

PRESIDENT TAFT OCCUPIES PULPIT

Preaching to a Great Crowd in the Mormon Tabernacle at Utah's Capital City, He Appeals for Amity Between the People.

When Senator Reed Smoot Introduces Him, the Cheering is So Enthusiastic He is Unable to Begin His Address for Several Minutes—Afterwards He Proceeds to Ogdon, Where He Tours the Canyon, and Thence Leaves for Butte, Montana.

SEVENTEEN-YEAR LOCUSTS ARE EXPECTED IN 1914

The Last Time These Destructive Insects Visited This Country Was in 1897, and Then the Despised Sparrow Devoured Them by the Millions.

Pittsburg, Pa., Sept. 26.—Almost the whole known world is infested at times by a species of insect known as the locust, or locust. In many portions of the globe these insects come in such great numbers as to make life almost a burden to man and animal, and every living thing in the way of vegetation is devoured within few hours.

GIFFORD PINCHOT WILL KEEP HIS POST

Issuing a Statement at Salt Lake City, President Taft Endorses the Work of the Head of the Federal Forestry Bureau.

THE WEATHER

Washington, Sept. 26.—The following is the weather bureau's forecast for Upper Michigan: Fair, Monday and Tuesday; continued cool; light to moderate northwest winds.

BASEBALL STANDINGS OF THE TEAMS

Table with columns for National League (Pittsburg, Chicago, New York, Cincinnati, Philadelphia, Brooklyn, St. Louis, Boston) and American League (Detroit, Philadelphia, Chicago, New York, Cleveland, St. Louis, Washington).

SAYS COOK TOLD HIM HE GOT TO THE POLE

Harry Whitney's Homeward Voyage Down the Bleak Coast of Labrador Affords a New Feature in the Arctic Controversy.

GIFFORD PINCHOT WILL KEEP HIS POST

Mr. Pinchot's statement is as follows: "In view of published statements that the president's letter to Secretary Ballinger was to be considered a reflection upon Chief Forester Pinchot, the president authorizes the following: That at the time he wrote the letter to Mr. Ballinger he also wrote to Mr. Pinchot, assuring him that the fact that the letter was not intended in any way to reflect on him; that the president deemed Mr. Pinchot's confidence in the public service as of the utmost value; that he expected to continue the Roosevelt policy as to the conservation of resources, including the reclamation of arid lands, the preservation of forests and the proper restrictions respecting the use of coal lands and water sites, as well as the improvement of waterways, and to ask congress for such ancillary and enabling legislation as will put into execution these policies on the finest basis; and that he would deem it a great loss, in respect to the matters with which Mr. Pinchot has long been concerned, if his administration should be denied the benefit of his further service."

HUDSON-FULTON FETES A PROFITABLE PROJECT

Twenty Million Dollars is Estimated as the Sum That Visitors to the Celebration Will Leave in New York—A Million Strangers There Now.

GRAFT IN MONTREAL

Interesting Disclosures—One Alderman Says He Was Offered \$3,000.

RECEIVED TO BRING RIVAL'S RECORDS

New York, Sept. 26.—Commander Peary refused to allow any records or instruments of Dr. Cook to be brought aboard the steamer Roosevelt, and thus was instrumental in causing these records to remain in a cache at Etah, Greenland, according to Harry Whitney, in a dispatch received in this city by Dr. Cook today.

SATURDAY'S SCORES

Table listing scores for National League (Pittsburg, Cincinnati, Philadelphia, Cleveland, Chicago, Detroit, St. Louis, Boston, New York) and American League (Pittsburg, Philadelphia, Cincinnati, Cleveland, Chicago, Detroit, St. Louis, Boston, New York).

FLORIDA MOB LYNCHES NEGRO

Live Oak, Fla., Sept. 26.—Swinging from a tree in front of his shoe-repairing shop at Perry, the dead body of Charles Anderson, a negro, was found this morning. A mob had hanged him for the killing of Marshal Hawkins of Perry. Just night when the officer tried to arrest him for a minor offense.

REATE ISSUE HOLDS THE LEADING PLACE

There is Little Doubt That It Will Be the Most Prominent Question Before the Next Regular Session of Congress.

PROPOSITION THAT THE POWER OF THE INTERSTATE COMMERCE COMMISSION BE CURTAILED IS NOT AS LIKELY TO GET THROUGH; INDEED, IT IS PROBABLE INCREASED AUTHORITY WILL BE GRANTED—THE CONTROL OF RAILROAD CAPITALIZATION AN IMPORTANT PHASE.

Washington, Sept. 26.—President Taft's sentiments on the subject of further interstate commerce legislation are being given almost as close attention as his utterances on the tariff. He has dwelt upon several of the important phases of railroad legislation which will be given attention next winter. All the indications now are that railroad and corporation questions will be the most prominent issues of the next regular session, and the president is bestirring himself in connection with the subject.

DELIVER WANTER SQUEEZED OUT

The great question which the efforts to get legislation for the control of railroad capitalization will raise in congress is whether there should be any interest in the existing railroad stocks and bonds. The view taken in Senator Dooliver's bill is that the government, having done nothing all these years to control capitalization, ought not step in now and attempt to squeeze the water out of railroad securities. But he would not do this at this time forth exercise careful scrutiny and later on issue bonds which railroad companies desire to float.

DELIVER WANTER SQUEEZED OUT

Montreal, Que., Sept. 26.—There was a sensational incident before the royal commission which is investigating civic affairs when Alderman Cleryue went on the witness stand and swore that he was offered \$3,000 by Mark Workman, one of the big stockholders in the Montreal Light, Heat & Power company, on condition that he vote for that company's bid for street lighting. Alderman Cleryue said that he gave Workman a tongue lashing. Previously, A. S. Porcheron, another stockholder, had made him an offer of stock in the company for his vote. Alderman Cleryue was most indignant because recently W. McLea Wabank, vice president of the company, went on the stand and testified that aldermen came to him looking for graft and that he refused to pay.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

Editor Baldwin gives assurance that he has nothing against Mr. Aronson personally, but makes it clear that he considers him a poor excuse of a sheriff.

What we want to know is whether that great modern crusader, William Randolph Hearst, will revivify the purchased Independence League from Tammany.

Ispeping Iron Ore will seriously peeve our Negaunee neighbors unless it abandons its theory that they put up their good money to strengthen the Munising baseball team.

President Taft left both the Gentiles and Mormons in Utah in a pleased and satisfied frame of mind. That is by no means the least of his achievements on his western trip.

From the fact that we hear comparatively little about the proposed massacre of the innocent board members, we are impelled to believe that the rank and file failed to rally to the battle cry.

The Detroit Free Press has been conducting a voting contest on the absorbing question of who reached the pole, and if so, why? It ought at least to be as conclusive as the newspaper debate between the rival newspapers.

