

**DAILY MINING JOURNAL**  
 A MORNING PAPER PUBLISHED BY THE  
 MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains  
 Associated Press dispatches and is especially  
 devoted to the Upper Peninsula interests.  
 SUBSCRIPTION RATES:  
 Per month, by carrier, \$1.00  
 Per year, by mail, \$10.00

MARQUETTE, MICH., JULY 26.

Entered as mail matter of the second class  
 in the postoffice at Marquette, Mich.

When Senator Burrows gets his back  
 up and enters into a last ditch fight  
 the other fellows always know there is  
 something going on. The senator has  
 an infinite capacity for stubborn opposi-  
 tion.

Justice Brewer says the income tax  
 won't do. Justice Brewer was one of  
 the majority members of the supreme  
 court that declared against it some years  
 ago. Naturally he is inclined to be  
 prejudiced.

The supreme court has decided that  
 there was no flaw in the victory of the  
 "drys" in the local option campaign in  
 Sanilac county last spring. The case  
 was carried to the supreme court be-  
 cause the saloonmen raised a technical  
 question, but the highest tribunal ruled  
 that it had no merit. The "drys" have  
 won in cases before the supreme court  
 from a number of counties where the sa-  
 loonmen questioned the result because  
 of alleged technical faults in the pro-  
 ceedings. The Sanilac case was the last  
 one of the kind to be disposed of.

Numerous cases have been reported  
 lately where streams have been dynam-  
 ited and large numbers of fish destroyed.  
 The ordinary penalties of the law do not  
 seem to be a sufficient deterrent. Many  
 sportsmen in the county would be  
 pleased if the board of supervisors would  
 hang up a standing reward for conviction  
 of any persons guilty of this serious  
 offense. Such an offer might be the  
 means of putting an end to it. In any  
 event it would assure that there would  
 be a better chance of obtaining a conviction  
 than under the present conditions,  
 and nothing that can be done to put an  
 end to the dynamiting of the streams  
 should be left undone.

Now that Colonel Roosevelt is in Af-  
 rica, it is hardly possible to realize that  
 Harper's Weekly is the same paper it  
 was even a short year ago. It has be-  
 come rational in tone, and even progres-  
 sive. It has been admonishing Senator  
 Aldrich against the danger of getting  
 the tariff wall too high, and has been  
 upholding the hand of President Taft in  
 his demand for downward revision. Not  
 only that, but it professes itself strong-  
 ly in favor of the ratification of the  
 income tax amendment, and asserts that  
 it will use all its influence to bring it  
 about. It's wonderful the extent to  
 which the editors of this admirable jour-  
 nal allowed their dislike for Roosevelt  
 to warp their judgment. If they con-  
 tinue in their present course Harper's  
 Weekly will presently be the most "pop-  
 ular" periodical in the country, though  
 its editors have long disclaimed any de-  
 sire to seek for popularity among the  
 masses.

Cornelius P. Shea, one time leader of  
 the Chicago Teamsters, has been given  
 from five to twenty-five years by a New  
 York judge for the attempted murder of  
 a woman. What is known of Shea and  
 the nature of the crime of which he was  
 convicted makes it probable that the  
 time he will serve will more nearly  
 approach the maximum sentence than  
 the minimum. If justice had had its  
 way he would have been serving time  
 in an Illinois penitentiary long ago, for  
 he escaped conviction on a charge of  
 conspiracy in a Chicago court, follow-  
 ing the teamsters' strike, only by whole-  
 sale false swearing by his satellites. Shea  
 is a thug by training and profession,  
 and the welfare of the public demands  
 that he be kept stowed away in prison.  
 He and "Skimpy" Madden are the type  
 of labor leaders whom the respectable  
 and honest union laboring man should  
 have no time in discarding. They bring  
 the deepest discredit on the union cause,  
 and make it increasingly difficult for  
 the unions to fulfill their legitimate  
 functions with any degree of success.

District Attorney Wayman's excursions  
 into Chicago's underworld promise  
 to produce one of the most sizable police  
 scandals that has started that city in  
 recent years. Wholesale charges that  
 the resort keepers in Chicago's levy dis-  
 tricts have paid bribe money to the po-  
 lice have been current, and Mr. Wayman  
 is substantiating some of them before  
 the grand jury, which is now sitting. Mr.

**5% DEBENTURES**

Running one to five years secured  
 by first mortgages on improved  
 real estate worth more than  
 double outstanding debentures.

**Superior Trust Company**  
 HANCOCK, MICH.

Capital and Surplus... \$200,000.00

**DIRECTORS:**  
 Jas. Chynoweth Jacob Baer  
 G. R. Campbell H. L. Baer  
 Jno. D. Cuddihy Chas. Briggs  
 Leasing Karger Chas. Briggs  
 Norman W. Hairs James Mercer  
 L. H. Richardson Allen F. Rees  
 C. L. Lawton Geo. Ruppe  
 S. L. Lawton Thos. Whittle  
 C. A. Wright Ferd. Wieber

Wayman realizes that probably there is  
 slight foundation for many of the stories,  
 but where the reports are so per-  
 sistent and numerous it is improbable  
 that all are without any foundation. In  
 fact it would be passing strange if some-  
 body was not getting "graft" money  
 from these resorts. They pay tribute to  
 somebody in practically every city where  
 they exist, and this applies, as a rule,  
 to the city of 10,000 or 12,000 people as  
 well as to the one of 2,000,000. They are  
 powerless to resist extortions, and in  
 every city politics turns up some men  
 not above preying on them. In a met-  
 ropolis this condition may become so  
 serious as to undermine the responsibil-  
 ity and efficiency of an entire police  
 department. Thus the necessity of keep-  
 ing up perpetual warfare on the wrongful  
 practice.

At a meeting last week the Michigan  
 forestry commission decided not to,  
 for the time, extend the scope of the state's  
 reforestation work, but to confine their  
 attention to caring for the seedlings al-  
 ready planted in the reserves in Ross-  
 common and Crawford county, with the  
 idea of seeing if the results obtained  
 warrant further plantings. Additional  
 steps will be taken to protect the re-  
 serves from fire. It has been learned  
 that about two-thirds of the seedlings  
 set out were owned by W. B. Mershon,  
 of Saginaw, a member of the old board,  
 who supplied the stock after the money  
 at the board's command had run out.  
 The seedlings have not been given to  
 the state by any paper of record, and it  
 appears to be an open question whether  
 Mr. Mershon claims them. If he should  
 do so the commission will probably re-  
 sist his claim, as the seedlings have been  
 cared for by state foresters. The ques-  
 tion isn't a pressing one, however, for  
 the seedlings are as yet hardly above  
 the grass. One action taken by the  
 commission was in the interests of the  
 sportsmen of the state. It directed the  
 land commissioner to have deeds pre-  
 pared which will reserve to the state,  
 when sales of land are made, the right  
 of ingress and egress across state lands  
 to streams, in order to prevent the  
 streams from falling into the hands of  
 hunting and fishing clubs or individuals  
 who might desire to monopolize the sport.

**COMPROMISE ON ORE.**

The news from Washington now in-  
 dicates that the outcome of the conference  
 consideration of the iron ore schedule  
 will be a compromise tariff rate. Senator  
 Burrows is standing out for the  
 twenty-five cent rate, but it is possi-  
 bly doing so less in the hope of re-  
 taining all of it than with the idea that  
 by taking this course the compromise  
 rate will be more favorable than if he  
 voluntarily gave any ground. Ten cents  
 a ton is a rate that it is said the con-  
 ference bill may carry. This would be a  
 75 per cent reduction from the Dingley  
 rate and should certainly go far enough  
 on the downward scale to satisfy the  
 most exacting downward revisionist.

It is but a few days ago that it was  
 the general comment of the Washington  
 correspondents that iron ore would cer-  
 tainly go on the free list. A change  
 has come over the situation. It has  
 not been due to any train of accidental  
 circumstances, but is rather to be at-  
 tributed to the steadfastness of the  
 Michigan members in urging some measure  
 of protection for one of the principal  
 industries of the upper peninsula. Senator  
 Burrows, backed by Representative  
 Fordney, has been standing aggres-  
 sively for protection on iron ore in  
 the sessions of the conference committee,  
 and Senator Smith and Representative  
 Young have been doing valiant service to  
 the same end wherever they have had  
 an opportunity to get in a stroke of  
 work.

It may be put down that had it not  
 been for the interest and activity of  
 these Michigan members of congress iron  
 ore would surely go on the free list.  
 Comparatively few members are directly  
 interested in protecting ore, and thus  
 less numerical resistance was offered to  
 the proposal to put it on the free list  
 than was shown toward the other free  
 list proposals. The situation called for  
 effective activity from the men directly  
 concerned, and they have proved equal  
 to its demands. We imagine Representative  
 Young has put in a busy week of  
 ten days.

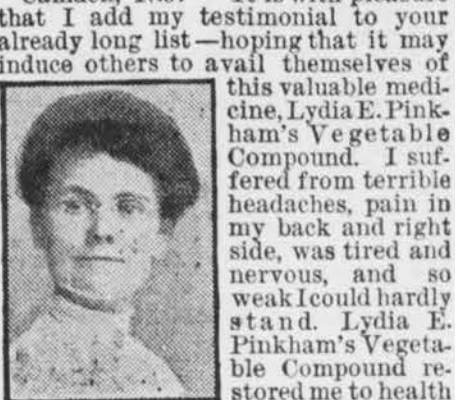

The conference report will doubtless  
 be forthcoming early this week. It will,  
 there is promise, be conceived in har-  
 mony and be received by a fairly har-  
 monious congress. It will, it may be  
 taken for granted, be acceptable to  
 President Taft. Where he doesn't get  
 the free raw materials he was a few  
 days ago inclined to insist on he will  
 get reduced duties that he will consider  
 to adequately fulfill the pledges of the  
 party, coupled, as they will be, with  
 additional reductions in the duties on  
 finished products. All in all the outlook  
 for a satisfactory tariff is much bet-  
 ter than it has been at any previous  
 time.

**TO THE G. A. R. ENCAMPMENT AT  
 SALT LAKE CITY VIA CHICAGO,  
 MILWAUKEE & ST. PAUL RY.**

The 43rd National Encampment of the  
 G. A. R. will be held at Salt Lake City,  
 Utah, August 9 to 14, 1909. Are you go-  
 ing? Choice of routes via Omaha or  
 Kansas if your ticket reads via the Chi-  
 cago, Milwaukee & St. Paul railway.  
 Low fare round trip tickets, good 30  
 days, on sale August 5 to 8, inclusive.  
 Ask your local railroad agent for infor-  
 mation as to railroad and sleeping car  
 fare, routes and train service, or address  
 F. A. Miller, General Passenger Agent,  
 Chicago. 7-19-20-30

**MORE  
 PINKHAM  
 CURES**

**Added to the Long List due  
 to This Famous Remedy.**

Camden, N.J.—"It is with pleasure  
 that I add my testimonial to your  
 already long list—hoping that it may  
 induce others to avail themselves of  
 this valuable medicine, Lydia E. Pink-  
 ham's Vegetable Compound. I suffered  
 from terrible headaches, pain in  
 my back and right side, was tired and  
 nervous, and so weak I could hardly  
 stand. Lydia E. Pinkham's Vegeta-  
 ble Compound restored me to health  
 and it shall always have my praise."  
 —Mrs. W. P. VALENTINE, 902 Lincoln  
 Avenue, Camden, N. J.

Gardiner, Me.—"I was a great suf-  
 ferer from a female disease. The doctor  
 said I would have to go to the hos-  
 pital for an operation, but Lydia E.  
 Pinkham's Vegetable Compound com-  
 pletely cured me in three months."  
 —Mrs. S. A. WILLIAMS, R. F. D. No. 14,  
 Box 89, Gardiner, Me.

