PRICE FIVE CENTS.

BUDGET WINS BY BIG MAJORITY

Fight in the House of Commons Results in a Greater Victory for the Government Than Its Supporters Expected.

Following an Extended Debate, and With Tense Excitement Prevailing in the Crowded Chamber, the Now Famous Finance Bill of the British Ministry Is Passed on Its Third Reading by the Overwhelming Vote of 379 to 149.

London, Nov. 4.—The house of commons tonight passed the third reading of the finance bill by the vote of 379 to 149. Scarcely there had a larger attendance of members and peers, and the diplomatic galleries were crowded to their utmost capacity.

Mr. Asquith, closing the debate, said that it was incumbent upon those who objected to the government's taxes to provide some alternative scheme to meet the nation's necessities. Where was this scheme? he asked. Sooner or later Mr. Balfour must show his hand, and it would have to be a hand that would suit the game of the tariff reformers.

NATION PAYS TRIBUTE.

Prince Its Funeral an Occasion of Magnificent Solemnity.

Tokio, Nov. 4.—The state funeral of Prince Ito was conducted today in magnificent solemnity. Headed by the imperial family, playing Chopin's funeral march, the procession moved from the home of the late prince to Kijoya Park, where the public services were held.

A special shrine had been erected wherein the catafalque rested during the ceremonies, which occupied three hours. A wreath was presented by American Ambassador O'Brien, in behalf of President Taft, and similar offerings were made for their governments by the British, German, Japanese, Russian, Austrian and Italian representatives.

At the conclusion of the rites the catafalque was replaced upon a gun carriage and the march to Omori, where the internment was begun. Along the route of six miles numberless thousands looked on in silence.

Seoul, Korea, Nov. 4.—A state funeral in honor of Prince Ito was conducted here today at the same time as the services at Tokio. The Korean funeral rites were used and all Koreans of the most prominent personage were present.

REBELS GAINING GROUND.

Zelaya's Foes in Control of Much Nicaraguan Territory.

Washington, Nov. 4.—The latest official reports show that the Nicaraguan revolutionists are gaining strength. They have practical control of a considerable part of Nicaragua.

DEATH OF GEN. COPPINGER.

Washington, Nov. 4.—Brigadier General John J. Coppinger died tonight of pneumonia. He commended the Department of the Platte prior to the Spanish war and retired in 1898. General Coppinger married the eldest daughter of James G. Blaine. She died in 1890, leaving two sons.

COALING STATION WANTED.

Santiago, Chile, Nov. 4.—According to a despatch from Lima, the United States government has offered to buy a Pacific port from Peru for a coaling station.

WORLD'S TITLE AT STAKE.

New York, Nov. 4.—Alfredo De Oro gained eleven points tonight in the second leg of his match with John Daly of the three-cushion billiard championship of the world. The score now is: De Oro, 100; Daly, 75.

IS GREATEST IRONCLAD AFLOAT ON ANY SEA

As Powerful as Any Fighting Craft That Has Yet Been Launched, the Big Battleship North Dakota Proves Herself the Fastest Vessel of the Dreadnought Type in the World.

Rockland, Me., Nov. 4.—The North Dakota, the fastest battleship of the Dreadnought type afloat, as well as one of the two most powerful battleships in the world, her speed standardization tests over the Rockland mile course today developed a maximum speed of 22.25 knots and an average of 21.833.

The North Dakota is the best performer of her sister ship, the Delaware, or the Bellesiphon, the leader of the Dreadnought division of the British navy. In attaining this speed the turbine engines of the North Dakota were forced to the development of a greater horsepower than reached by any battleship afloat. A maximum of 35,150 horsepower was recorded. The maximum number of revolutions on her nickel-composition propellers was 286 a minute. Her contract speed is twenty-one knots.

CHRISTIAN SCIENTISTS HOLD STORMY MEETING

With 2,000 Persons Present, and by a Close Vote, Mrs. Stetson of New York Is Exonerated of the Charges Against Her.

New York, Nov. 4.—Mrs. Augustus E. Stetson, formerly head reader of the First Church of Christ, Scientist, here, convened this evening on the charges of "mental malpractice" in the report of the special board of inquiry. It was presented to a congregation of two thousand persons at a stormy meeting, lasting two hours, in the big church in Central Park west.

Twenty-eight charges had been made at the instigation of the board of directors of the mother church at Boston. Thereupon an inquiry was ordered by the trustees of the New York church, at the request of Mrs. Stetson, who in the meanwhile was deposed from her position as authorized reader. The charges alleged that Mrs. Stetson's teachings, as set forth by her, Mary Baker Eddy, and that Mrs. Stetson was guilty of mental practice in bringing Christian Science to bear upon people who did not welcome it, "by hypnotism or mesmerism."

SUBWAYS UNDERMINE TWO BIG STRUCTURES

New York's Two Million Dollar Criminal Courts Building Is Threatened With Collapse, and So Is the Tombs Prison.

New York, Nov. 4.—A cordon of 150 policemen is guarding New York's two million dollar criminal courts building, which is threatened to collapse. No body is allowed in the structure. The city engineers fear that Tombs prison, south of the court building, also will be affected by the slipping of the earth on which the foundations of both are built. The construction of a subway beneath the front and rear of the two buildings is blamed for the slipping of the foundations.

MEMPHIS' NEW MAYOR.

Edward Crump Is Elected by a Margin of Seventy-Nine Votes.

Memphis, Nov. 4.—Edward Crump was elected mayor today by seventy-nine votes over former Mayor J. J. Williams. Notwithstanding persistent rumors, no attempt was made to raise the ballot boxes. The only incident of note was a fistfight between Crump and a negro voter. Warrants have been issued for both.

REPUBLICANS TRIUMPHANT IN NEBRASKA.

Omaha, Nov. 4.—With 1,100 out of 1,655 precincts in the state heard from, a margin of only a thousand votes separates the six candidates for supreme judge. The missing precincts usually are strongholds of the fusionists, but the Republicans declare that their present leads cannot be overcome.

TRUSTED BUSINESSMAN ACCUSED.

Berlin, Nov. 4.—Martin Kaufman, of New York, was arrested tonight on a charge of frauds amounting to \$107,000 in connection with the Cotton Goods Company of New York. Kaufman has long been considered one of the most trustworthy business men of New York.

GENERAL DODGE REELECTED.

Columbus, N. D.—Before adjourning its annual convention here today, the Society of the Army of the Tennessee re-elected General Grenville M. Dodge, of Council Bluffs, Ia., president.

STEINHEIL CASE TOPIC OF THE HOUR

With the Accused Murderess Now on Trial, All Paris Is Wrought to High Tension Over the Promised Disclosures.

Dramatic Situations Are Numerous During the Inquisition, and None Are More Sensational Than When a Man Afterwards Found to Be Merely Seeking Notoriety Declares Himself Guilty of the Crimes With Which the Woman Is Charged.

Paris, Nov. 4.—Dramatic situations were numerous today in the trial of Mme. Marguerite Steinheil, accused of murdering her husband and step-mother, Mme. Japy. All Paris is wrought to high tension over the promised disclosures. They could enter the courtroom, and hundreds outside excitedly discussed the news contained in the newspaper extras that flooded the streets.

Woman a Pathetic Figure.

Dressed in a mourning gown, and fighting for her life, Mme. Steinheil made a pathetic figure on the witness stand. In midst of her inquisition by the presiding judge, her attorney, M. Aubin, suddenly pushed forward a man who, he said, wished to confess to participation in the murders with which Mme. Steinheil is charged. M. Aubin asked that he be permitted to confess, and then pointed at the man, saying "This is Jean Lefevre."

Mme. Steinheil listened to Lefevre's rambling statement, that, disregarding a woman waiting on the stand, she had committed the murders. She then declared that she could not identify him as one of the murderers, whom she had previously described. The court ordered Lefevre arrested and warned the jury that this might prove another attempt to deceive justice.

FAURE'S NAME MENTIONED.

Just before the close of the day came the first direct mention of the late Felix Faure, former president of France and the friend of Mme. Steinheil. Responding to a question of Judge Henri Durand, the prisoner replied, "It was during a trip in the Alps." The judge did not pursue this line of inquiry. The hearing closed by the judge referring to the accusation against President Harrison Burdett, an American newspaper man, but the prisoner denied that she had never definitely seen him, but that she recalled the resemblance of the assassins.

The judge failed to shake Mme. Steinheil's original version of the crime. She admitted infidelity, denied that she sent her mother to solicit money from her lover and insisted that her own husband had never profited by her own immoral life. Admitting that she had done wrong, she beseeched the jury to pardon her faults.

Paris, Nov. 4.—On further examination before the magistrate, Lefevre said his name was Rene Collard, and that he is an actor. He admitted that he had not the slightest connection with the crime, but had merely acted on a whimsical impulse to save Mme. Steinheil.

RULES FOR SYRIANS.

Court at Los Angeles Upholds Their Right to Naturalization.

Los Angeles, Nov. 4.—The Syrians' right to be naturalized was upheld today in the county court against the efforts of the federal authorities. Judge Horton ruled that a Syrian is not a Mongolian, but of the Aryan race, and hence could not be barred. The government will appeal.

FISHERMEN GAIN A VICTORY.

Hunting Club Loses a Round in Important Illinois Litigation.

Peoria, Ill., Nov. 4.—Master in Chancery Lovett, of the federal court, today rendered a preliminary report in the case of the Thompson Lake Rod & Gun club versus Cornelius Broyle, which, if confirmed by Judge Humphrey, will imperil the rights of all Illinois hunting clubs that include open waters in their preserves. The arguments on the objections will be heard, and the final report will then be submitted. The preliminary report is a victory for the fishermen, in that it asserts their right to fish in Thompson lake. Fulton county, which is claimed by the Thompson club, composed of Indianapolis millionaires, as part of its preserve. Harry S. New, of Indianapolis, is the club's president.

THE WEATHER.

Washington, Nov. 4.—The following is the weather bureau's forecast for Upper Michigan: Generally fair, Friday and Saturday; variable winds.

MR. TAFT WITHSTANDS A GREAT TEMPTATION

He Takes a Mint Julep in His Hand—but Doesn't Sample It—Arriving at Savannah, After a Continuous Ovation Enroute, He Begins an Eighteen Hours' Stay With a Banquet.

Savannah, Ga., Nov. 4.—President Taft began an eighteen hours stay at Savannah with a banquet tonight. In Macon, the country appeared to have been depopulated to swell the throngs in this city. Enroute to Savannah, the words the president had opportunity to utter before the train proceeded. Here tonight there was another great crowd.

Puts All Up to Congress.

"While pleased to realize the consciousness of the power of the president, I am bound to say that the duty which I have to exercise under the Constitution, but the limitations and restrictions which I am subject under that instrument, sometimes in the enthusiasm of reform, there is impatience to disregard or ignore them. I don't think that the best way to get rid of a legal limitation that interferes with progress. The best way is to leave the people unimpaired and the states unimpaired to conform with our highest ideals and ambitions; but that the first thing we have got to do is to change the law, and not rely upon the executive to ignore the statutes and follow a law unto himself. If you are going to take from the law you are being led into a wilderness in which you cannot subsequently guide your steps."

"I have noticed a tendency to hold the executive responsible for not doing more than that are the limits of my friends in congress. That does not rid the executive of the responsibility of recommending changes in the law, but it does prevent his executing those changes without the action of the legislative branch. I intend to recommend many measures at the next meeting of congress, I have taken this method of intimating where the responsibility will be if those measures don't pass."

Banquet Unique and Sumptuous.

The banquet here tonight was the most unique and sumptuous that the president has ever attended. Nearly 2,000 guests were seated on a long table which was taken by the diners as souvenirs. At each place was a gold seal pin in which was enshrined the seal of the city. Canape was served in hand-painted china trays bearing the president's initials. Terrapin appeared in individual copper chafin dishes. Punch was served in silver-mounted glasses, brandy in silver flagee cups, and cigars in red leather cases—all souvenirs.

As the president arose, twenty doves were liberated over the heads of the diners.

PERFECT SCORES NUMEROUS.

Twenty-Five Contestants in Automobile Reliability Run Are Awarded Prizes.

Atlanta, Ga., Nov. 4.—Prizes valued at \$1,700 were distributed tonight to twenty-five contestants in the Atlanta Journal-New York Herald good roads reliability tour at a banquet at Capital City club. Two to seven cars were tied for the honors in each of the five principal classes of the tour, and in every case the prize money was divided. Twenty-five cars finished with perfect scores. Two were withdrawn and eight discontinued the trip at various stages, but came back into line and finished the run as non-contestants. Perfect scores were won by three Thomas cars and four Buicks, and by the following cars: Renault, Matheson, Benz, Apperson, Franklin, Premier, Pennsylvania, Selden, Oldsmobile, Corbin, Chalmers, Detroit, Studebaker, Reo and Regal.

MEETS ITS FIRST DEFEAT.

England's Champion Soccer Team Loses to the Philadelphia Hibernians.

Philadelphia, Nov. 4.—The Pilgrims of England met their first defeat of their American tour today, when the Hibernians, the champions of the Pennsylvania league, beat them at soccer, 1 to 0. The visitors lacked four of their players, who were injured since their arrival in this country.

WOMAN IS AERONAUT'S AIDE.

St. Louis, Nov. 4.—After being in the air twenty-four hours, the balloon Melba, the second which ascended here yesterday in an effort to fly the Lahn cup, descended at 5 o'clock this afternoon at Lexington, Tenn. John Berry was the pilot, and Miss Julia Hoerner was aide. The craft was practically becalmed for ten hours today.

GOLFER TRAVIS LEADS.

