

IRONWOOD BANK CLOSES ITS DOORS

To Avert a Run That Threatened to Wreck the Institution, the First National Is Taken in Charge by a Federal Examiner.

Serious Irregularities Said to Have Been Found, and for Which Cashier Larson Is Alleged to Be Responsible, the Suspension Follows the Removal of That Official and His Assistant on Suspicion of Involving the Funds in Deals of Speculative Nature.

Washington, June 21.—The comptroller of the currency has received a telegram stating that the First National bank of Ironwood has closed its doors today.

Ironwood, Mich., June 21.—H. R. Luther, a federal bank examiner, today, under the authority of the comptroller of the currency, closed the doors of the First National bank of Ironwood, and thus averted a run that threatened to wreck the institution.

The directors of the institution are H. E. Jahn, president; E. T. Larson, cashier; Charles R. Clark, of Hurley, Wis.; C. E. Houk and J. A. Pederson.

The directors of the institution are H. E. Jahn, president; E. T. Larson, cashier; Charles R. Clark, of Hurley, Wis.; C. E. Houk and J. A. Pederson.

Speculation is back of the bank's plight, it is said. Mr. Larson has been known as a speculator whose operations have at times approached plunging, and the fact that he got the bank's funds involved in his deals is the cause for its embarrassment.

SENATORS CALL FOR THE DATA.

Dr. Perrin's Prosecution in Land Cases Is Being Looked Into.

Washington, June 21.—Attorney General Wickham, by an order adopted by the senate committee on the judiciary today, is commanding to send to the senate all the facts in the possession of the department of justice relating to the prosecution of Dr. E. B. Perrin on the charge of conspiracy to defraud the government in the California timber land cases.

Several days ago the members of the sub-committee considering the reappointment of Herbert T. Devlin for United States attorney for the northern district of California obtained some information concerning these packages, and requested Mr. Wickham to send them to the senate. He declined to do so, because of the endorsement on the packages which had been placed there by his predecessor and which he desired to respect.

WILL NOT BE PROSECUTED.

Perjury Charge Against Insurance President Hegeman Is Dismissed.

New York, June 21.—The complaint against John R. Hegeman, president of the Metropolitan Life Insurance company, charged with perjury in connection with the submission of an alleged false report to the state commissioner of insurance, was dismissed today, after having been bandied about between grand juries and various courts since 1905.

The sub-committee discussed the Harr report for three hours today. Senator Borah criticized the action of former Attorney General Bonaparte in sealing the information, and declared to his colleagues that it was evident that Mr. Bonaparte did not want to proceed on the line recommended by Harr, which called for the disclosure of the proceedings against Dr. Perrin.

STOCK MARKET SUFFERS ACUTELY

Rumors That E. H. Harriman Is Critically Ill in Vienna Are Effective in Bringing About a Break in Wall Street Values.

Notwithstanding the Stories Are Denied by Associates of the Financier, They Are Seized Upon With Avidity by the Bears and Are Made the Vehicle for a Sharp Raid on Prices, a Slump Ensuing and Still Being in Progress at Close of Day's Trading.

New York, June 21.—Rumors that E. H. Harriman was critically ill in Vienna, a report that at times was exaggerated to the extent of saying that he was dead, all met with prompt denial by his associates and at the Union Pacific offices this afternoon.

The reports, coupled with a sharp bear raid, caused a decided break in the stock market, and the decline in the so-called Harriman stocks had not been checked when the trading closed. Union Pacific dropped four points and recovered only a quarter, leaving a net loss of 3 1/2 for the day.

One of Mr. Harriman's closest associates said this afternoon that he felt convinced that any report purporting to indicate that Mr. Harriman was seriously ill was utterly false.

Story of the Day's Market.

It took several hours of waiting tactics on the part of professionals among the operators in stocks to demonstrate to the market that the sharp fall in prices last week had not attracted any demand sufficient to form a basis for a renewed upturn in values.

The mystery surrounding the Wabash movement has been a source of growing apprehension amongst the speculative followers of the movement for days past, and when enormous blocks were sold today by houses which were most active in accumulating the stock while the advance was in progress it was argued that an unfortunate turn must have occurred in the progress of the movement.

VIENNA DENIES HARRIMAN IS ILL.

Vienna, June 21.—There is no truth whatever in the reports that E. H. Harriman is seriously ill. Mr. Harriman's health is, on the whole, considered satisfactory. Saturday Mr. Harriman was among the guests of the emperor at the Neue Handels Akademie, and Sunday afternoon he witnessed the trotting races and took a drive through the principal streets.

PERJURY CHARGE AGAINST INSURANCE PRESIDENT HEGEMAN IS DISMISSED.

New York, June 21.—The complaint against John R. Hegeman, president of the Metropolitan Life Insurance company, charged with perjury in connection with the submission of an alleged false report to the state commissioner of insurance, was dismissed today, after having been bandied about between grand juries and various courts since 1905.

QUEENSTOWN, JUNE 21.—The Cunard line steamer Mauretania has clipped another fifty minutes off the best previous eastward record.

The coal fields of England cover 13,000 square miles.

MR. TAFT HEARS SOME DISTRESSING NEWS.

That the Proposed Corporation Tax Will Keep the Senate in Session Until Long Past August Is the Cheerful Prediction Made by White House Callers.

Washington, June 21.—President Taft is decidedly optimistic over the outlook for his corporation tax, but a number of senators who called at the White House today declared that the proposition would keep the senate in session until long past August.

Mr. Elkins was one of the president's callers, and he declared that he and a number of other senators would have some remarks to make in the senate when the new scheme of taxation is under consideration.

Attorney General Wickham and Senator Root are jointly preparing the draft of the new law. There seems now to be little doubt that the corporation tax as passed will exempt net earnings of \$5,000 and less, so as to take any undue burdens off the smaller corporations.

FIGHT OVER HIDES BEGINS.

Washington, June 21.—The amendment of the senate committee on domestic affairs, taking hides from the free list and restoring the Dingley law rate of 15 per cent ad valorem, was before the senate all day, and it probably will not be disposed of before late tomorrow, if then.

Senator Warren of Wyoming and Carter of Montana supported the provision, attacking the attitude of the free hide advocates in vigorous language.

In support of free hides, Senator Page contended that the adoption of such policy would not injure the farmers, while at the same time it would be of vast benefit to the leather manufacturers.

HOUSE HAS A QUORUM.

Advantage Is Taken of the Fact to Transact Considerable Business.

Washington, June 21.—Availing themselves of the presence of a quorum, the leaders of the house today obtained action on several important matters of legislation. Principal among these was the conference report on the bill providing for the taking of the fourteenth census, and with respect to that measure the debate hinged on the senate amendment requiring that applicants for appointment must take the examination in the states or territories in which they profess to live, and that they must have had at least one year's actual domicile therein previous to such examinations.

MATERIA MEDICA OUT OF DATE, HE SAYS.

Its Teaching Being Discarded, the Medical Schools Are Rapidly Falling Into Therapeutic Nihilism, Asserts President of American Institute of Homeopathy.

Detroit, June 21.—Christian science, the Emmanuel movement, soul cure, osteopathy, mental healing and attempts to cure disease by the laying on of hands were all denominated as loud and egotistic protests against the abuse of drugs by President Wm. D. Foster, of the American Institute of Homeopathy, in his annual address tonight before homeopathic physicians from all over the country at the annual meeting of the institute.

The therapeutic pendulum has oscillated from the one extreme of the massive doses of the days of Paracelsus to the opposite extreme of the no drugs of the European universities of today.

The public mind has been much occupied by the exploitation of the efficiency of prevention measures. No thoughtful, honest person can be found who will say that any one disease has been stamped out. So long as disease exists it is the business of the physicians to employ every known means of cure, including the internal use of drugs.

QUEENSTOWN, JUNE 21.—The Cunard line steamer Mauretania has clipped another fifty minutes off the best previous eastward record.

The coal fields of England cover 13,000 square miles.

THE WEATHER.

Washington, June 21.—The following is the weather bureau's forecast for Upper Michigan: Showers and cooler; Tuesday; Wednesday, fair and cooler; moderate to brisk southwest winds.

\$100,000,000 FOR SUBWAYS.

A Gigantic Plan Proposed for New York Presented by Bradley-Gaffney-Steers Combination.

Lansing, Mich., June 21.—Justice Robert M. Montgomery, of the state supreme court, a resident of Grand Rapids, today announced that he will be a candidate for the republican nomination for governor at the next primary election.

DROWNING THE FATE OF FIVE.

Two of the Victims Die in Vain Endeavor to Effect a Rescue.

St. Joseph, Mo., June 21.—James O. Lilliger, aged thirty-four, and John Lewis, aged fifty-nine, were drowned this evening in the reservoir of the waterworks here, while trying to rescue Joseph E. Lilliger, aged seven, son of James Lilliger. All three bodies were recovered.

BRUTAL CRIME IN RUSSIA.

Khabarovsk, Asiatic Russia, June 21.—The nine-year-old son of a rich merchant, taking hides from the free list and restoring the Dingley law rate of 15 per cent ad valorem, was before the senate all day, and it probably will not be disposed of before late tomorrow, if then.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including American League and National League matchups.

YESTERDAY'S GAMES.

Table listing results of baseball games from yesterday, including Pittsburgh vs Philadelphia and Boston vs Detroit.

DAY IS GORY WITH CRIMES AND ACCIDENTS.

Violent Deaths the Fate of Many Persons—Mrs. S. S. Pangburn, a Michigan Woman, Murdered, Is One of Them, and Her Husband Is Taken Into Custody, Accused of Killing Her.

Cassopolis, Mich., June 21.—Stephen S. Pangburn, a produce merchant, was arrested here tonight, charged with the murder of his wife, from whom he had been separated some time.

MILWAUKEE, WIS., JUNE 21.—A head-on collision occurred some miles west of here today between Southern railroad passenger trains Nos. 1 and 2.

MAIL CLERK IS KILLED.

Due to an Error in Orders, Two Trains Crash Together in Illinois.

Springfield, Ills., June 21.—Miss Laura Maxwell, postmistress at Green Ridge, Macoupin county, tonight lies at the point of death with a bullet in her left lung.

NEGRO HER ASSAILANT.

With Bullet in Body, Illinois Woman Lies at the Point of Death.

Springfield, Ills., June 21.—Miss Laura Maxwell, postmistress at Green Ridge, Macoupin county, tonight lies at the point of death with a bullet in her left lung.

DYING MAN IDENTIFIES THEM.

Negro Suspected of Killing Brakeman Are in Custody in Iowa.

Des Moines, Ia., June 21.—Alva C. Bechtel, the Carroll brakeman who was probably fatally shot by two negroes at Vail tonight, is still alive. He was reported dead last night.

BLOODY FIGHT WITH KNIVES.

Passengers on Boat See Man Killed in Quarrel Over Fifty Cents.

St. Louis, June 21.—While the passengers, mostly women and children, stood on the upper deck of the steamer Omaha and watched a fight between J. J. Williams and Henry Townsend, roustabouts, on the lower deck, Williams was stabbed in the heart and killed and Townsend was badly injured.

PASSENGER ELEVATOR DROPS.

One Man Is Killed and Seven Are Injured in an Accident at Cincinnati.

Cincinnati, June 21.—One man—George Deimlin—was killed and seven others were injured, four seriously, in the fall of an elevator from the seventh story of the Murdock building tonight. The cable slipped and the cab shot down the shaft and struck the floor.

BULLET FINDS VICTIM.

Test of a Rifle by Farm Hands Results in a Tragedy.

Aberdeen, S. D., June 21.—To test a twenty-two calibre rifle, two farm hands today fired at the blank wall of a barn.

POLICE DRAG-NET IS COUNTRY-WIDE

However the Murder of Elsie Sigel Is Still Unsolved and the Chinaman Suspected of the Crime Is Still at Liberty.

New York Chinese Who Have Been Converted to Christianity Join in the Hunt, as Do the "Six Companies" and the Washington Embassy, but the Alleged Principal Has Not Only Not Been Caught, but All Trace of Him Seems to Be Lost.

New York, June 21.—The Elsie Sigel murder mystery is still unsolved, and although the police throughout the country are searching for the name of Chinese and several arrests have been made, the man wanted—Leon Ling—has not only not been caught, but all trace of him seems to have been lost.

One of the arrests made today and which was expected to result in important developments was that of Chung Sin, who formerly occupied the room adjoining that in which the girl's mutilated body was found and who was taken at Amsterdam, N. Y. The police interview with him, however, brought out little of value to the authorities.

NEGRO HER ASSAILANT.

