CORNELL'S DAY ON THE HUDSON

Ithaca's Stalwart Oarsmen Make a Clean Sweep of the Annual Regatta of the Intercollegiate Rowing Association.

Not Only Do They Win All Three Races, Defeating the Crews of the Other Four Universities Represented, but in Both the Varsity Four-Oared and the Freshmen Eight-Oared Event They Establish New Records for the Poughkeepsie Two-Mile Course.

—Varsity Eight—
Cornell, 19:02; Columbia, 19:04 2-5;
Syracuse, 19:13 1-5; Wisconsin, 19:21 1-5;
Pennsylvania, 19:52 1-5.

—Varsity Four—
Cornell, 10:41; Syracuse, 10:10; Columbia, 10:12; Pennsylvania, 10:27.

—Freshmen Eight—
Cornell, 9:07; Syracuse, 9:14 4-5;
Pennsylvania, 9:21; Wisconsin, 9:22 4-5;
Columbia, 9:26.

Poughkeepsie, N. Y., July 2.—This was Cornell's day on the Hudson. Her stalwart crews made a clean sweep of the annual regatta of the Intercollegiate Rowing Association. Cornell, besides defeating the crews of the other four universities represented in today's races, established two records for the two-mile course—one in the varsity four-oared race and another in the freshmen eight-oared race. Altogether it was a great day for the collegians from Ithaca, and tonight they are celebrating in true Cornell style.

Promptly at 3 o'clock the crews in the four-oared race rowed up stream to the starting mark, and from that time on the program went through with prompt despatch.

Story of the Varsity Race.

Cornell took her place first, in the varsity race, followed quickly by Wisconsin, Syracuse, Columbia and Pennsylvania. There was no delay, and at 5:18 o'clock the starting gun was fired. Five sets of oars caught the water simultaneously and five shells went speeding along the smooth surface of the river on equal terms. There was no advantage at all to start and for a moment the bows of the boats advanced evenly.

Pennsylvania got her stroke first, and for a very brief spell poked her shell in front, with Wisconsin and Cornell a foot behind and Syracuse and Columbia close up. Then Cornell's shell shot to the front and began to gain. Syracuse pulled up to within a half length of the Ithacans, with Pennsylvania third, Wisconsin fourth and Columbia fifth.

At the first mile Cornell had a lead of three-quarters of a boat length over Syracuse, with Columbia third, Wisconsin fourth and Pennsylvania last. Columbia continued to cut down the lead of the two crews ahead.

Cornell held her lead at the mile and a half. Columbia was then almost even terms with Syracuse and rowing strongly, while Wisconsin and Pennsylvania had not lost a foot.

Cornell Puts on Extra Power.

Approaching the two-mile mark, Cornell put on extra power and opened up a bit of open water between herself and Syracuse, with Columbia lapping them and Wisconsin and Pennsylvania still holding their places a length apart. As they passed the half-way mark, Columbia brought up her stroke to thirty-six and slowly but steadily she crept up on Syracuse, cutting down the lead foot by foot.

Cornell let out a notch, and at the two and a half mile flag had a lead of an open length over Syracuse, which was but a scant half length ahead of Columbia. Wisconsin was rowing well, a length behind Columbia and two lengths ahead of Pennsylvania.

At the three-mile post, all the crews were rowing steadily and strongly, and for a quarter of a mile not a foot was gained or lost by any of them. Suddenly Columbia's men increased their stroke, and their shell shot through the water like a torpedo boat. Cornell hit up to thirty-five strokes and increased her lead of a length to a length and a half over Syracuse. But Columbia was not to be denied, and she slowly overtook Syracuse, getting the bow of her shell in second place just as the three-mile mark was crossed. Syracuse seemed to flounder for a moment, but quickly settled down and tried gamely to regain second place. It was no use, however, and the race began to look like an exciting finish between Cornell and Columbia. Wisconsin and Pennsylvania, meanwhile, seemed to be dropping back and were clearly out of it.

Ithacans Win by a Length.

Columbia crept up so that she might touch bow to stern with the Cornell shell. The Ithacans ran their stroke up to thirty-five. For half a mile Columbia hung on doggedly, with Syracuse in third place and Wisconsin and Pennsylvania bringing up the rear. Without a perceptible extra effort, Cornell pulled away until a bare stroke of open water showed ahead of Columbia. Syracuse came along two and a half lengths behind, the same distance separating her from Wisconsin. Pennsylvania was last by a length.

In this order they swept on, and in this order they finished, to the roar of ten thousand throats and the shrieks of a thousand whistles. Cornell had all the honors, and tonight Cornell owns the streets of Poughkeepsie.

In the four-oared race, Cornell won easily, three lengths ahead of Syracuse, and in the freshmen race by a length,

SENATE VOTES TO LEVY ON EARNINGS

Corporation Tax Amendment Suggested by President Taft Becomes Integral Part of Tariff Bill as That Bill Now Stands.

Substituted for the Proposition of Putting Incomes Under Tribute, Which Change Is Favored by 45 and Is Opposed by 31 Members, It Is Adopted by an Overwhelming Majority and the Long Pending Payne-Aldrich Measure Enters Upon Its Final Stages.

Washington, July 2.—The corporation tax amendment which was suggested by President Taft, given by Attorney General Wickersham and presented to the senate by Mr. Aldrich, of Rhode Island, chairman of the committee on finance, is an integral part of the tariff bill as that bill now stands.

After much tribulation, the senate reached a vote on the proposition shortly before adjourning at 7 p. m. today, and the amendment was agreed to. With all the modifying amendments disposed of, many Democrats voted with most of the Republicans for the amendment. Only three Democrats voted against the provision on the administrative features of the bill, but some refrained from voting at all.

The test vote was on the substitution of the corporation tax amendment for the income tax provision, and on that vote forty-five senators voted in the affirmative and thirty-one in the negative. On this ballot all the Democrats voted, which also received the support of a number of the "insurgent" Republicans.

The income tax question now disposed of, the senate tomorrow will enter upon the administrative features of the tariff bill, probably taking up the maximum and minimum rate provision.

Early Vote a Surprise.

The reaching of the vote today came somewhat of a surprise to a large majority of the senators, but not to Mr. Aldrich and his intimate advisers. Senator Aldrich himself had been confident from the time of his arrival in the senate on the 29th of the day, after a brief vacation, that he would succeed in getting a vote before adjournment. The result shows that while the situation seemed extremely critical for a time, the chairman of the finance committee did not count without a thorough understanding of the situation. He therefore kept his lieutenants busy holding his supporters in the chamber, and at no time during the day was the senate without a quorum.

The debate was somewhat more animated than yesterday, and there was a steady fire of oratory from the beginning of the session until 4:30 o'clock. During that time Senators Heyburn, Hughes, Cummins, Newlands, Rayner, Brandegee, Root and Aldrich discussed all phases of the income tax question. Of these Mr. Newlands was the last speaker, and when he had concluded Mr. Aldrich took the floor and made a request for a unanimous agreement for a vote on the corporation tax amendment tomorrow at 1 o'clock. Previous to presenting this request, there had been much conferring between Senator Aldrich and Senators Bailey, Cummins, Borah and other opponents of the amendment, and it was generally supposed that they had reached an understanding that the vote should be taken tomorrow, as suggested by Mr. Aldrich.

Senator Cummins Objects.

When it seemed that such a compact was probable, Senator Cummins came to the front with an objection. While many senators were disposed to the idea that, because of the then parliamentary state of the corporation amendment, it was not capable of modification, the Iowa senator took the reverse position. He opposed the agreement because the provision would be amendable in case it should be substituted for the Lodge countervailing duty, which everyone understood would result. His theory was that there should be a square vote on the issue as it had been presented, and no vote on any amendment which might make his appearance. Mr. Fraser soon came in, and thereupon the Texas senator entered formal objection to a unanimous agreement, which not only had the effect of preventing the fixing of the vote for tomorrow, but of forcing it today.

Then after Senator Cummins' objections had been recorded and Senator Aldrich had called for a vote, it looked as if the latter would be disappointed. Senator Fraser, who had been supporting the income tax amendment and opposing the corporation tax, was absent from the chamber on account of illness. Desiring that he should be present when the vote was taken, Senator Bailey took the floor and announced his determination to hold it until Mr. Fraser could make his appearance. Mr. Fraser soon came in, and thereupon the Texas senator yielded and the voting began.

Income Tax Men Dwindled.

The first vote was upon the motion to substitute the corporation tax amendment for the Lodge countervailing duty amendment, and this prevailed, forty-five to thirty-one. The affirmative vote was cast entirely by Republicans, even Senator Frasier, of Louisiana, who has voted with the majority side for all protective measures, throwing his ballot with his own party. The Republicans

who voted with the Democrats in the negative were Senators Borah, Bristow, Bulkeley, Clapp, Cummins, Dooliver and La Follette.

Immediately following, Senator Lodge withdrew his amendment, and a vote was taken on the motion to substitute the corporation tax amendment for the income tax amendment offered jointly by Senators Bailey and Cummins. The result was an exact counterpart of the vote on the previous roll call.

Next in order came the vote upon the corporation tax provision upon its own merits, but before this ballot could be reached Senator Bacon sought to obtain action on two amendments. The first provision presented by himself, both of which Mr. Aldrich moved to lay upon the table, with successful result.

The first of these amendments provided for the exemption of education, charitable and religious institutions, against which Senator Aldrich made his first point of order. Because he did so, he fell into a sharp clash with his author. The effect of the point of order was to cut off debate, but Senator Aldrich chanced to drop the remark that he would "allow" the amendments to proceed. The form of expression seemed to incense the Georgia senator, and he retorted sharply to the effect that he was "not surprised that Mr. Aldrich should assume such a manner, because he had been declaring to the senate so long that he was accustomed to use language of that kind." When the amendment was laid on the table, forty-two to thirty-two, the Georgia senator immediately presented another amendment, this one requiring the taxation of bonds, which was rejected, thirty-four to forty-three.

Final Vote Is Sixty to Eleven.

The climax was then reached, and without any preliminaries the final vote was taken. It was agreed to the corporation tax amendment as part of the tariff bill, and this amendment was adopted, sixty to eleven. Of the eleven negative votes, eight were cast by Republicans and three by Democrats, the Republicans being Senators Borah, Bristow, Bulkeley, Clapp, Cummins, Dooliver, Heyburn and LaFollette, and the Democrats Senators Chamberlain, Hughes and Shively. The affirmative vote was: Aldrich, Bradley, Brandegee, Briggs, Brown, Burket, Burnham, Burrows, Burton, Carter, Clark of Wyoming, Crawford, Cullom, Curtis, Dewey, Dick Dillingham, Dickson, DuPont, Elkins, Flint, Frye, Gallinger, Gamble, Guggenheim, Johnson, Jones, Keam, Lodge, Lorimer, McComber, Nelson, Page, Penrose, Perkins, Piles, Root, Senators La Follette, Stratton, Warner, Warren and Wetmore, Republicans, and Bailey, Bankhead, Callahan, Daniel, Davis, Fletcher, Foster, Gore, Johnson, McEnery, McLaurin, Martin, Moberg, Newlands, Rayner, Tamm and Taylor, Democrats.

When the final result was announced, the senate adjourned for the day.

To Prohibit Prize Coupons.

A decision to recommend the prohibition of prize coupons in tobacco packages and a practical agreement to increase the duties in most of the provisions of the tobacco schedule of the administrative features of the tariff bill were reached by the Republican members of the sub-committee of the senate finance committee today.

WRIGHT AEROPLANE MEETS WITH MISHAP.

Terminating the Second Flight of the Day, the Motor Suddenly Stops, and in Gliding to Earth the Machine Hits a Tree and Is Damaged Somewhat.

Washington, July 2.—Resembling a giant bird swooping down upon its prey, the Wright airplane, which kept its lieutenants busy holding his supporters in the chamber, and at no time during the day was the senate without a quorum.

MEAT INSPECTION O. K.

Harms' Charges Found False, He and Two Other Officials Are Summarily Dismissed.

Washington, July 2.—The committee appointed by secretary of Agriculture Wilson, composed of Dr. A. D. Melvin, of the bureau of animal industry, and George P. McCabe, solicitor of the department, which investigated the charges of J. F. Harms that the federal meat inspection service at East St. Louis, Ill., was rotten and "farcical" today reported that the inspectors there were honest men, performing their duties efficiently, and that no meat had been passed which was unfit for human food. As a result of the report, Secretary Wilson has ordered the summary dismissal of Meat Inspectors Harms and Bischoff and Veterinary Inspector Michael.