Atlantic City, N. J., Nov. 4.—Walter J. Travis, the winner of scores of trophies, led the field in the qualifying round of the fall golf tournament of the Country club today. Playing against a north-west gale, Travis finished with 82, two better than A. W. Tillinghast, of Philadelphia. Of the 110 entrants, forty-five failed to qualify.

WON'T BE DRAWN INTO POLAR ROW

Feeling That Compliance Would Be a Recognition of Peary, the State Department Refuses the Geographic Society's Request.

While It Will Give the Usual Letters Asking All Possible Courtesies, It Declines to Direct Minister Egan to Seek from the University of Copenhagen Permission for a Committee to Examine Dr. Cook's Records When He Shall Submit Them.

Washington, Nov. 4.—Refusing to be drawn into the Cook-Peary polar controversy, the state department today declined to accede to a request that it cable American Minister Egan, at Copenhagen, to request of the University of Copenhagen permission to examine Dr. Cook's records when they are submitted to that institution.

The request was made by a delegation from the National Geographical society which will appoint a committee to visit the Danish university. The delegation, which was headed by Admiral Gannett, chief government geographer, urged upon Assistant Secretary of State Wilson that the examination desired would be by scientists of attainments particularly valuable in the adjustment of the polar problem, and representative not only of the Geographical society, but of American scientists generally.

The department decided that it could not accede to the request, as it was felt that such action would constitute the official recognition of Peary as against Cook, and that any unusual action on its part might be interpreted as an endorsement of the claim of one or the other of the two explorers as to the priority of the discovery of the pole.

The members of the Geographical society's committee which will go to Copenhagen will have the usual letters of instruction from the state department by the American diplomatic officials abroad, asking that the committee be given all courtesies and assistance possible consistent with the duties of the diplomatic representatives.

COOK'S DATA WANTED BADLY.

A determined effort will be made by the committee to secure the Cook data. Dr. Cook will be afforded every opportunity to place his records and information before the committee directly. The committee will advise Cook of the society's award of a gold medal to Peary and of its virtually "marking time" as to other polar claims, pending investigation.

STOCK MARKET IRREGULAR.

Some Issues, Notably Steel, Are Strong, and Some Are Weak.

New York, Nov. 4.—Some stocks in today's market were strong and some were inert. The great body of securities was inert, and the price movement listless and insignificant. A recurrence of strength of United States Steel and the congestion of practically the whole activity of the market in every other direction did not favorably affect the tone of the speculation. There were points of strength otherwise through a miscellaneous list of specialties, some of them decidedly obscure. The railroad stocks generally and some high priced industrial stocks have lately been active were inclined to heaviness.

The Steel movement was connected with a revival of the reports that the effort towards securing the listing of that stock on the Paris bourse was about to be crowned with success. The rumor was unconfirmed authoritatively.

The most striking retrogression was in New York Central. The fall of two points in that stock following the news of the new stock issue to the extent of 25 per cent of the present volume, was in line with similar action of the Pennsylvania and New Haven stocks when the additional stock issues were announced by those companies. This effect does not suggest unfavorable auguries of the consequence of the further raising of new capital which is known by necessity. The volume of the new stocks and bonds recently projected, the knowledge that similar large requirements lie before the markets and the active and growing demand for money for commercial use combine to indicate caution in the use of credits for speculative employment.

MANY STATES REPRESENTED.

Farmers' National Congress in Session at Raleigh, North Carolina.

Raleigh, N. C., Nov. 4.—The Farmers' National Congress met today with a large attendance of delegates from all parts of the country. The most notable speakers on the program today were British Ambassador Bryce, Congressman J. Hampton Moore and former Secretary of the Navy Herbert.

Since 1893 the sea has washed away 419 acres of the British Isles, but it has also added 30,752. The land gained, however, is at present useless.

YOUNG WOMAN'S SUICIDE A SHOCKING TRAGEDY

Despondent Because She Fancied Her Sweetheart Was Attempting to Evade Their Marriage, a Nineteen-Year-Old Girl at Cleveland Leaps to Her Doom from a Ninth Story Window.

Cleveland, O., Nov. 4.—Celia Duberstein, nineteen year old despondent because she fancied that her sweetheart in New York was attempting to evade their marriage, committed suicide this afternoon by jumping from a window of the ninth floor of the Card building. She dashed head foremost into an excavation on the adjoining lot, 115 feet below. The girl had received a letter from her fiance, asking her to be patient a while longer. She went into the shirt waist factory in the Card building where she was employed, and asked for her money, as she was going to New York. It was paid. Late today she returned to the factory and asked to be reemployed. The foreman was busy and waved his hand, meaning for her to wait a minute. It is supposed that the girl thought he would have nothing to do with her again, consequently she turned from the office, broke a small window on the ninth floor, crept cut to the ledge and leaped to death.

MRS. LOUIS ARBOGAST FOUND NOT GUILTY

After a Trial of Two Weeks' Duration, the St. Paul Woman Charged With the Murder of Her Husband Is Acquitted.

St. Paul, Nov. 4.—Mrs. Louis Arbogast, who for two weeks had been on trial on the charge of murdering her husband, was acquitted this afternoon by the jury. Arbogast was murdered while asleep. His head was crushed with an axe and his head was soaked with gasoline and set on fire. His wife was badly burned. Only herself and four daughters were in the house and none of the daughters were able to definitely say what had occurred. The eldest daughter will be tried on the same charge that was preferred against the mother.

SAYS IT WAS ACCIDENTAL.

Mrs. Frances Martel Confesses to Shooting Deputy Marshal Zimdars.

Green Bay, Wis., Nov. 4.—Frances Martel, according to District Attorney Reynolds, has confessed that she killed Deputy Marshal Zimdars at Deper Oct. 25. She claims that the shooting was accidental. She says that she and Zimdars were in the latter's office at Deper. She picked up Zimdars' revolver, and when she touched the trigger it went off. Gigare, her former husband, whom she blamed for the murder, will be released.

BOLD ROBBERY AT NIAGARA FALLS, ONT.

Sandbagging the Cashier of the Canadian Express Company's Office, Two Men Escape With a Package Containing \$14,156.

Niagara Falls, Ont., Nov. 4.—William Dobson, cashier of the Canadian Express company here, was sandbagged this afternoon in the company's office at the Grand Trunk station, and a package containing \$14,156 was taken from him by two men. A score of the station employees were within twenty feet of the office when the men entered and asked if a certain trunk had arrived. As Dobson stopped to get his "on hand" book, one of the men reached over the counter and hit him behind the ear with a sandbag or piece of gas pipe. Five minutes later Dobson was found in a pool of blood. He did not recover consciousness for an hour, and then was unable to describe the men.

BLACKMAILED FOR YEARS.

That the Explanation of a Cincinnati Man's Alleged Big Shortage.

Cincinnati, O., Nov. 4.—In the presence of his wife and officials of the Big Four railway, C. L. Warriner, the deposed local treasurer of that road, is said to have confessed today that the shortage in his accounts, variously estimated at \$50,000 to \$100,000, is due to his paying blackmail to a man and a woman the last three years.

Warriner, accompanied by two detectives, arrived from New York last night, but his whereabouts is unknown except to the police. The man is said to have stated that he paid \$75,000 to an old employee of the company who is said to have had knowledge of an earlier shortage in Warriner's accounts. For keeping silence, the blackmail demanded large sums. He is said to live in Chicago. Steps will be taken to arrest him. The woman in the case left Cincinnati shortly before Warriner arrived from New York. She is under surveillance, however, and may be arrested. Warriner is a prominent churchman.

YOUTHFUL ALLEGED PLOTTER JAILED.

Danville, Ill., Nov. 4.—Ed. Meati, a laborer at the White City, shot himself in the shoulder accidentally while hunting this afternoon. He will lose an arm.

RAILROAD COACH OVERTURNS.

South Dakota Accident Results in the Death of a School Teacher.

ALLEGED COUNT A BURGLAR.

Denver, Nov. 4.—Louis von Vriesen, the mysterious dead Austrian, was an expert burglar, according to a statement tonight by a lodging house keeper. No preparations have been made for examining the body for identification.

CATCALLS GREET STATE EXECUTIVE

Going to Gassaway to Prevent a Threatened Lynching, Gov. Glascock of West Virginia Gets a Hostile Reception.

He Finds Militia on Guard, but Determined Not to Shoot Fellow Townsmen, and He Finds the Streets Full of Armed Men Needing Only a Leader to Attack the Jail and Kill Two Accused Negroes—He Wires at Once for Outside Troops.

Gassaway, W. Va., Nov. 4.—Two local militia companies are guarding the jail here tonight in an effort to save two negro suspects who are being held as possible accomplices in the assault upon Mrs. George Lockford of Exchange. The militia company, in a special train, is being hurried hither. Parties of men, heavily armed, are roaming the streets, needing only a leader to batter the jail down and lynch the negroes.

Governor Glascock arrived this evening and, mounting a stand made of packing cases, addressed the crowd, advising that the law be allowed to take its course. His remarks were greeted with catcalls. Passing up the main street, the governor was not met with cordiality. At the jail steps he asked the captain of the militia company if his men were ready to protect the jail with their lives if necessary. The captain answered that his men had voted to even shoot their fellow townspeople, even though commanded to do so, but would protect the negroes as best they could, without shooting. The governor told the captain that his men were in a virtual state of mutiny and would be severely censured. The captain answered that his men were firm in the determination not to kill their friends.

Late tonight the town is submerged in darkness, as a result of the smashing of the gas regulator. Workmen are repairing the damage. The workmen met fifteen mounted armed men who asked if the negroes as best they could, without shooting. It is believed that if an attempt is made to surreptitiously take the prisoners to the county seat, the party will be ambushed.

OHIO TRAGEDY MYSTIFIES.

Coroner's Jury Now Probing the Death of Miss Nellie Harris.

Wapakoneta, O., Nov. 4.—Pending the appearance of Mrs. McPherson, a Chicago woman, who left within an hour after the supposed suicide of Nellie Harris, daughter of ex-Congressman Harris at the home of Mrs. Lillian McFarland here Oct. 22, the coroner today indefinitely continued his inquiry. Sidney S. Gorham, Mrs. McPherson's Chicago attorney, said that she will come here to testify as soon as able.

Rhous V. Sears, a lawyer, brother-in-law of the dead woman, testified that Miss Harris indicated that Mrs. McFarland had a hypnotic influence over her. Mrs. McFarland testified that on the day of the tragedy she left Miss Harris sleeping in their joint room. She later discovered Miss Harris' body in the closet. She found a revolver under Miss Harris' leg, and threw it under the bed with the idea of hiding the shooting if Miss Harris was not fatally injured. As to the bloody footprints in the bedroom, Mrs. McFarland said that she supposed they were made by herself when trying to attend to Miss Harris when she found the latter in the closet.

"Did you ever have any quarrels with Miss Harris?" asked Mr. Sears. "We had some misunderstandings," she replied.

SHOOTING AFFRAY IN ILLINOIS.

Mount Vernon, Ill., Nov. 4.—Frank Brookman was shot and seriously wounded today by D. E. Archer. The shooting took place in the East-Central bank. Both men are prominent. The quarrel was over the possession of a gun. Archer is reported to have assaulted Brookman earlier today with a knife. Brookman knocked his opponent down.

ACCIDENTALLY SHOOTS HIMSELF.

Baseball Player Charles Dexter the Victim of a Hunting Fatality.

Cincinnati, Nov. 4.—Charles Dexter, first baseman of the New Orleans baseball team of the Southern league, accidentally shot himself while hunting near his parents' home at Mount Holly today, and died tonight. Dexter was drafted last year by Detroit, but was not called upon.

Houghton, Mich., Nov. 4.—Ed. Meati, a laborer at the White City, shot himself in the shoulder accidentally while hunting this afternoon. He will lose an arm.

RAILROAD COACH OVERTURNS.

Englewood, S. D., Nov. 4.—A coach of a Burlington & Missouri River local passenger train left the track near here this evening, killing Miss Edith Logan, of Pukwoma, and seriously injuring Miss Edna Sedgewick, of Chamberlain. Both were school teachers, returning from the Black Hills.

ALLEGED COUNT A BURGLAR.

Denver, Nov. 4.—Louis von Vriesen, the mysterious dead Austrian, was an expert burglar, according to a statement tonight by a lodging house keeper. No preparations have been made for examining the body for identification.

MARQUETTE, MICH., NOVEMBER 5.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Anybody but Tom Johnson would be glad to be defeated for re-election as mayor of Cleveland, after having had eight years of it.

All poor Tammany got was Gaynor, and it's none too sure of Gaynor. The Tiger's tail has been more painfully twisted than for many a long year in the past.

The election in New York this week has resulted in a gain of many votes for Governor Hughes' plan of giving the state a direct nominations law. It will require the actual test of a legislative session to determine the standing of the bill the governor will favor, but it is certain that it will be introduced under much more favorable auspices than it was in the last session. Forty-six of the members who voted against the governor's bill were not re-elected this week. Some of this number were not candidates, but others were defeated on their records on the proposed reform.

The election furnishes evidence that there is a widespread and growing sentiment in favor of the new system in New York, and it is likely that the movement for its introduction in the state will be brought to a successful conclusion next year. Members of the legislature will hesitate to invite the disfavor of their constituents by opposing it.

