

MR. TAFT CONFIDENT THE TAX WILL STAND

Reports That the Levy on the Earnings of Corporations Is to Be Resisted Have Not Disturbed the President in the Least.

Tests and Protests, He Declares, Were All Anticipated, and No Threats of the Lawyers Cause Him Any Alarm—That the Legislation Will Survive Any Attempt to Nullify It Is Not Only His Opinion, but That of Mr. Wickersham and Senator Root.

Beverly, Mass., Aug. 18.—The reports which are reaching Beverly daily that the constitutionality of the new corporation tax is to be tested as soon as an effort is made to collect it, have not disturbed the president in the least.

Judge Alton B. Parker's Views. Buffalo, Aug. 18.—Commenting on the new corporation tax in the September number of the National Monthly, of which publication Chairman Norman E. Mack, of the Democratic national committee, is editor and publisher, former Judge Alton B. Parker says that the new tax is welcomed by the giant corporations of the country in the belief that they can seek immunity behind it.

DENVER MEETING HARMONIOUS. Forester Finchot and Mining Magnate Walsh Exchange Bonnets. Denver, Colo., Aug. 18.—Gifford Finchot, chief forester of the United States department of agriculture, and Thos. F. Walsh, the well-known millionaire mine owner, exchanged bonnets today before the Trans-Mississippi Commercial congress.

SAYS IT INCREASES CRIME. Frison Association Committee Condemns Present Court Procedure. Seattle, Wash., Aug. 18.—The delegates to the congress of the American Prison association resumed their discussions tonight. The report of the committee on criminal law reform was read.

SAVES THE GOVERNMENT A SNUG SUM YEARLY

Order of the Postmaster General Requiring Mail Carriers to Double Up Their Routes Cuts the Cost of the Postmen's Vacations a Quarter of a Million.

Washington, Aug. 18.—By requiring letter carriers to "double up" their routes during the dull season of July and August, instead of employing substitutes, Postmaster General Hitchcock expects to save the government not less than \$250,000 in the cost of carriers' vacations during the present fiscal year.

CRAMPS THE LOWEST BIDDERS. Proposals for Constructing Two Battleships Are Opened at Washington. Washington, Aug. 18.—Wm. Cramp & Sons, of Philadelphia, were the lowest bidders for constructing the battleships Wyoming and Arkansas, the bids for which were opened at the navy department today.

RAILROADS FILE SUIT. Western Lines Attack Rate Order of the Interstate Commerce Commission. Chicago, Aug. 18.—The Rock Island railroad, with seven Western railroads as co-complainants, filed suit in the United States circuit court here today to enjoin the interstate commerce commission from enforcing its rate order of June 20.

DEPOSITS CHECK FOR \$500,000. Morgan & Co. Expected to Be the Only Bidders for the Great Western. St. Paul, Aug. 18.—A certified check for \$500,000 on the First National bank of New York was received today by the United States circuit court here today.

WALL STREET MARKET WEAK. Stocks Are Sold in Enormous Volume With Dismal Effect on Prices. New York, Aug. 18.—The stock market today very consistently continued its reactionary and confusing course. The opening transactions were of fairly large volume, but before the end of the first hour the tone became dull and obviously short.

NATION IN NO PERIL OF EVER STARVING

It Needn't Worry on That Score, Assures Secretary Wilson in the Year Book of the United States Department of Agriculture.

Pointing to the Wonderful Development of the Farming Industry During the Past Decade or More, He Declares That No One Need Have Any Fear That the Tillers of the Soil in This Country Will Ever Be Unable to Provide for the Population.

Washington, Aug. 18.—During the last twelve years the period covering the administration of Secretary Wilson—the agricultural balance of trade in the United States has increased from a yearly average of \$234,000,000 to \$441,000,000, or 75.7 per cent, according to the department's year book, just made public.

Increased Production Per Acre. During these twelve years there has been a great diversification and geographic extension of products, apart from the cultivation of new land. Although there has been a decreasing production per acre of what was only recently virgin soil, there has been an increased production per acre in the entire country.

WINS ON 20TH BALLOT. Judge Mack Nominated for the Supreme Bench in Illinois. Macomb, Ills., Aug. 18.—Judge David E. Mack, of Carthage, was nominated for the state supreme bench today by the fourth district Republican judicial convention after a two days' deadlock.

ALARM AT PORTSMOUTH. More Dynamite Found in Coal Consigned to Warships. London, Aug. 18.—A dispatch from Portsmouth says there is much alarm there owing to the discovery three days later of supposed dynamite cartridges among coal shipped to Portsmouth for the battleships. The latest find of this character was during the sailing yesterday of the cruiser Duke of Edinburgh.

THE WEATHER.

Washington, Aug. 18.—The following is the weather bureau's forecast for Upper Michigan: Fair, Thursday and Friday; light to moderate west to north-west winds.

BASEBALL. STANDINGS OF THE TEAMS. National League. Pittsburgh, Chicago, New York, Cincinnati, Philadelphia, St. Louis, Brooklyn, Boston.

SCHEDULE FOR TODAY. National League. St. Louis at Pittsburgh, Brooklyn at Boston, New York at Philadelphia. American League. Chicago at Detroit, Philadelphia at Cleveland, Boston at New York.

YESTERDAY'S GAMES. National League. Pittsburgh, Aug. 18.—In the first game, with Clarke on first, Wagner knocked the ball over the left field wall for a home run.

WINS ON 20TH BALLOT. Judge Mack Nominated for the Supreme Bench in Illinois. Macomb, Ills., Aug. 18.—Judge David E. Mack, of Carthage, was nominated for the state supreme bench today by the fourth district Republican judicial convention after a two days' deadlock.

ALARM AT PORTSMOUTH. More Dynamite Found in Coal Consigned to Warships. London, Aug. 18.—A dispatch from Portsmouth says there is much alarm there owing to the discovery three days later of supposed dynamite cartridges among coal shipped to Portsmouth for the battleships.

SUTTON TO BLAME FOR HIS OWN DEATH

That He Was Solely and Directly Responsible for the Tragedy of Which He Was the Victim, Is the Naval Board's Verdict.

Washington, Aug. 18.—With the publication today of Acting Secretary of the Navy Winthrop's approval of the findings of the court of inquiry that Lieutenant Sutton, of the United States Marine Corps, was "directly and solely responsible for his own death" at Annapolis two years ago, the famous Sutton case became a closed incident as far as the navy department is concerned.

IS THE LEADING CANDIDATE. Bishop Carroll May Become Coadjutor to Archbishop Keane. Dubuque, Ia., Aug. 17.—Dr. John P. Carroll, now bishop at Helena, Mont., may become coadjutor to Archbishop John J. Keane of the Dubuque Roman Catholic archdiocese.

GOES BACK TO THE ASYLUM. Thaw Is Removed from His Comfortable Quarters in Jail. White Plains, N. Y., Aug. 18.—Harry K. Thaw was taken from the county jail back to his old quarters in Matteawan asylum for the criminal insane this afternoon.

NEBRASKA LAW INVALID. Lincoln, Neb., Aug. 18.—Judge Rose, of the supreme court of Nebraska, today handed down a written opinion declaring the non-parity judicial act passed by the last legislature invalid, chiefly on the ground that it attempted to punish or to deprive of candidates by political parties is an abridgment of the right of speech.

BALL PLAYER SOLD. Bloomington, Ills., Aug. 18.—George Cutshaw, second baseman of the Bloomington Three-I league team, was sold today to the Oakland (Cal.) team for \$1,000.

TIDE OF BATTLE GOES WITH INVADERS.

Hammering the Defending Forces Unmercifully and Forcing the Entire Left Wing to Retreat, the Army of the "Enemy" Continues Its Advance on Boston.

Boston, Aug. 18.—General Bliss and his invading army of the red, consisting of troops from Connecticut, New York, New Jersey, District of Columbia and the Tenth regular cavalry from Fort Ethan Allen, rested tonight at least five miles nearer Boston than they were twenty-four hours ago, as a result of today's operations in the mine war game.

NEARLY EQUALS WORLD'S RECORD. Massachusetts Militia Team Victorious in the Herick Shoot at Camp Perry. Camp Perry, Aug. 18.—In the tournament today, the Massachusetts team shot up the field of thirty-seven in the Herick match by a record of seventeen hundred, which by fifty-five points beats the score by which the United States Marine Corps won last year and falls but two points short of equalling the world's record by which the United States team won the Palma match in 1907 at Ottawa, Ont.

TAKES ALL FOUR HEATS. Bob Douglas the Winner of the \$10,000 Empire State Stake. Buffalo, Aug. 18.—Alonso McDonald's Bob Douglas won the \$10,000 Empire State stake for 2:12 trotters at Fort Erie today.

LONG VOYAGE BY CANOE. Two Boys Travel from Milwaukee to New Orleans, 2,000 Miles. New Orleans, La., Aug. 18.—One of the longest canoe trips ever made on the Mississippi river ended today when Edgerton Moorhouse and Ray Engle arrived here from Milwaukee.

LAKE WINNEBAGO REGATTA. Oshkosh, Wis., Aug. 18.—First place in the class A series of the Inland Lakes Yachting association championship this afternoon was taken by the Kathryn, of the Butte Des Morts Yacht club, she having seventeen points to her credit.

COLORADO FLOODS TIE UP MANY TRAINS

Miles of Railroad Track Washed Out, More Than a Thousand Eastern Tourists Are Unable to Proceed to Their Destinations.

Swollen by Mountain Torrents and Then by a Cloudburst Even More Disastrous, the Arkansas River Rises More Than Eight Feet, Wrecking Long Stretches of Roadbed and Putting the Denver & Rio Grande Out of Commission for Days.

Earthquake Shakes Washington Town. Dayton, Wash., Aug. 18.—An earthquake believed to have been caused by a volcanic disturbance in the Blue mountains occurred here today. One building collapsed.

BRIDGE COLLAPSES. Ten Persons Seriously Injured in an Accident at Chicago. Chicago, Aug. 18.—Ten persons were injured seriously and twenty others had narrow escapes tonight when 250 feet of the Twelfth street bridge over the Chicago river and viaduct collapsed.