BANK'S MANAGER HELD UP.

Robbery at Rainey River, Ontario, Nets Three Bandits \$10,000.

Winnipeg, July 2.—The bank of Nova Scotia at Rainey River, Ont., across the river from Warrsord, Minn., was robbed of \$10,000 at noon today. Three armed men held up Manager Templeton, who was alone. The robbers escaped. The cashier was shot in the leg.

THE WEATHER.

Washington, July 2.—The following is the weather bureau's forecast for Upper Michigan: Fair, Saturday and Sunday; moderate northerly winds.

MAYOR BUSSE IMPROVES.

However Chicago's Executive Is Not Yet Completely Out of Danger.

Chicago, July 2.—Mayor Busse showed steady improvement today, according to the bulletins issued by the physicians, although a sudden rise of temperature tonight showed that he was not completely out of danger. At 9 o'clock his pulse was 132; temperature, 110.2; respiration, 38.

SCHEDULE FOR TODAY.

National League.
Boston at Philadelphia.
New York at Brooklyn.
Chicago at Pittsburg.
Cincinnati at St. Louis.
American League.
Detroit at Cleveland.
Washington at Boston.
St. Louis at Chicago.
Philadelphia at New York.

Games for Sunday are scheduled as follows: National league, Pittsburg at Cincinnati and St. Louis at Chicago; American league, Detroit at St. Louis and Cleveland at Chicago. The following is the schedule for Monday: National league, St. Louis at Chicago, Cincinnati at Pittsburg, New York at Philadelphia and Boston at Brooklyn; American league, Detroit at St. Louis, Chicago at Cleveland, Washington at Boston and Philadelphia at New York.

YESTERDAY'S GAMES.

National League.
Philadelphia, July 2.—Philadelphia won the first game, which went eleven innings, but Boston got even by shutting out the home team in the second game, through Boston's splendid pitching. Dooin was sent to the clubhouse in the second game for disputing a decision.
Score: R. H. E.
Philadelphia 0200001101—5 13 2
Boston 20100100000—4 7 6
Batteries—Jensen, Adams and Gibson and Bimet; Brown and Archer.
Second game:
Score: R. H. E.
Philadelphia 000000000—0 2 0
Boston 0001000011—3 10 0
Batteries—Moore, Jacobin and Froelich; Mattern and Bowerman.

Pittsburg, July 2.—Pittsburg and Chicago divided a double-header here today, the visitors shutting out the locals in the first contest but losing the second. While the pitching all around was of high class, errors figured in the runs in both games. Archer was hit by Clarke's ball in the seventh inning and was forced to quit the game.
Score: R. H. E.
Pittsburg 000000000—0 6 4
Chicago 0001002020—8 12 3
Batteries—Cannon, Adams and Gibson and Bimet; Brown and Archer.
Second game:
Score: R. H. E.
Pittsburg 000200200—4 8 4
Chicago 0001001000—2 2 3
Batteries—Maddox and Gibson; Morgan, Reulbach and Archer and Harman.

St. Louis, July 2.—Cincinnati lost a ten-inning game today, when with the bases full Evans hit safely. Two home runs were made in the first inning, and hard hitting was the rule of the contest.
Cincinnati 2010100000—4 5 3
St. Louis 2020000001—5 13 4
Batteries—Fromme and McLean; Beebe and Bresnahan and Phelps.

Brooklyn, July 2.—New York won in the ninth today, after Brooklyn had tied in the sixth. Pastorius, in the ninth, passed three men in succession. Murray brought in the winning runs with a timely single.
Score: R. H. E.
New York 0000012002—8 14 1
Brooklyn 000001020—3 7 1
Batteries—Marquard, Raymond and Schlei; Pastorius and Bergen.

American League.

Chicago, July 2.—Chicago swamped St. Louis 15 to 3 today. The winners battered Graham and Criss off the slab and hit Howell hard. One of the features was the scoring of three runs by Chicago on Payne's single in the first inning.
Score: R. H. E.
Chicago 500523000—15 14 1
St. Louis 000030000—3 12 4
Batteries—Walsh and Payne; Graham, Criss, Howell and Criger and Smith.

Boston, July 2.—Collins' clean hit for a home run gave Philadelphia the fourth victory out of the five-game series with the locals which ended today. Krause held Boston to four scattered hits for the second time in four days. He also

SAYS CHARGE OF THEFT WAS MANUFACTURED.

Telling the Story of Her Life, Ella Gingles, the Irish Lace Maker, Wins Much Sympathy as She Testifies in Her Own Courtroom.

Chicago, July 2.—Ella Gingles, the Irish lace maker, took the witness stand in her own defense in Judge Brentano's courtroom here today, telling a story that aroused the fresh sympathy of many women prominent in church and philanthropic work, who crowded into the room to hear her.

The girl told the story of her life to the day when she was charged with the theft of lace from Miss Agnes Barrette of the Wellington Hotel. She declared that this charge against her was manufactured, and when she left the stand her attorneys promised that tomorrow she would be allowed to go into the details of the attack upon her in the hotel and how she was almost forced into a life of shame by the women who pretended to be her friends.

The young lace maker came to Montreal alone two years ago, she said. After working a few months in Canada, she came to Chicago and rented a little room in a boarding house. She worked as a chambermaid during the day and at night made lace. It was the story of a struggling unsophisticated country girl to that point. Then Miss Barrette entered her life, and trouble began. Instead of stealing lace from Miss Barrette, the girl said, Miss Barrette and Mrs. Cecilia Kenyon, who died a few days ago, came to her room at night and ransacked her belongings, taking her money and her watch and little things she had made in her childhood. Her eyes filled with tears at times as the injustice she had suffered came home to her.

CALIFORNIANS SCARED.

Earth Shocks Felt for Over a Week, They Fear an Eruption of Mount Fillmore.

Downville, Cal., July 2.—For over a week earthquake shocks have been felt here every night. The residents of Sierra county are getting uneasy as they fear an eruption of Mount Fillmore, which seems the center of the disturbed area. The miners, fearing cave-ins, are refusing to work underground.

Spanish Towns Damaged.

Alicante, Spain, July 2.—Three earth shocks were felt here yesterday afternoon. At Torrevieja and surrounding towns the walls of many houses were cracked and other damage was sustained. So far as known there were no casualties.

COTTON PRICES RISE.

Government Crop Report Causes a Sensational Flurry at New York.

New York, July 2.—A sensational advance followed the publication of the government's condition figures in the cotton market today, with all positions selling at new high records for the session, and the market at one time showed a net advance of 57¢ per point. December contracts sold at 21.18, an advance of one and one-half cents per pound from the low level of last month, and the market closed only a few points from the best, under realizing, with the tone firm, at a net gain of 51¢ 55 points.

DELUGE AT MILWAUKEE.

New Record Is Set When an Inch of Rain Falls in Eighteen Minutes.

Milwaukee, July 2.—The fiercest rain storm in the history of the Milwaukee weather bureau was experienced this evening. An inch of rain fell in eighteen minutes, the previous record being an inch in forty-five minutes. Many trees and signs were blown down by a fifty-eight mile wind. The storm followed the hottest day of the year, the thermometers registering in the nineties.

Chicago's Hottest Day.

Chicago, July 2.—Chicago experienced its hottest day of the year when the thermometer registered ninety-one from 4 to 5 p. m. today, and a new precipitation record for 1909 also was set when .75 of an inch of rain fell in twenty minutes shortly after 7 o'clock. Two deaths superinduced by the heat were reported to the police and numerous cases of prostration were treated all over the city.

St. Louis Like a Furnace.

St. Louis, July 2.—This was the hottest day of the summer, street thermometers showing ninety-six degrees at 1 o'clock this afternoon.

struck out nine men and did not give a base on balls.
Score: R. H. E.
Philadelphia 000001000—1 6 2
Boston 000000000—0 4 0
Batteries—Krause and Thomas; Wood and Carrigan.

Cleveland, July 2.—Detroit defeated Cleveland in a twelve-inning game today. Errors were responsible for all the runs. Schaefer batted in the winning tally.
Score: R. H. E.
Cleveland 000100100000—2 8 3
Detroit 020000000001—3 10 3
Batteries—Rhoads and Easterly; Suggs, Mullin and Schmidt.

New York, July 2.—Washington was shut out in today's game. Hughes struck out eight men and his single in the fifth inning brought in two of the locals' three runs.
Score: R. H. E.
Washington 000000000—0 3 1
New York 000020010—0 8 1
Batteries—Johnson and Street; Hughes and Sweeney.

CAVE-IN BURIES A SCORE OF MEN

Twenty Workers Are Caught Like Rats in a Trap When the Wall of a New Lock Suddenly Collapses at Newport, England.

Busily Employed at the Bottom of a Sixty-Foot Trench, the Victims of the Disaster Have Not the Slightest Chance to Escape When, the Timbers Giving Way, Many Tons of Earth Are Carried Down Upon Them, and They Perish Miserably.

Newport, Monmouthshire, Eng., July 2.—It is estimated that twenty men perished today by the sudden collapse of the west wall of the new lock at the entrance to the Alexandra dock. An extension of the dock work has been in progress for some time and fifty men were working in a trench sixty feet deep, preparing for the laying of the concrete foundation.

Without the slightest warning the shoring timbers gave way and the entire structure collapsed, carrying down with it thousands of tons of earth, the railway lines on both sides of the trench, many railway cars and four travelling cranes.

The men at the bottom of the trench had no chance to escape, but many of those working nearer the surface were uninjured. Three men were taken out alive soon after the collapse. Up to midnight eleven dead bodies had been recovered.

FAILURE A BAD ONE.

Ironwood Report Says It Is Alleged That Cashier Larson Has Embezzled \$200,000.

Ironwood, Mich., July 2.—President H. F. Jahn, Cashier E. T. Larson and Assistant Cashier G. Biddow, of the First National bank of Ironwood, which was closed last week by the federal authorities, have been held to the grand jury to answer to charges of embezzlement and falsifying entries. The loss to the depositors will probably be large, as it is alleged that Larson has embezzled \$200,000 of the funds of the bank.

TREASURY ALMOST BARE.

State of Michigan Face to Face With a Six Months' Financial Stringency.

Lansing, Mich., July 2.—The state of Michigan faces a six months' financial stringency, owing to the condition of the state treasury. Only \$300,794 remained in the general fund at the opening of the fiscal year yesterday, and during the day \$136,900 of that amount was paid out. The new taxes are not expected to come in before the first of next year, and the state officials are trying to find some way to bridge over the intervening six months. It is expected that arrangements will be made by some of the state institutions to get their supplies on credit until the first of the year.

SULTAN ENRAGED.

Soldiers Beheaded, Moorish Sovereign Retaliates by Whipping the Pretender's Whipper.

Tangier, Morocco, July 2.—During the recent fighting in front of Fez, between the forces of the sultan and the troops of the sultan's brother, several soldiers were captured and decapitated, their heads being exposed in the pretender's camp. El Kebir has entered Mequinez, Mulai Hafid, the sultan, was so enraged when he learned of the decapitations ordered by his brother that he had El Kebir's mother whipped in public.

RUSSIANS COMPLAIN.

Invading Japs Accused of Depredations on the North Siberian Coast.

St. Petersburg, July 2.—A despatch from Nicholasiev reports that a small party of Japanese landed on one of the islands of the Shantar group off the North Siberian coast is acting in a most lawless way, attacking and attempting to rob Russians and natives, their heads being exposed in the pretender's camp. One German and two Russian subjects who departed there last autumn have disappeared and are thought to have been murdered.

CHINESE SHOPS RAIDED.

Officers at Washington Seize Much Gambling Paraphernalia.

Washington, July 2.—Charged with using the mails for illegal purposes, the proprietors of three Chinese shops were arrested tonight. The raid was made by Postoffice Inspectors Keams and Barclay, assisted by about a dozen members of the local detective and police force. In each place a large amount of gambling paraphernalia was found.

MURDER ENTIRELY POLITICAL.

London, July 2.—Madar Lolo Dhinagari, the Indian student who last night shot and killed Lieutenant Colonel Sir Wm. Hutt Curzon Willie and Dr. Cavas Lalicaia, of Spanghal, was this morning remanded for one week, after being formally charged with murder. At the India office the murders are held to be entirely political.

FLAMES SWEEP! BIG SILVER CAMP

Fire at Cobalt, Ont., Causes a Loss of \$400,000, Results in at Least One Death and Renders Two Thousand Persons Homeless.

