoved me out of there, too, and then I tried the parlor, but there I met Miss Flatdweiler."

"Father," she says, "don't you see that I've just dusted here! My! You can't dust your clothes in the parlor!"

"Then, where can I dust 'em?" I says.

"Mother won't let me dust 'em in the kitchen or the dining room and you won't let me dust 'em in the parlor, and there is no room in my own room. Where can I dust 'em?"

"You can dust them in the hall," she says.

"It's too dark there," I say. "I can't see to dust them there."

"Well," she says, "you can take them up on the roof."

"What do you think of that to come from one's own daughter in one's own house! I can take 'em up on the roof!"

"But seriously, this dusting business is a problem to me, and I am sure they are their things out of the window, and that looks all right for them, but wouldn't a man look ridiculous brushing his clothes out of a window? By gracious it looks as if it really would have to be the roof for mine!"—Boston Herald.

FROM HERE TO HERE. The Verdad. Cigars are composed of long, near Havana—the best grown. A single dollar could not buy any better. Vuelta Abajo tobacco, and skilled and Spanish hand workman in Tampa's climate combine to make a perfect cigar. That is the Verdad. The taste of every smoker can be satisfied by LA VERDAD cigars. They are made in 37 shapes and sizes ranging in price from 1 for 25c to 50c each. The quality is the best possible at the price. Ask your dealer for LA VERDAD. Non-Fernandez Cigar Co. Duluth and Tampa. M. C. SCULLY, Agent, Marquette, Mich.

Upper Peninsula

Puts Ban on Bird-Killing.

"No slingshots, no air rifles, no rifles, no dangerous implements of any kind," Chief of Police A. P. English of Menominee has issued his annual spring warning to youngsters and from now on, declare the officers, any boys found violating it will be arrested and prosecuted. For several weeks slingshots, air rifles and other dangerous implements have been used through the city with telling effect and a number of residents, in whose yards armed youths dashed in their pursuit of birds have asked the police to put a check to the practice. "I warned the boys last year that such weapons would not be tolerated but, judging from their actions during the past week or so, they appear to believe that the warning was just for the year," said the chief. "Now I repeat it and, by the way, there will be no second warning this year."

Recount of Votes Denied.

Ezra J. Boueha, Walter Featherly and Charles A. Olson, candidates, respectively, for the office of supervisor, clerk and treasurer, at the Municipal township election, caused to be served on M. A. Doty, Edwin Niness and Eugene Cotey, whom the official returns show were elected, copies of petitions for a recount of the votes cast in precinct No. 1. The petitions were addressed to the board of county canvassers and each candidate deposited a fee of ten dollars. In all three cases the petitions set up the same alleged facts. About two hours' time was consumed by the attorneys before the county canvassers. The latter, after hearing all the lawyers had to say, unanimously decided they had no jurisdiction and therefore declined to make a recount. Now an appeal to the courts on behalf of Messrs. Boueha, Featherly and Olson seems not unlikely.

Will Remove to the West.

M. J. Shirley, a leading contractor of the Soo, will leave this week for Spokane, where he will engage in business. Mrs. Shirley and children will visit relatives in Gladstone before going west. Eight years ago Mr. Shirley arrived at the Soo from Iowa. Since then he has taken a prominent part in business affairs in that city, being a stockholder in the Central Savings bank and vice president of the Upper Peninsula Building & Loan association. Among the largest jobs he has handled have been the erection of the barracks at Fort Brady and the Sault Ste. Marie brewery. He has handled many smaller jobs, the total expenditures for which make a sum running well up into six figures. "I am confident that the Soo is destined to be one of the most prosperous cities in the country," said Mr. Shirley, "but I have received a very good opening in the west and I can't afford to turn it down. I expect to be engaged in active business out there early in the summer."

Recalls a Fatal Brawl.

Made insane, it is believed, by a bullet being fired into his brain during a brawl near Ford River, Delta county, three years ago, when one man was killed instantly, Richard Gravelle, a half-breed, will be committed to the hospital for the insane at Newberry. Although physically recovered from the effects of the wound Gravelle has never fully regained his mental equilibrium and his condition has now become such that his commitment to the asylum is necessary. The body of Gravelle was wounded occurred at a saloon one mile north of Ford River. When a general fight started the bartender, who now lives at Escanaba, attempted to part the participants. The Gravelle brothers turned upon him and as both were over the body of Gravelle, he drew his gun and fired. One of the men was killed instantly and the other fell with a bullet piercing his forehead. The eldest of the Gravelle brothers finally recovered physically, but never regained his reason. At the coroner's inquest over the body of Gravelle, one of the men who fired the fatal shot was exonerated from all blame and was released without being held for trial.

"Ethiopian in the Fuel Pile."

Under the above title, the Escanaba Journal publishes the following: "M. Perron's last official act as mayor is under fire. He gave the contract for the resurfacing and tarring of Charlotte street to John McLaughlin, and it is claimed that the bid which was accepted was greatly in excess of the bids of two other contractors. The Journal inquired into the matter and City Engineer D. A. Brotherton stated that the Northern Constructing & Engineering company and the Solid Rock Paving & Construction company each bid 91 1/2 cents per square yard for the work, complete. Mr. McLaughlin bid 81 cents per square yard for the resurfacing and tarring and \$1.75 for all rock necessary in filling. Mr. Brotherton says there are 18,275 square yards in the street, and the two lowest bids would have amounted to \$1,553.38 for the resurfacing and tarring, but it will require at a very low estimate 500 cubic yards of rock for filling, amounting to \$875, and making a total of \$2,428.38, or \$962.25 more than the other bids. The Journal presents these figures just as they were given. If they are correct the matter should be looked into and the interests of the city protected."

Presbytery's Annual Meeting.

The spring meeting of the Lake Superior Presbytery held at Iron Mountain last week was one of the most successful ever held by the organization. The attendance was large and the program was very interesting. The opening sermon was preached by Rev. J. A. Kennedy, of Sault Ste. Marie. Enrollment was followed by an election of officers, resulting as follows: Moderator, Rev. Daniel Stalker, Ph. D., Calumet; stated clerk, Rev. M. Millard Allen, Ishpeming; temporary clerk, Elder T. LeRoy Christian, Ishpeming. The election of commissioners to the general assembly resulted in the choice of Rev. Daniel Stalker and T. LeRoy Christian. The alternates are Rev. M. M. Allen, of Ishpeming, and Elder Jay W. Sutton, of Sault Ste. Marie. The delegates present were: Ministerial, Daniel Stalker, Calumet; M. M. Allen, Ishpeming; W. Y. Jones, Japan; John Linn, Houghton; Daniel E. Long, Menominee; J. A. Kennedy, Sault Ste. Marie; J. M. Rogers, Marquette; J. R. Mitchell, Marquette; L. W. Westphal, Iron River; Percy B. Ferris, Escanaba; F. G. Westphal, Rudyard; D. C. Waters, Newberry,

Mayer HONORBILT SHOES FOR MEN. These splendid men's shoes represent the best there is in shoe leather. Every piece of material is of the choicest tannage. The workmanship is perfect; the styles are up-to-date. When it comes to service, there is nothing that equals them in lasting qualities. "HONORBILT" SHOES are everything the name implies. They are "built on honor." No matter where you look, or what you pay, you will never find anything that will outlast them in wear, style or comfort. If your dealer will not supply you, write to us. Look for the Mayer Trade Mark on the sole. FREE—Send us the name of a dealer who does not handle Mayer Honorbilt Shoes, and we will send you free, postpaid, a beautiful picture of George Washington. We also make Leading Lady Shoes, Martha Washington Comfort Shoes, Yermu Cushion Shoes and Special Men's School Shoes. F. Mayer Boot & Shoe Co. MILWAUKEE, WISCONSIN.

Marquette Bowling Club. 6 Alleys Open IN PERFECT CONDITION DAILY 9 A. M. TO 12 P. M. Try out the "loop the loop" returns. Backus Pir Spotters. Ladies session specially invited at morning and afternoon hours. Everything possible will be done for their comfort.

E. Burnham's Medicated Complexion Powder. Manufactures a special complexion powder that is without a single objectionable feature. It is prepared with the greatest care, after his original formula and only the finest ingredients are used. Remember that ordinary complexion powders are injurious to the skin—closing the pores and drying up the natural oils that make the skin clear and elastic. Ask for E. Burnham's Medicated Complexion Powder. It possesses a peculiar quality of adhering to the skin that makes it most lasting. In four shades: Burnette, Flesh, White or Blended. The E. Burnham preparations are on sale by the dealer named below. Call there and ask for a FREE sample of Complexion Powder, Massage Cream or Almond Meal and a copy of the Gift Booklet, entitled "How to be Beautiful" which tells how to obtain, and to preserve beauty. If you cannot call send ten cents (to cover mailing expenses) direct to E. Burnham, 70 and 72 State Street, Chicago, Ill.

YOUNG MEN WANTED. United States Government Gives Railway Mail Clerks \$800 a Year to Start and Increases It to \$1,200. Uncle Sam will hold an examination for Railway Mail Clerks in the vicinity of Marquette and throughout the United States on May 15. Many ambitious young men, with only a very ordinary school education, can readily pass. The government wants young men over eighteen, with common sense, to take examinations for railway mail clerks and carriers, and the government positions bureau, of Rochester, N. Y., with its peculiar knowledge of the requirements of the examination, can fit any young man in a short time to pass. A government position means steady work, good pay, and a yearly vacation. There is time to prepare for the May 15 examinations, and any reader of The Mining Journal can get full information how to proceed, free of charge, by writing The Government Positions Bureau, 391 Powers block, Rochester, N. Y. (4-10-14-17-21-24-28)

AFAIRS AT HANCOCK.

Board of Public Works Opens Bids for Important Improvement.

The Hancock board of public works met Monday evening for the purpose of considering bids for the furnishing of pipe, valves and hydrants for the new proposed water extension for which the people voted to bond the city for \$50,000. Bids were received for 28,630 feet of cast iron pipe varying from four to ten inches, 1,000 Hancock. Separate bids were received for the valves and hydrants.

The bids for the pipe were as follows: W. Bingham company, Cleveland, 816-734-02; Funkey Heating & Plumbing company, \$10,811.90. The bids for valves and hydrants were: W. Bingham company, \$2,949; Portage Lake Hardware company, \$2,990; Marshall-Wells company, \$3,120; I. E. Swift company, \$3,000; Funkey Heating & Plumbing company, \$3,190.70.

