

Copper Country

BRINGS PRISONER BACK.

Elis Karavakka Out of Marquette Prison for a Short Time. Deputy Sheriff Carroll left yesterday morning for Marquette and returned last night, bringing with him Elis Karavakka, who is serving a sentence in the prison for manslaughter, in having been instrumental in bringing about the end of Herman Matson, who was beaten to death in Calumet last September. He is being brought back to testify in the case of the people vs. Charles Leimonen, who is charged with murder in connection with the same case.

BUSINESSMEN WILL MEET.

Merchants of Laurium and Calumet May Back Hockey Team. A meeting of the businessmen of Laurium and Calumet will be called by John Anoloch, manager of the Pelestra, for some evening shortly, at which time it is planned to make some arrangements for the organization of a hockey club. Although many of the best players have left the district, it is believed a good seven can be picked up, and one that will make a strong bid for the championship. Marquette, it is understood, will be with the club as one of the defense men and it is hoped to induce Stuke Hermann to play again. A clever forward from Baraga county has also been secured. It is probable that the businessmen will back the new team and also that it will be decided to give the club a larger share in the receipts from the games than heretofore.

COUNTY JAIL CRITICISED.

Report of State Board Ignored by the Supervisors, However. The following communication was read to the board of supervisors yesterday: "At a meeting of the state board of corrections and charities, held on the 14th inst., a report of the visit to your county jail by a representative of this board was made and I am directed to advise you that it is the unanimous opinion of this board that a new jail should be provided or an addition made to the one in use at the present time. The jail is entirely inadequate for the needs of the county, and except for extra precaution used by the management the jail would be unfit for occupancy. The balcony cells in the cage on the first floor, in which four convicts are confined in each cell, with barely enough room to turn in, is totally unfit for use. The cells are equipped with canvas stretchers, two deep and two high, and at times it is necessary to put four men in each cell. You are entitled to special commendation for the facilities provided for the handling of juvenile cases, and the infirmary maintained by your county is such that you have reason to refer to it with pride; but your jail is very much in need of renovation. It is respectfully requested that this matter be given prompt and careful consideration by your board. Very truly yours, M. F. Murray, secretary."

REVIVAL BRIGADE LEAVES.

Salvationists Go to Superior—Evangelistic Meetings Continue. The Scandinavian-American Salvation Army revival brigade of Chicago, headed by Major Egnvall, has concluded a nine days series of meetings and revival services in Calumet which were most successful in every way. Large crowds attended the evening singing held at the Swedish Mission church and the Scandinavian Salvation Army and English-American Salvation Army quarters. The brigade went to Superior, Wis., where a long series of meetings will be held. It will also likely spend considerable time in Duluth and at the towns along the Mesaba range.

The evangelistic meetings being conducted at the Calumet M. E. church by Rev. Mr. Hart and Professor McGinnis will continue several days more. This week Mr. Hart will preach sermons against what are known as the "Popular Sins of Today." Professor McGinnis will lead in the special singing services and will be ably assisted by the large choruses. Rev. Marcus Barrett preached his first sermon last Sunday as pastor of the Red Jacket Congregational church. He was accompanied by Calumet by his family, and he expects to get away next week. Mr. Barrett is an excellent speaker and church worker and has come to a rapidly growing field. The congregation of the Red Jacket church is a large one.

WANTS THE VOTE OUT.

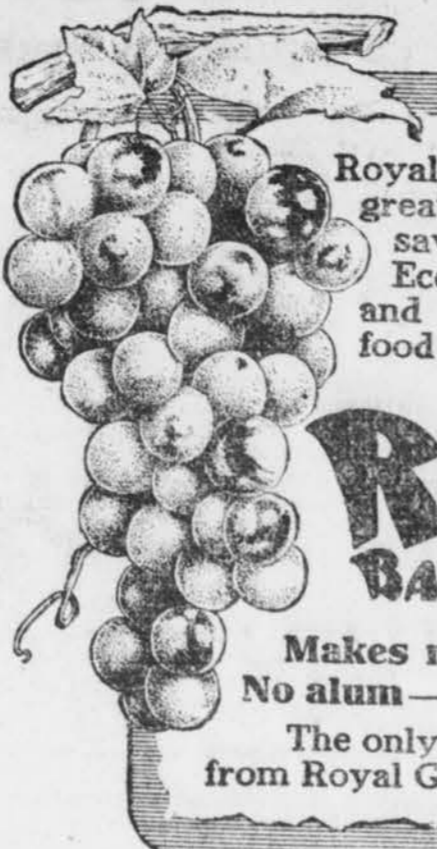

W. F. Knox Says C. S. Osborn Urges Electors to Enroll. Before leaving for his home in the Soo Monday night W. F. Knox of the Soo, who was in the copper country in Chase Osborn's interest, said: "One desire of Mr. Osborn is that the Republican vote in its entirety in the upper peninsula be brought out next April at the time of the primary election enrollment. He recognizes the fact that the Republican primary enrollment in the upper peninsula has been below the normal vote, because in counties where there has been a primary election, the county officers, as is the case in Houghton county, the voters have not taken the trouble to enroll. If the Republicans of the upper peninsula want to vote for Osborn for the Republican nomination they must be enrolled in their party's book at the primary. It is not enough for Osborn's friends to want him nominated; they must express their choice with a primary ballot. Governors are not nominated by county and state conventions in Michigan any more, and this statement is the gist of the Osborn argument on the primary enrollment."

TO TAKE CENSUS OF FRENCH.

At a quarterly meeting and gathering of the members of the various French naturalization and citizenship leagues of Houghton county, held at Calumet, Calumet meeting, the members of the league of the French people of the county be taken, the work to be started as soon as possible and to be completed by the first of May. A report will be made at the annual meeting of the societies at Hubbell early during the month of May. A committee of three is to be named by each branch of the league to present the work. The branch societies are at Calumet, Lake Linden, Hubbell, Dollar Bay and Portage lake. There were a very large number of the French residents in attendance at the Calumet meeting. The members of the league wish the fact emphasized that they are not affiliated with any political leagues or societies and will keep out of politics altogether. They aim to induce all French people to do their duty as voters and all their neighbors as voters and make naturalized so that they may vote.

Many school children suffer from constipation, which is often the cause of stunted vitality at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they aid child and gently in their effect, and will cure even chronic constipation. Sold by The People's Drug Store.

BUILT SIXTY YEARS AGO.

