

BIG SHIP SINKS IN LAKE SUPERIOR

Taking With Her Fourteen Members of Her Crew, the Ore Carrier John B. Cowle Goes to the Bottom Off Whitefish Point.

Crashed Into by the Steamer Isaac M. Scott, Upbound on Her Maiden Trip, the Ill-Fated Craft Founders Within Three Minutes, While the Scott, Badly Damaged, Narrowly Escapes a Similar Fate—A Heavy Fog Responsible for the Collision.

Sault Ste. Marie, Mich., July 12.—Three minutes after the steel steamer Isaac M. Scott and John B. Cowle had collided in Lake Superior early this morning, a mile and a half off the Whitefish Point lighthouse, the Cowle had gone to the bottom in fifty fathoms of water, carrying with her fourteen members of her crew. The Scott, badly damaged about the bows, put back to this port, where she arrived this afternoon with part of the Cowle's crew. A heavy fog was responsible for the collision.

The Scott was on her maiden trip to the head of the lakes. She had just passed the light at Whitefish Point and had straightened out on her course up the lake when the Cowle loomed up through the fog, broadside on and only a few feet away. The Cowle was down-bound with 8,000 tons of iron ore in her hold. The ships were so close that it was impossible to avoid a collision, and the Scott crashed into the side of the Cowle. For fifteen feet the bow of the Scott penetrated the side of the Cowle. Tons of water rushed in, and within three minutes the Cowle had settled to the bottom of Lake Superior.

RICHARD J. BOWDEN ARRESTED IN CHICAGO

Accused of the Embezzlement of \$1,968 of Uncle Sam's Funds Nearly Three Years Ago, Bessemer's Former Postmaster Is Taken Into Custody.

Chicago, July 12.—Richard J. Bowden, formerly postmaster at Bessemer, Mich., was arrested here today on the charge of embezzling \$1,968 of postoffice funds nearly three years ago. He has been employed as a bookkeeper in the offices of the International Harvester company and living here under the name of James Roberts. He declared his willingness to return to Michigan and stand trial.

MAKES SUCCESSFUL FLIGHT

Orville Wright Encircles the Fort Myer Grounds More Than Six Times.

Washington, July 12.—Orville Wright late today made a successful flight of six minutes and forty seconds in his aeroplane at Fort Myer. He encircled the drill grounds more than six times in a stiff wind and landed successfully. The attempt started at 7:07 o'clock, rising gradually and easily from the ground. Six times the machine encircled the parade ground, and then the aviator concluded not to prolong the trial because the motor of the machine, which had just been repaired, was not working perfectly. Each time the aeroplane circled past the starting point, the spectators cheered. The Wrights estimated the speed at forty miles an hour.

GLIDDEN TOUR IS STARTED

Thirty-One Automobiles Leave Detroit on a 2,636-Mile Journey.

Detroit, July 12.—With the pilot car filled with confetti to mark cross roads and misleading points, the pathfinder for the sixth annual reliability run of the American Automobile association—the Glidden tour—rolled away from the Hotel Pontchartrain at 7:30 o'clock this morning. At 10 o'clock the first of the thirty competing automobiles started to follow the pathfinder on a 2,636-mile journey which is to take them through Chicago, Minneapolis and Denver to Kansas City.

MATCH IS DECLARED OFF

Langford and Ketchel Not to Try Contests at Ely, Nevada.

New York, July 12.—The match between Sam Langford and Stanley Ketchel, scheduled to take place at Ely, Nev., has been declared off by the negro's manager.

MORO OUTLAWS FOUGHT FIERCELY

Pitched Combat in Which the Famous Chief Jikiri and His Band Were Exterminated Was a Most Desperate Encounter.

Advices Reaching Manila Show That, Hunted from Place to Place and Finally Taking Refuge in a Cave in the Crater of an Extinct Volcano, the Bandits, Declining to Surrender, Battled With Fanatical Bravery Until All of Them Were Dead.

Manila, Tuesday, July 13.—While detailed accounts of the last fight of Jikiri, the famous Moro outlaw chieftain, who was killed and his band exterminated in a pitched battle near Patian, island of Jolo, June 5, have not been received, several brief dispatches, and letters from American officers who fought against the outlaw give a fairly complete story of the fight.

Hunted from place to place by regulars and constabulary, who had been in pursuit for days, Jikiri with seven followers and two women and one child took refuge in a cave in the crater of an extinct volcano. Here the outlaws gathered to make their last stand. As the soldiers came up, the scouts located the party and the troops worked their way around the place until it was entirely surrounded and there was no chance of escape.

Captain Bryan, of the Sixth cavalry, who commanded the attacking force, then ordered a white flag displayed, and through his interpreter called upon Jikiri to surrender. The outlaw refused, and he declined also to accept safe conduct for the women of his party, who remained with the band and bore their share of the fighting. Captain Bryan ordered up the guns, and a terrific shell fire was opened on the cave.

Storming parties worked their way up the steep slope and endeavored to rush the entrance to the cave. The fighting for a few minutes was desperate, but the outlaws drove their assailants back by a savage spear charge. The soldiers then poured a terrific rifle fire into the mouth of the cave. Jikiri himself singled out Lieutenant Wilson, of the Sixth cavalry, who commanded one section of the attacking party.

THINKS WAR IS IMMINENT

Chile Takes Pessimistic View of the Peru-Bolivian Controversy.

Valparaiso, Chile, July 12.—It is believed here that war between Peru and Bolivia is imminent, because of the disorders at Lapaz, following the decision handed down by Argentina in the boundary dispute between the countries.

SATISFACTION DEMANDED BY ARGENTINA

Buenos Ayres, July 12.—The council of ministers, at a conference today, decided to telegraph the Argentine minister at Lapaz, Senor Fonseca, to withdraw from that country in case he is not able to obtain immediate and complete satisfaction with reference to the hostile manifestations against the Argentine republic.

HOPEFUL VIEW IS TAKEN AT LIMA

Lima, Peru, July 12.—No fear is felt here that war will ensue between Peru and Bolivia on account of the hostile demonstrations at Lapaz since the decision of President Alcora of Argentina on the boundary limits of the two countries. Peru is satisfied with the award, and the attitude of Bolivia, which has protested against the decision of the arbitrator, is unfavorably commented upon.

President Leguia addressed a large gathering of people today, requesting them to remain calm and to exercise prudence in the present trying circumstances. He asked them to have confidence in the government, which has taken all necessary steps to maintain the honor and dignity of Peru.

REVOLUTION SHORT-LIVED

Colombians at Peace Again, According to Advices Reaching Washington.

Washington, July 12.—The revolution in Colombia is at an end, according to a message received late today by the Colombian charge d'affaires, Senor Guzman. The message came from the cable agent of the Colombian government at Barranquilla. The end came without any conflict. The revolutionists' army surrendered and the legal authority of the government was re-established, said the message. All the country was declared to be at peace.

RUSSIAN SOCIALISTS CONVICTED

Warsaw, July 12.—A court-martial today sentenced six socialists to be hanged and fourteen to exile in Siberia for terrorist activities.

STORY OF MASSACRE A HOAX

El Paso, Tex., July 12.—The report of the wholesale murder yesterday of a party of horsemen near Altam, N. M., by Indians or Mexicans, proves to be a hoax.

THE WEATHER

Washington, July 12.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday and Wednesday; moderate west winds.

WILL TESTIFY FOR HUSBAND

Evelyn Nesbitt Thaw Postpones Her Vacation Trip to Maine.

New York, July 12.—Evelyn Nesbitt Thaw is expected to be a witness for her husband, Harry K. Thaw, at the inquiry into his present mental condition, which was resumed before Justice Mills in the supreme court at White Plains today. Although she had intended starting on a vacation trip to Maine today, she informed Mr. Thaw's attorneys that she would gladly postpone her trip and testify for her husband.

BASEBALL

STANDINGS OF THE TEAMS.

Table with columns for National League and American League, listing teams and their records.

BLOODY FIGHTING LOOKED FOR

Efforts to Reach a Friendly Settlement in Persia Are Futile.

Teheran, July 12.—Further efforts by the Persian foreign minister, on behalf of the government, to reach a friendly settlement with the nationalists have failed, and serious fighting is now looked for. The British and Russian legations have informed Sipahdar, leader of the nationalists, that they would support any reasonable demands, and they have received a reply stating that the nationalists would remain strictly on the defensive until evening, to give the government the opportunity of sending envoys to open negotiations. The government failed to send envoys, and it is believed the nationalists are preparing for an advance on Teheran.

SCHEDULE FOR TODAY

Table listing baseball games for today, including National League and American League matchups.

YESTERDAY'S GAMES

Table listing results of baseball games from yesterday.

LEON LING IN BUDAPEST?

Vienna Report Is Doubtful by Authorities of Hungarian City.

Vienna, July 12.—A telegram today from Budapest declares that Leon Ling, the Chinaman supposed to have murdered Elsie Sigel in New York, is in that city.

HOPES TO BAG HIPPOPOTAMI

Col. Roosevelt Shifts His Camp to the Shore of Lake Naivasha.

Naivasha, British East Africa, July 12.—The Roosevelt expedition, which has been hunting the hippopotami in the Sotik district, arrived this morning at the farm of Captain Richard Attenborough, on the south shore of Lake Naivasha. Mr. Roosevelt and his son Kermit will remain at Attenborough's until long enough to bag three hippopotami, a bull, a cow and a calf, a specimen of a rare species of antelope and a baboon.

CASTRO ISSUES A MANIFESTO

Asks Only That He Be Permitted to Die in His Native Soil.

Santander, Spain, July 12.—In a manifesto which former President Castro recently addressed to Venezuela and in which he justified his position from standpoints, Castro renounces his right to the presidency and asks only for a piece of ground so that he may die on his native soil.

MINE IS TOMB OF MANY

Explosion of Fire Damp Wreaks a Colliery in Spain.

Paris, July 12.—A despatch from Lisbon reports a serious explosion of fire damp in a coal mine at Belmez, Spain. Several hundred miners are said to be entombed.

CHOOSE PRISON TERMS

Suffragettes at London Refuse to Pay Fines Assessed Against Them.

London, July 12.—Fifteen suffragettes involved in the raid on the home of Commons June 29 went to prison for a month today, rather than pay the fines inflicted.

RUSSIAN SOCIALISTS CONVICTED

Warsaw, July 12.—A court-martial today sentenced six socialists to be hanged and fourteen to exile in Siberia for terrorist activities.

STORY OF MASSACRE A HOAX

El Paso, Tex., July 12.—The report of the wholesale murder yesterday of a party of horsemen near Altam, N. M., by Indians or Mexicans, proves to be a hoax.

SENSATIONAL MURDER AT CRESCENT CITY, ILL.

Expostulating Because of the Attention Paid to His Wife by Dr. W. R. Miller, J. B. Saylor, a Prominent Banker, Is Shot and Killed by the Physician.

Kankakee, Ill., July 12.—J. B. Saylor, vice president of the First National bank of Crescent City, Ill., was shot dead Sunday night by Dr. W. R. Miller. Saylor went home and, it is said, found Dr. Miller there with Mrs. Saylor, wife of the man slain. The fact of the shooting was not made public until today.

Saylor attended a ball game Sunday afternoon. Returning home, he found Miller and Mrs. Saylor at the house. Miller proposed a card game, but Saylor became angry and referred to Miller's attentions to Mrs. Saylor, which he said had been too ardent for two years. Miller then drew an automatic revolver from his pocket and fired at Saylor, one bullet piercing the heart, one passing through the right lung, and two others taking effect in each arm. After the shooting Miller went home and went to bed, where he was arrested later by the sheriff and taken to jail.

THEIR CAR IS DERAILED

Two Officials of the Milwaukee Railroad Are Fatally Injured.

Sioux City, Ia., July 12.—Robert L. Knobel, superintendent of the Sioux City division of the Milwaukee road, and William Brand, division carpenter, were fatally injured today when the automobile in which they were riding was derailed near Dalton. Knobel's back was broken and he sustained internal injuries.

MAIL CLERK IS VICTIM OF COLLISION

Washington, Ind., July 12.—A south-bound freight train on the Evansville and Indianapolis railroad crashed head-on into a north-bound passenger train in this city this afternoon. J. H. Ashby, a mail clerk, was probably fatally injured in jumping from the mail car, and several passengers were injured, none seriously. Both locomotives were demolished and the track was torn up for about one hundred feet.

HURLS HERSELF TO DEATH

Miss Estella Dunn, Demented, Commits Suicide at Milwaukee.

Milwaukee, July 12.—Tearing herself from the grasp of her aged mother and a brother with whom she had been allowed to come into the city, Miss Estella May Dunn, aged thirty-two, hurled herself through an open window of the second story of the public museum this afternoon and met almost instant death on the sidewalk forty feet below. Miss Dunn was the daughter of S. M. Dunn, a wealthy jeweler of Bloomington, Ill., and since May 29 had been an inmate of the Milwaukee sanitarium in Wauwatosa. Following a severe nervous breakdown which occurred about March 1 in Bloomington, the mind of Miss Dunn became affected, it is stated, and she was brought to the local sanitarium.

ARRESTED, HE KILLS HIMSELF

Iowa Man Charged With Passing Worthless Checks Totalling \$25.

Des Moines, Ia., July 12.—J. L. Davis, arrested today on a farm near Knoxville, charged with passing two forged checks in Des Moines, committed suicide when granted a few minutes' absence in which to change clothes. Davis passed worthless checks to totalling \$25 two months ago and the officers traced him to the farm of Mrs. John McIntire, a sister, near Knoxville. When confronted with the charge Davis, it is said, admitted his guilt.

LANDLORD JAILED ON SUSPICION

Aged New York Couple Thought to Have Been Beaten to Death.

