

SWORD IS GIRDED UPON THE SULTAN

With Ceremony in Accordance With the Ancient Custom Mehemet V Is Duly Consecrated Commander of the Faithful.

Subsequently Carrying Out the Time-Honored Test, Symbolically at Least, the Monarch Plows a Furrow in the Lawn at the Palace, Showing Himself to Be Sound of Body and Fit to Bear the Physical Burdens of the Empire.

Constantinople, May 10.—Mehemet V ended his "coronation day" by plowing a furrow in the lawn at Dolma Bagtche palace, symbolically at least, by holding the plow handles for a fraction of a minute while two horses dragged it a few yards.

It had been a day both of the fulfillment of ancient customs and of the breaking of them. Christians for the first time were admitted to the small mosque attached to the mosque of Eyoub and were allowed to see the ceremony of the girding of the sword of Osman upon the sultan.

As the sultan crossed the courtyard of the mosque to enter his carriage, a white-robed man or two, who had caused a moment's excitement by running forward with a petition which he tried to hand to the sultan, at the same time talking somewhat wildly about the Koranic law. Two soldiers caught him and hurried him out of the yard.

The day, notwithstanding the rumors of reactionary plots, passed peacefully and without sign of disturbance. Lights are blazing in the minarets and mosques of Constantinople tonight; the ships in the harbor are outlined in electric bulbs, and the city generally is celebrating enthusiastically the girding of the new sultan.

The ceremony of the sword making the red consecration of the sultan, and not until it was completed was the padishah really entitled to either the temporal or spiritual homage of his people. The exquisitely beautiful mosque of Eyoub, a perfect dream in white marble, in which the ceremony was performed, was erected by Sultan Mahomet II to mark the grave of Eyoub, the comrade and lieutenant of the prophet, who fell under the walls of Constantinople on the occasion of its first siege by the Saracens in the seventh century. It is in this mosque, as sacred to no unbeliever is ever allowed to cross its threshold, that is preserved the sword or scimitar of Osman, the founder of the present Ottoman dynasty, of which Mehemet is the thirty-fifth sultan.

The investiture of the padishah with this time-honored weapon, the symbol of military, civil and religious supremacy in Turkey, takes the place of the coronation of kings and emperors in Christian countries. It is performed, not by the sheikh-ul-Islam, but by an old Mevlevi dervish, who bears the title of sheikh of Koniah, and who comes for the purpose from that city in Asia Minor. The ancient prerogative enjoyed by the Mevlevi dervishes of Koniah of girding the sword of Osman on the new sultan, dates back to the days when the capital of the empire was at Koniah—that is to say, prior even to its transfer to Broussa. The sheikhs of Koniah have a sort of shadowy claim themselves to the dignity of padishah, but on the accession to the throne of the new sultan the sheikhs solemnly renounce all rights that he may possess in favor of the monarch.

After the investiture had been completed, the sultan rode through the streets of the capital to the mosque of St. Sofia. Not until prayers at the mosque of St. Sofia had been offered by the sultan considered as having been duly seated and consecrated as commander of the faithful.

Government Restoring Plunder. Adana, May 10.—The situation here and throughout the province is improving. The government is beginning to restore the plunder and the people are beginning to return to their homes, many of which are still standing. The military commander has sent troops into the country districts to maintain order and help the farmers harvest their crops.

Constantinople, May 10.—A telegram from the wali of Adana with regard to the recent disturbances there states that 1,224 Moslems were killed and 533 were wounded, while 1,455 Armenians were slain and 382 were wounded. These figures, it is claimed, comprise the casualties throughout the entire vilayet. This statement is considered here as an obvious and monstrous misrepresentation, made with the object of throwing the responsibility on the Armenians to justify the numerous arrests of Christians, which it is reported still continue.

QUEEN OF THE SEAS. Queenstown, May 10.—The Canadian Mauretania arrived off Dublin's Rock this morning, having beaten all eastward records by twenty-four minutes.

BOYLE AND HIS WIFE TAKEN TO PRISON

Completed by Judge Williams at Mercer, Pa., the Abductors of Willie Whitla Are Lodged in the Penitentiary at Pittsburg.

Life Term for the Man and 25 Years and a Fine of \$5,000 for the Woman Is the Court's Decree, and When the Defendants Hear the Fiat Pronounced They Collapse Completely—The Promised "Sensation" Comes, but Is Promptly Controverted.

Mercer, Pa., May 10.—Judge Williams today sentenced James H. Boyle, convicted of kidnaping Willie Whitla, to imprisonment for life. Mrs. Boyle was sentenced to a term of twenty-five years and was fined \$5,000 and costs.

Both Boyle and his wife collapsed completely upon hearing the sentence pronounced. Each was carried from the courtroom to the vehicle which conveyed them to jail and to their cells. Mrs. Boyle wept violently.

Woman's Threats Not Idle Words. That the threats of double suicide made by Mrs. Boyle last night were not mere idle words were shown today when it became known that a razor, which had been secreted in the man's clothing, was taken from Boyle today, and that Mrs. Boyle had taken what she says was "enough morphine to kill two people." The morphine, however, had little effect on the woman, other than to cause heavy slumber all night.

Affecting Scene in Prison. Pittsburg, May 10.—James Boyle and his wife, Helen Boyle, were lodged in the Western penitentiary here tonight, shortly before 8 o'clock, the former under a sentence of life imprisonment, the latter of twenty-five years. The prisoners were taken first to a side room and then to their cells. The man, as by the rules of the prison would not permit them to see each other again.

Mrs. Boyle threw her arms around "Jimnie's" neck and kissed him. She said, "We must take it the best we can." The prisoners then shook hands and the warden escorted Mrs. Boyle from the room.

When she reached the corridor Mrs. Boyle burst into tears and asked to be permitted only again to see her husband. The request was granted, and she again kissed and embraced Boyle. The man maintained his silence and had nothing to say.

When Mrs. Boyle gave her belongings to the matron, she asked permission to keep the small mirror she carried. "I do not want to leave it behind, as it would make me have seven years of bad luck," she said. The mirror was returned to her, and she will be allowed to keep it in her cell.

Boyle's number at the penitentiary is 6631A, and that of his wife 6632A. The prisoners will be photographed tomorrow and their fingerprints taken at that time.

Boyle's "Sensation." Mercer, Pa., May 10.—James H. Boyle, sentenced to penitentiary for life for kidnaping Willie Whitla, gave out today a statement, marked by James Boyle, in which he tells of the alleged murder at Youngstown, O., several years ago of Daniel Reibel, Jr. He tells of finding Reibel's body on a sidewalk and says that "over the prostrate form was Harry Forker, of Sharon, Pa., holding in his right hand a package of letters that were scattered from the sidewalk near the dead body of Reibel." Boyle says that Dan Shay, now dead, was present.

In Forker's haste he left four letters, says Boyle, who declares that Forker has paid him money regularly for years to keep him quiet. During Boyle's recent visit to Sharon, he says, he demanded \$5,000, which Forker promised to secure in a short time. On returning to Cleveland he wrote Forker and received in reply an unsigned letter, proposing the abduction of Willie Whitla. He says the abduction was carried out and that he (Boyle) showed the letter to Mr. Whitla in Cleveland, Mr. Whitla, he says, promised that if Boyle would substantiate the Youngstown letter he would see that there was no prosecution.

Story Is False, Says Forker. Sharon, Pa., May 10.—Harry Forker says that he knows absolutely nothing of the matter contained in James H. Boyle's statement, and that the only motive he can imagine for the tale is revenge on the Whitla family for prosecuting him. Forker says that Boyle never showed him any letters, and he denounces the whole story as "a wilful, malicious and slanderous lie."

J. H. Whitla, father of the kidnaped boy, who is alleged in Boyle's statement to have accepted the letters that Boyle said he had, and which he said belonged to Harry Forker, denies absolutely that any such deal with Boyle occurred. On the witness stand during the trial of Boyle, Mr. Whitla denied having seen Boyle on a street corner in Cleveland and disavowed with him the kidnaping and the ransom. Today, after Boyle's statement had become public, Mr. Whitla denied to the Associated Press that he had seen Boyle or had talked with him in Cleveland prior to his return and the arrest of Boyle. "The whole statement," he said, "is a wilful and malicious lie." He denounced the statement given out by Boyle as "rot and a scandal."

All Sharon Astounded. Sharon, Pa., May 10.—All Sharon was astounded today when the statement was made by James Boyle implicating Harry Forker in the Whitla kidnaping

and using his name in connection with an alleged murder at Youngstown. The community is excited tonight, even more than it was on the day of the kidnaping. As this is the home of Boyle, he has some friends who give credit to his tale, but the greater part of the community hesitates about giving credence to the story involving a respected member of the community, especially when the only charge against him is an unsupported statement of a convicted felon.

Janitor Sloss of the school from which Willie Whitla was taken insists still that Boyle was the man who called for the boy and took him away in the buggy. He does not believe the Boyle statement.

Tale Discredited at Youngstown. Youngstown, O., May 10.—The association of the name of Harry Forker by James Boyle, convicted of kidnaping Willie Whitla, with allegations that he was connected with the death of Dan Reibel, Jr., here in June, 1895, has not been confirmed by the police records in Youngstown. Patrolman Michael Donnelly, still an active member of the police department, talked with Reibel only an hour prior to his death.

The two men were seated at the foot of the stairs of the building in which Reibel lived. Leaving Reibel, Donnelly was less than a block away on his beat when he heard a noise in the direction of the Manser building. He returned, and found Reibel on the sidewalk, living but unconscious. No one was in sight. Reibel had been in the habit of sitting on his window sill before retiring. No one ever has been suspected of knowing the exact manner of his death. Dan Shay, mentioned by Boyle, was a saloon keeper here and died about two years ago.

ACCUSED OF SWINDLE. Exploiters of an Arizona "Mine" on Trial at Kansas City.

Kansas City, Mo., May 10.—Charged with using the mails to defraud in exploiting a mine located near Winkelman, Ariz., E. S. Horn, John E. Horn, Frank H. Horn, S. H. Snider and Raymond P. May, who were indicted by the federal grand jury several months ago, were today on trial here before United States district judge William C. McGinnis. Present inspectors estimate that \$182,000 was received by the promoters from the sale of treasury stock.

FINAL ARGUMENT WILL BE MADE TODAY. Case of Capt. Peter Hains, Charged With the Murder of Wm. Annis, Is Expected to Pass Into the Hands of the Jury Shortly Before Noon.

Flushing, N. Y., May 10.—One hour more of summing up by the prosecution, and afterward the court's charge—then the case of Captain Peter C. Hains, Jr., charged with the murder of William E. Annis, will pass into the hands of the jury. The trial, which is scheduled for the trial of the army officer is expected to follow tomorrow.

Today's session of the court was marked by the final appeal by John F. McIntyre for the defense and part of the final plea of George A. Gregg for the prosecution. The trial of the case was taken, late this afternoon, Justice Garretson announced that he would allow Mr. Gregg an hour tomorrow in which to complete his remarks. The court then will immediately charge the jury, and as the charge will consume about an hour, the trial will be in the hands of the jury shortly after noon.

The prevailing opinion of those who have followed the trial closely is that there may be a weary wait before a verdict is reached.

Two-Year Term for an Ohio Woman. Warren, O., May 10.—Mrs. Abbie Cross, of Jamestown, N. Y., charged with administering poison to Ida J. Maynard, pleaded guilty and was sentenced to two years in the penitentiary today.

Mrs. Cross was alleged to have been in love with Maynard and jealous of Mrs. Maynard.

TRAGEDY FOLLOWS QUARREL. Iowa Man, Aged Seventy, Kills His Son-in-Law and Himself.

Des Moines, Ia., May 10.—Herma Rohrer, aged seventy, a wealthy resident of North Branch, near Guthrie Center, this evening shot and killed his son-in-law, August Lass, aged fifty, and then shot himself to death. Rohrer and Lass lived together on a farm and the two families are said to have repeatedly quarreled. Today Rohrer sent Lass quarreled over the matter of a piece of land, and the shooting followed. Following Lass' death, Rohrer set fire to the man's clothing and when found the body was still smoldering.

Fatal Affray at Council Bluffs. Council Bluffs, Ia., May 10.—During a revolver fight tonight between Patrolman Charles A. Horner and Joseph Taylor, a negro, who was resisting arrest, the officer received two dangerous wounds and the negro was fatally shot. When Horner attempted to arrest Taylor, the negro struck at the officer, who knocked him down with a club. Taylor then drew a revolver and shot the officer twice. Horner shot Taylor twice in the back while the latter was trying to escape. Patrolman Arnold came to Horner's assistance and fired several shots after Taylor, who was later found dying in a house three blocks away.

SHOOT'S WIFE AND SERVANT. Mason City, Ia., May 10.—J. H. Gilligan, a restaurant man at Britt, shot his wife and servant girl, Laura Stillson, this afternoon. Mrs. Gilligan was hit in the head and the girl in the leg. Gilligan and his wife quarreled and separated some time ago. She returned today to get some furniture, when the shooting occurred.

OMAHA MAN A SUICIDE. Omaha, Neb., May 10.—Julius Meyer, for many years a prominent figure in business circles at Omaha and president of the Metropolitan club, committed suicide at Hanscom Park this afternoon by shooting. Despondency on account of ill health is the supposed cause.