With Bullet in Body, Illinois Woman Lies at the Point of Death.

Springfield, Ills., June 21.—Miss Laura Maxwell, postmistress at Green Ridge, Macoupin county, tonight lies at the point of death with a bullet in her left lung.

DYING MAN IDENTIFIES THEM.

One Man Is Killed and Seven Are Injured in an Accident at Cincinnati.

Cincinnati, June 21.—One man—George Deimlin—was killed and seven others were injured, four seriously, in the fall of an elevator from the seventh story of the Murdock building tonight.

BULLET FINDS VICTIM.

Test of a Rifle by Farm Hands Results in a Tragedy.

Aberdeen, S. D., June 21.—To test a twenty-two calibre rifle, two farm hands today fired at the blank wall of a barn.

TWO MEN COMMIT SUICIDE.

Van Wert, O., June 21.—Frank M. Campbell, manager of the Philadelphia branch of the Jones & Laughlin Steel company of Pittsburgh, shot and killed himself here today.

MAN HUNT IN ILLINOIS.

Thomas Adams Is Sought on the Charge of Murdering His Wife.

Rock Island, Ills., June 21.—Men are scouring the country about Rapid City, S. D., for Thomas Adams, aged sixty, who is wanted in connection with the slaying of his wife, aged forty-nine, who was found dead in the yard of her home today by her daughter, Mrs. Hazel Cox.

EX-PREACHER IS SENTENCED.

Mexico, Mo., June 21.—Clyde Gow, a former Methodist preacher, was sentenced to four years in the penitentiary today on conviction of being an accessory in the death of Miss Elizabeth Gleason at Elshober about a year ago. He was released on bond, pending appeal.

CHURCHMEN HOLD A STORMY SESSION

Marked by Hisses, Yells and Confusion, a Meeting of Chicago Ministers Is Like a Political Rally in a Rowdy Ward.

Assembling to Consider the Case of Professor Foster, Whose Denial of the Divinity of Christ in a recent publication has stirred the Chicago Baptists to a high pitch of resentment, was dropped from the Baptist ministers conference of Chicago today.

Hisses, yells and general confusion marked the meeting one of the stormiest ever held by clergymen in Chicago, and it was referred to by one preacher as resembling a political meeting in a rowdy ward.

Speakers who had been howled or hissed down sat with flushed, indignant faces while the chairman pounded for order. The son of Dr. Foster was present, "It is a shame and unfair," he shouted, as he left the hall.

The insistence of Rev. Dr. A. C. Dixon, of the Moody church, that Dr. Foster be dropped, brought the fight around himself for a time, the real object of the meeting being disregarded.

Dr. M. P. Boynton came in for a hissing when he defended Professor Foster. Dr. Foster, one of the chief assailants of Dr. Foster, attempted to introduce a resolution to drop the professor, whereat his veracity was assailed by Rev. Dr. H. H. Hartley.

"This matter was decided for good and all last week," he shouted. "Dr. Myers promised on his honor that if he did not get his resolution through, he would not again bring it up. Now he is doing exactly contrary to his promise."

"I deny the statement," responded Dr. Myers, coolly. "I promised not to re-introduce that particular motion because my motives had been questioned. Specific charges were wanted, and that is what I have here today."

Professor Foster was asked to explain to the conference why he should be considered a Baptist, and he has refused point blank.

SENDS TWO BABY ANTELOPES.

Col. Roosevelt's Novel Gift to His Daughter, Mrs. Longworth.

New York, June 21.—Two baby antelopes, sent by ex-President Roosevelt to his daughter, Mrs. Nicholas Longworth, were brought here today on the steamer Vaderland.

RAILROADS HEAVY LOSERS.

Illinois' Two-Cent Law Has Cost Them Millions, It Is Contended.

Chicago, June 21.—A bulletin made public here today by the Bureau of Railway News and Statistics shows that the operation of the two-cent fare law in Illinois has cost the railroads of the state \$15,000,000 during the last fiscal year.

ROLAND RICH HELD FOR TRIAL.

Bay City Young Man Accused of the Murder of His Grandmother.

Bay City, Mich., June 21.—Roland Rich, charged with the murder of his grandmother, Mrs. Elsie Sigel, aged sixty, which has been pending since this afternoon bound over to the circuit court for trial.

MAN HUNT IN ILLINOIS.

Thomas Adams Is Sought on the Charge of Murdering His Wife.

Rock Island, Ills., June 21.—Men are scouring the country about Rapid City, S. D., for Thomas Adams, aged sixty, who is wanted in connection with the slaying of his wife, aged forty-nine, who was found dead in the yard of her home today by her daughter, Mrs. Hazel Cox.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Those Ishpeming! The issue as to whether the faculty or the Senior class is running the Michigan Agricultural college has apparently resulted in a draw.

Our Marquette ball team might as well have won as lost that Mining game. The lane will have a turning, if the fans will only possess themselves in patience. The other teams in the Marquette-Alger county league are much faster than they were last year. The Marquette management didn't go as far as they did in recruiting outside talent with which to pull down games. Marquette is tolerably cheerful, however, and presently hopes to lift itself out of the last ditch.

Justice William M. Carpenter, of the supreme court, has made public the list of signers to the petition he has been circulating at Detroit, urging Justice Montgomery to enter the race for governor. There are 350 signers, most of them lawyers, though there is a representation of business men. The list is notable for the absence of men prominent in political activities. This is perhaps less to be ascribed to the unfriendliness of these gentlemen toward Justice Montgomery than to their unwillingness to commit themselves this early. It is asserted that Justice Montgomery will make a statement in regard to his position within a few days, probably this week. No one pretends to know what its purport will be.

We note that the conduct of the crowds attending the Ishpeming-Negaunee baseball games Saturday and Sunday was in happy contrast to their deportment at the earlier games of the season. The words of warning to the rowdies and the suggestion that the managers put a sturdy foot down on all improper conduct bore good fruit, and the games preceded in an orderly manner. The way the league series has opened suggests that the greatest rivalry will exist between the Negaunee and Ishpeming teams. They are well matched and capable of putting up highly interesting games. If the overzealous partisans are kept within bounds, as they were in the last two games, the season for our two neighboring cities, at least, should prove an unqualified success.

This is commencement week at the Northern Normal, and the members of another class of graduates will receive the certificates that show they are entitled to take up work in the public schools of the state with an equipment that will assure of their work being well done. The senior class play, Shakespeare's "Twelfth Night," was given an excellent production last evening. The practice of presenting each year a classic drama cannot be too highly commended. In the preparation of these dramas the young people of the Normal gain much valuable training in the essentials of the dramatic art, besides becoming thoroughly familiarized with some of the world's best literature. The result cannot help but arouse in them an interest in real literature that under proper nurturing will become a personal resource. The Normal has closed a successful year, and its officers and faculty are to be congratulated on the steady progress and growth noted at the institution.

Will Patrick Calhoun, "the man higher up" in San Francisco, whose trial on the charge of bribery, that cost \$50,000, resulted in an acquittal be tried over again? In view of the standing of the jury, eight to four for acquittal in the first instance, and finally ten to two, there appears little warrant for believing that Calhoun can be convicted; yet Henry and Sprackles and their co-laborers are indefatigable, and they may still assay the seemingly impossible. The trial of Calhoun has been one of the most important ever conducted on the Pacific coast. It has been accompanied by sensational developments without number; it has split the people of San Francisco into two factions and has been attended by an almost indescribable bitterness. Calhoun has commanded influential friends and newspapers, and both have worked indefatigably to prevent his conviction.

THE WORST CIGARETTE IN THE WORLD AND THE BEST. There are two things that smokers who travel extensively are agreed upon: That the worst cigarette ever forced upon an unsuspecting stranger is the French, and the best cigarette is the Russian. One writer describes the French cigarette as follows: "The tobacco, which has been aptly described as consisting of scoured linen very coarsely cut, more so than for the pipe in England, and very dark. To reduce its strength it is steeped in water. The resultant cigarette is indescribably horrible; English smokers fail to recognize it as tobacco. Yet of these cigarettes, Frahe smokes some three hundred billions a year; in any form but that of the cigarette it would be intolerable. An Englishman will face unmoved the armies of France or the howlings of her mobs, but from her cigarettes he flies in terror." The Russian cigarette, which is so deservedly popular in California, is the exact opposite to the horrible mixture which masquerades in France under the name of the cigarette. The Russian cigarette is equipped with a paper holder, thus giving a cool, satisfying smoke, and is composed of the most delicate blends of Turkish tobacco, carefully selected and painstakingly prepared by experts who spend their lives in learning just what proportions will produce the perfect cigarette.

Marquette Common Council Proceedings. (Official.) Marquette, Mich., June 14, 1909. An adjourned regular session of the common council was called to order at 8 o'clock by the mayor, the Hon. Daniel Vaughan.

Present—Aldermen Asire, Butler, Donovan, Downey, Ekstrom, Hennessy, Peters, Reichel, Schauer and Ward—10. On motion of Alderman Reichel, supported by Alderman Ekstrom, the following resolution was adopted by aye vote of all the aldermen present: Whereas, James LaPlant, the owner of Lot 9, Block 4 of Harlow's Addition No. 1, is willing to pay the amount of the original assessment for the construction of a sewer in Bluff street, in front of said premises, for the privilege of connecting with and using said sewer. Resolved, That upon payment to the city treasurer of the amount of said assessment, exclusive of interest, on or before July 1, 1909, permission is hereby given to connect said premises with said sewer subject to the ordinances of the city in relation thereto and said interest shall be considered rebated.

THE CHINESE LOAN. It is hard to believe that the British government is directly or indirectly endeavoring to induce the United States to press her claim for participation in the Chinese railway loan of \$27,500,000 for the financing of the Canton-Hankow and the Hankow-Szechuen lines. Ambassador Bryce may have asked some delay until the representatives of the powers interested have an opportunity more fully to discuss the question, but that is quite another matter. Deliberation may be as much to the interest of American bankers as of any one else. The negotiation has required delicate handling from the first, and it probably will continue to require it until the loan is consummated. But while we shall doubtless be willing to further the transaction in this respect, our government, having taken up the matter so vigorously, will be pretty careful to see that it does not result in our elimination.

THE CHINESE LOAN. The representation made in the now qualified or disputed despatches of last week that during the long and difficult negotiations between the British, French and German interests and the Chinese government the United States did not ask to join in this loan conveys a most mistaken impression. It is true that the United States government made no request for participation until very recently. But the overtures for participation were not made by the governments of the several countries concerned, but by their various banking interests. American banking interests were not behindhand. It is known for a certainty that they gave detailed consideration to this question as long ago as last December, and that later on, on what seems to have been the most suitable occasion, they made timely requests for participation but were rebuffed.

Throughout, or at least until within the last few days, the negotiations have been privately conducted. The protocol concerning the financing of the lines that was signed on March 1 was signed not by the diplomatic representatives of Great Britain, Germany, and France, but by financiers of the three countries. The important meetings in Paris of April 2 and 3, which resulted in the temporary defection of the representatives of two of the nations, were held not by the governments but by these same private financiers. Through recourse to diplomatic intervention was threatened as a result of this breach we are not aware that it was at any time had. In fact the French and British interests seemed to fear that if they were not able to settle their difficulties themselves with the German bankers, some other group of financiers drawn from their own compatriots would get in ahead of them. And the Germans were probably even more anxious to settle the matter "out of court," as it were.

Our government may concede delay, but if it does it seems plain that it should insist upon being kept fully informed of the negotiations in behalf of this loan. And it should also be adequately assured that the interests of our bankers will not be prejudiced by the concession. They are the more entitled to this in that they appear to have been somewhat cavalierly treated in the earlier stages of the matter.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That the common council hereby directs that there shall be collected on the general tax roll of the city of the year 1909, each and every of the delinquent unpaid special assessments levied for public improvements against lots and parcels of real estate on the general assessment rolls hereinafter mentioned, and all proper costs, charges and penalties, and interest thereon, to-wit: Special Assessment Roll No. 60, confirmed by the common council Aug. 17, 1908, for the grading and macadamizing of Blenheim avenue from Division street to Altamont street.

Special Assessment Roll No. 85, confirmed by the common council June 25, 1906, for the grading and macadamizing of Center street from the west line of Presque Isle avenue to west line of Wilkinson avenue.

Special Assessment Roll No. 94, confirmed by the common council Feb. 18, 1907, for the construction of a sewer in Seventh street from manhole in Rock street to the center of Fisher street.

