

Peary's Evidence Is Made Public

That Cook Did Not Get Within 570 Miles of the Pole Is the Naval Officer's Contention.

HIS CLAIM SUPPORTED BY ESKIMO TESTIMONY

Asked About Their Journey, He Says, the Native Companions of the Doctor Gave a Detailed Account of Their Wanderings--They Laughed at the Brooklyn Man's Story of Being "a Long Way North," He Asserts, and by Means of Maps Indicated That the Party Did Not Penetrate Nearer the Boreal Center Than 81.5 Degrees.

New York, Oct. 12.—The following statement of Commander Robert E. Peary, which he submitted, together with an accompanying map, to the Peary Arctic club in support of his contention that Dr. Cook did not reach the North pole, is now made public for the first time. The statement and map have been copyrighted by the Peary Arctic club.

[Entered according to act of congress, in the year 1909, by the Peary Arctic club, in the office of the librarian of congress, at Washington, D. C.]

Introduction By Peary.

Some of my reasons for saying that Dr. Cook did not go to the North pole will be understood by those who read the following statements of the two Eskimo boys who went with him, and who told me and others of my party where he did go. Several Eskimos who started with Dr. Cook from Anorotok in February, 1908, were at Etah when I arrived there in August, 1908. They told me that Dr. Cook had with him, after they left, two Eskimo boys or young men, two sledges and some twenty dogs. The boys were I-took-a-shoo and Ah-pe-lah. I had known them from their childhood. One was about eighteen and the other about nineteen years of age.

On my return from Cape Sheridan and at the very first settlement I touched (Serke, near Cape Charles, in August, 1909, and nine days before reaching Etah, the Eskimos told me, in a general way, where Dr. Cook had been; that he had wintered in Jones sound and that he had told the white man at Etah that he had been a long way north, but that he had not reached the pole. I-took-a-shoo and Ah-pe-lah, said that this was not so. The Eskimos laughed at Dr. Cook's story. On reaching Etah, I talked with the Eskimos there and with the two boys and asked them to describe Dr. Cook's journey to members of my party and myself. This they did in the manner stated below.

(Signed.) R. E. PEARY.

Signed Statement of Peary, Bartlett, McMillan, Borup and Henson, in regard to Testimony of Cook's Two Eskimo Boys.

The two Eskimo boys, I-took-a-shoo and Ah-pe-lah, who accompanied Dr. Cook when he was away from Anorotok in 1908 and 1909, were questioned separately and independently, and were corroborated by Panikpah, the father of one of them (I-took-a-shoo), who was personally familiar with the truth. In the last third of their journey, and who said that the route for the remaining third, as shown by them, was as described to him by his son after his return with Dr. Cook.

Notes of their statements were taken by several of us, and no one of us has any doubt that they told the truth. Their testimony was unshaken by cross-examination, was corroborated by other men in the tribe, and was elicited neither by threats nor promises, the two boys and their father, talking of their journey and the experiences in the same way that they would talk of any hunting trip.

To go more into details: One of the boys was called in, and with a chart on the table before him, was asked to show where he had gone with Dr. Cook. This he did, pointing out with his finger on the map, but not making any marks upon it.

As he went out, the other boy came in and was asked to show where he had gone with Dr. Cook. This he did, also without making any marks, and indicated the same route and the same details as did the first boy.

When he was through, Panikpah, the father of I-took-a-shoo, a very intelligent man, who was in the party of Eskimos that came back from Dr. Cook from the northern end of Nansen's strait, who is familiar as a hunter with the Jones sound region, and who has been in Commander Peary's various expeditions for some fifteen years, came in and indicated the same localities and details as the two boys.

Boys Trace Map of the Route. Then the first boy was brought in again, and with a pencil he traced on this map their route, members of our party writing upon the chart where, according to the boy's statement, they had killed deer, bear, some of their dogs, seal, walrus and musk-oxen. The second boy was then called in and the two went over the chart together, the second boy suggesting some changes as noted hereafter.

SECRETARY KNOX DEPOSES CRANE

Demanding the Resignation of the Minister Designated to China, the Premier Writes a New Chapter in American Diplomacy.

Moreover, Breaking Through All Traditions, the Chicago Man, Denying the Alleged Indiscreet Disclosures and Placing the Onus Upon President Taft, Issues a Statement Which It Is Believed Will Prove Very Embarrassing to the Administration

Washington, Oct. 12.—Charles R. Crane, of Chicago, minister designated to China, was practically deposed today by a demand from Secretary Knox for his resignation. Thus a new chapter in American diplomacy is written.

A minister chosen with special regard for his qualifications was disclosed because of alleged indiscreet disclosures through the press. Moreover, this minister, breaking through all traditions, defends himself by the issuance of a statement which is embarrassing to the administration.

Washington, Oct. 12.—Charles R. Crane, of Chicago, minister designated to China, was practically deposed today by a demand from Secretary Knox for his resignation. Thus a new chapter in American diplomacy is written.

As Viewed at Tokio. Tokio, Oct. 12.—Officials here said today that Minister Crane actually disclosed the attitude of his government, his recall is inevitable. However, they declined to believe that Washington intends to protect the Chinese-Japanese agreement.

Peking, Oct. 12.—Minister Crane's alleged utterances through the press, which are widely commented upon in the Japanese press in China and elsewhere and has caused some (innuendo) and covert ridicule.

President Refuses to Talk. Riverside, Cal., Oct. 12.—President Taft sent a long cipher message to Washington yesterday, and again today. It was declared that any information on the position of Minister Crane must come from the State department, where the matter had been handled.

GOVERNMENT LOSES IN PANAMA LIBEL CASE.

Judge Anderson Dismisses Proceedings Against Indianapolis Newspaper Owners—He Doubts Crime Was Committed, and He Disputes Authority to Remove the Defendants to Washington.

Indianapolis, Oct. 12.—Federal Judge Anderson today dismissed the proceedings against Delavan Smith and Chas. E. Williams, proprietors of the Indianapolis News, who were resisting removal to Washington for trial on charges of criminal libel in publishing articles alleging that there was a corrupt profit of millions of dollars in the sale of the Panama canal to the United States.

"That man has read the history of our institutions to little purpose," said Judge Anderson, in conclusion, "who does not view with apprehension a proceeding which permits citizens to be dragged from their homes to the seat of government for trial under the circumstances of the case. The defendants are discharged. I am of the opinion," said Judge Anderson, "that the fact that certain persons are called 'thieves' and 'swindlers' does not constitute a libel per se. As a former president has said, it is the duty of the newspaper to print the news and tell the truth about it. It is the duty of the newspaper to draw inferences from the people."

Canal Transaction Suspicious. The court reviewed what he called "many peculiar circumstances about the whole Panama canal business," and added: "A number of people thought there was something not just exactly right about that transaction, and I say for myself that I feel a natural curiosity to know what the real truth was. The committee of the senate appointed to investigate asked Wm. Nelson Cromwell certain questions, but he stood upon his privilege as an attorney and refused to answer. Mr. Cromwell stood upon his privilege whenever questions were asked, the answers to which might reflect upon him or his assistants, but whenever a question was asked giving him opportunity to say something in their behalf, he answered. To my mind, that is just ground for suspicion."

"Did these defendants, in publishing the matter complained of, act honestly in the discharge of this duty which I have spoken of, or were they actuated by a desire to injure the persons affected? If it were necessary to decide this case upon the question of privilege or lack of malice, I would hesitate quite a while before concluding that it was my duty to send these people to Washington for trial. But the indictment charges them with the commission of a crime in the District of Columbia. The Constitution of the United States provides that the accused be tried in the state or district where the offense was committed."

If Any Crime, It Was at Home. "When these defendants put papers of libellous nature into the postoffice at Indianapolis, either it became a separate and independent crime in every district and state into which the papers went, or there was but one crime, and that here. I think that, between these two views, the latter is the more reasonable and correct one. Where people print a newspaper here for circulation throughout various counties and districts, there is but one publication, and that one is here. If they be true, there was no publication in Washington.

"If the history of liberty means anything to the people, it should be that government should have the power to select a tribunal at the capital, nor should the government have the power to drag citizens there for trial."

Lacked Specific Instructions. "The difficulty was increased by the absence of specific instructions from the state department and of any adequate discussion with its officials as to the policy of this government. With the approval of the president, I had arranged to go to China via Europe, and have conferences with well-informed persons of widely divergent interests and points of view, and I had made many valuable appointments. Secretary Knox suggested that it would be better for me to proceed by the Pacific. My understanding was that this should be discussed with the president, but the secretary said it was unnecessary to see the president.

"It was told that letters would be given to me and arrangements made for

seeing important persons in Japan. I have not since seen Mr. Knox, except last Sunday, nor have I had any adequate discussion with the department as to its policy. Before my departure, I came to Washington, and with difficulty made a number of appointments with the first assistant secretary of state, none of which he kept. Even my official credentials were not ready when I left Washington.

His "Disclosures" to the Press. "That is the sum of my offending. It is my judgment that my action was at least in accordance with spirit of the president's wishes, and furnished no sufficient excuse for the sensational and indiscreet action of the secretary of state. However, I did not seek this post, and I am absolutely unwilling to remain in it without the entire confidence of the president and the cordial support of the government."

Secretary Knox declined to discuss Mr. Crane's statement. Assistant Secretary Wilson, who is recovering from a surgical operation, was of course unacquainted with the developments, including Mr. Crane's references to his failures to keep appointments.

Washington, Oct. 12.—Charles R. Crane, of Chicago, minister designated to China, was practically deposed today by a demand from Secretary Knox for his resignation. Thus a new chapter in American diplomacy is written.

A minister chosen with special regard for his qualifications was disclosed because of alleged indiscreet disclosures through the press. Moreover, this minister, breaking through all traditions, defends himself by the issuance of a statement which is embarrassing to the administration.

DETROIT "TIGERS" Even Up the Count

American League Champions Take Fourth Game of the Series by a Score of 5 to 0.

SMOKY CITY MEN PLAY IN POOR FORM

Weather Is Cold, Yet 17,036 Persons Brave the Freezing Blasts, and, as the Home Team Wins, They Feel Well Repaid--Pirates Are Outclassed in Every Department, and With Mullin in Fine Fettle They Slump Badly in Their Batting--Ten Times the Visitors Fan the Air, Thrice in a Single Inning, and They Get Only Four Hits.

Detroit, Oct. 12.—Detroit defeated Pittsburg, 5 to 0, today and evened up the count in the world's championship series, each team now having two victories. The temperature was at 34 degrees, but 17,036 persons braved the freezing blasts and the Detroiters comprising the great majority of the spectators felt well repaid.

The American league champions outclassed their rivals in every department of the game, and the pitching of George Mullin was one of the brightest features in the baseball history of Detroit. There was never a moment when Mullin was not the absolute master, and he was at his best with men on bases. Four hits represented the ability of the visitors, and no two of these were made in the same inning.

Mullin performed a feat in the third inning that will live long in the annals of baseball. In that inning he struck out the mighty Wagner, with two out and men on second and third. That was a mighty feat, but just previously he had struck out Manager Clarke, a hard hitter, with men on first and second. A double steal on Clarke's third strike moved the men to second and third, where they were when Wagner came to bat. Leifield was also a victim on strikes in this inning, giving Mullin three strike-outs in one session. All told, he struck out the visitors ten times.

Detroit Wins With The Stick. Detroit won because it was able to hit when hits spelled runs. Stange, Jennings' young catcher, distinguished himself in the second inning by sending Detroit's first two runs in. Mullin drew a drive just out of Miller's reach. In the fourth inning, Bush's ringing double into the overflow of the crowd in left field scored another run, and it was immediately followed by another two-bagger into the same place by Cobb.

Onthoughts by Detroit in the second and fourth innings drove Leifield, the Pittsburg star left-hander, from the slab. He was succeeded by the veteran Philippi, who was able to stem the Detroit tide, although they pressed him hard in the eighth inning. Eight hits were made by Detroit, and six of those came in the two innings when scores were made. Only two were wasted.