New York, July 12.—The coroner's autopsy today proved that Thomas Verity, aged ninety-three, and wife, eighty-four years old, whose bodies were found yesterday in the ashes of their house at Pateogue, L. I., where they lodged, were not smothered or burned to death, but died from consumption of the brain. They apparently were beaten to death in bed, while asleep. Peter Backalovich, the landlord, is held as a suspect.

TIED OF LIVING

Indiana Woman Administers Carbolic Acid to Her Babe and Herself.

Fort Wayne, Ind., July 12.—Mrs. Ralph Bump is dying and her infant child is dead from carbolic acid which she forced down the child's throat and swallowed herself early today at her home near Roanoke. The woman left a note to her husband, saying that she was tired of living.

COTTON MARKET BOOMS

Induced by Rain in Texas, Heavy Buying Sends Prices Skyward.

New York, July 12.—Cotton established a new record for the season today, October and December contracts selling at an advance of twenty-nine points. The rise followed heavy buying inspired by unfavorable weather in Texas.

FIVE MURDERERS PAROLED

Indiana Paroled, Acting upon the Recommendations of the State Board of Pardons.

Indianapolis, July 12.—Governor Marshall today, acting upon the recommendations of the state board of pardons, paroled five convicts who are serving time for murder. They are Andrew Koerner, Marion county, convicted of killing his wife; Vincent Glenn, Henry county, convicted of killing Frank Gilmer, former man of the American Tipton mills at Middletown, Ind.; Fred Ellis, accused of killing John F. Kraack, Brazil, Ind.; Lawrence Smith, Clay county, sentenced for manslaughter; Taylor Hughes, Washington county, convicted of killing a man whom he found at home with his wife.

LEVY ON EARNINGS WILL BE HALVED

Conference at the White House Reaches the Decision to Reduce the Tax on Corporations from 2 to 1 per Cent.

Washington, July 12.—At a conference at the White House today, it was definitely decided that the rate to be levied under the new corporation tax shall be reduced from 2 per cent to 1 per cent, and that in re-drafting the measure to meet various objections, that have been raised, due consideration shall be given to the demands of the mutual life companies, whose incomes would be seriously affected by the tax in its original form.

THE HOUSE HAVING PUT THE COMMODITY ON THE FREE LIST AND THE SENATE HAVING MADE IT DUTIABLE AT THE RATE OF TWENTY-FIVE CENTS A TON, IT IS THE GENERAL IMPRESSION THAT A COMPROMISE WILL BE AGREED UPON—GOOD PROGRESS IS MADE.

The president was the central figure in a number of conferences today, and he is living up to the prediction made many weeks ago that in the conference consideration of the tariff he would actively lend his influence to bring about a conciliation of the differences between the two houses. The president is in daily consultation with the tariff conferees. He told several callers today that he is hopeful that a satisfactory measure will be presented to him for his signature. The conferees' report should be available, according to the president's information, by the end of next week.

INCOME TAX NOW UP TO THE SEVERAL STATES

By the Decisive Vote of 317 to 14, the House Passes the Senate Resolution Referring the Question to the Various Legislatures.

Washington, July 12.—It is now up to the legislatures of the several states to say whether there shall be an income tax amendment to the Constitution. By the decisive vote of 317 to 14—much more than the necessary two-thirds—the house today passed the senate joint resolution providing for the submission of the question to the states. The negative votes were all cast by Republicans, as follows: Allen, Maine; Barfield, Dabell, McCreary and Wheeler, Pennsylvania; Fordney, Michigan; Gardner, McCall and Weeks, Massachusetts; Hill and Henry, Connecticut; Cleat and Southwick, New York; and Calderhead, Kansas. No amendments have been made to the resolution, if now goes to the president for his signature.

SHAKE-UP AT WASHINGTON

100 Government Employees Are Reduced and Ten Others Are Discharged.

Washington, July 12.—The greatest "shake-up" that ever has occurred in the personnel of the department of commerce and labor took place today, when approximately one hundred employees were reduced in number and ten others were discharged. The action was taken as a result of an investigation into the "efficiency record" of the employees of the department. The reductions were made, it is stated, because the employees were found to be inefficient in the job, while those allowed to resign were found to be inefficient.

ELLA GINGLES HAS A BAD DAY IN COURT

Dealing the Girl's Defense Several Telling Blows, the State Impeaches Her Story in a Number of Important Particulars.

Chicago, July 12.—Ella Gingles, the Irish lace-maker, continued to give the light of public interest today, and the state dealt the girl's defense several telling blows. The story of the Wellington Hotel bathroom incident was impeached in many important features. The attempts of counsel for the defendant to bring into the case the names of well-known men as being behind the plot against the girl failed.

DEALING THE GIRL'S DEFENSE SEVERAL TELLING BLOWS, THE STATE IMPEACHES HER STORY IN A NUMBER OF IMPORTANT PARTICULARS.

Dr. Arthur E. Price, one of the medical experts for the state, gave testimony tending to support the theory that the girl is suffering from a form of hysteria. Dr. Price saw the girl at the hospital after she was found injured in the bathroom. He swore that she would scream when he touched her wounds, but when her attention was distracted she paid no attention when he touched the scratches, as he termed the wounds. Dr. Price expressed the opinion that the scratches were self-inflicted and were not deep. He said, however, that the scars on her arms were from more severe wounds than he found on the girl when he examined her.

MISS MARY BENICK, CHIEF MAID AT THE WELLINGTON HOTEL, TOLD OF GOING TO THE BATHROOM THE MORNING OF FEB. 17, FINDING THE DOOR LOCKED ON THE INSIDE.

She described what she saw when the door was finally opened with the aid of a porter, Miss Gingles, she said, was tied with a cord, probably from a department store. She also said that the girl was not gagged, though afterwards she admitted that there was a towel around her face. The witness testified that the girl declared that she had been poisoned by a man and a woman who gave her wine.

THE CASE PROBABLY WILL NOT REACH THE JURY BEFORE THE END OF THE WEEK.

Mr. Diekema Answers Him. Mr. Diekema, of Michigan, vehemently denied this charge. In his own state alone he said two millionaires—Truman Newberry, former secretary of the navy, and James McMillan—had enlisted in the Spanish war. His Republican colleagues accorded him vociferous applause when he said that a man's patriotism was not measured by his poverty or his wealth, but by his Americanism.

AMONG OTHERS SUPPORTING THE RESOLUTION WERE: KELLER, OHIO; MILLER, KANSAS; BERTHOLD, MISSOURI; SULLER, NEW YORK; DEARMOND, MISSOURI; COX, INDIANA; SHARP, OHIO; RUCKER, MISSOURI; COLE, OHIO; AND THOMAS, MICHIGAN. THE TAX WAS OPPOSED BY HILL, OF CONNECTICUT, AND PICKETT, OF IOWA.

SAN JOSE, CAL., JULY 12.—CHRISTIAN C. JOHNSON, CHARGED WITH BIGAMY BY MRS. JOSEPHINE AMERIC FRETHERY, OF STOCKTON, AND THOUGHT TO BE THE BIGAMIST MADSON, WAS SENTENCED THIS AFTERNOON TO SEVEN YEARS' IMPRISONMENT.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., JULY 13.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Escanaba boasts no less than seventy automobiles. We had no idea that Escanaba was so prosperous. Wherever in the world does all the money come from?

The Chicago police are certain that they have the perpetrator of the latest bomb outrage. For the credit of the Chicago police it is to be hoped that they are not mistaken. There have been over thirty of these little bomb episodes without their having been able to make a case stick. It is high time that they were getting some action.

It is announced that Lieutenant Governor Kelley will not begin his active campaign for the nomination for governor until June of next year, though in the meantime he will, of course, be carrying politics as a sideline. We congratulate Mr. Kelley and the good people of the state on his decision in favor of a short and sharp campaign, and hope it will be concurred in by the other candidates. Three months of active work preliminary to the September primaries ought to be enough.

The Indianapolis Taft club tendered Senator Beveridge a public reception in recognition of his work on the tariff bill. Throughout the tariff debate Senator Beveridge was a thorn in Senator Aldrich's side, and he was one of the ten Republican senators who finally voted for the rejection of the Aldrich bill. Under these circumstances, he was the guest of honor at a great reception given by the most influential Republican club of the state we must conclude that he represented the home folks very acceptably. And Indiana was only saved for the Republican electors last fall by a mere handful of votes.

The Ishpeming and Negaunee baseball teams are fortunate in the possession of one of the best baseball diamonds in this part of the state. The grandstand is so constructed that a good view of the field is obtained from all parts of it, and the bleachers, where the fans root in the sun, are also well located. The diamond is fenced in on all sides, so that the over-enthusiastic spectator has no excuse for encroaching on the players' preserves with a war dance, and the diamond itself is in very fair condition. A good ball park is a great aid in making the game what it ought to be, and Ishpeming and Negaunee have one.

It is said that one time champion pugilist Jeffries, despite his brave talk, will not again be seen in the ring, either with Johnson, or anyone else. Close friends are reported as saying that his preliminary training has shown that he cannot condition himself to go a long route, that he is, to use a familiar expression, "all in." Jeffries, as time and men go, is a young man, but your pugilist, nine times out of ten, burns the candle at both ends, and it appears that Jeffries is no exception to the rule. He has utilized the furor of interest caused by the arrival of a colored champion to turn a pretty penny for himself, but there now appears to be little probability that he will undertake the task of putting a white man at the top of the pugilistic heap.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Richardson Allen F. Ross Chas. L. Lawton Geo. Ruppe S. L. Lawton Thos. Whittle G. A. Wright Ferd. Wieber

of the progress that has been made in a century past. The Clermont, indeed, will be one of the most interesting features of what promises to be an unusually interesting celebration.

The story of what the manufacturers of low priced automobiles have accomplished in the past few years reads like a wonder story of a wonder age. Take the Buick company at Flint, for instance. In 1904, five years ago, its output was eighteen cars. This year it will manufacture 18,000, and it plans to build 30,000 next season. Its working force has increased from fifty men five years ago to 5,200 employees, and its annual payroll now falls but little short of \$5,000,000. Since the inception of the Buick company the population of Flint has increased 100 per cent, largely due to the phenomenal development of this industry. The Buick company furnishes perhaps the most notable example of quick success in this industry, but there are a number of Michigan companies that are not far behind it. They are the companies that laid their plans for building good cars that would be within the reach of comparatively modest purses. How well they planned and builded the figures on the results they have attained show.

"As to Cummins and Beveridge and the other grand stand four flushers of the political game we know but little," Houghton Gazette. We would advise the Gazette to lose no time familiarizing itself with the career of that man Cummins. It's been a mighty interesting one. The good people back home in Iowa elected him governor for two terms and then elected him for a third time for good measure, and they did so each time in the face of the most virulent opposition of one of the best organized railroad machines that ever bossed a state's destinies. And then they sent him to the senate, to succeed their grand old man, Allison. And in the senate, rampant in-guest of honor as he has been, Cummins has won the respect and cordial friendship of the very men he has been opposing, by his ability and fine personal qualities. Really the Gazette ought to look up Cummins a bit; we feel sure it would become quite impressed with him. It's not necessarily true that every man who happens to take the popular side of an argument is a demagogue and a black-leg.

People using the county road between Marquette and Negaunee constantly remark on the evidences of rapid wear it shows. It is badly rutted in places and in other places the top dressing is worn down, blown away and the second course of rock shows. This is largely the result of running automobiles at a high rate of speed on the highway. The disintegrating effect of the automobile tire on macadam surfaces has been frequently remarked on. Whereas wagon traffic improves a well-built macadam road by binding the surface, the suction caused by a rapidly moving automobile loosens the macadam and rapidly wears it away. The unusually dry weather experienced this season has also had a bad effect. The remedy must be found in some treatment that will offset the bad results following on rapid driving of motor cars, for the automobiles cannot be denied the use of the road, nor is it practicable to try and regulate their speed in country districts. This must be left to the drivers themselves, and it is certain to be fast enough. It would appear that the county road commission might well look into the feasibility of using oil, or some other material that would give similar results. The expense would be considerable, but the outlay would probably save money in the long run.

It is reported from Washington that President Taft, as a result of his intercourse with him at the Lake Champlain celebration, will tender Governor Hughes of New York a position on the federal supreme bench, when the first vacancy occurs. There is no better appointment that could possibly be made. Governor Hughes is a lawyer of admirable ability, possesses the judicial temperament in an unusual degree and no man in the country could be elevated to the federal supreme bench in whose absolute integrity and rectitude of purpose all classes would have more confidence. Still Governor Hughes has accomplished so much in the active political arena, has done so much to raise the popular ideals as to what office holders owe the people who honor them, that there would be a certain reluctance to see his retirement to the passive life of a jurist. What Governor Hughes' attitude would be to-day the suggested appointment is not known. It is one that is rarely refused, but Governor Hughes' ideas of things are unusual more often than not, and it is possible that he has mapped out a future for himself that does not contemplate that he shall become a passive spectator of events, even in a post of such great honor as the federal supreme court.

THE CONSTIPATION EVIL Is Responsible for Most Cases of Piles. Constipation paralyzes the blood vessels of the lower bowel, and often causes piles. Women, and all other indoor workers, are the most frequent sufferers. But curing constipation alone won't cure piles. A special medicine is needed—internal treatment, to strengthen the flabby veins and start pure blood circulating. Dr. Leonard's Hem-Roid is the only internal pile cure. Sold under guarantee, \$1 at the People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming, or Dr. Leonard, Co., Station B, Buffalo, N. Y. Write for booklet.

COMMENTS ON THE TARIFF.

The Houghton Gazette has a column of editorial comment on the pending tariff bills that we have read with much interest, particularly because the Gazette says the copper district is solicited over the tariff principally on account of its iron country neighbors.

