CUSTOMS OFFICIAL TO QUIT THE SERVICE

General Clarkson's Term as Surveyor at New York Expires the First of January, and He Will Not Be Reappointed.

Such Is the Statement of Secretary MacVeagh—That He Does Not Want the Choice Bill-let Again; Has, in Fact, Arranged to Enter Business, Is the Former Political Warrior's Explanation—Once He Headed the G. O. P. National Committee.

Washington, Nov. 22.—Secretary MacVeagh announced tonight that the term of Surveyor of the Port, Clarkson, of New York, will expire Jan. 1, and he will not be reappointed.

HIS SCALP DEMANDED BY WOODRUFF.

The decision against the retention of the former political warrior of Iowa in one of the choicest billets of the federal service in New York state did not surprise those familiar with the political conditions in that state.

DID NOT WANT ANOTHER TERM, ANYWAY.

New York, Nov. 22.—Surveyor Clarkson tonight issued the following, when informed that he would not be reappointed: "I have had two terms in the office, and did not desire another, as is generally known. For a year I have been arranging to enter business, a fact publicly announced several times the last few months."

Mr. Clarkson's first federal office was that of postmaster of Des Moines, and several years later he became first assistant postmaster general. In 1902 he was made surveyor of customs at New York by President Roosevelt.

PERKINS' SUSPENSION REVOKED.

Washington, Nov. 22.—The suspension of Assistant Superintendent Frank W. Perkins, of the United States Geological Survey, and the reduction of John J. Gilbert, an expert in that office, growing out of charges of irregular administration methods, were revoked today by Secretary Nagel.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Subscription rates: Per month, by carrier, \$3.00; Per year, by mail, \$30.00.

Marquette, Mich., November 23, 1909.

Entered as second class mail matter, second class, in the postoffice at Marquette, Mich.

Minding one's own business is about the most profitable occupation a man can be employed in.

"Uncle" Joe Cannon insists that he isn't a czar, and maybe he doesn't deserve to be so rated.

Impelled by the spirit of emulation, presumably, Canada is to have a steel trust of its own.

It is a noteworthy fact that the papers of lower Michigan are paying more attention to the candidacy of Mr. Osborn at present than to that of any other aspirant for the gubernatorial nomination.

SAME OLD BUG.

The new highway commissioner, Mr. Ely, must have been bitten by the Earle-bug, for his mind, like that of his predecessor, seems to run persistently to the project of utilizing convict labor at the branch prison for the purpose of providing the people of lower Michigan with cheap road-making material.

The Mining Journal begs to remind Mr. Ely that there is a good deal of road-making going on up here, but that the counties engaged in it are providing their own material without figuring on "utilizing" the labor of convicts at the branch prison to get it more cheaply than it is now being obtained.

Down in Menominee and Delta counties they have excellent roads built with gravel top dressing, at a cost much below what crushed rock roads could be built for.

5% DEBENTURES

Running one to five years secured by first mortgages on improved real estate worth more than double outstanding debentures.

a supply of gravel road that answer for all the everyday requirements of country traffic can be built of that material at a much less cost than if crushed rock is used, no matter how cheaply the latter material can be furnished.

KC Baking Powder For Health and Economy

THE NEW SUPREME COURT.

Under the above caption the Globe and Commercial Advertiser of New York has this good-natured but caustic comment on the inflated utterances of some of the American Federation of Labor leaders, at its Toronto meeting recently, relative to the court order committing them to prison for contempt of court:

THE BEST THAT EVER.

It gratifies The Mining Journal to learn that Mr. Ira Carley, of Ingalls, has consented to stand for the nomination for representative in the legislature from his district in the election of next year.

Mr. Carley is a successful business man, and his activities in that capacity cover a varied line of enterprises. He operates a sawmill, a mercantile establishment and a big farm at Ingalls, and does a lot of other things on the side.

CAN SUCH A THING BE?

A Lansing dispatch in the Detroit Journal gives this piece of political information: It is whispered here that one of the principal targets of the candidacy of Secretary of State Martindale for governor is Game Warden Pierce.

PERSONAL PROPERTY TAXATION.

In an article discussing various proposed schemes of taxation, the Evening Wisconsin, of Milwaukee, had this to say about the inability of the state to enforce anything like adequate taxation of personal property:

The personal property tax in this country has proved an utter failure. People who have much personal property refuse to tell the truth about it. In practice, the personal property tax bears with undue severity upon those who have only a little, that cannot be hid. The poor music teacher pays the tax on her piano, but the great bulk of personal property is not declared and not discovered.

WHY NOT STOP THAT ITCH?

Druggist Stafford Assures Relief With Every 25 Cent Bottle. Druggist Stafford of this town says that he has found indisputable proof that Eczema can be cured—out in one or two cases, but in scores of cases which he has studied. He would, of course, not think of making such a recommendation to his neighbors and patrons, were it not that his years and years of success with D. D. Prescription enables him to speak of this remedy with confidence. It is a gentle, soothing wash with the mild oil of wintergreen as a base. All the cures seem to be permanent, at any rate, a trial bottle at 25 cents will take away the itch at once—instantly. We are sure of this. The Stafford Drug Co., Marquette, City Drug Store, Ishpeming.

PILE SUFFERERS!

Do You Know These Facts?

The cause of piles is internal—Sluggish circulation in the lower bowel. Piles can't be thoroughly cured by outward treatment.

An internal remedy is needed to cure the cause.

Send for our booklet, "How Piles Can Be Cured by Internal Medicine" or call on "The People's Drug Store, Marquette, Mich., City Drug Store, Ishpeming, Mich., who sell Dr. Leonhardt's Hem-Roid at \$1 per bottle, and guarantee it to cure.

MICHIGAN POLITICS

The next United States senator from Michigan will know that he has been in a horse race when he crosses the Michigan, a splendid clipping sheet containing eulogistic material suggestive of Senator Burrows' long and faithful service in the upper house of congress.

Henry M. Rose, secretary of the senate, has sent to the newspapers of Michigan a splendid clipping sheet containing eulogistic material suggestive of Senator Burrows' long and faithful service in the upper house of congress. It is a fine piece of work and is a tribute to the usual perfection with which Mr. Rose rounds out anything he undertakes. It suggests that Mr. Rose will be well up on the firing line in the Burrows canvass—in fact, if congress adjourns in time, it is said that the general senate secretary may be the active major general in charge of the Burrows field forces.

