

FEDERAL DEFICIT IS GROWING LESS

While It Footed Up More Than Twenty-Eight Millions at This Time a Year Ago, It Amounts to Only \$17,582,000 Now.

Evidences of Returning Business Activities Are Found in the Receipts from Internal Revenue, Which Show a Material Gain Over Those of 1908—Just How the New Tariff Law Will Operate Cannot Be Told for Probably a Week Yet.

Washington, Aug. 17.—The treasury department states that it will be probably a week before there will be any intelligent view of getting at a comparison of the operations of the treasury and the receipts from internal revenue.

Receipts from internal revenue for the first month and a half of this fiscal year, compared with those of the corresponding period last year, for the first month and a half of this fiscal year, the total receipts from all sources have been \$81,941,154, and the total expenditures \$69,359,999, making the deficit \$12,581,155.

Philadelphia Bonds Are Sold. Washington, Aug. 17.—Bids were opened today for \$3,000,000 of 4 per cent ten to thirty-year Philadelphia bonds.

DIFFERENT A YEAR AGO. Importers of Diamonds Able Now to Borrow from the Banks Freely. New York, Aug. 17.—It is with a very different expression of contentment that those who deal in and import jewels and precious stones, especially diamonds, speak of conditions today as compared with those of a year ago.

HARRIMAN'S HEALTH GOOD. Arriving in Paris by Automobile, He Arranges to Sail for Home Today. Paris, Aug. 17.—E. H. Harriman arrived here today by automobile and proceeded immediately to the home of James Stillman.

IS EXECUTED IN ENGLAND. London, Aug. 17.—Madaral Dhangri, the Indian student who on July 1 shot and killed Lieutenant Colonel Sir Wm. Pitt Rivers, was hanged in Pentonville prison this morning.

BOLIVIAN WANTS PEACE. Lima, Peru, Aug. 17.—Senator Mujica, Bolivian minister to Peru, has issued a statement in which he declares that all reasonable people in Bolivia are unanimous for a friendly and decorous outcome of the negotiations to settle the trouble between Bolivia and Peru, over the boundary.

COSTLY FIRE AT GLASGOW. Glasgow, Aug. 17.—Fire broke out early today in the retail business quarter of Glasgow. Several squares of buildings were consumed. The damage is estimated at one and one-quarter million dollars.

Washington, Aug. 17.—Mrs. Callahan, wife of Illinois' senior senator, suddenly grew worse this afternoon. The attending physician fears that she may not live through the night.

RAILROAD COMPANIES TO SPEND MILLIONS.

Old Union Depot in Chicago to Be Replaced by a \$25,000,000 Structure—Aside from This, a \$30,000,000 Terminal Is Planned and One Costing \$20,000,000 Is Now Being Constructed.

Chicago, Aug. 17.—The old Union station in Chicago will be replaced by a \$25,000,000 structure, according to an announcement made here today.

HATTERS TO RETURN TO WORK.

Prolonged Strike Is Ended Through the Intercession of Governor Fort. New York, Aug. 17.—An agreement was reached between the executive council of the United Hatters of North America and representatives of the Hat Manufacturers' association.

NET GAINS THE RULE.

Reactionary Early, Stocks Are Strong the Last of the Session. New York, Aug. 17.—The reactionary tendency manifested by the stock market yesterday became more pronounced today, with early declines in a majority of the issues.

PHILADELPHIA. Philadelphia, Aug. 17.—The Philadelphia market was generally firm today, with a few exceptions.

AMERICA GETS EQUAL SHARE.

Arrangements for China's New Loan of \$30,000,000 Are Definitely Settled. Peking, Aug. 17.—American participation in the Hankow-Sze-Chuen railroad loan was definitely settled at the offices of the foreign bond this morning.

HARRIMAN'S HEALTH GOOD.

Arriving in Paris by Automobile, He Arranges to Sail for Home Today. Paris, Aug. 17.—E. H. Harriman arrived here today by automobile and proceeded immediately to the home of James Stillman.

IS EXECUTED IN ENGLAND.

London, Aug. 17.—Madaral Dhangri, the Indian student who on July 1 shot and killed Lieutenant Colonel Sir Wm. Pitt Rivers, was hanged in Pentonville prison this morning.

BOLIVIAN WANTS PEACE.

Lima, Peru, Aug. 17.—Senator Mujica, Bolivian minister to Peru, has issued a statement in which he declares that all reasonable people in Bolivia are unanimous for a friendly and decorous outcome of the negotiations to settle the trouble between Bolivia and Peru, over the boundary.

COSTLY FIRE AT GLASGOW.

Glasgow, Aug. 17.—Fire broke out early today in the retail business quarter of Glasgow. Several squares of buildings were consumed. The damage is estimated at one and one-quarter million dollars.

DENVER PROMISES TO BE BATTLEFIELD

That the Trans-Mississippi Commercial Congress Will See a Renewal of the Pinchot-Ballinger Feud Is Not at All Unlikely.

Not Only This, but a Fight on Railroad Rates Threatens to Break Out and Become Probably the Predominant Factor—How Tariffs Have Been Boosted So That Galveston Is Practically Closed to Western Importers Is Explained to the Convention.

Denver, Aug. 17.—Coupled with the possibility of renewed hostilities between the Pinchot and Ballinger forces, the Trans-Mississippi commercial congress in session here, promises to become a battlefield of the fight for better rate regulation for the West.

The assertion that the fight on railroad rates may break at any time and become the predominant factor in the deliberations of the congress was made today by Colonel Ike Pryor, of San Antonio, Texas, chairman of the executive committee.

According to Colonel Pryor's statement, the ocean rate between New York and Galveston has been low enough to bring their goods to the Texas port for shipment over local lines to Denver, thus obtaining reduced rates.

Laverne W. Noyes, of Chicago, president of the National Business League of America, spoke on the American consular service. He told of the value of the consular agent to the American shipper in procuring a market.

Insurance Convention at Portland. Portland, Ore., Aug. 17.—More than two hundred delegates from all parts of the country were gathered here at the opening of the convention of the American Association of Mutual Insurance Companies here today.

DEPRECATES NAVAL UPBUILDING.

Railroad Magnate Yoakum Talks to the Oklahoma Farmers Union. Shawnee, Okla., Aug. 17.—Decreasing the growing expenditure which the United States is incurring in connection with the maintenance of the army and the navy, and declaring that the grain and cotton fields of the Mississippi valley and the West are stronger military defenses than warships, D. J. Yoakum, chairman of the executive committee of the Rock Island railroad, delivered an address here today before the Farmers' union of Oklahoma.

HIS NEGRO SECRET SOCIETIES.

Recent Act of Georgia's Legislature Is Made a Law by the Governor. Atlanta, Ga., Aug. 17.—Tonight Governor Brown signed the recent act of the Georgia legislature which prohibits the use by negro secret societies of the insignia, ritualistic work, grips, etc., of orders composed of white men.

Lajoie Resigns as Manager.

Cleveland, O., Aug. 17.—Napoleon Lajoie tonight tendered his resignation as manager of the Cleveland American league baseball club. The losing streak of the team has been bitterly criticized locally.

TRAINMEN'S ARREST ORDERED.

Husted (Colo.) Wreck Declared Due to Criminal Negligence. Colorado Springs, Colo., Aug. 17.—The coroner's jury investigating Saturday's collision on the Denver & Rio Grande railroad at Husted, Colo., in which ten persons were killed and sixty were injured, decided today that the wreck was due to criminal negligence.

THE WEATHER.

Washington, Aug. 17.—The following is the weather bureau's forecast for Upper Michigan: Fair; Wednesday and Thursday; light to moderate northwest winds.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for League, Team, W., L., P.C. National League and American League.

SCHEDULE FOR TODAY.

Table listing games for today: National League (St. Louis at Pittsburgh, Cincinnati at Chicago, New York at Philadelphia, Brooklyn at Boston) and American League (Chicago at Detroit, St. Louis at Cleveland, Philadelphia at Washington, Boston at New York).

YESTERDAY'S GAMES.

Table listing results of yesterday's games: National League (Chicago at Cincinnati, St. Louis at Pittsburgh, Cincinnati at Chicago, New York at Philadelphia, Brooklyn at Boston) and American League (Cleveland at Detroit, St. Louis at Cleveland, Philadelphia at Washington, Boston at New York).

Boston-Brooklyn and Philadelphia-New York games postponed, on account of rain.

Illinois Delegates Deadlocked. Macomb, Ills., Aug. 17.—The delegates to the Fourth district Republican convention are in a deadlock over the selection of the nominee for the place on the state supreme court bench made vacant by the death of Justice Guy C. Scott.

HAD BEEN DESPONDENT. Ontario Farmer Murders His Daughter and Commits Suicide. Newwood, Ont., Aug. 17.—Thomas Whiloughby, a farmer, this afternoon shot his twelve-year-old daughter dead and committed suicide. Whiloughby had been despondent.

Boston Militiaman a Suicide. Boston, Aug. 17.—After sending a message, asking his cousin to come to the South armory immediately, Fabian Fall, a member of Battery A, Massachusetts Volunteer Militia, shot and killed himself today in the battery's equipment room. The motive is unknown.

ROBBERY HIS MOTIVE. Man Jailed at Baltimore Confesses to Two Murderous Crimes. Baltimore, Md., Aug. 17.—Oliver Herman Harris, who some days ago acknowledged having murderously assaulted his aunt, Mrs. Clara Harris, confessed today that on July 22 he murdered his cousin, James Powell, whose decomposed body was found Saturday in the cabin in which he lived alone near Rockville. Robbery was the motive of both crimes.

YALE GRADUATE DROWNS. Body of James Simpson Is Found in the Flambeau River. Park Falls, Wis., Aug. 17.—The body of James H. Simpson was discovered entangled in a mass of driftwood in the Flambeau river near here today. Simpson was a graduate of Yale. He had been missing since Aug. 11 and is supposed to have been accidentally drowned.

DIES DEFENDING BANK. Cashier at Kiefer, Oklahoma, Is Shot and Killed by Robbers. Tulsa, Okla., Aug. 17.—Palmer Webber, cashier of the Kiefer bank, wounded last night by robbers who attempted to rob the bank at Kiefer, is dead. All traces of the murderers seem to have been lost.

THREE GIRLS BURN TO DEATH. La Crosse, Kas., Aug. 17.—Ella Bullock, aged nineteen, and her two small sisters were burned to death today in a fire which destroyed the farm house in which they lived. The fire was caused by a gasoline explosion. The parents were absent at the time.

HENEY IS DOWNED AT SAN FRANCISCO

Returns from the Municipal Primary Election Show Fickert Far in the Lead for the G. O. P. Nomination for District Attorney.

