A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., MAY 6.

Watered as matter of the second class in the postoffice at Marquette, Mich.

Senator Allison may be the biggest and most influential man in the senate, but he is not having things all his own way.

The failure of the commodities clause to accomplish the things that congress intended it to accomplish adds another item to President Taft's extensive program of "unfinished business."

If it were not for the standpat Democrats in both houses of congress the real revisionists among the Republican members would stand a better chance of doing something worth while for the ultimate consumer.

The senate appears to have lengthened out the session of the legislature. Its resolution fixes the date of departure for home as June 2.

Joseph Klopek, of Menominee, when given his choice by Judge Stone between serving time for a literal following out of his "free love" interpretation of certain passages in the Bible, and legally marrying his affinity wisely chose the latter course.

Mr. Bryan holds that if Representative Clark of Florida is not the kind of a Democrat his constituents are he should resign from the position he is filling.

Representative McCabe states that the chairman of the house judiciary committee assures him that the proposed restricting of the judicial circuits of the state will go over the present session, and that, therefore, the boundaries of the present Twenty-fifth circuit will remain unchanged.

It is reported from Jackson that because of the activities of the National Free Labor association the Illinois Broom company, which is an employer of about 100 convicts confined in the Jackson prison, is having great difficulty disposing of its product.

According to Attorney General Wick-craham congress, if it has the will, may easily amend the commodities clause of the Hepburn rate law so as to gain the end that it thought it had obtained when that law was passed.

There is doubtless room for improvement in the manner of conducting all the Michigan institutions, but they are the exception, and it is also the exception to dispose of minor posts about these institutions at the behest of politicians.

There is doubtless room for improvement in the manner of conducting all the Michigan institutions, but they are the exception, and it is also the exception to dispose of minor posts about these institutions at the behest of politicians.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

COUNTY BOARD PROCEEDINGS.

The Honorable Board of Supervisors of Marquette County met in a call duly made, at the court house, in the City of Marquette, on Wednesday, the 28th day of April, A. D. 1909, at 11 o'clock a. m.

Supervisor Williams placed the name of Daniel W. Powell in nomination for chairman of the board for the ensuing year, whereupon the following resolutions were carried by acclamation.

Resolved: That the following resolutions be adopted: Resolved: That the following resolutions be adopted: Resolved: That the following resolutions be adopted.

Resolved: That the following resolutions be adopted: Resolved: That the following resolutions be adopted: Resolved: That the following resolutions be adopted.

NYAL'S
HOT SPRINGS BLOOD REMEDY
PURIFIES THE BLOOD.

Do you feel worn out? Feel as though you could hardly go? These are symptoms of sluggish blood; blood that is not circulating right. Are you pale and anemic? This is caused by the blood not properly nourishing the cells of the body.

Have you pimples or boils? They are the result of the blood failing to do its duty of carrying away waste material from the cells.

If you have any of the above complaints do not suffer. COME TO US. We will recommend to you a bottle of Nyal's Hot Springs Blood Remedy.

We know what it will do. We have seen the results. If you suffer from eczema, tetter, scrofula or any other skin disease, take a course treatment (not less than six bottles) and we will be greatly surprised if you are not cured.

It is not a specific, but it is the nearest specific we know of, for skin and blood diseases. A dollar buys a large bottle.

City Brevities

Today's weather: Showers; cooler this afternoon.
Yesterday's temperatures: Seven a. m., 48 degrees; noon, 65; 7 p. m., 42; maximum, 67; minimum, 41.

C. Perry went to Chicago on business last night.

Manager Cudahy, of the Calumet theater, is in the city.

F. H. Bogale left for Cleveland on business last evening.

W. E. Smith, of the Stafford Drug Co., has gone to Boston for a month's vacation.

Allen Standfield, of the Bijou theater, has gone to Medina, O., on a short business trip.

Theodore Calus left yesterday for Shreveport, La., where he is to take a position as roundhouse foreman.

