Gardiner, Maine.—"I have been a great sufferer from organic troubles and severe female weakness. I had to go to the hospital for an operation, but I could not bear to think of it.

POSTAL CARD DANGERS.

A postal card is a great convenience, but it may be used in a way that will rankle considerably. The U.S. Post Office, Section 3893 of the federal statutes makes it a misdemeanor to place in the mails a postal card on which is written a statement of account with a demand for money of any description.

of copper as the Champion, Baltic or Trimountain." The claim that the price of Lake stock is high enough, based upon the extent of the openings may be true, but the price formation to Lake copper is such that it is quite impossible to state them in dollar and cents and it must be remembered that the capitalization of this company is small and the stock on the market is very limited.

This property has some openings on the New Mass lode which disclose very fair copper. The formation differs a little from that shown at the Mass in that the nodules are much larger than at the Mass. The disclosures are in two prospects which are extended eastward from the Evergreen workings on the Knottwood. One of the prospects is at the sixth level of No. 3 shaft and the other is an extension of the adit, driven from No. 1 shaft into the bluff. Number 3 shaft is sunk on the Knottwood level and the crosscut at the sixth level was originally driven back southward on Knottwood beyond the Evergreen. From that point a diamond drill exploration was made in which promising copper bearing ground was discovered, including the No. 1 new Adventure lode, for which a vertical shaft is now sinking. This drill also passes through the lode that was afterwards opened by the Mass and is called the New Mass lode. After the Mass opened this lode by crosscuts, the Adventure began extending its crosscut at the sixth level on southward beyond the Evergreen lode and recently came into a copper bearing lode. After this sixth level crosscut was under way the extension of the adit near No. 1 shaft, which originally was opened across the 800 feet that separated the Knottwood from the Evergreen was begun, with results similar to those at the sixth level crosscut. The adit crosscut, in which better showings have been made is about 2,300 feet from the nearest point where the adit is now being extended. The adit enters the lode from the hanging wall side and copper is in evidence from the time the lode first makes its appearance although it is not commercial until some distance toward the footwall. Calumet & Arizona.

Local officials of this property have returned from their visit to the southwest and are highly pleased with the condition of the Calumet & Arizona adit shaft and the Calumet & Arizona continues to be bottomed in very high grade ore and the openings in advance as extensive as any time in the history of the district. The power showings at the Adit are particularly encouraging for the future production capacity of this shaft. The Hudson and Briggs shafts are in good ore and are constantly opening new beds. Relative to the Courland district properties, opened to the Calumet & Arizona, the development work there is to continue for several months before the decision relative to their permanent purchase is reached. Enough ore has already been taken from the property to more than compensate the Calumet & Arizona for the money spent in development but the directors are desirous of further sinking and further openings to assure the future of the property before taking it over. The formation is a limestone with copper lenses and the development work there is to continue for several months before the decision relative to their permanent purchase is reached. Enough ore has already been taken from the property to more than compensate the Calumet & Arizona for the money spent in development but the directors are desirous of further sinking and further openings to assure the future of the property before taking it over. The formation is a limestone with copper lenses and the development work there is to continue for several months before the decision relative to their permanent purchase is reached.

Indiana and North Lake.

The interest in the Lake property has called attention anew to the properties adjoining the Indiana and North and South Lake (the latter formerly known as the Aztec). We are inclined to greater faith and quicker results in the Indiana than in the others. Both drills are in progress and both should now make rapid progress. Number 1 drill hole should cut the formation through to the eastern sandstone and the second drill will overlap this work. The prospectors at North Lake located an outcropping of limestone in the area between the railway track and the next drill hole will be put down in this formation, thus avoiding the heavy overburden which has heretofore caused so much trouble and delay with the work at the North Lake. Mr. Edwards expresses the opinion that the Lake lode lies nearer the two parallel conglomerates thus supposed and it is possible that the big vein cut in the third drill hole may prove to be the lode. On the

