

WILL URGE TARIFF BE PLACED ON OIL

Senate Committee on Finance in Favor of Taxing Petroleum in Spite of the House Action Putting It on the Free List.

Washington, June 13.—The senate committee on finance will in all probability recommend that a duty be imposed upon crude and refined petroleum and products of petroleum, in spite of the action of the house in putting these articles on the free list.

This subject was the most important of many matters discussed at a meeting of the Republican members of the committee today. The oil question was not disposed of finally, but the indications are that crude oil will be made dutiable at a quarter of a cent a gallon, and that on refined petroleum a rate of 25 per cent ad valorem will be fixed.

Many members of the senate have favored a countervailing duty on petroleum, but the representatives of the oil-producing states did not favor it. The demand for protection upon oil comes principally from the independent oil men.

The feeling in all factions of the senate is that the tariff bill is approaching the last days of its consideration in the senate. Senator Aldrich is hopeful that the entire measure will be passed Saturday, and many conservative Republicans as well as many Democrats are inclined to agree with this prediction.

The income tax amendment to the bill will be taken up for consideration Friday. The week will be devoted to a review of the bill. It is generally understood that the committee will recommend a drawback provision which will be along the lines of the present law rather than accept the house provision.

TWENTY MEN MEET AN AWFUL FATE

Imprisoned in a Russian Submarine Boat, They Die in the Depths of the Black Sea at a Point Near Sebastopol.

Sebastopol, June 13.—Owing to the great depth of the water all hope of saving the lives of the crew of the Russian submarine Kambla, which was sunk in a collision with the battleship Rostislav during the maneuvers Friday night, or of recovering the wreck, has been abandoned.

The submarine's entire crew of twenty men, including the captain, first lieutenant and chief engineer, went down with the boat. Desperate efforts were made by the officers and men of the Black Sea fleet, with the assistance of divers and salvage workmen from Sebastopol, to raise the craft before the imprisoned men succumbed because of the vitiated air in the boat. All these efforts have, however, been in vain.

Admiral Bostrom, commander of the naval forces in the Black sea, took personal charge of the work at the scene of the catastrophe. All through yesterday divers and technicians were busy in an endeavor to fasten chains around the hull, which lies in an awkward position about twenty-eight fathoms down, in order to haul it to the surface.

The work continued until this evening, when, after two divers had sacrificed their lives, all operations were abandoned. It appears that the battleship squadron, without lights, was steaming in toward the harbor when the vessels were located a few miles out by the Kambla, shortly before midnight Friday. The submarine, running half-submerged, passed a half cable length to the port of the leading ship, Panteleimon, and the latter put that vessel out of action with a torpedo.

After passing the first torpedo, the Kambla suddenly swerved through the line and the Rostislav caught her squarely with her ram, the submarine sinking immediately in deep water.

THE WEATHER.

Washington, June 13.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Monday and Tuesday; light variable winds.

MUSSELMAN AND MONTGOMERY.

Grand Rapids Likely to Have Two Gubernatorial Candidates.

Grand Rapids, Mich., July 13.—[Special.]—Stuart Knapp, son of Judge Knapp, tonight sent Judge Montgomery an open letter, signed by 500 citizens, asking him to run for governor. It is said that Judge Montgomery has expressed a willingness to run if assured that he is as strong as he used to be in Kent county, and Mr. Knapp's letter is said to have taken the open letter as sufficient assurance and will make formal announcement of his candidacy as Amos Musselman announced his candidacy last Thursday.

BLUNDER RESULTS IN SERIOUS WRECK

Four Men Are Killed and Four Suffer Injuries in an Accident on the Copper Range Railroad Out from Mass City.

Mass City, Mich., June 13.—Four men were instantly killed and four others were injured when a Chicago, Milwaukee & St. Paul log train and an extra freight train crashed together on the Copper Range railroad at a point twenty-five miles north of Mass City yesterday morning. The dead were:

ENGINEER MCARTHUR of the extra freight, home at Green Bay, Wis.; ENGINEER MURRAY of the log train, home at Menominee; BRAKEMAN CAVERLEARO, home at Green Bay, Wis.; CHRIST SCHROEDER, a brakeman, home at Green Bay, Wis.

Reports as to the cause of the collision are conflicting, but account of the accident given most generally credited is that it was due to the conductor of the log train disregarding an order and remaining on the main track although apprised of the coming of the extra freight.

The log train, it seems, had the right of way until 7 o'clock when a flagman was to have been stationed for protection. According to the reports, the conductor of the log train, thinking the freight would be a few minutes late, remained on the main line instead of going into a siding. Between two and five minutes after seven, the heavy freight came along under a full head of steam. When the engineer saw the log train, the brakes were applied, but the momentum was so tremendous that the locomotive sped on and crashed into the log train, demolishing both engines and piling up the cars.

Conductor Phillips of the log train suffered a broken leg and was seriously injured otherwise. These other trainmen sustained internal injuries. Wrecking crews were dispatched to the scene as quickly as possible and labored for several hours before the tracks were cleared. Eight cars loaded with lumber and merchandise were demolished.

HAVOC IN FRANCE OF DIRE EXTENT

At Least 100 Persons Are Dead in Consequence of the Earth Shocks Which Shook the Southern Portion of the Country.

Marseilles, June 12.—One hundred dead and 100 injured is the latest estimate of the total casualties resulting from the earthquake, which devastated several towns and villages in the southernmost part of France Friday night. Great suffering has been reported from the remote places, owing to lack of bread and the necessities of life. The casualties may be greatly increased, as the ruins have not yet been entirely searched.

Two villages of Saint Cannat and Rognez were completely demolished by the earthquake, and Lambec suffered heavily. According to advices received here, a number of wounded are still imprisoned in the ruins and soldiers are working desperately to rescue them. The survivors are sleeping in tents. Many streets are impassable. Houses, public buildings and churches crumbled to pieces. Among other villages seriously damaged are Venelles, Pellissanne, Puy Ste. Rapée and Argulles.

Some of the victims at Saint Cannat and Rognez were horribly mutilated. There were evidences that several victims had lived for hours, imprisoned by debris, before they died. People rushed into the streets when the first shock occurred, crying out in terror. Many of them returned to the rescue of their families. At Rognez a family of four was buried in the ruins. Their cries could be heard throughout the night, but all were dead in the morning when a cesing party reached them. At Saint Cannat an old man and his son were watching a billiard game. They were instantly killed. The players escaped with slight bruises.

Chateau Yamanasse, near Saint Cannat, was badly damaged. The communal chateau at Argulles was split in two. The historic village of Verneuges was wrecked but no one was killed. At Toulon, fearing new shocks, a large number of people have left the city and camped out in the country. The earthquake damaged the arsenal and several ships were almost driven ashore.

more striking. There have been practically no defalcations by the bonded officers of those two departments. When Vice President Sherman was chairman of the committee on Indian affairs he fell into an error which Mr. Tawney has avoided. Mr. Sherman included an item in the Indian appropriation bill for the payment out of government funds of the charges for the bonds of the various officers of whom surety is required by law. Last year when the bonding companies raised their rates there was not enough money in the Indian appropriation to provide the usual amount of bonds. This difficulty was solved by the simple process of cutting down the penalties to the point where the available appropriation would be sufficient to pay the commission demanded by the bonding companies.

AFTER SURETY COMPANIES.

Prices Too High for Clerks of the Federal Government.

Chairman Tawney of the Appropriations Committee Believes an Increase of 200 Per Cent Is Altogether Too Much and He Will Take Steps to Prevent It.

Washington, June 13.—Chairman Tawney of the house appropriations committee has discovered a combination among the bonding companies to squeeze federal officials who are required to furnish surety bonds. He has decided to break up the trust and is now preparing a measure which will do the smashing. It seems that on the first of January of this year the bonding companies entered into an agreement with each other to increase the charges for bonds to government officers two hundred per cent. Before that date the universal charge had been \$1 per \$1,000. Now it is \$3 per \$1,000, and a great protest has gone up from the helpless officials.

Having protested without effect to the various bonding companies, the sufferers appealed to Chairman Tawney. He has been investigating the subject and has come to the conclusion that the bonding companies are imposing upon the helpless officials and that he can put a stop to the injustice. Mr. Tawney will introduce a resolution in a few days prohibiting the acceptance of any bonds for government officers the rate for which is greater than the prevailing charge prior to Jan. 1, 1909. This will have the effect of restoring the old commission of \$1 for each \$1,000 of bond furnished. Representatives of the bonding companies have been making a vigorous fight to maintain their increased rates. Chairman Tawney has been having some spirited sessions with the officers of the leading companies, who have been here in force. The man who holds the government purse strings has proved something of a tartar for the visiting bonding officers. Mr. Tawney had some experience with these companies as a bank official in Minnesota, the result of which was to leave his mind rather prejudiced against them.

STIFF TAX FOR SMALL BENEFITS.

Mr. Tawney is convinced that the government's bonded officers pay a very stiff tax for a very small amount of benefit. He cites the bonding of postmasters and other officers of the post-office department to prove his point. He says that the officials of this department annually pay \$320,000 in premiums for bonds. The department maintains a bond division where the clerks examine the sureties, classify them, look after renewals and perform other clerical work. The cost of maintaining this division is \$200,000 a year. The average loss which the bonding companies have made good has been \$32,000 a year. Mr. Tawney thinks this is a very high rate of insurance for the government and its officers to pay. He says the figures for the navy department and war department are even

ADDRESS BY BRYAN.

An Added Feature of Promised Wedding on Passenger Train.

St. Paul, June 13.—The committee in charge of the arrangements for the international Christian Endeavor convention which opens here July 7 announced today that Wm. Jennings Bryan, who comes with the Nebraska delegation on their special train, has declared that he will make an address at the wedding of any couple that accepts the offer of Rev. H. S. Salsbury, a prominent Omaha minister, to marry them free of charge on the train.

AMERICANS WIN HEAVILY.

W. K. Vanderbilt's Horse Captures the French Derby Stake of \$40,600.

Paris, June 13.—The French derby at Chantilly was won today by W. K. Vanderbilt's Negofol. The stake was worth \$40,600. The race was witnessed by thousands of Americans, who won heavily on the American victory. There were twenty-one entries. W. K. Vanderbilt's Negofol won the Prix De Danzig, at two and a half miles, stake, \$2,900.

For 12 months there were from \$6,000,000 to \$7,000,000 taken out of the Nevada mines every month.

Copper Country

AND NOW FOR THE ELKS.

Calumet Will Be Crowded With Visitors All This Week.

The annual convention of the state lodge of Elks will open in Calumet Wednesday. Already the visitors are arriving. It is impossible to forecast the number of visitors, but they are coming in hundreds from all parts of the state.

PRESS CLUB BANQUET.

Chase S. Osborn Guest of Honor of Newspapermen Last Night.

The first annual banquet of the Copper Country Press club was held at the Douglas House, Houghton, last night, with Chase S. Osborn of the Soo as the guest of honor.

