

SENATOR BURROWS IS FIGHTING HARD

With the Exception of Hides, Iron Ore Is Giving the Tariff Conference More Trouble Than Any of the "National Issues."

While It Has Been Supposed the Commodity Would Go on the Free List, the Michigan Senator Is Striving Strenuously to Prevent the Abolition of the Duty, and He Has Confidence He Will Be Successful—An All-Around Agreement Probable Today.

Washington, July 23.—While no agreement was reached by the tariff conference today on coal, lumber, hides, oil, iron ore, cotton and wool pulp and print paper, it was said tonight by members of the conference committee that the prospects of settling these big questions tomorrow were excellent. For a time today it appeared that these so-called "national issues" might be disposed of by the conferees before the end of the day's session. However, when adjournment was taken at 6 o'clock p. m., it was learned that the matters under discussion were still at issue.

Heroic measures were put into operation today in the effort to compromise the differences existing between the senate and the house on the tariff bill and to carry out President Taft's program for the reduction of the duties on raw materials. All except the conferees themselves were excluded from the chamber, and it was agreed that the discussions leading up to the settlement of any of the subjects familiarly termed "national issues" should be regarded as confidential.

Question of Hides the Big One. As the question of hides is giving the committee more trouble than any other of the schedules that have claimed the attention of the president, it was discussed first. The discussion had not proceeded far before it was developed that the differences between the two houses were almost irreconcilable, unless the duties on hides and shoes and other leather goods should be greatly reduced. It was agreed that the committee would have to go on the free list.

Senator Aldrich had reports from many Western senators, protesting against the removal of the duty on hides or a reduction below 10 per cent ad valorem. The conferees on hides, all Western senators would consent to consider the abolition of the duty involved the removal of the duty on leather goods.

After adjournment, Senators Lodge and Crane and Representative McCall, of Massachusetts, had a long consultation with Senator Aldrich. It is not known what understanding, if any, was reached.

Other Issues Less Troublesome. After the duty has been fixed on hides and leather goods, little difficulty is apprehended in reaching an agreement to put oil on the free list and in compromising upon a duty of about forty-five cents a ton on coal, \$1.25 a thousand feet on rough lumber, with proportionate differentials, and about \$5 a ton on print paper.

Iron ore is expected to give more trouble than any of these subjects, except hides. Many senators thought that little objection would be made to the placing of iron ore on the free list, and this question was generally regarded as good as settled. However Senator Burrows of Michigan is making a stubborn fight for the retention of the senate rate of twenty-five cents a ton on iron ore, and he is said to be confident that he will prevent the abolition of the duty.

The anti-free raw material "insurgents" of the house met today. There are only twenty-seven members present, and although several speeches were made no resolutions were adopted.

It was announced today that the increased rates of internal revenue tax on tobacco, which were adopted by the senate at the instance of Mr. Beveridge, would be accepted.

The conferees today accepted the senate amendment imposing a duty of 45 per cent ad valorem on structural steel punched for use.

COMMEND TAFT'S STAND. Commercial Travelers, too, Denounce the Mail Order Business.

Chicago, July 23.—Resolutions commending President Taft for his stand for a tariff beneficial to the people; denouncing the mail order business, and asking for railroad rates that will not be discriminating to traveling men were adopted at the executive business session of the National Travelers' association here today.

IMMIGRANTS HELD UP. Robbers Strip Them of Their Valuables in an Erie Railroad Train.

New York, Saturday, July 24.—The immigrant passengers on the Erie railroad's westbound train were held up near Middletown, N. Y., early this morning. Robbers held the passengers at bay with revolvers, stripping them of their money and valuables, and made good their escape.

If a man doesn't get the better of himself some other fellow will.

SESSION OF THE HOUSE IS AN EXCITING ONE

Mr. Macon of Arkansas Objects to Certain Offensive Remarks Inserted in the Congressional Record, and He Is Successful in Having Them Stricken Out.

Washington, July 23.—The house was thrown into an uproar today when Mr. Macon of Arkansas, reverting to its colloquy last Monday with Mr. Rucker, of Colorado, charged that the Colorado member had inserted in the congressional record certain references to him which had not been uttered. Not only had this been done, he said, but insult had been added to the injury by placing in brackets at the end of the remarks the words "great applause." He wanted it all stricken out, "especially the 'great applause.'" This was ordered done, after Mr. Rucker had explained that he actually had made the statement on the floor and insisted that there was "applause." The speaker declared the motion to strike out carried, although he failed to take the negative vote.

The session was further enlivened when Mr. Randall, of Texas, wanted the speaker to appoint a judiciary committee to consider the bills prohibiting members of congress and court officers from accepting gifts or employment from corporations, trusts or persons interested in legislation. The house adjourned until Tuesday.

Senate's Session Is Brief. After a session of about half an hour today, the senate adjourned until Monday, which is a day earlier than under the agreement for sessions only on each third day while the tariff bill is in conference. The date was moved up in the hope that the conference report might be in shape to be presented Monday.

The senate also listened to a representation from Mr. Culberson, of Texas, concerning the Democratic cause. He contended that the Democrats had been exceptionally harmonious and united, and undertook to refute all statements to the contrary.

In a brief executive session, a large number of presidential nominations were confirmed, including that of Charles R. Crane, of Chicago, to be minister to China.

ROOSEVELT FOR MAYOR. New York Republicans Still Hopeful He Will Head the Ticket.

Paris, July 23.—John S. Wise, Jr., of New York, says that Theodore Roosevelt, just prior to his departure from New York on his African hunting expedition, promised other Republicans in New York that he would return in time for the mayoralty campaign. Mr. Wise says that he has not given up hope that Mr. Roosevelt will head the Republican mayoralty ticket in New York this autumn.

HAZING AT WEST POINT NOT STAMPED OUT After Examining More Than 100 Cadets, the Board of Army Officers Appointed to Conduct an Investigation Reports That the Practice Still Continues.

New York, July 23.—After examining more than one hundred West Point cadets under oath, the board of army officers appointed to investigate the hazing conditions at the United States Military academy, submitted its report to Colonel Hugh Scott, the superintendent, today. The report deals largely with the case of Cadet Sutton, or Oregon, brother of the young officer of the United States Marine corps, whose tragic death is now being investigated at Annapolis. The report contains the statement that hazing is still in existence at West Point. The cadet was seriously injured, but during the entire investigation he would not reveal the names of those who attacked him.

One of the new tricks that the cadets indulge in at the expense of the plebes is an exciting horse race in which the plebes gallop on all fours.

No Further Sensations at Annapolis. Annapolis, Md., July 23.—The navy quietly related its case today in the Sutton investigation. After a short session, Commander Hood, president of the court of inquiry, adjourned the hearing until Monday. With the exception of Lieutenant Harold H. Utley and Surgeon F. C. Cook, now on their way to this country from Europe, nearly all the remaining witnesses are considered to be witnesses for the interested parties outside of the service. Today's testimony was devoid of sensational features.

MOTHER WILL PROSECUTE HER. Mrs. Mayfield Formally Charged With an Attempt to Murder.

Chicago, July 23.—Mrs. R. Newton Mayfield was today formally charged with an attempt to kill her mother, Mrs. Gertrude A. Hinkley, who, it is alleged, was shot by the daughter because of her refusal to invest money in a Mexican mine. The complaint was signed by Dr. Sheldon Peck, brother-in-law of Mrs. Mayfield. Mrs. Hinkley, it is said, declares that she will prosecute her daughter. Mrs. Mayfield announces her intention to charge that her mother is mentally unbalanced.

CORNELIUS SHEA IS SENTENCED. Five to Twenty-Five Years in Prison Is Dose Handed Out to Him.

New York, July 23.—Cornelius P. Shea, former president of the International Brotherhood of Teamsters, found guilty Wednesday of attempting the murder of Alice Walsh, a former Chicago waitress, with whom he had been living here, was sentenced today to not less than five nor more than twenty-five years in prison.

KNOCKS OUT GUNNER MOIR. Southend, Wales, July 23.—In what was to have been a twenty-round contest tonight, "Young Johnson," American, knocked out "Gunner" Moir in the second round.

TRIBUTE LEVIED ON "UNDERWORLD"

Grand Jury at Work in Chicago Hears an Astounding Story of Graft in the So-Called West Side Levee, It Is Stated.

Alleged to Have Gathered in a Total of \$150,000 in Collecting Protection Money from Dive Keepers, Gamblers and Cocaine Sellers, Detective Sergeant Griffin Is Indicted, and So Are Politician Louis Frank and the Notorious "Mike the Pike."

Chicago, July 23.—An astounding story of "graft" in the so-called West Side Levee of Chicago is said to have been related to the grand jury today.