THE WEATHER.

Washington, May 10.—The following is the weather bureau's forecast for Upper Michigan: Increasing cloudiness and warmer; Tuesday, Wednesday, showers and warmer; moderate to brisk south and southeast winds.

BAGS BIG RHINOCEROS.

Nairobi, British East Africa, May 10.—A bulky bull rhinoceros is the latest prize wrested from the jungle by Theodore Roosevelt. The rhinoceros was charging Colonel Roosevelt when the latter fired. The distance was fourteen paces. The animal fell dead. Fifteen varieties of game, including the big rhino, were bagged on this last expedition.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including National League, American League, and American Association games.

YESTERDAY'S GAMES.

Table listing results of baseball games from yesterday, including National League, American League, and American Association games.

SENATE STANDS BY FINANCE COMMITTEE.

Proposition to Reduce the Duty on Pig Lead a Quarter of a Cent a Pound Is Defeated by the Vote of 35 to 44.

Washington, May 10.—The ability of the Republican majority of the senate to uphold the recommendation of the committee on finance on the lead schedule, which contains the Dingley rates in the tariff bill in place of the lower duties fixed by the house, was fully demonstrated today when, by the vote of thirty-five to forty-four, the senate declined to reduce by one-quarter of a cent a pound the duty on pig lead as recommended by the committee on finance.

In this vote eleven Republicans voted with the Democrats and two Democrats with the Republicans. By a viva voce vote the senate adopted the rate of one and three-eighths cents a pound on pig lead as recommended by the committee.

At the conclusion of the session Mr. March stated that he regarded the vote as an endorsement of the action of the committee, and expressed confidence that all the schedules of the committee would be upheld. The Republicans voting for the reduction were: Beveridge, Burdick, Brown, Burkett, Clapp, Crawford, Cummins, Dooliver, Gamble, LaFollette, Cummings, Hughes, of Colorado, and McEnery of Louisiana, Democrats, voted against the amendment.

A bill doubling the tax imposed upon brewers and wholesale and retail liquor dealers was introduced today by Representative Kendall, of Iowa. It also provides that no tax shall be imposed or collected in localities where the manufacture or sale of intoxicating liquors is prohibited by the state law. An effort to have the national liquor tax increased was made at the time the ways and means committee was preparing the tariff bill.

AERONAUTS ESCAPE INJURY.

Army Balloon Explodes as It is Alighted and Is Destroyed.

Omaha, May 10.—Army balloon No. 12, which ascended from Fort Omaha at 11:15 o'clock today, landed at Jackson, Neb., at 6:45 o'clock this evening. In making the landing the gas bag exploded a few feet above the ground and was destroyed, but neither Captain Chandler nor Lieutenant Moore, who made the flight, were seriously injured. Captain Chandler believes that while at a high altitude the gas became charged with static electricity, and on reaching the ground the contact with the earth caused an arc to form, thus producing an electric spark which set fire to the big bag.

The balloon started north as soon as it was well into the air and soon crossed the Missouri river. It followed the general course of the river for nearly a hundred miles, the flight following an east-northeast direction. The highest altitude reached was 4,400 feet, shortly after the balloon left the earth. The breeze carried the bag at a thirty-mile gain the first hour, when the wind died and the balloon was becalmed for an hour and a half. A wind then sprang up and carried the balloon at a rapid rate northward.

Running out of ballast in the vicinity of Jackson, Captain Chandler decided to land. The balloon came down in the open in an easy manner, but just as it reached the earth, the explosion occurred. The maximum speed reached was about fifty miles an hour.

FORCES THE MINISTERS TO STAY IN OFFICE.

Emperor Nicholas Solves the Cabinet Crisis in a Manner Peculiarly Russian.

St. Petersburg, Tuesday, May 11.—A solution of the cabinet crisis, whereby Premier Stolypin and his colleagues in the cabinet will retain their posts, was arranged at a conference between the premier and the emperor which continued until 1 o'clock this morning. M. Stolypin returned to St. Petersburg from the Tsarskoe-Selo an hour later, bringing the text of an imperial rescript expressing the confidence of the monarch in the ministers and his gratitude for their services and explaining the motives leading to the rejection of the naval staff bill. The rescript will be published in the official gazette today.

The crisis was solved in a manner peculiarly Russian. The emperor refused to sign the bill providing for the naval staff, because he considered it an invasion of his prerogatives, and he declined also to accept the resignations of the cabinet, ordering the ministers to remain at their posts. The latter, after reiterating their representations of the impossibility of rendering useful services under these conditions, decided that their duty was to continue in their present offices.

The rejection of the staff bill was announced in the customary way by the secretary of the empire at a session of the council of the empire last evening. A law establishing a staff will be issued later, as the imperial ukase is without parliamentary sanction. Under the new conditions the ministry cannot be considered stable, and as it appears that the prerogative of the duma is merely to vote money, the dissolution of the chamber is expected at no distant date.

Failing to secure the acceptance of his resignation Premier Stolypin, it is understood, presented a request to the emperor for an extension of his vacation, from which he only recently returned, ostensibly because he had not fully recovered from his illness, but actually to escape the embarrassment of facing the duma.

SMITH DEFEATS JOE WALCOTT.

Columbus, May 10.—"Thunderbolt" Smith of Columbus was awarded the decision tonight at the end of a six-round bout with Joe Walcott.

New York, May 10.—Jack Ladbury, of Australia, and Tommy Stone, of New York, tonight fought ten rounds to a draw.

To the casual observer all merchandise looks alike, but there are thirteen recognized grades of this material.

PORTO RICAN CRISIS IS GRAVE, HE SAYS

Urging Legislation Amending the Foraker Act, President Taft Calls Attention to an Exceedingly Annoying State of Affairs.

Uncle Sam Has Gone Altogether too Fast in the Extension of Political Power to the People of the Island, He Declares, and He Recommends That the Absolute Authority of Appropriation Shall Be Taken Away from Them.

Washington, May 10.—President Taft today sent to congress a special message recommending legislation at the present extra session, amending the Foraker act under which Porto Rico is governed. The president directs the attention of congress to affairs on the island, laying particular stress on what he terms "a situation of unusual gravity," developed through the failure of the legislative assembly of Porto Rico to pass the usual appropriation bills, leaving the island without support after June 30, next.

Porto Ricans have forgotten the generosity of the United States, the president says, in the desire of certain of the island's political leaders for power, and he adds that the present situation indicates that the United States has gone too fast in the extension of political power to the Porto Ricans. He concludes that the absolute power of appropriation should be taken away from "those who have shown themselves too irresponsible to enjoy it."

The president suggests to congress the wisdom of submitting to the appropriation committee the question of qualifying some of the provisions of the fundamental act as to the respective jurisdictions of the executive council and the legislative assembly. But no action of this kind, the president says, should be begun until the Foraker act is amended so that when the legislative assembly shall adjourn without making the appropriation necessary to carry on the government, such as to the appropriation made in the previous year for the respective purposes shall be available for the current revenues, and shall be drawn by the warrant of the auditor on the treasurer and counter-signed by the governor. Such a provision applies to the legislatures of the Philippines and Hawaii and "it has prevailed in those two countries any misuse of the power of appropriation."

Government Held Up. The president reviews the establishment of the present government for Porto Rico by the Foraker act. He says the statute directing how the expenses of the government are to be provided leaves some doubt whether this function is not committed solely to the executive council but in practice the legislative assembly has appropriated for all the expenses other than for salaries fixed by congress and the president adds, "It is too late to reverse that construction."

The president says that ever since the institution of the present assembly the house of delegates has uniformly held up the appropriation bills at the last minute of the regular session and has sought to use the power to do so as a means of compelling the concurrence of the executive council in legislation which the house desired. In the last regular legislative assembly the attitude of the executive council in refusing to pass bills led the house of delegates to refuse to pass the necessary appropriation bills.

Mr. Taft discusses the acts of the legislature and of the council in detail and says the facts recited demonstrate the willingness of the representatives of the people in the house of delegates to subvert the government in order to secure the passage of certain legislation. The question whether the proposed legislation should be enacted into law was left by the fundamental act to the joint action of the executive council and the house of delegates as the legislative assembly. The house of delegates, says the president, proposes itself to secure this legislation without respect to the opposition of the executive council, "or else to pull down the government."

Too Great Power Conferred. This growing spirit shows that too great power has been vested in the delegates. The message presents an exhaustive economic review of conditions on the island, its trade and its wealth, its improved educational facilities. It points out that "there never was a time in the history of the island when the average prosperity of the Porto Rican has been higher, his opportunity greater, his liberty in thought and action more secure." For the first time in its history, Porto Rico, he says, is living under laws enacted by its own legislature.

The president points out that if the Porto Ricans desire a change in the form of the Foraker act this is a matter of congressional consideration, dependent upon the affect of such a change in the real political progress on the island. Such a change, he says, should be sought in an orderly way and not brought to the attention of congress by "paralyzing the arm of the existing government." The president says that the generosity of this government "should not be an occasion for surprise, nor in dealing with a whole people can it be made the basis of a charge of ingratitude." The message concludes: "When we with the consent of the people of Porto Rico assumed guardianship over them and the guidance of their destinies we must have been conscious that a

SEVEN DIE WHEN LAUNCH CAPSIZES

A Gasoline Boat Striking Some Sunken Piling, Every One of Those on Board Perishes in the Waters of the Chippewa.

Trying Out a New Craft for the First Time, George Hall of Eau Claire, Wis., Takes R. H. Sweet, Wife and Four Children With Him for a Ride on the River—None Are Able to Swim and When the Wreck Occurs All Meet a Tragic Fate.

Eau Claire, Wis., May 10.—None being able to swim, George Hall, twenty-one years old; R. H. Sweet, forty-five years old, and Sweet's wife and four children were drowned in the swollen waters of the Chippewa river here Saturday night when Hall's gasoline launch, which they were trying out for the first time, capsized in mid-stream upon striking some sunken piling. Nobody saw the launch capsized. It was just turning dark when William McLaughlin, fishing on the bank of the river, heard cries for help and saw Sweet and Hall clinging to the overturned boat while the current was carrying them rapidly down stream. It was only a few seconds before the overturned boat and the struggling members of the party had disappeared from view. Sunday evening the overturned boat was discovered on a sandbar half a mile down the river from the city. The bodies have not been recovered.

BODIES OF THE DEAD ARE BLOWN TO PIECES

Explosion at a Powder Plant in Kansas Kills Four and Injures Twenty Men and Is Followed by a Fire That Causes Much Property Damage.

Columbus, Kas., May 10.—The mixing room of the Ladin-Rand powder mill at Turk station, near here, blew up this afternoon, killing four men, twenty workmen were injured, some seriously. The dead were Joseph Stovall, William Morrow, Robert McFarland and James Root. The men were at work in the mixing room at the time of the explosion. Their bodies were blown into bits, which immediately after the explosion the factory took fire and burned for two hours, doing great damage. One hundred employees of the plant finally extinguished the blaze, all the while being in great danger from the large quantities of explosive stored in the buildings. The loss exceeds \$75,000.

This is the fourth time that the mixing room in this factory has blown up. The first explosion killed three, the second two and the third five men. The plant produces black and smokeless powder.

Dynamite Explosion Kills Two Miners. Wooster, O., May 10.—The explosion of a stick of dynamite carelessly or maliciously placed in a stove caused the death of two men and the serious injury of three others today at the Peterman coal mine near Frederickburg.

people that had enjoyed so little opportunity for education could not be expected safely for themselves to exercise the full power of self government and the present development is only an indication that we have gone somewhat too fast in the extension of political power to them for their own good.

"The change recommended may not immediately convince those controlling the house of delegates of the mistake they have made in the extremity to which they have been willing to resort for political purposes but in the long run it will secure more careful and responsible exercise of the power they have."

"There is not the slightest evidence that there has been on the part of the government or any member of the executive council a disposition to usurp authority or to withhold approval of such legislation as was for the best interests of the island or a lack of sympathy with the best aspirations of the Porto Rican people."

Strenuous opposition by the Democrats in the house today prevented the reference of the president's message to the committee, on ways and means. A motion by Mr. Garrett, of Tennessee, directing the speaker to fortify it, appoint a committee on insular affairs, which under ordinary procedure would have charge of the subject, defeated the fact that a quorum was not present. Consequently the message will lie on the speaker's table until the house meets Thursday. The Philippine tariff bill was reported and Mr. Payne gave notice that he would call it up Thursday. In the senate, the president's message was referred without discussion to the committee on Porto Rico.

THREATEN SPLIT IN CHURCH.

Native Christians in Guam Dislike Germans as Spiritual Advisors.

Guam, May 10.—A split is threatened in the Catholic church of Guam. The native Christians, fearing the Germanizing influence, have called the Vatican that the monks of the German Capuchin order are not competent spiritual advisers, because they are ignorant of the English, Spanish and Chamorro languages. A schism such as occurred in the Philippines is feared. The people appear to be absolutely irreconcilable to the priests.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year by carrier... \$1.00 Per year by mail... \$1.00

MARQUETTE, MICH., MAY 11.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

What's become of our old friend Castro?