KEWENAW CENTRAL PARK.

Crest View Will Be a Popular Outing Resort This Summer.

The Keweenaw Central railroad is pushing the improvement work at its new resort in Keweenaw county. A name significant and pleasing to the ear has been selected for the park.

FIREMEN START TRAINING.

Red Jacket Running Team Is Out for Tournament Prizes.

The candidates for the running team which will represent the Red Jacket fire department in the tournament at Laurium this year will get out for their first practice this evening, probably holding a light work-out at the Y. M. C. A. athletic field.

COLLECTING TUBERCULOSIS DATA.

Medical Society to Advise the Supervisors Concerning the Situation.

The members of the Houghton County Medical Society, acting in support of the petition for the appointment of a sanitarian, are working on what is expected to be a complete report of the number of cases of tuberculosis in the county.

GOOD WILL FARM NEEDS \$1,000.

Mrs. G. M. Walker, superintendent of Good Will Farm, has resumed collecting for the association. She reports that the farm is a little less than \$1,000 behind its requirements to date and she is starting out in an effort to obtain that amount.

MORE MOTOR BOATS.

Wilfred Croze, motor boat engineer for Carroll Bros., has gone to Detroit to join James Carroll, who is there taking possession of a new power craft just completed for the firm.

COMMENCEMENT WEEK.

The school year for the Houghton schools ends this week and the week will be filled with the various functions incidental to the closing. The following is the plan for the week:

THE SOURCE OF BUTTER

From Cream. And cream is formed on standing milk by the massing together of fat and water. The greater portion of butter sold today is made from cream which has been exposed to dust, bad odors and germs—cream obtained from any kind of cows.

Silver Creek Creamery

Pasteurized Butter

It is made from select—sweet, rich cream and is churned steadily by delicate machinery so that you may obtain appetizing, healthful butter. Sold by all grocers in one pound tins. If your grocer hasn't tell him to write us.

Ripon Produce Co. Ripon, Wis.

HANCOCK ALUMNI BANQUET.

The banquet of the alumni association of the Hancock Central High school to the 1909 class of graduates will take place Wednesday evening. The members of the board of education and faculty will also be guests.

Mining News

NEVADA CONSOLIDATED.

Late advices from Ely state that the steam shovel pit on the Copper Flax group of the Nevada Consolidated is producing an average of 4,000 tons a day and with the ore from the Cumberland Ely the daily shipments to the Ely smelter run close to 5,500 tons.

MARRIED VERY QUIETLY.

The friends of Henry W. Hecker, manager of the Houghton Pure Food company, were much surprised to learn of his marriage. The wedding took place June 3 at the residence of Rev. Walter P. Fruit, pastor of Grace M. E. church.

SATURDAY'S CRICKET SCORES.

The Kearsarge champions retained the lead in the cricket league Saturday, defeating Mohawk on the Mohawk pitch, 53 to 49. Calumet & Hecla had easy work in disposing of Mesnard, winning by the score of 50 to 28.

ROOSEVELT EXCURSION.

A big crowd of people went to Marquette yesterday from Houghton on the steamer Theodore Roosevelt of Chicago, specially chartered by the D'Alberville Dramatic club of Lake Linden for the purpose. Over two thousand looked on at the departure of the excursion.

SMALL MERCIES.

The young English tourist who had been staying for a week at a hotel in the Scottish highlands for the purpose of talking advantage of the fishing was, at the end of that time, rather inclined to think that the fishing had taken advantage of the opportunity to use the fish. "It's a nice catch, and so it ought to be. It has cost me £15 at least."

MASS CONSOLIDATED.

J. C. Hutchinson, a Boston broker, who has returned to the East after a visit to the Lake region, says regarding Mass Consolidated: "All the rock for the recent mill came from the new ledge at a distance of about 220 feet from the 1700-foot level of the 'A' shaft. From this point they have drifted south-west and northeast for a total distance of about 128 feet and have stepped up in places 70 feet, taking out about 2,000 tons of ore, mostly from the shorts. Attention is being attracted to the strong position of Butte Condition, and we advise its purchase for an eight to ten point to eleven, but the buying was mostly by floor traders and has little significance. The whole lot seems to maintain a strong position, with almost no stock pressing for sale. We find that the large commission houses are carrying very little Amalgamated, and we expect to see one of the leaders of the market within a very short time."

The final quotations follow:

Table of stock market quotations including Amalgamated, Anaconda, and other mining stocks.

NOTES OF COPPER NEWS.

Preliminary surveying and the securing of other necessary data, preparatory to beginning exploratory work in the lands of the Onco company, is now under way. The work will be under the direction of one of the Lake's best mining men, Superintendent John L. Harris, of the Hancock Consolidated. The Onco is ideally located to benefit from anything that may be found in the New Baltic lands, as should this big ledge disclose copper contents of commercial quality, and it is good opinion that it will, the same good things are seen to be found in Onco, for the formation underlies every acre of the territory. The Onco has issued only 70,000 shares of stock, having 20,000 shares in the treasury, as also up to 200,000 in cash.

Wyandot is drifting both on the foot wall side and the hanging wall side of the newly opened thirty-foot ledge. The copper is confined to the foot wall side but the appearance of the rock on the hanging wall side is very favorable—in fact, more "likely" looking for copper than any other part of the ledge. The appearance of this ledge has opened up the healthiest of any ledge thus far opened by Wyandot, although probably up to the present it has not disclosed as much copper as the episode ledge opened a few months ago, and which was drifted upon to considerable extent. The ledge now being explored carries very little pyrite and has the characteristics of a strong, vigorous amygdaloid, resembling in structure, the Baltic and Lake ledges.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent of New York Saturday telegraphed as follows: "The list fluctuated erratically during the greater part of today's session. It was irregularly and unduly weak on weak end selling, and bullish operations in specialties were not conducted on a very large scale. The Walsh issues, together with Cotton Oil, Beet Sugar and the Harmons, have been well absorbed in the past few days, and sentiment as a general rule on those issues is quite bullish. The action of the market is somewhat confusing to a great many traders, but from the character of the support tendered on drives it is evident that the holders of securities are not yet willing to permit a material recession. It is thought that Southern Pacific will be worked considerably higher, and the copper issues are expected to participate in the activity to a greater extent than heretofore."

Boston "Coppers."

Writing from Boston Saturday, Paine, Webber & Co. had the following to say of the stock market: "Both markets were dull today until near the close; the final quotations, however, were higher, with a good demand for stocks, mostly from the shorts. Attention is being attracted to the strong position of Butte Condition, and we advise its purchase for an eight to ten point to eleven, but the buying was mostly by floor traders and has little significance. The whole lot seems to maintain a strong position, with almost no stock pressing for sale. We find that the large commission houses are carrying very little Amalgamated, and we expect to see one of the leaders of the market within a very short time."

The final quotations follow:

Table of stock market quotations including Amalgamated, Anaconda, and other mining stocks.

Promptness in making deposits in the bank, is the forerunner of financial success. THE CITIZENS NATIONAL BANK Houghton, Michigan. CAPITAL \$50,000.00

Upper Peninsula

The Soo Line depot has been moved from Corinne to Gould City, one and one-half miles distant. This act is the closing chapter in the history of a school-raft company town that once was a considerable factor in the business affairs of the east end of the peninsula. A mile was located there as were a number of large mercantile establishments. There has always been much rivalry between the neighboring communities, and the fact that the Soo Line had selected Corinne as a stopping place and had refused to erect a depot at Gould City assisted materially in keeping the former town in the assembly. However, after the Manistique Furnace company, which once operated a battery of furnaces at Corinne, abandoned its interests there, and since the death of Archie McArthur, who was prominent in business circles, Corinne commenced to retrograde and Gould City is not on the map.

Canada Taking Chippewa's Settlers.

The Canadian Pacific Railway company has invaded Chippewa county and is taking people to the Canadian north-west to locate, explains the Soo News. An agent of the railway is working in the vicinity of Donaldson and Peleton and has distributed bills advertising cheap rates all over the county. A party of housewives will leave the Soo June 28. The bills advertising the low rates have attracted considerable attention and it is said a number of people from this locality will go west to look over the country. During the past decade several hundred people have left the part of the state to the northwest. It is said that Canada has claimed almost as many people as have settled here. If this is true, Chippewa county is not progressing as rapidly as the natural conditions warrant. The land in this part of the state is as good as the soil in western Canada. The markets are better. Prices are higher here. But the conditions are not advertised to the world and many people who might settle on Chippewa county land, or in other portions of the upper peninsula, for the quarter if the right inducements were offered, are lured by the northwestern

AS NATIONAL in its scope as the United States Mail.

THE AMERICAN TELEPHONE & TELEGRAPH COMPANY, COMMONLY CALLED THE "BELL SYSTEM," is a long distance telephone company with 2,000,000 miles of long distance toll lines uniting, like the links in a chain, every state in the Union in one great telephone exchange of 4,250,000 subscribers.

THE CHAIN is made up of thirty great companies, each company a link connecting one state with another and all forming one national compact unit extending from coast to coast. Each company uses the same kind of apparatus, employs the same operating methods and constructs the same high grade and efficient plants. It is thus enabled to give perfect long distance service, and also the best local telephone service.

THE MICHIGAN STATE TELEPHONE COMPANY is the Michigan link but unlike the other "BELL COMPANIES" it is independent of Bell ownership or control, though so closely affiliated that it shares in all the advantages of the Bell System, including the use of Bell apparatus—the standard of the world—and Bell long distance lines—it covers the state; it operates over 200 exchanges and in addition connects with 177 independently operated exchanges; it furnishes long distance connection to nearly 300 locally owned, non-competing independent companies; it serves nearly 40,000 farmers, many of whom own their own lines. It connects 155,000 subscribers, reaches 1,100 cities and towns in Michigan, and unites them all with 50,000 cities and towns and 425,000 subscribers of the great "BELL SYSTEM."

DAILY MINING JOURNAL TURNS QUARTER CENTURY

Significant Occasion Observed by an Enjoyable Banquet at the Hotel Clifton Saturday Night.

HISTORY OF U. P. PIONEER PUBLICATION.

Interesting Reminiscences of Past Years Related by Speakers—Eighty Attended Festive Gathering, Several Being from Other Cities.

The twenty-fifth anniversary of the publication of The Mining Journal as a daily newspaper was fittingly and enjoyably observed by a banquet at the Hotel Clifton Saturday evening...

Wilbur E. Campbell, Manistique Courier-Record; Thos. E. Flynn, Negaunee Iron Herald; and Mrs. Flynn, J. D. Spitzer, Ishpeming Record; Fred Dugan, Escanaba Journal; Roger M. Andrews, Menominee Herald-Leader; Pat O'Brien, Iron River Reporter; G. C. Youngs, Florence (Wis.) Mining News; and Mrs. Youngs; L. P. Cook, Houghton; Andrew Lind, Ishpeming Superior Poston.

