

ZEPPELIN MAKES MARVELOUS FLIGHT

In a Voyage That Lasts Many Hours, Germany's Famed Aerial Navigator Breaks All World's Records for Dirigible Balloons.

Berlin, May 30.—Count Zeppelin today accomplished the most striking feat of his career, guiding his airship, the Zep-1, from Friedrichshafen in Bitterfeld, more than 456 miles, without landing. The journey lasted twenty-four hours, and Count Zeppelin tonight is still in the air, on his return journey. He already has beaten all records for dirigibles.

It was announced that the count would come to Berlin and land on the Tempelhof parade ground. A vast crowd gathered there this afternoon. The emperor and empress, the princes and many officers were present. Searchlights were kept at work in anticipation of the approach of the airship until 10:30 o'clock when the count returned to Friedrichshafen.

The voyage began last night. Early this morning the people of Friedrichshafen, in central Bavaria, saw the craft pass over them. Count Zeppelin continued towards Berlin until he reached the frontiers of Saxony, where the airship headed for Leipzig, but instead of landing the count put the craft through a series of maneuvers and then proceeded to Bitterfeld. To everybody's surprise the airship there turned and sailed southward.

DEATH DUTIES A BONANZA. England's Exchequer Gets \$11,500,000 from Charles Morrison's Estate.

London, May 30.—Death has again provided the chancellor of the exchequer with what he styles an "unsuspected bonanza." As a previous article has briefly stated, Charles Morrison, an eccentric bachelor, is dead and Mr. Lloyd George has been agreeably surprised to learn that Morrison was probably the richest man in England as he left \$60,000,000.

Charles Morrison's death proves that England is an ideal place of residence for retiring millionaires. His name was probably not known to 800 people and it appeared in the newspapers scarcely a hundred times during his ninety-two years of life. In many ways he was the counterpart of Chicago Smith.

But while England is an ideal residence for modest millionaires it is a bad place for millionaires to die in, especially under the new revised budget which shows no mercy to the "indecently rich." The British government will take from Morrison's gigantic fortune \$11,500,000 as death duties and succession tax which latter is the new tax.

The record for death duties in England was established by Chicago Smith's estate, but the Morrison estate nets the government double that of Smith's.

Other Large Estates Pay. Two other large estates have also contributed heavily by death duties to the treasury during the past week. Sir Donald Currie's will was probated and showed that the shipbuilder left \$11,000,000 and the treasury takes \$1,300,000 death duties, and Frederick Goringe, a merchant, left over \$3,000,000 from which the treasury takes \$525,000.

PRESIDENT TAFT WILL GIVE SIGNAL

With Seattle as Their Goal, Ten High-Powered Automobiles of American Manufacture Will Depart from New York Tomorrow.

New York, May 30.—Under the auspices of the Seattle Automobile club and of the Alaska-Yukon-Pacific exposition, which is to open its gates on June 1, ten high-powered automobiles of American manufacture will leave New York next Tuesday on a 4,000-mile transcontinental speed and endurance contest which has the exposition city as its final goal.

The start is to be made at 3 o'clock in the afternoon from the front of the city hall, with Mayor McEllan officiating as starter. A special wire connecting the White House at Washington with a special stand on the steps of the New York municipal building will transmit the word to start from President Taft to Mayor McEllan. The same button which the president will press to throw the Seattle exposition open will tick the hour of the start of the ocean-to-ocean contest.

Speed Laws to Be Observed. The race promises to be a huge success in point of general public interest in order to guard against violation of the speed laws of the various states through which the contestants will pass, the Automobile club of America, under whose sanction the run will be held, has arranged to have one of its representatives act as pacesetter between New York and Kansas City. Beyond Kansas City there will be no restrictions as to speed and the contestants may roll off the miles at top notch.

The prizes offered for the contest consist of a \$2,000 trophy given by Robert Guggenheim and a \$2,000 cash prize for the first car reaching Seattle. The car which finishes second will receive \$1,000 and the runner-up \$500. The prize for the first car to reach Seattle will be given to third, \$500 to fourth and \$300 to fifth. Owing to the opposition encountered by those in charge of the contest from the American Automobile association and manufacturers, the contest committee is still doubtful just which cars will participate. The latest list of entries consists of two Stearns, two Fords, an Aime, a Franklin, Welch, Thomas, Züst and Franklin. There is also a party of the list being revised at the last minute.

Flange Wheels Tabooed. As the strain of driving a car continues to grow in Seattle, it is not to be too great for one driver, any member of the crew of a contesting car who shall have ridden in that car continuously from New York may drive. There will be no observers on the cars. The technical committee of the Automobile club of America will stamp each car before departure. Contestants will be allowed to replace without penalization, twice during the contest, the front and rear axles, the engine base and cylinders and the transmission case and steering gear. These parts must be stamped by the committee before the contest, however, and held in reserve at Chicago and Cheyenne, Wyo., where they will be in charge of an official appointed by the Automobile club of America. No contestant can carry on his car or use at any point during the race wheels equipped with flanges suitable for traveling on railroad tracks.

It is not expected that the race will furnish any degree of excitement until St. Louis is reached, as between New York and that point the journey across the continent is to be made by comparatively easy stages. The schedule, when according to the rules governing the contest must be rigidly observed, calls for a run of twenty-three miles on the first day, 207 the second, 150 the third, 295 the fourth, 244 the fifth and 283 the sixth, with a rest of twelve hours between each stage. Beyond St. Louis, however, the drivers may stop over night or not, as they see fit, and any speed of which their motors are capable is permissible. It is in this stretch through Kansas, Colorado, Wyoming, Idaho, Oregon and Washington that the real race is to be run.

The itinerary to be followed is from New York to Poughkeepsie, where the first night's stop will be made; thence to Syracuse, the second stopping point by way of Albany and Fond du Lac, where the contestants are expected to make Buffalo at 5 o'clock that afternoon, passing Rochester en route. The next stage, from Buffalo to Toledo, is more

arduous and calls for the maintaining of a ninety and three-quarter miles per hour average for fifteen hours. Beyond Toledo the route is by way of South Bend, Chicago and Bloomington to St. Louis, which will be reached by midnight of June 7. From St. Louis the itinerary takes in Centralia, Kansas City, Manhattan, Ellsworth, Oakley, Denver, Cheyenne, Rock River, Wausau, Granger, Leavelle, Bliss, Boise, Walla Walla, Pendleton and Seattle.

A number of the prospective contestants have expressed the opinion that the winning car will reach Seattle in less than four weeks, but the belief generally prevailing is that at least a full month will be consumed.

GAME GETS A RESPIRE. Many Skins Not Yet Packed, "Teddy" Suspends Operations Awhile.

Nairobi, May 30.—Colonel Roosevelt attended church today. He has delayed his departure for Kivu forty miles north, until June 3, because the skins of many of the animals shot have not yet been packed.

Mr. Roosevelt, who is staying in the town house of George McMillin, is occupied in literary work. Among other things, the former president is writing on a book.

HITS RACE SUICIDE. Illinois Law Gives the Stork a Footing in Apartment Houses.

Springfield, Ill., May 30.—The legislature has passed a bill declaring void leases which prohibit children in apartment houses. The governor will sign the measure.

SVANBERG IS VICTOR IN MARATHON RACE With Johnny Hayes Second, Sweden's Champion Runner Wins Honors at Chicago—A Blister on the Foot Forces St. Yves to Quit and Longboat Is Overcome by Heat Early in the Contest.

Chicago, May 30.—John Svanberg, Sweden's great long-distance runner, won the great international Marathon derby at the South Side ball park yesterday afternoon. With a magnificent dash at the close he finished the long course in 2:41:15. John Hayes was second and Fred Appleby, Chicago's ex-athlete, was third.

The two favorites in the betting, Henry St. Yves and Tom Longboat, did not finish. St. Yves, the fleet French runner, met his Waterloo in a blister that formed on his foot after he had run fifteen miles. Longboat was overcome by heat early in the race.

The record for the Marathon race is 2:24:24, held by Longboat. St. Yves' time in the New York Marathon last April was 2:40:33 3/5. Svanberg finished eighth in the London Olympic Marathon.

St. Yves' brilliant race ended in the sixteenth mile. A bad blister which had formed on his left foot and broke was the cause of his leaving the contest. The little Frenchman fell in his tracks just as Svanberg, who had been rapidly gaining, doubled past him. First it was thought the two runners had collided, but this was incorrect.

St. Yves' trainer lifted the little runner to his feet and he staggered back into the race only to again, a few minutes later, be wrapped about the neck and St. Yves essayed another attempt, but gave up after running three yards and limped disconsolately to the club house.

Longboat's withdrawal was due to his being overcome by heat as the result of an old sunstroke suffered two years ago.

WINS IN TWENTY-THIRD ROUND. Lightweight Champion Bat Nelson Stops Dick Hyland in Hard Battle.

San Francisco, May 30.—Battling Nelson retained the lightweight championship of the world yesterday afternoon at the Coliseum arena by knocking out Dick Hyland of this city in the twenty-third round.

It was a grueling fight throughout, both men taking a great amount of punishment. Nelson, however, proved to be the more rugged of the two and gradually wore his man down with crushing body blows. It was a left hook to the stomach that finished Hyland at the close of the twenty-third session.

THE WEATHER.

Washington, May 30.—The following is the weather bureau's forecast for Upper Michigan: Showers, Monday and Tuesday; moderate variable winds.

USED AS A DUMMY. Indianapolis Man Is Missing Bank Employee's Alleged Accomplice.

Indianapolis, May 30.—Asked this afternoon to explain an account to his credit in the Captain National bank, Harry C. Prinzler, according to the bank officials, confessed that he had been used as a dummy by Max P. Emmerich, one of the bank's bookkeepers, who is missing with an alleged shortage of about \$10,000 on his books. Prinzler's confession included statements concerning Paul Gall, who was arrested Saturday evening as an alleged accomplice of Emmerich. Prinzler was arrested and gave a bond of \$5,000.

BASEBALL.

STANDINGS OF THE TEAMS. National League. W. L. P.C. Pittsburgh 24 12 667. Chicago 22 15 605. Philadelphia 22 15 531. Cincinnati 18 20 474. New York 15 17 469. Brooklyn 15 17 469. St. Louis 17 21 447. Boston 11 23 342.

American League. W. L. P.C. Detroit 24 12 667. Philadelphia 21 12 636. Cleveland 22 15 598. Boston 17 16 515. St. Louis 16 18 471. Chicago 15 20 429. Cleveland 15 20 429. Washington 9 24 273.

