

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Those Tigers will have to watch a needle out.

Public sentiment in Chicago generally favors the settlement of the differences between the street car employes and the companies without a strike.

There have been many expressions of pleasure that former Representative Darragh has decided to become a candidate for lieutenant governor.

Chief Shippy, of the Chicago police department, has resigned, after being off on furlough because of ill health for some months.

Marquette's giving Wednesday's game to the Soo may be regarded in the light of Chesterfield courtesy.

The conference report on the urgent deficiency bill, carrying the item for automobiles for the speaker and vice president, was approved.

Our coinage has been giving us lots of trouble of late months. The stir over the suppression of the "In God We Trust" motto from one of the new gold coins, on executive order, and the action of congress in ordering that it be restored.

At Beverly, Mass., President Taft will alternate golf, automobile driving and social duties with work on his message to the regular session of congress.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Capital and Surplus... \$200,000.00 DIRECTORS: Jan. Chynoweth, Jacob Bear, G. B. Campbell, H. L. Bear, Jno. D. Cuddihy, Joseph Bosch, Lessing Karger, Chas. Briggs, Norman W. Haire, James Mercer, L. H. Richardson, Allen F. Rees, Chas. L. Lawton, Geo. Ruppe, S. L. Lawton, Thos. Whittle, C. A. Wright, Ferd. Wieber.

measure of protection, at least. This is obviously the case, for had they not fairly convinced the president of the justice of their contentions it appears certain that his ultimatum to the conference committee would have contained a demand for free hides and the \$125 schedule on rough lumber, and he would have obtained it as certainly as he obtained the other things he sought.

A modest "Payne for senator" boom is said to be one of the consequences of the tariff bill. Payne is suggested by some of his friends as a good man to elect to succeed Senator Depew, who is marked for retirement at the expiration of his present term.

The declaration of the voters of Cleveland in voting down the Schmidt franchise grant, favored by Mayor Johnson, was a declaration for peace in the long continued traction fight.

At Beverly, Mass., President Taft will alternate golf, automobile driving and social duties with work on his message to the regular session of congress.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

PROHIBITION AND THE REVENUE. A statement comes from Washington that the recent wave of prohibition has cost the government \$7,991,978.42 during the fiscal year ended June 30, 1909.

Major Deplores Council Nonsense. Mayor Solomon Greenbush declared at the meeting of the Escanaba common council this week that the sessions have been too full of foolishness and talk and warned the aldermen that in the future he would expect less of what he labeled "nonsense."

Andrew Johnson, a workman at Palm-quist's camp, near Crystal Falls, lost his finger in a queer manner the other afternoon. Anderson and his partner took a day off to fish in Tohin lake.

The attendance at the Menominee High school this year will break all previous records, according to statements made to the board of education.

THE REJECTION OF THE SCHMIDT FRANCHISE GRANT BY THE CLEVELAND VOTERS WAS A DEFECT FOR TOM L. JOHNSON, BUT OUT OF THE WRECK THE JOHNSON PLATFORM EMERGES TRIUMPHANT.

At Beverly, Mass., President Taft will alternate golf, automobile driving and social duties with work on his message to the regular session of congress.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

Upper Peninsula

Text Books at Cost Price. Definite arrangements have been made by the Escanaba board of education by which all pupils of the public schools in the city will be able to purchase their text books at cost, plus five per cent to cover the cost of freight and drayage.

Major Deplores Council Nonsense. Mayor Solomon Greenbush declared at the meeting of the Escanaba common council this week that the sessions have been too full of foolishness and talk and warned the aldermen that in the future he would expect less of what he labeled "nonsense."

view with him, in which he gave out that the capital he was representing was going to construct a line of railway from St. Ignace to the Soo. He declared that much money would be expended in the Soos in the construction of the road as well as the building of huge elevators, for the storage of the wheat from the Canadian northwest, which would pass over the proposed road.

Drastic Saloon Ordinance. By far the most important feature of the meeting of the Sault Ste. Marie common council this week was the introduction of the draft of a new saloon ordinance by Aldermen Purvis and Lapsch. In brief, it would reduce the number of saloons to one for each 500 inhabitants, limit the district and raise the license to \$1,000. It was referred to the ordinance committee.

Andrew Johnson, a workman at Palm-quist's camp, near Crystal Falls, lost his finger in a queer manner the other afternoon. Anderson and his partner took a day off to fish in Tohin lake.

The attendance at the Menominee High school this year will break all previous records, according to statements made to the board of education.

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me. I grew stronger and within three months I was a perfectly well woman."

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots, herbs and seeds of pure vegetable origin.

THE VETERAN HAD HIM. "Were you ever in prison?" demanded the prosecuting attorney insinuatingly. "Yes, sir," admitted the gray-headed witness for the defense.

At Beverly, Mass., President Taft will alternate golf, automobile driving and social duties with work on his message to the regular session of congress.

Representative Young, who is home from his extended stay in Washington, says that President Taft agreed to the fifteen-cent tariff on iron ore because the members of congress interested in obtaining some measure of protection for this product were successful in persuading him that it was entitled to that measure of protection.

Copper Country

JEALOUS HUSBAND USES GUN.
Near Tragedy Enacted at Osceola Early on Wednesday Evening.

Prompted by a long harbored hatred, it is alleged, John Elias of Osceola Wednesday evening fired five shots at John Berinder, alias Romedee, one of the bullets taking effect in the left lung and inflicting what is likely to prove a mortal wound.

