

WICKERSHAM GIVES HIS VIEWS

Head of the Federal Department of Justice Discusses the Trust Question in an Important Speech at Paducah, Kentucky.

Chiefly Notable for the Recommendation That Congress Should Provide for Nationally Created Incorporations, the Address of the Attorney General Is Significant Also in Showing How the States May Control the Business of Foreign Concerns.

Paducah, Ky., July 7.—The matter of the state control of corporations doing an interstate business was discussed in an address before the state bar association by Attorney General Wickersham in this city...

Trusts Not "Citizens." Dealing with the citizenship and standing of corporations, Mr. Wickersham pointed out that they were not "citizens" in the meaning of the federal constitutional requirements...

Holding Companies Included. With the corporation tax provision this securely established as part of the tariff bill, there was considerable effort to amend it, and in one notable case this effort was successful...

Export Duty on Potash. Berlin, July 7.—A bill levying an export duty on potash has been drawn up by Herr Delbrueck...

A Canadian Educator's View. Farm Must Be Made Fit for the Boys Are to Be Kept on It.

President Taft's Sentiments. Plattsburg, N. Y., July 7.—In his speech at the Lake Champlain Tercentenary banquet here tonight, President Taft declared his policy as to the federal government. He said: "As our country becomes more and more populated, there will come a test of the practical operation of our system of state and national governments."

RAILROAD OFFICIAL DIES. Atlantic City, N. J., July 7.—Eben Ryder, aged fifty-six, superintendent of the Chicago, Indiana & Southern railroad, is dead. He is survived by his daughter, Miss Leona Ryder, who was at his bedside, Mr. Ryder was for years connected with the Alton railroad.

MOTHER AND CHILDREN DROWN. St. Louis, July 7.—Mrs. Bertha Casanova and two children were drowned on the old General Grant farm, in St. Louis county, tonight when they attempted to ford Gravis creek.

FINAL TARIFF VOTE WILL COME TODAY

In Pleasant Anticipation of the Early Conclusion of the Labors of the Special Session, the Senate Adjourns for the Night.

One After Another, the Reserved Amendments Are Bowled Over by the Finance Committee, Leaving Only a Few Provisions Still to Be Considered, and Both the Corporation Tax and Customs Court Features Are Definitely Attached to the Bill.

Washington, July 7.—With a general understanding that the final vote in the senate on the tariff bill should be taken by 4 o'clock tomorrow afternoon, the senate adjourned at seven this evening in pleasant anticipation of the early conclusion of the labors of the special session of congress.

Day's Long Session a Busy One. The day was a busy one, and the prospects are that tomorrow will be as fully occupied as was the long session today. It is expected that the bill, as perfected, will receive practically all, though not all, the republican votes, while it is understood that probably all the democratic votes, with the exception of that of Mr. McHenry, of Louisiana, will be cast against it.

SENATE CONFEREES CHOSEN. There Will Be Eight of Them, All Members of the Finance Committee.

Washington, July 7.—It has been definitely decided that the senate will be represented in the conference on the tariff bill by eight members, five republicans and three democrats, all of whom will be selected according to seniority of membership on the committee on finance.

AMERICAN LEAGUE. Cleveland, July 7.—Mullin weakened in the ninth, and Cleveland made six hits and three runs, winning the game.

NEW TRIAL IS ASKED. Laporte, Ind., July 7.—Mrs. Larson, of Chicago, sister of Belle Gunness, today filed an application for a new trial of Andrew Hegelein's suit against the Gunness estate for \$3,100, obtained from Hegelein, of Aberdeen, S. D., by Mrs. Gunness when she enticed him, her "murderer" and, it is alleged, killed him. In the first trial the jury gave Hegelein a judgment.

THE WEATHER.

Washington, July 7.—The following is the weather bureau forecast for Upper Michigan: Fair, Thursday; showers, Friday; light to moderate variable winds.

FLOOD CONDITIONS ARE VERY SERIOUS

Swollen by Unprecedented Rains, Rivers Become Veritable Lakes in Missouri and Kansas, Resulting in Widespread Devastation.

Some Persons Have Lost Their Lives, With Thousands of Others Imprisoned in the Second Stories of Their Homes; the Damage to Crops Is in the Millions, and Railroads Are Heavy Losers, Tracks Being Washed Out and Trains Marooned.

Kansas City, Mo., July 7.—Swollen by unprecedented rains and by melted snows from the mountains, brought down through the Missouri valley, the rivers here have left their banks and caused damaging floods in many parts of Missouri and Kansas.

PASSENGRERS RESCUED WITH DIFFICULTY.

It appears that the train was running along smoothly through the water when it began to sink on the undermined tracks.

NEARBY TOWN COMPLETELY INADUATED.

Pomona, Kas., is almost completely inundated, the Marias Des Cignes river at that point being three miles wide.

RIVERS SIX MILES WIDE IN PLACES.

St. Joseph, Mo., July 7.—Northwestern Missouri is experiencing the worst floods in its history.

WALKING HOME, WEALTHY FARMER IN IOWA IS ROBBED AND MURDERED.

Waterloo, Ia., July 7.—While walking to his home in Mowroy from North Hampton last night, Patrick Murray, a wealthy farmer, was robbed and afterwards murdered, presumably by tramps.

PORTIONS OF TOPEKA UNDER WATER.

Topeka, July 7.—Topeka today experienced the first flood of the season, following a six-foot rise in the Kaw river during the night.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

As Secretary Shumway of the state board of health advises that we wash our summer diet down with beer and wine, we are doubtless justified in concluding that he is not a prohibitionist.

While the celebration was comparatively "safe and sane" this year, it fell far short of being positively so.

The public schools are educating 2,000,000 of the American youth for the presidency and 30,000,000 for nothing.

As far as we are concerned we would be more impressed with Alderman Ward's solicitude about the interests of the taxpayers if it were manifested with a little more consistency.

Senator Burrows will be a member of the conference committee on the tariff legislation. During the progress of the debate on the iron ore schedule Senator Burrows delivered a comprehensive address in favor of the schedule on iron ore that was incorporated in the senate bill.

Deputy Factory Inspector Fitzpatrick, of Ishpeming, reports, on the conclusion of a tour of his copper country territory, that he found the managers of mines and mills in that region cheerfully willing to heed any suggestions that he saw fit to make as to ways and means by which the safety of the employees might be further safeguarded.

The resolution passed by the senate calling for the submission of an amendment to the federal constitution that will permit of the enactment of an income

tax law will doubtless be passed by the house with the same celerity with which it was disposed of by the senators.

In another column The Mining Journal prints a news story that has a bearing on the gubernatorial situation.

Professor Hamilton says it is manifest that such additional acreage can not be expected in the next thirty-six years, for the great body of available wheat lands in the United States has been appropriated.

It is assumed, as a matter of course, that no officer can marry on his pay and live on the scale required of a man with a commission.

It would be hard to overstate the wonderful change in my mother since she began to use Electric Bitters," writes Mrs. W. L. Gilpatrick of Danforth, Me.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy.

IF YOUR CHILD NEEDS A TONIC

If your little boy or girl is delicate and sickly-go to the nearest druggist and get a bottle of

Dr. D. Jayne's Tonic Vermifuge

This splendid tonic has been successful for four generations in making sickly children strong and healthy, and effectively expelling worms.

Dr. D. Jayne's Expectant is the most reliable remedy for Coughs, Colds, Croup, Whooping Cough, Bronchitis, and Pleurisy.

MADISON'S PUBLIC PARKS. An article in Sunday's issue of the Milwaukee Free Press tells the interesting story of what public spirited citizens of Madison, the capital of Wisconsin, have done to make the city beautiful.

Largely as a result of the generosity of its public spirited men of wealth, Madison, which was, to start with, blessed by a natural environment of exceptional beauty, has been made a city of wonderful scenic charm and one in which it is a pleasure to dwell or to sojourn for a time.

There is no kind of philanthropy which wealthy men can better concern themselves than with this task of supplying the cities where they reside with restful parks, playgrounds for the children and the other adjuncts necessary to make life worth living.

At the present average rate of production during the last decade 1.58 bushels per acre of wheat could produce 850,757,093 bushels of wheat per year.

No midshipman at Annapolis is allowed to marry before he leaves the naval academy. This is the rule with all colleges. No undergraduate is allowed to marry while in college.

When the naval department extends this prohibition to six years after leaving the academy it begins the adoption of the same rule as in European armies and navies.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy.

FACTS ABOUT WHEAT.

In an address before the Pennsylvania state board of agriculture at Harrisburg some time ago, Professor John Hamilton said that upon the proceeds of agriculture about 35 per cent of our population are dependent for living.

It is generally conceded that no single crop is grown more universally throughout the United States than wheat.

