

WON'T SERVE LONG IN STATE'S PRISON

'There Is Going to Be a Double Suicide,' Asserts Mrs. Jas. H. Boyle, Convicted of Kidnapping Along With Her Husband.

She Has Made All the Arrangements to End Her Life, She Says, 'and Jimmy Will Do the Same'—Unless Present Plans Are Changed, the Couple Will Be Sentenced Today, and It Is Expected That the Man Will Make a Scene.

Mercer, Pa., May 9.—Unless present plans are changed, James H. Boyle and his wife will be sentenced tomorrow for the abduction of 'Billie' Whittle. Boyle is expected to make a scene when sentence is pronounced and again attempt to tell a sensational story implicating a third party. Mrs. Boyle says: 'Jimmy has something to say and ought not to be gagged. I will not say anything, but will aid him to have his say if I can. Seriously, I want to tell you that there is going to be a double suicide. I will not spend much time in the penitentiary. I have made all the arrangements and have the means now to depart quietly and quickly. Jimmy will do the same. 'Do you think I am going to penitentiary for many years? No, sir. When my sentence would expire I would be an old woman with no friends and no money. I would rather die young. This is my twenty-third birthday. Am I not in a very poor position to celebrate the event? I am innocent of the crime, however, and maybe God will yet allow me to spend many happy anniversaries. 'I wish the penalty for kidnaping were death. Innocent as I am, I would plead guilty if I were sure of being put to death.'

Convicted on the First Ballot. Mrs. Boyle was found guilty of aiding and abetting in the kidnaping of Billie Whittle. She was convicted on the second count of the indictment. The jury arrived at a verdict on the first ballot yesterday. Mrs. Boyle was brought into court just before the jurors filed to their seats. The smile she had for all the men in the box during the progress of her case was missing from her face and she appeared exceedingly nervous. When the verdict was read she drooped her head for a moment but bore no other sign of emotion. She drew on her gloves, arose from her chair and went with the sheriff back to her cell. The penalty in Boyle's case is for one year in the penitentiary to a life sentence and in Mrs. Boyle's case the maximum is twenty-five years.

Before the final session of court opened in the morning Mrs. Boyle declared that she would kill herself if she was sentenced to prison. 'Life in the penitentiary would kill me in a week,' she declared, 'and rather than submit to that I would take the Dutch route.' If Jimmie and I are sent to the penitentiary, she said, 'we will not go alone. Half the truth has not yet been told in this case. One other man who planned the whole affair has not been arrested. Mrs. Boyle was not put on the stand and was not given evidence presented in her behalf. Her lawyers satisfied themselves simply with a submission of the case in brief addresses.

Claims No Overt Act. Judge Miller, counsel for Mrs. Boyle, presented to the court eight points of law, which he asked to have submitted to the jury. They were to the effect that a crime can only be punished in the jurisdiction where it is committed and that in the pending case there has been no testimony to show that Mrs. Boyle had committed any overt act in Mercer county in connection with the abduction of the Whittle boy.

Judge Miller in his address to the jury declared: 'I have been in court since 1872 and never before have I seen so much influence and so much wealth used to corrupt and prejudice the minds of a jury as in this case.' William F. McDermott, the Chicago lawyer's clerk, said he is the brother of Mrs. James H. Boyle, appeared for the first time in court where the woman was on trial and took a seat beside her. McDermott is quoted as saying that he will spend all his small savings to keep his sister from prison.

THOSE WHO HAVE DIED.

Mobile, May 9.—Mrs. Augusta Evans Wilson, the Southern authoress, died at her home here today, of heart failure. She was seventy-four years of age. Among her books are 'Inez,' 'St. Elmo' and 'Beulah.'

Chicago, May 9.—Miss Lilazati Singh, professor of English literature and philosophy in the Ishabella Thoburn University, Lucknow, India, died here today following an abdominal operation. She has been making addresses on missionary subjects.

Washington, May 9.—Judge William L. Penfield, formerly solicitor of the state department and an authority on international law, died today. He was counsel for the United States in the famous 'Tins fund case' and in various international arbitrations.

CINCINNATI JARRED.

Cincinnati, May 9.—With a shock that aroused half the city from its slumbers, two dynamite explosions early today jammed the piers of the Cincinnati, New Orleans & Texas Pacific railway at Chief von Kotten, of the secret police of Moscow. The police were criticised by someone having a grudge against the contractors.

IMPERIAL PALACE A TREASURE HOUSE

Up to the Present Time Cash and Securities to the Amount of \$7,500,000 Have Been Discovered at the Yildiz Kiosk.

Furthermore, Papers Are Found Showing That \$15,000,000 Is on Deposit in Foreign Countries—That All This Wealth Is Property of the State Is the Contentions and It Is Believed That Abdul Will 'Give It Up'—Islamic Unrest Spreads to Egypt.

Constantinople, May 9.—Up to the present time the sum of \$7,500,000 has been found in the treasury boxes of the imperial palace at Yildiz, occupied before his departure by Abdul Hamid. Two and a half million dollars of this is in cash while \$5,000,000 is in marketable securities, equivalent to cash. Furthermore, papers were found indicating that Abdul Hamid has on deposit in Germany, England, France and the United States upwards of \$15,000,000.

It is understood that the cabinet takes the attitude that the foreign depositors, as well as the treasure, are the property of the state. Two courses are open to the government respecting these foreign deposits: one is to obtain them through legal process, and the other through authorization from Abdul Hamid himself. It is not believed that Abdul Hamid will refuse.

Abdul's Son Threatens Trouble.

Vienna, May 9.—According to a Belgrade telegram published here, Prince-Brother Edin, son of the former sultan of Turkey, Abdul Hamid, intends to organize a rising in Albania and march on Saloniki at the head of an Albanian army to rescue his father.

Constantinople, May 9.—Reviewing stands have been erected on the principal streets at Stamboul in preparation for the wedding of the sultan and Mehemed. This ceremony, which corresponds to a coronation, will take place in the mosque Ayoub, the single mosque in Constantinople, which Christians are not allowed to enter or even congregate about the minarets or courtyards. It will last but a few minutes, and no foreign eyes will witness the ancient rite of spiritual power or consigning temporal power to the sultan. The stand erected for the dignitaries is ten blocks from the mosque. The government is taking hold of the relief work at Adana with vigor. It was announced today that \$100,000 has been sent here. The grand vizier and the minister for the interior received a deputation of Armenian clergy and laity yesterday and assured them that the government would inquire thoroughly into the Adana massacres and would severely punish those guilty of inciting them.

Cairo Apprehensive; Mealmen Restless.

Cairo, May 9.—The Islamic unrest in Turkey is becoming manifest in Egypt and India, and important events may be looked for in the near future. Here all is outwardly calm, but there is a strong undercurrent of excitement and nervousness. At all the annual Mohammedan festivals and celebrations the authorities take secret but effective steps to check any trouble that may arise.

At the festival of the Moulid el Nebi three fire engines were held in readiness at Akhshab to dampen any excessive enthusiasm that might have been displayed, and an exceedingly strong force of police was within call in case of trouble, which was certainly expected. The smallest alteration was promptly suppressed, and the police kept the crowd in strict order. A great demonstration was arranged for the return of the khedive recently, but he had been taken into confidence by the authorities, and at the last moment, instead of coming to the main station at Cairo, he went direct to his palace at Kouhshab.

The garrison here is kept constantly under arms, and the military guards are always on duty at all the government offices. Meanwhile the Nationalist press keeps up its campaign against the government in the British and openly incites the people to rebellion. All the news of riots, outrages and sedition in India is prominently displayed in the Nationalist organs.

CASTRO JOINED BY HIS WIFE.

Santander, Spain, May 9.—Senora Castro, wife of the deposed president of Venezuela, arrived here yesterday on the steamer Guadalupe from the West Indies. She was met by her husband, who came from Paris. Ex-President Castro has announced that he will not return to Venezuela, but will live in Santander.

MESSINA RUINS ARE SHAKEN.

Naples, May 9.—The entire population of Messina fled from the homes which they are building among the ruins of the old town yesterday when two strong earthquake shocks were felt. The shocks were strong, but of slight duration.

STRIKING SOLONS RETURN.

Manila, May 9.—The ten members of the progressivist minority of the Philippines assembly who had been on a strike for a month returned today. They withdrew when the Payne tariff bill was under discussion.

ASSASSINATION ATTEMPTED.

Paris, May 9.—A Poleander named Vitkoff fired five shots in a hotel here today. The police believe they were directed by someone having a grudge against the contractors.

ed that Vitkoff was a dangerous nihilist who had escaped from St. Petersburg. Vitkoff said he had fired Von Kotten in revenge for the methods of the Russian political secret service. The man was arrested.

STRIKE IN FRANCE UNLIKELY.

Conditions Favor the Government in Dispute With Postal Employees.

Paris, May 9.—The conditions are rather favorable for the government in the controversy with the postal employees and it is unlikely that a strike will be declared at present. The government's firmness has deeply impressed the leaders of the strike movement. The meeting called by the federal committee for today was attended by about 4,000 persons, but no great enthusiasm was shown. A resolution was adopted to strike when commanded. A representative of the English postal employees gave assurances of the financial and moral support of the English colleagues.

PLANNED TO STEAL \$1,000,000.

Daring Project of Five Men and a Woman Frustrated by Russian Police.

Gori, Russia, May 9.—A daring plan to rob the treasury of Gori, in which \$1,000,000 is kept, has been discovered. The scheme of the criminals, five men and a woman, was to dig a tunnel through the building from outside. They had progressed a distance of 350 feet and had reached a point directly below the cellar when a bookkeeper heard sounds of excavating and summoned the police to investigate, with the result that all six were captured. It seemed that the criminals relaxed their precautions owing to the fact that yesterday was a holiday. This was the second similar attempt to rob this treasury.

NEW CABINET FOR PERSIA.

Teheran, May 9.—At the shah's request, Said Ed Dowley, who recently was dismissed from the office of foreign minister, has formed a liberal cabinet. He will resume his former post. Nazaire El Muk, now a refugee in Europe, becomes premier. He was premier in 1907, but was ousted through a popular demonstration against the delay in the execution of soldiers who murdered two shopkeepers. The shah has signed proclamations announcing the resumption of the constitution, and granting political amnesty.

JAPS ON STRIKE IN HAWAII.

Honolulu, May 9.—Fifteen hundred Japanese laborers employed on a Honolulu sugar plantation struck today for higher wages. It is expected that the strike will spread to other plantations. The field laborers demand a dollar a day and the mill hands are holding out for a proportionate increase.

MOORISH RULER BELLIGERENT.

Madrid, May 9.—It is reported that the sultan of Morocco has quit the negotiations with the Spanish minister and has written King Alfonso, demanding the Spanish evacuation of the Rif country and intimating that he considered refusal a cause of war.

BLOOD IS SPILLED IN RIOT AT SUPERIOR.

Non-Union Steamer Berlin Attacked by a Crowd of Unionists, One Man Is Killed and Six Men Are Wounded in the Lively Battle That Follows.