Because your case is a difficult one,  
 doctors having done you no good,  
 do not continue to suffer without  
 giving Lydia E. Pinkham's Vegetable  
 Compound a trial. It surely has cured  
 many cases of female ills, such as in-  
 flammation, ulceration, displacements,  
 fibroid tumors, irregularities, periodic  
 pains, backache, that bearing-down  
 feeling, indigestion, dizziness, and ner-  
 vous prostration. It costs but a trifle  
 to try it, and the result is worth mil-  
 lions to many suffering women.

**HARVEST HANDS AND RAILROAD  
 RATES.**

Some complaint is being made by pa-  
 pers in the great grain belt of the North-  
 west, to the effect that the shortage  
 of harvest hands this year is at least  
 partially due to the laws which have  
 been recently enacted to regulate railroad  
 passenger rates. It is claimed that here-  
 tofore the railroad companies have al-  
 ways shown a willingness to help out  
 the western farmers at harvest time by  
 making very low rates of transportation,  
 thus giving the idle men of the cities  
 a chance to reach the sections where  
 their labor is so greatly in demand and  
 their services so badly needed, while this  
 year there is no apparent inclination  
 to follow this plan. The additional har-  
 vest help is needed just as much as ever  
 this year, but the railroads are making  
 no exertions to move harvest hands to  
 the points where they are wanted, and  
 the excuse is offered that the law now  
 regulates transportation rates and there-  
 fore the old-time harvest excursions can-  
 not be run.

If this is a truthful report of the  
 situation it would seem that the railroad  
 companies are playing a despicable game  
 of evasion and subterfuge, being appar-  
 ently more intent on lining their own  
 pockets than on accommodating and  
 serving the people. While it is true  
 that in all of the Northwestern states  
 there is now maximum limitation to pas-  
 senger fares, which is somewhat lower  
 than existed a few years ago, there is  
 nothing whatever to prevent the roads  
 from reducing their rates at any time  
 they please to do so, providing  
 there is no discrimination in the grant-  
 ing of such concessions and everyone is  
 privileged to take advantage of them  
 while they remain in force. It is just as  
 easy, therefore, for the railroads to carry  
 harvesters to the western grain fields  
 as ever, and if they are alive to their  
 own interests and the interests of their  
 patrons they will do so, at rates that  
 will give no excuse for the idle men  
 of the cities remaining away, when re-  
 munerative work awaits them at the  
 other end of the line.

Unless the railroads do this they will  
 be open to the suspicion that in their  
 greed for profits they are willing to en-  
 danger the successful garnering of a most  
 bountiful harvest. Yet if in their ex-  
 treme selfishness they should contribute  
 any considerable loss of the crops,  
 the railroads would suffer no less than  
 the farmers themselves. For unless the  
 latter have the grain it will not figure  
 in the freight transportation of the  
 roads, and thus they will lose at one  
 point even more than they may gain  
 at another. It is up to the roads to  
 make fair and reasonable low rates for  
 harvest help, and if they fail to do so  
 it will cast a reflection on their recent  
 protestations of their desire to be fair,  
 provided the people will only be fair  
 with them.

**THE CLEARER VISION.**

The trend point fiery fingers at the sky  
 as if to shame its azure indolence.  
 Then, doubling into shadows, crimson  
 dense,  
 Upon the air a thousand sparks let fly.  
 As on October mornings long gone by.  
 Enkindled by the season's vehemence  
 I burn to meet the future that intense  
 With flaming promise seems to meet  
 mine eye.

But now as never in those earlier days  
 I look beyond the flame tips of the trees  
 To where the unmoved blue of heaven  
 displays  
 No angered strength of beauty, but the  
 case  
 Of things eternal; and my heart  
 gainsays  
 Its little heat to mate itself with these.  
 —Ainslie's.

**Mining News**

**A NEW COPPER PROPERTY.**

For some years the Gingenstein inter-  
 ests have been developing a large copper  
 property in Chile, South America, on the  
 western slope of the Andes mountains  
 130 miles by railroad and thirty-five  
 miles by wagon road from Valparaiso.  
 The property, consisting of 3,200 acres,  
 is owned by the Braden Copper com-  
 pany. The mine is a low grade copper  
 property, the ores of which have been  
 tested and proved amenable to economi-  
 cal concentration. Many engineers have  
 reported upon the Braden property, the  
 first examination being made by Allan  
 H. Rogers in February, 1907, when he  
 placed the tonnage in sight and partially  
 developed at 4,520,000 tons, which  
 averaged 2.70 per cent copper, and de-  
 velopments since that time have added  
 to the ore reserves. The ore deposit lies  
 to the northeast of an extinct vol-  
 cano, which is about 14,000 feet in length,  
 and to date not over 2,000 feet of the  
 crater has been developed. The  
 width of the ore body is between seven-  
 ty-five and 200 feet.

Five years ago a 250-ton concentrating  
 mill has been operated upon Braden ores,  
 while the property has been under de-  
 velopment and the results have been  
 such as to warrant the erection of a  
 large plant. It is now proposed to pro-  
 vide for the property completely with a  
 250-ton mill. The Braden Copper Min-  
 ing company, which holds all of the stock  
 of the Braden Copper company, the oper-  
 ating company, has outstanding 1,200,-  
 000 shares of stock, par value \$5, and  
 there remains in the treasury \$4,000,000  
 addition to the 250-ton mill for the con-  
 version of 84,000,000 6 per cent ten-year  
 convertible gold bonds which have re-  
 cently been issued and underwritten by  
 New York banking interests. Of these  
 bonds \$75,000 are held in the treasury  
 and \$1,250,000 have been exchanged for  
 debenture bonds and stock of the Braden  
 Copper company and the balance, \$2,-  
 500,000, have been disposed of by the  
 company for construction of its pro-  
 posed 2000-ton mill, which will includ-  
 the installation of the necessary power  
 plant and other developments.

**OLD DOMINION.**

A decision in the now famous case of  
 the Old Dominion Copper Mining &  
 Smelting company vs. A. S. Bigelow, be-  
 fore the full bench of the Massachusetts  
 supreme court, will probably go over un-  
 til fall, as the next conference of the  
 supreme court judges will not be held  
 until September. This decision is being  
 awaited with great interest not only by  
 the parties directly or indirectly in-  
 volved, but by the legal profession. The  
 decision involves the famous Heyward-  
 Leeson decision of the Massachusetts  
 supreme court, which decision is the  
 backbone of the Old Dominion case, and  
 an unfavorable decision in the Old Dominion  
 case would be directly opposite to the  
 decision in the Heyward-Leeson case.  
 One who has followed the case very  
 carefully from its inception says:  
 "Council for A. S. Bigelow testified that  
 Mr. Bigelow personally did not benefit  
 to the extent of over \$300,000 to \$300,000  
 in the Old Dominion promotion, though  
 his associates may have benefited to a  
 greater extent. A decision taking away  
 \$2,000,000 from a citizen of Massachusetts,  
 in the face of the various decisions  
 already made by the Massachusetts court,  
 directly opposite to the decisions of sev-  
 eral of the Massachusetts supreme court  
 judges, and in the face of the statement  
 of counsel that his client benefited only  
 to the extent of \$300,000 or \$400,000,  
 naturally occupies considerable time and  
 attention on the part of the full bench.  
 It is a serious case, and it is not surpris-  
 ing that the judges are taking plenty of  
 time in consideration of it."

**NOTES OF COPPER NEWS.**

The Calumet & Arizona company is  
 benefiting by the prosperity of its sis-  
 ter property, the Superior & Pittsburg,  
 in so far as the money which it loaned  
 several years ago to the Superior &  
 Pittsburg is now being repaid at the  
 rate of \$40,000 a month. At one time  
 the Superior & Pittsburg owed to it  
 \$600,000, but the amount is now  
 down to the neighborhood of \$100,000.

The General Development company has  
 acquired the Planet Copper company  
 property in Arizona. This is an old  
 company which has been worked spas-  
 modically since the Civil war days,  
 though it is still considered as a develop-  
 ment proposition. The present cap-  
 italization is \$1,500,000 in \$10 shares,  
 of which \$1,200,000 is outstanding and very  
 closely held. Another company to be  
 known as the New Planet Copper com-  
 pany will be organized with \$1,000,000  
 capital, having 80,000 shares with \$5  
 par value. Boston will be represented  
 on the board by William G. Nickerson,  
 who will also be vice president.

The plan of reorganization of the  
 Raven Mining company is a success. In-  
 stead of a necessary two-thirds of stock  
 being required through the plan,  
 stockholders owning three-quarters of  
 the 630,000 shares have accepted the  
 plan carrying an assessment of twenty-  
 five cents per share. The stockholders  
 have voted to sell the property to the  
 new company, the Raven Copper com-  
 pany, and to carry over a certain number  
 of shares in the new company, only the  
 new stock, par \$1, will be fifty cents  
 paid and liable to an additional assess-  
 ment of fifty cents per share. With the  
 present assessment of twenty-five cents  
 the new company will have \$153,000 of  
 cash for development work after the  
 payment of its debts.

All work at the Cliff branch of Tam-  
 arack has ceased and the property is  
 now idle. Work there was entirely in  
 the nature of exploration. About a  
 dozen levels were re-opened by crosscuts  
 from the old Cliff workings, and were  
 drilled upon and some very encouraging  
 results were obtained. A diamond drill  
 exploratory campaign resulted in the  
 disclosure of mineralized ground, but  
 gave no particular encouragement. Un-  
 derground operations extended over a  
 period of quite three years, in which time  
 the hole was bored with an average  
 to a depth of 250 feet and a total of  
 2,500 feet of drifting done. The total  
 cost of this work including machinery  
 diamond drilling and underground explo-  
 ration expenses is estimated at \$100,000.

Practically all of the Giroux Consoli-  
 dated Mining company's first mortgage  
 6 per cent ten-year bonds have been con-  
 verted into stock, while of the second  
 mortgage issue \$284,000 of \$1,000,000  
 authorized for development purposes. The  
 first mortgage issue totaled \$1,500,000,

**S.S.S. PURIFIES  
 BAD BLOOD**

Bad blood is responsible for most of our ailments, and when from any  
 cause it becomes infected with impurities, humors or poisons, trouble in some  
 form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc.,  
 show that the blood is infected with unhealthy humors which have changed  
 it from a pure, fresh stream to a sour, acrid fluid, which forces out its  
 impurities through the pores and glands of the skin. A very common evi-  
 dence of bad blood is sores and ulcers, which break out on the flesh, often  
 from a very insignificant bruise, or even scratch or abrasion. If the blood  
 was healthy the place would heal at once; but being infected with impurities  
 which are discharged into the wound, irritation and inflammation are set  
 up, the fibres and tissues are broken, and the sore continues until the  
 blood is purified of the cause. S.S.S. is Nature's blood-purifier and tonic,  
 made entirely from roots, herbs and barks. It goes down into the circula-  
 tion and removes every particle of impurity, humor or poison, restores lost  
 vitality and steadily tones up the entire system. S.S.S. neutralizes any  
 excess of acid in the blood, making it pure, fresh and healthy, and permits  
 nature's cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin  
 eruption or disease. Book on the blood and any medical advice free.

**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

**TWO WOMEN.**

She's known as a philanthropist, she's  
 busy all the time;  
 She's interested greatly now in saving  
 boys from crime.  
 She's very seldom found at home; most  
 every night she reads  
 A paper on "The Great Outdoors, or  
 What Our Childhood Needs."  
 In all the city problems her opinions  
 far are known,  
 But this philanthropic woman has no  
 children of her own.

She gives a lot of money to the well-  
 deserving poor.  
 A hungry tramp was never known to  
 leave her kitchen door.  
 She visits dying tenements, hires nurses  
 just to see  
 That mothers bathe their little tots and  
 feed them properly.  
 She does a world of good, I'm sure,  
 and yet she lives alone.  
 Her husband's gone long ago—they're  
 no children of their own.