Detective Sergeant Jeremiah Griffin, alleged to have been a collector of protection money from dive keepers, gamblers and cocaine sellers, was indicted on eight counts. He is alleged to have gathered as high as \$20,000 monthly, very small part of which remained in his own pocket. In all, Griffin, who travels out of the Desplains street station, the headquarters of Inspector McGinnis, is alleged to have collected \$150,000 from the families of the underworld of the West side.

Indictments also were returned against Louis Frank, a saloon keeper and politician, who is said to have accumulated a fortune of \$1,000,000 in the levee district, and against Michael Heifler, the latter being familiarly known as "Mike the Pike." They are alleged to have collected money from illegal houses by representing themselves as agents of the police.

STOCK MARKET TORPID. Wall Street Trading Is Sluggish, but With the Prices Holding Steady.

New York, July 23.—The sluggish and torpid state of the stock market today was significant of the waiting mood on the part of speculation. The event awaited with interest at present undoubtedly is the meeting of the United States Steel directors next Tuesday to act on the quarterly dividend.

Speculative opinion has about reconciled itself to the view that there will be no change in the dividend rate at that time. United States Steel was steady and quiet today and conveyed assurance by its action that the peg had been inserted in the market. The price of this stock, which is paying 2 per cent dividend, to above 84 caused it to be cited as evidence of what could be done with price of an industrial security paying 2 per cent and with prospects.

The strength of occasional stocks in the list and, even more, the real support accorded United States Steel, was effective in holding the general market in spite of the semi-stagnation of the trading. The estimates of the week's currency movement indicated a larger inflow from the interior than had been anticipated in view of the decline in interior exchanges on New York.

State of the Nation's Trade. New York, July 23.—R. G. Dun & Co.'s Trade Review will tomorrow say: With the disturbing tariff question soon to be out of the way and with crops and prices at a point that will continue to advance in several branches of the iron and steel trade, and higher quotations are expected on some products that have ruled on a very low basis. It is believed that the leading interest will shortly follow the action of the independent producers in asking better terms for steel bars, plates and shapes.

Bradstreet's will say: Improvement in crops, rather better advice as to the ultimate outcome of the leading cereals, and an easing in the prices of bread-stuffs consequent thereon or because of the larger wheat crop movement, a good distribution at retail under the stimulus of clearance sales and a slight enlargement of the fall trade with jobbers and wholesalers are the leading features this week. Connected therewith in some degree are advances from the leading industries of enlargement of output and of the continuance of the upward tendency in the values of manufactured goods, the larger demand for money for crop-moving purposes and a perceptible increase in the friction visible between employers and employees in a number of lines. This latter is a natural phenomena of the industrial situation, possibly made more noticeable this year by reason of the high level of prices of commodities and the consequent high cost of living. All the pig iron market report firm prices.

AUTOMOBILE IS WRECKED. Speaker Cannon's Nephew Is Bruised and His Companion Is Badly Hurt.

Crawfordsville, Ind., July 23.—A motor car driven by Richard Cannon, nephew of Speaker Cannon, dashed over an embankment while running at high speed near here today. Mr. Cannon's companion, John Home, a brewer, of Danville, was probably fatally injured. Mr. Cannon was painfully bruised.

THE WEATHER.

Washington, July 23.—The following is the weather bureau's forecast for Upper Michigan: Fair and somewhat warmer, Saturday; Sunday, fair; light to moderate variable winds.

BREAK OCCURS IN THE RANKS OF THE STRIKERS

Idle Employees of the Allen Tannery at Kenosha Apply for Reinstatement—No Further Rioting Takes Place, and the Peace Conferences Are Resumed.

Kenosha, Wis., July 23.—In strong contrast with yesterday's riotous attacks upon the Allen Sons company's strike-bound tannery, today was devoted to a series of conferences looking to a peaceable adjustment of the grievances. Night found the breach considerably narrower, but no actual agreement reached. A break in the ranks of the strikers occurred this afternoon, twenty-five men applying for reinstatement, and the company officials were of the opinion that the first of next week would see the men back at work.

Whether the strike was to continue appeared at the conclusion of the day to hinge upon the question of the pay for the men for the three days they have been out. This the company refuses. The demand for a wage increase of \$1 a week for all strikers has been met by the employers with an offer of that advance in some departments, fifty cents in others and in some the old pay. This was accepted by the men, but the refusal of the company to pay for the lost time blocked a settlement for the day. A later proposition from the men to accept a fifty-cent raise in all departments also was refused. Tonight the committee which has been conducting the strike was discharged, and a new committee was named.

MOORS GIVE DON A FIERCE BATTLE

Tribesmen Attack the Spaniards at Melilla, and Although Once Repulsed the Close of the Day Finds Them the Victors.

If He Is to Triumph, General Marina Will Require 40,000 Troops, He Is Said to Have Informed the Government at Madrid—Meanwhile the People Violently Oppose the War and There Are Renewed Riotous Outbreaks and Further Mutinies.

Madrid, July 23.—It is reported that General Marina, commander of the Spanish forces at Melilla, has informed the government that he will require forty thousand men to insure a decisive victory over the Moorish tribesmen.

Fighting at Melilla Is Desperate. Melilla, July 23.—An official statement issued this evening concerning today's fight between the Spaniards and the Kabyle tribesmen says that before dawn this morning the Moors opened a general attack on the Spanish advanced positions, concentrating their efforts against Sidi Mosa and the garrison at Cape Moreno. The fighting was of most furious character, but a sortie by six companies of Spanish infantry and a field battery was successful and the enemy fell back. In the fighting a Spanish colonel and three other officers were killed and thirteen were wounded. The number of casualties among the enlisted men is not known. The newly detached troops have been hurried to the front. At 4:30 o'clock this afternoon the Moors resumed the offensive, and the firing at that time was general.

Melilla, July 23.—The fighting during the afternoon resulted in the defeat of the Spanish troops. Under a galling fire by the Moors, they were unable to hold the ground they had gained, and at nightfall, in order to avoid disaster, they retreated to their old position.

WILL WED ANITA SMITH.

Prince Miguel Renounces His Rights to the Throne of Portugal. Lisbon, July 23.—Prince Miguel of Braganza today renounced forever his rights to the throne of Portugal, in order to marry Miss Anita, daughter of Mrs. James Henry Smith, of New York.

MERRY PICNIC PARTY MEETS WITH DISASTER

Caught by a Torrent That Sweeps Down a Colorado Canyon, the Result of a Cloudburst, Two Persons Are Killed and Two Are Seriously Injured.

Boulder, Colo., July 23.—Two persons are dead and two are seriously injured as the result of a cloudburst that deluged Two-Mile canyon, north of Boulder, today. The dead were Vernon Carlisle, aged thirteen of Robinson, Ill., and Arthur Dickerman, aged twenty-five, of Greeley. The seriously injured are Mrs. Abbott, of Garden City, Kas., and Zera Carlisle, of Robinson, Ill.

The victims were members of a picnic party. When rain began to fall, the party sought shelter under a boulder. Presently a torrent swept down the canyon, and the party scrambled for safety. Six were able to get to shelter, but in aiding their companions Dickerman and Carlisle were swept down their bodies were found floating in the water near Laporte, Texas, twenty miles away.

TEXAS STORM COSTS \$750,000.

Reported Fatalities Number 23 and Fourteen Persons Are Missing. Houston, Tex., July 23.—Twenty-three reported deaths, fourteen persons missing, eight persons and a property loss totaling \$750,000 is the result of the storm which raged over the southern coast of Texas last Wednesday, according to latest dispatches received here today. Communication with the stricken district is still futile.

New Orleans, July 23.—All doubt as to the fate of Captain R. L. Bethson and wife, reported drowned when the Tarpon pier was washed away near Galveston, was removed this afternoon when their bodies were found floating in the water near Laporte, Texas, twenty miles away.

BAD ROADS ENCOUNTERED.

Yesterday's Run the Most Difficult of the Glidden Automobile Tour. Julesburg, Colo., July 23.—The pilot car of the Glidden tour arrived here at 1:45 o'clock this afternoon, after covering 200 1/2 miles from Kearney, Neb., over the worst roads so far encountered. It was necessary to secure teams to help the cars over ridges. The contesting cars followed the pilot at short intervals.

Chevrolet Breaks a World's Record.

Grand Rapids, Mich., July 23.—Louis Chevrolet, in a fifty-mile automobile race here today with Lewis Strang and George Dewitt, broke the world's record for fifty miles on a circular track by making the distance in fifty-one minutes and twenty-two seconds. The best previous time is said to have been fifty-two minutes and forty-eight seconds, made by Strang at Springfield, Ill., last Saturday.

DEEP SKY GETS LICENSE.

South Dakota Sioux Chief to Wed a Pretty New York Girl. New York, July 23.—Deep Sky, a Sioux chief, of South Dakota, today obtained the necessary legal documents to marry Adele Rowland, a pretty New York girl, twenty-one years old. This is the first marriage license ever issued at the New York bureau to a white woman and a full blood Indian. They will be married next Thursday. Deep Sky is connected with a Wild West show now exhibiting in New York.

