

WATERWAY SCHEME GETS A BODY BLOW

Army Engineers Delegated to Investigate the Proposed Improvement of the Lower Mississippi Report Against the Project.

A Fourteen-Foot Channel from St. Louis to the Gulf of Mexico Is Not Desirable from Various Points of View, They Say—It Would Cost Approximately \$128,000,000 to Construct, and Would Require \$6,000,000 Yearly Afterwards for Maintenance.

Washington, June 10.—The report of the board of army engineers on the project of a deep waterway from St. Louis to the Gulf was made public today. It is unfavorable to the project, from various points of view. The engineers estimated that the waterway would cost \$128,000,000 to construct and \$6,000,000 a year afterwards for maintenance.

Deep-Water Ships Unsuitable to Rivers. The position was taken that ocean and lake vessels, such as would require a fourteen-foot instead of a nine-foot channel, would not be an economic means of transporting products on the river.

On the Great Lakes, the cost was estimated at \$41,500,000. Mississippi river boats and barges capable of transporting 10,000 tons of freight on eight-and-one-half-foot draft can be built for about \$12 per ton of freight carried, it was estimated. Furthermore, the board pointed out that the modern lake freighter is poorly constructed for navigating tortuous rivers with swift currents.

General Marshall's Views. General Marshall, chief of engineers, approved the opinions in regard to the methods of improvement, except that he did not consider it practicable to obtain a minimum depth of fourteen feet between St. Louis and Cairo by means of locks and movable dams.

ADVANCES A NOVEL PLAN. John Sharp Williams' Proposed Solution of the Negro Problem.

Lincoln, Neb., June 10.—The commencement exercises of the University of Nebraska were held here today, with Senator-elect John Sharp Williams, of Mississippi, as orator. Mr. Williams discussed the negro and gave as his solution of the race problem the division of the negroes now in America between the various sections and communities, so that each might have but a small number, a number so small that it will have no influence upon the communal life and constitute no menace to the peace and safety of the people among whom they are placed.

DICKINSON GOES TO WEST POINT. Washington, June 10.—Secretary of War and Mrs. Dickinson left here today for West Point, where tomorrow the secretary will address the graduating class of the military academy and present the diplomas.

MAIL OF THAT KIND TABOOED. Denver, June 10.—It is fraudulent use of the mails for any one, in the interest of strikers, to communicate by letter with strike-breakers, offering them positions in other towns when such positions do not really exist.

WRIGHT BROTHERS GET GOLD MEDALS

Through President Taft, the Good Will and Congratulations of the American People Are Extended to the World-Famed Aviators.

In the Presence of a Distinguished Company Assembled at the White House, the Trophies Awarded by the Aero Club Are Presented to the Two Inventors of the First Successful Flying Machine, and Achievements of the Men Are Eulogized Highly.

Washington, June 10.—The appreciation, good will and congratulations of the American people were today extended to Wilbur and Orville Wright, the famous American aviators, by the president of the United States. The occasion was the presentation of the gold medals awarded to the Wright brothers by the Aero Club of America to commemorate their conquest of the air.

President Taft, in handing the medals to the brothers, expressed keen admiration for their work and ventured the belief that their flying machine will be the basis for future aerial craft. He made the prophecy that the dawn of an age of flight is here.

Encouraged by the Apparent Weakening of the Opposition, They Arrange a New Coalition in the Hope of Putting Their Proposition Through the Senate.

Washington, June 10.—Encouraged by what the promoters of the plan interpret to be a weakening of the opposition to the proposed income tax amendment, another move to form a coalition between the progressive Republicans and Democrats was begun in the senate today.

CAN'T BREAK THE RANKS OF THE ALDRICH FORCES.

Led by Dilliver, the Progressive Republican Senators Try Time and Time Again to Secure Lower Duties on Woolen Goods, Only to Go Down to Defeat on Each and Every Occasion.

Washington, June 10.—Time and time again today Senator Dilliver and eight or nine other so-called progressive Republicans went down to defeat in their efforts to break the ranks of the Aldrich forces on the wool schedule of the tariff bill.

Discussion Is Spirited. The first of Mr. Dilliver's suggestions had for its object the confining of the wool in then the duty on the so-called "tariff" bill.

Washington, June 10.—The appreciation, good will and congratulations of the American people were today extended to Wilbur and Orville Wright, the famous American aviators, by the president of the United States.

