

REPEATS HIS CHARGE AGAINST DR. COOK

Peary Reiterates That He Himself Is the Only White Man Who Has Reached the Pole, and He Is Prepared to Prove It.

He Is Confident, He Says, That When the Records Are Examined and a Decision Is Made by Scientists, There Will Be Nothing Left of the Brooklyn Physician's Claim but His Own Assertions—The Roosevelt Still at Battle Harbor, Labrador.

Battle Harbor, Labrador, Sept. 14.—To the Associated Press correspondent who arrived here aboard the tug Louisa last night, Commander Robert E. Peary today reiterated his claim that he is the only white man who has ever reached the North Pole, and he declared that he is prepared to prove it.

His Explorations Have Cost \$500,000. Up to the present, Peary's total expenditures for polar explorations, he said, aggregate roughly speaking, \$500,000. The first and smaller portion of this was his own, and his own fortunes and contributions of personal friends.

Peary was asked whether he had opened the letters of Cook's reference to Cook's expedition. "No," he responded. "Did Harry Whitney make statements to you about another polar explorer?" "He made no statement."

"Why didn't you have a white witness at the pole?" "Because, after a lifetime of effort, I wanted the honor for myself."

Peary declared to dismiss the charges that he took supplies from the Eskimos. "The Eskimos were left one day's march south of the pole."

Two Eskimos Disabled. The health of the Peary party in general was good throughout, according to Dr. John Goodsell, the surgeon of the expedition. Two Eskimo children were born and are still living.

Will Sail Tomorrow or Friday. The Roosevelt will proceed to New York as she is—crew, dogs, and all. She will sail Thursday or Friday for Sydney.

LIABILITIES MUCH THE LARGER. Fort Scott, Kas., Sept. 14.—Involuntary bankruptcy proceedings were filed here today by bondholders of the Chamblee Cement & Clay Products company, operators of a plant here, with branches at Bronson, Mich., and Akron, Ohio.

AUTOMOBILE PARTY MEETS WITH DISASTER

Woman Is Killed, Her Husband's Skull Is Fractured and Two Other Persons Are Seriously Injured, the Result of a Collision With a Trolley Car Near Syracuse, New York.

Syracuse, N. Y., Sept. 14.—In a collision between an automobile and a trolley car outside the city this afternoon, Mrs. James McKay, of Canton, Pa., was killed, her husband's skull fractured and Mr. and Mrs. Timothy Conklin, of Troy, Pa., were seriously injured.

HIT BY DETECTIVE'S BULLET. Waitress Is Victim of the War on Vice at Atlantic City.

Atlantic City, N. J., Sept. 14.—Rose Stewart, a waitress shot in the back tonight, result of the warfare between the police and detectives brought here by Prosecutor Goldenberg to aid in wiping out the dens.

FASTER THAN FULTON'S BOAT. Reconstructed Clermont Travels 6 Miles in One Hour and Four Minutes.

New York, Sept. 14.—The wall sided craft in which Fulton first navigated the Hudson under steam propulsion, 102 years ago, came to life again when the reconstructed Clermont had her special trial run from Matineers' Harbor, Staten Island, to the lower bay today.

STATE'S EVIDENCE IS IN. Defense Now to Have an Innings at the Trial of Inspector McCann.

Chicago, Sept. 14.—The presentation of the state's evidence against Police Inspector McCann, charged with accepting bribes to protect commercialized vice, was concluded in Judge Barnes' court today.

LORD TWEEDMOUTH DYING. London, Sept. 14.—Lord Tweedmouth is announced to be dying in a great pain of the chest.

RED MEN CHANGE BY-LAWS. Detroit, Sept. 14.—The Order of Red Men's convention voted today to establish a minimum per capita tax for all states.

LABOR UNION LOSES CHARTER. St. Louis, Sept. 14.—A telegram tonight from Secretary Morrison, of the American Federation of Labor, announces the revocation of the charter of the central Trades union.

GETS SUNFLOWER SURPRISE. Farmer Ordered Cucumbers, but Seed House Made Mistake.

Seattle, Wash., Sept. 15.—Forty acres of blazin' sunflowers were ordered because seed was sown in the basis for a lawsuit filed in the superior court by John Cochran, a farmer, against one of the largest seed houses of Philadelphia.

Immediately he wired the seed house for explanations, which didn't come. Now he has sued for \$5,000 damages.

GUARANTY LAW ATTACKED. Topeka, Kas., Sept. 14.—Attorneys representing 183 banks today filed a suit for an injunction to restrain the enforcement of the state bank deposit guaranty law.

J. J. HILL SOUNDS NOTE OF WARNING

Great Northern Railroad Magnate Tells the Bankers' Convention the U. S. May Soon Cease to Be an Exporter of Food Stuffs.

Pointing to the Tendency to Forsake Rural for City Life, He Says That the Idea We Feed the World Is Being Corrected, and Already the Question of the Home Supply Is Looming Up Seriously—He Pleads for Agricultural Development.

Chicago, Sept. 14.—Warning by a leader in the nation's progress that the United States may soon cease to be an exporter of food stuffs was given to the American Bankers' association today, at the close of the first day's session of the association's convention.

SCHEDULE FOR TODAY. National League. Pittsburgh at Cincinnati. New York at Boston.

YESTERDAY'S GAMES. National League. Philadelphia, Sept. 14.—In a pitchers' battle between Rucker and Moore today, the locals lost.

MAN WHO HAS MADE GOOD. Louis Pierson, the American Banker's Probable President-to-Be.

New York, Sept. 15.—Louis E. Pierson, who, presumably, is to be elected president of the American Bankers' association, is a New Yorker who has made good.

DETROIT, Sept. 14.—The locals throw away three chances to score early in the game, by the worst sort of base running.

CHICAGO, Sept. 14.—Chicago and Cleveland today played a six-inning tie game, the contest being called an account of rain.

AMERICAN ASSOCIATION. Columbus, 5; St. Paul, 0. Louisville, 7; Milwaukee, 3.

WESTERN LEAGUE. Sioux City, 9; Omaha, 0. Lincoln, 7; Des Moines, 0.

GOV. JOHNSON IN HOSPITAL. Rochester, Minn., Sept. 14.—Governor Johnson was taken to St. Mary's hospital this evening, and tomorrow will undergo an operation for a hernia and enlargement of the intestines.

BIG TUNNEL NEARS COMPLETION. Detroit, Sept. 14.—The last section of the railway tunnel under the Detroit river was sunk today.

THE WEATHER.

Washington, Sept. 14.—The following is the weather bureau's forecast for Upper Michigan: Generally fair in the west; showers, with cooler in the east, Wednesday, Thursday, fair. Moderate west winds, becoming variable.

BASEBALL.

PRESIDENT TAFT IS GUEST OF BOSTON

Great Banquet in Mechanics Hall, Attended by Hundreds of Representative Men, Is the Feature of His Visit to the Hub.

It Marks the Beginning of the Chief Magistrate's 13,000-Mile Tour Through Two-Thirds of the States of the Union, and It Is Signalized, too, by a Notable Address in Which the Nation's Executive Discusses Many Matters of Public Interest.

Boston, Sept. 14.—Facing almost two thousand representatives of Boston men, President Taft stood in Mechanics Hall tonight, at the beginning of his 13,000-mile tour through two-thirds of the states of the Union.

Why He Is Making His Trip. In the course of his address, Mr. Taft said: "Occasionally I hear the query, why I should start on such a trip, and what particular good does it do to anybody?"

Predicts Monetary Legislation. "It is certain that our banking and monetary system is a patched-up affair which has satisfied nobody."

Gives Praise to Aldrich. "I am told that Senator Aldrich, chairman of the committee, will lecture in many cities of the Middle West on the defects and needs of the monetary system."

Denounces Appeal to Sectionalism. "Our country is making progress. Occasionally one hears a note, like that of Governor Johnson, denouncing the East and calling upon the West to organize against the East because the East is deriving more benefits from the governmental policy than the West, at the West's expense."

GLENN CURTISS COMING HOME. Paris, Sept. 14.—Glenn Curtiss has decided to return to New York tomorrow, despite the offers for flights at Frankfurt and Berlin.

BROOKLYN GIRL IS CHAMPION. New York, Sept. 14.—The annual Conyne Island swimming race for the women's championship of the world and a \$200 gold medal was won tonight by Ethel Bryington of Brooklyn, who made the distance, 200 yards, in 3 minutes and 41.45 seconds.

COMPACT FORMED BY MONEY KINGS?

Wall Street Sees Evidence of the Consummation of an Alliance Between the Nation's Two Greatest Groups of Capitalists.

