PRICE FIVE CENTS.

KETCHEL RETAINS FISTIC CHAMPIONSHIP

In a Desperate, Gruelling Battle, He Is Awarded the Decision Over Billy Papke of Illinois at the End of the 20th Round.

He Breaks His Right Hand Early in the Fight, and He Also Dislocates His Left Thumb, Notwithstanding Which He Is the Aggressor Throughout, and Lands Oftener and Cleaner; but Try as He May He Is Unable to Find a Vital Spot.

San Francisco, July 5.—Stanley Ketchel, of Michigan, is still the world's middleweight champion. In a desperate, gruelling battle, during which the champion was constantly on the aggressive, he was awarded the decision over Billy Papke, of Illinois, at the end of the twentieth round, the scheduled number. Ketchel broke his right hand in the sixth round. His left thumb was dislocated.

Referee Roche gave the decision to Ketchel on his aggressive work and the fact that he landed oftener and cleaner. Ketchel forced the fighting from the tap of the initial gong, and with the exception of the third he enjoyed a clean lead in the first half of the battle.

In the eleventh, Ketchel landed time and again with ponderous lefts, but try as he would he could not find a vital place. Both men were bleeding freely at this stage of the battle. Papke, in particular, spouted blood from his mouth and nose until the center of the ring resembled a shambles.

Extreme Viciousness Shown. The feature of the fight was the extreme viciousness with which both men fought, and the apparent hatred that lurked behind every punch.

Ketchel opened the fight with a light smash to the stomach, and after some wrestling he duplicated the blow. Breaking from a clinch, Ketchel uprooted his left to the jaw. The referee experienced great difficulty in separating the men from clinches. Ketchel suddenly looked a succession of right and left swings on the body and head, and the "thunder-bolt" sought refuge in a clinch.

The second round was practically a duplicate of the first, except that Papke got in a vicious left to the jaw. The third was Papke's, though both did some hand hitting. Ketchel's mouth was bleeding as he took his corner. The fourth saw Ketchel hammering his opponent frequently, though nothing serious resulted.

Clinches characterized the fifth, and while both men fought every inch of the way and Papke was forced against the ropes, the "thunderbolt" seemed to have the advantage. The sixth was lively, both men landing often. Twice Ketchel forced Papke against the ropes, and once the men forced each other so fiercely that both fell to the floor.

The seventh and eighth were even, though at the end of the eighth Ketchel's face was bloody. Ketchel's Best Round the Ninth. Ketchel did his best work so far in the ninth, landing frequent rights and lefts and starting the blood in a stream from Papke's mouth. The effect of Ketchel's work in the ninth was seen in the tenth, at the close of which Papke looked beaten and took a good deal of punishment. Papke came up bravely in the eleventh, but Ketchel went after him, hammering his opponent mercilessly and striving for a knockout, which he was unable to land.

Papke recovered in the twelfth, and though Ketchel went after him viciously Papke landed a staggering blow. Ketchel came back and received a good deal of the worst of the fighting. Papke was fighting strong at the opening of the thirteenth, and as the round progressed he gained confidence. There was little punishment on either side, but whatever advantage there was in Papke's favor.

Blows Without Result. The fourteenth and fifteenth rounds were practically featureless, but the sixteenth saw some fast work. The blows, however, were without result. The seventeenth and eighteenth were Papke's by a fair margin. In the nineteenth, Ketchel staggered Papke with a straight left to the jaw, and in the latter he did such effective work that Ketchel seemed to weaken. In the nineteenth, Papke landed a right on Ketchel's jaw with such force that he staggered half way across the ring, and he followed it up with a vicious clip to the chin.

In the final round, Ketchel fought desperately to land a telling punch, but Papke rocked his head with two rights in quick succession on the point of the chin. Ketchel rushed to the other side of the ring, seeking vainly to find a vital spot, but Papke smothered all his attempts. At this stage neither man appeared capable of landing a knock-out. Ketchel rushed his man around the ring mainly with a force of his body.

The round ended with Papke in a neutral corner and Ketchel hammering away with rights and lefts. Referee Roche promptly declared Ketchel the victor, on points. The decision was received with mingled cheers and derisive shouts.

Thompson Scores a Knockout. Chicago, July 5.—"Cyclone" Johnny Thompson won his fight with Danny Goodman at Hammond, Ind., this afternoon, knocking out Goodman in the tenth round.

And you have no doubt observed that passenger train is invariably on time if you arrive at the station five minutes late.

FOURTH OF JULY'S TOLL IS CUT DOWN

Movement for a "Safe and Sane" Celebration of the Anniversary of the Birth of the American Nation Has Gratifying Results.

Cities Where the Plan Is Tried Report the Casualties Materially Less Than in Former Years—However, Incomplete Returns from the Country Over Show Forty-Five Deaths, Injuries to 1,527 Persons and a Fire Loss of Close to Half a Million Dollars.

Chicago, Tuesday, July 6.—The Record-Herald's summaries of the three days' nationwide celebration of the day of the nation's birth are: In Chicago, dead one, injured forty-eight; elsewhere, dead forty-five, injured 1,527. Deaths due to tetanus, eighteen; fire loss, \$465,900.

Only One Death in Chicago. Chicago, July 5.—The promise of a "safe" celebration, which yesterday and the early part of today gave, was carried out in the "final results" of accidents here tonight. At midnight, only thirty-five accidents had been reported, the majority of a minor character. There was one death. The record last year was twelve dead and eleven injured in Chicago alone.

The downtown district was strangely silent tonight, in comparison with other years. The day was celebrated in the parks and in the city districts with home parties and old-fashioned oratory. Cold weather and rain damped the ardor of many. One of the most serious accidents was that in which Grose Willey and wife and C. H. Crossman and wife and child were injured. They were taken from a buggy. Their horse became frightened at firecrackers. Mr. Willey died an hour later.

New York City's Record. New York, July 5.—Four deaths and 192 injured, nine of them dangerously so, were the result of the Fourth of July revels in New York and Brooklyn up to 10 o'clock tonight. Three of the deaths occurred last night, and only one was added to the list today, that of Dorothy Demartin, a child of the upper East Side, who was strangled by the accidental ignition of a box of matches which set her clothes ablaze.

Chicago Youngster a Suicide. Chicago, July 5.—Because he was not allowed to put on his new suit of clothes to witness a display of fireworks in the front yard of his home here, Arthur Kruse, aged fifteen, committed suicide tonight by hanging himself from the back stairs with a clothes line.

Three Are Dead at St. Louis. St. Louis, July 5.—Two deaths tonight were added to yesterday's fatality as an incident to the Independence Day celebration. Reports of accidents continued to pour into the police headquarters all night. At the latter hour 295 accidents of various kinds had been reported.

SIX MEET THEIR DOOM IN A BURNING HOUSE. Aged Man and Five Children the Victims of a Fire in Virginia—One Hundred and Fifty Horses Perish When Stables Are Destroyed at San Francisco.

Richmond, Va., July 5.—H. F. Strange, aged seventy-four, and five children—Vernie, fourteen years old; Beatrice, seven; Violet, six; Cecil, three, and Henry, eighteen months, all children of S. E. Hamlet—were burned to death in the Hamlet home at South Boston today. Hamlet and wife and two children escaped, although one child was thrown from a window and was so badly hurt that he will die.

Costly Blaze at San Francisco. San Francisco, July 5.—Early today the stables of the Warren Improvement company were destroyed by fire, and one hundred and fifty horses were burned to death. The loss is \$175,000. Charles Howard, a stableman, is believed to have perished in the blaze.

AMERICAN FORCES WIPE OUT OUTLAWS. Operating in Conjunction With a Mosquito Fleet, U. S. Troops and Constabulary Kill a Famous Moro Bandit Chief and Exterminate His Entire Band.

Manila, Tuesday, July 6.—In a desperate fight near Patian, Jolo island, yesterday, Jikiri the famous Moro out-law chief, was killed and his entire band was exterminated by detachments of regulars and constabulary. Captain Geo. L. Byram, Sixth U. S. cavalry, operating in conjunction with a naval flotilla of a mosquito fleet under Lieutenant Commander Signor. The American loss was one private killed, and three officers and twenty enlisted men and one sailor wounded.

No Fatalities at Cincinnati. Cincinnati, July 5.—The three days' celebration of Independence Day, closing tonight, while having resulted in several minor accidents, was not attended by any fatalities.

Tammany Society's Celebration. New York, July 5.—With its traditional enthusiasm, the society of Tammany

held its annual Fourth of July celebration today. A throng of members filled the elaborately decorated audience chamber in Tammany Hall and cheered the patriotic sentiments of the speakers. Chief among these was Governor Albert W. Gilchrist, of Florida, the orator of the day.

"Sane" Jubilee at Cleveland. Cleveland, July 5.—Not an injury nor a life were reported as a result of the fireworks here today. The day was celebrated in a perfectly "sane" manner, scarcely a shot being heard inside the city limits except those fired at public exhibitions in the parks this evening. Chief of Police Kohler estimated that the citizens of Cleveland were saved \$500,000 by today's method of celebrating.

Explosion Ends Two Lives. Camden, N. J., July 5.—During a Fourth of July celebration in Reservoir Park tonight, a cannon exploded and a piece of it killed Mrs. Emma Heled and her six-week-old infant. Their skulls were crushed. Charles Nullian, seventeen years old, had the top of his head torn off and cannot live. The cannon was in charge of George Houser, aged nineteen, who was badly injured about the body and one arm was horribly mangled.

Skyrocket Kills a Pittsburgh Baby. Pittsburgh, Pa., July 5.—One hundred and eighteen scorched fingers, seventy-one maimed arms and three burned eyes is the toll paid by Young America in Greater Pittsburgh, for the Independence Day celebration. One fatality occurred late tonight when Ethel M. Cottingham, eleven weeks old, was struck by a skyrocket stick while in her mother's arms and was killed.

Memphis Boy Badly Burned. Memphis, Tenn., July 5.—In some unexplained manner, a spark ignited a large bunch of firecrackers carried in the shirt bosom of Charles Bedonis, a crippled newsboy, today, and in a moment the lad was writhing on the ground while the large crackers were exploding about his breast. He was frightfully burned and will probably die.

Two Aeronauts Among the Dead. Portland, Me., July 5.—James Corcoran, a Lowell (Mass.) aeronaut, was killed by falling two hundred feet from a parachute during the Fourth of July celebration here this afternoon.

Grand Rapids, Wis., July 5.—Professor Erhart, a balloonist, who made an ascension here tonight, fell into a mill pond and was drowned.

Firecracker Is Fatal at Louisville. Louisville, Ky., July 5.—Arthur Granville Langham, uncle of Baroness Speyer, died today as the result of injuries received in the explosion of a giant firecracker last night. Today there was not a casualty serious enough to warrant an "emergency" call, and there were only three fire alarms, all trivial.

Chicago Youngster a Suicide. Chicago, July 5.—Because he was not allowed to put on his new suit of clothes to witness a display of fireworks in the front yard of his home here, Arthur Kruse, aged fifteen, committed suicide tonight by hanging himself from the back stairs with a clothes line.

Three Are Dead at St. Louis. St. Louis, July 5.—Two deaths tonight were added to yesterday's fatality as an incident to the Independence Day celebration. Reports of accidents continued to pour into the police headquarters all night. At the latter hour 295 accidents of various kinds had been reported.

SIX MEET THEIR DOOM IN A BURNING HOUSE. Aged Man and Five Children the Victims of a Fire in Virginia—One Hundred and Fifty Horses Perish When Stables Are Destroyed at San Francisco.

Richmond, Va., July 5.—H. F. Strange, aged seventy-four, and five children—Vernie, fourteen years old; Beatrice, seven; Violet, six; Cecil, three, and Henry, eighteen months, all children of S. E. Hamlet—were burned to death in the Hamlet home at South Boston today. Hamlet and wife and two children escaped, although one child was thrown from a window and was so badly hurt that he will die.

Costly Blaze at San Francisco. San Francisco, July 5.—Early today the stables of the Warren Improvement company were destroyed by fire, and one hundred and fifty horses were burned to death. The loss is \$175,000. Charles Howard, a stableman, is believed to have perished in the blaze.

AMERICAN FORCES WIPE OUT OUTLAWS. Operating in Conjunction With a Mosquito Fleet, U. S. Troops and Constabulary Kill a Famous Moro Bandit Chief and Exterminate His Entire Band.