All the proposals were accompanied by certified checks for two per cent of the amount of the bid. The Bingham company being lowest bidder in both instances, a motion was made and carried that this concern be awarded the contract to furnish the pipe, valves and hydrants, subject to the approval of the council. All of the bids were sent back to the board by the council because of a lack of understanding, and the board met again last night to reconsider them.

New Council's First Meeting.

The city council recently elected met Monday night for the first time with W. Frank James, the new mayor, in the chair. Mr. James said, in opening: "The year is over. We are here to work for the city of Hancock. The fact that some were elected to this council as Democrats and some as Republicans will not interfere with our performance of our duty toward the city. As far as the mayor is concerned he will not observe party lines in making his committee appointments and will try to work with every member, whether Democrat or Republican."

Dr. W. H. Dodge, in support of the movement started by the Houghton County Anti-Tuberculosis society, asked the council to pass an ordinance prohibiting expectation in public conveyances. He presented a draft of a proposed law which makes it a misdemeanor to spit in any street or public conveyance, subject to a fine not exceeding \$10 or imprisonment in jail for not more than twenty days or both in the discretion of the court. On motion of Alderman Scullman, was referred to the health committee.

Mayor James reported that he had had some conversation with E. N. Bosson, the Calumet electrical expert, in regard to putting the telephone and electric light wires on Quincy street in underground conduits. Mr. Bosson had stated that he did not think he would have much difficulty in removing the poles from Quincy street and placing some of the wires on Hancock and Franklin streets without increasing the number of poles on those thoroughfares. This change may be made from the bridge to the railroad crossing. Mr. Bosson advises the city to build its own conduits. He will be authorized to draw up plans for the work and the mayor will appoint a man to assist him.

Attorney Lawton reported that he had written to the attorney general in regard to the inconsistency of the law controlling city elections which requires the city clerk to send both copies of the vote cast to the county seat, leaving none for the council. The attorney general said that the way around the matter would be to have the council pass a resolution at its meeting before election calling for three copies, the triplicate to be for the council.

Mayor James stated that his agency is carrying insurance on city property, and that as mayor he did not care to carry it any longer. Upon motion of Alderman Holland, the matter of renewing policies was left with the fire and water committee.

Red Jacket Appointments.

The following appointments were made by President Schumaker of Red Jacket at Monday night's meeting of his council: Marshal and chief of police, Joseph Trudell; night police, Joseph McNamara, Paul Spelar and James Glasson; street commissioner, M. Jaakola; attorney, Anthony Lauer; health officer, P. D. McNaughton; engineer of fire departments, Fred W. Peppler; assistant engineer of fire department, John Hermann; fire alarm electrician, Joe Paul; electrical inspector, C. V. Willis; superintendent of sewers and plumbing, Captain J. S. D. Smith; fire warden, Joseph Trudell.

SUCCESSFUL WOLF HUNTER.

Chassell Taxidermist Had to Have One for Mounting and He Got It.

August E. Savoula, the Chassell taxidermist, had an order for a mounted wolf and found it impossible to secure one from any hunter. All who agreed to bring him in a wolf failed in the efforts to land one of the wary animals, the wolves refusing to fall victim to trap or poison or any of the other means in use. Mr. Savoula simply had to secure a wolf so he decided to take the matter into his own hands. He went to Silver Mountain last week and he returned Monday morning with the wolf. He still hunted the animal and shot it. This is an unusual feat and gives Mr. Savoula credit for a high degree of skill as a hunter.

FRENCH FORM NEW CLUB.

The officers of the Houghton County French-Canadian Nationalization club which has headquarters in Hancock, went to Hibbel Sunday evening and formed a new branch of the organization with fifty charter members. This makes the fifth club in the county, each one a branch of the county organization. The Calumet and Wolverine societies have been merged. The annual election of officers of the county club will be held on Sunday, May 2.

CHURCH CONVENTION.

The semi-annual meeting of the Lake Superior Association of Congregational Churches will be held at Calumet next Tuesday afternoon and evening. The afternoon session will open at 1:30 o'clock. The churches represented will present their reports and discussions will follow. Each church is entitled to six delegates in addition to its officers.

Both offices open evenings.

Phones, Calumet, 64 and 75. Laurium, 450, 520 and 605. 4-10-12m.

CALUMET CONVENTION NOTES.

U. P. League of Master Plumbers to Meet When Elks Do.

It was announced yesterday by Harry Herman, of Laurium, president of the Upper Peninsula League of Master Plumbers, that the league would meet in Calumet during the week of the Elks' convention, June 15 to 17. It will be the annual convention of the league, which has for its principal object the promotion of sanitary plumbing. The arrangements locally are in the hands of the copper country branch, officered as follows:

President—Fred W. Stoyke of Houghton.

Treasurer—William Funkey of Hancock.

Secretary—Theodore Steller of Houghton.

The Hancock lodge of Elks is going to keep open house during convention week and for the purpose of raising a fund for entertainment a vaudeville show will be given late in May. George F. Carroll, late of the dramatic stage, now resident in Houghton, will have charge of the production, which will be a unique affair, consisting of plain and fancy and foolish vaudeville stuff by both performers and almost performers.

At the annual reunion and convention of the upper peninsula league, Knights of Pythias will be held in Calumet the last week of June, the degree of the Dramatic Order of the Knights of Klorassan will be worked on 100 candidates from different towns of the upper peninsula by the crack team of El Sirat temple, Duluth. Practically all arrangements have been made for the visit including many from Superior as well as from Duluth and the Mesaba range towns. A special boat has already been chartered to bring the Duluth and Superior people to Portage Lake, from where they will come to Calumet by special train.

Charity lodge will be hosts during the convention and during the gathering of the Knights of Klorassan. Charity lodges has already sent announcement to the other lodges connected with the Upper Peninsula League, K. of P., that the degree of the P. O. K. K. S. will be worked on candidates during the league convention, and names of candidates are coming in rapidly. The number may run over 100, but at least this number, a large number of them being from the five copper country lodges of Calumet, Laurium, Houghton, Hancock and Chassell, will be initiated. The order of the Knights of Pythias was to the Knights of Klorassan to the Knights Templar and to the Masons. It is distinctly a social order. The work is beautiful and impressive.

El Sirat temple Duluth, will send its full paraphernalia to Calumet with the degree team. All the candidates taken in at this ceremonial session will be members of El Sirat temple, as are the sixteen copper country knights who took the degree at Duluth early this month. The Knights of Klorassan in the copper country will institute a temple at Calumet, however, during the coming summer, but at least 100 members of the order must be secured before a charter will be granted. It is understood that the Knights of Klorassan in the copper country will institute a temple at Calumet, but at least 100 members of the order must be secured before a charter will be granted. It is understood that the Knights of Klorassan in the copper country will institute a temple at Calumet, but at least 100 members of the order must be secured before a charter will be granted.

BRIGADIER BATES IS HERE.

Little National Guardsman Says a Few Things About the Militia.

General Robert J. Bates of Sault Ste. Marie, commander of the Michigan National Guard, arrived in Houghton yesterday morning, on private business. When seen General Bates said his connection with the copper country military companies, but he was not averse to talking about the National Guard and its affairs.

The recent change in the command of the Houghton Light Infantry, the assumption of the office by Captain Martin Foley, was gratifying to General Bates. He said that if the National Guard had a few more men like Captain Foley it would be for the good of the guard. "He's the sort of a man who'll make soldiers of his men or break their necks," said the general. "He has the energy, the ability and the standing in the community required of a successful company commander." General Bates said that the Houghton company may now consider that it has a good commander. The headquarter talk of National Guard matters in a general way. He said that the guard is growing more and more a military establishment on the order of the national regular force. The requirements are stricter and as an instance he says that out of nine officers generally is willing to say that the national guardsmen do not receive sufficient remuneration, but they receive all the state can afford and the state must rely on their patriotism and their pride in the guard to make up for that deficiency.

Have You a Summer Stove?

The stifling air of a close kitchen is changed to comfortable coolness by installing a New Perfection Wick Blue Flame Oil Cook-Stove to do the family cooking.

No kitchen furnishing is so convenient as this stove. Gives a working heat at once, and maintains it, until turned out—that, too, without overheating the room. The

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is built with a CABINET TOP just like a steel range. It is the most convenient stove ever made, and is almost indispensable to summer comfort. From its powerful burners to its handy racks for towels and a simply PERFECTION. These sizes. Can be had either with or without Cabinet Top. Ask your dealer, or write our nearest agency.

The Rayo Lamp

is a very handsome piece of housefurnishing and gives a clear, powerful light more agreeable than gas or electricity. Safe everywhere and always. Made of brass finely nickel-plated—just the thing for the living-room. If not with your dealer, write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

TAX COMMISSION REVIEW.

Timber Values in the Copper Country Are Being Looked Into.

The state tax commission has begun an official review of timber land assessments in Houghton and adjoining counties, with a view to determining the real values of property over which there has been more or less complaint because of the discrepancy between the amount assessed and the amount asked for the land by the owners. Fred M. Twiss, chief examiner for the tax commission, arrived in Houghton for a conference with Robert H. Shields, chairman of the board, and subsequently departed for the Duluth and Mesaba range towns. A special boat has already been chartered to bring the Duluth and Superior people to Portage Lake, from where they will come to Calumet by special train.

Charity lodge will be hosts during the convention and during the gathering of the Knights of Klorassan. Charity lodges has already sent announcement to the other lodges connected with the Upper Peninsula League, K. of P., that the degree of the P. O. K. K. leaves the ground. The operations will be under the strict supervision of the local management of the Quincy Mining company.

The work of retimbering the Alpha shaft of the Gironx company has progressed to below the 800-foot level. As soon as the 1000-foot level has been reached, a force of men will be put at work drifting in search of solid ground through which to sink the big new shaft to be called the Gironx. There are now about seventy men on the Gironx pay-roll and the number is being slowly but steadily increased as more chum drills are put into use and the scope of the company's development work is broadened.

In No. 1 shaft (Ojibway) has reached the 800-foot level. The encouraging feature of the development is that with depth the copper shows as rich as in the higher levels. There are occasional stringers of copper evidencing the proximity of the lode to the shaft at this point. Now that the 800-foot level in No. 1 shaft has been reached it is the intention to connect the two shafts in the lode, thereby developing the lode on a horizontal line, whereas up to the present the development has been vertical. Very good copper rock is being taken.

