

CAIRO, ILLINOIS, IN HANDS OF MOB

Aroused to a Frenzy by Atrocious Murders, Citizens to the Number of 10,000 Resort to Lynch Law.

TWO CRIMINALS ARE EXECUTED AND A THIRD MAN IS SOUGHT

Taken from the Sheriff, Will James, a Negro, the Slayer of Annie Pelley, Is Strung Up, Then Riddled With Bullets and His Body Burned, and Taken from Jail, Where He Was Awaiting Trial on the Charge of Killing His Wife, Henry Salzner, White, Is Hanged from a Telephone Pole.

Paducah, Ky., Friday, Nov. 12.—In a telephone conversation with the Paducah police chief early this morning, the night chief at Cairo reported that Sheriff Davis, with Alexander in tow, was running through the city, occasionally seeking cover, with a mob in close pursuit. The first of the militia is expected at 3:30.

Cairo, Ills., Nov. 11.—Will James, the negro known as "The Frog" and who was suspected of being the murderer of Miss Annie Pelley, was killed here tonight by a mob. James was strung to a public arch, and when the rope broke at least five hundred shots were poured into his body. He made a confession, implicating a negro named Arthur Alexander, and the mob has now gone out to look for Alexander.

James was lynched in the most prominent square of the city, the arch where the hanging took place being at Eighth and Commercial streets. Women who were present were the first to pull the rope. When it broke, the frenzy of the mob was uncontrollable. Men fired volley after volley into the body, shooting James to pieces. The mob then dragged the body over the streets more than a mile to Twenty-sixth and Elm streets and turned it in the alley where the murder was committed. Men fired volley after volley into the body, shooting James to pieces. The mob then dragged the body over the streets more than a mile to Twenty-sixth and Elm streets and turned it in the alley where the murder was committed.

James was found with Sheriff Davis between Karnak, Ills., and Belknap by a Cairo crowd which went up this afternoon. The crowd overpowered the officers and took the negro from them, and after a long march at daylight set out to bring the negro back to this city and lynch him here. Fully a thousand people went up to help and the negro, and when they arrived at Cairo they were met by a howling mob of at least five thousand more. They marched direct to the arch, sweeping everything before them. Many women were out to help.

Sheriff Davis in vain. Sheriff Davis pleaded for the life of the negro, without avail. When Cairo was reached Sheriff Davis was taken in charge by part of the mob the rest rushing the negro rapidly to the scene of action. The mob after the negro was so large that it covered the entire country from Karnak to Vienna, a distance of sixteen miles. When found by the mob, the negro was handcuffed between the sheriff and a deputy, who were lying on the bank of a creek. All three were so weak from hunger and exposure that they were unable to make much resistance.

The sheriff said that he deplored the lynching and had made every resistance in his power, but the crowd was so large he could do nothing. He said that after leaving the train at Belknap last night, he tried to get a rig, but found it impossible to find one, as the news had spread over the country. The farmers knew of the crime the negro had committed, and he could not get assistance and hardly anything to eat. At every point he was held to board a train he was blocked by a mob.

Negro Makes a Confession. James was found at 5 o'clock this afternoon. News was sent along the line to the scattered mobs to board the Big Four train and meet at Belknap, which was done, the whole party arriving on the Big Four at 7:45 o'clock. The negro was taken off at Tenth street and marched through the principal streets to the most public location. While in the custody of the mob at Belknap, and while coming down on the train, the negro would not tell about the crime, but when under the arch he weakened and confessed and said that Alexander was implicated.

In his confession, James declared that Alexander had the dead girl's jewelry. As the negro finished, a man who had climbed to the top of the arch turned on the electric lights. The rope was thrown to him. He dropped it over the arch, and it fell to the surging crowd. Many women seized the rope and tugged with the men. The body was then burned at the spot where the crime was committed while ten thousand spectators danced in glee.

The mob came near alighting before the train reached the city, and lynching James, but it decided to give the citizens at home a chance to help. The mob was so large that resistance by the officers was fruitless. The negro had been in Cairo only a few days for several years. He came here from the South. He said before being lynched that an assault had been committed on the girl before she was murdered, and that Alexander helped him. Relatives of the murdered girl aided with the lynching.

lies. The search for the negro Alexander continues. Mob Gets Trace of Him.

Cairo, Friday, Nov. 12.—Alexander was dressed up in a policeman's clothes and taken up through the city by two police officers late tonight, but some watchers for the mob soon got onto this move and the mob was put after him, but up to 2 o'clock he had not been found.

Cairo, Friday, Nov. 12.—The situation in Cairo at 2:45 a. m. is very quiet in the downtown section, and no evidence that a mob has run riot can be seen. The mob has dispersed to a great extent, but the search for Alexander still goes on in the upper part or the negro section of the city, and his capture would be the cause for an immediate mob alarm and he would be lynched at once. The execution of Alexander is necessary to entirely appease the people here.

The local company militia is guarding the homes of Mayor Parsons and Chief of Police Egan.

GOVERNOR ORDERS TROOPS TO THE SCENE

Appealed to by the Sheriff, He Is Prompt to Act and This Morning Will Find the Entire Fourth Regiment of the Illinois National Guard on Duty in Mob-Ridden Cairo.

Chicago, Nov. 11.—Governor Deneen telephoned the sheriff at Cairo at 11 o'clock tonight, and learned that troops were needed at once. "The streets are filled with people, and they are crazy," the sheriff reported to the governor, who is at his rooms at the Union League club. "They are storming the jail and now are trying to batter down the doors. I called for volunteers to help suppress the rioting, but not a soul would help me. I must have troops."

Governor Deneen, who had already ordered that all the militia companies in southern Illinois be held in readiness, told the sheriff to utilize the militia company at Cairo immediately, and that he would rush further troops to the scene. The governor immediately ordered out the following troops: Companies D, at Carbondale; G, at Elkhart; M, at Champaign; A, at Casey; and B, at Newton. "I have ordered the companies at Carbondale and Elkhart to proceed to Cairo with all possible speed," said Governor Deneen.

Other companies are ordered to assemble immediately and to go to Cairo as soon as I get further word from the sheriff. "When I first heard of the lynching and rioting, I immediately called up Cairo by telephone, but could not get the sheriff. I talked to everything was quiet and the mob had dispersed. As soon as I got Sheriff Davis on the telephone, I discovered that I had been deceived, as the mob was at that minute trying to break into the jail. I immediately ordered the militia companies out at once. I will stay up all night here at the club to watch developments and direct the movement of the troops."

Eleven Companies Ordered Out. Chicago, Nov. 11.—At midnight the governor was appealed to again by the sheriff, after the mob had dragged Henry Salzner from the jail. The sheriff declared that he feared wholesale murder. The governor immediately ordered five more companies of militia to Cairo. Eleven companies have been ordered out at midnight. The troops ordered out are the second companies of Companies I, at Vandalia; K, at Shelbyville; L, at Olney; D, at Paris, and F, at Mt. Vernon. General Wells has been ordered to proceed from Decatur in a special train at once, said the governor.

"This is an outrageous proceeding and a disgrace to the state," said Mr. Deneen. "Nothing will be left undone to preserve order and vindicate the law. There is not a question that those who committed the atrocious crime at Cairo would have been punished by due process of law had the matter been submitted to the courts."

Chicago, Friday, Nov. 12.—Acting Adjutant General Dickson reported to Governor Deneen by telephone from Springfield at 1 o'clock this morning that at least three companies of the Fourth regiment were enroute to Cairo, and that the Carbondale company would reach the scene at 2 o'clock.

"The entire Fourth regiment will be there in the morning," said the governor. "I will not tolerate any quibbling with such lawlessness." According to the governor's information, the mob broke into the jail in search of Alexander. When they did not find Alexander, they took Salzner.

LIFE TERMS THE PENALTY. All Five Union Pacific Train Robbers Convicted by the Jury.

Omaha, Nov. 11.—A verdict of guilty on all counts was rendered tonight against the five defendants in the Union Pacific mail robbery case. The case went to the jury at 5 o'clock in the afternoon.

The penalty for train robbery in this state is life imprisonment. The defense was given until tomorrow to file a motion for a new trial. The five defendants were demanded to jail. Their names are D. W. Woods, William Matthews, Lawrence J. Golden, Frank Grigware and Fred J. Tensen. The crime was committed March 22.

FILMS CATCH FIRE. Scores of Spectators Narrowly Escape Death in an Opera House.

Ossining, N. Y., Nov. 11.—Five hundred spectators, mostly women and children, narrowly escaped tonight from the Olive Opera House when the films in a moving picture machine caught fire. Many persons were bruised. The damage was small.

MURDER LAID TO ROBBERS. Danville, Ills., Nov. 11.—The body of Adam Warpenisoi, bearing a hole in the forehead, was found in a pond near his home at Grape Creek today. The authorities think the man was murdered and robbed.

THE WEATHER.

Washington, Nov. 11.—The following is the weather bureau's forecast for Upper Michigan: Rain or snow and colder. Friday: Saturday, partly cloudy; moderate west to northwest winds.

HIS WIFE INSTIGATED UPON TAKING MORPHINE

Hence Edw. Hoff, an Indiana Farmer, Pushed Her from a Bridge and She Went to Her Doom—Arrested at Indianapolis, Charged With Murder, He Confesses the Crime.

Indianapolis, Nov. 11.—Edward Hoff, a farmer, confessed tonight that the body of the woman found in the river Monday was that of his wife, whose death he caused by pushing her from the bridge of the Union Traction company, which crosses the river north of this city. Hoff, according to his confession, was angered because his wife insisted upon taking morphine. They were returning from Indianapolis Oct. 22, and when crossing the bridge Hoff says that his wife started to take morphine. He said, "Did you take any more of that stuff?"

"Mind your own business. My bones ache. I will take some if I want to," she answered, according to Hoff. "You might as well be dead as take that stuff," retorted Hoff, and pushed her off the bridge. Hoff found a box such as is used in selling powders.

MME. STEINHEIL DEJECTED. Prosecutor's Outline of Her Alleged Crime a Crushing Arrangement.

Paris, Nov. 11.—That Mme. Steinheil, aided by an unknown accomplice, murdered her husband to obtain freedom to wed wealthy infatuated Maurice Borel, but that the killing of her stepmother was an unpremeditated incident to the tragedy, is the theory of the state as outlined in court this afternoon. Driven to desperation by her financial and domestic situation, the judge advised, contended, the madame saw in Borel her savior, with whom, one day of her husband, she could live in luxury. Throughout the crushing arraignment today, the woman sat with her head dejectedly buried in her arms.

TIGHT MONEY PUTS TRADERS IN DESPAIR

New York Banks Scale Down Loans, and Europe Locks Up Its Strong Boxes—Liquidation Is the Inevitable Consequence, and the Prices of Stocks Suffer in General.

New York, Nov. 11.—The money position was the dominant influence in stock speculation again today. The retention of the 5 per cent Bank of England rate was accepted with much satisfaction, but influence of this on the money market was short-lived. A violent drop in the sterling exchange rate at Paris, added to the tightening money situation at New York, had the effect of depriving the speculative contingent of the hope of recourse to other sources to replace the credits which were being withdrawn.

The export of gold, the absorption of cash by the sub-treasury operations and the renewal of the requisitions on New York from the interior for currency have depleted the slender surplus reserve of the clearing house banks to a point which is not looked for beyond the bank account in an attempt to avoid the exhibit of a deficit in this week's bank statement. When the money rate began to rise at New York in response to the first demands of the interior for expansion purposes, the interior banks themselves began to hoard, safe to take advantage of the higher interest rate. This relieved the requirement upon the New York banks. Now, in connection with the further call for cash from the interior, there has been some scaling down of the loans placed direct for interior banks in the stock market. The clearing house banks, in the depleted condition of their reserves, are not in position to take over these loans. A halt in the speculative activity in stocks seems the inevitable consequence of these conditions and the unpromising outlook thus implied for capital flotations.