Forester Pinchot can reflect that as long as the atmosphere in the neighborhood of President Taft is warm and genial it makes comparatively little difference how frigid it is around the person of Secretary Ballinger.

Theodore P. Shonts, sued for \$200,000 for the alienation of a wife's affections, will have to prove his defense of "mistaken identity" to have any standing in his own family circle, to say nothing of avoiding a tremendous drain on his purse.

Instead of retracting the charges to which Sheriff Aronson takes exception, Editor Baldwin, of the Escanaba Journal, reiterates them in detail and in clear language, giving the sheriff plain warning of the things he expects to prove in open court if the case is pushed. He then jauntily invites Aronson to trot along his libel suit. Editor Baldwin appears to be absolutely sure of his ground.

A word of suggestion to the Houghton Gazette relative to its copyrighted story by Commandant Barney McCloskey, of the Huron town university, on the theme "Has Peary Been at the Pole." Do not make the mistake of publishing it in one consignment. The accepted practice is now the installment plan. It keeps up the readers' interest, and has been found to help out the business office materially.

A statewide movement has been started in Minnesota to raise a fund to be used for the erection of a monument in the memory of the late Governor Johnson. It is proposed to make the fund representative of all classes of people in all parts of the state, and the subscriptions are limited to \$1. The fund is already growing rapidly, and there is no doubt that the movement will be successful. The proposed location of the monument is the state house grounds, in St. Paul.

The operation of the new law requiring physicians to make reports of cases of tuberculosis will permit, in the course of a few months, of the compilation of statistics showing to what extent the dreaded disease is prevalent in the state. Heretofore there has been no exact data, and the estimates on the prevalence of the disease have been little more than shrewd guesswork. The new law is one that may be strongly commended. If we are going to open up serious war on tuberculosis, as is our evident intention, we should know just how much of it there is to fight, where it is found and various other matters relating to the disease that can be ascertained only from the summarizing of complete and authentic physicians' reports in regard to it.

5% DEBENTURES Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Capital and Surplus \$400,000.00

DIRECTORS: Jas. Chynoweth, Norman W. Haire, G. R. Campbell, L. H. Richardson, Jno. D. Cuddehly, H. L. Baer, Leasing Karger, Joseph Bosch, Chas. L. Lawton, Chas. Briggs, S. L. Lawton, James Mercer, C. A. Wright, Allen F. Rees, Jacob Baer, Geo. Ruppe, Ferd. Wieber, Thos. Whittle

The early advice from the University of Michigan football coaches are somewhat reassuring. They like the looks of much of the material, and seem disposed to feel hopeful for the season about to open. It's time for Michigan's football fortunes to change. A succession of disastrous seasons, culminating in the drubbings received last year, has dimmed the memories of those earlier years of "Hurry Up" Yost, when the Varsity was held to be looting on the job when it didn't run up anywhere from 50 to 100 points against the opposing eleven. Michigan hasn't had much good fortune in athletics since it turned its back on the conference. Defeat has been its portion since it make that mistake. In looking forward to the season now soon to open there is at least the consolatory thought that it cannot well result more disastrously than did the campaign last fall. Whatever change there is in the fortunes of the team must, of necessity, be in the nature of improvement.

Governor Deneen, of Illinois, has decided to call a special session of the legislature, largely for the purpose of enacting another direct nominations law, to replace the one which the Illinois supreme court a few months ago pronounced unconstitutional. Illinois has had a more difficult time than any other state in the union enacting a direct nominations law that will stand the scrutiny of the courts, and it is now an open question not only whether a constitutional law can be gotten through the proposed special session, but whether any direct nominations law at all can be passed. There is an influential faction, headed by Speaker Shurtliff, and having the support of Senator Lorimer and other leaders, in the legislature that is earnestly opposed to the new system and that is expected to exert himself to the utmost to defeat any legislation planned to build up the work the supreme court has knocked down. On the other hand Governor Deneen will doubtless exert himself honestly and vigorously to secure the passage of another bill. Under these circumstances it would not be surprising if the contest gave rise to a momentous trial of strength between the governor and Senator Lorimer.

In the current issue of La Follette's Weekly the leading editorial is devoted to President Taft's Winona speech. Naturally some of its conclusions are questioned, and naturally, in view of the fact that Senator La Follette is the editor of La Follette's Weekly, the president's so-called reading of the "insurgents" out of the party is resented. However, perusal of the full text of the Winona speech shows that this embargo on the "insurgents" was not as drastic as many at first assumed to be the case, and there is little probability that any of their number will be badly crowded in the party by the president or anyone else. For one thing there is a suspicion that their attitude has been too popular with the people of their states to make undue severity in regard to them the part of wisdom. The party needs the states they represent, as much as the states need the party. There is no call for great concern over this particular feature of President Taft's speech. He hasn't been harping on it very strongly in his subsequent addresses. La Follette, Cummins and the rest of 'em can be assured that they can work along in the party without serious interference, particularly if the next run of elections show that the people of their states are with them.

Otto T. Bannard, the Republican nominee for mayor of New York, is the president of the New York Trust company, a director in many other corporations and a widely known New Yorker. He was formerly a commissioner of the board of education of New York city, and as treasurer of the Republican county committee has taken an active part in county politics for many years. He is a man of character and ability. It is expected that Mr. Bannard will be a Fusion candidate, in fact if not in name. The deliberations of the sub-committee of the committee of one hundred were so protracted that it was impossible to get the major committee's endorsement of Bannard before he was nominated by the Republicans, unless the Republican convention was adjourned, and it is not judged advisable to do this. It is expected, however, that Mr. Bannard and the ticket he leads will be supported by all the possible elements of a fusion movement except the Independence league. The Fusion conferences were not productive of the full measure of hoped for harmony, owing to inability to agree on a candidate wholly acceptable to all the interests in consultation, but there is no doubting that Mr. Bannard is the type of man the Fusionists were seeking, and between the kind of government he would give New York and what it could expect from any ticket named by Tammany no citizen swayed alone by considerations of what is best for the great city should hesitate which to choose. The most interesting aspect of the situation now is the attitude Murphy will take towards Justice Gaynor, who might have landed the Fusionist nomination had he not made such an open bid for recognition by the Tammany machine.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold at The People's Drug Store.

These sentences are taken from an editorial article in the Boston Transcript: "The reduced duties on iron ore and crude iron have, apparently, given a prompt stimulus to the importation of foreign ores. Good sized contracts, mostly with Spain, have been closed this week."

That it is possible to sell Spanish ores in this country in competition with American ores shows plainly how greatly the initial cost of production must favor the Spanish mine owners, to offset the long freight haul across the Atlantic and the additional handling that the ore must receive before loading and after its discharge in American ports.

When the reduction on the ore schedule results in a quickening of the demand for foreign ores so extensive as to attract notice it becomes apparent that the removal of the measure of protection left would have caused a volume of importations that might have been felt adversely in the American mining fields. And in the connection it should be remembered that many foreign fields, easily accessible, are not yet thoroughly exploited and ready for the production that is confidently looked forward to.