Shortly after 8:30 o'clock the assembled guests sat down to the banquet tables, which were arranged in a hollow square, and simply but artistically decorated, the color scheme being pink and white.

The six-course repast was well prepared and served by Landell Sullivan and his corps of efficient waitresses. The following was the menu: Cream of Corn, Sliced Tomatoes, Dill Pickles, Planked Whitefish, Potatoes Duchesse, Radishes, Salted Almonds, Fillet of Beef with Mushrooms, Mashed Potatoes, Spinach, Braised Sweetbreads, French Peas, Fruit Salad, Vanilla Ice Cream, Assorted Cake, Coffee.

After Dinner Informal Program. When the tables had been cleared, Business Manager A. Hornstein called the banquet to order and read a carefully prepared paper, analyzing the relations with The Daily Mining Journal as business manager during the twenty-five years of its existence.

Mr. Hornstein then introduced Editor-in-Chief James Russell, who delivered an address, recounting the history of The Mining Journal from its beginnings. No formal program having been arranged, Mr. Hornstein, acting as toastmaster, called upon several of the visiting newspaper men, who responded briefly expressing the high regard in which they hold The Mining Journal and its management.

Whereas, The employees are deeply sensible of the extreme cordiality and warmth with which they have been treated during the period of their employment on this paper; and Whereas, they have attained a flattering success attained by no other publication...

Resolved, That we, the employees of The Mining Journal, use this means to express our individual and united gratitude for the many kindnesses and helpful suggestions bestowed by the proprietors in our relations with them...

Resolved, That we extend to our employers our very best wishes for the continued success which should attend their future labors.

Whereupon we have taken great pleasure in subscribing our names and signatures to the twenty-fifth anniversary of The Mining Journal for the year of our Lord, one thousand nine hundred and nine.

At the conclusion of the program, about the midnight hour, Mr. Andrews moved that those extend a rising vote of thanks to the managers of The Mining Journal for the delightful evening that had been spent, which was unanimously carried, and all departed to their homes happy in the consciousness of an enjoyable evening well spent.

Invitations to attend the banquet had been sent to forty newspaper in the state, and many letters of regret were received from those unable to attend, among which were the following:

Resolutions from L. S. P. A. The following congratulatory resolutions from the Lake Superior Press Association...

great thing a newspaper like The Mining Journal means for the community. Probably the people of your town do not, because they have had the Journal so many years and it has always been just such a first class newspaper, and not infrequently the old adage about a prophet being without honor in his home, is true in regard to a newspaper as well.

Again assuring you of my heartfelt well wishes for the future and regretting that I cannot be present at your banquet in person as I surely will be in spirit, believe me,

Very truly yours, HOMER A. GUCK, Editor Mining Gazette.

The Saginaw Courier-Herald—Saginaw, Mich., June 1, 1909. Editor Daily Mining Journal,

Dear Sir: I beg to acknowledge receipt of invitation to attend banquet commemorative of the twenty-fifth anniversary of the establishment of The Daily Mining Journal.

Marquette, Mich. I regret exceedingly that other engagements will prevent me attending this significant and interesting event.

As a Michigan editor, I have been familiar with The Daily Mining Journal for almost the period of its existence, and know that it is one of the influential newspapers of the state.

I assure you of my earnest congratulations upon the success that you have demonstrated during a quarter century of active influence.

Yours truly, W. J. HUNSAKER, Publisher.

Tribune Publishing Company—Manistique, Mich., June 10, 1909. The Mining Journal,

Marquette, Mich. Gentlemen: Owing to the fact that I am suffering from blood poison which involves the nose and upper lip, I am unable to be present at the banquet at the Clifton Hotel Saturday.

It is a decided uphill task, for people did not know what to expect of us in this venture, and it had to be made clear to everyone in those trying days.

With the wish that the banquet may be an unbounded success, and that the two Russells and Brother Hornstein may live to observe the centennial anniversary of the Journal, I am,

Yours very truly, GEO. E. HOLBEIN, The Port Huron Times—Port Huron, Mich., May 27, '09.

Mr. A. Hornstein, The Mining Journal, Marquette, Mich. My Dear Sir: Congratulations on the completion of the first quarter-century of the existence of The Mining Journal.

Mr. Hornstein, your paper has been a power in the upper peninsula throughout its existence and at no time has it been so effective as today.

It would give me much pleasure to attend the banquet which you are to hold on June 12 on the occasion of the completion of the first quarter-century of the existence of The Mining Journal.

With kindest personal regards, I am, Fraternally yours, FRED W. SHERMAN.

The Pontiac Press Gazette—Pontiac, Mich., May 27, 1909. The Mining Journal Co., Marquette, Mich.

Gentlemen: We acknowledge receipt of your kind invitation to be present in connection with the celebration of the twenty-fifth anniversary of the establishment of The Daily Mining Journal.

Since June 2, 1884, we have issued twenty million copies of the paper. We have paid more than a million dollars in running expenses.

We have consumed more than one hundred carloads of print paper, and for all purposes in The Mining Journal more than two hundred and fifty copies have been published every working day.

Very sincerely yours, PONTIAC PRESS GAZETTE, H. Coleman.

Copper Country Evening News—Calmont, Mich., June 10, 1909. Mr. A. Hornstein,

Dear Mr. Hornstein: I regret exceedingly that I will be unable to attend the banquet to be given in honor of the twenty-fifth anniversary of the Mining Journal, Saturday.

All this could not have been done without the co-operation of our employees. And a more faithful, painstaking and absolutely loyal force never assembled under any organization.

The Mining Journal employees are more to me than employees. They are my friends, one and all. I would not keep a person on The Mining Journal force one day who was not a friend of the concern and its owners.

Kindly remember me to all. Sincerely yours, MERWIN W. YOUNGS, Madison, Wis., June 12, 1909.

printing office annals. I challenge competitors: A. Hornstein 32 years, James Russell 28, Ed. J. Metcalfe 26, Timothy Downs 22, August Erickson 20, Charles J. Erickson 20, Margaret Conners 20, Arthur E. Boswell 17, Ed. J. Butler 17, Melvin P. Youngs 16, Isidore Vaebruck 15, Peter Boldue 13, Frank J. Russell 10, Medos DeSart 9.

Mr. Hornstein's Remarks. Following is the text of Mr. Hornstein's address:

We are assembled here tonight to celebrate an event of much interest to all of us—the twenty-fifth anniversary of the founding of The Daily Mining Journal. This day is not the actual anniversary, but postponed date to suit contingencies.

It appears that the people employed on The Mining Journal have steady jobs. Besides I cannot remember the time when an employee was laid off for a single day for want of work to do in the shop.

While on this subject I am reminded of the recent death of a former and much respected member of the Mining Journal force—Trowbridge Johns. Mr. Johns came to the Mining Journal when we needed just such a man as he was.

# Character

It takes character to save regularly a portion of a comparatively small income, and character is of even more value than the amount of money accumulated.

Begin now by opening an account with us and add to it. Increase it regularly and systematically, then you will be acquiring capital for an emergency or for an opportunity, and at the same time building up and strengthening your character.

Scattering one's energies is like trying to kill an elephant with bird shot.

### City Brevities

Yesterday's temperatures: Seven a. m., 43 degrees; noon, 42 degrees; 7 p. m., 41 degrees. Maximum, 43 degrees; minimum, 41 degrees.

The North Stars defeated the Moonshiners Saturday afternoon by the score of 9 to 4.

Miss Minnie Frisbie, of Norway, left for Mackinac Island on the Tionesta Saturday evening.

Bishop Eis held confirmation services in the three Catholic churches of Iron Mountain yesterday, over 200 being confirmed.

All bills against the Catholic Order of Foresters should be in the hands of the committee not later than tomorrow morning.

Marquette Elks will meet in their club rooms at 8:30 tonight to complete arrangements for attending the state convention at Calumet this week.

Mrs. Malcomb Bell gave a lunch at Presque Isle Saturday afternoon in honor of the ninth birthday of her son William, a party of young folks being present.

At the meeting of the Queen City Commercial club, to be held at the city hall this evening, officers for the ensuing year are to be elected, and a full attendance is desired.

"Gates of Opportunity" was the subject of Dr. Kerr Boyce Tupper's address to the senior class of the Marquette High school, delivered in the high school assembly room last evening, before a large audience.

Chimney Fire—The fire department was called out at 1:20 yesterday afternoon to put out a chimney fire at the corner of Third street and Hewitt avenue, in the residence occupied by Frank Nys.

Death of Child—Beatrice, the three-year-old daughter of Mr. and Mrs. Theodore Wolf, of West Prospect street, passed away Sunday morning, death being the result of croup. The remains will be taken to Milwaukee tonight for interment.

Company Officers Here—M. E. O'Brien, Thomas Bastian and Alex. Levine, of Calumet, officers of the American Feed Water Heater company, are in the city now being done toward testing the new water heating device on South Shore locomotive No. 408. The preliminary tests have been entirely satisfactory.

Passenger Season On—The lake passenger season is now on in real earnest. The Tionesta left here at 6 o'clock Saturday night for the Soo and the lower lakes; the Junonia arrived here at 9 o'clock yesterday morning, west-bound, and the Japan is due here at 11 o'clock tonight, west-bound. The boats that have arrived thus far have had but a small passenger list.

News of Ore Carriers—The Thompson cleared for Ashtabula Saturday with one loaded at the South Shore dock yesterday, and the Corona, Abyssinia and Peck were due for ore last night. The Choctaw unloaded coal at the Peck dock yesterday. The Angelina cleared with ore for Ashtabula from the L. S. & L. dock Saturday and the England yesterday.

Assessment Roll Less—The board of review closed its week's session Saturday evening, after having gone over the assessment roll of the city, both of personal and real property. Although the exact amount of the revised roll has not yet been ascertained, it is stated that it will be considerably less than that of a year ago, owing, to some extent, to the decreased valuation of several land companies, with headquarters in this city.

McDonnell Funeral Today—The funeral of the late William McDonnell will be held from St. Peter's cathedral at 9 o'clock this morning, with interment in Holy Cross cemetery. The Brotherhood of Railway Trainmen, of which the deceased was a member, will attend the obsequies in a body, and for the purpose will meet at Fraternity Hall at 8:30 this morning. The Brotherhood will draw up resolutions of respect and condolence, which will be presented to the members of the grief-stricken family.

Wrong Moloney Summoned—It has come to light that a queer mistake took place in the drawing of the United States grand jury, which closed its deliberations last week. John F. Moloney, Sr., of the Soo, was summoned as a member of the jury, when it was in the drawing he was excused. John F. Moloney, Jr., was the man drawn on the jury, but his father was summoned to appear. John F. Moloney, Jr., was not summoned, so neither of them had to serve.

