

WALL STREET BEARS HAVE VERY SAD DAY

Demise of Harriman Is Followed by One of the Most Remarkable Advances of Prices in the History of the Stock Exchange.

That the Financial World Has Thoroughly Discounted the Passing of the Union Pacific Magnate, and That His Great Railroad Organization Will Not Be Disturbed, Become Accepted Facts, as Does Statement That Death Was Due to Cancer.

Vienna, Sept. 10.—Professor Adolph Struempel, a specialist, whom the late E. H. Harriman came to Europe to consult, now admits that when he saw Mr. Harriman, in July, he diagnosed his complaint as cancer.

New York, Sept. 10.—According to the members of the Harriman family, no operation was performed, because the most noted physicians and surgeons in the world had failed to diagnose the case and as they did not know what was the matter with Mr. Harriman they could do nothing for him.

Two Beliefs Accepted as Facts. New York, Sept. 10.—Two beliefs concerning the death of Edward H. Harriman became accepted as facts today—first, that his great railroad organization will not be disturbed; second, that the financier's death was due to cancer.

Wall Street's response to Harriman's death was a buoyantly strong market, with an enormous volume of business—over 1,500,000 shares. To this vast amount Union Pacific and Southern Pacific alone contributed over one-third.

At the meeting of the Union Pacific and Southern Pacific directors next Monday, it is believed that something more than expressions of regret at Mr. Harriman's demise will engage the attention of the directors.

Uphoot of Prices Unparalleled. New York, Sept. 10.—Today's market has no parallel in stock exchange annals. There have been instances when the preparation in anticipation of the death of an important capitalist has minimized the effects of the shock on the market, but today's excited upshoot of prices was unprecedented.

The board's discomfiture was materialized by the announcement of Kuhn, Loeb & Co. that it and other leading banking interests were acting in unison in Union Pacific affairs.

The board's discomfiture was materialized by the announcement of Kuhn, Loeb & Co. that it and other leading banking interests were acting in unison in Union Pacific affairs.

Funeral Will Occur Tomorrow. Mr. Harriman's Grave at Arden Is Blasted from Solid Rock.

Arden, N. Y., Sept. 10.—The arrangements for the Harriman funeral on Sunday were completed today at a family council. Family services will be held at the Arden house at 10 o'clock.

High Post for Kitchener. London, Sept. 10.—Lord Kitchener, who recently succeeded the Duke of Connaught as inspector general of the Mediterranean forces, has been made field marshal of the British army.

More Bad Floods in Mexico. Mexico City, Sept. 10.—Another terrible flood has visited the Jamiltepec district, state of Oaxaca. Much property has been destroyed, and scores of laborers have been drowned.

MR. TAFT HANDS OUT MORE JUICY PLUMS

He Announces a Number of Appointments to the Exceedingly Lucrative Position of Census Supervisor in the Bigger Cities.

Willard Hotchkiss, Professor of Economics at Northwestern University, Gets the Chicago Post, and Otto Hebbeggar, a Prominent Business Man, Gets That at Milwaukee—These Men Typical of the Character of Those Selected Throughout the Land.

Beverly, Mass., Sept. 10.—President Taft announced a number of big city census supervisors today, and the list of the higher census officials is rapidly being completed.

Omaha, Sept. 10.—For five minutes during the Harriman funeral the Union Pacific system will be at a complete standstill in honor of the dead chief.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

Chicago, Sept. 10.—The payment of bribes to Edward McGann while he was an inspector of the Chicago city police, for the protection of illegal establishments, was testified to today by Louis Frank, a saloon keeper.

THE WEATHER.

Washington, Sept. 10.—The following is the weather bureau's forecast for Upper Michigan: Fair and warmer, Saturday; Sunday, increasing cloudiness, with probably showers; increasing southeast winds.

BASEBALL.

STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and American Association, listing teams and their records.

SCHEDULE FOR TODAY.

Table listing baseball games for today, including National League, American League, and American Association games.

YESTERDAY'S GAMES.

Table listing the results of yesterday's baseball games.

ENDORSE INCOME TAX.

Democrats at Saratoga Also Favor Abandoning the Philippines.

Saratoga, N.Y., Sept. 10.—After adopting a declaration of principles, which included the endorsement of the federal income tax, and naming the organization "The Democratic League," the Democratic conference adjourned today.

Chicago, Sept. 10.—Chicago won a double-header today. The first game was hard fought, Bobbe making the Cubs hustle to win.

Chicago, Sept. 10.—Chicago won a double-header today. The first game was hard fought, Bobbe making the Cubs hustle to win.

Chicago, Sept. 10.—Chicago won a double-header today. The first game was hard fought, Bobbe making the Cubs hustle to win.

Chicago, Sept. 10.—Chicago won a double-header today. The first game was hard fought, Bobbe making the Cubs hustle to win.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE
MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class
in the postoffice at Marquette, Mich.

Stocks went up when they were expected
to go down. It was ever thus.

Perhaps Mr. Wagner has not yet become
accustomed to our Marquette county
climate.

It appears that the first item on
Commander Peary's plans for the future
is a determined attempt to put Dr. Cook
in bad with the world at large.

President Taft has now solicited
both Dr. Cook and Commander Peary.
Might as well unpire a baseball game
as to take sides in the polar scrap.

With both Marquette and Negaunee
getting to Ishpeming it appears that our
Ishpeming friends are fortunate in having
such a considerable lead in the league
percentage column.

The country feels so charitable in regard
to Mr. Harriman, now that he is gone,
that everyone is willing to forget
that President Roosevelt once termed
him an "undesirable citizen."

It might be well to delay the debate
over who owns the north polar region
until we are certain that it has been
discovered. If we credit both the Cooks
and Pearyites no one has yet been
near it.

President Taft is a good fan. Secretary
Carpenter has telegraphed the Chicago
committee to cut out anything else
that may be necessary, but to be sure
to see that they get their guests to the
baseball game.

Ishpeming some weeks ago ordered an
automobile sprinkler, which the manu-
facturers promised to send along in jig
time. It is now so long overdue that
the Ishpeming council would act wisely
in advising the firm to send on an auto-
mobile snow plow in its place.

The local option committee in Chippewa
county has published an announcement
that already 300 more names than the
required number have been signed to
the petitions which will be presented to
the board of supervisors in October.
It is said, also, that some precincts have
not been reported on, and that the signa-
tures will largely exceed the number
already obtained.

The best thing that could happen with
regard to the Peary-Cook controversy
would be to refer the whole thing to
some commission of arbitration, like
the coast and geodetic survey, and then
have the press, public and explorers fore-
go any discussion of it until a decision
is reached. The backbiting between the
Cook and Peary camps is doing nobody
any good.

The outcome of the Johnson-Kaufman
bout at San Francisco leaves the situa-
tion in regard to the "heavies" just where
it was before. Johnson was not pressed
to show his superiority over Kaufman,
who apparently knows little about the
finer points of the game. It will have
to be a more formidable opponent than
Kaufman who can take the negro's
measure. Perhaps no less a man than
Jim Jeffries will be required to do it,
and there is such a thing as even Jeffries
falling down on the job.

Dr. Cook has decided to cancel his
proposed visit to Belgium. His latest
announced plans call for his departure
today for New York from Christiania.
His arrival in New York should be a
matter of less than two weeks. Peary
will be along shortly, too. It is probable
that Dr. Cook will make a more
detailed statement about his polar trip
coincident with his arrival home. He
should do so. The public is entitled to
knowledge of more of his evidence. Peary
is going to tell his whole story, and has
already delivered the first installment.
Dr. Cook can afford to do no less. The
standing of his evidence with the scientific
bodies will not be impaired because
he has given advance information to the
newspapers as to what it consists of.

When we read that last year not a
single passenger was killed on a rail-
road in Great Britain we realize that
there is lots about railroading we could
learn from our British cousins. The record
in Great Britain last year was not

5% DEBENTURES

exceptional. The loss of life on British
railroads has been infinitesimal com-
pared with the slaughter on American
roads ever since comparisons were made.
For a decade past it is said that the
average loss of life of passengers on British
railroads has averaged not more than
twenty-one a year, or an average loss of
but one life for 12,500,000 journeys taken.
The better showing of the British roads
compared with the American is said to
be due to better laws, better enforced.
When will we take some pages out of
the book of British experience?

The strike of the employees of the
Pressed Steel Car company at McKees
Rocks has been settled on a basis that
concedes practically everything sought
by the men. Even the 600 hands who
first quit work are to have their places
back, and the strike leaders have been
granted amnesty. This result is generally
attributed to the fact that the
revelations of the manner in which the
company was obtaining the services of
strikebreakers, and the manner in which
they were being treated in the works,
caused public opinion to veer strongly in
favor of the strikers, and against the
company. Public opinion is the most
powerful influence in any labor disturb-
ance. Once it sets firmly in favor of one
or the other of the disputants it is not
long, as a rule, before victory inclines
the same way.

