

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Edwin Payson Weston, that young man of seventy odd years, has concluded his little walk from New York to San Francisco, started on March 15 last.

It is now predicted that the ore shipments this season will not fall far behind the record.

Senator La Follette, it is said, will oppose the adoption of any bill reported out by the conference committee.

Even the most enterprising newspaper men have failed to get any enlightening statement from the survivors of the crew of the steamer Cowle or the crew of officers of the steamer Scott in regard to the manner in which the boats were handled prior to the tragic disaster off Whitefish point.

It is hinted that perhaps Speaker Cannon will not be a candidate for re-election to his present office.

There has been a little let-down in the high pressure harmony that has so far prevailed between the conference committee and the president.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

ticularly from the house, like not at all. Furthermore President Taft has his back up in a demand for practically all the reductions in the house and senate bills, which is considerably more than the conferees want to give him.

Harry Thaw's wife is a most uncertain quantity. A few days ago she was telling the newspaper men how a wife's duty is to stand by her husband, and how it was her intention to testify for him in the White Plains, N. Y., proceedings.

It has been assumed that under the terms of the Warner-Cramton liquor law men in the saloon business at the time the law becomes effective would be assured of the right to take out new licenses at the end of the license year, and that there would be no chance for anyone outside their number to break into the business until the ratio of saloons to population falls below the 1 to 500 fixed by that statute.

ON INVESTIGATION BENT. One of the results of Governor Hughes fight for a direct nominations statute during the last session of the New York legislature was the appointment of a special legislative committee to report to the next session on the results obtained in the practical operation of the new system in states where its operative.

There has been a little let-down in the high pressure harmony that has so far prevailed between the conference committee and the president. Nothing resembling a breach has developed, but the feeling is somewhat more strained than it has heretofore been.

As the one-sided vote on Governor Hughes' bill in the New York legislature showed, the sentiment toward the new system in that body was generally unfavorable. The commission, it may be taken for granted, reflects that sentiment to a considerable degree.

It will find much in the states that have tried the new system that it will be able to present as unfavorable arguments. It will be able to cite the election of Senator Chamberlain of Oregon, a Democrat, by a Republican legislature, in ratification of the choice of the people.

ture passed by the legislature of that state. Much other evidence, on its face reflecting on the system, can be found. But no matter how unfavorable the special committee's report may be we doubt whether it will have any material effect in silencing in New York the demand for a further extension of the individual voter's power.

Upper Peninsula

Much Married Woman—Wedded, divorced, married to another man, again divorced and returning to her first love, is the remarkable story told by Mrs. Caroline Mork-Marlowe-Mork at the county clerk's office at Menominee while taking out the license which would permit her to again become a bride.

Another accident was added to the catalogue of the unloved gun history when Rose Henes, ten years old, daughter of George Henes, of Menominee, shot herself through the hand with a 22-calibre revolver on the farm of her uncle, Peter Rasor, north of the city.

A hypnotist who is giving an exhibition in Marinette has been refused permission by the Menominee police to place his subject asleep in the display window of a Menominee business house.

Through action taken by the Menominee board of education the efficiency of the public school system of that city will be increased next year by the construction of a building which will be devoted chiefly to manual training and domestic science.

The Grand Marais Rod & Gun club received 20,000 steelhead trout fry from the Cleveland-Cliffs Iron company's private fish hatchery at Munising a few days ago, and the young men were glad to be in Baker creek, tributary to the Grand Marais river.

Escanaba Man's Accident—Riding a horse at break-neck speed over the water-covered asphalt pavement on Ludington street, Escanaba, Samuel Siefer, employed at the barn of Thomas Rieher, was severely injured and narrowly escaped death when the horse fell and sliding along the pavement, dragged the rider for a considerable distance.

The cases against the fishermen of Menominee county who were charged with illegal fishing have been dismissed in Justice Breen's court on the payment of costs. This action was taken on the motion of Prosecutor Doyle.

We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO. Grand Rapids, Mich.

# Copper Country

### UNIQUE WEDDING JOURNEY.

Dr. Chas. T. Ferris and Bride Will Canoe Down the Otter River.

Dr. Charles Thompson Ferris and Miss Charlotte Brimacombe were married Thursday evening at the home of the bride's mother, Mrs. Sarah Brimacombe, College avenue and Agate street, East Houghton. The ceremony was performed in the presence of a large number of the friends and relatives of the bride and groom. Rev. Daniel Stalker, D. D., pastor of the Catholic Presbyterian church, officiated. There were no attendants. The ceremony was performed under a canopy of sunlax, palms and daisies in the parlor of the residence. The dining room, where the wedding supper was served, was decorated in pink carnations and madonna lilies. The bride was attired in a simple gown of hand-embroidered Swiss and real tulle lace and carried a shower bouquet of white sweet peas.

Dr. and Mrs. Ferris left directly after the ceremony on their wedding journey, which is a canoe trip. They will probably result in improvements to these works. The colonel also recalled that the engineers had made plans an reported favorably on a harbor of refuge in Portage river and said that it was a matter of congressional appropriation.

As officer in charge of the Detroit district, Colonel Townsend is in charge of the locks and canal at the Soo. He said that contracts would be let within the present month for the excavation for a new lock. All the necessary preliminary work has been done, such as the widening of the canal above the lock and the building of a coffer dam to surround the lock during the construction work.

The building of a new lock has made it necessary for the government to condemn the Chandler-Douglas power canal which adjoins the lock site, in order to make way for the new work. Colonel Townsend believes a number of nice legal questions will come up before this matter is finally adjusted. He was asked if it were true that the Michigan Lake Superior power company's canal at the Soo would affect the level of Lake Superior when it is in operation, and he said that it would. The office of the government is not to permit the level of Lake Superior to go lower than 401 feet above sea level. When the water reaches this stage the canal companies must stop using water. When the stage is 601.5 the engineers compel the companies to curtail. This present year Colonel Townsend's office expelled the company from the American coast for three months in order to keep up the stage of water.

The water power companies at the Soo plan the building of remedial or compensating dams which will hold back the water in the canal. The amount of water equal to that which flows through the canal. In this way the flow would be equalized and the companies might operate continuously. The Amaranth left yesterday noon for Duluth, where General Marshall will continue his inspection.

### MEETING CALLED AT MARQUETTE.

State Board of Geological Survey Will Meet There July 23.

It is now definitely announced that the July session of the state board of geological survey will hold its July meeting at Marquette July 23. At this meeting the successor to Dr. A. C. Lane, present state geologist, who has resigned, will probably be named. A. H. Menche of Houghton and Professor Allen of the University of Michigan are the most prominent candidates for the appointment.

The attitude of the board now seems to be that the state is divided on the question of whether or not the state geologist should come from above or below. The salt and coal interests of the lower peninsula seem to demand that the officer be named from their section while the copper and iron interests would like to see an upper peninsula man appointed. The board is made up of the state superintendent of mines, the governor, who is an upper peninsula man; the president of the board of education, who is a lower peninsula man; and Governor Warner, who is supposed to have no sectional prejudices or preferences.

Just what influences, if any, will be brought to bear on the board by the upper peninsula in favor of Mr. Menche, who is at present Dr. Lane's assistant, are not known but the fact that Houghton has at present a Michigan geological survey building which is the gift to the state by the people of Houghton should not be disregarded in the opinion of some of Mr. Menche's friends.

### ILLUSTRATED LECTURES.

Houghton County Anti-Tuberculosis Society Has Educational Plan.

A meeting of the chairman of the Houghton County Anti-Tuberculosis society was held Thursday afternoon at which it was decided to give a series of lectures the coming year. It is intended to bring to Houghton county more of national reputation for this educational purpose. The lectures will be of a nature similar to that of Dr. Fredrick Tice which marked the opening of the anti-tuberculosis campaign in Houghton county last spring. They will be illustrated with stereoscopic views showing the methods of combating the great white plague, which methods will be adopted in Houghton county as soon as the society gets its work well organized.

### THE HEALTH OF YOUR HORSE

will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time. The lectures will be on strains, sprains, or colic in Perry Davis' Painkiller. The proper time to give it is when the trouble first shows itself. Be prompt and you'll not only save the horse suffering, but you'll spare yourself trouble and expense—maybe save a long time waiting. You ought to have a bottle ready. The new size bottle costs 25 cents, larger, 50 cents. Be sure your druggist gives you Perry Davis'.

# Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. It is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ cannot prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a sallow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients are printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

### HALSTORM DID DAMAGE. GARAGE IS EQUIPPED.

Chickens Killed on the Cook Farm, Machinery Is Installed in Twin City Motor Company's Plant.

One peculiar phase of the storm which struck Houghton early Wednesday afternoon, and which phase was not noticed in Houghton, was a severe fall of hail. This was felt, as far as can be learned, only in the narrow strip of territory enclosing the Cook and John C. Mann farms between Houghton and Bassett. Mr. Mann said yesterday that the stones were as big as walnuts and that they fell so thickly that they flattened out all the vegetation which they struck. The damage was not very great as the vegetation affected was young and will recover in good weather. One of the chickens on the Cook farm was hit in the storm and about twenty of them were killed.

During the storm car No. 6 of the Houghton County Traction company was struck by a bolt of lightning just after it drew into the Mohawk terminal. The passengers had just been discharged from the car and, consequently, no one was injured. Neither the motorman nor conductor were within the main body of the car at the time. The lightning entered through the trolley. Little damage, beyond the scorching of varnish about the roof of the car, was done.

### KEWEENAW COUNTY FAIR.

There was some talk last fall at Meigs, Amnook and other towns of Keweenaw county of holding a fair, a big agricultural and stock show, but all plans have been dropped for this year at least. It is likely, however, that the matter will be given further consideration.