Outside of Mullin, there were no stars on the Detroit team, but their ensemble work was brilliant. Every man did the right thing at the right time. Only one holding slip marred the otherwise perfect performance. The cold apparently affected the Pittsburg fielding far more than it did Detroit, as the National league champions put up a miserable exhibition in that department. Six errors were charged to the infield, Abstein, Miller and Philippi each getting two. The errors detract little credit from Detroit's performance, however, as only one of them figured in the scoring.

The conclusive victory of Detroit has topped Pittsburg from its position as the favorite in the betting. Even money is now offered. The teams left tonight for Pittsburg, where the fifth game will be played tomorrow. The sixth game is scheduled here Thursday.

Story of the Game. After Pittsburg was retired in one, two, three order in the first session, Mullin to Tom Jones, retiring the side. Pittsburg's best opportunity to score came in the third inning, but Mullin stopped them. Leifield started by striking out, but Byrne hit a two-bagger into the left field overflow and Leach drew a base on balls. Clarke struck out, but a double steal moved the runners to third and second, the decision of Umpire Evans at third base receiving much unfavorable comment. Then came the striking out of Wagner and the end of Pittsburg's chances. The downfall of Pittsburg was retarded in order in the hands of the master pitching of Mullin during the remainder of the chilly battle.

In the fourth, Wilson singled to left, after two were out, but Gibson was easy. Pittsburg was retired in order in the fifth and sixth. In the seventh, Gibson hit safely to right when two were out, but Philippi struck out. Pittsburg was again retired in order in the eighth, but in the ninth Miller beat out a punt between Moriarty and Mullin. Abstein and Wilson, however, could not advance him.

Wagner Helpless Before Mullin. Hans Wagner failed to star today. At the bat, he was helpless before Mullin. The first time up he drew a base on balls, but was forced out at third. In the third inning saw his memorable strike-out, and in the sixth he sent a hot liner to Tom Jones. In the field he had two put-outs and four assists, but most of them were easy. His best

play came in the fourth inning, when he fumbled a grounder by Stange for a fraction of a second, recovered it quickly and touched second, forcing Tom Jones, and then threw to first in time to double up Stange. If he had fumbled the grounder for an appreciable time longer, Detroit might have had many more runs, as three runs came after the double play.

Cobb made one hit—a two-bagger—and reached first once when he was hit by Leifield. The other two times the Georgia star tried to beat out bunts in front of the plate, but Gibson threw him out both times. In the field, he had only one chance, and accepted that gracefully.

So thoroughly did Mullin do his work that only six balls were hit to the outfield. Three of these were safe hits, and the other three were divided, two flies going to Crawford and one to Cobb.

First Detroit Run Scored in the Second. Detroit broke Leifield's defense in the first inning, when Cobb was hit by a pitched ball, after two were out. Cobb went to second when Abstein dropped Leifield's throw that caught the Detroit star off first. Crawford started the inning with a fly to Leach.

The second inning ended with Deleahanty being hit by a pitched ball, Moriarty sent him to third with a single to left, on a hit-and-run signal. Tom Jones grounded to Leifield. Deleahanty was run down attempting third and home by Gibson. Moriarty taking third and Tom Jones second on the play, Stange then singled past Miller, and Moriarty and Tom Jones scored. Mullin forced Stange, Wagner to Miller, and went on to second when Miller threw into the crowd in left field to complete a double play. The inning ended with D. Jones' easy grounder to Leifield.

The fourth session netted the winners three more runs. Tom Jones beat out a punt along the third base line as a starter, but was doubled up with Stange, Wagner to Abstein. Mullin drew a pass and went to third on a hit to third. Mullin scored, and D. Jones went to third when Bush hit into the left field overflow for a two-bagger. Cobb dashed another double into the same place, sending D. Jones and Bush across the plate. Crawford ended the inning, Leifield to Abstein.

Summary of the Play. A summary of the game follows: Detroit—R. H. P. O. A. E. D. Jones, 1 1 0 0 0 0 Bush, 5 1 1 0 1 0 Cobb, 4 0 1 1 0 0 Crawford, 2 0 1 2 0 0 Deleahanty, 2b 0 0 1 3 1 Moriarty, 3b 0 1 2 1 3 0 T. Jones, 1b 0 1 13 0 0 Stange, c 0 0 1 9 1 0 Mullin, p 0 0 4 0 4 0

WISCONSIN BANK WRECKED.

Shortage at Mineral Point May Reach Four Hundred Thousand Dollars.

IT'S SAME OLD STORY, SAYS BROOKLYN MAN.

He Has Already Replied a Dozen Times to the Points Raised by Peary, Comments Dr. Cook—He Will Not Enter Into an Argument, but Will Send for the Eskimos.

Cleveland, O., Oct. 12.—"It is the same old story," said Dr. Cook, when shown Peary's statement, with the map accompanying it, which he will be replying to the points raised a dozen times. The map itself indicates that the Eskimos respected their promise made to me. The Eskimos were instructed not to tell Peary, or any of his party, of our trip over the polar sea. They were told to say they had been far north. They kept their word.

"Harry Whitney has said that, during the cross-examination conducted by Peary and the others, the Eskimos did not understand the questions or the map. Their replies were twisted to suit a perverted interest. I am not going to enter into an argument, but will bring the Eskimos to New York at my expense and they will prove, as did Whitney, all I have claimed."

A confident smile flickered over Dr. Cook's face when shown the accusations. He said: "I am not going to be bothered by the charges. With thousands carrying torches or waving innumerable American flags, the scene was extremely picturesque. The parade was headed by Mr. Gompers and moved to Fifteenth and G street, where Mr. Gompers ascended the balcony of a hotel and reviewed the march."

Although the Central labor union voted in favor of the district militia company marching, there was some opposition, on account of the allegation that the militia is used only "to shoot down strikers and union men." Today a protest was lodged with Secretary Morrison. He communicated with Mr. Gompers at Baltimore, and the latter directed that the guardsmen should not parade. The militia therefore did not march.

After being received with great acclaim at Convention Hall, Mr. Gompers departed on an auto at 10 o'clock, at an attempt to curtail his right to free speech or the freedom of the press.

DUPED MANY PATIENTS. Fraud Order Is Issued Against Two Notorious "Healers."

Washington, Oct. 12.—The postoffice department, upon allegations in the report of its inspectors, has issued a "fraud order" against John F. Braun and Kate A. Braun, conducting the "Braun Institute" at Menomongue, and the "Braun Health Institute" at Bloomington, Ill., and the "Mo-ho Herb Remedy company" of Bloomington, Ill., and Indianapolis and Greenfield, Ind. Persons suffering any conceivable disease were advised by circulars sent through the mails that they would certainly be cured by the Brauns, through the use of mentipathy and telepathy. The Brauns' charge was five dollars per daily treatment. The reports of the various institutes conducted by the Brauns were discovered in the inspector to be large, as much as \$100 a day being received in money orders at Bloomington alone. The inspectors report alleges that Braun was indicted by a Illinois grand jury for fraud in the conduct of his business, and that he is now a fugitive.

Mountain Climb Now Being Investigated. New York, Oct. 12.—An investigation of Dr. Cook's assertion that he climbed Mount McKinley was started tonight by a special committee appointed by the Explorers' club.

Twenty Thousand Men and Women Parade at Washington. Washington, Oct. 12.—Organized labor, representing many parts of this country and Canada, paid a tribute tonight to President Gompers on his arrival home after several months in Europe. It was probably the most enthusiastic demonstration ever accorded an American labor leader. There was a monster parade and a mass meeting in Convention Hall. The estimated number of men and women marchers is placed at 20,000. Pennsylvania avenue was thronged with enthusiastic spectators observing the procession. With thousands carrying torches or waving innumerable American flags, the scene was extremely picturesque. The parade was headed by Mr. Gompers and moved to Fifteenth and G street, where Mr. Gompers ascended the balcony of a hotel and reviewed the march.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

With state and county taxes several notches higher, it will cost somewhat more than ever before to get possession of the tax receipts this year.

A Springfield, Ill., dispatch says that the senate will be the principal obstacle in the way of passing a new direct nominations law.

It is now reported that Ruth Bryan Leavitt won't run for congress in the Denver district, after all.

There's no more attentive student of all the ins and outs of state politics than Representative Townsend.

Mr. Hill's condition is the latest thing laid up against the Warner administration by the "antis."

Justice Gaynor charges Hearst with bad faith in becoming a candidate for mayor, after he had promised support for his candidacy.

There will be, we believe, a disposition to accept the Peary statement as, in the main, a true recital of what the Eskimo witnesses related to Peary and his companions.

The opinion of Mr. Hering, the municipal water supply engineer who, on Monday, inspected the conditions existing here, coincides with other expert opinions as to the best course that Marquette can pursue to obtain water that will be at the one time pleasant to the taste and free of the suspicion of harboring disease germs.

It will be noted with interest that Mr. Hering believes that if the intake is extended an additional length of 3,000 feet it will be a matter of indifference whether the sewerage mains in the North Marquette district discharge into the lake above or below the present pumping plant.

5% DEBENTURES

Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures.

Superior Trust Company

HANCOCK, MICH. Capital and Surplus \$200,000.00 DIRECTORS: Jas. Chynoweth, Norman W. Hair, G. R. Campbell, L. H. Richardson, Jno. D. Cassidy, H. L. Bauer, Leasing Karger, Joseph Bosch, Chas. L. Lawton, Chas. Briggs, S. L. Lawton, James Merces, C. A. Wright, Allen F. Rees, Jacob Raer, Ten. Kuppe, Ferd. Wieber, Thos. Whittle.

be little, if any, trace of the so-called crescent flavor in the water at the depth that would be obtained by extending the intake 3,000 feet coincides with the result of an investigation made by Professor William McCracken, formerly in charge of the chemistry department at the Northern Normal.

The sum and substance of Mr. Hering's opinion appears to be that the board is on the right track in planning for intake extension, and that it can do nothing wiser than to add 3,000 feet to the length of the present intake as soon as the financial and other necessary arrangements can be made.

PEARY VS. COOK

The most interesting chapter in the controversy that has been waging over the question, "did Dr. Cook reach the pole?" is given to the public this morning in the publication of the brief in which Commandant Peary and members of his party join in an attempt to show that the answer should be in the negative.

As has been anticipated, the basis of the doubt which Commandant Peary seeks to throw on Dr. Cook's reported achievement is the story he asserts was related by I-took-a-shoo and Ap-pe-lah, the Eskimos who accompanied Dr. Cook on the expedition which the latter asserts culminated in his successful dash to the pole.

The Peary narrative is accompanied by a map showing the route of this alleged journey, as it was traced by the Eskimos, and this map illustrates graphically how far short, according to Peary's recital, Dr. Cook's achievement fell from what he has reported it was.

The Peary statement emphasizes the point that the Eskimo witnesses talked under no compulsion, and that the usual devices for proving their testimony—such as cross-examining them and having them indicate the course of their trip on the map when they were apart from one another—were employed.

There will be, we believe, a disposition to accept the Peary statement as, in the main, a true recital of what the Eskimo witnesses related to Peary and his companions.

It is expected that some of the speakers, also several of the teachers, will arrive in the city this evening and delegations will arrive on every train tomorrow morning.

We have heard much about the data that Peary and Cook are to present to the historical bodies. But obviously the data that will be of the greatest interest and importance are those two human documents, I-took-a-shoo and Ap-pe-lah. They should be brought to civilization and subjected to examination by disinterested authorities on polar research.

A BETTER CHICAGO.

The smoke isn't the only thing that is to be cleaned up in Chicago. Chief of Police Stewart and State's Attorney Wayman are joining forces in a crusade for a better city that promises to have the most far-reaching results of any similar movement since Chicago attained the dignity of metropolis.

Men are to be absolutely forbidden to run resorts, or to be attached to them as hangers on. Evasions of this regulation will bring prompt arrests.

It is expected that some of the speakers, also several of the teachers, will arrive in the city this evening and delegations will arrive on every train tomorrow morning.

There is much room for the good work entered on by State's Attorney Wayman and Chief Stewart. They can lay themselves out to the utmost of their energies, and there will still be no likelihood that they will go too far.