WEALTHY AMERICAN IS VICTIM OF CHOLERA

Attacked by the Dread Disease in Russia, Roger Winfield, Enroute Around the World With His Bride, Dies Shortly After Arriving in Prussia.

Koenigsburg, Prussia, July 23.—A young American, whose name for the present is withheld by the authorities, arrived here with his wife Wednesday from Russia. Today he died from what a bacteriological examination shows to have been the cholera.

Berlin, July 23.—At the Prussian ministry for education, worship and health it was confirmed today that an American traveler had died from cholera at Koenigsburg, but the name of the man was not then known. Later it was learned that his name was Roger Winfield, a business man of Fond du Lac, Wis. The widow of the man, who is a railroad employe, is still isolated and will be held until the danger of their contracting the disease has passed.

Young Wife Is Doubly Bereaved.

Wooster, O., July 23.—Mrs. Elinore Quinby Winfield, a bride of last February, is enroute home from Europe with the bodies of her husband, Roger Winfield, of Fond du Lac, Wis., and her father, Edward M. Quinby, a Wooster millionaire, who died within two weeks. The marriage of the Winfields took place in Pittsburg, and the couple started on a tour of the world. The death of the young woman's father, who had come aboard later, occurred July 7 at Dresden, today. The family received word that Mr. Winfield had died.

A Protectorate Over Honduras?

Mexico City, July 23.—A story of the alleged intention of the United States to form a protectorate over Honduras has been brought here by a man who claims to be the secret agent of one of the Central American republics. Traveling with him was Senor Vasquez, former president of Honduras, who is alleged to have documents from Washington guaranteeing him safe conduct across Nicaragua and Honduras territory. The officers of an American gunboat examined these papers at Corinto, it is said, and approved them, and Vasquez proceeded to Honduras, where it is alleged that he is conducting the present protectorate. It is stated that President Davila is favorably inclined.

Washington Denies the Story.

Washington, July 23.—Emphatic denial of the report emanating from Mexico City that this government contemplates establishing a protectorate over Honduras was made by the state department officials today. The situation in Honduras has given the state department more or less concern, and the possibility of a revolutionary uprising was indicated in recent reports from that country. The conditions were more tranquil at last reports, however.

A Peace Move in South America.

Lima, Peru, July 23.—It was reported here today that Bolivia, yielding to the advice of the United States, would offer to negotiate direct with Peru concerning the division of certain disputed territory. It can be stated, however, that Peru will not enter into the negotiations unless Bolivia previously accepts the award of President Alcora of Argentina.

CABINET TAKES OFFICE TODAY.

M. Briand Successful in Forming a New Ministry for France. Paris, July 23.—After a day of conferences, Aristide Briand succeeded in forming the new French ministry, and he officially announced the success of his endeavors to President Fallieres at 10 o'clock tonight. The new cabinet is constituted as follows:

Premier and Minister for the Interior and for the Public Worship—M. Briand. Justice—M. Barthou. Foreign Affairs—M. Pichon. Finance—Georges Cochery. Education—M. Doumergue. Public Works, Posts and Telegraphs—M. Millerand. Commerce—Jean Dupuy. Agriculture—M. Raut. Colonies—M. Trouillot. Labor—M. Viviani.

The war and naval portfolios will be filled tomorrow. These have been offered, respectively, to General Bran and Admiral Boue de La Payre, and both are expected to accept. The new ministers will be sworn in tomorrow.

Will Strive for Industrial Peace.

The ministerial declaration which was formulated and unanimously accepted by the members of the new cabinet contains a statement indicating that the cabinet is committed to the attempt to end the war between labor and capital which has disturbed France for so many years. The government, says this declaration, insists upon the necessity of an alliance between labor and capital and the avoidance of every cause of conflict; that the members of the cabinet, regardless of political affiliations, resolve with the aid of parliament to ameliorate the moral and material well-being of the workers as far as in their power lies, but the accomplishment of this end will depend upon the support of the workers themselves and the latter must give security to capital or otherwise undertakings will be abandoned and the economic development of the country arrested.

MURDEROUS INDIAN TO DIE.

London, July 23.—Nadaral Dhinagar, the Indian student who shot and killed Lieutenant Colonel Sir Wm. Hutt Curzon Wills and Dr. Casvas, was found guilty today and was sentenced to death, at the conclusion of a trial of less than an hour's duration.

FIT KILLS AUSTRALIAN LEADER.

Melbourne, July 23.—At the end of an all-night sitting of the commonwealth parliament, Sir Frederick Holder, speaker of the house of representatives, was seized with a fit and died soon afterwards.

Separating an easy mark from his money is nothing to boast of.

THE SUPERIOR LUMBER COMPANY

City Brevities

Mrs. A. E. Sterne, of Ishpeming, is visiting with Mrs. C. E. Carlisle.

Mrs. Libby, mother of Mrs. S. R. Kaufman, returned to Chicago last evening.

Miss Cora Carlson, of Detroit, is visiting with the Misses Grace and Flora Reilly.

Mr. and Mrs. O. S. Foster, of Utica, N. Y., are visiting their daughter, Mrs. Frank J. Russell.

Born, last evening, to Mr. and Mrs. J. N. Williamson, 120 North Third street, a daughter.

Senator M. H. Moriarty, of Crystal Falls, was calling on his many friends in the city yesterday.

Pictures of the ski tournament at Ishpeming last February will be shown at the Bijou next week.

J. F. Anderson, secretary of the park, cemetery and street commission, is confined to his home by illness.

Gus Peterson, of this city, and Miss Hattie Bonen, of Iron Mountain, were married by Justice C. D. Blanchard yesterday.

R. S. Rose returned yesterday from Winnipeg and the adjacent Northwest, having been delayed several days by the flood and consequent washouts near Duluth.

Charles R. McCabe expects to return to New York city today, where he is in the employ of the Cole-Ryan interests, after having spent several weeks with his family in this city.

Rev. Bates G. Burt has returned from a vacation spent at Sault Ste. Marie, where he enjoyed a cruise down the St. Mary's river in Chase Osburn's yacht.

Mrs. Burt did not return with her husband. Nels P. Flodin returned yesterday from Seattle and other western points, where he has been spending several weeks in the interests of the Lake Shore Engine works. This Marquette manufactory is establishing agencies in many of the western cities.

With the Ore Carriers—At the South Shore dock, the Gishist cleared for Toledo and the Montague for Tonawanda, the F. W. Hart is loading and the Wolf was due last evening. At the L. S. & I. dock, the Frontenac cleared for Cleveland and the England for Ashland and the Sheafle and Admiral are loading.

Picnic at Eagle Mills—The Marquette council of the Knights of Columbus are making arrangements to hold a basket picnic in the grove at Eagle Mills, Aug. 5, which will be participated in by the members and their families. Our boys' band has been engaged to furnish music on the grounds and, weather permitting, a delightful day of pleasure is anticipated.

Fire Drill on Tionesta—The crew of the Tionesta went through a fire drill while at the Spear dock yesterday, upon orders from the local inspectors. The drill was executed with dispatch and the pumps, hose and other fire apparatus were found to be in good working order. In twenty-five seconds after the alarm had been sounded, eight streams of hose were in action and in a minute and a half a life boat was in the water.

Possibly Nolan's Sister—Marshal Manning has received a letter from a woman in Algona, Mich., asking for information regarding Thomas Nolan, whose decomposed body was found beneath Spear's dock a few days ago, stating that she has a brother of that name whose whereabouts she does not know. She speaks of her brother having a peculiarly shaped hand, and an effort is being made to learn if this peculiarity had been noticed by friends of the Nolan found dead in this city.

Tomorrow's Ball Game—The Marquette baseball team held their final practice last evening in preparation for the contest with Ishpeming at the fair grounds Sunday. The game will be called at 2:30 and there will be both train and street car service to the grounds. Scholtes will probably be in the box for Marquette, and Cy Young, who was injured at Negaunee two weeks ago, is expected to be at his regular short stop position. As Marquette seems to be the one team in the league in which there is no fatal disconnect, and is in splendid form, the boys should be able to get away with the big end of the score.

Will Go to Escanaba—Superintendent Retailie, of the light and power commission will leave this morning for Escanaba to look over the electric plant which furnishes current for both the street railway and the electric lights. By this inspection he hopes to learn whether or not it will be advisable for the light and power commission to sell electric power to the street railway company, as they have been asked to do. In Escanaba, the street railway sells current to the city, but the machinery needed and the results of the combined business should be the same if the situation were reversed, as would be the case in this city.

