

RAIN BRINGS RELIEF TO NEW YORK CITY

Heat Spell Which Has Caused Intense Suffering Is Now Believed to Have Terminated, After Having Resulted in Many Deaths.

Chicago, However, Is Sweltering in a Temperature Held Responsible for Ten Fatalities and Numerous Prostrations, While in Colorado the Weather Is the Hottest Experienced in a Decade and Two Wrecks Occur, Due to Sun-Twisted Rails.

Intense Suffering at Chicago. Chicago, June 28.—Ten deaths superinduced by the excessive heat were reported to the police today.

Heat Twists Rails in Colorado. Denver, June 28.—Two trains in Colorado met with accidents yesterday as a result, apparently, of intense heat which is believed to have twisted the rails.

Old Sol Kills Two in Indiana. Indianapolis, June 28.—Two deaths and many prostrations resulted from the intense heat in Indiana today.

Nine More Deaths in Philadelphia. Philadelphia, June 28.—Nine more deaths were added to the list of heat victims in this city today.

SAYS HE COULD SHED TEARS. Kaiser Regrets the Recall of American Military Attaché Wiser.

NO RETRENCHMENT IN CUBA. Budget Passed by the House Provides for the Expenditure of \$33,800,000.

OBITUARY MENTION. Berlin, June 28.—Professor Ernest von Halle, political economist, died here today of pleurisy.

KANSAS MINERS QUIT WORK. Pittsburg, Kas., June 28.—All the miners in the north end of the Pittsburg coal field, about six thousand in number, quit work today until a decision is reached in the check-off dispute.

SENATE IS THROUGH WITH LENGTHY TASK

After Seventy Days of Almost Continuous Debate, It Concludes Its Discussion of the Schedules of the Payne-Aldrich Tariff Bill.

An Amendment by Mr. Tillman, Assessing Tea at the Rate of Ten Cents a Pound, Is Still Pending, but This Is Expected to Be Disposed of in Short Order Today, Whereupon the Income Tax and Corporation Tax Propositions Will Be Taken Up.

Washington, June 28.—After seventy days of almost continuous debate, the senate today at 3:45 p. m. concluded the discussion of the schedules of the Payne-Aldrich tariff bill.

House Holds a Very Brief Session. Washington, June 28.—After adopting the conference report on the census bill, the house adjourned at 12:35 o'clock p. m. today until Thursday.

PROVIDES FOR INCOME TAX. Proposed Amendment to the Constitution Is Introduced in the Senate.

WHITE TROOPS AT BROWNSVILLE. Brownsville, Tex., June 28.—It was announced here today that the federal authorities will send two companies of white troops to occupy Fort Brown.

"BLACKHAND" MEN ARRAIGNED. Toledo, O., June 28.—At the conclusion of its preliminary hearing here today, Salvatore and Sebastian Lima and Salvatore Rizzo, all of Marion, members of the alleged blackhand band recently arrested, were bound over to the federal grand jury.

OHIO VILLAGE VOTES "DRY." New London, O., June 28.—The "drys" scored a victory in the local option election today, having a majority of 132.

OSBORN THE CHOICE OF WM. ALDEN SMITH?

Dealing With the Gubernatorial Situation, a Significant Article Published in the Senator's Big Daily Newspaper at Grand Rapids Leads to That Conclusion.

Grand Rapids, Mich., June 28.—Indications that Senator Smith's paper, the Herald, would rather support Chase Osborn, the Sault Ste. Marie gubernatorial candidate, than any Grand Rapids man—excellent though the merits of Mr. Musseyman and Judge Montgomery may be—can be read between the lines in an article that appeared in the Herald Sunday under a Sault Ste. Marie date but which bears every mark of having been written not in Sault Ste. Marie but in Grand Rapids.

Washington, June 28.—After seventy days of almost continuous debate, the senate today at 3:45 p. m. concluded the discussion of the schedules of the Payne-Aldrich tariff bill.

Washington, June 28.—After seventy days of almost continuous debate, the senate today at 3:45 p. m. concluded the discussion of the schedules of the Payne-Aldrich tariff bill.

Washington, June 28.—After seventy days of almost continuous debate, the senate today at 3:45 p. m. concluded the discussion of the schedules of the Payne-Aldrich tariff bill.

ARREST MAY BE NEAR IN ELSIE SIGEL CASE.

Half a Dozen Sleuths Are Sent Post Haste to New Jersey on What Is Said to Be the Best Clue Yet Obtained as to the Whereabouts of Leon Ling.

New York, June 28.—Inspector McCafferty, chief of the New York detective bureau, gave out tonight the first official statement on the murder of Elsie Sigel that has been made by the police since the discovery of the girl's body on June 15th in a trunk in the bedroom of Leon Ling.

The statement contains nothing that has not already been published, except that Chung Sing, Leon's former roommate, was a possible accomplice, and that the only possible ship on which Leon could have fled the country is due to arrive in Yokohama on July 3rd, and that she will be watched.

Chicago, June 28.—Mayor Busse was today authorized by the finance committee of the city council to offer a reward of \$3,000 for information leading to the arrest and conviction of the persons responsible for the damaging explosion of last night.

Chicago, June 28.—The appellate court today reversed the judgment in the circuit court awarding \$100,000 to Dr. L. C. H. Zeigler against the estate of Mrs. Harriet G. McVicker, widow of J. H. McVicker, once a prominent theatrical man in Chicago.

Chicago, June 28.—All Chicago records for June brides will be broken this month, according to a statement made today by the clerk of the marriage license department.

Chicago, June 28.—All Chicago records for June brides will be broken this month, according to a statement made today by the clerk of the marriage license department.

CHICAGO COUNCIL OFFERS A REWARD

\$3,000 Will Be Paid for Information Leading to the Arrest and Conviction of the Men Responsible for Sunday's Explosion.

Chicago, June 28.—The cause of the explosion which last night wrecked the central telephone exchange in the heart of the city, did damage to property estimated to exceed a hundred thousand dollars, inflicted injuries which may be fatal to one man and slightly wounded fourteen other persons, is still unexplained.

Chicago, June 28.—The appellate court today reversed the judgment in the circuit court awarding \$100,000 to Dr. L. C. H. Zeigler against the estate of Mrs. Harriet G. McVicker, widow of J. H. McVicker, once a prominent theatrical man in Chicago.

Chicago, June 28.—All Chicago records for June brides will be broken this month, according to a statement made today by the clerk of the marriage license department.

Chicago, June 28.—All Chicago records for June brides will be broken this month, according to a statement made today by the clerk of the marriage license department.

VERDICT OF JURY IS A COMPROMISE

Decision at the Inquest in the Woodill Case Is That "Eastman Killed the Woman or Was an Accessory to the Murder."

St. Michaels, Md., June 28.—The verdict of the coroner's jury in the Edith Woodill murder case, rendered today, was that "Eastman killed Edith May Thompson Woodill, or was an accessory to the murder." It was a compromise verdict, as four members of the jury refused to sign until the words "or was accessory to the murder" were added.

St. Michaels, Md., June 28.—The verdict of the coroner's jury in the Edith Woodill murder case, rendered today, was that "Eastman killed Edith May Thompson Woodill, or was an accessory to the murder." It was a compromise verdict, as four members of the jury refused to sign until the words "or was accessory to the murder" were added.

Good Bread - The Secret's Out - But Your Grocer has more - WASHBURN-CROSBYS GOLD MEDAL FLOUR THE VERY HIGHEST QUALITY

ACCEPTS CALL AT CHICAGO. Rev. Adolph Kuring, pastor of the German Lutheran church, Laurium, will leave in the near future to take up his church labors in another and larger field.

Mining News FRANKLIN. Gay & Surgis' representative at the Lake says: As has been intimated, Franklin will discontinue all operations on the conglomerate lode within the next few weeks and transfer its energy wholly to the twelfth level.

STOLEN BICYCLE RECOVERED. Stanley Pomeroy, son of E. R. Pomeroy of West Houghton, was in East Houghton the other afternoon, reading his newspaper.

UNDERSERVING BEGGAR SPOTTED. Calumet Charitably Inclined People Have Been Deceived. Calumet charitably inclined people have been deceived and "worked" for many months, it is claimed, by an underserving beggar who comes to town after every monthly payday.

RED JACKET LAWN VERY NEAT. The Red Jacket lawn or "parklet," located just south of the municipal theater and town hall building, has been put into excellent condition and is now one of the beautiful spots in a beautiful town.

PUBLIC SCALE PROPOSED. It is probable that a public scale will be installed at the East Houghton school within a short time. The board of education has decided that as the school is a large consumer of coal the scale is an economical investment, and its installation is now being considered.

HANCOCK'S NAVAL PARADE. John Ruhl, chairman of the illuminated parade committee for Hancock's Fourth of July celebration, reports that he has made satisfactory arrangements with Captain Syd. Scott of the J. A. Davis to have that vessel head the parade.

HEAD OF PYTHIAN SISTERS. Mrs. Forchenta Bond of Three Rivers, grand worthy chief of the Pythian Sisters of Michigan, was injured Sunday by being thrown from a carriage in East Houghton.

BUSINESSMEN'S ASSOCIATION. Houghton and Hancock Merchants Will Meet Tonight in Hancock. A meeting of the Houghton and Hancock businessmen's association is to be held in the Hancock city hall tonight, and all members and all merchants who are not yet members are asked to be present.