H. S. Gallup has been called to Ann Arbor by the illness of his brother, and will be absent from the city about a month.

The geography classes from the Normal school have arranged to visit the ore docks this afternoon to study the methods used for loading ore.

J. H. Donovan, formerly with the American Express company in this city, has accepted a position as expressman on the C. & N.-W. railway, and will run out of Green Bay.

John Steeman, who was brought to St. Mary's hospital from Schweitzer's camp Tuesday in an unconscious condition, was much improved yesterday, and is likely to leave the hospital in a day or two.

Two marriage licenses were issued at the county clerk's office yesterday, the contracting parties being Joseph Latoria and Anna Voegtlin, both of Republic; and Edward Martin, of Houghton, and Lilly Wasley, of Negaunee.

Peter Fitzpatrick, state inspector of factories, workshops, hotels, stores and public buildings, is in the city looking over the various buildings under his jurisdiction. He stated last night that to date he had found everything in this city in first-class condition.

Has a New Auto—Dr. F. D. McD. Harkin was yesterday riding about in a new Cadillac automobile, which he had just received from the factory.

Roman Due Tonight—The steel trust steamer Roman is due at the Pickands dock tonight with a cargo of coal for the Oliver Iron Mining company.

Crushed Rock to Detroit—A car of crushed rock was sent to Detroit by the Marquette Stone company yesterday, for use in the construction of boulevards. This new firm has received many orders for and inquiries about its product, although it is still early for road-making to actively begin.

Fire at Coal Dock—Spontaneous combustion was the cause of a fire that started in a large pile of coal at the Pickands & Co., dock yesterday afternoon. The Anderson fish tug Columbia was called into service as a fire tug and after pumping water onto the burning pile for a few hours succeeded in extinguishing the smoldering fire.

Returned to Crystal Falls—Deputy Sheriff Leonard, of Iron county, was in Marquette yesterday and returned last night with Eric Wasumaki, who had been apprehended by Marshal Manning the night before. The prisoner is wanted for jumping a bond bill and hammering other small debts. He had about \$75 in his possession when arrested.

Road to Country Club—Twelve teams were at work yesterday grading the approaches to the new steel bridge, built across the Chocoley river by the Lake Shore Engine works last fall. The township expects to macadamize the road between Harvey and the bridge this summer, which means that before many months there will be a good road to the Country clubhouse. The improvement will be an advantage to the owners of lots in the Lakewood allotments.

Bigelow Funeral Today—The remains of the late Arthur M. Bigelow arrived in the city yesterday afternoon and the funeral will be held from the family home, 317 Pine street, this afternoon at 2:30 o'clock, with interment at Park cemetery. The services will be conducted by Rev. Ames Maywood. The Elks and Knights of Pythias, of which lodges the deceased was a member, will attend the funeral and for that purpose the Elks will meet at their club rooms and the Knights of Pythias at Fraternity Hall at 2 o'clock. A number of the clothing and dry goods merchants held a meeting last night at which they agreed to close their stores from 2 to 4:30 o'clock. It is probable that business will be generally suspended during the time of the funeral.

INSURE WITH PETER WHITE & CO.
SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., May 6.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Helen C., 9 p. m.; Berlin, Aurora, 3 a. m.; Hinton, 4; Keewatin, 10; William H. Mack, Zenith City, Maritana, 3:30 p. m.; Geo. Stephenson, Linn, 5; Chas. Neff, 6:30; Kinnmount, Wickwire, 7:30.

KILL THOSE LICE!

Don't kill your young chickens in a wholesale manner by letting them be eaten to death with the poultry keepers' greatest enemy—lice! Lousy hens lay eggs—it is not natural for them to lay when uncomfortable. I have just received a large order of B. H. Greider's "Germicide," the only safe, sure louse killer on the market. I have used it with greatest success for over a year, and I am giving the benefit of the experience to you. One pound box, twenty-five cents. Walter C. Hornstein, poultry raiser, 1025 North Front street.