The senate leaders, i. e., Aldrich, Hale & Co., are reported to be greatly annoyed at the conduct of those obstreperous bad boys, Dooliver, Cummins, La Follette and the others.

Some of our upper peninsula contemporaries hold to the opinion that the nomination of Chase S. Osborn for governor, if it can be pulled off, need not, of necessity, interfere with the renomination of O. B. Fuller as auditor general.

Representative Farmer, the foremost advocate of the tonnage tax plan, continues hopeful that he will get the legislature to act on it before adjournment.

The story related by Frank Wagner, of Milwaukee, alleging bribery by Stephenson agents of three Democratic assemblymen, now appears to be pretty conclusively disproved.

Detroit Saturday Night says that Mr. Osborn is the leading receptive candidate for governor.

Roosevelt for mayor of New York is the latest proposal put forth by the gentlemen who have been sorely concerned with the problem of what to do with our latest ex-president.

Representative McCabe, whose prospective removal to New York will terminate his legislative experience at the end of one term, was in a fair way to make a valuable member for the district.

Some of the most eloquent warnings being given to Aldrich, Hale & Co. of the necessity of putting in the pending tariff bill a fair measure of downward revision, particularly on the things that enter into wearing apparel, are being voiced by the eastern papers.

The national weather bureau service is made the subject of a muckraking attack by Emeraugh Hough in Everybody's Magazine for May.

Representative McCabe, whose prospective removal to New York will terminate his legislative experience at the end of one term, was in a fair way to make a valuable member for the district.

Some of the most eloquent warnings being given to Aldrich, Hale & Co. of the necessity of putting in the pending tariff bill a fair measure of downward revision, particularly on the things that enter into wearing apparel, are being voiced by the eastern papers.

The national weather bureau service is made the subject of a muckraking attack by Emeraugh Hough in Everybody's Magazine for May.

few months, and none of them got along with it any better or gave brighter promise of a useful future than Mr. McCabe.

Discussing the question of municipal gas, J. E. Sherman, president of the light and power commission, has given some figures that publications like the Michigan Investor, which opposes municipal ownership in whatever form proposed, have questioned.

Any tariff bill that does not reduce the party's campaign pledges, the Globe remarks, can, it is clear, in the light of the vigorous campaign of the western senators, be put through the senate, if at all, only after a severe struggle.

Senator Aldrich, concludes the Globe, continues to assert, it is true, that the decreases in his bill outnumber the increases, but does he allow sufficiently for the relative importance of various commodities? So far he has not removed the doubt which was aroused when he intimated in the senate that the Republican party was not committed to downward revision.

It is unfortunate that the legislature is going to adjourn without taking up the primary school fund in a businesslike manner and legislating so that some of the absurdities of the present situation shall cease to exist.

The directors of the Mass Consolidated Mining company issue a circular to the stockholders explaining recent developments. This circular says: The new lode discovered in the poplar shaft.

The diamond drill cores obtained by the Mass company all show well in copper and indicate that the lode is permanent and regular in width and copper content.

From this "new lode" of high grade rock per day is going to the mill, taken out in the ordinary course of development. Our superintendent is making arrangements so as to begin stopping and as soon as possible, we shall make a mill test of not less than 500 tons of this rock.

Some of the most eloquent warnings being given to Aldrich, Hale & Co. of the necessity of putting in the pending tariff bill a fair measure of downward revision, particularly on the things that enter into wearing apparel, are being voiced by the eastern papers.

thority, the difference in producing costs, consequent on the American wage scale, is probably not 30 per cent. In many important lines the American manufacturer turns out goods at as low a cost as his foreign rival, something proved by the fact that he is able to sell on even terms in neutral markets.

received, we cannot tell with accuracy how much copper this lode contains. An assay of a grab sample gave ninety-two pounds of refined copper to the ton and while an expert estimate of the lode, in its entirety, is thirty pounds, your directors are confident that with two or three months of copper ton of rock stamped by various Michigan mines are: Albion 13.89, Centennial 12.94, Isle Royale 13.8, Mohawk 15.01, Osceola, I. J. Quincy 16, Wolverine 27.24.

Honored by Women

When a woman speaks of her silent sufferer, suffering from constipation, she has bestowed this mark of confidence on Dr. R. V. Pierce, of Buffalo, N. Y.

IT MAKES WEAK WOMEN STRONG IT MAKES SICK WOMEN WELL.

No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the WORLD'S DISPENSARY MEDICAL ASSOCIATION, Dr. R. V. Pierce, President, Buffalo, N. Y.

Dr. Pierce's Pleasant Pills induce mild natural bowel movement once a day.

second adventure lode, which shows ten feet of good copper rock. While the showing in these lodes is favorable, the management will push the drilling to the rock, the Lake lode, which is expected to prove much the richest deposit in the property.

Mohawk's No. 6 shaft will be located 2,600 feet south of No. 5. This will make all of the ground between No. 5 and the Alamek boundary tributary to it and the position of the new shaft will permit it to sink directly to the deepest point in this part of the Mohawk acreage.

In the last few months, the Wyandot has been opening some fairly rich ground. The company's lands comprise 1,063 acres and the area contains a vast portion of the mineral range extending two miles from the eastern sandstone west. This territory includes the Lake and Baltic lodes. The company has already cut six lodes in the crosscuts.

On April 26 two counties in New York, Suffolk and Nassau, voted for the repeal of Long Island, voted for licensing saloons. It was the first recent determined contest in New York state on what might be called a moderately large scale between the wets and the dries.

More than half of the city of Chicago is dry, and another surprising thing in that town is that the liquor law is enforced strictly in the wet regions.

In some states, Florida, Illinois, Delaware, the wets and dries are nearly divided as to population, but the dries are far in the lead as to extent of territory.

It was just three years ago when Etton sat on the floor playing. A carpet had just been put down. He spied a bright tack on the floor, and, babylike, he went to his mouth. His mother saw him, but too late to stop him from swallowing the tack. Every means was resorted to in an effort to recover the tack, and as time wore on and there seemed to be no serious effects four gradually subsided. Finally a Cleveland physician put the X-ray on the boy, and found the tack near the lung. While playing, the boy was seized with a violent coughing spell, and on flew the tack. It was encased in a sort of fleshy growth.

Let Kodol Digest What You Eat

Then you can Eat what you like, for Kodol will do exactly what your stomach does when it is well.

You could eat anything you wanted, and your stomach would digest it.

But now there are some things which your stomach won't digest. Your stomach absolutely refuses to accommodate you when you eat certain food—so you have body or part of your body that works.

Kodol will do the same work as the stomach, when it is well and strong. Every tablespoonful will digest 2 1/2 pounds of food.

COPPER RANGE CONSOLIDATED.

For the year 1908, the Copper Range Consolidated reported a surplus of \$1,436,774, which sum equaled \$3.87 per share, whereas \$4 were paid in dividends. This is the first time since dividends were inaugurated in 1905, that the company paid more than the amount of the surplus.

The directors of the Mass Consolidated Mining company issue a circular to the stockholders explaining recent developments. This circular says: The new lode discovered in the poplar shaft.

The diamond drill cores obtained by the Mass company all show well in copper and indicate that the lode is permanent and regular in width and copper content.

STONE IN KIDNEY

An interesting case was that of Mr H. L. Duffe, a member of the firm of H. C. De Wolfe & Co., of the Crocker building, San Francisco.

The case was puzzling. There was pain in the kidney with a showing of blood. Examination by seven physicians led to the diagnosis of a stone in the kidney, and it was the opinion of all that there was a stone cutting the kidneys, as the least exercise caused a showing of blood.

Four X-ray pictures were taken, three of them showing a stone half an inch in diameter. To be certain that it was a stone that cast the shadow, a similar stone about the same size taken from a patient was put under him for comparison—both stones showing on the plate.

An operation was at once decided upon when Fulton's Renal Compound was recommended to Mr. McDuffe. He feared the knife and gave it a trial.

Within ten weeks the blood and pain had ceased and in six months he considered himself well.

NOTES OF COPPER NEWS.

The Giron Consolidated Mines company has been the subject of the undisturbed department of the Boston Stock exchange. It is a Nevada property in the Ely district, organized in 1903, with \$7,500,000 authorized capital, par \$5, of which \$2,500,000 is reserved for conversion of bonds.

Although the Winona management does not intend to produce any copper until the market shows an improvement, the entire production, and its sale, will command a higher price. The mine is declared to be opened six years ahead and has 1,400,000 tons of rock ready for stopping.

The plan for reorganization of the Dominion Copper company, formed by the protective committee in opposition to the reorganization committee's plan, is ready. It seeks to avoid foreclosure and to have the company's capital to pay off the debt, and to permit resumption of operations.

The North Lake mine is making a comprehensive exploration of its property before undertaking any permanent and expensive work. Diamond drills will open the entire formation, and disclose all the lodes that traverse the property, comprising 1,150 acres. One drill has cut the first Adventure lode, which is thirty feet wide, carrying fifteen feet of heavy copper. The drill is now in the

NYAL'S

HOT SPRINGS BLOOD REMEDY

PURIFIES THE BLOOD.

Do you feel worn out? Feel as though you could hardly go? These are symptoms of sluggish blood, blood that is not circulating right. Are you pale and anemic? This is caused by the blood not properly nourishing the cells of the body.

Have you pimples or boils? They are the result of the blood failing to do its duty of carrying away waste material from the cells.

If you have any of the above complaints do not suffer. COME TO US. We will recommend to you a bottle of Nyal's Hot Springs Blood Remedy.

We know what it will do. We have seen the results. If you suffer from eczema, tetter, scrofula or any other skin disease, take a course treatment (not less than six bottles) and we will be greatly surprised if you are not cured.

It is not a specific, but it is the nearest specific we know of, for skin and blood diseases. A dollar buys a large bottle.

THE SUPERIOR LUMBER COMPANY

City Brevities

Today's weather: Increasing cloudiness and warmer.

Yesterday's temperatures: Seven a. m., 59 degrees; noon, 40; 7 p. m., 37. Maximum, 42 degrees; minimum, 37.

Mrs. Paul Christianson went to Chicago last evening.

A meeting of the Marquette baseball team will be held at the Hotel Clifton tonight.

Colonel Robert J. Bates, of the Spc, was in the city yesterday on a political mission.

Miss Agnes Rivers is again at home, after spending a time at St. Mary's hospital.

Miss Jessie Van Cleve has gone to Elk Hart, Ind., to make an extended visit with relatives.

Mrs. John Trevillion, of Calumet, is visiting her daughter, Miss Mayburn, at the Normal school.

Robert Bell has purchased a lot in the White addition, facing on Blenhuber avenue, of Asire & Palmer.

Miss Leah Pelletier, daughter of Mrs. P. Anglehart, left yesterday for Mackinaw City to visit friends and relatives.

Mrs. Silas Jacka, of Crystal Falls, is visiting at the home of her parents, Mr. and Mrs. Henry Bittell, on East Michigan street.

Baraga school was inspected yesterday by the diocesan examiners, Rev. Father Malone, S. J., of Sault Ste. Marie, and Rev. Father Atfield, of Hancock.

Rev. Ames Maywood will leave today to attend the annual assembly of Methodist ministers of the Houghton district, this year held at Lake Linden.

A largely attended and enthusiastic meeting of the Retail Clerks' union was held at Siegel's Hall last night, at which several new members were initiated.

The "Molly McGuire" were defeated by the "Round Heads" in a baseball game by the score of 5 to 4, at the Pioneer furnace No. 2 yesterday noon.

The steamer Donaldson was expected to arrive at the Presque Isle docks last night to load 6,500 tons of ore from the Lake Angelina mine, owned by the Jones & Laughlin interests.

Members of the Deutscher Arbeiter Verein announce that the secretary of the grand lodge will be in Marquette May 19, and will deliver an address to the members of the local society.

John Curnow, of Ishpeming, who has been in the county jail since Friday, was found insane in probate court yesterday and taken to the Newberry hospital in the afternoon. Drs. Dietze, of Ishpeming, and H. F. Hornbogen, of Marquette, were the examining physicians.

It was erroneously stated yesterday that S. J. Mitchell had been called to Philadelphia because of the death of his sister, Mrs. W. E. Sanders. Mrs. Sanders' condition is critical, but it is hoped to pull her through. Mr. Mitchell left for Philadelphia accompanied by his mother.

Kitchen Roof Caught Fire—The fire department was called out at 12:45 yesterday noon to extinguish a blaze at Edward Hogan's residence, on Fisher street, the kitchen roof having caught fire from sparks from a chimney. The fire was extinguished without difficulty and no great damage was done.

Deer Ran Through Town—About 10:30 yesterday forenoon, residents along Harrison street were surprised to see a deer running along the street toward the cemetery, where it disappeared. It is thought that the animal escaped from Presque Isle, as one of the four, recently transferred to the island from the prison herd was missing yesterday afternoon.

Name Plate of Shores Found—It was reported from Grand Marais last night that a tug from that city found a piece of wreckage and a life preserver, both bearing the name of the missing steamer, Adella Shores, about fifteen miles east of Grand Island, yesterday. This find is considered evidence that the ship Shores and all on board have been lost.

Preparing Jury List—County Clerk Jenks and Deputy Treasurer Wright were working yesterday on the jury list for the coming year, which must be prepared during the month of May. About twenty names are selected from each ward and township in the county, from which number the juries drawn during the next twelve months will be chosen.

