

LIVELY DAYS NOW IN U. S. SENATE

With Mr. Sherman the Presiding Officer, the Proverbial Dignity of the Chamber Frequently Is Near Being Rudely Shattered.

Washington, May 16.—These are picturesque days in the senate. It may not be responsible for great results, excepting possible confusion later on the part of the "giants of debate" under most extraordinary conditions.

Senator Bailey, Democrat, of Texas, will continue to discuss his demand for a vote on the income tax proposition, but he has confided to friends his conviction that some of the advocates of such tax have been "picked off" by the enemy.

It is a strange coalition that the Democrats and the western Republicans have in the senate over the tariff. The western Republicans will not admit in the open that they are any coalition at all.

It will probably be found when the closing tests come that the Democrats have lost a little strength, because of absentees. Senators, when away from town, are supposed to have pairs, but in the hard fights of the senate it is sometimes difficult to pair an absentee.

Blunt old Knute Nelson of Minnesota has been the hero of the lead debate, although speaking with his usual brevity.

SOLONS WILL BEGIN DAY'S WORK EARLIER

In the Hope of Expediting Action on the Tariff Bill, the Sittings Will Commence at 10 O'Clock, Starting This Morning.

Washington, May 16.—Beginning tomorrow, the sittings of the senate will commence at 10 o'clock, in the hope of expediting final action on the tariff bill.

Senator Bailey, Democrat, of Texas, will continue to discuss his demand for a vote on the income tax proposition, but he has confided to friends his conviction that some of the advocates of such tax have been "picked off" by the enemy.

RAILROAD OFFERS A HEAVY REWARD

Spokane, Wash., May 16.—Bandits held up and robbed a Great Northern fast mail train nine miles east of Spokane this morning. In running the engine back to the detached cars, after the train had been looted, the locomotive crashed into the train and some persons are reported injured.

TWELVE PERSONS ARE INJURED WHEN ENGINE AND MAIL CAR CRASH INTO PASSENGER COACHES

Spokane, Wash., May 16.—It appears now that twelve persons were injured when the engine and the mail car, which were sent running wild down the track by the bandits after the men had rifled the mail, collided with the remaining portion of the train.

SQUALL CAPSIZES CANOES

Helena, Mont., May 16.—At 9:15 o'clock last night an earthquake shock lasting several seconds was felt here. The only damage reported is that at the residence of Herman Paul, where a chandelier retaining wall ten feet high and two feet thick was thrown down.

EXPLOSION ENDANGERS LIVES

Portsmouth, Va., May 16.—Fire of unknown origin, accompanied by an explosion, destroyed the general store home of the Seaboard Air Line railway at the railroad terminals here early today.

TOWN HIT BY A TORNADO

Fowlerville, Mich., May 16.—This town and the country for a radius of two miles are strewn with wreckage, and probably twenty-five families are homeless, the result of a tornado Saturday afternoon.

TRACTION ACCIDENT IN CHICAGO

Chicago, May 16.—Seventeen passengers of southbound electric cars were injured tonight. The car jumped the tracks at Thirteenth and Clark streets.

MINERS' QUARREL IS BLOODY

Clarksville, Ark., May 16.—Tom Curry, president of Mine Workers' union No. 23, who recently moved here from Illinois, was shot dead near here today by a miner named Wilson, who has surrendered. It is said that they quarreled over proposed contracts between the miners and operators.

SEISMIC TREMOR ROCKS NORTHWEST

Winnipeg, Man., May 16.—An earthquake was felt in Winnipeg last night, it lasting about twenty seconds. The shock was also felt at Swift Current, Sask., and at Langdon, Sask., 500 miles west. ### MINING CAPTAINS HAVE ORGANIZED

ISHPEMING MINING MAN ADVOCATES ASSOCIATION SIMILAR TO ONE PERFECTED RECENTLY ON THE MESABA RANGE.

"I believe much good could be accomplished by an association, or institute, of mining superintendents and captains of the Marquette range, similar to the organization perfected last week on the Mesaba," said a captain yesterday. "The advisability of such an organization has been discussed somewhat by the captains and superintendents, and now that the Mesaba men have gotten together it will surprise me if the Marquette range men do not take a similar step. The Cleveland-Cliffs Iron company's range officials have an organization that I know it is doing good for the members, as well as the company. I see no reason why the underground bosses of the other mines on the range could not profit by following their example."

Four former Marquette range mining captains were honored with offices in the new organization on the Mesaba. Three of them were formerly employed in the mines here, while the fourth, Samuel Hoar, was in charge of mines on the Cascade range. Captain W. J. Sinesek, formerly of the Lake Angelina, is first vice president of the institute, and Captains Harry Tallon, J. T. Vickers and Samuel Hoar are members of the executive committee. Captain J. T. Nicholas of Aurora is president. The organization meeting is said to have been largely attended. An effort is to be made to have every captain on the Mesaba join and it is announced that meetings are to be held at intervals on different parts of the range.