**City Brevities**  
Today's weather: High northwest wind.  
Yesterday's temperatures: Seven a. m., 58 degrees; noon, 57; 7 p. m., 55. Maximum, 60 degrees; minimum, 55.  
The Monday Night club meets this evening.  
John Steen has moved back to his town near Cherry Creek.  
The Clerks' union will hold a meeting at Siegel's Hall this evening.  
Miss Frei and sister, Mrs. Gennett, have returned from a purchasing trip to New York and Chicago.  
A meeting of the Queen City Commercial club will be held this evening at the city hall. A good attendance is desired.  
James Anthony, who has been employed at Stafford's drug store, has gone to Detroit to spend some time with relatives.  
John Lewis and Charles Schoch left for Detroit by way of Chicago, last evening to take in the world's championship baseball games.  
F. H. Vandenhorn has just purchased several fine new milk cows in order to be able to supply the popular demand for bottled milk.  
Frank H. Withey, general manager of the Northwestern Collection agency, leaves this morning for Newbury and South Ste. Marie. He will be gone most of the week.  
All members of Superior tent, No. 28, K. O. T. M. M. are requested to meet at Fraternity Hall tonight and participate in a drawing. The member who gets the lucky number will get his assessment paid for this month.  
Guild Hall Won—The Guild Hall football team played a team composed of seven Normalities and four outsiders at Longview field Saturday afternoon and won by the score of 18 to 6. The game was an interesting one to watch and was replete with fast and even sensational playing.  
Tigers Badly Defeated—The branch prison team ran away with the Marquette Tigers in a baseball game at the prison yesterday morning and won by a score of 16 to 1. Dixon, who pitched for the prison, struck out thirteen men and made a home run on a terrific smash over the west wing of the prison buildings.  
Kimberly-Withey Meeting—The local stockholders of the Kimberly-Withey Mines company will hold a meeting at the city hall tonight. The affairs of this company have taken on a brighter look of late. More capital is forthcoming and it appears that the property can be sufficiently financed if the proper efforts are made.  
North Ends Victors—The North Ends football team defeated the Rivals at the fair grounds yesterday afternoon by the score of 18 to 0. At the end of the half the score was 2 to 0. The leading ones being behind their own goal line with the ball in their possession. In the second half the North Ends made three touchdowns and kicked one goal. The North Ends challenge any team in the county averaging 125 yards.

**New Passenger Schedule**—A new passenger schedule went into effect on the B. S. S. & A. railroad yesterday. Train No. 1, which has been arriving in Marquette at 3:25 and leaving at 3:40 p. m., now arrives at 2:50 p. m. and leaves at 3:10 p. m. Other trains will arrive and leave Marquette as heretofore. Trains 13-14 and 43-44 are run daily except Sunday, instead of daily, to St. Ignace and daily except Sunday to Mackinac City, as heretofore.

**Only Saloons Affected**—"To close or not to close." That seems to be a question that is troubling saloonkeepers, bank officers, school superintendents and others who might be affected by act No. 258, passed by the last legislature and designating tomorrow, Oct. 12, as a holiday to be known as Columbus Day. The attorney general of the state has announced that the act is not affected by the act, banks and courts being exempt, but that all saloons will have to be closed on that day.

**Another Grange Organized**—Deputy John Wilde has organized a grange at Arnold, Wells township, with the following officers: Master, Wm. J. Jagger; secretary, Wilfred Vian; treasurer, Henry Arnold; steward, Chas. West; assistant steward, Gust Bruce; lady assistant steward, Mrs. H. Arnold; chaplain, Wm. Abramson; treasurer, H. Vian; secretary, John Bruce; gatekeeper, Peter Kellomaki; organist, Edith Vian; Pomona, Hilda Abramson. The next meeting will be held Friday evening, Oct. 15.

**Talkative Prisoner**—The police picked up a fellow on the street yesterday that could hold his own with a sawing society when it comes to talking. Before arrested he talked incessantly to him and his incarceration he has kept up a continuous stream of incoherent talk. He apparently cannot speak or understand English and the officers have been unable to learn his name, as he is a stranger in this city. He is thought to have been an escaped inmate of a lunatic asylum, and he will probably be examined as to his sanity today.

**Tuscarora Here Again**—The United States revenue cutter Tuscarora was in Marquette Saturday night for the second time this season. This vessel is engaged in the enforcement of the law regulating the operation and equipment of motor boats. Until the captain makes his report to the deputy customs collector, it will not be known whether any violations of the regulations were discovered in Marquette. "Jack Tars" were numerous on Saturday night, and it was remarkable how quickly some of them formed acquaintances with Marquette girls.