The rumors of an early offering of St. Paul debenture bonds gained credence from the application of the company to add to the stock exchange "from time to time" but prior to the \$22,000,000 additional of such bonds on the official notice of sales, besides the \$28,000,000 of the total authorized issue already sold. Amalgamated Copper showed resistance to the prevailing depression. Some buying of calls on this stock were reported at London and Paris.

Zurich, Switzerland, Nov. 11.—The national bank today raised its discount rate to 4 per cent.

PROMOTIONS THE ORDER. General Grand Chapter of the Royal Arch Masons Elects Officers.

Savannah, Ga., Nov. 11.—Promotions were the order in the election of the officers of the general grand chapter of the Royal Arch Masons today. The following were elected: General grand master, Nathan G. Kingsley, Grand secretary, Nathan G. Kingsley, Grand treasurer, Nathan G. Kingsley, Grand chaplain, Frederick W. Craig, Des Moines; general grand captain of the host, Wm. F. Kuhn, St. Joseph; general grand principal sojourner, Bester G. Brown, Topeka; general grand royal arch captain, Chas. R. Rex, Hot Springs, Ark.; general master of the third veil, J. Albert Blake, Boston. The general grand masters of the first and second veils, the only contested officers, will be elected tomorrow. Major H. D. Hamilton of New York and L. A. Goodall of Illinois are being championed for the vacancies.

BOY BANDIT DOES MURDEROUS WORK

With Revolver in Each Hand, Thomas Hall of Louisville Enters a New Albany (Ind.) Bank and Begins Shooting.

Cashier Is Killed and the President Is Badly Wounded—Rushing from the Building, the Youth Next Shoots and Fatally Injures a Negro Chauffeur—He Is Captured and Is Rushed to the Penitentiary to Escape a Lynching.

Louisville, Ky., Nov. 11.—With a revolver in each hand, a young man, who has partially been identified as Arthur Hall, of Louisville, a dealer in second-hand wares, entered the Merchants National bank at New Albany, Ind., today, commanded everyone to throw up their hands and "get into the vault," and then began shooting. J. Hungary Fawcett, the cashier, was shot dead; John K. Woodward, president of the bank, was shot through the liver and is in serious condition, and James R. Tucker, a negro chauffeur, of Louisville, was shot through the body and fatally injured.

Following the shooting, the murderer rushed from the bank and tried to escape in an automobile which he had taken from the curb in front of the residence of his owner, Mrs. Walter Escott, of Louisville, forcing the negro chauffeur to drive him to New Albany. But the chauffeur, paralyzed with terror, sat still. The robber jumped from the car and ran through the negro's body. The youth then ran two blocks to the river bank, appropriated a skill and started for the Kentucky side before the citizens of New Albany knew what had transpired.

Police Strategem Prevents Lynching. The New Albany police started in pursuit in a fast motor boat and captured the man, bringing him ashore, where he was confronted with the peril of lynching. Captain Adams, of the police, cleverly stood off a crowd of two hundred which had crowded around the dock as the police boat landed. Commanding the prisoners to lie down, the captain announced that the man had taken poison and was dead. Then he carried him to a patrol wagon and drove to the jail. A few minutes later the murderer was removed to the Southern Indiana reformatory at Jeffersonville.

The prisoner refused to give his name, and talked only under pressure. He seemed confused, but not insane. He confessed that he had planned to rob the bank. The bandit is good-looking, has red hair and his face is effeminate. He is not over twenty years old. Louisville, Ky., Nov. 11.—The bandit has been identified as Thomas Jefferson Hall. His father, who has a furniture store in this city, said that his son was only seventeen years old. He characterized him as a household tyrant and not insane. "He is simply mean," said the father.

CANADA TO DRAFT NAVY BILL. Parliament at Ottawa Convenes for a Six Months' Session.

Ottawa, Ont., Nov. 11.—The Canadian parliament opened today and the session will probably continue for six months. The chief item of business on the government program will be the bill under which the Canadian navy will be constituted. It will provide for a board of naval experts for the construction and management of the fleet.

There will be a good deal of tariff discussion, though legislation in this direction is not looked for beyond the bill to confirm the Franco-Canadian trade treaty. The possibility of the maximum provisions of the Payne tariff being imposed upon Canada if France is put on more favorable tariff relations with Canada than in the United States, will cause some serious talk, and a scattering of members on both sides will press the government to retaliate by putting the same surtax into operation against the United States that Canada has put to effect in the tariff act.

Europe, carrying a bid from Paris, will do both be stiffened in the direction of greater security. Provision may be made for the construction of a government railway to Hudson Bay and the opening of a commercial route to Europe by the Hudson Straits.

When parliament opened today, Governor General Earl Grey read the speech from the throne. The speech re-affirmed the position taken by Sir Wilfrid Laurier's government in the joint resolution of parliament adopted at the last session regarding the naval defense, which simply enunciates the necessity for Canada undertaking a share in the empire's naval defense, maintaining autonomous control of her own navy but working in harmony with the imperial navy.

WORK TO SAVE CHILDREN. New Haven, Conn., Nov. 11.—Prominent physicians and laymen gathered here today from all parts of the country for the sessions of the conference, beginning this afternoon, on the prevention of infant mortality, under auspices of the American Academy of Medicine.

At the opening session, papers were presented dealing with the medical prevention of infant mortality. Dr. J. H. Mason Knox, Jr., of Johns Hopkins University, presided.

"When thieves fall out," says the Philosopher of Folly, "honest men get a ride in the wagon."

THIRD WOMAN INVOLVED. New Complications in the Case of Defaulting Treasurer Warriner.

Cincinnati, Nov. 11.—The mystery enveloping the relations of Charles L. Warriner, the deposed local treasurer of the Big Four railroad, with two women and a man whom he asserts had blackmailed him for several years deepened today when it was learned that another woman not previously mentioned was involved. One of the Big Four officials stated that this woman apparently had no connection with the embezzlement, but could give important information regarding the disposal of the stolen money. Warriner is in feeble if not in precarious condition.

IS KILLED BY A TRAIN. Terre Haute, Ind., Nov. 11.—Willie trying to lift a wheelbarrow load of coal from the Evansville & Terre Haute track, Elias Littleton, aged eighty-eight, was killed by a passenger train here this evening. He was the grandfather of General Attorney Littleton of the Big Four road, at Cincinnati.

BIGAMIST GOES TO PRISON. Cleveland, Nov. 11.—Lucian Pickett, the convicted bigamist, today was sentenced to three years in the penitentiary and was fined \$1,500. Four women claimed to have married to him.

CHAUFFEUR AIKEN SHATTERS A RECORD

In a Furious Drive, Closely Pressed from Behind, He Covers Twenty Miles in a Stock Chassis Event on Atlanta's New Speedway in Sixteen Minutes and Forty-Three Seconds.

Atlanta, Nov. 11.—John Aiken, driving a National "forty," lower another American track record at Atlanta's speedway today. In a furious drive of twenty miles, closely pressed from behind, he set the new mark of 16:42.76. This is 0:11:04 better than Oldfield's record at Indianapolis.

George Robertson at last was able to enter a race and finish it. Yesterday and Tuesday he started in several events, but never lasted more than a lap or two, spending most of the time searching for an elusive defect. He withdrew his sixty-horsepower Fiat from the twenty-mile handicap at the end of the fourth mile, but started in the ten-mile handicap, which he won in a hard drive over Aiken and Harding, the latter in an Apperson, in 17:47.71. He repeated this performance in the ten-mile free-for-all handicap, although the time was slower, at 18:39.8. Disbrow, in a Rainier, won the twenty-mile handicap in the elapsed time of 17:36.15.

The twenty-mile stock chassis race furnished the most exciting race of the day. In the first four laps of two miles each, five entries were split apart, and three of them finished with only a few feet between them. Aiken, driving a National, led in the first and second laps, closely pressed by his team mate, Rineaid, and with Dingley and Lorimer, the Chalmers-Detroit team, close up. Although Aiken's margin was slight, he headed, he finished ahead in a new track record.

In the four-mile light car race, Matson, in a Chalmers-Detroit, finished first and his team mate, Knipper, second; Nelson, in a Buick, was third. Matson's time was 4:05.5, and Knipper's, three seconds behind.

HONORS GO TO BRITISHERS. Dorothy Campbell and Her Retinue Win More Laurels at Gelf.

New York, Nov. 11.—Dorothy Campbell, the British and American golf champion, with the other British players in her retinue, today at Englewood defeated a team of veteran players from the metropolitan clubs, winning three out of five matches. Miss Campbell defeated Miss Julia Mix, the metropolitan champion, winning her match with only one extra hole. Miss Frances Teacher, former Scottish champion, defeated Mrs. L. D. Patterson, seven up and five to go. Miss Joyce Spurling, of Englewood, playing with the English team, won from Mrs. S. F. Lefferts, of Englewood, one up. For the American team, Miss E. S. Hurry defeated Miss Stella Temple, of Englewood, four and three to go. Mrs. F. F. Sanford won from Mrs. C. T. Gray, of Englewood, six up and four to go. Miss Campbell announces that she will hereafter reside at Toronto and plans to play in the 1910 women's championship of the United States.

PARIS WANTS THE FIGHT. New York, Nov. 11.—"Kid" McCoy, the former pugilist, arrived tonight from Europe, carrying a bid from Paris to fight the Jeffries-Johnson fight.

"We hope to persuade the champions to fight in the Cercle De Paris next June, during the week of the grand prix," said Selby. "I am authorized to offer \$50,000 and other inducements."

Papke-Klaus Bout a Draw. Pittsburg, Nov. 10.—The best National Sporting club members could give Billy Papke, the Illinois Thunderbolt, after his fight of six rounds tonight at the Duquesne Gardens with Frank Klaus, the Pittsburg middleweight, was a draw. A large crowd greeted the boxers.

WILL WRESTLE AT BUFFALO. Buffalo, Nov. 11.—It is definitely announced here tonight that Gorch and Zybco will wrestle in Buffalo Thanksgiving night for the world's championship.

POOL CHAMPION LOSING. Kansas City, Nov. 11.—In the pool championship tonight, Houston scored 194 to King's 128. Houston now leads by 129.

FIRE AT THE STOCK YARDS. Chicago, Nov. 11.—Fire today destroyed the building in the stock yards used by the Armour company for storing fertilizers. The loss is \$200,000.

SENATE LEADER APPEALS TO PEOPLE

Mr. Aldrich Wants Aid in Placing the United States Ahead of All the Other Nations as a Financial Center.

A Guest at a Banquet at Des Moines, His Reception Is Most Cordial and His Allusions to Mr. Cummins Are Courteous—He Explains the Importance of Commercial Paper Abroad and Suggests Changes in the American System.

Des Moines, Ia., Nov. 11.—Senator Aldrich tonight addressed the Bankers' club on the necessity of the reformation of the banking and currency laws. His only allusions to Senator Cummins were courteous and being made in connection with a mention of the late Senator Allison, could not have aroused any but the kindest feeling. The bankers' dinner was given at the Savery Hotel. President Rounds presided. Mr. Aldrich's reception was most cordial. The senator declared that the growing importance of the West afforded the best reason why the people of Iowa should desire a stable banking system; he appealed to them to join him in devising a plan that would place the United States ahead of all other nations as a financial center.

Mr. Aldrich, explaining the importance of commercial paper in the European banking systems, said: "In Germany, all notes, taxed or untaxed, must be covered by an amount of specie equal to one-third of the total issue and an amount in bankable bills equal to the other two-thirds. These bills are what we call commercial paper. They must bear the name of two solvent parties, and must not run more than ninety days. In France, they have a provision that bankable bills must bear three names. In Great Britain, the custom is to require two names of English citizens, one of whom must be the acceptor.

"Our people use promissory notes, either with a single name or endorsers. No such thing is known in the ordinary experience of any of these countries. They do give a form of obligation with mortgages, sometimes with collateral, which perhaps is the closest approximation to our promissory note. There, if a dealer sells a customer any article, the wholesaler or merchant, whoever he may be, makes a draft upon the purchaser, and that draft is accepted and the paper is known as a bill of exchange. It is for real transactions; those bills are bankable, and are the foundations of the credit system in those countries.