Now, according to the estimates given by Professor Hamilton, the cost of production of an acre of wheat in the eastern part of the United States is about \$12.50.

Wheat, however, is not an exception to other cereal crops in its value per acre. The census report of 1899 gives the average value of all the cereals taken together at only \$8.62 per acre.

It is claimed that our population each year consumes on an average 5.25 bushels of wheat per capita, and as the average production per capita is 7.51 bushels, there is a surplus of 2.26 bushels, an average of 28.2 per cent, which is about the average of the actual exports made between 1871 and 1906; and this exporting is done, too, in the fact of the fact that our population in that time increased from 31,153,000 to 81,153,000, or 127.5 per cent and is still increasing.

In thirty-six years it required 27,361,330 additional acres to be put out in wheat in order to supply our increasing population and keep up the average per cent of our export trade.

Professor Hamilton says it is manifest that such additional acreage can not be expected in the next thirty-six years, for the great body of available wheat lands in the United States has been appropriated.

It is assumed, as a matter of course, that no officer can marry on his pay and live on the scale required of a man with a commission.

When the naval department extends this prohibition to six years after leaving the academy it begins the adoption of the same rule as in European armies and navies.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy.

Copper Country

TWO FATAL ACCIDENTS.

Robert Cunningham and Joe Vidmar Are Dead at Calumet.

Robert Cunningham of the Gratiot, aged about thirty-six years, is believed to have come to his death by falling from a crowded street car on the high Albin trestle, although the coroner's jury has not yet heard the evidence in the case. Cunningham's body was found Tuesday morning. The man's neck was broken and there was a slight abrasion on one side of his head. He had considerable money and other effects in his pockets and a cursory investigation did not indicate that he had been drinking. It is believed that Cunningham was either walking over the trestle and fell off or that he tumbled from the rear platform of a crowded car, the latter supposition holding general credence because there was apparently no reason why the man should walk up over the trestle. Cunningham, according to those who knew him well, was not a drinker; in fact, he had an aversion for strong drink of any sort. He had been in this country but a few weeks, coming from Canada. He was with his uncle in Red Jacket Monday evening.

LAURIUM AND HANCOCK COUNCILS

Street Lighting the Principal Feature at Both Municipal Meetings.

The Laurium and Hancock common councils met Tuesday evening, and both had important matters up for discussion, with the lighting problem to the front in each case. In fact, the Laurium council will hold a special meeting on the question tomorrow night. A representative of the Houghton County Electric Light company was present at the Laurium meeting and submitted a proposition to place a light on every unlighted street corner in town at a total cost of only \$120 more per year than is now being paid. There are about sixty-three streets, and thirty-five of these are now lighted by gas lights. The proposition was to take off five of the gas and install thirty-series tungstens. The company, however, wants a five-year contract, with which the town would be bound, where old walk has been condemned and where new walk has been petitioned for, the total amount to be constructed is about 200,000 square feet, which will cost about \$12,000 at the present contract price. Most of this money, of course, will come back from the property owners.

Are You Opinionated?

You ought to be. Especially about flour. Don't blame the Cook - Buy GOLD MEDAL FLOUR.

Washburn-Crosby Co. FOR SALE BY YOUR GROCER

What a Comfort. THE CITIZENS NATIONAL BANK. HOUGHTON MICHIGAN. CAPITAL \$50,000.00.

ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS.

DEATH OF MRS. SULLIVAN. Pioneer Resident of Houghton Passed Away Suddenly.

As briefly noted in these columns yesterday, Mrs. Mary Sullivan, widow of the late Daniel Sullivan, died at an early hour Tuesday morning. Her end came suddenly. She was found dead in bed. There was a small fire in the neighborhood at 1 o'clock which resulted in Mrs. Sullivan was about while the department was working on it. It is believed the excitement hastened her end.

IS OFFERED STATE HONOR. A. M. MacDonald of Spanish Vets in Line for Department Office.

A. M. MacDonald, of Houghton, commander of the George Miller camp of the United Spanish American War Veterans, will probably be selected as either senior or junior vice commander of the department of Michigan at the organization when the annual convention is held at Kalamazoo July 22. Mr. MacDonald was advised yesterday in a letter from W. E. Osborn of Kalamazoo, department adjutant, that he has been mentioned for one of the offices and that he will probably be elected if he expresses a desire to take the place. Commanding Officer MacDonald believed yesterday that if business permits him to get away to the convention he will go to Kalamazoo as a candidate.

TWO MASONIC GATHERINGS. Copperdam Masons Interested in Picnic and Moonlight Trip.

One of the annual large picnics of the summer will be the dining of the Houghton chapter, Order of the Eastern Star, at Freda tomorrow. The picnic is an interesting Masons and their families from every point in the copper country, from Baraga to Rockland, and it will be a big affair in every sense. It will be known as a Masonic picnic, and only Masons and their families will attend.

CLOSE CITY'S GATE TO SECURE RAIN. Doctor in China Writes of Efforts of Orientals to End Drought.

Amiston, Ala., July 7.—Dr. T. W. Ayers, formerly a practicing physician and editor of this city, now in charge of the Warren Memorial Hospital at Huang Nien, North China, under the auspices of the Foreign Mission Board, Southern Baptist Convention, and some time lecturer on medicine at the Imperial University, has written a letter to a citizen here, giving an interesting insight into some of the Chinese superstitions. He tells how the Chinese undertake to overcome the drought, and of the suffering and barbarities in connection therewith.

DEAD PEOPLE ARE BLAMED. Bodies Are Sometimes Disinterred and Pulled Through the Fields by Hooks.

The expert on bridge-whist, R. F. Foster, contributes an interesting bridge story to the July American Magazine. One of the exciting incidents of a bridge game is as follows: "Accordingly, he cut into the next rubber and the points were raised to ten cents. Buskirk cut the S. Conslu, who got the deal. Among the spectators there was quite a little buzz of excitement when the points were raised to ten cents. Mr. Buskirk promptly demurred, holding six clubs to the ace, king, three spades to the jack and two small cards in each of the red suits.

NOTABLE GAME OF BRIDGE. The expert on bridge-whist, R. F. Foster, contributes an interesting bridge story to the July American Magazine.

Gasoline should not be handled in open buckets, should not be stored in exposed tanks, and its use should be confined to either outdoors, or if indoors to places where there is a good current of air, and not in a close room where the atmosphere is still.

ALLEGED ASSAULTER BEATEN. Brother of Supposed Victim, With His Chums, Arrests the Suspect.

George Derosier, a resident of the Isle Royale mill location and a saloon porter by occupation, was brought to the Houghton county jail Monday evening by six boys ranging in age from twelve to seventeen years. He had been fearfully beaten by baseball bats in the hands of the young self-elected guardians of the peace. They charged him with having attempted to assault Emma Stilmeyer of the Isle Royale location, the deaf and dumb sister of the eldest boy of the group.

WHITE PLAGUE CAMPAIGN. Miss Bearhope, Relief Secretary, Begins Active Operations.

The fight against tuberculosis in Houghton county will commence in earnest this week. Miss A. M. Bearhope, relief secretary for the Houghton County Anti-Tuberculosis Society, with headquarters in Houghton, announced that commencing today she will institute a campaign which will cover the entire copper country and which, she hopes, will bring about desired results.

EARLY CLOSING IS STARTED. Nearly all the larger stores of Calumet, Red Jacket, Hancock, Houghton and Laurium, have adopted the early closing movement, shutting their doors for the day at 6 o'clock.

DR. JACKOLA HONORED. Former Hancock Resident Gets an Appointment in Berlin.

Further honors have been conferred on Dr. John Jackola, formerly of Hancock, who is now in Berlin. "Professor" Dr. August Bier has appointed Dr. John Jackola, of Detroit, as his assistant in the Royal Surgical University clinic in Berlin," says the Daily Record, an English newspaper published at the German capital.

PORTAGE TOWNSHIP SCHOOLS. Annual Election Will Be Held Next Monday Night at Houghton.

The annual meeting of the Portage township school district, which includes the schools of Houghton, will be held in the assembly room of the Central building next Monday night. The meeting is for the purpose of electing officers and making the estimates for the ensuing year. The school board will probably hold a meeting this week to prepare the estimates and the annual report.

OPENED GATE WHEN IT RAINED. As soon as I arrived in Chaouen City the business men on the south street implored me to have the mandarin open the gate, as they had been without customers since the gate was closed.

FIGHT WITH DEVILFISH. A party of English fishermen had an unusual and most exciting experience in the Panuco river recently with a large sting ray or devilfish. It is very rarely they are seen in the river for they are supposed to confine themselves to the coast, although they are often encountered near the coast along the South Atlantic and in the Gulf of Mexico.

