MARQUETTE, MICH., MONDAY, NOVEMBER 15, 1909.

PRICE FIVE CENTS.

FOUR HUNDRED MEN ALL DEAD OR DYING

Holocaust at Cherry, Ills., May Prove the Greatest Colliery Disaster in the History of the Nation.

EXIT SEALED BY FIRE, MINERS RETREAT TO REMOTEST ENDS OF THE WORKINGS.

For Many Hours Now They Have Been Subjected to the Smoke and Gases Which Fill the Various Openings, and That Life Could Exist Under Such Conditions Is Doubtful--However What Are Believed to Be Signals Are Heard, and These Give Hope That at Least Some of the Entombed Coal Diggers May Yet Be Rescued--Gathered at the Mouth of the Shaft Are Many Relatives of the Imprisoned, and the Scenes Enacted Are Pitiful.

Cherry, Ills., Nov. 14.—Nearly four hundred human beings—men and boys—were today feared, are dead or perishing in the St. Paul mine here, though Henry Burke, an official of the mine, tonight reported to President E. J. Earling of the Chicago, Milwaukee & St. Paul railway, which owns the colliery, that miners whose lives are over the southern end of the mine fell several consciousness of earth.

William Vickers, who was at work at the face of the mine, was one of the few who came out alive. For more than 200 yards, he crawled in the dark on his hands and knees, using a rail as a guide. At one point he was met by six or five miners, sitting in a row, who had given up the struggle and were waiting resignedly for death.

Escapes Death by Three Minutes. "When within one hundred feet of the mine mouth, I began to grow faint from the effects of the smoke and from exhaustion. The smoke was growing more dense every foot I progressed, and my courage was fast going. I pulled my coat closely about my face and, bending closely to the rail, struggled on.

DR. MOORE IS DEAD. Ironwood Physician Shot While Hunting Succumb to His Wounds. Ironwood, Mich., Nov. 14.—Dr. John R. Moore, who was accidentally shot while hunting a week ago, died today of his wounds. He was shot by a bullet from the United States Steel corporation here.

THE WEATHER.

Washington, Nov. 14.—The following is the weather bureau's forecast for Upper Michigan: Rain or snow in the east, snow in the west, Monday; much colder, Tuesday, cold and generally fair.

FORECAST OF THE NEWS.

Digest of Interesting Happenings Scheduled for the Present Week. Today, Sheriff Shipp of Chattanooga, Tenn., and his five deputies will appear before the United States supreme court for sentence for contempt. The case grows out of the lynching of a negro in March, 1906.

SENOR FALCON, CHIEF OF POLICE OF BUENOS AYRES, AND HIS SECRETARY ASSASSINATED BY A MAN WHO IS SUPPOSED TO BE AN ANARCHIST FROM RUSSIA.

Buenos Ayres, Nov. 14.—The chief of police of Buenos Ayres, Senor Falcon, and his secretary were assassinated today while driving in Callao street. A man, supposed to be a Russian anarchist, not yet identified, threw a bomb upon the carriage.

STATE TO GET \$50,000,000.

Washington, Nov. 12.—That the state of Minnesota will within the next half century receive \$50,000,000 in the form of royalties paid on the mineral deposits of that state is the confident assertion of George W. Simpson, attorney general of that state.

DEFEATS FRENCH CHAMPION.

New Orleans, Nov. 14.—Ad. Wolgast knocked out Henri Peit, the champion lightweight of France, in the second round before the West Side Athletic club this afternoon. A terrific right swing of the jaw put the Frenchman on the floor for the count of six in the first part of the second round.

BOY BANDIT KILLS HIMSELF.

St. Louis, Mo., Nov. 14.—For nearly an hour late yesterday a boy bandit, identified as Andrew Slander, wanted in connection with robbery of the bank at Rainey River, Ontario, engaged four detectives in a running battle extending over three miles.

DEATH OF "RAYMOND."

Washington, Nov. 14.—Raymond A. Patterson, for many years head of the Washington bureau of the Chicago Tribune, died here yesterday. Known under his pen name of "Raymond," he had been connected with the Chicago Tribune for thirty-one years.

MANY BOATS HELD UP.

Sault Ste. Marie, Mich., Nov. 14.—The canal officials have succeeded in removing the damaged gate of the Poe lock without any mishap. Work was immediately commenced to remove the upper gate which is to be replaced it.

ONE OF FORTY FENIANS.

New York, Nov. 14.—Augustine E. Costello, aged sixty, one of the forty Fenians who sailed from this country on the filibustering expedition in "Erin's Hope" in 1867, died last night at his home here.

BLIZZARD AT FARGO.

Fargo, N. D., Nov. 14.—Fargo today is snow-bound in the worst November storm in thirty years. Sixteen inches of snow fell, beginning yesterday at noon.

FEARFUL DISASTER IN THE EAST INDIES.

Colliding With a British Ship in the Vicinity of Singapore, the French Steamer Le Seyne Sinks Within Two Minutes.

Singapore, Straits Settlements, Nov. 14.—One hundred and one persons were drowned today when the mail steamer La Seyne, of the Messageries Maritimes service, running between Java and Singapore, and on her way to this port, collided with the steamer Onda, of the British-India line, and sank within two minutes.

OF THE 162 PERSONS ON BOARD THE ILL-FATED CRAFT, ONE HUNDRED AND ONE, AMONG THEM A NUMBER OF EUROPEANS, GO DOWN WITH THE VESSEL, AND THE OTHERS ARE RESCUED.

The victims were seven European passengers, including the Baron and Baroness Benzy, the captain of La Seyne, five European officers and eighty-eight others, comprising native passengers and members of the crew. The rescue of sixty-one persons, practically from the jaws of sharks, formed a thrilling incident of the wreck.

BOMB BLOWS THEIR CARRIAGE TO PIECES.

English Woman Fanatic Lashes Winston Churchill Across the Face. Bristol, Eng., Nov. 14.—Theresa Garnet, a suffragette, armed with a horse-whip, attacked Winston Spencer Churchill here yesterday afternoon. Mr. Churchill and his wife were leaving the railway station when the woman suddenly darted from a crowd and commenced to lash him with a rawhide.

MORE FOOTBALL FATALITIES.

Virginia University Player and an Ohio Boy Are the Victims. Washington, Nov. 14.—Injured in the same manner as Cadet Byrne of West Point, a Virginia football player was hurt in a game with Georgetown yesterday. The player was killed in the hospital. The injury was sustained in the last three minutes of the game.

CARELESS MINER BLEAMED.

That the prisoners retreated to the furthest ends of the veins was the statement of the miners who escaped. The latter included only those near the main shaft. They declared that a careless miner had thrown a torch on a bundle of hay used to feed the mules. Afterward two miners, Lewis, Enantoni and Rubinski descended. The next trip upward carried the bodies of six miners.

SHAFT SEALED WITH TIMBERS.

The fan collapsed, the fire was flaming out of the shaft. Superintendent Steele, as the escape through the shaft was blocked, sealed the shaft entrance as a last resort. Timbers soaked with water were then placed across the entrance and sand piled over them.

CHERRY PHYSICIAN A HERO.

One of the heroic rescuers, and who worked until, seared by fire and blackened by smoke, he was unable to longer continue his efforts, was Dr. L. R. Howe. Seven times before the other rescuers began to go down into the burning

PARIS JURY FREES ACCUSED WOMAN

Mme. Steinheil's Trial on the Charge of Murdering Her Husband and Her Step-Mother Results in Her Acquittal.

Paris, Nov. 14.—Mme. Margherita Steinheil was acquitted by a jury at 1 o'clock this morning of the charge of murdering her husband, a noted painter, and her stepmother. The verdict followed two and a half hours of deliberation.

VERDICT OF ACQUITTAL EXPECTED.

The verdict had been forecasted since the first day of the trial when the extreme measures resorted to by the judge of the court, under the French procedure, is also resented, turned sentiment in her favor. Mme. Steinheil's actions during the trial, which were designed to appeal to the sympathy of the jury, also, it is believed, had no small effect in the result.

FAIR DIVORCEE WEDS AGAIN.

Actress Margaret Illington the Bride of a Tacoma Millionaire. Reno, Nev., Nov. 14.—Miss Margaret Illington, the actress, who was divorced here Wednesday from Daniel Frolman, the noted theatrical manager, was married to Edward J. Bowes, a millionaire real estate operator of Tacoma, last night.

BOY BANDIT KILLS HIMSELF.

St. Louis, Mo., Nov. 14.—For nearly an hour late yesterday a boy bandit, identified as Andrew Slander, wanted in connection with robbery of the bank at Rainey River, Ontario, engaged four detectives in a running battle extending over three miles.

DEATH OF "RAYMOND."

Washington, Nov. 14.—Raymond A. Patterson, for many years head of the Washington bureau of the Chicago Tribune, died here yesterday. Known under his pen name of "Raymond," he had been connected with the Chicago Tribune for thirty-one years.

