

WILD RIOT MARKS EASTERN STRIKE

Works of the Pressed Steel Car Company at Schoenville, Pa., the Scene of a Most Desperate and Bloody Encounter.

Guardians of the Plant and a Frenzied Mob Come Into Collision, and Before the Affray Subsides and Wholesale Arrests Are Made, One State Trooper, One Deputy Sheriff and Three Foreigners Are Killed and Many Persons Are Seriously Wounded.

Pittsburg, Aug. 22.—One state trooper, one deputy sheriff and three foreigners were shot and killed tonight in a wild riot at the Pressed Steel Car plant at Schoenville, the employees of which are on a strike.

At midnight the following partial list of the dead and injured was made up from reports from the morgue, hospital and several physicians' offices:

JOHN L. WELLMAN, state trooper; HARRY EXLER, deputy sheriff. THREE FOREIGNERS. Fatally injured: John C. Smith, state trooper; Lucian Jones, state trooper; seven foreigners, George Kitch and John O'Donnell, state troopers, are seriously injured; one woman was shot in the neck, and several scores of persons received more or less serious injuries.

Mob Is Led by Women. The riot scene is practically indescribable. Mounted state troopers galloped indiscriminately through the streets, with riot maces drawn, cracking the heads of all persons loitering in the vicinity of the mill. Deputy sheriffs and troopers broke into houses suspected of being retreats of the strikers, and wholesale arrests were made. From 9:30 to 11:30 o'clock scores had been arrested and placed in box car jails in the mill yards.

During the early stages of the rioting, women were conspicuous. Some of them were armed, and others effectively used clubs and stones. These women, all foreigners, insane with rage, were mainly responsible for inciting the men to extreme measures. At midnight quiet reigned in the strike zone.

Schoenville had a holiday appearance during the day, thousands of persons visiting the Pressed Steel Car plant. With the exception of the beating of one imported workman, all was quiet, but at 9:30 tonight a mob gathered at the works and attacked the big gates of the stockade.

Deputy Sheriff the First Victim. State troopers and deputies resisted the attack and used riot maces. In the melee, Harry Exler, a deputy sheriff, was shot and instantly killed by a bullet fired, it is said, by a strike sympathizer. In an effort to arrest the man picked out as the shooter, State Trooper Smith was killed by a revolver bullet. Two other troopers on foot also were shot, falling into the arms of comrades, fatally injured.

For the first time since the inception of the strike, the troopers opened a volley fire on the mob. Six of the strikers fell at the first round. The mob then opened fire with rifles. Two mounted troopers dropped from their horses, fatally shot. They were taken to a hospital in a dying condition.

As the ambulance was going from the plant to the hospital, carrying the wounded troopers, the vehicle was attacked and the driver was forced to flee. The frightened ambulance team plunged wildly through the crowd. Two men were trampled under the hoofs. The ambulance was finally driven to the hospital by a detachment of troopers. Afterward the mob was dispersed and wholesale arrests were made.

Ptomaine Poisoning Develops. Ptomaine poisoning is assuming importance in the strike situation. Four men brought from the East to take the place of strikers are in a serious condition and it is stated that many others are under the care of physicians in the company's hospital, suffering from the same malady. The cause of the disease is alleged to be due to tinned goods in the company commissary.

OUTFOUGHT AN OCTOPUS. New York, Aug. 22.—Joseph Lorber and William H. Buckholz, young Baltimoreans, who arrived here today on the Red Cross liner Rosalind, from three months camping out on the shore of Conception Bay, Newfoundland, brought with them a tale of a fight off the Newfoundland coast with a devil fish which only missed drawing Buckholz when he dived through Lorber's diving in and killing the monster. They looked a big horse mackerel from their boat and the fish had pulled Buckholz into the water. Buckholz quickly disappeared. The water nearby was stained a dark brown and Lorber realized that his comrade was in the grasp of a devil fish or octopus. Diving into the brownish water, Lorber swam to the scene, his knife in his hand, and slashed right and left at the grasping tentacles of the giant fish. His thrusts severed several of the grasping arms and the monster let go its hold on Buckholz and disappeared. Buckholz was nearly unconscious from the exhaustion of his struggle with the devil fish, but his companion managed to get him back in safety to the boat. It was found that he had three wounds on arm and shoulder where the big fish had grasped him.

HARRY THAW'S MOTHER REGISTERS A PROTEST.

She Complains Bitterly of Her Son's Treatment at the Matewan Asylum—Privileges Are Denied Him, She Says, and She Charges This Is Due to a Desire for Vengeance.

Mattewan, N. Y., Aug. 22.—Mrs. Mary Copley Thaw, mother of Harry K. Thaw, has issued a public statement criticizing the treatment accorded to her son in the Matewan state hospital since his return to that institution.

That was what I could only have the comforts her son was allowed when he was first sent to the asylum not been restored after his recent return, but that he has been denied the privileges he enjoyed for the eighteen months while in the asylum. Dr. Lamb, superintendent of the hospital, Mrs. Thaw says, when asked the reason for the discrimination of the privileges to Thaw, answered that what had been done for him was not appreciated. "Even the privilege is denied me of giving my son the white of eggs and orange juice prescribed for him by his own and my physicians and which heretofore I have given him each afternoon when I made my visit," asserts the mother.

Mr. Thaw says: "For the first time in these eighteen months they have denied him the privilege of playing the piano. He is still locked up in a bare cell, which I described in court, at 8 o'clock, although other patients, some of whom do not work, are allowed to remain in their cells until nine. Yesterday my son had nothing to eat from 6:15 a. m. to 8:45 p. m., because a lawyer came to see him at noon, the dinner hour. Even the keepers wished to get him something to eat, but Dr. Baker gave special orders they should give him nothing during this eleven and one-half hours of starvation."

"We inquired of Dr. Lamb the reason for the deprivations. He answered that what they had done was not appreciated. To this Harry replied: 'Dr. Lamb, I treated both you and Dr. Baker much better in court than you deserved, as you know, when testifying. So this must be revenge for what my mother said.' Dr. Lamb more than once if he had any further reason except revenge toward me and the desire to entice my son's health so he would not be able to testify next time as he had done when opposed to herons at the late hearing. Dr. Lamb could give no other reason for this infamous conduct."

TO TAKE DRUG FROM INDIANS. Many Tribesmen Using Peyote, Which Has Disastrous Effects. Washington, Aug. 22.—Danger is about to be removed from the Indians in the South and Middle West. It is a little bean known as the peyote, or the mesquite, which has obtained extensive use among some of the tribes. This peyote, which has powerful narcotic properties, brings on a condition of great excitement and content when used by the Indians. It is produced from a cactus that grows in the Southwest, particularly in Texas and Mexico. The Indian bureau has been making some of the tribes aware of the danger of the use of the drug, and although a large portion of the supply has been brought up and the wholesalers have agreed to sell no more to the Indians many traces of it are constantly found on the reservations. Most of the Indians use it until they become entirely unconscious, but a member of the Indian bureau who experimented on himself and did not take a large dose at no time completely lost consciousness and was at all times cognizant of his surroundings. He found that the ordinary dose of the drug is highly intoxicating in intensity and brilliancy, and were extremely pleasant to the senses; that when he closed his eyes a procession of Chinese pagodas, with variegated trimmings, floated around him, pleasing geometrical designs soothed him and peaceful scenes of brilliant plumage drifted over his head. Only one case has been reported to the Indian bureau where an apparently healthy person died from its use. The effect of indulgence lasts longer than in the use of alcohol, the taking of a small amount showing effects thirty-six hours afterward. The mind becomes clear after the vision has departed, but lassitude continues for a long period. The continual use deprives the users of both mental and physical vigor.

NEW THOUGHT IN THE SOUTH. Georgia's Defeat of the Income Tax Raises Many Questions. Washington, Aug. 22.—Just one month ago the income tax amendment to the present resolution passed congress. It has been submitted to the legislatures of three states, Alabama ratified the proposed amendment, Georgia and Connecticut failed to do so. Texas will probably be the next state to act. Connecticut's action represents the extreme position of the capitalistic and business interests toward the income tax question. Does Georgia, it is being asked, reflect for the new South that some element of it is this the beginning of a breaking up of old political ties in the South when politics runs counter to business?

TAFT WORKS ON THE SABBATH. Affairs of State Occupy the President's Time Until Sundown. Beverly, Mass., Aug. 22.—Affairs of state occupied Mr. Taft today until sunset, when the president, with his wife, enjoyed an hour's ride. This morning a long list of pardon cases were considered. This afternoon Mr. Taft considered with Attorney General Wickersham and Secretaries MacVeagh and Meyer the personnel of the new tariff board, changes in the interstate commerce and anti-trust acts and the economic measures instituted in the navy department. For the three tariff board places, more than forty names have been suggested. No definite action was taken today.

ILLINOIS TOWN HAS COSTLY FIRE

Breaking Out in a Hardware Company's Building, a Blaze at Decatur Attains the Proportions of a Conflagration.

Not Until After Fifteen Hours' Hard Work and Until After Many of the Most Important Establishments in the Business District Have Been Destroyed Are the Flames Brought Under Control, the Loss Being Estimated at a Million Dollars.

Decatur, Ills., Aug. 22.—A fire which broke out here at 1 o'clock this morning was not controlled until four this afternoon. The loss is estimated at a million dollars, and the insurance 80 per cent of that amount.

The water here has shut off in the residence districts, the supply in the reservoir being only seven feet. The waterworks company is endeavoring to fill the reservoir by tomorrow. This morning a blaze in the engine room of the Decatur hotel, half a block west of the fire-swept district, caused a panic among the guests, but the flames were soon extinguished.

In response to a call for help, Springfield Assistant Chief Cullen, with an engine and a crew. This gave the city their engines. The department was crippled by falling walls covering several hundred feet of hose.

The following buildings, together with their stocks of goods, were wholly destroyed: Mercantile & Wells Hardware company; Henry Bachrach, clothing; John Spotts, cigar dealer; Sam's confectionery; City Book store; Dick's poolroom; Danzieser's meat market; Peerless Cold Drink parlor; White Front poolroom; Union Pacific Tea company; Munro's Soft Drink parlor; Brinkmeyer's, banking; Rogers & Clark, shoe store; E. H. Cole Shoe company; Spade Lockey, shoe store; Young's clothing store; F. Augustine, optical store; Neely's jewelry store.