Music at the Club—The regular Saturday noon lunch at the Marquette club today will be of much more than the usual interest to the members. It will be accompanied by a musical treat. The "Mullin in Favour" orchestra will be the attraction. It will play from 12 until 1:30 o'clock, giving during that period a program of classical music. The orchestra has been in the city for several days, and it has won for itself high favor. There are three members, all gifted musicians and of whom Professor Joseph Bristoli is the leader. The instruments played are the harp-guitar, mandolin, lute and banjo. The orchestra has a number of private engagements for this afternoon and evening.

When Does It End?—There is some doubt in the minds of sportsmen as to when the trout season closes this year. The old law makes Aug. 15 the end of the season while the last legislature extended the season until Sept. 1. Some say that the new law will go into effect ninety days after May 19, when the work of the session was practically finished; others that it will not go into effect until ninety days after June 2, when formal adjournment was taken. If the former is the case, the season will not close until Sept. 1, but if the latter be true Aug. 15 will be the last day, as the new law will not become effective until after Sept. 1. Representative McCabe is of the opinion that the new law goes into effect about the middle of

August and that trout fishing will be legal until Sept. 1.

Will Move About Aug. 10—Hager Bros.' new block is rapidly nearing completion, and the proprietors expect to move their furniture stock into the new building about Aug. 10. Some delay has been caused by the inability of the contractors to get the elevator, but notice of its shipment has now been received. Hager Bros. announce that their removal sale has been attended with splendid success and that it will continue fifteen days longer during which time exceptional bargains will be offered. The fall purchases in the rug department have arrived sooner than expected and the lot will be included in this special sale. The opportunity to buy a bright, new and up-to-date rug at a cut price does not often occur, and is one which the public should not fail to take advantage of.

INSURE WITH PETER WHITE & CO. SPECIAL MUSIC AT ST. PAUL'S.

Wm. E. Zeuch to Preside at the Organ Tomorrow—Rev. Burt Home.

Rev. Bates G. Burt, rector of St. Paul's Episcopal church, returned yesterday from a two weeks' vacation and will officiate at the services tomorrow, which will be a communion service at 7:30 a. m. and morning prayer at 10:30 a. m.

At the latter service William E. Zeuch, of Chicago, will preside at the new organ. The special features of the musical program will be as follows: Prelude, "Prayer".....Guilmont Te Deum.....Woodward Offertory, "Meditation".....d'Evry Postlude, "Triumphal March".....Dudley Buck Marquette music lovers will also have an opportunity to hear Mr. Zeuch in an organ recital next Wednesday evening at 8 o'clock at St. Paul's church. Mr. Zeuch will be assisted by Miss Winifred Tucker of this city, who has been studying with George Hamlin, the noted tenor of Chicago, and has developed a splendid contralto voice. No admission will be charged and no collection will be taken. Mr. Zeuch will meet the choir of St. Paul's church at a special rehearsal this evening at 7:45 o'clock.

"WHAT IS A GAS BILL?"

J. B. Hogan Won First Prize for Telling About It.

Joseph B. Hogan, who is now located in Coeur d'Alene, Idaho, won the first prize in a recent contest arranged by the Spokane Spokesman-Review for the best answer to the question "What is a gas bill?" Several hundred answers were turned in, running from Mr. Hogan's "Mr. Dooley" style to extended efforts in verse, but the former was considered far the best. It is as follows: "O' say, Dooley, what's a gas bill?"

"Well, Himsy, meself been' the rath'er 'stirred' myself for many years' diggins for the warrent relation an' all possibin' a burnin' desire for a hoosband, wid not wan as yet successful, ye couldn't ask th' question in a most qualified 'ansur."

"Ye me moord, 'tis naawhin' more than a dear durt from Capul to can, ye arn' tidin's iv considerable overtime spint be the darlin' in tidin' 't th' flame iv leave, or, in th' same sense, 't might describe it as a demand for a large installment on a high-priced marriage license, 't be believed in an extremely indiffirent an' unsertin toime in th' farline."

"Himsy, O' hoove em' 't regard th' igitular thirty-day demand paper as conclusive evidence iv th' existance in th' minds iv sunn paple iv th' idea th' ye hev money 'n' arran."

"In another sense, 't might terran thim as hivy monthly assessments from a hot-air interprise wid a lead-pipe cinch on yeer mooney, or as a request for payments from which th' returns are always late light."

"O' th' ye, Himsy, th' paple won't stand it mooch longer and thase rickless demands are gradually termin' a stip 't th' platforrum iv moonicipal ownership."

"They are commin' 't be regarded as naawhin' 't be that rickless, moonicipal commands iv 'Hands up!' from a hoight yeawann operatin' under th' guise iv a legal franchise, or in other words as polite, little missives from th' blackhand, warnin' ye th'at unless ye pay yeer light gas bill, ye arn' ravin' loike a rabbid socialist."

"Himsy, I believe O' an gasin' a little too mooch."

SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., July 23.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Carter, Tionesta, Midland Prince, 10 p. m.; Kennedy, 11; Hart, Hecker, 11:30; Wood, midnight; Ream, 1 a. m.; Queen City, Bryn Mawr, 2; Wolf (steel), Cornelius, 5:30; Albright, Nipigon, 6:30; Andrew Upson, Gates, 9; Wilbert Smith, 10; Soapa, 10:30; Shaw, Negaunee, 11:30; Gary, noon; Delaware, Manitoba, 1:30; Neachuan, 2; Donnacona, 2; Cornell, 3:30; Millen, 4; New York, Alex Thompson, 4:30; Superior, 5:20; Empire City, Matafaa, Samuel Morse, Holley, 6; Norton, Fulton, 7; J. J. Brown, 8.

SUNDAY AT THE CHURCHES.

Methodist church—"Our Tribute to Caesar and to God" will be Mr. Maywood's theme at the Sunday morning service. In the evening he will speak especially to young people on "Your Books."

First Baptist church—Worship and preaching at 10:30 a. m. and 7:30 p. m. Sermons by Dr. Tupper on "Spiritualism versus Liberalism in Bible Interpretation" and on "A Plea for a Toleration of Liberal Christianity." The public is cordially invited.

Presbyterian church—Services at 10:30 a. m. and 4 p. m. Morning theme: "Secret of Being Loved." Afternoon: "Wheat and Tares." No evening service. The change of hour of service at the Presbyterian church from 7:30 to 4 p. m. has proved a pleasant one and will be continued for a time. The children are particularly welcomed.

WOOD AND BUILDING MATERIAL

I ALSO HANDLE

Artistic Monuments COST NO MORE THAN PLAIN ONES IN

WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the setting of frost. More growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

THE TROUBLES OF MACON.

The Treasury's New Watchdog Is Not Appreciated.

Attack of Congressman Rucker Furnishes House With a Jovial Afternoon—Amount of Moisture in Grain Easily and Accurately Determined by Apparatus Devised by Department of Agriculture—Government Has Been in Forestry Business Much Longer Than Most Persons Imagine—It Did Its First Work Along This Line in the Days of Washington.

Washington, July 23.—Robert Bruce Macon of Helena, Ark., had his troubles in the house yesterday. Mr. Macon has been a member of congress for six years, and, departing of attracting the attention of the nation by any less spectacular means, he went into business as the watchdog of the treasury when the special session opened, and he has been growing more and more persona non grata with his colleagues ever since.

TO COME IN TIME.

Dr. Wiley Speaks of Denatured Alcohol Stills.

FARMERS ARE APATHETIC. It Will Take Many Years to Develop the Industry, but He Believes the Stills Will Become as Common as Creameries.

Washington, July 23.—"How can you expect a law to be a success in its operation when the people for whose benefit it was passed apparently are not taking a direct interest in it, nor taking advantage of it?" This is the query propounded by Dr. Harvey W. Wiley, chief of the bureau of chemistry of the department of agriculture in discussing the results obtained under the denatured alcohol law.

A LAUGH OR TWO.

Poser for the Office Boy.

The typewriters were rattling in the newspaper office, when suddenly the monotony was broken by the jingle of the telephone bell. The office boy, eager for work, sprang forward and put the receiver to his ear.

"You want to know the longitude of Louisville?" he inquired, with a puzzled expression on his face, after the party at the other end had broached his question. The boy looked over those assembled in the room with an anxious look, as if trying to single out a certain face. He then turned to the telephone and said:

"Very sorry, but the sporting editor is out, but if you call up here in an hour he can tell you all about the Louisville. They're batting way up there, but I don't exactly know their longitude."—Louisville Times.

A Budding Realist. The teacher in room No. 7, Cadiz public school, one day last week, asked the class in English to give some examples in composition by writing a few paragraphs such as are contained in the columns of newspapers. One of the younger members of the class won the plaudits of his fellows by writing: "The college boys have returned to their schools to wait for another vacation."—Cadiz (O.) Democrat.

A Republican Now. For three weeks he had borne all the horrors of spring cleaning without a murmur. Then his patience gave way. "And you," sobbed his wife, "you used to tell me I was your queen."