Reports indicate that the Lake Superior iron ranges are at the beginning of what will be perhaps the greatest development that they have ever experienced. The activity now compares favorably with the strenuous period immediately following the crash in 1907, and is, apparently, far from its climax. It appears in an almost unprecedented volume of exploratory work, which is being carried on within the boundaries of all the ranges, work fraught with favorable results, too. There have been frequent announcements of late of the formulating of plans to open mines on bodies of ore located by the drills. Another phase of the activity is the attention that is being paid to old mines, many of which have not been operated in years. Railroad spurs are being built in these properties, they are being adequately equipped and plans are being prepared for a record-breaking output of ore next year. This varied and great activity simply reflects the gratifying conditions obtaining in the iron and steel industry in the country at large. The revival has been a wonderful one, and its effects are quickly extending to every industry in the land.

It would be interesting to know exactly what bearing the tariff law had on the Massachusetts election this week. It was probably an important one. Although the tariff is not a state issue, the Democrats, in their arraignment of the Republicans, dwell long and eloquently on the Aldrich-Payne law, and it was noticed that the Republican candidates judged it the part of wisdom to defend that law against these attacks, though they in no manner had to do with the making of it. After an election in which the tariff was the principal thing discussed, Governor Draper was re-elected by a narrow margin of 8,000 votes in a total of 370,000, whereas last year he had more than 60,000 votes over his Democratic opponent. Lieutenant Governor Frothingham pulled through by only 5,000 votes, compared with 96,000 last year. In the legislature there were Democratic gains. While it's an off year, and Democratic gains need not be surprising, the off year theory is not sufficient to explain the narrowness of the margin by which the Republicans won in Massachusetts. Evidently there is abroad a widespread dissatisfaction with some recent work of the Republican party. That work can be nothing else than the tariff law which the party made during the special session of congress. If it shows itself so definitely in Massachusetts, we can hardly be surprised at the formidable dissent that has arisen in the middle west states.

The Detroit News, in commenting on Mr. Osborn's Greenville address, has shown that it will be an advocate of the

tonnage tax during the campaign leading up to the primaries next year. Assumedly, therefore, the News will support a candidate who will declare for that measure. The Detroit papers, and many other leading papers of the state, are playing a waiting game as far as the candidates for governor are concerned. The News, insofar as it has shown any leaning, has exhibited friendliness to Kelly, but is yet not definitely committed to him. The News will oppose Osborn, evidently, and will hardly take up with Montgomery. It will land with either Kelly or Musselman. The Detroit Free Press some weeks ago displayed much enthusiasm for Justice Montgomery, but recently has not commented on the gubernatorial situation, from which fact some observers are gathering that the Free Press has decided that Montgomery will not do, after all. The Free Press will not support Kelly, but beyond that, apparently, is undecided as to its future course.

The Journal is also pursuing a non-committal policy, waiting for the situation to take on a more definite form. The same thing is true of most of the other leading lower state papers. They are all acting on the safe theory that there is plenty of time before the primaries and, therefore, that no one need be in haste about lining up. The country press is much more positive in its opinions about the forthcoming gubernatorial fight, and it is noticeable that Mr. Osborn has many friends among the country publishers.

Speculation in regard to the office of collector of customs for the Superior district covers a wide range. As The Mining Journal predicted would probably be the case, the question of who will fill it is one that has become of interest throughout the state. There are conflicting stories in regard to the attitude of the senators toward the appointment and toward one another in relation to it. The favorite theory is that they will be unable to agree with reference to who shall have the office, and that ultimately they will be pitted against one another for the patronage before the president. The matter is one in which Senator Burrows is in a better position to give way than Senator Smith. The existing conditions are such that the latter finds it highly advisable to stand out for his candidate to the finish. The men who made him senator are a unit in holding that it is high time that some one of their number get something. Senator Burrows would doubtless be able to obtain satisfactory assurances from Smith's candidate. However, he may see fit—and many people assert he will—to stick out for a candidate of his own choosing. If so, we will see who is in Washington, an interesting question which, as between our senators, has never been settled. Various things, one of them the approaching candidacy of Senator Burrows for re-election, combine to make the situation one of much interest, and to give it an importance far greater than would ordinarily attach to the filling of the office. As a matter of fact, the political power carried by the office is not at all as great as it is perhaps held to be by the general public. It is of political importance only as the man who fills it has a knowledge of the game and a disposition to play it. The office, per se, does not amount to much from this standpoint. No prediction is made as to when the collector will be named, but it is probable that events will move rapidly once the president has returned to Washington.

COMPLETION OF THE CANAL.

A message of cheer has been given to the people of this country by ex-United States Senator Blackburn, who is now a member of the Panama canal commission, and who confidently predicts that the canal will be completed within the next four years. This is nearly two years sooner than Colonel Goethals, chief engineer, has promised to have the work finished, but Colonel Goethals is generally believed to have allowed himself plenty of margin in making his promise, and it is probable that he himself looks forward to the completion of the canal in a shorter time than he has named. Mr. Blackburn's estimate is based on a close observation of the progress of the work, and although he has no professional reputation at stake, as is the case with Colonel Goethals, he of course would not risk the prediction he has made unless he thoroughly believes there is a good chance of its fulfillment.

There are now about 40,000 people on the payroll of the canal commission, and practically all of them are engaged in the work of opening the canal, though not all of them are excavating or handling machinery of construction. Some of them are employed in sanitary work, for the government's first concern was to make the canal zone sanitary and healthy, and it will spare no effort to keep it so. The government is also desirous of contributing as much as possible toward the convenience and attractiveness of the country, as otherwise it would have a great deal of difficulty in securing all the skilled labor that is necessary for the continuance of the work at the rate of progress now being maintained.

The opinion of some of the engineers, unofficially expressed, is that with respect to the digging the work will be finished within the next three years, and the finishing touches may be put on the work in ample time to have the canal in operation by the date set by Colonel Goethals, if not one or two years sooner. With the completion of the excavation

A Most Delicious Vanilla Sauce—

Boil one cupful of cream with one tablespoonful of sugar; white hot, stir in one teaspoonful of Burnett's Vanilla and the yolks of three eggs. Serve hot.

BURNETT'S VANILLA

will convince you of its superiority over ordinary kinds. Insist on getting the one bottle.

JOSEPH BURNETT COMPANY, 35 India St., Boston

A LAUGH OR TWO

He Hated to Take the Money.

Frank L. Cobb, one of Grand Rapids and one of the New York World, was on a vacation in the Maine woods once when Joseph Pulitzer wanted to communicate with him. Mr. Pulitzer sent Cobb a cipher message, says the Philadelphia Saturday Evening Post.

"Simply"—agrandissement—"griffon genard"—rodereck—"hopsetch"—hamfat—"publicity."

"There's a dollar to collect for delivering that message," said the operator, "but I hate to take it. Somebody along the line got it all hauled up, and they ain't no sense to it."

Excusable.

School children in Greater New York were required some time since to bring to their teachers' attention and birth certificates. Frequent forgetfulness made one teacher impatient, and word went out that the certificate must be there on a certain morning. On that day an anxious little girl raised her hand the moment school opened, and on being told to speak, said, tremblingly:

"Please, teacher, don't get mad at me. I've forgot my excuse for being born."

October Lippincott.

Sir!

At dinner the professor of history was seated between two young ladies, who, in accordance with their training in the art of conversation, sought to draw him out upon the subject in which he was most interested. They did not meet with much success; his answers were short—"Yes," "Oliveer Cromwell," "No," "1492," and the like.

Finally one of them in desperation ventured:

"Professor, we were wondering only this afternoon, and none of us could remember: How many children did Mary, Queen of Scots, have?"

"This was too much," Madame," said the professor, facing her with squelching dignity. "I am not a scandalmonger!"

Everybody's Magazine.

Not Within His Rights.

"Can I have two good seats, well down, not behind a post, and on the aisle?" asked a quiet gentleman at the box office.

"Three dollars apiece," replies the ticket seller, slamming out two tickets that call for seats in the last row, behind a post, and in the middle of the row at that.

"But there aren't what I want," objects the man.

"Can't help that. Got to take 'em or nothin'," responds the ticket seller obviously irritated.

"Look here, young man, that's no way to talk to people who come here to buy seats."

"'Duh! You talk as if you owned the theater!"

"I do. I happen to be the new owner."

"Then get away and let people that want to buy seats have a chance. You are very well you can get in for nothing."

Life.

Tongue Twisters.

A London paper recently offered a series of prizes for the best "tongue twisting" sentences. The prize-winning contributions are:

The bleak breeze brightened the bright bright breeze.

Two toads totally tired tried to trot to Ted's.

Strict, strong Stephen Stringer snared slickly six slickly silky snakes.

Susan slithers shed socks; socks and shoes shine Susan. She ceases slithering shoes and socks, for shoes and socks shock.

A haddock, a haddock, a black spotted haddock; a black spot on the black back of a black spotted haddock.

Oliver Ogletorth ogled an owl and an oyster. Did Oliver Ogletorth ogled an owl and an oyster, and did the owl and the oyster Oliver Ogletorth ogled?—Chicago Tribune.

Bald Heads Not Wanted

Baldness is Too Generally Considered a Sign of Advanced Age

A bald-headed person does not have an equal chance with one blessed with a healthy head of hair, because baldness is too generally accepted as an indication of old age. Many large corporations have established an age limit, and refuse to take men over thirty-five years of age as new employees.

Almost 65 per cent of bald-headed people may regain a good head of healthy hair if they will follow our advice and accept our offer. We have a remedy that we positively guarantee to grow hair on any bald, unless the roots of the hair are entirely dead, their follicles closed, and the scalp has become flake and ching.

We want people to try this remedy at our risk, with the distinct understanding that unless it gives exactly what we claim it will and gives satisfaction in every respect, we shall make no charge for the remedy used during the trial.

We know exactly what we are talking about, and with this offer back of our statements no one should scoff, doubt our word or hesitate to put our remedy to an actual test.

We want every one suffering from baldness, thinning hair, or loss of hair, or falling hair, or baldness, to try our Rexall "33" Hair Tonic. We want them to use it regularly—say until three bottles have been used—and if it does not create dandruff, cleanse and refresh the scalp, tighten the hair on its roots, and grow new hair, we will return every cent paid us for the remedy for the user's asking. There is no formality expected and we exact no obligation from the user whatever.

We are established right here where you live and make this offer with a full understanding that our business success entirely depends upon the sort of treatment we accord our customers, and we would not dare make the above offer except that we are certain that we can substantiate it in every particular.

Rexall "33" Hair Tonic comes in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Marquette only at our store.—The Rexall Store, The Stafford Drug Co.

PURELY VEGETABLE

The safest medicines are those which leave the system in the best condition after their use. This is one of the principal virtues we claim for S. S. S. Being made entirely of roots, herbs and barks, it is not in even the smallest degree harmful to any system, but on the other hand its vegetable ingredients make it one of the finest of tonics for the blood. It is in every way a great many blood purifiers. Its mineral ingredients which unfavorably affect the bowels, stomach or digestive system, and any blood-purifying effect they might have is therefore offset by their injurious action on the general health. S. S. S. is the one safe and pure blood purifier. It goes into the circulation and rids the blood of every impurity of pollution. It strengthens the circulation and adds nourishing properties to the blood and greatly assists in the cure of any blood disease. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Pox and all like diseases, because it purifies the circulation. S. S. S. may be taken by young or old with absolute safety, and with the assurance that it will cure all diseases and disorders due to an impure or poisoned blood supply, even reaching down and removing hereditary taints. Book on the blood and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

OPENING "PORK BARRELS."

Profitable Work for Ambitious Representatives at Washington.

Taft Lifts the Lid That All May See the Contents and Strikes a Blow at One of the Greatest Abuses in Congress—"Rivers and Harbors" and "Public Buildings" Both Useful and Necessary, But Tapped Somewhat too Frequently.

Washington, Nov. 4.—When President Taft in his St. Louis speech condemned the congressional "pork barrel" he hit at one of the greatest abuses practiced in congress. He is not likely to receive much encouragement from senator or representative in regard to the "pork barrel" as a fixed institution. It has served them to good purpose on many occasions and they will be loath to part with it. The very fact that it takes millions of dollars of the treasury annually to get appropriations passed, and for more legitimate purposes apparently does not concern them. The speaker of the house of representatives has frequently found the opening of a "pork barrel" of great assistance in getting votes for some pet measure he or his party wanted cranked into law. Members have found the "barrel" a ready help in obtaining renominations and re-elections. Democrats as well as Republicans are invariably permitted to have a slice of the "pork," and this explains the failure of the Democrats to attack the abuse.

Two separate and distinct "pork barrels" are opened. One is labelled "Rivers and Harbors" the other "Public Buildings." No one pretends to say that it is necessary to appropriate money for rivers and harbors work, and it will be conceded, of course, that it is necessary for the federal government to erect a certain number of public buildings every year, or every two years, but no one would deny that it is equally necessary to get through congress in making up these two bills, and in the manner in which they are "leg-roled" through the two houses. The legislative system as applied to these two bills has degenerated until it is no longer possible to get through congress without miserably needed without making appropriations for projects that are unnecessary.

For years the leaders, especially the leaders in the house, have realized that the abuses in the house membership, of the body must be taken care of in either a rivers and harbors bill or a public building bill if trouble is to be avoided. It has become the fixed custom for the house to hold the public building bill back until it is necessary to appropriate money for rivers and harbors work, and who had voted wrong during the session. If a Republican had offended the organization he could, perhaps, be punished by denying him any share in the "pork." Members have come to regard this punishment of being denied participation in the "pork barrel" as about the most severe that could be applied. It means trouble in the home district, it means loss of the membership of the men who have served as chairmen of the committee on public buildings and grounds in the house of representatives.

FOOTPATHS TO WISDOM.

No man is born into the world whose work is not born with him. There is all ways work, and tools to work withal, for those who will, and blessed are the busy hands of toil.—Lowell.

Why has no religion this command above all others:—"Thou shalt work."—Auerbach.