New Insurance Company—W. L. Stowers of Milwaukee is in the city and will be here part of this week for the Old Line Life Insurance company of Milwaukee, a new organization being formed by Milwaukee men and in which four of the principal Milwaukee banks are interested. The aim of the promoters is to obtain as wide a distribution of the stock as is possible, with the idea of interesting solid men in a large number of cities and towns in the upbuilding of the new company. A number of the leading men of Milwaukee are already numbered among the subscribers, and the enterprise is being launched under most favorable auspices.

Second Team Won—Although it was impossible to play the baseball game between Marquette and Negaunee at Negaunee yesterday, as scheduled, on account of rain, the second team managed to pull off a seven-inning game at Gwin and defeated their opponents by the score of 5 to 0. The game was played before a large crowd, and much baseball enthusiasm was exhibited in the Swanzy range town. Gwin's defeat was largely due to their inability to hit Smith, the Marquette twirler, who held his opponents to four scattered hits. Jergenson, for Marquette, was the heavy hitter of the day, making a three-bagger and a single, while Beaudin and Leo Gaty lined out a hit each that was good for two bases. Both teams played a creditable game in the field. Johnson, Ford, Lund and Kildner were the batteries for Gwin, while Rossiter received Smith's twisters, for Marquette. Munnising will probably play here next Sunday.

### DAILY MINING JOURNAL TURNS QUARTER CENTURY

Continued from Page Four.

will back of it, and the good will of such men cannot be had without deserving.

In seeking data for this sketch, briefly outlining the history of the paper for its existence of nearly sixty years altogether, and of over fifty with Marquette as its place of publication, I have had occasion to run through the old files, or such of them as have been preserved. This I found a task of absorbing interest, for the venerable record of the early history of our city and the upper peninsula which these old volumes constitute is replete with events and incidents of the early days up here and the men who had to do with the initial work of developing its industries which catch and hold the attention as would the pages of a powerfully written novel. The names of the men whose grasp of the possibilities of this region nerved them for the wonderful work they did as its pioneer settlers are embalmied in these old, yellowing pages of The Mining Journal. For example, in a number dated March 20, 1875, over thirty-four years ago, I ran across this editorial comment:

#### No Prison or Normal.

"Senator White's bills for the establishment of a state prison and normal school in this peninsula will, we think, fail, though the former has passed the senate. It is understood that the governor and other influential gentlemen connected with the state administration are opposed to the establishment of a branch prison in this peninsula, and we believe they will have influence enough to kill the bill in the house."

The Senator White mentioned in this comment was our lamented Peter White, whose recent death is fresh in the minds of the people who had long by common consent granted him the rank of our foremost citizen. In him for over fifty years The Mining Journal had a friend who never failed it, and to whose wise counsel and substantial support it owes much of the success it has achieved. He was a frequent contributor, and always a welcome and entertaining one, to its columns, and when its necessities called for contributions of a more substantial nature to tide it over a hard place he was always "there with the goods."

The paper and its publishers can only pay with grateful words of tribute to his memory the debt they owe Peter White, but they bear the knowledge of it deep in their hearts, and will till they are called to join him in the world beyond.

Long before Mr. White had passed away the branch prison and Normal school for which the bills he introduced in the legislature thirty-four years ago sought to provide had been given our peninsula, and were located in the city of his love and pride. And since hall of the Normal bears his name, as does our beautiful public library, what more fitting monuments could there be to the memory of such a man than an educational institution such as the Northern Normal, and the "Peter White" public library?

#### Gratitude to L. S. P. A.

And now a final word: We have with us as guests the officers and several members of the Lake Superior Press association. It is a great pleasure to us to have them here on an occasion that means so much to us, and I desire to say to the press of the entire peninsula through them that one of the pleasantest of our experiences as publishers has ever been the cordial friendship manifested for our paper by the press of this peninsula and their publishers.

Personally, I have recently been given a demonstration of that feeling that has touched me deeply, and helped me not a little, and I will close by saying that while life is left me I shall not forget, or cease to be deeply grateful for the spirit and unanimity with which my newspaper friends, rather than my defense when unscrupulous enemies sought to smirch my reputation through cheap tools of theirs in the legislature who prostituted their position to become agents for a coterie of dishonest and discredited place hunters.

Broekton Port and Brandy and Chase's Kentucky Whiskey are pure goods, and sold always by The Stafford Drug Co. 5-7-1f

# L. W. ATKINS & CO.

FROM MORGAN'S CURB LETTER.

"Dullness prevailed in copper shares throughout the day's short session, and the market dragged. Price changes were few and unimportant. There was a little selling of Giroux on the New York curb, which resulted in a decline of 1/8 in the price, but it later recovered to 7/8. Butte Coalition, Superior & Boston, North Butte and Mass were fractionally stronger. Good buying of Superior & Boston has been reported recently, the most prominent buyers being houses with Lake connections. These interests are very bullish on the stock, and are predicting higher prices for the shares, based on good showing now being made at the property."

Saturday's prevailing prices were:

## DEDICATORY EXERCISES LARGELY ATTENDED

Nearly 1,000 PEOPLE ASSEMBLED IN NEW BUILDING YESTERDAY AFTERNOON TO HEAR ADDRESS BY Y. M. C. A. WORKERS.

In spite of the unfavorable weather the dedicatory exercises at the Young Men's Christian association's new block yesterday afternoon were well attended. The entire floor space of the gymnasium was filled with seats, all of which were occupied. Two hundred more young men and boys were provided with seats on the race track, and the entrances to the gymnasium were also filled. John L. Bradford, chairman of the board of trustees, presided.

President Burt's Address.

After a selection by Locher's orchestra and invocation by Rev. W. J. Meade, G. D. McDill, international secretary of the industrial committee of the Y. M. C. A., read from scriptures. Mr. McDill was followed by Charles Burt, president of the local association, who spoke in part as follows:

"I extend to you on behalf of the board of directors and the association, a hearty welcome to this dedicatory service, and we are proud to have on our platform some of the men who are giving their lives to this work, and others who are giving their time and money to carry that great work forward in the interest of their fellowmen. We offer no excuse for the beautiful, substantial building with its most modern equipment, which we dedicate this afternoon. It is what we have needed for many years. We now have it; it is built for us. Our chairman made mention of our meeting eleven months ago to lay the cornerstone of this building. It has been said that some mentioned that the Y. M. C. A. has been somewhat like a very big cart before a small pony, but our ambitions are more than realized.

"As the building and equipment represents more than we expected we feel that the money expended is returned. We feel today that nothing has happened in our lives more interesting or more important than the establishing in our midst of the Young Men's Christian association and though the proposition may have had the appearance of a large cart before a small pony we feel that our ambitions are realized and repaid in the beautiful structure.

"The world wants men who are physically strong and men with morals, and who ever strive to gain spiritual perfection. The supreme ambition of the Y. M. C. A. is to raise men to that ideal that the town of our citizens may become better, and there is no organization that does more for a better, nobler, which endures the mind, body and heart than does the Young Men's Christian association. We invite you to become members of it. Many of us here today have been deprived of the public school and college education; to us the association is a worthy opportunity and will prepare us for the ever widening opportunities through the future calls of our life.

"The gymnasium will afford us an opportunity to build up again our bodily strength. The pool is provided for those who can swim, and we have provided a bath and if we have not the confidence to swim we have been provided with the shower bath. We also have the social side of life.

"I am sure that the addresses of these fine gentlemen will create in you a first that can be satisfied only by the springs of opportunities and the rivers of social equality which will ever be found within its walls—a thirst for moral and physical development. We will be able to satisfy every man and every time a door swings in the echo will be welcome and every time the door swings out the echo will be satisfaction."

**Business Men Support Association.**

James L. Smart, a prominent Detroit business man, spoke on the subject, "Why Business Men Support the Association," his address being in part as follows:

"I congratulate you on the grand plant erected for the use of the young men of the city and will say that so far as my opinion goes it is the best plant that I know of in a city of this size. It has every advantage, so far as I have been able to see, of some of the great buildings in the big cities. I congratulate you upon the board of directors whose duty it was to look after the erection of this grand plant, and gave it the time necessary to make it a success. I congratulate you on the secretarial force and I feel that your work will be carried on in a successful and influential way. The Young Men's Christian association cannot but be proud of the confidence reposed in it by the general public in placing at its disposal and use such institutions as this.

"The building that we have at home, in Detroit, is probably the largest Young Men's Christian association building in the world. It is ten stories in height. The top story is devoted entirely to a dining room and kitchen and 250 people can be served at one time. There are ninety-six dormitories in which ninety-six young men find their home, and there is a list of from fifty to 100 waiting for a vacant room. The dormitories occupy two or three floors of the building. Three or four floors are devoted to educational work and in this branch we have not only the religious education work conducted, but we conduct a watch-making school, a plumbing school, a masonry school, carpentry school, blacksmithing school, machinist school. We have in connection with the association a business men's club of 200 members, which hold meetings three times a week in the gymnasium. A set of these classes goes on at 12:15 for thirty to forty-five minutes and take exercises. All of these classes are filled and there is a waiting list of from twenty-five to fifty men. We conduct in the establishment a barber shop. We have a swimming pool seventy-five by thirty feet in size and is one of the best in the world. The building cost \$700,000, including the site; of this sum \$235,000 was realized by the property heretofore occupied by a barber shop. We have a swimming pool raised in a campaign which lasted twenty-three days. The subscription was raised by the men of Detroit in connection with the association and all of

that money has been received except 3 per cent, which is a very good showing. Over \$30,000,000 in property.

"The Young Men's Christian association is one of the greatest achievements of the modern times. Religious services for men only were held about thirty years ago in a small theater but now the men have a good moral place to go. It is estimated that in North America alone the Young Men's Christian association owns \$31,000,000 worth of land and buildings. It has a great many houses of religious work and education all work in which more than 35,000 students get education. It conducts nearly 600 gymnasiums where the physical welfare of the young men receive proper attention. It provides amusements. It conducts the proper kinds and forms of amusement. It takes up every form of work to assist in the making of the man.

"From one-third to one-half of the money necessary for the conduct of the Young Men's Christian association is donated by the business men. The business men know that the future success of his business lies with the young man. He knows that the young men will get together. He knows that when a bunch of young fellows get together there will be something doing; something good or something bad. He knows that the influence that leads in the wrong direction is strong and that is the chief reason why the business men donate their time and money to the Young Men's Christian association.

"To the business men of Ishpeming, I say look after your interests here. To the young men of Ishpeming, use the privilege of the association. Recommend them to your friends wherever you go. Make the building your headquarters and encourage friends to do the same. Above all, strive to a higher life and become a worker in the interest and for the salvation of others. In this way, you will find true happiness and reward."

A. J. Parker of Detroit, who spoke on the subject, "Delivery of the Goods," called attention to the good work the association is doing through the country, declaring that it is one of the greatest organizations in existence and that it is delivering the goods everywhere. He referred, in a humorous way, to many instances of institutions that start with a good foundation, but which fall in their purpose. He said that there was no such thing as the Young Men's Christian association. It has its mission and it is fulfilling it commendably.