Those partly destroyed are: Frank Curtis' art store; E. W. Armstrong, drug store; C. W. Harris, hat store; Post, jewelry store; Elwood & Handlin, clothing; Choda Book store; Ralph & Young, shoe store. The building mentioned faced East Main, Merchant and Water streets. The Mercantile & Wells six-story building, where the fire started, was one of the show places of the city. The firm's loss is complete and is estimated at \$300,000. The other losses range from \$10,000 to \$75,000. The rebuilding of the burned district will begin as soon as the rains cool sufficiently to remove the debris.

The only person injured was Robert Lambard, driver of a hook and ladder truck, who was struck by falling planks.

Lumber Burns at Ashland. Ashland, Wis., Aug. 22.—Between 5,000,000 and 6,000,000 feet of lumber was destroyed by fire yesterday on the docks of the John Schroeder Lumber company. The loss is about \$125,000, fully covered by insurance. In addition the docks were considerably injured and the relative loss on them will be somewhat greater, as they were not so well insured.

British Columbia Town Threatened. Winnipeg, Aug. 22.—The town of Cranbrook, near Fernie, B. C., is threatened with destruction by bush fires. The Great Northern railway bridges have been burned. The fires are still causing great loss elsewhere.

MOSQUITOES INFEST GULF COAST. Men Are Driven From Fields And Cattle Seek Relief in Water. Galveston, Tex., Aug. 22.—A mosquito scourge never before equalled is spreading over the Gulf coast section of Texas, causing actual damage to cattle and other animals. Work in many of the rice fields in the southeast and southwest coast counties has been abandoned because of the myriads of mosquitoes attacking the laborers, whose only protection are boots and thick gloves. Owing to the heat, the workmen can not wear thick clothes, and handkerchiefs around the head and neck are easily pierced by the long-billed mosquitoes.

Thousands of head of cattle sought the gulf and bays and other waterways to get away from the pests. Forced to stand in water neck-deep, the cattle refuse to come out to eat, and unless relief from the mosquitoes comes soon many cattle will die.

Several of the coast line roads are operating their trains without passengers because the mosquitoes in dense clouds literally drove passengers under the seats, notably on the Gulf and Interstate road, which skirts the gulf shore for thirty-five miles. Even on Galveston Island, with a stiff gulf breeze blowing, cattle and horses are suffering, and tons of oil are being used to drive away the large mosquitoes.

THE WEATHER.

Washington, Aug. 22.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, and warmer, Monday; showers, Monday night and Tuesday; light to moderate south and southwest winds.

STEAMER SENATOR BEACHED. Sault Ste. Marie, Mich., Aug. 22.—The steamer Senator was beached today in St. Mary's river opposite DeTour as the result of a collision with the steamer Norman B. Ream. A large hole was stove in the Senator's side. The Ream's stem was twisted. Both boats are downward bound with iron ore.

BASEBALL.

STANDINGS OF THE TEAMS. National League. W. L. P.C. Pittsburgh 28 30 722; Chicago 23 35 676; New York 23 35 676; Cincinnati 24 33 565; Philadelphia 29 30 454; St. Louis 44 63 411; Brooklyn 39 68 364; Boston 28 82 255.

SCHEDULE FOR TODAY. National League. Pittsburgh at Philadelphia. Cincinnati at New York. Chicago at Boston. St. Louis at Brooklyn. American League. Washington at Detroit. Philadelphia at Cleveland. New York at Chicago. Boston at St. Louis.

YESTERDAY'S GAMES. American League. Chicago, Aug. 22.—Four runs in the ninth enabled New York to win. The Chicagoans had two on bases when a double play stopped them. Score: R. H. E. Chicago 000003011-5 6 2; New York 02000004-6 10 2. Batteries: Walsh, Smith and Sullivan; Hughes, Warshop and Sweeney.

St. Louis, Aug. 22.—The locals' atrocious fielding and indifferent pitching gave Boston an easy victory. Score: R. H. E. St. Louis 002000010-3 10 5; Boston 103410000-9 12 1. Batteries: Graham, Polty, Powell and Criger; Wood and Donahue.

Detroit, Aug. 22.—Cobb won today's game, being the only Detroit player who could hit Johnson with men on bases. Score: R. H. E. Detroit 001000200-3 12 0; Washington 000001000-1 4 3. Batteries: Mullin and Schmidt; Johnson and Street.

American Association. Louisville 2; Indianapolis 1. Second game: Louisville 1; Indianapolis 2. Toledo 2; Columbus 5. Minneapolis 4; St. Paul, 3. Kansas City 3; Milwaukee, 6.

Western League. Denver 1; Des Moines 3. Denver 9; Des Moines 2. Wichita 7; Sioux City, 8. Topeka 2; Lincoln, 5. Second game: Topeka 11; Lincoln 1. Pueblo 1; Omaha 12. Second game: Pueblo 10; Omaha 2.

SATURDAY'S GAMES. National League. Chicago, 8; Boston, 3. Second game: Chicago 3; Boston 2. Brooklyn 1; St. Louis, 0. Second game: Brooklyn 6; St. Louis 3. Philadelphia 6; Pittsburgh 5. New York 1; Cincinnati, 0.

American League. Boston 6; St. Louis, 0. Philadelphia 10; Cleveland, 6. Detroit 9; Washington, 7. Chicago, 5; New York, 4. American Association. Kansas City 1; Milwaukee, 0. St. Paul 9; Minneapolis 3. Toledo 6; Columbus 0. Louisville 5; Indianapolis 1.

LAJOIE'S SUCCESSOR. Cleveland, Aug. 22.—James McGuire has been appointed manager of the Cleveland American baseball team, to succeed Napoleon Lajoie, recently resigned. McGuire was formerly manager of the Boston Americans. For the past year he has been doing scout duty for the Cleveland team.

WOMAN AND CHILD SLAIN. Granite City, Ills., Aug. 22.—The bodies of the woman and child murdered here yesterday were identified tonight as those of the wife and daughter of Steve Pague, an East St. Louis stock yard laborer. Pague is missing and is suspected in connection with the crime.

MOTOR RACE TRACK DEATH'S SPEEDWAY

Another Shocking Fatality Occurring, the Toll in Human Lives Taken During the Week at Indianapolis Is Raised to Seven.

Most Disastrous Accident of the Series Comes When a Car Crashes Through a Fence and Three Persons Pay the Penalty—A Detroit Girl, a Bride of Two Months, Is a Victim at Milwaukee, and Two Chicago Men Are Killed in the East.

Indianapolis, Ind., Aug. 22.—Three more lives have been sacrificed in the speed carnival which has inaugurated the Indianapolis motor speedway. Yesterday a mechanic and two spectators paid the penalty with their lives in satisfying the mad desire for speed.

The fatal accident came at the National car driven by Charles Merz, lost a tire in the 300-mile race and crashed through the fence into a group of spectators. The dead were: CLAUD KELLUM, Indianapolis, mechanic of the car; ORE POLJEFF, Trafalgar, Ind.; JAMES WEST, Indianapolis.

Besides the three deaths, two serious injuries resulted during the day. Henry Tapping of Indianapolis sustained a compound fracture of the right arm, a broken nose and several scalp wounds. Bruce Keen, driver of a Marmon car in the 200-mile race, crashed into a road shortly after the National was wrecked, and was badly cut about the neck and head.

After the second accident, the officials decided to call off the 300-mile race when the leading car, a Jackson, had covered 235 miles. A Fiat was second, and a Marmon third. The race will be declared no contest and the trophy will be raced for again.

Merz's Marvelous Escape. By a strange feat of fortune Merz escaped with hardly a scratch. He fell under the car when it turned a somersault and went down into a gully near the side of the track. He was in imminent danger of being burned to death, but, by some miracle, he was able to shut off the engine and thus save himself from a horrible death.

The three deaths yesterday raise the toll of the speedway to seven lives for the week. William A. Bourque and his mechanic, Harry Holcombe, of the Knox racing team, were killed in an accident in the 250-mile race Thursday; Cliff Litteral, a Stoddard-Dayton mechanic, was killed by being hit by a machine while on the way out to the speedway, and Elmer Grampton, a six-year-old boy, was killed by an automobile of Dr. E. Day, of this city, while the latter was on his way to the speedway for the first day's races.

The smash yesterday came after Merz had finished more than 300 miles. He was running fifth in the race at the time. The tire on the right side of the front wheel came off and the car tore away from the control of the driver. It crashed through the fence near the foot of the grandstand, and the driver and passengers were hurled into the gully, turning a complete somersault before it reached the ground ten feet below.

Kellum was thrown into the water and was bleeding from innumerable injuries when he was picked up. Great gasps were heard in his abdomen and head. He lived for some time, without regaining consciousness. James West was instantly killed and Jolleff died as he was being lifted into an ambulance. Tapping, it is believed, has a fair chance of recovery.

Despite the tragedy, the six cars left in the race continued the trying ordeal. Then came the accident of Bruce Keefe, in the Marmon car, and after that the officials decided that enough had been sacrificed for the sake of speed and that every man in the race was in danger of suffering a like fate because of the many ruts and holes in the track.

TRAIN COLLIDES WITH AUTO. Mrs. Harry Pawling, Formerly of Detroit, Is Killed Near Milwaukee. Milwaukee, Wis., Aug. 22.—Mrs. Harry Pawling was killed and her husband and Frank Lilly of Detroit, a friend, were injured yesterday afternoon at 5:30 o'clock when a Milwaukee road train struck their automobile at Forest crossing on the Watertown plank road, three miles east of Waukesha, and hurled the occupants through a milk house wall.

The train was immediately stopped. The injured were taken aboard and rushed to Emergency hospital, Waukesha, where they were held until Mrs. Pawling died without regaining consciousness. She was married to Mr. Pawling scarcely two months ago. The party of four were enroute to Mr. Pawling's summer home at Pewaukee lake, to which they drove daily.