MANY BOATS HELD UP.

Sault Ste. Marie, Mich., Nov. 14.—The canal officials have succeeded in removing the damaged gate of the Poe lock without any mishap. Work was immediately commenced to remove the upper gate which is to be replaced it.

ONE OF FORTY FENIANS.

New York, Nov. 14.—Augustine E. Costello, aged sixty, one of the forty Fenians who sailed from this country on the filibustering expedition in "Erin's Hope" in 1867, died last night at his home here.

BLIZZARD AT FARGO.

Fargo, N. D., Nov. 14.—Fargo today is snow-bound in the worst November storm in thirty years. Sixteen inches of snow fell, beginning yesterday at noon.

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Per month, by carrier, \$2.00. Per year, by mail, \$20.00. MARQUETTE, MICH., NOVEMBER 15.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

As Senator Smith sees the gubernatorial situation, the candidates are all good men, and friends of his. That is an eminently safe view for a senator to take.

During his trip through the west Senator Aldrich has displayed some of the characteristics that have made him the commanding figure he is in the United States senate.

As Senator Smith sees the gubernatorial situation, the candidates are all good men, and friends of his. That is an eminently safe view for a senator to take.

The Soo News believes that the gubernatorial nomination will go to either Lieutenant Governor Kelley or Chase S. Osborn.

5% DEBENTURES. Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures. Superior Trust Company HANCOCK, MICH. Capital and Surplus \$200,000.00

responsibility. Pinchot apparently resents many of Ballinger's acts affecting the conservation policy. It is said that the president is now almost convinced that he will have to take cognizance of the apparent inability of the two men to work in harmony, and that either Secretary Ballinger will resign or Foster Pinchot will receive an intimation that such a course on his part will be acceptable to the administration.

During his trip through the west Senator Aldrich has displayed some of the characteristics that have made him the commanding figure he is in the United States senate.

HER PHYSICIAN ADVISED

Taking Lydia E. Pinkham's Vegetable Compound

Columbus, Ohio.—"I have taken Lydia E. Pinkham's Vegetable Compound during change of life. My doctor told me it was good, and since taking it I feel so much better that I can do all my work again."

Another Woman Helped. Granville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me."

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills.

A LAUGH OR TWO

Might Be Contagious.

A young matron of Baltimore, upon entering her nursery, found her young-est in tears.

"What's the matter with Harry?" she asked the nurse. "He's mad, mum," explained the nurse, "because I wouldn't let him go to the Simoonses across the street."

THE REASON WHY Vinal IS THE BEST STRENGTHENING TONIC for Feeble Old People, Delicate Children, Weak, Run-down Persons, and to Counteract Chronic Coughs, Colds and Bronchitis, is because it combines the two most world-famed tonics—the medicinal, strengthening, body-building elements of Cod Liver Oil and Tonic Iron, without oil or grease, tastes good, and agrees with every one.

Upper Peninsula. Mining Man Promoted.—Roscoe V. Brewer, who has been chief clerk for the Newport Mining company at Ironwood for several years, has been promoted to the position of assistant purchasing agent at the corporation's Milwaukee office and has gone there to assume his new duties.

Shot in Mistake for Game.—Leo Price, of Merrill, Mich., was hit by a bullet from a high-power rifle while he was cautiously examining a beaver dam in Mackinac county, his leaning over attitude probably being his undoing.

Former Brakeman Sues Railroad.—David (Buff) McLeod of Iron Mountain, who while employed as a brakeman on the Chicago, Milwaukee & St. Paul road, was badly injured about the lower limbs by a log rolling from a car on top of him, has commenced suit for damages against the company.

For Constipation. A Medicine that Does Not Cost Anything Unless It Gives Satisfactory Relief. ### City Brevities

Yesterday's temperature: Seven a. m., 51 degrees; noon, 54; 7 p. m., 50. Maximum, 60 degrees; minimum 41. Today's forecast: High north winds and colder.

Leo M. Geismar of Chatham was in Marquette yesterday.

Mrs. L. B. Steward of Munising spent Saturday in the city.

Mrs. L. G. Kaufman went to Chicago last evening for a brief visit.

John G. Steinglen went to Buckroe Saturday, for a few days' deer hunt.

A. T. Roberts is going east this week to witness the Yale-Harvard football game.

F. R. Spear, Jr. returned Saturday from a three-days' hunt near Deerton with two deer.

Mrs. D. C. Peacock of Duluth is visiting with her parents, Mr. and Mrs. James Freeman.

Miss Jeanette Palmer, of Negaunee, spent Saturday and Sunday in the city, the guest of Miss Edith Russell.

Governor Judson Harmon of Ohio and General Robert Bates of the Soo are hunting deer near Rock river.

Albert Archambeau of Peshigo, Wis., was in the city yesterday, the guest of Nicholas Archambeau of Washington street.

Colonel E. E. Homeier and Harry Wilmot leave this morning for a ten days' hunting trip at Camp Homeier, near Lake Independence.

The board of pardons, in session at the Marquette prison last week granted paroles to seventeen convicts confined there, and they will be released at intervals through the next few weeks.

The article concerning Chief Consolidated, published Saturday, should have said that the company's property extends 5,000 instead of 1,000 feet along one of the Lest ore veins in the region.

An unusual sight was to be seen at the corner of Third and Washington street yesterday forenoon, when a weasel started from near Marth's meat market and ran across the street into the space between Frei's saloon and Sheldon's barber shop.

Manager H. O. Bell announces that there will be a meeting of the Marquette basketball team at the bowling alleys Wednesday evening at 8 o'clock sharp. Business of importance is to come up and the entire membership is desired to be present.

Party Had Good Luck—Phil Hopkins, James Richman, Ed. Pierce and John and William Fassbender returned from deer hunting near Granite point yesterday with five deer, one of which killed by Mr. Hopkins, was a fine buck that weighed 205 pounds. Mr. Richman also killed a large buck.

G. A. Carlson Chosen—The executive committee of the Swedish United Sons of America met at the Hotel Marquette Saturday and accepted the resignation of John Naestrom of Calumet as supreme secretary. G. A. Carlson of Marquette was elected in his stead. Other officers of the society are: Axel Rydahl of Marinette, supreme president; C. F. Rydholm of Marquette, supreme treasurer; Edward Peterson of St. Paul, supreme counselor.

Contests Start Tonight—The handicap individual bowling contest at the Guild Hall alleys starts this evening and will continue until Dec. 13. There are already nearly about forty who have signified their intention to enter the contest, which promises to be a lively one. The handicaps will be fixed this evening by a committee, consisting of Charles Bell, Carr and Robertson. In arranging the handicaps, 160 will be used at the scratch mark, and the handicaps will be fixed at the difference between 160 and the average score made by each bowler in the games played this season.

No Snow Yet—That fall of snow which Observer Patrick has been predicting for several days is yet to arrive, and the deer hunters are anything but satisfied with weather conditions. Since the season opened, three out of five days it has rained most of the time and Saturday it fairly poured all day. For those camping in tents, these conditions must be anything but pleasant, and even for those better situated, they are doubtless playing smears and drinking "tea" than standing out on the run ways. Nevertheless, quite a number of the local hunters have come home with one or more deer.

K. O. K. A. Entertained—The Knights of King Arthur of Ishpeming visited the Marquette lodge last Friday evening and a candidate from the up-the-road city was initiated. Supper was served after the meeting and a game of indoor baseball was played, in which the Marquette lodge defeated the Ishpemingites by the score of 13 to 4. The K. O. K. A. has a basketball team which is doubtless likely to challenge any team in the county, not over sixteen years of age. The line-up is as follows: Center, McIntosh; guards, Pendill, Quarters; forwards, Wheeler, Button; subs, Dellaas, Denny, Kenneth Wheeler is manager of the team.

Michigan Alumni Delighted—The alumni of the University of Michigan resident in Marquette, and the much larger number of other partisans of the Michigan football team, who were cast into gloom by the defeat administered to the team by Notre Dame the previous week, were delighted Saturday at the news of the victory over Pennsylvania, all the more so from the fact that it was the general expectation that the Michigan team would be defeated. The victory will embolden the supporters of the team to hope for another victory at Minneapolis Sunday, where the University of Minnesota club, on the conference champions, will be played. This will be the last game on the Michigan schedule.

### NEWS OF THE BOWLERS.

Vikings Lead in Five-Men Handicap Series—This Week's Schedule.

Although quite a number of the regular bowlers were in the woods deer hunting, last week was the best of the season at the Marquette bowling alleys, both in point of attendance and in the interest and enthusiasm manifest. The week was especially notable because of the increased number who used the alleys in the afternoons.

Interest in the series of five-men handicap games is steadily on the increase and the games which are being rolled the first five nights of each week are attracting quite a number of spectators. At the end of the second week, the Vikings, captained by Ora Mames, are in the lead, with the Finnians a close second. Moreover, the Finnians now have the highest team average of the league and may be expected to put up a game fight for first prize.