Manila, Tuesday, July 6.—In a desperate fight near Patian, Jolo island, yesterday, Jikiri the famous Moro out-law chief, was killed and his entire band was exterminated by detachments of regulars and constabulary. Captain Geo. L. Byram, Sixth U. S. cavalry, operating in conjunction with a naval flotilla of a mosquito fleet under Lieutenant Commander Signor. The American loss was one private killed, and three officers and twenty enlisted men and one sailor wounded.

No Fatalities at Cincinnati. Cincinnati, July 5.—The three days' celebration of Independence Day, closing tonight, while having resulted in several minor accidents, was not attended by any fatalities.

Tammany Society's Celebration. New York, July 5.—With its traditional enthusiasm, the society of Tammany

THE WEATHER.

Washington, July 5.—The following is the weather bureau's forecast for Upper Michigan: Fair Tuesday and Wednesday; warmer, Wednesday; light to moderate east winds.

MEXICAN CONDITIONS SERIOUS.

Because of Floods, Loss of Life and Property Will Be Heavy. El Paso, Tex., July 5.—The flood situation in Mexico is growing more serious hourly. Every main railroad line leading into the Mexican capital is reported tied up by washouts. The city is cut off from communication with the outside world. The rains still continue, and repair work is almost impossible. Scores of life and property will be heavy in the mining camps.

SCHEDULE FOR TODAY.

National League. Cincinnati at Pittsburgh. Boston at Philadelphia. St. Louis at Chicago. American League. Detroit at Cleveland. Washington at Boston. Philadelphia at New York. Chicago at St. Louis.

YESTERDAY'S GAMES.

National League. Philadelphia, July 5.—New York shut out Philadelphia in the morning game, 2 to 0, and not only got to first until the sixth. Only three Philadelphia's reached first during the entire game. The New Yorkers hit Cleveland hard, but splendid fielding prevented them from scoring until the fifth, when three hits, a pass, and an error by Catcher Dooin gave them all their runs. New York defeated Philadelphia this afternoon in the longest game of the season in the National league, it requiring fifteen innings to decide the contest. Philadelphia tied the score in the ninth by Magee and Deolan working a squeeze, the former scoring. Mathewson was so exhausted in trying to stretch a long drive into a triple in the tenth that he gave way to Raymond. New York won in the fifteenth on two-baggers by Doyle and Murray. Morning game: R. H. E. New York . . . 000030000—3 10 0 Philadelphia . . . 000000000—0 3 2 Batteries—Willie and Schick; Covelaskie and Dooin. Afternoon game: R. H. E. Philadelphia . . . 0100000100000—2 10 3 New York . . . 0010000000001—3 9 4 Batteries—Moore, Foxen and Dooin; Mathewson, Raymond and Schick.

Pittsburg, July 5.—Pittsburg shut out Cincinnati in the morning game, the score was 2 to 0. Maddox was invincible, allowing but two hits. Abstein was hit on the finger in the fourth and had to quit the game, although the umpire would not allow him to take his base. Willis was strong in the afternoon game and he was given excellent support with men on bases. This was shown in the third inning, when the visitors got a man to third with nobody out and were unable to score. Mitchell knocked the ball over the left field fence in the ninth inning, saving the visitors a shut-out. Morning game: R. H. E. Pittsburg . . . 000110000—2 0 0 Cincinnati . . . 000000000—0 2 0 Batteries—Maddox and Gibson; Gampfer, Rowan, McLean and Roth. Afternoon game: R. H. E. Pittsburg . . . 000001030—6 6 3 Cincinnati . . . 000000001—1 5 3 Batteries—Willie and Schick; Fromme, Campbell and McLean.

Brooklyn, July 5.—Boston won the morning game by bunching hits on top of Hunter's passes. White held the local safe after the first inning. The holding of McMillan and Coffey was his feature. Brooklyn wound up with Boston in the afternoon, winning by the score of 3 to 1 through the effective pitching of Bell with men on bases. The all-round playing of Bureh was the feature. Morning game: R. H. E. Boston . . . 100300010—5 7 1 Brooklyn . . . 000000000—1 5 1 Batteries—White and Bowerman; Hunter and Bergen. Afternoon game: R. H. E. Boston . . . 010000000—1 11 2 Brooklyn . . . 000000300—3 9 0 Batteries—Mattern, Lindaman and Bowerman; Bell and Marshall.

Yale Wins Championship. At New York, Saturday, Yale won the intercollegiate baseball championship by defeating Harvard, 5 to 2.

SENATE MAKES RAPID HEADWAY

Not Since the Tariff Bill Has Been Taken Up for Consideration Has So Much Been Accomplished Within One Day's Time.

When the Sitting Ends, Little Is Left to Be Done, and This Work Probably Will Be Completed Before Adjournment This Evening—That an Income Tax Amendment Be Submitted to the Various State Legislatures Is Provided for Unanimously.

Washington, July 5.—"Fourth of July" was a busy occasion in the senate today. The session was devoted in the main to the consideration of the administrative provisions of the tariff bill and to the Brown resolution providing for the submission of the question of income tax to the legislatures of the various states, which, while not a part of the tariff bill, is so related to it as to have made it necessary to consider it in connection with the bill.

Customs Court Feature Is Fought. The best fight of the day was made by Senator Rayner against the customs court feature of the administrative amendment. He undertook to puncture the provision, and made a long speech in which he set forth with much emphasis the declaration that the court would be found to be unconstitutional because, while dealing with questions of common law, it makes no provision for trial by jury, which he said every suitor under the common law has the right to demand. He sharply criticized Senator Aldrich, whom he frequently reminded was not a lawyer and could not be expected to understand legal and constitutional questions.

The provision was defended by a number of Republican lawyers; but Mr. Root said he had not favored the creation of the court, and the provision occupied attention for about three hours and ultimately was accepted without division, though not until it had been amended in accordance with Senator Rayner's suggestion so as to exclude criminal cases from its operation. The proposed court is to consist of five members and it is intended to supersede United States circuit courts in customs matters.

Little Left to Be Done. Not since the tariff bill has come into the senate has so much been accomplished within a day. When the sitting ended, a summary of the proceedings showed that there was very little left to be done. The principal item still to be considered is the tobacco tax, figures on which had not been completed by the committee when the senate adjourned.

Attention was given to the drawback feature of the bill, relative to which the finance committee made no recommendation beyond striking out the house provision, which would have the effect of throwing the whole question into conference. In senate, however, several amendments were made, some of which were perfected. The amendments were intended to satisfy the grain producers of the Northwest. A number of other minor additions were also made, and all the administrative features were disposed of.

Income Tax Resolution Adopted. Early in the day, the income tax resolution of Senator Brown, of Nebraska, was adopted. The resolution submits to the legislatures of the states an amendment to the Constitution providing that "congress shall have the power to tax and collect taxes on incomes, from whatever source derived, without regard to any census or enumeration. There were three hours of debate over this measure, the principal contest being over an amendment by Senator Bailey submitting the amendment to convention in the states, instead of the various state legislatures. The amendment was defeated, the division being largely along party lines. The Brown amendment was adopted unanimously.

Senator Aldrich hopes to have the bill passed tomorrow from the committee of the whole to the senate. In the senate proper it will receive brief attention, and will then go to conference. The tobacco schedule will probably provoke considerable debate, and the chairman of the finance committee may be disappointed. Consideration of the bill is, however, near its finish in the senate.

BUILDING A TAFT MACHINE? Secretaries Ballinger and Nagel Credited With Department Shake-Ups. Washington, July 5.—Some people in Washington profess to see political plans in the shake-up in executive departments. The two most anti-Rooseveltian members of the cabinet, Secretary Ballinger and Secretary Nagel, are credited with being active in the efforts to put in new men who will be under a sense of obligation to the president.

It is asserted they are destined to be very important men in the organization that President Taft will have completed by the time the next presidential campaign approaches. The president is insistent upon having efficient clerks and chiefs, and his cabinet officers are getting a lot of many who have become indifferent or are not earning the salary the government pays them.

San Juan, P. I., July 5.—The Fourth of July celebration here today was marked by a series of sports and a civil and military parade.

PRESIDENT TAFT IN CONNECTICUT

Nation's Chief Executive the Central Figure in the Celebration of the Two Hundred and Fiftieth Anniversary of Norwich.

Finding a Theme in the Church Influence That Had to Do With the Foundation of the Town, He Takes Occasion to Express His Views on the Liberty of Religious Belief, Pleading That Every Man Should Be Allowed to Worship in His Own Way.

Norwich, Conn., July 5.—President Taft was the chief figure today in the celebration of the two hundred and fiftieth anniversary of this town. In an address to the people after a military parade and a civic display, the president, finding a theme in the church influence in the foundation of Norwich, took occasion to express his views on the liberty of religious belief. He pleaded that every man should be allowed to worship God in his own way.

The president declared that the American forefathers came to this country ostensibly to escape religious intolerance, but as a matter of fact in order that they might follow out their own religious ideas in their own way and with a large degree of intolerance toward any other form of belief. "We have passed beyond that," said the president, "and are coming more and more to realize the right of the individual to worship God as he may choose."

Norwich, Conn., July 5.—President Taft and party left here at 10:50 o'clock tonight for New York.

Lake Champlain's Tercentenary. Port Henry, N. Y., July 5.—At the historic old Crown Point where three centuries ago Samuel De Champlain, with his Algonquin allies, engaged in battle against the Iroquois, there were begun today a week's ceremonies, undertaken by the states of New York and Vermont, in celebration of the tercentenary of Champlain's discovery of the lake that bears his name. Governor Hughes sketched briefly the objects of the celebration. Historical addresses were delivered by ex-Mayor Seth C. Barnes of Chicago, Clinton Scoville, of Clinton, N. Y., read an original poem.

POLO CUP COMES BACK. American Team Wins the Second and Deciding Match in England. London, July 5.—The Meadowbrook polo team won the second annual polo cup, eight to two. The first game, played June 23, was won by the Americans, who by their victory today secured the trophy for America.

INCREASES HIS OWN SCORE. World's Champion Athlete Martin J. Sheridan Wins Nine of Ten Events. New York, July 5.—Martin J. Sheridan, of the Irish-American Athletic club, the world's best all-around athlete, increased his famous score of 7,130.4, to 7,385 in the all-around championship contest of the Amateur Athletic union today. Sheridan won nine of the ten events on the all-around program. His only opponent—Theodore L. Matsukes, of the West Side Y. M. C. A., New York—lost the tenth and last event, the one-mile run, easily. In the pole vault for height, Sheridan distinguished himself by clearing the bar at ten feet, nine inches.

IS CHARGED WITH MURDER. Emil Victor, a South Dakota Farmer, Held Under Suspicion. Aberdeen, S. D., July 5.—Emil Victor, a farmer employed by John Monroe, of Rudolph, who was arrested Saturday last night on suspicion of having murdered J. W. Christie, wife and daughter Mildred and a boy Michael Ronyane, was today held to await the action of the courts, the coroner's jury expressing the opinion that "from the evidence presented to us, we believe that Emil Victor was implicated in the deaths of said persons."

GEN. SIMON HAS CLOSE CALL. Ten Soldiers Killed in Wreck of the Presidential Train in Hayti. Port Au Prince, Hayti, July 5.—General Antoine Simon, president of Hayti, had a narrow escape from death in a serious railroad accident near Buedet last night. The presidential train collided with a freight train. Several cars were wrecked and ten soldiers were killed, while some others sustained injuries. The president was not hurt.

POWERS PROTEST TO CHINA. Peking, July 5.—Great Britain, Austria-Hungary and the United States have notified China that they do not recognize the preliminary agreement between Russia and China devised for the administration of the Russian railroad area in Manchuria. These powers declare that the laws affecting the right to reside in international settlements in China must originate with the treaty powers.

FRANK SELEE DEAD. Denver, July 5.—Frank C. Selee, for twelve years manager of the Boston National league baseball club, and late manager of the Chicago Nationals, died here tonight at the Elks' home for consumptives.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., JULY 6.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

We hope that State Fire Warden Pierce is not, in the enthusiasms of his discussion of forest fire losses last year, overlooking plans to prevent possible losses during the present season.

The Evening Copper Journal says that the copper country is unanimous for Mr. Kerr and then chronicles the fact that it has it on good authority that another copper country candidate will announce himself within six months.

Cornell swept up Wisconsin, Columbia, Syracuse and Pennsylvania with the same thoroughness with which old Harvard disposed of Yale. Now if it were possible to get Cornell and Harvard together we would have a national championship crew.