SEALED PROPOSALS. To whom it may concern. Notice is hereby given, that sealed proposals will be received at his office in Sidsaw, Houghton county, Michigan, for the township of Duncan, Houghton county, Mich., until 12 o'clock, noon, June 23rd, 1909, for furnishing the cement and laying about 8,000 feet of sidewalk, more or less, in the village of Sidsaw, Mich., Duncan township, Houghton county, according to plans and specifications referring, in my office at Sidsaw, Mich., which will be open to inspection until the time above mentioned, on which day and the aforesaid place, I will contract therefor for the same, reserving the right to accept or reject any and all bids, contracting parties to give good and sufficient security for the performance of said work.

HAVEN C. STEWART, Town Clerk. On account of the incompleteness of the specifications, the bids as per above proposals will not be opened until 12 o'clock, noon, June 30th, 1909.

HAVEN C. STEWART, Town Clerk. (6-23-29)

The Tenderfoot Farmer - It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

Independence Day Suggestions - You will no doubt desire to celebrate the Fourth of July in a patriotic way. Start now to win your Financial Independence. You will find an account with the Citizens National Bank a very substantial aid.

PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS. BRANCH OFFICES: Marquette, Houghton, Milwaukee, Duluth, Butte, Great Falls. Direct Private Wires to All Markets. Curb Stocks Given Special Attention.

WASHINGTON CHAT. Secretary Nagel is an Art Critic, Though He Keeps it Dark. Washington, June 27.—The portrait in oil of former Secretary of Commerce and Labor Metcalf, which one time adorned the walls of the office of the secretary of that department, on the third floor of the rented building it occupies in Washington, now adorns the walls no more.

NOTES OF COPPER NEWS. The semi-annual dividend on Mohawk is now two weeks past due. A year ago the company declared a dividend of \$2.50, this amount being coming on June 6. Last January the dividend announcement was \$2.00 per share. Stockholders are beginning to wonder whether or not the directors feel warranted in making a disbursement this period.

For Students of Supreme Court. H. H. Meyer, chief bibliographer of the Library of Congress, has compiled a list of words relating to the Supreme Court of the United States, which is very timely in view of the fact that congress may cut out for this great tribunal before adjournment. The list, which is in four sections, does not attempt the completeness of a bibliography.

Taft's Position Misstated. Nation's Executive Has Not Endorsed Free Ships. Washington, June 28.—President Taft's endorsement of the principle of the ocean mail subsidy, made at the dinner of the Merchant Marine League in Washington, taken in connection with the introduction by Representative Humphrey of Washington of a new ocean mail bill, has its misleading features.

Humphrey Bill May Hasten Subsidy Legislation, but Senator Gallinger's Measure is the One Really Favored by the Advocates of the System—The New House Plan Merely the Enterprise of Its Author. Washington, June 28.—President Taft's endorsement of the principle of the ocean mail subsidy, made at the dinner of the Merchant Marine League in Washington, taken in connection with the introduction by Representative Humphrey of Washington of a new ocean mail bill, has its misleading features.

Local Fares and Pullman Berths. It is well to know just what to expect when you board a Pullman car and demand a berth on the strength of a ticket that does not fit the run. The Interstate Commerce Commission, has just decided a complaint in which a man, desiring to travel from New Castle, Pa., to New York city, demanded a Pullman berth on presentation of a local ticket from New Castle to Pittsburgh and a mileage from Pittsburgh to New York.

Senator Cummings of Iowa, one of the big "antimachine" leaders of the Senate, and a man who is bound to come to the front strongly in national affairs during the next few years, is a homely son of the people. His speech abounds in metaphor of the soil; he makes use when talking of commonplace of every day life to illustrate his points. Not long ago he gave an example of how his memory of early days still serves him.

College professors, in a way, are maudlin of the mind. Everyone would be benefited by taking Foley's Orino Laxative for constipation, stomach and liver trouble, as it sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? Sold by all Druggists.

Gallinger's is Real Bill. It may be that this move of Mr. Humphrey will operate favorably for ultimate legislation. The bill really favored by the organized advocates of ship subsidy is that introduced by Senator Gallinger last March. This was a relatively simple proposition, and proposed only that the rate of 84 per cent now paid to the ships of the first class running on routes to South America, the Philippines, Japan, China and Australasia, upon outward voyages all not less than 4,000 miles, be extended to second class. It does not increase the rates to the

State of Ohio, City of Toledo, Lucas County—ss. Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, Ohio, and that he is the owner and proprietor of the same. He has signed and sworn to before me and subscribed in my presence this 28th day of December, A. D. 1909.

Notary Public. F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

Hall's Catarrh Cure is taken internally, acts directly on the blood and mucous surfaces of the system. Send for testimonials free. F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

Our Ice Cream Is the Richest and Best in the County.

We make it ourselves. Use cream, sugar and vanilla. Make the vanilla, too; so we know it's pure. A test shows 17 per cent butter fat. Try other brands and see if they run as great. We take pride in our Ice Cream. It has made our Soda business run far ahead of what we considered possible a few years ago, and it is still jumping, too. Try any drink at our fountain and you will find it good, and when it's good it's all right.

City Brevities

Today's weather: Partly cloudy with probably showers; stationary temperature.

Yesterday's temperatures: Seven a. m., 54 degrees; noon, 63; 7 p. m., 59. Maximum, 65 degrees; minimum, 54.

Isaac Monroe, of Crystal Falls, spent yesterday in the city.

F. W. Youngs, of Iron River, was a visitor in the city yesterday.

Miss Mary Taylor has returned from a ten days' visit in the copper country.

Miss Margaret Feeley, of Champion, left for Houghton on the steamer Japan last evening.

Mr. and Mrs. M. E. Aire have returned after spending two weeks in Minneapolis.

Miss Jennie Spencer and aunt, Mrs. S. A. Lowe, left last evening for Seattle to visit the exposition.

A special meeting of the Swedish Crown society will be held at Keough's Hall at 8 o'clock Wednesday evening.

There will be a business meeting of the Young Woman's Guild at 3 o'clock this afternoon in the Guild Hall. A large attendance is requested.

Joseph Doneker, who has been visiting friends and relatives here the past few days, left yesterday morning for Channing, where he is employed.

The meeting of the police commission, which was to have been held last evening, was postponed until tonight, owing to the absence of Mayor Vaughan from the city.

W. L. Burrows, treasurer of the Michigan State Telephone company, returned to Detroit yesterday, after spending a few days at Stewart's camp with K. S. Baker and family.

Albert Rodgers and Mrs. Annie Uppgard, of Lawson, were married by Justice Byrne late yesterday afternoon, and left for Duluth last evening, where they may make their home.

Miss Elizabeth Kruse, who has been teaching in one of Calumet's schools the past season, is spending the summer with her father, August Kruse, Miss Kruse has accepted the principalship of the Allouez school for next season.

The members of the streets committee of the council, accompanied by Charles Retalle and J. E. Sherman, visited the bridge across Deauville river at the electric power plant yesterday, for the purpose of making a report as to repairing or rebuilding the structure, which is now in an unsafe condition.

M. B. A. Dancing Party—The Modern Brotherhood of America will give a grand dancing party at Legion Hall tomorrow night, from 9 until 1 o'clock. Music will be furnished by the Peerless orchestra. Everybody is invited to attend and tickets will be sold at twenty-five cents.

Five-Pound Fish—M. R. Manhard returned yesterday from a fishing trip with a five-pound speckled trout, nineteen inches long, which he caught while trolling in Lake Superior near the mouth of the Yellow Dog river. The fish was beautifully marked and a remarkably fine specimen.

At the Ore Docks—The steamer Old cleared for Ashabula with ore from L. S. & I. dock yesterday afternoon. The shipping and Peter White are to load at that dock today. At the South Shore dock, the Prince Rupert, cleared for Duluth, Ont., and the Angelina and War-riner are waiting to load. The Andaste is unloading at the Pickands coal dock.

Sleeper to Chicago—Beginning July 1 the Northwestern road will run a through sleeper from Chicago to Marquette, arriving here at 8:10 a. m., and leaving Marquette for Chicago at 3:55 p. m. This sleeper is regularly run during the summer months, but is discontinued during the winter, because of lighter travel and the difficulty of handling heavy trains in bad weather and snow.

Another Catcher Signed—Among the students who enrolled at the Normal school yesterday was a baseball catcher, Walsh by name, of Escanaba, who was promptly signed by Manager Fox and may be heard in Sunday's game. Another catcher was badly needed as an injury to Richardson would have left the team in a bad hole, with no one to take his place. Manager Fox stated last night that hereafter, all boys who attended the league games would have to pay an admission fee of ten cents.

248 Were Enrolled—President Kaye reported last night that 248 pupils were enrolled for the summer school at the Normal yesterday, which is the largest first day enrollment ever known. Last year 175 enrolled on the first day. It is hoped that enough more will enroll within the next few days to bring the total enrollment up to 400. Every train yesterday brought in a party of students and there were many inquiries for rooms and boarding places. The baggage men and draymen had a busy time in the afternoon handling their trunks.

Good Program at Bijou—An unusually attractive program is promised patrons of the Bijou this week. A special film, 1,900 feet in length, showing the Roosevelt party hunting lions, has been secured and will be shown for the first time tomorrow. The latter part of the week a baseball song will be put on, which will be illustrated with pictures taken during league games at the fair grounds, showing most of the local players in characteristic poses. The interior of this theater has been greatly beautified recently by repainting and a rearrangement of the partition in front, the decorating having been done by A. J. Pleyte.

