

HUDSON PALISADES SAVED FOR PEOPLE

Famous Cliffs Which Form One of the Most Picturesque Bits of Scenery in the East Are Rescued from the Quarryman.

Fourteen Years of Unremitting Efforts Are Crowned With Success When It Is Announced That by the Expenditure of \$627,000 and by a Number of Gifts of Land, the Fourteen-Mile Strip Has Been Acquired by the Interstate Commission.

New York, Sept. 27.—Fourteen years of unremitting efforts to save the beautiful Palisades of the west bank of the Hudson river from destruction by blasting were crowned with success today, when the completion of the purchase of the entire strip of Palisades from Fort Lee, N. J., to Piermont, N. Y., was announced.

The strip comprises 700 acres of level land, giving opportunity for a beautiful boulevard drive along the base of the cliff and splendid opportunities for camping and other recreation to the millions of persons huddled in the tenements of New York and nearby cities.

The cost of this park is about \$627,000, of which \$502,000 was paid by the states of New York and New Jersey and \$125,000 by contribution of J. Pierpont Morgan.

These committees recommended, and the legislatures of New York and New Jersey authorized in 1900, a permanent interstate park commission.

For expenses the two states gave the commission when first appointed \$15,000. The commissioner found its most difficult problem at the outset was to stop the work of destruction.

With the payment of the option, all blasting ceased on Christmas of 1900. The \$125,000 necessary to buy the quarries was offered as a voluntary contribution by J. Pierpont Morgan and was gratefully accepted.

The commission, however, would not have been able to announce the completion of the purchase at this time had it not been for the gift by Hamilton McK. Tomblay of sixty acres of land, together with riparian rights valued at \$30,000, which tract had been used as a recreation spot for the poor of New York, a use which will continue under the agreement of the commission.

In commemoration of the work for Palisades preservation accomplished by the Federation of Women's clubs of New Jersey, and in honor of the public spirited men and women of both states in this cause, a reservation has been preserved on a commanding bluff for the erection of a monument from funds contributed by their friends.

EXPLODING BOMBS TERRIFY CHILDREN

Fireworks Set Off in Street in Connection With the Hudson-Fulton Celebration Cause a Panic in a Jersey City School.

Fearful of the "Black Hand," the Youngsters Stampede, and Fourteen of Them Are Injured—Rain Also Mars the Day's Festivities, but the Formal Part of the Program Is Carried Out as Intended—Today Will Occur the Great Historical Parade.

New York, Sept. 27.—Terrified by Black Hand rumors, one thousand children joined in a wild stampede in St. Anthony's Polish parochial school at Jersey City today when fireworks were set off in the street in connection with the Hudson-Fulton celebration.

The children of the foreign element constantly fear the "Black Hand." When the bombs were exploded, the children ran shrieking from the recitation rooms into the halls and down the stairways.

Today the historical parade of the Hudson-Fulton celebration will start tomorrow afternoon, and fair weather is promised. Its line of march at night will be a mass of waving colors.

The great historical parade of the Hudson-Fulton celebration will start tomorrow afternoon, and fair weather is promised. Its line of march at night will be a mass of waving colors.

The corner-stone of the monument to Henry Hudson on Spuyten Duyvil hill was laid today in a drizzling rain.

Although rain forced the larger part of the Hudson-Fulton crowds to remain within doors and necessitated the postponement of the aeroplane flight and balloon race to Albany, the formal part of today's program, including the dedication of Palisades Park, the new interstate preserve along the lower Hudson; the dedication of the imposing monument to Henry Hudson in the upper part of the city, and the reception to the naval visitors at Governor's island went off without a hitch.

In his speech at the exercises at Palisades Park, Governor Hughes found the occasion a fit one for urging upon the people of the two states the conservation of their rivers and forests.

Washington, Sept. 27.—Foreman was wild and ineffective, while Scott was a puzzle to the locals.

THE WEATHER.

Washington, Sept. 27.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Tuesday and Wednesday; warmer, Tuesday; moderate variable winds.

BASEBALL. STANDINGS OF THE TEAMS.

Table with columns for National League, American League, and SCHEDULE FOR TODAY.

Pittsburg, Sept. 27.—Pittsburg lost an opportunity to clinch the pennant today when Leifield weakened in the ninth inning of the second game with New York.

Chicago, Sept. 27.—Overall's pitching was too much for the visitors, who secured only four hits.

Cincinnati, Sept. 27.—Brooklyn lost both games of today's double header with Cincinnati.

New York, Sept. 27.—New York defeated Detroit today by bunching three hits off Willets with two of his passes and one Detroit error.

Philadelphia, Sept. 27.—Cleveland defeated Philadelphia today. The last six innings were played in a drizzling rain.

Washington, Sept. 27.—Foreman was wild and ineffective, while Scott was a puzzle to the locals.

MR. TAFT SEES MINERS AT WORK

Seated in a Cage, He Descends 1,200 Feet Into a Copper Property at Butte, and There Watches Men Drilling Into Ore.

The Whole Method of Mining Is Explained to Him, and on Ascending to Surface He Declares He Would Not Have Missed the Experience for All the World—Crowds That Greet the President Are the Largest Since Leaving Chicago.

Helena, Mont., Sept. 27.—Attired in a linen duster and slouch hat, and swinging an electric lantern President Taft, bearded in a cage, was dropped 1,200 feet into the old Leonard copper mine in Butte today, and saw the miners drilling into a vein of high-grade ore.

Arriving at Helena, the president went to the state fair where he made an outdoor address and witnessed a race between cowboys, and then returned to the city and reviewed a parade of school children.

How are you fellows down there? He said kind of like to get out," came the reply.

At Butte, the president was presented with a full-sized golf club, made of copper, silver and gold.

Philadelphia, Sept. 27.—President Baer of the Reading company, testified today in the government's suit to dissolve the anthracite trust.

Washington, Sept. 27.—Foreman was wild and ineffective, while Scott was a puzzle to the locals.

Chicago, Sept. 27.—The four days' visit of the commercial commissioners of Japan was closed tonight with an elaborate banquet, tendered by the Chicago Association of Commerce.

Copper Country

IN THE CIRCUIT COURT.

Makinen and Whittle Case This Morning Has Interesting Phases.

John Makinen and Matt Whittle will be on trial this morning in the Houghton county circuit court on the charge of uttering a forged instrument.

This case offers one of the most interesting stories in Houghton county's criminal history. The dock concerned was one used in business practice in a Laurium school. It could hardly have deceived anyone, but it was passed successfully. A man was arrested on a charge of having passed it and his case had gotten to the circuit court when the prosecution accidentally stumbled on evidence which acquitted him and showed that he was a victim of mistaken identity.

Ontonagon County Calendar.

Circuit court for Ontonagon county opened at Ontonagon yesterday.

The calendar for this term is very small. The first criminal case is that of the People vs. Nicolli Ferrari. This is a continuance from the last term, when the jury disagreed. It is expected that the case of the People vs. Duncan Mellette, Herbert Williams and Archie Mitchell and also that of the People vs. Paul LaVigne will be tried at this term.

HORSE RACES NEXT SATURDAY.

Hammer and Drill Contest Also Will Be a Feature at Calumet.

Several of the best known Calumet horsemen have latched together to pull off a card of harness races at the Laurium park next Saturday afternoon.

ACCIDENT TO THE KELPIE.

F. J. Bawden's cruising launch Kelpie was the sufferer in a collision Sunday evening on Big Portage.

WEST HANCOCK SCHOOL.

Building Now Being Erected Will Be Named for E. L. Wright.

The masons at work on the West Hancock school which is being erected by Contractor Erik Anderson are making rapid progress.

INCREASED DEATH BENEFIT.

Probable Important Actin of the Croatian National Society.

The triennial convention of the Croatian National society continues in Calumet this week.

PILE SUFFERERS!

Do You Know These Facts? The cause of piles is internal—Stagnant circulation in the lower bowel.

ATLANTIC.

The announcement of an assessment of 82 per share on Atlantic stock was generally expected.

A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean.