FEARED IT IS STOLEN. Standard of the Grand Army Missing Since the Parade at Salt Lake. Salt Lake, Aug. 18.—The standard of the Grand Army which has been carried for the past twenty years by the commander-in-chief of the G. A. R. and has been the official banner of every encampment since 1880, when it was presented to the Grand Army in Milwaukee, has been missing since the parade of Aug. 11 and it is feared it has been stolen.

BANDITS COME TO GRIEF. Colorado Springs, Colo., Aug. 18.—Two men early today made an unsuccessful attempt to rob the safe of the Chief House at Manitou. James Morrow, the day clerk, shot and fatally wounded one of the men—Edward Clark. The other robber escaped, but was captured later.

City Brevities

Today's weather: Generally fair; stationary temperature.
Yesterday's temperature: Seven a. m., 69 degrees; noon, 72; 7 p. m., 72. Maximum, 78 degrees; minimum, 69.

The A. O. U. will meet at Keough's Hall this evening.

Louis Grabower went to Chicago on business last evening.

W. E. Tyler, traveling freight agent for the St. Paul road, was in the city yesterday.

Mrs. J. H. Driver left last evening for Chicago, where she will spend three or four weeks.

Misses Helen Teeple and Mary Lee have returned from an extended visit in lower Michigan.

Mrs. A. A. Guck and children, of Lake Linden, are visiting at the home of her mother, Mrs. Martha Egloff.

Mrs. Wm. Kemp, of High street, and Mrs. Wm. Murphy, of Harvey, are attending the firemen's tournament at Laurium.

Mr. and Mrs. J. C. Nolan, formerly Miss Agnes Inglehart, are visiting her father and mother, Mr. and Mrs. J. Dnebarne.

Miss Laura DeLis Blake returned Tuesday evening by way of the Canadian Pacific from Eganoggin, Maine, where she has been visiting.

John W. Burrows, who with Mrs. Burrows has been spending some time at Au Train, left last evening for Duluth. Mrs. Burrows will remain in Marquette for a few weeks' longer stay.

Dance This Evening—A subscription dance has been arranged, to be given at Legion Hall this evening. The committee has planned for several light dances, extra music and other features, and it is expected that it will be an unusually pleasant social event.

Will Go to Munising—Those attending the Lake Superior Mining Institute on the Marquette range next week will leave Marquette for Munising Thursday afternoon on a chartered boat. Tomlin's orchestra has been engaged to furnish music on the trip to and from that city.

At the Tournament—About twenty-five persons left for Laurium yesterday to attend the tournament, including members of the fire department, their wives and the members of the Boy's band. Among the number was Justice L. P. Cray, who for many years was chief of the hose company.

Baseball Practice Tonight—The baseball team will practice at the fair grounds this evening. The team will go to Negaunee next Sunday, where two games will be played, one of which had been postponed earlier in the season. As this will be the first double header of the year, an unusually large crowd is expected to be in attendance.

With the Ore Boats—At the L. S. & I dock, the Presque Isle cleared for Ashland and the Pioneer and Falcon for Boyne City. The Mack, Richardson and Ontario arrived at the dock yesterday. At the South Shore dock, the Hutchinson cleared for Buffalo and the Shaugnessy was due last night. The Chautauque is unloading at the coal dock and the Aurora is waiting for the dock.

Woodsmen in Demand—Not only is there a great demand for mine workers in this part of the country at the present time, but lumbermen are sought for by many operators. Several camps in Ontonagon county are said to be in need of men and the same situation faces operators in other parts of the peninsula. A contractor may be said to be in need of wood needed at the furnaces, and labor generally seems to be in greater demand than for two years past.

Pioneer Passed Away—A Lamere, who had made his home in this city for sixty years, passed away at 10:15 last night at the age of eighty-two years. The deceased was born in Montreal in 1827, and came to Marquette in 1849, the year in which Peter White first landed and in which the foundations of the city were laid. For some time he had been living with his daughter, Mrs. P. Thibault, 437 Spring street, and for a long time he had been in ill health. Seven children are left to mourn his death: Mrs. P. Thibault, Dolphis and Antoine Lamere, of this city; Mrs. Ed. Thibault, and Talsford, Samuel and Andrew, all of whom reside in Minneapolis.

**INSURE WITH PETER WHITE & CO.
U. S. WANTS RANGERS.**

Examinations Soon to Be Held for Applicants in Forestry Department.

Washington, Aug. 18.—An examination to fill vacancies in the ranger force of 149 national forests in twenty-one states and territories, including Alaska, will be held Oct. 25 and 26. From this examination it is expected that 500 appointments will be made. While the examination is entirely along practical lines and knowledge of field conditions, book learning is considered essential. The rapid development of the national forest is making continually increasing demands upon those engaged in their management, and men with ability to assume responsibility and serve in supervisory capacities are in demand. These men are filled by promotion from lower grades, so that any one entering as a ranger is eligible for promotion to any of the more responsible and higher paid places, including that of forest supervisor.

The most exclusive people in the world are either in society or in jail.

AN ORDINANCE.

An ordinance amending section ten of "An ordinance to authorize certain persons to locate, construct, maintain and operate street railways, either by electricity or horsepower, on certain streets and avenues of the city of Marquette," adopted July 14, 1909.

The City of Marquette ordains:

Section 1. Section ten of an ordinance of said city entitled, "An ordinance to authorize certain persons to locate, construct, maintain and operate street railways, either by electricity or horsepower, on certain streets and avenues of the city of Marquette," adopted July 14, 1909, be and the same is hereby amended to read as follows:

Section 10. The fares for the carrying of passengers and their baggage upon said street railway and lines thereof operated under this charter, shall be as follows:

For each person over two years of age, for one continuous trip over the whole or any part of said lines, not to exceed five cents; and after August 2, 1914, six such trips for twenty-five cents, if paid in advance.

For each child not over twelve years of age, for one such trip, not to exceed three cents, or ten such trips for twenty-five cents, if paid in advance.

Children under five years of age shall be carried free when in charge of a passenger over twelve years of age.

Tickets or passes for their free transportation over said lines at all times shall be furnished by said parties or their assigns to all aldermen of the city, the mayor, recorder, controller, marshal, city attorney, street commissioner, health officer, and city engineer, if there be one; and also to policemen and firemen of the city for their free transportation over said lines while on duty.

Said parties and their assigns shall furnish passengers with transfer tickets necessary to make any of the trips aforesaid.

Section 2. This ordinance shall take immediate effect.

Adopted, August 2nd, 1909.

DANIEL S. DONOVAN, Recorder.

Readopted, August 17th, 1909.

DANIEL S. DONOVAN, Recorder.

Approved, August 17th, 1909.

DANIEL VAUGHAN, Mayor.

**BOWLING PINS BEING
MADE AT BIG BAY**

**OPENING OF NEW FACTORY MARKS
AN IMPORTANT STAGE IN THE
DEVELOPMENT OF A PROSPEROUS TOWN.**

The bowling pin factory, which has been put in operation at Big Bay within the last few days, marks a new epoch in the industrial history of that village. The pin mill has been in process of construction most of the summer, and it was expected to get it ready for operation at least a month ago, but unavoidable delays have made that impossible.

As is generally known, the lumbering operations at Big Bay are being carried on by the Lake Independence Lumber company, which is a subsidiary corporation of the Brunswick-Balke-Collender interests, the largest manufacturers of bowling, billiard and pool supplies in the country. This concern bought out the Big Bay Lumber company less than a year ago.

The Big Bay plant will be used in working up the hardwood lumber used by the company, and for the present, only bowling pins will be manufactured. The present pin factory has a capacity of about 300,000 pins a year, but this may be enlarged another year, and the plant may be extended to include the manufacture of other articles sold by the Brunswick-Balke-Collender people.

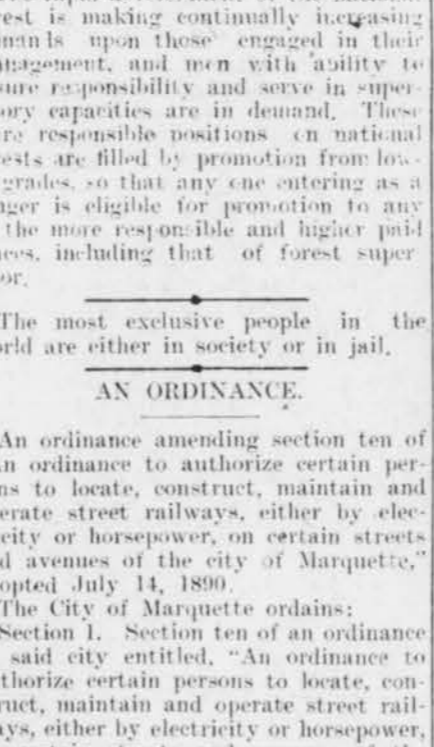

The bowling pins at present are worked up in the rough from green maple and in that condition are dried out in a large dry house, which has recently been completed. When dry, they will be shipped to Muskegon for finishing, although a finishing plant at Big Bay is one of the probabilities in the not distant future.

The company has also been operating the old Big Bay mill all summer, in sawing out pine, hemlock and hardwoods. The company is believed to be selling the product of the lumber mill in the general market. A large force is employed at this mill and a large quantity of lumber is now in the piles.

Up to date, but few houses have been built by the new company, although the town has been greatly improved in other ways and its population considerably increased by the larger force employed by the company. It is currently reported that a number of houses are to be erected within the next year and that the Brunswick-Balke-Collender plant will enjoy a steady growth.

J. A. FERGUSON.

TO THE PEOPLE OF MARQUETTE AND VICINITY.

We have now been in this city more than two years, and our business has prospered beyond our most sanguine hopes. We wish to most sincerely thank all who have patronized our school or assisted us in any way.

About a year ago we opened two new schools and we now take pleasure in telling our friends that we have made a substantial gain on our investment, and that the outlook for these schools for next year is very promising. We have spent hundreds of dollars in advertising, and the Ferguson Business Colleges are now known in every part of Michigan and in many other states. Calls for office help come from the best business firms in the Upper Peninsula, and from the principal cities in the adjoining states.