Old Warehouse at Eagle River, Keweenaw County, Now Being Demolished. A. C. Thielman and a force of men started to take down the old Pittsburg & Boston warehouse, which has stood on the lake shore near the hotel at Eagle River for nearly sixty years, says the Keweenaw Miner. The old structure was constructed from the Tamarack Mining company by Colonel P. Paterson, and it is his intention to remove it, not only for the purpose of doing away with a fire menace to other property, but to improve and beautify the surroundings of the Eagle River Hotel. The tearing down of the building means the passing of another old landmark. The old building, which was built sometime prior to 1845 was the gateway through which millions of dollars worth of copper from the old C. B. North American and Phoenix properties started on a journey to the smelters of the East, while through its portals millions of dollars worth of goods to supply the needs of the early settlers.

system and will give a brief talk on wireless telegraphy. Similar talks will be given each week. Special requests for addresses on any subject will be honored by the officials of the association, if the speakers can be secured. It is believed this series of lectures will prove very interesting and popular.

GRAND LODGE OFFICER HERE.

Grand Lecturer William R. Kennedy of Mt. Pleasant, Mich., was the guest of a special meeting of the Grand Lodge of the Old Fellows Monday night. He witnessed work in the initiatory degree as put on by the Deola degree team and work in the first degree as put on by the Calumet lodge team. Several candidates were initiated and there was a very large attendance of Calumet and Old Fellows, members of the two lodges. Mr. Kennedy was the guest of the Lake Linden Old Fellows last evening, and later in the week will visit the Hancock and Houghton lodges. This is Mr. Kennedy's first visit to the copper country in twelve years.

MOHAWK RINK ORGANIZATION.

At the annual meeting of the Mohawk Rink company, directed for the coming year were named as follows: J. P. Teranun, Willard J. Smith, F. H. Getchell, Thomas H. Beryman, Dr. A. R. Tucker, George R. Foley, Thomas E. Parks, James E. Jackson and John Shan. Considerable improvement work was accomplished during the summer season, including the painting of the rink structure and the partial remodeling of the interior. Charles Oakes was appointed manager. The company anticipates another very successful year.

Mining News

CALUMET & ARIZONA.

It is evident that the present low price of copper is not affecting the policy of the Calumet & Arizona Mining company, for the corporation is still continuing to expand and reach out for more properties, says the Arizona Mining Journal. It has recently acquired the Houghton mines, and the purchase of San Bernardino county, California, a few miles west of Prickwater on the line of the new railroad now being built from that point. The claims are situated along five miles from the railroad track, and show the contact of lime and popliteary carrying large ore bodies, some of which are of shipping grade. It is evident, too, that the company has serious intentions of taking over the claims belonging to the Calumet & Arizona Mining district, when on which it paid the sum of \$25,000 to secure an extension of its working bond in the Cortland district. It is carrying on vigorous development on its properties there, and although no commercial sulphide has yet been discovered, the workings show large bodies of oxide ore and the shafts are now entering the zone of secondary enrichment. In its Bebe copper developments below the 1,000-foot level indicate that a great mine will be opened up as depth is reached. On the Gibraltar claim, in a drift from the 1,250 level, a body of ore is now being opened up which compares favorably with the great ore body on the Cortland claim. In this district, which is in the same direction on the 1,150 level has this same body of ore, considerably increasing the tonnage is sight. This ore body is apparently fully 150 feet wide, averages about 15 percent in copper and contains about 800 feet of ore to the higher levels of 1,000 of Calumet and the Superior mines. In the Hope and Wagner claims, which are separated from the company's other property, a body of sulphide ore has been opened up to the 1,000-foot level and is 400 feet long by 200 feet wide and averages 4 percent copper. This is a sulphide ore and is most valuable as a flux for the high grade oxides found in the Gibraltar. This ore body has been traced up to the 1,000-foot level and drifts on the 1,400-foot level are just beginning to break into it. The company's property at Mammoth now has been a disappointment.

CROSS IS COMPLETED.

The big steel cross, marking the Catholic portion of the Calumet Lake View cemetery, is in position. It will not be dedicated before spring, probably some time during May or June. Bishop Eis of Marquette will conduct the ceremonies.

WIRELESS TELEGRAPHY TALK.

In connection with its excellent educational course, the Calumet Y. M. C. A. has arranged for a course of talks or lectures on popular subjects, the first of which will be given tomorrow by Thomas Williams, operator and manager for the United Wireless Telegraph company at the station at Tamarack Junior. Mr. Williams will explain the

and it is understood that as soon as the railroad, now being surveyed through that camp, is completed, a large concentrating mill will be erected. Superior & Pittsburg.

The Superior & Pittsburg is developing ore bodies in its Houghton shaft that promise to make of the Del Norte claim upon which it is located "another Irish May" to use the words of one closely associated with both Superior & Pittsburg and Calumet & Arizona. In addition to the large ore body on the 1,400-foot level, which has been referred to in these columns and is unquestionably the largest and best ore body thus far opened in the Bebe camp, two and possibly three new ore bodies have been discovered recently. One is a rich oxide, discovered on the 1,300-foot level of the Houghton shaft and is similar to the oxide ore in the big body at the 1,400-foot level. Another is a sulphide ore body discovered in the Barton Rouge claim by a drift extending from the 1,300-foot level of the Houghton shaft, and the third is a sulphide ore body discovered in the open-work corner of the Barton Rouge claim by a drift extending from the 1,000 level of the Junction shaft. Every opening of the Superior & Pittsburg is in ore or in ground that makes ore.

VICTORIA.

The management of the Victoria Copper Mining company is very emphatically that they have any intention of closing operations at the mine, says the Boston Financial News. On the contrary, it is stated that prospects and conditions at the mine are better now than they have been in the past two years for months past. Immense economies and improvements have been instituted in every department of the mine and buildings, so that today the company is prepared to produce copper more extensively and more cheaply than at any previous time in its history. It is estimated that in the last few weeks the cost of producing a ton of rock has been reduced to about \$116. In addition to the improved working conditions at the mine the management states that there is considerable improvement in the showing of some of the drifts that while the percentage of copper is still low a good deal of ground is proving to be mineralized where no copper had been expected.

In regard to the statement that the company had to reckon with the chances of freezing at the power plant it is stated that the difficulty from that source had been removed over eighteen months ago and that with the system now in use the chances of freezing are enough to interfere with operations has been so reduced that it is not even considered. A way has also been found to remove the danger of interference by anchor ice from the canal so that no further trouble is expected from that source. The management admits what is very well known, that the company is not making a great deal of money at the present selling price of the metal, but profits are sufficient to pay all operating expenses and to cover the improvements made in all the detail work, but for the last three months of the current year the results obtained through these improvements will prove a most agreeable surprise to the stockholders.