Berinder says that he was riding home on a bicycle and that Elias, who had evidently been lying in wait, stepped out into the road and fired at him with a revolver. Deputy Sheriff Vivian and Officers Wills and Sheridan went in pursuit of Elias, who is believed to be hiding in the woods, but up to a late hour yesterday they had not succeeded in capturing him.

An unusual chain of circumstances led up to the shooting, according to the story, and the trouble which had its culmination in the tragedy appears to have centered about a woman, Elias' wife. It is related that Berinder went to a young woman in Bulgaria, his native land, inducing her to come to Osceola to marry him.

The body of Mike Paklink, the twelve-year-old boy lying near the Isle Royale abandoned mine, which had been missing for upwards of a month, and who, it was believed, had lost his life by falling into a cavern of the old Huron workings, where he had drowned, was found Wednesday night at 8:30 o'clock in one of the abandoned shafts which had been pumped out by the Isle Royale Copper Company in the effort to locate the remains. The body was found by John Tomkovich, an employe of the mining company, who had been conducting the search ever since the workable shafts were explored for the year.

FIND BODY IN SHAFT.
Remains of Paklink Boy Located in Abandoned Mine Working.

The final business session of the Upper Peninsula Medical society, held at Calumet, it was decided to accept the invitation of the Saint Ste. Marie physicians and meet at that city in a special convention next year. Dr. E. T. Abrams of Dollar Bay was elected president for the coming year, and to him the retiring president, Dr. A. W. Hornbogen of Marquette, turned over the solid, but unexcused, golf club of the retiring president.

S.S.S. HEALS SORES AND ULCERS

S. S. S. heals Sores and Ulcers in the very simplest way. It just goes right down into the blood and moves the cause, and the place is bound to heal because the impurities and morbid matters which have been the means of keeping the ulcer open are no longer absorbed from the blood.

External applications of salves, lotions, plasters, etc., can never produce a cure because they do not reach the source of the trouble. At best they can only delay pain or reduce inflammation; such treatment is working on symptoms and not reaching the cause. Every nutritive corpuscle in the blood is weakened or infected, they cannot nourish the fibrous tissue around the sore, but instead they constantly discharge into the flesh around the sore a quantity of impure, germ-laden matter which gradually eats into the surrounding healthy tissue and causes the ulcer to enlarge.

Since impure blood is responsible for Sores and Ulcers, a medicine that can purify the blood is the only hope of a cure. S. S. S. has long been recognized as the greatest of all blood purifiers, possessing the qualities necessary to remove every impurity from the blood. While curing the sore or ulcer S. S. S. brings about a healthy condition of the flesh by supplying it with rich, healthy blood, and thus makes the cure permanent and lasting. Book on Sores and Ulcers and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

MINING NEWS

CENTENNIAL.

The steady improvement in Centennial underground conditions for quite a year past and particularly confined to the ground north of the No. 2 shaft and below the twenty-fourth level has again become a subject for discussion in the minds of the mine officials. The automobile section has been placed in the charge of Frank Sody, and he expects to line up about forty of the machines, most of them being cars. These will carry timber, cement, business men, trustees and officials of the villages of Red Jacket and Laurium and of Calumet township, mining company officials, young ladies and others.

ASHLAND YACHT IN PORT.
The Crest of Ashland was in Portage Lake waters yesterday, enroute to Thunder Bay with a party of distinguished visitors. The yacht had aboard William Verder, of Ashland; Theodore Verder, a son of the former and commander of the naval brigade of Ashland, and wife; Edward Verder and daughter of Charles City, Ia., and Dr. and Mrs. Bishop of Minneapolis. At Thunder Bay Commander Verder will take part in the maneuvers of the naval brigade of the great lakes. He will make a selection from the training ships present, which boat will later be assigned to the Ashland division.

PLANS FOR SKANEHOLE SCHOOL.
The plans for the school building to be erected at Skanehale have been completed. They show the building to be a frame structure and quite ornate though not decorated or planned in a very lavish style. The building will be capable of seating two hundred pupils in the four classroom rooms which are planned for the structure. Bids for the construction will be asked at once. The work will be rushed to completion, and if possible the school will be made ready before the winter sets in.

PLAY FOR THE GOODELL CUP.
There were eight contestants who participated in the match for the R. T. Goodell golf trophy at the Municipal Golf Links Wednesday afternoon. The results were as follows: Thompson beat Hudson, Pryor beat Moss, Dean beat Hubbard and Byrnes beat Robinson.

TELEPHONE MANAGER RESIGNS.
J. C. Babbitt, who came to Houghton a few weeks ago from Marinette to take the management of the Michigan Telephone service in this district, has resigned and will leave as soon as his successor arrives from Detroit to assume the duties here.

THE AUTOMOBILE IN POLITICS.
The automobile persists in thrusting its throbbing way into politics. It has figured in the expenses of the Tammany government of New York, whose politicians, according to the records of municipal machines from the dull creek of street cleaning and police inspection to the suburban delights of joy rides to Coney Island. This is the most innocent disposition that, perhaps, has ever been attributed to the myriads of the Wisconsin, that persistently takes its financial revenge for the absurd price paid by the settlers to the aboriginal real owners of Manhattan real estate.

