

BIG WAR GAME TO BEGIN TODAY

Landing on the Southern Coast of Massachusetts, a Hostile Force of Troops Will Endeavor to Capture the City of Boston.

Guardsmen of New York, New Jersey, Connecticut and District of Columbia, Some Thousands Strong, Will Participate in the Maneuvers as the Enemy, While the Entire Brigade of Bay State Militia Will Strive to Defend the New England Metropolis.

Middleboro, Mass., Aug. 13.—Tomorrow Boston will be besieged by an armed "enemy." Landing on the southern coast of Massachusetts, a hostile force will endeavor to "capture" the city.

Automobiles will play an important part, and as the "red" army is much stronger in this respect than the defending "blue," a barrel of giant tanks will be distributed over the roads of Plymouth and Bristol counties, which may be used by the "red" army.

Invading Army Sails. New York, Aug. 13.—Three thousand militiamen from Manhattan, Brooklyn and New Jersey embarked tonight to attack the south shore of Massachusetts.

William Alden Smith Wants "To Be Shown." More Indications That Michigan's Junior Senator and Congressman Dikema Are Not Always at One on All Subjects.

Grand Rapids, Mich., Aug. 13.—Indications that Senator Smith and Congressman Dikema are not always at one on all subjects have been noted by politicians over in this end of the state recently.

Two signs of trouble between the two have been noted recently and there is a third ground for disagreement even greater, just around the corner.

Explosion at Powder Works. Two Men Are Killed and \$25,000 Damage Is Done at Aetna, Ind.

Gary, Ind., Aug. 13.—Two men were killed and property valued at \$25,000 was destroyed in an explosion at the Aetna powder mill at Aetna today.

Dying Woman Accuses Him. Illinois Man Jailed for Attacking His Wife With an Axe.

LAWYERS MAKE CLOSING PLEAS

With the Arguments of the Attorneys, the Inquiry Into the Death of Lieutenant Sutton, U. S. Marine Corps, Is Concluded.

Court Will Now Privately Consider the Findings, Which Will Be Forwarded to Washington—In the Event That It Is Again Decided the Tragedy Was a Case of Suicide, the Mother of the Decedent Announces She Will Carry the Matter Further.

Annapolis, Md., Aug. 13.—The arguments of Henry M. Davis, counsel for Mrs. Sutton, and Attorney Bierney, counsel for Lieutenant Adams, concluded the inquiry into the death of Lieutenant Sutton today.

Attorney Davis, in his address, argued that everything tended to negative the idea that Sutton contemplated suicide, and said the present inquiry was the family's only course to remove the stigma.

Officials of the Street Car Companies and Representatives of the Men Enter Into a Three and a Half-Year Contract.

Chicago, Aug. 13.—Formal peace under a three and a half year contract was agreed upon at a meeting tonight of the officials of the street railway companies and the representatives of the unions.

Tariff Bill Enacted, Business Is Expanding. Reports from All the Important Cities in All the Leading Trades Are Most Encouraging, and Working Forces Enlarge.

St. Louis Loses Out. Atlantic City Gets Next Year's Encampment of the G. A. R.

Salt Lake, Aug. 13.—The Grand Army encampment ended tonight with a fireworks display at Ensign Peak. By a vote of 307 to 295, Atlantic City was chosen over St. Louis as the place for the next encampment.

Stockholders Put Up Cash and Tipton Bank Will Reopen Monday.

Milton, Del., Aug. 13.—Almost the entire town of Milton was destroyed by fire early today. Nearly one hundred houses, a lumber yard and the bank building was destroyed.

Only Two Houses Escape. Fire Destroys Almost the Entire Town of Milton, Delaware.

Justice Mills Signs Order. Harry Thaw Will Go Back to the Mad House Next Wednesday.

Mount Vernon, N. Y., Aug. 13.—Harry K. Thaw will go back to Matteawan next Wednesday, the 18th, Justice Mills today signed a formal order committing him to the asylum on the date.

Dying Woman Accuses Him. Illinois Man Jailed for Attacking His Wife With an Axe.

Cairo, Ill., Aug. 13.—Henry Salzman, a photographer, was jailed today, charged with attempting to murder his wife with an axe.

THE WEATHER

Washington, Aug. 13.—The following is the weather bureau's forecast for Upper Michigan: Local showers, Saturday and probably Sunday; light to moderate east and southeast winds.

BASEBALL

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY

Table listing baseball games for today, including Philadelphia at Pittsburgh, New York at Chicago, etc.

YESTERDAY'S GAMES

Table listing results of yesterday's baseball games, including Pittsburgh vs Chicago, St. Louis vs Cincinnati, etc.

MOVES TO PREVENT MONOPOLIES

Government Withdraws Big Acreage of Waterpower Sites in Utah.

Washington, Aug. 13.—What is said to be the largest number of acres of land withdrawn for temporary waterpower sites in the history of the interior department was made today, when Acting Secretary Wilson withdrew 87,300 acres along the Colorado river, in Utah, to prevent monopolies.

IRRIGATION CONGRESS ADJOURNS

Spokane, Wash., Aug. 13.—With the election of officers, the selection of Pueblo, Colo., as the next meeting place and the adoption of resolutions commending the Mississippi deep waterways, the National Irrigation congress ended today.

SEND A JEWEL TO TAFT

American Masons in England Elect Him to Honorary Membership.

CLEAVE SWEEP BY CHINA

Complete Change to Be Made in Personnel of the Washington Legation.

TAFT'S "HOODOO" IS PUT TO ROUT

At Least as Far as His Experience on the Golf Links Is Concerned, Friday, the 13th, Is the President's Lucky Day.

With John Hays Hammond as His Partner, the Nation's Chief Is Successful in a Closely Contested Match, Winning by the Score of One Up, and When Officials Come to Confer About Census Patronage They Find Him in Exceptionally Good Humor.

Beverly, Aug. 13.—Today—Friday, the thirteenth—President Taft's golf "hooodoo" disappeared. The president, with his partner, John Hays Hammond, defeated General Adolphus Ames and W. J. Boardman, one up.

AVIATOR WILLARD ECLIPSES ORVILLE WRIGHT'S RECORD

Piloting the Aeroplane "Golden Flyer," Eastern Aerial Navigator Covers 12 Miles Across Country in 19 1/2 Minutes.

Minneapolis, Minn., Aug. 13.—What is said to be the record for a cross-country distance flight for aeroplanes in this country was made by C. Foster Willard in the "Golden Flyer" today, when he covered twelve miles in nineteen and one-half minutes.

SEATTLE CLUB WINS THE HONORS

Opening Events of the Amateur Athletic Union's Annual Championship Meet.

Seattle, Wash., Aug. 13.—Before an enthusiastic crowd, the first day's events of the annual championship meet of the Amateur Athletic union were run off in the exposition stadium this afternoon.

IRRIGATION CONGRESS ADJOURNS

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00

Entered as second class mail matter at Marquette, Mich.

Jeffries intimates that Sam Berger has taken a good deal on himself.

Laurium has made fitting preparations for the firemen's annual frolic.

The state of Michigan is to borrow \$250,000 to relieve its financial pinch.

Mr. Jack Johnson, premier pugilist, needs no press agent to announce his presence in town.

Congressman Sam Smith, of the Sixth district, is planning to interest the chambers of commerce of lower Michigan cities.

The decision of Justice Mills that Thaw is insane and that he must be returned to Matteawan.

Some of the newspapers are taking the suggestion that Senator Cummins of Iowa may be a candidate for president in 1912.

This is the last year that an encampment of the state troops will be held at Ludington.

Detroit saloonmen are considering the advisability of testing the constitutionality of the various provisions of the Warner-Cramton liquor law.

The Milwaukee Free Press presents one view of the decision of Justice Mills in the Thaw case.

Over against the few Thaw sympathizers, have stood thousands of citizens who saw in the numerous trials merely an evidence of what concessions would come from our courts of justice.

For the sake of these thousands, Justice Mills' decision is particularly welcome.

The Ironwood baseball team, one of the strongest independent teams in the Northwest, has disbanded.

Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures.

Superior Trust Company HANCOCK, MICH.

Capital and Surplus... \$300,000.00

AWFUL RASH ALL OVER BOY'S BODY

Weeping Eczema Kept Spreading on Little Sufferer—A Score of Treatments Prove Dismal Failures—Grateful Father Tells of

CURE ACHIEVED BY CUTICURA REMEDIES

"It gives me great pleasure to express my deep gratitude in appreciation of the incalculable benefit that the Cuticura Soap, Ointment and Resolvent did my little boy. He had an awful rash all over his body and used to weep all night long. Any place where the water would form another sore and it would become unmanageable. The physicians failed utterly and finally to remove the trouble. Then I was told to use the Cuticura Remedies. I got a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and before we had used half the Resolvent I could see a change in him. In about two months he was entirely well. When people see him now they ask: 'What did you get to cure your boy?' and all we can say is: 'It was the Cuticura Remedies. So you see, it always has firm and warm friends. George F. Lambert, 139 West Centre St., Mahanoy City, Pa., September 26 and November 4, 1907.'

MILLIONS OF PEOPLE Rely on Cuticura Remedies. Millions of the world's best people use Cuticura Soap and Cuticura Ointment, assisted, when necessary, by Cuticura Resolvent (liquid or pills) for preserving, purifying and beautifying the skin, for eczemas, irritations and inflammations, for chafing, sores, itching, scales and dandruff, and the stopping of falling hair, for baby rashes, itches and chafings, and many sensitive, anti-eczema purposes which readily suggest themselves to women, as well as for all the purposes of the toilet, bath and nursery. Guaranteed absolutely pure. Cuticura Remedies are sold in 5-cent, 10-cent and 25-cent packages. Sole Proprietors, Cuticura Remedies, Inc., 137 Columbus Ave., Boston, Mass. Mailed Free, Cuticura Book on Skin Diseases.

tended to include the manufacture of automobiles, it collapsed from sheer top-heaviness and resulted in serious financial loss to Colonel Pope and others who had invested in his enterprises.

First there came a wonderful growth of competition in the bicycle industry, with factories springing up in every part of the country, and all anxious to grab a share of the business.

Then the bottom suddenly dropped out of the bicycle market, due to the subsidence of cycling as a fad, and the market was literally glutted with cheap wheels from bankrupt stocks and receivers' sales.

About this time Colonel Pope shifted his own business to the manufacture of automobiles, but the heavy expense for machinery, patterns, stock and introductory expenses, together with a fresh wave of competition that somewhat resembled the fierce competition in the bicycle business, eventually forced the Pope company to the wall.

Although the bicycle is no longer a fad it still plays a very important part in the industrial and business life of this nation, while it is also used to a large extent by the people of nearly every country and clime.

Efforts have occasionally been made to revive the wheel in popular favor, and although these efforts have thus far failed the time may come when cycling will again become popular and fashionable as a pastime.

So long as wheels are made and used, however, the name of Colonel Pope will continue to be associated with their early history.

For it was he who first started the bicycle on the road to popularity, just a little more than a quarter of a century ago.

What might be said. It is hardly necessary for the organizers and promoters of the conference of Democrats called to meet in Albany on Sept. 1 to disclaim selfish purpose. It will be freely conceded, except by those who are not Democrats, that the estimable gentlemen will assemble with sincere desire to find a plan and to formulate an appeal by which their party can be revitalized.

They will raise their voices for harmony and efficiency generally, and talk most truthfully of the delight which they feel in a Democratic reunion—a veritable Democratic old-home week in early November. But it is one thing to call the wandering sheep to the fold and quite another successfully to shepherd them in.

"I can still spirits from the vasty deep," said the first view president, "if we are so dependent on our batteries for defense against invasion, it would seem that concentration of our time on these defenses is even more urgent than the acquisition of knowledge as to the strategic value of Taunton as a base.—Boston Transcript.

Subscriptions for Rock River Township Highway Bonds. Notice is hereby given that the township board of Rock River township, Alger county, Michigan, will receive subscriptions for the whole or any part of an issue of bonds amounting to \$18,500, which bonds will be issued in denominations of \$100 each and bear interest at 5 per cent per annum, payable annually on Feb. 1st of each year.

The passing of Colonel A. A. Pope, of Boston, Mass., recalls the start, the growth and the eventual subsidence of the bicycle craze which swept this country a few years ago.

Colonel Pope was widely known as the pioneer in the business of manufacturing bicycles, and during the few years in which the old-fashioned "ordinary" held sway the product of the Pope factory found its way to every section of this country and also to many other parts of the world.

Some ingenious person contrived the plan of putting the little wheel in front, in order to lessen the danger of "headers," and very quickly thereafter followed the general plan of the modern "safety," with wheels of equal size and the rider located above and between them.

