

CASTRO PLUCKED OF HIS FORTUNE

Spoilation of the Wealth He Left Behind Has Proceeded With a Rapidity as to Be a Revelation Even to Him.

So Systematically and With Such Strides Has the Process Been Carried on, That Within Six Months Five Million Dollars of Known Assets Have Been Almost Totally Wiped Out—And, Besides, His Appeal to Congress Has Died a Natural Death.

Caracas, Saturday, July 24.—[Associated Press correspondence.]—The much heralded appeal for Cipriano Castro to the Venezuelan congress, which, after being read in joint session, was referred to Castro's friends in a special committee, for report, has died a natural death in the committee room, and instead of the desired report the curious ex-presidential message has been achieved. Thus the last spasmodic effort of a few friends of the late dictator to awaken sentiment for the fallen idol has failed.

The systematic spoilation of the fortune which Castro left behind in Venezuela has proceeded with such strides, that after six months, five million dollars of known assets have been almost totally wiped out. The method by which a million dollars of Castro's property was reduced to fifty thousand dollars, and how this was then taken away from him, will be a revelation even to Castro.

Castro owned a million dollars of cigarette shares, given him as his share in the promotion of the cigarette trust. A few weeks ago the directors of the cigarette company sold the five-million-dollar concern to a private individual, Senor Garcia Guerra, for \$250,000, fifty per cent of the capitalized value, notwithstanding that in the same day the shares were quoted on the exchange at 25 per cent premium. The next step was the formation of a new company, which took in all the old stockholders except Castro. Then there was issued an order by the commercial court to have the sum of \$20,000, which corresponded to five per cent of the purchase price of the Castro stock, deposited in the Bank of Venezuela to the order of whoever might be the holder of the stock. So in one day one million dollars of good money became fifty thousand. This \$50,000 was immediately attached by individuals who have lawsuits against Castro.

The second was the arrival a few days ago of a German citizen, Theodore Hauser, with a million dollars of good money, and who claims that these belong to him by virtue of purchase from Castro. He has engaged counsel and will begin action against the perpetrators of the alleged illegal reorganization.

FOOD IS PLENTIFUL AGAIN. Prices at Stockholm Are Becoming Normal—Perfect Order Maintained.

Stockholm, Aug. 10.—It is still impossible to foresee the end of the strike. Perfect order is maintained and no sign is visible of the special measures that have been taken to prevent outbreaks. Though it is known that the government is keeping extra police and troops at hand in case of emergency, food is again plentiful, and the prices are becoming normal. There has been no serious decline in the prices of securities on the bourse. The street car and cab traffic in the city continues, the municipality having ordered the cabmen to resume work or forfeit their licenses. A strike of the railway men is improbable, as the men fear they will lose their rights to pensions. Most of the newspapers are issuing small-sized sheets. There was a stormy meeting today of the railway, telegraph and telephone employees, concerning the strike, but the result is secret.

FAR EASTERN TENSION RELAXES. China Takes a More Favorable View of the Manchurian Railroad Situation.

Peking, Aug. 10.—Japan has made a reply to the last Chinese communication regarding the reconstruction of the Antung-Mukden railroad, in which Peking agreed that the line be of standard gauge and suggested the resumption of the negotiations on the other points at issue. It is probable that this will be done. China is today taking a more favorable view of the situation, and the tension of the last few days is noticeably relaxed.

ECUADOR'S FOURTH OF JULY. Guayaquil, Aug. 10.—The one hundredth anniversary of the first movement of the people of Ecuador to secure independence from Spain was observed throughout the republic today. The national exposition, inaugurated in honor of the event, was opened. The United States is among the exhibitors.

EDWARD GOES TO AUSTRIA. London, Aug. 10.—King Edward left today for Marienbad, to take his annual cure.

Calais, France, Aug. 10.—King Edward arrived here today, and proceeded for Marienbad.

NEW GOLD FIELDS FOUND. Bulawayo, South Africa, Aug. 10.—Reports have been received of the discovery in the Abercorn district of British Central Africa of gold deposits similar to the Rand formation and which are said to extend over an area of six miles.

GIVES HIS IMPRESSIONS OF THE UNITED STATES.

Guglielmo Ferrero, Italian Historian, Sees in the Anti-Plutocratic Movement a Repetition of the Struggle Which Rent Rome for Three Centuries—He Believes It Destined to Fail.

Paris, Aug. 10.—Concluding a series of impressions of America, gained during a recent visit, Guglielmo Ferrero, the Italian historian, finds that the anti-plutocratic movement is essentially a struggle between the old traditions of Puritan democracy and civilization, gold, luxury and pleasure—a repetition among modern forms of the struggle which rent Rome for three centuries. The rapidity of development, the lightning changes in customs and the creation of a multiplicity of new needs, he says, eat up the large earnings of the people, who have not acquired the habit of saving.

Signor Ferrero believes that the anti-plutocratic movement is destined to fail, because the Americans forget in their superb optimism that the morality of modern civilization is imperfect. "Industrialism," says Signor Ferrero, "seems to be destroying part of the old-time America of Franklin and Washington and creating an America less American."

FEDERAL REVENUES INCREASING.

Customs Receipts Under the New Law Greater Than Under the Old. Washington, Aug. 10.—The receipts reported to the treasury from the operation of the new tariff law were \$90,944, as against receipts under the Dingley law for the same day last year amounting to \$67,678. Some of the collection included in today's receipts came from distant ports and were made up of collections under the tariff law. At the same time three-fourths of all the collections came from the port of New York, and it will be seen that the collections under the new law will be greater than under the old.

Protests Are Due from Europe.

France, Switzerland and Bulgaria are expected to protest against the tariff law. Persch intimated that there were men "higher up" in the transaction, but he refused to say more, upon the advice of his counsel.

Philippine Cigars Come in Free.

San Francisco, Aug. 10.—By telegraphic order from Assistant Secretary of the Treasury Reynolds, five hundred thousand Philippine cigars were released from bond today and were admitted free of duty, under the new tariff law. Under the old tariff the duty would have amounted to \$20,000.

MR. TAFT'S ITINERARY CHANGED.

Madison and Portage Are Cut Out and Milwaukee Is Added to the List. Beverly, Mass., Aug. 10.—President Taft today added Milwaukee to the itinerary of his Western trip. In order to include that city, the stops scheduled at Madison, the home of Senator LaFollette, and at Portage were cut out. The presidential party will visit Milwaukee, Sept. 17. The president also included in the itinerary of his trip down the Mississippi river, which begins at St. Louis Oct. 25, a stop at Baton Rouge, La.

VIRGINIA'S CONTRIBUTION.

Statues of Washington and Lee Are Placed in the Hall of Fame. Washington, Aug. 10.—Bronze statues of George Washington and Robert E. Lee, Virginia's contribution to the nation's "hall of fame," were placed in statutory hall at the Capitol today. The ceremonies attending the unveiling will take place at some time yet to be determined.

CRUISER'S SEARCH FUTILE.

British Steamer With 300 Persons Aboard Is Believed to Have Foundered. Durban, Aug. 10.—The British cruiser Pandora returned here today, after an unsuccessful search of eight days' duration for the British steamer Waratah, which, with three hundred persons on board, has been missing since July 29. It is believed now that the vessel has foundered.

TAKAHIRA LEAVES FOR JAPAN.

Washington, Aug. 10.—Baron Takahira, the Japanese ambassador, left today for Seattle, whence he will sail Aug. 17 for Japan, at the direction of his government. He will return to Washington in the fall. He expressed gratification at the disappearance of the Japanese war talk and pride in the recovery of the country from the late financial crisis. The Far East, he said, would be benefited by the continued development of the nation's boundless resources.

BALLOON GOES UP SEVEN MILES.

Milan, Aug. 10.—The balloon Albatross, piloted by Lieutenant Mina, today ascended to a height of 11,800 metres (seven miles). This is believed to be the world's record.

Berlin, Aug. 10.—The rumor that Count Zeppelin, inventor of the dirigible balloon, had died, is without foundation.