Telephone Girls' Ball—The dancing party given by the Michigan State Telephone company operators at Legion Hall last night was a thoroughly enjoyable and successful affair. A very large crowd attended and good music was furnished by Chery's orchestra. The hall was elaborately decorated with flags, red, white and blue bunting, and the side walls with white and blue streamers. A unique feature was the letters "B. T. O." in blue incandescent lights. Refreshments were served.

Special Committee Appointed—At the meeting of the Commercial club held last evening, a special committee was appointed to work in conjunction with the water board toward speedily securing a safe and sanitary water supply for this city. This idea had its birth at the Commercial club banquet held last winter, but it was only last evening that the committee was appointed, as follows: A. T. Roberts, James Russell, Joseph Neidhart, John Carlson and Dr. Z. Vadnais. The committee was not instructed by the club as to its course of action.

Dairy Inspection Probable—The health committee of the common council, recently especially instructed to investigate milk conditions in this city, is working on the subject and it is probable that an ordinance will be submitted to the council with their report at no distant date. The plan of requiring regular inspection of dairies, thus insuring sanitary and non-tubercular milk is said to have been favored by the committee, and it is thought that the ordinance drawn will be upon those lines. Dr. A. W. Deadman is working with the committee in their investigations.

Johnson Suit Ended—The last chapter in the suit of Luchian Johnson against the city of Marquette, because of the death of Mrs. Johnson in an accident at the Carp river crossing three years ago, was closed a few days ago, by the payment to the city of \$3,545.57 by the M. & S. E. Ry. Co. in accordance with the agreement reached several weeks

ago. This amount represents 62 1/2 per cent of the total judgment against the city, with interest since the settlement was made with the railroad company. The amount of the judgment, \$5,692.84, was paid to Mr. Johnson by the city several weeks ago.

South Shore Excursions—June excursion rates over the D. S. S. & A. railroad and Detroit and Cleveland line of steamers have been announced. The excursions will begin Wednesday, June 9, and will be followed by others on Saturday, June 12, Thursday, June 17, and Saturday, June 19. The South Shore trains will connect at St. Ignace with the D. & C.'s steamers for Cheboygan, Alpena, Port Huron, Detroit, Cleveland and Buffalo. The same low rates as last year will apply: Marquette to Detroit and return, \$7; Marquette to Toledo and return, \$7.50; Marquette to Cleveland and return, \$8.50; Marquette to Buffalo and return, \$9.

Will Make Test Soon—A. A. Miller, of Minneapolis, was in the city yesterday, in the interest of the American Feed Water heater, a test of which is soon to be made on South Shore locomotive No. 408. This new invention is for the purpose of heating water before it enters the locomotive boiler, by which method it is claimed that much coal will be saved. This will be the first practical test made of the device, and its outcome will be watched with interest by railroad men. E. F. Kennedy, of this city, is equipping the engine with the heater. It is thought that the test will be made some time next week. Mr. Miller is one of the financial backers of the enterprise.

INSURE WITH PETER WHITE & CO. WHITE PLAGUE CASES.

Physicians Must Be Prompt Under the New Law.

Governor Warner has signed a bill which makes every saloon profitable and health boards for the purpose of better protection against tuberculosis.

The bill makes it a duty of physicians to report to their local boards of health or health officers within twenty-four hours every case of tuberculosis that comes to their knowledge. Health officers must make quarterly reports in detail of all such cases to the state board of health. When tuberculosis subjects die or move from their apartments or premises, the owner or tenant is notified forthwith by the local authorities, and the apartment or premises can not again be occupied until disinfected in accordance with the methods of the state board of health. Nothing must be removed until the disinfection has been done, and this must be in twenty-four hours.

Upper Peninsula

Took His Own Life—On the 18th day of last March Cyril Valind, manager of the store at the Cleveland-Cliffs Iron company's Camp Alger, in Limestone township, died very unexpectedly and after a suspiciously brief illness. Dr. Scholtes, county coroner, impounded a jury. The jury has now rendered a verdict of suicide. The unfortunate man used arsenic. Financial difficulties are supposed to have unbalanced his mind.

Alleged Bigamist Arrested—W. Cameron has been working at Nogi, where he has a wife and two children, says the St. Ignace Enterprise. During the week Deputy Sheriff Rimmle of Saginaw came to the city and collected the services of Deputy Sheriff Charles Fair in arresting Cameron. The Saginaw officer brought the information that Cameron had a wife and family in that county. The officers secured their man and he has been taken to Saginaw.

Sues for Damages—When a workman in the Gibson mine at Anassa, Iron county, struck an unexploded charge of dynamite with his pick last September the explosion killed him instantly and injured several other men. Erick Oulin claims the right side of his head was lacerated and the hearing in his right ear entirely destroyed. He demands \$1,999.99. It is claimed in the suit that the foreman of the shaft in which the men worked knew of the unexploded charge, but had neglected to remove it.

A Garrison for Mackinac?—Hon. Wm. Alden Smith, senator from Michigan, has introduced a bill in congress to re-garrison and re-occupy Fort Mackinac as a military post. A similar measure introduced a year ago was referred to the war department, which reported "that the fort was abandoned in 1898 as being of no use to the department and the department still entertains the same view." As this report was made over the signature of the then secretary of war, Wm. R. Taft, the outcome appears dubious.

Near View Disenchants—Former Supervisor George Cook of Portage township, Mackinac county, has returned to his former home from the Sackinawen district, where he and Mrs. Cook went last fall to visit friends and possibly to locate. They were disappointed in their expectations of the country and say it is not what it is "cracked up" to be by the railroads that are inducing people to leave good, comfortable homes in Michigan for the frontier. Mr. Cook says there are many more opportunities in Michigan for a poor man than there are in that region.

Holds the Hunting Record—Chas. Spang of Thompson township, has met with exceptionally good luck while hunting during the past three weeks. Within that period he has captured a bear and two cubs, a wolf and five cubs, two martens and five minks. He killed the bears in the vicinity of the Indian River pull-up, and shot the wolf near the Chicago Lumbering company's camp No. 54. After wounding the wolf he followed the animal for five miles to the lake, where he found a litter of five cubs. He took the latter to Thompson alive and is allowing them the freedom of his house. They are very playful, having become very tame, and take nourishment freely.

Mayor Heads County Board—W. L. Middlebrook, mayor of Manistique, has been elected chairman of the Schoolcraft county board of supervisors, of which body he is a member by virtue of his municipal office. At its recent meeting the board passed a resolution that one road commissioner be appointed, and that \$400 be appropriated for salary and expense until the election next spring. There were five candidates for

the office, viz: Eugene Ford, Donald McGregor, George Bouschor, F. G. Dodge and Nels Johnson. Nine informal ballots were taken. The formal ballot resulted in the election of Nels Johnson. He received eight votes, McGregor one Bouschor four.

Appointments at Bessemer—The following appointments made by the mayor have been confirmed by the common council of Bessemer: City attorney, Levi S. Rice; marshal, Herman Carlson; police, Charles Lepisto, John Jankowski and Albert Blaha; an assistant-tendant of water works, G. T. Williams; street commissioner, Joseph Mdivovsky; health officer, W. J. Pinkerton; librarian, Miss Carrie A. Davis; chief of fire department, Albert E. Church; teamster of fire team, Harry E. Patterson; city engineer, Harry W. Byrne; fire warden, Wm. Martens; city teamster of work team, Joseph Chart; city sexton, Bartel Pucylosky; caretaker city hall, James Johnson; member board of public works, Henry Blumentrap; library trustee, W. W. Gray; special assessor, Cornelius Hamilton; Art Lintelmann and Jerome Z. Bayliss.

A Five-Year-Old Heroine—Menominee county boasts of the youngest and bravest heroine in the United States, asserts the Menominee Herald-Leader. She is five years old and Marguerite Selvik is her name. This child plunged into the waters of the Menominee river and rescued her companion, Jesse McPherson, from drowning, just as the little fellow was going down for the last time. The children live at Ingalls, where the Menominee and Marquette Light & Traction company is building an immense dam. As the youngsters were playing about the banks of the river little Jesse fell into the water and would certainly have perished had it not been for the bravery of Marguerite. When she saw the little boy was drowning she plunged bodily into the river after him and succeeded, unassisted, in dragging him to safety on the shore none the worse for his ducking.

Manistique's Creamery—R. F. Frary of Lapeer, Mich., president of the Manistique Creamery company, is in Manistique, getting ready to start up the plant. It is not expected that the creamery will get into full swing for some few weeks yet, but the machinery will be tried out and testings made of all the equipment. Enthusiasts have been pledged to make the venture a success. It has been proved by government experts in severe tests made at the several experiment stations that a pound of butter fat can be produced as cheaply as a pound of beef and as a pound of beef will not bring more profit to the market much above six cents while a pound of butter fat will bring at the Elgin price about twenty-five cents, it is seen that the butter fat is the more profitable. Dairying and stockraising combined with general farming on a modest scale will prove more profitable to the northern Michigan farmer than large acreages of forage, grain or root crops that takes everything out of the soil and puts nothing back.

Lid Is on at Iron Mountain—The lid is on in Iron Mountain—how tightly remains to be seen. Acting under instructions from Mayor Miller, City Marshal Larkin served a personal notice, reading as follows, on every saloon keeper in the city: "Dear Sir: The liquor laws, and all laws pertaining to saloons, are to be strictly enforced. The saloons must be closed from 11 p. m. to 6 a. m. Sunday and legal holidays the back doors as well as front doors shall be locked. All saloons must be removed to that bar-room and bar can be seen from the street. No liquor shall be sold to minors; nor shall minors be allowed in saloons. Considering how lenient I am, the officers have been in the past, I feel it only just that you should be properly notified of this decision. I understand that at a meeting of the saloon keepers all agreed to conduct their places in business according to law, but this I know is not being done, so it is up to me to see that the law is enforced. Trusting that you will appreciate this letter and cheerfully comply with the law, I am, etc."

It is known that, several weeks ago, a majority of the liquor dealers signed a pledge agreeing to conduct their places of business according to the law. It is likewise known that a majority of the dealers in the "down town district" have been faithful to this pledge. But as the city marshal intimates, a number have not done so. The police should make it their business to hunt these fellows persistently, declares the Iron Mountain Press. Arrest them for every minor violation. In this work the police should have the active co-operation of all citizens, but more particularly that of the saloon keeper who is desirous of obeying the laws. It is up to the liquor dealers of Dickinson county to be on their good behavior during the present year. Persistent violations, such as has been practiced in the past, will only win votes for the local option cause.

TURKISH BATHS AND CHIROPODY.

HILL ROAD FINISHED.

Cities of Spokane and Portland Are Now Connected.

Through Trains Are Being Operated--Columbia River Basin Will Greatly Benefit--Put in Closer Touch with the East and the South.

New York, May 10.—The construction of the Spokane, Portland & Seattle railroad, known familiarly as the "North Back" between Spokane and Portland is an event in the development of the Columbia river basin, the inland Empire and the city of Portland of great importance.

By the building of this road, Portland and the Columbia river basin, in connection with the Northern Pacific, are placed in much closer touch with Spokane, the center of the inland Empire; with the Palouse and Walla Walla regions, and with Lewiston and the country tributary to the Snake and Clearwater rivers.

This part of the United States lies between the Cascade mountains on the west and the Bitter Root mountains on the east, and is a great area where 30,000,000 bushels of wheat are produced annually, and where there are many active business enterprises now, and opportunity for more.

When Lewis and Clark made their trip from the Mississippi valley to the Pacific coast, they tried to follow the lines of the least resistance by the way of the Missouri river to its headwaters, thence over the Rocky mountains by the trail known to the native Indians; to the headwaters of streams that are tributaries of the Columbia river; thence down the Clearwater and Snake rivers to the mouth of the Columbia.

The Northern Pacific, in its original plans, contemplated a line to Puget Sound over the Cascade range, which was built, and also a line down the Columbia about eighty miles from Pasco, Portland & Seattle now goes. In 1905, the building of that part of the new road from near Pasco to Vancouver was begun, and it has been built to a maximum grade of only 1.5 of 1 percent between Pasco and Portland.

The same grade is used eastward from Pasco 26.00 miles, from which point the line to Spokane diverges, and on this the maximum grade is only 2.5 of 1 percent. The maximum curvature on the line is only three degrees and the road is built in the most modern, first-class manner, with eighty-five-pound steel rails, heavy ballast and adequate facilities of all kinds, so that as the country grows, the road will be in position to transport a large volume of business.

The great bridges over the Willamette and Columbia rivers, which furnish an entrance to Portland for the Northern Pacific from Seattle and Tacoma, thus avoiding the tery used for more than thirty years, and also affording an entrance for the new North back from the east, are among the largest bridges in this country. They are double-tracked throughout.

The Astoria & Columbia river is a part of the Spokane, Portland & Seattle system, and through that there is an outlet to the Astoria and seaside resorts in that vicinity, furnishing a direct route from the interior to the Pacific coast, which, as population increases, will be a great advent to the seekers after health and pleasure during the summer season.

The scenery all the way from Lewiston and Clarkston, down the Snake and then down the Columbia, is unsurpassed, and the building of this road will bring more forcibly before the public than ever, the magnificence of the Columbia.