The coming fall and winter and an agricultural society will likely be organized for the purpose of holding an exposition of the kind at Meigs next year. Although Keweenaw county is one of the richest of the copper producing districts and was the seat of the big copper production of the old days, it has many thousands of acres of fertile lands that are now being taken up by agriculturalists. It has fine grazing lands, too, and some of the finest stock grown anywhere in northern Michigan is raised within the confines of the Keweenaw. There seems no good reason why Keweenaw county should not have a fair each year and why this fair should not be a paving institution and a school for the farmers and stock raisers of the district.

### QUESTION OF JURISDICTION.

Regular Sailor of Yantic Shipkeeping Crew a Bone of Contention.

There is a sailor in the U. S. S. Yantic, a Michigan Naval Brigade ship, anchored in Hancock, who is defying the authorities of Houghton county and it seems that he will successfully do so unless the navy department intervenes. This sailor, whose name will have to be John Doe, was arrested Sunday night by a Houghton officer because he was selling off too much jubbilation or something like that in the Houghton streets. Captain H. S. Goodell of Painesdale, commander of the second battalion of the naval reserves and therefore captain of the Yantic, advised the Houghton officer to release him in order that he might report to the ship. This was done.

The charge remains against the man and when a sheriff's officer sought him at his home, he advised the Houghton officer to release him in order that he might report to the ship. This was done. The man, who is a deserter from the navy and the two cases may be brought up together.

### A DEARTH OF CARPENTERS.

Houghton Contractors Are Advertising for Skilled Workmen.

There is a dearth of carpenters in Houghton and the copper country, resulting from the building activity now in evidence in every part of the district. A number of contractors are advertising for carpenters in outside newspapers and by offering the highest wages. The building activity in Houghton has made work for every carpenter who will apply and many more men are needed. The Carnegie library, the Carkeek building, the Peninsula Wholesale Grocery, the dock contracts, the large number of costly residences in East Houghton and the home building which is going on every quarter of the town have created the demand for carpenters.

If people with symptoms of kidney or bladder trouble could realize their danger they would without loss of time commence taking Foley's Kidney Remedy. This great remedy stops the pain and the irregularities, strengthens and builds up these organs and there is no danger of Bright's disease or other serious disorder. Do not disregard the early symptoms. Sold by all Druggists.

## S.S.S. CURES ECZEMA, ACNE, TETTER, SALT RHEUM, ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than an outside cure. These affections are caused by irritating humors, or uratic acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched or rubbed the raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S.S.S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatment does not reach the blood. S.S.S. restores to the thin, acid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

### NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:

"Steel issues were again the leaders during the day, and exerted a favorable influence on the balance of the list. There seems to be a strong effort to stimulate outside interests, but although slight impetus has been noted, still the volume is not of sufficient proportions to create enthusiasm. Further reports of gold exports did not affect sentiment to any great extent in view of the easiness of money. London was reported as a moderate buyer, particularly of the steel issues, and the quarterly report of the latter company is earnestly awaited, as it is thought that news of a favorable character will be forthcoming and tend to explain the rise in the common issue."

The final quotations follow:

Amalgamated	87 1/2	M. K. & T.	45 1/2
Asaconda	47 1/2	Reserve	34 1/2
Am. Smelter	94	Steel	72 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2
2 & O	42 1/2	St. Paul	124 1/2

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:

"Returning confidence brought in many new orders this morning and the whole day was a wave of activity such as we have not had for several weeks. North Butte and Copper Range rose easily on light transactions. Superior copper, which has been absolutely dead lately, was comparatively active and made the most spectacular advance of the day, up four points from last night's low. The great scarcity of offerings, as the most noticeable feature all through the list. The last sale of Old Dominion was 52, and it was bid up to 54 before there was a sale. Giroux was one of the most active stocks, advancing to 8 1/2 on the best kind of buying. We think a speculative move is on in his stock, and advise exchanging for Giroux at the present difference in price, as we think the advance will be maintained."

Closing prices were:

Adv.	45 1/2	U.S. & R.	45 1/2
Adv.	45 1/2	U.S. & R.	45 1/2
Adv.	45 1/2	U.S. & R.	45 1/2

### GOING BACK TO NORWAY.

Two well-known families of Calumet will leave here either Sunday or Monday evening for New York City, from where they will sail for Christiania. They will make their future homes in Norway, having accumulated enough wealth in America to allow them to live in very comfortable circumstances in the European country. The two families are the Johnsons and the Larsens. They will be accompanied by their wives and children. The first named will be accompanied by his wife and three children and the last named by his wife and four children. They have been in this country about ten years each, the greater share of the time being spent in the copper country.

# MARKETS

### CHICAGO GRAIN MARKETS.

Chicago, July 16.—Heavy liquidation of the July caused general weakness in the corn market today. The selling was inspired by increased receipts, the continued extremely slack demand by Eastern shippers, and the favorable crop reports. The market closed weak, unchanged to 1/2 lower. The July opened at 74 1/2; highest, 74; lowest, 74; closing, 69 1/2.

Out.—The resumption of harvesting in Illinois and Iowa, due to clear weather, prompted general selling that resulted in a weak market all day. The close was weak 1/2 to 3/4 lower. The July opened at 74 1/2; highest, 74; lowest, 74; closing, 47 1/2.

### Copper Metal Prices.

New York, July 16.—Copper advanced to 58, 64, 3d for spot and to 59 for futures in the London market today. Locally, the market was weak but unchanged with Lake copper at 13-25 1/2-3/4, electrolytic at 12-02 1/2-3/4, and casting at 12-26 1/2-3/4.

Boston, July 16.—A Boston financial publication today prints the following: "We have reason to believe that some important negotiations are pending which are destined to have an important effect, and in the very near future, on the price of copper. While it is too early to speak definitely regarding the matter, it may be said that important copper interests are looking for higher prices within the next sixty or ninety days, possibly sooner. Several large copper consumers who have reason to believe that important negotiations of some character are pending, which negotiations are calculated to have a bearing on the price of copper, are laying in supplies of the metal to last them for the next two or three years. Statistical, the position of copper would hold out the hope of an advancing market, but it is confident opinion in high financial circles that the statistical position will very shortly show a very decided improvement. Incidentally, it may be said that there have been sales of copper during the past week at 12 1/2 cent per pound and during the past twenty-four hours one large selling agency has sold a considerable tonnage at 13 cents."

### ELKS ENTERTAINMENT.

Los Angeles, July 16.—The mid-summer flower and allegorical festival and the parade of the nations was the great feature of the Elks' entertainment today. Ten thousand people took part in the pageant, in which all nations were represented, not only in costume but in music. One of the most beautiful features was a floral yacht. Ten thousand daisies formed the sails and the yacht floated on a sea of blue bells, the waves topped with pale green and crested with white blossoms. Tonight five hundred couples participated in the Elks' ball.

An evil tongue is the devil's negation.

## RIVALS WRIGHT BROTHERS.

Acroplan Curtiss Makes a Flight of Thirty-One Minutes' Duration.

New York, July 16.—Glen H. Curtiss, the aviator, made a flight of thirty-one minutes' duration in his acroplan at Hightstown, N. J., today. The flight was without mishap. The flight is believed to be the longest ever made in a heavier-than-air machine in this country, except by the Wright brothers.

## CARS REACH MINNEAPOLIS.

Gliddenites Have Another Day's Travel Over Rough Roads.

Minneapolis, July 16.—Stuebliaker car No. 109 was the first contestant in the Glidden race to reach Minneapolis, arriving shortly after 3 o'clock this afternoon. The others arrived at short intervals, and by 7 o'clock all had registered. They left La Crosse at 7 a. m., and had rough roads and hot weather and clouds of dust to contend with. Charles J. Glidden, founder of the tour, said tonight that the racers had made a wonderful record so far, and he expressed the opinion the trip will be the most successful in automobile history.

## REJUVENATING TURKISH NAVY.

Constantinople, July 15.—While a German officer is occupied with reorganizing the army of the Young Turks, a British admiral, Sir Douglas Gamble, will endeavor to turn out a new navy. He has been loaned for the purpose by the British government, and there are with him the following instructors: Lieutenant Gwynne, torpedoes; Lieutenant Faught, navigation; and Engineer Lieutenant Croisade, machinery. Thanks to the enlightenment and zeal of Admiral Arif Pasha, minister of marine, a great deal of preparatory work was got through before his arrival. Admiral Gamble, so that the latter found much better material to work upon than he had been led to expect. The vessels had been docked and active young officers placed in command, several of whom had acquired a certain amount of experience by service in foreign navies. Steam and gun trials had taken place in Marmara and a squadron had made a cruise in the archipelago. The younger naval officers are all very keen as regards their profession, and as many have a good knowledge of English they have not failed to acquire such an information as could be obtained from reading English newspapers and books. Much translating work has been done since what might be termed the "emanipation of the navy" took place, and the instructors will find their task much lightened by the zeal and willingness of both officers and men.

## TEACHERS MARRY.

School Boards in Delaware Raise Pay, But Can't Fill Vacancies.

Georgetown, Del., July 16.—The most worried man in Sussex county is County Superintendent of Public Schools John D. Brooks, on whom falls the serious task of securing teachers for all the schools of the county. In large cities this task may be a light one, but in the country districts, where the demand is greater than the supply, it means an endless amount of work.

## APACHE CHIEF WHITE MAN.

Kidnapped When a Boy He Becomes Leader—Now Seeks Citizenship.

Galveston, Tex., July 16.—Two Brails, a well known Apache chief, has proved his identity as Thomas Stringfield, a native Texan, born of a prominent family forty-four years ago in McAllen county. At the age of four years he was kidnapped by a band of Apaches, who killed his mother, father and young brother. A sister, presumed to have been slain, survived, and is still alive. She is Mrs. Ida Hatfield of Frisco county.