Our fall term begins Monday, September 6, 1909. From all indications we will have a larger attendance this year than we have had in previous years. We have an excellent equipment and we expect to make many improvements. The business world is, undoubtedly, entering on a period of prosperity and everything points to a very successful year for our institution.

We want to show you how some of our former students are prospering. If you are interested in the welfare of young men and young women watch our announcements in this paper.

Yours, for a business education,
THE FERGUSON BUSINESS COLLEGE.

YOUNG MARRIED PEOPLE

just beginning housekeeping often find the payment BY MONEY of small bills, such as those for rent, groceries, heat, light, etc., a cause for much annoyance. Money must be kept in the house; trips to the landlord, the storekeeper, the coal dealer and the gas company must be frequently made; and receipts for all paid bills must be obtained and carefully preserved. Payment by CHECK would obviate all this annoyance. Checks could be mailed to the landlord, the storekeeper, the coal dealer and the gas company, or they could be given to representatives of these parties. The cancelled checks would themselves be receipts for bills paid and they would be returned to the drawer at the end of every month in one package so that their preservation would be but a small matter. Call at our office and let us explain more to you about the advantages of a Checking Account, or write us for our plan for handling such an account BY MAIL.

Marquette National Bank

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows: "Heavy selling of Union Pacific and Steel continued throughout the day's session, causing declines. The selling was not traced to any particular source, but seemed general, and was induced by withdrawal of support in recent leaders. During the past advance the greater part of the short interest was driven to cover, but late in the afternoon the market was in the nature of replacing short lines, and this, with the elimination of weak accounts, has placed the market in a stronger position."

The fine quotations follow: Amalgamated... 44 1/2, Anaconda... 45 1/2, American Smelter... 102 1/2, B. & O. 112 1/2, C. & N. 112 1/2, Erie... 112 1/2, Kan. C. 112 1/2, Mo. Pacific... 112 1/2, M. & K. T. 42 1/2, Reading... 42 1/2, St. Paul... 112 1/2, Union Pacific... 112 1/2, W. & A. 112 1/2, W. & N. 112 1/2.

Boston Stock Quotations. Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "The general market opened strong, helped along by the strong closing of the London market. On a rumor of Hariman being wheeled on board of the steamer on his return trip the market broke badly. Union Pacific was the feature. There was a slight rally at the close. The market will probably open weak tomorrow, when we think it should be bought, as a good many weak accounts were liquidated today."

Paine, Webber & Co's Wheat Summary. It was a bull day in wheat from first to last, the market striking things in the situation was the advance in the September price of about three cents over the close yesterday. The filling of big stop loss buying orders created alarm among the shorts in all the months and the buying advanced prices sharply. The trade on the other side had reports of lower estimated yields in our northwestern states. The great strength in corn naturally influenced the early buying in wheat. The Minneapolis houses sent reports here indicating a considerable decline in the estimates in North Dakota. We feel that much will depend on the weather conditions in the Northwest in making the prices for the near future."

Table with columns for Adv., Rec., and various stock symbols like U.S.S. & R., U.S. Steel, etc.

WRIGHTS NOT AFTER RECORDS. Army Officers Say Brothers Only Tried to Fulfill Their Contract. Washington, Aug. 18.—Officers of the army at Fort Myer in Washington, who have watched the Wright aeroplane, and who are interested in the work of the other inventors of Dayton, are wondering just how much the two aviators do with their machine. That they have not exhausted the possibilities of their aeroplane as it now stands is conceded, and there is reason to believe that the brothers have ideas for the development of the machine, of which they have said nothing, that will keep them in the front rank of aeronauts for years to come.

Table with columns for Adv., Rec., and various stock symbols like Quinoy, Superior Copper, etc.

Copper Metal Prices. New York, Aug. 18.—The market for standard copper was quiet today, with sales only of twenty-five tons for December delivery at 13 cents reported on the New York Metal Exchange. The closing prices for Lake copper at 12 1/2 @ 12 5/8; August, 12 1/2 @ 12 5/8; September, 12 1/2 @ 12 5/8; October, 12 1/2 @ 12 5/8; November, 12 1/2 @ 12 5/8; December, 13 00 @ 13 00 1/2. In the London market, copper was firm in price, at 159, 12s, 6d for spot and 160, 11s, 3d for futures. Local brokers quote Lake copper at 12 1/2 @ 12 5/8; 13 1/2 @ 13 1/2; and casting at 12 7/8 @ 12 7/8.

CHICAGO GRAIN MARKETS. Chicago, Aug. 18.—In the wheat pit today, the congestion in the September

REVOLUTIONISTS' PLANS ARE REVEALED

Mexico Obtains Important Information Through Arrest of Junta Suspects.

TO ATTACK FIVE TOWNS.

Military Rule May Be Established in the States of Coahuila and Nuevo Leon.

Galveston, Tex., Aug. 18.—A dispatch from the City of Mexico says that government was put in possession of valuable revolutionary information through the United States officials who arrested an alleged revolutionary leader in San Antonio recently. Documents and reports of the junta as well as arms were recovered after the arrest of three men, among which were papers showing that remarkable progress had been made for an invasion of Mexico in October, and that five points of attack had been planned. The names of these points were not given out, but it is said that they are located near the Texas border and off the railroads, the plan being to attack these five towns one after the other and draw the Mexican troops and center attention upon them, while several interior towns and cities would be charged.

Have 20,000 Available Men.

The documents recovered from the supposed revolutionary headquarters in the United States would indicate that the enemies of the Mexican government have about 20,000 men in Mexico whom they can depend upon to do anything to down the government and aid the revolutionary movement, while claiming many thousands others who would join the ranks if encouraged by success. The revolutionary statement that a large portion of the army is in sympathy with the movement is supported to some extent by the report from Mexico that 600 or 700 soldiers are in jail and the guardhouses of the military posts because of open expressions made in favor of the revolutionary movement.

The revolutionists held in Texas are making a great legal fight to prevent being taken to Mexico. Funds are available and an array of the legal talent in this country is retained to defend them in court.

Martial Law Threatened.

City of Mexico, Aug. 18.—President Diaz has conferred upon General Trevino, Texas, commander of the Third Military zone, with headquarters at Monterey, absolute authority to deal with the political situation in the states of Coahuila and Nuevo Leon as he sees fit. Unless the legislatures of the respective states follow President Diaz's instructions in the matter of filling the vacancies caused by the removal of Governor Miguel Cardenas of Coahuila and Governor Bernardo Reyes of Nuevo Leon from office, a military regime will be established by General Trevino over the two states. The legislature of the state of Coahuila is unanimously opposed to electing Pedro Pena to the governorship. Pena's name was submitted by General Trevino, but the legislature has even refused to accept the resignation of Gov. Cardenas, which was demanded by President Diaz.

Troops Assembling at Saltillo.

The City of Saltillo is filling with troops preparatory to establishing military rule over state affairs, pending a settlement of the controversy. The anomalous condition exists of Mr. Cardenas still performing the functions of governor, notwithstanding that he was removed from the office several days ago by President Diaz. The legislature is to have full right under the constitution to deal with the situation. It is the first time in the history of Mexico that a state legislature has refused to obey the orders of the chief federal authority.

Bar Importation of Arms.

Laredo, Tex., Aug. 18.—The Mexican government has issued an order prohibiting the taking of guns into that country, no matter by whom they are carried. A number of American hunting cartridges with guns have been turned back at the Rio Grande crossing points during the last few days. A ban upon the sale of firearms and ammunition is being enforced in all the frontier states of Mexico.

HELLO GIRL MUST BE PRETTY.

Ugly Women Stupid and Undesirable, Says New York Official. New York, Aug. 18.—"It is stupid for a woman to be ugly; therefore the ugly woman is undesirable in the business world. Any woman is pretty who is bright, healthy and neat; therefore, it is the pretty woman who succeeds in the business world." These are the beliefs of the New York Telephone company, expressed through H. K. McCann, one of the department heads. "Naturally, in employing our operators, we give the preference to the pretty girls, because that is only another way of saying we prefer clever girls," explained Mr. McCann. "There is no fixed standard of beauty, so it is safe to say that to the educated, person any bright woman appears attractive."

TENNIS RESULTS IN OMAHA.

Omaha, Aug. 18.—This afternoon the first round in the tennis doubles was completed at the interstate tournament. The scores being: Bradley and Linde, Des Moines, beat Madde, Omaha, and Barkley, by default; Bailey and Spies, Albion, Okla., beat Dale and Holbrook by default; Barton, Sioux Falls, and Branson, Mitchell, S. D., beat Beard, Polk, Ia., and McCann, LaHarpe, Ills., 6-0, 6-3; Roberts and Rankin, Lexington, Neb., beat Funkhouser, Lincoln, Neb., and Stebbins, Omaha, 6-4, 6-2; Scriber, Omaha, and Jones, St. Louis, beat Taylor, Dallas, S. D., and Kull, Burch, S. D., 6-0, 6-2; Gilman, Sioux City, and Hoer, St. Louis, beat Smith and Hasselback, 6-4, 6-4; Hayes and Gardner, Chicago, beat Kohn and Koch, Omaha, 6-3, 6-1; Sherman and Welover, Kansas City, beat Potter, Omaha, and Warfield, Chicago, 6-4, 6-1; Hayes and Gardner qualified for the semi-finals this afternoon by defeating Sherman and Welover, 6-3, 6-1.

HERE IS RELIEF FOR WOMEN

If you have pains in the back, urinary bladder or kidney trouble, and want a certain, pleasant relief from Women's Ills, try Fother's GRAPE-LEAF EXTRACT. It is a reliable, reliable, and relieves all Female Weaknesses, including inflammation, 6-4, 6-1. Hayes and Gardner qualified for the semi-finals this afternoon by defeating Sherman and Welover, 6-3, 6-1.

AIRSHIPS AT MANEUVERS.

Balloons Sheds Already Being Built at Wurtemberg, in Germany.