The corporation tax went through the senate swimmingly. It will be accepted by the conferees and will be put through the house with no more difficulty than attended its passage by the senate.

State Highway Commissioner Ely has taken hold of his new duties. Deputy Rogers, who did such excellent work under Mr. Earle, has been reappointed.

The next Marquette sitting of the federal district court will probably try the accused Ironwood bank officials, who have been held pending the submission of the cases against them to the federal grand jury that will be convened here September 7.

Finis has been written in the story of the seizure by Wisconsin game wardens of a big shipment of venison killed in the upper peninsula last fall, largely by lower Michigan hunters.

Former Police Commissioner Bingham of New York has been succeeded by William F. Baker, of Brooklyn, who is said to be a loyal McCarren man.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

for the McCarren-Tammany feud is still unsettled. Baker says: "My policy will be to enforce the laws with due recognition that ours is a metropolitan city, and to secure better work from patrolmen on beats."

As noted in The Mining Journal's news columns, an ordinance has been introduced in the Negaunee council authorizing the running of electrical transmission lines through that city by the Cleveland-Cliffs Iron company.

Young is conceded to be even by those who may not happen to like him—in ratio to the length of his service. The first two or three terms in congress are a period of probation for the new member.

This system of congressional apprenticeship has to be gone through by all except most unusual members. It's inevitable in the congressional scheme of things.

The candidacy of Angus W. Kerr, of Houghton county, for congress has been formally announced by the Hancock Evening Copper Journal in an article the tone of which indicates that the Journal will be one of Mr. Kerr's staunch and aggressive supporters.

The Evening Copper Journal speaks in the highest terms of Mr. Kerr, saying that it is impossible to pick the slightest flaw in his record.

There is an opinion in the iron country as well as the copper country that the honor should next go to a copper country man. Mr. Young has served his district well, and his reelection last fall, with practically no opposition in the convention, was a tribute to his faithful service.

Young is conceded to be even by those who may not happen to like him—in ratio to the length of his service. The first two or three terms in congress are a period of probation for the new member.

HELP WANTED. WANTED—A bell boy at the Clifton, 7-6-11.

WANTED—Experienced laundry girls. All applications strictly confidential. The Crescent Laundry 128 Washington street.

WANTED—Bright, ambitious man or lady to represent us in Marquette to supply weekly Cable Flax Co. Ishpeming. 7-3-11

WANTED—First-class man to manage general store at Beaton, Mich. M. C. Quinn, Negaunee, Mich. 7-3-11

WANTED—An experienced specialty man to represent the American Sales Book Co. of Elmira, N. Y., in Northern Michigan. Their product consists of the largest and most complete line of duplicating and triplicating sales books, counter check books and salesman's order books, on the market.

WANTED—Good woman cook at Brunswick Hotel. 7-2-11

WANTED—A girl for general housework. Apply 409 E. Arch street. 7-1-11

WANTED—A girl for general housework. 311 E. Ridge street. 7-4-11

WANTED—A competent cook, Mrs. A. B. Edger, 317 High street. 7-4-11

WANTED—A girl for general housework. Apply to Mrs. C. C. Thompson, corner High and Michigan streets. 6-29-11

MEN WANTED—To collect medicinal roots, herbs, etc. For particulars, enclosing stamp, write to J. C. Zahring & Co., Lebanon, Pa. 6-25-11

AGENTS WANTED—The New Singer Darning. A thoroughly practical attachment for any lockstitch sewing machine. Darning history, undersewing, etc.; easily operated, saves time, does smooth, durable work. Big commissions, tremendous sales, needed in every home. Splendid proposition for energetic canvassers. Particulars at Singer Sewing Machine stores, Ishpeming, Marquette and Negaunee. 6-25-11

WANTED—Fifty men, for peeling bark or cutting logs. The Northern Lumber Co., Birch, Marquette County, Mich. 6-25-11

WANTED—A competent cook; also a second girl. Mrs. Anna Farrell, 221 E. Arch St. 6-1-11

WANTED—A cook. Mrs. F. B. Spear, 455 East Edge street. 6-15-11

WANTED—50 wood choppers to cut chemise wood. The L. Stephenson Co., Wells, Mich. 6-25-11

BOARD AND LODGING. WANTED—Room and board for married couple with two children. Answer by mail to A. Mining Journal. 6-14-11

FOR RENT. FOR RENT—Two furnished rooms with board; modern conveniences. A. W. Moore, 212 West Michigan street. 6-25-11

FOR RENT—A cottage 215 West Edge street. Bell phone 611. H. Blomquist & Son. 6-25-11

FOR RENT—The O'Hagan building, corner Harrison avenue and Lake St. Will rent the whole or part. Good living rooms upstairs suitable for business, parties furnished. Will sell the furniture cheap. Apply Michael Hennessy. 6-25-11

FOR SALE—Cheap, one rubber tire top buggy, with delivery wagon. Lake Superior Carriage Works, Marquette. 7-6-11

FOR SALE—One single buggy, cheap. E. J. Clark. 7-2-11

FOR SALE—Twelve good milking cows. Apply at Hansen's boarding house. 6-25-11

FOR SALE—Restaurant furniture at a bargain. Apply by letter to "Restaurant," care Mining Journal. 6-29-11

FOR SALE—2 seated light wagon, 1 cutter, 1 buffalo robe, 1 buggy, all in good condition. Inquire Mrs. J. H. Taylor, 145 W. Hewitt avenue. 6-1-11

FOR SALE—Lake shore cottage or camp sites. Lots 100 x 150 ft., East Lakewood, 210, each on time. H. Patrick, Marquette. 5-19-11

The Best Spring Water on Earth IS USED IN MAKING "Drei Kaiser" Bottled Beer. Along with the better grade of Malt and Hops. A trial order will convince you. Your doctor will tell you that it is health-giving. U. P. BREWING CO. MARQUETTE, MICHIGAN.

Copper Country

ITS GOLDEN JUBILEE.

The Catholic parish of St. Ignatius, of Houghton, will be fifty years old July 31, and Rev. A. J. Rezek, the pastor, is preparing to celebrate the anniversary with imposing and solemn ceremony. The celebration will occur July 31, which is Saturday, and Aug. 1, which is Sunday. The program is still in preparation, but Father Rezek yesterday gave out its general plan.

Father Rezek will celebrate high mass the morning of the actual anniversary, Saturday. Rt. Rev. Frederick Eis, bishop of the diocese of Sault Ste. Marie and Marquette, will celebrate high mass Sunday morning, and Rev. Fr. Roswinkel, S. J., of Milwaukee, will preach the sermon. Father Roswinkel's presence will be particularly appropriate, as he is a member of the Society of Jesus, the Jesuits, of which St. Ignatius of Loyola was the founder. He is a pupil orator of distinction and power and his presence will add to the impressiveness of the anniversary ceremonies. In the evening of Sunday at solemn vespers Rt. Rev. J. J. Fox, bishop of Green Bay, will pontificate. This is as far as the arrangements for the celebration have gone. In addition to Bishops Eis and Fox Father Roswinkel, the church will be honored by the presence of Most Rev. Archbishop S. G. Messmer of Milwaukee.

History of the Parish.

The village of Houghton was incorporated Nov. 4, 1861, but four years previously to that time a school had been built at the southwest corner of Portage and South streets. This school was used for religious services by Protestants and Catholics alike. For some time previously to 1878, the venerable Father Rezek, of the mission at L'Anse-au-Loup, visited Houghton at intervals to minister to the Catholic families of the little village. After 1861 he visited regularly once a month. Steps to build a church were taken in 1870 and in 1871 the Rev. Father Rezek, the ecclesiastic whose name is more prominently associated with the upper peninsula than any other, except Father Marquette, came to Houghton with Father Jacker. The bishop held a conference with prominent Catholic priests and it was decided to build a church which would serve the Catholics of both Houghton and Hancock. Michael Finnegan, father of J. T. Finnegan of the present day, personally saw all the Catholics of the two villages and asked them to attend a meeting held at the school house on Sunday, Sept. 5, 1878. At the mass that day Bishop Baraga gave the sacrament of confirmation in Houghton.

Rev. A. J. Rezek's History of the Diocese of Sault Ste. Marie and Marquette contains a history of the church shortly given by Bishop Baraga for the building of the first church and its attached list of donors. The total collection was \$620.50, the nucleus of the fund which has resulted in the present splendid edifice. The church was begun and completed in 1879 and on July 29 Bishop Baraga came to dedicate it. This ceremony he performed Sunday, July 31, which date is to be commemorated in the forthcoming celebration.

The first parish priest was Rev. Fr. D. O'Neil. He was succeeded by Father Jacker, later by Fr. Andelschek and finally Father Jacker came to Houghton from L'Anse to become resident pastor. Father Jacker's pastorate terminated in 1884, and since that time the parish has had nineteen pastors, including the present pastor, Rev. A. J. Rezek, who took charge in 1895. To Father Rezek is due the building of the present splendid church. This was begun in June, 1898, and in 1899 the basement had been completed and roofed over so that the first mass was said in the temporary church in October of that year. The basement had cost \$10,000, and two-thirds of this was paid off at the dedication. Father Rezek then organized and carried out to completion a gigantic fair which netted \$8,500. The result, in the following year, was similar. It was decided to complete the church. It was begun in 1901 and completed in 1902, so that it was dedicated by Bishop Eis on Aug. 10 of that year. The occasion was made memorable by the ordination of Rev. W. B. Stahl, son of Joseph Stahl of this parish. The property of St. Ignatius church includes the church building, the old church, the rectory, the convent school and the home of the Sisters of St. Agnes, who have charge of the school.

ITALIANS ATTEND INVITATIONS.

The general committee in charge of the Italian celebration at Calumet, July 10 and 11, is sending out invitations to a large number of Calumet people. It is the intention to make the affair an Italo-American event, not a purely Italian celebration. So that Americans will be present and their attention called to this fact, invitations are being sent out. The local press, mine officials, village officials and a large number of private citizens are among those who are and will be favored. A special committee will visit the officials of the different mines this week. The object is to try to arrange so that the Italian miners may be able to get away from home on Saturday, July 10. Distinctive badges have been ordered for the different Italian societies, and each organization will appear in its own uniform.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

Mining News

OSCEOLA.

Although there had been some talk of revoking the semi-annual dividend of the Osceola to \$5, the declaration of \$4, or the same as was declared six months ago was not surprising, says the Boston Financial News. The Calumet & Hecla will receive from the latest dividend \$129,081 on the 32,271 shares which the company now owns as compared with \$90,684 on the 33,671 shares owned before the purchase of the 9000 from the Bigelow interests last winter. It may be of interest to state that of the 396,125 shares of other companies which the Calumet & Hecla owns, representing a total capitalization of \$27,624,425, the Osceola is the only company from which the parent company receives any dividend; and the Osceola average comprises but 2,120 out of a total of over 60,000 shares.

Osceola will produce 25,000,000 pounds of copper this year, or about 4,800,000 more than in 1908. As the company has made large sales of the metal at 15¢, and with the market holding strong at that figure, the average price this year will not be lower than that figure. It cost the company 10.5 cents to produce in 1908, but the richest copper was not encountered until the second six months. This year the cost is lower and to make it at 13 cents per pound would be conservative, thereby giving a profit of 3% per pound, or a surplus of \$937,500 for the 25,000,000 twelve months' production, equivalent to 80.75 per share on the 36,150 shares outstanding. This will cover the 88¢ dividend and leave \$168,300 to be added to the surplus of \$1,487,600 as of December 31 last.

The Osceola in seven years has, figuring this year's production as above, almost doubled its production. In 1902 its output was 13,400,000 pounds at a cost of 11.72 cents per pound, and in that year the net profits were only \$13,472, which compares with a ten-cent cost this year and net profits close to \$1,000,000. To illustrate the improved position of the mine we have prepared the following:

Year	Production	Cost	Net
1902	13,400,000	11.72	\$13,472
1903	16,000,000	10.29	662,819
1904	20,472,429	9.98	1,021,242
1905	18,938,965	10.68	938,746
1906	20,472,429	9.98	1,021,242
1907	16,000,000	10.29	662,819
1908	25,000,000	11.72	15,472
1909	25,000,000	10.00	1,500,000
Totals	181,042,250	10.14	\$8,005,150

With the past week's declaration of \$4 a share, the Osceola company's dividend record is now as follows:

Year	Per Share	Total
1908	8.00	\$772,200
1908	2.00	192,200
1907	13.00	1,249,950
1906	10.00	961,500
1905	4.00	384,000
1904	2.00	192,200
1903	1.00	96,100
1902	1.00	96,100
1901	6.00	576,900
1900	6.00	571,200
1899	6.00	558,450
1898	3.00	277,250
1897-1878	44.25	2,263,500

OSCEOLA.