Duluth, May 9.—One man dead and six men injured is the story of a riot which occurred at Superior, Wis., last night as a result of a fight between union and non-union men, when the steamer Berlin tied up at the dock. The dead man's name was Rourke and he belonged to the Lake Seaman's union. The Berlin is a non-union boat and was carrying a cargo of coal. Soon after her arrival a crowd of union men gathered at the dock and began throwing missiles at the captain and crew. Several of the latter were injured more or less severely and when the fight was at its height some one, it is said, fired a shot from the boat at the crowd and Rourke dropped dead. This practically ended the fighting.

Captain Goodnow of the steamer City of Berlin and Lester Almo, a private detective, were arrested this afternoon, charged with the murder of O'Rourke.

Sympathetic Strike Not Discussed.

Buffalo, May 9.—After a big meeting of members of the Longshoremen's association this afternoon, President O'Connor said: 'We did not discuss a sympathetic strike. Our men at present are not involved in the lake trouble and I am not prepared to say what action will be taken.'

CHEAP GAS IN ENGLAND.

Consul Reports Municipal Ownership in Manchester Profits City \$6,750,000.

Washington, May 9.—Municipal ownership of the city gas plant has proven not only to be a profitable undertaking for Manchester, England, but economical for the consumer as well. The city's profits since the works were taken over twenty-five years ago have been \$6,750,000, while the price of gas in the Manchester district at present is only fifty-five cents per 1,000 cubic feet, according to a report to the bureau of manufacturers from Consul Howe.

ENGINEER IS WRECK VICTIM.

Springfield, Mo., May 9.—Engineer Charles Haines was killed and five men were injured today when the Southeastern limited on the St. Louis & San Francisco road left the tracks. The accident was caused by rains washing out the ballast.

COSTLY FIRE IN WASHINGTON.

Washington, May 9.—The chemical laboratory of the Geological survey was badly damaged by fire today. Valuable minerals and chemicals were destroyed.

THE WEATHER.

Washington, May 9.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Monday; Tuesday, fair; light variable winds.

INSURES CATCHER'S LIFE.

Owner Robinson Takes Out a \$50,000 Policy on Bresnahan.

St. Louis, May 9.—Stanley Robinson, owner of the National league club, has taken out a \$50,000 life insurance policy on his manager and leading catcher, Roger Bresnahan. The policy runs for five years and the annual premium is \$1,300. Bresnahan cost Robinson four good players valued at \$50,000 when he bought the catcher from the New York National team. Bresnahan is under a three-year contract at \$25,000, making Robinson's investment \$75,000. Two big agencies refused to take the risk on account of Bresnahan's chances of being injured.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League and American League, listing teams and their records (W, L, P.C.).

SCHEDULE FOR TODAY.

Table listing baseball games for today, including National League and American League matchups.

YESTERDAY'S GAMES.

Table listing results of baseball games from yesterday, including scores and key players.

CONFESION CLEAR AN ALABAMA MYSTERY.

Russellville, Ala., May 9.—The mystery of the murder of Jim Ezelle, who was killed last Wednesday night, was cleared up today by the confession of Mrs. Waltrip, the murdered man's mother-in-law, aged seventy, and his wife. The shooting, according to the woman's confession, was done by M. P. Motes, the woman's son. As a motive, Mrs. Waltrip says, she thought that Motes would be a 'better man than Jim.'

FARMER CONTINUES HOPEFUL.

Michigan Legislator Still at Work on His Tonnage Tax Scheme.

Lansing, Mich., May 9.—Representative Farmer of Livingston one of the two Democratic members of the state legislature, who recently introduced the tonnage tax bill affecting iron and copper mines, is still working on it, though without hope of passing the measure. He has received a report from Mineral Commissioner Andrews which he has had spread on the house journal. It shows that the 1907 production of copper would net the state \$1,100,589 at a half cent a pound, while the same year's iron ore would bring the state \$3,247,677.

LONG HIKE TELLS ON WESTON.

Pedestrian So Stiff He Has to Walk Down Stairs Backwards.

Topeka, May 9.—Midnight—So stiff that he was compelled to walk down stairs backward, Weston, the aged peddler, has just started on a trip of seventy-one miles to Junction City.

BOOMS ROOSEVELT FOR MAYOR.

New York, May 9.—The nomination of Theodore Roosevelt for mayor of New York city is reaching General Stewart L. Woodford, diplomatist and former minister to Spain, in a statement issued here. It is admitted that 'the boom thus launched has neither the knowledge nor consent of Mr. Roosevelt,' but it is declared that 'an insistent and unanimous demand on the part of the people of the city would compel him to accept it.'

PATTEN RETURNS TO CHICAGO.

Chicago, May 9.—James A. Patten arrived home today.

NINE ARE DROWNED IN THE SUSQUEHANNA

Becoming Panic-Stricken When Rowboat Dips Water in the Swift Current, the Occupants Attempt to Shift Their Seats and the Craft Capsizes.

Wilkesbarre, May 9.—Six men, one woman and two children were drowned this afternoon in the Susquehanna river by the capsizing of a rowboat. The dead were Thomas, William and Theodore Andrews, Frank Marionsky, Adam Strukus and Frank Gofsky, his wife and two boys. The occupants of the boat became panic-stricken when it began to dip water in the swift current, and shifted their seats. The boat capsized before assistance had started. None of the occupants could swim. They were swept to death by the rushing current. None of the bodies were recovered.

CLAIMS REACH \$200,000.

Washington Attorney Alleged to Have Victimized Scores of People.

Washington, May 9.—The district attorney stated today that the claims against John C. Davis, the attorney under arrest for obtaining money under false pretenses, will probably reach \$200,000. Davis is alleged to have victimized scores of people in this and other cities. Practically all of Davis' clients were women, and many of them government clerks. After a search of Davis' office resulted in the death of one of his former clients, Martin D. Davis, the attorney's brother, who is under arrest on a similar charge, is secretary and manager of the Potomac Building & Loan association, the concern through which his brother operated.

CHICAGO POLICE THINK A LAMP WAS THROWN

Thought to Have Engaged in a Quarrel, as a Result of Which Two Persons Perished in Flames, a Man and His Wife Are Taken Into Custody.

Chicago, May 9.—Emil Miller and his wife are held by the police here, pending an investigation into a fire early today which resulted in the death of Mrs. Mollie Roth and her son Arthur. The police and firemen believe that the fire was caused by the overturning of a lamp during a quarrel between Miller and his wife. Fire Attorney Hogan says that if it is found that the lamp was thrown in a quarrel, he will hold the thrower responsible for the death of the victims.

Another 'Black Hand' Outrage.

Chicago, May 9.—Another 'black hand' outrage was perpetrated today when three bombs were exploded in quick succession in the home of Dominick Pecora. Nobody was injured, but the Italians living in the North Side colony, where the explosions occurred, were thrown into a panic, as the outrage followed closely upon the death of Mariano Zalone, who died yesterday as a result of alleged 'black hand' shooting. For three months Pecora, who is reputed to be wealthy, has received letters from the 'black hand' threatening him with death unless he complied with their demands for money. The last letter, received a month ago, said that his house would be blown up unless he turned over \$1,500. He was told where to leave the money. He handed the letter to the police.

A Lynching in Sight in Georgia.

Jessup, Ga., May 9.—Poses are scouring the country in search of three negroes who tonight escaped from the county jail, leaving Deputy Frank Madray dying with a fractured skull. Heel prints on the face indicate that the negroes stamped Madray's face. The injured deputy was found in the jail yard by his wife. If any of the negroes are caught a lynching is regarded as certain.

Confession Clears an Alabama Mystery.

Russellville, Ala., May 9.—The mystery of the murder of Jim Ezelle, who was killed last Wednesday night, was cleared up today by the confession of Mrs. Waltrip, the murdered man's mother-in-law, aged seventy, and his wife. The shooting, according to the woman's confession, was done by M. P. Motes, the woman's son. As a motive, Mrs. Waltrip says, she thought that Motes would be a 'better man than Jim.'

HENRY CLEW'S VIEW

IS A HOPEFUL ONE

Sizing Up General Business Conditions, Wall Street Authority Finds the Industrial and Commercial Outlook Satisfactory.

While a Hardening of the Money Rates Is a Probability Now Looming Up, the Market Shows Exceptional Ease for the Present, Loanable Funds Still Being Superabundant, in Fact, and the Prospects for Stocks Are for an Active Speculation.

SENATE LEADERS

ARE MUCH ANNOYED

Unexpected Degree of Opposition Aroused by the Tariff Bill Isn't at All Relished by Members of the Finance Committee.

While It Is the General Opinion at the Capitol That the Sponsors of the Measure Will Prevail, Every Turn in the Pathway of Discussion Opens Up New Vistas So That, Apparently, the Passage of the Legislation Is Still Distant.

Washington, May 9.—The tariff bill will continue in its present form, according to a review of the committee in the stock market has undergone a considerable advance. Some stocks are too high in view of their small returns to investors, while others are relatively low, having been neglected by both investment and speculative buyers. As a result we are likely to see more or less of the evening-up process in which medium grade investments, especially the better class of preferred industrials, may receive increased attention.

Business Outlook Satisfactory.

The industrial and commercial outlook continues satisfactory. In the steel trade activity has been especially noticeable, April proving a banner month for the receipt of orders. Building operations are particularly active in all of the large cities, and this factor in connection with demands from the railroads for structural material constitutes the chief reason for the improvement in iron and steel. Our railroads, it must be remembered, have been pursuing a policy of rigid economy ever since the panic, and now that earnings are improving and the money market is easy, conditions favor not only the making of repairs and the carrying out of various improvements and extensions which had previously been deferred. In all probability the railroads will be large buyers of materials for some time to come, which will certainly be an important element in business recovery. Bank clearings are already ample proof of the latter; returns for the first week in May showing an increase of over 17 per cent and these gains being well distributed over all sections of the country. Railroad earnings also show encouraging results, and the reports on forty-one roads for the third week in April showed a gain of nearly 12 per cent over last year. Still another evidence of business improvement is the diminishing number of failures; the total of which in April were only 990, compared with 1,200 in the same month of 1908. The volume of failures for the same periods being \$16,000,000 and \$20,000,000, respectively.

Our crop outlook though not entirely satisfactory is distinctly more assuring than a month ago. The season is backward owing to the prevalence of cold weather, but with the approach of higher temperatures considerable improvement may be looked for. There is as yet nothing disturbing in the agricultural outlook, excepting the damage to winter wheat, which has been amply discounted, and as prices for farm products are still very high, it is probable that for another crop year prospects favor another season of prosperity to the agricultural class who form so important a constituency in our population. Wall street was pleased by the supreme court decision on the commodity clause; not so much from the fact that it favored certain corporations as that it imposed an important check upon the radical and socialistic attacks on capital. The courts are more firmly established than ever on the principle that property shall not be taken away from owners thereof without due process of law, and that all attempts at confiscatory action shall be prevented. As this is one of a series of decisions, which while tending to discourage the abuses of capital have stoutly defended property rights, its effect upon financial sentiment is important and sound.

Money Market Conditions.