BEHAVE SPIRITS PREVENT RAIN. The most extreme measures they have used to secure rain is this: One person forms the idea that the spirit of one of the dead is preventing rain. He motions the fan to one of his friends. He motions another, he motions another, until the community becomes enraged against the spirit of the individual who is preventing rain. They set a time, go to the grave, take out the body, grasp it with iron hooks and drag it through the fields until it is literally torn to pieces.

NO MAN IS STRONGER THAN HIS STOMACH. A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition.

Both offices open evenings. Phones, Calumet, 64 and 75. Laurium, 450, 520 and 605.

OFF FOR OWOSSO COAL MINES. A party of Calumet capitalists interested in the New Having Mining company's property, near Owosso, Mich., left yesterday for that place. Shipping is soon to start, it is stated by other important matters demand the attention of the Calumet people at the colliery.

LEAVE FOR CORNWALL. Mr. and Mrs. Richard Trembath and three small children and James Trembath and Edward Trembath, all of Calumet; Charles Bunt of Kearsarge, and Steve Mitchell of Ontonagon left yesterday for New York city, where they will embark on the American line steamship St. Paul for Liverpool, Eng. The travelers are going to Cornwall to spend the remainder of the summer. They will visit at Penzance and St. Just and other points in their native land before returning to America.

DR. JACKOLA HONORED. Former Hancock Resident Gets an Appointment in Berlin.

Further honors have been conferred on Dr. John Jackola, formerly of Hancock, who is now in Berlin. "Professor" Dr. August Bier has appointed Dr. John Jackola, of Detroit, as his assistant in the Royal Surgical University clinic in Berlin," says the Daily Record, an English newspaper published at the German capital.

BEHAVE SPIRITS PREVENT RAIN. The most extreme measures they have used to secure rain is this: One person forms the idea that the spirit of one of the dead is preventing rain. He motions the fan to one of his friends. He motions another, he motions another, until the community becomes enraged against the spirit of the individual who is preventing rain. They set a time, go to the grave, take out the body, grasp it with iron hooks and drag it through the fields until it is literally torn to pieces.

NO MAN IS STRONGER THAN HIS STOMACH. A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition.

BEHAVE SPIRITS PREVENT RAIN. The most extreme measures they have used to secure rain is this: One person forms the idea that the spirit of one of the dead is preventing rain. Our Ice Cream Is the Richest and Best in the County.

We make it ourselves. Use cream, sugar and vanilla. Make the vanilla, too; so we know it's pure. A test shows 17 per cent butter fat. Try other brands and see if they run as great. We take pride in our Ice Cream. It has made our Soda business run far ahead of what we considered possible a few years ago, and it is still jumping, too. Try any drink at our fountain and you will find it good, and when it's good it's all right.

City Brevities

Today's weather: Increasing cloudiness; stationary temperature. Yesterday's temperature: Seven a. m., 57 degrees; noon, 63; 7 p. m., 60. Maximum, 66 degrees; minimum, 56.

A. P. Wilson and son Andrew and Carl Patrick are camping on Lake Independence.

Joseph F. Neidhart has returned from Salt Lake City and Denver, where he made a brief visit to his relatives.

Mrs. T. E. Ball, of High street, has with her to the summer Mrs. Hurs and sister, of Peoria, Ill.

A marriage license was issued yesterday to George Grant and Mrs. Annie Duplanty, both of Negaunee.

Mrs. F. G. Truscott and Mr. and Mrs. Chas. G. Truscott and children are enjoying a week's outing at Big Bay.

Frank Faulkner, of Chicago, who spent his boyhood days in this city, is visiting H. Herlick. Mr. Faulkner is now captain of fire engine company No. 91 in that city.

Charles Hultquist and brother, of Chicago, are visiting in the city. Mr. Hultquist was formerly in the employ of Kassel Oshinsky in the dry goods business in this city.

Miss Katherine Mosher returned yesterday to spend six weeks with her parents, Mr. and Mrs. Ed Mosher, after an absence of over a year. Miss Mosher has attained distinction as an operatic star in Chicago and is returning to that city where she has a full engagement with a theatrical company.

L. D. Heckman, who has been in charge of the Ferguson Business college at Ironwood, was in Marquette yesterday, on his way to Big Rapids, where he will attend the summer school. This fall he will go to Fort Arthur, Texas, where he has a responsible position as teacher in a business college.

Train Delayed--The afternoon train from the copper country did not arrive until 5 o'clock yesterday afternoon, owing to a car of logs that got off the track near Champion, blocking the main track for several hours.

News of the Boats--At the South Shore docks, the D. M. Whitney cleared for Ashtabula, the Luzon for Toledo and the Keele for Cleveland. The Chattanooga and Montague are at the docks waiting to load ore. At the L. S. & I. dock, the Dixie is loading.

Died at St. Mary's--John Walsh, a workman, died at St. Mary's hospital Tuesday night, where he had been for several weeks, suffering with cancer. The remains were shipped to Detroit yesterday afternoon for funeral and interment, the deceased having a sister in that city. He was thirty years old.

Saloon Open After Hours--Officer Charles Carlson stated last evening that a warrant would be sworn out against Ernest H. Bush today for having kept his saloon open after hours. He stated that Mr. Bush and some companions were in the saloon as late as 12:20 this morning, although he had twice been warned that it was after 11 o'clock.

Machinery Being Set Up--The machinery for the new Crescent laundry, to be operated by F. E. Knight & Co., on West Washington street, has arrived from Chicago, and is now being set up by competent mechanics. The men back of the enterprise expect to have the laundry in operation within a short time and will be on the lookout for their share of the business.

Dr. James Going Ahead--Dr. S. M. Lavoie left this evening for New York city, where he will spend a short time at the Rockefeller Institute of Research, and will then go abroad to spend two months or more in surgical study. He will visit the famous hospitals of the British Isles, Germany, Vienna and Leipzig, and expects to confer with some of the most famous surgeons in the world. Mrs. James and family will accompany him as far as Detroit, and will later visit in Minneapolis.

Baseball Song at Bijou--Hurrah for Our Baseball Team" is the title of a song now on at the Bijou. It is illustrated with some toys and the pictures were taken in Marquette. In fact, Bijou photographers have been taking snapshots ever since the opening game of the season. There are about thirty different views, showing the players in action, otherwise done on the grounds, in the grandstand and on the street cars. The song itself inspires enthusiasm and one verse is written about the Marquette team. The fans ought to hear it. It will give them "ginger" for next Sunday's game.

Appropriated an Auto--Dr. Harkin's automobile was seriously damaged Tuesday night, when some miscreants drove it into town from near the Chevalley furnace, where it had been left by the owner with a punctured tire. Early yesterday morning the machine was found standing on Baraga avenue. The tire was completely ruined and the car was otherwise damaged. Dr. Harkin started for Lakewood late Tuesday night, but left his car by the roadside when a tire was punctured, and telephoned Charles Nelson to bring it back to the city and make the needed repairs. Before Mr. Nelson arrived, however, someone had ridden into town on the car, with the results already stated.

Finland Band Coming--A musical attraction of more than ordinary excellence is billed for this city on July 20, when the Finnish Military band, of Butte, Mont., will give a concert at the opera house. The band is said to be an even better musical organization than the Finnish band, of Ashtabula, O., which gave a delightful concert here last summer. The band is on its way to the national convention of the Finnish Temperance society, to be held at Dekalb, Ill. As an effort will be made to have Marquette chosen as the place of holding the next national convention of this society, it is especially desired that the concert be well attended, in order that the Butte musicians may think favorably of this city.

More Warrants Out--There were several new developments yesterday in the alleged larceny case at Birch, which is held to have taken place last Monday. At the hearing before the justice yesterday forenoon, Walter Lattrell was bound over to circuit court on the charge of larceny from the person, but Charles Pellissier, who had been arrested on the same charge, was released, as no evidence was found against him. Lattrell's bond was fixed at \$1,000, which was secured in Marquette yesterday afternoon. It is alleged that Lattrell reached through a window and took \$13 from the pocket

of the clerk at the Northern Hotel. In retaliation, friends of Lattrell and Pellissier have sworn out warrants against Claude Ingells and William Noies, of the Northern Hotel, charging them with having run a blind pig at Birch during Monday's celebration. It is rumored that a warrant, charging the same offense, will be issued against another Birch resident today.

INSURE WITH PETER WHITE & CO.

NICE APPOINTMENT FOR CHASE OSBORN

SENATOR SMITH WOULD MAKE HIM MEMBER OF INTERNATIONAL BOUNDARY COMMISSION, THAT IS, IF THE U. S. AND GREAT BRITAIN DECIDE TO ARBITRATE

Senator William Alden Smith has submitted to the state department, at Washington, the name of Chase S. Osborn to be a member of the proposed joint high commission to arbitrate with Great Britain the several international boundary differences that exist between the two nations as to the Canadian border, some of them of many years standing, a Grand Rapids press dispatch says.

