

URGE LOW DIVES BE WIPED OUT

Speakers at Convention of the United States Brewers' Association Advocate the Better Regulation of the Liquor Traffic.

That the Laws Governing the Conduct of the Saloons Be Strictly Enforced, Is Their Strong Recommendation, and That He Will Work to That End Is Formally Pledged by the New Head of the Beer Manufacturers' National Organization.

Atlantic City, N. J., June 3.—Proper and better regulation of the liquor traffic and the strict enforcement of the laws governing saloons and the liquor traffic in general were strongly recommended by the speakers at today's session of the convention of the United States Brewers' Association.

Percy Andrews, of the Michigan State Brewers' association, said that the low dives were largely responsible for the agitation against the liquor business, and he urged the members of the association to pledge themselves to assist the authorities in wiping them out.

The association, in secret session, adopted a resolution to the effect that brewers who ship beer from their own state into other states and acquire customers in other states should conform to the regulations and limitations which have been adopted by the local and state brewing organizations into whose territory they ship, and that they should assist the local brewers in their efforts to improve saloon conditions.

MICHIGAN DRUGGISTS GO DRY. Liquor Will Not Be Sold in Gratiot County Even on Prescription.

Excise Commission for Wisconsin. Madison, June 3.—By a vote of fifty to thirty-two, the assembly today passed the Austin excise commission bill.

TWO HOUSES CONTINUE AT ODDS. Illinois Legislature Adjourns Without Passing a Waterway Bill.

Springfield, Ills., June 3.—Without the enactment of any deep waterway legislation, the general assembly adjourned tonight.

PUBLIC HEALTH PARAMOUNT. Cities May Revoke Milkmen's Licenses, Rules Wisconsin Supreme Court.

Madison, Wis., June 3.—The supreme court today decided that a city council may vest the health commissioner of a city with power to revoke the licenses of milk dealers.

BANQUET TO CABINET OFFICIALS. Washington, June 3.—Secretaries MacVeagh and Dickinson will leave tomorrow for Chicago to attend the Commercial club banquet given in their honor.

TARIFF STRAIN TELLS ON SOLONS

There Occurring Several Clashes of Temper, It Is Shown That the Senate Is Not in a Particularly Amiable State of Mind.

Severely Criticizing Mr. Aldrich's References to Germany, Mr. Stone Engages in a Three Hours Colloquy With Him—Then a Great Deal More Time Is Wasted When Mr. LaFollette, Failing to Appear, Is Sharply Assailed and Vigorously Defended

Washington, June 3.—The senate was not in an amiable state of mind today, and as a consequence there were several clashes of temper. The day was begun with a speech by Mr. Stone, of Missouri, in which he asserted that the German officials had taken exception to the remarks recently made by Senator Aldrich relative to the wage statement supplied by the German government at the request of the American secretary of state.

Senator Aldrich had characterized as "impertinent" the effort which he claimed had been made in that statement to influence American tariff legislation, and Mr. Stone undertook to show that the epithet had been applied to the German government. Senator Aldrich resented this implication, but he repeatedly said that German manufacturers had undertaken to influence the course of the tariff bill and he charged that in so doing they had been guilty of impertinence.

Doce Is Sugar-Coated. The colloquy consumed almost three hours of time. Ultimately Senator Aldrich paid a high compliment to the German people and their emperor and the senate was closed for the day with the statement by Mr. Stone that while Mr. Aldrich and Senator Depey, who had not been involved in the controversy, had not made a straightforward retraction, as he had believed they should, they had so "sugar-coated" the dose as to relieve it of its bitter taste.

Wisconsin Senator a Storm Center. The atmosphere of the senate chamber was surcharged with electricity tonight when the tariff bill was taken up at 8 o'clock in the first night session since congress convened.

Chicago Police Arrest Him. Benjamin Miller Charged With Attempting to Extort Money from a Woman.

Chicago, June 3.—Benjamin Miller, alleged to have attempted to extort \$300 from Mrs. Benjamin Porter, whose husband, a life insurance agent, disappeared mysteriously several weeks ago, was arrested today.

Officials Under Fire. New York, June 3.—Supreme Justice Guy today heard the argument and reviewed his decision on the application of John L. Dancy, a stockholder of the United States Express company, for the appointment of a temporary receiver for that corporation.

Ill-Feeling on Every Side. Ill-Feeling was apparent on every side.

THE WEATHER.

Washington, June 3.—The following is the weather bureau's forecast for Upper Michigan: Showers, Friday afternoon or night; Saturday, partly cloudy; moderate south winds shifting to west.

Denies France Is Decadent. Bryn Mawr Instructor Resents Statement of David Starr Jordan.

Bryn Mawr, Pa., June 3.—Resenting a statement made by President David Starr Jordan, Leland Stanford University, in an address at the commencement exercises of Bryn Mawr college here today, Professor Lucien Foulet, instructor in French literature, arose from his seat on the platform and, exclaiming, "It is not so," left the building.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

HOUSE WITHOUT A QUORUM.

Washington, June 3.—After trying for three-quarters of an hour to obtain a quorum, and not meeting with success, the house today adjourned until Monday.

COL. ROOSEVELT SEES THRILLING RACE FOR LIFE

Hyena Gets on the Rails and Is Almost Run Down by the Engine, on the Cowcatcher of Which ex-President Is Riding.

Escortment, British Africa, June 3.—A special train with the Roosevelt party on board, arrived here from Nairobi at 3:30 o'clock this afternoon.

Is Delighted With the Scenery. Kibibi, British East Africa, June 3.—The Roosevelt special arrived here at 5:10 o'clock this afternoon.

Night Spent Under Canvas. The travelers will spend tonight under canvas in a camp established near the railroad station.

Many Lives Imperiled. Terrible Timber Fires Raging in Portions of Western Canada.

Winnipeg, Man., June 3.—Terrible timber fires are reported tonight from several parts of western Canada.

Chicago Police Arrest Him. Benjamin Miller Charged With Attempting to Extort Money from a Woman.

Officials Under Fire. New York, June 3.—Supreme Justice Guy today heard the argument and reviewed his decision on the application of John L. Dancy, a stockholder of the United States Express company, for the appointment of a temporary receiver for that corporation.

YOUNGSTERS COAST TO DEATH AND INJURY

Riding in a Child's Wagon, a Cincinnati Boy Is Killed and His Little Girl Companion Is Fatally Hurt When the Vehicle Swerves and Hurts Them in Front of a Street Car.

Cincinnati, June 3.—While coasting on a child's express wagon on a steep incline at McCormick place tonight, William Watts, aged six, was instantly killed and his companion, Agnes Ridge, of the same age, was fatally injured when the wagon on which they were riding swerved from the sidewalk, throwing them in front of a fast moving Highland avenue street car.

Automobile Party Has Marvelous Escape. Washington, June 3.—Senator Burkett of Nebraska, Secretary Kysback of the Norwegian legation and several others had a miraculous escape from serious injury tonight when the automobile in which they were riding skidded while crossing the Sligo (Md.) bridge, ten miles northwest of this city, and was prevented from plunging over with its occupants by the chauffeur's presence of mind and quickness in applying the brakes.

CHICAGO BOY DRINKS POISON. Afraid to Go Home After Spending His Week's Salary in a Saloon.

Chicago, June 3.—After spending his week's salary in drinking and gambling in a saloon, John Fryer, aged seventeen, committed suicide by drinking carbolic acid in a pool room here today.

DIES LEARNING TO SWIM. John J. Overly, a Student at Ann Arbor, Drowns in River.

Ann Arbor, Mich., June 3.—John J. Overly, aged twenty-one, of Kansas City, a junior literary student in the University of Michigan, was drowned this afternoon in the Huron river while learning to swim.

LYNCHING AT FRANKFORT, KY. Negro Who Shot and Seriously Wounded a Man Is Hanged by a Mob.

Frankfort, Ky., June 3.—John Maxey, a negro, who shot and seriously wounded B. C. Bowers, a circus man, last night, was taken from jail early today and was lynched.

BEST CELT CAN DO IS TO FINISH THIRD. Favorite Horse Beaten, the Brooklyn Handicap Furnishes One of the Greatest Surprises of the Racing Season—King James Wins, With Restigouche Second.

Grassland, N. Y., June 3.—H. C. Hillard's King James, winner of the Metropolitan handicap, added to his laurels today by winning the Brooklyn handicap, the stakes for which were \$3,000, in a race which was a quarter of 2:04.

WILL DIE ON THE GALLOWS. Bert Taylor Convicted of the Murder of His Sister-in-Law.

Minden, Neb., June 3.—Bert Taylor was tonight convicted of murder in the first degree and was sentenced to be hanged on Sept. 17.

SISTER IS HIS VICTIM. W. B. Blessing of New Orleans, La., Perpetrates a Brutal Crime.

New Orleans, June 3.—Flying into a rage when told that his twenty-year-old sister Bessie was to be married tonight, W. B. Blessing, aged thirty, attacked the girl today with a hatchet, inflicting serious wounds.

LOUISE ARBOGAST INDICTED. St. Paul Girl Is Charged With the Murder of Her Father.

St. Paul, June 3.—The Ramsey county grand jury this afternoon returned an indictment against Louise Arbogast, a twenty-two-year-old daughter of Louis Arbogast, the butcher murdered in his home here May 13, charging her with the murder of her father.

ARE DESPERATE OUTLAWS. Spokane Detective Identifies the Omaha Alleged Train Robbers.

Omaha, Neb., June 3.—W. D. Woods, Fred Torgensen and James Gordon, the three federal prisoners bound over by the Overland Limited train robbery, were positively identified by Detective McDonald of Spokane, who arrived in Omaha today.

ILLNESS MADE HIM DESPONDENT. Prominent Business Man of Kansas City Ends His Existence by Shooting.

Kansas City, June 3.—John W. Spear, a prominent businessman, committed suicide this morning by shooting. He was despondent because of ill health.

SLAIN IN CHICAGO; ROBBERS BLAMED

Dr. John T. Binkley, Sr., of Evansville, Indiana, Is Found Dead at the Wellington Hotel With a Bullet in His Brain.

Chicago, June 3.—The coroner's inquiry into the death of Dr. John T. Binkley, Sr., of Evansville, Ind., who was found dead at the Wellington Hotel in this city, last night, was continued today until June 10, after Coroner's Physician Reinhardt had made a post-mortem examination of the body and discovered what he declared to be evidence in support of the theory that the aged physician did not commit suicide.

WALLET AND WATCH ARE MISSING. It was also shown that the doctor's coat and vest were found open and the wallet he habitually carried in an inside vest pocket was missing, as was his watch.

THE NEW DEMANDS. The new demands, according to Senator McNichol, submitted to the company the demands of the men. These, it is understood, were somewhat modified from their original demands.

MUCH TURBULENCE AT NIGHT. Philadelphia, June 3.—The report that the strike probably would be settled within twenty-four hours spread like wildfire tonight, but not before rioters in the Kensington district had started on their errand of destruction.

SHOPMEN QUIT WORK. Baltimore & Ohio Employees Rebel Against the Piece Work System.

Baltimore, June 3.—The strike of the machinists and their helpers in the Baltimore & Ohio railroad shops as a protest against the introduction of the piece work system in the erecting department has now extended as far west as Garrett, Ind. At the company's office here tonight it was stated that only about 25 per cent of the men employed have stopped work.

BOSTON STRIKE EXPANDS. Union Electricians Refuse to Work Except at an Increase in Wages.

Boston, June 3.—Building operations in this city were given additional hindrance today when about eight hundred union electricians went on a strike for increase in wages.

THOSE WHO HAVE DIED. Baden Baden, June 3.—Dr. Theodore Barth, leader of one of the radical parties of the German reichstag, died here today, aged sixty.

NEW YORK, June 3.—Samuel Ashton, a lawyer, formerly of Chicago, where forty years ago he was a supreme court judge, died here today, aged eighty-five.

PASTOR, R. I., June 3.—Mrs. Stephen F. Fisk, vice-regent of the national society of the D-8th of the American Revolution, is dead, aged fifty-seven.

PEACE IN SIGHT FOR PHILADELPHIA

Political Leaders Take a Hand in the Traction Strike, as a Result of Which an Amicable Settlement Is Expected Today.

Fury of the Lawless Element Is Abated When Announcement Is Made That the Adjustment of the Trouble Is Near at Hand, but Not Until More Rioting Has Been Indulged In, Cars Being Wrecked and Non-Unionists and Policemen Assaulted.

Philadelphia, June 3.—The strike of the motormen and conductors of the Philadelphia Rapid Transit company, which began last Saturday, is now in process of settlement, and those having the matter in charge confidently assert that it will be brought to a close within twenty-four hours.

For the first time since the strike began a number of employes of the elevated road deserted their posts and joined the strikers. This line, however, continued in operation all day. The cars on the other lines of the company ran at irregular intervals until midnight, when no further attempt was made to continue the service.