He will never be troubled with liver, lung, stomach or blood disorders. Dyspepsia and indigestion bring in unclean blood.

Dr. Pierce's Golden Medical Discovery prevents these diseases. It makes a man's insides clean and healthy.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs.

Constipation is the most unclean uncleanness. Dr. Pierce's Pleasant Pellets cure it. They sever gripes. Easy to take as candy.

DEATHS EXCEED BIRTHS. Lattin: Records for This Month Show an Unusual Fact.

The vital statistics in Laurium for the month to date show an excess of deaths over births, by just one death. Such a record has been unheard of since in any town in the copper country.

LITTLE LUMBERING ACTIVITY. Copper Country Operators Find the Market Unpromising.

The prospect for active lumbering in the copper country this year is not very bright, owing to poor demand for mine timber.

OSCEOLA. The rock from the Osceola is not showing up most favorably.

MINING NEWS. HANCOCK CONSOLIDATED. Grading for the spur to connect with No. 2 shaft of the Hancock Consolidated was started last week.

NOTES OF COPPER NEWS. Butte advises that the Alex. Scott has cut vein of berrite on the 1000-foot level.

WEST HANCOCK SCHOOL. Building Now Being Erected Will Be Named for E. L. Wright.

INCREASED DEATH BENEFIT. Probable Important Actin of the Croatian National Society.

PILE SUFFERERS! Do You Know These Facts? The cause of piles is internal—Stagnant circulation in the lower bowel.

ATLANTIC. The announcement of an assessment of 82 per share on Atlantic stock was generally expected.

from the St. Mary's Land company the land which was drilled, and as these options extend for a considerable time there is really no need for undertaking any actual developments at once.

All work at the Medora shaft of the Keweenaw Copper company has been abandoned. It is quite likely that the shaft will be permitted to fill up, and it may be years again before it is the scene of further activity.

The company has expended a considerable sum of money in endeavoring to prove the Medora beds one which could be profitably operated.

From the latest developments it is readily apparent that success has not attended these efforts. Keweenaw is now confining its efforts to two shafts being sunk on the Keeweenaw ledge.

NEW YORK STOCKS. Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:

"The sentiment was more cheerful at the opening, in view of the absence of unfavorable news over the holidays, and general advances were recorded under the leadership of Standard during the forenoon.

THE CITIZENS NATIONAL BANK. CAPITAL \$50,000.00. 3 per cent interest paid on savings accounts. Accounts of \$1 and up accepted.

LOOKING FORWARD. Some men say "where is the good of looking into the future, for that is only problematical." But it is prudent to look forward and plan for future requirements.

THE SUPERIOR LUMBER COMPANY

City Brevities

Today's weather: Fair, with slowly rising temperature. Yesterday's temperatures: Seven a. m., 40 degrees; noon, 55; 7 p. m., 47; maximum, 56; minimum, 40.

C. T. Harvey, of Montreal, is spending a few days in the city.

The Knights of Columbus will hold a regular meeting at their hall tonight.

Miss Margaret McCormick has returned from a ten days' vacation, spent in Duluth.

Mrs. Amanda Burbank, of Iron Mountain, and daughter Ethel are guests of Mrs. G. M. Willis.

Mr. and Mrs. W. W. Walker left last evening for Vancouver, B. C., where they will spend the winter.

Miss Gail Lyon, of Menominee, arrived last evening for a few days' visit with Mrs. Robert C. Lowe.

The North Ends have issued a challenge to the Marquette second team for a baseball game to be played next Sunday.

Miss Hilma Stolhauser, of Ironwood, is attending the Normal school and making her home with Mr. and Mrs. James Jamerson.

St. Agnes court No. 70 will give a dancing party at Keough's Hall Wednesday evening. Good music is promised. Admission, twenty five cents.

Mrs. S. Lemay and daughter of Duluth are in the city, the guests of Mrs. Charles Sharland. On their return next week they will visit at Lake Linden for a few days.

The Baptist Ladies' society will give a reception to Dr. and Mrs. Kerr Boyer Tupper at the home of P. B. Spear this evening. All members of the church and congregation are cordially invited to attend.

Mr. and Mrs. L. F. Chapman, of St. Joe, Idaho, are the parents of a baby girl. Mr. Chapman is a lumberman, who formerly had his headquarters in Marquette. His wife was Miss Josie Foubert, formerly in the Bell telephone central office at Marquette.

Mrs. Louisa Berry and son, Stoll, left on this morning's train for Houghton, where Mrs. Berry will visit with her grandmother, Mrs. Stoll, who will depart in a week or two for Oregon. Mrs. Berry will return to her home, 623 Division street, the last of the week.

Funeral Wednesday Morning—The funeral of the late William Sadler will be held Wednesday morning. The service will be conducted at St. Peter's cathedral at 9 o'clock. Interment will be in Holy Cross cemetery.

Again in Grocery Business—J. F. Babcock has again engaged in the grocery business. He has erected a small store building at 738 Champion street, adjoining his residence, where he hopes to see some of his old customers as well as new ones.

Made Deputy Marshal—At the meeting of the police commission held last evening, Officer Joe Remotel was made deputy marshal and will have charge of the police force at night. Since the reduction of the police force early in the summer, Officer Remotel has nominally held this position, but the formal appointment was not made until last evening.

Unloaded in a Minute—In the first of a series of tests to be made with the Clark ore car at the L. S. & I. dock, two cars, automatically discharged, were cargo into the dock in just one minute. Another cargo of the same kind and size in one of the regular L. S. & I. steel cars was unloaded in seven minutes with four men on top. Experiment with different kinds of ore will be made from day to day.

First Lecture Oct. 1—The first of the series of six lectures to be given weekly at the high school assembly room by Professor J. Carter Troop, of Chicago, will take place Friday evening. Professor Troop's lectures will be upon English literature, particularly the novel. The lecturer is well and favorably known to Marquette people, having delivered a course of lectures on American literature at the Normal last summer.

False Alarm Turned In—The fire department was called out at noon yesterday by a false alarm turned in from the corner of Hampton and Division streets. Chief Maney claimed to know the boy who turned in the alarm and a warrant was issued for his arrest yesterday. Chief Maney, in the capacity of deputy sheriff, elected to make the arrest himself, but it is understood that the lad has thus far eluded the officer.

Money Lost or Robbed—Al. Bastien reports the loss of his pocketbook, containing a South Shore check for \$51.27, a money order for \$5 payable to his father, Antoine Bastien, and a \$5 gold piece. The pocketbook was first missed yesterday morning. It was left in charge of his motor Saturday, who put it in a laundry driver. As no one of the family remembers having taken it out of the drawer, it is thought that it may have been stolen.

Marquette Local Option—An interesting fact has developed in connection with the local option movement in Marquette county, says the Keweenaw Miner. While the petitions have been pretty well signed at Negaunee and Ishpeming not only is there difficulty in securing a fair number of signatures in the Queen City, but there is difficulty in securing people to circulate the petitions. The most plausible reason given is that Mayor Dan Vaughan has given the people of Marquette such a notable reign of law enforcement, that there seems to be no need of further laws governing the liquor traffic.

District Convention—The eleventh district convention of the Woman's Relief corps of Michigan, comprising the upper peninsula, opened in Keough's Hall yesterday and will conclude today. Those present from out of town are: Amanda Burbank, Amanda Fredrickson and Frances Cameron, of Iron Mountain; Nellie C. Wain, Alice Rowland, Della J. Boly, Mrs. J. J. Walters, Lizzie Leighton and Mary Eastwood, of Escanaba. Alice Rowland is district president and Mrs. G. M. Willis, of Marquette, district secretary. Those attending the convention were tendered a reception by the League of Veterans and Sons at Keough's Hall last evening.

Joke on the Joker—A. Johnson, bartender for August Ardersen, unintentionally became the butt of a joke of his own framing Saturday evening. A friend who came into the saloon left a

long round package on the bar, which Johnson sized up as celery and forthwith determined to take it with him to the four Leaf club camp, below Cassadaga, where he and a party went after the saloon closed. On the way to camp Johnson gloated over the fine joke they had on their absent friend and the joy they would take in eating his celery. When all had gone down to the first camp at camp Johnson opened the palmed package and to his chagrin found not a toothsome bunch of celery—but a woman's corset. For further information inquire of Mr. Johnson.