MARQUETTE, COMMON COUNCIL PROCEEDINGS. (Official). Marquette, Mich., Sept. 21st, 1909. An adjourned regular session of the common council was called to order at 8 o'clock p. m. by the president, the Hon. John A. Ekstrom.

Present—Aldermen Asire, Butler, Downey, Ekstrom, Hennessy, Schauer and Ward—7. The record of the session of Sept. 7th, approved.

The petition of the First National Bank of Marquette, for rebate of the city taxes of the year 1909, assessed against Louis G. Kaufman, trustee, was presented and referred to the committee on finance and taxation.

The committee on parks, cemeteries, streets and sewers submitted the following: Resolved, That the common council recommends to the Light and Power Commission that an arc electric light be placed at the intersection of Light and Fifth streets.

On motion of Alderman Downey, supported by Alderman Butler, said resolution was adopted.

The committee on ordinances and rules presented for adoption an ordinance entitled, "An ordinance amending sections seven, eight, nine, ten, eleven, fourteen, sixteen, twenty and twenty-four of an ordinance relative to grading, paving and improvement of streets, alleys and public places, and the use and protection thereof."

Moved by Alderman Schauer, supported by Alderman Ward, and carried, that the rules be suspended and that said ordinance be put upon its immediate passage.

ment roll and the assessments thereon are hereby confirmed, and the sums therein mentioned are hereby levied and assessed against said lots and premises, respectively, and the collection thereof is hereby directed.

Whereas, The recorder has given due notice by publication in The Daily Mining Journal, a public newspaper of the city, that the common council would meet at this time and place for the review, correction and adoption of the special assessment roll for the grading of Norwood street, from west line of Presque Isle avenue to east line of Longyear avenue, for confirmation.

Whereas, All persons interested in said special assessment roll and the assessments therein having been given an opportunity to be heard in relation thereto, and all needful revision and correction of said roll having been made to the satisfaction of the council;

Resolved, That said special assessment roll and the assessments thereon are hereby confirmed, and the sums therein mentioned are hereby levied and assessed against said lots and premises, respectively, and the collection thereof is hereby directed.

Resolved, That the respective owners and occupants of the lots and premises in the city hereinafter mentioned, are hereby ordered and required within twenty days after notice hereof, to construct in conformity with the ordinances of the city, new sidewalks in front of and adjoining said premises, the outer edge thereof to be ten feet from the street line.

Division Street—In White's Addition, Lot 1, Block 6. Jackson Street—In Blenhuber's Addition No. 1, Lots 197, 198, 199 and 200.

Bluff Street—In Nester's Addition No. 1, Lots 24 and 29, Block 2. Ridge Street—In Harlow's Addition No. 6, Lot 1, except east 50 feet thereof, east 25 feet of Lot 2.

Resolved, That upon the failure of any such owner or occupant to construct any portion of such sidewalks as aforesaid, or cause the same to be done and to complete the same within said time, it is hereby ordered that such portion or portions of such sidewalk be constructed or completed by the Park, Cemetery and Street commission, and that the expense thereof be assessed upon the premises in front of which same is located.

Resolved, That the controller prepare a special assessment roll for the collection of the total estimated cost of said improvement and submit the same to the council for approval.

Your complexion as well as your temper is rendered miserable by a disordered liver. By taking Chamberlain's Stomach and Liver Tablets you can improve both. Sold at The People's Drug Store.

Resolved, That said special assessment roll and the assessments thereon are hereby confirmed, and the sums therein mentioned are hereby levied and assessed against said lots and premises, respectively, and the collection thereof is hereby directed.

PIONEER MOTOR CARS will meet South Shore train from Sault Ste. Marie--11:15 p. m.--to convey passengers to any part of city Fare, 25 Cents.

ANSWERS EVERY CALL. Marquette People Have Found That This is True.

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A certain remedy for such attacks. A medicine that answers every call. Is Doan's Kidney Pills, a true specific.

NORTHERN STATE NORMAL SCHOOL MARQUETTE School Begins Monday, Sept. 27, '09. The Northern State Normal School admits graduates of approved high schools to the two years' course leading to a life certificate and diploma. It offers courses leading to a three-year certificate, which is renewable for three years and valid in graded schools, and also a rural school certificate. Has excellent facilities for training teachers for special work in Kindergarten, Music, Drawing and Nature Study. It has an exceptionally fine corps of teachers who are specialists in their departments, and its training school gives a splendid opportunity for the training of teachers. There is a splendid dormitory in connection with the school, which is an ideal home for the student. The building is lighted with electricity and heated with steam; the living rooms are large and pleasant; the dining room has a seating capacity of one hundred and fifty persons. The expenses are moderate. Students of the Northern Normal School who finish the life certificate course are given fifty-six hours' credit at the University of Michigan. For information and catalogue write to MISS ALMA A. OLSON, SECRETARY. JAMES HAMILTON KAYE, PRESIDENT.

Copper Country

BIG EXPOSITION CLOSES. Copper Country Fair the Best That the Society Ever Held.

The Copper Country fair closed Saturday night with the big annual exposition was a great success. Incidentally it introduced the greatest attraction ever shown at an agricultural fair in the upper peninsula—the Bayersdorfer-Yager airship.

The fair gave the copper country something more than a mere spectacle in presenting its attractions. It presented working example of the earnest effort which science is making to solve the problem of aerial navigation.

The attendance this year exceeded that of all previous years by several hundred. As an example, there were 1,000 people admitted Saturday morning, the largest morning attendance on record.

Prize-Winning Booths. The judges of both awards the prizes as follows: First—Baptist ladies' lunch booth. A purple and white enameled and decorated booth.

Second—Anti-tuberculosis booth. The exhibit of the Houghton County Anti-Tuberculosis society.

Third—Otto Berensen of Hancock. Display of jewelry and copper souvenirs.

Fourth—Shipments of copper. Display of copper products.

Fifth—Croatian Convention. Big Parade Saturday the Feature of the Calumet Meeting.

The parade of the National Croatian society, now in session in Calumet, was held Saturday. Close to 1,000 men were in the line of march, with half a dozen of brass bands.

By the Shaking of Milk on a Camel's Back. This was butter discovered. To-day, owing to long experience and modern methods we have pure, nutritious butter—BEST OF ALL being.

Silver Creek Creamery. There is a big difference between Silver Creek Creamery Pasteurized Butter and Ordinary butter. Silver Creek Creamery butter is pasteurized by the Old Danish method, a process which insures the best possible results.

Pasteurized Butter. There is a big difference between Silver Creek Creamery Pasteurized Butter and Ordinary butter. Silver Creek Creamery butter is pasteurized by the Old Danish method, a process which insures the best possible results.