Both the Nevada Consolidated and Cumberland-Ely have demonstrated that they can produce and lay copper down in New York, including every possible charge, at eight cents per pound, thereby placing these companies in the front ranks of the low cost producers, says the Boston News Bureau. Recent figures have shown a net cost to the Nevada Consolidated of 7.03 cents per pound, crediting railroad and smelter earnings against copper costs, but not figuring any interest on or depreciation of plant. Cumberland-Ely net costs amounted to 7.85 cents per pound on the same basis.

During the month of March, Utah Copper made a record production. An average of better than 7,000 tons of crude ores was milled daily, and its output is estimated at from 4,500,000 to 5,000,000 pounds of copper. This improvement is due to improved transportation facilities. The Bingham ore line has been improved, and the prospects were never better for the mining company to have delivered all the ore that will be needed to keep its plants at capacity. This is the first time that Utah Copper has had the entire twelve sections of its Garfield plant running. With its increased output the cost is estimated at a fraction less than eight cents a pound.

For January the Isle Royale stamped 22,500 tons of rock, for February the figure was over 36,000 tons and for March over 40,000 tons. The mine is now in a position to stamp about 40,000 tons of rock per month for the remainder of the year so that for the twelve months the total rock stamped will amount to approximately 450,000 tons, or more than double the 1908 figures. The cost of stamping last year was 27.85 cents per ton. Owing to the fact that the mine is now in a position to be worked more intensively, it is expected rather than a developing proposition, it may be expected that all costs will be lower than ever before, so for the current year there will probably be a surplus after all charges.

It is safe to figure, however, that eight cents will fully cover the total cost of making copper at the New York, sold by the above two companies. At the present time, in volume of output, Nevada Consolidated is not doing much better than Cumberland-Ely, but the former company is expending about \$1,500,000 in enlarging the Steptoe plant and "this year two million it should be materially increased its output as a result. The Cumberland-Ely mining operations are at present confined to its Veteran ore body, but it has been prospecting with chum drills upon other portions of its territory and is understood to have secured results which would indicate that it may have a steam shovel proposition of as large an extent as the Nevada Consolidated.

In another month the management of the Quincy Mining company will have up for consideration the quarterly disbursement to stockholders due to its paid in June and the balance on or before July 1 on account of the purchase of the old Franklin mine from the Franklin Mining company. This latter transaction will have cost the Quincy \$170,000, the sum which it agreed to pay for the old Franklin mine and former mill site. Of the total, \$50,000 was paid in cash last year, while the balance of \$120,000 the Quincy gave its note. A portion of these notes has subsequently been paid off, while the Quincy has until July 1 to complete payment on account of the purchase. It is expected that the directors of the company will meet some time next month to take action on the dividend. No change from the 81 rate has prevailed for the past four quarters is anticipated.

During the month of March the Boston Consolidated operated ten sections out of thirteen of its 3000-ft mill. Its coppery mines produced 53,100 tons of which 53,100 tons were milled, producing 2,750 tons of concentrates which contained 1,105,000 pounds of copper. From the sulphide end there were total shipments of 7,563 tons of ore which averaged 2 1/2 per cent copper. Its total copper output for the month was 1,400,000 pounds. The eleventh section of its mill will go into operation this month, and mechanics are at work completing the remaining two sections. The sulphide end of the property is under a new aggressive development, and the results have been most satisfactory, as a new body of ore has been located from the main drift in the mine which shows an average value of 3 1/2 per cent copper, and gives evidence of being a large ore body.

Ely's Cream Balm has been tried and found wanting in thousands of homes all over the country. It has won a place in the family medicine chest among the reliable household remedies, where it is kept at hand for use in treating cold in the head just as soon as some of the household begins the preliminary sneezing or sniffing. It gives immediate relief and a day or two's treatment will put a stop to a cold which, if not checked, become chronic and run into a bad case of catarrh.

Star preaching is apt to mean night in the church.

NOTES OF COPPER NEWS.

Parrot is drifting on the big vein on both the new levels, at a depth of 1,300 feet. The report for 1908 shows excellent ore, the ore being opened up is "good for Parrot." The average assay is about 4 per cent copper.

The management of North Butte insists that recent developments have added greatly to the wealth of the property and that the drifts have not yet reached the point where the big ore bodies are expected.

Adventure has worked out all details in connection with the proposed new shaft which will be put down to tap the three lodes disclosed by diamond drill explorations of the past year, and is now waiting for final instructions from the eastern office. The work is expected to be in progress soon after the snow

PURELY S.S.S. VEGETABLE

The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons why it is the most widely known and universally used of all blood medicines. A great many of the so-called blood purifiers are really nothing more than strong mineral mixtures which act so unpleasantly and disastrously on the delicate membranes and tissues of the stomach and bowels, that even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians, and even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. It is made entirely of the healing and cleansing extracts and juices of roots, herbs and barks, each of which is in daily use in some form by physicians, and even if such treatment purified the blood, the condition in which the digestive system is left would often be more damaging to the health than the original trouble. Not so with S. S. S.—it is the greatest of all blood purifiers, and at the same time is an absolutely safe and harmless remedy. NYAL'S ROACH POWDER

Cockroaches, water bugs and other unwelcome frequenters of the kitchen, bath room or dining room will disappear if you sprinkle Nyal's Roach Powder where they can get it.

This powder is non-poisonous, but it's death to roaches, etc., and will rid your premises of them, for those that do not die will leave. Price 25.

Nyal's Death to Flies (5c) and Nyal's Death to Rats (15c) are also the best things in their ways. There is positively no reason why you should be bothered with household pests when you can get these famous Nyal preparations; but, remember, this is the only store in town that sells them.

THE SUPERIOR LUMBER COMPANY

City Brevities

Today's weather: Partly cloudy with probable showers; increasing winds, mostly easterly.

Yesterday's temperatures: Seven a. m., 38 degrees; noon, 48; 7 p. m., 45. Maximum, 53 degrees; minimum, 27.

S. T. Harris went to Houghton on business yesterday.

S. E. Kaufman returned from Detroit and Cleveland yesterday afternoon.

E. L. Pierce, of the Lake Show Engine Works, went to Houghton yesterday.

W. H. Beals, who returned home from Florida Sunday, has gone to Chicago.

The G. L. A. to the B. of L. E. will meet at Keough's Hall at 2:30 o'clock this afternoon.

F. M. Moore, clerk of the United States court, is expected home from Florida Sunday.

Frank Pondill has gone to Isle Royal, for the summer, where he is United States customs officer.

Mrs. Anna Trah, of Negaunee, who has been at St. Mary's hospital, returned to her home yesterday.

Art Kirby of Ashland, representing the Wisconsin Car Service association, is in the city, on business.

Captain Chas. York and C. M. Gooding are at Sault Ste. Marie this week, inspecting a number of steamboats.

Mrs. W. H. Beals, who has spent the past winter with her husband in Florida, has returned to this city, where she will spend the summer.

John H. Jacobs left yesterday for Salt Lake city, where he will look after mining interests and investigate some new gold propositions.

Miss Edith O'Meara, a senior at the Normal, who recently underwent a serious operation at Green Bay, is getting along nicely and there is every reason to believe that she will recover her former good health.

Rev. J. M. Rogers lectured at Stambaugh last night on the subject "A Mountain Trip Through Colorado." The lecture was illustrated by stereoscopic views and was given for the benefit of the Spring Valley Presbyterian church.

S. L. Barney is in the city for a few days' visit. He has lately returned to Ishpeming from Helena, Mont., whither he had gone in response to a message announcing the serious illness of his daughter, Mrs. Leslie, formerly Mrs. Todd of this city. Mrs. Leslie's present condition is satisfactory.

Carl O. Rydholm started for Cleveland this morning to become second mate on the Cleveland-Cliffs steamer "Choctaw." He will probably act as ship keeper for a few weeks until the boat is fitted out. This is Mr. Rydholm's first season with the Cleveland-Cliffs company, having been employed on the Choctaw, Frontenac, Centurion, Ishpeming and Michigan.

Real Estate Deal—The property unit recently owned by Edward Timmons at the corner of Genesee and Altamont streets, has been sold to Michael J. Hogan by Avire & Palmer.

Will Raise Poultry—W. B. Brown, of 817 Pine street, has purchased forty acres on the Chocoyla river, and will make a specialty of raising poultry on the farm. The tract has good buildings and is in a fairly good state of cultivation.

Spelling Contest—There will be a spelling contest at the high school Thursday afternoon, in which all the students will participate. The contest will consist of seventy-five words, taken from the Thursday Mining Journal, which are to be written.

Modern House Sold—John Robertson has sold the fine seven-room house, which he built on East Prospect street last summer, between High and Pine streets, to Carl Whittier. The house is modernly equipped in every way and will make a pleasant home.

Fishing May Start Today—The Anderson and Parker fish houses are busy getting their tugs and nets in shape to start fishing and it is possible that some of the nets may be put out for the first time today. The ice is now out of the harbor and bay and there is no apparent reason why the season's work may not begin.

Four Days' Examination—A four days' examination for the position of midshipman in the United States naval service is in progress at the government building. Three candidates are taking the examination, two from the copper county and one from Marquette. This is the first examination for midshipmen that has been given in this city.

Girls Played Basketball—The Senior Junior, Sophomore and Freshmen girls' basketball teams of the high school made their first appearance before an audience at Legion Hall last evening. The Junior girls won their game with the Seniors by a score of 9 to 7, and the Sophomores their game with the Freshmen by the score of 6 to 3. There was a large crowd of spectators, consisting of members of the high school and invited guests. Much enthusiasm was manifested and, as the games were close and exciting, there was ample opportunity for all to cheer their favorites.

"Eat" to Give Party—Invitations have been issued for a dancing party to be given by the Alpha Beta chapter of the Kappa Alpha Pi fraternity at Fraternity Hall Tuesday evening, May 7. This society is largely composed of high school boys although it is not a high school fraternity. This party promises to be one of the most brilliant social events of the season and the committees are already at work planning the decorations and preparing the musical program. Black, yellow and red, the colors of the fraternity, will predominate in the decorations and a large electrical piece, representing the pin and seal of the fraternity, has already been made. Those who usually attend functions of the nature are cordially asked to be present even though through an oversight they may not be recipients of a formal invitation.

WM. ALDEN SMITH STIRRING THINGS UP.

In the Lighthouse at the Nation's Capital City, Michigan's Junior Senator Becomes More Solid With the Folks at Home Than He Ever Was Before.