YOUNG FINANCIER IS IN THE TOMBS

Charged With the Larceny of \$40,000, the Profit Obtained by a Sale of Stock, Donald L. Persch Is Jailed in New York.

New York, Aug. 10.—Donald L. Persch, a young financier, is in the Tombs tonight, in default of \$50,000 bail, charged with the larceny of \$40,000, the profit obtained by the sale of 15,000 shares of Ohio Copper common and 4,000 shares of Davis-Daly Copper common, which an agent for E. Augustus Heize placed with the Windsor Trust company as security for a loan of \$50,000.

In a manner unexplained, the stock was not held by the bank, but was turned over to a clerk acting for Persch, and at the latter's orders was thrown on the curb market and sold for approximately \$90,000. How Persch obtained the capital to carry through the deal, and why the stock was relinquished by the trust company, are matters yet to be determined by the district attorney.

Persch was arrested on statements made by John Sherwood, a note broker. He said that at Persch's request he had procured the securities from the trust company, after having obtained \$50,000 for the purpose from L. J. Fields & Co., dealers in curb stocks. It is a mystery how Persch knew when and where M. M. Joyce, representing E. Augustus Heize, placed the securities. It is considered probable that Persch had desk room in the offices of W. L. Clark, a note broker, who first directed Joyce to the Windsor Trust company for the purpose of obtaining a loan.

While there is nothing to indicate that the bank is responsible, Joyce says it was stipulated in the contract that the stock be pinned to his note and retained. Shortly after that the certificates appeared on the curb, and an investigation was begun. The trust company says that it was acting merely as an agent in placing the loan, and the agent who found the certificates was Sherwood, representing Persch, who intimates that he was acting for some one above.

District Attorney Jerome took active charge of the case today, and other arrests may be made tomorrow. Charles Katz, treasurer of the Eastern Brewing company of Williamsburg, and Mary Uhlman, a business associate, were examined at the district attorney's office today. Uhlman admitted that she had made out a note for \$50,000 in Persch's favor, but did not know to what use it was put. He was to receive \$266, but he understood that the note was not to be discounted for use in any way.

STOCK MARKET LISTLESS.

Speculation Restrained Somewhat by the Stiffening of the Money Rates.

New York, Aug. 10.—The stock market fell into a listless mood today, suggestive of the passing of the influence most relied on to stimulate prices. One of these was the crop report, and its effect attracted a demand which was negligible, judging from today's trading. The powerful forces back of the crop report to afford a basis for selling some of the accumulation of stocks that has been made in the course of raising the price to their present lofty altitude. In the absence of the crop report to absorb profit-taking sales, the sales were withheld, demonstrating the strong resources of the present conductors of the speculation and their indifference to ordinary discouragements. The professional who attempted to anticipate the expected profit-taking by short sales yesterday were compelled to cover up their shorts today. This bear covering was responsible for a large part of the strength shown in the early stock market today.

It is not improbable that the stiffening of the call loan rate has influence in restraining the operations for a further advance in prices. Call loans were made today above the 2 per cent rate and were taken at that rate readily by borrowers. This is in contrast to the slack conditions which have kept idle funds pressing for employment in the stock market at almost nominal rates for months past. The immediate causes of higher rates yesterday and today were the weak bank return of Saturday and the heavy payments for customs duties incident to the Roeh of imports to anticipate the enforcement of the new tariff law. The customs receipts are still heavy. The Chicago money market expects an early return to profitable rates for the banks.

Amongst the special points of strength in the stock market, the Rock Island was conspicuous. The growing earnings of the Rock Island company give occasion for speculation over the resumption of dividends on the preferred stock, suspended since the autumn of 1905. The preferential right of the superior stock to dividends, now limited to 4 per cent, rises to 5 per cent in 1910 and to 6 per cent in 1917.

THE WEATHER.

Washington, Aug. 10.—The following is the weather bureau's forecast for Upper Michigan: Showers, Wednesday and probably Thursday; rising temperature; moderate east and southeast winds.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns: National League, American League, W., L., P.C. Lists standings for various teams like Pittsburgh, Chicago, Philadelphia, etc.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including National League and American League matchups.

YESTERDAY'S GAMES.

Table listing results of yesterday's baseball games, including scores and key players.

WESTERN LEAGUE.

Table listing results of Western League games, including scores and key players.

NATIONAL LEAGUE.

Table listing results of National League games, including scores and key players.

AMERICAN LEAGUE.

Table listing results of American League games, including scores and key players.

BATTERIES.

Table listing batting lineups for various teams.

ILLINOIS SOLONS BEGIN INQUIRY.

Seek to Determine Ownership of Valuable "Made Lands" at Chicago.

Chicago, Aug. 10.—The inquiry into the title of the "made lands" along the shore of Lake Michigan and the banks of the Chicago river was begun today before the committee of law-makers appointed by the last Illinois legislature to determine the state's right of possession. The lands in question are valued at more than \$2,000,000. The inquiry also covers the submerged lands along the Illinois river occupied by gun clubs.

ST. LOUIS TODAY BATTLED TWELVE INNINGS.

and St. Louis today battled twelve innings, to a tie. The game was called to allow the visitors to catch a train.

MAYOR CALLS HIM A "SKUNK"

Mobbed by Crowd, Umpire at Augusta, Ga., Is Rescued by the Police.

Augusta, Ga., Aug. 10.—Following his forfeiture of today's baseball game to Mayor Umpire Gifford was surrounded by a crowd of angry spectators. He was struck in the face, hit on the head with pop bottles and choked. Mayor W. H. Dunbar made an address to the crowd, stating that Augusta had been wronged, but for the good name of the city he pleaded that the "skunk be let alone." A riot call was sounded, and a special street car carried twenty-six officers to the scene. Gifford was rescued. Augusta had refused to play the game with Gifford umpiring.

LAND DRAWING COMPLETED.

Coner d'Alene, Aug. 10.—Judge Witten completed the drawing for the Coner d'Alene reservation lands today. The first rejection of an application occurred when the name of A. D. Boughman, of Charlotte, Mich., was read. It was rejected on the ground that the notary public did not specify that he was authorized to make out papers for land drawings.

STOLEN CHILDREN NOT FOUND.

Chicago, Aug. 10.—The search of the Italian districts of the city for the Viviano children, kidnapped from St. Louis, has so far proved fruitless. Captain O'Brien, of the central detective bureau, is of the opinion that the children are in Chicago. A conductor on the Wabash railroad today identified a picture of Grace Viviano as that of a little girl who came to Chicago on a train from St. Louis on the day the children disappeared.

RAILROAD MERGER RATIFIED.

Baltimore, Aug. 10.—The stockholders of the Baltimore & Ohio railroad today ratified the action of the directors in taking over the Cincinnati, Hamilton & Dayton.

ACTOR RICHARD GOLDEN EXPIRES SUDDENLY.

New York, Aug. 10.—Richard Golden, the actor, died suddenly tonight on board the houseboat Stroller, in Gravesend bay, where he was a guest of John Newton Porter.

WATER TOWN, N. Y., AUG. 10.—Aloran X. Parker, assistant attorney general in the administration of President Harrison, died here today, aged seventy-eight.

BALTIMORE, AUG. 10.—Mrs. Jane Germon, the actress, died here today from ailments incident to old age.

GIVES UP PROFESSION OF LAW.

Judge Clarkson of Kenosha to Work in a Manufacturing Plant.

Kenosha, Wis., Aug. 10.—Former Judge Joseph R. Clarkson, who wandered away last month under a spell of insanity which drove him to manual labor, and who was found in a factory in Sabula, Ia., gave up the profession of law today. Tomorrow morning his name will go on the payroll of a manufacturing firm in Kenosha. "Give me a place where I can do manual labor," he said. "I want to work with my hands and enjoy the pleasures of a man engaged in the production of something tangible."

DAILY MINING JOURNAL

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

The "Is it hot enough for you man?" had a few hours' lay off yesterday.

To the mind of the average Washington clerk the "efficiency test" is the most indefensible innovation of the Taft regime.