The schedule for this week is as follows: Monday, No. 5 vs. Lafayette; Tuesday, Finnians vs. Guild Hall B; Wednesday, Square Deals vs. Vikings; Thursday, Bankers vs. Guild Hall A; Friday, No. 4 vs. Bismarcks.

The standing of the teams is as follows:

	W.	L.	P.C.	T.A.
Vikings	5	0	1000	832
Finnians	4	1	833	807
Square Deals	4	2	666	829
Guild Hall B	3	3	500	866
No. 5	3	3	500	856
Lafayettes	3	3	500	729
Bismarcks	2	4	333	811
Guild Hall A	2	4	333	801
No. 4	2	4	333	789
Bankers	0	6	000	751

Individual averages over 160 are as follows: Pendill 194, King 192, Wheeler 190, Parkkila 186, Tallbacka 184, Carr 183, Fox and L. Shauer 182, J. Miller 181, Broderton and Savola 178, Love and Fennedy 176, Robertson, L. Drake and A. E. Anderson 175, Davis and Frei 174, O. Anderson, Marotte and Webb 172, Waterbury 170, Williams and Mack 169, Zerbel and Reau 166, Spear and Jarvi 165, Jeanson 163, Menchomest 161, Drumney, Foyal, Hamel and Bell 160.

Two five-men teams representing the Guild Hall and downtown alleys are soon to be selected, to play a series of three matches for the championship of the city. The games will be rolled alternately on the two alleys.

### SOO CANAL PASSAGES.

Boats Locked Through, Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Nov. 14.—The boats whose names are here appended have passed the canal this past week, bound for ports on the Lake Superior: Peter White, from King, 8:30 p. m.; Neilson, 10; Walsh, 10:30; Saunders, midnight; William Rogers, Glenellab, 1 a. m.; Miller, 3; Yuma, Kopp, 4; Edinboro, 5; Spalding, Reis, 6; Coralia, 6:30; Stewart, Dulton, Buffington, 8; Linn, 9; Sullivan, Carleton, 9:30; Port Callum, Dinky, 11:30; England, 12:30 p. m.; Laughlin, Arabian, 1; Empire City, 2; Assiniboia, 2:30; Wilbert Smith, 3; William S. Mack, 4; Jay Morse, Gilchrist, 5; Algonquin, 5:30; Argo, Maryland, 6:30; Steel King, 7:30; Midland King, Cole, Dorie, 8; Seebing, 9.

### Upper Peninsula

Woodmen Are Scarce—E. W. Dugman, a conductor on the Soo line between the Soo and Pembina, says that in all his experience he has never seen such a scarcity of woodsmen as this fall. At nearly every station and on every train are operators looking for men, and the demand cannot be supplied. Two hundred men are wanted at Blaney and in proportionate numbers at other lumber centers.

Vicious Dog Terrorizes Family—The family of James Hosking, manager of the Electric Light & Power company, was badly frightened the other night, says the Mining News. Almeda, the little daughter of Mr. Hosking, ran to her mother, saying that a big dog had tried to bite her. Mrs. Hosking went to the front door, whereupon the dog jumped at her and tried to break through the screen door. She was thoroughly frightened, as she was expecting her little son at any moment and she was satisfied the dog would attack him when he tried to enter the house. In a few minutes the mother heard her boy coming happily in the back way, with the dog close behind him. The terrified woman best of the animal with a broom and got the boy safely into the house. Mrs. Hosking then went to the telephone and about that time her husband happened to walk into the central office. Upon being informed of the situation Mrs. Hosking hunted up Village Marshal Thornton and the two hurried to the home. The dog ran out, but was stopped by a bullet. The second or third bullet put the brute out of its misery and put an end to the anxiety of the Hosking family. Whether the dog had suddenly gone mad or was suffering from the effects of some powerful poison which made it unduly vicious is not known.

New Device Lessens Dangers—By a device which will soon be installed by Superintendent Roemer, of the Escanaba municipal lighting plant, on all arc lights in the city accidents similar to that when Charles Anderson, a light trimmer, narrowly escaped death a few weeks ago by electrocution will be made impossible. The device is known as a strain insulator and will be attached to the chain leading to the windlass which the lights are raised and lowered on the street. The insulator is a bulb-shaped affair which is guaranteed to take up all current up to 2,300 volts, making it impossible for a heavy current to reach the reel and thus removing all danger to the operator. A heavily charged power wire coming in contact with the arc light circuit is liable at any time to charge the cable and chain by which the lights are raised and lowered with a death-dealing current, making it dangerous not only for the regular light trimmer, but for children playing about the poles to which the arc light reels are attached. Two years ago a son, Alderman W. D. Mosey, was seriously injured by grasping the cable leading from an arc light at North Escanaba and the second similar accident has resulted in the introduction of the new device. The insulators have been received and will be installed by Superintendent Roemer's force as fast as possible.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York Saturday telegraphed as follows:
Interest was centered in the copper metal issues chiefly, which imparted an improving tendency to the balance of the list and despite the fact that considerable realizing was noted on fears of an unfavorable bank statement, the selling was well absorbed and the list closed with a good undertone and near the best prices of the day.

Throughout the list and at the top prices for about all the active stocks. We look for a broad and rising market next week in the coppers, and would buy Copper Range early Monday for 100 at least. Coppers should be bought right now for much higher prices."

Paine, Webber & Co.'s Wheat Summary.

Paine, Webber & Co.'s Chicago's correspondent had this to say concerning Saturday's wheat market:
It was not at all surprising that the eleventh hour buyers of wheat Friday were early sellers today, because of the weak and lower Liverpool cable. The heaviness in the English market was explained by most favorable weather and crop reports from Argentina. New York houses advised that the foreign buyers were selling futures and raising down and Manitoba. The news from our own growing winter wheat crop could not be better, one comprehensive report received by a Chicago house today claiming a 14 per cent increase in acreage. The last weather report from the northwest, with snow, is expected to cut into the receipts a little. The big mills continue to take everything in sight at Minneapolis. The Southwest report again indicated an easier cash market, and this, with the very bearish crop news in circulation, caused the natural reaction in the market before the close."

HIGH AND LOW PRICES.

Paine, Webber & Co. furnish The Mining Journal with the following "high and low" prices of copper stocks for the week ending Saturday:

WEST WILL DEMAND A BIG BOND ISSUE
Early Arrivals for the Session of Congress Forecast an Effort to Get Probably \$100,000,000 for Waterways Improvements—Democrats May Oppose the Plan as Poor Business.
Washington, Nov. 12.—The vanguard of far western congressmen for the session of early December, bringing a boom for bond issues. They are talking more about bonds for waterways than for irrigation. Championship of the issue will apparently be aggressive, for some of the more conservative and influential of the visiting party are California Republicans.

MOREHEAD MAY QUIT.

Southern Congressman Is Angered by Patronage Distribution.
Washington, Nov. 14.—Dissatisfaction over patronage distribution may cause the resignation of a southern Republican when congress convenes in December. According to reports which have reached here from North Carolina, Representative John M. Morehead, of the fifth district of that state, is incensed at having his recommendation for a patronage list in Washington, and threatens to resign unless he is recognized in the appointments and the Republican machine ignored. Should Mr. Morehead resign it is promised that he will have some cause to regret it.

WHERE WOMEN WEAR TROUSERS.

Among the curious communities of the world, that of Valais, a beautiful canton of Switzerland, certainly ranks as one of the most peculiar and interesting. One of its peculiarities is the wearing of trousers by the women. From time immemorial the women have worn the "breeches" and performed the manual labor of the fields, while their husbands, who were engaged in the same work, wore the usual male attire. What is more, the women are quite content with this inverted order of things, and are perfectly satisfied if their husbands wear the breeches, fry the meat, and look after the baby, while they do the ordinary duties of life.

CRANE TOOK HIMSELF OUT.

That is Washington View—With Case in Statu Quo He Sent Resignation.
Washington, Nov. 14.—Official circles are stirred to the point of indignation by a statement in concrete form of insinuations, long current here, that Secretary of State Knox bowed to monster financial interests in New York in causing the dismissal of Minister to China Charles R. Crane. From all that can be gathered here in this quarter, the department is inclined to hold Mr. Crane rather than the Secretary responsible for Mr. Crane's abrupt resignation. Men conversant with the affair are said to assert that the resignation was sent to President Taft without the knowledge of Secretary Knox, and that he was about to resign. According to the understanding here, related as it is, when Mr. Knox and Mr. Crane met, the chief purpose of the secretary's questions related to the publication in a Chicago paper of statements relating to the present treaty between China and Japan, which apparently could have been inspired only by Mr. Crane. The minister was questioned sharply on this point, but the situation was left by Secretary Knox in statu quo with the understanding that Mr. Crane think the situation over, determine in his own mind his sense of responsibility and confer later with the secretary of state. It was during this modus vivendi, so to speak, that the state department was surprised to learn that Mr. Crane had sent his resignation to the president.