Although the earlier business efforts of Colonel Pope, in the manufacture of bicycles, resulted in his amazing good sized fortune, it is a rather singular fact that when this business had grown to enormous proportions and been ex-

THE GERMAN INVASION SPOOK.

The spook of German invasion is conjured up again, General Wood, who is quoted in the New York Sun as declaring that Germany has "quietly but thoroughly completed preparations for the movement of an invading army of 165,000 men" is careful to disclaim any intention of German invasion.

He simply means that Germany has 165,000 men held in readiness for immediate conversion into an army of invasion, with transport marked out in advance, so that this host can with the minimum delay be embarked and sent on an overseas campaign.

Everything in the military line is done thoroughly in Germany, and as the government in effect exercises a sort of censorship which is seconded by the patriotism of the German press, nothing is "written up" inconveniently in advance.

Undoubtedly the very able men who constitute the inner circle of the most remarkable general staff in the world have made plans against every hypothesis and have not omitted the possibility of sending a great army overseas to strike an antagonist whose naval defence has been paralyzed.

To move a force of 165,000 men with all their equipment, ammunition and supplies overseas for any considerable distance is an enormous task involving the employment of a vast fleet of transports conveyed by so many warships as to prevent raids by hostile squadrons.

Clearly such a plan must be postulated on Germany having acquired command of the ocean for at least the time being. Therefore we may conclude that the German strategists have included the United States within the scope of their hypothesis, they have assumed that the invasion will follow the annihilation of our fleet.

We may also be reasonably sure that Germany, in invading any country, would keep its army well equipped with modern machinery to make war in detachments. It would not be likely to land 9,000 or 10,000 men to advance through a thickly settled, highly organized country, against a city which with its suburban dependencies has over 1,000,000 inhabitants.

Nevertheless, the popular imagination, despite General Wood's disclaimer, and the inherent difficulties of such a German enterprise, will be set against Germany, and we may have a renewal of the agitation in magazines and service papers which has for its end "more soldiers" and more battleships.

Our relations with Germany are so friendly that it is certainly regrettable that the German invasion spook should be injected into the popular interest in the "war game."

General Wood is also quoted as saying that the military plan which will be adopted in this state will "demonstrate the country's imperative need of more coast batteries and soldiers to man them." Such being the case, would it not be wiser to give the time required by the war game to familiarizing all our militia with the use of the rifle, and to see if we are so dependent on our batteries for defense against invasion, it would seem that concentration of our time on these defenses is even more urgent than the acquisition of knowledge as to the strategic value of Taunton as a base.—Boston Transcript.

Upper Peninsula Terrifying Experience—Lost for thirty hours in dense woods and swamps, and continuing in a circle and with only wild berries for food, was the terrifying experience of Harold Mead of Escanaba.

Mr. Mead entered the woods at Blake's camp, near Gleason, on the line of the Escanaba & Lake Superior railroad, and, becoming lost, wandered about until late in the next afternoon, when he fought his way out to the Northwestern tracks at Swaney. He was thoroughly exhausted.

Wireless Station for Escanaba—That Escanaba is to have a wireless telegraph station was made certain during the week, when word was received by J. A. Stromberg that the United States company would send a crew of men there late in September to undertake the construction work.

The business men of the city have agreed to give the company \$50 worth of business a month, and fifty signed contracts, each pledging patronage to the extent of at least a dollar a month, have been sent to the Chicago headquarters of the wireless company.

Sons of Herman—Eight upper peninsula men received recognition from the Michigan grand lodge of the Sons of Herman at the annual convention of the society at Saginaw. The officers were elected as follows: Grand president, Louis Mueller; first vice president, Joseph Walsh; Grand president, Joseph Walsh; Grand president, Joseph Walsh; Grand president, Joseph Walsh.

New Ball League Projected—Another new ball league is in sight. James J. Ryan and others associated with him in the sporting line at Sault Ste. Marie will endeavor to form an association taking in the two Soos, Cheboygan and Petoskey. Letters were sent to the sporting men in the lower peninsula towns yesterday.

Will Keep Colored Men—That the reporter who was responsible for the origin of the much printed story to the effect that the St. Paul railroad intends to eliminate colored porters and waiters upon its passenger trains was peddling some very torrid hot air is the statement of a C. M. & St. P. official.

Body May Be Exhumed—It is possible that the remains of the late W. H. Falvey, supervisor of the town of Stephenson, Menominee county, may have to be disinterred for an inquest, this as the result of a claim which is to be made for \$3,000 on an accident insurance policy he held.

We Give Away Absolutely Free of Cost

The People's Common Sense Medical Adviser, in Plain English, or Medically Simplified, by R. V. Pierce, M. D., Chief Consultant, Physician to the Invalids' Hotel and Surgical Institute at Buffalo, a book of 1008 large pages and over 700 illustrations, in strong paper covers, to any one sending 21 one-cent stamps to cover cost of mailing only, or in French Cloth binding for 31 stamps.

Over 680,000 copies of this complete Family Doctor Book were sold in cloth binding at regular price of \$1.50. Afterwards, one and a half million copies were given away as above. A new, up-to-date revised edition is now ready for mailing. Better send NOW, before all are gone. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION THE ONE REMEDY for woman's peculiar ailments good enough that its makers are not afraid to print on its outside wrapper its every ingredient. No Secrets—No Deception.

THE ONE REMEDY for women which contains no alcohol and no habit-forming drugs. Made from native medicinal forest roots of well established curative value.

to all that the monetary trouble from which she is suffering is a depressing dollar. It said there was not enough gold, and that there would not be advancing prices suggest that there is too much gold; when he looks at his increasing household bills the average man is able to judge what would be his condition if the dollar had been further cheapened.

With no present issue, with no real championship of fundamental Democratic principles, and with the recent record proving incapacity to judge a situation, it would be strange indeed if the Democratic organization were prosperous. Mechanical reorganization will do nothing toward rehabilitation. Conferences are futile as long as the party is weighted as it now is.

If there is one thing of which the public is weary it is the hollow and insincere platitudes and the Democratic party must show some desire to be truly democratic before it has a chance to grow, and this it will never do as long as the undemocratic south and the undemocratic Tammany Hall are its chief political assets.—New York Globe.

Prohibition Wave Discussed—Whatever may be one's convictions upon the prohibition question, all law-abiding and peace-loving citizens will agree to the great good which has come to the country at large and this state in particular in the way of more strict observance of law and stricter regulation of the saloon business as a result of the prohibition wave which is so much in evidence just now, coming from South Ste. Marie News, editorially. Regardless of whether a man believes in a legalized and licensed saloon or not, all agree that the laws governing this class of business have been daily violated and the regulations thrown about the traffic shamelessly ignored, and the demand for local option is the direct outgrowth of this condition far more than any other single cause.

Here in the Soo the agitation for local option has had the result of bringing every liquor dealer into a more or less compulsory agreement to obey the law to the letter, and may as well be credited with the additional and most highly important achievement of producing a revised saloon ordinance for this city which if adopted by the common council, and strictly enforced, will remove most of the causes for the present widespread demand upon the part of the public for the complete elimination of the saloon. The date is rapidly approaching when the enactment of the last legislature will have the effect of law and the adoption of the proposed ordinance become possible, and speedily adoption of this ordinance immediately after the first day of September will do more to destroy the present bitter animosity toward the saloon business than any other thing which could possibly be done.

Such a reform would, we believe, meet the bulk of the objections to the liquor traffic except the objections held by the extreme prohibitionists and even this class would have great cause for rejoicing since the operation of the ordinance would reduce the number of saloons by two-thirds and make violations of the ordinance extremely hazardous.

Tanglefoot Catches Mice—If necessity is the mother of invention, it is the mother-in-law of the whole family of ingenuity. This was proved by the wife of a well-known Hancock business man when she found her home overrun with mice. This Hancock woman is doubtless a martyr to her husband's thing which resembles the little animal. She will run from even one of the insinuating kinds which are seen about the street during carnival time. A few days ago she discovered unmistakable evidence that one of the terriers had been feasting on some of her best face curtains. This brought matters to a climax. The mice had raided the pantry; made themselves at home in the kitchen, and marched things in the basement. But when they invaded the parlor they were going too far. The man of the house had experienced a very bad case of fear for he would ridicule her scheme, she spread a nice new sheet, with all its stick-un doffed, under the curtain which had most appealed to the mouse's palate. Then she retired to await developments. In the morning there, sure enough, was a little gray heap right in the middle of the fly paper, and, wonder of wonders, it proved to be a sure enough mouse. The pastry covering of the fly paper had done his work well. Mr. Mouse had waded his way into the middle of the sheet before he discovered the nature of the stuff. That he had frantically attempted to extricate himself was shown by the condition of the paper. The glue held tight, and Mr. Mouse finally wore himself out. When discovered by the ingenious housewife he was stone dead. Needless to say she crowded over hubby as she heaped the batter cakes on his plate that morning, and he no longer has any sense of a heroine, if not the inventor of system which will prove of universal benefit to humanity. The West Hancock woman declares that the flypaper trap will capture the rodents every time.

If you are all run down Foley's Kidney Remedy will help you. It cleanses the kidneys so they will eliminate the impurities from the blood that depress the nerves, and cause exhaustion, backache, rheumatism, and urinary irregularities, which sap the vitality. Do not delay. Take Foley's Kidney Remedy at once. Sold by all Druggists.

### FIREMEN'S TOURNAMENT NOTES.

Complete Prize List Is Announced— Everything in Readiness.

The fifteenth annual tournament of the Upper Peninsula Firemen's association opens next Tuesday, but the carnival which is occasioned by the tournament will open Monday with the arrival of the Parlor shows. It will be seen that the tournament is almost here. This will be the biggest of the summer's Calumet gatherings and big preparations have been made for it. All arrangements are complete. The executive committee held its last important meeting Thursday night, arranging at that time the route for the opening day's parade of firemen.

### Prizes Are Listed.

The executive committee yesterday gave out the official list of prizes for the tournament races. It follows: Regulation hose race—First, cut glass punch bowl; second, silver loving cup. Regulation hook and ladder race—First, silver electrolier, second, brass jardiniere. Couplers' race—Two firsts, traveling sets; two seconds, traveling sets. Consolation hub and hub—Silver electrolier. Flag race—First, umbrella stand; second, lantern. Novelty hook and ladder—First, harmonium; second, lantern. Firemen's foot race—First, gold watch; second, silver smoking set. Regulation hub and hub—Cut glass punch bowl. Ladder climbers' contest—First, loving cup; second, silver loving cup. Regulation hose race No. 2—Copper chafing dish. All of the prizes, properly tagged will be placed on exhibition in G. Rohrer's jewelry store this morning. Mr. Rohrer has engraved such of the prizes as admit of such decoration and for the others he has engraved solid copper cards, which are in themselves valuable souvenirs.

Health street is gradually assuming a gala appearance. The decorators have covered a number of buildings with flags and lanterns, and the business section of Health street, which will be the center of honor of the carnival, will be a radiant picture.

### Michigan Game Is Coming.

The Michigan game department, at a meeting held some time ago, voted not to attend the firemen's tournament at Laurium. But a meeting was held this week, at which this decision was reconsidered and yesterday a report was received from the department which stated that Michigan game would send delegates to the convention and from ten to fifteen firemen would accompany them.

### MUSICIAN AND FAITHFUL DOG.

Aged Stranger at Houghton Owes Life to Canine Companion.

A stranger accompanied by a dog, but sagacious looking dog, attracted considerable attention on Sheldon street, Houghton, yesterday morning. The man, I. Bachman, is an itinerant musician and he is in the copper country looking for engagements. Aunt the dog he tells a story.

Two years ago, while playing an engagement at a Milwaukee party, Bachman was attacked by a dog, which was a faithful dog, Jake, was close at hand, however, and to the canine Bachman owes his life.

The dog seized the man's hand and attempted to drag him to shore. Bachman is a big man and the weight was too much for him. He managed, however, to get one arm about the dog's neck and with his other hand assisted himself to swim ashore. In Minneapolis, two years prior to the Milwaukee incident, "Jake" saved a little girl from drowning.

As he owes his life to "Jake," Bachman never takes a step but that the dog is with him. He said yesterday: "In his friend and he's the best friend that I have."

It's an easy matter to convince men that honesty is the best policy when it pays better than the other kind.

## A Notre Dame Lady's Appeal.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains. The most effective treatment which has repeatedly cured all of these troubles. She feels it her duty to send to all sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Sumner, Box R. Notre Dame, Ind.

# CURES S.S.S. SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cure is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin diseases. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors or acids which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S.S.S. cures Skin Diseases of every character by purifying the blood. It goes down to the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S.S.S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

### CALUMET HORSES WIN.

Wireless Station a Certainty.

Calumet and Lucille Bailey in With the Money at BoCoebel.