**Wright Bros' Aeroplane**—Rare indeed are scientific achievements that compare with the results of the official tests with the Wright Bros' aeroplane, recently conducted at Washington. It was a special arrangement that the Edison company obtained the exclusive privilege of photographing these tests for motion pictures, and this privilege was granted only after considerable negotiation. The rise of the huge "bird of the air," and its successive swoops as it circles, its course over the broad parade ground, the evident interest and excitement of the assembled spectators are all reproduced with the fidelity of the camera. The films, portraying both flights being remarkably clear and distinct. Among other prominent people plainly visible are President Taft, "Uncle Joe" Cannon,

Senator Aldrich and Mrs. Alice Roosevelt Longworth, who made special poses for the event. This picture will be shown at the Bijou today and Tuesday.  
**Ore Car Test**—A competitive test will be made between the Summers and Clark patent steel ore cars at the L. S. & I. dock this forenoon, the object being to see which car will dump a cargo the quicker. In this test the Clark car will be dumped by hand and the Summers car with air. The two patent cars and one of the regulation L. S. & I. steel cars were loaded with Stephenson Bessemer ore Friday and have been standing since that time. As this ore is sticky and puffy-like, it is expected that the test will show up the merits of the cars under also as unfavorable conditions as possible. The Clark car has been in use on the road for about ten days, while the Summers car arrived but a few days ago.

**Rubber Footwear Higher**—The price on all kinds of rubber footwear has greatly advanced owing to the increase in the demand for crude rubber from auto tire manufacturers. Quotations a year ago for the so-called "Up-river" stock, which is used mostly for high grade goods, and upon which prices for the various grades are based, was about eighty-five cents a pound, but present quotations show an increase of at least 20 per cent, which in turn must be met by the consumer. The tariff does not enter into the argument as the crude product is admitted free. No rubber manufacturing concern owns its own plantations and all are consequently at the mercy of the market fluctuations. The bulk of rubber used in the manufacture of footwear is grown in South America and Africa, with a smaller amount from Ceylon, which is grown on plantations where the trees are under constant cultivation.

**INSURE WITH PETER WHITE & CO. CANADIAN VESSELS TAKED.**  
New Tariff Bill Imposes Restrictions on Their Entering U. S. Ports.  
Canadian vessels are likely to less often be seen at Marquette and other United States great lakes ports as the result of the tonnage tax clause in the tariff bill recently passed by congress, which went into effect Oct. 5. This act provides that a duty of two cents per net ton shall be imposed on all vessels entering a United States port, which had from any foreign port or place in North America, Central America, the West Indies, the Bahama Islands, the coast of South America bordering on the Caribbean sea or Newfoundland, and a duty of six cents per net ton on all vessels belonging in any other foreign port. It is provided that this tax shall not be levied for more than five entries of the same vessel during any one year.

Quite a number of the ore boats that come to the South Shore docks are Canadian boats, most of which are owned in Ontario. Heretofore, vessels from that province have been exempt from any tonnage duty at United States ports by special proclamation of the president, but the new law makes it unlawful for the imposition of the duty to be suspended.  
Just how seriously the new law will affect the business of Canadian freight vessels at United States ports remains to be seen, but already several of the Canadian passenger steamboat lines have signified their intention to cut the great lakes ports of this country of their schedules.

**300 CANAL PASSAGES.**  
Boats Locked Through, Bound for Ports on Lake Superior.  
Sault Ste. Marie, Mich., Oct. 10.—The boats whose names are here appended have passed the canal in the past twenty-four hours, bound for ports on Lake Superior: Cranage, Cort, Seebing, McKee, 9 p. m.; Fryer, Colgate, Langham, 10; James Wallace, Hopkins, King, Langham, 11; Holmes, midnight; Hurllitt Smith, 1:20 a. m.; Colwell, 3; Gayley, 4; Pellet, 4:30; Gilmour, Burlington, 6:30; Assinboia, 10:30; Branford, Trevor, 1:30; Baker, Sherwin, noon; Curry, 12:30 p. m.; Garretson, Kenora, 1; Livingston, 2; Oglebay, Oil, Wilpin, 2:30; Hoyt, Yosemite, 4:30; Huronic, German, 5; Schemm, Geo. Owen, 6; Griffin, Taylor, 8.