Out of 21 Wet Counties in South Carolina, the Prohibitionists Carry 15—Primaries Are Held in Nebraska, but It Is Not Yet Possible to Accurately Forecast the Result—That Democratic Governors Are to Confer Is Denied by Marshall, of Indiana.

San Francisco, Cal., Aug. 17.—The latest returns from the municipal primary election held today indicate that Charles Fickert, for district attorney, is running far ahead of Francis J. Heney for the Republican nomination.

"Drys" Triumph in South Carolina. Charleston, S. C., Aug. 17.—Unofficial returns from the elections held today in the twenty-one so-called "wet" counties of South Carolina indicate that the prohibitionists have won victories in fifteen.

Primaries Held in Nebraska. Lincoln, Neb., Aug. 17.—Scattering returns up to midnight on today's statewide primary election are sufficient to accurately forecast the result. Of the eight Republican candidates for supreme court justiceships vacancies, Judges Barnes and Sedgewick seem to be running well ahead, with the third Democratic candidate for the nomination, the three named on the primary ballot—John J. Sullivan, J. P. Dean and Benjamin F. Good—are the nominees.

Democratic Governors Not to Meet. Marquette, Mich., Aug. 17.—Governor Marshall of Indiana today denied a report that he was to meet Governor Harmon of Minnesota and Governor Harmon of Ohio here to talk over national politics. He also said that he considered it out of place for a number of men in a political party to attempt to dictate the policy of the party.

Ontario Farmer Murders His Daughter and Commits Suicide. Newwood, Ont., Aug. 17.—Thomas Whiloughby, a farmer, this afternoon shot his twelve-year-old daughter dead and committed suicide. Whiloughby had been despondent.

Boston Militiaman a Suicide. Boston, Aug. 17.—After sending a message, asking his cousin to come to the South armory immediately, Fabian Fall, a member of Battery A, Massachusetts Volunteer Militia, shot and killed himself today in the battery's equipment room. The motive is unknown.

ROBBERY HIS MOTIVE. Man Jailed at Baltimore Confesses to Two Murderous Crimes. Baltimore, Md., Aug. 17.—Oliver Herman Harris, who some days ago acknowledged having murderously assaulted his aunt, Mrs. Clara Harris, confessed today that on July 22 he murdered his cousin, James Powell, whose decomposed body was found Saturday in the cabin in which he lived alone near Rockville. Robbery was the motive of both crimes.

YALE GRADUATE DROWNS. Body of James Simpson Is Found in the Flambeau River. Park Falls, Wis., Aug. 17.—The body of James H. Simpson was discovered entangled in a mass of driftwood in the Flambeau river near here today. Simpson was a graduate of Yale. He had been missing since Aug. 11 and is supposed to have been accidentally drowned.

DIES DEFENDING BANK. Cashier at Kiefer, Oklahoma, Is Shot and Killed by Robbers. Tulsa, Okla., Aug. 17.—Palmer Webber, cashier of the Kiefer bank, wounded last night by robbers who attempted to rob the bank at Kiefer, is dead. All traces of the murderers seem to have been lost.

THREE GIRLS BURN TO DEATH. La Crosse, Kas., Aug. 17.—Ella Bullock, aged nineteen, and her two small sisters were burned to death today in a fire which destroyed the farm house in which they lived. The fire was caused by a gasoline explosion. The parents were absent at the time.

FLAG OF GREECE COMES DOWN THIS MORNING.

Foreign Consuls Give Creteans Notice to That Effect, at the Same Time Conveying Warning of the Dire Consequences That Would Follow Any Attack Made on the International Forces.

Canea, Island of Crete, Aug. 17.—The foreign consuls here, on behalf of the international squadron anchored in Canea bay, today notified the Cretan government that the Greek flag would be hauled down Wednesday morning, and they warned the government of the irreparable consequences that would follow any attack made on the international landing party. On the receipt of this warning, the Cretan authorities appeared to the people not to obstruct in any way the action of the powers.

Spain Opens Negotiations in Morocco. Paris, Aug. 17.—A correspondent at Melilla says in a despatch today that he understands that Spain has opened peace negotiations with the Moors.

Tangier, Aug. 17.—Reports received here from the interior confirm the statement that the forces of Reghi, a rebel subject of the sultan of Morocco, have been defeated by the imperial troops. Reghi fled to the mountains. The sultan's troops took 100 prisoners, and fifty heads have been sent to Fez for public exposure.

MARKSMANSHIP IS EXCELLENT.

Camp Perry Shoot Productive of Brilliant Work at the Targets. Camp Perry, O., Aug. 17.—The Ohio adjutant general's \$500 cup was won this morning by Lieutenant Townsend Whelan, Twenty-ninth United States infantry, by a score of ninety-nine out of a possible 100, with Captain Casey, of Pennsylvania, second, at ninety-seven, and Private Frank Kier, of the Third Michigan, third, at ninety-six.

In the Peters match, Private J. E. Burns, of the Sixth Massachusetts, and Lieutenant C. M. Gale, of Illinois, each made a perfect score. For third place, Lieutenant Townsend Whelan and Midshipman A. D. Deary, of the navy, tied at ninety-nine. Private Robinson, of the Marine Corps team, landed fourth, with ninety-eight, and five competitors were tied at ninety-seven for sixth rank. The Dupon individual tyro match was won by Private F. Worsdall, of the Marine corps, with twenty-eight bullseyes. Lieutenant V. A. Martin, of the Second Ohio, had twenty-seven.

The Department of the Lakes Rifle association's individual skirmish match for contestants from Ohio, Kentucky, Indiana, Illinois, Michigan and Wisconsin was won by Lieutenant G. VanAnken, of the Third Indiana, who scored ninety-eight. Lieutenant V. A. Martin, of the Second Ohio, had twenty-seven.

PROTEST IS DISALLOWED.

Chicago Yacht Club's Spray the Winner of the Lipton Cup. Chicago, Aug. 18.—The Lipton cup races ended here today with the Spray, the Chicago Yacht club entry, apparently the winner; but the race is contested by I. A. C., the Illinois Athletic club entry, and the question has been taken under consideration by the judges. Larria II won today's race, with the Spray second and the I. A. C. third. The Spray's time was 2:08:50, and the third boat made it in 2:08:50. As both the Spray and the I. A. C. were even in percentage when the race today began, this put the Spray the winner. The crew of the I. A. C. protested, however, that they had been beaten on a foul, and if this is sustained, the Spray will be eliminated from the race.

Results on Lake Winnebago. Oshkosh, Wis., Aug. 17.—The Margaret L. of Minnetonka, won the class B race today in the championship series of the Inland Lakes Yachting association. In the class C race, the Patsy, of Oshkosh, won. This afternoon's race of the class A yachts became a "lost race" when shortly after 6 o'clock the judges called the event off because of lack of wind.

GEERS' HORSE WINS EASILY.

Queen City Stake of \$2,000 Goes to Harvester in Straight Heats. Buffalo, Aug. 17.—The Harvester, Ed Geers' unbeaten stallion, this afternoon won the Queen City stake of \$2,000 for 2:09 trotters. It was an easy victory. Harvester winning four straight heats. The every-heat-race plan was followed in these events.

Harvester was out in the pool selling, and Carlockin, the California stallion, sold the favorite. In the first heat, Durfee's horse went to a bad break, and before he settled down the distance flag had dropped. Geertel II finished second. The 2:09 pace also went to Geers, who drove Walter W under the wire in straight heats. Inner Guard, a prohibitive favorite, easily defeated Wolverine in the 2:13 trot, the closing event. Summary: 2:09 trot, \$2,000—1 1 1 1 1 1. Geertel II 2 2 2 2 2 2. Beatrice Billie 3 3 4 2. Best time, 2:09:14. 2:09 pace, \$1,000; five starters—Walter W 1 1 1 1 1 1. Billy B 2 2 2 2 2 2. The Bo'sun 3 3 3 3 3 3. Best time, 2:09:04. 2:13 trot, \$1,000; four starters—Inner Guard 1 1 1 1 1 1. The Wolverine 2 3 2 2 2 2. Fair Margaret 4 2 3 4. Best time, 2:11:14.

TENNIS SCORES AT OMAHA.

Omaha, Aug. 17.—The second and third rounds in the singles were completed in the Middle West tennis tournament today. The first round of the singles consolation match also was played. The scores in the third round of the singles were: James, St. Louis, beat Bradley, Des Moines, 6-2, 6-3; Branson, Mitchell, S. D., beat Scribner, Omaha, 6-4, 6-4; Gahner, Chicago, beat Sheldon, Kansas City, 6-4, 6-2; Armstrong, St. Paul, beat Hoerr, St. Louis, 6-1, 6-4; Hayes, Chicago, defeated Bailey, Alton, Okla., 6-3, 6-2; Gilman, Sioux City, beat Seidler, Doniphan, Mo., 5-7, 6-1, 6-4; Warfield, Chicago, beat Vernon, Kansas City, 6-4, 6-2; Pether, Omaha, defeated Sweet, Des Moines, 6-4, 3-6, 6-1.

BLIZZARD RAGES IN SOUTH AFRICA

Johannesburg Reports the Heaviest Snowfall in Many Years, With Wire Service Demoralized and Business Almost Suspended.

In This Country, the Weather Is So Hot in the Southwest That "Sun Cracks" Interfere With the Operation of Trains in Texas and the Day Is One of the Most Trying That Kansas, Missouri and Oklahoma Have Ever Had, the Mercury Climbing to 113.

Johannesburg, Aug. 17.—The heaviest snowfall in many years occurred here today. Six inches had fallen at noon, and the storm was still in progress. The telegraph and telephone services are badly disorganized and business is almost suspended. The members of the stock exchange ceased business today long enough to engage in a snowball battle.

Southwestern States Sweeter.

Kansas City, Aug. 17.—The severe weather throughout the Southwest gave way to a limited extent tonight, before cooling breezes. The day was the most trying that Kansas, Missouri and Oklahoma have experienced for years. Despite the excessively high temperature, however, there were comparatively few prostrations. Two deaths were recorded in Kansas City today.

The government thermometer at McAlester registered 113; at Vinita, 110; Ardmore, 111, and Oklahoma City, Guthrie and Tulsa, 106. In Kansas City and western Missouri the temperature was near the 100 mark all afternoon. From Kansas points came reports that the heat is not damaging corn seriously.

Suffering at Fort Worth Is Intense.

Fort Worth, Tex., Aug. 17.—With the weather bureau thermometer registering 111 from 2:15 to 3:15 this afternoon, and street thermometers in the business district recording 120, today was the hottest in the history of Fort Worth, so far as there is record. The suffering of man and beast was intense, and business to a large extent was interfered with.