## SAVED FROM DEATH.

Man Brought Back to Life by Electricity Leaves Massachusetts Hospital.

Worcester, Mass., July 16.—Joseph Remillard of 16 Orange street, aged forty, who was prostrated by the hot wave of June 26, and who was taken to the city hospital, where it was officially reported that he died within a short time after his admission, was discharged from the hospital today and walked home. The case was one of the most remarkable ever brought to the attention of the hospital physicians.

## DEWAR'S OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is incalculable to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, never entering the blood or mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

## FINAL GOLF MATCH TODAY.

Des Moines, Ia., July 16.—Harry M. Legg, of Minneapolis, and Edward G. Guinness, of this city, will meet tomorrow in the final round to determine the championship of the semi-Mississippi Golf association. In the semi-finals today, Legg defeated Paul Hyde, of Wich-

## City Brevities

Today's weather: Fair; not much change in temperature. Yesterday's temperatures: Seven a. m., 53 degrees; noon, 61; 7 p. m., 64. Maximum, 64 degrees; minimum, 53.

Miss Ethel Robinson, of Detroit, is visiting Miss Agnes Daly.

Mr. and Mrs. A. Foubert have gone to Onicee and will make the pilgrimage to the shrine of St. Anne de Beaupre.

Dr. Marshall and daughter Jean and Mrs. Cook, of Pontiac, Ill., are guests at the home of Mrs. J. A. Knight, Park street.

A. E. Archambeau advertises his annual clearing sale in this issue. It is interesting to read the wearers of men's and boys' clothing.

The baseball game between the second team of Negaunee and Marquette will be played at the fair grounds tomorrow afternoon, beginning at 2:30 o'clock.

Mrs. James Russell and Miss Frances Russell are home from a two weeks' trip to Seattle. They were members of the Michigan Press association party.

Mrs. William Wiseman and Mrs. John Ray returned from Republic last evening, where they attended the wedding of Mrs. Wiseman's niece, Miss Edna Brown.

Rev. and Mrs. Oscar Sandahl have received an extended visit in Minnesota. Members of the Swedish Lutheran congregation tendered them a reception at the church last evening.

The Crossman restaurant has recently been purchased by Walter Mullin, who was formerly located at Birch, and will be opened under the new management today, after having undergone some repairs.

A large crowd attended the lawn social given by the Ladies' auxiliary to the A. O. H., held in Lakeside park, last evening. An enjoyable time was had by all, although the air was a trifle cool for ice cream.

F. R. Oyster, wife and daughter are visitors with Mr. and Mrs. C. E. Lytle, Mr. Oyster was formerly a resident of Marquette, and is now manager of the Harrisburg Daily Telegraph office, at Harrisburg, Pa.

Miss Florence Brophy, of Michigan, was adjudged insane in probate court yesterday and committed to the Newberry asylum. Drs. T. M. Cunningham and L. L. Goodnow were the examining physicians.

J. W. and Martin Rustenhoven have returned from Chicago, where they were called last Sunday on account of the death of G. Vink, their brother-in-law. They were accompanied home by Mary Vink, their niece.

Mr. and Mrs. Philip Goodwill, of Grandwell, W. Va., are guests of Mr. and Mrs. C. E. Lytle, of East Ridge street. Mr. Goodwill is president of the Petoskey Coal Selling company, a combination of about thirty mines producing the famous Pocahontas coal.

Mr. and Mrs. J. A. Malhot leave Sunday night for a western trip of six weeks' duration. They will take in the Alaska-Yukon exposition, and visit relatives in a number of the Pacific slope states. They go via the Northern Pacific railway and will return by way of Salt Lake City and Denver.

With the Ore Carriers—At the L. S. & I. dock the Pollock cleared for Ash-tabula, and the Angeline, Andaste and Presque Isle will load today. At the South Shore dock, the Wisconsin cleared for Cleveland.

Bowdin Out Under Bonds—Richard J. Bowdin, the alleged defaulting bassist, was turned over to United States Deputy Ed. Mosher upon his arrival in the city yesterday afternoon, and later released upon a \$10,000 bond for his appearance at the September term being furnished by Negaunee and LePine. Marshalls Marshall and Northrop, who brought Bowdin from Chicago, returned to that city last evening.

Another Ball Team—Still another baseball team has been organized. They have taken the name of Eagles and will play the North Ends at the fair grounds Sunday forenoon. The members are all about eighteen years of age and challenge any other similar team in the city. Clarence Neault is the manager and the members of the team are: C. Neault, catcher; A. LaFave, pitcher; S. Fraser, short stop; E. Reichel, first base; R. Kripp, second base; W. Lawrence, third base; L. Cyr, right field; G. McCarthy, center field, and A. Riopelle, left field.

Boat Owners Fined—A fine of \$200 each has been assessed by the officials of the revenue cutter Tiscarora against two Marquette owners of motor boats for the result of government boat's visit to this city last Sunday. One of the owners was fined for operating his boat without a whistle or a copy of the pilot rules on board, and the other for running without a bell. Inasmuch as neither of the persons fined were intentional violators of the law, an effort will be made to secure a mitigation of their fines from the secretary of commerce and labor, which it is believed, is likely to be granted.

Boys Under Arrest—Tom Musoli, aged about sixteen, and a still younger companion, whose name is Ellis, were arrested by Marshal Manning last night charged with having broken a car seal at the Upper Peninsula Brewery and stolen a quantity of beer. For some time past Mr. Messke has been troubled by a gang of boys who have broken into the bonded warehouse and taken out quarters and cases. As the offenses have usually been committed on Friday nights, a watch was set last night as the result of which these two boys were captured and are now in the custody of the police. The boys will probably be given a hearing before a justice today.

Marshal Mosher Home—U. S. Deputy Marshal Mosher returned yesterday afternoon, after a several days' trip through the upper peninsula on official business. While away he served papers on three residents of the copper country, who are charged with irregularities in obtaining their naturalization papers. He also arrested Eugene Coppo, of Cal-

net, who is charged with not destroying a revenue stamp on a barrel of liquor that he sold. In the course of his trip the marshal touched at Ironwood, and states that the deeper the government officials get into the affairs of the defunct First National bank, the more irregularities and entanglements are found.

Lost a Big One—H. O. Bell and Wm. Fasshender have returned from a fishing trip to Sault Ste. Marie and Grand Island with seven fine trout, but it is said that the largest trout they caught is now swimming about in the lake in consequence of a most unfortunate circumstance. This large fish, which is said to weigh at least five pounds, was hooked by Mr. Bell and landed in a net with the assistance of his partner. Before taking the hook out of its mouth, however, Mr. Bell attempted to dash the fish upon a rock in order to kill it, when it slipped from his hands back into the water. On the second attempt to raise the trout out of the water by the line attached, the hook broke and Mr. Fish was gone, while Messrs. Bell and Fasshender stood upon the rock, each looking more crestfallen than the other.

## INSURE WITH PETER WHITE & CO. 500 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., July 16.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Junonia, 9:30 p. m.; Yuma, 10; Doric, 11; John Mitchell, Christopher, Mary Elphicke, midnight; Gary, 1 a. m.; Hartwell, 7:30; L. C. Smith, Malietta, Malta, Amazon, Presque Isle, 9; Hill, Butler, Augusta, Wolvick, Dr. Bixby, 11; William Brown, Lynch, 11:30; Manitoba, Crow, Reis, 12:30 p. m.; Kalkaska, Fryer, 1:30; Turret Cape, Mataafa, 2; Wissabickon, Buffalo, Rappahannock, Matanas, 2:40; Rhodes, 3; Dimkey, 3:30; DeGraff, Turret Crown, 4:30; Hansen and whalback, 5; Laughlin, Jay Gould, 6; Miami, 8; Fairbairn, Carrington, 8:30.

## Upper Peninsula

Railroads Tap New Forests—

Considerable logging railway is being built in upper Michigan the present season. Time was when lines of this kind were a rarity in the region. That was when great tracts of timber stood adjacent to the principal streams and rivers were depended upon for the transportation of the logs to the mills. Most of the remaining timber lies remote from the streams now, and it is found much more economical to tap various tracts with railroad lines than to attempt to haul out the logs by team or even by traction engine.

An ambitious project in this connection is the construction of a standard gauge railway extending from Garden, on Big Bay de Nocquette, in Delta county, to a junction with the Soo line at Cooks, Schoolcraft county. This line is already well advanced toward completion. It is being built by the Van's Harbor Lumber company and aside from tapping much standing timber it will furnish railroad facilities to a well populated and prosperous district which up to this time has been shut off from communication with the outside world except by water or roundabout wagon roads.

In the country to the northwest of Escanaba is the Escanaba and Lake Superior line of Senator Isaac Stephenson. Originally projected as a logging road, this railway, extending from Escanaba to a connection with the Chicago, Milwaukee & St. Paul railroad at Channing, in Dickinson county, has become one of the finest and busiest lines in the country. It has numerous branches, but for the purpose of penetrating tracts of timber, and each season sees further construction of this nature.

On important logging railroad, the building of which has recently been commenced, will be the twelve-mile line which the Sagola Lumber company is extending east from Whitebeck on the Chicago, Milwaukee & St. Paul to a point in Marquette county. This line will tap a stand of 20,000,000 feet of timber owned by the Sagola company as well as tracts in the possession of other interests. In Baraga county Bohard & Son of Philadelphia are building a logging railroad extending from their mills at Pequam southeastward to a point some twelve miles distant, in Arvon township.

The construction of a line in Iron county at the western end of the Menominee iron range by the Sawyer-Goodman Lumber company of Marquette. This road will branch off from the Chicago, Milwaukee and St. Paul railway at the Dunn mine and will extend southwesterly into Mastodon township. The survey has been completed and construction work will be started shortly.