"It is not the purpose of this commission to try to make Americans believe that any of these systems could be adopted in the United States; certainly not without very important modification. The habits our people, the relations between the banks, the borrowers and the depositors, the 25,000 independent institutions in the United States, all related to the development of various communities, must be considered, and no system can be adopted in this country that does not recognize the fact that the continuous existence of these banks and the prosperity of their business must be maintained.

"If we have any credit organization, we propose that it be the servant, not the master, of the existing banks. Any organization that we may adopt must be one fitted into the existing system. Any changes that are radical, and I am inclined to think that in some respects we will have to make some changes that will be scientific and radical in character, must be made with the view of adjusting them to our existing system."

MR. TAFT GOES TO MIDDLETOWN. Degree of LL.D. to Be Conferred on Both He and Mr. Sherman. Washington, Nov. 10.—President Taft started at 3:35 o'clock this afternoon for Hartford and Middletown, Conn., for a two-day trip. In the private car "Mayflower" are also Vice President Sherman and Attorney General Wickham. The vice president will accompany the president to Middletown, where the degree of LL.D. will be conferred on both of them by Wesleyan University. Mr. Wickham went as far as Philadelphia for the purpose of discussing with the president matters connected with his department.

PRESIDENT APPROVES PLAN. Pearl Harbor to Be Made the Great Naval Base in the Pacific.

Washington, Nov. 11.—The president has approved the recommendation of the joint army and navy board for making Pearl Harbor, Hawaiian islands, the great naval station in the Pacific.

APPOINTED CENSUS SUPERVISOR. Washington, Nov. 11.—Charles A. Lyman, of Dane county, has been appointed census supervisor for the Second district of Wisconsin.

PHILIPPINES' NEW GOVERNOR. Manila, Nov. 11.—W. Cameron Forbes today assumed the office of governor general of the Philippines. His formal inauguration will take place Nov. 24.

BIG SUM FOR MISSIONS. Albany, N. Y., Nov. 11.—The general committee on foreign missions of the Methodist church today voted to appropriate \$1,036,288 for foreign mission work the coming year.

DAILY MINING JOURNAL

Published daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Kaiser Wilhelm will not hazard his life in an airship. He conceives it to be too essential to the continued well-being of the Fatherland.

The head of the populists in Missouri would merge his party with the Democrats and insurgent Republicans and run Colonel Roosevelt for president.

It is hard to reconcile the report that influential mercantile interests in New York will seek the decapitation of Collector of Customs Loeb with the announcement that the Merchants' club, which includes in its membership some of the most influential importers in the city, has arranged a dinner in Mr. Loeb's honor.

We find the staid and conservative Boston Evening Transcript commenting in this wise on the Glavis-Balling exchange:

That the dismissal of Land Agent Glavis by Secretary Ballinger would not end the controversy over the alleged land frauds in Alaska seems certain from the first.

Chief Stewart, the new head of the Chicago police department, is finding out that the police chief in a large city, is not, of necessity, the "boss."

5% DEBENTURES. Running out to five years secured by first mortgages on improved real estate worth more than double outstanding debentures.

Superior Trust Company. HANCOCK, MICH. Capital and Surplus \$200,000.00.

his administration is to be a success they must be weeded out and better men put in their places. Failing this, Stewart will be pointed out as another man "broken" by the close organization with in police circles.

Captain Lewis, of Racine, the latest candidate for governor of Wisconsin, in his announcement to the people very frankly said that his is a case of the man seeking the office, and not the office seeking the man.

A serious setback has been given the anti-race track betting crusade in New York by the decision of the court of appeals that oral betting cannot be attacked under the terms of the anti-betting law.

This week the cabinet has considered how best to proceed to put a better face on things, and it is reported that it was decided that it is advisable that President Taft, in his message to congress, shall vigorously restate his proposition that his administration is dedicated to "ditching" the Roosevelt policies, and give other assurances to the disturbed states that the course of legislation is to be directed along the lines that they believe should be followed.

The common council at the Soo this week adopted a new saloon ordinance under the terms of which the number of saloons in that city will be reduced by two-thirds after next spring, i. e., on the assumption that the county does not go dry and vote the saloons out of business altogether.

There are many observers of railroad conditions in the upper peninsula who rather expect to see the Cleveland-Cliffs Iron company among the bidders for the Manistique & Lake Superior railway, formerly the Manistique, Marquette & Northern, which is to be sold for taxes at Manistique early next month.

\$100 REWARD. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity.

Address: P. J. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

\$1000.00 Given for any substance in junction to health found in food resulting from the use of Calumet Baking Powder.

VIEWS SOMEWHAT CHANGED.

It is reported, and on seemingly good authority, that members of the president's cabinet who accompanied him over some stages of the recent trip through the west and south, and even the president himself, have returned to Washington with their views of the sentiment in the west somewhat changed from what they were previous to the "swing around the circle."

The president and members of his party were close students of political conditions during the journey. On the trip down the Mississippi, on which there was an impressive convoy of governors and congressmen, they had a particularly good opportunity to form a judgment as to the prevailing sentiment.

William Loeb, Jr., in the few months he has been collector of the port of New York, has shown that it is his great desire and ambition to improve the efficiency of the administrative machine of which he is the chief and to cut out another side of it.

Does the sort of campaigning really foot any one? Particularly is it likely to fool either Secretary McVeagh or President Taft? A negative prediction may be ventured.

There are many observers of railroad conditions in the upper peninsula who rather expect to see the Cleveland-Cliffs Iron company among the bidders for the Manistique & Lake Superior railway.

There are many observers of railroad conditions in the upper peninsula who rather expect to see the Cleveland-Cliffs Iron company among the bidders for the Manistique & Lake Superior railway.

The Particular Smokers' Choice. La Verdad. Clear. We buy second cut Virginia Shag tobacco directly from the plantation.

way of the Cleveland-Cliffs Iron company's system now extends to within a few miles of the Shingleton terminal of the Manistique & Lake Superior and it is understood to be the plan to build a connection with that line.

READY TO SIGN UP ARTICLES.

Papers of Agreement Drawn Up for Harrington and Chapman.

The articles of agreement for the Cornish style wrestling match between Jim Harrington of Bismarck, Mont., and Sidney Chapman of Triniton have been drawn up satisfactorily to both men and will be signed today. The articles are as follows: "The contestants to wrestle Cornish style best two out of three falls, at the Calumet theater, Nov. 30, 1909, for \$250 per side and the gate receipts to be divided according to the agreement of the managers of both parties. Two shoulders and a hip or two hips and a shoulder to the mat shall constitute a fall. Only pitch falls go. No bridging will be allowed. Crossed arms over the body holds are also barred. Each party is to deposit \$25 as a forfeit for his appearance."

Harrington will wrestle at about 150 pounds and Chapman will weigh about 135. It is expected that the match is attracting great deal of attention, especially because the winner will probably meet John Rowett, Harrington is to meet a match with Zichr if the latter's arm gets back into condition within a month or six weeks, and Chapman is understood to be anxious for a match with the Calumet wrestler, Chapman is rapidly developing into a wonder in the Cornish wrestling game and experts in the game here predict a great future and championship honors for him.

SOUTH RANGE SUNDAY CLOSING.

Theodore Lieberman Arrested for Keeping His Store Open.

Theodore Lieberman was the merchant selected in establishing a precedent in this range, Marshal Basso swore out a warrant causing the man's arrest for keeping his store open on Sunday. The custom in the village has been to allow the merchants to use their own discretion in the matter. However, people going to church did not relish the idea of these places doing business on the Sabbath. Frequent complaints were made, and at last the marshal notified the store keepers to close their places of business Sunday evenings. Lieberman did not do so and was arrested. The merchant testified in court that he had been in the store Sunday working on his books and writing letters. People had come in, but they simply looked at some of the stock and had purchased nothing. A brother of Lieberman was then called to the stand. The second question put to him by the defense was "What are you doing in the store on Sunday?" Without hesitation, he answered, "Selling goods." Attorney Donohue argued that it would be detrimental to the town to close the stores on Sunday. Attorney Kerr argued that the law must be enforced. Lieberman was found guilty and assessed a fine and costs, amounting to \$21.95.

# S.S.S. THE REMEDY FOR SORES AND ULCERS

There is but one way to cure an old sore or chronic ulcer, and that is to remove the cause that produces and keeps it open. No matter where located, any sore that remains until it becomes chronic does so because of impure blood; the circulation constantly discharges its polluted matter into the place and it is impossible for nature to heal the sore. S.S.S. heals sores and ulcers by purifying the blood. It removes every trace of the cause, no local application reaches below the infected flesh at the spot, and for this reason can have no curative effect on a sore or ulcer; while such treatment is being used alone, the germs and impurities are constantly increasing in the blood and the sore is bound to grow worse. When S.S.S. has cleansed the blood and enriched and purified the circulation, the place begins to take on a more healthy appearance, the different systems and tissues are formed, and aided by pure, rich blood, nature provides a perfect and lasting cure. Under the tonic and blood-purifying effects of S.S.S., the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be greatly benefited by its use. Book on Sores and Ulcers and any medical advice free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

point of language, institutions, jurisdiction, religion and religion, forms one well-defined nationality. There are in the province a few more Russian-speaking inhabitants—some 5,000 at the most—and also Greek Catholics (about 40,000) than in other parts of Finland. The province counts about 300,000 inhabitants, or 16 per cent of the whole population of Finland. The incorporation of the province of Viborg with Russia has been urged for some time by the Russian reaction, and has undoubtedly been under serious discussion in government circles, though it is impossible to ascertain what stage the matter has actually reached. Thus new batteries, directed against Helsingfors, have been constructed on the forts of Sveaborg and that the Russian garrisons have been reinforced are generally interpreted in Finland as preparatory measures for the coup.

The following is an authoritative statement of the Russian government's slighted desire to annex the autonomy of Finland. It repudiates the claim of the Finns to dualism. Finland was a province of Sweden, and by virtue of the charter granted by Alexander I. became and remains an autonomous province of Russia. The establishment of constitutional monarchy in Russia necessitates the collaboration of the diet and the monarch in imperial affairs. This is to be done by parallel legislation, but it is safeguarding the rights of Finland. The Finns, however, desire to accept the situation, and seek in the question of the military grant a pretext for creating a deadlock.

The manifesto ordering the payment of a military contribution in novise exceeds the sovereign's Finnish prerogative. The leader of the Finnish constitutionalists, Senator Meehlén, himself suggested such payment in 1906. So separately the Finns invoked constitutional objections, and offered passive resistance, culminating in the wholesale resignation of the senate. The sovereign had the legal power to dissolve the senate, and entrust the executive to the governor general. A milder course was adopted in appointing Finns who were in the Russian service.

The undoubted existence in Finland of a revolutionary propaganda, and the violence of the socialist organs, taken in conjunction with the passive resistance above mentioned, left the government no alternative but to take the necessary measures, first, in order to protect railway communications; and, secondly, in order to help the local authorities in case of a revolutionary outbreak. Only one regiment of Cossacks has actually crossed the frontier.

The precautionary measures are construed by the Finns and by Russian Radicals as a preparation to reincorporate Viborg. No such plan has existed. The Russian government does not seek to curtail the lawful rights and liberties of Finland. But, in justice to the remainder of the empire, it considers that the Finns should bear a small part of their rightful share of military expenditures as well as the advantages attendant on their position as an autonomous province.

The intractable attitude displayed by the Finns does not warrant the hope of a speedy termination of the crisis. On the other hand, the government is convinced that its course is moderate and equitable, and is determined to adhere to it. Only in the event of serious disturbances will any departure from present policy be considered.

Dry's Prepare to Fight. The situation is now extremely interesting. The dry forces, believing themselves tricked, will put up a most energetic campaign, especially in Leelanau county. Grand Traverse's twin votes are springing and they believe that the wet workers wish to postpone the Grand Traverse county election so as to play a see-saw game year after year.