**A LAUGH OR TWO.**

**Domestic Economy.**

Mollie, the Irish domestic in the ser-  
 vice of a Washington household, was one  
 afternoon doing certain odd bits of work  
 about the place when her mistress found  
 occasion to rebuke her for one piece of  
 carelessness.

"You haven't wound the clock, Mollie,"  
 said she, "I watched you closely, and  
 you gave it only a wind or two. Why  
 didn't you complete the job?"

"Sure, mum, ye haven't forgot that  
 I'm leavin' tomorrow, have ye?" asked  
 Mollie. "I ain't goin' to be doin' any of  
 the new girl's work!"—Harper's Week-  
 ly.

**Hard to Tell.**

A noted horseman who covers the  
 Grand circuit with a fine string of horses  
 tells the story of a man who entered a  
 horse in a certain race and made a bet  
 on it.

When the horses got away the man  
 stood with the field glasses glued to his  
 eyes watching the progress of his fa-  
 vorite.

Some of the men who knew of the  
 horse was going.

"Well," was the reply, "I can't just  
 make out whether he is the last in the  
 third race or first in the fourth."

**Courtsip in the North.**

The old Eskimo lit a cup of walrus oil  
 and peered over the sea-look curtain.

"Aurora," he called, sharply, "is that  
 young man down there yet?"

"Yes, pa," answered the Eskimo belle.  
 "Well, I want you to cut him out, un-  
 derstand?"

"Er—your'll have to do it yourself, pa,  
 he has been here so long he is frozen to  
 the snow settee."—Success Magazine.

**Willing to Pay.**

The Rt. Rev. Bishop of Delaware tells  
 the following story:

"A young man came to me one day  
 and said: 'Bishop, I want you to marry  
 me on next Wednesday.'"

"All right, young man; I'll marry  
 you," I assured him.

"Well, I want the bell to ring," he  
 continued.

"Very well, you can have the bell  
 rung."

"Well, I want the organ to play."

"All right; you can have the organ  
 played."

"And I want everything else that  
 anybody ever had at a church wed-  
 ding."

"Certainly, you shall have it."

"Well, the night came, the bell rang,  
 the organ played, the church was crowd-  
 ed, and everything went off as the young  
 man wanted it. When the ceremony  
 was over the young couple waited, in-  
 stead of leaving the church. So I held  
 out my hand, shook hands with the  
 bride, and then held up my hand to the  
 bridegroom. He had his hand deep in  
 his trousers pocket, and as I stood with  
 my hand out he said, somewhat im-  
 patient and in a low voice, that could be  
 heard all over the church:

"Now, don't be in such an all-fired  
 hurry, bishop; I'm getting the money  
 out just as fast as I can."

"And everybody in the church gig-  
 gled."—Lippincott's.

**WORKING ELEPHANT TO GO.**

The laboring elephants are in their  
 prime when they are twenty-five years  
 old. They are expensive to feed, liter-  
 ally eating their heads off. It is de-  
 cided that an elephant eats a quarter  
 of his weight in feed every day. Certain-  
 ly it is that the average amount required  
 to keep one of the gigantic workers in  
 good condition is 800 pounds a day.  
 While perfectly tractable and reliable  
 when properly tamed and trained an ele-  
 phant is likely to become frightened and  
 stampeded without warning. In spite of  
 his massive body and immense strength  
 he is timid in the extreme and becomes  
 frenzied at the sight of a rat, a dog or  
 an automobile.

Every elephant has a small hole in the  
 side of its head, from which periodically  
 a white fluid is discharged. Unless the  
 animal is chained during the entire  
 period of this discharge he is liable to  
 turn rogue and kill everybody within  
 reach. At other times he is easy to  
 manage. The time is not far distant  
 when the elephant will disappear from  
 the lumber yards of Burma to give  
 place to modern machinery, which is  
 much cheaper and more reliable than  
 animal labor. Even now they are van-  
 ishing, but a few old ones may still be  
 seen doing their work in the mills and  
 yards.

Perhaps one reason mother never looks  
 natural when lying in her coffin is that  
 it is the first time her family ever saw  
 her hands folded.

**BURIED IN TWO COUNTRIES.**

"Lincoln, Gladstone, Chopin and all  
 the great ones who would have reached  
 their hundredth year had they lived till  
 1909 lie decently entombed, each in his  
 country to whose history he belongs,"  
 says Paul Herden, in the Berlin  
 Post. "Some rest amid pomp and  
 splendor, other simply, but all decently,  
 all except Haydn, whose body lies in  
 the Esterhazy vault at Eisenstadt, while  
 his head is in Vienna. Of course the  
 hundredth birthday of the composer recalls  
 it. The head was stolen by a scientific  
 ghoul named Peter, ten days after the  
 burial. Peter had a collection of skulls,  
 which he was compelled, however, to  
 break up, and the Haydn skull went to  
 one Rosenbaum, through whom it was  
 conveyed, years later and by a circuitous  
 route, to the Vienna Conservatory. Dr.  
 Langer, the mayor of Vienna, showed  
 great anger at a recent meeting when he  
 referred to the body of the composer of  
 Austria's national anthem lying in Hun-  
 gary, but was consoled when the fact of  
 the head's being in Vienna was men-  
 tioned."

**A HARD STRUGGLE.**

Many a Marquette Children Finds the  
 Struggle Hard.

With a back constantly aching,  
 With distressing urinary disorders,  
 Daily existence is but a struggle.  
 No need to keep it up.  
 Doan's Kidney Pills will cure you.  
 One hundred thousand people endorse  
 this claim.

Here is one case:  
 Thomas Chautauk, 427 New York St.,  
 Islip, Mich., says: "Doan's Kid-  
 ney Pills benefited me more than any  
 other medicine I ever used. I suffered  
 for months from backache and every-  
 cold I caught would settle on my kid-  
 neys, making my suffering worse. There  
 was a miserable weakness and  
 dull pains across my loins and there  
 seemed to be no cure for me. I was  
 finally told to try Doan's Kidney Pills  
 and did so. They completely cured me  
 and I have not suffered from backache  
 since."

For sale by all dealers. Price 50 cents.  
 Foster-Milburn Co., Buffalo, New York,  
 sole agents for the United States.  
 Remember the name—Doan's—and  
 take no other.

Copper Country

BARAGA COUNTY BANK. Organization Is Perfected and Contract for Building Is Let.

The contract for erecting the proposed new bank building at L'Anse, the plans and specifications for which were drawn by Maas Bros. of Laurium, has been awarded to John Amolsch, the Laurium contractor. The building will cost in the neighborhood of \$4,000. It will be 25 by 45 feet in size on the ground, and will be built of solid brick. The work will be rushed as rapidly as possible. The Baraga County National bank, which is to occupy this building, met last week and elected its organization. Martin Voetsch, county clerk of Baraga county, is to be the cashier.

MINE FIRE UNDER CONTROL. No Danger of Flames from Franklin Spreading to the Quincy.

The fire which broke out in three of the shafts at the Franklin mine last Friday is under control to the extent that there is now little danger of its spreading. However it is impossible to extinguish it and it will be permitted to burn itself out. Every precaution is being taken against the flames reaching surface and damaging shaft houses or other surface property.

MERCHANTS MEET TONIGHT. Secretary Walker of the Duluth Association Will Be Present.

A meeting of the merchants of Portage Lake will be held in the Hancock city hall tonight. It is for the purpose of organizing a business men's organization modeled after that at Duluth, which is to an extent a credit association. Secretary Walker of the Duluth association will be present to assist the Portage Lake merchants in framing a constitution and instructing them in the workings of the Zenith City organization.

The merchants' picnic will be given Aug. 4 at Freda Park, and everybody is invited. It was the original intention of the merchants that the picnic be exclusively for their employees, but since their intention was expressed to the Copper Range railroad has arranged to provide accommodations for a few thousand more people than last year, and as Freda Park is big enough to entertain the whole county the restriction is removed. The picnic is given by the merchants of Houghton and Hancock for their employees, but all other people who care to take it in and who pay the admission fee will be welcome.

JOHNSON VIVIAN'S WILL. Last Testament of Deceased Man of Wealth Is Probated.

The last will and testament of the late Captain Johnson Vivian has been probated by Judge Hoyt, and is now in the archives of his office. There has been considerable speculation as to the manner of disposing of this, one of the largest estates in Houghton, but there is nothing unusual in the will, as the property goes to the natural heirs. The important provision of the will is that the estate will remain intact during the life of the widow. Two of Captain Vivian's sons, Johnson Vivian, Jr., and Joseph Vivian, are named as executors to serve without bond. They are to conduct the business of the estate in exactly the manner observed by its executor during the life of the deceased, providing their mother with all the monies she will require to live as she desires. In the event of the death of one of the executors, John C. Vivian will succeed him. At the death of Mrs. Vivian the property will be equally divided between the four children, Johnson, Joseph, John and William Vivian, and Mrs. Elizabeth Thomas of Duluth, Captain Vivian's granddaughter. These are the principal provisions of the will. The document does not give an inkling of the value of the estate.

MR. AND MRS. COLE ENTERTAIN. Mr. and Mrs. Thomas F. Cole of Duluth entertained a party of copper country people in their yacht, Alvina Friday afternoon. The trip was made to Huron Bay and back between 3 o'clock and 7 and a luncheon was served on deck at 6 o'clock. The members of the party were: Mr. and Mrs. Wheeler, Miss O'Grady and Mr. and Mrs. John D. Ryan of Butte; Messrs. and Mrs. R. B. Goodell, N. W. Haire, J. H. Hick, W. R. Thompson, J. G. Mann, A. F. Rees, R. H. Shields and W. D. Calverley, Mrs. C. D. Sheldon, Graham Pope, William Bath and James H. Dee of Houghton; Major and Mrs. Rees, U. S. A.; Mr. and Mrs. T. S. Doe of Boston; Messrs. and Mrs. Fred Eaton, and J. V. Gault, Miss Cuddihy, Miss Gault, Miss Hoatson, Miss Nichol and Mr. and Mrs. Rees of Calumet; Mr. and Mrs. C. A. Wright of Hancock; and Mr. and Mrs. Mance and Mrs. J. H. McLean of Houghton. The Alvina returned to Duluth Saturday.

J.A. Minnear & Co. BROKERS. Offices at Calumet and Laurium.

Direct private wire service to all markets. If you want the best service on your orders and cannot favor us direct, instruct your banker to have executed the order. Buy and Sell Boston Coppers, Railroads and Curb for cash or on margin. Both offices open evenings. Phones, Calumet, 64 and 75. Laurium, 450, 520 and 605.

IMPORTANT DAMAGE CASE.

Henry Danula Wants \$25,000 of Quincy Mining Company's Cash. O'Brien & Legendre, acting for Henry Danula of the Quincy, have started suit in the circuit court for \$25,000 damages against the Quincy Mining company. Danula was a timberman and he alleges that rock fell from a hanging at a point where he was putting in a stull, and that he was injured, though he had called the attention of his superior to the condition of the hanging before he started to work and was ordered to go ahead. His arm is permanently paralyzed, it is alleged.

BISHOP EIS IS COMING.

Marquette Dignitary Will Honor Houghton Church Next Sunday. Rev. A. J. Eisek, pastor of St. Ignatius' church, Houghton, announced yesterday the program for the celebration of the golden jubilee of the church, which was dedicated July 31, fifty years ago. The celebration will be held next Sunday, Aug. 1, but in recognition of the actual anniversary there will be a high mass at 9 o'clock on Saturday morning.

WILL MAKE PAPER BOTTLES.

