PRICE FIVE CENTS.

STRIKING A REEF, OCEAN SHIP SINKS

Five Men, All Members of the Crew, Are Drowned When the Steamer Ohio Goes to the Bottom Off Steep Point, Alaska.

Among the Lost Is Wireless Operator Eccles, and His Is a Heroic Death, for He Sticks to His Post and Meets His Doom After His Calls for Aid Have Attracted to the Scene a Number of Passing Vessels Which Pick Up the Passengers.

Seattle, Wash., Aug. 27.—Five lives were lost in the sinking of the Alaskan Steamship company's steamer Ohio off Steep point, Alaska, early today. There were 138 passengers on board, but all escaped, the victims being from among the crew. The loss of the steamer and cargo is total. The ship left Seattle for Valdez Aug. 24. The drowned were: PETER E. J. STEPHEN, Seattle. GEORGE E. ECCLES, wireless operator, Winnipeg.

TWO SEAMEN, names unknown, QUARTERMASTER, name not given. A wireless dispatch says that the Ohio sank in three minutes. This probably means that she was on a reef a considerable time, and that the passengers were all saved by the ship sliding into deep water, which she did so speedily as to carry down five of the crew. Some of the passengers were taken ashore in lifeboats and were picked up by the fishing boat Kingfisher and taken to Swanson Bay. The others were taken on the steamer Ohio, and the Rupert City. The Humboldt's passengers will be landed at Ketchikan and the Rupert City is taking her passengers to Vancouver.

Early reports said that fifty or more lives had been lost, but the steamship company files show that the strength of wireless dispatches from M. J. Henry, a railroad builder, who was taken off by the Humboldt. Parser Stephen and Operator Eccles stuck to their posts and gave their lives to save the passengers. The Dolphin, another Alaskan Steamship company boat, which left Seattle Wednesday night, was notified by wireless to stand by in Swanson Bay and give assistance.

It is 320 miles from Seattle to Steep point. The rocks where the boat went down are all jagged and unusually deep water. Captain John Johnson, Ohio's navigator, is regarded as one of the most skillful on the Pacific coast.

Eccles' Last Dispatch Never Finished.

New York, Aug. 27.—The United Wireless company, one of whose operators is E. Eccles, of Winnipeg—operator on the sinking of the steamship Ohio off the Alaskan coast today, received an account of the disaster from Operator Booth, at Ketchikan, Alaska, late today. Mr. Booth says in a dispatch to the headquarters of the company here:

"About 1 a. m. I was sitting with my receivers clapped to my ears, having just finished working with Operator Eccles, on board the Ohio, when I was startled by hearing him call 'C. Q. D.' 'C. Q. D.' I immediately answered, and he sent the following message:

"The Ohio has struck a rock. The steamer is sinking. Send aid immediately, or everybody will be lost."

"The steamships Humboldt and Rupert happened to be near at the time, and both called the Ohio, asking for her location. Eccles gave it immediately, and the Rupert flashed back that they would change their course and stand by the Ohio as soon as possible. In the meantime Eccles had sent another message, saying:

"The Ohio is sinking fast. Cannot hold out. The passengers are being taken off in small boats. The captain and crew will stick to the last."

"The Humboldt and Rupert both replied that they were headed for the Ohio, and would pick the passengers up. Then came the final message from the stricken vessel. It was never finished. "The passengers are all off and adrift in small boats," it said. "The captain and crew are going off in the last boat and are waiting for me now."

"I was unable to get him again," concludes Operator Booth, "and I knew that he had gone down with his ship."

IRISH LEGISLATION PASSES.

Commons Permits the Land Bill to Go Through Practically as Presented.

London, Aug. 27.—The Irish land bill, as introduced in commons March 30 by Chief Secretary for Ireland Burrell, passed through committee of the whole today, without serious amendment.

VISIT THE FORBIDDEN CITY.

Mr. Fairbanks and Admiral Harber Are Received by the Prince Regent.

Peking, Aug. 27.—Former President Fairbanks and Rear Admiral Harber, United States navy, were received in separate audiences by the prince regent in the Forbidden City this morning.

HAWAIIAN MILLIONAIRE DIES.

Honolulu, Aug. 27.—Charles M. Cooke, a multi-millionaire, of Hawaii, died here today.

The human body is a machine of such wonderful efficiency that one-fifth of the energy expended by it can be utilized at work, as shown by the recent experiments of Prof. Atwater and Benedict.

HARRIMAN TO SUBMIT TO THE SURGEON'S KNIFE?

While the Family and the Physicians Will Not Discuss the Matter, There Are Indications the Famous Financier Is About to Undergo an Operation.

Arden, N. Y., Aug. 27.—Whatever E. J. Harriman's ailment, whatever his true condition, the public is not to know until he and his family decide that such an announcement is opportune. Scrupulous of news, dropped from the lips of relatives, associates and employees, indicate that the patient spent a quiet day, part of it out of doors, but there were other incidents which lead some to believe that all was not so well. For instance, the arrival of two tanks marked "oxygen" and a small cot such as is used in hospitals for moving patients. Coincidentally these came two men supposed to be specialists. These incidents caused a rumor that Mr. Harriman is to be operated on, but no confirmation could be obtained tonight.

Robert L. Garry, Mr. Harriman's son-in-law, this afternoon said that the patient had spent a good part of the day out-doors, and denied that any operation was to be performed. Late this afternoon Mr. Garry took three strangers up the mountain in an automobile. These three strangers, besides the two who arrived earlier in the day, makes five who have been brought to the Harriman house with every evidence of haste. Whether or not they were surgeons or nurses could not be ascertained, but everything points to the fact that the world's greatest railroad man is about to undergo an operation.

STOCKS MAKE SOME RECOVERY.

Net Gains the Rule, but With the Undertone Hesitating and Uncertain.

New York, Aug. 27.—The stock market made some recovery today, but the undertone was hesitating and uncertain. It was plain that the drastic liquidation of the previous three days had left a number of weak spots, at which the aggressive bear party might renew its operations. The advice dealing on the health of E. H. Harriman were not altogether encouraging. There appeared to be a feeling of abatement on the part of the market, but the closing through purchases of standard issues on further sessions were counseled. The only feature of the day was the persistent pressure brought to bear upon United States Steel, which before noon went under the previous day's low price.

The first prices of the day were up all the way from 1/2 in Union Pacific common and preferred to 2 1/2 in Southern Pacific, with numerous other issues higher by a point. The buying was sufficiently brisk to warrant the belief that it had its origin in responsible quarters. The early gains were soon lost with an attack upon Steel, and while some recovery was made it was at the expense of diminished operations, a fact which is regarded as somewhat significant. During the early afternoon the business continued very dull, with narrow price movements.

Just before the closing the list sold off abruptly, on rumors again associated with E. H. Harriman, for a time the market looked squally, but in the final five minutes the sentiment underwent another change in favor of better prices and general net gains for the day. The closing, however, was decidedly irregular. There were no marked changes in the general monetary situation, which reflects the greatest ease all over the country.

Trade Improvement Continues.

New York, Aug. 27.—R. G. Dim & Co.'s Trade Review tomorrow will say: From the principal cities come such reports as "Large fall purchases," "Active demand," "Sales exceeding those of the best previous years," "Large numbers of visiting buyers," and "The outlook is for a very active fall trade." The improvement in the iron and steel trade is steadily maintained, with a heavy production of pig iron, a practically full movement of finished products, and notably heavy buying by the railroads. The only department of this industry where there is room for considerable business is that of steel rails.

Seasonable activity continues in the wholesale drygoods line, sales of various kinds attracting many buyers. The purchases by retailers still indicate caution regarding future needs, even in cases where higher prices seem certain. The current movement, however, is very steady. The openings of the fancy dress goods lines for spring have not been attended with the active demand noted in the staple middle class lines for the season. Men's wear lines are moderately quiet, with the prices firmly maintained. Linens rule strong. Fancy fall knit wear is in good demand, but heavy underwear is still slow. Business in footwear is slow.

Bradstreet's tomorrow will say: Trade and industrial tendencies are still in the direction of improvement. Impetus is given this movement by the gathering of the crops in the various sections of the country. In commercial lines, the reports of jobbers are practically unanimous that the buyers' excursions are stimulating the fall demand as the close of the vacation period approaches. In wholesale and jobbing lines of dry goods, there is still in evidence cautious buying, but the price situation looks strong as a whole. Industry is becoming increasingly active, iron and steel leading, despite some further price advances, and the mills are reported behind on deliveries. The building trades are active, this being reflected in an improvement in lumber and other materials at merchants. The total bank clearings at the principal cities of the United States the past week have been \$2,994,295,000, against \$2,214,298,000 in the corresponding week of last year.

DENVER CONVENTION CLOSES.

Denver, Aug. 27.—Pledged to urge every state in the United States to work for more drastic pure food laws, the convention of the Association of National and State Food and Dairy Departments adjourned today, after electing George L. Flanders, of Albany, N. Y., president, and Dr. W. M. Allen, of Raleigh, N. C., secretary. New Orleans was selected for next year's meeting.

BURNING FACTORY IS SCENE OF PANIC

A Gasolene Tank Exploding and Scattering Fire About the Room, the Employes of a Big Cannery at Waverly, Ia., Are Terrorized.

To the Number of 600, Most of Whom Are Women and Boys and Girls, They Rush Pell Mell for the Exits, One Fatality Occurring and a Score of Persons Being Injured, Three Mortally—The Plant Is Destroyed, and \$100,000 Damage Is Occasioned.

Waverly, Ia., Aug. 27.—As the result of a panic of six hundred employes at the Kelly cannery factory to escape from the second floor of the canning department, where a gasolene tank had exploded and thrown fire over the room, George McRoberts met his death, three persons were probably fatally injured and a score of others were severely hurt here today. The building was destroyed by the fire that followed the explosion, causing \$100,000 damage.

While the canners were busy with their work, a gasolene tank used for the soldering of cans burst, hurling the flaming fluid over the workroom. Most of the employes are women and young men and girls. All were excited by the showers of flames and ran for the exits. Many leaped to the ground, falling on and hurting each other. Scores tried to descend the stairways with leaps and bounds, only to become hopelessly entangled in the narrow ways. The employes on the first floor went quickly to the rescue, dragging entangled persons from the jammed stair cases and fighting off the flames until the injured could be carried to safety.

When all had been taken from the building it was found that Mrs. Walter Davis, Irene Lockley and George Miller had been so severely injured that they probably will die. McRoberts dropped dead after saving some books from the office of the factory. He had probably inhaled flames. The material loss included 3,000,000 cans of corn, which were not insured.

MICHIGAN POWER SITES GOBBLED UP.

Practically All Those Available in the Northern Part of the State Are Acquired by Concerns Controlled in the East and Capitalized at Three Millions.

Lansing, Mich., Aug. 27.—The announcement today that articles of incorporation have been filed by eighteen power companies, with a total paid in capitalization of \$3,000,000 is believed to mean that practically all the available power sites in northern Michigan have been acquired by Eastern interests, which now control the electric properties in many cities of the state.

MONKEY HOLDS RECEPTION.

Lenox Society Meets Siamian That is Kept in Gold Case and Has a Nurse.

Lenox, Aug. 27.—Carrying on her arm a South American monkey in a gold case, Mme. Zeggio, of Florence, Italy, a daughter of Mrs. Charles T. Robinson of New York, arrived at the Aspinwall hotel here. The marmoset is so tiny that a dollar bill would conceal it. Mme. Zeggio says the monkey is worth \$5,000 and the case half as much more. It was caught near the headwaters of the Amazon, and a special attendant cares for him.

All the guests of the Aspinwall crowded about Mme. Zeggio and for an hour the monkey held a reception. In the throng were Miss Sarah Lathrop Herreshoff and her fiancé, Count Luigi Masadeo of Rome, who are to be married in October. Miss Herreshoff said she was going to send for a marmoset at once.

The monkey has long soft fur and is said to be forty years old. He will eat in a private dining room at the Aspinwall. According to a report current around the hotel, Mme. Zeggio is to give a special monkey dinner party for her pet later next week.

DOG WON'T LEAVE OLD HOME.

Pet of the Murdered Ball Children Refuses to Follow Master.

Brookton, Aug. 27.—"Brownie," the spaniel dog that used to be the constant companion of Mary and Tommy Ball, the two children who were murdered and buried in the Oak streets woods by their insane mother in December of 1905, refuses to leave the cottage home that has since been abandoned by the father, John Ball. The latter resided at the cottage up to a short time ago, when he disposed of it to other parties. All attempts to make the dog remove with him at his new home have been vain. "Brownie" remains at the old home and refuses all attempts to take him away. The dog's devotion to the memory of his child playmates and to the home has aroused much interest and sympathy in the neighborhood.

DEATH OF DR. GEO. SHEARS.

Chicago, Aug. 27.—Dr. George Francis Shears, aged fifty-six, president of the Hahnemann medical college, Chicago, is dead. He was prominent in a number of homeopathic societies.

We probably love the old songs best because every one is singing the new ones.

THE WEATHER.

Washington, Aug. 27.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy and cooler, Saturday; Sunday, fair, moderate to brisk west and northwest winds.

BASEBALL.

STANDINGS OF THE TEAMS.

SCHEDULE FOR TODAY.

National League.
New York at Detroit.
Philadelphia at St. Louis.
Boston at Cleveland.
Washington at Chicago.
American League.
Pittsburg at Brooklyn.
Chicago at New York.
St. Louis at Philadelphia.
Cincinnati at Boston.
Sunday games are scheduled as follows: American league, New York at Detroit, Philadelphia at St. Louis, and Washington at Chicago; National league, none.

YESTERDAY'S GAMES.