Incendiarism is reported to be respon-
sible for the destruction by fire of a
Manistiquet brewery. The local option
fight is waging hot in Schoeller county,
and it is possible that some fanatic
of comparatively weak mind was so un-
duly excited by it that he conceived
that he would be doing a good work by
burning down the plant, although, it is
only fair to state, no facts have been
adduced to bear out this theory. The
men interested in the brewery are
holding all plans for rebuilding
in abeyance, pending the out-
come of the election on whether the
county will go wet or dry. In the event
that it goes "dry," the fire would prove
not to have been such a great calamity
after all, for then the stockholders would
have their insurance money. And in-
surance money is much to be preferred
to a brewery that is not permitted to
brew.

Governor Warner has appointed Chas.
B. Collingwood, of East Lansing, the
new circuit judge for Ingham county, the
last legislature having authorized the
naming of a second judge. The appoint-
ment is being received with vociferous
disapproval by many Ingham county
Republicans, and the Lansing Republican
attacks Governor Warner for making it
in a lengthy editorial article in which it
is called an insult to the county. Judge
Collingwood has been postmaster at East
Lansing, and it appears that he has
not been engaged in active
legal practice for several years. The
basis of the fault-finding because
Governor Warner selected him is the
assertion that the governor could have
found other men better equipped, from
a legal standpoint, for the place. Those
who take exception to his action are
mostly old anti-administration Republi-
cans. The heat displayed shows that the
discord engendered by the campaign of
last year has far from passed away.

Dr. George A. Fritch, of Detroit, is
figuring in the police reports again. This
time he is suspected of having had a hand
in a criminal operation which is believed
to have resulted in the death of the Ann
Arbor girl, whose dismembered remains
were found this week. Dr. Fritch was
charged with a similar operation
that resulted in the death of the Presley
girl, which furnished the sensation
of the legislative session of 1907. It
proved necessary to nulle proce the case,
but there was little doubt that he was
guilty as charged. He is generally held to
have specialized in this class of cases,
and no surprise will be occasioned if he
is found to have been, in a measure, re-
sponsible for the death of the Millman
girl. Every participant in the tragedy,
and every person that had any part
in the mutilation and disposal of the
body, should be hunted down and pun-
ished to the full limit of the law. It
is only by vigorous measures that il-
legal practices by mountebank medical
men can be effectively stopped.

Acting under the new law for the
registration of nurses, Governor Warner
has appointed the following board of
registration: Miss Elizabeth Flaws, of Grand
Rapids, and Miss Alfreda Galbraith of
Cheboygan, for the term ending July 31,
1912; Dr. Arthur Schidmore of Three Rivers,
and Miss Elizabeth Tracey of De-
troit, for the term ending July 31, 1915.
The nurses are well represented on the
board. The law is designed to assure
that only competent persons shall take
up professional nursing in Michigan, and
provides for registration after evidence
is given of proper capacity for engag-
ing in the work. Heretofore the nurses
have had no official standing in Michi-
gan, though it has come to be as im-
portant that competent nurses are em-
ployed as that the services of a com-
petent physician are retained. The op-
eration of the law is expected to weed
out the unfit nurses and to give the pub-
lic assurance that when a registered
nurse is employed one thoroughly qual-
ified to properly discharge the manifold
duties of the sick room, even in the most
serious cases, has been obtained. The
new board should insist on a high stand-
ard of ability in applicants, thus further
elevating the standing of the profession
and insuring better co-operation with
the work of the physicians.

FAMILY CURED OF
SKIN TROUBLES

Two Little Girls had Eczema Very
Badly—In One Case Child's Hair
Came Out and Left Bare Patches—
Father's Head Sore from Child-
hood—In All Three Cases

CUTICURA MET WITH
ITS USUAL SUCCESS

"I have two little girls who have been
troubled very badly with eczema. One
of them had it on her lower limbs. I
did everything that I could hear of for
her, but it did not give in until warm
weather when it seemingly subsided.
The next winter when it became cold
weather the eczema started again, and
also in her head where it would take the
hair out and leave bare patches as large
as a quarter of a dollar. At the same
time her ankles were sore to the whole
length of them. I took her to a phys-
ician and he said that she had two
distinct types of eczema. I continued
with him for several weeks and the
child grew worse all of the time. Her
sister's arms were also affected in the
same way. My husband's head was
one day with a box of Cuticura Ointment
and a cake of Cuticura Soap. I
began using them and also the Cuticura
Pills and after a few days the eczema
disappeared. My husband's head was
used their skin was soft and smooth as
it had not been before for the winter.
We keep the Cuticura Soap and Cuti-
cure Ointment constantly by us and
when any little roughness or irritation
appears on their skin I quickly dispel it
with the Cuticura Remedies. My husband
has used them with most satisfactory
results for a sore head which has trou-
bled him from childhood. Mrs. Charles
Baker, Albion, Me., Sept. 21, 1908."

Captain Percival Archibald Clavering
De Greyevend Willingham Butt is the
most gorgeous thing in Washington pub-
lic life. He has fifty-seven varieties of
uniforms and Solomon in all his glory
was never arrayed like Butt. When he
hits Pennsylvania avenue with all of his
gold lace on, the sun hides its face from
sheer envy, the little plants in the pub-
lic gardens turn their faces toward him
and grow like weeds, and all nature
beams. He is the president's aide and
Mrs. Taft's esquire. No one should gain
the mistaken impression that he is a
molly-coddle, however. Captain Per-
cival, etc. Butt can dance the two-step
with the grace of a ballerina, and can
pick up the perturbed handkerchief
of a society belle and hand it to her
with the ease and bong swa of an
eighteenth century French courtier.
He would have been an ornament to the
days of chivalry. But, at the same time
Butt is a fighter. He has a fine array
of record and has never turned his back
upon friend or foe. He has fought his
way up from obscurity and at times in
his life thirty cents would have been a
whole lot of money. It is only justice
to say that he did not pick out his
own name. It is understood that
each of his aunts and uncles donated one
and he now wears the whole string from
Percival to Butt and wears them like
a brave man and a soldier. Nobody has
ever had the temerity to call him "Per-
cival" for he really isn't that kind of a
person at all. He is a big, manly man,
aside from his unfortunate name.—

That it has been accompanied by no
acute disturbance of stock values is in
no small measure to be attributed to the
manner of its coming. Death with Mr.
Harriman played a slow and gradual
approach. Plenty of time was given to
make arrangements to counteract its ef-
fect. Had it been of sudden occurrence
it would have been followed by drastic
fluctuations in stocks, though even in
that case the flurry would probably not
have been prolonged.

The uncertainty over Mr. Harriman's
condition was an unsettling influence in
the stock markets over a period of sev-
eral weeks, which is now removed. There
will be no more fluctuations on the basis
of reports as to his condition, from day
to day. If anything is to unsettle the
market it must be some new factor.

PEARY AT FAULT.

Commander Peary is cheapening him-
self and belounging his valiant record as
an Arctic explorer by his attacks on Dr.
Cook's veracity. Whatever his opinion
of his former surgeon's claim may be,
it is not for him, the defeated and bit-
terly disappointed rival, to make wild
and unsubstantial charges against his
brother adventurer and fellow country-
man.

The only judges and umpires in this
matter are the scientific bodies which
will pass upon the evidence presented by
both Peary and Cook, and if the former
does not want to appear in the light
of a "poor loser" and an unsportsmanlike
"knocker," as the parlance of the day
has it, he had best confine himself to the
telling of his own story and leave
Dr. Cook well out of it.

Of the two discoverers, Cook is cer-
tainly conducting himself with superior
tact, dignity and self-restraint. Great as
the provocation must be to try to
handle in the face of public suspicion
and clamor, he is calmly bidding him time
till he can place his data and observa-
tions before the proper authorities. Not
only that, but he meets the charges as-
cribed to Peary with a dignified denial
and a statement of disbelief in their al-
leged origin.

TO CONSERVE WATER SUPPLY.

Engineers' Plans Call for Vast Expen-
ditures but Will Add Immensely to
New York's Wealth.

The gigantic project of conserving the
billions of gallons of water that run to
waste in the twelve watersheds of New
York and transforming it into industrial
energy, with a resultant revenue to the
state, is the subject to be presented to
the legislature by engineers of the state
water supply commission, which have
spent two years figuring out a practical
plan.

Carried into effect at a cost which can-
not fall below \$30,000,000, the scheme
means the wiping out of villages and the
erection on their sites of huge dams and
reservoirs; the ripping up of railroad
tracks; the submergence of county roads
and the forming of them into navigable
waterways; the construction of a sys-
tem of reservoirs on the upper Hudson
that will practically do away with great
freshets; the enlargement of Schroeon
lake in the Adirondacks, so as to estab-
lish a continuous line of deep-water nav-
igation for thirty miles; the transforma-
tion of three hamlets into water fronts,
with piers at their doors; the plying
of vessels between villages over what
are rocky turpikes—why, it would all
sound like a chapter from the pros-
pectus of "Mulberry Sellers" were it not
buttressed by hard, practical engineer-
ing facts.

It is not likely, even after the two
year survey and exhaustive investiga-
tion of the tremendous possibilities pre-
sented, that a full working plan can be
prepared in less than another year; but
when it is finished it will be put forward
as an engineering feat, combining beau-
tification of the natural with the utiliza-
tion of what are spent forces never at-
tempted on such a scale anywhere in the
world. It is designed, according to the
plans of the engineers, not only to turn
the comparatively valueless parts of forest
and meadow into spots of sylvan
beauty, but to increase the wealth of the
state by adding to its employment.