The authority for this statement is understood to be agreeable to the appointment. The matters which would come before the commission include the Alaska-Yukon boundary dispute, the Maine-New Brunswick boundary dispute, the division of the water power in the St. Mary's river, and the fisheries question on the great lakes.

However, before the commission could be appointed congress and the English parliament would have to agree to its creation. That is, both nations would agree by treaty, subject to ratification by their respective legislative bodies, to have the disputed questions submitted to arbitration. It is possible that such a treaty may be negotiated before congress assembles in regular session next December.

Of course, if the commission is created, Osborn takes a position on it he would not be expected to stand as a candidate for governor at the primaries in September next year. Should Osborn go on the commission the senator would be relieved from his present trying situation where he finds himself confronted by his two warm personal as well as political friends, Osborn and Amos S. Musselman, of this city, being rival candidates for the Republican nomination to succeed Governor Warner. He is really contented by three, for Supreme Justice Montgomery lived in Grand Rapids and practiced law here up to the time of his elevation to the supreme bench, and the second city still claims him as one of her citizens.

Senator Smith studied law in Justice Montgomery's office here but by reason of Justice Montgomery having been on the bench for the past eighteen years he and the senator have not worked in politics like the latter and Osborn and Musselman. But their personal relations have remained unimpaired.

The proposed joint high commission might be in existence several years and carry with it salaries of \$5,000 or upwards. It was remarked by a friend of the senator that Osborn as a member of the commission would become internationally known, while as governor his name might not become nationwide.

A press report from the upper peninsula says it is understood in inside Republican circles there that Osborn will in the near future be tendered an appointment either as a foreign minister or to an important consular position. Senator Smith says that he had not before heard of such a conditional tender. Inasmuch as men do not get foreign minister's posts, or consular positions, without the endorsement of their senators, it is taken for granted that there is nothing to the report. Besides, as long as Senator Smith's recommendation of Osborn for a place on the proposed joint high commission remains on file in the state department, it would be an unheard of thing to ask for his appointment to another position.

FLATHEAD AND COEUR D'ALENE INDIAN RESERVATIONS.

The Wright company--Herbert B. Wright, formerly of Ishpeming, president--will furnish information in regard to location and locating parties. Maps furnished for pocket use, showing topography, trails, wagon and railroads and complete details, price fifty cents each. For maps address the company at Coeur d'Alene, Idaho, P. O. Box J. AVOID THE KNIFE.

Cutting Won't Cure Piles--Internal Treatment Needed.

A gardener doesn't kill weeds by cutting their tops. He attacks the root. Just so with piles--the cause is within entirely out of reach of surgical instruments, ointments or suppositories. The only cure for piles is internal, and the only guaranteed internal remedy is Dr. Lechhardt's Hem-Roid. It has cured 98 per cent of cases, and 24 days' treatment is sold for \$1 at The People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming, under positive guarantee. Or mailed by Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

Foley's Honey and Tar not only stops chronic coughs that weaken the constitution and develop into consumption, but breaks and strengthens the lungs. It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. Sold by all Druggists.

The Great Lakes Trip

A little journey on the inland sea is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and waypoints. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Goderich, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address L. C. Lewis, G. P. A., Detroit, Mich.

STARTED LOCOMOTIVE FROM SIDE TRACK

YOUNG MAN CELEBRATING AT MICHIGAN MONDAY HAD MUCH MORE EXCITEMENT THAN HE BARGAINED FOR.

Louis Johnson, a deaf mute from Negaunee, who celebrated Monday at Michigan, was arrested there on a serious charge, but the South Shore authorities consented to have him let off with a light sentence at his hearing held yesterday afternoon.

An engine ready for operation stood on a side track near the depot. Johnson, who had been having a high old time, got into the cab and opened the throttle, starting the engine down the track. It was just commencing to move at a good rate of speed when it left the rails at an open switch, connecting the side track with the main line. Starting the locomotive, Johnson took the precaution to blow the whistle and ring the bell, but he was without any knowledge of how to operate it, so it is a question how far he would have gone without serious results. Johnson's performance created much excitement as those who witnessed it thought that the engine would probably be badly damaged when it left the rails through the open switch, but it escaped in good condition.

KILLED WHILE RIDING SKIP.

Employee of American Mine Met Death Early Yesterday Morning.

Onnie Heinanen, a young Finn, employed at the American mine, was killed yesterday morning about 6:30 o'clock, while riding to surface in the skip. Soon after the skip had left the bottom, Heinanen, who was standing on the rail with his head to one side, was struck by a stone projecting from the wall of the shaft and was knocked to the bottom, a distance of about twenty feet. His skull was fractured and he was also otherwise injured. He lived but a short time after he had been removed from the bottom of the shaft.

The deceased was about twenty-three years of age and was single. He had not been in the country long and had been working at the American mine since last February. Coroner Pryn was called to the mine yesterday and an inquest was held. The verdict of the jury was in accordance with the facts stated above. No blame was attached to the company or any of its employees. Isaac Lampu, also a young Finn, single, was injured at the American mine Tuesday night, but it is thought that he will recover. He was caught by falling ground, sustaining a fracture of the arm, also a bad scalp wound. He was taken to the Michigan hospital yesterday.

WANT RESERVED SEATS.

Many of the Local Fans Want to Secure Seats in Advance.

It is quite possible that the management of the Ishpeming baseball team will decide to place reserved seats on sale in the city prior to all future games. During the last five or six games the grand stand was full, and the grand stand were obliged to go to the park from one hour to two hours before the time set for the game. For both last Sunday and Monday's games the grand stand and the bleachers were practically filled to their capacity. A number of the prominent fans have appealed to the management stating that they would willingly pay twenty-five cents for reserved seats. They do not object to the entire stand for the reserved seats as those who do not care to pay the extra price can go down in advance as usual and occupy the unreserved sections. The seats could be placed on sale in one of the local stores one or two days in advance and the remainder sold through the ticket window on the grounds. A good many people have said that if some such arrangement is not made they will not attend many more of the games as it is inconvenient to get to the game in time to get the seats before 1 o'clock in order to secure a seat.

RED LODGE BAND.

Montana's Famous Finnish Military Band to Make Tour of Peninsula.

The Finnish people are showing much interest in the coming of the famous Red Lodge band of Montana, which is making a summer tour of five states. The band will give concerts in several of the upper peninsula cities. Its Ishpeming date is a week from next Saturday, the 17th. The concert will take place at Ishpeming theater.

The band is said to be the strongest musical organization of the Rocky mountain states. It is well known to the Finnish people of this country and it will be greeted by large audiences in the upper peninsula cities. There are thirty-two members in the band, which is under the direction of Professor George E. Waldstrom.

A popular scale of prices will be charged for the concert here. All seats on the ground floor, also the first two rows of the balcony, will sell at fifty cents each, while the remainder of the balcony will be thirty-five cents. The gallery seats will be twenty-five cents. Tickets will be sold a few days in advance at Werner Nilander's drug store.

J. SELLWOOD & CO.

FROM MORGAN'S CURB LETTER.

"Another Cole-Ryan stock come to the fore today, and varied the monotony of a listless market in copper shares. Giroux Consolidated was the feature, selling at 8 1/2, against initial sales of 7 1/2. Trading in it was heavy, and the word to buy the stock has been passed around in certain quarters. It has been evident for some weeks past that strong interests have been accumulating Giroux, Greene Cananea and Superior & Pittsburg whenever offered. The latter enjoyed an advance of about five points, and a natural reaction ensued. Support was forthcoming today at 17, and we believe the price should work higher. It would now appear that Giroux may be the next to be taken in hand, and Greene Cananea appeals to us as a very attractive purchase at \$10. The copper share market as a whole has apparently gotten into a rut, and the metal must necessarily show some appreciation in price to arouse any great amount of enthusiasm. We believe, though, that many of the high prices for copper metal must be realized, and when this becomes a fact, the issues which we have so often mentioned will not be laggards. We like particularly the medium and lower priced ones, such as Rutte Coalition, Giroux, Greene Cananea, Hancock, Shannon, Parrot, Coetys, Chief Consolidated, Cumberland Ely, Superior & Pittsburg, and San Antonio. It is expected that the Copper Producers' figures for July will show a further reduction of surplus. Exports are expected to be about 75,000,000 pounds, and domestic consumption about 61,000,000 pounds. The Globe Consol-

dated is drifting along the strike of ore recently made. The assay shows 6 per cent copper, and conditions appear to be very favorable for a large body of ore. The New Cordova property is showing up very well, the shaft having gone through seventy-five feet of good ore. Arizona Commercial continues to develop and open ore on the fifth and sixth levels. Progress in building the smelter has been so satisfactory that it will probably begin operation on the date set, which is Aug. 1st. The completion of twelve months' production of the Greene Cananea Copper company, under the so-called Cole-Ryan regime, makes it possible to figure operating results for the year ended June 30th. During this period the company produced 11,897,000 pounds of copper, 357,570 ounces of silver, and 6,178 ounces of gold. The average price of electrolytic copper during these twelve months was 13.25 cents per pound. The cost of production, after gold and silver values are credited to the operating account, was probably 10.25 cents per pound. This would leave a profit of three cents per pound on the copper output, or \$1,250,000. Greene Cananea has 2,324,000 shares. The above net profits therefore are equal to but fifty-four cents per share on the outstanding capital.