TALKS TO CATHOLICS.

President Taft a Speaker at the Congress of Missionaries in Session at Washington.

Washington, June 10.—That "complete church emulsion" is a good thing, and that there should be in this country "no invidious distinctions in elections because of religious belief," were the keynote of an address made tonight by President Taft before the congress of Roman Catholic missionaries, now in session in this city.

Referring to his visit to Pope Leo XIII and the subsequent settlement of church affairs in the Philippines, Mr. Taft declared that few extremists in this country had found any exception thereto.

GOLFER TAFT LOSES AGAIN.

ACCUSED ITALIANS ARE ADMITTED TO BAIL.

Much to the Regret of the Post-office Sleuths, Two Men Regarded as the Craftiest Leaders of the Ohio Division of the Society of the Banana Are Given Their Liberty on Bonds.

Columbus, O., June 10.—With three members of the Italian black hand society of Ohio who are sought on federal warrants still at large, the postal officials here regret the release on bonds of Sam Lima, of Marion, on \$3,000, and Severio Vengola, of Columbus, on \$5,000.

Cincinnati, June 10.—Having rounded up and arrested nine men out of the eleven alleged ring-leaders of the Ohio division of the "Society of the Banana," Inspector Oldfield and his assistants are now busily engaged at Columbus, O., in going over the evidence and preparing for the preliminary hearing of the prisoners the first part of next week at Toledo and Cleveland.

Asked as to whether absolute proof had been found connecting the Ohio "black hand" with the murder of Chief Inspector Holmes, an Associated Press representative tonight: "I have no absolute proof that this gang actually had a hand in the New York Italian detective's murder. But we do know that Augustino Marfisi, who was arrested in Dennison, O., was in Palermo at the time of Holmes' death and that Marfisi returned to America shortly after that murder. Marfisi's visit to Sicily at that time may have been a mere coincidence, but we do know that the gang of which Marfisi is a member is organized exactly like the 'Society of the Banana' to 'live in Sicily.'"

MESSINA SHAKEN AGAIN.

Occupying a Place in the Reviewing Stand, He Is Accorded a Frenzied Demonstration of Welcome by the 10,000 Confederate Veterans Who Tramp the Streets of the City in What Is Probably the Last Big Parade in Which They Will Participate.

Memphis, June 10.—A frenzied demonstration of welcome by the men in gray for the son of the man who defeated them marked the final scene of the reunion of the United Confederate Veterans today. It took place during the parade.

With one of the old-time rebel yell, the division charged upon the stand and jostled one another for an opportunity to shake the hand of the son of their old-time enemy.

WALL STREET REASSURED.

Action of Stocks Indicates Big Bull Leaders Are at Work Again.

New York, June 10.—The action of the stock market today indicated the resumption of some important operations on the long side. The effect was to reassure sentiment amongst the board room operators and traders, and they returned to work on the market.

Union Pacific continued the leader of the upward movement, in contrast with the sluggish movement of the Southern Pacific stocks. The latter stock was freed from the positive weakness which it showed yesterday.

MRS. HOWARD GOULD ON WITNESS STAND

Suing Her Husband for an Allowance of \$120,000 a Year, the Former Actress Gives Testimony in Her Own Behalf.

Smiling Sweetly, She Denies That She Is Intemperate or Has Been Guilty of Misconduct, as Charged, and She Refutes the Allegation That She Is Extravagant, Although It Is Stated That She Has Been Paid no Less Than \$776,000 in Eight Years.

New York, June 10.—Mrs. Katherine Clemmens Gould was on the stand today in her suit for separation from her husband, Howard Gould. The case was begun in May, 1907, but has been continued several times for various reasons, each time marking the beginning of a new sensation or accusation.

In her petition Mrs. Gould alleges that her husband deserted her without just cause on July 16, 1906. Mr. Gould asserts that his justification was the habits of the plaintiff; that since he left her he has made her an allowance of \$23,000 a year, but that she is extravagant and intemperate and has been guilty of misconduct.

Testifying today, Mrs. Gould promptly answered questions concerning the amount allowed her and the expenses of the Gould establishment. At Castle Gould they had forty-five to fifty servants and other employees, and her husband allowed her an average of \$10,000 a month to keep the place.

Throughout the examination Mrs. Gould was little disturbed, and the day closed with her still on the stand and smiling sweetly. She will resume her testimony tomorrow.