London has 96,926 outstanding licenses for drivers of motor cars and motorcycles.

Hoarseness, bronchitis and other throat troubles are quickly cured by Foley's Honey and Tar, as it soothes and heals the inflamed throat and bronchial tubes and the most obstinate cough disappears. Insist upon having the genuine Foley's Honey and Tar. Sold by all druggists.

Upper Peninsula

Drowned Boy's Body Found—The body of Joseph Sherman, Jr., son of Joseph Sherman of La Branche, Delta county, who met death by drowning in the West branch of the Ford River, has been recovered. The deceased was a young man, but nineteen years old.

Traveled Far to Wed—Traveling thousands of miles to meet her intended husband, Miss Hattie French, who arrived from Denmark but three days ago, and Peter Jensen of Gladstone, have been married by Judge O. V. Linden at Escanaba. The groom came to this country but three months ago, and after locating at Gladstone sent for his promised bride. She started immediately on the long journey and now the couple are man and wife. The bride is of prepossessing appearance and neither she nor her husband are of the usual immigrant class, evidently coming from one of the higher classes of Denmark's social strata.

Iron County's New Board—The Iron county board of supervisors is made up as follows this year: Bates, Richards; Hematite; Chris Rowe; Iron River; Edward Scott; Mastodon; Hugh McLaren; Mansfield, J. P. Edwards; Stambaugh, W. H. Jobe; Crystal Falls city, J. S. Jaeka, Ed Udd and John Dawson. The board has organized by electing Mr. Richards chairman, Mr. Richards has filled this position very satisfactorily for several years. William Holmes, better known as Bill Holmes, has been chosen a member of the board of county read commissioners to succeed John H. Parks. Mr. Holmes is a resident of Crystal Falls. The other members are W. H. Jobe and James Long.

Former Upper Michigan Girl—Concerning an approaching nuptial event in the family of A. L. Flewelling, formerly a prominent attorney at Crystal Falls, a Spokane (Wash.) paper says: "Mr. and Mrs. A. L. Flewelling, 2120 Riverside avenue, announce the engagement of their daughter, Miss Ethel Louise Flewelling, to Charles B. Sanderson. The wedding, which will take place on May 19, at the home of the bride's parents, will be a large affair. The invitations will number about 300. Miss Mayme Hooper, of Los Angeles, an intimate friend of the bride-to-be, will be maid of honor, and Jack Doran of Spokane will be groomsmen. Mr. Sanderson has been intimately connected with the Flewelling Lamb company for some time, and is now chief clerk of the Spokane office."

New Ball League Proposed—There is considerable talk of organizing a Menominee range baseball league to comprise Norway, Iron Mountain, Niagara, Crystal Falls, Stambaugh and Iron River, says the Iron County Reporter. This would make a six-club aggregation, and there is no reason why it should not be a success, that is if the towns use only local material. With proper encouragement either Iron River or Stambaugh could organize a team among local players who could put up an article of ball that would be sufficiently interesting for the most enthusiastic fan. Iron River already has plans partially completed for a new ball ground, in the western end of the village. The Reporter believes that a Menominee range league would not cost so much as would give the fans in the different towns all the excitement they needed. By all means let's have a league.

Mining Man's Promotion—John H. McLean, who succeeds John H. McLean as assistant general manager of the Oliver Iron Mining company, gained his first mining experience in Ironwood. He went there in 1887, taking a position in the office of the Metropolitan Iron & Land company, which at that time operated the Norrie group of mines. Later he became connected with the operating department, and several years later when a practical man was wanted to take charge of the opening of the Adams mine at Echeleth, Minn., Mr. McLean picked heading for the place. The Adams turned out to be one of the big mines of the country, and it was capably handled. The changes which have recently occurred in the officials of the Oliver Mining company began with the resignation of T. F. Cole, who is devoting his entire time to his large mining interests. W. J. O'Leary, who was vice president of the company, succeeded Mr. Cole as president. Pentecost Mitchell, who was general manager, succeeded Mr. O'Leary as vice president, and John H. McLean, who was assistant general manager, succeeded Mr. Mitchell as general manager.