Starting in the Kitchen of a Chinese Restaurant, a Blaze Is Fanned Into a Conflagration Which Locks Up Building After Building in the Main Street of the Town, Not a Structure Being Left Standing for Half Mile on Either Side of the Thoroughfare

Cobalt, Ont., July 2.—Fire swept through Cobalt today, causing a loss of probably \$400,000 and at least one death and the injury of six persons. It is estimated that two thousand persons are homeless tonight. Starting in the kitchen of a Chinese restaurant, the flames spread rapidly and were soon beyond control. Stores, saloons and other business structures were consumed, and both sides of the main street for half a mile were burned clean. Of the loss, not more than one-tenth is covered by insurance.

Hotel Burns at Lake Placid.

Lake Placid, N. Y., July 2.—The Hotel Ruessaumont, one of the largest hotels on Lake Placid, burned last night. Some fifty guests were rescued with great difficulty. One man was fatally burned.

MARKET WELL NIGH STAGNANT.

Wall Street Trading in Stocks Is of Trivial Proportions.

New York, July 2.—The stock market today was a trivial affair comparatively, both in the volume of the dealings and in the feeble fluctuations of the prices. The imminence of the three-day holiday interval left the speculative element indisposed to take chances of accidents happening during that period. The developments in the way of news received little attention. The undertone was very firm, and the waiting attitude of the speculation was coupled with an apparent determination to cling to present stock holdings.

Today confirmed the conviction that the money market was becoming agitated even a ripple of disturbance from the passage of the July settlements. The call loan rates here were easier than yesterday, in spite of the stock market demand to carry over until next Tuesday.

There was a group of stocks of small bankrupt railroads with reorganization plans being worked out which showed acute weakness and fell rapidly towards the point of extinction of value. Great Western, for instance, sold as low as 11½. The general market was comparatively unaltered, although some checks to the earlier tendency was perceptible.

The news from the grain fields today continued favorable. The advance in Union Pacific was helped by a report that the company had sold its allotment of the new Southern Pacific convertible bonds to which it was privileged as a Southern Pacific stockholder to subscribe at 96. These bonds advanced today to 106, a record price. Copper rose in the London market today, and this gave some benefit to the copper industrials. The market was in a state of virtual stagnation at times, and closed easy.

State of the Nation's Trade.

Copper Country

NOW FOR THE FOURTH.

ELECTRIC PARK ATTRACTS.

All Plans in All Copper Country Towns Complete for the Day.

Attendance During June Has Been Large—Many Dates Booked.

The copper country towns are all ready now for the celebration of the Fourth of July next Monday. Red Jacket, Hancock, Hurontown, Painesdale, Hixson and Rockland will observe the natal day in rousing style. All of the celebrations are on a grand scale, and the Hancock plans probably explain them all.

The attendance at Electric Park during the month of June, including school children, was 16,185 by actual count. On account of the weather only two band concerts were given. The free dances are well patronized, as are the concerts given Sunday by the Calumet & Hecla band. Electric Park is an ideal place for picnics or private parties, being situated between Calumet and Houghton where cars pass every fifteen minutes, making it very convenient for anyone wishing a few hours' rest and a breath of cool and refreshing air.

The last meeting of the committees preparing for the celebration in that city was held Thursday evening. The finance committee reported that there was \$1,500 to spend. This is a snug amount and should give all a good time. A feature will be the parade. William H. Mason will be grand marshal and his aides will be J. E. O'Neill, C. O. Oliver and Major Heckel. There will be large floats carrying the children of the public and parochial schools. Following the parade will be the vanderbilt acts and races. The wrestling tournament will be held in the west end. In the evening there will be a fireworks street parade, in which the militia men and mining school students will participate. The men will be furnished with fireworks. No less than 2,500 Roman candles have been purchased for this purpose. The decorating committee at Hancock has made good progress with its work. A huge flag of electric lamps has been placed on the city hall, and an electric sign of welcome will be erected today. All the lamps on the strings of incandescents along Quincy street will be covered with Japanese lanterns, and flags will be placed on every pole on the streets.

Various improvements have been made this year, among them being the addition of several new swings and ice-toters. The pavilion has been enlarged, giving more seating space. A check room and ladies' room have been added. The restaurant has been renovated.

Today, besides the free dance, the church of the Swedish M. E. church of Calumet will be held at the park. Tomorrow the Calumet & Hecla band will give a concert. Tuesday, the sixth, will occur a free dance. Wednesday, the seventh, the clerks of Houghton and Hancock will give a social and dance. Thursday occurs another free dance, and also on Saturday. On the thirteenth of the month the St. Joseph's parish school of Hancock will give a picnic to the school children. Beginning with the 14th and including the 17th, the Methodist churches will hold a "scullint-gate festival."

CALUMET WANTS PARK SYSTEM. Committees Are Planning Petitions to Village Councils.

PROSPERITY IN KEWEEWAU. New-Old County Is Having a Revival Which Is Really Amazing.

Keweenaw county is enjoying the most prosperous year in the history of the district. Everybody is busy and there is work in plenty for those who want it. The population is growing steadily. Every month a considerable number of additional wage earners find employment in the old towns or at the properties being developed into new ones. New towns are springing up here and there, store buildings and residences are being erected. Keweenaw county's roads are being vastly improved, particularly the one built by Algonz township through Mohawk, running northward towards Phoenix to connect with the county highway. Other townships will continue this road through their boundaries. Three grades of crushed rock are being used, the dressing being very fine and solidly packed. In time this road will become a very popular speedway, for it is straight as an arrow, evenly rounded and excellently built. The road is now completed as far as two and a half miles north of Mohawk. A large gang of men is at work on it. The rock is being secured from the Mohawk mine. At Mohawk, alone, there is a great deal of building work going on. Six or eight new residences are going up at the present time. Others are to be built as soon as the contractors can get ground to do the work. All these new homes will be occupied as soon as they can be made ready. At Alamek there is considerable building going on, also. The large structure building for Glass Bros. is rapidly nearing completion and will be occupied before the end of the present summer. Then there is Copper City, a complete new town. Every new home built to date in Copper City is occupied and, although this little town is located in Houghton county, it will contribute greatly to the prosperity of Keweenaw.

YANTIC OFF FOR A CRUISE. Hancock and Escanaba Naval Reserves on Board the Steamer.

The U. S. steamer Yantic, having on board the upper peninsula battalion of the Michigan Naval Brigade, left last night for a fortnight's cruise. The ship is in command of Captain H. S. Goddard of Painesdale.

The battalion is made up of the Hancock and Escanaba divisions of the naval reserve. The trip is a practice cruise in anticipation of the annual cruise of the naval reserves of the great lakes. The trip will include Marquette. It is expected that the Yantic will return to her dock at Hancock by Tuesday morning at the latest.

A HURRY-UP MEDICINE. Every housekeeper recognizes the need of effective remedies to be used in emergencies when something has gone wrong.

Such a remedy is Perry Davis' Painkiller, for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to healing. Its mixture of mercury is so active that it is used in all countries and millions of bottles are sold annually. There is but one Painkiller, Perry Davis'. Have you seen the new large 35c size?

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak patriot and a weak fighter.

A sound stomach makes for good citizenship as well as for health and happiness. Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for paper covers, book or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

GETS PARK FOR THE RACES. Laurium Firemen's Committee Signs Contract for Tournament.

The Laurium firemen's committee, which has charge of the arrangements for the tournament to be held there in August, has signed a contract with the Laurium Park association for the use of the driving park for the tournament races and athletic events. The contract provides that the committee will not have to go to the very heavy expense of building a special track. Whether or not the track can be used for the proposed races between the fire horse teams, hitherto to be run on the street, will be decided by the association. It does not seem that the bed of the track injured in any way.

TO MOVE HANCOCK PUBLICATION. Said that "The Wage Slave" Will Now Be Printed in Superior.

The Finnish Publishing company of Hancock, Mich., proprietors of "The Wage Slave," a journal printed in the English language, and "The Worker," printed in Finnish, will establish a plant in Superior in August, says the Duluth News-Tribune.

According to Socialist leaders, the move of the company in changing its headquarters to this city was influenced by the fact that Superior is a more central point for the distribution of the papers and that in view of the increased circulation of the periodicals in this part of the country, Superior is the logical publishing center. The entire plant which is at present in operation at Hancock will be removed there and it is possible that "The Wage Slave" will be published twice a week.

It is stated that 68 per cent of the stock of the Finnish Publishing company is owned by the Socialist party and the balance by individual members. At the present time the company employs about twenty men, and it is anticipated that with the change of location this number will be materially increased.

COPPERDOME VITAL STATISTICS. The May issue of the Michigan Bulletin of Vital Statistics has been received. The following table of births and deaths during the month has been compiled therefrom:

| | Deaths. | Births. | Excess. |
|-----------------|---------|---------|---------|
| Upper peninsula | 274 | 681 | 25 |
| Houghton county | 62 | 164 | 7 |
| Baraga | 3 | 20 | 0 |
| Keweenaw | 5 | 23 | 0 |
| Ontonagon | 5 | 20 | 1 |
| Hancock city | 10 | 17 | 0 |

SEES MOTHER GROW YOUNG. "It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Me. "Although past 70 she seems ready to be growing young again. She suffered untold misery from dyspepsia and indigestion. At last she could eat, drink and sleep. Doctors gave her up and all remedies failed until Electric Bitters worked such wonders for her health." They invigorate all vital organs, cure Liver and Kidney troubles, induce sleep, impart strength and appetite. Only 50c, at The Stafford Drug Co.

Everyone would be benefited by taking Foley's Orino Laxative for stomach and liver trouble and habitual constipation. It sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? Sold by all Druggists.

Apply to local agent for further particulars and reservation. (6-16-21w)

KEEP ON TRYING. A little girl who had a live bantam presented to her was disappointed at the first egg laid by the bird. Her ideal egg was that of the ostrich, a specimen of which was on table in the drawing room. One day the ostrich's egg was missing from its accustomed place. It was subsequently found near the spot where the bantam nested, and on it was stuck a piece of paper with the words: "Something like this, please. Keep on trying."—Dulce Adversus.

S.S.S. CURES OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the sore remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

to-day occupies a prominent position in the history of the copper mining world. This company has been in existence less than twenty years. In that time it has paid close to five and half millions in dividends out of a comparatively small mine, the limit of the acreage of the company's lands, including that upon which it has mineral rights and not surface holdings, being 320 acres. The mine has at least twenty years of productiveness and dividend possibilities ahead of it, based upon the amount of stopping ground already in evidence and ready for action and the continuance of this average ground to the limits of the boundary line. In this connection it might be observed, with some degree of consideration, that the extent of the mineralized acreage of a mining company is not as important to its earning capacity as the amount of mineral in the average and the economy of operation of the enterprise, once in working order.

For the year just closed the Wolverine will show a production which can be added to the amount of mineral in the history of the copper mining world. The figures for the month of June not being at hand when this is written. The cost of production, including at item of \$42,000 for construction account, eastern office expenses and smelting and shipping charges, will be seven and one-half cents per pound. This is a record unequalled in local mining circles. The books of the Wolverine company are open to all shareholders and the annual reports give every detail which may be desired. And the Wolverine economy of operation is not alone in the mine management, but in the underground savings, in the cost of rock house handling and in the milling costs. In practically every detailed item included in the costs of the company it can be shown that the Wolverine company, small as it is and limited in its work, can show better figures than most of the mines of this district. This statement may seem at variance with the generally accepted commercial notion that consolidation of similar corporations means economies in operation, a statement which is quite true as a general rule, even including copper mines, but the Wolverine seems to be the one exception. And in this connection the management at the Lake, where the mine has been under the superintendence of Fred Smith as agent for these many years of its success, is entitled to particular credit and congratulation.

The Wolverine's deepest shaft, No. 3, is now bottomed at a depth of 3,600 feet where the vein matter is fully up to the average. The persistency of values at these lower levels is the most remarkable thing about the Wolverine's continued success and offers the greatest assurance for the continued material prosperity of the company. Number 4 shaft is now down 2,300 feet. The copper is running better than twenty-five pounds to the ton of rock mined.

Copper Range Consolidated. The continuation of the betterment in values in the underground showings of the lower levels of the Trimonium is a most extreme gratification to the management of the properties. When it was announced some ten months ago that the Trimonium mine was showing better values and getting into richer ground, there was a general disposition in which the management shared, to feel that this better condition might be temporary only. As the work progressed and the openings were extended and the greater depths reached the improvement, instead of showing a diminution in values, proved higher grade right to the very bottom. The Trimonium mine is preparing to show a much better grade of commercial copper rock than it has sent to surface in all the years it has been part of the Consolidated company. The faith in the future of this mine is guarded on good mining judgment and the little doubt that the Trimonium mine will place it on a basis for comparison with the Baltic and the Champion.