**Mr. Buell Makes Strong Plea.**

L. E. Buell, secretary of the Michigan association, made a strong appeal to the young men and boys to become affiliated with the organization, speaking in part as follows:

"The most representative audience that has ever been gathered together for any purpose whatsoever in the city of Ishpeming is gathered before me this afternoon. Never in the history of this city has there been gathered such a representation as there is today. Representatives of every single church in this city, every educational institution, representatives of its social clubs and organizations, representatives of its business interests, from the man who owns the mine to the man who works under the mill, all are here to witness the dedication of the man who has never had the privilege of any school; from the man born in this country to the man born in other countries. A score, possibly, of nationalities are represented. Men who are united with the church and men who are not, men of whatever religion, why are they here? Why have you come? Have you come out of curiosity? No. You have come out of self interest possibly, but there is another interest and that is the interest of one another in this city. No other occasion would draw together such a representative audience.

"The greatest privilege which this association has to offer is not the privilege of the gymnasium, not the social features nor the Bible classes, but the great privilege of helping your fellowman to become a better man. You are called to be the leaders of the forces in this city; as an army officer is called to lead his men to victory so are you called to help your fellowmen to a better life. Here in this city the young men who belong to this association have the privilege of going out into the mines of the factories or stores, where they work, and there they will find young men and boys who are not members of this institution. It is here they have the privilege of aiding in their good work. Talk to your fellow workmen and tell them of the advantages to be derived from membership and very soon you will find that they have a desire to join and to do something to aid in helping their fellowmen to a higher and nobler life. If the Young Men's Christian association does not bring your men to a good and useful life; if, like the army officer, it charges the opposing forces without first commanding its men, then its mission has been of little use."

**A Former Railroad Man.**

At the conclusion of Mr. Buell's address he called upon Mr. McDill for an expression of his experience in association work. Mr. McDill was formerly an employe of a railroad and he has done much for the association since beginning the campaign some ten or twelve years ago. He urged the young men to become associated with the organization, declaring that it was doing more to uplift humanity than any organization in the country.

Secretary R. J. Wise announced that there are now 140 members enrolled and that the business men's class will receive its first instructions this evening between 5 and 6 o'clock.

The meeting will be held with benediction by Rev. G. Flotved, pastor of the Swedish Lutheran church.

Instrumental trio, "Tripping Thro' the Heather"—Misses M. Ryan, B. Butler and A. Gunville.  
Act V—Scene 1—A room in the palace. Catalina and Celeste seated; the former is weeping on account of Zuma's fate. Scene 2—Dona Marina and other ladies anxiously await the return of the countess who has gone to plead for the release of Zuma and Hatale. Alonzo enters and gives tidings that both have been saved. Countess and attendants enter; Zuma and her sister are summoned; later, the count rights their wrongs and Haravaca is reconciled, through the cleanness and justice of the vice-queen.  
Instrumental duet, "Les Dames de Seville."  
Essay and valedictory, "Finis Coronat Opus"—Agnes M. Meehan.  
Presentation of diploma.  
Address—Rev. J. A. Keul.  
Præse Ye the Lord—Chorus.

**NOTICE FOR BIDS FOR CONSTRUCTION OF CURBING AND GUTTERS.**

Sealed proposals for building approximately 10,532 lineal feet of concrete curbing and approximately 5,532 lineal feet of concrete gutters upon certain streets of the city of Ishpeming, will be received by the Board of Public Works of the city of Ishpeming, Michigan, at their office until 1 o'clock, Tuesday, June 22, 1909.

Such curbing and gutters are to be built at the places along the lines and upon the grades designated by said Board of Public Works and to be done under the supervision of said board. Said board will specify from time to time when any particular portion of said work is to be done.

Specifications as to the manner of the construction of said work and the materials to be used therein, may be found at the office of said board of public works. The successful bidder will be required to enter into the contract to be prepared by said board and also to furnish a bond satisfactory to the undersigned that he will properly fulfill the conditions of his contract.

All bids must specify separately the price per lineal foot for the curbing and the price per lineal foot for the gutters. The board of public works reserves the right to reject any and all bids.

Dated June 11, 1909.

**BOARD OF PUBLIC WORKS OF THE CITY OF ISHPEMING.** (6-14-14)

**"TWELFTH NIGHT"**

Students of the Northern Normal will produce Shakespeare's "Twelfth Night" at Ishpeming theater next Saturday night, the 19th, under direction of Mrs. Rushmore. The production is to be given the following Monday night at the Marquette opera house, and it is anticipated that it will be the biggest kind of a success. Several Ishpeming young men and women are taking prominent parts in the cast. The admission prices will be fifty cents for the entire lower floor, box seats and first two rows of balcony and thirty-five for the remainder of the balcony and twenty-five for the gallery. School children will be admitted at half price. Between fifty and sixty people are to take part in the production.

A lot of children's underwear at 10, 15 and 25 cents; worth double the money. (6-11-31) F. BRAASTAD & CO.

**"BLACK PATTI" SHOW.**

The "Black Patti Troubadours," the attraction at the Ishpeming theater tomorrow night, have also given a high-class entertainment. "The Blackville Strollers" is a musical comedy in two acts by S. T. Whitney. The music is by Trevor L. Corwell. The costumes are from the East Costuming company, and the scenery by Hogan & Sutton of New York city. The original "Black Patti," the greatest singer of her race; Billy Young, the world's greatest dancer, George Day, Gus Hall, Will Cooke, Anthony Byrd and the famous "Black Patti" quartet are featured with the company.

We are showing more men's neckties than all retailers in this section combined. (6-11-31) F. BRAASTAD & CO.

**ISHPEMING IN BRIEF.**

Mrs. John Redmond left Saturday for Hibbing, Minn., on a visit to relatives.

John Kandelin is to lay a concrete walk at his home on North Third street.

C. J. Byrns and wife left Friday evening for Chicago and Rock Island, Ills., to be absent several days.

The Ishpeming baseball team went to Munising yesterday, but it was impossible to play the game scheduled, owing to rain.

Werner Nikander is in Utah and Idaho on a business trip. W. J. Hebbard is assisting the clerks at his store during his absence.

A class of about twenty-five of the Convent school children received their first communion yesterday morning at St. John's church.

Miss Lamb, who has been a member of the Ishpeming High school faculty for several years, has resigned. She had the English department.

Will Crowley, a former resident, now living in Milwaukee, and employed in the mail service between that city and Escanaba, was a visitor in Ishpeming Saturday.

The members of the board of education and Superintendent Scribner inspected the public schools Saturday, with a view to determining what repair work will be necessary during the summer vacation.

Emanuel Pope, a well-known resident, who is now under treatment of Ishpeming hospital physicians, may have to submit to a surgical operation. He was obliged to give up work about a week ago.

Births recorded in the city Saturday are a son to Mr. and Mrs. Alex Campbell, 830 Angeline street; a son to Dominick Pappa and wife, 295 South Lake street; a daughter to Mr. and Mrs. Dominick Tasson, 412 Pearl street, and a son to P. M. Kirkish and wife, 410 East Ridge street.

Some attractive posters, drawn by students of the Northern Normal school, advertising the production of "Twelfth Night," to be given at the Ishpeming theater next Saturday evening under auspices of Mrs. Rushmore, are to be seen in some of the store windows of the city.

Iver Lallerstedt is suffering from a fractured leg, sustained while in the woods last week. He was out fishing in company with Louis Touffloff and Carl B. Knapp and they were engaged in carrying a load when Mr. Lallerstedt slipped, fracturing both bones of the left leg below the knee.

Miss Anne Bronson of this city was a member of the graduating class of the Girten school at Winnetka, Ills., last week. Her mother, Mrs. R. P. Bronson, and sister, Miss Duckley, attended the exercises. The latter spent the winter in Florida. Mrs. Bronson and both girls arrived home Saturday.

The Ishpeming Eagles were defeated at baseball by the Michigan team at Michiganam yesterday by the score of 7 to 2, in two innings of play, rain causing the postponement of the game at that juncture. The batties were: Michiganam, Karpinski and Truckey; Ishpeming, Cornish and Jones.

The ice cream pavilion, in front of Nikander's drug store, is complete with the exception of the canvas top. It is illuminated with colored lights located on the tops of the posts and the frame work is white with bright red stripes

on the poles. The structure greatly improves the appearance of the store.

Charles Forsberg and wife will leave today for Duluth to attend the marriage of their daughter, Miss Ida, to Walter M. Viekund, which is to take place Wednesday. Mr. and Mrs. Forsberg will spend two weeks in Duluth, visiting their son Charles, who is in the employ of the Duluth, South Shore & Atlantic Railway company there.

J. R. Thompson, manager of the American mine, returned to his home at Ironwood Saturday. He has started to overhaul the dwelling on North Third street, purchased recently from the Ray estate. Nels Clifton and family, who occupy a portion of the house, expect to move to their own home, formerly the Ed. Clark house, corner of North and Maple streets, as soon as Ed. Garney, the present occupant, is able to vacate.

The members of the Scandinavian society attended services yesterday morning at the Swedish Methodist church. Rev. O. W. Carlson, the pastor, preached an appropriate sermon. In the afternoon the graves of departed members at the Ishpeming cemetery were decorated. The Light Guard band led the procession to and from the church, also to the cemetery. A large delegation of members of the Negaunee society attended the services.

Frank Distel, secretary of the Calumet lodge of Elks, has asked the secretaries of the Elks lodges of this county to deny through the press the erroneous report in circulation to the effect that the lodge of Calumet and Laurium had raised their rates for the society's convention this week. None of the hotels, Mr. Distel writes, will charge more than their regular rates. It is expected that the Marquette county lodges will be well represented.

The members of Zenith lodge, Knights of Pythias, attended services at Calvary Baptist church yesterday morning. The turnout was large, there being in the neighborhood of 200 members, including forty of the Uniform Rank, in line. The procession was led by the Ishpeming band. Rev. Meade, the pastor, preached a fine sermon and at the conclusion of the service the graves of deceased members in the Ishpeming cemetery were decorated.

# Negaunee Department

## PREPARING PLANS FOR NEW BUILDING

### SCANDINAVIAN SOCIETY WILL ERECT TWO STORY BRICK BLOCK, WITH TWO STORES ON THE FIRST FLOOR AND LODGE HALL ON THE SECOND FLOOR.

The Scandinavian society of Negaunee, which a few weeks ago purchased from Charles Johnson the building and lot on Gold street, adjoining the Upper Peninsula Brewing company's property, will within a week or ten days call for bids for the construction of a new building. The plans are being prepared by Oliver Johnson, a member of the building committee, and the specifications will be drawn at a meeting of the committee.

