

UNCLE SAMUEL HAS HIS EYE OPEN

Proposed Merger of Express Companies Is Likely to Run Against a Snag in the Way of Federal Interference.

Department of Justice Directs Its Examiners to Keep It Informed of All Steps Taken—Charged With Violating the State Anti-Monopoly Law, the American Ice Company Organized by Chas. W. Morse Goes on Trial in New York City.

Washington, Oct. 21.—The department of justice, in connection with the reports of a proposed merger of express companies, has directed its examiners in charge of the investigation of such matters to keep it informed on all steps taken.

Ice Trust on Trial.

New York, Oct. 21.—The trial of the American Ice company for alleged violation of the state anti-monopoly law began here today. Deputy Attorney General Clark, in opening, declared that the corporation employed "everything short of physical violence which the diabolical ingenuity of man could invent to monopolize the ice business."

John R. Bennett, one of the incorporators, admitted on the stand that the company had a capitalization of \$20,000,000 had been exchanged for stock in the Knickerbocker and Consolidated Ice companies and about \$10,000,000 for other ice companies' properties.

PROSECUTION IS DROPPED.

Washington Directs the Dismissal of the Case Against Dr. Perrin.

Washington, Oct. 21.—The attorney general, after consideration of the papers submitted in the matter of the prosecution of Dr. E. B. Perrin, convicted with John A. Benson of conspiracy to defraud the government in connection with certain land sales in California, but whose conviction was reversed by the circuit court of appeals and a new trial was ordered has instructed the district attorney at San Francisco to nolle prosequi Perrin's case. Benson is serving a sentence in prison.

WANT SECRETARY OF LABOR.

Renewed Campaign to Be Made by the American Federation Leaders.

Washington, Oct. 21.—The question of renewing the fight before congress to obtain the establishment of a department of labor, with a secretary co-equal with the members of the president's cabinet, was the foremost topic before the executive council of the American Federation of Labor today. The council authorized the preparation of a bill which will be introduced in congress, and an active campaign will be carried on among the legislators.

FRAUD ORDER EXTENDED.

Healer Braun's Young Son Is Deared the Use of the Mails.

Washington, Oct. 21.—The "fraud order" issued by the postoffice department against John F. Braun and others, with addresses at Bloomington, Ill., and Indianapolis and Greenfield, Ind., was extended today to include Oliver L. Braun, of Greenfield. Oliver Braun is fourteen years old and presumably is Braun's son. Braun gave "assent treatments" to afflicted people.

CHARGE DISCRIMINATION.

Red Wing Business Interests File Complaint Against Common Carriers.

Washington, Oct. 21.—Forty-one merchants and manufacturers of Red Wing, Minn., today filed complaint with the interstate commerce commission, charging twenty-five rail and water carriers with discriminating against Red Wing by charging unreasonable and unlawful rates on all classes of freight from Eastern points.

BANNARD'S CLAIMS MODEST.

He Expects Only 40,000 Plurality; His Opponents Much More.

New York, Oct. 21.—The pluralities estimated by the campaign managers of the respective candidates for mayor are as follows: Bannard, 40,000; Gaynor, 75,000; Hearst, 80,000. More than one hundred minor meetings were held tonight, besides a plethora of cart-tail oratory.

NOTED ENGINEER ENGAGED.

City of Cleveland Plans Extensive River and Harbor Work.

Cleveland, Oct. 21.—Isham Randolph, of Chicago, was engaged today by the city to prepare plans for river and harbor improvement. He will be assisted by J. W. Frasier, J. H. Fox and J. E. Crady, all of Chicago.

PEONAGE IN NORTH DAKOTA.

Fargo, N. D., Oct. 21.—The government will start probing the charges of peonage among the laborers in North Dakota Saturday before Immigration Commissioner Burnett. Marshals are serving subpoenas in different parts of the state.

WILL INVITE MR. TAFT TO AN AERIAL VOYAGE.

Savannah, Ga., Comes to the Front With the Most Novel Proposition Yet Suggested for the Entertainment of the President—It Wants Him to Make a Flight in an Airship.

Savannah, Ga., Oct. 21.—President Taft and Governor Brown, of Georgia, will be invited to make a flight in an airship while here Nov. 5.

Thanks Brother's Farm Hands.

Gregory, Tex., Oct. 21.—President Taft this afternoon motored to Taft, where in the little school house he thanked his brother's farm hands for their unanimous vote in his behalf. This morning the president was defeated at golf by Robert Connolly of Austin, reputed champion of Texas, who laid out the links. Tomorrow the president will go to Corpus Christi to speak before the Inland Waterways association, and will leave later for Houston and Dallas.

EFFICIENT SERVICE EARNS HIM PROMOTION.

Richard W. Goodhart, the Man Who Uncovered the Defalcations in the Ironwood (Mich.) and Mineral Point (Wis.) National Banks Is Appointed to the Post of Examiner at Large.

Washington, Oct. 21.—The comptroller of the currency designated Bank Examiner Richard W. Goodhart as a national bank examiner at large. He is the fifth examiner so designated. It was he who discovered the defalcations at the Mineral Point (Wis.) and Ironwood (Mich.) national banks. The comptroller said that Mr. Goodhart had rendered excellent service and his promotion was well merited.

Wisconsin Crash a Bad One.

Receiver Schofield, of the Mineral Point bank, has been directed to "make a full and complete examination of the bank's books and compare them with the reports of the state examiners made at the time of the controller." This bank revealed about the worst condition reported in a long period for a bank of its size, the indications being that the forged paper aggregated \$150,000 to \$200,000. If the controller establishes that the reports of the examiners failed to show the exact condition at the time of the examinations, he will take summary action against the negligent examiners.

GETS AFTER BUCKET-SHOPS.

Chicago Board of Trade Enjoins a St. Louis Commission Concern.

St. Louis, Oct. 21.—The Chicago Board of Trade today obtained an injunction in the federal court against the Merchants' Stock & Grain company and fifteen individuals of St. Louis, restraining them from using the grain quotations established by the Chicago body. The injunction is to prevent the unauthorized use of the quotations by firms or individuals who are members of neither the Chicago board nor the Merchants' exchange of St. Louis. The complaint says that the bucket-shop business has assumed such proportions that it materially affects legitimate speculation. It is alleged that the Merchants' Stock & Grain company has more than 400 offices and that the principal owner is Francis J. Miner, formerly one of the owners of a commission company which quit business in 1906 after the Chicago board had enjoined it from using its quotations. Miner was recently indicted by the St. Louis grand jury, charged with violating the bucket-shop law.

HEADS THE UNION PACIFIC.

Judge Lovett Elected President to Succeed the Late E. H. Harriman.

New York, Oct. 21.—Robert S. Lovett was elected president of the Union Pacific to succeed the late E. H. Harriman, at a meeting of the board of directors today.

Chicago, Oct. 21.—John V. Farwell, of Chicago, and Homer A. Miller, of Des Moines, were elected directors of the Chicago & Northwestern railroad today, succeeding E. E. Osborn and S. F. Barger, both of New York. The retiring directors re-elected are Senator Depey, James C. Frick and David P. Kimball. The directors elected Oliver Ames, of Boston, a member of the executive committee to fill the vacancy existing since the death of Marshall Field.

ADMIT TAKING BRIBES.

Two County Commissioners Indicted at Youngstown Plead Guilty.

Youngstown, O., Oct. 21.—The first of the trials of sixteen prominent men recently indicted for alleged graft ended today when W. H. Kale, county commissioner, indicted for accepting bribes, pleaded guilty. John C. Hanni, another commissioner, changed his plea to guilty. The sentences were deferred.

LIQUOR HOUSE GETS WRIT.

Oklahoma Officials Forbidden to Interfere With Interstate Shipments.

Guthrie, Okla., Oct. 21.—Federal Judge Cotter today, on the petition of a St. Louis liquor house, granted an order temporarily restraining the state dispensary superintendent from seizing or interfering with interstate shipments of liquor into Oklahoma.

BANDITS GET \$6,500.

State Bank at Reedsville, Wis., Is Plundered During the Night.

Manitowish, Wis., Oct. 21.—Robbers looted the Reedsville State bank during the night. They secured \$6,500, and escaped.

ALLEGED KIDNAPPERS JAILED.

New York, Oct. 21.—Eight men and women were arrested today in connection with the kidnaping of four-year-old Jenny Lopez, who was found in the street after ten days' absence from home.

SENATOR JOHNSON FATALLY STRICKEN

Attacked Suddenly by Bright's Disease, to Which He Had Long Been Subject, N. Dakota Statesman Dies Within a Few Hours.

Born in Racine County, Wis., the Son of a Norwegian Clergyman, He Had Served as a Member of the Lower House of Congress for Eight Years Before Being Promoted to the Upper House Only Last March—A Democrat Will Succeed Him.

St. Paul, Oct. 21.—A dispatch from Fargo, N. D., says that United States Senator M. N. Johnson is dead. Mr. Johnson, a Republican, succeeded Senator H. C. Hanson, Republican, only this year. His term would not have expired until March, 1915.

Fargo, N. D., Oct. 21.—United States Senator Martin N. Johnson died at his hotel here tonight of Bright's disease. He had been subject to the fatal disease for years, and was suddenly attacked this afternoon. His wife was present, also his brother, who resides here. The interment will be at Petersburg, the senator's home.

Senator Johnson was born in Racine county, Wisconsin, and was the son of a Norwegian clergyman. He was a graduate of the University of Wisconsin. For eight years he was a member of the house of congress. The vacancy in the senatorship will be filled by the appointment of Governor Burke, who is a Democrat.

McCarren's Condition Very Grave.

New York, Oct. 21.—Following a consultation of physicians at midnight, the following bulletin was issued: "Senator McCarren's condition is very grave." The hospital authorities said that the patient's relapse was so serious that it was doubtful whether he would survive the night.

EXPIRES FROM OLD AGE.

Schlatter, "Divine Healer," Found Dead in Bed at Hastings, Neb.

Hastings, Neb., Oct. 21.—Charles M. Schlatter, who claimed to cure of divine power, was found dead in a room at a local hotel today. The doctors say he died of old age.

Hastings, Neb., Oct. 21.—The mystery surrounding the death of the man claiming to be Schlatter was partially cleared this evening by the discovery of a family album containing a picture of the dead man taken in 1871. It was identified by Dr. Charles McLean, a noted physician of Chicago, as the portrait of David McNaughton, of Chicago, custodian of his effects. The receipt for an envelope deposited last February with the Bay State Trust company, at Boston, was also found. For three weeks the man was kept at the expense of the city.

MAKES LONGEST FLIGHT.

Aviator Farman the Winner of the \$5000 Prize at Blackpool, England.

Blackpool, England, Oct. 21.—Henry Farman today was awarded the grand prize of \$5,000 for the longest flight at the aviation meeting here. He covered forty-seven miles yesterday in his best attempt. Rougier was second, and Paulhan third. Bad weather today prevented further flights.

Mix Gets Gordon Bennett Cup.

Zurich, Switzerland, Oct. 21.—The Swiss Aero club today officially declared Mix, the American aviator, winner of the Gordon Bennett cup in the international balloon race. The club pronounced the reports that Mix landed in Bohemia unfounded.

PUGILISTS ARE MATCHED.

Nelson and Wolgast to Fight for the Lightweight Championship.

Los Angeles, Oct. 21.—Battling Nelson and Ad Wolgast today were matched to fight forty-five rounds for the world's lightweight championship here Thanksgiving Day. The men agreed to weigh 133 pounds. A purse of \$12,500 will be hung up.

TAKES BUNCH OF "CRIPPLES."

U. of M. Football Team Leaves to Play Marquette College at Milwaukee.

Ann Arbor, Oct. 21.—The University of Michigan football squad started for Milwaukee tonight with the largest number of "cripples" taken out of town in eight years. The team will meet the Marquette college eleven Saturday. Freney wrenched his back today and Smith, Pattengill and Rogers are still suffering from injuries received earlier in the season.

INDICTED WITH MAYBRAY.

Seattle, Wash., Oct. 21.—The federal court here today ordered the transfer to Iowa of Ole Marsh and Winn S. Harris, indicted in Nebraska and Iowa as associates of Maybray in the latter's alleged swindling ventures.

INJURED MIDDY CANNOT LIVE.

Annapolis, Md., Oct. 21.—Midshipman Wilson, who was injured in a football game Saturday, is rational, but death is considered only a question of time.

THE WEATHER.

Washington, Oct. 21.—The following is the weather bureau's forecast for Upper Michigan: Generally fair, Friday and Saturday, except snow flurries near Lake Superior; cooler Friday; brisk northwest winds, diminishing.

BANK OF ENGLAND TAKES DRASTIC ACTION.

Aiming at New York Speculative Borrowers, It Advances Its Rate of Discount to 5 per Cent—Stocks Are Adversely Affected, Naturally, but to No Disastrous Extent.

New York, Oct. 21.—The attention of the financial world centered on the Bank of England today again. This was due to the third weekly advance in the rate of discount of 1 per cent, bringing it to 5 per cent. Oct. 7 the rate was made 3 per cent, after having stood at 2 1/2 per cent since the first of April. Today's rate therefore represents a doubling of the rate in two weeks. Such drastic action is rare, except in panic times, and indicates extraordinary conditions. Oct. 31, 1907, the rate was raised to 5 1/2 per cent, from 4 1/2 per cent, in response to the panic in New York Nov. 4, following the rate went to 6 per cent, and on Nov. 7 to 7 per cent, the result of the acute New York demand. A closer parallel to the present situation was seen in the fall of 1906, when the Bank of England raised its rate to 4 per cent Sept. 19, to 5 per cent Oct. 11 and 6 per cent Oct. 19. The protective measures then were directed against a raid on London's gold supply, large borrowings by New York being secured directly with the injurious speculation in progress at the time.

That today's action of the Bank of England is directed partly against New York's speculative borrowers is indicated by the heavy selling of American securities for London account. These are attributed to the closing out of loans in London where these stocks figured as collateral. United States Steel was notably affected by this, although none of the stocks which figured recently in the active speculation were exempt from the operation of the rate increase. It did not share the sensational action of the foreign money markets today, and stock market recoveries were encouraged by the tranquil tone of money. Covering by shorts made the closing tone strong.