GERMAN STEAMER BLOWS UP.

Crew of Dynamite-Laden Vessel Escape in the Nick of Time.

S.S.S. CURES OLD SORES. If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result.

City Brevities

Today's weather: Fair and continued cool.
Yesterday's temperatures: Seven a. m., 49 degrees; noon, 63; 7 p. m., 61. Maximum, 65 degrees; minimum, 49.

Food Hills, general passenger agent of the Great Northern, was in the city yesterday.

St. Mary's guild will meet this afternoon with Miss Josephine Freiburg, 135 Rock street.

Mrs. Mary Murley, of Duluth, is visiting at the home of A. T. Fox, 292 West Bluff street.

Miss McCallum entertained her third grade pupils with a picnic at the island yesterday afternoon.

W. M. LeMoine, of Huron Mountain club, was in the city yesterday and went to Chicago last evening.

The members of the Woman's Relief corps were entertained by Mrs. H. R. Patrick at Lakewood yesterday afternoon.

The Ladies' Aid society of the Baptist church will meet this afternoon with Mrs. Andrew Nelson, 416 North Third street.

The Woman's society of the Presbyterian church will meet with Mrs. J. M. Rogers at the parsonage at 3 o'clock this afternoon.

E. J. Sink is riding about in a handsome Ford touring car, which was purchased through the local agent, Eddy Matthews.

Mrs. E. M. E. Delf has returned from a visit in Indiana and lower Michigan, and is now at the home of her son, A. E. Delf, on Hewitt avenue.

Mrs. John Schradt and daughter Edna left for Republic and the copper country last evening. They will visit for a month, with relatives.

Steamboat Inspectors Gooding and York will leave for the Soo this morning to investigate the cause of the accident, which resulted in the destruction of the locks at the Canadian Soo.

Wm. Coles left this morning for Cleveland. He has been appointed first mate on the Cleveland City company's steamer Andaste and he goes to Lake Erie to board that vessel. Mr. Coles sailed as a second mate last season.

The Ladies' Aid society of the Methodist church are invited to meet today at Dr. Hornbogen's camp at Middle Island point. The ladies are requested to take the car that leaves town at 10 o'clock. Should the weather be unfavorable the ladies will go Saturday.

Success in Comedy—The Harvey Stock company pleased a large audience last evening with an uproariously funny farce entitled "Two Married Men." This company is being greeted with good success and is giving shows well worth the money asked. A new version of "Lena Rivers" is promised for this evening.

Finely Mounted Skins—Five finely mounted skins of wild animals are on exhibition in the window of Hatway's meat market. In the lot are skins of two wild cats, one lynx, one wolf and a fox. The animals were killed near Big Bay last winter and the skins are the property of Theodore Schneider, of that place.

Pierce After Railroads—State Game Warden and Forest Protector Pierce is about to send out notices warning settlers residing in the upper peninsula and others against setting fires. Mr. Pierce also announces that he will detail a man to inspect all locomotives running through the forest fire regions to see that they are properly equipped with screens. He will also look over the rights-of-way and insist that it be cleared of rubbish and brush.

Killed by Falling Logs—Charles Johnson was instantly killed at Big Bay about 10 o'clock yesterday forenoon, while unloading logs from a car. In some way the logs got away and rolled from the car to the ground, one of them crushing his head to a pulp. The unfortunate man came to Big Bay from Hollarsville, and was forty years of age. He has a wife and children in Sweden. Coroner L. P. Crary will leave for Big Bay this morning to hold an inquest.

Arrangements Changed—Owing to the copper country visitors having previously secured the use of the baseball park at the new fair grounds, the game between the Marquette and Detroit Michigan, scheduled for Sunday, has been cancelled, and the Marquette nine will go to Princeton on that day. As there seems to be no team in this city that can meet the copper country ball tossers Sunday, it is probable that a team made up from the ranks of the visitors will oppose each other at the fair grounds Sunday afternoon.

Many Floral Tributes—The home of the late William H. Greene is literally filled with floral tributes which have been sent from all over the upper peninsula by organizations and individuals, to whom the deceased was known and respected. Among the many organizations that sent flowers may be mentioned the city officials, the common council, the hose company, the water board and other departments of city government with which the deceased was or had been connected; the various lodges and societies to which the deceased belonged and others of which he was not a member; the many railway organizations, and numerous other societies, both in Marquette and in other parts of the upper peninsula. The funeral cortege will leave Hewitt avenue promptly at 8:30 this morning, and the obsequies will take place at 9 o'clock from St. Peter's cathedral.