The building will be brick veneer, two stories, with basement under the entire structure and extending under the sidewalk at the front. The dimensions of the structure will be thirty-three feet in width by ninety-two in length. The entrance will be in the center of the front, as will a stair to the second floor. The main stair room on the south side will be fifty-seven feet in length by seventeen feet four inches in width, and at the rear there will be a room thirty-four feet four inches in length. The partition will extend across the entire width of the building and will be substantially constructed, so as to form a support for the hall above. The main room of the store on the north side will also be fifty-seven feet in length by thirteen feet two inches in width. At the rear of the latter store there will be an entrance from the alley, with doors leading to store rooms, basement and the stairway to the upper floor. The latter will be connected with the stage, which will be eight feet deep by thirty-one in width. The hall will be fifty feet in length by thirty-one in width. The dining room in the front will be twenty-eight by seventeen feet three inches in size. There will also be a large kitchen, three parlor rooms, a good-sized ante-room and toilet rooms for ladies and gentlemen. There will also be a toilet on the first floor, near the rear entrance.

The building will be provided with a heating plant and it will be attractively finished. The society has not yet rented the store rooms, but it is not anticipated that the society will have any difficulty securing desirable tenants, as the location is a good one.

John E. Johnson has purchased the old structure and he put men to work Saturday tearing it down. The building is one of the oldest in the city, and has been in business for many years. Mr. Johnson has occupied the lower floor, is moving his printing office to the Kettling building on West Iron street.

Ladies' shoes, very best quality but a little off-style; your choice \$1. (6-11-34) F. BRAASTAD & CO.

### SEE DAUGHTERS GRADUATE.

Within the course of a few years there will be a number of mothers, who were graduated from the Negaunee public schools, who will have daughters finishing their high school courses. Up to this time this has been true of but two mothers. Mrs. J. E. Sures, a member of the second class graduated from the high school here, the class of '81, witnessed the graduation of her daughter, Miss Marguerite, three years ago, when the class numbered seven, five girls and two boys. Mrs. J. P. Miller finished her high school work in 1886 and two of her daughters have since graduated, Miss Clara finishing last year, and Miss Ruth this year. There were only three in Mrs. Miller's class, the other two being Lillian E. Kirkwood, now deceased, and Jennie Neely. Prior to 1886 only two classes were graduated.

Walk-Over shoes for men, Queen Quality shoes for women. (6-11-34) F. BRAASTAD & CO.

### UNIQUE POSTERS.

Some unique posters are to be seen in Negaunee business houses advertising "Twelfth Night," which is to be produced at Ishpeming theatre next Saturday evening by students of the Northern Normal. The designs are original and they have created much favorable comment both here and at Ishpeming. Nearly sixty people will take part in the production, which is to be under the direction of Mrs. Robinson. Several Negaunee and Ishpeming young people will be seen in the play.

We are offering this week a lot of dress gowns at low prices. (6-11-34) F. BRAASTAD & CO.

### SMALL BLAZE AT THE BIJOU.

About twenty-five feet of film burned in the room at the Bijou theatre while the first performance was being given Saturday evening. An alarm was sent to No. 1 hose house and the department turned out, but Manager Clifford had extinguished the blaze before the firemen arrived. The fire was put out in such short order, and without any particular commotion, that a number of those in the house did not know that anything unusual had happened.

All odds and ends and surplus goods will be offered at mark-down prices this week at Braastad's. (6-11-34)

### ATTEMPTED HOLD-UP.

It was reported in the city Saturday that a Jewish peddler had been assaulted by two men on Teak Lake avenue, near the Negaunee hospital, Friday night about 10 o'clock. It is said that the man put up a strong fight and succeeded in getting away after he had been knocked down. Marshal Bugh said, however, that the matter had not been reported to him.

The Alpena society will conduct a social next Thursday evening, the 17th, in the Woodmen's hall. The admission will be 25 cents. (6-12-34)

Young men's spring coats, choice \$2. (6-11-34) F. BRAASTAD & CO.

Remnants at ridiculously low prices. (6-11-34) F. BRAASTAD & CO.

### CONDEMINING WALKS.

#### Board of Public Works Opposed to the Laying of Wood.

Superintendent Willman of the board of public works will this week furnish the board with a complete list of the board walks that are in poor condition. There are many walks that should have been replaced two or three years ago, but the contractors have not been able to get around to all of them. However, with two contractors working good-sized pieces it is expected that a large number of new walks can be put in this year. While the ordinance permits a property owner to patch a plank walk, the board will endeavor to induce all to lay concrete. There are only a few places on Iron street where concrete has not been provided, and it is expected that the last of the timber walks will be removed from that thoroughfare before the close of the summer.

Jackson and Lindquist, who formed a co-partnership last week, will begin work this morning. Their first job will be walks for Mrs. M. Sheehan and Robert G. Jackson on Case street. They have already booked a dozen or more contracts and they expect to keep their crew busy throughout the season. The board of public works is at present repairing the main highway to the Ishpeming line. E. C. Anthony, chairman of the board, Saturday said that the gravel being used on this job is the finest that he has seen recently. It is secured from a bank on the Cleveland-Clims Iron company's land north of the street railway power house. The work on the road will be completed this week, when the men and teams will be transferred to the Palmer highway, which is being overhauled from a point near the Consolidated Fuel & Lumber company's office to the township line. Superintendent Willman estimates that it will take a good-sized crew and several teams from four to six weeks to complete this job. Gravel will be obtained from several places along the highway. The road will be made a uniform width and ditchers will be put in on both sides. The sharp curves will also be cut out wherever possible.

A lot of men's underwear, all sizes, at net cost, at Braastad's. (6-11-34)

### LOCAL LACONICS.

R. G. Quinn is spending a few days in the city.

Mrs. C. L. Sporley is visiting her son Everett in Detroit.

Miss Marguerite Adams has returned from Fond du Lac, where she is attending school.

A regular meeting of the Negaunee fire department will be held tomorrow evening at 8 o'clock.

Miss Alice McDonald has returned from Muskogee, Okla., where she has been teaching school.

John McCall came down from Houghton, spending Saturday and Sunday with his folks here.

C. H. Jennings of this city conducted services yesterday for the Methodist societies at Maple Ridge, Lathrop and Turin.

The four-year-old daughter of Philip Rowe, Rolling Mill location, died yesterday. The funeral will probably be held this afternoon.

W. J. Crain and daughter Beatrice and son Sheldon have returned from Fond du Lac, where they spent the greater part of last week.

The league baseball game between the Negaunee and Marquette teams was postponed yesterday on account of the unfavorable weather.

James Coker arrived home Friday from a two weeks' visit in Minnesota. While away he purchased two horses, one for Miller Bros. and the other for himself.

T. J. Flynn and wife, Fred Dougherty and Miss Dougherty, attended the banquet at the Hotel Clifton, Marquette, Saturday evening, given by the proprietors of The Mining Journal in honor

## AFTER SUFFERING TEN YEARS

### Cured by Lydia E. Pinkham's Vegetable Compound

MARLTON, N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life. I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my troubles were chronic. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering. —Mrs. GEORGE JORDY, Box 40, Marlton, N. J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female diseases, such as, inflammation, irregularities, period pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

### NEW GWINN HIGH SCHOOL DEDICATED

Dr. N. J. Robbins left Saturday for Sault Ste. Marie on business connected with the Michigan National Guard, of which he is district surgeon. He will return today.

Aldermen Dan Shea and Nicholas Laughlin, Jr., John Burns, Clement Shea and Charles Sporley, Jr., went to Shea's camp at Little Lake Saturday on a fishing expedition. They will return home today.

A framed picture nearly four feet square, containing individual photographs of the members of the senior class of the Negaunee High school, is attracting much attention in the window of Israel's studio.

About a dozen hoboes congregated Saturday morning back of the buildings near Marquette street. They had sufficient money between them to buy a lunch and one of them made several trips to a saloon for beer.

Anton Hendrickson, the concrete walk contractor, completed work at the Odd Fellows building Friday night and his crew started Saturday on the walk that is to extend around St. Paul's church property from Napoleon Market's corner on Case street to the Convent school walk on Pioneer avenue.

The fence is being removed from the city hall property. The drinking fountain, which is in the street opposite the building, will probably be placed on the lot. It is likely that a new concrete walk will be put around the building this summer. The present walk, which is a tar preparation, is in bad condition.

Harry G. Merry, son of the late Captain Harry Merry, who had charge of the Jackson property in the city days, arrived in the city Friday evening. This is his first visit to Negaunee in over twenty years. Mr. Merry is remembered by all of the older residents, a number of whom he met Saturday. He retired from business some years ago and his home is at Baltimore.

The barn at the rear of Aldermen C. B. Driscoll's dwelling was destroyed by fire Saturday afternoon. The blaze was a hot one and it was with some difficulty that surrounding property was saved. In the barn was the greater part of the furniture removed from the home of Mr. Driscoll's mother, who died a few weeks ago. It is thought that the fire started from some hot stove ashes thrown in the alley.

### A LAUGH OR TWO.

#### Agreed With the Court.

A lawyer came into court drunk, when the judge said to him:

"Sir, I am sorry to see you in a situation which is a disgrace to yourself and family and the profession to which you belong."

This remark elicited the following reply:

"Did your honor speak to me?"

"I did, sir, I said, sir, that in my opinion you disgrace yourself and family, the court and the profession by your course of conduct."

"May I—I—it please your honor, I have been an attorney in—in this court for fifteen years, and, perhaps to say your honor, that this is the first correct opinion I ever knew you to give."—Dundee Advertiser.

#### Why Mary Left the Browns.

Herbert Spencer and Fieta Jan Brown, who in private life is Mrs. Spencer, refused never to discuss their private affairs before their servant again. Mr. and Mrs. Spencer are the writers of "Pansy's Mean Thoughts and Thoughts Mean You," one of the big ballad successes of the present season, and as they are both greatly interested in this song they are prone to talk a great deal about it.

Recently Mrs. Spencer added a window box to the furnishings of their apartment, and through sentiment planted pansies in it. Mary, the cook, helped her to do the planting and was greatly interested in it. However, Mary did not know that Mr. Spencer and his wife were the authors of the "pansy" song.

At the dinner table the other night the Spencers were planning out what they would do with their "pansy" money (meaning their royalties on the song). The cook was an attentive listener to the conversation.

The following Saturday, after receiving her pay, she informed Mrs. Spencer that she was going to leave.

"Why, what on earth is the trouble, Mary?" asked Mrs. Spencer. "Haven't you treated me good?"

"Oh, yes," replied the servant, "I can't complain on that score."

"Then whatever is the trouble?"

"Oh, I heard ye tellin' the boss the other evening that ye was dependin' on that little box of pansies in the window for ye income the rest of the year, an' 'twixt afraid ye can't afford to pay me wages on that skippy flower garden!"—Roche's Herald.

#### Diagnosis of Two Doctors.

The late Ambrose L. Thomas of Chicago once told a story about two doctors.