Berlin, Aug. 18.—Military airships will take part in the kaiser maneuvers to be held in Wurtemberg during the coming autumn. Special transportable balloon sheds have been constructed to house the aerial monsters, and also with five officers practicing daily on the Tempelhof field in erecting and taking the sheds to pieces. A hall in Wurtemberg has already been selected as a station for Goose II, one of the army airships. The latest acquisition to the German airship fleet is the new vessel constructed by Count Zeppelin, which was formally taken over by the military authorities and now forms an integral part of the German army.

The emperor will reside during the maneuvers at the Kurhaus at Bad Meinerzhagen, where apartments are being prepared for his majesty, his youngest son, Prince Oscar, and the Austrian heir apparent, Prince Hohenzollern has placed his castle at Warstein in the disposal of the king of Wurtemberg and the king of Saxony. The members of the Reichstag have been invited by Count Zeppelin to inspect his airships at Friedrichshafen on September 4, and many of them will probably make use of the opportunity to take a short flight.

MANY GOVERNORS WILL MEET MR. TAFT

Thirty Heads of States Are Expected to Join the President at St. Louis for the Trip Down the Mississippi River—Many Boats to Carry the Party.

St. Louis, Mo., Aug. 18.—Sixteen governors of states have so far accepted the invitation to accompany President Taft down the Mississippi river from St. Louis to New Orleans, extended by W. K. Kavanaugh, president of the Lakes-to-the-Gulf Deep Waterway association, and Oscar L. Whitlaw, acting president of the Business Men's League. The governors of other states have written that they wished to consider the invitation for a few days to see if they can arrange the public work they have on hand for October so as to join in the trip. It is believed that thirty governors will meet the president in St. Louis, Oct. 25.

The governors who have so far accepted the invitation are B. B. Comer of Alabama, G. W. Donaghy of Arkansas, C. S. Deneen of Illinois, T. R. Marshall of Indiana, A. E. Willson of Kentucky, Texas, and G. H. Proctor of Vermont. The steambot Alton has been chartered for the governors. Captain Henry Leyhe, her master, has already begun the work of equipping her for the occasion. He is having bathrooms built and other facilities installed for the comfort of the passengers.

All Congressmen Are Invited.

Every member of congress has also been invited to join the presidential party at St. Louis and accompany it down the river. James S. Warren of Memphis has undertaken to secure the Kate Adams, a finely appointed steamboat, which has just been thoroughly overhauled, and is now negotiating with its owners at Memphis for its use by the congressional party. Every steambot in the St. Louis harbor which can carry passengers will also be pressed into service, and it is likely that steamboats from Peoria, Cairo, Pittsburg, Louisville, Cincinnati, Memphis, Vicksburg, Natchez, and Helena will join the party. The commercial club of Kansas City will have a boat come down the Missouri river with delegates to the convention at New Orleans, which will join the president's fleet here. Mayor George Parsons of St. Louis is actively engaged in arranging an exhibition of river boats of freight boats which will show the commerce of the Mississippi and Ohio rivers.

Light Warships in River Fleet.

Congressman Barthold has obtained from Secretary of the Navy George V. Meyer a promise to send two light warships up the Mississippi for the centennial celebration at St. Louis, and Secretary Meyer will be asked to allow the vessels to remain here until the president's arrival and accompany the fleet to New Orleans. The Lakes-to-the-Gulf association has invited the president of the republic of Panama and the president of the republic of Cuba to meet President Taft at New Orleans, and President Diaz of Mexico will meet him at El Paso in October. If these two presidents accept the invitations, President Taft will probably be asked to send two warships to bring them back again after the convention.

Foreign Warships to Be Invited.

Secretary Meyer has been asked to send a fleet of warships to New Orleans to greet President Taft on his arrival there the morning of Oct. 30, and an effort will be made through the proper diplomatic channels to have a fleet of warships from all foreign countries. The programme for the New Orleans convention has not been made up. It is known, however, that, in addition to President Taft's address, the secretary of war will speak on "The Army Engineer and River Improvement." Charles Scott of Mississippi, who was president of the first river improvement association ever organized, will be held in the Athenaeum, which will seat 3,000 delegates.

EDISON BUILDS ROCK BREAKER.

Perfects Machine That Can Reduce Mammoth Boulder to Small Pieces. New Village, N. J., Aug. 18.—Thomas A. Edison has perfected a machine that will reduce a boulder weighing from twelve to fourteen tons and measuring seven or eight feet in width into a pile of small, smooth, reliable for mill-tary purposes. The Menominee proposition does not appear to have been seriously entertained. Babe Is Near Death—Lying helpless in the seat of a heavy wagon, with the horse running at a mad pace, the eighteen-months-old son of Louis Johnson of Escanaba township narrowly escaped death. Falling from the seat as the horses ran madly, the babe bounced under the wheels of the wagon and one wheel passed over its body. A long gash was sustained at the side of the head and one arm was broken, but the child was not killed.

TWO BATTLESHIPS ONLY.

Economy Policy Expected to Keep Secretary Meyer from Requesting Four Vessels.

BIGGER ARMAMENT LIKELY

Indications Point to the Use of Fourteen-Inch Guns on the New Craft, if They Are Built.

Washington, Aug. 18.—Secretary Meyer has, his private sources, including the naval general board, of the ships which should make up the provision for increase of the navy in the naval appropriation act of the next session of congress. It is understood he has been asked to provide at the next session, although the leaders in congress who take an interest in an uninterrupted increase of the navy will support this provision. Some consideration has already been given to the chief characteristics of the battle ships which congress will be asked to provide at the next session. There are indications that there may be an increase in the ordnance of the ships by the adoption of the 14-inch gun, the first of which caliber has been constructed at the Midvale works and is intended to be tested at the naval proving ground at Indian Head. If it is deemed desirable to have guns of 14-inch caliber, it will immediately become a question whether there shall be ten or twelve of such guns on each battle ship. The proposition of two years ago, during the Newport conference, was to have ten 14-inch guns instead of twelve 12-inch guns, the former caliber to have relatively diminished velocity. It was finally decided, however, that when the 14-inch gun was developed it should be of a hitting power commensurate with the increase of caliber, as compared with the 12-inch gun. There is an inclination also to adhere to the twelve guns in the battle ship battery, and it is possible that with the adoption of the 14-inch gun there will be twelve, instead of ten, of those rifles, in which event the next battle ships to be authorized will be of 30,000 tons displacement, estimated to cost \$12,000,000 each. It is likely such a battle ship will have the same speed and endurance as the 26,000-ton battle ship. Much may depend in the determination of this question upon the plans adopted by European navies.

Navy Sees Snag Ahead.

Indeed, most naval officers of sagacity and discernment are convinced that there may be difficulty in obtaining two battle ships from the next session, although the leaders in congress who take an interest in an uninterrupted increase of the navy will support this provision. Some consideration has already been given to the chief characteristics of the battle ships which congress will be asked to provide at the next session. There are indications that there may be an increase in the ordnance of the ships by the adoption of the 14-inch gun, the first of which caliber has been constructed at the Midvale works and is intended to be tested at the naval proving ground at Indian Head. If it is deemed desirable to have guns of 14-inch caliber, it will immediately become a question whether there shall be ten or twelve of such guns on each battle ship. The proposition of two years ago, during the Newport conference, was to have ten 14-inch guns instead of twelve 12-inch guns, the former caliber to have relatively diminished velocity. It was finally decided, however, that when the 14-inch gun was developed it should be of a hitting power commensurate with the increase of caliber, as compared with the 12-inch gun. There is an inclination also to adhere to the twelve guns in the battle ship battery, and it is possible that with the adoption of the 14-inch gun there will be twelve, instead of ten, of those rifles, in which event the next battle ships to be authorized will be of 30,000 tons displacement, estimated to cost \$12,000,000 each. It is likely such a battle ship will have the same speed and endurance as the 26,000-ton battle ship. Much may depend in the determination of this question upon the plans adopted by European navies.

ATTACK MEAT INSPECTION LAW.

Its Products Not Stamped, Pittsburg Concern Wants Road to Carry Them. Washington, Aug. 18.—An attack has been made upon the constitutionality of the meat inspection law, the statute that forced the packers of the country to remove the flesh from their slaughter houses and kill only healthy animals. The Melting company of Pittsburg has asked the United States court there to issue an injunction, forbidding the Pennsylvania railroad to refuse consignments of oiled oil from it. The railroad company has been refusing oil from the Melting company because it does not bear the label, issued by Secretary Wilson, "United States inspected and passed." Without it no railroad will touch a pound of meat or fat, and remain to-day the only tribe of American natives in Indiana for which provision has not been made by the government. Attorney General Wickersham has directed the district attorney at Pittsburg to intervene in the case, which, though a private litigation, calls in question the validity of the statute. The United States, the attorney general thinks, is the party of greatest interest in the outcome of the litigation, and it is his opinion that the people of the United States should have something to say in the case.

Upper Peninsula

Two Miners Killed.—Felix Ratka, aged thirty-five, and Anton Wysocki, aged twenty-six, miners employed at the Newport mine, Irons were dead, the result of a fall of ground in one of the drifts. The one went down without warning, several tons falling on the two men and killing them almost instantly. Ratka and Wysocki had been working at the Newport for about a year, they having arrived in Ironwood together shortly before that time. They were single men. Attempts Suicide in Jail.—Thomas Pool, who has been confined in the county jail at Baraga on a grave charge, tried to end his life the other day. Pool had been before Judge Streeter in the circuit court, and after having been found guilty was committed to the jail again, to await sentence. In some way, probably through the aid of some congenial friend, Pool procured a quantity of carbolic acid and ended up by drinking about an ounce of it. Antidotes were given to him and the man's life was spared. Permanent Camp at Ludington.—The idea of establishing in northern Michigan a permanent camp for the Michigan National Guard has been given up and Major General Frederick Grant will likely recommend the establishment of a permanent camp at Ludington, that city having agreed to make the state a gift of a tract of land five miles square for that purpose. The land in Chippewa county which was proposed for a permanent camp has been discovered to be school land and not available for military purposes. The Menominee proposition does not appear to have been seriously entertained. Babe Is Near Death—Lying helpless in the seat of a heavy wagon, with the horse running at a mad pace, the eighteen-months-old son of Louis Johnson of Escanaba township narrowly escaped death. Falling from the seat as the horses ran madly, the babe bounced under the wheels of the wagon and one wheel passed over its body. A long gash was sustained at the side of the head and one arm was broken, but the child was not killed.