American Association. W. L. P.C. Milwaukee 27 14 659. Louisville 24 19 581. Columbus 22 22 508. Minneapolis 19 20 487. Indianapolis 20 23 465. Kansas City 17 21 447. Toledo 18 23 439. St. Paul 16 21 432.

SCHEDULE FOR TODAY.

National League. Philadelphia at New York. Brooklyn at Boston. Chicago at Cincinnati. St. Louis at Pittsburgh.

American League. Detroit at Chicago. Cleveland at St. Louis. New York at Washington. Boston at Philadelphia.

YESTERDAY'S GAMES.

National League. Chicago, May 30.—Three battery errors helped the visitors to three of their five runs in the first game, and Willis outpitched Pfeister in the second.

Score: R. H. E. Chicago 4 10 3 0 0 0 0 0 0 0 0 4 8 1. Pittsburgh 3 9 0 1 1 0 0 5 7 0. Batteries—Overall and Moran; Leever, Gammit and Gibson.

American League. Chicago, May 30.—Detroit won a hard-fought game, the locals obtaining their only run at the finish.

Score: R. H. E. Chicago 0 0 0 0 0 0 0 1 1 5 3. Detroit 1 1 0 1 0 0 0 1 3 6 2. Batteries—Smith, Sullivan and Payne; Summers and Schmidt.

American Association. Toledo, 12; Louisville, 4. Columbus, 4; Indianapolis, 3. Kansas City, 3; Milwaukee, 1.

SATURDAY'S SCORES.

The games played Saturday resulted as follows: National League. Philadelphia, 3; New York, 2. Brooklyn, 4; Boston, 1. Second game: Brooklyn, 4; Boston, 1. Chicago, 8; Pittsburgh, 3. St. Louis, 4; Cincinnati, 2. Second game: St. Louis, 2; Cincinnati, 11.

CHLOROFORM KILLS A CHICAGO WOMAN

Doctor's Wife Is Found Dead and Husband Lays the Crime to Robbers—Police Are Skeptical, However, and When They Find Missing Loot in His Own Pockets, They Lock Him Up.

Chicago, May 30.—The wife of Dr. Haldrane Clemenson was found dead in bed from the effects of chloroform poisoning this morning. Her husband, who discovered the body and says he is suffering from the effects of chloroform, is held by the police. Clemenson insists that they both were victims of robbers who chloroformed them while they ransacked the apartment. The apartment contained silverware and jewelry. A search disclosed that everything excepting some spoons and money were in Dr. Clemenson's pockets. Clemenson, according to the physicians, showed little effects of chloroform poisoning.

The man graduated from the University of Iowa in 1902 and later took a course in the Hahnemann Medical college here. He has practiced a year. His wife was in bed.

Policeman Kills Suspected Crook. Chicago, May 30.—A career of highway robbery and running battles with two policemen last night was disclosed today by the arrest of Ernest Halvorsen, aged twenty-two, and Peter Dumont, aged nineteen. The pair were arrested for shooting Policeman Moran while driving about in a buggy and robbing two men. Moran's injuries were found to be only slight. The prisoners have confessed to two robberies last night and three of the night of May 23.

The death of Joseph Menard, who was shot and killed by Policeman Hartman early this morning, was directly attributed to Halvorsen's and Dumont's robberies. All policemen had been instructed to stop every occupant of a buggy. When Hartman saw Menard driving, he shouted to him to stop, but Menard whipped up his horse. Hartman fired several shots, one of which had fatal result.

ILLINOIS MAN A SUICIDE.

Evansville, Ind., May 30.—A. F. Stinson, an insurance man of Mount Carmel, Ill., swallowed poison at the St. George Hotel here today and then shot himself. Stinson is said to have been drinking.

HORNS STILL LOCKED AT SPRINGFIELD, ILLS.

General Assembly Is Deadlocked Not Only on the Question of Sine Die Adjournment, but on the Most Important Appropriations and the Proposed Deep Waterway Legislation.

Springfield, Ill., May 30.—After a continuous session last night, the senate and the house adjourned at 6:45 o'clock this morning. The senate had passed a resolution providing for sine die adjournment next Thursday, but the house thus far has not agreed thereto. Lieutenant Governor Olesbury ruled that the house last night Thursday wherein to notify the senate of its agreement to the adjournment resolution. An agreement by the senators not to do any work until Thursday was handed to the governor. The representatives agree to return whenever summoned by Speaker Shurtliff. The general assembly is deadlocked on the question of sine die adjournment, is deadlocked on the most important appropriations and is deadlocked on the deep waterway legislation.

CUTS RIVER AND HARBOR WORK.

War Department to Make a Saving of \$20,000,000 the Next Fiscal Year.

Washington, May 30.—Secretary Dickenson said today that in accordance with the specific instructions of the president, the estimates for the military establishment of the fiscal year 1931 would be \$20,000,000 less than the appropriations for the fiscal year 1930. The reduction will be confined almost entirely to public works, including river and harbor works, fortifications and barracks.

SENATE IS MAKING PROGRESS STEADILY

Notwithstanding That the Flow of Oratory Continues Unchecked, It Is the Prediction of the Leaders That the Tariff Bill Will Be Disposed of in Time for Adjournment Early in July.

Washington, May 30.—Progress on the tariff bill is being made steadily by speeches in the senate and the leaders now predict that the measure will be disposed of in time for adjournment early in July. The outlook this week is for many speeches. The probability of night sessions is less great than a week ago. Following the disposal of the agricultural schedule the cotton and woolen schedules will receive attention. The senate will sit on Decoration Day. If the house obtains a quorum Tuesday it will continue its discussion of the Porto Rican bill.

CONVICT ESCAPES AND RETURNS.

Calls on Governor and Gets Letter Requesting Officials Not to Pardon Him.

LITTLE DISORDER AT PHILADELPHIA

Second Day of the Strike of the Employees of the Rapid Transit Company Passes Without Disturbances of Serious Nature.

With Two-Thirds of the Surface Cars Idle Now, the Leaders of the Men Are Predicting a Complete Tie-Up Today—So Far, However, the Power House Workers Have Stuck to Their Posts, and So Have the Trainmen on the Elevated Roads.

Philadelphia, May 30.—The second day of the street railway strike passed without serious disturbance and with little change from the situation in which two-thirds of the surface cars are idle. The strikers predicted a complete tie-up tomorrow. They are endeavoring to get the workers at the power houses to strike. The motormen and conductors of the elevated railroad, who get two cents more than the surface men, so far have refused to strike. Few arrests have been made.

Strike Hastened by Higher Fares. Paradoxical as it may seem, the strike was hastened through the action of the company in raising the wages of the men one cent an hour, from twenty-one cents to twenty-two cents. This was done about two weeks ago and the increase is to go into effect July 1. Prior to the announcement of the increase in wages the Philadelphia Rapid Transit company became the steam center of general protest by about six for a quarter tickets and adopting a straight five-cent fare rate. The matter is now before the state railway commission at Harrisburg.

As the move to change the rate of fare was very unpopular among the street car riders, the leaders of the union took advantage of the situation and began agitating an increase in wages and better conditions. The traction company employed approximately 6,000 motormen and conductors and it is claimed by the company that more than one-sixth of these are affiliated with the organization. On the other hand the union leaders say that the union has a membership of 3,500.

Fearing that the strike may lead to disorder and desiring to minimize the danger of violence, Mayor Reyburn has ordered all saloons to close at 6 p. m. This is the second time the mayor of Philadelphia has exercised his power in this direction in twenty-five years.

GEORGIA STRIKE IS CALLED OFF.

Atlanta, Ga., May 30.—At the conclusion of a conference between a commissioner of labor, H. K. Scott, general manager of the Georgia railroad, and E. A. Ball, vice president of the Brotherhood of Locomotive Firemen and Engineers, Commissioner of Labor Neill announced last night that the strike had been declared off. It was understood that both sides made concessions.

The officials of the railroad and the Brotherhood of Firemen spent most of today in conference over the strike agreement. Commissioner Neill and Chairman Knapp were present. It seems likely that the disputed question finally is arbitrated under the Edman act. The stumbling block is the retention of the negro firemen in any capacity. The train service is now normal.

MADDEN AND ALLIES ARE FOUND GUILTY

Much to the Relief of the Defendants, However, They Escape a Prison Sentence—A Fine of Five Hundred Dollars the Sentence in Each Instance.

Chicago, May 30.—"Skinny" Madden, the labor leader, and two of his allies were convicted yesterday afternoon of grafting in that they extorted money by calling and settling strikes. However, three jurors stood between Madden and the penitentiary.

They refused to send him to prison and after forty-six hours of deliberation which was marked with bitterness and which several times threatened to terminate in a free-for-all fight, a compromise verdict was agreed upon and the trio of conspirators were fined \$500 each.

State's Attorney Pleased. The fact that Madden and his agents were convicted pleased State's Attorney John E. W. Wayman, and he declared that the work of the jury had determined the monstrous question whether there was to be a grafting circle of labor leaders in control of the situation in Chicago.

Madden upon hearing the verdict protested that the conviction was unjust. Madden will be taken to trial immediately on one of the other cases upon which he was indicted a few weeks ago. State's Attorney Wayman stated that who was sentenced to three years in the state penitentiary for killing a passenger conductor at Montague, Tex., escaped from a convict farm several weeks ago. No trace of him was found until today, when he appeared at Governor Campbell's office and made his identity known. He told the governor he left in order to pay a visit to his family in Oklahoma. He asked the governor for a letter to the prison authorities, requesting them not to punish him for his lawbreaking. The governor gave him the letter, and the convict, unaccompanied, left for the penitentiary to serve out the balance of his term.

STORM IN TEXAS ENDS MANY LIVES

Wrecking a Large Portion of the Town of Zephyr, a Tornado Brings Death to Some Thirty People of the Community.

Fifty Others Are Seriously Injured—Half a Hundred Buildings Are Demolished When the Wind Cuts a Wide Swath Through the Residence and Business Districts, and Many More Structures Are Destroyed by a Fire Started by Lightning.

Brownwood, Tex., May 30.—Half the population of the town of Zephyr are reported dead or wounded and nearly every building in the town demolished. The result of a tornado Saturday night. The casualties are estimated at not less than one hundred, twenty-five of whom were killed.

Brownwood, Tex., May 30.—The latest death list at Zephyr totals thirty-two. The number of seriously injured reaches fifty. The storm cut a wide swath through the residence and business districts. Nearly fifty houses were demolished, and a conflagration started by lightning destroyed one entire business square. Hundreds of persons found refuge in storm cellars. A stone school building and two churches were swept off the earth. By daylight this morning sixteen surgeons were working on the wounded.