Presumably Indicating Harmonious Relations Between the Morgan and the Kuhn, Loeb-Standard Oil Interests, a Financial Event of Great Significance Develops When J. P. Morgan, Jr., Is Elected to the National City Bank Directorate.

Two Lighthouse Tenders Assigned to Duty on the Mississippi River. Washington, Sept. 14.—The lighthouse tenders Hibiscus and Ogleader will carry the Taft party down the Mississippi river next month.

JABS AT SPEAKER CANNON. W. J. Bryan Outlines His Views in an Address at Dallas, Texas. Dallas, Tex., Sept. 14.—Denouncing that man who would violate a party pledge ratified by the voters of his party as an embezzler of power, Wm. J. Bryan today outlined his views as to the tariff before a large assembly at Dallas.

MONEY RATES HARDEN; STOCK MARKET DULL. While a Stringency Is Not Anticipated, the Position of the New York Banking Reserve Is Such as to Make a Restriction of Credits Imperative.

Thompson Buys Mexican Road. Mexico City, Sept. 14.—American Ambassador Thompson today secured control of the Pan-American railway, 244 miles in length, extending to the Guatemalan frontier.

Referee Declares Abe Attell Victor in Fight With Tommy O'Toole. Boston, Sept. 14.—Abe Attell, of California, featherweight champion of the world, was given the decision over Tommy O'Toole, of Philadelphia, in a twelve-round bout at the Armory Athletic association tonight.

INTERCOLLEGIATE GOLF. Rye, N. Y., Sept. 14.—Harvard beat Williams, 7 to 2, and Yale defeated Princeton, 4 to 2, today, in the second round of the team matches at the annual intercollegiate golf championship tournament.

DAILY MINING JOURNAL

MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The magnanimity of Commander Peary is proved. He permitted members of his crew to talk of his trip to the Associated Press correspondents.

The Paris Temps may well criticize Peary's "broadest accusations" against Dr. Cook and his "general grandiloquent attitude."

So certain are the Pittsburgh and Detroit fans that their teams will win the buntings in their respective leagues that there is already discussion of the odds that will prevail in the world's championship series.

The water board continues to display admirable conservatism in approaching the task of giving Marquette a supply of better water. A survey of a possible route for an extension of the intake was made by engineers the past summer.

The election of Robert S. Lovett as chairman of the executive committee of the Union Pacific is another assurance that the Harriman policies will be closely adhered to in the future management of that road.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH.

campaigns, the actual management and operation of his roads being in other hands. This is not saying that Harriman will not be missed.

The efforts of Postmaster General Hitchcock to reduce the annual deficit of his department—which at the close of the last fiscal year reached \$20,000,000, its largest proportions—will be watched with interest.

ings bank system for the convenience of the people and the encouragement of thrift." Senator Aldrich and Speaker Cannon have both condemned this plank, and will oppose any legislation looking to its enactment.

Richard Guenther, United States consul at Frankfurt-on-the-Main, Germany, is quoted at Oshkosh, Wis., as saying that he knows personally of at least one instance in which the new tariff law will result in the establishment by German manufacturers of a factory in this country.

Mr. Rees, attorney for Larson, the former cashier, urged in extenuation of his admitted offenses to Judge Knappen Monday that Larson, entering the bank nearly twenty years ago, had been educated from the beginning in irregular practices, that he never had a chance to learn the methods and obligations of safe banking.

In his argument before Judge Knappen Mr. Rees enumerated irregularities that dated back months before the failure, which involved false entries and other illegal practices that bank examiners are especially charged with ferreting out.

At a meeting of the board of directors held this day a quarterly dividend of \$1.00 per share, being Dividend No. 23, was declared, payable on Friday, October 1st, 1909, to stockholders of record at the close of business on September 4th, 1909.

Upper Peninsula

Accused Supervisor Exonerated—The trial in the circuit court at the Soo of John F. Goetz, supervisor of De-Tour township, for the alleged purchase of votes at the spring election, came to a close when the jury, after a short deliberation, returned a verdict of not guilty.

New Logging Railroad—The William Bonitas Lumber company, of Watersmeet, Gogebic county, is completing six miles of railroad, which pierces that company's immense tract of timber, and which has been constructed in less than three months.

Apple Crop Heavy This Fall—The apple crop in Chippewa this fall is going to be one of the most successful in the history of the county. Farmers are beginning to realize that by proper care and attention, excellent apples can be grown.

Cute Dodge a Failure—The baseball teams of Niagara and Crystal Falls played two games last week, and broke even. In one of these games, says the Crystal Falls Drill, it was found that Cady, the Niagara pitcher, was using a special ball, smaller than the regulation size and waxed up for his own use.

Drought Closing Hotels—Farmer Mayor A. J. Scott of Hancock, who has returned to the copper country from Chicago, states that he visited a hotel brokerage office while there and found many hotels on the market and more hotel men out of a job, flat broke or on the ragged edge, than he has ever seen before.

Local Option in Chippewa—The local option committee of Chippewa county issues the following statement: "Those in charge of the local option movement in Chippewa county desire to announce to the public that many signatures have been secured to the petition to be presented to the board of supervisors at the October session."

Married Fifty-Six Years—There was a family reunion last week at the residence of Wm. L. Marble, at Gladstone, in honor of the fifty-sixth anniversary of his grandparents, Mr. and Mrs. W. P. Derry. Four times a year there is a meeting of the relatives at the home of one of the families, Mr. and Mrs. Derry were married at Fulton, N. Y., Sept. 4, 1853, and that place was their home until after the war. Mr. Derry served three years in the army, took part in the Red River expedition and subsequently was stationed at the Dry Tortugas, where he was corporal of the guard which brought in the conspirators against Lincoln.

Hiawatha Mill to Resume—Walter Kelly, of Traverse City, was in Manistique recently and visited the Hiawatha lumbering plant, of which he is now owner, there giving instructions to C. G. Ekstrom, the manager, to go ahead and get in readiness for operating on a bigger scale than ever.

Begin Its 25th Year—With its last issue, the Iron River Reporter, one of the very best of Michigan's weekly newspapers, began its twenty-fifth year of its publication, twenty-two of which have been under the management of Pat O'Brien. During this nearly quarter of a century the paper has seen many trials and tribulations, but at no time in its history, Mr. O'Brien says, has the outlook for its success and usefulness been better than at the present time.

COPPER RANGE CONSOLIDATED COMPANY. DIVIDEND NO. 23. At a meeting of the board of directors held this day a quarterly dividend of \$1.00 per share, being Dividend No. 23, was declared, payable on Friday, October 1st, 1909, to stockholders of record at the close of business on September 4th, 1909.

#### FAVORS WHITE PLAGUE FIGHT.

Houghton County Board Will Do Something for Sufferers.

The Houghton county board of supervisors, in regular September session yesterday morning, did not take up the county road system project, as was predicted, but it did take up the equally important question of the care and treatment of tubercular patients, a matter which has been before the board for months.

Chairman Edwards opened the subject. He said that County Physician Jackson was seeking some means of caring for six tubercular patients who are now living in tents on the grounds of the detention hospital and are being fed from the detention hospital kitchen. They are indigent patients and the county must care for them.

Two years ago the county had two such patients in the detention hospital, and a time when there was no smallpox. The hospital had been thoroughly disinfected and was safe for these people. But smallpox broke out again and they had to be moved. They were at that time taken to the detached hospital of the old county penitentiary. But now the hospital had been thoroughly disinfected and was safe for these people.

Dr. Jackson believes that a shack of some sort should be built for the six patients, and Chairman Edwards said that he desired the supervisors to concure before the next meeting prepared to advance suggestions along this line. The six patients can still live in the tents through September, but they must be moved into better shelter thereafter. Chairman Edwards referred to the fact that the Marquette county supervisors had appropriated \$15,000 for the building of a tuberculosis sanatorium for that county. He felt that the Houghton county board should have authority for its action, unless a new law permitted it. He said that in the last legislature a bill had been introduced in the house to amend the referendum on all moneys to be raised, above \$1,000. He did not know if it had been changed in the senate. Senator Smith, a member of the board, said he believed it had, and that the Marquette county board was acting within its legal rights.

Chairman Edwards expressed himself as believing that it was better to have something to assist the tubercular campaign, and that he believed in building a sanatorium if the county had the authority to do it.

Mrs. Thomas McGrath of Hancock was appointed manager of the building for the detention of juvenile offenders, on the recommendation of Judge Bentley of the juvenile court. Mrs. McGrath will receive \$40 per month, house rent and fifty cents per day for feeding the juveniles detained. The appointment is an experiment and is to be in effect only until May 1, at which time the board will appoint again. Mrs. McGrath having first choice if she is successful in her first term.