The management expresses confidence in an early improvement in the copper metal situation and feels that Victoria is in better shape to be benefited by this improvement than many similar mines at the Lake. It is pointed out that the cost of producing a ton of copper is fully as a considerable part of the expenses would continue in any event and the breaking up of the organization would mean a big setback when work was resumed. In consequence, while the copper situation remains as it is at the present time, the company will continue with the present prospects for betterment. Victoria will carry on operations as usual and continue to prepare for better times.

IN THE ELY CAMP.

The Steptoe smelting plant handled during the month of October about 180,000 tons of ore, reports an Ely (Nev.) correspondent. The output of the plant for the same period was about five million pounds, not quite as large as for the month of September, some unforeseen accidents and delays having caused the decrease. As soon as the winter snows cover the plant, another processing house is to be installed, it is reported that a fifth stand of converters will be added to the converter plant. The recent decline in Giroux stock was taken advantage of by numerous small investors in the district, who have bought the stock and intend to hold it for an investment. A block of 40,000 shares of the stock of the Ely Consolidated company placed on the market last week at twenty-five cents to raise money for development work was subscribed for more than twice over in a single day, entirely by the people of the district. The finding of ore in the lime by the claim drill operations of the Giroux and also by the Ely Consolidated and other companies is rapidly widening the known mineral area of the camp and bids fair to support the contention of many that some of the best ore would be found outside of what was formerly known as the mineral belt. Thomas F. Cole has always been a firm believer in the future of the properties located in the Ely, as his recent purchase of Richard Ely and other outlying properties testified.

NOTES OF COPPER NEWS.

Salt Lake wires: Word comes from Ely that the Giroux Consolidated has just penetrated a body of commercial copper ore 100 feet thick in a drift hole. It is expected that it will be released, though the reports state that the disclosure is a most important one.

A wire from Boston yesterday said: The American Metal company and other large sellers of copper are pretty well sold up for the first of the year and have no desire to make contracts for deliveries early next year at current quotations. The regular monthly statement of the Copper Producers' association will be issued tomorrow. Wednesday it is expected that it will show a reduction in stocks variously estimated at from five to ten million pounds.

The Isle Royale shaft in the Battle hole is now in the same character of gray rock found in the Superior before the rich copper rock was reached. It is reported that this character of the drift operations have proved that below the

City Brevities
Today's weather: Partly cloudy and warmer Wednesday.
Yesterday's temperatures: Seven a. m., 36 degrees; noon, 40; 7 p. m., 38; Maximum, 46 degrees; minimum, 36.
J. P. Maynard was a Chicago passenger last evening.
C. W. Gring left last evening to transact business in Chicago.
Dr. H. T. Carriell left last evening for Chicago and will be absent a week.
John Garvin, register of deeds and county clerk of Ontonagon county, was in Marquette yesterday.
S. W. Shaul has purchased from Asire & Palmer a lot on East Ohio street, next to his residence on Pine street.
Fred Burch, day clerk at the Hotel Marquette, is spending a short vacation at his former home in Albany, N. Y.
The Woman's Christian Temperance union will meet with Mrs. J. R. McPherson, 134 West Prospect street, at 3 o'clock this afternoon.
E. W. Summers and Charles H. Clark of Pittsburg, the partners of the Summers and Clark ore cars, respectively, were in the city yesterday.
The Shirtwaist & Laundry Workers' union held a special meeting at Keough's hall last evening. Following the transaction of business, an oyster supper was enjoyed at the Colonial Inn. Thirty-eight members were present.
Two interesting pictures will be shown at the Bijou today. One is that of a world's championship ball game between Detroit and Pittsburg. The other shows the aeroplane races at Rheims, France, in which all makes of aeroplanes participated.

Football Saturday—The Marquette and Negaunee High school football teams will play a game here Saturday, at the fair grounds. Ishpeming's defeat of the Negaunee team at Union Park last Saturday won for it the county championship.
Another False Alarm—Some alleged enterprising person who thinks he is a joker turned in an alarm from box 94, at the corner of Ridge and Fourth streets, about 11:30 o'clock last night, not only rioting most of the firemen out of bed but putting the city to an expense of approximately \$15. There was no fire.
Camp Broken Into—F. Labonte, Sr., who owns a camp near Gordon, reports that it was broken into last week Thursday and that the party parties most of themselves at home and appropriated such eatables as they could find. Mr. Labonte states that he knows it to have been Marquette people who broke into the camp, and that arrests may follow.
Over 600 Licenses—The deer season in Michigan opens today and up to last night over 600 licenses had been issued at the clerk's office. Though no comparison has been made, it is thought that the number of licenses issued this year is slightly below the number that had been issued at the same time last year. Eight non-resident licenses have been issued to date, three of which were issued yesterday, as follows: Henry C. Tomney, Winnetka, Ills.; Henry B. Favill, Chicago, and Edgar A. Bancroft, Chicago.

Hunters Should Use Caution—The management of the Marquette plant of the Du Pont Powder company urges the hunters caution in the use of firearms in the neighborhood of the company's buildings northwest of the fair grounds. The nature of many of the operations is such that a stray bullet might cause a serious explosion. There has been considerable shooting neighboring to the plant lately, and it is urged that hunters be careful not to discharge their guns within a radius of two or three miles of the buildings.
Asks All to Join—F. H. Vandenberg will circulate among the Marquette business men and others today to solicit their membership in the Farmers' Institute association, the cost of joining which is twenty-five cents. The institute this year will be held at the city hall Nov. 17 and 18, and a program of unusual interest is being arranged. It is stated that the association will need about \$200 to defray the expenses of the institute and a delegate to the state institute at Lansing.

Four Arrivals from Detroit—Sheriff Gaston of Wayne county and seven deputies brought four convicts from Detroit to the branch prison last night. The sinful quartet was made up of Robert E. Herzog, sent up for life; Arthur Brown (colored), who was given from seven and one-half to fifteen years for burglary; Louis Satt, who is committed for from seven to fourteen years for having negotiated a bit of forged paper; and John Aiken, given from two and one-half to five years for larceny from a dwelling. The sheriff and three of his deputies have taken to the woods the hope of being able to take back some venison when they return to Detroit and the other officers left for home on the afternoon train yesterday.
Motion to Quash—M. J. Kennedy, attorney for Hans Gunderson, against whom suit has been brought for breach of promise by a Chicago woman, has recently filed a motion for the dismissal of the case, on the ground that the plaintiff failed to give security for costs as required by the court. At the time the case was postponed, Sept. 25 last, the court gave the plaintiff thirty days to give security for costs. On Oct. 26 Attorney Hill, for the plaintiff, offered to deposit \$100 as security, which Attorney Kennedy refused to accept. In the answer to the defendant's motion to quash the case, Attorney Hill states that the money was received in his office about Oct. 20, but that he was absent from the city and could not attend to it until Oct. 26. The motion will be heard at the beginning of the December term of court.