Walsh street, at 6 o'clock, on Thursday, the 15th.

Rodger Locher and Albion Johnson, who have been visiting relatives in this city the past two weeks, left last night for Virginia, Minn.

Emanuel Pope was operated upon yesterday at the Ishpeming hospital. He has been ill and unable to work for nearly a month past.

Births recorded in the city yesterday were a daughter to Albert Lajany and wife of West Superior street, and a son to Mr. and Mrs. George Hill, South Pine street.

The Finnish band conducted a dance last evening at Cleveland Park. It is likely that the organization will give dances there at frequent intervals during the warm weather.

The pioneer residents of the city who are to celebrate some time this summer will meet tonight at 7:30 o'clock in the Scandinavian society's hall to decide on a date and to make final arrangements for the affair.

W. S. Nelson, postmaster at Gwin, was here yesterday making arrangements to have his home on Strawberry hill renovated while his family is on the Szanow range, where they will spend a couple of months.

Sam Hunt is the new member of Ishpeming's police force. He was chosen at the meeting of the common council last night to succeed Emil Laoret, resigned. He received eleven of the twenty votes. The other applicants for the place were William Nault and A. Marchelle.

While looking for his cow, on his farm near Cooper lake, Saturday, Martin Hartman came upon a large black bear. As he had his rifle handy he made short work of him. The bear was dressed yesterday at Henriksen's meat market and was sent to Chicago last evening.

J. H. Quinn, manager of the Vanderwater lead and zinc mine, advertises for miners and transporters to work at the property. Men going from here will be guaranteed steady employment. The mine is a desirable one to work in as the drift is less than thirty feet below surface.

STURGEON BAY BERRIES CHEAP.

Fancy Sturgeon Bay strawberries, while they last, at \$1.75. Last opportunity to get this fine stock at this price.

J. SELLWOOD & CO.

THIS EDITOR SENSITIVE.

He Objects to the Expression "Flying Cow."

"Louis Barton, of Farmington, Mich., is in a critical condition in consequence of injuries received from a cow which was flying through the air. A similar accident has probably never before occurred.

When we read the foregoing in the usually staid and reliable Utica Press we were moved to wonder at the marvelous development of the cow that rivalled the Wrights. Had almost any other editor told of it we should have thought him a candidate for the chair. To think this of the Utica Press was impossible, however, so we merely wondered how it came to pass that the aeronaut and the veterinary editors had overlooked such a cow.

But we marvel only for a moment, for as we read on we found that, after all, it was not a flying cow but a falling cow; a plain garden variety specimen of milk that had been struck by a locomotive, hurled skyward, and was obeying gravitation's call when the unfortunate Barton happened in the way. Thereupon we bottled our indignation at the veterinary and aeronautic editors for missing what seemed a valuable news item and proceeded with our reading.

It may be the hot weather makes us peevish, but we wish folk would be more careful.—New York Herald.

ISHPEMING IN BRIEF.

N. A. Ambray, of Iron River, was a business visitor here yesterday.

R. A. Williams, of Houghton, was in the city yesterday on business.

Miss Alice Dodge of Republic is visiting her sister, Mrs. D. T. Morgan.

Edward Hickey is painting his dwelling at the corner of Pearl and Lake streets.

H. K. Anderson, of Kenton, spent Tuesday and yesterday in this city on business.

Fritz West left yesterday for the copper country, where he will do diamond drill work.

Miss Nellie Girzi is home from Chicago, where she has been teaching school the past year.

A son was born yesterday to Evert Heinanen and wife, corner of Main and Division streets.

T. E. Nugent, who had spent the past few days here, left for his home in Milwaukee, yesterday.

Miss Ethel Williams has returned from the copper country, where she had spent the last ten days, visiting.

F. E. Fitzpatrick left yesterday for the copper country, where he will finish up his work as state factory inspector.

Invitations are out for the wedding dinner of John C. Lawry and Miss Ethel Goodman, to be given at her home, 614

SHALLOW CULTIVATION.

It has been repeatedly shown that shallow cultivation always gives the best results with both corn and cotton, but with all the work done by the experiment stations and the practice of our most successful planters, the old-fashioned bull-tongued and turning plow are still the only implements used in many fields. We read a great deal about the benefits of "deep plowing" and "thorough cultivation," but they are far from being the same thing. The deep plowing is the best plowing for all excepting very light soils, but should be done before planting, and the thorough cultivation should come later.

There are only two reasons for cultivating any crop—to keep the ground free from weeds and to keep the surface smooth, so that the water can evaporate—and if these objects can be accomplished by cultivating only an inch in depth it will be better for the crop than will any deeper working. Every root which is cut or broken by cultivation checks the growth of the plant and decreases its yield, so the fewer roots we injure the better will be our crop.

For the early cultivations, before the plants are above the ground and until corn is eight to ten inches high, there is no other implement so good as a light smoothing harrow, one with the teeth slanting backward like those of the old "harrow bar," with such an implement one man with two mules can go over eight to ten acres in a day, and do the work better than is possible by the use of any plow or cultivator. When the surface soil is loose and fine a weeder or stiff better, but will not do as good work when the surface is crusted by recent rains. We do not like to use the harrow on cotton more than two or three inches high, but on corn we have seen it when the plants were fully a foot high. If rainy weather follows the planting, as it often does, and the land becomes so foul that the smoothing harrow will not run it up, then something else must be used, and we prefer a five-toothed cultivator to the same implement we used for all the late cultivation in both corn and cotton.

We know it is the common practice to "ridge up" well at the last cultivation, as that is supposed to prevent the plants from being blown down by heavy winds. Probably it does prevent them to some extent, but the ridging can not be done without plowing so deep as to cut off many of the feeding roots, and the work is done just at the time when these roots are needed most for finishing off the crop, and so does more harm than good. We want our ground free from weeds, and we want the surface covered with about an inch of loose soil, but we do not want to disturb the roots any more than is necessary to secure these two objects. Some years ago we examined the records of 110 tests of deep and shallow cultivation of corn, made at thirteen different stations, and found that sixty-one tests of deep cultivation gave an average yield of 64.9 bushels per acre, while fifty-five tests of shallow cultivation gave an average of 74.7 bushels per acre, a difference of 9.8 bushels per acre, or more than 15 per cent in favor of the shallow work. In a bulletin on cotton cultivation, Dr. Redding, formerly of the Georgia station, says cultivation should be frequent and shallow. "Once a week and once in a row," with a wide extended cultivator that will reach almost from row to row, would be a good rule. One inch, or just deep enough to do good work, is sufficient. Run one time on the north side, or east side of every row this week, on the south, or west side, next week, and so on, alternating until the cotton limbs "hide the ground," making six to eight furrows to the row.

For corn, he says, plowing should be at intervals not greater than ten days, using a shallow, wide-spread cultivator. One inch is deep enough, as a rule.—Memphis Commercial-Appal.

ITCH STOPPED—SKIN COOLED.

Itching skin diseases afflict some people as soon as the hot weather comes. There seems to be no preventive, but when the eruption does break out, it is a very simple matter to stop that itch, and to stop it instantly.

Just a few drops of Oil of Wintergreen, properly compounded, washed over the skin instantly, giving that cooling and refreshing sensation.

Try a few drops of the D. D. D. Compound and your itch will be relieved at once, not in half an hour, or ten minutes, but in five seconds. Call at our store and we will tell you more about this D. D. D. Compound.

The Stafford Drug Co., Marquette, Mich., City Drug Store, Ishpeming, Mich.

TORTURED ON A HORSE.

"For ten years I couldn't ride a horse without being in torture from piles," writes L. S. Napier, of Rangley, Ky. "When all doctors and other remedies failed, Bucklen's Arnica Salve cured me." Infallible for Piles, Burns, Scalds, Cuts, Bolls, Fever Sores, Eczema, Salt Rheum, Corns, etc. Guaranteed by The Stafford Drug Co.