The condition of the Trimonium is but one of the favorable indications that has centered large investment interests in the attractiveness of Copper Range in the copper share market and during the past month there has been a steady investment demand for this issue of a nature that means a great deal to the future of the stock. Copper Range shares are now widely distributed and offer security, regularity of income and permanency of values and carrying a speculative possibility for the future, as to becoming more and more appreciated.

Butte Coalition's Position. The shareholders of the Butte Coalition are wondering why the property does not pay a dividend. While we cannot answer the query we must commend the property for its present strong position in regard to the physical conditions of the mine. The Butte Coalition has never in better position than it is at present. During the past two years the shareholders have been suffering, successively, too some real important mining problems. When the Heinze people sold out the Minnie Healy it was recognized that if the future work on these bodies should continue on a broad scale the Minnie Healy would have to be abandoned altogether and the work carried on through the Tramway shaft, indirectly. Now this has been done and the richest ore on the Butte Coalition is in position to be mined economically and successfully. The Baras is likely to be one of the important factors in swelling the output. A dividend from the Butte Coalition may be expected soon. If the metal market shows the important improvement anticipated the dividend should be paid this fall.

Winona's New Stamp Mill. The excavation work for the new stamp mill for the Winona and the King Philip properties has been completed and the foundations will be set at once. The further construction work on the mill will be hastened with all possible speed. The excavations for the construction of the mill. It is planned to re-use the mill water, by pumping it back to the stamp heads after the water has been clarified after running through the mill. It is believed that better than half of the water used regularly can be saved and pumped back again.

Mining News

WOLVERINE'S RECORD. Its Production the Past Fiscal Year Approximately 9,750,000 Pounds.

For the fiscal year now ended, the Wolverine will report a production of approximately 9,750,000 pounds, including expenditures for construction for the period of about \$42,000, the cost per pound is not expected to exceed 7 1/2 cents, this including items of every description. The cost at the mine will be between 6 1/2 and 6 3/4 cents, to which must be added freight and Eastern office expenses. For the year previous this company produced 9,536,125 pounds of refined copper, which was sold at an average of 13.16 cents per pound. The average cost for this period was 7.321 cents per pound, and the net profit was \$59,402, or \$9.22 per share.

It is doubtful if this record of mining costs per pound finds an equal in the entire list of copper producers. Not only are its operating costs per pound low, but this also holds true of its cost per ton of rock mined and milled. In the latter respect its record compares favorably with those of the most successful producers on a large scale in the Michigan district. In discussing Wolverine attention is usually called to the fact that it is a small property, although the value of the vein matter permitted to remain, together with that rejected, it is figured that the rock contents of each level are sufficient from which to keep the market supplied for a period of one year.

The Wolverine is a permanently equipped in every respect for the life of the property. The future expenditures for further sinking and opening work will be proportionately small until the bottom depths are reached, after which all expenditures will have a direct bearing on production. For this reason, and considering the persistency of values with increasing depths, there is no reason to believe that Wolverine costs will show an increase during its future life.

NOTES OF COPPER NEWS. Alamek's stamp mill is almost entirely enclosed and the work generally is advancing according to program, indicating that the plant will be ready for service during November. Although the originally figured on. The structural steel work was planned to be finished during June, and this has been accomplished. Alamek is stamping approximately 1,700 tons of rock daily now, 800 in the Tammar mill, and 900 in the Franklin mill, and is receiving over twenty-five pounds of refined copper per ton.

The Aztec expects to begin diamond drilling within a month. There seems little doubt that the reorganization plan, calling for an increase of capital stock to 100,000 shares, from 40,000 shares, will be authorized at the special stockholders meeting in Boston, July 7. It is likely that only a part of the new issue of 60,000 shares will be sold, giving sufficient funds to carry on a considerable amount of exploratory work. The Aztec is between the Lake and the Adirondack, and is a virgin tract of mineral land. The limited amount of work done there, mostly many years ago, was not extensive enough to determine anything whatever about the possibilities of the property. All of the Adventure's newly discovered lodes traverse the property.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments.

I am a woman. I know woman's sufferings. I have found the cure for my sufferings. I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want you to know about this cure—your, my reader, for yourself, your daughter, your mother or your sister. I want to tell you how to cure yourselves at home without the aid of a doctor. Men cannot understand woman's sufferings. What we women know from experience, Discharge of the Womb, Pains, Scanty or Painful Periods, Backache or Ovarian Tumors or Growths, or Falling of the Uterus, or any of the ailments which cause pain in the head, bearing down feelings, nervousness, creeping feeling up the spine, melancholy, desire to cry, hot flashes, weakness, kidney and bladder troubles, or any ailment caused by weaknesses peculiar to our sex.

I want to send you a complete ten day treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember that if you work up your treatment the week, or less than two weeks a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer if you wish, and I will send you free of cost, my "WOMAN'S OWN MEDICAL ADVICE" with explanatory instructions showing how to use the medicine, and how they can easily cure themselves at home. Every woman should have this book. It is a life saver. You must have an operation, you can learn to think for herself. Then when the doctor says "You must have an operation," you can decide for yourself. Thousands of women have been cured of their ailments by this medicine. It is old, old, young. To Mothers of Daughters, I will explain a simple home treatment which young Ladies, Plumbers and health always result from its use.

Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you sufferer that this Home Treatment really cures all women's ailments, such as, hot flashes, the spine, plump and robust. Just send me your address, and the free ten day treatment is yours. Write the book, it is free, as you may not see this offer again. Address

THE SUPERIOR LUMBER COMPANY

City Brevities

Today's weather: Partly cloudy and cool.

Yesterday's temperatures: Seven a. m. 50 degrees; noon, 51; 1 p. m. 54. Maximum, 67 degrees; minimum, 46.

George St. Clair, of Duluth, was in the city on business yesterday.

Martin Voetsch, county clerk of Baraga county, spent yesterday in the city.

Miss Selma Rydholm will leave today to spend a month with friends in Ontonagon.

Misses Ida Lally and Rose Yungbluth left last evening to spend two months in the West.

Mr. and Mrs. Edward Cline, 427 Genesee street are the happy parents of a newly-born son.

Mrs. Caroline Burt has returned from Detroit where she has been visiting during the past two months.

Miss Julia Shaw has returned from lower Michigan, where she has been visiting her father for three weeks.

The Mining Journal forces will celebrate Monday as the Fourth of July and no paper will be issued on that day.

Nels P. Flodin is making a month's trip into the far West in the interests of the Lake Shore Engine Works. He will visit Butte, Seattle and Victoria, B. C.

Miss Louise Olivier will leave this morning for the far West, to be away from Marquette for at least a year. For the immediate future she will make her home at New Westminster, B. C.

Mrs. Johanna Raven has contracted with Charles A. Johnson for the erection of a seven-room house on Hewitt avenue, between High and Pine streets. Work on the building will be begun at once.

Shot Large Wolf—A. J. Gustafson, supervisor of Ishpeming township, drew a bounty at the court house yesterday on an unusually large timber wolf.

Mr. Gustafson shot the animal, while driving along the highway, and states that it ran along ahead of his rig for some distance, before he fired the shot that broke its back, causing instant death.

Back from the Northwest—Aldard Lafreniere, a former South Shore conductor and resident of this city, has been spending the next week with Dr. Z. Vail, at Marquette.

Mr. Lafreniere is now conducting a store at Lowell, Saskatchewan, and says he is doing a remarkably good business. He speaks highly of the summer climate in southern Canada, but admits that it sometimes gets pretty cold in winter. He left Marquette four days ago.

Extensive Repairs Completed—Extensive repairs, costing about \$1,000, have just been completed at E. H. Bush's saloon, 147 Washington street. A new metallic plate glass front has been installed, and the interior has been re-modeled throughout. New inflow linoleum of handsome pattern now covers the floors, which, with dark stained furniture and tungsten lamps gives the interior an artistic and restful appearance.

Lively at Ore Docks—Business was lively at the South Shore ore docks yesterday, and the same condition is likely to prevail during the coming week. The docks are getting loaded and on the way down the lakes before Sunday, in order not to lose the two days incident to the Fourth of July holiday. The Rapahannock, Matanzas, Sonoma and Davidson cleared with ore yesterday and the Richardson, Hartford and Curry are expected to load today. The Mather is loading at the L. S. & I. dock.

Interest in Athletics—There are an unusually large number of athletes attending the summer session of the Normal school, and already active work in tennis, baseball and indoor baseball has been begun. Among the many prominent athletes attending the Normal are mentioned, Walsh, of Escanaba, baseball; Hughes, of Houghton, an all-around athlete, and Holman and Steinway of Atlantic Mine, tennis players. Yesterday, a classy tennis match was played, Superintendent Jeffers, Dr. Hebb, Dr. Lantner and Holman being the participants.

Many Licenses Issued—There are a lot of automobiles being used in Michigan and apparently the number is being rapidly multiplied. During the month of June the secretary of state issued 1,000 automobile licenses and 129 renewals of old licenses. On the last day of the month, sixty new licenses were issued and 128 renewals handed out. Under the provision of the law which will be in effect until the new act goes into effect, Jan. 1, \$1 is paid for new licenses and fifty cents for renewals. The state highway fund will therefore receive for the licenses and renewals during June the sum of \$1,600.

Matinee Today—Last night a sensational melo-drama was the offering at the opera house by the Yankee Doodle Stock company. It was presented in the satisfactory manner which has characterized all the plays presented by this stock company. Today at the matinee, the play will be a rural comedy-drama "Lost to the World." At this performance 100 imported French dolls will be given the first 100 little girls who buy tickets. The play for the farewell performance tonight will be "The Queen of the White Slaves." Our Boys' band will give a concert in front of the opera house at 7:30 Saturday night, and also play the opening overture for the performance.

Bridge Needs Repairing—Owners of automobiles are of the opinion that the bridges across Dead river on the boulevard, near Presque Isle, are not safe and should either be repaired or replaced by new ones. There are three bridges across as many mouths of the river, all of which are old, wooden structures. A prominent citizen expressed the opinion recently that the bridges would go down with some of the many big touring cars that travel the boulevard some of these days, unless the bridges were strengthened. Members of the park, cemetery and street commission state that they would be willing to build new bridges, had they any money with which to do so, and say that the council would do well to appropriate money for the purpose.

Earnings Show Gain—For the fiscal year which ended June 30, the earnings of the Chicago & Northwestern railway were approximately 12.85 per cent on the outstanding capital stock. This compares with 11.18 per cent in 1908 and 12.55 per cent in 1907. The North-

western is one of the most conservative of the western roads in the matter of expenditures, but the officers say that for the coming year large sums of money will be spent in rebuilding its roadbeds. The company is now building one of the finest passenger stations in the United States at Chicago, besides making the necessary track elevations for that undertaking. In addition it has elevated three miles of track through Evanston, Ill., at a cost of \$1,000,000 a mile.

INSURE WITH PETER WHITE & CO.

Upper Peninsula

Marauding Bruin Is Killed—

A black bear weighing about two hundred pounds was shot near the village school at Germfask the other evening by George and Emerson Archey. The bear, which was chasing a full grown pig, the property of Dan McDonnell, was first discovered almost in the town limits. The pig was about tired out from the chase and showed marks of the claws of the bear from ears to back of the body.

"Dynamiter" Is Released—

Under promise that he would leave the city at once and because the proprietor of the Michigan Hotel refused to appear as a complaining witness, William Dufresne, who was arrested at Escanaba when four sticks of dynamite were found in his possession, and who was alleged to have threatened to blow up the home of his former wife, was released from custody. It was held by the chief that if Dufresne had made the threats alleged by the officers who made the arrest, they were but drunken boasts and if Dufresne had no intention of carrying them out, as the proprietor of the Michigan Hotel did not wish to make complaint for dynamite being stored in his hotel, Chief Rowe allowed the prisoner to go, and saw that he left the city at once.

Narrow Escape for Woman—

Stepping from a moving street car in the middle of a block while the car was moving at a fast rate of speed, Mrs. Benjamin LeDuc, fifty-nine years of age, narrowly escaped being either killed or seriously injured at Ludington street and Harrison avenue, Escanaba. Mrs. LeDuc was on one of the cars of the Wells line, which was running west. She wished to leave the car at Donnan avenue, but failed to signal the conductor in time. The conductor, who was in the forward end of the car, gave the signal for a stop at the next corner. Mrs. LeDuc left her seat and walked to the vestibule and before the corner was reached stepped off to the pavement, appearing to fail to realize that the car was moving. She stepped off the car while facing toward the rear end, an error which is frequently committed, by women, and as her feet met the pavement she was thrown violently backward. Her head struck the pavement, rendering her unconscious and inflicting a long cut in the scalp. She was carried to the store of F. H. Atkins. When a physician arrived she was revived and was placed in an automobile and hurried to the Delta county hospital. At the hospital an examination showed that aside from the scalp wound and a severe shaking up she was uninjured. An automobile was following closely after the street car as it was running up Ludington street, and that the driver did not strike the woman as she fell from the car is considered remarkable. He passed close to her side.

