CITY POLICE FORCE REDUCED BY TWO

ACTION TAKEN BY POLICE COMMISSION LAST NIGHT TO GET INSIDE APPROPRIATION.

IS \$4,000 TOO LITTLE?

Marshal Manning and several members of the board emphatically declare that it is not sufficient to properly police the city.

The city police commission wrestled with the problem of how to get along for the next twelve months on the \$4,000 appropriation allowed them by the council at their meeting last evening and finally decided that the only alternative was to reduce the police force from eight to six in number. Which two men will be laid off will be decided by Mayor Vaughan and Marshal Manning before tomorrow morning, when the reduction takes effect.

or to properly police the city at any cost. Marshal Manning was much disgruntled last night at the determination of the board to reduce the police force to six men. "I don't know how it can be done," he said, "and I do not believe the public wants any such reduction. Now there are six policemen on duty nights and Dennis Hogan and myself on duty days. One of the night men patrols North Marquette from the Normal to the furnace, another is in South Marquette, a third in the Third and Fourth wards, between the business section and the Normal, a fourth on Front street, a fifth on West Washington street and the sixth in the vicinity of St. Peter's cathedral. None of these men can cover any more territory and do it properly, and I don't know whom to take off. It is especially important to have a good sized force during the summer months, when more people are out at night."

NOT ALWAYS EFFICIENT.
State Board of Health Warns Against Domestic Water Filters.

The last issue of Public Health, published by the state department of health, contains the following regarding the efficiency of domestic water filters, which should be of especial interest to Marquette readers: "In many localities where the public water supplies are not above suspicion, resort is often had to domestic filters, ranging in price from the small twenty-five cent affair to those costing many dollars, and even more, and in which the water is compelled to pass through the filter under considerable pressure. That the public may be led into a false sense of security in regard to the protection afforded by even a high priced filter of this kind, may be gleaned from the fact that a sample recently taken from an apparently well designed and well cared for pressure filter showed, upon analysis by this department, a much better general appearance but a greater number of dangerous bacteria than a sample, taken at the same time from the same faucet without having passed through the filter. This does not necessarily indicate that the filtered water was more dangerous than the unfiltered sample but it does indicate that the filtered water was not materially improved from the standpoint of potability."

GEORGE W. HIBBARD LEAVES FOR WEST

WILL BECOME GENERAL PASSENGER AGENT OF CHICAGO, MILWAUKEE & PUGET SOUND RAILWAY JULY 1.

George W. Hibbard, who has been spending the last two weeks at the home of Charles D. Schaffer and with other Marquette friends, left last evening for Chicago, to assume the duties of his new position as general passenger agent of the Chicago, Milwaukee & Puget Sound railway. Mr. Hibbard expects to remain in Chicago about a week, and will begin his work July 1. He will then go to Seattle, where will be his official headquarters. The trip West will not be made hurriedly, as Mr. Hibbard desires to inspect the new line over the passenger service of which he will preside. The C. M. & P. S. is the name for the St. Paul's outlet to the Pacific coast, which was completed but a few months ago. It extends from Mowbride, S. D., to Seattle.

Mr. Hibbard is very well known in this city, being for a number of years connected with the Duluth, South Shore & Atlantic railroad. He was with the road first as western passenger agent of that road for a number of years, coming back to the states to become connected with the Northwestern and Union Pacific lines. He went to Melbourne, Australia, as the representative of the two lines, being one of the first Western passenger men to be sent to the Antipodes.

From Australia, Mr. Hibbard was called to the employ of the South Shore, going from that road to the National lines of Mexico. Mr. Hibbard became general passenger agent of the Mexican lines four years ago next month. When the consolidation of the Mexican lines was effected Mr. Hibbard left for the states and soon received the appointment from the Milwaukee.

FOURTH OF JULY.