The Houghton County Traction company advised the board, in a communication to the bridge committee, that the timbers supporting the ends of the main structure at the draw are unsafe and cannot possibly last through the coming winter. It was suggested that the board take steps to have repairs made as soon as the lake is frozen over and available for team traffic. In that event the traction company will place new rails on the bridge and put in a new floor. The proposition is referred to the bridge committee, with power to act.

The Cleveland Cliffs Iron Mining company was granted an option on Houghton county iron lands in Baraga county, 120 acres on Section 31, 42, 28. The land committee was instructed to give the company an option under the board's usual terms.

**UNDER NEW MANAGEMENT.**

Lee Lassner Will Have Charge of the Calumet Bijou Theater.

The Bijou vaudeville theater at Calumet is closed for the present week, during which considerable work in the way of improvements will be made. The little playhouse will open Saturday under a new management. Lee Lassner, who for the past eighteen months, has been representing the George K. Spoor interests at the Grand theater, taking charge. Mr. Lassner has accepted an interest in the Bijou. He has negotiated with the Enterprise Optical company of Chicago for the motograph machine and pictures.

Mr. Lassner has had twenty years' experience in the theatrical business and is thoroughly competent to take charge of the Bijou and conduct it along popular lines. He promises the best vaudeville acts and pictures. The deal just completed has been under consideration for several weeks. Mrs. W. S. Campbell, the former manager, leaving for Racine, Wis., where she has purchased a home. Mrs. Campbell is a heavy stockholder in a house at Racine operated by the Bijou Amusement company.

**ROLLER SKATING SEASON.**

The Palestine rink, Laurium, will open for roller skating Saturday evening of this week. The floor has been cleaned and smoothed for the season and is in very good condition. Monday evening ladies will be admitted free. The Laurium rink will furnish music for dancing and skating this year as last. The roller skating season will continue about eight to ten weeks.

#### THE LIFE OF "PING" FOSTER.

Celebrated Trapper and Guide at Copper Country Fair.

Just about the first active official at the Copper Country Fair to report for duty is "Ping" Foster, assistant superintendent and handy man on the fair grounds, and stream exhibit. He was on hand yesterday morning to boss the carpenters who are placing the stands and stalls for this exhibit and was seen by a reporter who called to see how the preparations for the fair were going.

Not many people know that Ping's name is William, he has been called Ping so long and just why he is so called is not learned. He is a man who loves the woods and the things of the woods, the stream and the fields and it is actually true that he would rather cook in a hunting camp than to own a hotel. In answer to a question yesterday Ping said that he has been a guide and hunter for about five years. The first man he ever took into the woods as a guide was Dr. Beaman, the pequin gunner of Cleveland.

Ping was born in the Adirondaks, but his folks moved to Ohio when he was young to get out of the woods. He was thirty-five years of age the family was living in a small town. Dr. Beaman, who was "a little rusty fellow, about 110 pounds," according to Ping, came out for birds and Ping went along as his guide. Ping has since been a guide in the Adirondaks and the United States. He has shot deer and wolves, caught fish, shot partridge and sometimes has pursued the tiger. He was a second cook in Barre and Bailey's circus one year and moved into better shelter thereafter. Chairman Edwards referred to the fact that the Marquette county supervisors had appropriated \$15,000 for the building of a tuberculosis sanatorium for that county. He felt that the Houghton county board should have authority for its action, unless a new law permitted it. He said that in the last legislature a bill had been introduced in the house to amend the referendum on all moneys to be raised, above \$1,000. He did not know if it had been changed in the senate. Senator Smith, a member of the board, said he believed it had, and that the Marquette county board was acting within its legal rights.

Chairman Edwards expressed himself as believing that it was better to have something to assist the tubercular campaign, and that he believed in building a sanatorium if the county had the authority to do it.

**NICK KAISER, CRICKETER.**

Old Baseball Star Takes Up English Game and is an Expert.

Nick Kaiser, in years gone by the idol of the baseball fans, is now and has been for the past year the idol of the cricket fans of Calumet. Kaiser has taken to the old English game like a boy to marbles and has shown himself an adept at it. He is quick as lightning in the field and knows just how to handle himself at bat. As wicket keeper, Kaiser has not equal in the league, and probably not in the entire country. Kaiser holds the best batting average on the Calumet & Hecla team, champion of the Copper Country league and of the northwest. The way he has batted in the last five games has put him in the lead in the league. This is only Nick's third year at cricket.

The Calumet & Hecla team has won the championship. There is no chance of the Peninsula or Mohawk teams tying with Calumet & Hecla whatever, and so the cup is to be awarded at the annual meeting of the league, Sept. 25. The announcement that these three clubs will be Alexander Stevenson of Hancock, president; William Reed of Hancock and President Edwards—are to pick an all-star team to play the champions a post-season game, has caused much interest in and about Calumet. It is fully believed there that the Calumet & Hecla team can defeat any all-star team that can be picked from the nine teams of the league, and there are some mighty fine players on those other teams. The post-season game will likely take place about a week from next Saturday, when the league meeting will be held, and it will be played on the Calumet & Hecla pitch.

Little is being heard from any of the teams of the iron country, which were met and trimmed by the copper country teams last year, both on copper country pitches and on their home pitches. And little more is being heard of the proposed game with the strong Minneapolis team which invaded Canada recently and was given five bad drubbings at Winnipeg.

**DIVIDE, PEARL'S TERRITORY.**

Houghton County Attorneys Petition for New Referee in Bankruptcy.

A petition was circulated in Houghton yesterday, addressed to Judge Loyal E. Knappen, of the United States circuit court, in session at Marquette, asking for the appointment of Attorney Richard T. Looney of Houghton as referee in bankruptcy for a new district to comprise Houghton, Ontonagon, Baraga and Keweenaw counties.

The attorneys of the copper country feel that bankruptcy proceedings in the counties named would be facilitated by the creation of a new district as B. O. Pearl of Marquette, the present referee for the upper peninsula, has a large territory to cover and there are thus at times long delays in copper country hearings.

The petition will be circulated in the other three counties, and an effort will be made to present it to Judge Knappen during the present term of court.

**CALUMET BOY IS HONORED.**

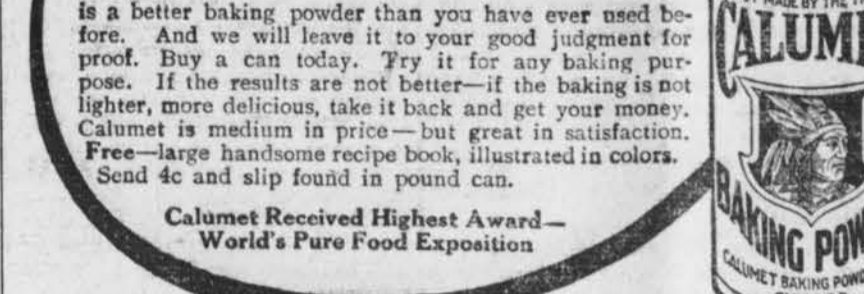

Howard Dakin of Tamarack has been chosen president of the Upper Peninsula club at the Ferris institute. Mr. Dakin left Calumet for Big Rapids early last week, but this is not his first term at the school. There are a great many students from the upper peninsula at the Ferris institution and, consequently, an upper peninsula club or society was organized there a few years ago. This is the first time a Calumet student has been elected head of the organization, however. Mr. Dakin is very popular among the students, as well at home.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold at The People's Drug Store.

### madam! Don't be misled

Cheap and Big Can Baking Powder is Only Big in Size - Not in Satisfaction - Not in Economy

A large can and a small cost does not make baking powder cheap— or even less expensive than Calumet—the high-quality, moderate-price kind. It certainly cannot make it as good. Don't judge baking powder in this way—the real test—the proof of raising power, of evenness, uniformity, wholesomeness and deliciousness will be found only in the baking.

is a better baking powder than you have ever used before. And we will leave it to your good judgment for proof. Buy a can today. Try it for any baking purpose. If the results are not better—if the baking is not lighter, more delicious, take it back and get your money. Calumet is medium in price—but great in satisfaction. Free—large handsome recipe book, illustrated in colors. Send 4c and slip found in pound can.

Calumet Received Highest Award—World's Pure Food Exposition

**REV. MR. KNOWLES PLEASAS.**

Notes of Houghton Churches—M. E. Ministers in Detroit.