FAREWELL SERMONS YESTERDAY. Four Copper Country Pastors Preach for the Last Time Here. Four copper country pastors preached farewell sermons yesterday, as follows: Rev. K. Selva, of the Swedish M. E. church, who will go to another charge.

ENDING CRIME CALENDAR. Circuit Court Will Resume Trials Tomorrow—Naturalization Today. The circuit court will resume the trials of criminal cases tomorrow, but it is believed that that class of cases will be exhausted in a day or two, so rapidly has the calendar been cleaned up.

MINING COLLEGE DEGREES. List of Mining Engineers and Bachelors of Science, 1909. The following is a list of the degrees conferred by the faculty of the Michigan College of Mines for 1909, mention of which has already been made in these columns.

WILL "PLANT" JACKRABBITS. Austrian Gun Club Preparing to Bring in Several Hundred. Like the Calumet & Hecla Rod & Gun club, the Austrian Gun club of Calumet is preparing to introduce into the woods of the copper country several hundred pairs of jackrabbits, to be propagated for hunting.

WRESTLERS HAVE SIDE BET. Joe Ziehr and Tim Harrington, the latter of Butte, Mont., who are to wrestle in Calumet Oct. 9, have started their heavy training for the match. Both men have placed a bet of \$250 that he will gain a victory over the other.

LOOKING FORWARD. Some men may say "where is the good of looking into the future, for that is only problematical?" But it is prudent to look forward and plan for future requirements.

THE CITIZENS NATIONAL BANK. ESTABLISHED 1880. PAINE, WEBBER & CO. BANKERS AND BROKERS, BOSTON, MASS.

MARKETS. BOSTON CROPPERS. Closing prices at Boston Saturday are reported by Paine, Webber & Co. as follows: The closing prices at Boston were: Adv. 89.60, 89.60, 89.60.

Mining News. NORTH BUTTE EXTENSION. A circular letter has been sent to the stockholders of the North Butte Extension Development company by Dudley & Co., of Chicago, requesting their presence at the next annual meeting of the company, to be held on Oct. 19, next.

HIGH AND LOW PRICES. Paine, Webber & Co. furnish the Mining Journal with the following "high and low" prices of copper stocks for the week ending Saturday:

EAST BUTTE. The management of the East Butte has made very satisfactory progress in reducing costs. The figure was brought down to about 10 1/2 cents per pound sold in July and in August to 10 cents per pound sold.

FARM IMPLEMENTS IN DEMAND. Large Purchases of American Machinery Made by Mexican Farmers. Monterey, Mex., Sept. 26.—A very large amount of farm implements and machinery of American make have been sold in northern Mexico during the last few weeks.

BIG FAMILY. The queen of Denmark once paid a visit to the Danish colony of Iceland, where the good old bishop exerted himself to the utmost to show her every thing that was worth seeing.

Removed by Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound removed a cyst tumor of four years' growth, which three of the best physicians declared had. They said that only an operation could help me. I am very glad that I followed a friend's advice and took Lydia E. Pinkham's Vegetable Compound, for it has made me a strong and well woman, and I shall recommend it to every sick woman.

Direct private wire service to all markets. You want the best service on your order and cannot favor us direct, instruct your banker to have us execute the order. Buy and Sell Boston Coppers, Railroads and Curls for cash or on margin.

Both offices open evenings. J.A. Minnear & Co. Brokers. Offices at Calumet and Laurium.

Bad blood is responsible for most of our ailments, and when from any cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc. show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of cholera, dysentery, etc. It should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold at The People's Drug Store.

WHITE BRONZE
Marble is entirely out of date. Granite soon gets moss-grown, discolored, requires constant expense and care, and eventually crumbles back to Mother Earth. Brackets, it is very expensive. **WHITE BRONZE** is strictly everlasting. It cannot crumble.
It has been adopted for over one hundred public monuments, and by thousands of delighted customers in all parts of the country. It has been on the market over 25 years and is an established success. Many granite dealers have bought White Bronze for their own best plots. I have hundreds of beautiful designs of all grades of work, and want to have you see them if you are interested in a monument, headstone, marker or grave cover. On receipt of a postal card will be pleased to call with designs and samples of White Bronze.

City Brevities
Yesterday's temperatures: Seven a. m., 41 degrees; noon, 52; 7 p. m., 43; maximum, 54; minimum, 36.
Mr. and Mrs. W. H. Elliott spent over Sunday with Mr. and Mrs. L. M. Gessmar at Chatham.
Miss Margaret Gable of the Normal faculty, has returned from Mankato, Minn., where she spent the summer.
Miss Frances Russell arrived home yesterday morning from a month's visit with friends in Detroit, Grand Rapids and Chicago.
The steamer Wildar, which was again off the L. S. & I. dock Friday, was released early Saturday morning by the steamer Centurion and is on her way down the lake.
A large crowd gathered at Grabower's store Saturday to attend the millinery, suit and cloak opening and, to judge by the crowd in the store, the proprietor must have had a heavy sale.
Dr. S. M. James has returned from Chicago, where he visited Dr. O. G. Youngquist, whom he reports to be getting along nicely and expects will be able to return to Marquette by next week.
A joint meeting of the Marquette and Red Cross legions will be held at Legion Hall tomorrow evening. Matters of importance to both societies are to be discussed, and it is hoped there will be a large attendance.
Edward Miller was pleasantly surprised last Saturday evening at his home at 434 West Baraga avenue by a number of his young boy and girl friends. A very enjoyable evening was spent and delicious refreshments were served.
Death of Mrs. W. Hamill—News of the death of Mrs. Will Hamill, of Detroit, formerly of this city, was received Saturday. The deceased had been seriously ill for some time. She formerly was Miss Margaret Dunn. Her mother lives at Republic. Surviving the deceased are the husband and one son.
Picnic on Dead River—S. B. Miller, assistant superintendent of the Marquette plant of the DuPont Powder company, entertained a party of friends at a picnic supper on Dead river Saturday evening. The party made the trip up the river to a desirable spot in four canoes, this being the feature of the picnic, which was greatly enjoyed.
Elbow Dislocated—George Johnson, son of Mr. and Mrs. Martin Johnson, Division street, was thrown from a horse near the quarry on the road to the county house yesterday afternoon, and suffered a serious dislocation and fracture of his right arm. Dr. James retained the dislocation and fracture, and no permanent injury is anticipated.
Miss Ida Linton Dead—Miss Ida Linton, sister of Miss Sophia Linton, music teacher at the Normal, passed away last Wednesday at the Mayo hospital in Rochester, Minn., where she had undergone an operation on her throat. The deceased was a talented singer and had visited in Marquette. She only recently came to Marquette. She only recently studied vocal work.
Thirteenth Proved Hoodoo—"Hap" Scholtus pitched his thirteenth game of the season yesterday, which proved to be his hoodoo, as he was hit freely and lost the game by the score of five to three. Marquette has had a bad time to date to play that with Negunee at Negunee next Sunday. It is expected that Munising and Ishpeming will play two games here next Sunday, which will close the league season.
Will Ask Donations—It is the intention of the Visiting Nurse's association to ask of its friends, at a little later date, gifts of a few glasses of jelly or jam from each, to be placed in the association's store rooms for use in connection with the care of its cases during the winter season. The officers of the association hope that Marquette housewives will bear this in mind and that they will be prepared to help when the date for receiving donations is set. If every person responds with a small gift the association will have a good-sized store on which to draw.
Professor Mills Home—Professor W. M. Mills, head of the Normal school geographical department, returned Saturday evening from a trip through the western states. He visited western Canada and British Columbia, where he took a number of pictures, then spent three weeks at the Seattle exposition. From there he went down the Pacific coast to California and made a special study of the manufacture of salt from sea water. He spent some time in old Mexico, where he studied especially the methods of getting borax and saltpeter from the old lake beds. In Denver, he visited his last of the family Senator Mr. A. C. McManis district, who is now in the United States attorney.
Caught Wireless Message—W. E. Chilton, Morse operator for the Bell Telephone company, completed his wireless telegraph receiving station on Middle Island yesterday and caught fragments of messages twice late in the afternoon. Though no words were recorded, Mr. Chilton caught the letters C X, which leads him to believe that the sounds came from the station at C. G. Point. Mr. Chilton expects to conduct further experiments with his instrument this week. He has established no sending station as yet, and can only receive messages.
A team known as the "Unknowns" challenges the Marquette Tigers, the winners of yesterday's game, to a game to be played next Sunday. Further information may be obtained from A. L. Nault.
Wedded at Montreal—The Boston Transcript of Friday, Sept. 24, contains this announcement of a wedding of interest to Marquette people, the groom and his brother being well known here: "At the Episcopal cathedral in Montreal the marriage of Miss Elizabeth Megary, daughter of the late Hon. H. Megary of Lurgan, Ireland, to Robert Adams Manning of Boston, took place quietly on Wednesday. The bride, who was unmarried, was given in marriage by her brother-in-law, Colonel Jeffrey H. Burdland of Montreal. The best man was Ernest Manning of New York. The ceremony was performed by Dr. Symonds of the cathedral. As the families of both bride and bridegroom are in mourning, only the immediate relatives were present. After the wedding trip Mr. and Mrs. Manning will reside at 95 Mt. Vernon street, Boston."
Another Accident—The Marquette county road commission seems to be having misfortunes without number this season, as the result of which practically