The money market continues to show exceptional ease, loanable funds still being superabundant. As the crop demands are four months distant and business is not likely to show any great increase of activity until after midsummer, there is little immediate prospect of larger demands for accommodation from these sources. On the other hand, there are conditions arising which suggest the possibility of somewhat firmer rates ere long, or at least that present abnormally low rates cannot continue indefinitely. Bank loans at New York have risen to the huge amount of \$14,000,000, which is close to the highest on record. Our surplus reserve meanwhile is down to about \$10,000,000, having steadily contracted as loans expanded. We have also to face the possibility of further gold exports because our merchandise shipments are small, while importations of various materials continue unusually heavy. It has been supposed that these large imports were entirely due to better business conditions. This is only partly true; a considerable portion of the large importations being due to the effort to anticipate tariff changes. Nevertheless, our international balance is in such condition as to render possible a considerable further outflow of gold. This situation is emphasized by the fact that the Canadian banks hold very large balances in this market, placing them in a position to take our gold whenever to their advantage. Yet another fact which must be taken into consideration is that several of our large railroad systems will soon be in

Money Market Conditions.

The money market continues to show exceptional ease, loanable funds still being superabundant. As the crop demands are four months distant and business is not likely to show any great increase of activity until after midsummer, there is little immediate prospect of larger demands for accommodation from these sources. On the other hand, there are conditions arising which suggest the possibility of somewhat firmer rates ere long, or at least that present abnormally low rates cannot continue indefinitely. Bank loans at New York have risen to the huge amount of \$14,000,000, which is close to the highest on record. Our surplus reserve meanwhile is down to about \$10,000,000, having steadily contracted as loans expanded. We have also to face the possibility of further gold exports because our merchandise shipments are small, while importations of various materials continue unusually heavy. It has been supposed that these large imports were entirely due to better business conditions. This is only partly true; a considerable portion of the large importations being due to the effort to anticipate tariff changes. Nevertheless, our international balance is in such condition as to render possible a considerable further outflow of gold. This situation is emphasized by the fact that the Canadian banks hold very large balances in this market, placing them in a position to take our gold whenever to their advantage. Yet another fact which must be taken into consideration is that several of our large railroad systems will soon be in

the market with new bond issues, the present being an exceptional opportunity for such operations. Over \$200,000,000 new issues were announced in April, one-half of which probably represented refunding operations, and further important issues are pending for similar purposes. The Panama loan has already been long deferred, and its issue may be further postponed by the fact that our treasury deficit is decreasing and has not reached the proportions once expected, owing to the increase of revenue arising from larger imports. Should the latter, however, decline when the tariff has been fully anticipated, it will be interesting to watch the course of national revenue. In Europe similar conditions of ease prevail, and there the demands upon capital are being emphasized by the large German and Spanish loans which will soon be forthcoming.

Taking the favorable and unfavorable conditions into consideration, the outlook is for an active market. Careful discrimination, however, should be made in all purchases, as while a good many stocks may reach still higher levels, there are others which for the time being have been overvalued and are likely to be weakened by inside selling, a process which has been going on under cover more freely than generally supposed. Speculation is likely to take up the hitherto neglected industrials, and there be somewhat interested with by the possibilities of firmer money. Nevertheless the financial situation is one that warrants continued hopefulness.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Published daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.40; Per year, by mail, \$14.00.

MARQUETTE, MICH., MAY 10.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

North Butte has run amok again.

Spring is finally here; at least a very fair counterfeit of spring has arrived.

Take it all in all, Mayor Vaughan certainly put in a busy and eventful week.

The legislature is now grinding out bills faster than even the most experienced correspondent can keep track of 'em.

Among the things the board of control will insist on in the new warden for the Jackson prison is ability to keep his and other people's money from getting mixed up in the same pocketbook.

Senator La Follette is keeping so quiet that a suspicion has gotten abroad that he, too, is framing up a tariff speech. If so, it's a safe prediction that it will be worth hearing, and worth reading, too.

Some papers are patting themselves on the back because they have refused Mr. Lawson's advertisements. But the best way to educate the public to beware of Mr. Lawson is to allow it every opportunity to read his wretched market effusions.

There may be a few upper peninsula towns that are not sporting new "hids," but they are mighty few. Fear of successful county prohibition movements is largely responsible for the change that has come over the conduct of the saloon business.

The senate investigating committee has dismissed Frank Wagner, who made such serious charges against three Wisconsin assemblies, and apparently intends to do nothing further in the matter. It is now said that Wagner will be prosecuted for perjury by persons he accused. This is one way in which a definite showdown as to the truth of his story can be had.

The late Representative Babcock of Wisconsin left \$307,000, according to the petition filed at Washington by the executors of his estate, asking that his will be admitted to probate. Much of Mr. Babcock's wealth was in Washington real estate, in which he invested from time to time during his public service at the capitol, this going to show that a congressman who keeps his eyes open need not die a poor man.

When Senator Aldrich has an inclination to try and read Senator Dolliver out of the Republican party he should recall that the party nearly named Dolliver for its candidate for vice president, and that such a nomination would, all things considered, have been much more popular with the party than the one actually made. This "reading out" of men because their views don't happen to coincide with those of the self-appointed party censors is an old device of men hard pressed to answer argument with argument, but it won't serve against the Dollivers, and Cummins, and La Follettes. They carry too much weight to be swept aside by such an empty subterfuge.

Senator Kline is urging that the appropriation for the University of Michigan be cut \$216,702. The senator, pointing to the fact that the university now has to its credit over \$600,000, says that the big institution would be in no wise crippled if this were done, while the cut would somewhat relieve the record breaking tax budget that the legislature must approve. In 1907 the legislature passed a bill giving the university the proceeds of a three-eighths mill tax, instead of a quarter mill tax. The increase apparently brought in more money than the regents could spend, though in view of Senator Kline's proposal they admit that they should have managed to have expended it on permanent improvements. The senator, however, does not propose to permanently reduce the university's revenue, but simply suggests that it be reduced for the one year, to the end that the state may be helped to that extent out of its financial hole.

According to the Detroit Free Press an important amendment, submitted by

Senator Moriarty, was tacked on the Clarken prison labor bill before it was passed by the senate. It provides that the boards of control of penal institutions may continue to let the convicts' labor to contractors, when the contracts entered into have the approval of the warden and governor. The purpose of the amendment is to open some way for the employment of the inmates of the various institutions should it prove impossible to establish industries to be worked on state account. As it is problematical whether it will be possible to employ all the convicts on state account, the amendment is a wise one, and should be concurred in by the house. A lot of hysteria has attended the fight to secure the passage of the Clarken bill, and carried on by it many members of the legislature who are inclined to question the wisdom of the measure have been led to give it their votes.

The Ishpeming Iron Ore has the following timely paragraph in the current issue:

Iron Ore again wishes to caution the drivers of fast automobiles that it is dangerous rushing the curves of the improved highway between this city and Marquette. We still believe there should be cautionary signs at the foot of these grade curves telling the drivers to hold back into second speeds. If this practice is not observed there is going to be a very bad day of news for the newspapers some day. We know of a few young men who have an ambition to break the records between these cities and they may, in striving for it, break their necks, with those of the passengers they have aboard. This is a pretty good time to do a bit of thinking on the foolishness and danger of driving high-powered cars at top speeds up these grades that also have very sharp curves. It is impossible to keep on the right side of the road when going at top speed. The outcome will be a collision with very sad results.

The county road commission should put up the notices and the county board should fix the speed at twelve miles an hour, which is fast enough, over these particular places. It will be safer for the people who ride and it will be better for the highway, as the big cars going thirty miles an hour around these turns quickly wear deep ruts in the road's surface.

There was nothing ambiguous about Mayor Vaughan's statement of his position on law enforcement to the saloon men Friday evening, and nothing indefinite about his instructions to the police department. There's but one course left for the saloon men to follow, namely, to observe the exact letter of the law. Even had Mayor Vaughan not taken such a decided stand, this would still have been the wisest course. The movement for county prohibition lately started under the provisions of the local option law is not one that they can afford to encourage by defiance of the state statute regulating their business, for the forces behind that movement will marshal a considerable vote, even without the saloon men playing into their hands. The people who believe the solution of the liquor question lies along the line of effective regulation of saloons, rather than in absolute prohibition, will be particularly pleased at Mayor Vaughan's course, because they will believe that it will lessen the likelihood that Marquette county will try any questionable experiments in the way of legislating the saloon entirely out of existence. Regulation is the keynote of the liquor amendments that have met with favor in the legislature this year, and the Crampton-Warner bill, which passed the house Friday, goes to considerable lengths along these lines. It is a measure which, if it becomes a law, will greatly lessen the probabilities of any more counties going "dry" in Michigan and which, in the course of a few years, will result in many counties now "dry" going "wet" again. One provision of this measure—that forbidding the issuance of licenses to men who are not citizens—would largely reduce the number of saloons in Marquette and other upper peninsula cities as early as next year. This would mean a big gain for the men remaining in the business, and would also result in improving the standard of the traffic, as a rule, the places conducted by non-citizens are among those that bring down on the heads of the saloon men much of the unfriendly criticism aimed in their direction.

A DISCREDITED SLOGAN.

"With Lake Superior Behind Us Nothing Can Stop Us," such is the slogan that a committee at the Soo selected from many proposed as the one best adapted for use in boosting the Lock City. But never before did slogan meet with such an unkind reception. It was generally judged too long. As the Soo Times facetiously remarked, if one started out on the listener would be half way to Chicago before it was finished. And, besides, it was criticised for being too indefinite.

Developments have also shown that it is inaccurate. The Carbide works at the Soo are about to resume operations after a several weeks' suspension for no better reason than that old Lake Superior went back on the town in a grievous manner. The lake level fell below the minimum at which the government allows water to be diverted into the Clergue water power ditch, and there was nothing to do but shut the gates and prevent further flowage for power purposes. Lake Superior has been back of the Soo all the time, but, notwithstanding, a large force of factory operatives have been drawing no pay.

And again: Last week the wind happened to blow the wrong way with un-

\$1000.00 Given to any substance in food... Calumet Baking Powder

wanted velocity. It hit the head of the St. Mary's rapids so hard that the water was prevented from flowing in the usual volume, the bed of the rapids nearly went dry, the Chandler Dunbar Power company's turbines laid idle, the street car company and other consumers were without power, and there was a general industrial tie up, despite the fact that old Lake Superior was doing business at its accustomed stand.

SENATORS MAKE UP.

Wm. Alden Smith and Mr. Lodge of Massachusetts the Best of Friends Again.

Washington, May 9.—Senator Lodge of Massachusetts and Senator William Alden Smith of Michigan are the best of friends once more.

Weeks ago the Michigan boundary treaty was under consideration. Senator Lodge had it in charge. There was a big fracas in executive session because Senator Smith wanted an amendment that Senator Lodge opposed.

"The senator from Massachusetts sits there frowning," exclaimed Mr. Smith in an outburst. "He gets upon my nerves." This led to other things and made an ugly scene.

But now all has been forgiven and forgotten. The two frequently converse most amiably. Senator Smith smiles his sunniest, and there is no suggestion of a frown from the Bay state end of the conversation. Incidentally, in the interim, Senator Smith has secured a committee assignment to foreign relations, where he and Senator Lodge deliberate amicably around the same mahogany table.