Speaker Cannon indignantly rejects the suggestion that he is planning to retire, and makes it plain that he will only retire if retired.

If the Warner-Cramton liquor law is as full of holes as Attorney Henderson believes it is, it appears that the only thing about it that will pass muster is the title.

The police have not yet definitely ascertained whether the missing member of the Marquette ball team left to join the Minnesota-Wisconsin league, or simply carried out some innocent plan for a brief vacation.

Municipal ownership is a perpetual issue at Detroit that we have no doubt the readers of the Detroit newspapers would be glad to have settled definitely, one way or the other.

With the announcement that the Wright brothers will manufacture aeroplanes for private sale at \$7,500 we are doubtless on the threshold of the amateur age of these contraptions.

General Bates has ruled that there shall be no "kitties" at the Ludington encampment of the state troops. A "kitty" has been an unofficial canteen for the officers, with an imposing array of wet goods, and in the past they have been the cause of much unfavorable comment.

President Taft's program for the allotment of census plums in the South is to give them entirely to Republicans in the states where he considers that the Republicans have a chance of breaking in, to the end that the respective organizations may build up an effective fighting front.

Fingy Conners, chairman of the New York Democratic committee, has filed a suit against Collier's Weekly for libel, asking damages of \$100,000. It took Fingy a long time to realize that his feelings were hurt and his reputation possibly injured, for the article to which he now takes exception was published in July of last year.

President Taft's views of the authority that will be invested in the tariff commission he is empowered by the Payne-Aldrich law to appoint, and the views of many members of congress differ materially.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

new law turns out to closely resemble the tariff commission for which there has been such a general demand of late years.

"The proof of the pudding is in the eating. Wait until the new tariff law has been tested by the people and then we will know how it suits. Personally I believe congress has kept the pledges made by the Republican national convention in the platform adopted at Chicago."

R. C. Allen, the newly appointed state geologist, is a professor in the geological department of the University of Michigan, and thus it may be assumed that he is exceptionally well equipped for the position.

The report of the Copper Producers' association made public yesterday, showed a gratifying improvement in the copper metal situation during the month of July.

President Taft's program for the allotment of census plums in the South is to give them entirely to Republicans in the states where he considers that the Republicans have a chance of breaking in.

Negaunee is threatened with a flock of banks. The organization of a new national bank is the project of Cleo McIlwain, of Ontonagon, who has been the moving spirit in the Ontonagon bank, which he has managed with marked success.

PROGRESSIVES WILL FIGHT. Senator Cummins, on his way home to Iowa, outlined in Chicago this week the program to which he says the "progressives" in the Republican party are committed.

The "progressives," however, do not intend to acquiesce in the results of the special session lately closed, he asserts. Their program has several features, and includes placing at the head of organized Republicanism men who will stand absolutely by platform pledges; a struggle for this policy at every convention, local, congressional or state, where there are enough progressive Republicans to make it worth while, between now and 1912; no general revision of the tariff for perhaps a decade, but revision from time to time in particular schedules, as expert investigation demonstrates it to be necessary, and at the same time conforming with the broad principles of protection; appointment of an expert tariff commission at the earliest practicable moment, to furnish this information to congress; and particularly—no opposition to President Taft, whom the progressives believe to have a thoroughly

progressive platform in hand for his administration.

In line with the last plank in this progressive platform Senator Cummins says: "I have every confidence in President Taft. I believe he has an administrative policy thoroughly progressive. The tariff law is a Republican law and superior to any that could be framed by the Democrats. In my judgment President Taft will demand that it be administered fairly and equitably. With his co-operation an expert tariff commission can be secured which will furnish absolute and unchallengeable figures upon the actual cost of production of commodities in the United States and in foreign nations.

It is a safe prediction that Minnesota, Iowa and Indiana will certainly have progressive delegates to the next Republican convention at St. Louis, Nebraska and other western centers will doubtless lend them support. Their demands will have to be heeded, or the alternative of inviting a serious party disaster movement is likely to grow by leaps and bounds until it is an all-controlling political force.

NEW YORK SECOND NATL BANK BLDG. FIFTH AVE. and 28th ST. CHICAGO TRUDE BUILDING 67 WABASH AVE.

THE "GOODBYE TRAIN." A Familiar Scene at a Great London Railway Station. In these summer days, when London is preening itself before her myriad guests from over sea, flaunting forth the matchless wealth and glory of the great empire that she has, there are just one or two little scenes in contrast that it is worth while to remember.

EVERETT TRUE HARVEY. Here is a refreshing outburst from the Democratic editorial Everett True, to-wit, George Harvey of Harper's Weekly. While other Democratic and near free trade editors are perpetually scolding President Taft for signing the Payne tariff bill (regardless of the good words they had for that very bill when first reported), the intrepid and independent Harvey has this to say of the president's course throughout.

He treated the tariff as a business, rather than a political question. He worked like a beaver to make the Payne bill a still better bill, to purge it of the mischief done by the senate finance committee; and, having got the bill practically procurable, he signed it as soon as possible.

THE GROWING COCAINE EVIL. Cocaine is a growing evil. Stop it at its source. Put a prohibitory duty on cocaine leaves, as has been done with crude opium. Cocaine leaves come in free and in enormous quantities. In 1906 there were 2,650,141 pounds brought in, and in the last three years 4,838,000 pounds. The imports have gone up five-fold in a few years. Cut this off. Put on a duty which will exclude this import, except for medicinal use.

In sympathy with the world-wide decline of business, the traffic of the Suez canal fell to 3,795 vessels last year, a decline of 47, as compared with the previous year.

An Advertiser Should Never Tie Himself Up

We say to you all—to our clients and others—it is wrong to be blindly contented. It is wrong to tie yourself up—to bind yourself by a time contract with any advertising agent. It is wrong because it kills incentive. It lessens endeavor. The advertiser who gets the utmost attention is the man who is never caught. Our rule henceforth is—no contracts with clients. We seek advertising on the plea that we make it pay better than others. And we expect to keep it only so long as we do that. If any agency can make any campaign pay better than we, that advertising belongs elsewhere. By the same rule, if we can make your advertising pay better than others, your account belongs to us.

But how can you know? That is what we want to tell you. To start with, the probabilities are nearly all on our side. We have far outgrown all rival agencies, solely through results brought to clients. We handle hundreds of accounts which are bound to us solely by the fact that we outsell all others.

We pay our Copy Chief \$1,000 per week, because no other man has yet proved the power to sell so many goods. Each of our able men has won his place here by outselling other men. Each man, to hold his place, is constantly compelled to get better results than can any outsider. These men work together—work in Advisory Boards—so that every campaign gets some help from them all. All these facts indicate that, in all probability, we can get the best results.

But there are ways to show, in your particular case, our results as compared with others. It can be done without any commitment on your part—without disturbing your present relations. It can be done in a way which will settle the matter beyond any possible question. The result may be—and will probably be—to multiply the results of your advertising. It may show you how to get, for the same commission, immeasurably better agency service than you are getting now. The proof may be worth thousands of dollars to you. It has been worth millions to some. If you think that worth while, please write us a letter simply saying, "State the way."

THE "GOODBYE TRAIN."

A Familiar Scene at a Great London Railway Station.

In these summer days, when London is preening itself before her myriad guests from over sea, flaunting forth the matchless wealth and glory of the great empire that she has, there are just one or two little scenes in contrast that it is worth while to remember.

EVERETT TRUE HARVEY. Here is a refreshing outburst from the Democratic editorial Everett True, to-wit, George Harvey of Harper's Weekly. While other Democratic and near free trade editors are perpetually scolding President Taft for signing the Payne tariff bill (regardless of the good words they had for that very bill when first reported), the intrepid and independent Harvey has this to say of the president's course throughout.

He treated the tariff as a business, rather than a political question. He worked like a beaver to make the Payne bill a still better bill, to purge it of the mischief done by the senate finance committee; and, having got the bill practically procurable, he signed it as soon as possible.