Young Couple Wedded—Yesterday morning at 8 o'clock St. John's church Miss May Messier, daughter of Mr. and Mrs. King Messier, of 625 West Washington street, became the bride of James J. Farrell of Kaukauna, Wis. The bride wore a princess gown of white embroidery and carried a shower bouquet of white roses and asters. She was attended by her sister, Miss Agnes, who was gowned in a princess dress and carried a bouquet of pink roses. E. N. Roberts of Negaunee acted as best man. Following the ceremony, the bridal party were tendered a reception at which our Band furnished the music. Many beautiful and useful presents, consisting of silver, cut glass and china, were received, which shows the high esteem in which the young couple are held. They left on the 5:55 train for Kaukauna, where they will be at home after Oct. 1st. The bride's bouquet was thrown from the platform of the train and caught by Miss Alice J. Collins.

INSURE WITH PETER WHITE & CO. DEMURRER SUSTAINED.

Case of J. H. Knowles vs. T. F. Cole et al Before Judge Stone.

In circuit court yesterday Judge Stone heard the arguments in the demurrer filed by the attorneys for the defendants in the case of J. H. Knowles vs. T. F. Cole, W. C. Rice, S. R. and N. M. Kaufman and the Chiracahua Development company. The demurrer was sustained.

The plaintiff set up that the defendants, directors of the Chiracahua Development company, expended on the development of the Chiracahua mining property, in Arizona, the sum of \$185,000, under the direction of Frederick Orr, a mining engineer engaged by them, and alleged that Orr was not competent and not a proper man to be placed in charge of the work, which the plaintiff contended, was not carried out on proper lines. The complainant sought recovery for himself and other stockholders of the \$185,000 so alleged to have been expended.

The five counts of the demurrer were technical in their nature, and set up in substance, that admitting that everything the plaintiff alleged to be true was true, there was still no cause of action. Judge Stone held with the attorneys for the defendants and an appropriate order was entered. S. W. Shanil was solicitor for the defendants and J. B. Cotton of Duluth and A. E. Ellsberg were counsel for John Heffernan who was solicitor for the plaintiff and T. J. Dunbar of Ishpeming was counsel.

TURKISH BATHS AND CHIROPODY

Frank Keough, 123 W. Ridge St., Marquette.

BADLY SHAKEN UP.

George W. Hibbard Received Serious Injuries at Seattle.

Definite word as to the extent of George W. Hibbard's injuries in the accident he suffered at Seattle last Thursday evening, received in a letter from Mrs. Hibbard to one of her Marquette friends, shows that he was badly shaken up and had a fortunate escape from death, by a fall through a temporary sidewalk on a hill overlooking the harbor he suffered a broken arm, broken jaw and various cuts and bruises. He will probably be laid up for a number of weeks.

Mrs. Hibbard and her son, Gerald, who had spent the summer in Marquette, arrived at Seattle last Wednesday evening. Thursday evening Mr. Hibbard and Gerald went for a walk to a point, three blocks from their hotel, where a fine view is had of the harbor of the city and harbor. A wide, temporary plank walk is built over the brow of the hill, with a railing on the outside. Inside this railing several planks were missing, leaving a large wedge-shaped hole in the walk, through which Mr. Hibbard disappeared. He rolled down the steep embankment, until he was stopped by debris some forty or fifty feet below.

His son Gerald, who appears to have been the only person in the immediate neighborhood scrambled down to his assistance and helped him up the hill. They had a difficult task making the ascent, as Mr. Hibbard suffered considerably from his injuries and his left arm hung helpless at his side. He finally reached the hotel, covered with mud and blood. The first examination did not reveal the full extent of his injuries, but an X ray photograph of his arm showed that the bone was broken diagonally, close to the shoulder, and it was also found that the lower jaw was broken way back in the mouth. It was necessary to put Mr. Hibbard's arm in a cast and also to wire the jaws tight together. In the fall one of Mr. Hibbard's teeth was knocked out and another was loosened. He sustained a cut to the bone in the chin and severe bruises.

Despite the many injuries he received Mr. Hibbard's condition is not alarming and he will be well within a few weeks, it is expected. He is being well cared for, and many friends are doing all they can to make the time during which he is confined to the hotel pass pleasantly for him.

At Hathway's market you can buy Weir's Fair Coffee at 25c a pound. The finest produced. Try it.

GASOLINE SECTION CAR.

Has Proven a Success on Marquette-Big Bay Railway.

The gasoline section car purchased last spring for use on the Marquette-Big Bay branch of the M. & S. E. railway, has fulfilled all the claims made for it, according to officials of the company. The car has run smoothly all season with no serious mishaps and the cost of operation has been less than one cent per mile. Before the car was purchased, there were three sections between the west yards and Big Bay; now the three gangs have been put under one foreman and work together with headquarters at Birch. This system has been a saving, both financially and in increased efficiency of the men employed. The crew can be taken on the car to the farthest part of the section in a half hour, ready for work, as they have not had to pump a car, under the old system. Moreover, one large gang can handle many kinds of section work more expeditiously than three small ones, especially where there is heavy lifting. The car has shown a speed of from thirty to thirty-five miles an hour. The gasoline car is probably greater on a line where there is little travel, as on the Big Bay line, since the sections must of necessity be long, but railway officials are of the opinion that gasoline cars will pay on any road.

B. F. EMERY TO LEAVE.

Superintendent of Mackinac Island Park to Go West Oct. 1.

B. F. Emery, superintendent of the Mackinac Island state park, has handed in his resignation to the park commission, to take effect Sept. 30. Mr. Emery has accepted the position of superintendent of the Okonongong Indian reservation in the state of Washington, at a considerable increase in salary over that paid him at Mackinac. The resignation was filed with the park commission some time ago, but it was not made public, as the commission desired to find his successor without interference from the politicians. Until a few days ago, it was supposed that a good man had been secured, but he has thrown up the job and since that time the commission has been beset with applicants for the position. A. O. Jopling, a member of the commission, stated yesterday that the superintendent's job at Mackinac was no sinecure and that the commission wanted to engage the best man possible without reference to his politics. The man for the place must have executive ability, backbone, knowledge of road-making and concrete work, and withal be enough of a diplomat to keep peace between the residents of the island, the people owning summer cottages and the commission.

500 CANAL PASSAGES.

Boats Locked Through, Ready for Ports on Lake Superior.

Sault Ste. Marie, Mich., Sept. 27.—The boats whose names are here appended have passed the canals the last twenty-four hours, bound for ports on Lake Superior: Hoyt, Tomesta, Shalghnessy, 9:30 p. m.; Duluth, 10; Andrews, 11:30; Hill, midnight; Meacham, Doncona, 12:40 a. m.; Ishpening, 1; Ralph, Connolly Bros., Harold, 2; Nettleton, 3:30; Reis, 4:30; Widner, 5:30; Jansen, Crowder, Shemano, 6; Fulton, Bell, Simola, 9:30; Joseph Gilchrist, Chiff, 11; Clark, Bixby, 12:30 p. m.; D. O. Mills, 1:30; Meaford, 2; Munroe, Smith, 2:30; Couly, 3:30; Queen City, 4:30; Sill, 5; Wissahickon, Stevart, 6; Sullivan, McWilliams, 7; Sierra, 8.

MINING CONGRESS MEETS.

Criticism of Pinchot an Expected Feature of Goldfield Convention.

Goldfield, Nev., Sept. 27.—The annual convention of the American Mining congress began this afternoon, with 700 delegates present. The session is expected to be interesting, on account of the expected criticism of Gifford Pinchot's administration of the forestry service by a committee appointed last year to investigate the complaints.

WOMAN'S AUXILIARY WANTED.