Oklahoma Town a Sufferer. McAlester, Okla., May 30.—A tornado struck the town of Ashland last night, doing much damage and killing many persons, but no loss of life is reported. About twenty residences were wrecked.

GOVERNMENT'S ULTIMATUM.

United Copper's Directors Must Produce Books or Else Go to Jail.

New York, May 30.—It will not be necessary for the United States government to call upon District Attorney Jerome for aid in securing the books of the United Copper company, which are being withheld by Fritz Augustus Heinze. The government decided on Saturday it would require the directors to produce the books or ask that they be sent to jail if they fail. The directors have the right to the books of the corporation under the state laws of New York and the government's attorneys have found ample precedent for requiring that the directors bring action and state courts to secure the missing books.

United States District Attorney Wise is of the opinion that the mutilation of the books of a corporation is a federal as well as a state offense and it is planned to reach Heinze in this way. If it is thought necessary, it has developed that the pages of the missing ledger showed the accounts of Otto and F. Augustus Heinze and Max Schultze and District Attorney Wise alleges contained the information wanted by the government to prove that Heinze loaned money to himself and his associates for the purpose of stock manipulation.

WILL HONOR THE SOLDIER DEAD.

Three Notable Memorial Day Gatherings Will Occur Today.

New York, May 30.—There will be three notable Memorial Day gatherings tomorrow. At Gettysburg, Pa., the government monument erected in memory of the soldiers of the regular Union army who participated in the Gettysburg campaign will be dedicated. The principal address will be by President Taft. The president's daughter Helen will release the veil at Greenville, Tenn. There will be services in honor of the memory of Abraham Lincoln. A monument to Abraham Lincoln will be unveiled at Hodgenville, Ky.

CHAUFFEUR IS CONVICTED.

New York, May 30.—William E. Darrough, the chauffeur who ran down and killed Ingvard Trimble, eleven-year-old son of a prominent Kentucky lawyer, on March 27, has been sentenced to a fine only for the first degree. The maximum penalty for the crime is twenty years.

BOY KILLS HIS STEPFATHER.

Frederick, Md., May 30.—Angry because he had been whipped, Carroll Pierce, sixteen years old, shot and killed his stepfather, Park Willard, at Knoxville yesterday. The boy surrendered.

STEVEN'S OFFICE ABOLISHED.

New York, May 30.—John F. Stevens, former chief engineer of the Panama canal, is said to have severed his connection with the New York, New Haven & Hartford Railroad company, the office of vice president having been abolished.

DAILY MINING JOURNAL

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month by carrier... \$1.00 Per year, by mail... \$10.00

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Real baseball weather. My, but that Bailey has a belligerent disposition!

Our good friends at the Soo are still in the throes of their slogan difficulties.

Fighting the Amalgamated at Duluth was mere child's play for F. Augustus Heinze compared with the mess he is now in.

The ruling press comment on the election of William Lorimer as senator from Illinois is that while a worse choice might have been made it couldn't well have been much worse.

In refutation of the oft made statement that there isn't any Democrat party any more our Democratic friends can now point to Illinois, where they have just elected a senator.

President Taft can play a good game of golf and can win a barrel of sauerkraut at an Ohio church fair, but it remains to be seen whether he can get the kind of a tariff bill he would like.

The next state campaign is still a year in the distance, but already we find the upper peninsula press practically a unit for Chase S. Osborn for governor.

In Kansas even a physician's prescription is not a warrant for the possession of a bottle of whisky.

Reports have it that Mayor Busse of Chicago is in wrong with the Lorimer-Denon combination, and that he will have hard sledding to secure re-election.

The Menominee-Herald Leader Friday published a sixteen page Marinette edition.

The Y. M. C. A. building at Ishpeming is about to be opened for the use of the public, and will be formally dedicated within a few weeks.

The late Mr. Rogers was another of our multimillionaires who judged it the part of wisdom to tie up the greater part of his estate so that it couldn't get away from his heirs.

Probably no function at which he has been the guest of honor—has given President Angell of the University of Michigan more pleasure than the banquet tendered him by 1,100 students at Ann Arbor last week.

At respect in which the venerable president is held by the student body of the university, and indicates with what respect the students are looking forward to seeing him succeed as the head of the institution.

The president and his advisers are considerably concerned over the situation in Cuba, and apprehend that fiscal troubles in that fair isle will become acute, unless the government opens its eyes to the menace of extravagance.

The Ishpeming Iron Ore repeats a timely warning it gave a few weeks ago, to drivers of automobiles.

We still advise slowing down going around the corners and the curves. To force the high-power cars at top speed about sharp curves is a very bad practice that will lead to fatalities if persisted in.

Persons and newspapers who don't like the idea of the people having a direct voice in the selection of United States senators are finding much pleasure in contemplating the Illinois result.

If the Jerome style of political meeting should become fashionable in this country there would be an immense quickening of interest in such gatherings and the result would be a better education of the people in public affairs.

There is a lot of selfish sympathy extended to these cold-blooded murderers. The man who tries to do right in prison has no trouble. He is kindly treated, his work is proper, his food ample.

Warden Russell is a kind man, an educated one, a man with good common sense. He has political enemies as has every powerful man.

Calumet Baking Powder. The only high-class Baking Powder sold at a moderate price.

INQUIRY HELPS RUSSELL

Judging by the fulsome eulogiums appearing in several of the upper peninsula newspapers, aent the attack made upon him in a legislative committee report, Warden Russell of the Marquette prison has been treated very unkindly.

Marquette Prison.

The "Miner" is pleased to note that the gentleman who was directed by Governor Warner to look into the trouble at the Marquette prison is establishing the fact that the so-called investigation held there some time since, was more or less of a fake.

THE CASE OF MR. RUSSELL

A man who manages a prison has to deal with all kinds of characters of the criminal classes. There is the man who, in financial straits, forges his employer's name.

MINING NEWS

LAKT COPPER MOVING RAPIDLY.

A Boston brokerage interest in close touch with copper affairs at the Lake has this to say of present conditions there: "The sales of copper metal during the past week have been larger than at any time in six months past."

Copper Country

MEMORIAL DAY OBSERVANCE.

Rev. W. E. Marvin Talks—Programs Today—Services Yesterday.

All of the churches of the copper country yesterday devoted some attention to Memorial Day. In both Houghton and Calumet the military orders attended divine service.

The Hancock High school observed the day Saturday with an address by Rev. W. E. Marvin. Mr. Marvin took as his subject some of the lessons taught by the observance of Decoration Day.

A VICTIM OF BAD COMPANY.

Emil Palo Will Do Thirty Days for an Associate's Crime.

Emil Palo, a young miner who has been employed for the past two years at Mohawk and latterly at the Quincy, has been sentenced by Judge Streeter to thirty days in the county jail.

It appears that Mikkola induced young Palo to go to Calumet with him to seek employment as miners. They arrived Feb. 12, Friday, and on Saturday night Mattie Oinos and Albert Trante, Calumet & Hecla miners, who had just been paid \$102 each in settlement of a contract, went into Paulson's saloon.

The prosecution offered evidence to show that the bartender in the saloon was so drunk during the night that he went to sleep with his head pillowed on the hot coal stove and in doing so knocked over a can of kerosene which spilled all over the floor around the stove, which would probably have wet Trante had he been lying on the floor.

SAMUEL ANTILLA'S ESCAPE.

Calumet Man Might Have Gone to State's Prison Unjustly.

Samuel Antilla's name appears in the present circuit court calendar in connection with a charge of uttering a forged instrument. He is a prisoner because two persons identified him as a man who passed a worthless check.

CHINAMAN IS CONVICTED.

After Two Days of Deliberation Jury Reports Him Guilty.

The jury in the D. B. Sam case, that of the Hancock Chinaman, brought in a verdict of guilty at 10:17 o'clock Saturday night, after being out since 5 o'clock Thursday afternoon.

TO VISIT HIS OLD HOME.

Rev. Henry Rogers of Hurontown, pastor of the M. E. church in that place, has been granted a vacation and will leave tomorrow for England to visit his mother and his birthplace.

LIGHT FROM FLASH OF POWDER.

Judge D. W. Bond of the Middlesex superior court, in charging a jury recently, in speaking of the question as to whether the witness had sufficient light to identify the defendant, referred to an old case in England at a time when old-fashioned black powder that made considerable light when discharged was used.

WANTS HER LETTER PUBLISHED.

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it did help me wonderfully. My pains all left me. I grew stronger, and within three months I was a perfectly well woman."

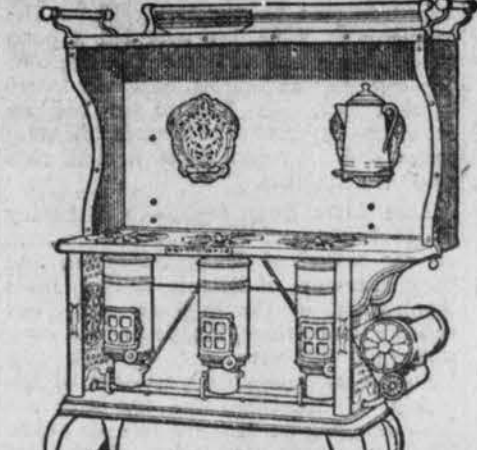

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

Hot Stove—Cool Kitchen

How do you expect to endure the broiling days of summer if you prepare all the food over a glowing coal fire?

You need a "New Perfection" Oil Stove that will do the cooking without cooking the cook. It concentrates plenty of heat under the pot and diffuses little or none through the room.

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

besides being the perfect stove for summer use is just as efficient for year 'round use. Does anything any other stove will do. It is built just like the modern steel coal range, with a CABINET TOP that makes it possible to keep food warm after it is cooked. Made in three sizes. Sold either with or without Cabinet Top. If not at your dealer's write our nearest agency.

The Rayo Lamp

a substantial, strongly made and handsome lamp. Burns for hours with a strong, mellow light, just what you need for evening reading or to light the dining-room. If not with your dealer, write our nearest agency.

STANDARD OIL COMPANY (Incorporated)

COPPERDOM BREVITIES.

Miss Mabel Roberts, who has been ill in the Laurium public hospital for some time, is able to be out.

Life sized casts of the famous statues of Minerva and Sophocles have been placed in the assembly hall of the Calumet High school.

Thomas Collins of Albion had a leg amputated below the knee at the Calumet & Hecla hospital Saturday, the result of an accident underground some time ago.