THE GROWING COCAINE EVIL. Cocaine is a growing evil. Stop it at its source. Put a prohibitory duty on cocaine leaves, as has been done with crude opium. Cocaine leaves come in free and in enormous quantities. In 1906 there were 2,650,141 pounds brought in, and in the last three years 4,838,000 pounds. The imports have gone up five-fold in a few years. Cut this off. Put on a duty which will exclude this import, except for medicinal use.

In sympathy with the world-wide decline of business, the traffic of the Suez canal fell to 3,795 vessels last year, a decline of 47, as compared with the previous year.

The Great Lakes Trip. A Little Journey on the inland sea is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip.

made the decision of their lives, and whom iron circumstances had already tried and tested, and forced to an understanding of themselves and of their real hopes. It is a trite saying that the Cockney makes a bad colonist, because he cannot stand the loneliness of the outlying homestead, and drifts to the towns or back to England again. Doubtless this is true in part. One felt somehow that "jolly good fellow" of the Easton train would probably be returning before many months were over across the unharvested sea. But there are Cockneys, born generally of country-bred parents, who never will be in tune with so-called "protection" remembered with much gratitude. "Why was I not told this before?" is the cry of the woman humiliated by having to reveal her ignorance to strangers. Here is a sorry case indeed.—S. R. Littlewood, in the London Chronicle.

The Particular Smokers' Choice. La Verdad. Cigars. We buy second cut Vuelta Abajo tobacco directly on the plantation, saving a broker's and jobber's profit. This saving goes into the quality and the quantity in LA VERDAD cigars. Always uniform. Any dealer will sell you LA VERDAD cigars.

We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO. Grand Rapids, Mich.

Copper Country

AMPHIDROME DOCK COMPLETE.

Henry F. Key Finishes Bulkhead to Provide Fair Ground Space.

Contractor Henry F. Key has completed the construction of the dock between Portage and Ripley streets, outside the Amphidrome, at Houghton, which dock was built in order that ground for the Copper Country Fair exhibits might be provided, and there is now not the slightest doubt that a magnificent amount of space will be had for some years to come.

Secretary McNamara announced yesterday that the sale of advertising and selling space within the Amphidrome for the seventh annual Copper Country Fair September 21 to 25, inclusive, would commence at 10:30 this morning. There is practically the same space as during the past few years, and it is expected that all of the best locations will be eagerly taken up.

Monday morning of next week Secretary McNamara will open headquarters in the little office building just outside the Amphidrome near the main entrance to the fair grounds.

Following Monday, upon the return of Thiel Robertson, Mr. McNamara's assistant, from his vacation, the advertising campaign will be commenced.

WRESTLING FANS ELATED.

Coming Bout Between Ziehr and Harrington Gives Them Joy.

Copper Country wrestling fans are at present indulging in the joy of anticipation. This is because of the match that has been arranged between Joe Ziehr of Calumet and Thiel Harrington, his old-time rival, now a Butte professional. The bout will probably take place later today. These men have not met since the week of the Fourth of July, 1903. That year a big wrestling tournament was held in Houghton and Harrington carried off the honors, defeating Ziehr, among others. But close students of the game of the courts declare that on that occasion Harrington got away with certain little tricks that are not strictly contemplated by the ethics of the sport.

SUPERVISORS IN QUIET SESSION.

Little Business Transacted at August Meeting of County Board.

The August meeting of the Houghton county board of supervisors, held yesterday morning, was one of the shortest sessions of that body in months. The volume of business transacted was unusually light and early adjournment was taken. The principal business had to do with the building for the detention of the juvenile offenders. Chairman Edwards stated he had been approached by several parties who desired to become maintainers. It was decided to leave the matter of an appointment and the salary in the hands of Probate Judge Bentley, who will be at the head of the court, and a committee of two supervisors to be named by the chair.

HAD MANY PASSENGERS.

The steamer North West arrived at Portage lake yesterday morning with an unusually large number of passengers. There were over 225 passengers on board when the boat cleared at 9 o'clock for Duluth, there being a number to board passage here. Among those who arrived were R. T. McKeever of Boston, vice president and general manager of the Copper Range railroad, and Irving J. Sturgis and wife of Boston.

STATUE PROJECT IN FAVOR.

The announcement that the Red Jacket city band, assisted by the Christopher Columbus society, is arranging to raise funds to procure a life-size statue of Christopher Columbus, has been received with much favor and the efforts of the band and the fraternal society will be given every encouragement by the people of the community generally. It is proposed to secure a bronze statue, to cost at least \$3,000. It is the intention, if permission is secured, to place the statue in the miniature garden adjoining the Calumet theater on Sixth street.

CAN A MEDICINE BE A "FAKE"?

That has liked and grown in popularity for thirty years, and demonstrated its worth by actual cures of female ailments in thousands and thousands of American families? Any fair minded, intelligent person will emphatically answer "No! Such a medicine is Lydia E. Pinkham's Vegetable Compound made from roots and herbs, and its ever increasing popularity is due to actual merit alone.

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S.S.S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work, S.S.S. attacks the vital organs directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S.S.S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S.S.S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S.S.S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with contagious Blood Poison S.S.S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. Home treatment book with valuable suggestions and any medical advice sent free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

COPPERDOM BREVITIES.

Mathew Charleton of San Antonio, Texas, is in Houghton, visiting his parents.

A. A. Alsip, a graduate of the Michigan College of Mines and now superintendent of the Helen mine in Ontario, is visiting in Houghton.

Charles W. Hall of Laurium has gone to New York on a purchasing trip for the Vivian store. He will visit Montreal and the Thousand Islands enroute.

Announcement is made that A. W. Leet of Detroit will arrive in Houghton the latter part of this month to become manager of the Michigan State Telephone company. Interests in Houghton county.

Frank McM. Stanton and John R. Stanton arrived in Houghton yesterday from the East. John R. Stanton came from New York to visit the Atlantic property. He was met at Chicago by his brother Frank.

The following committee will receive at the organizing club from 3 to 7 o'clock Saturday afternoon, Aug. 14, Mr. James R. P. Dunstan, H. A. Guck, D. M. Ladd, C. H. Moss and P. D. Swift and Miss Helen Pope.

A. H. Menche of Houghton, appointed assistant state geologist, will not accept the place. Instead, he will take a position with Longyear & Hodge. He will be that well-known exploring concern's copper country representative.

"Anette S." a new boat, was launched recently by the Sibley brothers, Barrell, Gus and Proctor, of Hancock. The craft is a twenty-footer, equipped with an eight horsepower engine, and is capable of making from ten to twelve miles an hour.

Miss Florence Rowell will act as organist at the Hancock Congregational church in the future, taking the place of Mr. Bartle, who has resigned. Mr. Bartle will take a trip to his home in England and will then go to South Africa, where he will locate.

Stuart Eldred, son of Rev. H. M. Eldred, pastor of the Peawick M. E. church, was severely injured while at play. The fellow named Duroy, who was falling broke his arm. It is the second time within a few months that the same limb has been fractured.

Dunn Bros., the well-known Calumet saloonmen, have dissolved partnership. John T. Dunn has leased the bar in the Central Hotel, formerly conducted by Dunn Bros. Ed, Dunn will continue the management of the bar, which is located in the Wilbers hall building.

The Hurontown tug-of-war team is willing to meet the I. L. A. team of Houghton for a purse of \$50. The Hurontown team pulled the I. L. A. team on the fifth of July and since that time it has been said that the defeated aggression was anxious for another match.

Robert H. Shields, of the state tax commission, accompanied by his daughter, the Misses Shields and Dorothy, went to Ishpeming yesterday. Mr. Shields will look into some taxation matters. The Misses Shields will visit for two weeks with their aunt, Mrs. William Argell.

Stephen J. Paull, for three years past a Methodist Episcopal preacher in Calumet, has allied himself with the congregational church in the city. He will preach next Sunday in the congregational church at Lake Linden, and Paul Veigh of Lake Linden will preach in the Calumet Congregational church.

LIKE A YOUNG MERMAID.