M. K. TWOMBLY KEEPS THE DOCTORS AWAY.

Vanderbilt's Right-Hand Man in All Railroad Affairs Is Dangerously Ill, Yet Is Unwilling to Submit to Medical Attention—He Grieves Over Son's Drowning.

New York, Oct. 21.—Not the death of Harriman, nor any contemplated change in the relations of the New York Central to the Union Pacific, brought William K. Vanderbilt home from Europe a month or six weeks earlier than he customarily returns in the autumn. He has come back chiefly on account of the same illness of his brother-in-law, Hamilton McK. Twombly. Not outside of the immediate family had there been definite knowledge until recently of the gravely impaired health of Mr. Twombly. That he had been gradually lapsing from fairly good health to what seemed a condition of invalidism was known to a circle of his friends. He had not been in good health since that day when he received a sudden and overwhelming shock occasioned by the drowning of his son. Mr. Twombly has been for some time at his country home in the relations of his condition. One might almost say that he is a man who keeps the doctors away.

Public Health Association Holds Mrs. Crane's Evidence Insufficient.

Richmond, Va., Oct. 21.—Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., the reform worker who broke up the meeting of the American Public Health association here yesterday by charges that the work of the government system of meat inspection, produced documentary evidence today which she will present to the convention tonight as proof of her assertions. The proofs are in the form of photographs of the "service announcements" issued by the bureau of an industry. Each service announcement is headed by stringent caution to each official of the service that it shall be kept from the public, and especially from the press.

URGES SUPPRESSION OF VICE.

Convention of the National Purty Congress Adopts Resolutions.

Burlington, Ia., Oct. 21.—The National Purty congress today adopted resolutions endorsing the new Iowa law for the suppression of vice and removing delinquent officials; urging Christians to cooperate in the warfare against the "white slave" traffic; insisting on equal rights for both sexes; urging the teaching of sexual hygiene in secular and Sunday schools; urging congress to increase the head tax to prevent undesirable immigration, and calling upon the people to resist the growing divorce evil. B. S. Steadwell, of La Crosse, Wis., was elected president, and Mrs. Mims-Skinner, of Cedar Rapids, Ia., recording secretary.

SEVERE EARTHQUAKE RECORDED.

Shocks Registered at Cleveland Last Twenty-Nine Minutes.

Cleveland, Oct. 21.—Announcement was made at St. Ignace college today that a prolonged and severe earthquake shock was recorded by the seismograph last night. The disturbance lasted twenty-nine minutes and was about 5,000 miles from here.

Mount Etna Region Is Shaken.

Catania, Sicily, Oct. 21.—Several strong earth shocks occurred here today. They were more pronounced on the slope of Mount Etna. Ten houses fell and one person was killed. The whole of the Mount Etna region was severely shaken.

CROWDED WITH LAND SEEKERS.

Aberdeen, S. D., Oct. 21.—The city is crowded with land seekers. The registrations today were greater than any day previously. The total is now 70,103.

SHOCKS FRIENDS OF THE FILIPINOS

Tells the Lake Mohonk Conference That the Occupation of the Archipelago Is a Big Mistake.

Congressman Driscoll of Syracuse Entrance of the United States Into the Affairs of the Islands Is a Matter of Regret, He Says, and He Adds That the Principles for Which This Nation Stands Are Being Violated by Our Remaining There—Other Delegates Emphatically Dissent.

Mohonk Lake, N. Y., Oct. 21.—Problems growing out of the American occupation of the Philippines were discussed at today's session of the Mohonk conference, Congressman Driscoll, of Syracuse, who accompanied the Taft party to the Philippines, declared that "the entrance of the United States into the affairs of the islands is a matter of regret," and that "the principles for which the American nation stands are being violated by our remaining there."

This met with emphatic dissent from other delegates. "The declaration of independence has been invoked as an unwarranted reason why the United States should withdraw from the Philippines. There were times in the Civil war and many other times when the nation has interpreted the principles of that declaration by the logic of experience and actual conditions. There is a sense in which the ideas of the Declaration are fundamentally and eternally true. In that sense it is the great obligation of the United States to insure life, liberty and the pursuit of happiness to eight million ignorant and helpless people."

HER CHARGES NOT SUSTAINED.

Public Health Association Holds Mrs. Crane's Evidence Insufficient.

Richmond, Va., Oct. 21.—Mrs. Caroline Bartlett Crane, of Kalamazoo, Mich., the reform worker who broke up the meeting of the American Public Health association here yesterday by charges that the work of the government system of meat inspection, produced documentary evidence today which she will present to the convention tonight as proof of her assertions. The proofs are in the form of photographs of the "service announcements" issued by the bureau of an industry. Each service announcement is headed by stringent caution to each official of the service that it shall be kept from the public, and especially from the press.

URGES SUPPRESSION OF VICE.

Convention of the National Purty Congress Adopts Resolutions.

Burlington, Ia., Oct. 21.—The National Purty congress today adopted resolutions endorsing the new Iowa law for the suppression of vice and removing delinquent officials; urging Christians to cooperate in the warfare against the "white slave" traffic; insisting on equal rights for both sexes; urging the teaching of sexual hygiene in secular and Sunday schools; urging congress to increase the head tax to prevent undesirable immigration, and calling upon the people to resist the growing divorce evil. B. S. Steadwell, of La Crosse, Wis., was elected president, and Mrs. Mims-Skinner, of Cedar Rapids, Ia., recording secretary.

Shocks Registered at Cleveland Last Twenty-Nine Minutes.

Cleveland, Oct. 21.—Announcement was made at St. Ignace college today that a prolonged and severe earthquake shock was recorded by the seismograph last night. The disturbance lasted twenty-nine minutes and was about 5,000 miles from here.

Mount Etna Region Is Shaken.

Catania, Sicily, Oct. 21.—Several strong earth shocks occurred here today. They were more pronounced on the slope of Mount Etna. Ten houses fell and one person was killed. The whole of the Mount Etna region was severely shaken.

CROWDED WITH LAND SEEKERS.

Aberdeen, S. D., Oct. 21.—The city is crowded with land seekers. The registrations today were greater than any day previously. The total is now 70,103.

OKLAHOMA IS SCENE OF MINE DISASTER.

Going Beyond the "Deadline" With Lighted Lamps, It Is Believed, Workmen Cause an Explosion of Gas Which Results in Death of Ten Employes and the Injury of Twenty Others.

Hartshorne, Okla., Oct. 21.—Ten men were killed, twenty were injured and one is missing, as the result of an explosion in mine No. 10 on the Rock Island Coal Mining company today. Nine bodies have been recovered. It is believed that the men went beyond the deadline with lighted lamps, and the fact that Dan Hughes, a sub-boss, was with the other men suggests the theory that the men were arranging air courses to carry out the gas, when one or more passed the "deadline." Hughes was alive when taken out, but never regained consciousness.

BRUTAL MURDERER WILL BE ELECTROCUTED.

Theodore Rizzo Is Convicted at Utica of Killing Two Little Children and Wounding Another—He Doesn't Know Why He Committed the Crime; He Was Drunk, He Says.

Utica, N. Y., Oct. 21.—Theodore Rizzo was found guilty this afternoon of murdering Theresa Procopio and Freddie Infusino and wounding Fannie Infusino, all young children, and was sentenced to be electrocuted in Auburn prison in November. The defense offered no testimony. Rizzo, unconcerned, slept while the jury was deliberating and was awakened when summoned to learn the verdict. Asked why he murdered the children, he replied: "I don't know; I was drunk."

VICTIM OF THE BLACKHAND.

Prominent Italian of Streator Is Shot and Probably Fatally Wounded.

Chicago, Oct. 21.—Salvatore Pinnello, of Streator, Ill., who was shot and wounded three months ago at Streator because he refused to give money to alleged "blackhand" operators, was shot and probably fatally wounded near the house where he was rooming on the North Side, tonight. Salvatore and Stefano Uttida, brothers, are accused by Pinnello of the murderous assault. Pinnello came to Chicago today to escape further molestation. The Uttidas are said to have followed him and tonight riddled him with gunshot. Pinnello's intestines were penetrated and his recovery is doubtful. His assailants escaped, but Pinnello says he recognized them.

CHARGES ATTEMPT TO KILL.

St. Louis Woman Accuses Widow of Giving Her Poisoned Candy.

St. Louis, Oct. 21.—Mrs. Maud Ridley, a widow, was arrested this afternoon, charged with attempting to murder Mrs. R. W. Lillard, wife of a newspaper man, by giving her candy containing strychnine. Mrs. Lillard accuses Mrs. Ridley of becoming infatuated with her husband and annoying him. She says that Mrs. Ridley gave her the candy as a peace offering, after agreeing to forget Lillard.

German Young Woman Is Victim.

Hamburg, Oct. 21.—The police of this city are convinced that the body of the girl found at Isip, Long Island, is that of Anna Lattar, formerly of Altona, Prussia. She married last year an architect named Mueller. The couple started for New York, both are missing.

MURDER IS SUSPECTED.

Milk Wagon Driver at Chicago Has Throat Cut from Ear to Ear.

Chicago, Oct. 21.—Albert B. Bookmeyer, driver of a milk wagon, was found dead, with his throat slashed from ear to ear, on the seat of his vehicle at Lyons, a suburb of Chicago, today. There is a suspicion of murder.

BROTHER IS TAKEN INTO CUSTODY.

Chicago, Oct. 21.—A brother of Albert Bookmeyer, whose body was found in a milk wagon with his throat slashed this morning, was taken into custody this evening.

PASSENGERS BADLY SHAKEN.

Colliding With a Horse, a Rock Island Train Is Wrecked.

Neola, Ia., Oct. 21.—The engine and mail car of the eastbound Nebraska-Chicago Limited on the Rock Island railroad were derailed tonight when the engine struck a horse as the train entered town. The engine rolled down an embankment. The fireman jumped, but the engineer remained and narrowly escaped death. The passengers were badly shaken, but none were injured.

TRAGEDY IN OKLAHOMA.

Dispute Over Money Ends in Murder of Real Estate Dealer.

Oklahoma City, Oct. 21.—H. H. Cooper shot and fatally wounded Dewey A. Wallace, a real estate dealer, here today, and then for several minutes held at bay a large crowd. Cooper surrendered to an officer. He shot Wallace three times. A dispute over financial matters caused the trouble.

PLANS RALLIES IN MANY CITIES.

Laymen's Missionary Movement Embarks Upon Widespread Campaign.

Cleveland, Oct. 21.—With nearly 1,400 laymen representing every local Protestant denomination joining in the hymns and approving the exhortations for assistance in the foreign mission work, the Laymen's Missionary Movement opened a campaign in Cleveland tonight with a banquet. Rallies are scheduled for seventy-five cities.

Occasionally a man discovers that he has a friend who really is his friend.

their thirst.

NEW GOVERNMENT IN POWER IN SPAIN

Though Successful in Restoring Order at Barcelona and Elsewhere, Premier Maura Is Bowled Over in the Parliament.

Yielding to the Attacks of a Powerful Opposition, He and His Fellow Heads of Departments Tender Their Resignations to the King and Are Succeeded by a Cabinet of Which Former Prime Minister Moret Is Organizer and Leading Member.

Madrid, Oct. 21.—The Spanish cabinet formed in January, 1907, resigned today as a result of the attacks against the government by former Premier Moret, representing powerful opposition. Premier Maura told the king that in the face of Moret's statement that the opposition would refuse to discuss even the most urgent measures, he had no option but to resign. He asked the members of the majority to support the new ministry.

Senator Moret has formed a new cabinet, the ministers of which took the oath of office tonight as follows: Premier and Minister for the Interior—Moret; Minister for Foreign Affairs—Cabrera; Finance—Alvarado; War—General Delague; Marine—Admiral Caneas; Public Works—Gasset; Justice—Martinez.

When the president of the chamber of deputies announced the Maura cabinet's resignation, it was received with such an uproar that he was forced to adjourn the sitting.

Rome, Oct. 21.—The Vatican did not expect the fall of Premier Maura, believing that his energy in re-establishing order at Barcelona and elsewhere would bring him sufficient strength to complete the work he had undertaken.

It is believed that one of the first acts of the new government will be to replace General Maurina, commander of the Spanish forces in Morocco, by General Weyler.

German Socialists Gain Many Seats.

Berlin, Oct. 21.—The diet elections in Saxony and Baden today show large socialist and Liberal gains. The socialists gained seats at Dresden, Leipzig and Chemnitz and even won several in Conservative districts. Up to midnight, ten socialists had been definitely elected, and thirty-five will enter re-ballots. The results apparently are due to dissatisfaction over the taxes voted by the reichstag.

DIVORCE DECREE STANDS.

Mrs. Wm. Guggenheim's Suit Abruptly Ended by Judge Honore.

Chicago

DAILY MINING JOURNAL
 A MORNING PAPER PUBLISHED BY THE
 MINING JOURNAL CO. (LIMITED.)
 Issued daily except on Sundays. Contains
 Associated Press dispatches and is especially
 devoted to the Upper Peninsula interests.
 SUBSCRIPTION RATES:
 Per month, by carrier, \$1.00
 Per year, by mail, \$10.00
 MARQUETTE, MICH., OCT. 22.
 Entered as mail matter of the second class
 in the postoffice at Marquette, Mich.

Peary's proofs are in and Dr. Cook
 announces that after Monday, when his
 last lecture for the time being will be
 delivered, he will devote himself to pre-
 paring his data for submission to the
 University of Copenhagen. The time is
 approaching when we should know
 where we are at as between the claims
 of the rival polar explorers.

The Associated Press is delighted to
 learn that Mr. Jeffries is feeling fine
 and we have no doubt will congratulate
 him on the satisfactory state of his
 health. It is also pleased to learn that
 there is some prospect of the long talk-
 fest between him and Johnson being
 terminated by an actual engagement.
 The question of which is the best bris-
 er is such a momentous one that no
 time should be lost in settling it for
 good and all.

The government meat inspection ser-
 vice is under fire again. This time the
 charges are made by Mrs. Caroline
 Bartlett Crane, a Kalamazoo woman
 who is regarded as something of an au-
 thority on questions of sanitation
 and public health. She alleges de-
 ficient inspection and failure to comply
 with all the regulations that have been
 established. Last time the government
 meat inspection system was under fire
 the charges made were shown to be
 untrue. Perhaps the issue will prove
 that Mrs. Crane, also, is muckraking.