Western League.
Pueblo, 5; Sioux City, 6.
Wichita, 11; Omaha, 0.
Topeka, 2; Des Moines, 11.
Denver, 2; Lincoln, 7.
American Association.
Minneapolis, 2; Milwaukee, 3. Eleven innings.
St. Paul, 5; Kansas City, 4. Fourteen innings.
Louisville, 6; Columbus, 0.
Toledo, 1; Indianapolis, 3.
National League.
Brooklyn, Aug. 27.—Pittsburg batted Wilhelm freely.
Score: R. H. E.
Pittsburg... 002021000—2 13 1
Brooklyn... 000000000—0 6 4
Batteries—Wilts and Gibson; Wilhelm and Bergen.
New York, Aug. 27.—Chicago defeated New York today, after a great up-hill fight, net scoring until the Giants had made five runs. The result was in doubt until the ninth. Then, after two bases on balls, Schulte doubled, scoring Evans. Rickard tallied when Doyle let Bridwell's shot of Schulte's hit get away from him. This was Chicago's only safety off Raymond, who relieved Wilts in the sixth, after Tinker had tied the score by making a home run. Overall was knocked off the rubber in the third.
Score: R. H. E.
New York... 023010000—6 12 4
Chicago... 000321002—8 9 4
Batteries—Wilts, Raymond and Myers; Overall, Higginbotham and Archer.

Philadelphia, Aug. 27.—The visitors' three pitchers were batted hard.
Score: R. H. E.
Philadelphia... 013031500—13 20 1
St. Louis... 000100000—3 8 4
Batteries—McQuillan, Scanlon and Dooin and Martel; Beebe, Raleigh, Meltzer and Bresnahan and Bliss.

Boston, Aug. 27.—Curtis held the visitors to three hits.
Score: R. H. E.
Boston... 201001000—5 6 5
Cincinnati... 200110000—4 3 2
Batteries—Curtis and Gibson; Gasper and Clarke.

American League.
St. Louis, Aug. 27.—The locals bunched hits in the fourth, and won.
Score: R. H. E.
St. Louis... 000200000—2 8 1
Philadelphia... 000100000—1 4 0
Batteries—Pety and Stephens; Morgan and Livingston.

Cleveland, Aug. 27.—Errors by the Boston infielders gave the locals the game.
Score: R. H. E.
Cleveland... 101200100—5 7 3
Boston... 010010010—6 5 5
Batteries—Falkenberg and Clarke; Cicotte and Carrigan.

Detroit, Aug. 27.—Wilson was knocked off the slab by Detroit in the third inning, retiring after five runs had been scored off him. His successor was Chesbro, and in the fourth inning Detroit gave one of the greatest exhibitions of run-making ever shown here. Fourteen men batted and ten runs were scored. Cobb and Crawford each hit a home run and a single in this one period.
Score: R. H. E.
Detroit... 302100020—17 19 0
New York... 000 000402—6 9 6
Batteries—Willett, Lelivelt and Stange and Beckendorf; Wilson, Chesbro and Sweeney.

In 1901, when Milwaukee was a member of the American league, Detroit played a game with the Brewers which was similar to that of today. At the opening of the ninth inning, the score

IMPORTED WORKMEN DESERT THE WORKS

Anticipating a Repetition of the Riots of Last Sunday, State Troopers Again Mount Guard at Pressed Steel Car Manufactory.

Declaring They Have Been Misused and Subjected to Indignities, 300 Strike-Breakers Quit the Employ of the Company and Report That Those Left in the Mill Will Follow Their Example Today—Stories They Tell Are Almost Unbelievable.

Pittsburg, Aug. 27.—At sundown tonight, sixty state troopers mounted guard at the plant of the Pressed Steel Car company, in Schoenfeld, where the thirty-five hundred employes of that concern are striking, anticipating before another twenty-four hours a repetition of the riots of last Sunday.

During today about three hundred of the imported workmen deserted the plant and declared that they had been misused, subjected to indignities and forced to work whether they chose or not. The strikers gave the deserters a cordial greeting as they left the plant, and both elements are tonight on very friendly terms. The stories told by the workmen who have quit their jobs are almost unbelievable. The conditions, according to those workmen, were practically unbearable inside of the car plant stockade. Soup prepared from rotting vegetables was served them, they declare, by filthy negro waiters, picked up from employment agencies in the slums of Pittsburg. Beds filled with vermin were given them to sleep on, they declared, while they were charged exorbitant prices for clothing, even two-cent stamps selling at four for ten cents in the car company commissary.

These stories were made the subject of affidavits late today in the government probe into the alleged peonage conditions at the car plant. The men declare that the men left in the mill will quit tomorrow.

LASTING PEACE IN SIGHT.

Chicago's Traction Wage Dispute Expected to Be Settled Monday.

Chicago, Aug. 27.—Lasting peace in the street railway situation in Chicago will be made certain in an agreement which will be adopted next Monday, according to the outlook tonight. A plan to settle the wage controversy on a five-years basis has been proposed, and the answer will be given on Monday. The street union men and officials of the traction company predict that the plan will be adopted. It gives the old employes thirty cents an hour at once and the new men twenty-five cents an hour with an increase of one cent an hour each year until the contract expires.

MONEY FOR THE MILITIA.

War Department Allots the \$4,000,000 Appropriated by Congress.

Washington, Aug. 27.—Four million dollars, appropriated by congress for the militia, has been allotted by the war department among the states and territories. The allotments include: Illinois, \$104,000; Indiana, \$91,000; Iowa, \$86,000; Michigan, \$91,000; Minnesota, \$83,000; Nebraska, \$45,000; South Dakota, \$25,000; and Wisconsin, \$92,000. The relative strength of the militia is 109,761, and the allotments under the various heads include \$1,472,250 for arms, equipment and camp purposes, \$490,730 for the promotion of rifle practice, \$628,501 for ammunition and \$970,636 for supplies.

CHICAGO'S HOT SPELL BROKEN.

Chicago, Aug. 27.—The hot spell here was broken this afternoon by a terrific storm. Three men on a farm west of the city were killed by lightning. The storm did more or less damage in Chicago.

stood 13 to 4 in favor of Milwaukee, but when the Tigers had concluded their half of the inning the score was 14 to 13 in favor of Detroit, the Tigers having pounded out ten runs. Milwaukee used three pitchers during the game, two in the ninth inning. Dillon, of Detroit, made four doubles during the course of the play, two of them in the ninth inning, and he was carried off the field by wildly enthusiastic fans. Earl Fricke, formerly of Marquette, pitched for Detroit and was touched up for sixteen hits. He was strong at the bat, however, getting three hits.

CAPTURING WILD HORSES IN NEVADA.

By an agreement with the government, C. P. Barnum and Charles Allison are clearing the forest reserve of the Toiyabe Range of wild horses. The first nine days they secured seventy-six head and a week later captured ninety more. They have erected corrals of woven wire near water holes and drive the horses into them. There are thousands of wild horses in that section which destroy the range. A year ago the government authorities decided to have the animals shot, which caused such a strong protest from all sections that the matter was reconsidered.—Ely Record.

BAR ASSOCIATION ADJOURNS.

Detroit, Aug. 27.—The American Bar association, which has been in convention here since Tuesday, ended its meeting tonight with a banquet. H. A. Lockwood, president of the Michigan State Bar association, was one of the principal speakers. Today the national association elected Charles F. Libby of Portland, Me., president.

MOORS BOMBARD DONS AS MASS IS BEING SAID.

Requiem Service for Men Slain in Battle Is Held as Planned, However, Whereupon the Spaniards Attack in Turn, Punishing the Enemy Severely.

Melilla, Morocco, Aug. 27.—A requiem mass for the repose of the souls of the large number of Spanish officers and men killed in battle with the Moors, July 27 was dramatically celebrated this morning. It was attended by the survivors of the brigade of General Pintos, who was killed in the engagement, and by officers and delegations of men from all sections of the army. The altar was decorated with flowers and was surrounded by four Gatling guns and stacked rifles.

At the moment of the elevation of the host, the Moors opened a fierce fire from a distance, and the guns of the fort roused in response. Notwithstanding the attack, however, the religious ceremony was completed, after which a detachment of troops more than three hundred head and wounded, their slain including General Pintos, two lieutenant colonels commanding naval contingents and a large number of other officers.

COLORED PYTHIANS PREVENT RACIAL RIOT.

Drawn Swords, With a Threat to Use Them, Bring Belligerents to Time at Kansas City, Checking a Clash Which Gave Promise of Bloodshed.

Kansas City, Mo., Aug. 27.—Swinging their drawn swords above the heads of the belligerents and declaring that unless the trouble ceased they would use them, a company of negro Knights of Pythias prevented what for a time promised to be a serious race riot during a parade of the supreme lodge of the negro Knights of Pythias here today.

The trouble began when W. S. Jarboe, a laundryman, accompanied by his wife, drove through the parade of 5,000 colored Pythians. Several negroes not in the line of march seized the bride of the horse. Mr. Jarboe seized the whip and struck at the men.

Instantly a hundred excited negroes crowded about the wagon. One wrested the whip from the man, striking her a number of times and inflicting painful bruises. Many white men rushed to the aid of the laundryman. A riot call was sent to police headquarters, but before the police arrived the armed Pythians had restored order.

Bloody Man Hunt in Georgia.

Soperton, Ga., Aug. 27.—Following the shooting and burning of Bed Clark, an escaped negro convict, by a posse early today, and the killing of James Duxden, a prominent planter, who was a member of the posse, in a fight with Clark, John Sweeney, another negro, who had harbored Clark, was tonight lynched by the posse. The posse then set out in search of Sweeney's wife. Intense excitement prevails. It is feared that more lynchings may follow.

BANK PRESIDENT ARRESTED.

E. W. Shick of Tipton, Ind., Is Accused of Misapplying \$24,252.

Chicago, Aug. 27.—Elvert W. Shirk, president of the First National bank of Tipton, Ind., was arrested here today, charged with misapplying \$24,252 of the bank's money. It is alleged in a complaint lodged with United States Commissioner Fiske that Shirk obtained the money through drafts made payable to himself. The alleged shortage is said to have occurred July 23d when the bank suspended for a few days, later resuming business, the federal authorities immediately carrying an investigation.

Shirk gave bond for \$20,000 before Commissioner Fiske, and was released. Speaking of his arrest, he said that he held the note of the bank for \$24,252, that Cashier Marker failed to give him credit for it, and that he drew on a Chicago bank for the amount of this note. He added that when a bank examiner some time ago discovered a supposed shortage in the bank's money, he had contributed \$50,000 to make it good. "What would it profit me to take half that amount?" he asked, and he declared that he could "easily prove that the draft was only for the amount of the bank's indebtedness to me."

UNIFORM LAW ADVOCATED.

Insurance Commissioners Propose the Better Regulation of Fraternal Orders.

Colorado Springs, Colo., Aug. 27.—The national convention of insurance commissioners today elected J. A. Hartigan, of St. Paul, Minn., president; H. R. Cunningham, of Helena, Mont., secretary. The convention passed a resolution instructing the special fraternal insurance committee to draw up a uniform bill for regulating fraternal societies in every state.

SPEEDWAY OWNERS CENSURED.

Held Responsible for Deaths at the Indianapolis Automobile Races.

Indianapolis, Aug. 27.—The owners of the Indianapolis motor speedway are held responsible for the several deaths that occurred in the accidents during the recent automobile races, in the corner's decision, made public this evening. The corner will report the matter for grand jury investigation.

TAFI CUP WON BY THE POSSUM.

Toledo, Aug. 27.—The "Possum, owned by Arthur Davis, of Toledo, today won the Tafi trophy, offered by President Taft, for the catboat series given by the Toledo Yacht club in connection with the Interlake regatta.

A girl wearing ball slippers could get lost in a blizzard with a bear and never think of eating cold, but be afraid of dying from pneumonia if she had to cross the street in rubber boots with her father in a light drizzle.

FARMAN ECLIPSES HIS FRENCH RIVALS

Making a Marvelous Flight at Rheims, English Aviator Captures the Honors in the Prix de La Champagne Endurance Test.

In the Air for More Than Three Hours, He Sails a Bi-Plane of His Own Design a Distance of Upwards of 118 Miles, Bettering All Former Records—A Great Cheer Goes Up as He Lands, and He Is Carried Off the Field in Triumph.

Rheims, France, Aug. 27.—Henry Farman, the English aviator, in a biplane of his own design, broke the world's record for duration of flight and distance in a heavier-than-air machine today, and won the Grand Prix de La Champagne endurance test by a flight officially recorded as 117.8 miles, in 3 hours, 4 minutes and 52.5 seconds. He actually covered an extra ten kilometers and remained in the air ten minutes after 7:30 o'clock this evening, the hour that the time-keepers, under the rules, ceased to keep record of the flight.

The time-keepers had withdrawn from their official positions, and the crowd waited patiently. Suddenly, out of the darkness, a glowing thing appeared in front of the tribune and came to the earth on the starting line. A great cheer arose, and hundreds of people waited the time to greet the hero of the moment. Farman was helped out of his seat. Then a score of persons lifted him aloft and bore him in triumph on their shoulders to the presidential tribune, where M. Millerande, the minister for public instruction, and his address, congratulating him. Farman broke Latham's record of 95.9 miles, made yesterday as well as Paulhan's record made the day before. He stopped at the conclusion of his nineteenth lap.

All Berlin Awaiting Count Zeppelin.

Berlin, Aug. 27.—Count Zeppelin alone occupies the minds of the population of Berlin tonight, and a welcome has been prepared for his coming tomorrow in his big airship such as has never before been equaled since Prince Smirak's return from Versailles after his coronation in 1871 of William II as emperor of Germany. Most of the factories and offices and all the schools will be closed, and the mayor has ordered all public buildings decorated, as is done on the occasion of the emperor's birthday, and has requested that private dwellings be decorated. All day crowds surrounded the bulletin boards, eagerly watching the reports of Count Zeppelin's flight since leaving Friedrichshafen early this morning. It is generally reported, but without confirmation, that he will be created a prince by Emperor William, who arrived in Berlin tonight to be present at the landing place of the dirigible tomorrow.

Wolfe Fails to Swim the Channel.

Dover, Aug. 27.—Wolfe, the English swimmer, was compelled to give up his attempt to swim across the English channel to France today, after covering thirteen miles in eight hours. Edward Heaton entered the channel at eight this morning, to swim to the French coast.

WORLD'S RECORD IS BROKEN.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Those Tigers have not yet won that third pennant, but there's no denying that the coping off of all three of the games with the Athletics was a big step in that direction.

The University of Chicago has just established a bureau of publicity. Its function will be the furnishing of reliable news concerning the institution to the press, and as far as that may be possible, safeguarding University of Chicago professors from attacks by sensational writers.

The American Automobile association, its eyes opened by the train accidents at the Indianapolis track last week, has taken a stand against any more 250 and 300-mile races until conditions surrounding them are materially changed.