Interrogation marks just jump at Senator Aldrich when tariff schedules are the theme. Every increase he and his committee recommend brings a big "why" from an aggressive coterie. In fact there is a little organization of low tariff senators, who have pooled ideas on asking Senator Aldrich "why" for every tariff increase.

Senator Smith, a South Carolina, a trim-appearing man, met the Rhode Islander in the corridor after there had been a stressful afternoon of inquiries.

"Why did you put up that duty on sulphate of ammo—?" he was asked.

"Because," said Senator Aldrich, "it is a fine expression of impatience 'the duty is too low.'"

When a senator starts a speech, a scur, grim look spreads over the features of Mr. Frye of Maine, who sits as stolidly as an Indian in his corner seat just to the front of the speaker's desk. And yet Mr. Frye was once one of the senate's silver-tongued. He has quit making speeches because they taxed his vitality with advancing years. He was also once a fisherman and he is a fisherman still—in fact, it is today the senator's greatest fishing sport. As the last of the famous fishermen in all congress, his speeches are a torture to him, who otherwise would be wetting a line in the Rangesleys. Proctor, Vest and half a dozen others who were of the most notable group of fishermen the senate ever knew, have gone on before.

There is no plankroom silence of well-told fishing stories for the last of the survivors, whose hope of early adjournment and a few days of sport are broken by the flow of tariff words.

Old Senator Richard Coke of Texas was a massive figure, and might have looked like his namesake, the English jurist. He was also very much of a character, and his saying have survived here for twenty years.

A delegation of impetuous south-westerners came to see him once upon a tariff errand. They proceeded to the National Hotel, where he lived, pushed up the stairs to his room, knocked on the door, and found the gruff old fellow shaving.

"Don't Texas men send up a card when they come to call?" said he sternly out of the latter.

His visitors withdrew in confusion to the lobby and dispatched a bell boy with their names.

"Tell them," said he, "that the senator is not in."

There is awakening interest in the Kamtschatka peninsula, the mainland of Asia north of the Japanese islands. Its 7,500 inhabitants live by hunting and fishing, though small quantities of barley and rye are raised. The capital is Petrapavlovsk, on the east coast.

THE DAILY MINING JOURNAL.

SENATE REBELS STRONGER.

Recent Speech of Mr. Dolliver Is Considered Significant.

It Indicates That the West Is Preparing to Break Away from Eastern Domination—It Probably Will Change No Votes on the Tariff Bill; but It May Have Political Effect in the Congressional Election and Even in 1912—Charges That the Textile Interests Have Deceived the People Are Serious.

Washington, May 9.—"Magnificent, but it will change no votes, you know." This was the senate criticism of the great speech of Jonathan P. Dolliver of Iowa attacking the woolen schedule of the Payne tariff bill. Perhaps it will change no votes in the senate; but the truth is that Washington has awaited the Dolliver speech with more interest, not to say anxiety, than any made in this session. Republican control of the senate too well to expect that the ablest of speeches will affect a single vote pledged as part of a great log-rolling scheme. What Washington wants to know is the effect of the Dolliver speech, and some others that may follow in the congressional election of 1910. For does the curiosity end at this point; for the presidential campaign of 1912 is more or less involved in the exciting situation which has developed in the course of the present revision of the tariff.

SENATORS MAKE UP.

Wm. Alden Smith and Mr. Lodge of Massachusetts the Best of Friends Again.

Washington, May 9.—Senator Lodge of Massachusetts and Senator William Alden Smith of Michigan are the best of friends once more.

Weeks ago the Michigan boundary treaty was under consideration. Senator Lodge had it in charge. There was a big fracas in executive session because Senator Smith wanted an amendment that Senator Lodge opposed.

"The senator from Massachusetts sits there frowning," exclaimed Mr. Smith in an outburst. "He gets upon my nerves." This led to other things and made an ugly scene.

But now all has been forgiven and forgotten. The two frequently converse most amiably. Senator Smith smiles his sunniest, and there is no suggestion of a frown from the Bay state end of the conversation. Incidentally, in the interim, Senator Smith has secured a committee assignment to foreign relations, where he and Senator Lodge deliberate amicably around the same mahogany table.

Interrogation marks just jump at Senator Aldrich when tariff schedules are the theme. Every increase he and his committee recommend brings a big "why" from an aggressive coterie. In fact there is a little organization of low tariff senators, who have pooled ideas on asking Senator Aldrich "why" for every tariff increase.

Senator Smith, a South Carolina, a trim-appearing man, met the Rhode Islander in the corridor after there had been a stressful afternoon of inquiries.

"Why did you put up that duty on sulphate of ammo—?" he was asked.

"Because," said Senator Aldrich, "it is a fine expression of impatience 'the duty is too low.'"

When a senator starts a speech, a scur, grim look spreads over the features of Mr. Frye of Maine, who sits as stolidly as an Indian in his corner seat just to the front of the speaker's desk. And yet Mr. Frye was once one of the senate's silver-tongued. He has quit making speeches because they taxed his vitality with advancing years. He was also once a fisherman and he is a fisherman still—in fact, it is today the senator's greatest fishing sport. As the last of the famous fishermen in all congress, his speeches are a torture to him, who otherwise would be wetting a line in the Rangesleys. Proctor, Vest and half a dozen others who were of the most notable group of fishermen the senate ever knew, have gone on before.

There is no plankroom silence of well-told fishing stories for the last of the survivors, whose hope of early adjournment and a few days of sport are broken by the flow of tariff words.

Old Senator Richard Coke of Texas was a massive figure, and might have looked like his namesake, the English jurist. He was also very much of a character, and his saying have survived here for twenty years.

A delegation of impetuous south-westerners came to see him once upon a tariff errand. They proceeded to the National Hotel, where he lived, pushed up the stairs to his room, knocked on the door, and found the gruff old fellow shaving.

"Don't Texas men send up a card when they come to call?" said he sternly out of the latter.

His visitors withdrew in confusion to the lobby and dispatched a bell boy with their names.

"Tell them," said he, "that the senator is not in."

Plan for Summer Comfort

Don't add the heat of a kitchen fire to the sufficient discomfort of hot weather.

Use a New Perfection Wick Blue Flame Oil Cook-Stove and cook in comfort.

With a "New Perfection" Oil Stove the preparation of daily meals, or the big weekly "baking," is done without raising the temperature perceptibly above that of any other room in the house. Another great advantage of the

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is its handsome CABINET TOP, which gives it every convenience of the modern steel range. Has an ample top shelf for warming plates and keeping cooked food hot, drop shelves for holding small cooking utensils, and is even fitted with racks for towels. Made in three sizes, and can be had with or without Cabinet Top. If not at your dealer's address our nearest agency.

The Rayo Lamp gives perfect combustion whether high or low—therefore free from disagreeable odor and soot. It is at your dealer's address our nearest agency.

STANDARD OIL COMPANY (Incorporated)

But surely will succeed to the power which Aldrich, Hale, Cullom and other old-timers soon must lay down. The West is restless under New England domination, and this demonstration against the East fits in very well with the plan of the Westerners to seize the centre the moment Aldrich, Hale & Co. lay it down.

A Sample Dolliver Sarcasm.

The Dolliver plan of tariff revision, as it applies to cottons and woolsens, is not a radical one. In fact, no senator representing an agricultural community can afford to make too much noise along this line, for the woolen schedule never can be reduced scientifically unless a beginning is made with raw wool. Dolliver suggested no reduction of duty on that which is one of the weak points of his position—but he quoted facts and figures to prove that the compensatory duties were too high. So far the carded woolsens, who have insisted that the whole scheme of levying duties on raw wool was on a wrong basis, have met with defeat in the house and the senate tariff committees, but their arguments have made a great impression, and they are reflected in the Dolliver speech. A sample of the Dolliver fact and sarcasm is the following:

"The well-ascertained value of foreign wools printed in our own books of statistics, indicate conclusively that such goods as these, valued at less than seventy cents a pound, could not contain more than four-ninths of wool of the first class, and that fact makes the so-called 'compensatory duty' a mere device for totally excluding foreign competition. Of cloths valued at over seventy cents a pound, being the higher grades of English woolsens over \$5000 worth were brought in in 1907, paying a duty approximating 94 per cent on an average valuation of \$1.12 per pound. Whatever my doubts about it, I am not able to successfully dispute that it might require four pounds of wool of the first class to produce a pound of such goods. And I will not deny that a man making such goods in the United States, if the old wool tariff is preserved, may properly ask his fellow-citizen to reimburse him to the full amount of the four pounds of unwashed wool to the pound of cloth, now because the wool he uses is a uniform shrinkage like that, but because his competitor on the other side has access to wools which are very cheap on account of this extreme shrinkage. I made this concession somewhat reluctantly. The reasoning is not my own; I got it from the honorable senator from Rhode Island, but if I make it no clearer to you than it is to me, we are all in the dark together."

Senator Dolliver is not content merely with criticizing, but will offer amendments. One will insist that no textile duty shall exceed 100 per cent. Probably not many readers know that the duties on dress goods, blankets and other woollen goods are as high as that, but Senator Dolliver quotes many. If the issue Dolliver makes on this point gets squarely before the country Senator Aldrich will have a hard time saving the woolen schedule of his bill.

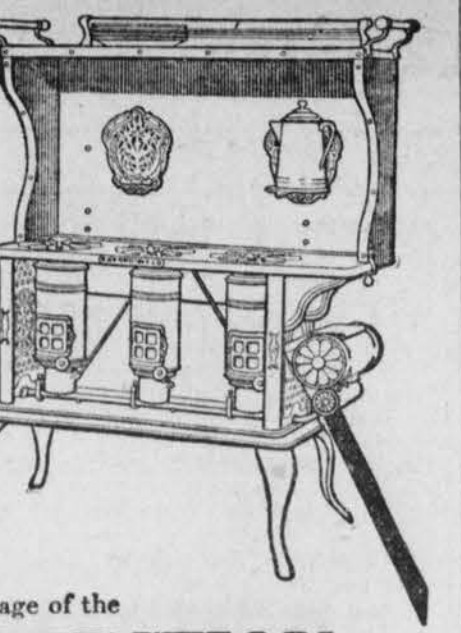

When Will the West Wake Up?

The significant thing is that an agricultural senator like Dolliver should make any attack at all upon a line of duties which are based on farm products. His determination to speak and the power and brilliancy with which he has spoken have renewed the uneasy question long lurking in many bright minds in Washington: "When will the West wake up and cast off its useless duties on agricultural products?" That will be the real day of danger to the manufacturing interests. Of all the duties to favor the farmer in the history of tariff making only one, that on wool, has brought him any material return, and only relatively few farmers raise sheep for their wool. So far the West has contented itself with submitting to high duties on manufactures, and at the same time making a goodly profit for useless duties, like those on hides, wheat, etc., from which the farmer gets nothing. The West never can dictate tariff legislation while clamoring for so much "protection" for itself. In another hour or two it may learn that it has been deceived. Then the day of retribution will have come.

MONTHS IN QUEST OF SNAILS.

Professor H. E. Crampton to Sail Soon for the South Sea Islands.