OHIO COPPER.
It is reported that there is a strong likelihood of the Cole-Ryan interests taking over the Ohio Copper property from the present management at a price which will permit of substantial profits to the syndicate which purchased control from the syndicate. The price paid by the syndicate averaged 83 1/2 per cent. The new interests apparently have had

LAKE.
The future of the Lake mine is regarded as assured, owing to the wonderful showing at the fourth level. This property had a tremendous amount of prejudice to overcome because it is located in Ontonagon county, where the only profitable operations were in some old deposits of limited extent in the earlier days. Every geological fact that Lake holds in another geological area, entirely remote from the geological area of the less successful mines of the county, did not save it from adverse prejudice. But now it is being appreciated that this is something different from anything Ontario county has ever known before and sentiment has almost entirely swung in its favor.

EAST BUTTE.
An interest close to the management of the East Butte, in discussing the company's position, says that "East Butte affairs are rapidly rounding into such shape that the better metal market condition expected this fall will be of particular benefit to the property. Stories of an expansion policy of the Amalgamated with rumors of the acquisition of the East Butte, Daily, North Butte and other properties may have some basis of truth, but as yet there is nothing of substance on which to base such an assumption, and it is quite sure that no such proposition has been considered by the officials of the East Butte company. They are going ahead with the development work rapidly and the production is going to show a very good increase within a short time. In the meantime the ore showing is better than any time in the history of the property."

ADVENTURE OF A SUNFISH.
Jonah's Experience With the Whale Depicted in Pennsylvania.

The aggravating independence of the black bass in Sand Pond on our way," said Hon. Thomas James Ham, editor of the Citizen at Honesdale, Pa., "is exceedingly odd in the case of the pickerel in those waters, unless it may be by the tenacity of life of the sunfish. Judging from a little Jonah and the whale sort of play by one of those pickerel after a sunfish, that I witnessed on catching our large bass, I am entitled to ranking place.

NOTES OF COPPER NEWS.
The directors of the Aradian company have voted to try an assessment of \$1 per share, payable in two installments of fifty cents each. The first payment will be due Sept. 1, and the second March 1, 1910. A contract by which diamond drilling will be started at once has been awarded.

PROBLEM OF OLD MEN.
The present age of marvelous progress is especially hard on old men. The means and methods by which they were brought up and taught to maintain themselves has long since been cast aside, almost like rubbish in many cases. The service that they rendered by hand is now performed by sprightly boys and girls or by machinery, or no longer needed to be performed. They are too old, or their joints too stiff, or their eyes are too dim to master the new methods or to make the showing in fads and fashions that is sometimes required.

FOOLED HIM.
Katie, who had been taught that the devil tempts little girls to robbery, was left alone in a room for a time one day, with the admonition not to touch a particularly delicious plate of fruit that stood on the table. For a while she bravely withstood the temptation. Finally, however, her resolution wavered and she took a big red apple from the plate. She walked away with it, but before putting it to her lips her courage returned, and she quickly replaced the apple on the plate, saying as she did so, "Ah! Mr. Devil, I fooled you didn't I?"

Artistic Monuments
COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE.
Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. **WHITE BRONZE** is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. There why not invest in "White Bronze"? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

City Brevities
Today's weather: Showers; station temperature.
Yesterday's temperatures: Seven a. m., 74 degrees; noon, 81; 7 p. m., 72. Maximum, 82 degrees; minimum, 72.
F. S. Byrne left for Chicago last evening.
The U. S. light house tender Anamirath sailed at Spear's dock yesterday.
W. H. Elliott will leave this morning to visit his parents at Bruce's Crossing.
Miss Sadie McNally, of Superior, Wis., is visiting Mr. and Mrs. Isadore Varenbrook.
The Ladies' society of the Swedish Lutheran church will meet in the church parlors this afternoon.
Miss Katherine B. Libby, of the Normal school faculty, left last evening for her home at Mapleton, Minn.
Miss Turner, of the Normal faculty, is entertaining her mother and sister at the home of Rev. J. M. Rogers.
Wm. M. LeMoine, who has been spending some time at Huron Mountain club, returned to Chicago last evening.
Mrs. Joseph L. Norman and son Howard, of Kansas City, Mo., are visiting her cousins, Mrs. Lizzie Moffatt and Mrs. John J. Oegan.
Rev. Oscar Sandahl has returned from a short visit in Calumet and, having completed his vacation, will occupy his pulpit next Sunday.
Ralph Lehner and sister, Miss Edith, of Waukegan, Mo., and Miss Anna Lehner, of Berlin, Mo., are visiting at the home of Mrs. Sarah Lehner, High street.
Yesterday was the last vacation day of the Normal summer school and most of the students left for their homes last evening. The term will formally close today.
A party of forty or more students of the Michigan College of Mines are spending two weeks in the city studying the rock formations and other things in this locality of interest in their work.
A committee of Marquette Masons went to Negaunee last evening to complete arrangements for the Marquette county Masons' picnic to be held at Presque Isle, some time in the near future.
Mrs. Wm. Sandell is entertaining Mrs. Horbert Van Aiken, of Munising; Mrs. John Kenny, of Harvey; Mrs. Jurnstall and Mrs. Maud Jurnstall, of Ishpeming; Mrs. Wm. Hults, of New Detroit; and Dr. Ray, of Bloomington, Ind., at her camp at Pickered Lake.
J. Winter, of Goshen, Ind., is in the city and has on display at Manhard's hardware store a fireless cooker, of which he is the inventor, which is attracting much attention. Mr. Winter formerly lived in this city and is said to have a fireless cooker that is superior in many ways to any other on the market, especially in that food can be put in or taken out of the cooker without interfering with its operation.
With the Ore Carriers—At the L. S. & L. dock the Carnegie cleared for Buffalo and the Pioneer for Cleveland. The Angelina and Wade are loading today. At the South Shore dock the F. W. Gilchrist and Chattanooga cleared for Cleveland. The Centurion unloaded coal at the Pickands dock yesterday.
Now the City Property—The deed turning over the sand lots at the foot of Hewitt avenue, about which there has lately been so much controversy, to the city was filed yesterday by the Northern Land company. These lots were purchased over the mayor's veto at the last council meeting and have been the bone of a great deal of contention.
Golf Club Meeting—There will be a meeting of the members of the newly organized Golf club this afternoon at 5 o'clock. Officers will be elected and the articles of association and by-laws will be submitted for consideration. An expert has laid out the links on the West Washington street grounds and it will be possible to begin play next week.
Sewer Is Blocked—Residents of Front street, between Arch and Bridge, are requested to be as sparing as possible in running water into the drains in the houses, as the main sewer is blocked at a point near Fraternity hall, where it will be necessary to excavate. To get at the sewer the concrete between the street railway tracks will have to be removed.
Soliciting for Lecture—A representative of the Sheldon School of Salesmanship, of Chicago, is in the city soliciting among the merchants and a lecture on salesmanship and success in business will be given by a member of the school faculty, provided sufficient funds are subscribed. One of the merchants stated yesterday that he believed such a lecture would be of value to both himself and his clerks and for that reason has subscribed \$5 to the project.
Back from Medical Meeting—Dr. A. W. and H. J. Hennigson, Dr. Harkin and Dr. H. M. Cunningham returned yesterday from Calumet, where they attended the meeting of the Upper Peninsula Medical society. They report a very successful meeting and that sixty-two physicians were in attendance, which is an exceptionally large representation of medical men. Wednesday afternoon the doctors enjoyed an automobile trip over the South Range and visited the Painesdale hospital.
Building Nearing Completion—The Hager building is gradually nearing completion and the carpenters were laying the ground floors yesterday. The windows and doors have been put in, the floors in the upper stories laid and the stairways built. The electric wiring is now being done, and with the exception of installing an elevator, the structure is practically finished. Hager Bros. expect to occupy the building before Sept. 1.
Arrangements Completed—All arrangements have been completed for the second annual basket picnic to be given by Marquette council, No. 1884, of C. to be held at the grove at Eagle Mills, Sunday Aug. 8. A fare of twenty-five cents for adults and fifteen cents for children has been secured over the D. S. & A. railway. Those attending will leave the South Shore depot on the regular train at 8:35 a. m. Returning tickets will be good on all the afternoon trains. Care Boys' band will be there with the music. Coffee, sugar and cream will be served free on the grounds by the committee.
Has Nice in Buffalo—From letters found in the trunk of Frank Moore, who