Mr. Rose, who has been spending several weeks in Grand Rapids, has left for Washington. The headquarters which he has opened in Grand Rapids will be continued in charge of the new man just chosen to be secretary of the Burrows campaign committee. It is said that this man will be Justin E. Worthington, one of the most astute political newspaper writers in the state. There is no question but what "Jack" is a live one and if he returns to Grand Rapids on Dec. 1 in the capacity indicated, it promises great Burrows activity in the already perturbed Fifth district.

A Burrows committee is being formed throughout the state. It will be headed by some prominent citizens from Kalamazoo, Senator Burrows' home city. One name prominently mentioned is that of Otto Kling.

The campaign of Congressman Townsend has thus far taken on more of the personal aspect. He has been covering both peninsulas of Michigan most industriously and his genial personality with his eloquent words, have made a great impression. The Townsend campaign, of course, is formally organized with ex-State Senator Arthur Tuttle at the helm; and the Jackson man is thus the first of the senatorial pair to come across with his formal organization.

Meanwhile, the fact remains that the nomination is to be really indicated in the state-wide senatorial primary; and yet there is just as much interest as ever in the personnel of the next state legislature which will face the duty of either ratifying the will of the people or flying in the face of the voters and standing by their personal pledges and predictions.

RECEIVER'S SALE.

Whereas, by an order made by the Circuit Court for the county of Marquette, in and for the state of Michigan, on the 18th day of October, A. D. 1909, in the cause therein pending in which James W. Cunningham is complainant and the Standard Ore Company is defendant, the undersigned, receiver of said Standard Ore company, was directed to forthwith proceed to sell and dispose of the property of every kind and nature belonging to said Standard Ore Company, subject to the approval of said court:

Now, therefore, in pursuance of said order, I, the undersigned, receiver as aforesaid, do hereby give notice that I shall offer for sale at public auction, at the front door of the court house in the city of Marquette, in said county of Marquette and state of Michigan, to the highest bidder, at eleven o'clock in the forenoon of the first day of December, A. D. 1909, the following described lands, situated in said county of Marquette and state of Michigan, to-wit:

The northeast quarter of section thirty-four (34), in township forty-seven (47) north, of range thirty (30) west. Said lands, together with all rights of action or claims in action of said Standard Ore Company against any and all persons will be sold in one parcel, as ordered by said decree, and subject to all outstanding liens, encumbrances, taxes and tax titles.

The receiver at such sale reserves the right to require a deposit of one-half the amount bid for said lands and the personal property to be made at the time of said sale and to remain on deposit with said receiver pending the final confirmation of said sale by the court, the same to apply on the purchase price in case of the confirmation of such sale, and to be returned to the bidder in case of the rejection of said bid.

Dated October 18, A. D. 1909. PAUL R. POTTER, Receiver of the Standard Ore Company.

## A TUSSELL WITH A PRISONER.

Under Sheriff Sheridan Has Desperate Battle With Jonas Vallitella.

Under Sheriff Phil Sheridan had the hardest battle of his official experience Sunday night at Ripley in making the arrest of Jonas Vallitella. The latter was complained of by his wife, who said that he had threatened to kill her and that she had fled in fear of her life. Under Sheriff Sheridan went after the man.

Vallitella was found at his home in Ripley, drunk and in an ugly mood. The under sheriff asked him to come along and Vallitella attacked him. Sheridan defended himself with his billy and knocked the man out cold three times. But each time Vallitella recovered and renewed the attack. He swung a chair, and it shaved Sheridan's head; he kicked the officer in the shin and hips, and fought like a demon. Then Vallitella secured in hold on the billy, and broke its wrist strap, leaving the officer without his weapon. Vallitella started to turn the billy in his favor and attacked the officer more fiercely than ever. Sheridan saw that ordinary measures were useless, and he pulled his pistol. Vallitella raised his hands, and the battle was over.

## DATA ON BOND LIABILITY.

Personal Obligations in Houghton County Reach a Large Amount.

Probably little thought is given by the majority of people as to how many bonds are filed during a year in the Houghton circuit court guaranteeing the honesty and fidelity of individuals in positions of trust. It would surprise those who have been signing bonds for their friends to know what liabilities they have assumed and are assuming for no consideration whatever, but which liabilities are assumed simply because they are "good fellows," or dislike to refuse the request of friends.

## NOTES OF HOCKEY NEWS.

Houghton's Players Already Chosen—Kaiser's Decision Liked at Calumet.

The meeting of the Houghton hockey club which was to have been held Sunday afternoon for the purpose of preparing for the season's sport did not take place. A conference of the club members, however, was held at the home of the club manager, Mr. J. A. Minnear, and it was decided to hold a meeting of players and club members before the season opens, however, as the public seems to want it.

## ONTOGON HARBOR MATTER.

Mass Meeting of the Citizens of the Village Held Last Night.

A mass meeting of the citizens of the village of Ontogon was held last night at L. P. Cozette's for the purpose of discussing the harbor matter. The intense interest shown in the matter was indicated by the large attendance.

# When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 21-cent stamps to Dr. Pierce to post cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers, in handsome cloth-binding, 31 stamps.

## DIABETES

We have the following unsolicited letter from James T. Douglas, Harrisburg, Oregon:

Harrisburg, Oregon, June 25, 1908.
John J. Fulton, Calumet, Cal.
Dear Sir: I have had Diabetes for over two years and was almost blind. Was very weak and could hardly walk. A friend of mine told me of the Fulton Diabetic Compound, and I have now taken thirty bottles and am feeling fine, and can say that I am sure I had not gotten relief in any way I would now have been under the sod. Hence, I can speak for your compound. It did the work for me. What will you charge me for three dozen?
Yours respectfully,
JAMES T. DOUGLAS.

Another—Same mail brought a letter from R. B. Fickling, the druggist in Blacksville, S. C., from which we quote: "I have had a customer who had Diabetes in its worst stages. I have gotten him out of bed on the Diabetic Compound and have run out. Send duplicate of last order."

Diabetes is rated the world over as incurable, but recoveries are being reported daily through Fulton's Diabetic Compound. You may ask how it is possible for a person to recover under the Fulton treatment when medical text books admit they have nothing for it.