There are in New York 1,824 plants run
by water power; their total horsepower
is 830,000. The actual horsepower in use
is 618,942, due either to inadequate sup-
ply or ignorance of owners of the pow-
er value of water as compared with fuel.
If the system of reservoirs and dams as
projected becomes an actuality, the en-
ergy will be increased to 2,900,000 horse-
power and without any further encroach-
ment on Niagara.

Two Million Bottles
of Perry Davis' Painkiller sold every year.
Think of it! And every bottle is lessening
suffering and helping some human being
to health and happiness! This wonderful
household remedy stops the pain of sprains,
burns or bruises. It relieves rheumatism
or neuralgia. It cures colds, cramps, colic,
diarrhoea. There ought to be a bottle on
your shelf just now, ready for the first
sign of trouble. The new size bottle is 35
cents and there is also the 50 cent size. Be
sure your druggist gives you Perry Davis'.

on time. H. Patrick, Marquette. 9-19-09

GOLD MEDAL FLOUR

Copper Country

BIG WRESTLERS TO COMPETE. Many Entries Assured for the Tournament at the Houghton Amphidrome

The Houghton Athletic club's world's championship wrestling tournament will be held in the Amphidrome this afternoon and tonight, and the management is assured that a large number of wrestlers will compete.

It appears that there are two new lights in the wrestling firmament to be reckoned with. Kearsarge is going to send Tim Murphy, who is touted as a corner. He is one of the new crop of wrestlers who are coming from Calumet.

MAKING NEW FAIR GROUNDS. Dredge Operating in Portage Lake to Fill Back of New Dock.

The bottom of Portage lake is being drawn upon to make additional grounds for the Copper Country Fair. Henry Key, contractor, is digging from the bottom of the lake with an orange peed dredge and in that manner is assisting the village teams which are dumping street refuse and other excavated material behind the Amphidrome dock across the foot of Ripley street at Houghton.

The lake bottom opposite the Amphidrome is covered with sludge and the old mill which was operated in Houghton in the early days, and the dredge works rapidly in this soft material. It is a somewhat interesting operation, too, because the orange peed dredger is not common in this region.

The Michigan Fish commission has advised the fair that the Pontiacs, the commission's car, will arrive in Houghton, Sept. 19 and will place in the fair a fish exhibit and a number of squaria to be filled locally.

Secretary McManaha has secured a fine traction for the fish exhibit, an 80-horse power steam engine, which is a fisherman near Pequaming and which he now has in captivity. This is a monster fish and in a tank at the fair will probably be one of the big attractions.

DR. HOWLETT RESIGNS. Physician at Trimonant Will Practice at Detroit.

Announcement is made of the resignation of Dr. E. V. Howlett of Trimonant, a member of the Copper Range Consolidated Mining company's medical staff. The resignation has been accepted and will become effective the first of October. Dr. Howlett will locate in Detroit.

At a meeting of the board of directors held this day a quarterly dividend of \$1.00 per share, being Dividend No. 23, was declared, payable on Friday, October 1st, 1909, to stockholders of record at the close of business on September 4th, 1909.

J.A. Minnear & Co. BROKERS. Offices at Calumet and Laurium. Direct private wire service to all markets.

Phones: CALUMET, 61 and 75. LAURIUM, 450, 520 and 605.

THOMAS H. SODDY PROMOTED. Is Appointed Superintendent of Calumet & Hecla Motive Power.

Thomas H. Soddy, for many years superintendent of motive power of the Calumet branch of the Calumet & Hecla Mining company, has been named by General Manager MacNaughton as superintendent of motive power over all the company's properties, succeeding Captain James Ramsey, who retired a year ago and changed his residence to Salt Lake City.

SPANISH VETERANS' REUNION. George Miller Camp of Houghton Will Try to Arrange for One.

There is a possibility that there will be a reunion of the Spanish-American war veterans of the upper peninsula in Houghton next summer. George Miller camp, of Houghton has discussed the possibility of such a gathering several times, and it is now planning to go ahead with the arrangements.

THE CRUISING LAUNCH Kelpie to Houghton. The cruising launch Kelpie was tied up at the Houghton County Electric Light company's dock yesterday morning, having arrived at Houghton during the night from Chicago with her owner, F. J. Bawden, and party on board.

HEAD OF CINCINNATI BETHEL. Rev. James O. White Visits Houghton—Formerly of Trimonant.

Rev. James O. White of Cincinnati, head of the Union Bethel in that city, has arrived in Houghton to visit friends. Mr. White was formerly pastor of the Trimonant M. E. church and left about five years ago to take his present position in Cincinnati.

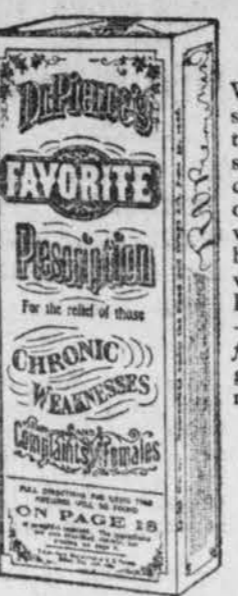

DEATH OF FRED KARINEN. Former Calumet Finnish Newspaper Man Expires at Astoria, Ore.

News of the death on Thursday at Astoria, Ore., of Fred Karinen was received in Calumet yesterday. Mr. Karinen was publisher of a Finnish daily newspaper in Astoria. His death is said to have been the result of heart trouble. He was fifty-two years of age.

GO WITH A RUSH. The demand for that wonderful Stomach, Liver and Kidney cure, Dr. King's New Life Pills—is astounding.

When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce.

IT MAKES WEAK WOMEN STRONG. IT MAKES SICK WOMEN WELL. No woman's appeal was ever misdirected or her confidence misplaced when she wrote for advice, to the World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

Honored by Women. When a woman speaks of her silent secret suffering she trusts you. Millions have bestowed this mark of confidence on Dr. R. V. Pierce.

EASTERN STAR ELECTION. Houghton Chapter Chooses Officers for the Ensuing Year.

The annual election of officers of the Houghton chapter, Order of the Eastern Star, was held Tuesday night, with the following result: Worthy Matron—Miss Ethel Stoyke.

INTEREST IN HOCKEY LEAGUE. D. W. Dryden of Canton, Mass., Would Like to Have a Share.

John T. McNaughton, manager of the Amphidrome and one of the big figures in the American hockey world, has received from D. W. Dryden of Canton, Mass., a letter in which Mr. Dryden states that if the proposed hockey league is to be a go he would like to become interested in it.

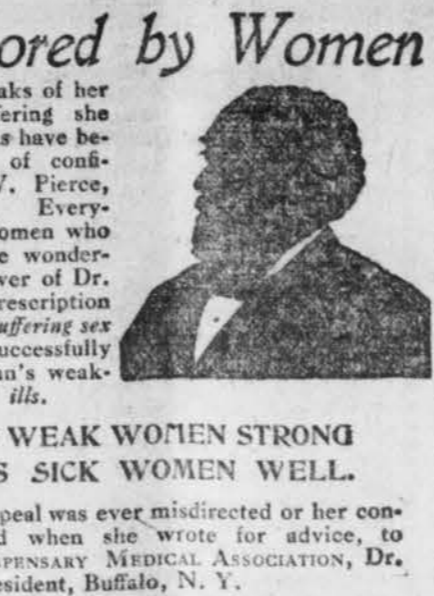

CANDIDATE FOR PASTORATE. Rev. Frank B. Knowles to Preach at Houghton Presbyterian Church.

Rev. Frank B. Knowles of Iron Mountain, pastor of the Presbyterian church in that city, will preach at the Houghton Presbyterian church Sunday morning and evening. He comes as a candidate for the pastorate to succeed Rev. John M. Linn, who is shortly to leave the charge.

Upper Peninsula. Maccabees Were Worth—Members of the "Good Town" lodge of Maccabees of Menominee were mystified and later, when the circumstances became known, were angry, this as a result of the receipt of notice that the lodge had been suspended.

School Election Sprit—Sault Ste. Marie's school election this week was a spirited contest. The vote lacked but seven of reaching the 1,000 mark.

NEW INDUSTRY FOR MENOMINEE—Menominee is to have a new \$200,000 factory, employing 100 or more skilled mechanics, says the Herald-Leader.

WEEKLY COPPER REVIEW. Gossip of Interest Concerning the Market Situation and Various Mining Properties.

The copper share list has been dominated by the New York market during the week and the New York market has been weak and frightened. Generally speaking, the conditions are good, but not so bright as they seem.

Isle Royale. There is no disguising the situation at the Isle Royale property. Plainly, the Isle Royale copper is costing from three to four cents a pound more to put on the market than the product can be sold for.

Hancock Consolidated. Just at the present time the work in the vertical shaft is attracting much attention because it is believed that this vertical shaft will cut the first of the lodes opened through No. 1 shaft within a couple of months.

Stamp Mill Improvements. Improvements in the Quincy stamp mill are going forward as rapidly as possible. The fourth head in No. 1 mill has been supplied with a large cylinder and is now doing good duty again.

BUYING A HORSE. In an Ohio town there is still maintained a stage coach system of transportation, the steeds whereof are of that appearance presented by the horses fitted to the Fifth avenue line in New York not so many years ago.