Dallas, Tex., Aug. 17.—Today was the hottest of the year, the thermometer registering 108 1/2 at the government observatory.

Sun Cracks Texas Roadbeds.

Fort Worth, Texas, Aug. 17.—Advises from some portions of the state report "sun cracks" interfering with train schedules on the railroads. In some places the roadbeds have cracked open on account of the intense heat and prolonged dry weather, throwing the rails out of line.

BOSTON IN DANGER.

Defenders Face Defeat in War Game Now in Progress in Massachusetts. Boston, Aug. 17.—At the conclusion of today's maneuvers in the war game in which the army of the red, under Brigadier General Bliss, is striving to defeat the army of the blue, commanded by Brigadier General Pew, Jr., and capture Boston, the army of the red had made a material advance, and unless General Pew, of the defenders, can concentrate his troops tomorrow morning to meet the attack of the troops which General Bliss has massed heavily on the blue's left, Pew faces defeat.

Great Lakes Naval Fleet Disbands.

Milwaukee, Aug. 17.—The Great Lakes naval fleet, headed by the Nashville, which arrived here today, disbanded tonight, the vessels sailing for their respective stations.

OCEAN DROPS MANY FEET.

Acapulco, Mexico, Experiences Three More Severe Earth Shocks. Mexico City, Aug. 17.—A delayed despatch received today from Acapulco says that three severe earthquake shocks were experienced there yesterday. The ocean dropped far below its usual level. Along the entire shore line of the port the beach was exposed for a distance of thirty feet.

Portuguese Capital Panic-Stricken.

Lisbon, Aug. 17.—A strong earth shock was experienced here at last past this morning. The people were panic-stricken, but there has been no casualties and no damage has been reported.

SEA IS CHEATED OF VICTIMS.

Long Island Life-Savee's Rescue Seven Shipwrecked Sailors. New York, Aug. 17.—Seven men, including the captain of the three-masted schooner Arlington, of Boston, were rescued from a perilous position on the bowprit of that craft, stranded on a sand bar off Long Beach, Long Island, today. Life savers from the shore effected the rescue.

The eighth member of the crew—Madden Pierson—is believed to have been drowned in an effort to reach shore on a raft. The Arlington will be a total loss.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)
Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

President Taft has nothing to say about the Ballinger-Pinchot disturbance. Wise president. It will be time enough for him to take a hand when he has to.

It's a safe prediction that the northern part of Michigan will never see a president until it comes perilously near giving a majority to a Democratic candidate.

The druggists are generally found among the advocates of county prohibition. Wherever it has been tried it has proved to be among their biggest business boosters.

It is proposed, if possible, to head off the Ballinger-Pinchot dispute at the Trans-Mississippi Commercial congress being held at Denver this week.

A new use has been found for the Lincoln cent. It is slightly heavier than the Indian head cent and resourceful experimenters have found that it works as well as the proper coin in the nickel slot of the automatic telephones in the public booths.

Great inroads are being made on the prerogatives of the Washington clerk. "Efficiency tests" have wrought havoc, and now comes Secretary Nagel with an order, affecting 12,000 persons, that there shall be no vacations in his department until the individual clerks have brought their work up to the minute.

Think of the hottest day that has been experienced in this locality and then add fifteen or eighteen degrees to it and the devastating blasts that swept over Kansas, Missouri and Oklahoma Monday. The government thermometers, and they are always ultra-conservative on the subject of temperatures, recorded as high as 110 degrees.

Samuel A. Cook, of Neenah, who was one of the candidates against Senator Stephenson in the primaries in Wisconsin last fall, is now being groomed as a candidate for governor.

At the annual meeting of the National Protective Legion at Wilkesbarre, Pa., it is stated that there will be serious advocacy of a considerable reduction in the sick claim allowance of \$15 per week, which the order now grants.

5% DEBENTURES
Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

is too large to be in proportion to the amounts demanded of the members in support of their membership. This is unbusinesslike, and is a condition that may well be corrected.

"The situation in Kent county, with its two candidates for governor, furnishes more than entertainment to the friends of Chase S. Osborn who are keen to see that gentleman shy his castor into the gubernatorial ring," remarks the Soo News.

A report from Topeka, Kas., says that the affairs of the prison binder twine plant are not in satisfactory condition. More than 50 per cent of this year's product is on hand, and the harvest is over.

It is reported that the state board of agriculture has dismissed the proposal to remove the upper peninsula state experiment station from Chatham, Alger county, to Menominee county.

It appears that President Taft isn't going to let the great grocer under his test in the appointment of his tariff commission. According to the terms of the Payne law, this body is to exist only during the president's pleasure.

While the promoters of the proposed "harmony" conference are considering plans for the gathering at Saratoga September 9-10, to plan for the regeneration of the Democratic party in New York, a new political alliance, which has for its aim the humbling of Charles Murphy, the Tammany boss, in state politics, and the establishing of a McClellan-Conners-McCarren combination in a place of supremacy, is settling down to systematic work.

The immediate objective point of this triumvirate is the control of the next state convention against Murphy. Its plans are said to entail the nomination of Mayor McClellan for governor on the Democratic state ticket.

SERVE THESE TO YOUR FRIENDS
Copper Country FIREMEN'S TOURNAMENT OPENS. Fifteenth Annual Gathering Now on in Full Blast at Laurium.

The fifteenth annual tournament of the Upper Peninsula Firemen's association is now in progress at Laurium—the largest village in Michigan and probably the most widely-attended and prominent in the reception of the stranger.

The tournament will open today with a parade of all departments. This parade will start at Lake Linden avenue and will take in all of the Laurium business district, through Calumet and Reed jacket and back over the same route.

The tournament will open today with a parade of all departments. This parade will start at Lake Linden avenue and will take in all of the Laurium business district, through Calumet and Reed jacket and back over the same route.

The situation is shaping to give the Republicans much strategic advantage in both the state and the city. They are, however, in none too good condition to take advantage of it.

It appears that President Taft isn't going to let the great grocer under his test in the appointment of his tariff commission.

Of course, some unspeakable things were done to Senator Beveridge's original commission plan and the anti-administration Republicans are making the most of these in the way of thunder for the creation of unrest.

Will not criticism of this or that scheduled coming from the president, and based on the expert and disinterested government authority, have quite as much weight with congress as if it came directly from a commission appointed for its sole advice?

Second thoughts are only best when they are not more expensive.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface.

MILITIAMEN RETURN TONIGHT. Calumet and Houghton Companies Enroute Home from Ludington.

The Calumet contingent at the Michigan National Guard encampment—Company A, Engineers—is enroute home from Ludington, having left camp last night, and will arrive in the copper country tonight.

Charles G. Kilpatrick, the former one-legged bicyclist, crack shot and roller skater, who in other years was wont to umpire baseball in the copper country, and who has appeared here in his other capacities as performer, arrived in Calumet yesterday with the Parker show.

KILPATRICK HERE AGAIN. Former Copper Country Umpire With the Parker Carnival Shows.

Charles G. Kilpatrick, the former one-legged bicyclist, crack shot and roller skater, who in other years was wont to umpire baseball in the copper country, and who has appeared here in his other capacities as performer, arrived in Calumet yesterday with the Parker show.

TUCKER WILL DRILL AGAIN. Winner in C. & H. Games Will Accept Dr. Miller's Proposal.

Dr. John Miller of Calumet is still at work on a plan to bring the Tucker and Billedeaux drilling teams together again. He saw Tucker Monday night and that leader was willing to try conditions with the Billedeaux team once more in order to definitely settle the question of Calumet superiority.

Laurium Cow Cases. Four Owners Are Fined and There Is a Sequel in Court.

Justice Ames of Laurium fined four cow owners Saturday night. They were charged with permitting their milkers to run at large, to the detriment of the lawns and other property of the neighbors.

A twelve-year-old boy appeared in the streets of Red Jacket Monday with a tale of woe. He said that he was the son of a widow and that she had given him her last dollar for the trip to Calumet in the hope that he might raise funds by begging. It was learned that the child is from a respectable family in Laurium and that his story was a beautiful piece of fiction.

MINOR CRIMINAL MATTERS. Calumet Justices Have an Uninteresting Day in Court.

Whatever may be the underlying cause for the quiet, crime is not rampant in Calumet. Justices of the peace have little to do, only an occasional drunk or other minor criminal matter coming their way.

The most desperate character brought up yesterday was John Mikulka, who was arraigned in Justice Jackola's court. He was arrested last week for stealing a hammer and a saw and demanded a trial.

JAMES LISA IS HONORED. Red Jacket Band Makes Him President of Statue Committee.

James Lisa, the retired merchant, Italian consul in Calumet and at Calumet, who has been named by the Red Jacket band as honorary president of the promotion committee in charge of the preliminary work in connection with raising funds for the proposed statue of Christopher Columbus.

EPIDEMIC OF TYPHOID. Many Cases Reported at Michigan Smelters and in West Houghton.

An epidemic of typhoid fever is prevalent in West Houghton and at Calumet, where the plant and townsite of the Michigan Smelting company are located. At the latter place there were no less than eight cases reported yesterday, while in West Houghton several persons among them Martin Kratt, a well known citizen, are ill with the malady.

FOR BENEFIT OF GOOD WILL. Series of Entertainments to Be Given by Harriet R. Labadie.

A series of readings and entertainments will be given in the copper country and iron country during the next few weeks, by Mrs. Harriet R. Labadie, a noted dramatic school instructor, for the benefit of Good Will Farm.

COLLECTING VILLAGE TAXES. Village Treasurer Joseph Curtis of Red Jacket has begun the collection of village taxes.

ACT QUICKLY and you'll save yourself a lot of suffering and trouble. If you have a sudden chill or taken cold—if you have colic, cramp or diarrhea, don't wait a minute. Take at once a teaspoonful of Perry Davis' Painkiller in half a glass of hot water or milk. You'll be safe and on the right road to quick recovery.

Artistic Monuments
COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE
Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care and eventually crumbles back to Mother Earth. Besides, it is very expensive. **WHITE BRONZE** is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. They who do not investigate it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

City Brevities
Today's weather: Partly cloudy; moderate temperature.
Yesterday's temperatures: Seven a. m., 62 degrees; noon, 67; 7 p. m., 63. Maximum, 68 degrees; minimum, 62.

Miss Maude Kiven has gone to the copper country, after visiting with Miss Kiven Council.

W. H. Van Iderstine, of Newark, N. J., is visiting at the home of his brother, C. C. Van Iderstine.

Miss Daisy Benny has gone to Las Vegas, N. M., where she will remain for an indefinite length of time.

J. M. Wells, the retired Menominee lumber man, was in the city last evening, and left for Canada this morning.

The ladies' auxiliary to the Brotherhood of Locomotive Engineers will hold a meeting at Keough's Hall this afternoon.