Soul Mates Married—Joseph Klopeck, arrested some time ago in Menominee on a statutory charge has been having a hard time of it. He is a convert to a sect called the "Spirit of Fruit," who believe that this portion of the world is not running the marriage business just right. Joseph, as a worthy exponent of this creed, got into the hands of the law. He said that he was following the Bible and its teachings and that the teachings of the book did not favor marriage. He was accused of preaching his beliefs in an endeavor to convert others to his faith, and he did not deny it. When arraigned before Judge Stone, and asked as to whether or not he was guilty, he started to expostulate in a very grievous tone against the summary way in which his religious beliefs were being dealt with. His honor greatly blanketed him with the information that the act did not wish for a speech; that all he wanted to know was whether or not he was guilty. Joseph replied in a very decided tone and with much emphasis that he certainly was not. When asked if he was represented by an attorney he replied in the negative, and added the further information that he didn't need one. His honor had a different opinion, however, and instructed J. F. Cuddy to act for him. Mr. Cuddy advised the man to become a benedict and Klopeck finally reluctantly agreed, whereupon the marriage ceremony was performed. Klopeck is a thin, sallow looking man of about forty years of age. He is said to have a very good reputation. He is employed in a Menominee factory as a mechanic.

A good fountain pen is an ink convenience.

If you desire a clear complexion take Foley's Cathartic Laxative for constipation and liver troubles as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in the spring in order to feel well. Sold by all druggists.

FAVOR EXTENSION OF INTAKE PIPE

MEMBERS OF BOARD BELIEVE THIS TO BE SOLUTION OF CITY WATER PROBLEM.

NO WAY OF RAISING MONEY

Provision in Charter Requiring Majority of All Electors Makes Issuance of Bonds Impossible.

Although no formal action has been taken, the consensus of opinion of a majority of the members of the water board now seems to be in favor of extending the present intake as far as need be to insure a pure water supply, in preference to any other of the many plans that have been suggested. Members of the board have arrived at this decision after extensive investigation of the filtration well plan and of the ozone purification system.

The present intake was constructed at a cost of \$80 per foot. It has been roughly estimated that the intake can be extended 3,000 or 4,000 feet into the lake at about the same cost, or to a total cost of from \$100,000 to \$150,000.

While the cost of anchorage and construction might be greater as deeper water was encountered, it is said that pipe can now be bought for less than when the present intake was constructed, and that the net cost of extension would be about the same as for that already built.

It is believed that by anchoring the pipe securely and covering with rock ballast that it could be extended that distance without danger of its being displaced by the action of the waves.

To accomplish this it should be built about fifty feet below the surface of the water and about ten feet above the bottom of the lake, in order to prevent contamination. Of course, these statements are largely guesswork, and an expert engineer would be engaged to draw up plans for the work before it would be attempted.

Objections to Other Plans. The experiments made with the filtration wells at the foot of Ohio street and other places nearby have demonstrated that such a plan is not practicable, owing to the underlying rock encountered near the surface.

The ozone purification system, which was favorably considered by the board for a time, got a black eye from the state board of health, by whom it was charged that ozone treatment did not in all cases purify. It was also found impractical to make a trial demonstration of the system, and this board does not care to go ahead with the purchase and installation of such a plant without more definite knowledge of its efficiency.

Another plan suggested is to move the plant to some point near Presque Isle. This plan would entail an expense of from \$150,000 to \$200,000, which almost makes it prohibitive, and even then, the time may come when the source of supply would be no more satisfactory than at present, in case that locality should be built up with factories and dwellings, which is altogether possible. These plans having been eliminated for the reasons stated, all that is left is to extend the present intake as far as may be necessary to get pure water.