**SAN DOMINGO'S REVOLT.**

Headquarters of the Rebel Leader is at St. Thomas—The Disturbance, However, Is Not Serious—Can Easily Be Crushed, It Is Thought, by President Caeceres.

San Juan, P. R., Nov. 14.—Information from San Domingo received here reports ex-President Carlos F. Morales to have landed in that republic with a strong expedition and to be operating with the rebel forces with General Andres Navarro on the frontier between Hayti and Santo Domingo. Evading the vigilance of the authorities in Porto Rico and Saint Thomas, Morales is reported to have left the latter island on the 24th of October, crossed over to Vieques, whose vessel laden with arms and ammunition and a gathering of his followers awaited him, and after successfully running the gauntlet with the coast-guardsmen in Porto Rican and San Domingo waters to have landed in the republic near the Haytian frontier. Morales' operations have been executed with considerable boldness andadroitness. For some time past he was known to be conspiring and a close watch was set upon his actions by the San Domingo consuls in this island and St. Thomas, but in spite of this fact he is said to have imported a large supply of arms and ammunition, had them conveyed from St. Thomas to Vieques, where they were shipped on board the vessel chartered for the expedition, notified his followers in Porto Rico and St. Thomas to meet him at the starting point at the proper time and got fairly away before his absence from St. Thomas was discovered. He was accompanied by General Zenon Toribio, who sought asylum in St. Thomas a couple of months ago after his defeat by the government troops near La Vega.

A number of San Domingo political refugees resulting in this island who were unable to get out with Morales' expedition are reported to have left San Juan today on the French transatlantic steamer Ferdinand de Lesseps for Cape Haytien, whence they will proceed across the frontier to join the rebel forces. It is stated that the long-standing difference existing between ex-Presidents Morales and Jimenez has been settled, and that they have joined forces in an effort to overthrow President Caeceres' government. They are supported in their design by many of President Caeceres' followers who have taken excep-

**Ishpeming Department**

**HEAVY ORE MOVEMENT**  
**THE COMING WINTER**

WERE OUTCLASSED.  
Houghton High School Players too Heavy for the Ishpeming Boys.

The members of the Ishpeming High school football team arrived home yesterday morning from the copper country where they were defeated by the Houghton team for the championship of the upper peninsula by the score of 0 to 34.

Weather conditions made the game almost an impossibility, but a large number of tickets were sold beforehand and a postponement could not be arranged. The field was covered with a coat of wet snow and on some parts of it there was from three to six inches of water. After a few minutes the players were wet to the skin. The ball was water soaked and it was almost impossible to handle it.

The Houghton boys, because of their weight, had the better of the argument from the beginning and the heavy backs tore through Ishpeming's light line for long gains.

Houghton executed a number of difficult trick plays. The stars for Houghton were Hans Anderson, Edwards, McCurdy, Hang and Coraine. For Ishpeming the Sivola brothers, Henriksen, Nolan and Butler did the feature work. The most spectacular work was done by the Ishpeming boys, in making long diving catches under water.

The Houghton aggregation averages 160 pounds and Ishpeming 135.

The boys received a fine reception in the evening at the Amphidrome, due to the courtesy of John McNamara, the manager. Dancing and roller skating were the enjoyable features of entertainment. The Ishpeming boys wish to thank the citizens of Houghton for the cordial treatment given them.

It is reported from Escanaba that the management of the Chicago & North-Western Railway company is arranging to ship 100 cars of ore daily from the mines of this region to the furnaces at South Chicago. There supply of ore at the furnace decks is small, and unless all rail shipments are made the plants would run short during the winter season. Up to this time only a small tonnage of ore has been shipped from this and the Menominee ranges during the winter months, but with 100 carsload moving daily the shipments during the coming winter will be an immense tonnage, as most of the Northwestern cars have a capacity of from sixty to sixty-five tons each.

The shipments from the mines here were unusually heavy last week, considering the lateness of the season. More than 75 per cent of the ore hoisted from the mines was shipped, and a large tonnage was also moved from the stockpiles, a number of which are now lower than at any previous time in years. If the cold weather holds off until the first of the month, the output for November will be larger than for any previous corresponding month in the history of the Marquette range. Reports from ore to the effect that the shipments continue heavy, and it is now thought that new records for the last shipping month of the season will be made on all of the Lake Superior ranges.

**CHANGE OF ROADMASTERS.**

W. B. Linsley, superintendent of the peninsula division of the Chicago & North-Western Railway system, has announced changes in roadmasters. Michael Keull, who has had charge of the road work on this end of the system, and whose home is in Ishpeming, has had an offer of a similar position at another point, and he is now absent looking over the place. In the event he decides to accept it he will be succeeded by David Evans, Charles Newberg is to succeed Roadmaster McFadden at Marquette. Mr. McFadden is to be transferred to another point.

**FEW DEER COMING IN.**

C. T. Kruse and P. J. Denn Among the First to Return With Game.

Considering the number of Ishpeming men in the woods last week comparatively few deer were sent in. Charles T. Kruse, who spent a few days at his camp south of the city, brought in a fine carcase Saturday, as did P. J. Denn, who hunted in the Dead River district.

The hunters who returned Saturday reported that the deer are wild and that it is hard to get them. There is every indication that hunting has been going on for some time, and it is thought that a number of deer were killed in both the north and south districts before the season opened.

Among the Ishpeming men who spent the latter part of the week at camps were Mayor F. E. Keese, Henry Collins, H. S. Thompson, Louis Tourloff, Anton Hanson and Will Keese, who hunted in the vicinity of Comors creek. John Barke, Jr., left Saturday for Moscow's camp in the north district. Charles Johnson and John Mohr are at the former's camp in the Flat Rock district. A. C. Lullington, Will Vivian, P. Belting and Fred Hooper are hunting near Mulligan creek, north of the city. George Voelker, Thomas Edman and Con Murphy are at Silver Lake, and Raoul Jacobs, Will Stigfur and Dennis Hickey are also hunting north. George and Gordon Jaedecks are at Camp Florence, south of the city. Al Goodney and others left Saturday for the north district, to remain until the latter part of the week. Pat Connell is hunting to the south, making his headquarters at Erickson's camp. George Grummett and Albert Drake left Saturday for the former's camp, north of Clowery. Frank Drake and his sons, Will and Jim, also went out Saturday. They will camp near Lake Laurie, south of Clarksburg.

**ISHPEMING IN BRIEF.**

William Leininger was called to Kenon Saturday night on business.

Don McViechie and wife are in the city on a visit to his mother, Mrs. D. McViechie.

Larry Hickey has departed for Santa Fe, New Mexico, where he will be engaged in mining work the next few months.

Miss Amanda Anderson, organist at the Swedish Lutheran church, has resigned the position, which she has held for several years.

The members of the Ladies' guild of Grace Episcopal church will conduct a market the day before Thanksgiving at Tibson's drug store.

Mrs. M. F. Lynch is expected home today from Cabinet, where she spent the past several days visiting her brother, M. J. O'Brien, and family.

George Wanek has been at his former home in Menominee the past few days, having been called there on account of the critical illness of his mother.

The Swedish Methodist church Sunday school will not be represented in the indoor baseball league organized by the Young Men's Christian association.

Superintendent Peppazone of the Plinto Powder works, south of the Winthrop, has resigned, and is to be succeeded by a Mr. Doran, who has arrived from the East.

The employees of the Cleveland-Cliffs Iron company's Lake Hard Ore mine will be paid today. The Cliffs Shant and Salisbury men will receive their checks tomorrow.

A. G. Johnson and wife left Saturday night for Fort Worth, Texas, where they will spend the winter. The trip is being made in the hope that the change in climate will prove beneficial to Mr. Johnson's health.

Mrs. William Leininger arrived home Saturday from Oskosh, where she was called early in the week on account of the death of her niece, Mary Esther

**NOTICE.**

Water rates on all metered services for the three months ending Sept. 30, 1909, are due and payable. If not paid on or before Nov. 15th water will be shut off and the penalty of \$2 will be charged for again turning on the water.

**BOARD OF PUBLIC WORKS.**  
(11-13-21)

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by The People's Drug Store.

**The Flavor Is Different**

That is why **Burnett's Vanilla** stands in a class by itself. For nearly sixty years, Burnett's Vanilla Extract has been the recognized standard of purity and excellence by which all other Vanilla Extracts have been judged.

You may look the world over and you will never find another vanilla anywhere, quite so rich and satisfying in strength or with quite so rare and delicate a flavor.

**BURNETT'S VANILLA**  
Ask for it by Name—accept no other brand.

evening at Braastad's Hall. Japanese decorations will be the feature. Lundahl's orchestra will furnish the music.

Riffer and Cook, comedy jugglers, will be the vaudeville attraction at the Bijou theater the first three evenings of this week, also at a matinee this afternoon. The team comes recommended as "fifteen-minute laugh producers." They do their turn in pantomime.