INSURE WITH PETER WHITE & CO. HE KNOWS HOW.
A young man having proposed to the girl of his heart, was respected because she, intimidated, she did not like a man without a mustache.
This masculine adornment had been very reluctant about coming to the young man. Determined to remedy the defect he sent a dollar to an advertiser who undertook to force mustaches.
By return mail he received this reply:
How to grow mustaches in one night: Rub your upper lip well with salt before going to bed. They will have to come out in the night for a drink.

Upper Peninsula
Child's Peculiar Death—John Frederick Kamppala, the five-year-old son of John Kamppala, of Alnuck, Keweenaw county, is dead as a result of swallowing a sewing needle. Death came within a short time and before the services of a physician could be secured.
Reward for Fire-Bugs—The insurance companies which sustained loss at the brewery fire at Marquette have offered a reward of \$250 for information that will lead to the arrest and conviction of the party who set fire to the property. It is understood that the reward will be supplemented by an equal sum offered by the brewers taken to Lion Mountain for burial.
Found Dead in His Bunk—Michael McQueen, who was employed at the Sagola Lumber company, camp one mile west of town, died suddenly at Sagola, Dickinson county, of heart failure. He was forty-three years of age. There whereabouts of his relatives, if any are living, is unknown. McQueen had been drinking heavily during the evening and was assisted to the bunk by some of his fellow workmen. During the night the man who occupied the bunk with him woke up and discovered that McQueen was dead. The remains were taken to Lion Mountain for burial.
Bad Year for Cranberries—John Clark, the "cranberry king" of Whitefish county, Chippewa county, has harvested 800 bushels of berries this fall. He says this has been an unusually bad year for cranberries and that no more than a quarter of the usual crop has been gathered. The Chippewa county product brings the highest cash prices in the outside markets and most of those raised there are sold to Chicago houses. The berries are not so large as the Cape Cod berry but are of a superior flavor.

Is Appointed Game Warden—Charles L. Hewitt of Sault Ste. Marie has received his commission as deputy game warden from Game Warden Pierre. There were several applicants for the position from Chippewa county, but Mr. Hewitt's endorsements were the strongest and he was considered the best qualified for the position. Mr. Hewitt, being the champion shot of Chippewa county, has long been interested in the preservation of the game and a strict observance of the state laws.
Road to Be Sold for Taxes—Attorney General Bird and Deputy Auditor General Simpson have arranged for a tax sale which involves the property of the Manistique, Marquette & Northern now known as the Manistique & Lake Superior railway. The road is in arrears in its taxes for the past seven years, and the total amount, including penalties, is \$805,336.04. The sale will be held at the front door of the county clerk's office at Marquette on the eighth day of December at 10 o'clock. The state has levied on all of the property of the company, and as much as should be necessary to liquidate the amount above mentioned, will be sold on the day in question.
"Bad Man" in Limbo—Mackinac county has been terrorized lately by a real genius, all-around "bad man," who is said to have been breaking into private dwellings and stores, much to the alarm of the community. He is credited with plying his profession with the aid of a heavy and formidable rifle, with the result that no one was taking any chances on meeting the man after dark, or having an encounter with him. Matters became so desperate that a reward of \$25 was offered for his arrest. Elmer Rainey of Five Lakes, aged 25 years, and Mr. Bad Man is in the custody of the local authorities. The man goes under two names, Charles Smith or Charles Green. He has served one term of five years and another of one year, and is rated as a desperate fellow. He has formerly been charged with burglary and is in jail at St. Ignace awaiting trial in circuit court.

Long Distance Courtship a Failure—About a week ago Anna Steele arrived at Whitehall from Oregon in response to letters written to her by Israel Foley of Doyle township, with the intention of becoming his wife, but after several days' foreplay she decided to prefer to go it alone and cast her net, says the Manistique Pioneer-Tribune. The woman came to Manistique and, being without money, spent the night at the hotel. The sheriff was informed of her plight and provided her with means to return to Whitehall for the purpose of compelling Foley to give her sufficient funds to return to the west, as he promised to do in the letters written to her prior to her departure from home. Mrs. Steele says that she does not know how Foley secured her name and address, but in the course of time he proposed that she come here and if all was satisfactory they would be married, and in case they should decide not to do so, he would provide her with sufficient money to return to the west. He also sent her a ticket so that she could make the trip here. She was accompanied by a young daughter. She desires to go to Kansas where she has relatives.
Small Children's Work—Last Wednesday afternoon, while Mrs. E. Quivron was attending the meeting of the Ladies' Aid, two of the children of Joseph Demelle, aged five and three years, respectively, gained entrance and proceeded to ransack the house and raise a general disturbance, says the Stephenson Journal. They lit the lamps and then began to tear up magazines and sheet music and throw the leaves into the stove. The bureau drawers were opened and the contents scattered all over the floor, so that the rooms looked as if they had been visited by a cyclone. When they proceeded to the kitchen, where they evidently intended to try their skill at baking, as flour was scattered about. Burned leaves of books and music were strewn all over the floor and sparks had burned holes in the carpets. When Rose Quivron returned from school the two children became alarmed and crept under a bed. The work of putting everything in order was not accomplished for several hours and when order was restored it was found that various ornaments and much music had been destroyed. The wonder is that the house did not catch fire and burn together with the furniture.
Blasted by Dynamite—A few miles from Witbeck, Marquette county, a young man named John Fober was the victim of a blasting accident which will result in the loss of the sight of both eyes and may necessitate

the amputation of the right leg at a point above the knee. Fober was a member of the crew employed by the Sagola Lumber company in loading the new logging road in an easterly and northerly direction from the Chicago, Milwaukee & St. Paul road at Witbeck. Having had some experience as a miner, Fober was deputized to look after the work of blasting stumps from the right of way. Dynamite was employed. A large pine stump had been charged, but the cartridge for some reason lunged fire. Fober, thinking the fuse was defective, was in the act of making an examination, when the explosion took place and he was blown a distance of sixty feet. The position occupied by Fober in making the examination was such that his escape from instant death was marvellous. The sight of one eye was destroyed and Dr. Crowell is of the opinion that it is impossible to save the sight of the other. The right right leg was shattered from the foot to the knee-cap. The face and breast were badly lacerated and he may be hurt internally. Despite these terrible injuries, Dr. Crowell believes Fober will live. Fober is a young man, about twenty-seven years of age, and lives at Crystal Falls. It is said that he is the only support of a widowed mother. He is receiving treatment in a hospital at Iron Mountain.