Chicago, Sept. 27.—A woman's auxiliary to the government's department of commerce and labor was advocated today in the second biennial convention of the National Woman's Trade Union League. Mrs. Raymond Robins, president, urged the formation of such auxiliary to study the industrial conditions of women and children. The convention was attended by German and British delegates, Miss Margaret Schwieher presenting 25,000 unmined checks, stenographers and bookkeepers of Germany, and Miss Mary McArthur the trade union women of England.

PEORIA HAS A \$50,000 FIRE.

Peoria, Ill., Sept. 27.—Fire this evening gutted the Schupper & Block warehouse, with a loss estimated at \$50,000, and threatened adjoining buildings before finally controlled. Among the furniture destroyed was that of Bishop Spalding's new home. The origin of the fire is a mystery.

FIVE MILLION DOLLAR DEAL.

Seattle, Wash., Sept. 27.—Control of the United Railways company and Ruth Trust company, of Portland, Ore., was purchased today by J. P. Hulbert of Fontainebleau, Ia., and C. L. Dunbar of Vancouver. The price is said to have been close to five million dollars.

ALLEGED FORGER ARRESTED.

Boston, Sept. 27.—Arrested as a fugitive from justice Edward G. Hyatt, charged with forgery in Quincy, Ill., was held in \$3,000 bond here today, to await requisition.

TRAIN HITS HAND CAR.

Railroad Collision Near Edgar, Wis., Is Fatal to Four Persons.

Wausau, Wis., Sept. 27.—Four persons were killed and three others were injured last evening in a collision between a freight train and a hand car near Edgar, on the Northwestern railroad. A party of nine persons were returning from church at Poniatowski and had reached a rocky cut on the road, when a freight train crashed into them, throwing them against the rocks.

HELPS STOCKS GENERALLY.

Impressive Buying of U. S. Steel Makes Wall Street Market Strong.

New York, Sept. 27.—The passing of the holiday interval seemed to bring an accession of confidence to the speculative buyers of stocks today. The most impressive buying was in United States Steel, which buying had a breadth of volume resembling a miscellaneous demand from the public. Intimations as to the financial character of the customers who composed the principal element in this demand made a strong impression. The sympathetic affect on the general list of the steel movement submerged every other consideration. A veritable wave of buying was declared to be sweeping over the iron market, despite the unprecedented expansion in production. The railroad list was lifted by Atchison's excellent showing of earnings. A resumption of the influential buying of Reading and Union Pacific assisted notably in correcting the depression caused last week by the efforts to sell those stocks.

The conditions in the money were unchanged, aside from a rise in New York exchange at Chicago, which suggested a relaxation of last week's demands on New York. The substantial reduction in the banks' cash continued. The treasury has made requisition on the banks for \$126,000 already since last week's bank statement was compiled. The contribution to the banking cash for the same period has been over half a million.

The unexplained weakness in the Erie was an instance in the sharp reaction of the last hour.

CENSUS OF AGRICULTURE.

This Work Will Require Forty-Five Thousand Enumerators.

Director Durand Is Looking for Right Men for These Appointments—He Wants Progressive Farmers and Crop Reporters—Schedules Will Contain Much Important Information.

Washington, Sept. 27.—Forty-five thousand enumerators out of the estimated grand total of 65,000, will be engaged April 15 next in gathering the required information concerning agriculture for the thirteenth decennial United States census. Director Durand purposes making every effort to secure progressive farmers and crop reporters for these places. His action is based upon the recommendations of Chief Statistician LeGrand Powers and the advisory board, a special body composed of professors of economics and farm experts who have been assisting in the formulation of the schedule of inquiries concerning farm operations and equipment.

It is believed that the selection of this class of men, already familiar with statistical methods of securing data and reporting it in comprehensible form, will add greatly to the efficiency value of the census and to the scientific value of the information obtained. Director Durand does not anticipate any difficulty in procuring enumerators of this kind as there are in every state of the Union hundreds of crop reporters acting for the department of agriculture, representatives of state boards of agriculture, etc.

The agricultural schedule which is to be placed in the hands of these enumerators is nearing completion by the census bureau. The advisory board, who are acquainted with practical agriculture, its varying conditions, and who are active in their respective states in assisting the farmers to improve their farm methods, have been most earnest, and no effort is being spared to make the schedule as simple as possible, and yet secure the greatest amount of important information concerning agriculture.

By means of the census schedule an effort will be made to secure an accurate statement of the total number of acres of land in the various states, by states and counties; also the improved area, number and size of farms. On account of the growing importance of tenancy in many parts of the country considerable information will be secured as to whether farms are operated by owners, tenants or farm managers. Information about the value of farm buildings and other permanent improvements, and of the farm equipment, both machinery, implements and live stock, will be secured.

An important part of the schedule will be that enabling a study of the crops and crop products of 1909. The enumerators will ask about areas, quantities produced and value of crops in the case of all the principal crops grown in all parts of the United States. This inquiry covers grains and seeds, hay and forage crops; and all important special crops, such as fruits, nuts and vegetables; cotton, tobacco, rice, hemp, potatoes, broom-corn, etc. By-products, like flax straw for tow and twine, and such manufactured products as wines, cider and vinegar, dried fruits, sugar, syrup, etc., will not be overlooked by the questions in the schedule.

The inquiries concerning live stock and their stock products also include cattle, work animals, sheep and goats, swine, poultry and bees. The facts as to the number and value of live stock at the time of the enumeration are to be secured in some detail, taking into consideration age, sex and use of animals. Furthermore, data will be secured relating to the number and value of each species of animal raised, purchased and sold, and the quantity and value of animal products, such as milk, cream, butter and cheese, wool, eggs, honey and wax.

A few special questions of a general nature may be included to secure valuable related information. Among these is one which will be made concerning the area and character of woodland in farms. There will be put one schedule for agriculture. There may be a small schedule for the enumeration of animals in cities. This will be carried by the enumerators and it will cover horses, mitch cows, chickens, etc., housed in barns, stables, etc., in the cities. No

WINS MORE TURF MONEY.

Murphy's Innerguard and Alice Roosevelt Victorious at Columbus.

Columbus, Sept. 27.—T. W. Murphy won two more Grand Circuit races this afternoon. Innerguard and Alice Roosevelt being victorious. Innerguard's victory was an easy one, although Marie N got the final heat, after a close finish. Innerguard being set back to the last position as a penalty for changing from the pole to the middle of the track in the stretch. Alice Roosevelt was the favorite in the 2:13 trot. Dulce Jay took the first two heats, but in the third he broke just after the start, had to hurry to escape being distanced and was not good thereafter. Iris made the 2:18 pace a straight affair. Evelyn Patchen, winner of second money, defeated Dravo; Dick Wilson and ran away for a quarter of a mile. The summaries:

2:09 trot: three heats; ten starters—
Innerguard 1 1 9
Marie N 7 5 1
Kenyon W 2 2 6
Best time, 2:08 1/2.

2:13 trot: three in five; \$1,200; eleven starters—
Alice Roosevelt ... 5 2 1 1 2
Dulce Jay 1 1 10 4 4
Martha Dillon 4 3 4 2 1
Best time, 2:10 1/2.

2:18 pace: \$1,200; twelve starters—
Iris 1 1 1 1
Evelyn Patchen 11 2 3
Mary Dillon 2 10 5
Best time, 2:07 1/4.

LIBRARY CIRCULATION CONTINUES TO GROW

EACH MONTH OF THIS YEAR SHOWS LARGE INCREASE IN NUMBER OF BOOKS DRAWN OVER THE CORRESPONDING MONTH OF 1908.

The Carnegie public library of this city continues to have a phenomenal growth in the circulation of books for home reading. If the proportional rate of circulation for the past eight months continues the remainder of the year, the total number of books drawn for the twelve months will exceed 67,000. As the last four months of the year are good reading months, and the circulation is usually much larger than during the summer, the librarian will be much surprised if the total for the year ending Jan. 1 does not exceed 57,000, and she believes that it is liable to reach 70,000.

During the first eight months of this year there has been an increase each month over the corresponding month of 1908, while the present month will show a gain of nearly 1,000 over September of last year. During the first eight months of the year 42,911 books went out, compared with 39,254 in the eight months of 1908. The total number of books issued in 1908 was 61,325, compared with 46,097 the previous year.