Robert Pawling and Mr. Lilly sat in the front seat and Mrs. Pawling and her husband occupied the rear. As they approached the crossing, according to the story by persons at the Half-Way house, nearly, none heard any train signal. They were going at a moderate rate of speed and had evidently just got on the tracks when they saw the huge front of the fast-approaching locomotive bearing down on them. All screamed with terror; the driver threw the speed lever to the highest notch, but it was too late. Like a demon, the locomotive struck the automobile, breaking it into bits, and the occupants were hurled through the air.

WELLMAN LOSES HIS BIG BALLOON

Second Daring Attempt of the Chicago Journalist to Reach the North Pole via the Aerial Route Results in Failure.

All Is Well and the Ship Is Thirty-Two Miles on Its Journey—When Suddenly a Serious Mishap Occurs and the Navigators Narrowly Escape Disaster—Then the Gas Bay Explodes, and Further Sailing This Year Is Made Impossible.

Camp Wellman, Spitzbergen, Aug. 15, via Hammerfest, Norway, Aug. 22.—Walter Wellman's second attempt to sail over the North pole in a balloon has resulted in failure. The balloon America, in which Wellman and his party set out upon their perilous flight, today met with a mishap after it had proceeded twenty-two miles from the starting point. All succeeded in landing without injury to themselves and returned to this point on board the steamer Fram, which also towed in the disabled balloon.

Wellman decided early in the morning to make a start and at 10 o'clock the airship was brought out of its shed and the explorers took their crew. When the anchors were cast loose, the airship ascended beautifully, the engines were set in motion and everything seemed to work to perfection. The craft was maneuvered for some time, and obeyed her helm perfectly. She was turned northward and she set out of a speed of twenty-five miles an hour.

Guide Rope Breaks. Suddenly, after having covered thirty-two miles, the airship shot upwards at a steep angle, and it was seen that the guide rope, to which was attached a thousand pounds of provisions and stores, broke away. The accident occurred just as the airship was nearing a pack of ice off north Spitzbergen. Released from this weight, the airship shot upwards at a terrific pace until it was above the clouds. The pilots succeeded, however, in bringing her down near the earth, turned her about, and set out to fight their way southward against a strong wind.

The airship proceeded slowly southward to the edge of the ice pack, where the steamer Fram was anchored. After much difficulty, a tow rope was gotten aboard the Fram, which started immediately to tow the airship to Spitzbergen. The strain was so great, however, that it threatened to tear the airship to pieces, and Mr. Wellman finally decided to bring the airship down. This was effected without mishap and the car rested on the surface of the water until all the crew, the dogs and the scientific instruments could be transferred aboard the Fram. A fresh start was then made and the America was towed back to a landing stage within a short distance of where the start was made.

Big Gas Bag Explodes. But the ill luck of the expedition was not yet at an end. Just as the airship had reached the landing stage and everything looked favorable for its rescue without serious damage, a sudden gust of wind caught the big gas bag and snatched it away from its tow lines. It was carried careening over the rough ice hummocks for some distance and then exploded. All the scattered parts of the airship were subsequently recovered but the damage was so great as to preclude any further attempt to fly over the pole this year.

Camp Wellman, Spitzbergen, Aug. 16, via Hammerfest, Aug. 22.—Walter Wellman has issued a statement in regard to his unsuccessful attempt of yesterday to sail over the North pole, in which he declares that "had the guide rope broken, we had an excellent chance of reaching the pole." He says: "In returning to Spitzbergen we made a mistake in not placing enough confidence in our own ship and engines. Had we not, through over-caution, given a tow line to the Fram, I believe we could have landed the America safe in her home."

The motor worked uncertainly because the equilibrium of the ship had been upset and thus deranged the gasoline supply. This led to the unfortunate decision to try towing. Had the ship not broken up while landing we would have tried another voyage in a month."

Mr. Wellman still expresses confidence in the eventual success of his enterprise. Plans to Build a Bigger Ship. Mr. Wellman announced that he is more determined than ever to continue to wrestle with all the difficulties in the way of reaching the North pole by airship. He plans to build a new ship, longer, narrower and speedier than the one which met disaster.

Workmen this morning started enlarging the airship house, making ready for another campaign. All the members of the crew are confident of the ultimate success of Wellman's enterprise.

FREAK CORN TASSEL FOUND. Rushville, Ind., Aug. 22.—A freak corn tassel taken from the farm of Fred Catt, near Arlington, was brought here today. The tassel is a bunch of green foliage about fourteen inches in length and eight inches thick. The top of the bunch was similar in shape and color to that of the common tassel. Several smaller tassels were in the bunch. There were small, green shoots, in which grains of corn were forming. Each grain had a separate husk and stalk and silks were forming about the grain.

IS CRUSHED TO DEATH. Pittsburg, Aug. 22.—Trying to save his wife and child, W. C. Cleburn of Conaopolis, Pa., was crushed to death today when a switch engine at Neville Island overturned a trolley car laden with pleasure seekers. Mrs. Edward Wood of Youngstown was seriously injured.

Denver Woman's Injures Fatal. Chicago, Aug. 22.—Mrs. Mattie P. Robinson of Denver, who was injured in an automobile accident here Tuesday night, died tonight.

COMMON VOTES TO ASSESS LAND VALUES. After One of the Most Strenuous Struggles in the History of Parliament There Is Adopted a Proposition Which Will Fairly Revolutionize the System of Taxation in England. London, Aug. 22.—After an all-night sitting the house of commons has passed through the committee of the whole those clauses of the budget imposing a tax on land values.

Copper Country

GOOD SHIP YANTIC RETURNS.

Hancock and Escanaba Naval Reserves Home from the Cruise.

With much blowing of whistles and flouting of flags, the U. S. S. Yantic arrived in Portage Lake yesterday, returning from the annual cruise of the joint naval brigades of the great lakes.

Yantic to Be Transferred

The U. S. S. Gopher, with the Minnesota Naval Brigade aboard, arrived in Houghton Saturday morning. It was in command of Commander Guy A. Eaton and had about 150 officers and men all members of the Duluth divisions.

"JIM" MULLENBACH'S RAISE.

Former Calumet Boy a Power in Charity Work in Chicago.

The Chicago Evening Post of recent date had the following concerning a former Calumet boy: "James Mullenbach, former superintendent of municipal lodging-houses, was today appointed assistant superintendent of the United Charities."

"Jim" Mullenbach is well known to many Calumet people. His first work was for the late James Little on the township roads during school vacations. He was graduated from the high school of Calumet in 1886 and worked for the Calumet & Hecla company in various capacities from 1886 to 1893.

A HURONTOWN HOLDUP.

Matt Koenen of the Hill Location Meets a Footpad.

Matt Koenen, a well-known resident of Hurontown, was held up by an unknown man shortly after midnight Saturday morning, while he was returning from Laurium, where he had been attending the firemen's tournament.

PROPHY SEEMS SURE NOW.

Calumet & Hecla Cricket Team Has Big Lead in Championship Race.

The Calumet & Hecla team defeated the Mohawk cricket aggregation in one of the closest and most sensational games of the season Saturday. It won by the score of 74 to 69.

"TAL" GOODELL ELIMINATED.

"Tal" Goodell, the Houghton man who has been contesting at Duluth for the Minnesota state golf championship, fighting under the colors of the Northland Country club, died in the last ditch. He was eliminated in the semi final by Dr. M. B. Cullum on Friday.

use would not have presented the opportunity had not President Roosevelt, in the last day of his term of office, issued an executive order extending the boundaries of the forest reserves in northern Alaska. This order served to place between one thousand and two thousand acres of the Cunningham tract within the jurisdiction of Forester Pinchot. It was in this way that the interior department and the forest service got their lines crossed.

Three Western senators have strongly protested to the secretary of the interior, according to the whispering gossamer of the Washington states, that they believe that Mr. Ballinger was committing too much haste in the disposition of the Cunningham claims for the good of the government's interests.

ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS. BRANCH OFFICES: Marquette, Calumet, Houghton, Duluth, Milwaukee, Butte, Great Falls. Marquette Office, W. H. Schweitzer, Resident Manager. We solicit your stock business. Our daily quotation sheet and market letter sent for the asking. Office open from 7:30 a. m. to 8 p. m.

THE HOUSEHOLD IMP. Only by His Existence Can Many Strange Things Be Explained. There seems to be no other explanation of the many mysterious happenings that may be observed in every household but that supernatural agency is at work.

THE VAMPIRE. Our grandfathers in their little-boy days reading in old-fashioned geographies of tropical forests and savage beasts, found descriptions of lions, tigers and crocodiles cheerfully exciting; but more than one shivering youngster, at the dread moment of blowing out his chamber candle, wished he had never heard of that uncanny and haunting monster, the vampire, which called it a victim to his very home and bed, and in the darkness silently led him to death as he slept.

COOKING IN GERMANY. The teaching of cooking is a science in Germany, as is everything else in that Teutonic empire. Travelling cooking schools are now sent about, for the purpose of instructing peasants how to cook cheaply and well.

AFTER DOCTORS FAILED Lydia E. Pinkham's Vegetable Compound Cured Her. I suffered untold agony from female troubles, causing backache, irregularities, dizziness and nervous prostration. It was impossible for me to walk up stairs without stopping on the way. I tried three different doctors and each told me something different. I received no benefit from any of them. The last doctor said nothing would restore my health but Lydia E. Pinkham's Vegetable Compound to see what it would do, and I am restored to my natural health.

CARING FOR THE TEETH. It would surprise many women who consider themselves hygienic in the care of their teeth to know that they are not. Cleaning the teeth three times a day is of little avail if it is not done correctly.

DRILLING AT NEW ARCADIAN. The diamond drill exploration of the lands of the New Arcadian Copper company, which has taken over the old Arcadian mine, on the north side of Portage Lake, adjoining the Franklin, was begun Saturday under the direction of Chief Operator Quantz of Houghton.

CALUMET & ARIZONA. Throughout the Calumet & Arizona properties no work of unusual interest is in hand except the extension of the drifts at the 500-foot and 600-foot levels of the new Powell shaft at Bisbee and the development of the company's recently acquired property in the Cortland district.