Dormitory for Menominee School—

July 6th the new dormitory of the Menominee County Agricultural school will be turned over to the school board by the contractors. The building will be complete in every way and ready for the furnishings. The structure is an ideal one for the purposes for which it was designed. It is divided into two sections, one for the women and the other for the men. Roomy verandas lead to the living rooms, which are provided with large open fire places and all the conveniences and comforts for those occupying rooms in the dormitory. Spacious stairways lead to the second story. Midway between the two living rooms is a large dining room, designed to accommodate not only those who room in the building but all students who desire to take meals without occupying rooms. To the rear of the women's living room is the matron's sitting room and bedroom. To the rear of the men's living room will be located the kitchens and pantries. In the second story will be the toilet rooms and bedrooms to accommodate forty-eight students. The building is so constructed that large additions can be added to either department at any time more room is desired. The residence planned for the janitor will be complete and ready for occupancy within the next two weeks. It will be occupied at once, so that the janitor can act as a caretaker for the various buildings. The residence designed for Superintendent Wojta will be completed before the next term of school starts. It is of California bungalow design. Cement workers are employed at the present time in laying concrete floors in the big barn at the school. The barn is amply large enough to hold the stock and poultry used on the farm and also to store the crops to be harvested this fall.

Some people look upon tea as a mere drink, it all depends upon the tea.

"Salada" Tea is a delicious and refreshing beverage. Sold only in sealed lead packets.

TURKISH BATHS AND CHIROPODY.

OUR FOREFATHERS OF '76

Were inspired with as stern and sturdy a spirit as ever actuated any People. They were a nation of hardy able-bodied men.

They were guided by the nobility and efficiency of Washington, and practical common sense of Franklin; the high purpose and lofty ideals of Adams and Jefferson. Yet with all this they must have failed without the aid of money. The name of Robert Morris ranks with the most famous, simply because time after time he saved the country by obtaining money for it when money was vitally necessary.

History repeats itself, and we often find ourselves confronted by an army of troubles against which our greatest safe-guard is a snug bank account.

Marquette National Bank MARQUETTE, MICH.

Northern Normal Notes.

School will be closed on Monday next in deference to the Fourth of July.

On Friday evening next the faculty will entertain the students at an informal reception at the school.

Hon. L. L. Wright, state superintendent of public instruction, visited the Normal on Wednesday afternoon.

Five states are represented in the enrollment, namely, Michigan, Wisconsin, Kentucky, South Dakota and Illinois.

H. H. Fuller, the newly elected superintendent of Newberry schools, was a visitor at the Normal school on Thursday and Friday.

Miss Theodosia Hadley, who has spent the past six months in Italy, France and England, returned to Marquette on Saturday evening last.

Mr. Mills has arranged a picnic at Presque Isle for this afternoon. All members of the school are invited to bring a lunch and dishes, and to contribute ten cents for the purpose of buying coffee, cream, etc.

Besides the three county commissioners occupying places on the faculty this summer, several visiting of the Normal this week, they being Jesse Hubbard of Michigan, E. L. Farnsworth of Dickinson county, A. E. Sterne of Marquette and Peter Legg of Delta.

A considerable number of students of the regular year have come in for summer work. All those taking the limited certificate are required to take one summer term in addition to the three terms of the year, but beside these quite a good many have come in on the basis that they may lighten the work of their senior year. Summer study is no hardship in such a climate as we have in Marquette.

Miss Sophia Linton, head of the department of music, who has been away for the past year on leave of absence, arrived in Marquette on Monday morning. Miss Linton spent several months studying music, both vocal and instrumental, in Berlin, Germany, and then traveled for a month in Germany, Switzerland, France and England. She reached New York in April and spent several weeks in further study in that city.

A very interesting game of tennis was played on Thursday afternoon on the campus courts, between Superintendent Jeffers and Dr. Hebb, on the one hand, and Mr. Lautner and Earl Holman, one of the students, on the other. The score was as follows: First set 7 to 5 in favor of Messrs. Lautner and Holman; second, 6 to 2 in favor of Superintendent Jeffers and Dr. Hebb, and the third 6 to 3, Messrs. Lautner and Holman winning.

School opened on Monday morning, the day being devoted to registration. Two hundred and forty-eight students entered that day, being seventy-three more than last year in the same time. It is gratifying that so many of the students are learning the virtue of promptness in entering. However, a large number always stay at home until after the Fourth and it is expected that before the close of next week the number will exceed four hundred.

The first assembly was held on Wednesday morning and President James H. Kaye made the address. He talked on matters suitable for the opening of a new term, discussing in particular the right way to make a beginning. In the first place he called attention to the fact that the success of an educational institution depends, in the last analysis, upon the students rather than upon the buildings, the equipment and the faculty. He discussed the right way to study, the reasons for attending a summer school, etc. It was very gratifying to see an audience in the assembly room which filled it to overflowing.

During the week beginning with July 11, Professor J. G. Troop of the University of Chicago will deliver a series of lectures on American literary people. Six lectures will constitute the series and they will concern Ralph Waldo Emerson, "The Prophet"; John Greenleaf Whittier, "The Reformer"; Henry Wadsworth Longfellow, "The Academic Poet"; James Russell Lowell, "The Humorist"; Oliver Wendell Holmes, "The Rationalist"; and Nathaniel Hawthorne, "The Artist." Professor Troop delivered a like series upon English writers several years ago which made a decided mark in the history of the Normal school and his coming lectures are looked forward to with much interest.

There are several extra instructors for the summer term. Superintendent S. O. Clinton of Baraga and Orville La-

Bounty of Munising have charge of institute classes.

Mr. Clinton teaches classes in geometry, school law and the state constitution. Mr. La Bounty has charge of work in algebra, geography, reading and arithmetic. Miss Grace E. Salisbury, librarian at the Whitewater, Wis., State Normal school, has classes in library work; Miss V. Winnifred Lacey of Ishpeming teaches primary methods of teaching reading to children of foreign parentage; Superintendent P. A. Jeffers of Atlantic Mine teaches United States history and civical government, and Miss Sara Nicholson, of Ironwood, has institute classes in grammar and general history.

Miss Salisbury, who has charge of the work in library methods in the summer term, has planned a very pleasant variation from the usual work for next Thursday afternoon at 3:15 o'clock. It will be in the form of a story-telling entertainment for children. Several members of the faculty, including herself, Miss Bates and Miss Middlekauff, will tell short stories and Miss Linton will sing some children's songs. Children are especially invited to be present, also others interested in such an entertainment. There will be an admission fee of five cents in connection with the regular course. This will be followed on Friday by a lecture before the library classes on the use of story telling in the school.

On Friday morning the assembly was in charge of Superintendent F. A. Jeffers of Atlantic Mine. Mr. Jeffers is a particular student of history and especially of American history. The day being the 2nd of July, the speaker turned the attention of his hearers to the fact that this date is the real Fourth of July, that is the day of passing the resolutions of independence was done on the 2nd, and that two days were given for the drafting of the formal document by Thomas Jefferson. He pointed out also, in a forcible manner, the fact that the Revolutionary conflict was not one between England as a whole and America, but that it was a struggle between the conservative elements on both sides of the water, headed by King George III, on the one hand and the progressive forces in England as well as America on the other.

INTERCHANGE OF PUPILS. Plan to Apply the Rhodes Idea in Schools Is Started in England.

London, July 2.—With the object of providing opportunities for educated youths of the United Kingdom, Canada and the United States to obtain real insight into the life, customs and progress of other nations, a movement was recently inaugurated for the establishment of traveling scholarships and the interchange of promising students between the three countries named.

The plan is comprehensive within the limit that, in addition to academic qualifications, candidates must be what is popularly known as "all round men," selection being along the lines of the Rhodes scholarships. The plan, among other things, aims at a mutual interchange of students, promoting interest in civic and social problems and affording facilities for technical and industrial students to examine the methods of other countries.

It is proposed to establish two traveling bureaus in New York and London respectively, with initially twenty-eight scholarships, namely, fourteen for the universities of the United Kingdom, ten for the United States and four for Canada, the arrangements being controlled by one committee for the United Kingdom and one for the United States and Canada.

MOTHS WILL SEEK MOON.

That is, if Arc Lights Are Extinguished, They Think in New Hampshire.

Nashua, July 2.—That if the brown-tail moths are not attracted by city arc lamps they will fly away to the moon never come back is the inference which Mayor Albert Shedd gets from a letter received from Colonel Thomas H. Dearborn of Dover, who is state agent for suppressing brown-tail moths. The letter says that the annual flight of the pest comes about now, during a period when the summer moon is brilliant, and that you can see the lights from July 1 until after the flight, thus preventing the moths from flocking into the city, they will be attracted by the light of the moon, says the letter.

Foley's Honey and Tar not only stops chronic coughs that weaken the constitution and develop into consumption, but heals and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. Sold by all Druggists.

WHO WINS ON THE TARIFF?

This Is a Question Much Discussed in Washington.

High Tariff Forces Have Carried Everything in the Senate; but Mr. Aldrich Has Assured the President That Revision Downward Will Be Made in Conference—Time Will Tell.

Washington, July 2.—Who is going to get fooled at the windup of the special tariff session? Will the president's hopes of revision to help the ultimate consumer be realized or will the high tariff crowd that has supported Aldrich through thick and thin be victorious? These are questions which are being asked frequently now that the end of the great tariff fight is in sight. Somebody will be either badly fooled or seriously disappointed when the last chapter of the current story is written. It is impossible to see how the president can be satisfied with a tariff bill without causing widespread pain and dissatisfaction in the senate. Apparently the resourceful Aldrich has a most ticklish job on his hands in sending a bill from the conference committee to the White House which can be signed without serious objections from the Pennsylvania avenue or the other.

As the country pretty well understands, the high tariff forces carried everything in the senate. They have taken important articles from the free list where they were placed by the house and imposed stiff duties on them. They have lifted rates right straight through the schedules. The extreme protectionists have hung together like brothers, with the result that every senator in the combination has got what he wanted. Having been so completely successful, the idea of a crushing defeat in conference has scarcely occurred to the triumphant protectionists. They confidently expect that the tariff bill will become a law substantially as it stands.

Why Taft Kept Hands Off. On the other hand, the White House understanding of the situation is wholly different. The president said to his friends he is confident that the tariff bill, when it comes to him from the conference committee, will be of such a character that he can sign it with a feeling that the party's pledges of downward revision have been fulfilled. He has strongly hinted that any other kind of bill will be promptly vetoed. The president has had assurances direct from Senator Aldrich that reductions will be made in the conference committee. "Downward revision," long delayed, is to take place in this eleventh-hour proceeding of congress and a bill perfected which will satisfy the ultimate consumer. Promises of this character are the only things that have kept the president from interfering with the senate process of boosting rates.

"Of course it is impossible to meet the demands of the president and the senate protectionists. An old colored man came along with an express wagon of the ramshackle variety. It was drawn by an old white horse. The heavily-laden wagon was loaded in and hauled off to his residence. "Great time last night," ran the conversation next day in the cook room. "Our host was a success. He gave us good things to eat, good things to drink and was most gracious."

"Yes," pined in the one who had laid him out, "and he provided a carriage for a span of white horses for our conveyance."

Some of the hardest losers in the senate protectionist duties have been senators of the finance committee. They naturally felt that, being on the outside of the tariff controversy, they could get things. Of course their constituents have been thinking that way.

Senator Burrows of Michigan has been making a terrific noise because he could not get a duty on sulphate of ammonia. That by-product is made exclusively at Detroit in a new kind of coke furnace which the late Senator McMillan installed. Senator Burrows is a member of finance, but when Senator Aldrich refused him on the sulphate duty he sought refuge in Senator Crane's pocket, lamenting bitterly over his fate.

Senator Penrose of Pennsylvania, who has been one of the most industrious workers in the finance committee, will not be consoled because he could not get a duty on crude petroleum, produced in large quantities in the Quaker state. Senator Ilce threatened for a while to object because the finance committee would not tilt the duties on paper and pulp to suit him.