County Superintendents Here—County Superintendents of Schools Clinton, of Baraga, Legg, of Delta, Parmenter, of Dickinson, and Sterne, of Marquette, were in the city yesterday at the opening of the Normal school and will be joined by the superintendents of Menominee and Iron counties today. These six counties have arranged, through the county superintendents, for their teachers to attend the summer school instead of holding a county institute, and the six superintendents will be frequent visitors at the Normal during the session. The superintendents are desirous that other counties should join with them in this plan, and by so doing show their loyalty to the Normal, and at the same time afford the teachers more valuable training than could be given through the medium of an institute.

Roof Caught Fire—The fire department was called to the residence of W. A.

Johnston, corner of Arch and Front streets, about 11 o'clock yesterday to extinguish a blaze on the roof. Smoke arising from the roof was noticed by Mrs. May Eggers and by the carpenters working on Martin Vierling's house across the street, but no fire could be found in the house, and, as that part of the roof was deeply shaded by a tree, it was several minutes before the fire was located. By the time the department arrived, one of the gables was burning fiercely, but by getting a line of hose through the house into the attic it was soon extinguished. The ashes had been cleaned out of a grate in the house yesterday morning and it is supposed that some lighter papers were carried by the wind into the chimney onto the roof by the great draught resulting. The interior of the house was more damaged by water than by fire. Mr. Johnston carried ample insurance.

School Contract Awarded—

Proposals for the construction of the Riverside school building at Manistique were opened last week and it was ascertained that the Weston Manufacturing company was the lowest bidder, its bid being \$7,100. Barton Bros. secured the contract for the heating and plumbing, their bid being \$2,870. The mason work will be done by Albert Olsen, who furnished estimates for the three lowest bidders. Work will be commenced on the building at once, and it will be completed early in September.

Soo Boy Is Near Death—

John, the ten-year-old son of John Hamilton, who resides across from the tannery in Algonquin, a suburb of the Soo, had an extremely narrow escape from being run over by a freight train the other morning. He lost the tips of the first and second fingers on the right hand and suffered several bad cuts to his head. Stories of the accident vary somewhat. One is that the lad was attempting to get a ride. It is claimed that the boy was struck by something protruding from the side of the car. A bystander said that he would have been all right had he not attempted to get up while in a dazed condition and the train was still passing. It was then that he staggered and fell against the train, his fingers being run over by the cars.

Red Letter Day for the Lock City—

On Thursday, July 15, the Soo and Chippewa county will have as their distinguished guests a senator of the United States in the person of William Alden Smith and a major general of the United States army in the person of Frederick Dent Grant. Both will be the guests of honor at a public reception which is being planned for the evening.

In order to accommodate the big crowd and give everyone an opportunity to meet the two distinguished visitors, the meeting will probably be held in the armory and every citizen of the county will be welcome. The most unique feature of the affair will be the presentation on behalf of the city and county of a handsome gift to Senator Smith in recognition of the exceptional services which he rendered the community and the state at large during the recent session of congress. The memento of popular regard designed for Senator Smith will be most attractive and artistic. Its exact nature will not be disclosed until the presentation ceremony. The response of Senator Smith to the presentation address will be his first appearance upon a public platform in the Soo. The reception tendered General Grant, son of the greatest soldier America has ever produced and himself a military man with an enviable record, will mark the general's first official visit to the Soo and Fort Brady. He will come as the guest of Frank J. Becker of Detroit, aboard the latter's private yacht, and in addition to the public reception will be entertained at a private luncheon by Chase S. Osborn, at which General Grant and Senator Smith will divide the honors as distinguished guests. General Grant's visit to the Soo is of peculiar and pertinent interest to that city just now, in view of the negotiations suggested by Grant himself, looking to the establishment near the Lock city of a big United States army maneuver camp.

Fled to Escape Creditors?

According to information secured in Gladstone, Edward Holm may not have been one of the members of the sailing party drowned in Little Bay de Noc. The belief is growing among those who have made an investigation that Holm fled to escape the payment of several accounts in that city. It is claimed that he owed a considerable amount to his boarding house keeper and that several other accounts were owed by him at the time of his disappearance. He had dressed in his best clothes. It has been learned that Oscar Carlson, whose body was picked up on the shore of the bay at Garth, together with Edward Smith, the remaining victim, was at Kipling for the greater portion of the day. Others were with him. The men had been drinking considerable and shortly before 1 o'clock they went to the shore where their sailboat was tied up, Carlson and Smith got in the craft, but other members of the party refused to enter, saying that they could walk to Gladstone quicker than the trip could be made by water. The boat in which Carlson and Smith started out carried a large quantity of stone as ballast and was very top heavy. Behind, a small rowboat was in tow. The distance from Kipling across to Gladstone is short and what could have happened to the craft in that short voyage is a mystery. It is believed, however, that in some manner the boat was overturned and the great quantity of stone in the vessel carried it directly to the bottom. The boat being towed was also pulled down, but the action of the waves finally released it and it came to the surface. The wind carried the boat in the direction of Garth, and when the body of Carlson came to the surface it, too, was carried to the shore. A search is being made for the body of Smith, as it is believed that it will be finally washed up by the waves.

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work. 3-13-14 KELLY HARDWARE CO.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent of New York yesterday telegraphed as follows: "The stock market today exhibited a rallying tendency under the leadership of Reading, on which various reports are being circulated with reference to a segregation plan for the company's holdings of coal properties and higher prices are predicted for the issue. Activity for the most part was restricted to a few issues, and although the professional element were reported as awaiting an opportunity to engineer a selling movement, the pressure from this quarter was not pronounced, and the list closed with a strong tone. It is thought that important news relative to the tariff and corporation tax will be forthcoming in a few days. Money rates continue easy, and London is reported as a moderate buyer, particularly of Southern Pacific, Atchafson and the Steels."

The final quotations follow:

Boston "Coppers."

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:

"A few orders to buy stocks accumulated over Sunday, but the activity soon subsided and the balance of the day was the quietest yet seen. Underlying conditions remain unchanged. The whole list will probably remain quiet until after the Fourth. Dividend disbursements of \$200,000,000 will be made on July first, and the investment of this amount of money should cause some activity and strength in the market. Until the crop uncertainties are out of the way we advise the sale of stocks on all rallies."

Copper Metal Prices.

New York, June 28.—Copper declined 5 1/2 in the London market today, with spot closing at £39, 2s, 6d and futures at £39. Locally, the market was dull and unchanged. Lake was quoted at 13 1/2 to 13 3/4, electrolytic at 13 1/2 to 13 3/4 and casting at 12 3/4 to 13.

Boston, June 28.—Feature of the copper metal situation is the active demand for American metal in Europe. Notwithstanding the recent heavy

spend last year concerning the wheat market: "The wheat prices closed 1 1/2 lower for all months, after a little rally from the extreme low figures of the day. There was a well-defined belief in the trade, after the first half hour, that the recognized bull leaders had sold a certain quantity of wheat for all months during the morning, and this started quiet general selling, resulting in the lower prices, almost regardless of the news for the day. A few points in Illinois where the harvest is progressing report fair yields. So far the conditions in the Northwest are flattering for the spring crop. Minneapolis continues to get a liberal movement—229 cars today. These constituted the bearish features for the day, and everything else was bullish. Liverpool was firm and higher. The cables brought reports of light yields and poor quality from the French crop. The drought continues to injure the prospects of the new Argentine wheat crop. The new wheat has not begun to move yet. There is no probability that Chicago will have much of a movement of the new crop in July, except perhaps a fair run during the last week of the month. Foreigners are after the new wheat in this country in competition with domestic millers. It looks like a strong cash wheat situation, which will make short selling in the futures at a heavy discount a risky operation. The Kansas yield a slight one. Buy wheat on the breaks."

INSURANCE MEN PROTEST.

They Do Not Like the Corporation Tax Proposition.

Washington, June 28.—Insurance companies are deluging congress with protests against their inclusion by the Taft tax plan, but as far as the senate is concerned they can change no votes. The authors of the corporation tax amendment started with the express purpose of taxing only stock companies. The point was then made that if the mutuals were exempted the great Mutual Life of New York would escape taxation altogether, while the Equitable would be compelled to pay. The discrimination involved was seen to be so great that the draft was changed and the mutuals were brought in. Massachusetts insurance men have begged for a specific exemption of mutuals on the ground that the Massachusetts supreme court has found that level premium mutual companies have no profits. Insurance companies, they argue, already bear a disproportionate share of taxation, and, as one leading insurance man writes: "It cannot be intended to add to their burden by imposing a tax already brought up to almost two per cent."

The actual provisions of the corporation tax amendment have been so thoroughly discounted in advance that the reporting of the measure by the finance committee made little ripple. No doubt the majority sentiment of the senate is opposed to it, but it is equally true that the president's plan will be accepted by the upper branch with a comfortable margin. One of the sharpest points of attack against the bill is prohibiting publicity of corporation returns "except upon the special direction of the president." This provision is held to lodge extraordinary power in the hands of the president. Senators are pointing out that the exemption of the power plus to discover and reveal corporation secrets will compel corporations to expose by every means at their command any candidate unwilling to commit himself specifically to them as a corporation man.

STOCK MARKET ALMOST IDLE.

Its State of Stagnation Not Approached for Many Months Past.

New York, June 28.—The period around July first is one traditionally of quiet stock trading. This tendency was emphasized today by several additional circumstances which combined to throw the market into a state of stagnation not approached for many months past. The torrid heat of the last week drove many of the usually active participants in the market operations away from Wall street, and with the prospect of a short week to follow, with the closing of the stock exchange next Saturday as well as the following Monday already decided on, there was little incentive to take up activities. After the first hour the market was practically idle. Some attention was paid to reports of crop conditions, but the market received no stimulus from these reports. The entering of the tariff bill upon the final stages of its discussion gives promise of the much desired consummation, although speculation and the march of business have gone forward so effectively without waiting for the termination of the tariff struggle that some question arises as to the course of speculation with the actual enactment of the law.