Fire Near Power Plant—A forest fire that for a time threatened the safety of the Dead river light and power plant raged north of Collingsville yesterday. The fire started near the S. & I. track and gradually crept southward through the cut-over slashing, thick with underbrush, until by the middle of the afternoon it was within a few hundred feet of the electric station. Superintendent Mettelle was notified of the danger and with a crew of employes at once drove out to the plant. By digging up the ground near the edge of the fire line the progress of the flames was soon checked and it was reported last evening that the blaze was under control and that the danger to the plant had been averted. As the woods are very dry, the fire traveled quite rapidly, although there was no wind to speak of, and a tract one-fourth of a mile long and an eighth of a mile wide was burned over.

Upper Peninsula

Peculiar Baseball Accident—While playing ball at Munising the other day Albert Lampinen, with Bissell & Stebbins hardware dealers, caught his hand under the arm hole of the vest worn by an opposing player. The men fell and the other player landed on Lampinen's left hand, breaking two bones and putting others out of joint.

Ball Club Gets New Uniforms—The new uniform equipment for the members of the city baseball team has arrived at Escanaba, and when donned by the players will give the men a decidedly natty appearance. The uniforms are of pure white, with red stockings, red caps and red belts and with the letter "E" worked in red on the pocket of each of the jackets. The combination of red and white is attractive.

New Telephone Company—The Marquette Telephone company has been organized on the Gogebic range to build a telephone line from Wakefield to Dunham and Marquette. Practically all of the stock has been taken. The new concern has made arrangements with the Michigan Telephone company for the use of the latter's local and long distance lines, the connection to be made at Wakefield. Work on the new line will begin at once.

Will Locate in the West—Attorney A. W. Norblad, one of the leading young attorneys of Escanaba and formerly acting prosecuting attorney of Delta county, will leave in a few days for Astoria, Ore., where he will locate permanently. He will become a member of one of the leading firms of attorneys of Portland and will have offices both at Astoria and in Portland, the former place being but a short distance from the city of Portland.

Bonanza for the Trappers—For some reason, a number of years ago, the state legislature enacted a law of the prisons of which was that beaver could not be killed at any time until the year 1910. In the case of these busy little animals the affirmative side of the contention that protection does protect has been fully demonstrated. For while it is true that beavers have been killed perhaps in considerable numbers—they are reported to be almost as numerous as they were in the early days of the upper peninsula. After this year beavers will enjoy the same protection—and no greater—as other fur bearing animals. Thus there is a bonanza in sight for the trappers, and a ruthless slaughter may be expected next year. The increase of beavers has been bad for brook trout as the animals are fond of the flesh of that particular fish and are said to be very cunning and resourceful in capturing them.

Do Not Want Smallpox Cases—Contrary to the expectations of the Menominee county board and the members of the city council, the doctors of Menominee are not falling over themselves in efforts to land the work of caring for smallpox patients. The supervisors some time ago objected to the bills sent in for attending smallpox cases and refused to allow the amount asked for. They appointed a committee which conferred with a committee of aldermen as a result of which it was decided to call for bids and to try and make arrangements whereby smallpox cases could be cared for at less than \$10 per visit. This week it was discovered that not a single bid had been received and, moreover, it was found that the majority of the physicians in the city refused to care for the smallpox patients at any price whatsoever. Three physicians were found who would take the cases for \$10 per visit, but not less than that amount. There are several cases of smallpox in Menominee and Marquette.

Delta County's Poor House Rumpus—Patrick Connaughton, Charles Davis and James Hannon, the aged inmates of the Delta county almshouse who assaulted Albert Zoelner, keeper of the poor farm, have been found over to the circuit court for trial. The trio are charged with assault with intent to commit great bodily harm less than the crime of murder and when arraigned all waived examination and were returned to the county jail, where they will remain until the July term of the circuit court.