Alex. Stevenson, Veteran Traveling Man, Quits the Road. Alex. Stevenson of Hancock, one of the oldest active hardware salesmen in Michigan, has resigned his position to take active charge of the manufacture of a paper milk bottle, in which enterprise he is interested. The articles of the incorporation of the Great Western Sanitary Cone Paper Bottle company, of which Mr. Stevenson is the prime mover, will be filed this week. Mr. Stevenson has the exclusive right to manufacture the patented bottle in the Northwest and he expects to turn out many millions of them. The paper bottle is used but once and is said to cost less than the cost of cleaning a glass bottle. Associated with Mr. Stevenson in this industry is Johnson Vivian, Jr., of Laurium. Other copper country people will be connected with the company.

WIDOW ALLEGES FRAUD.

Edward Jonas, Insurance Agent, Is Arrested—He Denies the Charges. Edward Jonas, a Houghton insurance agent, was arrested Saturday at Portage Entry, where he was camping, by Sheriff Byers, on a charge of defrauding a woman out of the amount of an insurance policy left by her husband, Mrs. Mary Malgren of Hancock market charge. She alleges that Jonas collected \$1,000 on the policy, its full amount, and never turned over a cent. Mr. Jonas explains that nothing has been paid on the policy, as sufficient proof of death had not been filed, and that in addition to this the policy had been allowed to lapse by the husband of the woman, contrary to Jonas' advice, and that all that was coming, based on the time the policy was in effect, was \$212. He insists that this has not been paid by the company, because of lack of proof of death. Mr. Jonas has given bail in the sum of \$2,000 and in the meantime Justice Brand, before whom the charge was brought, is in communication with the insurance company.

EXCITING CRICKET CONTEST.

C. & H. Team Maintains Its Lead in the League, Defeating Kearsarge. The Calumet & Hecla cricket team maintained its lead in the Copper Country Cricket league Saturday afternoon by trouncing the Kearsarge aggregation, the championship holders, by the score of 47 to 46. The game was a sensational contest as it neared the end of Kearsarge's inning. The Calumet & Hecla won by a narrow margin. The Calumet & Hecla team consisted of: J. Ivey, captain, and J. Ivey, second, and J. Ivey, third, and J. Ivey, fourth, and J. Ivey, fifth, and J. Ivey, sixth, and J. Ivey, seventh, and J. Ivey, eighth, and J. Ivey, ninth, and J. Ivey, tenth.

DR. WARTHIN TO LECTURE.

U. of M. Authority Will Help in White Plague Campaign. Announcement is made by the publicity committee of the Houghton County Tuberculosis Association, that the society has secured Dr. Alfred Scott Warthin, professor of pathology in the University of Michigan and member of the state board of health, to come to Houghton in September for a free public lecture of the anti-tuberculosis movement. Dr. Warthin is one of Michigan's authorities on the treatment of consumption, and takes high rank internationally in this branch of medical research. Just what phase of the work he will discuss in his lecture is not announced, but the public may be certain that whatever he says will be of authority and will be of value in the educational aspect of this movement.

TROLLEY LEAGUE NOW FOUR.

The Houghton County Trolley league will announce the plans of the Gay and Wolverine Junior baseball teams for admission to the circuit in the places made vacant by the withdrawal of Lake Linden and Hancock, and will finish the season with two four teams—Laurium, Red Jacket, Centennial Heights and

The Very Old Way and the New

BUTTER MAKING—First came the shaking and jolting of cream in a bag, dragged swiftly over a rough road—then the old wooden churn—and now,

Silver Creek Creamery Pasteurized Butter

Clear—Good to the Taste—Nourishing to the System. Silver Creek Creamery Butter is pasteurized the old Danish way—not the ordinary way. This is a point which should be worthy of your consideration. If your grocer hasn't it, tell him to write to us and get it. Sold in 1 pound tins wrapped in parchment paper. RIPPON PRODUCE CO., Ripon, Wis.

WILL MAKE PAPER BOTTLES.

Alex. Stevenson, Veteran Traveling Man, Quits the Road. Alex. Stevenson of Hancock, one of the oldest active hardware salesmen in Michigan, has resigned his position to take active charge of the manufacture of a paper milk bottle, in which enterprise he is interested.

Eugene Murphy of Hancock, the popular, happy "gene," dispeller of the blues, the story teller of the road, has been tossed about on a hospital bed for weeks, but has now been removed to his home, after undergoing an operation. His result is serious. Mr. Murphy's room at the hospital resembled that of a popular debutante, the floral remembrance from his friends and No. 281, B. P. O. E., crowding it. Gene is now on the mend, though far from well.

Calumet Y. M. C. A. Winner.

A. O. H. Annual Field Day in Hancock Is a Calumet Holiday. The track team of the Calumet Y. M. C. A. carried off the honors at the A. O. H. annual field day at the Hancock park Saturday afternoon. The events were witnessed by a big crowd of people, including an extension of one hour and fifty from Port Arthur and Fort William, Ont. The weather was ideal and all the athletes did good work. Individual honors went to a Finnish athlete—H. Junkkara, of the Huima club. The following is a summary of the program and the results:

16-pound hammer throw—William Carney, A. O. H., first, 78 ft. 5 in. Herman Stoll, unattached, 74 ft. 1 in. Mile run—Earl McGlynn, A. O. H., first, 5:13.5. A. Grundahl, J. Ivey, second. 100-yard dash—Hocking, Calumet Shamrocks, first, time, 10:4.5. Ruonavaara, Calumet Shamrocks, second. Discus throw—H. Junkkara, Huima, 103 ft. 1 1/2 in. Sarell, J. Ivey, 100 ft. 10 in. 25-pound hammer throw—H. Stoll, unattached, first, 25 ft. 5 in. Norbert, 20 ft. 5 in. Half-mile run—William Nekervis, Calumet Y. M. C. A., first, 2 min. 13 sec. Grundahl, J. Ivey, second. 30-pound shot put—H. Junkkara, Huima, first, 35 feet. William Carney, A. O. H., second, 31 ft. 11 in. Pole vault—H. Junkkara, Huima, first, 9 ft. 4 in. McAuley, Calumet Y. M. C. A., second. William Trezise, Alhambra, third. Two-mile run—Earl McGlynn, A. O. H., first, time, 11 min. 8.3.5 sec. Gilbert, Calumet Y. M. C. A., second. Running high jump—George Barnes, unattached, first, 5 ft. 5 in. Norbert Murphy, Alhambra, second. 220-yard hurdle—William McKinnis, Calumet Y. M. C. A., first. Norbert Murphy, Alhambra, second. E. Jones, Alhambra, third. The relay race was won by the Calumet Shamrock team composed of Hocking, Ruonavaara, Gipp and Potosky. The race for boys under seventeen years was won by Edin McGlynn. The Crowley horse won the slow horse race. The Calumet Eagles team won the tug of war pulling the Hancock A. O. H. team. The Calumet team was composed of John T. Dunn, captain; Ed Amesse, Alex. Cameron, Ed Hoganson, Jack Lynch and George Gardner. The A. O. H. team were William Ryan, Jack Barrett, John Carney, Dan Harrington, William Madigan and Dan Sullivan. For first prize five points were allowed, for second three points and for third one point. There were third prizes offered in but three events. The Calumet Y. M. C. A. easily won the events by securing 30 points. The points made by individuals in the events were as follows:

H. Junkkara, Huima club, 18 points. W. Nekervis, Calumet Y. M. C. A., 13. Norbert Murphy, Alhambra, 12. W. McKinnis, Calumet Y. M. C. A., 11. Earl McGlynn, A. O. H., 10. William Carney, A. O. H., 8. Herman Stoll, unattached, 8. Grundahl, J. Ivey, 6. McAuley, A. O. H., 5. Hocking, Calumet Shamrocks, 5. Ruonavaara, Calumet Shamrocks, 3. Sarell, James, 3. McAuley, Calumet Y. M. C. A., 3. Gilbert, Calumet Y. M. C. A., 3. Barnes, unattached, 5. Trezise, Alhambra, 1. Jones, Alhambra, 1.

England Raising a Race of Weaklings.

Statistics Show That the Children Fall Below the Standard, Also That Rural Youths Are the Best. London, July 22.—About a year ago England began the systematic collection of statistics as to the physical and mental condition of her school children, and today the first of the reports of the medical officers appointed under the new scheme are being published and are the subject of an earnest discussion. To say that the country is shocked at the condition of things revealed by the first thorough inspection is putting the case mildly. She is aroused to the danger implied in the conditions, and the revival of the military spirit which has been going on for some time is intensifying the concern of the public. "Where are our soldiers coming from if we are breeding a race of weaklings?" men are asking, and a strong public demand is going up for immediate measures to check the degeneracy which is being revealed. The man in the street realized in a mild sort of way before that England today is not breeding men equal to those of his grandfather's time, but he could not see the danger until he realized that even if they were not so big they were quite as healthy, and declared that when the time came Englishmen would show that they had not forgotten how to fight. Now, however, he has the situation set before him in red-inked figures and comparative tables, and he realizes that something must be done and done at once.

MOTHER'S TROUBLES.

The mother of a large family fell ill and died and the attending physician reported that she died of starvation. It was incredible, but he proved it. The woman had to get the dinner and then spend the next two hours in waiting on the family and getting the children to the table. It was never on record that she got all of them there at the same time and they came straggling in all

Paine, Webber & Co's Wheat Summary.

Paine, Webber & Co's Chicago correspondent said Saturday concerning the wheat market: "The selling of wheat became general after the first hour today and the prices had one of the worst breaks of the season. The drop of about 4 cents in the July contract by the heavy run of new wheat in this market, against which big receiving houses were attempting to make hedging sales, demoralized the trade for the other months, and in long time came out right and left. In the absence of any bull leaders the market went from bad to worse, and suffered a decline of 1 1/2 for the September and 1 cent for the December. The September price made a recovery to about 105 1/2 at the close. Liverpool, Antwerp, Berlin and Budapest were all weak, due to heavy supplies of new wheat from Russia and the Danube, and the improved crop and weather promise over Germany and Hungary. The southwest claims that the farmers in Missouri and other sections continue to sell freely. It will take something in the nature of an accident to the spring crop or a let up in the winter wheat marketing to change the temper of the market."

Underlying conditions are daily improving and we believe in a broad and higher market.

HUNDREDS TO COMPETE. Nation's Best Rifemen Will Shoot for Prizes at Camp Perry.

MOROCCO IN STATE OF CHAOS. Sultan Is Fighting Pretenders, and Spaniards Are Fighting Tribesmen.

London, July 25.—Morocco is in a state of chaos; and so slight is the faculty of the sultan's own soldiers to resist their superior, on account of arrears of pay, that those who were fighting the Berber tribe of the Beni Mitr last spring are now being charitably employed by the enemy at two pesetas a day to do his harvesting. Sultan Mulai Hafid, who gained victory after victory in his war against his brother, Sultan Abdul Aziz, and swept into power in spite of the moral support that France gave to the existing regime, is now apparently without popular strength. There are three of four separate and distinct revolts, one of which is so formidable that it looks as if it would speedily end the present reign. If so it is more than likely to create conditions which can only end in armed conflict with the European powers which hold or are supposed to hold the empire in tutelage. Then there is the attitude of Mulai Hafid toward these same powers. He has given great provocation to Spain, he has irritated England, and he is causing serious disquiet to France by his policy of obstruction and delay in carrying out the provisions of the Algerias treaty. Finally there is the state of open war that has broken out between Spain and the Rifian tribesmen in the neighborhood of Melilla, a coast town which she garrisons and about which a large part of her interests in the country center.

Nothing of the sort happened, of course. When Mulai Hafid had beaten Mulai Aziz into confession of defeat and prayer for his life and a pension he found himself face to face with Europe and the Algerias regulations for the reform of his realm. The alternatives that confronted him were acceptance of the semi-domination by France and Spain which Mulai Aziz had contracted with the Algerias to accept, or else the holy war. Recognizing that he could hope to make no headway against the powers, he formally accepted all the obligations of Mulai Aziz. Being the Algerias regulations, the result was an immediate outbreak of rebellions, which have been constant since last September. As time has gone on these have gained more and more power, until finally the sultan is hemmed in his capital, virtually helpless.