A lot of new bowling balls will be received this week at the Bank street alleys. A turkey will be given Thanksgiving eve to the bowler having the highest score in a single game bowled between now and that date. The alleys, which opened a couple of weeks ago, are doing a very satisfactory business.

N. E. Skud, the Main street dry goods merchant, was operated upon by Dr. Murphy in a Chicago hospital Saturday morning. A telegram received by Mrs. Skud from her husband's brother, who accompanied him to the city, advised her that the operation was a success and that the patient was doing nicely.

Births recorded in the city Saturday are a son to Mr. and Mrs. Joseph Hebert, 128 Saginaw street; a daughter to Mr. and Mrs. Bruno Nardi, 321 West Division street; a son to James B. Rogers and wife, 509 South Main street; a son to Mr. and Mrs. James Roberts, 128 Salisbury street, and a daughter to Gust Suomala and wife, 314 South Lake street.

**URGES DENOMINATIONS MERGER.**

Episcopal Bishop Would Unite His Church and the Congregationalists.

Hartford, Conn., Nov. 14.—At the closing exercises of the Episcopal Missionary conference of New England, Bishop Hall of Vermont electrified his auditors by proposing a union of the Congregational and Episcopal churches in one catholic and apostolic faith.

Following Dr. Hall, many earnest speakers attested their hearty enthusiasm over the proposed amalgamation, and it was decided to arrange conferences at many points throughout New England to consider the proposition, and by getting local opinions in various places to ascertain if the idea is feasible and likely to succeed.

Bishop Hall said that religion must have a definite meaning for people who are fast falling away from the churches, and to obviate this it would be necessary to unite under one creed and do everything possible to bring in other denominations rather than lose a valuable contribution by permitting separate sects to exist. The other speakers agreed that the matter was one of contribution of how much a given church might contribute toward a new catholic faith, and not how much it might keep of its old belief.

"In most cases there is no definite faith at all," said Dr. Hall, "and my idea will result in a revival of the endeavor of Christians to unite on just the one thing set up by the apostles of Christ as His creed. The Episcopal church stands ready to give up its 31 articles of religion and is willing to give

**Planked Whitefish**

up its name of 'Episcopal' and to sink its identity in return for truth, simple and definite.

"In order to gain advantage and avoid the loss of a lack of unity there must be a concerted desire to realize the oneness of the church. We must allow great freedom of worship in each church, providing the sacraments are observed.

"Creeds as statements of faith must be kept. In the front we must keep a true, thorough devotion to the Lord Jesus Christ. We must be willing to work along common ground, along humanitarian lines. We must be careful to avoid the danger of expedients adopted in order to obtain a unity based on denominations giving up their individual systems of belief."

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold by The People's Drug Store.

### CURING PNEUMONIA.

**Excellent Results from the Use of Leucocyte Extracts Obtained by Physicians at the Massachusetts General Hospital.**

Boston, Mass., Nov. 14.—That the mortality from pneumonia can be reduced one-half by the use of leucocyte extract is the very striking conclusion sustained by recent work in Boston hospitals, the results of which are published in detail this week in the Journal of Medical Research. Pneumonia now causes more deaths annually in Boston than any other disease—at the rate of a little more than two for each thousand inhabitants. A fifty per cent reduction in the mortality would mean the saving of over six hundred lives annually. Besides this statistical and human aspect, the new treatment is of moment from the side of medical science because it appears to indicate a substantial advance in our ability to make use of the normal cell processes of the body in combating bacterial disease. The use of leucocyte extract is new, and has been little "advocated" in the past.

The forty-one cases of pneumonia now reported in print were treated mainly in Boston hospitals, and chiefly at the Massachusetts General, during last winter and spring by Drs. Cleveland Floyd and W. P. Lucas of the Harvard Medical School, who followed the technique developed by Hiss and Zinsser of New York, who first used leucocyte extract as a remedy. Of these forty-one cases of pneumonia five died and thirty-one recovered, giving a mortality of 12.2 per cent for the whole series. The cases were not selected, but were "just as they came." The mortality rate may therefore be considerable fairly reliable. The average mortality at the Massachusetts General for the past five years, has been 21.8 per cent. Comparison of a series of twenty-five untreated cases at this hospital, with an equal series of selected cases treated with leucocyte extract, shows a mortality more than twice as great in the untreated cases.

The leucocytes are the white corpuscles of the blood. They are of several kinds, the large polymorphous kind, which ordinarily form about eighty per cent of the whole number, playing the largest part in defending the body against foreign, intruded substances, whether these be merely mechanical irritants or living invaders, like bacteria. In dealing with such invaders the leucocyte acts in the manner of the common amoeba. It can move about the body, passing through all the tissues by changes in its own shape, and it seems to possess some affinity for invading matter which leads it to seek the point of damage and resist the attack on the body. Its action, which Metchnikoff discovered, and which is called phagocytosis, consists in surrounding other bodies with its own substance and destroying them by a process of digestion. It has a normal function in removing waste tissue, but it is especially important in relation to the treatment of infectious disease because it appears to play a very large part in the defence of the body against micro-organisms.

In making the first use of leucocyte extracts on the human subject, Dr. Philip Hiss of New York found that several small series of cases of meningococcus meningitis, of pneumonia, and of staphylococcus (pus) infection showed immediate improvement in the condition of the patient by injections of the leucocyte extracts. Temperature and pulse were almost uniformly lowered by the administration. The distressing nervous symptoms of spinal meningitis yielded readily to the leucocyte extract, and the outcome of the cases treated was favorable. The efficacy of the extract in pus infections was very strikingly shown in the case of a woman whose right eye-socket had become violently infected by the spreading of pus following an operation on the nose. In this case the attack was so violent that the eyeball was protruding from the socket, and the only possible remedy—not to save the eye, but to save the patient's life—seemed to be surgical removal of the eye. Leucocyte extract, however, immediately checked the trouble, within two days from the first treatment the eye had resumed its normal size and position, and the whole disorder was very soon entirely cured.

Leucocytes for the preparation of the extract were obtained, for the Boston cases, from rabbits about six months old, very young or very old rabbits proving less suitable. The method depended on taking advantage of the readiness of the leucocytes to appear in an exudate at a point irritated by the introduction of a foreign substance. The irritant used was a solution of albumin, which is a flour made from an albuminous substance occurring in maturing seeds and tubers. This solution was injected into both pleural cavities of the rabbits. After twenty-four hours the animals were killed, and the thorax opened for the removal of the exudate containing the leucocytes. The cells were separated from the exudate fluid by centrifugal action, mixed with a little distilled water, and broken up by beating with a platinum wire. The final, finished solution contained approximately twenty million leucocytes to each cubic centimeter, which is the volume given as one dose to an adult.

The course of the pneumonia cases treated with the extract was not sufficiently uniform to throw much light on all the details of the operation of the extract, and especially the patient felt better soon after the first administration was to some extent relieved, and the patient was more comfortable. The effect upon pulse and respiration was emphatic. A fall in temperature, almost uniformly followed each administration, and frequently the pulse rate remained low, running between ninety and one hundred beats per minute, through the whole course of the disease. Relief from symptoms that might be due to general poisoning by the pneumococcus was a constant feature. Complications such as are extremely common following pneumonia, were very few in the treated cases, occurring only twice.

The plan originally contemplated the adoption of the English plan of joint managers, with equal powers, but as this seemed impracticable under the national banking laws it has been arranged that Mr. Sabina shall divide with Mr. McGarrath the powers and duties of president.

A joint committee is now formulating a plan for the merger of the two institutions, which will be presented to the stockholders in a few days. No difficulty is anticipated in the securing of approval, as a number of stockholders, representing a very large interest in both institutions, have already approved of the tentative plan.

Until the legal requirements can be met, each institution will continue its business at its present offices. The directors will be composed of the present directors of the merged banks, adding John D. Ryan and Thomas F. Cole, who are vice-presidents of the National Copper bank but not directors.

**AN EYE FOR BUSINESS.**

It is evident that there is a canny strain in the English royal family which, if fate had neglected to provide for them, would still enable them to keep the wolf from the door. It helped Prince Alexander of Battenberg when he was a boy at school to bear up under the refusal of his grandmother, Queen Victoria, to send him some extra pocket money he wanted. Having spent all his allowance, in his extremity he wrote the queen, but she was adamant. He must wait until his next allowance because, she told him. Soon afterward she received a letter from her grandson which ran as follows:

"My Dear Gramamma: I am sure you will be glad to know that I need not trouble you for any more money just now, for I sold your last letter to another boy here for thirty shillings."

The old, old story, told times without number, and repeated over and over again for the last 30 years, but it is always a welcome story to these in search of health—There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by The People's Drug Store.

### WHEN DINNER IS OVER

## LA VERDAD

Cigars compose the smoker's next course. They are a fitting climax to an elegant banquet or a simple home meal.

Gladstone, the famous English statesman, always smoked a clear Havana cigar after meals to aid digestion.