The Limit. The limit of praise for food was reached the other day in a Sixth avenue restaurant where the old-fashioned confidential Irish waiters are still to be found. A man well known to the place came in very late at night for supper and asked the man who had taken his order for years: "What's good today?"

Was Glad of It. Most men have a keen regard for their native towns. And because a man leaves Pittsburgh, let us say, to come to New York it is no sure sign that he has lost his love for Pittsburgh and acquired a violent passion for the metropolis of the new world.

A Business Head. "My boy," said the thoughtful father, "I notice that when you get a penny or nickel you do not place it in the little savings bank, Santa Claus brought for you last Christmas."

Made With Little Expense. "They contributed this material and charged nothing for it, as it was worth nothing to them and otherwise would have been thrown away. The labor was contributed at a time when they had comparatively little else to do. Therefore the cost of production of that fine apple jack was reduced to a minimum and it was a profitable undertaking."

Must Get Free Materials. "How about the cost of material and labor?" Dr. Wiley was asked. "Being waste material the contributors must do as the French apple growers do—contribute it for nothing. Certainly it isn't worth anything to him and under no business rule could he charge the still for it. Neither should he charge up his labor at prevailing rates as he would use time when he had little or nothing else to do."

Mr. Harriman Much Alive. Bad Gastein, Austria, July 23.—The Harriman children arrived here today by automobile from Innsbruck. They were delighted to find their father looking so well and he was so overjoyed at their arrival that he laughed, joked and danced about them like a youth.

BEWARE OF OINTMENTS FOR CATARRH. THAT CONTAIN MERCURY. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is often hidden from the user.

Showing the ugly chorus girl come under the head of "stage frights"?

DOG OF ST. BERNARD.

They Live Where There Is Deep Snow Even in August.

TEN MONTHS OF WINTER. Heroic Service of the Monks Whose Home Is the World's Loftiest House of Charity.

Come with me in the alpine diligence for a drive up the queer zigzag road that goes twisting and climbing until it pierces the wet and misty clouds and reaches a region of eternal ice and snow. Here, in a climate almost as cold as Greenland, we shall find a band of men who do a great and good work, assisted by dogs, as Bernard de Menthon did long years ago.

Round and round, up and up. It grows colder as we ascend, and the smiling landscape fades away. The pretty flowers disappear too—the anemone and gentian; dark-leaved saxifrage and sweet alpine rose. We shiver, even in August, and put on our wraps and furs.

My boy, if you do not save your money now, what do you expect to do when you grow up? "I am going to run a little store around the corner, papa. Then I'll get all the pennies and nickles."—Chicago Evening Post.

The Arrival. A modern lady died and went to hades. His majesty met her deferentially at the gate. "Will it be possible for me to secure an establishment here?" she said. "Certainly, madam."

Scientists have found in a cave in Switzerland bones of men who lived 100,000 years ago, when life was in constant danger from wild beasts. Today the danger, as shown by A. W. Brown of Alexandria, Me., is largely from deadly disease. "If I had not been for Dr. King's New Discovery, which cured me, I could not have lived," he writes, "suffering as I did from a severe lung trouble and stubborn cough."

Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar, as it cures stubborn coughs after other treatment has failed. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet." Sold by all Druggists.

A SWISS OBER-AMMERGAU. FROM MORGAN'S CURB LETTER.

The market for copper shares opened active and higher, with orders well distributed throughout the list, and a broader trade than we have seen for months. North Butte and Butte Coalitions were featured, selling at 57 1/2 and 29 1/2, respectively. The heavy buying of the former issue yesterday was due to a story that Amalgamated interests had recently accumulated something like 200,000 shares of the stock. Greene-Canaan and Giroux Cons. were again in good demand, and showed further fractional advances. Lake Copper crossed 25, but later receded a half point. Superior & Pittsburg was active, at prices practically unchanged from yesterday. A director of this company states that the property is now almost entirely out of debt, and that it is now earning \$100,000 per month, equivalent to about eighty cents a share per annum. Much higher prices are talked for it. Utah Copper sold at 61, on the buying of a large lot by a prominent broker who often acts for smelting interests. Amalgamated was heavily bought by houses with Boston connections. The strength in the listed shares has not yet been reflected to any extent in the curb issues, but they will be taken in hand in due time. There is no question but that the turn in the metal market has come, and the industry is healthier now than it has been for a long time. No accurate figures regarding the most recent report of the Producers' association can as yet be arrived at, but estimates place the decrease in the visible supply of copper at from fifteen to twenty million pounds. Speculative interest in copper shares is increasing rapidly, and no little attention is being directed from the New York market to this class of securities. We strongly urge purchases of good copper shares around the present level. The close was active at top prices.

Yesterday's prevailing prices were:

Ishpeming Department

EXPECTS TO FINISH PLANTS BY JAN. 1

CLEVELAND-CLIFFS' IRON COMPANY WILL NOT DEVELOP WATER POWER ON CAMP RIVER AT THIS TIME, BUT TRANSMISSION LINES WILL BE RUSHED.

"The Cleveland-Cliffs Iron company will not put in a water power plant on the Camp river at the present time, as has been generally expected," said Master Mechanic O. B. McClure. "The work now contemplated is the installation of two electric transmission plants, one at the Maas mine, and the other at the central power station on the Swanzy range. The officials have given the water power project much consideration during the past year or two, and surveys or sites have been made, together with estimates of cost, but the improvement may not be undertaken for a year, or perhaps two years or longer. The transmission lines will be so constructed that they can be easily connected with a water power plant, in the event the company puts one in. It is altogether probable that the water power project will go through in the course of a few years. Water power plants, as a rule, cost more than most people imagine. I care say that it would not be possible to put in a plant such as the Cleveland-Cliffs Iron company would need for under \$1,000,000. "The proposed plants will be operated by steam power at the start. The work is to be pushed to as early a completion as possible. The concerns from whom the equipment has been ordered have guaranteed a delivery within ninety days, and we expect to soon receive the first consignment of the outfit. Two 1,300 K. W. steam turbines and generators will be installed. The plants will be duplicates. The turbines are of the Allis-Chalmers make, and the motor equipment has been purchased from the Westinghouse Electric Machinery company.

Mr. McClure further said that at the start power for the operation of the underground electric plants at the Maas and Negaunee mines in Negaunee and the Lake mine in Ishpeming will be supplied from the Maas mine station. All of the mines on the Swanzy range, with the exception of the Stephenson, will be provided with electric power for the operation of the underground plants. The Stephenson plant will continue to be operated as at present.

Mr. McClure is organizing his forces with a view to commencing work as soon as the material begins to arrive. He expects to have both plants ready for operation by the first of the year. When the Maas mine engine house was erected provision was made for the installation of the electric plant. The improvement has been contemplated for several years. One additional boiler will be necessary. This is also expected to arrive within a few weeks. A good-sized force will be employed on both jobs in order to rush them up by the first of January, or sooner, if possible.

Two different routes have been surveyed for the pole line to be extended from the Maas to the Cleveland-Lake property, but it has not yet been decided which will be used. It is possible, however, that a route following the Lake Superior & Ishpeming Railway company's new line pretty closely will be decided on. The line to the Swanzy range will probably extend across the country from the Negaunee mine.

The company will be enabled to discontinue the use of their present electric plants at the several mines, though all will be retained to be used in case of a break down of the new plants.

The turbines are by far the largest in use in this country. The turbine at the street railway power house is a 200 kilowatt, while the one at the Negaunee electric lighting plant is 300 K. W.

BLASTING FISH.
Evidences of Violations of Game Laws Found at Two Streams.

Frank Tipini, Bruno Daniel and Otto Brand, Ishpeming men who spent last Sunday at the Escanaba river a short distance south of the Dexter switch, holding for trout, report that they found evidences of dynamite having been used in the streams. They arrived at the river at 6 o'clock in the morning and were fishing but a short time when they heard a couple of explosions. They immediately pushed down the river in the hope of catching the culprits, and as they approached the place, two men took to the woods. They report that a great many trout, as well as other fish, had been killed, and within a short time the surface of the water was covered with the dead fish.

Tony Saresco, who lives on Terrace street, reports having found dead fish one day this week near Camp 20 on the Huron Bay road, where he was fishing. He stated that the dynamite had been placed near the dam and he is of the opinion that hundreds of fish had been killed.

The Independent Order of Reheabites will give a basket picnic in Cleveland Park Saturday, July 24. Refreshments will be served on the grounds. (7-23-14)

The Marquette County Gas & Electric company has placed a gas range in the home at 300 Maple street. (7-24-14)

ALFRED BOSSO KILLED.
Alfred Bossso, aged thirty-three years, was fatally injured a few moments after coming out of the Lake Superior Ironatic mine, where he was employed, at 6 o'clock last evening. As he alighted from the cage, he started across the L. S. & I. track in front of some moving cars, which were being backed into a pocket. He was caught under the wheels and both legs were cut off above the knee, the cars moving more rapidly than he could get away. The injured man was rushed to the hospital but efforts to save his life were futile and he passed away at 8 o'clock last evening. He leaves a wife and three children and had lived in Ishpeming nine years.