Mrs. Anna Watters, of Ashland, Wis., is visiting at the home of her sister, Mrs. John McCarthy, 147 Champion street.

M. Koivisto and family attended the wedding of his sister, Hilma, to Wm. Kauppila, which took place in Ishpeming last evening.

Mrs. G. G. Campbell has returned to her home in La Crosse, after spending three weeks with her parents, Mr. and Mrs. Peter Primman.

F. H. Withey will leave this evening for Milwaukee and La Crosse, on business in connection with the Northwest-ern Collection agency.

Miss Rose Van Linden has come to Boyne City and points in lower Michigan. Before returning, she will visit in Milwaukee and Chicago.

Miss Mary McEneaney, collector for the Michigan State Telephone company, went to Crystal Falls yesterday, for sister, Miss Laura, lives there, and she will visit her for the next ten days.

Word was received yesterday of the safe arrival of Ed and Frank Connell, Lowell Youngquist, Walter Johnson and Will Peters, who left for Houghton in a launch Monday morning.

Busy Queen hive will meet tomorrow afternoon, also Friday evening. On the latter occasion, Detroit Grand Commander Gilbert of Detroit will be present and will conduct a class of instruction.

Mrs. W. I. Hunt and her daughter Laura and son Walter left this morning for their home at Toronto. They had been visiting here for some time, the guests of Mrs. Hunt's brother, J. H. McMillan.

Mrs. C. D. Blanchard left for Coldwater, Mich., last evening, with two children, from Waltham, who will be admitted to the state public school in that city. These children are without a mother and their condition has been pitiable.

Yesterday, Harrington's Lucky nine took Reinhardt's Third Luck team into camp, the score being two to one. Ten innings. A seven-run game resulted in a score of four to nothing. Harrington's team is looking for games with other teams. Leo Buecci is the manager.

The Tigers baseball team is anxious to get a game with the Marquette second team, but the Tigers' manager refuses to do so, because he does not seem anxious to meet them. The Tigers have made a good record against Negamue, Gwynn and Au Train teams, and believe they can defeat the second team.

W. K. Pelmar, of Houghton, is in the city selling stock in the Ora Belle Mining company, a platinum gold proposition in which a large number of iron and copper country people are interested. Mr. Pelmar states that this is the last allotment of shares that will be made, and that the object of this issue is to provide funds with which to treat the ore.

Extending Oil Dock—Powell & Mitchell have the contract for extending the Standard Oil company's dock in South Marquette forty feet and are now engaged in the work. Necessary repairs will also be made to the present structure. The company is planning to build a gasoline pipe line from the dock house to the end of the dock, for convenience in filling the tanks of gasoline launches.

Business Men Volunteered—The officers of the Visiting Nurse association desire it understood that the business men who are to play the benefit ball game next Tuesday night, volunteered their services, with the idea of aiding the association. Their act was a display of interest in the association that is gratifying to the ladies who are in charge of its affairs.

Bumper House—"The Three Twins," the unusual attraction with which the opera house this evening, will be greeted by a bumper house. There was a big demand for tickets at the opening sale yesterday morning, and the choice locations were rapidly taken up. The show is expected to prove one of the best attractions of the entire season.

Births in August—The following August births, not previously published, have been reported to the city recorder: Joseph Vital and wife, 344 West Washington, Aug. 2, a daughter; Philip Ryan and wife, East Arch street, Aug. 2, a son; Henry Baonette and wife, 108 West Magnolia, Aug. 5, a daughter; Jay A. Spear and wife, 214 East Ridge, Aug. 7, a daughter; George Tobor and wife, 241 West Ridge, Aug. 10, a son; August Van Duels and wife, Furnace location, Aug. 12, a son.

Fraser was paroled from the branch prison last December, having been sentenced from the copper country after conviction on a charge of larceny. He will be taken back to the prison to serve the remainder of his sentence to-day.

With the Ore Carriers—The J. C. Gilchrist did not get away from the South Shore dock as expected Monday night, owing to a telegram received by the chief engineer, notifying him of the seriousness of his child. The engineer at once left for his home in Port Huron and the vessel will remain until the arrival of another engineer, who is expected this morning from Chicago. At the L. S. & I. dock, the Wallace cleared for Buffalo, the Jenks for Cleveland, and the Prospe for Ashland. Yesterday's arrivals were the Falcon and Ishpeming.

Much Ore Being Shipped—The L. S. & I. dock is a busy place these days. During the first fourteen working days of August a daily average of 11,848 tons was shipped and it is hoped to maintain an average of 10,000 tons per day from now until Nov. 1. Up to yesterday 586,000 tons had been shipped this season and it is expected that the total will be about 1,100,000 tons by the close of navigation. In spite of the heavy shipments, boats are frequently kept waiting at the dock, as the demand is greater than the available supply. The South Shore docks are also shipping considerably more ore than last year.

INSURE WITH PETER WHITE & CO
Upper Peninsula

St. Ignace Celebration Postponed—The Marquette Day celebration, advertised to take place at St. Ignace on the 19th inst., has been called off. The Enterprise says that unforeseen obstacles arose to prevent the carrying out of the plans of the committee and that it has been decided to postpone the celebration for a year.

Draws Homestead in Idaho—Charles Parent, proprietor of the Parent Clothing store, at Iron Mountain and a Spanish-American War veteran having been a member of Company E, Thirty-fourth Michigan Volunteers, has been notified by James W. Witten, an agent of the U. S. Land Office, that he has been assigned you under the president's proclamation opening the Coeur d'Alene Indian lands in Idaho.

Monster Raft Is Foisted—The entire out of Skag Bros. on the Bay de Noc peninsula, amounting to approximately 2,600,000 feet, has been placed in a boom which is to be towed to Green Bay. The logs were picked up along both the Big Bay and Little Bay de Noc shores, after being sealed by a representative of O. B. Fuller. The timber has been sold to the Diamond Match company of Green Bay and will be delivered there in a few days.

Killed in a Runaway—Frank D'Andrea is dead as the result of a runaway accident at Norway. A half dozen laborers employed on the water works extension were returning home from work aboard a wagon and in going down a hill one of the dump boards slid forward and prodded one of the horses, which became frightened. The teamster lost the reins and jumped, while the other five men, clinging on until all were thrown to the ground. D'Andrea was discovered to be the worst injured, having received a deep gash across the forehead. He was taken to the Iron Mountain hospital, but died. He was about twenty-two years old and came from Chicago.

Spite Work Alleged—John Goetz, the well-known DeTouche hotel keeper and supervisor of his town ship, has been arrested on the charge of purchasing votes at the election last spring, says the Star Times. Mr. Goetz has been a resident of and a business man of Chippewa county for the past thirty years and has always borne a good reputation. It is the opinion of those who know him that his arrest is the result of spite on the part of some of his political enemies and that he will have no difficulty in clearing himself of the charges at the proper time. It may be that before the case is ended there will come some sensational developments in connection with DeTouche politics. Mr. Goetz' examination will take place on the 24th inst.

Collects on Passenger Train—The first fare collector on a North-western train running out of Escanaba has begun on train No. 10, between that city and Watersmeet. The system is being tried out by the company on all of its divisions, and E. I. Feun, formerly of the Iowa division, has been placed on the Escanaba Watersmeet run. The duty of the collector is to gather the tickets and fares of the passengers, while the conductor collects the attention to the operation of the train. The collector is in uniform similar to that of the conductor and it is the intention of the company, if the system proves practicable, to place similar employes on all passenger trains.

Shipmen's Pay Increased—Following on the announcement that the heaviest payroll in the history of the Peninsula division of the Northwestern road will be distributed in that city this week comes the information that the pay of all machinists, blacksmiths and boiler makers in the employ of the road at Escanaba has been increased. The increase is not a heavy one but it does testify the tendency of the company to deal fairly with its employes. The men affected will, according to the order from Chicago, receive one cent an hour more for the labor. The machinists who up to this time have been receiving thirty-seven cents an hour will now receive thirty-eight cents an hour. Under the order the shops are also placed on a nine-hour working basis, and any time put in by the men after the completion of their nine hours will be charged as overtime. It is provided in the instructions that the increase shall go into effect on Aug. 1.

S.S.S. CURES OLD SORES
If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S. S. S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S. S. S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S. S. S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write.

TEST THE CORPORATION TAX.
A Plan a Foot to Refer It to the United States Supreme Court.
New York, Aug. 17.—There are intimations today that already a plan is under discussion by which there may be obtained interpretation from the supreme court upon the constitutionality of the corporation tax upon net earnings, which is included in the new tariff law. Probably the method by which the income tax clause in the tariff law passed in President Cleveland's second administration was submitted to the supreme court. There are many persons who still believe that the supreme court in that case decided that an income tax is unconstitutional. It did not do so. It followed very closely the line of argument made by David B. Hill in the federal senate, and by William D. Guthrie, who appeared before the court in opposition to the tax. It simply decided that if an income tax is to be levied, it must be apportioned according to the census. It has always seemed a little strange that the advocates of an income tax, especially those who represent in congress some of the newer states, should not have offered a resolution providing for an income tax to be apportioned in accordance with the direction of the constitution. A tax of that kind could be imposed any time congress is willing to have it levied.
Some of the larger corporations will undoubtedly raise the issue when attempt is made to collect the new corporation tax upon net earnings. A test case will be agreed upon, and that will be taken to the supreme court. And, although the president inspired this tax, yet there is some reason for suspecting that as he is a good jurist, he is not certain that this tax will stand the test of interpretation by the supreme court.
IT EATS MOSQUITOS.
New Orleans Plans to Turn Hair Worm Loose on the Pest.
New Orleans, Aug. 17.—A new method to be employed in the crusade against the mosquito, which insect, accorided with being the means of spreading yellow fever, has been fought unremittingly by New Orleans for the past several years, is being actively urged by Councilman Frawley of this city, whose theory is to set an insect to catch an insect. He asserts that this principle has the backing of the United States marine hospital service.
"It has been proved," declared Councilman Frawley, "that what is commonly known as the hair worm has a family feud with the mosquito. We should confront the mosquito with worm. We should convey the latter in large quantities to the swamps, morasses, gutters and cisterns, and leave them in soak to wait for their hereditary enemies."
DULUTH, SOUTH SHORE & ATLANTIC RAILROAD COMPANY.
Notice is hereby given that the annual stockholders' meeting of the Duluth, South Shore & Atlantic Railway company for the election of directors and the transaction of any other lawful business, will be held at the office of the company in the Nester block, Marquette, Michigan, on September 16, 1909, at ten o'clock a. m. The transfer books will close on August 28, 1909, at 12 o'clock m., and re-open on September 17, 1909, at ten o'clock a. m.