THE SWIFT SPECIFIC CO. ATLANTA, GA. S.S.S. BLOOD POISON. When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested.

When the metal was higher, and the whole situation had a different aspect. The present metal price makes it a case of the survival of the fittest, and the Isle Royale, just at present, does not seem to be very fit.

When the Calumet & Hecla people concluded their arrangements with the Bigelow, at the end of the litigation for the control and management of the Osceola Consolidated property, it was generally believed at the Lake that the Tamarack was included in the bargain.

No decision has been reached as yet, by the Atlantic management, relative to a second shaft on the Baltic lode. Some such plan has been under consideration, but it is deemed inadvisable to go ahead with such plans until the lode in the first Section 16 shaft has proven settled and carrying values enough to assure a mining success to the Atlantic company.

THE TOOTHsome MUSKRAT. Considered a Great Delicacy Down on the Eastern Shore.

According to Fur News the trappers of the eastern shore of Maryland will receive nearly \$300,000 this season for muskrat skins. The trappers are now busy, and it is said that they have been paid \$100,000 for this season's pelts.

THE FIGHTING EDITOR. The fighting editor is no joke in Paris. There, if a paper takes a man a bar or a thief, the man takes it seriously, and, visiting the office, he demands a retraction or a fight.

QUICK! Mr. Druggist—Quick!—A box of Bucklen's Arnica Salve—Here's a quarter—For the love of Moses, hurry! My baby's burned himself, terribly, Johnny!

THE MOST CAREFUL SUPERVISION is given by the officers and directors of this institution to investments and loans. The security of funds is thus assured and our depositors' interests protected.

Marquette news will be found on pages 4, 5, 8 and 10 this morning.

Today's weather: Fair; stationary temperature.  
Yesterday's temperatures: Seven a. m., 62 degrees; noon, 53; 7 p. m., 51; maximum, 65; minimum, 51.

Born to Mr. and Mrs. A. Constant, 149 Rock street, Thursday, a son, A. Paris and wife have gone to Three Rivers, Quebec, to visit relatives.

Miss Anna Richardson, of the Illinois Training school for nurses, is visiting with her parents.

The regular monthly meeting of the Commercial club will be held at the city hall Monday evening.

Henry Robertson has returned to his home in Lansing, after visiting his brother, John Robertson.

S. S. Gregory, who has been spending some time at Heron Mountain club, returned to Chicago last evening.

Mrs. Helen McAdams, formerly Miss Cowden, who is now a resident of Missouri, is visiting Marquette friends.

Mrs. John Rock, of Negaunee, spent two days at the fair and a handsome quilt of her own making took a first prize.

Mrs. Medo Desotelle left last night for Besemer and Iron River, where she will visit for several weeks with relatives.

E. C. Anthony is in Marquette. He returned this week from Detroit, where he attended the joint prison board meeting and visited his daughter, Mrs. Fenner.

The fair association and the public generally were delighted with the excellent service at the dining hall during the fair, which was in charge of Mr. and Mrs. P. W. Griffin.

Mrs. James A. Wright, of 232 West Park street, went to Sault Ste. Marie yesterday morning. She was called to that city on account of the death of her mother, Mrs. Elizabeth Warner, whose funeral will take place today.

**Will Play at Prison**—The following members of the second team are requested to be at Stafford's drug store Sunday morning at 7:30 o'clock to take the motor car to the prison, where a game will be played with the prison team. Smith, Cook, Bassett, Rossiter, Pelky, Grunselm, Johnson, Anderson, Lobb, Dougherty and La Porte.

**Elks to Play Ball**—The Marquette Elks baseball team will go to Negaunee this afternoon to play with the Negaunee Elks team for the championship of Marquette county at Union park. The Marquette Elks will leave over the Sault Ste. Marie road at 1 p. m. and a round trip rate of fifty cents has been secured. It is expected that a large representation of Marquette Elks will accompany the team.

**Negaunee Here Sunday**—Negaunee and Marquette will be the opposing teams at the fair grounds Sunday afternoon in one of the regular league games. This will probably be Negaunee's last appearance on the local grounds this year. Cy Young is recovering from his injury and will be in his regular position. Schmitz is slated to be the pitcher. A special train will leave for the fair grounds at 2:15 p. m.

**"Three Weeks" Cancelled**—The opera house was dark last evening, despite the fact that a production of "Three Weeks" was advertised. A telegram was received yesterday morning stating that the date had been cancelled. It is said that Manager Marshall, of the Lyceum, in Duluth, who has general charge of the bookings for the upper peninsula theaters, cancelled all the dates for the attraction on this circuit. "Three Weeks" is being employed as a salacious play, but the comment on it would indicate that it is only pale, flat and unprofitable, and doubtless Mr. Marshall's action has saved some hundreds of theatergoers from a real affliction.

**Dr. Ben Ridder Here**—Dr. Ben Ridder, a socialist and many other things, is in Marquette, and addressed a gathering at the corner of Front and Spring streets last evening. Dr. Ridder is somewhat of a character, and makes a specialty of keeping the police busy. It will be recalled that he figured in a turbulent parade of the unemployed in Chicago some months ago. The doctor says the police have had him on their hands something over 600 times and that he has been sentenced over eighty times, and he ought to know. Most of his trouble has come from the radical nature of his utterances. However that may be, it does not appear that his Marquette audience got unduly excited last evening, or remained in the chill air very long to listen to his oratory.

**INSURE WITH PETER WHITE & CO.**

**AT THE CHURCHES.**

First Church of Christ, Scientist—Services, Sunday at 10:30 a. m., in room No. 2, Opera House block; subject, "Substance."

First Baptist Church—Worship and preaching; sermons by Dr. Tupper on "A New Type of Conversion" and on "Three Notable Conquests." Public cordially invited.

Methodist—Tomorrow will be the last Sunday of the conference year. Mr. Maywood will preach both afternoon and evening. His morning theme will be "The Divine Memory." His evening theme, "A Shepherd's Queen."

Presbyterian—Services at 10:30 a. m. and 4 p. m. Special attention is directed to the Christian Endeavor meetings, the intermediate at 4:45 p. m. and the senior at 6:30 p. m. These are the first services to be held after the vacation and special attention will be paid to the program.

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. (9-10-21)

**MILLER WILL BE TRIED IN JANUARY**

**MARQUETTE PRISON CONVICT WHOSE CONFESSION FREED PERRY WANTS CASE TAKEN UP AT THE EARLIEST OPPORTUNITY.**

Charles E. Miller, the Marquette prison convict, who made a confession to Prosecutor Foster that he killed R. G. Lauzon in this city Feb. 10, 1898, will be granted an examination probably during the January term of the circuit court of this county, says the Lansing Republican.

After freeing his mind to the prosecutor, Miller was anxious to have his examination and trial as soon as possible, but was informed by the prosecutor that January was the earliest possible time that the matter could be taken up.

Miller's case is one of the most unusual in criminal court records. Convicts who have murdered or assaulted fellow prisoners or employees of a prison, are taken from the prison in which they committed the deed and made to stand trial the same as any other person. But seldom, if ever, has it occurred in this state that a prisoner serving a term in a penal institution was taken from that institution and given a trial for a crime committed previous to his incarceration, and for which he had never been tried in this city. Foster declares that Miller's case is most unusual.

When Miller was sure that his case would soon be taken up, Prosecutor Foster says that the convict seemed greatly relieved. Miller said that he did not care to be brought back to this city only for the time actually required in the case.

The prosecutor asked Miller if he should tell his parents, or in event that they came to him what he should say. Miller replied that he did not wish the prosecutor to tell his parents anything regarding the affair. "I'll write them tonight," he said.

So far neither father nor mother have called upon the prosecutor. Prosecutor Foster said today that Miller was in robust health, but had gained considerably in flesh since he was sentenced for forgery a year ago this summer. Miller is about thirty-five years of age.

### CONVICTS SEND TOKEN TO WM. D. CALVERLEY

BEAUTIFULLY ILLUMINATED PARCHMENT, IN GOLD FRAME, EXPRESSES THEIR REGARD FOR FORMER BOARD MEMBER.

William D. Calverley, of Houghton, will shortly receive a beautifully illuminated parchment expressive of the friendship and regard for him felt by the convicts of the Marquette prison, on the board of control of which he served for six years, until his resignation a few months ago. The parchment will today be on exhibition in one of the display windows of the Hager Bros. Co. Ltd. store, where it will doubtless be much admired, for it is a real work of art.

The inscription, which is richly illuminated, is in Italian Gothic characters of the Renaissance period, and reads as follows:

To:—  
William D. Calverley  
in recognition of  
his kindness and interest  
in their welfare while a member of  
the Board of Control the  
inmates  
of the  
U. P. State House of Correction and  
Branch Prison  
respectfully offer  
this testimonial  
of their best wishes  
and feelings  
of gratitude.