Miss Bella Wescott of Buffalo Is Perfectly at Home in the Water.

Like most other cities situated on or near a large body of water, Buffalo has its quota of mermaids, who are as much at home in the water as we are on land. The mermaid of the hour is Miss Bella Wescott, of Buffalo. She is a young girl, about 18 years of age, and is a perfect swimmer. She can swim like a mermaid, and is perfectly at home in the water. She has been discovered in Calumet since Saturday, all of the patients being given every encouragement by the people of the community generally. It is proposed to secure a bronze statue, to cost at least \$3,000. It is the intention, if permission is secured, to place the statue in the miniature garden adjoining the Calumet theater on Sixth street.

SMALLPOX CASES DISCOVERED.

A former resident of Ontonagon, suffering from smallpox, was picked up by the Night Officer Sam O'Connell Monday night and was taken to the county detention hospital. This is the first case of smallpox recorded at Houghton in some time. Five cases of the disease have been discovered in Calumet since Saturday, all of the patients being given every encouragement by the people of the community generally. It is proposed to secure a bronze statue, to cost at least \$3,000. It is the intention, if permission is secured, to place the statue in the miniature garden adjoining the Calumet theater on Sixth street.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by druggists. Price, 50c per bottle. Take Hall's Family Pills for constipation.

COPPER RANGE.

For the first seven months of the current year the Baltic is the only one of the Copper Range trio which has reported an increase in the mineral production over the corresponding period of the previous year. The ground between the shafts is rich. Copper is selling at 43 1/2 cents per pound, but the Altonex during July more than paid expenses. This was the result chiefly of the larger production and as future months will tend to show a larger output it is figured that the Altonex will not only more than carry itself, but the drifts from No. 1 shaft of the Altonex are being extended toward the Altonex line as rapidly as possible. The management is anxious to determine the values, hoping to get for the seven months of the current year a profit of \$1,000,000. This shaft is now 2,800 feet deep. Thirty drills are in use. At No. 2 shaft eight drills are used in sinking and extending drifts. No stopping is done in the ground tributary to this shaft.

MAYFLOWER.

The commencement of exploratory work at the Mayflower will be watched with considerable interest. A contract for 10,000 feet of diamond drilling has been made and will probably be started this month. Efforts will be made to ascertain just what lies west of the sandstone. When sinking was done in a shaft near the sandstone the ground was found badly shattered. The company has a considerable equipment sufficient for an extensive exploratory work. Mayflower has a cash on hand upwards of \$40,000 which should easily suffice for its needs for more than a year to come. The results obtained will be of importance to Old Colony, Wolverine and the Keosauqua branch of the Osceola Consolidated.

"MANY ARE CALLED"

The ship upon clearing the harbor ran into a half-pinnac, half-rolling sea, that became particularly noticeable about the time the twenty-five passengers at the captain's table sat down to dinner. "I have that twenty-five of you will have a pleasant trip," the captain told them as the sun appeared, "and that this little assemblage of twenty-five will reach shore much benefited by the voyage. I look upon these twenty-two sailing faces much as a father does upon his family, for I am responsible for the safety of this group of seventeen. I hope that all thirteen of you will join me later in drinking to a merry trip. I believe that we seven fellow passengers are the most congenial, and I applied the judgment which chose from the passenger list these three persons for my table. You and I, my dear sir, are—Here, steady! Bring on the fish and clear away these dishes."—Everybody's Magazine.

SIX MILLION DOLLARS TO RUSH NEW YORK MAILS

Two More Postoffices to Be Built, One Near the New Pennsylvania Station and the Other Close to the Grand Central—Will Mean a Big Saving for Business.

New York, Aug. 10.—Chauncey M. Depew and Edwin B. Goddard, representatives of the federal senate, have acquired one piece of work which required possibly quite as much delicacy of handling, skillfulness and tact of directing through congress, as did any feature of the revised tariff bill. These senators have recently introduced for the government to build one new postoffice, at a cost of \$5,000,000, and to accept another new postoffice for rental, which is also to cost \$3,000,000. Therefore, there is appropriated for new postoffices in Manhattan through \$8,000,000.

It so happened that many of the considerable towns or villages in New York state, in New Jersey and in one or two other states were especially urgent in their appeals to the government to appropriate money for postoffice buildings. Some of these towns or villages really numbered in the hundreds of thousands of inhabitants, but the people impressed upon the congressmen who represented these towns the need of their communities for government buildings that were to cost from \$75,000 to \$100,000.

How these demands were to be denied and yet congress persuaded to appropriate \$8,000,000 for new postoffices in Manhattan was a problem which the senators from New York state now confessed seemed difficult to solve.

It was answered, however, by statements showing what the relation of these new postoffices to the rest of the United States was to be. It was admitted that with an investment of \$14,000,000 in the government buildings in Manhattan, to be used for postoffices service—although the federal courts are held in one of the buildings—it would seem to bring the rest of the country, especially the South and the Southwest, into actual physical contact with Manhattan. This beautiful marble structure is within a few minutes' approach of the ocean steamship lines. It is so conveniently placed with regard to the handling of foreign mails that if there were a postoffice established as an accessory to it there might be a saving of anywhere from three to eight hours in handling of mails intended for other parts of the country.

Moreover, the construction of this gigantic terminal and the consequent nearby not only of the elevated railroad, and of the surface trolley lines, but also of the extension of the McAdoo viaduct under the Hudson, are to cause vast business interests, especially retail, to be established in that immediate vicinity. There are to be six or eight great department stores, some of them having a superficial or floor area of as many as 400,000, which should easily suffice for its needs for more than a year to come. The results obtained will be of importance to Old Colony, Wolverine and the Keosauqua branch of the Osceola Consolidated.

LAKE COPPER PRODUCTION.

The output of the Lake Superior mines for July was 20,961,290 pounds of refined copper. This compares with an output of 29,566,300 in June, and is the largest monthly output on record for this district. For the first seven months of 1909 the Lake Superior mines have produced 131,042,290 pounds of copper compared with 131,042,290 in the same period of 1908. The detail of July production follows:

Table with columns: Output, Lbs., Per cent, etc. Lists production for various mines like Superior, Wolverine, etc.

ISLE ROYALE.

Isle Royale has been a long while in developing, says the Boston Financial News, but this is due to the fact that the mine was opened on a large scale and the installation of the machinery, being of the modern type, has required time and money. The operations are beginning to show the result of the previous developments, for the output of fine copper reported for July shows that the mine is now producing at a rate close to 6,000,000 pounds per month. On the Isle Royale side alone this mine will make a big proposition, although the copper is of low grade. On the other hand the Baltic side crosses the Isle Royale to the extent of about two miles and last week it was reported that drilling had been started on this side. If copper is found at all in the Baltic side it will be in large quantities and of a high grade. This is a secondary resource of the Isle Royale and one which may in time prove of more value than the Baltic side on which the mine was first opened.

SUPERIOR & GLOBE.

The home office of the Superior & Globe is advised by Superintendent Smedley that during the month of July the shaft had been sunk at the rate of 100 feet. On Aug. 1 the shaft had attained a depth of 435 feet and was still going through diabase unaltered in character. Occasional stretches of very hard ground were cut during July, making the progress of sinking difficult. Another lateral work will be undertaken at the depth of 500 feet depends largely upon conditions found at that depth. The vein dips towards the company's shaft and may be cut at any time. Superior is now spending at the rate of \$4,500 per day. At this rate it will have funds sufficient in its treasury for at least another year to come. The company's property is fully paid for and its equipment is sufficient for its needs for some months to come.

MAYFLOWER.

The commencement of exploratory work at the Mayflower will be watched with considerable interest. A contract for 10,000 feet of diamond drilling has been made and will probably be started this month. Efforts will be made to ascertain just what lies west of the sandstone. When sinking was done in a shaft near the sandstone the ground was found badly shattered. The company has a considerable equipment sufficient for an extensive exploratory work. Mayflower has a cash on hand upwards of \$40,000 which should easily suffice for its needs for more than a year to come. The results obtained will be of importance to Old Colony, Wolverine and the Keosauqua branch of the Osceola Consolidated.