Let us say in reply, that when the late John J. Fulton, discovered he had Bright's Disease and that the text books had no specific for inflammation of the kidney, which was the real difficulty, he set out in a new direction to evolve an emollient that would reduce inflammation of the kidneys all along the line from kidney trouble to Bright's Disease, even in the chronic forms, is now curable in about eighty-seven per cent of all cases.

## MILITARY BALL AT CALUMET.

The program of dances for the military ball to be given at the Calumet Light Guard Armory tomorrow evening, Thanksgiving eve, by the Calumet Engineers, G. A. R., Spanish-American war veterans and National Guard veterans has been arranged. The Calumet & Hecla band will play. The Armory is being very beautifully dressed and decorated for the evening, and the Engineers have begun work on the erection of the military bridge which is to be occupied by the band in the center of the hall.

If you desire a clear complexion take Foley's Orino Laxative for constipation and liver trouble as it will stimulate these organs and thoroughly cleanse your system, which is what everyone needs in order to feel well. Sold by all druggists.

## NEW WARRANT OUT FOR W. R. GREENLAW

WIFE OF DESERTING BROKER IS DETERMINED TO BRING HIM BACK TO MILWAUKEE AND HAVE HIM PROSECUTED.

Walter R. Greenlaw, the Milwaukee broker who is accused of swindling Philip Kennedy and other business associates, has not yet been apprehended, though the Milwaukee papers say that his wife is determined to bring him back to Milwaukee and have him put on trial on the charge of wife desertion. It is not known whether Greenlaw and his alleged ally, Edie Scott, are in San Francisco, Cal., or in Honolulu. The Evening Wisconsin had this to say of the proposed proceedings to be constituted against him:

"Mrs. Walter R. Greenlaw, deserted wife of the Milwaukee broker of whom it is alleged that he is living in San Francisco, Cal., or Honolulu, Hawaiian Islands, swore out a new warrant against her husband at 11 o'clock today charging wife desertion. A detective from the local department will probably start for the west for the man today.

"The swearing out of the warrant, which was done by Mrs. Greenlaw personally, followed immediately after a brief conference between Mrs. Greenlaw, District Attorney August C. Backus and Charles S. Thompson, Mrs. Greenlaw's counsel. At this conference the district attorney was convinced that Mrs. Greenlaw had raised sufficient funds to defray the expenses of bringing Greenlaw back to the city. "I am determined to have my husband brought back here, aid Mrs. Greenlaw directly after swearing out the warrant. "He has done me a great wrong and he shall be made to pay for it."

"Attorney Thompson declared at the same time that he was assured that Greenlaw had not left San Francisco and that he was in the coast city with Edie Scott, the woman whom Mr. Thompson had previously charged with having lived with Greenlaw in one section of Milwaukee for the last two years while Greenlaw's wife resided in another section. It is alleged by Mrs. Greenlaw and her counsel that Greenlaw divided his time about equally between the two women and led a double life."

Father Zuvich of Calumet yesterday filed a suit in Justice Avault's court against Radnik, the Croatian newspaper published in that village. He alleges that during June and July, this year, the paper was without an editor and that he took up the scissors and paste and guided the destinies of the sheet for two months, for which work he has received no remuneration. The case comes up before Justice Armit Thursday.

## FILES \$30,000 DAMAGE SUIT.

Martin Godzinski of Lake Linden Sues Tractor Company.

Martin Godzinski of Lake Linden, through his attorney, Joseph F. Hamblitz, of Houghton, yesterday filed a declaration in the Houghton county circuit court, opening a suit for \$30,000 damage against Houghton County Tractor Company.

Mr. Godzinski declares that in 1908 he was a passenger on a street car at Lake Linden and in getting off the car at what is known as Fisher's corner, he was hampered somewhat by bundles which he was carrying, the car was started before he had safely alighted and he fell to the ground. In falling, he declares, he broke his left joint, and from the injury he has never recovered. Mr. Hamblitz says that his client is now under treatment in Chicago and has been under treatment continuously since the accident.

## ARREST COMMERCIAL FISHER.

C. P. Sorenson of Calumet Charged with Fishing Without License.

C. P. Sorenson of Calumet was yesterday morning brought before Justice Brandt at Houghton, charged with using a launch for commercial fishing without a license. The charge was made by St. Clair Wilson, county game and fish warden.

Warden Wilson charged that Sorenson secured a license April 1 for the launch Regal of Calumet, and that in using it in commercial fishing within legal limits, he created no end of fun. Mr. Carroll, by the way, is mainly responsible for the revised edition of "The Alaskan," which ran for five solid months last summer in Chicago. Richard F. Carroll has been principal comedian and star in "The Mad and the Mummy," "The Belle of Mayfair" and many other prima donna, late of "Miss Bob White," and other big eastern musical organizations, has been given the part of Arlee Easton. John R. Phillips, very well known in the east in New York and Philadelphia productions, is still playing Richard Atwater, the grub soaked miser.

"I suppose everybody in this section knows of Gus Weinberg, who originated the part of 'The Burgomaster' well he has a great comedy part in 'The Alaskan' and along with Richard F. Carroll and Walsingham Watt, create no end of fun. Mr. Carroll, by the way, is mainly responsible for the revised edition of 'The Alaskan,' which ran for five solid months last summer in Chicago. "Manager William P. Cullen has been very careful in organizing this year's company and the large chorus of excellently trained voices stands out very prominently. Quite a good deal of interest is now being taken in the train of genuine Esquimo dogs introduced in 'The Alaskan.' The dogs are the same as used by Doctor Cook and Commander Peary at the north pole. 'The Alaskan' does not play Calumet, the bookings in this section including Marquette, Ishpeming and Hancock, thence to Duluth and Winnipeg and west to the coast. I really think your people will like this year's company and production as the entire Chicago presentations will be brought to Ishpeming intact."