Returns received yesterday morning from BoCoebel, Wis., where a number of Calumet harness horses are entered in the circuit meeting, state that two of the Calumet nags were in with the money on Thursday, when the 2:35 class was run. Frank Reding's Calumet took second money in this class and Lucille Bailey, McChure's entry, was fourth. There was a field of sixteen starters.

### COLUMBUS STATUE CONTRIBUTORS.

Names of All Donors of Money Will Be Placed in the Monument.

The committee in charge of the collection of funds for the Red Jacket band statue of Christopher Columbus at Calumet has announced that in designing the statue provision will be made for a recess in which will be placed a roll of parchment bearing the names of all contributors. This recess will be sealed, of course, but it may be that in years to come something may befall the statue and in that event the names of the people who made its presence in Calumet possible will become known to those who follow them.

### MINERS TO DISCUSS PICNIC.

Osceloa and North and South Kearsarge Men Meet Tonight.

A joint mass meeting of the miners of the Osceloa and North and South Kearsarge properties will be held in Dunn's Hall, Red Jacket, tonight, for the purpose of discussing the question of holding a picnic of the employees of the three mines. The meeting will probably be concerned only with the naming of committees and arranging details for the outing.

### BOYS' CAMP IS AT AN END.

Y. M. C. A. Youths Return from Two Weeks at Eagle Harbor.

The Calumet Y. M. C. A. boys' camp at Eagle Harbor was broken up yesterday and the thirty youngsters who have been enjoying themselves amid Superior breezes for the past two weeks returned last night. The camp was a grand success.

### CHICKEN CASE IS SETTLED.

Dominick Burgo's Suit Against James Colombo Is Fruitless.

Dominick Burgo became possessed of thirty-five chickens and entrusted them to the care of James Colombo, a farmer some distance from Calumet. This was some time ago. About two weeks ago Mr. Burgo, who is residing in the North, returned to find that only ten of the chickens were missing, and Mr. Colombo declared they had died of some malady peculiar to the producers of eggs. The owner did not accept this explanation and brought suit in Justice Court's court.

### LAURIUM MAN IS LUCKY.

William J. Webb Draws No. 396 in Coeur d'Alene Lottery.

In the land drawing in the Coeur d'Alene Indian reservation in Idaho, William J. Webb, the Laurium insurance man, was the only upper peninsula man to draw a number which entitles him to the land allotted to each lucky entrant. Mr. Webb's number was 396, and in that order he is entitled to pick out a farm from the reservation.

### ODD FELLOWS' REUNION.

Members of Copperdun Lodges Will Gather in Houghton Today.

The tenth anniversary of the instituting of Pilgrim lodge, Independent Order of Odd Fellows, of Houghton, will be observed today by a reunion of the Odd Fellow organization of the entire county. For weeks past the members of Pilgrim lodge have been making arrangements for the celebration and everything has been seen in readiness. The weather has been now and he promises pleasant weather, so that nothing should mar the event.

### LAURIUM LIGHTING CONTRACT.

Village and Electric Light Company Agree on Terms.

The village of Laurium and the Houghton County Electric Light company have agreed on terms for electric lighting in the village, and a contract has been signed for the coming five years. It is the first long term light contract into which this village has ever entered.

### WASHINGTON'S PLAGUE SPOTS.

CURED HAY FEVER AND SUMMER COLIC.

A. S. Nushbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms, such as fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by all Druggists.

## WEEKLY COPPER REVIEW

Gossip of Interest Concerning the Market Situation and Various Mining Properties.

(Paine, Webber & Co.)

Despite the fact that everybody assumed in advance that the market had discounted the completion of the tariff schedules and assured also that the improvement in general business conditions had been doubtfully discounted by the copper shares and the railroad and industrial, the fact remains that prices instead of receding continue to advance. This has been noticeably so with regard to the copper issues, which have been exceptionally strong during the week. As a matter of fact, copper has advanced more rapidly than the railroad in the past few days and from the situation we judge that they are in line for further advance in a substantial manner. There is no longer any doubt about the industrial expansion of this country. Business is just beginning to awaken and rapid strides are being made in every line of activity. In the general building trades this is most particularly so and in railroad and electric lines the advances are substantial and solid. This latter has a decided effect on the metal market and we shall have still further sharp advances in London warrants. One day during the week the copper warrant quotations advanced one point and twelve sixteenths and at the same time there was a fractional advance in the New York prices for copper. The metal situation is assuredly picking up very rapidly. The figures given out by the producers' association were decidedly bullish on the metal. For the first time in several years, taken as the normal production during the month of July and there is reason to expect that the statement for the month of August will be quite as good as that of the month of July. The fact is that a few of the wisest manufacturers, anticipating the big increases in business and realizing the possibilities for an advance in the copper metal, have taken more than enough to keep them going from last month but they are now in a better tone to the metal market, underlying conditions than we have been able to note for a long period.

## ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS.

## Mining News

### SUPERIOR & PITTSBURG.

The excellent results which were reported at the Superior & Pittsburg workings a few weeks ago are continuing uninterrupted and in addition, says the Biltz Review, other favorable developments have occurred more recently, in two of the shafts at least. Perhaps the most noticeable results recently obtained are those in the Heaton shaft. Here the most of the exploration has been on the 1,200 level, and a new country has been opened up in pushing on toward the Briggs shaft. Working on this level and pushing in this direction an ore body was recently encountered just off the main drift and this body is now being explored and developed for the purpose of ascertaining its extent. Encountering this ore body here was especially pleasing to the management, showing, as it does, the continuance of development in previously unexplored parts of the property. At the Junction shaft work is progressing in exploring the recent finds of the 1,400 and 1,500 levels, the deep workings of the mine. From this explorations good results are being obtained, and conditions in the Junction are highly pleasing to the management. One of the most important features of the Superior & Pittsburg development work for several months past, and the same may be said of the Calumet & Arizona and Copper Queen development work, has been the exploration at depth in the lower levels, and this has proved satisfactory, showing a continuance of good ore bodies at the greatest depth which has yet been reached.

### ARMHEEK.

Almheek has made its first shipment of molybdenite, the ore going to an eastern smelter for reduction. There is a very great amount of molybdenite in sight in the mine, but enough will be had from the copper measures already developed to make shipments from time to time and aid materially in meeting the cost of the new stamp mill under construction. Molybdenite is high grade ore, carrying from 3 to 60 per cent copper.

### BOSTON CORBIN.

H. E. Emerson, general superintendent of the Boston Corbin, states that the company is developing three different claims at the present time, the Bertha, the Bertha No. 2 and the Daphne No. 2. "We have nearly two miles of underground work on the properties," said Mr. Emerson, "and we have been in one all of the time. The showing is a most excellent one. The property of the Boston & Corbin company will be equipped with electric machinery for the purpose of operating the shaft. The shaft is so located that favorable results from the drill cores would make it possible to drift from the shaft to the lead at small cost and with chances for paying for a smelter for the property. The assessment is practically all agreed upon and the directors are in position to maintain the increase regularly and permanently. In this regard the dividend record of the Copper King is unique.

### INDIANA.

The offering of 20,000 shares of treasury stock in the Indiana company was oversubscribed, the eastern investors taking practically all of the issue. The property is a valuable one and it carries the strike of the Lake Lake through its entire area. It is under the direction and control of the same officers as the North Lake. Work will commence with diamond drills at once. This is the second company organized to seek the same formation as has made the Lake such a sensation.

### ARIZONA-MICHIGAN.

We understand that there will be no Arizona-Michigan company until January next year. For some time there has been a supposition that an assessment would be due on this issue in the near future but the officials of the company state that they have plenty of money in the treasury with which to continue the work successfully and without stinting.

### EAST BUTTE.

East Butte is fast getting on a basis for substantial earnings. As we have pointed out in the past this property is in a very good position to become a profitable producer and will be in position to profit by the improving metal conditions this fall. Last week the mine showed a production of 150,000 pounds of high grade copper. This means a monthly average of 600,000 pounds of refined metal.

### SEALED WITH A HOT IRON.

Or scalded by overturned kettle—cut with a knife—bruised by slammed door—injured by gun or in any other way—the thing needed at once is Bucklen's Arnica Salve to subside inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Fever Sores, Eczema and Piles. 25c. at The Stafford Drug Co.

### SHAKE INTO YOUR SHOES

Allen's Foot-Powder, a powder. Relieves painful, smarting, nervous feet and itchy, itching, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Powder makes tight or new shoes feel easy. It is a cure of exceptional value for itching, swollen, tired, aching feet. Try it today. Sold by all druggists and shoe stores. ## THE SUPERIOR LUMBER COMPANY

# City Brevities

Today's weather: Showers; stationary temperature. Yesterday's temperature: Seven a. m., 60 degrees; noon, 66; 7 p. m., 65; maximum, 67; minimum, 60.

N. M. Kaufman left last evening for Chicago on a business trip.

Mrs. J. A. Steele and son Andrew returned this morning from a six weeks' visit with relatives in St. Paul and Williston, South Dakota.

Mr. and Mrs. E. N. Breitung, who have spent the past two months on the continent, will sail for home today, taking passage from Liverpool.

Mrs. J. Frazier, 619 Division street, has been removed to St. Mary's hospital for treatment for an illness with which she is suffering.

The Presbyterian Sunday school picnic, held at Lake Independence yesterday, was largely attended, and a thoroughly enjoyable time is reported.

The ice cream social given in Lakeside Park last evening by the ladies of St. Agnes court was largely attended, and the treasury of the society has been somewhat enhanced as the result.

Miss Norma Ross arrived home Thursday night, after a five weeks' visit at Detroit and Fostoria, O. At the latter city, she visited Mrs. Frank Burtcher, formerly Miss Jennie Rankin of this city.

Two prisoners were received at the branch prison yesterday from Presque Isle county. They are Sidney Mitchell, convicted of trespass on state lands, under sentence of one to two years, and Thomas Rench, convicted of lewd and lascivious conduct, for which he is under sentence of from six months to a year.

Rev. Campbell Coyle, of Duluth, who will preach at the Presbyterian church tomorrow morning and afternoon, is considered one of the strong ministers of the Presbyterian denomination and his sermons will doubtless be well worth hearing. He lived in this city when a mere boy, but never was pastor of the local church, as was erroneously stated yesterday. He has been preaching about twenty years and is still a comparatively young man.

F. K. Hatch, representing the Johnson Service company has gone to Wakefield, where his company has the contract to equip the new high school with temperature regulators. Before returning, he will go to the copper country where his company has several contracts. Mr. Hatch is installing thermostats in the Redinger house, which is being fitted up for the domestic science department of the public schools. The high school was equipped with the Johnson temperature regulating device when it was built.

German Picnic—A basket picnic to be given under the auspices of the German Aid society will be held in Blechnow's grove, at the west end of Fisher street, tomorrow afternoon. The committee on arrangements promises an enjoyable time and invites the public to attend.

With the Ore Boats—At the I. S. & L. dock, the Mined, Kopp and Anlaquo went for the lower lakes yesterday, and the Admiral, Cornelius and Walnut are leading today. The steamer Honduras and barge Grenada and Monte zona arrived at the South Shore dock yesterday afternoon.

Links Ready for Play—The golf links in the west part of the city are now ready for play and several of the club members tried their hand at the game yesterday afternoon. The club house is not yet ready for use, but it is expected that a large number of the members of the club will make use of the links today.

"Kenny" Richardson Hurt—"Kenny" Richardson, catcher and general utility man of the Marquette baseball team, is nursing an injured hand, which will keep him out of the game for several weeks, and possibly for the rest of the season. Kenny was using an axe and in some way he struck the blade into the back of his left hand, with which he was holding the stick. He was chopping, cutting a deep gash several inches in length.

New Laws Received—Three copies of the laws passed at the last session of the legislature have been received at the court house, one for the county clerk, one for the circuit judge and the third for the judge of probate. The volume is the largest ever issued following a legislative session and contains 800 pages. The laws of the session of 1907 made a book of 425 pages, while both the public and local acts of 1882 comprise but 100 pages. It would seem from this that there may be some truth in the contention that this state is suffering from a multiplicity of laws.

Roads to Be Labeled—The Michigan State Automobile association has advised to signboard the principal roads throughout the state, beginning in the lower peninsula. Local clubs have been asked to assist in the work of labeling the routes most favored from their own districts to nearby points. It has been suggested that in this connection, the association might well follow out the suggestion made at the last meeting of the Marquette county supervisors, which in substance was to put up "G. S. Hov" signs at all sharp turns and at the approaches to railroad crossings along the country highways.

Sunday the Last Day—Sunday is the last day of the trout fishing season this year, and nearly all the Marquette anglers are planning a final trip to their favorite streams either today or tomorrow. The season on the whole has been a very good one, and most of the fishermen will have a new fish story to tell around the fireside this winter, which has some basis of fact, at least. It is reported that for the last week or so the trout have not been biting, but nothing daunted by these bear stories, the disciples of Walton will venture forth today or tomorrow confident of ending the season with a record catch.