New York May 9.—Continuing his quest for snails Professor H. E. Crampton, curator of invertebrate zoology in the American Museum of Natural History, will leave New York soon by way of San Francisco for the South Sea Islands. He will be absent for about

HELP WANTED.

WANTED—At the Hotel Brunswick, a good woman cook, also a dishwasher. 6-10-11

WANTED—A cook. Mrs. F. B. Spear, 455 East Edge street.

WANTED—A competent second girl. Mrs. J. G. Reynolds, 431 E. Ridge.

WANTED—A girl for general housework. Apply to Mrs. A. F. Wilson, 128 E. Park St. 6-11-11

WANTED—Agents—Highest cash paid weekly. Home territory. Quota free. A good chance for you. Costs nothing to start. Write at once, The Hawks Nursery Co., Wauwatosa, Wis. 6-6-11

WANTED—A competent girl for general housework. Apply 316 E. Arch street. 6-4-11

WANTED—A girl for general housework; small family. Enquire, 217 Hurst street. 6-3-11

Wanted—Dining room girl at Summit House. 4-30-11

WANTED—Two experienced dining room girls. Clifton House. 4-29-11

WANTED—Two skirt finishers; none but experienced need apply. Call Tuesday afternoon or evening, Wm. Davis, Opera House block. 4-26-11

WANTED—Wood choppers to cut chemise wood. The L. Stebbins Co., Wells, Mich. 9-24-11

WANTED—Pleasurers at Cleveland Cliff Camp, Ramsey and Dorsey, Mich. Board 18 cents per meal. Apply at camp. 6-28-11

LOST AND FOUND.

LOST—On County road, a parcel containing lady's sweater and toilet articles. Finder will please leave at Mining Journal office. 6-7-11

FOR RENT.

FOR RENT—Modern, well appointed eight-room house, corner Front and Prospect. Electric lights, hot water heat, hardwood floors and woodwork; well decorated. Large attic and full basement. Rent \$13 per month according to size of family. For further particulars inquire H. Price, Room 301, Savings Bank Bldg. 6-1-11

FOR RENT—The O'Hagan building, corner Baraga avenue and Lake St. Will rent the whole or part. Good living rooms suitable for a rooming house, partly furnished. Will sell the furniture cheap. Apply Michael Hennessy, 523 1/2

FOR RENT—Upstairs, five rooms, modern conveniences. Inquire on premises, 442 W. Hurst St. 6-1-11

FOR RENT—Two furnished rooms, 221 four furnished with the use of gas stove, 404 Franklin Ave. 6-15-11

FOR SALE.

FOR SALE—A one H. P. Superior engine, fitted with Holly carburetor, complete outfit, all ready to install in boat. \$90 takes it. Has not been run fifty miles. Prod. Cleveland. 6-10-11

FOR SALE—A heavy draught horse, color iron gray. Apply Flamingo Bros. 6-3-11

FOR SALE—One pool table, bill, cues and racks, all for \$40 cash. J. Rud. Negausse. 6-8-11

FOR SALE—\$2,000 buys 8-room house on Bluff St. Modern, \$300 down, balance in monthly payments to \$10 per month. Inquire John Robertson, 620 High street. 6-7-11

HORSES FOR SALE—Wm. Dorais has received another car load of Wisconsin horses, ranging from 1,000 to 1,500 pounds. 4-20-11

FOR SALE—Having purchased all Ross estate lots in Newstead addition, will sell at bargain prices. Enquire at 112 W. Olive St. Bell phone No. 358. L. J. LeVague. (4-26-11)

Leaves Gwinn 6:20 a. m.

For Munising Ry. stations to Munising, M. & S. E. stations to Marquette 5:00 p. m.

Somebody Deposits Your Money

Why not do it yourself? It gets to the bank sooner or later.

Why not have it there in your own name, drawing interest, and not spend it all as you go?

Then when you want it for some special emergency—and you are sure to want it some time—it will be ready for you.

We pay interest and compound it semi-annually.

Marquette National Bank

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York Saturday telegraphed as follows:

"Trading was again very active, with the highest prices of the day recorded during the first hour. The higher level induced realizing and slight recessions, but the absorbing power on the declines has become pronounced, and Londoners are reported as free buyers of Americans. The most encouraging feature of the advance in the past few days has been the character of the buying in the industrial shares, and the reports from good sources indicating pronounced betterment in the steel industry, together with an improved demand for copper metal, have served the purpose of inducing a great many traders to enter the market who have refrained up to this time from making commitments. A sharp recession is to be expected almost any time, in view of the rapid advance, but in the best news obtainable we are inclined to think that efforts will be made to force higher levels throughout the list."

The closing prices were:

Ishpeming Department

STRONG ORGANIZATION FOR LOCAL OPTION

SEVENTY DELEGATES ATTENDED MEETING CALLED TO OUTLINE PLANS FOR PROHIBITION IN MARQUETTE COUNTY.

The advocates of prohibition for Marquette county, who assembled Friday afternoon at the Finnish Temperance society's hall in Negaussee, had a successful meeting. The attendance from Ishpeming was larger than from any other place in the county, but the representation from the other cities was as large as expected. Practically all of the churches in the county, with the exception of the Catholic and Episcopal, were represented either by ministers or by delegates.

Among the townships represented were Ely, Forsyth, Tilden, Champion and Richmond. Six or seven different organizations, including most of the churches of the Finnish Brothers' Temperance association, also sent delegates. It is evident from the interest being shown by the Finnish people that their temperance societies will be a strong factor in the fight.

There were seventy delegates present. The business of the meeting was confined largely to perfecting an organization. None of the speakers, not even Rev. C. H. Rutledge, who is recognized as the leader in the prohibition movement in the upper peninsula, had anything to suggest in the way of plans for carrying on the proposed fight.

The meeting was called to order by Rev. J. Sallstrom, pastor of the Mission church of this city, who has up to this time acted as chairman of the local option committee. Mr. Sallstrom made a few remarks with reference to a permanent organization, suggesting the selection of a central committee to direct the work in the county. On motion of one of the delegates a committee of nine was selected to recommend officers for the permanent organization. The committee was composed of Dr. E. R. Downing of Marquette; Rev. W. B. Coombe, of Negaussee; C. O. Anderson, of Ishpeming; Rev. J. J. Strike, of Champion; J. H. Tregembo, of the National Mine; Thomas Nichols and Olaf Appola, of Palmer; John Ollila, of Negaussee; and C. H. Rutledge, of Ishpeming. The following officers were recommended by the committee and were elected by acclamation:

President—W. H. Hart, superintendent of schools in Forsyth township.
Vice President—H. J. Laddell, Marquette.
Recording Secretary—Rev. C. L. Adams, Ishpeming.
Financial Secretary—W. H. Moulton, Ishpeming.
Treasurer—Nels Thompson, Ishpeming.

The officers and nine members of the committee selected to name their will be the executive or central committee. The committee was empowered to increase its membership by the addition of one representative from each ward in the three cities and one from each township.

It is the intention to arrange matters so that the prohibition question can be submitted to the voters of the county at the election next spring. The circulation of petitions among the voters will not be started until a thorough organization is perfected, with efficient representatives in every ward and township of the county.

"GIRLS" A GREAT COMEDY.

Shubert Production, Here Wednesday, Had Unusual Run in New York.

"Girls," the attraction announced for Wednesday evening at Ishpeming theatre, is said to be the greatest comedy success of the decade. This play, which is by Clyde Fitch, proved such a success in New York that a whole year's run at Daly's theatre was necessary. Every metropolitan critic, including such men as Alan Dale, Aetion Davies, William Winter and other notable Gotham reviewers, accorded it unqualified praise. Unlike most comedies which are made with the sole idea of producing laughter, "Girls" contains an abundance of philosophy and satire, and pictures the independent woman as everyone knows her in everyday life. The comedy starts with a laugh and all during the action the play the audience is kept in an uproar. There are many novel scenes introduced.

FROM MORGAN'S CURB LETTER.

"Coppers opened strong and active, with prices well above last night's closing, but the sharp break in North Butte in the first hour took the edge off the market and the prices receded all along the line. North Butte dropped from 67 1/2 to 61 in a very few minutes, and the rest of the market followed. The rest of the session was a satisfactory reason has been given for the action of this stock today, but some changing from North Butte into Butte condition is reported. The close on the whole is very satisfactory, and we look for a resumption of the upward movement next week. We would buy such stocks as Hancock, Giroux, Greene-Cannana, Shannon, Superior & Pittsburg, Butte Coalition, Cactus and San Antonio. Cordova \$2 paid should be better."

Saturday's prevailing prices were:

BOWLING TOURNAMENT.

Nineteen Ishpeming Men Have Entered for the Contest.

The leading bowlers of the city have entered for the individual tournament started Saturday evening at the Bank Street alleys. Ten of the number bowled the first three games of the ten Saturday evening, and the next series will be rolled tomorrow evening, starting at 8 o'clock sharp. Most of those who bowled Saturday night fell below their usual average, Joe Fitzpatrick being the only one who had a total in the three games in excess of 500. Manager Gray is offering a fine bowling ball as a prize for the contestant who has the highest score in the ten games. The scores of those who bowled Saturday evening were as follows:

Walters	154	178	156	488
Andrews	139	134	411	
J. N. Olson	140	128	135	403
Fitzpatrick	161	179	171	511
E. Lind	167	165	132	464
Schelling	134	176	177	487
Dyer	188	131	143	462
McDougall	116	179	148	443
Kinsman	198	132	379	
Mugger	142	178	163	483

A Cleveland-Cliffs team defeated an Oliver team Friday evening at the latter's alleys. A lunch was served at the conclusion of the contest.

ROMANCE OF THE PLAINS.

Henry D. Carey's romantic play of the western plains, "Montana," will be the attraction at the Ishpeming theatre next Saturday evening. This is the fourth successful season of "Montana," and a record of three and four return dates in each city played attests to the popularity of Mr. Carey's play. The question is often asked, to what can the success of "Montana" be attributed? The answer is, it is sane, human, consistent, plausible, clean and has the heart interest. Mr. Carey, the author, knows his subject and his characters as they are in real life, having spent several years in Montana, and many of the characters and incidents of the play are taken from life.

MEMORIAL EXERCISES.

The Ishpeming fire department will hold its annual memorial exercises on Sunday June 3. The following Sunday the Scandinavian society will conduct its memorial exercises and a week later the Swedish Home society will pay tribute to the dead. The members of the organizations will visit the cemeteries, where the graves of departed members will be decorated. The firemen have not yet completed their arrangements, but the Scandinavian and Swedish Home societies have engaged the Light Guard band.

It's the duties we leave undone that work our undoing.

BALL SEASON OPENED.

Three Games Played Saturday and Sunday and League Men Have Practiced.

The baseball season has opened and it is now expected that there will be several games every Sunday throughout the summer. The first game was played Saturday afternoon by teams composed of members of the senior and junior classes of the Ishpeming High school, the former winning by a score of 24 to 9. Yesterday morning the Gateys whalloped a picked-nine by a score of 19 to 4 and the "Mud Hens" defeated the Young Setters, the score being 21 to 7.