And the list of disconsolates might be extended to indicate that finance committee senators have been doing a lot of favors for other senators without being able to get very much for themselves.

WASHINGTON GOSSIP. Hale Gets Bigger White Office Addition for the President. Washington, July 2.—When Senator Hale of Maine visited the White House in Washington, and the fact that President Taft is to have a \$55,000 or \$60,000 addition to his offices, instead of a \$40,000 addition, is proof thereof.

A few days ago a board of architects and government officials was having a session on a large scale, the president was present for the addition. The architects had been told to prepare modest plans so that the appropriation would not be exceeded. Some years ago congress voted \$60,000 or thereabouts for remodeling the White House, and the president had spent more than half a million. Congressmen never have gotten over that. The mention of it in the appropriation rooms at the Capitol puts everybody in bad temper at this late day.

gents could deliver no votes but their own, while Aldrich had a clean majority in his hand. A Roosevelt fight, with daily messages to congress and a great newspaper campaign, could make successful the struggle of the president and the small band of Republican insurgents. President Taft decided against such tactics. He had an understanding with Senator Aldrich and decided to put all his eggs in one basket. He is trusting to the promise of Mr. Aldrich that the bill will be of a kind which the president can sign without feeling that the pledge for revision has been repudiated.

Saturday Half-Holidays. Beginning with Saturday the 30,000 or more government employees in Washington will be given a half holiday every Saturday during the hot months of July, August and September, by order of President Taft, who knows what it is to work in Washington with the mercury trying to break out of the thermometer. These employees go to work ahead at nine o'clock in the morning and will be dismissed on Saturday through the three months at one o'clock P. M., after working four hours.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows:

"Today's session was a typical holiday affair. The steadiness of prices speaks well for the stability of values at this time, and the easiness of money seems to dispel the fears of pool liquidation on a large scale. Railroad earnings are being reported, and the odd lot demand from investors has increased materially. Considerable attention is being paid to the news from Washington, and it is not thought that the corporation tax will enter the situation as a disturbing influence. Railroad earnings are very encouraging, and barring unfavorable developments over the holidays, we should not be surprised to see values higher next week."

The final quotations follow:

Amal. Cop. 45 1/2 U. S. Steel 127 1/2 Erie 27 1/2 S. P. 124 1/2 N. Y. C. 100 1/2 W. & A. 100 1/2

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:

"The principal activity in the local market today was centered in Superior Iron Works, which advanced to 16 1/2, with the best kind of buying interest, and Giroux was also slightly stronger, and the floating stock in both issues is being gradually absorbed. The balance of the list showed holiday dullness, with no feature worthy of mention. We look for a more active market next week, with probably a reaction of three or four points."

Closing prices were:

Amal. Cop. 45 1/2 U. S. Steel 127 1/2 Erie 27 1/2 S. P. 124 1/2 N. Y. C. 100 1/2 W. & A. 100 1/2

FOREIGN-BORN PIONEERS MET THURSDAY NIGHT

PRELIMINARY STEPS TAKEN TO ARRANGE FOR OLD TIMERS' CELEBRATION TO BE HELD IN ISHPEMING LATER IN SUMMER.

The meeting of foreign born residents, who located here prior to 1874, held Thursday evening in the Scandinavian society's hall, was an enthusiastic gathering. About forty of their number were present and the plans for the proposed reunion were discussed. The meeting was called to order by James Luks, of the National mine. Fred J. Eggen was chosen chairman, and was later unanimously elected the president of the organization. The other officers are James Luks, vice president; John S. Olson, secretary, and Timothy Hughes, treasurer.

It is not yet known how many foreign born residents there are in the city who will be eligible to participate in the celebration, but it is thought that it will exceed 100. Several of those present reported that they had the names of all eligible persons and they were asked to submit their reports at a meeting to be held next Thursday evening, the 8th, in the Scandinavian hall. The committees are as follows:

English—Captain Thomas Walters, Captain John Trebleck, H. H. Mildon, John Penglase and William Perry.
 Norwegian—Lars Hysorh, Ole Rye, F. Braastad, Sven Johnson and Hans Anderson.
 French—Joseph Cevrau, Theophile Gaboury and August Nault.
 Swedish—Gust Lindberg, Charles F. Samuelson, Charles Johnson, James Farm, Gust Peterson and John Westgren.
 Irish—Timothy Hughes, John Nolan, Patrick Cronin, James Connelly and John Maroney.
 Scotch—Joseph H. Wood, Lieberman—F. Zoberlin and Jacob Locher.
 Danish—A. W. Conradson and Chris Peterson.

A committee consisting of Ole Watseth, Joseph Cevrau, John Nolan and Fred J. Eggen was appointed to formulate plans for the celebration.

Everything in soft or carbonated drinks for the Fourth at J. Sellwood & Co's. (7-3-1d)

The Gwinn Fire department has erected in the park a dancing platform and band stand, fifty by 100 feet. (7-3-1d)

V. S. Hillier has installed two-burner hot plates. (7-3-1d)

DIED IN SWEDEN.

Former Well Known Ishpeming Man Passed Away in Native Country.

Announcement of the death of N. Mortenson, a former well known resident of Ishpeming, has been received here. He died on the 6th of last month at his native place in Sweden, where he had spent the past few years, ever since he left here.

Mr. Mortenson was known personally or by reputation to practically all of the older Scandinavians of this region. When he first located in Ishpeming, some twenty-five or more years ago, he was the organist and choir leader at the Swedish Lutheran church, and when the Superior Posten was established he became its editor. He was a strong writer and many of his editorials were copied by the leading Swedish publications. He held the position for a few years, resigning to take up a homestead in the Clowery district, and he went from there to the old country.

The deceased was of royal birth and for some years before coming to America was prominently identified with the royal opera. He had few superiors as a musician in this region. While at the head of the Ishpeming choir he organized and conducted an orchestra, band, also a male choir of 125 voices.

He is survived by his widow, who is living with a brother in the West, and a son, who is employed on the South Shore line and who lives in Marquette.

Arthur Burquist, Cleveland avenue, has installed a gas range in his kitchen. (7-3-1d)

Royal purple and Welch's non-alcoholic Grape Juice at J. Sellwood & Co's. (7-3-1d)

People visiting Gwinn July 5th will have ample opportunity to get refreshments on the grounds. (7-3-1d)

SPECIAL TRAIN TO GWINN LEAVING ISHPEMING AT 7:45 A. M.

A special train will leave Ishpeming Monday morning at 7:45 for the accommodation of those attending the celebration at Gwinn. Returning the train will leave Gwinn at 10 o'clock. The right is reserved to cancel this train if the weather is unfavorable. (7-1-31)

Additional Ishpeming

ISHPEMING IN BRIEF.

The barber shops will be closed at 15 o'clock Monday morning.

The hill on Ely street between First and Maple is being graded.

A concrete walk is being laid the whole length of York street.

Mrs. F. A. Bell and Mrs. Marden will serve tea at the golf clubhouse this afternoon.

Henry Halgren has returned from Escanaba, Minn., where he visited the past month.

Miss Ethel Jury of Black Hills, S. D., is visiting with Mrs. Thomas Letcher of Division street.

Herbert Hodson returned yesterday from a three weeks' visit with friends in the copper country.

The residence of Charles Burt on Maple street was slightly damaged by lightning yesterday morning.

Rev. M. M. Allen, wife and child arrived home yesterday morning from points in the South, where Mrs. Allen and son spent the winter.

At the morning service at 10:30 tomorrow at Salisbury Methodist church, Rev. L. C. Finch the pastor, will preach on the subject, "The Panorama of Re-

demption." At the evening service at 7 o'clock his subject will be "Do Or Don't?"

George and Ely Hayden and Lawrence Bonnett left last night for the Yellow Dog district, where they will camp for the next two weeks.

Two births were registered yesterday—a daughter to Rasmus Fasmo and wife, Detroit location, and a son to Mr. and Mrs. Wikdori Talo, 511 Division street.

The Epworth league of the Salisbury Methodist church will hold its annual picnic at Presque Isle Monday. The members will go down on the early South Shore train.

A company of Naval Reserves from Escanaba passed through here yesterday on their way to Hancock, where they will go aboard the reserve ship, Yantic, for maneuvers.

A box car of grain that was being unloaded at the Ishpeming Store company's warehouse yesterday ran down the incline near the Nelson Morris warehouse and tore up about ten yards of the embankment.

The Junior league of the Salisbury Methodist church held a delightful picnic Thursday afternoon at Lake Sally. About 150 were present. Games were played and ice cream and other refreshments were served.

Gonnetie will pitch for Ishpeming in the game against the Negaunee team tomorrow afternoon at the Union Park grounds. In the last game that Gonnetie pitched against Negaunee he held the team down to hits. Last season, whose era was in bad condition last Sunday

as a result of an injury received while making his home-run slide in the game the previous Sunday, will be in good form to catch tomorrow's game.

August Swanson, the Cleveland avenue furniture man, yesterday received a letter from his son Emil, who has been at Nome, Alaska, for the past three or four years. On the 12th of last month the Victoria arrived in port and a big celebration was held in honor of its coming as the first steamer to arrive in the city. Emil is in the employ of the Pioneer Gold Mining company, and is at present working at one of its claims on Little Creek.

A number of Ishpeming people who have relatives and friends at Givern will attend the celebration there Monday. The Givern fire department, under whose auspices the celebration is to be held, has made extensive preparations for the entertainment of the visitors.

A special train via the Lake Superior & Ishpeming railway will leave the Ishpeming station at 7:45, and returning will leave Givern at 10 o'clock. The fare for the round trip will be \$1.25.

A NIGHT RIDER'S RAID.

The worst night riders are colored, cotton oil or aloes pills. The raid you need to rob you of rest. Not so with Dr. King's New Life Pills. They never distress or inconvenience, but always cleanse the system, curing Colic, Headache, Constipation, Malaria, etc. at the Stafford Drug Co.

Just learned that Gold Medal Flour is sifted ten times through finest silk. EUGENIA.

Negaunee Department

IMPORTANT ORDINANCE PRESENTED TO COUNCIL

MEASURE WILL GRANT PRIVILEGE OF CONSTRUCTING AND MAINTAINING ELECTRIC TRANSMISSION LINE IN THIS CITY.

An ordinance authorizing the construction and maintenance of an electric transmission line within the city limits was presented to the council at its regular meeting Thursday evening, and referred to the city attorney, together with the street and highway and electric light committees. While no explanation was offered, the ordinance assumes that the Cleveland Cliffs Iron company, which has been fighting on establishing a water power plant near here, will desire to construct such a line. Should the plan be established it would result in a large saving for the company, as it would for the city, and possibly Ishpeming. The provisions of the ordinance were not discussed, but it is likely that they will be considered at the next meeting, when it will be read a second time.

Big Addition to Business.

Last month 315 incandescent lights in the new high school building were added to the lighting circuit. In addition to these, eighty-six new lights were added in other parts of the city, making a total of 601 for the month. This brings the number of incandescent lights in use to 7,160, and there are seventy-five street and commercial lights on the city.

Recorder Mitchell reported that the water collections for the April quarter were \$4,387.38, and that \$875 was collected on account of permits issued, a total of \$4,475.38.

The board of public works was authorized, on recommendation of the committee on water works, to extend a six-inch water main to the Givern addition, supervised by William sent in an order for the pipe yesterday and the work will be started as soon as it arrives. It will take between 1,300 and 1,500 feet of pipe to complete the job.

Rev. Charles Langner, pastor of St. Paul's church, asked the council to put in a curb at the parsonage. The petition was referred to the street and highway committee, with instructions to report at the next meeting.

The purchasing committee was empowered to buy a horse for superintendent of William, which has cost \$200. It will be kept at No. 2 horse house.

On recommendation of the committee on sewers, it was decided to repair the main near the Mary Charlotte mine, with the understanding that the Mary Charlotte Mining company will pay 50 per cent of the cost. It is estimated that the job will cost about \$250.

John Lough has put in two-burner hot plates. (7-3-1d)

CANADIAN MINE SOLD.

Nearly 2,000 Prospectors Have Entered Sturgeon Lake District This Summer.

In view of the large number of upper peninsula people interested in the Belmont Bay property in the Sturgeon Lake district, the following dispatch from Port Arthur, Ont., is of interest:

"The biggest deal in mines ever put through here is being closed. The Tip-Top copper mine, which has over \$300,000 in ore on the dump, and the St. Anthony reef, a huge gold proposition in Sturgeon Lake county, are the properties involved. The purchasers are French and Boston capitalists, represented by F. G. Draper and Louis Bretton."