Will Go to Laurium—Director R. J. Klamer, of Our Boys' band, stated yesterday afternoon that nearly \$150 had been raised by public subscription to send the band to the tournament at Laurium next week, and that the trip would be made was now a certainty. The members of the band will accompany the members of the fire company, all of whom leave for the copper country Wednesday morning. The boys may be depended upon to make a good record for themselves and their city at the tournament, and the readiness of the citizens

to subscribe funds for the trip is a flattering tribute of appreciation of the organization by the public.

A Peculiar Case—There is a patient in the branch prison hospital whose malady is unique in local medical annals. A few months ago a man named Steinach was sent up from Houghton county, and for the last three weeks his temperature and pulse has been below normal a large part of the time, although otherwise he seems to be perfectly well. His pulse has been as low as forty per minute and his temperature down to ninety-four, a condition which ordinarily would mean that the subject was a candidate for a coffin. This man, however, seems reasonably healthy, cat well and the physicians can discover no reason for his sub-normal temperature and heart action.

INSURE WITH PETER WHITE & CO.

## BIG WINE IMPORTS ESCAPE PAYNE DUTY

### Heavy Shipments Are Still Coming in, as the New Rate Does Not Apply Till March, but It Is Believed Price Will Rise Soon

Washington, Aug. 13.—Great quantities of champagne are being poured into the United States, but it is not going to become cheap on that account. It is being hoarded up by crafty financiers until comic opera time arrives once more when they will put it on the after-theater supper table at fifty cents per bottle above the present price.

The treasury department has received information showing that enormous importations of French wines have been and still are coming into the United States. Figures available at the department today showed that last month the revenues increased \$10,000,000 over the receipts for the corresponding month last year. Assistant Secretary Reynolds said today this increase is partly due to the increase in the importation in wines. The importation consist principally of champagne.

Present Rate Until March 1.

Under the Dingley law champagne was dutiable at 88 per cent. Under the existing commercial agreement with France this duty was reduced to 36 per cent. The Payne law increases the tax on champagne to 80.00 per cent; but as the agreement with France holds good until Nov. 1, the 80 rate will prevail until then. Moreover, France has until March 1 to negotiate another trade agreement, and if by that time she does not do so the rate of 85.00 per cent, which is the minimum, will be increased 25 per cent more.

Memorable champagne importers are "making hay while the sun shines." They are heading the country with the sparkling wine, getting it in at 80 per cent. None of this wine is going on the market now. It is being held until after November 1, when champagne consumers will be met with the statement that the tariff had made it necessary for the price to be raised.

Every cent of the addition amount charged will go into the pockets of the importers who are laying in such large supplies now and the government will not receive a dollar of tariff from this source until after November 1. Champagne last year increased the revenues by \$1,800,000. The ways and means committee estimates that the new rate will produce \$2,200,000, an increase of \$500,000 annually.

## MIKADO GIVES HER A LOVING CUP

### Maria Wonters of Manchester, Mass., Honored by the Japanese Government for Aiding Stricken Families During Russian War

Manchester-by-the-Sea, Mass., Aug. 13.—Maria Wonters, a German teacher, who lives in a cottage in this town, has been specially honored by the Japanese government for her services during the Russo-Japanese war in raising funds for the famine stricken sections of northern Japan. She is the recipient of a handsome silver loving cup forwarded to her by Kokichi Mizuno, consul general of the Japanese government at New York. It is the first formal recognition of the work of Maria Wonters, who raised the fund for the famine sufferers in August, 1905.

So great was the number of men called to arms from the northern provinces of Japan that the crops failed and the families of the soldiers were left to starve. It was at this time that Maria Wonters left her home in Manchester and gave entertainments and fairs in and about Boston to raise funds for the stricken Japanese women and children. Her success was unusual and she secured over \$5,000. So modest was this little German teacher that the act of philanthropy attracted but little attention.

The first recognition of the act by the Japanese was when Baron Knokki came to Boston several years ago. He looked up Maria Wonters, and she was the only Boston woman invited to a large public reception and dinner tendered the baron at Sherry's in New York, which she attended. About eighteen months ago, when Rear Admiral Goro came to New York and was the guest at many public functions, Maria Wonters was a guest of honor aboard his battleship. Now she has received the following letter from Kokichi Mizuno, consul general at New York: "In appreciation of your valuable contributions to the relief fund for the famine sufferers in the northern province of Japan in August, 1905, the government of the prefecture of Miyagi has requested me to transmit to you a letter of thanks from him and to present to you a memorial loving cup, which I take pleasure in forwarding to you under separate cover."

She received the handsome silver loving cup suitably inscribed tonight.

Class J. Anderson can furnish you with the best meats and poultry at lowest prices. Prompt delivery. 603 North Third street. Bell Phone 686, County Phone 77. (8-11-11)

Now is the time to order your awnings. We make awnings of all descriptions, also anything in canvas work. 3-13-11 KELLY HARDWARE CO.

DRY HARDWOOD. Two dollars per cord in two-cord lots. (2-13-11) F. B. SPEAR & SONS.

Ell Couvion, the trucker, is taking up the work of Mr. Orchard to remove garbage. If you will give me a trial, call me up. Bell phone, 458-J. 6-7-11

Dainty people, with delicate tastes, will find that the most delicious food can be made by using HUNT'S PERFECT Baking Powder and Extracts. All Grocers. GET A CAN AND A BOTTLE TODAY.

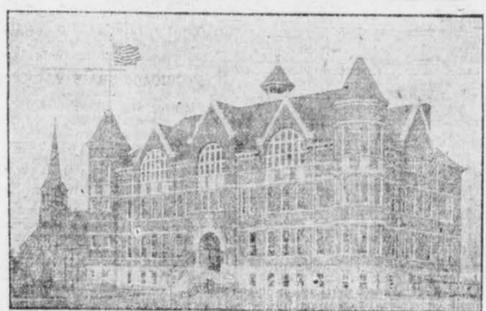

Jacobsville, Mich., 7-6-09. Northwestern Collection Agency, Marquette, Mich. Gentlemen: One of the parties whose account we sent you has paid \$25.00 on account, his name is..... he promised to pay the balance soon. Keep after them and let the "good work go on." Respectfully yours, NARA BROS. & PFEIFER.

WOOD AND BUILDING MATERIAL. I ALSO HANDLE Artistic Monuments COST NO MORE THAN PLAIN ONES IN WHITE BRONZE. Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Granite is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble or weather. It is more artistic than any stone. Then why not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

Geo. E. French, MARQUETTE, MICH. Agent for the Monumental Bronze Co., of Bridgeport, Conn. GENERAL TEAM WORK.

## ST. NORBERT'S COLLEGE DE PERE, WIS.

An ideal place for Catholic boys. One of the leading Wisconsin institutions. Classical, commercial, English and preparatory courses. Special advantages for those who study for the priesthood. It is an up-to-date business college. Any course can be selected to suit each student. N. B.—This is one of the best and finest Catholic colleges at a moderate charge. For catalogue apply to ST. NORBERT'S COLLEGE, De Pere, Wis.

## The Great Lakes Trip

A little journey on the inland sea is the most pleasant and economical vacation trip in America. The beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamers.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and Sibley's in New York, which she attended. About eighteen months ago, when Rear Admiral Goro came to New York and was the guest at many public functions, Maria Wonters was a guest of honor aboard his battleship. Now she has received the following letter from Kokichi Mizuno, consul general at New York: "In appreciation of your valuable contributions to the relief fund for the famine sufferers in the northern province of Japan in August, 1905, the government of the prefecture of Miyagi has requested me to transmit to you a letter of thanks from him and to present to you a memorial loving cup, which I take pleasure in forwarding to you under separate cover."

She received the handsome silver loving cup suitably inscribed tonight.

## UNIVERSITY SCHOOL OF MUSIC Ann Arbor, Michigan

ALBERT A. STANLEY, A. M., Director, Fall term begins Oct. 4. The Conservatory whose graduates are successful.

Albert Lockwood, Head of Piano Department. William Howland, Head of Vocal Department. Samuel P. Lockwood, Head of Violin Department. Llewellyn Renwick, Head of Organ Department. Walter Colby, Head of Theory Department. Florence R. Potter, Public School Music. Mattie P. Corwell, Public School Drawing.

20 additional teachers, most of whom have had European training.

Low tuition, reasonable living expenses, affiliated with University of Michigan. Free Courses in History and Analysis of Music, Choral Union (50 voices), Symphony Orchestra (50 pieces). Free Admission to Faculty, Lecture and Orchestra Concerts. May Festival and Artistic Concerts, and many other special opportunities.

For special catalogue giving detailed information, address, Charles A. Sink, Secretary, Ann Arbor, Michigan.

YOUNG MARRIED PEOPLE

just beginning housekeeping often find the payment BY MONEY of small bills, such as those for rent, groceries, heat, light, etc., a cause for much annoyance. Money must be kept in the house; trips to the landlord, the storekeeper, the coal dealer and the gas company must be frequently made; and receipts for all paid bills must be obtained and carefully preserved.

Marquette National Bank

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows: "Despite the superstitions of the day and the talk of the reactionists, the market displayed the most remarkable strength of any period during the upward movement, and from the action of the Harbison issues it is very apparent that the long expected announcement in regard to the segregation plan of the Union Pacific is nearing consummation."

CHICAGO GRAIN MARKETS.

Chicago, Aug. 13.—Except for a short period at the start, when moderate declines were experienced, the result of selling by Southwestern interests, wheat was strong and higher today. Fear of a heavy harvest in the Northwest caused a radical upturn in prices and the close showed net gains of 3/8 to 3/4. The feature of the day's trading was the support given the market by several leading commission houses, the principal one of which was the Chicago Board of Trade, which is aggregating approximately three million bushels, the greater part of which was for December delivery. There was also free covering by shorts. The September opened at 97 1/2 to 97 3/4; highest, 98 1/2; lowest, 97 1/4; closing, 98 1/4.

Wheat Summary.

Paine, Webber & Co's Chicago correspondent said yesterday concerning the wheat market: "Steady accumulation of December wheat by several of the leading speculative and cash houses, with a change of front credited to the recent bull leader, which is said to be resulting in a strong long side, were reflected in a steadily hardening tone on wheat today. For the first time in several weeks the news favored the bulls, and it became apparent early that buying of an influential sort was under way. The high report, showing a total crop of only 88,000,000 bushels, was influential in starting short covering, and the Modern Miller added to the confidence of the bulls by estimating the winter wheat yield east of the Rockies at 22,000,000 bushels, less than a year ago, and said the average quality was poor. Chicago was the cheapest market in the country. The cash prices are holding firmly at substantial premiums over the futures in all the markets, and there are indications that the winter wheat movement has spent its force. While the marketing of a bumper spring wheat crop is still ahead it will be well taken care of and the bulls have more than a fighting chance."

Copper Metal Prices.

New York, Aug. 13.—The London copper market was unchanged, at £100, for spot, but a shade higher, at \$200, 188, 94, for futures, according to today's cables, with the close steady and with sales of 200 tons for spot delivery and 150 tons for future delivery. Locally, however, the market was dull and a shade lower for standard and no business was reported on the metal exchange. The closing quotations were as follows: September, 12.70 1/2; October, 12.85 1/2; November, 12.90 1/2; December, 13.13 1/2. Lead dealers quoted Lake copper at 12.25 to 13.50, electrolytic at 13.12 1/2 to 13.25 and raising at 12.87 1/2 to 13.

STOCKS DECLINE IN VALUE.

Except that Union Pacific Holds Firm, the Market Yields to Realizing Sales. New York, Aug. 13.—Professional operators in the stock market today concerned themselves almost wholly with the affairs of the Union Pacific, but the rumors of coming financial developments in this property were so lacking in confirmation that the effect did not hold the stocks generally against the pressure of the realizing sales, which were constantly pushed forward. Union Pacific common advanced to

of prodding the nests with a torch on the end of a long stick. The birds were proved costly, for the house was set afire and the entire local fire department had to be called out to extinguish the blaze.

HARD TASK FOR TAFT.

Obstacles in the Way of Further Railroad Legislation.

Many Members of Congress Will Show Opposition—Besides, a Conservative Committee Has Been Named by Speaker Cannon—Big Stick May Be Needed to Secure Desired Action.

Washington, Aug. 12.—With President Taft pushing his plans for getting congress to enact new winter experiments legislative with respect to railroad and corporation control, it becomes almost a certainty that the White House program will find itself met by strong opposition in congress almost from the day that body reassembles in December. It appears almost a certainty that it will be necessary for President Taft, if not to swing the big stick, at least to exert unusually strong pressure to get any large extent the sort of legislation he wants.