**ELECTION NOTICE.**  
Notice is hereby given to the electors of the township of Powell, in the city of Marquette, and state of Michigan, that there will be held a special election in the town hall at Bijou on Saturday, Oct. 23rd, 1909, for the purpose of bonding the township of Powell to the amount of five thousand dollars (\$5,000) to be raised for the construction of a highway between Birch and Big Bay in said township as follows:  
First bond, for the sum of one thousand dollars, payable 1911.  
Second bond, for the sum of one thousand dollars, payable 1912.  
Third bond, for the sum of one thousand dollars, payable 1913.  
Fourth bond, for the sum of one thousand dollars, payable 1914.  
Fifth bond, for the sum of one thousand dollars, payable 1915.  
With interest at the rate of 5 per cent per annum. Paid semi-annually.  
The polls of said election will be opened at 7 o'clock in the forenoon or as soon after as may be, and will be continued open until 5 o'clock in the afternoon, unless the board shall in their discretion adjourn the polls at 12 o'clock noon for one hour.  
By order of the township board,  
NAT P. LAWE,  
(10-11-14-18-21) Township Clerk.

**BAD FIRE AVERTED.**

A kerosene oil lamp exploded in the office of the Champion house, at Champion, between 12:30 and 1 o'clock Sunday morning, while all the guests were asleep. George McGuire, a traveling man for a Chicago Photograph company, was occupying room 17, on the second floor and the odor of smoke caused him to suspect something was wrong. He immediately put on his trousers and shoes and upon opening his door he was almost overcome by smoke. He did not give the alarm, but went direct to the proprietor, Mr. Snyder, and told him of the occurrence. When they entered the office the fire had just gotten a good start.

Mr. Snyder called his help, and they soon had the fire under control. Had the fire gotten a few minutes further headway, the whole lower part of the hostelry might have been burned. There were twenty-three guests at the hotel, besides Mr. Snyder and family.

**D'URBANO'S GREAT BAND.**

**ISHPEMING HIGHS DEFEAT MARQUETTE**

Organization Here Today Highly Praised in the Copper Country.

Signer D'Urbano's great Italian band, which will visit Ishpeming theater today, tomorrow and Wednesday, giving concerts each afternoon and evening, was much praised in the copper country, where it filled engagements the past two weeks at the Calumet and Keredge theaters, Miss Lillian Berry Reed, the soloist, is said to be an artist of ability. She sang with Sousa's band for three years, and she has also been with other great musical organizations. The Calumet Evening News of Friday said of the band and its talented director: "No musical organization that has ever visited this city has received so much praise and appreciative mention as the D'Urbano Italian band, now playing out-tune and evening concerts at the Keredge theater. The band is declared by competent musical critics to be the very best of its kind that has ever visited the copper country, and each evening sees a larger attendance. The programs are very varied and include selections from the best operatic works of the leading Italian composers, besides others from the compositions of French and German musicians. Signer Luigi D'Urbano, the talented director of the band, is only twenty-eight years of age but is already enjoying a world wide distinction as a composer and musician. He first conducted a band, numbering seventy-five instruments, when only nineteen years old, and while filling this position he was honored by the presentation of a medal from the king of Italy. The present band first played at Luna park, Conny island, a couple of years ago, and since then it has appeared at San Francisco, Seattle, Tacoma, Portland and spent the past summer in Chicago. Before coming to copperport the band played for eight nights in Duluth and opened a new theater at Superior with a week's engagement."

Football game at Union Park Saturday resulted in a score of fifteen to nothing.

Before a fairly large crowd the Ishpeming High school football team defeated the heavy aggregation from Marquette at the Union Park Saturday afternoon.

Twenty-five and twenty minute halves were played. Marquette won the toss and chose the east goal. Ishpeming kicked to Marquette's twenty-yard line. The first few minutes Marquette outplayed the home-city boys at every stage of the game and it looked as if the visitors would win. But the Ishpeming players braced and the ball was slowly advanced to Marquette's five-yard line, where Ishpeming was penalized five yards for off-side play. Eger was sent around the end for Ishpeming's first touchdown. Marquet failed to kick goal.