Umbrella Stab Kills Man—One of the most peculiar cases of the kind that has ever come to our knowledge was the killing of Lundo Mattson by August Burkland, which occurred at the Norrie location early Tuesday morning, notes the Ironwood Times. The killing occurred at a boarding house kept by Mrs. Sandquist at which Mattson boarded. Burkland and a companion named Johnson had been down town during the evening and had been drinking some. As they were going home Johnson asked Burkland to go into the boarding house with him. They went to the door, but a number of the boarders, among whom was Mattson, refused to allow Burkland to enter. As they were arguing this matter, Mattson stepped slightly toward Burkland, and the latter, thinking that Mattson was going to strike him, lunged toward him with the umbrella which he carried in his hand. The sharp point of the umbrella struck Mattson in the forehead, just over the left eye, glanced downward and entered his eye going in about three inches and piercing the brain. Mattson dropped in his tracks and expired almost instantly. Burkland was arrested and is now in jail at Bessemer, awaiting his examination. Mattson was twenty-two years of age, and Burkland is twenty-six. The men had been intimate for some time and had always been very good friends. Since the occurrence Burkland has suffered great remorse over the killing of his friend, and there is no doubt that he had no intention of killing the man when he lunged at him with the umbrella.
500 CANAL PASSAGES.
Boats Locked Through, Bound for Ports on Lake Superior.
Sault Ste. Marie, Mich., Nov. 9.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Arthur Hawgood, Kalkaska, Fryer, 11 p. m.; Goulay, Michigan; Hobard, 12:30 a. m.; Michigan; 1:30; Nettleton, 2:30; Weston, 4; Olyver, 4:20; Wilpen, 5; Stanton, 6; Marigod, 7; Zwanenart, 9; Nyazza, 11:20; Wolvin (sm-ll), 1 p. m.; Harmonie, 2; Pope, 3:30; Empress Midland, 4:30; Labelle, England, 5:30; E. L. Wallace, 6:30; Princeton and whaleback, Gayley, 7:30.

FAIRBANKS LOSES BEARD.
Picture of Former Vice President in China Shows His Goatee Gone.
Washington, Nov. 9.—Former Vice President Fairbanks has shaved off his beard. This means almost as much, as if some vandal had shaved the Washington monument off the White House lot. The Fairbanks beard has been as much a part of the Washington facial topography as the monument is a part of the map of the capital.
The news has not been received by wireless or any other form of telegraphy; it came more conclusively, viz: in the form of a photograph of the former vice president taken in China. The photograph was received in a ball of correspondence from the Orient.
The photograph pictures a group of important officials standing on a veranda in Peking. In the middle is Mr. Fairbanks. There is no mistake about him; he is twice as tall as the surrounding Chinese. He is also slender like the lily and he wears his familiar frock coat. It is Mr. Fairbanks. But the brush is gone. He has preserved merely the following mustache. The chin is exposed to the merciless gaze of the beholder. The chin not only retreats; it runs straight back into the Adam's apple, where the merger with the rest of his anatomy is unobtrusively adjusted.
The politicians here are of one mind about it. They are sure that Mr. Fairbanks has made up his mind to run for the senate against Beveridge, who is a smooth shaven man. The politicians think the people must be willing now to stand by a man with a mustache, but that a man with a beard has a tremendous handicap.
CHILDREN, HAVE MERCY!
The superintendent of the public schools of Chicago has directed his teachers, in conformity with a recent act of the legislature known as the Chipfield law, to use half an hour a week in giving instruction to children in the humane treatment of animals. In some respects it is a wise provision. Many children do need instruction and counsel in gentleness to cats, dogs, birds and other creatures. Gentleness is a beautiful trait. In some children, especially in boys, it is often lacking. Especially it is lacking in their people's children. It will be a fine thing to teach children to be kind to dumb beasts. Some particularly zealous teachers may undertake to instruct boys in gentleness toward other boys, but of this there is doubt. Boys have a way of trying to smash a big bully that to kick a home- less dog. It is much more Christian to "call down" a brutal driver than to overdrive a horse or overload a mule. Good men love their animal friends and the teaching is reciprocated.—Washington Star.

Why it Pays To use CALUMET

INSTEAD OF CHEAP AND BIG CAN BAKING POWDER

You simply cannot get as good results from the cheap and big can kind—the baking cannot be as evenly raised—it cannot be as pure and wholesome—because the quality is not there. And it cannot be any more economical. Calumet is medium in price—the standard 1-lb. size can costs 85c. Less of it is required and the baking is certain to be better. Try one can—if not satisfactory your money will be returned.

Calumet Received Highest Award—World's Pure Food Exposition.

FREE—large handsome recipe book. Send 4c and slip found in pound can.

COLERAINE TO HAVE STEEL SKI SLIDE

MAY PLAY HOUGHTON.

Ishpeming School Team Would Like to Meet Copper Country Champions.

According to the copper country papers the Houghton high school football team, which last Saturday defeated Menominee by a score of 11 to 10, securing its final touchdown in the last two minutes of play, would like to meet the Ishpeming eleven next Saturday to decide the upper peninsula championship. The management of the Houghton team concedes Ishpeming's right to play for the championship, and has expressed a desire to arrange a game. The Ishpeming boys will be pleased to meet the Houghton team on its own grounds. The local management some time ago decided that it would not bring any outside teams to this city for games this season, so that if the contest is arranged it will be played in the copper country. The Calumet Evening News of Monday had this reference to the proposed Houghton-Ishpeming game: "By virtue of the victory over Menominee, the Houghton team has earned the right to play Ishpeming for the upper peninsula championship. Efforts will be made to arrange this game for the Houghton driving track, next Saturday afternoon. The Houghton players confidently believe that they can defeat Ishpeming, and if they succeed in doing so, will endeavor to arrange games with high school teams from lower Michigan. The custom of arranging championship games between the schools of the upper and lower peninsula has been abandoned, but the locals hope to be able to arrange friendly games with some of the other teams."