With the past week's declaration of \$4 a share, the Osceola company's dividend record is now as follows:

Year	Per Share	Total
1908	8.00	\$772,200
1908	2.00	192,200
1907	13.00	1,249,950
1906	10.00	961,500
1905	4.00	384,000
1904	2.00	192,200
1903	1.00	96,100
1902	1.00	96,100
1901	6.00	576,900
1900	6.00	571,200
1899	6.00	558,450
1898	3.00	277,250
1897-1878	44.25	2,263,500

OSCEOLA.

With the past week's declaration of \$4 a share, the Osceola company's dividend record is now as follows:

MICHIGAN.

Michigan's recently discovered lode, called the North anhydrosilicite, is steadily strengthening its position as a source of rock supply for the mill. It has not yet been opened extensively enough to send a large tonnage, but in the drift east of the lode a stop has been made that is supplying an unusual amount of rock considering the limited amount of opening that has been done on the lode, which amounts to less than 200 feet each way from the adit. No steps have been taken toward sinking, and none is in immediate contemplation. Above the adit level there is an average of probably 160 feet of rock to surface, with as much as 200 feet in places, and this "back" extends for a length of about 1,600 feet within the Michigan boundary. At depth the extension of the lode will be a great deal more, the direction of the boundary lines permitting gradually greater length of drifts as depth is attained.

SAVING OUR RESOURCES.

Railroads to Aid the Committee on Conservation.

Their Interest Due to Great Amount of Coal Used by Them; Total for a Year Estimated at 200,000,000 Tons—Precautions to Be Taken Against Waste of Fuel and Timber and Protective Coatings Are to Be Used to Save Iron and Steel Structure—Trees to Be Planted in Sections of Land Which Will Permit

Washington, July 5.—A plan by which the railroads of the country are to take the lead in the conservation movement is on foot. This announcement comes from the headquarters of the conservation movement in the United States, the joint committee on conservation in this city. The plan is the outgrowth of conferences and correspondence between the railroads and the joint committee, which have been going on since early spring, but which only recently have been brought into definite shape.

Some idea of the importance of the plan may be gained from the fact that the preliminary negotiations on the part of the railroads have been carried on by representatives of the American Railway Engineering and Maintenance of Way association. Attention was also given to the subject of conservation at the recent meeting of the American Railway Master Mechanics' association, at Atlantic City. The enormous amount of timber and iron used by the railroads, as well as the great amount of coal consumed by them, make the proposed plan one of great importance. For instance, the Pennsylvania of the American Railway Master Mechanics' association says that every year the railroads burn 200,000,000 tons of coal.

The plan as now agreed on between the conservation committee and the railroads is to have the railroads to give the joint committee to give the railroads suggestions as to how the various railway systems can put conservation policies into effect. The association will assume the duty of an encyclopedia of financial information. You will also notice that in having stepped herself in financial literature she has not sacrificed a single word attributing nor lost any of the charms of refined femininity.

Under her direction the financial library of the National City bank at New York is becoming one of the most complete private collections of that kind in the country. Every volume of any value written in English on fiscal subjects is there. What is of equal importance, every financial periodical of standing printed in the English language is on file. There are files, for example, of the Financial Chronicle back to its inception in 1839, when it was known as the Merchants' Magazine.

For's Manual of Railroads can be read down to 1860. There are state reports over half a century old. Newspaper clippings are a library in themselves. Every article pertaining to the National City bank or to anything in which that bank is interested is prepared. The National City is the largest bank in the country. Its loans are according the heaviest; necessarily its interests are wide and fluctuating; so that these compilations alone are a limitless task. There is a complete record of 70,000 corporations. Lists of the securities handled on the principal exchanges of Europe and America are immediately accessible.

Supervises Every Detail.

Miss Spencer has assistants of course, but every detail of this literary branch of the National City bank is under her direct supervision. After noting the brilliant results and especially after meeting with Miss Spencer, the conclusion is inevitable that woman's sphere at no distant date will be still further enlarged. There will be a woman banker—a woman the president of a bank. And she will have on advantage over man—the advantage of a stronger and surer intuition. Theoretical knowledge and practical experience, combined with the ability to see the end of things, are some of the things that will be brought to the particular locality. The conservation committee has furnished this information.

On account of the wide areas traversed by the railroads and the great consumption by them of timber and fuel, with their enormous use of iron and steel products, it is believed that the most effective assistance of the American Railway Engineering and Maintenance of Way association can be in directing the attention of railroad officials to the excessive wastefulness in the present methods of production of timber and fuel, and the great importance of introducing economies in the use of iron and steel products and the possibilities of preservation by protective coatings and otherwise.

With this end in view, the railroad conservation committee has asked for specific suggestions as to the best methods that should be used by the railroads in the prevention and control of forest fires. The conservation committee has presented an outline of this work, and with it a statement showing the enormous loss of timber through forest fires every year.

The conservation committee of the railroad association has also asked for advice as to how a reduction in railroad expenses may be brought about by the use of treated ties and for suggestions as to the importance of encouraging in the coal territory served by them the use of by-product ovens. The railroad representatives also want to know what useful varieties of trees can be planted in trees if the railroad officials know what trees were best suited to the particular locality. The conservation committee has furnished this information.

The railroad association, through its conservation committee, has likewise inspired as to the extent of saving in timber through the use of saved instead of new ties. They also make important inquiries as to the prolongation of life of the steel and iron used in their bridges and other constructions. All these inquiries the committee on conservation has undertaken to answer, and it will be a matter of only a short time until the suggestions are in the hands of the chief engineers of all the great railroads in the United States.

The conservation committee of the railroad association says it will "place itself at the service of the joint committee on conservation" in endeavoring to get from the railroads such definite data as to the consumption of ties and lumber and fuel as may be desired, and that it "is prepared to investigate and report as may be desired by the joint committee on conservation as to the possibilities of substitution of other materials for ties and lumber." This offer is regarded by the joint committee as one of great importance.

On account of the magnitude of the plan it is probable that all of the forty state conservation commissions appointed by the governors will be asked to join in helping carry it out. "The committee will be glad," Mr. Baldwin of the railroad association says, "to co-operate with any of the national or state organizations in its efforts to obtain this important information. The work of the commission in any way in which that may be outlined by the joint committee on conservation, and holds itself at the committee's service until further instructed."

WOMEN OF FINANCE SELDOM A SUCCESS

Florence Spencer a Rarity—This New Yorker Has a Very Extensive Knowledge of Business Affairs.

New York, July 5.—There have been great stateswomen. Women of today are among the most ardent students of practical science. Business women of eminence throughout the world are many. The heads of the largest mercantile establishments in Paris and Berlin, as well as of one in Chicago, are women. But women as financiers have never been distinguished. Cleopatra was a failure in strictly money matters. Queen Elizabeth left financial affairs to her ministers. Maria Theresa was utterly lost in the so-called "progressive" theories of Russia knew the value of a soldier far better than the worth of a rouble. Marie Antoinette—Maria Theresa's daughter—when told there were no frames in the royal treasury, asked naively, "Then why don't you make some?"

Save in the purely journalistic case of Ida Tarbell, finance for women has been indeed a dismal science. They have never understood it, have never cared to understand it. When Jay Gould died the world was startled to hear that the White House president had been dead for several days. He was a man of great wealth, but her knowledge was confined to railroads. It did not extend to the wide field of industrial corporations, of government indebtedness, of domestic and foreign exchange, of letters of credit, of trusteeships, etc., etc.

Florence Spencer. But there is now a young woman in New York city who embraces a very extensive scope of finance. She is not only a rarity in that respect, but in the respect of being the chief of a financial library. The term "financial librarian" inevitably conjures up a bloodless being, shriveled in body; a yellow and terribly wrinkled face; white, unkempt hair; quick, deaf; a harsh voice; a man neither of names nor of conversation.

This conventional conception holds good everywhere except in the instance of the librarian of the National City bank of New York, Miss Florence Spencer—that is, her name, despite her stately height, is young, she is in her early twenties, and very attractive. Those large dark eyes look as if they were Shelly and Tennyson and Swinburne, instead of Adam Smith and Ricardo and John Stewart Mill; read periodicals of political literature, instead of the Economist and the Financial Chronicle; read the literary and music and drama column instead of the financial pages of the daily newspapers.

A few minutes talk with the young lady will convince you to the contrary; will assure you that she is an encyclopedia of financial information. You will also notice that in having stepped herself in financial literature she has not sacrificed a single word attributing nor lost any of the charms of refined femininity.

Under her direction the financial library of the National City bank at New York is becoming one of the most complete private collections of that kind in the country. Every volume of any value written in English on fiscal subjects is there. What is of equal importance, every financial periodical of standing printed in the English language is on file. There are files, for example, of the Financial Chronicle back to its inception in 1839, when it was known as the Merchants' Magazine.

For's Manual of Railroads can be read down to 1860. There are state reports over half a century old. Newspaper clippings are a library in themselves. Every article pertaining to the National City bank or to anything in which that bank is interested is prepared. The National City is the largest bank in the country. Its loans are according the heaviest; necessarily its interests are wide and fluctuating; so that these compilations alone are a limitless task. There is a complete record of 70,000 corporations. Lists of the securities handled on the principal exchanges of Europe and America are immediately accessible.

Supervises Every Detail.

Miss Spencer has assistants of course, but every detail of this literary branch of the National City bank is under her direct supervision. After noting the brilliant results and especially after meeting with Miss Spencer, the conclusion is inevitable that woman's sphere at no distant date will be still further enlarged. There will be a woman banker—a woman the president of a bank. And she will have on advantage over man—the advantage of a stronger and surer intuition. Theoretical knowledge and practical experience, combined with the ability to see the end of things, are some of the things that will be brought to the particular locality. The conservation committee has furnished this information.

On account of the wide areas traversed by the railroads and the great consumption by them of timber and fuel, with their enormous use of iron and steel products, it is believed that the most effective assistance of the American Railway Engineering and Maintenance of Way association can be in directing the attention of railroad officials to the excessive wastefulness in the present methods of production of timber and fuel, and the great importance of introducing economies in the use of iron and steel products and the possibilities of preservation by protective coatings and otherwise.

With this end in view, the railroad conservation committee has asked for specific suggestions as to the best methods that should be used by the railroads in the prevention and control of forest fires. The conservation committee has presented an outline of this work, and with it a statement showing the enormous loss of timber through forest fires every year.

The conservation committee of the railroad association has also asked for advice as to how a reduction in railroad expenses may be brought about by the use of treated ties and for suggestions as to the importance of encouraging in the coal territory served by them the use of by-product ovens. The railroad representatives also want to know what useful varieties of trees can be planted in trees if the railroad officials know what trees were best suited to the particular locality. The conservation committee has furnished this information.

TAFI'S POPULARITY Waning

Results of the Executive Alliance With the Aldrich Group.

New York, July 5.—The Washington correspondent of the Journal of Commerce says: That President Taft can regain a measure of the political prestige he has lost only through a veto of the pending tariff bill is the opinion which is frankly expressed by several of the best observers in congress. They assert that the presidential prestige, already seriously impaired by the activity of the executive during the formation of the schedule, has received a staggering blow from the corporation tax incident. The executive interpretation of the meaning of this incident, according to them, is making no headway whatever in the country at large. On the contrary, Mr. Taft's action in hatching the corporation tax scheme in conjunction with the old-line leaders in the senate is strengthening the so-called "progressive" element, the latter assert that at no time throughout the whole controversy have they been as strong as they are at the present moment. They ascribe to the general popularity lately enjoyed by the president—a popularity which has waned, according to them, very perceptibly since the income-corporation tax manipulation was first undertaken.

TARIFF HITS THE WOMEN.

Very High Rate on Laces and Embroideries—Is Made as Much as 150 Per Cent by a Senate Amendment.