Washington, April 20.—That Smith-Burrows pipe of peace business directs attention to the present status of William Alden as a factor in Michigan politics. And the thing about which there seems to be little difference of opinion is that with the people of the state the Grand Rapids statesman is more solid than he ever was before. He has done the sort of things which force newspaper comment, whether favorable or unfavorable, and which have furnished the constituents in Michigan with much interesting reading. Whatever else he has accomplished, he has given the Michigan people very striking evidence of how a senator can do things to create a stir, and the evidence is that he has profited through this demonstration. He has assailed the mighty Aldrich, ridden roughshod over the cultured friend of the former president, Henry Cabot Lodge, and has planted himself solidly against a conservation treaty upon which the heart of the popular Roosevelt was fully set. Sometime he was criticised, but always he was talked about. The people up in Michigan were at least gaining the impression that he was a live wire, which is mighty good advertising.

Don't Like His Methods. The methods which have brought about this situation are the chief things which Senator Burrows' critics find fault with. They declare that they like William Alden personally, but that they seriously object to his way of doing things. And their characterization of the way he does things vary from saying that he is dramatic to the assertion that he looks his own horn too persistently. This sort of criticism is not at all surprising in men who lack the gentle art of the first class press agent. The fact is that nearly all the rest of the Michigan politicians in Washington go about their daily duties with comparatively little regard for hitting the dramatic high places. They do committee work which is frequently humdrum and is of exceedingly little interest to the people of Michigan. The result is that the people at home sometimes wonder whether they are really doing much after all.

This was illustrated by the earnest query of a recent Michigan visitor. He was listening with some surprise to a fair statement about the continuous activity of Senator Burrows, whose committee assignments and long experience necessitate a close attention to the details of legislation. "Yes," said the visitor, "but does he really accomplish much?"

This query reflects the fact that Senator Burrows does his work chiefly in the hidden fastnesses of the committee room, where it is merged with the labors of many others. This has gained for him the reputation of having his ear constantly to the ground. In less friendly circles it has led to the conclusion that the senior senator serves as an agency by which the so-called senate oligarchy brings things to pass.

But in any event his performances are not in the limelight, his accomplishments fill in great measure the newspaper space and the lack of material for free advertising may perhaps raise more or less commonly the question which was voiced by the recent visitor. And in this respect the senior senator is probably not so very different from the majority of the Michigan politicians here who attend very faithfully to their routine duties.

Throughout his legislative experience William Alden has never allowed routine committee work to interfere with his broad view of what the people back home will think. With little regard for the details of the lodge incident and himself to the high spots. He is master of practical psychology and would have made a great showman had his talents not been devoted to statesmanship. A fair illustration of this is afforded by his attack on the railroad bond feature of the Aldrich bill.

Scores Strongly Against Aldrich. With his unusual grasp of public sentiment, which seems intuitive, he perceived that this was his chance to take a fall out of the father-in-law of Standard Oil. In that he could make no mistake, for Senator Aldrich does not wear wings in such pictures of him as are popular in Michigan.

The sheer daring of this pouncing upon the boss of the senate was enough to do the business back home. And so it was with the lodge incident and the opposition to the Canadian treaty. The fact which doubtless made the great impression in Michigan was that William Alden was in a big fight, which in itself helped much, for almost every one loves a fight.

Some statements there may be who would have spent long thought upon the details of that treaty business. They would have considered the broad effect upon the future treaties with Great Britain, and particularly the benefit which seemed sure to come to private interests at the Soo, in the event of success. He took the broad ground that he was working for the state, and he talked so much about that phase of it that the private interests involved took a back seat in public attention.

The result was that the big thing which has left the lasting impression is that William Alden took a determined stand, made a fight and won. That places William Alden in the desired perspective and the rest doesn't matter much.

The junior senator is aware of the criticism of his methods. His own defense of them, if he considered that they needed defense, would be their success. "That isn't my way of doing things," he said to his young helper. "It might be all right for other people to do things that way, but I'm accustomed to my own methods. I have been fairly successful at doing things my way, and I see no reason for changing."

And this sort of answer is sufficient to puzzle the senator's critics. They are all obliged to admit that his way of doing things has landed him high and dry in the United States senate, which isn't so bad, after all.

OXFORD SHOES

JOHN MITCHELL SPEAKS AT YALE DIVINITY SCHOOL. Former Head of the Miners' Union Gives as His Solution of the Problem of Modern Industrial Life a Lateral Application of the Golden Rule.

Const railway extension, died suddenly here today. The railroad project of which Meredith was in charge consisted of the extension of an all-rail line across the Florida keys to a point about ninety miles from Cuba.

UNCLE IKE NOT TO TESTIFY. Consideration of the Tariff Bill Will Keep Him in Washington.

Madison, Wis., April 20.—Senator Stephenson will not come to Madison today at the present time, because the consideration of the tariff legislation will keep him in Washington.

SENATE STANDS FIRMLY. Insists Upon the House Accepting Its Amendments to the Census Bill.

ADVOCATES BIG EXPENDITURE. Congressman Randall Would Spend Five Hundred Millions on Waterways.

Boston, April 20.—Congressman Randall of Louisiana, president of the National Rivers and Harbors congress, advocated improved waterways in an address here tonight before the New England Dry Goods association.

THOSE WHO HAVE DIED. Peoria, Ill., April 20.—Colonel Isaac Jones, conceiver of the Lakes-to-the-Gulf deep waterway idea, died today from heart failure.

FIERCE RAILROAD WAR IN SIGHT.

C. M. & St. P. to Invade Jas. J. Hill's Wheat River Territory. Chicago, April 20.—A fierce war between the Great Northern and the St. Paul interests is seen by railroad experts as a result of the departure from Chicago during the last few days of four or five surveying parties headed by the St. Paul.

FLORIDA YOUNG WOMAN KILLS HER FAITHLESS LOVER.

Jacksonville, Fla., April 20.—Following closely on the heels of the announcement of the approaching marriage of Earl P. Adams, an actor and stage director, to Miss Elizabeth Bagley, Miss Jessie Brown, a well-known young woman, to whom Adams had been previously engaged, shot and killed him this afternoon at her home, where it is alleged that Adams went to explain to her his approaching marriage to Miss Bagley.

WHIPPED BY NIGHT RIDERS; GET DAMAGES OF \$25,000.

Paducah, Ky., April 20.—Damage in the sum of \$25,000 was awarded L. A. Baker and Nat Frizzell in the federal court today. The defendants against whom the judgment was rendered are United States marshals in charge of the Paducah, Ky., district.

FIVE JURY MEN ACCEPTED AT TRIAL OF CAPT. HAINS.

Flushing, N. Y., April 20.—After two days of tedious grinding to get a jury to try Captain Peter C. Hains, Jr., for the murder of Wm. E. Annis last August, court adjourned today with five men in the jury box.

GOTCH DEFEATS DAN M'LEOD.

Waterloo, N. Y., April 20.—It took Champion Gotch eighteen minutes and twenty seconds to get the first fall tonight at Waterloo, when he met and defeated Dan McLeod in a wrestling match. The second fall came in five minutes and sixteen seconds.

Danville, Ills., April 20.—Dr. B. F. Roller, of Seattle, tonight defeated Henry Winkiehofer, of Chicago, in a wrestling bout here, winning in two straight falls.

EAST BUTTE COPPER.

Acquisition of the Pittsmtont Company's Properties Is Proposed.

Boston, Mass., April 20.—A special meeting of the stockholders of the East Butte Copper Mining company will be held at Phoenix, Ariz., May 11 for the following purpose: To see if the stockholders will ratify an agreement entered into for the purchase of the bonds and stock of the Pittsmtont Copper company.

costs an average of 3-16 of a cent per mile per ton, a rate which, if applied to the shipment of materials such as steel, grain or machinery from Chicago to St. Louis, under like conditions, would cost for the entire distance 50 cents per ton of 2,000 pounds. The cost of carrying coal by railroad from the mines to the several industrial centers of Germany ranges from 10 to 11 1/2 per cent, or from three to four cents per ton, or from three to four cents per ton, or from three to four cents per ton, or from three to four cents per ton.

"The relative cost of moving freight by land and water may be seen by the following: A horse team pull at a speed of three miles an hour on level road, two tons; on railroad, fifteen tons; on canal, eighty tons. Canals, under ordinary circumstances (the Panama exception being an extraordinary and unusual case), can be built considerably cheaper than railroads. Boats and barges cost one-fifth as much as freight cars per tonnage capacity. The waterways and boats may be maintained at an insignificant comparative expense, and a steam-towed cargo of freight on a good, broad canal or waterway will travel 1,000 miles in less time than the railroads require to deliver the same amount of freight; a fact due to crowded rails, congested terminals and car shortage.

"An English political economist, after a thorough study of Germany's inland waterways, says: 'If the German waterways should be blocked for a year the whole of Germany would probably be ruined, for Germany cannot live without her waterways. A further circumstance in favor of water traffic lies in this: That far more traffic can pass over a broad canal than can be sent over a railway. It is, therefore, clear that large cargo tonnage is much as freight cars per tonnage capacity. The waterways and boats may be maintained at an insignificant comparative expense, and a steam-towed cargo of freight on a good, broad canal or waterway will travel 1,000 miles in less time than the railroads require to deliver the same amount of freight; a fact due to crowded rails, congested terminals and car shortage.

"The United States could, perhaps, reach no more practical result, nor one of possibly greater advantage, to its enormous producing interests than by turning its attention in the direction of the improvement and development of its waterways. The mileage of the inland waterways of Germany, if possessed by the United States in proportion to the area as compared to that of Germany, would be equivalent in lineal measure to forty parallel waterways east and west from the Atlantic to the Pacific, and twenty parallel waterways north and south from Canada to the Gulf, and that would mean a network of canals for a state like Ohio, say running east and west and north and south, which would be something like forty miles apart from boundary to boundary, in all four directions. With this in view, the importance of Germany's waterways may be properly appreciated by the American student of this subject."

A man must always be present when he is being shaved. This is one rule that has no exception.

When You Clean House

you will need some of the things that we sell at this store. There's Ammonia, Borax, Sal Soda, Sponges, Chamois, Disinfectants, Insecticides, etc. These things make the work of house cleaning lighter and more thorough, and it will be better done than it could be if you tried to get along without them. You're safe in buying these things here. If they are not satisfactory, bring them back. We'll thank you and then satisfy you.

Ishpeming Department

(Additional Ishpeming on Page Seven.)

Y. M. C. A. TO HAVE ATTRACTIVE QUARTERS

NEW BUILDING, JUST BEING COMPLETED, WILL ACCOMMODATE LARGE MEMBERSHIP AND ALL DEPARTMENTS WILL BE COMPLETELY EQUIPPED.