The members of the league team were out for their first practice yesterday afternoon. Their work was watched by a large crowd of fans. All showed up fairly well and it is thought that the team will give a good account of itself in the opening game next Sunday with the Negaussee nine. The management has practically decided to pitch Goulette in the first game, with Nichols as his catcher. In the game at Marquette the following Sunday Toman and Laxstrom will be the battery.

The work at the grounds has been started and it is expected that the improvements will be completed by Saturday. A large force of men will be employed this week erecting the fence and putting the diamond in good condition.

The admission to the games here this season will be twenty-five cents, and there will be a charge for seats in the grand stand.

"GIRLS" A GREAT COMEDY.

Shubert Production, Here Wednesday, Had Unusual Run in New York.

"Girls," the attraction announced for Wednesday evening at Ishpeming theatre, is said to be the greatest comedy success of the decade. This play, which is by Clyde Fitch, proved such a success in New York that a whole year's run at Daly's theatre was necessary. Every metropolitan critic, including such men as Alan Dale, Aetion Davies, William Winter and other notable Gotham reviewers, accorded it unqualified praise. Unlike most comedies which are made with the sole idea of producing laughter, "Girls" contains an abundance of philosophy and satire, and pictures the independent woman as everyone knows her in everyday life. The comedy starts with a laugh and all during the action the play the audience is kept in an uproar. There are many novel scenes introduced.

FROM MORGAN'S CURB LETTER.

"Coppers opened strong and active, with prices well above last night's closing, but the sharp break in North Butte in the first hour took the edge off the market and the prices receded all along the line. North Butte dropped from 67 1/2 to 61 in a very few minutes, and the rest of the market followed. The rest of the session was a satisfactory reason has been given for the action of this stock today, but some changing from North Butte into Butte condition is reported. The close on the whole is very satisfactory, and we look for a resumption of the upward movement next week. We would buy such stocks as Hancock, Giroux, Greene-Cannana, Shannon, Superior & Pittsburg, Butte Coalition, Cactus and San Antonio. Cordova \$2 paid should be better."

Saturday's prevailing prices were:

Almeck	150.00	160.00
American Saginaw	2.50	
Arizona & Mich	1.00	1.12 1/2
Arizpe	.40	.50
Black Mountain	1.00	1.12 1/2

CHANCES FOR JEROME.

New Yorker Is Out for Mayor or District Attorney.

Will Likely Be Found Lined Up With Tammany—A Strong Candidate With This Support—Could Only Be Beaten by a Union of the Hearstites and the Republicans.

New York, May 9.—The political pot, which has been gently simmering throughout the spring with the usual mass of rumors of maxillary possibilities and impossibilities, has been raised to something that approaches the boiling point by the news that District Attorney Jerome wants vindication at the hands of the voters. Just whether the district attorney is looking for a nomination for mayor, or wishes to continue in the present post has not yet developed, and if Mr. Jerome shows the same political astuteness that has characterized his campaign heretofore he probably will not declare himself for some time to come.

The preliminaries of Mr. Jerome's campaign have been skillfully laid, considering the problem that he had to meet. One now sees the inspiration of the dinner given to him by the grand jurors which have had before them the various financial investigations undertaken by his office during his present term. That dinner might have passed off as a spontaneous tribute had it not been for the fact that Delaney Nicoll, personal counsel for Thomas F. Ryan during the traction investigations, was the individual chosen to present to Mr. Jerome the loving cup which the grand jurors in that very investigation, among others, were giving to him. This fact has attracted considerable attention and unquestionably decreased the value of the dinner as a political asset.

The real import of Mr. Jerome's move became known when he went on his own "tour," a few nights ago, before the Cooper union audience to ask for a hearing. To have conquered the storm of hises that greeted him when he appeared on the stage was no small achievement and it is giving the politicians something to think about. Mr. Jerome's request was granted and Cooper union is going to hear him again in his own defense. At this second gathering he will undertake to answer questions—such as may be put to him in writing three days in advance—and probably a good many other impromptu questions, for Cooper union audiences are not given to continuing themselves to any cut and dried programs, and if the district attorney is prepared to answer their questions as "right off the bat," he will probably have his own troubles. If he makes good in that session it will go far to place him in a position to seek a nomination. If he fails, he might as well give up his political aspirations.

These preliminaries out of the way, along with such spectacles as the May Jerome and his advisers may arrange, it will be up to the managers of the various political organizations to decide what they would like to do with Mr. Jerome. It is not at all improbable that he would accept either a nomination for mayor or an endorsement for district attorney from Tammany Hall, for Mr. Jerome has many personal friends in the hall, including many of the Sullivans and Sheer's Tom Foley, and there have not been been wanting indications that he has been holding out the olive branch of peace to the organization that he fought with such show of hatred in other years. That Tammany should nominate him for mayor is not likely, although that would not involve a greater self-abandonment on the part of leader Murphy than when Tammany accepted William R. Hearst as its candidate for governor in the campaign two years ago last fall. An endorsement for district attorney after a previous nomination by petitioning citizens, would come much easier, and with such an endorsement, Jerome would be a dangerous candidate indeed for those personal friends who have believed in him through all the disappointments of the insurance, fire and traction investigations, would hardly have their loyalty shaken at this late date by his acceptance of a Tammany endorsement. On the other hand, a candidate so acceptable to both Tammany and Wall street would have the double-benefit of an ample campaign chest and an organization that is seldom defeated in a municipal struggle.

Were such the event, about the only hope of defeating Jerome, considering his own remarkable abilities as a campaigner, would be a combination of the Republicans and the Hearstites such as were made on the legislative and judicial nominations in 1905. Even then there is but one man now in sight who would be in a position to make much of a run, and that is Clarence J. Shearn, Mr. Hearst's own lawyer. Shearn is a good campaigner himself, he is well-known and liked, on account of his work in the 80 cent gas and other similar fights in which the public interest ran strong, and what is more than anything else, he has an understanding of the insurance, traction and fire matters in their relation to the district attorney's office which few men possess, even in Wall street. On his record in these three issues, if at all, is Jerome to be beaten for district attorney. He has in his favor the verdict of "not proven" on the loosely drawn charges presented to the governor a year ago and will, of course, undertake

to construe this as an endorsement. It will require one well versed in the ways of high finance to pick the weak spots in his defense that Mr. Jerome will interpose in these matters. Mr. Shearn seems about the only one likely to do it.

If Jerome ran for district attorney without the Tammany endorsement, or should contrive to be nominated for mayor on some "citizens' ticket," the chances are that he would have ample opportunity to return to the private practice of law at any time after Nov. 4. The Republicans could not nominate him for district attorney and the Hearstites wouldn't. The Republicans might possibly enter into a fusion maxillary campaign with Jerome as the candidate, but even that would be most unlikely. Any such a development would probably assure the election of the Tammany ticket, for Jerome would be a shining mark for the virtuous reformers in Tammany Hall on the one side and for the Hearst campaigners on the other, who might even then be acting pursuant to a secret arrangement such as some of Mr. Hearst's men have made with Tammany heretofore.

At all events, there is prospect of a lively fall campaign. The maxillary struggle in itself promises to be the most interesting in years for in this it is to be determined whether New York city wants a business administration badly enough to elect officers who will give such an administration. To have an independent fight over the district attorney, based on Mr. Jerome's personal decision to get vindication from the people, will very greatly accelerate things, and produce a campaign that has not been approached for political sensation since Jerome and Seth Low whipped Tammany in the fall of 1902 and gave Richard Croker reason for his expatriation of the last six years.

TO THE MERCHANTS.

Notice is hereby given that I will not be responsible for debts contracted in my name by my wife, who has left my home at Mohawk and is now in Ishpeming.

(5-5-1w) GEORGE MARTIN, JR.

CUBA OWES THE U. S. \$8,000,000.

Doubt as to Whether Intervention Expense Will Ever Be Paid.

Washington, May 9.—The government of Cuba now owes the United States more than \$7,000,000, possibly it will be near \$8,000,000, on account of the expenses to the army and marine corps during the recent intervention, but there seems to be some doubt as to whether the bill ever will be collected. A careful account has been kept at the war department of all expenses incurred when the army of pacification was sent into Cuba, and kept there for more than two years.

There are people in the government who believe that when the United States was given by Cuba the right to intervene should things go wrong in the island the United States incurred the obligation for the expenses of such intervention. The matter probably will be brought in the near future before congress. As far as can be learned, nothing has ever been said to the Cubans about the matter.

If the United States, however, should insist upon payment, the Cuban government doubtless will settle. Cuba is not supposed to reimburse the United States for any of the expenses of men or for rations and forage, for this government would have borne that expense if the troops had never been sent to Cuba. But extraordinary expenses, such as transportation and foreign service pay have been included in the compilation.

\$100 REWARD.

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Sold by all druggists. Beware of cheap imitations. Wake Hall's Family Pills for constipation.

Upper Peninsula

New Rector Named—
Rev. Robert S. Gill, of Ishpeming, now finishing his course in the Western Theological seminary, has been appointed to St. John's Episcopal church at Munising. He is expected early in June.

"Uncle Ike's" Railroad—
To accommodate the growing business of the Escanaba & Lake Superior railway an addition to the company's machine shop at Wells has been completed and a quantity of new machinery is to be installed. The company has considerable repair work to be undertaken on its locomotives this summer and through the improvements being made at the Wells shop it will be possible to complete all of the work at that place. In the past few months the general freight business of the Escanaba & Lake Superior out of Escanaba has more than doubled and each succeeding month a substantial increase is recorded. The company is making a stronger bid than ever for local business and with its connection with the St. Paul road is rapidly becoming a strong competitor for Chicago and Western business with the Chicago & Northwestern company.

Contest Is Carried to Court—
Ezra Boucha, W. W. Featherly and C. A. Olson, whom the official returns show were defeated at the recent Munising township (Alger county) election for the offices of supervisor, clerk and treasurer by M. A. Doty, Edwin Nines and Eugene Cotey, respectively, have invoked the aid of the circuit judge. They will endeavor to oust the present incumbents of the offices by quo warranto proceedings. In other words they hold the offices aforesaid and defend their title thereto. The petitions filed in the three cases set up substantially the same alleged state of facts. That a majority of the election board being opposed to the election of the petitioners, rejected legal votes cast for them "and illegally refused to count said ballots." Also that ballots bearing alleged distinguishing marks were illegally counted for the opponents of the petitioners. The affidavits supporting the petition is signed by W. F. Cox and by Dennis Arlison. The closing paragraph is as follows: "The deponents further say that the people who were most active in supporting the so-called 'Doty ticket' were the professional politicians of said township while the people supporting the so-called 'Boucha ticket' were the citizens thereof." The matter will be heard by Judge Steere, sitting in chambers, at the 800 tomorrow.

First National Bank

NEGAUNEE, MICH.
United States Depository. Capital and Surplus, \$150,000

This bank conducts a general banking business. Invites the accounts of corporations, business houses and individuals.

Negaunee Department

WILL NOT TOLERATE DELAYS AT CROSSING

ISHPEMING NEWSPAPER MAN GOES AFTER NORTHWESTERN AND SOUTH SHORE MANagements FOR NOT PROVIDING NEGAUNEE WITH A NEW STATION.