Miss Isabel Newham, who recently resigned as home nurse and superintendent of the Calumet Public Hospital, Laurium, has taken a position as superintendent of a large hospital and nurses' training school at Minneapolis.

Mr. and Mrs. Josiah Harper, for many years well known and honored residents of Calumet, will leave in the near future for Mt. Pleasant, Mich., where they will reside. Mr. Harper is past master of Calumet lodge of Elks, both and Mrs. Harper have been identified closely with the work of the Calumet M. E. church. Mr. Harper was one of those instrumental in the founding of the Calumet Associated Charities and has been closely connected with considerable other work of a like nature. Mr. Harper will engage in business at Mt. Pleasant with Phil Johnson of Calumet.

Nels Tappia, charged by Sama Arvo with using indecent language in the presence of a woman, pleaded guilty before Justice Jackola at Calumet Saturday and paid a fine of \$5 and costs.

William Dunn, charged with highway robbery by Emil Pulkkinen, was taken before Justice Jackola at Calumet Saturday and was given a trial June 25. Dunn pleaded not guilty. Dunn's arrest, it seems, is the result of a charge he brought against Pulkkinen in Justice Fisher's court a short time ago, alleging assault with intent to do great bodily harm less than the crime of murder. Pulkkinen's story is that he, Dunn and another man, name not mentioned, were in a saloon. The "other man" and Dunn left first, Pulkkinen following later and

overtaking them before they had gone far. Pulkkinen says Dunn commanded him to throw up his hands and went through his pockets and that then his companion went to his assistance and together they threw Dunn into a pile of rocks. He alleges that Dunn got away with a purse taken from him, Pulkkinen's coat and containing \$8. The trial promises to be a very interesting one.

Mining News

NORTH BUTTE.

Fear That Rich Ground May Be Beyond Mine's Boundary Lines.

It is gradually being taken for granted here that the ore bodies on the 2,000 and 2,200-foot levels of the North Butte are not as rich in copper as the 1,800-foot level, says the Butte correspondent of the Boston Financial News.

Butte and Superior. More than passing attention is being directed at the present time to operations in the properties of the Butte & Superior Copper Company, which for a long time has been handicapped by the sinking of exclusively zinc ore.

At the same time it is very true that the North Butte has not explored all of its ground on the deeper levels, and the drifts east and west on the Edith May and Jesse veins may disclose some who are predicting that the North Butte has worked its richest ground.

Of late there has not been any talk of lowering another shaft for the extraction of North Butte ores, but with a lowering of the value of the ores it will not be long before the company must provide additional hoisting facilities, and this can be done either by sinking a shaft on the Berlin ground, immediately north of the present shaft, or by entering into a contract with the American company for the use of the High Ore shaft, situated quite close to the main shaft of the North Butte company, and the underground workings of which connect with North Butte.

A prominent Lake copper interest, in discussing the conditions at the Copper Range properties, says: "The Copper Range Consolidated this year enters upon a new stage, the period where construction expenses are practically eliminated and where better returns to stock holders should be an assured fact. During the past four or five years the big corporation, which is made up of the Champion, Triumphant and Baltic mines and the Copper Range railroad, has expended hundreds of thousands of dollars in construction, but with the close of 1908 practically all new work had been completed, leaving the company with a balance with which to conduct further exploratory work. The Copper Range earnings during 1908 should be materially increased. This will be brought about by a continued production by the Champion and Baltic workings and due to the greatly improved underground conditions at Triumphant, which, until a few months ago had several years disappointing to the management. Recent devel-

THE CITIZENS NATIONAL BANK
HOUGHTON MICHIGAN
CAPITAL \$50,000.00

Just and Liberal

Our constant aim is to promote the efficiency of this bank. We afford the most liberal treatment consistent with safety and conservative banking principles. Checking accounts are invited.

ESTABLISHED 1880.

We solicit your stock business. Our daily quotation sheet and market letter sent for the asking. Office open from 7:30 a. m. to 8 p. m.

zinc, but as the drift proceeds the zinc is gradually working out, and it is the opinion of Superintendent Davis that eventually on this level the ore will be principally copper. On the 1,400-foot level the drifts are improving in copper, and the shaft is being sunk to a depth of 1,900 feet, where it is expected that the zinc will disappear entirely, and that the mine will be converted into a copper producer of great capacity.

WASHINGTON CHAT.

President Has a Long Memory on Office Seekers and Indorsers.

Washington, May 30.—President Taft has a pretty retentive memory. A New Yorker who came here recently to urge the appointment of a friend to office is well aware of that fact.

"Uncle" Serrano Payne of New York has lately been flooded with inquiries about a son. These questions come by telephone and otherwise from all quarters. Many a congressman has wanted to know whether one of the Payne boys is named Arthur and has always been informed in the negative.

Even ex Representative Littlefield of New York, once of Maine, wrote down to Washington to know if there was an Arthur Payne, mentioning his correspondent that, if there were such a son of "Uncle" Serrano, to be careful not to inform the distinguished chairman of ways and means about his (Littlefield's) anxiety.

But the secret has leaked out that "Arthur Payne" whoever he may be, is an artist at "touching" congressmen for

\$20 per. He is always hard up and wants enough money to help him out till he can get back home to "father." He has been operating in New York, where he has obtained \$20 a head from quite a number of his "father's" eminent acquaintances of the national House.

A United States senator is accounted a mighty big man, but there are some folks who can "roll him down." Sen. Elmer J. Burkett of Lincoln, Neb., one of the leading Republican insurgents, avows:

"I have been voting with the insurgents and Democrats' right along," said the youthful Burkett, and feeling pretty well about it, too. Letters were coming in from the folks at home telling me to keep it up and to fight all summer, if need be, against this iniquitous tariff. I thought the people who wrote those letters had the right of it till a letter came in from my 'old man' the other night.

"Elmer," the letter ran, "I am shocked that a son of mine should be voting with Democrats in the United States senate." That is all there was to it, but, all the same, having obtained from Chief Aldrich some commissions on barbed wire, Sen. Burkett is subsiding as one of the rampant insurgents of the senate.

COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE

Marble is entirely out of date. Granite soon gets more grown, discolored, requires constant expense and care and eventually crumbles back to Mother Earth. It is a very expensive. **WHITE BRONZE** is strictly everlasting. It cannot crumble with the action of frost. It has a weight in an impossibility. It is more artistic than any stone. Thousands of delighted customers in all parts of the country. It has been in the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

THE SUPERIOR LUMBER COMPANY

City Brevities

Mr. and Mrs. H. R. Harris have gone to Boston and other eastern points, for a short stay.

A ten-pound daughter was born to Mr. and Mrs. D. Macdonald, of Newberry street, Saturday.

W. D. Smith, prescription clerk at Stafford's drug store, has returned from a two weeks' visit in Boston.

Mrs. George M. Ward left Saturday morning for a week's visit with Mrs. A. Franklin Knowles, of Saginaw.

Roy A. Young is down from Lake Linden for a two days' visit with his parents, Mr. and Mrs. James W. Young.

Miss Anna Hennessy came down from Duluth, where she holds an excellent position, to spend Memorial Day visiting Mr. and Mrs. M. H. Hennessy, her parents.

Andrew Erickson is being treated at St. Luke's hospital for a very bad felon on the third finger of his right hand. The member will likely be amputated today.

Gary Snyder, who was recently arrested in Duluth for abandoning his wife and family, has been placed under \$500 bond, guaranteeing to support them hereafter.

George DeGroot left Saturday evening for Syracuse, N. Y., which will in the future be his headquarters. He takes important New York territory for the Washburn-Crosby Flour company.

E. H. Begole is clearing five acres of land at his farm a few miles beyond Forestville, and will plant it to hay. Mr. Begole has a twenty-acre tract and has built a comfortable house at the place.

W. H. Schweitzer arrived home yesterday morning from a few days' trip to Milwaukee and other points south, where he visited Paine, Webber & Co.'s branch office in company with M. J. O'Brien of Calumet.

Gus Rydholm was down town yesterday for the first time since his operation for appendicitis two and a half weeks ago. He attended the ball game in a carriage yesterday afternoon, but does not expect to be able to play this season.

Barney Luce of Boston, Mass., is here to take the place of W. H. Schweitzer as local manager of the business of Paine, Webber & Co., while Mr. Schweitzer is enjoying a vacation of two or three weeks. Mr. Luce is a relief man for the big brokerage house and has been in the copper country the past two months.

Austin Farrell arrived home Saturday morning from Chicago, where he had been in at Thomas Canning, Cunningham, who was operated on for appendicitis earlier in the week. The operation was a serious one, but Dr. Cunningham came through it in a satisfactory manner and the crisis is now said to be passed.

No School Today—There will be no school at the Baraga (parochial) building today. The public schools also will be closed in observance of Memorial Day.

Electricians vs. Rivals—The electricians defeated the Rivals at baseball at the fair grounds yesterday forenoon, the score of 10 to 7. The battering was electricians, Deostell and Thore, Rivals, Knault and LaFave.

Mission Closes Tonight—The mission that has been in progress at St. Peter's cathedral for the past week and more will close with the services this evening. The mission has been very successful. The attendance has been gratifying.

Uniforms Here—The uniforms for our boys' band, ordered several weeks ago, arrived yesterday, and the boys will make their first appearance in their new regalia on the down town streets this afternoon. The uniforms are of blue, trimmed with black braid.

Memorial Day Sermon—Fourteen old soldiers marched to St. Paul's Episcopal church yesterday morning and listened to a masterly Memorial Day address, given by Rev. Bates G. Burt. The large number of flags displayed in the residence section of town yesterday was a matter of comment by visitors. Flags should be at full mast today, not at half mast.

Stolen Bicycle; Arrested—Michael Stempleski was arrested Saturday on the charge of having stolen a bicycle from in front of the city hall on Wednesday. The bicycle was owned by Charles Johnson who recognized it Saturday in front of the postoffice. Stempleski was taken before Justice Byrne and fined \$10 and costs, in default of which, he is now serving a term of thirty days in jail.

Large Class Confirmed—A class of seventeen children from Birch and Big Bay made their first communion at the 7:30 o'clock mass at St. Peter's yesterday, and at the pontifical high mass at 10:30 o'clock they were confirmed by Bishop Eis, along with a larger class of Marquette children. The latter made their first communion a week ago. In the afternoon yesterday, the bishop confirmed a class at St. John's church.