At one time a small pipe was extended 2,400 feet into the lake and it was found that the creosote taste was as pronounced at times as is now sometimes the case. However, it is thought that by extending far enough the creosote can be eliminated, and, after all, water free from dangerous bacteria and sewage is the consummation most to be desired.

EDWARD MITCHELL OUSTED.

Street Commission Will Appoint New Superintendent This Afternoon.

Since 11 o'clock yesterday the city of Marquette has been without a street superintendent, owing to action taken at a stormy session of the park, cemetery and street commission, at which it was voted to dispense with Edward Mitchell's services in that capacity, by a vote of four to two. The applications of three persons for the position were presented, but the commission voted to postpone the appointment of Mr. Mitchell's successor until 4 o'clock this afternoon, in order to give all who wished to put in applications an opportunity to do so.

TRUCK EXPECTED TODAY.

Motor Dray Ordered by Flannigan Bros. Enroute from Detroit.

The arrival of the motor dray recently ordered from the Grabowsky Power Wagon company, of Detroit, by Flannigan Bros., is expected today. The car will come set up all ready to run, and will be used by the Marquette firm in their day business. They also expect to equip it for passenger service on Sundays and holidays, on which times it will carry sight-seers to Presque Isle and other points of interest in and about the city.

The dray has a capacity of two tons and is guaranteed to climb a 20 per cent grade loaded to its capacity. The box is five and a half feet wide and eleven feet long, with an enclosed driver's cab in front. A top to cover the whole body has also been purchased, for rainy weather and passenger service. The whole machine is gotten up in fine shape and presents a handsome appearance.

The dray is propelled by a thirty to thirty-five horsepower double cylinder opposed type of engine, which can be easily removed from the car in case of accident. When the car is put in service, Flannigan Bros. expect to dispose of at least one of their teams.

FRATERNITY PARTY.

Brilliant Social Event Tomorrow Evening at Fraternity Hall.

Decorations have just been completed for the Alpha Kappa Pi party, to be given tomorrow night at the Fraternity Hall. The boys are to be heartily congratulated at the results they obtained, as they were obliged to restrict their color scheme to plain black and gold, the colors of the society. However, they handled them in a most original way, stringing streamers of colored crepe paper overhead in a basket work design, and woven through this are strings of incandescents lights. A large electric piece, in the form of the society's seal, has been placed at one end of the hall.

NOTICE TO ELKS.

Members are requested to appear at the Elks Club rooms, Opera House block, this afternoon, at 2 o'clock, for the purpose of attending the funeral of our late brother, Arthur M. Bigelow.

Fraternally,
ERNEST H. BUSH,
Exalted Ruler.

DANIEL S. DONOVAN, Secretary.

STUDY CLUB BANQUET.

Mrs. F. M. Kelsey's Home Scene of Pleasant Social Function Last Night.

The fifth annual banquet of the Marquette Study club, held at the home of Mrs. F. M. Kelsey, 430 East Arch street, last evening, was a most successful and enjoyable social function. The Kelsey home was beautifully decorated in a color scheme of yellow and white, carried out in flowers and candles. Interspersed with the toasts were several original songs, appropriate to the occasion, which were written by the club members. The hit of the evening was a song and dance number by H. C. Davis, W. W. Osband and R. W. Boyer, the first named gentleman being the author of the number.

Following a four-course banquet, the following program was rendered, Rev. J. M. Rogers acting as toastmaster:
Piano duet
Mrs. Boyer and Mrs. Davis.
"Thru One Administration"
Mrs. Anderson.
"Our Birds" (by which name the ladies of the club are known to the members)
Dr. Downing.
"That Annex of Ours"
Mrs. Kelsey.
"The Value of Fun"
Mrs. Kelsey.
Piano solo
Mrs. Davis.

Members of Marquette lodge, No. 6, Knights of Pythias, are requested to meet at Fraternity Hall Thursday afternoon, May 6th, at 2 p. m., to attend the funeral of Arthur M. Bigelow. Address: JOHN L. ZOBERLEIN, H. W. NEBEL, K. of R. and S. Chancellor Commander.