no road will be completed this summer and fall. The latest accident is the breaking of the main shaft of the rock crusher, which makes the second shaft that has broken this season and one was broken last fall. As the new shaft has to be shipped from the East, the accident will necessitate several days delay. The shaft broken had been in use but a very short time. The crushing plant could not be started until fully owing to delay in getting the motor with which it is operated, and since then broken shafts have kept the crusher out of commission a good part of the time. But a few rods of the Harvey Green Garrison road have been completed though a mile or more has been graded and the necessary bridges built. Beside, a road has been built from the crusher to Harvey a distance of about a mile.
New Management at Grand—J. C. Woodworth, who has had the management of the Bijou theater at Ishpeming has leased the Grand from Mrs. Bennett, and will take charge of the theater tonight. Mr. Woodworth has been connected with the moving picture business for about seven years, and is a thoroughly practical man. He promises his patrons all that is best in moving pictures, music, etc., and that they will at all times receive nothing but courteous attention at the Grand. He intends in the near future to run a series of matinees, catering to ladies and children especially. All pictures at the Grand will be explained in an entertaining manner. Mrs. Woodworth, who is an accomplished musician, will have charge of the music. All films to be used at the theater from this date are of the new fireproof make, and it is utterly impossible to ignite them, which does away with all danger of fire.

INSURE WITH PETER WHITE & CO.
WILLIAM SADLER DEAD.
Young Man Passes Away at His Birth Street Home After Long Illness.
William Sadler, son of Mrs. Anton Sadler, of Bluff street, died at midnight Saturday after a long illness. The last two months of which he had been confined to his home. Mr. Sadler had been in the employ of The Mining Journal for about twenty-two years, though at different times throughout the period he had been forced to take time off because of illness. He was thirty-eight years of age at death. His father died less than a year ago, and his only near relatives are a mother and a sister, Mrs. Frank Deard, of Canada. Funeral arrangements have not yet been made.

RECEPTION FOR REV. MAYWOOD.
Lovefest to Be Held at Methodist Church Tuesday Evening.
There will be a public reception for Rev. A. A. Maywood and his family in the Methodist church parlors Tuesday evening. The Methodist people are very much gratified over the fact that their pastor of five years' service is to be with them another year. There have been grave doubts the past ten days as to whether he would be reassigned to this charge or not. So active were some of the leading churches to secure him that it was necessary for the Marquette church to send a representative to the annual conference at Detroit. H. B. Hatch, who went down in this capacity, found considerable effort being put forth by the people of both the Preston and Mary Palmer churches of Detroit to secure Mr. Maywood. Regardless of his efforts with the officials, it seemed for a time that he would be unsuccessful. In fact, the Detroit News in the issue of Tuesday, announced that Rev. Maywood had been assigned to Mary Palmer church of Detroit. The district superintendent, Rev. Jas. Pascoe, and one of the former pastors of the Marquette church, Rev. E. A. Elliott, were of great assistance to Mr. Hatch and their combined efforts served to offset a delegation of nine men from the Detroit church. This condition of affairs left Mr. Maywood in the dark as to where he might be reassigned to go. It was not until the assignments were read in the meeting on Tuesday night that any official information could be obtained. In view of the opposition and the ultimate victory, the Marquette congregation feel doubly grateful and they expect to make this occasion an opportunity to show their appreciation. Some Mr. Maywood came to Marquette from Eoughton five years ago he has won many friends and admirers in the community, and his departure would have been a source of much regret. The reception will be entirely informal and all friends of Mr. Maywood, regardless of their church affiliation are invited.

Do the right thing if you have Nasal Catarrh. Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs for they contain cocaine. Ely's Cream Balm releases the secretions that inflame the nasal passages and the throat, whereas medicines made with mercury merely dry up the secretions and leave you no better than you were. In a word, Ely's Cream Balm is a real remedy, not a delusion. All druggists, 50 cents, or mailed by Ely Brothers, 56 Warren Street, New York.

IN THESE DAYS

there is no excuse for any one not saving a part of his earnings. You will not always be able to earn as much as you are earning today. By saving a portion of your income now, and putting it where it will be safe and earn you interest, you will be better prepared for the inevitable day when you must cease working. A savings account or certificate of deposit in this bank provides safety for your money, and the interest you receive upon it gives you a profitable investment.