Upper Peninsula

His Resignation Not Accepted

Rev. Mr. Antonson of the Swedish Baptist church at Marquette, tendered his resignation at a congregational meeting held Monday evening, and the same was unanimously not accepted by the members. He has done such good work that his congregation absolutely refused to sever the pastoral relations.

Landed a Big Trout

What is claimed at the Soo to be the largest speckled trout ever caught in American waters was landed in the St. Mary's rapids by V. L. Tissera, the head of a Chicago tea house. Mr. Tissera has visited the Soo for many seasons and is an ardent disciple of Isak Walton. He has made a number of fine catches in the rapids, but when he landed a speckled beauty weighing six and one-half pounds he broke all records.

More Water Granted

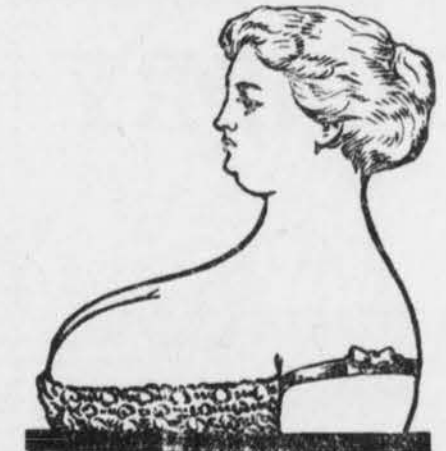

The general superintendent of the United States ship canal at the Soo has informed Superintendent Dawson of the Michigan Lake Superior Power company that permission was granted for an increase of 25 per cent in the water flow through the power canal, owing to the records of lake levels for the month. This will give the company 75 per cent of the water used last year, or about 8,200 horse power, enabling it as well as Carbide company to run at nearly their full capacity. Another few weeks should see the entire development utilized.

Took Him for a Deaf Mute

A fellow that evidently was unacquainted with Editor Patrick O'Brien of the Iron River Reporter took him for a deaf mute, and showed a lot of cabalistic signs at him that Pat quite naturally mistook for the Hieroglyphic sign of distress. Mutual friends got busy just when Pat was unearthing his fat editorial woezel skin in response to the sign, and he saved his money. Pat's editorial friends can vouch for the truth of the assertion that he is neither deaf or dumb, and can talk as rapidly as Chase S. Osborn, if the occasion demands it.

Fickerman's Case Excites Sympathy

A case involving some complications and which brought out considerable sympathy for the defendant came up for trial in Justice Bean's court at Menominee was that of the state vs. Frank Grabowsky, who was charged with filing with a gasoline boat, without taking out the necessary license. It appears that Grabowsky had filed his application for a license with the necessary money for the same, but through a misunderstanding, the license was not made out. Grabowsky stated in court that he was unable to pay a fine, and preferred to go to the county jail to serve a sentence. His wholesaler was called upon, however, and volunteered to

Take Off the Fat Where It Shows

Most women suffer much humiliation because of great quantities of fat so located that, no matter how they dress, everybody sees that they are abnormal. This is the day of the slender figure, and fat women are simply not tolerated either in business or social affairs. Women may not know it, but men when they see a fat woman pass them on the street make all manner of sympathetic remarks about her. They do not mean to be unkind or to seem unmanly, but it is natural for a man to dislike out on a woman. Where fat shows the most there is where it must be removed, and as unobtrusively as possible. The hot weather dresses seem to be made for the fat woman's misery and the slender woman's delight. They expose all the charms of woman and her ugliness as well. Exercise and diet will not remove fat. This has been proved. The famous Marmola prescription which has met with such phenomenal success and has so many of our society women as its sponsors, is now being sold in tablet form to meet the demand of the public for this style of treatment. These little tablets go into your system just like food. They stop the stomach and digestive apparatus from absorbing it and reduce the fat upon the body at the rate of from 12 to 15 ounces a day. They are harmless and can be carried in your purse and taken even after you have indulged in a hearty meal away from home. They are sold at all drug stores at 75 cents a case, or if you prefer you may write the Marmola company, Dept. 479, Detroit, Mich.

Negaunee Department

ANNUAL SCHOOL ELECTION MONDAY

TWO TRUSTEES WILL BE ELECTED, EACH FOR A TERM OF THREE YEARS—DR. J. H. ANDRUS AND NICHOLAS LAUGHLIN ARE THE CANDIDATES IN THE FIELD.

Secretary Houde, of the board of education, has given notice that the annual meeting of school district No. 1, for the election of two trustees and for the transaction of other business, will be held next Monday afternoon at the city building. The polls will be open at 4 o'clock and will close at 8. This will give those employed at the mines during the day an opportunity to vote. On the conclusion of the election the annual report of the secretary and treasurer will be presented and a vote will be taken on the appropriation of the \$30,000 desired by the board for the conduct of the schools during the ensuing year.

After paying the bills falling due within the thirty days, also interest on bonds falling due the first of September, there will be little left of the amount now in the treasury, the entire \$90,000, together with the \$6,000 to be received from the primary fund, also \$5,000 from the one mill tax, will be necessary to meet expenses. The board has been conservative in its estimates and the total, including teachers and industrial, including teachers and industrial, will be about equal to the amounts to be received. It is not thought that any votes will be cast against the appropriation the board asks for, as all realize that a smaller sum would be insufficient to carry on the schools. It is the same as that raised last year, when extra money was needed to aid in paying for the new building.

It is not expected that there will be any opposition to Dr. J. H. Andrus and Nicholas Laughlin, whose terms as trustees expire and who are candidates for re-election for another three-year term. Both have devoted much time to the schools and the tax payers do not seem to desire a change. The members of the board would like to have a large vote cast.

REPORT ON PULP WOOD.

Census Bureau Finds That Imports Have Increased 93 Per Cent Since 1900.

That the growth of the pulp wood industry in the United States has been remarkable and that the use of pulp wood promises to become even larger, is brought out by a review of the pulp wood consumption of the last year. The review has just been issued by the United States census bureau. While owing to depressed business conditions there was a temporary check in the production of pulp wood in the United States during 1908, there was a greater demand for it than in the previous year. The domestic pulp, due to the fact that the output of the manufacturing plants of this country had been greatly curtailed.

The bureau reports that 64 per cent of all the wood used for pulp is spruce, with hemlock, poplar, aspen, balsam and cottonwood making up the remainder of the production. With the increased price of spruce, hemlock is being resorted to by the manufacturers as the chief substitute.

Pulp wood imports, which have increased in quantity and cost since 1900, all come from Canada, duty free. Nearly 61 per cent of the wood pulp imported also comes from Canada, the remainder mainly from Germany, Sweden and Norway. The United States exported in 1908, 11,225 tons of wood pulp, about one-fifth of the amount imported.

FAMOUS BAND COMING.

Prominent Finnish citizens of this city and Ishpeming expect to induce the famous Red Lodge Military band of Montana to give a concert in this city about the 19th or 20th. The band is to fill an engagement at Ishpeming theater the 17th, and the Negaunee men are endeavoring to secure it for a date here. The concert will be given by the band covering five states in its summer tour. It is said to be the strongest musical organization of the Rocky Mountain states and comprises thirty-two members. George E. Wahlstrom is musical director.

ENJOYING AN OUTING.

Two Negaunee parties left yesterday for the woods, where they will spend the remainder of the week, camping and fishing. One party left for Sault Ste. Marie and the other for Lake Independence. The party camping south of Palmer is made up of Leonard Field, Misses Ida Field, Elma Williamson, Lämpi Lahti and Miss Honkayara, the latter of Palmer. The party going to Lake Independence was composed of John T. Moller, Matt Lahti, Gus Makkala, Anton Antio, Charles Siiki and Henry Kattila.

NEW MAN FOR BAND.

Mrs. George Hawke and son William are expected to arrive here next week from Milan, Eng., and will remain permanently. William Hawke is a brother of Ernest Hawke, solo cornetist in the Negaunee band. He also is said to be a clever soloist and it is understood that he will take a place on the band as soon as he arrives. He has played with a number of the best bands in the North of England.

BULLET THROUGH WINDOW.

Mrs. Philip Abbott and members of her family, residing on Merry street, were given a scare Sunday evening when a bullet crashed through one of the bedroom windows on the second floor of her home. It was a ball from a thirty-eight caliber rifle. In its flight it knocked out an exterior window.

HERE IS RELIEF FOR WOMEN

If you have pains in the back, Urinary, Bladder or Kidney trouble, and want a certain, pleasant and reliable remedy, try Mother Gray's 'AUSTRALIAN-LEAF.' It is a safe, reliable regulator, and relieves all Female Weakness, including Catarrh, Irritation and Ulcerations. Mother Gray's Australian-Leaf is sold by Druggists or sent by mail for 25 cents a sample and FREE. The Mother Gray Co., Le Roy, N. Y.