NOT VALUABLE IN DISEASES.

Washington, Oct. 12.—That alcohol, in any form, is but seldom of distinct value in the treatment of disease, appeared to be the opinion of the international congress on alcoholism, held in London, according to a report of its proceedings made public by the public health and marine hospital service.

A ferry bridge with a span of 1,200 feet is to be built at Bordeaux, France.

For Dyspepsia

You Risk Nothing by Trying This Remedy

We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets.

THE CHINAMAN'S QUERY.

On a journey through the South not long ago Wu Ting Fang was impressed by the preponderance of negro labor in one of the cities he visited.

ISHPEMING

ISHPEMING PEOPLE TO ENTERTAIN TEACHERS

ABOUT 190 HOMES WILL BE OPENED TO UPPER PENINSULA PEOPLE ATTENDING THE INSTITUTE MEETINGS HERE THIS WEEK.

Nearly 200 families are to open their homes for the teachers who will attend the sessions of the upper peninsula association to be held here tomorrow, Friday and Saturday.

The late Emanuel Grund, whose funeral will be held tomorrow afternoon at 2:30 o'clock from the Swedish Lutheran church, held membership in the American Yeomen, as well as the Scandinavian society.

The Ishpeping baseball fans, who are interested in the world's championship series, being played between the Pittsburgh and Detroit teams, were pleased with Detroit's victory yesterday.

A great big piece for 16 cents at Braastad's 10c store. (10-12-11)

Braastad's Millinery opening, Saturday, Oct. 16. (10-12-11)

Braastad cuts all prices—all the time. (10-12-11)

ISHPEMING IN BRIEF.

The first snow flurries of the season occurred here yesterday.

Mrs. Thomas Craime and her three sons, who visited here the past month with her aunt, Miss Ellen Cummings, of West Division street, departed for their home in St. Paul Monday night.

W. Thielert, who has been in the employ of F. Braastad & Co., in the grocery department for a number of years past, has taken the Ishpeping management of the Jewel Tea company.

The ladies of Calvary Baptist church will conduct a pantry sale Friday afternoon between 2 and 5 o'clock at Gateley's store.

Miss Florence Milford left Monday for Saginaw, where she will attend the sessions of grand lodge of the Eastern Star. Before returning she will visit at Cassopolis, Mich., also with her sister, Mrs. L. L. Newton, in Chicago.

The late Emanuel Grund, whose funeral will be held tomorrow afternoon at 2:30 o'clock from the Swedish Lutheran church, held membership in the American Yeomen, as well as the Scandinavian society.

The Ishpeping baseball fans, who are interested in the world's championship series, being played between the Pittsburgh and Detroit teams, were pleased with Detroit's victory yesterday.

FROM MORGAN'S CURB LETTER.

There was no trading in New York, it being a holiday in that state. Such of the New York stocks as are traded in on the Boston exchange were firm and a trifle higher.

A few of the regular Boston coppers were higher, including Butte Coalition, East Butte, Greene Cananea and Superior & Pittsburg, Arizona Commercial and Centennial were weaker, and the others practically unchanged.

The curbs stocks are still neglected, with the exception of the dividend-paying Utah issues. Prices generally show a weaker tendency and practically no stocks are offered.

Yesterday's closing prices follow:

Table with columns: Bid, Asked, American Saginaw, Arizona & Michigan, Black Mountain, Butte & Superior, Butte & London, Chemung, Cumberland Ely, Cordova (82 paid), Calumet & Corbin, Cactus, Chief Cons., Corbin Copper, Denn Arizona, First National Cop., Inspiration, Lake Sup. & Ariz., Live Oak, Ohio Copper, Ray Cons., Ray Central, Raven, Sierra, San Antonio, Savannah, Shattuck, St. Mary's, Superior & Pittsburg, Superior & Globe, Tuolumne, Vanadium, Warren, Wolverine & Ariz., Yuma, Begole, Columbus Cons., Florence Mining, Goldfield Cons., Tri Bullion, Tompash Mining, Yukon, Crown Reserve, La Rose, McKinley Dar, Silver Leaf.

Whether you buy or not, do not fail to see the big display Saturday, Oct. 16th, at Braastad's. (10-12-11) F. BRAASTAD & CO.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by The People's Drug Store.

DETAILS OF BOY SUICIDE.

Name of Swedetown Victim Was Rene Luokonen, Net Linman.

The name of the boy who committed suicide near Swedetown, Quincy hill, Sunday afternoon, is now known to be Rene Luokonen, net linman as first reported. The tragedy, it appears, was one of the strangest and most pitiable cases in the history of the district. The boy left home with Clinton Laferriere for the woods. Both had rifles. When near Swedetown creek the Luokonen boy suggested that each one should shoot himself, but the Laferriere boy refused, and the dead had followed his own suggestion. The story of the affair told by the Laferriere boy is as follows:

"We spent some time shooting at targets near buildings at Swedetown creek. We were on the side of the hill when Rene said, 'You shoot yourself and I'll shoot myself,' but I said no. Then he took his rifle and, lying down on the side of the hill, fixed it so that the muzzle was just over his heart. Then he reached up and pulled the trigger. He yelled, 'Oh, I'm shot!' He groaned a few times, and then was still. I ran home as fast as I could and told his folks what had happened. Then people came and took the body away."

The inquest was conducted by Justice Oliver. The witnesses heard were the father of the dead lad, Chief of Police Tiber, Under Sheriff Sheridan and Clinton Laferriere. The rifles of both boys were exhibited and it was shown that it would be an easy thing for the boy to shoot himself while lying down. The shirts worn by him were exhibited and showed that they were binned with powder and that the gun had been discharged against his breast. Questioning did not change the story of the Laferriere boy and the jury rendered a verdict that Rene Luokonen came to his death by his own hands.

The 22-barrel rifle has come to be a menace to the peace and bodily security of the people of Houghton county, and Sheriff Byers is going to stop the indiscriminate use of the dangerous toy, if he can. The death of the boy at Swedetown does not come under the causes leading up to the ban, as this boy was apparently hunting and was not enough to use a rifle. But younger children seem to have possession of these rifles, and especially in East Houghton are they dangerously active. Houghton came near contributing an accident last Sunday afternoon, a small rifle shot having penetrated a barn and almost struck the owner's head. The sheriff says that if he can he will make it interesting for parents who permit small boys to use rifles.

MANY MEN KILLED.

Fatalities in the Mines Greater Than in Any Previous Year.

The report made to the board of supervisors by Mine Inspector Dave shows that the fatalities the past year were greater in number than in any previous year in the history of the county's mine inspection department. The record since the office was established is as follows:

Year.	Men Employed.	Casualties.
1887	1,231	21
1888	6,310	24
1889	6,480	21
1890	7,210	26
1891	7,702	28
1892	7,640	21
1893	7,591	25
1894	7,223	22
1895	7,249	19
1896	8,170	44
1897	8,726	26
1898	10,467	23
1899	13,057	27
1900	13,571	33
1901	14,408	30
1902	14,130	44
1903	13,629	33
1904	14,321	45
1905	15,355	58
1906	16,506	44
1907	17,579	49
1908	17,224	58
1909	17,874	63

Nov. 29, 1888, eight men suffocated in the Calumet mine; 1893, ten men were killed by overhead in Red Jacket shaft; Sept. 7, 1895, thirty men suffocated in Osceola mine; Dec. 18, 1904, three men suffocated at the Laferriere; Jan. 11, 1906, three men suffocated at the Tamarrack.

BUILDING A TARVIA PAVEMENT.

An Interesting Work in Progress in a Suburb of Houghton.

The work of giving the macadam pavement a surface of tarvia is an interesting work in progress at the Lakeside addition, east of Houghton. The operation is a very simple one, considering the results attained. A tarvia pavement is first laid up with successive courses of broken stone, just like the other tarried macadam pavement. The last course of fine crushed stone is laid above a sand cushion and heavily rolled.

Then the hot tarvia is poured on with big spent cans. The tarvia is coal tar or a combination of that material with other similar substances. When it is poured on hot it searches out all the imperfections in the rock surface and the entire upper course of the fine rock is impregnated with the material, which begins to set almost immediately so that one could walk over it in a few minutes without having any of it adhere to shoes or clothing. Above this tarvia is sprinkled a layer of sand to take up the excess tarvia and provide better traction than the tar would offer.

It requires two gallons of the hot tarvia to cover a square yard of the rock, and something like 25,000 gallons will be used in surfacing the main and side streets of the addition. J. J. Michels, of the contracting firm, has invented two transportation wagons for carrying the tarvia. The material is delivered in tank cars and heated therein with a steam coil. Mr. Michels has constructed two boiler-like wagons, each carrying a small boiler in which the tarvia is kept hot while being taken from the tank to the street. The new Lakeview roadway will make a continuous boulevard from the end of Sheldon street to the Isle Royale mill, including College avenue.

HANCOCK INDOOR BASEBALL.

The Fraternal Indoor baseball league of Hancock will be on the wooden diamond this year again. At a meeting held in the Elks' club room, a captain and a manager were elected for the Elks team. Mart Haas succeeds Ira Wright as manager and H. S. Montgomery has been made captain to succeed Mr. Haas. The line-up will be given a shake-up, and new material will be added to make

WORST STORM OF SEASON.

Copper Country's First Snow, High Winds and Low Mercury.

The worst storm of the present season of navigation set in Monday night and continued all day yesterday, the wind reaching a velocity of sixty miles an hour, being accompanied by a low temperature and a dreary rain. Following so closely on the balmy weather of last week, the change was a severe one, and copper country people have come to the conclusion that winter is upon them. The temperature at noon yesterday was 36, and it remained at about that point all day. Compare this with 80 last week, and the extent of the change may be appreciated.

The first snow of the season was a little late in making its appearance, none being observed until about yesterday noon. It came almost two weeks earlier last year, the weather bureau records showing that it occurred Sept. 29.

The telephone lines suffered somewhat during the storm of Monday night, but there were no serious injuries to the system. The line to the canal was out of commission and it was impossible during the day to learn of conditions on Lake Superior.

STREET CAR DAMAGE SUIT.

Jury in Case of Patana vs. Traction Company Out All Night.

The Houghton county circuit court has been occupied latterly with the case of Jafnar Patana, who sought damages as the result of an injury inflicted by a car of the Houghton County Traction company in Hancock last winter. It appears that Patana's sleigh overturned in Quincy street just in front of a car. He was struck. The plaintiff claimed that the car was going faster than the city ordinance permits and the defense contended that the matter was merely an accident for which no one was to blame, Patana being unfortunate in having his spilt just at the time he did. The case was submitted late Monday afternoon. The jury remained out all night and up to early afternoon yesterday had not brought in a verdict.

TEACHERS GOING TO ISHPPEMING.

Calumet and Houghton Will Send Delegations to the U. P. E. A.

The copper country will send delegations of teachers to Ishpeming today to attend the annual meeting of the Upper Peninsula Educational association, Houghton will be represented by a number of the heads of departments, Miss Adele Heckel, supervisor of music and drawing, will have charge of the art exhibit. Others who will attend are: Superintendent Doelle, Principal Spencer Kelley, Professor Thos. Taper, science instructor, Professor E. A. Krouger, head of the manual training department; Miss Anna Nye, director of the Central kindergarten, and Miss John, in charge of domestic science.

Three Calumet people are on the program at Ishpeming, as follows: Miss Anna Schatz, Miss Anna Schatz and Superintendent H. E. Kratz.

UNUSUAL HOLIDAY OBSERVANCE.

Circuit Court and Schools in Session—Banks and Saloons Closed.

Columbus Day was celebrated in Houghton to a limited extent yesterday. The weather would have prevented any public demonstration had one been planned, but it fortunately made no difference. The only evidence of a holiday was the closing of the banks and the saloons. The village council attended the Hancock celebration last night by invitation and President Miller was one of the speakers. The circuit court and the Houghton public schools did not recognize the holiday and were in session all day. Indoor programs were carried out at Calumet, Hancock and South range, where are located the largest Italian districts of the county.

ADDITION TO COPPER CITY.