Washington, Aug. 13.—Democratic leaders make no concealment of their purpose to draw freely from Republican speeches for their ammunition in the next campaign. The Congressional Record is still a busy carrying the surplusage that could not be handled in regular editions, teems with invidious speeches on the tariff delivered by Republican senators. "The best Democratic speech on the tariff," according to minority leaders, was delivered by Senator Clapp of Minnesota. He denounced the tariff bill as a sham from cover to cover, and declared just before he left Washington today that he would criticize the new law from the stump. Senator Dilliver of Iowa used strong language in characterizing the tariff bill, speaking of it as an effort to dupe "with lambing and misrepresentation."

DOUBTS POWER IN ALASKA.

White Pass-Yukon Route Denies Interstate Commerce Commission's Rights.

Washington, Aug. 13.—Has the interstate commerce commission jurisdiction of railroads in Alaska? This question has just been brought up in an important case filed by the Humboldt Steamship company, of Seattle, Wash., and it develops that there is doubt in the minds of some of the interstate commerce commissioners on the point. It will take a formal hearing and ruling to determine the matter.

DEER DESTROYING CROPS.

Massachusetts Farmers Will Demand Repeat of Closed Season Law.

Boston, Aug. 13.—Stories of ravages by deer on western mountains of the state are reaching the east, and game commission daily, and it was stated today that the \$4,000 appropriated by the last legislature as recompense for the damage whose crops are destroyed is in danger of being exhausted. At North Adams 12 claims for damages caused by deer have been verified, and apparently authenticated, since sums have been paid weekly for some time there. In Worcester county, 12 is stated, on farmer had 300 pounds of crops destroyed, besides several rods of string beans and 3,000 cabbage plants in Hampden and Hampshire counties the damage is also said to be large.

GOT GOLD FOR NICKLES.

Frisco Bank Cashier Who 'Never Made a Mistake' Is Out \$200.

San Francisco, Aug. 13.—The Seaboard National bank has had an excellent day that left its cashier in its infallibility gasping for breath. Also the experience cost it a couple of hundred dollars. A man asked the paying teller for \$5 in nickels. The teller showed over a paper roll of coin. When the cashier opened the roll he discovered to contain five-dollar gold pieces—130 of 'em totaling \$650. The customer neatly faded. Then he asked the paying teller if he hadn't made a mistake.

TESTING A NEW MAIL DEVICE.

Washington, Aug. 13.—The postoffice department is testing a mail casting and delivering device, submitted by the E. H. Perry, of Atlantic, Iowa, on the Rock Island railway between Davenport and Council Bluffs. The device has been in operation on one westbound train at the other stations between Davenport and Des Moines for several months. It will now be placed on other trains in both directions.

FIRES A HOUSE TO CARE BIRDS.

South Bethlehem, Pa., Aug. 13.—Troubled all summer by sparrows, which invaded the spouting on his roof, the Rev. W. T. Moser tried the experiment

thoroughly understood that the bank never made a mistake. The bank got back all except \$200 of its extra money by the process of buying it back.

SUCCOR REACHES SPANIARDS.

Moors Are Worsted in a Desperate Engagement at Alhucemas.

Alhucemas, Morocco, Aug. 13.—The enemy constantly for the last night upon the Spanish forces. The steamer Sevilla arrived today with provisions and ammunition, escorted by the gunboat Pinzon. The Moors endeavored to prevent the landing of the supplies. At first they were successful, but finally a landing was effected, under fire of the Pinzon and the forts.

DONS CAPTURE A POWDER SHIP.

Cunta, Morocco, Aug. 13.—A Spanish gunboat today fired upon a Rifian bark. The Rifians escaped by swimming ashore. The bark, which was loaded with powder, was captured.

Barcelona, Aug. 13.—Pursuance of the concentration of the Spanish fleet against the Moors, the battleship Emperador Carlos V, cruiser Princesa De La Asturias, and torpedo boat destroyer Onda sailed from Cadix today for Melilla.

USE REPUBLICAN ARGUMENT.

Democrats Will Draw Largely from Political Opponents' Speeches.

Washington, Aug. 13.—Democratic leaders make no concealment of their purpose to draw freely from Republican speeches for their ammunition in the next campaign. The Congressional Record is still a busy carrying the surplusage that could not be handled in regular editions, teems with invidious speeches on the tariff delivered by Republican senators. "The best Democratic speech on the tariff," according to minority leaders, was delivered by Senator Clapp of Minnesota. He denounced the tariff bill as a sham from cover to cover, and declared just before he left Washington today that he would criticize the new law from the stump. Senator Dilliver of Iowa used strong language in characterizing the tariff bill, speaking of it as an effort to dupe "with lambing and misrepresentation."

RAILROAD TO MOVE SHOPS.

Union Troubles and High Taxes Influence the New York Central.

Pittsburg, Aug. 13.—Because of the squabbling of labor unions and the high taxes in Pennsylvania, the New York Central railroad has decided to move its Pittsburg & Lake Erie railroad shops from Pennsylvania to Ohio and, with this object in view, has closed for a large tract of ground near Hazelton, O., in the Youngstown district, and will move its shops from McKee's Rocks and all its motive power headquarters across the line into Ohio. This means the taking away of about 1,000 men from the Pittsburg district. Many of them own their own homes at McKee's Rocks and have worked for the Pittsburg & Lake Erie for years. Recently the New York Central wanted to remove its shops from McKee's Rocks to Newell, Pa., about thirty miles, but there was such a shout from the unions and threats made to strike that the company apparently yielded to the demands of the workmen and announced that, for the time at least, the headquarters would not be taken from McKee's Rocks. In the meantime, steps were taken to remove the headquarters of the motive power out of the Pittsburg district entirely.

DIG UP ROOSEVELT RELIC.

Workmen Say Tennis Ball Was Driven Into Famous Court by Mighty Whack.

Washington, Aug. 13.—The famous tennis court in the rear of the White House where Theodore Roosevelt and his "tennis cabinet" spent many hours is a thing of the past. Workmen descended upon it today, tore it up and began to excavate for the foundation of the new executive office addition. Considerable comment was excited by the restriction of a Roosevelt relic. In turning up the firmly packed surface of the court, at a depth of about four feet, the workmen unearthed a perfectly good tennis ball. Apparently it had been driven into the ground by a mighty whack from some strenuous arm, or it was accidentally covered up during some period of tennis court repair.

THIEVES DRUGGED HENS.

Anesthetic Is Found in Their Valise by Pursuing Farmers.

Seattle, Aug. 13.—Tracked for nearly ten miles by chicken feeders and pursued by irate farmers of the White River valley, Charles Evans and August Sevot are safe in the county jail, says the Seattle Post. The men were arrested at Georgetown on complaint of John Rasmussen and Fred Nelson, who had been pursuing them near Renton. When placed under arrest a valise which one of the men had was found to contain ten bottles of a master drugged for market. In the valise there was also a bag of peculiar powder, which, when examined, proved to have anesthetic properties. It was admitted by the men that they used the drug to stupefy the chickens and make their capture easy.

ONE MAN THE WHOLE THING.

Constitutes the Entire Fire Department in an Ohio Town.

Columbus, O., Aug. 13.—The only "one-man" fire department in the state is reported from Weston, Pinley Durand having the honor of being chief, member and everything else. When a fire is discovered he summons citizens to his aid, and they are paid \$1.50 per diem for their work. In the past year he extinguished thirty-six fires, which cost only \$7,000 in losses. There is a central and sub-station, but Mr. Fire Department Durand looks after both of them successfully.

TRAIN HOODOO TO TURKE.

Williamport, Pa., Aug. 13.—"I guess it's coming to me like it did to Dan," said G. H. Morgan, an engineer of the Northern Central, to his fireman. An instant later he was helpless as the result of a stroke of paralysis. The day before, Daniel Porter, an engineer, whose home is at Elmira, suffered a stroke in the roundhouse here five minutes before his train went out. His fireman ran the train to Elmira while Porter rode in the baggage car on a cot. On the return trip Engineer Morgan took the train out of Elmira. He was stricken while the train was near Canton. His fireman took

As a help to systematic saving, we will loan you free a recording safe, the finest little home savings bank ever made.

TIPPED OFF BY WIRELESS.

How Clever Boy's Chum Escaped Arrest at Los Angeles, Cal.

Los Angeles, Aug. 13.—While under arrest on a charge of burglary, and ostensibly explaining the workings of a wireless telegraph apparatus to Patrolman Bove, Arthur Smith, sixteen years old, of 722 Blaine street, called on his chum, who also is wanted on a similar charge, and warned him that an officer was on his trail and urged him to leave the city immediately.

This novel system of warning a confederate was new to Patrolman Bove, and he has not yet got over the shock of having his business "tipped off" by a wire. That the lads were thoroughly organized, and that they were credited to escape arrest by means of the wireless apparatus, is the statement of the police.

Several days ago a lad was arrested on a charge of stealing a bicycle. When taken to the station he explained he had purchased the bicycle from Leslie Johnson, twelve years old, of Blaine and Winter street, and later produced a bill of sale. The lad was released and Patrolman Bove traced the theft to the club house of the "Dirty Four," where Arthur Smith was found working a wireless.

As soon as Bove appeared young Smith began to busy himself at the wireless instruments. Bove interrupted the lad and told him that he was wanted on a charge of burglary. "That's all right," the lad is said to have replied. "I will go with you in a minute. You see, I have begun adjusting this instrument and want to get it into good working order before I leave."

Bove examined curiously and decided to have the matter explained to him. "You see this part here," began the lad, while surreptitiously making the characters "CH," which is the "call" for his chum. "Well, when I pull this rod out it enables me to hear other stations. Some times when Point Loma is calling I hear the operator perfectly, and have on several occasions talked to him. I also have heard San Francisco send messages, but my instrument is not powerful enough and I cannot get all the letters. Like I can when Point Loma is sending."

"Now, when I want to talk to others in this city, boys with whom I have formed a wire acquaintance, I pull the rod to about this distance," and sitting the action to the word the lad adjusted the instrument and received an answer from "CH."

"I hear some one talking now, and if you will wait just a moment I will see what he wants," said the lad.

Young Smith then began to transmit, and the following is said to have been the message he transmitted to his pal, Carl Buck: "Show me something more about it," said Bove, thoroughly interested. "I would like to put that hood on my head and listen. What was that fellow saying just then?"

"Oh, that was some station I could not make out," replied the lad. "I tried to do out what he wanted, but all I could hear was 'All right; I am leaving now.' I suppose it was a commercial message from Point Loma."

The lad detained the officer, explaining the workings of the various instruments, and explaining the ground give, until his pal had escaped.

ROBIN FIGHTS DOG FOR YOUNG.

Colorado Springs, Aug. 13.—Mother love triumphing over fear, a brave little robin avenged her nest on a brute dog, a fierce blooded bulldog belonging to Assistant City Engineer Austin, and pecking at the eyes of the astonished animal actually made the dog desert from its attack on the robin's injured offspring long enough for a woman to interfere in the one-sided battle between the bird and the dog. The young robin had injured its wing and was unable to fly.

Colo. Springs, Aug. 13.—Mother love triumphing over fear, a brave little robin avenged her nest on a brute dog, a fierce blooded bulldog belonging to Assistant City Engineer Austin, and pecking at the eyes of the astonished animal actually made the dog desert from its attack on the robin's injured offspring long enough for a woman to interfere in the one-sided battle between the bird and the dog. The young robin had injured its wing and was unable to fly.

YOUNG MEN WANTED.

The United States Government Gives the Railway Mail Clerks \$800 a Year to Start, and Increases to \$1,200.

Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Michigan in November, and for other government positions on different dates. Over 4,200 appointments were made last year, and it is estimated that 50,000 will be made this year. Any ambitious man or woman over eighteen years, with an ordinary education, can readily pass. The government wants people with common sense to take the examination, and will pay them well and give them an annual vacation with full pay. No matter where you live, city or country, you can get one of these positions. The Government Positions Bureau of Rochester, N. Y., with its thorough knowledge of the requirements of the examinations, can fit any one in a few weeks to pass.

### IS SHORTEST ROUTE TO THE OLD WORLD

Thousand Mile Channel Just to the South of Greenland May Be Utilized Both by Cable and Steamship Companies—A Project Proposed Long Ago.

New York, Aug. 13.—An ocean cable laid a few days ago stretches from Valencia Bay, Ireland, on the bed of the Atlantic to a point near St. John's, N. E., not far from Heart's Desire, which are the terminal on the American side of the first cable. From St. John's this cable sweeps in the arc of a circle, crossing half a dozen other cables, and terminating at Coney Island and six miles from Manhattan.

Within ten years it may be necessary to lay other ocean cables, since the increase in international business is so rapid and is so certain to reach great proportions that the present service will be, it is believed, inadequate for the demands that are made for the transmission of swift intelligence under the ocean.