Rev. Frank B. Knowles of Iron Mountain, pastor of the Presbyterian church in that city for the past eight years, preached in the Houghton church Sunday before large congregations, and made a strong impression. He came as an unwilling candidate for the pastorate to succeed Rev. J. M. Linn, transferred. His unwillingness is based on his love for his Iron Mountain flock and the affection in which he is held there. But the Houghton Presbyterians wanted Mr. Knowles to appear as a candidate, assuring him that if the good impression was made he would be convinced that Houghton is his field.

The fall meeting of the Lake Superior Presbytery, the governing body of the Presbyterian church in the upper peninsula, opened at Calumet last night. The delegates arrived at Houghton at noon yesterday and had luncheon there, followed by an open parliament in the Houghton church. The sermon on this occasion was delivered by Rev. Mr. Jenks of Alpena, stated clerk of the Presbytery.

Rev. W. R. Fruit, pastor of Grace church, and Rev. Henry Rogers, pastor of the Huron town church, have gone to Detroit to attend the annual meeting of the Detroit conference of the Methodist Episcopal church, to which their churches are attached. At this conference the selections of pastors for the churches are made, and while Mr. Fruit and Mr. Rogers have both been asked to return to their charges, they left with the impression that they would be transferred, as they have served the allotted time in their respective charges. The two ministers were accompanied to Detroit by Rev. James O. White, superintendent of the United Belief at Cincinnati, who had been visiting in Houghton.

**WILL ATTEND TAX CONFERENCE.**

Robert H. Shields Is Delegate from Michigan to Louisville.

Governor Fred M. Warner has named Robert H. Shields of Houghton, a member of the Michigan tax commission, as delegate from this state to the international conference on state and local taxation to be held at Louisville, Ky., Sept. 21 to 24, under the auspices of the International Tax association. Mr. Shields will leave Monday for the Kentucky city.

The conference will be attended by delegates from every state and many foreign countries. It will be presided over by Governor Wilson of Kentucky, and speeches will be made by Senators Bradley and Taylor of this state. Mr. Shields was asked to contribute a paper to the program, but pressure of private business did not allow him time enough to prepare one. It will be remembered that he was one of the principal speakers at a taxation conference in Minneapolis two years ago.

**ASSOCIATION FOOTBALL.**

Tournament at English Game Proposed by South Range Clubs.

A Soccer football tournament is to be held in Baltic this year. Medals and a silver cup are to be awarded the winners. The teams from Baltic, two from Trumountain, two from Quincy, one from Tamarack and one from Peninsula have already arranged to play. The tournament will bring together the very best football material in Houghton county, and some lively and spirited games will be witnessed. There are eleven men on each team, a goal, two fullbacks, three half backs and five forwards. It is different from the Rugby game, in that the ball is handled with the feet and head, instead of with the hands. This makes the sport decidedly interesting.

Monday next the pupils attending the Protestant Italian school in the basement of the First Presbyterian church, Calumet, will observe the thirty-ninth anniversary of the independence of Italy and the conquest of Rome. The Italians of the copper country in general have been invited to join in the celebration. An excellent program of literary and musical numbers is being arranged for

**ITALIANS TO CELEBRATE.**

Monday next the pupils attending the Protestant Italian school in the basement of the First Presbyterian church, Calumet, will observe the thirty-ninth anniversary of the independence of Italy and the conquest of Rome. The Italians of the copper country in general have been invited to join in the celebration. An excellent program of literary and musical numbers is being arranged for

### S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, caries of the teeth, eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the blood joints developed. S. S. S. given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, and perhaps later some disease of the blood joints developed. S. S. S. given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. Artistic Monuments  
COST NO MORE THAN  
PLAIN ONES IN  
WHITE BRONZE  
Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Brackets, it is very expensive. WHITE BRONZE is strictly everlasting. It cannot crumble with the action of frost. Moss growth is an impossibility. It is more artistic than any stone. Then why not investigate it? It has been adopted for one or two hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own burial plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. Or free list of a postal card will be pleased to call with designs and samples of White Bronze.

**City Brevities**  
Yesterday's temperatures: Seven a. m. 61 degrees; noon, 56; 7 p. m., 54. Maximum, 62 degrees; minimum, 54.  
Today's weather: Showers; stationary temperature.  
Carl Whittler left for Milwaukee last evening on a business trip.  
Adam Kangas, of Ishpeming, called on a number of his Marquette friends yesterday.  
The G. I. A. to the B. of L. E. will meet at Keough's Hall at 2:30 this afternoon.  
Miss Susan Derra leaves this morning to visit in Chicago, Milwaukee and Madison, Wis.  
Mrs. I. W. Joslin, of Grand Rapids, arrived yesterday to spend a few days with friends.  
If the weather is favorable, the Finnish band will give a concert in Lakeside park this evening.  
Mrs. Libby left last evening for Chicago. She expects to visit New York before her return to Marquette.  
James Lafortune has retired from the driving business and accepted a position with the light and power commission.  
At a meeting to be held at the Hotel Clifton this evening, the question of organizing a city football team will be discussed.  
Harry Culver left last evening for the University of Virginia, to take an examination in the law school. He was accompanied by his mother, Mrs. Rush Culver.  
President Delano, of the Wabash railroad, and family, returned to Chicago last evening in the private car "Chit cago," which was attached to the regular train. They have been spending a vacation at Huron Mountain club.  
Warner B. Brown has purchased the residence at the corner of Hewitt avenue and Pine street of Asie & Palmer, and will move into it within the near future. Last spring Mr. Brown purchased a farm in Chocomaury township, where he has been raising poultry this summer, but he did not find country life to his liking.  
Married at Cobalt—Friends of Miss Jennie Fritz of Birch, formerly of Marquette, have been surprised to learn of her marriage, at Cobalt, Ont., to James McMahon. It took place last Saturday. The best wishes of many friends are extended to the couple.  
Died at St. Mary's—Arthur Sroats, who until recently has been in the employ of the Lake Independence Lumber company at Big Bay, died at St. Mary's hospital of typhoid fever, and the remains were shipped to his former home in Traverse City yesterday afternoon. He was about forty-five years of age and a single man.  
Accused of "Blind Pigging"—Walter Mullen, proprietor of the cafe in the Red, White and Blue block, has been arrested on the charge of selling liquor without a license, the complaint having been made by Officer Remondet. It is alleged that the drinks were furnished in a room on the second floor of the building. His case has been set for hearing before a justice Friday.  
Boats Are Scarce—It is reported that the movement of ore this far during September has not been quite so brisk as during August, owing to the scarcity of boats to haul the tonnage. The Labor Day holiday threw the schedule of the boats out of gear and they have not yet fully recovered from it. However, the total movement for the month promises to be an unusually large one, though no records are likely to be broken.  
Auspicious Beginning—The Ferguson Business college has opened the school year under auspicious circumstances, the attendance being larger than usual for so early in the term, and more students are enrolling daily. Mr. Ferguson expects that in point of attendance at least, this will be the best year of the school's history. A large enrollment is reported from the Iron-ore branch and conditions at the Iron Mountain school are said to be satisfactory.  
Creamery in Operation—The new creamery at Skandia began making butter last Saturday and will for the present churn every alternate day. The product of the new plant will be known as the "Maple Leaf" brand. The capacity of the plant is ample and the output will be limited only by the amount of cream that can be obtained. The creamery is owned by a stock company, composed of Skandia and West Branch farmers, and its product will be marketed in this city as far as possible.  
Lillian Russell Scores—Lillian Russell, who delighted Marquette theater goers last June in her racing comedy, "Wildfire," scored a hit in Edmund Day's new comedy, "The Widow's Might," which was produced for the first time at Springfield, Mass., on the evening of Sept. 10, before a large and fashionable audience. "It was the first performance of the play on any stage," says a Boston paper, "and the audience was not slow in stamping it a success. The play deals with high finance in Wall street in a novel manner, and the story is well worth while from the very start. Miss Russell was delightful in the light comedy portions and also rose splendidly to the dramatic scenes. She wore some of her latest Parisian gowns and they proved a revelation. As the captivating widow loved by four Wall street financiers, Miss Russell has the best role of her career."