Upper Peninsula
Manistique Barroom Plundered
The other morning when the proprietors of the American House, at Manistique, went into the office to open up, they found the door leading to the saloon unlocked. Entering the barroom they found checks scattered about the floor and the cash register open and cleaned out of every last penny. The thief also had taken a gold watch and the back bar, valued at \$90. All the outside doors were locked. The amount taken in cash is thought to be about \$100.
Drink May Cost Him Liberty
Because he broke his promise to Judge Stone, shattered a five-year pledge at the same time and made the occasion of breaking them as conspicuous as possible, Joe Powers of Escanaba is threatened with a term in Marquette prison. The man was arrested some time ago on a charge of theft. Judge Stone suspended sentence upon his promise to leave liquor alone for five years. This week Powers decided that he couldn't stand the strain, and he broke his pledge. Lord gutteral cry and jig-saw progress down the sidewalk marked his advent upon the streets, whereupon the police gathered him in and Judge Linden fined him thirty days. It is likely that he will be held to await the next session of the circuit court.
Violent Assault in Escanaba
Because he was in the habit of bringing Italians to Escanaba from Chicago and finding them work at the various lumber camps, Neal Gallagher was badly beaten up and his assailant, Dave Semer, paid a fine and costs in the court of Justice Glaser. From the testimony given in court it appears that Gallagher walked into a saloon, early in the morning, with an Italian in tow. Semer walked over, called Gallagher a few choice epithets, referred to him as a Beaver Island production and started in to mop up the floor with his enemy. From the appearance of the man's jaw and the hue of a handkerchief, Semer succeeded pretty well, and Gallagher left the place badly beaten up. He swore out a warrant before the justice and Chief Rowe gathered Semer in. Semer declared that Gallagher was in the habit of bringing in foreign laborers of a low class and that the loggers were becoming tired of the practice. He paid the fine and costs.—Escanaba Mirror.

Sad Sequel to Fatality
A sad sequel to the automobile accident which occurred at Birch Creek a week ago Saturday and in which three people of Escanaba were killed, is the death of Theodore Hessel, aged twenty-one, at St. Joseph's hospital. Hessel, who was a paralytic and slightly feeble minded, herded cows. The day of the accident he was in the vicinity of Birch Creek and was an eye-witness of the fatality. He went home, all unstrung and hysterical and since that time had brooded over the affair, each day growing worse. Sunday his mind seemed to become entirely unbalanced, and he commenced to rave over automobiles, exclaiming that they were passing over him. He begged his mother to keep them away from him. Dr. Mariner was called and found that the man had become a raving maniac. He was kept at his home for a time and then it was found necessary to take him to St. Joseph's hospital, where he died. People who saw and heard him declare that his ravings were terrible. He seemed possessed of the idea that automobiles and detached wheels were running over him, and pitifully pleaded that they be stopped. Dr. Mariner stated that the excessive heat of the past week had much to do with his death, and that his naturally weak intellect was entirely unbalanced by brooding over the sight of the accident which he had witnessed. Hessel had long been a familiar figure to the people of Menominee. He could be seen every morning and evening, swinging along with a sideways motion behind his herd of fifteen or twenty cows.