GAY STATION IS DESTROYED. The Mineral Range railroad station at Gay has been destroyed by fire, the origin of which is unknown. The loss is small, however, as the depot had been made over from two old Calumet & Hancock narrow gauge freight cars, placed end to end, with the connecting track, and was very limited.

ATLANTIC ANNIVERSARY. The thirty-fifth year of the Atlantic M. E. church was celebrated yesterday with an elaborate program. The Rev. J. M. Stephens, a pastor many years ago, and

Advertisement for Lydia E. Pinkham's Vegetable Compound, detailing its benefits for various ailments and providing contact information for the manufacturer.

Artistic Monuments
COST NO MORE THAN
PLAIN ONES IN
WHITE BRONZE
Marble is entirely out of date. Granite
soon gets moss-grown, discolored, requires
constant expense and care, and eventually
crumbles back to Mother Earth. Bronze,
it is very expensive. **WHITE BRONZE** is
strictly everlasting. It cannot crumble
or fade. It is an impossibility. It is more artistic than any stone. The
why not investigate it? It has been adopted for over one hundred public monuments, and by thou-
sands of delighted customers in all parts of the country. It has been on the market over 25 years and
is an established success. Many granite dealers have bought White Bronze for their own burial
plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if
you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will
be pleased to call with designs and samples of White Bronze.

City Brevities

Today's weather: Fair; stationary temperature. Yesterday's temperatures: Seven a. m., 63 degrees; noon, 72; 7 p. m., 65; maximum, 73 degrees; minimum, 62.

Alfred Baudin left Saturday to visit with friends in Lowell, Mass.

St. Agnes court, No. 10, W. C. O. E., will meet this evening at Keough's Hall.

H. H. Williams returned Saturday from his western trip, coming from Duluth by boat.

Mrs. C. M. Rorer returned to her home in Kenton, O., last evening, after visiting with Mrs. F. W. Read.

"A Royal Slave," a play well known to local theatergoers, will be the attraction at the opera house this evening.

K. S. Baker was in the copper country the latter part of last week, investigating the telephone troubles in that locality.

Miss Ella Stafford, of Independence, Ia., and Mrs. M. J. Stafford and daughter of Omaha are visiting Mr. and Mrs. H. P. Stafford, of Fisher street.

Superior live, No. 217, L. O. T. M. M., will have a special meeting tonight at 8 o'clock at Fraternity Hall. All members are requested to be present.

W. H. Van Iderstine, of Newark, N. J., who visited his brother, C. C. Van Iderstine, and family, in the city last week, has returned to his home.

The members of the Women's Relief corps are requested to meet at Keough's Hall this afternoon at 2:30, as business of importance is to be transacted.

Mr. and Mrs. Arthur Bohan of Chicago, who have been spending the past two weeks in Marquette and at Grand Island, left for their homes last evening.

Mr. and Mrs. A. B. Eldredge arrived home yesterday morning from a several weeks' trip in the West in the course of which they visited the Seattle exposition.

Mr. and Mrs. D. Meads, of Calumet, spent a few days in the city last week, visiting Alfred Meads and his brother, Henry, who was visiting him. Mrs. Meads is still here, visiting relatives and friends.

A special meeting of Busy Queen live, L. O. T. M. M., will be held at Keough's Hall at 2 o'clock this afternoon, at which Deputy Postmaster, C. G. Gilbert will be present and give instruction in the work of the lodge.

Henry Meads, who has been visiting his brother Alfred and family, in this city, has returned to his home in Platte City, Mo. This is the first time that the brothers have seen each other in twenty-eight years. Henry Meads was formerly in business in Ontonagon.

Rivals Won at Prison—The Rivals defeated the juvenile team at the prison yesterday forenoon by the score of 7 to 5, in a hotly played game. LaFave and Nault were the battery for the Rivals and Sills and Wagner for the prison.

Has Been Postponed—The ball game for the benefit of the Visiting Nurse association, which was to have been played Tuesday between teams picked from the streets and the streets, on one side, and the clothing and dry goods men on the other, has been postponed until a later date, as some of the merchants did not feel that they could close their places of business for a half day, just at this time of the year.

A Thrilling Spectacle—A very peculiar accident, happened yesterday, one of the thrilling scenes in "Ben's Kid," an interesting moving picture which will be shown at the Bijou this afternoon and evening for the last time. A band of cowboys were taring down the line after the villain, when one of the horses stumbled and fell, turning a complete somersault, and carrying its rider over with it. Apparently both escape unharmed.

Passed Away Sunday—Mrs. Freda Schwenke, of 216 West Ridge street, passed away at St. Luke's hospital Sunday morning shortly before 4 o'clock. She was born in Brandenburg, Germany, in 1836, and had lived in Marquette for fifteen years. Besides her husband, she leaves five children, Eddie, Emma, Otto, Gertrude and Albert, and a father, mother, and sister, who live in Youngstown, O. The funeral will be held Wednesday afternoon at 2:30 o'clock, from the German Lutheran church.

Arrested in Marquette—Mike Gorman, of Muskegon, was arrested in Marquette Saturday, and was returned to Alger county yesterday by Sheriff Conroy, where he is wanted for obtaining money under false pretenses. It is stated that Gorman has been working for the Alger county road commission, and that he was paid for his work by one of the foremen, and later collected his wages a second time from the road commission, claiming that he had not been previously paid.

To New York Cheap—Marquette people who desire to go to New York city may now make the trip at comparatively little cost, owing to the low rates made by the New York Central lines. The round trip fare from Marquette is \$44.00, via any route to Chicago and from there via Lake Shore & Michigan southern railway, or \$42.75 via any route to Chicago and from there via Michigan Central lines. Stop overs at Niagara Falls may be obtained without extra charge, and tickets are good on Great Lakes and Hudson river boats.

With the Ore Boats—At the South Shore docks, the following boats cleared Saturday and Sunday: Bartow, Cleveland; Mesala, Cleveland; Peadonno, White, Ashtabula; Brower, Buffalo; Western Star, Cleveland. The Chattanooga and Ireland are loading at the dock. A small force is now being employed at the South Shore docks tonight, to facilitate the unloading of cars, which are in great demand at the mines. At the L. S. & I. dock, the Brazil cleared for Ashtabula and the Wade for Cleveland. The Peter White, Aurora, Bradford and Bailey are now at the dock.

All Report Fine Time—The members of the Live, Joyous and others who attended the tournament at Laurium last week report an enjoyable sojourn in the copper country and speak highly of the reception given them. An immense crowd was in attendance and there was something being done every minute. Our boys' band made a very favorable impression, a juvenile musical organization being a new thing in the copper country, and it was given many enthusiastic ovations. Director Klumert stated last night that he had received a flattering offer to start a boys' band in the copper

Country, but that he probably would remain here.

Milkmen Establish Boycott—In view of the milk ordinance now with the committee on ordinances and rules of the common council, forbidding the sale of milk from cows which have not successfully undergone the tuberculin test, the milk war at Lorain, O., is of especial interest. The city has just passed an ordinance permitting the sale of milk from tested cows only, and the milkmen have retaliated by refusing to furnish milk at all, with the result that many of the residents of the city have been compelled to do without milk of cream for several days. It is said that the trouble has now turned into a quarrel between the health department and the council. A Marquette milkman stated recently that there were not enough tested cattle in the vicinity of this city to anywhere near supply the demand, and that a milk famine would result if the ordinance were to pass in its present form.

INSURE WITH PETER WHITE & CO.
MAYOR ROSE TO SPEAK.
Has Been Secured to Deliver Address at County Fair at Escanaba.

The committee on arrangements for the Delta county fair and farmers' picnic to be held at Escanaba Friday and Saturday of this week, has engaged Mayor Rose of Milwaukee, one of the best known public men in the west, to give the principal address, on Friday, the opening day. Mayor Rose has lately been in the limelight as a debater opposed to President Dickie of Albion college, in a discussion of the liquor question, Mayor Rose taking the west side. However, his address at Escanaba will avoid this much discussed question, and will be on a theme of general interest. The Escanaba committee has arranged an excellent program for the two days, and is looking forward to a large influx of visitors. Delta county has no regularly organized agricultural association, but it is regarded as likely that the proposed fair and picnic will lead to one being formed.

SOO CANAL PASSAGES.
Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Aug. 22.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Argo, Murphy, 9; Alfred Mitchell, 9:30 p. m.; Siemens, 10; Etlenboro, Marcia, midnight; Polynesia, 1 a. m.; Pellet, Ball, 2; Philip Minch, Rezin, 2:30; Chap, Nell, 4; Corry, 4:30; Woodruff, Calmet, Nelson, Manda, 7; Norton, 7:30; Sultana, Sierra, 9; Frick, Shaw, Maida, Ralph, Pioneer, 11; Assiniboia, Amasa Stone, Andaste, noon; Dan Hanna, Nye, Huron, 1:30 p. m.; Columbia, 4; Gary, Grear, Moore, Saxona, 5; George, Peavesy, Turret, Cape, 5:30; Morgan, Sheadle, 6:30; Alex Thompson, Samuel Morse, 7; Superior City, 8.

BLOWN ABOUT IN INDIAN OCEAN.
Big Steamer Queen Mary, from Calcutta, Was Like Chip in Turbulent Waters.

Boston, Mass., Aug. 22.—The steamship Queen Mary, came into port this morning from Calcutta and Colombo and her captain and officers told with ready tongue of trying experiences which the steamer went through while crossing the Indian Ocean. All during the time that the ship was in that body of water gales blew and made the sea run so that the big steamer might just as well have been a log boat, it was tossed about so easily. Waves washed continually about the bulwarks and threw themselves on the decks in such a manner as to give the appearance that the ship was submerged to the level of her bulwarks. Hatches were rarely in sight and great quantities of water poured through the ports. Gales about sea pipes were torn off; two ports, one on the port side, forward, and the other on the starboard side aft, were ripped out; derricks were so loosened that in order to retain them they had to be lashed to ringbolts in the deck and everything of movable nature on the decks was swept away by the flood of water that continually washed the steamer from stem to stern. After passing out of the turbulent waters, however, conditions changed so that officers and crew, eighteen Chinamen and seven Japanese, except for a light gale or two on the Atlantic, had things comparatively easy. But it was well, for all of them were worn out after the ordeal. A measurement cargo of about 3,000 tons was brought by the steamer and comprised limes, gunnies, tea, shellac and rubber. A new crew, David Anderson, twenty years old, worked his way from Port Said, where he had been stranded, he appealed to the American consul at that place for aid to reach this country, and said that he had been told that there were good opportunities for negroes at Alexandria, Egypt and that he had saved enough to take passage there. Arriving there he found conditions disappointing, and being without funds he worked his transport to Port Said. As he was born in Mendon, Scotland, the box was allowed to land by immigration officials. He said he intended going to Cleveland, O., where he formerly worked in a hotel.