ISHPEMING IN BRIEF.
Lorenzo Bree of Hancock was in this city yesterday.
Miss Marguerite McEnroe arrived home yesterday from a lake trip.
A daughter has been born to Mr. and Mrs. John Johnson, 632 Michigan street.
Miss Lillie Nicholls is spending two weeks with relatives in Crystal Falls.
A daughter has been born yesterday to Mr. and Mrs. J. J. Jensen and wife, 237 West Division street.
The Eagles and Negaunee Parities will cross bats at the Union Park tomorrow morning.
Mrs. A. J. Youngblood and son Roy and Miss Della Wendt of Milwaukee are at Grand Island.
Will and George Newett left yesterday morning for Seattle where they will attend the exposition.
John Thompson left for Chicago Thursday evening after visiting at the home of James Allen for the past few weeks.
Miss Anna McEnroe entertained a number of girl friends Thursday afternoon in honor of Miss Marie McEnroe of Chicago.
Mike Tasson, the poundmaster, is doing a big business this month. He has already impounded forty-four cows and two horses.
Mrs. Anna Jackson of Iron River, Mich., and Miss Della Richards of Hyde Park, are in the city, the guests of Emil Liort, and family.
A hop will be given tonight at the club house. Refreshments will be served this afternoon by Mesdames J. D. Spitzer and Agnes Barber.
Andrew Johnson is the first of the police officers to have his vacation. Charles Gustafson is doing special duty while the officers are on their vacations.
F. M. Johnson, a former resident, now traveling for an Appleton woolen mills concern, is in the city. He will leave tonight for his home in Appleton.

BAND CONCERT TOMORROW.
The Ishpeming band will render the following program at the concert to be given tomorrow afternoon at the Cleveland Park, commencing at 3:30 o'clock: March, "Empress"; W. P. Chambers Overture, "Home-sweet-Home"; J. S. Howard Waltz, "Wedding of the Winds"; Wm. F. Hall Overture, "Morning, Noon and Night in Vienna"; Suppe Intermezzo, "Amelia"; Paul Lincky March, "Wagner"; Troutman.

OLD TIMERS' PICNIC.
The foreign born citizens of Ishpeming, who located here during or prior to the war, are planning to give a picnic to hold their reunion at the Cleveland Park on Monday, Aug. 19. The meeting was very largely attended and much interest was manifested. The treasurer reported that a large number had paid in \$1, which is to be used to meet the expenses. The arrangement committee for the reunion was appointed and is composed of James Clancey, chairman; John Farn, Ole Walseth, John Shaud, William Andrews, A. W. Conradson and Joseph Coven. Some additions were also made to the nationality committee. William Andrews, John T. Miners and Ed Swan's names having been placed on the English committee, and John Shaud's on the Scotch. The arrangement committee was instructed to hire a band and another meeting is to be held next Thursday evening.

BIJOU THEATRE SATURDAY Afternoon and Evening
Is producing a wonderful Picture
"A RURAL TRAGEDY"
(A DRAMA OF ACTION)
The roar and crackle of flames, the crash of falling timbers, the hoarse shouts of a frantic mob are mingled with the screams of a woman, caught apparently beyond hope of escape in the burning house, the eager flames licking almost to the heart of her skirts, in the once seen, never-to-be-forgotten climax of this powerful drama of love and hate. There is nothing artificial about this scene. The house is real, the fire is real, and when the last pathetic incident of this exciting story is enacted, all that remains of the pretty country house is a mass of charred and smoking embers.
It is something to talk about, for its like has never been shown in moving pictures before—an actual house, so flimsy, but genuine, construction, deliberately destroyed by fire, and the final parts of the story acted amid scenes of real danger. When the heroine is rescued from the burning house the danger is vividly true, it is not merely sub-plot, but a seething mass of real flames.
The love story leading up to these wonderful scenes is full of strength.
We have other good pictures—"COUNTRY GIRLS' PERIL" and "FOUND ON THE ROCKS" and two new songs for this program.

CATALOGUES DELIVERED.
Joseph Flannigan, of Flannigan Bros. Matquette Transfer line, yesterday delivered from The Mining Journal to the Marquette Public Library 4,000 copies of the new catalogue, which contains a complete list of the publications, together with the authors names, etc., on the shelves of the library. The weight of the books was 4,800 pounds, and they were also made to the nationality committee. William Andrews, John T. Miners and Ed Swan's names having been placed on the English committee, and John Shaud's on the Scotch. The arrangement committee was instructed to hire a band and another meeting is to be held next Thursday evening.

NOTICE FOR BIDS FOR CONSTRUCTION OF CEMENT SIDEWALKS.
Sealed proposals for building approximately 3,100 feet of cement sidewalk upon the west side of South Pine street from Oliver Iron company's office to Angeline street and on the south side of West Division street from the Duluth, South Shore & Atlantic railway main line crossing to Graham street, will be received by the Board of Public Works of the City of Ishpeming, Mich., at their office until 1 o'clock, Aug. 3rd, 1909.

Such cement walks are to be built at the places along the lines and upon the grades designated by said Board of Public Works and to be done under the supervision of said board.
Specifications as to the manner of the construction of said work and the materials to be used therein may be found at the office of said Board of Public Works. The successful bidder will be required to enter into a contract to be prepared by the said board and also to furnish a bond satisfactory to the undersigned that he will properly fulfill the conditions of his contract.
The Board of Public Works reserves the right to reject any and all bids.
Dated, July 16, 1909.
BOARD OF PUBLIC WORKS of the City of Ishpeming.

NOTICE FOR BIDS FOR CONSTRUCTION OF SEWERS.
Sealed proposals for laying approximately 300 feet of six-inch lateral sewers upon North Third street, in the city of Ishpeming, Michigan, will be received by the Board of Public Works of said city of Ishpeming, at their office until 1 o'clock p. m., Aug. 3, 1909.
Such work to be done within two weeks after award of contract and the sewers are to be laid at the places, along the lines, and upon the grades designated by said Board of Public Works and to be done under the supervision of and subject to the direction of said Board of Public Works.
The location of the various sewers to be built are on file with said board and subject to the inspection of intending bidders. Each bid must state separately the amount bid for each separate section of said work.
The successful bidder will be required to enter into the contract to be prepared by said board and also to furnish a bond satisfactory to the undersigned that he will properly fulfill the conditions of his contract.
The Board of Public Works reserves the right to reject any and all bids.
Dated, July 16, 1909.

MAY ASK HARRY THAW IF HE FEELS REMORSE.

Prospective Question of Judge Mills Would Elicit an Answer That Would Have an Important Bearing on the Case—Outlook Is for the Release of the Young Millionaire.

New York, July 23.—Probably a majority of the justicers of our supreme court would feel some sense of personal or judicial incapacity if balances copies proceedings were brought before them with intent to testify the present and prospective sanity of Harry K. Thaw.

WOMEN VERY EXTRAVAGANT.

Professor Willett, of University of Chicago, Blames Them. "Women always were, and are now and probably will remain, extravagant, socially ambitious, unscrupulous and generally responsible for a large part of the evils of life," said Professor Herbert L. Willett, of the University of Chicago Divinity school, in a lecture on the "Social Teachings of the Prophets" at Chicago last week.

NOTES BY THE FUNNY MEN.

Lawyer.—"You say you were sitting in a room, could not see the road, heard nothing, and yet swear, sir, that a motor passed at 7 o'clock?" Witness—"Certainly, I smelt it."

HAY IS HIGHER.

Wholesale Dealers at the Soo Have Advanced Price \$1.50 Per Ton. Negaunee business men who procure much of their hay from commission men and wholesalers at Sault Ste. Marie were yesterday advised that the price had been raised from \$13 to \$14.50 per ton, f. o. b. Soo.

IN A CROWDED LIFETIME.

By dint of decent living there are still a few people left who saw the first steamboat, rode in the first railway car, listened to the first telephone call, read the first cable message, and operated the first electric trolley.

THE CONVENIENT NICKEL.

In England, where they are just beginning to wake up to the desirability of "Yankee" institutions, a demand has been made for a new coin to correspond in size and value to the American nickel.

NOT FAIR PLAY.

One of the congregations of a Texas parish was giving a dinner to which the colored minister was invited. The reverend gentleman evidently was delighted with the goose served, and remarked: "Dat am a berry fine goose, sah! Where did ye get it?"

TORTURED ON A HORSE.

"For ten years I couldn't ride a horse without being in torture from piles," writes I. S. Napier, of Rutgers, Ky. "When all doctors and other remedies failed, Buckner's Arnica Salve cured me." Infallible for Piles, Burns, Scalds, Cuts, Boils, Fever-Sores, Eczema, Salt Rheum, Corns, 25c. Guaranteed by The Stafford Drug Co.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chance are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties day or night.

