

'TEDDY' IS HAVING THE TIME OF HIS LIFE

Enjoying Remarkably Good Health and Remarkably Good Hunting, He Is Delighted With the Success of His Expedition.

Crack Shots, Both of Them, the Accuracy of the Rifle Fire of Father and Son Astonishes Not Only the Settlers, but the Members of the Roosevelt Party Itself—Kermit Has a Thrilling Experience When a Savage Hyena Attacks Him.

Nairobi, May 25.—A staff correspondent of the Associated Press returned to Nairobi this morning after a two days' visit at the Roosevelt camp, located on the Healy ranch, on the banks of the Nairobi river. Mr. Roosevelt and his son Kermit are in remarkably good health, and they are delighted with the success of the expedition. The accuracy of the rifle fire of Mr. Roosevelt and his son has astonished not only the settlers, but the members of the party. Kermit killed recently at close range a hyena that had attacked him. Mr. Roosevelt is annoyed at certain special dispatches which it is reported are appearing in American or English newspapers.

Having the Time of His Life.

Paris, May 25.—Major Louis L. Scammon, U. S. A., has arrived here from Mombasa, where he met the Roosevelt party. He says that the former president "is having the time of his life." Major Scammon brought back the first news of a discovery by Dr. Sehnin, of Germany, which completely upsets the theory of the English commission that only the tsetse fly transmits the sleeping sickness. Dr. Sehnin has proved that the fly becomes infected, thus establishing a cycle in his case with the mosquito in yellow fever. The fly remains inoculated for fifty days. This discovery renders more difficult the solution of the problem of extinguishing the dreaded disease, as it ends the hope previously entertained of suppressing it by isolation. The disease has claimed half a million victims, and according to Major Scammon not a single person attacked has ever recovered.

'LET J. D. ROCKEFELLER AND CARNEGIE ALONE'

'Go Into Your Own Pockets for College Endowments,' Advises Dr. J. C. Steffen in an Address at the Presbyterian Assembly.

Denver, May 25.—"Let Rockefeller and Carnegie alone—go into your own pockets for college endowments." That was the advice of Dr. J. C. Steffen of Duquesne, Pa., in an address before the general assembly of the Presbyterian church this afternoon.

It was decided that \$100,000 should be spent in the erection of churches in the synod of Tennessee, to replace those taken from the church by the decision of the supreme court of that state, which held the union of the Presbyterian church in the United States of America and the Cumberland Presbyterian church illegal. Dr. Steffen, in his address, called attention to the lack of Bible study in sectarian schools and urged that a rule requiring at least 144 hours of Bible study in each school year be made compulsory in the case of each regular student. He also said that the board had been withdrawing its aid from secondary schools as much as possible, in view of the greatly increased efficiency of high schools.

The report of the committee on administrative agencies was passed substantially as submitted. The principal recommendation is that each church board obtain legal advice as to the enlargement of its powers, in order that the consolidation of the boards may be accomplished gradually.

The regular and special representations of the executive commission were accepted after debate. The special report provides for the discharge of the standing committee on finance from the consideration of the budget of the missionary and benevolent boards, and that the policy outlined by the various boards be submitted to the commission for its consideration, later to be referred to the assembly.

The report of the board of home missions showed that the amount received—\$1,033,971—was the largest in the history of the church. It asked for \$800,000 for the work of the coming year. During the debate on the suggestion that a special effort be made to Christianize incoming foreigners, Dr. Thompson referred to the removal of Robert Watchorn, former commissioner of immigration, stationed at Ellis Island. Politics, he said, bitterly, "or what not was the cause of the removal of a great man."

Advertisers Oppose Church Federation.

Washington, May 25.—That the aim of the proposed church federation was evidently to control the government and by such means bring about moral and religious legislation, and that therefore such movement would not tolerate their doctrines, was the consensus of opinion today at the conference of the Seventh Day Adventists. Opposition to the movement by literature and by personal effort was strongly advocated by Elder Prescott, who spoke on the inter-church movement.

The gifts of John D. Rockefeller to the Chicago university now total over \$25,000,000.

HE TAKES ISSUE WITH MR. BRYAN

Senator Stone Defends His Democracy in Voting for the Proposed Duty of Twenty-Five Cents a Ton on Iron Ore.

Such Support Having Been Characterized by the Commoner as a Mistake, the Speaker Insists That in This Particular Instance the Nebraskan Is in Error—Following the Missourian, Louisiana's Two Senators Advocate a High Tariff on Sugar.

Washington, May 25.—A defense of his vote for a duty of twenty-five cents a ton on iron ore was made by Senator Stone of Missouri in the senate today. As a prelude to his statement, Mr. Stone read from an interview with Wm. J. Bryan, declaring that the Democratic senators who had voted for a tariff on iron ore had made a mistake. After an elaborate enumeration of his affectionate regard and respect for Mr. Bryan, Mr. Stone insisted that in this case he believed the Nebraskan to be in error. He proceeded then to give the arguments which had influenced him in reaching the conclusion that a "duty for revenue" should be levied upon iron ore.

Democrats Urge High Tariff on Sugar.

The senate today began the formal consideration of the sugar schedule, but did not approach a vote on it. Instead, the time allotted to this schedule was entirely given over to speech-making and, strange to say, the two speeches on the subject, while made by Democrats, were in strong advocacy of a high tariff on sugar of all grades. The speeches were by Senators Foster and McEnery of Louisiana. Mr. Foster laughingly depreciated the application of the word "protection" to his attitude, but Mr. McEnery boldly espoused the protective theory and openly advised his Democratic friends to follow his example. He declared protection to be in the line of Democratic policy. Mr. McEnery was cheered by the careful attention given his remarks by the Republican senators, but his speech received scant attention from his Democratic colleagues.

The lumber schedule was temporarily put aside in order to permit the committee on finance to make changes in it. Early in the day Senator Beveridge addressed the senate at length in support of his proposition that President Taft had previously to and after his nomination been a consistent advocate of downward revision of the tariff. He followed the maiden effort of his Democratic colleague, Senator Shively, who undertook to prove that if the tariff bill now before the senate should become a law the rates over which the senate is wrangling would not constitute the tariff that would go into effect, but that under the maximum and minimum provisions the country would find itself operating under the maximum rate, which is 25 per cent higher than the minimum.

INCOME TAX FOES GLEEFUL.

Serious Differences Between Its Advocates Endanger the Proposition.

Washington, May 25.—Had it not been for the divisions of the "progressive" Republicans who favor the adoption of an income tax amendment to the tariff bill, it is probable that Senator Bailey might have reached an agreement today with the members of the finance committee. Offense was taken by some of the so-called insurgent Republicans because of the notice served by the Texas senator yesterday that no general agreement could be obtained on any phase of the tariff bill so long as Chairman Aldrich refused permission for the fixing of the time for a vote on Mr. Bailey's income tax amendment.

It was made clear at an informal conference today that the Republicans who are supporting the Cummins amendment desire the continuance of the coalition with the Democrats, but that they did not want it at the expense of surrendering control of the income tax fight to the Democrats. Senator Cummins conveyed this view to Senator Bailey. Before this action was taken, however, a conference was held by the Republican members of the finance committee relative to fixing the time for the vote on the income tax question and all other amendments to the tariff bill. In the opinion of the members of the committee the work on the schedules will be completed by June 10, and they could see no reason, therefore, for resisting the fixing of the time for the vote on the Bailey amendment beyond that time.

Cummins to Revise His Plan.

Senator Cummins said tonight that he would offer his income tax amendment just as soon as the consideration of the schedules had been concluded. He will revise his amendment to meet the wishes of a number of Republicans. It will provide for a flat rate of 2 per cent on incomes, including corporations. A drawback will be allowed to individual stockholders of corporations equal to the sum paid on their stock by the corporation itself, when it can be shown by the individual that the total of his income is less than \$5,000 a year. The Bailey amendment provides for a tax of 3 per cent. Senator Cummins said that if the Bailey amendment is presented first, he will vote for it, although he does not believe it will prove as satisfactory as his own. He estimated that his amendment would produce about \$10,000,000 a year in revenues. The members of the finance committee

are confident that they have sufficient votes to refer either the Cummins or the Bailey amendment, or both, to the judiciary committee.

BREAKS ALL RIVER RECORDS.

Battleship Mississippi Steams 275 Miles in Fourteen Hours.

New Orleans, May 25.—Breaking all records, the battleship Mississippi arrived at New Orleans from Natchez at 7 o'clock this evening. She left Natchez at five this morning and thus covered the distance of 275 miles in fourteen hours. The battleship was not expected here before tomorrow morning. She was fourteen hours ahead of time. The trip down the river was marked by as much enthusiasm as on the journey up. The ship anchored off the coaling station at the navy yard tonight, and will leave New Orleans for Pensacola at 5 a. m. Thursday.

NEW QUESTION INTRODUCED.

Candidates for Citizenship Asked About the Anti-Military Agitation.