**Theatrical**  
"The Parisian Model."  
It is rarely indeed that a greater wealth of beautiful gowns or a more superbly mounted scenic production is seen at the Marquette opera house than in "The Parisian Model," which was presented last evening. The production teems with the atmosphere of the fashion center of the world and at times it is not difficult to imagine one's self in Paris in reality. This atmosphere is largely brought about by the lavish scenic investiture and the abundance of stylish, dazzling costumes.  
The cast is headed by Miss Grace Hazard, who won her reputation in "Flordora" and "Babes in Toyland." Last evening was her first appearance in Marquette and she simply captivated her audience. Miss Hazard is a wonderful versatile artist of the most refined type, a charming dancer and is possessed of a most beautiful and thoroughly cultivated voice. Her part in "The Parisian Model" is an exceedingly prominent one (in fact, with her part left out, there would be little left) yet she never tired her audience nor failed to receive enthusiastic and deserved applause.  
The chorus is a large one and is well adapted to the requirements of the musical extravaganza, being able to sing well, execute the many dancing numbers satisfactorily and to show off the numerous and beautiful costumes to advantage.  
William Naughton, who plays opposite Miss Hazard, has a tenor voice of rare sweetness and range, and his musical renditions were a delightful feature of the performance.  
"The Parisian Model" nothing more than comedy it would be a failure, for this feature consists of little more than horse play, which at times degenerates to something approaching coarseness. However, the delightful music and dancing, the beautiful costumes and scenic investiture and most of all, Miss Hazard, cause one to forget the indifferent comedy, and the impression left by the production is decidedly satisfactory and pleasing.

"The Minister's Daughters."  
One of the prettiest of this season's new plays is the Rowland and Clifford Amusement company's latest offering, "The Minister's Daughters." It is a drama of the quiet homely type, dealing with characters of the kind of people that we meet in every day life. It tells a simple story of the struggles of two pretty girls, daughters of a country clergyman, to win success in a big strange world.  
The youngest daughter, a promising artist, is suddenly stricken blind, and the support of this girl and the widowed mother falls upon Millie, the eldest, whose task is made doubly hard by the fact that she is in love with a persistent suitor, the son of her employer.  
Two strangers appear in the little village of Rosville, one a prominent politician of dissolute character and the other his nephew. The nephew and Millie fall in love, and the politician who is known to his constituents as "Porgy Joe" takes Millie to Chicago as his secretary.  
During a drunken debauch, "Joe's" pocket is picked and a treasury note of \$500 is stolen. He suspects Millie, who is glibly in need of money to secure the services of an eminent specialist who is sure he can restore her sister's sight. The nephew assumes the guilt and is arrested, and "Porgy Joe" has the girls turned out in the streets.  
Upon regaining his sober mind, the politician realizes the damage he has done and endeavors to rectify it. He does not find the daughters, however, until they have suffered great hardships. They are taken from their sad surroundings to "Joe's" beautiful home. Millie's beautiful character leads the politician from his path of wickedness and he willingly gives her his nephew's hand in marriage and all ends happily.  
"The Minister's Daughters" will be an attraction at the opera house on Friday night.

**MAY BAR FOREIGN YACHTS.**  
New Tariff Likely to Force Millionaires to Buy at Home.  
Washington, Sept. 15.—The indications are that the new tariff law will make it impossible even for millionaires to purchase and operate foreign built yachts. The new law imposes a high tariff on foreign built yachts, but in addition to this officials express the opinion that such vessels will be required to take American registry. Under these circumstances, expenses of operation would be increased to such an extent that Americans would undoubtedly be forced to buy their yachts in the United States. This was the purpose of the law makers who framed the new tariff act. According to reports received at the treasury department, 80 foreign built yachts are now owned in the United States. Fifty of these ply in New York waters.

**OPENING OF THE STANDING ROCK AND CHEYENNE RIVER INDIAN RESERVATIONS**  
Registration at Moberge, Lemmon or Aberdeen, S. D., October 4 to 23.  
The opening of the Standing Rock and Cheyenne River Indian Reservations in South Dakota and North Dakota in October will give about ten thousand people 100 acres of fertile farming lands for a small sum per acre. The government has appraised these lands at 50 cents to \$0 per acre.  
If you intend to engage in farming or are now farming and wish to change your location, why not register for one of these farms? You may be successful in the drawing for these lands.  
Aberdeen, South Dakota, on the Chicago, Milwaukee & St. Paul railway, and Moberge and Lemmon, South Dakota, on the Chicago, Milwaukee & Puget Sound railway, are points of registration. You can register any day from October 4 to 23. The drawing will take place at Aberdeen on October 26.  
The land in the counties to the east of these reservations now sells at \$25 to \$30 per acre.  
This land opening will also give you a splendid opportunity to see the wonderful country opened through the construction of the new line to the Pacific Coast, at small additional cost over your railroad fare to points of registration.  
Folders regarding this land opening and the country along the new line in South Dakota, North Dakota and Montana, free. F. A. Miller, General Passenger Agent, Chicago, Milwaukee & St. Paul Ry., Chicago. (9-15-22-29)

**Laundrying Ladies' Dainty Summer Lingerie**  
is a specialty of our Laundry during the summer months.  
Your dainty garments are washed white and clean, are starched very carefully and are ironed by hand,—by girls who are experts on this particular class of work.  
No article is too delicate or elaborate for our careful workers to finish in a way that will elicit praise from the most particular woman.  
Each garment is inspected carefully before delivery—and is sent home to you in a stiff pasteboard box. It reaches you fresh, dainty, and fit for wear on any occasion.  
Our prices are reasonable too.

### MARKETS

#### NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows: "Steel and Reading were the features during today's session and the balance of the list responded to the strength in these issues, with the result that the market assumed a better aspect. The efforts that are being put forth to divert attention from the Harrison issues is meeting with much success, and the rumors that are circulated are to the effect that the coal properties of the various railroads will be segregated, and also that a large combination of copper properties will be made in order to better control production of the metal. It is thought that the Morgan interest will be prominent in the future market features and also active in Finance and Southern Pacific issues, although not acting in the directory."

Table of stock prices for various companies including Anaconda, Am. Smelting, Am. Locomotive, etc.

#### Boston Stock Quotations.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "In spite of the bearish talk on the part of Amalgamated, the whole day opened strong this morning and gained 6 points to 58 and closing at the top, Centennial, Superior, Isle Royale and La Salle were also active in sympathy. Copper Range and North Star were very scarce, but did not attract any interest. The whole market seemed to be recovering from the shock received last week and will probably rally a few points further."

Table of Boston stock quotations for various companies like Wyanot, Winton, etc.

#### The number of shares sold during the day were as follows:

Table showing the number of shares sold for various companies like Amal. Cop., Adventure, etc.

### IMPROVING THE WEATHER.

#### Plans Completed for Some Upper Air Observations.

Station at Mt. Weather, Va., is Almost Ready and Professor Moore's Bureau Expects to Do Work There Which Will Be of Great Value—More Long Range Forecasting Proposed.

Washington, Sept. 15.—Weather bureau officials are looking forward impatiently to the completion of all the buildings at the observation station at Mt. Weather, Va. The last of the buildings will be completed there this fall, and the damage done by the fire there about two years ago entirely repaired. With the station completed and fully equipped, it is expected that observations and experiments of great value in the forecasting of weather conditions will be made. The great work which Dr. Willis L. Moore and his aides are trying to do at Mt. Weather is to perfect their knowledge of upper air conditions. Until comparatively recently, weather forecasts were based entirely on knowledge of conditions at the surface of the earth. Now the weather bureau is turning upon the widest possible information obtainable at the earth's surface, but upon such facts as to meteorological conditions in the upper air, miles above the earth, as are obtainable. It is now possible to send kites or aeroplanes four or five miles aloft, and to observe the earth and obtain readings of the conditions, and these are of great value in making weather predictions. A most important phase of the work at Mt. Weather relates to the measurement of the exact amount of absorption of the heat of the sun's rays by the atmosphere. Observations along this line taken in connection with the work which is being done by Professor Abbott, of the Smithsonian Institution, in measuring the variations in the amount of heat furnished by the sun's rays, constitute valuable additions to the sum of information necessary to the perfecting of the weather forecast system of the United States.

#### CHICAGO GRAIN MARKETS.

Chicago, Sept. 14.—Fear of a crop shortage in Argentina again was the dominating factor in the wheat market here today. As yesterday, the price made material gains, but the market failed to retain the advance, owing to profit-taking, and closed 1/2 cent to 1/2 cent higher, compared with the previous final figures. The September was more erratic than the deferred months, and at factor that caused considerable selling toward middle was the statement of the world's visible supply, which showed an increase of 7,373,000 bushels. The trade, however, was inclined to buy what all day, because of the damage reports from Argentina. The December opened at 98 1/2 to 98 3/4; highest, 99 1/2; lowest, 98; closing, 98 1/2 @ 98 3/4.

Corn—The offerings from the country today again were liberal, while the demand from Eastern shippers showed no signs of improvement. As a result, the market was inclined to be weak all day, although several rallies occurred, in sympathy with the bulge in wheat. The close was steady, unchanged to a shade lower. The December opened at 60 1/2 to 60 3/4; highest, 60 3/4; lowest, 59 3/4; closing, 60 1/2.