Special Assessment No. 95, confirmed by the common council Nov. 18, 1907, and 3, which resulted in the temporary defection of the representatives of two of the nations, were held not by the governments but by these same private financiers. Through recourse to diplomatic intervention was threatened as a result of this breach we are not aware that it was at any time had. In fact the French and British interests seemed to fear that if they were not able to settle their difficulties themselves with the German bankers, some other group of financiers drawn from their own compatriots would get in ahead of them. And the Germans were probably even more anxious to settle the matter "out of court," as it were.

Special Assessment Roll No. 104, confirmed by the common council Aug. 17, 1908, for the construction of a sewer in Park street from sewer in Fourth street to the west end of Park street.

Special Assessment Roll No. 106, confirmed by the common council Sept. 8, 1908, for the construction of a sewer in Park avenue from manhole in Washington street to center of Bluff street, thence west in Bluff street to a point 23 feet east of the east line of Spruce street.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That there be appropriated for the following purposes for the current year and credited to the respective accounts the following sums of money: For the use of the park, cemetery and street commission of the city of Marquette the sum of sixteen thousand dollars.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That the special assessment roll for the grading, curbing and macadamizing of Ohio street from the east line of Spruce street to the west line of Walnut street, particularly providing that from the east line of Cedar street to a point 400 feet east of the east line of Spruce street, the north half, only, of said Ohio street is to be so graded, curbed and macadamized, and that this resolution and said profile be duly certified by the recorder and placed on file.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was adopted: Resolved, That a profile be prepared and submitted to the council for a six-inch sewer in Lee and Park streets from Alger street to a point that is 720 feet west of the manhole in Fourth street, said point being the west end of sewer in Park street, and that a profile and estimate of the cost of said sewers be made.

### PYTHIAN CONVENTIONS OPEN.

Pythian Sisters and U. P. League in Session at Calumet.

The upper peninsula conventions of the Knights of Pythias and the Pythian Sisters opened in Calumet yesterday. The Pythian Sisters convention was scheduled for only one day and it closed last night. The convention was attended by Mrs. Posobontas Bond of Three Rivers, head of the order in this state, and by delegates from all of the temples in the upper peninsula. The sessions were held in the Old Fellows Hall, Red Jacket.

The Upper Peninsula Pythian League convention opened at 10 o'clock yesterday morning with an address of welcome by F. H. Schumaker, president of the league and president of the village of Red Jacket. Addresses were also delivered by Angus W. Kerr of Calumet and Ira G. Curry, grand chancellor of Michigan. In the afternoon the third rank team contest opened.

The program for today is entirely made up of degree team contests. There are fifteen lodges in the upper peninsula league, and every lodge, excepting Iron Mountain and Menominee, is expected to have a full degree team present. It takes eighteen men to put on the work for each team. The Iron Mountain lodge may enter, but official word to that effect has not yet been received.

The members of the league have as their guests four of the officers of the grand lodge. They are Ira G. Curry, grand chancellor; Fred C. Wetmore, grand vice chancellor; William E. Hampton, grand keeper of records and seals; and Victor Hawkins, grand master-at-arms. The grand officers will be the judges in the third rank contests.

The upper peninsula league is seven years old. It was organized for the purpose of holding third rank contests and inspiring the members of the various teams to a higher degree of perfection in their work, to encourage the growth of Pythianism and to keep before all the grand principles of the order. Its present officers are: President, Frank H. Schumaker, Calumet; vice president, W. B. Hoar, Houghton; secretary-treasurer, W. S. Smed, Laurium. The 1910 meeting of the league will be sought by Red Cross lodge of Sault Ste. Marie and the Menominee lodge.

This year the teams contesting in the third rank will do so for a new trophy, the old one going to Red Cross lodge last year when the Soo team won the contest at Escanaba for the third time. The new trophy, which is donated by the lodge, is an exhibition in the shape of a window of Pythias window and Verbin Bros' store, corner of Oak and Sixth streets. The cup is of solid silver and stands thirty inches in height, with a seven-inch epoxy base. It is the most beautiful trophy ever donated by the league. On the front of the cup, near the top, is embossed the emblem of the order, while around its greatest girth are medallions on which will be engraved the names of the teams winning the various contests until the cup is finally won three times by some lodge. In Verbin Bros' window also appear the twenty gold medals to be given the members of the winning team.

One of the biggest features of the convention of the Knights of Pythias will be the ceremonial session of El Sirat temple, Dramatic Order of the Knights of Khorassan, of Duluth Thursday and Thursday night. At this session a large number of "tyros" or candidates who wish to kneel with the camel and make the trip over the burning sands, will be initiated into the "Dokays." The "Dokays" are to the Knights of Pythias what the Shriners are to the Masonic order.

North Star lodge, No. 35, Knights of Pythias of Duluth, writes that about forty-five Duluth members will come to Calumet to take in the convention and witness the work of the El Sirat degree team.

### NEWS OF FINNISH SYNOD.

Movement to Pay Off the Debt on the Hancock College.

The annual convention of the Finnish synod at Eveleth, Minn., closed last week after deciding upon Ironwood as the place of holding the next convention. Many important matters were taken up by the synod.

A move to pay off the debt on the Finnish college at Hancock, amounting to about \$23,000, was started. Rev. V. Rautionen moved that the synod pay off this debt by securing 3,000 new members, each to subscribe \$10. Rev. John Wargelin supported this motion and made a very strong speech in favor of it. He also moved that the work of securing funds should be carried on not only among the Finns, but among the Americans. This motion was passed unanimously. A subscription among the members present netted \$400.

Rev. O. Stadius, South Range, Mich., made a motion that the synod Suomi should send a delegate to represent the synod at the fifth anniversary of the Augsburg synod, at Rock Island, Ill. Rev. J. K. Nikander, D. D., was appointed to represent the Finnish synod at the Augsburg anniversary, in place of Rev. L. Katajamaa, who could not attend.

The subscription rate of the "Suomilainen" the Finnish weekly, was lowered from \$2 to \$1.50 per year. Rev. A. Savola of Ishpeming informed the convention of the Finnish Sunday school teachers' meeting at Ishpeming, Aug. 31. It was requested of all members to be represented.

## J.A. Minnear & Co. BROKERS

Offices at Calumet and Laurium.

Direct private wire service to all markets. If you want the best service on your curb orders and cannot favor us direct, instruct your broker to have executed the order by J.A. Minnear & Co., Brokers, Railroads and Curb for each or on margin.

Both offices open evenings. Phones, Calumet, 64 and 75. Laurium, 450, 520 and 605. 4-10-12m

### COPPER RANGE IS FORTUNATE.

Has to Pump Water for Its Engines at Only Two of Its Tanks.

In one particular the Copper Range railroad company is one of the most fortunate railroad companies existing. This refers to the saving in the cost of providing water for engines. At only two points on the road is it necessary to pump the water. The principal supply station is at Millville junction, where two 30,000-gallon tanks are continually running over with water which flows by gravity from Wheateck bluff. At two other points on the road water is supplied by gravity, and only at Houghton and one other station is it necessary to pump the water into the tanks from which the engines are replenished. Houghton people are proud of the spring water which is their daily beverage, but the Copper Range railroad officials contend that the Wheateck bluff water at Millville junction is purer and they try as far as possible to fill all their engines at that point. The road has no trouble at any point with water, no foaming boilers or any other difficulty arising from impurities in the water fed to the boilers and in this respect of expense is probably more fortunate than any other railroad.

#### CASTLE DOME.

P. H. Finnegan, at Calumet, yesterday received the following letter from O. C. Scott, who is in charge of the Castle Dome mine. Mr. Scott is a miner of twenty years' experience in Arizona. "P. H. Finnegan, Calumet, Mich. Dear Sir: Your esteemed favor of recent date received. You ask if I have any idea how much further the crosscut will have to go before the lead is reached. When I first undertook the job I thought sixty feet would reach the contact, and if it does not, that figure is unjustified. One thing I wish to say to you personally. With all the thousands that the Miami company and Cactus Development company and their predecessors have spent, they have no such showing as there is right on the 200-foot level of the Virginia shaft. I have been to both places myself, and I have heard at Nylons, as the George Parsonsoff who have worked at both places. At 200 feet we have sulphide ore, and that is what everybody is looking for. There has been no drifting to determine the value or extent of the two ore bodies that are intersected by the crosscut. If I had been at 200 feet more depth we will have another United Verde, (Signed) O. C. Scott."

### Upper Peninsula

Shingle Weavers Out on Strike.—The shingle weavers at Nylons, Dejeo county, are reported out on strike. James Jondro, president of the shingle weavers' organization in Wisconsin and Michigan, has been reported by the Nylons shingle president of the Bay de Nequet Lumber company, who was called from Chicago on account of the trouble.

#### His Neck Was Broken.

Struck down as he was standing on the tender of a moving engine at the Escanaba & Lake Superior Railroad company's viaduct under the tracks of the Soo Line, near Ureca, Frank J. Wickman, 27, died instantly. The unfortunate young man did not notice the viaduct as he approached it. He was struck directly on the top of the head, breaking his neck. He dropped lifeless on the pile of coal.

#### Was Fatally Burned.

Miss Esther Carlson, met a tragic fate in the district of Hibbing, some days ago. Her clothes catching fire from an explosion of kerosene with which she was attempting to kindle the kitchen fire. The deceased was the daughter of Mr. and Mrs. Peter Carlson, for many years residents of Newberry, the family removing to Hibbing about a year ago. The body was taken to Newberry for interment. The young woman was twenty years old.

#### Fifty Years a Minister.

Rev. Edward Seymour of Newberry is celebrating the fiftieth anniversary of his ordination to the Episcopal ministry. It was shortly after his ordination that Mr. Seymour took up the duties of a missionary in this northern country, having his headquarters at Marquette, and many are the interesting tales he can tell of his experiences during those forty years. For years he labored among the Indians and early settlers, and was often forced to endure cruel hardships, as the region, at that time was almost an unbroken wilderness, with the settlements few and far between.

#### New Pastor Is Called.

Rev. E. W. Ainslee, of South Bay City, has accepted a call to become pastor of the First Baptist church of Escanaba, and will arrive there soon to take up the duties of his new position. He has been with the South Bay City church nearly three years. He is secretary of the Bay City Ministers' association. For about twenty years he has written the Sunday school lessons for the Christian Herald. Mr. Ainslee will visit his father at Burlington Flats, N. Y., where he will join his wife and family, who left Bay City for the East some time ago. After a short visit at Hamilton, where he was educated, he will go to Escanaba.

#### Rain Was Timely.

For the second time this season rain came in the nick of time to check forest fires in this county that threatened to assume alarming proportions, reports the Newberry News. Thursday last week a fire started in the old dry slashings on the lands of the Lake Superior Iron & Chemical company north of here, near "Spring Hill." Supervisor Park rushed a crew of fire fighters to the scene and they did yeoman service Thursday and Friday in keeping the flames from spreading into the green timber, and on Saturday L. H. Hunter laid off his mill crew and sent them out to augment the forces of the fighters. The rain which set in Sunday morning came in the nick of time and effectually checked the spread of the fire. A considerable damage was done to standing timber and 3,000

### FLORIDA WATER COMPANY.

New Corporation Files Articles—Is Capitalized at \$10,000.

The Florida Water company yesterday filed articles of incorporation with County Clerk Richardson. The name will probably at once call to mind a certain celebrated hot water, but this company has no interest in that form of liquid. It is organized for the purpose of providing water for the Florida location of Calumet township, an addition to the village of Laurium. It is capitalized at \$10,000, divided into 200 shares at \$50 each, and of this amount \$1,430.96 has been paid in. The incorporators are Richard Browning, George Browning, John L. Norum, A. H. Ruitilla, Peter Pelto and Alex. A. Colin.

### METHODIST ASSEMBLY.

The assembly of Methodist Episcopal churches at Electric Park July 17 to 19, inclusive, will be a big and well attended gathering. It will be but one of many similar meetings to be held in different parts of the country during the summer months. The assembly will open the 17th with a grand concert, in which a choir of let us sing and several solo voices will take part. All the best known soloists of the copper country will assist with the program, and the choir will be made up of singers from practically every Methodist Episcopal church in the district. Among the well known church workers expected to take part in the assembly are Bishop Joseph F. Berry of Buffalo, Dr. Charles C. Stuntz of New York and Dr. Homer B. Mitchell of Chicago. The Calumet & Hecla bank will assist in the musical programs.

### WEDS IN WISCONSIN.

D. G. Donahue of South Range and Miss Dollis O'Dell of Grand Forks, N. D., were married in Hudson, Wis., last Tuesday. They have arrived in the copper country and for the time being their home is Hancock, at the Scott Hotel. Mr. Donahue is a promising young attorney of Houghton county. His bride is the daughter of a large ranch owner in the West. The marriage grows out of a romance which started when both young people were attending college at Ann Arbor.