A Peculiar Coincidence—Yesterday's ball game here went sixteen innings. Three years ago May 30, the Marquette and Soo High school teams played a game in this city which went eighteen innings and resulted in a tie, 3 to 3. Murray, who pitched for Negaunee yesterday, was the Sault Ste. Marie twirler in the contest of three years ago, and Scholtus, who opposed him yesterday, also opposed him three years ago.

Death of Oscar Ekstrom—Oscar Ekstrom, aged twenty, passed from life yesterday, after an illness of three months from tuberculosis, at the home of his aunt, Mrs. Anna Johnson, 218 West Ohio street. He leaves a father in Cleveland and one brother in this city. The funeral will be held Tuesday afternoon, at the house at 2 o'clock and from there to the Swedish Lutheran church. Interment will take place at Park cemetery.

Motor Cars Due This Week—The four cars ordered some time ago by the Pioneer Motor company, for passenger service between Marquette, Negaunee and Ishpeming and nearby points of interest, are to be shipped from Detroit tomorrow and should be here before the end of the week. The north end of the building in which the skating rink was located last winter, is now being fitted up for a temporary garage, and it is hoped by the manager that cars can be operated next Sunday.

Takes New Position—George Housier, formerly a machinist at the Lake Shore Engine Works, who left Marquette a few

years ago to take a position in the C. H. Blomstrom Automobile factory at Detroit, and who has more recently been superintendent for the Buick Motor Company at Flint, has accepted a position as superintendent for the Detroit Car company at Detroit, and will locate in that city. Mr. Housier has had an extensive experience in automobile factories and is regarded as a first rate man in that line.

Lost After Long Fight—On Saturday Judge Wisner, of Flint, gave a decision on the action of Thomas Sullivan and T. E. Tarsney, of Detroit, against Isaac Applebaum, of the Saginaw and Flint railway, and others, dismissing the complainants' bill with costs of suit. Mr. Sullivan was formerly president of the village of Munising, and the case has been dragging on in the courts for years. The court held that when Applebaum purchased the railway at foreclosure he obtained an absolute right and that there was no equity in the claim of the Detroiters. "I find as a matter of fact," said the court, "that the great bulk from Saginaw to Frankfort by Tarsney and Sullivan was only worth what it would bring as scrap, before it was taken over by the new company. I went over the road and in my judgment had it been known I would have visited it the testimony of Sullivan as to its condition would never have been given, for it was absolutely untrue."

INSURE WITH PETER WHITE & CO.

DEATH OF MRS. E. C. QUARTERS.

Estimable Marquette Woman a Victim of Tetanus Early Today.

The many friends of the family will learn with deep sorrow of the passing from life of Mrs. E. C. Quarters. The death occurred shortly after 2 o'clock this morning and was due to tetanus. Mrs. Quarters stepped on a rusty nail while doing some work in the garden at the family home on North Front street a week or more ago. She paid no particular attention to the matter, however, considering the slight wound to be not at all serious, and it was only two or three days ago that it was deemed advisable to summon a physician. The doctor found that tetanus had set in. The patient's condition then was grave, and despite heroic treatment the disease made steady progress, culminating in the death of the sufferer this morning. Mrs. Quarters was the wife of Ed. Quarters, head janitor of the city schools, and his sister's husband leaves a number of children. The death was an unusually sad one. The case of lockjaw of which Mrs. Quarters was the victim is said to be the first that has occurred here in twenty years.

TURKISH BATHS AND CHIROPODY.

Frank Keough, 123 W. Ridge St., Marquette.

SECOND TEAM WON.

L. H. Drumme's Nine Defeated Munising in Well Played Game.

In one of the liveliest games ever played at Munising, Marquette's second team defeated the Munising second team at Munising yesterday by the score of 7 to 2. Smith and Rosseter did the heavy work for Marquette, while Swenor and Whitmore worked for Munising. Smith twirled the better of the two, allowing only three hits, while Swenor secured 69 runs, Smith, LaPorte and Rosseter, of Marquette, slammed out doubles, while Thornton made a two-bagger for Munising. Only two errors were made by Marquette, while Munising was stung for eight. This game goes to show that Marquette has some good material for a second team and it is hoped that the Junior league will be started this week, to take in Marquette, Munising, Ishpeming and Negaunee. Unless other plans interfere, Munising will be seen here a week from Sunday, and it is hoped to secure Michigan fame for the coming Sunday. The summary is as follows:

NOTICE.

For a nice job of mason work or brick see T. A. Murphy; 38 years' experience in the United States and Canada. All kinds of stone cutting, also. Address, 404 Lake St. (5-29-117)

WHAT ABOUT THE LICE?

Are your young chickens dying off mysteriously from apparently no cause? It is two to one they are being killed by hen lice. Do your setting hens fret and leave the nest? Then they have lice, too. Why not exterminate them and improve your flock? I have just received my second large order of Cressler's famous Germicide, the only safe insect powder for young chicks, and only sure remedy for the old ones. One pound box, 25 cents, enough for a flock of fifty birds or over, or any number of young chicks. Walter C. Hornsted, 1025 North Front street. Thoroughbred Buff Orpingtons a specialty.

Think This Over

The Savings Bank Habit is not so bad as the Cab Habit—not so costly to your health and wallet as the Cigarette Habit. The man with the savings habit is the one who never gets laid off; he's the one who can get along without you, but you cannot get along without him. The savings bank habit means sound sleep, good digestion, cool judgment and manly independence. The most healthful things we know of is a savings bank book—there are microbes in it to steal away your peace of mind. It is a guarantee of good behavior.

Call and let us explain the savings department to you fully.

MICHIGAN SERVICE

FOR MICHIGAN PEOPLE

It is often stated by our competitors as a fact detrimental to our Company that the Michigan State Telephone Company is not a local enterprise. This statement means that we are not local to Detroit, nor to any other city in the State.

Of course, if the statement is made by our competitors for the purpose of pointing to an advantage which they enjoy, they must claim the converse—that they are local in some particular city or town.

Local telephone service necessarily means restricted telephone service.

In order to serve a community properly, it is necessary not only to furnish local service, but to have the facilities for instantly connecting local subscribers in different localities throughout the State, and even throughout the United States.

This the Michigan State Telephone Company can do. It is the only company operating in the State having such facilities.

The Michigan State Telephone Company is local, not only to Detroit, but to the entire State of Michigan. In its operating management, ownership and independence from outside interference. It is just what its name implies—

A state-wide Michigan proposition.

M'LEAN MAY SUE WM. HARRINGTON

HAS BEEN PROFFERED AID BY MARQUETTE MEN WHO WOULD LIKE TO SEE HIM TAKE THE STEP—MUCH COMMENT OVER CASE.

The report of the man-handling given John McLean by Deputy Game Warden Harrington was the subject of much discussion Saturday, and many indignant comments were heard. It is possible that civil proceedings for damages may be started by McLean against Harrington. McLean has been offered financial aid in starting such proceedings, and at least two lawyers have expressed themselves as willing to take the case. Yesterday McLean was undecided whether he would take any action, he said he did not believe he could collect anything from Harrington even if he got a verdict.

While some attempt has been made to gloss over the trouble, further inquiry indicates that the story related in The Mining Journal Saturday, was in no whit overdrawn, and Harrington's conduct, from whatever angle it is viewed, is highly censurable.

Captain Parker, who was an eye-witness to the assault, told Marquette men subsequent to the occurrence that he had offered to pay Harrington the \$10 license fee, with the idea that he would be re-imposed later, in order to avoid any trouble at his residence. Captain Parker advanced the money in this way last year. Harrington, however, refused the offer, saying that he intended to get the money from McLean himself.

Not men working at the Parker fish-house also told friends up town that Harrington assaulted McLean in the manner described, though none of the direct witnesses of the assault are willing to talk for publication.

Harrington has placed a warrant for McLean's arrest for failure to pay his license in Marshal Manning's hands, but it has not yet been served. The warrant was sworn out Friday afternoon, before Judge Byrne, but it is claimed that Harrington did not show it when called upon to do so by McLean. McLean is credited with being a somewhat troublesome character, and has been a drinking man, though at the time of the trouble Friday the evidence would indicate that he was not drunk.

"Whether McLean was drunk or sober is beside the point," said a Marquette man commenting on the case yesterday. "If he was drunk all the more reason for handling him without violence, for if he was drunk he was not responsible. And if the cause of the trouble was McLean's resisting arrest when Harrington had a proper warrant, why didn't Harrington see the thing through, and deliver him into the lockup? There's only one thing for an officer to do with a man who resists arrest and that is to carry out the arrest."

Harrington was in the city Saturday, and was in a much more approachable mood than on Friday when he was disposed to consign the newspaper men and all others who showed any interest in his conduct to the lower regions. He called at the hospital where McLean was confined and asked why he didn't serve any evidence of McLean's being drunk when he was taken there. He was informed that they had not. McLean was still in the hospital last evening, but will probably be out today.

The general belief is that Harrington allowed a temper that is reported to be none of the best when he is feeling most happy to get away with him with regards to McLean, and that in a fit of passion he went much further than he would have gone had he had himself in hand.

MARINE NOTES.

The steamer Lambert is at the Spear dock unloading 500 tons of salt-peter for the powder mill.

The Luzon, of the Carter fleet, was due at the South Shore docks last evening to load with ore.

The steamer Mary McGregor, with the schooner Alleghany in tow, is at the Spear dock with a cargo of coal.

The large Abyssinia was towed out of the harbor by the steamer Hutchinson Saturday night, loaded with ore for Ashtabula.

The steamer E. J. Earling ran on the rocks at Madeline Island, one of the Apostle group, near Ashland, early Wednesday morning, and is now in the Superior shipyard for repairs.

The schooner Warriner in tow of the steamer Flagg arrived at the South Shore dock Saturday night and loaded with Republic iron company ore yesterday forenoon, clearing for Ashtabula in the afternoon.

The Anchor line package freighter Wisashikon was at the Spear dock Saturday afternoon unloading miscellaneous freight. This is one of the Anchor line's largest and newest boats, and it was her first appearance in this harbor.

FAMOUS COMET SOON DUE.

Astronomic Curiosity to Be Visible for the First Time Since 1834.

In a few weeks the evening sky will display one of the rarest and most brilliant wonders known to astronomy. The world famous "Halley's comet," after an absence of seventy-five years, will again be within our range of vision. As science knows little of the powers of the elements farther out in our solar system and of their influence on the celestial bodies, it is impossible to pre-determine the day of the week when the wanderer will come in sight. Astronomers all the world over, however, are prepared for the observation and study of the infrequent visitor.