The St. Anthony mine belonged to Saginaw and other Michigan owners, who have developed and worked it for several years. It yielded several hundred thousand dollars, but has been under option to Col. Ray, the owner of the Tip-Top mine, for several months. It is equipped with a mill and is in first-class shape.

"Sturgeon Lake is having an immense rush, owing to discoveries of rich gold mines, and up to date possibly 2,000 prospectors and speculators have gone."

R. N. Treval, Peck street, has installed a gas range in his kitchen. (7-3-1d)

COLLECTORS ON TRAINS.

The conductor on the Chicago, Milwaukee & St. Paul train, leaving Milwaukee Thursday morning, was much surprised when a collector in uniform came aboard and replaced him in the work of taking tickets. The conductor received instructions to have nothing to do with the taking of tickets, and his work on the trip was confined to stepping on to the platform at each station to give the engine the signal to go ahead. The collector was dressed in the same kind of a uniform worn by the conductor, and in the front of his cap is the word "collector" in gilt letters.

Dr. A. W. Harille, Main street, has installed a Garland gas hot water heater. (7-3-1d)

Wake up early July 5th. Don't miss the special train leaving for Givern at 7:45 a. m. (7-3-1d)

Mrs. Henry Rasmussen, Clark street, has installed a Garland gas hot water heater at her house. (7-3-1d)

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. Sold by all Druggists.

In June a young man's fancy lightly turns to thoughts of—girls.

PELTIER INQUEST CONCLUDED.

Coroner's Jury Is of the Opinion the Train Exceeded the Speed Limit.

The inquest held in consequence of the fatal grade crossing accident in this city this week, when Edward Peltier was struck and killed by a C. M. & St. Paul train, was concluded yesterday. It was conducted by coroner Pein. The verdict rendered by the jury was to the effect that Mr. Peltier had met his death "by being struck by a C. M. & St. P. train while trying to save his team of horses, and that in the opinion of the jury the train was exceeding the speed limit." Nine witnesses were examined: Conductor W. M. Cameron, Engineer J. W. DuBois, Fireman G. W. Madden, Hans Rasmussen, flagman at the crossing; Mrs. Nellie Flory, who lives in the locality where the accident occurred, and Geoffrey Krotschaul, Julius Jackson, Robert Rasmussen and Ernest Wanski. The testimony was taken by two stenographers, one of whom was employed by the railroad company. The inquest was attended by a C. M. & St. P. claim agent, who interrogated the various witnesses.

NEWPORT MINE ON FIRE.

Big Ironwood Property Is Threatened With Much Damage.

Fire broke out underground in the Newport mine at Ironwood between 6 and 7 o'clock Wednesday evening, but it is reported that all of the men, with the exception of Joseph Fritz, a pumpman, got out in safety. It is thought that he has perished.

The compressors have been stopped and the shaft closed tight to smother the flames. It is now feared that the damage will be considerable, as the fire seems to be covering much underground territory. Over 100 men are temporarily thrown out of work.

The origin of the fire is not known, but it is thought that some careless employe threw a lighted candle into dry timber just before leaving for surface at the supper hour.

Joe Winter had gas connections put on his range. (7-3-1d)

LOCAL LACONICS.

Dr. Clara S. Bondar of Chicago visited in Negaunee yesterday.

Mrs. Fred Hakenjos and two children are here from Ashland, Wis., on a visit.

Mrs. Charles McGregor is visiting her daughter, Mrs. H. F. Pearce, at Ironwood.

Mrs. F. A. Bell and Mrs. Marden will serve tea at the golf clubhouse this afternoon.

Mrs. Mary V. Ross of Cleveland, O., is in the city visiting her daughter, Mrs. W. A. Garner.

Mrs. Henry Lee and her son Roy are at Marquette on a visit to her daughter, Mrs. M. Wente.

Mrs. Robert Smith and family have left for Butte, Mont., to join her husband, who left here four months ago.

Rev. R. T. Hicks, rector of St. John's church, will give the Gospel celebration next Monday evening by Madam Hellstrom-Oscar and her husband, Heri Martin Oscar, of the Royal opera of Stockholm, who are to sing at Ishpeming theater next Tuesday evening, the 6th.

Madam Hellstrom-Oscar once more took a Minneapolis audience into her self last night at the Auditorium, and with Heri Martin Oscar gave a concert that was thoroughly enjoyed. It was a superb exhibition of Scandinavian artistry. Heri Oscar's baritone has the richness that characterizes the "Bong" tenor. His opening "King Heimer" solo revealed possibilities of sublimity that were born out later by the snappy "Mann Tre Fo Fo" the Ari "Koenig" "White Roses."

"Still, it was to Madam Hellstrom-Oscar that most approval fell, and her "Changrinn under Lind" and "Lida Rida Randa" made the purity of the middle registers and the volume of tone evident enough to bring the prima donna again to the front of her audience. As it always has been when an artist is obliging on the score of recalls, the folk songs of small artistic possibilities, but of excellent sentimental persuasion, came to the fore. Heri Oscar gave the desired touch of the familiar without sacrificing his standard by including a bit of Wagner's Tannhauser in his program.

"The romance met a sympathetic reception and received no less applause than 'The Swallow' from 'Mignon' sung in duet by Heri and Madam Oscar. Both artists realized the fullest accord and harmony in the performance."

William McPhail, violinist, as usual gave delightful numbers. His Viens temps "Ballade de Polonoise" and trio of selections from Dvorak, Dient and Sarasate gave him well merited rounds of applause."

Fresh raspberries, blackberries, cherries and strawberries at J. S. Sellwood & Co's. (7-3-1d)

FROM MORGAN'S CURB LETTER.

"Superior & Pittsburg was again the feature of the Boston list. It opened at 13 1/2 and sold as high as 17, a gain of 1 1/2. There is persistent buying of this issue in both New York and Boston, and predictions are freely made that it will cross 20 next week. Green Cananea was strong in sympathy, but the price remains stationary. Nine and seven-eighths was bid for San Antonio, but failed to bring out any stock. News from railroad building to San Antonio continue favorable. Rails will be laid to Ladova in July. This point is eighteen and three-quarters miles from the San Antonio mine. A force of 800 men is employed in this work. Amalgamated was quiet and fractionally higher. Gironx is again in demand at 7 1/2. The tone of the market was strong throughout, exceptionally so, in the face of considerable realizing to even up contracts over the holidays. The demand for copper

To the many kind friends who have endeavored to assuage the great sorrow which has come upon me so suddenly, I return my most heartfelt thanks. There were so many kind deeds done for us in these dark hours that I shall probably never have personal knowledge of all of them and cannot hope to return thanks individually, but to all I give assurance of my deep appreciation and wish to thank especially the Modern Woodmen of America for their consolation, assistance and flowers; and the Consolidated Fuel & Lumber company, Messrs. Levine Bros. and Rosen Bros. & Klein for their floral tributes.

MRS. EDWARD PELTIER.

ISHPEMING

NORWEGIANS TO AID IN WORTHY CAUSE

FUNDS WILL BE SOLICITED IN THIS COUNTRY TO BE USED IN REBUILDING FAMOUS CATHEDRAL IN TRONDHJEN.

Lars Hoyseth, the Seventh street merchant, recently returned from Glenwood, Minn., where he attended a meeting of the Trondhjen, or Tronder, Lager society, which was organized last September at Fergus Falls, Minn. The society takes in its members the immigrants of the judicial districts of the middle part of Norway, who have located permanently in this country.

The main objects of the organization are to keep fresh the traditions of the old home; to spread new ideas for the good of the membership, also to aid financially certain worthy projects in the old country, especially the restoration of the historic cathedral in Trondhjen.

The cathedral was built in the twelfth century and was the largest and finest church in northern Europe at that time. Its dimensions were 252 feet in length (Norwegian feet, which equal thirteen American inches) and 160 feet wide, and it had eighteen towers and twelve altars. For 600 years all the kings and queens of Norway, including King Hakan VII, the present ruler, have been crowned there.

The church has been destroyed by fire not less than three times. In the seventeenth century half of it was laid in ruins by the bombardments of the Swedish army. They held it at different times and to it a stable for their horses, and finally, when the Norwegians drove them out, more than half of it was a wreck. It was left that way until 1869, when the Norwegian government took up the matter and voted an annual appropriation of \$0,000 crowns (\$25,000) for its restoration. About a like amount is realized yearly from other sources, mainly from the surplus funds of the banks in Norway.

In July, 1910, the funds will be nearly exhausted, and prominent Norwegians of this country have taken the initiative to raise money from their American countrymen. It is proposed to continue the campaign until May 17, 1914, which is the constitutional day of Norway, or which it is now hoped to have the church dedicated and turned over to the nation.

A meeting was held in Minneapolis prior to the one in Glenwood, at which committees were appointed to take hold of the work of raising the money. These committees will soon begin work, and a committee will be chosen in every city and town in which Norwegians reside to solicit funds. All of the funds collected will be turned over prior to the constitutional day.

Fancy hot house flowers, clematis and calliflowers, at J. S. Sellwood & Co's. (7-3-1d)

Remember you can spend the whole day and evening at the Givern celebration next Monday as the special does not leave on the return trip until 10 p. m. (7-3-1d)

ENTHUSIASTICALLY RECEIVED.

Madam Hellstrom-Oscar and Husband Praised by Minneapolis Paper.

Tuesday's issue of the Minneapolis Journal had the following to say of the concert given in the auditorium at 8 o'clock last night by Madam Hellstrom-Oscar and her husband, Heri Martin Oscar, of the Royal opera of Stockholm, who are to sing at Ishpeming theater next Tuesday evening, the 6th.

"Madam Hellstrom-Oscar once more took a Minneapolis audience into her self last night at the Auditorium, and with Heri Martin Oscar gave a concert that was thoroughly enjoyed. It was a superb exhibition of Scandinavian artistry. Heri Oscar's baritone has the richness that characterizes the 'Bong' tenor. His opening 'King Heimer' solo revealed possibilities of sublimity that were born out later by the snappy 'Mann Tre Fo Fo' the Ari 'Koenig' 'White Roses.'

"Still, it was to Madam Hellstrom-Oscar that most approval fell, and her 'Changrinn under Lind' and 'Lida Rida Randa' made the purity of the middle registers and the volume of tone evident enough to bring the prima donna again to the front of her audience. As it always has been when an artist is obliging on the score of recalls, the folk songs of small artistic possibilities, but of excellent sentimental persuasion, came to the fore. Heri Oscar gave the desired touch of the familiar without sacrificing his standard by including a bit of Wagner's Tannhauser in his program.

"The romance met a sympathetic reception and received no less applause than 'The Swallow' from 'Mignon' sung in duet by Heri and Madam Oscar. Both artists realized the fullest accord and harmony in the performance."

William McPhail, violinist, as usual gave delightful numbers. His Viens temps "Ballade de Polonoise" and trio of selections from Dvorak, Dient and Sarasate gave him well merited rounds of applause."

CHICHESTER'S PILLS

Little Ask your Druggist for Chichester's Pills in Red and Gold Boxes. Take one with each meal. Sold by Druggists Everywhere.

shares is excellent, and we believe indicates a broader market and a higher range of prices next week. We like such stocks as Butte, Conditon, Hancock, Greene, Gironx, Shannon, Superior & Pittsburg, Cumberland Ely, Chief Consolidated, Cactus and San Antonio. Denn-Arizona should be in line for a comfortable up-turn, as a result of recent important strikes made in the Junction property of Superior & Pittsburg, close to the line of the Denn property.

Yesterday's prevailing prices were:

DEMONSTRATION

...AT...

W. J. Stromvall's Store
 Thursday, Friday and Saturday

THIS WEEK

We are not asking a favor when we ask you to witness the Chi-Namel Demonstration in our store on above days, but extending one. It will be your opportunity to learn from the Manufacturer's expert many things in regard to the treatment of interior wood work, furniture, etc., and the many ways in which the Chi-Namel Graining and Varnishing Process may be made to serve the housewife. Don't fail to attend. It will be worth many dollars to you.

SKANDIA LIKELY TO HAVE CREAMERY

STOCK COMPANY, COMPOSED OF FARMERS, NOW BEING ORGANIZED FOR THAT PURPOSE.

SHOULD DEVELOP THE COUNTRY

Experts Claim That This Locality Is Better Adapted to Dairying Than Any Other Agricultural Pursuit.

At a meeting of Skandia township farmers held yesterday afternoon, a movement was set on foot, which is likely to materialize in the installation of a creamery in that locality. Skandia farmers have been talking of a creamery for many months, but it is only recently that anything definite has been accomplished.