THE GOOD LISTENER
Of a well-known New York artist who died a few days ago a fellow artist said: "He was a very delightful man. He was a good listener, who always saw his work." Not a word about his work, though it is admittedly good; not a mention of his professional standing or personal character, which were high; only the comment, "He was a good listener."
Other men can paint and do many things well but only occasionally is one to be found who listens well, and this characteristic of the artist in question impressed itself upon those who knew him as a distinguishing one, and will make a part of their pleasant memories of him.
It is not surprising that this is so. To listen unobtrusively and with direct and seemingly absorbed attention to what is being spoken is an art and an accomplishment whose acquirement is too often neglected even by men and women who fancy that their manners and deportment are faultless. The good listener is popular because in his attitude of concentrated attention is subtle flattery. The speaker feels that he is saying something worth while and out of the inspiration rises to the occasion and really shines at his brightest. The listener may be a good talker himself, brilliant, witty, unobtrusively brilliant, but he must indulge himself in this direction only when no one else is interfered with.—Indianapolis Star.

The Great Lakes Trip
A little journey on the inland seas is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.
Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.
The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and Sault Ste. Marie, and two trips weekly between Detroit, Bay City, Saginaw and Muskegon. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Goderich, Ont., every other trip. Special daylight trip between Detroit and Cleveland during July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address: L. G. Lewis, G. P. A., Detroit, Mich.

TREBILCOCK AWARDED A BIG CONTRACT

ISHPEMING CONTRACTOR WILL LAY 3,100 LINEAL FEET OF CONCRETE WALK FOR THE CITY AT COST OF 12 3/4 CENTS A FOOT.

At the meeting of the council Wednesday evening, William Trebilcock was awarded a contract for the construction of 3,100 lineal feet of concrete walk on South Pine and West Division streets. The price to be paid per lineal foot is twelve and three-fourths cents, which will make a total expenditure of \$1,066.25.

The walk on South Pine street will extend from a point near the Olive street Mining company's office to the street car terminal at Lake Angeline. The present board walk is in bad condition and at several points, particularly on the south end, it cannot be used.

Peter Munson was awarded a contract for the construction of six lateral sewers extending from the main to lot lines on North Third street. When these are in all of the lots between Empire and Park streets will be ready for connection with the system. Mr. Munson's price is fifty cents per foot for the work extending to lots Nos. 33, 34, 37 and 38 and sixty cents per foot to lots Nos. 47 and 48.

Alderman Hulst, advised the council that an agreement had been reached with Howard A. Heyn, George F. Thoney and others, who, at a previous meeting, asked that 250 feet of Empire street, from First street west, be graded and macadamized. The committee recommended that the work be done this year, provided there are sufficient funds in the highway department to meet the expense after other jobs ordered have been completed. The committee also recommended that North Second street, from Empire to Michigan, be macadamized under the same conditions. The recommendations were concurred in.

Alderman Malloney recommended that the petition of J. F. L. Johnson, of East Bank street, asking permission to build a fence close to No. 4 horse house, be denied. The committee found that the building of the proposed fence would mean an inconvenience to others in that neighborhood, who use the passage-way between the building and his lot line. The board of public works was instructed to repair the wall under the west side of No. 4 horse house. Alderman Malloney also called the council's attention to the fact that the foundation of the fire department's main building is in need of repair. The matter was referred to the committee on buildings, grounds and insurance, together with the mayor.

The trustees of the Finnish Apostolic Lutheran church petitioned the council for the customary rebate to church organizations on the cost of constructing the concrete walks at the church. On recommendation of Alderman Malloney, seconded by Alderman Gill, the usual 20 per cent will be deducted.

Rev. E. P. Bordas, pastor of St. Joseph's church petitioned the council in behalf of his congregation for an extension of the sewer about 100 feet west along Washington street, from the corner of South Lake to Johnston, so that the church property may be connected with the system. The petition was referred to the committee on sewerage.

John George and nine others petitioned for an new lamp near the railway crossing on Washington street, where the Chicago & Northwestern, South Shore and Lake Superior & Ishpeming railway companies have tracks. The petition was referred.

USING NEW TRACKS.

The Chicago & Northwestern Railway company is completing new tracks to the Lake Angeline mine, along the north side of the Section 16 mine stockpile, and between the hole caused by the cave-in a year ago last December and the houses on the south side of South Pine street. One of the three tracks is now in use and the other two will be connected with the South Shore's former main track within a few days. The spur shortens the run necessary in delivering cars to and bringing loaded trains out of the Lake Angeline mine; it also reduces the number of trains passing over the track leading through the Oliver yards and connecting with the main line near the Barnum. It is now possible to haul the cars from the Lake Angeline and other properties in that vicinity around the horn, so that the railways have two roads over which to operate. There has been no settling of the ground to speak of in that vicinity since the opening of the road by using used, considerably in spite of the fact that it is not an established highway. The road cuts off more than a mile of the distance to the Wintrop, but people passing over it are taking their own chances, as there are no warning signs displayed warning pedestrians and drivers not to pass over the ground.

And the smile of a good woman will do a man more good than a dozen handed to him by a bartender.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the system when entering it through the mucous surfaces. Such articles should never be used except on prescription from a reputable physician, as the damage they will do is tenfold to the good you can possibly derive from them. **Hall's Catarrh Cure**, manufactured by F. J. Cheney & Co., Toledo, O., acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free.