LA VERDAD cigars are the best and most soothing the tired nerves and build energy.

Made in Tampa—sold everywhere.

### TWO BIG BANKS TO BE COMBINED

**NATIONAL COPPER AND MECHANICS' NATIONAL OF NEW YORK TO BE UNITED, WITH T. F. COLE AND J. D. RYAN MEMBERS OF THE DIRECTORATE**

According to advices received from New York Thomas F. Cole of Duluth and John D. Ryan, who were vice-presidents in the National Copper bank of New York, are to become members of the board of directors of the Mechanics and Metals National bank of New York which is to be organized as a consolidation of the Mechanics' National bank and the National Copper bank. Plans for the consolidation have been approved by the board of directors of both banks.

The consolidated bank will be known as the Mechanics and Metals National Bank. It will have a capital of \$6,000,000 and a surplus of at least an equal amount. The combined assets of the two institutions will approximate \$100,000,000. The consolidated bank will thus be one of the oldest and strongest in the city, says the Wall Street Sun. The Mechanics and Metals National bank will continue its business at the present offices of the Mechanics' National bank at 33 Wall street.

The Mechanics' National bank was founded in 1816. Its present capital is \$3,000,000; surplus and undivided profit is about \$3,800,000; deposits about \$28,000,000.

The National Copper bank opened for business in May, 1907. It was organized by strong interests and its capital is \$3,000,000. Its present capital is \$2,000,000; surplus and undivided profits about \$2,800,000.

McGarrath to be President.

The presidents of the two institutions have long been intimate personal friends and the selection of the officers for the new institution has been made with their approval. Mr. McGarrath, now the president of the Mechanics' National bank, will be the president of the combined institutions. Mr. Sabina, now the president of the National Copper bank, will become the first vice president.

### NEGATIVE DEPARTMENT

**TAX RATE HIGHER THAN LAST YEAR**

**NEGAUNEE PROPERTY OWNERS WILL PAY \$2.50% ON EACH \$100 VALUATION, COMPARED WITH \$2.31 A YEAR AGO.**

Assessor T. A. Thoren will, within a few days, have the tax roll ready to turn over to the First National bank, where the taxes will be payable this year. The tax rate is \$2.51% on each \$100 valuation compared with \$2.31 last year. The levy is on a valuation of \$8,226,561 and is \$156,826.35, compared with about \$140,000 last year. The increase is due to the increase in the state and county taxes.

In apportioning the amount to be assessed for city purposes the council divided the money about the same as it was divided in 1908, the increase on the total amount being only about \$1,000. As nearly 50 per cent of the amount raised for city purposes is used for the improvement of street and roads, it appears that the city's affairs are handled on an economical basis. It is anticipated in the neighborhood of \$15,000 will be needed next year for street improvements. As practically all of the roads leading to the outlying districts are now in first-class condition, the heaviest item of expense next year will be the rebalancing of iron street-curb gutters.

It is not anticipated that it will be necessary to expend any great amount next year for improvements to either the water or electric lighting plants, as both are now in fine condition. Several extensions of water mains will be made, but the expense of this work will be light compared with the past two or three years. The water mains have now been extended to practically all of the principal points in the city and as a result the revenue for water service is increasing. The electric lighting department had extra heavy expense last year, on account of the high school contract, it having been necessary to purchase considerable material for this job.

The street improvement work will be brought to a close within a week or ten days. Men have been employed for a few days just raising the surface of Cole street, also two other streets near that thoroughfare. It was necessary to spread in places on Cole street between two and three feet of gravel. There is a point on the Goose Lake road, near the Mary Charlotte mine, that will be given attention when the work on the streets above mentioned is completed. The ledge is to be cut down three feet for a distance of fifty or sixty feet.

### GENERATOR BREAKS DOWN

**Accident at Lighting Station Puts the Turbine Out of Commission.**

The turbine at the municipal lighting plant will be out of commission for a time, due to the breaking down of an electric generator, Saturday night. While the Atlas engine will be used until the turbine is ready for operation again, the lighting service will not be as good as usual, as it does not generate sufficient power to handle the load properly.

As a result of the breaking down of the turbine, the city will not be able to furnish the Cleveland-Cliffs iron company power for the operation of its underground haulage system at the Maas mine. This service has been supplied for several months past, even since the Cleveland-Cliffs re-organized the Maas & Electric company to supply the power for the turbine that will generate power for the transmission plant now being installed. As soon as the breakdown occurred Master Mechanic O. D. M. Churs of the Cleveland-Cliffs company arranged with the Marquette County Electric company to supply the power for the haulage system, and men worked all yesterday and last night extending the wires. It requires about ten kilowatts to operate the haulage system. This will not be a hardship on the Marquette County Electric company as since installing their new turbine they have several hundred kilowatts to spare.

### EXALTED RULER T. A. THOREN HAS APPOINTED COMMITTEE.

The three lodges of the Fraternal Order of Elks in this county will this year hold their memorial exercises under auspices of the Negaunee Lodge. The arrangement committee is as follows: T. A. Thoren, chairman; Al Willman, Ed. Laughlin, Ernest Klein and Hugo Mueser. The exercises will be held on Sunday afternoon, Dec. 26th.

A musical program will be given in connection with the ritualistic exercises, and some of the best talent in the county will participate. Al Willman, who was a member of the Negaunee City band for a number of years, has been given charge of the musical features, and he will also superintend the decorating of the hall. The members of the Marquette and Ishpeming lodges will attend in a body, the former making the trip by special train and the latter by street cars.

### ELKS MEMORIAL.

**Salvator.**

Old Salvator, king of the turf in 1896, was a golden chestnut of ideal build and temper. When they buried him at Lexington, Ky., last Saturday they put away most that was left, besides men's memories, of the golden days of the American racetrack.

In Salvator's presence, in witness of his performance, one realized the significance of racing as "the sport of kings." Infinite distances separate such contests as those in which this great horse took part from the latter scorching of the turf as it is done now. He benefited nations for the bestmakers. Salvator was fit to rank with Boston, Eclipse, Parole, Ion Cheltree, Ten Broeck and the rest on a list of choice champions. He left a mark for a mile, 1:35 1/2, two seconds faster than any other record for the distance, but his courage, quality and consistency distinguished him more greatly than could the figures of any single winning.

What misfortunes have overtaken the turf in this country have come through departures from such high standards of sport as would be consequent with the career of a Salvator. This old horse was taken from the track before he had passed his prime. He survived in seclusion the field of sporting enterprise which he adored.—New York World.

### SUPPER AT NEW HALL.

The ladies of the Swedish Lutheran church congregation will conduct a social and serve supper on Thanksgiving afternoon and evening in the hall of the Scandinavian society's new building, being erected on Gold street. The ladies will serve oysters, sandwiches, coffee, etc. The charge will be thirty-five cents, including both supper and entertainment.

Strictly fresh Blue Point Oysters, fresh from the coast. GEO. HAUPF. (10-22-11)

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by The People's Drug Store.

Foggy thinking usually boasts of its freedom.

### HAD A CLOSE CALL.

**Member of Baseball Team Nearly Lost His Life at Maas Mine.**

Wilfred Messier, a member of the Negaunee league baseball team, who is employed underground at the Maas mine, came very nearly being killed by an electric shock Friday afternoon. He was operating a chute, when the back of his head came in contact with the trolley wire of the haulage system. Had the voltage been heavier Messier would doubtless have been killed. As it was he was unconscious for about three-quarters of an hour. The men at the mine succeeded in bringing him around before a doctor arrived. One of the men working near Messier saw him fall, when his head struck the wire and no time was lost in bringing him to surgery. For a time it was thought that he would not recover, but it is not anticipated that he will suffer any after-effects of the shock.

Accidents of this kind occur frequently in mines where electric haulage systems are in use, but it is so seldom that a workman is killed outright where the charge is not over 250 volts, which is the voltage at the Maas plant.

**OVER 30,000 FEET OF WALK.**

Anton Henriksen, the concrete walk contractor, who recently completed his season's work, laid 24,079 square feet of concrete walk with an average depth of four inches; 2,005 square feet of walk six inches in depth and 4,195 square feet of eight inch walk. In addition to the above he laid 14,037 lineal feet of curbing, besides doing considerable other work.

A large manufacturer's line of handbags on exhibition at the City Drug Store. Make selections now for Christmas delivery. (11-15-34)

### LOCAL LACONICS.

Only two deaths have occurred in Negaunee this far this month.

Henry Lanto of Ironwood has taken up his residence in Negaunee.

Dr. J. H. Andrus has returned from a business trip to the lower peninsula.

W. D. King, proprietor of "King's Inn," is spending a few days in the woods out near Nestoria.

The Ladies' Aid to the A. O. H. gave a card social and dance at Shea's Hall Friday evening. There was a large attendance.

Mrs. Peter LaCombe and son Peter, of Montreal, have joined Mr. LaCombe in this city. They are to remain here permanently.