Washington, July 5.—That the women of the country will be made the chief victims of the tariff bill is the charge made by the association of importers of laces and embroideries in an open letter which has just reached Washington. The charge is based on the increases in the textile schedules, which will be levied in the European market at less than two cents a dozen yards, and are used for under garments. The story is thus told by the association:

"Friday, June 25, after the introduction by the finance committee of the bill to tax exportation of laces, and while the question of Mr. Bacon, Mr. Aldrich-Payne bill is the charge made by the association of importers of laces and embroideries in an open letter which has just reached Washington. The charge is based on the increases in the textile schedules, which will be levied in the European market at less than two cents a dozen yards, and are used for under garments. The story is thus told by the association:

"Saturday, June 26 Mr. Aldrich offered a very different amendment, although numbered the same, which, in answer to the question of Mr. Bacon, Mr. Aldrich stated had been printed, a statement which was manifestly misleading. This amendment differed from that offered the previous day by adding not only embroideries, but also included nearly all machine-made laces. He stated in explanation that the amendment put specific or compound duties upon certain classes of laces, and it covered only laces made by machine and did not cover hand-made laces at all. The brief statement, made by the chairman of the finance committee, left the fact that the amendment included embroideries undisclosed, and without debate the amendment in that shape was adopted by the senate. Sandwiched between the consideration of paragraph 104 and paragraph 131, this amendment covering, according to the statement of Senator Aldrich, importations valued at \$2,000,000 a year, was adopted apparently without consideration. As a matter of fact, the duty paid upon the importation of laces and embroideries during the year 1907 amounted to nearly \$20,000,000. The volume of imports being almost \$50,000,000; the proposed duty is one dozen upon laces costing less than 5c a dozen yards on which it ranges from 70 per cent, the same rate as imposed on the highest class of machine-made laces, up to 150 per cent, the duty being higher as the cost of the lace diminishes.

"The mysterious working of the finance committee in regard to these articles is further shown by the ignorance of some of the most prominent members of the committee regarding the contemplated increase. For instance, as recently as June 11, Senator Lodge wrote: 'The lace paragraph has been agreed to in both senate and house and will not be changed. The old law remains.' Other members of the finance committee have stated that as far as they knew it was the intention of that committee to retain the Dingley rates.

"The senate is endeavoring for the sake of a few over-protected manufacturers to lay an increased burden upon the women of the land which will increase the volume of money to a prosperous year would amount to more than \$5,000,000 above the \$30,000,000 which they have hitherto been paying as a tribute to the domestic manufacturer."

City Brevities

Miss Rose Wallace spent the Fourth in Houghton.
Miss Dorothy Cheverton is in the city, visiting relatives.
Ed Lavigne will leave today to spend a week in the copper country.
Mark Elliott, of Virginia, Minn., spent the Fourth with his family here.
Philip Heffernan, of Duluth, spent the Fourth with relatives in the city.
Postmaster Lang, of Calumet, was the guest of John D. Mangum Sunday.
Miss Ida Jackson has returned from a visit with relatives in the West.
Miss Pearl E. LeVeque left for Minneapolis last night, to visit friends.
Mrs. Charles Line of Menominee is in the city. She is the guest of her sister, Mrs. L. J. LeVeque.

Miss Nellie Walker left yesterday for Vancouver, B. C., where she will visit her brother, Charles.
Miss Myra Comover, of Detroit, is visiting at the home of Captain C. D. Blanchard, Spruce street.

H. L. Kaufman, of Cleveland, and Daniel Kaufman, of Detroit, are spending a few days in the city.
Roy Young, of Lake Linden, spent Saturday, Sunday and Monday with his parents, Mr. and Mrs. J. W. Young.

Mr. and Mrs. David D. Mee and granddaughter, Miss Gladys, are visiting with their daughter, Mrs. Raymond Fox.
Mrs. Charles Stewart and daughter, Merle, of Clinton, Ia., are visiting at the home of her parents, Mr. and Mrs. Henry Jackson.

The regular July meeting of the common council will be held this evening, at which numerous matters of importance are expected to come up.

The Presbyterian church will be open all day today, and it is requested that all ladies who have dishes at the church call for them during the day, as any remaining uncollected for tonight will be disposed of.

A party of five Normal girls unexpectedly spent most of Saturday at Lawson, when they by mistake got off the train that was to take them to Princeton. In the afternoon, they were taken to Princeton on a freight train.

A. T. Roberts a Director—Alton T. Roberts has been elected a director of the Marquette National bank to succeed James E. Sherman, who has resigned because of other work rendering it impossible for him to resume in that capacity.

Prison Team Won—The branch prison team defeated the Marquette second team on Saturday afternoon, after ten innings of play, the final score being 9 to 8. The game was an exciting one from beginning to end, and proved of exceptional interest to the prison population.

Died at the Prison—Peter Collins, aged sixty-four, died in the branch prison hospital Saturday afternoon, following an illness of several months, of cancer of the throat. Collins was sent to the prison from Emmet county last November, and had been ailing most of the time since his arrival.

Accused of Theft—Charles Pellissier was arrested by Officer Remont last evening, as he alighted from the Birch train, on a warrant sworn out by Claude Ingalls, of Birch, charging him with having taken \$13 from the cash drawer at the hotel in that village, yesterday. It is likely that he will be arraigned today.

To Take Yachting Trip—Rev. Bates G. Burt left for Sault Ste. Marie yesterday morning, where he was to join Mrs. Burt, and with Mr. and Mrs. Ferguson and Miss Emily Osborn, they will enjoy a two weeks' cruise on Chase Osborn's yacht. The route mapped out is through the Canadian channel down the lower St. Mary's river and around Drummond's island.

Made Fine Catch—W. B. McConnors and Alex Meads returned from a two days' fishing trip last evening, with eighteen pounds of speckled trout and one lake trout that weighed thirteen pounds, all of which had been caught with a hook and line in Lake Superior, between Granite point and the mouth of the Yellow Dog river. The largest of the speckled trout weighed four pounds.

Yacht Annona Here—The private yacht Annona, owned by Mrs. T. D. Buell, of Detroit, was tied up at Spear's dock yesterday, where she coaled and was put in condition to continue her cruise around Lake Superior. The yacht is one of the largest and best equipped private pleasure craft that ever tied up in the Marquette harbor, and many went to the docks to see the vessel, although no one was allowed on board. Mrs. Buell and family are on the boat and will go from here to Houghton and Duluth, returning to the Soo along the north shore.

WEEK END EXCURSIONS
Via the South Shore for Detroit, Toledo, Cleveland and Buffalo, by rail to St. Ignace, thence D. & C. N. Co.'s steamers leaving Marquette on train connecting with steamer sailing from St. Ignace 2:00 p. m., every Saturday, June 4th to July 31st. Limit, Sept. 15th. To Detroit, \$13.50; Toledo, \$14.25; Cleveland, \$15; Buffalo, \$17. (6-24-7-31-0)

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. Sold by all Druggists.

NO INJURIES REPORTED.

Fourth in Marquette Marked by No Loss of Life, Limb or Property.

The Fourth passed off very quietly in Marquette, and up to a late hour last night, no accidents had been reported at either of the hospitals. Somewhat to the surprise of the department, no fires were reported during the three days' celebration.

The down town streets of the city looked like a deserted village during the middle of the day, a large part of the resident population spending the holiday out of town. The celebrations at Michiganman, Gwin and Birch all drew crowds of Marquette people, and Presque Isle and other pleasant picnic spots were very popular. Many spent the two days at their summer camps, and there was a fisherman for nearly every hole on the nearby streams. About 400 Marquette people attended the ball game at Ishpeming yesterday afternoon. At the branch prison, however, there was a really live Fourth of July celebration. The festivities began at 6 o'clock in the morning and continued until noon. A lengthy program of sports was run off and numerous prizes were won. Refreshments were consumed in large quantities. A fine dinner was served at noon by the prison chef, and the day was one that will be long remembered by the convicts.

A glass of iced "Salada" Tea will be found most refreshing this warm weather. As cooling as a summer breeze.

THEATRICAL.

Mme. Hellstrom Coming.

Mme. Anna Hellstrom, the great Swedish singer, who is to appear at the opera house Wednesday night is prima donna of the Royal opera of Stockholm. Like her most famous predecessor in this venerable institution, Jenny Lind, she was trained musically and historically within its walls from her very childhood. Like Christine Nilsson, she is a daughter of the people and intimately in touch with all that is nobly frank, tender, and wholesome in human sentiment. Like Louise Michael, she possesses a voice of phenomenal range and expressiveness, and like Caroline Oestberg, the versatility of genius. But unlike the last two mentioned singers, her immediate predecessors at the Stockholm opera, Mme. Hellstrom appears destined to acquire international fame. Although from a tender age connected with the different departments of the Royal opera, she did not make her debut until 1896, and her rise to prominence was assured at once. Her American debut was made in 1903 in a special engagement at the Minneapolis sangeriet of the American Union of Swedish singers, which was a veritable triumph for the young diva. Since then Mme. Hellstrom has twice toured the United States, and her fourth coming to this country was timed by an engagement for herself and her husband, Herr Martin Oscar, prima baritone of the Royal opera of Stockholm, as soloists at the sangeriet of the United Swedish singers of the Pacific Coast to be held in connection with the Alaskan-Yukon Pacific exposition in Seattle July 30 to Aug. 2. Herr Oscar is an artist of rare accomplishments and rising fame. A born athlete and of possessing stage appearance, he combines with great vocal powers a keen histrionic intelligence. He composed at the age of six years, and at thirteen years of age officiated at high mass in the church of his native city of Venersborg. He has never before visited this country, but is no doubt destined to win a place of rank and distinction even when appearing with such an acknowledged favorite as Mme. Anna Hellstrom-Oscar.

Upper Peninsula

Little Race Suicide There—That Escanaba is not suffering from race suicide is shown by figures made public by City Clerk Michael Lyons. These figures show that in the past month there were thirty-one births in the city of Escanaba. Of the total number of births twelve were girls and nineteen were boys. During the month of June twenty-one deaths were reported in the city.

Milk Tests in Progress—Milk tests outlined by the state dairy department have been started in Menominee under the supervision of Superintendent Wojta of the County Agricultural school. A student of the Agricultural school is paid a regular salary by the state dairy department to make the tests. The young man makes trips about the city and county each forenoon, gathering samples of milk from milk dealers. Tests are then made and reports submitted to the state as well as to the dealers. As a result of the test last year, a Marinette county dairyman, Albert Kern of Peshtigo, showed the highest percentage. This high percentage was retained throughout the summer. The value of the test is shown in the work of a Menominee dairyman, whose herd showed poor results. The test ran low and kept decreasing. Seeking for advice in the matter, the dairyman was told by Mr. Wojta how to acquire the desired results. By adding new blood to his herd and making changes in feed, the average in the fall had gone up nicely. The tests now in progress will continue until late in the fall season.

Plant Is Closed Permanently—The plant of the Diamond Match company located in Menominee has been closed permanently, and the property is now for sale. Manager E. J. Ellenwood, who managed the plants of the company in Menominee, Hayward, Wis., and Houghton, Minn., has resigned his position, the resignation to take place at once. Mr. Ellenwood has had charge of the three manufacturing for the last five years and has established an excellent business record. He states that he has made no plans for the future and does not know who will close up the Menominee business and take his place as manager of the Hayward and Cloquet plants. The Diamond Match company has operated a plant in Menominee since the old A. W. Clark company wound up its business in the city. Previous to that time, the A. W. Clark company and Clark & Baker operated a plant for the manufacture of match blocks. Of late the plant has been employing only a small crew and most of the match timber was brought to Menominee from points outside of the city. The plant was closed some time ago. The location is ideal for manufacturing purposes.

Jacob Rose

Among the footwear novelties for midsummer, Men's Buckskin Oxford Pumps has found great favor among dressers of good taste. We show them in black, tan and white; their coolness is equal to their good form.

Ladies' Bronze Kid and Ottoman Calf Ankle Strop Oxfords and Slippers, as well as Suede low and high cut Shoes, are gaining in demand and their smart appearance justifies the sentiment in their favor.

ISHPEMING WINS FROM MARQUETTE

YESTERDAY'S BALL GAME MUCH DIFFERENT FROM THE LOOSE AND FEATURELESS EXHIBITION OF THE PREVIOUS AFTERNOON.

Ishpeming scored three runs and did not allow Marquette to cross the plate in yesterday's ball game at the Union Park grounds. It was a very different kind of an exhibition from the game of the previous day. Ishpeming made several changes in its line-up, and evidently put a new man from the copper country, who recently located here, was given a try-out in right field, and although he had little to do he showed by his hitting and base running that he will make good. Lassman, who has been suffering with an injured arm and shoulder since the game with Negawance a week ago last Sunday, was unable to play. Cooney took a rest, and Burke filled his place at second, Hoglund taking Burke's place in left garden. G. R. Hoyt, manager of the Cudahy Packing company's Ishpeming branch, has been given a place on the team as extra catcher, but he did not have a chance to play yesterday. Nichols wore the mask. He was in none too good condition, both of his hands being badly swollen as a result of the contest of the previous day, but besides catching an errorless game he had three very difficult high fly put-outs.