The laying of this cable revives some interesting recollections of the first cable, which was due to the confidence of Cyrus W. Field, Marshall O. Roberts, Peter Cooper and others, and the survey for which under the ocean made choice of the shortest distance between continent and continent south of Greenland. This is the identical ocean channel, about 1,000 miles in width, which some men of capital expect to see utilized one of these days as a means by which there may be the shortest mail and passenger communication between Great Britain and the American continent.

Some years ago there came to New York one of the engineers associated with the later construction of the Great Western Railway of England. He had spent some weeks at New England and again in the maritime provinces. He was satisfied that it would be commercially practicable to establish a steamship line between Valencia Bay, Ireland, and St. John's, N. E., which would be able to make the ocean trip in about three days. Then \$500,000 capital could be secured, a railway was to be constructed across the lower portion of Newfoundland and then a railway ferry across the straits which separate Newfoundland from Cape Breton, where continental railway terminals could be established. This engineer was convinced that mails and passengers could by this route be transported between London and Boston in a little under five days.

That plan is still in contemplation. Yet the construction of ocean steamships operated by turbine engines, which are capable of crossing the ocean between New York and England in a little under five days, would seem to make the plan commercially impracticable, excepting for Canada, and possibly for Boston and northern New England. Recently we have heard in this city intimations that one of the transatlantic lines, stretching from the Atlantic to the Pacific through the Dominion of Canada, has in contemplation an ocean and Newfoundland service of this kind.

How accurate from the point of view of science and how sound from the point of view of business the conception of the paralleling upon the ocean bed of seven cable lines is sufficient proof. And it is now known that there was nothing the matter with the first cable except the insufficiency of the receiving instruments. That cable stopped service of a sudden, soon after Queen

### BUTTE DRILLING CONTEST BIG EVENT

AT MINERS' ANNUAL PICNIC THIS WEEK ARIZONA TEAM TOOK \$1,000 PRIZE FROM BUTTE'S CRACK TEAM BY ONE-SIXTEENTH OF AN INCH.

Marquette county miners will be interested to learn of the outcome of the drilling contest held this week at Butte, Mont., under auspices of the labor organizations. The contests have been the leading feature of the miners' picnic at Butte, but there was never before such widespread interest in the event as this year. The prizes were the largest ever offered, being \$1,000, \$500 and \$250.

Many wagers were placed on Mike McNichols and William Ross of Butte, but they lost by a small margin. Louis Page and J. A. Prickens of Globe, Arizona, having carried off the first money. The latter in fifteen minutes drilled a hole to a depth of forty-three and seven-eighths inches, while the Butte team put their hole to forty-three and twenty-seven-thirty-seconds inches. The third prize went to J. C. Carter and William J. McLean of Butte, whose hole was bottomed at forty and thirty-sixths inches.

Over 15,000 people gathered at Columbia gardens to participate in the picnic. Herd McNichols and Ross put their hole down one-sixteenth of an inch deeper, defeating the Globe team by one-thirty-second of an inch, they would have been given an additional \$500 offered by John D. Ryan. It is said that Montana men would have won had it not been for the fact that well along in their drilling one of the drills flew from the hole, it requiring several seconds to replace it.

In the contest at Spokane last year McNichols and Page, the latter of the Arizona team, won first prize by drilling fifty-six inches.

When the Globe team appeared outside of \$25 to \$10 were offered on them by Arizona men. Both are said to be magnificent specimens of physical development.

### DIED AT IRONWOOD.

One of Ishpeming's First Settlers Passed Away There Thursday.

Michael Scanlon of South First street received a telegram yesterday advising him of the death of Mrs. Daniel McCarthy, former well-known resident of Ishpeming, who died at Ironwood, where she had lived for some years past with her daughter. The remains will be received here this morning at 4 o'clock and the funeral will be held at 8 o'clock from St. John's church.

She was killed at the Ironwood Mining company's No. 7 property some twenty-five years ago, where among the first settlers in Ishpeming, Mr. McCarthy worked at the Hard Ore property continuously until his death. He was killed by being hit by a pump rod. Daniel and Dennis McCarthy, sons of the deceased, are well-known diamond drill men in the West. The former was engaged in the dry goods business in Ishpeming for a number of years before taking a position with the Sullivan Machinery company, some fifteen years ago.

### CONTAINS MANY NOVELTIES.

Gaites' Attraction, Here Next Thursday, Unusually Large Company.

The "Three Twins" which will be the attraction at the Ishpeming theater next Thursday evening, the 19th, is offered without fear of contradiction as the most gigantic musical comedy on the road. It had the distinct honor of receiving the universal press criticism on its opening in New York at the Herald Square theater. It also had a run of five months at the Whitney Opera House in Chicago. It is the most elaborately staged production in America and is said to contain more novel features than all the other musical comedies combined.

The attraction is a combination of a farce, a photograph and the electrical aerial swing are distinct novelties, the latter being one of the most wonderful pieces of stage craft ever perpetrated. It is a steel structure weighing over 4,000 pounds and illuminated with over 2,000 electric lights. It requires three machinists, whom the company carries, to handle this one wonderful electrical effect and takes three large teams of mules to transport it from the baggage cars to the theater. This is only one of the many novelties.

Mr. Gaites has spared no expense in staging the attraction and the New York Telegraph said it was the handsomest costume company on Broadway. It requires two baggage cars and three coaches to transport the "Three Twins" company and they generally travel by special train. The company is headed by Victor Morley, who was associated with Richard Castle in "The Spring Chicken" until he created the title role in the "Three Twins" at the Whitney Opera House, Chicago. Others in the company are Bessie Clifford, Frank Smith, Florenz Kolb, W. H. Woodside, E. P. Power, Ida Poetz and a chorus of sixty people.

### HARVEST FESTIVAL.

The annual harvest festival of the Ishpeming branch of the Salvation Army has been started and the officers in charge ask friends of the army to help them. No person has a right to solicit any funds or material without an order signed by Captain and Mrs. Gough.

Meetings are being held every evening in the hall. The subject for Sunday evening will be "On Eagles' Wings."

### FROM MORGAN'S CURB LETTER.

"Some irregularity developed in the market today, but offerings were very well taken and the tone continues healthy, with the trend unmistakably upward. Lake and North Butte were leaders of the Boston list, the former selling at 30 1/2 and the latter at 61. Union States Smelting, R. S. M. common made another new high, 57 1/2. The principal activity was in Cactus, First National Copper, Calumet & Cornish, Chief Consolidated and Live Oak.

The talk of reorganization of Cactus is attracting new strength on this issue, and it is not surprising to see it doable in price. Indiana Mining made its initial appearance on the curb today, quoted at 8 to 8 1/2. We hear of the purchase of a number of million pounds of copper by a large New England and copper concern, for September and October delivery. This same concern recently purchased 10,000,000 pounds of copper for July, August and September delivery at 12 1/2 cents, and is now consuming the metal at the rate of about 3,000,000 pounds per month. Our attention is attracted by the fact that unchanged, believing that the next six days will give us a materially higher level of prices."

### FORESTERS' PICNIC.

Court Pride of the Independent Order of Foresters will hold its annual picnic at Presque Isle a week from today, the 21st. Special trains will leave here for Presque Isle at 8 and 10 a. m. and 7:30 p. m. Returning trains will leave Presque Isle at 6 and 11 p. m. The fare for the round trip will be fifty cents for adults and twenty-five for children under twelve years. Children under five, accompanying their parents, will be taken free. The Ishpeming band will furnish music during the day, also for a dance in the evening at the pavilion. The arrangement committee is composed of John H. Gill, chairman; Charles F. Srinamese, secretary; John Bamford, Samuel Parre, R. S. Johns, Joseph Billings and John Vivian. Joseph Billings will be marshal of the day and John Bamford treasurer.

### TO SUPREME LODGE.

Mrs. Emma Green and Mrs. Mary H. Pascoe, the former trustee of the grand lodge, and the latter delegate from Rose of England lodge, of the Daughters of St. George, of this city, will leave next week for the East to attend the twenty-first annual convention, to be held from Aug. 24 to the 28th, inclusive, at Newark, N. J. Prior to the convention they will spend a few days at Rochester, N. Y., where Mrs. Green will have work to perform in connection with the office she holds in the grand lodge. At the conclusion of the grand lodge session they will visit relatives in the East for an extended period.

### NOTICE.

### DIED IN BUTTE.

Former Ishpeming Woman Passed Away After a Week's Illness.

Mrs. William Vickery, who left Ishpeming with her husband about a year ago, died Wednesday at Butte, Mont., and the remains are expected here today. She had been ill one week, and is survived by her husband and an infant about two weeks old.

The deceased was an adopted daughter of Captain James Matthews, formerly of the Salisbury mine, now living in Negunee. She was married two years ago Thanksgiving and her age was twenty-two years and five months. The husband is a son of W. J. Vickery of the Salisbury. For some years up to the time he left here he had worked at the Salisbury mine in the mechanical department. It is likely that the remains will be taken to Captain Matthews' home and the funeral will be held from there Sunday afternoon, with interment in the Negunee cemetery.

### ISHPEMING IN BRIEF.

A son has been born to Mr. and Mrs. Emil Werner, 702 Empire street. Miss Margaret Sully of Marquette is in the city, visiting Miss Celestine Lynch. Mesdames Blossom and Levine will serve coffee at the golf club this afternoon.

Gordon Rogers is here on a visit to his parents, Mr. and Mrs. Samuel Rogers, of South First street.

William Trebleck is putting in a concrete gutter on Front street, extending from Main to Pine.

Edward Nelson of Ironwood, a prominent business man of this city many years ago, was here yesterday.

Mrs. Samuel Byrne of Houghton is in the city, visiting her mother, Mrs. Daniel Sullivan, who has been ill the past few days.

Roger M. Andrews, editor and publisher of the Menominee Herald-Leader, and wife were Ishpeming visitors yesterday.

Mrs. Joseph Andrews of Hancock and her sister, Mrs. Harvey Nelson, of Ironwood, are here, visiting their parents, Mr. and Mrs. P. H. Lyons.

In the ball game tomorrow with the Marquette mine, Toman and Liston will be the battery for the Ishpeming team. The game will start at 2:30 o'clock.

The indoor baseball game at the Y. M. C. A. last evening, played by the city and senior Y. M. C. A. teams, was won by the city nine. The score was 12 to 5.

Miss Ross, a former Ishpeming school teacher, who has been teaching in California the greater part of the time since she left here six years ago, is in the city, visiting Mrs. O. D. McClure.

The members of the Owl club will hold their annual picnic a week from tomorrow. It has not yet been decided whether it will be held at the Wilds farm, near the Saginaw, or around the Cliffs.

Plans and specifications for a root and storage house to be erected at the county poor farm may be seen at the city recorder's office. The plans were prepared by Charlton & Kuenzli, the architects.

### USED COMPRESSED AIR.

Atuckle's Plan of Raising a Sunk Ship Arrouses Much Interest.

New York, Aug. 13.—At the great club of the Associate Engineers of New York, just off Fifth avenue, much interest and considerable discussion have followed the announcement of the great success with which John Atuckle, through the use of compressed air, was able to raise the government-sunk ship Nepos from what seemed to be an impossible or impossible position off Newport harbor. Mr. Atuckle has achieved so many successes in the business world and has so well demonstrated in a picturesque way his ability to maintain successful battles with the so-called sugar trust that the public has had little knowledge of him as an engineer and a man of science.

The impression among the engineers at the engineering club is that if Mr. Atuckle believes that he has discovered apparatus which, if any steamship is equipped with it, will make it impossible, then he has really discovered apparatus of that kind. He asserts that by the proper use of compressed air he can place a hull back in the path of any vessel, no matter how large a hole has been torn in it by collision, which will so surely prevent the further of water as a steel bulkhead. And yet, the doubt is raised about the ability of any steamship to provide apparatus that it may be made always available in the event of disaster. Mr. Atuckle's philosophy is familiar enough. Everybody knows how difficult it is to pour water from a bottle or household utensil there is an opening which will overcome the outside pressure of the air.

### LOST--Open-face gold watch, Elgin movement, size twelve, Friday, Aug. 6. Suitable reward. Return to Mining Journal office. 8-14-11.

## BEST TOURNAMENT IN SEVERAL YEARS

SECRETARY FLYNN, OF THE FIREMEN'S ASSOCIATION, EXPECTS THAT TWELVE TEAMS WILL PARTICIPATE IN CONTESTS AT LAURIUM NEXT WEEK.