The interior department continues to take up its full share of the stage. L. S. Glavis, of the land office, recently visited President Taft at Beverly and conveyed to him his suspicion that there was something seriously amiss in connection with the Cunningham coal claim transaction in Alaska.

Uncle Joe's serenity at Mackinac Island was seriously disturbed by the Fowler letter, and has not yet been entirely restored. If he carries out his promise, the regular session of congress will be opened by an interesting occurrence, for he says he will take the floor and make "the fur fly," in a direct answer to his critics.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

guage that anybody can understand, and I promise that for verity it will rank as a masterpiece. It's time somebody showed these malcontents just where they stand. All this talk about legislation being stilted and the people not getting what they want is hosh. I believe in the rule of the majority. I have always followed that and the principles of my party. When representatives attack me they are attacking their party, and the great majority of the house." Go to it, Uncle Joe. Take the floor as your announced purpose. Lade it out hot and heavy. The public dearly loves to see you in action. Furthermore, it would like to hear a full statement of your side of the mooted questions concerning your conduct of the speaker's office, for it is to be feared that it is rather inclined to regard sympathetically the view that you're a moss grown old reactionary out of tune with modern progress. But it's a fair public, and if you can convince it to the contrary it will, no doubt, cheerfully acknowledge that you enemies are the men who merit its disfavor.

DUMMY DIRECTORS. That the dummy director is a fact and not a fiction is shown by the responses to the comptroller of the currency's inquiries addressed to directors of the national banks with the idea of ascertaining to what extent they are meeting the obligation resting on them to familiarize themselves with the conduct of their bank's affairs. Only about 25 per cent of the directors could state positively that they had personal knowledge of what was going on in their banks, and a considerable number admitted that they knew nothing at all about the business of the institutions they were supposed to be helping to manage.

Here in the upper peninsula we have had, within a few months, a striking example of the ruined reputations and impaired fortunes that may follow in the train of these dummy directors. If the directors of the Ironwood National bank had fully met the obligations of their position the institution would doubtless be running yet, for the first departure by the managing officials from safe and reputable methods would have brought an emphatic protest. If the directors had done their duty not only would great money losses have been prevented, but men who will appear in the United States court in Marquette next month would have been saved from the criminal course which has resulted in their undoing.

There ought to be a modification of all fiduciary institutions that would make a dummy director an accessory to the crime, when one of them is looted, even if he is in no way a beneficiary of the stealings and had no knowledge that there was anything wrong. It's a director's business to direct, and ignorance that permits the perpetration of crime under his nose is, in its effects at least, as serious as active participation in the crime.

A CANADIAN LAW. In the September number of a popular magazine former President Eliot of Harvard reviews two years' experience under a Canadian law planned to prevent industrial troubles between employees and companies operating public service utilities and such quasi public service companies as the operators of coal mines. The law in question is not a compulsory arbitration law, but is designed simply to secure a thorough inquiry into the conditions surrounding incipient labor disputes and, then, publicity. Provision is made for a commission of inquiry of three members, one to be appointed by either party and the third to be chosen by those two members. In the event they cannot agree, the minister of the interior appoints the third. When one party of the dispute has applied for an inquiry and the other party refuses to appoint a representative, the minister of the interior is likewise authorized to appoint a representative for it. The employees are forbidden to strike, or the employers to lock out their men, until following the publication of the findings of the special commission.

The Canadian law is no absolute bar to strikes or lockouts. Once the commission of inquiry has published its report the operation of the law ceases. The men can strike, or the employers lock them out. What is gained by the law is a period of time, running from a month to two months, in which sober second thought has a chance to operate, and the publication of a fair report, which gives the public possession of all the essential facts in the dispute and permits it to decide where the right lies.

The law has been a powerful agency in preventing labor troubles. President Eliot writes that in fifty-five cases in which it was invoked it was successful in preventing strikes in all but two. The great majority of appeals for a commission of inquiry came from the employees, who evidently have great faith in the operation of the law. The publicity feature of the law, which is the keynote to its success, is one not particularly liked by employers, and the one which accounts for the fact that more of them do not ask for the appointment of commissions of inquiry.

In some of the disputes taken up by these commissions several thousand men were involved, and most of them were of great importance. The majority concerned railroads, coal companies and other public service corporations, which could not be interfered with by strikes without the general public being the principal sufferer. The law was the means of saving millions of dollars to the em-

ployers and employees, to say nothing of what is saved for the public. President Eliot justly argues that a law that has given such admirable results in Canada is worthy of careful study by American public men. Our dual government would, to be sure, make it difficult to adopt the principle involved generally in this country, but its application by the individual states would be a comparatively simple matter. This law is one of many things in which we might well base our course on the successful experience of our northern neighbor.

A HERDER'S LONELY LIFE.

His Only Company a Couple of Dogs and as Many Thousand Sheep. All farms of eighty acres and up ought to have a small flock of sheep. When fenced for them there is little expense in keeping them, and they are mostly what would be wasted by the other stock. They kill out the weeds and bring in money for the wool at a time when the farmer usually has little else to turn into money.

Nearly all the wool raised in the United States east of the Missouri river is medium wool. This is because the best mutton sheep are of this class. The Ohio, Kentucky and Indiana ewes bring the highest price; they are cleaner and consequently shrink less and are mostly staple wools.

Wools from the above sections and neighboring states are called bright wools; those from western Minnesota, western Iowa, the Dakotas and eastern Nebraska and Kansas are called semi-bright.

The range wools are usually known as Western wool and are quoted generally by the name of the state in which they are raised, such as Montana, Oregon, Colorado and Idaho wools. They all have characteristics that distinguish them, owing to the soil, climate and the range conditions.

The range wools are much better in breeding and staple than a dozen years ago, because the shepherds have been steadily grading up their flocks with the best blood that could be secured regardless of price. The result is that their wools are bringing nearly if not quite as much as the eastern or bright wools of the same grades.

Some of the wool growers of Montana and Wyoming own or control 50,000 to 100,000 sheep. Frequently these big flocks are divided up into half a dozen flocks in the hands of share men, who care for the sheep for a share of the wool and lambs.

Except in lambing time the sheep are divided into bands of about 2,000, each band in care of a herder. During the summer the mountains make the best range, such as the Big Horn Mountains of Wyoming. In the winter when there is some snow on the ground lots of ranges can be used that at other times are useless on account of no water.

The sheep herder's life is a very lonely one. He is provided with a dog and a wagon, which is hauled out on the range, where he is left with his sheep and perhaps a dog or two and provisions for a couple of weeks. His duties consist of following and watching the band as they feed out from the feed ground around the wagon in the morning until about noon, when they lie down, rest and chew their ends. About 2 o'clock he gets them up and starts them back so as to graze back to the feed grounds for the night. In about two weeks the camp moves comes around and moves him three or four miles to another feed ground.

When shearing time comes the bands are driven up to some favorable spot in turn and shorn. Oftentimes this takes place on the open prairie. The wool is sacked and piled up and sometimes lies there uncovered for a month before it is hauled, in some cases fifty to seventy-five miles, to the railroad.—Fur News.

It takes the average man seventeen times as long to tell what he thinks he knows as it does to tell what he really knows.

Mining News

IN THE BISBEE CAMP.

While both the Copper Queen and Calumet and Arizona companies expect to produce more copper in August than they did in July, neither of these companies is at present in a position to say so. The Copper Queen company is at present producing at the rate of 28,000, 30,000 and 32,000,000 pounds per month. Perhaps the North Butte company alone is not producing up to its normal level, but it is not far behind.

Working of sinking in the Denn was started last week from the 1,250 level and is to be continued down to the 1,400 and 1,500 levels, where all the indications point to the existence of a great ore body. It has always been believed that depth would make the Denn a mine and this belief was strengthened with the strikes on the 1,250 level, which were as important as an indication as they were in value, although when they were encountered they were announced that they would pay for the continuance of further development. On Friday of this week there was another strike in the drift on the vein which was not at all extensive, the vein being only about a foot in width and cut through shortly after it was met. The Denn management is more certain now than at any time in its history that it has a mine that will ultimately be a big producer. This it is certain will come with depth and it is depth that will now be produced with development.

Superior & Pittsburg. Work at the Junction shaft of the Superior and Pittsburg continues to develop satisfactory results. The development is being mostly done on the 1,400 level in the sulphide ore, of which mention was recently made when it was encountered. Here they are blocking out this ore and at the fifteenth level they are raising to come into the sulphide body from below.

MICHIGAN. Michigan has just finished the third diamond drill hole in its present series, which is exploring the Copper Queen-Knowlton group of lodes, or in the strike of the three New Adventures lodes, and the drill is now being rigged up for the fourth hole. This will be put down along the same strike, some distance west of its predecessor. If I ever had a chance to see you, I would never think of using any other than Cuticura Soap for my babe. You are at liberty to publish this, it may help some distressed mother as I was helped. Mrs. W. M. Comer, Burnt Cabins, Pa., Sept. 15, 1908.

mines controlled the company will have over 90,000 acres of land, most of which is timbered with good timber and well watered, the company securing the water rights. The property now has several veins of ore and a good many partially developed. The company expects to develop a large additional tonnage immediately after taking over the property. The property is to be turned over to the new company at cost, the promoters making the statement that they will not make anything in the flotation except "in the increase of values that should come." The first payment of the stock is expected to be sufficient to conduct operations for over a year from this time. The stock has been fully subscribed for and some of the largest subscribers have been requested to cut down their applications.

NOTES OF COPPER NEWS.

The Tullahoma Copper company will commence regular shipments of ore to the Butte reduction works the first of next week. The property has just reached the producing stage, with several hundred thousand tons of the highest grade copper ore in the district in sight. About 500 tons a day will be to the smelter. Plans have been adopted for the construction of a 500-ton zinc concentrator at the Butte reduction works. It will treat zinc ore from Senator Clark's Elm Oreb mine and also contain ores.

The management of Ojibway talks enthusiastically about the mine and says that Ojibway is fully up to their expectations, if not beyond. They intend to sink both shafts to the 1,250-foot level and then begin connecting them by means of drifts, from the eighth level drift. The shafts are 1,110 feet apart. The latest samples from the breasts of both drifts demonstrate that the rock is typical of the Kearsarge lode, and it certainly has the copper, too. The ground improves in copper values as they sink, which has been characteristic of the Kearsarge amygdaloid.

A dispatch from Douglas, Arizona, says: At the Calumet Arizona smelter, work has been started on the enlargement of another of the original furnaces which were all of 300-ton capacity. The old furnace now being rebuilt will be increased in size and when completed will have a capacity of 500 tons of ore daily. The plant of the Calumet & Arizona, with the completion of the furnace now being overhauled, will consist of six furnaces—three of 500-ton capacity and three of 300-ton capacity. According to the plans agreed upon some time ago all of the old furnaces are to be enlarged, which will give this smelter a capacity of 3,000 tons daily. The resumption of this enlargement program at the smelter evidently means that the company is getting ready to materially increase its copper output.

MINES OF BUTTE.

For the first time in a year all of the Butte mining companies are again operating at present time. The district is producing copper at the rate of 28,000, 30,000 and 32,000,000 pounds per month. Perhaps the North Butte company alone is not producing up to its normal level, but it is not far behind. The Butte Copper company is mining more ore at present than at any time in its history, its rate of production being very high. The rate of production is gradually increasing, and in the face of a statement recently made by an officer of one of the big producing and selling companies that in his opinion there was nearer 500,000,000 pounds of copper available for the market than 300,000,000 pounds, as has been estimated. His confidence, however, was based on the fact, as he estimated, that consumption was not so great as it had been, and that the demand had not nearly reached a point that he considers normal even under present conditions in business. He therefore contended that the time was approaching when the mines again would be forced to supply the demand.

"How soon this condition will be upon us, it is hard to say," said the official quoted, "but it is coming and every big producer and seller of copper realizes it. Recovery has been much slower than some of us had anticipated, but the strength and the gradually growing improvement have long been a criterion that has governed the operators. There is no chance for a break in the present price of the metal, and the men who have had confidence in the return of prosperity and the permanency and stability of the copper industry will profit by it, for they expect to see copper sell again at sixteen to eighteen cents per pound, and this in spite of the many new producers that are coming into the field, and the steam-shovel methods of mining in some of the new districts."

SIERRA CONSOLIDATED.

As previously stated, the Cole-Ryan people are organizing a company to take over several promising gold and silver properties in the Ocampo-Chihuahua district of Mexico. The new company will be known as the Sierra Consolidated mining company. It will capitalize for 300,000 shares, par \$10, but only \$6 will be called at the start. When fully paid for, the stock will have provided \$1,800,000 for working capital. With the

22-1223-1224-1225-1226-1227-1228-1229-1230-1231-1232-1233-1234-1235-1236-1237-1238-1239-1240-1241-1242-1243-1244-1245-1246-1247-1248-1249-1250-1251-1252-1253-1254-1255-1256-1257-1258-1259-1260-1261-1262-1263-1264-1265-1266-1267-1268-1269-1270-1271-1272-1273-1274-1275-1276-1277-1278-1279-1280-1281-1282-1283-1284-1285-1286-1287-1288-1289-1290-1291-1292-1293-1294-1295-1296-1297-1298-1299-1300-1301-1302-1303-1304-1305-1306-1307-1308-1309-1310-1311-1312-1313-1314-1315-1316-1317-1318-1319-1320-1321-1322-1323-1324-1325-1326-1327-1328-1329-1330-1331-1332-1333-1334-1335-1336-1337-1338-1339-1340-1341-1342-1343-1344-1345-1346-1347-1348-1349-1350-1351-1352-1353-1354-1355-1356-1357-1358-1359-1360-1361-1362-1363-1364-1365-1366-1367-1368-1369-1370-1371-1372-1373-1374-1375-1376-1377-1378-1379-1380-1381-13

Copper Country

HARBOR OF REFUGE.

W. D. Calverly of Houghton Interested in Portage Lake Project.

A harbor of refuge in Portage river, near Portage Entry, is a projected improvement which has lately received little attention...

MORE REGULATIONS SOUGHT.

Launchees Use the Portage Lake Bridge to Excess It Seems.

R. T. McKeever, vice president and general manager of the Copper Range railroad, which operates the draw on the Portage lake bridge, has begun the collection of data on which to base a plea to the Houghton county board of supervisors for relief from a condition which impedes traffic...