TIGERS VICTORS IN COMEDY OF ERRORS

SECOND TEAM IGNOMINIOUSLY DEFEATED YESTERDAY IN WRETCHEDLY PLAYED GAME.

Playing like a bunch of country school boys, the second team went down to defeat before the Tigers at the fair grounds yesterday afternoon by the score of 17 to 4. Though neither team played anything that approached good baseball the second team played far more wretchedly than their opponents in every department of the game. About the only player on either team who justified his right to wear a baseball suit was Shaker, of the Tigers, who played a rattling good game. Phil Messier, of the Tigers, was strong at the bat, and made four safe hits. Anderson, of the second team, landed three safeties. Otherwise, the game was featureless, except for the large number of errors made. Davis, for the Tigers, pitched a fairly good game, and but six hits were made off him. The second team used three slab artists, Smith, Bastien and Pelky, all of whom looked alike to the Tigers, though no pitcher should be blamed when he is given no support, as was the case yesterday.

The result was quite a surprise to many, for, on the basis of games played this season, the second team seemed to have the better chance of pulling down the big end of the score. After the fourth inning, however, when the Tigers scored seven runs on two hits and six errors, the result was never in doubt. The victory was especially gratifying to the Tigers, as up to yesterday the second team refused to play with them.

Order your stove repairs early from Kelly Hardware Co. (9-18-14)

claiming that the Tigers were in an inferior class.

The summary follows:

BETTER INTER-PENINSULA MAIL SERVICE NEEDED

POSTMASTER MANGUM URGES LOWER MICHIGAN MEN TO DEMAND FASTER TRAINS TO IRON AND COPPER COUNTRIES

One of the interesting papers read at the tenth annual convention of the Michigan association of postmasters, held at Grand Rapids last week, was presented by Postmaster Mangum, of this city, and in part was as follows:

"To obtain better mail facilities between the upper and lower peninsulas of Michigan is a problem yet to be solved; it means faster train service and better connections—this was my subject at Battle Creek four years ago and at that time I attempted to show that southern Michigan postmasters were sometimes at fault, but the fault is principally with our railroads.

"I believe the only way we will ever get a better train service will be through the efforts of the manufacturers and wholesalers of lower Michigan, and I am going to attempt today to show where our southern Michigan brethren are at fault.

"The different republics of the American continent have established a bureau for the purpose of promoting better trade relations between the different countries on this continent, and I think the commercial bodies of the lower peninsula would do well to establish a bureau for the promotion of better trade relations between the two peninsulas.

"One of the most essential things in the promotion of trade is the rapidity and certainty of the mail service, and that is something we do not obtain between the two peninsulas. The service between this country and the western portion of lower Michigan, north of Grand Rapids, is very bad, particularly during the winter season.

"I believe by proper representation to the C. P. R., 'South Shore' and 'Soo Line' officials that the people of lower Michigan can obtain a better train service and better connections with the railroads of northern Michigan. The 'South Shore' and 'Soo Line' would be the gainers, if freight and passengers could be sent over their lines from the straits of Mackinac, north and westward from southern Michigan, and I think if the commercial bodies of Detroit and Grand Rapids would send a representative body of men to Montreal to confer with the officials of the three roads heretofore mentioned, that they would obtain a better train service on all the railroads, and I believe all that would be necessary would be to show the railroads that an effort is to be made by lower Michigan to capture the trade of the north and northwest."

"Some years ago the matter of a better train service between Detroit and the upper peninsula was taken up with the Michigan Central and the advantages they would obtain were clearly shown them, and a most splendid service was temporarily placed in operation and continued summer and winter since; and there can be no fault found with the Michigan Central. I feel confident that they would shorten their time still more provided the roads north of the straits would do likewise."

"The cattle at Vandenberg's dairy are now being fed on green corn in addition to other nutritious foods. All milk is aerated, cooled, bottled and delivered packed in ice. This accounts for the excellent quality and delicious flavor of the goods. (8-27-14m)

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold at The People's Drug Store.

PLEASING EVENT AT MUNISING.

Wyman's School of the Woods Gives a Promenade and Dance.

Munising, Mich., Sept. 25.—A social event long to be remembered by the people of Munising occurred Friday evening. It was a promenade and dance given by the students of Wyman's School of the Woods. The event took place in the opera house and was well attended. The hall was prettily decorated. The orchestra was seated behind a retreat made of balsam trees. On the stage a camp fire and a tent were shown in the midst of a forest. In a corner of the building a spring was hidden in a pile of rocks, covered with palms and foliage, and from somewhere clear ice cold "punch" trickled into a receptacle. The electrical effects were brilliant, and it was the opinion of all present that never before was the hall so prettily decorated. The committees were constituted as follows:

Arrangements—T. B. Wyman, H. G. Bissell and I. S. Elliott.

Reception—R. P. Wickholm, E. H. Roberts, H. L. Goodrich and A. W. Hardy.

Floor—W. B. Seifert, W. C. Chapman and W. M. Spencer.

The patrons and patronesses were Mr. and Mrs. L. B. Stewart and Mr. and Mrs. T. B. Wyman. The officers of the school are: Chief forester, W. B. Seifert; assistant chief forester, H. L. Goodrich; secretary, W. C. Chapman; treasurer, I. S. Elliott.

The young men of the school, who are from different parts of the state, are enthusiastic over the work in which they are being instructed by Mr. Wyman. Several of the students are graduates of the Michigan Agricultural college and are here to learn the practical side of forestry. Mr. Wyman's School of the Woods is proving a great success.

SOO CANAL PASSAGES.

FOOTBALL SEASON HAS LIVELY OPENING

NEGAUNEE AND ISHPeming HIGH SCHOOL TEAMS PLAYED A TIE GAME SATURDAY MORNING ON THE UNION PARK GRIDIRON.

That the Negaunee and Ishpeming High School football teams will be evenly matched this season was shown by the game played Saturday morning at the Union Park grounds, which resulted in a tie, by a score of 5 to 5. As the game was not advertised to speak of the attendance was small.

Both teams are the lightest that have represented the schools in some years. Ishpeming has a slight advantage over Negaunee in weight, but the teams appear to be about equal in speed. Ernest Burge, one of the stars of last year's Negaunee team, is by far the best player in the 1909 line-up. Only he, Field and Sterling played on last year's team. Ishpeming also has but three of last year's men.

Saturday the first half of twenty minutes ended without either team having scored. There were no sensational plays and neither goal was in danger. In the second half a number of long runs were made. Ishpeming scored the first touchdown, most of its gains having been made by line backs. Kansas scored after the ball had been pushed down to within a yard and a half of the goal.

Negaunee scored a touchdown when Burge made a run of 100 yards from Ishpeming's twenty-yard line. The play was made on a forward pass, and after disposing of the left end the runner had a clear field. He was too speedy for his opponents. The left end tackled, but failed to hold him. Thomey, one of Ishpeming's left halves, received an injury to his knee and had to quit the game. Both Burge for Negaunee and Butler for Ishpeming failed to kick goals following the touchdowns.