George A. Newett, editor of the Ishpeiming Iron Ore, who is one of the most enthusiastic automobilists in the upper peninsula, served notice through his paper in Saturday's issue of his intention to begin legal proceedings against the Chicago & North Western and Duluth, South Shore & Atlantic Railway companies if they do not obey the law that covers the keeping open of the Gold street crossing, on the main thoroughfare between the two cities. He also scores the management of the companies for delaying so long the erection of a suitable passenger station in this city.

The question of a new depot has been agitated here for years past, and while no definite announcement has been made by the management of either line as to when either individual stations or a new union depot will be provided, some citizens believe that the time is not far distant when something will be done. Mayor Winter has had the matter up with the railway officials and is satisfied that it will not be long before they will give the matter attention.

The question of site has been discussed many times by members of the council and the business men, and there is a difference of opinion as to where a new station should be located. Judging from more satisfactory than two separate stations. Among the locations discussed are the former site of the old green houses, on Pioneer avenue; the plat near the South Shore bridge passing over the Northwestern main line, opposite the bank building, and the ground a short distance west of the present station, almost directly opposite Nicholas Laughlin's store. It is generally conceded that the station should not be placed on the site of the present depot on account of the necessity of blocking either or both gold and Silver street crossings every time a train pulls in.

Mr. Newett's comment is as follows: "Is our sister city, Negaunee, to have a new depot this spring, or is it expected that the kind-hearted and patient public is to suffer another summer to go by with such a disgraceful looking shack standing in the midst of its community? We wish to serve notice that we know one or two people who do not propose to be held up at the railway crossing at Negaunee this season. We have been long bothered by this holdup business and we are going to serve notice right here that we are going to get busy after our first detention at that crossing. There is only one street over which one can now get through the town and this is often blocked for a half hour by the passenger trains at this old ramshackle station. It is too big a nuisance to be longer tolerated, and the railway companies can expect to come right into court and show reason for thus blocking the people's highway. It is a shame to many who have business to do, and the law distinctly provides against such detention. We are going to apply the law.

"The thing to do is to build a new depot, placing it where it will not be detrimental to traffic. Negaunee should have had the improvement long ago. It well deserves it by reason of its liberal business to the railroads, and it's about time its population reared up and insisted upon its rights.

"Watchers are going to be held on the blocking trains at that crossing this summer and there will be things doing if the corporations do not open the way promptly. Thirty years is about long enough to suffer this nuisance."

GRAND ARMY PROGRAM.

Charles H. Towne Post Will Conduct Exercises in Negaunee This Year.

The annual observance of Memorial Day, which comprises of Charles H. Towne Post of the Grand Army, will be held in Negaunee two weeks from next Sunday, the 30th. The program has not yet been completed, but the post has decided that if the weather is favorable the exercises will be held at 2 o'clock in the afternoon on the Breitung House balcony. In the event of unfavorable weather they will be held in McDonald's opera house. There will be addresses, also appropriate musical numbers. The high school glee clubs will be invited to assist and it is also expected that the Negaunee City band will play. The members of the post have not yet decided where they will attend religious services this year, but they will likely go to one of the churches in Ishpeiming.

At the meeting of the council last Thursday evening the post was given \$20 to aid in defraying the expenses of the exercises. Peter Trudell, Sr., one of the prominent members of the post Saturday said that this would not be sufficient to pay the expenses, and the old soldiers are to ask assistance from the business men. A committee will solicit funds this week and it is hoped that from \$50 to \$75, in addition to the amount donated by the council, will be subscribed.

LIKE THE NEW LAW.

The provisions of the proposed new liquor law, published in Saturday's issue of The Mining Journal, were generally commented on by the Negaunee saloon men. All seem to be favorably impressed with the law and several of them expressed their approval of it. One dealer expressed the belief that the changes should be satisfactory to the liquor interests, as well as to those who are now opposing the saloons. It will result in reducing the number of saloons in many cities and townships. He declared that he thought it was a good thing to prohibit persons who are not citizens of the United States from engaging in the business, also not to grant licenses to women or ex-convicts. The ratio of one saloon for each 500 people is considered a satisfactory amendment to the present law.

Willbur Bowser, living near Pittsburg, has constructed a frame house, built in sections, which he has moved in a freight car with all his household goods to Wyoming, where he has acquired a section of 160 acres of land.

TO BEGIN CONCRETE WORK.

Anton Hendrickson Will Take Contracts on His Own Account.

Anton Hendrickson, who had charge of the concrete work for the city last season, and who conducted contracts on his own account the previous year, is to again engage in the business for himself. He has filed a bond for \$1,000 with the city recorder and it is expected that it will be approved today or tomorrow by the board of public works. Mr. Hendrickson has completed all arrangements to begin work and he expects to put his crew on his first contract some day this week.

It is possible that the council will later decide to do concrete work, though the board of public works has advised Mr. Hendrickson to start on his own account. If the council decides to take up the work again Mr. Hendrickson will take charge of the city's operations. The principal reason the city did concrete work last season was to give sidewalk building a proper start. The season was a most successful one and the taxpayers who desired time in which to settle had no trouble making satisfactory arrangements with the officials. The work was charged at its actual cost, which was about ten cents per lineal foot.

KENNEDY STOCK COMPANY.

The Nellie Kennedy Stock company, which was at the Marquette opera house last week, will be at McDonald's opera house the last three evenings of this week. The company played a week at Ishpeiming theater early in the season. After completing its engagement in Negaunee it will go to Calumet to remain all summer. The company is one of the best stock organizations that has visited this region and patrons of the Negaunee play house will be given most satisfactory entertainments.

LOCAL LACONICS.

J. F. Merten's home has been repaired and repainted.

J. D. Chubb left last night for Chicago, after spending a few days in the city.

Lloyd B. Ashton is here from Chicago on a visit to his cousin, Charles Yates.

Alec Lenzchek has completed a concrete floor in the basement of his home on Deek street.

A meeting of the Negaunee Gun and Rod club will be held next Friday evening at No. 1 hose house.

Members of the police force received their new uniforms Saturday. They were made by H. J. Peterson, the tailor. M. T. Murphy furnished the hats.

Secretary T. J. Flynn of the Upper Peninsula Firemen's association has received application for membership from the Copper Range Volunteer Fire company.

John Snowden, a wellknown young man of this city who submitted to a surgical operation at the Negaunee hospital early last week, was removed to his home Saturday.

John Honka, the barber, moved his shop from the Tracy building to the Miller block Friday night. He has a neat place, as the rooms were renovated, redecorated and repainted.

John D. Larson, of this city, who is employed as a car inspector on the Munising railway, is ill and confined to his home here, having recently been obliged to give up his work temporarily.

Plasterers will begin work Tuesday on Al Chapman's new house on Rock street. The contractor has made excellent progress with the work, which was started a little over two weeks ago. It is a six-room dwelling.

One of the Negaunee business men Saturday said that a hay famine is threatened here. There are only a few tons of hay in the city and if the dealers do not receive a supply early this week cattle may suffer.

The Junior league of the Mitchell Methodist church will give a concert next Friday evening at the church. The entire program will be given by the members and the young people invite their friends to attend. The admission will be fifteen cents.

Iron Mountain lodge of Odd Fellows, is soon to build a concrete walk on the Tobin street side of its new block. A portion of the money that will be used to pay for the walk was realized at the society's anniversary entertainment two weeks ago last Saturday evening.

Charles Toms, who went to his old home in England to see his mother, who was critically ill, will return next week. He will be accompanied by Leonard Stephens, brother of Samuel J. Stephens, who recently leased the billiard and pool hall in the Sundberg block. The young man will assist his brother in the conduct of the business.

A crew of men will be put to work this morning cleaning the streets and alleys. A thorough job is to be done, and it is expected that it will take some days to go over the entire city. The board of public works wishes the property owners to understand that no ashes or refuse are to be dumped in the streets and alleys after the cleaning force has gone over them.

J. A. Byron, singing comedian, and Charles Williams, comedy musical artist, will be the vaudeville performers at the Bijou theatre the first three evenings of this week, appearing at the Ishpeiming Bijou Thursday, Friday and Saturday, when the Straub sisters, now at Ishpeiming, will be here. Mr. Byron's feature song is entitled, "If a Girl Wants a Boy and Boy Wants a Girl."

A large number of Negaunee fans visited the Maas mine field yesterday afternoon to witness the baseball practice. There is some excellent timber for the local team, but it may take some time before the nine is thoroughly organized, as there are several applications for some of the positions. The management intends to secure another catcher to help out Joe LaFave. It is expected that Tate Sieberthal will be able to pitch all the games, though if Everett Sporely is in condition to work when he returns from school he will likely do part of the twirling.

PAPERS 1,700 YEARS OLD.

Dr. M. Aurel Stein, in a lecture before the Royal Asiatic Society, described his recent explorations in Western China and Eastern Turkestan. He said that

And the School-boy with his Bread and Butter

After all—there's nothing quite so good as bread and butter. It is food. Food for the brain and food for the body. And the better the butter the healthier will be the person who eats it.

Silver Creek Creamery

Pasteurized Butter

has that smooth, delicious taste. Remember how we wanted butter when we came from school? Spread on thick. Now even grown folks want butter spread on thick—but it must be Silver Creek Creamery Pasteurized Butter—the healthful butter. Sold by all grocers in one pound prints wrapped in parchment paper. Your grocer can get it for you if he hasn't it now.

NOW CERTAIN THAT SHORES IS LOST

FLOATING WRECKAGE FOUND IN WHITEFISH BAY BY SEVERAL PASSING BOATS.

APPALLING LOSS OF LIFE

Season of Navigation Scarcely Begun, Yet Forty Souls Have Perished on the Lakes.

The loss of the steamer Adelia Shores adds another to the appalling list of disasters on the great lakes since the opening of the season of 1909, which has scarcely begun. The Shores left the Soo April 29, the day before the terrible storm which drove the George Nester upon Huron island, and floating wreckage found within the last few days makes it almost certain that the Shores went to the bottom of Lake Superior with her entire crew of twenty-one men (other reports say but thirteen), somewhere in Whitefish bay, probably on the same day that the Nester was dashed to pieces.

The first news that some steamer had met with disaster during the storm was received when the captain of the Canadian steamer Glenelagh reported that when the anchor of his steamer was raised off Whitefish point it brought with it the mast and rigging belonging to a steamer about the size of the Shores. Immediately after this the captain of the steamer Gettysburg reported passing through floating wreckage, including a pilot house and interior furnishings of a cabin in the storm when off Whitefish point.

The captain of the steamer North Wind, which arrived at Duluth Friday reported that his steamer passed through floating wreckage which he believed belonged to the Shores, but it was not until the arrival of the downward bound steamer Northern Light at Sault Ste. Marie at 7 o'clock Saturday morning that positive evidence of the loss of the Shores was received.

Pilot House Found.

The steamer Northern Light, downward bound, when about sixty miles east of Huron island and twenty-five miles north of Grand Island, ran into wreckage consisting of a pilot house, part of a cabin, and tank saddles, which were fast to the top of the cabin. The weather was calm, and Captain Hayes stopped and picked up some of the wreckage, but could find no name to prove identity, but says he is sure the wreckage was from the steamer Adelia Shores, which left the Soo at 8 a. m., April 29.