It is understood that a stock company is now being organized and that about \$4,000 has already been subscribed for the creamery by farmers, who would be patrons of the plant. Negotiations have been started with officials of the Marquette & Southeastern railway for a site, but no decision has yet been reached in this matter.

Agriculturalists have for a long time argued that the upper peninsula was better adapted to dairying than almost any other kind of farming, but the farmers of this section have been slow to take it up, in spite of the success of creamery projects in the western end of the peninsula and in northern Wisconsin. At last, however, they are realizing that the land is rapidly losing its fertility under present methods of farming, and that more stock must be kept on it will soon become worthless for agricultural purposes.

In order to successfully operate a creamery, the milk from between 400 to 500 cows is needed, and it is claimed that nearly that amount is already in sight. The installation of the plant will doubtless result in other farmers adding to their herds and farming in that locality should take a decided boom.

Farmers Have Been Criticized.

Scientific farmers have in the past criticized the rural population of this locality, and declared that they were simply a band of wood choppers. The method of tilling the soil has frequently been taken to task, and that the community was put back. It is declared that no land will long stand this kind of treatment, which fact is now being realized in this vicinity. Nothing will keep up the fertility of soil more effectively than a large dairy, and, properly conducted, it is a paying investment besides.

If the creamery project goes through, as seems altogether likely, it should mean the rapid development of the farming interests of the eastern part of Marquette county, and that this community will soon take the prominence in agricultural pursuits that the climate, soil and other natural conditions have made possible.

The development of agricultural pursuits, and especially dairying, in the vicinity of Marquette, will be of considerable importance to this city, as a prosperous adjacent farming community is one of the most valuable assets of any city. The farmer differs from all other persons in that he deals with his market, both as a buyer and a seller, and the merchant thereby makes two profits. Besides, country people are usually a most stable and trustworthy class of people with whom to have dealings. The Skandia farmers will have the best wishes and hearty good will of the people of Marquette in their creamery enterprise.

RAISE MORE STRAWBERRIES.

Business Man Believes Their Cultivation Very Profitable.

"It is strange to me that the strawberry receives so little attention in the Lake Superior region," said a Marquette business man yesterday. "Commercially considered, it is doubtful if any other line of horticulture offers so large an opportunity to thrive and enterprise in this section of the country. Southern growers who send strawberries to the north continuously from the holidays until about the first of June, find it a source of great profit. But about June 1, the southern crop is exhausted, just when the public most eagerly craves the luscious delicacy.

"The northern grower could produce just what the market demands, and would have no difficulty in commanding a higher price than the southerner gets for his product, save for those southern berries that reach the northern markets at holiday time.

"This is not a mere theory, for the idea is being practically demonstrated in more than one instance, notably at Ontonagon, where D. Nelmer & Sons cultivate a twenty-acre field, which has proved to be a source of great profit to its enterprising proprietors. There are several farmers near Marquette, who market a few berries annually, but, in my opinion, a ready sale (at a good price), for a much larger product could be found in this city."

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. (7-2-21)

ART NEEDLE WORK.

Boyle-Anderson of Chicago have opened a display of their work in the Marquette Millinery company's store and the ladies are invited to call. A specialty is made this year of the lingerie waists in colors. Instructions given. Stamping done. (6-28-11)

ONE O'CLOCK DAILY.

New train service between Marquette and Ishpeming via D. S. S. & A. R'y., leaving Marquette 1 p. m. daily, returning, leave Ishpeming 3:40 p. m. daily, arrive Marquette 4:25 p. m.

M. ADSON, General Passenger Agent. (6-22-11)

SACRED CONCERT.

Under Direction of C. J. Shaddick at St. Paul's Church Sunday Night.

A sacred concert will be given at St. Paul's church Sunday evening, under the direction of Chas. J. Shaddick, organist and choir master. The following program will be rendered:

- (a) Second Andante.....Batiste
- (b) Communion.....Batiste

Send Out Thy Light.....Gounod

- (a) Death of Ase, "Peer Gynt".....Grieg
- (b) Fugue from Second Mass. Mozart

Tenor solo, "If With All Your Hearts," from "Kiljah".....Mendelssohn

- (a) Twilight.....Von Wilh
- (b) Largo.....Handel

"The Sun Shall Be No More Thy Light by Day".....Woodward

Professional March.....Scottson Clark

The morning service will be commemorative of the birth of American independence, patriotic hymns will be sung, and the pastor, Mr. Burt, will preach on a subject appropriate to the occasion. A cordial welcome is extended to all.

QUIET OBSERVANCE OF FOURTH EXPECTED

SWEDISH CROWN PICNIC AT FAIR GROUNDS WILL BE THE ONLY SEMBLANCE OF CELEBRATION IN MARQUETTE.

Indications are that Sunday and Monday will be very quietly spent in this city, as no formal Fourth of July celebration has been arranged. The only event of any great significance scheduled to take place is the basket picnic at the fair grounds, to be given under the auspices of the Swedish Crown society. All the Scandinavians of the city and of Negaunee and Ishpeming have been invited to take part in this picnic, and a large crowd is expected to be in attendance.

A large number of Marquette people are planning to spend the Fourth out of town. Many of those who have summer camps will spend Sunday and Monday there, while many others expect to spend the two days in the woods and along the trout streams if the weather is favorable.

Some will undoubtedly attend the formal celebrations that are to be held in different parts of the county. Michigan is making great preparations for an old-time celebration on Monday, and the committee promises that there will be something doing in that usually quiet town from early morning until late at night.

Swedish Crown picnic at the fair grounds, which includes a ball game between the prison and the Marquette second team. Other athletic events and the prizes for each are as follows:

- 100-yard handicap race—First prize, \$1; second prize, fifty cents.
- Relay race, national special; three men to a team, members of each team must be of same nationality—Irish, French, German, Negro, Finn, Indian, Italian and English teams—First prize, \$5; second, \$3.
- Tug-of-war, overall vs. box shop; five men to each team—Prize, \$5.
- Sack race—First, \$1; second, fifty cents.
- Shot-put—First, \$1; second, fifty cents.
- Running broad jump—First, \$1; second, fifty cents.
- Three-legged race—First, \$2; second, \$1.
- Throwing baseball for distance; each entrant may have two trials at ten cents a trial; all entry fees received to go to winner.
- 100 metres Juaksta Kilpailua Suomalaisille Kesäns—First prize, \$1; second, fifty cents.
- Clog or lock and wing dancing—First prize, \$1; second, fifty cents.
- Boxing—Three round events; winner of each, \$1.

Our store will be closed all day Monday, July 5, it being a legal holiday. (7-3-11) ORMSBEE & ATKINS.

GWINN CELEBRATION.

The Marquette & Southeastern railway will run a special train from Ishpeming, Negaunee and Marquette to Gwinn and return on Monday, July 5, to enable all who wish to take in the celebration at that place and return on same day. The train will leave here at 8:45 a. m.; returning will leave Gwinn at 10 p. m., arriving at Marquette at 11:30 p. m. Fare for the round trip only \$1. This will give everyone a chance to see the new marble town of Gwinn. The right is reserved to cancel this train if the weather is unfavorable. (7-1-31)

LAUNCH FOR PLEASURE PARTIES.

My gasoline launch Grace, is kept at Premier Isle. Parties wishing to take lake rides can secure it by telephoning Bell 1062-3. (7-1-11) SAM GAUTHIER.

GO TO DUQUETTES

1000 North Third street, for staple and fancy groceries, candies, fruit, sweet cream, milk and ice cream. Everything the best, and fresh. Remember Duquette's when you want things good. (6-17-11)

FOURTH OF JULY.

Excursion fares authorized by the South Shore between all stations on their line. Tickets on sale July 3rd, 4th and 5th. Return limit July 7th. (6-21-11)

Drink Vandenberg's buttermilk—it aids digestion and improves the health. (7-2-11)

COMET MAY CAUSE FREAK WEATHER

ASTRONOMER WOULD NOT BE SURPRISED AT SHARP FROSTS OR A SNOW STORM THIS MONTH.

Astronomer Edwin Fairfax Nautly feels there will be snow blizzards in July. He says:

"One of the most perplexing and mysterious of comets is that celestial visitor, the comisphere or head of which at noon, Saturday, June 19th, was in the neighborhood of the Constellation of Orion.

"Except for a fleeting glimpse of the radiant point close to the head on the morning of June 19th, I have been unable to see the head of this comet, although I have traced its comalight from one point of the heavens to the other during the major portion of each twenty-four hours since May 23rd. This comet, which may be called the Brooks comet from the discoverer of its actual head, must not be confused with the comet observed on June 14th by Zacharias Danti, of Princeton, or on June 14th by M. Borrelly, of Marseilles, and confirmed by the bureau of astronomy in Nice.

"The Brooks comet has been a puzzling object in many ways. The comalight or reflected sunlight from it for weeks has surrounded the entire earth. On the morning of June 4th it extended far beyond the earth's position in space to head Mars with its light.

"The heads of comets are gaseous spheres of varying density, possessing by their constituency, a power, similar to that of our atmosphere, of collecting, condensing, creating and transmitting sunlight. The so-called 'tail' of a comet is really our perception of such portion of this light as lies between us and the sun, perceived by us only because we see it through the earth's atmosphere.

"The presence of this comalight causes unusual weather, not through any effect of the comet itself, but through the effect of the comalight, through the earth's atmosphere, at an angle, differing from that of radiant sunlight. The frost in early June in Plainfield, Conn., and the snow in upper New York state on Friday, will be followed by other queer weather and we are more than likely to be treated to the surprise of a sharp frost, or possibly snowstorm in July."

SUNDAY AT THE CHURCHES.

Presbyterian Church—The usual preaching service will be held at 10:30 a. m. There will be no evening service.

German Lutheran church—Services will be held at the German Lutheran church Sunday evening at 7:30 p. m. with preaching by the pastor, Rev. W. Roepke.

First Baptist church—Dr. Tupper will preach in the morning on "Christianity as a Life-Possessing and Life-Producing Force," and will hold a patriotic service in the evening, speaking on "The Land We Prize." In the afternoon at 3:30 o'clock there will be the regular communion service of the church, with welcome to new members.

SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 2.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: James Wallace, Alex. Thompson, 9:30 p. m.; Turret Court, 10, 10:30; Juniper, 11; German, 1 a. m.; Bartov, 1:30; Germina, Donnicca, Murphy, 2; Jones, 2:30; Gary, Lim, Marfla, 3; Morrell, Miami, Columbia, 5; Portland, 5:30; Wolvin (small), Resd, 8; Pathfinder, Sagamore, Hemlock, 9; Atlanta, 10; Hamilton, Smeaton, W. H. Moss, Myron, Delaware, Page, noon; Kerr (small), 1 p. m.; Morgan, 1:30; Manitoba, Perkins, 2; Black 3; George King, Gawan, Tontonia, 3:30; Kepp, 4; Harvard, 4:30; Widener, Ralph, Connell, 5; Bros., Harold, 5:30; Michigan, 6; Gratzick (small), 7; Curry, 8.

CLOSED ALL DAY.

The following butcher shops will be closed all day Monday, July 5th: William Fassbender, Charles Dorais, William Williams, Gust Erickson, Charles J. Anderson, Anderson & Mellin, Beaumont & Christiansen, Anton Manthel, William Dorais, F. W. Hatlway. (7-1-31)

MARQUETTE & SOUTHEASTERN RAILWAY FOR THE FOURTH OF JULY

Will have in effect the regular Sunday excursion rates between all stations. Tickets will be sold on July 3rd, 4th and 5th, good for return until July 6th. On July 5th morning train for Munising & Princeton will not leave Marquette until 7:15 a. m. Evening train from Munising to Marquette & Princeton will leave at 5:30 p. m. From Princeton to Marquette and Munising will leave at 5:15 p. m., and train from Big Bay to Marquette will leave Big Bay at 6 p. m. Birch 6:32 p. m., arriving at Marquette at 7:20 p. m. This train will consequently, not make connections with any afternoon trains out of Marquette. H. A. ST. JOHN, General Passenger Agent, Marquette, Mich. (6-29-11)

SPECIAL SALE AT THE BEE HIVE.

We are offering one-third off on all suits, one-half off on hats and a reasonable reduction on all white shirt waists. THE BEE HIVE, L. Getz, Prop., 220-222 South Front Street, Marquette. (6-19-11)

Eli Couvion, the trucker, is taking up the work of Mr. Orchard to remove garbage. If you will give me a trial, call me up. Bell phone 468-J. 6-7-11