Influential political leaders today bent all their energies towards bringing the trouble to a peaceable conclusion. Senator McNichol, the recognized Republican leader, and Senator Vane announced that they sympathized with the men and were trying to bring the strike to an end.

After a conference with a number of the strike leaders, Senator McNichol, on behalf of the men, submitted to the company the demands of the men. These, it is understood, were somewhat modified from their original demands.

The new demands, according to Senator McNichol, submitted to the company the demands of the men. These, it is understood, were somewhat modified from their original demands.

By conferring with a committee representing the men, are other demands.

MARQUETTE, MICH., JUNE 4.

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

War with Japan? Did the love feast at Washington this week look like it?

Senator Aldrich's ally has at last arrived in Washington. It is hot weather, and it is expected to greatly expedite the disposal of the tariff bill.

Captain C. D. Blanchard, poor superintendent of Marquette county, furnishes one excellent example of why Governor Warner should veto the Taylor bill providing for limiting the number of terms for these officials to two.

The Escanaba council has refused to pay the interest on the note given to the Abbott Voting Machine company for the purchase of seven voting machines, and the company will begin suit to enforce collection.

The ruling of Captain Trebilcock that Supervisor Williams' motion to recommend to State Game Warden Pierce the removal of Deputy Harrington was out of order could only have been arrived at by a process of reasoning mysterious to the average mind.

The "antis" in the Escanaba council have considerably the best of the situation created by the deadlock that has arisen over Mayor Greenhoot's slate of appointments. The "antis," one and all, were component parts of the machine by which Mr. Perron managed the city's affairs during the three years he was mayor.

Governor Warner intends to veto Senator Taylor's bill prohibiting superintendents of the poor from holding office for more than two terms of four years each. He believes that when a board of supervisors has succeeded in finding a good man for this position it should be allowed to retain him indefinitely, and that it would be against public policy to approve a law arbitrarily compelling boards of supervisors to let out men who might be giving the best of service.

Lieutenant Governor Kelley will, it is reported, get his gubernatorial canvass under way at once. Conferences with various officials prominent in state affairs have been held by him this week, and he is endeavoring to get a line on the general situation. The good people of Michigan need not apprehend, however, that they are going to be

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Capital and Surplus... \$200,000.00

prematurely rushed into a campaign just because the general public is looking around. It will be well into next year before the hostilities reach the open stage, but the marked favor with which the candidacy of Chase S. Osborn of the Soo has been received has caused the other aspirants to move early season thinking. Under the primary system, it may be remarked, a campaign is a sort of a constant party, and so any ticks the candidates put in from this time on will show themselves in the total.

Notices have been posted in the various plants of the American Sheet & Tin Plate company, a subsidiary of the U. S. Steel corporation, that after June 30 the company will refuse to recognize, or deal with, the Amalgamated Association of Iron, Steel, Sheet and Tin workers. This company is the last of the Steel Trust's subsidiaries to maintain relations with the unions, and its announced purpose to take a stand for the "open shop" will have the effect of putting the entire great industrial organization embraced by the Steel Trust on an "open shop" basis.

The pyrotechnics in the shares of the Mass Copper company this week have given rise to a well-grounded suspicion that the public has in some manner been thimble-rigged in this stock, and the conjecture as to where the responsibility lies covers a wide range. Certainly the spectacle of the shares mounting to over \$18 on the alleged promise of the mill run on the rock from the mine's newest copper bearing territory, followed by a break in three days to less than \$10, suggests operations by somebody that are not above suspicion.

"JOKER" IN SUGAR SCHEDULE. Nearly all of the more important tariff schedules seem to contain their little "joker," which is the term applied to some usually obscure and apparently innocent clause injected into the law, which however "turns the trick" for the big business interests—usually a trust—which are particularly concerned in securing enough protection to smother all outside competition and leave them in control of the home trade.

"There was a time when 'No. 16 Dutch standard' meant something in commerce. But with the invention of the polariscope test for the amount of sweetness in sugar, 'No. 16 Dutch standard' which really measured only the color of the sugar, fell into disuse—except as a joker for the tariff laws.

Sugar below No. 16 is too dark to be retailed. The only market for it is the sugar trust, which buys and whitens it. No sugar of this grade carries the comparatively low duty of raw sugar. But all sugar above No. 16 Dutch standard is color, and all sugar which has gone through a process of refining takes the high duty of refined sugar. This makes the light brown sugar pay the same duty as refined sugar and so virtually prevents its importation.

Now, the sugar mills produce this light brown sugar. The sugar is put in centrifugal machines and whirled until most of the molasses adhering to the crystals are whirled off. The little remaining molasses gives the brown color. The sugar is perfectly good for the kitchen, and it would be shipped into the United States in enormous quantities from the sugar mills provided the duty on it was not prohibitive. Considering the price which it will bring, there would be lively competition with the sugar trust and prices would go down.

But the trust, which was lately caught with its hand in the government's pocket, pilfering like a common sneak thief, has been able to keep off competition and preserve a practical monopoly by the "joker" in the tariff bill which has shut out the light brown sugar. Many people have probably wondered what has become in recent years of the good old-fashioned brown sugar that used to be so common in the pantries of our grandmothers, which was considerably cheaper than the so-called white or granulated sugar, and took the place of the latter in much of the cooking and sweetening of former days. This old-fashioned brown sugar was actually sweeter than the granulated article, and for many culinary uses it was regarded as superior and preferable to the higher priced grades. A little of it still finds its way to the channels of retail trade, but it is sold at prices that so greatly reduces the economy of its use that it is

scarcely utilized by the housewives of today. And the reason for the disappearance of this brown sugar in trade is the existence of this "joker" in the sugar schedule of the tariff, which virtually bars the cheaper grades of sugar from competition with the higher priced grades, giving the trust a virtual monopoly of the market.

During the recent discussions in the senate over the sugar schedule Senator Brewster, of Kansas, vigorously contended that a change should be made in the wording of the law to permit the admission of sugar of grades up to No. 25 Dutch standard, at the same low rates of duty which are now applied to grades below No. 16 classification. Of course the sugar trust interests, and the senator friendly to the trust, were strongly opposed to this proposal, and of course they managed to have their way about it. Yet sooner or later the people will commence to understand how the sugar jokers, and similar jokers in the tariff bill, really work to their own disadvantage. And when they do there will be insistent demand for changes that will rob the trusts and monopolies of the advantages they now enjoy as a result of these cleverly contrived clauses in the tariff law, which of course are intended, and actually do operate to the advantage of the trusts.

Upper Peninsula

Lost an Eye—Master John Krivantki, of Stambaugh, has lost an eye as a result of the foolishness of a playmate. While returning from school, he was struck in the right eye by a stone thrown by another small boy. He was taken to Menominee, where an examination established that the injury was so serious that it would be necessary to remove the eye. The operation was thereupon performed.

Faces Long Term in Prison—Charged with a serious criminal offense preferred by Mildred Nolan, fourteen years of age, John McGirr, a resident of Escanaba for many years, was arrested. When arraigned before Judge Emil Glazer he waived his preliminary examination and was bound over to the circuit court for trial. Bail was fixed at \$1,000 and as McGirr is without funds he is confined at the county jail. The charge made by the girl is one of the most revolting ever revealed in an Escanaba court.

Fire Destroys Sawmill—The lumber and shingle mill of U. W. Russell at Stephenson, Menominee county, has been destroyed by fire. The five jagged sheets of flame lighting up the sky for miles around. Mr. Russell was one of the most prominent in the fight to save his mill. He was badly burned about the head and face and is in a serious condition. It was only recently that his home burned, and was a total loss also. It is not known yet whether the mill will be rebuilt.

Mining Student Injured—A Michigan College of Mines student named Goodyear is at St. George's hospital at Iron Mountain, suffering from injuries sustained in the Florence mine at Florence, Wis., Menominee iron range. The young man missed his footing and fell away into a winze, a distance of sixty feet, which rendered him unconscious for some time and caused injury to his legs and face. He was taken to Iron Mountain by special train. The young man is a nephew of Rev. F. P. Knowles of Iron Mountain.

Fish Plantings Nearly Finished—The last lake plantings to be made by the Sault Ste. Marie hatchery this season were made by Superintendent Marks when 2,000,000 lake trout were sent to Whitefish bay on the tug G. W. Endress. There still remain in the hatchery a million lake trout fry to be planted in the inland lakes of the peninsula, half a million rainbow trout to go into the St. Mary's river and inland streams, and 30,000 land-locked salmon which will be planted in the St. Mary's rapids next fall, after they have reached the fingerling size. The planting of the rainbows and lake trout will be made before the 15th of June.

Bank for Baraga County—Baraga will soon have a bank, the first one in the county since the E. L. Mason private bank, which long ago ceased doing business. S. H. Kinsley of DeTour arrived in Baraga recently and has made all the necessary arrangements to open a financial institution to be known as the Baraga County State Bank. Mr. Kinsley has canvassed Baraga and the surrounding farming district and has met with great success in securing the business men and others to subscribe for the stock. The bank will be capitalized at \$20,000, fully subscribed, and will start business about July 1. The Schwab building on Superior avenue has been

A HARD CASE

Imagine a man so low with kidney disease that he had to sit up night and day. He even had to sleep sitting up, being unable to lay in his bed or stand on his feet. Yet such was the final condition of W. R. Marquis, the well-known business man of Barrow, Fla. He went to a sanitarium in Memphis, where he was attended by three physicians. They gave up the case and advised that he go home.

On his return he heard of and sent for the new emollient treatment. The fourth week the heart and dizziness began to mend, and the fourth month he was walking all over the town without cane or crutches, and he permits this reference. No matter what kidney disease—whether kidney trouble, Nephritis or Bright's Disease—it is inflammation of the kidneys, and as the old-time futile kidney medicines are kidney excitants, you can see why they failed in his case as they have in yours. Fenton's Renal Compound is the first successful renal emollient thus reducing Renal inflammation, and kidney disease is now curable for the first time. Even serious supposed incurable forms yield as above. Literature mailed free. John J. Fulton Co., San Francisco. The Stafford Drug Co. are sole local agents. Ask for Bi-monthly Bulletin of late recoveries.

secured for banking purposes and is now being remodeled. Mr. Kinsley, who will be the cashier, is at present cashier of the State bank at DeTour. Building a Logging Railroad—The firm of Charles Hebard & Son of Peppanung has a crew of 500 men at work, under the foremanship of Oliver Morris, cutting and grading the right-of-way for a logging railroad which is to run from Peppanung to Section 16, Township 52 N., Range 31 W., in Arvon township, Baraga county. The surveying has been in progress for some time under the direction of F. E. Sinar, of Calumet. The road will be eleven miles long, and from time to time, as the available timber is cut, will be extended further back into the woods. In the way of material, a Lima engine has arrived in L'Anse and another one has been ordered. Part of the rails and ties are at the scene of operations, and fast as these are used, they will be replenished. Necessary cuts have been purchased and will arrive before the road is completed, which will be in about three months.

"THE BEST REGULATOR" We promise to return every cent paid us for Rexall Orderlies if they fail to satisfactorily relieve constipation. They are eaten like candy, are particularly good for delicate persons and children, do not grip or cause nausea, and may be taken at any time of day or night without any inconvenience whatever. We want you to try Rexall Orderlies at our risk because we are positive they will do as we claim. Two sizes, 10c, and 25c. The Stafford Drug Co., the Rexall Store.

S.S.S. MAKES A LASTING CURE Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S. S. S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S. S. S. is your most certain relief, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. Home treatment book with valuable suggestions and any medical advice sent free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

SUICIDE OF LEO SCHULTE.

Despondency Due to Ill Health Believed to Have Prompted It.

The action of Leo Schulte, aged twenty-eight, of Calumet, in shooting himself through the temples while riding into Calumet on the St. Paul train Wednesday noon was a great shock to his friends. The young man lived about two hours after committing the deed, dying at the Laurium hospital. Despondency because of ill health is believed to have prompted his rash act. Mr. Schulte had been in indifferent health for about a year, and on April 13 he left for Battle Creek and entered the Kellogg sanitarium. It appears that his quest for restored health was unsuccessful. A letter addressed to friends of Mr. Schulte in Calumet, and written at Battle Creek May 27, was found pinned to his coat. Corner Fisher opened the letter, but would not allow its contents to be made public. Mr. Schulte was one of the best known young men in Calumet. He held a responsible position as bookkeeper at Raer Bros. He was a graduate of the Seward High school.

F. G. COGINN TO RESIGN.

Valuable Member of Board of Supervisors Will Retire Soon.

The meeting of the Houghton county board next Tuesday morning will probably be the last one which F. G. Cogginn, supervisor from Stanton township, will attend. Mr. Cogginn expects to tender his resignation to the Stanton township board sometime within the present month, as he expects to leave the copper country, having severed his connection with the mills on the lake shore. Mr. Cogginn was not ready yesterday to make known his plans.