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good."

It is non-secret, non-alcoholic and has a record of fifty years of cures. Ask Your Neighbors. They probably know of some of its many cures.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

WEEKLY COPPER REVIEW

Gossip of Interest Concerning the Market Situation and Various Mining Properties.

[Paine, Webber & Co.]

General Market Situation.

Despite the fact that there has been a very serious reaction in the New York market during the week and despite the fact that the general tendencies have not been for any betterment in the world-wide market situation, the copper shares have not only maintained their position of strength, but have actually advanced in some cases.

We feel that there is general profit to be made in purchase of carefully selected copper shares in the New York market. The metal situation is gradually, although slowly, bettering all around.

Not a little interest is taken in the openings of the Keweenaw company on the Kearsarge lode.

The wealthiest American girl to wed a foreigner of this belief is to be May Colwell, who brought \$400,000 to the Duke of Roxburgh, Pauline Astor, who married Captain Spender-Cly, had \$20,000,000, and Anna Gould at the time of her first marriage \$17,000,000.

It is estimated that more than 300,000 tons have been expended by American agents in the purchase of titles for their daughters.

In a number of cases the actual dowry has been small in comparison with the money spent subsequently to the marriage.

North Butte. The most active stock in the copper share market during the past week has been North Butte.

Drilling at Arcadian. The first diamond drill for the New Arcadian was set at work last week.

Excursion to Portage Entry. The Calumet branch of the Salvation Army will hold its annual excursion today, going to the Portage Entry by train and boat.

OLD MEN'S MEMORIES. The late Sarah Orne Jewett lived a great part of her life in South Berwick and the quaint Maine character of her native town interested her profoundly.

FINNISH SOCIALISTS ADJOURN. The national convention of Finnish socialists, which has been in session in Hancock this week, adjourned yesterday.

MATRON FOR JUVENILE COURT. Mrs. Thomas McGrath Will Have Charge of Juvenile Offenders.

THE HEALTH OF YOUR HORSE will be best promoted—best preserved—if you are ready to give the proper remedy at the proper time.

Dredging Contract Completed.

The dredging in the Portage river was completed recently, and Engineer Banks says that the waterway is now in excellent condition from the canal to the entry.

ANTI-TUBERCULOSIS BOOTH.

Houghton County Society Will Have an Exhibit at State Fair.

The publicity committee of the Houghton County Anti-Tuberculosis society, at a meeting held Thursday night at the residence of Dr. L. L. Hubbard, president of the society, discussed plans for an exhibit and educational campaign at the Copper Country Fair.

BIG IMMIGRATION MOVEMENT.

There will be a considerable immigration from Austria and Croatia in the near future, according to Calumet steamship and railroad agents. It is expected to be as large as any movement of former years.

SEEKING PURE MILK.

State Commission Sends Dairy and Milk Inspector to Houghton.

R. P. Holdsworth of Lansing, dairy and milk inspector for the state food and dairy commission, is in Houghton, inspecting commercial dairies.

Mr. Holdsworth visited John C. Mann's farm yesterday in company with Mr. Mann and a representative of the press.

Mr. Mann's cow barn, a portion of the big red barn on the farm, is a model one. The floor is of concrete, the walls are lined with painted white, there is an abundance of light from a large number of windows and the barn is equipped with the Jameson stalls and stanchions.

Mr. Mann's herd is made up of ten pure bred Guernseys, and as an example of their quality as may be stated that one of these cows produces fifty-six pounds of concrete milk per day.

Mr. Holdsworth also visited the Denton and Edgerton dairies yesterday, and commented upon them favorably.

GATHERS FISH STATISTICS. C. H. Moore of Detroit Here for the Michigan Fish Commission.

C. H. Moore of Detroit, statistical agent for the Michigan fish commission, is at the Douglas House, Houghton, on his annual visit to the commercial fisheries of Portage lake and the surrounding waters.

Mr. Moore has been coming here for eighteen years and he says that in that time he does not believe a dozen people in town have learned what his business is.

Mr. Moore has not kept his business secret for any official reason. He is simply a man of quiet habits and not communicative and his business has been with the fishermen. The fisheries of Michigan, commercial fisheries that is, make a total annual catch of 58,000,000 pounds, according to Statistician Moore, who has a record of every net, man, sailboat, launch and tug engaged in the business in the waters of the lake.

NATIONAL ORGANIZATION HAS BEEN HOLDING A MEETING IN HANCOCK.

The national convention of Finnish socialists, which has been in session in Hancock this week, adjourned yesterday.

MATRON FOR JUVENILE COURT. Mrs. Thomas McGrath Will Have Charge of Juvenile Offenders.

Announcement of the appointment of Mrs. Thomas McGrath of Hancock as matron of the detention of juvenile offenders, made by Probate Judge Bentley. The appointment is for a period of nine months.

Mrs. McGrath was appointed by a committee of the board of supervisors. There were fourteen applicants for the position.

Mrs. McGrath will have her residence in the new juvenile building, recently remodelled from the old court house. This building will contain quarters wherein juvenile offenders will be detained and the duties of the matron will be the care and guarding of these youngsters.

The juvenile court becomes a fact Sept. 1, at which time the law goes into effect and thereafter all juveniles arrested under criminal charges will have to come before this court.

T. F. COLE VISITS COPPERDOM.

T. F. Cole of Duluth arrived in Houghton yesterday morning in his yacht Alvin. He left during the day for Copper Harbor, with a party composed of Mr. and Mrs. John L. Ryan, Mr. and Mrs. W. R. Thompson, Mrs. Sallie W. Sheldon and James R. Dec.

The Russian government is nursing its platinum industry.

TAKE NOTICE. All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. Sold by all Druggists.

THE SWIFT SPECIFIC CO. ATLANTA, GA

Despair and Despondency. No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine.

City Brevities

Yesterday's temperatures: Seven a. m., 48 degrees; noon 87; 7 p. m., 74. Maximum, 86 degrees; minimum 61. Today's weather: Showers and cooler.

A daughter has been born to Mr. and Mrs. Michael Hogan.

Alfred Eggers, of Duluth, is visiting relatives in the city.

Mrs. Captain Euss of Laurium was calling on friends Thursday.

James Maney, of Duluth, called on his many Marquette friends yesterday.

Miss Nellie Moore left this morning for a trip to Detroit and Niagara Falls.

L. W. Joslin, of Grand Rapids, arrived yesterday to spend a few days in the city.

Mrs. A. E. Boswell and Miss Ella Meekins came to Duluth for a few days' visit.

Miss Mabel Moffatt entertained twelve of her friends at her home on Prospect street last evening.

Mrs. L. Wadley, of Kankakee, Ill., has returned to her home, after spending a few weeks in the city.

Misses Katharine, Edith and Margery Munro have returned, after spending a week in the copper country.

Mrs. John Pihlan has returned to her home in Tonopah, Nev., after visiting her mother, Mrs. John Stiekney.

A meeting of the official board of the Methodist church will be held at the church at 11:30 a. m., tomorrow.

Mrs. Louis Nault, who has been visiting relatives here for three weeks, will return to her home in Escanaba this morning.

Miss Flossie Dowrick has returned from Ishpeming, where she spent two weeks with Miss Libbie Teatman and other friends.

The Tigers baseball team will cross bats with the Nequaime Buffaloes at our fair grounds Sunday forenoon at 5:30 o'clock. No admission will be charged.

The infant son of Dr. Z. Vainais and wife, aged six weeks, died yesterday of summer complaint. The funeral will be held Saturday at 2 p. m. from St. John's church.

John Murray, an employee of the L. S. & L. railway, has purchased a new seven-room house on Magnet street, between Front and High streets, which was owned by Charles Johnson. The deal was consummated through Robertson's real estate exchange.

Six Miles of Highway—The attention of contractors is called to the advertisement for bids for the construction of six miles of the highway known as the Chatham-Marquette county road. Bids will be received until Tuesday, Sept. 7, at noon.

To Study in the East—Professor and Mrs. J. E. Lautner will leave this morning on the Tonesta for the East. Professor Lautner will spend half the year at Harvard and the remainder at Columbia university. Mrs. Lautner will study at in Boston and New York. They will return in time for the Normal summer school next year.

Recital Well Received—Mrs. Harriet R. Labadie's rendition of Charles Rann Kennedy's great play, "The Servant in the House," delighted her audience at the opera house last evening. Mrs. Labadie is an artist in the delineation of character, and her naturalness, remarkably resonant voice, eleventhary power and beautiful face aid in a truly masterful interpretation. Altogether the recital was a rare treat and delighted everybody.

Aged Woman Passes—Mrs. Frank Bennett, aged seventy years, passed away at her late home, 157 Baraga avenue, yesterday after a brief illness. She is survived by her husband, three daughters, Miss Genevieve, Mrs. Thomas Lake, and Mrs. Fred Lalonde, and seven sons, Alexander, Antoine, George and Joseph of this city, and three residing in Duluth. She leaves twenty-four grandchildren. The funeral will be held at 9 o'clock Monday morning from St. John's church, with interment at Holy Cross cemetery.

Many Children Ill—This is the time of year when diseases common to infants and children are most prevalent and there are now an unusual number of children ill in this city. One physician stated that he had received calls to attend twenty-five children sick with summer complaint yesterday, and all the doctors have a number of juvenile patients. There are also more cases of typhoid in the city than for some time past. This is probably due to the weather more than anything else, as the last report on the city water was an exceptionally good one for this time of the year, when it is apt to be polluted.

Funeral This Morning—The funeral of the late Mrs. Patrick Atfield, who died at the home of a relative in Williams-town, Mass., will take place at 8 o'clock this morning from Hager's undertaking rooms. The remains were expected to arrive at 11:15 last evening. Interment will be in Holy Cross cemetery. Until a year ago, Mrs. Atfield was a resident of Marquette for upwards of fifty years.

Died in Far West—Announcement has been received of the death of Ernest Edward Hawes, of Hancock, which occurred in Arizona, where he was employed as a moulder by the Old Dominion Mining company. He went there but three months ago and has a wife and seven children living in Hancock. The deceased was a brother of Thomas J. Hawes, of this city.

KELLY HARDWARE CO.
CURED HAY FEVER AND SUMMER COLD.
A. S. Nishnam, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicinal which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." Sold by all Druggists.

Upper Peninsula

Will Share in the Melon—
Tap Barbeau, the old Copper Country Northern star, who once set type in The Mining Journal job room, and Allan Storke, the two former Pittsburg players who were recently traded to the St. Louis Cardinals for Third Basemen Byrne, will receive their share of the world's series money should the Pirates happen to get in on that big event. Jap and Allan were worried for some time by thoughts of the possibility of a melon cutting without a slice for them, but Manager Clarke has informed them that they will receive their portion in the event of their former team-mates' winning the world's championship.

Soo Boys Raid Pop Wagon—
If a raid on a pop wagon in the Soo is possible in these days when prohibition is still in the talking stage, what will happen when prohibition has become an actual reality? Three young rowdies, ranging in age between ten and fourteen years, tackled Farm's delivery wagon the other day in the west end of the city and nearly succeeded in getting away with a quantity of the "sweet goods." Mr. Farm had no more than entered Preister's saloon with an order than the boys began operations. Each grabbing an armful of quart bottle, and started off across the field. Someone ran in and told Mr. Farm, while the driver on a Standard Oil wagon made after the thieves. The chase grew too close for comfort and bottles were scattered in all directions in the hope that this would cause the pursuers to relent. Mr. Farm says the boys got about a dozen bottles of which he picked up six around the field. He has their names and if they try a similar stunt again trouble will be their lot.

Escanaba Companies Merged—
Announcement is made that both the Escanaba Electric Street Railway company and the Escanaba Power company have been taken over by the Escanaba Traction company. The latter concern, in addition to operating the regular business of the two companies absorbed, will push the construction of the inter-urban line connecting Escanaba and Gladstone and which line will ultimately be extended to Kipich River. The company will also carry out the construction of two additional power dams on the Escanaba river and as soon as the necessary arrangements can be made will provide for the building of a big pulp manufacturing plant. The officers are: John K. Stack, president; J. C. Kirkpatrick, vice-president; P. L. Utley, secretary; M. N. Smith, treasurer. The members of the board of directors are: John J. Cleary, J. V. Moran, James Malloy, John K. Stack, J. C. Kirkpatrick, P. L. Utley, M. N. Smith and H. W. Reade, auditor. The consolidation of the two companies into one corporation, bringing together in a single enterprise practically all of the leading capitalists of the city, means much for the future of Escanaba.

Interesting Game of Ping-Pong—
An Italian from the American side has been giving the Canadian immigration authorities at Sault Ste. Marie a great deal of difficulty and annoyance lately by trying to gain entrance to Canada. He has been sent back, time and again, upon his arrival at the Canadian Soo ferry dock, but, like the had penny, he turns up again and always has a plausible story to tell. This little game ping-pong has now been going on between the Italian for the most of the week. The man got through the gates, some days ago. He secured a job at the steel plant through the efforts of his brother, who is a Canadian citizen, having taken out naturalization papers. The brother has tried to assist his brother in getting through. After the man had secured his job, he returned to the American Soo to get his trunk. It was upon his arrival at the Canadian Soo ferry dock with the trunk that he was spotted by Canadian immigration authorities as an alien. He underwent a cross-examination, and failed, and was sent back on the next day. Ever since then he has been trying to gain entrance into Canada, and if he persists will find himself behind Canadian bars.

For Folks Who Save

There will be a pleasing distribution of dividends on September 1st. These dividends take the form of accrued interest on savings deposits and are paid by all savings banks—on the basis of three per cent per annum. This bank will itself pay out to its savings depositors a number of thousand dollars in interest and we hope that you, reader, will enjoy your share in the distribution. If you don't, will the fault be yours or ours? On every dollar which you deposit in our Savings Department we will allow you compound interest at 3 per cent—payable September and March 1st. You ought to save at least 10 per cent of your earnings.

If you make a deposit now, or before September 5th, and leave it in the bank until March 1st, it will be entitled to six months' interest at that time. Deposit by mail, if more convenient.

Marquette National Bank

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows: "Support was tendered during the session, which repulsed bearish attacks, and considerable short covering caused recovery throughout the list. Rumors were not as frequent, and more confidence was displayed by those who at the close last night were alarmed at the action of the market. Feverishness is still the feature, and the trend of the market not clearly defined, but it is felt that the market has seen the low levels, at least temporarily."