YOUNG MARRIED PEOPLE

just beginning housekeeping often find the payment BY MONEY of small bills, such as those for rent, groceries, heat, light, etc., a cause for much annoyance. Money must be kept in the house; trips to the landlord, the storekeeper, the coal dealer and the gas company must be frequently made; and receipts for all paid bills must be obtained and carefully preserved.

Marquette National Bank

because of confirmation of reports of damage by wet weather to the wheat crop in northwestern North Dakota.

MARKETS

NEW YORK STOCKS. Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows: "Heavy selling of Union Pacific, attributed mostly to bear pressure, unsettled the stock list today. Support for a time was lacking, but was again restored in the last two hours, with the result that it recovers up to the close very general. It is thought that the recession has greatly improved conditions, and in view of the fact that the selling was not traced to anything unfavorable in the situation, we are inclined to look for a resumption of the upward movement from this level."

Chicago Wheat Summary. Paine, Webber & Co's Chicago correspondent said yesterday concerning the wheat market: "This wheat market was a disappointing one today to both sides. The last prices were unchanged, almost, from yesterday. The trade was without anything which could be called important news. There was no export business done, and there was some talk of reselling, but this was offset by the strong cash wheat premiums all over the country. The market is in a position to respond to leadership on either side. If there is any drive at prices we favor buying on such a spot."

Table with columns for various commodities like Amalgamated, Anaconda, etc., and their respective prices.

Copper Metal Prices. New York, Aug. 17.—The market for standard copper on the metal exchange was quiet today, and no sales were reported. The closing quotations follow: Spot, August and September, 12.65 1/2; 12.80; October, November and December, 12.75 1/2.

CHICAGO GRAIN MARKETS. Chicago, Aug. 17.—Wheat today opened weak, unchanged to 1/2 lower, with the decline at Liverpool. During the greater part of the day the sentiment inclined to the bear side, but in the final hour a firmer feeling developed.

fit has been removed to a new site in the approximate location of the Lake lode where the sand pipe preliminary to diamond drilling is now being driven. The No. 4 hole was put down well to the eastward of the new site and revealed nothing aside from a copper bed which is generally believed to be the Lake lode.

FRANKLIN. Franklin has suspended operations in the No. 2 conglomerate shaft, as in the Toledo Island shaft opened on the Lake lode and the sand pipe preliminary to opening work in the Pewabic lode on the Junior property. This lode was recently encountered at the twenty-sixth level in the No. 1 Pewabic shaft by a short tressant and so far as the general average is fairly high and in spots exceptionally rich.

ARCADIAN. The Arcadian assessment of \$1, half of which is due Sept. 1, next, and half in March, 1910, will give the company a large fund for the development of the territory which has been outlined. The largest individual shareholder of the company, Colonel Everett of Cleveland, and who was made vice president of the company when the reorganization was completed, is one of the wealthy copper Cleveland and has been a large holder in the property for many years. It is now taking a great deal of interest in the future of the Arcadian and is giving some of his personal attention to it.

Upper Peninsula. Shows City's Growth.—Despite the tight money market, the fluctuation of business and the lack of the usual activity in many lines, Escanaba's postoffice made a gain of \$1,000 for the fiscal year which ended June 30. Postmaster Colburn has just finished compiling a mountain of figures which the department at Washington requires each year and out of these he has extracted the information which leads to the belief that Escanaba is growing in a steady, healthy way.

QUINCY. Superintendent Shields of the Quincy mine is making a record which is rarely equaled in Lake mining practice. Three hundred tons per day regularly for a month at a time, with little repair work. Further changes in the heads will permit the mill to handle a largely increased rock tonnage and to handle this in a more efficient manner.

HANCOCK CONSOLIDATED. Number 2 shaft of the Hancock Consolidated mine is now down over 1,500 feet and it is expected that this shaft will cut the lode some time within the next few months, along the west lateral drift is much improved, an average sample taken from six feet length at right angles to the dip across the entire breast running 3.25 per cent copper. The distance from the contact between the lode and one on the west side of the lode to the breast measured along the center line of the lateral is about seventy feet. The Carbonate shaft has been equipped with a power plant adequate for sinking several hundred feet below the present bottom. The new buildings are practically completed and work is to be pushed systematically with a large force, as fast as men can be added to advantage.

NORTH LAKE. North Lake has completed the so-called No. 4 drill hole and the drill out-

especially in the winter time, and a scientific manner that process will yield the highest output from the hens is sure of success. Then there is the raising of fancy breeds of chickens. This entails a great deal of care, but it pays well.

NATION'S STRENGTH ITS AVERAGE CROP

Country's Vast Sweep Makes Such a Failure as Europe Frequently Faces Impossible—Promise of a Big Fall Business.

New York, Aug. 17.—Business men have been quick to take heed of a circumstance or coincidence that is without precedent. From a sentimental point of view it seems fully to justify or typify the spirit and impulse which are expected to produce prosperity unparalleled in our history or that of any other nation. For it has happened that the official statement, and what is probably the final report, telling of the necessities of life, is not at all coincidentally with the announcement that the new tariff law is in effect.

These two factors are regarded by business men as sure to facilitate and expedite a business prosperity which may be continued for several years, and will certainly hasten the recovery of the generalities, run over the year 1910, probably to continue through the administration of President Taft. Business will adjust itself in a short time to any tariff. There remains to be a demonstration of the new tariff effect upon prices of the necessities of life. But it is not at all certain that, unless other features than the tariff also operate favorably, a downward revision will cause lower prices, unless that revision be so great as to make very heavy foreign imports, especially of clothing, possible.

Whether the corn crop be in excess of 3,000,000,000 bushels, or a few million less than that, the purely arbitrary standard, it is probable to be the great excess of corn crops ever harvested. It will exceed, measuring by bushels, the total value of our international commerce for this year. That may be approximately \$3,000,000,000, or it may be considerably less than that. The only difficulty with regard to the crop is a curious and paradoxical condition, that while our currency is so plentiful as to be almost redundant it is very difficult to handle the currency as to make the actual payment of the farmers, and especially by the farmers to their help, easy.

SEEKING LANE'S SCALP.

Harriman Interests After the Commissioner—A Result of the Old Railroad Troubles in California. Washington, Aug. 17.—The wise ones about Washington are predicting a general overhauling of the interstate commerce commission if the plan of reorganizing the duties of the commission, which President Taft is considering, goes through. That is, they are looking for important changes in the personnel of the commission. It has been no secret for a good while that there is some trouble on the commission that could be removed without the ruination of the structure. If the law is so changed as materially to modify the duties of the commission, it is expected that President Taft will make this the occasion for making some changes in the membership.

Commissioner Franklin K. Lane, who was appointed from California, is one of those against whom there is strenuous opposition, though he does not signify that he will have to go. The nature of the opposition is such that it is not likely to weigh with the President, though it may lead to some strenuous congressional influence being exerted against him. It appears Lane and E. H. Harriman have collided, and that the Harriman influences are seeking to undo the former as commissioner. The quarrel between Lane and the Harrimans in California is one of long standing. Since he has been a member of the interstate commerce commission, Lane has had changes of mood in which the Harriman friends say that the animosity against him on the part of Harriman and his lieutenants has been growing, and that strong efforts will be made to keep him from getting another term on the commission.

BURNING ECZEMA QUICKLY SPREAD

Started Like Ringworm on Hand—Hand Swelled and Then Humor Spread to Arms, Legs and Face—It Was Something Terrible. PRESCRIPTIONS FAILED: CUTICURA CURED HIM. "I have used the Cuticura Remedies for a severe case of eczema which completely broke me. About fifteen or eighteen years ago the disease developed in the shape of a large pimple on top of my head. It was so itched so much that I was compelled to show it to a doctor. He pronounced it ringworm, and wash and told me to apply it before going to bed and all would be over in the morning. But the next morning my hand was all swollen up and I published it. When the doctor came to his office I showed him the hand and to my surprise he told me that he had never experienced such a case in his practice and said it was well I consulted it. After trying his different remedies the disease increased and went up my arms and finally to my thighs and legs generally and finally on my face. The burning was something terrible. After I had tried the doctor, as though I was a fool, I went to another doctor who had the reputation of being the best in town. He told me it was the same case of eczema and that it would take quite a while to cure it. His medicine checked the advance of the disease but no further.

I finally concluded to try the Cuticura Remedies. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Scraper. I used them as directed and found relief in the first trial. I continued until I was completely free from the disease and it has not been troubled since. I am now in my fifty-first year and I am truly and truthfully saying that the Cuticura Remedies are the best so far as my experience went with them and I am heartily recommending them to every one who is not making a mistake. C. Burkhardt, 236 W. Market St., Chambersburg, Pa., Sept. 19, 1908.

Marquette County Savings Bank

SAVINGS BANK BUILDING, MARQUETTE. Commercial, Savings and Foreign Exchange Departments

Special attention to BANKING BY MAIL. Send a postal for booklet.

Open a Savings Account right now. Your expenses are always more in the Fall and Winter, and nothing would give you more pleasure than the possession of a little reserve fund in this bank.

If you have never tried it before, come in at once and we will be glad to issue a pass book to you on deposit of \$1.00 or more.

As a help to systematic saving, we will loan you free a recording safe, the finest little home savings bank ever made.

ports are too low, if anything. These men do not rely upon the government reports. They have been hearing from their correspondents and the many whom they have sent out to spy out the land, and all the recent reports not only justify what has come from Washington, but should have justified even larger figures. We are sure to have approximately 700,000,000 bushels of wheat. Nothing remains but the reaping and the moving of it to the market.

Whether the corn crop be in excess of 3,000,000,000 bushels, or a few million less than that, the purely arbitrary standard, it is probable to be the great excess of corn crops ever harvested. It will exceed, measuring by bushels, the total value of our international commerce for this year. That may be approximately \$3,000,000,000, or it may be considerably less than that. The only difficulty with regard to the crop is a curious and paradoxical condition, that while our currency is so plentiful as to be almost redundant it is very difficult to handle the currency as to make the actual payment of the farmers, and especially by the farmers to their help, easy.

HERMIT HAD \$50,000.

He and Brother Became Recluses When Refused by Twin Sisters.

Pittsburg, Aug. 17.—By actual count it was found that Peter Leibauch, an aged German hermit, who was arrested here for his queer actions, had hoarded in his shanty home, in small change, \$13,168, not including fifty-six bags of uncounted coins or bank deposits in eight savings institutions. It is thought that before the search is ended, Leibauch's fortune will total over \$50,000. For years Leibauch has posed as a destitute charge upon the bounty of citizens of the North Side. He eked out a miserable existence selling herbs and mint to saloon keepers, who in turn partly fed him. Two years ago August Leibauch, a brother, committed suicide in the hermit's home. For years the brothers lived together in the shanty. It is said they chose their solitary existence after they had been refused by twin daughters of a wealthy resident of Millvale.