At the meeting this afternoon, the county was organized and all preparations made. In event that the adjournment is declared illegal and the January meeting is a special, the petitions will be available for the next regular meeting of the supervisors. Local opinion was defeated here two years ago.

The Copper Handbook is concisely the WORLD'S STANDARD REFERENCE BOOK ON COPPER. The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent more matter than the Bible—though not necessarily a better book because of its greater bulk. It is filled with FACTS of vital importance to THE INVESTOR, THE SPECULATOR, THE METALLURGIST, THE CONSUMER, THE MINER. PRICE is \$5 in buckram with gilt top, or \$7.50 in genuine full library morocco.

# COPPER

The New Edition of the COPPER HANDBOOK. Vol VIII, issued May, 1909, contains 1500 pages, with nearly 60 per cent more matter than the preceding edition. The chapters with fine descriptions and on statistics have been carefully revised and the bulk of the matter therein is ENTIRELY NEW. There are 25 chapters, covering Copper History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

# AGE OF STEEL MAY PASS.

The present rate of increase in the Use of Iron Ore Means Its Exhaustion Within Forty Years, Says an Unnamed Official. Pittsburg, Nov. 11.—It is announced by a prominent steel trust official that at the present rate of increase in the use of iron and steel all the commercial ore now in sight, or of which there is any knowledge, may be consumed within the next forty years.

Unless more deposits of this now universally used metal are meantime discovered, the world, or America in particular, may then have to pass out of and beyond the Age of Steel. The prospect is one of wide concern to all interested, producers and consumers alike.

The total production of iron ore in the United States in the twenty years from 1889 to 1908, inclusive, is estimated by the geological survey at 511,000,000 tons. This amount, however, includes only the ore that is mined and smelted, and does not include the 256,000,000 tons which have been produced.

There are estimates which show in sight about seventy-five thousand tons of non-available ore—or one not commercially usable under present standards of mining and manufacturing. Unless, therefore, some way can be found for using these very low grade ores there is much speculation among steel experts as to what material may take the place of iron.

So far as railroad rails and tools are concerned, there is no satisfactory substitute in sight. But with building it is different. The use of iron and steel in the framework of buildings is admittedly a fashion which may change. In Europe there is no such demand for iron and steel for building purposes as in America, where in Europe the sky scraper is considered not only an architectural masterpiece, but also as a symbol of construction which cuts off light and air, and therefore hurts the health of city communities, to say nothing of their dangers and disadvantages in fire and earthquakes.

For these and other reasons it is the consensus of opinion among architects and builders that sooner or later there will be a return to stone in buildings and in bridges.

IMPRISONED FOR SNEEZING. "An Alsatian eczema patient named Aime Hugelin, serving in the German artillery at Mayence, had the misfortune to sneeze at the moment when the non-commissioned officer was lecturing him and calling him a 'swindle-headed Frenchman.' Hugelin's explanation that he had a severe cold did not avail him, and he was sentenced to four months' imprisonment, a finding that has been upheld on appeal.—Straßburg correspondent Le Matin.

# LITTLE GOLD MONEY HERE.

People Call for Paper at Banks—Gold Deposits Are Kept, However.

A Calumet banker stated yesterday that very few people will take gold money any more, excepting those who have not been in this country any great length of time and who have not the faith in paper currency that Americans have. Every payday, he stated, gold is offered but it is usually spurned. Of course all the banks must keep a large amount of gold in their vaults for emergency cases.

Four silver dollars are accepted, otherwise and this part of the country is rapidly becoming more and more like the East in this regard. In the East it is rare that a silver dollar is even seen. It is not generally known that the government ceased to coin silver dollars five years ago, but it is so, and the only silver coins minted now are the dime, quarter and half dollar. In the West gold is a great deal more popular than here, but silver money is not used to any great extent. The government has not called in the silver dollars now in circulation. It is claimed that an every silver dollar minted the government made a profit of more than fifty cents, as there is only about forty-nine cents worth of silver in each of these coins.

A great many thousands of pennies are in circulation in the silver dollar now. It is hard to explain this. One bank recently received a shipment of \$100 worth of the new Lincoln pennies from the Philadelphia mint and had to pay something over three dollars in express charges. It is only on the new money that the banks have to pay the express charges. There was a demand for the Lincoln pennies, however, so it had to be done this time.

# Mining News

NOTES OF COPPER NEWS.

When the directors of the Grady company hold their next monthly meeting, scheduled for the 7th, it is not at all unlikely that the dividends, which have suspended since December, 1908, will be resumed. The company is turning out at the rate of 35,000,000 pounds of copper per 1,000 feet east of the shaft in the Wyandotte crosscut another amygdaloid has been encountered. It is well mineralized and drifts north and south continue to show good values, indicating that ledge may be of commercial quality. The crosscut will be continued east, as it is believed that something even better than the one last cut may lay beyond.

A dispatch from Houghton yesterday said: "Lake's stamp mill test finished and weighed up at 11 o'clock Wednesday showed results of exactly eighty pounds of mineral or 39.23 pounds of refined copper per ton of rock. The volume stamped was 165.5 tons, which yielded 13,257 pounds of mineral. In the estimation of the expert mill men in charge of the work this mineral contains 74 per cent refined copper, and figuring on this basis the product was equal to 9,817 pounds of metal. The mineral will not be sent to the smelter now, but will be stored until the Lake begins shipments, and then it will be sent to the smelter with the other, as it would be impracticable to smelt such a small consignment."

Since advancing its price for electro copper to 134, the United Metals Selling company has made large sales. Last week while the thirteen-cent price was in force enormous transactions were booked, and since the price has been advanced one-eighth there has been a slackening in values. The demand from both sheet rolling mills and brass factories is of the best, as both branches of industry have large orders on their books and the outlook was never better. Only the wire manufacturers complain. The demand for casting copper has

# LEINNONEN ON THE STAND.

Man Accused of Murder Testifies in His Own Defense.

Charles Leimonen, whose trial on the charge of murder is the feature of the November term of the circuit court, yesterday testified in his own behalf. He had preceded on the stand by Elis Karvaka, the man who is now a convict at Marquette under sentence for killing the victim of Leimonen's alleged crime. Karvaka had testified that Leimonen had jumped on Matsen, the victim, and had killed him. Leimonen denied flatly all that was said by Karvaka and could not admit that he had any part in the killing of Matsen. The case is one of the most unusual murder cases ever known in Houghton county. Karvaka, Leimonen and a number of companions were drinking together in the street saloons in Calumet. Some of them knew Matsen. They had never seen him before. Coming out of the Schultz saloon after an altercation with the bartender they encountered Matsen. The prosecution contends that the men were crazed with drink and were in a murderous mood. Matsen was the first object on which they could vent their spleen, according to the prosecution, and they jumped on him. The theory on which the officers have worked is that Karvaka knocked Matsen down and Leimonen finished him.

# TEMPLARS FIRST YEAR.

Palatine Commandery's Annual Banquet Held Wednesday Evening.

The first annual banquet of Palatine commandery, Knights Templar, Houghton, one of the largest gatherings of high rank Masons in the copper country in recent years, was held Wednesday evening in the Citizens bank hall. It was the original intention of the committee—C. V. Seeber, E. W. Probst, John Schell and H. M. Metcalf—to hold the banquet in the assembly at Masonic hall, but the number of acceptances of the invitation showed that the assembly was not large enough and almost at the last minute the larger hall was chosen. The banquet was for both knights and ladies and about 150 covers were laid. Templars from all parts of the county attended with their ladies and the affair was a brilliant one from every point of view. The hall was decorated with cut flowers and Masonic bunting and fire tables were decorated in a fitting manner.

While the knights and their ladies were discussing the viands the Twin City orchestra played a program of selected musical numbers. Following the banquet proper came a program of speeches and music. Sir Knight W. B. McLaughlin, commander of Palatine commandery, was toastmaster and responses to his calls for speeches were made by Robert H. Shields, of Houghton, Professor Fred A. Jeffers of Atlantic and Dr. E. T. Abrams of Dollar Bay. Miss Cameron of Hancock and Mrs. E. J. Frimoid of Houghton offered vocal solos and Mrs. Hanveck offered a vocal solo with a violin obligato by Mr. Hancock. Following the banquet and program the Twin City orchestra played a program of dance music which was joyfully enjoyed by the knights and their ladies.

# FITTING UP THE HOSPITAL.

Prisoners Will Be Utilized in Preparing Tuberculosis Retreat.

At the request of County Physician Jackson, Sheriff Byers is going to detail a squad of prisoners from the county jail within a day or two for the purpose of putting in the water main to the houses of the South Side Mining company, which are to be used as a tuberculosis hospital for indigent patients this winter. The prisoners will also be utilized in getting the houses ready for the reception of the patients. Only one of the houses will be used as a hospital at the present time, as the number of dance music which was reduced to a point which makes only one of the houses necessary. This house has been vacated by the tenants who formerly occupied it and Dr. Jackson is arranging to have it furnished as a hospital. The country's tuberculosis patients are living in tents near the detention hospital and while the present fine weather continues they are very comfortable. By the time the snow comes Dr. Jackson hopes to have them installed in the new quarters.

# TEMPLE FOR LAURIUM.

The members of Laurium lodge, Knights of Pythias, behind the movement to secure a temple of the Dramatic Order of the Knights of Klouassan state that they have received their charter and all necessary papers and will institute the temple Monday evening, Dec. 6. The new temple, which will be known as "Karazb" will have an initial membership of about 150, including several copper country knights who are members of Al Sirut temple of Duluth.

# PROPOSED NEW BALL LEAGUE.

Little Question That an Eight-Club Organization Will Be Formed.

Little talk concerning the proposed organization of a professional baseball league, under the protection of the national commission, has been heard during the past three or four weeks, but those behind the scheme have been working very hard for some time past. No real jacket people interested in the proposition are still in communication with Secretary Farrell, of the commission, concerning the granting of franchises for eight clubs in the copper country or the taking over of the franchises in this district formerly held under the old Northern-Copper Country league. An answer is expected from the national secretary as soon as he finishes his work with the minor leagues in the West and Southwest, which has kept him busy for some time past. No doubt whatever is expected in regard to obtaining the protection sought.

Not only are the people of the Portage Lake, Torch Lake, Calumet and Mohawk districts enthusiastic over the organization of the proposed league, but the ball fans and players of the range are also interested. Fans at the Atlantic, South Range, Painesdale and Triniton have assured the Calumet people that at least one team on the range would be a paying proposition, and it has been proposed that a park be built midway between Painesdale and Triniton. As plenty of fast and clever young players can be secured with little difficulty, the league organizers will consider this proposition carefully. With two teams at Calumet and Laurium, one at Wolverine, another at Mohawk and one with the Torch Lake and Portage Lake towns, Dollar Bay and the range in the circuit, there would be great baseball interest aroused.

The park proposition in Calumet seems a troublesome one at present. There is a probability that Athletic Park will be demolished as soon as the Calumet field is turned into a public park next spring, which will leave but one fenced enclosure in the district. The baseball people do not feel that they can pay the high percentage of taxes which the Laurium park people are therefor considering the advisability of using Catalonia field for some of the games, probably half or more of them. A canvas fence can be secured at the cost of probably \$800, for which the advantage of a probable \$1000, which will take up this proposition. The canvas fence is set up with tent poles and taken down and rolled up after each game. Wolverine will be the only team in the circuit with an unfenced field, for Mohawk is to have a new enclosed park next year.

# ISHPEMING FOOTBALL GAME.

Hematite City Boys Will Be Well Entertained While Here.

Posters have been gotten out by Manager Blas of the Houghton High school football team, announcing that "one thousand people are wanted at Saturday's football game." Houghton people generally feel that this is an important athletic event and every effort will be made to make it a success.