The Ladies' Aid to the A. O. H. gave a card social and dance at Shea's Hall Friday evening. There was a large attendance.

Miss Irene Sheehan left last night for the Milwaukee county hospital, where she is staying with a view of becoming a trained nurse.

Koisko & Loggion, the bakers on West Iron street, have installed a Daisy dough mixer, which will be operated by electricity. It weighs 2,850 pounds.

Mrs. W. B. Coombe, who, with her husband, Rev. Coombe, left here for Ironwood about a month ago, is in the city visiting her sons, Lloyd and Jesse.

Henry Lee, Anton Henriksen, H. P. Johnson, Samuel Bashaw and Hans Johnson, spent the latter part of last week hunting in the vicinity of Cascade Junction.

Christofaro Zaganelli and Miss Margaret Garbino, both of this city, were married Saturday morning by Judge William Verran at his office in the Kuhlman building.

William Verran and family entertained friends at their home Friday evening in honor of his granddaughter, Miss Mand Thompson, who attained her twenty-first birthday.

William Kraus, wife and two children, left Saturday for Flint, Mich., where they will spend a few weeks visiting his relatives. Mr. Kraus's mother, who lives at Flint, is not in good health.

B. Meuller, a jeweler, who has been located at Rockland for some time, is to engage in business at Gwinn. Mr. Meuller has held the position as township clerk at Rockland. His family will remain there for the present.

The employees of the Cleveland-Cliffs Iron company's Jackson, Maas and Negaunee mines will be paid Wednesday for last month's work. The Oliver Iron Mining company will pay its Hartford and Regent mines employees Friday.

L. E. Chaussee, the Negaunee contractor, has completed work at the dwelling the Cleveland-Cliffs Iron company has erected for W. W. Graft, superintendent of the company's new North Lake property. Tremblath Bros., who have the painting contract, will finish their work within a few days.

Kusta Ekkela brought the first deer to Negaunee. He shot it Thursday, south of Palmer. Very few deer have arrived here up to this time. The weather has not been favorable for hunting. Most of those who were in the woods Saturday did not leave their camps, and it rained almost continuously.

Clarence Colwell and C. A. Snell of Cleveland, O., who are hunting deer in Ontonagon county, will be the guests of T. W. Byrns and family for a short time before returning to their homes. Mr. Colwell is the manager of the Buick Automobile company at Cleveland. He and Mr. Snell were accompanied on their expedition by Gay Nault, and his father, the latter of Marquette. Mr. Byrns joined them Saturday.

### REWARD—A liberal reward will be paid for information that will lead to the arrest and conviction of the party or parties who are stealing red lanterns from our sewer trenches. P. Barasa & Co. 11-9-1w

## Bijou Theatre

NEGAUNEE.

### COMPLETE CHANGE OF Moving Pictures EVERY NIGHT.

### MRS. TAFT A REAL HOUSEWIFE.

Mrs. Taft directs the entire routine of running her own home, even though it is the home of the president. She is noted as a hostess and as a housekeeper and not a detail of the management of the White House escapes her eye any more than it was permitted to do so when the family lived here privately. The installation of the housekeeper was an innovation, but Mrs. Taft plans very real service within the walls of the executive mansion and the Thanksgiving dinner this year promises to be a wonder in its way.

"Hark, the Herald Angels sing," Becham's Pills are just the thing. "Peace on earth and merrily mild," Two for man and one for child.

A great many years ago, some one created this perversion, but its happy little path—its sober truth—it suggests has made this verse a byword with millions of people. It illustrates the great popularity in which Becham's Pills are held and the wonderful good that they are doing. Every year shows a marvelous increase in this popularity and it is an established fact, that in the communities where Becham's Pills are used, the health and morality of the people are enhanced.

Every reader should know Becham's Pills—learn their power to keep the system in good order, preserve the vigor of growing youth—the cheer and brightness of old age. They regulate the bowels, help the liver, and the kidneys promote digestion and prevent the coming of serious sickness.

Thousands of men have been made sturdy and strong—their heads of women have been made healthy and happy, through use of Becham's Pills. Anyone who does not know them is doing without one of the greatest known helps to health and happiness.

Chicago, 1907.

## Great Business Opportunity

Mercantile Department of the Estate of the late Nicholas Laughlin to be sold.

One of the oldest and largest mercantile establishments in the Upper Peninsula, consisting of a complete stock of Staple Dry Goods and Notions, Clothing, Furnishing Goods, Shoes, complete Grocery stock, finely equipped Meat Market. Equipment and fixtures complete, horses, wagons and sleighs. Three large stores with fine basement under the whole. Two commodious warehouses for the handling of flour, mill stuffs and hay, which will be favorably leased to purchaser of stock and fixtures (if not wishing to buy). The business is now running complete and open to inspection. Parties wishing to purchase a live and paying trade are invited to consider this chance. Come and inspect this offer, or address

## Thomas M. Wells

NEGAUNEE. 11-11-2w ADMINISTRATOR.

### SENATORS MEET BUT NOTHING DONE

#### APPOINTMENT OF COLLECTOR FOR SUPERIOR DISTRICT STILL REMAINS UP IN THE AIR.

### SMITH STANDS BY BYRNS

#### Burrows Says Matter Is One Requiring Careful Consideration—Many Other Federal Offices Soon to Be Vacant.

Senator Burrows and Senator Smith were Detroit visitors Thursday and Friday of last week, but the important developments that were expected to follow, particularly with regard to the appointment of a collector of customs for the District of Superior, failed, according to reports, to materialize, and the situation with regard to the latter office is apparently unchanged.

Speaking of the visit of the senators and the train of politicians "also among those present" the Detroit Journal says: "But there doesn't seem to be really a great deal developing. Senator Smith asserts that he will stand solidly behind Charles J. Byrns for collector of Marquette, but Senator Burrows says that he has not definitely decided on his course in the matter, and there it rests. 'I have made my position clear on the matter,' said Senator Smith 'and I don't believe it is necessary for me to say anything more. In for Mr. Byrns for the place and that's all there is to it.'"

"It is a matter which requires careful consideration" is the statement of Senator Burrows. "There are several candidates for the position and not only must their qualifications be considered but also the wishes of the people of the district. Really it has been surprising the amount of interest displayed in the lower peninsula on this appointment, which is a matter which concerns the upper peninsula and a part of Wisconsin alone." In the same connection the News says: "Senator Smith came unattended. He says he is trying to get away this evening as he has a few business matters at home to close and then go to California to visit his father and mother and return to Washington in time for the opening of congress three weeks from next Monday. Senator Burrows will remain here to help welcome his friend Senator Aldrich next week. "Both the senators have met in the hotel, but there have been no conference about appointments. None had been arranged up to noon. Senator Smith said this morning that he was not aware that anybody was asking for a conference. The Marquette collectorship is the only office vacant, and he is standing pat for Charles J. Byrns for the place. He declared by Byrns, before he said anything to the senator about it, Byrns isn't in town, but another gentleman, E. W. MacPheran, who wants the Marquette collectorship is here. MacPheran is land commissioner for the Duluth, Sault Ste. Marie & Atlantic railway and lives at Marquette and lives fifteen miles from Marquette and is one of the highest officers in the national organization of Modern Woodmen. The Modern Woodmen vote in Michigan runs high up into the thousands."

While the collectorship for the District of Superior is the federal office which is, for the time, most in the public eye, there are several others that the senators have to dispose of within the next few months. The term of J. J. Donovan, register of the land office here, will expire, it is stated, December 13, and the term of John Jones of Ishpeming the recorder of the same office expires next June. Both officials are candidates for reappointment, and so far they are said to have the field to themselves.

The term of George C. Covell, United States attorney for the western district, who is well-known in Marquette because of his frequent visits here, in attendance at the terms of the United States court, will expire February 14. Senator Fred C. Wetmore is said to be an aspirant for this appointment. Other federal officials whose terms are about to expire are O. A. James of Hilldale, pension agent, whose time is up January 16, who was President McKibben's first appointee and who is now serving his fourth term; John E. Whelan, collector at Detroit, whose first term will be completed January 30; W. I. Lillo, collector at Grand Haven, who is to a party from western Ohio and eastern Indiana, who are hunting near Wilkes. Another non-resident party, headed by Carter Harrison, is hunting on Grand Island. The complete list of non-resident licenses issued is published below:

#### NON-RESIDENT HUNTERS.

List of Those from Outside the State Who Have Bought Licenses.

Up to Saturday afternoon, thirty-eight non-resident and 825 resident deer licenses had been issued from the county clerk's office. These figures do not include the licenses which have been issued at Ishpeming and Negaunee, and the total number to date is probably about 1,000. Last year forty-five non-resident and about 1,700 resident licenses were issued during the whole season.