Marquette kicked to Ishpeming and the ball was rapidly advanced to Marquette's two yard line, where the defenders of the blue were held for downs. Marquette attempted to run the ball out, but Dundon obtained it on a fumble and scored Ishpeming's second touchdown. Marquet again failed in his attempt to kick goal. Time was called with the ball in the center of the field.

Ishpeming came back fresh in the second half and ran Marquette off their feet. Sivalo being sent over in a few minutes of play for a third touchdown. Hennickson failed in his attempt for goal.

The ball was kept in the middle of the field until time was called, with the score 15 to 0 in Ishpeming's favor. Erickson and Underwood, both of Negaunee, were the officials and gave a very good account of themselves.

The features of Marquette's playing were the line plunging and tackling of Hedgison and the work of Reinhardt and Sweet. The stars for Ishpeming were Nolan, quarter-back, and Eger and Sivalo, half-backs. Both the latter had many long runs to their credit.

Next Saturday Ishpeming will meet Negaunee and one of the fastest games of the season is expected. Those teams met two weeks ago last Saturday and played a tie game, 3 and 5.

8350 piano, red tag sale, \$278. Easy terms. Grinnell Bros., Anderson Block. (10-9-3f)

The great assortment of five and ten-cent goods in our new department will surprise you. Call and see them. (10-8-4d) F. BRAASTAD & CO.

**TO HAVE DOUBLE STORES.**

Johnson Bros., who have occupied the corner store room in the Dundon block for some four or five years past, have rented the adjoining room facing Main street, and will use both rooms, also the basements beneath them, in the future. The arches in the partition will be removed and the interior will be rearranged. The firm's floor space will be about doubled. Next spring a line of ladies' shoes, suits, coats, etc., will be added.

**DIED FOLLOWING OPERATION.**

Mrs. Smith, wife of E. B. Smith, manager of the Grand Union Tea company's Ishpeming store, died at 12 o'clock Saturday night, following a surgical operation performed Saturday morning. The deceased had been ailing for some weeks, but was not compelled to take to her bed until Tuesday last. She felt well following the operation, and it was thought that she would soon be out of danger, but she began to show signs of weakness in the evening and sank rapidly. Mr. and Mrs. Smith came to Ishpeming last spring from Bay City, where they were married a year ago last June. In spite of their brief residence in the city the deceased made many friends, who were shocked to hear of her untimely demise. The remains will be taken to Bay City, leaving this morning on the South Shore train, for interment. Funeral services were held yesterday afternoon at 4 o'clock at the house, conducted by Rev. M. M. Allen, pastor of the Presbyterian church.

### JURY WAS OUT FOR TWENTY-ONE HOURS

CRYSTAL FALLS MAN DEFENDED BY BERNARD BARASA ON THE CHARGE OF MURDER GETS SIX YEARS FOR MANSLAUGHTER.

Bernard Barasa, who defended Joseph Dascola, an Italian, accused of murdering a countryman, Pasquale Marozzo, in the circuit court of Iron county last week, and who spent Saturday and Sunday here, visiting relatives, was well pleased with the verdict of the jury, though he did not succeed in freeing his client. Dascola was convicted of manslaughter and was sentenced by Judge Stone to a term of not less than six nor more than fifteen years in the Marquette prison. The jury was out for twenty-one hours and at one time ten of them stood for acquittal.

The case is said to have been one of the most interesting that has ever been tried in the Iron county court. Mr. Barasa made a hard fight to have his client acquitted, on the ground that he killed Marozzo in self-defense. The murder took place at the Youngs mine, where Dascola and Marozzo had gone to settle a grudge case, started by the defendant. The men had boarded together and it appears from the evidence that Marozzo had been indebted to Dascola to the extent of \$10 and Dascola garnished his wages. When Marozzo called at the office to get his pay he was refused it. He became angry and returned to the boarding house, calling Dascola, who had worked the night before, out of bed. On their way to the office the quarrel, which resulted in the murder, started.