New York, May 25.—Fifty candidates for citizenship were asked by Judge Lacombe of the United States circuit court today whether they were members of any labor organization or other society which does not allow its members to join freely with the regular army or the national guard. The new question was introduced, it is said, on account of recently reported agitation in certain labor organizations against membership in military companies which are likely to be called out for strike duty. All of today's applicants denied belonging to any such organization.

PROTOCOL IS SIGNED.

Emery Claim Upon Nicaragua Will Be Submitted to Arbitration.

Washington, May 25.—A protocol for the submission to arbitration of the Emery claim was signed tonight with the representatives of the Nicaraguan government at the home of Secretary of State Knox. The claim arose out of the annulment by Nicaragua of a concession granted for cutting mahogany, because of the alleged violation of its provisions.

DEADLOCK CONTINUES.

Still Another Illinois Ballot for Senator Is Without Result.

Springfield, Ills., May 25.—The ballot for United States senator today resulted in no choice. Hopkins received eighty-eight votes; Fos, 74; Shartlett, 19; Singer, 1; Lorimer, 1; Collins, 16, scattering, 27.

PRICES FAIL TO HOLD THEIR GAINS FOR THE DAY

After Rising to New High Points, Wheat Slumps in the Chicago Market and Closes Weak—Stocks Are Dull and They, too, Leave Off With the Values on the Down Grade.

Chicago, May 25.—Heaviness at the start, a sharp rally which carried the May and July to new high points and a severe slump late in the session were the salient features of today's trading in wheat. The top for the May was 135 1/2, and for the July 119 1/2. During the greater part of the session there was heavy selling of the distant futures by Southern interests, which suggested to many traders that possibly the seasonal reports circulated the previous session regarding crop conditions in Kansas and Oklahoma were considerably exaggerated. A report that harvesting had begun in three counties in Texas, and that fields which had previously been pronounced dead were throwing out twelve to fifteen bushels per acre prompted additional sales. The sentiment became decidedly bearish and the close was weak, 3/4 to 1 1/2 below yesterday's final figures. The July opened at 118 1/2, went to 119 1/2, and closed at the bottom, 117 1/2@117 3/4.

Wall Street Market Inactive.

New York, May 25.—The stock market today did not reflect much inclination to active speculation on the part of operators of great importance. The anxiety felt yesterday on account of the nature of some of the estimates of the crop conditions in Kansas and neighboring states was somewhat relieved today, owing to the news of the revision of the situation, but this chief factor to revive the stock market. The weekly bulletin of the weather bureau took a favorable view of the effects of the rains of the last few weeks, but showed general deficiencies of temperature for the week.

A small wave of animation during the first hour, during which some effort to lift prices was made, was followed by a lapse into torpid conditions, which prompted the "dollar" day for many weeks. The threat thus conveyed of an appealing period of lethargy in the speculation had discouraging effect on some holders who were looking for a prompt advance. Liquidation of some importance in one of two of the principal stocks was attributed to this motive. The drop in United States Steel threatened the interruption of the daily session of new record prices which that security has been making, but this was avoided when it stiffened to 61 late in the day. This belated movement was of considerable sympathetic effect on the whole list.

An advance in the prices of refined copper at the Metal exchange was announced, and there were reports that the selling price had been lifted by the selling agency of the principal producers. These reports gave figures of sales this far this month that pointed to a volume of deliveries for May considerably in excess of any month since the present revival set in and well in excess of the prevailing rate of production. The advance of the copper industrial in the face of these favorable advices was illustrative of the general unresponsiveness of the whole market to developments. In the final dealings there was a general set-back, in which Reading, St. Paul and western Maryland were particularly weak. Business left off dull, with the prices on the down grade.

THE WEATHER.

Washington, May 25.—The following is the weather bureau's forecast for Upper Michigan: Unsettled weather, Wednesday and Thursday; moderate to brisk winds.

AUTOMOBILE OVERTURNS.

Caught Underneath It, Two Persons Drown in Two Feet of Water.

Stockton, Cal., May 25.—Mrs. Warren Jones, wife of a wealthy farmer, and the three-year-old son of his sister, Mrs. Isaac Robinson, lost their lives in an automobile accident today. They were drowned when the automobile was overturned in two feet of water. Mrs. Robinson was saved from drowning by her daughter, a child of eight, who held her head above the water until she was released. The automobile was driven by Isaac Robinson, who was badly injured.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including National League, American League, and American Association matches.

YESTERDAY'S GAMES.

Table listing results of baseball games from the previous day, including scores and key players.

MAN HUNT IN ILLINOIS.

Farm Hand Kills Farmer in a Dispute About Lumber.

Murphy, Ill., May 25.—Fritz Rebert, a farmer living near Jacob, fifteen miles from here, was hit on the head and killed by Benjamin Deckenhardt, a farm hand, late today. The man had been building a house and had a dispute about a lumber. Deckenhardt escaped with a posse pursuing.

TELEPHONE POLE IS GALLOWS.

Arkansas Negro Awaiting Trial Is Put to Death by a Mob.

Fine Bluff, Ark., May 25.—Lovett Davis, a negro, charged with attempting to assault a white girl, was taken from jail by a mob early this morning and was lynched to a nearby telephone pole.

GORED TO DEATH BY A BULL.

The Shocking Fate of a Wealthy Farmer at Logansport, Ind.

Logansport, Ind., May 25.—Joseph Stouton, aged fifty-four, a wealthy farmer, was gored to death by a bull tonight on his farm northwest of this city.

YOUTH IS JAILED FOR MURDER.

Leachville, Ark., May 25.—Charles Champ, aged eighteen, was arrested here today on the charge of murdering Henry Culp, just across the state line in Missouri, last Sunday. Culp had killed a brother of Champ, it is alleged, and was declared not guilty at a recent trial, on a plea of the unwritten law. Champ had sworn vengeance, it is said.

WATCHMAN'S AIM IS DEADLY.

Chicago, May 25.—B. Schmatzki, watchman at St. John's Polish church, this city, tonight shot and killed John Chichowski in front of the church. The watchman said that he saw Chichowski and three other men attacking a man, and that he fired to save the victim.

RAILROAD MAN DIES SUDDENLY.

Kalamazoo, Mich., May 25.—Robert C. Jones of Detroit, a traveling passenger agent in Michigan for the Milwaukee railway, died suddenly from heart trouble today in his room at a hotel.

SCHOOL EXERCISES HAVE TRAGIC END

Flimsy Costumes of Children Ignited at a Commencement at Central City, Ky., Four Little Girls Are Fatally Burned and Insanity Threatens the Teacher.

Central City, Ky., May 25.—Four children were burned during the commencement exercises here last night of Mrs. Boyd's school, and died today. They were: Selma Clay, five years old; Dorothy Clay, seven; Nell McGeary, five, and Louise Marshall, eight. The appliances proved too much for Dorothy Clay, who dropped her lamp and ignited her dress and those of other children on the stage. The house was in darkness and a panic was averted only by men who threw their coats about the screaming children. Mrs. B. C. Boyd, a music teacher, whose pupils the children were, may lose her mind from the pain of her burns and because of her grief.

ARE BURNED TO DEATH.

War Veteran and Three Grandchildren Victims of a Fire in Iowa.

Ottumwa, Ia., May 25.—John Carter, an old soldier, aged seventy-five, and three children of his daughter, Mrs. Lela Shaw, were burned to death in a fire which destroyed the Shaw home at 11 o'clock, near here, early today.

NEBRASKA FIRE IS FATAL TO TWO.

Beaver City, Neb., May 25.—As a result of using kerosene with which was started a fire, Mrs. Alfred Kennedy was burned to death here today. Her husband, who tried to rescue her, received such severe burns that he died late tonight. The couple had been married only a short time.

DOOMED TO THE GALLOWS.

Negro Slayer of Clara Rosen of Ottumwa Will Plead Guilty.

Centerville, Ia., May 25.—John Junken, the self-confessed negro slayer of Clara Rosen, the Ottumwa choir singer, will tomorrow plead guilty and throw himself on the mercy of the court, according to the negro's statement tonight. This, says Prosecutor Cornell, means that Junken will be sentenced to hang, as Judge Roberts has stated that he would inflict the death penalty if the negro was convicted. Junken tonight is in a state of collapse. All day today he feared he would be lynched. When he was arrested this morning before sunrise to go to the court house, he pleaded with the sheriff not to let the mob get him. Judge Mitchell, representing Junken, vetoed the postponement of the selection of the jury until tomorrow. The first witness called will be Fred Rosen, brother of the murdered girl.

PRISONER HEAVILY GUARDED.

Because of rumors of a mob threatening to lynch Junken, the prisoner is tonight being kept in the grand jury room of the court house, under a heavy guard of armed deputy sheriffs. Officers are stationed at the windows so as to sweep the square surrounding the courthouse should a mob congregate. The stairways are also protected by armed men. There was a great rush in the court house halls at the time of Junken's arrest, but none were admitted except those of high officials and newspapermen, until after the arraignment. As the crowd was let in Junken was hurried out to a rear room and then to the grand jury room. The father and brother of the murdered girl were present to testify and anarchy, they suggest the use of the cannon as a means of dispersing workmen; they malign and traduce the great majority of the employers of labor who refuse to join them in carrying forward this wholly un-American design to destroy organized labor; and, to the cap the climax of their inconsistency, they impugn the motives and question the intelligence of religious, educational and philanthropic institutions of our country simply because these institutions have opened their doors to the organized labor movement and have listened respectfully to the claims made in behalf of the working men and women whose brain and brawn have contributed in no small degree to the commercial, intellectual and moral supremacy of the nation.