The completion of the North Back with its connections with the Great Northern and Northern Pacific, and through them with the Burlington and Colorado & Southern, affords a route to the country and places the Columbia river basin and the inland Empire in much closer touch than ever before with the territory east of the Rocky mountains, as far as Chicago and St. Louis, and south to the Gulf of Mexico.

RAILROAD MAN PROMOTED.

Lincoln, Neb., May 10.—H. E. Byran, general superintendent of the Burlington railway for the Nebraska district, was today transferred to the Chicago headquarters as assistant to Daniel W. Ward, second vice president of the system. He will be succeeded in Lincoln by W. B. Throp, now general superintendent of the Iowa district, with headquarters at Burlington.

The tug boats of the North Atlantic as a rule are about thirty miles in diameter.

NEW LIQUOR LAW.

Legislation Being Enacted at Lansing Imposes Some Draconic Restrictions.

Detroit, Mich., May 10.—With the backing of the liquor interests and with the tacit approval of the temperance forces, there is being enacted at Lansing legislation which imposes much more drastic restrictions upon the saloon business than now prevail in this state. The Warner-Cramton bill, having passed the house by a decisive vote of eighty to two, it is expected to be put through the senate with little or no opposition.

An important new section is one which provides that the number of saloons in any city, village or township shall not be greater than in April, 1909. If the number is more than one to each 500 of population, then no new license shall be issued until the ratio is reached by the natural reduction in the number. This provision will ultimately work a large decrease in the number of saloons in establishments, since there are now many communities where the ratio is one saloon to each 200 people and even less. Another important provision will bring about a reduction in the number of saloons as early as next year. This provision forbids the issuance of licenses to men who are not citizens. It means that the aliens now in the liquor business will be forced to retire at the end of the present fiscal year, and of this class of saloon keepers there are many representatives in Michigan. It is further provided that common council may prescribe the number of saloons, but that this number shall not be greater than one to each 500 of population. No licenses shall be issued to women or to convicts, and none shall be granted where it is proposed to locate a saloon within 400 feet of any church or school, unless the prospective dealer has first secured the consent of every one of the property owners within a radius of 300 feet.

A provision that is expected to materially elevate the standard of retail liquor provides that two violations of the liquor law shall cause a dealer to lose his license and to forever be barred from engaging in the saloon business in Michigan. A unique section is that no signs advertising saloons shall be displayed on the exterior of saloons. The retail license fee is to remain at \$500 and this tax also is to be paid by the outside wholesaler, who now is assessed at only \$65. Retailers may sell only to licensed wholesale dealers. Druggists are forbidden to sell medicinal liquors of any kind except "malt extract," and they may sell spirits only for medicinal, chemical, scientific or sacramental purposes. If the liquor is desired for medicinal use it may be sold only on a doctor's prescription, which shall state the sex of the applicant, the nature of the ailment. It is provided that saloons shall close at 9 o'clock at night unless the common council shall extend the time until midnight, one hour more than now. This regulation is purely a matter of home rule.

FRATERNAL ORDERS AROUSED.

Say Proposed Illinois Law Would Put Them Out of Business.

Chicago, May 10.—The Illinois Fraternal congress, representing 700,000 policy holders and \$1,200,000,000 of fraternal insurance, held an emergency meeting here today to start a fight against a bill pending at Springfield which is intended, so the fraternal men say, to put their companies out of business. A special committee was sent to Springfield tonight.

The bill is similar to one passed by the New York legislature, and which is awaiting Governor Hughes' signature. The fraternal companies have raised such a cry that Mr. Hughes has set next Friday for a public hearing. A similar bill has been made a law in New Jersey. The representatives of the old life insurance companies say they would suffer just as much from the bill as the fraternal insurance men.

House bill No. 552 is the one aimed at. It amends the existing anti-rebating laws so that the old life insurance companies are allowed to write insurance practically at any figure they see fit, provided this insurance is sold to one hundred or more members of labor unions, lodges, beneficial societies, or persons working for the same employer.

TAFT PRAISES ITS MISSION.

Annual Congress of the Playgrounds Association Meets at Pittsburgh.

Pittsburgh, May 10.—The annual congress of the Playground Association of America began here tonight, with representatives present from about forty cities. Speeches of welcome and responses were made and the annual address of the president of the national association was delivered. President Taft sent a letter, which was read at the meeting tonight. It was as follows:

"My Dear Sir: I greatly regret that I cannot be with you at your third annual congress at Pittsburgh; but I write to express my most sincere sympathy for the work which your association is doing. I do not know anything which will contribute more to the strength and morality of that generation of boys and girls compelled to remain part of urban populations in this country, than the institution in their cities of playgrounds where their hours of leisure can be occupied by rational and healthful exercise. The advantage is two fold:

"In the first place idleness and confinement in a narrow space in the city, in houses and cellars and unventilated dark rooms, is certain to suggest, and bring about pernicious occupation and create bad habits, gambling, drinking, and other forms of vice are promoted in such a restricted mode of life. In the second place, an opportunity for hard, earnest and joyous play improves the health, develops the muscles, expands the lungs and conches the moral lessons of attention, self-restraint and courage and patient effort.

"I think every city is under the strongest obligation to its people to furnish to the children, from the time they begin to walk until they reach manhood, places within the city walls large enough and laid out in proper form for the playing of all sorts of games which are known to our boys and girls and are liked by them.

"I sincerely hope that your present convention may be a success and that the work which you have begun may go on until no city in this country is without suitable playgrounds for the children of those who, but for such city assistance in this regard, would be without them."

BOARD OF TRADE SCORCHED.

Chicago, May 10.—Fire under the floor of the trading room of the Board of Trade wrought \$1,500 damage today. A smoldering blaze, due to crossed electric wires, started some time after the close of the session and when the place was practically deserted. The firemen reached the flames only after tearing up fifty feet of flooring. The damage will not interfere with business.

DROPS DEAD ON A TRAIN.

La Crosse, Wis., May 10.—Rev. W. D. Thomas, sixty-five years old, former president of Gale college, Galesville, one of the most widely known Presbyterian clergymen in the Northwest and a man very high in the Masonic order, dropped dead this afternoon on a train on the Milwaukee railroad at Camp Douglas, Wis.

England and Wales have 750,000 paupers.

PRICES REACTIONARY.

Activity in the Wall Street Market Falls Off Considerably.

New York, May 10.—There was a considerable falling off in speculative interest and activity in the stock market today. Without any pronounced reversal in the tone, operators in general were less disposed to accept the lead by bidding up special stocks. The prices reacted more positively in the closing dealings. This hesitation found its explanation in the speculative position of the market itself rather than in any news developments, which, however, were favorable. The improvement in the copper trade was unobscured by the fact that the April statistics of the Copper Producers' association, which were given out for publication during the stock exchange session; but the copper industrialists were rather heavier than the general list.

The professional speculative element has grown suspicious of well-informed insiders, because of having sold out holdings of stocks at the recently prevailing levels, prompted by satisfaction with the present prices and distrust of promised further advances. The small vibration in the prices of former speculative leaders while some stocks are being advanced is cited as evidence of this process going on in the market. This condition was corrected to some extent by a diversion of the strength of some of the granger railroad stocks. This movement was based on the improving chances for the wheat crop, the result of being advanced in the market. The return from Europe of a capitalist of large influence in them was supposed to be associated with the movement in the Rock Island stocks and certain industrialists.

The long prices for fixed periods were marked up today again in the money market. The hardening of the money market is an influential factor in tempering the ardor with which market commitments in stocks are embarked upon.

Wheat Market Is Weak.

Chicago, May 10.—Wheat was weak throughout the session today, with the exception of a brief period at the start, when a moderately firm tone prevailed, owing to covering by the shorts. The offerings were liberal all day and the market lacked substantial support except on severe breaks. The news was largely in bearish nature. The advice regarding the condition of the growing wheat in this country were more optimistic than of late, and the statistics also were unfavorable to the bulls. The material let-up in the demand for cash grain here and at Kansas City also worked against the bulls. The retail price of wheat is 1 1/2% lower, the July at 112 1/2%.

BEE FARM IN GARRET ROOM.

Julius Wagner Has Two Score Hives in Home at Reading, Pa.

Reading, Pa., May 10.—This city has a "bee farm," so situated that 99 per cent of the people in that part of town even do not know of its presence. To the busy bees all roads seem to lead to this place, for they can fly 50 feet up the chimney and start their bees, and return home without coming in contact with humanity. At the foot of Never-sink mountain, in the northwestern section of this city, lives Julius Wagner. On the roof of the house are many beehives. Under the window sills are a number of boxes leading to the roof, where millions of busy little workers come and go day by day, bringing each time a little honey from some clover field, some tree that is in bloom or from other sources, thus helping Julius Wagner to conduct the most successful and profitable beekeeping in the country.

Mr. Wagner came to this country from Germany when he was 16 years old and located in this city. Since that time he has been caring for bees, though he had already been studying the little winged creatures before he came across the Atlantic. He started with a few bees in 1867, with one hive. To this he added five after five from year to year, until today he has two score hives in the little garret room and on his roof, and as many more out in the country on the premises of friends. Mr. Wagner says the swarming of bees is unnecessary, if the bees are properly cared for. You must keep the busiest of little laborers provided with lots of work to do, and their little home-like cells are filled with honey, they get lazy, and swarming will follow. If you remove the honey when the combs are just about filled, they will immediately go to work and refill them, and not think of swarming.

Without a queen a swarm of bees would be distinct in a short time. A good queen will lay 5,000 eggs each day. A queen's life is usually about five years. In this time it is estimated that she will produce 25,000,000 eggs, each of which may mature into a bee. The queen bees are quite valuable and sell from \$1 to \$18 each; for queen bees are scarce. Queen bees are in great demand and are shipped to all parts of the world. The queen bees are kept in a little wooden and wire box, they must be accompanied by a retinue of servants. Like royal persons, the queen bees refuse to travel except when accompanied. A queen bee's traveling car is a little box well supplied with candy, made of honey and powdered sugar; and her companions usually number from ten to twenty-five, according to the distance to be traveled. When a journey is made through the states ten or fifteen will be sufficient, but when a trip abroad is proposed the queen must have twenty-five or thirty-five servants to wait upon her.

Mr. Wagner's little workers generally keep busy for about forty-one days, when their tiny wings get tired and they gradually die off. Mr. Wagner, by careful breeding of the Italian bees, has been successful in acquiring perfect queens. He has had colonies that produced in one season as much as 300 pounds of honey. Occasionally, he gets poor workers which average only forty or fifty pounds to the hive. He is very careful that no other kinds of bees get into his colonies, as they are not so successful in acquiring perfect queens. He has had colonies that produced in one season as much as 300 pounds of honey. Occasionally, he gets poor workers which average only forty or fifty pounds to the hive. He is very careful that no other kinds of bees get into his colonies, as they are not so successful in acquiring perfect queens. He has had colonies that produced in one season as much as 300 pounds of honey. Occasionally, he gets poor workers which average only forty or fifty pounds to the hive. He is very careful that no other kinds of bees get into his colonies, as they are not so successful in acquiring perfect queens.

DES MOINES FIRE COSTLY.

Des Moines, Tuesday, May 11.—At 1 o'clock this morning, fire broke out in the McCune building. The stock in the building comprised gun powder, fireworks and wall paper. A series of explosions occurred, during which the firemen narrowly escaped with their lives. Several were hurt by falling timbers. The State Central Hotel guests were all taken out safely. The loss will be \$200,000.

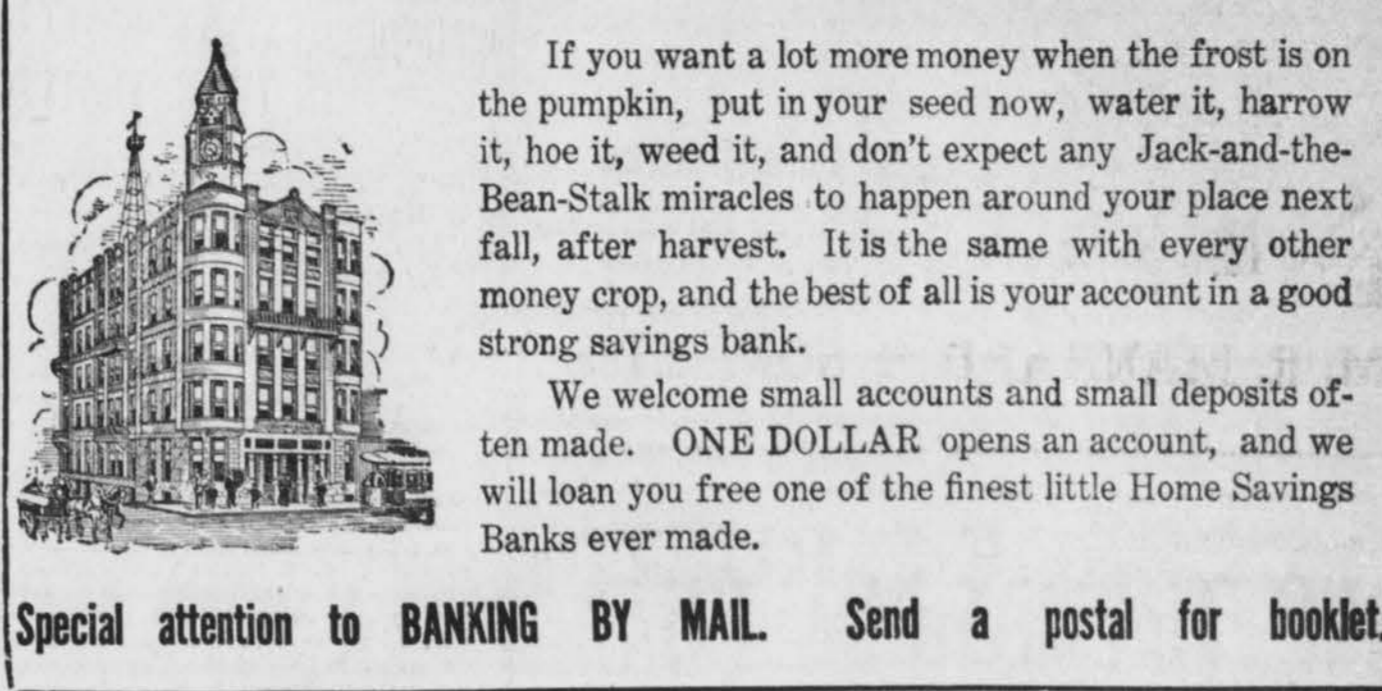

PANAMA'S FIRST PRESIDENCY.