T. J. Flynn, secretary of the Upper Peninsula Firemen's association, says that the tournament next week at Laurium will undoubtedly be the best that has been held in years. There will be ten or twelve teams participating in the contests. He has endeavored to ascertain what teams will take part, but several of the secretaries of departments have written him that they will not enter their teams until they arrive at Laurium. Mr. Flynn and other officers of the association will go to Laurium Tuesday, to be there before the arrival of the departments. The secretary will be accompanied to the copper country by G. J. Murray, treasurer of Michigan, and T. J. Maney of Marquette, who is second vice president.

Mr. Flynn says that several departments have decided within the past two or three weeks to enter teams. He believes that some records will be broken, as he has heard good reports from teams that have been in training for some weeks past. Among the departments that will be represented are Red Jacket, Hubbell, Gladstone, Bessemer and Amasa. The latter has not had a team since the tournament at Crystal Falls, seven or eight years ago, when it made a fine showing.

It is generally conceded that First Vice President J. N. Mitchell of Hancock will succeed G. R. McDonald as president. It is also expected that T. J. Maney will be advanced to the first vice presidency. Mr. Flynn has been secretary of the association since it was organized fourteen years ago, and Mr. Murray has been treasurer almost as long. It is not expected that either will have opposition.

Bessemer is going to ask for the next tournament, and it is understood that the Soo department is also after it. The Bessemer firemen have sent an appeal to all of the departments, soliciting the votes of their delegates. They say that the Gopie range is entitled to the next tournament. Many of the firemen seem to favor Sault Ste. Marie.

The organization is stronger in point of membership than at any previous time. There are now twenty-four departments enrolled and it is thought that all of them will be represented at Laurium by good sized delegations. The Marquette county firemen will

## MASONIC PICNIC

Lodges of the Three Cities Have Issued Invitations for Outing.

The joint committee for the Negaunee, Marquette and Ishpeming Masonic societies, which are to unite in holding a picnic at Presque Isle next Wednesday, the 18th, have issued invitations to the members and their families. It is to be a basket picnic, and there will be dancing at the pavilion in the evening. Arrangements have been made for a special train over the Lake Superior & Ishpeming Railway line, leaving Ishpeming at 1 p. m. and Negaunee at 1:10. Returning trains will leave Presque Isle at 7:30 and 10:30 p. m. The round trip rate will be fifty cents, which will also be good on the train leaving Ishpeming at 4:10 in the afternoon and Negaunee eight minutes later.

The committee announces that the entertainment will include auto rides, launch rides, sports of all kinds, and a concert by the Ishpeming band. The picnic dinner will be served at 4:30, so that the train schedule will permit the Negaunee and Ishpeming people to return at its conclusion, or after the dancing.

The committee expresses the hope that all of the members and their families will attend. If this picnic is the success it is anticipated it will be made an annual event hereafter.

The committee will serve coffee, cream, sugar and lemonade, and will also provide all other necessary articles for the serving of their lunches.

## COMMITTS SUICIDE.

E. V. Thomas, Former Negaunee Man, Took His Own Life.

Negaunee friends of E. V. Thomas, who conducted a photograph gallery in this city for a number of years and was known to all of the older residents, have been advised that he committed suicide on the last day of July, at the home of his sister, Mrs. G. W. Pinkerton, at Sharpshooting, Pa. It is said that Mr. Thomas had been in poor health for three years or more and that he had become very despondent. He killed himself while his sister was out of the city, visiting. He used morphine in ending his existence.

Mr. Thomas conducted business here for ten or twelve years prior to about six years ago, when he moved to Pennsylvania. He was located in the building now occupied by W. H. Israel on West Iron street.

## BIJOU OPENS TODAY.

The Bijou theater, which some days ago passed into control of D. E. Rice, will be ready for the opening this afternoon. Mr. Rice is sparing no money in the rearranging of the house and considerable new equipment has been installed. His program for this afternoon and evening will consist of three moving pictures, the subjects of which are: "Hunting Big Game in Africa," with Colonel Roosevelt as the central figure; "Midnight Disturbances," and "The Energetic Street Cleaner." Aud Cruster, who is to manage the theater, arrived yesterday from Chicago. He will sing the illustrated songs. The subjects of the songs to be heard both afternoon and evening are "What's the Use of a Moonlight," and "Alabama Sue." At the matinee all children under twelve years of age will be admitted free.

## RAISING MUSKELMELONS.

Joe Richardson, who has a homestead near Little Lake, recently planted muskmelons in accordance with instructions received from the government agricultural headquarters, and from indications the experiment will prove successful. So far as is known, this will be the first attempt made in this region to grow this fruit. Mr. Richardson is watching the melons daily and if the frost does not injure them he will have a good crop. He is also experimenting with a number of new kinds of potatoes. He believes that the yield will be satisfactory. It is reported that all of the homesteaders in that vicinity have excellent potatoes this season.

## WILL HAVE COLE AND FROST.

The management of the Negaunee league baseball team expects a hard game at Munising tomorrow as the Munising nine will have Cole and Frost as its battery. It is reported that both of these players will remain with Munising the remainder of the season, they having left the Rapid River team. The local nine will be accompanied by a party of rosters. It is expected that the game between the Ishpeming and Marquette teams at Munising tomorrow afternoon will be largely attended. The last time these teams met the game ran thirteen innings and resulted in a score of one to nothing in favor of Ishpeming.

There is now an international standard unit of candle power, which will be soon in use in every country but Germany.

## NOTICE TO CONTRACTORS.

Scaled proposals will be received by the city clerk of Negaunee, Michigan, for the building of a Fire Hall at Negaunee, Mich.

Proposals to be in the hands of the aforesaid city clerk on or before 5 p. m. of the twenty-fourth day of August, 1909.

Plans, specifications and instructions can be seen at the office of the city clerk in the City Hall, Negaunee, Mich; also in the offices of the architects, First National Bank building, Milwaukee, Wis., and Marquette, Mich.

The right to reject any and all bids is reserved.

CHARLTON & KUENZEL  
(8-10-24) Architects.

## THE CRIME OF IDLENESS.

Idleness means trouble for any one. It's the same with a lazy liver. It causes constipation, headache, jaundice, sal low complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Life Pills seen banish liver troubles and build up your health. 25c at The Stratford Drug Co.

## LOCAL LAONICIS.

Alexander Matland arrived home yesterday from Chicago.

Messlames Blossom and Levine will serve coffee at the golf club this afternoon.

John A. Nyquist and wife are rejoicing over the birth of a daughter at their home.

The Negaunee branch of the Finnish Temperance society will conduct a picnic tomorrow.

The families of W. H. Truitt, Axel Ethier and Peter Truitt, Jr., are camping at Three Lakes.

A fine saddle horse arrived here yesterday morning from Galesburg, Ill., for George Williamson.

Rev. J. N. King will conduct services tomorrow morning and evening at the Presbyterian church.

S. S. and W. H. Mitchell and their families are enjoying an outing in the Dead River district.

Ralph Mackenzie has given up his diamond drill job with the Freiting estate at the Baron mine, Hubbard.

Miss Gertrude Saw, who has been visiting in Milwaukee for some time, is expected home today or tomorrow.

Jackson and Lindquist have just completed concrete walks at the home of J. E. Allisa and Fred Otto on Main street.

Anton Henriksen is laying a concrete walk for the Upper Peninsula Brewing company at its property on Gold street.

The street roller is being operated on the Palmer road, where a number of men and teams have been employed for some days past.

Mike Bassalo has lost a fine dog, which picked up poison in the eastern part of the city Thursday and died within a few minutes.

Cleo Melville of Ontonagon, who is arranging to promote a national bank in Negaunee, was in the city Thursday and yesterday soliciting the sale of stock.

Services at St. John's church tomorrow will be holy communion at 8 a. m., morning prayer and sermon at 10:30, and Sunday school at 11:45. There will be no evening service.

Mrs. P. B. Kirkwood and her son, T. P. Kirkwood, and family, and John R. David and family of Crofton, Neb., are camping at the Kirkwood homestead at Little Lake.

Mrs. Louis Van Dorp and daughter, Edith of Topeka, Kas., are in the city, visiting John Schwartz and daughter, Miss Rose. They will also visit relatives at Iron Mountain before returning to their home.

Oral J. Lacombe, Chris Johnson, Julius Johnson and Charles Just, together with their wives, have been enjoying an outing the past few days at Charles Laurier's camp, near Little Lake.

Stephen Connors and wife of Escanaba came up from there yesterday to attend the funeral of Postmaster Thomas Connors' fourteen-month-old son, which was held in the afternoon from St. Paul's church.

It is reported from Iron Mountain that the representatives of the Italian societies of the upper peninsula, who are to form a grand lodge, will likely meet in that city in October instead of in Negaunee as was announced a few weeks ago.

Mike Bassalo, who has been engaged in the saloon business in Negaunee for a number of years, has sold out to James Betton and another Italian of Princeton.

Mr. Bassalo's place is in the Kruse building on West Iron street.

The Marquette County Gas & Electric company raised the section walk between the Northwestern track and the First National bank walk yesterday.

The upper portion of it is brick and the lower part concrete. It was raised several inches on the west side.

Walter Evers of this city has resigned his position as fire protection engineer with the Fire Underwriters' Inspection Bureau of San Francisco, with a view to accepting a similar position, but with a better salary, with the Underwriters' Bureau of the Middle and Southern states, which has its general offices in New York.

BUYS PASS TO HEAVEN.

Frank Quick Pays Undertaker's Bill for Dead Man's Sake.

Trenton, N. J., Aug. 13.—Conscience-stricken because he failed to pay a bill for funeral expenses contracted ten years ago, Frank Quick, this city, visited the home of Thomas Crawford, former undertaker, and handed him a roll of bills. He explained to Crawford that he was to have paid the burial expenses of a near relative, but failed.

Quick had several dreams in which he imagined his relative was hovering halfway between heaven and hell because the undertaker's bill was unpaid. The scene was so vivid in the dreams that Quick's conscience worried him and he resolved to discharge the debt.

Mr. Crawford scarcely remembered his former patron and informed him it was not necessary to pay the bill, as it was outlawed. Quick's answer was:

"It might be outlawed in the sight of man, but will never be outlawed in the sight of God until I pay it."

## RAILROADS ORDER ENGINES.

Big Demand Among Transportation Companies for Rolling Stock.

New York, Aug. 13.—The Baldwin Locomotive Works have received orders from the Hill lines for fifty-seven locomotives to cost about \$1,000,000. The Great Northern ordered twenty-five passenger and ten freight locomotives. The Northern Pacific seven passenger and the Burlington five freight locomotives. From the Pullman company the Atchafalaya, Tepeka & Santa Fe has ordered 139 new passenger coaches. The Cambria Steel company will make 300 of the Standard Steel car company 2,000 steel coke cars for the Pennsylvania.

## BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

### NEW TARIFF WILL HAVE SMALL EFFECT

PRICES OF LOCAL IMPORTATIONS IN GENERAL WILL REMAIN ABOUT SAME AS BEFORE.

### FEW GOODS ENTERED HERE

Duty on Most Foreign Made Articles Sold in This City Is Paid at Some Other Port.

The new tariff law will make little difference with local importations, according to the officials of the Marquette customs office. In fact, there are almost no goods imported to Marquette direct, anyway, as most of the foreign made goods used in this city are purchased through importers at Sault Ste. Marie and Gladstone. Most of the imported goods thus secured are purchased duty paid, and the merchant often does not even take the pains to inquire what the duty on them is.

This custom of clearing imported goods at the port of entry, such as the Soo, or the seaboard, reduces the local importer of some red tape proceedings, but it prevents Marquette making the record it should as a port. The rates of duty on different kinds of merchandise and the formalities of importation are rather complex and can be handled more expeditiously by a person who devotes his whole time to bringing in foreign goods, and the local merchant is really money ahead after he has paid the broker for making the entry, provided he considers his time worth anything. The principal importations to this district are hides and wood pulp. Hides are now on the free list. Comparatively few hides have been imported in recent years, but with the duty removed there will probably be considerable business in this line, particularly with South American. The Soo is the chief port of entry for hides.

**Duty on Wood Pulp.**  
Although the new tariff bill places wood pulp on the free list, it contains an exception which in effect places the same duty on that product in this locality as under the old law, which provided a duty of one-twelfth cent per pound. The new tariff provides that wood pulp shall be free, except when brought in from countries where the exportation of pulp wood is prohibited or some kind of an export duty is charged, in which case the one-twelfth cent duty shall apply. As the exportation of pulp wood is forbidden from the province of Ontario and an export duty is charged on wood pulp from the province of Quebec, wood pulp will not be free, as far as the state of Michigan is concerned.

One of the most noticeable effects of the new tariff law in this city is likely to be the purging of the foreign made scenic and comic postcards, the duty on which has been increased to a degree that will make their importation almost prohibitive. A large percentage, possibly a majority of the cards now on sale in this country are manufactured abroad, most of them in Germany, but the new bill will likely encourage their manufacture in this country, and it is altogether likely that a few years will see the foreign product practically displaced by those of home make.