The thing which apparently furnished the Gazette with its inspiration is an article in the current number of Collier's, which it designates as a "free trade" magazine. Collier's has never been that, its leanings have been decidedly Republican, and thus toward revision. It is not a free trade, but a revision downward magazine. It shares this distinction with the old Stalwart Harper's Weekly, the other of the country's two great weekly pictorial reviews. If every Republican periodical and newspaper that believes in downward revision has suddenly been metamorphosed into a "free trade" publication it would take many of the Gazette's columns to contain the list.

The Gazette tells us that the copper country was sending our iron countries old clothes in the years following the passage of the Wilson bill. We can't believe it. Our recollection of those parties is that the stress was so acute and so general that every region of the country needed all its old clothes at home, nor was the copper country any exception to the rule. At the same time we appreciate the thoughtfulness of our copper country neighbors and the concern which they exhibit in regard to us.

However, the Gazette, it seems is baffling the issue. There is now no question between protection and free trade. The only point at issue concerns the degree of protection that should be provided by the Republican tariff bill that will be passed by congress and signed by the president. Senators from western states having one-quarter of the population of the country, most of them great Republican states, denounced the Aldrich bill by their votes against its passage. Is it the Gazette's idea that they did this in a spirit of capricious mischief making? We, for our part, consider that they expressed their solemn conviction that the senate bill is bad legislation and we have no doubt that they were giving just expression to the views of the majority of people in the states they represent. Nor are we at all sure as the Gazette is that a majority of our Michigan Republicans would not agree with them, if the issue were raised.

Evidently President Taft does. He has indicated to the conferees that he wants the conference bill to contain both the house reductions and the senate reductions. He is said to want free iron ore (which we hope he won't get) free hides, \$1 on lumber, instead of \$1.50 and many other concessions. He has had the "insurgents" in conference, ascertaining their desires and availing himself of their information. President Taft recollects vividly what his promises to the people were during his campaign, and doubtless can repeat word for word the tariff plank of the Republican platform. He will doubtless make a determined effort to get a bill that will permit him to go before the people without being under the necessity of attempting elaborate and futile apologies.

Of La Follette the Gazette says: "Yes, we know La Follette for the petty little peanut politician he is." Many such gibes have been aimed at La Follette from many quarters these many years. And yet we doubt whether there has been a time when La Follette had so many militant supporters as he has today. Of no merely petty politician could this be true. The source of his strength is his belief in what he advocates, and in himself. He, Cummins and Nelson and the others are dauntless men. As La Follette recalled in a colloquy during a discussion of the tariff bill, a few years ago he stood alone; now there are a dozen senators fighting with him.

What's behind it all? The restless, impatient people of the middle west. They must be recognized within reasonable limits, or, as President Taft gave warning, they will convert the Republican party into a respectable minority organization.

HOME CURE FOR ECZEMA. Oil of Wintergreen, Thymol, Glycerine Etc., Used as a Simple Wash.

It really seems strange that so many people suffer year in and year out with Eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure. In all obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who does not find immediately that wonderfully soothing, calm, cool, sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits.

The Stafford Drug Co., Marquette City Drug Store, Ishpeming, Mich.

What Telephone Users Can Do To Help the Service

THERE are three parties to a telephone call—the person making the call, the Telephone Company and the person called. It is not sufficient that one, or two of the above parties do their work properly. The co-operation of all three is necessary. Telephone Users may help the Telephone Service—

MICHIGAN STATE TELEPHONE CO.

By consulting the telephone directory before making calls, thus obviating the many errors due to calling numbers from memory.

By speaking directly into the transmitter in a clear, distinct voice.

By separating the figures of the telephone number when making a call, for example—Main 1234, Main one-two-three-four.

By correcting the operator if she repeats the number called incorrectly.

By having the telephone receiver to the ear until the called party answers or some report is given from the Central Office.

By being ready to talk when the called party answers. As a matter of courtesy the person making the telephone call should not urge the called party to wait his convenience.

By answering telephone calls promptly. If there is unusual delay in answering the telephone, the operator should report "Don't answer" to the party calling.

In telephone operating, the human element must be considered. The public is human. Telephone operators are human. The hastily spoken word and its inflection conveys whatever impression each gets of the other. Under such conditions, courtesy both on the part of the operating force and the public is like oil to machinery—necessary to prevent friction.

A LAUGH OR TWO.

What Was in Her Hair? "Now, Margaret, dear, I am going to put some vaseline on your hair to take the dandruff off," said mamma to her small hopeful of five. "Then you may see what I do with your hair, Margie?" asked her playmate a little later. "It looks all shiny."

Sandy Pike's Boycott. "These Turks are barbarous people," remarked the cottage housewife as she got out a rubarb pie.

Too Sly for Father. "But you confess, papa," protested the beautiful girl, when the father showed indications of a desire to withhold his consent, "that you do not know of the peanut politician he is."

Sembrich Proved It. While visiting Lausanne last autumn completing arrangements for the furnishing of her new home, Mme. Sembrich stopped at the postoffice one day for her mail. Being unknown to the postmaster, she was told it would be necessary for her to prove her identity.

The Judge's Explanation. There's a prominent judge living in the rural districts of Virginia, where ladies are not to be found in every home, who was the proud possessor of such a luxury, which he permitted to no one else to use.

What's in a Name? A Philadelphia woman, whose given name is Mary, as is also the name of her daughter, had recently engaged a domestic maid, to her embarrassment, she discovered that the servant's name, too, was Mary.

This Will Interest Mothers. Mother Gray's Sweet Powders for Children, a certain relief for Feverishness, Headache, Bad Stomach, Teething, Disorders, move and regulate the bowels and destroy Worms. They break up Colic in 24 hours. They are so pleasant to the taste and harmless as milk. Children like them. Over 10,000 testimonials of cures. They never fail. Sold by all druggists. 25c. Ask today. Don't accept any substitute.

THE HURRYING BARBER.

He Demonstrates His Speed More in the Motions Than in the Results.

"Barbers" remarked the man with the short hair, "are born unable to hurry. Just you go into a shop, as I did the other day, wanting a haircut, and ask the barber how long it will take. He told me, 'Oh, about twenty minutes,' and I said to go ahead. I believed he was hurrying, but he couldn't leave out those little snip snips about the back of the neck they're all so fond of doing, and he had to cut the hair as if he were chiseling priceless marble. When it got to be about half an hour I said to him, 'You're a pretty bad judge of time, aren't you?' And he came back with something about not wanting to turn out a poor job."

LOST SPANISH TRAILS.

"It is greatly to be regretted that the old Spanish conquistadores have not left us authentic records of all their now forgotten towns and even cities in Central and South America," said Charles M. Brown of Baltimore, who has been for the last three years in Panama, at the present province of Chiriqui, bordering on the republic of Costa Rica. This province is the richest and probably the most interesting one of the Republic of Panama, and has one-sixth part of the population of the whole republic, including the cities of Panama and Colon, and leads by far in the cattle industry and in the production of an excellent grade of coffee.

CIVIL WAR'S YOUNGEST SOLDIER.

Having read two weeks ago of the claim of Charles S. Kline of No. 745 North 9th street, that he was the youngest soldier enlisted in the Civil War, James O'Connell, of Mount Sterling, Ky., comes forward with the claim that he was six months younger than Mr. Kline when he enlisted in Company A, Eighteenth Kentucky Infantry as a private, in October, 1861. Mr. Kline stated that he was thirteen years and two months old when he was mustered into service, while his Kentucky competitor for the honor avers that he was but twelve years and eight months of age when he joined the army and served until July 18, 1865, when the conflict ended, during which time he saw some pretty exciting service. For a number of years there has been a keen rivalry for the distinction of being the youngest private to enlist in the Civil War. Mr. Kline went to the front as drummer boy at the age of fourteen and fifteen years were first to claim the title. Each time an announcement appeared it was promptly knocked out by some other veteran who could get a month or two over the claim. Mr. Kline seemed to have gotten the age limit down to a pinch until the man from the blue grass country loomed up, who says that he can back up his claim with all the necessary proofs. It is just possible that some other venerable youngster may present a still more remarkable record, but up to the hour of going to press it looks very much as though for the time being at least, James O'Connell, of Mount Sterling, Ky., is in unquestionable possession of the distinctive title of "Oh, You Kid"—Philadelphia Record.

PHYSICAL CULTURE IN SCHOOLS.

"Every public school in Germany has a gymnasium, and there are certain hours on certain days when physical culture of boys and girls of all classes and ages is gone through," said Prof. Volze, superintendent of physical culture in the public schools of Frankfurt, Germany. "The physical culture instructors are paid by the city, and the halls and apparatus are also maintained by the various communities or the districts of the city. Physical culture in the public schools in Germany is just as regular and necessary as arithmetic or grammar. The welfare of the nation depends more on a strong and healthy citizenry than upon a highly educated one; still better, when the two qualities can be combined, and this is the principle of the German school system." "Swimming is also taught in the public schools, and the pupils are compelled to take their turn in the swimming pool until they are proficient in the art of swimming."—Washington Herald.

BINEAPPLES IN QUEENSLAND.

Altogether there are some three thousand acres devoted to pineapple cultivation in Queensland, giving a yield of something like ten million pineapples a year. Two crops are gathered during the twelve months. Most of the owners of the plantations started without capital, and are now reaping about £50 an acre net profit. It is an industry from which returns are quickly obtained. Fifteen months after planting the grower is securing his first crop. Next year he should double his crop, because, like the banana, once the pineapple has borne fruit the stalk dies down, and its place is taken by one or more suckers, which, in their turn, fruit and die. A cider or remarkably fine quality can be made from the fruit.—London Globe.

SPECIAL NOTICE

The Darantella Havana Cigar is made under sanitary supervision, and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table, and no saliva is permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality.

Copper Country

CHAUTAQUA OPENS TOMORROW.

First Big Annual Gathering Under Methodist Episcopal auspices.

On the occasion of the visit of Rev. Frank W. Gurnsult, of Chicago to Houghton last winter, he suggested that the copper country offered about as fine a location as any part of the United States for a summer assembly on the Chautauqua plan. The idea was at once taken up, in fact, it had been given some attention before. It has borne fruit in an assembly which will open at Electric Park tomorrow night and which will continue until Saturday. The assembly is being given under the auspices of the Methodist Episcopal church of the copper country and its character may best be judged from the quality of the speakers who will be present.

Bishop Joseph F. Berry, the people's bishop, was for several years the associate editor of the Michigan Christian Advocate; he was later promoted to the editorship of the Epworth Herald. In 1904 he was elected bishop and he has proved himself a hard-working, practical official. In his sermons and addresses he is simple, clear and effective. He is ever heard with delight and profit. Bishop Berry's morning address, "The Minister of Sunshine and Sense," while originally intended for ministers, will be heard with profit and delight by all. He will also lecture on "What a Trump Saw in Ireland" and "Winning Under Fire."

Dr. Homer C. Stuntz served the Methodist church in India for eight years, during which time he was editor both of the Bombay Guardian and the Indian Witness, the two most widely read religious papers in India. For six years he was superintendent of the Methodist missions in the Philippine Islands, which by his efficient management are now well and firmly established. In recognition of his ability, this evidenced, he was elected first assistant corresponding secretary of the board of foreign missions at the last general conference, held at Baltimore, in May, 1908. As a speaker, he is strong, attractive and convincing. He will lecture on "The Sepoy Rebellion" and "The Philippines and the East."

Dr. Charles Harvard Mitchell, the pastor of the First Methodist Episcopal church, Cleveland, is constantly being called upon for lectures in all parts of the country. As pastor of a large city church, he has little time for outside engagements. Dr. Mitchell has filled prominent pulpits of his denomination in Pittsburg, Kansas City and Minneapolis. He has been on the programs of the great denomination gatherings of his church, both in this country and England. Dr. Mitchell has filled prominent pulpits of his denomination in Pittsburg, Kansas City and Minneapolis. He has been on the programs of the great denomination gatherings of his church, both in this country and England.

TUSCORORA'S ANNUAL TRIP.

Revenue Cutter Inspects Motor Boats on Portage Lake.

The revenue cutter Tuscorora, Captain K. W. Perry, arrived in Houghton Sunday afternoon on her annual visit of inspection. She spent Sunday and yesterday in port. To the Tuscorora is assigned the duty of inspecting motor boats, and yesterday a number of such craft were hailed and looked over. Captain Perry contented himself with advising the owners of boats as to their duties, which is required in the way of lights, safety appliances and other details. No arrests were made.

Captain Perry spoke yesterday of the necessity of a revenue cutter for exclusive service on Lake Superior. His boat patrols Lake Michigan and Superior and intervening waters and he kept constantly on the water and work and probably would be able to care for it all were it not for interruptions. The Tuscorora is now ordered to Chicago for July 23 to keep order during a regatta. After that a similar commission must be expected at Mackinac Island and later another at Chicago. The work takes the cutter away from her regular duties to the consequent detriment of the service.

Captain Perry is making his first Lake Superior trip. He was formerly in command of the Gresham on the Atlantic coast, but this spring was transferred to the Tuscorora and Captain P. H. Cherruth of that cutter was transferred to the Gresham. Lieutenants Crozier and Pine are Captain Perry's junior officers in the Tuscorora.

GOOD WILL FARM MEETING.

Election of Officers Will Be Held at Douglass House Today.