The final quotations follow:

Amalgamated.....	80 1/2	M. E. & T.....	40 1/2

Boston Stock Quotations.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "The Boston market held steady today with particular strength in North Boston. This stock would well bought all day, and looks as if it would sell higher in the near future. There was no desire to sell stocks, and with any improvement in the metal, the Boston market will sell very much higher. The New York market called somewhat in the forenoon and sold off toward the close with unsettled rumors regarding Harriman's condition."

Closing prices were:

Adv.....	6 1/2	Wyandot.....	2 1/2

Copper Metal Prices.

New York, Aug. 27.—The market for standard copper was steady today, and sales were reported of one hundred tons of November, at 12.80@12.90, and one hundred tons of December, at 12.85. The closing quotations follow: Spot, August, 12.70@12.80; November, 12.90@12.95; December, 12.95@13. The London market was firm, with spot at 450, 6s. 4d. Local dealers offered June copper at 12@12.25, electrolytic at 12.87@13.25, and cast at 12.62@12.87. From present indications, the buying movement due for some time will not materialize until September. As a whole, the market is slightly less firm than it was earlier in the month, but no recessions of import-

BIG ISSUES DEPEND ON HARRIMAN'S LIFE

He Wishes to Show That a Transcontinental Line May Be Developed Without Danger to Public Interests—View Taken Is That His Collapse Was Due to Under-Eating.

New York, Aug. 27.—The dramatic and in some aspects sensational, and from all points of view, national figure which E. H. Harriman has now become is made evident by the interest which is taken in the reports telling of his condition and the various rumors purporting to give some outline of his future plans. Those who can remember back to the day of Commodore Vanderbilt are reminded of the interest with which the daily reports that came from his bedroom every day in the six months of his last illness were received. It seemed for a time almost as though the commadore were the favorite friend of everyone in New York. So, also, when day Gould broke down and at last took to his bed, no news of the day was read more anxiously or eagerly than that which told of his condition, of the varying hopes and fears of his family, and of the interest which in Gould the man, rather than because of any anxieties or curiosity respecting the effect of his illness upon his railroad properties.

But in the case of Mr. Harriman, the interest is partly due to the fact that there are indications of very important developments in the Union Pacific properties, developments which should be immediate, and in addition to that the suspicion that Mr. Harriman, if he has his health, will in course of a few years demonstrate an aggressive bidder for a perfect transcontinental system, and if he is not mistaken, will also demonstrate to the American public that this may be accomplished with economic advantage and without the slightest political danger. There is also some understanding of the extraordinary financial gifts which are Mr. Harriman's distinguishing possession, as well as of the fundamentally original character of much of his achievements.

CHICAGO GRAIN MARKETS.

Chicago, Aug. 27.—The excellent demand for cash wheat here and in the Northwest inspired lively buying of the options here today, resulting in a material rally. The advance followed a slight weakness at the start. The congestion in the September and an incidental bulge of 1/2 in the price of that option was the feature of the first hour's trading. The leading elevator interest was again an aggressive bidder for the September, the offerings of which were meagre. Much of today's strength centered in the cash situation. The arrivals of cash wheat here are not sufficient to prevent a constant increase in premiums, owing to the urgency of the local demand. The market closed almost at the top notch, the final figures showing gains of 1 to 1 1/2 @ 1 1/2. The September opened at 98 to 98 1/4; highest, 99 1/2; lowest, 98; closing, 99 1/4 to 99 1/2.

Paine, Webber & Co.'s Wheat Summary.

Paine, Webber & Co.'s Chicago correspondent said yesterday concerning the wheat market: "The cash wheat situation gave the September wheat shorts uneasiness at the start today, and when that month went up 1/2, in a few minutes the shorts began covering in December and May. There is no large accumulation of winter wheat anywhere. The receipts here are getting lighter. The northwest wheat crop is reported to be 250 cars today, compared with 400 a year ago. There is a hint in this indifference on the part of wheat raisers about selling the new crop at the recent decline. The grain raisers' association of the Canadian northwest gave out an estimate today of 107,000,000 bushels, which is much under the fancy figures claimed by individual observers. Minneapolis reported a strong and higher cash wheat market, as also did Kansas City. St. Louis reported the big mills selling their flour at a profit. It should be a right change to unfavorable weather over the spring wheat country, it might be an easy matter to continue the bull market."

YOUNG MEN WANTED

The United States Government Gives Railway Mail Clerks \$800 a Year to Start, and Increases to \$1,200. Uncle Sam will hold an examination for Postal Clerks and Letter Carriers in Michigan in November, and for other government positions on different dates. Over 4,200 appointments were made last year, and it is estimated that 50,000 will be made this year. Any ambitious man or woman over eighteen years, with an ordinary education, can readily pass. The government wants people with common sense to take the examination, and will pay them well and give them an annual vacation with full pay. No matter where you live, city or country, you can get one of these positions. The government Positions Bureau of Rochester, N. Y., with its thorough knowledge of the requirements of the examinations, can fit any one in a few weeks to pass. A government position means employment for life. Now is the time to prepare for the coming examination. Any reader of The Mining Journal can get full information free of charge by writing to the Government Positions Bureau, 627 Main Building, Rochester, N. Y. (8-14-12-24)

THE PARDON OF FIRE.

A Picturesque Church Festival in a Little Brittany Village.

One of the most picturesque of the many Brittany "pardons," or church festivals, is the pardon of fire at Plougastel in Finistere. The easiest way to visit it is to drive from Morlaix, a goal-sized town on the road to Brest. Some American tourists, who were present at the pardon last year, drove out to Plougastel June 22 in order to be on hand for the great events of the next day. It was fortunate that they did, for all day long the stream of pilgrims poured in, so that the little hotel and even the private houses of the village were taxed to their full capacity.

The dim interior of the old church of St. Jean du Doigt—so-called because it is said to possess among its relics a finger of St. John—had been made gay with countless banners and strands of colored paper flowers. The benches were hung with flowers and greens. Upon every available bit of ground booths were erected, the one street taking on such a gala air as to indicate a country fair rather than a religious festival.

All through the long night the murmur of voices continued, and with the rising of the sun the bells chimed out their Sabbath song. Eager faces, watching for the drawn of a cloudless day, were greeted with clear skies and bright sunshine, for according to superstition if the rain falls and the fire of the Tantalid be not lighted the sun will never once shine during the year to follow.

At 10 o'clock the bells announced the hour when the crowd should flock into the gayly decked church. It was a cheering yet curious sight to see the vast concourse of picturesque Breton women (the male sex being rather in the minority) wearing the usual black gown, but their shoulders covered with shawls of exquisite texture and the most delicate colors, each community wearing its own particular headpiece.

Near the entrance of the sacristy within the wall, is a basin of holy water, and just outside the door, dipping into the basin, is the "fontaine" (water of the finger). Close beside this basin hangs a bas relief of the head of St. Jean, now in rather dilapidated condition, as frequent kisses upon his submissive countenance have deprived him of much of the coloring with which he was originally adorned.

As the moving throng, hazy, halt and blind, advanced toward the altar at the close of mass each bestowed a kiss upon the cheek of his neighbor, and the priest, who first touched their heads with an image of St. John, then applied the sacred finger to their eyes as a cure.

When the vesper bells ring the real ceremony of the day is at hand. It lasted but a few minutes to 4 o'clock, when, according to custom, clergy, choir and people went up the aisle, and the priest, to meet the pilgrims from Plougastel. Vespers over, out they came, like a swarm of brilliant and butterfly, wedding their way to the hill above, led by the officiating clergy in glittering vestments and gold ornaments, bearing the sacred finger, which, in a little glass encased ark, there followed a score or more of Breton "maisons" dressed in white, their heads crowned with stilly studded caps of the finest embroidery.

Marshall Field was a commercial traveler, before he became a lawyer and politician. He was a young man of twenty, a tall, slender, well-proportioned man, with a sunny, smiling face, and a pair of eyes that were as clear as crystal. He was a native of Chicago, and had spent his childhood in that city. He was a member of the Chicago Association of Commerce, and had been a road salesman for fifteen years. He was a man of great energy and initiative, and had a keen sense of business. He was a man of great charm and personality, and was able to win the confidence and respect of his associates. He was a man of great vision and foresight, and was able to see the possibilities of the future. He was a man of great courage and determination, and was able to overcome all obstacles in his path. He was a man of great integrity and honesty, and was always fair and square in his dealings with others. He was a man of great kindness and generosity, and was always ready to help those in need. He was a man of great faith and belief, and was always confident in the future. He was a man of great love and affection, and was always true to his friends and family. He was a man of great honor and respect, and was always held in high esteem by all who knew him. He was a man of great success and achievement, and was able to build a great and lasting legacy for himself and his family. He was a man of great influence and power, and was able to make a difference in the world. He was a man of great wisdom and understanding, and was able to see the big picture of life. He was a man of great strength and resilience, and was able to withstand all the trials and tribulations of life. He was a man of great joy and happiness, and was always able to find the good in every situation. He was a man of great peace and harmony, and was always able to bring people together. He was a man of great love and compassion, and was always able to help those in need. He was a man of great faith and belief, and was always confident in the future. He was a man of great courage and determination, and was able to overcome all obstacles in his path. He was a man of great integrity and honesty, and was always fair and square in his dealings with others. He was a man of great kindness and generosity, and was always ready to help those in need. He was a man of great honor and respect, and was always held in high esteem by all who knew him. He was a man of great success and achievement, and was able to build a great and lasting legacy for himself and his family. He was a man of great influence and power, and was able to make a difference in the world. He was a man of great wisdom and understanding, and was able to see the big picture of life. The Great Lakes Trip

A little journey on the grand sea is the most pleasant and economical vacation trip in America. The ever varying scenery of the shore line and the picturesque beauty of the islands add interest and delight to every mile of the trip. All the important ports on the Great Lakes are reached regularly by the excellent service of the D & C Lake Lines. The ten large steamers of this fleet have all the qualities of speed, safety and comfort. Every boat is of modern steel construction and is propelled by powerful engines. The Clark Wireless Telegraph Service is used aboard.

Tickets reading via any rail line between Detroit and Buffalo, Detroit and Cleveland, in either direction, are available for transportation on D & C Line Steamer.

The D & C Lake Lines operate daily trips between Buffalo and Detroit, Cleveland and Detroit, four trips weekly between Toledo, Detroit, Mackinac and waypoints, and two trips weekly between Detroit, Bay City, Saginaw and waypoints. A Cleveland to Mackinac special steamer will be operated from June 15th to September 10th, leaving Cleveland direct for Mackinac stopping at Detroit enroute every trip and at Godrich, Ont., every other trip. Special daylight trip between Detroit and Cleveland, leaving July and August. Send 2 cent stamp for illustrated pamphlet and Great Lakes Map. Address: L. G. Lewis, G. P. A., Detroit, Mich.

Gentlemen:

One of the parties whose account we sent you has paid \$25.00 on account, his name is..... he promised to pay the balance soon. Keep after them and let the "good work go on."

Respectfully yours,
NARA BROS. & PFEIFER.

Jacobsville, Mich., 7-6-09.

WOOD AND BUILDING MATERIAL

I ALSO HANDLE Artistic Monuments

COST NO MORE THAN PLAIN ONES IN WHITE BRONZE

Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. It is very expensive. WHITE BRONZE is strictly everlasting, cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. They who do not investigate it! It has been accepted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronzes for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to mail with designs and samples of White Bronze.

PRESERVATION OF TIMBER FOR MINES

REPRESENTATIVE OF THE FOREST SERVICE OF THE U. S. DEPARTMENT OF AGRICULTURE READ AN INTERESTING PAPER.

John M. Nelson, Jr., assistant in charge of the wood preservation forest service of the United States department of agriculture, read a highly instructive paper at the first business session of the Lake Superior Mining Institute at Ishpeming Tuesday Wednesday morning. His paper dealt with the methods of wood preservation, with special reference to mining timbers. The lecture was illustrated.

Mr. Nelson contends that because of the depletion of the forests the preservation of timber has become necessary. Three times as much timber as is being produced by the forest growth is being consumed. The forest service has found that the consumption amounts to 200 cubic feet of wood annually by each person in the United States whereas his European brother consumes but sixty cubic feet. In years gone by the forests of the United States have been cut without system and with considerable waste. The land has been stripped of timber and the future productivity has been impaired. The service has found, by a most careful investigation, that the most serious agent of destruction is forest fires which have been allowed to run unchecked over vast areas of wooded country.

During the past fifteen years the government forest service has been encouraging a more conservative use of the present forest resources, and by systematic methods of reforestation to provide crops of trees for future generations.

Mr. Nelson contends that the preservation of cut timber is as of much importance as is the preservation of the standing timber. It is more profitable to preserve what we have than to provide for a future supply many years hence. The consumer may be willing to prolong the life of timber which he used but his failure to plant trees for the future timber supply is probably due to the fact that his profits are realized only after many years.

The forest service has determined that the annual timber consumption in the United States amounts to over 200,000,000 cubic feet. No inconsiderable quantity of this is consumed by fire, destroyed by decay or insects or is literally worn out. About 75 per cent of all the timber subject to replacement is destroyed by decay. Timber can be preserved from decay by peeling, seasoning or drying and by treatment with preservatives. It is estimated that if all of the timber consumed in the United States subject to decay were properly cared for, timber consumers would save \$72,000,000 annually.

DEATH OF MISS KORPILA.

Wellknown Ishpeming Girl Passed Away After Long Illness.

Miss Eva Korpila, daughter of John Korpila, 714 Park street, died Wednesday night, and her funeral will be held this afternoon at 2 o'clock from the Finnish Lutheran church. Death was not unexpected as her health had been failing gradually for the past year and a half.

The deceased was twenty-one years of age and was born in this city. For some time before she was taken ill she was employed as clerk in J. Sellwood & Co.'s dry goods store and was well known and very popular. Besides the parents there are two sisters, Sanna, living in Finland, and Judith of this city; three brothers, Jacob and Henry at home, and John, who is employed in the First National bank at Sault Ste. Marie. The latter came home Thursday and several relatives are here from the copper country to attend the funeral. Among them are Mr. and Mrs. John Nelson. The obsequies will be held under auspices of the ladies' auxiliary to the National Finnish Brothers' Temperance association, of which the deceased was a member.