### WILL RESIDE IN MILWAUKEE.

J. F. Jackson, engineer for the Wisconsin Bridge & Iron company and district representative for that concern in the copper country, has removed his residence to Milwaukee. He and Mrs. Jackson are now in that city. They have sold their residence at Houghton to Chester Kilmar. Mr. Jackson will maintain his office in Houghton, but will have his business headquarters in Milwaukee. He has been a resident of Houghton for many years and for several terms was a member of the village council.

### LONGEST DAY OF THE YEAR.

Yesterday was the longest day of the year; that is, the day with the most extended period of daylight. The sun rose at 7:38 a. m. and set at 7:53 last evening. Of course the variation from Sunday or today is only a fraction of a minute.

### "IN GOD WE TRUST" ONCE MORE.

"In God We Trust" is to appear on the new Lincoln cents, which are expected to be issued before August next from the mints at Philadelphia, San Francisco and Denver, where all our pennies are coined. Hereafter the American penny has never borne the head of an American, and Lincoln has very properly been chosen to be honored first of all. "The restoration of the popular and expressive legend, "In God We Trust," is due to the action of President Taft, and we honor him for it.—Leslie's Weekly.

### Caught in a Bear Trap.

A bear trap set by some unknown trapper is the cause of James McKibbin, of Powers, Menominee county, suffering a severe injury. McKibbin, accompanied by a few friends, rode to "old camp 87" on the Cedar river, where they expected to spend the day in fishing and while taking a short cut through the woods to the river he stepped on the plate of a bear trap which was covered with leaves. The jaw of the trap caught him just above the ankle of the left foot. One of the jaws had seven two-inch sharp pointed prongs, and it was one of those prongs that sunk deep into the flesh, causing a very painful wound. Fortunately no bones were broken. McKibbin called for help to Wm. Lawrence, who was out on a short distance away, and the two men succeeded in releasing him from the trap after working for fully fifteen minutes. The trap measures over three feet in length and may be seen at the home of the victim. It is one of the largest bear traps in use and when a man is once caught in it he usually meets death unless assistance is close at hand.

### Watchman Saves Boy's Life.

John Perrault pulled the limp body of little eight-year-old Loren Campbell out of the water in Kemp's old slip at the Soo the other afternoon and worked him nearly a half hour before the young one revived. Perrault's knowledge of first aid to the drowning was of great value. The parents, Mr. and Mrs. William Campbell, 232 Douglas street, are profuse in their gratitude to the savior of their son's life, and Perrault is in line for a Carnegie medal. Perrault is a government watchman on the Houghton avenue pier. He first knew of anything wrong when he saw a little boy waving his arms frantically from the upper side of the slip. He ran there quickly and found the Campbell boy in the water. He had come down a few times, but he seemed to stay on the surface. So he threw a plank he lowered one end into the water and put it under the drowning lad. It was the work of a few moments to get the youngster to shallow water, and the end of the pier. It was then that Perrault's knowledge of first aid to the drowning became of value. He knew exactly what to do. After working over the boy for nearly half an hour the watchman's efforts were rewarded. The youngster's respiration became gradually apparent and he was finally completely resuscitated.

### FOR EPICURES.

The flesh of the camel, which was some time ago introduced into Paris, has not, to use a vulgarism, "taken on," as it was found to be somewhat tough, and the importation has come to a sudden standstill. Now the Parisians are promised another novelty in the form of kangaroo imported from New Zealand in a preserved state. Another delicacy is the hump of the zebu. These meats, we learn from a Paris contemporary, are prepared with salt, pepper, spice and capsaicin. It is said that these conserves are not only pleasing to the palate, but they are of digestion. It is also a question, we learn, of introducing into the Paris restaurants grasshoppers in dried form and in paste. Do not exclaim (says our contemporary). Do we not love oysters, mussels, periwinkles and snails? After the grasshoppers a means will be found to prepare those pretty "demiseilles," which live on insects and by destroying crops. Moreover, great ants are a feast to some foreigners, which proves, after all, that food is only a matter of convention and habit.—London Globe.

### SEALED PROPOSALS.

To whom it may concern, that sealed proposals will be received at his office in Sidsaw, Houghton county, Michigan, for the township of Duncan, Houghton county, Mich., until 12 o'clock, noon, June 23rd, 1909, for furnishing the cement and laying about 8,000 feet of sidewalk, more or less, in the village of Sidsaw, Mich., Duncan township, Houghton county, according to plans and specifications thereof, in my office at Sidsaw, Mich. The bids will be open to inspection until the time above mentioned, on which day and the aforesaid place. I will contract therefore for the same, reserving the right to accept or reject any and all bids, contracting parties to give good and sufficient security for the performance of said work.

HAVEN C. STEWART, Town Clerk.

## The Great Lakes Trip

A little journey on the inland sea is the most pleasant and economical vacation trip in America. The beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Detroit, Mackinac and Sault Ste. Marie, and two trips weekly between Detroit, Bay City, Saginaw and Sault Ste. Marie. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Goderich, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address: L. G. Lewis, G. P. A., Detroit, Mich.

P. H. McMillan, President

### PAPER FOR THE BLIND.

The More It Circulates, the More It Loses.

Of the 80,000 sightless persons in America, about 35,000 are able to read blind printing. The fact that they are blind lessens, in most instances, their earning capacity, and inasmuch as the making of reading matter for them is a costly operation, it is practically impossible without aid from wealthy people to supply them with literature, says the New York Sun.

The oldest newspaper for the blind is published at College View, Neb. It is called the Christian Record, and was founded at Battle Creek, Mich., in 1900 by A. O. Wilson and his wife, who are both blind.

In 1901 the editing, his wife the printing and binding. Wilson has since engaged in other business, but his wife is still the composing room force. Four years ago the plant was moved to Nebraska.

It began with a circulation of 100 copies. Today 2,000 copies are printed each month, and there are 6,000 names on the waiting list. These persons would like to subscribe, and are willing to pay the subscription price, but the publisher is in the position of losing money the more subscribers he gets.

One sheet of paper can carry but one page of reading matter, since the matter printed is read from the opposite side from that upon which the printing is done. When the magazine or book is bound it must be padded at the back to allow for the raised or embossed printing.

Blind printing has been in the process of evolution since 1784, but only within the last ten years has invention made it possible to place the results, either in book or magazine form, at a price that many of the blind could afford. A number of printing establishments exist in the United States, the largest being that of the Matilda Zeigler Magazine in New York city, which has the largest circulation of any printed matter for the blind.

This is made possible by the fact that Mrs. Zeigler pays the excess of cost above the selling price, about \$20,000 a year.

In most establishments the work is done by blind people. The editor writes his copy with a little machine built on the principle of the typewriter, but so small that it can be held on one knee, which embosses the letters. This copy is turned over to the compositor, and the writing is produced on a machine similar to the one used by the editor, except that it is larger, about the size of a sewing machine, and it makes the impression on thin copper plates. A foot lever is used to force the points into the metal plates. In some of the small shops the impression is made by a tap on an awl piece of steel.

When the metal sheets are finished the compositor or the editor does the proof reading. If an error is detected, it is necessary to smooth down the surface at that point, or if that is impossible, the plate must be made over again.

The mechanical difficulties involved make changes from copy very infrequent.

The metal plates are next put in the printing press on rollers. These rest against other rollers holding rubber mats. The paper runs between, and at each revolution the copper plates force

### PEOPLE ARE LIVING LONGER NOW.

At the twentieth annual meeting of the Actuarial Society of America about one hundred actuaries were present from all parts of the United States, Canada and Mexico. The most important address was that of the new president, John K. Gore of Newark, on the subject of "Lengthening Human Life."

Mr. Gore said there was evidence that for more than two hundred years there had been in Europe and America a more or less continuous increase in the mean duration of human life, although it was true that until the last half century there had been kept a continuous record of marriages, births and deaths since 1551. The data might be defective, but viewed in groups of twenty, thirty or more years there had been observed a gradual and almost continuous decrease in the death rate.

"As compared with fifty years of the sixteenth century," said Gore, "the death rate for the seventeenth century shows a decrease of one fifth for the ages of fifty-one to sixty, a decrease of one-eighth for ages sixty-one to seventy, and a decrease of one-fifteenth for the ages seventy-one to eighty. The ages eighty-one to ninety show an increase of one-tenth in the death rate."

"Figures for thirty-three years, early in the nineteenth century, included in the tabulation show a decrease of one-half in the death rate as compared to those of the sixteenth century for the ages of forty to fifty-nine. For the ages of eighty-one to ninety the rate gave one-eighth."

"A larger and larger percentage of persons live up to and through the reproductive periods of life," continued Gore, "disregarding if we will the sentimental and humanitarian sides of the question, we must nevertheless appreciate the tremendous economic value of this great addition to the producing years of life. Although thousands of inevitable deaths still occur every year, since 1871, deaths by typhoid have decreased from 3 per 10,000 to 3. This cause of death eventually should be almost eliminated."

The speaker said other diseases and causes of death apparently had increased in activity in the last thirty or forty years in spite of improvement in the general mortality rate. The death rate of heart disease, urinary diseases and suicides averaged more than 50 per cent higher than thirty years ago, he said. He added that too much could not be said in praise of the present national and international movement against tuberculosis.

### Our Ice Cream Is the Richest and Best in the County.

We make it ourselves. Use cream, sugar and vanilla. Make the vanilla, too; so we know it's pure. A test shows 17 per cent butter fat. Try other brands and see if they run as great. We take pride in our Ice Cream. It has made our Soda business run far ahead of what we considered possible a few years ago, and it is still jumping, too. Try any drink at our fountain and you will find it good, and when it's good it's all right.

### City Brevities

Today's weather: Partly cloudy with showers and thunderstorms; cooler. Yesterday's temperature: Seven a. m., 75 degrees; noon, 89; 7 p. m., 77. Maximum, 91 degrees; minimum, 75.

Daniel Greene left for Milwaukee last evening.

S. T. Harris and son Lloyd were visitors in the city yesterday.

Miss Elsie Martin, of Escanaba, is visiting her friend, Miss Helen Withey.

Mr. and Mrs. W. L. Bacon, of Escanaba, were visitors in the city yesterday.

Mr. and Mrs. J. H. Russell, of Jackson, arrived last evening to visit their daughter, Mrs. A. H. Palmer.

E. A. Culver left last evening for the state of Washington, where he will look over some timber lands.

Miss Louise Snurthwaite, who has been visiting at E. E. Withey's home, has returned to Traverse City.

The M. E. Sunday school of Ishpeming has arranged to hold their annual picnic at Presque Isle next Thursday.

A marriage license was issued yesterday to Joseph V. Grabek, of Calumet, and Alice F. Bellumont.

A regular meeting of the Knights of the Order of the Eastern Star, No. 100, was held last night, to which all visiting members are invited.

Mrs. Arthur Hodgkins and children, of Mineville, N. Y., are visiting in the city, the guests of Mr. and Mrs. A. Meads, 321 Spruce street.

J. M. Hauxhurst, a Chicago piano man, returned to his home last evening, after spending a week with A. Saladin, fishing on the Yellow Dog river.

The Home Bottling works is putting a superior article of root beer on the market, something that is said to be altogether new to Marquette people.

Miss Gladys Brown has returned from Kalamazoo, where she has been teaching school, to spend the summer with her parents, Mr. and Mrs. George P. Brown.

Gene Sullivan, formerly the leader of the Peerless orchestra in this city, who went to Escanaba some months ago, is now the leader of the Yankee Doodle Stock company orchestra, playing in Ishpeming this week.

North Ends Won—The Marquette North Ends defeated the Michigan Owls, at Michigan last Sunday by the score of 21 to 6. Ekstrom and Clark were the battery for the North Ends.

Insects Are Bad—Those returning from the woods report that the flies and mosquitoes are unusually bad, even for this season of the year. For flies more pestiferous than any other time of the season, and it is indeed a true disciple of Isak Walton who ventures forth in pursuit of his favorite avocation.

Coroner's Inquest—Coroner Cray held an inquest over the remains of John Smith, the convict who hanged himself with a belt strap to the door of his cell at the prison Sunday, yesterday forenoon, and the jury returned a verdict of suicide while temporarily mentally deranged.

Commencement Friday Night—The annual graduating exercises of the Cathedral high school will be held in Baraga auditorium Friday evening. An excellent program has been prepared, which includes a musical dramatization of "Joan of Arc," two choruses, musical numbers and an address. There are eight graduates this year.