His resignation will be a distinct loss to the board, supervisors of which he has been a member for a number of years. He has been chairman of the poor committee and the new county infirmary is a tribute to his careful supervision during its construction, as well as his contributions to the general plan of the institution. This is only one of a number of important matters in which Mr. Cogginn has served the county well. On the board he has always been a ready speaker and one who was listened to with attention. He will be remembered as a conservative member of the board, but an aggressive one when the county's interests demanded it. Mr. Cogginn has also resigned from the Michigan Naval Brigade, he having been an engineer officer of the Yantic.

ROCK CRUSHER COMES.

Houghton's New Machine Now Being Installed at South Street Bluff.

The new Aurora rock crusher recently purchased by Houghton has arrived and yesterday C. J. Goodell of Duluth, the manufacturer's agent, who sold the machine, began setting it up on South street near the bluff which will for some time provide the village with road material. The machine is the most modern one of the kind and will replace the antiquated crusher which has been in use for years. The crusher is a combination machine which delivers the crushed rock into wagons in three sizes. The crusher has an elevator attachment, an endless chain of buckets, which carries the crushed rock up to the top of a portable bin on which is placed a rotary separator. The material is divided into three bins and from them the material is delivered into wagons through shuttles.

The economy in the machine is in the saving of labor. With the old device there was no separator and it was difficult to divide the different sized rock. It also made necessary shoveling into wagons and other handling which increased the cost of labor. The machine will be in operation within a day or two and the village will then work at the South street bluff using the crushed rock wherever required until the bluff is removed and the street levelled off.

ALUMNI TO ENTERTAIN SENIORS.

The Calumet High School Alumni association has selected Tuesday evening, June 15, as the date for the reception to the members of this year's senior class. The reception will be held at Electric Park. The arrangements are in the hands of the alumni officers. These are: President, Miss Alma Jagersoll; vice president, Lloyd Vilma; secretary, George Fuller; treasurer, Arthur Gribble.

SCHOOLS' ANNUAL EXHIBIT.

Manual Training, Domestic and Drawing Work Shown at Houghton.

The annual exhibit of the manual training, domestic science and drawing departments of the Houghton public schools opened last night in the Central building, and it is most interesting. It will continue this afternoon and evening. Probably more interest for the general public attaches to the work of the manual training department. This exhibit, shown in the kindergarten room, is truly remarkable. Professor Krieger has fitted up a den in the south bay window, and this den is completely furnished with the handwork of the boys. There are tables, tabourets, a Morris chair, a desk, book and magazine racks, electric light stands, clocks and framed pictures. All of the pieces shown are high class examples of cabinet-making and joinery and they are finished in a perfect manner.

The more important pieces shown are a center table by Harrison Miller, a Morris chair by Carl Mills, a book case by Harold Knoll, glove box by Ernest Colombe, desk by Emer Theriault, and lamp by Roy Lewis. A particularly interesting exhibit of mechanical drawing by H. Chynoweth is shown. The den also shows a number of pieces of metal work by the arts and crafts classes. An especially excellent bit of work is a cherry cabinet by Fred Boesler of the seventh grade. A magazine stand by Arthur Nancarrow is worthy of mention, and so are the clocks by Phil Penberthy and Alvin Beck.

The manual exhibit also contains the tools and work benches used by the boys, as well as specimens of the elementary work in wood. The work turned out by this department is a credit to the school and the boys who made it.

Miss John's domestic science department shows examples of the cooking of the school and the sewing of the girls in the fifth, sixth and seventh grades. The cooking shows bread, rolls, pies, salads and many other creations of the culinary art. The sewing covers a wide variety of things. It should be understood that the domestic science classes devote only a small portion of time to this work, in some cases only two hours per month. The work is therefore all the more creditable.

Miss Hecker's drawing department offers an attractive exhibit, including the work recently shown at the agricultural college, which received special mention.

MONUMENTS TO SOLDIERS.

Money Will Be Raised to Erect One in Lakeside Cemetery.

It is planned to erect monuments over the graves of the soldiers buried in the cemeteries at Hancock and Houghton. This comes as a result of suggestions made on Memorial Day. A prominent Houghton member of the G. A. R. stated that he would be willing to donate money for the erection of a monument at Forest Hill cemetery if Hancock people would raise funds to provide a similar memorial at Lakeside cemetery. The monuments proposed would cost about \$1,000 each. It is estimated that \$200 can be raised at Hancock at once, through the donations of two Civil war veterans. Other citizens have not been approached, but it seems that it would be an easy matter to raise the remainder of the money. A pretty semi-circular plot has been reserved at Lakeside for the interment of the remains of war veterans, and there is an ideal site for the proposed monument.

WILL BUILD MANY WALKS.

Contractor McDonald Getting Ready for Immediate Operations.

John T. McDonald, who has been awarded the contract to build concrete sidewalks at Laurium, will get to work as soon as he can get his material on the ground. Lehigh cement will be used. The first work will be done on Hecla street, between First and Second. From there the contractor will go to the south side of Lake Linden avenue, and then over to Boundary street. Walks will also be laid in other parts of the town, according to the decision of the council, taken some time ago. It is likely that the amount of walks to be laid by Contractor McDonald will be closer to 100,000 square feet than to 30,000, for the property holders all over the town who have not already got concrete walks are petitioning the council to put in the same. As the property holders pay for the walks, it is only reasonable to presume that the council will accede to their wishes.

EQUIPMENT FOR RECRUITS.

Houghton Light Infantry Receives New Rifles and Clothing.

The Houghton Light Infantry yesterday received from the quartermaster general a consignment of ten new Springfield rifles and a quantity of clothing. This additional equipment is in the care of the recruits and to polish up the appearance of the company in anticipation of the annual encampment trip.

Colonel Thielman, assistant inspector general of Calumet, will in Houghton Wednesday afternoon for the purpose of inspecting the Harontown rifle range. Captain Foley says that he believes the state will defray the expenses of fitting up the range and restoring it to usefulness, it having been somewhat neglected of late years.

FARMERS WANT BETTER ROADS.

The farmers of the Trap Rock river valley about twenty-five or thirty in number, have petitioned the Calumet township board to improve the highways in their district. They want the improvements made as soon as possible. It is claimed that at certain seasons it is almost impossible to get from the residents of the district to get out of the valley at all. They could not cross the swollen and swift waters of the Trap Rock river. It is not unlikely that the board will decide to make some improvements in that district this summer.

Best for Three Generations

HOUGHTON EXPANDING.

Hubbell Heights Is Added by the Hubbell Estate Company.

The Hubbell Heights addition to the village of Houghton was yesterday filed in the office of Register of Deeds Mackenzie. It is located in East Houghton, adjoins the Hubbell addition and extends four blocks south from Sheron street. The addition includes seventeen blocks, and it is crossed by eight streets, with Hubbell avenue dividing it in the center. The addition is made by the Hubbell Estate company, of which Lessing Karger is president and John C. Stone secretary.

AN ONSLAUGHT OF NOTABLES.

Hon. Patrick H. Kelley and Hon. Chase S. Osborn Are Coming.

Hon. Patrick H. Kelley, lieutenant governor of Michigan, and Hon. Chase S. Osborn, regent of the Michigan state university, to give them the titles to which they are at present answerable, are both coming to the copper country in the same week. And in the matter of titles, it is a title which makes their visit notable. They both seek the title of governor of Michigan and are the most prominent candidates for the Warren succession.

It is probable that both men would come here were there no tinge of politics in their visit, because the purpose of the visit of each is easy to stretch to a sentiment. Mr. Kelley is coming to deliver the commencement oration to the Houghton High school class of 1909 on the sixteenth of June. This is fitting and well, because he is a retired school master and state superintendent of public instruction turned lawyer and politician.

Mr. Osborn is coming to address the Copper Country Press club at the Douglas House, June 13, the occasion being the annual banquet of that club. This is an appropriate visit, because the regent is an old newspaperman, having once been editor of the Soo News and now having an interest in the Saginaw Courier-Herald.

None will say that these two are coming up looking for votes. But just the same there will be some talk.

RIGHT-HAND OF FELLOWSHIP DOINGS.

They are here, because there never were two smoother miners than these two opposing candidates for the Republican nomination for governor of Michigan. They are coming here to talk on subjects in which they are interested from choice and not from political motives, but they are coming to talk and they are two of the best single-handed talkers in Michigan. The difference is that Mr. Osborn is an orator while Mr. Kelley is a spellbinder.

Just which one of these two schools of talk will get the votes will probably not be demonstrated for a long time, but in the meantime the copper country will be for a little while a sort of a political center, which may show that the copper country is a section which it is good for a gubernatorial candidate to have on his staff.

INTERSCHOLASTIC MEET.

All arrangements have been completed for the county interscholastic field track meet at the Laurium driving park Saturday afternoon. Seven schools have entered teams, which means that there will be nearly 100 athletes competing in the various events. The officials of the meet have been named as follows: Referee, George W. Williams; clerk of course, William McKay; starter, F. D. Stewart; timers, A. D. Westerman, C. W. Humbergood and P. L. McClelland; judges of finish, Thomas Leahy, Harry E. King and W. Polkinghorne; held judges, John J. Ellis, Jr., Herbert George, James Michels; announcer, Robert McDonald. The schools with teams entered are Atlantic, Calumet, Doling Bay, Hancock, Houghton, L'Anse and Lake Linden.

THE LANDLUBBER.

Small Boy—Did you ever catch any whales? Sailor—No. Small Boy—Ever shipwrecked? Sailor—No. Small Boy—Ever cast on a desert island? Sailor—No. Small Boy—Ever caught by cannibals? Sailor—No. Small Boy (disgusted)—Why, you ought as well have stayed on land!—The Throne.

MINING NEWS.

BONANZA CIRCLE MINES.

The Calumet and Arizona and the Superior & Pittsburg properties are in excellent condition. The former continues work at three points. From the Oliver and Mag shafts an abundance of ore is being taken daily to make the desired output. The work at the Powell shaft is still in the developing stage, although it will not be long until the first shaft is set at the 600 level. From this point descending toward the Shattuck property and in the opposite direction will begin. It is almost a certainty that important ore bodies will be encountered.

The Cole, Junction and Houston are the working shafts of the Superior & Pittsburg. All are producing ore sufficient for a monthly output of 2,200,000 pounds. This can be easily increased if desired. Development work continues in the lower levels of these shafts. The best showings have been found at the deepest levels and the ground between the Houston, Junction and Briggs shafts is expected to confirm the faith of many mining men in the Warren district. Crosscuts are being run into this promising territory from both the Houston and the Junction.

No. 3 shaft, which formerly was owned by the original Lake Superior & Pittsburg company, considerable good ore is being taken from the surface workings. The old shaft is connected with the 100-level of the Cole shaft.

There are now more than 1,300 men in the payrolls of the Calumet & Arizona and the Superior & Pittsburg.

LAKE MINING GOSSIP.

Some very good ground is being opened in the North Kearsarge; the ground in South Kearsarge is well mineralized, and in Osceola proper continues up to the average, so that results from the Osceola Consolidated this year ought to be entirely satisfactory.

The Alton and Central continue pushing development work and increasing ground reserves, and the latest openings are disclosing runs of copper ground that will make excellent stoping. The latter shaft has gone down in a good hole, and the drift extensions at the several levels have disclosed a highly mineralized formation. La Salle will stand watching, as there are several other holes underlying the lands of the company.

The Ahmeek is pushing down shafts one and two and extending openings. The two new shafts are also being sunk as rapidly as possible. Work on the new mill is progressing satisfactorily, but it will probably be the end of the year before the plant goes into commission. In the meantime arrangements have been made for the use of two heads in the Franklin mill, in addition to those being used at the Tamarack plant, so that fully 1,500 tons will be sent to the mill daily. Averaging about the same as last year, this would assure a yield of between 9,000,000 and 10,000,000 pounds of refined copper, from which a good profit should be made.

PLANS A BIG LIBRARY.

Purpose of the National Press Club at Washington.

Newspaper Organization Is Composed of Newspaper Correspondents—Many Additions Are Being Made to the Collection of Books—Prominent Statesmen Among the Associate Members.

WASHINGTON, June 3.—The National Press club is the pride of Washington correspondents. Its library is one of the club's most treasured possessions. This library is still in its infancy, but it is making a start, and already contains many of the most valuable reference publications issued by the government. Additions are being made every few days, and it is the hope of the correspondents that in time the shelves will be filled with a practically complete collection of official publications to which the busy writer may turn readily, and often avoid the long trip to the Library of Congress.