The next meeting is to be held June 26 at Virginia. Some of the subjects that will probably be discussed at the session, when an effort will be made to have every underground superintendent and captain on the range present, will be: "First aid to injured men," "Preparing explosive materials for use and methods of storing and transferring the same," "Instructions to workmen in the proper use and care of explosives," "The boarding system of mining and the benefits to be derived from it," "The distribution of pressure in caving areas," "Nature and depth of surface material considered," "Methods of timbering in paint rock where excessive swelling occurs," "Premature explosions; their causes; missed holes and methods of handling them."

The subjects selected for the first regular meeting of the Mesaba men furnish much good material for discussion. The question of how to handle explosives to insure the greatest safety to the workmen is one that has been discussed for years, but still a large percentage of accidents and fatalities in mines are caused from the lack of knowledge or careless handling of dynamite than can be charged to any other source. Missed holes are also responsible for many accidents, and as a rule the cause is found to be one that might have been avoided if the workmen had been more careful or had possessed a better knowledge of what to do under the circumstances.

### BALL GAMES POSTPONED.

Unfavorable Weather Prevented Opening of League Series Yesterday.

It was too cold and too wet for successful ball playing yesterday, and the managements of the Ishpeming and Negaunee teams decided to postpone the opening game of the league series. It has not been decided whether the first scheduled contests or the second games shall take place next Sunday. If the latter here had the determination of this matter they would be unanimously in favor of starting off the series with the games that were scheduled for yesterday, as all are anxious to see the Ishpeming and Negaunee teams try conclusions.

From present indications there will be a surfeit of ball players in this county this season. Many men who have played with minor league teams elsewhere are writing the managers for positions, but practically all of them are being turned down, as the managers are disposed to try out their present material before inviting other men to come in. Several of these outside men have already located in the county on their own account, in the hope that they will be able to make the teams. Two men who played on copper country teams last season arrived in Ishpeming Saturday and have asked for a try-out. They plan to remain here permanently if given employment.

The Ishpeming nine has practically been selected, and it is announced that there will be no changes if all the players make good. There are practically no outside men on the team; that is, none have been induced to come to the city to play ball. All are bonafide residents of the city and are working here. Will Laxstrum, whose home is in Republic, recently accepted a position as traveling salesman with the Nelson Morris company, and will make Ishpeming his headquarters. Toman, Hindell and Gorman have permanent positions, and are here to remain. Mr. Hindell, who played last season with the Manistique nine, has charge of N. E. Skud's ladies'

### PLAYS THIS WEEK.

The Franklin Stock company, which has been at the Calumet and Keweenaw theaters in the copper country, the past two weeks, will open a week's engagement this evening at Ishpeming theater. The company is under the direction of J. A. Himmelin, who sent the Burgess Stock company to this district last season. The copper country papers speak in most favorable terms of the Franklin company, and that the patrons of the Calumet and Hancock theaters liked the class of plays and the specialties presented was evident from the way the door receipts increased nightly. Tonight's offering will be a comedy drama, "The Cutest Girl in Town." Ladies will be admitted free this evening, under the usual condition, provided the tickets are secured before 6 o'clock. The prices during the week will be ten, twenty and thirty cents for the evening and ten and twenty for the Saturday matinee.

### SACKRIDER A BEAR.

Former Ishpeming Man Sends Word of Warning to Copper Speculators.

F. M. Sackrider, formerly of Ishpeming and Houghton, who is located in Chicago, predicts that there will soon be a collapse of the copper metal and stock markets. He bases his opinion on a belief that the production of copper is now far in excess of the consumption. He has written friends here advising them to be on the look-out for the slump and if they are on the long side of the market to switch to the short side. He presents figures showing the production and consumption of copper for the past few years, taken from the United States geological report. The monthly consumption of copper is today about 29,000,000 pounds, or less than the Butte production for March. At this rate, with a surplus now on hand of over 570,000,000 pounds, Mr. Sackrider contends that a general upward movement in the price of the copper shares is an utter impossibility. He calls attention to the fact that Arizona, Montana and Utah are at present producing more metal than the home consumption and exports combined.

Mr. Sackrider states that should a revival in business occur sufficient to absorb the daily product of the mines, a demand for capital would result, compelling liquidation of speculative investments for the necessities of legitimate trade; also that a pronounced curtailment of product would inflict untold hardships on the industrial class.