"Den" to Be Closed—The Den cigar store and pool room will go out of business Saturday night and the stock will be removed to Grand Rapids. This business was formerly managed by Flint B. Anila, who several months ago went on the road and was replaced in the store by J. Harry Brown. The place has always been a popular "hang-out" for the young men, who will one and all regret Mr. Brown's decision to leave the city. That the stand did not pay is the reason given out for closing up the store.

Wife Deserter Jailed—J. M. Ness was sent down from Ishpeming to the county jail yesterday, where a sentence of seven days had been imposed for jumping a board bill at the Urban House. Ness will be remembered as the man who is alleged to have abandoned his wife at the Hotel Brunswick several weeks ago, and was later found to be living with another woman in a Third ward boarding house. Unless the deserted wife is willing to make complaint, the authorities do not think it will be possible to prefer a more serious charge against him, upon the expiration of his short jail sentence.

INSURE WITH PETER WHITE & CO.

NOTICE

To the property owners, taxpayers and other persons interested in the following improvement, to-wit: For the grading, curbing and macadamizing of Ohio street.

Notice is hereby given that the specifications for grading, curbing and macadamizing Ohio street, from the east line of Spruce street to the west line of Walnut street, together with estimate of the expense of making said improvement and profile of the work to be done and district to be improved and assessed to pay the costs thereof, are now in the office of the city controller for public examination. The district to be assessed to pay for the said improvement comprises all the property abutting on said portion of Ohio street on both sides thereof.

The Common Council of the City of Marquette, will meet on Tuesday, the 29th day of July, A. D. 1909, at 8 o'clock p. m., at the council chamber in the city hall and consider any objections to said proposed improvements and the district assessment roll prepared therefor and for the confirmation of said roll.

Dated, Marquette, Mich., June 21, 1909. SHELDON MC CARTHY, Deputy Recorder.

### Upper Peninsula

Failed to Register His Tugs—

On account of his failure to register his fishing tugs, Captain Coffey was fined \$10 for each failure and \$3.75 costs in each case, says the Marquette Pioneer Tribune. Deputy Edy of the Soo made the complaint, and the matter came on in Justice Knox's court. The captain neglected to register this year, as the game warden neglected to send him the necessary application blanks, and he thought that on account of the failure of the department to do so the law had been repealed or was non-effective.

Ag'd Masonic Official—

The oldest active officer of a Masonic lodge in the Northwest is asserted to be O. F. Buell of Menominee, who is in the eighty-fifth year of his age. Mr. Buell is chaplain of the Masonic lodge of Menominee and performs his duties with impressive distinction at all meetings, functions and ceremonies of the order. He was born in Lockport, N. Y., in 1824 and removed with his family to Michigan in 1836. He learned the trade of a shoemaker. He has now retired from business, but still takes an active interest in the affairs of Menominee.

Charged With Manslaughter—

Louis Stensky, an Ingham fisherman, has been arrested in Menominee on a charge of manslaughter. The arrest followed the death of Samuel Johnson and the declaration from doctors who performed an autopsy that the man died from concussion of the brain. A blood clot was found between the brain and the skull which the physicians declared resulted from a heavy blow on the head. Stensky, who is over six feet tall and heavily built, became engaged in a quarrel with Johnson in a main street saloon. During the quarrel he is alleged to have hit Johnson across the back of the head with the back of his hand. The blow was declared to have been a light one but of sufficient force to knock Johnson to the floor unconscious. The hearing will be held June 28. Meanwhile, Stensky is out on \$2,000 bail.

Big Timber Deal Closed—

An Iron Mountain dispatch reports the closing of a big timber deal in that city. The parties to the transaction were Frank Ader, dealer in hardwood timber and cordwood, and an Albany pool, in which John M. Longyear of Marquette and associates are interested. N. M. Kaufmann of Marquette and associates are also interested in the deal. Mr. Ader purchased from the interests mentioned the timber on 1280 acres of land. The money consideration was close to \$75,000. The lands in question are located in the township of Sagola and Feleh, and are heavily timbered with elm, basswood, cedar and maple. They are well located for clear and expedient logging. When interviewed Mr. Ader was in high good humor in being so fortunate as to secure the timber at what he considered a very low price. He declared that he would not take \$10,000 spot cash for his bargain. Mr. Ader will immediately formulate his plans for the logging operations. It is probable that a large camp will be built in the vicinity of the Groveland mine spur of the Chicago, Milwaukee & St. Paul road. The timber will be hauled along this spur for shipment. Mr. Ader says that the longest haul will be about four miles and that most of the roads will be of easy grade, he will not manufacture the timber, but will sell it in the rough. Camps will be established as soon as possible and a crew of no less than one hundred men will find steady employment for several years.

### FINE PHOTOGRAPHY.

Having purchased the photograph gallery in the Harlow block, and remodelled it and put in new appliances, I am now prepared to do the very best work in the photographic line. I make a specialty of sepia platinum work. Kodak films developed and printed. I shall make my studio the place for securing the best portrait work obtainable. I invite all to examine my work. E. C. LEMON, Photographer. (6-17-09)

### NOTICE TO CONTRACTORS.

Office of The Park, Cemetery and Street Commission. Marquette, Mich., June 18, 1909.

Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that separate sealed proposals will be received at the office of this commission until 3 o'clock p. m. June 30th, 1909, for furnishing all labor and material required to make the following street improvements, in accordance with the profile and specifications therefor on file in this office, viz:

(1) The grading and macadamizing of Ohio street, from the east line of Spruce street to the west line of Walnut street, according to the profile herebefore adopted therefor.

(2) The construction of concrete curbing in Ohio street, from the east line of Spruce street to the west line of Walnut street, except in that portion of said Ohio street, from the east line of Cedar street to a point four hundred feet east of the east line of Spruce street, said portion to be provided with concrete curbing and concrete curb combined.

(3) The grading and macadamizing of Ohio street, from the east line of Spruce street to a point four hundred feet east of the east line of Spruce street, according to that portion of aforesaid profile herebefore adopted therefor.

(4) The construction of concrete curbing in Ohio street, from the east line of Spruce street to a point four hundred feet east of the east line of Spruce street, according to that portion of aforesaid profile.

Proposals for said improvements must be made in separate bids as indicated above, and must be in separate sealed envelopes, marked so as to indicate which part of improvement is referred to, and must be accompanied by a contractor's bond with two good sureties in a sum at least twice the amount of the bid, conditioned for performance of contract, payment for labor and materials, etc., in accordance with form on file in this office.

The commission reserves the right to reject any or all bids. J. F. ANDERSON, Secretary. (5-22-09)

## Marquette Steam Laundry and Dye Works

WE OPENED a new department this spring to relieve the woman of that dread day, "Wash Day," and it is greatly appreciated by those who have tried it.

At present we call it "Wet-wash," it should be called "Damp-wash," as after washing the clothes we extract the water, sending them home damp, the white work just dry enough to iron and the underwear to be dried.

The entire washing, if it does not weigh over thirty pounds, will cost you only fifty cents, over that weight, ten cents for each five pounds.

If you are now having your work done the Rough-dry system (with all the flat pieces ironed) you will not like the new method, but if you are having it done at home, you would enjoy the Damp idea—it makes a great saving.

Remember our regular wagons do not handle the Wet-wash work. If you want to try the Damp idea, phone and the "Wet-wash" wagon will call.

1 1/2 Bushel Bag Washing . . . 50c  
2 Bushel Bag Washing . . . 75c

NO WASHING LESS THAN 50 CENTS.

This washing must contain only flat work goods and wearing goods.

Lace Curtains, Drapes, Carpets, Quilts, Overalls, etc., will not be accepted as Bag Goods.

The Bag in which these goods are delivered is property of NEEDHAM BROS. & WILLIAMS, and must be returned or a charge of 50c will be made.

Kelly Hardware Co.

WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments COST NO MORE THAN PLAIN ONES IN WHITE BRONZE

Marble is entirely out of date. Granite soon gets more grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth's bosom. It is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. More growth is an impossibility. It is more artistic than any stone. There are not investigators in it. It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronzes for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronzes.

### NO DODGING POLL TAX THIS YEAR

UP TO THIS TIME ONLY THE MEN  
EMPLOYED AT THE MINES  
HAVE BEEN FORCED TO PAY IT.

At the last meeting of the council  
the street commissioner was directed to  
collect poll tax from every male resident  
of Ishpeming over twenty-one and under  
fifty years.

For several years past only a feeble  
attempt has been made to collect poll  
taxes and as a result not more than 40  
to 50 per cent of those who should pay  
it have done so. Men working at the  
mines, from whom the tax is collected  
through the offices, have objected very  
strongly to paying because the business  
people and others who cannot be reached  
through the mining offices have not been  
compelled to pay. Mr. Holmgren said  
yesterday that he will make the rounds  
of the entire city, will call in every  
business house and will also collect from  
others not connected with the business  
establishments. Only women and members  
of the council are exempt.

A person who refuses to pay the  
poll tax can be compelled to work eight  
hours for the city. If all those who  
are supposed to pay can be reached,  
between \$3,000 and \$4,000 will be col-  
lected. As a rule, it is necessary to  
refund the tax money to from 10 to 15  
per cent of the men working at the  
mines, who are under twenty-one or over  
fifty. In all cases where the person  
taxed furnishes positive proof that he is  
under or over the age limit, the money  
is refunded by the city officials after it  
is received from the mining compa-  
nies.

### BAZAAR AND PROGRAM.

Church Ladies Will Entertain This  
Afternoon and Evening.

The ladies of Calvary Baptist con-  
gregation entertained a large number of  
friends at an entertainment and bazaar  
conducted last evening at the church.  
The bazaar is to be held again this af-  
ternoon and evening and another pro-  
gram will be given tonight. Among the  
several attractions is the Larkin booth  
the first of its kind to be seen in the  
city. There are also other features, in-  
cluding fish pond, etc. Ice cream, cake  
and other refreshments are being served.  
Among the more prominent numbers  
on tonight's program will be selections  
by a mandolin club, composed of Char-  
lotte Kahn, Emily Rundle, Marie Nel-  
son and Alfred Gorle. Miss Ethel Rundle  
will preside at the piano.

The program will be as follows:

Quartette  
Instrumental  
Reading  
Miss Quyle.  
Miss Jenkins.  
Instrumental  
Misses Ellstrom and LaVerne.  
Vocal  
Miss Hanson.  
Violin selection  
Charles Jewell.  
Vocal  
Mr. Loehrer.  
Selection  
Mandolin Club.  
Instrumental  
Miss Etie Cook.  
The admission will be ten cents for  
adults and five for children.

### WILL RAISE RACE HORSES.

Prominent Actress, Recently Seen Here,  
Much Interested in the Game.

Lillian Russell, who recently appeared  
as the star in a race track comedy,  
"Wildfire," in the theaters of this sec-  
tion, is said to be one of the most en-  
thusiastic lovers of the racing game in  
America and she announced Saturday  
before leaving New York for London  
that she is going to run race horses.

"I'm going away for rest and to look  
at pretty things," said the star. "I'm  
dear me, I'm not going to make any  
purchase abroad. I can get better ma-  
terial cheaper in my own country and  
can get fitted better."

"But Mr. Hughes' anti-betting law was  
a good piece of legislation, wasn't it?"  
she continued. "Instead of betting on  
a horse I'm going to buy the horse and  
watch him run. That's the sport, the  
more interest in racing, and the in-  
terest is going to increase year by year."  
"When I return I shall star in a new  
play by Edmund Day. The scene is laid  
in Wall street and it is called 'Widow's  
Might.' George Broadhurst is writing  
another for me, based on Washington  
life."

### CLIFFS TEAMS PLAY.

Swanzy Range Office Nine Defeated  
Ishpeming Office Men Sunday.

A baseball team, composed of Cleve-  
land-Cliffs Iron company's Swanzy  
office employees, defeated a team from  
the main office in Ishpeming Sunday  
morning, the score being 17 to 9. The  
visitors were accompanied by a number  
of rooters, all of whom attended the  
Ishpeming-Negaunee game in the after-  
noon. Dr. Miles Main, who pitched for  
the Swanzy team, struck out thirteen  
men, and Barber and Sterling, pitchers  
for the Ishpeming team, had ten strike-  
outs between them. The Swanzy lineup  
was: Robear, first base; Gunville, lineup  
stop; Lindberg, left field; Duncan, sec-  
ond base; Main pitcher; Olson, right  
field; Barry, third base; Kidder, catcher  
and Francis, center field. The Ishpeming  
lineup was made up of Barber and  
Sterling, pitchers; McCure, third base;  
Krubel, short stop; St. Clair, left field;  
Brewer, center field; Archibald, right  
field; Chemneau, catcher.