MAN HUNT IN ILLINOIS.

Farm Hand Kills Farmer in a Dispute About Lumber.

Murphy, Ill., May 25.—Fritz Rebert, a farmer living near Jacob, fifteen miles from here, was hit on the head and killed by Benjamin Deckenhardt, a farm hand, late today. The man had been building a house and had a dispute about a lumber. Deckenhardt escaped with a posse pursuing.

TELEPHONE POLE IS GALLOWS.

Arkansas Negro Awaiting Trial Is Put to Death by a Mob.

Fine Bluff, Ark., May 25.—Lovett Davis, a negro, charged with attempting to assault a white girl, was taken from jail by a mob early this morning and was lynched to a nearby telephone pole.

GORED TO DEATH BY A BULL.

The Shocking Fate of a Wealthy Farmer at Logansport, Ind.

Logansport, Ind., May 25.—Joseph Stouton, aged fifty-four, a wealthy farmer, was gored to death by a bull tonight on his farm northwest of this city.

YOUTH IS JAILED FOR MURDER.

Leachville, Ark., May 25.—Charles Champ, aged eighteen, was arrested here today on the charge of murdering Henry Culp, just across the state line in Missouri, last Sunday. Culp had killed a brother of Champ, it is alleged, and was declared not guilty at a recent trial, on a plea of the unwritten law. Champ had sworn vengeance, it is said.

WATCHMAN'S AIM IS DEADLY.

Chicago, May 25.—B. Schmatzki, watchman at St. John's Polish church, this city, tonight shot and killed John Chichowski in front of the church. The watchman said that he saw Chichowski and three other men attacking a man, and that he fired to save the victim.

RAILROAD MAN DIES SUDDENLY.

Kalamazoo, Mich., May 25.—Robert C. Jones of Detroit, a traveling passenger agent in Michigan for the Milwaukee railway, died suddenly from heart trouble today in his room at a hotel.

CIVIC FEDERATION TO TRY ITS HAND

That It Has Taken Up the Problem of Settling the Strike of the Lake Seamen Is Announced by John Mitchell.

Defending the Cause of Organized Labor, and Hitting Out Straight from the Shoulder, the Former Head of the United Mine Workers Pays His Respects to the Association of Manufacturers' Newly Elected President in Vigorous Language

Chicago, May 25.—John Mitchell, former leader of the miners and now chairman of the trade agreement department of the National Civic Federation, announced here today while passing through the city to his home in Spring Valley, Ill., that the Civic Federation had taken up the problem of settling the strike of the lake seamen. The dispute between the union men and the Lake Carriers' association has been referred to the federation by the interstate arbitration board, which failed to effect any compromise or meeting. Mr. Mitchell said that the federation's executive committee had taken up the subject.

Gives Kirby a Severe Arraignment.

New York, May 25.—The recent attack upon organized labor made here in the course of the speech of acceptance by John Kirby of Dayton, O., the newly elected president of the National Association of Manufacturers, is the subject of a condemnatory article by John Mitchell, former president of the United Mine Workers of America, published in the National Civic Federation Review. Mr. Mitchell illustrates where Mr. Kirby stands on the labor question by contrasting his utterances on the subject of organized labor with those of President Taft, Pope Leo XIII, Cardinal Manning, Gladstone, the late Mark Hanna, Potter Palmer, Wendell Phillips, the late Bishop Potter and Melville E. Ingalls. From this Mr. Mitchell deduces that "the only truthful and sane declaration made by the newly chosen spokesman of the National Association of Manufacturers is that in which he says, 'I have not been selected as your president on account of my ability.'"

KING'S ENTRY THE FAVORITE.

Minoru Picked to Win the Great Derby on Epsom Downs Today.

London, May 25.—The greatest of all horse races—the Derby—will be run at Epsom Downs tomorrow, and it promises to be the most interesting derby of a decade. The possibility that King Edward's Minoru will win for the purse of \$22,500 and his owner gain the distinction of being the first reigning monarch to take the classic, gives the contest an importance that cannot be over-estimated in the eyes of the British public. Minoru is now the favorite for the race. The principal opponent is considered to be Louis Wynn's Sir Martin, from John E. Madden's Kentucky farm and which is supposed to have cost his present owner \$80,000.

ELECTIONS IN DENMARK.

Three Members of the Present Ministry Are Voted Out of Office.

Copenhagen, May 25.—The elections for the following were held today. The country divided on the defense question, especially with regard to the proposed new land fortifications around Copenhagen. Late results show the purse of \$22,500 and his owner gain the distinction of being the first reigning monarch to take the classic, gives the contest an importance that cannot be over-estimated in the eyes of the British public. Minoru is now the favorite for the race. The principal opponent is considered to be Louis Wynn's Sir Martin, from John E. Madden's Kentucky farm and which is supposed to have cost his present owner \$80,000.

NEW WAR IN SAN DOMINGO.

Government Troops and Revolutionary Forces Mix Things Again.

Cape Haytien, Hayti, May 25.—The Santo Domingan government is proceeding against the revolutionists as rapidly as possible. Sunday the government troops attacked the position held by the revolutionists at Santana. The engagement lasted three hours, and there were considerable losses on both sides. The insurgents were finally dislodged and the position was captured.

REVOLT THREATENS IN SYRIA.

With "Home Rule" the Slogan, Autonomy Movement Gains Ground.

Berlin, May 25.—A correspondent of the Tachblatt sends the following from Larnaca, Cyprus: "The situation in Syria is most serious. The autonomy movement is gaining ground, with 'home rule' as the watchword. The troops stationed at Damascus refuse to recognize Mehemed V as sultan. The village of Adana is quiet, but a general uprising is feared."

'HERO FUND' FOR FRANCE.

Andrew Carnegie Makes a \$1,000,000 Appropriation for the Purpose.

Paris, May 25.—Andrew Carnegie, of New York, has arranged to give \$1,000,000 for the establishment of a "hero fund" in France, under practically the same conditions as govern similar funds in the United States, England and Scotland.

SISTER OF GROVER CLEVELAND.

Hartford, Conn., May 25.—Mrs. Anna Cleveland Hastings, sister of former President Grover Cleveland, died at her home here today, aged seventy-nine.

PROSECUTOR SHORT WIELDS THE CUDGEL

Assistant State's Attorney Heaps Denunciation Upon 'Skinny' Madden and His Two Lieutenants, on Trial at Chicago.

Declaring Them to Constitute a New Triumvirate of Graft, Whose Alleged Conspiracy to Rob Had Been Proved, He Asserts That 'This Is a Fight of Clean Laboring Men Against Leaders Who Have Betrayed Them for Personal Gain.'

Chicago, May 25.—"This is a fight of decency against the octopus of labor graft; it is a fight of clean laboring men against the leaders that have betrayed them for personal gain. New York has wrestled with the monster; San Francisco is fighting with it now, and today Chicago is trying to clean its own stables."

This was part of the denunciation heaped upon Martin R. Madden and his two lieutenants in the building trades council of this city in the closing hours of their trial here today for the alleged acceptance of money to call off strikes. The cudgel was wielded by Assistant State's Attorney B. J. Short in the first of the closing arguments. The case probably will not reach the jury before Thursday. The penalty in case of conviction is from one to five years in the penitentiary, or a fine of \$2,000, or both. Madden and his friends are confident of acquittal. Attorney Short went over the entire testimony, declaring that the state had proved a conspiracy to rob Joseph Klika by calling a strike on his plant and forcing him to pay \$1,000 to settle it. "Pouchot, Boyle and Madden—a new triumvirate of graft," said Mr. Short. "Madden was an interloper. They needed his brains to work the conspiracy smoothly. These defendants merit the severest penalty for their heinous crimes against the business interests of this city and against honest labor."

If not with your dealer, write our nearest agency. STANDARD OIL COMPANY (Incorporated)

ably ornamented for the last fourteen years. And the legislature would not feel when it is confronted with twelve candidates from all portions of the state, each with a respectable following of voters, but with Senator Burrows leading the field in this respect? It ought not to be a difficult thing for the senator to get more votes than any one of the other candidates, since he has a statewide reputation, while the others will be handicapped by lack of it. And besides, with the field so split up the legislature will not be able to do what it is forced to take the man who has been in the senate for so long as a compromise. No other compromise will do.

DULUTH'S STEEL PLANT.