Governor Hughes has responded to
 the invitation of the Republican lead-
 ers to take part in the campaign in New
 York by a declaration on what must
 impress one as being sufficient grounds
 and grounds that do honor to his con-
 ception of the duties of his office. "It
 is clear to me that I ought to take no
 part in the pending campaign," he
 says. "Under our system the governor is
 the reviewing officer to whom the
 more important local officers are ac-
 countable. The mayor, the controller
 and the borough presidents are remov-
 able by him upon charges. So also are
 the district attorneys and sheriffs. The
 governor has no higher prerogative, and
 he should so conduct himself with re-
 gard to local controversies that to the
 greatest extent possible he may exercise
 this important jurisdiction in sustain-
 ing and dismissing charges without
 suggestion of unfairness or improper
 motive. I think the governor owes it
 to his office not to permit himself to
 become involved in local campaigns, and
 this policy which hitherto I have main-
 tained I desire to continue." In the
 light of this statement there will be
 no quarrel with Governor Hughes be-
 cause he sees fit not to in any way
 participate in the campaign in progress
 in New York.

The miners at the Regent group at
 Negaunee, after getting into a false
 position by quitting work last Satur-
 day in an effort to coerce the manage-
 ment into granting a half holiday for
 which there is no warrant in the law
 they referred to as the basis for their
 course, made another false move Tues-
 day by attempting to prevent the men
 on the day shift from continuing at
 work. A row was started that might
 easily have resulted in the serious in-
 jury of some of the men concerned, and
 in that event the management would
 have found it impossible to ignore the
 occurrence by deciding not to swear out
 warrants. There would have been
 many arrests, and the probability would
 have been that some of the men con-
 cerned would have done time for their
 offense. The management of the mines
 considered the action of the men last
 Saturday a sufficient cause for the dis-
 charge of the entire number. The man-
 agement was entirely within its rights
 in so deciding. The thing for the dis-
 charged men to do is to seek work at
 other mines, instead of brawling about
 the Regent properties. They were ill-
 advised when they were persuaded to
 try to interfere with the continued
 operation of the mines on Tuesday.
 They should seek counsel from wiser
 leaders than those they have appar-
 ently been following.

One thing Judge Stone said to the
 Commercial club Wednesday evening
 commended itself to the judgment of all
 who were present, namely, his assertion
 that if the club is going to accomplish
 anything it must be possessed of a
 strong treasury. To date it has been
 rich only in good intentions, and, while
 the aims of its officers have been the

best in the world and while they have
 been tireless in their work, their capac-
 ity for usefulness has been limited by
 the fact that they have not had any
 money with which to work. In conse-
 quence there has been little real accom-
 plishment. If the club is to be more
 than a perfunctory organization there
 must be shown genuine interest by the
 influential men of the community in its
 aims and objects. They must take ac-
 tive part in carrying out its plans, as
 well as according it such financial sup-
 port as they can give. It must become
 a live and energetic organization on
 the model of the clubs found at Menominee
 and Escanaba, where much has been ac-
 complished in the way of encouraging
 industrial growth and bringing in man-
 ufacturing concerns. The aims and ob-
 jects of the club, as set forth in its
 constitution, are broad; the framework
 of the organization is adequate. What
 is needed is the active and aggressive
 support, in a spirit of enthusiasm, of
 every solid business man and other in-
 fluential citizen in the city. How to
 obtain these things is a problem that
 perhaps the club should concern itself
 with first of all.

Speaker Cannon this week delivered
 one of his picturesque speeches to the
 Illinois mayors, assembled at Elgin.
 He discussed the tariff law, the insur-
 gents and other live topics. As to the
 tariff, he agreed with President Taft's
 estimate that the Aldrich-Payne law
 is the best tariff law ever enacted. The
 insurgents were duly rapped. Speaker
 Cannon evidently holding that they
 have put themselves without the Re-
 publican party. Senator Cummins of
 Iowa was honored with individual
 mention, and was classed by Uncle Joe
 with Mr. Bryan, late leader of the un-
 terrified Democracy. The house rules
 and Uncle Joe's reign were pictured as
 an expression of the will of the ma-
 jority, and the charge that the speaker
 was an autocrat was duly denied. In
 short, the speech to the Illinois mayors
 was in Uncle Joe's best vein, both as to
 matter and manner, for with respect to
 the latter it was delivered in Uncle
 Joe's approved homely style, which we
 have no doubt, made its usual pro-
 nounced impression. We note that
 Senator Cummins will reply to it, par-
 ticularly to those parts that directly
 concern him, in his speech before the
 Marquette club in Chicago the evening
 of November 6. We're mighty glad of
 it. It is with unrestrained pleasure
 that we hear such straight-from-the-
 shoulder orators as Uncle Joe and Sen-
 ator Cummins discuss timely questions.
 As the former was not at all backward
 about paying his compliments to the
 Iowa leader, we have no doubt that the
 latter will reciprocate in kind. And
 he's at least as good a rough and tumb-
 le fighter as our Uncle Joe.

The Detroit News has the theory
 that Hearst is working hand in glove
 with Barnard in New York, but is
 clever enough to cover his play by at-
 tacking Barnard. Its theory, elucidated
 in the following paragraph, is interest-
 ing even if it is not correct, which is
 not unlikely the case:

William Randolph Hearst has shown
 himself an able politician, at least a
 politician capable of following adroit
 advice. While his candidacy is palpably
 to help the reform ticket as against
 Tammany, by drawing to it the votes
 that Barnard could not possibly get,
 "because he has too much money and
 is a silk stocking," there was still
 reason for serious disaffection among
 the Hearstites if currency was for a
 moment gained for the belief that
 Hearst was merely a decoy to lead
 them into the Barnard trap. Any
 evidence that Hearst was playing second
 fiddle to Barnard would dispense with
 the following and make him a burden
 rather than a help to the reform
 ticket. But the shrewd Mr. Hearst has
 pretty well prevented anything like that
 occurring. He has his hatchet out for
 his fellow-candidate as well as for
 Tammany. He doesn't appear to like
 Barnard any more than Lydia E. Pink-
 ham's Vegetable Compound, in mak-
 ing this so prominent in his speeches,
 Hearst is rendering a good service to
 the reform ticket, for a vote for Hearst
 is a vote for the same ticket that Barnard
 heads. He is playing good politics
 and an excellent one. The con-
 servative papers of New York are
 speaking very decently about him, too,
 now that he is willing to lead his army
 of semi-socialists into the reform fold.
 Whatever his real purpose, he is playing
 a good game.

**DEPENDABLE PROPRIETARY MEDI-
 CINES.**

It must be admitted by every fair-
 minded, intelligent person, that a medi-
 cine could not live and grow in popu-
 larity for thirty years, and today hold
 a record for thousands upon thousands
 of cures as does Lydia E. Pinkham's
 Compound, without possessing a great
 virtue and actual worth. Such medi-
 cines must be looked upon and termed
 both standard and dependable by every
 thinking person.

Chamberlain's Cough Remedy has be-
 come famous for its cures of coughs,
 colds, croup and influenza. Try it when
 in need. It contains no harmful sub-
 stance and always gives prompt relief.
 Sold by The People's Drug Store.

The soothing spray of Ely's Liquid
 Cream Balm, used in an atomizer, is an
 unparelleled relief to sufferers from Ca-
 tarrh. Some of them describe it as a
 Godsend, and no wonder. The thick,
 foul discharge is dislodged and the pa-
 tient breathes freely, perhaps for the
 first time in weeks. Liquid Cream Balm
 contains all the healing, purifying ele-
 ments of the solid form, and it never
 fails to satisfy. Sold by all druggists
 for 75c. Including spraying tube, or
 mailed by Ely Bros., 66 Warren street,
 New York.

It is in time of sudden mishap or ac-
 cident that Chamberlain's Liniment can
 be relied upon to take the place of the
 family doctor, who cannot always be
 found at the moment. Then it is that
 Chamberlain's Liniment is never found
 wanting. In cases of sprains, cuts,
 wounds and bruises Chamberlain's Lin-
 iment takes out the soreness and drives
 away the pain. Sold by The People's
 Drug Store.

JOSEPH BURNETT COMPANY, 16 India St., Boston

FIGHTING TUBERCULOSIS.

One of the encouraging signs of the
 greater attention being paid to the
 worldwide fight against tuberculosis is
 the manner in which many of the frat-
 ernal and benefit organizations are en-
 tering the campaign in behalf of their
 own members. According to a state-
 ment recently issued by the National
 Association for the Study and Preven-
 tion of Tuberculosis, no less than nine
 prominent fraternal and benefit organi-
 zations, with a combined membership
 of nearly 3,000,000, and three interna-
 tional labor unions, with a total mem-
 bership of about 100,000, have joined
 this movement within the past year,
 while a number of others are planning
 to follow their example. Thus a decid-
 ed impetus is being given to the anti-
 tuberculosis fight from an entirely in-
 dependent quarter.

A year ago only one fraternal organi-
 zation, the Royal League, and only one
 labor union, the Typographical union,
 maintained institutions for the treat-
 ment of their tuberculous members.
 Since January 1, 1909, the following or-
 ganizations have taken up the consid-
 eration of tuberculosis, and in most in-
 stances have decided to erect institu-
 tions: Brotherhood of American You-
 men, Order of Eagles, Improved Order
 of Red Men, Modern Woodmen of Amer-
 ica, Knights of Pythias, Royal Arcan-
 um, Workmen's Circle, Knights of Col-
 umbus, Foresters of America, Interna-
 tional Photo-Engravers' union of North
 America, International Printing Press-
 men's and Assistants' union, and the
 International Boot and Shoe Workers' union.

The Modern Woodmen and the
 Knights of Pythias have already opened
 sanatoria for their members at Colora-
 do Springs and East Las Vegas, N.M.
 The Yorkmen's Circle is about to erect
 a similar institution at Liberty, N. Y.
 The Royal league has maintained a sanato-
 rium at Black Mountain, N. C., for
 three years. The other fraternal or-
 ganizations mentioned have either ap-
 pointed commissions to consider the ad-
 visability of erecting sanatoria, or are
 contemplating such action. The first
 sanatorium for the benefit of workmen
 was built by the Typographical union
 in connection with its home at
 Colorado Springs, and the pressmen
 have decided to open a similar institu-
 tion. The Photo-Engravers' union,
 while not conducting a sanatorium,
 pays for the treatment of its tubercu-
 losis members in various institutions.
 The Boot and Shoe Workers' union is
 recommending to its members that they
 ally themselves with the various or-
 ganizations united in the fight against
 tuberculosis.

The work of these organizations does
 not end here. Perhaps more important
 still are the campaigns of education
 they are carrying on, designed to show
 their members how to avoid tubercu-
 losis. In this way more than three mil-
 lion men and women are receiving in-
 struction through lectures, through offi-
 cial papers, and by literature expressly
 prepared showing the dangers and
 methods of prevention of tuberculosis.
 This is a campaign of prevention which
 will save these organizations millions
 of dollars in sick and death benefits,
 besides benefiting society at large very
 greatly. The recent National Fraternal
 congress estimated that half the death
 losses from tuberculosis could be saved
 by the various fraternal organizations
 of the country. The National Association
 for the Study and Prevention of
 Tuberculosis has rendered much assist-
 ance to these organizations, and stands
 ready to cooperate in this work as far
 as possible with any society that is
 ready to take it up.

Sometimes a man is loved for the mem-
 oirs he has made, but more often for
 the money he has inherited.

PILES CURED IN 6 TO 14 DAYS
 PAZO OINTMENT is guaranteed to cure
 any case of Itching, Blind, Bleeding or
 Protruding Piles in 6 to 14 days or money
 refunded. 50c.

Use Dr. Taylor's Antiseptic Skin Soap.

CHALLENGE
 We challenge anyone to produce a case
 of Eczema or other Skin Disease that
 Dr. Taylor's Eczema Remedy will not
 cure.

CURED AFTER SUFFERING 20 YEARS
 Gentlemen:—For nearly twenty years
 I suffered from Eczema, which assumed
 the appearance of dry white scales with
 covered my whole body. At times the
 itching and burning was unbearable. In
 the morning I could gather up the scales
 in handfuls from the bed. I have tried
 every remedy I ever heard about. Doc-
 tors could not help me. Two months
 ago I commenced using Dr. Taylor's
 Remedy and today I am entirely cured.

 "THE GIRL QUESTION"
 Popular LaSalle Theater Production Will
 Be Greeted by Good House Here.

From present indications, "The Girl
 Question," which will be the offering at
 Ishpeeming theater tomorrow evening,
 will be greeted by a good house, as quite
 a large number of orders for seats have
 already been received.

"The Girl Question" is a musical play
 with an absorbing story developed in
 its plot yet filled with such humorous
 types of characters and situations that
 an audience is kept in an almost con-
 tinual stream of laughter. It is writ-
 ten by Adams, Hough and Howard, au-
 thors of "The Time, The Place and the
 Girl" and is along the same slangy,
 funny lines of every day life as that
 wonderful success.

"The Girl Question" has been staged
 by George Marion, universally acknowl-
 edged to be a successful director and who
 produced "The Prince of Pilsen," "The
 Merry Widow," "The Stubborn Under-
 ling," "The College Widow" and dozens
 of other record breaking hits and Mr. Mar-
 ion's name is an assurance that the play
 will be full of dramatic climaxes, beau-
 tiful stage pictures of color and ensem-
 ble as well as pretty, graceful dancers
 replete with action.

The production has a record of 399
 successful performances at the LaSalle
 theater, Chicago, and on a tour through
 the larger eastern cities last winter
 crowded every theater in which it
 played.

The cast, which will be seen here, is
 a notable one and the songs include
 "Good-bye Pal," "I Hate to Work on
 Monday," "Gee Be Good to Me, Kid,"
 "What Me Around 'Till I'm Dreamy,"
 "When Eyes Like Your Look Into Eyes
 Like Mine," "The Old Buck and Wing"
 and "Do Something."

 A lot of boys' Ulsters at \$2.50.
 (10-22-21) F. BRAASTAD & CO.

Ladies' Dresses, Saturday, at Braas-
 tad's. (10-22-21)
FROM MORGAN'S CURB LETTER.
 The entire New York list opened con-
 siderably lower this morning, on the
 raising of the Bank of England discount
 rate to 5 per cent, but gained slowly
 during the day and several stocks re-
 covered and rose a point from the open-
 ing. The trading was light, except in
 Steel common. New York looks for
 lower prices.