The defendant's attorneys proved that the murdered man had been in the habit of carrying concealed weapons and that he was in possession of a revolver, razor and knife at the time of the murder.

Dascola claimed that he had reached to his hip pocket for his revolver when he shot him. The defendant testified that Marozzo had ill feeling toward him and that he had known that Marozzo carried a revolver. He had this thought in mind when he left the boarding house with Marozzo, and he went prepared to defend himself in the event the latter assaulted him.

### DEATH OF HANS RASMUSSEN.

Hans Rasmussen, an old and well-known resident of Negaunee, died at an early hour Saturday morning. He had been confined to his bed for more than a month past, and his death was not unexpected, as his condition had been critical. Mr. Rasmussen received a severe shock at the time Edward Peltier was killed by the St. Paul train on the Pioneer crossing. The deceased was the flagman at the crossing, and he was so affected that he was obliged to quit work, though he recovered sufficiently to resume his place later. He was a native of Denmark, and came to this country about twenty-seven years ago, locating in Negaunee. He is survived by his widow and four daughters, Mrs. Peter Rasmussen, Mrs. N. Jensen and Mrs. R. Rasmussen of this city, and Mrs. H. Henningson of Marquette. The funeral will be held tomorrow afternoon.

A complete line of Fred Usinger's Milwaukee fancy smoked sausage and meat at Geo. Haupt's. (10-11-11)

### TO VISIT ENGLAND.

A. J. Bice, wife and youngest daughter, started Saturday evening for his native place in England, where they will spend three or four months. It is Mr. Bice's first visit to the old country since he came to America. During his absence his nephew, John Bice, will have charge of his business. The party expects to sail from New York on the steamer Adriatic next Wednesday. Mr. Bice's mother, who is seventy-nine years of age, is still living, but his father died some years ago. It will be Mrs. Bice's first visit to Europe.

### MINES OF COUNTY EMPLOY MORE MEN

ANNUAL REPORT OF INSPECTOR SHOWS 5,682 PERSONS ENGAGED IN GETTING OUT ORE.

### OUTLOOK IS VERY BRIGHT

Business Has Improved During Last Two Months With Excellent Prospect for Future—Twenty-Three Fatalities.

On Sept. 20 there were 5,682 men employed in and about the mining industry in this county, as compared with 5,362 a year ago, according to the annual report of Mine Inspector John T. Quine, which will be presented at the annual meeting of the county board of supervisors to be held today. There are now forty-one mines operating in the county, an increase of one during the year, the Prince of Wales at Negaunee having been added to the operating list. Two new quarries have been put into operation during the year, both near Harvey, the one operated by the Marquette Stone company and the other by the county road commission. Both are engaged in the manufacture of crushed rock for roadmaking purposes.

From the standpoint of fatal accidents, the mines have not been quite so fortunate as during the year ending Sept. 30, 1908. During that year there were sixteen mine fatalities, an average of 2.98 to every 1,000 men employed. During the year just closed there were twenty-three accidental deaths in the mines of the county, an average of four to every 1,000 men employed.

Two of these fatal accidents were caused by premature blast, one by falling of a skip, twelve by falls of ground, one by coming in contact with chute, one by a ladder breaking, one from falling down a raise, one from being struck by a motor car, two by dirt coming down the shaft, one by rock rolling over end of stope and one by dirt coming down a raise. One fatality occurred at the Cliff shaft, two at the Blue mine, one at the Stephenson, one at the Cambria, one at the Republic, two at the Lake shaft, three at Section 16, five at the Breitung Benetite No. 2, two at the Maas, one at the Amerian, two at the Barron, one at the Mero and one at the Negaunee mine. Of the men killed, four were English, eleven Finnish, one Swedish, one French, four Italian, one Belgian and one German.