Negaunee Department

TRANSIENT TRADERS SHOULD PAY LICENSE

NEGAUNEE MERCHANT EXPRESSES VIEWS ON THE QUESTION, DECLARING THAT OUTSIDE ESTABLISHMENTS RETAILING GOODS HERE SHOULD BE TAXED

"I wish the city council would take up the matter of licensing peddlers and other outsiders doing business here, as they have done in Escanaba," said a merchant yesterday.

"They all carry peddlers, and I cannot see why the commission are so slow about passing an ordinance that will cover the ground. At present the outsiders are not paying anything for the privilege of doing business. There is hardly a day that there are not from one to a hundred vendors of the city. Some of them make their headquarters at the hotels, and others canvass from house to house.

"The moral levels of a nation can never rise higher than its womanhood," said Professor Willett. "It was true in the times of Amos and Hosea and it is true today. Many of the evils of society have been and are due to the social aspirations and extravagance of women.

"The grand old prophet Amos was worried to death by women. They all carried palaces, of ivory, winter and summer residences and ultra-moish wardrobes. They drove their husbands into accepting bribes and then made them work all day Sunday and for over the pay checks.

"I have known many instances where Negaunee people have paid more to the agents for their dress goods and other articles than they would have been obliged to pay for exactly the same article in the Negaunee stores.

BIG PICNIC TOMORROW.

Socialists of Upper Peninsula Will Assemble in Cleveland Park.

A member of the arrangement committee for the socialist picnic, to be held tomorrow at the Cleveland Park, yesterday stated that between 2,000 and 3,000 socialists are expected to assemble here.

"The visitors will be met at the Union station by socialists of this county and a parade will be formed. It will pass through several of the principal streets and will terminate on Iron street, near the Brecht House, where street cars will take them to the park.

"The speakers will be E. Aaltanen and J. Korpi of this city, and former Mayor W. J. Roberts, of Ishpeming. The Negaunee Glee club and the Negaunee band will furnish the musical numbers, and the Tarmo Athletic club will give a series of pyramids, etc. Gaud and silver medals are to be given to the winners of the athletic exercises, also the three persons giving the best recitations. Refreshments will be served on the grounds and the picnic will be dispersed early in the evening to permit those present to attend an entertainment to be given at McDonald's Opera House.

"The special train, returning, will leave here for the copper country at 11 o'clock.

"A gas range has been installed in the home of W. B. Peterson of Kanter street.

ELECT NEW OFFICERS.

At the annual meeting of the Vermilion Fine and Iron Lard company, held this week at the Brecht House, new officers were elected for the ensuing year. The board of directors is composed of James E. Foley, W. H. Johnson, James Clancy, R. P. Bronson, H. P. Tuttle, S. S. Mitchell, E. E. Drake, Thomas Fallow and A. B. Miner.

"The Marquette County Gas & Electric company has installed a Humphrey instantaneous bath hot water heater in the home of George J. Maas of Main street.

LOCAL LAONICS.

J. W. Elliott is painting the Cyr block. Fick Choquette is visiting friends in Manistique. Lester Pearce is visiting friends in the copper country.

A. D. Broder, the Gwin pharmacist, was up from there yesterday. Mrs. Leslie French and children of Escanaba are visiting Mrs. E. M. Beney and family.

Matrice and Avis Edgerton have returned from a visit with relatives at Appleton. Mrs. J. H. Rough entertained a number of her lady friends Thursday afternoon at her home.

Miss Elizabeth Bouslon is here from Mexico City on a visit to her parents, Mr. and Mrs. A. Bouslon. Jeremiah Thomas and family, late of Rockland, Ontonagon county, have located permanently in Negaunee.

Mrs. Ernest Klein and children, who have been visiting relatives at Muskegon, are expected home today. Isaac Rosen and son Harold are expected here today or tomorrow from Muskegon, to remain a short time at Appleton.

Nicholas Britt and wife of Lathrup, well-known here, have returned from a visit to the exposition at Seattle. Mesdames J. D. Spitzer and Agnes Barber will serve tea at the golf grounds this afternoon. There will be a hop in the evening.

Richard Harvey has left for New York, where he will take a position under Edward Harrington of this city, on a diamond drill job. Miss Agnes Kigallon is here from Chicago on a visit to relatives. She is accompanied by her sister's two sons, Earl and Harry Condon.

Miss Christine Anderson is here from Wausau, Wis., on a visit to her parents. Miss Anderson is employed as stenographer in the Wausau bank. O. J. Lacombe advertises his home on Cherry street for sale. He said yesterday that he will sell the property at a bargain. He intends to use the money in his business.

Dr. J. H. Andrus and family will leave today for their summer camp near Little Lake. They will be accompanied by Miss Lydia Steele and her niece and nephew, who are visiting here. Mrs. John Davey, who visited her brother, S. S. Thomas, and family here for a few weeks, has gone to Oskosh, where she will spend some days before returning to her home in the East.

Miss Mabel Jackson, who is accompanying her grandmother, Mrs. Boyd, home from Chippewa Falls, yesterday wired her parents here that the old lady, who has been quite ill, is receiving good care at Bilcon. They are staying at the hotel there. It may be several days before they will reach Negaunee.

Arnest Klime has installed a Humphrey instantaneous bath hot water heater in his home.

Delay in commencing treatment for a slight irregularity that could have been cured regularly by Foley's Kidney Remedy may result in a serious kidney disease. Foley's Kidney Remedy builds up the worn out tissues and strengthens these organs. Sold by all Druggists.

"OLIGARCHY" IN DANGER.

Some of the Senate Leaders Will Have to Fight for Re-Election.

Washington, July 23.—The unanimity with which the people of the United States have approved the course of the ten Republican senators who voted against the tariff, has encouraged the progressive Republicans in Maine, Rhode Island, Connecticut, West Virginia, New Jersey, and other states to plan to defeat the oligarchy who now represent them.

How successful this movement will be no one at this time can predict. That the Republicans of Maine are even discussing the advisability of retiring Eugene Hale is a new sign of national importance. They have not to the point where they are looking for an available candidate. That in the Rhode Island they should be making a well-directed movement to retire Nelson W. Aldrich unless he voluntarily recedes, is highly significant. Many of the Republicans of Connecticut are not satisfied with the representation that state has at the hands of Morgan (Bulkeley), and if they can have their way another man will be sent to the senate a year from next January. In West Virginia Nathan Bay Scott has been having trouble to keep his political head above water for a good while, and the progressives, it is asserted, are now laying plans to make his defeat certain. Governor Fort of New Jersey may be the man who will attempt to defeat John Kean, another of the Aldrich coterie. Fort has made a progressive record as governor, and New Yorkers say, he will make Kean himself if he decides to run for the senate. The well-informed politicians do not expect to see Senator Lodge of Massachusetts lose, but nevertheless Butler Ames is a candidate for the seat and is making some headway.

The situation presents great possibilities. If Aldrich and Hale should, perchance, cease to be members of the senate on March 4, 1911, the old oligarchy which has dominated the senate would fall. Perhaps Aldrich would continue to dominate the house if he should drop by the wayside, but Hale in his old days could hardly hold the old organization together if Aldrich should drop out. At present the two men are pretty much the senate. Their sway was never really questioned until those ten Republican senators refused to follow Aldrich on the tariff legislation. Some senators followed them from choice, other because they believe that is the politic thing to do. More than one Republican senator who voted for the tariff bill disliked it as much as any of the ten who voted against it, but they argued with themselves that he is Aldrich to be reckoned with. That he has power to punish as well as to reward has been demonstrated a good many times since he became the leader of the body.

This rising opposition to the re-election of the chief men of the existing oligarchy is only a "cloud on the horizon," but observers of the trend of events feel certain that it is an omen of important events which are scheduled for the near future. No one will be surprised to see the insurgent group of senators increase during the next long session of congress, the last one before the old-time leaders come up for re-election. The spirit of independence is abroad in the body. Many senators have discovered that they can break away from the old-time oligarchy and thereby win the plaudits of the people. And, after all, what senator is not looking for these plaudits? When the old oligarchy goes to pieces, whether as a result of the present leaders being left at home or as the outcome of the gradual growth of progressive spirit, there will be an excellent opening for the men who led the first real progressive movement in the senate.