TO EVACUATE MAINE FORTS.

Preble and Levett Now to Be Used Only Time of War. officially announced, it is known that the government intends to evacuate both forts Preble and Levett, two of the most important posts in the military district of Portland. Both of these forts cost several millions of dollars, and when it became known that they were to be abandoned, surprise and regret was expressed. The guns at the forts will not be dismantled, as it has been planned to detail a small command at each to care for the government property, which it is understood is part of the policy outlined by the general staff. The companies at the forts will be massed at Forts Williams and McKinley, where over a million dollars is being expended for barracks and other quarters for the officers and men. Portland will not suffer, as it will still remain the largest military post in the department of the East, and three new companies will be assigned here just as soon as sufficient quarters are secured. At the present time, Portland is the third largest military post in the country, but with the coming of the three new companies it will contest with San Francisco for first place.

HOMES FOR THE CHIPPEWAS.

Long Neglected Tribe Will Be Given Farm Lands in Montana. Helena, Mont., Aug. 18.—The Chippewas Indians are to be given homes and opportunity to make a living. Thus

Jacobsville, Mich., 7-6-09.

It is an up-to-date business college. Any course can be selected to suit each student. N. B.—This is one of the best and finest Catholic colleges at a moderate charge. For catalogue apply to

ST. NORBERT'S COLLEGE, De Pere, Wis.

WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments COST NO MORE THAN PLAIN ONES IN WHITE BRONZE. Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant care and eventually crumbles back to Mother Earth. Bronze is its superior. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. New growth is an impossibility. It is more artistic than any stone. Thus why invest in it? It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades and sizes. Write me if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

Geo. E. French, MARQUETTE, MICH.

Agent for the Monumental Bronze Co., of Bridgeport, Conn. GENERAL TEAM WORK.

Chief Rocky Boy's band will soon cease its nomadic life and the members will settle down for that peace for which they have beseeched the government for years. An agent of the Indian service is in Helena to round up the members of the band, preparatory to taking them to public lands lying on the eastern and northern boundaries of the Fort Peck Reservation, in northeastern Montana. Too weak to compel attention while the government was dealing with more powerful tribes, the Chippewas were neglected and remain to-day the only tribe of American natives in Indiana for which provision has not been made by the government. The accident was witnessed by the frantic parents of the child, who could do nothing. They were picking berries on the Cornell road, out from Escanaba, and the babe, with a four-year-old brother, had been left in the wagon. The babe was dumped out after the horse had run for a half mile and the other child clung to the dashboard until the horse was stopped three miles away. Eats Sardines; Dies of Poison.—Finding a can of spoiled sardines in the rear of her home at 403 Brule street, Mary Ellen Lemery, the four-year-old daughter of Louis Lemery of Menominee, ate a quantity of the fish. Coupled with the effects of quinine and tomatoes of which the child had also partaken, her system was unable to overcome the poison and she succumbed. No responsibility for the tragedy rests upon the grocer who sold the sardines. The fish had been purchased for use in the Lemery family, but had spoiled before they were consumed and had been cast into the backyard with garbage. Float Copper in Menominee.—Steve Devoe, who has been working on the main drive on the Menominee river, has returned to Menominee carrying a large lump of crude copper ore, weighing ninety-five pounds. Devoe will not state where he found it, as he thinks that he has discovered a copper mine, but states that he was riding a big, and as he stepped into the river near the bank his calks struck something metallic. He stopped to see what it was and brought up the piece of copper. Devoe is going to pursue his investigations in an endeavor to discover the whereabouts of the main body of ore, from which this piece was broken. Easy Mark for Criminals?—The Diamond Drill of Crystal Falls comments editorially as follows: "We were informed the other day that a noted Italian lawyer has been employed to defend his fellow countryman who, in a brutally cruel and deliberate manner, killed another of his countrymen at the Baltic location. The Italians are taking a leaf from the Finns' note book in the employment of Oscar Larson, who last spring succeeded in getting Rajala off with four years in Marquette for one of the cruelest murders in the history of the country. Thus the question arises, is Iron county going to be the easy mark among Michigan counties? Are juries in the circuit court of this county so gullible that the twaddle of a smooth-tongued lawyer can habitually bring about a miscarriage of justice. There were grave mutterings at the time Rajala was let go that will surely swell to more serious proportions should this other murderer escape justice. Riots and lynch law are brought about by a too lax application of the statute law. The people of Iron county are no exception to the rest of humanity and they must not be trifled with too much. We don't ask for blood; just a reasonable amount of justice—enough to keep the lawless within bounds."

VETERAN ARTIST VISITS ISHPEMING

BIG ATTRACTION TONIGHT.

Opening Bill At Ishpeming Theater Will Be a Strong One.

There has been an unusually large sale of seats for "The Three Twins," which will open the fall season at Ishpeming tonight. The company comes heralded as one of the best musical comedy attractions that has ever visited the upper peninsula. It had a run of five months at the Whitney theater, Chicago, and one year at the Herald Square theater, New York. Its engagement at the Lyceum theater in Duluth last season broke the house record for big business and it is to be there again for a week's engagement, commencing next Monday.

There are some novelties in the production, the dancing Yama Yama girls, the wonderful face-painting and the gigantic aerial swing. Mr. Gates has spared no expense in costuming the attraction and the gowns are said to be among the handsomest ever used in musical comedy productions in this country.

The company carries its own orchestra. Victor Morley and Bessie Clifford, who appeared in the original company, are still playing the leading parts.

A PRETTY WEDDING.

Popular Couple United in Marriage Last Evening at Finnish Lutheran Church.

Nestor Eskila and Miss Margaret Hekkonen, two of Ishpeming's popular young Finnish people, were united in marriage last evening at 7:30 o'clock at the Finnish Lutheran church, corner Third and Bank streets. Rev. Savola, the pastor, performed the ceremony, in the presence of a large number of relatives and friends of the contracting parties. The bride was attended by her sister, Miss Annie Hekkonen, and the Misses Mary Herwas and Hilda Eskila, the latter the groom's sister. The groom was supported by Charles Hekkonen, the bride's brother, John Anderson and John Gronwall.

The church was prettily decorated, the principal feature being a large arch underneath which the ceremony was performed. The decorations were principally ground pine and flowers. The bride was attired in a white messaline gown and carried white roses. The bridesmaids wore white lingerie dresses and carried bouquets of white carnations. The Finnish band, of which the groom is a member, played the wedding march.

Following the wedding the bridal party and their guests repaired to the home of the bride's parents, Mr. and Mrs. Charles Hekkonen, 147 Zobelstr. street. A wedding dinner was served and the guests remained until a late hour. The band rendered selections on the lawn, which was illuminated with electric lights.

The young couple were recipients of a large number of presents. The bride, who was reared in the city, was in the employ of N. E. Skud for a number of years, and the groom holds a position with the Cleveland-Hills Iron company at the City Street property. They will reside on High street.

Mr. Childs, whose name has been familiar in Ishpeming for many years, although he has not been in the city for more than a quarter of a century, is here for a few days. Mr. Childs established the Childs' Art gallery, managed by C. D. Cole, and he still retains an interest in the business. He is now located in Arkansas City, Kas., where he has spent the greater part of his time since leaving Ishpeming, twenty-six years ago.

Mr. Childs was one of the first photographers to engage in business in the upper peninsula. He came to this region in 1868 for the purpose of securing views of Lake Superior and other water and land scenes of interest. Most of his trip on the lake was made in a small boat, and Indians were employed as guides.

Mr. Childs was in this region but a short time when he saw that it offered a fine opening for his line of business. In order to cover the district thoroughly he established galleries at several places, his first one being opened in Houghton in 1868. Three years later he opened a gallery at Marquette and in 1872 he established a business at L'Anse. C. D. Cole was associated with him in the management of the Marquette business, but Mr. Childs found, after placing several men in charge of his other galleries, that it was not easy to secure competent help.

The business in Ishpeming was established soon after the big fire, in the spring of 1874. The gallery was opened on the present site on Division street. Childs' gallery is now one of the best known in the state. Mr. Cole having maintained the high standard of excellence in the work produced established by his partner in the Houghton and Marquette galleries.

Mr. Childs yesterday said that Ishpeming has undergone many important changes since he was last here. One of the first things that he referred to was the city's excellent streets. He said that he has traveled extensively through this country since he left here, but he has never seen streets made of similar material that equalled those of Ishpeming.

Mr. Childs is a great believer in the future of the western country. He predicts that Oklahoma City will, within a few years, be one of the largest cities west of Chicago. He has seen the town grow from the time when there were only twenty-five or thirty houses on the prairie to a population of nearly 50,000.

With railroads throughout the west to handle the rapidly increasing business, the country will have an unprecedented growth during the next few years, Mr. Childs believes. Up to this time advancement has been retarded somewhat, on account of the limited rail facilities. Mr. Childs reports that the crops in the west are this year the most abundant that he has ever seen.

FROM MORGAN'S CURB LETTER.

"The New York market opened firm and higher, but after the first hour, it came weak and dull. The entire list showed losses, a number of issues a full point, and several even more. There were confined runners of heavy selling orders hanging over the market. Our New York correspondent says the New York market will work lower. We believe it has advanced too rapidly and is due for a temporary set-back. The trading in Boston was light, but prices were firm. Erratic action of the New York market caused hesitation on the part of the traders, few being inclined to make new commitments. Lake and Giroux were the features, the former selling up to a new high mark. Giroux held well at 90 1/2, under fairly heavy sales. All stock offered at this figure was quickly taken. The balance of the list was dull, trading being confined to scattered small lots, and prices suffered slightly. The curb features were: Guelts, First National Copper, Davis Daily and Calumet & Montana. Some trading in Cumberland, Ely, Ohio Copper, Shattuck, San Antonio and Superior & Globe. There were a few sales of Chief Consolidated at 1 1/2. We believe Greens Canada to be a purchase. Stocks of merit should be sold on good news and purchased on the reverse. Greene's great property is still intact, ten miles long, with ore exposed at intervals the entire distance. It has had the benefit during the past two years of enormous sums of money expended on development under the direct supervision of the ablest men in the copper mining industry. This should certainly have enhanced the value of the property, and will be reflected in the market a little later on. There are a number of other copper properties really cheap at present figures."