## Facial Treatment.

Miss Helie Oster, Werner block, removes superfluous hair, moles and warts by electric needle. Ladies' and gentlemen's manuring. Bell 'phone 601. (7-16-1f)

## WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments COST NO MORE THAN PLAIN ONES IN WHITE BRONZE.

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble.

With the action of frost. Frost growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

**Geo. E. French,**  
MARQUETTE, MICH.

Marquette, Mich.

(Extract from letter received lately.)

IONIA, MICH., JUNE 3rd, '09.

Received your check this morning. Many thanks. Account was sent you on the 26th, and in less than one week, same is settled. Am enclosing others for your consideration.

**John W. Green, M. D.**

# Economy

is a virtue few cultivate as one of the cardinal blessings of life, the possession of which is almost indispensably necessary to any degree of success.

The spendthrift can never hope to reach the goal of contentment or happiness, for his cravings will remain unsatisfied, his desires unfulfilled. And in time he will come to the end of his resources; constant dropping wears away the hardest stone, and in a like manner the largest fortunes soon can be wasted by reckless expenditures.

**Marquette National Bank**  
Marquette, Mich.

## Northern Normal Notes.

The summer school is half gone. On Tuesday morning at assembly Miss Hadley will give an illustrated talk upon her recent visit in Italy. James H. Thompson, formerly a member of the state board of education, spent Monday and Tuesday with friends here. Dr. L. E. Anderson has invited the men of the faculty for a launch ride today. They start at 7 o'clock and will spend the day at Little Presque Isle. A game of baseball between the students of the Normal and the members of the Guild Hall association is to be played at 3 o'clock this afternoon at the fair grounds. No admission will be charged. Mrs. H. H. Hayden of Chicago is visiting her daughter, Mrs. T. C. Hebb. She is accompanied by her granddaughter, Miss Gertrude Crawshaw, for some time last year a pupil in the training school. Mrs. Isabel Holmes of Detroit is visiting her daughters, Mrs. M. Elizabeth Martin and Mrs. John Hallam. She was accompanied by her daughter, Mrs. F. E. Thompson, and her two children, also of Detroit. On Wednesday afternoon Professor

Troop told several stories in a most delightful way to the children of the training school. Although it rained very hard most of the early part of the afternoon, there was a good sized audience of little ones and older ones to hear the stories. Two county commissioners from the lower peninsula spent Tuesday and Wednesday visiting the Normal school. They were M. W. Hensel, of Sanilac county, and Mr. Yost of Wayne county. Mr. Hensel was accompanied by his wife and daughter and Mr. Yost by Mrs. Yost and their two sons. Frank K. Walter, vice director in the great Library School at Albany, New York, has been delivering special lectures before the classes in library methods for the past week. Next week he will give several lectures of a popular character before the school. His subjects, in part, are as follows: On Monday, at assembly hour, "Books and Their Use in School." Wednesday, at that hour, he will discuss periodicals, the great source of American reading; on Thursday morning the subject will be "Debating." On Wednesday afternoon at a quarter after three o'clock Mr. Walter will lecture in the assembly room upon "Public Doungazines" or what can be had for nothing. During the past week the first series of lectures by an outside lecturer was given before the summer school. Professor

J. G. Troop, of the extension lecture department of the University of Chicago, was the speaker. He occupied the assembly hour every day with a series of short talks upon the development of the English drama. The first morning was spent in a rapid survey of the Greek and Roman drama to show the influence of these works upon the English writers. On Tuesday and a part of the hour on Wednesday the English mystery plays were discussed and these were followed in turn by the moralities, the interludes, and on Friday the predecessors of Shakespeare and their work were indicated, and lastly the mission of Shakespeare, the greatest of all dramatists, was briefly explained. The morning talks were interesting to all, but particularly to those students taking the course on this subject given in the English department. The series of six lectures given during the week by J. G. Carter Troop on as many American men of letters has deservedly attracted an earnest attention by the school as well as from a number of the townspeople who enjoy such a privilege. The various subjects treated have been Emerson, Whittier, Longfellow, Lowell, Holmes and Hawthorne. The last lecture, given yesterday morning, on Hawthorne, was probably the gem of the series. A partial review is as follows: Hawthorne, unlike the majority of New England writers, did not have a clerical ancestry. Many of his predecessors were active in public affairs; one of them, Judge Hawthorne, was one of the most remorseless persecutors of women, especially such as he suspected of witchcraft. To Hawthorne, the writer, a curse seemed to fall upon the family in consequence of this, as shown in his story of the House of Seven Gables. Our author's early life was negative in its preparation for a literary future as, owing to the family propensity for solitude, he did not have intercourse with his fellows. His short experience with the Book Farm community was reviewed; this had caused our author to discover that, after a day of plowing in the fields, breaking stone, etc., his soul absolutely refused to be poured out on paper at night. The lecturer named "Rappanion's Daughter," "Ethan Brand" and the "Great Stone Face" as the best of the author's short stories, and then spent the remainder of the time upon the "Scarlet Letter." In discussing the peculiar genius of Hawthorne, Mr. Troop said that nearly all of the so-called Gothic machinery of Horace Walpole, Mrs. Radcliffe and Wm. Godwin, popular English novelists, of his time, is to be found in this Puritan, Hawthorne; mysteriously slamming doors, haunted houses, magic, witchcraft, mysterious portraits, etc. The term Hawthornesque, which is applied to his peculiar style, suggests at once the elements of mystery, pathos, gentle humor, subtle fancy, moralizing, symbolism and morbid psychology. Hawthorne is unique among Americans in his ability to throw a glamour over the past and to become the spokesman of vanished generations. In him alone, primitive New England has found an adequate voice. Perhaps no other novelist depends so little upon outward circumstances. He dwells chiefly upon the development within the character of the result of some crucial event, some great absorbing interest. His personages are veritable human souls, though dwelling in a world of cloudland and moonshine. The "Scarlet Letter" is a great and unique romance standing apart by itself in fiction, a special expression of the moral history of New England. The few characters are ex-

hibited only in that single experience which was absorbing to themselves and constituted the life they lived in the soul itself. The theme here as elsewhere in his romance is the subtle affect of hidden sin on the character and the certainty of its destructive power. It is a study of punishment. Christ is not in it; the idea of healing, of forgiveness, does not appear. The lecturer briefly outlined some of the greatest pictures in the book, such as Hester's coming out of the grim New England prison, the meeting of Dimmesdale and Hester at the pillory and the final exposition of the guilty clergyman. The sufferings of these two, one from a sin punished under law, the other by remorse over a concealed sin, and the malignant results upon the third, Hester's husband, who pursued the sinners with thoughts of vengeance, were most brilliantly portrayed. Everyone who heard the lecture must have been inspired with a deeper sense of the genius of this great New England teller of tales. MUSIC IN COURT ROOM. Negro Rewards a Judge Who Imposed a Light Sentence. Kansas City, Mo., July 16.—When William Thomas, also known as "Highliver," a negro charged with assault and battery, was taken before Charles E. Thompson, judge of the South city court in Kansas City, Kan., he pleaded guilty. "Don't you think a year would be about right?" the judge asked the negro. "Judge, talk reasonable," pleaded the negro. "What do you think you deserve?" the judge asked. "I could stand six months," the negro replied. "Well," said the judge, "I am going to give you—" and he hesitated, the negro drawing a long breath, "sixty days." "Judge, I thank you from the bottom of my heart. I'll play you my favorite piece." In a moment the strains of "Home Sweet Home," played on a mouth organ, floated through the court room, followed with "Turkey in the Straw" and "Swiss Days." When the last piece was finished, James Luscombe, prosecuting attorney, leaned over to Judge Thompson and said: "I believe thirty days is enough." "Your sentence is thirty days," the judge said. SMITH AN UNLUCKY MAN. Hoosier Victim of Many Misfortunes and Often Near Death. Rossville, Ind., July 16.—Walter Smith of this city seems to be a victim of misfortune, as he has been in several accidents from which he barely escaped with his life. He was in a runaway the other day, in which he narrowly escaped being crushed to death, but finally escaped after sustaining a few bruises on his body, a sprained ankle, one rib broken and an injured hip. At various times within the last few years both his arms were broken, his ribs broken, both of his legs broken in a runaway, a hip dislocated and two of his fingers cut off in a furniture factory. He was also hit in the eye by a snowball and lost the sight of it as a result, and at another time was accidentally shot. The most cooling of hot weather beverages is the good "Salada" Tea. It is most delicious.

# Sale and Exhibit of \$40,000 Worth of Rare Oriental RUGS

MR. MELEDONIAN, an Armenian importer of Oriental Rugs, will exhibit this large collection beginning SATURDAY, JULY 17th, in BASEMENT of our CARPET DEPARTMENT. This gentleman has been associated with the making of Rugs since childhood. He can answer any question regarding various weaves, colorings and the conditions under which they are made in the many villages of the Orient. Take advantage of this sale, learn about Oriental Rugs; see the most valuable, largest and best assortment ever shown in the Upper Peninsula. If you are a possible purchaser we have every reason to believe that you'll find exceptionally good bargains in this collection. You are cordially invited, whether you are a purchaser or not. Ladies who are interested will have an opportunity to gain some useful information, which will prove a lifelong benefit to them, and an opportunity which comes probably once in a lifetime. Everyone is cordially invited.

Your special attention is called to a 12x17 Kemensha Rug which is valued at \$5,000. It is 750 years old and its equal in work of art has never been shown in the U. S.

Mr. Meledonian will be with us from Saturday Until Wednesday, July 21

**J. H. Foster Co.**

# JACOB ROSE

## WE ANNOUNCED JULY 14 OUR ANNUAL MIDSUMMER CLOTHING CLEARING SALE

Every year at this time we hold this sale and the event has become well known on account of the great saving in price and also for the quality of the goods offered. It is our way of winding up the season to bunch all broken lots of our Suits and offer them until the quantity holds out at slaughter prices.