Panama, May 10.—Jose Austin Arango, leader of the independence movement in Panama and secretary for foreign relations in the present cabinet, died today, aged sixty-eight. Arango was the first president of the provisional government, organized at the time of the declaration of Panama's independence.

If you want to feel well, look well and be well, take Foley's Kidney Remedy. It tones up the kidneys and bladder, purifies the blood and restores health and strength. Pleasant to take and contains no harmful drugs. Why not commence today? Sold by all druggists.

The number of postoffices in the United States is nearing the 62,000 mark.

STRIKERS WANT MORE PAY.

Lake Marine Engineers Demand a 15 per Cent Increase in Wages.

Buffalo, May 10.—Unless the strike on the Great Lakes is settled before Saturday next, the employers will have to pay their engineers more money when work is resumed finally. The Marine Engineers' Beneficial association has determined to demand an increase of 15 per cent in wages, effective May 15. Up to this time the question of wages has not entered into the controversy.

WEDS AN AUSTRIAN COUNTESS.

Marriage of Nora Iselin Takes Place in New York City.

New York, May 10.—The marriage of Miss Nora Iselin, daughter of C. Oliver Iselin, to Count Ferdinand Colloredo-Mansfeld, attache of the Austrian embassy to Italy, was consummated this afternoon at the home of the bride's uncle, C. O. Iselin, in this city.

MR. BRYAN'S TOWN "DRY."

Lincoln, Neb., Banishes the Saloon for the First Time in Its History.

Lincoln, May 10.—Tonight brought the close of the municipal year in Lincoln, and with it the banishment for at least a year of every saloon in the city for the first time in its history. Most of the saloons were dismantled early in the evening. The assessed stocks will be shipped back to the wholesalers. The saloon keepers who remain in Lincoln say they will unite with the officials in striving for the enforcement of the prohibition law to the letter.

PAPER TRUST ENJOINED.

New York, May 10.—A permanent injunction restraining from operation the Fibre & Manila association, under which name it was charged that twenty-five paper manufacturing concerns had formed a combine in restraint of trade, was today ordered by Federal Judge Hugh.

TARIFF DELAYS VACATION.

Members of the Diplomatic Corps Stay to Watch Legislation.

Washington, May 10.—Washington will remain the "summer capital" of the nation this year much later in the season than usual. The presence here of congress will detain in town not only the president and other government officials, including members of the cabinet, but the members of the diplomatic corps as well.

Practically all the foreign representatives are watching the development of tariff legislation with the utmost interest. The adoption of new schedules may mean serious consequences for important industries abroad, and each step in the framing of the law is being intensely followed. The ambassadors and most of the ministers are keeping their government's interests in mind.

Usually cool weather has prevailed thus far, so that the members of the diplomatic corps have not been making their summer vacation plans quite as speedily as they might. The usual degree of atmospheric conditions caused the capital to swelter in heat. It may be accepted as certain, however, that the exodus will take place before the first of July, by which time the tariff bill will pass and the president and his family will be established for the heated term on the Massachusetts coast.

The British embassy this summer will be at Northeast Harbor, Me., where the Gardner House has been taken. Ambassador and Mrs. Bryce will go there for the hot months, but the date of their departure has not been determined. It has not been settled what members of the embassy will accompany the ambassador, but the staff will be small. Last year the British embassy was at Manchester-by-the-Sea, and this is the first season that a place in Maine has been selected.

The Countess von Bernstorff and Countess Luise-Alexandra Bernstorff have sailed for Germany from New York and will spend the summer at their estate near Dresden. Count von Bernstorff, the German ambassador, will remain in this country for the present. His plans have not been settled, although he too may go to Germany later for a trip up the Rhine. No summer embassy has been taken.

ALLEGED ROBBERS IN LIMBO.

Auburn, Ind., May 10.—Three men charged with the robbery of the postoffice at Kent, Ohio, last Tuesday night were arrested today in Garrett, Twine Antonio, the first of the three captured, confessed a part in the robbery and told the police where his alleged accomplices could be found. These were arrested and gave their names as Sam Murray and Nick Coleman, all are Romanians. The police say they found burglar tools and a large knife in searching the prisoners.

Quincy, Ill., Tuesday, May 11.—Quincy officers were hurried to Sechorn where robbers blew the postoffice safe at 1 o'clock this morning, after attempting to shoot the watchman, who escaped and gave the alarm. Armed citizens of Sechorn have the building surrounded. The

Skating On Thin Ice.

Scores of Skaters Meet Their Death Every Winter Through Disregard of the "Danger" Sign.

While this ice in spots marked "Danger" brings death to scores of overbold and reckless skaters, disregard to the warnings given by Nature kills off thousands who neglect their bronchitis or asthma, sore throat, coughs or colds. The congestion of the lungs with the irritation produced by incessant coughing are the best breeding-places for the deadly germs of pneumonia and consumption. Mortality arising from these terrible diseases is on the increase, and yet they can be arrested in their early stages. Abbey Syrup, Cloister Sancto Paolo, has established a marvellous record in Europe for the cure of all bronchial and lung affections.

Try a bottle today. It will convince you. You simply cannot afford to be without it. Saves doctors' bills, sickness and misery.

This is the original remedy and is sold and personally recommended in Marquette by all druggists.

MINNESOTA LAW IS TO BE TESTED

NEW HOME FOR MINISTER.
Finnish Lutheran Congregation Will Secure Oliver Residence.

The trustees of the Finnish Lutheran congregation expect to close a deal today or tomorrow for the purchase of Mrs. Emma Oliver's dwelling, 215 North Maple street, situated opposite Robert Maxwell's property. The terms have been agreed upon.

The dwelling is to be thoroughly remodeled and put in first-class condition for the pastor's family. The house is large and the location is desirable. The dwelling was occupied for many years by O. B. Robinson's family.

The rooms now occupied as a parsonage in the church building will eventually be a part of the auditorium, which is not large enough to accommodate the congregation. The trustees have not yet decided what alterations will be made, but it is likely that some of the rooms will be used as club quarters for the present. About one-third of the length of the building is used as a parsonage. With these rooms given over to the auditorium seating capacity can be increased considerably.

A bill which passed the recent session of the Minnesota legislature, reserving to the state the title to all iron ores and other minerals in the beds of abandoned lakes, has started much comment in the mining districts, and particularly the Mesaba range, where preparations are being made to remove the ore from beneath more than one body of water. It is known that there are ore bodies beneath several lakes where mining operations are now being conducted and the opinion is generally held on the range that the companies owning the lands adjoining the bodies of water should be the owners of the minerals. Among these lakes are the Longyear and Embarras, near Chisholm. Operations were started on their shores much to the regret of the mining companies, and to removing the ore from the beds before the bill was introduced in the legislature. It is said that a considerable sum was expended by the mining companies in proving up the ore bodies. In view of this it is said that the matter will be taken into the courts.

The mining men of the range believe that the ore in a lake bed should be long to the owners of the land on the adjacent shores. That is the law in this state. Several years ago Lake Angeline in this city was drained so that the mining corporations operating properties on its shore might remove the ore without endangering the lives of the workmen. The question as to what division should be made of the mineral was settled in court, and three corporations, the Lake Superior Iron company, Pittsburg & Lake Angeline Iron company and the Cleveland-Cliffs Iron company, were granted an interest in the ore bodies.

Mining operations are still being conducted beneath the Angeline lake bed and from present indications the ore supply will not be exhausted for many years. Ore is also being removed from beneath Teal lake, in the city limits of Negaunee, and within a comparatively short time the Cleveland-Cliffs Iron company will probably be mining ore underneath North lake, on the shore of which a concrete shaft is now being put down. Diamond drills were operated on the ice during the winter just passed and the territory in the vicinity is being thoroughly explored.

The fact that the mining corporations owning the lands adjacent to the shores of lakes in Michigan are entitled to the ore beneath the lake beds will be used as an argument in the Minnesota courts, when the test cases are tried.

TO CONTROL LEAD SUPPLY.
Combination Will Be a Good Thing for Wisconsin Producers.

The New York Herald states that 70 per cent of the entire world's lead supply is to be brought under the absolute control of one group of corporations. This is good news for those interested in the Wisconsin properties. It is said that the price of pig lead is to be advanced from \$68.75 a ton to from \$85 to \$100 a ton. It is reported that the interested concerns comprise the Guggenheims and other large American producers; the Spanish association of producers, the Australia interests, and the German lead trust. These interests will control 70 per cent of the world's lead supply.

Mining men familiar with the industry do not believe that existing conditions in lead and zinc will be affected materially by any duty imposed upon the product, or the producing properties of the country are practically under control of the combination which regulates prices in every branch of the industry. It is now expected that the duty on lead will be one and one-half cents per pound, the same as formerly.

ISHPEMING IN BRIEF.

Henry Deminert, the diamond man of New York, is in the city.

Manager Boyd of the Denver Rock Drill company is in the city.

The street sprinklers made their first appearance on the streets yesterday.

Robert Maxwell and wife, who spent the winter in the South, arrived home yesterday.

Mr. and Mrs. Arthur Peterson, 808 East Empire street, are the parents of a daughter.

Mrs. W. H. Johnston entertained the members of the Monday Reading club yesterday afternoon.

M. M. Duncan and family arrived home yesterday morning from the East, where they spent the past month.

Edward Copps left Sunday evening for Manitowish, Wis., on a business trip. He is expected home today or tomorrow.

William Trebilcock started laying the concrete floor in the basement of William Leininger's block yesterday. His new concrete mixing machine is being used.

The trustees of the Swedish Lutheran church are endeavoring to secure the services of a student from Augustana college to teach school here for from four to six weeks during the summer vacation.

Mrs. Mickelson, who has been confined to Augustana hospital, Chicago, for some time past, has returned to her home in this city and is feeling much improved in health as a result of the treatment she received there.

Ben T. Simpson, business manager of the "Montana" company, which will be the attraction at Ishpeming theater next Saturday evening, was in the city yesterday, leaving last evening for Escanaba. The company is to play a number of return dates in Wisconsin.

The Ishpeming band will conduct its next job Saturday evening at Braastad's Hall. The band will render several selections on the streets between 8 and 8:30 o'clock. Dancing will start at 8:30, continuing until 12, and tickets will be fifty cents per couple.

The funeral of the late Mrs. Gust Kuppila, who died last week at Alameda, Wis., where she was under treatment of John Tull, the plaster healer, was held yesterday afternoon from the Finnish Lutheran church, and was largely attended. Both men and women members of the Finnish Temperance society attended in a body.

A. J. Yungbluth, who last fall purchased Austin Farrell's automobile, expects to bring the machine up from Marquette this week, as soon as the highway between the two cities is in good condition. It is reported that there is still considerable ice on the road between Negaunee and Marquette, but it is expected that there will be very little of it left by the end of the week.

Concrete Walks

Now is the time to place your orders for concrete work of all kinds. Walks will never be built cheaper. Latest improved mixer and block making devices.

Leave your home town chimney sweep sweep. I sweep chimneys.

Carpets Cleaned by Machinery

The finest as well as the cheapest—Timbler process. I have just bought a new up-to-date carpet cleaner which does the work. Machine cleaned carpets last longer, look better and are perfectly clean. The nap is raised and a new appearance is imparted to the goods, while hand-beaten carpets are seldom more than half cleaned.

I call for the carpets, clean them and return them again for 4c per square yard.

FROM MORGAN'S CURB LETTER.