ISHPEMING IN BRIEF.

Only two deaths have occurred in Ishpeming this month.

Miss Jeanette Tommen has returned from a boat trip on the lakes.

J. H. Cosgrove of Coleraine, Minn., was an Ishpeming visitor yesterday.

Mrs. N. E. Skud and children are camping at the Maples, around the Iron Hills.

William Leininger and family have returned from their camp near Lake Umbagog.

P. H. O'Brien, the well known attorney of Laurium, was in the city yesterday on business.

George I. Maker, the South Shore company's agent, at Michigan, was in the city yesterday.

John Lally and Ed. Kaiser, former residents, are here from the Mesaba range, on a visit to relatives.

A. G. Johnson and wife and the latter's sister, Mrs. Lundquist, are enjoying an outing at Lakewood, near Marquette.

Miss Florence Francis and her brother Donald have returned from an extended visit to relatives at Lancaster, Plattville and Milwaukee, Wis.

Mrs. Ray Osmond was tendered a social surprise by about a dozen of her lady friends Tuesday afternoon at her home on North Third street.

Miss Lucy Stark is visiting Miss Vera Vela, formerly of the city, at Ludington, Mich. From there she will go to Chicago to visit her sister.

Miss Albert Sedgman of this city was married to George Cox of Negauance Saturday evening. The ceremony was performed by Judge Verran in his office.

C. B. Knapp returned from Milwaukee Monday and he left last night, accompanied by his wife and child, for Chicago, where they will spend a week or so, visiting.

Leo Lassner, manager of the Grand theater in Calumet, was in the city yesterday on a business trip. The Grand is conducted by D. E. Rice, who recently bought out the Bijou in Negauance.

William Macker, who was in the city about ten days ago, gave Trembath Bros. a contract to paint his excellent corner of Barnum and Lake streets. A veranda is also to be erected on the west side.

Miss Winifred V. Lacey will leave this morning on a boat trip to Buffalo and other points in the east. On her return she will go to Barre, where she will remain until the opening of the fall term of the school in September.

W. J. Andrews and Miss Gladys L. Heava were united in marriage Tuesday evening at the First Methodist Episcopal church, pastor, Rev. C. L. Adams, the pastor, performing the ceremony. The bride is a daughter of John Heava, the contractor.

The Sault Ste. Marie News says: Miss Klara Form arrived this noon for a visit with her parents, Mr. and Mrs. Charles Form, Carrie street. Miss Form left the city a year ago last June to study voice culture with a leading vocal instructor in Paris. Returning to the United States early in the summer, Miss Form has since been taking leading parts with a musical opera company which has but recently completed engagements in Memphis, Tenn., and New Orleans, La.

Winchester 35-automatic rifle lost going north from city. Liberal reward. Return to Mining Journal branch office. (8-16-1v)

OLD TIMERS' PICNIC TODAY.

The following names have been added to the list of foreign-born residents of the city who are eligible to participate in the picnic to be held today at Cleveland Park: Sam Huot, John Charbonneau, Sr., John Lehman, William Nicholls, James Heard, John McDonald, James McCutcheon, Sam Perry, Ernest Johnson and Leonard Johnson. The Ishpeming police force will be at the head of the parade this morning, starting from the Scandinavian society's hall at 9:30 o'clock. The committee desires all of the old timers to take part in the parade.

WASHINGTON'S PLAGUE SPOTS

Life in the low, marshy bottom of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malarial troubles. They are the best all-round tonic and cure for malaria I ever used." writes R. M. James, of London, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by The Stafford Drug Co.

CURED HAY FEVER AND SUMMERS COLD.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by all Druggists.

WILL TEACH IN WEST.

Miss Ellen Hassinger has accepted a position as instructor in the commercial department of the McMinnville college at McMinnville, Ore. She will leave shortly after the first of the month for Seattle, to spend a few weeks at an exposition, and will return from there to McMinnville. The college will open its fall term Sept. 21. Miss Hassinger has been assistant to P. H. Ross in the Ishpeming Business college for the past four years, giving excellent satisfaction. She is a graduate of the Ishpeming High school and received her first instruction in commercial work while a student in the school. There are twenty instructors and about 500 students in the McMinnville college.

TWAS A GLORIOUS VICTORY.

There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about," he writes, "and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and do good work again." For weak, sore or diseased lungs, Coughs and Colds, Hemorrhages, Hay Fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c, and \$1.00. Trial bottle free. Sold and guaranteed by The Stafford Drug Co.

SEARED WITH A HOT IRON.

Or scalded by overturned kettle--cut with a knife--bruised by slammed door--injured by gun or in any other way--the thing needed at once is Bucklen's Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Fever Sores, Eczema and Piles. 25c at The Stafford Drug Co.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the city clerk of Negauance, Michigan, for the building of a Fire Hall at Negauance, Mich.

Proposals to be in the hands of the aforesaid city clerk on or before 5 p. m. o'clock of the twenty-fourth day of August, 1909.

Plans, specifications and instructions can be seen at the office of the city clerk in the City Hall, Negauance, Mich., also in the offices of the architects, First National Bank Building, Milwaukee, Wis., and Marquette, Mich.

The right to reject any and all bids is reserved.

CHARLTON & KUENZLI, Architects. (8-10-24)

TAKE NOTICE.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. Sold by all Druggists.

Upper Peninsula

Father Not Responsible—

That a parent is not responsible for damage committed by his child was the English and American law quoted in justice court at Escanaba by Attorney C. D. McEwen which may have an important bearing on many cases of similar nature in the state. Because a child of Fred Gardner injured a fruit tree in the yard of Nicholas Stockman, the latter sued the father. Attorney McEwen appeared for the defendant and after quoting the law the case against the defendant was dismissed.

More Ironwood Bank Charges—

The Ironwood Times publishes the following: Sheriff Spencer was in the city Wednesday and served summons on E. D. Nelson, ex-president of the defunct First National bank of this city, and on C. E. Honk, J. A. Tederstrom, Charles Clark, James Dewey and Fred Fehr, ex-directors of the institution, in an action in chancery which has been commenced in the circuit court. The complainant in the case is Joshua Featherington of Bessemer.

There are two actions. One is against the directors to enforce their liability for alleged neglect of duty in the supervision of the affairs of the late bank in allowing its assets to be misappropriated by its cashier and other officers to the amount of about \$200,000, and in this connection the complaint prays that a decree be entered for the difference between the assets and the liabilities and for an amount sufficient to pay the depositors in full. The other action is against E. D. Nelson, the Twin City General Electric company and the Ironwood and Hurley Water companies, which Mr. Nelson controls, to recover funds and assets of the bank claimed to have been appropriated by Mr. Nelson to his own use.

The bill of complaint is a bulky document and the allegations made therein are many and varied. Among other things, it is alleged that E. A. and J. O. Hayes, former owners of the Ashland mine, borrowed \$15,000 from the bank while Mr. Nelson was president, giving their note for the amount, and that when the note became due they were financially embarrassed and unable to make the payment and the amount was charged on the books of the bank to profit and loss against its surplus and the account closed. That later on the Hayes Bros. paid the amount of the note, but that no credit for the payment was given the bank, Mr. Nelson appropriating the whole amount to his own use and benefit.

It is also alleged that while president of the bank Mr. Nelson purchased an equity in certain real estate in Chicago

and attempted to organize a corporation to hold and manage it, in which he owned all the capital stock except a few qualifying shares held by directors to enable them to act as officers of the corporation. The complaint alleges that the corporation was never legally incorporated and never had any lawful existence, but that none the less Mr. Nelson caused bonds to be issued by it for a large amount, of which, as the owner of both the capital stock and bonds of such corporation, he sold to himself, as president of the First National bank of Ironwood, at par, bonds of the face value of \$85,000, which sum he withdrew from the assets of the bank and appropriated to his own use and the use of the corporations with which he was connected, and applied it, partially at least, to discharge the obligations owing by him and the corporations with which he was connected, and withdrew his own notes and obligations of the corporations from the assets of the bank. The complaint alleges that these bonds were worthless, and in consequence the sum of \$85,000 was lost to the bank and its depositors.

The complaint further charges that while president of the bank Mr. Nelson withdrew from its assets a further sum, alleged to be \$70,000, or thereabouts, which he appropriated to his own use and that of the corporations mentioned in which it is alleged he owns a great majority of the capital stock and consequently controls, and it is also alleged that this stock was purchased by him with the funds of the bank above mentioned and that the whole amount withdrawn by him with interest is in excess of \$150,000.

It is also alleged that Mr. Nelson was the owner of 376 shares of the capital stock of the bank, of the face value of \$36,700, which, to relieve himself of liability, he sold to H. F. Jahn and E. T. Larson and retired from the bank and resigned the presidency, but the complaint alleges that at the time of his retirement the bank was, and for a long time prior thereto had been, and ever since has been, insolvent and was made so by his appropriation of its assets for his own benefit and that of the corporations named, with which he was connected, and that these facts were concealed from the officers of the bank, its depositors and the officers of the United States charged with its examination and the falsification of its financial condition made to the comptroller of the currency and published for the purpose of deceiving those dealing with it and giving it a false appearance of solvency and prosperity.

The complaint asks that judgment be rendered against Mr. Nelson, and the corporations named for the amounts received by him and them, respectively, and that his stock and the property, assets and franchises of the corporations be sold in satisfaction of the amounts found due and the fund so created in payment applied in payment of the depositors. While Joshua Featherington

is named as the complainant in the bill, it is drawn in such a form that any and all depositors or other creditors of the late bank are invited to come in and become parties to the suit.