\$18, \$20, \$22.50, \$25, \$27.50 and \$30 Suits at **\$15.00**

\$12, \$12.50, \$14, \$15 and \$16 Suits at **\$10.00**

Since the advent of our manufacturing our lines of clothing in OUR OWN TAILOR SHOP, corner Market St. and Jackson Blv'd, Chicago, we doubt the existence anywhere else of a sale equal in extent of merits to the one now held at our store. The styles, the fabrics, the tailoring are much better than the average clothing retailed of THEIR FORMER PRICES and this great price reduction we now offer marks this sale of greater merit than even our own former sales.

FROM MORGAN'S CURB LETTER.

"Copper shares are gaining strength daily, and as the market creeps higher, trading becomes more active. Giroux Cons. was the feature of the Boston list, and much higher prices are being talked for the stock. Accumulation of this issue has been going on around \$8 for several weeks past, and the recent buying of it is of the very best. There has been considerable change from Greene into Giroux, which accounts for the heaviness of the former issue. At the close today it looked, however, as though this selling had been about completed. North Butte sold at 52, a recovery of an even five points from the recent low mark. Among the other substantial advances were Copper Range 1 1/2, Superior Copper 3 and Butte Coalition 1/2. Boston Cons. and Utah Cons. improved a point each. We hear some very strong talk on Boston Cons., based on the rumor that this company will be absorbed by the Utah Copper company. London metal was up 6 shillings, 3 pence for September and 7 shillings, 0 pence for futures. Foreign advances state that the speculative liquidation in the metal there has been completed. Trading on the curb was greatly increased in volume, and prices were higher almost without exception. Some good news is expected from the Calumet-Cobalt property. The stock was bid up from 70 to 95 cents today, and brought out only 200 shares of stock. Chief Cons. is wanted in large sized blocks at 1 1/4, and Cactus is strong at 3. Denn-Arizona has finally begun to move. It sold at 5 1/2 today, a gain of a full point. New developments at this property warrant considerably higher prices for the stock. Yuma was another strong feature. It opened at 1 1/2, and on light trading sold up to 1 3/4. No news to account for this strength has as yet been given out but the buying comes from the Southwest, and would indicate favorable developments. We look for increased activity and higher prices."

Yesterday's prevailing prices were:

NOTICE FOR BIDS FOR CONSTRUCTION OF SEWERS.

Scaled proposals for laying approximately 300 feet of six-inch lateral sewers upon North Third street, in the city of Ishpeming, Michigan, will be received by the Board of Public Works of said city of Ishpeming, at their office until 1 o'clock p. m., Aug. 3, 1909.

Such work to be done within two weeks after award of contract and the sewers are to be laid at the places, along the lines, and upon the grades designated by said Board of Public Works and to be done under the supervision of and subject to the direction of said Board of Public Works.

The location of the various sewers to be built are on file with said board and subject to the inspection of intending bidders. Each bid must state separately the amount bid for each separate section of said work.

The successful bidder will be required to enter into the contract to be prepared by said board and also to furnish a bond satisfactory to the undersigned that he will properly fulfill the conditions of his contract.

The Board of Public Works reserves the right to reject any and all bids.

Dated, July 16, 1909.

BOARD OF PUBLIC WORKS  
of the City of Ishpeming.  
(7-17-24)

ISHPEMING IN BRIEF.

E. F. Brown, of Iron Mountain, spent yesterday in the city.

Miss Jennie Christensen has gone to Ironwood, to visit friends.

Gordon Murray, of Norway, Mich., was here for a few hours yesterday.

A tennis court is being built on the south side of the Young Men's Christian association's building.

At the regular services at 10:30 tomorrow at the Presbyterian church, Rev. M. M. Allen, the pastor, will preach.

The Marquette County Gas & Electric company has a crew of men repairing its tracks in different parts of the city.

Miss Boryhill Braastad went to Munising yesterday. She will visit with Miss Hannah Windstrand for two weeks.

Mrs. Richard Bice, a former resident, is here from the Mesaba range on a visit to her parents, Mr. and Mrs. Patrick McDonald.

Al. Schott and Lester Deuts II will go to Republic this morning, where they will give a moving picture exhibition tonight, returning tomorrow morning.

Dr. Jeanette M. Brigham of Howell, Mich., is in the city, visiting Mrs. C. L. Adams. Dr. Brigham was the Adams' family physician for a number of years.

Thomas McNamara left Thursday for Fierro, New Mexico, after a two weeks' visit with relatives in this city. Mr. McNamara is surface foreman for a gold mining company.

A find of \$20 in cash was made yesterday by Paul Bell. Mr. Bell turned the money over to the marshal, who is now looking for the owner. The cash is supposed to belong to a Finn.

Baseball teams composed of the employees of the Cleveland-Cliffs and Oliver offices will play this afternoon at 3 o'clock at the Union Park grounds. There will be no admission charge.

Members of the gymnasium classes of the Young Men's Christian association had their pictures taken in groups Thursday. The pictures are to be reproduced on cards and will be sold at the building.

John Keeton, the Cleveland-Cliffs Iron company's cashier on the Swanczy range, and wife will leave today on a three-weeks' trip. Mr. Keeton will go to Seattle, while Mrs. Keeton will visit relatives at Washburn, Wis.

A number of little girls about twelve years of age have been producing a "dram" in a barn on Maurice street for the past week. They have had packed houses all week and their receipts have grown to such an amount that they will give a picnic some day next week.

Major Morton, general secretary of the Northwestern province of the Salvation Army, with headquarters at Minneapolis, will conduct a special meeting at the local barracks next Tuesday evening. An open air meeting will take place at 7:30 o'clock, the hall meeting starting thirty minutes later. Envoy J. T. McKay, in charge of the local corps, invites the public to come out and hear the major.

The Military band of Red Lodge, Mont., which has been in the copper country for the past week or more, will give a concert at Ishpeming this evening. The band is credited with giving a very high class entertainment and it is certain that it is well worth hearing. It is under the direction of George B. Wahlstrom, one of the best known Finnish musicians in the country. The band arrived here last evening.

The Sunday School society of the Presbyterian church will hold its annual picnic next Tuesday, the 20th, at Presque Isle. A special train, via the Lake Superior & Ishpeming line, will leave here at 8:40 a. m., and, returning, will leave Presque Isle at 5 p. m. The round trip fare will be fifty cents for adults and twenty-five for children. Those not connected with the church or Sunday School society will be welcome.

A NIGHT RIDER'S RAID.

The worst night riders are calomet, croton oil or aloes pills. The raid you need to rob you of rest. Not so with Dr. King's New Life Pills. They never distress or inconvenience, but always cleanse the system, curing Colds, Headache, Constipation, Malaria, etc at The Stafford Drug Co.

Have your piano tuned now.

M. J. Olson, the piano tuner, will remain in this city during the summer months. Orders taken at Wm. Leiminger's store. (6-28-11)

Everyone would be benefited by taking

Foley's Orino Laxative for stomach and liver trouble and habitual constipation. It sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? Sold by all Druggists.

Ishpeming Department

ISHPEMING HAS THREE WEDDINGS

ONE YOUNG COUPLE MARRIED AT METHODIST CHURCH, ANOTHER AT THE DEER LAKE LOCATION, AND THE THIRD AT THE NORWEGIAN PARSONAGE.

There were two marriages Thursday evening that were attended by a large number of the relatives and friends of the contracting parties. One was that of Miss Etta Goodman and Chris J. Lawry, which took place at the First Methodist Episcopal church, and the principals in the other union were Miss Anna Steve and George Hocking, both residents of the Deer Lake location. Another matrimonial ceremony was performed yesterday morning at 11:30 o'clock at the Norwegian Lutheran church parsonage by Rev. J. A. Lillehei, the pastor, August J. Goddard, of Virginia, Minn., and Miss Signe Stolen, of the Winthrop, being the contracting parties.

Only relatives witnessed the marriage of Mr. Lawry and Miss Goodman, who were attended by his sister, Miss Mabel Lawry, and her sister, Miss Flossie Goodman. At the conclusion of the ceremony the bridal party, together with their relatives and friends, gathered at the home of her mother, Mrs. Elizabeth Goodman, on Wabash street, where several hours were most enjoyably spent. Over 100 persons were present, all of whom partook of a sumptuous repast. The bride and groom were recipients of a most beautiful collection of gifts, which included furniture, silverware, cut glass, chinaware, etc. At 4 o'clock yesterday morning the bride and groom departed on a honeymoon trip to Buffalo, Niagara Falls, and other points, going by boat from Marquette. Both Mr. Lawry and his bride are among the city's best known and most popular young people and they have many friends here who will wish them a happy wedded life.

Incher Steve, brother of the bride, and Miss Lillie Hocking, sister of the groom, were the attendants at the Hocking-Steve wedding, which took place at 8 o'clock Thursday evening at the home of the bride's parents, Mr. and Mrs. Ole Steve, at Deer Lake. Over fifty guests, including relatives and friends, were present and at the conclusion of the marriage a wedding dinner was served. The young people received a large collection of pretty and valuable presents. They are to live in the city.

Only a few relatives of the contracting parties were present at the marriage of August J. Goddard and Miss Signe Stolen at the Norwegian Lutheran church parsonage. The bride was attended by her sister, Miss Maud Stolen, and Edvard Ole Goddard formerly lived at the Winthrop, but has been a resident of Virginia for a few years past. Following the marriage the bridal party returned to the Winthrop, where a wedding dinner was served. Several friends and relatives attended a reception at the home of the bride's parents last evening. Mr. and Mrs. Goddard left on the South Shore train at midnight for Virginia, their future home.