BOY CAN TALK AGAIN.

Sammie Ross is Now the Happiest Boy in Ann Arbor.

Ann Arbor, Mich., Aug. 17.—Little tow-headed Sammie Ross is the proudest and happiest youngster in this town. For one thing he can talk, and for another, he is loved again, with father and mother and little sister. Sammie is a youngster of eight, and when you ask him how it seems to be able to talk, he says "holly, boy, hey?" At midnight the first day of last November little Sammie lay dying of diphtheria, and the envelope for just such cases, owing to the large demonstrations of the bills and also to the fact that he remembers the banks from which he got them, there is a strong probability that he will be recompensed eventually.

AN ANCIENT MINE.

At Falun, Sweden, are the headquarters of a mining company with a history so remote that the date of its origin cannot be definitely fixed. An original purchase deed dated in the year 1288 has to do with a sale of stock of the company, and charters given by King Magnus of Sweden and Norway are dated Feb. 24, 1347. At that time the rights granted by King Magnus' predecessors were referred to as very old. The original business was the manufacture of copper, and the mine at Falun, "Stora Kopparberg" (the great copper mountain), has been continuously worked for nearly seven hundred years. In this time it has yielded about 500,000 tons of copper, 15.5 tons of silver, and 1.2 tons of gold, the whole representing a value of 1,000,000,000 kroner, or about \$33,400,000.—London Globe.

NOTICE TO CONTRACTORS.

Scaled proposals will be received for the erection of a two-story and basement high school building in the village of Baraga, county of Baraga, state of Michigan. All bids must be accompanied by a certified check of five hundred dollars (\$500.00), made payable to the secretary of the board of education. Bids must be in the hands of the secretary on or before 12 M., Tuesday, Aug. 24, 1909, at the office of said secretary. The board reserves the right to reject any or all bids. Plans and specifications may be obtained at the office of H. T. Liebert, architect, post office block, Hancock, Mich. By order of the Board of Education of the village of Baraga, Baraga county, Michigan. JOHN H. HILL, Secretary. (8-14-09)

A Great Hit

Ishpeming Department

(Additional Ishpeming on Page Seven.) HAS MUCH WATER.

OLD SETTLERS' PICNIC TO BE A BIG AFFAIR

TO BRING TO THE SURFACE TEN TONS OF WATER FOR EVERY TON OF ORE COMING FROM CHAPIN MINE.

To bring to the surface ten tons of water for every ton of ore is the daily routine at the United States Steel corporation's big Chapin mine at Iron Mountain. The mine is one of the most valuable properties in the Lake Superior district, with very large reserves of high grade ore, and it is also one of the wettest. The excessive water flow is due to the limestone formation.

Limestone districts are always noted for caverns, underground streams and generally aqueous conditions. The water finds its way for wonderfully long distances through limestone, and the deeper the shafts the greater the area drained and the more water it is necessary to handle.

At the Chapin the aqueous conditions are such that to permit of mining operations it is necessary to take out ten times as much water as ore, and this work goes on ceaselessly. The pumps and graders bring to the surface every minute 2,700 gallons of water, each hour 162,000, each day 3,888,000 gallons, and each month 116,640,000 gallons.

In comparison with the 3,888,000 gallons of water which come from the mine each day, it is interesting to note that the Iron Mountain water works pumps only 700,000 gallons daily to supply the needs of the entire city of 10,000 people.

As an offset to the extra expense of pumping, the Chapin enjoys probably the cheapest power of any iron mine in the Lake Superior country. A fine hydraulic plant is located at the falls of the Menominee river, three and one-half miles distant, and leading to the mine is a three-foot steel main through which compressed air is forced at a pressure of seventy pounds. Steam is employed at the Chapin to a certain extent, but the greater part of the power comes from the falls.

The older foreign-born residents of Ishpeming, as well as many of their friends, are greatly interested in the picnic to be held tomorrow at Cleveland Park and if the weather is favorable there will be the largest gathering of old people that has perhaps ever assembled in this city. There will be men and women in attendance who have never before visited the grove, and it will be the first picnic that many of them have attended in many years.

The old settlers are requested to assemble at the Scandinavian society's hall at 9 o'clock, preparatory to forming the parade thirty minutes later. The line of march will be a short one and will take in only a part of the business district. Automobiles will be in the service of those who may not feel able to walk. The line of march will be from the hall on Second street to Division, on Division to Main, on Main to Canada and on Canada to First street, where the street cars will be taken. The procession will be headed by the Light Guard band, which will also furnish music during the day at the grove. John Farm will marshal the parade.

All of the old-timers and members of their families will be provided with souvenir badges. The upper portion of the badge will contain the words "Old Foreign Settlers' Reunion." Underneath this will be the seal of the city; on the bottom, the date and the word "Ishpeming." will be printed. At the picnic grounds all of the old settlers will be asked to register their names, together with the year in which they arrived in Ishpeming, in a book provided for that purpose.

F. J. Egan, president of the old settlers' organization, will preside, and E. E. Scribner will deliver the address. The arrangement committee desires it understood that those who are unable to pay the assessment of \$1 will be as welcome as those who have responded to the call, and they hope that none will stay away on that account. Frank Zoberlin of the city, he having located here in 1853, and Captain John McEnroe of the Oliver Iron Mining company is the second oldest, his arrival also dating back to the early '50s. Among those who located in the city prior to 1874 are the following:

Timothy Hughes, John Small, Thomas Welsh, John Dillon, Mike Harrington, John Ryan, William Gleason, Mike Hines, Eugene Greene, Matt Ryan, Richard Carey, William O'Brien, Patrick McHale, Patrick Cronin, James Kinney, John Malley, William Cooney, Patrick Kennedy, Jerry Donovan, John Healey, Barney Goodman, Richard Grant, Edward Hickey, James Connolly, Patrick McDonald, John Nolan, Captain J. McEnroe, Patrick Lyons, John Trebilcock, James Lucks, Charles Emmell, John Treboar, George Blee, August Bean, Sam Ogart, John Charbonneau, Joseph Douglas, Joseph Phenu, Joseph Coveau, John Kjesboe, Salve Trygland, Taer Sundlie, Gunder Vinge, Daniel Oie, John Grotte, Jens Lerregan, John Claven, Sr., Ole Walseth, Nels Thompson, Ole Amand, Ole Johnson, John O. MARKET STILL STRONG.

Favorable Reports on Iron and Steel Industry Received.

According to reports from New York and other eastern centers, iron and steel products are unusually active, although the volume of business last week was moderate in comparison with the heavy sales of the past few months. Supplementary orders for railroad equipment and for finished material for manufacturing plants had combined to maintain a strong and expectant tone in the trade and it is now evident that further advances in prices are only a question of time.

In the territory east of the Allegheny mountains, sales of pig iron have been mainly confined to small lots but the aggregate has been surprisingly heavy. Total transactions have aggregated close to 40,000 tons, including steel-making iron, malleable Bessemer, forge and foundry grades. Basic sales have been partly of Virginia, East Pennsylvania and West Virginia production. There have also been several sales of low phosphate iron aggregating 3,000 or 4,000 tons. Several additional contracts of basic iron are on the point of being closed.

Early in the week interest was mainly in the sales of steel-making iron in the Central West, especially in the Pittsburgh district and in Ohio. Although there were some delay in consummating these contracts it is understood that heavy sales have been made of basic and Bessemer.

There has been some irregularity in prices of Southern iron due to the release of a somewhat speculative holding and a few fewer sales. Prices of No. 2 Alabama foundry have ranged from \$12.50 to \$13.50 Birmingham.

Virginia iron is now \$14.50 minimum Eastern Pennsylvania, \$16.50 minimum at the furnace, with some sales fifty cents a ton higher. No. 2 foundry at Buffalo is held at \$15.50 for prompt shipment and \$15.75 for the fourth quarter, with malleable has sold at \$16.00.

Railroads have placed supplementary orders for rails aggregating about 45,000 tons and contracts for about 75,000 tons are still under negotiation. The Baltimore & Ohio railroad has finally placed orders for 3,700 cars and is about to place 2,000 additional. Other roads have inquiries out for 5,000 cars.

Fabricated structural steel contracts have aggregated 20,000 tons.

There have been no further important changes in prices of finished steel products but advances are being asked and obtained for deferred shipments.

Have your piano tuned now. M. J. Olson, the piano tuner, will remain in this city during the summer months. Orders taken at Wm. Leiminger's store. (6-25-11)

Honesty is the filtration that causes a clear conscience.

FALL BUYING.

Detroit the Best Market for Michigan Dealers.

Merchants and manufacturers in the interior of Michigan need not go outside of the State to procure anything they need for autumn and winter business. The rapid and steady growth of Detroit along every line of commercial, manufacturing and financial trade is familiar to all who take a proper interest in the State metropolis.

Detroit's population is fast approaching half a million. If the manufacturing suburbs are counted, it has surpassed that mark. Two hundred millions of dollars a year barely represent the business of her manufacturers. Her commercial interests are equally notable, while her financial strength is well known throughout the country.

Detroit offers to the interior merchant, manufacturer and investor the powerful advantages of proximity and the fullest choice. Her connection by rail and water with the cities and towns of Michigan insures prompt delivery and low freight rates. It is waste of time and money to go farther for goods. Detroit, which leads in so many lines of trade, is able to supply any line.

The leading business houses of Detroit, whose cards appear elsewhere in our columns today, cordially invite every Michigan buyer for the fall and winter trade.

MASONIC PICNIC TODAY.

The Masonic picnic to be held today at Presque Isle under auspices of the lodges of the three cities will be well attended by Ishpeming people. Most of the members and their families plan to go down on the Lake Superior & Ishpeming train leaving here at 1 o'clock. A fifty-cent rate for the round trip will also be given on the train leaving here at 4:10. A street car will meet the train at the diamond crossing at the intersection of the railway and street car line leading to Presque Isle, so that the passengers will not be obliged to go to Marquette. The Ishpeming band will give a concert in the afternoon and will furnish music for dancing in the evening.

IMPERISHABLE WOOD.

A curious source of wealth is reported by the French consul at Mongtze, in upper Tonkin. It lies in wood mines. The wood originally was a pine forest, which the earth swallowed in some cataclysm. Some of the trees are a yard in diameter. They lie in a slanting direction and in sandy soils, which cover them to a depth of about eight yards. As the top layers are well preserved, it is thought the geological convulsion which buried them cannot be of very great antiquity. The wood furnished by these timber mines is imperishable, and the Chinese gladly buy it for coffins.—London Globe.