C. B. ULRICH Agent: Art Metal Construction Co. OFFICE AND BANK FIXTURES. HANCOCK, MICH. The New York market opened generally lower and an moderately heavy trading about held its own. American Smelters was a feature. After opening two points above Saturday's close it sold down in sympathy with the balance of the list. New York looks for lower prices. The features in the Boston market were Boston Consolidated, Lake Copper and Superior, gaining 1/2, 5 and 2 points, respectively. Greens, Grimes and North Butte were weaker, and sold down fractionally on heavy realizing. Isle Royale advanced a point. The balance of the list was quiet with the prices about unchanged. Calumet & Arizona declared the \$1 regular dividend. The cubs were quiet and slightly weaker. Boston has the following on copper: The United Metals Selling company has just put into effect a moderate advance, naming 13 3/4 cents for electrolytic brands. This makes the third advance within a few days from 13 cents. Sales of Lake copper at 14 cents, thirty days, represent the best figure for months. There is a good demand for this brand, and with Calumet & Hecla out of the market there appears a better chance for the smaller producers to get top prices. Two weeks' sales by all the producers and selling agencies are conservatively figured at approximately 200,000,000 pounds. The wire manufacturers have been quick to follow the lead of the copper selling agencies and have just advanced the base price for copper wire to 15 cents per pound. This is the second advance of 1/2-cent a pound put into effect by the wire people this week. Yesterday's prevailing prices were: Asked. Yesterday's temperature: Seven a. m. 23 degrees; noon, 26; 7 p. m., 21. Maximum 27 degrees; minimum, 22. Today's forecast: Snow Tuesday; stationary temperature.

L. A. Auten of Newberry was in the city on business yesterday.

The Baptist ladies will conduct a pantry sale at the church tomorrow afternoon.

Owing to Thursday being Thanksgiving, most of the stores will be open Wednesday evening.

Employees of the South Shore railroad will be paid today and the stores will be open this evening.

Kirby Bailey and Frank Martin have returned from a hunting trip near Sigel's camp with three deer.

Dr. Favill and Horace K. Tenney went to Chicago last night, after a hunting trip near Huron Mountain club.

Andrew Darra and Will Brandon have returned from Darra's camp on Garlic river, with four fine bucks, one of which weighed 250 pounds.

The ladies of the Swedish mission society will hold an auction sale at Kough's Hall this evening. Refreshments will be served.

Hunters returning from the woods report that a hard crust has formed over the snow, making it hard to hunt, as the deer can bear a person a long distance away.

A turkey supper will be served by the ladies of the Swedish Lutheran church in the church parlors Thursday evening, beginning at 6 o'clock. All are cordially invited.

Local meat dealers received their first consignment of Thanksgiving poultry yesterday. The quality of the birds appears to be excellent and they will sell at practically the same prices as last season.

The ladies of the Methodist church will meet in the church parlors at 2 o'clock this afternoon for the purpose of working on the vestments of the new choir. Miss Oltman will meet the choir at 7 o'clock this evening at the church.

On account of the Masonic party to be given on Thanksgiving night, the Assembly committee have decided to postpone the first of the series of Assembly dances which had been fixed for Thanksgiving night, until Wednesday, December 1, at Fraternity Hall.

Reward for Brownell—Notices were posted in this city yesterday, signed by the sheriff of Lapeer county, offering a reward of \$300 to the finder of Harry C. Brownell, dead or alive, the Pontiac, Mich., hunter who has been missing since Nov. 9. The notices state that Brownell may be dead or he may have gone insane and be at large in the woods in that condition.

Clark Funeral Today—The funeral of the late Finley Clark, who died at St. Mary's hospital Sunday, will be held in the chapel of Hager's undertaking rooms at 3:30 tomorrow afternoon. Mr. Clark's sister-in-law, Mrs. Frank Brandon of Birch, came to the city yesterday and his son of Grand Marais is expected today. Mr. Clark was foreman of No. 4 camp at Birch before being taken sick and was held in high regard by his acquaintances.

Found Boys in Camp—When George Freeman arrived at his camp on the Carp river Sunday he found two Marquette boys in possession and making themselves at home. Mr. Freeman reported to the officers that his camp had been broken into, and the boys were brought before Justice Byrne yesterday afternoon. The boys claimed that they had gone into the camp to get warm and intended to do no damage. The boys will be given a hearing today.

An Auspicious Opening—The annual fair given by the ladies of the cathedral parish in Fargo auditorium opened under the most auspicious circumstances last evening, a larger than usual first night crowd being in attendance. The ladies have made unusual preparations for the fair and there are several wonderfully attractive booths. An untold number of useful and fancy articles are on sale at reasonable prices. Supper will be served by the ladies of St. Agnes' court at 5:30. The accident at the electric light plant does not affect the lighting of the auditorium.

Shriners Meet Dec. 8—Calls have been issued for a ceremonial session of Ahmed temple, Ancient Order of the Nobles of the Mystic Shrine, to be held in Marquette Dec. 8. It is also announced that plans are being made to attend the funeral council at New Orleans on April 15, and if possible a special car will be secured for the upper Michigan men.

Low rates have been secured for the trip and the visitors would have an opportunity to witness the annual Mardi Gras for which New Orleans is famous. Further plans will probably be laid at the December meeting.

Ore Badly Frozen—Ore traffic was impeded yesterday by the cold weather, Sunday and Monday being the first time this season that there has been any trouble from ore freezing in the cars. At the L. S. & I dock, especially, a number of cars were left loaded since Saturday and considerable difficulty was experienced in getting the ore into the dock. At the South shore docks, no ore is now being loaded in the cars or dumped in the docks, until the boat that is to take it down the lakes arrives. In this way, trouble from ore freezing is avoided, though it delays the shipping to some extent.

Will Estimate Cost—R. C. Young of the water board received a telegram yesterday from T. F. McGilvary of the Duluth Engineering company and city engineer of Duluth, stating that he would like in Marquette today to look over the proposed extension of the water works intake. Mr. McGilvary from his investigation and the figures already at hand will shortly make an estimate of the cost of the improvement. The Duluth Engineering company has had wide experience in providing municipal water plants for Lake Superior cities, among others, having built the water plant at Duluth and Two Harbors.

Elaborate Preparations—The members of Moose. Hose company are making elaborate preparations for their Thanksgiving ball to be given in Fraternity Hall Wednesday evening. The decorations were completed yesterday, and the hall now presents a truly beautiful appearance. Red, white and blue is the color scheme, which has been set off with

### several striking effects.

The ceiling has been decorated with narrow red, white and blue stripes, arranged in checker board style, and the side walls have been beautified with liberal use of painting of the same color. Other features are several paintings, representing fishermen fighting fires, and a handsome electric pipe, M. F. D., below which is suspended an immense bell. Supper will be served in the lodge rooms above the hall by the ladies of Our Lady of Victory court. One of the features of the program will be the grand march, which will take place about 10:30.