On bravely through the sunshines and the showers!

Time hath work to do, and we have ours.—Emerson.

Ease and speed in doing a thing do not give the work lasting solidity or exactness of beauty.—Phtarch.

Unless we put heart and soul into our labor, we brutify our actions.—H. W. Shaw.

Beloved, let us love so well, Our work shall still be better for our love.

And still our love be sweeter for our work.

And both, commend us, for the sake of each.—Mrs. Browning.

It is not work that kills man; it is worry. Work is healthy; you could hardly put more upon a man than he can bear. Worry is not upon the blade. It is not the revolution that destroys the machinery; it is the friction.—Beecher.

Work was made for man, and not man for work. Work is man's servant, both in its results to the worker and the world. Man is not work's servant, but, as an almost universal perversion has made him such.—J. G. Holland.

Genius work alone, what thou workest faithfully, that is eternal as the almighty founder and world builder himself.—Carlyle.

PILES CURED IN 6 TO 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded, 50c.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by The People's Drug Store.

Copper Country

A NOCTURNAL VISITOR.

Douglass House Guests Frightened in the Still Watches.

Guests of the Douglass House, Houghton, were frightened in the still watches on Wednesday night by unearthly screams. Cries of mortal agony or heart stopping fright emanated from some portion of the hotel, and guests in all sort of attire emerged from their rooms ready to "flee from the terror by night."

JURY PLACES NO BLAME.

Finding at Inquest on Mrs. Raapana Is Non-Committal.

"We, the jury find that Mrs. Selma Raapana came to her death on the afternoon of Nov. 2 by being run over by engine No. 100 of the Mineral Range railroad at the west end of Quincy street."

PREPARES FOR CHICKEN SHOW.

Secretary McNamara Getting Out Premium List for Exhibit.

Secretary McNamara is now at work on the premium list of the annual exhibition of the Copper Country Poultry association, which will be held at the Amphitheater Jan. 25, 26 and 27.

CALENDAR A SHORT ONE.

Only Fourteen Cases of the Criminal Class for November Term.

The November term of the Houghton county circuit court, which will open next Monday will have a very brief criminal calendar. There are only fourteen cases, the defendant in which are the following: Charles Leinonen, charged with assault with intent to murder; George Ross, assault with intent to murder; Peter Jurich, mayhem; Alfred Michelson, embelzement; Charles Aehblad, 1st Hall, violation of liquor law; John Tota, statutory; William Adams, larceny; Victor Borich, abandonment; Oscar Riel, non-support, appeal.

NEW CRUISING MOTOR BOAT.

R. C. Poyor's new cruising motor boat Napanee II appeared on Portage lake for the first time yesterday. She is named for Mr. Poyor's former boat from which he removed the engine this season. Napanee II was built by Bert Fletcher in his Ripley factory. She is 47 1/2 feet long and 9 1/2 feet beam and has an estimated speed of sixteen miles per hour with a sixty-horsepower engine. The boat is the handsomest ever turned out of a Portage Lake boat factory, is roomy, comfortably equipped and fast enough for all cruising purposes.

GETS SIXTY NEW UNIFORMS.

An outfit of sixty olive drab uniforms has been received by the Houghton Light Infantry from Lansing. The uniforms will be worn in the football parade Sunday for the first time.

INDIAN MEDICINE MAN.

Can produce roots and herbs for every ailment, and cure diseases that baffled our most skilled physicians who have spent years in the study of drugs. From the roots and herbs of the field originated Lydia E. Pinkham's Vegetable Compound, which for thirty years has proved more potent and efficacious in curing female ills than any combination of drugs known.

FATHER WACHTER TRANSFERRED.

Rev. Father Wachter, who formerly was pastor of St. Patrick's church, in Hancock, and who for the past four months has served as assistant to Rev. Father Laungan of St. Patrick's church, in Escanaba, has been appointed by Bishop Erik of Marquette as pastor of the Greenland Catholic church and the mission near that place. Father Wachter assumed his new charge this week.

FIGHTING OFF A COLD.

"Fighting off a cold" is a common experience and will be successful if you use the right weapon: Humphreys' "Seventy-seven"—a few doses at the first feeling of lassitude and weakness will break up the cold and prevent the influenza, cough and sore throat from developing.

Victor Herbert works and plays for the Edison Phonograph

Victor Herbert has written some of the most popular music produced by an American composer. The Edison Phonograph makes the best of it available for you.

Victor Herbert has trained one of the best orchestras in this country. Its music is reproduced upon Edison Records.

Victor Herbert is musical adviser to the National Phonograph Company. No other sound reproducing machine has the advice of so distinguished a musician as Mr. Herbert.

This is just one of the many things which Mr. Edison is doing to make the Phonograph the most perfect music reproducing machine in the world. You can enjoy it at an expense so small that you cannot afford long to hesitate. Hear the Edison Phonograph today. Hear it play Amberol Records; hear it play Victor Herbert's music, and then you will know why Mr. Edison said "I want to see an Edison Phonograph in every home."

Edison Phonographs - \$12.50 to \$25.00 Edison Standard Records - 35c Edison Amberol Records - 50c Edison Grand Opera Records - 75c

SPANISH WAR REUNION.

MEETING IN ONTONAGON.

Houghton Veterans Name Committee to Arrange for Gathering.

Professor Wright Talks to School Officers—Houghton Meeting Notes.

At a meeting of George Miller camp, United Spanish War Veterans, Wednesday night at Houghton the following committee was appointed: George Miller, of Anthon, chairman; Commander A. M. MacDonald and Henry Becker, of Houghton; W. Frank James, of Hancock; George Osborn, of Escanaba; and Jacob Jarvis, of South Range.

Hon. L. L. Wright of Ironwood, who on Wednesday addressed a meeting of school officers of Houghton and Baraga counties, yesterday conducted a similar meeting at Ontonagon. The meetings were very interesting and instructive. The following are a few notes of Wednesday's meeting at Houghton and which were not touched upon in the account of the proceedings published in yesterday's issue of The Mining Journal.

It was decided to hold the upper peninsula reunion at Houghton next August. The Northern Michigan members of the Grand Army of the Republic will be the guests of the Spanish War Veterans on that occasion. They will be expected to participate only insofar as they choose. None of the work of the reunion will be entrusted to them, and they will only be expected to give the occasion with their presence and enjoy three days of copper country hospitality. The program will include a military pageant. There will be one big evening meeting, a banquet for all veterans. There will be a grand ball, and there will be an outing to the White City.

Legal school holidays are not defined in the school law and the supreme decision that a legal holiday is one publicly and commonly observed is the rule for the schools to follow. Mr. Wright's list is Christmas, New Year's, Thanksgiving, Fourth of July, Memorial Day and Labor Day. He says that Washington's and Lincoln's birthdays are not legal holidays, and a teacher may not have a special holiday, such as the Friday following Thanksgiving or Good Friday. He does not include Columbus Day in his list.

The upper peninsula sent six companies to the Spanish-American war as elements of the Thirty-fourth Michigan. They are now in the State of Alaboma. These companies represented Houghton, Calumet, Sault Ste. Marie, Marquette, Ironwood and Iron Mountain. Every company lost a few men by disease in Cuba and many more after the return home. The companies engaged in the battle of San Juan Hill and the operations around Santiago before and after the surrender. It can thus be seen that this reunion will bring to the young veterans some stern memories as well as those of friendship and comradeship.

Mr. Wright believes it is possible to persuade the teacher's wages but not certain. He believes it is possible to compel attendance at proclial schools. All public monies should be kept in separate funds and if drawing interest the interest must be credited to the general fund. A teacher may not do what he pleases with the school monies. Mr. Wright says in this regard Michigan school officers are exceptional. All being honest but some being careless.

In closing his meeting Mr. Wright took occasion to thank the officers for their attendance and attention and to compliment the two counties on the personnel of the boards. He had not met a finer set of school officers. He said in closing "Let us remember that we are in the first of a school board which I would like to impress upon you. That is the careful selection of superintendents and teachers. The matter of the selection of teachers and other professional matters may safely be left with the superintendents and the board are doing their best for their districts by careful attention to financial and business matters."

Mining News

COPPER PRODUCERS' REPORT.

Although since the first report of the Copper Producers' association, issued last February, the status of the production and consumption of copper has been made much clearer, the figures as they are now reported in production deliveries and surplus lend to a wrong inference as to the exact status of the copper metal supply, says the Boston Financial News. It is not generally known that probably two-thirds of the surplus as reported by the association has already been sold, so that if the surplus reported were divided into sold and unsold copper it would doubtless be found that instead of a surplus of 151,000,000 pounds for the first nine months of the year the actual amount of unsold copper is nearer 50,000,000 pounds than three times that amount. In other words copper which has been sold is still reported as stock on hand. One of the largest lake copper producers tells us that he has made sales of copper this month that will not appear as deliveries until the December statement and that as a matter of fact his company has little or no copper on hand. All this copper now in process of manufacture or in transit has been sold. It would be well, therefore, for the reporting association to make some distinction along these lines in the excess copper supply.

The metal situation at the moment is in a weekly covered stage. Some of the largest producers refuse to quote prices and are not selling any large amounts. The situation is practically in the control of the consumers for we under stand that many of the producers are now allowing their own inventories to fall below their own figures and are willing to make deliveries when the consumers' figures are reasonable. On this basis the producers are keeping pretty well sold up although the low price of lake has reached a depth of 800 feet without revealing anything of importance. No. 2 hole is 100 feet to the westward of this hole and was put down to complete the geological cross section begun in holes No. 1 and 2.

GREENE-CANANEA MAY PAY DIVIDEND.

The resumption of dividends on the stock of the Butte Condition company has given rise to reports of similar action being taken by the directors of the Greene-Cananea Copper company. While no official information can be obtained at this time, it is not improbable that dividend payments on the stock of the Greene-Cananea will be resumed in the near future. Shortly after the Cole-Ryan interests took over the property from the Greene interests, dividends on the stock were suspended, and it was decided to put the earnings back into the property. As a result of this policy adopted by the Cole-Ryan management, practically the entire plant of the company at Cananea has been rebuilt and many labor-saving devices have been installed, so that the entire property is now in better condition than ever before. The company is now producing at the rate of about 4,000,000 pounds of copper per month, but with any material improvement in the copper metal situation, the production of the property could be increased to more than 60,000,000 pounds a year. The company recently took over the Indians-Sonora mines from the Phelps Dodge interests, and it is said negotiations are under way for the acquisition of other mining properties by the Greene-Cananea company.

FIRST NATIONAL COPPER.

It is stated that the Guggenheim interests have secured an option on a large block of stock of the First National Copper company. The option, which is said to be at about \$10 per share, expires in December and if exercised will give the Guggenheim interests control of the property. The Guggenheim interests already own about 80,000 shares of First National stock and are the largest individual holders in that company. The First National controls twenty-seven mining claims with a total acreage of 1,140 acres in the Flat Creek Mining district in Shasta county, Cal., and a smaller at Coram, Cal., capable of treating 2,500,000 pounds of ore a day. The company is producing at the rate of about 15,000,000 pounds of copper per year at a cost of about 18 cents per pound.

NOTES OF COPPER NEWS.

The crosscut on the fifth level at the Lake Superior has advanced over seventy feet within the week, exposing first-class stope ground for the entire district. The hanging wall is not yet reached. The width of commercial ore exceeds by more than ten feet the greatest width of mineralized ground previously opened in the property.

According to Boston advices, the Davis Daily Copper company will go on a regular production basis of about 500 tons daily within sixty days. President Heinze is quoted as follows: "We are not yet out of the 1,500-foot level and the ore looks just as good there as it does on the 1,425-foot level. We have twenty-five feet of ore on the lowest level that runs about 4 per cent copper."

Official returns of the output of East Butte in October show 635,265 pounds as the production of copper. November will have a somewhat better showing, although the mines and smelt, are being worked at half capacity, the policy being to leave as much ore in the ground as possible until metal conditions improve. When the situation warrants the company will begin production at the rate of 15,000,000 pounds per annum.

Shipments of milling rock from the Michigan mine to the Atlantic stamp mill have entirely ceased and preparations are now being made at that mill to handle an increased tonnage from Superior mine. One of the two stamp mills at the Michigan will be given over to the Superior and as soon as the wash can be re-arranged will be put into service on that company's rock. The Superior is now using one stamp and shipping 300 tons daily. The addition will give Superior facilities to treat a total of 600 tons daily. Once No. 3 drill hole has encountered an amygdaloid lode at a depth of fifty-five feet, showing considerable copper. The identity of the lode is not

that which was originally captured by the schooner America. It is done every season. Equally easy would it be to mark a special trophy with a condition that if he held open to international challenge. That also has been done, and the result has been that the trophy has lain tarnishing for lack of competition and has at length had to be thrown back into open competition in the hope of raising a new interest. The only value the America's Cup has lies in the strenuous half-century of fighting which has centered in it. These associations cannot be transferred to any other trophy. They belong to the America's Cup alone, and our anxiety for the success of the latest negotiations is due to the fact that with the withdrawal of the America's Cup these associations and the spirit which they have engendered would be lost to the sport.

CAN YOU BELIEVE YOUR SENSES? When two of them, taste and smell, having been impaired, if not utterly destroyed, by Nasal Catarrh, are fully restored by Ely's Cream Balm, can you doubt that this remedy deserves, all that has been said of it by the thousands who have used it? It is applied directly to the affected air-passages and begins its healing work at once. Why not get it today? All druggists or mailed by Ely Bros., 56 Warren street, New York, on receipt of 50 cents.