I ALSO HANDLE
Artistic Monuments
COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE
Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Besides, it is very expensive. **WHITE BRONZE** is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. They who not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

City Brevities
Today's weather: Partly cloudy with showers; moderate temperature. Yesterday's temperature: Seven a. m., 60 degrees; noon, 61; 7 p. m., 59. Maximum, 62 degrees; minimum, 59.
Miss Marie Klem, of Holland, Mich., is the guest of Miss Irene Conell.
A daughter was born to Mr. and Mrs. Joseph R. Gillard yesterday forenoon.
Mrs. Margaret Coughlin, of Sault Ste. Marie, is visiting with Miss Kitty O'Neill.
U. S. Inspectors Gooding and York left yesterday afternoon for the copper country.
Members of the Ladies' auxiliary to the A. O. H., will meet to sew at Baraga Hall this afternoon.
Mr. and Mrs. Samuel Byrne entertained friends at cards last evening. Five hundred was played.
Philo P. Chase, of Charleburg, returned to his home yesterday, after spending two days in the city.
Miss Sadie Gilroy has returned home from Negaunee, where she has spent the past four days with friends.
Messrs. Thomas Hennessy and Margaret Layne have spent the past two weeks with relatives in Duluth.
Miss Pearl E. LeVaque returned last night from Minneapolis, where she had been visiting Miss Marjorie Roberts.
St. Agnes court will give a lawn social in Lakeside Park this evening, instead of in the new convent lawn, as at first announced.
Miss Agnes Green has returned to St. Mary's hospital, at Saginaw, to resume her studies as a nurse, after spending two weeks in the city visiting her parents.
The steamer Montague discharged a cargo of nut coal for the Consolidated Fuel & Lumber company at the dock yesterday. This is the third cargo that has been received by this company at Marquette this season.
At a meeting of the Red Cross legion, held last evening, Mrs. Charles McCormick, president of the order, was elected delegate to the biennial convention, to be held in Wilkesbarre, Pa., the latter part of next month. Mrs. Amelia Christensen was elected alternate.
McKinley council, No. 1205, Royal Arcanum, entertained Grand Regent John R. Eckstein of Jackson, Mich., at an informal meeting last evening, when plans were formulated for a class initiation on Aug. 20. A lunch and a smoker were enjoyed by the members present.
With the Ore Carriers--At the L. S. & L. dock, the Presque Isle cleared for Ashabula and the Western Star for Buffalo. The Rees and John Owen are at the dock. At the South Shore dock, the Havoc and Major cleared for Cleveland and the Montague for Tomawanda. The Popoia and Warriner are at the coal dock.
Page Admitted His Guilt--Louis Page admitted his guilt when arraigned before Justice Byrne yesterday forenoon and was bound over to circuit court on the charge of having passed a forged check at the Union Clothing company's store at the Havoc and Major wharves for Cleveland and the Montague for Tomawanda. The Popoia and Warriner are at the coal dock.
Company Reorganized--The Superior Lumber company was re-organized at a meeting of the directors, held in Ishpeming Monday. The reorganization was made necessary by the transfer of W. B. Castle, the president of the company, to Duluth. The new officers are J. H. Haddock, president; and Morgan Jopling, vice president. The vice presidency of the company has been vacant since the death of Samuel Mitchell, of Negaunee.
Two Teachers Hired--Two high school teachers were hired at the last meeting of the board of education, one to head the domestic science department and the other to take the place of Fred Volk, who resigned last June. Miss Alice S. White, was engaged to teach domestic science and A. D. Crose, of Ann Arbor, to teach mathematics. Both teachers were hired on the recommendation of Superintendent Gehrand, and are said to have had wide experience.
Many Tourists Here--An unusually large number of tourists were in the city yesterday afternoon and forenoon, and 5 o'clock front street was crowded with strange faces. The Pere Marquette No. 5 was at Spear's dock most of the afternoon and she had a large passenger list, bound from Detroit to the head of the lakes and return. Many of the visitors went to Presque Isle, while others spent the time on the down town streets. The Juniata with a large passenger list was in port from 5 to 6 o'clock last night.
Sunday School Picnic--The annual picnic of the Presbyterian Sunday school will be held at Lake Independence Friday day of this week. A train will leave the Marquette & Southeastern station at 9:15 a. m., and returning, will leave the lake at 5:30 p. m. The fare for adults will be fifty cents and for children not members of the Sunday school twenty-five cents. Children who are members of the Sunday school will be carried free. It will be a basket picnic and those who are expected to take take their lunches with them.
Photographer Hurt--M. M. Stierle, the front street photographer, was painfully injured while attempting to photograph animals by flashlight near the Yellow Dog river Monday evening, and was brought to Marquette in a wagon yesterday from Aubers. In setting off the flash light powder, an explosion took place, which wrecked the camera and sent a piece of the iron Mr. Stierle's left hand, cutting a deep gash across the back, about four inches long. Upon his arrival in this city, Dr. Youngquist dressed the injury and extracted a piece of tin which was in the wound. Unless the gash should become infected, it is believed that the wound will result in any permanent injury.
Are Being Criticized--The Lincoln pennies are not making as great a hit as the treasury officials had hoped for. Artists have always declared that a penny superior in design to the Indian penny could not be turned out and it is claimed that the Lincoln penny is a practical demonstration of that statement. The new pennies are being subjected to criticism by others than artists. It was first discovered at the treasury that they did not stack up as well as the Indian coins. The most serious objection to them, however, is that they are thicker than the old coins. In situations which use coin machines have already begun complaining that the new pennies do not fit the machines. The issue, however, is in great demand by souvenir hunters.

When Ought I Begin Saving

Put the question in the first person. Let it make direct appeal to you reader. "When ought I begin saving?" To answer, "NOW" is hackneyed. To say, "When my earnings are larger," is a sure sign of spinal weakness. "In the Fall" is scarcely better, and "When I get married" is almost as bad as not saying it at all. When ought I begin saving?

Andrew Carnegie began at twelve years. He was earning \$1.20 per week and out of that he saved \$1.00 per month. Other men, who perhaps have never been quite so rich as Mr. Carnegie, but who tower head and shoulders above the multitude, began even younger. What criterion fixed the right moment at which to begin saving in the lives of these men? Was it the importance of the hour? Was it the size of income? Was it a favorable season or some unusual change from one state to another? Or was it the awakening of some great idea? An idea to do something—to be somebody—to fill a place in the world—to catch step with those who were leading in the great march onward. The idea may have first awakened in the minds and hearts of the mothers of these men. Mothers are often instigators of great and high plans. "When ought I begin saving?"

You ought to begin saving whenever there sweeps over you an earnest desire to be something more, to have something more, and to do something more, than the common brood, regardless of your age, earning power, or family status.

Marquette National Bank

Webber & Co. had the following to say of the stock market:

The Copper Producers' association report was the most audacious argument we have had in the metal situation for nine months. It shows that consumption has fully kept pace with production of the first six months of the year, and any increase in business now but creates sufficient demand to raise the price. The whole list closed strong with no pressure to sell, and we believe that as soon as the actual condition of affairs becomes widely known we shall have a broader and higher market. Nevada and North Butte were especially well bought today, the latter being raised by the traders without reason. Copper Range, Gt. Northern, Superior, and the other general speculation seems to be going on in both Lake and North Lake and both stocks are favorites with the traders for quick turns.

INSTRUCTIVE TALK ON BUSINESS METHODS

WELKNOWN INSTRUCTOR GAVE ADDRESS AT THE Y. M. C. A. LECTURE ROOMS MONDAY NIGHT

In a lecture to business men of this city, delivered Monday evening in the Y. M. C. A. hall, W. T. Goffe, Wisconsin and northern Michigan superintendent of the Sheldon school, outlined the "Science of Modern Business Building" from the viewpoint of service. He deduced this fact: That the customer pays for the goods and also for service, and that the value of the service given to the customer equals the profit made in the transaction.