The annual meeting and election of officers of the Good Will Farm & Home Finding association will be held at Douglass this afternoon. John C. Mann has donated the use of the parlors of the Douglass House for the purpose. At this meeting Mrs. G. M. Walker, superintendent, will make her annual report, which is expected to show that the institution is in good condition and is doing much good in the past year. The following are the officers of the association for the past year, including directors, and they will probably be elected again if they care to serve: W. H. Dodge, M. D., president; Johnson Vivian, Jr., vice president; John A. Doule, secretary; Edward A. Hanson, treasurer; Daniel Stalker, D. D.; C. H. Moss, J. C. Mann, H. S. Goodell, Mrs. C. Douglass, Mrs. G. M. Walker, superintendent.

C. A. WRIGHT IN INTERESTED.

Hancock Capitalist in Company With Horatio S. Earle.

A dispatch from Lansing tells of the filing of articles of the Good Roads Supply company, with a capital of \$100,000, the largest stockholder being Horatio S. Earle, recent state highway commissioner. It is the intention to furnish crushed rock for roads throughout the country. C. A. Wright, a Hancock capitalist, is connected with the company and is financially interested. The dispatch from Lansing says: The Good Roads Supply company, with H. S. Earle, late deposited state road commissioner, at the helm, has been incorporated with \$100,000 capital. Wright is going to furnish material for roads, streets and bridges," explained Mr. Earle. "At the same time we are going to show the taxpayers of Michigan that the road work can be done with hired labor at the same price. I recently said the state's convicts could do it for C. A. Wright, a Hancock capitalist, is backing the project."

FUNERAL OF LAURENT JACQUES.

Old Lake Linden Resident and Man of Affairs at Rest.

The funeral of the late Laurent Jacques of Lake Linden, who died suddenly last Friday morning, was held yesterday morning from St. Joseph's church. Interment was in Mount Calvary cemetery. The funeral was under the auspices of the St. John Baptist society. The deceased had been a sufferer from heart trouble for the past several months, but while incapacitated from performing labor he was well enough to go up and around the house. Mr. Jacques was a native of Canada. He was born at St. Barthelemy, province of Quebec. He came to this country in 1873, going direct to Lake Linden. For a time he followed the trade he learned at his former home, that of carpenter and carriage work, but he was very successful in his enterprises and built up a large and lucrative business. The deceased was a prominent man in the business affairs of the village and frequently held public office. He was village trustee for a number of years, village treasurer, and member of the school board. He was a devoted Catholic, and for a quarter of a century was a trustee of St. Joseph's church. He was also a charter member of the Lake Linden chapter of St. John de Baptiste. The deceased is survived by a wife and five children. The latter are Sister Austin, in a convent at Concordia, Kansas; Laurent, Jr., Alexander, Miss Antoinette and Oliver, at home.

HIBERNIAN FIELD MEET.

Complete Program Announced for Annual Athletic Event in Hancock.

Much interest has been aroused in the annual field and track meet to be held at the Hancock Driving Park under the auspices of the Ancient Order of Hibernians July 22. Twenty gold, sixteen silver and six bronze prizes will be awarded in the various athletic events. The Quincy band has been engaged for the afternoon and the meet will likely be preceded by a parade. The Port Arthur regimental band will be in the city on an excursion that day and an effort will be made to have it take part in the parade and play a few selections at the park. The athletic events will be as follows: Standing broad jump, two prizes; running broad jump, two prizes; running hop, step and jump, two prizes; sixteen foot hand saw, two prizes; one mile, one prize; six mile hammer throw, three prizes; fifty-six pound hammer throw, three prizes; six mile vault, three prizes; half-mile run, two prizes; twenty-two yard hurdle, two prizes; half-mile flag race, four gold medals; sack race, two prizes; boys' race, for boys under seventeen years, three prizes; mile run, two prizes; two mile run, two prizes; slow running horse race, first prize, fancy bridle; second riding crop; tag of war, cup event; running crab dash, two prizes; running high jump, three prizes.

GERMAN AID TO HOLD PICNIC.

The German Aid society of Calumet will hold its twenty-first annual outing and picnic at the Calumet & Hecla park Tuesday, July 20. All arrangements for the outing have been completed, the music for the parade and dancing has been engaged and plans have been made to serve refreshments and eatables at the grounds. The German Aid society is one of the most prosperous in the Calumet district. Its membership numbers hundreds. The outings held by the society have always been very successful and very well attended.

BOARD OF SUPERVISORS.

The July meeting of the Houghton county board of supervisors will be held today at the county building, Houghton. It is probable that the question of building a new county jail will come up for consideration. Another important matter that will be disposed of will be the plans for remodeling the old county building, now occupied as the under sheriff's residence, as a juvenile court building.

THE LAW'S DELAYS.

"I understand that you called on the plaintiff, Mr. Barnes. Is that so?" questioned Lawyer Fuller, now chief justice. "Yes," answered the witness. "What did he say?" next demanded Fuller.

The attorney for the defense jumped to his feet and objected that the conversation could not be admitted in the evidence. A half-hour's argument followed, and the judges retired to their private room to consider the point.

An hour later the judges filed into the courtroom and announced that Mr. Fuller might put his question.

"Well, what did the plaintiff say, Mr. Barnes?"

"He weren't at home, sir," came the answer without a tremor.—Success Magazine.

LAKE LINDEN TEACHING STAFF.

Announcement of New Superintendent and Principal is Made.

The Lake Linden board of education, having in charge also Scholastic and Track Lake, has announced the appointments of teachers for the schools. A new superintendent, H. D. Lee of Ann Arbor, and a new high school principal, H. B. Hendrick of Ann Arbor, are included. Mr. Hendrick is the first high school principal which Lake Linden has had in a quarter of a century, as during that period Mrs. C. G. White has acted in that capacity. The list of teachers follows: Superintendent—H. D. Lee, Ann Arbor. Principal and Director of Athletics—H. B. Hendrick, Ann Arbor. Science—E. W. Ackerman. Commercial Department—E. J. Niegmann, Trout Creek, Mont. Assistant—Miss Jennie Owens. English—Miss Louise Lange. Latin and German—Miss Elsie Down. Hancock. History and Mathematics—Miss Alberta Tren, University of Michigan.

The grade teachers are the following: Fifth, Miss Anna M. Stoffel; Seventh, Miss Ida Koedel; Sixth, Miss Ida Hagen; Fifth, Miss Ella Leary; Fourth, Miss Mary Keno; Third, Miss Mary Peck; Second, Miss Susie Leuz.

Mckinley School—Sub primary, Mrs. John E. Jones; First grade, Miss Sarah MacDonald; Second, Miss Irene Perry; Third, Miss Eglantine Savard. Lincoln School, Hubbard—Kindergarten, Miss Olive Glynnville; Second grade, Miss Vettie Leuz; Third, Miss Josie McLaughlin.

Cleveland School, Hubbard—Seventh and Eighth grades, Miss Mary Macdonald; Sixth and Seventh grades, Miss Anna Pope; Fifth, Miss Nora Dee; Fourth, Miss Rose Kaufmann. Incline School—Miss Mary Schenk, Section Thirty—Miss Senora Lebaunt. Special Teachers—Deaf and dumb, room in Lincoln school, Miss Mae Duggan; music, Miss Anna Daly; drawing, Miss Grace Lambe.

Let me tell you something— We shall now have better things to eat Because GOLD MEDAL FLOUR will do the baking

WASHBURN-CROSBY'S GOLD MEDAL FLOUR

BECK GOES TO CALUMET.

Leaves Houghton for Former Home—His Departure Regretted.

August Beck, ex-sheriff of Houghton county, left Houghton with his family yesterday morning to again take up his residence in Calumet, his former home. Mr. Beck regrets that this has become necessary, but his connection with the Calumet & Hecla company as special officer makes it imperative. Mr. Beck came to Houghton eight and one-half years ago. He came as under sheriff to Sheriff Wills and after serving in that capacity for four years he became sheriff, serving two terms or four years as the highest peace officer of Houghton county. There are very few men in Houghton who do not know August Beck in highest esteem and those who do not probably ran against him in some way when he was discharging his duties as sheriff. All who call him friend are sorry indeed that he is leaving Houghton and he said last night that he was sorry himself, so much so that he wanted to be alone when he thought of it.

BOY IS STILL MISSING.

Body of Mike Paklink Not Yet Recovered from Old Pit.

Up to noon yesterday the body of Mike Paklink, the twelve-year-old Hurontown boy who is supposed to have drowned in an old test pit near the Isle Royale mine, had not been recovered. It is pretty certain that the boy is in the old pit, under about eighty feet of stagnant water, but it is difficult to arrive at a means of getting the body. The mine officials suggested a charge of dynamite, but the boy's parents objected, being afraid that this would mangle the body, and they would prefer to permit it to remain under water than to have it so mistreated. It is probable that the body will never be recovered.

GERMAN AID TO HOLD PICNIC.

The German Aid society of Calumet will hold its twenty-first annual outing and picnic at the Calumet & Hecla park Tuesday, July 20. All arrangements for the outing have been completed, the music for the parade and dancing has been engaged and plans have been made to serve refreshments and eatables at the grounds. Mining News

ALOUZZ.

For the first six months of the current year the Alouzz Mining company has produced close to 3,000,000 pounds of mineral, which is an increase of 688,228 pounds, or close to 30 per cent, over the corresponding period of 1908. The June output, although smaller than that of the three preceding months, showed a gain of 28.5 per cent, which was a very substantial increase when it is considered that for January the gain was less than 10 per cent and for February only 13 per cent. The increase in the rock stamped has been about 30 per cent so that the rock is slightly richer than it was a year ago. As a matter of fact the percentage of rock being discarded this year is less than in 1908, and yet in 1908, the percentage of discard was but .63. That Alouzz is much nearer a remunerative mine today than ever before may be seen by the following comparison of mineral production: Increase Jan., 1909, 453,743; 1908, 304,757 Feb., 442,985; 1908, 317,736 March, 348,165; 1908, 372,223 April, 518,665; 1908, 344,430 May, 567,465; 1908, 439,925 June, 439,925; 1908, 364,196 Total, 2,493,518; 1908, 2,249,909

NOTES OF COPPER NEWS.

Both Nos. 1 and 2 shafts of the Ojibwa are 550 feet deep now, and at the 550-foot level are being cut preparatory to crossing to the lodes. At No. 1 shaft it is expected that the crosscut will go but a short distance before reaching the first lode, as it was cut in the pit at the 800-foot level. At No. 2 shaft the crosscut will run possibly about 75 feet before reaching the first lode. Drilling is under way at both shafts at the 800-foot level. Last week the west lode in the drift disclosed some very good stamp rock, better than has heretofore been encountered. As yet no announcement has been made relative to a mill test for Ojibwa. Possibly this will be done after the drifts connect the two shafts making a thorough test possible of the value of the vein.

HANCOCK CONSOLIDATED.

The No. 2 shaft at the Hancock Consolidated is getting down to a point where it will be a matter of weeks only before the No. 3 lode will be cut. As this vein is being opened up so promisingly at No. 1 shaft a continuation of shaft at No. 2 shaft will mean a great deal to Hancock. No. 2 shaft is down to a point about equivalent to the drift level of No. 1 shaft. Sinkings are progressing at the rate of better than eighty feet per month. Five drills have been used in sinking this big five-concentric shaft, one of the best in the Lake Superior district. At No. 1 shaft the bulk of the bit work done has been confined to proving up No. 3 lode. A winze has been sunk on this vein below the fifteenth level and about 1,500 feet of openings have disclosed values which insure the lode becoming a very profitable producer. This winze is to be continued to the eighteenth level where it will connect with a flag crosscut already started from No. 2 shaft. This crosscut will be 720 feet long through which rock will be trimmed from No. 1 to No. 2 shaft and thence belted to surface. There has been some talk of Hancock making a mill test of the rock in No. 3 lode.

CANCER AMONG FISH.

Scientists Trying to Discover if It Can Be Communicated.

The discovery that cancer is a very common disease with many kinds of fish, and especially brook trout, has been made. Dr. Harvey R. Gaylord, head of the Buffalo state cancer laboratory, announced yesterday that he had discovered a new kind of cancer among fish. He is pressing at the rate of better than eighty feet per month. Five drills have been used in sinking this big five-concentric shaft, one of the best in the Lake Superior district. At No. 1 shaft the bulk of the bit work done has been confined to proving up No. 3 lode. A winze has been sunk on this vein below the fifteenth level and about 1,500 feet of openings have disclosed values which insure the lode becoming a very profitable producer. This winze is to be continued to the eighteenth level where it will connect with a flag crosscut already started from No. 2 shaft. This crosscut will be 720 feet long through which rock will be trimmed from No. 1 to No. 2 shaft and thence belted to surface. There has been some talk of Hancock making a mill test of the rock in No. 3 lode.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. Where the weak disease stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

THE STRONG MAN HAS A STRONG STOMACH.

Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

CONCRETE IN CLASSIC DAYS.

In describing the extent to which concrete was employed in the construction of many of their most important structures by the Romans, a writer states that in all of the work he had examined the marks of the wood forms are at all times discernible, and especially is this true in the corridor of the house of Augustus, on the Palatine, where the grain of the wood can be clearly seen. These walls are some twenty-four feet above the ground level, and though the construction of the forms seems to have been carefully done, the result is none the less interesting. Here is a splendid opportunity to see concrete and to learn its uses in every point of vantage. Above these concrete foundations rose the place of Augustus, formed of those stupendous walls and vaults of brick which here, as elsewhere in Rome, thrust their arches through the air with such purpose and precision that they are to this day the admiration of every beholder and gave to the Roman Empire a proud position among the master-builders of the world. The structures of brick above these concrete walls have succumbed to the ravages of time and to the hand of the destroyer, but the concrete remains unscathed. The foundation that could be built on a fracture that could be built on a fracture and frequent examination. Its adhesion is perfect, and that there has not been the slightest disintegration of even the outside surface is attested by the fact that the grain of the wood from the old forms may still be seen in the concrete, though its imprint was made over two thousand years ago.