When time was called Ishpeming had possession of the ball in the middle of the field. A few minutes previously Ishpeming had advanced the ball to Negaunee's thirty-yard line, but lost it on downs. Burge carried the ball for a gain of thirty yards and on the second down following the Negaunee team was penalized for an offside play, the ball going back to the forty-yard line. It was punted to the center of the field, where it was caught by Nolan, when time was called.

The Negaunee team, which averages 155 pounds in weight, lined up as follows: Rough, right end; Flynn, right tackle; Doty, right guard; Beaudin, center; Lahti, left guard; Manning, left tackle; W. Sterling, left end; K. Sterling, quarterback; L. Field, fullback; E. Burge, right halfback; and Gaffney, left halfback.

Professor Watson, coach of the Ishpeming team, was the referee, and Professor Underwood of the Negaunee schools was umpire.

Next Saturday the Negaunee team will meet the Marquette High school eleven at Marquette. On the following Saturday Ishpeming and Marquette will meet here. The Ishpeming and Negaunee teams are scheduled for their second game on Saturday, Oct. 16.

EASTERN STAR ELECTION.

The officers elected by the Negaunee chapter of the Eastern Star society at its last regular meeting are as follows:

Worthy Matron—Mrs. T. H. Harris.
Worthy Patron—Christian H. Jensen.
Associate Matron—Miss Lillian Taylor.

Conductress—Mrs. S. S. Mitchell.
Associate Conductress—Mrs. Ralph Wilson.

Secretary—Miss Mattie Dawe.
Sentinel—William Dawe.

Treasurer—Mrs. C. Jensen.
Marshal—Mrs. J. H. Rough.

Wardens—Miss Ethel Taylor.
Aides—Lottie Rough.

Baths—Mrs. O. Coldron.
Esther—Mrs. Phil Levine.

Marth—Mrs. G. J. Haupt.
Electa—Mrs. Harriet Eddy.

Organist—Miss Bertha Broad.

COURSE OF LECTURES.

Superintendent Schultz of the Negaunee schools has closed a contract with the Chicago university for a course of six lectures, to be given by Professor Troop. It is proposed to sell tickets for the six lectures at \$1. In view of this reasonable price it is expected that a large number can be disposed of. An effort will be made to place tickets with all of the high school students, as the course will be of great benefit to them. It is possible that a reduction in the price mentioned will be made to the students.

Rev. James Stanaway has just returned from Clear Lake, Ia., where he attended a conference of the missionaries of the American Sunday School union of the Northwest district, which was presided over by the Rev. G. P. Williams, D. D., of Chicago. A full week was spent discussing topics relative to the work. Sessions were held in the pavilion on the Chautauqua grounds. On Sunday the missionaries supplied pulpits in the cities and towns of the vicinity. Rev. Norman B. Barr, D. D., of Chicago, preached in the pavilion. Rev. Stanaway preached in one of the churches at Clear Lake city.

GOVERNMENT HOMESTEADS.

One and a half million acres of farming and grazing land will be opened for settlement in the Cheyenne river and Standing Rock Indian Reservations, October 4th to 23rd. Registration to be made at Aberdeen, and at Pierre, the capital of the state.

Fast daily through trains via Direct Lines to Pierre and Aberdeen via the Chicago & Northwestern railway.

For full information regarding rates with pamphlets telling how to secure a homestead of 160 acres from the government, apply to W. B. Kniskern, P. I. M. C. & N. W. Ry., Chicago.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold at The People's Drug Store.

NEGAUNEE DEFEATED MUNISING.

Alger County Nine Taken Into Camp by Six to One Score.

Negaunee had little difficulty in defeating Munising at the latter town yesterday by the score of six to one. Siebenthal was in the box for Negaunee and but six hits were made off his delivery, while Brazil, the one-armed twirler from Rapid River, who pitched for Munising, was hit hard, especially in the last inning. The summary follows:

Negaunee	A. B. R.	H. P. O. A. E.
Cullis, 3b	4	1 0 2 5 0
McCoy, lf	5	1 1 0 0 0
Swick, 2b	4	2 2 2 1 0
McKee, cf	5	5 5 3 0 0
Lafave, rf	4	0 1 0 1 0
Messier, c	4	1 2 2 0 0
Roberts, lb	5	0 2 14 0 0
Fedder, ss	3	0 2 2 3 1
Siebenthal, p	3	0 1 0 3 0
	38	6 16 27 16 1

Munising	A. B. R.	H. P. O. A. E.
Bayer, ss	3	1 0 1 1 1
Adamson, 2b	2	0 0 3 4 0
Hagadorn, c	4	0 0 0 0 1
Leach, rf	4	0 0 0 1 0
Daniels, lb	2	0 1 8 1 0
Finkbinder, 3b	3	0 1 3 2 1
Sieltes, lf	3	0 0 3 1 0
Wymann, cf	4	0 0 0 0 1
Brazil, p	3	0 2 0 3 0
	28	1 4 27 13 4

Score by Innings:

Negaunee 0 0 1 0 1 0 1 0 3 6
Munising 0 0 0 1 0 1 0 0 1

Two-base hits, McKee, Lafave. Left on bases, Cullis, Swick (2), McKee (4), Lafave, Messier, Roberts (2), Fedder (4), Siebenthal, Adamson, Hagadorn, Daniels (3), Finkbinder (3), Wymann (2), Brazil (2). Sacrifice hits, Messier, Bristette, Siebenthal. Base on balls, of Siebenthal, 4; off Brazil, 3. Hit by pitcher, of Siebenthal, 2; by Brazil, 1. Umpires, Fresso and McLaughlin.

CORNER STONE LAID.

Scandinavian Society Conducted Exercises at Its Building Yesterday.

There was a large attendance at the exercises incident to the laying of the corner stone of the Scandinavian society's new block on Gold street yesterday afternoon. The members of the society were present in a body and members of the Ishpeming Scandinavian lodge were also in attendance. The Negaunee lodge wore their regalia. The exercises opened with a song by the members of the society. Rev. R. T. F. Hicks, rector of St. John's Episcopal church, offered invocation, and T. A. Thoren, past president of the society, reviewed the lodge's history. Mayor Winter laid the corner stone and in brief remarks complimented the organization on its enterprise and its excellent standing among the fraternal organizations of the city.

The building, which is being erected by Andrew Lindquist, is going up rapidly and the brick walls will soon be ready to receive the roof trusses. Before the close of this week the first floor rafters will be put in position and work will be started today on the front, which will have large plate glass windows in each store room, with entrances toward the center. It will be constructed of mottled gray pressed brick, with stone trimmings to match. The building will be one of the prettiest in the city. One of the store rooms has already been rented. The society, which is one of the oldest benevolent organizations in the city, expects to take possession of its hall in the second story about the first of the year.