Figuring on a basis of the present percentage of circulation the total number of books going out this year will be almost double the number put in circulation in 1905; also in 1906. The former year had a circulation of 37,663, compared with 37,990 in 1906. The percentage of circulation the number of books available, is considerably larger than that of the average public library in Michigan. There are now less than 13,000 volumes in the library. Over 4,000 cards are out and the average number of books constantly in the hands of the readers is between 3,000 and 4,000. The new steel racks, installed a few months ago, have a capacity for 36,000 books.

Several hundred new books have been received, since the new catalogues were issued and the copies are now preparing lists for publication. Among the new publications are a large number of fiction, Miss Jessie Rodgers of this city recently contributed fifty miscellaneous books to the library; George L. Raymond, professor of art history at the Princeton University, made the library a present of nine of his own publications on painting, art, pictures, and poetry. Mrs. John Poyer also recently contributed a number of books.

Many copies of new catalogues have already gone into the hands of the patrons. The librarian stated yesterday that many have expressed their appreciation of the catalogue, which is complete in every respect. She wishes the patrons to know that if they desire any pointers as to the easiest and quickest way of obtaining the information desired from the catalogue, they can procure the same by conferring with any of the library employes.

HAS A GREAT RECORD.

"The Great Divide," Henry Miller's production of William Vaughn Moody's American drama, which came to the Ishpeming theatre Saturday evening, has achieved a success from its very first performance. It played over six hundred matinees and evenings at the Princeton and Daly's theatres, and then was returned to the Academy of Music later in the year, where it played to capacity business for more than six weeks. Altogether, "The Great Divide," during its different New York engagements, was seen by almost three quarters of a million people.

"FAUST" TONIGHT.

Porter J. White's production of "Faust" will be the offering at Ishpeming theatre tonight. The management states that this year's cast and production are the best that it has ever offered and a satisfactory entertainment is assured. The prices are twenty-five cents to \$1.

A GOLDEN OPPORTUNITY

LADIES OF ISHPEMING SHOULD NOT FAIL TO MEET MISS LOUISE GOGGIN WEDNESDAY, SEPT. 29.

Class Each Afternoon at 2 p. m. in Vacant Store, Dundon Building, 102 No. Main St.

The golden opportunity is now here to secure much valuable information free of charge. One might pay many dollars and not receive instruction of such vital importance as is worth to every housewife in Ishpeming and vicinity. Miss Goggin at the free baking school teaches the essential principles of good baking, which are applicable in different ways, and in every instance the observance of these essentials secures, inevitably, the perfect results you desire. Don't neglect attending the opening class; you will miss the chance of learning much that will enable you to do more successful and economical baking if you do. You owe it to yourself to reduce the problem of your bake-day troubles to a minimum—besides securing the finest results you ever enjoyed. At Wednesday's class Miss Goggin will bake and serve to you hot from the oven, the following good things to eat.

Ribbon cake, date muffins, tea cakes and peanut cookies.

You will enjoy the talks by Miss Goggin; they are of the finest instructive value. Don't miss seeing her illustrate, and don't forget the Janet McKenzie Hill "Cook's Book" is free to the users of K C Baking Powder who return the certificate from the 25c can.

BOTH BOYS SAVED.

Louis Boon, a leading merchant of Norway, Mich., writes: "Three bottles of Foley's Honey and Tar absolutely cured my boy of a severe cough, and a neighbor's boy, who was so ill with a cold that the doctors gave him up, was cured by taking Foley's Honey and Tar. Nothing else is as safe and certain in results. Sold by all Druggists."

DEATH OF FORMER RESIDENT.

Wife of Captain S. C. Bennett Died On Menominee Range.

Mrs. S. C. Bennett, wife of Captain Samuel Bennett, who had charge of mines here some years ago, died last Wednesday at her home at Crystal Falls. The Diamond Drill of Saturday had this mention of her demise:

"Shortly after noon Wednesday the news was passed about the city that Mrs. C. S. Bennett had died suddenly at the Bennett home on Fifth street and the announcement came as a great surprise, for but few knew that the deceased was ill."

"Death was caused by heart failure, a malady from which the deceased lady had suffered from her childhood."

"She had been ailing for about two weeks but her condition did not appear at all serious, so that her death came very unexpectedly."

"Mrs. Bennett's maiden name was Jane Freeman. She was born July 28, 1841, at St. Francis, Canada, and making her sixty-eight years of age at the time of her death."

"She was married at Penance, Cornwall, in 1863 to Samuel C. Bennett. Thirty years ago the family came to Ishpeming where Mr. Bennett had charge of some mines."

"Mrs. Bennett came here with her husband in the latter eighties and located first at the Dunn mine, where her husband was superintendent for many years. When the Dunn was merged with the other properties of the Cornigan-McKinney group, the family moved to this city, which place she has since made her home."

"She was a conscientious wife and mother and during her long residence in the community made many friends who mourn her sudden death."

"The funeral was held from the M. E. church, Rev. Wm. Poyser being the officiating clergyman in the absence of Rev. Aldrich. The large number of friends who assembled to bear their tributes to the dead was an evidence of the estimation with which the deceased was held in the community. The remains were interred in the local cemetery."

"Mrs. Bennett is survived by her husband and four daughters, Mrs. Edwin Waid, Mrs. John Hain, Mrs. E. J. O. Waid and Mrs. Frank Noyes."

FROM MORGAN'S CURB LETTER.

The New York market opened higher throughout, and maintained its strength during the day. The trading was not very well distributed, being confined to about a dozen leading stocks. Steel came down, but not to the point of panic. Though the present level of prices is high, trade reports are so optimistic as to prevent any effective bear operations. An enormous sum of interest and dividend money will be distributed on Oct. 1st, and a large portion of this will be invested in different securities.

The Boston market was fairly active, the entire list holding strong, with North Butte the feature. This latter, on heavy buying from Butte, sold up to 62 1/2. Arizona Commercial and Lake were slightly weaker, while Adventure, Shannon and Superior & Pittsburg made fractional gains. The labor trouble in Butte was reported settled early this morning.

On the curb, Cumberland-Ely was the feature at the opening, rapidly selling down to 100. Later a portion of the loss was recovered. The weakness presumably was due to the advice of Eastern brokers to trade it for the more active Heinze issues. The Heinze stocks were again active, though with little net change. A number of the curbs are being seen by at least one or two buyers, as yet is not sufficiently aggressive to force prices upward.

Yesterday's prevailing prices were:

Almeek	828.00	Asked.

CARD OF THANKS.

To our friends and neighbors we wish to express our heartfelt appreciation for their kindly consideration during our most successful period. We feel under special obligations to all who in any way aided in making our burden lighter. We feel particularly grateful to W. H. Johnston and other officials, also employes of the Oliver Iron Mining Company for their many kind deeds, as well as to the numerous friends for their floral tributes. The manifestations of sympathy and kindness shall never be forgotten.

MRS. CARRIE THOMPSON, and Family.

ISHPEMING IN BRIEF.

A new catch basin was built at the intersection of Front and Lake streets yesterday.

Sam Huot, the police officer, has returned from a week's visit in the copper country.

A number of Ishpeming young people left yesterday morning for Marquette to attend the Normal.

A. J. Vaggebluth, auditor of the Cleveland Cliffs Iron company, left yesterday for Detroit, to be absent a week on business.

Miss Rose Fitzpatrick will leave today for Grand Rapids, where she will become a student at Mrs. Treat's Kindergarten Training school.

Peter Fahy left last night for Coleraine, Minn., after spending ten days in the city, visiting relatives. Mrs. Fahy will remain a week or two longer.

John Mufgr is raising his residence property at the corner of Third and Bank streets, occupied by Al Goodney and family. The large trees, running lengthwise in the lot have been cut down.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. August Ashboren, 711 East Ridge street; a son to Mr. and Mrs. E. J. O'Neil, 917 Oak street; and a son to Mr. and Mrs. Hector Tomlin, 317 South Lake street.

