# No Dark Brown Taste For Mine

The person who begins the week with the knowledge that the past week's salary is gone, and with a mortgage on the coming one, has little incentive to work, and, as a rule, does not give value received to his employer. On the other hand, the man who has a snug savings account, and is constantly adding to it, finds enjoyment in his work and is a valued employe. The moral is plain: open a savings account with this bank and the 3 per cent interest which we pay will help the growth of the fund.