BLUFF WON FREEDOM.

Peddler Talks on Rights Under the Weary Judge Lets Him Go.

Omaha, June 28.—L. B. Rogers, a peddler, who has arrived here for the first time, was arrested for peddling without a license in police court. When arraigned in police court and asked to plead to the charge of peddling without a license he demanded of City Prosecutor Daniels: "Did you see me?" "No," said the prosecutor, "but I heard you." "That was too much for Rogers and he took several minutes to overcome his ruffled temper. When he succeeded, after putting up a marvellous talk, which nobody understood, about "constitutional rights" and numerous other things, the judge deemed it wise to discharge him, but he was told to get his lawyer to get a license before he exercised his constitutional rights any further in police court."

CHICAGO GRAIN MARKETS.

Chicago, June 28.—The rapid progress of the harvesting operations in the southwest prompted a general selling of wheat today, resulting in sharp declines. There was a fair degree of firmness at the opening, caused by an advance at Liverpool, due, it was said, to bullish advices regarding the wheat crop in France and Argentina, but before the end of the first half hour the sentiment had become bearish and the heaviness increased as the trading advanced. The feature of the trading was liberal sales by two leading cash interests, which selling was based in all probability on the greatly increased offerings of new wheat from the country. The July opened at 115 1/2 to 116; highest, 116 1/2; lowest, 114 1/2; closing, 115.

BOAT CREWS HAVE TRIAL SPINS.

Poughkeepsie, N. Y., June 28.—The Cornell, Syracuse and Pennsylvania crews had four-mile trials here today, while Wisconsin rowed a hard three miles. Columbia rowed up the river in the evening with three or four miles between them and the other crews.

300 LINE'S NEW MANAGER.

Minneapolis, June 28.—George H. Huntington was today appointed general manager of the Soo line to succeed Edmund Pennington, who was elected president after the death of Thomas Lowry.

WRIGHTS DISAPPOINT CROWDS.

Decide Wind Is Too Strong for the Initial Aeroplane Flight.

Washington, June 28.—Owing to the strong wind prevailing this afternoon, the Wright brothers failed to make their expected initial aeroplane flight at Fort Myer. Although the senate bill set aside the tariff bill to allow its members to witness the flight of the aeroplane, and together with several thousand other persons the statesmen sizzled in the hot sun on the Fort Myer drill grounds, the Wrights decided that the wind was too strong and too uncertain for flight with a new and untried machine.

Have Big Plans for the Future.

The Wright brothers are incidentally exceedingly shrewd business men. Just at present they are devoting vastly more attention to marketing their rights in their aeroplane than to perfecting it. They expect within the next year or two to make themselves millionaires and they are the more concerned to sell what they have, because they know the possibility that somebody else will build a better heavier heavier-than-air machine and ruin their market. They are letting no grass grow under their feet, and henceforth they will devote their energies to sell to the government in order to whet the appetites of other countries. They made a quick deal and were highly pleased with it. Italy's government did not show a disposition to deal with them at once, and so they waited to sell to an important government in order to whet the appetites of other countries. They made a quick deal and were highly pleased with it. Italy's government did not show a disposition to deal with them at once, and so they waited to sell to an important government in order to whet the appetites of other countries. They made a quick deal and were highly pleased with it.

Senator Stephenson of Wisconsin, Now Past the Four-Score Mark, Is Oldest Member of the Senate, and Doubtless the Richest.

Washington, June 27.—Senator Isaac Stephenson of Wisconsin, now eighty years old, bears his age well. The latter statesman was elected to the senate twenty years ago to fill out the unexpired term of Senator John C. Spooner, who had resigned to resume the practice of law. He was re-elected for six years last March. He served in the legislature of his state for 17 terms, and in congress from 1883 to 1889.

Has Led a Strenuous Life.

Senator Stephenson has led a strenuous life, but he still has had leisure to engage in politics and has been a steady Republican since 1856, when he peddled Fremont and Dayton tickets on the courthouse steps in Chicago. Few men have had more intimate acquaintances with public affairs or have enjoyed the confidence of more public men than he. In reply to the question if he were not one of the wealthiest men in the senate, the senator replied that no one had ever known exactly how much he had, and he would not tell. Senator Stephenson said he had never dealt in margins on the stock exchange, but had accumulated his fortune by hard work, careful savings, and successful investments.

NEW CLIPPER SHIP LINE.

Will Ply Between New York, Philadelphia and San Francisco—American Steel Vessels of About 5000 Tons to Compose the Fleet.

New York, June 28.—Official announcement made of the establishment of a regular line of sailing ships to ply between New York, Philadelphia and San Francisco, to be called the Shippers' Clipper Line, undoubtedly will come as a surprise to the transportation world, which has accepted as a fact for some time the passing of such service.

BLUFF WON FREEDOM.

Peddler Talks on Rights Under the Weary Judge Lets Him Go.

Omaha, June 28.—L. B. Rogers, a peddler, who has arrived here for the first time, was arrested for peddling without a license in police court. When arraigned in police court and asked to plead to the charge of peddling without a license he demanded of City Prosecutor Daniels: "Did you see me?" "No," said the prosecutor, "but I heard you." "That was too much for Rogers and he took several minutes to overcome his ruffled temper. When he succeeded, after putting up a marvellous talk, which nobody understood, about "constitutional rights" and numerous other things, the judge deemed it wise to discharge him, but he was told to get his lawyer to get a license before he exercised his constitutional rights any further in police court."

SKILLED IN PROFANITY.

Negro Fined 75 Cents Each for 500 Oaths Uttered in Five Minutes.

Chester, Pa., June 28.—A police magistrate inflicted the month's sentence on James Noonday, a negro, for profanity. Policeman Sill, who took Noonday into custody, said: "He was using profane language, and 'cuss' words were coming so fast I couldn't count them, although I reckon he was putting them out at a rate of 100 a minute. He is certainly a pun master, and kept it up for five minutes." The law provides that for each oath used on the public highway a fine of 75 cents can be imposed. Having sworn 500 times, according to the estimate of Policeman Sill, the magistrate decided that he was justified in sentencing Noonday to six months if the fines were not paid.

SUN COOKING.

Sun cooking—roasting and boiling by sunlight instead of coal or gas—has been going on for three hundred years. There are sun stoves that roast a sirloin or boil a soup to perfection. They are only used, however, by scientists. A sun stove consists mainly of a mirror, a spherical mirror and a joint. There is also a reflector. The place for pot or plate is so situated that the mirror's rays can be focused on it accurately. A German, Baron Teherhausen, was the first sun cook. He began in 1887 to boil water, and in 1888 he had very good success in boiling eggs. Sir John Herschel and Buffon are other famous names associated with sun cooking. In California various sun cooks have boiled a gallon of water in twenty minutes, roasted

meat in two hours and poached eggs in fifteen minutes—quite as good time as the ordinary fire makes. An odd thing about meat roasted by sun rays is that it has an unpleasant taste. This is avoided by the insertion of a plate of yellow glass between meat and mirror. In all solar stoves the sheet of yellow glass figures.—Tit-Bits.

BEARS HIS AGE WELL.

Isaac Stephenson of Wisconsin, Now Past the Four-Score Mark, Is Oldest Member of the Senate, and Doubtless the Richest.

Washington, June 27.—Senator Isaac Stephenson of Wisconsin, now eighty years old, bears his age well. The latter statesman was elected to the senate twenty years ago to fill out the unexpired term of Senator John C. Spooner, who had resigned to resume the practice of law. He was re-elected for six years last March. He served in the legislature of his state for 17 terms, and in congress from 1883 to 1889.

A Pioneer Lumberman.

Senator Stephenson is a lumberman, a farmer, a banker and a politician. He was born in York county, New Brunswick, in 1825, and a few years later removed to Maine. In 1845, before Wisconsin was admitted to the Union, he moved to that state, where he soon acquired great timber interests. He was one of the largest lumbermen in the United States, owning vast areas in Wisconsin, having large interests in Louisiana and owning a vast area of redwood in California. He also has the distinction of owning a part interest in a railroad 500 miles long, which has no bonded indebtedness.

Has Led a Strenuous Life.

Senator Stephenson has led a strenuous life, but he still has had leisure to engage in politics and has been a steady Republican since 1856, when he peddled Fremont and Dayton tickets on the courthouse steps in Chicago. Few men have had more intimate acquaintances with public affairs or have enjoyed the confidence of more public men than he. In reply to the question if he were not one of the wealthiest men in the senate, the senator replied that no one had ever known exactly how much he had, and he would not tell. Senator Stephenson said he had never dealt in margins on the stock exchange, but had accumulated his fortune by hard work, careful savings, and successful investments.

Sun cooking—roasting and boiling by sunlight instead of coal or gas—has been going on for three hundred years. There are sun stoves that roast a sirloin or boil a soup to perfection. They are only used, however, by scientists. A sun stove consists mainly of a mirror, a spherical mirror and a joint. There is also a reflector. The place for pot or plate is so situated that the mirror's rays can be focused on it accurately. A German, Baron Teherhausen, was the first sun cook. He began in 1887 to boil water, and in 1888 he had very good success in boiling eggs. Sir John Herschel and Buffon are other famous names associated with sun cooking. In California various sun cooks have boiled a gallon of water in twenty minutes, roasted

WOOD AND BUILDING MATERIAL

I ALSO HANDLE
Artistic Monuments
COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires most expensive and careful maintenance, crumbles back to Mother Earth. It is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. It has beautiful designs of all grades of work, and wants to have you see them. You are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

(Extract from letter received lately.)
LONIA, MICH., JUNE 3rd, '09.
Received your check this morning. Many thanks. Account was sent you on the 26th, and in less than one week, same is settled. Am enclosing others for your consideration.
John W. Green, M. D.