Wheat—The offerings from the country today again were liberal, while the demand from Eastern shippers showed no signs of improvement. As a result, the market was inclined to be weak all day, although several rallies occurred, in sympathy with the bulge in wheat. The close was steady, unchanged to a shade lower. The December opened at 60 1/2 to 60 3/4; highest, 60 3/4; lowest, 59 3/4; closing, 60 1/2.

#### MURDER DREAM TRUE.

Woman, in Vision, Sees Her Cousin Killed by Old Enemy.

Big Stone Gap, Va., Sept. 15.—The death of Andrew G. Thompson, who was murdered near Parisburg, Giles county, being shot down to satisfy an old grudge by Jacob Carper, with whom he had been at enmity for many years, has fulfilled a dream of a relative of the dead man living here in which the tragedy was revealed almost identically the following morning, confirming the occurrence.

#### HE AWAITS FURTHER DETAILS.

Proof of Polar Discovery All Matter of Record, Says Dr. Howe.

Lawrence, Mass., Sept. 12.—Dr. G. P. Howe, who was in the Arctic region in 1900 and 1907, went with the Lepping well-Nickleson expedition, which had for its purpose the discovery of a body of land which was supposed to be north of Alaska, which, however, did not exist. Dr. Howe

State Legislature in Georgia Gave it "Perpendicular" Boundaries.

Atlanta, Sept. 15.—If the city of Collins, Ga., conforms strictly to her new charter limits, as set forth in an act passed at the recent session of the General Assembly, the indications are that it will take an airship to survey the town.

#### ISHPEMING MAN SUED?

Chicago Newspaper Asserts That a Young Woman of That City Has Filed an Action Against Hans Gunderson for Alleged Breach of Promise, and That She Demands \$50,000 Damages.

Chicago, Sept. 14.—The Chicago Inter-Ocean publishes the following story in its issue of today: "A unique story of a millionaire's struggles with his dual nature, trying to reconcile a wife to his business or choose between them, will be told in the Circuit court of Ishpeming, Mich., next week in a sensational breach of promise suit in which several Chicagoans are interested.

#### STEPS A MILE IN 2:02 1/2.

Darkey Hal, at Syracuse, Lowers the Year's Side-Wheeler Record.

Syracuse, Sept. 14.—In the 2:05 pace today, Darkey Hal developed into the only record-breaker of the second day of the Grand Circuit meeting. Darkey Hal stopped the second heat in 2:02 1/2, lowering the year's side-wheeler record. Baron Whips was off color and earned only third money. In two attempts, Lady Mauld C. and Hedgeswood—Boy, brother and sister, failed to lower their owners' pacing record to the pole.

#### SHOOTING WHALES.

Modern Whalers Use a Cannon and an Explosive Harpoon.

Whaling with modern methods in Alaskan waters is an exciting game, especially for those who are new to the business. The modern whaling steamer is a little vessel almost round on the bottom, which enables it to be turned and managed with the greatest ease. Mounted at the bow is a harpoon weighing more than 100 pounds and having an explosive head, called the bomb.

#### THE HOTTEST TOWN.

With the advent of hot weather the old controversy between Yuma and Needles, the first in Arizona and the hottest place in the United States has been revived. Neither is clamoring for the distinction—oh, no, each is striving to thrust it upon the other! As a matter of fact, the difference is so slight that it isn't worth while quarreling about.

#### YOU CAN USE ABSOLUTELY THE FINEST INGREDIENTS IN YOUR DELICACIES—But—

After all, it is the extract you use which gives the predominant flavor. That is why you should always insist on getting BURNETT'S VANILLA.

It gives that delicious, natural flavor of the "finest Mexican Vanilla Beans." When Burnett's Extracts are used your delicacies are always a source of pride. Insist on Burnett's.

Send us your grocery name and we will mail you, FREE, thirty-six original, tested recipes of delicious delicacies, easily and economically prepared. You will get new ideas from this FREE book. JOSEPH BURNETT COMPANY, 36 India St., Boston.

Special attention to BANKING BY MAIL. Send a postal for booklet.

#### THIS TOWN CLAIMS THE SKY.

State Legislature in Georgia Gave it "Perpendicular" Boundaries.

Atlanta, Sept. 15.—If the city of Collins, Ga., conforms strictly to her new charter limits, as set forth in an act passed at the recent session of the General Assembly, the indications are that it will take an airship to survey the town.

Darkey Hal, at Syracuse, Lowers the Year's Side-Wheeler Record.

Syracuse, Sept. 14.—In the 2:05 pace today, Darkey Hal developed into the only record-breaker of the second day of the Grand Circuit meeting. Darkey Hal stopped the second heat in 2:02 1/2, lowering the year's side-wheeler record. Baron Whips was off color and earned only third money. In two attempts, Lady Mauld C. and Hedgeswood—Boy, brother and sister, failed to lower their owners' pacing record to the pole.

#### SHOOTING WHALES.

Modern Whalers Use a Cannon and an Explosive Harpoon.

Whaling with modern methods in Alaskan waters is an exciting game, especially for those who are new to the business. The modern whaling steamer is a little vessel almost round on the bottom, which enables it to be turned and managed with the greatest ease. Mounted at the bow is a harpoon weighing more than 100 pounds and having an explosive head, called the bomb.

#### THE HOTTEST TOWN.

With the advent of hot weather the old controversy between Yuma and Needles, the first in Arizona and the hottest place in the United States has been revived. Neither is clamoring for the distinction—oh, no, each is striving to thrust it upon the other! As a matter of fact, the difference is so slight that it isn't worth while quarreling about.

#### YOU CAN USE ABSOLUTELY THE FINEST INGREDIENTS IN YOUR DELICACIES—But—

After all, it is the extract you use which gives the predominant flavor. That is why you should always insist on getting BURNETT'S VANILLA.

It gives that delicious, natural flavor of the "finest Mexican Vanilla Beans." When Burnett's Extracts are used your delicacies are always a source of pride. Insist on Burnett's.

#### AMERICANS LIKE GERMANS.

The Daily Mail prints a letter from Medill McCormick, publisher of the Chicago Tribune, suggesting that there is a fascinating opportunity for the English journalists to disclose to the English public the real attitude of modern America toward England and the English. Mr. McCormick says the English journalists overlook the extreme nationalism of American opinion, which cherishes only a perfunctory sentiment for England of today, whatever feeling there may be about a common ancestor, Shakespeare, the Bible and Magna Carta.

#### WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Marquette women know how the aches and pains that come when the kidneys fail make a burden. Backache, hip pain, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Marquette woman's words:

"For several years I was a sufferer from kidney trouble. I had a severe pain in the small of my back and was subject to headaches. I had but little strength or energy and could hardly attend to my work. I tried a number of remedies but did not succeed in finding relief until I procured a box of Doan's Kidney Pills at the Stafford Drug Co. They helped me from the first and I continued until I felt better in every way. I do not hesitate to recommend this valuable remedy to anyone suffering from kidney trouble."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Don't waste your money buying plaster when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for back, pain in the side and chest, and much cheaper. Sold at The People's Drug Store.

**MINING MEN COMPROMISE.**  
Bartow-Sellwood Controversy Is Settled Out of Court.

The case of John H. Bartow against Joseph Sellwood and his associates for \$150,000 for the alleged misappropriation of 3,000 shares of the Leontina Mining company's stock, has been settled out of court, and the case has been dismissed, says the Duluth Herald. The terms of the settlement were not made public. There were charges and counter charges on both sides and the case promised much in the way of a badly mixed legal entanglement. Both sides had several other complaints they had intended filing, it is said, and the first case promised to pave the way for many more.

John H. Bartow is a Cleveland man. In his complaint he claimed that Captain Sellwood of Duluth misappropriated 3,000 shares of stock he held in the Leontina Mining company. He claimed that while Bartow was in the ore brokerage business he misappropriated much of the money he collected for Duluth companies and that in order to cover up what had been taken, Bartow agreed to have his stock sold and the amount applied on the books of the several mining companies.

There were also several other smaller suits pending between the parties in the matter of notes and other mining transactions.

The main trouble with the fellow who kills time is that he kills so much that belongs to really busy people.

### OPERATIONS TO BE RESUMED AT CUNDY

UNITED STATES STEEL CORPORATION WILL REOPEN MEMORINE RANGE PROPERTY THAT HAS BEEN IDLE SOME YEARS.

The Cundy mine, at Quinnesee, which is owned by the United States Steel corporation, is soon to be reopened. The property has been idle since 1905, and a considerable part of the ore left in stock at that time remained in the piles until this season, when the last of it was shipped. Now that the company's mammoth steel plant at Gary, Ind., is steadily enlarging the extent of its operations, it needs increased supplies of ore from the Memorine range, which is the nearest iron field. The Cundy is to furnish its quota. The Cundy has produced upwards of 1,300,000 tons of ore to date and it has large deposits yet to be mined.