MILLINERY ANNOUNCEMENT.

I have moved my millinery stock to my home on Baker street, where I am showing all the new spring and summer styles. New stock of hats received this week. I will be pleased to have all my customers call at my new place.
MRS. A. M. ADAMS,
(4-15-11)

Marquette has dairies old and dairies new, dairies large and dairies small, but Vandenberg's dairy leads them all.

NEW WAR IS BEGUN ON THE HOUSE FLY

CAMPAIGN ON TO CURB ACTIVITIES OF THE DISEASE-BEARING INSECT BLAMED FOR TYPHOID.

War has again been declared against the housefly. A call has gone forth for volunteers, and boards of health all over the country are up in arms against the pestiferous insect, sternly declaring that it must go. That is to say, it must be screened and trapped and disinfected into subjection. No one really hopes to accomplish its extermination. Even the Japanese army in the late war, in which every one of the 1,000,000 fighting men was an enthusiastic flycatcher, was unable to do that.

The war has hardly yet begun, but from this time on it is to be prosecuted with a vigor that promises serious trouble for the enemy. Hereafter the noxious domestica must be alienated and not domesticated. Science stamps it as a menace to the human family, an active agent in the dissemination of disease, a veritable brother to the mosquito. Typhoid fever, Asiatic cholera and even tuberculosis lie in its wake. Authorities differ somewhat as to the extent to which this is true, but that it is true few will deny.

Campaign Against Filth.

There is to be a rude awakening for millions of people, especially in the country districts, who have been lulled into a sense of security by the harmless name of the insect. The "housefly" suggests at once something to be dodged and lived with, just like the house dog and the house cat. But suppose it came knocking at your door or window, answering to the name of the "typhoid fly," would you let it in and entertain it at dinner? You are soon to be subjected to the test, for henceforth it is to be the "typhoid fly," to be kept out of doors and starved into submission.

The war against the fly is not to be a bloody war. It is rather a campaign against filth, a campaign of cleanliness, on the principle that an ounce of prevention is worth a pound of cure. Traps and flypapers and clubs may destroy the lives of many full-grown specimens of the pest, but each one has already reproduced itself hundreds of times. The only way to do is to destroy the conditions that brought it and its numerous progeny into existence. The breeding places, therefore, are to be the points of attack. Against them the health army will expend its energy.

Rules for Prevention.

The following rules have been prepared by the health department of one of our large cities for dealing with the disease-bearing insect:

Keep all flies away from the sick, especially those ill with contagious diseases. Kill every fly that strays into the sick room. His body is covered with disease germs.

Do not allow decaying material of any sort to accumulate on or near your premises.

All refuse which tends in any way to fermentation, such as bedding straw, paper waste and vegetable matter should be disposed of or covered with lime or kerosene oil.

Screen all food, especially garbage carefully covered and the cans cleaned or sprinkled with lime or kerosene oil.

Keep all stable manure in vault or pit screened or sprinkled with lime, oil or other cheap preparation.

See that your sewage system is in good order; that it does not leak, is up-to-date and not exposed to flies.

Pour kerosene into the drains.

Cover food after a meal; burn or bury all table refuse.

Screen all food exposed for sale.

Screen all windows and doors, especially the kitchen and dining room.

Burn pyrethrum powder in the house to kill the flies.

Don't forget if you see flies, their breeding place is in nearby filth. It may be behind the door, under the table or in the cuspidor.

If there is no dirt and filth there will be no flies.

If there is a nuisance in the neighborhood write at once to the health department.

Jacob Rose

To score in business and in social realms one must LOOK and act a WINNER. Our garments, made in our own tailor shop, will help mightily. They are distinctly metropolitan, embodying refined taste and creative skill. They are acknowledged so by the leading clothing houses who buy our production.

Stock made, \$15 to \$20.
Made to measure, \$25 to \$35.