"To illustrate my point," he said, "I propose an advertising error. 'I'll tell you about my friend Bones.'"

"Bones was taken ill, and his family physician being out of town, a specialist was called in.

"But the family physician unexpected-ly returned, and the specialist 'entered Bones' chamber together. They found the man in a high fever and partially unconscious. Each put his hand under the bed clothes to feel Bones' pulse, and each accidentally got hold of 'the other's' hand."

"He has typhoid," said the first physician.

"Nothing of the kind," said the other. "He's only drunk."

#### Not Used to It.

The new teacher was beginning the arithmetic lesson, says the London News.

"Now, boys, listen to me. Suppose John has five oranges, and James gave him eleven more. Then if John handed seven to George, how many would he have left?"

Dead silence, and great perplexity fell upon the class.

"Come, come, that's easy enough. Well, my lad, what's the matter?"

"Please, sir," said one of the boys, "always does our sums in hops."

Many of our citizens are drifting towards Bright's disease by neglecting symptoms of kidney and bladder trouble which Foley's Kidney Remedy will quickly cure. Sold by all Druggists.

### NEW GWINN HIGH SCHOOL DEDICATED

COMMISSIONER A. E. STERNE, STATE SUPERINTENDENT L. L. WRIGHT AND SUPERINTENDENT E. E. SCRIBNER OF ISHPERING WERE THE SPEAKERS.

The new high school building at Gwinns was dedicated Friday afternoon. The exercises, planned for 2:30 o'clock, were not begun until 3, owing to many visitors arriving on the afternoon train. Among the out-of-town men present, besides the speakers, were W. G. Mather, W. P. Belden and W. H. Moulton and others connected with the Cleveland-Clims Iron company; Attorney Andrews of Cleveland; F. S. Moniac, superintendent of the Champion schools, and Superintendent Wagner of Ontonagon.

Rev. Hooking, pastor of the Gwinns Methodist church, offered the invocation. The music was given by the Gwinns children under direction of Miss Janet Mitchell, the director, were well received, as was a violin solo by Berjer Senob, Superintendent W. H. Hart, in introducing the speakers, called attention to the various features of the new building, saying the Cleveland-Clims Iron company, a town of the size of Gwinns. Concluding he extended an invitation from the board of education to all visitors to thoroughly inspect it before leaving.

#### Commissioner Sterne's Address.

A. E. Sterne, county commissioner of schools, spoke as follows: "The official relation which I sustain to the educational system of this county, and the link which the commissioner of schools is in the education system of the commonwealth, permits me to speak advisedly on all occasions on matters relating to our schools.

"The ordinance of 1877 for the government of the Northwest territory contains these often quoted words: 'Religion, morality and knowledge being necessary to good investment and the happiness of mankind, schools and the means of education shall be forever encouraged.' Thousands of schools, hundreds of colleges, and scores of universities in this territory, out of which five great commonwealths have been formed, should be training a citizenship for the responsibilities of good government.

"It is absolutely essential that we should have the tonic of wholesome confidence. Pessimists and cynics cannot develop the country. I believe our country morally sounder, its standards of government and business were never higher. In the development of any great enterprise there must be courage, a special interest, free from selfishness, and the common welfare must be the supreme law of organization and operation.

"We see not in this world the end of human actions; their influence never dies; in ever widening circles they reach beyond the grave. We, all of us, tend to rise or fall together. If a man of good goes down the whole nation sags a little. If any set of us raise ourselves a little, then by just so much, the nation as a whole is raised. Therefore, we must rejoice whenever we meet with evidence that the standards of this principle. It is a great thing for us in all the periods of our fortunes to look back on a race of founders and a principle of institution in which we admire the realized hope. There has come a silent, though potent influence, from one of the citizens of the old Northwest territory, whose monument this village is. It is stupendous and excellent, and its foundation is laid on an enlightened knowledge and love of civic and social welfare. Nor am I unmindful of those who have so nobly and skillfully wrought the details of a great and glorious undertaking.

"The beautiful in one's surroundings is more than a knowledge of the multiplication table, and a recognition of one's duty to his neighbor in his material and social environment has been encouraged and fostered here with sincere philanthropy. Education along these lines is the only possible safeguard which is in harmony with our principles and has the power to defend our institutions without enslaving them. Some votaries of the lowest, territorial honor and patriotism platitudes. It is forgetting platitudes that men and nations are ruined. Platitudes are truths that flat, level, and therefore fitted to use as foundations. It is building on such foundations that the social and political fabrics are made firm, square and enduring. He is truly endowed who can recognize in his fellow the preeminent virtues of civic and social activity and to discipline all that is weak in manhood. The mind, like the diamond in its original state, is rule and unpolished, but as the effects of the chisel on the external coat soon presents to view the latest beauties of the diamond, so education discovers the latent virtues of the mind and draws them out to range the large field of matter and matter to display the summit of human knowledge, our duty to God and man.

Education the Republic's Defense.

"It is of little use for a republic to have a high school for learning, producing men of wisdom and power, unless it has a system of general, nay, of universal education, producing popular respect for human wisdom and righteous power. The university at the base of the common school at the base, spreading as wide as human virtue itself, and between them the best attainable system of grammar schools and high schools and academies, and branching out from them an ever developing organization of technical and professional institutions—these are the defenses of the republic.

"We can, therefore, with just pride felicitate ourselves that ignorance will never be a menace of our natural rights. We have reached that time in our national development when the education of the citizen is not like a cargo of loose wheat in the hold of a ship and the equilibrium of the state imperiled in every hour of storm and stress.

"So let us continue generously to support our schools and see them more and more intelligently directed. Let the principles of morality based on religion continue to be taught to every American child. Let the door between the common school and the university be

# First National Bank

## NEGAUNEE, MICH.

United States Depository. Capital and Surplus, \$150,000

This bank conducts a general banking business. Invites the accounts of corporations, business houses and individuals.

Accepts Savings Deposits in any amount from \$1 up and allows interest thereon at the rate of 3 per cent per year.

## Upper Peninsula

### We solicit your business and guarantee prompt service and satisfaction.

Telephone or telegraph your orders.

Bell and County 'Phones.

## NEGAUNEE GREENHOUSES

Wholesale and Retail Florists. NEGAUNEE, MICH.

Swedish Epworth League Convention—The members of the Epworth League of the Swedish Methodist church of Escanaba are making preparations for the inter-state league convention which will be held in that city for one week, commencing Tuesday evening, July 6. Delegates will be there from Wisconsin, Minnesota and the upper peninsula. Sessions will be held each forenoon and afternoon and there will be public addresses each evening.

Incendiary's Work—Unknown parties set fire to one of the Goodman camp buildings, out from Iron Mountain, a few days since. Before doing so, the parties stole an automatic shotgun, the property of Frank Millman, from the building. A sum of money was taken from a secret drawer, evidence that the visitors were well acquainted with conditions. The fire was started in the cottage of Keeper Van Camp by pouring oil over the bed. Mr. Van Camp was at the upper end of the lake fishing at the time.

Alger County's Poor Farm—Chairman Thomas B. Wyman of the Alger county board of supervisors reports that an ideal site has been selected for the new county farm, which will be located adjoining the county road about three miles from Munising. The committee has bargained for eighty acres of land. The north forty faces the county road and the plan is to build the house on a high ridge overlooking the highway. The north forty has about two acres of clear bottom land which can be used to excellent advantage to grow garden truck. Both forties are well timbered and it is estimated enough cordwood can be cut on them to supply the county with fuel for the next ten years. The plans for the buildings are now being prepared. It is not proposed to erect an elaborate county house, but one which can be built at moderate cost. Unless present plans miscarry the structure will be ready to cure for the county post within ninety days. The present cost of maintaining the indigent is well nigh \$6,000 per annum. Of this sum Munising township pays about \$2,000. It is estimated the farm can be bought, buildings erected and some clearing done for what it costs to maintain the county poor for one year. After the first year it is reasonably certain the poor of the county can be maintained at about half the present cost.

Lighting Rates to Be Cut—President Ole Erickson of the board of public works has filed a communication to the Escanaba council with City Clerk Lyons in which is submitted for the council's approval a new schedule of lighting rates. The new schedule is a reduction of five per cent from the old schedule. The carrying power of the lighting plant has been a revelation to many who thought for years that it was a white elephant for the city. The plant has been gaining ground steadily the past five years under careful, honest management, and net earnings of over \$18,000 during the past thirteen months prove that the institution is a good thing for the city to hang on to. The new schedule of rates is as follows: First fifty kilowatt hours, 9 1/2 cents; next fifty, 8 1/2; next 150, 8; next 250, 7 1/2; next 400, 7; all over 600, 6 1/2. Basement lighting, over thirty kilowatt hours, 5 cents. Minimum charge per month, \$1. For power service per kilowatt hours used in one month: First 100 kilowatt hours, 7 cents; next 100, 6; next 100, 5; next 300, 4; all over 600, 3. Minimum charge for 2 horse-power motors or smaller, per month, \$2. Minimum charge for each horsepower in excess of two horsepower, \$1. A cash discount of ten per cent will be allowed on all meter bills of more than one dollar, if paid on or before the 10th day of the month following the month in which the current was used. Rate on street arcs (effective July 1st), per year, \$60.

## S.S.S. REMOVES S.S.S. BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

### EXCURSION WAS NOT A PLEASURE TRIP

RAINY WEATHER AND ROUGH SEA GREAT DISAPPOINTMENT TO COPPER COUNTRY VISITORS.

MAJORITY WERE SEASICK

Special Train to Houghton Last Night Carried Over 500 Who Did Not Care to Return by Water.

The Theodore Roosevelt is undoubtedly a handsome passenger boat, but she had anything but that appearance upon her arrival at Marquette at 3 o'clock yesterday afternoon with 2,100 copper country visitors on board, 1,500 of whom had been seasick on the journey from Houghton. The day was a most unpropitious one for a pleasure excursion, as a cold rain fell throughout the journey from Houghton to this city and a high northeast wind piled up waves that rocked the boat in a most inconsiderate manner. The ship physician stated that he had never seen so many cases of seasickness in all his experience on the vessel, the trip being so rough that some of the crew, as well as most of the passengers, fell a prey to the awful malady.

Once upon land in this city, however, the excursionists were inclined to take a philosophical view of the situation and enjoyed themselves as best they could, in spite of the wretched weather conditions that prevailed during their short stay. Those who had their fill of a lake trip for one day at once made arrangements with the South Shore for a special train to the copper country, which left Marquette at 7 o'clock last evening in two sections, of seven and six coaches each. It is estimated that from 500 to 800 returned to their homes in this manner, rather than again venture a voyage on the troubled waters.

Stores Well Patronized.

While in the city, the excursionists patronized the stores that were open, the hotels and restaurants and other places where eatables were sold, being in especial favor. Many took advantage of the opportunity afforded by Plantain Bros. and the Pioneer Motor company to take a motor trip about the city and to visit the branch prison.