A. D. MCMIX Marquette, Mich.  
The parchment is embellished by handpainted photographs of Mr. Calverley and his associates on the board; Otto C. Davidson of Iron Mountain and E. C. Anthony of Negaunee, also of Ira Carley, of Menominee county, his successor on the board, and of Warden Russell. These photographs have a place in the decorative scheme bordering the inscription, and are the work of Raymond C. Holzhey, who has lately taken up the coloring of his photographic work with marked success. The rest of the parchment is decorated in scroll work in water colors over a mat-gold background surrounding and setting off the photographs, in the pure style of the Italian Renaissance, the whole effect being rich and highly artistic. Particularly notable is the harmony of the various colors and the imitation of Sienna Yellow Marble and Prato's Verdolino Marble, which appears on the base of the two sides of the border, supporting the fantastic scroll work that fills the space around the photographs.

The frame is simple but ornate, and is the only thing about the parchment that was not the work of the inmates, who have devoted much of their spare time to its production. It forms a testimonial that will doubtless be highly prized by Mr. Calverley. Mr. Calverley had the friendship of the entire prison population, because of his interest in the institution and the welfare of the men confined, and his withdrawal from the board was greatly regretted.

Chas. J. Anderson can furnish you with the best meats and poultry at lowest prices. Prompt delivery. 603 North Third street. Bell Phone 686, County Phone 77. (8-11-tf)

### A Store With The Right Idea

Mothers recognize value in Boys' Clothes.

They appreciate good attention, careful service, fair prices. This store stands for all this.

Here profit is looked upon as recompense for the services we can render the public. Here we recognize that customers are entitled to the best their money can secure.

So we make a special feature of XTRAGOOD clothes, made by Ederheimer, Stein & Co.

They're stylish clothes, they fit, and they're made to outlast two suits of the ordinary kind. All XTRAGOOD trousers are lined. It doubles their wear. And it really makes XTRAGOOD cost you less.

### CLEAN, WHOLESOME AND SANITARY DRY CLEANING and PRESSING

Can Only be Produced Under Perfect Conditions and by thoroughly Modern Methods

The accompanying cuts thoroughly illustrate the vastly different results secured in our Dry Cleaning Department.

A garment passing through our pressing machines is thoroughly disinfected, as no germs or microbes can exist under a temperature as high as the dry steam produces. At the same time any odor that might be in the garment is removed. The grimy appearance is taken away, the nap is raised, the colors revived, and the garment restored to that fresh new appearance desired by all good dressers.

The Miners' National Bank. Capital \$100,000. -- Ishpeming, Mich. SURPLUS . . . . . \$80,000 UNITED STATES DEPOSITARY.

We solicit your business, large or small, and we pay interest on all savings accounts. We sell money orders payable in all parts of the world. Get our rates before you buy elsewhere.

DIRECTORS: D. T. MORGAN, F. BRAASTAD, A. B. MINER, W. H. JOHNSTON, A. MATLAND, JAMES CLANCEY, H. O. YOUNG, DR. T. A. FELCH, M. M. DUNCAN.

OFFICERS: F. BRAASTAD, Pres., A. B. MINER, Cashier, H. O. YOUNG, Vice Pres., O. G. AAS, Ass't Cashier, GEO. HATHAWAY, 2nd Ass't Cashier.

Wanted--Contractors and Builders. To send me their inquiries for all kinds of Lumber, Shiplap, Siding, Flooring, Sheeting, Piece Stuff, Timbers and all other kinds of building material.

Both 'Phones, Ishpeming. B. J. GOODMAN. Office, Robbins Bk.

Upper Peninsula. Insists on a Sinking Fund--At the meeting of the Sanit Ste. Marie common council this week, a letter was received from the banking firm of A. J. Wood & Co. of Detroit, which has purchased the bonds of the city just floated.

Most Creditors Will Get Little--As previously noted, by a decree filed in Menominee the long-winded contest between the stockholders and creditors of the Mueller company, which at one time had heavy interests in upper Michigan, has been closed and the assets will be disposed of and the receipts distributed to the creditors, says the Marquette Eagle-Star.

The commissioner must then pay the Wisconsin Land & Lumber company money due on contracts, and if the stockholders fail to make settlements with creditors, the commissioner can put up all of the assets of the concern at public sale.

Do not be persuaded into taking anything but Foley's Honey and Tar for chronic coughs, bronchitis, hay fever, asthma, and lung trouble, as it stops the cough and heals the lungs. Sold by all Druggists.

WARNING. Have your piano tuned now. M. J. Olson, the piano tuner, will remain in this city during the summer months. Orders taken at Wm. Leininger's store. (6-28-11)

ISHPEMING THEATRE TODAY

MATINEE, 2:30. -- NIGHT, 8:30

Molly Bawn

Matinee Prices 10 and 25c. -- Evening, 25c, 35c, 50c, 75c.

Whereas the Supreme Ruler, in his infinite wisdom has taken from amongst us Brother Andrew Nelson, whom for a period of years was a member of our lodge, No. 1, S. H. & E. E. therefore, be it

Resolved, That we express our sympathy to the bereaved family and as a mark of respect for our departed brother, be it resolved that we drap our charter for thirty days.

ESTEN PETERSON, ALBERT BORK, CHARLES O. WALLENTINE, Committee.

Free fittings of Redfern Corsets. We carry models to fit the figure. JOS. SELLWOOD & CO. 9-10-24

HEALTH AND BEAUTY AID. Cosmetics and lotions will not clear your complexion of pimples and blotches like Foley's Orino Laxative, for indigestion, stomach and liver trouble and habitual constipation. Cleanses the eyes and is pleasant to take. Sold by all Druggists.

Woman has been studied faithfully, but she remains a mystery.

SPECIAL NOTICE The Darantella Havana Cigar. Is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market.

JOHN E. KENNING & CO. Grand Rapids, Mich.

We Have Planned a Most Interesting Contest for All Little Girls in Ishpeming

We've a most interesting puzzle for you to solve --and each little girl will be given a most interesting little booklet fully explaining the puzzle and telling her how she can make the little "Buck's" range shown in the picture her little range.

This interesting puzzle contest will close Saturday, Oct. 16, so come now girls, get your puzzle and little book and get busy.

Come at once to the store and register and learn all about our contest.

Wm. Leininger

ISHPEMING "THE PARISIAN MODEL" HERE NEXT FRIDAY

IRON AND COPPER COUNTRY THEATERS THE ONLY ONE NIGHT STANDS THIS BIG MUSICAL COMEDY WILL PLAY.

C. W. Meakin, business manager of "The Parisian Model" company, the big musical comedy attraction to appear at Ishpeming theater next Friday evening...

The book of "The Parisian Model" is by Harry Smith, and Max Hoffman wrote the music, the comedy being acted by Julius and St. Paul for a two-week engagement at the Metropolitan theater...

ISHPEMING IN BRIEF. The Finnish band will conduct a dancing party tonight at Branstad's hall. Mrs. John Perkins and Miss Weller will serve coffee at the Golf club this afternoon...

He had been confined to the hospital thirteen days. "Molly Bawn," a popular priced attraction, will be offering at Ishpeming theater this afternoon and evening.

Two more days of the demonstration of Redfern Corsets. JOS. SELLWOOD & CO. 9-10-2d.

FROM MORGAN'S CURB LETTER.

"The entire list in New York opened higher this morning, Union Pacific up 2 1/2 points, Union Pacific steadily advanced to 207 3/4, a gain of 1 1/2 over yesterday's close. The rise was attributed to renewed rumors of a segregation of Union Pacific assets, but was probably due in reality to short covering, caused by the evident determination of powerful interests to support the market for the present at least. Steel closed at 80 1/2. The strength of the market all day was surprising, and it closed at the top. The Lake copper share to some extent in the strength of New York, gains being made by nearly all of them. North Butte alone of the Lake copper issues showed strength, and was quite active. The others of the list were quiet and uninteresting. Green-Canaan Copper company in August produced 3,780,000 pounds of copper, 70,312 ounces of silver, and 421 ounces of gold. Regarding the rumor that the company would shortly declare a dividend, officers say such a supposition is guess work. Among the erubs, the Heinze stocks were most active, though prices were benefited little. Cactus was in very good demand, and sold up to 4 1/2. There is a good market at all times for this stock. Little material change in the balance of the list. The returns from the first shipment from Tuolumne netted the company \$18 per ton. They are shipping 100 tons per day. We are advised to buy Sierra for at least a couple of points. The Copper Producers' association reports: Copper stocks on Sept. 1st as 135,196,930 pounds, an increase of 12,600,323 pounds compared with Aug. 1st. Since Jan. 1st stocks increased 12,839,644 pounds, August copper production was 120,597,234 pounds, an increase of 2,319,651 pounds compared with July. August copper consumption totaled 107,996,911 pounds, a decrease of 42,542,146 pounds. Since Jan. 1st production amounts to 920,267,466 pounds, while consumption aggregates 907,427,782 pounds.

Table with columns: Bid, Asked, and various stock names like Alhceek, American Saginaw, Arizona & Mich., Arizpe, Black Mountain, Boston Ely, Chemung, Cumberland Ely, Cordova, etc.

A Notre Dame Lady's Appeal. To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pain in the kidneys, neuralgia, neuralgia, to write to her for a home treatment which has repeatedly cured these tortures. She writes to her duty to send it to all sufferers FREE. You cure yourself at home as naturally as you breathe. This simple discovery banishes urea acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the cure is not made in 100 days, Mrs. Murray's one-night stands at more than double the West-Henry admission price. E. M. Summers, Box R. Notre Dame, Ind.