Foreign goods remain on the free list with a more liberal classification. Under the old law, if books contained English annotations they were subject to duty, but under the new law, if they are chiefly in a foreign language, that is enough to let them in without paying tax.

**Liquors and Wines.**  
Liquors and wines are subject to higher rates, and this will hit Scotch whiskey, Holland gin and the French wines. The direct importation of these goods is not heavy. The tax on tobacco remains the same. Among the many other foreign goods sold here may be mentioned china and crockery from England, France and Germany; toys from Germany; linens from Ireland; lace from Germany and France; gloves and millinery goods from France; teas from Japan, and coffee from Brazil.

One of the most important articles imported through the port of Marquette is saltpeter, which comes from the west coast of South America and is used by the powder mill. As this is duty free, however, the local customs office receives no revenue from this importation, although it must be entered on the books of the office.

**JUDGE STONE GIVEN CAME.**  
Members of Menominee County Bar Pay Respects to Noted Jurist.

Before the members of the Menominee county bar in the circuit court Thursday afternoon, Judge Stone, who has been elevated to the Michigan supreme court bench, was presented with a handsome gold-headed cane as a mark of the esteem in which he is held by the attorneys of Menominee county. Not only were the Menominee county lawyers present but there was a good representation of attorneys present in the court room from Escanaba, Iron Mountain, Gladstone and other upper peninsula cities. The presentation speech was made by Attorney A. L. Sawyer, of Menominee, who paid several high compliments to Judge Stone and his standing as a judge in the state of Michigan. Judge Stone thanked the bar very kindly for their remembrance to him and stated that it was with regret that he sat for the last time as judge of the circuit court in Menominee county.

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. (8-13-24)

**SPECIAL SALE ON OXFORDS AT "THE BEE HIVE."**  
We are selling all of our Men's, Women's and Children's Oxford at cost. They will have to go in order to make room for our fall stock of shoes. We will also make a reduction of 10 per cent on all Men's shoes.

**THE BEE HIVE.**  
L. Getz, Prop.  
220-222 S. Front St., Marquette, Mich. (6-19-14)

### GOOD GAME EXPECTED.

Marquette Will Be Opposed by Strong M. C. M. Team Today.

The baseball game this afternoon between the Marquette league team and the Michigan College of Mines nine promises to be as good as any seen at the fair grounds this season. The M. C. M. team is considered one of the fastest teams in the copper country and has been defeated but few times this year. They will present their strongest lineup this afternoon, with Wenzel and Luce as the battery, and the locals will have to be on their toes every minute if they get away with the big end of the score. As there will be no game here Sunday, the attendance should be large.

Marquette will present the same lineup as for the last few Sundays, except that Hamilton will be at second base in place of Shields, who mysteriously disappeared this week. Scholtus will probably pitch this afternoon and Clinton Sunday, although the latter has a lame arm, and the management may decide to save Scholtus for the Ishpeming game for that reason. In that case Jeanson will go third in the box this afternoon. The game will be called at 3:15 p. m., and first class street car service to the grounds is promised. The game may be a little late in starting, and most of those employed in offices should be able to attend. As about forty students from the mining school are now studying geology in and near this city, the visitors will not be without a bunch of loyal supporters. The two teams will line up as follows:

Marquette—Woodman, center field; Walsh, catcher; Rippele, left field; Mack, third base; Young, shortstop; Dunlavey, first base; Hamilton, second base; Lareum or Weiser, right field; Scholtus or Jeanson, pitcher.  
M. C. M.—McCarthy, first base; Brand, second base; Scott, shortstop; Foster, third base; Brewster, left field; Lavory, center field; Jarchow, right field; Luce, catcher; Wenzel, pitcher.

### BEAR CAME TO RESCUE OF HER CAPTURED CUB

BIRCH RESIDENT HAS THRILLING ADVENTURE WHILE CAMPING ON SALMON TROUT RIVER.

Ben Fritz, of Birch, and a party of friends have just returned from a fishing trip on the Salmon Trout river, where Fritz had a thrilling experience with a large bear that he does not care to meet again under similar circumstances. Fritz says the bear was a fair sized one and also a very fast runner. After the party had landed at the mouth of the river and had their tent and camping equipment in proper shape for three or four days' fishing, on opening their packs they found that they had forgotten their bacon and ham and other meat. Then there Uncle Ben made up his mind that he was not going to be without some kind of meat for his breakfast, and he went up stream to see how the country looked and possibly to try for a few trout for breakfast. But he had only been gone a short time when he espied a very large bear and two cubs. Thinking that the cubs would be killed just as he wanted, he ran after and in some way cornered and caught one of them and then hid for the river, which was only a short distance away. He says he had always heard it said that if a person had a young bear in his hands the mother would not interfere. But to Uncle Ben's sorrow, this mother proved an exception, for she took after him and ere he reached the water's edge she reached out with her left with the result that Uncle Ben lost the cub to the mother. It is not necessary to say that Ben dropped the cub without any further ceremony. The mother then made him no further trouble. Had it not been for some of Mr. Fritz's kind friends at Big Bay, who loaned him a pair of overalls, Ben would have had quite a time getting home. As it was he walked four miles out of his way for fear that he might meet some person that knew him. He is said to be even now paler than usual because of his thrilling experience, and has vowed to never again attempt the capture of a bear cub unless fully armed.

### RACING AND BASEBALL.

Expected to Be Drawing Cards at the Marquette County Fair.

A member of the Marquette County Agricultural society received a letter yesterday from C. J. Wickstrom, of Calumet, in which Marquette county people are reassured that the trotting horses of the copper country will be entered in the races at the fair next month. There has been a great revival of interest in the race track game in the copper country since the opening of the Laurium track, and there are in the neighborhood of twenty-five classy steeplechase horses in that locality. The fair directors have been assured that a large majority of these horses will be seen in Marquette next month. Mr. Wickstrom states that most of the copper country horsemen are now racing in Wisconsin, but that they expect to bring their trotters to the Marquette county fair.

The fair management is glad to see the interest that is being taken through the press in the baseball games at the fair, and would be pleased to entertain a proposition from the managers of the Marquette-Alger county league teams relative to the matter. A director stated yesterday that the fair management realized the importance of baseball as a drawing card at the fair, and would not be stingy in the size of the purse to be hung up, provided they were assured the public would not be disappointed in the article of ball offered.

### CARD OF THANKS.

We wish to express our heartfelt gratitude to our many friends and neighbors, who so kindly assisted and sympathized with us in our recent bereavement, and especially to all who sent floral tributes.  
JOHN BLAIR and DAUGHTERS,  
Champion, Mich.

Order your milk, cream, butter and buttermilk of the Marquette City Dairy. Modern, sanitary and up-to-date. Equal to any practical dairy in the state. Try our special milk for babies. Bell telephone 223. F. H. Vandenberg, Prop. (8-2-10)

Brocton Port and Brandy and Chase's Kentucky Whiskey are pure goods, and sold always by The Stafford Drug Co. (6-7-14)

### GREATEST DANGER FROM COLLISIONS

LAKE CAPTAIN BELIEVES ALL VESSELS SHOULD BE EQUIPPED WITH WIRELESS SYSTEMS.

"The risk of collisions is the greatest danger on the Great Lakes at this time," says a vessel captain, who is well known at this port. "All the companies realize this and the time is not far distant when each boat on the lakes will have either a wireless telegraph outfit or one of the telephone variety. "The lakes are well regulated, well lighted, the channels are closely watched, and as the boats of today are very seaworthy, there is almost no danger except from collisions. There are few captains on the lakes today, except the very few who are running old boats, who would be afraid to face the toughest kind of a storm. "Of recent years there have been few boats lost in a storm. True, the Clemons went down last year in a winter gale, but these accidents are few and far between, compared with the many which happen as the result of collisions. "The telephone system looks good to a number of the companies, and this is the reason they have not installed the telegraph system. They are waiting for the telephone system to be installed, a number of experiments have been made recently, and the telephone looks like a sure go. The machine is supposed to work over a distance of only 150 miles, but on recent trials near Cleveland the machine worked perfectly at a distance of over 250 miles. "The boat companies prefer the telephones. Anyone can use them while with the telegraph system a man would have to be paid for the purpose of handling the machine. The telephone would be much less expensive and this seems to be the reason they are waiting. "With either one of these systems aboard every boat on the lakes the danger of collisions would be greatly lessened and, wonderful as it seems, I expect to live to see the time every boat on the lakes is equipped in this manner."

**SUNDAY AT THE CHURCHES.**  
First Baptist Church—Worship and preaching; sermons by Dr. Tupper on "An Intelligent Christianity," and on "Self Control." The public is cordially invited.  
First Church of Christ, Scientist—Services will be held in the opera house block, room 2, at 10:30 a. m. The subject of this week's lesson will be "Soul."  
Presbyterian Church—Rev. Campbell Coyle, of Duluth, will preach at 10:30 a. m. and 4 p. m.  
Methodist Church—Rev. Herbert C. Shaw, of Lake Linden, will preach morning and evening at the usual hours of worship. Sunday school at 12 o'clock noon and Epworth League meeting at 6:45 p. m. The public is cordially invited to all of these services.

**PAPERS WERE CANCELED.**  
In the issue of The Mining Journal, of Aug. 4, it was erroneously stated that Charles Sheer, of Newberry, had been arrested by Deputy U. S. Marshal Mosher, charged with fraud in obtaining his naturalization papers. Mr. Sheer was notified of the cancellation of his papers because it had been discovered that one of his witnesses had not been properly qualified. Mr. Sheer himself was not familiar with this fact, it is said. The Mining Journal regrets the erroneous statement of the matter.

**TURKISH BATHS AND CHIROPODY.**  
Frank Kough, 123 W. Ridge St., Marquette.  
**GAD SMITH IN DULUTH.**  
Gad Smith, collector of customs for the Marquette district, which includes Superior, came to the head of the lakes yesterday to pay a visit to his deputy, Thomas B. Mills, of the Superior office. The two collectors spent the afternoon by calling on Collector Wilentz of the Duluth customs house. Mr. Smith has been one of the most prominent politicians of the upper peninsula of Michigan for many years. It is well known in Duluth and often visits in this city. —Duluth News Tribune.

**800 CANAL PASSAGES.**  
Boats Locked Through, Bound for Ports on Lake Superior.  
Sault Ste. Marie, Mich., Aug. 13.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Cornelius, 11 p. m.; Fedenbar, midnight; Buck, 1 a. m.; Curt, Nasmith, 2:20; Eads, Manila, 3:30; Seguin, Beaverton, Winona, 5; Reed, 11; Mary Elphicke, 11:30; Richardson, E. L. Wallace, Monroe, Smith, noon; Fitch, McMillan, Gilbert, Bunson, Bunkerdrake, 12:30 p. m.; Sierra, 1; Angeline, 1:20; Manitoba, Hutchinson, 2; Ormoco, Bois, Zenith City, Cranage, 2:30; Jenkin, Coralia, 3:30; Gates, 4; Anasa Stone, Portage Northern Light, Stewart, 5; Bessemer, Bell, 5:30; Mamma, 6; Morrell, 6:20; L. J. Brown, Kongo, Robbins, 7; Collingwood, 8; Rummy, 9.

**NOTICE TO CONTRACTORS.**  
Sealed proposals will be received for the erection of a two-story and basement high school building in the village of Baraga, county of Baraga, state of Michigan. All bids must be accompanied by a certified check of five hundred dollars (\$500.00), made payable to the secretary of the Board of Education. Bids must be in the hands of the secretary on or before 12 M., Tuesday, Aug. 24, 1909, at the office of said secretary. The board reserves the right to reject any or all bids. Plans and specifications may be obtained at the office of H. T. Liebert, architect, post office block, Hancock, Mich. By order of the Board of Education of the village of Baraga, Baraga county, Michigan.  
JOHN H. HILLE, President.  
JAMES McMAHON, Secretary. (8-14-09)

**FACIAL TREATMENT.**  
Miss Hollie Oster, Werner block, removes superfluous hair, moles and warts by electric needle. Ladies' and gentlemen's manicuring. Bell 'phone 61. (7-16-11)

**It's Foolish to Hoard Your Money.**  
Why? Well, there are many good reasons why you should not carry your savings about with you, or tuck them away in some private place of fancied security.  
You take big chances with money so disposed of. It may be stolen, burned, lost or foolishly spent. You may be tempted by some reckless "gambler" or speculative "investment" which would not appeal to you if your savings were safe in the bank.  
And, above all, hoarded money earns nothing for you. We not only give you absolute safety and protection, without charge, but we pay you 3 per cent (compounded semi-annually) for the privilege of serving your interests.  
**THE FIRST NATIONAL BANK**  
MARQUETTE, MICH.