In Boston the Cole-Ryan stocks, ex-
 cept North Battle, were strong. This
 latter was fractional, were lower. The
 Coalition, Green and Green hold well,
 the latter being bought by the same
 house which has been taking it for the
 past ten days. Mass and Superior were
 a shade lower, and the balance showed
 no material change.

The feature on the curb was Indiana,
 which was very active and sold up to
 7 1/2. It closed yesterday at 5 1/2 bid. The
 strength was due to the cutting of a lode
 by No. 2 drill at a depth of 570 feet,
 the lode showing richest kind of copper
 rock. Chief was strong, selling at 1 1/2.
 Superior was in good demand and
 gained over a point. This stock will sell
 higher. Superior & Pittsburg is one of
 the best producers at this level. Also do
 not overlook those Tintic stocks.

Yesterday's prevailing prices were:

DEAFNESS CANNOT BE CURED
 by local applications, as they cannot reach
 the diseased portion of the ear. There is
 only one way to cure deafness, and that is
 by constitutional remedies. Deafness is
 caused by an inflamed condition of the
 mucous membrane of the Eustachian Tube. When
 this tube is inflamed you have a rumbling
 sound in your ears, and when it is
 entirely closed, deafness is the result, and
 unless the inflammation can be taken out
 of this tube, no restoration to its normal
 condition, hearing will be destroyed forever; nine
 cases out of ten are caused by Catarrh, which
 is nothing but an inflamed condition of
 the mucous surface.

It gives One Hundred Dollars for any
 case of Deafness caused by Catarrh that
 cannot be cured by Hall's Catarrh Cure
 Send for circular.

 DAY**

Saturday, Oct. 23

**Only Two More
 Days**

**AND THE LAST CHANCE
 IS GONE FOREVER**

**Our Prices Have Made a
 Sensation and Many
 Fine Pianos Have
 Been Sold.**

**COME AT ONCE AND GET THE
 BARGAIN OF A LIFE-TIME.
 A HIGH-GRADE PIANO
 FOR ALMOST
 NOTHING.**

For a number of years the Pianos and
 Inner-Player-Pianos, manufactured by
 The Cable Co., who are the largest man-
 ufacturers of musical instruments in the world,
 have been sold in this territory.

They are to be found in hundreds of
 homes and their value and musical excel-
 lence is well known to the people.

When we made the announcement that
 we intended to close out our branch
 house at Ishpeeming and that we would
 dispose of our entire stock at a great
 reduction in price, many customers
 bought at once.

This week has been the banner week of
 our sale and we have been surprised our-
 selves at the number of instruments we
 have sold.

Our stock is getting low but we still
 have an assortment and we are decid-
 edly determined that every instrument be sold
 by Saturday evening.

REMEMBER: We sell direct from the
 factory.

Every instrument is fully guaranteed
 for ten years.

Ask your banker who The Cable Co.
 is and whether it is financially respon-
 sible.

If you do not buy a piano before this
 sale closes you will never have another
 opportunity to purchase one of our in-
 struments at this low price.

You can now save 100 to 150 dollars
 on any Piano you buy.

We have one Piano left which has
 been used a short time. The price when
 new was \$350; now, \$190. It is in first-

 ated at 549 West Washington street, comprising

Copper Country

NEW WHOLESALE DISTRICT.

Houghton's Water Front is Taking on a Commercial Character.

Houghton possesses a wholesale district which is growing rapidly. It starts with Roach & Seiber's dock and warehouse and extends along Portage lake to the Carroll foundry.

Roach & Seiber have transformed the old Hennes dock and warehouse into a modern wholesale grocery and produce wholesale house, with excellent facilities for handling goods and with a particularly attractive suite of offices. Cars are taken directly into the building and the handling of water freight is as conveniently arranged.

The Peninsula Wholesale grocery is just completing the finest wholesale house in the copper country one block east of Roach & Seiber's. This is a modern, fireproof three-story building, a perfect example of concrete construction. It presents an imposing appearance both from the lake front and the street. The Mineral Range is putting a spur into the building and a new dock takes care of the lake freight.

Adjoining the wholesale grocery is the warehouse of the Portage Lake Hardware company, where a big stock of mining supplies will be kept. This company has taken over the former warehouse of the Peninsula Wholesale grocery and is improving it.

Passing the Amphidrome, the warehouse of the Northern Garage & Supply company is reached. This concern is to deal in automobiles and accessories, motor boats and their parts and conduct an automobile repair business.

The I. E. Swift company's warehouse is next. This concern conducts a mining supply business and its warehouse carries large stocks of heavy hardware.

IMPROVE THE ONIGAMING.

Houghton Yacht Club Makes Plans for Remodeling Clubhouse.

One of the most attractive building schemes which the present fall has brought out is that of the Onigaming Yacht club, which is to enlarge and generally improve its clubhouse. A meeting of the club was held Wednesday night in the office of Gay & Sturges and it was there decided to sell bonds in the sum of \$10,000, which sum will be expended in the improvement of building and grounds.

Architect Paul H. Muenell submitted a preliminary sketch, and it was accepted. The present building is one story and a half high. It is to be given an additional story. It will have broad verandas on both the first and second floors, facing the lake. The main floor will have the men's lounge room, men's locker and bath room, a main dining room 26 by 42 feet and private dining rooms. The second floor will contain a ball room and ladies' parlors and dressing rooms. The attic story will be fitted up for servants' quarters.

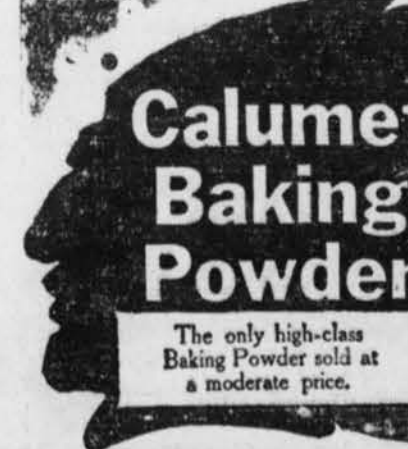

The Onigaming club had a prosperous year in 1909, having now closed for the season. The governors report a profit of \$1,600 on the season. The club is assured of increased membership and a more constant patronage next year. Mr. Muenell is now drawing the working plans of the clubhouse and shortly will be in a position to ask for bids.

FREIGHT TRAFFIC IS LARGE.

According to the general freight agents of railroads running into the copper district the freight now being hauled into the region, and especially into Calumet, is the largest ever handled. No very serious shortage of cars is anticipated, as the fact of being moved with a great deal more expediency than in years gone by and the number of cars on the various lines is vastly greater than ever before. There is a congestion of traffic in the Chicago yards at the present time, but this is said to be unavoidable. No very serious delays have been experienced in getting copper country freight through this year, despite the congestion at some of the large centers. The passenger traffic, it is claimed, is showing a considerable falling off probably due to the fact that everyone is staying at home because of the heavy fall business.

CALUMET PASTOR TO LEAVE.

Rev. J. O. Fisher, who has been pastor of the Calumet Congregational church the past two years, will preach his last sermon there a week from Sunday. About Nov. 1 Mr. Fisher will leave for other fields, probably going to Princeton, Minn., whence he has received a very flattering call. He preached at Princeton last Sunday. Rev. Mandus Barrett of Olivet, Mich., will arrive to take charge of the Calumet church about the first of November.

BOTH OFFICES OPEN EVENINGS.
Phones: CALUMET, 64 and 75. LAURIUM, 450, 520 and 605.

HIGH SCHOOL FOOTBALL.

Probable That the Schedule Will Be Lengthened This Fall.

The copper country high school football schedule is to be lengthened by at least two games, and possibly by four. The championship has been settled, the Calumet High relinquishing all claims in favor of the Houghton team, which has played three games, won two and tied one, the tie game being that of last Saturday with Calumet when the score was 0 to 0. Houghton defeated L'Anse and Hancock. Calumet lost to Hancock and took a forfeited game from L'Anse. Hancock defeated Calumet, lost to Houghton and won from L'Anse by forfeit. This gives Calumet second place, Hancock third and L'Anse last. It has been agreed, however, that Calumet and Houghton play at the Hancock Driving park tomorrow afternoon. The Calumet High will present their strongest lineup, with Lavers in the left half position. This greatly strengthened the team last Saturday. A week from tomorrow the Calumet and Hancock will play and the Calumet boys believe they will show the Hancock High under with a big score. They are also confident that they will defeat Houghton tomorrow. The Calumets have been working hard in practice, with competent coaches, and they will have two or three fine surprises to their opponents. It is likely that Hancock and Houghton will also meet again, probably at Hancock two weeks from Saturday.

NEWS OF NAVAL RESERVE.

Yantic Is to Be Equipped With Modern Guns, Says Lansing.

The following is a dispatch from Lansing: "Michigan's two warships are to be equipped with modern guns, capable of picking shots at an enemy in a warlike manner. The adjutant general received a letter this morning from the navy department stating that four-inch pieces will be shipped to the state sufficient to equip the Don Juan de Austria, stationed at Detroit, and the Yantic at Hancock, as well as sub-target guns for the armories of the two naval militia organizations."

PIONEER WOMEN IN REUNION.

A number of pioneer women of the copper country were entertained Tuesday evening by Mrs. Margaret Healy at her home at Houghton. There were present Mrs. Peter Ruppe of Calumet, Mrs. Christ Schenk of Calumet, Mrs. Jacob Young and Mrs. William Allen of Houghton and Mrs. George Ruppe of Hancock. Mrs. Peter Ruppe and Mrs. Christ Schenk came to the copper country fifty years ago this month, and all of the members of the party lived at the old Cliff mine in the early days. They spent the evening in talking of old times, in singing old songs and in enjoying a dinner. It was a social affair that was unique and one based on a tender sentiment.

WORK ON NEW RAILROAD.

Construction work on the Mineral Range spur which will connect the Hancock mine with the mill is being rushed. Part of the work is being done by Evers & Co. of Houghton, and part by Wilhelm & Dillon. The route leads from the shafts of the mining company to a point just west of the Hancock Driving park. It is expected that the line will be completed this fall so that construction operations at the mill can be conducted uninterruptedly next summer. With the mill built and in commission, West Hancock will be one of the most important portions in the city.

INVITED TO DULUTH.

Frank C. Condon, secretary of the Hancock lodge of Elks, has issued a circular calling the attention of the members to the invitation received from the lodge at Duluth to attend the dedication of its new temple. The dedication will occur Friday, Oct. 29, and will be followed by a monster social session at which all the lodges of the Northwest will be represented. Hancock Elks are trying to secure pledges from enough members of both the Hancock and Calumet lodges so that a sleeper may be chartered.

ANTI-TUBERCULOSIS SOCIETY.

Dr. L. L. Hubbard, president of the Houghton County Anti-Tuberculosis society, will be home this week from an Eastern trip, and as soon as he returns it is the intention of leading members of the society to ask for a meeting for the formation of new plans in the white plague campaign. Miss Bearhope, visiting nurse for the society, has resigned and returned to her home in Boston. It is believed that Miss Hubbard, who has had college preparation for the work, will be her successor.

MAGNIFYING TRIFLES.

Some men do splendidly when they have the encouragement of good business, the tonic of good times, writes Orison Swett Marden, in Success, but when business is dull and goods remain on the shelves unsold, or they have any little discord in their homes, they are all upset. They are like children; they need to be encouraged all the time for they cannot work under discouragement.

I have seen men lose their temper and waste energy swearing at a knot in a shoestring, or something else just as insignificant. The foolish or ill-tempered have no range in their scale. Small irritating things come to, and "tag" us all; but the only way to counter them is simply to smile and "pass them up."

Everyone owes it to himself to live a real life, whether he is rich or poor; to be and not to seem. He owes it to himself at least to be genuine. The flower of the family isn't necessarily a blooming idiot. Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by The People's Drug Co.

SAYS INDIANS ARE ROBBED.

Director of Missions Declares Whites Are Taking Land from Red Men.

Washington, Oct. 21.—Rev. Wm. H. Ketcham, director of the bureau of Catholic Indian missions, has returned to Washington after a four months' tour of inspection of Catholic Indian missions that included more than 600 miles of overland travel in Minnesota, Oklahoma and the Dakotas, and terminated with a visit to the reservation of Southern California. Of the conditions that confronted him, Dr. Ketcham said: "Nowhere did the condition of the red men seem so pitiable as that of the Mission Indians of California. Some have been driven from rich valleys to the barren rocks of the mountain tops. There is dispute as to the boundary lines of several reservations, the work of early surveys have been obliterated, and the 'landmarks' removed, evidently by designing intruders."

"Where boundaries are disputed, reservation lines can not be put up. In some instances the Indians contend that while they are placing fences within their lines, which the other have foresters in charge of adjoining forest reserves endeavor to exact a tax from them for their cattle, which can not be confined and which at times forage the land reserved by Uncle Sam for forestry purposes. Yet, the Mission Indian appears to be between the devil and the deep, blue sea."

"Where boundaries are disputed, reservation lines can not be put up. In some instances the Indians contend that while they are placing fences within their lines, which the other have foresters in charge of adjoining forest reserves endeavor to exact a tax from them for their cattle, which can not be confined and which at times forage the land reserved by Uncle Sam for forestry purposes. Yet, the Mission Indian appears to be between the devil and the deep, blue sea."

Mining News

COPPER METAL MARKET.

The treasurer of a copper company, discussing the copper metal situation, says: "If the Utah Copper company should curtail its output by 10 per cent it would increase its cost of producing copper by about two cents per pound. The same would be true of any other company. In other words, the reason that no noticeable curtailment in the production of copper has occurred is because production can be carried on a large scale as economically by a majority of the big producers, as on a lesser scale. This may be considered one of the contributing causes towards the large surplus of copper on hand at the present time. It is generally admitted by officials of copper companies that should the price of the metal increase two cents or three cents per pound, said concerns would immediately work their properties to their maximum capacity. This would net each company a larger profit per pound sold. Before any increase in the price of the metal does occur, however, a much larger demand than the present must be experienced. It is true that prospects for higher levels for the metal have been greatly enhanced by the increased demand which has recently developed in foreign countries. At the present time both France and England are making rapid strides towards the electrification of their steam railways. The industrial lines are also creating a large demand for the metal, new machinery being in constant demand. If as has been rumored, J. P. Morgan & Co. are about to bring about a consolidation of a large copper producing company, the result would be to bring about a stability of prices for the metal market and the copper share market would appreciate to a considerable extent. Such a consolidation cannot be regarded with too much importance, as matters of this kind develop rapidly under the proper impetus."