Ishpeming was up and doing with the bat, the slacking of McLaughlin and Gorman being particularly strong. The former having four singles, one of four times at bat, and the latter a double and single. Three-baggers by Burke and Olson also counted in the run-getting. The visitors were not able to hit Tomman out of reach of his teammates, who gave him all-endeavour support. Burke's work at second was a strong feature for Ishpeming, although McLaughlin gave an excellent account of himself and Gorman made a number of neat pickups. Hoglund, who played his first game, caught two pretty flies in left field, and made accurate throws to first base in an attempt to catch runners leading off.

In spite of the fact that Jeanson was hit rather freely, he was given good support, there being only three errors back of him. With Ishpeming's defense the team should really have added another run or two to its list, but the hits were so well scattered that the side was retired a number of times with men on the bases. The feature of Marquette's playing was Young's hitting, a one-hand catch by Woodman of Burke's long drive into deep center, Riopelle's fielding, the playing of Dunlavey at first and the general fielding of Young at short and Shields at second. Walsh caught a fast game.

Ishpeming really won the game in the third inning, with timely hitting. Simpson started with a single, Nichols sacrificed and was thrown out, Jeanson to Dunlavey. Burke followed with a three-bagger, scoring Simpson. McLaughlin singled, scoring Burke. Chaput sacrificed and reached first on a poor throw by Walsh. McLaughlin was put out at third in attempting to reach the sack on Olson's sacrifice, and Tomman flew out to Young, thus retiring the side. Ishpeming's next run-getting was in the fifth. Burke started by hitting to Woodman, who reached up and pulled down the ball with his left hand. McLaughlin singled and stole second. Chaput sacrificed, pitcher to first. McLaughlin scored on Olson's three-bagger, the latter dying on third, as Tomman flew out to Woodman in left. In the sixth, Ishpeming had two clean hits, but by clever field work on Marquette's part the Hemetite City men were unable to score. The summary of the game follows:

Marquette	A. B. R.	H. P. O. A. E.
Woodman, c.	4 0 0 1 0 0	
Walsh, p.	4 0 0 3 2 1	
Riopelle, i.	4 0 0 3 0 0

VERY QUIET FOURTH.

Over 200 Ishpeming People Celebrated Yesterday at Michigangumme.

Yesterday was a quiet day in Ishpeming, considering that it was the day that the birth of the nation was celebrated, although in the evening a considerable quantity of fireworks was set off by private citizens. The only attractions here were the Sons of St. George society's picnic at Cleveland Park and the ball game between the Ishpeming and Marquette teams, both of which were largely attended.

The train going to Michigangumme yesterday morning was crowded to its capacity. About 175 Negawance people were aboard, and 225 got on here. A good-sized delegation went to Gwinn to attend the celebration there. Besides those who made the trip on the Ishpeming & Lake Superior line's special train, some forty or more people made a journey on the Northwestern train. A large number of Ishpeming people spent the Fourth at other points.

Several of the residents of North Fourth street had a little celebration of their own last evening. They had an excellent display of fireworks, which were set off at August Henriksen's lawn.

The Finnish band conducted a largely attended picnic Sunday afternoon and evening at the Cleveland Park.

A gas range has been installed in the home of Joseph Hooper, 604 North Third street. 7-6-12

WANTS SOME MINERS.
Double Crew Will Probably Be Added to the Vandewater Force.

J. H. Quinn, general manager of the Vandewater lead and zinc mine of Cuba City, Wis., can give employment to a number of good miners, also a number of trainmen. The company plans to increase the working force by twenty to thirty men at present. If the men can be obtained, a double crew will be put on, numbering in all about sixty men. William Blight of this city and W. Rhoads of Negawance, both drill operators, left Saturday night for Cuba City to work at the mine. Good miners and especially drill men, are scarce in the zinc district.

F. W. Biekman, an electrical engineer, with the Interstate Light & Power company, recently organized, came to the city Saturday to make the Vandewater management a proposition to furnish power for the operation of its mine and mills from the big plant being established at Galena, Ills. At the meeting presented to the company would be able to save about \$200 a month in fuel, so that the proposition will likely be accepted. The present power plants will be maintained and will be used in cases of emergency. The International power will be prepared to furnish power to the Wisconsin mines about Nov. 1.

A Garland hot water heater has been placed in the home of B. J. Goodman, Jr., corner Vine and Fifth streets. 7-6-12

Mrs. M. Bregman, corner Third and Bank streets, has installed a gas range in her home. 7-6-12

ISHPEMING IN BRIEF.

Russell Dawson was here from Houghton yesterday.

H. B. Rodgers of Hancock spent the Fourth here.

A new team of fire horses were given a trial Saturday afternoon.

James A. Blackney's residence on Second street is being painted.

O. D. McClure left Sunday for New York city, on a business trip.

M. J. O'Brien and family of Calumet spent the Fourth in this city.

Ed Viking of Milwaukee spent the Fourth with relatives in this city.

Mrs. Fred Thompson, a former resident, is visiting relatives in the city.

Albert Bjork and bride arrived home Sunday, from their honeymoon trip.

Will Martin is here from the Soo on a two weeks' visit with relatives.

The city has purchased a new flag. It was raised for the first time yesterday.

An organ grinder and a "monk" constituted part of the celebration here yesterday.

P. G. McCann and George H. Thornton of Munising were Ishpeming visitors Sunday.

An evangelist has pitched his tents on Lynch's field and is holding meetings every evening.

Mrs. Peter Finnigan and Mrs. J. H. Quinn and daughter, Miss Geraldine, left Sunday night for Seattle, to attend the exposition. They expect to be absent several weeks.

Captain Peter W. Pascoe and family of Republic were visitors here Sunday and yesterday.

Miss Toska Anderson has gone to Escanaba and Green Bay, to be absent for the summer.

Jack Neenan returned Sunday from a month's trip in Canada and to points on the Atlantic coast.

E. E. Scribner will attend the meeting of the National Educational association in Denver this week.

Miss Ruth Goodman left Saturday night for Maraca, Wis., to visit her brother George and wife.

Miss Mamie Riley of Coleraine, Minn., is visiting relatives at the Winthrop, where she formerly lived.

Donald McDonald, wife and daughter, Miss Willena, of Hancock, are visiting John Pascoe and family.

Mrs. W. H. Oakley left Sunday evening for Detroit. She is making the trip on the steamer Finesta.

W. G. Mather and other officials of the Cleveland Cliffs Iron company spent the past few days in the city.

John Pread and daughter, Miss Etie, has returned from a three months' visit with relatives at Butte, Mont.

Mrs. J. E. Butler and children are expected here this week from Stearns, Ky., to visit Mrs. Butler's mother, Mrs. D. McVehie.

D. T. Morgan and E. R. Nelson will leave in a few days for the West, on a business trip, to be absent two weeks or more.

The Young Settlers defeated the Excelsors at baseball Sunday by the score of 7 to 3. It was the Settlers' fifth victory this season.

The funeral of the late Mrs. John Washburn, held Sunday afternoon from the Swedish Lutheran church, was very largely attended.

D. H. Bacon and wife left Saturday for the copper country. After visiting there for a short time, they will leave for Seattle, where they will attend the exposition.

Dr. Will Burke came here from the copper country Saturday, to spend the Fourth with relatives. He is located at Lake Linden, where he established a dental business some weeks ago.

C. A. Crimin spent Sunday and yesterday here, departing for the Soo on the early train this morning. He has

ITCH STOPPED--SKIN COOLED.

Itching skin diseases afflict some people as soon as the hot weather comes. These sores to be preventive, but when the eruption does break out, it is a very simple matter to stop that itch, and to stop it instantly.

Just a few drops of Oil of Wintergreen, properly compounded, washes out the skin instantly, giving that cooling and refreshing sensation.

A few drops of this D. D. D. Compound and your itch will be relieved at once, not in half an hour, or ten minutes, but in five seconds. Call at our store and we will tell you more about this D. D. D. Compound.

D & C The Great Lakes Trip

LAKE LINES

A little journey on the inland seas is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and waypoints, and two trips weekly between Detroit, Bay City, Saginaw and waypoints. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Godesch, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address: L. G. Lewis, G. P. A., Detroit, Mich.

PORTO RICO UNSANITARY.

Health Report by Director Reveals Startling Conditions.

Worst Places Are the Tobacco Factories—Conditions There Said to Be a Menace—Children Under Ten Make Up Half the Death Number.

San Juan, P. R., July 5.—Existing sanitary conditions in this island are unsatisfactory, says Dr. Tomas Vasquez, director of health of Porto Rico, in his annual report for 1908, just issued. The absence of sanitary legislation, the lack of funds, the indifference of local authorities to enforcement of necessary measures to protect the health of the community, the ignorance of the lower orders in matters of hygiene, and the part played by politics in health affairs inhibit the action of the insular bureau of health and check the development of proper sanitation.

Tuberculosis, typhoid, malaria and diseases of the digestive system are in adults the greatest contributors to the annual death roll. Among children under ten years of age the principal cause of death are tetanus and diseases of the digestive organs. The mortality in the latter class reaches the alarming figure of 48.18 of the total death rate of the island, which is 22.97 per thousand to a population of 1,043,891, a decrease of 3.20 per thousand on that of the preceding year.

The breeding places of tuberculosis are the ill-ventilated, overcrowded tobacco factories and the foul, dark, close rooms of tenement houses. Typhoid, malaria and diseases of the digestive system arise principally from the inadequate water supply, which is to a great extent polluted by offal dumped into the water courses from plantations, factories and tenement houses. Typhoid, malaria and diseases of the digestive system arise principally from the inadequate water supply, which is to a great extent polluted by offal dumped into the water courses from plantations, factories and tenement houses.

The sanitation of towns is left to the several corporations, and in the majority of cases it is done in the most imperfect manner. This is in part due to the alleged poverty of the municipalities which allot the most insignificant sums for the purpose. In Caguas, a large agricultural and industrial district, and in Cayey, an important tobacco center, where typhoid and malarial epidemics broke out toward the end of the year, the governor was obliged to pay from his funds for the cleaning of the towns and River Maton because the municipalities lacked means to cover the expense.

With this aid, however, the bureau of health was able to promptly check the epidemics with little loss of life.

Where funds have been available the bureau has done excellent work. By means of constant vaccination and re-vaccination smallpox has practically been swept from the island and the deaths from anemia, which were in 1901 11,885, were reduced in 1908 to 1785. On the other hand infantile tetanus has steadily increased from a mortality of 377 in 1901 to 1,380 in 1908. Infantile tetanus and diseases of the digestive organs, which are the two great destructive agencies to child life, are primarily due, says Dr. Vasquez, to lack of hygiene and the adulteration of the milk supply on which they are reared, and he recommends the most drastic measures against food adulterators. The Anti-Tuberculosis league of Porto Rico is making every effort to check the spread of the white plague, and thus far it has achieved excellent results, but, remarks the director of health, their success, as in all other branches of sanitation, will be only relative until the people are taught how to take care of themselves, and this can best be done in the schools.

In denouncing tobacco factories here as the chief agency of promoting tuberculosis, Dr. Vasquez says: "Tobacco factories are constructed in this island without the slightest regard to sanitary requirements. It has clearly been demonstrated in Cuba that their vitiated atmosphere is one of the principal factors in predisposing the system to tuberculosis, hence it is of the greatest importance carefully to inspect the operators and remove such as are diseased for, besides the danger of conveying the malady to their companions, it is impossible to break them of the habit of pasting cigars with saliva and workmen suffering from cutaneous and venereal diseases are not infrequently found in the factories."

"When visiting the factories at Cayey, Alibonito and other parts of the island I observed that the departments where the sorting is done are kept hermetically closed. This is done to keep the air from the imperfectly dried leaf. In those departments and in a highly heated atmosphere that was oppressive and distressing I saw men, women and children as young as twelve crowded together. This deplorable practice which is observed to further the interests of tobacco companies has the most disastrous effect upon the working people who are thus exposed to contract the fearful disease that decimates them."