Plans of the Corporation Call for an Ultimate Expenditure of \$25,000,000—Plant Will Give Work to Thousands of Men. Duluth, Minn., May 25.—Large steel works, ultimately to represent an investment of \$25,000,000, and to employ 10,000 hands, upon which \$1,300,000 has already been expended by the United States Steel Corporation in preliminary studies, are to be constructed at the head of Lake Superior. At the time the establishment of the new industry was decided upon, it was the intention to erect mills to cost \$5,000,000 or \$6,000,000. Plans in accordance with that decision had been prepared by the engineers, but it was determined that the possibilities for business in the great Northwestern market tributary to Duluth and Superior warranted a still larger plant, and it was ordered that the proposed capacity be doubled. Subsequently it was determined ultimately to still further enlarge the works. The decision to expand the project eventually to a \$25,000,000 proposition was reached when a party of the most prominent officials of the company paid a visit to Duluth and investigated the conditions and outlook. The plans now have been so drawn that the plant will be constructed in two units. The first of these units will be completed shortly after the beginning of the year 1911, and will give employment to approximately four thousand hands. Much of the present year will be devoted to the work of preparatory nature, such as railroad and bridge building and the assembling of needed material, and it will not be far in the future. An important consideration in the establishment of the New Duluth steel plant is that with a system of rolling mills at the head of Lake Superior and in close proximity to large deposits of low-grade ores on the Mesaba, Cuyuna and other ranges, these ores can be used to great advantage in other than their present production would be unprofitable. In the wake of the steel works there will come other industrial plants, the institution of which is a natural accompaniment. Particularly will this be true in the case of the "postage-stamp" rate, which for many years past has been a barrier against large manufacturing industries locating at the head of Lake Superior. The "postage-stamp" rate is the rate of seventy-five cents per hundred weight that prevails not only from Pennsylvania points on Lake Erie, but from Lake Michigan and Lake Superior points and from most points on the Mississippi to the Pacific coast. Thus while the head of Lake Superior is several hundred miles nearer the Pacific coast than various points east of Chicago, all the freight charges are exactly the same and the head-of-the-lakes region is deprived of the natural benefits which its location gives it. With the "postage-stamp" rate broken down, a task which the Steel Corporation will bend its energies, the Lake Superior points of shipment will gain a large advantage over a great many localities east of the St. Croix and Mississippi rivers.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches the age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

HOUSEHOLD REMEDIES

are a blessing to the vast army of people who live in rural districts, and such standard medicines as Lydia E. Pinkham's Vegetable Compound, which has stood the test of time, growing in popularity and favor every year, will continue to be the safeguard of American women for all diseases peculiar to their sex. Mining News

OSCEOLA AND TAMARACK.

There has been some discussion of the Osceola semiannual dividend being reduced at the next meeting to \$3. Although the Osceola is more than earning \$8 per share, and the price at 13 1/2 cents, the Calumet group for the Osceola to accumulate a large surplus in order to aid the parent company to finance the developing mines. Osceola will this year produce 25,000,000 pounds of refined copper, and figuring the cost at 10 cents, and the price at 13 1/2 cents, the profits would equal about \$9 per share. Every cent advance in the price of the metal means, on a 25,000,000-pound production, \$250 additional per share on the Osceola stock. The Calumet & Hecla stock has a strong treasury and is very probable that it is the intention of the management to make all its smaller properties relatively as strong as the parent company. The Osceola being so thoroughly opened and producing probably at its maximum capacity is in a good position to build up a strong treasury and at the same time give a substantial return to the stockholders. Tamarack's weak point is the floating debt of about \$275,000. Its low capitalization of 60,000 shares would enable the company to show earnings of \$4 per share on a 16-cent copper market and a 13-cent cost with a 13,000,000-pound production. The floating debt will doubtless be transferred from the present creditors to the Osceola, since that company has a large surplus and the management desires that the loss to the weaker company be kept to a minimum. Tamarack will pay considerable attention to the opening of new lodes on its undeveloped acres and the new shaft being sunk on the Keosauqua lode near the old shaft will give some idea of the potential values in the Tamarack vein acreage. That the lands will prove of value to the mine under the Calumet management, with its large treasury to open the property, goes without saying. Although the Tamarack is at present unremunerative to stockholders, its future development probably will bring an appreciation in its market value which will fully repay stockholders for holding their stock. While it is natural to suppose that with the passing of the so-called Bigelow companies to the Calumet & Hecla, the selling of the copper of the lower levels is not as rich as it was on the 1800-foot level, says the Boston Financial News. From a mining standpoint there is nothing strange about this, and it is possible also that the same rich ore above will come in again, but the impression that North Butte is a promisingly rich property has been weakened. This accounts for a great deal sentimentally, especially as the action of the market for the stock is all one needs to look at to realize that heavy selling of inside stock must have taken place and that the old holders are not yet ready to give the market effective support. There is no doubt but that North Butte is still a very rich mine and will continue to be one for many years to come, but the stock occupied a unique position, and the decline in the price as well as the reticence of the management, has created more or less uncertainty in the minds of the public. The directors have declared the usual quarterly dividend of \$1 per share and with an advancing market for the metal this rate should be maintained. It is thought that the dividend of \$2 per share per annum, which the Calumet & Hecla, including the output of the Centennial and the Algonquin, can offer about 90,000,000 pounds. If these productions were all passed over to the Calumet agent the 150,000,000 pounds of lake copper per annum to be disposed of. It is thought, however, that if the Bigelow properties' copper is allowed to be sold by the United Metals Selling company better results can be obtained than by concentration. To get the Calumet Range copper market to the 150,000,000 pounds per annum, the agent for over 90,000,000 pounds of lake copper per annum, John R. Stanton is the agent for the Atlantic, Michigan, Mohawk and Wolverine companies. Eventually the Bigelow companies' production may be taken from the present agents, but not in the near future.

SHANNON.

As already reported, a special meeting of the stockholders of the Shannon Copper company has been called for June 7 to authorize the directors to guarantee the principal and interest of the \$600,000 of bonds which are to be issued by the Shannon Arizona railroad. Authorization will also be asked for the issuance of 30,000 shares of stock to be held in the treasury for the purpose of taking up the bonds when they are offered for conversion. The bonds are to be convertible into stock at \$20 per share and all have been subscribed for. The railroad which has heretofore handled ores and supplies for the Shannon mine, being situated at the level of a creek, has been subject to frequent washouts and the consequent delays have caused the Shannon company heavy losses in addition to the excessive freight charges. The new road will obviate the difficulties of the washouts as it will run entirely over high ground. The bonds are safeguarded by earnings from a large amount of mining traffic in addition to that originated by the Shannon mine. A Boston copper interest who recently visited the property of the Shannon company says: "The mine is about seven miles above Clifton and is reached by a narrow gauge (in every sense of the expression) railroad, which because of its unfortunate situation at the creek level is nearly washed out each spring. As the canyon affords no site for a concentrator or smelter all the ore has to be transported over this road to the smelter at Clifton. The delays to the Shannon have been a source of great loss, and the freight rates are outrageous. The Binghamton ores are carried twenty-seven miles to Garfield for 27 cents per ton while the Shannon is charged 35 cents per ton for a seven-mile haul, and the conditions governing transportation are more complex at Binghamton. As the Shannon shipped out 281,449 tons in 1907, the freight cost on ore alone was \$98,500 to say nothing of supplies, etc., sent in. The company can save much interruption to its operations by building its own railroad. I believe that the new railroad bonds are unquestionably safe as there is a large miscellaneous and mining traffic in addition to the work for the Shannon. The property is a very large one and can readily make from 20,000,000 to 24,000,000 pounds at a cost of about 11 1/2 cents today. The company treated last year yielded 33.4 pounds of copper per ton and if desirable the copper contents could be made even higher. The property is practically a mountain of ore, all of which is not, of course, of uniform grade. Mining can be done very cheaply as it is all tunnel work underground, and in addition there is an enormous tonnage that is being mined from the surface by open face work. Labor is largely Mexi-

can which is cheap and, within its limitations, efficient. While it is true that with a ten cents cost the earnings on 20,000,000 pounds of copper, with the metal at 15 cents, are only \$2 per share, profits will increase very largely on any higher metal market. For instance, on a 16 cent metal market earnings would double. The promise of the property, the excellent record of the management and the great profits realized in all previous issues of convertible bonds, especially of mining companies, make me believe that this perfectly secure investment will also realize a large profit.

NORTH BUTTE.

The weakness in North Butte is naturally attended with a revival of the old reports concerning the condition of the Edith May mine, and it seems to be generally believed that the ore on the lower levels is not as rich as it was on the 1800-foot level, says the Boston Financial News. From a mining standpoint there is nothing strange about this, and it is possible also that the same rich ore above will come in again, but the impression that North Butte is a promisingly rich property has been weakened. This accounts for a great deal sentimentally, especially as the action of the market for the stock is all one needs to look at to realize that heavy selling of inside stock must have taken place and that the old holders are not yet ready to give the market effective support. There is no doubt but that North Butte is still a very rich mine and will continue to be one for many years to come, but the stock occupied a unique position, and the decline in the price as well as the reticence of the management, has created more or less uncertainty in the minds of the public. The directors have declared the usual quarterly dividend of \$1 per share and with an advancing market for the metal this rate should be maintained. It is thought that the dividend of \$2 per share per annum, which the Calumet & Hecla, including the output of the Centennial and the Algonquin, can offer about 90,000,000 pounds. If these productions were all passed over to the Calumet agent the 150,000,000 pounds of lake copper per annum to be disposed of. It is thought, however, that if the Bigelow properties' copper is allowed to be sold by the United Metals Selling company better results can be obtained than by concentration. To get the Calumet Range copper market to the 150,000,000 pounds per annum, the agent for over 90,000,000 pounds of lake copper per annum, John R. Stanton is the agent for the Atlantic, Michigan, Mohawk and Wolverine companies. Eventually the Bigelow companies' production may be taken from the present agents, but not in the near future.