John Mufgr received two cartloads of fruit from the lower peninsula yesterday. They consisted principally of grapes and peaches. The fruit was sold at reasonable prices. Some merchants here and at Negaunee bought hundreds of baskets.

The Cleveland Cliffs Iron company has a number of men at work preparing the foundations for the steel towers between the city and its North Lake property. A portion of the steel has arrived and some of the towers will be raised before the end of the week.

Mr. and Mrs. Al Goodney were given a surprise last evening at their home, corner Third and Bank streets, by about fifty or sixty of their relatives and friends, the occasion being the tenth anniversary of their marriage. They were

GOTHAM BUDGET GROWS.

A Total of \$183,000.00 Will Be Needed, It Is Estimated, or \$28,000.00 More Than Allowed Last Year—Higher Appropriations Required by Nearly All Departments of City Government

New York, Sept. 27.—A \$183,000,000 budget confronts the city, if the calculations of the bureau of municipal research are correct. The amounts to be asked for will be nearly \$28,000,000 more than was finally allowed last year. Of this increase, according to the bureau of municipal research, which has prepared a list of salary increases to submit to the board of estimates, \$17,000,000 is directly chargeable to such increases; \$4,000,000 is asked for the dock department, that being an entirely new estimate, in accordance with the law which provides that said department shall hereafter make requisition for funds in like form with other departments. Heretofore, dock department funds have been raised by bond issues, not included in departmental estimates. The largest single item to be provided for in the budget is interest on the city debt, which totals up to \$50,000,000 annually, against \$47,000,000 in 1908. The board of education asks for \$34,000,000, an increase of \$7,000,000 of which \$6,081,000 represents the increase necessitated by the proposal to increase the salaries of teachers in accordance with the plan already outlined. The police department asks for \$16,000,000, \$2,323,000 more than was granted for the department's uses in this year's budget. For additional policemen, 500 in number, \$400,000 is asked, while \$437,000 is required for additions to the police pension fund. The police department asks in its estimate a requisition for \$400,000 for general repairs, \$200,000 of that amount being for repairs to the telephone and telegraph service. For mandatory increases in policemen's pay, \$400,000 is asked.

Williams Edwards, commissioner of street cleaning, asks for \$8,500,000, an increase of \$1,000,000, approximately, over the amount granted for 1908. The fire department asks for an increase of but \$135,000, a total of \$8,300,000 being called for. The department of water supply, gas and electricity has not presented its estimate for 1910. The amount allowed this year was \$6,511,000. The departments of charities and health each ask for \$3,600,000, an approximate increase of \$1,250,000 each over this year's appropriation. Estimates from the offices of the borough presidents of Manhattan and the Bronx amount to \$3,000,000 and \$1,400,000, respectively. President Ahearn requests \$225,000 over last year's total. Estimates from the boroughs of Brooklyn, Queens and Richmond have not yet been received.

According to the bureau of municipal research there will be less cutting of estimates in fixing budget amounts for this year than there has been in regard to past estimates, because the new system of submitting estimates, itemized, makes the apparent requirements of departments and boroughs appear at a glance. Last year the provisional estimate, to cover expenditures of this year, was \$190,000,000—higher than that which is about to be considered. The size of the "cut" after various civic organizations had appeared and protested to the board of estimate, was beyond precedent.

The estimate of \$50,000,000 for payment of interest on the city debt will, according to information obtained at the finance department, be cut to less than \$47,000,000, there being available in the sinking fund considerable money that interest.

STONE IN KIDNEY

An interesting case was that of Mr. H. L. McDuffee, a member of the firm of H. C. De Wolfe & Co., of the Crocker Building, San Francisco.

The case was puzzling. There was pain in the kidneys with a showing of blood. Examination by seven physicians proved that the blood was from the kidneys, and it was the opinion of all that there was a stone cutting the kidneys, as the least exercise caused a showing of blood.

Four X-ray pictures were taken, three of them showing a stone half an inch in diameter. To be certain that it was a stone that cast the shadow, a similar stone about the same size taken from a patient was put under him for comparison—both stones showing on the plate.

An operation was found decided upon when Fulton's Renal Compound was recommended to Mr. McDuffee. He heard the knife and gave it a trial.

Within ten weeks the blood and pain had ceased and in six months he considered himself well.

We also have a three-page letter from an old-school physician, a lecturer in one of the San Francisco Medical Colleges, covering a similar case of stone in the kidney. An operation seemed inevitable. He prescribed Fulton's Renal Compound upon the theory that as it was getting results in Nephritis it ought to have some effect to reduce the inflammation and excessive uric acid that attends calculus. He was so surprised to get a complete recovery that he thought a record ought to be made of it and gave us the letter above referred to.

Fulton's Renal Compound seems to have about the same percentage of efficiency in stone in the kidney that it has shown in Bright's Disease.

For free literature, address the John J. Fulton Co., San Francisco Cal.

Fulton's Renal Compound can be had of our agents, The Stanford Drug Co.

We desire to advise with every patient who is not noting the usual favorable results by the third week.

Going Out of Business

Having decided to retire from active business, I will offer my entire stock of

STOVES, HEAVY AND LIGHT HARDWARE, SPORTING GOODS

and everything handled in a first-class hardware store.

THE STOCK WILL BE RETAILED until a buyer is secured for all of the stock, and this is an opportunity for a hardware man to get into an old established and paying business.

We are making room for the temporary quarters of the new National Bank and to do this it will be necessary to dispose of some of the stock at once.

The Fixtures are modern and complete.

BENJAMIN NEELY

IRON STREET.

NEGAUNEE.

Negaunee Department

MIGHT HAVE BEEN WORTH MILLIONS

MAN WHO ONCE OWNED LANDS ON WHICH THE MAAS AND NEGAUNEE MINES ARE LOCATED NOW VISITING IN THE CITY.

Antoine DeLoria, who was one of Negaunee's first settlers and who once owned the land in the eastern part of the city on which the Maas, Negaunee and Queen mines are located, is here from Garden Bay on a few days' visit to relatives. He came up to attend the funeral of the late Mrs. D. Gauthier. Although now seventy-eight years of age, Mr. DeLoria enjoys exceptionally good health, and Negaunee friends who had not seen him for twenty years or more yesterday said that he looks as young and as hearty as ever. Mr. DeLoria left Negaunee something like thirty years ago, and he has been at Garden Bay ever since. He has had the contract for carrying the mail between Garden and Cook, a distance of sixteen miles, for the past twenty years. He has two teams on the job.

Mr. DeLoria yesterday said that he did not regret having sold the lands on the east range, which might have made him a multi-millionaire if he had retained possession of them, as at the time he sold he considered that he got a fair price. He owned 530 acres, which he purchased from the late Sidney Adams something like forty years ago. He had a considerable portion of the acreage under cultivation for some years and shortly after the first ore was discovered near the Negaunee mine he sold 100 acres to the Longfellow, Maas and Mitchell estate for \$10,000. He later sold eighty acres on the west to Maynard and Ball, and a few years afterward he disposed of the remainder of the land to Antoine Barabe, Steve Gauthier and his brother, Gust DeLoria. They sold at \$2,000 an acre to George J. Maas, who later disposed of the tract to the Cleveland-Cliffs iron company.

About five years ago it was found that Mr. DeLoria still had an interest in a seventeen-foot strip along the Duluth, South Shore & Atlantic Railway company's right-of-way, and he sold it for \$3,000. As he understands the matter, the company had included seventeen feet more land in the right-of-way than it was entitled to. He received a total of about \$22,000 for his 530 acres.

One of the First Coal Makers.

Mr. DeLoria was a well-known charcoal maker in the early days, when several furnaces were in operation in this county. He first came to Negaunee fifty-six years ago. He made some of the first coal that was ever used in the manufacture of pig iron at the Pioneer, Chocoday, Fayette and Deer Lake furnaces. During the first two or three years the Pioneer furnace was in operation there were no coal kilns and the coal was made in beds. Mr. DeLoria said that he believes he was the only man who ever made cedar coal successfully. In making cedar coal he was obliged to cover the wood with balsam boughs and on top of these place sand. The charcoal makers preferred straw for a covering, but straw was so scarce during the making of cedar coal that the farmers asked \$2.50 a hundred for it.