WESTERMAN RESIGNS.

Director of Young Men's Christian Association Gives Up Position.

Physical Director Westerman has found it necessary to resign his duties as physical director of the Y. M. C. A., owing to bad health, his resignation to take effect some time in August.

In overtraining some years ago, he weakened his heart, and has been advised by his physician to give up his physical work on this account, as the constant and arduous exercise would further aggravate the trouble. The officers and members of the association, and the many friends of Mr. Westerman will greatly regret his departure, as he has been a splendid instructor, and during his short stay has made many friends in the city.

ADVERTISE FOR BIDS.

Board of Public Works Desires Proposals on Sidewalk and Sewer Work.

Scaled proposals for the building of approximately 3,100 feet of concrete sidewalks, also the laying of approximately 300 feet of six-inch lateral sewer pipe, are called for by the board of public works. The bids for both jobs will be received by the board at its office in the city building until 1 o'clock of Aug. 3.

The proposed sidewalks are to be constructed on the west side of South Pine street, from the Oliver Iron Mining company's office, to Angeline street, and on the south side of West Division street, from the Duluth, South Shore & Atlantic railway company's main line, crossing to Graham street. The lateral sewer will be constructed on North Third street, extending west from Empire.

Specifications as to the manner of the construction of the sidewalks and materials to be used therein can be found at the office of the board.

The successful bidder will be expected to complete the sewer job within two weeks after the contract is awarded. Specifications of the various sewers to be built are on file at the office of the board and are subject to the inspection of intending bidders. Each bid must state separately the amount designated for each separate section of the work. As in the case of the sidewalk contract, the board reserves the right to reject any all bids.

Since the board decided at its last regular meeting that North Third street shall not be macadamized until the property owners there prepare for connecting their properties with the lateral sewers, the plumbers have been busy in that section, as a number are paving the street done. It is now thought that the street improvements will be made soon after the proposed sewer is laid.

LOOKING FOR RELATIVES.

Chief of Police Trevarrow received a letter yesterday from A. E. Davis of the Davis-Varies Undertaking company of Pueblo, Colo., asking him to locate a brother and sister of Edward Norby, who died recently in the hospital there. Mr. Davis had been advised that relatives of the deceased, who was forty-two years of age, are living in Ishpeming. Marshal Trevarrow spent the greater part of yesterday trying to get some trace of the relatives, but without success. As far as he can learn the deceased never lived here.

GOOD BERRY CROP.

Many Ishpeming People Preparing to Camp North of City.

On account of the very favorable indications of a large blueberry crop in the district north of Ishpeming, a number of local people are preparing to spend a few weeks in that section. If there are no damaging frosts it is quite certain that the crop will be much larger than usual and, judging from the present appearance of the berries, the fruit will be excellent. Quite a number have gathered small quantities of the berries already, but the general picking will not commence for a week or more as there are no buyers here yet.

Reports of large crops are received from other sections and it is a question if the prices paid for the berries this year will compare with those of last season. For a time last year the buyers paid from \$3 to \$3.50 per bushel in this section, though with a heavy crop these prices cannot be expected. J. Ewald has notified local parties that he will be here about the first of August to establish his buying station. John A. Farm, of this city, is in Mr. Ewald's employ, having hired out with him a few weeks ago at Minneapolis. Mr. Ewald is at present at Trego, Wis. He expects to employ a large number of boys while here, making crates and boxes. It will occupy his usual stand on Ridge street. The lower portion of the building will be used for storage purposes and the upper part for the manufacture of boxes and crates.

Mill-end sale starts Monday, July 19.

and continues for ten days. Bargains in every department. N. E. SKUD. (7-17-14)

NOTICE FOR BIDS FOR CONSTRUCTION OF CEMENT SIDEWALKS.

Scaled proposals for building approximately 3,100 feet of cement sidewalk upon the west side of South Pine street from Oliver Iron company's office to Angeline street and on the south side of West Division street from the Duluth, South Shore & Atlantic railway main line crossing to Graham street, will be received by the Board of Public Works of the City of Ishpeming, Mich., at their office until 1 o'clock, Aug. 3rd, 1909.

Such cement walks are to be built at the places along the lines and upon the grades designated by said Board of Public Works and to be done under the supervision of said board.

Specifications as to the manner of the construction of said work and the materials to be used therein may be found at the office of said Board of Public Works. The successful bidder will be required to enter into a contract to be prepared by the said board and also to furnish a bond satisfactory to the undersigned that he will properly fulfill the conditions of his contract.

The Board of Public Works reserves the right to reject any and all bids.

Dated, July 16, 1909.

### WEEKLY COPPER REVIEW

Gossip of Interest Concerning the Market Situation and Various Mining Properties.

[Palme, Webber & Co.]

The market continues to play a waiting game. Copper shares have some slight weaknesses occasionally because the metal situation does not improve as rapidly as expected and because there is no pronounced activity in the sale of the products of the copper mines but on the whole the situation regarding the copper shares is much the same as it has been for some weeks. It is marking time. Opinions among the best experts on the market differ, but the consensus of opinion is that the copper shares cannot show any material decline from the present level with the general business conditions of the country improving as rapidly and as substantially as is now evidenced. There is no shadow of doubt that the unsettled tariff discussion is having its effect on the copper market, for contracts involving millions of dollars in advance pending the settlement of the tariff matter by congress. The figures in these contracts depend, to a greater or less extent, upon the rates in the tariff schedules. Practically all of these contracts involve large amounts of copper, the purchase of which cannot be made until these details are definitely settled.

The one important market consideration which keeps the copper shares from showing any marked declines or weaknesses, despite the efforts of the professional market manipulators to depress prices, is the fact that the brokers are not carrying any very large lines of copper of any kind. The holders of copper shares have withdrawn their certificates from the market to an extent rarely ever observed in the history of the exchange and the total number of paid-up, stored-away copper securities that might be figured is an evidence of the fact that bear tactics on the short side of the copper shares carries with it a risk hitherto quite untried. To say the least the market is in a position where any pronounced change is far more likely to be for the better than for worse. It is stated also that some of the large New York houses are of the opinion that the copper shares will undergo a marked improvement within the next few months and that Wall Street houses will become an important factor in the copper shares at the first signs of activity. We continue to hold to the opinion that the copper shares should not be sold at the present time or at present prices. The better class of cop-

## ABSOLUTE CURE OF SKIN ERUPTION

Broke Out on Hips and Legs—Was So Sore, Irritating and Painful that Little Sufferer Could Not Sleep—Scatched Constantly and Kept Growing Worse.

### CUTICURA'S EFFECT QUICK AND PERMANENT

"When about two and a half years old my daughter broke out on her hips and the upper parts of her legs with a very irritating and painful eruption. It began in October; the first I noticed was a little red surface and a constant desire on her part to scratch her limbs. She could not sleep and the eruptions got sore, and yellow water came out of them. I had two doctors treat her, but she grew worse under their treatment. Then I bought the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent, and only used them two weeks when she was entirely well. This was in February. She has never had another rough place on her skin, and she is now fourteen years old. I used only half the bottle of Cuticura Resolvent and less than a box of Cuticura Ointment. Mrs. R. H. Whitaker, Winchester, Tenn., Sept. 22, 1928."

## WOMEN

Everywhere Use Cuticura Soap and Cuticura Ointment

For preserving, purifying and beautifying the skin; for cleansing the scalp of crusts, scales and dandruff; for dry, thin skin; for annoying irritations and itching; for softening, whitening and soothing red, rough and sore hands; for removing itching, rough and ulcerative weaknesses, and for many other hygienic and antiseptic purposes as well as for all the uses of the toilet, bath and nursery. Guaranteed absolutely pure and may be used from the hour of birth.

Complete External and Internal Treatment for Every Form of Itching, Children and Adults consists of Cuticura Soap (5c) to Cleanse the Skin, Cuticura Ointment (50c) to Heal the Skin and Cuticura Resolvent (50c) in the form of Chocolate Control Pills 25c, per trial of 60¢ to Purify the Blood. Sold throughout the world. Patent Drug & Chem. Corp., Sole Proprietors, Boston, Mass.   
\*Mailed Free, Cuticura Book on Skin Diseases.

## Negaunee Department

### FRED ZIMMERMAN DIES SUDDENLY

#### NEGAUNEE'S OLDEST POLICE OFFICER EXPIRED YESTERDAY AFTERNOON WHILE HOEING POTATOES IN HIS GARDEN.

Fred Zimmerman, Negaunee's oldest police officer, died suddenly yesterday afternoon about 5 o'clock, while working in his potato garden north of the Teal Lake bluff. The announcement of Mr. Zimmerman's sudden demise was a great shock to his many friends in the city. Mr. Zimmerman had been ailing for some time and had been off duty for nearly two months. He was improving, however, and was feeling so well that he advised Marshal Rough on Wednesday evening that he expected to resume work next Monday. He was suffering from heart trouble. He felt so well yesterday that he spent much of the time in his garden, hoeing his potatoes, and it is assumed that he over-exerted himself in an effort to finish up the work before returning to his home. The deceased was given a place on the force in 1895 and had served continuously ever since, with the exception of two years. He was considered one of the best officers that the city has ever had. He was the only policeman on the force who was retained by the council at its annual meeting this year. At practically all of the meetings when the voting officers took place Mr. Zimmerman usually received a larger number of votes than any other man on the force. He was very attentive to his duty and was trustworthy in every respect. The city officials had explicit confidence in him and Marshal Rough stated last evening that he was one of the very best officers that there was to be found in the upper peninsula, in spite of the fact that he was in the neighborhood of sixty years of age. The deceased was an old resident of Negaunee. He was employed for a number of years in the mines, before accepting a position on the force. He was married by his widow and four children. He was a member of the German Aid society, under whose auspices the funeral will be held. The children are two sons and two daughters. The latter are Elsie, of Chicago, and Linda, living at home. Linda was with her father when he died.