# VISITORS FROM MARQUETTE.

John R. Gordon, formerly representative from Marquette in the state legislature, is in Houghton on business. Dan H. Ball of Marquette, head of the Houghton legal firm of Ball & Stone, is in Houghton, attending the circuit court.

**City Brevities**  
Today's weather: Colder, with snow showers.  
Yesterday's temperatures: Seven a. m., 49 degrees; noon, 61; 7 p. m., 45. Maximum, 62 degrees; minimum, 43.  
Born to Mr. and Mrs. Andrew Early, Nov. 9, a seven and one-half pound daughter.  
St. Mary's guild will meet this afternoon with Mrs. L. E. Reidinger, 115 East Hewitt avenue.  
Mrs. J. H. Reynolds of St. Ignace was called to Duluth last night by the critical illness of her sister, Mrs. J. H. Daly, in that city.  
As the Lyman H. Howe company will not arrive until late this afternoon there will be no matinee performance in this city.  
The Woman's society of the Presbyterian church will meet with Mrs. R. A. Manhard, 720 North Front street, at 3 o'clock this afternoon.  
Louis Reubens of Richmond township yesterday brought a wolf pelt to the county clerk's office for which he obtained a bounty of \$27.  
The Ladies' Aid society of the Methodist church will meet this afternoon at the home of Mrs. Ed Mitchell, corner Spruce street and Hewitt avenue.  
N. R. Hughes, of the Duluth fish hatchery, who has been superintending the gathering of spawn here for the last few weeks, returned to his home last evening.  
The Handford fishing outfit, which was recently purchased by a Bay City firm, went into commission yesterday. Captain Cardinal of Baraga will be in charge of the crew that will fish for herring.  
Deputy Marshal E. D. Mosher returned yesterday from a trip to Iron Mountain, Ironwood, Calumet and Ishpeming, where he subpoenaed witnesses in the Wallace H. Hopkins case, which is now on trial in Chicago. Hopkins is accused of fraudulent use of the mails.  
C. H. Harrison Gets License—Thirty-eight non-resident and 720 resident hunters' licenses have been issued to date from the county clerk's office. Among the non-residents who obtained a deer license yesterday were Carter H. Harrison, ex-mayor of Chicago, and party of five, who intend to hunt on Grand Island.  
Several Deer Brought In—Four deer were brought into Marquette yesterday on the train from Big Bay, which appear to have been the first kill of the season. The lucky hunters were Charles J. Lawrence, E. J. Sink, Andrew Hart, and Ed Watson. Charles Lawrence presented the first deer of the season into Marquette last year, which is evidence that he must be some hunter.  
Vessel Captain on Trial—Captain Henry Peterson, of the steamer Shenango, was on trial for alleged violation of the pilots rules, before Inspectors Gooding and York yesterday. It is claimed that Peterson violated rule 8, in that he passed another vessel without blowing his whistle as is required. The inspectors still have the case under consideration.  
Robert Ullman Dead—Robert Ullman who has been an inmate of the state hospital at Newberry for the last fifteen months, died at that institution yesterday, and the remains were brought to this city last evening for funeral and interment. Mr. Ullman was employed by the Upper Peninsula Brewing company for many years. He leaves a wife and two children, who reside on West Bluff street.

**Meigs-Jopling Nuptials**—Cards of invitation have been received by Marquette friends of the contracting parties to attend the wedding of Miss Sara Perry Meigs, daughter of John Forsyth Meigs, to Morgan White Jopling of Marquette at the church of the Nativity at South Bethlehem, Pa., at half after twelve o'clock on Tuesday, November 23. The bride-to-be has many friends in Marquette, having frequently been a visitor here as the guest of Miss Jopling.

**Where Is the Flag?**—An old soldier remarked yesterday that the American flag was not floating above the school buildings of this city every day school was in session, as is required by the Michigan law. He stated that it was the exception rather than the rule to find a flag over the schoolhouses in Marquette, and, on the other hand, in traveling through the lower peninsula, he had noticed the flag flying from practically every schoolhouse.

**Taxes Have Varied Widely**—At this time when taxes are receiving considerable attention owing to the amount which has been levied for various state purposes, there are interesting figures in the auditor general's office showing the gradual increase since the state was established and the first levy spread in 1838, which amounted to \$85,000.35. This year the tax levy was \$3,929,719.74. During the years since the organization of the state a total of \$88,490,795.87 has been levied for the expenses of government. In 1841 the levy had increased to \$103,000, dropping back to less than \$75,000 until 1848, when it increased again to over \$100,000. In 1853 only \$10,000 was raised, which was the smallest tax levy in the history of the state. The next year it had increased to \$30,000, the following year \$40,000, and in 1859 it jumped from \$85,000 to \$202,000, which probably created as much commotion in the state as did the levy when the next legislature, in 1861, when the war came on, the levy was \$164,000, running about that amount until 1865, when it increased to \$642,000.

**INSURE WITH PETER WHITE & CO.**  
The old, old story, told times without number, and repeated over and over again for the last 36 years, but it is always a welcome story to those in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by The People's Drug Store.

**Class! Orders filled promptly and accurately by Kelly Hardware Co.**  
(10-23-1f)  
Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by The People's Drug Store.

**BREAKWATER PROJECT SHOULD BE URGED**

**IMPROVEMENT OF HARBOR WOULD MEAN MUCH TO BUSINESS INTERESTS OF MARQUETTE, SAYS LOCAL MERCHANT.**

"Marquette people are strangely apathetic concerning the proposed extension of the breakwater, plans for which have been drawn up by government engineers," said a local business man yesterday. "This is an improvement which will be of very material benefit to the business interests of the city and it is not likely that the necessary appropriation will be made at the next session of congress, unless the voice of the people is raised more vigorously in its behalf than has been the case to date."  
"Many people seem to have the idea that the vessel owners and shipping interests are the only ones who will be benefited by the breakwater extension. This is entirely erroneous. To have a first class harbor of refuge at Marquette means more business to every merchant in town. In the first place, whatever helps the shipping interests means more business for everybody and that alone should stir up the people to active and organized effort toward getting this improvement, which is now within our grasp."  
**More Business from Vessels.**  
"Another advantage of an improved harbor is that more vessels will come here, especially in time of storm, and the city will get more business from the men on the boats. This year the vessels have done more trading in Marquette than ever before, which fact is probably due to the marine strike which has made many of the boatmen afraid to go ashore at the lower lake ports as freely as formerly. In consequence, they are doing a good share of their trading at the upper lake ports, and, according to their own statements, they have found that their purchases could be made just as reasonably here as elsewhere. Now that the marine men have started trading here, it is a class of business that we may expect to increase, and the more boats that come here the more of that kind of trade we are going to get."  
"Under present harbor conditions, many of the largest vessels never come to Marquette, but once the breakwater is extended so that they can enter and move about in the harbor with safety, there is no reason why the big boats should not come to this port as well as to Duluth or other Lake Superior shipping points. The extension of the breakwater means that Marquette will rapidly increase in importance as a lake port and every loyal citizen should plug for the improvement. Here is a benefit that can be had without it costing us anything but it is necessary that we should take such action that congress will know that we want it. It is high time that the citizens of this city get busy in this matter."

**THEATRICAL**

**Howe's Moving Pictures.**  
The almost incredible hardships, the difficulties and dangers that lie in the paths to the North pole will be reproduced by Lyman H. Howe in the opera house tonight. The scenes are guaranteed to be absolutely authentic in every respect. Crossing log rafts with the dogs and shipping the dogs and ponies are the opening views. Then the good ship is shown crushing its way through the ice pack, and finally when frozen solid in that further progress is impossible, the dogs and ponies are unshipped, sledges are packed, and snow is hauled in for the water supply. A walrus is cut up to feed the dogs, the pony sledge train lines up and then the heroic dash for the pole is made through the great white lifeless wilderness of polar ice. It is a graphic revelation of the vicissitudes and exciting adventures in the Arctic seas. The scenes and incidents may well arouse American patriotism at sight of the heroic grit and perseverance displayed.  
The week of aeroplane races in France was a week of wonders which are also included in the program. The novelty of the spectacular yet actual flight keeps the mind busy trying to adjust itself to man's new achievement, shown as one of many other big features included in one program.

**Upper Peninsula**

**Wants Damages of \$15,000**—John White of Iron River has begun suit in Menominee county for \$15,000 damages against the Chicago and Northwestern railway for personal injuries. He was working on a car unloading coal when the train suddenly started and he fell, striking the girders of the trolley. He was so badly hurt, it is alleged, that he has become permanently paralyzed and blind.  
**New Trial Is Refused**—Judge Knappen, of the United States circuit court at Grand Rapids, has denied an appeal for a re-trial in the case of J. E. Parsille vs. the Woolworth Land & Lumber company. Mr. Parsille sued the company for \$5,955 in the United States district court at Marquette. The defendants won and Attorney M. M. Larmonth, for the plaintiff, argued for a re-trial.  
**Is Severely Burned**—Al Buelow, a well-known barber of Menominee, was badly burned yesterday in an explosion. He has a gasoline lamp in his shop for heating water. It began to flare and he picked it up and attempted to throw it into the street. Before he could do it there was an explosion. The shop was set afire and Buelow was severely burned about the arms and face. He will be incapacitated for two weeks or more.  
**Will Challenge the Winner**—The Menominee high school football eleven will challenge the winner of the Houghton-Ishpeming game to be played Saturday for the championship of the upper peninsula. The Menominee boys feel grieved over the fact that they lost the game to Houghton last Saturday by the score of 19 to 11, and believe they can demonstrate that prowess in a friendly game with the winner of the Houghton-Ishpeming bout. They accord-

ingly will ask for a game, not for the championship but simply to determine competitive strength.  
**Shocking Conditions Found**—The population of the little village of Ogontz, Delta county, is soon to be materially decreased when between ten and fifteen Indian girls are to be committed to the government school for delinquent Indian children at Mount Pleasant, Mich. Under Sheriff Timothy Curran recently made an investigation of the shocking conditions existing in that community and has informed the government authorities. He has recommended that a large number of Indian girls, all of whom are given practically no assistance by their parents, are candidates for that institution and should be sent there at once. It is claimed that less than 5 per cent of the Indian girls at Ogontz, below the age of sixteen years, are able to read, write or speak the English language with any degree of proficiency.  
**New Saloon Ordinance Adopted**—A new saloon ordinance was adopted by the common council of Sault Ste. Marie this week, and it is now a law of the city. The salient features follow:  
Limiting the number of saloons.  
An increase in the license from \$500 to \$1,000.  
Two convictions to forfeit license.  
Aliens, convicts and women barred from taking out license.  
Persons engaged in the saloon business not eligible as surety on a liquor bond.  
No person can become surety on more than one bond.  
There are other features about the new ordinance, but the above are brought out prominently. As adopted, the measure provides that not more than one saloon license for each 500 inhabitants shall be granted, which means that the number will be limited to twenty-one, a population at the last state census being 10,800, and the state law allows for no fraction. This will cut the number of saloons in the city over two-thirds and at least forty persons now in the business will be forced out so far as the Soo is concerned.  
The measure seems to meet with the approval of the liquor dealers and the residents of the city in general, and it is believed will do away with much of the existing evils which have brought the saloon in such disrepute.

**Wisconsin & Michigan Road**—The Wisconsin & Michigan road, which is stated to be sold for three years' taxes, amounting to \$43,579.18, covers an area of 121 miles, running through Marinette county in Wisconsin and Menominee and Dickinson counties in this state. Marinette has eighty-four miles of track, Menominee thirty, and Dickinson twenty-four. The road starts at Peshigo Harbor in Marinette county and runs through to Norway in Dickinson county. Originally there was a railway line, consisting of four boats, which ran between Menominee and Illinois ports, but early this year three of the boats were sold. The remaining one was discontinued last Sunday and is now lying in Chicago. This also will be included in the sale. The road was built about thirty years ago by John Bagley, then a well-known lumberman, with extensive interests in the territory in which the railroad operated. About ten years ago he disposed of his holdings in this part of the country and went South to engage in the lumber business. The road was acquired by the Walsh interests and has been held by them ever since. It has always been considered a paying investment as the territory which it taps is in the heart of the timber district.