ACTRESSES AND HOME.

A prominent actress is seeking a divorce from her husband, also of the theater, because she has grown tired of the artificial life and wishes to live one that seems to her more genuine and enjoyable. Her husband, although the sole remnant of the old guard of managers who combined art with business in the proper proportions, sees in his wife only the successful star and in some degree ignores her womanhood, her natural desire for domesticity, her feminine longing to be the center of a home. When she gets her divorce she is going to marry a man whose interests are all away from the stage. She wants to have flesh-and-blood babies of her own, instead of the admiration of the stage puppets of the dramatists.

HERE IS ANOTHER CASE.

May De Sousa is a Chicago girl who has made a success in London. She is one of that handsome and magnetic American contingent that have shown the British playgoer what sparkle and spiritfulness mean and have made the English stage brilliant look frumpy beside their good looks and wit. None has been more admired than Miss De Sousa, but she has grown tired of it all. She is coming home and the other day she wrote her mother announcing her return, saying, "I would rather be in our little home in Chestnut street, helping you clean house than dine in London's swellest cafe. I am tired of being dined and wined and wined to see my good father and mother again."

THESE ARE TWO STAIRS WHICH SHOW A LITTLE DRIFT TOWARD DOMESTICITY.

Other professions would show a like direction of feminine impulses if they were as closely studied. It is simply a swinging back of the pendulum. Women were once held too tightly. They had few chances to live their own lives, and these they fought for. When the holidays were taken off some of them ran too far and too fast. Now a part, at least, are coming back.

THE OLD-TIME IDEA OF THE MERE HOUSEWIFE WAS ABSURD.

There is no reason why the woman who acts cannot have a nursery as well as a stage dressing room. Why the novelist can not know recipes for pie or the sculptor be equally busy carving a turkey or duck or a statue. Few men wish to see a woman tied to the apron strings. Few wish to see her the central figure of a rare show. Time is going to adjust the differences and provide a compromise meeting place.

THE GREAT RESULT OF THE WORK OF THIS YEAR CARRIED ON AT MEMPHIS BY PROF. FLINDERS PETRE UNDER THE AUSPICES OF THE BRITISH SOCIETY OF ARCHAEOLOGY HAS BEEN THE DISCOVERY OF THE PALACE OF KING APRILS, THE PHAROAH HOPIA OF THE 18th CENTURY WHO WAS CONTEMPORARY WITH JEREMIAH, B. C. 629-588.

Hitherto no palace has been known in Egypt other than the tower at Medinet Hah and some portions of a rather earlier date. The palace was 400 feet long and 200 feet broad, with a middle court 100 feet square. It was adorned with painted columns forty feet high and surrounded with stone lined walls fifteen feet thick. The approach to the palace led up through a large mass of buildings to a platform at a height of about sixty feet above the plain. In the ruins seen armor, hitherto rarely found in Egypt, was discovered. Gold bronze figures of the gods were also found. What Prof. Petrie describes as a supreme piece was the fitting of a papyrus stem of solid silver, a pound in weight, decorated with a band of Hathor, with a gold face of finest workmanship of the time of Apries.

THE GREAT GATEWAY AND IMMENSE WALLS DESCEND DEEP INTO THE MOUND, INDICATING THAT THERE ARE RUINS OF SUCCESSIVE PALACES BUILT ONE OVER THE OTHER.

Prof. Petrie prophesies that in six or eight years excavations might dig down to the earliest records of the Egyptian kingdom.

THE TURTLE'S CUNNING.

Although not credited with any high degree of intelligence, the turtle, when about to deposit its eggs, exhibits considerable cunning.

It scoops out a hole, as if to prepare a repository for its eggs, but in order to delude the birds and other enemies the turtle throws the sand into the hole, leaving the surface rough, and waddles off to another spot, where it repeats the process. Some times this is done three times, and eventually the eggs are laid in an excavation within a few yards of the sham nest, the surface being smoothed and flattened down.

When hunting for the eggs the Queensland blacks probe the sand in the vicinity of one of the sham nests, and are usually successful.—London Globe.

FOLEY'S HONEY AND TAR NOT ONLY STOPS CHRONIC COUGHS THAT WEAKEN THE CONSTITUTION AND LEAD TO CONSUMPTION, BUT HEALS AND STRENGTHENS THE LUNGS.

It affords comfort and relief in the worst cases of chronic bronchitis, asthma, hay fever and lung trouble. Sold by all Druggists.

DIRECTIONS FOR MAKING ICED TEA.

Warm the teapot. Put in a heaping teaspoonful of "Salada" Tea for every two cups. Pour on freshly boiled water and allow to infuse from 6 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

WARM THE TEAPOT. PUT IN A HEAPING TEASPOONFUL OF "SALADA" TEA FOR EVERY TWO CUPS.

Pour on freshly boiled water and allow to infuse from 6 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

Miss Ethel Young has returned from a visit at Escanaba.

James Sinclair went to Chicago on business last evening.

Mrs. J. A. McGahey, of Chicago, is visiting her father, W. G. Cooper.

Miss Mayne Barry is visiting with her sister, Mrs. F. L. Beman, at Grand Rapids.

Madam Young of Escanaba is the guest of her son, R. C. Young, Pine street.

Misses Flora and Grace Retaille have returned, after spending three weeks in Detroit.

Misses Elsie and Hattie Lewis have returned from a visit in Detroit and Port Huron.

Mrs. R. E. Miller, of Bruce Mines, Ont., is visiting at the home of Mrs. Edward Mitchell.

Mrs. Walter Weldon, of Toledo, is visiting at the home of her parents, Mr. and Mrs. Robert Peters.

The Misses Ella Ticknall and Gertrude Siegel have returned from a several weeks' visit in Detroit.

Carter H. Harrison came down from the Haron Mountain club yesterday, and returned to his home in Chicago last evening.

Eldredge Hammond, son of R. L. Hammond, an Iron Mountain attorney, is visiting at the home of Mr. and Mrs. T. B. Catlin.

E. E. Becktel and R. E. Mahaffey left yesterday for Montana and the Seattle exposition, to be absent from the city for two weeks.

Joseph Sheridan, who is suffering with lockjaw at St. Mary's hospital, was reported to be resting comfortably last evening, and hope is entertained of his recovery.

Members of the Degree of Honor and their families are invited to attend a picnic to be given by the Degree of Honor Thursday afternoon at the island. Take the 3 o'clock car.

Frank Faulkner, of the Chicago fire department, after having visited with Henry Herlich the past week, left for home Sunday night. Mr. Faulkner lived here about thirty-three years ago and this was his first visit since that time.

Mrs. George Shaw is the composer of a ballad called "Past Memories," which she expects to have published within a few weeks. Mrs. Shaw was assisted in the piano arrangement for the ballad by Fred Monahan, the director of the Finnish orchestra.

Captain George Barry, of the Salvation Army, is very busy arranging for the reception of Commissioner Estill, who will speak at the Guild Hall next Tuesday evening, July 20, and states that the clergy, prominent business men and others will take an active part in the meeting, which promises to be a rousing one.

Only Nine in Jail—There are now but nine prisoners in the county jail, which is a much smaller number than usual. In the winter the average number of inmates is about twenty, but during the summer months, vagrants apparently try harder to keep outside prison walls, and a decrease in the jail population is the result.

Engagement Announced—The engagement of Miss Olive Blanchard to Mr. Harry Starin Gray of Lewiston, Idaho, was announced yesterday afternoon at a tea given to a number of the young lady's friends at her home, corner Spruce and Michigan streets. The wedding is to occur in October. Miss Blanchard has been teaching in the Idaho Normal at Lewiston the past few years.

Bicycles More Popular—Judging from the number of bicycles that have been repaired at the express offices this season, it is thought that they are regaining favor as a means of locomotion. It is said that more bicycles have been purchased by Marquette people this summer than during any of the last three seasons. Most of the bicycles now purchased, however, are not bought for purposes of pleasure, but for business use or for boys.

Township School Election—The township school election in Marquette today was held at the express offices this season. The directors elected were: For three years, K. H. Vanhook and Anton Wickert; for one year, Frank Fassbender. The vote on the various candidates was as follows: Vanhook, 28; Dennis Ryan, 10; Wickert, 28; Joseph Fassbender, 9; Frank Fassbender, 25; John Conway, 7.

News of the Boats—The Panay cleared from the South Shore docks for Toledo yesterday, and the Joliet and Mariska were due last night. The Pontiac is unloading coal at the Pickands dock and the Sweehart and Choctaw are waiting to unload. The Pontiac will go to the S. S. & L. dock for ore today. The Tionesta, west bound, arrived at Spear's passenger dock yesterday forenoon, and cleared for Houghton and Duluth. The Japan, west bound, arrived at 11 o'clock last night.

Officers to Hold Over—At the meeting of the Commercial club held last evening, it was decided to hold the present officers in place until the second Monday in January, when the annual election of officers will take place. The club voted to pay the expenses of two delegates to the National Finnish Temperance convention to be held at DeKalb, Ill., the last week of this month, with the understanding that these delegates are to make every effort possible to secure the next year's convention for Marquette.

Seized Live Wire—The high wind yesterday broke an electric light wire at the corner of Fifth and Beck streets, the end of which was caught up by Alphonse Richer, aged about six, while playing on the street. The resulting electric shock threw the boy to the ground, but he recovered shortly and apparently suffered no material injury. Had not the ground in which he was standing been very sandy and consequently a poor conductor, the shock would have in all probability been much more severe, and possibly fatal. The wind also broke an electric wire on Arch street.

Baker as a Diplomat—The current issue of the Michigan State Gazette, the

official organ of the Michigan State Telephone company, contains a well-executed cartoon, illustrating District Manager K. S. Baker, of this city, in the role of a diplomat, that is, settling a little matter of setting a pole on a front lawn along the Manistique-Front Lake line, recently constructed. The local telephone man is pictured conducting negotiations with fear and trembling, from behind a stump, while an irate homeowner stands nearby, armed to the teeth, with rage and vengeance depicted in every lineament. Although the home-stender appears to have the advantage in the cartoon, we venture a guess that Baker eventually came out on top.

INSURE WITH PETER WHITE & CO. WILL REVIEW ASSESSMENT.

State Tax Commission to Sit at the Court House Today.

The state tax commission will meet at the court house this morning at 10 o'clock to review the assessment, recently made by the city board of review, against the Keweenaw Land association, which the company contends is too high. The company was assessed for \$150,000 by the board, which is one-half less than the assessment a year ago, but the company seeks to have it reduced to \$75,000.

City Attorney Brown has been working on the case for several days, and will make a showing before the state tax commission with the purpose of convincing that body that the land company is now assessed none too low. The land company will doubtless endeavor to show that their assessment should be reduced.

Robert Shields, of Houghton, one of the members of the state commission, arrived in the city yesterday, and states that the affairs of the company will be thoroughly investigated before any decision is rendered by the commission. The other members of the tax commission are Wm. H. Hoyt, of Plymouth, and Jas. H. Thompson, of Evart.

SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 12.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Plummer, Maritana, Holley, Tionesta, Lina, 10 p. m.; Elba, 11; McDougal, Monte, Woodford, 12:30 a. m.; Colwell, Carnegie, 1:30; Good year, Scott, 2; Black, Nasmith, Langell, Boys, Jackson, 3; Sellwood, Reed, 5:40; George, Stephenson, Marsala, Japan, 7:30; D. O. Mills, Joliet, 9; A. E. Ames, 10; Queen City, 11; Mariska, 1 p. m.; Stewart, 2:30; Wood, 3:30; Child, 4; Lange, Nottingham, Superior, 4; Burlington, Northern King, Conly, 5; Saxona, Moore, 5:30; Snyder, Northwest, Maru, 7; Corey, Pere Marquette, 8:30.

Upper Peninsula

Big Building for Escanaba—The National Grocery company has awarded contracts for the erection of a large warehouse at Escanaba. The building will be 50x140 feet in dimensions, and four stories high. The front will be constructed entirely of pressed brick. The building will be located at the north end of Oak street abutting the Northwestern yards.

A \$25,000 Timber Deal—Robert Gerstner, a well-known lumberman, recently sold three sections located in Iron county, adjacent to the St. Paul road. The lands contain a large tract of hardwood timber. The property was purchased by a Grand Rapids (Mich.) firm engaged in the manufacture of lumber and veneers for the furniture trade and the construction was \$25,000.

Near a Double Drowning—Bert and Sven Mathewson, brothers who live at Manistique, were out in a row boat on Indian Lake, enjoying themselves, when they got to trolling. The boat was upset and they were thrown into the water. Miss Anna Knopf and her brother Charles were near and seeing the accident hurried to the scene. They arrived just in time to catch the men as they were going down for the last time. The brothers were taken ashore and thoroughly rolled and they were soon none the worse for the experience. But for the timely assistance of the Knophs the men would have found a watery grave.

Local Option Campaign

The officers who will have charge of the prohibition campaign in Lake county are: President, M. E. Baumann; vice president, W. E. Johnston; secretary, Rev. Baxter Waterson; treasurer, Charles Paige. Committee men were appointed in all townships in the county as follows: Columbus, Rev. J. H. Mapplebeck, F. H. Rickard and John Hatch, Labelle, Robert Byers, Sr., John Richards, Fred Root and Wesley Mark, Mexilian, Rev. Levi Bird, M. E. Baumann and W. E. Johnston, Pontland, E. N. Gaudet, Andrew Carlson and A. P. Pratt. The four executive officers and chairman of the several township committees constitute a central committee. Petitions will be circulated to submit the question to the voters at the election next April. The signatures of one-third of the electors voting at the last general election is required. That the local option people will have little difficulty in securing the required number is admitted by everyone, says the Newberry News. Active campaigns are now in progress in six upper peninsula counties, Chippewa, Schoolcraft, Menominee, Luce, Dickinson and Mackinac, with some prospects that Mackinac will be added to the list. It is proposed to submit the question in all these counties at the April election, provided the necessary signatures are secured. The local optionists express themselves as being confident they will win in some of these counties. During the fall and winter months the league will invade the peninsula with many speakers of state and national reputation and the liquor interests will also undoubtedly conduct an organized campaign.