WOULD MAKE GOOD MATCH.

Many Would Like to See Penberthy and Chapman Come Together.

Several of the Cornish wrestlers of this city are keeping in trim in the hope that they will have an opportunity to participate in some special matches or tournaments in this section during the coming year. Some of them meet regularly for friendly bouts and they are anxious to see the champions of the lovers of the sport here would be pleased to see William Penberthy of this city and Sidney Chapman of Trumountain come together. In the tournament at the county fair in September, Penberthy and Chapman after several hitches, many of his friends here believe that he could do the trick again, though Chapman is conceded to be one of the very best wrestlers of the Cornish style in the country.

TO SPEAK HERE.

Rev. E. Ames Maywood, pastor of the Methodist Episcopal church at Marquette, will lecture on "Sinner's Cart" in the city of Ishpeming, Mich., next Friday evening at the First Methodist Episcopal church. Mr. Maywood is one of the most fluent speakers connected with the church in this section and has been invited to speak at the local church, yesterday and today, before a large audience would be present. There will be no admission charge but a voluntary offering will be taken at the close of the lecture.

TO LOOK FOR ORE.

Steel Corporation to Start Explorations on Menominee Range.

Exploratory operations, in the outcome of which there is much interest in the Menominee range district, are about to be undertaken by the United States Steel corporation. The company has planned to do extensive diamond drill work to the west and north of Iron Mountain, starting near Pine mountain and working in the direction of the Mesabi range. In the last few days the range some crude work was done in that district, but the results were not considered sufficiently encouraging to warrant the sinking of shafts. The greater part of the work was test pitting and some of the pits were not very deep.

HARRY NELSON HAS RESIGNED.

Harry C. Nelson of this city, who has held the position of assistant superintendent of the dining cars on the South Shore system for some time past, has given up the position, and is soon to engage in the lumber business. The St. Ignace Enterprise of last week said of Mr. Nelson's resignation: "H. C. Nelson, assistant to Superintendent G. H. Campbell of the dining and sleeping car system, has resigned, taking effect Nov. 1. Mr. Nelson was an able chief of staff for Mr. Campbell for three years; he was alert and capable in the discharge of his duties and coupled with his business qualities, a pleasing and courteous manner. Mr. Nelson, we understand, will abandon the railroad field to engage in lumbering. In whatever field he may enter, the Enterprise wishes him success. Mr. Campbell will dispense with an assistant for the present."

SENT TO INDUSTRIAL SCHOOL.

Carl Strand, an Ishpeming boy, who persisted in playing truant, has been sent to the Industrial school at Lansing. The school authorities did everything possible to keep the boy in school, but without success. Superintendent Scribner yesterday said that there are a few more boys in the city who will likely be sent to the Industrial school if they do not learn up and attend more regularly than they have since the fall term opened.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

LEAD AND ZINC STRONG.

Average Advance of 8c Per Ton in Standard Grades of Mineral Last Week.

There has been a very substantial increase in the price of lead and zinc ores over those prevailing a week ago. The advance last week in the price per ton of all standard grades of both minerals averaged 8c. Still better gains were reported on medium and low grade ores for which there seems to be an unusual demand.

It is reported from Wisconsin that producers are inclined to hold on to their product and it is largely due to this fact that so many substantial increases in the prices have occurred during the past month. A car famine is in a measure responsible for the delayed shipments and it is thought that in view of the heavy demand for cars all over the country this condition is likely to become even more aggravated.

The year which will soon be brought to a close will be the banner one for the Wisconsin field. The values of mineral lands in that district have increased in many counties more than 100 per cent. Many leases are still being recorded but there is not as much prospecting being done now as there was early in the year. Carbonate zinc ore reached a high water mark last week, when it sold for a basis of \$29 for 10 per cent mineral. The 66 per cent mineral is now quoted at from \$18 to \$22, while zinc of the 80 per cent mineral is sold in at \$56 per ton.

UPPER PENINSULA

Finishes Its Season's Cut—The Jones Lumber company's sawmill at St. Ignace finished its season's cut and closed down Saturday. The output was 2,600,000 feet of lumber, over six million feet of lumber, 1,000,000 shingles, 3,000,000 to 4,000,000. Three million feet of lumber remain piled on the dock. Some changes will be made this winter to increase the capacity of the mill.

Municipal Ownership Liked—Municipal ownership and its benefits have been demonstrated to the satisfaction of the city council and the construction has resulted in complete satisfaction on the part of the public, says the Escanaba Mirror. By virtue of the action of the city council in accepting the new schedule offered by the lighting board several weeks ago, all rates have been reduced 5 per cent and the bills for October were the first to come in under the new arrangement. The lighting plant was never in better condition than it is at the present time. It has paid off a large share of its indebtedness to the city, has purchased new equipment, declared a cut of 3 per cent in the rate and is still making money for the city.

New Park Superintendent—The Mackinac Island State Park commission held a meeting in Detroit recently, at which the most important business of interest to the public was the appointment of J. Kenyon of East Jordan to the position of superintendent. The post had been vacant some time and the duties were performed temporarily by a resident of the island. Part of the delay was because there were about half a dozen candidates, all working political and other wires for the job. Friends of Frank Aldrich, superintendent of the street cleaning department of Detroit, urged his name, and he had strong indorsements.

FROM MORGAN'S CURB LETTER.

A higher opening in New York was succeeded by a dull and stagnant market, though the prices held well until noon, when weakness developed and declines were the rule. There was some buying of Steel common.

In Boston also the opening was higher, but the activity continued in only the Cole-Ryan stocks, Nevada Consolidated, Lake Superior Copper and Isle Royale, which were traded in freely with advancing prices until noon. At this point, buying orders disappeared and the market became dull and lower. Lake sold up to 39 1/2 on a report that a mill test of rock would be made today at the Franklin mill, and returns of better than fifty pounds of copper were expected. We are advised to purchase Groux.

On the curb, the Ely stocks are still active, though in most cases at the expense of prices. Ely Central sold down to 1-1/2. Live Oak was stronger, 6 1/2 being bid for several lots. Chief Con-

FIRST-CLASS SERVICE.

A CALL SOLICITED.

MRS. J. PRINCE

(11-20 1m)

of Aurora, Minn., and Mrs. Earl Malby of Chicago, sisters of the bride.