DOING GOOD JOB.

The crew employed in macadamizing North Third street is doing a fine piece of work. It is now necessary to remove about a foot of the old surface in order to get a good foundation. Two courses of gravel have been placed over the Empire and the surface is ready for the third course. About twenty men and eight teams are employed on the grading. William Trebilcock has taken contracts for a large number of concrete walks to be laid on both sides of the thoroughfare in the blocks to be macadamized, but this work will not be started until the street is finished. Concrete gutters are to be laid on both sides the entire distance, so that when the job is finished it will be one of the best that the board of public works has done. The work on Euclid, Spruce and Bancroft streets, which has been under way for about two months, is almost finished, and William Trebilcock will, within a few days, finish grading for the walk to be laid along South Pine street, when the laying of the concrete will be started.

Prices on watches, clocks, and jewelry, sent in two, at J. J. Wentz's, Negaunee. (8-17-19)

HAS MANY MUSICAL HITS.

"Times Twice" will be the offering at the Ishpeming theater tomorrow evening. This production contains more musical hits than any other musical comedy. "The Yama Yama Man" has been the most talked of musical novelty in many years and Asaton Stevens of the New York Journal said it was the most titillating piece of stage business ever produced.

ISHPEMING

PICNIC ROW HAS SERIOUS ENDING

YOUNG ITALIAN, WHO HAD TROUBLE WITH COUNTRYMEN, USED A REVOLVER AFTER RETURNING FROM THE GROVE.

Some of the Ishpeming Italians who attended a picnic held Monday at the Cleveland Park, under auspices of the Ishpeming society, had a hilarious time. Mike Tasson, the postmaster, was the chief peace guardian, and he was kept busy preventing a general disturbance.

Many of the picnickers remained at the park until 11 o'clock, and the car arriving in the city at 11:30 carried several fellows who had been quarreling. Tasson had Gabriele Vergello in tow and he put him off the car at the corner of Pearl and Pine streets, instructing him to go home at once. The fellow started toward home, but he met a half dozen or more of his countrymen on Division street. It is not yet known what happened, but Vergello claims that a nephew of Tasson's struck him and gave him a black eye. Vergello had a twenty-two caliber revolver in his pocket, and stepping back a few feet from the crowd, began firing it. One bullet struck John Tempora in the forehead and another hit Tempora's son, leaving the bullet passing through one of his legs, inflicting a flesh wound. Neither of the wounds is serious.

The chief Tempora appeared in Judge Andrews' court yesterday and secured a warrant for the arrest of Vergello, and he was apprehended and placed behind the bars. His hearing is set for this afternoon at 2 o'clock. It is said that young Vergello is a quiet fellow when sober, but he loses his head completely when intoxicated. He has a number of friends among his countrymen and many of them sympathize with him in his present trouble.

FROM MORGAN'S CURB LETTER.

"The New York market opened weak and lower, reason given, renewed reports of Barriman's illness and bad crop news, but probably due to a tendency to react following the prolonged upward swing. Results were as usual this week, offerings disparaged as prices receded. Boston sympathized with New York, and prices fell off fractionally, on relatively light trading. North Butte was most active, with Superior & Pittsburg a good second, with prices changes rather indifferent. The highest southern offerings of Butte (Goldlion, Giron, Greens, Cananea, East Butte, Lake and Shamion were well taken. Quincy Mining declared a regular quarterly dividend of \$1 per share, payable Sept. 20. Books close Aug. 21, and re-open Aug. 26. The Hancock Consolidated Mining company has called an assessment of \$2 per share, payable \$1 on Oct. 11th, and \$1 February 1, 1910. Among the entire First National Copper led-in activity, with only a fractional gain over yesterday's close. Cactus and Chief Consolidated were strong. Most of the other trading was confined to Superior & Globe, Cumberland Ely, Davis Daly, Ohio Copper, Ray Central, Inspiration, Yuma and Calumet & Montana. Prices remained up or only slightly under yesterday's level. Negotiations are well under way toward the formation of an organization similar to the Copper Producers' association of the United States in Europe, which has for

ISHPEMING IN BRIEF.

A son was born yesterday to Mr. and Mrs. T. E. Ludlow.

Miss Anna Lacey has arrived home from an extended trip in the East.

Miss Violet Cleary left yesterday for Camp Bryan on a visit to relatives.

Miss Lillian Witzel of Green Bay is in the city visiting her sister, Mrs. E. E. Jeffrey.

J. I. Keeton and family have returned to the Swanzy range after a month's visit in Wisconsin and points in the West.

Charles O. and Charles E. Wallenstine, with their families, will leave today for Camp Bryan, where they will spend a week.

Miss Katherine Laughlin left Monday for Witleh Lake, where she will spend a week or more camping with Iron Mountain friends.

J. E. Biddison is soon to begin the erection of a home on North Third street, on one of the lots near Henry Roubler's dwelling.

Mrs. J. H. Quinn and daughter, Miss Geraldine, arrived home Monday from Seattle and other western points. They spent some time at Butte and Anaconda on their return trip.

Miss Irma Chase of Dexter was tendered a miscellaneous shower last evening by a number of her young lady friends in the city, at the home of Miss Esther Bergquist, on Cleveland avenue.

It is possible that the Pills household teams of Ishpeming and Negaunee will play their postponed game next Saturday afternoon at the Union Park grounds. Definite arrangements will be completed today.

Professor Earnest, pianist, and director of the musical department of North Park college, Chicago, will give a concert in the Mission church Sunday evening. A selection will be taken to defray his expenses.

Congressman H. O. Young and wife will leave today for Honolulu, to be absent about five weeks. They will be members of a party which will include members of the naval and waterways and harbor committees and their wives.

Mr. J. Senob, who has been in the city for some weeks, visiting his parents, Mr. and Mrs. J. McNeil, left Monday for her home in Butte, Mont. She was accompanied by her sister, Miss Katherine McNeil, who expects to locate permanently in Butte.

A delegation of Ishpeming firemen will leave this morning for Laurium to attend the annual tournament. A special car was set out here yesterday for the accommodation of the members of the department. It is expected that Ishpeming will be well represented at the tournament.

James Harrington and John Murphy, both of whom spent their younger days in Ishpeming, are here from Butte, Mont., on a visit to relatives. It is over twenty years since they left here for the Montana city, and this is their first visit to Ishpeming since then. The former is a brother of Henry Harrington of West Ridge street, and the latter is a brother of James Murphy, chief supply clerk for the Cleveland-Cliffs Iron company.

RHEUMATIC FOLKS.

Are You Sure Your Kidneys are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. If its presence there shows the kidneys are inactive.

Don't dally with "uric acid solvents." You might go on until doomsday with them, but until you cure the kidneys you will never get well. Don't's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is Marquette testimony to prove it:

"Mes. Sophia Gauthier, 206 Rock St., Marquette, Mich., says: 'For the past six years I suffered from rheumatism and kidney trouble the chief symptom being severe pains through the small of my back. Someone finally told me of Don's Kidney Pills and I sent to the Stallion Drug Co. for a supply. When I had used several boxes of this remedy, I felt better in every way. From the benefits derived, I take pleasure in endorsing Don's Kidney Pills.'

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States, and the entire name—Don's—take no other.

HOUSEHOLD REMEDIES

which have stood the test of time deserve a place in the medicine chest of every family. Mothers are today assisting their children the remedy their grandmothers used.

For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ills, and merit alone could have stood such a test of time and won such an enviable record.

JOHNNY AND HIS BOSS.

The boss entered the office, his face clouded, his brow wrinkled in angry thought. He called the office boy. Regarding the youth sternly, he said: "Johnny, do you smoke cigars?"

"I do, sir," stammered Johnny, peering beneath the tan of the baseball field.

The boss fixed him with his eagle eye.

"Then gimme one," he said. "I left mine on the bureau."—St. Paul Dispatch.

Five of the principal characters in "Queen Esther," to be produced Friday and Monday evenings at Ishpeming Theatre for benefit of First Methodist Episcopal Church.

Negaunee Department

TRADE CONDITIONS ARE ABOUT NORMAL

MERCHANTS SAY THAT EFFECTS OF PANIC HAVE ABOUT VANISHED, AND THAT BUSINESS CONDITIONS ARE IMPROVING.

"We are beginning to notice an improvement in business," said a Negaunee merchant yesterday. "The improved condition of the iron market is undoubtedly what is causing the change. Our sales and cash receipts have increased almost daily for some weeks past. The uneasy feeling which prevailed for so many months, following the panic of 1907 seems to have entirely passed away. There have been slight increases in the working forces at the mines, and from what I can learn by talking with the men, they are not feeling any more substantial increases before the end of the year.

"The merchants had a more trying time than most people knew of for some months following the panic. As a rule when they are in a straitened financial condition they are at the mines, the heaviest burden falls upon the merchant. Those who do a credit business have to help out their patrons and they and the leading house keepers often get deeply into debt. It was not until the fall of 1907 were they able to get some weeks more left for other parts, leaving unpaid bills. I know of a number of these men who have not yet set up to the time of the curtailment at the mines the merchants were carrying 'dead' accounts, but they were obliged to assist so many of their customers that some of them have a greater amount on their books now than for some years past. Many of the customers went behind during the hard times and are paying up gradually, however, and it will not be long before most of the old accounts are wiped out.

"With the reports of improved conditions coming from all parts of the country, the people here are beginning to invest their money more freely than at any previous time for nearly three years. There is now more apparent work being done in Negaunee than during any summer in a dozen or more years. The average wage being paid here now is nearly as good as during the boom period. The mechanics, as a rule, are getting better wages than they were then, and in Negaunee that is not quite as large.

"Everything in the store regardless of cost to make room for holiday purchases," said J. J. Wentela, jeweler, Negaunee. (8-17-1w)

BORN AND REARED HERE.

Late Mrs. L. W. Gullstrom Had Many Friends in Negaunee.

The announcement in yesterday's Mining Journal of the death at St. Luke's hospital in Duluth of Mrs. L. W. Gullstrom, nee Charles Gullstrom, was a shock to her many friends and acquaintances in Negaunee. The remains will be received here this morning, and will be accompanied by the husband and son.

Mrs. Gullstrom submitted to a surgical operation six weeks ago, when she entered the hospital. She had been in failing health for about three years. Her condition was considerably improved a week ago, and her relatives had some hope of her recovery. Her brother, Thilo Thoren, who went to Duluth a few days after she entered the hospital, remained with her until a week ago.

"She deceased was thirty-nine years of age and was born in Negaunee, being born at her life until her marriage to Rev. L. W. Gullstrom, about eighteen years ago. The family has resided at Grand Rapids, Minn., for the past three years. Besides looking after the congregation there, Rev. Gullstrom is also in charge of the Lutheran congregation at Boyce.