FOOLING WITH PROHIBITION. Kansas is now experimenting with a new rum-proof liquor law, under which no alcoholic liquors can be sold in the state for any purpose. The drug-store bars are to be closed up under it, and the attorney-general has ruled that no man can even drink liquor in the club-house. The druggists and the clubs are going to law about it. The attorney-general (Jackson) is very earnest, and is encouraging towns (so the Springfield Republican reports) to limit the amount of beer that a man can have shipped to his home from outside the state. Some towns allow a case a week, some a case a fortnight, some two cases a week. A bad feature of the prohibition laws, as Brother Brisbane is truthfully pointed out in the Evening Journal, is that they have made it necessary to do last hard on the light, bulky drinks, wines and beers, that do last hard, and stimulate the traffic in the more violent sorts of liquors. The West, Kansas included, must try its own experiments with the regulation of habits, and we trust will work through in the end to wise and reasonable laws. Meanwhile the progress is trying. In Washington the cigar has been declared to be felonious, and cannot be smoked, we understand, at the Seattle fair. How the patent medicine business is doing in Kansas does not appear.—Harper's Weekly.

A HURRY-UP MEDICINE. Every housekeeper recognizes the need of effective remedies to be used in emergencies when something must be done right away. Such a remedy is Perry Davis' Pain-Expeller for sprains and bruises, for strained muscles and for the aches and pains resulting from blows and falls. Burns and cuts are instantly relieved by it and helped to heal. Its milition of many began seventy years ago. It is used in all countries and millions of bottles are sold annually. There is but one Pain-Expeller, Perry Davis'. Have you seen the new large 25c size?

IRON ORE BEING MADE THE "GOAT"

MINING MAN DECLARES CONGRESS IS DISCRIMINATING AGAINST LAKE SUPERIOR COUNTRY.

SHOULD TREAT ALL ALIKE

Injustice of Applying Party Platform to One Raw Material and Not to Others is Pointed Out.

That iron ore, the production of which is largely confined to Northern Michigan and Minnesota, is being made the "goat" in the tariff law now in process of formation by congress, seems to be the impression of local mining men. There seems no just reason why iron ore should be put on the free list, or at best subject to a mere nominal duty, as now seems to be probable, while the duty is retained on coal, lumber, hides and other raw materials. The reason for such action, however, is apparent; namely, that inasmuch as iron ore is mined in but a limited area, the chances for re-election of but few congressmen will be imperiled by voting for free ore, whereas larger sections of the country would be adversely affected by free lumber, coal or hides.

"Generally speaking, I am in sympathy with the platform of the Republican party," said a representative iron man yesterday, "and am in favor of a general tariff revision downward. Holding this belief as I do, I would not oppose seriously President Taft's idea of free raw materials, including iron ore, provided the principle were applied to all such commodities without discrimination. However, I can see no justice in singling out iron ore and oil to be put on the free list and continue to protect other raw materials which are just as able to stand a removal of the duty."

"What would be the effect on the Lake Superior country, if the duty on iron ore were removed?" was asked.

Would cripple Iron Mining Industry.

"It is impossible to make a very definite answer to that question," replied the mining man, "but that it would cripple the iron mining industry to some extent is certain. There has recently been discovered some extensive deposits of iron ore in Cuba, which even now are in competition with Lake Superior ores at the Atlantic coast furnaces and, I am reliably informed, as far west as Pittsburgh.

"The extent and value of these Cuban deposits is as yet unknown, but it is believed that they are vast, and the ore thus far mined has been of a very high grade. The reduction of the duty on ore twenty-five or thirty-five cents per ton, would about pay the freight from the East to Chicago, and so place Cuban ores in open competition with those of this country at the furnaces of the central West.

"I am not mistaken most of the

Cuban ore deposits are owned by the Schwab interests, who also control many of the Pennsylvania and eastern furnaces. This, of course, would put the Lake Superior mines at a disadvantage in marketing their product, especially the independent operators who do not own their own furnaces. The furnace men are going to buy their ore where they can buy it the cheapest, and will not show any favors to home industries. "From this it can be seen that free ore, or practically free ore will mean considerable to the upper peninsula mines, but just how much it will mean cannot be said until the experiment has been tried. However, as I said before, if it is desired to carry out the promises of the Republican platform and it is thought to be for the best welfare of the whole country to place all raw materials on the free list, the iron mining men will try to wiggle along with the rest and see how it works out, without doing much complaining. But there is no sense or justice in carrying out the idea of the platform in so far as it applies to ore and discarding the application of its principles to coal, hides, lumber and other native products. Were the iron mining interests geographically more extensive, we would not be singled out in this manner and, so to speak, be made the "goat" in the new tariff bill."

DIED IN SOUTH AFRICA.

Former Resident of This City Expires in Faraway Land.

Word was received yesterday by Mrs. Frank Mitchell of the death of her father-in-law, Abe Mitchell, which occurred at Johannesburg, South Africa, June 16. Death was said to have been due to an attack of malaria.

Mr. Mitchell was well known in this city, having lived here during the time of the Boer war, when he ran a skating rink at the old polygonal works and was later associated with Harry Handford in the fishing business. He returned to South Africa in 1903, where he has been engaged in mining operations, the property in which he was interested being known as the Bishoff tin mine.

The late man's family reside in Cleveland but his son, Frank, whose wife resides in Marquette, was with him in South Africa, and is now expected home at any time.

The deceased was born at Bruce Mines, Ont., and was fifty-three years of age. His earlier life was spent at Sault Ste. Marie. The funeral services were held at Johannesburg, where interment was made. He was a man that was liked by all who knew him, and the news of his demise cast sadness over the hearts of his many relatives.

Among the relatives left by the deceased are his mother, Mrs. Jane Mitchell, of this city; a widow; five children, George, Verne, Frank, Ray and Miss Ruth; two sisters, Mrs. George Sherman and Mrs. D. W. Powell, of this city, and four brothers, Edward, of Marquette, Arthur and William, of Oklahoma, and Albert, of California.

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. (7-23-24)

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work. 3-13-14 KELLY HARDWARE CO.

DRY HARDWOOD. Two dollars per cord in two-cord lots. (2-13-14) F. B. SPEAR & SONS.

LONG DELAYED TRAIN ENROUTE TO DULUTH

PASSENGERS WHO HAVE BEEN STALLED AT SAXON SINCE TUESDAY NIGHT ON THEIR WAY BY ROUNDABOUT ROUTE.

South Shore train No. 7, which has been stalled at Saxon since early Wednesday morning because of washouts on both sides, started for Duluth at 11 o'clock yesterday over the Northwestern from Saxon to Rhineland, Wis., where it was to run over the Soo line west to Cameron Junction and from there into Duluth over the "Onaba" road, the distance over this route being 330 miles. Large crews have begun the work of repairing the west end of the road but it cannot be gotten in shape for travel for a week or more. However, it is thought that train service from Saxon to Duluth can be resumed within a day or two over the Chicago & Northwestern to Ashland and from there to the head of the lakes over the Northern Pacific. Meantime trains will run only as far as Nestora.

There were ninety-eight passengers on train No. 7, which was delayed at Saxon from Tuesday night until yesterday, who have had an experience that they do not care to repeat. Many other through passengers have been delayed at other points along the line, a number of whom went from Marquette to Duluth by boat yesterday. The conditions at the west end of the line are described by the Duluth Herald of Thursday as follows: "The Duluth, South Shore & Atlantic railroad appears to have fared worse than the other roads at the hands of the storm. The service on that road is at a standstill and the selling of tickets has been discontinued until some arrangements can be made for taking care of the train service.

"Train No. 7 of the South Shore, due here yesterday at 10:30 a. m., has not been heard from yet. It is stalled somewhere in the vicinity of Thomaston, Mich., about 128 miles from Duluth. It is not known when the train can be moved.

"Train No. 5, due here at 6:55 p. m., is not here, having failed to get in yesterday. That train is from Marquette and the iron country. The officials of the road do not know when the train will get in.

"Train No. 6, which left at 7:45 a. m. yesterday, came back to the city, reporting that it was not able to get to the Soo, as the tracks were impassable. There are a number of South Shore passengers in the city today bound for Quebec to take steamers. Their boat sails Saturday and if the people cannot get out of the city this evening they will miss their boat.

"At the present time South Shore officials are endeavoring to complete arrangements with other roads to take the passengers through to the East by another route. If the arrangements are completed, the passengers will get to Quebec in time to catch their steamer."

It is usually a difficult matter to get men enthused about an opportunity to save, but we have succeeded with our

ANNUAL CLOTHING SALE

Now on at our store, not only because the price saving is important as much as with the quality of clothing offered. Our lines of clothing made in **OUR OWN TAILOR SHOP**, corner Market and Jackson Blv'd., Chicago, would and do please men--at any price, men who do know what good materials and good tailoring are, and of course no man of good judgment is entirely indifferent to the proposition of getting a good round saving even on the best of clothes.

So much by way of explaining that this clearing sale is the

MOST SUCCESSFUL WE HAVE HELD

We recognize in its success a pleasing intimation that the merits of **OUR OWN MAKE OF CLOTHING** are winning their way tremendously among men who are particular what they wear. Our story in brief is:

All our \$12.00, \$12.50, \$14.00, \$15.00 and \$16.00 Suits now

\$10

All our \$18, \$20, \$22.50, \$25, \$27.50 and \$30 Suits now