Timber Should Be Peeled.

Mr. Nelson said that all timber, whether it be used as a mine prop, a railroad tie, or a telephone pole, should be carefully and thoroughly peeled. The lack of a living tree is necessary for its life and growth, but the tree cut the bark is a detriment to its economic use. The bark on mining timber increases its weight about 8 per cent, retards its seasoning or drying out, and affords a lodging and breeding place for wood destroying fungi and insects.

Seasoning timber, or reducing its water content, is a second step in prolonging its life, and is sufficient as long as the amount of moisture in the wood is kept below its resistance to the growth of the fungi. If timber is merely peeled and seasoned it will eventually absorb moisture from the air or ground. A thorough seasoning of the timber is of great importance for several reasons. It increases its durability, adds to its strength and reduces its weight, hence saving freight charges for transportation. Seasoning also renders the wood more porous and in better condition for the reception of the preservative fluids. From four to six months are usually necessary for the proper seasoning.

Although both peeling and seasoning prolongs the life of mine timber, a far better way to preserve it is to inject some fluid into the wood that will destroy the fungi necessary for the growth, and exclude the moisture necessary for their existence. Many antiseptics have been proposed from time to time. Among them might be mentioned antiseptic salts, such as zinc chloride, corrosive sublimate and copper sulphate, also some therapeutic oils, of which creosote, or dead oil of coal tar, is most generally used. The most common preservatives in general use are zinc chloride and creosote, both of which are excellent antiseptics. The preservatives best suited for the timber used by mining companies depends on the species of timber handled and the amount of sap it contains. The porous woods, such as pine or red oak, is more easily impregnated than is a dense species, such as white oak or tamarack. A less expensive, non-pressure treatment, therefore, is more suitable for the treatment of these porous woods. Sapwood is more easily treated than heart wood.

In the treatment of mine timber a low pressure method of application may be the best to use. If large numbers of ties are to be treated, an electric air power plant designed for the using of a limited amount of pressure is preferable. A low pressure plant with a fully capacity of 10,000 board feet, 800 linear feet of twelve-inch timber, may be installed complete for about \$6,000. This plant, Mr. Nelson stated, could treat about 200 standard ties in a day of twelve hours.

During the past year the forest service has been instrumental in establishing drying plants for three mining companies. The forest service does not favor any particular preservative process, nor any specific type of plant but recommends to the timber consumer the most economic method for preserving the particular timbers which they handle. Recently the impression has been created that non-pressure processes are designed to replace older and more fully established pressure processes for all timbers and for all conditions. Nothing could be less correct.

OLD SETTLERS' MEETING.

Native Born Citizens Will Be Eligible to Participate at Future Picnics.

A meeting of the old settlers who participated in the picnic at Cleveland park a week ago, Thursday was held Thursday evening at the Scandinavian society's hall. Picnic affairs were brought to a close and officers were elected for the ensuing year as follows:

President—E. J. Egan.
Vice President—James Luck.
Secretary—John Small.
Treasurer—Timothy Hughes.

There was about \$10 remaining of the funds collected to defray the expenses of the picnic and it was decided to send it to the Good Will fund.

The organization is to hold a picnic annually hereafter and its name was changed from "The Old Foreign Born Settlers" to the "Old Settlers" and will include all native born citizens who lived in the city prior to or during 1874. In each succeeding year thereafter the time limit of locating in the city will be extended so that a new lot of old settlers will be added annually. In 1911 those who located here prior to 1875 will be taken in.

The following resolutions were unanimously adopted:

"We heartily appreciate the good will and help we received from E. E. Scribner for his able and interesting address to that large assemblage at the park; also to George A. Newett and D. T. Morgan for the use of their automobiles. It was a great help in bringing out these that were disabled and who otherwise could not have attended the Old Foreign Settlers' picnic."

"LARS HOYSETH,
JOHN SMALL,
"A. A. LIND,
"Resolutions Committee."

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

Mercury will surely destroy the mucus of such and completely derange the whole system when entering it through the nose orifices. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold that which can be possible derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is a safe, reliable, non-toxic internally acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure get the genuine on the wrapper it is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonial.

Sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

For indigestion and all stomach trouble take Foley's Ointment Laxative, as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. Sold by all Druggists.

Using Inferior Woods.

The present high price and limited supply of timber of high quality for mining purposes are commanding the attention of mine officials. Moreover, the grade of timber is rapidly deteriorating. Inferior species of the more plentiful woods are being used to replace those of higher value, on account of the decreasing available supply. More money is being paid for less serviceable material than was paid for the better grade of timber a few years ago. Used in their natural condition, the inferior woods decay rapidly and in comparatively short time they must be replaced at a high cost for both timber and labor.

The timber situation Mr. Nelson declared, cannot be expected to improve, and in future it will be so non-desirable a problem of what is wanted as what can be obtained. The forest service officials have observed that the mining companies are beginning to grasp the situation and to take definite steps for devising a wood preserving policy. Many mining, railway and other companies, particularly in the east, are at present operating plants for treating mine timbers with chemical preservatives. In each case the forest service has co-operated with the mining companies in working out a wood preserving policy and in designing a suitable plant.

Mr. Nelson said that saved timbers used in the construction of buildings above ground and trestle works should be preserved from decay. The material is expensive; the labor cost of placing it in position is high and its replacement, even more costly. For 88 or 110 per 1,000 feet, board measure, this timber can be effectively treated with creosote and its life can be extended twenty years or more. The timber has sufficient strength for the work required. Sapwood may be treated and made as durable as heart lumber. The painting of the surface of timber with at least two coats of hot creosote, or some similar preservative, has a good effect on it. The treatment of railroad ties by painting the surface of the wood should not be considered.

In conclusion, Mr. Nelson stated that the forest service will be glad to assist the mining men in every way possible in the solution of their timber problem and to place at their disposal whatever information and experience it has acquired.

BAND CONCERT TOMORROW.

At the concert to be given by the Ishpeming band tomorrow afternoon, starting at 3:30 o'clock, at the Cleveland park, the following program will be rendered:

March—"Chicago Tribune," by Chambers.
Overture—"Post and Peasant," by Suppe.
Waltz—"Wedding of the Winds," by Hall.
Selection—"Red Mill," by Victor Herbert.
Grand Fantasia in Dixie Robinson.
March—"Wagner," by Troutman.

FROM MORGAN'S CURB LETTER.

"Little improvement in the New York market as yet, unless lessening of the price of liquidation be so considered. Looks as though the break must run its course. The East looks for lower prices on the leaders, though rallies may occur from time to time. The close was without material net change, a trifle higher if anything. Boston is still quiet and dull. North, but alone excepted. This issue was very strong, and the trading in it heavy. Iron-ore-annua, Butte-Columbia, Miami and Superior & Pittsburg were comparatively active. Listed coppers closed firm, and higher. The cuts were unusually quiet, even for this period, and prices generally a trifle lower. We still look for much higher prices for coppers. The reiteration of coming high prices may have become tiresome to our readers; nevertheless, irrefutable evidence of this is the enormous expenditure of money in increasing the productive capacity of our mines, the opening of adjoining ground, the acquisition and development of widely scattered properties of promise, and the construction of huge reduction plants. This is being done on a scale never before equalled, by the several groups of men who have led in copper mining for a generation. These men are rarely swayed by impulse, but guided by wide experience, cool, shrewd judgment, and the very best knowledge of conditions. In addition are the wonderful crops and the unparalleled activity in the steel industry. If past experience can be relied on, holders of good coppers will soon be well rewarded for their patience. Stocks can be bought most advantageously in the dull period following a recession. Buy the good coppers now."

DEATH OF MRS. CONDON.

A telegram was received here yesterday announcing the death at Auauashah, of Mrs. Michael Condon, one of Ishpeming's oldest residents. Mrs. Condon's health had been failing for more than a year past and some five or six months ago her condition was critical. Her daughter, Mrs. H. A. Holmes, also her two sons, William and Daniel, were called home at that time, but she improved considerably and went to Waukegan about two months ago to live with Mrs. Holmes. The family located in Ishpeming more than forty years ago. Her husband died here some six or seven years ago. The deceased was about seventy years of age. The remains will be received here this afternoon on the Northwestern train at 4 o'clock, and the funeral will be held from the station, with interment in the Ishpeming cemetery.

Butterick Patterns—The growing demand for these patterns is evidence that they fill the bill—10c and 15c, none higher.

(8-28-24) JOS. SELLWOOD & CO.

ELKS' GAME TODAY.

The Ishpeming Elks' team will meet a nine composed of members of the Negaunee lodge this afternoon at the Union Park grounds. Jim Roberts will be behind the bat and George F. Ruez and A. C. Lindington will do the pitching. Mayor Keese or George Wanek will be on first base; C. H. Dawson, second base; Hank Collins, third; Joe Fitzpatrick, short; Bert Ramsdell, left field; H. G. O'Keefe, right field, and Will Kinsman, center field. The substitutes are John Lacey, Louis Touthall and A. L. Brownell. The game will start at 2:30 o'clock and the admission will be twenty-five cents, with ladies free. There will be no charge for seats in the grandstand.

Now high-top shoes for ladies, misses and children. See them.

(8-28-24) JOS. SELLWOOD & CO.

Have your piano tuned now. M. J. Olson, the piano tuner, will remain in this city during the summer months. Orders taken at Wm. Leininger's store. (6-28-11)

A LAUGH OR TWO

No Race Suicide.

There are many anecdotes of actors and playwrights in the lately published recollections of Sir Squire and Lady Bancroft. Some of these, of course, originate with the always amusing H. J. Byron. To a provincial landlady he once bitterly complained of having been attacked by fleas.

Hard on the Local Talent.

The boarding on the town hall were covered with advertisements of the forthcoming concert, which was to be given by what was described as the cream of local talent. Lower down on the hoarding was a smaller placard which announced, "No dogs admitted."

Crushing a Barber.

The young man in the barber's chair had been annoyed by suggestions of the white coated artist, although he had said clearly enough when he sat down that he wanted only a hair cut and a shampoo. Singeing, facial massage and hair tonics had been offered vainly.

Thought He Needed Drying.

An English laborer in Cheshire attempting to drown himself, an Irish weaver who saw him go into the water, jumped after him and brought him safe to shore. The fellow making a second attempt, the reaper again saved him. But the laborer determined to do away with himself, watched his opportunity and hanged himself behind the barn door.

Waiting Up to Date.

Our esteemed friend Jerry Tompkins leisurely took a seat in Signor Spaghe's eating house. "Vessair" inquired a polite waiter, hurrying up.

The Help of the Prig.

The prodigal son, repentant, or, at any rate, weary of the diet of hunks forced upon him by a vigilant police system had experienced a change of heart and joined the church. The good sisters were discussing his desirability.

FREE TO YOU—MY SISTER

Free to You and Every Sister Suffering from Woman's Ailments. I am a woman. I know woman's sufferings. I have found the cure. I will mail, free of any charge, my home treatment with full instructions to any sufferer from woman's ailments. I want to tell all women about this cure—your mother, your sister, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor.

DESERTED VILLAGE.

Now Reclaimed, It Is a Summer Resort with Eighty-Two Inhabitants.

In a gorge close down against the foot of the First Mountain David Felt in 1846 began an enterprise that after a few years gave New Jersey its deserted village. He owned a blank book and stationery store in Brooklyn and another in New Orleans. To supply these with material, says the Travel Magazine, he built a factory in the bottom of the narrow gorge, and at the bluff edge of the level above he placed for his employees several commodious houses whose back windows looked sheer down upon the factory, twenty feet below.

Nothing Like It Here.

Joseph Leiter, at a dinner in Washington, said earnestly of his approaching European tour: "Where I am going I'll find something that we haven't here, and we'll never have here—namely, hopeless poverty."

Veteran's Longest Engagement.

At the Army and Navy club in Washington one evening a group of officers, most of them young men, were swapping stories of various engagements during the war with Spain and the subsequent troubles in the Philippines.

Romance at the Capital.

"Yes," said the man with the open countenance, "I married a girl in the mutilated currency bureau of the treasury department at Washington. Quite a little romance it was, too."

SHADOW THEATER.

Ancient Form of Entertainment Is Tried in Berlin.

Berlin has a shadow theater which is meant to supply to children the kind of entertainment that can be made much more adaptable to them than any of the plays arranged for their special benefit. The Munich shadow plays, in which the highly artistic figures are arranged by the painters of the city, cannot be said to be typical of such entertainments, since they are designed for the amusement of a small coterie of clever persons.

WASHINGTON'S PLAGUE SPOTS

Lie in the low, marshy bottoms of the Potomac, the breeding ground of malaria germs. These germs cause chills, fever and ague, malarial pneumonia, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malarial troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James of Louellen, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by The Stafford Drug Co.

SEARED WITH A HOT IRON.

So sealded by overturned kettle—cut with a knife—bruised by slammed door—wounded by gun or in any other way—the thing needed at once is Bucklen's Arnica Salve to subdue inflammation and kill the pain. It's earth's supreme healer, infallible for Boils, Ulcers, Sore Throat, Eczema and Piles. 25c. at The Stafford Drug Co.

Negaunee Department

EMPLOYED AT THE JACKSON IN 1856

UPPER PENINSULA PIONEER, VISITING THE CITIES OF THIS COUNTY THIS WEEK, TALKS OF EARLY DAYS ON LAKE SUPERIOR

John Ryan, one of the oldest of the upper peninsula pioneers, who lives at Michigan, paid a visit to the cities in the end of the county this week. He worked at the Jackson mine, under Superintendent Peck, in 1856, remaining there until the property was closed down in that year because of inadequate shipping facilities.

Mr. Ryan has a good recollection of the old settlers and the happenings in the upper peninsula during the fifties and sixties. He located at Ontonagon in 1854, taking a position at the forest mine, which was then being operated under Captain James Flannigan, father of C. Flannigan, now of the city of Jackson, who is remembered by many of the pioneers, was agent of the mine.

When Mr. Ryan arrived in Ontonagon there were only three white women in the county, all of these being at the Forest mine location. After working a year at the Forest mine, he moved to a quiet place, which he says, was then generally known as Carp River. He remained there during the year 1855, when he went to the Jackson mine. From Negaunee he went to Detroit, where he followed railroad work for a time. He was employed in the construction of what was known as the Detroit & Milwaukee railway, it being the first line that was extended into the city of Grand Rapids.