RECENTLY the boys have started in to improve on their original plan. Tom Shipp, secretary of the National conservation committee, espied a vacant shaft in the library the other day, and as he is an Indiana man, he immediately conceived the idea of filling it with the works of Hoosier authors. He communicated with a publishing firm in Indianapolis, and was accompanied by the publisher, who promptly suggested that a whole room ought to be set apart for the stiltations of Hoosier genius, and started in with a new dozen as a sample. The volumes range from George Ade's "The Slim Princess" to the "Forty Years of Oratory" of the late Senator Voorhees, and of course include the popular fiction of which "When Knighthood Was in Flower" is a type.

MAY FOUND A MODEL LIBRARY.

This episode is not so interesting in itself as in its hint that the National Press club may render a unique service to itself and to journalism in the establishment, in time, of a model library. The newspaper correspondents are not unmindful that the library by them of the public meet with exceptional response. They are exceedingly pained of their own influence and do not trade upon it; for they know that the slight departure from the proprieties would impair the standing of the corps and inevitably react upon the profession. Nevertheless, the National Press club occupies a unique position and one in which it can exert great influence without sacrifice of dignity. The club now has an active list of 207 members, to which 111 associate members have been added. It is the fixed policy of the club to restrict its associate membership to about half the active list; and to provide against "padding" the membership in the interest of any faction the by-laws carefully prescribe that no member of the board of governors shall be permitted to propose a person for membership in either class. Five United States senators are associate members of the club, and several times that number of congressmen.

THE club house is conveniently situated on the corners of Fifteenth and C streets, across from the Treasury Building and Secretary MacVeagh's office. Enough money is represented in the membership of the club to build several clubhouses the size of the Hotel Willard. It is the ultimate purpose of the club to have a home of its own; and it is in this connection that the suggestion of increasing the library by adding the works of authors according to States is of interest. The possession of books invariably cultivates a taste for more, and the club is now determined to make its list of official publications complete. These alone would overrun the entire clubhouse, if judgment were not used in the selection, and now that gifts of books to the club are beginning to come in, the question of supplying a place for them may attain an importance never contemplated by the correspondents when they opened their new quarters.

WASHINGTON'S NARROW CLUB LIFE.

All this, however, is really preliminary to saying that life in Washington is capable of infinite improvement. It so happens that the National Press club has entered upon its vigorous life at the time when the need of social development is most keenly felt. Some of the existing clubs are snobbish to the last degree. The Army and Navy has a technical exclusiveness of its own that can hardly be criticized. The same is true of the coming University and the Country Club, which long to build fine homes in the vicinity of the Arlington Hotel. The Metropolitan is exclusive with an arrogance to which it is welcome, and the Country Club at Chevy Chase, like some other Washington clubs that should set a better example, draws

the line on men engaged in "trade." Many of the leading business men of Washington, irreproachable in every way, wealthy, public spirited and with the finest tastes, are excluded from several club organizations simply because they are engaged in business. Strictly enough, however, this real estate men whose influence on the upholding of the City of Washington often has been of the worst kind, are welcomed into the inner circles of Washington clubdom while their betters are excluded.

AIMS TO SAVE SITES FOR WATER POWER

Geological Survey Recommends Temporary Withdrawals on Public Domains Aggregating 236,365 Acres—Would Protect the More Important Locations.

Washington, June 3.—The first definite results of the recent wrangles over water power sites on the public domain are announced by the geological survey here today. Director George O. Smith of the survey, who began an investigation of public lands for power sites on April 27 last, has recommended eleven temporary withdrawals. This is done "in aid of proposed legislation affecting the disposal of the water power sites on the public domain."

THE Director of the geological survey has assured the secretary that the temporary withdrawals of water-power sites, which are now recommended by Director Smith and which aggregate 236,365 acres of public lands in Utah, Colorado, Wyoming, Montana, Idaho and Oregon, have been approved by Secretary Gallinger. The present policy is to protect the public interests on the one hand by promptly withdrawing from all entry all public lands containing possible power sites, and on the other hand by excluding from such withdrawals, as far as information at hand warrants, all areas of no value for power purposes, but properly disposable under the agricultural and other public land laws.

ON DATA ALREADY ON FILE.

On the other hand the revised withdrawals in the same regions in some instances cover power sites missed by the earlier action. Thus in the case of the Salmon river in Idaho, where the original withdrawal totaled 322,500 acres, that based upon the recent recommendations of the geological survey includes 53,700 acres. A similar reduction holds for the Owyhee river in Oregon and in even greater measure for the Flathead and the Missouri and tributaries in Montana.

ALL the recommendations by the geological survey have been based upon official data already on file. The streamflow records collected by the water resources branch of the survey and by the reclamation service constitute practically all the hydrographic information available for the public land sites, stations on all the important streams in these states having been maintained for a series of years for the purpose of determining the water available for irrigation. The topographic surveys which have been conducted by the geological survey for thirty years also furnish means of selecting without delay the sections of the rivers important for power purposes.

Put This Stove in Your Kitchen

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days.

NEW PERFECTION Wick Blue Flame Oil Cook-Stove

is so constructed that it does not add perceptibly to the heat of a room. It differs from all other oil stoves in its substantial CABINET TOP, with shelf for warming plates and keeping cooked food hot, and drop shelves for holding small cooking utensils. Has every convenience, even to bars for towels. Threesizes. With or without Cabinet Top. If not with your dealer, write our nearest agency.

The Rayo Lamp is the ideal lamp for family use—safe, convenient, economical, and a great light giver. If not with your dealer, write our nearest agency.

Standard Oil Company (Incorporated)

COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Granite is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

City Brevities

Today's weather: Partly cloudy; stationary temperature.

Yesterday's temperature: Seven a. m., 47 degrees; noon, 48; 7 p. m., 60; maximum, 61; minimum, 46.

David Campbell left for Chicago on business last night.

Miss Lilla Watts is spending a two weeks' vacation in Chicago.

Fred S. Case went to Detroit yesterday afternoon, to be absent for about two weeks.

L. L. Wright, of Ironwood, state superintendent of public instruction, was in the city yesterday.

There will be a special meeting of the Degree of Honor this afternoon, at which matters of importance will be considered.

Madame Morse, who recently rented her Ridge street home, is now residing with Mrs. W. A. Johnson, 400 North Front street.

The Young Woman's guild of St. Paul's church will hold a special business meeting at the Guild Hall this afternoon at 3 o'clock.

The Ladies' Aid society of the Methodist church will meet at 2:30 this afternoon at the home of Mrs. M. W. Anderson, 418 High street.

The person who borrowed an engraving of the late Peter White from The Mining Journal office is requested to return same at once, as it is urgently needed.

Mrs. Nellie Boyd, of Rosberg, Ore., is visiting at the home of her sister, Mrs. John Burke, 320 Michigan street. This is her first visit here in twenty-two years, and she will spend the summer in the city.

President W. F. Fitch of the D. S. S. & A. passed through the city in his private car last evening, on his way from Montreal to Duluth. His coach was attached to train No. 7. It was Mr. Fitch's intention to stop here, but he changed his plans before the arrival of the train in this city.

Will Build New House—C. E. Moore, who recently purchased the house and lot at the corner of Michigan and High streets, is tearing down the house on the property and will build a new eight-room residence in its place. The house now being torn down is one of the landmarks of the city.

Seats Sold Rapidly—The sale of seats for the William Russell performance, to be given at the opera house Saturday night, opened yesterday forenoon at 8:30 o'clock, with a large crowd waiting in line. By noon the entire balcony had been sold out and the greater part of the first floor. About forty seats were left last evening.

President Kaye to Speak—At the Men's League meeting to be held in the audience room of the First Baptist church tonight, Professor Kaye, of the Normal school, will deliver an address on "Science and Religion," and the public is cordially invited to be present. This being ladies' night, the meeting is not confined, as usual, to men. After the address there will be a "social hour" in the church parlors.

Eclipse of the Moon—The people of this city were afforded an opportunity last evening to witness a total eclipse of the moon. The passing of the shadow across the face of the moon began before the moon rose and became total at 7 o'clock. At 8 o'clock the shadow began to pass off and the face of the moon was clear again at 9:15. The clear sky last night gave the public a rare opportunity to observe this uncommon astronomical event.

Elks to Calumet—All Marquette Elks who expect to attend the state convention at Calumet June 15, 16 and 17 are requested to leave their hat measurements at the Union Clothing company, or with D. S. Donovan, at the city hall, before next Monday noon. The Marquette, Negaunee and Ishpeming lodges will attend the convention as the Marquette county lead, and will wear white hats with purple bands, and badges, and will carry canes. The fare for the round trip will be \$4.30, good going June 13, 14, 15 and the morning of the 16th, and returning until June 21.

High Wheeled Auto—The high wheeled automobile, recently purchased by the county road commission for use of the superintendent and others in getting about the county, attracted considerable attention while in this city yesterday. The machine is made by the International Harvester company and has wheels nearly as high as an ordinary buggy. For this reason it is especially fitted for travel over bad roads, and so best adapted to the needs of the road commission. On Wednesday, the superintendent ran the auto from Ishpeming to Republic, which is considered a very bad road, without difficulty, despite the fact that it was a rainy day. Back of the seat is a platform box, which makes it possible to carry all the supplies and tools necessary in the superintendent's work.

Ordered to Stop Digging—The Marquette Gas company was ordered by Mayor Vaughan yesterday to refrain from digging up the streets to put down gas mains until they obtained permission to do so from the council. The order was given when the company started to dig on Champion street north of Blumberg avenue yesterday forenoon. It is said that the reason for this procedure was the complaint made by citizens residing on Hewitt avenue that the gas company, after laying mains in parts of that street, had left the street in bad condition by not filling the trenches promptly. The matter calls to mind that the gas company has been operating in this city for fifteen years without a franchise; also, that under existing ordinances no person has the right to dig up a street for any purpose whatever without first obtaining permission from the council.

South Shore Will Benefit—The reported change in time on the St. Paul road, which, it is said, will go into effect soon, will result in increased mails for the South Shore road, according to Postmaster John D. Mangum. The train which now leaves Chicago at 10:30 p. m. and arrives in Marquette at 10:55 a. m. will then leave Chicago at 8 o'clock. Most of the mail from the East now comes in on this train, being received from a Lake Shore train that arrives in Chicago at 8:25 p. m. This mail will probably be routed by way of Detroit in the future, and will arrive on train No. 1, on the South Shore, arriving here at 2:55 p. m. This will be inconvenient for the banks, Paine, Webber & Co., and others, as a large part of their mail will not arrive until after business hours. Much of the mail from lower Michigan that now comes by way of Chicago will hereafter be sent by way of the straits over the South Shore.

South Shore's Finest Train—The South Shore train No. 7, leaving here at 11:30 o'clock last night for the head of the lakes, is the finest train ever run over the line. The coaches have just come out of the Marquette shops, where they have been thoroughly overhauled, re-decorated and repainted. New cushions have been placed in all the seats. The electric lighting arrangement has been changed. Formerly the lights were strung along the side walls of the coach. These have been replaced by a number of four-light chandeliers suspended from the ceiling. A new feature is the electric lights in the vestibules. When the train arrives at a station and the doors are opened, the electric current is automatically turned on and the steps of the coaches are illuminated by incandescents. Closing the doors shuts off the current. The work of renovating the train was done under the supervision of Henry Bitters, master car builder of the D. S. S. & A. railway.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

Injured at Ball Game—Professor C. F. Cullen, superintendent of the Norway schools, was knocked out at a ball game the other afternoon. He had just reached the grounds when a bat broke out one of the players' hands and struck him in the forehead, cutting a gash which required fourteen stitches to close.

Pioneer of Manistique—Cotin Campbell is one of the pioneers of Manistique, for he settled there forty-four years ago. When he first located at Manistique, there was not a family on the town site and the men employed in the little mill and in the camps nearby were compelled to wash and mend their own clothes. Mr. Campbell tells some interesting stories of the old days.

Dwelling House Destroyed—The dwelling house of V. W. Russell, located a few miles east of Stephenson, Menominee county, has been destroyed by fire. Mr. Russell's sister-in-law had gone to neighbor's on an errand. She had built a fire in the kitchen stove and in some way the woodwork became ignited. When discovered the flames had gotten such a headway that the blaze was beyond control and in a comparatively short time the entire building and its contents were destroyed. The property was insured for \$2,500. A year ago Mr. Russell's sawmill was destroyed, but in that case no insurance was carried.

Death Came Suddenly—News has been received of the sudden death at Troy, Idaho, of Harry Spence, a former well-known resident of Iron Mountain. Mr. Spence had gone to the barn to care for his stock. As he did not return when expected, Mrs. Spence went to look for him and found him dead. Death was caused by a heart affliction. The deceased is survived by a wife and four small children. The family resided on a homestead adjoining that of A. C. McConnell, father of Mrs. Spence. Mrs. Spence lived at Iron Mountain for many years and at the time of her marriage was principal of the Washington school.