"North Butte was again the disturber in the Boston list today, opening weak, and selling as low as 50 1/2. Some recovery was shown from this point, and the market for it is in a much better position technically, as stop orders were caught in profusion on the way down. Directors of the company are scheduled to meet May 19th for dividend action. It is said there will be no change in the regular rate of \$1, as earnings for the quarter are in excess of the dividend requirements. The balance of the list was reactionary throughout the session, with the possible exception of the cadian, which advanced a point. The new company will have 150,000 shares par value \$25, with \$10 paid in and \$15 callable. A prominent Boston house has been quietly accumulating this stock for several weeks, and this buying is beginning to make itself felt. The Copper Producers' association shows the production in April decreased 3,434,369 pounds, as compared with an increase in February over March of 13,357,804 pounds. Deliveries and exports in April totalled 4,593,114 pounds more than in March and 28,109,507 more than in February. The excess production over consumption was 917,171 pounds in April, as against 8,995,645 in March, and 29,154,203 in February. These figures are somewhat of a disappointment, as it was estimated in some quarters that the Copper Producers' association would show a decrease of several million pounds, but it is nevertheless considered favorable. All grades of copper advanced 1/4 cent in both the bid and asked prices. Sales of metal in London were again heavy, totalling 4,900 tons for both accounts. Undercurrents of weakness in Davis Daly are showing great improvement and such excellent ore bodies have been opened up that it is expected shipments will begin by the middle of the month. The close was easy at about the lowest of the day. We think this reaction at present place is very copper, and look for higher prices before the end of the week."

Yesterday's prevailing prices were:

OUTSIDE WORK RESUMED.

Trembath Bros. will today send men to paint the exterior of the Cleveland-Cliffs Iron company's new boarding house at its North Lake property. Up to this time the weather conditions have not been favorable for exterior painting, but the Ishpeming painters expect to start on several jobs within a few days. One of the painters said yesterday that he has many contracts pending and that he will be obliged to increase his force as soon as the outside work is started.

TO THE MERCHANTS.

Notice is hereby given that I will not be responsible for debts contracted in my name by my wife, who has left my home at Mohawk and is now in Ishpeming. (5-5-1w) GEORGE MARTIN, JR.

"BIG GUNS" BASEBALL FANS.

Cabinet Ministers Catch the Fever in the Executive Departments.

Washington, May 10.—The baseball fever has invaded the government departments. Intense excitement and a spirit of rivalry possess everybody in them from the cabinet ministers down to the elevator conductors. There is in Washington what is known as the departments league. Each of the departments is represented by a team composed of the best players, and so keen is the desire to win that crack pitchers or bang-up basemen have been enticed away from one department by a better job in another. Indeed, there have been men who owed their jobs under Uncle Sam to the delightful manner in which they pitched at the bat. Once a first class player is spotted, sufficient pull is mustered to get him on the pay rolls.

Interest in the departmental games becomes as intense in Washington as in the big league game. A few days ago, when the season opened, Secretary of the Treasury MacVough was on hand to cheer the treasury players, and pitched the first ball of the year. Postmaster General Hitchcock, who has been interested in athletics since his Harvard days, is a baseball fan. He also presided at the opening games in which the post office department participated recently, and pitched the first ball.

Secretary of State Knox is the only

TO EXPLORE FOR ORE ON CASCADE RANGE

DIAMOND DRILL AND OTHER EQUIPMENT OWNED BY THE DULUTH DIAMOND DRILLING COMPANY RECEIVED HERE.

In view of the fact that Thomas F. Cole visited the Cascade range, while here last week, it is generally thought that there will be some activity at the Volunteer property before the summer is far advanced. Mr. Cole and other Duluth men have control of the Volunteer, having purchased several months ago. Mr. Cole examined all of the buildings and gave Watchman Roman orders to have them repaired. Mr. Cole did not say, however, that mining operations are to be resumed.

A carload of diamond drills and other equipment was received Monday from Duluth. The outfit belong to the Duluth Diamond Drilling company, which has a contract to do some work on the Cascade range. It is assumed that the drilling is to be done for Mr. Cole and Duluth men associated with him. It is expected that two or more drills will be operated and that work will be under way before the end of the week.

It is expected that this season will be one of the liveliest that the Cascade range has had in some years. The Empire mine recently increased its working force and it is expected that operations will soon be resumed at the Richmond, which is under control of the Consumers Ore company. It is also thought that the Oliver company will do some work at the Moore, which has not been very active for two years. The Moore is completely equipped with machinery, and mining operations can be started on a few days' notice. In the event work is resumed there all of the ore will be sent to the Escanaba crusher and shipped from that port. The Richmond works a force of over 100 men last season, and it is expected that at least that number, and perhaps more, will be employed this year. There are no idle men on the range, as a number of those living at Palmer are working at the Mary Charlotte and other properties on the East range.

BOWLING LEAGUE STARTS.

First of the Two-Men Teams Met Last Evening at Defrain's Alleys.

The league to be participated in by two-men teams composed exclusively of Finnish bowlers of the city opened the series last evening at Defrain's alleys, when the Hawks and Tigers bowled. Tonight the Ravens and Volves will meet, tomorrow evening the Cubs and Stars; Thursday evening the White Sox and Lions.

Eight teams have been organized, and it is expected that two or more additional will be perfected before the close of the week. The teams and their names are as follows: Hawks—Lamm and Makkala, Tigers—Asplund and K. Koski, Ravens—Aho and Saari, Volves—Stomela and Stromer, Cubs—W. Koski and E. Kekkonen, Stars—Lukkarinen and A. Hekkila, White Sox—Ekola and Antti, Lions—Alpin and Teekari. It is proposed that each team shall bowl two rounds.

CRICKETERS HAVE PRACTICE.

Players of the English Game Were Out Saturday Afternoon.

The members of the Negaunee Cricket club held their first practice at the Negaunee mine field Saturday afternoon. Several of the old players appeared to be in excellent form and the younger men also made a good showing. It is expected that there will be some closely contested practice games, as there are enough players to make two fairly good elevens.

A member of the team yesterday said that the committee will have a hard task in choosing the best eleven, as the players are evenly matched. The secretary is corresponding with the secretaries of several copper country teams, and it is expected that a number of games will be played during the season. The Negaunee team will endeavor to arrange meetings with all of the copper country elevens, playing some of the games here and others in the copper district.

There's much to gain and nothing to lose by giving "Saldala" Tea a trial. It is absolutely pure tea of the highest possible quality. Your grocer sells it.

TO START WORK TODAY.

The board of public works will put a few men to work today at the crusher plant on Lincoln street. The force will be employed for a week or so getting out rock, in order to get a goodsized stockpile ahead before the plant is started in operation. About 150 cubic yards were quarried last fall, after the plant had been removed from the Maas mine bluff, but the board would like to get at least 400 or 500 yards ahead before starting, as the plant will crush on an average of fifty yards a day. Three sizes of rock will be turned out. The first rock spread will likely be placed on Iron street, which is to be repaired this season. Plans for the work have not yet been perfected, but it is understood that concrete gutters will also be put in and that a number of the telephone and electric light poles will be moved.

One does not acquire a forgiving spirit by practicing on himself.

FIVE HUNDRED DOLLARS.

"Wouldn't Pay Me for the Relief I Got from Piles."

"For 12 years I suffered with piles, brought on by strain or hard work. Since using Hem-Roid eight months ago, I have not had an attack, can do any labor and eat what I wish without ill effect. I would not be in my former condition for \$500."

(Signed) Wm. McAdams, Cook's Falls, N. Y. Sworn to before notary March 23, 1908. Dr. Leonard's Hem-Roid, an internal tablet cure for piles, is sold for \$1 by the People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming.

INTEREST IN BASEBALL.

Over 300 Fans Witnessed Practice at Maas Field Sunday Afternoon.

If the interest in baseball now manifested here is continued throughout the season, the Negaunee team will receive better support than any nine has ever before received in Negaunee. Over 300 fans witnessed the try-out players at the Maas mine field Sunday afternoon. There were about twenty players present, and some of them made a fine showing in spite of the cold weather. Among the new men was Glen Cole, the crack catcher of Rapid River, who has decided to accept a position here. Lafave will also do some catching, but he would prefer to play some other position at the start as his leg, injured several weeks ago, still bothers him. Cole is said to be one of the best catchers in the upper peninsula and the management considers itself fortunate in securing him. Siebenthal pitched seven innings in Sunday's practice, Cole catching part of the time.

There are to be two or three practice games this week in order to determine who shall play in next Sunday's game against Ishpeming. It is likely that Cole will be behind the bat and Lafave will probably hold down first base. Jim Roberts, who played second base last season, was not out Sunday. Messier will play short and Cannon will probably be at third. There are several players who will make good in the outfield, but it is likely that in Sunday's game Ed. Faul, James Dunlavy and Dave Scanlon will hold down the positions.

VICTIM OF TUBERCULOSIS.

Mrs. Christ Messner died Sunday night at 11 o'clock at the family home on Case street. Tuberculosis of the bone was the cause of her demise. She had been suffering for about a year and her death was not unexpected. The deceased was born in Champion, but spent the greater part of her life in Negaunee. She was married a little less than two years ago and is survived by her husband and one child, the latter one year old. The funeral will be held tomorrow morning at 9 o'clock from St. Paul's church.

LOCAL LACONICS.

Mrs. Joseph Cyr was reported critically ill yesterday.

Alexander Maitland left Sunday night for Chicago, on business.

J. M. Edgerton went to Duluth Sunday night, on a business trip.

A regular monthly meeting of the school board was held last evening.

Captain E. Toms left last night for Milwaukee, to be absent a few days.

Sam Adler, representing A. Bauer & Co., of Chicago, called on his patrons in this city yesterday.

Hugo Mueck arrived home yesterday from different points in Wisconsin, where he purchased horses.

Oscar Larson, manager of the Gwinm Lumber company's plant, on the Swanzy range, spent Sunday with relatives in Negaunee, returning yesterday.

Henry Heesh and another of U. R. Burner's tile men, who have been employed at the new high school building here, are doing some work in Marquette.

Fred Lindy and wife came down from the copper country Friday evening. He has returned again, but Mrs. Lindy will spend several days here visiting relatives.

William Anviner and K. Lahtinen, Negaunee painters, have engaged in business and will be located in the Keating building, on West Iron street. Both are well known, especially among the Finnish people.

L. Newman of the E. Hoffman Co., cigar manufacturers of Chicago, called on patrons in the city yesterday. Mr. Newman traveled in this section for a number of years prior to three years ago, and is well known to the trade.

Andrew Erickson has installed a handsome soda water fountain. The outfit was made by Bergstead Bros., St. Paul. It has handsome marble counters, onyx fountain, large mirror and is nicely trimmed. The outfit cost \$800.

Bob Watson, who has been unable to work for seven weeks on account of an injury to his finger, sustained in the mine, resumed his place at the Mary Charlotte yesterday. Blood poison set in shortly after the accident and an operation was necessary.

The report that Mrs. W. T. Sanders, daughter of Mrs. S. Mitchell of this city, had died Saturday in Philadelphia was erroneous, though she has been critically ill for some days. Mrs. Mitchell and daughter, Miss Myrtle, and son, Samuel J. Mitchell, the latter of Marquette, left Saturday evening for Philadelphia in response to a telegram announcing Mrs. Sanders' condition.

A special meeting of the Negaunee fire department will be held within a few days, for the purpose of appointing committees, etc., to make arrangements for the annual Memorial Day exercises, to be held the first Sunday in June. Matters pertaining to the annual tournament will also be discussed. The department has not yet secured quarters at Laurium, but the committee from the Laurium department having the arrangements in hand has assured Chief Johnson that ample accommodations will be provided.

MVEAGH NOT DISTURBED.

Cabinet Member Makes No Reply to Speaker Bancroft's Charges.

Washington, May 10.—Franklin MacVeagh, secretary of the treasury, is undisturbed by the attack made upon the grocery concern with which he was formerly identified by Speaker Bancroft of the Wisconsin legislature. Mr. Bancroft's charges, which appear to have been made in a spirit of extreme passion, are that Secretary MacVeagh made his fortune selling adulterated foods, "and that for this reason he was chosen to guard the money of this country and incidentally override the rulings of the national food commissioners." Speaker Bancroft is said to have exhibited samples of various fruits and vegetables, taken from MacVeagh's grocery, containing adulterants and poison preservatives. The secretary of the treasury is no longer a member of the firm of Franklin MacVeagh & Co. and declines to make any comment upon the Bancroft charges other than to say that the concern is perfectly able to take care of itself. Men close to the secretary say, however, that

Corn Products Refining Company
New York

Scene from Shuberts' great comedy, "Girls," at the Ishpeming Theatre, tomorrow, Wednesday evening.

The charges are peculiarly unjust. Franklin MacVeagh & Co. they say, were pioneers in the West in attempting to secure state legislation establishing pure food standards. They did business in about twenty-eight states of the Union, and spent much time and energy in urging upon Illinois, and by example upon the rest of the country, the passage of laws which should be at once just to the people and to the grocery trade.

A sample of the embarrassment to which the trade often is subjected is cited in a lot of honey bought by the great Chicago house in Cuba. The honey was absolutely pure, but the flowers upon which the bees fed contained a large percentage of ash, and this in the honey was found to be greater than the law permitted. The lot was condemned therefore by the inspectors, although all parties to the transaction, including the bees, were innocent of any attempt to defraud or adulterate.

As a matter of fact the federal pure food law is administered by the department of agriculture and not the treasury department. The secretary of the treasury is ex-officio one of three cabinet officers who constitute a board of appeal in pure food cases, but since the legality of the so-called Remsen referee board has been affirmed by the attorney general, this new board of chemists rather than the three cabinet officers will be likely to pass upon disputed questions such as were involved in the benzene case of soda cases.