Mining News THOMAS F. COLE INTERESTED.

Some of the United States Steel people, together with a group of capitalists who ordinarily work themselves with the so-called Cole-Ryan copper enterprises, have been for some months quietly working on a gold mining proposition in British Columbia known as the Nickel Plate property, formerly owned by the Daily estate. They have now exercised their option on the property, after making exhaustive drilling and tests, and have organized the Hedley Gold Mining company, which takes the mine over from the exploration syndicate at an actual cost of \$715,000. The new company has capital of 150,000 shares, of which 120,000 share are outstanding 30,000 are in the treasury.

Of the outstanding 120,000 shares, 21,400 were paid to the vendors of the property, leaving 98,600 to be divided among the exploration syndicate. The company stands with \$280,000 in its treasury. The exploration syndicate comprises among others W. E. Corey, E. H. Gary, Norman B. Ream, O. H. Broughton, of New York; George E. Tener, George T. Henry, John C. Oliver and W. P. Snyder, of Pittsburgh; and T. F. Cole, John D. Ryan, Chester A. Congdon and James Hoatson, of the Northwest. The executive committee consists of W. E. Corey, T. F. Cole, C. A. Congdon, L. L. Merrill, George E. Tener, James Hoatson and C. D. Fraser. L. L. Merrill, who opened the Calumet & Arizona, is president. The property is located ten miles westerly from Karamooes, British Columbia. It consists of sixteen mining claims, and a forty-ton stamp mill. It has produced 137,000 tons of ore, averaging \$11 to \$15 per ton, yielding \$800,000 net profit. The present treatment consists of stamping to 26 mesh concentrating and cyaniding tailings, giving extraction of around 85 per cent to 90 per cent. The new owners estimate 120,000 tons of ore in sight averaging \$12 per ton, and figure there is a net profit of between \$6 and \$7 per ton in the treatment of this ore. The future of the property rests, of course, in the large bodies of ore which have been drilled and sampled, and which, in the opinion of President L. L. Merrill, warrants the statement that "the chances are good for a dividend payer for a long time to come." The mine is now earning \$200,000 net per annum. The company plans, in addition to the Hedley mine, to show that this should add \$1 per ton to net profits. Development work will be prosecuted vigorously, with a view to increasing reserves. A railroad is now in the property. The Hedley company is a close corporation and being given to the matter of inviting any outside participation.

BUTTE LITIGATION IMPORTANT.

An apparently unimportant suit brought in the district court at Butte by lessees of the Ticon mining claim, owned by James A. Murray, against the Anaconda Copper Mining company for somewhat less than \$1,000 and to determine the ownership of an ore body on the 500-foot level of the Ticon mine appears to be the entering wedge of the long-threatened litigation between Aldin Murray and the North Butte and Anaconda companies over what is supposed to be the western portion of the rich Edith May vein, upon which the North Butte has been doing most of its heavy mining, reports a Butte correspondent. Murray's contention is that the vein does not have its top in the Edith May mining claim, but that it belongs partly to the Ticon, which is situated between the Edith May and the Speculator claim, on which latter is situated the North Butte working shaft. About 60 per cent of the original location of the Speculator, the western portion, is owned by the Anaconda company and the latter's portion adjoins and lies south of the Ticon. In the mining operations of the Ticon lessees they followed their vein and ore bodies, as permitted by law, beyond the side-line and mined under the surface of the Anaconda Speculator. The Anaconda company threatened injunction proceedings and tied up the smelter returns on the ore shipped. Murray then sank a new shaft on the Ticon, following the vein on its dip and traced the connection of his engineers claim, from the surface to the point where the ore was mined on the 500, and suit was brought against the Anaconda company to settle the title and right to the money for the ore taken out. Unless the controversy is settled sooner out of court, and Murray is successful in the suit just brought, some enormous litigation is likely to follow, as the ore mined from the disputed territory by the Anaconda and North Butte amounts to many millions of dollars, the value being variously estimated at \$8,000,000 to \$20,000,000. Murray is quoted as saying that he is in the light to stay. The fact that the Anaconda company first raised the question of ownership and stopped the lessees on the Ticon, indicates the position of both the North Butte and the Anaconda, and that they regard the Ticon people as

trespassers. The suit brought can only determine the ownership of the ore body down to the 500-foot level, the deepest working in the Ticon, but if Murray is successful other suits will unquestionably follow.

SUPERIOR & PITTSBURG.

At the greatest depth yet reached in the Bisbee district the Superior & Pittsburgh has struck in its Junction shaft a rich body of sulphide ore, which is now being developed and explored actively. It was at the 1,400-foot level that the discovery was made and in the face of the body the copper runs from 7 per cent to 15 per cent. The new body runs towards the Briggs shaft of the company which is now shut down. The Briggs shaft, which has been idle for over two years, will probably be again worked beginning the first of the year. The shaft was forced to close down on account of the great amount of water it had to handle. At that time the shaft had reached a depth of 1,200 feet, but there is no station cut on the 1,200-foot level. The workings were at that time confined to the 1,100-foot level, where a great amount of leached material was encountered, which led the management to believe that ore would be found at greater depth. Since the mine was closed down it has been almost completely drained through the Junction, which runs a drift up to within a short distance of the shaft and caught all the water. The geological conditions are favorable for the finding of big ore bodies in the Briggs territory.

One averaging between 15 per cent and 17 per cent has been encountered on the 1,100-foot level of the Junction shaft of the Calumet & Arizona. Work has been done in this body for some time, but only recently has the ore shown increased richness.

COPPER IN CALIFORNIA.

It is reported that there have been remarkable discoveries on the Shasta copper belt of California upon which the Mammoth, Bakklava, Mountain and Butte Hill properties are located. Heretofore the great zones of copper bearing ore in the Shasta country have been regarded in the nature of a "peanut in a shell" in the body of the mountains and experts in the past have advised capital not to invest in copper properties on the belt because of that situation. The diamond drill has upset this theory, however. The Mammoth company, owned by the United States Smelting, Refining & Mining company, has been operating with diamond drills to determine the extent of their copper properties on the belt. It is reported that the diamond drill has discovered rich ore to a depth of 1,000 feet, which would indicate that instead of the California deposits being of kidney or lense shape, the deposits are fed by a continuous and true fissure vein. The Bakklava property has made many discoveries of high grade ore by means of diamond drill and the Mountain Copper company within the past fifteen months have done more than nine miles of diamond drilling to a depth of 1,200 feet showing good ore bodies to depth, the treatment of which ore will resuscitate that company and necessitate the building of a new smelter.

AHMEEK.

An idea of Ahmeek's capacity for production can be had from the present rock output of 2,000 tons daily with but two shafts in operation, a production per shaft not equaled elsewhere in the Lake Superior district. Conditions in the mine show no material changes from month to month in the character of ground opened, the average copper content of which has, since milling was begun, proven remarkably high and but little under that of Wolverine, which secures the richest unoxidized rock mined in the district. The two new shafts on the north end of the property have reached a depth of between 225 and 250 feet, and promise to be in shape for production before another year has passed. The new stamp mill is rapidly nearing completion and very probably will be ready for service early in the new year. The company is at present outfitting 2,000 tons of rock daily averaging between twenty-four and twenty-five pounds fine copper per ton of rock. About 17,000 tons of this output is being utilized for the smelter, the balance in equal portions at the Franklin and the Tamarack stamp mills, the balance of about 300 tons going to the Calumet mill for experimental test run.

RAY CONSOLIDATED.

Sherwood Aldrich, president of the Ray Consolidated Copper company, sets the date for the beginning of production by the company at Jan. 1, 1911. Mr. Aldrich says: "I am confident that the company will start production by Jan. 1, 1911, but of course I do not mean that the entire mill will be operating to the full capacity at that time. Up to July 1, there has been developed 28,000,000 tons of ore, while in the same period 17,000,000 tons of partly developed ore were put into operation. Actual work on the 5,000-ton concentrating mill has been commenced. Contracts already have been let for about 5,000 tons of structural steel, 3,000 tons of steel rails and the necessary ties. The directors have decided to build a smelter with a capacity for handling about 1,000 tons a day. Work on this plant

Washburn-Crosby Co. Gold Medal Flour. Why Not Now? Advertisement with logo and text.

will be started soon enough to permit of its operating when the mill commences. The mill will be built on the unit system and will have six 800-ton units, or approximately 5,000 tons a day. While this is the nominal capacity of the plant as in the case of that of the Utah Copper company, it is expected to run about 6,000 tons."

NOTES OF COPPER NEWS.

Ninety-five per cent of the 630,000 shares of stock of the Raven company were deposited under the plan of reorganization calling for an assessment of 50 cents per share. With the payment of the quarterly dividend of 88 on Sept. 29, Calumet & Hecla stockholders will have received \$19 per share thus far this year in three payments. It is probable that at least \$27 per share will be paid for the entire year, compared with \$20 in 1908 and \$65 in 1907.

A total of 11,000,000 pounds of copper was produced by the Phelps, Dodge & Co. properties in August, an increase of 700,000 pounds over the previous month. Of the above total the Copper Queen company contributed 9,100,000 pounds while the Detroit Copper company contributed approximately 2,000,000 pounds. In the output of the Copper Queen is included that of the Montezuma property. Since Jan. 1 the Phelps-Dodge properties have produced nearly 90,000,000 pounds, and with present rate of production maintained, the year's output will approximate 130,000,000 pounds.