**Ghostly Mystery Solved**—More than one sleepless resident of the district in close proximity to the court house at Escanaba has given utterance to just complaint many a night during the past few weeks. No matter how snugly one piled the blankets over his head, the ghostly sound of a bell, rung uncertainly as if by groping hands, sounded perhaps so softly that the reverberation scarce rose above the rush of the winds, then so loudly and sharply that it seemed to come from some corner of the darkened bed chamber. The peculiar tone, heightened perhaps by the mysterious origin of the sound, but still unlike any bell ever heard before, lent an uncanny sensation that went well with the howling of the night wind and the tossing of the bare branches of the trees. Four generations ago there would have been little discussion over the bell; it would have been put down as the work of witches and other kindred spirits of unholly nature. But the present day generation being of a more enlightened character, in this respect at least, investigated and the mystery was uncovered. The big steel flag pole which was lately erected in the court house square is hollow. From the top to the base run four steel cables or halyards. When the wind reaches a certain velocity these cables are blown away from the pole, when the gust is broken they snap back again and the pole being hollow gives off the ring that has disturbed so many slumbers. In the multitudinous noises of daylight hours the sound passes almost unnoticed, but in the quiet of the night it spreads throughout the entire neighborhood and for a time threatened to disrupt the restful hours and over-work the imagination of tired citizens.

**FINNISH BOWLERS WON.**  
Team No. 3 and the Finmas met in 2 league contest at the bowling alley last evening, and the Finmas won, the score, with the handicaps included, were:  
Team No. 3— Tot.  
Hannell 159 192 140 491  
Jansson (sub) 131 139 189 459  
Fennessy (sub) 185 173 126 484  
Lowe 185 160 191 534  
Anderson 189 176 133 498  
Totals 867 840 779 2486  
Finmas— Tot.  
Savola 173 198 164 535  
Maki 175 173 159 507  
Fallback 179 175 199 553  
Parkkila 195 183 181 559  
Peterson 141 201 123 465  
Totals 861 830 826 2617  
The Finmas took two out of three games.

**NOTICE.**  
All persons having claims against the late Carl Frieze are requested to send them at once to Julian Kimbell, 915 N. Fourth St. (11-6-1w)

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by The People's Drug Store.

(Additional Ishpeming on Page Seven.)

### PHILIP KENNEDY BUNKOED BY PARTNER

FORMER ISHPEMING MAN AND TWO ASSOCIATES ARE FLEECED IN BROKERAGE BUSINESS.

Philip Kennedy, who was associated with the Madden-Rodce company for some time prior to its failure, and who managed its Ishpeming office before Wallace H. Hopkins took hold of it, was recently fleeced out of a large sum by Walter R. Greenlaw, one of his business associates, in a Milwaukee firm. Greenlaw, it appears, was leading a double life, having supported wives in two different parts of the city for two or three years. A few weeks ago he sold out the Worthingham Footbren company, in which he, Kennedy, J. D. McMurray and W. G. Worthingham, were financially interested, took all of the money obtained in the transaction and left for California, where he was arrested last Tuesday.

The Worthingham company was incorporated by Messrs. Worthingham, Kennedy and McMurray, and was capitalized for \$50,000. Greenlaw sold out the concern's interests to the Universal Machinery company of Milwaukee, for a consideration that has not yet been made public. It has been found that immediately after making this sale the money was turned over to Greenlaw, who, with his "ability," a Miss Elsie Scott, left at once for California, leaving his wife behind. Greenlaw's personal interest in the Worthingham company is said to have amounted to only \$8,000.

Greenlaw lived with Miss Scott in luxurious apartments on the East side, where they were known as Mr. and Mrs. George Gray. So far as his neighbors in that part of the city knew, Greenlaw was not engaged in any particular business, but they observed that he always had plenty of money and that he was a jolly good fellow. In another part of the city he went under his right name and it was generally known in his neighborhood that he was in the brokerage business. He was arrested at Los Angeles on a warrant sworn out by Mrs. Greenlaw and W. G. Worthingham, the former charging him with abandonment and the latter with grand larceny.

How Greenlaw Lived Double Life. Two years ago while traveling in the West Greenlaw met Elsie Scott, who posed as his wife under the name of Mrs. Gray. While at Los Angeles it is said that he was constantly in the company of this woman for three months, during which time it is alleged that he spent much money. Finally, his money gave out and in desperation he wrote to his wife whom he had left in Milwaukee for enough money to pay his way home. Faithful to him, she pawned her jewels and sent him the proceeds. This money, it is declared, was used by Greenlaw, not only to pay his own fare back to the city, but also the fare of Miss Scott, as well. The fact that Greenlaw was leading a double life did not become known to his business associates until after he had sold them out and pocketed their money. Greenlaw, in order to hide his guilt from both his real wife and his affinity, divided his time between the two homes and his absence from each was usually explained on the plea of business reasons.

Will Sue for Divorce. Mrs. Greenlaw declares that she will never live with her husband again, that she will press the charge of abandonment against him to the limit, that she will sue for divorce and that she hopes that any other who may have any claims against him will prosecute him. She is quoted as follows: "I think my husband is crazy over this woman. This is the first serious trouble that we have had during our entire married life, and we have been very happy together. But I am through with him for good. I have been asleep for the last three years, but I have awakened at last. "Six years ago my husband left the Wisconsin Telephone company to enter the mining brokerage business. This necessitated his taking trips to the West, and on one of them he met this woman, whose name, I understand, is Alice and not Anna, as one account stated. Before he returned she sent him some affectionate letters, which, thinking that they might be important, I opened. When I showed them to him he said that they were an echo of an experience he had had while away, and asked me to destroy them. Knowing that such things are not uncommon when men are traveling, I thought little of it. "Three years ago, I understand, the woman came to Milwaukee, and since then has been staying somewhere on Wisconsin street. Ever since then he has been supporting her. He was never away at night and so I had no suspicion of what was going on. She has been wearing diamond rings that I pawned to send him money during one of his trips, when he spent \$2,000. "Last July I went to Seattle to visit our son, who is located there. My husband urged me to go, saying that he wished to move there and my visit would pave the way. I left on July 5. On July 3 he rented a house on Forty-first street under the name of Gray, and established his 'ability' there as his wife. He was to have occupied a rented room while I was away, but he has never been there since it was rented. While I was away he was frequently in down town cafes with her. "When I returned a month ago he was staying at the Blatz hotel. I was surprised at his cold greeting when he met me at the depot. He asked me, 'Where are you going?' I answered in surprise, 'To the room, I suppose.' "Three weeks ago we made an appointment to meet at 1 o'clock in the afternoon at his office. He was there at the appointed time, and I have not seen him since. I had but \$12 at the time he left."

### DEATH OF THOMAS J. RUSSELL.

Old Resident of Marquette County Has Passed Away.

Thomas J. Russell, who returned from California to this city some eight weeks ago, died Wednesday afternoon at the home of his daughter, Mrs. John Lloyd, 115 West Superior street. He had been a sufferer from pulmonary tuberculosis, and about four weeks ago he was stricken with paralysis. The deceased resided at Beacon for a number of years and had many friends in the western end of the county, though he was not very well known in Ishpeming. He was a native of Cornwall, Eng., where he was born in 1844. He came to this country in 1869, locating in Pennsylvania, where he remained until 1872, when he moved to Beacon to take a position with the Champion Iron company. He remained there until eight years ago, when he joined his son, T. J. Russell, and daughter, Mrs. James George, in California. He made the trip west principally on account of his health. While residing at Beacon the deceased was prominent in lodge affairs, having held membership in the Odd Fellows, Sons of St. George, and United Workmen, all of which societies have since been dissolved.

The deceased is survived by his widow, two sons, T. J. Russell of California and W. J. Russell of this city, and three daughters, Mrs. James George of California, Mrs. John James of the copper country and Mrs. Elsie of this city. The funeral will probably be held Sunday, though the arrangements will not be completed until today.

### CROCKER IN TROUBLE.

Former Ishpeming Attorney Is Wanted on a Serious Charge.

A special from Calumet to the Duluth Evening Herald has the following to say of Attorney M. H. Crocker, formerly of this city, who is alleged to have assaulted a copper country woman: "A warrant for the arrest of Attorney M. H. Crocker, on the charge of assaulting a woman, has been issued by a local court, and has caused a sensation. Crocker is not in town. A newspaper office here says he has left for Duluth on business but inquiry at the railroad offices fails to reveal that any ticket was sold him. Crocker was about sixty years old and has practiced in the copper country courts for many years. He has a wife and family here."

### ROOMING SKI SPORT.

National Secretary Hatter Speaks Enthusiastically of Tournaments.

The Chippewa (Wis.) Herald of the 5th contained a column and a half article, written by Axel Hatter, formerly of this city, who is the office of secretary of the National Ski association. Practically all of the clubs affiliated with the national association have taken preliminary steps for conducting their winter meets. It has been decided that the national meet, which is to take place in Colorado, will be held on Feb. 10 and 20. Its management, Mr. Hatter writes, has been placed almost exclusively in the hands of men of American birth, who are taking unusual interest in the sport. Of John C. Greenway, who is chairman of the arrangement committee, Mr. Hatter says: "John C. Greenway, who was a lieutenant during the Spanish war in the Rough Rider regiment, under Colonel Roosevelt, and who has been several years superintendent of the Steel corporation's mines in the Canisteo district, is holding a national tournament. His scaffold and hill on which the world's record, 128 feet, was established last fall by Oscar Gunderson, is the best scaffold in America. The national organization's year book for 1908 is in the hands of the officers of the various clubs. It will contain articles from Norway, France and other European countries, together with the full reports of all the important tournaments held in this country last year. The publication will be illustrated.

### DONATION FOR PASTOR.

Last Saturday evening the Epworth league of the National Mine Methodist church tendered their pastor a surprise in the form of a donation. George Brown acted as master of ceremonies, and, as the president of the Epworth league, welcomed the pastor and his good wife in an appropriate address. The evening was delightfully spent and the spirit of united co-operation manifest presages a prosperous year for the church.

### CARD OF THANKS.

Words can scarcely express the gratitude we feel to the many friends and neighbors, and the public generally, who so kindly, thoughtfully and generously assisted us in our late bereavement. We most sincerely, and from the deepest recesses of our hearts, say we thank you and may God bless you and reward you all for your kindness to us.

MR. AND MRS. WM. McNEIL.  
National Mine, Nov. 12, 1909.

### FROM MORGAN'S CURB LETTER.

"The opening in New York was higher and the prices held fairly well, on very light trading. Amalgamated advanced 1/2. There was a fair volume of trading in Boston, and this letter distributed than for some time past. Laska was the feature, advancing to 4 1/2, on heavy buying. The mill test premiums were reported at eighty pounds of mineral or sixty pounds of copper to the ton, which is twice as good as Wolverine and almost twice that of Calumet & Hecla. There was a very good market in Greene Cananea and Giroux. Boston Consolidated sold up to 16. The balance of the list was firm and the market was broader.

National Exploration was active on the curb, and advanced to sixty-six cents. The Fly stocks were again much in evidence. Casus was in demand at \$1, and Chief sold at 1/2 on a telegram from Mr. Fitch that it is now shipping fifty tons per day, netting \$25 per ton. The declaration of dividends yesterday by several of the Tintic stocks should attract favorable attention. We would buy Colorado and Grand Central.

The Wall Street Journal says: "The following is the most authoritative information we have been able to gather to date regarding the rumored copper consolidation, namely: That there will be an actual consolidation, but it will only be of the Amalgamated-Gale-Dean properties. Also that the Chippewa interests have agreed to enter into a working agreement whereby the price of copper will be maintained in the future at a level which will permit substantial profits to the entire industry. It is said that this agreement among the copper producers will practically take in all the large interests, except the Calumet & Hecla, that it will be international in scope, and that the Rothschilds will work in complete harmony with the American producers."