The railroad work was being conducted on a large scale and large forces were employed extending the line from Ionia, also at Presque Isle, to Grand Rapids. Mr. Ryan returned to Marquette in 1858, and worked for some time on the docks. The greater part of the ore coming from the mines in this end of the county was wheeled to the holds of the boats in barrows. The "Mighty" he says, was the largest steamer then hauling ore on the lakes, its capacity being 450 tons.

Some time after leaving the docks, Mr. Ryan worked on the old M. H. & O. road, under T. T. Harley. This was his last work in Marquette county prior to his departure for Huntington, where he remained many years, until he moved to Three Lakes, near Michigamme, nearly thirty years ago. He has resided here and at Michigamme ever since.

While on his visit to this end of the county this week Mr. Ryan spent some time at Presque Isle, which he declares is the most beautiful spot in the upper peninsula. He said that during the fifty years he has been a resident of the upper peninsula he has visited practically every picturesque place in this part of the state, but he has found none of them to compare with Presque Isle.

POPULAR SUMMER RESORT.

Cleveland-Cliffs Iron Co. Is Making Fayette Attractive Place.

Fayette, where the Jackson Iron company operated a charcoal furnace many years ago, is becoming popular as a summer resort. It is about a two-hour ride by boat from Escanaba, and three hours from Gladstone, and many residents of these places spend several weeks here this summer.

The Cleveland-Cliffs Iron company owns the land and cottages and is now repairing from ten to fifteen of the buildings, to be rented to resorters. There is a natural gaiting with forty feet of water on the Green Bay side, and there is a shallow beach on the opposite side of the peninsula. There is excellent bass fishing and an ideal place for bathing.

Most of the cottages are close to the lake, and each has a fine view of the hills and groves are unusually attractive.

TO BE MARRIED TODAY.

William H. Yates, who spent part of last week here visiting his parents, Mr. and Mrs. T. C. Yates, will be united in marriage today to Miss Eleanor A. Miller of Covington, Ky., the ceremony taking place in that city. Mrs. Yates and daughter, Miss Miller, will be present at the marriage, they having left here Thursday. Mr. Yates has been in the employ of the Allis-Chalmers company of Milwaukee, having been located at the Cincinnati branch. Just prior to his visit home he was notified that he was to be transferred to Dallas, Texas, and he and his bride will leave for there soon after their marriage. Miss Miller spent some weeks here last summer and is known to many Negaunee people.

START GAMES ON TIME.

There has been complaint because the league teams are not started on time. Nearly every game played during the past six weeks has been started from fifteen to thirty-five minutes after the announced hour. It was unavoidable a few times because of a poor condition of the grounds were in poor condition but in most cases there has been little excuse for the delays.

Tomorrow's game will probably be the last that Steidle will pitch for Negaunee, as he leaves some time next week to resume his position at the church lawn. Refreshments of various kinds will be served and the lawn will be attractively decorated.

The funeral of Mrs. Alfred Lag, who died Wednesday at the Negaunee hospital as a result of Paris green poisoning, was held Thursday afternoon. The inquest was held yesterday, the verdict of the jury being in accordance with the facts published in Wednesday's issue of The Mining Journal.

"Reddie" Mekey, Negaunee's crack catcher, played with Hopkins' Bloomer Girls team at Marquette yesterday, and he will also assist the nine in the game at Munising today. Few Negaunee people recognized Feller, the Negaunee shortstop, who, disguised as a girl, played center field in the game here Thursday. Feller's work in the field and his throwing was generally commented on by those who witnessed the game.

The water main which extends through the site of the new hose house will be moved Monday. It is expected that E. P. Spaulding, who has been awarded the contract for the construction of the building, will start the foundation work in a few days. He has advised the mayor and members of the committee in charge of the work that he may have some trouble assembling material promptly and was not certain that he could begin work the coming week. He has been given until Feb. 1 to complete the contract.

ELKS' GAME TODAY.

Members of Negaunee and Ishpeming Antiered Herd to Play Ball.

The members of the Negaunee and Ishpeming lodges of the Fraternal Order of Elks will play their ball game this afternoon, commencing at 2:30 o'clock, at the Union Park grounds. The Negaunee team will be managed by Al Willman and the players will be selected from the following: T. A. Thoren, W. H. Mitchell, Dave Murphy, C. L. Sporley, J. H. Winter, Phil Hogan, Jr., J. A. Wasmuth, Will Newcombe, D. Best, Al Willman, Ed Paull, Ed Laughlin, H. J. Peterson, Henry Treavor, Dr. B. J. Miller, G. Frotscher, Ben Weisheit, Ben Webster, J. J. Houscroun and Mike Burns. Thoren is slated to wear the mask and Mitchell and Murphy will do the twirling. Sporey will probably be at first base and Mayor Winter will likely hold down second.

The admission will be twenty-five cents, ladies free. There will be no charge for seats in the grandstand.

FLOOD CAUSED DAMAGE.

Matthew Malloney will leave tomorrow night for the Mesaba range, where he will visit his daughters, Miss Mary Malloney and Mrs. Will Hathaway, also his sons, Con and Matt. As a result of the heavy rain at Colerain about two weeks ago, Miss Malloney, who conducts a millinery and dressmaking business there, had her goods damaged to the extent of \$1,300. There was over three feet of water in her store. It is reported that nearly every other stock of merchandise in the town was also damaged. Operations have to be suspended for several days at the mines, some of which were nearly filled with water. Mr. Malloney expects to spend from ten days to two weeks with his sons and daughters.

WANT 100 MEN.

At the Mary Charlotte mine 100 men are needed, and Captain Hodgson says that number can get positions by applying at once.

LOCAL LAONICS.

Mrs. John Rough is spending a few days with friends at Escanaba.

Guy M. Johnson of Escanaba transacted business in Negaunee yesterday.

Mrs. Winter and Miss Virginia MacKenzie will serve at the Golf club this afternoon.

R. A. Ety, pension agent for the government, was here yesterday from Eau Claire, Wis.

The Misses Ethel and Lillian Taylor have returned from their visit to Yellowstone Park.

The funeral of Dominick Giorgiani will be held this morning at 9 o'clock from St. Paul's church.

The Misses Ruth and Florence Wells have returned from an extended visit to Connecticut and other Eastern states.

Howard Fenner and wife, who spent the past few weeks here, departed Thursday evening for their home in Detroit.

T. M. Wells is excavating for a basement under his dwelling. He has awarded Oscar Larson a contract to install a hot water heating plant.

Mrs. C. F. Moll returned to her home at Kenton Thursday, after spending some days visiting her mother, Mrs. A. C. Mackenzie, and other relatives.

Miss Theresa Helmsdorfer, who was home on a vacation, was called back to the Post graduate hospital in Milwaukee, where she is employed as a nurse.

Theodore Friberg is visiting relatives at Oshkosh. He will be accompanied by Negaunee by his sister, Miss Martha Friberg, who will visit here for a few weeks.

James H. McDonald, superintendent of schools at Rapid River, was in the city yesterday calling on old friends. Mr. McDonald was for several years principal of the high school here.

Dr. R. J. Miller will today begin moving his dental parlors from the Kirk block to the Neely block. He will occupy rooms on the second floor, facing both Iron and Gold streets.

Mrs. W. H. Shields of Charlevoix, Mich., who spent the past three months in the city visiting relatives, left Thursday for her home. She is the eldest daughter of Matthew Malloney.

The inquest in the case of Dominick Giorgiani, who was killed Wednesday morning at the Mesaba range, will be held this morning in Judge Verran's court and will be conducted by Coroner Prim.

A. H. Floodstrand, who did the brick work at the Negaunee high school building, has been awarded a contract for the brick and stone work on the Scandinavian society's new block on Gold street.

The members of the Ladies' guild of St. Paul's church extend an invitation to their friends to attend their social this afternoon and evening at the church lawn. Refreshments of various kinds will be served and the lawn will be attractively decorated.

The funeral of Mrs. Alfred Lag, who died Wednesday at the Negaunee hospital as a result of Paris green poisoning, was held Thursday afternoon. The inquest was held yesterday, the verdict of the jury being in accordance with the facts published in Wednesday's issue of The Mining Journal.

"Reddie" Mekey, Negaunee's crack catcher, played with Hopkins' Bloomer Girls team at Marquette yesterday, and he will also assist the nine in the game at Munising today. Spaulding, who has been awarded the contract for the construction of the building, will start the foundation work in a few days. He has advised the mayor and members of the committee in charge of the work that he may have some trouble assembling material promptly and was not certain that he could begin work the coming week. He has been given until Feb. 1 to complete the contract.

THE STATE BANK

of Negaunee, will soon be

READY FOR BUSINESS

in the First National Bank's former quarters, which are now being made ready.

ISHPEMING

NEW OFFICER TO HAVE CHARGE OF ARMY WORK

DIRECTION OF SALVATION ARMY'S NORTH PROVINCE SEEN TO BE TRANSFERRED TO LIEUTENANT COLONEL STEPHEN MARSHALL.

It is expected that there will be many important changes in the location of officers of the Salvation Army in the North Province on account of the appointment of Lieutenant Colonel Stephen Marshall, to succeed Brigadier J. W. Cousins, the provincial officer. At a recent meeting of the high officers the Norwegian Province was named to that of the North Province, which includes the upper peninsula, Wisconsin, Minnesota, North and South Dakota. The change in the executive officer came as a surprise to the staff officers, and it is assumed that many changes will follow.

Major Norton, the general secretary, and Major Watt, the division officers, are also to be removed to another field. There are in the neighborhood of forty corps in the North Province, but there are more than twice this number of officers, as some of the branches have two or more. It is not anticipated that the changes will affect the work in this district, as Mr. Marshall has a fine reputation as an executive officer. Brigadier Cousins made a good record.

In this week's issue of the War Cry, Mrs. Fensign Smith gives an interesting review of the life of Lieutenant Colonel Marshall, who has been an officer of the army continuously for the past twenty-four years. Practically all his life, he is still a young man, and is credited with having unusual ability. "One of the colonel's virtues," Mrs. Smith writes, "is his personal interest in his officers and their work. No matter is too trivial for his attention. His business is never too pressing to prevent his being helpful, sympathetic and praying with anyone with a burden of sorrow. Hardships and discouraged officers are sent to rights by a season in his office or the receipt of a letter of encouragement and suggestion. He is a broad-minded, big-hearted, out-and-out abolitionist."

During his twenty-four years as an officer the colonel has had charge of work in various parts of the United States, as well as in Canada.

Headquarters for Royal Society and D. M. C. embroidery floss. We carry all shades. JOS. SELLWOOD & CO. (18-28-24)

Theodore Friberg is visiting relatives at Oshkosh. He will be accompanied by Negaunee by his sister, Miss Martha Friberg, who will visit here for a few weeks.

James H. McDonald, superintendent of schools at Rapid River, was in the city yesterday calling on old friends. Mr. McDonald was for several years principal of the high school here.

Dr. R. J. Miller will today begin moving his dental parlors from the Kirk block to the Neely block. He will occupy rooms on the second floor, facing both Iron and Gold streets.

Mrs. W. H. Shields of Charlevoix, Mich., who spent the past three months in the city visiting relatives, left Thursday for her home. She is the eldest daughter of Matthew Malloney.

The inquest in the case of Dominick Giorgiani, who was killed Wednesday morning at the Mesaba range, will be held this morning in Judge Verran's court and will be conducted by Coroner Prim.

A. H. Floodstrand, who did the brick work at the Negaunee high school building, has been awarded a contract for the brick and stone work on the Scandinavian society's new block on Gold street.

The members of the Ladies' guild of St. Paul's church extend an invitation to their friends to attend their social this afternoon and evening at the church lawn. Refreshments of various kinds will be served and the lawn will be attractively decorated.

The funeral of Mrs. Alfred Lag, who died Wednesday at the Negaunee hospital as a result of Paris green poisoning, was held Thursday afternoon. The inquest was held yesterday, the verdict of the jury being in accordance with the facts published in Wednesday's issue of The Mining Journal.

"Reddie" Mekey, Negaunee's crack catcher, played with Hopkins' Bloomer Girls team at Marquette yesterday, and he will also assist the nine in the game at Munising today. Few Negaunee people recognized Feller, the Negaunee shortstop, who, disguised as a girl, played center field in the game here Thursday. Feller's work in the field and his throwing was generally commented on by those who witnessed the game.

The water main which extends through the site of the new hose house will be moved Monday. It is expected that E. P. Spaulding, who has been awarded the contract for the construction of the building, will start the foundation work in a few days. He has advised the mayor and members of the committee in charge of the work that he may have some trouble assembling material promptly and was not certain that he could begin work the coming week. He has been given until Feb. 1 to complete the contract.

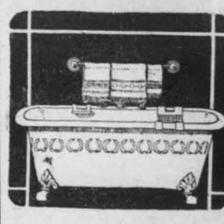

The members of Division No. 2 of the Ladies' Aid society of the First Methodist Episcopal church will serve an English tea next Wednesday afternoon from 3 to 6 o'clock in the church parlors.

The Excelsior club held its regular meeting last evening in the parlors of the First Methodist Episcopal church. Entertainment was provided by some of the members and a dainty lunch was served.

Miss Lizzie Greene of the National, who spent the past month on the Mesaba range, visiting friends, arrived home yesterday. She was accompanied by Miss Margaret Burns, a former resident, who will spend some time visiting here.

A fire broke out yesterday morning about 9 o'clock in the basement of Mrs. George R. Person's home at the Salsbury, and for a time threatened the destruction of the property. The flames reached the bath room on the second floor, but they were extinguished with out much damage.

The Foundation company of New York, which put in concrete shafts for the Cleveland City Iron company at the Salsbury and Kibler mines, on the Swaney range, and the North Lake property, on the North Lake range, has a fine display of photographs of shaft work at the Nelson House, arranged for the benefit of members of the Lake Superior Mining Institute. The pictures were taken at the shafts in this county as well as at other points where the company has done work of a similar nature. The members of the institute arrived here last evening about 6 o'clock from the Swaney range and many of the visitors departed their homes on trains leaving later in the evening.

BLOOMER GIRLS WERE MOSTLY MEN

WOMEN COULD NOT PLAY BALL, BUT FIVE MALES IN TEAM KEPT SECOND NINE BUSY.