### SILVER WEDDING ANNIVERSARY.

Former Negaunee People Celebrated Event in Denver Recently.

The Denver Republican contained the following account of the silver wedding anniversary of Dr. and Mrs. C. E. Cochran, former well-known residents of this city: "Six years ago Dr. and Mrs. Clarence F. Cochran of Griffith station on the Golden electric line, came to Colorado in search of health. Both were anxious as to what the future held in store for them and their relatives were likewise distressed over their condition but July 2 they will celebrate their silver wedding at their home. It will be a doubly happy occasion for obvious reasons. "Dr. Cochran was for six years a resident of Tolland, on the Moffat road, being engaged in a business under Dr. Cochran. Now both he and his wife are in robust health from all appearances. Last October they moved to Griffith, where Dr. Cochran has acquired a flourishing practice and is also a farmer on a small scale. "Dr. Cochran was a classmate at the University of Michigan of Governor C. S. Thomas of Colorado, graduating from the medical school. "The couple moved to Colorado from Detroit, Mich. Dr. Cochran has had a varied career. He was a ranch boy on the La Salle ranch in Michigan, and at fifteen he was district school teacher. After spending some time as a pharmacist, he discovered his predilection for medicine and went to the university of his state, Michigan at Negaunee (Michigan) where he took up the practice of medicine at Detroit and left there in 1903. Dr. and Mrs. Cochran have three children and one grandchild. Their daughter is the wife of Charles E. Russell of Portland, Ore., while their two sons, Charles and William, are twelve and fourteen years, respectively, are living at home with their parents. Three generations will help them celebrate the anniversary."

### CALLING FOR BIDS.

Proposals will be received by the committee on fire department of the city council for excavating for the foundation for the proposed new fire hall on City Recorder Mitchell lot at 4 o'clock Monday afternoon. The committee reserves the right to accept or reject any or all of the bids. The committee has not yet decided whether to include in one contract the building of the foundation and superstructure, or to award two separate contracts. C. E. Driscoll, chairman of the committee, yesterday said that an effort will be made to have the building completed and ready for occupancy by Nov. 1.

### TO LOCATE IN PENNSYLVANIA.

Otto Boehme, sausage maker for Wintler & Sues, who recently returned from Germany, where he spent three months of his parents' absence, has been contacted by the Negaunee firm, and he intends to leave here within two or three weeks for Charleroi, Pa., where he will establish a plant for the manufacture of sausage. Mr. Boehme has a sister living at Charleroi.

### FINE PIANO CHEAP.

I have a new Conway Bros' Upright high standard piano that I will sell cheap for cash or on monthly payment plan. It's a wonderful bargain and the last one left.

### THOS. P. KIRKWOOD.

Negaunee Pharmacy. Delay in taking Foley's Kidney Remedy if you have backache, kidney bladder trouble, fastens the disease upon you and makes a cure more difficult. Commence taking Foley's Kidney Remedy today and you will soon be well. Why risk a serious malady? Sold by all Druggists.

### PROSPECTS OF GOOD CROP.

Indications Favorable for a Heavy Yield of Blueberries this Year.

There promises to be an unusually big crop of blueberries this season. The recent rains were just what the berries needed and it will not be many days before the pickers will begin establishing their camps. It is said by those who have looked over the berry fields during the past few days that the berries will be large and of excellent flavor.

It is reported from points in Wisconsin, where the berries are already being gathered, that the crops are better than they have been for some years. John Ewald, who is the oldest berry picker and crate manufacturer in the country, is at present at Trege, Wis., one of his regular buying centers. The crop there is said to be considerably larger than it was last year or the previous year, and Mr. Ewald expects to remain there until about the first of August, when he will come to Ishpeming. Mr. Ewald bought fewer berries at Ishpeming last year, than at any time in several seasons as the crop was almost a complete failure, but he manufactured a great many crates and boxes, shipping them to distant where the crop was good. The largest crop last year was along the South Shore system between Marquette and the Soo. Mr. Ewald employed over thirty boys at his Ishpeming headquarters.

### TOMORROW'S BALL GAME.

There is much interest in the game to be played tomorrow between the Ishpeming and Negaunee teams. The Negaunee and Ishpeming teams draw larger crowds than any other two mines of the county, due to the fact that there is much rivalry between them. The management has not decided which pitcher will be in the box, but it is likely that Murray will be chosen. Hirschman will probably catch, though Lafave is now in better condition than he has been for some weeks, and it is possible that he will wear the mask. At tomorrow's game ladies will be charged the same admission price as the men, but they will be admitted free to the grand stand.

### LOCAL LACONICS.

Miss Goldie Harris is visiting friends in the copper country.

D. McDonald spent yesterday at Escanaba, on a business mission.

Charles Muek, Sr., who has been ill the past few weeks, is able to sit up.

Messages T. C. Yates and A. W. Haidle will serve tea at the golf grounds this afternoon.

James Jewell has purchased from Emory Rogers the latter's residence property on Cherry street.

Mrs. C. Powell, who visited her sister, Mrs. E. A. Bell, is returned to her home at Lawton, Mich.

Gordon Murray, mayor of Norway, was here yesterday on business, and incidentally visited relatives.

The members of the Negaunee German Aid society and their families will enjoy a picnic tomorrow at Eagle Mills.

Mrs. William Piper is here from Birmingham, Ala., on a visit to her father, Benjamin Neely, and other relatives.

Ollie Simons has returned from Montreal, where he was called on account of the critical illness of his father.

The Misses Catherine and Elizabeth Verellian have returned to Minneapolis, after a two months' visit with relatives in Negaunee.

J. Maitland, who has been here the past few weeks, visited his daughter, Mrs. C. S. Sorely, will leave tonight for his home in Lorain, O.

The Misses Amanda and Ella Suss arrived in the city yesterday from Milwaukee and will spend some time here, visiting their brother, J. E. Suss, and family.

Mrs. John Shea entertained a party of ten lady friends with a picnic at Presque Isle Thursday. Among her guests were three friends from out of the city, who are visiting here.

T. M. Wells, J. M. Perkins, F. A. Bell, W. L. Little and A. Maitland will spend today at Iron Mountain, where they will participate in a golf match with the club there.

The employees of the Maas Negaunee and Jackson mines were paid yesterday. The payroll at the Hartford mine will be squared today; the Regent group, Monday; and at the Mary Charlotte Tuesday.

The Misses Ethel, Lillian and Rose Taylor have started on a trip through the West. They were joined in Chicago by their sister, Rose, and Miss Paul V. Walters. They will take in the Seattle exposition, also Yellowstone Park.

Mrs. Fred Hakonen and her two sons left last night for their home at Ashland, Wis., after a visit with relatives here. A social party was given Wednesday evening at the home of Mrs. M. S. Michael Cox, Mrs. Hakonen's parents, in her honor.

Charles Carroll and wife are here for a visit to his mother, Mrs. P. Carroll, and other relatives. This is Mr. Carroll's first visit home in eight years. He is employed as engineer on the Wisconsin central, and has a run between Chicago and Waukegan.

A message was received here yesterday from Chippewa Falls, stating that Mrs. William Boyd, mother of Mrs. Robert Jackson, is critically ill. Mrs. Boyd left here for Chippewa Falls about five months ago and is living with her son William there.

B. J. Gallagher, a well known North-western passenger conductor, and family, of Green Bay, Charles Fichtel and wife of Marinette and Don Smith and family of Palmer, went to Charles Muek's home near Little Lake yesterday, to spend a week.

There will be no services at St. John's Episcopal church tomorrow, or a week from tomorrow, owing to the absence from the city of Rev. R. T. Bicks, the pastor, who, with Mrs. Hicks, left last night on a boat trip. The Sunday school exercises will be held as usual at 11:45 o'clock.

Services will be held tomorrow morning at 10:30 and evening at 7:30 at the Presbyterian church. Rev. William Bryant of Detroit will preach at both services. W. H. Moulton desires that all

members of the Sunday School society assemble at 12 o'clock.

### Additional Ishpeming

#### PLENTY OF MUSIC TOMORROW.

There will be two bands at Cleveland Park tomorrow afternoon. The Finnish band of this city will furnish music for a Union picnic to be held there and the Ishpeming band will give its regular Sunday afternoon concert. The Finnish band and speakers will occupy the west pavilion and the Ishpeming band will give its concert from the stand near the foot of the ski hill. Speeches are to be delivered at the picnic in English, Finnish and Italian. Former Mayor W. J. Roberts will be one of the English speakers. The Negaunee Glee club will render several selections and the Tarmo Athletic club that city will present pyramids. The program to be given by the Ishpeming band will be as follows: March—"Hail to the Spirit of Liberty," Sousa. Overtures—"Victoria," E. P. Lorenz. Overture—"Sonnemede," Rossini. Cornet solo—"Columbia," Bellman. Waltz—"Impassioned Dream," J. Ross. March—"Chicago, Tribune," W. P. Chambers.

#### SHAPUT WILL NOT RETURN.

D. C. Shaput, the pitcher from the copper country, who was in the box for the Ishpeming team against the Rapid River mine a week ago today, will not return to Ishpeming as expected. He went home following the Rapid River game, with the intention of returning, but his folks objected so strongly to his coming back that he has decided to remain in the copper country in spite of the fact that he had secured a good permanent position here. The management has not yet decided whether Tomon or Goulette will pitch tomorrow's game. It is possible that Tomon, who played the first game of the season with the mine, will be in tomorrow's line-up. He is said to be a very clever second baseman and it is possible that he will play that position. Burke taking his former place in the field. At tomorrow's game ladies will be charged twenty-five cents admission, but will be given free seats in the grand stand. The game will start at 2:30 o'clock.