Prosecuting Attorney H. R. Dolscheid and Superintendent F. M. Olmsted investigated the charges made by the three men that inmates of the almshouse were cruelly treated by Zoelner and his wife, and it was announced that it had been decided the keeper should be released from his position. "I made a thorough investigation of the affair, and while I cannot condone the stabbing of the keeper by one of the three inmates now under arrest, I am convinced that Zoelner is not the proper man for the place which he holds," said the prosecuting attorney. "The position is a hard one to fill. Of course there are many wild tales told now of cruel treatment to which inmates were subjected by Zoelner and his wife, but some of these must be cause for taken with a grain of salt. There are always those who are ready to manufacture stories of this kind at such a time; but I am satisfied that Zoelner was not sufficient tact to act as keeper of the institution."

DEATH OF TIM TARSNEY OCCURRED AT DETROIT

YEARS OF ILLNESS FINALLY SAPS STRENGTH OF LAWYER—WAS CONGRESSMAN AND POWER IN SAGINAW—LAST YEARS SPENT IN THE MICHIGAN METROPOLIS.

Friends of Timothy E. Tarsney in Marquette and throughout the upper peninsula have been deeply grieved to learn of his death, which occurred in Detroit Wednesday night.

Mr. Tarsney was a frequent visitor to this region in past years, both as an attorney and as an advocate of the principles of the Democratic party.

His innumerable friends throughout the state knew in a general way that his condition was grave but the announcement of his death was not expected so early.

Mr. Tarsney was born in Ransom, Hillsdale county, Feb. 4, 1841, and was thus a few months younger than William C. Maybury, and like him, was the son of old country people.

The funeral will probably be held Friday morning from the Church of Our Lady of the Holy Rosary.

U. S. GRAND JURY MAKES ITS REPORT

TWELVE INDICTMENTS WERE RETURNED, SOME OF WHICH HAVE BEEN MADE PUBLIC.

SPEAR TRIAL NOT FINISHED

Questioning of Government's Witnesses Occupied Most of the Day—Defense Now Being Put In.

The United States grand jury completed its work yesterday and reported to Judge Knappen that twelve true bills had been found and that one case was not returned.

United States vs. Frank L. Higgins; embezzlement of postoffice funds. United States vs. John E. Gibson; murder.

United States vs. John McLarney; embezzling money from letter.

United States vs. James H. Worden; criminal conspiracy.

United States vs. Charles Ferris; smuggling.

United States vs. Mary LaBlanc; smuggling.

The crime for which an indictment was returned against Frank L. Higgins, assistant postmaster at Sault Ste. Marie, will be remembered as having occurred several months ago.

Mr. Higgins was picked up in front of the postoffice about midnight, showing evidence of rough handling, and about \$2,000 of the postoffice funds were missing.

Mr. Higgins related that he had been assaulted by robbers, who had taken the money after overpowering him. The case was investigated by a postoffice inspector, and the upshot was the arrest of Mr. Higgins, on the charge of having taken the missing money himself.

Mr. Higgins was arraigned before Judge Knappen yesterday, entered a plea of not guilty, and at his request, the case was continued until the September term.

John McLarney, who was a postal clerk in the Sault Ste. Marie, was charged with having broken open a letter and stolen \$4 therefrom. McLarney entered a plea of guilty before Judge Knappen yesterday.

Gibson's Trial Next Week.

The facts in the Gibson case are well known, it being alleged that he killed a fellow soldier at Fort Brady several months ago. This trial will probably be taken up the first of next week, as orders have been given to subpoena witnesses for that time.

The case will, doubtless create much interest, as it is believed that the prisoner must be hanged. As capital punishment is forbidden in this state, any execution would have to take place on government land, the chances being that the government reservation at Fort Brady would be used for that purpose.

James H. Worden is charged with having entered into a criminal conspiracy to fraudulently obtain title to government land near Sault Ste. Marie. The two smuggling offenses are alleged to have taken place near the Soo.

The John W. Spear case was on trial throughout yesterday and will be continued this morning. Witnesses for the government were on the stand most of the day and the prosecution's testimony was only concluded a few moments before adjournment.

Most of the witnesses who testified stated that they had had dealings with Mr. Spear in which they had lost money, and further declared that they had been led to make investments because of the rosy representations of large profits, made by Mr. Spear in advertisements and by letters.

On cross-examination, however, they admitted having come out ahead on their first deals, and for that reason continued in their speculations.

Opening of the Defense.

At the conclusion of the government's side of the case, Attorney W. H. Hill, for the defense, stated that it seemed to them that no evidence of fraud had been produced by the district attorney, and asked that the court allow them to argue in favor of instructing the jury to return a verdict of not guilty.