Former Marquette Engaged—Yesterday's Chicago Tribune contained the announcement of the engagement of a former Marquette boy, the son of Mr. and Mrs. John F. Carey, who moved from here to Escanaba a few years ago. John Carey is a brother of Thomas Carey, the mail carrier. The Tribune says: "Miss Maude A. Curran of Brockville, Ont., was acting as nurse for her father at Mount Clemens, Mich., last spring when she met Clarence F. Carey, a graduate from Michigan university, who was taking a rest there preparatory to fitting a part of the burden of managing big mining and lumber interests in the west from the shoulders of his father. The meeting led to correspondence between the young people after Mr. Carey came to Spokane, and has resulted in an engagement that Miss Curran recently disclosed to a few friends. The wedding probably will be celebrated shortly after New Year's at Corpus Christi church, Grand boulevard and Forty-ninth street. Miss Curran is the daughter of Mr. and Mrs. James J. Curran of Brockville, Ont., and is a graduate from Northwestern university. Mr. and Mrs. John F. Carey, the young engineer's parents, until recently were residents of Escanaba, Mich., until the extensive western holdings of Mr. Carey compelled him to move to Spokane. The son was a member of the Phi Kappa Sigma fraternity."

### A COMPLETE SUCCESS.

Scottish Evening at Baptist Church a Delightful Entertainment.

The Baptist church was well filled last evening to hear Dr. Tupper's lecture on Robert Burns and other numbers of a delightful program that went to make up what was designated as a "Scottish Evening." The program opened with a pipe organ recital by Miss Clara Hicks, in the course of which "Blue Bells of Scotland," "Annie Laurie," "Robin Adair," and several other familiar Scotch songs were rendered. Miss Hicks' efforts were enthusiastically received. Vocal solos by Misses Bergh and Otman and a reading by Mrs. Bushmore were of a high order of excellence.

Dr. Tupper sketched the life of Burns—his humble birth in 1759, his early poverty, his heroic struggles, his bitter disappointments, his splendid genius, his poetic power, his worldwide renown. He spoke of him as specially nature's poet, Scotland's poet and the poet of love. He was contrasted with Tennyson, Browning and Wordsworth. Specimens of his finest poems were presented, as "Tam O'Shanter," "Castles of Stirling," "To a Mouse," and "To a Louse." A beautiful pictorial tribute to Burns by Longfield was recited.

INSURE WITH PETER WHITE & CO. Upper Peninsula

Will Have Plant in Canada—Announcement is made that the officials of the Escanaba Manufacturing company are completing arrangements for the establishment of a Canadian branch factory. The plant will be located not a great distance from Montreal and the output will be sufficient to supply the entire Dominion market. Wood-butter, fishes, pie plates, clove-pins and broom handles will be turned out with machinery similar to that installed in the Escanaba factory. The idea of establishing a Canadian factory has been under consideration for some time, and it is now learned that all plans for the work have been fixed and some of the Escanaba employees will leave for Montreal this week.

Checks Found Worthless—A number of Marinette and Menominee saloon men have been the victims of a swindler during the past few days. Five Marinette liquor dealers and one Menominee saloon man have suffered to the tune of fifteen dollars each. The money was secured from them through the medium of checks on the First National bank of Marinette. They were signed by Robert Hamilton and drawn in favor of C. H. Nelson. Cashier Jacob Wittig of the bank pronounced them all worthless. No such man as Robert Hamilton has an account there. The alleged forger represented himself as C. H. Nelson, an employee of the Peninsula Box & Lumber company, and said that the check had been given him for work performed. He was a rather good looking man according to the victims, and had a suave, convincing manner. The number of checks cashed may increase with later reports. There is no trace or clue to "Nelson's" present whereabouts. Among the saloon men who cashed the worthless checks were Sid Rogers, Duff Prudum, Andrew Behuke and Ed Hachey of Marinette and Richie Bell of Menominee.

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:

The market today opened barely steady, and then liquidation began to take place. There is heavy selling of the whole list, and many stop orders were caught. Prices broke sharply, and while the decline was gradual, there was a lot of stock thrown on the market.

NEW HOPE FOR PORTO RICO

Relief Is Found in the Eradication of the Hookworm.

Discovery That the Condition of the People Is Due to Disease and Not Natural Inclination Is Very Important—Progress Is Difficult and Slow.

Washington, Nov. 22.—One of the literary curiosities of the war department is a pen picture of the Porto Rican native as he was before the discovery of the hookworm had explained to the world that it was disease, and not climate and "natural cussedness," that had made him one of the most abject specimens of his race on earth.

A Cry of Despair. This pathetic record of the Porto Rico—that was in the hand of Dr. Cayetano Coll y Toste of San Juan and is part of a prize essay giving a general view of Porto Rican civilization in 1797, when the island was celebrating the one hundredth anniversary of its siege by the English.

But alas, if it is true that we have made such progress comparing the final pictures of these last two centuries; if it is true that our population has increased so greatly that from 138,759 persons it has increased, according to the latest estimates, to 802,439 inhabitants, unfortunately in the background of such a state of culture there appears a black stain like a blot on a picturesque setting.

Now Science Has Explained. Science now has made clear why the conditions so graphically described by Dr. Toste existed. The story of the discovery of the hookworm, the "germ of laziness," and of the wonderful results of its eradication, is now being told in the United States Army and Navy.

Paine, Webber & Co.'s Wheat Summary. Paine, Webber & Co.'s Chicago's correspondent here today says concerning yesterday's wheat market:

Many things contributed to the strength of the market during the morning. Liverpool was firm and higher. Back of that was the decrease in Liverpool stocks for the week and the falling down in the world's shipments from 14,000,000 to 12,800,000 bushels, as called this morning. The English market, too, reported the offerings of Manitoba wheat light. There was a cable report on Russian crop conditions, claiming a decreased acreage in the north and a bad outlook in a portion of the Volga district.

Paine, Webber & Co. had this to say of yesterday's cotton market: Today's morning report showed a very confident Alabama and North Carolina on an established basis of shipping under last year. The aggregate figures were hardly as small as looked for, but a careful analysis of the report confirms our predictions under the eleven million-bale mark, for the reason that it is unthinkable that the percentage gained to date is not in excess of the 73.3 per cent gained to this date last year.