### PRICES GOING UP.

Lead and Zinc Market Stronger Than at  
Any Time in Some Months.

Marquette county men interested in  
lead and zinc properties will be glad to  
know that a satisfactory schedule of  
zinc has been agreed to by members of  
the United States senate. All crude  
ores bearing zinc in excess of 25 per  
cent will be dutiable to the extent of  
one cent per pound. This duty will be  
sufficiently heavy to keep out such zinc  
ore that would otherwise find its way  
into this country, for the reason that it  
will cost as much to import low grade  
ores as those running high in zinc con-  
tents, and the smelter owners prefer to  
pay freight on the higher grades, from  
which the recovery of zinc is sufficient  
to pay for smelting and handling.

The position of both the zinc and lead  
markets are satisfactory to the mine  
owners in this country. Last week sell-  
ing price reached at \$5.35 per 100, the highest  
price reached in many months. It is  
now thought that zinc ore of 60 per  
cent grade will sell at \$4.50 per ton this  
week, while lead ore will bring from  
\$58 to \$60. The demand for both lead  
and zinc has increased fully 25 per cent  
during the past few months, while the  
output of the mines of this country have  
not increased at a proportionate rate.

### MAY PLAY HERE SATURDAY.

The management of the Munising base-  
ball team has asked the Ishpeming man-  
agement to play off the postponed game  
here next Saturday. As the Munising  
team is to play in Negaunee Thursday,  
the management believes it will be cheap-  
er for it to stay over until Sunday night,  
if the postponed game can be arranged  
for Saturday than to return home. In-  
asmuch as the game with Negaunee last  
Saturday was well patronized, it is likely  
that the management will decide to  
take on Munising for the two days. The  
members of both the Ishpeming and Ne-  
gaunee teams were much pleased with  
the condition of the diamond, on which  
several inches of dirt were spread and  
rolled prior to Saturday's contest. The  
management now plans on fixing the left  
field, in which there is a sand hole.

The delicious flavor of "Salada" Tea  
will please you. Try your grocer's or  
Black, Mixed or Green. Try a package.

### EXERCISES THIS AFTERNOON.

The closing exercises of the Convent  
school will be held this afternoon, com-  
mencing at 2 o'clock, at the Ishpeming  
theater. Miss Agnes Meek is the only  
member of the graduating class. Besides  
a musical and literary entertainment,  
also a play in which fifty or more of  
the children will take part, Miss Meek  
will deliver an essay entitled "The End  
Crowns the Work." Several of the mus-  
ical numbers will be of a patriotic  
nature and some pretty drills will be  
shown. Two of the children of the school  
are to receive medals from the local  
division of the Ancient Order of Hi-  
bernians for the best essay on "Irish His-  
tory." The medals will be presented at  
the conclusion of the entertainment by  
Thomas J. Dundon.

Colds that hang on weaken the constitu-  
tion and develop into consumption.  
Foley's Honey and Tar cures persistent  
coughs that refuse to yield to other  
treatment. Do not experiment with un-  
tried remedies as delay may result in  
your cold settling on your lungs. Sold  
by all Druggists.

### CHILDREN WHO ARE SICKLY

Mothers who value their own comfort and  
the welfare of their children, should never  
be without a box of Mother Gray's Sweet  
Powders for Children, for use throughout  
the season. They Break up Colds, Cure  
Feverishness, Constipation, Teething Disor-  
ders, Headaches, and all the troubles of  
infancy. THESE POWDERS NEVER FAIL. Sold by  
all Drug Stores, 25c. Don't accept any sub-  
stitutes. Trial packages will be sent FREE  
to any mother who will address Allen S.  
Olmsted, Le Roy, N. Y.

### THE MINERS' NATIONAL BANK

W. H. JOHNSON, A. MAITLAND, F. BRAASTAD, Pres., A. B. MINER, Cashier,  
H. O. YOUNG, JAMES CLANCEY, M. O. YOUNG, Vice Pres. O. G. AAS, Ass't Cashier,  
DR. JOS. VANDEVENTER, M. M. DUNCAN. GEO. HATHAWAY, 2nd Ass't Cashier.]

NEW ORCHESTRA LEADER.  
C. A. Gillman of Racine, Wis., who  
is said to be an efficient orchestra and  
band leader, is to locate in Ishpeming,  
and will direct the local orchestra. He  
is expected here July 1 and will probably  
be accompanied by his family. Mr. Gill-  
man plays violin, cornet, flute and sax-  
ophone, doing solo work on all of them.  
The Locher orchestra has been getting a  
large share of the dances and other work  
in the city for some weeks past and with  
a new leader it will be prepared to fur-  
nish high class music for all occasions.  
It is expected that Mr. Gillman will play  
with one of the local bands.

FROM MORGAN'S CURB LETTER.  
"Early trading in copper shares  
showed some improvement in such in-  
dustries as Butte Coalition, Copper Range,  
Nevada Consolidated and Sault Ste. Marie.  
Advance did not hold long, as New York  
again turned weak, and the selling in  
that quarter continued throughout the  
balance of the session. New low records  
for this movement were made in the  
rails and industrials, and as one au-  
thority puts it, this condition must ab-  
sist until more is known as to the out-  
come of the growing corn crop. It looks  
like a trading market in coppers for the  
immediate present, but we believe  
the big money is to be made on the long  
side. The metal in London gained five  
shillings for the day, but reports from  
London indicate that active dealers in  
the metal there are very skeptical re-  
garding the maintenance of the present  
price of copper, and some of our mer-  
chants, whose interest it is to have low-  
er prices for the metal, are inclined to  
see the lower view. As against these  
opinions, two competent authorities are  
inclined to look upon the consumption  
of copper as a quantity gaining more  
rapidly than production, actual consump-  
tion running at the present time approx-  
imately 30 per cent of production, with  
consumption gaining more rapidly than pro-  
duction. With these conditions holding,  
advanced prices for the metal most natu-  
rally result. One producer figures that  
consumption in this country is getting  
very near to what it was in 1906, and  
that consumption of the next two years  
will establish a new high record. Lake  
and North Lake are arranging to be-  
gin diamond drill work jointly, each  
bearing half of the expense, near the  
boundary which separates their prop-  
erties. The result of such an undertak-  
ing would be the locating of the Lake  
Lake northward from the Lake mine,  
and southward from the North Lake's  
present diamond drill work. The pro-  
posed point of attack will be about 4,500  
feet north of the Lake shaft. Chief  
Consolidated shaft is now down about  
1,500 feet, and will be continued to the  
1,800-foot level. Development work is  
now going on at the 1,000-foot and 1,100-  
foot levels, and will be extended to the  
1,000 and 1,800-foot levels. It is the  
policy of the management to confine pro-  
duction to the ores that will be encoun-  
tered in the course of development work.  
Considerable has already been taken out,  
and they are in a position to begin ship-  
ments immediately. Earnings from the  
present production are believed to be  
entirely sufficient to meet running ex-  
penses, which will total approximately  
\$2,500 a month. The company has in  
180 treasury, besides 250,000 shares of  
Chief Consolidated, about \$200,000 in  
cash. The stock looks very attractive to  
us at the present price. Rapid progress  
is being made at the Cactus property,  
and the new machinery it is expected will  
be in position inside of two weeks. Drifts  
are being driven at the 300, 400 and 500-  
foot levels. On the third level they have  
gone through fifty feet of ore, and are  
still in it, averaging 2 1/2 per cent.  
The Cordova shaft on the Eureka prop-  
erty is going down at the rate of 100  
feet a month, having already attained a  
depth of 100 feet. The ore body, it is  
expected, will be reached at a depth of  
not over 300 feet. Good results are be-  
ing obtained in the 12th level of the Gem  
shaft on this property, some of the ore  
averaging 7 per cent.

Yesterday's prevailing prices were:

### ISHPEMING IN BRIEF.

Mrs. John Kernode is to visit friends  
in the lower peninsula for the next three  
weeks.

Ernest Kalm and wife are now settled  
in their new home, 812 North Third  
street.

H. T. Schmidt, president of the Cable  
Piano company, is here from Detroit for  
a few days.

Miss Stella Skud has gone to Detroit  
and Bay City on a three weeks' visit  
to friends.

Madam Cornish is conducting a demon-  
stration of Rese-zalla cream this week  
at F. Braastad & Co.'s store.

The Misses Josephine and Ruth Warn-  
berg left last night for Minneapolis,  
where the latter will attend the univer-  
sity.

George Hayden arrived home yester-  
day from Cornell University, his brother  
Elzie having preceded him several days  
ago.

The merchants of the city have decid-  
ed to close their stores Thursday  
morning at 9 o'clock, remaining closed the  
balance of the day.

Miss Kate Redmond has returned from  
Butte, Mont., where she is teaching  
school, and will spend the summer vaca-  
tion with her father and other relatives.

Miss Addie Van Brocklin, Henry Har-  
wood's chief assistant in his store here,  
is enjoying a well deserved vacation,  
which she is spending with relatives in  
Hamilton Ont.

C. J. Byrns will leave this week for  
Colorado Springs, Colo., where he will  
spend a few days at the Woodmen's  
sanitarium. He is chairman of the sanita-  
rium building committee.

The sale of work by the ladies of  
Calvary Baptist church at the Church  
parlors today will comprise a list of use-  
ful and attractive articles, which will  
be sold at reasonable prices.

Miss Ella Johnson is home from the  
University of Chicago, where she is a  
student, to spend her summer vacation  
with her parents, Mr. and Mrs. Charles  
Johnson, of North Third street.

The Bank street alley and billiard  
pool hall closed yesterday for the sum-  
mer and will reopen about Oct. 1. Leo  
Schilling won the bowling ball in the  
individual tournament, started some  
time ago. His total in ten games was  
1,735. There were nearly twenty con-  
testants.

Sergeant C. L. Proal of the Michigan  
National Guard arrived here last evening  
from Lansing to assist Captain Lud-  
low in preparing the state property in  
possession of Company I for shipment. It  
is likely that the sergeant will re-  
main here until a week from today, when  
the company is to be mustered out.

W. F. Tobin, agent of the Chicago &  
Northwestern and American Express  
companies, at Republic, who is well  
known in Ishpeming, will today be mar-  
ried to Miss Gertrude Stinger at Green  
Bay, where the bride has lived for some  
years. After a wedding trip of ten days  
or two weeks, Mr. and Mrs. Tobin will  
return to Republic.

Rev. A. Savola, pastor of the Finnish  
Lutheran church here; Alex. Panti and  
Matt Maki have returned from Eveleth,  
Minn., where they attended the annual  
convention of the Finnish Evangelical  
Lutheran church of America. K. A.  
Rioma, the local pulp manufacturer, was  
re-elected a director of the Finnish col-  
lege at the Eveleth meeting.

Professor J. H. Hultman and son Paul  
will give a sacred concert at the Mis-  
sion church Sunday evening, the 27th,  
commencing at 7 o'clock. Rev. Hultman  
is a fine baritone singer and is well  
known to the Scandinavian people of this  
country, as well as in Sweden and Nor-  
way. His son, who is a graduate of  
Harvard University, is said to be a very  
clever piano player.

Thomas Francis arrived home Sunday  
accompanied by his son, Percy, who last  
week completed his four year course at  
the University of Chicago. Percy had  
the A. B. degree conferred upon him  
and left the school with an excellent  
record. He won the scholarship at the  
Ishpeming High school four years ago,  
and was also valedictorian of his class.  
He will take a course at the Michigan  
Marquette, Mich.; City Drug Store, Ish-  
peming, Mich.

### 500 page Book and Stable Chart to hang up mailed free.

HUMPHREYS' HOME MEDICINE CO. Corner  
William and Ann Streets, New York.

While in Chicago, Mr. Francis, who has  
composed a number of songs, left com-  
positions of about a dozen new ones with  
publishers.

George Meedy, a former resident of  
the National, now living at Douglas,  
Ariz., and Miss Minnie Carlew were  
united in marriage Saturday evening at  
7:30 o'clock at the home of the bride's  
parents at the National location. The  
parents at the National location, Frank  
Moody, and Miss Nellie Hooper, were  
bridesmaid, Rev. Adamson, pastor of  
the National Methodist church, per-  
formed the ceremony.

Gene Sullivan, who formerly led an  
orchestra in Marquette, is leading the  
orchestra with the Yankee Doodle Stock  
company this week at Ishpeming the-  
ater, having joined the troupe last week  
at Escanaba. Among the members of  
the orchestra are Carl and Frank Tolin,  
also of Escanaba. Besides playing in  
the orchestra, the latter do some clever  
musical specialties and their work last  
week was favorably received.