NOTES OF COPPER NEWS.

The Old Dominion company is following a conservative policy in the matter of dividends, but having built up a sufficiently large treasury surplus and cleared the balance sheet of all floating obligations, the stockholders look forward to a more liberal policy in the future. The property is in a hurry to increase production with a better metal market and is slowly getting the costs down so that when the advance in copper which everyone expects takes place, Old Dominion will make very satisfactory earnings. It is understood that the production of the Utah Copper for the current month will equal that of April, when it was approximately 5,500,000 pounds. This is at a yearly rate of better than 65,000,000 pounds, and it is believed that this rate will be continued, if not exceeded, as soon as the company can complete proper transportation facilities, such as the Denver & Rio Grande officials have apparently finally made up their minds to provide. It is claimed that with the increase in the production it has been possible to reduce the costs and that the product is now being turned out for little more than eight cents per pound. The fact that the price of Anaconda metal was but slightly affected by the death of its president showed in what good shape its affairs were. It is believed that Mr. Rogers held some 20,000 shares of Anaconda for investment. No change is apprehended in the policy of the management of the company and it is thought that John D. Ryan will be elected to fill the vacancy caused by Mr. Rogers' death. The properties are known to be in first-rate condition, as it was the Rogers policy to keep both the properties and the treasury of the company in a position where the best results could be achieved. With the larger demand for the metal it is expected that the production will be steadily increased from now on.

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., May 17th, 1909. An adjourned regular session of the common council was called to order at 8 o'clock p. m. by the mayor, the Hon. Daniel Vaughan.

Present—Aldermen Asire, Donovan, Downey, Ekstrom, Hennessy, Peters, Reichel, Schauer and Ward—9. The records of the sessions of April 30th and May 3rd, approved.

The following was presented and read: To the Common Council of the City of Marquette: Gentlemen—I hereby appoint to membership upon standing committees of the common council, as follows:

Alderman Peters in place of and as successor to Alderman Reichel upon the committee on Finance and Taxation. Alderman Peters in place of and as successor to Alderman Reichel upon the committee on Parks, Cemeteries and Sewers.

Alderman Reichel in place of and as successor to Alderman Peters upon the committee on Harbors. Dated: May 17, 1909. DANIEL VAUGHAN, Mayor.

The petition of H. F. Handford and nine others, requesting that a cement crosswalk be constructed across Front street under the bridge of the Duluth, South Shore & Atlantic railway, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The petition of H. H. Williams and six others, requesting that Ohio street between Spruce street and a point 400 feet east of Spruce street, be macadamized and provided with cement curbs, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The petition of the Visiting Nurse association, requesting the common council to construct and provide for and erect in "Washington Street Park" suitable outdoor gymnastic exercise apparatus, for the public use of children and young people, said apparatus to cost about \$400, was presented and referred to the committee on public buildings and property.

The petition of the Presque Isle Sanitary Association, requesting that Ohio street, east from Walnut street to the lake shore, be graded and macadamized so that they would be able to get to and from their places of business, and that notice to move be served on said association, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The following was presented and referred to the committee on finance and taxation: Marquette, Mich., May 6th, 1909. To the Honorable Mayor and Common Council of the City of Marquette: Gentlemen—You are hereby notified that at a session of the Board of Fire and Water Commissioners of the City of Marquette, held on May 6th, 1909, the following resolution was adopted:

Resolved, That this board does hereby estimate the amount of money required to be raised by tax during the ensuing year for this board, and directs that the same be reported to the council as follows: For fire protection account... \$7,200.00 For the payment of indebtedness (bonds due Jan. 1st, 1910)... 15,000.00 For other necessary expenses (salaries; salary of fire warden)... 300.00 \$22,500.00

Very respectfully, BOARD OF FIRE AND WATER COMMISSIONERS of the City of Marquette. By JOHN P. KERN, Secretary. The following was presented and referred to the committee on finance and taxation: City of Marquette. Office of The Park, Cemetery and Street Commission. Marquette, Mich., May 17th, 1909. To the Hon. Mayor and Common Council of the City of Marquette, Mich.: Gentlemen—At a special session of the Park, Cemetery and Street Commission of the City of Marquette, held on May 14th, 1909, the following resolution was adopted:

Resolved, That the estimated anticipated revenue from the property under control of this commission for the present fiscal year, for sale of lots in Park cemetery and privileges at Presque Isle park, is the sum of one thousand five hundred dollars (\$1,500.00); and

needed by them for the ensuing year is the sum of eighteen thousand dollars (\$18,000.00), exclusive of the estimated anticipated revenue, for the following purposes: For general repairing of streets, \$25,000.00 For concrete curbing and gutters, 3,500.00 For snowplowing, opening cutters, 1,500.00 For sprinkling streets, 2,000.00 For repairing bridges, cleaning sewers and catch basins, 1,000.00 For concrete corner walks, 500.00 For tools, 300.00 For administration, superintendent, 2,500.00 814,500.00 For parks and cemetery, maintenance, 3,500.00 Total, \$18,000.00

Resolved, That the president and secretary of this commission certify to the common council the adoption of this resolution. Respectfully submitted, S. M. JAMES, President. J. E. ANDERSON, Secretary.

The liquor bond of Emil Marin, surety company, was presented, and on motion of Alderman Hennessy, supported by Alderman Donovan, accepted and approved.

The committee on parks, cemeteries, streets and sewers submitted the following: Marquette, Michigan, May 6, 1909. To the Common Council of the City of Marquette: Gentlemen—I desire to construct a bay window upon the front of my new building now in course of construction at No. 139 West Washington street, said window to extend into the street from the second story of the building and not to exceed three feet in any part.

I respectfully request your permission to construct and maintain such bay window until such time as the common council shall revoke such permission. Very respectfully, FRED DONCKERS.

Pursuant to authority of the common council of the city of Marquette, permission is hereby given for the construction of the bay window above mentioned, said permission being subject to revocation at the pleasure of the common council. Dated, May 6, 1909. JOHN DOWNEY, P. J. DONOVAN, Committee on Parks, Cemeteries, Streets and Sewers, of the Common Council.

On motion of Alderman Ward, supported by Alderman Peters, the action of said committee was approved. The controller submitted the special assessment roll for the construction of a sewer in bluff street, from a point 17.5 feet east of the east line of Seymour avenue to a point 27 feet east of the east line of Lincoln avenue, for confirmation.

On motion of Alderman Ward, supported by Alderman Reichel, the following was adopted: Whereas, The recorder has given notice by publication in The Daily Mining Journal, a public newspaper of the city, that the common council would meet at this time and place for the revision, correction and adoption of the special assessment roll for the construction of an eight-inch tile sewer in bluff street, from a point 17.5 feet east of the east line of Seymour avenue to a point 27 feet east of the east line of Lincoln avenue; and

Whereas, All persons interested in said special assessment roll and the assessments therein having been given an opportunity to be heard in relation thereto, and all needed revision and correction of said roll having been made to the satisfaction of the council: Resolved, That said special assessment roll and the assessments thereon are hereby confirmed, and the same therein mentioned are hereby levied and assessed against said lots and premises respectively and the collection thereof is hereby directed.

Yes—Aldermen Asire, Donovan, Downey, Ekstrom, Hennessy, Peters, Reichel, Schauer and Ward—9. A Yeas—None. On motion of Alderman Downey, supported by Alderman Ekstrom, the following resolution was adopted: Resolved, That the Park, Cemetery and Street commission is hereby directed to locate the following improvements: 1. The construction of an eight-inch tile sewer in bluff street, from a point 17.5 feet east of the east line of Seymour avenue to a point 27 feet east of the east line of Lincoln avenue.

2. The construction of an eight-inch tile sewer in Division street, from manhole in Genesee street to a point eight feet north of the north line of Mesnard street.

3. The construction of a six-inch tile sewer in Alger street, from a point 62.5 feet east of the center of Lee street, thence west to the center of said Lee street, thence south 22.5 feet in Lee street.

Yea—Aldermen Asire, Donovan, Downey, Ekstrom, Hennessy, Peters, Reichel, Schauer and Ward—9. The mayor concurring therein. Yeas—None. On motion of Alderman Downey, supported by Alderman Schauer, the following resolution was adopted: Resolved, That the committee on parks, cemeteries, streets and sewers, together with the Park, Cemetery and Street commission and the superintendent of the same, are hereby requested to confer together and inspect the streets of the city, to the end that it may be determined what streets and parts of streets need extensive repairs and resurfacing, and the probable amount of money required therefor, and

Alderman Reichel in place of and as successor to Alderman Peters upon the committee on Harbors. Dated: May 17, 1909. DANIEL VAUGHAN, Mayor.