The Section 12 Exploration company, recently organized by interests identified with the Superior National bank of Hancock and the Keweenaw Copper company, has secured options on several parcels of land lying directly east of the Isle Royale property. The lands are thought to carry the northern extension of the Baltic or so-called Superior lode opened on the Isle Royale property adjoining. Diamond drilling is expected to begin shortly. The company issued 10,000 shares at \$2 per share, convertible into common stock at the option of the holder. The company will operate on one time offered to the Calumet & Hecla company, which company seemed particularly anxious to acquire one of the six largest parcels, but having failed to take all or nothing negotiations between that company and the owners of the lands did not result in an option being given.

Judge Norman W. Haire, of Houghton, formerly general manager of the Bigelow mines until their control passed to the Calumet & Hecla, and a director of the Superior & Pittsburgh, has been accepted, is organizing an exploration company to explore a copper property in the Burro Mountain mining district on New Mexico directly adjoining the Chumey property. The property also adjoins the Burro Mountain mine, controlled by N. P. Leopold and the Phelps-Dodge interests. J. Morgan Clements has examined the property and recommends the investment of capital in further exploring it. Churn drills will be used in prospecting, and Mr. Clements says that an expenditure of \$100,000 will possibly \$300,000 ought to give results that would show if the expenditure of further money would be warranted. The present financing of the new company is by the sale of a limited amount of stock to be covered out of churn drill work. The sale of sufficient stock to yield \$125,000 is practically guaranteed.

A member of a leading New York and Boston Stock Exchange house never heretofore identified with mining properties, says: "I have been making a study of the mining situation and have come to the conclusion that the next big consolidation will be in mining. The railroads and industrial concerns have been pretty well consolidated. Mines have to be discovered, not made, and this country has been pretty well scoured for copper properties. Enormous profits have been made by the Calumet & Hecla, the Phelps-Dodge people, Guggenheim, and the Anaconda interests as a result of which capital has been attracted to mining as never before. Some of the greatest financiers of the country not heretofore identified with mining in any form have been looking into the subject, and I believe that the result will be a big speculation in mining properties and afterwards some consolidations which will, in the end, prove very beneficial not only to the companies but to the copper mining industry in general."

Isle Royale's operations in the Baltic lode continue centered in crosscutting that formed at the 300-foot level with the object of intercepting the extension of the copper chute from which drill core was taken in the diamond drill operations of a year and a half ago. This crosscut will be further extended and should it fail to encounter the main lode, it will be immediately resumed. The character of the rock encountered in the crosscut has changed from the dirty red rock which the shaft is sunk to a softer rock ash gray in color and of marked similarity to the rock lid the Superior mine

next south. Though it is from this rock from its own mine that the Superior is securing such excellent results, the gray rock on the Isle Royale property is apparently without copper mineral and such showings as have been secured at the latter point have thus far been confined to the red rock exposed in the shaft. Operations on the Isle Royale lode result in the further disclosure of good runs of copper ground, though of the same low average copper content noted in the past.

CROWS BECOME A PLAGUE.

Farmers of Lehigh county complain that they are having more trouble this year with crows than ever before. The damage to crops has been so great that there is talk of petitioning the government to put a premium on dead crows. In the vicinity of Upper Roxborough, and along the Bethlehem pike, some farmers have had to replant their corn two or three times. Mrs. Margaret Porter, who has ninety-six acres of corn planted in Upper Roxborough, has had three crops destroyed by the birds, which have swarmed in that section by the thousands. She is taking up the question of an appeal to the government, and steps have been taken to bring the matter to the attention of the National Department of Agriculture. Many of the farmers work in the fields with guns handy and many crows have been killed. The crows pick at the corn just as soon as it sprouts above the ground.

ANTIQUE FARMHOUSES.

Selling modern antique furniture has become a thriving business. Both the purchaser and the dealer are made happy. The purchaser, because he convinces himself that the dealer does not know anything about the article he sells, and the dealer because of the influence of the purchaser, and an excellent deal carried through. Of course, it is usually the small, comparatively unknown curio dealer that is developing this business and his chief assistants in many cases are country dwellers. Summer guests at farmhouses are charmed with the antique furniture. It is taken for granted, of course, that the ancient walnut sideboards, the quaint chairs and the benches that suggest the days of the pilgrim fathers are genuine. It is natural to suppose these things should be found in a farmhouse in which one family has lived, presumably, for generations. What more natural than that these heirlooms, familiar to the farmer and his practical, unromantic wife for decades, should have no real monetary value in their eyes. The farmer's wife, argue the designing summer boarders, would doubtless prefer to see her home fitted up with dazzling new furniture than the somber old pieces. An offer is made and, if it is high enough, accepted, after some hesitation. The summer boarder can scarcely wait to get the furniture away for fear that the farmer and his wife may repent of their haste. Could this particular boarder see the delight of the old couple as they check off the amount received for the sale of their antique, he would think which the dealers who left them there at the beginning of the year priced them, the joy of getting something for comparatively nothing would be tinged with sorrow.

So far has this business developed that agents tour the country "salting" farmhouses with this bait for unsuspecting summer boarders. So cunning are some of the imitations made that it is difficult to detect the differences; and in this, at least, the victim has something for his money. The appearance of age is easily conveyed by carefully removing the gloss from the varnish, boring worm holes or accomplishing the same result with bird shot. The edges are sandpapered and then dulled, to give the appearance of wear.—Popular Magazine.

NIGHT ON BALD MOUNTAIN.

On a lonely night Alex. Benton of Fort Edward, N. Y., climbed Bald Mountain to the home of a neighbor, tortured by asthma, bent on curing him with Dr. King's New Discovery, that had cured himself of asthma. This wonderful medicine saved him and quickly cured his neighbor. Later it cured his son's wife of a severe lung trouble. Millions believe it's the greatest Throat and Lung cure on Earth. Coughs, Colds, Croup, Hemorrhages and Sore Lungs are surely cured by it. Best for Hay Fever, Grip and Whooping Cough. Sold absolutely everywhere. Guaranteed by The Stafford Drug Co.

BOTH BOYS SAVED.

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar absolutely cured my boy of a severe cough, and a neighbor's boy, who was ill with a cold that the doctors gave him up, was cured by taking Foley's Honey and Tar. Nothing else is as safe and certain in results." Sold by all Druggists.

CLARK'S CRUISE OF THE "CLEVELAND" 18,000 tons, brand new, superbly fitted. Round the World. Safety, ONE STEAMER FOR ENTIRE CRUISE. From New York, October 16, 1909. CLARK'S 12th Annual CRUISE Feb. 5 to April 19 To the Orient.

CHICHESTER'S PILLS THE DIAMOND BRAND. Sold by druggists everywhere.

NEW CONTINENTAL LINE STARTS WITHOUT DIN.

St. Paul's Matter-of-Fact Operation of the New Route to the Pacific Significant of Present Day Development—Great Road to Mexico Still to Be Completed.

New York, Sept. 10.—When the transcontinental expansion of the Chicago, Minneapolis & St. Paul railroad was completed, the announcement was made that no sentimental or spectacular display would emphasize the laying of the final rail and the driving of the last spike.

The Chicago, Minneapolis & St. Paul is this fall to inaugurate the transportation of freight and passengers in a matter of fact way as though this transcontinental system were no more than a mere branch line.

One feature of the Western Pacific Railway system that has commanded the attention of engineers and scientists is the fact that the builders of this road know how to construct it, how to provide a survey for it, so that it has grades, relatively speaking, as low as those which distinguish the Tidewater Railway built by the late H. H. Rogers.

Only George Jay Gould was able to reach the Atlantic coast by means of his Wabash, his Maryland and smaller railway lines as he, through the Western Pacific, is now able to reach the Pacific coast.

With the construction of the Western Pacific there remains only Arthur Stillwell's transcontinental line, running from Kansas City to Port Stillwell, Mex., to be completed.

years before any new through construction to the Pacific ocean is attempted. It is in the construction of this Western Pacific and in the completion, absolute or partial, of some other important railroads that the greater securities market relies for a fresh supply of stocks that are to take the place of the many securities that have been withdrawn from the market.

But it is figured that within the course of a year there are to be added to the securities permitted to be dealt in by the New York Stock exchange approximately \$200,000,000 par value of new railroad securities.

Thomas E. Ryan has so far retired from active business life, taking into his retirement, according to the best estimate, some \$300,000,000, that he is now represented in only three directorates. He is particularly interested in a railroad which passes through a coal region, and which is so closely identified with him that it is often called "Tom" Ryan's railroad.

So, also, it is expected that there will be heavy dealings in the stock of the Western Pacific, now that it is completed, as also in the stock of Mr. Stillwell's Kansas City & Orient, together with offerings of stock in the very important Alaskan railway system, in the Philippines and in South America.

Now it is the impression that these new forces expect to lift the Erie out of its characteristic demoralization, and to develop the inherent qualities that are in it and have been in it since that day when its opening from Dunkirk to Lake Erie on the Hudson river was celebrated.

carner, and would supplement and complement both the New York Central and the north and the Pennsylvania Central upon the south. One of the great opportunities which came to the Erie, and which, if accepted, would have made it a dominating force in New England, was lost to it. It can never hope to command much of the traffic that originates or terminates in New England.