LOW RATES TO THE FIREMEN'S TOURNAMENT.

ISHPEMING

FROM MORGAN'S CURB LETTER.

Trading in coppers was rather mixed today, although prices held very well, and in some instances showed substantial gains. It is an encouraging feature and worth of note that the market becomes dull and little stock comes out on declines.

Table with 2 columns: Stock Name and Price. Includes items like Ahmeek, Arizona & Michigan, Butte & Superior, etc.

ISHPEMING IN BRIEF.

William Leininger and his family are enjoying an outing at Camp Lauric. Miss Eugenie Headstein is here from Chicago on a visit to Mrs. Agnes Viking and family.

Negaunee Department

NEGAUNEE LOSES IN LISTLESS GAME

YESTERDAY'S CONTEST WITH THE SOO TEAM WAS A SLUGGING MATCH, WITH COSTLY ERRORS ON NEGAUNEE'S SIDE.

Seal Murray, twirler for the Soo baseball team, had the satisfaction of winning against the Negaunee players, his former team mates, in the game yesterday afternoon at the Union Park grounds, by a score of thirteen to eight.

Negaunee had the game within its grasp in the first two innings, but lost it by poor playing on the part of Negaunee men. The error was made in the first inning, when the Sox scored six runs.

During the four and two-thirds innings Seibelenthal pitched he was touched for six clean hits. He was taken out of the box in the fifth, after the Sox had scored six runs. Only two hits had been made off him in that inning.

Change Front Reluctantly. Of course, they were quick in most instances, to govern themselves according to the now dominant authority. Some, however, have changed front reluctantly, because they believe the change unwise.

Explains Recent Shake-up. The new regime is responsible, at bottom, for the shake-up that has been in progress in the department of commerce and labor in recent weeks and which has extended down to the clerical forces.

Issue Arose Over Woodruff. Some weeks ago, when President Taft nominated George W. Woodruff, assistant attorney general of the interior department during the last two years of the Roosevelt administration, as federal judge in Hawaii, the senate judiciary committee, in hesitating about his confirmation, raised as an objection his alleged decisions in the department that certain things could be done because they were not expressly prohibited by statute.

He Explained. At a school one day a teacher, having asked most of his pupils the difference between an island and a peninsula without receiving a satisfactory answer, came to the last boy.

LOCAL LACONICS. H. H. Pomeroy of Duluth was a lusty member in Negaunee yesterday. J. R. McDonald, the internal revenue collector for this district, was in the city yesterday.

The Negaunee Light Infantry will conduct a dancing party Saturday evening at a hall in the Kirkwood block. An orchestra composed of members of the Light Infantry band, organized last week, will furnish the music.

A LAUGH OR TWO.

A Liberal Morality.

Joseph Widener, the young Philadelphia millionaire, was entertaining a party of Anglo-Americans at luncheon at the Ritz in London.

The day was mild and sunny and the French windows of the beautiful restaurant stood open on the green park and Piccadilly. A limousine glided swiftly past a Devonshire house, a well-known American millionaire sat in the sumptuous car, and Mr. Widener, nodding toward the man, said to his neighbor:

Mouths Full of Money. Willour Wright, on the broad green plain of his school of aviation at Pau, talked about his early struggles.

FRANCHISE GRANTED. Cleveland-Cliffs Iron Company Given Right to Construct Electric Line.

At the regular monthly meeting of the city council last evening the ordinance granting the Cleveland-Cliffs Iron Company the right to construct and operate an electric transmission line within the city limits was granted by a unanimous vote.

A Proper Youth. When the stringed band, hidden behind the rose and carnation screen in Mrs. Peole's dining room, began to play an air from one of Meyerbeer's operas, the daughter of the house turned suddenly to the young man and apparently dumb stranger who had been told to take her in.

Supposing He Vocalized? A gigantic private in the army was brought before his commanding officer one morning, charged with being disorderly in the public street.

Not From Indiana. Speaker Cannon is from Illinois, and is a thoroughbred Illinoisan in sentiment and feeling. And more than that, he don't care a hang who knows it, still further, he has a violent prejudice against being mistaken for a Hoosier, as was evidenced, according to the story that is told, when he was on his way to Washington to attend the last special session of congress.

WOOD WASTE DECREASING. Federal Forest Service Takes Up a New Line of Conservation.

Washington, Aug. 5.—The waste of wood continues to diminish and pass away. A Massachusetts manufacturer of brush recently made a discovery in Maine which supplied him with material exactly suited to his purpose. He went to the Pine Tree state to buy wood for the backs of hair brushes and the handles of shaving brushes, and chance to visit the yards of a spool maker who was using split-birch. The spool maker took the white part of the wood only and was throwing away the red hearts. Thousands of cords had been burned or dumped in the lake to be rid of it.

ALEXANDRA'S FAVORITE ROOM. Queen Alexandra's favorite room is her boudoir at Sandringham. There she follows her own tastes without court dictation and she affectionately talks of her boudoir as "home." The walls are in apple green and white and the furniture is of the Marie Antoinette style. There is a brie-a-brac collected by the queen herself on all corners of Europe. Everything in the room is of her personal selection. She passes most of her leisure time there, usually alone or with her friend and confidante, Charlotte Knollys. Tea is always served at 5 o'clock in the boudoir, the queen herself pouring out the tea for her women guests.—Tit-Bits.