FIVE TO ONE THE SCORE

Taking Advantage of Numerous Errors Made by Visitors, Manager Drumme's Players Won.

As a baseball team composed of women on the Chicago Bloomer girls are some thing of a joke, five of their nine are of the masculine gender, at least that is the way they lined up at the fair grounds yesterday. As a mixed baseball nine, however, they put up a fair sort of a game against the second team, forcing the latter to play their best all the way in order to win by the score of five to one. In fact, the second team was lucky to win as decisive a victory as they did, and had the male "bloomer girls" been able to hit Smith when he mounted runs, there might have been a different story to tell.

The female members of the team were Miss Carleton, captain, who played first base; Miss Ormsbee, who was stationed at third base; Miss Lansing in left, and Miss Dale in right field. "Miss" Orrie, who played short stop, was a man cleverly made up as a girl and did not look much out of place, except that he was a cracking good ball player, of which some of the real "bloomers" were guilty. McKey of the Neumann team, was the girls' second baseman, and Mack, of Marquette, played in center field. Johns and Reagan were the bloomer battery and held the second team to four hits. Miss Ormsbee was the only one of the girls that hit the ball safe, making a clean drive between first and second base. Miss Carleton played a fairly good game at first, but the right and left fielders were simply in the game for advertising purposes, judging from their actions.

Orrie the Star Player.

The star of the game was Orrie, of the Bloomers, who played short stop as well as the position has been played in Marquette this season. He or she (take your choice) covered an immense territory, and made several pneumonia throws to base, besides landing on Smith for two hits, one a three-bagger and the other good for two sacks.

The Bloomers made their single score in the seventh inning. Smith was courageous and walked. Miss Lansing, the first batter, to first. McKey followed with a two-bagger to center, and with Orrie, Johns and Reagan, the next batters the second team was worried. However, Orrie struck out, but the lady scored when Boston made a mess of Johns' grounder. McKey was caught at the plate trying to steal home after Jeanson had caught Reagan's fly, a beautiful throw, and the side was retired.

The summary follows:
Bloomers—A. B. H. R. P. O. A. E.
Orrie, ss..... 2 0 1 3 1
Johns, p..... 5 0 0 0 3 2
Reagan, 2b..... 3 0 0 0 2 0
Carleton, lb..... 4 0 0 0 1 1
Ormsbee, 3b..... 1 0 2 1 4
Mack, cf..... 3 1 0 2 0 0
Dale rf..... 3 0 0 0 0 0
Lansing, lf..... 1 0 1 0 0 1
McKey, 2b..... 4 2 0 2 2 1

Score by innings:
R. H. E.
Bloomers..... 0 0 0 0 0 1 0 1 0
Sec. Team..... 1 0 0 0 3 0 1 5 4 2
Two-base hits, Orrie, McKey (2).
Three-base hit, Orrie.
Struck out by Johns, 3; by Smith, 1. Hit by pitcher, by Johns, 1; by Smith, 4. Umpires, Peterson and Parker.

TURKISH BATHS AND CHIROPODY.

Frank Keough, 123 W. Ridge St., Marquette.

ANOTHER NEW STAMP.

Special Issue in Honor of Henry Hudson Will Be Ready Sept. 20.

Postmaster John D. Mangum has received a notice from the postoffice department at Washington that a new postal stamp of special design is now being prepared and that it will be ready for issue about September 20.

The purpose in issuing the stamp is to commemorate the discovery of the Hudson river by Henry Hudson in 1609, and the introduction of steam navigation on its waters by Robert Fulton, in 1807.

The stamp is oblong in shape, about 3/4 by 1 1/2 inches in size. It comprises a border containing at the top the inscription, "Hudson-Fulton Celebration," with the dates "1609" and "1809" immediately thereunder. On either side and immediately below this inscription is a curved line are the words, "U. S. Postage." At the bottom on each side is a prominent Arabic numeral "22" with the words, "Two Cents" in a panel between the figures showing the Palisades of the Hudson in the background, with the "Half Moon" sailing up the river, and the "Clermont" steaming in the opposite direction. In the foreground is an Indian canoe, and in the distance, just discernible, is a canoe containing four Indians, the canoe representing the first means of navigating the river.

There will be no issue of stamped envelopes, newspaper wrappers, or postal cards to commemorate these events. The stamp will be printed in the same color as the regular two-cent stamp. They will be issued in sheets of sixty stamps, instead of one hundred.

They will be placed on sale throughout the United States on September 25, but will not be sold to the exclusion of stamps of the regular series.

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. 8-27-09.

MANY BOATS DISABLED.

Thick, Foggy Weather Responsible for Unusual Number of Accidents.

An unusually large number of the big lake carriers are on the hospital list this week and will be out of service for a week or so to come. The foggy, thick weather on the lakes during the last month is responsible for most of the accidents, though not all.

The Senator and the Norman B. Ream are the latest additions to the list. At present the Senator is beached on the upper end of the middle ground of St. Mary's river with a big hole stove in her starboard side, abreast of the engine room, as the result of a collision with the Norman B. Ream. Both of the big boats were down bound with ore cargoes. The hole in the Senator's side let water into the cargo hold and there was barely time to beach her before she sank. She will have a long session in the docks before she is seaworthy again. The Ream will be able to proceed down the lakes, but her stem is badly twisted to starboard and she will have to go into the docks for a week.

The steamer Pathfinder, and the barge Superior, which were ashore in Lakes Superior, will be out the balance of the month. The big steamers Phipps and Morrell will lose a trip. The steamer Crescent City which was damaged when the steamer Walker carried away the gates at the Canadian Co. canal, more than two months ago, is still in dry dock at Toledo. Nearly all the accidents were caused by thick weather. Masters report that the last month has been remarkable for the persistence of the fogs on all of the lakes, and they have had considerable trouble and a number of their boats escapes, which have barely missed being accidents.

The shipyards have been kept pretty busy on repair work, and during the past week or ten days most of the dry docks have been occupied.

WIKSTROM'S DEATH PURELY ACCIDENTAL

CORONER'S JURY FIXES NO BLAME FOR FATALITY AT PICKANDS' DOCK THURSDAY.

The coroner's jury impaneled to investigate the violent death of Charles W. Wikstrom, which occurred in the hold of the Frontenac at Pickands' dock Thursday afternoon, returned a verdict of "purely accidental death" last evening, after hearing the testimony of several eye witnesses to the fatality. The inquest was not held yesterday forenoon, as first intended, because by postponing it until evening, the dock employees were able to get in a day's work yesterday.

From the testimony offered at the inquest by Wikstrom's fellow employees, it appears that his death was primarily due to the clam striking against a horizontal beam, while it was being swung to one side of the hatch to be filled with coal. This is said to be a common occurrence in unloading coal from boats, and that in hundreds of similar instances at the Pickands' dock, no one was injured. This time, however, Wikstrom either fell or was struck and knocked down by the clam as he was trying to get away from it as it swung off the beam, and was crushed beneath its weight, when it was dropped by the hoister, who supposed the clam was above the coal pile. As it nears the end of the swing, the hoister is supposed to let the clam drop several feet, which results in the blades sinking deep into the coal and when closed it is loaded. This time, it is believed that the clam was dropped a moment later than usual, which caused it to strike the beam above.

The dock foreman stated that he had repeatedly warned the men not to swing the clams to the sides of the hatches in this manner, but to shovel the remaining coal into buckets, which that directly below the hatches has been taken out in clams. However, as shoveling is hard work, this precaution is disregarded all along the lakes, and the clams are used as long as possible, regardless of the danger in swinging them.

The funeral of Mr. Wikstrom, the victim of the accident, will be held from his late residence, 672 Fisher street, at 3 o'clock Sunday afternoon, conducted by the Rev. Bates G. Burt, with interment in Park cemetery.

The deceased was a member of Superior tent, K. O. T. M. M., in which lodge he carried insurance, and was also a member of the Swedish Crown society.

SUNDAY AT THE CHURCHES.

Presbyterian church—Rev. Mr. Johnson, a missionary in Japan who is soon to return to that country, will preach at the Presbyterian church Sunday morning.

Methodist church—Mr. Maywood will preach at the morning service. Sunday school will be held at 12 o'clock noon and Epworth league meeting at 6:45 p. m., as usual. A very cordial invitation is extended to the public to attend all of these services. All seats are free.

First Baptist church—Worship and preaching; sermons by Dr. Kerr Boyce Tupper on "The Greatest Thing in the World," and on "The Most Wonderful Prayer of the Ages." The choir will consist of George Tucker, Mrs. A. H. Palmer, Miss Ross and William Tucker. The public is cordially invited.

Werner is noted for his attractions. At present he is having a demonstration of Burnett's Vanilla and other flavors, and Color Pastes, and judging by the number of ladies who have attended, it promises to be one of the most successful ever held in Marquette. (8-25-09)

SILKS.

E. F. Brotz, representing the Bonesho-Shaindang company of Milwaukee, will be at the Clifton House all next week, showing a very choice and complete line of silks. Appointments will be made at the home. (8-28-09)

Clas J. Anderson can furnish you with the best meats and poultry at lowest prices. Prompt delivery. 603 North Third street. Bell Phone 686, County Phone 77. (8-11-09)

Eli Condon, the trucker, is taking up the work of Mr. Orchard to remove garbage if you will give me a trial, call me up; Bell phone, 458-J. 6-7-09

Brocton Port and Brandy and Chase's Kentucky Whiskey are pure goods, and sold always by The Stafford Drug Co. (5-7-09)

FARMERS WOULD BE JUST LIKE TRUSTS

MICHIGAN TILLERS OF THE SOIL HAVE AN IDEA THAT THEY CAN BOOST THE PRICE OF POTATOES.

Circulars being sent around the state by the Farmers' Society of Equity (incorporated) with headquarters at Traverse City, one of which has been received by County Clerk Jenks, show that the humble soil tiller is learning from the trust methods of manufacturers with whom he has had sad experience. Now the Farmers' Society of Equity, which seems to have a revival of life, has its eye on an extra twenty-five cents a bushel on all the Michigan grown potatoes consumed this fall and winter in this and other states.

The circulars are issued to get the names of large growers of potatoes, who will be invited to a conference at Traverse City, September 8. The paper frankly states:

"If the kind of people we seek will attend this meeting arrangements can be quickly made so to control the marketing of this year's crop as to insure profitable prices, and the same machine will continue for future crops."

"The indications are that Michigan will produce the largest crop of potatoes ever raised and that the crop of the country will be a record breaker," it says. "Prices are down to fifty cents in many large markets, lower in some, and at some county points are selling for twenty-five cents. This is not encouraging."

"If the crop is dumped this fall, no person can tell how low prices will go. Without some sustaining element, many growers will dump and break the price down, and those who hold will have a glutted market to sell on, with the result that nobody will get a profitable price."

"The potato crop of Michigan is vital to the prosperity of the state. We have many counties that produce 1,000,000 bushels or more each. Twenty-five cents a bushel means \$250,000 each for these counties. Having this money or not having it will affect every man, woman and child. Organization will probably mean twenty-five cents more on every bushel."

The circular is signed by Walter E. Breuck, president, and Charles Emerson, secretary, Traverse City.

THEATRICAL.

"In Wyoming." Willard Mack's play of Western ranch life, will be seen at the opera house on Friday evening, Sept. 3. All the scenes are laid in picturesque Wyoming, the greatest cattle raising state in the world. Mr. Mack has taken for his heroine a young school teacher from the East, and for his hero a cow-puncher of the West; brought them together on the vast plains that nature claims as her own, and united them with a love as genuine as the air they breathe and circled it with a band of gold. He has made his people natural and true to life. Dalby and Hank Jones are gems of character sketching. Willie Settle, the fresh, young drummer from Omaha, and Chug Wilson, the mischievous cowboy, are full of genuine humor. The character of Bob Richards compares favorably with the "Virginian" and is expressed in the simple words "a man." Mr. Mack has written a great play of the West, and it will live along with "In Old Kentucky," "The Old Homestead," "Arizona" and "The Virginian."

300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Aug. 27.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Superior, 9 p. m.; Connelley, Henry, 10; Leonard, Phoenix, Halsted, 11; Laughlin, Fenelon, White, 1:30 a. m.; Woodford, 3; William Mitchell, 4:30; Cuddy, Wells, Richardson, Betty, 10:50; Empire City, Masaba, Crowe, 11:30; Choctaw, Garrison, noon; Rockettler, Carrington, Linspening, 1 p. m.; Manitowish, 1:30; Princeton, 2; Adriatic, Normanda, 2:30; Ranney, McKee, Zenith City, Holly, 3; Lecompton, Sweetheart, Frank Peavy, Wissabicka, Fryer, 4:30; Colburn, Queen City, 5; Castalia, Vail, South, Thompson, Louisiana, St. Stafford, McWilliams, Sonora, 6:30; Hartwell, 8.

FOR SUMMER ILLS

Sudden and violent stomach and bowel disorders are prevalent now. Such attacks are always dangerous and should be checked in the very beginning. Having the right remedy at hand will save suffering and may even save life.

Blackberry Balsam

should be in every home at this season of the year. It quickly relieves pain in the bowels and promptly cures cholera morbus, flux, diarrhoea, etc. Your money back if it fails.

Price 25c and 50c

Desjardins' Pharmacy,

417 North 3rd Street.

NOTICE,

JOSEPH ZALK

You will save dimes and dollars by calling at 222 S. Third St., between railroad tracks and Spring St., I am now located with complete lines of Stoves, Furniture and Household Goods, bought, sold and exchanged; also repair work done, Bell phone 301 black. (1-2-09)

NORTHERN STATE NORMAL SCHOOL

MARQUETTE

School Begins Monday, Sept. 27, '09.

The Northern State Normal School admits graduates of approved high schools to the two years' course leading to a life certificate and diploma. It offers courses leading to a three-year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. Has excellent facilities for training teachers for special work in Kindergarten, Music, Drawing and Nature Study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is a splendid dormitory in connection with the school, which is an ideal home for the student. The building is lighted with electricity and heated with steam; the living rooms are large and pleasant; the dining room has a seating capacity of one hundred and fifty persons. The expenses are moderate. Students of the Northern Normal School who finish the life certificate course are given fifty-six hours' credit at the University of Michigan. For information and catalogue write to