It is very evident that the allegations made in the above complaint are taken from the "history of the bank" written by its late cashier, E. T. Larson, since he has been confined in the county jail at Bessemer. Mr. Larson has certainly shown some ability as an alleged since his arrest and confinement, and, in fact, it may be said that when he is in condition he can do about as good a job of alleging as anyone that ever alleged. While the Times is not forestalling the courts in the trial of this or any other cases, it must be said that recent events have had a tendency to depreciate greatly the value of statements made by Larson, and it is very likely that something more substantial than his unsupported statements will be necessary to convict otherwise reputable citizens of such grave offenses as are charged in the above complaint.

Mr. Nelson makes an absolute denial of every one of the allegations made in the above complaint, saying that the charges are a tissue of falsehoods made out of whole cloth. He says that, while he has been an individual borrower from the First National bank at times in the past, that the corporations with which he is connected have never been; that all his obligations to the institution were settled in a square and legitimate manner, and that the bank was solvent when he withdrew from it about four years ago. In regard to the allegation concerning the Hayes brothers' note, Mr. Nelson says that when the note was finally paid, after having been charged to profit and loss, that the amount received was paid to the stockholders of the bank as a dividend, and that all that he received was the proportionate amount due him on the stock that he held.

It would seem to an unbiased observer that the action above referred to is at least premature, inasmuch as the amount of the assets and liabilities of the bank has not yet been determined, and consequently it cannot now be ascertained what amount will be necessary to pay the depositors in full. We believe, also, that if Mr. Nelson or the late directors are liable for any of the amounts charged in the above complaint, it is the duty, solely, of Mr. Tillinghast, as receiver of the bank, to take action in behalf of all the creditors, rather than for an attorney not connected with the bank's affairs to begin an action on behalf of only one. We understand that the receiver has not yet been determined, and that he will contest the action on these grounds.

For indigestion and all stomach trouble take Foley's Orino Laxative, as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. Sold by all Druggists.

Place Your Advertising Agent On His Mettle

Don't give him a contract for from one to three years.

Don't say, "For this period, all the advertising I place is to be placed through you."

Make him fight to keep your business as hard as he fights to get it.

And let the keeping or the getting be decided by comparative results.

This policy will come like a bomb, we know, into the old-time agency camps.

They will say, "How can agents sleep if their business becomes as unstable as that?"

You don't want them to sleep—that's exactly the point. You want them to keep to the mark.

Make an agent prove, when he solicits your business, that he can outsell the rest.

And make him prove, so long as he keeps it, that no other concern can outsell him.

What would be the result if advertisers in general adopted this sensible policy?

It would simply be this:

No smooth-tongued salesmen, no unproved boasts, no showy ads would go.

Soliciting expense would be largely wiped out. The cost of getting contracts signed would be spent on increasing a client's results.

That has been our policy long. For nearly ten years, our main expense has been our copy department. The head of it receives \$1,000 per week.

By years of seeking—by sifting hundreds of men—we have gathered around us the ablest corps of advertising men in America.

Now we are ready to handle advertising without any contract whatever.

We are willing to meet all comers, and ready to abide by results.

If any agent can sell more than we, on any account, he can have it.

On the other hand, we claim entitlement to any account where we can outsell the rest.

There is a way to prove an agent out before you make any commitment.

There is a way to know—beyond any question—which agency can sell the most goods.

There is a way to find out, by actual figures, if our able men can improve your results.

There is a way to get more light than you ever have had on your advertising—light that may be worth a fortune.

If you want to know it, please write us, and we will explain the way.

NEGAUNEE MINE TO WORK DOUBLE SHIFT

TWO HUNDRED MEN WANTED AT CLEVELAND-CLIFFS PROPERTY AND MARY CHARLOTTE HAS PLACES FOR ONE HUNDRED AND FIFTY ADDITIONAL HANDS

S. R. Elliott, superintendent of the Cleveland-Cliffs Iron company's properties in Negaunee, received instructions Tuesday evening to put on a second shift at the Negaunee mine, which has been working with a single crew for nearly two years past. The curtailment of the force at the Negaunee occurred during the panic of 1907, when big reductions were also made at some of the company's Ishpeming mines. It is planned to resume night shift work next Monday, provided a sufficient number of men can be secured by that time. At least 200 can be given places. Mr. Elliott will be pleased to have men seeking employment call at the Negaunee mine office, where they will receive instructions as to when they should begin, the nature of their work, etc.

The announcement in yesterday's issue of The Mining Journal that the Breitung estate is to increase its working force at the Mary Charlotte mine was received with much satisfaction. With an additional 150 men, the force working at the Mary Charlotte and Breitung Hematite properties will be larger than was employed during the boom period of 1906 and 1907. Including this addition, and the men to be taken on at the Negaunee mine, there will be as many hands employed at the properties in this city as there were during the year or two prior to the panic. Slight increases have been made at a number of the properties during the past few months. The surface crews employed at most of the mines are now larger than at any previous time in two years. During the slack period a considerable quantity of development work was done at the larger properties, and as a result they are now in condition to employ increased forces to better advantage than ever before.

It is a question if the companies will at once be able to secure all the men they desire, as both miners and laborers are now scarce. It is expected that a number of men will give up their positions at other properties to accept places at the two mines where the forces are to be increased. Some men move frequently from one mine to another in an effort to improve their condition. The scale of wages paid underground is about uniform, so that these men have little advantage in the men seek more desirable places in which to work. Some do not like wet mines. The miners, as a rule, are now receiving good pay and no complaints are heard on that score.

The Cleveland-Cliffs Iron company has secured all the men desired at the Lake mine in Ishpeming, which started on double shift last Monday night. In the neighborhood of 200 were engaged.

Most encouraging reports continue to be received from the east as to the condition of the iron market. It was reported from Birmingham on Tuesday that No. 1 soft pig iron sold there at \$14.50 per ton, which is another fifty-cent increase in the price. It is said that the southern furnaces have their output sold in advance for several weeks.

Prices on watches, clocks, and jewelry, cut in two, at J. J. Wentela's, Negaunee. (8-17-1v)

BIG PAY ROLL AT ESCANABA. Large Amount Due Railroad Men Shows That Times Have Improved.

A Negaunee employe of the Chicago & Northwestern Railway company yesterday said that the largest pay roll in the history of the Peninsula division of that system will be distributed in Escanaba this month. The company's pay days began yesterday and will be continued until the 25th.

The general resumption of business in the entire district, and especially in the iron trade, is reflected in these payrolls, and unless unforeseen conditions develop the prosperity which the district is now enjoying will continue for an indefinite period.

The Northwestern is now employing a greater number of men in the yards, both at Escanaba and on the Marquette and Menominee ranges, than at any previous time in a good many years. During the past few months the brakemen and switchmen were laid off indefinitely, and engineers who had been pulling trains for from twelve to fifteen years, were obliged to go back firing. Many of the old conductors were also compelled to take work as brakemen on freight trains and in the yards. The first car collector placed on a Northwestern train running out of Escanaba began work last Saturday on train No. 10, which runs between that city and Watersmeet. R. M. Penn, for many years of the Iowa division, has been placed on the Watersmeet-Iron Mountain run. The sole duty of the collector is to take up the fares of the passengers, while the conductor runs the train. The collector is in uniform similar to that worn by the conductor. It is reported that it is the intention of the company, if the system is practical, to place collectors on all passenger trains.

All our watches, chains, silverware, etc., now being sold at our clearing out sale J. J. Wentela, Negaunee. (8-17-1v)

The Citizens of Negaunee are invited to subscribe for the stock of the new Negaunee National Bank. Application blanks and envelopes may be had at the Breitung House and should be sent at once to C. Meilleur, Ontonagon, Mich.

PROPOSED STATE BANK.

New Institution Will Be Located in the Old Bank Building.

One of the promoters of the proposed state bank for Negaunee yesterday said that the institution will probably be doing business within two or three weeks. Most of the stock, he stated, has been subscribed for by Negaunee people, and a number of the business men are to be shareholders. The application for a charter was made some time ago and all of the other preliminary arrangements are now being closed up.

The organization meeting will be held within a few days and it is announced that the bank will occupy the former quarters of the First National bank in the Mitchell block, almost directly opposite the new bank building. The furniture and fixtures are still in place and business can be started there on very short notice. The vault is an exceptionally fine one and the rooms are still in good condition.

The promoter referred to say that some people have an idea that the State bank proposition is merely a bluff to keep out the second national bank for which C. E. Meilleur of Ontonagon is soliciting stock, but he declared that such is not the case. He said that plans for the proposed state bank are now well along and that it will be a strong institution, although the capital stock will not exceed \$50,000. It was reported in the evening papers that Mr. Meilleur and others interested with him in the proposed new national bank had made application for a charter.

If you want jewelry or silverware, we can save you big money at our clearing out sale. J. J. Wentela, Negaunee. (8-17-1v)

SOME GREAT BALL GAMES.

Negaunee people who are camping in the Swazey range district are getting much amusement out of baseball games between a campers' nine and a team composed of Skandia men. The big feature of last Sunday's game was the striking of George J. Maas. There were a number of people from the surrounding district in attendance and the umpire was the chief target for the fans. His decisions were largely in favor of the Skandia team. The game broke up in the fifth inning when the Skandia pitcher refused to work after his first baseman had allowed two men to score on a "shove" ball that he should have caught. Up to the third inning neither team had scored, but in the fifth the campers brought in four men. The umpire declared the game lost to the Skandia on the ground that they refused to finish it. Everett Sporeley does the twirling for the campers and Jay Sproule is the catcher.

Clearing out sale of jewelry of all kinds, at J. J. Wentela's, Negaunee. (8-17-1v)

WILL DO THRESHING.

Fred Roberts, who for several years threshed grain for farmers in the county, is engaged to do the threshing for the two mines where the forces are to be increased. He is expected to arrive in Negaunee on Tuesday. A number of farmers in this vicinity have asked him to do their threshing and he will be ready to begin work on short notice. Besides doing threshing he will at no press let and straw.

Everything in the store regardless of cost to make ready for holiday purchases. J. J. Wentela, jeweler, Negaunee. (8-17-1v)

LOCAL LACONICS.

Messrs. Bolner and Rosenholm, Gwin business men, were in the city yesterday.

John Ward was here yesterday from Escanaba on a visit to his brothers-in-law, John and Daniel Sica.