FAIRLY LARGE CROP OF FINE QUALITY

SUCH IS THE REPORT OF BLUEBERRY BUYERS NOW IN THIS CITY MAKING PURCHASES.

FEW OFFERED FOR SALE

Pickers Are Scarce and Market Is Dull, Owing to Unusually Good Fruit Crop Throughout Country.

L. L. Ferguson, of Chicago, and W. M. Schumacher, Eau Claire, Wis., the well-known blueberry buyers, are now in the city negotiating for this year's crop, but report that but very few berries have been offered there for sale as yet.

Mr. Ferguson is especially well known in this vicinity, having bought blueberries in Marquette every year since 1876 with the exception of two.

He is not so much interested in buying a large quantity of berries as in getting those of nice quality and packing them in such shape as to command the top price. He does not send his cases out to the pickers, as is the custom of many buyers, but carefully resorts and picks his berries here.

Another matter that Mr. Ferguson called attention to when interviewed yesterday was that many buyers are packing their berries in three-fourths quart boxes, whereas he uses seven-eighths quart boxes, which makes a difference of about three quarts in the amount of berries in a case, containing sixteen boxes.

Mr. Ferguson states that he believes the crop in this locality will compare very favorably in size with those of the last few years, and even more favorably in quality. The market, however, is very dull, owing to an exceptionally good crop all over the country, not only of blueberries but of all other kinds of berries and fruit.

The berries in this locality will not ripen as early as usual and near this city they are more backward than in other parts of the peninsula.

The berries in this locality are much better for shipping than those of some other regions, as they do not get soft and mushy easily. Some of the nicest berries, it is said, will not keep in the boxes more than two days, while those that grow near Marquette will keep two weeks, if properly packed and cared for.

Mr. Schumacher, the other berry buyer mentioned, also has a large acquaintance, having bought blueberries in Marquette since 1888. He also states that the crop is an unusually good one all over the country and that the market is sluggish with rather heavy receipts in the large markets, although but few have been offered him for sale.

More Information Needed. State Does Not Know Nature of Lands It Has to Sell.

"Forests and land do not make a state," said State Land Commissioner Huntley Russell recently. "That is one reason why this department wants to make plans which will enable it to tell right at this office what is the exact nature of all the state lands."

The exact nature of these plans has not been fully worked out, but an attempt is to be made to interest the Michigan Agricultural college authorities. Through the assistance of these experts, the value of land for agricultural purposes can be known.

Nice fresh pond net whitefish and trout today, at Hathway's. (8-6-11)

FACIAL TREATMENT. Miss Hollie Oster, Werner block, removes superfluous hair, moles and warts by electric needle. Ladies' and gentlemen's manicuring. Bell phone 61. (7-10-11)

BASEBALL HERE TOMORROW.

Marquette and the Soo Will Meet in a Second Game at the Fair Grounds.

The baseball fans of the city are promised another interesting week-day exhibition of the national game. The Sault Ste. Marie and Marquette teams will try conclusions again. They will meet on the diamond at the fair grounds tomorrow afternoon. The game will start at 3:15 o'clock. Captain Scholtus will be on the slab for Marquette, and as he is in fine fettle it is the confident expectation of the team that the tables will be turned and that this time victory will rest with the Queen City players.

NURSES ARE ANGRY.

Strike of Attendants at Newberry Asylum Is Threatened.

A strike among the nurses and attendants of the upper peninsula state hospital for the insane is planned. The war between the superintendent of the asylum and the nurses and other attaches grows out of the refusal of the latter to comply with a new rule eliminating the regular weekly half holidays heretofore allowed them.

"We will refuse to comply with the new rule," said one attendant. "We will go to headquarters in a body and demand our half holiday back. If this is refused we will resign forthwith." "We work fourteen hours a day in this institution at 8 o'clock at night and are off duty, and we must be in our respective cottages at 10 o'clock. We have to secure special permission to leave the hospital grounds after 8 o'clock. The asylum is situated two or three miles from the town, and there are no accommodations for reaching the city as a matter of fact, in the two hours given us there is not time to go to town and back. The life in the asylum is strenuous enough even under the old provision. We have nothing in the way of amusement, not even a reading room, and some of the attendants are required to sleep four in a room."

MICHIGAN ON THE DEATH MAP.

Statistics of Fatal Diseases in Different Parts of the Country. An official death map has been prepared under the direction of the census bureau. It shows that causes of death are largely a matter of geography, and the twenty-one districts into which the country is divided mark the limits of different regions where various diseases are most ravaging.

The most sensational deaths occur in the Pacific coast district, in the state of Washington. This is the only district in which gunshot wounds are reported as a prevalent cause of death. Heart disease, suicide, and apoplexy show there the largest number of victims, and the record is held for the greatest number of deaths from alcoholism.

Lung troubles appear to be most numerous along the Atlantic coast from New York to Virginia and along the Mississippi river from New Orleans to the Ohio river.

Typhoid fever and malaria come far down on the list in mountainous districts, but appear at the top in North Carolina, South Carolina, Georgia, Alabama, Mississippi, Arkansas and Indian territory.

Although only three out of every 100 die of old age there are a few fortunate districts where old age rivals consumption and malaria as the cause of death. Among these favored spots are the Catskills, Adirondacks, Green mountains, parts of Michigan and Wisconsin, and the region on either side of the Missouri river.

Croup and whooping cough appear to be most dangerous in the districts which have the least population and where, presumably, medical aid is most difficult to obtain. Cancer, heart disease and apoplexy are more to be expected in mountainous parts of the country than in the level districts.