If you have thought of sitting for a picture let me try. ED C. LEMON, 7-10-30. Photographer, Harlow Block.

Delay in commencing treatment for a slight irregularity that could have been cured quickly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. Sold by all Druggists.

John W. Green, M. D.

WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments COST NO MORE THAN PLAIN ONES IN WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care and eventually crumbles back to Mother Earth. Besides, it is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

Geo. E. French,

MARQUETTE, MICH.

Agent for the Monumental Bronze Co., of Bridgeport, Conn. GENERAL TEAM WORK.

Life Insurance Refused

Thousands of men are refused life insurance every year because of some slight disability or for some similar trouble back in their family.

If you have been refused life insurance for any reason and want to insure those depending on you, it is an easy matter to provide a fund for their protection in case you die. Pay your "premiums" to the bank. Deposit regularly a certain sum with us. You can pile up money rapidly if you do it with system. It is payable to your estate. There is no trouble getting it out.

Many men keep two accounts at the bank--one for checking purposes, to pay bills, keep posted on expenses, etc.; the other a trust fund, to be added to regularly and which they never draw out--a protection for their families in case of death.

Marquette National Bank

Marquette, Mich.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday, telegraphed as follows: "The action of the Steel issues today revealed bullish sentiment on the part of the purpose of causing short covering in other quarters. The railway equipment issues are being favorably recommended, and bullish talk is heard on Republic Steel issues. Resumption of gold exports is not causing any unfavorable comment in view of the existence in money circles. It is thought that copper metal issues will become more active in view of good consumptive demand for the metal."

The final quotations follow: Anaconda... 91 1/2; M. & T... 41 1/2; Am. Smelter... 90 1/2; Steel... 60 1/2; C. & G. O... 77 1/2; St. Paul... 154 1/4; Erie... 28 1/2; S. P... 38 1/2; Kans. C... 28 1/2; Wis. Cent... 54 1/4.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the local market: "The stock market consisted principally of North Butte today. This stock, which was so weak on Saturday, was equally as strong today. Several good sized buying orders furnished adequate support for all the forced selling this morning, and as the day progressed additional buying was furnished by the traders and one large New York house. Opinion seems to be divided as to the exact merit of the property at present, but shrewd judges of the situation are picking up the stock at this level on the theory that it has discounted any disappointing news in the lower levels and furnish. The metal market was slightly better today, and we think the turn has very nearly come in this sagging market. Coppers will be very scarce on the upside and the change of loss is small in purchasing the good stocks under the present level."

Closing prices were: Adv... 67 1/2; Utah Cop... 48 1/2; Victoria... 4 1/2; Ariz... 21 1/2; W. Va... 10 1/2; Atl... 8 1/2; W. Minn... 14 1/2; Am. Con... 24 1/2; W. Minn... 14 1/2; C. & G. O... 77 1/2; St. Paul... 154 1/4; Erie... 28 1/2; S. P... 38 1/2; Kans. C... 28 1/2; Wis. Cent... 54 1/4.

The number of shares sold during the day were as follows: Amal. Cop... 215; Oceana... 90; Advertiser... 215; N. L... 215; Ariz. Copper Metal Prices. New York, July 12.—Copper was higher in London today, with spot quoted at 458, 7s, 6d and futures at 459, 5s. Locally the market was weak and a shade lower, with Lake quoted at 13.25, 15.37 1/2, electrolytic at 12.75 and 12.57 1/2, and ending at 12.62 1/2 and 12.57 1/2.

Boston, July 12.—A little activity has developed in casting copper and sales have just been closed at 13 1/4 to 13 1/2 cents, with the result that there is but little of this grade in first hands obtainable for either this month or August. Electrolytic still holds dull, but producers are not anxious for it and, being in a well sold position so far as electrolytic and copper is concerned, they realize that when consumers commence looking for September orders in earnest it will take but a few days to clean up the whole market for that month.

Mohawk. Boston, July 12.—The action of the Mohawk Mining company directors in declaring a dividend of \$1 a share as compared with \$2 six months ago and \$2.50 a year ago was along the lines of conservatism. Mohawk's rocks in the past two years has been constantly lowering in its value of copper, which has had much to do with a corresponding increase in operating costs, it being necessary to treat a large tonnage of rock to obtain the same results in refined yield as in former years. Through the opening of a new shaft Mohawk is confident of entering new ground which may prove sufficiently good to bring up the average copper contents of the remaining portions of the mine.

WALL STREET MORE CHEERFUL. However the Trading Is Slow and Large in Hands of Professionals.

New York, July 12.—Speculation in stocks maintained a waiting attitude today, but in more confident mood than was evident last week after the disappointing response to the favorable report. The professional element had narrow margins, targets to themselves. Some of the demand which landed the price today came from unworked shorts put out last week. Commission houses reported a slight but appreciable increase in the buying orders from outside sources.

These manifestations in the tone of the market shaped a feeling that the satisfactory prospect for affairs would induce the holders of stocks to cling to them, even in the absence of a growing demand. The sluggishness of the demand has been attributed to the desire for more information on the crop out-turn. There was an incipient upward movement in wheat early today, based on the report of rains in Kansas which might interfere with the harvesting of winter wheat, but the other outlooks of the senate were nevertheless so pessimistic that the effect of the general good conditions reported.

The extremely cautious attitude of the speculation was well exemplified in the movement of United States Steel. That stock advanced easily and without encountering serious obstacles to its previous record level at 69 1/2. It was obvious that a slight effort would top the previous record, as the amount of stock coming out at the top figures was so conspicuously greater than at other stages of the advance. A recession of 1/2 in the price seemed to stop the selling. Yet the stock hung suspended while the activity lessened to semi-stagnation and no bid at 70 came forward for execution.

Money remained easy. Chicago exchange still ruled at a discount and the sub-treasury operations made some improvement on the local banks. The fact that gold nevertheless continued to go out is taken to imply a degree of currency inflation. However, the domestic exports for June showed the continued effect of the shrinking wheat and flour movement, 686,063 bushels of the former having gone out compared with 4,828,616 bushels last year, while the flow of 455,738 barrels compared with 229,402 barrels in June last year.

Copper was marked down at the New York Metal exchange today. Rumors of a union Pacific-Indiana Central deal again benighted the latter stock, and Reading was the subject of a characteristic upward movement. The rise in United States Steel had sympathetic effect on the whole list.

CHICAGO GRAIN MARKETS. Chicago, July 12.—Wheat sold today at 12 1/2, a new high record for the season. The market was irregular, the July being strong while the distant options were weak. Rains for the past forty-eight hours and flood news in the winter wheat belt alarmed the shorts and caused them to bid eagerly for the July. The other deliveries were affected by the favorable reports from Argentina, where rain was reported as having broken the long drought. Owing to the floods the receipts of wheat at Kansas City and St. Louis were extremely light, and the cash prices at those points were up from two to four cents.

ELEMENTS COMBINE IN CAUSING HAVOC

Furious Storms Rage in Illinois, Indiana, Ohio, Iowa and Missouri—Crops Suffer, Wires Are Down in All Directions and Lives Are Lost.

Bloomington, Ill., July 12.—Two sons of Thomas Quayle, aged sixteen and thirteen, were killed by lightning while working in the harvest field near Mahomet today.

Havana, July 12.—During a storm which today brought lightning, struck a tree on the farm of Will Strube, and a half mile northeast of here, instantly killing Strube and his hired hand, a man named Roberts. They had been working in the field when the storm came up and they sought refuge beneath the tree. They had scarcely reached their place of shelter when lightning struck the tree, shattering it and killing both men.

Crops Levelled in Indiana. Indianapolis, July 12.—Great damage to growing crops as a result of a storm which swept over Indiana this afternoon. The storm was general in the state, wires in all directions being down. In Indianapolis the wind rose to the velocity of thirty-two miles an hour, and in several places and out were levelled by the driving rain in all portions of the state.

Danville, Ill., July 12.—A tornado struck Fithian, near here, today, wrecked a number of stores and damaged a large elevator and the shipowner station of the Illinois Traction company. A far as is known, but few persons were hurt, and their injuries are slight.

Wires Down in All Directions. Chicago, July 12.—The storm of wind and rain which later today has been particularly severe in the Missouri valley has swept around until it encircled Chicago, and reports received by the telegraph companies, whose wires are in bad condition. Wires are down in every direction from here, and those still remaining are said to be working badly tonight. Wires are down or are in trouble in Missouri, Indiana and Kentucky. The storm extended during the day from Louisville to Minneapolis and Kansas City and from Duluth to Cleveland, and tonight it worked eastward.

One of the heaviest storms was at Alton, where a vessel was so severely damaged that the steamer Alton, unable to make a landing at the usual place, attempted to reach the Missouri side. A shift of the wind tossed the boat back and caused a panic among the three hundred passengers, who rushed to the deck. The vessel was in such a manner that steering was impossible and the boat was jammed into a pier of the bridge. The upper works were torn away, but the wind held the vessel against the bridge until the passengers were safely transferred to shore.

St. Louis a Heavy Sufferer. Considerable damage was done in St. Louis, but no lives were lost. The storm struck portions of Ohio, and one person—R. C. Wilkewitz, a farmer—was killed by lightning. At a point seven miles from Hamilton a funeral procession encountered the storm and several persons were more or less injured.

Lightning struck the outskirts of Camp Williams H. Tatt, where some of the troops which participated in last week's tournament were still quartered. The storm struck a tent, and one Sheridan, Ill., was killed. Many telegraph wires were put out of commission in western Pennsylvania tonight by a severe electrical storm which swept that portion of the state.

Misouri River Continues to Rise. Jefferson City, Mo., July 12.—The Missouri river continued to rise today and has spread over a wide area, raising crops and damaging farm houses. A telegram from Pottsville, Pa., states that the conditions in that country are terrible and appeals to the governor for clothing and provisions.

A CHECK ON PROHIBITION. Federal Agents a Bar to State Enforcement—Express Cannot Be Stopped. Washington, July 12.—A novel scheme to evade prohibition laws has been devised by the incorporation of express companies which operate between states.

The "safe and sane" and noiseless Fourth of July, tried in Washington for the first time, was a tremendous success for everybody but "little Johnny." All the grown-ups enjoyed the day immensely, for, with the exception of the fireworks exploded by the commissioners for the benefit of the whole city, there wasn't a single bang or boom to be heard in the capital the whole day.

General Andrew S. Burt, a retired old fighter of the army, has come to the residence of the boys. He declares it is an outrage to deprive the boys of noise on the Fourth, and predicted that if the old-fashioned celebrations were stopped the "inborn patriotism of future generations" would be stamped out.

"How in Hades," says General Burt, "do you expect to educate the Fourth of July without fireworks?"

EPWORTH LEAGUE RESOLUTIONS. Seattle, Wash., July 12.—The Epworth league convention today adopted resolutions providing that international conventions shall be held quadrennially, and denouncing the liquor traffic.

St. Paul, July 12.—The Christian Endeavor convention closed tonight with a number of addresses, the principal one being by President Francis E. Clark.

NEBRASKA LAW INVALID. Lincoln, Neb., July 12.—The supreme court today declared the Donohoe non-partisan judiciary election law invalid. This means that the election of judges of the supreme court and district courts, regents of the university, county judges and county superintendents by the use of separate ballot cannot take place. The old law will continue to hold.

WINS TWO TENNIS TITLES. St. Louis, July 12.—Drummond Jones, of St. Louis, won two titles here today in the conclusion of the tournament of the Central States Tennis association. He and Charles S. Peters, of Chicago, defeated Paul Gleason and Orlando Vernon, of St. Joseph, Mo., 6-3, 9-7, 6-0, in their final doubles contest, and in afternoon Jones defeated his partner, 6-1, 7-5, 6-4, for the singles championship.

CATS DISRUPT CLUB.

Serenade on Fence Leads to Estrangement Between Members.

Sacramento, July 12.—Two cats have caused an exclusive bridge club to be discontinued here, and two neighbors well known in society to change from warm friends to mere nodding acquaintances. Between John J. McHenry's residence and Edgar Spencer's was a half fence. On this fence recently the two cats, staged a midnight performance.

After being kept awake until a very trying hour of the morning, Mr. McHenry rose from his bed, carrying a shoe. When he had raised the window, with all his might he threw the missile, missing the cat by a half-yard. The shoe whizzed over the fence and crashed through the window of the Spencer home.

According to Mr. McHenry, his neighbor insulted him in his demand that the former pay for the damage caused by the misdirected shoe. Mr. Spencer resigned his position of president of the bridge club because his neighbor was a member. And Mr. McHenry resigned because of the alleged insult by Mr. Spencer.

IRON MARQUIS BURIED.

Funeral of the Man Who Crushed the French Commune.

De Gallifet Put Down the Terrorists With Great Severity—Saw Justice Done in the Dreyfus Affair—His Bravery at Sedan Commended by Old Kaiser Wilhelm.

Paris, July 12.—The funeral of Gaston Alexandre Auguste, the marquis de Gallifet, took place in Paris today. He was one of the most picturesque figures of older France. Countless tales are told of his feats of bravery, and following his fifteen years' service completed in 1868, Napoleon III. said of him: "Drouot represents bravery, but Gallifet represents bravery. I believe that he, like Bayard, could easily defend a bridge against all comers." He received his colonelcy in 1867.