LIVING IN THE AUTO. Harry H. Dunn writes in Suburban Life of a new touring car, fitted up for a man in Los Angeles by means of which its occupants are made independent of hotels and restaurants.

When the bed has been made up, the storm curtain can be lowered in place on the sides of the folding top, completely enclosing the interior.

INDOOR BALL SEASON WILL OPEN EARLY. DISSOLVING MACHINE. Management of Bijou Theatre Has Added Important Equipment.

WITH THE BEST PLAYERS OF THE OUTDOOR TEAM AND LAST YEAR'S INDOOR NINE, NEGAUNEE SHOULD BE STRONG.

Now that the end of the outdoor baseball season is in sight Negaunee people are looking forward to an active indoor season, as they believe that the rivalry between Ishpeming and Negaunee will be continued throughout the winter.

The indoor season will probably open immediately after the outdoor games are finished, but no arrangements have yet been made for securing Adepts.

Plans are now being discussed by the students of the high school here and at Ishpeming for the organization of football teams.

Former Resident, Here From Belmore Bay, Says District Is Promising.

LOCAL LACONICS. John Sullivan of Quinnesec was a Negaunee visitor yesterday.

### TESTIMONY ALL IN IN HIGGINS CASE

DEFENDANT'S FATE LIKELY TO BE IN THE HANDS OF THE JURY BEFORE EVENING.

PART OF INDICTMENT QUASHED

Whether or Not Robbery Story is Genuine Will Be Sole Question for Jury to Decide.

The Frank Higgins case, which has been on trial in federal court since Wednesday, has not yet gone to the jury, and the arguments of the attorneys and the judge's charges are yet to be made, the testimony having been completed late yesterday afternoon. The three attorneys, H. M. Oren and J. M. Slane, for Mr. Higgins, and District Attorney Covell, for the government, have each been allowed an hour and a half to address the jury, so that the jury will not likely get the case until about noon.

At the conclusion of the evidence yesterday afternoon, Mr. Oren asked the court that the first two of the three counts of the indictment against Mr. Higgins be quashed. The first count charges that Higgins was guilty of embezzlement in that he did not deposit the postal funds of the Saint Ste. Marie office in a designated depository, as is charged that the money order funds of the office were not deposited according to law, constituting embezzlement; the third count charges that Higgins is something like \$2,500 short in his accounts and therefore is guilty of embezzlement.

Mr. Oren argued that Higgins was not instructed to deposit the postal funds except on the 15th and 21st of each month, and then only such moneys as were left after the expenses of the office had been paid. As the robbery occurred on the 15th, there could have been no failure to comply with the law in this respect.

As to the second count, Mr. Oren argued that it had been improperly drawn in that the words "willful and intentional" had been omitted and in that the name of the designated depository had not been stated.

The court decreed that the case should go to the jury only on the second and third counts and that the second count would stand, only in case that in the opinion of the jury an embezzlement had been committed.

This decision of the court means in short that the only question for the jury to decide will be whether Higgins was robbed, as he claims, or whether he is using the robbery story to cover up defalcations. If the jury believes the robbery story, Higgins will be acquitted, if not, he will be convicted.

Many Doctors on Stand. Yesterday was doctor's day on the witness stand. Different physicians were on the stand, both forenoon and afternoon, giving expert testimony as to what might be expected of an uncon-

scious person and whether or not Higgins' demeanor on the night of Dec. 13 and subsequently had been that of a person in an unconscious condition. Much of the examination by the attorneys was in the form of hypothetical questions. As is usually the case with expert testimony, no one was much the wiser after the testimony had been given, as there were nearly as many different opinions as there were doctors on the stand.

Marion Hazen, the postoffice clerk at the ship canal station, was the first witness called by Mr. Covell. He testified that he was in the habit of going to the main postoffice after the mail in the early evening but that he never rapped at the back door, as he carried a key.

Dr. Dickinson, who examined Higgins at the postoffice on the night of the alleged robbery and was his attending physician at the hospital, was next called and remained on the stand until nearly noon. The physician stated that he did not believe that Higgins was unconscious at the postoffice, when he examined him, and that he knew all that was going on. He said that Higgins opened one eye and looked about with his eyes on the floor of the postoffice and also at the hospital later in the evening while apparently unconscious. The witness was certain that Higgins was feigning unconsciousness at the postoffice and at the hospital, and that his injuries were inconsequential. He said he had advised Higgins to leave the hospital two days before he died, and that there was nothing about his condition that would indicate having received any serious injuries.

Scott Paid Dr. Dickinson. In cross-examination by Mr. Oren, Dr. Dickinson stated that he had not allowed Higgins to pay him for his medical services, as Postmaster Scott had previously arranged to pay any doctor's bill for the treatment of Higgins. The witness said he had visited Higgins four or five times at the hospital and had charged Mr. Scott \$5 for his services. The size of the bill caused many of the people in the court room to smile. Dr. Dickinson further said he had given Higgins calomel at the hospital and that he would not give calomel to an unconscious person.

Dr. Ennis was next called and was asked a number of hypothetical questions. Mr. Covell asked in substance whether a person who had acted as Higgins did, as shown by the government's witnesses, was acting as an unconscious person would act under similar circumstances. In cross-examination, Mr. Oren put similar questions, basing them on the testimony of the defense as to Higgins' actions. Both attorneys in most cases got the answers they wanted. Dr. Ennis testified that an unconscious man could not swallow calomel and that Higgins was still nervous on Jan. 1, when he had been examined for life insurance. He further said the back injury, as described by Mr. Covell, would not be likely to cause unconsciousness.

Dr. Newlove, a United States army physician, also was called to answer hypothetical questions, and gave about the same answers as Dr. Ennis to the same questions.

Defense in Rebuttal. The defense in rebuttal called Dr. Webster, who testified that an unconscious person could not walk but that one in a dazed condition might behave as Higgins had done. Dr. McDonald was of the opinion that Higgins' actions and condition did not indicate shamming. He said that a person might be killed from

a blow on the back without leaving any mark on the flesh. If hit on the head, the victim would not know of the blow, in case he were rendered unconscious, according to Dr. McDonald.

Miss Howell, Higgins' nurse at the hospital, was recalled and stated that she had administered the calomel by placing the powder on the tongue and then giving him water to drink. This closed the testimony in the case, and Mr. Oren moved to quash the first two counts of the indictment, as previously stated.

#### DEATH OF MISS HODGKINS.

Daughter of Gilbert D. Hodgkins Dies After Several Months Illness.

Miss Mae Hodgkins, daughter of Gilbert D. Hodgkins, 414 E. Arch street, passed away at 12 o'clock Thursday night after a several months' illness. The cause of her trouble was a cold, which she contracted last spring, and though everything was done to combat the sickness that resulted she steadily lost ground through the intervening months, and her death was expected. Miss Hodgkins was a resident of Marquette for the past five years, having come here from Ishpeming, where she spent most of her life, with her parents. She was well known throughout the county, and had many friends who sincerely regret her death. Besides her parents she is survived by a sister, Mrs. C. C. Thompson, and a brother, J. R. Hodgkins. The funeral will be held at 3 o'clock tomorrow, from the house.

#### CARD OF THANKS.

We take this opportunity through the columns of this paper to express our sincere gratitude to all kind friends at Marquette and Negaunee who have in any way helped us to bear our burden in the severe sickness and death of our beloved husband, son and brother, and for all the floral tokens of respect sent by kind friends of Negaunee and Marquette. Thanking you again one and all for your Christian sympathy and help in this hour of sorrow and bereavement, we are very gratefully yours, Mrs. John J. Stanaway, of Marquette; James D., Elizabeth Stanaway, of Negaunee; Wm., Thos., Prior, Jay D. and Norman Stanaway.

Place your orders for genuine C. C. B. Pocahontas Smokeless coal. F. B. SPEAR & SONS. 9-6-11

#### NOTICE.

This is to notify the public that I will not be responsible for debts contracted by my wife, she having left my bed and board. JOSEPH THONEY. (9-9-31)

Genuine C. C. B. Pocahontas Smokeless. Call up F. B. Spear & Sons. 9-6-11

The cattle at Vandenberg's dairy are now being fed on green corn in addition to other nutritious foods. All milk is aerated, cooled, bottled and delivered packed in ice. This accounts for the excellent quality and delicious flavor of the goods. (8-27-100)

#### Facial Treatment.

Miss Hollie Oster, Werner block, removes superfluous hair, moles and warts by electric needle. Ladies' and gentlemen's manieuring. Bell phone 61. (7-16-11)

#### Fall Suits

What's more disturbing than to feel and know that your clothes are faulty, either in looks or fit? To be certain about your clothes is worth a good deal. Stein-Bloch smart clothes are correct and satisfying.

Suits \$18 to \$30

#### Fall or Winter Overcoats

If you try on one of our Stein-Bloch Fall or Winter Overcoats, in Chesterfield, Military or full box models, in kerseys, unfinished worsteds and fancy chevots, you will find clothes comfort.

Stein-Bloch Overcoats \$20 to \$35.

ORMSBEE & ATKINS Nester Block, Washington St.