Edward Usesh, the Calumet contractor and builder, is preparing to add the second addition to the copper country's youngest town, Copper City. The town is but about fourteen months of age, but there are already seventy buildings, all of them brand new and equipped with the most modern conveniences. The town is on the Keweenaw Central railroad and is located near enough to several of the mining locations to offer inducements to the workmen to make their homes there. In addition to the residences, there are several store buildings, club rooms, bowling alleys, etc. Copper City will most likely be incorporated as a village next spring. The streets are well laid out and sidewalks are to be built next year.

CANTATA TO BE REPEATED.

The musical drama of cantata, "Queen Esther," recently given at Calumet under the auspices of the M. E. church, is to be reproduced. The finance committee of the Calumet Public hospital is making arrangements to have the cantata presented again, this time for the benefit of the hospital maintenance fund, and rehearsals will be taken up shortly.

A HARD STRUGGLE.

Many a Marquette Citizen Finds the "Struggle" Hard.

With a back constantly aching. With distressing urinary disorders. Daily existence is but a struggle. No need to keep it up. Doan's Kidney Pills will cure you. One hundred thousand people endorse this claim. Here is one case. Thomas Chaulkin, 427 New York St., Ishpeming, Mich., says: Doan's Kidney Pills benefited me more than any other medicine I ever used. I suffered for months from backache and every cold I caught would settle on my kidneys, making my suffering worse. There was a miserable weakness and dull pains across my loins and there seemed to be no cure for me. I was finally told to try Doan's Kidney Pills and did so. They completely cured me and I have not suffered from backache since." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Mining News

NORTH BUTTE.

In its issue of yesterday the Boston News Bureau published the following: We have recently made inquiry of the officials of the North Butte company in regard to the status of the company's underground workings, concerning which there has been so much uncertainty and distrust during the past few or eight months. There is apparently no important detail affecting property conditions which the management is not now willing to explain. There was a time, a few months ago, when the 1,800 level in the 6th May shaft had been mainly considered for the 10 per cent interest of the stockholders that nothing be said. This was when they were driving the 2,000 level to cut at depth the sensational ore body which, on the 1,800 level in the 6th May shaft, had been mainly responsible for selling value for this property of \$48,000,000—400,000 shares at \$120 per share.

In driving westward on the level above referred to, the extraordinary ore values encountered on the 1,800 level were not forgotten. The vein had faulted. There was great disappointment when the deeper level had been advanced to a point directly under the 8 per cent to 12 per cent ore values found at 1,800 feet and the great richness was not found to continue with depth. It was almost too much to expect that it would continue, but nevertheless the officials did expect it and the failure to find it caused grave uneasiness. But 600 feet had yet to be driven, and the section limits of property before definite conclusions could be drawn concerning the remainder of the vein on the 2,000 foot level, and to have announced the then unfavorable conditions before this level had been further extended would have been to part prematurely judgment on the 600 feet yet to be opened. The management therefore concluded to keep silence and to drive to the westward as rapidly as possible, in the hope of running into better ore. This has been done and while no 8 per cent to 10 per cent values have been found, some very encouraging developments have taken place.

At a point about 300 feet from the western end of property, on the 6th May ore body while driving in the footwall of the vein, it was decided to look into the vein for its entire width. This was done, and 5 to 6 per cent copper values were opened. It was found in driving back to the east that these very good ore values continued, until now over 200 feet has been driven, which leads the management confidently to predict that for at least 500 feet a vein varying from sixteen to twenty feet in width and assaying 5 to 6 per cent copper will be developed.

While the 2,200-foot level has not been driven as far to the west as the 2,000, there have been developments equally as encouraging at this depth. 7 per cent ore having been hoisted this week, all of which has given the management renewed confidence in the life of the property. In the Belle claim of the Anacostia, high grade smelting ore has been found at a depth of 2,000 feet and in the High Gray claim of the 1,800-foot level, high grade smelting ore has been found at a depth of 2,800 feet. This can only mean, says the management, that the North Butte veins carry equally good values at depth.

There will be a repetition of the 1,800-foot disclosure, the management does not expect, but 5 per cent ore in North Butte is rich ore, and of this grade the company is rapidly putting a large tonnage in sight. On the 2,200-foot level, the miners have cut what appears to be the apex of a big and widening lens-shaped ore body, concerning which nothing was known. This is an important development and is calculated to play an important part in the mine's future prospects.

The company is sinking a new shaft on the Granite Mountain claim, belonging to the Lewisons. This claim is situated directly "between the Edith May and the Jessie claims and up to the present time the Lewisons have refused to part with it. They have, however, consented to allow the North Butte to sink a shaft, but in return the Lewisons will receive credit for all the ore extracted from this vein by the operating company. This shaft will be ordinarily add to the existing capacity at North Butte, but will not be used for hoisting until well into next year.

It goes without saying that North Butte cannot make the same showing of cost per pound of copper on 4 per cent to 5 per cent ore that it could on 8 per cent ore, but if the company is able to maintain a monthly output of 3,000,000 pounds, it should even with a nine-cent cost show \$4 per share in dividends fully earned. It can be said that the directors are today more confident concerning the future of North Butte than they were six months ago, and within the last three or four months some entirely new ore bodies have been encountered which give promise of adding materially to the company's ore reserves.

The offer of the Nevada Consolidated people to absorb the Cumberland-Ely company on the basis of three and one-fourth shares of Cumberland-Ely for one share of Nevada Consolidated, equal to \$7.50 per share for Cumberland-Ely, is based upon the fact that such an exchange would call for an issue of around 400,000 shares of Nevada Consolidated stock, making its capital outstanding 2,000,000 shares. The Cumberland-Ely has played an important part in the developments of Ely camp. It originally controlled all the water rights and it was because of this ownership that the company was able to secure a one-half interest in the smelter and railroad. Water in Ely was as valuable as ore, and now that the Cumberland-Ely has so valuable an asset as a one-half interest in the 88,000-hp. Steptoe smelter and a one-half interest in Nevada Northern railroad, which is earning about a 6 per cent return upon \$10,000,000, the Nevada Consolidated seeks to eliminate it upon the basis of 87 per share, although over a year ago the Cumberland-Ely was in large measure to pay for this ownership, was underwritten by the leading interests in the company at \$12.50 per share. It is recognized that the Nevada Consolidated may have ten tons of ore in sight to every ton of Cumberland-Ely ore, but the Cumberland-Ely interests say that many millions of tons could have been placed in sight had the Guggenheim management made any effort to do so. Over a year and a half ago, George E. O'Connell, who with Wm. B. Thompson purchased and controlled the Cumberland-Ely, had promoted the Cumberland-Ely company and started the first development there-

est openings and furthest drift extensions expose ground that is fully up to the high average. All the rock hoisted goes to mill. Shafts three and four have reached a depth of about 300 feet. The Michigan mine continues opening new ground, with trying results, and the drill is tapping out good ore from some of which look promising. The Michigan has a great big mineral territory which may some time give Ontonagon county more than one paying property.

The Hancock Consolidated has encountered in its No. 2 vertical shaft a lode that is probably its No. 3, and has found it rich. The formation is flattening, which makes the identity of the lode a little uncertain. The present disclosure is at a depth of 1,350 feet, while the lode was not expected until about 2,150.

It is claimed that with the copper metal figured at ten cents a pound. This showing is being made on a production of about 40,000,000 pounds a year, which output could be easily increased if it was thought advisable. At the present rate of production, the amount to about 2,500 men, a considerable decrease from the number employed in the region of Colonel Greene. Ore is being supplied to six of the eight furnaces, and even the six now in operation are not being pushed to capacity. The underground development work is being carried on with good results, it is said, the reserves now being more extensive than at any time in the company's history.

Work at the properties of Giroux Consolidated is being pushed vigorously. The Alpha and Gamma shafts are showing the best results, but the Buckner Hill, Brooks No. 1, the Morris and Old Glory are also attracting considerable favorable attention. Grading from the vicinity of the latter shaft has been made for a spur track of the Nevada Northern railway to the west, and track laying is now in progress. Some very rich ore was found in the Alpha shaft. In the Old Glory a big body of carbonate ore has been opened up and the dump of this shaft is one of the features of the Giroux Consolidated. Once the Giroux Consolidated gets ready to ship, its output will be another enormous tonnage from Ely.

Considerable surprise is expressed by those acquainted with the conditions at the Utah mine that the stock should continue to sell so low compared with many of the non-district payers, says the Boston Financial News. It is said that the steam shovel is now operating in ground which yields a higher percentage of copper than at any previous time and owing to the fact that less material is being handled the cost of production has been decreased. With any increase in the price of copper it is likely that the output will be increased so as to amount to over 700,000,000 pounds for the year. It is further pointed out that the present rate of dividend payment over 4 per cent at the current price of the stock and that with the cost of production held at eight cents or lower there is no doubt this rate can be maintained.

FEARED TOTAL LOSS OF HAIR

Scalp had been Scaly for Some Time—After an Attack of Typhoid Fever his Hair Began to Fall Out by the Handful—Now It is THICKER THAN EVER THANKS TO CUTICURA

"About two years ago I was troubled with my head being scaly, like dandruff but heavier—although I have washed my head once a week always. It never gave me any trouble such as itching or itching and I never noticed any falling of the hair. But shortly after that I had an attack of typhoid fever and I was out of the hospital possibly two months when I first noticed the loss of hair, my scalp being still scaly. I started to use a dandruff cure to no effect whatever. And I used a quinine preparation quite freely which did no good either. Whether it was the effect of the fever or some scalp disease I don't know, but I had actually lost hope of saving any hair at all. I could brush it off my coat by the handful. It got so bad that I didn't need to comb it any more—in fact I was afraid to. My brother, who had used Cuticura Soap and had perfect satisfaction, advised me to try them. After using two cakes of Cuticura Soap and nearly a box of Cuticura Ointment, the change was surprising. My scalp is now clear and healthy as could be, my hair thicker than ever, whereas six months ago I had my mind made up to be bald in a short time. I will have a photograph taken later and send you one. William F. Steese, 5812 Broad St., Pittsburg, Penn., May 7 and 21, '08."

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, assisted when necessary by Cuticura Resolvent (lotion or pills), afford instant relief in the most distressing forms of itching, burning, scaly, crusty humors, eczemas, rashes, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy and permanent cure, in the majority of cases, when all other remedies fail.

Cuticura Soap (25c), Ointment (50c), Resolvent (50c) and Cuticura Cream (50c), are sold throughout the world. Foster-Pearse Co., One-Third Street, New York, N. Y.