Automobile Hit Child—Dessie Hosking, nine-year-old daughter of William Hosking, had a narrow escape from death while crossing Stephenson avenue at Iron Mountain. An automobile from Norway, running at high speed, ran into the child, knocking her down. Fortunately the machine lurched her in such a position as to permit the center of the automobile to pass over her instead of the wheels, as in the latter case she would have been crushed. The chauffeur stopped his machine and the little girl was taken from beneath the car, none the worse for her experience with the exception of being badly frightened.

Game Laws Grossly Violated—That the laws for the protection of game are being violated in this district every day in the year is no secret to anyone who keeps in touch with the situation, and it appears to be passing strange that some of the officials who are drawing a salary for enforcing these statutes have been able, only on rare occasions, to apprehend any of the guilty parties, says the Newberry News. Frank Lemox reports that two hogs at his camp east of here have been shot during the past week by parties out shing deer. Deer at this season are unfit for food, and it is only a certain class of foreigners who would even think of eating the venison. Meat of all kinds look alike to these pot hunters, however, and they will shoot anything that comes within range of their guns. They hunt constantly from one year's end to another and it is no exaggeration when we state that there are families in Newberry who scarcely buy a pound of meat during the entire year. They practically live from the fruits of the chase. Have any of these fellows ever been arrested? Not one. If some poor "mossoack" who is trying to hew a home for himself out of the wilderness enriches his larder by killing a deer out of season, these astute officials are sure to get wise and hale him before the court for the sake of making a showing in their hold their jobs, but they are blind to the constant violations going on right under their noses. What's the matter with the game wardens, anyway? Are they afraid to tackle some of these fellows who make a practice of shing deer or are they too lazy to make the effort? It's time some of them got busy.

NOTICE
For a nice job of mason work or brick see T. A. Murphy; 48 years' experience in the United States and Canada. All kinds of stone cutting, also. Address, 404 Lake St. (5-29-1w)

Economy is a virtue few cultivate as one of the cardinal blessings of life, the possession of which is almost indispensably necessary to any degree of success.

The spendthrift can never hope to reach the goal of contentment or happiness, for his cravings will remain unsatisfied, his desires unfulfilled. And in time he will come to the end of his resources; constant dropping wears away the hardest stone, and in a like manner the largest fortunes soon can be wasted by reckless expenditures.

Marquette National Bank UNITED STATES DEPOSITORY

MARKETS

NEW YORK STOCKS. Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows: "The action of the market today reminded one much of the old bull days. The Harriman and the Steels were the features and a great many issues which have long been dormant were made active. The upward movement in the Steel stocks seems to be based for the most part on the listing on the Paris bourse, and the Harriman issues, particularly Southern Pacific, were in active demand on persistent reports to the effect that the common stock would be placed on a 7 per cent dividend basis at the next meeting. Trading has broadened considerably and a noticeable increase in public participation has created the impression that the long predicted bull market with active public demand is about to be realized. The ease with which large lines of stocks have been liquidated of late is a strong indication of the temper of those who are known to be strong advocates of higher prices and as long as money remains cheap and further improvement continues to be recorded in the underlying conditions, the tendency is likely to be higher, although sharp reactions will become more frequent."

The closing prices were: Amal. 87 1/2, Anaconda 87 1/2, B. & C. 42 1/2, C. & G. 79 1/2, Erie 35 1/2, Gl. N. 104 1/2, Ill. Cent. 46 1/2, L. & N. 76 1/2, M. & P. 76 1/2, N. Pac. 42 1/2.

Boston Stock Quotations. The final quotations follow: Adv. 8 @ 8 1/2, Am. 40 @ 40 1/2, Atch. 9 @ 9 1/2, B. & C. 42 @ 42 1/2, C. & G. 79 @ 79 1/2, Erie 35 @ 35 1/2, Gl. N. 104 @ 104 1/2, Ill. Cent. 46 @ 46 1/2, L. & N. 76 @ 76 1/2, M. & P. 76 @ 76 1/2, N. Pac. 42 @ 42 1/2.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "Steel and Amalgamated were again the leaders in both markets today. Traders are frightened by the recent break in North Butte and Mass and the whole list was inclined to be dull today, in comparison with the activity in New York. Mass was heavily sold both from

the Lake and by the local pool, breaking sharply to 9 with a slight rally at the close. North Butte dragged around yesterday's closing prices and failed to show any snap as yet. (Green started up near the close and we think both this stock and Butte Coalition will be taken in hand for a good advance. We would call your attention again to Copper Range, which is in a position to have the quickest jump of any stock on the list and we have no hesitation in advising its purchase at present prices. East Butte closed 14 bid with practically no stock offered."

Copper Metal Prices. New York, June 3.—Copper was higher in London today, with spot quoted at £60, 17s, 6d and futures at £61, 15s, 9d. Locally the market was firm and unchanged, with Lake quoted at 13.37 1/2 @ 13.62 1/2, electrolytic at 13.12 1/2 @ 13.37 1/2 and casting at 13 1/2 @ 13.25.

SENSATIONS MARK THE TRADING IN STOCKS United States Steel and the Harriman Issues Shoot Upward in Spectacular Manner and the Whole Market Becomes Buoyant and Animated in Sympathy.

New York, June 3.—The securities market today was replete with sensations, and the causes lying back of the various spectacular demonstrations made by the price movements were kept veiled from public knowledge. That such causes existed and were of substantial nature as taken for granted on account of the convincing evidence presented by the tape itself.

It would be difficult to conceive of any such reckless and prodigal lavishing of resources as that he involved in a purely manipulative movement in Southern Pacific such as its sensational upward rush today. The principal buying of the stock came in enormous blocks from individual brokerage houses. These features prompted the inference that the buying came from persons unconnected with the management of the company. The senior company, Union Pacific, was tardy in responding to the excited advance in Southern Pacific and, in fact, sold off at one time to lower prices than it closed last night. Later in the day it came into the movement more fully.

Before the Southern Pacific movement became fully effective in its sympathetic influence on the general list, some degree of apprehension existed over the market conditions presented by the syndicate plan for introducing United States Steel on the Paris bourse. The removal from the floating supply of the large blocks contemplated by the Paris plan has, admittedly, added greatly to the difficulties of the short interest in United States Steel. That short interest was supposed to be large and to include some interests that are important factors in the stock market speculation. Some recent heavy liquidation in stocks that had been advancing is attributed to losers on the short side in United States Steel who were protecting themselves in this manner. It is feared that the continued rise in United States Steel might thus hurt the general market. The remarkable six-point jump in United States Steel preferred had no other explanation offered for it than the increase in security on the return growing out of the expansion in earnings.

and the depletion of stocks in store were the chief bullish influence, although several reports were received telling of injury to the new crop by cut worms in parts of Ohio and excessive rain in the South. The market closed strong, 3/4 to 1 1/2 higher. The July opened at 72 1/2 to 72 3/4, highest, 73; lowest, 72 @ 72 1/2; closing, 73.

The oats trade was quiet. The market was inclined to be weak, owing to ideal weather for the new crop. The close was steady and unchanged. The July opened at 53 1/2; highest, 53 3/4; lowest, 53 1/2 @ 53 3/4; closing, 53 3/4 @ 53 3/4.

Paine, Webber & Co.'s Wheat Summary. Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "Some of the cleverest traders were at a loss to understand the action of the market today. The tactics in the July were much the same as yesterday. After a spell to 120 the bull interests in the trade turned liberal sellers of July. This started something of a stampede among the tailors and the small holders, causing stop loss orders on the way down to 118 1/2. While this was going on there was excellent buying of September and December by the big people in the trade. The foreign markets appeared to weaken under better crop reports from Russia, while everybody inclined to take exception to the report that the test given to this rock from the mill run will show a return of less than twenty pounds of mineral against the superintendent's estimate of twenty to twenty-two. It is quite evident that there were a few who knew or thought they knew that the mill test would show for that quarter Tuesday. The 3 1/2 points break in the stock, to nine, was the feature of the early trading in the Boston market today. In the initial transactions the stock sold at different prices at different parts of the crowd which circled the Mass pole. Gay and Paine were large sellers. Tucker, Anthony & Co. and Wrenn bought."

Mass Consolidated. Boston, June 3.—The Boston office of the Mass Mining company is in receipt of no additional advices from the property this morning, the wire from Captain Wilcox yesterday, "estimating" the mill returns on a small quantity of the rock from the new lode at from twenty to twenty-two pounds of mineral, being all that the local management has received from the mine during the past forty-eight hours. The officials of the company are inclined to take exception to the report that the test given to this rock was on selected material and show letters from Captain Wilcox in substantiation of their position. Nevertheless there are Lake Superior interests not identified with the company who still insist that this rock is selected and that as a matter of fact the real results from the mill run will show a return of less than twenty pounds of mineral against the superintendent's estimate of twenty to twenty-two. It is quite evident that there were a few who knew or thought they knew that the mill test would show for that quarter Tuesday. The 3 1/2 points break in the stock, to nine, was the feature of the early trading in the Boston market today. In the initial transactions the stock sold at different prices at different parts of the crowd which circled the Mass pole. Gay and Paine were large sellers. Tucker, Anthony & Co. and Wrenn bought."

PLANS BALLOON FLIGHT ACROSS THE ATLANTIC Europe-American Aero Navigation Society Formed to Promote, Aid and Encourage Aeronauts—Path That Columbus Chose Is Selected for the Route.

Boston, Mass., June 3.—For the promotion and execution of flights in dirigible balloons across the Atlantic, the Europe-America Aero Navigation society has been formed under the New York membership corporation law. The organization will encourage financially and otherwise, aeronautic inventors and advance the development of the science of aeronautics, stimulate interest in aeronautic sports and promote aerial navigation by the dissemination and publication of technical, lectures, exhibitions and literature.

It is intended to make a trip by balloon from the west coast of Spain to the West Indies along the path taken by Columbus and then to the United States. This course has been taken in order to secure the benefit of the trade wind which carried Columbus' caravels across the ocean and because this course will avoid an accident like that which befell Count Zeppelin on his flight from Friedrichshafen to Mannheim.

It is calculated that the trip from Cadix or Lisbon to the West Indies can be accomplished in about five days. In the competition for the Lahn cup under the auspices of the American Federation of Aero clubs on July 4, 1908, the balloonist, William E. H. Honeywell as pilot, ascended at Chicago, landed at Sheffield, province of Quebec, Canada, traveling a distance of 896 1/2 miles and beating the record of the Erlsbach balloon Ponnam of 872 1/2 miles. On Oct. 12, 1908, in the contest for the Bennett prize, the balloonist, Lydia E. Pinkham, with Colonel Schaeck as pilot, was seventy-three hours in the air, but then descended in the open sea near Molde, Norway, from which the pilot was rescued by a passing ship. These ascents were made in balloons which were not dirigible. The longest flights thus far successfully made in dirigible balloons are those of Count Zeppelin.

In case of accident to members were the features at today's session of the Travelers' Protective Association convention. The convention adopted amendments to the constitution relative to membership fees, the disposition of the national treasurer's funds and the transfer of certain moneys to the benefit fund. An amendment to increase the liability of the association from \$5,000 to \$10,000 in the case of the death of a member while riding in a passenger coach of a regular passenger train, there appears to be the one man who could lead the Liberals to certain victory kept him at the head of his party.

Now to Sir Wilfrid's own none too satisfactory state of health is added the strain of Lady Laurier's alarming physical condition. It is no secret that Sir Wilfrid is greatly worried over her health, and at a gathering of his supporters last week the premier, having occasion to mention her name, was so overcome by emotion that he could not proceed for a time. It is within the range of probability that Sir Wilfrid will seize an early opportunity to escape from the turmoil of politics and the distractions of office.

Should this happen, the Liberals will find themselves in a most embarrassing position as did the Conservatives when they lost their great chief, Sir John Macdonald, in 1891. In addition to providing for the party, the prestige of the party has suffered grievously by the disclosures of graft and incompetency in the departments, the Quebec bridge-fiasco, the enormous cost of the Grand Trunk Pacific southeastern section, and the escapades of certain former and present ministers of the crown.

It was only the magic of Laurier's name that held the rank and file in line at the last election. With his poetic figure and silver tongue no longer inspiring the party followers, it is practically certain that history would repeat itself, and the Liberal party would go to pieces as the Conservative party did in 1896. Five years after Sir John Macdonald passed from the scene, Conservatives had gone down hopelessly before the strong and united onslaught of the Liberals under Laurier. It is doubtful if the process of disintegration in the present case would take even so long.

Mr. Fielding, upon whom the mantle of leadership would fall, is an able man, but it requires more than ability to lead a weakened party together, and the Liberals would go into the next election under an enormous handicap. Perhaps Sir Wilfrid will sacrifice himself, as he has done before, by retaining command of his party, but it is more likely he will conclude that by leading it back to power for four years more he has done his full duty, and now he will seek the rest he has so well earned.

OWES HER LIFE TO Lydia E. Pinkham's Vegetable Compound. Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound. Mrs. EMMA WHEATON, Vienna, W. Va. Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaint, such as irregular menstruation, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial. If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free and always helpful.