The petition of H. F. Handford and nine others, requesting that a cement crosswalk be constructed across Front street under the bridge of the Duluth, South Shore & Atlantic railway, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The petition of H. H. Williams and six others, requesting that Ohio street between Spruce street and a point 400 feet east of Spruce street, be macadamized and provided with cement curbs, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The petition of the Visiting Nurse association, requesting the common council to construct and provide for and erect in "Washington Street Park" suitable outdoor gymnastic exercise apparatus, for the public use of children and young people, said apparatus to cost about \$400, was presented and referred to the committee on public buildings and property.

The petition of the Presque Isle Sanitary Association, requesting that Ohio street, east from Walnut street to the lake shore, be graded and macadamized so that they would be able to get to and from their places of business, and that notice to move be served on said association, was presented and referred to the committee on parks, cemeteries, streets and sewers.

The following was presented and referred to the committee on finance and taxation: Marquette, Mich., May 6th, 1909. To the Honorable Mayor and Common Council of the City of Marquette: Gentlemen—You are hereby notified that at a session of the Board of Fire and Water Commissioners of the City of Marquette, held on May 6th, 1909, the following resolution was adopted:

Resolved, That this board does hereby estimate the amount of money required to be raised by tax during the ensuing year for this board, and directs that the same be reported to the council as follows: For fire protection account... \$7,200.00 For the payment of indebtedness (bonds due Jan. 1st, 1910)... 15,000.00 For other necessary expenses (salaries; salary of fire warden)... 300.00 \$22,500.00

Very respectfully, BOARD OF FIRE AND WATER COMMISSIONERS of the City of Marquette. By JOHN P. KERN, Secretary. The following was presented and referred to the committee on finance and taxation: City of Marquette. Office of The Park, Cemetery and Street Commission. Marquette, Mich., May 17th, 1909. To the Hon. Mayor and Common Council of the City of Marquette, Mich.: Gentlemen—At a special session of the Park, Cemetery and Street Commission of the City of Marquette, held on May 14th, 1909, the following resolution was adopted:

Resolved, That the estimated anticipated revenue from the property under control of this commission for the present fiscal year, for sale of lots in Park cemetery and privileges at Presque Isle park, is the sum of one thousand five hundred dollars (\$1,500.00); and

If you must dream cultivate the dollars, too. They will add substantially to your satisfaction.

A LAUGH OR TWO.

A High-Class Kicker.

Sir Charles Wyndham (speaking at a dinner) told of a young man he once heard of who was paying attention to a lady to the great disgust of her father, who remonstrated very kindly with him. The father said, "If I see you in the house again I shall kick you out." The young man came back the very next day. "I told you what would happen," said the father, and it did happen. The young man did not appear for about five weeks, and then one day the father saw him coming toward the house, and immediately went and opened the front door. "Haven't you had enough?" said the old man. "Have you come again to see my daughter?" "No, no," replied the other. "I have come on behalf of the president of our football club."—London Telegraph.

Hope Springs Eternal.

He was addressing a crowd one Sunday morning on the quay at Newcastle. "I can safely say that no man ever attempted to bribe me, gentlemen," said the speaker. "Don't be down hearted, old chap, your luck may change," shouted a man in the crowd.—FT-Bits.

They Didn't Get Buttermilk.

Joe Barr, Second District member of the Republican state committee, has been down in Alabama where the people enjoy prohibition. Barr stopped in Indianapolis last week on his way home. "I think the got Indiana mixed with Kentucky," said Barr. The committee-men and an Indiana friend were walking on the streets of an Alabama town and noticed a sign "Near-Beer." A man, evidently the proprietor of the place, stood in the door. "Look here," said Barr's friend, "haven't you got something here that's a little bit near the beer?" "What' ah you all frum, sah," inquired the man. "Well, sah," said the native, "if you all come from Indiana you want something a whole lot stronger than beer. Come right in, sah."—Indianapolis Star.

LOVE'S SUPREME TEST.

"Darling, I have something to tell you." As she spoke, the young and beautiful girl looked searchingly at her lover. "Are you prepared," she murmured "for the worst?" "Yes, dear." "Before we can be married it will be necessary for you to submit to a test. Next week there will be in our house a family reunion. You must be present. I will question me closely about my religion, my habits and my prospects?" "They will?" "Also an uncle, one of the familiar, common kind, who will wish to know about the cost of my clothes, what my salary is and how many cigarettes I smoke a day?" "Certainly." "A cousin or so? The kind who will test my sense of humor, and make sad remarks to your mother and father?" "Naturally." "Will I be asked to read aloud?" "Probably."

SPECIAL NOTICE The Dazantella Havana Cigar

Is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water in his table, and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO. Grand Rapids, Mich.

TOWN IS SINKING.

West Pittston, Pa., Totters Over Caving in Mines.

Is the Penalty of Nature for Robbing the Pillars in the Colliers—Homes of Coal Operators Among Those Threatened by Widespread Dropping of the Earth

West Pittston, Pa., May 25.—This is a city doomed. It is slowly, fearfully, surely dropping into the bowels of the earth. It isn't that vice and iniquity is dragging it down. West Pittston is a beautiful residence community, the richest town for its size in all this great anthracite region—cleaner, morally, than most towns. It is sinking literally. The mines below the city are caving in.

In many parts of West Pittston the drop has been five inches already, appearing in the pavements, the grave stones of the cemetery—as dread omens of the end that is to come—are tipping. At the rate the town is now sinking, it will drop another foot before New Year. It will keep on dropping, says experts—until the houses are leaving the ground. Finally, some day, son, the bottom will drop from beneath the whole city. That will be the end of West Pittston.

Result of "Robbing the Pillars."

This is the rich mine operators' own city—they live here. They picked it out, the only undespoiled spot in the valley, to build homes for their wives and children. But they couldn't resist the temptation to mine under it. Nor after that to rob the pillars. "Robbing the pillars," is peculiarly a Pennsylvania thing. It means that after the coal has been stripped away, leaving only pillars of earth and coal to support the roofs—that you get busy then and take the coal of the pillars. In a dozen cities for seventy miles along the river valley the pillars have been robbed, the earth sinking, the houses are caving in at West Pittston with dismay and fear.

In this emergency the rich operators are in a quandry. If they make any move they may draw down the fire of legislative enactments forbidding pillaring in the future, which will cut into their fat dividends. If they don't move they will lose their homes. Of course they have poor people in West Pittston, merchants and small taxpayers. They stand to lose their homes, too. The sinking was first noticed in the yard of the Vulcan iron company's plant on the river bank. The walls of the buildings began to crack. The ground settled, first one, then two, three, four, five inches.

How Town Is Going Down.

In a day or two the fissures began to crop up in the heart of the town. The Methodist church foundations shifted. The Warren street school suddenly fell out of plumb. Brick pavements began to crack. The operators, stirred by popular outburst, sent three state mine inspectors and a bunch of their own experts into the Clear Spring colliery, whose workings honeycomb West Pittston below streets. These reported that "there is no more danger of sinking." But this didn't stop the sinking.

Permits Ten-Round Bouts.

Madison, Wis., May 25.—The assembly tonight passed a bill permitting ten-round boxing bouts in Wisconsin. The measure now goes to the senate.

Englishman Out-Fights Welsh.

Boston, May 25.—Eddie Welsh of England out-fought and out-classed Phil Brock of Wales in a two-round bout here tonight. In no round did the Ohio boy have any advantage, although he put up a hard fight throughout.

Columbus, O., May 25.—Cyclone

Thompson of Chicago and Ray Bray of Indianapolis boxed six rounds tonight. No decision was rendered. Thompson had much the better of the bout.

American Golfers Defeated Abroad.

Edinburgh, May 25.—T. G. Stevenson, of Boston, the only American left in the amateur golf championship contest after the defeat yesterday of Jerome D. Travers by W. A. Henderson, was eliminated today when he was defeated by J. B. Pease, three up and two to play.

HIT INSURANCE COMPANIES.

Two Important Measures Are Passed by the House at Springfield.

Springfield, Ills., May 25.—Two important insurance measures passed the house today practically by unanimous vote. One of them prohibits the underwriting of all pool teams and agreements which regulate or fix rates. Its violation is punishable by the revocation of the charter and by a fine of \$500 to \$1,000 or one year's imprisonment, or both. The other requires fire insurance and other companies organized outside the state to file a bond of \$40,000 with the state superintendent of insurance for the payment of all claims against them. The senate bill embodying the commission form of government for cities was considered this afternoon by the

CHICAGO GRAIN MARKETS.