Dr. Vasquez urges upon the administration the necessity of taking prompt and energetic measures to correct these evils and emphasizes the fact that the impure water yearly adds a large number to the death roll. San Juan is the only town in the island that has a sewerage system, and though defective, the sewage is carried into the sea and the city kept clean. To improve existing conditions sewers and aqueducts with proper filters are badly needed.

A male gossip is nearly always looking for a job.

BENSON HAS RESIGNED.

A. T. Benson, a former well known mining engineer of this city, has resigned the position of chief engineer and chemist with the Republic Iron & Steel company at Virginia, Minn. He has held the position since he left the Cambria and Lillie property here more than two years ago. Mr. Benson intends to open an office at Virginia and it is said that he has been assured a large business from independent companies, whose property on the range are not equipped with laboratories.

LOCAL LACONICS.

Miss Maud Lee is visiting friends at Sault Ste. Marie.

Miss Mary McDonald left Sunday for Anconada, Mont.

Miss Tornisene Ball of Republic is visiting Mrs. Thomas Walters in this city.

The Negaunee branch of the German Aid society will hold a family picnic at Eagle Mills a week from next Sunday, the 18th.

At the meeting of the council last Thursday evening, the finance committee reported a balance on hand June 15 of \$24,135.37.

The mercantile establishments of the city were open for a short time yesterday morning. All were closed during the afternoon and evening.

Jacobs, one of the Negaunee league team's catchers, was taken ill Saturday and had to be removed to the Negaunee hospital. He has not been in the best of health for some weeks past.

A representative of Schaffer & Co., who did stucco work in the auditorium of the new high school building, was here Saturday, settling up with L. E. Chausse, the contractor.

John Shea, who has held the office of treasurer of the local Division of the Ancient Order of Hibernians for twenty-one years, has resigned, and Nicholas Laughlin, Sr., has been elected to succeed him.

J. E. O'Donoghue, secretary of the board of trustees of St. Paul's church, is advertising for bids for the installation of a hot water heating plant in the sisters' home. Bids must be received on or before the 15th.

Anton Henriksen has been awarded the contract to lay a concrete walk around the city building. His bid was eleven cents per foot for the sidewalk and twenty cents for cross walks. Jackson & Lindquist's bid was also eleven cents for the sidewalk, twenty-two cents for cross walks.

The sum of \$1,309.78 was expended last month for street work. Of this amount \$123.30 was hauling sidewalk and curb filling; \$546.30 for repairing the road to the Ishpeming line and \$206 for work on the Palmer road. Included in the expense was the cost of cleaning alleys, repairing culverts, operations at the crusher plant, general street cleaning, etc.

Negaunee scored one run in the sixth and another in the seventh. In the seventh two men were gone when Cannon walked, going to second on a wild pitch and scoring on Cooney's fumble of Faulk's hit. Faulk was later thrown out by Nichols to McLaughlin in an attempt to steal third.

Ishpeming scored its last run in the ninth. Gorman led off, but fanned. Simpson walked, and stole second. Nichols sacrificed to Swick, and was thrown out at first. Simpson advancing to third, later scoring on Burke's single. McLaughlin flew out to Messier, this ending the game.

The crowd was the second largest of the season. The big grand stand was filled an hour before the time set for the game to start, as were all the bleacher seats. Later comers filled all the standing room between the ends of the bleachers to the fence, while a number found places in the field.

Swick played an excellent game at second for Negaunee. Both Lafave and Nichols caught well, but the latter was off color in throwing to bases, especially to third. The summary follows:

Ishpeming—A. B. R. H. P. O. A. E.
Burke, lf, 5 1 2 0 0 0
McLaughlin, 2b, 5 0 0 2 1 1

NEGAUNEE TAKES RIVALS INTO CAMP

ISHPEMING DEFEATED AT BALL SUNDAY BY THE SCORE OF 3 TO 9—SERIES BETWEEN THE TEAMS NOW EVEN BREAK.

Sunday's ball game between the Negaunee and Ishpeming teams, which was won by the former in a score of nine to three, was the poorest exhibition seen at the Union Park grounds this season. Errors were numerous, and poor throwing and "muffs" by the basemen, especially on the Ishpeming side, were responsible for a number of stolen bases. Cooney, on second, and Olson, at first, for Ishpeming, and Imeson, at third, and Messier, at short, for Negaunee, were the chief offenders. The work of this quarter was so off color at times that the fans scored their own players.

The umpires were unmercifully "roasted" because of objectionable decisions, the fans going after Schnell particularly hard. Both Murray and Goulette threw good balls. The former struck out four, passed one and allowed five scattering hits. Goulette struck out ten, passed three and was touched for six hits, one a double by Swick. All of the hits off Goulette, with the exception of Swick's, were short hits, and the latter into right field. There were very few innings when there was any particularly snappy or brilliant playing, with the exception of a double by Gorman to Olson in the fifth and Faulk's catch of Olson's long drive into right field in the first when the lanes were all had the ball gone beyond the fielder's reach the hit would have been good for three bases. As it was, Burke was the only man who scored.

The first inning started off in a very yellow fashion by both teams. Burke, Ishpeming's first man up, got his base on an easy error by Imeson. McLaughlin did likewise on Murray's fumble of what was intended for a sacrifice. Cooney was hit by the pitcher. Laxstrom flew out to Swick, and then Olson came along and reported a sacrifice to Faulk. Goulette hit to Messier and was thrown out at first, this retiring the side. Rains, Negaunee's first man up, was presented with four balls; Imeson hit to Olson, who fumbled, advancing Rains to second; Messier struck out; Lafave flew out to Olson and Swick hit to Goulette and was thrown out at first.

There was no damage done or danger signals raised again until the last half of the fourth, when the Ishpeming went all to pieces. It was easy for Negaunee. It was no difference where the ball went, the result was the same. Some one was there, all right, but "nothing was doing." The infielders could see at least three balls, and maybe a dozen, but they were unable to grab the right one until a run or two had been scored. Swick started the slaughter by sending an easy one down to McLaughlin, who fumbled and hit three popfly to first. Roberts followed, sending a grounder that Cooney fell down in trying to get. Cannon stood up and took one in the ribs from Goulette, this filling the bases.

The infielders played with a view to trying for a double, but Faulk dropped a nice little single over Olson's head. Swick and Roberts scoring and Faulk advancing to second while the juggling was going on. Murray fanned, but the hit was very reviving in the Ishpeming infield. Imeson batted on a single into right garden, Faulk scoring. Messier sent one down to Gorman, at short, but there was no change in the program, and the runner landed safely on first. Imeson in the meantime going to third. Lafave sacrificed to Goulette and was thrown out at first. Imeson scoring. Swick followed with his two-bagger, bringing Messier home. Roberts fanned, ending Ishpeming's misery for the time.

Negaunee scored one run in the sixth and another in the seventh. In the seventh two men were gone when Cannon walked, going to second on a wild pitch and scoring on Cooney's fumble of Faulk's hit. Faulk was later thrown out by Nichols to McLaughlin in an attempt to steal third.

Ishpeming scored its last run in the ninth. Gorman led off, but fanned. Simpson walked, and stole second. Nichols sacrificed to Swick, and was thrown out at first. Simpson advancing to third, later scoring on Burke's single. McLaughlin flew out to Messier, this ending the game.

The crowd was the second largest of the season. The big grand stand was filled an hour before the time set for the game to start, as were all the bleacher seats. Later comers filled all the standing room between the ends of the bleachers to the fence, while a number found places in the field.

PLAN ACTIVE CAMPAIGN.

Anti-Saloon League to Send Orators to This Region.

P. W. Marsh, of Detroit, general attorney of the Anti-Saloon league, says that they expect that the prohibition movement will be successful next spring in Chippewa, Schueller, Marquette and Menominee counties, and that Mackinac county will be entered later. The supervisors of Dickinson county some time ago agreed to submit the question at the next election.

Organizations are being perfected in the counties where the campaign is to be carried on. A meeting was held last week in Menominee county and the securing of signatures to petitions is to be commenced without delay. During the fall and winter months the league will invade the upper peninsula with speakers of state and national reputation.

The organization perfected in this county some weeks ago has held two meetings, and the officers are formulating plans for an active campaign. Committees were delegated at the last meeting to take charge of the work in the various wards of the cities and townships and a meeting is to be held soon to receive reports and to take further steps toward advancing the movement.

Alexander Maitland has installed a No. 10 Garland hot water heater in his home. 7-6-1d

Members of Coroner's Jury Believe That Mr. Peltier Has Strong Case.

It is a long time since the verdict of a coroner's jury has been so generally commented on as that returned in the case of the late Edward Peltier, who was killed by a St. Paul passenger train on the Pioneer avenue crossing a week ago today. Most of the witnesses, when questioned as to how fast they thought the train was moving, expressed the belief that it was exceeding the speed limit, but that they could not judge how many miles an hour it was making. Both the engineer and conductor testified that they thought the train was going at the rate of about eight miles an hour, which is two miles above the limit.

A member of the jury Saturday said that practically all of those who served on the jury were of the opinion that the train was moving at the rate of at least fifteen, and perhaps eight or ten miles an hour. They formed this opinion not alone from the testimony, but also from the fact that the train was not brought to a stop until it had gone 135 feet beyond the point where it struck the horses and wagon. Both the engineer and fireman testified that the emergency brake had been applied before the engine had reached the crossing. The engineer was on the north side and could not see the team approaching. He was notified of the danger by the fireman, who saw the horses soon after they started from near the Consolidated Fuel & Lumber company's scale. He warned the engineer, who lost no time in applying the emergency brakes. The train was moving quietly, as the steam had been shut off at the top of the incline, nearly a quarter of a mile distant from the crossing. Engineer Dubois has the reputation of being one of the best and most careful men on the system and the jury did not attach any particular blame to him, as it was thought that the train was traveling at its usual speed for that particular part of the road. It was on a Saturday and there was no occasion for a fast run. Conductor Cameron was unable to give any idea as to how fast the train was moving, as he was busy at the time and paying no attention to its movement until he noticed the application of the emergency brakes.

The members of the jury are of the opinion that Mrs. Peltier has a strong case against the company, but it is believed, in view of the activity of the company's officials, that the matter will be adjusted satisfactorily.

Mrs. Odger of Case street has a gas range in her kitchen. 7-6-1d

HIT BY STRAY BULLET.

Miss Charlotte Wolner, stenographer in the Cleveland Cliffs Iron company's land department here, was hit in the forehead by a stray bullet from a revolver while walking along Main street near the home of Mrs. Samuel Mitchell Sunday evening about 9 o'clock. She was in company with two young ladies companions. It was at first thought that Miss Wolner was fatally hurt, but it was reported yesterday that her injury was not serious, as the skull was not fractured. Miss Wolner was carried from the street to Mrs. Mitchell's home, where she received medical attention, and was later removed to her own home. She is a daughter of Maurice Wolner.

Patrick Dowd has installed a gas range in his home on Case street. 7-6-1d

BIG CONCRETE JOB.

The board of education has awarded Jackson & Lindquist a contract to lay concrete at the new high school, also the Case and Park street buildings. All necessary walks in the grounds will also be laid. As there will be over 2,000 feet of walk laid at the new high school and Case street buildings alone, the contractors do not expect to complete the job in less than three or four weeks. The Presbyterian church congregation is also to put in a walk to connect with the new high school walk on Pioneer avenue and the Case school walk on Case street, but the contract has not yet been awarded. At the Park street school walk will be put in only on the Park street side, and from the gates leading to the entrances.

A gas range has been installed at the home of Baptist Baraso. 7-6-1d

DAMAGED BY FIRE.

The dwelling on Ann street, owned by Joe Wasley, and occupied by an Italian family, was badly damaged by fire about 11:30 o'clock Friday night. Practically the entire second floor was gutted and there was some damage in the lower floor rooms. The family occupying the house saved a considerable portion of their effects and most of the boarders also got their belongings out. It is not known how the fire originated, but it is thought to have been started by a lighted cigar stub in one of the boarders' rooms.

CHILDREN WHO ARE SICKLY

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. They Break up Colds, Cure Feverishness, Constipation, Teething Disorders, Headache and Stomach Troubles. THESE POWDERS NEVER FAIL. Sold by all Drug Stores. Do not take any other substitute. A trial package will be sent FREE to any mother who will address Allen S. Olmsted, Le Roy, N. Y.

BIDS WANTED—Sealed bids will be received by Secretary J. K. O'Donoghue for the installing of a hot water heating plant in the residence of the Sisters of St. Joseph, up to and including July 15th. 7-6-9

THINK ONCE—TWICE—THEN AGAIN—THEN HARD!