Baraga Cafe and Restaurant, Dinner 25 cents. Best meal for the money in Marquette. (8-29-1f)

KELLY HARDWARE CO.

L. D. HECKMAN
A Former Student of the Ferguson Business College.

Mr. Heckman took a course in the night school of the Ferguson Business College in 1907. In September, 1908, he was placed in charge of the Ferguson Business College at Ironwood. His work at Ironwood was very satisfactory to all concerned, and at the close of the year he was offered a higher salary to stay another year. He, however, received a better offer from the Port Arthur Business College at Port Arthur, Texas, and accepted. He will now receive a salary more than double the amount he received when he entered the Ferguson Business College less than two years ago. He has secured an excellent position with an endowed school. Mr. Heckman highly recommends the Ferguson Business College. What this school has done for Mr. Heckman it can do for any ambitious young man who is willing to work earnestly. In future issues of this paper we will tell you about other successful young men and young women who have got their start in life by attending the

Ferguson Business College.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York Saturday telegraphed as follows:

Important covering occurred during the day's session, resulting in sharp recoveries throughout the list. The buying was for the most part in the nature of evening up together with replacement on a moderate scale.

The final quotations follow: Amalgamated, 85 3/4; M. K. & T., 41 1/2; Anaconda, 49; Reading, 100 1/2; Am. Smelter, 59 1/2; Steel, 77 1/2; C. & P., 45; Fed., 125; C. & O., 81 1/4; St. Paul, 150; Erie, 62; Pac. Co., 114 1/2; Kan. C. So., 208 1/2; Mo. Pacific, 29 1/2; Union Pacific, 97 1/2.

Writing from Boston Saturday, Paine, Webber & Co. had the following to say of the stock market: "North Butte continued reasonably strong today. Traders are all bullish on the stock and predict 45 for it next week."

Closing prices were: Adv., 7 5/8; Wyan., 25 3/4; Arc., 4 3/4; Wolverine, 153 1/2; All., 11 1/2; Winton, 6 1/2; Ad., 11 1/2; A. & M., 154 1/2; A. Com., 43 1/2; Alameda, 110 1/2; A. C. Co., 22 1/2; A. M. S., 110 1/2; B. Com., 104 1/2; B. H., 8 1/2; B. & H., 8 1/2; C. & A., 104 1/2; C. & H., 68 1/2; C. & N., 82 1/2; C. & W., 82 1/2; D. West., 82 1/2; E. B., 11 1/2; E. C., 104 1/2; E. HIGH AND LOW PRICES.

Paine, Webber & Co. furnish The Mining Journal with the following "high and low" prices of copper stocks for the week ending Saturday:

Table with columns for stock names and prices. Includes Adventure, Arctic, Atlantic, Butte, Boston Cons, B. Corbin, Cal. & Ariz., Centennial, Cop. Range, Daly West, East Butte, Franklin, Green, Granby, Grouse, Hancock, Helvetic, Isle Royale, Laska, Lake, Mass., Miami, Michigan, Mohawk, North Lake, North Butte, Nipissing, Old Dominion, Osceola, Parrot, Quincy, Sup. & Boston, Shannon, Superior, Sup. & Pitts., Trinity, Tamarack, U.S. S. & R., Utah, Victoria, Wyandott, Wolverine, Winona.

TO HANG MAN AT SHOW.

Live One Will Take Place of Dummy at Cheyenne (Wyo.) Festivities. Cheyenne, Wyo., Aug. 22.—The stringest feature of the annual Frontier day shows held here is their realism, and in this regard this year's program will go its predecessors one better, with the hanging of a real man as a daily performance during the four days of wild western sports.

The violent course for the prevention of violence utilized by the vigilantes of the early days of the West have been reenacted at previous Frontier days, but always with a dummy man as the object to which summary punishment was dealt. But this year the citizens' committee has discovered a bull-necked, thick-skinned individual who for adequate compensation is willing to act as the subject of vigilantes' vengeance and to be hung by the neck four times while celebration is in progress.

GEORGIA NEGRO NOT LYNCHED.

McRae, Ga., Aug. 22.—Henry Taylor, the negro charged with the murder of Mrs. Josh Vickery and her infant at Lumpkins Ferry, was not lynched, but is in jail here, as are Josh Vickery, the husband of the unfortunate woman, and Sambo Robinson, a cousin of Mrs. Vickery. When the negro was brought to the scene of the murder, the feeling was high against him and a rope was tied around his neck. He was told to confess, and he stoutly declared his innocence, and the people believed him, after an investigation. Vickery and Robinson are

being held on account of alleged conflicting statements they have made.

STILL AFTER HOUSE RULES.

Many of the Members Will Continue the Campaign. Declare Old Plan Prevented Revision Downward and That the Payne Bill Is Not Really a Republican Tariff—Say Too Many Democrats Had Part in Measure

Washington, Aug. 22.—That the present house rules are the failure to overhaul them and the lack of success of downward revisionists in their efforts to get tariff rates reduced, are all closely connected, is the argument made much of by many members of the house who are opposed to the existing rules. They are talking doctrine of this sort plainly, and there is not much doubt they are strengthening the opposition to the house rules in those parts of the country where there is dissatisfaction with the new tariff measure.

An instance of the arguments made that the rules question and tariff revision were inextricably bound together is seen in the speech which Representative Haughen of Iowa has just had inserted in the Record. Mr. Haughen is a staunch Republican, though an insurgent. He says the tariff measure cannot be called Republican and that he knows it is merely the result of trading and combination.

Will Build Fine Summer Home—John March, the well-known Iron Mountain contractor, has concluded a deal for the purchase of A. E. Robbins' home on North Lake at Superior, Wis. The tract contains about five acres and is beautifully located for a summer home. The consideration was \$2,000. Mr. Robbins retains ownership in the cottage and other buildings and will receive the sum of \$1,000. Mr. March, it is learned, will expend \$5,000 in the erection of a summer home and other improvements.

NAVY PLANS AERIAL FLEET.

Bids to Be Asked for Two Aeroplanes, if Meyer Approves. FOR USE ON SCOUT CRUISERS

Machines Proposed Must Go Forty Miles an Hour and Raise for or Land on Water.

Washington, Aug. 22.—If Secretary Meyer approves, the navy department will shortly advertise for bids for two aeroplanes, which will form the nucleus of the navy's aerial squad. The department's plans have gone no further than to frame specifications for the two aeroplanes, but back of it all there is the general plan, as yet not completely formulated, of laying an aerial fleet, with the possibility that in the future every warship shall be equipped with an aeroplane.

The navy specifications for aeroplanes will be more difficult to fulfill than those which the Wright brothers recently met for the war department. The navy will require an aeroplane which will rise from or land safely in the water. It will be required to remain in the air for four hours, carrying two passengers, and have a speed of forty miles an hour.

Experts Look to Future.

The experts of the navy department see a wonderful future in the use of aeroplanes in the navy, and it is a new department of naval warfare which will henceforth receive a great deal of attention. The two aeroplanes which the experts now have in mind will be used for scouting purposes only, and there will be no specification in the contract about carrying guns or ammunition.

The time of four hours is fixed because that is the length of a vessel on shipboard and is a unit of time at sea. With the airship going at the rate of fifty miles an hour, a total distance of 100 miles could be traversed. An airship would be particularly valuable in scouting for submarines.

The Wright aeroplane as it is now constructed without any thought or plan of use on water would float, according to Wilbur Wright, an appreciable length of time.

CONTROVERSY OVER NAVY COAL.

American Dealers Protest Against Purchase of Foreign Product.

Washington, Aug. 22.—American dealers in domestic coal have complained to the President that the navy department is making

"UNCLE SAM" AUCTIONEER AT GOVERNMENT SALE OF SEIZED GOODS

MANAGER OF "A ROYAL SLAVE" ON HAND

(From the World)

UNCLE SAM THE GIRL BEHIND THE COUNTER

Shows the Dear Ladies Finery at Auction And Dates Say "Hands Off!"

A crowd of about 2,000 women and a few brave men attended Uncle Sam's public view of the smuggled costumes of trunk No. 1, the "sleeper," marked "19-2-072," in the Custom House yesterday. It's a wonder there was any semblance of order and arrangement in the display after the reception was over. The women who fought for position were in many cases handsomely gowned, surveying the finery through lorgnettes. Some were accompanied by secretaries, who made copious notes.

(From the Telegraph)

"PERFECT DREAMS" AT BARGAIN PRICES

Uncle Sam takes in \$5,367 at the Third Day's Sale of Seized Goods.

The third day's auction of smuggled costumes in the Custom House totaled \$5,367.50. A show manager was the heaviest buyer. The highest priced article was No. 97, a three piece tulle and violet gown that was knocked down for \$150.00 to Mr. Geo. H. Babbs, who, it is said, was buying for his Leading Lady, who will wear it during the third act of "A Royal Slave." The gown was worth about \$450.00. Gowns averaged \$75.00 or \$80.00.

Note—All of the above Paris gowns bought by Manager Babbs will be worn by the different ladies during the farewell performance of "A Royal Slave." After deciding to give our thousands of friends in the Middle West a new French play next season, we have selected from all our various companies the very best talent, and can guarantee the production of "A Royal Slave" this season the best that ever went on tour—a fine new production in the way of scenery and electrical effects; in fact, the entire five acts are called, using no opera house scenery. All the wonderful scenes by the different companies of the company are the finest money could buy. A lot of the good parts of "A Royal Slave" have been made better. If you have seen "A Royal Slave" see it again this season, and tell your friends to come, as we want to make the farewell performance for several seasons at least to come, an everlasting success, and pave the way for the new Bennett play next season.