Born in Paris, Jan. 25, 1830 a marquis of the old petty nobles by right of birth, he entered the army as lieutenant of Hussars when he had just turned eighteen. That was in 1848, the year of the Revolution, and the young marquis soon won recognition as noble, Parisian, soldier and anti-revolutionist, a threefold character he never lost throughout his long service in the army. He was with Louis Napoleon when rising from president to emperor, de Gallifet, who had a considerable fortune, led the gayest set of his day in crackbrained exploits which kept the city talking and their families meaning with apprehension. His entrance into the service was signaled by killing a fencing master in a duel. There was a real soldier in de Gallifet, however, and he won promotion to sub-lieutenant in 1853. In the Crimea he was made a chevalier of the Legion of Honor for bravery at the capture of the redoubts before Sebastopol, and he served with equal distinction under General Domet in the Italian campaign of 1859.

Gallifet's next service was in Mexico, where he took part in the ill-starred expedition of Maximilian, which ended so disastrously. At the siege of Puebla, in 1863, he was badly wounded by an exploding shell. The surgeons gave him up as mortally wounded, but according to his own account he pulled a small mirror from his pocket, said to himself, "You have not the face of a dead man and set himself to recover. His determination saved his life, and except that he had to wear a small silver plate in his abdomen for the rest of his life he grew as strong as ever. He was made a colonel in 1867, and fought in the Franco-Prussian war as a brigadier general. When the commanding officer of his division, General Marguerite, fell, he took the lead in one of the impetuous charges which excited the admiration even of the old Kaiser Wilhelm. General de Gallifet was taken prisoner at Sedan, and remained a prisoner at Coblenz until the end of the war.

Returning to France he was entrusted by Thiers with the suppression of the commune, a task which he fulfilled thoroughly, and with the greatest severity. Stern soldier as he was he was accused of using unnecessary harshness towards his prisoners. It was said that he would make those brought before him hold up their hands. If they showed powder stains he would say: "Oh, take them away and shoot them. Don't worry me." In reply to these charges, however, the general remained characteristically silent, holding that a soldier has no right to discuss such matters. In 1872 he took charge of the El Goleah expedition in Algeria, which offered great difficulties in the matter of transporting troops. He overcame all obstacles by executing a rapid march through desert country and was enabled effectually to subdue the revolted native tribes. For this service he was made a commander of the Legion of Honor.

General de Gallifet was one of the first Royalists to rally to the support of the republic and became the personal and loyal friend of Gambetta. His advances to the command of a division came in 1873. Four years later he was put at the head of the Ninth Corps d'Armee at Tours. It was on that occasion that he won an international reputation for the perfection of his cavalry maneuvers. He anticipated later military methods by making them as nearly like service in war time as possible. In 1888 cavalry maneuvers at Chalons carried on under his direction so greatly impressed foreign visitors that he was dubbed the greatest cavalry officer of his time. His retirement from active service came in accordance with the French law in 1894. But retirement did not keep General de Gallifet out of the public eye. His utterances regarding the Dreyfus case attracted universal attention. He summed up that situation thus: "Dreyfus at the Be du Diable, Plegmat prosecuted, Esterhazy in exilium, Henry dead, De Paty de Clam threat-

NOT ANXIOUS FOR BINGHAM.

Republican Leaders Fear That He Will Be Unpopular.

Committee of One Hundred Scores the City Government—The Code Revision Taken as an Example.

New York, July 12.—Since General Theodore A. Bingham, through his removal as police commissioner became a majority possibility, leaders in New York County have been making inquiries concerning his strength and have concluded he would not make a desirable candidate. While declaring that his reputation for honesty and aggressiveness would bring votes in many sections of the city, they assert that he is extremely unpopular in some quarters and that his nomination by the Republicans would alienate thousands and thousands of persons he once antagonized in a public statement. This fact, some of the leaders declared, practically eliminates General Bingham from the list of probable candidates. They say he doubtless would lend strength to the ticket in some sections of Brooklyn and in the uptown sections of New York, but they add that his unpopularity among the residents of the great East Side would alienate far more than he could gain elsewhere.

General Bingham's unpopularity, they assert, was in large measure the result of a statement made by him about a year ago, to the effect that a large portion of the criminals of New York City were of a certain race. This stirred up a tempest among various societies and organizations and by all of them General Bingham was condemned. According to information brought to Republican headquarters during the last few days, the feeling against General Bingham is just as bitter today as it was the day after his utterance was made. This information was of special interest in political circles because of the published announcement that General Bingham would accept a nomination for mayor if the people of the city felt that he were needed.

On the highest authority it may be stated that the Committee of One Hundred did not talk at all to General Bingham about the mayoralty nomination. His representatives visited him at his apartments and asked him if he would take part in a campaign against Tammany and he declared he would do so. There was no thought at that time among the reformers about having him run for mayor, but after his departure the idea was suggested and it spread rapidly with Republicans and reformers. One leading Republican said he believed General Bingham was the logical candidate. The discovery of General Bingham's unpopularity on the East Side has materially changed the situation.

In the words of a Republican leader, the Republican organization of New York County will not nominate General Bingham unless it is absolutely forced to do so by public sentiment, and such a development is not expected. There are several reasons why straight organization men would hesitate to nominate General Bingham unless they felt compelled to do so. Chief among them is the fact that the organization likes to elect a man whom it can count on to some degree at least, and the leaders do not believe they could manage General Bingham any part of the time. Members of the reform committee of One Hundred declined to talk of the Bingham situation for fear that it would alienate some of them said that they did not look upon him as a mayoralty probability, though they would like to see him again take charge of the police department. Up to the present time there have been no conferences of Republican and reformative of the various reform organizations looking toward fusion. It has been agreed, in fact, there shall be none until the last week in August. Until that time, it is understood, there will be no serious discussion of candidates. There will be a meeting of the committee of one hundred this week and a meeting today of the executive committee. Plans have already been made to conduct a crusade against certain magistrates in Brooklyn whose records on the bench have been criticised.

LEARN'S NAME AFTER YEARS.

Michigan Man Called Preutz Discovers That He is Muldoon.

St. Johns, Mich., July 12.—For forty years a Clinton county resident has been living under a name which he had learned was his own name was. The name which he has used so long and which he now discards for the real one of James Muldoon is Henry Preutz. His story is a strange one, and it has taken nearly half a century to secure the facts.

At the breaking out of the civil war John Muldoon, his wife and their three sons and one daughter, the latter all small children, were living in Charleston, W. Va. The father enlisted in the Union army and went South. In a few months he was located in the city where his husband had been killed, and he moved to Detroit, in the hope that he could find work to support the children. Soon after reaching there, however, she sickened and died, and the children were scattered throughout the state, he went by different routes. He has succeeded in locating a brother in Montgomery, Ala., from whom he learned his name. The two are now engaged in a search for the other brother and sister and will hold a family reunion when the latter are found.

WAS BURIED IN ROCK.

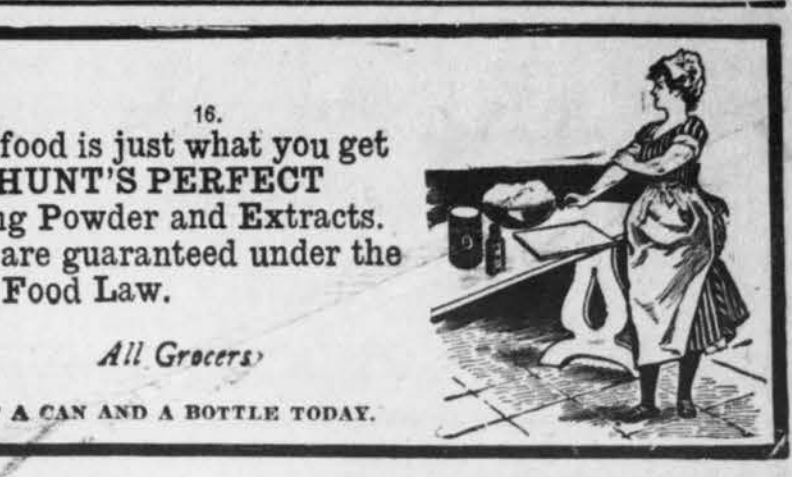

Montana Miner Finds a Live Lizard Nine Feet From Surface.

Great Falls, Mont., July 12.—In a coal mine near here Moses Martindale, a miner, uncovered a lizard about nine feet from the surface and imbedded in the solid rock. There is no conceivable method by which the lizard could have entered the cavity since nature closed the gap thousands of years ago. Who or what first uncovered the reptile was torpid. When brought to the light, however, it showed some signs of life. There is no evidence that it has been affected in any way by its long and dark imprisonment in the solid rock.

HYPNOTIST NEAR DEATH.

Baltimore, July 12.—H. V. Siedenber, a hypnotist, who was giving an exhibition of a long hypnotized man in a coffin buried in a grave, had a narrow escape from death. Although he had two air tubes connected with his living tomb, his vitality nearly gave out, and when taken out of his grave, he was found in a critical condition.

He had been buried ninety-six hours, and was to have remained in the casket 300 hours. To all appearances he was in a hypnotic sleep when placed in the casket and lowered into the grave. Watchers were near him day and night. At 9 o'clock Milton Stockert, a watcher, received a signal for help from the buried man. Through an opening, covered with glass, in the grave the watch-er could see, by the aid of an electric light, that Siedenber was in distress. The casket was dug up just in time.

Pure food is just what you get with HUNT'S PERFECT Baking Powder and Extracts. Both are guaranteed under the Pure Food Law.

YOUNG HAMPTON TO DIE THURSDAY

TO THE SONS' CONVENTION.

Several Ishpeming Members Will Leave for Ironwood Tomorrow.

A number of the prominent members of the Sons of St. George society of this city, Negaunee and the Winthrop will leave tomorrow for Ironwood to attend the grand lodge session, which it is convened Thursday morning. Two days will be devoted to the grand lodge work, and on Friday evening the officers and delegates will be tendered a banquet by the Ironwood lodge. Saturday will be the big day, with a reunion of the various lodges in the state.

The committee on election of the grand lodge met recently at Calumet and counted the ballots cast for the new officers. The grand lodge officers are voted for by the past presidents of the various lodges in the state. The grand lodge is ratified by the grand lodge. While the election committee announces the result of its canvass, the number of votes received by each candidate is not given until the grand lodge session. Several of the officers were not contested for, but spirited fights were waged for some of the others. There were three candidates for the office of grand messenger. There was no election in this office, however, and the grand messenger will not be named until the grand lodge session at Ironwood. John F. Rowe, of Calumet, John T. Miners of Trumountain and John Shea of Detroit, all of whom have been prominent in lodge work for some years, are the contestants. The officers who have received a majority of the votes and who will be declared elected are:

Worthy Grand President—J. Curtis, Negaunee.

Vice President—W. Frank James, Hancock.

Secretary—Stephen Terrill, Ishpeming.

Treasurer—J. Hocking, Lake Linden, Ishpeming.

Assistant Secretary—R. L. Nichols, Ishpeming.

Assistant Messenger—J. Martin, Iron Mountain.

Chaplain—Albert Kent, Trumountain.

Inside Sentinel—W. H. Bamford, Ishpeming.

Outside Sentinel—Edward Hill, Ironwood.

Trustee—R. H. James, Iron Mountain.

Chairman of committee on finance and mileage—E. J. Goodman, Negaunee.

Chairman of law—William Andrews, Ishpeming.

Chairman of appeals and grievances—Thomas Hendra, Ishpeming.

PLANTS WORKING WELL.

Much Silica Ready for Shipment from the Michigan Mine.

Both the gold and silica plants at the Michigan gold mine are now working very satisfactorily. Nearly one hundred tons of silica are ready for shipment, and the first clean-up of the gold is now being made. The silica is of first class quality, although it is not as white as the management expected it would be. Due to the fact that it comes in contact with iron in passing through the mills, also in the separator. A little experimenting will be necessary in order to eliminate the dark color. The whiter the silica the better price it will bring, especially if it is ground to a certain fineness. The experts who have examined the silica report that it is as fine as any to be obtained in the country, but that it is not as white as should be obtained from the quartz.

CLERK-CARRIER EXAMINATION.

Applicants for Positions in Postal Service Must File Shortly.

The United States civil service commission announces that an examination will be held in this city July 31 for the positions of clerk and carrier in the postoffice service. The clerks in offices of the first and second class and carriers in the city delivery service are divided into six grades, as follows: First, salary, \$800; second, \$780; third, \$760; fourth, \$1,000; fifth, \$1,100; sixth, \$1,200.

The examination will consist of seven subjects—spelling, arithmetic, letter writing, penmanship, copying from plain copy, United States geography and reading addresses. For a perfect mark in all of these, with the exception of arithmetic and letter writing, ten points will be given. For the two exceptions mentioned there will be a score of twenty points for each.

The age limit of applicants will be from eighteen to forty-five. The limits are waived, however, in the cases of persons honorably discharged from military or naval service by reason of disability resulting from wounds or sickness incurred in the line of duty. Applicants for positions are required to be physically sound and in good health.

The examination is open to all citizens of the United States who comply with the requirements. Application blanks, instructions to applicants and other information can be obtained from the secretary of the board of examiners at the Ishpeming postoffice. All applications must be on file with Peter Newton, secretary of the civil service district, Chicago, Ill., by the 19th.

LECTURE THIS EVENING.

Colonel James L. Taylor, special agent of the American Railway association, will lecture this evening, commencing at 8 o'clock, in the gymnasium of the Young Men's Christian association's block. His subject will be "Dynamite and Explosives." The officers extend a special invitation to all miners, railroad men and others interested, whether they are members of the association or not. Mr. Taylor has given his subject a great deal of study. He is an entertaining speaker and his lecture will doubtless be interesting. There will be no admission charge.