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss. — "Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland. — "Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

City Brevities
Today's weather: Snow; stationary temperature.
L. G. Kaufman left for Chicago last evening.
Born to Mr. and Mrs. Frank H. Vandenberg, Monday, a daughter.
Mrs. Herbert Fox, of Bluff street, has returned from a visit to Chicago.
The clock at Ormsbee & Atkins store will be unveiled at 3 o'clock this afternoon.
John M. Haller, of Sault Ste. Marie, has entered the employ of Longyear & Hodges.
P. J. McNulty was called to Silver Lake, Wis., last evening by the death of his father.
Mr. and Mrs. Alex. Rose have returned from Kansas City, Mo., after being absent from the city three weeks.
An examination for the licensing of embalmers will be held by the state board of health at Sault Ste. Marie, Oct. 15 and 16.
Lowell Youngquist left for Chicago last evening, and will accompany his father, Dr. O. G. Youngquist, home the latter part of the week.
The third in the series of lectures by Professor J. G. Carter-Troop will be given in the high school assembly room Saturday evening. The subject will be "Disraeli." Admission, twenty-five cents.
The Woman's Christian Temperance union will hold a social meeting this afternoon at the home of Mrs. Dr. Anderson, 418 High street. The program will commence at 3 o'clock. A ten-cent tea will be served.
News of the death of Louise C. Wood has been received by her Marquette friends, which occurred at the home of her daughter in Downers Grove, Ill., last Sunday. Mrs. Wood was a victim of asthma and has spent the summer in this city for the last fifteen years. She left here but two weeks ago.
U. of M. Alumni Banquet—The upper peninsula alumni of the University of Michigan will hold a banquet at the Guild Hall, at Ishpeming, Friday evening. All graduates of the Ann Arbor institution are invited to attend, whether members of the alumni association or not.
Cathedral Parish Fair—For several weeks the ladies of Cathedral parish have been busy in preparation for a fair or bazaar to be held from Nov. 22 to the 27th. The last fair of this kind was held three years ago. It is expected that this year's fair will eclipse all former efforts.
Normal Football Prospects—Encouraging reports are received from the Normal football team, which is practicing nearly every afternoon and seems to be rapidly rounding into form. There are the largest number of candidates for places on the team in the history of the school. Manager Mills states that he still has several open dates and would be glad to get games, especially with high school teams.
Marquette Was Lucky—The expected snow storm, accompanied by a terrific wind, did not materialize here yesterday, though a few scattering flakes of snow fell early in the morning and again in the afternoon. The center of the storm, which visited Duluth Monday, seems to have passed over Marquette, as a sixty-mile gale was reported at Alpena yesterday. Snow and stationary temperature are predicted for today.
Columbus Day—There was much complaint, apparently not without reason, among the local saloon men yesterday, because the saloons were required to be kept closed, while all other kinds of business were being transacted as usual. The banks, the public schools and the business of the city went on yesterday as on any other day, but the saloons were shut tight. The city hall was closed, with the exception of the county clerk's office and the probate court, there was nothing doing at the court house.
Townsend Will Visit U. P.—It is reported from the lower peninsula that Representative Charles E. Townsend, candidate for Senator Burrows, is about to make a trip through the upper peninsula and will be in Marquette Monday. Mr. Townsend expects to be at Escanaba Thursday at Menominee Friday and at Sault Ste. Marie Saturday.
Halloween Ball—Bills are out for a Halloween ball, to be given at Frazer's Hall Oct. 29, by the Knights of the Commercial World, it being the first anniversary of the organization of the lodge. Trombly's full orchestra has been engaged and no effort will be spared to make the event a complete success. Con Wellman, E. H. Bertal and J. C. Quarters have been selected as the committee on arrangements and the following are on the reception committee: A. P. Crooker, Jas. Cummings, F. J. Crawford, E. E. Tauch, F. G. Jenks, Dr. Z. Vadais, Herman Schauer, D. Nason, J. E. Tobin, Dr. W. H. Morse and C. G. Peterson. Tickets will be fifty cents per couple, with supper at the Colonial Inn at thirty-five cents per plate.
Jail a Mad House—The county jail is fast becoming a mad house, according to reports current at the court house yesterday. At least three prisoners are now confined in the jail who are considered mentally unbalanced. Wm. Hubbard, who was given a sixty days sentence by Judge Byrne a few days ago for making indecent remarks to women, appears to be unaware of what he is doing or where he is a good share of the time. Mrs. Lambert, who was apprehended for vagrancy at Birch and is serving a short sentence, is so sane the least, very odd in her manner and actions, and a man who was arrested by Marshal Manning Sunday and is now in the jail talks incessantly in some unknown language and refuses to eat or drink.
Grocery Changes Hands—Matt Koivisto has sold his Washington street grocery to John Launni and Jafet Rytkonen, of Negaunee, and the new owners took possession yesterday. Launni & Rytkonen are conducting a large and prosperous grocery business in Negaunee, which they will continue in addition to the Marquette store. Mr. Launni will be in charge of the Marquette grocery while Mr. Rytkonen will conduct the grocery at Negaunee. Mr.

THEATRICAL.
"The Girl from the U. S. A."
In a late review of theatrical productions by a prominent dramatic critic, the play, "The Girl from the U. S. A.," which will appear at the opera house tonight, received a full measure of praise. The story deals with an American girl who has been placed in an aristocratic convent in Paris, France, for her education might receive an ultra "finish." There she has formed a deep and lasting friendship with Vivienne de Voltaire, a French girl.
The play opens with a deep intrigue, with social and political, on the part of the Turkish ambassador to France. The girl follows her abducted friend into the innermost recesses of the sacredly guarded harem of a Turkish pasha, and in the guise of a new "favorite" is terrorized to find that the very Turk whose scheme she is trying to frustrate has fallen in love with her. Only by shrewd diplomacy can she save herself from the clutches of an unlicensed barbarian. And later, in the ceremonious mazes of Chinese society, her native wit saves the day for herself and friends.
Although the plot leads one among scenes of oriental splendor, the tone of the play remains vividly and thoroughly American in sentiment. There are some splendid musical numbers, and altogether the girl from the U. S. A. is somebody you will want to become acquainted with.
D'Urbano's Band.
The Wisconsin State Journal of Madison, has the following to say of D'Urbano's band, which will open a three nights' engagement at the opera house Thursday evening:
"If Luigi D'Urbano should come to Madison again, with his forty-five men, he could fill the largest auditorium in the city. The management of the Majestic did a commendable act in bringing this most delightful Italian band here, and to advise that Mr. Louis C. Hany and others have accorded the organization and its gifted bandmaster has been in the slightest degree exaggerated. Mr. D'Urbano seems to hold his men in the hollow of his hand, he plays upon them as upon one great instrument and they give evidence of understanding what he means by every movement of his baton, every contortion of his body, both massive head and powerful frame. He is musical to his finger tips, conducts entirely without a score, and enters into his work with a fervor which belongs peculiarly to his countrymen and which is ever a joy to encounter."

This Should Interest You

It is told that a merchant in New York city advertised for a young man to fill a certain position. The next morning he found six applicants in waiting. The merchant asked:

"How many of you young men have savings bank accounts?" Only one replied that he had. "I'll take you," said the merchant.

His bank account was a recommendation. It suggested at once to the merchant, the possession of qualifications he desired in his service.

You can start an account with this bank with \$1.00, \$5.00 or any other amount. We allow 3 per cent interest on deposits in our savings department.

Marquette National Bank

DANCING SEASON OPENED.
Knights of Columbus Party Last Night a Complete Success.

The winter dancing season was auspiciously opened last evening with the Columbus Day ball, given by Marquette council, Knights of Columbus, at Fraternity Hall. The ball was largely attended and all present spent a most delightful evening.

The dance program consisted of twenty-six numbers, waltzes, two-steps and quadrilles, the music for which was furnished by Tremblay's orchestra. One especially effective number on the program was the K. of C. two-step, which was danced with all the lights extinguished except the beautiful K. of C. electric piece and a single Japanese lantern, suspended in the center of the hall.

The music and elaborate decorations were the subject of universal favorable comment. The ceiling hidden by a perfect maze of red, white and blue Paris ribbon crepe, below which were suspended twenty-five Japanese electric lighted lanterns, artistically arranged; the side walls beautified with red, white and blue ornamental crepe, and the K. of C. electric piece opposite the orchestra balcony, all conspired to produce an entrancingly beautiful effect.

About midnight, intermission was taken while the merry-makers partook of a delectable repast at the Hotel Clifton. The menu included oysters, roast chicken, scalloped potatoes, waldorf salad, ice cream and many other appetizing viands. Altogether last night's party was the most successful yet given by the Knights of Columbus on the anniversary of the discovery of America.

DEER LICENSES.

From Whom They May Be Obtained in Marquette County.

County Clerk Frank G. Jenks has received his deer license blanks for the coming season, and has authorized the following persons in different parts of the county to issue licenses:

Give about half at once, then balance in fifteen minutes, if first dose is not sufficient. This will be found a novel, reliable remedy. 35c. for a large bottle. Also in 25c. and 50c. sizes.

PEARY'S EVIDENCE IS MADE PUBLIC.

That Cook Did Not Get Within 570 Miles of the Pole Is the Naval Officer's Contention.

(Continued from Page One.)

gested a series of questions to be put to the boys in regard to this trip from the land out and back to it.

These questions and answers were as follows:

Did they cross many open leads or much open water during this time? Answer: None.

Did they make and caches out on the ice? Answer: No.

Did they kill any bear or seal while out on the ice north of Cape Thomas Hubbard? Answer: No.

Did they kill or lose any of their dogs while out on the ice? Answer: No.

With how many sledges did they start? Answer: Two.

How many dogs did they have? Answer: Did not remember exactly, but something over twenty.

How many sledges did they have when they got back to land? Answer: Two.

Did they have any provisions left on their sledges when they came back to land? Answer: Yes; the sledges still had about all they could carry, so they were able to take but a few things from the cache.

Always in Sight of Land.

From here they then went southwest along the northwest coast of Heiberg land to a point indicated on the map (Sverdrup's Cape Northwest).

From here they went west across the ice, which was level and covered with snow, offering good going, to a low island which they had seen from the shore of Heiberg land at Cape Northwest. On this island they camped for one night.

The size and position of this island, as drawn by the first boy, was criticized by the second boy as being too large and too far to the west, the second boy calling the attention of the first to the fact that the position of the island was more nearly in line with the point where they had left Heiberg land (Cape Northwest) and the channel between Amund Ringnes land and Ellef Ringnes land.

This criticism and correction were accepted by the first boy, who started to change the position of the island, but was stopped, as Commander Peary had given instructions that no changes of any kind were to be made in the route as drawn by the Eskimos on the chart.

From this island they could see two lands beyond (Sverdrup's Ellef Ringnes and Amund Ringnes lands). From the island they journeyed toward the left-hand one of these two lands (Amund Ringnes land), passing a small island which they did not visit.

Arriving at the shore of Amund Ringnes land, the Eskimos killed a deer, as indicated on the chart.

[The above portion of the statement of the Eskimos, which is reported to have gone to the pole and back, and the entire time during which he could possibly have made any attempt to go to it.

Attainment of Goal Impossible.

[The answers of the Eskimo boys to Commander Peary's series of independent questions, showing that they killed no game, made no caches, lost no dogs, and returned to the cache, and that the pole on the trip north of Cape Thomas Hubbard a physical and mathematical impossibility, as it would demand the subsistence of three men and over twenty dogs during a journey of ten hundred and forty geographical miles on less than two sledge loads of supplies.

[It is suggested that perhaps Dr. Cook got mixed and that he reached the pole, or thought he did, between the time of leaving the northwest coast of Heiberg land at Cape Northwest, and his arrival at Ringnes land, where they killed the deer. He then added to the date of Dr. Cook's letter of March 17th, at or near Cape Thomas Hubbard, the subsequent four or five sleeps at that point, and the number of days required to march from Cape Thomas Hubbard to Cape Northwest (a distance of some six hundred geographical miles), and so advanced his date of departure from the land to at least the 25th of March, and he prepared to accept the claim that Dr. Cook went from Cape Northwest (about latitude eighty and a half degrees north) to the pole, a distance of five hundred and seventy geographical miles, in twenty-seven days.

Their Further Wanderings.

They then went east across the south part of Crown Prince Gustav sea to the south end of Heiberg land, then down through Norwegian bay, where they secured some bears, and then went east to the east side of Graham island, then eastward to the little bay marked "Eld's field" on Sverdrup's chart; then southward to Hell's Gate and Simmon's peninsula.

Here for the first time during the entire journey, except as already noted off Cape Thomas H. Hubbard, they encountered open water. On this point the boys were clear, emphatic, and unmistakable. They spent a good deal of time in this region, and finally abandoned their dogs and one sledge, took to the boat, crossed Hell's Gate to North Kent, up into Norfolk inlet, then back along the north coast of Colin Archer peninsula to Cape Vera, where they obtained fresh elder duck eggs. Here they cut the remaining sledge off, that is shortened it, as it was awkward to transport with the boat, and near here they killed a walrus.

The statement in regard to the fresh elder duck eggs permits the approximate determination of the date at this time as about the first of July. [This statement also serves, if indeed anything more than the inherent straightforwardness and detail of their narrative were needed, to substantiate the accuracy and truthfulness of the boy's statement. This locality of Cape Vera is mentioned in Sverdrup's narrative as the place where during his stay in that region he obtained elder ducks' eggs.]

Wintered in Land of Plenty.