NOTES OF COPPER NEWS.

The Daily-West quarterly statement is out. It shows receipts from all sources of \$128,316.43 and disbursements, not counting the \$50,000 dividend dis-

ARIZONA COMMERCIAL.

The Arizona Commercial smelter is now in operation with an equipment second to none in Arizona so far as modern machinery and general design is concerned. The smelter built in with a full supply of lime, coke and fluxing material on hand, so that any copper ores received can be readily handled. The company has ready for smelting a considerable quantity of ore taken chiefly from the sixth level of the Eureka shaft, where a large force of men is now at work, about two miles down the canyon from the smelter and along the Arizona Commercial line of railway. During the past week, the pumping of the water from the seventh level of the Eureka shaft has been finished and a station for the installation of a new and powerful pump is being set. The pump is now on the ground, and as soon as it is in place, drifting will probably be commenced on the seventh level.

MONTANA-CORBIN.

According to advice from Butte, operations are to be resumed at once at the properties of the Montana Corbin Copper company in the Corbin district. It is stated positively that the company successfully has been financed, and that sufficient money has been placed in the treasury to maintain operations to the producing point. The new plant is in first-class condition and has capacity for sinking to a depth of 800 feet. It will take about two weeks to unwater the shaft, which is now down to a depth of 235 feet, and as soon as this work is completed sinking will be resumed to the 500-foot level before any cross-cutting will be done. When operations were suspended about eighteen months ago the property had been fairly well developed, locating a very promising vein at a depth of 135 feet, and sufficient work was done on the 235-foot level to prove the existence of a strong vein nearly two feet in width.

BUTTE CENTRAL.

The Butte Central Copper company, which owns the Ophir mine in Butte, is making arrangements for a resumption of work. The company's consulting engineer has advised the sinking of the shaft, which is now down 500 feet, to a depth of 1,500 feet, before cross-cutting to the vein. This will give sufficient depth to get below the barren zone, and it is the opinion of Consulting Engineer Creden that the company has one of the cross fissures which have made the richest of the Butte mines. The concentrating ore in the upper levels will probably be treated at a plant to be erected, as they possess good values, which can be taken out while the shaft is being sunk. An underwriting syndicate is being formed to provide the company with \$200,000.

MIAMI.

At the Miami interest at the moment centers principally in the work which is

S.S.S. NATURE'S CURE FOR RHEUMATISM

In a disease so painful as Rheumatism, medicines containing opiates and nerve-quieting drugs are often used. Such treatment is dangerous not only because it frequently causes the sufferer to become addicted to the drug habit, but medicines of this nature are always injurious to the system. Rheumatism is a disease of the blood, and its cure depends entirely upon a thorough purification of the circulation. As long as the blood remains saturated with uric acid, an inflammatory condition of the nerves, muscles and tendons of the body will exist, and the pains, aches, soreness, and hot, feverish flesh of Rheumatism will continue. The one safe and sure cure for Rheumatism is S.S.S. It is nature's remedy for this disease, made entirely of the healing, cleansing juices and extracts of roots, herbs and barks from the natural forests. S.S.S. does not contain anything that is in the slightest way injurious to the system. It is absolutely and purely vegetable, and free from opiates or sedatives of any kind. S.S.S. cures Rheumatism by removing the uric acid from the circulation, it makes the blood pure, rich and healthy so that instead of depositing sharp, uratic impurities into the muscles, nerves, joints and bones, it nourishes every portion of the body with natural, healthful properties. Book on Rheumatism and any medical advice free to all who write and request it.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

now being done in preparation for the erection of the concentrator, which is to be one of the most modern and largest in the Southwest. The supplies are arriving daily over the new railroad and work will soon be begun in earnest. At first the concentrator will be erected with only one unit, giving it a capacity of 1,000 tons of ore a day, but the second unit, providing for a total capacity of 2,000 tons, will be added as soon as it is possible to do the work. Inasmuch as the work of constructing a plant of such size and embodying such a variety of detail presents opportunity for many delays, the completion of the concentrator can not reasonably be set for any particular time. Underground at the mine, the blocking out of ore is being continued on the first four of the seven levels established.

The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by The People's Drug Store.

GRINNELL BROS.' EXTRAORDINARY SUMMER RESORT PIANO SALE

Undoubtedly Offers the Most Remarkable Bargains in High-Grade Pianos Ever Known Anywhere at Any Time

Another Lot of Resort Pianos Just Placed on Sale

Every day finds something new and different in this sale. The stock is constantly changing. To take the places of the instruments sold additional returned renters are arriving daily. For this reason we cannot give a list of the Bargains, but we assure you that our warerooms are overflowing with Beautiful Pianos in the very finest condition—EVERY PIANO A MATCHLESS BARGAIN. The sale stock includes some of the Choicest Pianos you ever saw, at the Lowest Prices you ever heard of. For instance we offer—

City Brevities
Today's weather: Unsettled weather with snow; stationary temperature. Yesterday's temperatures: Seven a. m., 45 degrees; noon, 48; 7 p. m., 45. Maximum, 49 degrees; minimum, 45.
Mrs. M. A. Kane, who has been visiting here, left for Memphis, Tenn., last evening.
St. Mary's guild will meet this afternoon with Miss Helena Atfield, 239 Baraga avenue.
Miss Leola McGruer, of Green Bay, arrived yesterday to visit with Miss Ruth Beaumont.
George Shiras III left last evening for Washington, after spending several weeks in Marquette.
Professor Mills of the Normal inspected the high schools at Ishpeming and Negaunee yesterday.
Mrs. George Shiras and daughter, Miss Ellie, and Miss Fanny Jopling left last evening to visit in Cleveland.
Miss Anna DeLaune, who has been visiting with Miss Pearl Hogan, has returned to her home in Piquette.
The Ladies Aid society of the Baptist church will meet with Mrs. P. B. Spear, 461 East Ridge street, at 3 o'clock this afternoon.
John A. O. Johnson and Mrs. Anna Jacobson, of North Marquette, were united in wedlock by Justice Byrne Thursday afternoon.
Mr. and Mrs. Oliver Morris have returned to their home in Piquette, after a few days' visit with Dennis Hogan and family.
The Young Women's guild of St. Paul's church will meet at the Guild Hall this afternoon at 2:30. A large attendance is desired.
The Woman's society of the Presbyterian church will meet with Mrs. J. H. Godwin, Pine and Prospect streets, this afternoon at 3 o'clock.
Mrs. Henry Russell, who recently underwent an operation at St. Luke's hospital, is convalescent and has been removed to her home on West Ridge street.
An enjoyable birthday surprise party in honor of John Berry was held at the Berry home on Champion hill last evening. Twenty young people were present.
Professor J. G. Carter Troop will speak in the high school assembly room this evening on "George Eliot," this being one of a series of six lectures he is giving on English novelists. Twenty-five cents admission will be charged.
Major Percy Morton of Milwaukee delivered an address at the Salvation Army Hall last night. This evening the major will speak again. His topic will be "Then and Now," or "The Old Way and the New." The meeting will be preceded by an open air service at 7:30 o'clock. Major Morton is the Lake divisional officer and is an earnest and forceful speaker.

Upper Peninsula
Fishermen Heavy Losers—Fishermen on Green Bay suffered heavy losses as a result of the fierce storm last week. Nets valued at thousands of dollars were either destroyed or badly damaged and valuable catches of fish got away.
Accused of Embezzlement—Wanted at Escanaba on the charge of embezzlement, Fred Eastie was arrested at Chicago this week. Bastie was formerly employed as delivery clerk by the Hoyer Baking company and several weeks ago left the city, taking with him it is alleged, money that he had collected.
Milk Ordinance Proposed—Between now and the next meeting of the city council City Attorney Jennings will prepare a special ordinance, prohibiting the sale of diluted or impure milk in Escanaba and giving the chemist important powers. The council members have all announced themselves in favor of the ordinance.
Sparks Cause Costly Fire—A fire started by sparks from a traction engine destroyed the barn at the farm of Conrad Ralinger near Fayetteville Delta county. In the building were stored seventy tons of hay all of which is a complete loss. One horse which was tied in the stable was burned to death, so fast did the flames spread. A three-story building owned by Supervisor Charles Arnold and Leon Devet was also burned.

Local Option Campaign—The first gun in Menominee county's first no-license campaign was fired this week when a petition from the first precinct of the township of Stephenson was received at the court house, asking that the local option issue be submitted at the coming spring election. It is claimed by the supporters of the movement that the other petitions will be filed at once and that the required number of names will soon be in.
Will Build Fine Clubhouse—At a meeting of the Soo club of Sault Ste. Marie held to discuss the advisability of purchasing a site and erecting a clubhouse, the sentiment of those present was unanimous in favor of the project. If present plans are perfected the club will have a home that will do it credit and be an ornament to the city. It is proposed to erect a \$12,000 to \$15,000 building. More than half the bonds have already been subscribed for.
Meat Peddler Arrested—The peddling ordinance which went into force at Escanaba some time ago was applied for the first time this week and Mitchell Fillion of Flat Rock was the victim. Chief of Police Rowan caught Fillion on the street selling meat without a license and after ascertaining that the peddler had purchased the beef from a farmer immediately placed him under arrest. The state laws prohibit anyone who sell their own products from the necessity of paying a license, but Fillion did not come under this class and Judge Glaser fined him \$5 and costs.

Fights for a Healthier City—Determined to continue the fight for healthy conditions in Escanaba, the city council by a vote lacking one of being unanimous refused to reconsider the ordinance authorizing the appointment of a city chemist. The dissenting vote was that of Alderman Valentine, who questioned the legality of the ordinance and whether the duties of the city chemist could not be performed by the health officer and state chemist. The city attorney asserted that the council had a perfect right to appoint a chemist to inspect the water and milk, just the same as it had a right to appoint any officer to act in the interest of public health, safety and welfare. "Let us put no more obstacles in our path for a healthier Escanaba," urged Alderman Priestner. "We have started our fight by appointing a city chemist to help us. We are making a good fight. We want to keep our water clean and we will make an ordinance to keep the milk pure. We must strike now to lessen the typhoid danger and any reconsideration of any ordinance for the benefit of public health or public safety would be adding a big impediment to those which we must clear away before our work is through. I believe that when we frame the milk ordinance, we should also make arrangements to have people owning wells less than forty feet in depth deepen them or connect with the filtered city water. When we have accomplished these things and when we have cut to pieces the typhoid rate that has been with Escanaba for years, then the council will have performed something worth speaking about."

Agency for Oil Burners—J. E. Reau of Marquette, has taken the upper peninsula agency for the Gem oil burners, manufactured at Willoughby, O., which were demonstrated in the city last week. It is claimed that these burners will successfully generate natural gas out of common oil without a wick, and that they will heat perfectly any cook stove, range, heating stove, furnace or small sized boiler, with safety and at less cost than wood or coal.
Creamery is Thriving—The creamery that recently went into operation at Skandia is said to be doing a steadily increasing business and about 600 pounds of butter per week is being manufactured. A few days ago, the company started a cream wagon, which will go to the farmers' houses and gather up the cream for the creamery. Quite a large amount of cream is being received by rail from points on the line of the Marquette & Southeastern railway.

Much Wiring to Do—The employees of the light and power commission are unusually busy just now wiring houses for electric lights. Though it has been some time since the city has had a fire, the fire at the station has been completed for this year, but the covering of that part of the dome under which new piers have been built will not be finished for about three weeks.
Nothing to Talk About—Now that the world's championship has been decided and the baseball season has closed, the lovers of sport are at a loss to know what to talk about. The tales of how Detroit might have beaten the Pirates are getting stale and it is a little early to get up much interest in the possibility of next season. Comparatively few of the "boys" take much interest in football, owing to Marquette's great distance from any college town. Indoor baseball does not seem to be a go here and there is no place where hockey can be played. There seems to be considerable interest in basketball and soccer, tennis are like to be organized within the next few weeks. Interest in this sport would be greater if there were a more suitable place in which games could be played. Legion Hall is not only too small but there are no accommodations for spectators.

NEW BERLIN OPERA HAS INDIAN THEME.
Arthur Nevin's Material Drawn from the Blackfeet Tribes in Northern Montana.
Helena, Mont., Oct. 21.—The announcement that the Berlin Royal Opera would produce next season Arthur Nevin's Indian opera, "Poa," naturally interests Montana deeply because the material for the opera was drawn from the legendary lore of the Blackfeet Indians in northern Montana. The production of this Montana opera is declared to be "the first recognition of importance given by musical Europe to America," as well as "the first serious American opera ever produced in Berlin."
The possibilities of producing a genuine American opera from the Blackfeet legends was called to Mr. Nevin's attention by Walter McClintock, whose history of the folk lore and legends of the Blackfeet tribe is about to be published. A visit to this state was made by Mr. Nevin, the local atmosphere studied, and the theme evolved from a legend. The lyrics are ancient songs of the tribe. The libretto was put into literary form by Randolph Hartley.
Poa, the leading character, is a Blackfeet brave who is in love with Natoya, a beautiful maiden, but she is in love with Swatisi, a warrior and hunter and an evil man. To be rid of Poa, Natoya tells him she will have him for a lover until the scar on his face is removed. A medicine woman informs him that the scar was affixed by the Sun God and can only be removed by him. Poa must penetrate into the kingdom of the Sun God.
Poa sets out and endures great hardships before he finally reaches the court

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows:

The chief topics of discussion were the increase in the Bank of England's discount rate and the Union Pacific statement. The former, although fully expected in view of the tenor of the past few days, had the effect of unsettling the list during the early trading and caused a reversal of the bearish attacks which have been noted during the past few sessions.

The final quotations follow: Amalgamated... 8 3/4, Anaconda... 10 1/2, Am. Smelter... 10 1/2, Am. Loco... 10 1/2, etc.

The closing prices at Boston were: Adv... 5 1/2, Arc... 5 1/2, All... 5 1/2, etc.