### THE LATE ELMER E. JEFFREY.

#### TO EXPLORE WEST OF MICHIGAMME

MINING CORPORATION RECENTLY ORGANIZED BEGINS WORK AT THE STEWART, WITH CAPT. J. CHRISTOPHER IN CHARGE.

The Catherine Mining company, recently organized by upper peninsula and Eastern capitalists, has begun exploring a tract west of Michigamme. The company has acquired ownership of the Stewart mine together with an extensive acreage in the immediate vicinity. Martin Voetsch, a well known L'Anse-au-Loup man, and Captain John P. Christopher, a veteran mining man of this range, but who has been in the West for some years past, are largely interested in the new corporation, and Captain Christopher is to have charge of the operations. A force of about fifteen men is now engaged in preparing for the exploratory work, which will be conducted throughout the winter on a most systematic scale. Captain Christopher, who had charge of the Michigamme mine for a number of years prior to its closing down, is well informed regarding the mineral formations in the vicinity of the Stewart, and it is thought that if there is any ore there he will find it. A series of test pits will be put down and it is understood that a diamond drill will be put in operation within the next few months. At the start the exploratory work will be conducted largely on the strip of land between the Portland and the Stewart mines. Both hard and soft ores have been found on the tract, the former on the north end and the latter on the south end. The Stewart shaft, put down several years ago, penetrated the hard ore formation. The ore on that part of the property is too far from surface to be explored successfully by test pits, so it is in this vicinity drills will be employed.

The deceased was born in Cleveland, O., Feb. 20, 1876. He moved to Green Bay with his parents when quite young, living there until he accepted the position at the Lake Argonne. He was married eight years ago to Miss Anna Witzel of Deperre, Wis., who survives him. Other immediate relatives are his mother, Mrs. Flora Jeffrey, and two brothers, George J., of Vicksburg, Mich., and Clarence, of Green Bay, and one sister, Mrs. Andrew Wishart of Green Bay. His father died when he was a small boy. His mother and brother Clarence were at his bedside when he passed away.

Owing to the illness of the wife of the deceased, who has been in a critical condition and under the care of a physician and nurse for several days past, the remains will be placed in the vault in the local cemetery, until such time as she is able to accompany them to Green Bay, where they will be interred in the family lot. The funeral will be held tomorrow afternoon at 2 o'clock with services at the house, corner Fourth and North streets, conducted by Rev. M. Allen, pastor of the Presbyterian church. Several relatives and friends will arrive today from Green Bay to attend the obsequies.

#### UNIQUE WINDOW DISPLAY.

A flock of five turkeys, all large and beautiful birds, in one of the windows of the Gately store, in the Robbins block, attracted a great deal of attention yesterday. As can be seen by the firm's advertisement in this issue, the company will give away a turkey with each \$15 purchase of a ladies' suit or cloak, or gentleman's suit or overcoat, between now and the close of business Wednesday evening. Manager L. A. Snyder, who purchased something like 100 live turkeys for the sale, yesterday said he doubted very much if he will have enough to meet the demands of the patrons, judging from the way the sale had started out. In addition to offering this liberal inducement to the buyers the Gately company offers terms that are highly favorable to either the cash or credit trade.

"Man, man," said Casey, "What are you after don't that seegar? 'Tis a fine seegar, a fine seegar. Have ye no appreciation of a fine seegar?"

"The truth is," replied Hogan, as he chewed off another inch of his cigar, "I've bin smoking a pipe so long I can't tell th' difference betwixt a five cent a tin."—Pittsburg Chronicle-Telegraph.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### FOR THANKSGIVING.

Meetings in the Swedish Mission church of Negaunee will be held as follows:

Thanksgiving eve, the 24th, at 7:45. Rev. E. Brolund will preach. Thanksgiving day: Thanksgiving service at 10:30 a. m. An auction for the benefit of our home mission will be held in the evening at 7:30. Let us all come—not solely for the things to be sold, but—for the mission. Some people say: "Negaunee's a bad place." "Never mind," we say, "not too bad to be made good." We all love to help for the true betterment, for nothing else.

"The so-called Christian who hasn't something important to do for God in his everyday life, something that will count for Christianity, something that will make the world better, if ever so little, is that most detestable of all brands—a sham Christian."

sive, real, militant Christianity abroad in the land. Let them open the locked doors of their churches and keep them open."

"The sparring, side-stepping Christian is of no use in active service. In these times we need Christians with a punch in either hand and a disposition to force the fighting."

"Aggressive fighting is the sort that wins for Christianity," says Gipsy Smith, and we add, "Then we will have a Thanksgiving day, not a turkey day."

### LOCAL LACONICS.

Harry Trovarrow shot a nice deer in the Swaney district Saturday.

The annual meeting of the board of education will be held next Friday evening.

High mass will be celebrated at St. Paul's church Thanksgiving morning at 8:30 o'clock.

Ernest Hawke arrived home Sunday from the copper country, where he spent several days.

Charles Muck, Sr., who spent the past week or more with his son-in-law, D. D. Smith, and family, at Palmer, came in here yesterday.

J. Silverstein of Fond du Lac will conduct a cloak and fur sale on Monday, Tuesday and Wednesday of next week at Mrs. M. E. Arlani's store, in the Pearce block.

The services at St. John's Episcopal church Thanksgiving day will be held at 10:30 a. m. and 7:30 p. m. The offertory at both services will be for the diocesan missions.

The funeral of the late Peter Tenhunen, who died suddenly last Friday, was held Sunday afternoon, with interment in the local cemetery. About an hour after the funeral a telegram was received from the brother of the deceased, who is located at Black Hills, stating that he was on his way to Negaunee. It is expected that he will arrive here today.

The Jones & Laughlin company has shipped twenty forty-ton cars of ore from the open pit at the Rolling Mill mine since starting work there a few days ago. All of the ore has to be loaded by hand, so that it will probably take a couple of weeks before the last of the 2,000 tons ordered will go forward. The work of loading was delayed on account of the necessity of building a 2,000-foot spur to the pit.

John F. Allison, a former resident, who is now located in Detroit, departed for that city Saturday night after spending a couple of days in the city. Mr. Allison's oldest son Carl is threatened with the loss of his sight. The boy's sight began to fail him some time before the family left here and for six months he had been unable to attend school. He has been treated by the best oculists in the lower peninsula but none of them have thus far been able to help him.