TIGHT COLLARS DANGEROUS. One of the most common causes of hot weather discomfort, and danger too, for that matter, is the tight neckband. Pasting up and down the sides of the neck are two very important arteries, the carotids, and two large veins, the jugular veins. The carotid arteries carry blood up to the head, while the jugular veins convey it back to the heart. As elsewhere in the body the arteries are situated under the muscles and so are partly protected from pressure. The jugular veins, however, are quite near the surface, and a slight degree of pressure upon them is enough to impede the flow of blood away from the head. This retention of blood in the head is a frequent cause of that headache peculiar to hot weather where the headache is accompanied by flushed face and feeling of fullness, often with buzzing in the ears. This condition is always present in hot prostration. Now the tight neckband and the tight collar make pressure just over the escape of blood from the head often produce heat headache and other discomforts as well as add to the risk of heat prostration. The neckband of the summer shirt then should be loose and the collar low and easy fitting.

Now a scientist says gold has a distinct odor. He must have been handling a bunch of the tainted kind.

UNLUCKY FRIDAY. Probably the most notable of the many reasons given for the widespread belief that Friday is an unlucky day is that it was on a Friday that Christ was crucified. This foolish superstition has been fostered, too, by the popular notion that Friday is a changeable day, or, as Chaucer calls it, "gerful." He says: "Seld is the Friday all the wyke alyke."

An old Shropshire couple contributes thus to the superstition: "Friday's a day as'll have his tricks. The fairest or foulest day of the week." As a proof of the universality of the superstition among all nations and ranks, it is curious to note that the shipping returns of all countries show a much lower sailing rate on Friday than any other day of the week.

And yet the history of ages goes to prove conclusively that it is purely a superstition.

**WOOD AND BUILDING MATERIAL**  
I ALSO HANDLE  
**Artistic Monuments**  
COST NO MORE THAN  
PLAIN ONES IN  
**WHITE BRONZE**  
Marble is entirely out of date. Granite  
soon gets moss-grown, discolored, requires  
constant expense and care, and eventually  
crumbles back to Mother Earth. Besides,  
it is very expensive. **WHITE BRONZE** is  
strictly everlasting. It cannot crumble  
with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. The  
why not investigate it? It has been adopted for over one hundred public monuments, and by thousands  
of delighted customers in all parts of the country. It has been on the market over 25 years and  
is an established success. Many granite dealers have bought White Bronze for their own burial  
plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if  
you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will  
be pleased to call with designs and samples of White Bronze.

**City Brevities**

Yesterday's temperatures: Seven a. m., 71 degrees; noon, 78; 7 p. m., 77; maximum, 83; minimum, 65.

The Guild Hall baseball team will practice at the old fair grounds at 5 o'clock this afternoon.

Mrs. M. Kivisto has gone to DeKalb and Waukegan, Ill., where she will visit with friends for two weeks.

Selden B. Crary, of Hubbell, is in the city to attend the wedding of his sister, Miss Nellie, which will take place today.

St. Agnes court, No. 70, Lady Foresters, will meet at Keough's Hall this evening. A large attendance is desired.

The Michigan baseball team defeated the Republic nine at Michigan yesterday in a ten-inning game, the final score being 7 to 6.

Peter Erickson, of Jackson, and Mrs. Brademan, of Ishpeming, are visiting at the home of Charles E. Johnson, on Blomquist avenue.

Mr. and Mrs. J. W. Spear and Jay Spear and wife, of Cartersville, Ill., left Saturday for the Riley camp at Middle Island point, to be gone about two weeks.

Henry Hallam, Jr., Mrs. Henry Hallam, Sr., and Mrs. Charles H. Lang leave this morning for Lansing. On Wednesday Mr. Hallam will marry Miss Elizabeth Morath, of that city.

One of the numbers to be presented by Miss Winifred Tucker at the Episcopal church Wednesday evening is "Carmine Saint Simeon My Heart at Thy Dear Voice," from "Samson of Delilah." Mr. Zeuch will accompany Miss Tucker on the pipe organ.

Mayor Vaughan and a number of the aldermen visited the sand lots at the foot of Hewitt avenue and also the city property adjoining the lighthouse reserve Saturday afternoon, in accordance with a decision made at the last council meeting, as an aid to the solution of the controversy which has arisen over the sale of the Hewitt avenue lots to the park, cemetery and street commission a year ago, which purchase has since been declared illegal.

Park Was Crowded—Lakeside park was crowded last evening for the concert given by Our Boys' band and the statement was made that more people were in the park than ever before on a Sunday evening. The band also played at the hall game in the afternoon.

Will Attend Convention—Alfred Tallbacka and Anton Kiva, the delegates from the Finnish Temperance society of Marquette, left yesterday for DeKalb, Ill., to attend the national convention of the society. An effort will be made to have the society hold its national convention in this city next year, and, for that reason, the traveling expenses of the two delegates are being paid by the Queen City Commercial club.

Meeting of Camp Owners—A meeting of the Marquette County Camp Protective association will be held at the city hall at 7:30 this evening for the purpose of completing the organization. Prospective members a short time ago signed a preliminary agreement to join the association, the purpose of which is to assist in the detection and conviction of camp breakers and trespassers. To create a fund for that purpose, each member agrees to pay a fee of \$2.

Retreat at Assinins—The junior clergy of this diocese will attend a retreat this week at Assinins, near Baraga, to be conducted by Rev. Fr. Roswinski, S. J., of Chicago. The retreat begins this evening and closes Friday morning. Bishop Es and Father Moriarty will attend from Marquette, and it is expected that about thirty-five priests will be in attendance. Last week a retreat for the senior clergy was conducted, at which thirty were present, among them being Bishop Es.

Now in New Offices—The Consolidated Fuel & Lumber company is now doing business in its uptown office on North Front street, in the building formerly occupied by the Den Cigar store. The building has undergone extensive repairs and is now a handsome and convenient office. An electric sign will be put up today and the windows will be lettered. Four people are employed constantly in the uptown office, which will prove a great convenience for both the company and its patrons. The office at the mill on West Washington street will be maintained as a branch office.

Team Ran Away—A team belonging to D. H. Ball ran away at Cox's farm Saturday morning and the horses were not caught until they fell in crossing the walk at the corner of Front and Washington street. Mr. Ball's coachman had driven out to the Cox farm to get water, and as had been his custom on former occasions, left the team standing in the barn. The team started into the spring house. They became frightened at something and started to run toward Marquette, leaving the carriage along the way in a damaged condition, and not stopping until Marquette was reached, as above stated.

Normal Lectures This Week—Dr. Edmund E. Hovey, one of America's most noted geologists and geographers, will lecture at the Normal school this week. At 8:15 this evening he will treat of "The Eruption of Mt. Pelee," he being one of the first to go to Martinique after the disaster in an official capacity. At that time he represented the Museum of Natural History of New York, of which he is associate curator. He has 100 slides of pictures that he took while there. Dr. Hovey is an authority on earthquakes and volcanoes and an instructive and interesting lecture is in store for those who attend. The public is cordially invited to hear him.

Eng. Music at St. Paul's—The return of Rev. Bates G. Burt from his vacation and the special musical program brought out a large congregation at St. Paul's church yesterday morning. Mr. Burt delivered an able sermon on the "Use and Abuse of God's Gifts to His people." Mr. Zeuch's masterly handling of the memorial organ was a revelation to those who have not heard him before. The vested choir was unusually strong and well balanced, and inspired by Mr. Zeuch's accompaniment, gave an especially fine rendition of Woodard's "Te Deum." As already announced, Mr. Zeuch, assisted by Miss Winifred Tucker, will give a complimentary organ recital at St. Paul's church, Wednesday evening at 8 o'clock. The program will be published in Wednesday's morning's Mining Journal. The public is cordially invited. A large audience is assured and those desiring seats are

advised to come early. Mr. Zeuch was much taken with Marquette and his people on the occasion of his first visit last February and is giving this recital in recognition of the cordial reception that was then accorded him.

**INSURE WITH PETER WHITE & CO.**  
**BOYS UNDER ARREST.**

Accused of Stealing Bonding Wires from Street Railway.

Nary Pommerville, aged sixteen, and Wilfred Cyr, aged seventeen, are under arrest in the county jail, charged with having stolen forty-nine copper bonding wires from the street railway track leading to the fair grounds. The boys were arrested Saturday evening, after Marshal Manning had found the wires in a North Marquette second hand store and the proprietor had said he had bought the stuff as old junk from the Pommerville boy.

Pommerville was arrested early Saturday evening by Officer Carlson and he later admitted having taken the wires and stated that the Cyr boy had worked with him. Cyr was then arrested at his home, but he has thus far maintained his innocence of any stealing, claiming that they found the copper in the brush. The boys are to be taken before Justice Byrne for hearing this morning.

The bonding wires are used for completing the circuit at the rail points and are about two feet long and a half-inch in diameter. Their removal makes it impossible to operate the cars. That the wires had been taken was first noticed when the company attempted to take the baseball team out to the park for practice Friday evening and, of course, were unable to do so. As a car had been run on that line Wednesday afternoon, it is thought that the wires were taken Thursday or Thursday evening. The wires were replaced with new ones Saturday and service to the fair grounds yesterday was maintained as usual.

A few weeks ago the street railway company lost fifteen of these copper wires from their fair grounds track and about a year ago thirty-five were stolen, but it is not known that these two boys had anything to do with the former thefts of the same nature.

**MICHIGAN DAY AT SEATTLE.**  
Many Wolverines Will Be at Exposition on August 11.

A number of Marquette people have already gone to Seattle, Wash., to attend the Alaska-Yukon-Pacific exposition and more will go during the next few weeks, some of whom expect to be in the city on Michigan day. Michigan day at the exposition has been postponed from July 19 to Aug. 11. John R. Bowditch, treasurer of the Michigan building committee, says the postponement was caused by the fact that advisers from Michigan say the residents of that state are busy through the month of July and that a more better delegation would come in the fair if the date was August, instead of in July. A. Borden, one of the commissioners appointed by the governor of Michigan, is at Seattle and he is favorable to the change.

Former residents of the Wolverine state in Seattle who took upon themselves the construction of a building at the fair without aid from the state of Michigan, have had a hard time of it, and they are still trying to raise a considerable amount still due. Negotiations with Vancouver to lease half of the building have fallen through. It is this unsettled financial state that has made it impossible for the leaders in the Michigan day plans to get ready for the date originally set.

**A DELIGHTFUL PARTY.**  
Dance Given at Presque Isle Pavilion, Friday Night, a Success.

Nearly fifty couples enjoyed themselves at a dance given Friday evening in the Presque Isle pavilion by the Alpha Beta chapter of the Kappa Alpha Psi fraternity. Without a doubt, this was the most pleasing party that has been given at the pavilion this season, and marks the second social success of this of this newly formed society. Although there was nothing elaborate in the line of decorations or refreshments, the natural beauty of the surrounding, lent an indescribable charm to the scene, as the evening was perfect. The only decorations were done in the colors of the fraternity, streamers and banners being used. During a twenty minute intermission, the dancers repaired to Bell's summer restaurant, where ice cream and soft drinks were served. Two special cars, at 1 o'clock, brought the party into town.

**STUDENTS' ANSWERS.**  
"When a student does not know the answer to an examination question, he does one of three things," said a University of Pennsylvania professor recently. "If he is a good student he will simply leave a blank space, while if he is not he will either try to bluff it through or else pass it off as a joke. These latter cases are rare, and the result is generally painful and does harm to the student, if, however, there will be a real gain which does the student good by putting the professor in a good humor and so making him unconsciously mark the paper less severely."