PRICES: 25, 35, 50 and 75c.

Wenzle, p	2	0	0	0	6	0
Total	30	3	11	27	11	3

Considering the fact that Ishpeming scored eleven clean hits off Wenzle, the Michigan College of Mines, pitcher, and Goulette and Toman had sixteen strikeouts between them, and held the visitors to one hit, Ishpeming should have won Saturday's game at the Union Park grounds with hands down. The defeat is largely attributable to the fact that Goulette, who was in the box for the first eight innings, passed six men and struck one, all at critical times. He forced in the first run in the second inning when two batters received passes and in both of the other innings when scores were made passes were also presented.

It took nearly three hours to play the game. Goulette was effective at times, but was unable to pull the ball over the plate when strikes were needed. Most of the balls called on him by the umpire were slightly high. Both pitchers complained of Forvilly's decisions on strikes and balls, and it seemed to many in the grand stand that neither of them were getting a good break.

The slowness of the game was largely due to minor accidents to the players, a number of them having injured their fingers, also to the fact that one of the balls was torn in the third inning and a new one was not to be had.

In the first inning Goulette fanned three men, Lavery, the third man up, having reached first on Brand's fumble at second. In the second inning Foster, the first batter up, was hit by a pitched ball. McCarthy flew out to Laxstrom, who made what is considered to have been the most difficult catch of the season. After running from right into the infielders' territory he caught the ball with his left hand within less than six inches of the ground. Beville went to first on Chaput's error at third; Bolthouse fanned and Wenzle was passed, this filling the bases. Scott was then given a pass, forcing Foster home. Luce went out, Chaput to Main, this retiring the side. In the fifth inning, when the visitors scored their next run, Luce popped out to Liston; Lavery drew a pass and went to second on a wild pitch. Brewster was at the bat and claimed to have been hit by the ball, but the umpire could not see it that way. The latter stopped to argue the point and nearly all the members of both teams congregated at the plate. While third was unguarded Lavery stole from second. Brewster returned to the bat and then hit a long fly into left, which Toman pulled down with one hand, Lavery scoring. Another argument ensued, the Ishpeming players claiming that Lavery had left third before the ball was caught, but Bennett refused to return the runner to the sack.

In the eighth inning, when the college boys scored their third run, Brewster, the first man up, fanned; Foster hit a grounder to Chaput, who threw high to first and Main dropped the ball, the runner later going to second on a passed ball; McCarthy sacrificed, Brand to Main; Beville singled between third and short, scoring Foster; Bolthouse was passed, but did not get beyond first, as Wenzle fanned.

In the ninth Toman, who took Goulette's place in the box, fanned the first, third and fourth batters, but passed Luce, the third man up, who died on first.

Ishpeming scored her first run in the fourth. Laxstrom reached first on McCarthy's error; Chaput sacrificed, Wenzle to McCarthy; Main popped to Luce; Toman sent a high fly to Scott at short, but he dropped it, Laxstrom scoring; Liston fanned. The second run was scored in the fifth. Goulette and Burke fanned, Brand singled and came home on Simpson's double into left field.

The Ishpeming players were much displeased with Bennett's umpiring on the bases. They had good grounds for kicking, particularly in the eighth inning when he called Laxstrom out on a clean steal to second. The runner appeared to be safe by some feet. Had he been declared safe he would have come home on Main's two-bagger, thereby tying the score.

The features of the game were the one-hand catches by Laxstrom and Toman and "Billy" Brand's batting. He had three singles, a two-bagger and a sacrifice. Both Liston and Luce caught fine games. Burko at short and Simpson in center for Ishpeming did not have a chance for an assist or put-out.

The features of the College of Mines playing were two double plays, in the third and seventh innings.

LAUGHLIN SUCCEEDS KNAPP.

D. T. Morgan & Co. Gives Head Book-keeper Management of Business.

Maurice Laughlin, who has had charge of the books for D. T. Morgan & Co. since the firm began business fifteen months ago, has been promoted to the management, succeeding Carl E. Knapp, who resigned a week ago. It is doubtful if the firm could have found a more capable or trustworthy man for the position than Mr. Laughlin, and he is thoroughly posted on all branches of the brokerage business.

Mr. Laughlin was in charge of the books for the Wallace H. Hopkins company for some time before it went out of business here. He is considered one of the very best accountants in this region. He is popular with the concern's patrons and all are pleased with his advancement. The firm is doing a good business, particularly in the curb stocks.

Dress goods at special prices all this week. Materials suitable for children's school dresses.

DEATH OF OLD RESIDENT.

Mrs. Mary Cashen, wife of Michael Cashen, died yesterday morning at the family home at the Winthrop. Heart disease was the cause of death, which was rather unexpected. The deceased had been a resident of the Winthrop and Saginaw locations the greater part of the past forty years and she was well and favorably known in the city. Her husband, formerly in charge of the mill, died some five years ago. She is survived by three daughters, Mrs. John Pennington and Mrs. Thomas Cashen, in Douglas, Alaska; Mrs. Labair at Ely, Minn.; John, in North Dakota; and Daniel, Frank, and Annie at home. Although the time of the funeral has not yet been decided on, it will likely be held Wednesday morning at 9 o'clock from St. John's church.

SAMPLES ON DISPLAY.

Miss Powers, representing J. A. Brown, of Milwaukee, will be at the Nelson on Monday, Tuesday and Wednesday, with a complete line of samples of fall goods and machine underwear. Appointments made for morning calls at homes, or hotel in afternoon and evening.

(8-23-24)

"PULLING" OR "PUSHING."

The action of a horse hitched to a wagon is generally regarded as pulling. This is an old catch-question, often answered by opponents with the argument that since the animal pushes against the breast piece of the harness, for the collar, his action is therefore pushing.

ISHPEMING

SKULL FRACTURED; FELL DOWN STAIRS

ISHPEMING BUSINESS MAN, WHO WAS INJURED FRIDAY NIGHT AT 9:30 O'CLOCK, DIED ABOUT TWO HOURS AFTERWARD.

Henry Paaso, who fell down the basement stairs at the Miners' National bank building Friday night about 9:30 o'clock in a brief account of which appeared in Saturday's issue of The Mining Journal, died shortly before 12 o'clock at the Ishpeming hospital, without regaining consciousness. The injury which caused death was a fracture of the skull at the base. His jaw was also fractured.

Early in the evening Paaso was in Negaunee delivering clothes. He returned on a street car, reaching here shortly before 9 o'clock. When he stepped off the car at the corner of Main and Pearl streets, he met Isaac Amini, one of the bookkeepers in the bank and asked him if he thought it would be possible to deposit the money that he had collected in Negaunee. Amini suggested that they walk down to the bank to see anyone there. They found George Hathaway, the teller, at work, and both entered by way of the Main street door. Mr. Hathaway accepted the deposit and Paaso asked where he could find the teller. He went down the way, but opened the door leading to the basement instead, fell from the top to the bottom and struck his head on the concrete floor. He bled freely from the wound and it was evident that he was seriously injured. A physician also an ambulance were soon on hand and the unfortunate man was removed to the hospital.

Paaso was well-known and popular among the Finnish people. He came to America from his native place in Finland three years ago last May. He worked at his trade as tailor here until a little over two years ago, when he engaged in business on his own account in a room on the second story of the Gold and Silver block, over M. A. Kallio's store. He was a good business man and was doing well. He was thirty-two years of age and is survived by his widow and an adopted daughter, eight years of age. A sister, Mrs. Sanna Maki, and her husband, are working in his shop. His father, three sisters and a brother live in Finland. The family home here is at 328 East Division street.

The funeral will be held tomorrow afternoon at 2 o'clock from the Finnish Methodist church on East Division street.

Press on watches, clocks, and jewelry, cut in two, at J. J. Wentela's, Negaunee. (8-17-1w)

ISHPEMING IN BRIEF.

Miss Larena Schadt returned home Saturday from a two weeks' visit with friends in Marquette.

Miss Alma Anderson is here from Chicago on a visit to her mother, Mrs. C. P. Anderson, Maple street.

Gust Nordstedt, who has been working in Detroit for the last past, is here on a visit to his folks.

The five-month-old son of Oscar Poquette, South Lake street, died Saturday afternoon. The funeral was held yesterday afternoon from St. Joseph's church.

The cantata, "Queen Esther," given Friday evening at Ishpeming theater, under auspices of the First Methodist Episcopal church choir, will be repeated this evening.

Mrs. E. J. Canfield has returned from an extended visit with relatives and friends in Wisconsin and Minnesota. She accompanied W. H. Johnston and family on their recent automobile tour of some of the principal cities of Wisconsin.

Fred Thompson, who spent the past several weeks here and in Wisconsin visiting relatives, left Friday night for his home in Douglas, Ariz. He will be joined by Mrs. Thompson at Lewiston, Mich., she having preceded him to that city a short time ago.

Fred Tomson and wife, Mr. and Mrs. C. I. Phelps, and Mrs. E. E. Scriber and daughter, Marguerite, left yesterday on the steamer Peter White for a lake trip. Mrs. Scriber and daughter will visit friends in Dunkirk, N. Y., their former home, before returning.

The baseball pictures that drew large audiences to the Bijou theaters in this city and Negaunee last week were secured by Manager Woodworth of the Ishpeming house, and it was through his courtesy that Manager Rice of the Negaunee house was able to present them to his patrons.

Everything in the store regardless of cost to make room for holiday purchases. J. J. Wentela, jeweler, Negaunee. (8-17-1w)

A Belgian pigeon trainer has been experimenting with swallows in the place of homing pigeons, and says they have the advantage of great speed.

Negaunee Department

EACH TAKES ONE IN DOUBLE HEADER

NEGAUNEE WON FIRST GAME FROM MARQUETTE YESTERDAY WITH EASE, BUT LOST SECOND, WITH SCHOLTUS PITCHING EFFECTIVELY FOR THE VISITORS.