WHERE QUALITY ABIDES

Our care for the quality of our goods extends not only to drugs but to all sundries and side lines carried. The quality of the drugs handled is, however, the distinguishing mark of a good drug store, and we are justified in emphasizing the rare excellence of our stock in this respect.

In filling prescriptions we provide drugs of known purity and potency and compound them by the most scientific methods. Our service is, we believe, exceptional and our prices are reasonable.

SENATORS HAIL RIVAL TO THE ELOQUENT BAILEY.

Charles J. Hughes of Colorado, a Democrat, Has Won High Favor by His Encounter With His 'Texan Colleague—Others of the Same Party Promising Debaters.

Washington, June 25.—Something like ninety United States senators are feeling very glad that one has come within their circle who seems capable of combat with Joseph W. Bailey of Texas. An incident of the past week brought news to the senate, is beginning to take notice of the arrival of other Democrats who promise to come into the ranks of forceful and effective debaters. Gore, the blind man of Oklahoma, has been getting prominent consideration. The Republicans have ceased to smile derisively when they speak of Colorado, Oregon, and also becoming a senator of argumentative power. Accordingly, there is a galaxy of speakers and analyzers on the Democratic side that promise to make the minority more respected.

Desjardins' Pharmacy,

EXCELSIOR AND CULLINAN.

The two largest diamonds in the world have been brought to light within the last score of years. Great diamonds have been the objects of zealous pursuits for centuries, and even the cause of murders and wars instigated by the mad desire for their acquisition. In the case of the great historic diamonds, however, we lack the complete and authentic information regarding every stage of their history which we possess in reference to these magnificent diamonds of our own day. It is true that no important historic happening has yet been associated with either of them, but we are making history every day, and there can be little doubt that in the future the story of the Excelsior and Cullinan diamonds will be as eagerly sought for as that of the Koh-i-Nur, the Regent and the Orloff.—Dr. George Frederick in the Century.

The Great Lakes Trip

A little journey on the inland seas is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and waypoints, and two trips weekly between Detroit, Bay City, Saginaw and waypoints. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Goderich, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address: L. G. Lewis, G. P. A., Detroit, Mich.

CARNEGIE LIBRARY AMONG THE LEADERS

WANT STREET IMPROVED.

Taxpayers on Michigan Have Agreed to Put in Sewer and Walks.

The property owners on Michigan street, between Third and Fifth, will probably present a petition to the council at its next meeting, asking that these blocks be macadamized. All have agreed to connect their homes with the sewer system, also to build concrete walks, provided the city grades the street.

The season will be a busy one in that part of the city, which includes all of the Sixth ward. Third street is to be macadamized, north from Empire to Park street, and work will be started next week.

All of the property owners on the east side of the street have given a contract to William Trebilcock for concrete walks. This will give a stretch of concrete from Cleveland avenue to Park street, a distance of nearly a mile, with the exception of a small space near the Consolidated Fuel & Lumber company's office. As the street improvements on Third will not extend any farther than Park street, it is not likely that the property owners in the two blocks north, extending to Bessemer street, will put in the concrete.

Mr. Trebilcock has just completed laying a concrete walk on the west side of Third street, from Vine to Michigan. The distance of two blocks. Several additional contracts have been secured in that vicinity. Mr. Trebilcock, who was last week awarded a contract by the board of public works for the building of curbs and gutters, has organized a sewer crew, which is to be employed exclusively on this work, and a start was made yesterday.

One of the most important pieces of sidewalk work completed this season is the stretch on the north side of Cleveland avenue from Fourth to Seventh street. Mr. Trebilcock's crew is putting in walks at the average rate of over 100 feet a day.

TO VISIT EXPOSITION.

Several Ishpeming people plan to visit the exposition in Seattle during the summer. A number are now having difficulty securing accommodations on the trains. It is reported that in order to secure a berth out of St. Paul or Chicago, it is necessary to place an order from two to three weeks in advance. A few Ishpeming people have already gone west and others plan to leave within three or four weeks. The Misses Kelgreen will leave tonight, to be absent several weeks. Mrs. Peter Finnegan and Mrs. H. H. Quinn and daughter, Miss Geraldine, expect to attend the exposition, leaving early in July.

A BAD RUNAWAY.

Charles Johnson, the house mover, lost a valuable horse yesterday. The horse was hitched to a wagon, near the Carpenter-Cook company's warehouse, when it became frightened. It ran about fifty yards and struck a heavy truck, which it completely overturned. The animal was taken to a nearby stable, where it died a few hours later. Mr. Johnson had owned the horse only two weeks.

SOCIAL TOMORROW EVENING.

A missionary social will be held at the Methodist church tomorrow evening beginning at 7:30 o'clock. Mrs. S. W. Eddy, for nine years a missionary in India, will deliver an address. Miss Mabel Richards will sing. Light refreshments will be served by the members of the local auxiliary to the Woman's Foreign Missionary society, under whose auspices Mrs. Eddy speaks. Admission is free, but a collection will be taken.

PICNIC ON THE FIFTH.

At a meeting of Sir Humphrey Davey lodge, Sons of St. George, Saturday evening, it was decided to hold a picnic next Monday, the 30th, at Cleveland Park. All of the other Sons' lodges in the county will be invited and it is expected that there will be a large attendance. A band will be engaged and there will be dancing all afternoon and evening.

HOTEL WILLIAMS—GRAND ISLAND.

Hotel Williams and cottages now open for business. Accommodations will now be reserved for months of July, August, September and October. Address all communications to Hotel Williams, Grand Island, Munising, Michigan. (6-20-1w)

FROM MORGAN'S CURB LETTER.

"A somewhat firmer tone characterized the market for copper shares today, but prices remain practically unchanged. Superior & Pittsburg improved 3/4, and is in excellent demand just above 14. The greatest activity was noticeable on the curbs. Early sales of Chief Consolidated were made in small lots at 13, but on good buying from both the copper country and the East, advanced to 13 1/2. Cactus, which was depressed fractionally under 3 last week, is back to 3. Goldfield Consolidated was unchanged, but showed more life. Calumet & Montana rose to above seventy cents. The first bids for Montana-Clinton in many weeks made their appearance today at thirty cents. This is about two cents under the last sale. The company is now employing about twenty men regularly at the mine, and development work is being pushed vigorously. Any good news should advance the price to par. The acquisition of a group of claims in the Corbin district, and adjoining the Calumet-Corbin, said to be very people closely identified with Anaconda interests, is attracting attention to Calumet-Corbin. The management of the latter company has been prosecuting development work with all possible speed, and results may be expected in the not distant future. Stockholders of the Shannon Copper company have taken practically all of the \$600,000 bonds of the Shannon-Arizona railway. The papers for the listing of the 200,000 shares of Nipissing Mining company are in the hands of the Boston Stock Exchange, and these shares should soon be traded in on the Boston board. The feature of the metal situation is the active demand for American metal in Europe. Notwithstanding the recent heavy liquidation of metal in London, resulting in a sharp decline in prices, the inquiry from that quarter continues

CORRECTION FROM MR. SPITZER.

Editor Mining Journal: Will you kindly grant space for the following statement:

Commenting in an editorial on the financial troubles of the First National bank of Ironwood, the Ishpeming Record, in its issue of June 26, inadvertently and unintentionally printed the name of "The First National bank of Iron Mountain." The comments made in the editorial were intended to apply to the Ironwood bank and its officers and not to the Iron Mountain bank and its officers. The bank at Iron Mountain is in excellent financial condition.

Very truly yours,
J. D. SPITZER,
Editor of Ishpeming Record,

ISHPEMING IN BRIEF.

Captain R. J. Williams is in the city for a few days.

O. D. McClure went to the copper country yesterday.

George N. Ross of Calumet was here on business yesterday.

Lars Hoysted is ill and confined to his home on Fourth street.

Joe Pope left Sunday for Republic, where he has accepted a position with

the Marquette County Telephone company.

Albion Johnson is down from Hibbing on a short visit to his folks.

Roger Locher of Taconite, Minn., is in the city on a visit to relatives.

Mrs. Philip Midden of Lake Linden is preparing to leave for her old home in England.

Clarence Biegler, now located at Sault Ste. Marie, is here visiting his folks for a few days.

John E. Kane has disposed of his residence property at 167 Saginaw street to Samuel Drake.

Mrs. Al. Conibear is here from Hibbing on a visit to her mother, Mrs. Frank Williams, of South Pine street.

Miss Mary Viner, a member of the Ishpeming High school faculty, has departed for San Diego, Cal., where her parents are located.

R. Manguson returned from Lake Independence yesterday with an eighty-pound catch of fish, among which was a fifteen-pound pike.

A new iron fence is being built around the Murgur properties, corner of Third and Bank streets, occupied by W. J. Goodney and A. L. Brownell.

Iver Lallerstadt, who sustained a fracture to one of his legs while carrying a boat in the woods about a month ago, was out on crutches yesterday.

On complaint of Joseph Smith, guardian of Lake Sally, Joseph Graham was fined \$5 and costs yesterday by Judge Andrews for fishing in the lake.