Paine, Webber & Co's Wheat Summary. Paine, Webber & Co's Chicago correspondent said yesterday concerning the wheat market:

"Perhaps the most surprising thing in the wheat trade today was the buying movement for the December wheat, which was a complete recovery to the closing figures of yesterday. The high English bushel rate and the weak Liverpool cable with the favorable Argentine crop report and the increased stocks at Russian ports and continental centers, were the bearish features at the opening. The cash premium in the Duluth market was three cents over the December. Northwestern Miller report on flour is most bullish, suggesting a great output for the week and the mills selling faster than they are grinding. Kansas City reported Texas mills steady buyers of wheat there, while St. Louis claimed that the largest hard wheat mills there are running half time and the flour demand is slow. So long as the cash wheat premiums hold, we believe that buyers who take hold on the depression will be in right."

Cotton Market. Paine, Webber & Co. had this to say of yesterday's cotton market: "It would be wonderful, indeed, if the amount of cotton ginned to date was not more than one-half of the entire crop, and therefore the unsecured remnant of this crop will not be a burden. The spinner finds the market for the finished product wanting gradually upward and every indication points to a further sharp advance. If the market will stand the punishment of heavy receipts that have already occurred and remain at practically the top figures of the season, those who sell cotton on the theory of a reaction may be treading on volcanic soil."

CAMPAIGNS ON BOTH SIDES OF THE CAPITAL.

Virginia to Vote for Governor and State Officers and Maryland for the Legislature, While Washington is Politically Marooned—Plan to Bar Negroes from the Ballot the Issue in One State.

Washington, Oct. 21.—While Washington, as the seat of government, is untroubled in the unusual calm of late October, with practically all high officials away on prolonged vacations or traveling, state campaigns are raging on either side. One is the campaign in Virginia for the election of a governor and state officials for four years and of a legislature. The other is a campaign in Maryland for a legislature and some minor state officials and over a constitutional amendment which, if adopted, will disqualify most of the Maryland negroes from voting, unless they have property or possess a good education.

Only two weeks remain for these campaigns and yet, much as there is at stake, neither campaign has been sufficiently brisk to awaken more than a passing interest in Washington where there are many thousands of Virginians and many thousands of Marylanders among the resident population.

The Virginians take naturally to politics. The Democrats had a whitening primary campaign for the nomination of William Hodges Mann for governor. Since then it has been impossible to awaken any enthusiasm. The administration has sent a few of its big guns to the state to help in the campaign, headed by William P. Keat, until recently consul-general at Guatemala, Secretary of Commerce and Labor Nagel has just returned from a short stumping tour in Virginia, during which he was cordially received. But audiences are small and the campaign is not advertising bring out only personal friends to hear the local orators.

There is a growing sentiment throughout the Democratic stronghold of Virginia for putting the Republicans in for one term that they may take an inventory of the state for the purpose of the business men are putting it. But the sentiment is not strong enough yet, and no one seriously questions that Democratic candidates for the state offices and, with a few exceptions, for the legislature will be elected by good majorities.

Virginia and Maryland elect their United States senators a year earlier than do nearly all the other states. Senator John W. Daniel, "the lame lion of Lynchburg," is running this year for another term. He has no opposition in his own party, and will have none worth mentioning in the Republican party. Virginia is intent upon keeping him in the Senate for life, and no public man there dares contest for the seat of the old confederate. Maryland elects its senators in 1910, and its governor, John W. McKim, is in the battle of the Wilderness.

Isidor Rayner, one of the finest word artists in the senate, and withal a profound lawyer, will be re-elected by the legislature which the Marylanders opened at 10 1/2 to 10 3/4 highest, 10 1/2 to 10 3/4 lowest, 10 1/2 to 10 3/4 closing, 10 1/2 to 10 3/4.

Republicans are handicapped in the campaign, "Mars Sidney" Mudd, the Republican congressman from southern Maryland, who is probably the most skillful man in the United States in lining up negro voters, is ill in a sanatorium. The Republican party in Maryland, with its assistance, especially as the negroes are showing great indifference. Representative W. H. Jackson, of the famous Eastern Shore district, who has been a lavish campaign spender, is not on hand this year with funds of money.

The prohibition question is figuring to some degree in Maryland this year. The rural voters want prohibition, and thus are in line with most of the other southern states. Southern Maryland and the Eastern Shore have been asking for a statewide enactment, but have been put off by the pleas of Baltimore, by far the most populous city in the state. Southern Maryland and the Eastern Shore also want the constitutional amendment eliminating the ignorant negro vote. The farmers of those two sections are saying to the saloon keepers of Baltimore that unless the latter take hold and roll up a majority in Baltimore, they will not support the amendment by heck, there will be reaction in the legislature next winter over the prohibition question. The rural voters are strong enough to force a prohibitory enactment.

It has sometimes happened that Maryland voters living in the city of Washington constituted the balance of power. It was undoubtedly true last year, when Maryland was exceedingly close as between Taft and Bryan. This year there is so little interest that practically no Maryland voters will go home from Washington. Usually, because of the proximity of Virginia and Maryland, there is a high old time among a coterie of rival workers getting the Washington voters back to both states.

NO MORE "WHITE HORSES." System of Drawing Advance Pay in Department of Justice is Ended.

Washington, Oct. 21.—The last of the "white horses" has passed away at the department of justice. These "white horses" were not of equine stock, but constituted part of a system which has been current at many offices, though never specially authorized by law, by way of accommodating employees in need of funds between pay days. Attorney General Wickeshaan found that many employees got into the habit of running out of funds just after pay days, which occur twice a month, and he directed special attention to the matter. The Stafford Drug Co. are our sole local agents. Ask for monthly bill letin of late recovery.

WHEN DINNER IS OVER LA VERDAD Cigars compose the smoker's next course. They are a fitting climax to an elaborate banquet or a simple home meal. Gladstone, the famous English statesman, always smoked a clear Havana cigar after meals to aid digestion. LA VERDAD cigars are the best aid to digestion. They soothe the nerves and furnish energy. Made in Tampa—sold everywhere. Your dealer asks him for them. RON FERNANDEZ CIGAR CO DULUTH, MINN.

LOOT AMAZES THE POLICE. St. Louis Prisoner's Trunk Bulges With Watches, Rings and Other Valuables. BOOTY OF BURGLARIES. W. R. Mueller, Once a Lieutenant in the Austrian Army, He Says, is Master of Five Tongues and Seven Trades.

St. Louis, Mo., Oct. 21.—If John O'Brien, who has been in the city a long time, is to be believed, a lot of trouble for William R. Mueller, a man whose effects, which were seized under orders from Chief of Detectives Smith, was brought to light a greater quantity of stolen property than has been recovered in a like manner by the police in years. Mueller denies also, where all he knows anything about, where all the loot came from originally. He bought it all from John O'Brien, he says, three weeks ago, paying \$600 for it.

Mueller, who is forty years old, resides at South Fourteenth street, and it was in his room that the detectives found a large trunk bulging with stolen goods. In the lot are about twenty gold watches, a like number of chains, several cigar boxes filled with gold rings, buttons, rings, fountain pens, eye-glasses, table silver and jewel boxes, to say nothing of a half-dozen men's suits, a camera, marine glass and articles which, laid out on the top of Chief Smith's desk, resembled a pawnshop window display. The trunk includes a number of trunks, in which the articles have been recovered. Mueller had seven uncut diamonds when arrested.

A diamond bag contained about 500 pieces of jewelry, in which were found two loaded revolvers, half a dozen leather holsters and several boxes of cartridges. From moneys and by comparing the numbers found on the cases or works of the watches the detectives have already learned that the jewelry plays a part in a dozen or more burglaries. A number of trunks, one was presented to Garrett Coleman by the members of the Anchor Lodge, stolen from Mr. Coleman's home, 3040 Botanical avenue, May 20 last, was found. The jewel had been broken or saved to pieces and two diamonds which were set in it had been recovered from the establishment of protective forests where much destruction has been caused by floods, is described in Science. Says this paper: "Toward the close of the eighteenth century about 2,000,000 acres comprised in the department of the Landes were hit by a series of rains shifting sand dunes and disease-breeding marshes. This section is now one of the richest most productive, and healthful in France. This change has been brought about by the intelligent cultivation of pine forests. Immense tracts now cover the country, the sand dunes and marshes have long since disappeared, and the wood, charcoal, turpentine, resin, and kindred industries have brought prosperity to the department, which was formerly the most barren and miasmatic in France. The climate is now mild and balmy; the great change being wrought by the forests. The thin layer of leaf beneath the sandy surface, formerly impervious to water, has been so pierced by the roots of the pine that there is now thorough drainage to the spongy earth below. The manufacture of resin, tar, turpentine, pitch, pyroxylic acid, and wood vinegar is conducted about the same as in Georgia and the Carolinas. The trees destined for 'short life' are stand as soon as they are big enough to stand bleeding, when they have a circumference of a foot or fifteen inches, the sap of young trees being the only production of a new forest for a time, and when the 'thinning out' time comes they are 'bled to death,' and the timber used largely for pit props, the English being guaranteeing a steady and profitable market. The 'standing trees' are never thinned until they are about three feet in circumference. When these have reached the age of fifty or sixty years they are cut down and utilized for telegraph poles and railway-ties. To prevent the spread of forest fires, wide trenches are dug about limited areas and the space kept clear."

MARKED FOR THE REAPER. About three years ago Mrs. L. Hetkes of 819 Kirkland street, Oakland, Cal., called at our office with a girl, fifteen years old, who had a long illness. She stated that she had lost a daughter through kidney disease and the doctors now told her this one was in the same fix and that she could live but a short while.

The mother was nearly distracted. We told her that kidney disease was really inflammation of the kidneys and that it was in fact incurable under the old remedies, but that an emollient for kidney inflammation had been discovered and that the child would probably recover. The mother took the treatment with her.

We skip three years. A few months ago Mrs. Hetkes called with a healthy young girl, who was the very picture of health. She introduced her as the dying patient of three years ago, and told us to refer anybody in the world to her. She stated the recovery was complete about the events of the only emollient for inflammation of the kidneys, the world has ever seen, ask for Fulton's Renal Compound. Literature mailed free. JOHN J. FULTON CO. San Francisco, Cal. The Stafford Drug Co. are our sole local agents. Ask for monthly bill letin of late recovery.

have persons whose homes have been robbed in the last six months call and identify what they can of the jewelry. Mueller was arrested at Eighteenth and Market streets by Detectives Byrne and Shannon after he had tried to dispose of some jewelry in a pawnshop near Union station. He is the last man in the world the police would take for a burglar. Chief Smith said. He is a stockily built Austrian, with a military air and a huge reddish mustache. He is the most versatile prisoner the police have had anything to do with in a long time. He has been in this country but three years. According to his own statement, he served six years in the Austrian army as lieutenant. Afterwards, he conducted an apothecary shop in Germany. He is a shoemaker, a telegrapher, photographer, barber, carpenter and plumber. He speaks German, French, Spanish, Italian and English. Mueller claims he had made several balloon flights in Austria.

Aside from his statement that he bought all the property found in the trunks from John O'Brien, Mueller told the police nothing.

BENZOATE ISSUE AGAIN. Preservative Case Likely to Be Taken to Congress.

Washington, Oct. 21.—The benzoate of soda issue will not down. Those organizations and individuals who are dissatisfied with the holding of the Remsen board, that use of the preservative in large quantities and make a thorough investigation as to how it is used, they are laying plans for a vigorous fight. Their present program is to ask President Taft on his return to the national capital to appoint a commission to investigate the use of the preservative in large quantities and make a thorough investigation as to how it is used, they are laying plans for a vigorous fight. ISHPEMING IN BRIEF.

Miss Jennie Egan was given a china shower by a number of her girl friends last evening at the home of Miss Lina Nelson.

Mrs. James Wiggins and children are here from Calumet, visiting her parents, Mr. and Mrs. Joseph Schilling, of the Commercial house.

An indoor baseball league is being organized among teams composed of members of the Young Men's Christian association and a series of games will be played during the winter months.

Rev. G. Eketwood, pastor of the Swedish Lutheran church, arrived home last evening from Manistique, where he attended a meeting of the ministers of the Ishpeming district.

Local men who spent the past few days in the woods near the Big Dead river report having found a deer hide at a point midway between Dem's camp and the stream. Positive proofs of deer having been killed in the Greenwood district have also been received here.

The attractions at the Bijou packed the little playhouse three times last evening. Aside from a good run of moving pictures, a special feature was Childer and Childer in a rural comedy sketch. This act pleased immensely. It will be seen tonight and tomorrow evening again.

The senior members of the Young Men's Christian association have organized a football team, which will play its first game tomorrow at Marquette with the Guild Hall eleven. The local team is composed principally of former high school players. Although the team has had very little practice together it is expected that it will give a good account of itself, as several of its members are experienced.

Think of it. A Ladies all wool, serge dress, any color, striped or plain, at \$8.29 Saturday only, at Braastad's. (10-22-21)

Come in and try on a few of the new dresses Saturday, Oct. 23 (10-22-21) F. BRAASTAD & CO.

As a special inducement we offer for Saturday only, a special discount of 10 per cent. off on our entire stock of Ladies' Suits. (10-22-21) F. BRAASTAD & CO.

Another important sale, Saturday, Oct. 23rd, at Braastad's. (10-22-21)

A factory line of dresses Saturday, at Braastad's. (10-22-21)

Ishpeming's new pumping plant, located near the Oliver Iron Mining company's Section 16 mine, is an ideal one. The plant is now in perfect working order and it is not anticipated that it will be necessary to make any changes in either the pumping equipment or the mains for many years to come.

The grounds surrounding the building were recently laid out by Landscape Artist Hebb, of the Cleveland-Cliffs Iron company, and shrubbery and trees are now being planted. Mr. Hebb's services were donated to the city and the only expense incurred in beautifying the grounds is the labor performed by city employees. The building, which is a solid brick structure, was erected less than two years ago, when it became necessary to remove the pumping equipment from its former location on account of caving above the Lake Angeine mine, threatening the destruction of the main. The interior dimensions of the station are forty by thirty-eight feet, with basement.