The double header between the Negaunee and Marquette teams at the Union Park grounds yesterday afternoon furnished more real excitement than any baseball exhibition seen here in years. There were fully four thousand fans present and there was much enthusiasm, particularly during the last game, after many wagers had been placed. There seemed to be "money to burn" in the bleachers as well as in the grandstand, which was filled with Negaunee fans taking the cash offered by the Negaunee fans. The betting became so lively in the west bleachers that an officer finally called a halt.

Marquette was easy for Negaunee in the first game. Clinton was hit freely, particularly in the fourth inning, when the Negaunee players touched the ball for singles, doubles and triples. Clinton wanted to retire, but Manager Fox and Captain Scholtus persuaded him to continue. Steimle, for Negaunee, was effective in the second game, but he apparently weakened in the second, and was touched up freely, four hits being made off him in the second inning, when Marquette scored two of her three runs.

Jim Dunlavey also wanted to quit in the first game. He had a streak of bad luck and he thought that some one else could hold down first better than he could. He was doing, but Jim could hardly be blamed for the misplays in his territory, as it would have required two men to cover the bag with the throw.

This last man was also a featured player in the second game. Scholtus pitched effectively from start to finish, holding his opponents down to three hits, though all were doubles. A fourth two-bagger was made but did not count in the summary for the reason that the batsman was called out for not touching first base.

The work of McKee, for Negaunee, and Walsh, for Marquette, behind the bat was glib and efficient. McKee and Walsh, for Negaunee, and Weiser, for Marquette, gave splendid accounts of themselves in the field. Young's batting in the second game was also a featured play.

Marquette, A. B. R. H. P. O. A. E.
Hamilton, c. f. 4 0 0 1 2 1
Weiser, r. f. 4 0 0 3 0 1

Watches from \$1 to \$500 in our great reduction sale. J. J. Wentela, Negaunee. (8-17-1w)

GOOD OATS CROP.

Many of the Negaunee farmers who were discouraged over their poor hay crop this season are now feeling that at least a portion of their loss will be made up on their oat crop, which was a real do-nothing crop. It is reported that he has not seen such fine oats in this section in many years. The stalks are from five to six and a half feet in height and in many places they are laid down with grain. The farmers who are a rule do not devote a large acreage to oats as to hay, as the latter brings them better returns.

All our watches, chains, silverware, etc., now being sacrificed are guaranteed. Take advantage of our clearing out sale. J. J. Wentela, Negaunee. (8-17-1w)

TO THE FARMERS.

I am prepared to do threshing, also pressing, for farmers in Marquette county. Charges reasonable. Fred Roberts, Negaunee. (8-19-1w)

MEN ARE SCARCE.

Mining Companies May Have Difficulty Finding All the Miners Desired.

The Cleveland-Cliffs Iron company which is to resume work on the night shift this week at the Negaunee property, and the Mary Charlotte Mining company, which desires to increase its force at its mines here about 150 men, have not been successful in securing all of the hands desired. It has been evident for some weeks that there are no idle men to speak of in either Negaunee or Ishpeming and before the full number desired at the two properties are secured it will be necessary for many miners to come in from other districts.

RYAN BROS. MAKE DRILLING RECORD

FORMER MARQUETTE RANGE MEN BORED 4,022 FEET IN MEXICAN SILVER MINE IN THREE MONTHS AND THREE DAYS.

Martin K. Ryan, who was born in the copper country and reared in Ishpeming, was a Negaunee visitor Saturday, having just returned from a tour in Mexico, where for the past few months he had been engaged on a diamond drilling contract in one of the silver mines of the Chihuahua Mining company, fourteen miles from the town of Chihuahua. He leaves the latter part of the week for Denver, Colo.

Mr. Ryan and his brother John made a record on their Chihuahua contract. They were associated in the job with M. Alerni & Co., whose headquarters are in Denver. Mr. Alerni is a former Ishpeming man, and was one of the first men in this region to engage in diamond drill work. He did his first operating at one of the Ishpeming mines back in the seventies. He has been successful in drill contracting in the west for a number of years. The Ryan brothers have taken a number of contracts in conjunction with Mr. Alerni's company.

The Chihuahua drilling, which was underground work, was started March 24th and completed June 20th, and in that time 4,022 feet of boring was done in a limestone formation, which at times raved badly, causing more or less delay and occasionally injuring the bits and rods. The drill was moved eight times. The deepest hole was 772 feet and the shallowest 235 feet. In one week 550 feet was bored and on one shift of ten hours John Ryan drilled ninety feet.

This is perhaps the biggest single day's record ever made by a drill runner. John did a large share of the drilling, only setting their own bits.

John Ryan has for years been connected to be one of the best drill runners in the business. He was one of the first to engage in the work in the Lake Superior district, and since his departure from Ishpeming in 1886 he has drilled in almost every mineral district in the world. He has spent several years in Africa, having done his first work in that country in 1896. For ten years after leaving Ishpeming he drilled in Illinois, Colorado and western states. He did his first work near the American mine, which territory is now being explored by the Cleveland-Cliffs Iron company, and George J. Maas and associates of this city. That was in the year 1880. His partner was Len Osborn, who is now living on a farm near Greenwood. Mr. Ryan fought in the Boer war and was in several of the worst skirmishes. He is now in Chicago, awaiting the return of his brother Martin.

Martin, who had been engaged in drill work for several years in Ishpeming, left there for Colorado in 1889. He has also spent some years in Africa. He was a telegrapher from Mr. Alerni's firm asking him to take charge of an important contract in a Colorado mine. A hole is to be bored 700 feet from a tunnel tapping a shaft that is filled with water. The purpose of the hole is to drain the water. It was a very dangerous task, as there will be a heavy rush of water as soon as the hole is completed.

MRS. GULSTRYM MOURNED.

The Herald-Review of Grand Rapids, Minn., publishes the following obituary notice of the late Mrs. L. W. Gulstrym, formerly of this city: The sad intelligence was received here Tuesday morning that Mrs. L. W. Gulstrym, wife of Rev. L. W. Gulstrym, of the Swedish Lutheran church, had died at St. Luke's hospital at Duluth Monday evening at 9:30 o'clock from the effects of an operation recently performed for cancer of the stomach. The body was shipped to Negaunee, Michigan, where interment took place in the family plot Wednesday afternoon. Mrs. Gulstrym was thirty-eight years old and had resided in Grand Rapids for the past eighteen months. She had greatly endeared herself to all by her kindly acts and offices, and her taking away will leave a void in the hearts of the members of the Swedish Lutheran church at Grand Rapids. Mrs. Gulstrym had been troubled with cancer of the stomach since last December, and although she was given every aid that medical skill could give her, it was of no avail. She gradually grew weaker and on July 2 was taken to Duluth, where she was operated on. The operation was successful, but her constitution was so weakened that she sank steadily and Monday evening she breathed her last. Her bedside was surrounded by her husband and little son, Lawrence, and her parents and three brothers from Negaunee when she passed away. The people of Grand Rapids extend deepest and sincere sympathy to Rev. Gulstrym and his little son in this hour of their sad bereavement. Rev. Gulstrym expects to return to Grand Rapids Monday.

Clearing out sale of jewelry of all kinds, at J. J. Wentela's, Negaunee. (8-17-1w)

LOCAL LAONICS.

Samuel Collins has spent the past few days in the copper country.

Dr. J. D. Bergeron has returned from a visit to relatives in Canada.

George Defrain has started to put his bowling alleys in condition for the opening of the season.

Mrs. Knetele and Miss Moran of Grand Rapids, Mich., are visiting Dr. and Mrs. P. H. Wilson.

L. E. Chausse arrived home Saturday from Chicago, where he spent a few days on business.

Gertrude and Joseph Cummings are here from Chicago on a visit to their grandfather, Mrs. Sarah Winter, and other relatives.

Dr. B. J. Miller will move his dental parlors from the Kirkwood block to a suite of front rooms in the second story of the Neely block on the first of the month.

The heavy frost Friday night did some damage to crops, but to blueberries, in the district below here. The berries in the plains suffered more than did those in the timber districts.

D. E. Rice and wife, who spent a week or so in the city, returned to Calumet Friday. Mr. Rice is well pleased with the business he is doing at his Bijou theater in the Sundberg block.

Andrew Lindquist, who has the contract for the erection of the Scandinavian society's new hall on a 60th street, will complete the excavating within a few days, when the foundation work will be started.

Edwin Rickard, who sustained injuries at the Mary Charlotte mine about ten days ago, will soon be able to leave his home, he having been transferred from the Negaunee hospital one day last week, but it will be some time before he will be in condition to resume work.

Peter Trother and wife, former residents, who live near Chicago, are in the city, visiting her mother, Mrs. J. Sheehy. Mr. Trother has been in the employ of the Chicago & Northwestern Railway company as engineer for many years past. Had he remained on the Peninsula division he would have been one of the oldest engineers in point of service up here.

The Sons of St. George society's picnic, held Saturday at the Cleveland Park, was largely attended by both Negaunee and Ishpeming people. Members of the societies and their families began going to the park at 10 o'clock, but the heavy rush did not occur until after dinner. Most of the members in the two cities quit work at noon. The Negaunee band furnished music all afternoon and evening and the program of sports was enjoyed by both old and young people.

If you want jewelry or silverware, we can save you big money at our clearing out sale. J. J. Wentela, Negaunee. (8-17-1w)

RACE SUICIDE IN GERMANY.

Steady Decrease in Berlin Birth Rate Alarms the Nation.

German statisticians point in alarm to the decreasing birth rate, most plainly observed in Berlin, and a pronounced one against "race suicide," such as President Roosevelt has urged at the American people, is expected from Emperor William.

In England the discovery of Germany's danger will come as a great relief, for one of the main arguments of the agitators during the war were in England has been to point out that the German navy wife is providing seven children to the English wife's four.

As far as Berlin is concerned, there can be no doubt that the situation is serious. Every year shows a decreasing birth rate. In 1908 the total fell to 31,036 from 33,890 the previous year.

In 1908 about twenty-nine children were born for every thousand of population whereas in 1908 the rate had decreased to twenty-four. In 1878 the birth rate was over forty-four to the thousand.

Another startling fact just brought to light is that in 1878 every fourth married woman bore a child; in 1908, every ninth.

In ten years the illegitimate births have increased out of all proportion to the natural increase of population.