Mr. DeLoria was employed at all of the four furnaces mentioned at the time they went out of commission. He had charge of the coal making at the Chocoday furnace, and he was really all of the workmen in the county went on a strike. He then had a team working at the Pioneer furnace and Hank Shoultice, now living at Witbeck, near Republic, was the driver. He recalled how the strikers met Shoultice near the furnace and took the team away from him, driving the horses into a ditch. Later, when they discovered that the horses belonged to DeLoria, they took them out of the mine.

Mr. DeLoria also worked on the old plank road over which ore was transported from the Jackson, Cleveland and Lake Superior mines to Marquette before the completion of the Marquette, Houghton & Ontonagon railroad. He made ties for the road out of pine cut at Eagle Mills. In addition to following the coal making business Mr. DeLoria also conducted a saw mill in the woods. He furnished several thousand of the ties that the Marquette, Houghton & Ontonagon Railway company used on its line between the three cities.

CAPTAIN BUDDLE'S FUNERAL.

Remains of Former Cascade Range Man Interred in Neeah Cemetery.

The Crystal Falls Diamond Drill had the following account of the funeral of the late Captain J. S. Buddle, who left the Empire mine, on the Cascade range, seven weeks ago, to take charge of a mine on the Mesaba range, where he met his death: "The funeral of Captain J. S. Buddle, whose death was noted in last week's issue took place Monday afternoon at Neeah, Wis., where the remains were interred in the cemetery at that place. On Sunday afternoon religious services were held at Iron River, the remains being in charge of the masons of that place. Mr. Buddle having been a member of the Crystal Falls lodge for many years.

"The remains were placed aboard the evening train, accompanied by his widow and his family and attended by a delegation of the masons from the Crystal Falls lodge.

"When the party arrived at Neeah they were met by a delegation from the masonic lodge of that city who gave the remains a respectful burial in the cemetery at that place. The attending family and friends every attention possible.

"The burial took place in the afternoon, a very large number of the Neeah masons attending and assisting at the ceremonies which were under the direction of Jas. D. Ryan, worshipful master of the Crystal Falls lodge.

WARNING.

Do not be persuaded into taking anything but Foley's Honey and Tar for chronic coughs, bronchitis, hay fever, asthma, and lung trouble, as it stops the cough and heals the lungs. Sold by all Druggists.

STATE BANK OPEN.

New Institution Opened for Business Yesterday Morning.

The charter for the Negaunee State bank was received in time to permit the management to open for business yesterday morning. Thomas Pascoe, the cashier, said that he received several good-sized deposits before the bank was open an hour. None of the officers of the State bank are stockholders in the First National, though the impression seems to prevail that some of them are financially interested in the latter institution. The banking rooms are attractive, as they have been artistically decorated and all of the woodwork, radiators, etc., have been painted and varnished.

Yelmer Heimonen, who has been in the employ of Winter & Snuss, has taken a position in the bank. Mr. Pascoe and he will be the only employees for the present, but Thomas Pellow, the vice president, who is an expert accountant, will give them assistance when necessary.

HAS GOOD CROPS.

Negaunee Farmer Has Sold Over 250 Bushels of Apples.

Charles Taylor, who has operated a farm at Sands for nearly thirty-five years, has had an unusually good season. Both the grain and vegetable crops are much better than usual. The only one that was not normal was the hay, but the yield at Mr. Taylor's place was perhaps better than the average in the upper peninsula. All of the grain crops were good, while the apple crop was exceptionally large. During the past week Mr. Taylor shipped over 250 bushels of apples to city markets, receiving \$1 per bushel. The apples are of exceptionally fine quality and the yield is one of the largest that he has ever had.

Mr. Taylor wants to dispose of his farm as he has a large acreage under cultivation the place requires practically all of his attention during the summer season, and during the winter he has his creamery business to look after. He has one of the finest dairies in the upper peninsula and it could be made a paying venture if conducted on a large scale. The farmers in the Little Lake and Sands districts have all had good success with their crops this season, and several of them will make considerable money. The yield of vegetables and grain is larger than during any previous season in some years and it is expected that the price will average higher than usual. Potatoes will perhaps not bring as large a price as last year. The potato cabbage and turnip crops are larger than they were last fall.

A considerable quantity of the grain and vegetables raised in that district will be disposed of in this county, but many of the farmers, including Mr. Taylor and E. J. Goodson, will ship the greater part of their products to the city markets. All of them have regular customers in the cities with whom they have been dealing for many years, but as a rule a large percentage of their potatoes are sold in this county. Practically all of the Negaunee farmers have started to harvest their potatoes, but it will be a month before the bulk of them will be dug up to this time there has been no frost, severe enough to penetrate through the ground a sufficient depth to reach the potatoes, but all of the stalks in the potato fields in the higher districts were destroyed by the frost the latter part of August. Several of the Negaunee farmers have already contracted for the sale of their potatoes, and others will hold over a considerable quantity until spring in the hope that the price will be better than is now obtainable.

LOCAL LAONICS.

Mr. and Mrs. P. Bernard are rejoicing over the birth of a daughter.

A number of Negaunee girls left yesterday morning for Marquette, to attend the Normal.

Charles Linde, a former resident, who is engaged in diamond drill work in the copper country, spent Sunday with friends here.

Cleo Mellour, who is promoting the Negaunee National bank, which is to have temporary quarters in the Neely block, was in the city yesterday.

T. C. Yates, cashier of the First National bank, left last Sunday evening for Chicago on a business mission. He will be back today or tomorrow.

The heavy frost Sunday night is said to have done considerable damage. Thermometers yesterday morning at 6 o'clock registered from twenty-five to twenty-eight degrees above zero.

A. F. Floodstrand, who has the contract for the brick work at the Scandinavian society's new block, returned Saturday from Iron Mountain, where he spent a few days on business.

Peter Berg, who has charge of the crew employed in installing the heating plant in the new high school building for W. S. Patterson, came up from Appleton Saturday, spending Sunday with friends here.

Miss Ella Milroy has arrived here from a visit to her sister, Mrs. Ed. Gaffney, and other relatives at Hibbing. She was absent a month.

Mrs. Gallaher of Saginaw is visiting her cousin, Mrs. C. V. R. Townsend. Mrs. Gallaher is the mother of Will Gallaher, a mechanical engineer in the employ of the Cleveland-Cliffs Iron company.

Will Froad and wife came over from Crystal Falls Sunday morning on a visit to his parents, Mr. and Mrs. Josiah Broad. He returned Sunday night, but Mrs. Broad will remain here for a few days.

Mr. and Mrs. E. D. Raymond have returned from a two months' visit on the Mesaba range. Their daughter, Miss Clara, who left with them, is to spend some time with her sister, Mrs. Christ Housen at Hibbing.

Professor Troop of the Chicago University will give the first of a series of lectures tonight in the auditorium of the new high school building for W. S. Patterson, came up from Appleton Saturday, spending Sunday with friends here.

"A DOLL'S HOUSE" TONIGHT.

Hortense Nielsen and a capable company will present Henrik Ibsen's "A Doll's House" tonight at McDonald's Opera House. The part of Nora Helmer, which Miss Nielsen assumes, is a role which taxes the highest powers of an actress, but Miss Nielsen has received unusual praise for her strong and vivid delineation of this most difficult and fascinating character.

PUTTING IN FOUNDATIONS.

The Cleveland-Cliff Iron company has started work on the foundations for the two 1,500 kilowatt turbines to be installed at the Maas mine engine house to generate power for the electric trans-

mission line. Two turbines of similar size also are being installed at the central power station on the Swanzy range. With a capacity of 6,000 kilowatts, it is expected that the four turbines will generate sufficient power to meet the company's requirements on the two ranges for several years. At the start one of the turbines will furnish all of the power needed at the different properties where electricity is to be used.