Mrs. John McEnroe and children have returned from Detroit, Buffalo and other lake points. Mr. McEnroe remained in the East, to be absent some time.

Miss Marguerite Elliott of Hammond, Ind., is the guest of Mrs. V. S. Hillier of North Pine street. Miss Elliott taught school in Ishpeming some years ago.

John Hughes, brother of Timothy Hughes, is here from Minnesota. He left here thirty years ago, and this is his first visit to the city in seventeen years.

The management of the Bijou theater has decided to discontinue vaudeville features, at least for the summer. Moving pictures and illustrated songs of a high class will be given.

Douglas Anderson, wife and child are expected to arrive here today from Salt Lake City, Utah, on a visit to his parents, Mr. and Mrs. C. L. Anderson. They will be accompanied by Mrs. Anderson's mother, Mrs. C. F. Cooley, of Fredonia, Wis.

The stores of the city will remain open every evening this week until 8 o'clock. As Monday is a legal holiday, it is likely that the merchants will open for a couple of hours in the morning.

The Ladies' Reserve Fund of the Presbyterian church, who will conduct a social this evening on Mrs. G. G. Johnston's lawn, expect to entertain a large crowd. The lawn will be attractively decorated.

Hans P. Hanson, former city treasurer, died yesterday afternoon. He is survived by his widow and four children. The funeral will be held from the Swedish Mission church at 11 o'clock Wednesday morning.

The Chicago & Northwestern Railway company is advertising rates of a fare and one-third for the coming holidays. Tickets will be on sale July 3, 4 and 5 and will be good for return until the evening of the 6th.

Leo Wilson of Green Bay and Miss Helen A. Hennessey of this city will be united in marriage at St. John's church tomorrow morning at 6 o'clock. They will leave for a honeymoon trip to Chicago, Milwaukee and other points.

Mrs. Edgerton Wing, son and daughter are here from Detroit on a visit to her uncle, James Clancy, and wife. They made the trip by boat and were accompanied by Tom Clancy, who returned from the university at Ann Arbor.

The directors of the Castle Dome Copper Mining company, organized recently at Calumet, met yesterday afternoon at the Nelson House. Among the directors in attendance from out of town were Senator M. Moriarty and William Jobe of Crystal Falls.

THE BALANCE-SHEET

The Balance Sheet and the Statement of Earnings are to the corporation what the Chart and Compass are to the mariner. Both of these financial statements are necessary to the Management for the intelligent direction of a business.

Equally necessary are both of these statements to the investor and to the telephone-using public.

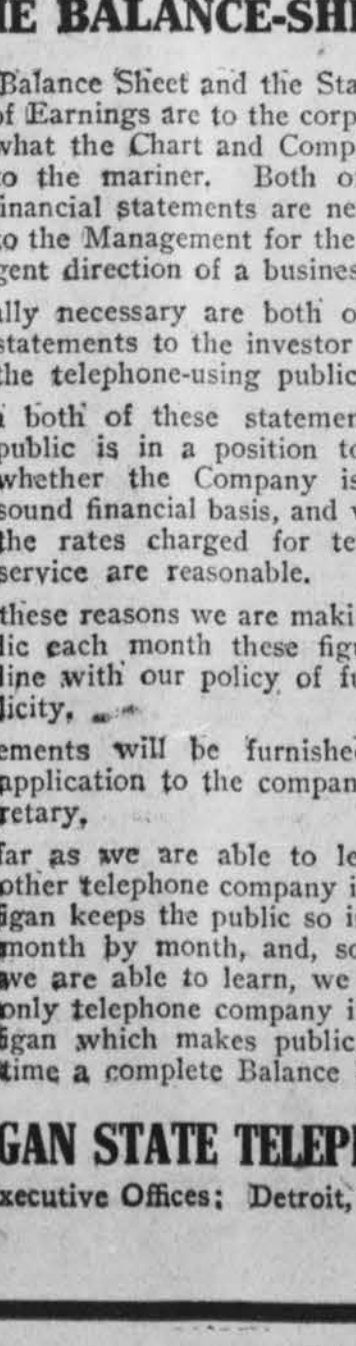

With both of these statements, the public is in a position to know whether the Company is on a sound financial basis, and whether the rates charged for telephone service are reasonable.

For these reasons we are making public each month these figures, in line with our policy of full publicity.

Statements will be furnished upon application to the company's secretary.

So far as we are able to learn, no other telephone company in Michigan keeps the public so informed month by month, and so far as we are able to learn, we are the only telephone company in Michigan which makes public at any time a complete Balance Sheet.

Cobalt Gossip

GROWTH OF THE CAMP.

Ore Carrying from 1,500 to 8,000 Tons Per Ton Mining from Narrow Veins.

Cobalt lies in the northeastern part of Coleman township in the province of Ontario, writes Edwin Higgins, in the Engineering and Mining Journal. It is distant about 330 miles northerly from Toronto, and may be reached by an overnight trip from that city over the Temiskaming & Northern Ontario railway, a road built and operated by the Canadian government. Cobalt has a population of about 6,000, and the town, or camp, stretches along the northwestern shore of Cobalt lake. The chief producing mines of the district lie within two and one-half miles of the town. The elevation at Cobalt lake is 968 feet above sea level.

To those familiar with the mining districts in the western part of the United States, the Cobalt district presents a most striking contrast. Unlike many of the western mining camps where the hills and hills or no water in the rule, the Cobalt district is well covered with vegetation and timber; the country for many miles around is plentifully supplied with water in the form of rivers, smaller streams and innumerable lakes. The surface presents an uneven appearance, hills with steep faces often rising to a height of 100 feet or more.

Geology of the District.

There are in and around the Cobalt district a great variety of Pre-Cambrian rocks; also prominent outcrops of the Niagara and the Silurian. Between the Niagara and the Silurian there are also formations represented in the district. The oldest series of the district are the Keewatin and Laurentian. The Keewatin is an igneous complex, consisting of greenstones, quartz, porphyries and other rocks. It has been more or less folded and disturbed. The Laurentian is a gneiss complex, consisting of granites, quartz, porphyries and other rocks. It has been more or less folded and disturbed. The Laurentian is a gneiss complex, consisting of granites, quartz, porphyries and other rocks. It has been more or less folded and disturbed.

Discovery and Growth of the Camp.

Cobalt's growth, since its discovery a few years ago, has been remarkable. The first discovery of mineral was made on Aug. 15, 1905, during the building of the Temiskaming & Northern Ontario railway, on which is now the McKinley-Darrah property; the second discovery was made Sept. 15 of the same year, on the same property. These discoveries, however, aroused little interest, and it was not until October, when a sample of the mineral was given to T. W. Gibson, director of the bureau of mines of Ontario, that outside attention was directed to the discovery. Mr. Gibson recognized the mineral as nicotite, and forwarded it to Willet G. Miller, provincial geologist. Mr. Miller immediately visited and examined the district, and published his first report in November, 1905. The principal properties from which varying tonnages of ore were shipped. Several shippers have been added to the list in the present year. Up to the second quarter of 1909, over \$10,000,000 had been paid in dividends by Cobalt silver mines. Among these, Nipissing, La Rose, Temiskaming & Hudson Bay, Crown Reserve

The Post Middle Huronian Diabase

occupies a large part of the surface of the area. In most cases, where associated with the Huronian, these rocks seem to occur in the form of sheets or sills, spreading between or over the layers of the rocks through which they cut. After the eruption of these diabases, whose exact age is not known, erosion of the surface again took place for a long period of time and all the series now exposed in the field, with the exception of the younger Niagara, were worn down. Much of the surface of the area is occupied by boulder clay and loose bedded deposits.

Cobalt-Silver Veins.

Most of the cobalt-silver veins occur in the Lower Huronian. Several have been found in the diabase and in the Keewatin. Most of the Keewatin rocks are tougher and do not fracture with the same ease as the overlying series of the Lower Huronian; hence the solutions have not had the same freedom of movement in the former as in the latter. Insofar as the precipitation effects which the rocks of either series may have on solutions working through fissures in them, there seems to be little difference between the two. Many of the pebbles and boulders and much of the cement material in the diabase and in the Keewatin have been derived from the underlying Keewatin. Hence one would think that there would have about the same influence in precipitating substance from solution as the rocks in; the latter formation.

The more important veins so far found in the Lower Huronian lie in what may be called two parallel belts. Although these two belts have a strike approximately northeast and southwest, this direction is not maintained throughout. The veins on the Threthewey and Coniasg strike east and west. The main veins on the La Rose and McKinley-Darrah strike approximately northeast and southwest, while that in the northwest corner of the Nipissing location, on the southeastern border of Lake Cobalt, strikes northwest and southeast. The vein in the southwest corner of this location strikes east and west, which is the direction of strike of the majority of the veins. The veins vary in width from

one to fourteen inches, the majority being not over six inches in width. In some cases there occurs what may be called a system of veins, three or four roughly parallel fissures sometimes making a mineralized width of about twenty to thirty inches. The veins usually stand practically vertical. There are examples of veins that run from the Huronian conglomerate into the underlying Keewatin; there are veins, e. g., one on the Lawson property, that run horizontally from the Keewatin into the diabase; the Nova Scotia vein runs downward from the Keewatin into the underlying diabase.