However, Judge Knappen refused to hear any such argument unless the defense would agree to rest their case, no matter what his decision might be.

Mr. Hill did not care to do this, and opened the defense with a brief statement to the jury, in which he declared that they would show that Mr. Spear had never intended to defraud anyone, had never defrauded anyone, and that every word of his advertisements and letters was substantially true.

The first witness called for the defense was H. J. Koepf, of this city, who stated that he had had speculative dealings with Mr. Spear for twelve years and that he had always obtained a square deal. As the result of these transactions the witness thought he had made some money, perhaps \$500. He said he had not gone into the wheat pool, on which the point of the government's case hangs.

On cross-examination Mr. Koepf said that he made his investments after personal study of the market, and had not been influenced by Mr. Spear's advertisements or circulars. At this point the court adjourned until 9:30 this morning.

TWENTY-FIFTH ANNIVERSARY.

The Mining Journal Will Celebrate With a Banquet Saturday Night.

The Mining Journal will celebrate the twenty-fifth anniversary of its publication as a daily newspaper with a banquet at the Hotel Clifton Saturday evening. While the management would gladly have invited all of its wide circle of friends and patrons, their great number would have made their entertainment impossible, and, consequently, the invitations have been limited to the owners, the employees, a few who were connected with the publication in its early days, and the press of the state.

THEATRICAL.

Black Patti Troubadours.

The Black Patti troubadours have always given a high class, smart, up-to-date stage show, embodying reticence, good comedy, tip-top variety, swell specialties, unmatchable singing, dancing, and cake-walking. For this season, if the advance reports be reliable they not only out class their former high standard but out rank any white or colored show in the world; presenting the new creation "The Blackville Strollers," a musical comedy in two acts by S. Tutt Whitney, with original music by Trevor L. Corwell.

DROWNINGS PREVENTABLE.

Knowledge of Watermanship and Care Would Avoid Many Fatalities.

There are chronicled every summer a long list of fatal drowning accidents which plunge thousands into mourning, and the pity of it is that a little knowledge of watermanship and ordinary care might have prevented most of them.

No one should ever take out rowing persons who do not know how to swim without first ascertaining that the boat is safe and seaworthy and provided with the necessary paraphernalia for eventualities.

It is when one least expects it that accidents occur, writes L. deB. Handley in the special vacation number of Recreation, and the only way to avoid them is to be prepared at all times.

A stout bow-line, enough life preservers to go around, an anchor, something to bale with and an extra pair of oars should be carried on principle. You may not need them ninety-nine times out of a hundred, but on that hundredth time they may mean life or death.

In getting into a boat one should try to step right into the bottom over the keel, or if this is too great a reach, on to the middle of the seat and then down.

Stepping on the gunwale has been responsible for numerous capsizeings and it is a good idea when inexperienced people are embarking to take hold of the boat and steady it. Enter if possible where you intend to sit and in such a manner that you will not have to turn afterwards.

The weight should be distributed as evenly as possible, in a small boat, with slight preference to the stern. If the bow is buried the least head-swell will flood the boat and if the stern is too deep a following sea may swamp it.

In making a landing one should approach at an angle, shipping the inboard oar a few yards away and rounding up by backing with the outward oar. It is dangerous to stretch out over the gunwale to reach for float or pier. In landing the person in the bow should be first, taking the bow-line with him and steadying the boat for the others.

I will not insult the intelligence of the reader by indulging in like idiotic skylarking. One must be decidedly lacking in judgment to choose such pastimes.

There are certain rules about one's behavior in a small craft, however, which should be kept constantly in mind. For instance, should it be necessary for two people to change places they should keep well over the keel until ready to pass each other and then standing face to face, take the bow-line simultaneously.

The boat may not lose its balance. Also, whether in picking up anything from the water or in helping a swimmer it is advisable to use the stern and not the side.

When a boat is capsize do not try to climb into it again. It will sustain you easily if you just lean on it, as will any fair-sized piece of wreckage like an oar, a spar or a board, but attempt to climb over them and they will surely sink with you.

And speaking about this, when you are being helped or towed do not hang onto your rescuer or boat with both arms, as this draws the body up and offers great resistance. Outstretched arms will increase your chances of getting ashore.

The regular Saturday night hop will be held at Fraternity Hall tomorrow night. Music by the Peerless orchestra. (6-11-11)