SOME AMENDMENTS ADOPTED. Work of the Travelers' Protective Association Convention at Asheville. Asheville, N. C., June 3.—An evident determination to avoid increased expenditures and a clearly indicated opposition to diminishing the causes of liberties

UPHOLDS CLOSING LAW. Canada's Highest Court Sustains Quebec Bill for Store Clerks. Montreal, June 3.—After four years' litigation the supreme court of Canada has decided in favor of the legality of a civic bylaw that the stores of the city shall close on Wednesday and Thursday nights at 7 o'clock for the benefit of the employees. The bylaw, which is based on an optional act passed by the Quebec legislature, was contested by the proprietors of small stores on the ground that it was a discrimination against trade and was a point with which the federal Parliament was alone competent to deal. The appeal, however, was quashed by the court.

WHAT ABOUT THE LAGER? Are your young chickens dying off mysteriously, from apparently no cause? It is two to one they are being killed by hen lice. Do you setting hens first and leave the nest? Then they have lice, too. Why not exterminate them and improve your flock? I have just received my second large order of Greider's famous Germicide, the only safe insect powder for young chicks, and only sure remedy for the old ones. One pound box, 25 cents, enough for a flock of fifty birds or over, or any number of young chickens. Walter C. Horstfeld, 1025 North Front Street, Thoroughbred Buff Orpingtons a specialty. COULD NOT BE BETTER. No one has ever made a salve, ointment, lotion or balm to compare with Pocken's Arnica salve. It's the one perfect leader of Cuts, Burns, Bruises, Scalds, Boils, Ulcers, Eczema, Salt Rheum, For Sore Eyes, Cold Sores, Chapped Hands, It's supreme. Available for Piles. Only 25c. at The Stafford Drug Co.'s store.

WILLIAM HAMPTON IN A TIGHT PLACE

NO WORK IN MONTANA. Labor Organizations Warn Mechanics and Laborers to Keep Away.

Circulars warning tradesmen and laborers to keep away from Montana, and stating that there are idle men in every city and every industry in the entire state, have been received by officers of labor organizations in this region. The circulars are signed by Alexander Fairgrieve, president of the Montana State Federation of Labor, and officials of various local unions.

The reason given in the circular for the great number of idle men in Montana at this time is that the employers' organizations, in fighting the unions, have brought thousands of men into the state from various parts of the country until there are two men for every job.

Sophie Gothe, 135 York street, has installed a visible gas range for her comfort. 6-4-1d

START ATHLETIC WORK.

Senior Class of Young Men the First to Begin Work at Y. M. C. A.

Gymnasium classes at the Y. M. C. A. opened Wednesday evening, with a senior class of young men. Members of the class showed much interest, and after a quarter of an hour of gymnastic exercises spent the remainder of the class hour in basketball and baseball, such to the enjoyment of about fifty or sixty spectators.

The work is started in earnest, and the members may procure gymnasium suits from local dealers and get started.

The next class for seniors meets Saturday from 8 to 9 p. m., and for business men from 5 to 6 p. m.

Members and prospective members desiring information regarding class work are asked to call at the office in the new building.

Calvary Baptist church has installed a Peerless gas hot water heater for the baptism fountain, also a two burner hot plate in the kitchen. 6-4-1d

STOCKHOLDERS' MEETING.

Ojibway Mining Company Elects Directors and Officers.

The annual meeting of the Ojibway Mining company, of whose properties Andre Formis, formerly chief engineer for the Oliver Iron Mining company on this range, is superintendent, was held Wednesday in Duluth. All the old officers were re-elected and they named the old officers to serve during the ensuing year. The officers and directors are as follows: Lucius L. Hubbard, president; C. A. Duncan, vice president and treasurer; William G. Hegard, assistant treasurer; Fredrick R. Kennedy, secretary; Daniel E. Smith, assistant secretary; Oscar J. Larson, general secretary; directors, Lucius L. Hubbard, Houghton, Mich.; Thomas F. Cole, Duluth; Chester A. Congdon, Duluth; Charles d'Aumont, Jr., Duluth; Oscar J. Larson, Duluth; James Houston, Calumet, Mich.; Thomas Houston, Laurium, Mich.; John D. Ryan, New York.

How Crime Was Committed.

The English papers have contained detailed accounts as to how young Hampton committed the crime, but the story as told by Superintendent Banfield, when he outlined the case for the prosecution, is interesting and to the point. It was as follows:

"I will explain to your worships the number of rooms in the house, and a few particulars in connection with it so that you, and the magistrates' clerk, may better follow the case. Your worships are aware that the murder took place on Sunday week last—May 2nd—somewhere about 10:15 or 10:20 p. m. Accused has been lodging at Mrs. Tredrea's house for about twelve months, and had been keeping company with the deceased girl for some time. On the date when the crime was committed the accused was at the house most of the day and simply went into the village a time or two, returning quickly.

The mother, Mrs. Tredrea, had been helping to nurse accused's grandmother, Mrs. Hampton, who lives about 322 yards from Tredrea's house in the village. Mrs. Tredrea went out in the morning, leaving deceased, accused and three small children in the house. When she returned after dinner she found that deceased had gone to Sunday school. Mrs. Tredrea stayed in her house until between 3 and 4 o'clock, when she saw deceased return to the house as the girl had gone to a friend's house to tea. After tea Mrs. Tredrea went to Mrs. Hampton's and remained there until 9 o'clock. When she returned accused was still in the house with the three children, and she noticed another girl, six, were downstairs, and the baby thirteen months old in bed. A Miss Nicholas, a neighbor, was also in the house. Mrs. Tredrea put Rowland and Gwendoline Ophelia to bed, and brought the baby downstairs because it was crying. About five minutes later another girl returned and Mrs. Tredrea said something about being late. Deceased replied, 'No, mother, it's not 10 o'clock yet.' Accused looked at his watch and said, 'It is five minutes to ten.' At this time the mother went out to Mrs. Hampton's house to put on a postcard to accused's grandmother's leg, and she gave the baby to deceased to take to bed. Mrs. Tredrea left the house accompanied by Miss Nicholas, leaving accused, deceased and the baby alone in the kitchen. Rowland and Gwendoline slept in a room over the kitchen, and the next thing we have any evidence of is that Rowland will tell your worships that he heard a rattle. He got out of bed, and coming down the stairs saw his sister on her back, with her head between the stove and the window. Accused had his knee on her stomach and his two thumbs on her throat. Accused let go the girl, but noticing that she was regaining consciousness he caught her again by the throat. The little boy rushed back to his room, and having dressed came downstairs and made for the doorway. Accused shouted to him 'stop,' and closed the door to prevent the boy going out. Accused then lifted the girl from the floor to a chair—she was evidently dead—near the foot of the stairs and the way leading to the back door. Accused found that the body would not stay on the stiff back chair, and he put the girl into a wicker chair, with a sort of tilted back which was between the stove and the window. Whilst Hampton was thus engaged, Rowland made his escape. As the youngster was running down the road he heard a noise, and on looking back saw a man come out of the house and go in the direction of the vicarage fields, or a near out to Hayle. The next thing we have is that the prisoner surrendered himself to the police at Hayle."

August Henrikson has installed a visible gas range in the kitchen of his residence. 6-4-1d

"BLACK PATTI" COMING.

Famous Colored Singer and Big Company to Play This Circuit.

"The Black Patti Troubadours," styled America's greatest aggregation of Afro-American Thespians, are to make a tour of the upper peninsula. The company was booked for appearance at Ishpeming theater on Tuesday, the 15th, but yesterday the manager received a request to change the date to a week from tonight, the 11th.

Black Patti's lyric triumphs in all the leading music cities of Europe and America are well known. She is one of the most popular prima donnas in the world. She has been the recipient of distinguished honors from the royalty of Europe and nearly every representative musical organization in the United States has acknowledged her wonderful vocal gifts by the presentation of costly medals, diplomas and decorations. In addition to her beautiful voice and exquisite art, nature has endowed her with a bright intellect and queenly form; and if it was not for the accident of race she would be a first-class prima donna. Her distinction in grand opera equal to that enjoyed by Melba, Calve, Tetrazzini, Albani and the world famous diva, after whom she is named.

For twelve years she has won fame and glory with the Black Patti Troubadours, the most popular band of darky play-folks ever organized, and this extraordinary success is due, in a measure, to the opportunity given to all the talented and versatile members of the company. The Troubadours are presenting a two-act musical comedy, "The Black-violet Strollers."

FROM MORGAN'S CURE LETTER.

"United States Steel issues were most prominent in the Eastern markets today, advancing by leaps and bounds, the preferred selling at 125 1/2, a gain of nearly six points; the common tumbled 69 1/2, up two points. Considerable short covering was in evidence, but the buying has been of the very best. The rails were also buoyant; among them Southern Pacific was up over seven points. Copper shares were uniformly strong, with the exception of Mass and North Butte, although advances were for the most part confined to fractions. The forced selling of Mass continues, and the support is feeble. It is reported that North Butte is opening up a fine body of ore on the 2,200 foot level now fifteen feet wide in the breast, but this did not stimulate the market for the stock. Greene Cananea was strong and fractionally higher. Chief Consolidated continues the feature of the curb market in point of activity, and was heavily traded in between 1 1/2 and 1 3/4. Scattered lots continue to come out slightly up 22, but this stock is being steadily absorbed. We believe it will cross 22 shortly. Cactus was 1/2 lower, at 3 1/2. Some pressure is still evident on Davis, Daly and Ohio Copper each of which lost 1/2 point. Further improvement is shown in the metal market, and there is every indication that it will sell at 14 cents, before the end of June. The report of the Copper Producers' association due June 10th, should show a heavy decrease. Five million pounds of electrolytic was sold Tuesday at 13 1/2 cents to one manufacturer, and there is now none to be had under that price. It is expected that reports will be made today or tomorrow of further especially large sales of the metal. The whole market turned strong in the last ten minutes, under the lead of Amalgamated and Anaconda, the former gaining two points and the latter one. We are on the eve of a great big bull market in coppers, and would buy them now."

POPULAR ATTRACTION.

The scene of "The Gingerbread Man," which is coming to Ishpeming theater next Monday evening, is laid in the mythical land of Bon Bon. The characters are: "Nachi Valius," "Fuage," "Jack Horner," "Mazie Bon Bon," "The Ginger Bread Man," "Fairy Queen," "Sax," by a male comedian, "Major Door," "Simple Simon," "King Dan" and "The Wise Man." They offer no end of entertainment and comic interpolations.

IMPROVING DWELLING.

The Finnish Lutheran church society, which a short time ago purchased from the Oliver estate the residence on North Maple street for some years occupied by O. B. Robinson's family, has started to improve the property. Henry Lukkarinen, an Ishpeming contractor, is to excavate for the basement and foundation walls and a considerable amount of carpenter work is to be done.

ISHPEMING IN BRIEF.

Arthur Charbonneau is home from college on his summer vacation.
John Wilson and wife, 20 Empire street, are the parents of a son.
Yesterday was the warmest day of the season in Ishpeming. Thermometers registered eighty-six in the shade early in the afternoon.
The fire department was called out Wednesday evening on account of a chimney fire at one of the dwellings owned by Mrs. D. Sullivan on Strawberry hill.
Dr. L. Lindgren and wife, who will celebrate a year in the old country, where the doctor will take a special course, will leave here June 24, sailing from New York a few days later.
A pleasing program has been arranged for the entertainment to be given this evening at the high school auditorium. The admission will be twenty-five cents for adults; fifteen cents for children over ten years of age, and ten for children under ten.
The Marquette County Gas & Electric company is installing many gas ranges, hot water heaters and other labor and fuel saving devices in the homes of Ishpeming and Negaunee people. Two crews are at work, one in each city.
Will Gill, wife and child, have gone to the home of Mrs. Gill's parents at Plainville, Me. Gill, who has almost entirely recovered from wounds inflicted by a fellow workman a few weeks ago, will leave for Fargo, S. D. tomorrow, and he expects to resume his work Monday.
The Ishpeming aceria of the Fraternal Order of Eagles will conduct a social hop at Braastad's Hall Saturday evening—not this evening, as was erroneously announced yesterday. Dancing will start at 8:30 o'clock, continuing until 12 and tickets will be fifty cents per couple. Lundahl's orchestra will furnish the music.

SEE WILL SEND A TEAM—

Chief Campbell reports that the Soo department will send a team to compete in the various events at the annual tournament of the Upper Peninsula Firemen's association, to be held in Laurium in August. The members of the department are enthusiastic over the proposition and practices will soon begin. The chief is of the opinion that he will be able to pick a team of thirteen men who will make a good showing, even if they do not succeed in landing some of the prizes. The winners at the tournament have got to be as good as there are in the country, as the association has veterans in the service that have won their spurs in years of work and practice and it is no dishonor to be beaten by them. It has also been decided that the Soo will make a bid for the tournament for next year and the department has reasonable hopes of being able to land it.