The new building of the Young Men's Christian association will soon be completed and made ready for the men of Ishpeming and vicinity. The dedication will be held in May, the definite date to be announced later.

A folder will be issued, giving all information regarding privileges, cost of membership, etc. The building has been arranged with marked attention to the social department. An elegant lobby located on the main floor will be furnished attractively and provided with games, such as checkers, chess, pool, billiards, etc., where leisure time may be well spent amid clean surroundings.

A reading room opens from the lobby and will be supplied with a number of daily papers and first-class magazines. The bowling alleys, located in the basement, are standard length and thoroughly equipped with all needed accessories.

A kitchen on the second floor, opening from the lecture room, is fitted out with modern conveniences in the culinary line and the work usually attending the services of lunches and banquets will be a mere pastime.

Socials and entertainments will be arranged by the social committee.

Departments Well Equipped.

In the physical department the equipment will be of the best. The gymnasium is forty by sixty feet with a complete equipment of apparatus and a first-class concave running track thirty-three laps to the mile. All gymnastic classes will be under the direction of a trained physical director, who will also make physical examinations when required and prescribe such exercises as will tend to the health and physical development of those taking the training.

This department also includes an enamel tile lined swimming pool sixteen by forty feet, where the water will be kept at a healthful temperature for swimming both summer and winter. Swimming instructions will be given in connection with gymnasium classes. Steel lockers have been installed for members using the physical department privileges and will be rented for \$1 per year. There are ten marble lined shower baths in the building where hot and cold water will be constantly on tap for the use of members any time during the hours when the building is open.

Out door sports, summer camps, hikes, etc., will be arranged and conducted by the physical department. Twenty-two bed rooms will be constantly on tap for members at a nominal rental.

Classes to be Organized.

The educational classes will be arranged as soon as possible. It is the object of this department to conduct educational activities along practical lines and fit men for promotion in their present occupation, or prepare men for any department of work in which they want to enter.

Classes and clubs will be arranged to meet the demand or apparent need, and those desiring aid in any course of study or who have suggestions as to needed classes are asked to consult with the general secretary. A small tuition fee will be charged students entering classes. Full particulars will be announced later.

Bible classes and religious services will be conducted by the association in and outside of the building and the association stands ready to help in advancing the moral and spiritual life of the community and to co-operate with the churches in winning men to the Christian life. The building, with the exception of the gymnasium, baths and games, will be open part of the day on Sundays, and all men are invited to gather and join in the special features, which will be arranged suitable for that day.

Separate Quarters for Boys.

A suite of rooms on the second floor have been fitted up for boys and can be reached through the boys' entrance on Division street. Special work for boys in all departments will be conducted under trained supervision and leadership during suitable hours. Boys will not be allowed the use of games in the main lobby, but suitable games and reading matter will be provided for them in their own rooms.

The membership fees will be as follows: Juniors: Boys between the ages of twelve and sixteen years, first year, \$2.50; after first year, \$2. Intermediate: Boys between the ages of sixteen and eighteen years, first year, \$4, after first year, \$3. Seniors, all men over eighteen years of age, first year \$6, after first year, \$5. There will also be what is usually termed in many associations a "life" membership. These will be men who wish to help in carrying on the work of the association and who will pay a membership fee of \$20 per year.

A small fee will be charged for the use of billiard and pool tables and bowling alleys, to cover the cost of maintaining these games. A charge of two cents will be made for the laundering and use of association bath towels. All other privileges will be included with membership fee.

Application blanks will be ready next week and can be secured from the committee on membership, whose names will be published later. Membership cards will go into effect after the opening of the building.

It is not necessary to be a church member to join the association and all creeds are welcome.

TO THE MERCHANTS.

Notice is hereby given that I will not be responsible for any debts contracted by my wife, Mabel Hosking, of Empire street.

JOHN NORRIS HOSKING, Ishpeming, Mich., April 18, 1909. (4-19-1w)

WHY SIEBENTHAL QUIT.

Baseball Player Did Not Think Ishpeming's Offer a Fair One.

Tate Siebenthal, who was to have pitched for the Ishpeming team this season, yesterday said that he did not consider that the Ishpeming men had used him just right. He said that he did not agree to accept the same percentage that is to be given other players in the team when the net gate receipts are divided. The question was discussed at the meeting when the team was reorganized a few weeks ago, but Mr. Siebenthal had nothing to say. He was not asked whether an equal division of the net receipts was satisfactory, he stated, and he did not know his position in the matter until the proposition was squarely put to him. He said that besides being expected to pitch the principal games he was also to play in the field when not pitching. He considered that he or any other pitcher doing the bulk of the work in a team is entitled to extra compensation. He further said that he has accepted Negauance's proposition, which will give him twice as large a percentage of the receipts as any other player on the team will receive, and he is going to play with that nine this summer.

An effort is already being made to arrange an exhibition game between the Ishpeming and Negauance nines a week from next Sunday. None of the players have yet been out to practice, but if the weather comes around bright and enlarged and otherwise improved, and the grounds will receive attention.

FROM MORGAN'S CURE LETTER.

"After two days' holiday in Boston, the market for copper shares opened steady. The grand stand will be put up by the end of the week. The market for copper shares opened steady. The grand stand will be put up by the end of the week. The market for copper shares opened steady. The grand stand will be put up by the end of the week.

BUYERS LAND IN GERMANY.

Blacksmith Healer of Wisconsin Leaves Tomorrow for Old Country.

"Dr. John Till, the healer of Almend, Wis., who has treated several hundred Ishpeming people during the past six months for various ailments, has purchased a ticket for Hamburg, Germany, through the Canadian Pacific steamship company, and it is reported that he will sail tomorrow.

Till, it is said, has purchased a large tract of land near Hamburg, costing him thousands of dollars. When the act violates the constitution of the state, in that it does not provide a uniform tax upon the properties affected.

A number of the former residents of this city have written very discouraging letters to their relatives here and some of them assert that it is likely that most of the properties on the Western Mesaba range will be forced to close down if the bill becomes a law. Governor Johnson's office was on Monday absolutely flooded with telegrams from Northwestern Minnesotans urging him to veto the bill. The Duluth papers asked every man in the district to send a pre-

paid telegram to the governor at St. Paul protesting against the bill. It was hoped that such an exhibition of public opinion would save the day.

CLEAN YOUR CHIMNEYS.

Ishpeming people desiring their chimneys cleaned are asked to telephone their orders to No. 1 fire engine house, 1 am in the city every day and will give all orders prompt attention.

WILL ARRIVE BY SPECIAL.

"The Red Mill," which played at the Lyceum theater, Duluth, the past two nights, will arrive in the city this evening at 6:30 o'clock by special train via the South Shore line. Special train cars are necessary to transport the company, in which there are over sixty people. There is a full carload of scenery, also a carload of other baggage. The company goes from here to the copper country and will travel by special train from Hancock to Negauance at the close of the performance at the Kerredge after Friday night and will leave Negauance Saturday morning for Menominee.

HILL FIGHTING A SPHINX.

His North Coast Railway Is Being Obstructed.

Robert E. Strahorn Rapidly Pushing Construction—\$1,000,000 Has Been Spent by Him for Spokane Terminals—Mystery as to His Backers Still Unsolved.

Spokane, Wash., April 20.—Robert E. Strahorn of Spokane, formerly a resident of Boston, is the Sphinx of the state of Washington, and the North Coast Railway company, of which he is president, is declared by officials of transcontinental lines to be the enigma of the transportation situation in the Pacific Northwest. Everybody is guessing and conjecturing. Mr. Strahorn is active in construction work on a line between Spokane and Puget Sound. Seven hundred miles of line has been surveyed, and there are trusted agents at various points acquiring ground for right-of-way and terminals.

More than \$1,000,000 has already been expended in Spokane for terminal ground and site, while purchases in other parts of the state run the figures up to \$6,000,000, but as yet no one can definitely say who is back of the project. Some of the line will cost \$200,000 a mile. Part of this is through the Palouse River canyon, southwest of Spokane. Eighty miles of roadbed has been constructed west of this city. There is not a railroad in the West or Northwest which has not been advanced at one time or another as the real backer of the North Coast, and Mr. Strahorn is perfectly willing that his road be accredited as part of one of them, or of all of them together.

Mr. Strahorn gave out an anonymous interview two years ago, practically saying that the North Coast is a coast extension of the Northwestern. Everybody thought it was Northwestern territory. Hardly any one thinks so now. It would be difficult to say why opinion has changed. A few months ago everybody said with James J. Hill that Strahorn is a Harriman agent. Just now there is a growing belief that it is a Milwaukee feeder project, although the Milwaukee believed that a year ago. Recently Strahorn has come out with a statement denying flatly that the North Coast is a part of, or has an connection with any transcontinental railroad. He says it is an independent system, which will serve a local purpose in the Northwest, that the Chicago & Alton does in the Middle West or the Boston & Maine in New England.

For some reason just about the time the operations of the North Coast assumed such importance as to attract notice, the original incorporators were lost sight of. No one can remember them any more, although many of them are men of high financial standing, and Mr. Strahorn is authority for the statement that some of them have private fortunes that would provide the millions that have been put into the North Coast.

These men are J. G. White, of J. P. White & Co., railroad contractors of New York, who are also large owners of railroad property; Henry J. Pierce, president of the Consolidated Railways of Buffalo, and heavily interested in the International Railway of Canada, an electric line which connects Toronto, the Niagara Falls, Buffalo and Rochester; Frank A. Dudley, bank president and railway builder of Niagara Falls; James A. Kerr, of the law firm of Kerr & McCord of Seattle; O. A. Fletcher and Mr. Strahorn, who is rated as a millionaire and lives in a splendid mansion, the most magnificent in Spokane, and Cheney, Wash. The Northern Pacific and Spokane, Portland & Seattle lines run close together and are at different elevations. The lines are crossed twenty times between Spokane and Cheney. To work out these crossings without intersecting either line at grade, when they are often no more than a few hundred feet apart, is the most difficult feat Strahorn's engineers have encountered. The Northern Pacific is fighting the invader step by step in the courts, which will at least cause indefinite delay.