INTEREST IN "GUINEA PIG."

English Game Is Now Becoming Popular in Negaunee.

There were two interesting contests of "guinea pig" at the Jackson location Monday, between teams composed of Negaunee Englishmen. The first was between teams made up of Cherry and Iron street men, the former winning by a score of 527 to 501. The Cherry street men finished in four rounds, an unusual good record. In the second contest the Cherry and Merry street teams were opponents, the former winning by a score of 500 to 400.

The game, which is understood by all natives of England, and is played in Cornwall under the name of "cat and dog" requires much skill, though it is not as strenuous as cricket or baseball, as the players have no running to do. The contests were witnessed by a large number of spectators. In the game between the Cherry and Iron street teams the score was tied three times.

The contests were refereed by Bob Watson, an old player, but who will be obliged to remain out of the game for a time, on account of an injury to his hand. His decisions were satisfactory. A singular fact in connection with the Cherry and Iron street teams is that each is composed of two sets of brothers. The Cherry street team is made up of William Farrar, captain; J. T. Dixon, Tom Farrar and Mart Dixon. The Iron street team is composed of Chery Dixon, captain; Mark Milken, N. Dixon and Arthur Milken. The Dixon brothers playing on the Iron street team are not related to the Dixon brothers on the Cherry street team.

The Merry street team was composed of T. Abbott, Jr., N. Sharp, T. Abbott, Sr., and N. Sharp played by Ted Mallett, who was unable to be present. Mr. Harro was obliged to leave and W. Swanaway took his place before the game was completed. Messrs. T. Abbott Jr., and N. Sharp were in excellent form. Mr. Sharp went right from his first hit with twenty points, an unusual score. T. Abbott, Sr., who is an expert at the game, also gave a fine account of himself.

LOCAL LACONICS.

A son was born yesterday morning to Mr. and Mrs. Dave Scanlon.

Andrew Lindquist spent Tuesday and yesterday in Chicago on a business mission.

The Finnish band of Ishpeming will conduct a dance tonight at Cleveland park.

Ort Schmitz and daughter, Miss Louise, left Tuesday on a visit to lower peninsula points.

Mrs. John Finnegan is here from the Gogebic range on a visit to Captain and Mrs. James F. Foley.

A class of eleven boys and seventeen girls received first holy communion last Sunday at St. Paul's church.

Mrs. Philip Abbott and son Laurel will leave in a few days on a visit to California, where they will spend several weeks.

Mrs. Oscar Field and Jacob Salo went to Maple Ridge yesterday on a visit to friends. They expect to return Saturday.

F. M. Curran left Tuesday evening for New York, where he will attend a meeting of musical instructors. He will be absent three weeks.

The members of the Finnish Accident & Insurance society of this city will conduct a picnic next Sunday at the grove near the cemetery.

The Breitung estate has moved its diamond drill from the north side of the county road to the south side of the road, near the Breitung Hematite shaft.

Captain William Jory and Gust Fredrick came up from the Swanaw range Tuesday to attend a meeting of the Negaunee lodge of the Masonic fraternity that evening.

A party of Negaunee men, all natives of the North of England, will leave about the first of next month for their old homes, where they will visit until November, returning to this city.

In the account of the ball game between Munising and Negaunee, played at Ishpeming last Monday, it was stated that Frost pitched for Munising. The pitchers for Munising were Van, Dien, Nelson and Baker. Mr. Frost was not at the game.

Carl Winamaki, who is here from the copper country, visiting John Alpin, recently shot a mother bear and captured her two cubs near his home at the Mowhawk location. After he had killed the old bear the cubs climbed a tree and he was obliged to go up after them. They fought desperately. Mr. Winamaki has the cubs at his home.

SUDDEN RICHES AND DIVORCE.

One serious difficulty with sudden riches is that they are apt to cause trouble between husband and wife. If the money is his he wants to improve his condition generally, and that often means that he'd like to see his wife improved, together with all of his other possessions. Many of these quick-made millionaires are content to let the improvement take the form of a few yards of diamonds and pearls, a room full of French lilies, a footman, new furniture and a big assignment of well-recommended books and pictures. But there are other husbands who are disappointed enough to see that all these things do not really improve their wives, that they simply give them another setting and often one in which they do not appear to even as much advantage as in the simpler and less expensive setting. Such a gentleman of intellect and honor sees that what he really needs is a brand new wife to go with his brand-new wealth and the lovely new foreign-made motor car. And when a man of wealth knows what he wants he usually gets it. He does not wait for the convenient divorces court is brought into service, and for a ridiculously small outlay the ambitious husband has his brand-new wife taken off his hands. A man is not altogether agreeable, but a man who has made money then he has spent will put up with it. The new wife is the least difficult part of a very rich man's scheme of reaching the higher level to which he has been called. — Providence Bulletin.

NEWBERRY'S PLANS UPSET.

Old Regime Restored at Navy Yards—The Day of the 'Reformers' Past.

Washington, July 7.—The Newberry reforms, especially in their application to navy yards, are rapidly going by the board, Secretary Meyer has re-established the independence of the bureau of steam engineering and all signs indicate that he is about to cut the cords which now bind the bureau of yards and docks to the bureau of construction and make civil engineering subordinate to the constructors. It seems that the only feature of the much talked about Newberry reforms that is to be retained by the present administration is that affecting the consolidation of working plants. Although Secretary Meyer has made no announcement of his intention, it is pretty well understood by the department that he proposes to restore the old order of things, at least so far as re-establishing the identity and independence of the various bureaus. He is advised by a confidential board, the operations of which are somewhat mysterious and have given rise to great apprehension among the staff departments, which were in the ascendant under the Newberry administration.

Under orders by Secretary Meyer the increased powers conferred upon the constructors by Mr. Newberry have been materially reduced. Secretary Meyer was made practically superintendent of the yard by Mr. Newberry. Line officers serving as engineers, as ordinance experts and in other capacities were placed under the jurisdiction of the constructor and were to serve merely as inspectors. Civil engineers were placed in the same relative position. Secretary Meyer has changed this so that officers of the steam engineering bureau will have direct charge of the work under this bureau. The constructor or yard superintendent will furnish the number of men required by the engineer officer, and beyond that will have no say in the matter. This amounts practically to restoring the old order of things, so far as they relate to the bureau of steam engineering.

According to a rumor about the navy department, the bureau of yards and docks and the bureau of construction are to be consolidated in the same way. If Mr. Newberry had remained at the head of the navy there was little doubt that the corps of civil engineers would have been abolished. This corps was in great disfavor with the former secretary of the navy, for some unexplained reason. He openly declared on more than one occasion that civil engineers were a superfluous feature in the navy and could be dispensed with without the slightest inconvenience to the service. Mr. Newberry gave to the constructors all the active functions of the civil engineers and provided for the latter the active duty of "inspection." It turned out that the inspection was to be made after work, formerly superintended by civil engineers, had been completed under the direction of the constructors. In other words, the engineers were to sit about doing nothing until called upon by the constructors to make a perfunctory inspection of completed work. All signs indicate that Secretary Meyer will gradually put the bureau of yards and docks and the civil engineers back on their old footing. It is known that the confidential board which is advising him has had this matter under consideration. The secretary seems to place much confidence in the recommendation of this board and everybody at the department knows that its members are heartily in favor of destroying every one of the Newberry reforms, save perhaps the one which brought about a consolidation of power plants.

LICK'S FIRST LOVE AFFAIR.

There are many stories of the lighter side of finance in which love affairs figure as a phase. Perhaps the most peculiar one that the story of James Lick, a millionaire famous all over the world through a monument to his memory, the great Lick Observatory in California. In the financial world the great city of San Francisco is mentioned as Lick's home. He foresaw the possibility of the city of the Pacific slope, bought the land on which it now stands, and became a millionaire. Before that time the name of Lick was great in the musical world. Lick's piano—out of which he made the money which he invested in land—was manufactured by him. But on the poetic side of life—a world apart from such things as piano-making and mud-fats, the great Lick Mill stands as a monument to Lick's love.

In early life James Lick sought the hand of a miller's daughter, but was repelled by the father on the ground that the young suitor did not possess a mill. Many years afterwards, when he had become one of the richest men in the states, he erected a large mill and adorned it like a palace. It was built of mahogany and costly woods, and covered solely as a memorial of his youthful attachment. His only pleasure was to contemplate this palatial mill and to gloat over the man who had spurned him for his poverty.—Harry Furness in the Strand.

THE BATTLE OF THE FUTURE.