# Marquette County Savings Bank

SAVINGS BANK BUILDING, MARQUETTE.

During the summer everyone travels more or less if they can. For the benefit of the traveling public we have compiled a condensed time table, just the right size for the vest pocket and giving the leaving time of all trains and boats from Marquette. Please call or ask your ticket agent for one. Travelers in this country or Europe will find our Travelers Checks and Letters of Credit a great convenience and safety and the additional cost is comparatively nothing.

Special attention to BANKING BY MAIL. Send a postal for booklet.

## DISCUSSES CHANGES IN BANKING LAWS

### COMMISSIONER ZIMMERMAN HAS SENT OUT A CIRCULAR LETTER TO STATE BANKS—NEW REPORT BLANKS.

Banking Commissioner Zimmerman is sending out to all state banks a circular letter calling attention to the provisions of the new law with reference to state banks transacting a commercial and savings business, which requires the separation of the two departments.

The new law takes effect September 2, and in discussing its provisions Mr. Zimmerman calls attention to section 23 which prohibits the capital stock in mortgages or other form of real estate security, while section 24 provides that commercial banks may allow interest on accounts or certificates of deposit, but all deposits in such banks shall be payable on demand without notice except when the contract of deposit otherwise provides. Banks are required to keep on hand at least 15 per cent of their total deposit except that in cities of over 100,000 population they are required to keep at least 20 per cent of their deposits on hand.

Reserves Must Be Kept Separate. Reference is also made to the books of employees for keeping the accounts of the bank. It is pointed out that under the law the reserve must be kept separate on the books of the bank, but no physical separation of the cash of the departments is required.

The law requires that it is pointed out, that 2 per cent of the deposits must be in cash in the vaults of the bank, 10 per cent of deposits may be held in reserve banks, 34 per cent may be invested in collateral loans and 51 per cent may be invested in bonds or real estate securities.

Calling attention to the separation of these accounts the commissioner says that banks will be furnished when will harmonize with the separation and classification of accounts and the last call for 1910 must be reported on these blanks. It is urged that banks establish a uniform system of accounts and in using the report blanks.

Forms to Be Used. The blanks to be used and suggestions for the forms of books in conformity with the new law have been prepared by the department and are to be sent out. These forms were presented to the state bankers at the bankers' meeting recently and approved by them. They saw itself had the endorsement of the association and is expected to bring about changes in the system of carrying money on deposit and making reports which will improve present conditions.

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work. 2-13-11 K. KELLY HARDWARE CO.

DRY HARDWOOD. Two dollars per cord in two-cord lots. (2-13-11) E. B. SPEAR & SONS.

It frequently happens that a man doesn't appreciate justice when he gets it.

## WINDFALL FOR CAPITOL NEWSBOY.

### While "Joe" Is Asleep, Senator Crane Speckles Him Over With Coins.

Washington, July 25.—"Joe," the best known and most popular of the newsboys about congress, woke up yesterday afternoon from his siesta on the sun-baked steps of the Capitol, to find that while he slept it had rained pennies and nickles all over his small person. As he sat up, coin dropped from his hands, his forehead, his cheeks, his nose and when in amazement he leaped to his feet, they showered also from his body and even from his chubby legs. First he clutched at his clothing and jammed his hand into his pocket, aghast at the thought of leakage. No, his small store there was intact. Then, without appreciable waste of time in thanksgiving to the unknown source of all this unexpected wealth, he picked up the coin. He doesn't know, now, that Senator Crane of Massachusetts, happening to pass by while the child slept, sprawled on his back with outspread arms and legs in the sun, speckled him all over with the small coins, and then, with others, stood at a bit of distance to see what he would do when he woke up. They saw.

## Panama Wants Army Officers.

The city of Panama is anxious to have an officer of the American army detailed for duty as inspector and instructor of the national police of that city. A cabinet resolution making such a request has just reached the state department. The army however, is short of officers, and it is not likely the wish of the Panamanians will be complied with, a similar request from the city of Bogota, United States of Columbia, recently having been declined.

## BOY THOUGHT DEAD IS ALIVE.

### Tennessee Youth Writes Parents Who Believed He had Been Killed.

Bristol, Tenn., July 25.—William H. Bowers, aged nineteen son of T. L. Bowers of Bristol, has been located alive after the body of a mangled boy, killed by a train at Stanton, Tex., had been identified as his body. The body corresponded with the description of Bowers, even to a mole on the chin, while in the pocket of the dead youth was found the name of Miss Inez Gibbs of Fort Worth, whom young Bowers knew. After Bowers' parents here had mourned him as dead for a week, today they received a letter from him, written at Fort Worth. He writes his parents that he has just returned from Colorado.

## APPROVES MILKING MACHINES.

### Nebraska Experiment Station Calls the Devices a Success.

Washington, July 25.—The Nebraska experiment station of the department of agriculture is experimenting with milking machines. A preliminary report upon the progress of the investigation issued by the department today contains this information:

"It has been found that most cows yield their milk as freely and fully when milked with a machine as when milked by hand, but with some individual cows the use of the machine is not entirely successful. Heifers accustomed to the machines from the first appear to do better than older cows which have been milked by hand."

Too many men try to build a skyscraper on a one-story foundation.

"There are more maxims about money than any other subject—especially about saving money. Ask any successful business man how he came to succeed and he almost always says: 'I began by saving money.'"

## Marquette National Bank

Marquette, Mich.

## GIGANTIC OIL INTERESTS LINING UP FOR A FIGHT.

### Millions at Stake in Mexico—Harriman May Take a Hand.

San Antonio, Tex., July 25.—Momentous changes are taking place in the business world of Mexico which presage a gigantic industrial struggle or another sweeping industrial victory. Announcement is made by Governor Landy y Escamion of the federal district of a new oil company that has been formed with a capital stock of \$25,000,000, which will take over the Weetman Pearson interests and practically have all the oil concessions in Mexico. The personnel of this company comprises men high in official life in Mexico, including relatives of President Diaz.

For some time a bitter warfare has waged between the Standard Oil and the Pearson of London, represented by Sir Weetman Pearson. The fight has centered for the control of the oil field of Tampico, which is said to be the greatest in the world. Owing to his connection with the government, Sir Weetman Pearson is supposed heretofore to have had the better part of the contest. However, he has denied that the new company will take over his interests, and Mexican officials have confirmed it. A break seems to have been precipitated. It is announced that the new company will carry on the fight against the

Standard Oil company. E. H. Harriman is pushing his railroad on the west coast of Mexico to completion, and is projecting a new railroad from San Antonio to the city of Mexico down the east coast, and it is hoped that he will be a powerful ally of the Standard Oil company, since their interests have been friendly in the past.

## FIRES DRIVE OUT WILD GAME.

### Tigers Boldly Enter Vera Cruz (Mexico) Villages for Food.

Tuxpam, Mexico, July 25.—The forest fires which raged in many parts of the state of Vera Cruz during the latter part of the recent dry season caused the wild game to seek safety in the more open country. The men of the villages and ranches were afforded some exciting sport by this general exodus of animals from the burning forests.

Rey Snodgrass, an American of Tuxpam, killed two deer, five jaguars and a tiger in one day. In some instances the tigers were made so ferocious by fright and hunger that they boldly entered villages and attacked people in their homes. The natives entertain the greatest fear of the tigers at all times. It is not unusual for one of these animals to carry off a small child. In some localities in the mountains the huts of the natives are surrounded by stout stockades to prevent tigers from invading the premises.

**The Great Lakes Trip**

A little journey on the inland seas is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Line Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Line Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and Sault Ste. Marie, and two trips weekly between Detroit, Bay City, Saginaw and Sault Ste. Marie. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Gaderick, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map.

Address: L. G. Lewis, C. P. A., Detroit, Mich.  
P. H. McMillan, President  
A. A. Schantz, Gen. Mgr.

Detroit & Cleveland Nav. Co.

**COMMANDS BUT NO OFFICERS.**

Detail System Responsible for Serious Situation in the Army.

Washington, July 25.—So serious is the problem growing out of the assignment of officers of the line of the army to staff duty, that the War Department has proposed that only the junior places in the special staff corps—that of major in the adjutant general's and inspector general's departments, that of captain in the quartermaster's, subsistence and pay departments and that of captain and first lieutenant in the signal corps—shall be filled by the detail of line officers. Line officers so detailed, it is proposed, shall serve their tour of duty and then return to the line, where they are greatly needed. This will not so completely divert them from their line duties, while it will enable these officers to obtain an acquaintance with the duties of staff officers, which is regarded as of practical value. It is further proposed to have the senior grades filled by the appointment out and out of officers who have served in a detailed capacity and have proved their usefulness on staff duty. In this way there would be furnished a permanent personnel in the upper grades of the staff departments and in the junior grades a detailed personnel from which the permanent officers may safely and profitably be selected.

The reports of the department commanders which are now reaching Secretary Dickinson and will be made public after they have been studied by the secretary are devoting much attention to this situation, and a number of them describe the conditions resulting from the long absence of line officers, from their commands as seriously detrimental to the discipline and efficiency of the line. The present system was adopted as a part of the reorganization of the army brought about by Senator Root, when he was secretary of war, the most important feature of which was the creation of the general staff. At that time the permanent personnel of the special staff corps was abolished, and since then vacancies as they have occurred in the quartermaster's, pay, subsistence, adjutant general's and inspector general's departments and the signal corps have been filled by detail of officers of the line. It has been usual to select for this duty a line officer of the grade next below that to be filled in the staff, so that the assignment might carry with it promotion for the officer chosen and for the junior advanced to the place temporarily vacated. Rotation in these details has made it possible to make promotion a condition which will last until all the places in the staff corps have been filled by detail. While this has had its immediate advantage for the individual selected for staff duty and the junior promoted to the vacancy thus created, it has had the effect of depriving line commands of more than seven hundred officers of all grades, from colonel to second lieutenant inclusive. It is this change which has caused much confusion and has resulted in depriving many troops of their best and bravest officers, in many respects the most important of commanding officers. It is likewise that with the retirement of senior officers in the special staff corps it will be more and more difficult to fill their places by details from the line.

**IT SURE DOES PAY.**

The school marum was young and pretty and she had some big boys, among them one named Johnny Jones. One afternoon Johnny tried an experiment.

"Johnny Jones, did you write that card the angry teacher, surveying a note on the blackboard which read: 'Johnny Jones can kiss more girls than anyone else in this room.'"

"Yes," said the imperturbable Johnny.

"Well, sir, you may stay after school to-night," commanded the schoolmarum. "I tell you, fellows," said Johnny to his companions as he joined them after being "kept in" a half hour by the pretty school mistress, "it pays to advertise."

**TROUBLES OF A HINDOO BRIDE.**

The Hindoos have a quaint marriage custom. The bridegroom, riding a horse, heads a procession of his relatives to the home of his bride. The father and an uncle of the bride await the procession outside the house. When the bridegroom rides up the father and uncle step into the doorway and there envelop the bride in rags. The girl then is carried out and the two men pass her seven times as a bundle under the bridegroom's horse. The trick would be difficult with many American brides, but as the Hindoo girl marries as early as eleven years, the fathers and uncles are not put to much exertion. There is danger involved, however, as many relatives have been kicked to death by restive horses—below that to be filled in the staff, so

**Ishpeming Department**

**EYE-WITNESS TELLS OF RAILWAY HORROR**

VICTIMS OF SATURDAY'S CATASTROPHE ON THE NORTHWESTERN LINE NEAR MENOMINEE HAD FRIENDS AND ACQUAINTANCES IN ISHPEMING.