From Cape Vera they went on down into the southwest angle of Jones sound, where they killed a seal; thence east along the south coast of the sound, killing three bears at the point noted on the map, to the peninsula known as Cape Sparbo on the map, about midway on the south side of Jones sound. Here they killed some musk-oxen and, continuing east, killed four more at the place indicated on the chart, and were

finally stopped by the pack ice at the mouth of Jones sound. From here they turned back to Cape Sparbo, where they wintered and killed many musk-oxen. After the sun returned in 1909 they started, pushing their sledge, across Jones sound to Cape Tenyson; thence along the coast to Clarence Head (passing inside of two small islands not shown on the chart, but drawn on it by the boys), where they killed a bear; thence across the broad bight in the coast to Cadogan fiord; thence around Cape Isabella and up to Commander Peary's old house in Payer harbor near Cape Isabella, where they found a seal and a walrus, which they found a seal and a walrus. From here they crossed Smith sound on the ice arriving at Anorok.

DETROIT "TIGERS" EVEN UP THE COUNT.

American League Champions Take Fourth Game of the Series by a Score of 5 to 0.

(Continued from Page One.)

ported that many persons, blanket-wrapped and by the side of small fires, are congregated at the general admission gate at Forbes field, waiting for the ticket window to open tomorrow morning. Two policemen have been detailed to keep the rooters in line.

Boston Americans Defeat Giants.

Boston, Oct. 12.—Center Fielder Speaker won the third game in the New York-Boston post-season series, with a home run in the ninth.

Score: R. H. E.
Boston 5 13 2
New York 4 7 3
Batteries—Bell and Carrigan; Ames, Crandall and Schiel. The series now stands two to one, in Boston's favor.

Japs Lose to the Badgers.

Tokio, Oct. 12.—The University of Wisconsin baseball team today beat Tokyo University, 8 to 0, in the last of the series of games which the collegians crossed the ocean to play. The Japanese pitcher was batted freely, ten Wisconsin men coaching first base on clean drives. The home team made only three hits. The errors were evenly divided, each making two.

Chicago Game Postponed.

Chicago, Oct. 12.—The National American championship game scheduled for today was postponed on account of cold weather.

POLICE RAID RACE TRACK.

Another Chapter in Governor Hughes' Anti-Gambling Crusade.

New York, Oct. 12.—A fresh chapter in Governor Hughes' anti-race track gambling crusade resulted today in twelve arrests at the Jamaica track. A squad of mounted police and a small army of detectives who accompanied even the second and third races, when the laying of odds was in full blast, swooped down unexpectedly on the betting ring and gathered in a dozen persons, several of whom are bookmakers widely known. The prisoners were charged with making or receiving bets.

Just after the second race, mounted officers galloped to the entrance of the ring and blocked all the exits. Detectives threw themselves into the ring and began a search for evidence. Probably 2,500 people were in the ring, and the rapidly moving police picked their men indicated a thorough preparation.

The men arrested are Wm. Gallagher, Wm. McElmerron, Jos. Quinn, Patrick McMahon, Floyd Roger, Thomas J. Shaw, George Rodman, Charles Cohen, George Ross, John Collins, Wm. A. Atkins, and Wm. Snow. They were arraigned and bail was accepted for all.

TRY FOR THE LAHM CUP.

Balloons Departing from St. Louis Hope to Sail to Canada.

St. Louis, Oct. 12.—In an effort to exceed all American balloon records for distance and win the Lahm cup, A. Balloons of New York and Max Fleishmann of Cincinnati sailed in the balloon New York at 5:35 o'clock this afternoon. The balloon went directly east. Two thousand pounds of ballast were in the basket. Five sacks were lost when the basket struck and tore away a part of the gas house roof. The aeronauts for a minute were in great danger.

Forbes, the pilot, who is acting president of the Aero Club of America, expects to land in Canada, in the vicinity of Saint Lawrence Valley, Ill., and A. T. Madden of Mattoon, Ill., will cross one of the Great Lakes and to keep the basket aloft if it descends in the water the aeronauts have placed around it a twenty-foot inflated rubber tube. Life preservers and water anchors and rifles are among the paraphernalia taken.

TURF EVENTS AT LEXINGTON.

Lexington, Ky., Oct. 12.—Penisa Maid scored a straight-hat victory in the Walnut Hill faro cup race for 2:15 trotters this afternoon. In the third she lashed barely long enough to get a nose in front of Margin. The favorites were defeated in the other two races. Ella Amulet was the choice for the 2:08 pace. She was the second heat by a nose from Geraldine, but the latter, under the skillful driving of Geers, out-trotted and out-gamed her in the other heats. Lady Stately, the favorite in the 2:18 trot, could not get to Melva J.

COLORED BOXER DEFEATED.

Roston, Oct. 12.—Jim Flynn, the Boston heavyweight, tonight defeated Ralph Callaway, colored, of California, in twelve rounds in the hardest fighting ever seen at the Amory Athletic association. Flynn was sent down in the third round and twice in the fifth, but came and punished the Californian so badly that he won the award.

MAYBRAY'S ALLEGED PARTNERS.

Seattle, Wash., Oct. 12.—Bert Shores, alias Warner, a middleweight wrestler, and Wm. S. Harris, of Spokane, Ind., in twelve rounds in the hardest fighting ever seen at the Amory Athletic association. Flynn was sent down in the third round and twice in the fifth, but came and punished the Californian so badly that he won the award.

Marquette County Savings Bank

SAVINGS BANK BUILDING, MARQUETTE.

SAVE YOUR RESOURCES

Nature teaches every living thing to hoard its resources, and man, with his superior intelligence, often forgets it.

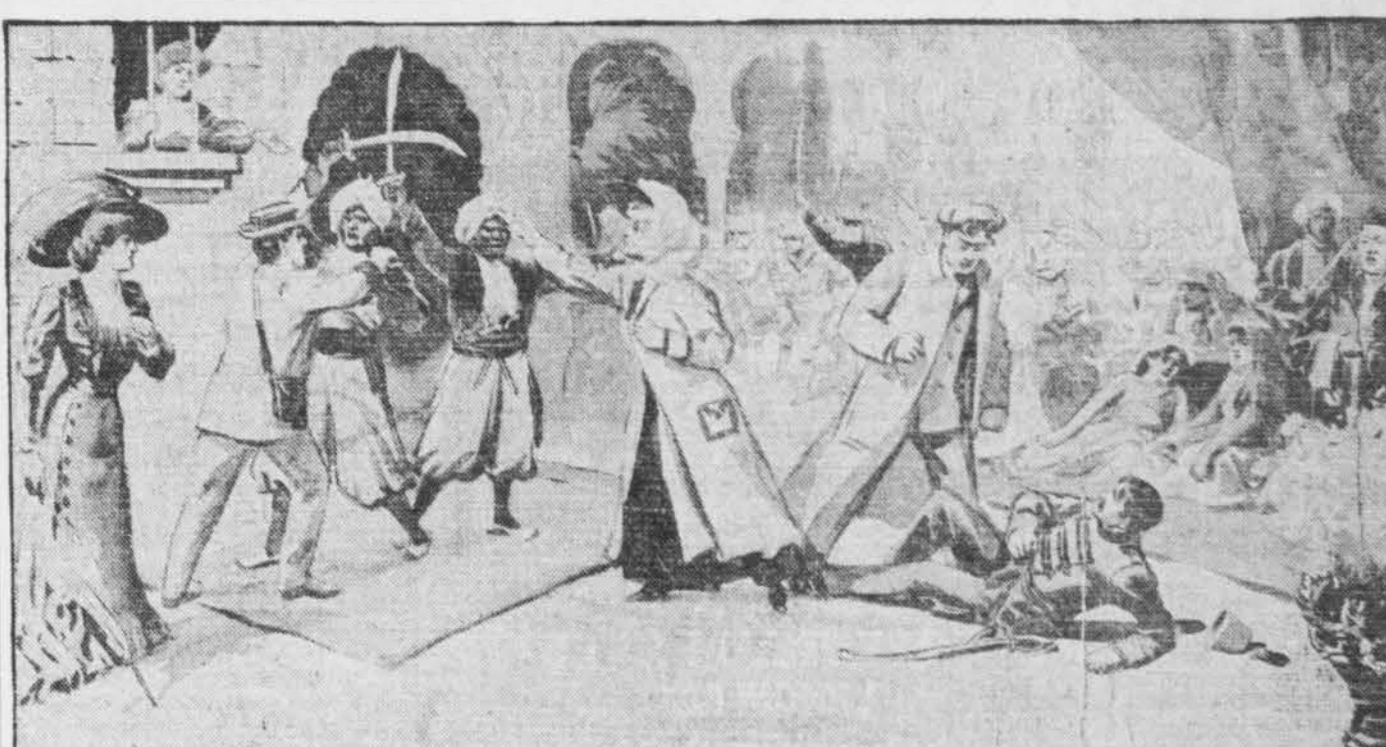

There is nothing better for you and every member of your family than a bank account. Its influence will be felt in many ways.

Act III, "The Girl from U. S. A.," at the Marquette Opera House Tonight.

Joe Carroll, formerly manager for Dr. Ruler and Frank Gotch, and who was arrested with Shores and Harris, has been given bonds to appear at Council Bluffs, Dec. 7, next.

ASQUITH'S ALLEGED SCHEME.

How the Premier Hopes to Secure the Adoption of the Budget.

London, Oct. 12.—The Daily News parliamentary libelist understands that Premier Asquith has obtained the king's written consent to the creation of a sufficient number of new peers to assure the passage of the budget through the house of lords, and that this document was shown to Lord Lansdowne and Mr. Ralfour yesterday. Although the Daily News is a Liberal organ, this solution of the crisis is considered hardly probable.

DEATH SENTENCE DENOUNCED.

Paris, Oct. 12.—The French Bar association adopted resolutions today, condemning the trial of Ferrer as a travesty on justice.

Madrid, Oct. 12.—The cabinet has completed its examination of the case of Ferrer, the revolutionary leader condemned to death at Barcelona. It is understood the sentence has been confirmed.

Rome, Oct. 12.—Twenty thousand workmen, after denouncing Spain and the Ferrer sentence, attempted to demonstrate before the Spanish and other embassies here tonight, but troops and police closed the bridges.

NEW EPOCH FOR CHINA.

Mukden, Oct. 12.—The despotic government of China will terminate tomorrow. All the legislatures of the self-governing provinces will hold their first meetings, preparatory to drafting the empire's constitution. Each province will be represented in the imperial assembly that will draft the constitution, with fifty members publicly elected.

FOUR DIE IN TRAIN WRECK.

Greenville, Tex., Oct. 12.—One white man and three negroes were instantly killed and L. Kinney of Danville, Ill., and A. T. Madden of Mattoon, Ill., were probably fatally injured at Kensington today, when two freight trains on the Missouri, Kansas & Texas railroad collided. Both trains were bound for Dallas.

BIG SUMS FOR CHARITY.

Chicago, Oct. 12.—Under the terms of the will of Mrs. Sarah Morris, widow of Nelson Morris, the Chicago packing house magnate, who met her death in an automobile accident on the continent Sept. 16, it was announced today that bequests of nearly \$400,000 are made to charitable institutions.

MURDER MYSTERY Baffles.

Tiverton, R. I., Oct. 12.—Although added evidence of murder was found tonight through the discovery of the torso of the young woman whose legs were found here yesterday, the police are still without a clue.

IS A VICTIM OF CANCER.

Chicago, Oct. 12.—Dr. W. A. Gordon, aged sixty-three, superintendent of the Wisconsin Northern Hospital for the Insane, died today at a Chicago hospital. His death was due to cancer.

JUDGE GAYNOR ENDORSED.

New York, Oct. 12.—The German-American Citizens' league declared at a meeting tonight for Judge Gaynor for mayor.

SNOW FALLS IN FIVE STATES.

Chicago, Oct. 12.—A severe cold wave is causing much damage throughout the

Middle West and the Northwest. Snow has fallen in Illinois, Michigan, Nebraska, South Dakota and Iowa. In some places the fall amounts to six inches, while the mercury at many places is as low as 20 to 24. The storm which raged in the lake region is tonight moving toward the Gulf of St. Lawrence.