He predicts that Amalgamated, which sold above \$80 Saturday, will have a \$25 drop before long. He says that Amalgamated looks dear to him at \$40 per share and says that on its merits it should not sell at any such prices as now prevail. Mr. Sackrider further says

WANTED—Active man for permanent outside position. Splendid opportunity for the right man. For further particulars call at Cable Plant Co.'s store. 5-10-1f

That several of the Chicago brokers take the same view of the copper situation as himself, and he predicts that the speculators who take the bear side of the market and stick to it until there is a decided increase in the consumption of the metal will come out winners.

It is said that Mr. Sackrider was a bear on the market long before he left Houghton and that many of his predictions came true in some of the slumps of recent years.

The Ladies' guild of Grace church will conduct a rummage sale next Tuesday and Thursday in the Dundon block, Main street. Parties having articles to donate are asked to call up Mrs. A. L. Brownell, County phone No. 472. (5-15-2t)

WATERLOGGED BARGE FINDS REFUGE HERE

STEAMER LANGELL AND TWO TOWS IN HARBOR AFTER DESPERATE BATTLE WITH HIGH WAVES.

Hundreds of people were attracted to the Spear dock yesterday to see the steamer Simon Langell and barges Arneac and W. K. Moore, which arrived in port at 9:30 in the forenoon, laden with lumber, after an all night's battle with the waves, the cargoes being listed and the Arneac water logged.

The Langell and barges were sighted about 8 o'clock when the steamer whistled for a tug off the breakwater. It then looked as if the barge was sinking and the life saving crew hastened to her aid.

Officers of the vessels told the following story of their experience, yesterday: We left Duluth Friday at midnight and made for Marquette. She at last tied up at Spear's dock, but the water logged Arneac grounded on the sand bar between the dock and the breakwater.

The failure of the commission to take any action regarding the notice from the bank that the note was about to become due seems to indicate that the commission intends to rest on the city attorney's opinion and not pay the note, at least until the whole question has been gone into by the common council.

Can Any One Be Held Liable? The failure of the commission to take any action regarding the notice from the bank that the note was about to become due seems to indicate that the commission intends to rest on the city attorney's opinion and not pay the note, at least until the whole question has been gone into by the common council.

WIRELESS STATION TO BE LOCATED HERE?

NEW YORK COMPANY INTENDS TO INSTALL SYSTEM ON THE GREAT LAKES—GOVERNMENT IS ALSO INTERESTED.

A few days ago the announcement was made from the hydrographic office at Duluth that the government is about to establish wireless telegraph stations on the great lakes, the many shipwrecks that have occurred this season being the reason for this determination.

"There is no uncertainty about our proposition," Mr. Moe is quoted as saying at the Soo last week. "A station will be installed at the Soo within sixty days from the time a site is decided upon, which will be within a short time."

The company has stations in operation on the Auditorium annex building in Chicago; the Wayne Hotel, Detroit; Daily News building, Buffalo; Arcade building, Cleveland; Holland, Benton Harbor, Grand Haven, and Pabst Brewing company, Milwaukee. Those now under construction are Toledo, Manitowoc, Ludington and Port Huron.

The United Wireless, Mr. Moe says, now has the Graham and Morton Transportation company's steamers, the Goodrich Transit company's and the Crosby Transportation company's boats all equipped with wireless. He states that his company will shortly close contracts with the Anchor line for the installation of wireless on the Juniata and Tiomesta.

MARINE NOTES.

The Luzon, of the Carter fleet, cleared yesterday afternoon with a cargo of Mary Charlotte ore, but returned about dark because of the rough weather encountered.

The Anchor line freighter Selwaykill unladen at the Spear dock Saturday and some time during the night cleared for Portage and Duluth. The Mahoning, of the Anchor line fleet, is due at the Spear dock today.

The steel trust steamer German arrived light for ore about 10 o'clock Saturday night and her captain reports that it was one of the nastiest nights he ever experienced on the water. It was so dark that nothing could be seen, it was raining hard and the roar of the surf along the shore was deafening.

Captain A. A. Batten, of the Booth Fishing Navigation's steamer Carlson, which is plying between the Soo and Michipicoten, reports that the lighthouse keeper, Robert McMenney, at Otter Head and a man named Wilson, are missing from that place. The news was brought to Captain Batten by the tug Almsworth which ran into Michipicoten island, Thursday. McMenney and Wilson started out a week ago last Wednesday for Huron bay in a little sailboat, where they expected to secure supplies. Shortly after their departure a northeast gale sprang up. It is feared that the boat was upset and the men drowned during this storm.

People are often induced to buy a cheaper shoe because of the cheapness, but very seldom will want another pair. A few more cents spent at the start proves a good investment in the end. A smart fitting oxford or slipper is a source of pleasure and lasting satisfaction.

Women's Shoes, Oxfords or Slippers, \$2.50 to \$5.

Misses' Shoes, Oxfords or Slippers, \$1.50 to \$3.50.