A canvas top was on the pilot house, painted lead color, and the woodwork was white, which answers the description of the Shores. The Shores left the Soo heavily loaded with a cargo of 9,200 barrels of salt, bound for Superior. The Shores formerly belonged to the S. O. Nef Transportation company of Milwaukee, but during the past winter she was sold to the Inex Transit company of Cleveland. The vessel was of 1,250 tons burden and was commanded by Captain Samuel Holmes. The engineer was R. S. Nutt.

Those known to have been on the boat are:

- Samuel Holmes, 37 years of age, Milwaukee, master and part owner of the boat.
- Olof Holmes, 25 years of age, Milwaukee, brother of the master.
- Andrew Iversen, seaman, Milwaukee.
- George Gabrielsen, watchman, about 25 years of age, parents live in Oconto.
- Emil Erickson, 23 years old, fireman, parents live in Oconto.
- Andrew Wilson, wheelman, residence unknown.
- Emil Jansen, 23 years old, fireman; parents live in Oconto.

Appalling Record of Disasters.

The opening month of the season of navigation on the great lakes this year has witnessed an appalling list of tragedies, attendant with loss of life. Up to Saturday night, four steamers, one large and a tug were numbered among the lost, with forty lives sacrificed and property valued at \$400,000 destroyed. The following statistics are self-explanatory:

Boat and Owner.	Life.	Property.
Tug Geo. A. Floss, W. E. Barry, Cleveland.	7	\$ 12,000
Steamer Eler Ward, Hecla company, Detroit.	5	30,000
Steamer Aurania, John Corrigan, Cleveland.		200,000
Barge Nester, Nester estate, Detroit.	7	10,000
Steamer Russia, Port Huron-Duluth S. S. Co.		75,000
Steamer Adelia Shores, Manx Transit Co., Cleveland.	21	75,000
Totals	40	\$402,000

Of the above boats the tug Floss was lost in Lake Erie off Cleveland; the steamer Eler Ward was cut down by the ice off the Straits of Mackinac; the Aurania lies in fifty fathoms of water in Lake Superior; the barge Nester lies broken to pieces on the rocks of Huron island, Lake Superior; the steamer Russia is on the bottom near DeTour, at the northern end of Lake Huron, and the Adelia Shores is a mass of floating wreckage in Whitefish bay.

It is said by marine men that April 1909, has proven the most destructive month of early season navigation in many years. Forty lives and six boats have fallen victims during the past few weeks, and the value of the vessel property is estimated to be about \$400,000.

MILLINERY ANNOUNCEMENT.

I have moved my millinery stock to my house on Baker street, where I am showing all the new spring and summer styles. New stock of hats received this week. I will be pleased to have all my customers call at my new place.

PASSING OF AGED RESIDENT.

Mrs. Mary Butler, an aged and respected resident of Marquette, departed this life at her home, 143 Champion street, Saturday evening after a long illness, at the age of seventy-three years. The deceased is survived by two children: Edward J. Butler, alderman from the First ward, and Miss Margaret, a teacher in the public schools. The funeral services will be held this afternoon at 1:30 o'clock from St. Peter's cathedral. The remains will then be taken on the afternoon train to Detroit, Mich., for interment in the family lot in Mount Elliott cemetery.

CHARLES R. MC CABE TO GO TO NEW YORK

LEGISLATOR SERVING HIS FIRST TERM HAS ACCEPTED AN IMPORTANT POSITION WITH JOHN D. RYAN, PRESIDENT OF THE AMALGAMATED COPPER CO.

Representative Charles R. McCabe who left Marquette for Lansing this morning, after a few days' stay in the city, will on the adjournment of the legislature, which is expected to occur May 19, leave for New York, where he will accept an important and responsible position with John D. Ryan, the president of the Amalgamated Copper company. Mr. McCabe will look after personal matters for Mr. Ryan, and will make his residence in New York, where Mr. Ryan now spends a good share of his time. His family will remain in Marquette until fall, when they will go East.

Representative McCabe's move will take him from Marquette a well-known man who has spent his entire life in the city. For the past ten years he has filled an important position with the Peter White insurance company, for two years prior to that he was clerk at the Marquette prison, and for nine years he was employed with Pickands & Co. Mr. McCabe began work in J. M. Longyear's office, where he was employed four years.

Representative McCabe was sent to the legislature as a result of the election last fall. He was a candidate in the primaries against John R. Gordon, being nominated by a good sized majority, and in the election was named over Peter Kremer, the Democratic candidate, by the usual Republican majority. His service in the legislature has been characterized by a careful attention to his duties. He has been a good committee worker, has studied carefully all important measures before the house and has given his best attention to serving his district and looking after the interests of the upper peninsula. Representative McCabe has built up a wide circle of friends among the legislators and laid a foundation for future good work for his district. His friends here will greatly regret that his removal from the state will prevent his following a legislative career further.

The change he is making is, however, in the nature of a big step forward, for Mr. Ryan is today one of the dominant figures in the copper world, a man whose activities the past few years have been making commercial history at a rapid rate. It is worthy of notice, in connection with Mr. McCabe's move, that another Marquette man, Ed. Maney, has lately accepted a similar position with T. F. Cole, Mr. Ryan's associate. Mr. Maney is now Mr. Cole's private secretary.

Representative McCabe will be succeeded by Alfred McCarthy, whom P. W. Phelps, the manager, has promoted to the vacancy. Mr. McCarthy has been in the company's service as stenographer for several years, and his friends will be pleased at his promotion. He is well equipped to take up his new and more important duties.

LITTLE FOLKS' CONCERT.

Interesting Program to be Rendered at Methodist Church.

There will be forty children taking part in the Little Folks' concert at the Methodist church tomorrow night. The admission will be fifteen cents. Doors will open at 7:15 and the concert will begin at 8 o'clock. The following program will be rendered:

- Part I—
- Serenade, The Queen
- Boys' Band
- Recitation, The New Organ
- Helen King
- Piano solo, Merry Butterflies
- Helen Wright
- Vocal duet, "The Raining"
- Carol Trevillion, Henry Roberts
- Recitation, Nursery Rhymes
- Eleanor Maywood
- Vocal solo, When I'm a Man
- Lowell Pellow
- Song, The Birdies' Ball
- Harriet Knight and Chorus
- Piano solo, Guard's March
- Marion Koepeke
- Recitation
- (a) The Dispossessed Heart
- (b) A Millinery Ballad
- Andrew Bricker
- Part II—
- Cornet solo, Marsellaise
- Leo Klamerit
- Song, The Fairies' Lullaby
- Dorothy Maywood, Helen King, Katherine Fassbender and Lois Fonkes
- Recitation, "A Recitation"
- Orville Bell
- Piano solo, Dutch Doll
- Margaret Lewis
- Vocal solo, Lindy
- Chester Pearce
- Cornet and alto duet, My Old Kentucky Home
- Leo and Clarence Klamerit
- Vocal solo, United States
- Shelley Jones
- Song, "If You're Good"
- Santa Claus and Chorus

MARQUETTE COUNTY WILL GET \$69,795

PRIMARY SCHOOL MONEY TO BE SENT OUT TODAY—MONEY PILING UP AND OPPORTUNITY FOR GRAFT OFFERED.

The following is the apportionment of primary school money among the counties of the upper peninsula as officially reported. The sums are apportioned on the basis of \$5 per child of school age:

County	Amount
Alcona	\$ 9,945
Baraga	9,640
Delta	47,255
Dickinson	34,480
Gogebic	33,325
Houghton	128,795
Iron	107,791
Keweenaw	8,840
Marquette	69,795
Menominee	44,065
Ontonagon	12,335
Schoolcraft	13,985

"Under present conditions the primary school fund offers a fine opportunity for graft, misappropriation and other evils worse than almost any other feature of the state administration," says a Lansing dispatch. "There is now piled up in the school districts in this state \$3,036,238.35 of primary school money, which, under the present law, may not be expended legally for any purpose except teachers' salaries. Because these districts have had no use for a sufficient corps of teachers to use all of the money, each year the amount has grown larger.

"Now \$3,000,000 more is to be sent out, a goodly proportion of which will go to districts which have thousands of dollars lying idle to tempt the cupidity of school officers and others who know of its existence and idleness. There have been whippers of evils in connection with the fund already, and everyone who is at all familiar with conditions realizes that at any time there is liable to be a scandal with regard to this 'school' fund which will expose a vicious condition in many places.

Legislators Fear to Act.

"The matter has been called to the attention of the legislature and two bills have been introduced to correct the situation, but neither of them seems to have any chance because the legislators either do not agree with the plans proposed or are wary of enacting any legislation relative to the primary fund for fear of arousing the wrath of their constituents, who are wont to regard the primary money as something beyond the pale of ordinary legislation.

Representative Straight introduced one of the bills and Representative Sanborn the other. Both provide for apportioning the money on the basis of the number of teachers employed, although differing in methods. Some members claim that under the township unit school system more of the fund will be used in the future, but in this connection it is pointed out that many townships in the southern section of the state are at present so violent in their opposition to the system, and they will have to be educated first to the advantages of the system before there is any chance they will adopt it, and thus use more of their surplus.

Great Sums Are Idle.

"In the meantime the money continues to pile up. The amount of school funds in various counties runs from \$637,214 to \$312,424 in Van Buren county. Bay, Huron, Kent Ottawa and Wayne each have about \$400,000 on hand. As far as possible the public instruction department is attempting to keep tabs on the money and see that it is properly safeguarded and not put to uses other than those prescribed in law. Even at that opportunity are many for those in charge of the fund, by loaning it out and securing the interest, as well as getting a rake-off from banks and others for the use of the money.

"In many counties the apportionment which will be sent out today will simply increase the amount of idle funds on hand, but there is no indication that any reform in this connection will be attempted at the present session, although investigations and reforms of many kinds have been threatened all during the session."

TURKISH BATHS AND CHIROPODY.

Frank Koongh, 123 W. Ridge St., Marquette.

REPORT FOR MARCH.

Business of the Light and Power Commission Now and a Year Ago.

The financial report of the light and power commission for the month of March shows that the receipts for the month were about \$15 less than for the same month a year ago. This is due to a falling off in the business lighting, the residence lighting showing a healthy increase. There are now 1,601 installations, an increase of 179 within a year. The commission now has on hand in cash \$21,374.71, with \$38,500 outstanding bonds and an investment valued at \$228,905.08. Following is given the report of receipts and expenditures:

—Earnings—	
March, '09, March, '08.	
Street lighting	\$ 791 50 \$ 782 05
Com. are lighting	6 25
City lighting	77 22 105 30
Business lighting	1,335 20 1,478 10
Residence lighting	1,208 48 1,435 36
Power	476 80 460 45
Miscellaneous	60 31 27 91
Total	\$1,210 51 \$1,265 42
—Expenses—	
Manufacturing	\$ 415 53 \$ 653 44
Distribution	590 20 1,062 40
General	458 33 533 23
Interest	137 50
Total	\$1,602 16 \$2,406 57
Net income	2,787 35 1,838 85