Mr. Strahorn says the line will be completed and will have entrance to Spokane, Tacoma, Seattle and Portland, with feeders to various interior points. He has made good so far and there is every reason to believe that Washington will have another railroad before the close of 1910.

turally the engineering department of the Northern Pacific, in whose territory the North Coast surveys were working, was instructed to report on the meaning of the new surveys. The report was made. "Not being done by anyone with practical knowledge of rail-roading," it read. "Surveys start nowhere and run nowhere, and even do that by impossible routes. More waste of money." Probably the conclusion reached by the chief engineer was: "Trying to get in somebody's way and soil out."

The Milwaukee was known to be looking for an extension west then, while Hill had not settled upon the route of the Spokane, Portland & Seattle line from Pasco to Spokane. It might be possible for adventurers in the field to get control of some indispensable pass and force a fair price out of one of these big systems to abandon it. With this theory in mind little attention was paid to Strahorn's adventure by the big roads the first year the surveys were in the field. Suddenly he exploded a bomb in the camp of the Northern Pacific by expending \$100,000 for a right-of-way and terminals in North Yakima. At the same time he served notice on the Northern Pacific that he would insist on his rights for building a railroad even if it caused certain inconveniences for Hill's line, which happened to be in the way in several places; and he proceeded at once to make good his assertion in court. It was then that the engineering department of the Northern Pacific got busy on report No. 2. This contained some rather startling information. The aimless work that characterized the beginning of the North Coast surveys had given way to method and system. More than \$10,000 a month was being expended on surveying, and the crews were notified of the direction of a man of thorough knowledge and practical experience. Surveys were being run along routes where a railroad could be constructed, and through parts of the country lacking transportation facilities to develop them.

That the money behind the project was now established, but who was furnishing it, and what kind of a road or a system was to be built, remained as much a mystery as before. Since then every string that is known to hold the mouth on a Wall street money bag has been pulled in the attempt to discover the source of Strahorn's revenues. It was comparatively easy to ascertain that pay checks for the North Coast were drawn on the Seaboard National bank of New York and that Moffit & White are the bankers, who honor Mr. Strahorn's drafts and accept his notes. Moffit & White have remained imperturbable. Whatever Hill has been able to learn has only increased his belief that Harriman is the moving genius behind the North Coast project. On this theory he is fighting every step of Strahorn's approach to the coast. He is fighting every step of Strahorn's approach to the coast. He is fighting every step of Strahorn's approach to the coast.

As the financial proportions of the North Coast loom and the system grows in magnitude, public interest is keenly felt. Hill is fighting with more determination. In a few weeks Strahorn put \$1,000,000 into Spokane terminal grounds and a depot site. To reach the station site acres of solid rock must be blasted out thirty feet below street grade and the excavation must be laid on a level of concrete to keep out the river, below the level of which the rails will be laid. Two steel bridges, each more than a mile in length and 150 feet high in places, must be built across the Spokane River gorge to enter the city. Just when all these plans seemed perfect, the road to the north has again thrust itself into Strahorn's path. A little strip of Great Northern ground which has been lying idle for fifteen years must be had by Strahorn to reach his depot site, for which he has paid \$750,000. It is located within two blocks of the most prominent corner in the tall city of Spokane. Unable to buy the needed strip from the Great Northern, Strahorn started condemnation proceedings. As the next move of the Great Northern has decided this and adjoining property to the Spokane, Portland & Seattle, and instituted counter condemnation proceedings to acquire all of Strahorn's freight terminals ground.

Even with this settled in Strahorn's favor, an equally stubborn fight is on with the Northern Pacific and Spokane, Portland & Seattle for right-of-way through the ravine through which these roads pass between Spokane and Cheney, Wash. The Northern Pacific and Spokane, Portland & Seattle lines run close together and are at different elevations. The lines are crossed twenty times between Spokane and Cheney. To work out these crossings without intersecting either line at grade, when they are often no more than a few hundred feet apart, is the most difficult feat Strahorn's engineers have encountered. The Northern Pacific is fighting the invader step by step in the courts, which will at least cause indefinite delay.

Mr. Strahorn says the line will be completed and will have entrance to Spokane, Tacoma, Seattle and Portland, with feeders to various interior points. He has made good so far and there is every reason to believe that Washington will have another railroad before the close of 1910.

FALLING SUNLIGHT HEAVY.

Weight on Earth's Surface Is 150,000 Tons, Declares a London Scientist.

London, April 20.—"The pressure of sunlight falling on the earth's surface represents a weight of 150,000 tons," said A. S. Eddington, chief assistant at Greenwich observatory, in a lecture at the Royal Institution, "but it is insufficient to make the earth glide a hair's breadth in its path."

This fact was used by the lecturer to explain the mystery of comets' tails. "The tail of a comet streams out in a direction nearly directly away from the sun," he stated. "It is not simply held behind by the comet; it is driven away from the sun."

"We are accustomed to regard the sun as the center of attractive force by which the planets are kept in their orbits, and comets' heads also move under the same law, but the tail particles of the comet do not seem to recognize this force. For them the sun behaves as a center of repulsion and urges them away."

"It was for long a great puzzle to understand how the sun can thus play a double role, but probably the most popular explanation is that which ascribes the stream away from the sun to the effect of light-pressure. When radiation of any kind—sunlight or the heat from a fire—falls on a surface it exerts a pressure on that surface tending to drive it back."

Mr. Eddington added that the photograph obtained at Greenwich last year of Morehouse's comet formed a cinematograph record of the marvelous motions of its tail.

OUR DECEPTIVE EYES.

Do Not See One Tenth of the Beauties of Nature.

The eyes we brought with us at birth do not see a tithe of the beauties of nature. But with a microscope not much better than this, Leuwenhoek, in 1675, brightened the world by saying that more animals lived in the human mouth than there were people in Holland! With object glasses of higher power we are said to see things magnified 200, 500, 1,000, or 2,000 diameters, which only means that different objects, at the same time, bring our eyes within one-fourth, one-eighth, or one-twelfth, or one-fifteenth, or one-twenty-fifth of an inch of the object.

And what have these mechanical devices of ours for helping our eyes to see, not done for the human world? So important to all life is that living world about which our native eyes would never have given us the least information that it is evident no physical instrument can suffice for man, because he is so much greater than anything physical. All eyes devoid of protoplasm, including the eyes of the ant, the bee, the fly, the spider, the low origin and level; but this human-furnished microscope belongs to the Andean heights of mind.

However, we have still other reasons for dissatisfaction with our eyes, writes Dr. William Hana Thompson in "Everybody's." They see the star Capella as no larger than a bright jewel in a lady's necklace, though we know that because that star has no proper motion, as astronomers say, and yet shines so splendidly, in reality it must be at least a hundred thousand times larger and a hundred thousand times brighter than our own sun. But our poor eye can now answer. You know that I do not report the whole truth to you about anything. You should not trust me so, because, owing to radical defects in my make-up, I tell you that a man six feet high is only six inches high when he is a mile off. And as to the stars, you have had to make a telescope to help me out; but even with it the fixed stars remain beyond me, for I then see them merely as shining points. It is not by me, but by that greater power than mine in you, your reason, that you learn not only how large Capella is, but also, through another of your contrivances, that Capella abounds in earthly materials.

If you want somebody to be mad at, take yourself and say the worst you can.

ANSWERS EVERY CALL.

Marquette People Have Found That This Is True.

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spills of backache often follow. Or some irregularity of the urine. A certain remedy for such attacks. A medicine that answers every call. It is Doan's Kidney Pills, a true specific. Thousands of people rely upon it. Here is one case: "I was troubled with acute pains in the small of my back, and did not know what caused them. When a friend advised me to try Doan's Kidney Pills, I got a box and they soon relieved me. I gladly give Doan's Kidney Pills my endorsement in return for what they have done for me."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Negaunee Department

SCHEDULE OF LEAGUE BASEBALL GAMES

ISHPEMING AND NEGAUNEE WILL EACH HAVE TWO HOLIDAY GAMES, MARQUETTE THREE, AND MUNISING ONE.

While the schedule of games for the teams comprising the Marquette-Alger County Baseball league, appearing below, has not been adopted, and is subject to change, the arrangement is satisfactory to the Negaunee and Ishpeeming teams, and it is expected it will be approved by the managements of the Marquette and Munising teams. Copies of the schedule were sent to the Marquette and Munising managements yesterday.

It will be observed that Negaunee and Ishpeeming will each have two holiday games, Marquette three and Munising one on their own grounds. The Negaunee team is to have July 4 and Labor Day at home, playing Ishpeeming on the former date and Munising on the latter. The Ishpeeming team will play Decoration Day, May 30, and July 3 or 5, at home. As the Fourth falls on Sunday either Saturday or Monday will be observed as a holiday. The game will be played on the holiday against Marquette. On May 30 Munising will play at Ishpeeming. Marquette will have its first holiday game on Midsummer Day with the Ishpeeming team, and Ishpeeming will also play there on Labor Day. The Munising team is scheduled to play at Marquette July 4. The holiday scheduled for Munising is July 3 or 5, with the Negaunee team.

	At Ishpeeming.	At Negaunee.	At Marquette.	At Munising.
Ishpeeming		May 31 July 4 Aug. 8 Sept. 19	May 23 June 24 July 25 Sept. 5	June 13 July 11 Aug. 22 Oct. 3

BIDS WANTED BY THE 29TH.

City Recorder Mitchell has called for bids on the steam coal that will be used during the coming year at the water works and electric light stations, also at the crusher and for the steam roller, and the dealers must have them in the hands of the superintendent of the board of public works not later than Thursday, the 29th, at 5 p. m. The board reserves the right to reject any or all of the bids; it also reserves the right to call off the contract after the completion of the new trestle at the water works station. One bid will be for coal delivered at the station and the other for coal on the cars f. o. b. Marquette. A meeting of the council is to be held some evening next week to approve the bonds of the liquor dealers, and druggists.

DIED IN MILWAUKEE.

Friends of Alex Heyn and family, formerly well known residents of Negaunee, were grieved yesterday to learn of the death of his oldest daughter, Mrs. Ed. Ginzberger, formerly Miss Clara Heyn. She was taken ill suddenly and was operated upon Monday for appendicitis, dying shortly after the operation. The funeral was held yesterday afternoon. The deceased was a charming girl and she had many friends in Negaunee. She was a graduate of the Negaunee High school and was an accomplished musician. Besides her husband one child survives. Mr. Heyn conducted a mercantile business in the block now occupied by O. J. Lacombe on Iron street. He owned the building but disposed of it soon after leaving here. The family moved to Milwaukee about twelve years ago.

LOCAL LAONICS.

L. A. Ross, representing C. H. Ritter & Co., Detroit, called on his patrons in Negaunee yesterday.

Mrs. Lind, who has managed the Garfield house the past several months, has returned to her home in Ishpeeming.