Some important ores in the veins are native silver (associated with which are usually some dyscrasite, argentine, pyrrhotite and other compounds of the metal), smallite, nicotite and related minerals. Many of the minerals are iron-sulfides, and for this reason some of them have not been clearly identified. Calcite forms the chief gangue, but some of the veins contain only a small amount of this material. Quartz and fragments of wall rock are often found interlocked with the ores. The minerals making up the vein filling have in all likelihood, been deposited from highly heated and impure water, which circulated through the cracks and fissures of the veins and were probably associated with the post-middle Huronian diabase eruption. It is rather difficult to predetermine the original source of the metals—silver, cobalt, nickel, arsenic and others. They may have come up from a considerable depth with the waters, or they may have been leached out of what is now called and distributed greenstones and other rocks of the Keewatin.

The practice of picking and cobbing is general in the camp. As carried on at several of the mines, the practice is as follows: The ore is dumped from the skip onto a coarse grizzly or screen, the material passing through being sent to the concentrator, although in some cases it is rich enough for shipment to the smelter. All ores from the grizzly pass slowly down a slightly inclined dumping table. Before starting on its course down the table, the rock is washed by means of a spray of water, this process enabling the pickers, who stand on either side of the table, to more readily recognize the rich ore. High grade ore is picked out and sacked for shipment; mixed pieces are also picked out, the low portion cobbed, and the resulting high grade ore sacked for shipment. All material passing over the table goes to the concentrator. This practice is varied in certain minor details at some of the mines.

Current charges vary from \$7 to as high as \$40 per ton, depending entirely on the grade of the ore and, in some cases, on the content of cobalt, arsenic and nickel. The Canadian Copper company pay for over 6 per cent cobalt in the ore, and the price of the nickel content is lower than the cobalt. The Anglo-French Nickel company pays for cobalt on a sliding scale, the price ranging from thirty-five cents for 1 per cent to fifty-five cents per pound for 16 per cent and over. Nickel is not paid for, its presence being considered detrimental. Although the arsenic in the ore is saved and marketed in the form of white arsenic by several smelters, few, if any of them, allow anything for the arsenic present in the ore.

Labor, Power and Costs.

Labor at Cobalt is made up of Canadian, some Frenchmen from the latter province, Italians and a few Americans and Finns. There is no set wage scale. The union scale of wages is as follows: Drillers, \$8.50 per day; helpers, \$3; muckers, \$2.75; surface men, \$2.50; shaft sinkers, \$2.50; and haulers, \$2.50. The principal shippers during 1908 were Nipissing, La Rose, Coniasg, O'Brien Kerr Lake, Threthewey, Silver Queen, Temiskaming & Hudson Bay, Townsite, Right of Way and Crown Reserve; in addition to these there were about thirty other properties from which varying tonnages of ore were shipped. Several shippers have been added to the list in the present year. Up to the second quarter of 1909, over \$10,000,000 had been paid in dividends by Cobalt silver mines. Among these, Nipissing, La Rose, Temiskaming & Hudson Bay, Crown Reserve

The boiler plans of the Cobalt district

represent a total of approximately 11,000 horsepower; there are over sixty compressors, with a maximum capacity of about 40,000 cubic feet of free air per minute. The cost of power is, approximately, \$125 per horsepower-year, the completion of the two power plants now building on the Montreal river, it is expected that the cost of power will be reduced to at least \$75 per horsepower-year. The plant at Hudson Street will furnish electric power, while the Ragged Shoot will furnish compressed air. The compressed-air plant will utilize the Taylor system by which pressure is secured without moving machinery.

MADE IT A LIFE STUDY.

Dr. J. S. Leonard found the Cause and Cure of Piles.

Dr. J. S. Leonard, the celebrated specialist in Piles, Compound cured Diabetes and that we wanted to know from our friends if this was so, and that if he (Newton) would take it that we would send him a supply of it. Newton replied to the effect that some four or five months before we wrote him he had heard about the compound, had taken it, that the sugar was nearly out and he was almost well. His complete recovery followed, and he told an S. P. engineer who had Diabetes and he recovered.

WE ALSO SAW GEN. THEO. REICHERT OF SAN FRANCISCO GO ON THIS TREATMENT AND GET A COMPLETE RECOVERY AFTER PHYSICIANS HAD DECLARED THAT THE CASE WAS HOPELESS.

General Reichert is a 33rd degree Mason and is one of San Francisco's most widely and favorably known citizens. We have seen hundreds recover since and there is no longer any question about Diabetes in people of middle age and over being curable.

For free literature, address John J. Fulton Co., San Francisco, Cal. Fulton's Diabetes Compound can be had of our agent in your city. We desire all patients to write us who are not getting the usual improvement by the third week.

Negaunee Department

TIMBER OPERATORS EXPECT GOOD SEASON

DOING WELL IN ALASKA. Former Negaunee Man, Here on a Visit, Likes the North Country.

Andrew Lagregaron, who arrived in the city last week from Treadwell, Alaska, leaving Sunday for Chatham, on the line of the Marquette & Southeastern railway, to visit his parents, has done well in that country. He is in the employ of the Alaska Treadwell Gold Mining company, the properties of which are owned and operated by the Rothschild interests. Several former residents of Negaunee and Ishpeming are located at Treadwell. John Fenslage, who has relatives here, has been successful in the hotel and saloon business. George Drew, formerly of Ishpeming, has a position as blacksmith and Jerry Cashen, a former Winthrop man, and a brother-in-law of Fenslage, is millman at the Mexican mine.

Mr. Lagregaron says that machine operators in Treadwell are paid \$5.00 per day, skilled mechanics, including carpenters, blacksmiths, etc., \$4; first-class machinists \$6 and common laborers \$3.50. The average cost of board is \$25 per month. The weather in Alaska is not as severe as many people in this section believe it to be. Mr. Lagregaron says that at no time last winter did the thermometer register zero, four above being the coldest. He has been in Alaska for four years, and after a visit of a month or so will return.

None of the small dealers have any timber unsold, but a few are making their final shipments. The big operators' stocks have been considerably reduced the past few months, and I believe they are getting better than at any time in the past eighteen months. I hope the prices will remain at about where they are now, as timber was at together too high during the boom in 1907. Heneck logs at that time brought \$1.75 and \$12 per thousand; last year the prices averaged between \$7.50 and \$8 for the same quality timber. At the latter figure the owners could cut their stumpage and make fairly good money over with hauls of from six to ten miles. There is no demand for pulpwood, but a considerable quantity is being cut and will be sold in the fall. The operators are taking a chance on the effect of the tariff. Some seem to think they will have to sell their spruce for much less than they received last year, and others believe that the price will be a little higher.

The railway companies are not as heavily stocked with ties as they were some months ago, but there is very little demand. Good cedar ties are now being picked from thirty to forty cents a piece, two years ago they sold at from forty-five to fifty-two, the latter being the top notch price. The price will surely go higher, as practically all of the cedar in this section is now some miles from the tracks and the cost of securing it is increasing.

LOCAL LAONICS.

F. A. Glass, a mining man of Duluth, was striking home yesterday. Miss Lillian Stevens left yesterday morning for Salt Lake, Utah. J. W. Elliott is painting the rectory of St. John's Episcopal church. The Cleveland-Cliffs Iron company is removing the old water tank from the North Jackson pit. John J. Hansman and bride arrived home yesterday from a three weeks' honeymoon trip to western points. J. A. T. Thibaudan, who spent a week here, visiting his uncle, L. E. Chausse, and family, has left for his home in Canada. T. H. Harris, who travels for the American Candy company, is home for a few days, and will call on his trade in this county while here.

SOLD TOO SOON.

Negaunee Men Might Have Cleaned Up Larger Sum on Gold Claim.

Louis St. Julian, who left here Sunday night from the Sturgeon Lake district in Canada, after spending a few days with relatives and friends, was advised before starting that the man who purchased one of the gold claims owned by himself and Ed. Coty, also a former Negaunee resident, had since been offered considerably more for it than he paid. Many capitalists have entered the field and are buying all the claims that they can get at reasonable prices. St. Julian and Coty have no claims, all of which are under option. The one they sold two weeks ago for \$5,000 has a shaft down thirty-five feet from the line of one of the Belmont Bay company's claims.

THREE POP FACTORIES.

With John Parella and his son Will engaging the manufacture of carbonated drinks, Negaunee is now well supplied with soft drink manufacturers, there being three here. Raatikainen & Hill, whose factory is on Gold street, have been in business for a number of years, and Lemski & Ylkanen opened a shop some months ago in the basement of their store on Case street. The Messrs. Parella have had an expert here from Chicago for several days past. Mr. Parella, who is also in the saloon business, has turned the management of his factory to his partner, and will give his pop business his personal attention.

SIX DAYS WITHOUT FOOD.

Man Rescued from Fox Car Too Feeble at First to Tell Story.

St. Charles, Mo., June 28.—Six days locked in a box car with only his thoughts for company shavings which he dug from the boards of the car with a horsehair pen for food, and nothing to drink, Charles Davis was rescued from his confinement at St. Charles. He was found feebly beating against the door of the car, which had been sidetracked in the Washburn railroad yards. A switchman heard the noise within and opened the door to find Davis lying on the floor, kicking against the door. For a time he was unable to explain anything of his predicament. Davis, when he was given water and was able to sit up, told how he had climbed into the empty car at Oklahoma City, intending to come to St. Louis. Shortly before the train pulled out he heard the pin dropped into the outside lock of the car and realized that he was imprisoned.

TRIED TO HYPNOTIZE CAT.

Orders it to Kill Rats; Loses Four Goldfish and Two Canaries.

Akron, O., June 28.—After the visit of a hypnotist to Akron, Sheriff Stein, to ascertain whether he also was a hypnotist, tried it on the office cat, following as nearly as possible the exhibitor's formula by addressing "Tubby" thus: "Get, be still and listen. You are supported by the county. You are supposed to catch rodents for the county's welfare. Do you do it? Do you not. Henceforth catch, trap, earn your keep."