W. J. Ervan at Ironwood—Hon. William Jennings Bryan was greeted by a very large audience at the Armory at Ironwood. He was introduced by Hon. S. S. Curry, who spoke of him as one of the greatest men in this country today and one who by his teachings and the great ideas which he persistently advocated, had done much for the betterment of humanity. Mr. Bryan delivered his lecture, "The Price of a Soul," the chosen being made by a rising vote of the audience. This lecture is founded on Christ's question, "What profit a man if he gain the whole world, but lose his own soul?" Mr. Ervan applies the question to modern business. At Ironwood, he fully sustained his reputation of being one of the greatest orators in the world, and greatly pleased the audience. He made himself heard distinctly in all parts of the building without any apparent effort. While the lecture is the most earnest of a serious nature, it was interspersed with dashes of wit. Mr. Bryan's reference to his experiences as a candidate for president were of humorous nature, and he said nothing that could be construed as of least significance, even by the most hardy partisan.

CUTICURA CURED CHIEF OF POLICE

Canadian Officer Poisoned by Weeds—Eczema Developed and Legs Became Scaly—Ankles were Very Sore and Itchy—For Weeks He Could Not Wear Shoes.

FREED FROM ITCHING BY CUTICURA REMEDIES

"I have been successfully cured of dry eczema. I was cured by the removal of noxious weeds, it being part of my duty, from the edge of a river and was constantly in contact with the weeds. At night I shook out my trousers and cleaned my limbs, but felt a prickly sensation. I paid no attention to it for two years, but I noticed a scum on my legs like fish scales. I could scrape it off, and yet I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I was then on particular police duty and was compelled to be on duty. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks, though on duty all the time, I was free from the con- ditioned itching. I tell you frankly that Cuticura saved me from what the doctors called a bad leg. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."

For Baby's Bath

Cuticura Soap has Become the Mothers' Favorite.

Warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment are the most soothing of emollients, preserve, purify and beautify the skin, keep the hair and hands of infants and children clean and healthy, and assist by mild doses of Cuticura Pills, afford the most speedy, gratifying and comforting treatment for torturing, disfiguring eczema, eruptions and every form of itching, scaly, crusted humor of the skin and scalp. Guaranteed absolutely pure.

Cuticura Remedies are sold throughout the world. TAMMANY IN STRAITS.

Only a Few Minor Offices Saved from Election Wreck.

Murphy Must Now Fight for His Lead—Has Hope in the Fact That There Is No One Else.

New York, Nov. 9.—The completed returns from last Tuesday's election serve only to reveal the extent of the disaster that Tammany Hall has suffered. The only offices saved out of the wreck of the Democratic ticket other than that of mayor are shown to be those of sheriff, county clerk and register in Kings, and those being not to the Fourteenth street organization, but to the Brooklyn Democracy, which was led, up to the time of his death, by Patrick H. McCarron. As a Tammany district leader said, in the bitterness of his disappointment: "McCarron dead did a d—sight better than Murphy living."

Just now election interest centres upon two propositions. First, what will Gaynor's attitude be toward the organization of the matter? Second, will Tammany be able to do anything at all with the board of estimate, either by influence or deception? It is safe enough to answer this last question emphatically in the negative. Even if the board outside of Gaynor should not stand as a unit for the city's interests on any and all propositions, there are individual members enough who may be counted on to keep Tammany safely distant from all matters relating to the city's financial management.

tion may prove Murphy's salvation so far as the present is concerned, and until Tammany is called upon to go into another campaign. With the exception of Maurice Featherston, a second-rate politician at best, there is no one who would possibly start a fight inside the organization, and Featherston is not to be taken seriously at the present time. If McCarron were alive Murphy and the Sullivan might have reason to fear that instead of the Tiger crossing to Brooklyn, McCarron might cross to Manhattan. But McCarron is dead.

THEIR TALK.

As the son old married couple were walking in the park Mr. and Mrs. Spoomore rode by in their new automobile, chatting merrily. "Look at them," said the experienced married woman, "they are actually carrying on a conversation and not quarrelling! How do they do it?" "Huh," grunted her husband. "But if the experienced married couple had heard the "conversation" it is what they would have heard."

"I really hope that white gown is a bargain. I hope the other one does not make me look pudgy." "You keep your eyes on the road ahead of you and may no attention to what your feet and hands are doing. That is, after it becomes." "I wonder if they really will send them out when they said? If they don't there's no trip for me next Saturday."

"Well, you've no idea how glad I am that the ordeal's over. I've been dreading this hot shopping trip for a week and it was mighty nice of you to go along and help me select the things and talk them over with me." "Look out kid. A little more and your mother wouldn't have known you when you get home tonight. It's certainly fierce the way people let their kids play in the streets, out in front of autos, and everything. Some day one of these kids will be killed, and the fond parents will say the Lord took them because they were too good for this earth."

Negaunee Department
IRON AND STEEL
MARKETS STRONG

FAVORABLE CONDITIONS OF THE INDUSTRIES IS CAUSING UNUSUAL ACTIVITY ON ALL THE RANGES OF THE LAKE SUPERIOR MINING DISTRICT.

Encouraging reports as to the condition of the iron and steel markets continue to be received from eastern points. While there has been a falling off in the volume of business in pig iron since the first of the month, many fairly large orders for foundry and forge grades have been placed. It is not expected, however, that the sales this month will reach the record-breaking tonnage of October. One contract awarded last week was for 15,000 tons of foundry iron for delivery over the next eight months.

It is reported that considerable Virginia and Alabama iron was sold last week for shipment to Chicago, the total sales for the week being estimated at about 100,000 tons. An easier tone has developed for foundry iron for shipment over the remainder of this year, and could possibly start a heavy increase in a ton has been made, but steel making iron is still strong, with indications that there will be a further increase in the price, rather than a reduction. Contracts for rails last week aggregated 25,000 tons, but the distribution of orders for between 200,000 and 250,000 tons is expected to be announced within a few days.

Contracts for structural steel last week ran between 17,000 and 18,000 tons, with prospects for a heavy increase in the business this month. The output of all kinds of pig iron in October was at the rate of approximately 31,000,000 tons annually. A new high record was established last month in the production of steel ingots, as well as of pig iron.

Many Mines Being Opened. The favorable condition of the iron and steel markets has encouraged the owners of mineral lands in the Lake Superior district, and new mines are being opened up on practically all the ranges. Exploratory work has never been conducted on such a large scale as during the past summer, and as a result of the discovery of new ore bodies many large producers will be developed. The Vermilion range, where little exploratory work has been conducted during the past five years, is about to be opened up over several new properties. During the past six or eight months a number of new mining and exploring companies have been formed, and some of them are now conducting their exploratory work on a fairly large scale.