City Brevities
Today's weather: Partly cloudy, Friday; stationary temperature. Yesterday's temperatures: Seven a. m., 39 degrees; noon, 40; 7 p. m., 38; maximum, 44; minimum, 36.
St. Mary's guild will meet this afternoon with the Misses Werner, 121 East Hewitt avenue.
Dr. A. B. Grant, a prominent surgeon from the lower peninsula, is the guest of Dr. R. C. Markham.
Miss Marie Templeton, teacher of the public school for the deaf, left for Milwaukee last evening.
The Woman's guild and the Young Woman's guild will meet at Guild Hall this afternoon at 2:30 o'clock.
The Baptist Ladies' Aid society will meet at 3 o'clock this afternoon with Mrs. F. W. Read, East Arch street.
Joe Rogers will play with the Guild Hall football team in its game with the Ishpeming Y. M. C. A. at Union Park tomorrow.
The Epworth league of the Methodist church will give a social in the church parlors this evening. A musical program will be given.
The Ladies' Aid society of the Methodist church will meet this afternoon at the home of Mrs. C. R. Brown, 1090 North Third street.
The Woman's society of the Presbyterian church will meet with Mrs. E. S. Bice, East Hewitt avenue, this afternoon at 3 o'clock.
Director Houghtens of the Guild Hall gymnasium will be absent from the city today. Miss Watson, assistant, will have charge of the ladies' classes.
The funeral of the late Christine Clash will be held at 9 o'clock this morning from the French Catholic church, with interment in Holy Cross cemetery.
The sewing circle of the Ladies' auxiliary to the A. O. U. will meet this evening at 7 o'clock with Miss Kats Murphy, 235 West Ohio street.
In accordance with the policy adopted a short time ago at the meeting of the Queen City Commercial club Monday evening some local men of prominence will make an address.
Peter Kramer, who has been the landlord at the Central House on Spring street for many years, has decided to quit the hotel business, and Joseph Gagnon of An Train will in the future run the Central House.
The committee recently appointed to consider ways and means for organizing an art association in Marquette met at the home of Mrs. George Conklin last evening. Plans for interesting the public were discussed and special work was outlined for individual members of the committee, who will hold another meeting Saturday. It is hoped that the association may be organized early next week.
Will Move South—W. H. Beals, who has been working in the South for the past six months, has decided to make his residence there and has sold his home on Front street to J. B. Nesbitt. Mr. Beal's family will move south in the near future. Mr. Nesbitt will rent the house purchased of Mr. Beal.
Entertained at Golf Club—Miss Florence Atchamont entertained at the Golf clubhouse last evening in honor of her guest, Miss Viola Primeau, of Escanaba. Trombly's orchestra furnished music for dancing and refreshments were served by Mr. and Mrs. King. The forty guests spent a delightful evening.
Fifteen Days in Jail—John Tankish, who was arrested Wednesday for assaulting a fellow deckhand on the steamer Durston with an axe, was taken before Justice Byrne yesterday, where he was sentenced to pay a fine of \$10 or go to jail for fifteen days. Not having the necessary \$10, Tankish was taken to the county jail.
Kermis at Menominee—Mrs. Grace Palmer Petter is now in Menominee conducting rehearsals for a Kermis to be put on in that city for the benefit of the Grace Episcopal church. She will be joined by Miss Jessie Palmer in the near future. These two Marquette women have put on similar productions in other nearby cities, all of which have been highly successful.
Will Play at Newberry—The Normal football team leaves this morning for Newberry, where they will play the Normal team which will line up as follows: Center, Stewart; right guard, McKereghan; right tackle, Powell; right end, Fallow; left guard, Finley; left tackle, Windoff; left end, Rogers; quarter, McCarthy; right half, Wheeler; left half, Fraser; full back, Brotherton.
Rumor Without Foundation—The report that the public school pupils have been instructed not to drink the city water while in school and that the water has been shut off in the school buildings is declared to be without foundation by Superintendent Gebrard. However, some of the teachers have advised their pupils not to drink the city water, possibly while in school, particularly where boiled or bottled water is used in their homes. At none of the school buildings has the water been shut off or the pupils denied permission to drink it.
Story Hours at Library—Plans have been completed for weekly story hours at the Peter White Public Library from now on through the winter months, and it is hoped to interest all the young people of the city in this feature. Miss Jessie Van Cleve will tell the stories with which the children will be entertained. The story hour for the children of the first and second grades at the schools of the city will open at 10:30 o'clock each Saturday morning; for the children of the third, fourth and fifth grades at 4 p. m. each Thursday, and for the sixth and eighth grades at the same hour each Thursday.
Life Savers Praised—The life savers of Michigan received a fine compliment from Sumner I. Kimball, general superintendent of the United States Life Saving stations, in an address which he made at Washington several days ago. In part, he said: "They made me a man; they wouldn't let me write about a live one, or I would have given them as fine an example of the best type of American citizen as there is in the country." he said in referring to his recently issued book, "That citizen lives in Michigan." There are more than a dozen of them and they are to be found in every life saving station in the lower and upper peninsula. No state in the Union has a better and braver body of life savers than has Michigan."

BOWLING SCORES.
At the down-town bowling alleys last evening, the Ishpeming No. 1 team gave the Marquette bowlers the worst thrashing they have ever received at home. The match was witnessed by a record breaking crowd. Luncheon was served at the Colonial Inn following the play.
In the handicap league contest the Finias, skamped Mike Foad's No. 4 team, taking three straight games. The scores of this match, with the handicaps added, were as follows:
No. 4 Team— Tot.
Gooing 137 168 188 493
Davis 170 196 158 523
Waterbury 149 186 177 512

The proper construction of your Suit or Overcoat requires combined efforts—the skill of a designer and the artistic work of a tailor. The relation of a tailor to a designer is like of the carpenter to the architect in housebuilding. We can build good clothes because we have the skilled designers who can model good, and we have the artist tailors who can make them good—the other important feature. We price them low—no middle man's profits when buying direct from the maker.

A MYSTERY.
As a substance, the diamond is one of the mysteries of nature, one of the de-spairs of science. Nobody knows where it came, nor how—whether it is a spark from a comet's tail, or a crystallized drop squeezed in some horrible intensity of fiery convulsion from the white-hot insurgent heart of the earth. Nobody knows much about it at all, except that it doesn't "belong" to this world.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co's correspondent at New York yesterday telegraphed as follows:

The stock market showed strength in specialties today. Some irregularity occurred, but there was not a great deal of liquidation until shortly before the close of the market, when the more active issues caused a fall to one per cent. This might have been influenced somewhat by the sharp break in the New York cotton market. Steel was the feature of the day. The buying was principally by houses closely associated with the so-called insiders to this issue, and appears to be of excellent character. Rock Island issues showed good form and looked well bought. They may sell higher. New York Central showed a further decline today, which we believe is due to the liquidation and bear pressure inspired by the proposed new stock issue, which seems to be construed as a bearish factor. The metal stocks still show good form, and we still believe in ultimately higher prices for these of the better class. Time money showed a slight reaction today on amounts offered at 4 1/2 per cent for from three to five months.

Closing prices were as follows:

Table listing various stocks and their prices, including Amalgamated, Anaconda, and others.

Boston Stocks

Table listing Boston stocks and their prices, including Amal. Cop., Adventure, and others.

The number of shares sold during the day were as follows:

Table listing the number of shares sold for various stocks, including Amal. Cop., Adventure, and others.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market:-- The whole copper list was stronger and more active today; speculation broadened out and almost every stock shared in the rise. Copper Range ad-

management and the Vanderbilt put on a regular eighteen-hour train service.

Upon both roads the service has been almost clock-like and furthermore, it has been profitable. The late Charles Peter Clark, who put on the first five-hour train between New York and Boston, had little faith in it as a profitable investment. He said to the writer that it was done chiefly as an advertisement. But there must have been profit in it, since it has been maintained, and two other trains of a like schedule put in service.

A few years ago it would not have been practicable for the Vanderbilts to establish a twenty-four-hour service to St. Louis. For the roadbed and equipment of the Big Four system were not such as to justify the great speed needed. Now the millions taken partly out of earnings partly from new stock, with which the Big Four has been practically rebuilt, have made it possible for the Vanderbilts to inaugurate the announcement by the Pennsylvania management by establishing twenty-four-hour trains to and from St. Louis.

Furthermore, these new trains illustrate the readiness of business men to give substantial support to railway service, which will, in turn, save several business hours each day. And the increasing tendency to establish service of this kind is shown in the far West, where there has been great reduction in time between Minneapolis and the Pacific coast, and also in the profitable support which has given to the service which connects with the Pennsylvania management by the Vanderbilt eighteen-hour train to Chicago.

IS CURIOSITY SHOP OF GEOLOGICAL WORLD.

Nearly Every Mineral Known Is Found in Santo Domingo. NONE IN LARGE QUANTITIES.

Eighteenth Century Spanish Explorer Said That the Mines There Rivalled Those of King Solomon.

Washington, Nov. 4.—Having received numerous inquiries regarding mining and mineral resources of Santo Domingo, Consul Ralph J. Totten, of Puerto Plata, has prepared a general outline of the information obtainable. Gold is the only mineral that has been worked to any extent. In the time of Columbus the Indians paid tribute in gold, and in 1497, 1506 and 1509 the mines were scientifically explored, but none of the mining men now in this country claim to have located quartz veins that would pay for the working.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 4.—The prices of wheat dropped to new low levels today, on renewed liquidation in the December, but made a complete recovery and closed 1/2 cent higher compared with the final figures of the previous session. At a dull first hour the market slumped sharply, on general profit-taking, prompted by liberal sales of the December by leading elevator interests. This selling brought out numerous "stop-loss" orders, the execution of which curbed the market's decline. Towards the close the market was deadweight heavy. Late in the day shorts covered freely, which resulted in a strong tone at the finish. Lower cables and the weakness of cash wheat in this country were weakening influences during the day. The December opened at 101 1/4, to 101 1/2; highest, 102 1/4; lowest, 101 1/4; closing, 102.

Corn—The first half of the day the market was inclined to droop owing to the continued favorable weather conditions.

Corn—The first half of the day the market was inclined to droop owing to the continued favorable weather conditions. Cash prices reported a scarcity of old corn, the bulge in wheat late created a better feeling and the close was moderately firm, with the prices a shade to 1/4 higher. The December opened at 87 1/2 to 88 1/4; highest, 89 1/2; lowest, 87 1/2; closing, 88 1/4.

Quotations.

Table listing various commodities and their prices, including wheat, corn, and other grains.

CLOSE FRIEND OF WALSH.

John M. Smyth, Pioneer Millionaire Merchant, is Dead at Chicago.

Chicago, Nov. 4.—John M. Smyth, a pioneer millionaire merchant and politician in the case of John R. Walsh, the convicted Chicago banker, was died today in the United States circuit court of appeals.

Convicted Banker Asks a Rehearing.

Chicago, Nov. 4.—A petition for a rehearing in the case of John R. Walsh, the convicted Chicago banker, was filed today in the United States circuit court of appeals.

Upper Peninsula

His Neck Was Broken.

Isaac Nissula, an employe of the Brotherton mine, is dead at Wakefield, Gogebic county. He was killed by a large piece of ore falling on him and breaking his neck.

Takes a Position in Georgia.

Miss Florence Duval, a graduate of the Grand Marais high school, and later of the Thomas Normal, Detroit, has gone to Atlanta, Ga., to accept a teaching position as teacher of domestic science in the public schools.

Supervisor Not a Citizen.

Having called attention to the fact that one of the supervisors of Schoolcraft county was not a citizen of the United States, the Manistique Pioneer-Tribune says that Philip Groudin of Seney, who represents his township on the board, filed his application for citizenship papers before County Clerk Dufresne Oct. 11, last. The application will be acted upon in circuit court Jan. 10, 1910. Mr. Groudin is a well-known lumberman.

Newlyweds Given Warm Send-Off.

Married at Newberry, Ezra Schwalm and Miss Elizabeth Brown were given a warm send-off by their friends upon their departure for a wedding trip to points in the lower peninsula. They were showned with rice and old shoes, and a couple of wags passed through the train distributing handbills containing the following:--

REWARD!

For Apprehension of Bank Clerk and P. O. Robber.

A large reward will be paid for the apprehension of Ezra Schwalm, bank clerk and postoffice robber. Schwalm has burglarized the Newberry postoffice and carried off its charming postmistress, Miss Elizabeth Brown, the daughter of a prominent Newberry family.

The groom is attired in a dark suit and derby hat and wears a small crop of football hair. He is five feet eight inches tall and weighs 145 pounds.

The bride is attired in a blue traveling suit with blue hat and green leather. She is about five feet six inches tall and weighs scarcely 100 pounds.

The parents and many friends are very solicitous about their journey, as they have never been far from home (7). Will you be their chaperon?

"Don't" to be considered: Don't let them hold hands. Don't let them make believe they are hitched. Don't let them sit too close together. Don't let them spoon, for they left plenty at home. Be sure and keep the lights on through tunnels.

A reward of ten pounds of rice will be paid for their safe return within ten days.

Man's Death Is Tragic.

Dear Booklist, a hunder at D shaft of the Newport mine, at Ironwood, either fell into the ore pocket of the shaft-house and was killed by a skidload of ore being dumped on top of him, or he died of heart failure and fell into the pocket and his dead body was covered with the ore. Just which fate overtook him has not been decided. His absence was not noted until one of the men at work on the ore cars found an obstruction in the chute that prevented the ore from running freely. Upon further investigation he found the body of a man. It required over two hours time to release the carcass which had been in domestic use in the past for 2,000 years and which was impeded by the Greeks and Romans. The Saracens are credited with substituting a wheel for water to turn the toothed wheel that recorded the time. The invention of an escapement is attributed to Gerbert about A. D. 1000. Continual improvements have been made since then. The first watches were made early in the sixteenth century by Peter Hale, a clock-maker of Nuremberg,--Boston Globe.