### ECZEMA LODGES IN THE SKIN.

Not a Blood Disease—Cured by Oil of  
Wintergreen Compound.

For many years eczema was supposed  
to be a blood disease and was erroneously  
treated as such, but now the best au-  
thorities agree that Eczema is only a  
skin disease and must be cured through  
the skin. The eminent skin specialist,  
Dr. D. D. Dennis, first discovered the  
eczema germ and his discovery was  
quickly taken up in both Germany and  
France.

To kill the eczema germ and at the  
same time heal the skin, Dr. Dennis  
compounded oil of wintergreen, thymol,  
glycerine, etc. The remedy is a liquid,  
not a mere salve, hence it sinks right  
into the pores of the skin. Washing  
with this oil of wintergreen compound  
serves to take the itch away at once;  
soon the scales drop away and the dis-  
ease disappears. The prescription has  
now been used so long as to have proved  
its absolute merit and we do not hesitate  
to express our confidence in Dr. D. D.  
Dennis. The Stiffness Drug Co.,  
Marquette, Mich.; City Drug Store, Ish-  
peming, Mich.

### A WORD FOR WATERWAYS.

#### Washington Thinks Engineers Have Taken a Narrow View.

#### Authorities Say That No River in the Country Would Stand the Test by Which the Lakes-to-Gulf Project Was Measured—Improvement of the Tributary Streams is Necessary to Attract Commerce to the Mississippi—Germany, in the Construction of Canals, Has Considered River System of the Whole Country.

Washington, June 21.—The recent report of the war department engineers holding that the Lakes-to-the-Gulf waterway project is feasible, but refraining from endorsing the proposed improvement on the ground that it is not warranted by present or prospective commerce on the Mississippi river is likely to be sharply attacked both outside the congress and within the legislative body. The point is being made by the development of the inland waterways of the country, and later, the construction of artificial waterways, are to depend on the view taken by the engineers in this report, the general movement for the development of an inland waterways system must fall.

Competent authorities assert that there is not a river in the United States that would stand the test by which the Lakes-to-the-Gulf project was measured; there is not a river whose present commerce would warrant the expenditure of a large sum of money in improving it, and there is not a stream whose prospective commerce, considered alone, would warrant such an outlay as would be necessary to make it a safe highway for commerce. The army engineers, critics assert, have fallen to the consideration of the fact that no river is likely to attract a great deal of commerce until the streams tributary to it have been improved, and possibly not until lateral canals have been constructed. It is pointed out that the commerce that once existed on the Mississippi river has been driven off that stream by the railroads, which have paralleled the river with tracks and have obtained such complete control of the situation in general that they are able to control river rates.

### Waterways Versus Railroads.

At the proper time the organizations that are behind the Lakes-to-the-Gulf project hope to show that that waterway were built, and later the tributaries to the Mississippi river were improved, and the federal government by proper legislation protected water rates from railroad rates, the commerce of the Central West would turn to the waterways in enormous volume. The critics on which the report of the engineers on this project and other proposed improvements have been turned down are the same—that the adverse recommendation is based solely on the answer to the question, "Would the investment pay in dollars and cents as soon as the improvement was completed?" The engineers, it is asserted, should have taken a broader view; they should have considered the improvement of the Mississippi as a part only of a great system of inland waterways, each section depending for success financially and industrially on the whole.

### Welliver on German Canals.

Germany, it is pointed out, did not in laying the foundation for a great system of inland waterways, ask whether there was commerce enough, present or prospective, on a single stream, to warrant its being improved. The river system of the country was considered as a whole. J. C. Welliver, formerly of Iowa, who went abroad eighteen months ago, commissioned by the department of commerce and labor to study the transportation systems of the countries of Europe, has recently made a report on the German waterways system in which he tells some interesting things.

"The German canal system," Mr. Welliver says, "is based on utilization of the great rivers, their improvement and connection by a system of canals. The greatest of German rivers, the Rhine, has its mouth in Dutch territory, but this does not prevent the Germans from making the most of its splendid adaptability to navigation. Farther east is the Weser, which though not so great as the Rhine or the Elbe, has been made navigable throughout most of its length. The Elbe and Oder, still farther east, have been developed by expenditure of immense sums and now carry a tonnage which is not only tremendous, but constantly increasing. Still farther east is the great Vistula, or Weichsel river, most of whose length is in Poland, but whose most useful reach for navigation is the lower 150 miles in Prussia.

"In general these streams flow north—the Rhine, Weser and Elbe into the North Sea, the Oder and Vistula into the Baltic. The Rhine being of such importance to German interests, it was early desired to secure a connection within German territory by which to reach the Rhine from a German port. Accordingly the Dortmund-Ems canal was projected, connecting with the Rhine not far from the Dutch border and following a northwesterly course, reaching the North Sea at Emden. The connection of this canal with the Rhine will

make it possible to bring traffic into Germany without passing through foreign territory, and to carry it up to the great industrial regions of which the Rhine is the artery. This canal, being built for use in connection with the Rhine, is deep and wide enough to take barges of about eight feet draft.

"At Bevern, half-way between the two termini of the Dortmund-Ems canal, starts the connecting waterway. It runs almost due east to Hanover, and thence to Berlin. It connects the navigable waters of the Rhine through the Dortmund-Ems canal, the Weser, the Havel, the Spree, the Oder, the Warthe, and finally the Vistula. In part this great east-and-west water course is composed of streams upon which great amounts have been spent, and in parts of canals linking the streams. Altogether this inland trunk line is to be about six hundred miles long when completed. It intersects almost all the great navigable streams of Germany and is the center of the system of waterways. Physical conditions have made it impossible to secure uniformity throughout this great distance. Nevertheless, the aim has been to approach this as nearly as possible. Not all the sections are yet complete."

Including rivers, canalized rivers and canals, in use or soon to be opened, the waterways mileage of the empire is nearly ten thousand miles. Rather more than half is of free rivers; that is, streams which, while improved in many respects, have not required to be canalized. Of the remainder, canalized rivers and canals are about equal in mileage. Speaking of what has happened in Germany since its waterways system was established, Mr. Welliver says: "The tonnage of barges has increased and the expense of transportation has been reduced. Taking the fleet on the German Rhine, for example, the official figures are that in 1887 there were 275 steamers, aggregating 17,000 tons. By 1897 the number of steamers has increased to 418 and their tonnage to 29,000; in 1904 there were 586 steamers and the tonnage showed a still further considerable increase. But the showing of the barge fleet in both numbers and tonnage is much more significant.

"In 1887 there were 2731 barges of 370,000 tons. In the next ten years, although there was increase of only about five hundred in the number of barges, the gross tonnage had more than doubled; in other words, the average tonnage per barge on the Rhine had just about doubled in this period. The increase is due to the improvements of the Rhine and its tributaries—particularly the Main and the Neckar. At present there are probably 12,000 boats and barges on the Rhine, including the German, Dutch and Belgian fleets, and in capacity they go as high as 2,400 tons, drawing about nine feet of water. Barges of over 2,000 tons ascend the Rhine as far as Mannheim, and in favorable seasons even beyond. When the great east-and-west canal is completed, which probably will not be for some years yet, it will accommodate barges of 600 tons throughout."

### How the Teutons Look Ahead.

Mr. Welliver says it would be hard business to expend millions building waterways in the United States unless they are to be protected against assaults of unrestricted railroad competition. Says he: "Opponents of the economic policy of waterway development, believing water cannot ultimately compete with the railroads, frequently point to the decadence of traffic along the Ohio river in the face of the fact that much money has been spent in improving that stream. The facts support the contention that the great Ohio seems to have been unable to compete satisfactorily against the railroads. But in no great European country, where state control of such matters is more firm than here, would competition have been allowed to ruin the traffic on a great artery like the Ohio. The state would maintain that instead of building railroads to handle traffic which could as well be moved by river, it would better leave this traffic and spend its money building railroads in regions where it was impossible to furnish any but rail transportation. German or French policy would never have permitted the Ohio, the Mississippi, the Missouri, to fall into commercial decadence. If these had been German possessions, for instance, they would long ago have developed almost unlimited carrying possibilities, and would today be doing for this country what the Elbe, the Oder, the Weser, the Rhine and others are doing for Germany. They would be preventing car families and insuring against the paralysis of trade which follows when transportation facilities become inadequate.

### American Development One-Sided.

"European students of transportation wonder that the United States should have permitted so one-sided a development of its transportation system. They point out that, with perhaps the exception of China, no other country has such a magnificent river system as the United States, or so great possibilities of its effective utilization. Nowhere else is there so large a proportion of freight which can be moved most advantageously by water. In another place it has been suggested that if the German Empire controlled the world's supply of a great staple, as the United States controls cotton, German economic policy would busy itself to bring about the manufacture of a vastly greater proportion of that raw material in Germany. And,

similarly, if Germany, France or Austria possessed such a river system as that of the United States, with possibilities of being joined to a lake system such as ours, they would long ago have been made the basis of a vast and busy transportation system.

"One consideration which has been kept in mind in European development of water transport is that when a great water route is once opened its capacity for freight movement is almost unlimited. The possibility of traffic movement on a single-line railroad is definitely limited. When that capacity is reached the road must be double-tracked. On the other hand, a great waterway can move increasing amounts of freight to an almost indefinite degree with merely the provision of additional boats and barges. So the policy of Germany and France in recent years has been to make important internal waterways as large as practical, bringing in small canals even supposed to be ample for all the traffic likely to be offered them; but with the development of commerce and industry they proved too small. They have been rebuilt, shortened, channels deepened and widened, the number of locks reduced, and their capacity increased. The scheme of construction looked to the future. If these great investments in waterways had not been made it would now be necessary either to make much greater investments in railroads or else to suffer industrial stagnation. As it is, the great water routes can carry an indefinite increase of traffic, with no further investment than the provision of more boats.

"In continental countries the internal waterways system is based almost entirely on the rivers. There are no lakes of consequence. Canals are used to connect the rivers, but not generally to provide independent routes. The rivers of the north of Germany are being linked up in this fashion by canals, and this northern system is connected with those of the Russian and the south German systems.

"The Rhine, of course, is of the first importance among German waterways and great sums have been expended upon it. In the improvement of the river, various methods have been adopted, according to the requirements. Conservation of the water supply, the narrowing and deepening of channels, reclamation of large areas of bottom lands by the construction of works to prevent floods, provision of locks to overcome strong currents and various other improvements have been carried out."

### COLLEGE COURTESY.

#### A Cornell Publication's Rebuke to a Baseball Player of Its Own Team.

In the Cornell Alumni News recently appeared a statement regarding the conduct of college baseball players on the field based on certain happenings in the Harvard-Cornell game. One of the pleasantest things of the whole season, says the Cornell publication "was the good feeling between the two teams that was evident in the Harvard game. After Captain Caldwell had taken Howes' place in the box the Harvard players, knowing that both Caldwell and Paul Williams, the catcher, were suffering from sprained ankles, did not attempt to bunt the ball. Anyone who knows anything of baseball knows that with a crippled pitcher and catcher a bunted ball is almost sure to be good for a base. Some college teams would have been general to take advantage of such knowledge.

"If courtesy like that shown by the Harvard players in this instance is not recognized part of intercollegiate sport it ought to be. The conduct of the Harvard men in the field was a pattern for us to copy. They were suffering from sprained ankles, did not attempt to bunt the ball. Anyone who knows anything of baseball knows that with a crippled pitcher and catcher a bunted ball is almost sure to be good for a base. Some college teams would have been general to take advantage of such knowledge.

### MEN PAST FIFTY IN DANGER.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble. Several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him and after taking the second bottle he was no longer troubled with this complaint." Sold by all Druggists.

## Negaunee Department

### SHIPMENTS WILL BE MORE THAN EXPECTED

#### NOW THOUGHT PROBABLE THAT 35,000,000 TONS OF ORE WILL BE SENT FORWARD FROM LAKE SUPERIOR REGION DURING THE PRESENT YEAR.

In view of the steadily improving conditions in the iron trade, it is now believed that considerably more ore will be forwarded from the Lake Superior district this season than was predicted at the opening of the year. Reports from the eastern markets indicate that sales during the past few weeks have been much larger than was expected, and it is believed that the amount of ore being increased. Mining men now believe that the earlier estimates of 30,000,000 tons as the season's output will be considerably increased. The mines are shipping heavier now than at any other time this season.