Resume of Year's Work. At the close of his report Mine Inspector Quine gives the following account of what has been accomplished in the mining business in this county: "The first part of the year just closed was not very brisk in the iron industry, but it has improved considerably this past two months, until now it is very bright—almost as bright as at any time in its history. About six hundred more men are employed in the in-

dustry at the present time than there were in the early summer, and indications at present point to a very busy season next year. I am sorry to report more accidents this year than in the preceding one, but quite a number of them have occurred through carelessness of disobeying orders. A good deal of exploration is being done in various parts of the county by diamond drill. A new concrete shaft has been put down to the ledge, by the Foundation company of New York, at North Lake, for the Cleveland-Cliffs Iron company, and the company themselves are putting another shaft down. There is also a large amount of work being done there on surface. A wonderful piece of work was also accomplished during the year at the Negaunee mine of the Cleveland-Cliffs Iron company, when a raise 700 feet high was put through to surface without any serious accident occurring to the men who worked there. Work has also been resumed at the West Republic mine at Republic. All of the men in charge of the different properties in the county use every possible means to prevent accidents, as I know from coming in contact with these men every day that there is nothing they worry more about than to have an accident occur to one of their men. Any suggestion of mine relative to the prevention of accidents has been in all cases cheerfully complied with."

### TURKISH BATHS AND CHIROPODY

Frank Keough, 123 W. Ridge St., Marquette.

### ANNUAL MEETING TODAY.

Supervisors to Pass Upon Budgets and Apportion the Taxes.

The annual meeting of the county board of supervisors will be held today, beginning at 9 o'clock. At this meeting the state and county taxes for the ensuing year will be apportioned and equalized. All of the townships, cities and county boards have already filed budgets, estimating the amounts of money that will be needed for public purposes next year, and the amount levied by the state against this county was made known several weeks ago. The first duty of the supervisors will be to pass upon the budgets submitted, and then the total taxes to be raised will be apportioned among the cities and townships.

The state tax this year will be considerably higher than a year ago, in this county 230,000 higher, making the total amount levied by the state about \$104,000. The county taxes will probably be about the same as last year, and it is probable that the total valuation of taxable property in the county will not be materially changed by the supervisors.

There is no indication that anything has been accomplished by the Commercial club committee, appointed some months ago to endeavor to secure a lower valuation for the city of Marquette, and it is likely that Marquette will another year pay about one-fourth of the taxes of the county, as it has in the past.

### KIMBERLY-WILFLEY MEETING.

There will be a meeting of the stockholders of the Kimberly-Wilfley company in the city hall at 8 o'clock this evening. Matters of importance to every stockholder will be considered. All stockholders are requested to attend.

The demand for Vandenberg's Dairy products increases every day. It pays to be up-to-date. (10-11-10)

### BEAUTIFUL DECORATIONS.

Knights of Columbus Ball Tuesday Night to Be Brilliant Affair.

The Columbus Day ball, to be given by Marquette council, Knights of Columbus, at Fraternity Hall Tuesday night, promises to be an exceptionally brilliant and enjoyable social function. One of the features will be the decorations, which are unique and strikingly beautiful. The color scheme is red, white and blue and the whole is done in Paris ribbon and ornamental crepe paper. The entire ceiling has been covered with narrow ribbons, suspended in four places and hanging loosely between. In the ceiling alone 6,000 yards of crepe has been used. Bands of ornamental crepe in stars and stripes design have been placed about the side walls. At the ends of the hall, the ribbons from the ceiling extend between the windows to the floor. The orchestra balcony is beautifully decorated with ornamental crepe. On the wall opposite the orchestra balcony is a handsome electric piece, "K. of C." Illumination will be furnished by twenty-five electric lighted Japanese lanterns, which hang below the ribbon crepe covering the ceiling. The music for the ball will be furnished by Trombly's complete orchestra. Tickets are 81 per couple with supper at the Hotel Briton, fifty cents per plate, extra. The menu for the supper includes oysters, roast chicken, ice cream and all the accessories that go to make a first class dinner.

The Store of Quality. SEND FOR STYLE BOOK.

### THEATRICAL.

#### "The Girl from U. S. A."

The next attraction at the opera house will be "The Girl from U. S. A." which will be presented Wednesday night. This show, which comes well recommended by the press of other cities, is of a unique type, being a combination of musical comedy and drama. In this play, the theatergoer is treated to a story of intrigue and crime, and of love and revenge, on the one hand, and on the other there is said to be plenty of racy comedy and soul stirring music. The scenic features include a Parisian salon, a Turkish scraggio and an Oriental palace. One of the best features in the piece is said to be the chorus and music, much of which is of the patriotic order.

### DANCE TONIGHT.