The funeral will be held tomorrow afternoon, leaving the house at 2 o'clock. Services will be conducted in the Swedish Lutheran church by Rev. G. H. Wood, pastor of the Swedish Lutheran church in Ishpeming.

Clearing out sale of jewelry of all kinds, at J. J. Wentela's, Negaunee. (8-17-1w)

WANTS MORE MEN.

The management of the Mary Charlotte mine desires to increase the force now employed by 100 men as rapidly as they can be put on. Additional orders for ore are the reason for the proposed increase. Twenty-five or thirty men can also be given places at the Mary Charlotte at Humboldt. A force of better than 400 men will be employed at the Mary Charlotte and about 150 at the Baron.

If you want jewelry or silverware, you can save you money at our clearing out sale. J. J. Wentela, Negaunee. (8-17-1w)

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the city clerk of Negaunee, Michigan, for the building of a Fire Hall at Negaunee, Mich.

Proposals to be in the hands of the aforesaid city clerk on or before 5 p. m. August 19th.

Plans, specifications and instructions can be seen at the office of the city clerk in the City Hall, Negaunee, Mich.; also in the offices of the architects, First National Bank Building, Milwaukee, Wis., and Marquette, Mich.

The right to reject any and all bids is reserved.

CHARLTON & KUENZEL, Architects. (8-10-24)

DREAM COMES TRUE.

Washington Woman Has Vision of a Friend's Tragic Death.

Aberdeen, Wash., Aug. 17.—Mystery surrounding the death of William Kittrell, aged thirty-one, of Montesano, whose body was found in the Chehalis river at the Chehalis boom, about six miles west of Montesano, is deepening into suspicion that Kittrell was the victim of a robbery and murder plot.

To add to the peculiar circumstances in the case dispatches from Montesano say that Mrs. M. Birl, an employee of the boarding house of Mrs. Mary Watkins, where Kittrell lived while in Montesano, says that ten days ago she dreamed that Kittrell had been murdered by two men and a woman and his body thrown into the river. She told her dream to Mrs. Watkins and advised search for his body.

Mrs. Birl says that she dreamed that Kittrell had been struck down while walking along the roadway that leads to the river and that his body was carried to the end of the dock and thrown into the water.

"It would be a good idea to have an officer on the street in plain clothes, in order to bring some of these fast drivers to time. The police officers do not seem to make any effort to hold them down."

MUST PAY NEW DUTY.

Army Contractor Who Figured on Basis of Dingley Rates Loses Appeal.

Washington, Aug. 17.—An army contractor with a contract to supply goods to the government on a basis of prices existing before the passage of the new tariff act has no redress if the Payne rates cause him a loss of profit, according to a decision of Acting Secretary of the Treasury Reynolds.

A New York importer contracted to supply 1300 dozens of cotton to the army while the Dingley law was in force. Before the gloves could be imported the Payne law had become effective and the importer discovered that he would have to pay duty of 50 cents per dozen pairs more than he had expected when he entered into the contract.

The importer petitioned the treasury department to assess duty on the gloves at the old Dingley rates. Mr. Reynolds refused the petition today, establishing a precedent.

COUNCIL HOLDS BRIEF SESSION

SOME IMPORTANT BUSINESS TRANSACTIONS AT TWENTY-FIVE MINUTE MEETING.

H. BITTERS ON WATER BOARD

Master Car Builder of South Shore Ap pointed to Late Wm. H. Greene's Position—Street Car Ordinance Passed.

The session of the common council last evening lasted but twenty-five minutes, business being transacted with greater dispatch than for some months.

The position on the water board, to which Mr. Bitters has been appointed has been vacant since the death of the late Wm. H. Greene, several months ago.

The ordinance permitting the street car company to charge a strategic fare of five cents was placed upon its final passage without opposition and will take immediate effect.

Hennessy and Ward Vote Nay.

The only occasion during the entire meeting when the aldermen failed to be of one mind was when the petition of the light and power commission came up, asking that the new bridge at the light and power plant be so built that the dam underneath it might be removed.

Upon the reading of this communication, Alderman Hennessy moved that it be placed on file. Alderman Doucay advised that nothing be done to hamper the work of the commission and amend the motion, referring it to the park, cemetery and street commission.

However, a man close to city affairs stated that the opposition of the aldermen might foreshadow an attempt to do away with the board system, when a new charter is adopted under the new state constitution, provided such is ever done, and to place all of the city's business in the hands of the common council.

The recorder was instructed to have the deeds properly recorded that have recently been turned over to the city by the Northern Land company for the sand lots at the foot of Hewitt avenue, and by the Peter White estate for the eighty-foot strip adjoining the light house reserve on the west.

The appointment of George P. Brown as city attorney, which has been held in abeyance for some time, was unanimously confirmed. Mr. Brown has been acting as city attorney ever since the advent of the new administration, but he had not been formally reappointed to that office until last night.

DRILLERS ENCOURAGED.

Exploratory Work at Harlow Mine Satisfactory Thus Far.

Captain Munro, in charge of the exploration work now being done at the Harlow mine, west of the city, stated last evening that he was well pleased with the results of the work done thus far.

Thus far the exploratory work has been confined to cleaning out the old shaft and opening up the drift to the northward. This drift, which is sixty feet below the surface, has now been opened for a distance of twenty-seven feet and the rock found is said to have been of a nature to indicate the presence of ore.

Later, drilling a diamond will be put down on the property, probably on the opposite side of the roadway from the former shaft. Back in the 70's, some ore of extra good quality was taken out of this property, but nothing has been done with it in recent years and no diamond drilling has ever been done.

THEATRICAL.

"Three Twins" Tonight.

The "Three Twins," which comes to the opera house tonight is essentially a laugh promoter, and yet that is far from the last part of it, for the novelty staging and the songs are splendid.

The Yama Yama song, which created such a sensation in New York at the Herald Square theater, is another one of the many novel effects, the most important are the dancing Yama Yama chairs, the faceograph, and the gigantic electric aerial swing.

Of the many novel effects, the most important are the dancing Yama Yama chairs, the faceograph, and the gigantic electric aerial swing. This swing is the largest electrical effect ever staged and weighs four thousand pounds.

The "Three Twins" comes with full prestige of a metropolitan success, having had a run of five months at the Whitney in Chicago, and one year at the Herald Square theater, New York.

MESSAGES IN CODE WILL COST MORE

TELEGRAPH COMPANIES TO COUNT A WORD FOR EVERY FIVE LETTERS IN SENDING NON-Dictionary WORDS.

"All groups of letters when such groups do not form dictionary words and are not combinations of dictionary words will be counted as the rate of five letters or fraction of five letters to a word."

This apparently simple rule which will be put into force Sept. 1 by both the Western Union and the Postal Telegraph companies will prove of the utmost importance to thousands of business houses throughout the country who carry on telegraphic communication largely by use of private codes.

Here are some of the words which have caused the trouble and to which the companies object: "Baezafyh," "bobokansh," "chazabacka," "benevany," "chavabaxah" and there are countless others. These words spell nothing, but often bear messages of greatest importance.

After Sept. 1 the charge for such combinations of letters will be at the rate of five letters to a word where in the past the whole bunch of letters went as a single word. This will double the cost of sending many of the code words and when it is known many companies spend several hundred dollars a day in telegraph tolls the importance of the new rule will be better realized.

Will Hit Brokers.

Any word from the dictionaries of the English or other language may be given code significance and sent as a single word no matter how many letters it contains, but then it will be a word and easier to send and receive. The rule will not affect cable messages.

Regarding the intended change, a prominent telegraph manager has said: "It can readily be seen the correct transmission of some of the combinations of letters which we receive is extremely difficult and expensive because it necessitates very slow sending on the part of the operator, notwithstanding which the liability of error remains great, due to imperfect signals resulting from weather conditions, etc. The text, you see, is absolutely unintelligible to the operators. Delay in sending other telegrams is the consequence and the only thing the companies can do is to increase the rate by changing the count to five letters for every word."

GEO. BOVEN IN LUCK.

Drew Claim Number 1,185 on Flathead Indian Reservation.

George Boven received word yesterday that he had drawn number 1,185 in the Flathead reservation government land lottery, which is the best draw yet made by any Marquette man.

Mr. Boven's name was entered at the government land office by R. E. Mahaffey, when he visited the Seattle exposition a few weeks ago. Being a Spanish-American war soldier, he did not have to file in person and this distinction will also make it easier for him to prove up on his claim, though he will have to live on it a year.

Others in this city who have been lucky in the land drawing are Conductor Frank E. Burrows, who drew number 3,826, and Walter Newton, of North Third street, who drew number 2,265, both in the Flathead reservation. Thus it is seen that Mr. Boven's chances are much the best of the three, and the value of the claim he will be able to obtain is estimated at about \$6,000.

All the delegates of all the unions are requested to meet at Siegel's Hall Thursday evening at 7:30 o'clock. (8-18-14) R. J. DOROW, Secretary.

PROSPECTS GOOD FOR BUMPER POTATO CROP

VINES HAVE MADE RAPID GROWTH AND EARLY YIELD IS OF EXCELLENT QUALITY—LOWER PRICES PREDICTED.

The potato crop in the upper peninsula promises to be the best for several years. During the last two years the weather has been unfavorable for the growth of potatoes, but the hot weather of the last two months with plenty of rain has made the outlook for this season's yield very bright.

For rapid growth, it is said that all records have been broken this year. Fields which were not planted until the last of May are now ready for the diggers, and instead of the market-sized variety which usually finds its way into market early in the season, those now on sale are of good size and of excellent quality.

A well-known farmer stated yesterday that he never saw the potato vines grow any more rapidly than this year, and that his only fear was that the vines were growing too much, at the expense of the tubers. However, he predicted a much larger crop than last year, when not more than half a crop was harvested. The bugs have not bothered the vines as much as in some other years and they are now beyond danger of destruction from these pests.

CREAMERY FINISHED.

Skandia Butter Making Plant Will Be Started Early Next Week.

The new creamery at Skandia has been completed and the machinery placed in position, and the plant will be put in operation the first of next week. The arrival of an expert butter maker is expected daily, and butter can be made within a few days after he takes charge.

Both the creamery building and its equipment have been furnished under contract by the Hastings Industrial company, of Chicago, and the plant has been put in shape for operation in remarkably short time, it was only a few weeks ago that the Skandia company was organized.

Mr. Shaw states that the creamery expects to market all its product in this county and most of it in the city of Marquette, as there is a great demand for butter in this locality. The company will sell direct to the retail grocers. Several wagons will be placed in service in the gathering of cream from the farmers' homes, and a considerable amount will be shipped in over the Marquette & Southeastern railway.