The locomotive pulling the Chicago & Northwestern passenger train that arrived in Ishpeming Saturday evening two and a half hours behind schedule showed evidence of the tragedy that had taken place at 11 o'clock that morning on the Birch Creek crossing, less than ten miles this side of Menominee, where the lives of three prominent Escanaba people—Hon. Ole Erickson and wife and their niece, Miss Belle Erickson—were snuffed out. The cowcatcher was damaged by the impact with the automobile in which the victims were riding, and blood and flesh was smeared over the wheels and other parts.

The victims were known to many Ishpeming people, particularly Mr. Erickson and his wife, who were intimate friends of D. D. Randall and his family. They had visited them frequently. The news of the accident spread over the Northwestern system rapidly and members of the train crew reported that friends and acquaintances of the deceased crowded every station along the line, eager to learn some particulars of the disastrous affair. When the train passed through Escanaba there were more than 1,000 people at the station.

An Ishpeming man, who was on the train, and who aided in gathering up the remains of the victims, said: "The sight was the worst that I have ever seen, and I shall never forget it. One of the saddest features of the whole affair was to see Edward Erickson gathering up the remains of his daughter, and placing them in a quilt that had been procured from a house nearby. After completing this task Mr. Erickson collapsed and I wondered that he had not done so sooner. Another thing that appealed to me as being particularly sad was the fact that Theodore Farrell, the engineer pulling the train, is the next door neighbor of the Ericksons and they had been staunch friends for years. The fireman, Edgar Anderson, was also a friend of the Erickson family. Mr. Farrell was on the verge of prostration, but he succeeded in pulling his train through to Escanaba, after it had remained at the scene of the catastrophe for over an hour and a half.

"The engineer was in no way to blame, but just how the car happened to be stopped on the track I cannot say. James O'Donnell, the driver of the car, who with Edward Erickson, Sr., Bertha Erickson and Edward Erickson, Jr., occupied the car, said something about the car backing just as it got on the track, but I believe he became confused. The occupants of the car who escaped say that they heard Ole Erickson give the driver some instructions as to what to do when he saw the train approaching. O'Donnell said that Mr. Erickson first told him to stop and later to go ahead. I heard the trainmen say that the train was moving at a rate of about forty-five miles an hour, which is about the usual speed maintained at that point. The highway runs parallel with the track for some distance, but just before Birch Creek crossing is reached it turns sharply. There is a knoll at the turn, with a clump of bushes that shuts off the view of the train from the occupants of cars moving in that way, which is the case with the cars on the line. The engine is also shut off by the obstruction. The train was about 100 feet from the crossing when the engineer got sight of the car near the crossing. He immediately applied the emergency brakes and I have never in all my railway experience seen a train stopped so quickly. I would judge that the train had gone not more than 150 feet beyond the crossing when it was at a dead stop."

George Hughes, a life-long friend of the Ericksons, was the conductor on the train. The engine does not usually run any farther than Escanaba, but the locomotive that pulls the train from that city to Ishpeming was sent to the scene of the horror to bring back the remains and the surviving members of the party, and several other friends in two other autos, who were making the excursion together from Escanaba to Marquette.

Ole Erickson, who served his district for four years, from 1904 to 1908, inclusive, in the state legislature, was one of the best known business men and politicians in this region. He retired from the lumber business last winter, having amassed a fortune during the nearly thirty years he was engaged in that line at Escanaba. He was president of one of the banks, was also chairman of the board of public works.

Miss Belle Erickson was the flower girl at the wedding of Mr. and Mrs. H. Raisky in this city thirteen years ago the coming fall. She visited the Raisky family here many times since then and was well-known here. She was to have been a senior in the Escanaba public school the coming year.

L. F. Schilling, 519 First street, has placed a two-burner gas hot plate in his kitchen. (7-26-14)

**FRESH PORK HAS REACHED TOP PRICE**

MORE PORK CONSUMED IN THE UPPER PENINSULA, FIGURING ON BASIS OF POPULATION, THAN ANY OTHER PORTION OF THE UNITED STATES.

The retail meat dealers of the upper peninsula will today pay the highest price that has ever prevailed in this region for pork loins. Hogs last week reached a new high record mark when they sold at \$8.50 per hundred on foot in the Chicago markets. On Friday the representatives of all the beef concerns were advised to increase the price on pork loins to sixteen cents per pound. This will necessitate an increase in the retail price to eighteen or twenty cents. According to a representative of one of the big beef concerns there is a greater quantity of pork consumed in the upper peninsula, figuring on a basis of the population, than in any other part of the United States. He said that foreigners as a rule eat more pork than beef, and there are several retail concerns in this county, he stated, that sell from 2,000 to 4,000 pounds of pork loins every week, and that the total consumption, when the loins can be secured in the quantities desired, is from 35,000 to 40,000 pounds per week. For several weeks past the wholesale houses have been able to furnish not more than 50 per cent of the pork loins desired. The loins constitute 90 per cent or more of the fresh pork brought to this section, especially during the summer season. In the winter some of the retailers receive hogs in carcass direct from the farmers in Wisconsin and other nearby states.

Lard, hams and bacon have also reached top-notch prices during the past few days. Lard in general is now bringing wholesale from twelve and three-quarters to thirteen cents per pound and fourteen cents in pails. The better quality of bacon brings from sixteen to twenty-two cents per pound and hams are selling at from fourteen to sixteen cents, according to quality. (7-26-14)

The beef men do not look for much cheaper prices on pork at least for some time, as the price of corn and other grain is too high for the farmers to feed it to their hogs. As a result of the high prices many of the farmers here have sold off the greater part of their hogs, as they find that it is much more profitable to sell their grain than to feed it to the swine.

A gas range and kitchen heater has been installed in E. J. Muck's home, 710 Michigan street. (7-26-14)

**MITCHELL TO LEAVE.**

Manager of Gately Co's Store Goes With Grand Union Tea Company.

C. C. Mitchell, who has managed the Gately company's Ishpeming store for the past four and a half years, has resigned the position, and will today enter the employ of the Grand Union Tea company. After spending a week in the company's Ishpeming store getting pointers on the business, he will go to Cheboygan, Wis., to take charge of the branch there.

Mr. Mitchell has made a big success of the grocery store here. During the last five years he has been in charge here has increased the business in the neighborhood of 100 per cent. He is generally recognized by his fellow business men as being the most capable and successful grocery manager in this county, and in this field. Less than a year ago he was given additional territory, including the Soo and intermediate points, to look after. Mr. Mitchell is a thorough business man, having been engaged in merchandising on his own account for some years before entering the Gately company's employ.

He has been in the employ of the establishment for eight and one-half years and it is very evident from the work that he has done here that he will be a loss to the Gately company, while it is certain that he will prove an efficient manager for the Grand Union Tea company. Mr. Mitchell will move his family to Sibleygan as soon as he can secure living quarters for them. Their departure from Ishpeming will be regretted by many friends.

**FOR BIG GAME.**

Thousand Dollar Match Between Rowett and Ziehr Is Talked Of.

It is reported from Ironwood that John Rowett, claimant of the world's heavyweight Cornish wrestling championship, wants to meet Joe Ziehr again in the Cornish style for a wager of \$1,000. Many of Ziehr's friends contend that he is fully as anxious to meet Rowett as Rowett is to meet him. In the match at Calumet some weeks ago between these two exponents of the Cornish wrestling game, Rowett was accused of being much stalling, while in the match later on the Gogebic range Ziehr was hurt, making it impossible to complete the contest, so the championship is still a doubtful question.

The followers of this style of wrestling all over the peninsula will be anxious to see a decisive match between Rowett and Ziehr is pulled off. It is reported that Rowett's Gogebic range friends are willing to put up \$1,000 any time Ziehr's friends come forward with a like amount, making the total stakes \$2,000. The city offering the best inducements would get the match. It is thought in the copper country that if articles of agreement are signed the promoters would get back a large percentage, if not all of the money, they thought Ziehr in doing so accepts, as it is placed that the sports would pay from \$1 to \$1.50 for admission.

It is also reported that Rowett wants to enter the pugilistic game, and his Gogebic range friends are willing to place \$100 on him against George F. Gardner, who is now at Whitefish, of Duluth in Calumet on Oct. 17, Rowett has had several little encounters and he is credited with having put up some creditable exhibitions.

**SPANISH SWINDLE REVIVED.**

Ishpeming People Receiving Letters from European Crooks.

During the past few days a number of Ishpeming people have received letters purporting to be from A. Belavsky, an alleged imprisoned banker, urging them to send money to aid in helping the prisoner and his daughter to obtain \$420,000, which Belavsky claims is due them. The person to whom the letters are addressed is supposed to be the manager of the money as reward for helping get the \$420,000. In each letter is a clipping purporting to be from a London newspaper, reporting that the recent revival of the "Spanish prisoner" swindle scheme of several years ago has resulted in the postoffice department making special efforts to warn possible victims. Thousands of these letters, presumably duplicates of the ones sent to people here, have been received during the past few weeks in the United States. The Chicago papers report that dozens of complaints have been made to General James B. Stewart, the postoffice inspector for Chicago.

The banker is represented to be in prison at Madrid, Spain, and it is alleged that he is a victim of a plot to rob himself and his daughter of their fortune. The letters, which have the appearance of having been written with a pen, are really printed, though the work is so cleverly done that only an expert would notice that it was not hand writing. Among those who have received letters here are a few of the business men.

A gas range has been placed in the home of Thomas Pryor, North Pine street. (7-26-14)

**DID WELL FOR BAND.**

Finnish Temperance People of Ishpeming Honored Red Lodge Musicians.

The members of the Finnish Temperance society of Ishpeming treated the Red Lodge band well while they were in the city last week. Besides giving them two fairly good lunches at their concerts, also patronizing their dance at the Red Lodge Saturday evening very liberally, they raised a fund of about \$250. The fund desired to attend the annual convention of the Finnish National Brotherhood, association at DeKalb, Ills., this week, but as no funds had been subscribed by the national organization to pay the expenses of the trip, the management was undecided whether to go until they reached Ishpeming. The money raised here was given to the organization to aid in paying its expenses to DeKalb.

The members of the band made many friends in Ishpeming. Most of them are members of the Temperance organization and all are thoroughly Americanized. Several of them were born in this country and all have been located in the west for a number of years. They departed yesterday for DeKalb.

**NO FAULT OF TRAIL CREW.**

The engineer and one of the brakemen on the train which killed Albert Basso, the Oliver Iron Mining company's Lake mine workman, Friday evening, did commendable work in their efforts to save him from being run over as the train was being backed in on the Oliver track, close to the Lake mine shaft house. The brakeman sitting on the end car, also the engineer, noticed that Basso was in danger. The former immediately kicked the angle cock on the car, setting the emergency brake. About the same moment the engineer applied the emergency brake of the locomotive.

**CONCERT AT PYTHIAN PICNIC.**

The Ishpeming band will play the following program at the Knights of Pythias picnic tomorrow afternoon at Cleveland Park, commencing at 2:30 o'clock. March, "Stars and Stripes Forever"; Sousa Overture, "William Tell"; Rastin Selection, "Honeycomb Trail"; Howard Intermezzo, "Glow Worm"; P. Lindeg March, "Revolution"; W. P. Chambers

**FROM MORGAN'S CURB LETTER.**

"Trading during today's short session was not quite so heavy as in several sessions preceding, but prices held wonderfully well, and the week closes with the average level at top prices on this movement. North Butte scored a further advance to 38; Greene Cananea, Giroux Consolidated, and Butte Coalition showed further slight gains over yesterday, and the buying in them is excellent. It is a noteworthy feature of this market that after the steady advance of the past week, the floating supply of copper shares is as scarce as ever. In no quarter are they offering in any great volume, and the buyer is compelled to bid prices up to get them. The metal situation continues to show improvement, and those best informed express the opinion that inside of thirty days considerably higher figures will prevail. Everything points to increased activity, and higher prices next week. We would buy them now. Conditions at Chief Consolidated continue most satisfactory, and depth for one boiler. It is likely that a station will be cut at the 1600-foot level right away, and work begun there toward the ore. The property contains the same great ore channel that provides so much mineral wealth for the Mammoth and Grand Central mines. In the Chief Consolidated ground, this channel is 100 feet in width, and the management already has cut ore in six different places. The company is well provided with a large shaft development fund, while there is a large block of treasury stock untouched. It is the way the Chief Consolidated is mining that brings mines of magnitude, and the property is destined to be a large producer."