A special program will be given Thanksgiving afternoon at 2:30 o'clock at the Bijou theater, in the Sundberg block. Aud Custer, the manager, will sing a special song, entitled "Don't Take Me Home." This song has a pattering chorus and will be one of the best that Mr. Custer has ever offered here. The Bijou had a record-breaking business Saturday night when four performances were given to packed houses. There has been quite a substantial increase in the patronage since the management decided to change the pictures every evening.

### WINTER WEATHER STIMULATES BUSINESS

#### NEGAUNEE BUSINESS HOUSES HAVE HAD EXCEPTIONALLY FINE TRADE SINCE THE SNOW STORM A WEEK AGO.

The change in the weather conditions last week greatly stimulated the mercantile business in this city, as well as in other parts of the upper peninsula. The increased trade was particularly noticeable in the stores where winter garments are handled. In not a few of the business houses there has been almost a continuous rush for various articles of wearing apparel ever since the snow storm of a week ago today. The paydays the latter part of last week helped business considerably, but the merchants believe that the change in weather has had much to do with giving them an increased trade. Many had held off purchasing their heavy garments, as they really had little need for them, until the storm set in. With the exception of Saturday, real weather has prevailed ever since Tuesday. On Saturday it looked as though the snow would disappear but the temperature has remained around the 20 above zero mark since.

One of the local merchants yesterday said that Saturday was one of the best days that he has had in the history of his business, and he anticipated that yesterday's receipts would fall very little short of the total taken in Saturday. He said that 75 per cent of the business was in the furnishings department, and many overcoats, suits, shoes, caps, mittens, rubbers, etc., had been sold. He also stated that the holiday business has started and that many people are making their selections while the stocks are unbroken. Many articles have already been laid away for delivery just before Christmas, and from present indications they will be a record-breaking trade this season. The Negaunee merchants are well prepared to take care of the holiday trade, as all have put in larger stocks than they have ever before carried, in anticipation of an increased patronage. Many new articles are to be found in the holiday display, and it is already evident that a more expensive class of goods will be sold than last year.

Although nearly six weeks remain before the arrival of Christmas, the sending of presents by mail has already commenced. Mysterious bundles are being received at the postoffice, most of them consigned to foreign countries, as this is a little early for the opening of domestic business. The postoffice employees here, as well as elsewhere throughout the country, advise patrons to come early and avoid the rush, as the business is usually so great a week or so before Christmas that packages are frequently delayed in reaching their destination. A postoffice employee said that if more people would send their gifts earlier, marking on the wrapper that they are not to be opened until Christmas, there would be less confusion during the heavy rush a few days before Christmas and there would be no danger of packages being lost. Packages, and especially those destined for foreign countries, should be in early to assure prompt delivery. Christmas gifts sent by mail within the next two weeks or so to European points will surely reach their destination in ample time.

By arrangements with the European countries where the parcel post exists, the United States are given the advantage of the low rate of twelve cents per pound or fraction thereof. Practically every European country, with the exception of Russia, now has the parcel post law entitling them to the low rate of mail exchange.

The express men also like to see the Christmas movement start early. The employees of the express offices are already preparing for the rush. Instructions have been sent out from the headquarters of the different companies to the local offices, advising the employees to urge their patrons to send their packages early, in order that the business will be distributed over as long a period as possible.

### DON D. SMITH SELLS OUT.

Ownership of Palmer Store Has Been Acquired by Matt Kovisto.

D. D. Smith, who has conducted the general store at Palmer for several years past, yesterday sold out to Matt Kovisto, who a few weeks ago disposed of his grocery business in Marquette. The deal for the purchase of the Palmer enterprise had been pending for some time and Messrs. Kovisto and Smith spent the greater part of last week taking an inventory of the stock, which comprises a general line of groceries, meats, clothing, gent's furnishings, dry goods, provisions, etc. It is quite certain that Mr. Kovisto will do a big business as he is a very competent business man, having had an extensive experience in various branches of merchandising. There never was a time in the history of the Cascade range when the outlook for a first-class mercantile establishment at Palmer was better, as the number of men employed there will increase from this time on. During the past few years many Finnish people have located on farms in and near Palmer, and practically all of them have been patrons of the store during the years Mr. Smith has conducted it. Mr. Kovisto is personally acquainted with most of these people. The new proprietor intends to increase the stock wherever necessary, with a view to meeting the demands of the trade, which promises to increase from this time on. Mr. Smith has not yet decided on his plans for the future, though it is possible that he will engage in business of some sort in Negaunee. He made a success of his Palmer enterprise and he disposed of the business to good advantage.

### CONCERT THANKSGIVING EVENING

Negaunee Light Infantry Band Will Give Annual Entertainment.

The members of the Negaunee Light Infantry band are working strenuously in the interest of the organization's first annual concert, to be given Thanksgiving night at McDonald's Opera House. The band has made excellent headway since it was organized a few months ago and from present indications it will not be long before it will be one of the strongest musical organizations in this section. Most of the members have played in bands heretofore, and some difficult selections are now being played, as will be seen from the numbers on the program. At the conclusion of the entertainment there will be dancing for a few hours. The members are selling tickets, which include both entertainment and dance, at fifty cents each. The program will be as follows:

- Selection: Mignonne
- Band.
- Vocal solo, selected.
- Coronet solo, serenade "Ours Response"
- Master John Paul.
- Vocal solo, "Bonnie Jean"
- Miss Marie McDowell
- Vocal solo, selected.
- William Bath.
- Vocal solo, "I Am Tying the Leaves"
- So They Won't Come Down
- Miss Dionne.
- Selection "The Little Duchess"
- Band.
- Claironet solo, selected.
- Albert Levine.
- Vocal solo, selected.
- Miss Julia McAuliffe.
- Flute solo, "Dance of the Butterflies"
- Thomas Arvenyak.
- Vocal solo, "Two Grenadiers"
- August Raatikainen.
- Violin solo, overture "Crown of Gold"
- Gilbert Christensen.
- Vocal solo, "The Letter Edged in Black"
- Miss Eva Lundron.
- March
- Band.
- Sweet and boiled cider at Haupt's grocery. (11-1-1f)

### IS SECRETARY-TREASURER.

Dr. A. W. Haidle arrived home Sunday from Ann Arbor, where he spent a week attending the sessions of the board of dental examiners, of which he is a member. Dr. Haidle was elected secretary-treasurer for the ensuing year and Dr. A. B. Robinson of Grand Rapids, was chosen president. Nineteen applicants for state licenses were examined and all but two of the members passed.