REQUESTS BY MANY STATES.

Congress May Have to Call a National Constitutional Convention.

Washington, Oct. 12.—Enthusiasm upon the requests of thirty-one states since the early nineties for amendments to the federal constitution in some form is being made here as meaning that congress will be required at the coming session to authorize a constitutional convention.

Under article 5, congress, "on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments." The language of the resolution adopted by the Alabama legislature Aug. 3 last in ratifying the proposed income tax amendment has been received here, and is believed to be so framed as to come within the provision requiring the call of a convention.

Arkansas, Minnesota, Utah, Kansas, Texas, Illinois, Indiana, South Dakota, Idaho, Washington, North Carolina, Tennessee, Montana, Nevada, Wisconsin, Missouri, Iowa, Michigan, Oregon, Louisiana, Colorado, Kentucky, Pennsylvania, Nebraska, Oklahoma and New Jersey are twenty-six states that during the last fifteen years have asked congress to call a constitutional convention.

Nine of these have asked that such action be for the purpose of proposing amendments, but mention the popular election of senators as the principal object.

Five other states—California, Ohio, North Dakota, Wyoming and Maryland—have, through their legislatures, made requests for constitutional amendments which have been presented to congress.

There are no precedents for the guidance of congress, and apparently there is no way to compel congress to act. A justice of the supreme court said recently that it was not improbable the question whether a constitutional request for the assembling of a convention had been made would eventually come before that tribunal for decision.

When a woman gets angry she thinks she is capable of generating a look that will put any man out of business.

NOTICE TO CONTRACTORS.

Office of Park, Cemetery and Street Commission, Marquette, Mich., Oct. 7, 1909.

Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that separate sealed proposals will be received at the office of this commission until 5 o'clock p. m., Oct. 20th, 1909, for furnishing all labor and material required to make the following street improvements, in accordance with the profiles and specifications therefor on file in this office, viz:

(1) The grading of Fifth avenue, from north line of Wabash street to south line of Sagawed street, the full width thereof according to the grade heretofore established therefor.

(2) The grading of Norwood street, from west line of Presque Isle avenue to east line of Longview avenue, the full width thereof according to the grade heretofore established therefor.

Proposals for each of said improvements must be in separate sealed envelopes, marked so as to designate what improvement is referred to, and must be accompanied by a contractor's bond with two good sureties in a sum at least twice the amount of the bid; conditioned for performance of contract, payment for labor and materials, etc., in accordance with form on file in this office.

The commission reserves the right to reject any or all bids.

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S.S.S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S.S.S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S.S.S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S.S.S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S.S.S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S.S.S. is your most certain reliance, and because of its freedom from mercury, potash, or any other mineral, it is absolutely safe for every one. Home treatment book with valuable suggestions and any medical advice sent free to all who write.

WONDERFUL MUSICIANS.

RELIC FROM CHICAGO FIRE OF 1871

ISHPEMING COUPLE HAS CENTER TABLE THAT PASSED THROUGH THE CONFLAGRATION THAT WIPE OUT THE GREATER PART OF THE METROPOLIS.

In the window of W. J. Stromvall's hardware store can be seen a walnut center table that passed through the great Chicago fire, which started on the night of Oct. 9, 1871, thirty-eight years ago last Saturday. The table, together with a complete bed room suite, six chairs, a lounge and few other articles, were saved by Mrs. Stromvall's parents, Mr. and Mrs. Lewis Gunther. They were buried in the yard at their home on the north side the day before the fire reached them.

The furniture had been purchased a few years before, when Mr. and Mrs. Gunther were married. It required three weeks' effort to locate them, as the neighborhood in which they lived was so completely swept by the flames that the people could not easily find the site of their former homes. The idea of buying the furniture in order to save enough with which to begin house-keeping again was suggested by Mrs. Gunther. When the neighbors learned what Mr. Gunther was doing, they followed his example and various articles were buried in the neighboring yards.

The table was given to Mr. and Mrs. Stromvall by her mother, who now lives at Joliet, Ill., when they came to Ishpeming several years ago. Mrs. Gunther is still in possession of all of the other articles and she prizes them highly. The table is in almost as good condition as when it was purchased.

Mrs. Gunther's husband was separated from her for three days after the fire, and each thought that the other had perished. Her oldest child was then a babe in arms. In fleeing from the flames she carried the baby in a clothes basket with some clothing that she took from the house. After the fire had swept the neighborhood she found shelter together with hundreds of others, in a negro tenement house near by, but no trace of the husband could be found until the third day had passed.

Mr. and Mrs. Stromvall value the table highly. It is perhaps the only relic of the Chicago fire in the upper peninsula.

We offer today a big lot of imported, genuine French Chamy lace at wholesale prices. (10-13-14) F. BRAASTAD & CO.

Some exceptionally fine potatoes are on sale at the Negaunee greenhouses. Send your orders direct to the greenhouses and they will be filled promptly. (10-5-11)

Braastad's formal fall opening—Saturday, Oct. 16. (10-12-11)

D'Urbano's Band, Playing Here, Has Made Warm Friends.

Perhaps no band or other musical organization that has ever filled an engagement in Ishpeming has created such enthusiasm as has D'Urbano's Italian band. Many who attended the concert Monday were present again at both entertainments yesterday. Most of the leading musicians of the city have attended and all express the opinion that it is the finest band that they have ever heard here. The band will close its engagement tonight and will go from here to Marquette where it will remain three days, then going to Duluth to play a return engagement of eight nights at the Lyceum theater.

The make up of the band is somewhat unusual. There are no cornets, trumpets being used instead. Only valve trombones are used and the effect of these instruments is magnificent. The ensemble of the band is faultless.

D'Urbano for his encores usually plays popular marches or waltzes. The overture from William Tell, played Monday night, was received with a great ovation, as was the celebrated "Organ Overture" by Battiste, which concluded the program. The audience refused to leave their seats at the conclusion of this number and the band responded by playing "America" with all present rising to their feet. "The Star Spangled Banner" was another number that was received with tremendous applause.

The overtures announced for tonight are "Barbara of Seville," by Rossini, and "Forza del Destino" by Verdi, both of which the musical critics say are among the best in the band's repertoire. The final number in tonight's program will be a selection from "Carmen" by Bizet. Miss Lillian Berry Reid has created a most favorable impression here with her delightful vocal solos.

Watch Braastad's display windows (10-12-11)

The new trimmed hats will be in Friday or Saturday. Their right snare, too. (10-12-11) F. BRAASTAD & CO.

ARE URGING ROOSEVELT TO FIGHT JOE CANNON

Belief in New York Is That He Can Be Persuaded to Take a Hand in Reorganizing Matters in the House—Herbert Parsons Said to Be Behind the Scheme.

New York, Oct. 12.—In the canvass for the election of mayor of New York last week the seeds of what may germinate into seriously disturbing, if not disrupting, influences in the Republican party. And from this point of view, as well as from the financial, the local election of New York city this fall is of national importance.

Herbert Parsons, chairman of the Republican organization, practiced with skillful, deft hands the politics which brought about the nomination of Mr. Bannard by the Republicans for mayor. It was as cleverly done as was the dictated nomination by Tammany of Judge Gannor.

For several weeks the names of various possible candidates for the Republican nomination were brought forward for discussion, and one after another

were eliminated, until at last only two remained. Then just before the convention met Mr. Parsons brought forward the candidate he had in mind for several months, caused him to be nominated, and at the same time prepared for that amazing declaration of an agreement between Tammany, the up-state Republicans at Albany, and the friends of Speaker Cannon at Washington, whereby the so-called insurgents who are protesting against what they call "unionism," were defeated at Washington and certain measures relied upon by Mr. Parsons for the greater purification of the ballot in New York city, were defeated at Albany.

Even politicians of experience wondered if Mr. Parsons' success in keeping his proposed nomination of Mr. Bannard for mayor "in camera" might not have tamed his head. What extraordinary politics was that which seemed to invite factional disturbance in the Republican party? What had Mr. Parsons to gain by declaring now while the majority canvass is in progress, that Republicans at Albany and in Washington had entered into secret negotiations with Tammany Hall?

But there now are some reasons for suspecting, even if these reasons do not as yet justify the positive assertion,

that Mr. Parsons has already begun politics which have for its purpose the overthrow of the authority not only of Speaker Cannon and all his representatives, but also what is sometimes called the authority of Senator Aldrich in the Senate. If that can be accomplished even at the cost of the defeat for mayor of New York, Mr. Parsons will have yielded what undoubtedly in his opinion is the lesser issue, in order that he can compass the greater.

Some things indicate that Mr. Parsons is not without expectation that upon the return of Roosevelt from Africa a time which will be almost coincident with the beginning of the campaign for the election of members of the next congress, Roosevelt will be persuaded to favor the agitation and to take the leadership in the movement which is to have for its purpose the reorganization of methods that have prevailed in the election of the speaker and the dispersing of the iron-handed power Senator Aldrich is often called to exert in the senate.

The reasons are good for suspecting that Colonel Roosevelt would not disdain leadership of this kind. But as he is, in spite of his impetuosity and his apparent recklessness, one of the most cautious, as well as far-seeing of politicians, it is fair to presume that he would not take part in a movement of that kind unless the agitation had already been so far carried as to show to him that behind it was much public support.

At all events, this explanation is now believed to be the real one. There is good understanding can be obtained of the meaning behind the otherwise reckless and foolish declaration made by Mr. Parsons at the beginning of the majority campaign.

A CLERGYMAN'S SAMPLES.

A minister who had been doing missionary work in India recently returned to London for a visit, says an English periodical. He was a guest at a well-known hotel, where everything played him except the absence of the very torrid saucers and spices to which he had become accustomed in the Far East. Fortunately he had brought with him a supply of his favorite condiments, and by arranging with the head waiter these were placed on his table. One day another guest saw the appetizing bottle on his neighbor's table and asked the waiter to give him "that sauce."

"The sorry, sir," said the waiter, "but it is the private property of this gentleman."

The minister, however, overheard this other's request, and told the waiter to pass the bottle.

The stranger figured some of the mixture on his meat and took a liberal mouthful. After a moment he turned with tears in his eyes to the minister. "You're a minister of the Gospel!" "Yes, sir."

"And you preach the doctrine of everlasting fire to those who eat?" "Yes," admitted the minister. "Well, you're the first minister I ever met who carried samples."

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is but one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it entirely closes, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Negaunee Department

TAXES WILL BE HIGHER THIS YEAR

NEGAUNEE PROPERTY OWNERS WILL PAY \$156,818.16 ON AN ASSESSED VALUATION OF \$6,250,000.

The members of the council who assembled at the city hall yesterday morning to take part in the parade as the guests of the Italian societies in their Columbus Day celebration earnestly discussed taxation matters. The proceedings of the board of supervisors, giving the tax levy, together with the apportionments and the equalization of the cities and townships, as published in The Mining Journal, were the basis of an informal review of the taxation question for the past three or four years. It was pointed out that the increase in the valuation of taxable property in this city has been much larger, proportionately, than in either of the other cities, and that the total increase since 1907 is just \$2,500,000.

The city officials have felt that Negaunee is getting somewhat the worst of the deal from the board of supervisors. But a member of the board yesterday remarked that inasmuch as the mining companies are satisfied to pay the increased taxes being levied in this city, others had little grounds for complaint, as the corporations pay something like three-fourths of the total taxes. The representatives of the mining companies on the board offered no objections to the increase.

Figuring in the amount to be levied against Negaunee for state and county taxes, the tax roll here will this year show a total of \$156,818.16, on an assessed valuation of \$6,250,000. At the meeting of the council last Thursday evening, the amounts fixed to be raised for the city funds totaled \$91,492.14. With \$24,296.78 to be raised for the state, \$31,710.36 for the county and \$9,385.02 for county road purposes, the sum to be raised for all purposes will be several thousands larger than last year. In consequence the rate of taxation on each \$1,000 valuation will be in the neighborhood of 2 1/2 per cent, the rate of taxation in 1908 was not as high, proportionately as the increase will be this year.