The resumption of work at the Cundy will mean much for Quinnesee, which has been one of the quietest places on the Memorine range of late years. The Illinois Steel company has been operating a property there for some years past, and has increased its working forces considerably during the past two years. Now that the Cundy is to be reopened there will soon be a considerable number of men employed in and about the town.

Since the general activities in the mining industry corporations having possession of mineral lands have given the Quinnesee district considerable attention. A large area has been explored during the past two years. The mineral areas extend over a large territory and in time there will be mines in close proximity to each other from Iron Mountain to Quinnesee.

**HARVEST FESTIVAL.**  
Methodist Sunday School Choir Will Assist at Army Entertainment.

The annual harvest festival at the Ishpeming barracks of the Salvation army will take place Saturday evening at 7:30 o'clock. The First Methodist Episcopal Church Sunday school orchestra, under the leadership of W. E. Thomas, will render several selections, and the Misses Cornish and Master Cornish, and others, will be heard in vocal numbers. The hall will be decorated for the occasion.

Ice cream and coffee will be served after the entertainment. The admission, twenty-five cents for adults, and fifteen cents for children, will include refreshments.

The officers of the corps are meeting with fairly good success in the collection of provisions and clothing for the deserving poor in the city, and which they are to distribute during the festival period.

Any donations will be much appreciated, and the officers will be pleased to call for articles if the parties contributing will send them word. Captain Gough and wife are working hard in an endeavor to make the festival the most successful ever held here.

**STORM HITS COLERAINE.**  
Rain, Wind and Hail Raised Havoc in Mesaba City Sunday Night.

It is reported from Coleraine, Minn., where a large number of Marquette county people are located, that thousands of dollars worth of damage was done Sunday night by one of the worst storms that has ever occurred there. The storm struck the city squarely, and many were panic-stricken. It was accompanied by a cloud burst and a terrific hail storm. Many properties were damaged and deep trenches were washed out in the streets.

At the Canisaw mine the pit was washed full of dirt from the surface, and the steam shovels were nearly buried. The cellars in the lower parts of the city were flooded and telephone and electric wires were broken down in all parts of the town.

Murick's new brick building is said to have been totally ruined as the result of the storm. It has just been erected at a cost of \$6,000. The Wilson livery stable was also wrecked, and the grandstand and fence at the baseball grounds were blown to pieces. The damage in the city and about the mines will amount to a considerable sum.

This is the second time this summer that Coleraine has been visited by severe storms. A few weeks ago practically all the mine pits were filled with water, necessitating a suspension of operations for several days. The damage to the mining properties amounted to a considerable sum and several of the business places were also damaged. A number of the merchants suffered heavy losses on account of the floods, and in some of the stores the water was from one or three feet in depth.

**PATTON SCORES A HIT.**  
W. B. Patton, appearing in the principal character of his own play, "The Blockhead," met with an appreciative reception at Ishpeming theater last evening. He showed by his clever work that he is entitled to the distinction of being called a "peculiar comedian." He has a most pleasing way of acting and his style is all his own. It was the opinion of those who witnessed his performance last evening that he is one of the very best comedians ever seen here. He is supported by an excellent company. "The Blockhead" is a three-act comedy. Professor Heddington, the character assumed by Mr. Patton, is paddy Jack Steele, despised by the members of the Barnes family because he is a poker player and a race track gambler. He disguises himself as a Latin tutor and visits the Barnes home to teach Kitty Barnes. He falls in love with Kitty and she loves him, but when he makes himself known the entire household is shocked and want him to leave. He has some secrets of Captain Barnes, however, and having shown himself not such a bad fellow after all the denunciation is a happy one. There is a villain who tries to steal away the captain's young wife, but he is blocked by the professor. The heavy parts are completely discounted by Patton's comedy, and he is really the whole show. Mr. Patton was obliged to respond to several curtain calls.

**DEATH OF MRS. RIPPER.**  
Mrs. Mary Jane Ripper, wife of Joseph Ripper of National Mine, died yesterday morning. The demise was not unexpected, as Mrs. Ripper, who had been ill since last January, had been in a precarious condition for a few days past. The passing of Mrs. Ripper is mourned by a large circle of friends both in the city and at the National. She was highly respected by all who knew her. The deceased was born at Rejersburg, Conn., and came to this country with her husband and other members of her family twenty-two years ago, locating in this city. Her age was sixty-two years. Besides the husband, there are six children surviving. They are Mrs. James H. Pascoe and Mrs. William H. Andrew, of this city; Mrs. Ben Trebar, of the National; Mrs. Joan Heard of Laurium; William Ripper, of Houghton, and Thomas J. Ripper, of the National. The funeral will be held tomorrow afternoon at 1:30 o'clock from the National Methodist church, Rev. C. L. Adams, pastor of the First Methodist Episcopal church of this city, officiating. Interment will be in Ishpeming cemetery.

**PLANS BIG SALE.**  
Fred E. Harwood, general buyer of ladies' clothing for the Gately company, was in the city Sunday and Monday, completing arrangements for a big sale of ladies' coats, suits, dresses, fancy evening wraps and misses' suits, to take place at the Ishpeming store, commencing next Friday, and continuing until Tuesday evening. Mr. Harwood is one of the busiest men in the Gately company's employ, as he does practically all of the buying in his department for all of the concern's eighty-five stores, scattered throughout the country. It is seldom that he has an opportunity to leave the city, but he stated that inasmuch as the sale to be conducted here is to be the most important, that the company has ever had in this county, he thought it advisable to visit the city to ascertain just what goods will be best suited. A. C. Snyder, who took the management of the store a few weeks ago, is working unusually hard and is making a success of the business here. He extends an invitation to the ladies of the county to call and examine the goods.

**CHURCH BAZAAR.**  
The ladies of the Swedish Lutheran church will conduct a bazaar in the Young People's hall, using both the first and second floors, commencing today, and continuing until Friday evening. Short musical programs will be rendered each evening by members of the church choir and orchestra. The ladies have prepared a large collection of articles, which will be offered for sale, and refreshments, including coffee, cake, candy, etc., will be on sale both afternoon and evening. The doors will be open in the afternoon from 2 until 6 and in the evening from 7 until 10:30 or 11 o'clock. The admission in the evening will be ten cents.

### MURDER WITHOUT DEATH PENALTY

JURY FOUND GIBSON GUILTY AFTER BEING IN THEIR ROOM BUT FORTY-FIVE MINUTES.

### CARLQUIST VS. NEGAUNEE MINE

Personal Injury Case Now on Trial in Federal Court—Beddow's Motion for Continuance to Be Ruled Upon Today.

After being out but forty-five minutes the jury in the case of the United States against John E. Gibson returned a verdict of murder, with the recommendation that capital punishment be not inflicted in expiation of the crime. To those who had heard the evidence brought forth in the trial, the verdict was no surprise, and the fact that the jury in the first trial was unable to agree upon a verdict was a matter of general comment. In both trials Gibson's case was admirably handled by his attorney, M. M. Aronson, and the conviction of the accused was due to no lack of effort on his part to secure an acquittal. The verdict returned by the jury (necessarily) makes Gibson's punishment imprisonment for life.

There was no great amount of evidence introduced in the case, either by the government or by the defense, and the second trial was of shorter duration than the first, due to the omission of certain testimony because of certain admissions made by the district attorney. The government simply sought to show that Gibson had shot McManus in cold blood, and the defense that Gibson had fired the fatal shot while in mortal fear of his victim, who had threatened to take Gibson's life.

The testimony closed before noon yesterday and both District Attorney Covell and Mr. Aronson made their arguments to the jury before adjournment was taken for dinner. Mr. Covell made his argument in rebuttal immediately after the noon recess, which was followed by the court's charge to the jury. Judge Knappson instructed the jury as to what constituted murder, manslaughter and self-defense, and stated that one of four verdicts might be returned. Murder with capital punishment, murder with capital punishment, manslaughter or not guilty. The case went to the jury at 3:59 p. m.