### McKinley Dnr . . . . . \$5 .20 Silver Leaf . . . . . .19% .20

Just out—"Butterick Fashions" for winter '25, including a free pattern. (11-11-24) JOS. SELLWOOD & CO.

### A STRONG CARD.

The Bijou theater has a good attraction for the last three nights of this week in Frank Spencer, who is one of the cleverest character comedians and impersonators who has appeared at the house since it opened. He presents a repertoire of high-class readings. He has a number of funny stories and his character songs are well rendered.

New Zulu Sweaters for Boys, Misses and Children; prices \$1, \$1.25 and \$1.50. (11-11-24) JCS. SELLWOOD & CO.

**POINTS TO WIN SUCCESS.**

Get rich in your own mind. Expect prosperity, believe the good things were intended for you. Assert your superiority to your environment. Make up your mind that you are done with poverty. That it will have to go from your personal appearance, your talk, and your home; that you are no longer going to be down and out, but up and in. Persistently set your face towards better things and with this new hope and self-respect, a reinforcing power will come to you. Clean up, brush on, talk up, look up!

Never say die, up and try! Getting money is better for foolishness than a bite of it. If you can not be a star, be a first-class glow-worm.

Fight against every influence which tends to depress the mind. A depressed mind interferes with the circulation of the blood and deranges the functions of the body.

This from Keats, cut it out, memorize it: "And as, in sparkling majesty a star Gilds the bright summit of some gloomy cloud; Brightening the half-veiled face of heaven on a star; So when dark thoughts my booding spirit shroud, Sweet Hope! celestial influence round me shed, Waving thy silv'ry pinions o'er my head."

Boneliness in a girl indicates that she is a great help to her mother.

### AN HONEST DOCTOR

Remarkable to his patient who had been cured by Lydia E. Pinkham's Vegetable Compound after his efforts had failed. "Mrs. Weber, I do not believe in patent medicines, but I will say that Lydia E. Pinkham's Vegetable Compound is the best medicine ever discovered for women. Continue to use it. This is another link in the long chain of evidence to prove the reliability of this standard medicine for women."

# ISHPEMING

### ISHPEMING IN BRIEF.

Mrs. G. G. Barnett entertained at whist Wednesday afternoon.

Mr. and Mrs. Roger M. Andrews of Menominee were visitors in the city yesterday.

Dr. G. G. Barnett left Wednesday night for Chicago, where he expects to spend a week or ten days.

Mrs. H. O. Young entertained the members of the Ishpeming, Negaunee and Marquette clubs yesterday afternoon at her home, corner Main and High streets.

Thermometers in the city yesterday morning at 6 o'clock registered fifty above zero. This was fifteen degrees warmer than it had been at any previous morning in three weeks.

Nam McMillan has been appointed representative in Marquette county for the Northwest, the new upper peninsula magazine published at Menominee by Roger M. Andrews.

The ladies of the Reserve Fund society of the Presbyterian church will be conducting a social this afternoon between 4 and 5:30 o'clock in the church parlors, extend a general invitation to their lady friends to attend.

W. W. Graft and wife are moving into their new home at North Lake. Their residence on Canada street will be occupied by L. Eaton and family. Mrs. Eaton and child, who have spent the past few weeks in New York, are expected to arrive home soon.

M. Coughley, former manager of the Nelson House, who gave up the position about a week ago, was here yesterday from Menominee. His son H. M. Coughley, who was clerk at the Nelson for some time, yesterday began work at the Van Dyke hotel in Minneapolis, which has 240 sleeping rooms.

Messrs. W. T. Potter, E. E. Scribner, Fred Tommeson, D. T. Morgan, J. D. Spitzer, C. T. Kruse and Manville Jenks have gone to Kruse's camp south of the city on a deer hunting expedition. They will be home within a few days by Captain Thomas Walters and Dr. V. H. Vandevanter. They expect to spend about ten days in camp.

Bert P. McKinnie and wife, Mrs. Tekla Farm McKinnie, will give a concert at the town hall at Beacon Saturday evening. Mrs. McKinnie sang there last year and she was greeted by one of the largest and most enthusiastic audiences that had ever assembled in the place. Their Beacon friends have assured them another large audience.

Mrs. Tekla Farm McKinnie and her husband, Bert P. McKinnie, will give a concert at the Bank hall at Gwinn a week from tomorrow night, the 20th, under auspices of one of the Gwinn church societies. Tickets will be fifty cents for adults and twenty-five for children and will be on sale at Rohrer's drug store.

The employees of the Oliver Iron Mining company will receive their checks for October on the following dates: Stegmiller mine, on Swanzy range, Wednesday, the 17th; Lake Superior Harb' Ore, shops and Section 21, Thursday, the 18th; Section 16 and Homotite mines, Friday, the 19th, and the Hartford Queen and Champion, on Saturday, the 20th.

The members of the Ishpeming High school football team, accompanied by Principal Phelps and Coach Watson, will leave tomorrow morning for Houghton where they

school team for the upper peninsula championship. There will be sixteen players in the squad. The South Shore has granted a party rate and the boys will leave for home at 10:40 Saturday morning, arriving here at 4 o'clock Sunday morning. They are to be entertained at a hop tomorrow evening.

**WILL DEVELOP NORTHEAST MICHIGAN.**  
Nine Counties from Bay North to Form Organization for That Purpose—"Pine Barrens" Rich in Natural Resources.

Bay City, Mich., Nov. 11.—To develop the agricultural, commercial and industrial possibilities of the country from Bay City to the Straits of Mackinac will be the purpose of an organization to be effected in Bay City December 2. The organization will embrace practically every county between Bay City and the Straits, and along the Huron lake shore, and the boards of supervisors of Alpena, Cheboygan, Roscommon, Crawford, Cheboygan, Iosco and Bay, have already appointed delegates from among the supervisors and county officials to attend the meeting here.

at a few points like Alpena and in Presque Isle. In Presque Isle county there are beds of solid limestone rock, a few inches of earth only having been removed, while along the Lake Huron shore the hills in many places show bare limestone cliffs. Lumber—the only industry that has been developed in all this region—has for many years to come because of the utilization of hardwood and the lower grades left after the "barrens" took out the finest pine. It is capable of still further development, although practically all the lumber is held by mill owners who are cutting their own holdings.

The definite purpose of the projected organization is to build up a good sized fund of contributions from all over the northeastern section of the state to be used in advertising and legitimate expenses are the same, comparison with the results from the irrigated western lands shows far more returns from "pine barrens" farms.

**OFFICER WARMLY COMMENDED.**  
Lieutenant Harrison Saved Life of Man Who Had Fallen Overboard.

Washington, Nov. 11.—Third Lieutenant P. H. Harrison of the United States revenue cutter Gresham is officially commended for "presence of mind and gallantry" in a recent incident. He was Acting Secretary of the Treasury Billings today. About noon of Nov. 10, the cutter was en route to Alaska. A power launch was making a landing at the foot of the ledge when a man, an ordinary seaman, acting as stern man on the launch, slipped and fell overboard into twenty feet of water. He struggled in the water, but being unable to swim was in imminent danger of drowning when Third Lieutenant P. H. Harrison, who was standing on the wharf awaiting the arrival of the launch, dived into the water and though hampered by his clothing brought the drowning man up to the surface as he reported the man with one arm. Lieutenant Harrison managed to get within reach of a boat hook extended to him by Charles Blankenship, electrician, by means of which both men were hauled out of the water.

Captain P. H. Cleworth, commander of the Gresham, indorsed the report of the rescue with the statement that "such heroic conduct and efficient intervention on the part of his resources are deserving of high praise and worthy of recognition." A commendative letter, in confirmation of the performance of duty calling for great personal hazard throughout a career just begun, but as an example set for others to strive to emulate.

Lieutenant Harrison has been in the service only a few months, having been appointed third lieutenant from Maryland, May 28, 1909. He is now in New York taking an examination for a vacancy in the next grade which happens to exist.

There is no beautifier of complexion or form or behavior like the wish to scatter joy around us.

## Hair Health

If You Have Scalp or Hair Trouble, Take Advantage of This Offer

We could not afford to so strongly endorse Rexall "93" Hair Tonic and scalp restorer if it were not for the fact that we were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic give entire satisfaction to the users, they would lose faith in us, and our statements, and in consequence our business prestige would suffer.

Therefore, when we assure you that if your hair is beginning to unaturally fall out or if you have any scalp trouble, Rexall "93" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

# Negaunee Department

## SINKING SHAFT A BIG UNDERTAKING

THE CLEVELAND-CLIFFS IRON COMPANY'S CONCRETE SHAFT AT THE NEGAUNEE WILL NOT BE FINISHED FOR A YEAR.

The sinking of the Cleveland-Cliffs iron company's new concrete shaft in the hill southwest of the Negaunee mine, and the work of equipping it with the most extensive job of its kind that has ever been undertaken on the Marquette range. Soon after completing the raise from a point 733 feet below surface, the company began making preparations for putting in the shaft.

The shaft is being sunk by the Negaunee cut, a shaft of the Erie Railroad company, which is building a new line for the Duluth, South Shore & Atlantic system, has put a cut through the Negaunee field for a distance of over a quarter of a mile, passing about 290 feet south of the shaft. The cut near the shaft is about twenty feet in depth. The Cleveland-Cliffs iron company is to strip the entire surface between the railway line and the shaft, also for some distance east of the shaft, in order to permit the installing of the spurs of the South Shore and Lake Superior & Ishpeming lines to advantage. The latter's track passes some distance to the northeast, where it enters the Negaunee mine yards.

The shaft is being sunk by the Negaunee cut, a shaft of the Erie Railroad company, which is building a new line for the Duluth, South Shore & Atlantic system, has put a cut through the Negaunee field for a distance of over a quarter of a mile, passing about 290 feet south of the shaft. The cut near the shaft is about twenty feet in depth. The Cleveland-Cliffs iron company is to strip the entire surface between the railway line and the shaft, also for some distance east of the shaft, in order to permit the installing of the spurs of the South Shore and Lake Superior & Ishpeming lines to advantage.

In sinking the shaft a large area of sand is to be removed, so that the frames for the concrete which will rest upon the ledge, some seventy feet below the surface, will be set on the best possible advantage. A temporary plant is now hoisting sand from the opening. A concrete mixer has been received and a station is being blocked out for it, about twenty feet below surface, immediately west of the shaft. A bed of suitable gravel 100 feet or so east of where the mixer will be located. The stripping of the gravel has been started, and it will be available as soon as the mixer is ready for operation. The timber frames that will be used above the ledge are now being made and the steel for the interior frames, around which the concrete will be placed, are on the ground. The shaft opening is now nearly fifty feet in depth.

At a point about 150 yards southwest of the shaft, the ledge has been encountered in the railway cut. It is about six feet above the surface of the roadbed at this point and is over 100 feet in length. It is not likely that the rock will be blasted out until spring. The new shaft will enable the Cleveland-Cliffs company to greatly increase the output at the Negaunee mine, as ore will be hoisted from both the old and new shafts. There will be practically no timber to speak of used in the construction of the new shaft, as the interior will be steel. It will be necessary to do much stopping from the bottom of the mine, as the raise cut through to the top of the ledge was comparatively small. The concrete will be put down in sections, from surface, and the rock and other material encountered in opening up the ground will be taken out below and removed through one of the drifts.

The location is an ideal one for a mine, as there is an extensive acreage of coal, and the best talent in the county will assist. Tickets will be sold in advance, and the money realized will be used for new equipment. The concert will be followed by a hop, for which there will be no extra charge. There are now twenty-eight members in the band.

Sweet and boiled cider at Haupt's grocery. (11-11-09)

**MUSIC OF VARIOUS NATIONS.**  
In the phonograph archives of the Vienna Academy of Science a collection of music and speech of many races and tribes in distant lands is gradually being formed. The most recent additions have been brought from Natal, and include selections of speech, song and music from Zululand, Nandi, Swazi, Matabele, Baka and other races.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. They will all the swelling and soreness by driven out of the tender, inflamed membranes. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be stopped when the catarrh that produces it is removed. Cleanliness, comfort and renewed health by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York.