Mr. Goffe declared that the two greatest factors in business success are: First, quality of goods, and, second, excellence of service; and that the ability to serve better and better depended upon four great personal powers, namely, ability, plus reliability, plus endurance, plus action. It was shown clearly how these great concepts were to be achieved. Ability being the result of the development of observation, judgment, reason, tact, memory, concentration, etc., reliability the result of the development of such feeling powers as faith, ambition, loyalty, kindness, helpfulness, reverence, etc., endurance the result of the development of such bodily powers as strength, health, activity, etc., and action upon the development of decision, purpose, self-control, energy, and the like.

"I believe," said Mr. Goffe, "that confidence is the basis of trade. That any man's success depends first of all upon his ability to inspire and hold the confidence of his fellowmen. That confidence is the building of personality. That there are two kinds of personality; one that inspires confidence, and the other that creates suspicion. That the confidence-begetting kind of personality is the fruit and expression of character and health. That character and health are to be developed by work and desirable qualities of mind and body such as belong to all normal people. That the cultivation of such powers results in a decrease of error and an impression upon the individual of the importance of becoming an expert in his line of work. That the power to build business belongs to all normal people, and is the undoubted result of the development of these powers. That the business man should learn to read human nature; to take the mental measures of others; that he adapt himself to the different types and temperaments of those whom he meets, in order that he may get and keep in harmony with each one. That he should learn to be logical at all times, so that he may be so clear in expressing his facts that others may see his points as he does, and be persuaded to agree with him. That he should learn to understand the mental law which covers all agreements that he may the better attract attention, create interest and desire and bring to decision and action and close business. That he should learn to understand and apply the law of mutual benefit, so that he may make the customer a "repeater," as well as a link in the endless chain of bringing more customers. That he should be well posted in general business topics that go direct to the heart of business, such as credits, costs, system, advertising, commercial correspondence and commercial law. All of which will mean that he will work more harmoniously with those from whom he buys, and those to whom he sells. I believe the knowledge of these four factors constitutes the science of business. That business should be studied and practised as a profession, and when this is done by the mass of business men the problem of business will be easily solved."

FROM MORGAN'S CURB LETTER.

"The July statement of the Copper Producers' association issued today shows a decrease in the surplus of 32,261,431 pounds and an excess by 13,000,000 pounds the highest figures named in conservative estimates. An important item in the report is the fact that domestic consumption of the metal is rapidly increasing. Domestic deliveries in July amounted to about 75,000,000 pounds, as against 69,000,000 pounds in June, 47,000,000 in April and 43,000,000 in February. In view of the very favorable showing made by the foregoing report, the market for the shares was, in a measure, disappointing. Some fair gains were recorded, among the most important being 1 1/2 points in Anaconda, 2 in Calumet & Arizona, and 2 1/2 in Superior copper. Calumet & Corbin was bid up to \$1 to \$1.10, bringing out any stock. Chief Consolidated and Curtis were unchanged from yesterday's closing. The close was quiet, but firm and we are looking for higher prices."

IRON MARKET HEALTHY.

Furnaces in Eastern Pennsylvania Again Advance Prices on Pig Iron.

The press dispatches from eastern iron and steel centers indicate most healthy market conditions, with prospects that the rush of orders for railroad and other structural iron will not cease for some time. Furnaces in Eastern Pennsylvania, which have oversold their output for several months, have again advanced prices fifty cents per ton on pig iron, but the general market is not more than twenty-five cents higher than it was a week ago. Buffalo furnaces have also advanced the prices from twenty-five to fifty cents per ton.

Contracts for rails have been placed by railroads aggregating 30,000 tons, including 5,000 tons for the Pennsylvania and Harriman lines and 10,000 for the Burlington. The Baltimore & Ohio is still in the market for 20,000 and the Burlington for 10,000; the New Haven will also come in the market later. Export orders have aggregated nearly 25,000 tons, including 10,000 for Manila and 9,000 for Australia. Small orders have been placed for shipment to Havana and Honolulu. Belgian mills have taken orders for 30,000 in the international market, while French mills have taken orders for shipment to South America and Russian mills have taken home orders.

Orders have been placed for 11,000 to 12,000 additional cars, including the Pennsylvania, Northern Pacific, Burlington and Chesapeake & Ohio, calling for about 125,000 tons of steel rails and shapes. Orders for 10,000 to 12,000 cars are still pending. Structural steel orders have aggregated about 40,000 tons, including 108,000 tons for bridges and 22,000 for other structures. The principal contracts have been 13,000 tons for the Winner bridge at Kansas City and 6,000 tons for the Forged Steel Wheel company.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by Henry Cardev, secretary of the board of education of Tilden township, National Mine, Mich., until 12 o'clock of noon Wednesday, Aug. 18, 1909, for the building and completion of an addition to the present school house. Plans and specifications can be seen at the secretary's office, also at the offices of the architects, Marquette, Mich., and Milwaukee, Wis. The right to reject any and all bids is reserved.

CHARLTON & KUENZLI, Architects. (8-4-8d)

TO HAVE NICE COTTAGE.

George A. Newett, who is to erect a summer cottage on Lake Michigan, will have a very attractive place. The building, on which work was started Monday by Wahlman & Son, will be in keeping with the site, which is one of the prettiest on the lake. It will be a two-story frame structure, with living room, dining room, one bed room, kitchen, pantry and fire place on the first floor, and three bedrooms and a large hall on the second floor. There will be a veranda on three sides, with a total length of ninety feet and width of ten feet of the ground floor, and a balcony six by twelve feet in size opening from the second floor. The building will be completed within four or five weeks.

The has-been is entitled to a lot more sympathy than the never-was.

Have your piano tuned now. M. J. Olson, the piano tuner, will remain in this city during the summer months. Orders taken at Wm. Leininger's store. (8-28-09)

NEW PHYSICAL DIRECTOR.

Lower Michigan Man Will Succeed Mr. Westerman at the Y. M. C. A.

W. E. Hawthorne of Bay City, Mich., has been called by the physical directorship of the Ishpeming branch of the Young Men's Christian association, succeeding Mr. Westerman, resigned.

Mr. Hawthorne is a man of considerable experience as an instructor, having been assistant physical director at the University of Nebraska, also connected with the Oak Park (Ill.) Y. M. C. A. and other institutions.

He has attended the Chicago Y. M. C. A. Training school, and comes to the Ishpeming association highly recommended for the position here. He will arrive in Ishpeming and begin his duties Sept. 1.

DWELLINGS AT NORTH LAKE.

J. Wahlman & Son Have Contract for Five Double Houses at New Mine.

The Cleveland-Cliffs Iron company, which is making extensive preparations for the development of its North Lake property, has awarded J. Wahlman & Son a contract for the erection of five double dwellings, to be constructed from the plans for the double houses at Gwin, erected by the same firm. It is possible that a contract for five more double houses will be awarded within a short time. The working force is to be increased as fast as places can be found for the men.

Work was started yesterday. It is expected that all the houses will be ready for occupancy before the first of the year. At the rear of each dwelling there will be a large double shed. An attractive site has been selected for the homes, at some distance from the mine.

Wahlman & Son are now employing about fifteen carpenters on their North Lake jobs. The combination warehouse and office, started a few weeks ago, is enclosed, and will soon be ready for occupancy. The office will be equipped with tub and shower baths for the captains, bosses and office employees. J. A. Blackney has the plumbing contract. Albin Johnson is looking after the carpenter work for Wahlman & Son.

The foundation for the dwelling to be occupied by Superintendent Graff and wife has been completed and L. E. Chaussee, the contractor, has started his carpenters to work. In excavating for the foundation and basement it was necessary to cut into the ledge.

85 Stores Make Low Prices

We Wish to Talk Today to Those Who Must Make Their Dollars Count

If you know the real value of money and must of necessity make your dollars accomplish the utmost in your purchase of home furnishings, then our message today is intended especially for you. We put aside all extravagant talk. We simply say this and we mean every word of it: "Our prices are lower by a big margin than those of any other home furnishing concern in Marquette county."