In eight of the twenty-one districts rheumatism reaps a large harvest of deaths, noticeably in the thinly settled states, where the inhabitants are most exposed to the sudden changes of the weather.

Generally speaking, it appears that the majority of deaths in the country are caused by climatic conditions, while those in the cities are caused by social conditions. The farmer on the Dakota prairie, for example, needs to guard against rheumatism, but not against malaria or heart disease.

Do not forget the dance to be given at the Harvey hall Saturday, Aug. 7th. Big time for all who attend. Also good music will be furnished. (8-5-11)

Eli Couvion, the trucker, is taking up the work of Mr. Orchard to remove garbage. If you will give me a trial, call me up. Bell phone, 458-J. 6-7-11

The Madigan brothers have started a wood yard in this city, located at the corner of Lake and Genesee St., South Marquette, and will from now on sell wood at the following figures: Maple and Birch 16-inch mill wood at \$1.50 per cord. Orders for wood may be left at the following places: Union Clothing store, Front and Baraga, both phones. John Carlson's grocery store, Third street, both phones. H. J. Koepf's residence, Channing street, Bell phone. M. Madigan's residence, Bell phone. (7-30-11)

PASSENGERS MUST KEEP OFF THE HIGHER DECKS

LAW FORBIDDING PERSONS ON HURRICANE DECK AND IN WHEEL HOUSE TO BE ENFORCED BY BOAT COMPANIES.

The law passed some time ago relative to the keeping of passengers from the higher decks of boats is about to be enforced by every company on the lakes, according to local reports. The law was passed lightly over for a time and passengers given the freedom of the entire boat. The companies are now about to put a stop to this and some of them are going so far as to rule that the captain must not talk with the passengers at any time except at the table.

So many accidents have happened of late that this action is necessary, they say. While talking, the captain may overlook, forget, or postpone a duty that might affect the ship in some way, and the rules are made with the idea of keeping the captain's mind on his boat. Said a captain: "It is going to be a great thing. Passengers can ask more foolish questions than it is possible for any three persons to answer, and they are bound to seek out the captain for the purpose of asking. Of course the mate, steward, purser or the other employes could not answer their questions so well."

The law forbids passengers in the wheel house. That is apparently the only place they care to be. They will all get in a row and, if possible, stand and then they want to know about all the fixings, if it is hard to steer and thousands of other foolish things. The man at the wheel must be polite, but he cannot attend to his work and amuse the passengers at the same time. It is for this reason that hereafter the rules will be enforced to the letter. The men on duty running the ship will not be allowed to converse with the passengers and the latter will be kept from the hurricane deck altogether.

SAVING ONE-FIFTH IN FUEL. Invention of Currie Feed Water Heater Jubilant.

The American Feed Water Heater which has been in use on one of the South Shore locomotives for about two months for the purpose of testing its efficiency, is proving a success beyond all expectations, according to its inventor, John W. Currie, who was in the city yesterday. He further stated that an average of all the tests made thus far showed that the heater was saving more than 20 per cent in fuel, whereas he had anticipated that the saving would be about 10 per cent. After testing a short time longer, a complete report of the tests will be made public.

Mr. Currie stated that he was not worrying at all about his heater being an infringement on the Brown feed water heater, as is claimed by its inventor. He recently had a conversation with Mr. Brown in Minneapolis, he said, in which the latter offered to consolidate with him and pool their interests in the feed water heater business. Mr. Currie stated, however, that he did not care to accept any such proposition, as he did not think Mr. Brown had anything in his invention that was of any value to him. The Currie heater has not as yet been tried on a passenger engine, where it is believed by the inventor that the greatest saving in fuel will be shown, having the belief on the fact that the heavier the load drawn by a locomotive with the heater attached, the greater has been the saving in fuel.

SOO CANAL PASSAGES. Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Aug. 5.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Hutchinson, 9 a. m.; Roumania, Crete, 10; Perkins, Jenkins, 11:40; Athabasca, 2:30 p. m.; Queen City, Havel, 3; Zenith City, 3:30; Ma-pleton, Parmonic, 4; DeGraft, 4:30; Steinbrener, 5; Montague, Osler, Major, 7:30; Nettleton, Rockefeller, Krupp, 8; Meehan, 9.

SEES AID TO FOREIGN TRADE. Expert Thinks New Tariff Will Also Keep Down Prices at Home.

Washington, Aug. 5.—The Payne-Albright tariff will have two important effects upon the foreign trade of the United States, in the opinion of Charles M. Pepper, a special agent of the department of commerce and labor, who has spent some years in investigating trade opportunities in various parts of the world. The minimum provision, he believes, will operate beneficially and American manufacturers will be in a more advantageous position in securing their raw and semi-raw materials. Mr. Pepper said: "No country which exports largely to the United States is going to take the chance of maximum provision by discriminating against our manufactures. In all probability they can count on securing entrance into the markets of European countries on the same terms as their competitors."

"The better position in securing raw and semi-raw materials is especially the case with the metal schedules. While the lower duties may not cause a large increase in the importation of this raw material, they will help to keep the prices at home on a competitive basis."

The regular Saturday night hop will be held at Fraternity Hall tomorrow night. Music by the Peerless orchestra (8-6-11)

Mr. Rittmiller will be at our store on Friday, Aug. 6, with full lines of silk waists, dresses, skirts and white lawn waists, and will be pleased to take orders from ladies desiring anything in his lines of goods. THE BEE HIVE, L. Getz, Prop. 220-222 S. Front St., Marquette, Mich. (5-19-11)