The increase in the rate of taxation in any way be charged to the present municipal government, as the amounts to be raised for the different city funds are about the same as they were last year. The heaviest item of taxes here will be on account of the school, as more than 50 per cent of the money raised will be used for school purposes.

In 1908 Negaunee city paid \$17,045.18 for state taxes, compared with \$24,496.78 assessed for this year. The city's county tax last year was \$28,310.22, compared with \$31,710.36 and the city's \$18,822 for county road taxes, compared with \$9,385.02 this year. The increase for the three items over last year is \$12,656.50. The sum to be raised for the city fund for general purposes this year is \$6,334.44, compared with \$9,220.29 last year. The street and highway fund will this year receive \$15,573.09, compared with \$15,334.34 last year. The fire fund will be given \$9,234.34, compared with \$6,177.52 last year; the one mill tax will be \$6,229.36, compared with \$4,977.22; the library tax is the same as last year, \$1,000. The difference in the increases in the city fund tax, street and highway, fire and one mill tax over last year, \$1,000, is represented in a special tax of \$3,988.76 that was levied last year.

A complete line of Fred Uttinger's Milwaukee fancy smoked sausage and meat at Geo. Haupt's.

RUSH OF ORDERS CONTINUES.

Iron and Steel Situation Still of a Most Encouraging Nature.

It is reported from New York that concessions of fifty cents a ton, made by some Buffalo and Eastern furnaces last week, encouraged the continuing flow of orders for both foundry and basic iron for shipments over the remainder of the current year, and resulted in approximate sales of about 40,000 tons of foundry grades and 20,000 tons of basic.

Pipe works have been urgently in the market for low grade iron for early delivery, but as the supply was inadequate, have secured one cargo of No. 3 Middlesboro, about 6,000 tons, at \$17.20 on dock, Philadelphia, duty paid, and several additional cargoes of foreign iron in the balance. The lower prices for domestic iron have been in part due to the increasing competition from foreign metal, but neither Alabama nor Virginia producers have receded from their previous sharp advance.

Interest in steel-making iron has been largely transferred to the Pittsburgh region, where contracts for about 60,000 tons of Bessemer and basic have been placed. The Cambria Steel company has purchased 52,000 tons of the total, paying \$18 for standard Bessemer for this year and \$18.50 for the first quarter of 1910.

Basic iron in the East has sold mainly at \$18, delivered, but some sales for the first quarter of next year have been made at \$18.40. The output of pig iron in September was at the rate of 29,750,000 tons annually, while the prospect is for a 30,000,000 ton rate this month, breaking all records.

Fabricated structural steel orders placed during the week aggregated about 15,000 tons, 7,000 tons of which were taken by the American Bridge company. The principal single contract was 4,200 tons for the Michigan Canal at Detroit, which went to the McClintock-Marshall Construction company.

Some exceptionally fine potatoes are on sale at the Negaunee greenhouses. Send your orders direct to the greenhouses and they will be filled promptly.

It is in line of sudden mishap or accident that Chamberlain's Liment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liment is never found in cases of sprains, cuts, wounds and bruises. Chamberlain's Liment takes out the soreness and drives away the pain. Sold by The People's Drug Store.

IN MARKET FOR TIES.

Expected That Chicago & Northwestern Railway Co. Will Be Heavy Buyer.

Although the Chicago & Northwestern Railway company has not yet placed any important contracts for ties with the jobbers operating in this territory, it is expected that the company will be in the market for a much larger number this season than for two or three years past. The Northwestern company stocked up heavily two years ago and for a considerable number of the ties purchased at that time the top notch price was paid. The price fell off more than 25 per cent in the fall of 1907.

For some years past it is said that the Northwestern company has purchased a greater number of ties in the upper peninsula than any of the other railway corporations doing business here and most of them have been obtained from points along its own system.

Recently S. H. Bridges who owns one of the largest farms in the upper peninsula, in the Sturgeon river valley in Dickinson county, who is also an extensive timber operator, contracted to furnish the Northwestern company with 35,000 ties. The ties will be delivered along the right-of-way for shipment to the company's central preserving plant at Escanaba, where they will be treated with chemicals for the purpose of giving them longer life. This process, which was introduced a few years ago, and improved last year, has proved successful in prolonging the life of the ties from two to three years. Mr. Bridges already has 10,000 of the ties cut and will begin shipping them at once.

A fine line of bread, cakes and pies, fresh every day, at Geo. Haupt's.

HONORED COLUMBUS.

The members of the Italian societies of Negaunee who honored the memory of Christopher Columbus yesterday, did not have the best of weather for their celebration. In spite of the fact that the mud on the streets, particularly Iron street, was several inches in depth, the parade was of good size. The members of the societies appeared in their regalia, but wore with a likeness of Columbus were worn by many in the city, aside from the members of the societies. Members of the council and local dignitaries were the society's special guests, and rode in carriages. The parade was headed by the Negaunee City band. After marching through a number of the principal streets, the members and their friends assembled at the city square, where they listened to appropriate addresses. In the evening a dancing party was conducted under auspices of the societies in the Bonifant hall. The meat markets of the city were closed all day and the grocery stores, also some of the other mercantile establishments, were closed at noon.

Fresh bulk oysters, direct from the coast, this week at Geo. Haupt's.

RINK OPENS TOMORROW.

J. M. Wilson, who has conducted the Adelphi rink the past three years, has secured a lease on it for the coming season and will open it tomorrow evening. The rink will be opened Tuesday, Thursday and Saturday afternoons and evenings until further notice, and a band will be in attendance each evening. Mr. Wilson has made special arrangements with the management of the street railway line for the issuance of a combination ticket to Ishpeming parties attending the rink. The ticket will be in three parts and will include the round trip fare on the railway and admission to the rink, all for twenty cents. The general admission to the rink will be ten cents, as usual, and the charges for skating will be fifteen cents for men and ten for ladies. Mr. Wilson has 350 pairs of skates, all in good condition.

IS A MERRY COMEDY.

The Harry Scott company will present the new musical spectacular drama, "The Girl from the U. S. A.," at McDonald's Opera House tomorrow evening. They claim it is a play up to the minute in every detail, beautifully and elaborately staged.

By the purchase of its coal on the basis of its fuel content, the United States has already saved \$2,000,000 on its annual fuel bill of ten million dollars.

The beauty of success lies in doing well what you can do and cutting out what you can't do.

Thousands Have Kidney Trouble and Never Suspect it.

How to Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, or stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. Beware of cheap imitations. You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

LOCAL LAONICS.

A number of Negaunee people attended the concert given by D'Urbano's Italian band at the Ishpeming theater yesterday afternoon and evening.

Richard Kappas, who was severely injured two weeks ago last Sunday when he was kicked by one of his horses, is now able to be out every day. The horse kicked him squarely in the breast, but no bones were broken. He was unconscious for three hours.

A fire at Palmer Sunday night destroyed the old meat market building near the Palmer store also the old ice house, together with D. D. Smith's automobile, which was stored in the latter building. Mr. Smith had recently repaired the ice house. The automobile was insured.

The Tigers football team of this city, which defeated the North Ends of Marquette at the Marquette fairgrounds last Sunday afternoon, by a score of five to two, expects to bring the Queen City eleven here for a return game a week from next Sunday. In Sunday's contest the North Ends scored their two points on a touchback, while the Tigers made their touchdown by an inside play, and Alvin Hinson having caught the ball on a kickoff, running half the length of the field to the goal.

The Foster Construction company, which is building the transformer house at the Mass mine, will have the roof on within two or three days. The timber frames for the concrete foundations for the street railway line for the issuance of a combination ticket to Ishpeming parties attending the rink. The ticket will be in three parts and will include the round trip fare on the railway and admission to the rink, all for twenty cents. The general admission to the rink will be ten cents, as usual, and the charges for skating will be fifteen cents for men and ten for ladies. Mr. Wilson has 350 pairs of skates, all in good condition.

CARD OF THANKS.

We wish through The Mining Journal to express our thanks for and appreciation of the many kindly deeds, also sympathetically expressed, during our recent bereavement. So numerous were those who came to our assistance that it would be impossible to thank all of them personally, as we would like to do; therefore, we take this means of assuring them that we shall never forget their attentions. We wish in particular to thank our friends for their floral offerings.

MUCH OF INTEREST IN ANNUAL REPORTS

ROAD COMMISSION, POOR BOARD, AGRICULTURAL SOCIETY AND SOLDIERS' RELIEF.

NEXT YEAR'S APPROPRIATIONS

All Except Poor Commissioners Allowed Larger Amounts Than Last Year—Financial Statements.

Many matters of general interest are to be found in the annual reports of the county road commission, the county poor commissioners, the agricultural society and the soldiers' relief commission, submitted at the annual meeting of the county board of supervisors, held Monday.

The county road commission asked for \$43,500 for the work planned for next year which was cut down to \$40,000 by the committee on finance and taxation. Their report states that it is planned to expend the appropriation in the following manner:

- General office, superintendent and engineering expense.....\$ 3,500
- Witch Lake road, two miles..... 5,500
- One-half cost of Bridge across Michigan river on Witch Lake road between Dickinson and Marquette counties..... 2,500
- From Ishpeming, west..... 10,000
- Harvey-Green Garden road..... 16,000
- Repairs to Marquette-Negaunee road..... 1,500
- Equipment..... 4,500

PUBLIC DRINKING CUP GETS KNOCK-OUT BLOW

ITS USE FORBIDDEN IN PUBLIC SCHOOLS OF STATE—COMMUNICABLE AND CONTAGIOUS DISEASES MUST BE REPORTED.

Acting under the authority conferred by the last legislature the state board of health has ordered the use of the common drinking cup abolished in schools and on trains and boats. Other important sanitary regulations were adopted by the board at a meeting held in Lansing Oct. 8, and Secretary Shumway was instructed to send out bulletins to school officers and to arrange for a conference with railway officials relative to the action taken affecting their business. The new measures are to be put in force to check the spread of the "white plague."

It is expected that as a result of the edict issued by the state board that the common drinking cup soon be a thing of the past in all public places of the state, while plans are now being prepared to bring about a great improvement in the sanitary conditions of schools and railway trains.

Owing to the opposition of some members of the medical profession to making reports on contagious diseases to the health officer, a law was enacted at the last session of the legislature authorizing the state board of health to designate those diseases which are communicable and dangerous to the public health and which must be reported by the physician to the local health officer and by the local health officer to the state board of health; and in compliance with this law, the board has declared the following diseases to be dangerous, communicable diseases which must be reported by physicians to the local health officer, and by the local health officer to the state board of health: Pneumonia, tuberculosis, typhoid fever, meningitis, diphtheria, whooping-cough, scarlet fever, measles and smallpox.

The board passed rules and regulations giving the preventive measures which must be taken for each of the above diseases; and also relating to the attendance of nuisances, to insanitary conditions of school buildings and their surroundings, to jails, and to private or corporation water supply and sewage disposal systems.

The board also ruled that tetanus, rabies, erysipelas, leprosy and cancer shall be reported for statistical purposes, and that no person with open tuberculosis should be employed as a teacher in any of the schools of the state.

MEETING OF PRISON BOARDS. Messrs. Carley and Anthony to Attend Important Gathering at Lansing.

Ira Carley, of Menominee county, and E. C. Anthony, of Negaunee, of the Marquette prison board, leave for Lansing today to attend a joint meeting of the prison boards of the state, at which Governor Warner will appoint a board of prison industries as provided for in Act 140, passed by the legislature at the last session.

This act provides that the governor shall select one member from the Jackson prison board, one from the Marquette prison board and one from the Jonia prison board, the three to constitute a board to be known as the board of prison industries of Michigan. The duties of this board are to investigate the prison system of other states, with a view to establishing in Michigan a system of prison industries best calculated to promote the interests of the state and the welfare of the prisoners. Furthermore, this board is to make an investigation as to the amount of goods that are used in the several state institutions and in the offices of the various political divisions of the state that could be profitably manufactured in any of the prisons, with a view of manufacturing in the prisons such goods as may be used in these several institutions or political divisions.

The demand for Vandenberg's Dairy products increases every day. It pays to be up-to-date. (10-11-1w)