### Motion for Postponement.

When the Gibson jury had retired to deliberate upon a verdict, the court again entertained the motion of Attorney M. M. Riley and Arthur O'Neill for a continuance of the trial of George H. Beddow, assistant cashier of the defunct First National bank, until the next term of court, and this motion will be ruled upon this morning. Mr. Riley, who presented the motion, stated that an honest effort had been made to get Beddow's defense in such shape that a trial might be had this term of court, but that it had been found to be utterly impossible. He said that the counts in the indictment charging that Beddow had embezzled and misappropriated \$25,000 covered a large number of separate items, which could only be investigated by a thorough examination of the bank's books for a period of years. He took occasion to criticize the action of the assistant district attorney in refusing to tell him the specific transactions on which the counts were based, and declared that, inasmuch as the bank's receiver, with a large number of experts and assistants had been unable to straighten out the books in two months, that the defendant ought not to be expected to go over the books in a few days. Mr. Riley further pointed out that the information on which Beddow was found over to the grand jury charged with abetting John Fahm and Larson in their defalcations, whereas the indictment returned last week charged entirely different offenses. Assistant District Attorney Clute, in his reply to Mr. Riley, seemed still to be of the opinion that Beddow's attorneys could get ready to try the case at this term, and offered them full access to the bank's books from now until the trial, though he stated that he would not give away the government's case by giving up the papers asked for by Mr. Riley, unless ordered to do so by the court.

### Personal Injury Case.

Before adjournment last evening, a jury was sworn and some testimony was taken in the case of John Carlquist against the Negaunee mine. The plaintiff in this action is suing the Negaunee mine for \$20,000 said to be due him as damages, because of an accident which occurred while he was working in the mine on April 3, 1908. It is alleged that Carlquist was struck on the right arm by a fall of ore or earth, which has rendered that member permanently useless. The case is brought in United States court because Carlquist is now a resident of Minnesota, which gives him the right to bring suit in either United States or Marquette county circuit court. Carlquist is represented by W. S. Hill, of Marquette, and Samuel A. Anderson, of St. Paul, the latter of whom has the reputation of being one of the best personal injury lawyers in the Northwest. William P. Beddow is conducting the case for the Negaunee mine, which is owned by the Cleveland-Cliffs Iron company. It is expected that this case will occupy the attention of the court all day today, and perhaps longer.

### BREAKWATER PLANS

U. S. Engineer Decides to Recommend Extension 1,500 Feet in Length.

J. H. Darling, assistant United States engineer, was in the city Monday in consultation with Powell & Mitchell, relative to the proposed extension of the breakwater of the Marquette harbor. As the result of the conference the engineer will recommend to the next congress that the Marquette breakwater be extended 1,500 feet in a southeasterly direction from the south end of the present structure. The proposal to build a breakwater from the south shore, starting near the prison, toward the present breakwater, it is stated, has never been seriously considered by the government engineers, as it is deemed impracticable. The plans for construction work which have been approved by Engineer Darling, call for a foundation of rock, with cribs filled with stone set on rock, and a concrete superstructure. The general form and appearance of the proposed extension will be the same as that of the present breakwater.

The engineer's estimate and approval for this breakwater extension will be ready for presentation at the next session of congress, and whether or not the necessary money is appropriated for the purpose will depend largely on the extent of the demand for it from the business interests and people of Marquette and vicinity. The proposed extension, the engineers say, will greatly increase the size of the harbor, make it more easy of access in rough weather, reduce the undertow, all of which will result in Marquette becoming a harbor of refuge for vessels caught in a storm between the Soo and Duluth entry.

### PROSPEROUS YEAR AHEAD.

Lumbermen Report Gratifying Business Outlook for the Future.

Unusually satisfactory conditions exist in the lumber business throughout the entire country the present time. It is being felt with gratifying force by all dealers, both wholesale and retail, and they predict that the coming year from all prospects, will be a bigger and better one than 1907, which set a mark at the time as one of the best business years in the history of the state. Prices, which underwent a terrific slump in 1908, are already climbing steadily upward. This is particularly noticeable in pine. Yellow pine dealers of the south who were the first to slash prices when the cut came, have taken the initiative in boosting, and their example has been followed by northern dealers. The increase has been less than 50 per cent of the decrease, however, and it is stated that it will be a long time before the high prices of 1907 will be reached. But with the volume of business so great, and the prospects for its continuance so satisfactory, there is no lumber dealer who is not pleased at the outlook.

The settlement of the tariff question has had an excellent effect on the lumber business. The American men who operate mills in Canada are now enabled to bring over their lumber at a less cost than heretofore and in that way have greatly benefited. The greatest demand for lumber comes from the manufacturers and the rural districts. This alone is an indication of the stability of the boom in business.

### 300 CANAL PASSAGES.

Sault Ste. Marie, Mich., Sept. 14.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Wade Corala, 9 p. m.; Fairmount, Ungava, Crete, 8:30; Hen Lake, Frank, Peavey, 10; Houghton, Thomas, Calder, Wawatun, 11; Ann, J. D., Goolyear, J. D., Marshall, mid night; Louisiana, Hurlbut Smith, Centron, 1 a. m.; Eelwin, Eddy, Ream, 1:30; William, Mother, 2; Shaw, Jimmy, 3; London, 4; Lynch, 10:30; Sylvania, 11; Samuel, Morse, Bryn Marx, Manolis, Reis 1 p. m.; Ball, 2; Turret, Crown, Leonard, Hanna, Corrigan, Samuel Mitchell, Chickamauga, 3; Snyder, 4; Crown, Sarnie, Lyman Smith, 6; Sinabala, 5:30; Hoyt, 6:30; Dave Mills, Anderson, 7; Empire City, Mada, 8.

### WAS GREAT SUCCESS

Miss Goggin Meets and Interests Marquette Women.

A VERY LARGE CLASS WAS PRESENT.

The Special Subjects for the Class on Wednesday Afternoon Are Given Below.

Miss Goggin, the lecturer and illustrator at the free baking school in the opera house block, certainly did take the women of Marquette by surprise. Her success was instantaneous, judging by the enthusiastic interest of the large number of women present. There is no mistake about Miss Goggin being an expert in her work; she is simply wonderful. The baking school is sure to be popular with the housewives of Marquette, as there is so much that is practical and useful in every day baking taught by this expert. Everything she does in her work is explained in an understandable way. As each recipe is put together, the consistency of the dough, as it should be, is shown, and you are told how to control the temperature of your oven, to secure results that are unerring and satisfactory. It is noted in all the work of this expert that she has no failures in baking. She serves what she bakes to the women present, as it comes from the oven. The K C baking powder used by Miss Goggin in her work certainly gives astounding results, if the food baked with it is any criterion to go by. Women who have tried this modern, never failing powder, are generous in their praise of it, and are advising their neighbors and those they are interested in, to order a 25-cent can from their grocer, and insist on him sending it to them at once. The "Cook's Book" which goes free to the users of K C for the return of the certificate found in each 25-cent can, is the most practical and most valuable ever written by Mrs. Hill, our greatest authority on culinary art. If you want to make someone happy, give them a "Cook's Book" for a present. One dollar is not more than its value.

Special subjects for Wednesday afternoon are: Spice cake, one egg muffins, oat meal macaroons and baking powder bread. These will be found to be very delicious dishes. The ladies are requested to bring along their forks for sampling the beef roll. A cake will be given away on Thursday afternoon. The class is held from 2 to 5 each afternoon.

### THIRTY-NINE MADE CITIZENS OF U. S.

ALL APPLICANTS WERE PUT THROUGH A RIGID EXAMINATION BY JUDGE STONE.

### REQUIRED TO SPEAK ENGLISH

Eligibility Test Made More Exact Than Ever Before and Many Failed to Meet It.

Thirty-nine men were made citizens of the United States yesterday in circuit court. The procedure was slightly different from that on former occasions as all the applicants were required to answer the questions put to them without the aid of an interpreter and to sign their own names. The new naturalization examiner, Merton Sturges, who has recently taken the place of U. S. Attorney Cole and Assistant F. S. Becker, was present but did little of the questioning, though he made careful examination of the citizenship petitions and the eligibility of the witnesses.

As usual, a considerable number of those whose petitions were set for hearing yesterday did not appear in court and their petitions were either continued or dismissed, depending upon the circumstances in each instance. Five applications were dismissed for non-appearance in court, five more because one of the witnesses sworn was not a citizen, and three because the witnesses had not known the applicant for five years.

Quite a number of those who appeared were sent home to learn the English language more thoroughly or to better acquaint themselves with the underlying principles of the state and national government. Questions were asked all of the applicants relative to their knowledge of the republican form of government and the method of making the laws, both for the state and nation. If the answers to these questions were not satisfactory the petition of the applicant was continued, with instructions that he should study up the points on which his knowledge was faulty before the next term of court.

### Those Made Citizens.

Following is given the list of those who were made citizens yesterday: Carl Julius Lindquist, Gwin, Jalmar Saari, 2121 Presque Isle avenue, Marquette. Henry Tassila, 318 Cedar street, Ishpeming.