The comet finishes its elliptical path around the sun in a period of about seventy-five years. The history of mankind contains several records of its recurrent appearances. In ancient times, when science was in its infancy and superstition ruled the world, comets were looked upon as foreboders of war and other calamities. And as "Halley's comet" formerly outstripped all of its kind in size and brilliancy, more than once made humanity tremor-struck. A comparative study of the various descriptions prove that both in brightness and volume the comet is diminishing.

ABE MATHEWS HAS OPTION ON MINE

HE AND HIS ASSOCIATE EXPECT TO TURN AN IMPORTANT DEAL IN THE WINCHESTER DISTRICT OF ARIZONA.

Abe Mathews, who left for the south-west several months ago, is reported by Winchester, Arizona, correspondence in the Phoenix Arizona Republican to have an important deal on foot. He, with J. D. Mitchell of Salt Lake City, has optioned the Sitting Bull property in the Winchester district, also the Oversight group, and expects to make a sale of the properties to capitalists at no distant date.

Mr. Mathews went to lower California, in Mexico, in January, on an extended exploring trip, and from there went to Arizona. He has been trying to get an option on the Sitting Bull property for some weeks past, and the deal has only lately been closed.

The Sitting Bull is an old property, producing gold, which was located by the father of the present one, Barney Quinn. The claim has been allowed to lapse two or three times, but on account of the rich showings has been re-located after every lapse. Most of the work done on the property has been assessment work, but in all large values it would have been taken out. Assays run anywhere from \$10 to thousands of dollars to the ton, and average about \$50. Accounting for the fact that the property has not been developed on an adequate scale, it is stated that the former owners did not receive its value. There were no custom mills in the country, and the men who held the property did not have money with which to build and operate a mill. The property is said to resemble in a general way the famous Homestake.

The Arizona Republican says: "Mr. Mitchell is an experienced mining man, having mined in Nevada, Utah, Alaska and South America, and he knows a good country when he sees it and good ore when he sees it. Mathews is a graduate of the Michigan School of Mines. They spotted the Sitting Bull and liked it from the start. They have prospected from top to bottom and end to end. They have assayed it all over. After thoroughly satisfying themselves that the property had great merit they approached Barney Quinn."

"Now there is one more interesting feature to this deal, and the one which assures the development of a great mine. The Sitting Bull runs up nearly to the Desert mill. The tunnel and all the workings are on the same level and around the hill from the mill. This mill will be started up in a very short time and a tram road will be built at very little cost right from the workings to the mill.

"Mitchell and Mathews bought, or rather bargained for, the Oversight early in the day and some few hours later workmen who were working on the shallow shaft on the property about two hundred feet from the Sitting Bull put in a shot which opened up some of the richest free gold ever found in the district. This strike was made in a rich pay streak about two feet wide in a quartz ledge about twenty feet wide on the contact between basalt and the big andesite dike. The Glory Hole never showed the quantity or quality of gold known to in this hole and the indications are that it will prove the big bonanza of the district. Had the deal been delayed one day it would have cost something to option the property."

"The point at which this strike was made is at the bottom of the hills, which gives depth to the ore which largely accounts for its richness and also proves that the richest ore of the district will be found along the great andesite and rhyolite dikes, which two dikes are only about two thousand feet apart and run close together across the country for miles. As a matter of fact development will show that the country along and between these great dikes will be the mother lode or mineralized zone of the district. Every prospect hole put down in this zone has produced good ore.

In addition to the Sitting Bull and Oversight which will hereafter be called the Sitting Bull there is the old Desert mine, which side lines with the Sitting Bull, the Mary G. Anacoda, Ranger, Filkins, Wall street, Jumbo, Yellow Bird and many others.

MARKETS

MAY WHEAT DEAL IS CLOSED.

Passed Into History Without Any Spectacular Incident.

Chicago, May 30.—The great and successful bull campaign in May wheat passed quietly into the board of trade history yesterday. Not a ripple disturbed the speculative sea.

James A. Patten, the bull leader, with his gray fedora hat pushed back on his head, betrayed no elation. The deal, to all intents, ended weeks ago when the shorts, gradually driven in, pocketed the losses. Still a lot of sentimental interest attached to the last day. Among laymen "fireworks" had been anticipated,

Marquette County Savings Bank

There is more luck in good hard dollars than in dreams.

If you must dream cultivate the dollars, too. They will add substantially to your satisfaction.

"UNIVERSAL TIME" BILL.

Proposes Four Shorter Hours in April, Four Longer Hours in January.

Washington, May 30.—Senator Lodge has introduced, by request of ex-Representative Joseph H. O'Neil of Boston, a bill to authorize the so-called "universal time." It provides that there shall be a "short hour" of forty minutes, from 2 to 3 A. M., on each of the four Sundays in April, every year, and that there shall be a "long hour" of eighty minutes on the four Sundays of January every year. This is in accordance with the "daylight saving" program which has been observed to some extent in Great Britain.

A daylight savings bill has been introduced by Representative Peters of Massachusetts. The measure provides for "four April small hours," and "four September long hours." The plan is to shorten the hour between 2 and 3 o'clock on the morning of each of the first four Sundays in April to forty minutes and to make the hour between 2 and 3 o'clock in the morning of each of the first four Sundays in September consist of eighty minutes.

CHICAGO BOOSTERS AFTER TRADE.

Chicago, May 30.—Forty members of the Chicago Association of Commerce started tonight via St. Paul for a tour of the Northwest, with Seattle the chief objective point. They will return via Omaha June 16.

Paine, Webber & Co.'s Wheat Summary.

Paine, Webber & Co.'s Chicago correspondent said Saturday concerning the wheat market:

"Nothing could have been managed better than the transactions in May wheat for the past thirty days, and the market, closing as it did without any excitement or any squeeze of belated shorts at 124, was proof on its face that it is and has been on a legitimate basis, so far as wheat futures were concerned. If any further proof of this is necessary, it can be found in the fact that a good portion of the Duluth wheat brought here in the case of the bulls, found its way into milling and commercial channels before the final delivery day, and a half million bushels or more of it was not delivered on May contracts at all. The trade will now turn its attention exclusively to the new crop months. It is very doubtful about any large quantity of wheat arriving here from the new crop in July. We feel that the new crop months must work up closer to the level of the cash wheat and July, especially should, in the near future, show some of the strength recently exhibited in May contracts."

HIGH AND LOW PRICES.

Ishpeming Department

ISHPEMING DEFEATED MUNISING YESTERDAY

TWO OF THE VISITORS' PITCHERS, VANDEEN AND BAKER, THE LATTER A NEW MAN FROM THE LOWER PENINSULA, WERE TOUCHED UP PRETTY FREELY.

Ishpeming won its second game in the Marquette-Alger County league series yesterday afternoon at the Union Park grounds, defeating Munising by a score of 7 to 2. It was a fast and interesting exhibition up to the seventh inning, when Ishpeming began to hit Vandeen so hard that he was replaced in the box by Baker, a recent importation from Flint. Ishpeming secured five of its eleven hits in that inning, Toman starting with a double and Simpson and Cooney following with singles. With the latter two on second and third bases Laxstrum, the first man to face Baker, touched him for two sacks. Gorman fanned and Burke came next with another double, bringing Laxstrum home.

The game started with Munising at the bat. The side was retired in quick order. The first batter sent a hot grounder to Cooney at short, and after a fumble he succeeded in throwing him out at first. The next two up fanned. Ishpeming had but three men at the bat in the first inning, one striking out and the other two being put out by infield plays.

In Munising's half of the second inning six men batted, two striking out, the third flying to Simpson in center. One man got to first by being hit by a pitched ball and the other two reached the sack on errors, the only ones charged to Ishpeming in the whole game. Ishpeming also had six men at the bat in the second, Cooney leading off with a single, but he was thrown out at the plate in an attempt to steal on an error by an infielder. Laxstrum, who got to first on an error by Vandeen, was advanced to second by a sacrifice by Gorman and came home on a hit by McLaughlin.

In the third inning Toman again struck out two men out of four at bat, passing the first man up by hitting him, but the runner was later caught between second and third by Gorman and McLaughlin. Ishpeming had three men put out on infield plays.

In Munising's half of the fifth only three batters came up. Hagel got a scratch hit, but was thrown out on second in a double by Burke and Gorman. Ishpeming batted four men in that inning, Olson securing a two-bagger that would have been good for three sacks if he had not run into the first baseman. He died on third, two of the next three fatters going out on infield plays and another striking out.

In the sixth Baker batted safely, after two had been retired, one striking out, the other going out on an infield play, the fourth man fanning. In Ishpeming's half of this inning four of the five men got to first or beyond, but no runs were scored.

Although Munising got two hits in the seventh only five men batted, two having been retired on infield plays and the third striking out. After Ishpeming's half of the seventh there was no doubt as to the final result. In the eighth Nichols touched Baker for a single, but was thrown out later on first. Toman flew out to Finkbinder and Olson struck out. The first two Munising men up in the ninth struck out and Kinert singled, but was thrown out by Nichols to Cooney in an attempt to steal second.

Toman's work in the box greatly pleased the fans. It was his first game and all wondered how he would work out. He threw an effective ball, displayed coolness and kept the runners close to the sacks. Nichols caught a faultless game and the general team work was excellent. Cooney had some star plays at short, and McLaughlin nabbed everything that came his way, with the exception of a hot grounder over the third sack that he could not reach.

Captain Cooney, Toman and Laxstrum received an ovation every time they came to the bat. Cooney touched the ball for three hits, one of which would have been good for two sacks if he was as swift on his feet as he was a few seasons ago.

An amusing feature of the game was Finkbinder's closing inning. He gave Gorman and McLaughlin a merry chase between second and third in the fourth inning, finally landing on third safely. He tried the same thing between third and home, but was put out by Gorman and Nichols. Munising's team has been considerably strengthened by the addition of Burke and Adamson, the latter taking Daniels' place at first. He had ten put-outs and two assists, with one error. Gunstrom caught a fine game.

The umpires had many close decisions and the fans got after them a few times, but their work was on the whole very satisfactory.

The summary follows:

Munising—	A. B. R.	H.	P. O.	A.	E.
Hagel, ss.	4	0	2	5	1
Schane, 2b.	4	0	0	1	4
Adamson, lb.	4	0	1	2	1
Conroy, lf.	4	0	0	0	0

ISHPEMING DEFEATED MUNISING YESTERDAY

ENTERTAINMENT THIS EVENING.

Lutheran Young People's Society Will Present Program.