GOVERNOR ORDERS AN INVESTIGATION

WEST BRANCH TOWNSHIP QUARREL TO BE AIRED BEFORE PROBATE JUDGE POTTER.

CHARGES MADE AGAINST LIBBY

Shaw Faction Petitions for Removal of Supervisor, Alleging Official Misconduct—Hearing Oct. 6.

Governor Warner having taken a hand in the West Branch township feud and ordered an investigation of the township's administrative affairs, there is some prospect of an end to the controversy between the factions headed by Alger J. Libby and Robert Shaw, respectively. The governor's order came as the result of a petition, signed by Shaw and five others, requesting that Libby be removed as supervisor of the township. The investigation ordered by Governor Warner will take place in the office of the probate court next week Wednesday, and will be conducted by Prosecuting Attorney E. A. Bell and Probate Judge W. T. Potter.

The petition asking for the removal of Libby, signed by Robert Shaw, Gustav Keulin, Andrew Johnson, John A. Johnson, Theodore Peterson and Martin Johnson, was filed with the probate court last June and was by him transmitted to the governor in July. The petition in general charges that Supervisor Libby has done certain things that he ought not to have done and that he has not done certain things that he ought to have done. In sending the petition to the governor, Prosecutor Bell writes him as follows:

"The charges made in the petition may or may not be substantiated. I know nothing about the facts, but owing to the fact that the trouble seems to be never ending, I feel inclined to say that, in my opinion, the case demands an investigation. Whatever the result is, one side or the other will be shown to be in the wrong. I suggest that the investigation be made by the judge of probate."

Substance of the Charges.

There are four counts in the indictment (if it may be so termed) drawn up by the Shaw party against Supervisor Libby, the substance of which is as follows:

1. In 1908 certain work was properly authorized to be done on the West Branch township highways, which was satisfactorily executed and passed upon by the proper legal authorities, who ordered the men that did the work to be paid, as follows: Ignace Saha, \$130; Wm. Borchert, \$42; P. M. Donohue, \$38; Philip Partwood, \$7.50. These parties were paid by orders on the township treasurer, signed by the commissioner of highways and the township clerk. Libby got out an injunction to prevent the payment of these orders by the township

treasurer, which injunction was dismissed in circuit court last May. Notwithstanding the dismissal of the injunction, the township treasurer, acting under instructions from Libby, refuses to cash the orders, it being alleged that the treasurer is refusing to pay the orders in order that Libby may avenge himself upon those for whom he sustains personal dislikes.

2. At the meetings of the township board held March 1, 1909, the following orders were allowed: John Goldsworth, \$2; M. R. Manhard & Son, \$65; Almer Froeling, \$8; Hill & Smith, \$20; Mrs. J. Libby, \$23; James Robinson, \$2; Mrs. James Trindle, \$2; Forest Libby, \$3. It is alleged that these orders were not directed to the township treasurer, that they were not drawn in the proper form and that they were not signed by the township clerk. Accordingly, the treasurer refused to pay them, the prosecuting attorney having said they were not legal. At the April election, Henry Peterson succeeded P. M. Donohue as township clerk and Arthur Pane became township treasurer instead of Gustav Keulin. Libby then secured proper blank orders, filled them out in payment of the above bills, dated them back to March 1, and signed by himself and Henry Peterson, clerk, they were paid by the township treasurer.

3. In the election of April, 1909, Libby was a candidate for township supervisor. At that time he held no office. Election challengers had been appointed by the proper officials, yet Libby without authority appointed C. A. Beckman challenger. Libby was elected supervisor but the township clerk would not pay the bill for services as challenger, submitted by Beckman. In 1909, the new township clerk, Henry Peterson, drew an order for Beckman's services at the election of 1908, which was paid.

4. The petitioners allege that Libby on several occasions called meetings of the township board without giving proper notice, in that he notified only those members who were in favor of his policies.

5. It is further alleged that Forest Libby, a son of Supervisor Libby, is justly of the peace of the township, but he has not served two years and so has not been appointed a member of the township board, without appointment of some other member of the board, when a quorum is not present. Nevertheless, Forest Libby has been appointed a member of the board by his father, though the father knew he had no right to make the appointment.

Libby was served with a copy of the petition and the governor's order for an investigation, by Sheriff Lehman Saturday, and was directed to appear at the probate court office Oct. 6, with witnesses or such other defense as he may care to make to the charges. At this hearing, both sides of the case will be presented and a transcript of the testimony will be taken, which will be forwarded to Governor Warner, together with an opinion from Probate Judge Potter on the merits of the petition.

Know why your clothes wash out faster than they wear out? Because many housewives use antiquated methods that ought not to have been introduced. Our plant is modern, our methods modern, your clothes will show the difference.

THE CRESCENT LAUNDRY.

Don't forget to order World's Fair Coffee with the other good things to eat at Hathway's market.

THEATRICAL.

"The Great Divide."

Town talk theatrically considered is centered upon the coming engagement of Henry Miller's company in "The Great Divide," which is announced for tomorrow night at the opera house. With this notable drama, by William Vaughn Moody, Mr. Miller has reached the zenith of his career as a producing manager. Never has an American play by an American author won such instant recognition at the hands of the most discriminating dramatic reviewers. "The long awaited great American play" many critics have termed it. The unique power and intense human appeal of this masterpiece of dramatic literature, as well as the intelligent and highly artistic presentation and production, as directed by the pastmaster of stage craftsmanship, Henry Miller, easily explains the phenomenal vogue this piece has attained. During the two seasons' engagement at the Princess and Daly's theaters, and later at the Academy of Music, New York, it was only possible to secure seats by buying them weeks in advance, or procuring them at advanced prices from speculators. Over a half a million people saw this great play in New York city alone during the 600 performances. "The Great Divide" will be given here by a superb company with all the wealth of scenic equipment and the complete production precisely as presented during the metropolitan engagement.

KAPPA ALPHA PI TEAM WON.

The first match bowling game of the season in which there was any general interest was rolled at the Guild Hall last evening between the Reggies and the Kappa Alpha P's. Both three men teams. The Kappa Alpha P's won by forty-nine pins. The game was the first of a series of four matches to be rolled by these two teams, and was so close and exciting that an interesting series is assured. Thursday the Kappa Alpha P's will bowl with C. Carr, G. Preston and E. Gasregen. The scores of last night's game follow:

Reggies—			
L. Drake	150	163	202
F. Kipler	137	107	165
A. Wheeler	132	145	164
Totals	419	415	531
Kappa Alpha P's—			
W. Johnson	164	148	162
N. Stewart	135	163	206
E. Hodson	136	108	188
Totals	435	419	560

You will wear a smile that won't come off if you drink a cup of World's Fair Coffee. Hathway has it.

Friday night is the night. (9-27-09) GRAND THEATER.

These having orders to be made can drop a postal to him in Marquette, care general delivery, and he will call. He guarantees work to be first class in every respect and all carpets will be thoroughly cleaned. (9-27-09)

Genuine C. C. R. Pochontas Smokeless. Call up F. B. Spear & Sons. 9-6-09

Think It Over

No power on earth can comprise our defeat if we think right. It is safe to say men do not think with their feet, but as a matter of fact—and you will agree with us in this—no man can think right when his feet are in wrong. Step into a Hanan, Copeland & Ryder or Regent Shoe. Then you're in right.

Box Calf, Gun Metal, Velour, Oil Grain Vici, Kangaroo and Pat. Leathers in

Hanan Shoes\$6.00 to \$6.50
Copeland & Ryder Shoes \$5 to \$6
Regent Shoes \$3.50, \$4, \$5
World Known Shoes\$2.50
Dayton (Brotherhood) Shoes. \$3.50 to \$5
Hard Pan Shoes\$2.75 to \$3.50

Boys' Shoes

The Holland, Walton, Jefferson and Regent in all qualities and lasts.

Hanan, Copeland & Ryder and Wright's "hand made" Cruisers

\$3.50 to \$7.50

Full Line Work Shoes

What an amount of foot comfort is represented in above lines. Think it over and you will know when to buy Shoes for yourself or your boys.