On the basis of a bushel of corn producing 2.5 gallons of alcohol, it has been figured out that last year's crop in the United States was sufficient to furnish 20,000,000 horsepower for ten hours a day for an entire year.

By a vote of 31 to 21 the Oregon legislature has refused to abandon the whipping post for wife-beaters.

TRY THIS FORMULA FOR DANDRUFF AND FALLING HAIR.

(From Le Matin, Paris, France.)

In response to request from our correspondent, Mme. Gracone, I reprint formula that appeared in issue of January 15 for falling hair and dandruff. The ingredients in this formula may be found in the drug stores of France, Germany, England and United States, and the preparation is to my belief the most satisfactory and dependable one for the above troubles; also for giving the hair vitality, health and a luxuriant growth.

One ounce hot quinal (liquid), half pint alcohol, half pint water or a pint of Bay Rum mix well and apply daily. Get the ingredients and mix them your self at home. If your druggist hasn't them he can easily get them for you.

Our Motto: Best Workmanship, Best Materials and Reasonable Prices.

DECORATION DAY PLANS UNDER WAY

MONDAY, MAY 31, WILL BE OBSERVED, WITH DR. KERR B. TUPPER AS THE SPEAKER.

LETTER FROM GEN. NEVINS

Commander-in-Chief of the G. A. R. Tells How the Soldier Dead Shall Be Honored.

At a recent meeting of Albert Jackson Post, No. 1, of the Republic, it was decided to observe Monday, May 31, as Memorial day. As in past years, exercises will be held at the opera house in the forenoon, after which the graves of the soldier dead will be decorated.

On Sunday, May 30, the Grand Army will attend St. Paul's Episcopal church, and the pastor, Rev. Bates G. Burt, will preach a Memorial day sermon.

Suggestions for Observance. "In 1868 General John A. Logan," says the commander-in-chief, "at that time commander-in-chief of the Grand Army of the Republic, promulgated an order to the Grand Army of the Republic, calling upon all comrades to observe the 30th day of May as Decoration day."

"Upon department and post commanders, the duty rests of attending to the fitting observance of the day. I earnestly hope and desire that should a confederate grave be found in any camping ground visited by the G. A. R., that his grave be not be passed by, but that a flag and flowers be placed upon it. The war is over and peace reigns and the old flag floats over all, and if living today he would be found following the flag. Let us forgive, as the nation forgave his comrades who survived him."

"Department and post commanders are reminded of the fact that their memorial exercises should include attendance upon divine service in a body Sunday evening, May 30, and that all allied organizations be invited to attend with them whenever practicable. This custom has prevailed for a number of years, and the commander-in-chief trusts that it will continue to be observed."

MEETING OF ALUMNI

Former High School Students to Give Reception to Graduating Class.

At the annual meeting of the Marquette High School Alumni association, held at the high school last evening, Miss Sarah Penhill was elected president; Miss Nellie Walker, vice president; Miss Onota Schaffer, secretary, and Orrie Brown, treasurer, for the ensuing year.

It was decided to give a reception to the graduating class in June, as was done last year, instead of a dance. The newly elected officers were constituted an executive committee to attend to the details of the entertainment and decide upon a date. The reception will probably be held in the high school building.

The meeting was unusually well attended by old and new members of the association.

Blackton Port and Brandy and Chase's Kentucky Whiskey are pure goods, and sold always by The Stafford Drug Co. (5-7-11)

NOTICE TO HEIRS. I have purchased the east half of the northeast quarter of section two in town forty-six north of range twenty-five west. I hereby notify all heirs of the former owners that if they have any claims against this estate they must file them in the probate court before June 5th, 1909. THOMAS PIGGOTT. (5-11-21)

LID ON LAKE STREET.

Inmates of the Houses There Have Left the City.

The lid was extended yesterday to cover the houses of prostitution that have been conducted on Lake street for several years past. They were two in number, with less than ten inmates in both. They have been run quietly and as innocuously as such places could be run, but the police commission last Friday evening voted to close them up, and in pursuance of Mayor Vaughan's orders Marshal Manning Saturday gave the inmates notice to leave the city, fixing yesterday afternoon as the time that they would be expected to have made themselves scarce. Some of them left Saturday and others have departed since, and it is said that all have gone away.

It is reported that a number of Marquette men were on notes put out by the women interested in these resorts and that in consequence there will be some losses in connection with their departure. One Marquette man so circumstantially protested to Mayor Vaughan against the order that had been issued, but the mayor said that the police commission had passed on the question, and the houses would have to be closed. However, he agreed to use his influence to give them a little longer lease of life if his supplicant would unite with other men so circumstantially and sign a petition asking that this be done. But, strange to say, the mayor was not taken up on this proposition.

"Some people have found fault with the closing of these houses," the mayor said yesterday, "but to my mind it would be absurd to enforce the law against the saloon men, who have a standing under the law, and allow these people, who are proscribed by the law, to run without interference. Beer has been sold in these places, and if they were to remain open when the saloons were living up to the law you would see a procession of men going to them 'after hours' and on Sundays in search of liquid refreshment. A 'square deal' to the saloon men, if no other consideration, makes it necessary to shut them up."

It has been suggested that there will be a danger that immoral women will now locate in residence districts. The police, however, can be relied on to prevent this thing happening. They are awake to the danger, and may be relied on to take precautions against it."

THEATRICAL.

"Lillian Russell."

A booking of more than passing interest to the patrons of the opera house is the engagement of Lillian Russell in her popular racing comedy, "Wild Fire," which will be presented June 5. This play was written by Messrs. George Broadhurst and George V. Hobart with Miss Russell in view for the central character. Its wonderful success is a matter of such common knowledge to the general run of theatergoers that the mere announcement that Miss Russell is to present it here is sufficient to arouse the keenest interest. The story is an appealing one of the American turf, depicting the efforts of a young widow to save the estate of her husband and in so doing, she is compelled to manage a stable of race horses which has been conducted in secret.

Miss Russell has come to the front splendidly as a delicate comedienne and her work in "Wild Fire" is a revelation. The famous American beauty announces that she will bring her original New York production to this city and will be supported by the same cast that appeared with her during the long run of the piece on Broadway. She will also wear some stunning diaphanous gowns which will be a delight to the feminine eye.

"Montana."

After witnessing the many so-called western plays in which the cowboy, the miner and other western characters well known in fiction, are paraded before the audience of all kinds of grotesque and impossible "make ups" it is refreshing to see a play of the west, written by an author who knows his subject. In Henry D. Carey's play, "Montana," Jim Graham, foreman of the Backhorn ranch, is the central figure. He is a rough, unrefined chap, and a typical son of the plains. In creating this character, Mr. Carey's manly, vigorous and picturesque method is vividly depicted. He has aimed to correct and expose the prevalent ridiculous idea of a cowboy: He makes him a real westerner, not the soft southern drawl, "russell" "chaps," and English riding boots, but a big hearted bronzed leader of men in a man's country. Mr. Carey has given the stage a western play that is natural. The four years of success of this play stands as a monument to its dramatic worth. Mr. Carey has been liberal in his production of the play, in the scenery, costume, etc. The cast contains many well known players. The engagement is for Friday night, May 14, at the opera house.

MAY GO TO HONDURAS.

Rush Culver Considering Buying an Interest in a Timber Tract There.

Rush Culver left last night for Chicago and before his return will in all probability go to Honduras to look over a timber tract, which a company in which he is interested may purchase.

Mr. Culver has had this trip under consideration for some weeks, and has had considerable correspondence with the railroad company which holds a concession from the government for a vast tract of territory. This railroad company is about to build from Trujillo, a sea port, to Tegucigalpa, the capital of the country. Along the line of the proposed road is said to be valuable timber lands, consisting largely of pine and mahogany.

The railroad has repeatedly asked the company in which Mr. Culver is interested to take an option on a million acres of this timber land, and it is for the purpose of closing this option that he has gone to Chicago. In case it is closed, Mr. Culver will at once go to New Orleans, and from there to Honduras to look over the country. In that case, he will not return to Marquette for about three weeks.

RUBBER.

We have it for baby carriages, vehicles, bicycles and anything that navigates on rubber. Bring me something I can't fix. CHAS. R. NELSON, Bell phone 515. Opposite Postoffice. (5-6-1w)

KNIGHTS OF PYTHIAS IN MERRY MINSTRELSY

FIRST PERFORMANCE OF MUCH HERALDED SHOW AT MARQUETTE OPERA HOUSE ON WEDNESDAY EVENING.

The first performance of the minstrel show that has been in the course of rehearsal the past several weeks by members of the Knights of Pythias lodge, and that will be given under its auspices, will occur at the opera house the evening of Wednesday. The show has been given a thorough preparation, and those who have it in charge predict that it will go off as smoothly as if it were at the end of a week's run. W. A. Ross has given the company the benefit of his extensive experience in theatricals and has directed much of the work. He will also have a prominent part in the cast.

The details of the performance are as follows: Interlocutor—Guy E. West. Songs—Herman Selauer, S. A. Williams, J. L. Deagon. Tumbler—W. Ross, James Cummings, F. W. Thoney. Chorus—S. McMillan, W. J. Bullock, A. Libershat, W. J. Slocum, Jay C. Quarrier, W. E. Rossiter, J. L. Zolnerlein, C. G. Peterson, J. O'Neil. PROGRAM. Part I—Opening chorus, "The Witmark Minstrel Overture." E. of P. Minstrel. Synopsis: 1, Sally Ann. 2, Mary My Maryland. 3, Little Houston Street. 4, On a Sunday Morning. 5, When the Cuckoo Goes to Sleep. 6, When Grogan Joined the Band. 7, Little Miss No-One from No-Where. 8, Rosie White. 9, Shut That Door. 10, Dear Old Pumpkin Man. 11, Plain Philip Lee. Tenor solo, "No One Knows." Guy Freese. Coon song, "Some Day Melinda." J. L. Deagon. Bass solo, "Down in the Caverns." Clarence Brown. Negro shout, "Don't Forget to Write Me Every Day." H. Schauer. Tenor solo, "To the End of the World With You." Ed. Gilbert. Comic novelty, "Aching Heart." F. W. Thoney. Musical finale, "The Land of the Free." K. of P. Minstrel. Synopsis: 1, The Girl I Left Behind Me. 2, America. 3, Marching thro' Georgia. 4, Hail Columbia. 5, Battle Hymn of the Republic. 6, Mary, My Maryland. 7, Yankee Doodle. 8, Columbia the Gem of the Ocean. 9, Trump! Trump! Tramp! 10, Tonting Tonight. 11, Battle Cry of Freedom. 12, Star Spangled Banner.

Historic Tableaux.—Cast of Characters: Goddess of Liberty, Miss Iona White. Uncle Sam, H. Narracong. Spirit of '76, Fred Monnon. Youth, Master Lloyd Stoll. Manhood, Fred Monnon. Old Age, Frank Winter. Overture, Trembley's Orchestra. Part II—BLACK FACE MONOLOGIST. Saved from the Spring Wreck. W. A. Ross. OUR BOYS' BAND. "The Queen." George Southwell. R. J. Klarnert, Director. THE OLD TIMER. "A Little Nonsense Now and Then." Herman Selauer. ILLUSTRATED SONG. "Jungle Moon." Guy Freese. "Fall 'n' Pretty Ladies." (Weber & Fields burlesque of the famous Florida sextette). Messrs. Gilbert, Ross, McMillan, Rossiter, Quarters, Bullock. ILLUSTRATED SONG. "Let's Get the Umpire's Goat." Guy Freese. Concluding with the laughable "foes." "The Mock Trial," characters by the company.

MEETING OF THEATER MEN.

A. F. Koepke Attending Gathering of Managers at Duluth Today.

A. F. Koepke left last evening for Duluth to attend the annual convention of the Northwestern Theater Managers association, which will be held in that city today. Managers representing theaters in Minnesota, Wisconsin and Upper Michigan will be present, to elect officers for the association and to discuss plans for next season and other business matters. It is expected that about thirty managers will be in attendance, says the Duluth Herald. Among the out-of-town theatrical men who will probably be there are Charles Tackaas of Appleton, Wis.; R. H. Wilson, Beloit, Wis.; John D. Cahillity, Calumet; C. D. Moon, Eau Claire, Wis.; P. M. Peterson, Escanaba; P. B. Haber, Fond du Lac, Wis.; John B. Arthurs, Green Bay; Ray Kerredge, Hancock; J. W. Power, Hibbing; A. J. Randle, Iron Mountain; W. L. Pierce, Ironwood; E. J. Butler, Ishpeming; J. G. Rhoads, Kenosha, Wis.; L. L. Myers, Janesville, Wis.; M. Heinman, Madison; Hancock Bros., Manitowish; A. F. Koepke, Marquette; C. H. Stannage, Merrill, Wis.; R. G. Taler, Red Wing, Minn.; H. P. Jordan, Sault Ste. Marie; W. H. Stoddard, Sheboygan, Wis.; H. C. Robertson, Stillwater, Minn.; C. S. Gote, Wausau, Wis., and O. E. Burlington, Winona, Minn.