Is it not good plumbing you want when you want any?

Should high class plumbers be paid low class rates?

Are they cheaper—well paid expert plumbers, or poorly paid poor plumbers?

Is not the difference in work worth the difference in cost?

WE ARE EXPERT PLUMBERS WE EXPECT FAIR PAY WE BELIEVE WE'RE WORTH WHAT WE ASK.

SPECIAL NOTICE The Darantella Havana Cigar is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality.

Manufactured only by JOHN E. KENNING &

SKANDIA CREAMERY IS NOW ASSURED

MACHINERY HAS BEEN PURCHASED AND WORK ON BUILDING TO START AT ONCE.

INTEREST IN PROJECT KEEN

Farmers Take Stock Liberally and Are Planning to Greatly Increase Their Herds.

Work clearing the site for the proposed creamery at Skandia will be undertaken this week, and the erection of the structure that will house the plant will be started as soon as the Hastings industrial company, which has the contract, can get material and one of its builders on the grounds. The creamery is to be completed in sixty days.

The company is a stock concern with twenty-four of the Skandia and West Branch farmers as stockholders. Peterson Bros., Robert Shaw and F. Johnson & Son are the heaviest stockholders, each having invested \$500 in the enterprise. The cost of erecting the building and equipping the plant will be \$3,300 and as \$3,300 has been subscribed the company will have a \$400 working capital in the treasury.

The Hastings industrial company will have no stock interest in the company, which will be managed entirely by officers and a board of directors elected by the stockholders. The Hastings industrial company will, however, if it is desired furnish an experienced butter maker to conduct the plant for the first season, and also contracts to take all the butter made at the plant, should the company desire to dispose of its product through its agency.

The specifications call for a building 40x24x12 feet, and the installation of a ten horsepower boiler and a six horsepower upright engine. A No. 4 Dishrow power combined churn and butter worker of 392 gallons capacity will be installed, a twin cream vat of 400 gallons capacity; a separator; a steam suction fore-pump and the specifications cover all other equipment and articles necessary to put the creamery in order for butter making.

Already Have 400 Cows. Robert Shaw, who gave S. J. Skierod and A. J. Stiles, the representatives of the Hastings industrial company, considerable assistance in carrying the project through, says that there are now 400 cows in the surrounding country whose cream product will be sent to the creamery as soon as it is in operation but it is expected to double that number within a year. The plant to be installed can care for the product of 700 cows, and its capacity can easily be increased by adding more equipment.

Many of the farmers in the two townships are already planning to largely increase their herds. In most cases they have kept but a few cows, even when they had pasturage for a considerable herd. The reason for this has been that there was no way of disposing of the product of milk cream in a satisfactory manner. Butter making at home involved too much work, and thus as a rule the farmers have kept only the number of cows necessary to supply the milk and cream they required for their own consumption. The creamery will afford them a steady market for all the cream they can produce at prices that will give them a good return, and all the labor that will be involved will be milking the cows and delivering the milk to the creamery separator, or the cream if the separating process is carried on at the farms.

There is much interest in the project in both West Branch and Skandia townships, and the farmers are confident that it will prove a financial success. The creamery will take not only the cream of stockholders but all cream delivered at the plant in good condition. The market for the product will be a constant one. It is probable that most of it can be placed in this county. If this cannot be done there will be no difficulty about selling it outside. The stockholders have not yet elected officers and directors, but a committee composed of Robert Shaw, chairman; Albert H. Peterson, and Theodore Thoren, has been elected to take charge of the building operations.

NAVAL RESERVES HERE.

Michigan's Jack Tars Spend Fourth in City on the Yantic.

The Second battalion of the Michigan Naval Reserves, consisting of the First division, of Hancock, and the Second division, of Escanaba, arrived in Marquette early Sunday evening on the training ship Yantic, and remained in the harbor until 8:30 last evening. The Escanaba division went to their homes city on the 5:55 train last evening.

A large number of Marquette people visited the ship yesterday afternoon, members of the reserves taking them to and from the vessel in row boats. No maneuvers were gone through while in the Marquette harbor, although drills were conducted on the ship.

The Fourth of July cruise was made especially to prepare the men for the work that will devolve upon them during the big annual maneuver in August, in which the reserves of Michigan, Ohio, Illinois and Minnesota will take part.

Yesterday afternoon friends of the Naval Reserves officers tendered them a luncheon and reception at the Marquette club, which was largely attended and proved very enjoyable.

GARD OF THANKS.

We desire through The Mining Journal to express our sincere appreciation for the kindly expressions of sympathy and favors extended during our recent bereavement. We appreciate more fully than we can express the aid rendered by neighbors during our hour of affliction, and we assure you that the favors so generously manifested shall remain fresh in our memory. We feel under special obligation to friends for floral offerings.

P. F. MULLALLY and family. Brockton Port and Brandy and Chase's Kentucky Whiskey are pure goods, and sold always by The Stafford Drug Co. 5-7-11

DIED AT EVELETH.

Former Marquette Resident Expired on Mesaba Range.

Mrs. Fred Wise, until two years ago a resident of this city, passed from life at her home in Eveleth, Minn., Sunday afternoon at the age of thirty-two, following an illness of several months. The deceased was the daughter of Mr. and Mrs. D. S. Smith, of Waldo street, and was well and favorably known here.

Eleven years ago she was married to Mr. Wise, who until two years ago was engineer at the powder mill. At that time the family moved to the Mesaba range, where Mr. Wise has since been employed as a locomotive engineer at one of the mines. Besides the parents and husband, two children, aged ten years and two months, three brothers and four sisters are left to mourn the death of Mrs. Wise: Robert of Eveleth, James, of Vancouver, B. C.; Clarence, Lillian, Margaret, Mrs. Robert Reinhardt and Mrs. George Leight, of this city.

The remains will arrive in Marquette this morning, and the funeral will be held from the parents' home at 2:30 Wednesday afternoon, and at 3 o'clock from the Protestant church, with interment in Park cemetery.

GUILD HALL WORK GOING ON SMOOTHLY

COMPETENT INSTRUCTORS ENGAGED TEMPORARILY TO TAKE PLACE OF MAJOR BURDETTE, RESIGNED.

The resignation of Major Burdett as physical director of the Guild Hall association was presented about a month ago and accepted with much regret by the board of managers, as he had proved a thoroughly capable and popular instructor of the various gymnasium classes. His plans for the future have not been announced. It is understood that he has several favorable openings under consideration, and in the meantime he is giving private instruction in fencing and other branches to a number of pupils.

The board of managers have reached the conclusion that the successful management of the association requires a man who is not only a capable physical instructor, but who will take charge of all the activities of the association—in short, an "all around hustler."

Through the courtesy of State Secretary Buell, of the Y. M. C. A., the board was recently furnished a list of available Y. M. C. A. men, to whom letters of inquiry were sent, and from several of whom applications have been received. The board is also making inquiries through other channels and will undoubtedly have a considerable number of applicants to choose from. The board intends to proceed carefully in this matter, and it will probably be several weeks before a permanent appointment is made, especially as it is not so important to have the position filled in the summer months as during the rest of the year.

Local Instructors in Charge.

In the meantime temporary provision has been made for physical instructions for all classes of membership; and, in fact, the facilities now offered are more complete than before, as separate instructors are provided for the male and female membership.

Mrs. Elvira Lindstrom, who has been resident of Marquette for the past fifteen years, and who is especially proficient in Swedish gymnastics, has been engaged to conduct the classes for women and girls. The classes for the women and older girls will be on Tuesdays and Fridays as heretofore, and the young girls' classes on Wednesdays and Saturdays. Mrs. Lindstrom will also be in the plunge room during the hours it is used by the young girls, to see that all rules are obeyed and that the bathers do not remain too long in the water.

Mrs. Lindstrom commenced her duties a week ago and is making a decided success of it, in view of the fact that she has not had previous experience in handling classes.

The boys' and men's classes, during the summer months at least, will be conducted by Gordon B. Heughens, of Houghton, a fine all around athlete and a student at the summer school at the Normal, who has consented during the hours he can spare from his school work to fill the vacancy caused by the retirement of Major Burdett. Mr. Heughens excels in both indoor and outdoor athletics; is a fast track man, plays baseball and tennis and is a fine gymnast, especially on the horizontal and parallel bars. Though only in his twenty-second year, he has had four years' experience in handling similar classes at the Hancock Y. M. C. A., and in the Houghton public schools, and comes high recommended as to character and habits.

Mr. Heughens will for the present conduct the same classes for men and boys that have been held heretofore and will hold his first class for boys this afternoon at 3 o'clock, when a full attendance is desired. He will also be at the Guild Hall each evening, and will probably organize one or two new classes, including one for the more advanced gymnasts. Mr. Heughens is a young man of pleasing address and energetic character and he will doubtless infuse new life and enthusiasm among the members with whom he comes in contact.

NOTICE TO ODD FELLOWS.

All members of Lodge No. 108, I. O. O. F., and visiting brothers, with their wives and families, are invited to attend the installation of officers at Fraternity Hall Wednesday evening, 7-6-25.

MARQUETTE DEFEATS MUNISING TEAM

LOCAL NINE WINS SUNDAY'S GAME BY CLEVER BASE RUNNING AND CLEAN FIELDING.

	W.	L.	P.C.
Ishpeming	7	2	.777
Negaunee	7	3	.700
Marquette	6	2	.750
Munising	2	7	.282

By winning from Munising by a score of 4 to 1 at the fair grounds Sunday afternoon, Marquette annexed her second victory of the season, in a game characterized by at times sensational, and at others, rugged playing. Marquette's runs in the first inning were largely due to errors by Finkbinder and Nevitt. Munising's third baseman and catcher, and Adamson's wild throw in the sixth was responsible for the fourth and last Marquette tally.

In the field and at the bat the home team showed splendid form and a remarkable improvement in headwork was shown over games played earlier in the season. The work on the bases was especially good, seven sacks being pilfered during the nine innings and three sacrifice hits made.

Both Scholtus and Baker were steady in the box and had it not been for errors, it is hard to say which team would have won, although Marquette ran the bases better and fielded much more cleanly. Walsh, Marquette's new catcher, played a splendid game, got two hits and used his head all the time. The game was a hard one for the umpires, Forvilly and Dyer, as there were many close decisions and several freak plays. Although there was a great deal of kicking during the game, both teams admitted after it was over that the umpires were, in all probability, in the right.

Marquette got three of her four runs in the first inning. With one out, Walsh singled sharply to right and was advanced to second, when Rippelle's easy grounder went past Finkbinder and Hagel. Walsh stole third, and raced home on Young's infield grounder. Nevitt failing to touch Walsh at the plate, Adamson, though he received the ball in ample time, Rippelle scored in exactly the same manner on Dunlavey's grounder. The third score of the inning was made by Young, when Finkbinder muffed Scholtus' liner.

In the sixth, Scholtus singled to short center and was advanced to second on Richardson's sacrifice. Adamson threw the ball into deep center trying to catch Scholtus off second and he went home. Munising's only score came in the eighth and was the only scored run of the game. With two out Nevitt doubled to left. He stole third and came home when Letich slammed a hot liner down the third base line.

The summary follows:

Marquette	A. B.	H.	R.	P. O.	A. E.
Walsh	4	0	0	0	0
Rippelle	4	2	1	2	0
Young	4	0	1	0	1
Dunlavey	3	1	0	6	2
Shields	2	0	0	5	1
Scholtus	4	1	1	2	3
Richardson	3	1	0	3	1
Cragg	3	0	0	1	0
	32	7	4	27	9

Munising—

A. B.	H.	R.	P. O.	A. E.	
Nevitt	4	2	1	9	3
Letich	4	2	0	1	0
Gunstrom	4	0	0	2	1
Schane	2	0	0	2	1
Hagel	4	0	0	1	2
Finkbinder	3	0	0	2	3
Nelson	3	0	0	1	0
Adamson	4	1	0	9	1
Baker	3	0	0	1	0
	33	8	1	24	11

Marquette ... 300001007—4 7 1
Munising ... 000000010—1 8 6
Earned runs, Munising, 1; two-base hit, Nevitt; struck out, by Scholtus, 9; by Baker, 8; left on bases, Munising, 9; Marquette, 7; double plays, Scholtus to Shields, Cragg to Shields to Dunlavey, Nevitt to Schane; passed ball, Nevitt; hit by pitcher, by Scholtus, 2; by Baker, 1.