While here, the bunkers of the Theodore Roosevelt were filled with coal at Spear's dock, and her decks and sides were washed and cleaned, so that before leaving she presented the appearance of the finely furnished and equipped steamer that she really is. The trip for the copper country on her return trip at 7:30 last evening with about 1,500 passengers on board.

An officer of the d'Haberville club, by which the excursion was given, stated that about 2,800 tickets had been sold for the Marquette excursion, but that many did not take the trip, owing to the unfavorable weather. He stated that had it been a pleasant day, at least 5,000 people would have taken the trip.

Walk to Dock Needed.

No better evidence of the crying need of a concrete walk from Front street to the passenger dock could be afforded than that of yesterday. The passengers from the Roosevelt had to walk up a cove in a drizzling rain through mud from one to two inches deep, which certainly did not serve to cheer up their depressed spirits, nor did it give them an especially favorable first impression of our fair city.

The council has already ordered the construction of a concrete walk from Front to Lake street on Baraga avenue, and at its meeting tonight should not hesitate to accept the proposition recently made by F. B. Spear & Sons for the joint construction of a walk from Lake street to the dock.

DR. TUPPER'S VIEWS.

Endorses Public Playground Plan in Letter to Mrs. M. J. Sherwood.

The following letter explains itself: Marquette, May 20th, 1909. My Dear Mrs. Sherwood:—

Learning with much gratification today of the attempt making at present by yourself, along with other benevolent citizens of Marquette, to open a playground with some small apparatus in the way of a gymnasium, in Washington street park, I hasten to assure you of my most hearty sympathy with the movement and to express the earnest hope that your philanthropic project will be carried out at an early day. I know few things of this kind that would more truly redound to the pleasure and benefit of a certain class of our youth than what is proposed. For a good many years now I have known of the operations of public play grounds in the East and with many others an enthusiastic about them.

Many children and youth among us here are unable, both because of distance and because of lack of means, to avail themselves of the splendid advantages of the fine Guild Hall recently opened in Marquette, and for these less privileged ones we should have special and generous concern.

If in any way I can serve you in your most commendable scheme of a public playground I shall feel honored to have you command me.

Very sincerely, KEER BOYCE TUPPER.

P.S. It occurs to me to say, also, that were this playground to be opened here in Marquette there would be no necessity for a "directors" since such grounds are generally conducted without directors. It is thought sometimes that children gathered at the play ground become a nuisance, but this view, I think, is without foundation. The children are only happily hilarious.

### FORGOT THE LID WAS ON.

Two Tavern Keepers Caught Dispensing Drinks Yesterday by Police.

Two Marquette hotel keepers must have forgotten the mayor's orders respecting Sunday closing of saloons yesterday, but their memories were refreshed when Officers Remond and Carlson chanced to drop in without ceremony, through the inside doors. The three parlors found open were those in the Hotel Marquette and the American House. The police officers mentioned decided to make an inspection of various saloons shortly after dinner yesterday, to make sure that the mayor's orders and the law were being enforced. The only places found open were the two already mentioned. At both places the officers found the door unlocked and a number of persons in the bar room, obtaining drinks over the bar. The proprietors of the two hotels will be waited upon today with warrants, charging them with having kept their saloons open on Sunday in violation of law. The places mentioned were visited before the arrival of the copper country excursionists, and will be the first arrests made for similar causes since the inauguration of the lid policy of the present administration.

### "AGORA" ISSUED BY SENIOR CLASS

MOST PRETENTIOUS ANNUAL IN THE HISTORY OF THE SCHOOL REFLECTS GREAT CREDIT ON ITS EDITORS.

The high school annual, the Agora, has just come from The Mining Journal press, and will be distributed among the subscribers within the next few days. The Agora has been issued yearly since 1902, except last year, and the latest edition covers the record of two years. The aim of the editors has been to picture his school life, rather than to publish a work of compositions and poems.

This year's Agora is the most pretentious volume that has yet been issued, and reflects great credit on the ability and industry of its editors and business managers. The volume is dedicated to Lake Superior in the following poetic language:

"To the mighty Giteche Gumses, To the shining big sea water, Rushing, roaring, with its breakers, With its towering white-capped breakers,

"Dedicate we these, our labors." The book contains half tones of the members of the board of education, the superintendent, the faculty, the late Peter White, the members of the senior class and groups of the other classes. There are besides, a number of pencil sketches and art drawings, which are excellently done.

The prominent features of the high school record of each member of the senior class and any special talents are chronicled, and there are the usual number of humorous personalities directed against those who have, intentionally or otherwise, appeared in the limelight during their high school career.

A large part of the work is devoted to high school athletics, football, baseball, basketball, track work and other sports being considered. The literary, dramatic and musical organizations that have held forth within the last two years are also given due prominence. Part of the book is taken up with contributed articles in prose and poetry, and a liberal quantity of quips and jokes.

The board of editors, to whom credit for this year's Agora is due, are: Editor-in-Chief—Claudius G. Pendill. Assistant Editor—Elmer E. Young. Business Manager—Peter A. Behan. Assistant Business Manager—Hjalmar Beckman.

Literature—Anna Sweder, Hazel Price, Harold Hayes. Art—Katharine Watson, Louise Patterson, Florence Huelbin. Athletics—George Madigan, Edith Mitchell, Hans Christensen.

REVENUE CUTTER COMING.

Will Visit Marquette to Check Up Motor Boat Owners.

The United States customs office in this city has received notice from the government that the revenue cutter Tacoma will visit Marquette and other parts in this district several times this season to assist in the enforcement of the navigation and inspection laws relating to motor boats. The local customs officers desire that this declaration of the government be given due publicity, in order that motor boat owners may realize the necessity of conforming to the regulations laid down by the department of commerce and labor.

The regulations require that all motor boats must carry an efficient whistle and bell, the whistle to be of such a character that it can be heard at least two miles. When operated between sunset and sunrise, they must carry a bright white light in the bow, a green light on the starboard and a red light on the port side, provided with proper screens. The law does not appear to permit the use of the three-color "combination" light. Such vessels must carry on board two printed copies of the rules which must be observed by them. All motor boats of fifteen gross tons or less, engaged in carrying passengers for hire, must also carry one life preserver for each passenger, and shall be operated only by a person holding a license, issued by the local steamboat inspector. All motor boats of over five tons engaged in carrying freight or passengers for hire must be licensed by the collector of customs.

CARD OF THANKS.

We take this means of thanking our friends and neighbors for their sympathy and aid during our bereavement. So numerous were those who came to our assistance that it would be impossible to thank all personally; much as we would like to do, but we desire to assure them that we most sincerely appreciate their kindness. We feel under particular obligations to neighbors who rendered aid at our home, also to friends for floral offerings.

F. B. SPEAR & SONS.

### VERDICT OF GUILTY IN THE SPEAR CASE

JURY FOUND THAT DEFENDANT HAD MADE FRAUDULENT USE OF UNITED STATES MAIL—GIBSON TRIAL TODAY.

After being out about three hours, the jury in the case of the United States against John W. Spear found the defendant guilty of having made use of the United States mail in a scheme to defraud, as charged in the indictment. The verdict came as something of a surprise to Marquette people, as the opinion had been expressed by many of those who had followed the course of the trial that Mr. Spear would be acquitted.

The Spear trial, which had been in progress since Wednesday, has been followed with more than ordinary interest, as the defendant is a well-known resident of this city, and many Marquette people have had dealings with him. The case dragged along much more slowly than had been expected, and did not go to the jury until early Saturday afternoon.

Judge Knapp having overruled the motion of the defendant's attorneys that the jury be instructed by the court to return a verdict of not guilty, the morning session of Saturday was taken up with the argument of the attorneys, and the charge of the court was given immediately after dinner. The jury was instructed that the only testimony on which they should base their verdict was that relating to the manner in which Mr. Spear exploited his business, and that it was their duty to decide whether or not the methods used were fraudulent when applied to persons unskilled and unsophisticated in the speculative game.

Immediately after the verdict had been returned, the defendant's attorneys gave notice that they would file a motion for a new trial, which will be heard by the court some time this week. The maximum sentence that the court may pronounce is \$500 fine or eighteen months imprisonment.

While the Spear jury was out, a jury was impaneled in the case of the United States against Robert Rowan, charged with willful trespass on government lands. Before proceeding far in this trial, involving land in Chippewa county, the government attorneys found that they had accused the wrong man, and the jury acquitted the defendant.

Gibson Trial Today.

The most important case of the term, that of the United States against John E. Gibson, charged with murder, will be taken up this morning. Gibson, who is a corporal in the United States army, is accused of killing John McManus, a fellow soldier, at Fort Brady, Jan. 6, 1887. As there were several eye witnesses to the shooting, there seems to be no doubt but that McManus was killed by Gibson, but the motive for the crime is a complete mystery to everyone except the defendant and his attorney, M. M. Lamont, of Sault Ste. Marie. In case of conviction, the jury may recommend that Gibson be hanged, or that a sentence of life imprisonment be imposed.

SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., June 13.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Coffinberry, Pere Marquette, 9 p. m.; French, Juniata, 10; Home, Black, 11:30; Geo. Stephens, Marsala, 3 a. m.; Corona, 3:30; Richardson, 4; Frick, 5; Kotcher, 5:30; Hart, Antrim, 7; Presque Isle, 7:30; Carnegie, 8; Samuel Morse, Tagona, 9; Ranny, 9:30; Turret Cape, 10; Oliver, Sultana, Haddington, 11; Toltee, Goffrey, 11:30; German, Huronic, Andrew, 12:30 p. m.; Corey, Alberta, Winona, 2:30; Pellett, 3; Sylvania, 4; Rockefeller, Manita, 5; Samuel Mather (large), 6; Goodyear, 7; Houghton, Smeaton, 8; John Barlum, Gratwick (small), 8:30.

PRESS ASSOCIATION OFFICERS.

At the meeting of the north country newspaper men here Saturday, officers of the Lake Superior Press association were elected as follows:

NOTICE TO CONTRACTORS.

Office of the—

Park, Cemetery and Street Commission, Marquette, Mich., June 10th, 1909. Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received at the office of this commission until 5 o'clock p. m., June 21, 1909, for furnishing all labor and material required to make the following improvement in accordance with profile therefor on file in this office, and in accordance with the Davis Sewer Specifications heretofore adopted, viz:

The construction of an eight-inch tile sewer, with four-inch "Ys" in Division street, from manhole in Blomhulser avenue to manhole in center of Newberry street, with lamping shown in the profile for said sewer heretofore adopted.

Proposals for said improvement must be in sealed envelopes, marked so as to designate improvement referred to, and must be accompanied by a contractor's bond with two good sureties in a sum at least twice the amount of the bid, conditioned for performance of contract, payment for labor and materials, etc., in accordance with form on file in this office.

The commission reserves the right to reject any or all bids.

JOSEPH F. ANDERSON, Secretary.