#### CITY VS. BUSINESS MEN.

In the baseball game between mines composed of business men and city employees, to be played Monday afternoon, commencing at 2:30 o'clock, at the Union Park grounds, both mines will have fairly strong line-ups. The business men's team will be composed of Gorman, shortstop; Skoglund, catch; Ruez, pitcher and field; Goble, second base; Cassin, first base; Forsyth, left field; Johnson, right field; Schott, pitcher and third base. The substitutes will be Stocking, Lynn and Ovean. The city official's nine will be composed of Ollis, right field; Olson, first base; Goble, second base; Brandt, shortstop; St. John, catcher; Michaelson, pitcher; Kece, center field; Donovan, third base; Egan, left field; Locher and Hubl, substitutes. There will be no admission charge.

#### APPENDICITIS CAUSED DEATH.

Jacob Jacobson, aged twenty-two years, son of Mrs. Josephine W. Jacobson, who lives on a farm near Green's Creek, a short distance from the Saginaw location, died Thursday night. He had been operated upon a few days previous for appendicitis, and at the time of the operation doctor Cassin expressed as to his chance of recovery. The deceased was known to a number of Ishpeming people and was very well liked. Besides his mother, he is survived by a sister, Mrs. Charles Cronin, who also lives near Green's Creek. The funeral will be held tomorrow afternoon at 3 o'clock from the Mission church.

## Poor Plumbing Is Dangerous!

Filth, decay, obnoxious odors, disease germs—ever a menace to health—are the outcome of unsanitary plumbing. Can you afford to assume such a risk? Would you be wise in so doing? Our modern open plumbing is at your service at prices to suit you.

### PANAMA CANAL ZONE GOOD PLACE TO LIVE

GOVERNMENT ENGINEER, NOW  
VISITING HERE, SPEAKS HIGH-  
LY OF THE COUNTRY.

### YELLOW FEVER STAMPED OUT

Marvelous Work Accomplished by  
Science in Making Death Trap a  
Healthful Locality.

That life in the Panama canal zone is just about as pleasant and agreeable as life in the states is the statement made by Mr. and Mrs. James Stokoe, of Calabra, who are now visiting at the home of Mr. and Mrs. C. C. Carlisle, on North Front street. Mr. Stokoe is in the employ of the government as a member of the canal engineering corps, and has been in Panama since July, 1905. Mrs. Stokoe has lived in the canal zone for the last two years. At the expiration of Mr. Stokoe's three months' leave of absence, the two will return to their home in Calabra.

"In spite of all that is said in the newspapers, the people of this country do not realize the marvelous work that has been done by the government sanitary department in making the canal zone habitable for Americans," said Mr. Stokoe yesterday. "When I went to Panama in 1905 it was generally believed that it was next to impossible for a white man to live there any length of time and it was pretty nearly true. When I landed there were twenty-eight cases of yellow fever, and eleven of the patients died. Since 1906 there has not been a single case of yellow fever in the canal zone. The danger of malaria or fevers is now not much greater in Panama than in this country, and it is the United States sanitary commission that has brought this about.

"The yellow fever germ has never been discovered and there is really no cure for the disease known to medical science, although something can be done to rid the system of the symptoms. Yellow fever has been stamped out and is being kept down entirely through the enforcement of proper sanitary conditions.

**Mosquitoes and Yellow Fever.**

"A few years ago it was discovered that yellow fever was transmitted almost entirely by the female of a certain species of mosquito. This insect comes in contact with a yellow fever patient and about thirteen days later itself comes down with the disease. Whoever it bites after that time will come down with the disease unless his system is strong enough to throw off the germ. Another species of the insect carries the malarial germ.

"This fact having been proven beyond a doubt, war was begun on the mosquito, and at the same time defensive precautions were taken to isolate yellow fever patients from mosquitoes. The results were marvelous and immediate and

by everlasting vigilance the government has prevented an outbreak of the disease for three years. The most effective way of destroying the mosquitoes is to prevent their breeding. Oil is poured in the low marshy places, which the young mosquitoes inhale when they come to the surface of the water to breathe and are killed. Brush has been cut away from the streams and all water pails and rain barrels must be covered with fine screens. By these and other precautionary measures the number of mosquitoes has been greatly reduced, and the prompt isolation of all yellow fever suspects has thus far prevented an outbreak of the disease.

**The Country and the Canal.**

"The development of the canal country has been wonderful. When I first went there but seven steam shovels were in operation in the canal work; when I left two months ago there were 101. The city of Calabra is now a fine place to live in and is the home of a great many cultured Americans. After having been there a short time, a person suffers no more with the heat than in this country, and both Mrs. Stokoe and myself are delighted with our home in that city.

"As an illustration of the magnitude of the canal project, what is known as the Calabra cut when completed will be nine miles long, 200 feet wide and over 200 feet deep at the highest point. Excavation has already been made to a depth of about 120 feet. The whole length of the canal will be about fifty miles, and the greater part of the work will be in the Calabra cut.

"Most of the actual labor on the canal work is being done by Spaniards and West Indian negroes, and the negroes are being displaced by Spaniards as rapidly as possible. The negro has proven an unsatisfactory laborer, being both lazy and exasperating, but the Spaniard is a faithful and assiduous workman. All of the skilled labor, of course, is done by Americans."

### NINE HOURS THE LIMIT.

New Labor Law Will Affect Many Marquette Working Women.

Loss ten a month away is the time for the new nine-hour day labor law for women and children to go into effect. The law that will affect many women in Marquette is the one that will affect the city, who is working for a period longer than an average of nine hours in a day or fifty-four hours in a week, or for more than ten hours in any one day.

The law will affect those employed in the city factories, mills, warehouses, workshops, clothing, dressmaking and millinery establishments, laundries, stores, shops or any other mercantile establishment.

Merchants in the city will be affected by the law more than anyone else. Only nine hours are put in each day here, from 8 to 12 o'clock and from 1 to 6 o'clock, but several hours extra are put in on Saturday nights and in the majority of stores on payday nights also. This system will violate the law in which a clause states that the employee shall not work "for more than ten hours in any one day."

What will be done in the next few weeks by Marquette merchants to comply with the law remains to be seen. So far, nothing has been done to change the present system. In other cities of the state, merchants are employing extra help and arranging shifts by which no woman or child will work for longer than ten hours in any one day.

### MACHINERY PURCHASED.

Lipsitt & Sinclair Expect to Operate New Crusher Within a Month.

James Sinclair has returned from Chicago and Milwaukee, where he purchased some of the machinery for Lipsitt & Sinclair's new rock crushing plant, to be located on the Blembier farm in the southwestern part of the city. The D. S. S. & A. railway has already built a switch into the proposed plant and it is hoped to have it in operation within a month.

Mr. Sinclair states that he has purchased a Symar crusher, which is unknown in this part of the country but is one of the best rock crushers manufactured. The machine he purchased is rated as having a capacity of thirty tons an hour, but he does not expect it to be able to do that much work in the hard rock found here, although it might do so in limestone. He has also purchased an exceptionally good screen from a Chicago firm, which he expects to be more satisfactory than those formerly in use. The remaining equipment of the new crusher will be purchased within a short time, and it is likely that a new and larger motor than is now used at the high street crusher will be included in the equipment.

Mr. Sinclair states that there is a very fair demand for a good quality of crushed rock and that he has orders for about as much rock as he can conveniently get out. The cities of Detroit and Cleveland are using his output extensively. When the new plant is once in operation, he expects to be able to turn out crushed rock in larger quantity than under present conditions.

### TURKISH BATHS AND CHIROPODY.

Frank Keough, 123 W. Ridge St., Marquette.

### SUNDAY AT THE CHURCHES.

First Church of Christ, Scientist—Services at Felix Hall, Opera block, Sunday at 10:30 a. m. and 7:30 p. m. Subject, "Life." All are invited to attend these meetings.

First Methodist Episcopal—At the services Sunday evening Mr. Maywood will, by request, repeat his sermon on "Faith," delivered last Sunday night. Presbyterian Church—Morning theme: "Legal and Moral Dues." In place of the evening service there will be an afternoon hour of worship at 4 o'clock. Familiar hymns will be sung and the service will be short. We shall particularly welcome the children, the care of whom sometimes prevents the mothers from attending evening services.

All dues and assessments for Superior five, No. 217, L. O. T. M. M., will hereafter be paid to Mrs. Minnie Marvin, 717 North Third street. (7-17-11)

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. (7-16-24)

### JULY CLEARING SALE AT THE BEE HIVE.

We are now making big reductions on everything, particularly our summer goods, such as ladies' wash suits, shirt waists, belts, oxfords, etc.

THE BEE HIVE, L. Getz, Prop., 220-222 S. Front St., Marquette, Mich. (5-19-11)

DRY HARDWOOD. Two dollars per cord in two-cord lots. F. D. SPEAR & SONS. (2-13-11)

### Please You More Every Day You

have 'em on you—STEIN-BLOCH light weight Spring clothes. They fit you right—at the neck, over the flat space below the neck across the shoulders, in front over the breast. They are stylish—a line here, a curve there, an unusual slant to the lapels—the little points that STEIN-BLOCH brains thought out and knew how to put there.

Stein-Bloch Smart Suits, \$18 to \$30.

Stein-Bloch Spring Overcoats, \$18 to \$25.

Stein-Bloch Raincoats, \$25.00.

### Thin Clothes

Black and Grey Alpaca Coats, Blue Serge Skeleton Coats, Knox Straw Hats, Nansook Underwear, Soft Negligee Shirts and a pair of black or tan Oxfords are in order for the hot days.

Ormsbee & Atkins  
Nester Block, Washington St.

NOTICE.