It is now thought that the shipments from the several Lake Superior ranges will approach 35,000,000 tons. Last year the tonnage aggregated 26,000,000. Only in three seasons have the Lake Superior iron ranges sent out more than 30,000,000 tons. The year 1907 was the banner year, the total shipments having aggregated 42,000,000 tons. The previous year, 38,500,000 tons went forward and in 1905 did the tonnage exceed 28,000,000 tons.

It will be an easy matter for the miner to get out all of the ore likely to be called for this season as the facilities for shipping have never been better. The mines would probably have no great difficulty in providing 50,000,000 tons, should it be required, but the question is that much ore could be handled at the lower lake ports. A portion of the lake fleet is still tied up on account of the marine strike, but the movement of the product from the mines has not been affected to any extent. The number of boats in commission is increasing daily, and so far this season over 5,000,000 tons have been carried down the lakes without forcing matters. With almost six months of the shipping season remaining there is ample time for the greatest production of ore in the history of the Lake Superior regions. Some mining men predict that close to 50,000,000 tons will be sent out.

### STEEL STOCK SALES.

#### Employees Who Bought Shares a Few Years Ago Are Away Ahead.

A table recently prepared in the main office of the United States Steel corporation, showing the amount of stock subscribed for by its employees at the different offerings in recent years, contains some interesting figures. The summary on which the statement is prepared is that the employees have a possible profit of the difference between the total purchase price and the present fair value of the shares. It is to be considered, however, that considerable sales of company stocks have been made from time to time in the past six years. The table shows the amount of stock subscribed for by employees each year since the profit sharing plan became operative, the price paid and the cost.

Year	Shares of preferred taken	Total cost	Present fair value
1907	102,000	27,032	2,757,264
1908	110,000	18,000	\$1,580,000
1908	87,500	25,000	2,187,500
1907	102,000	27,032	2,757,264
1905	100,000	23,980	2,298,000
1904	87,500	17,978	1,572,638
1904	57,000	32,516	1,788,280
1903	82,500	48,983	3,041,098
Totals	802	193,493	\$16,725,780
Common stock			
1907	50,000	15,318	\$765,780
Total			\$17,491,680
Present market value			24,138,240

### BRIGHT'S DISEASE

Let there be no evasion—we mean chronic and supposed incurable cases involving dropsy, albumen in the urine, etc. They are curable in a great majority of all cases.

Let us cite a typical case—that of Mr. R. F. Nitschke, of 1246 Spaight street, Madison, Wis. There had been eight previous attacks on this case and it got so bad that he finally had one of the last symptoms; namely, falling eye-sight. In January, 1907, the doctors admitted that nothing further could be done, and they sent him to Eureka Springs, Arkansas. He continued to get worse, the dropsy finally reaching the stomach, heart and lungs. At one time tests showed albumen as high as 75 per cent.

He learned of Fulton's Renal Compound and began to take it July 3rd. Dropsy began slowly to decline and the albumen dropped to forty, then to twenty, then to ten, and finally to 2 per cent in May, 1908.

"The patient is now back to his employment and is devoting full time to his business.

### AN OLD RESIDENT.

#### Late Mrs. Daniel Sullivan Lived Here for Forty-Six Years.

Mrs. Daniel Sullivan, whose death was mentioned briefly in yesterday's issue of The Mining Journal, was one of the city's oldest residents, she having located here forty-six years ago. She was a highly respected woman and her death is mourned by many friends and acquaintances.

### CONVENT EXERCISES TODAY.

There was good demand for reserved seats for the entertainments to be given this afternoon and evening by children of the convent school when the sales opened yesterday morning at O'Donoghue's drug store, and the auditorium of the new high school building, where the entertainment is to be held, will be well filled. The program will consist of several musical numbers, also a play, "The Belle of the Forest." The children have been thoroughly trained.

### LOCAL LACONICS.

Mrs. E. Toms is visiting her daughter, Mrs. J. Hocking, at Ironwood.

Clark Kirkpatrick of Escanaba was here yesterday on a business mission.

Wilfred Nejedlo of Green Bay was in the city yesterday, the guest of Harry Lee.

Oscar Jyelo and family left last night for Finland, where they plan to remain permanently. They had resided in Negaunee about five years.

John Beaulieu, the poundmaster, has one cow and one heifer in the pound, which he will sell at public auction Thursday, if the owners do not redeem them before that date.

Sunday was the warmest day of the season. Thermometers registered eighty-eight at 10 o'clock and several degrees higher between 11 and 3 o'clock. At the latter hour a cool breeze began to blow from the west.

The members of the Girls' Guild of St. Paul's church invite their friends to attend their social this afternoon and evening at the church lawn. Ice cream, cake and other refreshments will be served at a nominal price.

Dr. and Mrs. C. F. Cochran, former Negaunee residents have issued invitations for the twenty-fifth anniversary of their marriage, which is to be celebrated on July 2. Several Negaunee people have received invitations. Dr. and Mrs. Cochran are now residing at Edgewater, Colo.

Negaunee fans were not discouraged over the loss of the games to Ishpeming Saturday and Sunday. The playing of the team was satisfactory and a number here are of the opinion that the team would have stood a very good chance of tying the score, or at least of adding another run, in Saturday's game, if the umpiring had been better. In the eighth inning, with two gone, Scanlon, who was on third, came in on Cannon's hit to break the tie. Cannon was thrown out at first, but a great many who saw the play claim that Cannon was safe, as the first baseman had to take his foot off the bag in order to catch the ball.

Perhaps the good die young, but you can't make all the old people believe it.

### GET HIS OMELET.

"I've never tried to be funny with a waiter," the returned traveler was saying. "Since the time when I had a little experience with one in California. It was several years ago, and I was rather 'fresh.' I stepped into a restaurant one morning and ordered an omelet.

"What kind?" the waiter.

"Why, are there more kinds than one?" I said.

"Oh, yes, sir," he answered me, "there are several."

"Well, bring me an ostrich-egg omelet."

"All right, sir," he said, "but you'll have to wait quite a while. It takes a long time to make an ostrich-egg omelet."

"I told him I had plenty of time. He went away, and was gone fully an hour. Then he came back with a big covered dish.

"There you are, sir," he said, placing it before me and uncovering it.

"Well, it was an omelet, all right, and big enough for half a dozen men. Whether there was an ostrich farm in the neighborhood, and he got a real ostrich egg, or whether he made it from a couple of dozen hen's eggs, I don't know, but I distinctly remember that it cost me \$2—and I learned a valuable lesson."

### GOLD MEDAL FLOUR

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

## Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

## Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-forming remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

WIDER SKIRTS COMING.

Experiments are being made with longwaisted, plain, tight-fitting, and pointed waists to which wide skirts are added under a fine cording. The width of these skirts is said to be from three to five and a half yards, or from three and one-half to six yards. Indeed the skirt of one new costume which has made almost as much talk in Paris as the earlier Directorate dress is said to be twelve meters wide (thirteen yards). It is shirred around the hips trimmed at the foot with flounces of pinked silk.

However, none but the professional model as yet is wearing even the four-yard garments, but importers are showing them, and they are, in fact, some of the straws which indicate the changes soon to come. Women, therefore, who are now at work upon a belated summer wardrobe should take advantage of the hint and avoid the extremely narrow skirt in any dress from which a long service is desired.—Harper's Bazar.

### SPECIAL NOTICE

The Darantella Havana Cigar is made under sanitary supervision, and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table, and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality.

Manufactured only by JOHN E. KENNING & CO., Grand Rapids, Mich.

"TWELFTH NIGHT" WELL PRESENTED

NORMAL SCHOOL ACTORS PROVED EQUAL TO PRODUCTION OF SHAKESPEARE'S COMEDY.

ROLES WERE CAPABLY TAKEN

Lines Were Expressively Spoken, and Performance Moved Smoothly Throughout.

Shakespearean comedy was successfully essayed at the opera house last evening when "Twelfth Night" was presented by the senior class of the Northern Normal school.

The plot of "Twelfth Night" is a remarkable one. Sebastian and Viola, twin children of a gentleman of Messina, and remarkable for an exact resemblance of features, being deprived of both their parents, quit their native country; they are encountered at sea by a violent tempest, which destroys the vessel and most of the crew, while Viola, the captain, and a few passengers betake themselves to the boat, which conveys them in safety to the seacoast of Illyria.

Cast Was Capable. The part of Orsino was adequately taken by Haven C. R. Stewart.

The part of Orsino was adequately taken by Haven C. R. Stewart. Although the demands of his part were not so great as others in the cast, he handled the role of persistent lover pressing an unsuccessful suit very creditably.

Sir Toby Belch, the rollicking old uncle of Olivia, who is perhaps chief of the group of comedians, was in the hands of Simon Anderson, who portrayed the half-soused old humorist in a distinctly original and effective manner.

Ernest Roberts, as the court fool, was a decided hit in the part, with his excellent handling of his lines, agility and singing.

Sir Andrew Aguecheek, the companion of Sir Toby, and a suitor of Olivia, was played by H. T. Johnston, who was fully equal to the demands of the part.

The Countess Olivia, the heroine of the comedy, whose hand was much sought for, was well played by Miss June McCall.

NORMAL SCHOOL GRADUATION.

Commencement Exercises to Be Held at Opera House Tonight.

The annual commencement exercises of the Northern State Normal school will be held at the opera house this evening, beginning at 8 o'clock sharp.

Invocation. Dr. Kerr Boyce Tupper. Piano solo, Polonaise. Pawderewski. Miss Yimie Mathews.

Commencement address. Rt. Rev. Charles D. Williams, Bishop of Michigan.

Violin solo, selected. Mrs. Frank Russell. Presentation of diplomas. Piano solo, selected. Miss Marguerite Barnes.

Renunciation. ASSESSMENT ROLL FOR 1909.

Less Personal Property Returned, Causing Decrease in Total Valuation. According to figures just compiled by the city controller, the total valuation of property on which taxes may be levied this year is \$6,729,041, a decrease of \$112,784 from last year's assessment roll.

WILL STAY IN HANCOCK.

Finnish Institution of Learning Not to Be Moved This Year.

One of Hancock's most prominent Finnish residents whose attention had been called to the request of Marquette citizens, that the Suomi college be moved to this city, is quoted as saying that there was no chance of Marquette getting the college.

"Marquette has been asking for the college for about ten years," he said. "All that is ever done in the matter is to hear the request of Marquette. The Finnish college is going to stay right in Hancock. It may not be quite as centrally located as some towns to which it might be moved, but the location is a fine one."

RETAINS VICE PRESIDENCY.

E. J. Sink, of This City, Re-elected Officer of Plumbers' Association.

At the meeting of the Master Plumbers of the Upper Peninsula, held in Calumet last Friday night, E. J. Sink of this city, was re-elected vice president of the organization.

I, William John Symons, of 416 West Crescent street, Marquette, will not be responsible for any debts contracted by my wife, Edith Symons, of the above address.

(Signed) W. J. SYMONS. (6-22-09)

MIDSUMMER DAY JUNE 24.

St. Jean De Baptiste and Swedish Societies.

The D. S. S. & A. R. Y. will sell excursion tickets to Negaunee and Ishpeming and return at 50 cents the round trip for all day trains June 24, good to return until C. N. W. train morning of June 25.

M. ADSON, General Passenger Agent. (6-22-09)

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work.

CATHEDRAL SCHOOL TO GIVE OPERETTA

"COUNTESS OF TIVOLI" TO BE PRESENTED AT BARAGA AUDITORIUM TOMORROW EVENING.

An operetta entitled "Countess of Tivoli" will be presented at Baraga auditorium tomorrow evening by a cast made up of pupils in the intermediate grades of the Cathedral school.

A duchess living in Tivoli, a beautiful city near Tyrol, receives an invitation to the wedding of the Queen of Holland, and leaves her little daughter in the care of the castle attendants, who assure her the little maid will have their best attention during her absence.

Puck executes his commission. The old lady finds Elmore, and delighted with the pretty child hastens to her home.

Palace attendants search for her everywhere in vain, and when the duchess returns, grieves almost to death at the loss of her only child.

Elmore now sixteen, helps the old couple pick berries and herbs at Elmore in the market place.

The duchess visiting the market place is attracted by her beautiful voice, approaches Elmore and asks her name, and where she lives.

Act I—Attendants' Festivities in the Absence of Duchess. Scene I—Palace Hall. Act II—Fairies. Scene I—Fairy Grove and Woods. Act III—Duchess Recovers Elmore. Scene I—Market Place. Scene II—Reception Room.

School Orchestra; accompanist, Florence Ardelman. —Persons Represented— Elmore, Countess of Tivoli. Marie Bureau, Marie Stiekney. Duchess of Tivoli, her mother. Alice Little. Helena, Elmore's nurse. Norine Turner. Merilda, matron of the palace.