Sooner or later people tumble to the fact that the banana peel is a nuisance.

# DON'T FORGET THE PLACE. FASHION SUIT COMPANY

MANY RESIDENCES LEFT IN DARKNESS

LARGE WATER WHEEL AT ELECTRIC POWER PLANT SERIOUSLY DAMAGED YESTERDAY.

TWO DAYS TO MAKE REPAIRS

Patterns and Castings for Gates on One Side Must Be Made Before More Than Very Limited Service Can Be Furnished.

The residence portion of Marquette was in darkness and the down town section but poorly lighted after 5:15 o'clock last evening owing to a serious break in the large water wheel at the Dead river electric power plant.

As soon as the water could be shut off, the arc lights, which were on the new and small wheel, were extinguished and the down town incandescents were lighted from that wheel.

Upon examining the broken wheel, it was found that the entire gate mechanism on one side had been ruined, necessitating extensive repairs which it will take at least two days to make.

What caused the accident is not known. There was no evidence of any stick or foreign substance having gotten into the wheel and it is not thought such a thing could have occurred.

It was stated last night that the wheel could not be repaired within two days and two nights at the earliest, and until the repairs are made the residence sections will be without light, as last night.

The sudden cutting off of the residence electric lights placed many homes of the city in a serious predicament. Many families depend entirely on electricity for lighting and there was a rush for lamps and candles at the stores where such things are kept.

Christmas Next in Order. Early Shoppers Already Beginning to Consider Holiday Purchases.

There are exactly twenty-seven shopping days from now until Christmas. The wise shopper is beginning to realize this fact, and to nibble at the choice suitable novelties which are finding their way to the various counters in the stores.

Several new merchandise advertisements have been added, and an entire general going over of everything makes "The Alaskan" a welcome visitor. The pie in its present form, it will be remembered, has had a five months' run in Chicago, and was voted the best musical comedy ever produced in many years.

Parland-Newhall Concert. The Parland-Newhall company, which is to make its first Marquette appearance at the opera house on Wednesday evening, is undoubtedly the greatest quartet of the kind now upon the platform.

SINGLE HANDICAP CONTEST.

Some High Scores Made on the Guild Hall Alleys by New Bowlers.

The single handicap bowling contest at the Guild Hall alleys was started last week and is proving a decided success. Those who bowled last week and their handicaps were as follows: B. Fred, G. Preston, C. Pondill, Arthur Pondill, Ed. Quarter, W. Robertson, J. Willis and A. Wheeler, scratch; F. Keppler, 5; G. Brotherton, B. G. Burt, E. Hudson and A. W. Miller, 10; and L. Lindstrom, 15.

Some surprisingly good scores were made in spite of the fact that most of those entered had not taken part before in a contest and it is evident that the Guild Hall is developing some new bowlers who will be heard from in the future.

The individual averages for the first week are as follows: F. Fred, 183; E. Quarters and A. Wheeler, 182; C. Pondill, 181; G. Brotherton, 178; E. Hudson, 174; A. W. Miller, 168; J. Willis, 167; F. Keppler and L. Lindstrom, 158; N. Stewart, 152; W. Robertson, 149; B. G. Burt and G. Preston, 144; C. Pondill, 142.

THEATRICAL.

"The Alaskan."

An appropriate offering is the tenet sole musical comedy, "The Alaskan," which comes to the opera house tonight. The piece has been entirely revised and "musicalized" by Richard Carroll and Gus Weinburg, who have taken care, in the general revision, to equip themselves with strong parts, so much so that now the laughter is incessant from rise to fall of the curtain.

Principle Is Wrong. "It strikes me that the principle of restricting the slaughter of deer to a few days each year is a mistake. Granting that the shooting could be restricted to that season, it strikes me that as many if not more sportsmen go into the woods during that season as at any other time, in addition to the resident hunters. What chance do the deer have, with a camp of men every few miles in all parts of the woods, one hunter chasing them right into the rifle range of another?"

Fewer Non-Resident Hunters. "Were there an open season, comparatively few non-resident hunters would come here to hunt, as there would be no particular time to come and the fact that there were deer here would not be advertised. Most of the deer killed would be killed by resident hunters and farmers, who hunted because they wanted meat, not merely for the so-called sport of killing. As it is now, there are probably as many deer killed out of season as in season—some by farmers and sportsmen who think it their right to kill what they please on their own property (and there is some justice in that argument), others by persons who have no regard for sportsmanship or laws."

But the greatest objection of all to the present closed season law is the number of human lives that are sacrificed to the sport every year. We had a great deal better have no deer here at all, than to have so many persons shot as this season. In my opinion, one man's life is worth more than all the deer in northern Michigan. With an open season there would be very few accidents, as what few hunters there were in the woods at any one time would be widely scattered, and at the same time the deer would have a much better chance for life, for they could make a getaway without running right into some other hunter."

HUNTER ADVOCATES OPEN DEER SEASON

BELIEVES NO MORE WOULD BE KILLED ANNUALLY AND WOULD SAVE MANY LIVES.

ALL HUNTING AT ONCE

Result Is That Deer Have Little Chance for Life and Danger of Accident Is Increased.

Speaking of the shortcomings of the present deer laws, several Marquette sportsmen expressed themselves yesterday as of the opinion that the annual loss of life would be greatly reduced and that no more deer would be killed, if there were an open season all the year around. That the present laws have not worked to increase the number of deer in the upper peninsula and that the short season, bringing a horde of hunters into the woods at once, is taking an immense toll in human lives each year is evident to all who have made anything like a careful study of the situation.

"Years ago when it was legal to kill deer at any time of the year, it seems to me that fewer of the animals were slaughtered than now," said a prominent Marquette man yesterday. "I can remember when comparatively few local hunters went after deer more than one or two days in the year at the most, and when lower peninsula hunters in his locality were practically unknown. There wasn't any talk about deer being scarce in those days either and it was rarely indeed that a hunter was shot by another."

Principle Is Wrong. "It strikes me that the principle of restricting the slaughter of deer to a few days each year is a mistake. Granting that the shooting could be restricted to that season, it strikes me that as many if not more sportsmen go into the woods during that season as at any other time, in addition to the resident hunters.