A number of Negaunee theatergoers will attend the production of "The Red Mill" at Ishpeeming theater this evening.

Mr. and Mrs. Joseph Contais, of Sands, who are well known in Negaunee, are the parents of a son, born Saturday night.

The ladies of St. John's Episcopal church will conduct a pantry sale next Saturday afternoon from 2 until 4 o'clock in the Guild hall.

The Negaunee Live, L. O. T. M. M., will hold an important meeting this evening. Deputy Commander Carrie Keioe of Marquette will be present.

Dr. N. J. Robbins, the health officer, reports that the two younger Sequist children, who are suffering from small pox, have the disease in mild form.

The members of the police force have had their measures taken for new uniforms, which will be furnished by H. J. Peterson. M. T. Murphy will furnish the hats.

Several members of the D. L. S. society of St. John's church attended a meeting of the Ishpeeming society last evening. Four from here took the third degree.

Negaunee men interested in cricket met Saturday evening, when the preliminary steps for the organizing of a team were taken. J. Preston acted as chairman of the meeting and S. Haynes was secretary. Another meeting is to be held soon and all interested in the sport will be welcome. The meeting will be called by the secretary.

George and Fred Young and Delph (Cantus), well known Sandusky men, were in the city yesterday. All did contract

WILL START WORK TODAY.

Another of the Lot Owners in the Cyr Addition to Begin Building.

John Peterson, who recently purchased one of the lots in the Cyr addition, facing on Heath street, will begin work on his dwelling today. Part of the material was delivered yesterday and Mr. Peterson will employ a large number of carpenters. He, as well as the other owners of lots on Heath street, plans to put in a foot or more of filling.

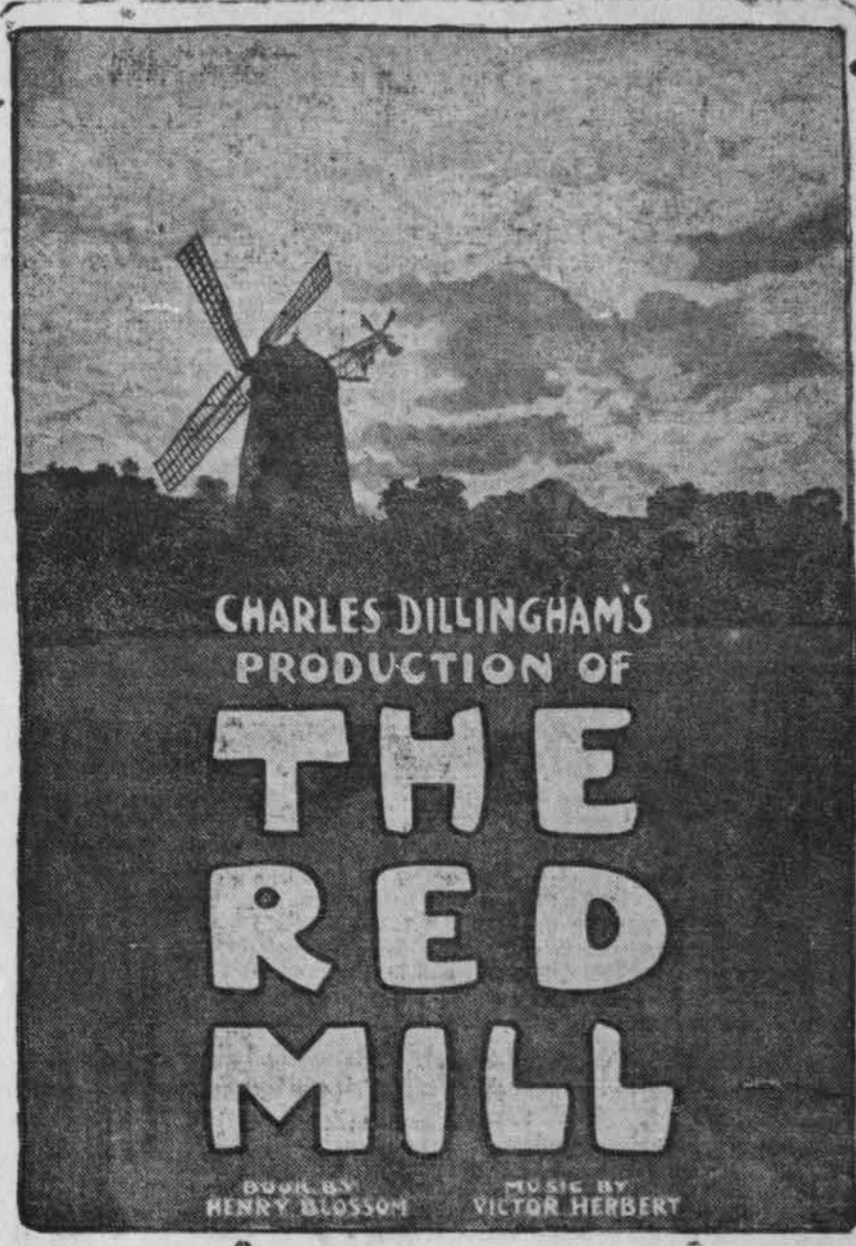

Captain John Deacon, who has one of the lots facing Cyr street, will break ground within a few days. He intends to erect a tile dwelling.

The city will open the alleys leading east and west and north and south within two or three weeks. The alley running east and west will abut the north side of the Griffey property on the corner of Cyr and Jackson streets. There is one dwelling on the east end that stands partially on this alley, but it is to be removed as soon as the city begins the grading work. Heath street and both alleys will have to be filled a foot or more.

WHEN YOUR JOINTS ARE STIFF

and your muscles sore from cold or rheumatism, when you get up in the morning you strain your neck or bruise yourself, Painkiller will take out the soreness and fix you up in a jiffy. You can have it with you, and use it freely. The oldest, the cheapest and the best medicine for internal and external aches and pains is man's Perry Davis' Painkiller, and for over seventy years it has been the great standby for emergencies in thousands of families all over the world. Don't go home without a 60c. or one of the new size 35c. bottles.

work in the woods the past winter, and they had a very fair season, despite the fact that the prices obtained for the timber were not as good as they were paid the previous year. Their cuts were largely lagging and other mining timber.

Charles Anderson, who was divorced from his wife some time ago, and who has since been compelled to support their seven-year-old daughter, left the city for the old country Sunday night. He was employed at the Mans mine, but had failed to make the usual payment for the child's keeping. His former wife, now Mrs. Joseph Hodge, said yesterday that she will likely have him traced and compel him to live up to his contract, which was fixed by the court when the divorce was granted. She alleges that Anderson subjected both her and the girl to much abuse while they lived together.

ISHPEMING

ISHPEMING IN BRIEF.

The annual meeting of the Ishpeeming Ski club will be held at the Deer Lake clubhouse tomorrow evening at 8 o'clock. Officers will be elected for the ensuing year and the annual reports of the secretary and treasurer will be presented.

Fire at an early hour this morning destroyed the Keeley Brewing company's barn at the rear of the store building of the P. H. Donahue estate on West Division street. The blaze was a hot one and adjoining property was endangered.

Ed. Honkola, who is held on the charge of intent to murder, preferred by his wife, was given a hearing yesterday in Judge Andrews' court, but waived his right to an examination, and was bound over to the circuit court without bond and will be taken to the county jail today to await trial.

The funeral of the late W. H. Hart, who died Sunday night, will be held this afternoon from the First Methodist Episcopal church. Friends who desire to view the remains are asked to call at the house, as the casket will not be opened in the church.

The members of Ahmeek lodge of the Independent Order of Odd Fellows are requested to meet at their hall this afternoon at 1:30 sharp, to prepare for attending the funeral of their brother, the late W. H. Hart, which is to be held this afternoon at 2 o'clock.

The Ishpeeming camp of the Royal Neighbors will conduct a social tomorrow evening at the Woodmen's hall. Fish will be card playing, grab bags, fish ponds and other attractions. The admission will be ten cents and there will be a charge of five cents for each grab, also for each privilege to fish. Refreshments will be served and there will

HOW'S THIS?

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Walding, Kinman, Marvin, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

MUCH BUILDING WILL BE DONE

OUTLOOK FOR THE SEASON IS IN THAT RESPECT A VERY PROMISING ONE.

MEANS WORK FOR MANY

Aside from Two Business Blocks Now Being Erected, a Great Many Residences Will Be Constructed This Year.

There is more activity in the contracting and building business this spring than a year ago, according to a number of contractors who were interviewed yesterday. Although the Hager and Donckers blocks, on Washington street, are the only large buildings in process of construction, there are a great many residences being built, or to be built within the next few months. Most of the residences will cost from \$2,000 to \$4,000, contain from six to eight rooms, but in almost every case will be equipped with all modern improvements.

Work on the Hager and Donckers blocks is progressing rapidly under the direction of Lipsitt & Sinclair. There has been a vast amount of sand to excavate for the Hager block, which has made things seem to go slow at the start, but work on the concrete foundation is now proceeding with dispatch and it is expected by Mr. Sinclair that the foundation will be completed by the end of next week. Two machines, a concrete mixer and a steam hoist to lift sand into the wagons to be hauled away are being used in the early construction of this block.

The Donckers block is growing almost as if by magic and by the end of next week the walls will be well along toward completion. This building is being made of white brick and will be two stories high. The basement is to extend under the sidewalk, which in front of the building will be of prism glass, a method frequently adopted in larger cities to secure good light in the basement.

Lipsitt & Sinclair have also closed a contract to finish the Finnish Lutheran church, between Third and Fourth streets, on the west side of Bluff street, the basement for which was erected last summer. Concrete blocks are to be used in the construction of this church, which will be thirty by sixty feet in size with a small tower. The new church promises to be a neat and attractive edifice, and the total cost will be in the neighborhood of \$5,000.

Many Houses Under Way.

Among the many houses in process of construction in different parts of the city are the following:

Charles A. Johnson is building two frame houses on Magnetic street, between Front and High streets, which are enclosed and are now being plastered. These houses contain six rooms and a bath. One of them has already been sold to Fred Lemay and the other will be for sale for rent.

The residence which Mr. Johnson has been building for Fred Walker, on Hewitt avenue between Front and Third streets, is nearing completion. It contains eight rooms and a bath and is equipped with hot water heat and all modern improvements.

Mr. Johnson expects to start the construction of a barn for Dr. Youngquist on the Arch street lot in the rear of his dwelling within the next day or two. This barn will be twenty-four feet by forty in size and will be an up-to-date stable.