In looking for an explanation some investigators blame the hard times. Others say the Berlin married women show a growing dislike to large families—Berlin's Cable to the New York Herald.

Beware of ointments for CATARRH THAT CONTAIN MERCURY. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made at Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

REPAIRS MADE AT SCHOOL BUILDINGS

ALL HAVE UNDERGONE CHANGES AND IMPROVEMENTS DURING THE SUMMER MONTHS.

TWO ADDITIONAL ROOMS

By Using Reiding House, Use of City Hall May Be Abandoned, and Still More Pupils Can Be Accommodated.

During the summer months all the public school buildings of the city have been thoroughly overhauled and such repairs as were found to be necessary, have been made.

The most extensive piece of work done for the betterment of the school system this summer has been the remodeling of the Reiding house, just east of the high school building, on Ridge street, which is to be occupied by first, second, third and fourth grade pupils.

When the repairs are completed, the Reiding building will contain four large rooms, two on each floor, with commodious halls and toilet rooms on both floors.

At the North Marquette school, 150 feet of light board fence has been built and painted, on the north side; the boiler has been painted; the valves packed and thirty feet of slate blackboard put in.

At the Fourth street school, 150 feet of light board fence has been built and painted, on the north side; the boiler has been painted; the valves packed and thirty feet of slate blackboard put in.

At the Ely school, a retaining wall 150 feet long has been built at the rear of the building, which will be surmounted by a high board fence; the gas lighting system formerly used has been replaced with electric lights; the boiler has been painted and all the valves packed.

The furniture used in the city hall last year has been moved to the Froebel school, in which will be located the two sixth grades that were in the city hall last year and also a fifth grade from the Ely building.

At the Abbott school, over 100 feet of slate blackboard has been put in, the valves have been packed and the boiler painted.

At the Fisher street school, the boiler has been painted, the valves packed and other necessary repairs made. To relieve the congestion at this building, a fourth grade is to be transferred to the Ely school.

At the Hampton street school, two stone toilet rooms have been built on the rear of the building; the valves have been packed and the boiler painted; the inside woodwork has been painted and the walls have been kalsomined.

At the Howard high school, about forty feet of slate blackboard has been put in.

All of these repairs have been made under the direction of Chief Janitor E. Quarters, who now has the entire charge of the high school building and the supervision of the eleven others, in addition to acting as transit officer.

FIRE AT SHIRAS HOME.

House Was Threatened With Destruction, but Damage Was Held Down.

Fire at the home of Judge Shiras on East Ridge street threatened the destruction of the house Saturday, but the damage was held down to perhaps the neighborhood of \$1,500 by the effective work of the fire fighters and volunteers.

The fire is believed to have originated from a spark falling on the roof, as a grate fire was burning in one of the lower story rooms.

Fanned by a stiff south wind the fire made rapid progress on the dry wooden building, and by the time the firemen arrived it looked as though the entire structure would be destroyed.

Willing volunteers made quick work of emptying the house of furnishings, and in this way much damage that would have been caused by water was prevented.

Class J. Anderson can furnish you with the best meats and poultry at lowest prices. Prompt delivery. 603 North Third street. Bell Phone 085, County Phone 77. (8-11-14)

GALAXY OF NOTED SPEAKERS.

Fine Program Arranged for Unveiling of Marquette Statue.

The unveiling of G. Trentanove's statue of Father Marquette on Sept. 1, is likely to bring to Mackinac Island a remarkable coterie of men of national fame and prominence.

The program planned by the park commission for the unveiling will be one of unusual interest, if all that have been invited to take part are able to attend.

Following music by a grand orchestra, Rev. Father Summers, who is in charge of St. Anne's church on the island, will deliver the invocation.

Addresses are to be delivered by Justice Wm. R. Day, of the United States supreme court, and by Rev. Father Cunningham, of Milwaukee, a Jesuit priest of great prominence in church circles.

Hon. Joseph G. Cannon, speaker of the house of representatives, has been asked to act as presiding officer, but it is not yet known whether he will be able to attend.

FEW BOATS ARE IDLE ON THE GREAT LAKES

ORE BUSINESS IS AT ITS HEIGHT AND COAL AND GRAIN SHIPMENTS WILL BE LARGE FROM NOW ON.

Few boats along the great lakes are idle this season, in contrast with the last two years, but of a fleet of eighty vessels that wintered at Milwaukee all but twenty-one are in commission.

All of the boats that are out are busy. A number of the big ore carriers have been making the up-trip light because the coal movement has not reached its height.

In a few weeks now the grain movement will begin and the bounteous crop means much business for the ship owners. The prosperity of the farmers will extend to the owners of grain carrying boats.

By the end of August it is expected that practically every boat on the lakes will be carrying freight. Grain rates are already picking up.

It is in handling this great number of ships that the test of the position of the lake carriers on the open ship will come. The union men declare that college boys and many other strictly amateur have been employed all summer on the boats.

A Port Huron newspaper declares that the M. E. B. A. in Marine City, one of the strongholds of the union engineers, and that similar conditions exist among the organizations of engineers, firemen and seamen along the St. Clair river.

The Children of Antoine Lemerre, hereby wish to extend our deep and sincere thanks to the many kind friends who have come to our aid and by both words of comfort and assistance lessened the burden of our sorrow which the death of our beloved father has given us to bear.

Order your milk, cream, butter and buttermilk of the Marquette City Dairy. Modern, sanitary and up-to-date. Equal to any brand dairy in the state. Try our special milk for babies. Bell telephone 223. F. H. Vandenberg, Prop. (8-2-1m)

TURKISH BATHS AND CHIROPODY.

Frank Keough, 123 W. Ridge St., Marquette.

Suit pending in the Circuit Court for the County of Marquette, in Chancery, at Marquette, on the first day of July, 1909.

Eller Burdette, Complainant, vs. Elmer E. Burdette, Defendant.

In this case, it appearing that the defendant, Elmer E. Burdette, has departed from his last known place of residence and his residence cannot be ascertained, therefore on motion of John E. Tracy, solicitor for complainant, it is ordered that the defendant, Elmer E. Burdette, enter his appearance in said cause on or before five months from the date of this order, and that within twenty days the complainant cause this order to be published in The Daily Mining Journal, a newspaper printed, published and circulating in said county, said publication to be continued once each week for six weeks in succession.

JOHN E. TRACY, J. W. STONE, Circuit Judge, Solicitor for Complainant. (7-12-71)

MARQUETTE'S FLIGHT COST TEN RUNS

FOURTH INNING IN YESTERDAY'S FIRST GAME WITH NEGAUNEE WAS A COMEDY OF ERRORS.

W.	L.	P.
Islanding.....12	4	750
Negaunee.....12	6	665
Marquette.....7	9	457
Mmising.....2	14	125

In the neighborhood of 800 Marquette fans attended the ball games at Negaunee yesterday afternoon, the first of which was won by Negaunee by the score of 11 to 1, and the second by Marquette, score 3 to 1.

In the unhappy fourth, the first man up for Negaunee raised a pretty fly to Kipule, which he dropped, though it fell right in his glove, this being his first error in left garden in three years.

Upon their return to Marquette last night, many of the fans were loud in their criticism of Lantz, the new second baseman, and maintained that Hamilton should have been played at the second station in the first game, as he was a known quality.

In a close game free from all dispute, the Marquette second team defeated Birch for the second time this season at Birch yesterday, by a score of 5 to 4. It was a hard defeat for the latter, as they had hopes of winning this game, this making an even break.

Anderson was replaced in the sixth, the management wishing to give Woodman a chance. In three times at bat, Anderson succeeded in securing two hits. Woodman was at bat but once and hit to the infield. With Woodman and Jeanson added to the remainder of the season.

Ingalls, a left hander, pitched good ball for Birch and the thirteen hits he allowed were well scattered. He succeeded in dividing strike honors with Jeanson and allowed no one to walk.

Summary follows: Marquette—A. B. R. H. E. Jeanson, p.....5 1 0 0 0 Pelley, lb.....5 1 2 2 3 Smith, 3b.....4 1 1 0 1 Rossiter, c.....4 1 0 1 1 Cody, c.f.....4 1 3 0 0 Dougherty, l.f.....4 0 1 0 1 Baskin, 2b.....4 0 0 1 1 Lohb, ss-r.f.....4 0 3 1 1 Anderson, r.f.....3 0 2 0 0 Woodman, ss.....1 0 0 1 0

Birch—A. B. R. H. E. Brown, c.....3 1 0 0 0 Frazer, 2b.....4 0 1 0 0 Silvers, r. f.....4 1 1 0 0 Ingalls, lb.....3 1 1 0 0 Steven, ss.....1 1 0 0 0 Culver, 2b.....3 0 1 2 0 Grunt, 2b.....4 0 1 0 0 Locher, c.f.....3 0 0 0 0 Ingalls, p.....3 0 0 0 0

Two-base hits, Smith (2). Hit by pitcher Brown. Ingalls. Passed balls, Brown (2); Rossiter (2). Strike outs, by Jeanson, 5; by Ingalls, 6. Bases on balls, off Jeanson, 1; off Ingalls, 0.

Tigers Win at Au Train. The Tigers, a Marquette ball team which is fast coming to the front, defeated Au Train at Au Train yesterday afternoon by the score of 5 to 3. A summary of the game follows:

Score by innings: Tigers.....0 2 0 1 0 0 1 1-5 Au Train.....0 1 0 0 2 0 0 0-3

Strike outs, by Davis, 11; by Duette, 12. Hit by pitcher, Duette, 4. Three-baggers, Lynn, Burham, Davis, Saunders. Umpire, F. Cavalier, Au Train.

The Tigers lined up as follows: Mossier, second base; King, right field; Laporre, shortstop; Burham, third base; Price, center field; Lynn, catcher, Saunders, first base; Davis, pitcher; Desotel, left field.

The Tigers are very anxious to get a game with the "second team." They have been strengthened lately and they believe they can take Manager's Drumme's nine into camp handily.

WHAT IS HABIT?

Some one has defined a good habit as "Yesterday's achievements taking the sting from Today's toil."

The Saving Habit is universally conceded to be a good habit, and this definition states the exact truth, based on the experience of thousands of savings bank depositors throughout the world.