The following are the figures of the average wealth per capita in the United States: In 1850, \$308; in 1860, \$514; in 1870, \$750; in 1880, \$850; in 1890, \$1,020; in 1900, \$1,165; and in 1904, \$1,310.

Mining Journal

Which we want people to know

Thirteen families are maintained through work on The Mining Journal.

Fourteen young men and one young woman have steady work on The Mining Journal.

The Mining Journal pays \$3,000.00 per month in salaries.

Twenty carriers deliver The Mining Journal daily.

The Mining Journal is the largest single patron of the Western Union Telegraph Company.

The Mining Journal is the largest patron of the Marquette Postoffice.

The Mining Journal and its owners are large taxpayers.

The Mining Journal is among the largest purchasers of city electric service.

The Mining Journal is one of the largest consumers of gas in the city.

The Mining Journal is acknowledged by the entire state press as one of the prominent dailies of the State of Michigan.

Negaunee Department

THREE EVENINGS OF SCHOOL EXERCISES

FINE PROGRAMS HAVE BEEN PREPARED FOR EIGHTH GRADE, CLASS DAY AND COMMENCEMENT AND THE DEDICATION.

The programs for the closing exercises at the Negaunee public schools have been completed. The eighth grade exercises will be held Tuesday evening; the class day exercises, Wednesday evening; and the commencement and dedicatory exercises Thursday evening, all in the auditorium of the new building.

Because of the interest manifested in the new school and the personal interest in the members of the senior class, the largest class ever turned out of the Negaunee schools, all the exercises will be largely attended. Folding chairs are to be placed on the floor with a view to seating not less than 800 persons, in addition to those who will be accommodated in the balcony. The largest attendance will be Thursday evening, when William G. Mather, president of the Cleveland-Chiffs Iron company, and L. L. Wright, superintendent of public instruction, will be the speakers. Negaunee people are extended an invitation to meet Messrs. Mather and Wright and the members of the board of education at the reception to be held in the gymnasium at the conclusion of the exercises.

Eighth Grade Exercises.

The eighth grade exercises will consist of an operetta, entitled "The Whole Year Round." The cast of characters, members of the chorus and synopsis follow:

- Introduction..... Ethel Curtis.
- Characters—
- A Stranger..... Walter Willman
- Spouter..... Kate Calaway
- Winter..... Whelming Washburn
- Autumn..... Ethel Thomas
- Spring..... Franklin Willman
- Summer Months..... (Doris Rigg)
- Queen of the May..... (Carrie Roberts)
- Autumn's Attendant..... Elyvera Johnson
- Winter's Attendants..... (Joseph Bath)
- Five Little Elves..... (Margaret Andrus)
- Solo..... Leslie Dunstan
- Members of the Chorus—
- Line one, left—Ethel Roberts, Maude Gribble, Olive Flory, Doris Rigg, Ella Down, Ida Field.
- Line two, left—Dorcasie DeCaleid, John Gaffney, Whelming Washburn, Bilmer Leaf, Albert Bice, Harold Barrett.
- Line three, left—Leslie Dunstan, Albert Williams, Leslie Lehman, Leslie Bowden, William Carlson, John Rund.
- Line four, left—Hazel Haupt, Edith Ware, Ivy Fern, Myrtle Fern, Athanasius Broad, John Lindquist.
- Line one, right—Ida Smedman, Elyvera Johnson, Kate Calaway, Aurelia Guimond, Ethel Curtis, Ethel Thomas.
- Line two, right—Joseph Bath, Louis Cockhill, Edwin Lindstrom, Gus Roberts, Alex Peterson, Bernard Systad.
- Line three, right—Franklin Willman, David Larson, George McCall, William Collins, Thomas Ellis, Harold Langford.

Class Day Program.

The class day exercises Wednesday evening, will consist of a production of a modernized version of the Merchant of Venice. The dramatics program will be as follows:

The Duke of Venice..... Alex Frederickson

Antonio, a senior, captain of high school football team..... Robert Schneider

Banio, his friend and partner in the Belmont football team..... John McNabi

Gratiano, another friend..... Samuel Lowenstein

Shylock, a wealthy gambler..... Arthur Sawbridge

Tubal, friend and captain of the Belmont football team..... Edvin Linquist

Launcelot Gobbo, a servant to Shylock..... Valmer Heinonen

The Professor, an x-ray photographer..... Philip Coombs

Poliseman..... James McAuliffe

Portia, a rich heiress..... Irene Stanning

Nerissa, her friend..... Lilly Christensen

Jessie, Shylock's ward..... Martha Wiggins

Lingua Latina Florida, presspress..... Lucilla Reidy

Polly, Portia's maid..... Winifred McCall

Antonio's mother..... Edna Crisp

Mrs. Gobbo, Launcelot's mother..... Genevieve Doyle

Football players..... Senior Boys

Members of the Latin class..... Senior Girls

Thursday Evening's Program.

The dedicatory and commencement exercises on Thursday evening will be as follows:

Music, "The Soldier's Chorus"..... High School Glee Club.

Prayer..... Rev. R. T. T. Hicks.

Introductory remarks..... Supt. Orr Schurtz.

Music selection..... High School Orchestra.

Address..... Wm. G. Mather.

Music, "Twilight and Dawn"..... Girls' High School Glee Club.

Address..... H. L. L. Wright.

Music selection..... High School Mandolin Club.

Music, "Summer Days"

Boys' High School Glee Club.

Presentation of diplomas.

Music..... High School Orchestra.

The Graduates.

The members of the senior class and their courses are as follows:

Scientific Course—Mildred Andrus, Salina Baraba, Celia Crisp, Philip Coombs, Genevieve Doyle, Ruth Holstedt, Edwin Linquist, Winifred McCall, Lucilla Reidy, Martha Wiggins.

Latin Course—Amelia Ammonino, Freda Arvidson, Lydia Mitchell, Esther Talberg.

English-Latin Course—Carrie Sterling, Mildred Yates.

English-German Course—Marion Bedford, Olive Gouge, Sam Lowenstein, Ruth Miller.

English-French Course—Irene Manning, Elizabeth Milroy.

Commercial Course—Lily Christensen, Valmer Heinonen, Rachael Lehman, John McNabi, Arthur Sawbridge, Robert Schneider, Sarah Schwartzberg.

Electives—James McAuliffe and Alex Frederickson.

NEGAUNEE TEACHERS.

All But Three Places for the Ensuing Year Have Been Filled.

The list of teachers for the Negaunee public schools for the ensuing year is now complete, with the exception of one instructor for the high school, one grade teacher, and one kindergarten teacher. The list, with their assignments, is as follows:

- Orr Schurtz, superintendent.
- High school—John E. Erickson, principal, mathematics; Mary A. Horrigan, English; Ethel Taylor, French and German; C. O. Squires, commercial; Ethel V. Reed, Latin; Jas. W. Underwood, science; Louis M. Roehl, manual training; Anna C. Jensen, domestic science; Rosa F. Marden, drawing.
- Case street school—Lydia E. Steele, principal; Maud E. Lee, Florence Wells, Isabella Neely, Matie Dawe, Bernadette Lemire, Anna Murphy, Margaret Murphy.
- Park street school—Nellie McAuliffe, principal; Maud E. Lee, Florence Wells, Isabella Neely, Matie Dawe, Bernadette Lemire, Anna Murphy, Margaret Murphy.
- Jackson school—Mrs. Mary L. Wallace, principal; Catherine Sullivan, Catherine Reidy, Louise Anderson, Alice Beaudet, Therese Donovan, Loretta Riordan, Rolling Mill—Mary Sullivan, Bridget Flannery.
- Queen mine—Minnie Gaffney.

WORKING GOOD FORCES.

Richmond Mine on Cascade Range Employing Over 100 Men.

The mining industry will be fairly active on the Cascade range this season. The owners of the Volunter mine, who recently decided to explore the lands, have two diamond drills at work and a third drill is expected within a few days. The Duluth Diamond Drilling company has the contract. The drills are located about a half mile west of the Palmer store, or about three-quarters of a mile south of the last place where the Longyear & Hodge company drilled last fall. The latter concern had three drills at work, all within a short distance of each other, for some weeks before operations were suspended. Thomas Fellow, of this city, has general supervision of the exploratory work and Gust Carlson of Duluth is foreman of the drills.

The M. A. Hanna people will produce a larger tonnage of ore at the Richmond mine this season than was mined during any previous season since they took over the property. The working force has been increased to over 100 men, and it is possible that a second shift will be added. The first cargo of ore shipped from the mine is to go to the Mayfair, Wis. furnace. It is expected that shipments to that point will be made at frequent intervals during the season.

The force at the Empire mine has also been increased during the past few days or two weeks. It is reported that the companies have no difficulty getting all the men they need, and that a greater number have applied than could be taken on.

YOUNG WIFE DIES.

Mrs. Fred Dionne died Wednesday evening after a brief illness. She had been married ten months. The deceased was formerly Miss Edith Murray and she was born and reared in Ishpeming, her parents' home being at the junction location. The circumstances surrounding the young woman's death are sad and the grief-stricken husband and other relatives are receiving the sympathy of many friends. The funeral will be held tomorrow morning from St. Joseph's church, Ishpeming, with interment in the Ishpeming cemetery.

Western railroads are laying their crossings in solid concrete.

Catalogues, prices and further information furnished upon request.

Negaunee Nursery

Wholesale and Retail. Both 'Phones.

REMOVING TREES.

At the rate trees and shrubbery are being removed from the Negaunee nursery it will not be long before the stock will be disposed of. Several wagon loads of the trees have been removed to the grounds surrounding the Blather cottage in Ishpeming and a carload has been to Gwin, where they will be set out in the townsite. The demand for trees and shrubbery from other points has been quite good since the management announced that the nursery stock is to be closed out.

LOCAL LACONICS.

Joseph Lacombe's family moved into the rooms in the second story of the Miller block yesterday.

John C. Granville has returned from the Mesaba range, where he has been located for some months past.

The management of the Negaunee greenhouses is sending out postal cards containing a picture of the plant.

Mrs. Michael Holley, of Little Lake, returned home Wednesday evening, after a short visit with Negaunee friends.

Owing to a delay in the arrival of the cuts The Mining Journal's special school review will not accompany today's edition.

Negaunee men who have been out fishing this week report that the flies are working overtime. Fishing is fairly good, but the streams are still quite high.

John Nesbitt and wife, who spent the winter in Chicago and in the South, are expected home today. They will begin housekeeping in their new dwelling soon after their return.

James Reynolds, a well-known resident, who has been working at the Rolling Mill mine, left Thursday night for Johannesburg, S. A., where he expects to remain permanently.

John Q. Adams, who has been confined to his home the greater part of the past six months, is able to be out, but it may be some little time before he will be strong enough to visit his office daily.

Henry Chopen and Miss Florida Dugas, young people of Little Lake, were united in marriage at that place yesterday morning. Several relatives of the contracting parties in Negaunee attended the nuptials.

Captain W. J. Allen and family have moved into the dwelling on Merry street, purchased some time ago from Mrs. Pearce. The apartment the Allen family occupied in the Merry house is to be occupied by the Northley family.

The Buffalo and Palmer baseball nine have started the season with strong teams and it is a question which will come out on top. Each have won a game both by close scores, and several games are to be played during the season. In the contest last Sunday at the high school diamond the Buffalo team was victorious by a score of eight to seven.

BIDS WANTED.

Sealed bids will be received by the Board of Public Works, of the City of Norway, Michigan, up to 2 o'clock p. m. Tuesday, June 8th, 1909, at the City Hall, in said city, for furnishing certain materials and constructing certain additions to the water works, necessary to use the Lake Fumee supply.

The work to be done includes the laying of about five (5) miles of 12-inch iron water pipe, about 5 per cent of which is from 10 to 20 feet out; also a water inlet, screening chamber, valves, valve boxes, air valves, water meter and other appurtenances to the pipe line.

It is also intended to construct a water tank, 35 feet in diameter by 41 feet high; all above ground. Bids will be received upon reinforced concrete for this purpose, and also upon a tank constructed of steel plates. Bids will be received on the whole or any part of said work.

The board reserves unto itself the right to accept or reject any particular bid.

Plans may be examined on or after the 24th day of May, at the City Hall in said City of Norway, Michigan, or at the office of John W. Alvord & Chas. B. Burdick, 1212 Hartford Bldg., Chicago, Ill.

FEED WATER HEATER TO BE TRIED OUT

RAILWAY MEN GREATLY INTERESTED IN NEW INVENTION TO BE TESTED NEXT WEEK.

EXPECTED TO SAVE FUEL

John W. Currie, the inventor, declares That It Will Lessen Danger of Forest Fires from Sparks, as Well.

Railway men throughout the upper peninsula are interested in a hot water heating device now being installed on the South Shore locomotive No. 408 at the round house in this city.