The Young People's society of the Swedish Lutheran church will give an entertainment this evening in its hall in observance of Memorial Day. A feature of the entertainment will be the oration, "The American Pioneer," by Miss Olga Grand, which won first prize in the Kaufman contest at the Marquette Normal last week. The admission will be fifteen cents for adults and ten for children, with ten cents extra for refreshments. The program will be as follows:

Devotional Dr. J. T. Duggan
Junior Choir
Piano duet, "Hungary Rhapsodie Mignonne" (Op. 410) Koelling
Misses Amanda and Helen Anderson.
Battle Hymn Dudley Buck
Male Choir
Oration, "The American Pioneer" Miss Olga Grand.
"Stridsbon" O. Lindblad
Bethany Choir
Address Dr. G. Fletwood.
Tenor solo, "In the Realm of Eternity" A. J. Lamb
"My Country 'Tis of Thee" The Three Choirs.
During the afternoon, commencing at 3 o'clock, the ladies of the society will serve refreshments in the hall.

All sheet music fifteen cents per copy. Cable Piano company, opposite Nelson House. (5-29-24)

PHENOMENAL SUCCESS.

Noted Actress Here Wednesday Evening Has Magnificent Production.

Lillian Russell's success in the play, "Wildfire," in which she will be seen at Ishpeming theater Wednesday evening, is said to be almost phenomenal. She is being greeted by packed houses everywhere and it is with much regret that the famous beauty actress and her management will put aside this most successful racing comedy. Miss Russell's steps from the old comic opera days to this new work with a lightness and grace that are irresistible. As the widow of this interesting bit of dramatic fiction, Miss Russell is more radiantly beautiful and far more artistic than ever, and her newer career is the unfolding of histrionic possibilities which were never suspected except by the resourceful manager who enticed Miss Russell to take up the new endeavor.

As plays go "Wildfire" is unique. It was chosen originally for the purpose of permitting Miss Russell a broader opportunity. It has turned out the one genuine and high class racing drama of the American stage to hold forth in the first-class theaters. Miss Russell carried it by way of introduction and now she has a vehicle which it will be difficult to get away from.

TO DECORATE GRAVES.

The following boys from the grammar school on North First street have volunteered to assist the members of the Grand Army in the decoration of the graves of the departed veterans in the local cemeteries: James Kemp, Willie Pascoe, Harry Yonkers, Jeff Erickson, Hubert Jarvia, Willie Quine, Roy Fernquist, Carl Nelson, Carl Carlson, Russell Corkin, James Komish, John Birl, Paul Anderson, Nathaniel Recoe, Nels Peterson, Carl Olson, Giles Shea, David Bergquist, Ethan Allen, Frank Blight and Joseph Bergquist. They are requested to meet at the city hall at 9 o'clock.

DEATH AT NATIONAL MINE.

Mrs. Celia Johnson, wife of Matt Johnson, died Friday night at the family home on the National Mine location. She had been in poor health for a number of years, Bright's disease being the cause of her demise. The deceased was one of the oldest residents of the National and was well and favorably known here. She was sixty-seven years of age and is survived by her husband and one daughter, Mrs. William Hult, residing at the National. The funeral will be held tomorrow afternoon from the Swedish Lutheran church.

All sheet music fifteen cents per copy. Cable Piano company, opposite Nelson House. (5-29-24)

GREETED BY LARGE AUDIENCE.

The members of the Finnish Dramatic club of Hancock, who produced a drama, "Elinen Surma," at Ishpeming theater Saturday evening, were given an enthusiastic reception. The house was almost completely sold out. In addition to the Ishpeming people present, a delegation came over from Negaunee. The play was staged with care and some fine costumes were worn. Several members of the company have appeared here in entertainments before and are well known to the Finnish people of the city. They returned home yesterday.

WOODMEN OF THE WORLD.

A Finnish camp of the Modern Woodmen of the World was organized Friday evening at the Finnish Co-Operative hall by W. J. Hebbard, deputy sovereign commander of the order. The name selected for the camp was "Kullero" and the officers chosen for the following year are as follows:

Past Consul—A. W. Jurma, Consul Commander—Victor Honkavirta, Adviser—Lieutenant—Isaac Rintamaki, Banker—J. Hinkkanen, Clerk—William A. Anderson, Assessor—Nestor Eklund, Watchman—Arthur Airo, Sentry—Abel Niemi, Physician—Dr. J. Raihala, Managers—Werner Nikander, August Sotinen and John A. Talo.

ISHPEMING IN BRIEF.

Dr. Isaac Siette of the Swanzy range spent Saturday and Sunday with relatives.

Dr. Vivian Vandeventer and family have returned from a month's visit to the East.

W. H. Johnston arrived home yesterday from Chicago, where he spent the past few days on business.

The Marquette County Gas & Electric company put in three new heavy diamond crossings near the Oliver Iron Mining company's laboratory Friday, and a

diamond was also put in at the Cyr street crossing; Negaunee. The crossings are made of seventy-two-pound rails.

The Uniform Rank of Zenith lodge, Knights of Pythias, will conduct its third annual hop tonight at Braastad's Hall. Many invitations have been issued and it is expected that there will be a large attendance from both Ishpeming and Negaunee. Tickets will be \$1 per couple, including refreshments. Dancing will start at 9 o'clock.

Unusual interest is manifested in the baseball game to be played this afternoon on the line at 1, in order to take care of the large crowds expected from both cities. There will be eleven cars, including the carryall, in use. Game will be in the box for Ishpeming and Siebenthal will pitch for Negaunee. The game will start promptly at 2:30.

The members of Company I, Michigan National Guard, will leave by special train on Aug. 9 for Ludington, in the lower peninsula, where the annual encampment will be held this year. There will be three or four companies of regulars, also one troop of cavalry, at the camp with the members of the Guard. It is expected that there will be in the neighborhood of 2,500 soldiers from the three regiments in the state in attendance.

A trackless trolley on the streets of Vienna nearly a mile and a half long operates with success, although it is not expected that it will be a paying venture for a year or two. It has a double line so that vehicles may pass in each direction without interfering with each other.

St. Louis has 17 glass-working establishments with about 5,700 employees.

FOR SALE OR RENT—Six-room dwelling, with bath, electric light, gas, etc. Apply at Mining Journal branch office. 5-29-24

OLD TREES PROCLAIM HISTORY OF MEXICO

Other Scenes of the Early Days Are Modernized for Tourists.

City of Mexico, May 30.—Mexico has some historic trees, which, both by point of age and the date of the event they mark, are so old that beside them the Washington tree at Cambridge and the peace tree at Santiago de Cuba are mere saplings.

Among the most noted is the Arbol de Noche-Triste, which marks the first appointment of Cortes, and through there seems to have arisen some doubt as to whether or not the tree at Popotla is really the one under which Cortes wept, the fact remains that he did weep under a tree, and that is the point of historic interest, recording it does the turn in the tale of his affairs, which Cortes carried him on the crest of a high wave of success and triumph, was humiliating and bearing him backward to ruin and defeat.

It also records that Cortes, the conqueror, was humanly weak enough in the face of such overwhelming disaster to give way to tears, as imperial Caesar, shaken with a chill in material Spain, "did sigh and groan" and his "coward lips did their color fly," the while he "cried on Cassius to give him drink."

Greting Given Cortes.

Under the impression that the fair god Jong professed had at last landed on their shores, Montezuma and his train had met Cortes and his army outside the city, on the spot now marked by the Hospital de Jesus, which Cortes afterwards erected as a memorial to the event. The Aztecs welcomed the Spaniards as beings of a higher world, sharing with them the hospitality of their home and their treasure. The subsequent conduct of the invaders was such as to give the impression that they were demons rather than gods, and they were requested to leave Tenochtitlan in decided terms, emphasized with the presence of a fierce Aztec army, whose atrocities the Spaniards had good reason to fear, having had ample ocular demonstration of the treatment accorded to captives in war.

Cortes, who had revelled in the easy conquest, and who had already taken unto himself wives from the daughters of the land, was driven on July 18, 1520, from the fair city which he had hoped to make his own by strategy and deceit, leaving behind such treasure as had aroused a very fire of covetous lust in the gold-worshipping Spaniards. Over the long causeway of Tacopan he and his men passed in their hasty march, banished and charged, and it was only natural that as the night came on, closing down around them as the cloud of Montezuma's displeasure had closed on their ambition, Cortes should pause to weep as his men rested on their arms. This he did, footsore and weary, and travel stained, under the shadow of an ancient monarch of the wood.

Tears Turn to Fury.

His tears were soon quenched by the rising heat of Cortes' fury and determination. What might not be accomplished by deceit and diplomacy should be brought to pass by fire and sword, and henceforth it was war to the death between the erstwhile friends, withdrawing to Tlaxcala. With the secrets of the old world science, Cortes manufactured powder wherewith to destroy the Aztecs, from sulphur out of the crater of their own sacred mountain Popocatepetl, the century-long guardian of their safety; brigantines were built from the wood of their sacred trees, to be put together on Lake Texcoco and launched against them.

December 1, 1520, six months after his expulsion, he returned and commenced the siege of Tenochtitlan. He found on the throne of the mild Montezuma (who had died the night before the Noche Triste, perishing at the hands of his own men and as an expiation of his

CO-PARTNERSHIP BOOMED.

English Employers Call the Idea a Solution of the Labor Problem.

London, May 30.—Co-partnership, or profit sharing, as a solution of the labor problem is at present the subject of the hour in England and arrangements are now being made for a national conference of great employers to devise a plan for its universal introduction.

Co-partnership is really in the business world here no new thing. There are firms in England that for fifty years have shared their profits in one form or another with their employees, but the movement is now being taken up widely as a remedy for the great disturbances of industry caused by strikes and as a check to the growth of socialism. So far the movement has assumed the form of a mere sharing of profits, the payment to the workmen of a bonus calculated on their earnings in profitable years. The other and truer form of co-partnership takes the form of assigning to the employes stock in the company on which regular dividends are paid when earned, just as on the stock of the regular shareholder.

When It Was Introduced.

The first system has been in operation for a good many years in a number of large gas companies. It was introduced by the late Sir Geo. Livesey at the South Metropolitan Gas works. Livesey, long with the object of inducing the workmen to economize in their own time and the company's materials, and to work so successfully that the company was able not only to pay substantial bonuses to the workers and large dividends to its shareholders, but also to repeatedly reduce the price of gas to the public. There has never been a strike of this company's employes since the system was introduced.