A. P. Wilson is to build a double house at the corner of Prospect and High streets, and had it not been for illness, would have begun work before this. This flat will be of brick with stone trimmings and it will be equipped in the most modern style throughout. It will be for rent at a moderate figure when completed.

C. P. and C. W. Fairbanks have just completed extensive repairs on the A. Cameron house on West Ohio street. The improvements include a handsome new porch and the house has been raised to two stories.

James Pendill has begun the basement work for J. F. Dunnebeck's new residence on Clampton street. This will be an eight room structure and will be modern in all respects.

Adjoning the Dunnebeck house is another new residence, which has been built by Patrick Cleary. This dwelling is now enclosed and will soon be completed. It is a square, eight-room building and is to be equipped in an up-to-date manner.

Frank Mulvey has broken ground for a new residence on Fisher street not far from the bay. This will be an eight-room, two-story structure and it will be equipped with modern improvements. The work is to be done by Contractor Ferguson.

Contractor W. L. McCormick is making extensive repairs and building an addition to U. Hawkins' residence on Hewitt avenue, between Third and Fourth streets.

A. E. Handford has started work on two concrete houses on East Hewitt avenue between Cedar avenue and the boulevard. These will be modernly equipped six-room cottages, one of which is to be occupied by William Boden, and the other is to be for rent.

Mr. Handford is also building two houses for Astre & Palmer on East Michigan street, between Cedar street and the boulevard. One of these houses is under cover and the foundation of the other is nearly finished.

The various building contractors are lighting on many other houses building jobs and it is expected that at least twenty-five new houses in addition to those already mentioned will be erected before the end of the summer.

BOY WANTED.

A sixteen-year-old boy, who is industrious and has good habits, wanted at the Mining Journal print shop.

CHIMNEY SWEEP.

MICHIGAMME WANTS IN.

Up-the-Road Town Aspires to Membership in Baseball League.

H. O. Bell, treasurer of the Marquette-Alger county baseball league, received a telephone message from Michiganamme last night, stating that a fast baseball team had been organized in that town, and that they would be pleased to get into the league, at present composed of teams from Ishpeming, Negaunee, Marquette and Munising. If Michiganamme is admitted to the league it would mean that a sixth team would have to be found, or one of the five teams would have to remain idle every Sunday.

It is believed by many that six-team league would attract more interest and draw larger crowds at the games than the present four-team combination, and for this reason it is said that the managers would not seriously oppose two more teams being taken in. Gwin, Princeton or Republic have been suggested as possible places in which a sixth team might be found, although it is not known that either town has a ball team, it is looking for a place in the league.

STATE EMPLOYMENT BUREAU.

Nearly 14,000 Positions Have Been Supplied During the Past Year.

In the annual report of State Labor Commissioner Richard H. Fletcher, it is shown that out of the 22,580 applications for employment in the free employment bureau of the state during the past year, 13,993 positions have been supplied, leaving only 8,578 out of the total number unfilled.

Neither employer nor employee contribute anything in a financial way toward the support of the employment bureau, and there is no discrimination between union and non-union concerns. The expense of the bureau is supplied through state appropriations.

Out of the 22,580 applicants for employment, 16,045 were men and 6,535 were women. There are five free employment bureaus—at Detroit, Grand Rapids, Kalamazoo, Saginaw and Jackson. The positions secured by applicants have been varied and include almost every branch of business from bellhop to stenographer.

WHAT HAS BEEN DONE BY THE LEGISLATURE

FORTY-TWO BILLS PASSED IN 102 DAYS—PRESENT STATUS OF IMPORTANT MEASURES.

The legislature has now been in session 102 days and has passed forty-two bills. At least forty-two are all that have yet reached the office of the governor for his signature. A few others are on the way through the printing office, but the total will not be more than half a dozen more.

Of this number twenty-seven are house bills and fifteen originated in the senate. The bills of real statewide importance that have so far passed clear through the mill might be numbered on the fingers of one hand, says the Lansing Journal. Indeed, there would be room, then, to begin the notation all over again.

The present status of important bills is as follows:

Primary bill—Cobly substitute for Dickinson bill special order in house Wednesday. Includes everything. Likely to be amended to cut out minor state officers, in the senate if not in the house.

Advocates tax—Reaches telegraph, telephone and express companies. Passed both houses and being printed for governor to sign.

Anti-lobby bill—Passed senate and now in the house, judiciary committee not yet unfriendly. Governor believes it will pass.

Home rule for cities—After three months' delay house committee is at last working on Hally bill which, with modifications will form basis for bill. Senate committee at work on same bill.

Railway legislation—Granton bill reorganizing railroad commission now up to senate, having passed the house last week. Senate considering interchangeable mileage book bill and probably will tack ten cents penalty overcharge for failure to buy tickets on it. This may endanger bill in the house.

Mortgage tax bill—Giles bill to tax mortgages but seven mills on a dollar now on house general order.

Drain commissioners—Hatch-Engel bill making drain commission elective office now on third reading in house.

School book bill—Aitken bill providing for uniform text books, free text books and fixing maximum price being fought out in senate committee. First two propositions likely to be killed. Last may pass.

Boards of supervisors—Baldwin's bill allowing pay for committees on after-session work and for four days' meeting in spring for organization passed the house committee of the whole. Likely to meet trouble further on.

Telephone companies to interchange messages—Baker bill held up in senate state affairs committee. Passed house some time ago.

Civil service—Verdier's bill, copy of Friday-McKay bill, introduced in house Friday. Other bill killed in the senate some time ago.

Review assessments—Tax commission may review local assessments in any county on petition of non-resident taxpayer. Restores in part power of equalization. Governor has signed it.

Forestry—Maxey bill withdrawing state lands temporarily from sale passed house and now in senate. Morrill bill making withdrawal permanent and providing commission to care for them still on table in house. Determined fight being made by opponents of forestry to state off consideration all forestry matters with some prospect that it will be successful.

Water power investigation—Committee reported last week and bills introduced in both houses. Railroad commission given great supervisory powers on water power matters in the bill.

Liquor matters—Ormsbee bill dead, but bill embodying its good points has just been entered by Representative Warner. So late in session there may be no liquor legislation, however.

MILLINERY ANNOUNCEMENT.

I have opened up my millinery stock at Mrs. J. M. Smith's, 325 High street, opposite new Guild Hall, where I am showing all the new spring and summer styles. I would be pleased to have my customers call. MRS. A. M. ADAMS, 325 High St. (4-13-1f)

SQUABBLE AS TO WHO IS CITY ATTORNEY

M. MADIGAN, WHOSE RESIGNATION WAS ACCEPTED BY THE MAYOR, CHANGES HIS MIND AND QUALIFIES.

The office of city attorney may develop into a serious bone of contention before the smoke of the spring election has entirely cleared away. Michael F. Madigan who was appointed by Mayor Vaughan Monday night and confirmed by the unanimous vote of the council, and who later placed with the mayor a written declination of the office, yesterday changed his mind, and filed an acceptance with Recorder Donovan late in the afternoon.

Mayor Vaughan was before him, however. In the morning he filed notice with the recorder to the effect that Mr. Madigan had resigned the appointment, and that, therefore, the recorder need not officially inform him that it had been made. Later in the day he filed another notice. It set forth the fact of Mr. Madigan's resignation and contained a formal withdrawal and revocation of the appointment. Mayor Vaughan also served notice of acceptance of his resignation, by special delivery letter, on Mr. Madigan.

Last evening Mr. Madigan handed The Mining Journal the following brief statement: "After further consideration I withdraw my resignation to office of city attorney and have accepted appointment and qualified for same." Signed, M. F. Madigan.

Mayor Vaughan's position is that the appointment of Mr. Madigan is made void by the subsequent declination and resignation which he has in his possession, and he has asked George P. Brown, the city attorney the past two years, to continue to act in that capacity until he has received further notice.

The city attorneyship was discussed on every hand yesterday evening. The appointment of Mr. Madigan Monday evening was, in itself, a great surprise to most people while his published announcement of his resignation of the honor yesterday morning was a surprise all around.

It is an open secret that Mr. Madigan, who was not an aspirant for the office, was Vaughan's choice for the office. His name was sent into the council Monday evening because a number of aldermen threatened to throw all the appointments in the air if Mr. Madigan was not named. Rather than upset the agreements that had been reached in regard to other appointments Mayor Vaughan gave way.

MORE GAMES ROLLED IN BOWLING CONTEST

SEVERAL MARQUETTE BOWLERS AND ONE TEAM FROM NEGAUNEE STROVE FOR SCORES YESTERDAY—BUSY DAY TODAY.

Although but few events in the upper peninsula bowling tournament schedules were rolled off yesterday, great interest was manifested in the games, many spectators being present in the afternoon and again in the evening. Many of the local bowlers were reluctant to get into the contest yesterday, evidently wishing to wait until others had made scores rather than make a mark themselves for others to outdo. This feeling was not entirely pleasing to Manager Bell, who had hoped to have all the Marquette bowlers out of the way before the out-of-town teams begin coming in thick and fast, today and tomorrow.

However, the schedule for today indicates that there will be something doing from early afternoon until late in the evening. In the afternoon Ford, Van Iderstine and Jenks will roll their trio event. As these three men are among the best bowlers of Marquette their scores will be awaited with interest. There will also be several matches in single and doubles, Marquette men only taking part.

In the evening the Class A team from Negaunee will roll their five-men event and also their trios, doubles and singles. The Olivers of Ishpeming will also be down with both Class A and B five-men teams. During the evening the Duponts, of Marquette, a class A team, and the Guild Hall class B team will roll off their events.

The scores of the events pulled off yesterday were as follows:

—Three-Men Team; Class "A"—
Marquette: Cooklin.....167 155 154 476
Allen.....159 179 191 529
Miller.....125 173 210 508
Totals.....451 498 555 1504

—Singles; Class "A"—
Negaunee: Trudell.....147 149 155 451
—Five-Men Team; Class "B"—
Negaunee: Saunders.....158 175 142 475
Stromer.....151 131 161 443
Koski.....136 109 149 394
Asplund.....136 145 106 387
Alho.....129 152 165 446
Totals.....710 712 714 2136

—Two-Men Teams; Class "B"—
Negaunee: Saunders.....134 135 130 399
Stromer.....137 137 137 411
Totals.....291 272 267 830

W. Koski.....141 149 125 415
Asplund.....112 98 116 326
Totals.....253 247 241 741