The purpose of the invention is to heat the water used by a locomotive before it enters the boiler and by so doing save fuel. Mr. Currie has but recently perfected his plan, and the test to be made some time next week will be the first of its kind.

The heater consists of a horizontal boiler, eighteen inches in diameter, extending alongside the main boiler from the cab to the cylinder just above the drivers, which is filled with flues similar to any engine boiler.

By heating the water in this way the inventor expects that the cost of operating a locomotive will be reduced at least \$100 per month, and would not be surprised if the tests showed a saving of \$300 per month.

By increasing the size of the cylinder exhaust, it is believed that a locomotive will be able to get started much more quickly. It is also stated that it will prevent, to a great degree, the danger of forest fires from flying sparks during the dry seasons, because there will be but little forced draft through the stack of the engine.

How Test Will Be Made.

To test the device, locomotive No. 408 will be taken out next week and put upon a regular freight run, equipped with the heater. The amount of coal consumed will be carefully tabulated and, after a few days, the heater will be taken off and the locomotive put through the same work without it.

The employees at the round house who have been watching the progress of the installation, are greatly taken with its possibilities, and have great faith in the success of the test. It is stated by railroad men, that if the heater will save but \$50 per month per engine, it will be hailed as one of the most important inventions of a decade by the railway world.

RAILWAY BUSINESS INCREASING.

Both Passenger and Freight Traffic in This State Show Gain.

Michigan is in a prosperous condition. The business done by the railroads in this state is a pretty fair criterion. The railroads are making money. They are carrying lots of folks on passenger trains and are taking care of much freight.

The Michigan Railroad commission has issued a statement of the business done by the railroads during the quarter ending March 31. The figures are as follows:

Last quarter, freight, \$8,911,736.08; passenger, \$1,405,123.32. Increase last quarter, \$77,123.76. Passenger fares, last quarter, \$42,853,771.75. Increase, \$42,853,771.75.

Mails, last quarter, \$533,874.64. Previous quarter, \$502,956.04. Increase, \$30,918.60.

Express, last quarter, \$352,075.50. Previous quarter, \$338,841.24. Increase, \$13,234.26.

Miscellaneous earnings, last quarter, \$44,292.56. Previous quarter, \$27,872.51. Increase, \$16,420.05.

Total of business done in last quarter, \$12,127,750. Previous quarter, \$11,706,393. Increase, \$421,356.14.

The only decrease shown is in handling mails and this is due to the desire on the part of the government to cut down expenses and reduce the cost of this department.

The regular Saturday night hop will be held at Fraternity Hall tomorrow night. Music by the Peerless orchestra. (6-4-2)

On and after June 1st the Marquette City Dairy will put out a special milk for infants. This milk will be packed in ice immediately after going through the perfection. Aerator and cooler and will be kept packed in ice until placed in the home of the infant. This milk will be furnished to all who desire it at 10 cents per quart. (6-1-1w)

DEATH AT EIGHTY-SIX.

Aged Resident Found Dead in Bed at Son's Home Yesterday.

John LaLonde, aged eighty-six, was found dead in his bed yesterday morning at the home of his son, Fred LaLonde, 301 Seventh street, where he has resided since the death of his wife, four years ago. General debility, brought on by old age, was the cause of death.

The deceased was born in the province of Quebec, and in 1874 came to this city, where he has since resided. His father distinguished himself as a captain in the English army. Mr. LaLonde has been a cripple for the last thirty-five years, due to an accident that befell him at the old Carp furnace, and has done no manual labor since that time.

He is survived by eight children, four sons and four daughters: John, Frank, James and Fred, of this city; Mrs. H. A. Hunter, of Toronto; and Mrs. F. Barslow, Mrs. Alfred Fleury and Mrs. W. H. Morse, of Marquette.

The funeral will be held from the French Catholic church at 9 o'clock Saturday morning, with interment in Holy Cross cemetery.

NUMBER TO BE REDUCED.

Fewer Deputy Game Wardens, According to Letter from Headquarters.

Fewer game wardens for the upper peninsula, which has few enough now, as every sportsman knows, will be the result of the failure of the Michigan legislature to increase the appropriation for this department, according to those who ought to know.

Deputies all over the state are receiving letters from headquarters informing them that they may expect a cut, and it is believed that there will be a general reduction in the force. As small as the corps of deputies has been, State Warden Pierce has carried a greater number than his appropriation could care for, and now that the state has refused to grant an increase, a general thinning out of the forces is rendered imperative.

Ontonagon and Baraga, two of the upper peninsula counties in which game is most abundant and where there should be the best protection, have no game wardens now. Marquette county, with its large territory to cover, has one deputy who is paid by the county, and one paid by the state. Just at present there is no county game warden, owing to the failure of the county board to fill the vacancy caused by the resignation of John Manley.

The failure of the legislators to respond to the needs of the game department will not be received with any great pleasure by Marquette county sportsmen. Pot hunting, illegal killing of deer, and illegal fishing can only be stamped out through effective work upon the part of the game department. Handicapped as it now is, a further reduction means that it will be practically valueless so far as any preservation of game is concerned.

LIFE INSURANCE FELL OFF.

Year 1908 Not One of Progress for the Companies.

According to the figures of the Insurance Press the year of 1908 was not one of progress for the insurance companies. To some extent this falling off was due to the extension of the business disturbance, during the closing months of 1907, far into 1908, as indicated by the increase of loans on policies and the lapsation of policies, the former reducing the amount payable to beneficiaries and the latter cutting off a large part of insurance protection.

During the past year the total amount of claims paid by life insurance organizations in Michigan was \$67,000,000. Detroit led the list of Michigan cities, where \$14,414,056 was paid on death claims. Grand Rapids was second with \$355,398.

The largest individual payment was made to the estate of Edwood T. Hance at Detroit, amounting to \$28,820. The heirs of the late Peter White, of Marquette, received \$45,000, and of George K. Johnson at Grand Rapids, \$29,258.

300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., June 3.—The boats whose names are here appended have passed the canal the past twenty-four hours, bound for ports on Lake Superior: Berry, 10:30 p. m.; Black, Maid, midnight; Kerr (small), 1 a. m.; Maropa, Roehling, 2; Stanton, 4; Kinnmonth, 4:30; Ball, 5:30; Garry, 7:30; Bullington, 8:30; Neilson, Jenny, noon; Wilder, 12:30 p. m.; George Stephenson, Marsala, Pollock, 1:30; Laughlin, 4; Townsark, 4:30; Samuel Mather (large), 5:30; Perkins, 7; Osler, 8.

NOTICE TO TAXPAYERS.

City Controller's Office, Marquette, Mich., May 31st, 1909.

Notice is hereby given that the assessment roll of the taxable property of the city of Marquette for the year 1909 will be in the hands of the board of review on Monday, June 7th, 1909.

Said board of review will convene at the common council room of the city of Marquette on Monday, June 7th, 1909, at 9 o'clock a. m., and will be in session each day thereafter up to and including Saturday, June 12th, 1909, for the purpose of reviewing and correcting said assessment roll.

Every person having property in the city of Marquette is requested to call at the common council room during the sessions of said board of review and inspect said assessment roll, in order that all errors which may have been made in said assessment can be corrected.

FRUIT CRATE FACTORY SEEKING A LOCATION

MUSKEGON MAN IN THE CITY SOLICITING CAPITAL TO ESTABLISH NEW WOOD-WORKING INDUSTRY.

James Ingalls, of Muskegon, is in the city in the interests of a fruit crate factory, which he hopes to be able to establish in Marquette. His idea is to form a stock company, partially composed of local capital, which would be capitalized at about \$20,000. He states that the industry, if established, would give employment to from fifty to seventy-five hands, most of whom would be unskilled labor.

The Commercial club has been in communication with Mr. Ingalls, and his associate, Mr. Miller, for some time regarding the establishment of their business in this city, but nothing definite has as yet been done in the matter. Mr. Miller was here several months ago and looked over several available sites, and was assured at that time by officers of the Commercial club that land on which he could build his plant would be furnished him free of cost. At that time it was supposed that Mr. Miller expected to put up the plant entirely with his own capital.

These two men are already operating a crate factory at Muskegon, but state that the necessary lumber is practically exhausted there and that they must either move or abandon their business. They are greatly pleased at the outlook in Marquette and have found an abundance of timber nearby, suitable to their needs. They can use almost any kind of hardwood and soft woods which do not contain pitch.

Mr. Ingalls stated yesterday that there was a great demand for fruit crates, such as they manufacture, and produced a number of letters from prospective buyers in support of his claims. He stated that last fall large amounts of fruit went to waste in lower Michigan because the growers were unable to get anything out of it.

Both Mr. Ingalls and Mr. Miller assert that they are willing to invest heavily in the proposed plant here and will move the machinery now used at the factory in Muskegon to this city. However, they do not care to swing the whole expense of installing a new plant themselves and so are soliciting the aid of local capital. If the move is made, they plan to turn their building in Muskegon into a sawing factory, and Mr. Miller will remain in that city to take charge of the industry.

TURKISH BATHS AND CHIROPODY.

Frank Keough, 123 W. Ridge St., Marquette.

PNEUMONIA IN THE LEAD.

Was Cause of 377 Deaths in the State During the Month of April.

There were 3,394 deaths returned to the department of state as having occurred during the month of April, 1909. This corresponds to an annual death rate of 15.5 per 1,000 estimated population. Reports were received from districts covering 2,500,842 persons, or 98.84 per cent of the total registrable population of the state. The per cent for April is slightly lower than for the preceding month and is undoubtedly due to the fact that the newly elected clerks in these districts are not familiar with the duties required of them.

Included in the deaths reported there were 615 deaths of infants under one year of age (exclusive of stillbirths); 217 deaths of children aged one to four years, inclusive; and 1,140 deaths of elderly persons aged 65 years and over.

Important causes of death were as follows: Pulmonary tuberculosis, 210; other forms of tuberculosis, 44; typhoid fever, 40; diphtheria and croup, 38; scarlet fever, 16; measles, 50; whooping cough, 27; pneumonia and bronchopneumonia, 317; diarrhea and enteritis, under two years of age, 46; meningitis, 53; influenza, 74; cancer, 139; violence, 150.

As compared with the previous month a slight increase in the number of deaths reported from other forms of tuberculosis, diphtheria and croup, scarlet fever, measles, enteritis, meningitis, and influenza is noted, and a slight decrease is noted in the number returned from pulmonary tuberculosis, typhoid fever, whooping cough, pneumonia, cancer and violence.

There were 4,706 births returned to the department as having occurred during the month of April. This corresponds to an annual birth rate of 21.5 per 1,000 estimated population.

In Marquette county there were forty-four deaths and 101 births, corresponding to an annual death rate of 13.5 per thousand and birth rate of 31.9 per thousand. In the upper peninsula, Baraga county shows the highest death rate during the month and Luce county the lowest. Iron county had the highest percentage of births and Alger county the lowest.

NATURE'S WARNING.

Marquette People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you. Notice the kidney secretions. See if the color is unhealthy. If there are settlements and sediment. Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes, Doan's have done great work in this locality.

M. Brown, 306 S. Jennie St., Escanaba, Mich., writes: "About two years ago I began to suffer from pains in the lower part of my back, and after a hard day's work I was so lame I could hardly straighten. In the morning, upon arising, I felt lame and sore, and the kidney secretions were often scanty. A friend advised me to try Doan's Kidney Pills, and I accordingly procured a box. My kidneys were soon strengthened and the pains in my back disappeared. Recently when I had a return of pain, I again used Doan's Kidney Pills, and am glad to say that they promptly relieved me. I gladly tell of the great benefit I derived from this remedy."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

NOTICE TO CONTRACTORS.

Sealed proposals will be received up to twelve (12) o'clock noon on Monday, June 14th, 1909, by the undersigned, for the grading, macadamizing, laying of concrete sidewalk, curb and gutter, drain and water mains on property of the Sheldon Estate Company, the C. C. Douglass Company and F. W. Nichols, trustee, Houghton, Michigan, according to plans and specifications, etc., of the undersigned engineer.

The approximate amount of each kind of work being as follows, viz:

- 20,000 cubic yards grading, more or less.
- 11,400 sq. yards bituminous macadam, more or less.
- 25,000 sq. feet sidewalk, more or less.
- 7,200 lineal feet curb or gutter, more or less.
- 1,200 lineal feet 12-inch drain, more or less.
- 3,850 lineal feet 6-inch cast iron water pipe with hydrants, valves, etc., more or less.
- 3 catch-basins, more or less.

Each bid must be accompanied by a certified check on any bank of Houghton county, Michigan, and made payable to H. W. Fesing, engineer, for at least 2 1/2 per cent of the amount of the bid.

The right to reject any and all bids is hereby reserved.

Full particulars, plans and specifications may be had of the engineer, H. W. Fesing, E.M., Houghton, Michigan.