The face of the commander grew dark. The faces of the staff reflected their leader's anxiety. "I'm waiting for the correspondent of the great daily came a little closer. An aid rushed up and vaunting in force on our left wing!" "General," he cried, "the enemy is advancing toward the rear."

"What in Sam Hill is detaining him?" he growled.

"Are you waiting for reinforcements?" "Reinforcements?" thundered the general. "Certainly not. I'm waiting for the moving picture man, confound him!"

At that moment the rimbout bearing the picture machine whirled into position, and the battle commenced.—Cleveland Plain Dealer.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hal's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hal's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

HOW LAND BECAME PROPERTY OF CITY

STRIP ADJOINING LIGHTHOUSE RESERVE PURCHASED BY PETER WHITE FROM GOVERNMENT.

FOR RAILROAD RIGHT-OF-WAY

Why It Is That Doubt Exists as to Whether or Not Purchase Has Ever Been Paid For.

The bill for \$500 recently presented to the common council by the executors of the estate of the late Peter White, claimed to be due the estate for a strip of land eighty feet wide, adjoining the lighthouse reserve on the west, brings to mind some interesting history.

At the time the purchase was made, most of the negotiations were conducted through a broker, which makes it possible that the \$500 may have once been paid.

The land was obtained from the government shortly before the Cleveland-Cliffs railroad track was built through the north part of the city. The purchase was effected by Peter White himself, who went to Washington and accomplished his purpose, only after persistent effort.

The purchase price, \$500, was paid by Mr. White out of his own pocket, in order that the deed might be closed at once, but it is supposed that it was tacitly understood that he would be reimbursed by the city.

Bondsman Were Reimbursed.

In order to reimburse the citizens who purchased the right-of-way for the Cleveland-Cliffs people, several peculiar real estate transactions were consummated. What is now Lakeside park was then a comparatively worthless and unsightly piece of ground owned by the Ward estate. The idea of making a public park was conceived and the tract was sold to F. J. Jenkinson by the Ward for \$500.

GOOD RACING EXPECTED.

Many Horses from Copper Country Stables Will Be at County Fair.

That at least twenty-five trotting horses, owned in the copper country, will race at the Marquette county fair this fall is the prediction made by a fair director who attended the trotting meet at Laurium last Monday, which has been declared to have been the most classy ever held in the upper peninsula.

STRAWBERRIES FOR CANNING.

One have contracted for the season's crop of Au Train strawberries, grown on clay land. No sand or dirt to annoy you, \$1.90 per crate while they last.

GYMNASIUM WORK RESUMED.

Classes Are Being Directed by Gordon B. Heughens.

OHIO ST. RESIDENTS WANT STREET PAVED

BUT SOME PROPERTY OWNERS DESIRE ONLY A SHORT DISTANCE IMPROVED, WHILE OTHERS WOULD HAVE HILL CUT THROUGH.

One matter of some importance that, for some reason or other, was not taken up at the council meeting Tuesday evening is the proposed East Ohio street improvement, a sealed bid for which was filed that they be allowed to macadamize and curb Ohio street from Spruce street 400 feet east, or to the point where the street now ends on the brow of the bluff.

The sparring over this improvement has aroused considerable feeling on the part of several property owners who are directly concerned, who think that they are not being treated squarely by Alderman Asire. The matter was first brought to the attention of the council by a request of property owners living between Spruce and Cedar streets, asking that they be allowed to macadamize and curb Ohio street from Spruce street 400 feet east, or to the point where the street now ends on the brow of the bluff.

THEATRICAL.

Hellstrom-Oscar Concert.

Those who did not attend the concert given by Mme. Annet Hellstrom-Oscar and Herr Martin Oscar at the opera house last evening missed what was declared by musicians to have been the most artistic classic musical entertainment ever given in this city.

ORDER.

Whereas, The assessment roll for the City of Marquette, County of Marquette and State of Michigan, for the year 1909, has heretofore been made by the controller of said city, and reviewed by the regularly constituted Board of Review of said city, and

300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 7.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: August, Wolm, Keefe 10:30 p. m.; B. Lynn Smith, la. m.; Brown, St. Paul, White, Wisconsin; Westmont, Hamilton, 7:30; Canadian, Holden, 8:30; Keewatin, 12:30 p. m.

ART NEEDLE WORK.

Doyle-Anderson of Chicago have opened a display of their work in the Marquette Millinery company's store and the ladies are invited to call. A specialty is made this year of the lingerie waists in colors. Instructions given. Stamping done. (6-28-11)

LAUNCH FOR PLEASURE PARTIES.

My gasoline launch Grace, is kept at Presque Isle. Parties wishing to take lake rides can secure it by telephoning Bell 1902-J. (7-1-11) SAM GAUTHIER.

SPECIAL SALE AT THE BEE HIVE.

We are offering one-third off on all suits, one-half off on hats and a reasonable reduction on all white shirt waists. THE BEE HIVE, L. G. St. P. Co., 220-222 South Front Street, Marquette. (6-19-11)

GO TO DUQUETTE'S

1000 North Third street, for staple and fancy groceries, candies, fruit, sweet cream, milk and ice cream. Everything the best, and Fresh Remember Duquette's when you want things good. (6-17-11)

ACCURATE KNOWLEDGE MAY BE OBTAINED

SON OF B. W. WRIGHT SELLING MAP AND FURNISHING DATA REGARDING GOVERNMENT LAND LOTTERY.

Persons interested in the drawing of government lands in the Coeur d'Alene and Flathead reservations, which will take place Aug. 9, will be glad to know that H. B. Wright, a son of B. W. Wright, deputy county treasurer of this city, is prepared to furnish a map of the lands to be given away and any information regarding them. Mr. Wright is county surveyor of Kootenai county, Idaho, and city engineer of the city of Coeur d'Alene, and so is thoroughly acquainted with the land on the two reservations.

He is the president of a company, known as the Wright company, which has offices at Coeur d'Alene and at Spokane, the object of which is to furnish information regarding the lands to be given away by the government. The Coeur d'Alene office is equipped with every facility to handle promptly and accurately any and all questions, and to supply information in regard to locating persons on the reservations. The Spokane office is equipped to handle questions in regard to the drawing, general information and maps. It is said that the government office is swamped with letters, and that it is impossible to handle the volume of business that has developed.

The maps placed on the market by the Wright company are said to be reliable and accurate, and have been obtained from the best records obtainable. They show every known road, trail, creek, stream, river, railroad, proposed railroad, timber lands, agricultural lands and townships; also, all government reserves for power, reservoir sites, townships, agencies and the acreage of all fractional lots, according to official government plats. Large blue print wall maps are sold at \$2.50 and pocket maps for fifty cents.

Remarkable interest in the coming land lottery has been aroused everywhere, as the lands are believed to be of great value. Indications are that many thousands of people will register for the drawings and that an immense crowd will be present on the day the allotment is made.

THEATRICAL.

Hellstrom-Oscar Concert.

Those who did not attend the concert given by Mme. Annet Hellstrom-Oscar and Herr Martin Oscar at the opera house last evening missed what was declared by musicians to have been the most artistic classic musical entertainment ever given in this city.

INDEPENDENCE DAY

We all look forward with particular delight and no little pride to the celebration of the Fourth of July, the Anniversary of our Nation's Independence. Did you ever stop to think what is the safest and Surest Way to Financial Independence?

It comes by forming the saving habit and making regular deposits in the Bank. You are cordially invited to open an account with the First National Bank of Marquette.

3 per cent interest paid on savings accounts and time certificates.

THE FIRST NATIONAL BANK

MARQUETTE, MICH.

UNITED STATES DEPOSITORY

CAPITAL, SURPLUS AND PROFITS - - - - - \$250,000.00

Send for our Booklet, MODERN BANKING, which fully explains how our system of Banking by Mail is made both safe and convenient.

Marquette County Savings Bank

SAVINGS BANK BUILDING, MARQUETTE.

During the summer everyone travels more or less if they can. For the benefit of the traveling public we have compiled a condensed time table, just the right size for the vest pocket and giving the leaving time of all trains and boats from Marquette. Please call or ask your ticket agent for one. Travelers in this country or Europe will find our Travelers Checks and Letters of Credit a great convenience and safety and the additional cost is comparatively nothing.

Special attention to BANKING BY MAIL. Send a postal for booklet.

COOK AND HEAT WATER WITH GAS

RANGES \$15 and \$17.00
WATER HEATERS, \$12

Hot Bath in 20 minutes. Cost only 2c for Gas.
Connections FREE. Easy payments.

Marquette Gas Light Co.

Catalogue and special circular mailed FREE on application.

WILLIAM HARPER, Dean. 6-15-11

WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments

COST NO MORE THAN PLAIN ONES IN WHITE BRONZE

Marble is out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronzes for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronzes.

Charlton & Kuenzil, Architects