CLOCKS AND WATCHES.

There is no record showing who was the inventor of the present form of clock, which was the successor of the water clock, which had been in domestic use in the past for 2,000 years and which was impeded by the Greeks and Romans. The Saracens are credited with substituting a wheel for water to turn the toothed wheel that recorded the time. The invention of an escapement is attributed to Gerbert about A. D. 1000. Continual improvements have been made since then. The first watches were made early in the sixteenth century by Peter Hale, a clock-maker of Nuremberg,--Boston Globe.

Miners Now in Country.

This office has record of four companies or individuals now in this country, in the central or northern portion, engaged in prospecting for minerals or in developing prospects previously located. One company is installing up-to-date machinery and engines for thorough exploitation of its property. It has been compelled to transport all machinery, tools and supplies 35 miles on pack horses and over roads that seem at first glance to be practically impassable.

As to the value of the mineral deposits, experts who have looked into the matter show considerable differences of opinion. Don Juan Nieto Barreled, who was sent by the Spanish government in 1793 to study the mines of Santo Domingo, records the existence of mines and lodes of gold, silver, copper, iron, alabaster and emeralds. Some of the old partially worked mines he sets, were of extraordinary richness. He finished his report by saying: "I can compare this isle to that of Tarshish, from which Solomon drew the gold which he employed in the ornamentation of his temple." Mr. W. P. Blake, geologist and mineralogist, sent by the American government in 1871, who reports the existence of considerable mineral wealth in paying quantities. On the other hand, Sir A. E. Geike, the well known English mineralogist, after making an 18 months' investigation of the mineral resources of the island, reported that this country, in his opinion, was a geological curiosity shop, containing scattered samples of nearly every mineral, but none in sufficient quantities to be of commercial value.

THE FACT REMAINS THAT NO MINING DATE YEARS HAS PROVED SUCCESSFUL.

proposition in the Dominican republic, although nothing has been attempted with abundant capital and with modern methods and machinery.

MOVING PICTURES OF GERMS.

Paris, Nov. 4.—Jean Commanon, a young scientist who has succeeded in making cinematograph records of active microbes, which is deemed of the highest importance, as it enables their movements and development to be carefully watched by regulating the speed of the cinematograph, thus explains his success:--

Infinitely small organisms seen as dust are visible playing in a ray of sunlight because they are laterally lighted. This method has enabled savants to discover a great number of new microbes which are not visible in an ordinary microscope. Focusing is difficult, but when it is arranged thirty-two photographs are taken in a second. The magnification obtained is from 10,000 to 20,000 diameters. The ultra-microscope makes visible objects the size of which is one two-thousandth part of a millimetre.

Those present at Commanon's demonstration saw the microbes causing sleeping sickness, as large as eels, rapidly rushing about in the blood.

SOUTHERN REPUBLICS ARE SEEKING LOANS.

In the Aggregate the Money They Want Amounts to a Very Large Sum--Wm. I. Buchanan's Tragic Mission to London Is Believed to Have Been in That Connection.

New York, Nov. 4.—It may be that the death of William I. Buchanan will occasion some delay in important negotiations which it is presumed he was commissioned to carry on. These negotiations are surmised to have been his purpose when he recently went to London. Although authoritative statement cannot be made in explanation of Mr. Buchanan's association with these important financial transactions, yet it is the common impression that he was representing Mr. Morgan, seeking the British holders of the defaulted bonds of the republic of Honduras.

That Mr. Morgan has undertaken to finance Honduras out of national bankruptcy, and that in order to do this a proposition has been made to the holders of the bonds of that republic that they accept 15 per cent of their face value, are facts of common knowledge. And it has been the presumption that Mr. Buchanan had persuaded, or would persuade, the English bondholders to accept that proposition. Were there acceptance of it by all the bondholders, then it would be possible to begin the negotiations which have for their purpose the financing of Honduras into a condition of fiscal and financial health.

Mr. Buchanan's death has occasioned interesting and, from one point of view, very important discussion in circles where negotiations are in progress having for their purpose the placing of considerable loans in the Latin-American republics. In addition to the attempt to finance Honduras into national solvency, it has recently been announced that Costa Rica has secured a national loan, quickly absorbed by American capital. It is also the fact, although the public has so far no knowledge of it, that other Latin-American republics are advancing towards the money market, chiefly in the United States, both intent to secure loans which in the aggregate will reach a large sum. It is not thought to be expedient that there should be any publication telling of the amounts sought or the republics which seek these loans.

The negotiations have not proceeded far enough. Very likely the great offices of our state department at Washington may be sought, in order that there may be facilitation of these transactions sought by persuading these Latin-American governments to permit control by the United States of their customs houses.

While these negotiations are progressing and especially if there is good chance that they will be successful, it is regarded as a very favorable moment for securing such monetary systems in the Latin-American republics as would make it possible to establish a sound, steady and permanent system of exchange. Already Chile, the Argentine and Brazil are long steps in the direction of securing a system of exchange and monetary standards which will be not only to the advantage of the people of those republics, but also to all other nations that have commercial relations with them. Undoubtedly the establishment of this perfected monetary system in Brazil and in the Argentine in great part explains the heavy movement of gold from the United States to those countries. They have secured now, presumably, sufficient gold to make it possible for the governments to contemplate satisfactory fiscal and currency systems based upon gold.

For example, the large supply of gold secured by the Argentine government makes it now possible for that government to accept gold, issue paper for it, this paper currency passing into general circulation throughout the republic. It is domestic as well as the national money. But when the merchants of the Argentine republic wish to buy the products of other nations they may buy with their money from the bank of that republic drafts or exchange which will have a recognized and steady value the world over. It is easy to understand why exchange furnished in this way may serve greatly to facilitate and increase the commercial transactions between the Argentine and the United States, for instance. Some of the higher authorities, Charles A. Conant, for instance, who worked out so admirably the currency system of the Philippines are inclined to the opinion that it might be the better part if their Latin-American republics were to deposit their gold, or a considerable portion of it, in London or in New York, or in both cities, and then when the merchants wanted exchange, the banks would draw against the gold.

TRAINING ANTI-SOCIALISTS.

London, Nov. 4.—The Anti-Socialist Union has already received 30,000 donations in response to its call for a million shillings to "train workmen to combat Socialists."

Classes for speaking are held by the union three times a week and have been attended by 384 men and eighty women. They learn to lecture on the fallacies of Socialism.

On certain days the pupils are told to heckle the appointed speaker, who must show capacity in answering the hecklers with facts and to continue the lecture despite disorder. The course lasts three months. Then the speakers are sent all over the country.

REMEMBERED THE CATS.

All the cats in Ireland would purr at their grateful regard for the late Miss Mary Swift, of Keshport, Manxions, Dublin, if they knew the provisions of her will. About \$22,000, more than half the amount of her estate, is left to cats—that is to say, is devised for their benefit. Of this, \$20,000 goes to the Dan Home for Feral and Starving Cats for the support of the bene and for the chloroform chambers, where cats may be put painlessly to death. Miss Swift was always down on vivisection, and a clause in her will provides that if ever any of the cats are used for vivisection or anatomical purposes the bequest shall be void; \$500 is left to the chief of the Irish constabulary, and any person who prescribes any one for cruelty to cats will receive \$10 out of the income.

IMPROVEMENTS COST OVER \$30,000

BOARD OF PUBLIC WORKS MAKES REPORT TO THE COUNCIL ON EXPENSE OF REBUILDING PUMPING STATION AND PUTTING IN NEW PIPE LINE.

At the council session Wednesday evening the board of public works presented a statement showing the cost of the new pipe line, building of the new pumping station, installing pumps, and all other expense in connection with the improvements made to the system last year. The number of feet of pipe installed by the Michigan Pipe company was 10,802, exclusive of 255 feet necessary to connect the new main with the old one, making a total of 11,057 feet. The contract was awarded to the Michigan Pipe company July 27, 1907, and the company received a final settlement the 5th of last month, after all of the defective pipe had been replaced and the line placed in perfect condition.

At the time the surface curved between the Lake Angeline and Section 16 mines, threatening the destruction of the water main, the board of public works recommended that the improvement now being reported on be made. It was then thought that the improvements could not be made under \$35,000, but the total cost, according to the following statement, was less than \$31,000:

Paid to Michigan Pipe Co. for new 14-inch pipe line.....	\$17,897 56
Repairs on new pipe line.....	494 37
Repairing streets.....	39 75
Paid to J. Wahlman & Son, building pump station.....	2,776 00
Paid to J. Wahlman & Son, extra.....	243 90
Paid to Lake Shore Engine works, for cast pipe and valves.....	1,917 10
Cost of foundation of building, piping, trenching and miscellaneous labor around building.....	5,614 08
Cost of foundation for Prescott pump.....	261 62
Cost of foundation for Worthington pump.....	164 13
Cost of installing Prescott pump.....	126 37
Cost of moving, repairs and installing Worthington pump.....	576 02
Paid to Crane Co., for hydraulic lift.....	250 00
Building new water house.....	139 07
Paid to Egan & Swanson, for painting pumps and building.....	163 00
Total.....	\$30,663 43

SUIT COMPROMISED.

Employe of Former Ishpeming Contractor Wanted Large Sum for an Injury.

A special from Virginia, Minn., to the Daily Evening Herald, Wednesday gave the following account of the settlement of a personal injury suit instituted by Jacob Hakkala, against W. R. Shaver, a former Ishpeming contractor, who is now in business on the Mesaba range. Hakkala against W. R. Shaver, in which the plaintiff asked for \$10,000 damages for having been injured by the giving away of a scaffold attached to a dwelling house being built by the defendant at the St. James location, near Arroyo, came to an abrupt end in district court. The plaintiff is said to have received the sum of \$300 in settlement of the case.

PROPERTY OWNER ASKS \$300 DAMAGES

CITY WORKMEN CHARGED WITH REMOVING BARN AND FENCE, TO MAKE ROOM FOR A SIDEWALK, WITHOUT PERMISSION.

James Dwyer, who owns lots Nos. 2 and 3 in block No. 12 of the Excelsior iron company's addition, presented a claim for \$300 to the council Wednesday evening. He alleges that his property was damaged to the extent of the sum mentioned when the city trespassers upon it and removed a barn and fence to make room for a concrete sidewalk extending along the Euclid street side of the lots.

It was necessary to take a portion of both lots in order to make the walk the regulation width. The city employes repaired the fence, and placed it back from the original line. Mr. Dwyer has served the city with notice to either remove the walk and put the fence and barn where they were originally, or pay the amount asked for. The petition was referred to the committee on streets and alleys, board of public works and city attorney.

Salisbury People Want Walk.

A petition signed by Captain J. H. Dunstan of the Salisbury mine, and fifty-six other residents of that location, was presented. They asked that a sidewalk be constructed from a point near the Section 10 mine crossing to the corner of the street near Thomas Callow's store. The present walk is in poor condition, and the petitioners say it is a menace to pedestrians and traffic. The petitioners also ask the council to order an iron lamp placed at the Excelsior street crossing, near Section 16 mine. The petition was referred to the committee on streets and alleys and street lighting.

Curbing With Taxes.

The council adopted a resolution authorizing the city treasurer to collect with the taxes next month three-fifths of the cost of the curbing put in opposite the properties on several streets repaired this season. There are eighty-four descriptions in all, including those reported on at the last two meetings of the council. The recorder was instructed to prepare a statement, showing the number of feet of curb built, and the amount to be collected by the treasurer, and to send the same to each property owner prior to the collection of the taxes next month. The city treasurer is to be presented with a duplicate of the list and the amounts are to be added to the regular taxes.

The property owners who are to be assessed on account of the curbing, and whose names had not been presented at a previous meeting of the council, are as follows:

Total cost A'm't to be of curb, paid city.	
M. F. Lally.....	\$13 75
Chas. A. Parks.....	13 50
James Matthews.....	14 75
Thos. H. Bargh.....	13 50
J. A. Hodgkins.....	12 50
Mary Hodgkins.....	13 50

THE ALASKAN COMING.

Manager W. P. Cullen of "The Alaskan" company, which was one of the best attractions seen in the iron and copper districts last season, has been induced to send the company this way for a return date. A few nights after the show was seen here last March it opened for a run at the Great Northern theater at Chicago, remaining there until a short time ago, when it started on its winter tour. "The Alaskan" was considered by many the best attraction of its kind that played this circuit last season.

DOCTOR AND PATIENT.

CROPS OVERESTIMATED.

Minnesota Mill Man Thinks Flour Will Be Much Higher.

J. E. Enright, who owns two flour mills at St. Cloud, Minn., spent yesterday in Ishpeming. Mr. Enright formerly traveled through this region for some years for the George Treston Milling company of St. Cloud. Seven years ago he engaged in the business on his own account.

Mr. Enright said that the wheat crop of the Northwest was considerably overestimated this year, and on account of the rapidly increasing foreign demand for flour he believes that wheat will reach a much higher figure than the present market price before the winter is over. Practically every milling concern in Minnesota has established a foreign trade and the demand from across the water is increasing at a rapid rate as the domestic trade. Before he left home he filled an order for 2,000 barrels for a customer in Belfast, Ireland.

The mills of Minnesota will this year break all previous records in the manufacture of flour. Only a few days ago 110,000 barrels were shipped from Minneapolis, this being the largest day's output by several thousand barrels, in the history of that city.