It is doubtful if there is another city in Michigan where the water is furnished at such a proportionately low cost as in Ishpeming. The great advantage is in the gravity service, though the minimum cost of operating the plant is also very low, as the work is done under contract with the Oliver Iron Mining company. Except when fires occur, it is necessary to run either one of the two pumps only about thirty minutes each day. This is done every evening between 6 and 7 o'clock, in order to raise the pressure for the night service. Under the agreement with the Oliver company, the city pays \$300 per year for the power necessary to operate the pumps and the service of the engineers who look after the plant. In return for this the company is provided with water for its engine houses, office, shops and dry houses. If the city were obliged to keep men at the station and furnish the necessary coal for the boilers, the cost would amount to several thousand dollars annually.

The Pumping Equipment.

The superintendent and members of the board of public works are much pleased with the new Prescott pump, purchased when the new station was built. It will pump 3,000,000 gallons each twenty-four hours, while the Worthington pump that was used in the old station would pump but 2,500,000 gallons in the same length of time. The two smaller pumps that were used at the original plant, established in 1882, and again at the second plant, recently abandoned, are still in the city's possession and are in fine condition. The board intends to sell them, as from present indications they will never be needed.

A splendid feature of the new plant is the hydraulic valve connecting the mains with the pumps. When the pressure drops to a certain point the valve will open, and when it rises to a given point it will close. Before starting the pumps the valve is always opened, it requiring but fifteen seconds to either open or close it, while if it were operated by hand it would take two men fifteen minutes to do the work. The section of the Prescott pump is twenty inches in diameter and the discharge is sixteen inches, while the section of the Worthington pump is sixteen inches and the discharge twelve. The valve is twenty inches in diameter, while the main leading to and from the building is fourteen inches. In the basement there is a shut-off valve which operates when the pressure reaches seventy-five pounds. When the valve closes, the average pressure on the main is eighty pounds, which is sufficient for all purposes. The normal pressure on the mains during the day is between thirty-five and forty pounds, while at night, when there is less water consumed, it is several degrees higher. As a rule, the pumps are not in operation more than a minute when an increase in the pressure on the mains is noticeable.

Very Little Water Wasted.

In a separate building, immediately east of the main structure is a large Jen water meter, which registers 10,000,000 gallons before repeating. The records of this meter are taken once a week and kept on file in the office of the board. For some time past the average quantity of water consumed in the

entire city as indicated by the meter is less than 1,000,000 gallons each twenty-four hours. This is considerably less than used to be consumed in the same length of time ten and fifteen years ago, before the meters were generally installed. The consumption does not vary a great deal except when fires are frequent or when there is a leakage in the mains. The mains are now in better condition than they have been at any time in some years. There were a great many bad leaks in the system a few years ago, but now it is rare that one occurs.

The new line on which work was accepted by the city. For a time there was no little trouble on account of leakage in the pipe, but the Michigan Pipe company, which furnished it, removed all of the interior pipe and the main is now in first-class condition. In this extension 10,800 feet of fourteen-inch wooden pipe were laid, extending from a point in the southern end of the Salisbury location, around by Washington street, down through Division and connecting with the old main at the intersection of Division and Pine streets. The territory through which the main passes was wet and soggy in many places, causing vexatious delays in putting in the pipe.

Over 2,400 Consumers.

There are now over twenty-seven miles of main in the city, with nearly 1,900 taps, and over 2,400 consumers. Between 1,400 and 1,500 meters are in use and more are being installed right along. During the past summer 10,640 feet of four-inch main was put in on the Marquette side, and 350 feet of two-inch main was recently completed to the Junction location. Last year the most important extension was the one leading to the location on the north side of Lake Bancroft.

In spite of the fact that the charges for water under the meter service are about 50 per cent less than they were in the former plan, the gross receipts of the plant for some few years past have not fallen below \$13,000. The board makes no charge for water furnished the schools or city buildings, or for that consumed in the sprinkling of the streets or for fire purposes. If the water donated for these purposes, are charged up the receipts would be considerably larger.

The quality of the water obtained from the chain of five lakes owned by the city on the hills to the south is of the best, and the supply is now ample at all times. Since the construction of the new dam, a few years ago, there has never been a shortage of water. In spite of the drought the past summer, the lake level remained about normal, and they are at present some inches above normal due to the rains of the past

two weeks. The water is usually the lowest about March 20, just before the break up. The lakes are protected from the cows and from parties getting in bathing during the summer season, though the watchman is not employed during the winter.

Original Water Plant.

The city's first water plant went into operation in 1882. It was located on the present site of the Oliver Iron Mining company's No. 1 Hogatite shaft, immediately south of W. H. Johnson's residence. The water was obtained from Lake Angeine, which was pumped out some few years later. The cost of operating that plant was considerably more than the present plant as it was necessary to keep two engineers employed, while the cost of the fuel, repairs, etc., also amounted to quite an item. The plant was transferred to the Section 16 mine in 1889, when Lake Angeine as a source of supply was abandoned. In the early period, the plant was under the management of a board of water commissioners, the original members of which were C. H. Hall, D. H. Bacon and S. S. Curry. The board of public works was established by the council on May 17th, 1892. The board of water commissioners was dissolved and the management of the plant taken over by the new board, of which Frank P. Mills was chairman. A man named Morgan, who superintended the installation of the original plant, was the first superintendent. He was succeeded by James Ames, who, after serving several years, was succeeded by the late A. W. Gibbs, who held the position for a few years until 1895, when P. H. Devine, the present superintendent, was appointed.

WILL CLOSE STORE TOMORROW.

The Cable Piano company, which has maintained a branch in this city for several years past, will close the store tomorrow. H. F. Schmidt, the president of the company, has been in the city the past few days winding up the business. The pianos, also other goods on hand, are being closed out at a big sacrifice. A number of pianos and piano players have been sold during the week, and Mr. Schmidt said yesterday that he expects to close out all of the instruments on hand by tomorrow evening. The company has disposed of a great many pianos in this county during the years that it has had a store here and the instruments are well spoken of.

Ladies' Suits at a 10 per cent discount. All new goods. Saturday only. (10-22-21) F. BRAASTAD & CO.

SURPRISED PASTOR.

Rev. C. L. Adams, pastor of the First Methodist Episcopal church, and wife were given a surprise by members of their congregation Tuesday evening at the church parlors. A short time before the Detroit conference was held, the congregation invited Rev. Adams to return and are pleased that he was reappointed. On Tuesday evening Mr. Adams was presented with a fur-lined overcoat, while Mrs. Adams was presented with several fine pieces of cut glass. The evening was very enjoyably spent. The ladies served refreshments.

Ladies' Dresses at prices that are astonishingly low, at Braastad's, Saturday, Oct. 23 (10-22-21) F. BRAASTAD & CO.

HIGH SCHOOL NOTES.

W. R. Morris of Whitewater, Wis., spent Wednesday visiting the schools.

Miss Eva Behlmer of Champion visited the high school yesterday.

Miss Alvina Rivitta of Munising visited classes with Ed Ham Monday.

The Boys' Glee club met Tuesday at 1:30 p. m.

Miss Lorraine Barnely, '09, visited classes yesterday afternoon.

H. S. Parsons, representing D. C. Heath & Co., of New York, visited the high school Wednesday.

Superintendent Scribner addressed the assembly Wednesday and thanked the school in behalf of the U. P. E. A. for the favors and courtesies extended the teachers while in the city.

The football team will line up against the Normal eleven at Marquette Saturday. The boys have been practicing all week and are going down to win.

There are no clothes so good for your money as Hart, Schaffner & Marx clothes. Reven Bros & Klein are selling them to the best dressers in town. (10-22-21)

If your piano needs tuning, William Leininger will take your order, and M. J. Olson will do the work. (6-28-11)

Ladies' dresses, made up in serges, panamas, broadcloths, etc., retaining from \$5 to \$25, Saturday only, at Braastad's. (10-22-21)

Saturday, Oct. 23rd, a factory representative will be with us, showing a new line of Ladies' Dresses and Skirts. (10-22-21) F. BRAASTAD & CO.

FREIGHT MOVEMENT EXCEPTIONALLY HEAVY

RAILWAY EMPLOYES IN CHARGE OF SHIPMENTS ARE BEING URGED TO KEEP THE CARS CONSTANTLY IN MOTION.

"The railroads in the Northwest territory are now doing a much larger freight business than they were a year ago," said a railroad man here yesterday. "The managements of the various systems are urging their station agents and others in charge of car movement to keep all cars constantly in service, in order to meet the demands of the shippers. The grain movement will be in full swing next month and will be heavy for at least two months. While the railroads are now meeting the demands of the shippers in a satisfactory manner, it is thought that they will have difficulty furnishing all the cars needed from now on until the first of the year, as the merchandise movement is unusually heavy. There is nearly 50 per cent more merchandise moving than was the case a year ago. "The railroads are now better prepared to handle business than they were three years ago the coming winter. The new lines that have been extended throughout various parts of the western territory have relieved the older roads, but one or two more lines could get a satisfactory business between the west and middle west points, as the movement of freight in that direction has more than doubled during the past few years. The increase has been largely in farm products. "The heavy shippers throughout the Northwest have been expecting the railroads to increase the freight rates, but the officials of the lines having headquarters in St. Paul have said that no advance is contemplated by them. Representatives of trade organizations from Chicago, St. Louis and other important commercial centers are this week in session in Cincinnati for the express purpose of combating a campaign by the railroads for a general advance in freight rates. "The railroads in the East proposed to advance the freight rates 10 per cent a year ago, but the shippers protested so strongly that whatever plans the railroads had in view did not develop. Many shippers now believe that the railroads will soon renew the attempt they were forced to abandon a year ago. "Those in charge of railroad work in this region do not anticipate any particular difficulty in handling to the satisfaction of the consumers all of the freight that will be offered, but there will be no idle cars on the side tracks at any time during the winter. A great number of cars are used here every fall and winter for the movement of timber than for any other purpose, but the number of cars needed for merchandise increases annually. "The railroads operating in the iron district have had a continuous pressure of business practically all summer, on account of the heavy movement of ore. The shipments are still unusually heavy for this time of the year.

Strictly fresh Blue Point Oysters, fresh from the coast. GEO. HAUPT, (10-22-1)

OUTSIDE WORK DELAYED.

Mechanics Have Lost Considerable Time This Month.

The contractors who are erecting the new fire hall building and the Scandinavian society's block, which are the two principal building jobs in progress here at the present time, need some good weather so that they can complete their brick work. The brick layers put in little time last week because of unfavorable weather, and they had to lay off again yesterday. Several of their helpers were also idle. The walls of the fire hall building have been partially completed to the top of the first story and it will be possible to put the joists in position within a day or two. Contractor Spaulding, who is erecting the fire hall building, has had his workmen ever since the brick work was started, but he has been handicapped on account of a shortage of mechanics as well as of laborers. Under favorable conditions the building could be enclosed by the 13th of next month, but the last of the outside work will probably not be finished until some time in December. It is not expected that the building will be ready for use until about March 1.

FOREIGN BUSINESS LIGHT.

The railroads operated in the upper peninsula have been doing a very light foreign passenger business the past few months. One of the railroad men yesterday said that the foreign traffic was the lightest that he has seen here for some years. At this time last year there was a fairly good foreign traffic, and two years ago an average of over 100 people left Negaunee for European points during each of the last three months of the year.

Jones' dairy farm pork sausage at Haupt's Grocery. (10-11-1)

LOCAL LACONICS.

J. Pettorfield, of Marinette, Wis., is visiting at the home of Henry Lee, Cass street.

Mrs. H. J. Peterson, who spent the past four months visiting relatives in California, arrived home Wednesday.

J. A. Dresser, the expert accountant from Detroit, is auditing the books of the officials of Richmond township.

W. E. Birch, representing Melchior Bros., the well-known barber supply house of Chicago, called on his Negaunee patrons yesterday.

Arthur Nester, who has been working in the mines here for some time past, has left for his old home in Finland, where he expects to spend the winter.

L. C. Chaussee has practically completed work on Superintendent Graf's new dwelling in the Cleveland Cliff's Iron company's North Lake district. Trembath Bros. are now doing the painting.

Lavine Bros., of the Savings Bank store, are to have a special suit and cloak sale today and tomorrow. Reductions are to be made during the two days in the prices of all of the garments in stock.

Mrs. Della Pykkola and two children left Wednesday for her old home in Finland, where they expect to spend the winter. Her husband, who is employed at the Empire mine, on the Cascade range, intends to follow them in about a month.

Johnson & Lindquist, the walk contractors, expect to finish up their season's work in a few days. The walk at Mrs. J. A. Goodman's home, corner of Main street and Teah Lake avenue, will be the last one the firm will put in. This work will be done as soon as the weather will permit.

The Bijou theater, in the Sundberg block, which is now giving a complete change of moving pictures every evening, is doing much better business than it did under the plan of changing three times a week. The management is presenting the best and latest subjects on the market. Aud Custer, the manager, is very popular with the theater's patrons and he is the best singer that the house has ever had.

A number of Negaunee men have already made application for deer hunters' licenses. The Negaunee men who have been deputized by the county clerk to issue licenses expect as many applications as they received last year. Several of those who own shacks in the woods plan to go out next week to put them in order. The hunting season will open two weeks from next Wednesday, Nov. 10th.

Fred Usinger's Milwaukee frankfurters, blood, smoked, liver and Montedella sausages. Delicately ham boiled, smoked hams from young pigs, at Haupt's Grocery. (10-11-1)

Woman started the ball of trouble rolling, and she has kept it rolling ever since.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by The People's Drug Store.

CEMETERY CASE.

Points Ruled by Judge Stone Have Not Been Argued in Supreme Court.

The arguments in the cemetery condemnation proceedings that were to have taken place before the supreme court on the 19th have been postponed, but no date has been set for the hearing. The attorneys representing the city expect the hearing to take place some time within the next two or three weeks.

At the hearing before Judge Stone recently, on motion of the city's attorneys the judge ruled that certain changes should be made in the complaint filed by the attorneys representing the McDonald estate. An appeal was taken to the supreme court on the question of allowing the pleadings to stand. If the supreme court does not sustain Judge Stone's ruling the defendant's attorneys can argue the points objected to.

TO BE MARRIED NEXT WEEK

Richard Nesbitt left yesterday for Manistee, Mich., where he will be married some day next week to Miss Jessie Timmerman, who lived in Negaunee some years ago. Following the marriage Mr. and Mrs. Nesbitt will leave Manistee on a wedding trip, to be absent two or three weeks. The announcement of Mr. Nesbitt's intended marriage will be a surprise to many of his friends here.