One of the most promising of the new properties in that district is the Roy mine, on which excellent ore has been found. A shaft was started a short time ago and is now down about forty feet. High grade ore was encountered at twenty-five feet in the shaft. An engine house and other buildings are now being erected, and the property will enter the list of producers next season. The mine is only about a mile and a half east of town and is near the North American, another new mine, where an extensive body of ore is being developed.

A number of Duluth mining men are becoming interested in new properties on the Vermilion range and much mineral land in that neighborhood has passed to new owners during the last year.

GOOD SHOVEL WORK. Ted Gaffney, who operates the Oliver Iron Mining company's steam shovel at the Hartford mine, on Monday loaded ninety-six cars in less than seven hours. Fifty cars of that weight twenty-two tons and forty-two had a capacity of thirty-three tons. The weight of the ore was 2,574 tons. No allowance was made for time lost in placing the cars and switching. The Hartford stockpile has been reduced to about 20,000 tons, and it will not take long to clear it out at the rate the ore was loaded Monday.

Strictly fresh Blue Point Oysters, fresh from the coast. GEO. HAUPF. (10-22-tf)

LAUNDRY COMPLETED. The Oliver Iron Mining company has finished the construction of a laundry five by two and a half feet in size in the vicinity of the Regent mines. The laundry takes the place of an old one that had been used for a number of years to carry away the water from Partridge creek. It is 1,300 feet in length, and is constructed of heavy timber.

NATURE'S WARNING. Marquette People Must Recognize and Heed It. Kidney ills come quietly—mysteriously. But nature always warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlements and sediment. Passages frequent, scanty, painful. It is time then to use Doan's Kidney Pills. To ward off Bright's disease or diabetes. Doan's have done great work in this locality.

M. Brown, 306 S. Jennie St., Escanaba, Mich., says: "About two years ago I began to suffer from pains in the lower part of my back, and after a hard day's work I was so lame I could hardly straighten. In the morning upon arising, I felt lame and sore and the kidney secretions were often scant. A friend advised me to try Doan's Kidney Pills, and I accordingly procured a box. My kidneys were soon strengthened and the pains in my back disappeared. Recently when I had a return of pain, I again used Doan's Kidney Pills, and am glad to say that they promptly relieved me. I gladly tell of the great benefit I derived from this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

There is a great secret in knowing what to keep out of the mind as well as what to put in.

Co., Equitable of Rhode Island, Philadelphia Underwriters, Empire State Surety Co.

We would be pleased to talk to you about your Insurance and quote you rates.

Dr. S. J. Crombie, secretary of the state board of health of Kansas, and some of the pure food inspectors of that state, have mentioned a new scheme whereby the farmers can double their money on butter. It was recently found that a Kansas City firm was selling a preparation that made it possible to add 100 per cent of water to butter and still make such good butter that only experts could tell that it was watered. A pound of real butter, a pound of water and a few drops of a certain emulsion claimed together will make up two pounds of butter. The emulsion has the appearance of curd, it being sticky and rather thick, but is transparent.

The chemical experts of the health board have declared the emulsion harmless. It is cheap and it increases the cost of the butter very little. Butter increased in weight by the use of the emulsion and water has been bringing the farmers from thirty to forty-five cents per pound, so that they have been making a big profit. It is said that the Kansas farmers have been selling butter of this grade for some time and it is thought that their product has been shipped to a number of other states during the past year. In view of the fact that there is nothing injurious in the preparation, it is a question whether its manufacture can be suppressed.

LOCAL LACONICS. Dave Foley is here from the Mesaha range on a short visit. Contractor Spaulding had to lay off some of his men yesterday, on account of a shortage of brick. The Marketky brothers have started work on a new dwelling on their lots on Clark street. Mr. and Mrs. F. A. Bell entertained a number of their friends with cards Monday evening. B. Barasa is having the dwelling he owns on Clark street connected with the sewer system. Miss Virginia Mackenzie left yesterday for Kenton, where she will spend some days visiting her sister, Mrs. C. F. Moll. Fred Nightingale, the Oliver Iron Mining company's traveling auditor, who spent the past few days in the city, left last night for his home in Duluth. Nester Kulkki and Miss Amanda Reina, both of Negaunee, were united in marriage Saturday evening by Justice Irving Argall. The ceremony was performed at Mr. Argall's office. Miss Minnie Schwartz, who went to Chicago over a week ago, submitted to a surgical operation, performed by Dr. Murphy, at the Mercy hospital last Saturday. This is the second time she has been operated on in the past six months. Members of the family here.

Upper Peninsula State Bank for Garden—Manistiquette capitalists and a number of the residents of Garden are making plans to open a state bank at Garden, Delta county. The capital stock of the institution will be \$25,000, all of which has been subscribed. There is a population of 1,500 in Garden and vicinity. Big Haul of Fish—Lanier Brothers of this place have made what is probably a record haul of fish for Lake Superior water, reports a correspondent at Egan Harbor, Kenewau county. One day last week they raised seven of their pound nets and secured 20,000 pounds of whitefish and trout. The fish hatchery men stationed here were literally swamped with the large amount of spawn they were called on to take care of. Thief Returns Money—Henry Johnson of Laurium has received through the mails a check for \$50 and thirteen years' unrequited interest at his best rate. One payday, thirteen years ago when Johnson, who was employed by the Calumet & Hecla Mining company, was going home his envelope was stolen from him. Although an investigation was started the theft was never ferreted out. But now, being conscience stricken, it is thought, the thief returns the money with interest and Mr. Johnson finds that it comes in very handy at the first reading of the letter that it was his own money that was being returned to him.

Island to Disappear—Chief Shawano's island at the foot of the rapids in St. Mary's river will soon be of the past. With other old landmarks it is being removed in the march of progress that is making the two higher and better. The island is located on the right of way for the new third lock, on which excavation work was begun some time ago. For years it was in litigation, which was not at an end when the government proposed to take it over and level it. The island is located on the right of way for the new third lock, on which excavation work was begun some time ago. Women as Well as Men are Made Miserable by Kidney and Bladder Trouble. Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit, as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in dollar and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root. It is the only remedy including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

REWARD—A liberal reward will be paid for information that will lead to the arrest and conviction of the party or parties who are stealing red lanterns from our sewer trenches. E. Barasa & Co. 11-9-1w

SPECIAL NOTICE
The Darantella Havana Cigar is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO., Grand Rapids, Mich.

The figures of the London police courts show a very decided increase during recent years in serious crime. Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by The People's Drug Store.