While the wheat crops in Minnesota and North and South Dakota were exceptionally good this year, they were not as good as is generally supposed. It was stated that before the harvest that North Dakota would probably produce 100,000,000 bushels, but the dry weather late in the season caused a considerable shrinkage and as a result the yield was only about 75,000,000 bushels. Mr. Enright says that unless something turns up to increase the price of wheat considerably, the foreign trade will soon leave Iowa and in consequence flour will probably be a big shortage before the new crop is harvested. In his opinion there is not now enough wheat in the country to supply both the domestic and foreign trade, figuring on a basis of the present demands.

ADVERTISEMENT FOR BRIDGE.

Sealed bids for furnishing all labor and materials for constructing a bridge and its abutments complete will be received by V. S. Hillyer at Ishpeming, Mich., until Nov. 10th, 1909, and considered by the board of county road commissioners at its next meeting.

Each bidder must furnish complete detailed drawings and specifications covering the design of proposed bridge and material to be used which must conform to "Cooper's Specifications" for highway bridges and to the general specifications on file at the office of the county clerk at Iron Mountain and the county clerk at Marquette, Michigan.

Bridge to be built over the Michigan game river and two miles north of Floodwood. The bridge will be paid for jointly by the county road commissions of Dickinson and Marquette counties and the successful bidder will be required to enter into a joint contract with the said commissions for construction of the bridge and to give satisfactory bonds aggregating the sum of \$3,500.00 for faithful performance of contract and for payment of material and labor claims. Bridge to be completed and opened to traffic not later than July 1st, 1910.

The right is expressly reserved to reject any or all bids and to accept any bid that the said boards may deem for the best interest of the two counties.

Bids are wanted for the bridge erected and complete in place according to the plans and specifications; also a price per cubic yard for extra concrete in place, should any be necessary; also a price for each pile should piling be necessary.

HIGH SCHOOL NOTES.

Power Burgh, "L," is confined to his home with scarlet fever. Enar Johnson has been absent the past week on account of illness. Harold Clinton returned to school Monday, after an absence of a month. Miss Bernadette Butler visited school Monday afternoon with Borghild Branstad.

Miss Azaline Gunville attended school Monday with Genevieve McKernan. While the weather is warm the school musician renders "L" rather than the outside looking in.

The "Forum" has extended an invitation to the faculty and students who are interested in debates to attend the meetings of that body. Albert Backus, right guard on the football team, will not be able to play the remainder of the season on account of an injured knee.

The football team posed for a number of pictures Tuesday. They were taken by some of the junior girls who have a liking for "klick knacks."

Avid Hamrickson, our worthy full-back, attended school Monday with the aid of crutches. He received a sprained ankle at Marquette Saturday.

The Boys' debating club met yesterday and a very pleasing program was given. The subject for debate was "Resolved, That the government of the United States should regulate the rate of fare for all railroads." Donald Hayden and John Neary held the affirmative and Albert Backus and Louis C. Smith the negative. Clyde Mitchell and Leo Gunville declaimed.

Division 2 of the Girls' Literary society will meet this afternoon and the following pleasing program will be given: Essay, "Three American Authors of the Nineteenth Century," Kristina Flan; recitation, "The Danube"; Edwin Hella; synopsis, "Legend of Sleepy Hollow"; Irene Backett; recitation, "The Forest Hymn"; Maed Tielor; reading, selected; Martha Anderson; recitation, "The Children's Hour"; Beatrice Jenkin; synopsis, "Last of the Mohicans"; Ethel Berglund; recitation, "Mourning Mists"; Mytty Hayes; piano solo, "Home Sweet Home"; Pearl Kahn.

The football team will meet the team representing the Negaunee High school tomorrow at the Union Park at 1:30 o'clock. The boys have been practicing hard all week and the result that they will have in the game is a matter of doubt. The team has invited the members of the Negaunee squad to be their guests at a "glaze feast" Saturday evening at the Y. M. C. A. After the school game the Y. M. C. A. team will line up against the Guild Hill team of Marquette. This is expected to be the best game of the season and the open game will be played. Those who wish to become well acquainted with the new style of play will do well to see these games as they will be clean and fast from beginning to end. The admission for both games will be twenty-five cents.

FROM MORGAN'S CURB LETTER.

The New York market opened stronger, with Amalgamated, Smelters and Industrials the features. The buying of Steel common and Amalgamated was the best, with the result that Steel advanced 3 1/2 points and Amalgamated 1 1/2. All the railroad equipment stocks were strong, and the railroads neglected. New York advises the purchase of Steel common for much higher prices.

The Cole-Ryan issues were again the feature in Boston. Butte Condition advanced to 29 1/2, Greene-Cannona to 12 1/2 and North Butte to 61 1/4, on heavy trading in all of them. Boston predicts 100 for Amalgamated, 35 for Butte Condition and 15 for Greene-Cannona. Copper Range, East Butte, Shannon, Miami and Nevada Consolidated shared in the activity, while Superior & Pittsburg, on light trading, sold up to 17. Boston and New York evidently are satisfied that a de-

ISHPEMING

ided improvement in copper affairs will materialize shortly.

On the curb, a number of stocks are again in demand, with the Elys commanding most attention. The better known issues can be had in but limited quantities, and a few buying orders rapidly advances prices. The Heinz and Lawson stocks are active, due probably to manipulation. Chief Consolidated sold readily at 1 1/2-1 3/4. Cactus was firm at 3 1/2. We believe that the big money will be made in the mercuritic market in the event of any sound economic regulation of the copper output, being commensurate. Live Oak has called an assessment of \$2, payable Nov. 20th. Montana-Clinton has called an assessment of ten cents, payable before Dec. 10, for a new property for which the former holdings have been exchanged.

ONLY ONE

There is only one drug store in this town where you can get a genuine specific for kidney disease. This is a strong statement, but we are prepared to prove it. Here's the points: The census deaths show that of the tens of thousands an awful dying from kidney trouble that over nine-tenths of the accurate, ninety-two out of every one hundred of them) occur or later assumed the form is habitually known to physicians as "Bright's Disease," although it is commonly called "kidney trouble" in the homes. It is known to those in the drug trade that Bright's Disease has been increasing up to a recent discovery, and as we have the monopoly of that discovery for this city we have the only specific for kidney disease in this city. In view of the census showing that over nine-tenths of all the census kidney cases sooner or later take this form, how under the sun can people who have advanced kidney trouble get well except through this specific? If you have kidney trouble our store is the only one in this city that has a genuine specific effective in nearly nine-tenths of all cases. In fact, if you will put the question skillfully to our competitors and ask them if they have a genuine cure for Bright's Disease they will even claim to you they have, for the books admit that there has been none. We want a long way for this kidney-troubled people. Call and get literature and let us tell you all about it. The Stafford Drug Store are our sole agents.

Negaunee Department

RAILWAY LINE TO CASCADE RANGE

SOME FIVE MILES OF TRACK TO BE PUT IN BY THE SOUTH SHORE SYSTEM, LEADING TO PROPERTY TO BE DEVELOPED.

The Duluth, South Shore & Atlantic Railway company has entered into an agreement with the Volunteer Ore company for the extension of a track to the mine that is to be opened near Palmer lake, on the Cascade range. The spur will start from a point near the half-way east of the Rolling Mill property, and will extend over the old right of way as far as the Volunteer mine. The track will be approximately two and a half miles in length. Over a half mile of it will be through new territory, where considerable grading will be necessary.

The track that the Duluth, South Shore & Atlantic company is to build to the Davis and Milwaukee mines, which are to be opened by the Breitung interests, is about the same length as that to be extended to the Volunteer company's property. A steam shovel and a second engine will be put to work Monday on the latter spur. The old roadbed is to be used the greater part of the distance, and as the grade is heavy in places there will be work for the shovel for some little time.

Lester Dettich, operator of the moving picture machine at Al Scott's theater, has resigned his position, and will leave the city this week.

The monthly musical service will be given by the choir of the Grace Episcopal church next Sunday evening at 7 o'clock.

Carl B. Knapp, former manager of D. T. Morgan & Co.'s brokerage office, has accepted a position in Chicago, and is preparing to move his family to that city.

Al George arrived in the city yesterday from Racine-Wis., having been called here on account of the serious illness of his father, James George, who has been ailing for some time past.

W. S. Nelson, postmaster at Gwinn, came up from there yesterday to aid in preparing his household goods, for shipment to the range. His family will move to Gwinn within a few days.

The members of the Ishpeming branch of the ladies' union were well pleased with the supper served them Wednesday night by Mrs. Prince at her new restaurant in the Nelson block.

Mr. and Mrs. James H. Williams of Jasper street were called to Iron Mountain yesterday on account of the death of Mrs. Williams' niece, Miss Myrtis Hicks.

Dan McQuiggin, the delivery man for T. Hughes & Son, who was severely injured Wednesday evening when his wagon was struck by three blocks under his wagon, is improving slowly, though he is still in a critical condition.

The members of the Y. M. C. A. and Ishpeming High school football teams will entertain the members of the Marquette Guild Hall and Negaunee High school teams with a supper in the Young Men's Christian association's dining room after their contests at Union Park tomorrow.

Mrs. J. S. Mennie entertained the members of the Ladies' Birthday club, about a few other lady friends, Wednesday afternoon, at her home on Ridge street. Cards were played. Mrs. A. H. Knight of Negaunee captured first prize; Mrs. H. J. Jeadecke, second, and Mrs. W. C. Mitchell, third.

A CERTAIN GOOD MAN.

He Was Dined on Potatoes Served in Nineteen Ways.

Once there was a good man. This good man knew a very rich man. The very rich man invited the good man to dine with him, but the good man did not care for all the splendid food which the cook of the rich man prepared.

But the nobleman begged him so much that at last he said: "Well, I will come, but remember, there will be nothing else but potatoes for dinner." And the nobleman had to promise to have a dinner of potatoes only.

HIS INSPIRATION.

Irving Berlin the author of "My Wife's Gone to the Country," said: "A true happening was the inspiration of this song. In July a Brooklyn woman sent me a note to say that she had discovered that her watch, a small affair, was missing. She thought it had probably dropped on the thick, soft dining room rug, so she wrote to the maid at home: 'Let me know if you find anything on the rug in dining room.' A few days later she got from the maid a letter saying: 'Dear Madam, I wish to let you know if I found anything on the dining room rug. This is what I found this morning: Three champagne corks, eighteen cigar butts, five cigarette ends, four blue lights, thirty-six burned matches and one pink satin slipper.'

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold by The People's Drug Store.

GREAT STOCK OF FLOWERS.

Negaunee Houses Have In Neighborhood of 100,000 Carnations.

The Negaunee green houses have been heavily stocked for this fall's business. The flowers are blooming and the supply of carnations, roses, lilies and chrysanthemums is perhaps the largest that has ever been seen in the upper peninsula. Three green houses, each about 150 feet in length and thirty-five in width, are stocked with carnations. It is estimated that not less than 100,000 buds will bloom between now and Christmas. There are at present several hundred chrysanthemums in bloom, and many roses.

The green houses had their banner business last season, when for several days prior to Christmas in excess of 1,200 carnations were sold. On the banner day 1,700 were sent out, in addition to many other flowers apart and they were in demand for cut flowers is not usually as large at Thanksgiving time as during the Christmas season. Orders are received here from all parts of the upper peninsula and several of the smaller green houses in this section are supplied when their stocks are low.

During the past few weeks several hundred pine tree seedlings have been sent on the embankment opposite the green houses on Gold street. Trees have also been planted in the vacant space south of the building. The trees are set about three feet apart and they now average about eighteen inches in height.

FINE PICTURE DISPLAY.

W. H. Israel, the West Iron street photographer, has an exceptionally fine display of pictures at his studio and will be pleased to have Negaunee people look them over. Most of the pictures are Mr. Israel's own work, and have been taken since he established his business here about two years ago. Among the collection are several groups of high school students. One of his most attractive pictures is one of Dr. H. W. Sheldon's dwelling on Main street, taken on the first of last May, following a storm in which nearly two feet of snow fell.

SOME LARGE TURNIPS.

Sam Collins, Jr. believes that his crop of turnips is as fine as can be found anywhere in the upper peninsula this year. He has taken out a number of rutabagas that weigh in excess of ten pounds. Some fifteen or sixteen turnips and rutabagas on the same land that weighed from twenty to thirty pounds each and his crop this year is the best he has had since that time. One of the big rutabagas is on display in J. E. O'Donoghue's drug store.

Miss M. E. Crane will be at the Breitung House with a beautiful line of needle work on Friday and Saturday, Nov. 5 and 6. (11-4-3)

LOCAL LACONICS.

Mrs. Abel Levins and children are spending the week with relatives in Marquette.

Mrs. L. P. Peterson left for Toronto, Canada, where she will visit relatives for some time.

Mrs. E. Haines, who spent the past three or four months at her native place in England, arrived in the city yesterday.

A. J. Home returned to Houghton yesterday, after spending a few days with his parents, Mr. and Mrs. C. J. Howell.

Miss Evelyn Raymond left yesterday for Green Bay and Appleton, Wis., where she will spend some time visiting.

Richard Nesbitt and bride, who were married last week in the lower peninsula, and who have since been spending their honeymoon in Chicago and Milwaukee, are expected to arrive in Negaunee today. They will keep home in the Nesbitt block, on West Iron street.

Andrew Lindquist, the contractor, who is constructing the Scandinavian society's new block, expects the plate glass windows to arrive today. The roof is receiving the finishing touches and several carpenters are now employed laying the floors. The society expects to occupy the building about the first of the year.

The fire department was called out Wednesday afternoon to extinguish a blaze in a barn at the rear of one of the new dwellings at the Mary Church lot in west side of the city. The fire department had some difficulty putting out the fire before the structure was destroyed.