It's better to follow one good example than it is to set a dozen bad ones.

The records show that but few vegetarians marry grass widows.

They Grow Hair

Certain Ingredients, If Properly Combined, Stimulate Human Hair Growth.

Resorcin is one of the most effective germ destroyers ever discovered. Betanaphthol is a most powerful, yet absolutely safe, germicide and antiseptic, which prevents development of germ matter, and creates a clean, healthy condition.

Pilocarpine, although not a coloring matter or dye, is an ingredient well established for its power to restore natural color to human hair.

Borax, because of its well-defined softening and cleansing properties, is most useful in the treatment of scalp and hair diseases. Glycerine acts as a stimulant to the hair bulbs, and has a soothing healing and nourishing influence. Alcohol is indispensable in medicine because of its antiseptic, stimulating and preservative qualities.

Recall "93" Hair Tonic is chiefly composed of these ingredients, which are compounded in a peculiar form, and we believe it is the most effective remedy known to medical science for scalp and hair troubles generally. We personally guarantee it to eradicate dandruff and scalp irritations and to grow hair, ever though the scalp in spots is bare of hair providing of course there is life and vitality remaining in the hair roots.

We want every one troubled with scalp disease, dandruff or loss of hair to try Recall "93" Hair Tonic. If it does not remove dandruff and promote a growth of hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. This guarantee is printed on every package. It has effected most satisfactory results in 93 out of 100 cases where put to a practical test.

Recall "93" Hair Tonic is entirely unlike in every particular different from anything else we know of for the purpose for which it is recommended. We urge you to try it at our entire risk. Certainly we could offer no better guarantee. Two sizes, 50 cents and \$1.00. Sold in Marquette only at our store.—The Recall Store, The Stafford Drug Company.

LOW FARES TO MILWAUKEE VIA CHICAGO, MILWAUKEE & ST. PAUL RAILWAY.

COUNTY DOES MUCH TO AID THE POOR

MANY PEOPLE IN STRINGENT CIRCUMSTANCES NOTWITHSTANDING LABOR CONDITIONS.

HUSBANDS DESERT FAMILIES

Inhuman Abandonment Often Leaves Women and Children in Abject Poverty—Forty Thousand Dollars Expended Every Year.

With the first approach of cold weather, the county poor commissioners receive an increased number of calls for aid from poverty-stricken people, and this fall is proving no exception, even though industrial conditions are considerably better than for the two years preceding. At present there is work for every able-bodied man in Marquette county, provided he has the inclination to work, but most of the relief given by the county is to families and persons who have little or no means of support, there being no able-bodied head of the family. This class is in particularly hard circumstances this fall because of the abnormally high prices of provisions and other necessities of life. The wages paid women for washing and other day labor are no higher than in the past, and the increased cost of living results in many of these women on the returns from such labor being unable to make ends meet, and are forced to beg for aid.

In this county, most of the families aided by the poor commission are those of the aged, sick and infirm, and with families, who have been deserted by their husbands. The latter, however, is one of the most common and most pitiable. Many husbands in this county seem to have a habit of leaving their wives and families without money or food, and then coming to parts unknown, when they are most needed. Sometimes the husband leaves with the connivance of the wife, the two deciding that the scheme will not fail to bring relief from the county, which otherwise would probably be refused. However, this is not the usual case. More often the husband is lazy and shiftless and decides that by deserting his family he can get along without working so hard.

Punishable by Imprisonment. In hope of lessening the number of desertions, the legislature in 1907 passed a law making it possible for a circuit judge to send a man who refused to support his wife to state's prison for not to exceed three years. In such a case the law further provides that the state shall pay to the family of the deserting husband \$1.50 per week for the wife and fifty cents per week for each child, said amount to be expended by the poor superintendent for his family during the term of his imprisonment. The court may, however, at his discretion put the husband under bond to support his family and suspend the prison sentence. But the difficulty in many cases is to find the husband.

In Marquette county the poor are probably as well taken care of as in any county in the state, and in Marquette city the poor commissioners are assisted by the Visiting Nurse association and the Salvation Army. In spite of all these organizations, however, there are cases of pitiable and abject poverty and suffering, and there is further opportunity for charitable work.

The Marquette county poor commissioners spend annually about \$40,000 for the relief of the poor, less than one-third of which is spent at the county house. The greater part of the appropriation goes to buy fuel, food, medical attendance and pay the rent of those in need. In this city Superintendent Blanchard distributes annually from 300 to 400 cords of wood, including that used for cooking at the county house. In this district, including Marquette city, Marquette, Chocoma, Skandia, West Branch and Powell townships, last year the poor were given \$3,852.21 in food, \$1,035 in fuel, \$541.20 in rent and \$149.75 in medicine and medical attendance. In the Second district, including Ishpeming and Negaunee, Ishpeming, Negaunee, Forsyth, Richmond, Sands, Tilden, Turin and Wells townships, the poor commissioners expended \$14,269.57 for food, \$4,845.85 for fuel, \$442.98 for rent and \$1,850.95 for medicine and medical attendance. In the Third district, including Michiganumme, Republic, Champion, Humboldt and Ely townships, \$3,632.97 was expended for food, \$1,220.10 for fuel, \$288.68 for rent and \$1,084 for medicine and medical attendance.

The life of the poor superintendent has

WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have Done Great Service for People Who Work in Marquette.

Most Marquette people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework—lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Marquette cures prove it.

David Carr, Marquette, Mich., says: "Doan's Kidney Pills did me more good than any other remedy I ever used. I had a constant dull pain across the small of my back and was so weak at times that I was helpless. If I sat in a chair for any length of time, my back became so lame that I could not arise without catching hold of something for support. On several occasions I was so bad that I had to lay off from work. Seeing Doan's Kidney Pills highly advertised, I decided to give them a trial and procured a box at the Stafford Drug Co. They helped me from the first and in a short time I grew stronger and the pains left my back. My health has been good ever since and I give Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

its troubles. He is continually being confronted with hard luck stories, which would melt a heart of stone, some of which are genuine and others made up. The superintendent must investigate each case as thoroughly as possible, for he is continually being imposed upon, and were he to give aid to all who asked it, the county would soon be bankrupt.

PARTIES AT GOLF CLUB.

Two Enjoyable Functions Held at the House Last Evening.

The golf clubhouse was the scene of two enjoyable social functions last evening. Shortly after 6 o'clock a party of twelve sat down to a dinner given by the usher in honor of Miss Olive Blanchard and Harry Gray, of Lewiston, Idaho, whose wedding is to take place Saturday evening at St. Paul's church. The house steward, Mr. King, served an excellent menu. The table was decorated with cut flowers and autumn leaves. The evening at the clubhouse was given over to a bridge party at which Dr. Thomas M. Cunningham was the host. The guests were received by Dr. Cunningham, Mrs. Hanscom, Mrs. G. N. Conklin and Mrs. Austin Farrell. Twelve tables were played. Between 11 o'clock and midnight, Mr. King served an appetizing repast of chicken salad, coleslaw, sandwiches and coffee and shortbread and cake. The party was a most enjoyable one.

TO PREVENT WILDCAT FLOTATIONS

Railway Commission Must Pass on Stock and Bond Issues.

"The law providing for state supervision of the issue of stocks and bonds by public utility companies means a new era in the development and construction of railways in this state," remarked Railway Commissioner Seely in discussing the visit recently of several promoters to the office of the commission which represents the state in approving or disapproving such issues, to ascertain what the attitude will be of that body towards their promotion schemes.

"Under this law promoters planning to float bond issues have to come to the commission with a detailed statement of their plans. In this way the state has an opportunity to prevent wildcat schemes being floated, wherein there are attempts to capitalize fictitious values. We have to make some allowances for companies which issued large quantities of stocks and bonds before the law went into effect, because such issues might better be renewed in some instances than to force the concern to liquidate, but we can prevent new corporations being organized on any such basis. On the other hand, the law is an assistance to a man with a legitimate enterprise, for the approval by the commission of proposed bond issues undoubtedly aids the companies in disposing of their bonds."

"This is a new proposition and we cannot make any hard and fast rules as yet," added Chairman Glasgow, "but our experience thus far has convinced the commission that the law is to be one of the most efficient and valuable of any enactment of many years. The safeguards it provides ought to place companies of the class it affects on a new basis in this state. We are trying to be reasonable in our demands as to the showing concerns must make relative to bond issues and are finding the duties the law imposes on the commission most interesting and the results secured cannot fail to be of great value to the people of the state."

THEATRICAL.

Primrose Minstrels.

While the chief aim of the Primrose Minstrels has always been to furnish a diversified entertainment of the highest possible type, Manager Primrose has never lost sight of the picturesque interest with which this famous attraction is identified, and it is for that reason that the first part settings are planned on a massively elegant white and gold scale. This pleasing stage spectacle styled "Palace of Art," and which contains reproductions from sculpture art, was designed after a noted Italian palatial interior, and aside from its value as a genuine reminder of bygone achievements, there is an effectiveness about the carrying and scroll conceptions that lend a peculiar charm to a background, quite in touch with the costume. The scenic arrangements thus referred to are but a gentle indication of the spirit of the management, as in every direction there is evidence of a desire to excel in those peculiar points so essential to minstrelsy. The coming to the opera house next Thursday night of this reputable organization of burnt cork merry-makers is naturally regarded in the light of an amusement event of importance.

ILLEGAL TO REMIT TAXES.

But One Party May Contract to Pay Taxes of Another.

In reporting the substance of Judge Stone's remarks before the Commercial Club meeting at the city hall Wednesday evening, The Mining Journal misinterpreted the speaker's meaning in connection with the matter of offering manufacturing plants inducements by agreeing to pay their taxes. The courts have uniformly held that to rebate or remit taxes for any such purpose is illegal, and the point of Judge Stone's argument was that any organization or man or body of men might contract to pay any concern's taxes and that such a contract has been held valid. In such a case, the taxes would be levied against the property owners on the assessment roll, but would be paid by the party that offered free taxes as an inducement for the concern to locate in the city. This plan has been adopted in several of the upper peninsula cities.

The regular Saturday night hop will be held at Fraternity Hall tomorrow night. Music by the Peerless orchestra. Mr. Gittinier will be in our store on Friday, Oct. 22, with a full line of ladies' fancy waists, dresses and skirts and will be pleased to take orders for any of the above articles.

NO STATE TAX LANDS IN MARQUETTE COUNTY

ON SOME DESCRIPTIONS, TAXES HAVE NOT BEEN PAID SINCE 1881, YET THEY ARE ADVERTISED FOR SALE EACH YEAR.

According to Deputy County Treasurer, B. W. Wright, the decision of the public domain commission to send to the county seats of the state lists of the tax lands in their respective counties, under present conditions means nothing to Marquette county, as there are no state tax lands within its boundaries. This does not mean that there ought not to be such lands, but no lands delinquent for taxes in this county have been formally deeded to the state since 1884. In consequence, the county treasurer's office is lumbered up with a large number of delinquent tax land descriptions on some of which taxes have not been paid since 1881. All these descriptions are offered for sale each year, but no buyers have been forthcoming, and not infrequently the total taxes now charged against the descriptions run into the thousands of dollars. There are now about 1,600 descriptions delinquent for taxes on record in the treasurer's office, of which 665 descriptions became delinquent prior to 1906, and could be deeded to the state. These descriptions will probably average eighty acres each, which means that there are in the neighborhood of 53,000 acres in this county, which could be deeded to the state as state tax lands.

The public domain commission was a creation of the last legislature, and a part of its duties are to see that, as possible after its organization, cause an investigation to be made for the purpose of determining what state tax lands are so circumstanced as to be deeded by the auditor general to the state, and said lands shall be so deeded without unnecessary delay. The foregoing would indicate that there is opportunity for the commission to carry out that part of its duty in this county, and these long-delinquent lands will doubtless be deeded to the state in due time. The law creating the commission further provides that as soon as the state shall acquire absolute title the lands shall be under the control of the commission, which commission shall appraise and sell such lands as can be used for agricultural purposes, and may create forestry reserves from lands unfit for agricultural purposes. Mineral rights on tax lands are to be reserved to the state, when so sold by the public domain commission.

The act provides that state tax lands shall be offered for sale at the county seats of the counties in which the lands are situated, and that the county treasurer shall be furnished with lists of all unseized state tax lands in the county, and the appraised price thereof. Each month the state land commissioner shall make a report to the county treasurer of the lands sold in the county during that month, and all of these lists and reports shall be open to public inspection.

The public domain commission is now working along these lines and it is only a question of time until the delinquent tax lands in this county will be turned over to the state and advertised for sale in the manner provided by the new law.

BIBLE SCHOOL RALLY DAY.

Orchestra, Chorus Choir and Short Addresses Next Sunday.

The Sunday school of the Methodist church is at work on a special program for Rally day, which will be observed next Sunday at the usual hour of the Sunday school service, commencing at 12 noon. An orchestra and chorus of fifty voices have been organized to sing, and singing and four short spirited addresses by good speakers will be given. Attractive surroundings, cheerful singing and intelligent discussion of live topics should be sufficient to inspire the heart of everybody who is fortunate to attend this meeting. A cordial invitation is extended to the public, and all will be made to feel welcome.

PULLMAN RATES TOO HIGH.

Kansas Board of Railroad Commissioners Orders Them Reduced.

Topeka, Kan., Oct. 21.—The Pullman company must put into effect a maximum rate of \$1.50 and a maximum seat rate of one-half cent per mile by Nov. 15 or the state board of railroad commissioners will begin proceedings to compel these rates. The board served notice on the company for a reduction in its rate from \$2.50 to \$1.50 for a berth for one night. The reason for the action was that the company had put in these maximum rates in Oklahoma recently.

The board in its order says that the Kansas population is larger than that of Oklahoma and that the volume of traffic is larger in this than the new state, so that the granting of the lower rates in Oklahoma is said to be an actual discrimination against the Kansas traveling public.

The attorney for the Oklahoma board had been gathering evidence to use in a fight for the reduction of the rates for several months and the board was preparing to begin proceedings shortly. The action of the Pullman company in granting the low rate then precipitated the order of the Kansas board.