TODAY make a comparison of prices in our announcement and those of others. TOMORROW make a comparison of the articles themselves. The result will be, we know full well. There's not another home furnishing institution that can come anywhere near equalling these splendid values, and with all the saving of money that is sure to follow the purchase of goods at our store. We offer you the benefit of our individual Credit Service, meaning, you can furnish your home on small weekly or monthly payments.

Handsome Dressers, made in golden oak, birch, mahogany and white maple. Some with French bevel mirrors, hung on artistic standards; cases are beautifully polished; 2 large and some 12 small drawers; brass handles, good locks, priced at \$9

There is grace and beauty in this article of Furniture; carvings are artistic; the top drawers have oval front, veneered to prevent warping; legs of French shape and have curved claw feet. Own one of these magnificent buffets. We have put the price down to \$25.00

ADVANCE IN LUMBER PRICES PREDICTED

LOCAL DEALERS ADVISED BY THE WHOLESALE INCREASES ALL ALONG THE LINE.

BUILDING OUTLOOK IS ROSY

Many Homes Have Been Built in Marquette the Past Year, and Boom is Now on All Over the Country.

Those who have home sites and intend to build would do well to get out their plans and let the contractor now, according to a local lumber dealer. A building boom is on in all parts of the country and the wholesalers are threatening an advance in all kinds of lumber, which has already taken effect in some lines, although the retail price is keeping at the lower level that it hit a year and a half ago, when things suddenly became dull in almost every market.

The producers are turning out the material largely on order and they are not letting stocks accumulate to such an extent as to keep the market down. Building in all cities is booming and the wholesalers are now notifying their customers of increases in price commensurate with the increased demand.

The party had left the city for a spin around Presque Isle. Ahead of the Eldredge car on Pine street was C. C. Van Iderstine's E. M. F. car, driven by Dr. Van Iderstine. Ralph Eldredge planned to pass the Van Iderstine car at the intersection of Pine street with Fair avenue, assuming that the Van Iderstine party was also on its way to Presque Isle.

As the corner was approached, the Van Iderstine car was turned on a curve to Fair avenue, but it was seen that the Eldredge car was coming up at a rapid speed, and Dr. Van Iderstine again threw his car to the right, to the right side of the Pine street road.

The accident was heard of with great regret by the friends of the young couple, and there were many inquiries during the early part of the evening as to their condition. Mr. and Mrs. Eldredge are now enjoying an auto tour in the West. As the young people now promise to come out of their experience the good order within a few days it is not planned to notify them of the accident.

The accident was heard of with great regret by the friends of the young couple, and there were many inquiries during the early part of the evening as to their condition. Mr. and Mrs. Eldredge are now enjoying an auto tour in the West.

DEATH OF WILL S. ADAMS.

Demise of Wellknown Marquette Young Man Occurred at Midnight.

The friends of Will S. Adams will be shocked to learn of his sudden demise. His death occurred shortly before 12 o'clock last night. His passing was due to heart failure, following an attack of intestinal poisoning suffered last Sunday. At the bedside when death came were Mrs. Adams and the attending physician and nurses. The sufferer was conscious to the end. Mr. Adams was thirty-two years of age. He was born in Detroit and when a small boy was adopted by the late Sydney Adams. Since then he had made his home here. He was wellknown throughout the county.

PARTY OF SIX THROWN FROM AUTOMOBILE

ELDRIDGE CAR IN ACCIDENT AT CORNER OF PINE STREET AND PRESQUE ISLE AVENUE—NO ONE WAS SERIOUSLY HURT.

The most serious automobile accident that has occurred in this county this season took place about 5:30 o'clock yesterday afternoon at the corner of Pine street and Fair avenue, when six occupants of A. B. Eldredge's Mitchell touring car were thrown out and badly shaken up, though fortunately all escaped serious injury.

The party had left the city for a spin around Presque Isle. Ahead of the Eldredge car on Pine street was C. C. Van Iderstine's E. M. F. car, driven by Dr. Van Iderstine. Ralph Eldredge planned to pass the Van Iderstine car at the intersection of Pine street with Fair avenue, assuming that the Van Iderstine party was also on its way to Presque Isle.

As the corner was approached, the Van Iderstine car was turned on a curve to Fair avenue, but it was seen that the Eldredge car was coming up at a rapid speed, and Dr. Van Iderstine again threw his car to the right, to the right side of the Pine street road. As the Van Iderstine car turned to the left, toward Fair avenue, Ralph Eldredge also threw his car to the left. It approached the curb too closely, and the left front wheel struck the curb with force enough to buckle in the spokes, dropping the axle to the ground.

The accident was heard of with great regret by the friends of the young couple, and there were many inquiries during the early part of the evening as to their condition. Mr. and Mrs. Eldredge are now enjoying an auto tour in the West.

BALL PLAYER SHIELDS AMONG THE MISSING

THOUGH UNDER PAROLE FROM THE PRISON, HE TOOK FRENCH LEAVE MONDAY NIGHT, AFTER "TOUCHING" FRIEND.

The whereabouts of Lee Shields, who has played second base on the Marquette team since early in June, was the subject of much speculation yesterday, he having disappeared some time between 9 o'clock Monday evening and Tuesday morning. Shields was a paroled prisoner from the Marquette prison and he is being sought after by the prison authorities.

That he should have run away is quite surprising to all who knew him, as he was making good wages and apparently was well satisfied here. That he deliberately planned to take French leave, however, is evidenced by his attempts to borrow money of several of the ball players, and Monday evening he succeeded in getting \$10 from Pitcher Clinton, stating that he had just been informed by Warden Russell that he owed two prisoners \$5 each, which had to be paid at once. He also drew about \$25 from Manager Fox Monday evening, which was coming to him as his share of the baseball games in which he has played.

The first intimation that he had skipped was that he did not come to work yesterday morning, and when he could not be found, Mr. Tauch reported his absence to the warden. It is suspected that he left the city on the midnight train and the police officers in DuRoi and towns on the way have been notified to be on the lookout for him.

It is generally believed that Shields must have recently gotten into some trouble the nature of which is not generally known, which was the reason for his leaving the city. He was well liked by all who knew him and apparently was trying to make good. He had made an excellent record as a ball player and his departure will be a severe loss to the team.

Shields was about thirty years of age, five feet eleven inches high, angular, and of dark complexion.

IN MEMORIAM.

Charles H. Gever, a Native of This City, Has Passed Away.

Charles H. Gever, only son of Robert and Elizabeth Gever, was born in Marquette, Jan. 23, 1872, and departed from this life at West Salem, Ill., Aug. 4, 1909, at the age of thirty-six years, six months and eleven days.

Mr. Gever was stricken with paralysis some few months ago and had been confined to his bed ever since. He bore his affliction with more than ordinary patience and had hopes of recovery until a few days before he died.

After he was taken ill, he was moved to West Salem, Ill., the home of his wife's people, with the hope that the change of climate would benefit his health.

The funeral services were conducted at the M. E. church in West Salem by the pastor, the Rev. S. D. Burski, assisted by Rev. Conch, of the Christian church, of which Mrs. Gever was a member.

The Masons then took charge of the remains and he was laid to rest in the English Moravian cemetery. Mrs. Gever's adopted daughter, Thelma May, his mother, and only sister, Mrs. Bessie Sanders, of Marquette, and a host of relatives and friends, his father presided him in death Dec. 22, 1908.

After he was taken ill, he was moved to West Salem, Ill., the home of his wife's people, with the hope that the change of climate would benefit his health.

It's Foolish to Hoard Your Money.

Why? Well, there are many good reasons why you should not carry your savings about with you, or tuck them away in some private place of fancied security.

You take big chances with money so disposed of. It may be stolen, burned, lost or foolishly spent. You may be tempted by some reckless "gamble" or speculative "investment" which would not appeal to you if your savings were safe in the bank.

And, above all, hoarded money earns nothing for you. We not only give you absolute safety and protection, without charge, but we pay you 3 per cent. (compounded semi-annually) for the privilege of serving your interests.