HOTEL WILLIAMS—GRAND ISLAND.

Hotel Williams and cottages now open for business. Accommodations will now be reserved for months of July, August, September and October. Address all communications to Hotel Williams, Grand Island, Munising, Michigan. (6-26-1w)

WELD ON POISON CHARGE.

Hod Carrier Is Accused of Trying to Kill His Rich Wife.

San Francisco, June 28.—Francis Love, a hod carrier, has been arrested on a charge of attempting to poison his wife, who owns a house on Army street and has \$10,000 in the bank. The couple met for the first time last August in the parlor of a matrimonial agency on Geary street. Love having advertised for a wife with money. Mrs. Victoria Loring, who responded to the advertisement and whom Love married, gave him an inventory of her property. According to her complaint, Love insisted on her giving him a deed to her property, and when she refused he began to annoy her in various ways. She suffered from heart disease, and he would frighten her, she alleges, with the purpose of bringing on an attack. A few days ago he gave her a powder to relieve a headache. She concealed it and turned it over to the police. An analysis showed that it contained enough strychnine to kill a dozen men and Love's arrest followed.

A PICNIC SANDWICH.

The sandwich is the picnic standby, of course, and usually good ones can be made by baking a pan of little round rolls, cutting the tops nearly off when they are cold, scooping out some of the crumb, and filling them with chicken chopped and reduced to a stiff paste with cream. They may be seasoned highly with salt and black pepper, and celery salt if liked.—Woman's Home Companion.

John Shea Negaunee.

REPORT OF THE CONDITION OF THE—

Gwinn State Savings Bank,

At Gwinn, Michigan, at the close of business, June 29, 1909, as called for by the Commissioner of the Banking Department.

The Best Spring Water on Earth

IS USED IN MAKING

"Drei Kaiser"

Bottled Beer

Along with the better grade of Malt and Hops, a trial order will convince you. Your doctor will tell you that it is health giving.

U. P. BREWING CO.

MARQUETTE, MICHIGAN.

SPECIAL NOTICE The Darantella Havana Cigar is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table, and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO. Grand Rapids, Mich.

DIABETES

It was not easy for us to believe that Diabetes is curable, but the first case we came in personal touch with was astonishingly convincing.

We were considering the purchase of Fulton's Compound and were looking for cases to try them on. One of our number knew Charles A. Newton, the yardmaster of the S. P. R. Co. at Sacramento—a very worthy man. He also knew that Newton had Diabetes and was in a hospital in the Capitol City and that his recovery seemed impossible when he last heard from him. A letter was written to Newton that Fulton claimed his Diabetes Compound cured Diabetes and that we wanted to know from our friends if this was so, and that if he (Newton) would take it that we would send him a supply of it. Newton replied to the effect that some four or five months before we wrote him he had heard about the compound, had taken it, that the sugar was nearly out and he was almost well. His complete recovery followed, and he told an S. P. engineer who had Diabetes and he recovered.

We also saw Gen. Theo. Reichert of San Francisco go on this treatment and get a complete recovery after physicians had declared that the case was hopeless. General Reichert is a 33rd degree Mason and is one of San Francisco's most widely and favorably known citizens. We have seen hundreds recover since and there is no longer any question about Diabetes in people of middle age and over being curable.

For free literature, address John J. Fulton Co., San Francisco, Cal. Fulton's Diabetes Compound can be had of our agent in your city. We desire all patients to write us who are not getting the usual improvement by the third week.

MADE IT A LIFE STUDY.

GATHERING FACTS ON FOREIGN LABOR

SPECIAL GOVERNMENT AGENT IN CITY INVESTIGATING IMMIGRATION PROBLEM.

WILL REPORT TO CONGRESS

In Employ of Commission Now Making Exhaustive Country-Wide Study of the Subject.

Special Agent Jos. C. Kellett, of Washington, D. C., in the employ of the United States Immigration commission, has been in the city for a few days gathering statistics and general information throwing light upon the foreign immigration problem.

The commission by which Mr. Kellett is employed was authorized by act of congress Feb. 20, 1907, and consists of three senators, three representatives and three members appointed by the president.

Working Along Economic Lines.

The commission was given rather free rein, both in its manner of procedure and in the amount it might expend in the work. In this country the commission is working through the great industries and conducting its investigations largely along economic lines.

It is a well-known fact that in this section the English and Irish miner is being displaced by the Finn, the Italian, the Austrian and other continental nationalities.

Findings Not Made Public.

Although very willing to discuss the general aspects of the work in which he and the commission are engaged, when asked for some of the definite results of their findings, Mr. Kellett became reticent, stating that the commission did not care to have any part of their report prematurely made public.

The report will doubtless be a very interesting one, especially in this locality where the number of foreign born is rather large. The report will be largely tabulations of statistics, although there will be a descriptive introduction, summarizing the results of the investigation.

While in this city, Mr. Kellett was chiefly interested in historical data regarding immigration and the part that foreign labor has played in the development of the mining industry of the region.

MARQUETTE & SOUTHEASTERN RAILWAY FOR THE FOURTH OF JULY

Will have in effect the regular Sunday excursion rates between all stations. Tickets will be sold on July 3rd, 4th and 5th, good for return until July 6th.

THROUGH SLEEPING CARS TO CHICAGO.

Beginning July 2nd, through sleeping car service will be in effect daily between Marquette and Chicago without change.

HOTEL WILLIAMS—GRAND ISLAND.

Hotel Williams and cottages now open for business. Accommodations will now be reserved for months of July, August, September and October.

ART NEEDLE WORK.

Exhibitions of Chicago have opened a display of their work in the Marquette Millinery company's store and the ladies are invited to call.

EXCELLENT BASEBALL.

Chicago Man Speaks Highly of Marquette-Alger County League Playing.

"I was very much surprised at the superior article of baseball that I saw in Sunday's game at the fair grounds," said a Chicago traveling man yesterday, who is an enthusiastic patron of the great national game.

B. H. S. ALUMNI ENJOY BANQUET

DAYS OF AULD LANG SYNE DELIGHTFULLY REMEMBERED AT BARAGA AUDITORIUM LAST EVENING.

The alumni banquet, given by the graduates of the Baraga High school at the Baraga auditorium last evening, was an exceedingly enjoyable occasion.

- Olives
- Veal Roast
- Mashed Potatoes
- French Peas
- Quarter Tomatoes
- Cold Tongue
- Currant Jelly
- Finger Rolls
- Fruit Salad
- Assorted Cake

After the tables had been cleared, Father Pinton, acting as toastmaster, called the banquet to order, and an interesting program of toasts was presented.

- The Bishop
- Mrs. Derleth
- Father Pinton
- Rose Yungbluth
- Father Moriarty
- Laura McCarthy
- The Sisters
- Clara Siegel
- The Alumni
- Marcelline Knowles
- The Parents
- Mrs. Rose O'Donnell
- The Class of '06
- William Mullaly
- The Baraga
- Helen Corbett
- The Benefactors
- Fanny O'Reilly

The alumni were the recipients of much praise for the success of the occasion, and the resolve was made to meet often and so keep the bonds of alumni more closely united.

YANKEE DOODLE STOCK CO.

The Yankee Doodle Stock company opened their week's engagement at the opera house last night with "The Great Devereaux Case," a thrilling melodrama in four acts.

SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., June 28.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior.

THROUGH SLEEPING CARS TO CHICAGO.

Beginning July 2nd, through sleeping car service will be in effect daily between Marquette and Chicago without change.

HOTEL WILLIAMS—GRAND ISLAND.

Hotel Williams and cottages now open for business. Accommodations will now be reserved for months of July, August, September and October.

GO TO DUQUETTES

1000 North Third street, for staple and fancy groceries, candies, fruit, sweet cream, milk and ice cream.

MR. CURRIE HAS PATENT ON HEATER

EMPHATICALLY DENIES STATEMENT OF W. H. BROWN THAT HIS DEVICE FOR LOCOMOTIVE IS AN INFRINGEMENT.

Hot Weather Fixings

Be comfortable this hot weather by wearing suitable clothing.

- A Knox Straw Hat.
- A Pair of Oxford Ties.
- A Light Negligee Shirt.
- A Suit of Bon Bon Underwear.
- A Light Alpaca or Serge Coat.
- A White or Fancy Vest.
- A Pair of "Nufangle" Trousers.
- A Pair of Silk Lisle Half Hose and a light or washable Cravat will give you a cool and comfortable look and feeling.

It is the custom of railway men to refer all new inventions to Mr. Payson before placing them in use on any road, in order to avoid getting into any trouble over patent laws.

South Shore employees stated yesterday that Mr. Brown had not called either at the railroad offices or at the shops during his stay in Marquette.

Upper Peninsula

Donates Band Uniforms—

The Verona Mining company has just done a handsome thing by the members of the Palatka (Iron county) band.

Mine Carpenter Seriously Injured—

Charles Ingall, a carpenter at the Fogarty mine at Stambaugh, was seriously injured last week while at work on the ore crusher.

Blew His Brains Out—

Tony Smith, who had been engaged in the shoe-cobbling business at Iron River off and on for over fifteen years, blew his brains out last week, following a period of excessive indulgence in strong drink.

Flowers for Commencement

The beauty and refinement for commencement exercises are Flowers. These occasions occur but once in the life of a child, and a gift of Flowers at such a time goes straight to the heart of every little one.