Chicago, May 25.—May corn sold today at 77 1/2¢, and the July at 71 1/2¢, both being new high record marks. With the exception of a brief period at the start, the market was strong all day, owing to persistent buying of shorts based on the decided falling off in the acceptances from the country. The more deferred futures were somewhat neglected. The market closed strong for the May and the July and about steady for the other months. The July opened at 70 1/2¢; highest, 71 1/2¢; lowest, 70 1/2¢; closing, 70 1/2¢.

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows: "The tone of the list today was undecided, with activity on a moderate scale and a disposition on the part of traders to refrain from committing themselves to any extent, in view of the dull outside interest. Attention was directed to the bond market, and the most favorable feature of the situation continues to be the ease with which new flotations are placed. A great many of these traders formerly arrayed on the bull side are said to have liquidated their lines and are awaiting an opportunity to replace same, but recent drives have failed to dislodge much long stock. A period of dullness is likely to be witnessed, but it seems to be the consensus of opinion in good quarters that higher levels will prevail in the near future, for the standard issues and pool operations are likely to be the feature as long as money continues easy."

#### MINING COMPANY HELD MEETING

**NEW STREET WORK.**  
Committee Decides to Repair Seven Thoroughfares This Season.

The committee on streets and highways and board of public works have decided to rebuild portions of seven thoroughfares, all of which were inspected Monday. Prior to the inspection, the superintendent of the board made an estimate of the probable cost of the several jobs, also the number of feet of surface to be covered, together with the number of lineal feet of curbing and gutters to be put in. The estimated cost is less than \$10,000, or something like \$1,000 less than was expended for new work last year. The total cost of building the several streets gone over last summer was \$107,583.65.

The streets to be repaired this year are:

Third street, from Vine to Park, and the total number of feet of new work will be 1,205. There will be 2,700 lineal feet of curbing and 1,320 feet of gutters.

Empire street, from Third to First, 665 feet; curbing, 1,320 feet; gutters, 200 feet.

North street, from York to Third, 200 feet; 400 feet of curbing, 430 feet of gutters.

Ely street, from Lake to First streets, 1,200 feet; 2,600 feet of curbing and 332 feet of gutters.

Spence street, from Enclid to Ridge, 400 feet; 800 feet of curbing; 800 feet of gutters.

Euclid street, from Lake to Spruce, 345 feet; 790 feet curbing and 600 feet gutters.

The total number of feet of work on the old streets will be 5,325; of curbing, 10,480; of gutters, 5,532.

Last year the total number of feet of new streets built was 10,425. The work was confined to eight thoroughfares, including First, High, North Main, North Lake, Pearl, South Pine, Washington and Greenwood streets.

On South Pine street, where 4,161 feet of dressing was spread. On Greenwood street 2,200 feet of work was done. The work to be done this year will cost more per foot than that of last year on account of the necessity of repairing old and the use of more gravel. All of the streets to be overhauled this year will receive new foundations of stone and gravel. In addition to the new work done last year, 6,600 feet of repair work was completed and a total of 2,274 lineal feet of rock guttering was put in. The total lineal feet of curbing put in last year was 4,192.

A. G. Johnson, 612 Morris street, has installed a gas range. (5-26-11)

**FROM MORGAN'S CURB LETTER.**

"North Butte was the feature of an otherwise dull market, opening around 38. The low figure reached today was 52½, advancing in the late trading to 57½. The undertone of the market continues strong, and with any public interest, which is now lacking, it would develop into a big bull market. Ray Cons, was the most active among the cubs, and sold at 18, a gain of two points. Ray Inspiration was both fractionally higher. Cactus and Chief was in good demand, but practically unchanged. Recent economies and improvements at Greene-Canaan make it evident that the property will be producing at the rate of 70,000,000 pounds of copper before the end of the year at a cost of nine cents a pound. This would indicate \$1.50 a share on a 15-cent copper market. The United Metals Selling company has advanced the price of electrolytic copper to 13½ cents a pound. So far this month the company has sold 100,000,000 pounds of the metal. The New York Metal exchange quotes copper firm; Lake 12½, up ½ in the bid price; electrolytic 12½ to 13½, up ½ in the asked price, and castings 12½ to 13, up ½ in the asked price. Copper quotations are today a shade firmer, in sympathy with the rise in London. There has been spirited bidding for copper for delivery in the last half of the year by consumers who wish to satisfy their requirements for that period. One selling agency received a bid of 12½ cents for electrolytic copper, calling for delivery at stated periods from July 1 to Dec. 1. The selling agency declined the offer, notwithstanding that the price was a quarter of an ounce above current quotations. It is stated that the 200-foot levels of the Butte Coalfield throughout the Gora, Minnie Healy and Rarus are showing some very rich ore."

**BACK FROM HOMESTEAD.**

Ishpeming Man Likes New Farming District in South Dakota.

Hokan Peterson, who was one of the 4,000 people who were lucky enough to draw a homestead in the Indian reservation in Tripp county, S. D., last fall, has returned to Ishpeming. He and Carl E. Keck, Milwaukee; Matt Haupt, Houghton; C. W. York, Detroit; E. G. Delane, W. M. Noon, Morgan Jopling, A. F. Koepeke, Marquette; Conrad Born, Columbus, O.; K. J. Bemis, Jamesville, O.

Philip Sforham, 719 High street, has installed a two-burner hot gas plate. (5-26-11)

F. BRAASTAD, Pres., A. B. MINER, Cashier, H. O. YOUNG, Vice Pres. O. G. AAS, Ass't Cashier, GEO. HATHAWAY, 2nd Ass't Cashier.

**BALL TEAM ORGANIZED.**

The Eagles baseball team has been organized for the season and the management is prepared to arrange games with any team in the county outside of those playing in the Marquette-Alger county amateur league. Several of the players who played on the league team early last season are members of the nine, which is composed of the following: Will Johns, catcher; Charles Cornish, pitcher; Joe Martin, first base; Ed. Manley, second base; E. Wolliver, third base; R. Johns, short stop; Sid Harvey, George Johnson, J. Anderson and Axel Makki, fielders. The team expects to play its first game next Sunday with the Young Settlers or the Centrals.

**ROWETT TRAINING HARD.**

John Rowett, the well known Cornish wrestler, who is matched to meet Joe Zeitz at Calumet June 12, in a contest, best two falls in three, has written William Harrington, the game wrestler, that he is in good condition, and that he expects to put up the match of his life. He is putting in considerable time training and is running several miles every day, as well as wrestling with the best men he can find. He assured Mr. Harrington that the match is strictly on its merits and that the best man will win.

**FAMOUS BAND COMING.**

Prominent Finnish citizens of the city have succeeded in inducing the famous Finnish band of Red Lodge, Mont., to come here. The band will also visit some of the copper country towns. It is expected that the band will give a concert here on the evening of July 17.

**ISHPEMING IN BRIEF.**

D. T. Morgan and wife have returned from Lansing, where they spent the winter.

John Kilbride of the concrete contracting firm of Kilbride & Son is in the city.

Concrete walks were completed yesterday. A. C. Braastad's new home on High street. William Treiblock did the work.

Frank P. Neeham of the Ishpeming Steam Laundry is spending a few days with his brother Fred in the copper country.

H. H. Mildon is making a number of improvements at his dwelling, corner of North Main and Ridge streets, among them being concrete sidewalks and concrete floor in the basement.

The Uniform Rank, Knights of Pythias, has issued invitations for its third annual military ball, to be given in Braastad's Hall on next Monday evening, the 31st. Tickets will be \$1 per couple, including refreshments.

Anton Clifton, the street commissioner, has issued the following notice: "All persons are hereby notified to clean the premises adjoining the premises occupied by them, on or before the first day of June, 1909, and in default thereof the ordinances made and provided and relating thereto will be strictly enforced."

Ernie Burke, who played on the Sault Ste. Marie baseball team last season, is in the city. He has had offers of positions both here and in Negaunee and is as yet undecided which he will accept. Mr. Burke was third pitcher on the Sault team and when he was not in the box field a field position. He played with some strong teams in Canada before locating at the Sault.

John R. Collins and son, former residents, are here from Iowa to remain a short time. Mr. Collins owns a forty-acre tract in the mineral district on the Swaney range and since the mines have been opened up there he has received several offers for it. He came here last year with a view to selling it to one of the mining companies but the deal fell through. It is possible that he will dispose of the land before returning. Mr. Collins left there some twenty odd years ago.

**PHILIPPINE SCOUTS.**

**Present Management of the Native Troops Attacked.**

**Force Is Losing Its Mobility, Captain Taylor Declares—Imported Food and Clothing an Error.**

Washington, May 24.—Asserting that the Filipino scouts have been pampered by the Americans until they are no longer what they were intended to be—a mobile fighting force—Captain John R. M. Taylor, Fourteenth United States Infantry, attacks our management of the native troops in an essay on "A Filipino Army" in the May Journal of the United States Infantry Association. After showing that we have subsisted the American soldiers in the Islands on imported provisions, he says we have still further complicated the problem by feeding 5,000 Filipino scouts with food none of which is produced in the archipelago. We have replanted artificial tastes which have now become necessities. With ice plants to keep beef in cold storage, with the heavy pot ranges on which they are learning to cook, with all the rest of the furniture which makes them as hard to supply as the regulars, their mobility has been destroyed and the chief argument for their existence is removed.