EXCELSIORS DEFEATED INDIANS.

In the second of a series of ball games between the Excelsiors and Indians, played Sunday afternoon at the Junction, the former won in a score of eleven to two. The Indians took the previous game, seven to six. The battery for the Excelsiors in Sunday's game was Dalton and Fregolle. The Indians used two batteries, Henry Johnson and Ayotte and Gust Johnson and Pigeon.

ILL ONLY A SHORT TIME.

Mrs. Josephine Vermette, wife of Eugene Vermette, of Saginaw street, died Saturday, after a very brief illness. She was thirty-eight years of age and is survived by her husband, nine young children. The funeral will be held this morning at 9 o'clock from St. Joseph's church.

ELEVEN-INNING GAME.

The Young Settlers of this city defeated the Buffaloes of Negaunee in a close and exciting baseball game Sunday morning at the Union Park grounds. The contest ran for eleven innings, resulting in a score of three to two. The Buffaloes made two runs in the first inning, while the Settlers scored one each in the fourth, sixth and eleventh. "Oaks" Andrews, until recently a member of the league team, pitched for the Settlers, and Hill wore the mask. Mursio and Holmberg filled the points for Negaunee. The Settlers had one error and the Buffaloes three. Andrews was touched for four clean hits and Mursio for eight.

FROM MORGAN'S CURB LETTER.

"North Butte was again the center of attraction in the Boston list, but contrary to expectation, support was forthcoming at the opening, and the price quickly advanced to 51. Some recession took place from the top figures, but the close is 2 1/2 points over Saturday. Superior & Pittsburg showed a little more activity, improving 1/2, but did not hold. There is said to be a strong probability of the bonding of a large group of mining claims between Conrland and Gleason to the Superior & Pittsburg company. Little change was shown in the curb trading, but the market holds steady. We note a better demand for Cordova, 82 paid, which advanced 1/4 in the bid price without bringing out much stock. Cactus, Chief Consolidated and San Antonio were unchanged. Electrolytic and Lake copper were both reduced 1/4 in the asking price. A better inquiry has developed today for casting copper, with the result that this grade of the metal sold as high as 13 1/2 cents, apparently cleaning up the available supplies for this and next month's delivery. The declaration of a \$1 dividend on Mohawk was practically without effect on the stock. The amount of the dividend was disappointing, as \$2 was generally expected, which was the amount declared

E. E. SCRIBNER HONORED.

E. E. Scribner, superintendent of the Ishpeming public schools, was elected one of the vice-presidents of the National Educational association at the meeting held last week in Denver. He was also elected one of the school directors of this state. Mr. Scribner will not return to Ishpeming for several days.

ISHPEMING IN BRIEF.

P. H. Bess and family are spending a few weeks at Grand Island.

The employees of the city were paid yesterday for last month's work.

Miss Anna Coyne of Fond du Lac, Wis., is visiting with Mrs. George F. Ruez.

John Talo has accepted a position as collector and solicitor for the Cable Piano company.

A. L. Lowenstein, who is in the wholesale whiskey business at Menominee, was in the city yesterday.

Peter Hamburg, assistant cashier of the Peninsula bank, is confined to his home with diphtheria.

Miss Viola Jones entertained a number of her young friends yesterday afternoon at her home on Ridge street.

Will Hathaway is down from Colorado. He is to be married tomorrow afternoon to Miss Margaret Maloney of Negaunee.

Jack Neenan left yesterday morning for the Pacific coast. He intends to spend the next two years traveling through the West.

F. R. Bay, proprietor of the Diorite store, and J. B. Roberts, cashier at the American mine, spent Sunday with Ishpeming friends.

William Price, Ira Young and L. B. Trent are here from Lehigh University. Mr. Trent has taken a position with the Oliver Iron Mining company as an engineer.

The employees of the Cleveland Cliffs Iron company's Hard Ore and Salisbury mines will be paid today. Tomorrow the Cliffs shaft and Lake men will receive their checks.

Elzie Haydep and Fred Conklin, the

H. W. ELSON

Manufacturer of

Fine Carbonated Beverages

County Phone 403. 325 Cedar St. 3-30-14 Ishpeming, Mich.

latter of Marquette, spent Sunday and yesterday in the Yellow Dog district with George Hayden and Lawrence Barnett, who are camping there.

William Trebilcock put a crew of men to work yesterday removing the board walks from the east and south sides of the High street school property, where concrete is to be laid. Walks are also to be laid inside the yard.

Dr. O. E. Youngquist of Escanaba, who was well known here, died Sunday night. His widow was formerly Miss Minnie Gustafson of this city, they having been married about fifteen years ago. The deceased was a brother of Dr. Youngquist of Marquette.

The Gately baseball team would like to arrange games with other teams in this city and in the county. The Gately's average eighteen years of age and teams outside of Ishpeming or that age wishing to secure games can do so by corresponding with Walter Johnson, 219 West Johnson street.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is terrible to the food you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

COUNCIL MEETING WAS RATHER TAME

COMPARATIVELY LITTLE BUSINESS OF GENERAL IMPORTANCE TRANSACTED LAST NIGHT.

WILL INSPECT SAND ON BEACH

Aldermen to Visit Lots on Lake Shore as Result of Mayor's Veto—Milk Ordinance Still With Committee.

Compared with others of recent date last night's council meeting was very tame, and but little business of general importance was transacted. In the absence of Mayor Vaughan during the first half of the session, Alderman Ekstrom, president of the council, wished the gavel in a manner highly satisfactory to all.

It had been expected that some of the resolutions might attempt to pass the resolution authorizing the purchase of the Hewitt avenue sand lots over the mayor's veto, but the whole matter was put over until the next meeting, and in the meantime, all the members of the council will inspect the sand lots and the beach along the eighty foot strip adjoining the light house reserve.

Another communication from the park, cemetery and street commission related to sprinkling streets, and stated that if the commission were to add to the territory now sprinkled another sprinkler would be necessary, and the council would have to furnish money for the purpose. As no action was taken on this communication, other than to place it on file, West Washington street and others will probably not be visited by the street sprinkler this summer.

A petition from residents near the south end of Fourth street, asking that part of the street be cleaned and curbed to prevent the sand being blown about, was referred to the street committee.

In the matter of improving the road from Holy Cross cemetery to the electric light and power station, the street committee reported that the road was not in need of extensive improvement, but that the bridge at the place should be replaced with a new wooden structure.

It was further recommended that the difference between \$6,000 due the city from the light and power commission, and \$5,000 due the commission from the city, be used in improving the road. The report of the committee was adopted.

An assessment roll for the improvement of Ohio street from Spruce street 400 feet east was presented and an arrangement was made whereby work may be begun at once, upon the payment into the city treasury of two-thirds of the cost of the improvement.

The street committee recommended that the light and power commission be requested to place an arc light at the corner of Newberry and Division streets, in accordance with a petition presented at the last meeting.

The profile for a sewer in Seymour avenue, 220 feet north from Bluff street was adopted, after some discussion as to the competency of the engineer who made it. New profiles were ordered for the Fifth avenue, Norwood street and Crescent street improvements.

On information that a short strip of walk built at the north end of Spruce street had been built in front of city property, the assessment for the same, charged against the Merritt estate, was cancelled, and the recorder was notified to inform Mrs. Merritt to vacate said city property, as it was needed for public purposes.

Alderman Schauer requested that the committee on pounds look into the trouble that was being had in North Marquette from owners of cows allowing them to browse along the runways and to trespass on private property.

Alderman Ward moved that the street committee look into the condition of the bridges on Presque Isle drive across Dead river, two of which he believed to be unsafe, but when informed by the superintendent of streets that measures were now being taken to make them safe, he withdrew his motion. The council then adjourned until Aug. 2.

FURS.
Mrs. G. L. Andrews, representing the T. A. Chapman Co.'s fur department of Milwaukee, Wis., will be at the Marquette, Thursday, Friday and Saturday of this week with a complete line of fur furs. Ladies are invited to call. (7-13-24)

JURY DISAGREED.

Small Case Assumes Large Proportions in Justice Court.

After a preliminary hearing and trial occupying most of yesterday, an alleged assault and battery case, which appears decidedly trivial to an outsider, ended in a mistrial, the jury failing to come to an agreement. The case will be re-tried Wednesday.

The complaining witness in this case is Mrs. Augusta Matt, an elderly woman, residing on McMillan street, who alleges that Theophile Birehman, her next door neighbor, was guilty of assault and battery on the evening of July 5. A chicken seems to be at the bottom of the trouble. The Matts claim that Birehman's chicken came into their yard on the afternoon preceding the trouble, and that Mrs. Matt carried the fowl back into Birehman's yard, but in trying to put it in a coop, she let out some other fowls.

That evening when Birehman came home, he went into Matt's house, where some sort of trouble occurred, the Matts claiming that Birehman seized Mrs. Matt by the hands and shook her roughly until ejected from the dwelling. Birehman says he went over to see if his chickens had done any damage and at no time did he touch Mrs. Matt. He further declares that he is being persecuted by the Matts, because Mrs. Birehman gave testimony unfavorable to them in the Matt-Smeltzer case, tried several months ago. W. S. Hill is attorney for the Matts and C. F. Eaton for Birehman.

COMMITTEES APPOINTED.

Monthly Meeting of Visiting Nurse Association Held Yesterday.

At the meeting of the Visiting Nurse association held yesterday afternoon, the following committee appointments were made for the ensuing six months: Finance—Mrs. H. R. Harris, chairman, Miss Kate Werner, Mrs. A. E. Boswell, Mrs. C. A. Shelton, Mrs. Bates G. Bart, Mrs. Oscar Sandahl, Mrs. Mitchell DeHans.

Relief—Mrs. H. H. Williams, chairman, Mrs. J. E. Connell, Mrs. J. D. Mangum, George Hager.

Needlework—Mrs. Pearce, chairman, Mrs. R. J. Hornbogen, Mrs. Edvard Berg, Mrs. A. E. Archambault, Mrs. Kitchberger, Mrs. Oscar Sandahl, Mrs. Halby, Miss Neidhart and Miss Brown.

The report of the visiting nurse for the month of June showed that twenty-four patients had been visited, nine of whom were new patients, and that 131 visits had been made all told. Immediate relief was given two families and one person was taken to a hospital. Of the nine new patients treated, three were Americans, two French, one Scotch and three Swedish.

During the month \$143.13 was expended by the association.

THEATRICAL.

"The Burgomaster"
W. P. Cullen has made a big revival of Pixley & Luders' famous musical comedy success, "The Burgomaster," and will present it at the opera house the night of July 19, with a large cast, headed by Harry Hermsen.

For information as to location and locating parties write to the company at Spokane, 704 Peyton block, Washington. (7-8-09)

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. Sold by all Druggists.

SHOULD ARC LIGHT RATE BE REDUCED?

PROPOSED REDUCTION WOULD SIMPLY MEAN TRANSFERRING \$1,920 PER YEAR FROM LIGHT AND POWER COMMISSION TO COUNCIL.

A meeting of the light and power commission was held at the city hall yesterday afternoon but nothing except the auditing of the monthly bills and routine business came up. At the council meeting a week ago, that body recommended that the light and power commission reduce the price charged for city arc lighting from \$75 to \$60 per lamp per year, but the matter of a reduction did not come up at yesterday's meeting, as no formal communication from the council regarding the matter had been received.

There is no question but that the light and power commission is now able to operate the city arc lamps at \$60 each per year and still make a small profit, and on different occasions the commission has expressed its willingness to make a reduction from the present price, but the finance committee of the council has advised against any reduction, and it is believed that the majority of the commission is now of the opinion that the reduction would be unwise.

By continuing to charge \$75 per lamp, it is declared, the light and power commission will be able to discharge its bonded indebtedness as fast as it becomes due, which is the policy of the commission, and has been for several years. On the other hand, if the extra \$15 per lamp, amounting to \$1,920 per year, were in the hands of the council, which would be the case if the reduction were made, it would likely be expended for current needs, and the bonded indebtedness of the city would not be decreased.

In support of this contention, the failure of the council to reduce the indebtedness of the city hall is cited. For the last ten years, it is declared, the city has been taxing \$10,000 a year for a sinking fund to reduce the outstanding bonds of the city hall, amounting to \$50,000. This means that the taxpayers have paid \$100,000 to reduce this \$50,000 debt, not one cent of which has ever been paid, and on which \$2,250 has been paid annually in interest.

The \$10,000 raised annually to pay off the city hall bonds has been expended by the council in other ways, for current and extraordinary expenses. The light and power commission is understood not to believe in this way of doing business, and has adopted the practice of paying off its bonds as fast as they become due.

For this reason there is sentiment against reducing the price charged for arc lighting until such time as the commission has been able to retire all of its outstanding bonds, and the same position has been taken by finance committees of the council. After all, it is simply a question of whether the \$2,000 (in round numbers) shall be expended by the commission or by the council, and it is contended that greater results will be obtained if the money is used by the commission to reduce the city's bonded indebtedness, than if expended for miscellaneous purposes by the aldermen.

REPORT FOR MAY.

Receipts of Light and Power Commission Less Than a Year Ago.

The report of the light and power commission for the month of May shows a reduction of \$117.44 in receipts, compared with the same month a year ago, due to a corresponding falling off in the amount of light used for business purposes. The report shows outstanding bonds to the amount of \$58,500, but as \$5,000 of these bonds were paid off July 1, the commission now has a bonded indebtedness of but \$53,500, of which \$20,000 will probably be paid off next January. The plant is valued at \$230,155.39. The report for the month of May, compared with the same month a year ago, is as follows:

	May, '09.	May, '08.
Street lighting	\$ 797.31	\$ 796.77