**ISHPEMING IN BRIEF.**

H. H. Millon received a high wheeled motor buggy Saturday.

Miss Minnie Moulton, left yesterday for Chicago and points East.

Miss J. Coking of the copper country is visiting relatives in the city.

Mrs. H. Barwood and daughter Louise arrive home Saturday from a trip on the lakes.

George Sedwick, now located in Milwaukee, spent Saturday and yesterday in the city.

The Misses Edith Hovey and Edith Thompson, students of the Normal, are visiting the Misses Crissie and Ada Treilock.

J. Rathburn of Chicago arrived in the city Saturday and will spend the next two weeks with John L. Bradford and wife at their camp near Lake Laurin, on the lakes.

The Oliver Iron Mining company's machinists and engineers held their annual picnic yesterday. A few friends were invited, as usual. The day was pleasantly spent in playing baseball and other games.

Mrs. Samuel Baker, W. A. Helms and Miss Amanda Harris of Niagara Falls are here visiting Fred Baker and wife. The former is Mr. Baker's mother and Mr. Helms is his wife's brother. They brought with them Mr. Baker's new Buick touring car.

Nearly 200 baseball fans accompanied the Ishpeming team to Marquette yesterday. The Marquette nine will play the Ishpeming team here next Sunday. The Marquette management desires to play off its postponed game here instead of at Marquette, and it is possible that this game will be arranged for Saturday.

D. E. Rice and wife of Calumet are in the city.

Howard Johnson and his sister, Miss Edith, and Miss Ida Burke left Friday night for the exposition at Seattle. Other Ishpeming people who left Friday for Seattle were D. T. Morgan and E. R. Nelson and Dr. E. G. Robbins. The latter was accompanied by his brother, Dr. N. J. Robbins, of Negauance. Will and George Newell, Jr., were also members of the same party.

More than a million acres have been reclaimed by the Dutch nation from the sea since the sixteenth century.

Have your piano tuned now. M. J. Olson, the piano tuner, will remain in the city during the summer months. Orders taken at Wm. Leininger's store. (7-25-14)

**FOR SALE**—Eight-room house, in good condition with two lots, 250 North Pine street. 7-25-14

### MARQUETTE LOSES PITCHERS' BATTLE

FIRST AND ONLY SCORE MADE IN THIRTEENTH INNING, FOLLOWING THREE ERRORS.

HONORS EVENLY DIVIDED

Clinton, for Marquette, and Goulette, for Ishpeming, Do Phenomenal Work in the Box—Features of the Game.

	W.	L.	P.C.
Ishpeming	10	2	833
Negaunee	9	4	692
Marquette	3	8	273
Munising	2	10	167

Marquette went down to defeat before Ishpeming by the score of 1 to 0 yesterday afternoon after a pretty pitcher's battle and exhibition of ball playing as one often sees anywhere. For thirteen innings, during the first ten of which not an error was made, the two teams battled before a runner was able to cross the plate. Clinton, the man from Boyne City, was in the box for Marquette, and held his own with Shields and a sacrifice hit, the only run of the game being made without a hit, on two errors by Richardson, one by Shields and a sacrifice hit.

Both pitchers did phenomenal work and divided the honors about equally. Clinton was as steady as a clock at all times and allowed but seven hits, did not issue a pass to first and hit but one batsman. He had thirteen strike-outs to his credit and deserved to win his game. His clever headwork made a great hit with the fans.

Although Goulette allowed but two hits during the game, he issued five passes and hit three batters and was not as self-contained as the Marquette twirler. He fanned nineteen men and held the game safe at all times, being given slightly better support than his opponent, especially in the last two innings.

#### How the Run Was Made.

The only run of the game was made by Catcher Leston, who got to first when Richardson fumbled his grounder to third. He was advanced to second by Goulette's sacrifice and a moment later went to third, when Shields muffed Clinton's throw to catch the runner off his base. Burke, the next man up, fanned, but when Richardson fumbled Simpson's easy grounder, Leston crossed the plate. McLaughlin went out on an easy fly to Young, retiring the side.

In Marquette's half of the thirteenth, it looked for a moment as if the score at least might be tied. After Clinton had fanned and Larcum had flied to Burke, Walsh was hit in the back by a pitched ball and got his base. By fast base running, he stole second and while Goulette was winding up to deliver a ball, Walsh pilfered the third sack. With Riopelle up, hope ran high and the crowd was breathless with excitement. He laid down a grounder along the third base line, and it looked as if he and the ball got to first base at exactly the same time, Walsh having raced home meantime, but Umpire Sharkey called Riopelle out and the game was over.

Marquette had good chances to score in the second and eleventh innings, but was unable to make the necessary hits. In the second, Young led off with a hit to left and went to second when Dunlavey drew a pass. Then, however, Goulette tightened up and fanned Richardson and Shields. An easy grounder to Goulette was the best Weiser could do and Young and Dunlavey were left at the second and first stations. In the eleventh, Walsh walked, stole second and went to third on Leston's wild throw. Riopelle flied to Main, Young fanned and Walsh was run down between third and the plate.

In the seventh it looked as if Ishpeming might score, when McLaughlin led off with a hit to left and Olson followed with a double to deep center. However, Riopelle bagged Laxstrom's short fly over third base, Heindel fanned and Main went out on a high foul to Walsh.

**Riopelle Had Busy Day.**  
Besides the two pitchers, Riopelle did exceptionally good work for Marquette and McLaughlin for Ishpeming. Riopelle accepted seven chances without an error, several of which were hard ones. McLaughlin had four assists and one put out to his credit, and made two of Ishpeming's seven hits. Walsh, who caught for Marquette, also played

a wonderfully steady and heady game, and did not allow a stolen base. The summary and score by innings follows:

Ishpeming—	A. B. R.	H.	P. O.	A.	E.
Burke, H.	6	0	1	2	0
Simpson, C.	6	0	0	2	0
McLaughlin, J.	6	0	2	1	4
Olson, H.	5	0	1	8	0
Laxstrom, R.	5	0	2	1	0
Heindel, J.	4	0	0	1	0
Main, S.	5	0	0	2	2
Leston, C.	5	1	0	21	0
Goulette, P.	4	0	1	1	3
	46	1	7	39	9

Marquette—	A. B. R.	H.	P. O.	A.	E.
Woodman, C.	3	0	0	1	0
Walsh, C.	3	0	0	16	1
Riopelle, H.	5	0	0	7	0

#### SECOND TEAM WON.

Big Bay Defeated on Home Grounds by Score of 9 to 6.

Marquette's second team easily defeated Big Bay yesterday at Big Bay by a score of 9 to 6. Smith twirled for Marquette, while Big Bay batteries were J. Coleman, M. Coleman and Jarard. Owing to the outfield being in a swampy condition, one base only was allowed on a hit. The summary is as follows:

Big Bay—	A. B. R.	H.	E. S. B.	S. H.	
Jarard, C.	5	1	2	0	0
J. Coleman, P.	3	0	0	1	0
M. Coleman, P.	3	3	3	0	2
W. Coleman, 2b.	5	0	3	0	0
Beerman, 3b.	2	0	0	1	0
Stevens, ss.	4	0	0	1	0
Henry, H.	3	0	0	0	0
Warren, cf.	3	0	0	0	0
M. Coleman, rf.	3	1	1	0	0
	34	6	10	3	2

Second Team—	A. B. R.	H.	E. S. B.	S. H.	
Ormsbee, ss.	5	1	2	0	2
Beaudin, 3b.	4	0	0	1	0
Pelky, lb.	5	2	2	0	1
Smith, p.	5	2	3	2	1
Hastett, cf.	3	1	1	0	0
Cody, 2b.	4	1	1	1	0
Dougherty, H.	3	0	1	0	1
Rosseter, c.	3	1	1	0	1
Blake, rf.	4	1	1	0	1
	36	9	11	3	10

Base on balls, off Smith, 5; off M. Coleman, 4; Coleman, 0. Hit by pitched ball, Beerman. Passed ball, Jarard, (3). Double plays, Smith to Pelky to Rosseter.

#### DIED OF HEART FAILURE.

Fred Siewert Passed Away Suddenly Yesterday Morning.

Fred Siewert, an aged and well-known resident of this city, passed away very suddenly at his son-in-law's, H. M. Zerb, home, 216 North Sixth street, yesterday morning about 6 o'clock, from heart failure. He had been feeling badly for about two months and early Sunday morning, being unable to sleep, was sitting in a rocking chair, where the end came so peacefully and quietly that no one knew anything was amiss until Mrs. Siewert arose for the day, to find that life was extinct.

The deceased was born in Wurzburg, Germany, May 24, 1837, and was seventy-two years of age. With his wife, who survives him, he came to America and Marquette in 1882 and has since made his home in this city. During that time he has been employed by the city a large part of the time, having worked at the city water works and more recently for the park, cemetery and street commission. For the past six weeks Mr. and Mrs. Siewert have been living at the home of their daughter and son-in-law, Mr. and Mrs. H. W. Zerb.

A widow and two children survive the deceased: Mrs. H. W. Zerb and Oscar H. Siewert, all residents of this city. The funeral will be held from the Zerb home Tuesday afternoon at 3 o'clock.

Drink Vandenberg's buttermilk—it aids digestion and improves the health. (7-2-1mo)

### GUILD HALL BOARD MAKES SOME CHANGES

MEMBERSHIP FOR NON-RESIDENTS MADE POSSIBLE AND OTHER MATTERS RE-ARRANGED—BOWLING TOURNAMENT.

The Guild Hall association has received numerous applications for the temporary use of its privileges by summer visitors. The managing board at a recent meeting made provisions for such cases by establishing non-resident membership upon payment of one-half the yearly dues for resident members. This will apply not merely to summer visitors, but to non-residents who wish to become members of the association, summer school students, etc. All non-residents remaining in the city six months or more in each year, such as Normal school students and faculty members of the Normal and high schools will be considered residents and expected to pay full membership dues.

It has also been decided to extend the privileges of the Guild Hall to non-resident guests of members for not to exceed one week, free of charge; but in such cases visitors privilege cards must be obtained from P. B. Spear, secretary, Morgan W. Jopling, treasurer, or from Mr. Heughens or Mr. Burt. It is not intended, of course, to prohibit a member from escorting through the Guild Hall a friend or someone contemplating membership. It is only when the visitor desires to use the privileges of the Guild Hall for a few days that the privilege card is required.

Until further notice class C members (women and girls over sixteen) will be allowed the concurrent use of the alleys each week day from noon until 3 p. m. The bowling alleys are being well patronized this summer and a bowling tournament is now being arranged, which will continue during the month of August.

It has also been decided to restrict somewhat the use of the gymnasium and plunge room by class D members (girls under sixteen). Hereafter they will be allowed to use the gymnasium and Saturday mornings only. They will not be allowed to use the gymnasium before 10 a. m. nor the plunge before 10:45 a. m. This arrangement will give the married women and older girls the exclusive use of the gymnasium and plunge room on Tuesday and Friday mornings and also create suitable and proper supervision for the younger girls in their use of the gymnasium and plunge room.

The classes conducted by Mrs. Lundstrom and Mr. Heughens are being well attended in spite of the warm weather. Mr. Heughens is at the Guild Hall each evening, except Sunday and Friday, and every week day afternoon, and will be pleased to give individual instructions in gymnastics whenever it does not interfere with class work.

#### SOO CANAL PASSAGES.