The majority of the non-resident licenses were issued to a party from western Ohio and eastern Indiana, who are hunting near Wilkes. Another non-resident party, headed by Carter Harrison, is hunting on Grand Island. The complete list of non-resident licenses issued is published below:

Corn, H. McCormick, M. R. Harris, George J. Charlton, Henry P. Favill, Edgar A. Bancroft, A. V. Poth, Emil Demme, Oscar E. Meyer, Carter H. Harrison, Otto I. Tossetti, Karl Eitel, Chicago; Ronk Morzer, Albert C. Alter, Ft. Wayne, Ind.; James Cravy, Hicksville, O.; Harace K. Tomney, Winneka, Ill.; Jesse Laux, Wallace Miller, Bedford, Ind.; P. R. Hoffman, Chas. Kneek, Louis Besner, Greenville, O.; F. D. Neely, S. D. Crites, Elda, O.; Wm. Davidson, J. W. Saviniller, Delphos, O.; J. B. Sawiniller, John Grubbs, Lima, O.; Henry Bachard, John Gideon, Payne, O.; Geo. Krutte, Dr. J. I. Neptune, Decatur, Ind.; Frank Gideon, Glenn Gideon, McGill, O.; M. V. Mumma, Gideon, Mo.; C. B. Reid, Van Wert, O.; E. E. Leslie, Conroy, O.; Norman Troford Palestine, O.; Wm. R. Arpner, West Manchester, O.; Wm. Klauer, Iowa.

All wheat starch isn't good—neither is all corn starch. The first gives a "rubbery" effect. The second gives a "pasteboard" effect. We give you the right combination. THE CRESCENT LAUNDRY.

### ARRESTED ON SERIOUS CHARGE.

#### Thirteen-Year-Old Girl Accuses Brother-in-Law of Statutory Crime.

Charles R. Carey of South Fifth street was arrested by Marshal Manning Saturday on complaint of Mrs. Margaret Stapleton, who alleges that on the night of Nov. 2 Carey committed a statutory offense against her daughter, Pearl Lapointe, aged thirteen, who is also his sister-in-law. The girl's story, as told by Mrs. Stapleton to the officers, is that she has been living with her sister, Mrs. Carey, for some time and that while there, Carey committed the crime. She told her sister what had happened, but neither told anyone else, as Carey had threatened to kill them if they did. On Saturday, however, the girl went to her mother, and, in spite of his threats, she made a full confession, with the result that the mother at once notified the police and Carey was apprehended. In the city lock-up last evening, Carey declared that he was innocent of the crime with which he had been charged, and that he was the victim of a "put-suit" job, which did not surprise him any. Further than to make this bald statement, however, he had nothing to say. Carey looks to be less than thirty years of age. The crime with which he is charged is punishable by life imprisonment.

### EMBLAGAARD DAIRY DELIVERING HERE

#### MILK, CREAM, BUTTER AND BUTTERMILK FROM IVES LAKE FARM BEING MARKETED EVERY DAY, EXCEPT SUNDAY.

Last Friday Emblagaard dairy, better known as Ives Lake farm, began delivering milk, cream, butter and buttermilk in this city. A. T. Roberts, manager of the dairy, stated Saturday that already a large part of the product had been contracted for and that at the rate orders were coming in, the demand would soon exceed the present supply. The purpose of the management is to keep only thoroughbred and high grade stock and to furnish the public with sanitary dairy products as near perfection as can be made. The Emblagaard herd now numbers thirty Holstein cows, twenty-one of which are registered. These cows give about 390 quarts of milk per day, from which all the products of the dairy are made. It is the intention to gradually increase the herd until it numbers fifty or more.

The cattle are stabled in what is believed to be one of the most sanitary barns in the upper peninsula. The cows are kept absolutely clean and the milking methods reduce the chances of contamination to a minimum. Closed milk pails only are used. The milk is strained four times through cheese cloth and absolute sterility is secured and cooled to the temperature of 45 degrees, immediately bottled and sealed in sterilized bottles and kept at that temperature until it reaches the consumer. The management guarantees that if properly handled, Emblagaard milk will keep sweet a week. Emblagaard dairy is churned and worked by machinery and is not touched by human hands. The power for the churn is entirely outside of the dairy. Only the buttermilk which results from the churning of the butter is sold, no manufactured product from skim milk being marketed as buttermilk.

The entire herd has been tested within the last six months and found absolutely free from tuberculosis, and the management intends to exercise every precaution to keep the herd free from tuberculosis and other diseases. Deliveries are made in Marquette between 2 and 3 o'clock every afternoon, Sunday excepted, by George Gilbert in the automobile wagon owned by the farm. Milk and cream is delivered in sealed bottles which prevent any dirt settling about the rim of the bottles, and in refrigerator cases. Butter is delivered in air tight cartons packed in ice. Prices are the same as charged by other dealers in first-class dairy products. Orders should be mailed or telephoned to George Gilbert.

### CONFIRMED PROOF.

Residents of Marquette Cannot Doubt What Has Been Twice Proved.

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ailments—thousands have publicly recommended Doan's Kidney Pills. Residents of Marquette, who are testified years ago, now say their troubles were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Marquette kidney sufferers.

Mrs. Leonard Richer, 407 Rock St., Marquette, Mich., says: "My little daughter was afflicted with a kidney weakness and I was much alarmed about her condition. She had little control over the kidney secretions and bed wetting was frequent. I tried many remedies in her case but nothing helped her until I secured Doan's Kidney Pills at The Stafford Drug Co. This remedy stopped the annoyance and greatly improved her health."

The above statement was given on Feb. 15, 1906, and was confirmed by Mrs. Richer on Nov. 6, 1908. She said: "I have used Doan's Kidney Pills in my family during the past five years and they have always given satisfactory results."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Mrs. A. M. Adams is receiving her fall and winter millinery. It's on display now. All are invited. 219 Blaker St. 10-1-09

Glass! Orders filled promptly and accurately by Kelly Hardware Co. (10-23-09)

#### POULTRY SALE.

Five-month old Buff Orpington Cockereels in two well-known strains. Large flock to choose from. Prices reasonably low, considering lateness of the year. Apply early to WALTER C. HORNSTEIN, 1025 N. FRONT ST. Favorite Base Burners are fuel savers. Ask us why. KELLY HARDWARE CO. (10-23-09)

### MANY GOOD THINGS ON TWO-DAYS PROGRAM

#### FARMERS' INSTITUTE TO BE HELD IN CITY HALL WEDNESDAY AND THURSDAY PROMISES MUCH OF INTEREST.

Arrangement for the Marquette County Farmers' institute, to be held in the assembly room of the city hall this week Wednesday and Thursday, are nearing completion and everything points to the largest attendance and the most interesting and successful institute ever held in the county. No admission will be charged at any of the sessions and the public is invited to attend. The principal speakers will be W. F. Taylor, of Shelby, L. M. Geismar, of Chatham and Mrs. Louise Peterson of Stephenson. This is the first time that a lady speaker has been secured at an institute in this county, and Mrs. Peterson being a practical farmer's wife, her talks should be of great interest and value to every woman who has the management of a home. The officers of the institute are: President, Robert Blenhuber; secretary, F. H. Vandenberg; conductor, L. M. Geismar. The program as arranged is as follows:—

- Wednesday, Nov. 17: Forenoon—Address of Welcome—Mayor Vaughan.
- Response—Robt. Blenhuber, President, County Institute Society.
- How to Improve Soil—W. F. Taylor, Shelby.
- Manures and Fertilizers—L. M. Geismar, Chatham.
- Discussion—Afternoon—Question Box, in Charge Of—W. F. Taylor.
- Fruit in Northern Michigan—L. M. Geismar.
- Discussion—L. M. Geismar.
- Corn and How to Grow It—W. F. Taylor.
- Discussion—Afternoon—Music—Peerless Orchestra.
- Our Homes on the Farm—Mrs. Louise Peterson, Stephenson.
- Discussion—Evening—Music—Our Boys' Band.
- Our Boys and Girls—W. F. Taylor.
- Vocal solo, selected.
- Miss Norma Ross.
- The Wife and Her Work—Mrs. Louise Peterson.
- Music—Our Boys' Band.
- Thursday, Nov. 18: Forenoon—Forge Crops—L. M. Geismar.
- Discussion—Handling the General Farm—W. F. Taylor.
- Discussion—Business Meeting of County Institute Society, Reports, Election of Officers, etc.
- Afternoon—Question Box, in Charge Of—L. M. Geismar.
- Music—Trombly's Orchestra.
- Money Crops—L. M. Geismar.
- Discussion—Home Duties—Mrs. Louise Peterson.
- Discussion—Music—Trombly's Orchestra.
- Points for the Dairyman—W. F. Taylor.
- Discussion—Evening—Music—The Needs of Our Schools—Albert E. Sterne, County Commissioner of Schools.
- Reading, The Doubting Farmer—W. A. Ross.
- Vocal solo, selected.
- Miss Flora Rettalie.
- The Relations of Teacher, Pupil and Patron—Mrs. Louise Peterson.
- Music—Peerless Orchestra.
- The Forces That Win—W. F. Taylor.
- Song, "America."