Old age should always be treated with respect—except in spring chickens.

ARE BETTER PILOTS THAN NAVIGATORS

GREAT LAKES VESSELMEN DECLARED TO BE LACKING IN KNOWLEDGE OF COMPASS.

COMMON CAUSE OF WRECKS

Many Strandings Alleged to Be Due to Inability of Masters to Steer Course in Thick Weather.

"Though the average vesselmen on the great lakes are among the best pilots in the world, they are often not navigators in the true sense of the term, declared a well-informed marine man while speaking of the large number of minor accidents that have befallen lake vessels this season. Continuing, he said, "As long as the weather is clear and bright and land is in sight, the vesselman may be depended upon to make his trip up and down the lakes in safety, but let his ship get caught in a fog or bad weather in midlake and he is at a loss to know what to do. This is largely because he does not know how to steer his course by the compass.

"On the other hand, it must be said for the great lakes navigators that they get their vessels up and down the lakes in wonderfully short time. Start a salt water captain and one of the great lakes pilots on boats of equal speed and cargo from Buffalo at the same time, and it is a safe bet that the fresh water man will go to Duluth and back to the Soo by the time the salt water navigator gets to the Soo on his upbound trip. One reason for so many accidents is that the masters are in too much of a hurry.

"It would be surprising to the average landsman on the rims of the great lakes to know how many young men, just off the farms of the country, are wheelmen and navigators of lake vessels. Some of them in winter schooling may have gained some knowledge of the principles of navigation; many of them know little more than to feel their way across the lake, depending upon the senses of sight and hearing to lead them into port. In dense fog or blinding rain or snow, these pilots would be better off if the wheelhouse were not provided with a compass.

Compass Deviation.

"In this great lakes region between the eastern and western extremes of the lakes there is a total compass deviation of eighteen degrees from the true pole. At the port of Chicago, for instance, the compass needle often points as much as three degrees to the right of north, and at other points on the lakes the deviation is as much as ten degrees. At Marquette the compass points nearly due north.

"What the significance of such deviation is may be seen when, left uncorrected, the navigator attempts to sail by such a compass. In one compass

point, as considered by the navigator, there are eleven and a quarter degrees. Thus at certain points on the great lakes the magnetic compass, uncorrected, may be almost one point out as to the true north. One point out of this true north on the part of the wheelsman steering for a harbor 100 miles away will leave him twenty miles out of destination. Or if he should be trying to make the mouth of a river only five miles away in fog, this incorrect compass will cause him to run astray by one mile. This mile or ten or twenty miles out of this reckoning in thick weather is promising of almost any kind of disaster.

"In addition to this deviation of the compass needle, however, the effect of cargoes of magnetic iron ore, of which so much is carried on the great lakes, may put the compass needle even further off. With the needle several degrees out of the true north, due to the influences of the magnetic pole, the loading of a vessel with these ores may promise far greater complications to the sailor.

"Not infrequently the navigator who recognizes the necessity of having his compass corrected does so with a cargo of this ore in his hold. He accepts the correction, made with due recognition to the cargo and its influence, after which he may shift to a cargo of non-magnetic matter, which in turn puts his compass out again, perhaps leaving him with no thought of another correction as necessary.

"Among the vessels stranded in the last year many of them would have been spared the mishap had their navigators had this essential knowledge of the compass. Comparatively few of these wrecks resulted in total loss of the vessels, but in the delays and dry docking of vessels for repairs, the money loss to owners was enormously heavy.

Knowledge of Fog Signals.

"In thick weather not only is knowledge of the compass necessary, but practical knowledge of fog signals and consequent aberration of sound, due to heavy fogs, may be vital. Not long ago a vessel coming down the lake to Chicago in thick fog caught the Chicago fog horn warning twenty-three miles away. Steering by the sound, the master brought his vessels within three miles of the river's mouth, where he lost all sound of it and he failed to pick it up again until he was just abreast of the signal.

"Again the mere shifting of a floating buoy may serve to drive a vessel onto the shoals of rock and sand.

"Of the 217 strandings of vessels in the season of 1908 the greater number were in the rivers and channels approaching the large ports of shipping. In Lake Erie the Detroit river is spotted with them, as is the eastern end of the lake at Buffalo. Lake Huron shows groups of these spots on the charts at Port Huron and again in the channels in the vicinity of Mackinac Island. The St. Mary's river at the eastern end of Lake Superior is dotted with them, while everywhere on the shores of the five lakes and more or less remote from the larger ports is the blood red dot on the chart, marking a stranded vessel.

Come to the Grand Friday night and see what we will do for you (9-27-34)
It takes more than soap and water, starch and a few Chinese to make a good laundry. There is skill in it, too. Try our brand of skill.

NORMAL SCHOOL BEGINS ANOTHER YEAR TODAY

THREE NEW TEACHERS ON THE FACULTY—LARGE ENROLLMENT AND SUCCESSFUL YEAR ANTICIPATED.

Another year's work will begin today at the Northern State Normal school. Most of the teachers have returned from their vacations and the remainder are expected early in the week. President Kaye stated yesterday that the prospects were good for a large enrollment and a very successful year. Today will be devoted to the registration and classification of students, and the regular class work will not be taken up until tomorrow.

There will be several changes in the faculty this year. The position in the philosophy and education department left vacant by the resignation of Dr. Anderson, will be filled by Dr. George C. Trecker, who for the last eight years has been professor of philosophy and education at Coe college, Cedar Rapids, Ia., and is considered one of the strongest instructors in that state. Before going to Coe college, Dr. Trecker was an instructor at Columbia University for a number of years. He is a man of wide experience and, it is believed, will creditably fill the Marquette normal position. He is a married man and his wife and family will make their home here. Dr. Anderson, it will be remembered, accepted the chair of education at the University of Illinois several months ago.

Miss Ed. D'Onofe a graduate of Wellesley and the University of Michigan will take the position made vacant by the absence of Dr. Lautner who is studying at Columbia University this fall, and will later go abroad.

Miss Middlecott, instructor in Latin, resigned a short time ago to take up further study at Radcliffe college and will make her home with a sister at Cambridge, Mass. Her place will be taken by Carl M. Parker, who was a member of the high school faculty two years ago. Mr. Parker has been studying in Italy the past year.

With these exceptions, the faculty will be the same as last year and there is every reason to believe that the year of 1909-1910 will be the most successful in the history of the Marquette institution of learning.

Friday night is the night.
GRAND THEATRE.
(9-27-34)

J. D. Thomas, with the Park Fluff Rug Co., of Oshkosh, will be in Marquette this week taking orders for his firm. These having expired to be made, can drop a postal to him in Marquette, care general delivery, and he will call. He guarantees work to be first-class in every respect and all carpets will be thoroughly cleaned. (9-27-34)
We can furnish repairs for over 10,000 different styles and ranges. Phone or call.