Mrs. T. M. Wells and daughter, Miss Cora Lee, Mrs. J. M. Perkins and Miss Frances Winter, have returned from a boat trip on the lakes.

Bob Watson has given up his place at the Mary Charlotte mine and will be to begin work at the Oliver Iron Mining company's Blue property.

Mrs. M. E. Arland will leave Saturday for the East to do her fall outfitting. Her store will be closed during her absence. She will be away two or three weeks.

The Elks' baseball team will play their long promised game in the near future. As several of the Elks are taking in the first of the tournament in the other country this week, the game will likely be played next week.

Warren Manning, the landscape artist of Boston, is in the city. He and C. A. R. Townsend, at the head of the Cleveland-Cliffs Iron company's land department, inspected the proposed new cemetery site yesterday. Gwin was laid out under Mr. Manning's supervision.

Vilhelm Yates, oldest son of T. C. Yates, spent yesterday with his parents. He has been in the employ of the Allis-Clumbers company of Milwaukee at its Cincinnati branch, but is to be transferred to Dallas, Texas. He was called to Milwaukee early in the week to make arrangements for his departure to Texas.

The yard at the Cleveland-Cliffs Iron company's land office presents a more attractive appearance now than at any previous time this summer. Many flowers are in bloom and the vines have crept from the ground to the roof of the building on the south side, while they are in almost the first story on the north and east sides. The lawn is kept in fine

condition and the display is much admired. Emery Willette has returned from the copper country. He threw out his arm while picking a game of ball a few days ago and he is afraid that he will not be able to resume twirling again. His arm went bad in the eighth inning, up to which time the opposing nine did not have a clean hit off him. He did not realize that his arm had given out until four men had passed on balls. His accident caused his nine to lose the game as up to the eighth the opposing team did not have a run, while his side had five.

TO THE FARMERS. I am prepared to do threshing, also pressing, for farmers in Marquette county. Charges reasonable. Fred Roberts, Negaunee. (8-19-1v)

ACTRESS WEDS INDIAN NOBLE.

Elsie Forrester Marries Maharajah of Tikari According to Hindu Rites. London, Aug. 18.—A romantic story of love at first sight, culminating in the marriage, according to Hindu rites of Miss Elsie Forrester, the well-known Australian actress, to the maharajah of Tikari, who belongs to an old Rajput family in Bengal, has come to light. Following the marriage of Anita Delgado, a beautiful Spanish dancer, of Malaga, to the enormously rich decadent suzerain, the maharajah of Kapurthala, this marriage has caused a sensation in Europe.

Miss Elsie Forrester's real name is Elsie Caroline Thompson, and her father is Mr. James Thompson of Fern street, Ballybrack, Dublin. At one time she was associated with Leo's Entertainment, an American vaudeville company, doing a clever song and dance turn, and had toured extensively in Australia, South Africa and India. Her last appearance in Australia was under Mr. Williamson's management, when Mr. Collier produced 'The Detour'. It was while touring in India that she won the heart of the maharajah of Tikari, with the result that she is now his consort.

At the marriage ceremony in Lucknow the young actress, who was dressed in Eastern costume, wore a beautiful pale blue sari bespangled with gold and a veil fell from the back of her head over her shoulders. For arms, save for gold bangles, were bare to the elbows. She did not appear to be nervous, but smiled pleasantly and replied to those around her. During the water ceremony she was asked questions and responded in Urdu, the language of her husband's people. Three separate times she took a little water in her hand, and after each question put the water to her lips. Next she held a spoon filled with burning oil, steel over a bit, and threw fire on to the sandalwood therein. The fire burned up and she fell with more oil. Some reading of Hindu scriptures followed, and it was then seen that Sri Devi, the new name the convert had received, was looking faint from the intense heat. The ceremony took over an hour. The rain and the new rain, with their guests adjourned to the dining hall, where twenty-five people partook of a sumptuous wedding dinner in true Oriental style.

AVOID THE KNIFE.

Cutting Won't Cure Piles—Internal Treatment Needed.

A gardener doesn't kill weeds by cutting their tops. He attacks at the root, just so with piles—the cause is within entirely out of reach of surgical instruments, ointments or suppositories. The only cure for piles is internal, and the only guaranteed internal remedy is Dr. Leach's Hem-Roid. It has cured 88 per cent of cases, and 24 days' treatment is sold for \$1 at The People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming, under positive guarantee. Or mailed by Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

If you are all run down Foley's Kidney Remedy will help you. It strengthens the kidneys so they will eliminate the impurities from the blood that depress the nerves, and cause exhaustion, backache, rheumatism, and urinary irregularities, which sap the vitality. Do not delay. Take Foley's Kidney Remedy at once. Sold by all Druggists.

METHOD OF CALLING LOCAL OPTION VOTE

ONE-THIRD OF VOTERS MUST PRESENT SUPERVISORS FOR WET OR DRY ELECTION.

DUTY OF COUNTY BOARD

Must Pass Upon Validity of Petitions, Order the Election and Close the Saloons in Case Prohibition Carries.

The movement for a local option election in this county next spring, which has recently been started, makes the provisions of the state law governing such elections of especial interest at this time.

The law provides that the county board of supervisors shall have control of local option elections and shall prohibit the sale and manufacture of liquors after the majority of the voters have expressed themselves in favor of that course.

The signers of such a petition shall be arranged separately, according to wards, townships or voting precincts, in order to make it easy to compare them with the poll lists.

Upon the presentation of the petition asking for a local option election to the county clerk, signed by the requisite number of electors, the county clerk shall lay the petition before the board of supervisors at their next regular or adjourned meeting.

The law provides that the notice of the local option election must be properly advertised and that the votes shall be cast upon a separate ballot, containing the words: "Shall the manufacture and sale of liquors and the liquor traffic be prohibited in this county, Yes or No."

Petitions asking for a local option election are now being circulated in all parts of this county and, if the requisite number of signatures are secured, the supervisors will be asked to order a vote on the question at the spring election.

As the work of circulating these petitions has just begun, it is impossible to state whether or not that number of names will be secured, but those in charge of the work express themselves as well pleased with the results thus far obtained.

WORKED FOR WARREN ISHAM.

W. H. Van Iderstine, Employee of Old Lake Superior Journal.

William H. Van Iderstine, of Newark, N. J., who is visiting his brother, C. C. Van Iderstine in Marquette, was a caller at The Mining Journal office yesterday, and recounted the interesting fact that back in 1858 he was, for a brief time, a humble employee of the old Lake Superior Journal, from which The Mining Journal is a lineal descendant.

WALKED OFF THE DOCK AND WAS DROWNED

"BOB" YOUNG THE VICTIM OF A FATAL ACCIDENT ABOUT MIDNIGHT LAST NIGHT.

"Bob" Young, aged about thirty-five, was drowned at the Pickands dock about 11:45 last evening and his lifeless body was recovered from under the bow of the schooner Chattanogoo about an hour later by the life saving crew.

The life-saving crew was notified and the boat, which was a light house tender, was dispatched with a pole. By that time, a crowd of men had gathered, some of whom remarked that the hat looked like the one Bob Young was wearing.

The life savers arrived within twenty minutes and after dragging the bottom near the bow of the schooner for about a half hour, at last found the body and brought it to shore, where the victim was at once recognized as Mr. Young.

As it was very dark between the boiler house and the edge of the dock, there is no reason to believe that the drowning fatality was other than accidental.

The victim was well known in the city, having spent most of his life here. He was a brother of L. C. Young, the West Washington street house mover, and had recently been employed on the break water repair work.

As the work of circulating these petitions has just begun, it is impossible to state whether or not that number of names will be secured, but those in charge of the work express themselves as well pleased with the results thus far obtained.

MANY IN ATTENDANCE AT MASONS' PICNIC

FAVORED WITH PERFECT WEATHER, COUNTY MEMBERS OF FRATERNITY GREATLY ENJOYED OUTING AT PRESQUE ISLE.

Favored with an ideal day, the first Marquette County Masons' picnic, at Presque Isle yesterday, was successful and enjoyable, even to a degree beyond the most sanguine hopes of those who had planned the event.

The picnickers began to arrive at the island shortly after noon and by 3 o'clock the grounds were literally crowded with them. During the afternoon two ball games were played, the first between members of the Negamue and Marquette lodges, which resulted in a victory for Negamue.

During the afternoon the Ishpeming band gave a concert and at supper time, the tables were arranged in a hollow square on the east side of the island near the breakwater.

Last evening the Ishpeming band furnished music in the pavilion on the island. The picnic was an annual affair, and already plans are under way for the picnic next year.

THEATRICAL

"Three Twins"

The "Three Twins" production, which opened the season of 1909-10 at the opera house last night, proved to be one of the smartest and most elaborate musical comedies that is likely to be presented in Marquette this year.

The cast is headed by Victor Morley, who is an original comedian of high order with a splendid tenor voice. He plays the part of the disfigured twin and in spite of his contorted appearance in the action he never fails to provoke hearty applause and to please.

In the hands of Harry Hanlon, the part of the dyspeptic and testy father is made one of the most amusing of the piece. Eddie P. Bover, in the role of the much tested specialist in nervous diseases, is also equal to the humorous demands of his part.

As Kate Armitage, the girl for whom the third twin disguises himself, she carries all the trouble, Miss Minnie Allen is exceptionally well cast. She has an attractive manner and a splendid voice, which she uses to special advantage in "Cuddle Up a Little Closer, Lovy Mine."

With all its special scenery, gorgeous costumes, bright and catchy specialties, "The Royal Slave" is the attraction at the opera house Monday evening. This piece, which has attained such an enviable reputation and secured such a hold on the hearts of theatergoers from one end of this land to the other, is from the pen of Clarence Bennett, author of the "Holy City," another notable success. Mr. Bennett has located his scenes near the City of Mexico and based the fabric of the play on events which actually occurred during the brief reign of the unfortunate Emperor Maximilian.

The great treasure—the secret of which was so loyally and jealously guarded by El Aguila, (The Eagle), who although a serf, traced his lineage from the royal Montezumas—is founded on fact. The success of this piece has been so phenomenal in America that the firm has decided to present it next year in England.