The more modern method of making the employes actual shareholders in its share in the work of two great capitalists of industry, Sir Christopher Furness, the great shipbuilder and shipowner, and W. H. Lever, M. P., the big soap-maker, whose works at Port Sunlight, near Liverpool, are famous all over the world. The ball was set rolling by Sir Christopher Furness early this year, after a series of disastrous strikes which nearly ruined the shipbuilding industry in the North of England. Sir Christopher made two proposals to his employees. One was to sell two shillings to the trade unions at a figure to be fixed by an arbitrator, and to allow them a long period to pay for them. The other was that the employes should actually become partners in the concern.

The latter scheme was agreed to, and is now in operation. Under it the men are entitled to have 3 per cent of their wages set aside for the purchase of shares in the company. These shares are guaranteed to pay 4 per cent and after they share in the common stock of the concern. If a man leaves or is discharged he must surrender his shares to the company at their market value, but the security of employment is guaranteed by the establishment of a "work committee" consisting of an equal number of members of the employes and the administrative staff, to which every man shall have the right of appeal. This committee will also deal with any disputes about wages or anything else arising between the men and the company.

A similar scheme, offering only in slight details, has been adopted by Lever Bros., and affects about 2,000 employes. This scheme involves the creation of 82,500,000 in co-partnership certificates, and they will be allotted yearly to the employes in accordance with the length of service and the wages earned. Thus a man whose earnings are less than \$200 a year will be allowed to acquire a maximum of 81,000 in co-partnership shares, while a man earning \$5,750 a year or more may acquire \$15,000 worth of shares. This rule is based on the theory that if a man has not risen into a high position before accumulating \$10,000 in co-partnership shares, he would be worth no more than that as a partner to the concern.

The scheme has also been adopted by jam makers, shoe manufacturers, and a host of other trades, the details being varied to suit the particular company, but in the broad lines all agree in making the worker an actual shareholder in the company in which he works. It is the catchword of the new movement.

Negaunee Department

PUBLIC DISCUSSES DEPOT PROPOSITION

OFFICIALS OF SOUTH SHORE AND NORTHWESTERN RAILWAY SYSTEMS WILL BE URGED TO PROVIDE A NEW UNION STATION.

It is quite possible that some concerted movement will be started within a few days in an effort to secure a new passenger station for Negaunee. The question has been discussed time and again for years past, but it has never received more serious attention than at this time.

A business man Saturday was not backward about criticizing the city officials because they do not lead in the movement. He said: "This matter should be taken up at once, and the city officials should be the ones to move. As our requests have been denied so many times by the management of both the South Shore and Northwestern railways, I think it is about time that we did something to show these officials that we are in earnest. Both depots should have been replaced years ago. I think the business men of Negaunee have been mighty easy with the railroads. The stations are not only a disgrace to the city, but also the railway companies. Negaunee certainly does not deserve this sort of treatment, and it is high time they arrived when all should put their shoulder to the wheel in an effort to secure either two separate stations or a satisfactory union depot."

Mayor Winter has given the matter much consideration since he was first elected to the executive office, and has had some encouragement from the railway officials, but nothing definite has been promised. It is said that the Northwestern officials are prepared to enter into an agreement with the South Shore management for the construction of a union depot at some convenient point, but that the matter has not yet been taken up seriously by the South Shore officials.

The opinion has been expressed by a number of the leading citizens that a union depot could be procured in short order if the matter was taken in hand by the officials of the mining companies. There is no question that the merchants, and in fact every other citizen in the city, are desirous of having the depot removed, and they would do anything in their power to secure the improvement.

SOME GOOD IDEAS.

Baseball Fan Offers Suggestions for Management of Twin City Teams.

"In view of the excellent patronage in prospect for the Negaunee and Ishpeming baseball teams this season, I would like to offer a few suggestions relative to accommodations at the grounds. It would cost but little to put a door on the west side of the carriage entrance. I believe that a carriage door should also be put in the south side of the fence. This would cut off an extra quarter of a mile, and would avoid crowding the main entrances on the north side. There should also be a policeman or two at the main entrances, to keep boys from crowding into the gateway. A week ago yesterday we almost had to walk over youngsters to get into the grounds. It would also suggest that the managements provide a large blackboard on which the scores could be marked up after each inning. The board should be connected by a removable telephone, over which returns could be received after each inning from the games being played at the same time at either Marquette or Munising."

"Another suggestion is that tickets for the games be sold in drug stores, or other places, in the two cities, so that patrons would be obliged to go into a jam at the ticket windows. This would avoid considerable of the delay, as under the present arrangement, only one can sell tickets to advantage."

Manager McCormick of the Marquette Comets (Michigan Electric company, which has control of the park, on Saturday said that a second gate will be put in on the north side and a ticket office is also to be installed at the grandstand. There will be but one entrance in the center of the grandstand, instead of two, as formerly, so that the ticket sellers and takers will have absolute control of it.

BOARD OF REVIEW MEETINGS.

City Recorder Mitchell has issued notices calling attention to the fact that the council will sit as a board of review on Monday and Tuesday, June 7 and 8, for the purpose of reviewing and correcting the assessment roll. The sessions will open at 9 o'clock and will be continued for eight hours each day. The public meetings of the board will be held on Monday and Tuesday, June 14 and 15, when taxpayers having grievances will be given a hearing.

TWO TAFT LETTERS.

Why He Declined to Be Considered for Presidency of Yale.

In 1899 members of the corporation of Yale desired to have William Howard Taft fill the vacancy in the presidency of the university, and at the request of these members, his brother, Henry W. Taft, wrote him a letter, which ran in part as follows:

"The persons in the corporation advocating your selection fear that you think that this man selected should have qualities which no man living could possess, or, in other words, that you have idealized the position beyond the possibility of realization. What they are striving to obtain is a broadminded man of affairs, of reputation and position in the country at large, selected by the faculty, and scholar, though not professional, attainments, of executive ability, popularity and progressiveness. They do not think the man should be one who could give points to the professors in their specialties or dictate to them in matters of curriculum though he is president of the university, and that they are doing and should be able to be a creditable representative of the university when coming in contact with the world in general. Their idea has quite naturally led to the suggestion that there should be established a position of vice-president and dean of the university, which should be filled by promotion of one of the professors. The dean would naturally come in close touch with the faculty in all academic questions, and the president would be the head of the university and its representative in all questions of its broader policy.

"It is thought that no one man can be found who will combine in himself the qualities which two men in these two positions might require. It is the belief of your friends in the corporation that you possess in an eminent degree the qualities which a president, performing functions like those mentioned above, should have, and they are anxious, before you reach a conclusion, that you should consider the question from their standpoint. I perhaps do not convey very well the idea which these men have, which have been giving the matter more thought than I think I know you and your aptitude sufficiently well to say that you would fill the position with entire credit and without detriment to your reputation, although I do not yet say that I would advise you to take it. I have my doubts."

In response Judge Taft on January 23, 1899, wrote in part as follows:

"There are * * * insuperable objections to my accepting an election to the presidency of Yale university. * * *

While I agree that a great university needs at its head a man of affairs and executive capacity, I cannot forget that a university is an organization for the purpose of imparting the highest and broadest education to those who seek it. Its president should, first of all, therefore, be an educator. He ought to be the real presiding officer in each of the faculties that make up the governing and teaching bodies of the university. He must have such broad culture and wide learning that he may be able to enter intelligently into the general discussions likely to arise in each faculty meeting.

"The profession of the educator is as distinct from that of the lawyer or that of the minister as those two professions are distinct from each other. It is true that one of the important functions of a president is to look after and conserve the material interests of the university. He has a duty to perform in acquiring persons of wealth with the responsibility that wealth imposes and the dependence of the higher educational interests of the country upon them for support. He must represent the university to the world. The exalted position of independence and disinterestedness which is accorded to a president

LOCAL LAONICS.

Nearly 150 fans accompanied the baseball team to Marquette yesterday.

James Carley left Saturday night for different points in Minnesota, to be absent ten days.

J. H. Saunders is here finishing up the electrical work at the new high school building.

The Marquette County Gas & Electric company put in a new diamond crossing on Cyr street Saturday.

George D. Sherman has completed building the concrete foundation for J. E. O'Donoghue's dwelling on Main street.

VICTIM OF MINERS' COMPLAINT.

The funeral of the late Erick Kangas, a well known Finnish resident of Negaunee, who died last Thursday night at Dr. Lindgren's hospital in Ishpeming, was held yesterday afternoon at 2 o'clock. Death was due to miners' complaint, from which the deceased had been a sufferer for some time.

The deceased, who was a brother of Mrs. Joseph Mitchell of this city, was twenty-eight years of age and single. He was employed at the Negaunee mine.

NO WORK TODAY.

Today will be observed as a holiday in both Negaunee and Ishpeming. The mercantile establishments of Negaunee will close at noon, remaining closed the remainder of the day, and the saloons will be closed all day. Practically all of the baseball fans of the city will attend the game at the Union Park and it is expected that the Memorial exercise at McDonald's Opera House under auspices of Charles H. Towne post of the Grand Army will also be well attended. A pleasing program has been arranged for the exercises, which are to start at 2 o'clock and last about two hours.

NATURE'S WARNING.

Kidney ills come quietly—mysteriously. But nature always warns you. See if the color is unhealthy—If there are settlements and sediment. Passages frequent, scanty, painful. It's time then use Doan's Kidney Pills.

To ward off Bright's disease or diabetes. Doan's have done great work in this locality.

M. Brown, 306 S. Jennie St., Escanaba, Mich., says: "About two years ago I began to suffer from pains in the lower part of my back, and after a hard day's work I was so lame I could hardly straighten. In the morning, upon arising, I felt lame and sore and the kidney secretions were often scant. A friend advised me to try Doan's Kidney Pills, and I accordingly procured a box. My kidneys were soon strengthened and the pains in my back disappeared. Recently when I had a return of pain, I again used Doan's Kidney Pills, and am glad to say that they promptly relieved me. I gladly tell of the great benefit I derived from this remedy."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

RIPON PRODUCE CO. RIPON, WIS.

CARRIES \$1,268,000 SIX BLOCKS; COURT GRANTS \$6,542 FEE.

Austin, Tex., May 30.—Sheriff Geo. Matthews has been allowed a fee of \$6,542 by Judge Charles A. Wilson of the district court for his services in escorting the Waters-Pierce Oil company's anti-trust fine of \$1,268,000 from the banks to the state treasury, a distance of six blocks. The money was conveyed to the treasury in automobiles, a process which made a record-breaking run up the street. Sheriff Matthews and four special deputies accompanied the money. Matthews' award will be paid out of the receipts of the company from its Texas business, which is in the hands of a state receiver.