When a man has always gone barefoot his marching ability is reduced by crowding his feet into shoes. When he has never owned a pair of stockings and has never felt the want of them, it does not increase his mobility to supply him with woolen ones from the United States, when he lives in a country where the thermometer never falls below 70 degrees. It is hardly worth while to import blankets from America for the use of a man who has always slept on a grass mat. There was a time when this kind of man had nothing and depended hardly more than the man they were pursuing during the insurrection, but now in time of peace we have trained them for future war by teaching them to regard as necessary to their existence everything that impedes the movement of an American force in the tropics. The statement that the Filipino force is a cheap force, the essayist says, is based on an error in computation. It is true that the money value of the ration of the scout is seven cents less than the garrison ration of the American soldier, but if the cost of transportation is added in the difference is not so important.

In the event of war with a power having any strength on the Pacific, importation would be impossible or very difficult, and Captain Taylor maintains, "An American army cannot be fed from the food found in the archipelago. If dependence is to be placed upon a native army in such an emergency, it should be trained to subsist on the country, but we have taken just the opposite course and nullified whatever good might have come out of a native force. The proposal to raise nine regiments of different tribes, to be expanded in case of war to eighteen, Captain Taylor regards as chimerical. The Spaniards tried it. They had been assured of the loyalty of the natives, but history tells how that confidence was betrayed. "Are the Americans so much more beloved than the Spaniards?" asks the essayist. The loyalty of the troops now enrolled would be to their commanding officer rather than to the United States.

If the Philippines are to be held by the Filipinos for the United States in time of war, new levies will be necessary, but would it be expedient to raise them? Captain Taylor's reply is, "No, sir." Making a liberal allowance, two Filipinos are credited with being as good in battle as one American, an allowance which any soldier who has fought them will say is ridiculously high. Then the cost of maintaining 5,000 Filipinos would equal that of maintaining 2,500 American soldiers. The scouts will draw \$2,000,000 from the appropriated fund for the quartermaster's depot. Add to that

\$300,000 for subsistence, \$50,000 for ordnance and equipment, \$60,000 for ammunition for target practice, and it will be seen that "the United States pays \$700 a year for every rifle it can put on the firing-line in the hands of a Filipino soldier, and the tendency of cost is steadily upward."

If the islands are turned over to the natives for independent government, the 5,000 scouts would have a hard future. No Filipinos are being trained to command them. No government thrown upon the resources of the Islands could support them, and yet, says Captain Taylor, "it is proposed to increase them to 12,000!"

If political or sentimental reasons demand the employment of Filipinos as soldiers, Major Day advocates placing them in regular infantry regiments. Then if the race can be made into soldiers, it will be done.

### LOCAL MEMBERS OF O. R. C. WELL PLEASED

ACTION OF NATIONAL CONVENTION GRATIFYING TO SOUTH SHORE CONDUCTORS.

### M. F. LLOYD WAS EXPELLED

Bonding Company Detective, Who Is Alleged to Have Used Unfair Methods, Ousted from Membership.

South Shore passenger train conductors were much pleased to hear this week that M. F. Lloyd, an ex-conductor on the Rock Island railway, who for several years has been in the employ of a surety company as a "spotter," had been expelled from the Order of Railway Conductors at the national convention, held at Boston last week.

Lloyd was at one time at the head of the conductors' organization on the Rock Island, but resigned his position to accept a detective position with a surety company which furnishes bonds for many of the conductors. He became familiar to the conductors of the South Shore three years ago, and his methods of plying his trade were such that he has no friends among the local ticket takers, and ever since his visit to the upper peninsula they have been trying to get him expelled from their organization, which, at last, has been accomplished.

Three years ago next month a detective made his appearance along the line of the South Shore and in a short time presented a bill of complaints to the management, which resulted in a half dozen or more of the conductors of the road being discharged. Some of their fellow conductors believed that the charges of irregularities were false and made a thorough investigation. A conductor stated yesterday that they found such to be the case, as on several dates, when the "spotter" testified he was out on the road, spying on a conductor, he was found to be registered at different hotels along the line and not out on a train at all.

#### Unfair Methods Used.

The methods used by this detective also were considered unfair, and when the charges were preferred, feeling rather high against him that it was deemed safer to send Mr. Lloyd to make the charges than the man who alleged that they were true. It was rumored that the conductors were "laying for" Mr. Detective, and the rumor is not denied by those best qualified to know.

As has been said before, several of the conductors were "fired" as the result of these charges preferred by Mr. Lloyd, but when the falsity of some of

them was made evident to the management, two of the discharged men were reinstated, and they were paid for the six weeks they had been laid off. The South Shore conductors are now bonded by another company.

But before Mr. Lloyd left the country, he essayed to do a little detective work himself, and it was then that he got in mighty bad with the South Shore conductors. He is said to have posed to the trainmen as a fellow conductor in hard luck and by so doing wormed out many secrets of the trade and obtained courtesies that could not have been obtained otherwise. On one occasion it is said that he even used the cloak of Masonry to find out certain things that he wished to know. These methods were considered breaches of confidence, both to the conductors and to the order to which all belonged, and the South Shore members of the O. R. C. went after his scalp.

At a convention in Nebraska, they failed to get Lloyd expelled from their order, and again at the national convention held at Memphis last year. This year the convention met in Boston and Robert Clemenson, the South Shore delegate, is said to have been instructed to make another effort to secure the expulsion of Lloyd. The news that he had accomplished his mission was received with joy by all the South Shore trainmen who were unfortunate enough to make Lloyd's acquaintance three years ago.

### TURKISH BATHS AND CHIROPYD. Frank Keough, 123 W. Ridge St., Marquette. GEORGE DE GROAT TO LEAVE.

Wellknown Flour Man to Locate at Syracuse, N. Y.

George DeGroat, who has represented the Washburn Crosby Flour company in this territory for a number of years past, with headquarters in Marquette, will leave the city the end of the week for Syracuse, N. Y., where he will represent his home in important Eastern territory. In his new territory his business will be principally with wholesalers, and the post he will fill will be a more important one than he has had in this country. The promotion was earned by his good work.

Mr. DeGroat's departure for the East will be regretted throughout the upper peninsula, as he is one of the best known and most popular traveling men in the territory. He is one of the best amateur billiard players in the Northwest, and his performances on the billiard table have been observed with great interest by his friends. He has been a leading member of the Upper Peninsula council of the United Travelers' association.

Dance at Legion Hall tonight. Music by Peerless orchestra. All invited. (5-25-1d)

### AGAIN DELIGHTED HEARERS.

Roney's Boys Gave Varied and High Class Concert Last Night.

"Roney's Boys" gave another of their famous concerts at the Guild Hall last evening, which was fully as enthusiastically received as those of former years. Although the personnel of the company is continually changing by the boys reaching the age when "change of voice" takes place, Mr. Roney seems to be able to find other youngsters equally proficient in music to take the places of those that are compelled to leave the company.

This year the company consists of five members, all of whom have strong, well-trained, and well-rounded-out voices, several of whom are equally good instrumental musicians. Arthur Vanasse proved to be a violin artist of rare attainments, and with his perfect command of his instrument, took the audience by storm. Harold Geiser, in his trombone solos, received enthusiastic and deserved applause.

The program consisted of well-known classical and semi-classical numbers, many of which were rearranged, and especially adapted for the company. The trompe, one and all, sang true and with remarkable interpretation and shading. Many of the chorus numbers were sung with the boys appropriately costumed, which added materially to the pleasing effect of the selections. A fair-sized audience was in attendance.

### SCHOOL MONEY RECEIVED.

County Treasurer Has \$69,795 on Hand for Distribution.

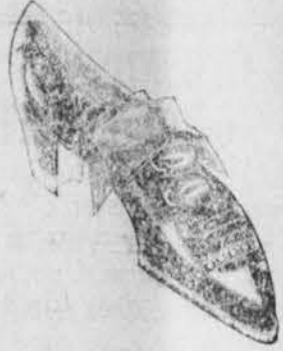

County Treasurer Grizzle has received Marquette county's apportionment of the state primary school money, based on last year's enumeration at \$5 per capita. The total amount received for distribution is \$69,795, apportioned among the various cities and townships as follows:

	Pupils.	Am't Rec'd.
Champion	508	\$ 2,540
Chesday	253	1,265
Ely	160	800
Forsyth	442	2,215
Humboldt	141	705
Islepeing	115	575
Islepeing city	3,911	19,555
Marquette	58	290
Marquette city	3,200	16,000
Michigan	251	1,255
Negaunee	41	205
Negaunee city	2,562	12,810
Powell	130	650
Republic	4,483	22,415
Richmond	279	1,395
Sands	39	195
Skandia	162	810
Tilden	503	2,515
Turin	51	255
Wells	49	245
West Branch	122	610
Total	13,974	\$69,795

CARPETS, RUGS, LINOLEUMS, LACE CURTAINS AND DRAPERIES.
