MARQUETTE, MICH., TUESDAY, AUGUST 31, 1909.

PRICE FIVE CENTS.

Countries Represented, the International Trades Union Congress Is Marked by Lively Clash.

Attitude Concerning the Proposed World-Wide Confederation of Workmen, and When They Bitterly Denounce His View of the Movement, He Re-

Paris, Aug. 30,-Eighteen countries are represented at the international trades union congress, which opened here to The secretary announced the day. membership of the affiliated organizations to be 4,246,000. Samuel Gompers explained that he

had been invited to the congress person ally and not as a delegate of the American Federation, which is not additated with the European unions, though this was a possibility of the future.

posing an international workmen's fed eration, which, while not affecting the independence of the workmen of the respective countries, would create interna tional fraternity and solidarity. "Ameri can trade unionism," said Mr. Gompers "is the outgrowth of American condition. and conceptions. America is in allegi ance with the international movemen only as far as consistent with the ideas and ideals of the American unionists."

Dr. How Speaks for the Unemployed.

Dr. J. Eads How, who was present unofficially as the representative of the premployed in America, urged the reguto find work for the unemployed," How continued, "but the task is most difficult, when thousands of foreigners and arriving, almost exceeding to find gold on the streets."

The conference adopted a resolution of sympathy with the workmen of Sweden thousands of homeless persons at Monand Spain, and appealed to the workmen terrey has been permitted to go hungry. of the world to struggle for the abolition four soup kitchens are doling soup, cof- Reverly before the president starts west of war, Following this there was a fee and bread to the needy. Mr. Gompers reternational union." plied that he would do everything possible to secure effective co-operation.

Several European delegates bitterly denounced what they elaimed to be the Isthmus Is Shaken by an Earthquake but whether the prospective appointed equivocal attitude of the American Federation toward joining the international

movement, and Mr. Gompers energetically repelled the attack. One obstacle in the way of affiliation, he said, was the feeling that antagonism existed in Europe towards American trades unionism. Moreover, it was feared that the Ameri-can workmen might be compelled to subordinate their policies to those of men knowing little about American industrial conditions. Said Mr. Gompers: "I have no authority to pledge the affiliation of the American federation, but 1 believe it will come in time."

His Statement Received Coldly.

Mr. Gompers' statement was received coldly. Several delegates, protesting, said that the impression had been given that the Americans meant business and had sent Gompers as an official delegate. Mr. Gompers was sarcastically thanked for his opinions, but was told that the trades congress did not need them. Hard Fighting at Various Points Costs

Mr. Gompers, stinging under the re-"I regret that you have buke, said: misconstrued my remarks as an attack upon European trades unionism. I re-

peat, we are sincerely desirous of an international federation, but only so far to Restinga Elarba, which has considus, it will be unfortunate. Nevertheless, we will continue to do everything possible to attain the goal for which the great havoc. human race is struggling-international

fraternity and unity Herr Hueber, an Austrian, retorted musa, yesterday. The Moors lost 650

icans began talking about joining an enemy, reinforced by a mountain tribe, international confederation, and it was is forming two columns, one to attack pers is merely on a voyage of discovversy with the statement that Mr. Gom-

pers was only a guest. The newspapers devote much space t

the significance of Gompers' presence. The Journal Des Debats points out that the American federation and the French federation, which did not join the last two conferences, represent opposite conceptions, American sentiment utterly opposing building unionism on a foundation either of socialism, politics or revolution.

ENTOMBED MINERS RESCUED.

Sosnowiec, Russian Poland, Aug. 30.-Twenty-two entombed miners of the Dombrova mine, which was flooded yes terday by an inrush of water from a disused shaft, were rescued today. Six are still imprisoned.

When the postal savings bank proposa is brought forward seriously it is prob able that fanatics of all kinds will try to secure in it recognition of their pe ideas and fears. Motives will be attacke according to the familiar method. Al wonder what they are to be offered in eliminated himself as far as 1912 is con- though a majority of both houses of con-

The Tenderfoot Farmer It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations. It's only a "tenderfoot" farmer that would try such

an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an un. failing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medieine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery.

THE DAILY MINING JOURNAL

PAGE FIVE.

There will be a pleasing distribution of dividends on September 1st. These dividends take the form of accrued interest on savings deposits and are paid by all savings banks-on the basis of three per cent per annum. This bank will itself pay out to its savings depositors a number of thousand dollars in interest and we hope that you, reader, will enjoy your share in the distribution. If you don't, will the fault be yours or ours? On every dollar which you deposit in our Savings Department we will allow you compound interest at 3 per cent-payable September and March 1st. You ought to save at least 10 per cent of your earnings.

If you make a deposit now, or before September 5th, and leave it in the bank until March 1st, it will be entitled to six months' interest at that time. Deposit by mail, if more convenient.