Mrs. Fred Pearce and her daughter, Mrs. A. J. Carr, who visited her parents here for a month or more, left yesterday for Gladville, Me., where the party had been invited to spend a month or six weeks there. Mr. Carr, who was formerly in the employ of the Duluth, South Shore & Atlantic Railway company here, now holds the position of night train dispatcher with the Northern Pacific Railroad company at Gladville.

Carter Harrison and other Chicago men who are to hunt deer in this section have given up their plan to hunt in Alger county. Christ Wolf, who will accompany them on the trip, was in the city yesterday, and the same that the party had been invited to hunt in the district north of Cloversby, where Mayor Winter has a camp. As B. J. Goodman is preparing to begin logging operations in that vicinity, it is thought that they will have to go some miles farther north in order to get deer.

Last Sunday the steam shovel crews that receive their coal supply from the South Shore system loaded nearly 300 cars from the stock piles. This was an exceptionally big day's work for the company. Over 230 of the cars were filled in Negaunee and thirty-nine G. R. & I cars, averaging sixty tons each, were loaded at Ishpeming. The cars loaded in excess of thirty tons each. The railroad men expect the movement to continue heavy during the remainder of this month, provided the weather remains favorable.

Sweet and boiled elder at Haupt's grocery. (11-1-17)

Mutual Confidence

IT is the constant purpose of the management of the Negaunee National Bank to come into close personal contact with its depositors and establish confidence. The many years of experience of its officers is made available for the depositor of large or small resources, and every courtesy and attention are accorded to those who patronize this bank.

NEGAUNEE NATIONAL BANK

CAPITAL \$100,000.00

of that city and the opinion is nearly unanimous in favor of its adoption. The liquor dealers themselves are among the strongest supporters of the proposition, it is stated, and are free to express themselves in its favor. They realize, it is declared, that a strict observance of the liquor laws and a reduction in the number of saloons is necessary if the prohibition cause is to be checked, and they are doing what they can to mould public opinion to their way of thinking. It is said that there is little question that the measure will receive the approval of the council. There may be a few minor changes made before the ordinance is placed on its final reading, but the principal features contained therein will be retained, it is stated.

French May Federate— Dr. A. A. St. Brien, of Manchester, New Hampshire, and Joseph Francoeur, of Montreal, Canada, president and vice president, respectively, of the Franco-American society of America, have been in Upper Michigan recently for the purpose of interesting the French people in a project that may result in the abatement of all the French fraternities and societies in America. The plan proposed is that, instead of having so many minor organizations of that nationality, all will be brought together under the head of one grand fraternity, which will be known as the Union of the French Societies of Canada and America. The union should make the French fraternity one of the strongest in membership in this part of the country. There are 500,000 members of the various French organizations throughout America.

Incidental Suspected— Breaking out at an early hour in the morning, fire on the bay shore at Grand Marais destroyed J. S. Chisholm's fish house and contents, the latter comprising his commercial fishing rig Monarch. The loss is about \$1,200, partly covered with insurance. The origin of the fire is unknown, the entire structure being a mass of flames when the blaze was first seen. The fire department was on the scene soon after the alarm was turned in but was unable to save the house and so directed its efforts to protecting adjoining property. This is the third fire that has occurred in the locality within a year, the circumstances surrounding each of the three pointing strongly to incendiarism. It is the opinion of some that the places have been looted and then burned.

Agricultural College Project— The action of the Chippewa county board of supervisors in deciding by unanimous vote to refer to the people the proposition of issuing bonds to the amount of \$20,000 for the purpose of founding an agricultural college has been taken in accordance with an act recently passed by the state legislature which provides that counties may establish agricultural schools and receive state aid. The act permits four schools. At least 100 acres of land must be secured and \$20,000 expended in buildings and equipment, compliance with which conditions entitles the school to an annual appropriation of \$4,000 for its support. Senator Otto Fowle addressed the board of supervisors in regard to this matter and announced that Harry Dunbar, formerly a Soite, but now of Buffalo, had offered to donate 600 acres of land and buildings, valued at about \$6,000, if the county would establish the proposed institute. The land mentioned is located near the St. Mary's river and west of Charlotte river. Senator Fowle said that Mr. Dunbar has even offered to give financial aid to the enterprise and the only proviso in regard to giving the site was that he be allowed to reserve seventeen acres on which he wishes to establish a noble hobby—a home for orphans. Mr. Dunbar is a member of the Chandler-Dunbar company and was years ago a resident of the Soo.

Merit in Queen Lil's Claim— That there is merit in the claim of former Queen Lilian, against the United States is the belief of Congressman Young, as he is quoted in a recent interview. Mr. Young has recently returned from a visit to the Hawaiian islands. "While the people of Hawaii are well contented with American rule," the congressman is quoted as saying, "they recognized in Queen Lilian a person worthy of their reverence and respect. She maintains an establishment in Honolulu with a large retinue of servants, and her position in the community is high. Owing to the fact that when the United States took possession

of the islands it took over all of the crown lands, that assumption of control meant the taking of her private property. She is now prosecuting a claim against the government for a quarter of a million dollars to compensate her for the loss of her former holdings. The Hawaiian people generally believe her claim just and hope to see it allowed. Personally, I feel that there is a good deal of justice on her side of the matter.

"The price of the queen's household and her heir, and who is also the territorial delegate in congress, we found to be an important personage in the islands. In his establishment at Honolulu he has a collection of insignia and decorations of various sorts given him by the crowned heads of Europe."

One of the managers of the Martham (Eng.) school has offered prizes to the children who attended school with the cleanest shoes.

MANY HUNTERS ARE ALREADY IN CAMP

CUSTOM OF DOWN-STATE NIMRODS IS TO COME UP HERE LONG BEFORE SEASON OPENS.

UNFAIR TO LOCAL SPORTSMEN

Suggested That Licenses Should Be Issued Only from County in Which Hunting Is Done and Not Before November 3.

Though it is still five days before the opening of the deer season, there are already several hundred down-state and non-resident hunters in the upper peninsula, some of whom have been in the woods for three weeks or more. As the local hunters are not planning to go into the woods before Sunday at the earliest, the question at once arises: "What are the down-state hunters coming up here so early for?"

A Marquette railroad man stated yesterday that for a number of years past the down-state hunters have made it a practice to go into the woods before the opening of the season, and that they seemed to be coming a day or two earlier every year.

A Local Sportsman's View. "This custom of the down-state hunters to go into the woods weeks before the season opens is wrong, both in principle and practice," said a Marquette sportsman yesterday. "It places us at a disadvantage and at the same time results in the illegal slaughter of many deer before the season opens. If you put it up to one of these strangers that way, he is pretty apt to say, 'Well, you fellows up here hunt all the year round and you ought not to kick on us trying our luck for a few days out of the season.'"

John McMurchy, manager of the Taylor Institute of Iron River, Wis., is in the city at the Chilton Hotel and will be pleased to have any one call on him who is contemplating taking treatment for the liquor disease or drug and tobacco habits or have a friend that they wish to have cured.

PHOTOGRAPHS. If you are undecided as to what you are going to give your friends for Christmas, have E. C. Lemon make you some of those beautiful Sepia Platinum Pictures, twelve sensible gifts for the price of one.

HUNTERS' SPECIAL. Marquette & Southeastern Railway. As has been the custom in former years, the Marquette & Southeastern R.R. will run a special train to Big Bay for the accommodation of hunters during the deer season.

This train will leave the Washington St. station at 6:30 a. m. on the following Sundays during November, viz: 7th, 14th and 21st. Returning, it will leave Big Bay at 5:00 p. m., Antlers 5:14 p. m., Birch 5:32 p. m., Buckroe 5:41 p. m., Pickereau Lake 5:52 p. m.

Fare for the round trip: Big Bay, \$1.00, Birch 75c, Pickereau Lake 50c. No baggage other than hand baggage will be carried on this train.

Mrs. A. M. Adams is receiving her fall and winter millinery. I's on display now. All are invited. 219 Blaker St. 10-1-09

TAX LANDS TO BE SOLD.

State Expects to Dispose of Those in This County in 1910.

The Mining Journal has received a letter from Auditor General O. B. Fuller, in which he takes exception to certain statements made in an article published in a Detroit paper under a Marquette date line, discussing delinquent tax lands in this county. The article quoted contains this sentence, which seems to have been quoted from The Mining Journal of a recent date: "There are 1,000 descriptions of delinquent taxes on record in the treasurer's office, of which 665 descriptions are delinquent prior to 1906; these descriptions will probably average eighty acres each, which means that there are in the neighborhood of 53,000 acres in this county which are properly a part of the public domain, but which as a matter of fact have not been deeded to the state."

Mr. Fuller states that the total amount of such lands in this county aggregate but 25,000 acres. The exact acreage has not been figured up at the county treasurer's office, but the books show 665 descriptions as stated, 588 of which are not town or city lots. According to the auditor general's figures, the average size of the 588 public domain descriptions in this county is about forty-three acres, instead of eighty.

The auditor general writes further that he is now having these lands examined and that when the examination makes his report, the same will be deeded to the land department who will probably offer them for sale some time next year. The sale of these lands will probably be held at the court house in Marquette, thus saving the buyers in Marquette county a trip to Lansing.

THACKERAY SUBJECT OF LAST LECTURE

COURSE WILL CLOSE THIS EVENING—DR. TUPPER SPEAKS HIGHLY OF PROF. TROOP'S TALKS ON LITERATURE.

The last of the series of six weekly lectures by Dr. J. G. Carter Troop on the general subject of the modern novel and modern novelists will be given in the high school auditorium this evening. Dr. Troop's subject this evening will be "Thackeray," which is said to be one of the very best of his lectures.

"Having had the pleasure and the profit of hearing, during successive weeks, four of the five really splendid lectures by Professor J. G. Carter Troop in the high school assembly room, I count it a privilege to express, through public print, my sincere appreciation of their high value. Each of them stamped the lecturer as possessed of genuine ability in the direction, alike, of research, analysis, preparation and address. It is not allowed to differentiate he might say that the presentation of Victor Hugo was characterized by a clear insight into the meaning and mission of fiction as a fascinating field and palmary force in literature."

"It has been the writer's good fortune from time to time to listen to some of the strongest and most popular of the University Extension lectures, but none of them have impressed him as superior to Professor Troop in a rare combination of grasp of thought, sympathy with the subject discussed and clarity of expression; while in moral tone and unaffected delivery he is not surpassed by any of his literary colleagues."

"It is a good thing for a community to feel the sweep of new ideas and catch the inspiration of enlarged visions, and Marquette is the better for the presence within her gates of so earnest and honest a scholar as this University of Chicago professor, who delivers tonight the last critique of the present series, his subject being "Thackeray."

Our Boys' band dance tonight at Legion Hall. Tickets 25c. (11-5-11)

BACK TO FORMER RATE. General Advance in Ore Carrying Charges Has Been Announced.

Announcement has been received here of a general advance in ore carrying charges of ten cents, says the Duluth News-Tribune. Small shippers have been offering better prices than the prevailing rate for some time, but now several of the largest ore shippers are chartering at the advanced figure.

The advance puts the charges back where they were before the slump at the opening of the season of 1908, when a cut of ten cents was made. For most of the tonnage this fall vessels have been chartered, and only a few boats will make trips at the new rates.

The finish will be strong, however, and vesselmen are confident that the advance can be held and that season chartering for 1910 will be made on the basis of seventy-five cents from the head of Lake Superior. Boatmen say that with present high operating cost there is no money in carrying ore at the lower rate. Grain at three cents is to be preferred, and undoubtedly the fact that the elevator men are desirous to charter as many vessels as possible was a factor in the raise.

Vessel owners also predict a rise of from ten to twenty cents in the coal carrying rate. Many firms at the lower lakes ports have contracts for large deliveries at cities on Lake Superior, for which they have been able to do no chartering. The increase of the grain and ore rates will, it is believed, force them to pay a higher figure than the present rate.

THEATRICAL.

"A Gentleman from Mississippi."

This evening the stage of the opera house will be given up to "A Gentleman from Mississippi," a comedy written by Harrison Rhodes and Thomas A. Wise, and presented by Wm. A. Brady and Joseph R. Grismer. Theatregoers of this city are more or less familiar with the merits of the piece, which has been one of the most successful plays produced within the last year or two. The story is woven with a number of ludicrous adventures of a newly elected Southern senator in Washington, three or four little love romances, and considerable intrigue and political graft, making one of the most interesting plots imaginable. A simple cotton planter from Mississippi has been elected by the people of his native state to represent them in the senate and the play opens at the time of his arrival in Washington. Here he is met by a newspaper reporter, "Bud" Haines, who impresses him so favorably that he makes the reporter his secretary. Bud is well versed in all the trickery of life in the national capital and saves the new senator from many pitfalls. A shady land deal is engineered by some politicians and the senator is compromised by his son and daughter being induced to invest in it. He finds a way, however, to defeat the schemers and save both his money and his honor. While the structure of the piece is rather on the melodramatic order, still it is played strongly for comedy and the result is a roar of laughter from the first entrance of the senator to the fall of the final curtain. Burr McIntosh, who plays Senator Langdon, returns to the stage after an absence of nine years, in which he has been a journalist, photographer and publisher. His success in the leading role of this piece demonstrates that he has not only lost none of his art but is even more polished in his methods. Will Deming, who played in "The Man of the Hour" last season; Evelyn Moore, Mary Moran, Ella Ashby, Beniah Watson, Genevieve Kane, Madge Farren, Charles Steiman, William Volcott, Harry Stubbs, Henry W. Pemberton, George Miller, Harry Robinson and M. W. Rale are among the members of the cast.