Dr. A. W. Haidle will leave tonight for Ann Arbor to attend the regular meeting of the board of examiners in dentistry. The examinations will begin Monday and will continue through all of next week. Dr. Haidle expects to be home again a week from Monday.

The Columbia Automobile Insurance company, of which E. C. Cooley is the agent, has just issued a policy to John F. Falmer the full amount of the insurance he held on his automobile, which was destroyed by fire a few weeks ago. Mr. Smith was well pleased with the settlement.

Several hundred rails for the Duluth, South Shore & Atlantic Railway company's new line, being extended between this city and Eagle Mills by the Lake Superior & Ishpeming Railway company, have been stored in the Pioneer furnace yards. It is not expected that the rails will be put down until next spring.

## BULLET THROUGH WINDOW.

Men in Sam Stephens' Billiard Hall Startled Wednesday Afternoon.

A stray bullet came through one of the rear windows in Sam Stephens' billiard hall and bowling alleys in the Sundberg block Wednesday afternoon. The crash startled several men who were playing pool at the time. The bullet, which lodged in the bowling alley, came within a few feet of striking some men who were seated against the railing dividing the bowling alley from the tables.

The bullet was from a large rifle. As it was quite badly flattened it is thought that it struck a rail of one of the South Shore tracks immediately back of the building before striking the window. No gun report was heard and it is believed that the bullet must have traveled over a mile. It probably came from the bluff south of Gold street.

## CHIEF CONSOLIDATED.

President Walter Fitch Sends Encouraging News to Shareholders.

Walter Fitch, president and general manager of the Chief Consolidated company's mines in Utah, yesterday sent a message to the fifty-ton-a-day shareholders, stating that the ore shipped during the latter part of October had netted the company \$1,716. From that date up to yesterday the net earnings were over \$9,000 and the total net earnings up to this time were given as \$16,000. Mr. Fitch also advised that fifty tons a day are now being shipped from the mine, and that the net earnings are averaging \$25 per ton, representing a daily profit of \$1,250.

Since the Columbus Consolidated started to ship ore to the smelters a few weeks ago encouraging reports have been received from Mr. Fitch. In a letter written to one of the heavy shareholders here early in October he expressed confidence that the mine will give a good account of itself. He referred particularly to recent finds, in which the ore showed exceptionally high values in the assays. The ore deposits are looking satisfactorily and the work is being pushed along to the best possible advantage.

The company's shares have been very heavily traded in since the treatment of this city, though the price has not fluctuated a great deal. It is reported that a much of the stock coming out under \$1.50 per share is being bought up by those most heavily interested in the property and that most of the stock is coming from small holders. Several Negaunee men who secured large blocks of the stock when the company was organized are still adding to their holdings. Practically the entire 1,000,000 shares, for which the company is capitalized, have been issued. The par value of the stock is \$1 per share.

## BUILDING GOOD ROADS.

A Negaunee man who recently spent several days in Alger county was much pleased with the work being done on the roads there. L. E. Adams, former Negaunee man who is one of the Cleveland-Cliffs iron company's engineers, has been in charge the past few years. In the neighborhood of forty miles of roads have been rebuilt, and plans have been made for the construction of a considerable mileage next year.

## ANNUAL BAND CONCERT.

The Negaunee City band will conduct its annual concert at McDonald's Opera House on New Year's night. A committee has been appointed to arrange a program. Some of the best talent in the county will assist. Tickets will be sold in advance, and the money realized will be used for new equipment. The concert will be followed by a hop, for which there will be no extra charge. There are now twenty-eight members in the band.

## Sweet and boiled cider at Haupt's grocery.

(11-11-09)

## ATTACKS ON TARIFF ROUSE THE CABINET.

President Taft's Advisers Discover That the Insurgent Forces Have Unsuspected Strength.

Washington, Nov. 11.—The attitude of the president's prominent advisers toward the insurgent situation has changed during the long western trip. Several members of the cabinet have traveled great distances, with him. Postmaster-General Hitchcock, the president's chief political adviser, is one of them. Secretary Ballinger is another. Both these cabinet officers were naturally interested in reports of western hostility. Secretary of Commerce and Labor Nagel, also very much of a politician, traveled with the president down the Mississippi and had opportunities to learn the opinions of the governors and congressmen in the party.

All were pleased at the reception given to the president, but they found the people tremendously in earnest about the tariff. It has become authoritatively known that these influential observers were convinced that the dissatisfaction is widespread in that section and may become formidable. While the president's indorsement of the new tariff law is accepted as courageous, the possibility, at least, of its turning western supporters from him is now recognized. Some of his good friends have been asking themselves what he can do this winter to check this trend against him.

When the president was at Beverly certain western visitors warned him of the political turmoil in that quarter. Among them were owners of influential Republican newspapers in Chicago and Kansas City. He listened to their views attentively. One long afternoon conference was with Republican visitors who came to discuss this western situation. But the president felt that there might have been an over-emphasis of conditions. Not long afterward he expressed his cordial approval of Senator Aldrich at Boston and delivered his tariff speech at Winona. The president's opinion has now changed somewhat. Reports have been borne in upon him from so many quarters that he is wondering whether the tariff criticisms are likely to cease. A few months ago he believed they would.

New impressions of Speaker Cannon's unpopularity have also been brought back to Washington by official travelers. The president undoubtedly is well convinced now of the force of the assertion that the speaker will be a heavy load for the Republicans to carry in the congressional campaign next year. It is not believed here that the president will sever materially from his allegiance to the regulars. There is, nevertheless, a lively interest in efforts being made to modify the sentiment of progressives toward his administration.

Strictly fresh Blue Point Oysters, fresh from the coast. GEO. HAUPPT. (11-12-11)

### ONE HUNDRED ORE CARS PURCHASED

CLEVELAND-CLIFFS ROADS PLACE BIG ORDER WITH THE CLARK CAR COMPANY.

### QUICK WORK AT THE DOCK

Tests Have Shown That Cars Purchased Can Be Unloaded More Rapidly and With Less Men Than Those Now in Use.

After a series of tests extending over several weeks, General Manager Harris, of the Cleveland-Cliffs railroads, yesterday placed an order with the Clark Car company of Pittsburg for 100 steel rapid dumping ore cars, to be delivered in time for next year's business.

The result was a remarkably favorable showing for the Clark car, the regulation car being beaten decisively in practically every test, both in the time and the number of men required to discharge the cargo into the dock.

By using the Clark cars, the Cleveland-Cliffs company expects to considerably expedite and reduce the cost of moving ore from the mines to the dock another season.

The capacity of the Clark car is 100,000 pounds, and from a distance it is not materially different in appearance from the regulation steel car now in service on the L. S. & L.

HUNTERS' SPECIAL. Marquette & Southeastern Railway. As has been the custom in former years, the Marquette & Southeastern R'y will run a special train to Big Bay for the accommodation of hunters during the deer season.

NOTICE. I have a gentle family horse I would let some responsible person take for his care and feed for the winter.

### INSPECTORS USE THE AXE.

Three Suspensions Have Resulted from Sinking of Steamer Cowie.

Three suspensions have resulted from the sinking of the big steel steamer John B. Cowie in Lake Superior by the steamer Emma M. Scott in July of this year, with the loss of fourteen lives.

The collision occurred during thick weather of Whitefish point, and the Cowie went to the bottom in three minutes. The officers of the Cowie are suspended for infraction of rule 15 of the pilot rules, which says that steam vessels shall proceed at moderate speed in thick weather, and shall check to avoid a collision.

### LOAN EXHIBITION FOR NEXT WEEK

DAUGHTERS OF THE REVOLUTION TO EXHIBIT WORKS OF ART AND OTHER ANTIQUES IN OPERA HOUSE BLOCK.

An event of unusual interest to the people of Marquette, will be the Loan exhibition to be held next week, Wednesday, Thursday and Friday, by the Marquette chapter of the Daughters of the American Revolution, in the Opera House block.

Among those who have already consented to lend valuable paintings by famous artists, are Mrs. Miron True Roberts, Mogen Jopping, Mrs. S. R. Kaufman, Dr. Downing, and Mrs. George N. Corbin.

In view of the recently awakened art interest due to the formation of the art league, this opportunity of studying works of well-known artists, should meet with appreciative response.

### CAUSES OF DEFICIT.

Postoffice Treasury Improvised by Rural Delivery and Franking.

Expense involved in operating rural delivery and abuse of the franking system out of Washington are given by Postmaster John D. Mangum as causes of the increased deficit in the postoffice department's annual report just issued.

The franking privilege is greatly abused. It is all right to send out mail within reason, but at Washington the practice of sending out big packages and books by the boxfull is being carried out together too far, and it is no wonder that there is an increased expense each year.

For milk, cream, butter and butter-milk of superior quality, call up the Marquette City Dairy. Everything modern, sanitary and up-to-date. Bell Phone 223.

F. H. VANDENBOOM, Prop. (10-11-1m)

Poultry Sale. Five-month old Buff Orpington Cockerels in two well-known strains. Large flock to choose from. Prices reasonably low, considering lateness of the year. Apply early to

Mrs. A. M. Adams is receiving her fall and winter millinery. It's on display now. All are invited. 219 Blaker St. 10-1-6w

### SENATORS WERE TO MEET YESTERDAY

REPORTED THAT COLLECTORSHIP WAS TO BE TALKED OVER AT DETROIT CONFERENCE.

### DOES BURROWS FAVOR BYRNS?

Such Is Purport of Article in Detroit Journal—Friends of Other Candidates Believe He Is Still Holding Back.

With President Taft back on the job in Washington people who have been following the crooks and turns of the contest over the office of collector of customs for the Superior district are expecting that some decision will soon be reached in regard to it.

There has been much speculation but little definite knowledge in regard to the situation the past week or so, but it is understood that Senator Smith and Burrows were in conference about the office yesterday.

"Senator Burrows will arrive in the city this evening and it is expected that he will hold a conference Thursday with Senator William Allen Smith. Local politicians believe that the conference between the senators will straighten out the collectorship matter at Marquette, and that Senator Burrows will approve of Charles J. Byrns of Ishpeming, who has already been named for the place by Senator Smith.

"The matter has been hanging fire for some weeks and there has been a disposition in several sources to see in this fact a state of disagreement between the two Michigan senators.

"Friends of Senator Burrows, however, assert that there has been no friction over the matter, Wilson and Smith, and left the post vacant Senator Smith immediately announced that he favored the appointment of Mr. Byrns, who was a Smith supporter in the last senatorial fight. Senator Burrows decided that he would make no statement until he had heard the people of the upper peninsula. He communicated with a number of friends in the affected district, and it is believed that Mr. Byrns, while he is opposed by certain factions, is the choice of the upper peninsula for the place, and that he will add his endorsement to that of Senator Smith, thus assuring Mr. Byrns the place."

### Journal With Burrows.

As bearing on the above, it is of some significance that the Detroit Journal is supporting Senator Burrows for re-election, and is on friendly terms with him. This would appear that it ought to have fairly reliable information on the way he looks upon such important matters as the disposal to be made of the Marquette collectorship.

The candidates for the office have all done considerable work during the past ten days. The active aspirants are, besides Mr. Byrns, D. W. Powell and E. W. MacPherson, and the canvass for support that has been carried on has covered much territory outside Marquette county. Mr. Byrns, in particular, has been active, and has carried his campaign into the lower part of the state, among politicians and members of the legislature.

If the report that the senators have reached an agreement is true there is no reason why President Taft should not announce an appointment without delay. The appointment to be confirmed by the senate when congress convenes. But if the senators pull against one another for the office it might remain vacant for a period of several weeks.

Word of the outcome of the reported Detroit conference between the senators will be awaited with much interest throughout the county, where the situation is the subject of general discussion.

### 300 CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Nov. 11.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Zillah, Postigo, Goshawk, T.
